READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

**SUBSCRIPTION INFORMATION: (717) 766-0211
GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GENERAL ASSEMBLY

Recent Actions during the 2004 Regular Session of the General Assembly

The following is a summary of recent actions of the General Assembly during the 2004 Regular Session.

<i>Doc. No.</i>	<i>Date of Action</i>	<i>Bill Number</i>	<i>Printer's Number</i>	<i>Effective Date</i>	<i>Subject Matter</i>
2004 GENERAL ACTS ENACTED—ACT 001					
001	Jan 12	HB1426	PN1994	immediately	Urban Redevelopment Law—redevelopment contract provisions

Effective Dates of Statutes

The effective dates specified above for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the *Pennsylvania Consolidated Statutes* provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the Laws of Pennsylvania are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the Laws of Pennsylvania to each law judge of the courts, to every county and public library of this Commonwealth and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, State Records Center Building, 1825 Stanley Drive, Harrisburg, PA 17103, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania."

PROPOSED RULEMAKING

DEPARTMENT OF AGRICULTURE

[7 PA. CODE CH. 104]

Sheep and Lamb Marketing Program; Wine Marketing and Research Program

The Department of Agriculture (Department) proposes to delete Subchapter C (relating to sheep and lamb marketing program) and add Subchapter F (relating to wine marketing and research program) to read as set forth in Annex A. The Pennsylvania Sheep and Lamb Marketing Program (Sheep Program) is no longer in existence. Therefore, Subchapter C is unnecessary. Proposed Subchapter F provides the Pennsylvania Wine Marketing and Research Program (Wine Program) needed regulatory authority, while providing affected wine producers guidance as to their obligations to the Wine Program.

Statutory Authority

The Agricultural Commodities Marketing Act (act) (3 Pa.C.S. §§ 4501—4513) provides the legal authority for this proposed rulemaking. Both the Sheep Program and the Wine Program are agricultural commodity programs established under authority of the act. Section 11 of the act (3 Pa.C.S. § 4511) authorizes the Department to promulgate regulations necessary to enforce the provisions of any marketing program established under its authority.

Purpose

The proposed rulemaking deletes Subchapter C. Due to the termination of the Sheep Program, Subchapter C serves no purpose.

The proposed rulemaking also affirms the obligations of affected wine producers with respect to the Wine Program, provides a mechanism for accounting and payment of producer charges and establishes a mechanism for the collection of producer charges from affected producers who do not pay their fair share to support the Wine Program.

Background

The act authorizes the establishment of an agricultural commodity marketing program through a referendum among affected producers of the agricultural commodity involved. The Wine Program was established through a referendum among persons who produce or sell wine under authority of a limited winery license issued in accordance with the Liquor Code (47 P.S. §§ 1-101—8-803).

The production of wine is closely regulated. Holders of limited winery licenses are required to report their wine production and sales to the Liquor Control Board. This production information assists the Wine Program in calculating the producer charges owed it by each affected wine producer. The producer charges are 15¢ per gallon of wine sold within a particular January 1—December 31 marketing season.

The proposed rulemaking emphasizes the obligation of an affected wine producer to account for and pay the appropriate producer charges to the Wine Program and

provides the Wine Program a mechanism by which to pursue collection of unpaid producer charges.

Need for the Proposed Rulemaking

The proposed rulemaking is necessary for the operation of the Wine Program and makes extensive use of language from existing regulations for other act-based agricultural commodity marketing programs. The Department is satisfied of the need for the proposed rulemaking.

Overview of the Major Provisions of the Proposed Rulemaking

Proposed §§ 104.73 and 104.74 (relating to producer charges; and responsibility for payment of producer charge), respectively, set forth the formula for calculation of producer charge amounts and the responsibility of an affected wine producer to pay these charges.

Proposed § 104.75 (relating to accounting and payment) describes the annual production verification statement forms by which an affected wine producer is to verify the quantity of wine produced within a given marketing season. It also describes the procedures for payment of producer charges and allows for the imposition of a penalty of between \$100 and \$5,000 against affected producers who are delinquent with payment.

Affected Individuals and Organizations

There are approximately 70 holders of limited winery licenses at present. The proposed rulemaking affects these persons.

Fiscal Impact

Commonwealth—The proposed rulemaking imposes no costs and has no fiscal impact on the Commonwealth.

Political Subdivisions—The proposed rulemaking imposes no costs and has no fiscal impact on political subdivisions.

Private Sector—The proposed rulemaking imposes no costs and has no adverse fiscal impact upon the private sector. Although the proposed rulemaking references the 15¢ per gallon producer charge, the charge has been established through a referendum among affected producers in accordance with the provisions of the act. The proposed rulemaking repeats this existing obligation. The proposed rulemaking does not create it. The proposed rulemaking helps to fully fund the research and marketing efforts of the Wine Program. Although this is expected to have a favorable economic impact upon this Commonwealth's wine production industry, this benefit is not readily quantifiable.

General Public—The proposed rulemaking imposes no costs and has no adverse fiscal impact upon the general public.

Paperwork Requirements

The proposed rulemaking does not appreciably increase the paperwork burden of the Department, other government units or affected wine producers.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Sunset Date

There is no sunset date for the proposed rulemaking. The Department will review the efficacy of these regulations on an ongoing basis.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on January 16, 2004, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Standing Committees on Agriculture and Rural Affairs. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment Period/Contact Person

Interested persons are invited to submit written comments regarding the proposed rulemaking within 30 days following publication in the *Pennsylvania Bulletin* to the Department of Agriculture, Bureau of Market Development, 2301 North Cameron Street, Harrisburg, PA 17110-9408, Attn: Kyle Nagurny.

§§ 104.21—104.30. (Reserved).**Subchapter F. WINE MARKETING AND RESEARCH PROGRAM**

Sec.	
104.71.	Scope.
104.72.	Definitions.
104.73.	Producer charges.
104.74.	Responsibility for payment of producer charge.
104.75.	Accounting and payment.

§ 104.71. Scope.

This subchapter establishes the procedures by which persons who produce or sell wine under authority of a limited winery license shall account for and pay producer charges owed the Program.

§ 104.72. Definitions.

The following words and terms, when used in this subchapter, have the following meanings, unless the context clearly indicates otherwise:

ACMA—The Agricultural Commodities Marketing Act (3 Pa.C.S. §§ 4501—4513).

Board—The persons appointed by the Secretary from among those producers whose commodities are subject to the marketing and research program set forth in this subchapter.

Department—The Department of Agriculture of the Commonwealth.

Limited winery—The holder of a limited winery license issued under authority of the Liquor Code (47 P. S. §§ 1-101—8-803).

Marketing contract—Any contract or agreement between the Board and a person for the performance of service related to advertising, promotion, research, marketing, or other objectives in furtherance of the marketing and research program set forth in this subchapter.

Marketing season—

(i) The initial marketing season for purposes of this subchapter shall be from July 1, 2001, through December 31, 2001.

(ii) Thereafter, the marketing season shall be the period beginning January 1 of any year and extending through December 31 of the same year.

PLCB—The Pennsylvania Liquor Control Board.

Person—An individual, partnership, firm, corporation, association or any other business unit.

Producer—A person who produces or sells wine under authority of a limited winery license during a particular marketing season.

Program—The Pennsylvania Wine Marketing and Research Program.

Secretary—The Secretary of the Department.

§ 104.73. Producer charges.

The producer charges owed the Program shall be 15¢ per gallon of wine sold within a given marketing season, except in-State winery-to-winery sales in bond. In-State winery-to-winery sales in bond are exempt from charges. The producer charges may be changed by subsequent amendment of the Program in accordance with the referendum procedure in Chapter 103 (relating to referendums).

§ 104.74. Responsibility for payment of producer charge.

It is the responsibility of the producer to pay the appropriate producer charge owed the Program within the time period set forth in § 104.75(b) (relating to accounting and payment) and in the manner set forth in § 104.75(a).

§ 104.75. Accounting and payment.

(a) *Annual production statement.* The Program will provide a producer with annual production statement forms with which to verify the quantity of wine that it has produced within a particular marketing season. The producer shall provide the following information on the annual production statement and submit the form in accordance with this section:

(1) The name and address of the producer.

(2) The number of gallons of wine sold within the marketing season, or other time period designated by the Program.

(3) A calculation of the amount of producer charges owed the Program by the producer.

(b) *Deadlines.* The payment of the producer charges shall be postmarked and mailed, or actually delivered to the Program, by the first day of February immediately following the previous marketing season.

(c) *Form of payment.* Payments of producer charges shall be by check or money order made payable to the "PA Wine Marketing Program."

(d) *Address.* Payments of producer charges shall be mailed or delivered to:

Department of Agriculture,
Bureau of Market Development
Attn: Pennsylvania Wine Marketing Program
2301 North Cameron Street
Harrisburg, Pennsylvania 17110-9408.

(e) *Penalty for failure to account or pay.* Producers who fail to mail or deliver the required producer charges owed the Program within 30 days of the due date, as described in subsection (b), shall be required to pay a penalty of at least \$100 but not more than \$5,000, and as nearly equivalent to 100% of the amount of the delinquent producer charges as is practicable. An action seeking the imposition of a penalty, plus payment of producer charges due the Program, may be brought in the appropriate magisterial district. A penalty imposed shall be in addition to the delinquent producer charges owed the Program.

STATE BOARD OF OSTEOPATHIC MEDICINE

[49 PA. CODE CH. 25]

Continuing Medical Education

The State Board of Osteopathic Medicine (Board) proposes to amend §§ 25.1 and 25.271 (relating to definitions; and requirements for renewal) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*. The Legislature has required that the Board promulgate regulations within 6 months of the effective date of section 910 of the Medical Care Availability and Reduction of Error (MCARE) Act (act) (40 P. S. § 1303.910).

Statutory Authority

Under section 910 of the act, the Board is required to establish requirements for continuing medical education for physicians as a condition for renewal of their licenses. Physicians are required to complete 100 credit hours of mandatory continuing medical education during each 2-year licensure period.

Background and Purpose

The proposed rulemaking implements section 910 of the act, which requires completion of 100 credit hours of continuing education as a condition of biennial licensure renewal of physician licenses by the State Board of Medicine and the Board. Although the Board already required 100 credit hours of continuing medical education each biennium, the act imposed a requirement that the

Board establish a minimum number of hours in the areas of patient safety and risk management.

Description of Proposed Rulemaking

The proposed rulemaking requires proof of completion of 100 credit hours of continuing medical education as a condition of license renewal, and sets forth a requirement that at least 20 of the 100 hours be American Osteopathic Association (AOA) category 1 credits and that at least 10 credit hours must be in the area of patient safety and risk management. Courses in the area of patient safety and risk management may include topics such as improving medical records and recordkeeping, reducing medical errors, professional conduct and ethics, improving communications, preventative medicine and healthcare quality improvement. The proposed rulemaking further designates the Accreditation Council on Continuing Medical Education and the AOA as the accrediting bodies for purposes of approving continuing medical education providers.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking requires the Board to alter its license renewal forms to include data regarding the physician's compliance with the continuing education requirements, and also requires physicians to maintain their own records of continuing education credits, but otherwise, should have no adverse fiscal impact on the Commonwealth or its political subdivisions.

Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on January 20, 2004, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Amy L. Nelson, Counsel, State Board of Osteopathic Medicine, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

CHAPTER 25. STATE BOARD OF OSTEOPATHIC MEDICINE

Subchapter A. GENERAL PROVISIONS

§ 25.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings unless the context clearly indicates otherwise:

* * * * *

Approved course—A continuing medical education course offered by a provider accredited by the ACCME or the AOA.

* * * * *

Immediate family member—A parent, a spouse, a child or an adult sibling residing in the same household.

* * * * *

Subchapter G. LICENSING, EDUCATION AND GRADUATE TRAINING

LICENSURE RENEWAL AND CONTINUING EDUCATION

§ 25.271. Requirements for renewal.

* * * * *

(c) Beginning with [1994 renewals] the licensure renewal period commencing November 1, 2004, proof of completion of 100 credit hours of continuing medical education in the preceding biennial period will be required for licensure renewal for osteopathic physicians.

(1) At least 20 credit hours shall be completed in AOA category 1 [AOA] approved courses. At least 10 credit hours shall be completed in approved courses in the area of patient safety and risk management. Approved courses in the area of patient safety and risk management may include topics such as improving medical records and recordkeeping, reducing medical errors, professional conduct and ethics, improving communications, preventative medicine and healthcare quality improvement. The [remainder] remaining 75 credit hours shall be completed in any [courses approved by either the AOA or ACCME] approved courses. Credit will not be granted for courses in office management or practice building.

(2) [A licensee] Physicians shall retain official documentation of attendance for 2 years after renewal, and shall certify completed courses on a form provided by the Board for that purpose, to be filed with the biennial renewal form. Official documentation proving attendance shall be produced, upon Board demand, pursuant to random audits of reported credit hours. **Electronic submission of documentation is permissible to prove compliance with this subsection.** Noncompliance may result in disciplinary proceedings under section 15(a)(6) of the act (63 P. S. § 271.15(a)(6)).

(3) [A retired or inactive licensee is not required to comply with this requirement, if the licensee offers no service requiring a medical license and files an Affidavit of Non-Practice with the renewal form.] The following exemptions apply for certain physicians:

(i) A physician applying for licensure in this Commonwealth for the first time shall be exempt from the continuing medical education requirement for the biennial renewal period following initial licensure.

(ii) A physician holding a current temporary training license shall be exempt from the continuing medical education requirement.

(iii) A retired physician who provides care only to immediate family members shall be exempt from the continuing medical education requirement.

(iv) A physician who is on inactive status shall be exempt from the continuing medical education requirement, except that a physician who is seeking to reinstate an inactive or lapsed license shall show proof of compliance with the continuing education requirement for the preceding biennium.

(4) [A licensee who has been on inactive status shall have completed 100 credit hours of continuing medical education in the 2-year period immediately prior to reactivation. For the renewal cycle immediately subsequent to reactivation, the licensee shall complete 12.5 credit hours for each full calendar quarter in which his license is active.] A physician suspended for disciplinary reasons is not exempt from the requirements of this section.

(5) [The Board may grant a hardship waiver only under extraordinary circumstances when it finds that good cause has been shown and that the public's safety and welfare will not be jeopardized by the granting of the waiver.] Waiver of the requirements may be permitted, as follows:

(i) The Board may grant a hardship waiver of all or a part of the continuing medical education requirement in cases of serious illness, military service or other good cause provided that the public's safety and welfare will not be jeopardized by the granting of the waiver.

(ii) Requests for waiver shall be made in writing, with appropriate documentation, and shall include a description of circumstances sufficient to show why compliance is impossible.

(iii) Waiver requests will be evaluated by the Board on a case-by-case basis. The Board will send written notification of its approval or denial of a waiver request.

[(6) A licensee suspended for disciplinary reasons is not exempt from the requirements in this section.

(7) A licensee graduating from an approved osteopathic medical college is exempt from the requirements in this section for the renewal cycle immediately subsequent to the receipt of an original license.

(8) A licensee holding a current temporary training license is exempt from the requirements in this section.

(9) For the renewal cycle immediately subsequent to licensure, a licensee licensed by reciprocal endorsement shall complete 12.5 credit hours for each full calendar quarter in which the licensee has been licensed.]

STATE BOARD OF PODIATRY

[49 PA. CODE CH. 29]

Sexual Misconduct

The State Board of Podiatry (Board) proposes to amend § 29.1 (relating to definitions) and to add § 29.21a (relating to sexual misconduct) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

Under sections 15 and 16(3) of the Podiatry Practice Act (act) (63 P. S. §§ 42.15 and 42.16(3)), the Board has authority to establish standards of professional conduct for licensed podiatrists.

Background and Purpose

It should be axiomatic that it is unprofessional conduct for a podiatrist to engage in sexual contact with patients. Past decisions of the Board and the American Podiatric Medical Association guidelines denounce sexual contact between podiatrist and patient. However, complaints have been filed by consumers who have been harmed by podiatrists who engage in that unprofessional conduct.

Description of Proposed Rulemaking

The proposed rulemaking amends § 29.1 to define the terms "sexual behavior" and "sexual exploitation" and adds § 29.21a to make it clear that sexual misconduct is unprofessional conduct.

The purpose of the proposed rulemaking is to better protect patients by providing guidance to the profession and the public as to prohibited sexual conduct between podiatrists and patients. The proposed rulemaking prohibits any sexual contact between a podiatrist and a current patient.

Prohibited "sexual behavior," defined in § 29.1, is any sexual conduct that has no diagnostic or therapeutic purpose, including words, actions or any combination thereof which are, or are intended to be, sexual in nature or which may be construed by a reasonable person as sexual in nature.

The proposed rulemaking further prohibits sexual exploitation by a podiatrist of a current patient. "Sexual exploitation" is defined in § 29.1 as sexual behavior with a current patient that uses trust, knowledge, emotions or influence derived from the professional relationship.

The proposed rulemaking provides that licensed podiatrists who engage in prohibited sexual conduct with patients will not be eligible for placement in the Board's impaired professional program instead of disciplinary or

corrective actions. The impaired professional program is unable to effectively monitor licensed podiatrists who have engaged in sexual misconduct.

The proposed rulemaking also provides that patient consent would not be considered a defense to disciplinary action in these cases. The imbalance of power inherent in the health care practitioner-patient relationship not only serves as the basis for the prohibition but also undermines the patient's ability to consent to sexual behavior as an equal when trust, knowledge, emotions or influence derived from the professional relationship are used.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking should have no fiscal impact on the Commonwealth or its political subdivisions. Likewise, the proposed rulemaking should not necessitate any legal, accounting, reporting or other paperwork requirements.

Sunset Date

The Board continuously monitors the effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on January 20, 2004, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding the proposed rulemaking to Roberta L. Silver, Counsel, State Board of Podiatry, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days of publication of this proposed rulemaking.

Chairperson

Annex A

TITLE 49. PROFESSIONAL AND VOCATIONAL STANDARDS

PART I. DEPARTMENT OF STATE

Subpart A. PROFESSIONAL AND OCCUPATIONAL AFFAIRS

CHAPTER 29. STATE BOARD OF PODIATRY GENERAL PROVISIONS

§ 29.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

Sexual behavior—Any sexual conduct with a current patient during the course of a professional relationship, evaluation, treatment, procedure or other service to the patient, regardless of the setting in which the professional service is provided, including words, actions, or any combination thereof, which are nondiagnostic or nontherapeutic, and are intended to be sexual in nature, or which may be construed by a reasonable person as sexual in nature.

Sexual exploitation—Any sexual behavior, with a current patient, that uses trust, knowledge, emotions or influence derived from the professional relationship.

STANDARDS OF ETHICAL PRACTICE

§ 29.21a. Sexual misconduct.

Under section 16(a)(3) of the act (63 P. S. § 42.16(a)(3)), the Board may refuse to grant and may suspend or revoke or cancel a license or a

registration for gross immorality or misconduct in carrying on the profession of podiatry.

(1) Gross immorality or misconduct includes sexual misconduct by a podiatrist as follows:

(i) Sexual behavior by a podiatrist with a current patient constitutes unprofessional conduct, is prohibited, and subjects the podiatrist to disciplinary action under section 16(a)(3) of the act.

(ii) Sexual exploitation by a podiatrist of a current patient constitutes unprofessional conduct, is prohibited, and subjects the podiatrist to disciplinary action under section 16(a)(3) of the act.

(2) A podiatrist who engages in conduct prohibited by this section will not be eligible for placement into an impaired professional program in lieu of disciplinary or corrective action.

(3) Consent is not a defense to conduct prohibited by this section.

Unrestricted license—A replacement license issued under 75 Pa.C.S. § 1951(d) (relating to driver's license and learner's permit) that does not contain the ignition interlock restriction.

§ 88.2. Installation of ignition interlock system.

(a) *General rule.* Any person subject to 75 Pa.C.S. § 3805 (relating to ignition interlock) who seeks a restoration of operating privileges shall engage a provider, at the person's own expense, to install all ignition interlock

systems required under 75 Pa.C.S. § 3805, and otherwise ensure compliance with this chapter.

(b) *Identification of owned vehicles.* The person seeking a restoration of operating privilege under 75 Pa.C.S. § 3805 shall submit to the provider a certification, on a form provided by the Department, that identifies each motor vehicle owned by the person or registered to the person. A vehicle is considered registered to a person under this chapter if Department records reflect that the vehicle is registered to a person or the person is otherwise designated as the registrant of the vehicle or named as the lessee of the vehicle under 75 Pa.C.S. § 1305 (relating to application for registration). The provider shall verify the accuracy of the facts in the person's certification through an inquiry to the Department's motor vehicle records system.

(c) *Installation and certification.* The provider shall install an ignition interlock system on each motor vehicle owned by the person or registered to the person and shall certify to the Department that the installation has been completed.

(d) *Installation not required.*

(1) Installation of an ignition interlock system is not required in the following situations:

(i) *No motor vehicles owned or registered.* If the person certifies to the provider a certification, on a form provided by the Department, that there are no motor vehicles owned by the person or registered to the person, installation is not required on any motor vehicle.

(ii) *Inoperable vehicles.* If the person certifies to the provider, on a form provided by the Department, that a motor vehicle owned or registered to the person is inoperable, installation is not required on the inoperable vehicle.

(2) The provider shall verify the accuracy of a certification submitted under paragraph (1)(i) and (ii) through an inquiry to the Department's motor vehicle records system and shall certify to the Department that the person is in compliance with this subsection.

(e) *Economic hardship exemption.* A person will be exempt from the requirement to install an ignition interlock system on each of the person's motor vehicles if the person demonstrates that the requirement will result in undue financial hardship.

(1) Undue financial hardship shall be demonstrated only by one of the following:

(i) Evidence on the person's most recently filed Federal Income Tax return showing an adjusted gross income below 200% of the poverty guidelines issued for that tax year by the United States Department of Health and Human Services for the person's family size.

(ii) Documentation of participation in a governmental assistance program included on a list of applicable programs published by the Department in the *Pennsylvania Bulletin*.

(2) The person shall submit to the provider an application for a hardship exemption on a form provided by the Department along with the required documentation.

(3) The provider shall review the required documentation to confirm that it meets the requirements of paragraph (1).

(4) The provider shall then install an ignition interlock system on only one vehicle owned by the person or registered to the person, forward the application to the

Department, and certify to the Department that the person has complied with this section.

§ 88.3. Maintenance of ignition interlock system.

(a) *General rule.* A person shall make any vehicles on which an ignition interlock system is installed available for regularly scheduled maintenance by the provider.

(b) *Additional vehicles.* As part of each regularly scheduled maintenance check of the ignition interlock system, the provider shall, through an inquiry to the Department's motor vehicle record's system, verify that no additional vehicles are owned by or registered to the person. Unless the person has been granted an economic hardship exemption under § 88.2(e) (relating to installation of ignition interlock system), if any additional vehicles are owned by or registered to the person, the provider shall, at the person's expense, install and maintain an ignition interlock system on those vehicles.

(c) *Notification of noncompliance.* If the person fails to comply with any provision of this section, the provider shall notify the Department of the person's noncompliance.

§ 88.4. Removal of ignition interlock system.

(a) *General rule.* An ignition interlock system installed in a motor vehicle under this chapter may not be removed from the vehicle unless one of the following occurs:

(1) The motor vehicle is no longer owned by or registered to the person who engaged the provider to install the ignition interlock system.

(2) The person has been issued an unrestricted license by the Department under 75 Pa.C.S. § 3805(c) (relating to ignition interlock).

(3) The provider has certified compliance with § 88.2(e) (relating to installation of ignition interlock system) to the Department and the provider has installed an ignition interlock system on another motor vehicle owned by the person or registered to the person.

(4) The person is no longer a resident of this Commonwealth and has been issued a valid license from the state of current residency.

(b) *Unauthorized removal.* If a person removes an ignition interlock system, or directs a provider to remove an ignition interlock system, under circumstances not provided for in this section, the provider shall notify the Department of the person's noncompliance.

§ 88.5. Recall and reissuance of ignition interlock restricted license.

(a) *Recall.* Upon receipt of notification from a provider of a person's noncompliance with any provision of this chapter, the Department may recall the person's ignition interlock restricted license.

(b) *Reissuance.* After receiving a new certification from a provider of compliance with this chapter by the person, the Department may reissue an ignition interlock restricted license to the person, and the person shall complete the balance of the ignition interlock restricted license period previously imposed before an unrestricted license will be issued.

§ 88.6. Issuance of unrestricted license.

(a) *General rule.* Upon completion of the ignition interlock restricted license period, a person who has been issued an ignition interlock restricted license may apply to the Department for issuance of an unrestricted license on a form provided by the Department.

(b) *Pending charges.* A person applying for an unrestricted license shall notify the Department on the application of any convictions and pending charges of illegally operating a motor vehicle not equipped with an ignition interlock, including all convictions and charges of tampering with an ignition interlock system, in violation of 75 Pa.C.S. § 3808 (relating to illegally operating a motor vehicle not equipped with ignition interlock), for a violation within the preceding 12 months. If the person notifies the Department of a pending charge, or of a conviction that has not yet been reported to and processed by the Department, the Department will deny the application.

(c) *Cancellation of unrestricted license.* If the Department receives or processes a record of a person's first conviction of violating 75 Pa.C.S. § 3808 after issuing an unrestricted license to the person, the Department will cancel the person's unrestricted license and will issue an ignition interlock restricted license to the person after receiving a new certification from a provider of the person's compliance with this chapter.

§ 88.7. Issuance of license to a person restricted by another state.

A person who has been issued a license with an ignition interlock restriction by another state, and who is otherwise eligible for issuance of a license under 75 Pa.C.S. § 1508(b) (relating to examination of applicant for driver's license), may apply for an ignition interlock restricted license from the Department in accordance with this chapter. The person shall become eligible for issuance of an unrestricted license only after serving an ignition interlock restricted license period of 1 year. If the person can provide documentation from the state that initially imposed the ignition interlock restriction satisfactory to the Department showing the amount of time that the person has been subject to the ignition interlock restriction, the person shall be given credit against the ignition interlock restricted license period imposed with the Pennsylvania license.

§ 88.8. Ignition interlock for nonresidents.

A person who is required to comply with 75 Pa.C.S. § 3805 (relating to ignition interlock), but is not a resident of this Commonwealth at the time when the person seeks a restoration of operating privileges, shall submit an affidavit and supporting documents to the Department indicating the person's state of residence. If the Department determines that the person is not a resident of this Commonwealth and the person has met all other restoration requirements, the person's driving privilege may be restored. If the person becomes a resident of this Commonwealth during the ignition interlock restricted license period, the person will not be issued an unrestricted license until the person complies with 75 Pa.C.S. § 3805 and this chapter.

**DEPARTMENT OF
CONSERVATION AND
NATURAL RESOURCES**

**Pennsylvania Heritage Parks Program; Fiscal Year
2004-2005 Grant Application Announcement**

The Department of Conservation and Natural Resources (Department) announces that applications are being accepted for grants to be funded from the 2004-2005 fiscal year Pennsylvania Heritage Parks Program (Program). Funding is subject to an appropriation being made available to the Department for the Program in the upcoming 2004-2005 fiscal year budget. The deadline for submission of applications is Friday, May 21, 2004. Applications must be received by 5 p.m. in the Harrisburg Central Office of the Department's Bureau of Recreation and Conservation. Applications received after this deadline will not be considered for funding. Fax submissions are not acceptable.

It is the intent of the Program to create a system of State Heritage Areas that will preserve and interpret the

significant contributions that certain regions of this Commonwealth have made to the industrial heritage of the State and Nation. The historic, cultural, natural, scenic and recreational resources within a Heritage Park Area are inventoried, preserved, enhanced and promoted as a strategy to enhance regional economic development through the attraction of tourists, creation of new jobs, stimulation of small business growth and the promotion of public and private investment opportunities. There are currently 11 designated State Heritage Areas including the Allegheny Ridge Heritage Area, the Delaware and Lehigh National Heritage Corridor, the Endless Mountains Heritage Region, the Lackawanna Heritage Valley Authority, the Lancaster-York Heritage Region, the Lincoln Highway Heritage Corridor, the Lumber Heritage Region, the National Road Heritage Corridor, the Oil Heritage Region, the Rivers of Steel Heritage Area and the Schuylkill River Heritage Corridor.

Designated State Heritage Areas are eligible to apply for grants to undertake heritage park management activities, special purpose studies and implementation projects. Other regions wishing to participate in the Program may apply for feasibility study grants if they meet the following criteria and are prequalified by the Department:

- Must have a strong industrial theme based on one or more of the following industries: coal, oil, iron and steel, lumber, textile, transportation, machine and foundry, and agriculture.
- Must be multicounty in size.
- Must have natural, cultural, historic, recreational and scenic resources of State or National significance.
- Have a broad-based public and private partnership and regional coalition supporting the project.
- Must demonstrate a local commitment and leadership capacity to undertake the initiative.

Program Manual/Application Forms

The Program manual provides more specific information on funding levels, Program requirements and the application process for this round of funding. The Program manual and application forms are available from the Department. Since each project type has a specific set of application forms and instructions, specify the type of project when requesting application forms. The Program manual, application forms and additional information about the Program can be obtained from Tim Keptner, Chief, Regional Services Division, Bureau of Recreation and Conservation, Pennsylvania Heritage Parks Program, Department of Conservation and Natural Resources, 6th Floor, Rachel Carson State Office Building, P. O. Box 8475, Harrisburg, PA 17105-8475, (717) 783-0988

Persons with a disability who wish to submit an application for Program funding and require assistance with the application should contact Darrel J. Siesholtz at (717) 783-2661 to discuss how the Department may best accommodate their needs. TTY or TDD users should call (800) 654-5984.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

II. Applications for New or Expanded Facility Permits, Renewal of Major Permits and EPA Nonwaived Permit Applications

Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

PA0053538, Industrial Waste, **Merck and Company, Inc.**, P. O. Box 4, 770 Sumneytown Pike, West Point, PA 19486-0004. This application is for renewal of an NPDES permit to discharge stormwater from industrial activities in Upper Gwynedd Township, **Montgomery County**. This is an existing discharge to unnamed tributaries to Wissahickon and Towamencin Creeks.

This notice reflects changes to the notice published at 32 Pa.B. 2773 (June 8, 2002).

The receiving stream is classified for WWF, aquatic life, water supply and recreation. The point of discharge is to a dry swale.

The proposed effluent limits for Outfall 001, from detention basin no. 4 to an unnamed tributary to Wissahickon Creek, based on maximum flow of 6.4 mgd, are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>
Iron, Total	Monitor
Manganese, Total	Monitor
Zinc, Total	Monitor
Phosphorus as P	Monitor

The proposed effluent limits for Outfall 002 from detention basin no. 2 to an unnamed tributary to Towamencin Creek, based on a maximum flow of 10.04 mgd, are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>
Iron, Total	Monitor
Manganese, Total	Monitor
Zinc, Total	Monitor
Phosphorus as P	Monitor

The proposed effluent limits for Outfall 003 from detention basin no. 3 to an unnamed tributary to Wissahickon Creek, based on stormwater and groundwater base flow, are as follows:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>
Iron, Total	Monitor
Manganese, Total	Monitor
Zinc, Total	Monitor
Phosphorus as P	Monitor

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation

to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest

to the Department regional office indicated before an application within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning a proposed plan approval or operating permit. Comments or protests filed with Department regional offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

06-05029B: Reading Body Works, Inc. (P. O. Box 650, Reading, PA 19607-0650) for modification of two surface coating lines controlled by dry filters and low VOC coatings in the City of Reading, **Berks County**. The plan approval is to lower the VOC content in the coatings on one line and to increase the annual VOC limit on the second line. The plan approval will include limits, monitoring, recordkeeping, work practices and reporting requirements designed to keep the sources operating within all applicable air quality requirements. The facility is presently covered by Title V Operating Permit 06-05029. The plan approval will be incorporated into this permit in accordance with 25 Pa. Code § 127.450.

06-05069C: East Penn Mfg. Co., Inc. (P. O. Box 147, Lyon Station, PA 19636) for construction of a grid caster in Plant A-2 and two lead oxide mills in the oxide plant and modification of a grid caster and lot pot in Plant A-2 all controlled by four fabric collectors and HEPA filters in their facility in Richmond Township, **Berks County**. The sources are subject to 40 CFR Part 60, Subpart KK, Standards of Performance for New Stationary Sources. The sources will be required to be tested to show compliance. The plan approval will include monitoring, recordkeeping, work practices and reporting requirements designed to keep the sources operating within all applicable air quality requirements. The facility is presently covered by Operating Permit 06-1069 and Title V Application 06-05069. This plan approval will be incorporated into the Title V operating permit in accordance with 25 Pa. Code § 127.450.

22-03052A: Harman Stove Co. (325 Mountain House Road, Halifax, PA 17032) for construction of a paint booth for a stove coating operation in Jackson Township, **Dauphin County**. The primary emissions from the source are VOCs and the estimated emissions are about 5.5 tons per year. The Plan Approval will contain restrictions, monitoring, recordkeeping and work practice standards designed to keep the facility operating within all applicable air quality requirements.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481; Devendra Verma, New Source Review Chief, (814) 332-6940.

37-162B: Precision Plating Co., Inc. (407 Summit View Drive, New Castle, PA 16105-1431) for installation

of two new hard chrome process tanks with associated fume scrubber exhaust system in Neshannock Township, **Lawrence County**.

In accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department intends to issue a plan approval to install two new hard chrome process tanks with associated fume scrubber exhaust system in Neshannock Township, Lawrence County.

This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into a State-only operating permit through an administrative amendment at a later date.

1. The chrome plating tanks 8 and 9 shall comply with 25 Pa. Code §§ 123.1, 123.31 and 123.41 for fugitive, odor and visible emissions, respectively.

2. The sources shall comply with 40 CFR Part 63, Subpart N, National Emission Standards for Chromium Emissions From Hard and Decorative Chromium Electroplating and Chromium Anodizing Tanks.

3. 40 CFR 63.9 requires submission of copies of all requests, reports, applications, submittals and other communications to both the EPA and the Department. The EPA copies shall be forwarded to Director; Air, Toxics and Radiation Division; US EPA, Region III; 1650 Arch St.; Philadelphia, PA 19103-2029.

4. Chromium emissions from the scrubber unit for chrome plating tanks 8 and 9 shall not exceed 0.015 milligram of total chromium per dry standard cubic meter (mg/dscm) of ventilation air (0.66×10^{-5}) grains per dry standard cubic foot (gr/dscf).

5. Total cumulative ampere-hours for all chromium plating units at the facility shall not exceed 59 million ampere-hours per year. A year shall be defined as any consecutive 12-month rolling period.

6. The company shall demonstrate compliance with the maximum cumulative rectifier capacity defined in condition 8 as follows:

Monthly records of ampere-hours for each plating unit shall be maintained using nonresettable ampere-hr meters. The actual cumulative rectifier capacity for the previous 12 month period shall be tabulated monthly by adding the capacity of the current month to the capacities for the previous 11 months.

7. Recordkeeping and reporting requirements shall be maintained in accordance with 40 CFR 63.346 and 63.347, respectively.

8. Within 30 days of the notice required by condition 3(a), a test procedure for determining the chromium emission rates for the exhaust from the scrubber serving plating tanks 8 and 9 including a sketch with dimensions indicating the location of sampling ports and other data to ensure the collection of representative samples shall be submitted to the Department.

9. Within 90 days of achieving normal operation, or within 180 days of the initial start up, which ever comes first, stack tests shall be performed in accordance with EPA test procedures outlined in 40 CFR 63.344 Performance Test requirements and 25 Pa. Code § 139 approved by the Department to show compliance with the chromium emission rates provided in condition 7.

10. At least 2 weeks prior to the test for chromium emissions, the Department's regional office shall be informed of the date and time of the test.

11. Within 60 days after completion of the tests for chromium emissions, two copies of the complete test report, including all operating conditions, shall be submitted to the Department for approval.

12. If the results of the stack tests performed in conformance with the conditions of this plan approval exceed the emission levels specified in any condition of this approval, the permittee shall take appropriate corrective actions. The permittee shall submit a description of these corrective actions to the Department, within 30 days of receipt of the test results. The permittee shall take appropriate action to minimize emissions from the affected facility while the corrective actions are being implemented. The Department shall notify the permittee with 30 days, if the corrective actions taken are deficient. The permittee shall submit a description of additional corrective actions taken to the Department within 30 days of receipt of the notice of deficiency. The Department reserves the authority to use enforcement activities to resolve noncompliant stack tests.

13. If the results of the stack tests performed in conformance with the conditions of this plan approval exceed the emission levels specified in any condition of this approval, a retest to demonstrate compliance shall be performed within 120 days of receipt of the original test results. Should the permittee demonstrate to the Department that retesting in 120 days is not practicable, the Department may extend the deadline. Failure of the second test to demonstrate compliance with the appropriate approval

14. During the stack test, the pressure drop across each stage of the unit shall be monitored and recorded. The pressure drops indicated during testing, + or - 1" w.g., shall become standard operating parameters for the unit.

15. Whenever a condition in this permit requires the measurement of pressure drop across any part of the unit or its control device, the gauge employed shall have a scale so that the expected normal reading shall be no less than 20% of full scale.

16. The pressure drop across each stage of the unit shall be recorded daily and maintained for 5 years. The records shall be made available to the Department upon request.

17. The source shall comply with 40 CFR 63.343 (c)(1) —monitoring to demonstrate continuous compliance.

18. The source shall comply with 40 CFR 63.342—summary of Work Practice Standards.

10-079C: BNZ Materials, Inc. (191 Front Street, Zelienople, PA 16063) for installation of low NOx burners in kiln 1 in Zelienople Borough, **Butler County**. This is a Title V facility. The public notice is required for sources required to obtain a Plan Approval at Title V facilities in accordance with 25 Pa. Code § 127.44. This plan approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V operating permit through an administrative amendment at a later date. The source shall comply with the following conditions, which will satisfy the requirements of 25 Pa. Code § 127.12b (pertaining to plan approval terms and conditions) and will demonstrate Best Available Technology for the source:

- This Plan Approval is for reconstruction of kiln 1, retrofitting with low NOx burners, to support plans to produce two types of cast insulating fire brick.
- This approval to construct/modify shall become invalid if: (1) construction is not commenced (as defined in

25 Pa. Code § 127.13(b) and 40 CFR 52.21 (b)(8)) within 18 months after the date of this approval; (2) if construction is discontinued for a period of 18 months or more; or (3) construction is not completed within a reasonable time.

- This source is subject to 25 Pa. Code §§ 123.1, 123.31 and 123.41 for fugitive, odor and visible emissions, respectively.

- PM emissions from kiln 1 shall not exceed 0.02 grain per dry standard cubic foot (grains/dscf). Compliance with the particulate matter emission limit shall be shown through the following initial stack test.

- PM10 emissions from kiln 1 shall not exceed 14.9 tons per year, to be defined as any consecutive 12-month rolling period. Compliance with the PM10 emission limit shall be shown through an emission factor developed (# PM10/ton brick produced) during the following initial stack test.

- Kiln 1 shall be installed with low NOx burners. NOx emissions from kiln 1 shall not exceed 0.37 #/ton bricks. Compliance with the NOx emission limit shall be shown through the following initial stack test.

- SOx emissions from kiln 1 shall not exceed 500 ppm (by volume, dry basis) at any time (from 25 Pa. Code § 123.21). Compliance with the SOx emission limit shall be shown through the following initial stack.

- Fluoride emissions from kiln 1 shall not exceed 2.9 tons per year, to be defined as any consecutive 12-month rolling period. Compliance with the fluoride emission limit shall be shown through an emission factor developed (# fluoride/ton brick produced) during the initial stack test or subsequent stack test and through the following fluoride clay concentration monitoring. If the fluoride emissions exceed 3 tpy, the permittee shall submit a PSD application for this source within 30 days.

- *Fluoride Clay Concentration Monitoring:*

- The permittee shall take a representative sample (0.5 #/ton of clay) from each shipment of clay.

- The permittee shall make a weekly composite sample from all the samples taken in part (a) and test for fluoride concentration in the clay.

- After 6 months of sampling, the permittee may petition the Department to reduce the sampling frequency if the average fluoride concentration in the clay does not vary greater than 5% from the fluoride concentration during the latest stack test for fluoride emission compliance.

- The fluoride emission factor developed during the latest stack test for fluoride emission compliance shall increase proportionally with an increase in fluoride concentration in the clay above the concentration during testing. This adjusted emission factor shall be used in calculating the monthly and yearly fluoride emissions.

- *Stack Test Requirement:* Within 60 days after achieving the normal production rate at which kiln 1 will be operated, but not later than 180 days after initial startup of the source, a stack test shall be performed in accordance with 25 Pa. Code Chapter 139 and the most current edition of the Department's "Source Testing Manual" for particulate matter, NOx, fluoride and SOx emissions. The stack tests shall be performed while the aforementioned source is operating at maximum or normal rated capacity as stated in the application. The permittee shall take a representative clay sample (1 #/ton of clay) and test for

fluoride concentration in the clay used during the initial stack test and any subsequent stack test for fluoride emission compliance.

- Within 30 days of performing a stack test, three copies of a protocol shall be submitted in accordance with 25 Pa. Code Chapter 139. The protocol shall contain, at a minimum, location of sampling ports, planned production rates and any other information applicable to the stack testing. Performing a stack test prior to Department approval of the protocol may invalidate the results.

- At least 2 weeks prior to the test, the Department shall be informed, in writing, of the date and time of the test.

- Within 60 days after completion of stack testing, three copies of the complete test report, including, but not limited to, production rates during testing, calculation methods and results, clay fluoride concentration and any other applicable testing information that will allow for a complete review of the test and results, shall be submitted to the Department for approval. The emission rates shall also be shown in a # pollutant/ton brick produced.

- Subsequent stack tests for compliance purposes shall follow the procedures outlined in parts (a)—(c).

- *Actions Related to Noncompliance Demonstrated by a Stack Test:*

- When the results of a stack test performed in conformance with this condition, of this approval exceed the level specified in any condition of this approval, the permittee shall take appropriate corrective actions. The permittee shall submit a description of these corrective actions to the Department, within 30 days of receipt of the test results. The permittee shall take appropriate action to minimize emissions from the affected facility while the corrective actions are being implemented. The Department shall notify the permittee within 30 days, if the corrective actions taken are deficient. The permittee shall submit a description of additional corrective actions taken to the Department within 30 days of receipt of the notice of deficiency. The Department reserves the authority to use enforcement activities to resolve noncompliant stack tests.

- A retest to demonstrate compliance shall be performed within 120 days of receipt of the original test results. Should the permittee demonstrate to the Department that retesting in 120 days is not practicable, the Department may extend the retesting deadline. Failure of the second test to demonstrate compliance with the appropriate approval conditions may be grounds for immediate revocation of the approval to operate the affected facility.

- The facility shall maintain records of kiln 1 gas usage, production (slabs/day), clay throughput and clay fluoride concentration from sampling. Records shall be maintained of kiln 1 downtime, repairs made and maintenance performed. Records shall be maintained of the PM10 and fluoride monthly and yearly (defined as any consecutive 12-month rolling period) emissions. Records shall be maintained onsite for a minimum of 5 years and shall be made available to the Department upon request.

- The facility shall comply with 25 Pa. Code § 127.25 as follows:

- A person may not cause or permit the operation of a source, unless the source and air-cleaning device, are operated and maintained in accordance with specifications in the Plan Approval application and conditions listed previously. A person may not cause or permit the

operation of an air contamination source in a manner inconsistent with good operating practices.

- Any information required to be submitted as part of the previous conditions should be submitted to the attention of Regional Air Quality Program Manager, Air Quality Program, Northwest Regional Office, 230 Chestnut Street, Meadville, PA 16335-3481.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

Southeast Region: Air Quality Program, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428; Thomas McGinley, New Source Review Chief, (610) 832-6242.

46-00013: Hatfield Quality Meats, Inc. (2700 Funks Road, Hatfield, PA 19440) for a renewal of their Title V Operating Permit in Hatfield Township, **Montgomery County**. The initial permit was issued on December 29, 1998. The facility is a hog rendering plant. As a result of potential emissions of NO_x, PM and SO_x, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. The proposed Title V Operating Permit Renewal includes one new boiler subject to 40 CFR 60, Subpart Dc, several small (new) combustion sources and a reclassification of the existing cold parts washers to comply with new State regulations. At this time, the facility is not subject to Compliance Assurance Monitoring under 40 CFR Part 64. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481; Devendra Verma, New Source Review Chief, (814) 332-6940.

33-00033: Owens-Brockway Glass Container, Inc.—Plant 18 (Cherry Street, Brockway, PA 15824) for reissuance of a Title V Permit to operate a glass containers manufacturing facility in Brockway Borough, **Jefferson County**. The facility's major emission sources include glass melting furnace, refiner, two forehearth, two lehrs, eight raw material handling and silos, cullet handling and storage, batch gathering and mixing, miscellaneous combustion sources, two container forming machines, road fugitives and 100 kW emergency generator and two degreaser units. The facility is major facility for Title V due to its potential to emit NO_x and SO_x.

10-00023: Mercer Lime and Stone Co.—Branchton Plant (560 Branchton Road, Slippery Rock, PA 16057) for a Title V Operating Permit reissuance to operate a lime manufacturing facility in Slippery Rock Township, **Butler County**.

Intent to Issue Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter F.

Southeast Region: Air Quality Program, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428; Thomas McGinley, New Source Review Chief, (610) 832-6242.

46-00096 Georgia Pacific Corp. (600 Righters Ferry Road, Bala Cynwyd, PA 19004-0426) for operation of their paperboard processing facility in Lower Merion Township, **Montgomery County**. The permit is for a non-Title V (State-only) facility. The source of air emissions is two boilers and one production line, with an associated cy-

clone separator. The permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

46-00118: Ursinus College (P. O. Box 1000, Collegeville, PA 19426) for a non-Title V Facility, State-only, Synthetic Minor Operating Permit in Collegeville Borough, **Montgomery County**. The permit is for the operation of 52 boilers and 12 emergency generators firing natural gas, no. 4 or no. 6 oil as fuel. The permit will include monitoring, recordkeeping, reporting and work practice standards designed to keep the facility operating within all applicable air quality requirements.

46-00179: Tuscan-Lehigh Dairies LP (880 Allentown Road, Lansdale, PA 19446) for operation of two boilers at their dairy bottling plant in Upper Gwynedd Township, **Montgomery County**. The permit is for a non-Title V (State-only) facility. The facility has the potential to emit less than 25 tons of VOCs and less than 25 tons per year of NOx; therefore the facility is a Natural Minor. The permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

67-03010: Yorkkraft Inc. (550 South Pine Street, York, PA 17405) for operation of their two spray booths and four UV coaters in York City, **York County**. The facility has a potential to emit 12.2 tons per year of VOCs. The State-only operating permit will contain appropriate conditions designed to keep the facility operating below Title V thresholds for criteria pollutants and within all other applicable air quality requirements.

06-03057: Borough of Bally (P. O. Box 187, Bally, PA 19503) for the operation of a dual stripping tower at their facility in the Borough of Bally, **Berks County**. The State-only operating permit will include limits on the concentration of certain contaminants. The permit will include testing, monitoring, work practices, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

06-05079: United Corrstack, LLP (720 Laurel Street, Reading, PA 19602) for production of roll stock paper from recycled paper at its facility in the City of Reading, **Berks County**. The State-only operating permit will limit emissions to levels below the Title V permit thresholds. The permit will contain emission limits, monitoring, recordkeeping and reporting requirements to ensure the facility complies with the applicable air quality regulations.

36-03108: Bristolpipe (88 Newport Road, Leola, PA 17540) for operation of a plastic pipe manufacturing facility in Upper Leacock Township, **Lancaster County**. The State-only operating permit shall contain testing, monitoring, recordkeeping and reporting requirements, emission restrictions and work practice standards designed to keep the facility operating within all applicable air quality requirements.

36-03019: Flury Foundry Company (1160 Elizabeth Avenue, Harrisburg, PA 17601) for the operation of a brass and bronze foundry in Manheim Township, **Lancaster County**. Annual emissions from this facility are expected to be about 4.0 tons of PM10 per year. The State-only operating permit will include monitoring, recordkeeping, reporting requirements, emission restric-

tions and work practice standards designed to keep the facility operating within all applicable air quality requirements.

Northwest Region: Air Quality Program, 230 Chestnut Street, Meadville, PA 16335-3481; Devendra Verma, New Source Review Chief, (814) 332-6940.

25-00591: Seaway Manufacturing Corp. (2250 East 33rd Street, Erie, PA 16510) for a Natural Minor operating permit for the manufacture of vinyl and metal doors and windows in the City of Erie, **Erie County**.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and

relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to: (1) surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas, active areas disturbed by coal refuse disposal activities and mined areas backfilled and revegetated; and (2) drainage (resulting from a precipitation event of less than or equal to a 1-year 24-hour event) from coal refuse disposal piles.

California District Mining Office: 25 Technology Drive, California Technology Park, Coal Center, PA 15423, (724) 769-1100.

03031302. NPDES Permit NA, T. J. S. Mining, Inc. (R. D. 1, Box 260D, Shelocta, PA 15774), to operate the T. J. S. No. 5 Deep Mine in South Bend Township, **Armstrong County** and Young Township, **Indiana County** and for discharge of treated mine drainage. Surface Acres Proposed 32.3, Underground Acres Proposed 556.7, SCP Acres Proposed 491.3. Receiving streams: Crooked Creek (WWF) and Craig Run (WWF). Application received December 12, 2003.

30841317. NPDES Permit No. PA0213527, Consol Pennsylvania Coal Company (P. O. Box 355, 172 Route 519, Eighty Four, PA 15330), to revise the permit for the Enlow Fork Mine in East Finley Township, **Washington County**, to install a ventilation borehole. Surface Acres Proposed 0.25. No additional discharges. Application received December 31, 2004.

Knox District Mining Office: White Memorial Building, P. O. Box 669, Knox, PA 16232-0669, (814) 797-1191.

16920107 and NPDES Permit No. PA0211435. Transfer of an existing bituminous surface strip and tippel refuse disposal and beneficial use of coal ash operation in Perry and Licking Townships, **Clarion County**, affecting 547 acres. Receiving streams: unnamed tributaries to Cherry Run (CWF). There are no potable surface water supply intakes within 10 miles downstream. Transfer from C & K Coal Company. Application received January 13, 2004.

24020104 and NPDES Permit No. PA0242268. Hepburnia Coal Company (P. O. Box I, Grampian, PA 16838). Revision to an existing bituminous surface strip operation in Fox Township, **Elk County**, affecting 260.0 acres. Receiving streams: Little Toby Creek and unnamed tributaries to Little Toby Creek (CWF). There are no potable surface water supply intakes within 10 miles downstream. Revision to beneficially use coal ash as structural fill and alkaline addition material. Application received January 14, 2004.

Coal Applications Received

Effluent Limits—The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, (814) 472-1900.

32960102 and NPDES Permit No. PA0213314. AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650), permit revision to change the land use from pastureland to unmanaged natural habitat in Canoe Township, **Indiana County**, affecting 262.0 acres. Receiving streams: unnamed tributaries of Canoe Creek (CWF). There are no potable water supply intakes within 10 miles downstream. Application received January 6, 2004.

11813015 and NPDES Permit No. PA0607991. Cooney Brothers Coal Company (P. O. Box 246, Cresson, PA 16630), permit renewal for reclamation only and for continued restoration of a bituminous surface mine in Gallitzin and Logan Townships, **Cambria and Blair Counties**, affecting 170.6 acres. Receiving streams: unnamed tributary to Kittanning Run; to Kittanning Run; and to unnamed tributary to Glenwhite Run (CWF). The first downstream potable water supply intake from the point of discharge is Altoona City Blair County Authority Burgoon Run Glenwhite Surface Withdrawal. Application received January 14, 2004.

Greensburg District Mining Office: Armbrust Building, R. R. 2 Box 603-C, Greensburg, PA 15601-0982, (724) 925-5500.

65-03-02 and NPDES Permit No. PA0250520. Coal Loaders, Inc. (P. O. Box 556, Ligonier, PA 15658). Application for a government financed construction contract for a project to eliminate 1.7 acres of abandoned highwalls and spoil in Derry Township, **Westmoreland County**, affecting 12.2 acres. Receiving streams: unnamed tributary to Union Run (WWF). There is no potable water supply intake within 10 miles from the point of discharge. Application received December 24, 2003.

Moshannon Run District Mining Office: 186 Enterprise Drive; Philipsburg, PA 16866, (814) 342-8200.

17030121 and NPDES Permit No. PA0243671. Moravian Run Reclamation Co., Inc. (605 Sheridan Drive, Clearfield, PA 16830). Commencement, operation and restoration of a bituminous surface mine-auger permit in Penn Township, **Clearfield County**, affecting 43.2 acres. Receiving streams: unnamed tributary to Bell Run (CWF). Application received December 31, 2003.

Coal Applications Withdrawn

Moshannon District Mining Office: 186 Enterprise Drive, Philipsburg, PA 16866, (814) 342-8200.

17860140 and NPDES Permit No. PA0115673. Waroquier Coal Company (P. O. Box 128, Clearfield, PA 16830). Major revision to an existing bituminous surface mine permit for a change in land use from forestland to land occasionally cut for hay. The permit is in Beccaria Township, **Clearfield County** and affects 323 acres. Receiving streams: unnamed tributaries to

Cofinan Run and unnamed tributaries to Muddy Run. Application received August 6, 2003. Permit withdrawn: December 17, 2003.

Noncoal Applications Received

Effluent Limits—The following noncoal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35mg/l	70mg/l	90mg/l
pH*		greater than 6.0; less than 9.0	

*The parameter is applicable at all times.

A settleable solids instantaneous maximum of 0.5 ml/l applied to surface runoff resulting from a precipitation event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901-2454, (570) 621-3118.

6275SM2C7 and NPDES PA0594539. Hanson Aggregates Pennsylvania, Inc. (1900 Sullivan Trail, P. O. Box 231, Easton, PA 18044-0231), renewal of NPDES permit for discharge of treated mine drainage in Limestone and Liberty Townships, **Montour County**. Receiving streams: Chillisquaque Creek (WWF). Application received January 9, 2004.

13930301C3 and NPDES Permit No. PA0595829. Haines & Kibblehouse, Inc. (2052 Lucon Road, P. O. Box 196, Skippack, PA 19474), renewal of NPDES permit for discharge of treated mine drainage in Penn Forest Township, **Carbon County**. Receiving streams: Stony Creek (EV). Application received January 13, 2004.

Knox District Mining Office: White Memorial Building, P. O. Box 669, Knox, PA 16232-0669, (814) 797-1191.

10040301 and NPDES Permit No. PA0242471. Raducz Stone Corporation (284 Rockdale Road, Butler, PA 16002). Commencement, operation and restoration of a shale and sandstone operation in Penn Township, **Butler County**, affecting 27.0 acres. Receiving streams: one unnamed tributary to Thorn Creek and Thorn Creek (WWF). There are no potable surface water supply intakes within 10 miles downstream. Application to include a land use change from forestland and forestland (now abandoned surface mine) to unmanaged natural habitat on lands of Frank J. Raducz. Application received January 7, 2004.

42040301. D & D Stone Company (P. O. Box 87, East Smethport, PA 16730). Commencement, operation and restoration of a shale and sandstone operation in Liberty Township, **McKean County**, affecting 33.6 acres. Receiving streams: Allegheny River (CWF). There are no potable surface water supply intakes within 10 miles downstream. Application to include a land use change from forestland and unmanaged natural habitat to unmanaged natural habitat and industrial/commercial on lands of Michael R. and James P. Duffy. Application received January 7, 2004.

03950301 and NPDES Permit No. 0201359. Glacial Sand & Gravel Company (P. O. Box 1022, Kittanning, PA 16201). Permit renewal application for continued operation and reclamation of an existing noncoal mine in East Franklin Township, **Armstrong County**, affecting 310 acres. Receiving streams: unnamed tributaries to the Allegheny River (WWF). The first potable water supply intake within 10 miles downstream from the point of discharge is West Penn Water Company. Renewal application received January 12, 2004.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the FWPCA (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

E38-142: Farmer's Pride, Inc., P. O. Box 39, 154 West Main Street, Fredricksburg, PA 17026 in Bethel Township, **Lebanon County**, ACOE Baltimore District.

To: (1) install and maintain a box culvert; (2) remove a multiple pipe culvert crossing and stabilize the area; and (3) construct and maintain a 5,430 ft² building addition which will extend into the floodway of Deep Run (WWF), for the purpose of expanding operations at the Bell & Evans, Farmer's Pride Chicken Plant, 154 West Main Street, just north of Route 343 (Fredricksburg, PA Quadrangle N: 13.0 inches; W: 8.3 inches) in Bethel Township, Lebanon County.

E36-776: Office of Lancaster County Engineer, 50 North Duke Street, 7th Floor, Lancaster, PA 17608 in Ephrata Township, **Lancaster County**, ACOE Baltimore District.

To install and maintain a dual span concrete arch bridge structure a total of 66.3 feet in length, across Cocalico Creek (WWF), for the purpose of replacing the existing deteriorating bridge on Royer Road (T-648) approximately 2,250 feet northwest of Rothsville Road (Ephrata, PA Quadrangle N: 8.0 inches; W: 13.0 inches) in Ephrata Township, Lancaster County.

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

E12-146. Steve Tronccone, 585 East 2nd Street, Emporium, PA 15834. Tronccone Gravel Removal in Shippen Township, **Cameron County**, ACOE Baltimore District (Cameron, PA Quadrangle N: 22.25 inches; W: 11.5 inches).

The applicant proposes to remove gravel deposition within the Driftwood Branch of the Sinnemahoning Creek. The extent of the work will have a maximum length of the 150 linear feet and a maximum width of 30 linear feet to a depth not to exceed 6 inches above the water surface.

E12-147. Lumber Township, 213 Rocky Road, Emporium, PA 15834. Hunts Run Road Project in Lumber Township, **Cameron County**, ACOE Baltimore District (Cameron, PA Quadrangle N: 17.95 inches; W: 3.5 inches and Wharton, PA Quadrangle N: 2.6 inches; W: 16.6 inches, N: 4.6 inches; W: 15.25 inches, N: 5.3 inches; W: 15 inches).

The applicant proposes to replace either undersized or failing culvert crossings in four different locations along Hunts Run Road. Each of these locations has different drainage areas thus requiring different designs for each. The location information follows this order: White Head

Run Stream Crossing proposes to remove the existing three 48-inch corrugated metal culvert pipes and replace them with five 60-inch culvert pipes, remove the existing culvert assembly in Colbert Hollow and replace it with two 60-inch culvert pipes, remove the existing 27-inch corrugated metal culvert pipe in an unnamed tributary to Hunts Run and replace it with two 48-inch culvert pipes and to remove the existing 24-inch corrugated metal culvert pipe in an unnamed tributary to Hunts Run and replace it with two 48-inch culvert pipes. The permit application labels the culverts in the unnamed tributaries to Hunts Run as culvert 2 and culvert 1, respectively. This permit proposes to impact a total of 125 feet of stream and does not impact any wetlands.

E57-103. Department of Conservation and Natural Resources, Rachel Carson Office Building, P. O. Box 8451, Harrisburg, PA 17105-8451. Bridge replacement in Laporte Township, **Sullivan County**, ACOE Baltimore District (Eagles Mere, PA Quadrangle N: 12.8 inches; W: 4.2 inches).

To: (1) remove the existing single-span steel bridge which is skewed 75 degrees to the roadway baseline with stone masonry abutments. The existing bridge has a normal span of 28.0 feet, a curb-to-curb width of 13.5 feet, a minimum underclearance of 3.82 feet and a hydraulic opening of 146 square feet; (2) construct and maintain a prestressed concrete spread box beam bridge which is skewed 60 degrees to the roadway baseline, with a single clear span of 35.0 feet, minimum underclearance of 6.2 feet, a curb-to-curb width of 18.0 feet, a normal span of 30.0 feet, a minimum underclearance of 6.2 feet and a hydraulic opening of 185 square feet. R-6 rock will be placed around the superstructure and along the far upstream and downstream channel banks for scour protection; and (3) construct a two-phase temporary diversion system consisting of a dike constructed of precast barrier, polyethylene liner and sandbags. The dike will initially divert water from the near abutment area and then be relocated to divert water from the far abutment area. The project is in Shanersburg Run (HQ-CWF) on Shanersburg Road approximately 0.5 mile from the intersection of Shanersburg Road with SR 154. The project will not impact wetland while impacting approximately 100 feet of waterway and less than 1 acre of earth.

E59-448. John Felton, 942 Camp Trail Road, Quakertown, PA 18951. Private bridge crossing in Middlebury Township, **Tioga County**, ACOE Baltimore District (Crooked Creek, PA Quadrangle N: 17 inches; W: 13.8 inches).

The applicant proposes to replace the existing right abutment of an existing bridge. The work includes removal of the existing right abutment and replacing it with a cast-in-place concrete abutment with railroad tie wing walls. The project will impact a maximum of 40 linear feet of Crooked Creek (WWF) and does not impact any wetlands.

Southwest Region: Water Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

E02-1443. The Meritage Group, LP, 772 Pine Valley Drive, Pittsburgh, PA 15239. The Whispering Pines Residential Development in Plum Borough, **Allegheny County**, Pittsburgh ACOE District (Murrysville, PA Quadrangle N: 14.5 inches; W: 14.0 inches) (Latitude: 40° 27' 13"—Longitude: 79° 43' 28"). The applicant proposes to place fill in 0.02 acre of de minimis areas of wetlands associated with unnamed tributaries to Pierson Run (TSF) for the purpose of constructing The Whisper-

ing Pines Residential Development. The project is approximately 2,000 feet west from the intersection of Lindsey Lane and Old Frankstown Road and will impact 0.02 acre of wetlands and 934.0 linear feet of stream channel.

E02-1447. Department of Transportation, District 11-0, 45 Thoms Run Road, Bridgeville, PA 15017. West End Bridge improvements in the City of Pittsburgh, **Allegheny County**, Pittsburgh ACOE District (Project begins: Pittsburgh West, PA Quadrangle N: 12.7 inches; W: 3.8 inches and ends N: 10.6 inches; W: 4.0 inches) (Latitude: 40° 26' 21"—Longitude: 80° 1' 58"). Applicant proposes to: (1) remove existing structures; (2) construct and maintain the new Steuben Street Connector Bridge, consisting of a single-span beam bridge with a clear span of approximately 91 feet and minimum underclearance of approximately 29.4 feet; (3) to construct and maintain a replacement South Street Bridge, consisting of a single-span beam bridge with a clear span of approximately 42 feet and minimum underclearance of approximately 18 feet; (4) to construct and maintain retaining wall approximately 220 feet long along the right bank; (5) to operate and maintain the existing Ramp A bridge consisting of a concrete arch culvert having a span of approximately 52 feet and underclearance of 29 feet; (6) to construct and maintain two temporary stream crossings; and (7) various stormwater outfalls, all of these structures are in or along or across Saw Mill Run (WWF). The work is part of the proposed West End Bypass Improvement Project—Phase 2. The project begins at the south end of the West End Bridge and ends near the intersection of the West End Bypass and Shaler Street in the City of Pittsburgh, Allegheny County. The project proposes to directly effect, through retaining walls 220 feet of stream channel and through bridges, approximately 250 feet of stream channel. No vegetated wetlands will be impacted.

E03-417. Allegheny Energy Supply Company, LLC, 4350 Northern Pike, Monroeville, PA 15146-2841. Limestone Run Abandoned Mine Reclamation Wetland Fill in Washington Township, **Armstrong County**, Pittsburgh ACOE District (East Brady, PA Quadrangle N: 6.5 inches; W: 6.0 inches) (Latitude: 40° 54' 10"—Longitude: 79° 32' 30"). The applicant proposes to place and maintain fill in 3.05 acres of wetlands (PEM) as part of the reclamation of an abandoned strip mine. To compensate for loss of wetlands, the applicant proposes the construction of 3.4 acres of replacement wetlands onsite. The project is off of T-577, approximately 1.5 miles from its intersection with SR 4017.

E04-300. Calaco, Inc., 307 4th Avenue, Suite 604, Pittsburgh, PA 15222. Pine Run Townhouse culvert and wetland fill in New Sewickley Township, **Beaver County**, Pittsburgh ACOE District (Baden, PA Quadrangle N: 11.6 inches; W: 15.4 inches) (Latitude: 40° 41' 20"—Longitude: 80° 14' 10"). The applicant proposes to construct and maintain a dual 60-inch diameter HDPE culvert for a distance of approximately 76 within a tributary to Crows Run (WWF) with 6 feet of riprap on the upstream and downstream ends, to place and maintain fill for a distance of approximately 400 feet along the right bank flood way of Crows Run, to construct and maintain various stormwater outfalls to Crows Run and to place and maintain fill in 0.02 acre (PEM). This is a de minimis impact, therefore no wetland mitigation is required. The encroachments are for a proposed development to be known as Pine Run Townhouses. The project is on the west side of Pine Run Road, approximately 1,000 feet north of its intersection with 9th Street. The total proposed impacts are 76-foot culvert in Crows Run,

approximately 400 feet of fill in the floodway and 0.02 acre of wetland fill. This permit application was originally published under E04-292, which was withdrawn on July 1, 2003.

E26-314. North Union Township Supervisors, 7 South Evans Station Road, Lemont Furnace, PA 15401. Nell Street (T-993) Culvert over Bennington Spring Run in North Union Township, **Fayette County**, Pittsburgh ACOE District (Uniontown, PA Quadrangle N: 0.5 inch; W: 10.7 inches) (Latitude: 39° 52' 38"—Longitude: 79° 41' 59"). The applicant proposes to remove the existing structure and to construct and maintain a 32.0-foot long bottomless 13.0-foot by 3.0-foot aluminum box culvert in Bennington Spring Run (WWF) for the purpose of improving transportation safety and roadway standards. The project is on T-993 (Nell Street).

E30-208. Borough of Waynesburg, 90 East High Street, Waynesburg, PA 15370. Waynesburg Borough Municipal Park improvements in Waynesburg Borough, **Greene County**, Pittsburgh ACOE District (Waynesburg, PA Quadrangle N: 3.8 inches; W: 7.8 inches) (Latitude: 39° 53' 15"—Longitude: 80° 10' 18"). The applicant proposes to improve and maintain the existing Waynesburg Borough Municipal Park by adding parking, a driveway, sidewalk, play ground equipment and picnic pavilion in the 100-year floodplain of Purman Run (WWF). The park is between High and Greene Streets.

E63-556. Maronda Homes, Inc., 202 Park West Drive, Pittsburgh, PA 15275. Walnut Ridge Culvert in North Strabane Township, **Washington County**, Pittsburgh ACOE District (Washington East, PA Quadrangle N: 21.2 inches; W: 9.5 inches) (Latitude: 40° 14' 30"—Longitude: 80° 11' 53"). The applicant proposes to remove the existing driveway crossing, to construct and maintain a new 84-inch diameter RCCP culvert (depressed 6 inches) approximately 110 feet long and a riprap energy dissipater for 46 feet on the downstream end of the culvert, to place and maintain fill along the left bank flood plain for approximately 300 feet and construct and maintain a stormwater outfall to, in and along an unnamed tributary to Chartiers Creek (WWF) for a proposed residential development to be known as Walnut Ridge. The project will be on the south side of SR 519 approximately 0.6 mile east of its southbound exit off of SR 79 in North Strabane Township, Washington County. The total proposed stream impacts are 185 feet to an unnamed tributary to Chartiers Creek.

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E25-682. Department of Transportation, District 1-0, 255 Elm Street, P. O. Box 398, Oil City, PA 16301. SR 0020, Section 11M Across tributaries to Turkey Creek in Springfield Township, **Erie County**, ACOE Pittsburgh District (East Springfield, PA Quadrangle N: 13.6 inches; W: 15.8 inches).

To conduct the following activities in tributaries to Turkey Creek on SR 0020, Section 11M just east of its intersection with SR 5:

1. To remove the existing structure and to install and maintain a 124-foot long, 76-inch wide by 48-inch high elliptical reinforced concrete pipe stream enclosure approximately 400 feet east of SR 5.

2. To remove the existing structure and to install and maintain twin 180-foot long, 48-inch diameter reinforced concrete pipe stream enclosure approximately 700 feet east of SR 5.

Major Amendment E37-147, Department of Transportation, District 11-0, 45 Thoms Run Road Bridgeville, PA 15017-2853. SR 2007, Section L01, Segment 0040, Offset 0000 Stream Enclosure Replacement in an unnamed tributary to Slippery Rock Creek (CWF) in Perry Township, **Lawrence County**, ACOE Pittsburgh District (Portersville, PA Quadrangle N: 3 inches; W: 12.5 inches).

The original permit giving its consent to remove the existing structure and to construct and maintain a 120-foot long, 12-foot wide by 6.5-foot high precast concrete pipe arch culvert stream enclosure is to be amended to give consent to remove the existing structure and to construct and maintain a 120-foot long, 12-foot wide by 6.5-foot high precast concrete box culvert in an unnamed tributary to Slippery Rock Creek (CWF, perennial) on SR 2007, Section L01, Segment 0040, Offset 0000 approximately 0.95 mile northwest of the intersection of SR 2007 (Armstrong Road) and SR 488. The project will directly affect a total of 120 linear feet of stream channel.

ENVIRONMENTAL ASSESSMENTS

Southwest Region: Water Management Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

EA32-006. Robindale Energy Services, Inc., 7 Riverside Plaza, Blossburg, PA 16912. Dilltown Mine Reclamation Project in Brushvalley Township, **Indiana County**, Pittsburgh ACOE District (New Florence, PA Quadrangle N: 19.65 inches; W: 4.08 inches).

The applicant proposes to place and maintain fill in a reported 0.45 acre of wetland (PEM), 200 linear feet of an unnamed tributary within the Blacklick Creek Watershed (CWF) and 0.09 acre of open water in association with a mine reclamation project. The project will fill three abandoned mine surface pits and eliminate approximately 4,150 feet of highwall with beneficial use flyash, soil placement, grading and seeding. The project will convert these areas into unmanaged grassland. The entrance road to the site is off of SR 0056, approximately 4 miles north of its intersection with SR 0022

Central Office: Bureau of Waterways Engineering, Rachel Carson State Office Building, Floor 3, 400 Market Street, Harrisburg, PA 17105.

EA02-006CO. Houston-Starr Company, 300 Brushton Avenue, Pittsburgh, PA 15221. Monroeville Borough, **Allegheny County**, ACOE Pittsburgh District.

Project proposes to construct, operate and maintain a nonjurisdictional dam (detention basin no. 2) and to modify an existing nonjurisdictional dam (detention basin no. 1). The dams are across a tributary to Simpson Run in Monroeville Borough, Allegheny County. Detention basin no. 2 will impact approximately 100 linear feet of stream channel for stormwater management purposes. The embankment of detention basin no. 1 will be lowered so the reservoir will have a maximum depth of 14.27 feet. The dams are approximately 3,300 feet southwest of the intersection of Saunders Road (SR 2100) and Meadowbrook Road (Murrysville, PA Quadrangle N: 4.95 inches, W: 15.95 inches).

D43-009EA. Borough of Grove City, P. O. Box 110, Grove City, PA 16127. Pine Township, **Mercer County**, ACOE Pittsburgh District.

Project proposes to breach and remove an unnamed dam across Wolf Creek (CWF) to eliminate a threat to public safety and to restore the stream to a free flowing condition. The dam is directly under SR 208 approximately 500 feet east of the intersection of SR 208 and SR 173 (Grove City, PA Quadrangle N: 7.6 inches; W: 11.0 inches).

D54-043EA. Schuylkill County Municipal Authority, 221 South Centre Street, P. O. Box 960, Pottsville, PA 17901, Tremont Township, **Schuylkill County**. AOE Baltimore District.

Project proposes to breach and remove two unnamed dams across Poplar Creek (CWF) to eliminate a threat to public safety and to restore the stream to a free flowing condition. The dams are on the property of the Schuylkill County Municipal Authority approximately 3/4 mile southwest of the intersection of U. S. Route 209 and SR 125 (Pine Grove, PA Quadrangle N: 22.3 inches; W: 3.9 inches).

ACTIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have

submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board

within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description: Approval of a revision on January 12, 2004, to the Official Plan of East Providence Township, Bedford County by Ruth Colledge. Project involves construction of a small flow treatment facility to serve an existing single-family dwelling 1/8 mile east of the intersection of SR 05089 and SR 05040. Treated effluent is to be discharged into a dry stream channel that empties into Tub Mill Run. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES permits or WQM permits must be obtained in the name of the owner as appropriate.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988**Settlement under the Comprehensive Environmental Response, Compensation and Liability Act and the Hazardous Sites Cleanup Act Hanover Township, Lehigh County**

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) and the Comprehensive Environmental Response, Compensation and Liability Act (CERCLA) (42 U.S.C.A. §§ 9601—9675), has entered into a proposed settlement with a Mutual Release and Settlement Agreement with Concept Sciences, Inc., PPT Research, Inc., Irl E. Ward, Jr., Brian D. Heath, Lehigh Realty Associates, III, James H. Redington, John Adams and the Estate of Jacob Quick c/o Judith Quick (Defendants). The proposed Mutual Release and Settlement Agreement concerns settlement of the Department's claimed costs that were incurred subsequent to an interim response action conducted by the Department at the Concept Sciences, Inc. facility (Site), a former chemical manufacturing facility. The Site was at 749 Roble Road, Lehigh Valley Industrial Park III, Hanover Township, Lehigh County. The interim response action was initiated on February 19, 1999, in response to an explosion at the Site.

The Department has agreed to accept \$300,000 in settlement of the Defendants' alleged liability for response costs at the Site.

This notice is provided under section 1113 of the HSCA (35 P. S. § 6020.1113). Section 1113 of the HSCA provides that the settlement shall become final upon the filing of the Department's response to significant written comments. The proposed Mutual Release and Settlement Agreement, which contains the specific terms of the settlement, is available for public review and comment. The proposed Mutual Release and Settlement Agreement can be examined from 8 a.m. to 4 p.m., Monday through Friday, at the Department's Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18711 by contacting Woodrow Cole at (570) 826-2511 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD). A public comment period on the proposed Mutual Release and Settlement Agreement will extend for 60 days from the date of publication. The Department will accept written comments concerning the proposed Mutual Release and Settlement Agreement until April 1, 2004. Comments concerning the proposed Mutual Release and Settlement Agreement can be sent to Woodrow Cole at the previous address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential

remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501–508 and 701–704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501–508 and 701–704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of

itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

E15-698. Newman Development Group, 3101 Shippers Rd., P. O. Box 678, Vestal, NY 13851-0678, North Coventry Township, **Chester County**, ACOE Philadelphia District.

To construct and maintain water obstructions and encroachments associated with the proposed Town Square Plaza Development. The site is just south of the intersection of SR 0100 and Cedarville Road in North Coventry Township, Chester County.

Work will consist of:

1. To place fill in 0.03 acre of wetland and to enclose 400 linear feet of two watercourses (tributaries to the Schuylkill River).

2. To construct and maintain 60 linear feet of 16-foot by 5.25-foot open-bottom arch culvert and associated utility line stream crossings in the southern unnamed tributary to the Schuylkill River (HQ-TSF) (Pottstown, PA Quadrangle N: 18.2 inches; W: 4.7 inches).

3. To expand the reservoir of an existing pond with a non-jurisdictional dam from a 0.56-acre reservoir (POW) to a 0.77-acre reservoir (POW) for use as a sediment basin during construction and as a stormwater management facility thereafter (basin 1). Work activities also include replacement and maintenance of approximately 60 linear feet of an 18-inch culvert in the northern unnamed tributary to the Schuylkill River (HQ-TSF) and associated excavation upstream of the culvert for flood storage (Pottstown, PA Quadrangle N: 18.4 inches; W: 4.7 inches).

The applicant proposes to construct a total of 0.33 acre of replacement wetlands in two areas (0.28 acre and 0.05 acre) to compensate for the 0.10 acre of wetland (PEM) impacts associated with the proposed project. This project will include work within a Department of Transportation right-of-way which will be authorized by General Permits, including extending a 30-inch RCP culvert pipe, 27 linear feet, which carries the southern unnamed tributary to the Schuylkill River (HQ-TSF) under Hanover Street (SR 1037); the placement of fill in 0.09 acre of wetlands (PEM) for the construction of the proposed "Harp Farm Road" from Hanover Street (SR 1037) (Pottstown, PA

Quadrangle N: 18.2 inches; W: 4.4 inches) and to extend a 4-foot by 6-foot box culvert, 37 linear feet, which carries the southern unnamed tributary to the Schuylkill River (HQ-TSF) under SR 0100 (Pottstown, PA Quadrangle N: 18.2 inches; W: 4.9 inches).

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

E45-432. Polk Township, P. O. Box 137, Kresgeville, PA 18333-0137. Polk Township, **Monroe County**, Army Corps of Engineers Philadelphia District, Subbasin 2-B.

Remove the existing structure and to construct and maintain an open-bottom, corrugated aluminum box culvert having a span of approximately 11.1 feet and an average underclearance of approximately 5.2 feet in a tributary to Pohopoco Creek (CWF, perennial). The project is along Township Road T414 (Serfass Road), approximately 0.15 mile east of SR 3007 (Burger Hollow Road) (Brodheads ville, PA Quadrangle N: 7.7 inches; W: 12.4 inches). The project proposes to directly affect 38 linear feet of stream channel.

E58-255. Department of Transportation, Engineering District 4-0, P. O. Box 111, Scranton, PA 18501. New Milford Township, **Susquehanna County**, Army Corps of Engineers Baltimore District (Subbasin 04E).

To remove the existing structure and to construct and maintain a road crossing of a tributary to Gillespies Pond (HQ-CWF), consisting of a 16.0-foot by 4.0-foot and a length of 45.0 feet precast concrete box culvert with its invert depressed 1.0 foot below streambed elevation. The project also includes a temporary stream diversion impacting 80.0 linear feet of stream. The project is along SR 2061, Segment 0110, Offset 1300, approximately 1.2 miles southwest of the intersection of SR 2061 and SR 0848 (Harford, PA Quadrangle N: 16.3 inches; W: 15.0 inches).

E58-256. Department of Transportation, Engineering District 4-0, P. O. Box 111, Scranton, PA 18501. New Milford Township, **Susquehanna County**, Army Corps of Engineers Baltimore District (Subbasin 04E).

To remove the existing structure and to construct and maintain a road crossing of a tributary to Gillespies Pond, consisting of a 16.0-foot by 4.0-foot and a length of 40.0 feet precast concrete box culvert with its invert depressed 1.25 feet below streambed elevation. The project also includes a temporary stream diversion impacting 115.0 linear feet of stream. The project is along SR 2061, Segment 0110, Offset 2065, approximately 1.1 miles southwest of the intersection of SR 2061 and SR 0848 (Harford, PA Quadrangle N: 16.5 inches; W: 14.7 inches).

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

E06-584: Borough of Fleetwood, 110 West Arch Street, Fleetwood, PA 19522 in Fleetwood Borough, **Berks County**, ACOE Philadelphia District.

To remove an existing 32-foot long by 3-foot wide steel and wooden plank bridge and to install and maintain a 40-foot long by 6-foot wide prefabricated pedestrian bridge across an unnamed tributary to Willow Creek (CWF) for the purpose of improving the recreational and educational value of the greenway, at a point approximately 1,400 feet east of North Richmond Street (Fleetwood, PA Quadrangle N: 15.5 inches; W: 12.4 inches) in Fleetwood Borough, **Berks County**.

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701.

E14-452. John H. Mitchell, Jr., P. O. Box 215, Lemont, PA 16851. Mount Nittany Terrace—Phase II in College Township, **Centre County**, ACOE Baltimore District (State College, PA Quadrangle N: 12.7 inches; W: 8.1 inches).

To construct and maintain: (1) a 95-foot long 48-inch diameter CPEP culvert for a public road crossing; (2) a 155-foot long 48-inch diameter CPEP culvert for a public road crossing; (3) a 400-foot long realigned and R-5 rock armored intermittent stream channel next to a proposed public road; (4) two 87-foot long by 48-inch diameter CPEP culverts for a public road crossing; and (5) four 18-inch diameter stormwater outfalls, into or crossing of an intermittent unnamed tributary of Spring Creek for the expansion of a public subdivision 1,500 feet southwest on First Avenue from its intersection with Struble Road. This permit was issued under section 105.13(e) "Small Projects." This permit also includes 401 Water Quality Certification.

E17-387. Ferguson Township, 1555 McGee Road, Curwensville, PA 16833-8120. Wendell Road Bridge Replacement over Gazzam Run in Ferguson Township, **Clearfield County**, ACOE Baltimore District (Curwensville, PA Quadrangle N: 2.9 inches; W: 11.2 inches).

To remove an existing bridge and construct, operate and maintain a single-span bridge to carry Wendell Road (T-426) across Gazzam Run. The single-span bridge shall be constructed with prestressed concrete spread box beams that provide a minimum normal span of 50 feet, clear width of 26 feet and underclearance of 4.5 feet. Since Gazzam Run is protected as a wild trout and stocked trout fishery, no construction or future repair work shall be conducted in or along the stream channel between October 1 and December 31 or April 1 and June 15 without the prior written permission from the Fish and Boat Commission. Bridge construction shall be conducted in stream low flow conditions and all in-stream abutment and wingwall construction shall be completed in dry work conditions through dam and pumping or fluming stream flow around work areas. Construction work also includes the installation of R-8 rock for footing scour protection. All rock scour protection shall have openings or voids choked with small, clean stone materials to avoid stream flow loss. The bridge construction project is along the eastern right-of-way of SR 0729 approximately 675 feet east of SR 0729 and Wendell Road (T-426) intersection. This permit authorizes the construction, operation, maintenance and removal of temporary stream diversions, cofferdams, road crossings and causeways. All temporary structures shall be constructed with clean rock, clear of fines; upon completion of the bridge, all structures removed with disturbed waterway and wetland areas being restored to original contours and elevations. The 0.01 acre of wetland impacts incurred by bridge removal and construction are deemed de minimis and replacement of wetland 0.01 acre of wetland shall not be required.

E17-388. Ferguson Township, 1555 McGee Road, Curwensville, PA 16833-8120. Wagoner Road Bridge Replacement over Gazzam Run in Ferguson Township, **Clearfield County**, ACOE Baltimore District (Curwensville, PA Quadrangle N: 0.7 inch; W: 11.4 inches).

To remove an existing bridge and construct, operate and maintain a single-span bridge to carry Wagoner Road (T-431) across Gazzam Run. The single-span bridge shall be constructed with prestressed concrete spread box

beams that provide a minimum normal span of 35 feet, clear width of 26 feet and underclearance of 4 feet. Since Gazzam Run is protected as a wild trout and stocked trout fishery, no construction or future repair work shall be conducted in or along the stream channel between October 1 and December 31 or April 1 and June 15 without the prior written permission from the Fish and Boat Commission. Bridge construction shall be conducted in stream low flow conditions and all in-stream abutment and wingwall construction shall be completed in dry work conditions through dam and pumping or fluming stream flow around work areas. Construction work also includes the installation of R-8 rock for footing scour protection. All rock scour protection shall have openings or voids choked with small, clean stone materials to avoid stream flow loss. The bridge construction project is along the eastern right-of-way of SR 0729 approximately 235 feet east of SR 0729 and Wagoner Road (T-431) intersection. This permit authorizes the construction, operation, maintenance and removal of temporary stream diversions, cofferdams, road crossings and causeways. All temporary structures shall be constructed with clean rock, clear of fines; upon completion of the bridge, all structures removed with disturbed waterway and wetland areas being restored to original contours and elevations. The 0.03 acre of wetland impacts incurred by bridge removal and construction are deemed de minimis and replacement of wetland 0.03 acre of wetland shall not be required.

E17-389. Department of Transportation, Engineering District 2-0, P. O. Box 342, Clearfield, PA 16830. SR 2027, Section A01 Bridge Replacement in Bradford Township **Clearfield County**, ACOE Baltimore District (Wallacetown, PA Quadrangle N: 22.2 inches; W: 15.4 inches).

To remove an existing single-span bridge and construct, operate and maintain a precast concrete arch culvert to carry SR 2027, Section A01 across Roaring Run to improve public highway safety. The precast concrete arch culvert shall be constructed with a minimum span of 24 feet, rise of 10 feet and maximum length of 100 feet with the culvert invert depressed 1 foot. The culvert construction project is along SR 2027 at the intersection with Bradford Township Road No. 313. This permit also authorizes the construction, operation, maintenance and removal of temporary construction road crossings, stream diversions and cofferdams. All temporary structures shall be constructed with clean rock, free of fines and silts or other nonerodible material. Upon completion of the bridge construction, all temporary structures shall be completely removed from the channel and floodplain.

E53-395: Harrison Township, P. O. Box 92, Harrison Valley, PA 16927. Fox Hill Road Bridge Replacement over an unnamed tributary Cowanesque River in Harrison Township, **Potter County**, ACOE Baltimore District (Potter Brook, PA Quadrangle N: 10.7 inches; W: 16.7 inches).

To remove an existing single-span bridge and construct, operate and maintain a public road crossing an unnamed tributary to the Cowanesque River. The public road crossing shall be constructed to carry T-485 (Fox Hill Road) across the unnamed tributary with a single corrugated metal culvert pipe. The corrugated metal culvert pipe shall have a minimum diameter of 6 feet and a depression of 0.5 foot below the existing streambed elevations. The 6-foot diameter culvert pipe shall be installed between existing concrete bridge abutments with R-7 rip rap outlet protection along both stream banks. The public road crossing shall also include timber-cribbing headwalls. All construction and future work shall

be conducted at stream low flow. The Fox Hill Road project is along the northern right-of-way of SR 0049 approximately 4,100 feet north of T-485 and SR 0049 intersection. This permit does not authorize any temporary or permanent wetland impacts and as such, the permittee shall ensure no wetland impacts result from the removal of the existing bridge or construction of the proposed road crossing. This permit was issued under section 105.13(e) "Small Projects." This permit also includes 401 Water Quality Certification.

E02-1387. Crossing of Wexford, LP, P. O. Box 297, Wexford, PA 15090. Wetland fill in Marshall Township, **Allegheny County**, Pittsburgh ACOE District (Emsworth, PA Quadrangle N: 21.5 inches; W: 10.7 inches) (Latitude: 40° 37' 06"—Longitude: 80° 01' 39"). To place and maintain fill in 0.045 acre of wetlands (PEM) adjacent to an unnamed tributary to Pine Creek (CWF) for the purpose of constructing the Crossing of

Wexford residential development. The project is on the east side of Wexford Run Road, approximately 240 feet southeast from the intersection of Wexford Run Road and Bayne and Wexford Road. The project will permanently impact 0.045 acre of PEM wetlands.

E02-1437. Mills Corporation, 1300 Wilson Boulevard, Suite 400, Arlington, VA 22209. Freeport Road Bridge in Harmar Township, **Allegheny County**, Pittsburgh ACOE District (New Kensington, PA Quadrangle N: 6.6 inches; W: 12.6 inches) (Latitude: 40° 32' 11"—Longitude: 79° 50' 26"). To operate and maintain an existing single pier bridge having a span of approximately 141 feet and underclearance of 22.9 feet across Deer Creek (WWF) and to widen and maintain the bridge approximately 16.7 feet on the downstream side. The project is part of a proposed development known as Pittsburgh Mills; the bridge widening is needed for anticipated additional mall traffic. The project is on Freeport Road (SR 1001) approximately 200 feet west of its intersection with SR 910.

E11-302. Department of Transportation, 1620 North Juniata Street, Hollidaysburg, PA 16648. St. Clair Road Stockpile in Lower Yoder Township, **Cambria County**, Pittsburgh ACOE District (Johnstown, PA Quadrangle N: 16.2 inches; W: 11.8 inches) (Latitude: 40° 20' 21"—Longitude: 78° 57' 35"). To relocate and maintain approximately 360 linear feet of an unnamed tributary to St. Clair Run (CWF). The length of the relocated channel will be reduced to approximately 160 linear feet. To restore and maintain 281 linear feet of the floodway of St. Clair Run (CWF) by excavating the left bank of said stream. To permanently place and maintain fill in 0.36 acre of PEM wetland. The project proposes to directly impact, through relocation, 360 linear feet of intermittent stream (200 linear feet of stream will be lost), through restoration, 0.12 acre of floodway and through placement of fill, 0.36 acre of PEM wetland. To compensate for the wetland impacts, the applicant shall make a monetary contribution to the Pennsylvania Wetland Replacement Project. The purpose of the project is to expand the St. Clair Road Stockpile (No. 17).

E63-547. Ed McGavitt, 50 Speers Street, Belle Vernon, PA 15102. Barge mooring facility in Speers Borough, **Washington County**, Pittsburgh ACOE District (Monongahela, PA Quadrangle N: 0.5 inch; W: 1.4 inches) (Latitude: 40° 07' 40"—Longitude: 79° 53' 06"). To operate and maintain the existing barge mooring facility constructed under Permit No. 20070 having a length of 1,225 feet and a minimum width of 156 feet (as measured from the normal pool elevation) in the channel and along the left bank of the Monongahela River on the east side of SR 88, approximately 1,700 feet downstream from the intersection of SR 88 and the Interstate Route 70 bridge.

E25-676. Millcreek Township Supervisors, 3608 West 26th Street, Erie, PA 16506. Zimmerly Road (T-651) Bridge in Millcreek Township, **Erie County**, ACOE Pittsburgh District (Swanville, PA Quadrangle N: 10.2 inches; W: 2.5 inches).

The applicant proposes to remove the existing structure and to construct and maintain a prestressed concrete adjacent box beam bridge having a clear span of 95 feet and an average underclearance of 15 feet on a 75 degree skew across Walnut Creek (CWF, MF, perennial) (Swanville, PA Quadrangle N: 10.2 inches; W: 2.5 inches) on Zimmerly Road (T-651) approximately 150 feet west of the intersection of Zimmerly Road (T-651) and Loves

Road. The project includes rip-rap protection and relocation of an existing 8-inch diameter sanitary sewer line to attach to the new structure. The project proposes to directly affect 75 linear feet of stream channel.

E25-677, Department of Transportation, District 1-0, 255 Elm Street, P. O. Box 398, Oil City, PA 16301-1412. SR 0006 Bridge Replacement in the Borough of Union City, **Erie County**, ACOE Pittsburgh District (Union City, PA-NY Quadrangle N: 4.2 inches; W: 13.0 inches).

The applicant proposes to remove the existing structure and: (1) to construct and maintain a rolled steel I-beam bridge having a clear span of 75 feet and an underclearance of 11.25 feet on a 90 degree skew across South Branch French Creek (CWF, perennial) on SR 0006 (U. S. Route 6), Section B03, Segment 0260, Offset 1446 approximately 0.5 mile north of the intersection of SR 0006 and SR 0008; and (2) to install of a temporary pedestrian bridge approximately 75 feet upstream of the bridge. The project proposes to directly affect a total of approximately 125 linear feet of stream channel.

E25-680, Millcreek Township School District, Millcreek Education Center, 3740 West 26th Street, Erie, PA 16506-2096. Asbury Playfields in Millcreek Township, **Erie County**, ACOE Pittsburgh District (Swanville, PA Quadrangle N: 11.2 inches; W: 7.3 inches).

The applicant proposes to fill 0.048 acre (de minimis) of nonexceptional value wetland for the construction of playfields adjacent to the Asbury Middle School approximately 0.2 mile southwest of the intersection of West 38th Street and Asbury Road. The project proposes to directly affect 0.048 acre of wetlands.

E27-072, Forest County Commissioners, Forest County Courthouse, Tionesta, PA 16353. Elm Street Bridge Rehabilitation in Tionesta Borough and Township, **Forest County**, ACOE Pittsburgh District (Tionesta, PA Quadrangle N: 20.0 inches; W: 10.3 inches).

The applicant proposes to operate and maintain a concrete arch bridge having a three clear spans of approximately 89 feet each and having an underclearance of approximately 21 feet on a 90 degree skew across Tionesta Creek (CWF, perennial) on (T-394) Elm Street approximately 0.8 mile southeast of the intersection of SR 36 and U. S. Route 62 in Tionesta Borough and Tionesta Township, Forest County. The proposed maintenance project involves: (1) construction of a 0.5-foot facing on the piers and abutments up to the underside of the arches; (2) repairs to concrete on the underside of the arches and spandrel walls; and (3) placement of R-6 riprap at the upstream end of pier no. 2 to fill a scour hole.

E61-263, Department of Transportation, District 1-0, 255 Elm Street, P. O. Box 398, Oil City, PA 16301. SR 4009, Segment 0070, Offset 1678 Across East Branch Sugar Creek in Oakland Township, **Venango County**, ACOE Pittsburgh District (Dempseytown, PA Quadrangle N: 3.1 inches; W: 11.3 inches).

To remove the existing structure and to construct and maintain a prestressed concrete adjacent box beam bridge having a clear span of 82.34 feet and an underclearance of 13.8 feet on a 65 skew across East Branch Sugar Creek on SR 4009, Segment 0070, Offset 1678 approximately 2 miles south of the Village of Sunville.

WQC41-001. Certification Request Initiated by **Chief, Civil Project Development Branch, Department of the Army, Baltimore District, U. S. Army Corp. of Engineers**, P. O. Box 1715, Baltimore, MD 21203-1715.

Date of Initial *Pennsylvania Bulletin* Notice: December 6, 2003

Chief, Civil Project Development Branch, Department of the Army, Baltimore District, U.S. Army Corp. of Engineers, P. O. Box 1715, Baltimore, MD 21203-1715. Loyalsock Township, **Lycoming County**, Baltimore District.

Project Description: The proposed project is to place approximately 1,500 linear feet of R-7 rock rip-rap protection along the west bank of Loyalsock Creek (TSF). The project site is west of Montoursville Borough in Loyalsock Township, Lycoming County and extends from approximately the Interstate 180 bridge, upstream 1,500 feet, to a point near the mouth of Mill Creek (Montoursville North, PA Quadrangle N: 0.5 inch, W: 8.45 inches). The purpose of the project is to stabilize the streambank and to protect an existing sewer line. Rock will be placed over the sewer line and along the creek embankment to protect them from further degradation caused by erosion. In addition to the impact to the stream channel and floodway, it is proposed to temporarily disturb approximately 0.06 acre of palustrine scrub-shrub wetlands, which will be restored upon completion of the project.

Final Action on Request: Approved

SPECIAL NOTICES

Request for Comment and Notice of Public Meeting for the Proposed Total Maximum Daily Loads (TMDLs) for the Brubaker Run Watershed in Cambria County

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931.

The Department of Environmental Protection (Department) is holding a public meeting on Tuesday, February 17, 2004, at 6:30 p.m. at the Saint Thomas Church, Ashville, PA, to discuss and accept comments on a proposed TMDL. The proposed TMDL was established in accordance with the requirements of the 1996 Section 303(d) of the Clean Water Act. Two stream segments in the Brubaker Run Watershed have been identified as impaired on the 1996, 1998 and 2002 Pennsylvania 303(d) lists due to depressed pH and/or high concentrations of metals. The listed segments and miles degraded are shown in the following table:

Stream Code	Stream Name	Miles Degraded
26489 (Segment 4026)	Brubaker Run	2.9
26489 (Segment 990819-0920-LMS)	BrubakerRun	7.23

The proposed plan provides calculations of the stream's total capacity to accept metals (aluminum, iron and manganese) and pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

Parameter	Criterion value (mg/l)	Total Recoverable/Dissolved
Aluminum	0.75	Total Recoverable
Iron	1.5	Total Recoverable
Manganese	1.00	Total Recoverable
pH	6.0—9.0	N/A

The primary pollutant source for the watershed is abandoned mine workings. This watershed was heavily mined for coal in the 20th century. The effects of this are still present. The TMDL consists of both load allocations, which are made to nonpoint sources of pollution and waste load allocations, which are made to point sources of pollution.

The TMDL was developed using Monte Carlo Simulation (MCS) to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. MCS allows for the expansion of a dataset based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is field data collected throughout 2001.

The data and all supporting information used to develop the proposed TMDL are available from the Department. To request a copy of the proposed TMDL and an information sheet, contact Miles Baird, Cambria District Mining Office, 286 Industrial Park Road, Ebensburg, PA 15931, (814) 472-1900 (between 8 a.m. and 3 p.m., Monday through Friday), mbaird@state.pa.us. Directions to the meeting place can also be obtained through Miles Baird.

The TMDL can be viewed and printed by accessing the Department's website: www.dep.state.pa.us (DEP Keyword: TMDL).

Written comments will be accepted at the previous address and must be postmarked by March 31, 2004. Persons who plan to make a presentation at the public meeting should notify the Department by 4 p.m. on Tuesday, February 10, 2004. The Department will consider all comments in developing the final TMDL, which will be submitted to the EPA for approval.

Availability of the General NPDES Permit for Discharges from Small Flow Treatment Facilities (PAG-4)

The Department of Environmental Protection (Department) announces the availability of the final General NPDES Permit for Discharges from Small Flow Treatment Facilities (PAG-4). A notice advertising a 30-day public comment period on the draft General Permit was published at 33 Pa.B. 5784 (November 22, 2003). The Department did not receive any public comments on the draft General Permit during the public comment period. The Department made nonsubstantive changes to the draft General Permit, before its finalization, to enhance the clarity of the document. The final General Permit will be effective February 5, 2004, and expires on February 4, 2009.

The final General Permit is now available and is posted on the Department's website: www.dep.state.pa.us (DEP Keyword: DEP Permits; click on General Permits).

The General Permit package may also be obtained by contacting the Department of Environmental Protection, Bureau of Water Supply and Wastewater Management,

Division of Wastewater Management, Rachel Carson State Office Building, P. O. Box 8774, 11th Floor, Harrisburg, PA 17105-8774, (717) 787-8184, truttroutma@state.pa.us.

Proposed Pennsylvania NPDES Individual Permit for Stormwater Discharges from Department of Transportation Roadway Systems in Urbanized Areas

Under The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and sections 1905-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P.S. §§ 510-5, 510-17 and 510-20), the Department of Environmental Protection (Department) seeks public comment on the Commonwealth's proposed NPDES Individual Permit for Stormwater Discharges for the Department of Transportation (DOT) roadway systems (PENNDOT MS4). The United States Environmental Protection Agency's Phase II Stormwater Permitting regulation in 40 CFR 122 requires permitting of small municipal separate stormwater systems (MS4s). The Department's proposed PENNDOT MS4 is consistent with Federal and State regulations and will be operative within all urbanized areas, as defined by the Bureau of Census.

The proposed PENNDOT MS4 permit package is designed to reduce the impact of regulated stormwater discharges to the maximum extent practicable. The permit proposes the DOT's stormwater management program meet, at a minimum, the six following control measures: (1) public education and outreach; (2) public participation and involvement; (3) illicit discharge detection and elimination; (4) construction site stormwater runoff control; (5) post-construction stormwater management in new development and redevelopment; and (6) pollution prevention and good housekeeping for DOT roadway system operations and maintenance. In developing the proposed PENNDOT MS4 permit, the Department streamlined the permit approval process to develop a more practical approach for encouraging compliance with applicable State and Federal requirements.

The proposed PENNDOT MS4 permit package is available for review by writing to the Department of Environmental Protection, Bureau of Watershed Management, 400 Market Street, 10th Floor, P. O. Box 8555, Harrisburg, PA 17105-8555, (717) 783-7420, sgansell@state.pa.us. The permit package is also available on the Department's website: www.dep.state.pa.us (DEP Keyword: Participate; scroll down to "Proposals Open for Comment"; then choose "Other Proposals").

Comments on the proposed PENNDOT MS4 package must be submitted to the Department by March 1, 2004. Only comments received by the Department on or before March 1, 2004, will be considered in finalizing the PENNDOT MS4 permit package. Persons wishing to comment on the proposed permit package should include their name, address and telephone number and a concise comment statement to inform the Department of the exact basis of the comment and the relevant facts upon which it is based. If significant issues of public interest are raised, the Department may schedule a public meet-

ing or hearing. Written comments should be submitted at the previous address. Comments will also be accepted by e-mail and should be sent by March 1, 2004, to Stuart Gansell, sgansell@state.pa.us. Comments will not be accepted by facsimile or voice mail.

Persons with a disability may use the AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). Following the specified comment period, the Department will review all submitted comments, prepare a written comments and response document and prepare a final documents package for this permit. An availability notice of the final permit documents will be announced in the *Pennsylvania Bulletin*. Individuals wishing to receive a copy of the final documents may request them by contacting the previous addresses or telephone numbers.

Water Resources Regional Committee Meeting Schedules for 2004

The following is a list of 2004 meetings of the six Water Resources Regional Committees (regional Committees) associated with the Department of Environmental Protection (Department). Notice of these meetings is being given in accordance with 65 Pa.C.S. §§ 701—716 (relating to Sunshine Act).

These schedules and an agenda for each meeting, including meeting materials, will be available through the Public Participation Center on the Department's website at www.dep.state.pa.us (DEP Keyword: Participate). Locations of the future meetings, if not indicated, will be available on the Department's website as well as published in advance in the *Pennsylvania Bulletin*.

The six regional committees listed were created under 27 Pa.C.S. Chapter 31 (relating to water resources planning) to help guide the development of a new State Water Plan (plan) for this Commonwealth. The regional committees' purpose is to develop the regional component of the overall plan and to provide recommendations to the Statewide Water Resources Committee, which is charged under 27 Pa.C.S. Chapter 31 to develop the plan.

The 2004 meeting dates of the six regional committees are as follows:

Delaware Water Resources Regional Committee

Meetings of the Delaware Water Resources Regional Committee in 2004 will be held at 9:30 a.m. at various locations throughout the Delaware River Basin. The meeting dates are as follows:

DEPARTMENT OF PUBLIC WELFARE

Established Fee for Methadone Take-Home Services

By this notice and in accordance with 55 Pa. Code § 1150.61(a) (relating to guidelines for fee schedule changes), the Department of Public Welfare (Department) announces the addition of the payment for methadone take-home services to the Medical Assistance (MA) Program Fee Schedule.

Methadone take-home services will be available for MA recipients who meet Federal and State criteria for obtaining the services (see 42 CFR 8.12(i) and 28 Pa. Code § 715.6 (relating to physician staffing)). The services must be provided by a methadone maintenance clinic that complies with the requirements established in 55 Pa. Code Chapter 1223 (relating to outpatient drug and alcohol clinic services), is certified in accordance with 42 CFR Chapter 1, Part 8 and is licensed in accordance with 28 Pa. Code Chapters 701, 704, 705 and 715 and, as applicable, 28 Pa. Code Chapter 709 or Chapter 711 (relating to standards for licensure of freestanding treatment facilities; and standards for certification of treatment activities which are a part of a health care facility).

Effective February 1, 2004, the Department has established a procedure code, unit of service and fee for methadone maintenance take-home services as follows:

Procedure Code	Modifier	Description	Fee	Unit of Service
H0020	* HG	Alcohol and/or drug services; methadone administration and/or service (take-home)	\$7.50	One unit/day (whether single or split dose)

The fee for this service will be effective with dates of service on or after February 1, 2004. The Department will issue an MA Bulletin to affected service providers before the effective date of the fee.

* The modifier HG is required only for claims submitted after PROMISE, the Department's new claims payment system, is implemented. The modifier may not be used in submitting claims under MAMIS.

Fiscal Impact

The estimated net State savings for Fiscal Year 2003-2004 is \$0.223 million (\$0.114 million in State funds). The estimated State savings for Fiscal Year 2004-2005 is \$0.422 million (\$0.213 million in State funds).

Public Comment

Interested persons are invited to submit written comments regarding this notice within 30 days of publication in the *Pennsylvania Bulletin*. Comments received will be reviewed and considered in subsequent revisions to the MA Program Fee Schedule. Comments should be sent to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Deputy Secretary's Office, Attention: Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

DEPARTMENT OF REVENUE

Cigarette Tax Notice

Under section 227-A of the Fiscal Code (72 P. S. § 227-A), the Department of Revenue (Department) announces the lowest cost of the stamping agent, wholesaler and retailer, respectively, effective January 7, 2004, as follows:

	Premium Brands (a.k.a. Kings and Regulars)	Generic Brands
Cost of the Stamping Agent (for sales to wholesalers)	\$41.84	\$39.10
Cost of the Wholesaler (for sales to retailers)	\$43.52	\$40.66
Cost of the Retailer (for sales to retail customers)	\$46.13	\$43.10

The Department considers these costs as presumptive minimum costs. Cigarette stamping agents, wholesalers and retailers are prohibited from selling cigarettes at a price lower than their respective presumptive minimum

costs. These costs are listed on a per carton basis, 10 packs of cigarettes per carton, 20 cigarettes per pack. To determine the presumptive minimum price per pack of cigarettes, one should divide the costs previously listed by ten and round to the nearest hundredth of a percent. For example, the presumptive minimum price of a pack of cigarettes sold by a retailer to a consumer is \$4.62 for premium brands (\$46.13/10), \$4.31 for generic brands (\$43.10/10).

Cigarette dealers who either sell cigarettes under a different packaging setup (that is, eight packs per carton) or sell cigarettes that do not qualify as premium or generic brands (that is, subgeneric, foreign or specialty cigarettes) as previously described are prohibited from selling cigarettes at a price lower than the cost of the stamping agent, cost of the wholesaler or cost of the retailer, respectively, as further defined and explained in 61 Pa. Code Part I, Subpart B, Article III (relating to cigarette and beverage taxes).

Cigarette dealers wishing to prove a cost different from the Department's presumptive costs previously stated must follow the procedures listed in 61 Pa. Code Chapter 76 (relating to unfair sales of cigarettes).

Notice to Employers Responsible for Personal Income Tax Withholding

Effective January 1, 2004, the Commonwealth's personal income tax rate increased from 2.8% to 3.07%. For employer withholding purposes, the increase applies to all compensation paid or made available after December 31, 2003, even if the compensation was earned for a period prior to the payment date. An employer who failed to withhold at the higher tax rate for compensation paid on or after January 1, 2004, is required to withhold the difference from later compensation payments (catch-up withholding).

To allow employers to adjust their withholding for the change in the tax rate, the Department of Revenue (Department) is allowing employers a grace period in which to collect and remit catch-up withholding without incurring interest and penalties. No interest will be imposed on catch-up withholding that is collected on or before March 31, 2004, and remitted by the employer's first scheduled remittance date thereafter (semimonthly employers—April 5, 2004; monthly employers—April 15, 2004; and quarterly employers—April 30, 2004. Catch-up withholding remitted thereafter will be subject to applicable interest and penalties.

Employers with questions regarding this notice should contact the Department's Taxpayer Service and Information Center at (717) 787-1064.

FISH AND BOAT COMMISSION

Lake Erie Commercial Fishing—2004

The Deputy Executive Director of the Fish and Boat Commission (Commission), acting under the authority of 58 Pa. Code § 69.31(b) (relating to seasons), has determined that the 2004 total allowable commercial catch for walleye from the Commonwealth waters of Lake Erie is 5,000 pounds. The commercial fishing season for walleye on Lake Erie is January 1 to midnight March 15 and 12:01 a.m. the first Saturday in May to December 31. This season shall end when the Executive Director determines that 5,000 pounds of walleye probably have been taken by commercial fishing interests fishing in the Commonwealth waters of Lake Erie.

The Deputy Executive Director of the Commission, acting under the authority of 58 Pa. Code § 69.31(c), has established that the 2004 total allowable commercial catch for yellow perch from the Commonwealth waters of Lake Erie is 36,000 pounds. The commercial fishing season for yellow perch on Lake Erie is January 1 until the date the Executive Director determines that 36,000 pounds of yellow perch probably have been taken by commercial fishing interests fishing in the Commonwealth waters of Lake Erie.

HEALTH CARE COST CONTAINMENT COUNCIL

Request for Information; Severity Adjustment Systems

To ensure that the Health Care Cost Containment Council (Council) adopts and maintains scientifically credible and cost-effective methodology to collect and disseminate data reflecting provider quality and effectiveness, the Council is issuing a Request for Information (RFI) on severity adjustment systems/methodologies. The purpose of this RFI is to obtain information on risk adjustment/severity adjustment systems that will allow the Council to analyze the performance, reliability, operational cost and financial viability of these systems with regard to meeting the Council's data collection and reporting requirements.

Copies of the RFI are available by contacting Lori Gutierrez, Health Care Cost Containment Council, 225 Market Street, Suite 400, Harrisburg, PA 17101, (717) 232-6787, lgutierrez@phc4.org.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments

within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within two years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>

Environmental Quality Board Regulation No. 7-386 Triennial Review of Water Quality Standards January 16, 2004

We submit for consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The Environmental Quality Board (EQB) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on December 17, 2003. If the final-form regulation is not delivered within 2 years of the close of the public comment period, the regulation will be deemed withdrawn.

1. Section 93.2. Scope.—Economic impact; Need for the rule; Clarity.

The proposed regulation would delete the phrase “and will be considered by the Department [Department of Environmental Protection] in its regulation of discharges” from subsection (a). The definition of “discharge” in § 92.1 seems to be limited to point sources. Beyond including “nonpoint sources” as defined in § 93.1, what is the need for the deletion?

Commentators including the Pennsylvania Farm Bureau and Pennsylvania Oil and Gas Association expressed concerns with the breadth of this change, its potential impact on permit review and compliance actions and lack of clarity. To increase clarity, the EQB should include the phrase “point and nonpoint source” before “discharges” rather than deleting language from § 93.2(a).

In addition, the proposed deletion raises serious questions over the types of activities that are currently

regulated under Chapter 93. The Department needs to describe in detail in the regulation what will be regulated under Chapter 93. For example, how does Chapter 93 pertain to the regulation of stream withdrawals or mine subsidence?

2. Section 93.7. Specific water quality criteria.—Effect on this Commonwealth's natural resources; Consistency with Federal standards; Reasonableness; Clarity.

Commentators expressed serious concerns with the proposed changes in the dissolved oxygen (DO) criteria under Table 3 in § 93.7. The United States Environmental Protection Agency (EPA) Region 3 and the United States Fish and Wildlife Service both expressed support for the proposed changes in the DO criteria. However, they raised several issues related to clarifying the application of the criteria and the stratification process.

The EQB should clarify the new language in Table 3 or define the new phrase “process of stratification” in the final-form regulation. Another approach would be creating an exception that states the DO criteria will apply only to the epilimnion of a lake, pond or impoundment if stratification is documented.

3. Water Quality Issues raised by Commentators.—Fiscal impact; Effect on this Commonwealth's natural resources; Consistency with Federal statutes; Implementation procedure; Clarity.

Commentators raised several substantive concerns regarding Chapter 93 that were not addressed in this proposed regulation. The commentators indicated that they have been discussing many of these areas with the Department for years. These areas include the following topics:

- Adoption of the EPA recommendation concerning the use of *E. coli* or enterococci as an indicator of bacterial contamination instead of fecal coliform.
- EPA concern involving time extensions under § 95.4 that should be governed by variances under Chapter 93.
- EPA water quality criterion for chloride.
- DO criteria from EPA Goldbook.
- Addition of biological criteria in Chapter 93.
- Mixing zones.
- “Cool water fishes” or “transitional fishes” use.
- EPA criteria for methylmercury.

If the EQB finds merit in one or more of these issues and decides to amend its existing regulations, it should submit the amendments as a new proposed rulemaking. Section 303(c)(1) of the Federal Clean Water Act (33 U.S.C.A. § 1313(c)(1)) requires a state to hold public hearings for the purpose of modifying or adopting water quality standards. Submitting a proposed rulemaking would allow the EQB to meet the Federal requirement and insure all parties have an opportunity to comment on any additional changes to Chapter 93.

Pennsylvania Public Utility Commission Regulation No. 57-228

Electric Service Reliability

January 21, 2004

We submit for consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The Pennsylvania Public Utility Commission (PUC) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on December 22, 2003. If the final-form regulation is not delivered within 2 years of the close of the public comment period, the regulation will be deemed withdrawn.

1. Section 57.192. Definitions.—Clarity.

Section 57.192 defines “performance benchmark” and “performance standard” as “the average historical performance” and “minimum performance allowed” respectively. Clarity would be improved by specifying that performance benchmarks are established by the PUC based on each electric distribution company’s (EDC) historical reliability performance, and performance standards are established by the PUC and tied to each EDC’s performance benchmark.

2. Section 57.195. Reporting requirements.—Need; Reasonableness; Clarity.

Unnecessary or duplicative reporting

Section 57.195 identifies data that must be reported on an annual and quarterly basis. Some EDCs have challenged the need for the quarterly reports in addition to the annual reliability report. In the preamble, the PUC explains that quarterly reports are intended to give the PUC more frequent information about service reliability. The PUC further states that it will be able to “identify potential problems in a timely manner and monitor the EDC’s response to problems which may arise between annual reports.” However, the preamble does not specify what actions will take place when problems are identified. In the preamble to the final-form regulation, we

suggest that the PUC further explain the actions it may take in response to problems identified in a quarterly report.

Additionally, EDCs have commented that some of the reporting requirements are duplicative of information that is already reported to the PUC in another form. For example, an EDC notes that the required reporting of each “major event” duplicates information filed by EDCs in the existing Service Interruption Reports under § 67.1. The PUC should review this proposed regulation in comparison to other existing reporting requirements, and where appropriate, eliminate redundancies.

Proprietary data

Several EDCs assert that the data, which is required to be reported, is proprietary and should not be reported to the public. PUC staff explained that the PUC does not publish all the data that is collected and will not release proprietary data to the public. We note, however, that the regulation does not address the confidential treatment of proprietary data. It is unclear if the PUC intends to deem certain information proprietary, or if an EDC would have to apply for a protective order under § 5.423. In the final-form regulation, the PUC should specify the procedures for identifying and protecting the confidentiality of proprietary information.

Subsection (a)

This subsection requires EDCs to submit annual reliability reports on or before March 31 of each year. Currently, the annual reliability reports are due by May 31. Some EDCs have suggested that the proposed date for submission of these reports be changed from March 31 to April 30. According to these EDCs, this change would allow more time for them to analyze and review the service interruption data used to prepare the annual reliability report.

In the preamble, the PUC explains that the current May 31 submittal date should be changed because if an EDC performs poorly in the year being reported on, 5 or more months will pass before the PUC is aware of it. Therefore, the PUC proposes changing the submission date to March 31. Given that the PUC is also proposing to add a quarterly reporting requirement, which will provide reliability performance data in a timely manner, the problem of the PUC being unaware of poor performance prior to receiving the annual report should be alleviated. Therefore, the PUC should consider adopting the commentators’ request for an April 30 submission date for the more detailed annual reliability reports.

Subsection (b)

Paragraphs (10) and (11) require reporting of transmission and distribution operation and maintenance expenses and capital expenditures detailed by Federal Energy Regulatory Commission (FERC) account. PPL Electric Utilities Corporation comments that it budgets by functional activity, and conversion of the data into FERC accounts would be burdensome. Has the PUC considered allowing reporting of this data in an alternate format to accommodate EDC operational practices? If so, the PUC should either specify the acceptable alternate formats in the final-form regulation, or include a cross-reference to the procedures outlined in § 1.91.

State Board of Education Regulation No. 6-280
Pupil Personnel Services and Students
January 21, 2004

We submit for consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The State Board of Education (Board) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on December 22, 2003. If the final-form regulation is not delivered within 2 years of the close of the public comment period, the regulation will be deemed withdrawn.

1. Section 12.4. Discrimination.—Clarity.

This section uses the term “handicaps.” A commentator suggests that this term be replaced with “disability.” We agree and recommend that the final-form regulation include this change.

2. Section 12.6. Exclusions from school.—Clarity.

Subsection (a) uses the term “exceptional students.” Based on discussions with Board staff, we understand this term applies to students with disabilities who are eligible for special education services. For clarity, the Board should replace “exceptional students” with “students with disabilities.”

Subsection (e)(2), regarding the education of expelled students, states:

“Within 30 days of action by the school board of directors, the parents or guardian shall submit to the school district written evidence that the required education is being provided as described in paragraph (1) or that they are unable to do so. If the parents or guardian are unable to provide the required education, the district then *shall* make provision for the student’s education.” (Emphasis added.)

The Board has indicated that districts do not have a responsibility to provide the required education until after the 30 days has expired, regardless of when the parent or guardian notifies them that they cannot provide the education. The second sentence quoted previously could be interpreted to require a district to provide the required education as soon as they receive notification from the parent or guardian that they are unable to provide the required education. The final-form regulation should clarify when a district is required to begin providing the required education.

3. Section 12.8. Hearings.—Clarity.

Subsection (b)(ii) requires that “sufficient notice of the time and place of the hearing shall be given.” The final-form regulation should specify the minimum time period that qualifies as “sufficient notice.”

4. Section 12.9. Freedom of expression.—Clarity.

Subsection (a) references the United States Supreme Court case *Tinker v. Des Moines Community School District*, 393 U.S. 503 (1969). *Tinker* was later distinguished by the United States Supreme Court in *Bethel School District v. Fraser*, 478 U.S. 675 (1986). Therefore, we recommend that the *Tinker* citation be replaced with the *Bethel* citation.

5. Section 12.32. Elements of the plan.—Reasonableness; Clarity.

Subsection (a) requires the plan for student services to “conform to guidelines issued by the Department of

Education.” Requiring compliance with “guidelines” is problematic because guidelines are nonbinding. Based on discussions with Board staff, we understand there are multiple State and Federal statutes, regulations and associated directives with which school districts must comply. Since these laws, regulations and directives change frequently, Board staff explained that it would be difficult to maintain a complete and accurate list of these documents in the regulation. Instead, the Board instructed the Department of Education to compile a complete list of these documents in guidelines which will be published in the *Pennsylvania Bulletin*.

We recognize the difficulty in maintaining an accurate list of laws and directives which may change frequently. However, we note that subsection (b) specifically references the Federal Family Educational Rights and Privacy Act of 1974. If a complete list of applicable laws, regulations and directives will be published in a forthcoming guidance document, it is potentially confusing to specifically identify only one of the applicable laws in subsection (b).

As an alternative, the Board should consider amending the language in subsection (a) to require compliance with applicable State and Federal laws, regulations and associated directives which will be “identified in guidelines issued by the Department of Education.” Consistent with this approach, the Board should also delete subsection (b) to eliminate potential confusion regarding which laws apply.

6. Section 12.42. Student services.—Reasonableness; Clarity.

Subsection (b)

This subsection identifies services that must be provided by local education agencies in planning their student services programs. These services include “developmental services,” “diagnostic, intervention and referral services” and “consultation and coordination services.” Clarity would be improved by defining these terms, including the specific types of services encompassed by each of them.

Subsection (d)

This subsection requires parents to be informed when “student assessments using individual standardized psychological tests are administered.” It also grants parents “the right to challenge the appropriateness of any individual standardized tests via procedures established by the local education agency.” Commentators have raised several concerns with this subsection.

The Pennsylvania School Boards Association (PSBA) questions how “appropriateness” will be defined and what forum or procedure will be used to entertain challenges. The PSBA further comments that to the extent the testing is related to identification for special education or modification of a student’s existing Individualized Education Plan, the forum for resolving disputes is contained in the Federal Individuals with Disabilities Education Act (IDEA) and the Board’s existing Chapter 14 regulations. If the Board anticipates only special education challenges, the PSBA suggests that subsection (d) should expressly state that the parents’ due process rights fall under IDEA.

The Education Law Center (ELC) comments that allowing parental challenges “via procedures established by the local education agency” appears to conflict with the complaint process for psychological testing established under IDEA. The ELC further comments that subsection

(d) "may also conflict with 20 USC § 1232h which prohibits schools from requiring students to submit to certain types of psychological evaluation."

The Pennsylvania Psychological Association (PPA) also requests further clarification regarding a parent's right to challenge the appropriateness of psychological tests. The PPA states that it is unclear if the regulation refers to challenging a single test that may be administered to multiple students, or tests that are administered to a single student.

We agree with the commentators that subsection (d) needs further clarification. Specifically, the Board should clarify if the psychological testing and parental challenges apply to areas other than special education. If so, the Board should identify other instances in which psychological testing would be used and specify the procedures to challenge this testing. If subsection (d) applies only to special education services, the Board should reference the IDEA requirements and Chapter 14 appeal procedures that apply.

7. Miscellaneous clarity issues.

- Sections of this proposed rulemaking use the terms "school board," "board of directors," "board of school directors," "local education agency" and "governing body of every local education agency." For clarity, we recommend that one term be defined and used consistently throughout Chapter 12.

- Throughout the proposed regulation, there are references to both "parents" and "parents or guardians." For consistency, the regulation should refer to "parents or guardians" throughout Chapter 12.

State Board of Physical Therapy Regulation No. 16A-6510

Certificate of Authorization

January 21, 2004

We submit for consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The State Board of Physical Therapy (Board) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on December 22, 2003. If the final-form regulation is not delivered within 2 years of the close of the public comment period, the regulation will be deemed withdrawn.

1. Section 40.2. Practice of medicine prohibited.— Consistency with statute.

This existing section states "[T]he license issued to those practicing physical therapy does not authorize . . . the right to apply any of these treatments except upon the referral of a physician . . ." Act 6 of 2002 amended 63 P. S. § 1309(a) to state "Except as provided in subsection (b), no person licensed under this act as a physical therapist shall treat human ailments by physical therapy or otherwise except by referral . . ." Subsection (b) of this statutory section provides the conditions for practice without referral. In addition to the amendments proposed, § 40.2 should be amended to be consistent with 63 P. S. § 1309.

2. Section 40.61. Certificate of authorization to practice physical therapy without a referral.— Consistency with statute; Reasonableness; Clarity.

There are three concerns with this section.

First, a physical therapist is required to refer patients to a licensed physician or other appropriate health care practitioner in "cases for which treatment is beyond the education, expertise or experience of the physical therapist" (63 P. S. § 1309(d)(3)). This provision is not reflected in the regulation. For example, subsection (a)(3)(i) and (ii) does not relate the type of patient care delivered in the past to the type of physical therapy that can be practiced without a referral. The statutory limitations of 63 P. S. § 1309(d)(3) should be added to the regulation.

Second, subsection (a)(5) defines continuous practice "as a minimum of 200 hours each year in the delivery of direct patient care." The preamble explains that the Board determined that 200 hours per year represents approximately 10% of annual practice. How was this determined to be continuous practice? Why is a minimum of 200 hours per year the appropriate amount of experience to allow a physical therapist to practice without referral?

Finally, subsection (a) includes a list of requirements that a physical therapist must meet to be eligible to obtain a certificate of authorization. This list includes paragraph (5) which is a definition of "continuous practice." Since this is a definition, it should not be listed as a requirement. For clarity, the Board should move this definition to paragraph (3) where the term is applicable.

GEICO General Insurance Company; Automobile, Motorcycle and Personal Umbrella Liability Casualty Manuals Rate and Rule Revisions; Rate Filing

On January 13, 2004, the Insurance Department (Department) received from GEICO General Insurance Company a filing for a rate level change for private passenger automobile insurance.

The company requests an overall 3.6% increase amounting to \$2.191 million annually, to be effective March 1, 2004, for new business and April 19, 2004, for renewal business.

Unless formal administrative action is taken prior to March 13, 2004, the subject filing may be deemed approved by operation of law.

A copy of the filing is available on the Department's website: www.ins.state.pa.us. Scroll down the home page and click on "Consumer Information" on the left side. Then scroll down to "General Information" in the middle of the page and click on "Notices." The PDF copy of this filing is at the "Filing.pdf" link following the name of the filing.

Copies of the filing are also available for public inspection, by appointment, during normal working hours at the Department's regional offices in Harrisburg, Philadelphia and Pittsburgh.

Interested parties are invited to submit written comments, suggestions or objections to Michael W. Burkett, Insurance Department, Insurance Product Regulation and Market Enforcement, Room 1311, Strawberry Square,

Harrisburg, PA 17120, mburkett@state.pa.us within 30 days after publication of this notice in the *Pennsylvania Bulletin*.

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insured has requested a hearing as authorized by the act of June 17, 1998 (P. L. 464, No. 68), in connection with the termination of the insured's automobile policy. The hearing will be held in accordance with the requirements of the act; 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure); and 31 Pa. Code §§ 56.1—56.3 (relating to Special Rules of Administrative Practice and Procedure). The administrative hearing will be held in the Insurance Department's regional office in Philadelphia, PA. Failure by an appellant to appear at a scheduled hearing may result in dismissal with prejudice.

The following hearing will be held in the Philadelphia Regional Office, Room 1701 State Office Building, 1400 Spring Garden Street, Philadelphia, PA 19130.

Appeal of Laura D. Thomas; file no. 03-280-05689; Travelers Insurance Company; doc. no. PH04-01-006; March 4, 2004, 1:30 p.m.

Parties may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend an administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Tracey Pontius, Agency Coordinator, (717) 787-4298.

OFFICE OF GENERAL COUNSEL

Bond Counsel Invitation to Qualify

The Governor's Office of General Counsel (OGC) has established pools of qualified counsel to serve as bond counsel to the following agencies: Commonwealth of Pennsylvania; Office of the Budget; Pennsylvania Infrastructure Investment Authority; State System of Higher Education; Pennsylvania Housing Finance Agency; Pennsylvania Economic Development Financing Authority; Pennsylvania Industrial Development Authority; Pennsylvania Higher Educational Facilities Authority; and the State Public School Building Authority. The OGC is seeking to review qualifications from legal service providers (law firms) for participation in four designated bond counsel pools to serve the previous financing agencies through a formal Supplementary Invitation to Qualify (ITQ) process.

For more information regarding this Supplementary ITQ, law firms should contact David J. DeVries, Office of General Counsel, 333 Market Street, 17th Floor, Harrisburg, PA 17101, fax (717) 772-9187. Submissions to this Supplementary ITQ are due by 2 p.m. on Monday, March 1, 2004. The OGC will reject as nonresponsive all submissions received after this date and time. The OGC expects to make its bond counsel appointment for further Commonwealth financing transactions only to law firms identified and qualified through this Supplementary ITQ process and thus strongly encourages any and all interested law firms which are not currently qualified to participate at this time to ensure consideration of their qualifications to provide bond counsel services.

PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY AND DEPARTMENT OF ENVIRONMENTAL PROTECTION

Drinking Water State Revolving Fund Projects; Federal FY 2004 and 2005 Project Priority List and FY 2004 Intended Use Plan

The Pennsylvania Infrastructure Investment Authority (PENNVEST) and the Department of Environmental Protection (Department) have received approval from the United States Environmental Protection Agency (EPA) of the combined Federal fiscal year (FY) 2004 and 2005 drinking water program Project Priority List (PPL) and the FY 2004 Intended Use Plan (IUP). The IUP includes

a list of drinking water projects to be considered for a design and engineering or construction loan from funds the Commonwealth expects to receive from FY 2004 funds approved by Congress to capitalize the Drinking Water State Revolving Fund (DWSRF) program.

The FY 2004/2005 DWSRF PPL was developed in conformance with the requirements of the Federal Safe Drinking Water Act Amendments of 1996 (act) and Federal guidance. The act stipulates that states must maintain a PPL of drinking water projects from which to develop the annual IUP list of projects to be funded.

The projects to be considered for a loan from the DWSRF must meet the Federal requirements for funding in accordance with section 1452 of the Federal Safe Drinking Water Act. Accordingly, the projects included in the IUP are expected to meet the requirements applicable to use of the DWSRF loan funds. Projects listed in the FY 2004 IUP are on the Commonwealth's FY 2004/2005 PPL and are expected to proceed with design and engineering or to construction in the near future. Other projects on the DWSRF PPL are projects that are in development or will be developed for future loan consideration. A project removed from an IUP is maintained on the PPL, unless otherwise completed.

A public hearing was held on October 22, 2003, for the purpose of receiving comments from the public regarding the FY 2004/2005 PPL and the FY 2004 IUP. Notice of this hearing was published at 33 Pa.B. 4514 (September 6, 2003). Interested persons were invited to express their views on the narrative portion of the IUP, the set-aside work plan and the priority rating or ranking of projects on the IUP and the PPL at the public hearing. No comments were received.

The FY 2004/2005 DWSRF PPL and FY 2004 DWSRF IUP list of projects, as well as the narrative portion of the IUP and set-aside work plan, are available for public review in the following offices and are accessible through the Department's website: www.dep.state.pa.us/dep/deputate/watermgt/WSM/WSM_TAO/Finan_Tech_Asst.htm.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Investigation Order

Public Meeting held
January 16, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzingrilli; Wendell F. Holland

Investigation regarding the Metropolitan Edison Company, Pennsylvania Electric Company and Pennsylvania Power Company's Reliability Performance;
Doc. No. I-00040102

Investigation Order

By the Commission:

Under 66 Pa.C.S. § 1501, the Commission has a fundamental duty to ensure that public utilities which operate as electric distribution companies (EDCs) in this Commonwealth are providing safe, adequate and reasonably continuous service to their customers without unreasonable interruptions or delay and in accordance with our regulations and orders. Today we initiate a formal investigation of the Metropolitan Edison Company (Met-Ed), Pennsylvania Electric Company (Penelec) and Pennsylvania Power Company (Penn Power) (collectively referred to as FirstEnergy companies) levels of compliance with the Public Utility Code and the Commission's regulations and orders with regard to reliable electric service.

The Electricity Generation Customer Choice and Competition Act (act), 1996, Dec. 3, P.L. 802, No. 138 § 4, became effective January 1, 1997. The act authorized the

Commission to ensure that levels of reliability that were present prior to the restructuring of the electric utility industry would continue in the new competitive markets. 66 Pa.C.S. §§ 2802(12), 2804(1) and 2807(a)(d).

Thus, the Commission promulgated regulations in 52 Pa. Code §§ 57.191—57.197 to ensure reliability would be maintained in the new competitive markets. On December 16, 1999, the Commission entered a Final Order at Docket No. M-00991220, which established reliability benchmarks and standards for the EDCs in accordance with 52 Pa. Code § 57.194(h). These benchmarks and standards have been in effect since 1999.

The Commission established the Staff Internal Working Group on Electric Service Reliability (Working Group) to examine, in detail, the level of reliability provided by Pennsylvania's EDCs post-restructuring. In the course of this work, the Staff examined the reliability data filed in compliance with Commission regulations. In addition, the Working Group obtained additional monthly reports and data from certain companies, including two of the FirstEnergy companies, Met-Ed and Penelec.

Based on the Commission's review of the reliability data filed in compliance with our regulations, the additional monthly reports and other reliability data, we are concerned the FirstEnergy companies may not be meeting the reliability standards regarding the frequency and duration of service outages established in our Order of December 16, 1999, at Docket No. M-00991220. Our main concern is whether the service reliability performance of one or more of the FirstEnergy companies has deteriorated to a point below the level of service reliability that existed prior to restructuring.

We are not concluding that performance has deteriorated in violation of the act or that the deterioration is due to factors within the control of the FirstEnergy companies. However, there is enough information before us to warrant further investigation. Therefore, this Commission is persuaded to order a formal investigation to further examine the level of service reliability provided by the FirstEnergy Companies, and refer this matter to the Office of Administrative Law Judge (OALJ) for an on the record proceeding, following a sufficient discovery period. We direct Law Bureau Prosecutory Staff to participate in the investigation, and to utilize technical assistance from the Bureau of Fixed Utility Services, Audits and Conservation, Economics and Energy Planning as necessary.

To fully address the Commission's concerns regarding service reliability at the FirstEnergy companies, the scope of this formal investigation should include, but not be limited to, the following areas:

- Underlying causes for outages.
- Adequacy of inspection and maintenance cycles.
- Tree-trimming activities and contracts.
- Changes to budgeted/actual capital and operating expenditures in select areas in prior years.
- Emergency call-out procedures and calculation of the acceptance rate.
- Hiring/contracting practices for line workers.
- Other factors, practices and policies that may affect service reliability.

At the outset, this investigation should focus on the issue of whether the service reliability of any of the FirstEnergy companies has deteriorated below the level required by the act. However, the presiding ALJ shall also take evidence from the parties on recommendations for

corrective actions to be taken by the FirstEnergy companies if it is found that service reliability has deteriorated. Civil fines and penalties, however, are not within the scope of this proceeding.

The investigation will be assigned to the OALJ to conduct hearings as may be necessary to address the concerns outlined in this Investigation Order and to place in evidence the relevant findings and any recommendations for corrective actions. We expect testimony to be presented by the FirstEnergy companies, Staff and intervenors to address these matters. After briefing, the presiding ALJ will issue a Recommended Decision, subject to exceptions, for the Commission's consideration. We expect the presiding ALJ to render a Recommended Decision on this matter by September 30, 2004, to allow the Commission ample time to review and issue a Final Order before December 16, 2004. *Therefore,*

It Is Ordered That:

1. A formal investigation is hereby instituted to examine the level of service reliability provided by the FirstEnergy companies including: Metropolitan Edison Company, Pennsylvania Power Company and Pennsylvania Electric Company.

2. The investigation is assigned to the OALJ to conduct hearings as may be necessary to address the concerns outlined in this Investigation Order and to issue a Recommended Decision by September 30, 2004.

3. Under 52 Pa. Code § 1.2(c), the presiding ALJ is authorized to waive appropriate sections of the Commission's rules of practice and procedure, as necessary, to resolve disputed issues and file a Recommended Decision on or before September 30, 2004.

4. A copy of this Investigation Order be served on Metropolitan Edison Company, Pennsylvania Power Company, Pennsylvania Electric Company, the Attorney General's Office of Consumer Advocate and the Office of Small Business Advocate. In addition, the Secretary shall cause a copy of this order to be published in the *Pennsylvania Bulletin*.

Tentative Order

Public Meeting held
January 16, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzingrilli; Wendell F. Holland

In re: Webnet Communications, Inc. (2003.0333); A-310858

Tentative Order

By the Commission:

Webnet Communications, Inc. (Webnet) has failed to pay its \$40 annual assessment for 2003-2004 under section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c). Webnet is a telecommunications interexchange reseller certificated at A-310858. Commission staff sent by certified mail a notice to Webnet that its 2003-2004 annual assessment was overdue. The notice came back as unclaimed, return to sender. Telephone calls to the last known business address of Webnet confirmed that the number is disconnected and no information is available for any new phone number. At this point, there is no reasonable means to reach the company, and it has failed in its responsibility to notify the Commission of any address or phone number changes.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the imposition of any remedies as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506 and 3301. Based on the findings of the Commission staff, we believe it is appropriate to revoke Webnet's certificate of public convenience without the necessity of a formal complaint, and we tentatively conclude that revocation of Webnet's certificate of public convenience under 66 Pa.C.S. § 1102(a)(2) is in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of penalties

under section 3301, instead of cancellation, if Webnet seeks relief from this Tentative Order; *Therefore,*

It Is Ordered That:

1. Revocation of Webnet Communications, Inc.'s certificate of public convenience is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate and the Office of Trial Staff, and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, this Tentative Order shall become final without further action by the Commission.

4. Upon this order becoming final and without further action by the Commission, the certificate of public convenience held by Webnet Communications, Inc. at A-310858 shall be canceled and Webnet Communication's name stricken from all active utility lists maintained by the Commission's Bureau of Fixed Utility Services and the Assessment Section of the Bureau of Audits.
