READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

**SUBSCRIPTION INFORMATION: (717) 766-0211
GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PROPOSED RULEMAKING

PUBLIC SCHOOL EMPLOYEES' RETIREMENT BOARD

[22 PA. CODE CH. 215]

Optional Alternate Retirement Plans

The Public School Employees' Retirement Board (Board) proposes to amend Chapter 215 (relating to general administration) to read as set forth in Annex A. The rulemaking proposes to delete the transitional provisions for electing to participate in an optional alternate retirement plan in § 215.36 (relating to optional alternate retirement programs). The transitional provisions are no longer needed and, read broadly, may conflict with 24 Pa.C.S. Part IV (relating to Public School Employees' Retirement Code) (Retirement Code), because the Retirement Code does not allow current members to opt out of the system.

A. *Effective Date*

This proposed rulemaking will go into effect upon publication in the *Pennsylvania Bulletin* as a final-form rulemaking.

B. *Contact Person*

For further information, contact Frank Ryder, Director of Government Relations, Public School Employees' Retirement System, 5 North Fifth Street, P. O. Box 125, Harrisburg, PA 17108, (717) 720-4733; or Charles K. Serine, Deputy Chief Counsel, Public School Employees' Retirement System, 5 North Fifth Street, P. O. Box 125, Harrisburg, PA 17108, (717) 720-4679.

C. *Statutory Authority*

This proposed rulemaking is being made under the authority of the Retirement Code.

D. *Background and Purpose*

When it was amended in 1975, the Retirement Code, for the first time, permitted certain school employees to choose an alternate retirement plan. The Retirement Code applies to new employees. The Board promulgated § 215.36 to implement this Retirement Code provision. Section 215.36, among other things, contained a transitional provision granting existing employees an opportunity to elect an alternate retirement plan. This transitional provision was added because the existing employees never had the opportunity to select an alternate plan. At the time of enactment of § 215.36, the only alternate plan allowed was the Teachers Insurance and Annuity Association—College Retirement Equities Fund.

The act of June 22, 2001 (P. L. 530, No. 35) allowed the State System of Higher Education (SSHE) to add insurance companies or mutual funds as additional alternate plans for its employees. Section 215.36, as written, could be interpreted to allow existing employees, who already had a choice under the Retirement Code to elect an alternate retirement plan, to make an additional election and to opt out of the Public School Employees' Retirement System (PSERS) each time a new alternate plan is approved by SSHE. The Board, however, has always interpreted § 215.36 as providing a one-time opportunity for these employees, not a continual choice each time a

new alternate plan is approved by the employer. Deleting the language clarifies the intent of the Board and eliminates a potential conflict between § 215.36 and the Retirement Code, because the Retirement Code does not allow current members to opt out of the system.

The State Employees' Retirement System (SERS) is proposing a similar revision of its regulation that parallels § 215.36. This repeal will harmonize the regulations of PSERS and SERS with regard to election of alternate retirement plans. SSHE supports the amendment and repeal of these sections.

E. *Benefits, Costs and Compliance*

Benefits

This proposed rulemaking removes an expired transitional provision, clarifies the Board's intent regarding the election of alternate retirement plans and eliminates a potential conflict between the Retirement Code and § 215.36.

Costs

The proposed rulemaking will formalize the Board's long-standing interpretation that the transitional provisions of § 215.36 have expired. The proposed rulemaking, therefore, maintains the status quo and has no associated cost to the Commonwealth, its citizens, school employers, school employees or PSERS.

Compliance Costs

The proposed rulemaking will not impose any additional compliance costs on school employees or employers.

F. *Sunset Review*

Not applicable.

G. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on January 31, 2003, the Board submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House Education Committee and the Senate Finance Committee. In addition to submitting the proposed rulemaking, the Board has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the PSERS. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed rulemaking, it will notify the Board within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria that have not been met by the portion of the proposed rulemaking to which an objection is made. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of objections raised.

H. *Public Comments*

Written Comments. Interested persons are invited to submit comments, suggestions or objections regarding the proposed rulemaking to the Public School Employees' Retirement System, 5 North Fifth Street, P. O. Box 125, Harrisburg, PA 17108-0125. Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board March 17, 2003 (within 30 days of publication in the *Pennsylvania Bulletin*). Interested persons may also submit a summary of

their comments to the Board. The summary may not exceed one page in length and must be received by March 7, 2003 (within 20 days following publication in the *Pennsylvania Bulletin*). The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final regulation will be considered.

Electronic Comments. Comments may also be submitted electronically to the Board at fryder@state.pa.us and must also be received by the Board by March 7, 2003. A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be transmitted by mail to ensure receipt.

Annex A

TITLE 22. EDUCATION

PART XIII. PUBLIC SCHOOL EMPLOYEES' RETIREMENT BOARD

CHAPTER 215. GENERAL ADMINISTRATION

MISCELLANEOUS PROVISIONS

§ 215.36. Optional alternate retirement programs.

(a) Under section 8301(a)(1) of the Retirement Code (relating to mandatory and optional membership), certain school [**employees**] **employees** may elect not to join the System [, or to depart from it] in favor of an optional alternate retirement program approved by the employer [, such as the Secretary of Education or the governing body of certain State institutions, including Pennsylvania State University, as the case may be]. Therefore, the following paragraphs are adopted by the Board to establish guidelines and procedures, insofar as the Board is authorized to so do, with respect to implementing such a program for certain eligible school [**employees**] **employees**:

(1) [**Section 8301(a)(1) of the Retirement Code (relating to eligibility points for retention and reinstatement of source credits) purports to authorize the existence of an optional alternate retirement program under the responsibility of the employer.**

(2) **Employees, including those employed on the effective date of the establishment of an optional alternate retirement program, who are eligible for membership therein, and who are active members of the System, have the option of continuing their active membership or of joining the optional alternate retirement program if they make the election within 9 months of the effective date of the establishment of the optional alternate retirement program].** Every [**employee**] **employee** who [**subsequently becomes**] is eligible for membership in the optional alternate retirement program shall make the election within 30 days of the first date of active employment. [**Employees**] **Employees** not exercising the option to join the optional alternate retirement program shall be deemed to have chosen to commence [**or continue**] active membership in the System, unless they

have elected membership in the State [**Employees**] **Employees**' Retirement System, as otherwise provided by law.

[(3) **When an eligible employee, who is an active member of the System, elects to participate in the optional alternate retirement program in accordance with paragraph (2), the employee may elect to withdraw the accumulated deductions from the fund as of the date of the election; or, if the employee is eligible for vesting in accordance with the Retirement Code, the employee may elect to leave the accumulated deductions credited to account of the employee in the Fund and receive a retirement allowance from the System upon separation from employment; or, at the employee's option, upon attainment of superannuation retirement age, if later. The retirement allowance shall be based upon credited service and final average salary while a contributing member to this System only.**

SECURITIES COMMISSION

[64 PA. CODE CHS. 102, 202, 203, 204, 207, 305 AND 606]

Banking and Savings and Loan Institutions

The Securities Commission (Commission), under the authority contained in sections 102(d), (k) and (t), 202(a), (c), (e) and (i), 203(i.1), (p) and (r), 204(a), 207(l), 305(a)(ix), 606(a) and (d) and 609(a) of the Pennsylvania Securities Act of 1972 (act) (70 P. S. §§ 1-102(d), (k) and (t), 1-202(a), (c), (e) and (i), 1-203(i.1), (p) and (r), 1-204(a), 1-207(l), 305(a)(ix), 1-606(a) and (d) and 1-609(a)), proposes to amend regulations concerning the subject matter of the act to read as set forth in Annex A.

Summary and Purpose of Regulations

Section 102.041. This proposed rulemaking will indicate that a "bank," as defined under the act, does not include a person organized as a holding company and codify the Commission's published interpretation of when a "bank-organization" becomes a "bank" for purposes of the act.

Section 102.112. The Commission's published position on when the definition of "institutional investor" would include IRAs, SEPs and KEOGHs will be codified into a separate regulation.

Section 102.202. This section will be amended to: include an affirmative statement of when the offer and sale of real property would be a "security" under the act; delete references to the Unit Property Act; and follow United States Securities and Exchange Commission (SEC) No Action Letters which base the existence of a security on participation in a mandatory rental pool arrangement.

Section 102.241. This section will be amended to make the definition of "exchange" similar to the Federal securities laws.

Section 202.010. The amendment to this section would make it clear that all securities that are exempt securities under section 3(a)(2) of the Securities Act of 1933 (1933 Act) (15 U.S.C.A. § 77c(a)(2)) would be exempt under section 202(a) of the act except when a separate security exists by application of SEC Rule 131.

Section 202.030. The section will be amended to: state that all section 3(a)(3) of the 1933 Act exempt securities, as interpreted by SEC Release 33-4412, are eligible for the section 202(c) of the act exemption; define "prime quality" as being in one of the three highest ratings of a Nationally recognized statistical rating organization; prohibit use of public media advertising and mass mailings; and require that commercial paper issued by bank holding companies contain disclosures that the paper is not issued by a "bank" and, therefore, is not covered by FDIC insurance.

Section 202.051. The section will be amended to correct a miscitation.

Section 202.092. The section will be amended to: define the term guaranty; and include only issuers located in this Commonwealth or an issuer where the guaranty would be deemed a separate security under SEC Rule 131.

Section 203.091. As required by Act 108 of 2002, the section will be amended to delete the filing requirement and Form 203-I.

Section 203.161. The section will be amended to permit issuers relying on this section to comply with the trust indenture and offering circular requirements of section 203(p) of the act by satisfying Parts V—VII of the Statement of Policy of the North American Securities Administrators Association Regarding Church Bonds.

Section 203.189. The Commission proposes to delete the definition of "accredited investor" in § 204.010 as being obsolete as the General Assembly enacted a specific statutory accredited investor exemption in the act of November 24, 1998 (Act 109) (P. L. 829, No. 109). However, a definition of "accredited investor" is necessary for operation of the exemption created by this section and therefore, this section will be amended to include the definition of "accredited investor" as set forth in SEC Rule 501(a).

Section 204.010. Since Act 109 enacted an accredited investor exemption in section 203(t) of the act, the definition of "accredited investor" in § 204.010 (relating to increasing number of purchasers and offerees) is no longer required. Therefore, the section will be amended to delete the definition of "accredited investor."

Section 207.120. The National Securities Markets Improvement Act of 1996 (NSMIA) prohibits states from registering securities issued by registered investment companies. This section relates to registration of investment company securities and, under NSMIA, is no longer applicable. Therefore, the section will be reserved.

Section 305.011. NSMIA prohibits states from maintaining rules governing recordkeeping, or financial or operational reporting requirements for broker-dealers that are inconsistent with rules established by the SEC under the Securities Exchange Act of 1934 (15 U.S.C.A. §§ 78a—78kk). These generally are rules of the National Association of Securities Dealers (NASD) which are subject to SEC approval. The section will be amended to mirror the inspection requirements for broker-dealers of their offices of supervisory jurisdiction, branch offices and nonbranch locations in accordance with criteria set forth in NASD Rule 3010(g) and NASD Notice to Members 98-38.

Section 606.011. Act 108 gave the Commission authority to require, by rule, that persons purchasing securities from a nonprofit issuer under section 203(p) of the act receive annual financial information from the issuer. The section will be amended accordingly.

Section 606.041 It is proposed that this section be amended to permit the Assistant Director of the Division of Corporation Finance to exercise authority delegated to the Director in his absence.

Persons Affected by the Proposed Rulemaking

Commonwealth issuers of municipal securities and issuers of commercial paper will be affected by the proposed rulemaking. Registered broker-dealers will be affected by the proposed amendments to inspection requirements for various offices maintained by the

broker-dealer. Nonprofit organizations issuing debt securities secured by a first lien mortgage shall comply with certain disclosure requirements in the use of an offering circular and in annual financial information to be given to security holders in this Commonwealth.

Fiscal Impact

The proposed rulemaking reduces compliance costs by eliminating the filing of Form 203-I. The only new compliance cost is that nonprofit organizations which sell debt securities to Commonwealth residents that are secured by a first lien mortgage on property owned by the issuer must provide annual financial information to those purchasers. The Commission does not believe the compliance cost to be unreasonable when balanced against an investor's need to know the financial health of the issuer and the security of bonds the investor purchased. No additional compliance cost is envisioned for broker-dealer inspection of their offices as the regulatory requirement mirrors that which already exists in NASD rules.

Paperwork

The Commission proposes to eliminate Form 203-I. The only new paperwork requirement is the provision of annual financial information to Commonwealth residents who have purchased debt securities from a nonprofit organization which are secured by a first lien mortgage on property owned by the organization.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 3, 2003, the Commission submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House Committee on Commerce and Economic Development and the Senate Committee on Banking and Insurance. In addition to submitting the proposed rulemaking, the Commission has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Commission. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed rulemaking, it will notify the Commission within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria that have not been met by the portion of the proposed rulemaking to which an objection is made. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Commission, the General Assembly and the Governor of objections raised.

(ii) A bond, note, debenture or other evidence of indebtedness that is an exempt security under section 3(a)(2) of the Securities Act of 1933 (15 U.S.C. § 77c(2)) but when the guaranty issued in connection with the bond, note, debenture or other evidence of indebtedness is deemed to be a separate security pursuant to United States Securities and Exchange Commission Rule 131 (17 CFR § 230.131 (relating to definition of security issued under governmental obligations)).

(2) **Guaranty**—A duly executed written agreement wherein a person, not the issuer, in connection with offer and sale of bonds in this Commonwealth, guarantees the prompt payment of the principal of, and interest on, the bonds whether at the stated maturity, at redemption prior to maturity or otherwise, and premium, if any, when and as the principal and interest shall become due and the guaranty cannot not be bought, sold or traded as a security or otherwise realized upon by a bondholder separately from the bondholder’s interest in the bonds.

CHAPTER 203. EXEMPT TRANSACTIONS

§ 203.091. Equity securities issued by reporting company.

STATE EMPLOYEES' RETIREMENT BOARD

[4 PA. CODE CHS. 243 AND 249]

Optional Alternate Retirement Plans

The State Employees' Retirement Board (Board) proposes to amend Chapters 243 and 249 (relating to membership, credited service, classes of service and eligibility for benefits; and administration, funds, accounts, general provisions) to read as set forth in Annex A. The rulemaking is being proposed to delete the transitional provisions for electing to participate in an optional alternate retirement program or plan contained in §§ 243.3 and 249.58 (relating to optional alternate retirement program). The transitional provisions are no longer needed and, read broadly, may conflict with current 71 Pa.C.S. (relating to State Employees' Retirement Code) (Retirement Code) provisions, because the Retirement Code does not allow current members to opt out of the system.

A. Effective Date

The proposed rulemaking will go into effect upon publication in the *Pennsylvania Bulletin* as a final-form rulemaking.

B. Contact Person

For further information, contact Sean Sanderson, Director of Communications, State Employees' Retirement System, 30 North Third Street, P. O. Box 1147, Harrisburg, PA 17108, (717) 787-9657; or M. Catherine Nolan, Assistant Counsel, State Employees' Retirement System, 30 North Third Street, P. O. Box 1147, Harrisburg, PA 17108, (717) 783-7317.

C. Statutory Authority

This proposed rulemaking is being made under the authority of 71 Pa.C.S. § 5902(h) (relating to administrative duties of the board).

D. Background and Purpose

When the Retirement Code was amended in 1974, the Retirement Code, for the first time, permitted certain school employees to choose an alternate retirement plan. The Retirement Code applies to new employees. The Board promulgated §§ 243.3 and 249.58 to implement this Retirement Code provision. Sections 243.3 and 249.58, among other things, contained transitional provisions, granting to existing employees an opportunity to elect an alternate retirement plan. Section 249.58 provides that vested members make an election on or before November 1, 1975. Active members who had not vested as of November 1, 1975, had 60 days from becoming eligible to vest to so elect. The transitional provisions of §§ 243.3 and 249.58 were added because the existing employees never had the opportunity to select an alternate plan. At the time of enactment of §§ 243.3 and 249.58, the only alternate plan allowed was Teachers Insurance and Annuity Association-College Retirement Equities Fund.

The act of June 22, 2001 (P. L. 530, No. 35) allowed the State System of Higher Education (SSHE) to add insurance companies or mutual funds as additional alternate plans for its employees. Sections 243.3 and 249.58, as written, could be interpreted to allow existing employees, who already had a choice under the Retirement Code to elect an alternate retirement plan, to make an additional election and to opt out of the State Employees Retirement

System (SERS) each time a new alternate plan is approved by SSHE. The Board, however, has always interpreted §§ 243.3 and 249.58 as providing a one-time opportunity for these employees, not a continual choice each time a new alternate plan is approved by the employer. Deleting the language clarifies the intent of the Board and eliminates a potential conflict between §§ 243.3 and 249.58 and the Retirement Code, because the Retirement Code does not allow current members to opt out of the system.

The Public School Employees' Retirement System (PSERS) is proposing a similar revision of its regulations that parallels § 249.58. This amendment will harmonize the regulations of SERS and PSERS with regard to election of alternate retirement plans. SSHE supports the proposed amendment of these provisions.

E. Benefits, Costs and Compliance

Benefits

The proposed rulemaking removes expired transitional provisions, clarifies the Board's intent regarding the election of alternate retirement plans and eliminates a potential conflict between the Retirement Code and §§ 243.3 and 249.58.

Costs

The proposed rulemaking would formalize the Board's long-standing interpretation that the transitional provisions of §§ 243.3 and 249.58 have expired. The proposed rulemaking, therefore, maintains the status quo and has no associated cost.

Compliance Costs

The proposed rulemaking will not impose any additional compliance costs on State employees or employers.

F. Sunset Review

Not applicable.

G. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 3, 2003, the Board submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House State Government Committee and the Senate Finance Committee. In addition to submitting the proposed rulemaking, the Board has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by SERS. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed rulemaking, it will notify the Board within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria that have not been met by the portion of the proposed rulemaking to which an objection is made. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of objections raised.

H. Public Comments

Written Comments. Interested persons are invited to submit comments, suggestions or objections regarding the proposed rulemaking to the State Employees' Retirement System, 30 North Third Street, P. O. Box 1147, Harrisburg, PA 17108. Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board by March 17, 2003 (within 30 days of publication in the *Pennsylvania Bulletin*).

Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must be received by March 7, 2003 (within 20 days following publication in the *Pennsylvania Bulletin*). The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final rulemaking will be considered.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup

standards or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act and regulations adopted under the Act.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); and The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a

particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

**HAZARDOUS SITES CLEAN-UP
UNDER THE ACT OF OCTOBER 18,
1988**

Proposed Remedial Response

Bear Creek Area Chemical Site, Fairview, Park and Concord Townships Petrolia, Fairview, Karns City and Bruin Boroughs, Butler County

Perry Township, Armstrong County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.102—6020.1303), is proposing a remedial response at Bear Creek Area Chemical Site, Fairview, Park and Concord Townships and Petrolia, Fairview, Karns City and Bruin Boroughs, Butler County and in Perry Township, Armstrong County.

1. Background

The HSCA was enacted in 1988 to provide for the cleanup of Commonwealth sites that are releasing or threatening the release of hazardous substances. Section 502(a) of the HSCA requires that the Department publish in the *Pennsylvania Bulletin* a priority list of sites with releases or threatened releases for the purpose of taking remedial response. This list is called the Pennsylvania Priority List of Hazardous Sites for Remedial Response (PAPL). The Department places sites on the PAPL when the Department has determined through investigation that there are releases or threatened releases of hazardous substances, or releases or substantial threatened releases of contaminants which present a substantial danger. In accordance with the requirements of section 502(a) of the HSCA, the Hazard Ranking System (HRS) (40 CFR Part 300, Appendix A), established under the Federal Superfund Act, as amended, is utilized to rank the sites for placement on the PAPL. The HRS uses mathematical formulas that reflect the relative importance and interrelationships of the various human health and environmental factors to arrive at a final score on a scale of 0 to 100. The values are assigned using information obtained from site investigations. Section 502(a) of the HSCA also directs the Department to consider its administrative, enforcement and financial capabilities when placing sites on the PAPL. HRS scores are finalized by the Department using the HRS in effect at the time the score is prepared and the proposed listing notice is issued under section 502(c) of the HSCA.

The HRS was developed by the EPA as the method used to evaluate the relative potential of hazardous substance releases to cause health or safety problems, ecological or environmental damage. It is the principal mechanism for placing a site on the National Priorities List (NPL), the list of priority releases for long-term remedial evaluation and response under the Federal Superfund Act. The HRS is calculated by utilizing known information to establish the level of threat presented in four potential pathways of human or environmental exposure: groundwater, surface water, air and soil exposure. Within each pathway of exposure, the HRS considers three categories of factors:

(1) Factors that indicate the presence or likelihood of a release to the environment.

(2) Factors that indicate the nature and quantity of the substances presenting the potential threat.

(3) Factors that indicate the human or environmental targets potentially at risk from the site.

The resultant HRS score represents an estimate of the relative probability and magnitude of harm to human populations or sensitive environments from potential exposure to hazardous substances by the groundwater, surface water, soil exposure or air pathways.

2. Summary and Purpose

Placement of a site on the PAPL is used to identify sites which need further study and/or remedial response decisions to address threats to the public health, safety or the environment. The Department will decide on a case-by-case basis whether to take enforcement or other actions under the HSCA or other authorities and/or to proceed directly with HSCA-funded remedial response actions and seek cost recovery after the cleanup.

Remedial response actions will not necessarily be taken in the same order as a site's ranking on the PAPL. The investigation conducted to place a site on the PAPL may not be sufficient to determine either the extent of contamination or the appropriate response actions for a site. The Department may undertake further site investigation and/or an analysis of remedial alternatives to determine appropriate response actions. The length of time needed to complete these studies will vary due to the complexity of a site. Response action decisions and implementation will proceed on individual sites regardless of the progress at other sites. Given the limited resources available in the Hazardous Sites Cleanup Fund, the Department must carefully balance the relative needs for response at the sites it has studied. The Department may decide not to immediately proceed with an HSCA remedial action or that no remedial action is necessary.

3. Technical Evaluation Grants under Act 108

Under section 510 of the HSCA, the Department may make available a reasonable sum as a grant to the governing body of the host municipality of a site where the Department is considering a remedial response. The host municipality shall use this sum solely to conduct an independent technical evaluation of the proposed remedial response. The grant shall not exceed \$50,000. Information and a technical evaluation grant package may be obtained from the Department regional office in which the site is located. Refer to the Additional Information section.

A municipality will be sent grant information by the Department after a listing announcement has been published in the *Pennsylvania Bulletin*. The grant will be signed; however, the grant will not be effective until the

proposed remedial response is available for public review. At that time, the municipality may proceed with the review of the Department's proposed remedial response.

PAPL

A. *Effective Date*

The sites listed are being placed on the PAPL effective upon publication of this *Pennsylvania Bulletin*.

B. *Contact Person*

Individual site information may be obtained by contacting the Department's regional office in which the site is located and whose address can be found in the Additional Information section.

C. *Statutory Authority*

The PAPL is published under the authority of section 502(a) of the HSCA. Under section 502(b) of the HSCA, a decision to place a site on the list or to remove a site from the list is not a final action subject to review under the Environmental Hearing Board Act (35 P.S. §§ 7511 et seq.), nor shall it confer a right or duty upon the Department or any person.

D. *Review and Public Comment*

The HSCA provides for a 30-day public comment period subsequent to publication of the PAPL. This *Pennsylvania Bulletin* announcement opens the 30-day comment period for the sites being added with this publication. Written comments should be mailed to Charles Tordella, Hazardous Sites Cleanup Program, Department of Environmental Protection, Northwest Region, 230 Chestnut Street, Meadville, PA 16335-3418.

The regional office site files contain all information considered by the Department in placing a site on the PAPL. Files are available for review in the appropriate regional Field Operations Office, by appointment only, from 8 a.m. to 4 p.m., Monday through Friday, excluding State holidays. Contact the regional Environmental Cleanup Program Manager whose address can be found in the Additional Information section. The Department considers the written comments received during the formal comment period. Written comments and the Department's responses will be placed into the site file and will later be incorporated into the Administrative Record.

E. *Contents of List*

This notice places one site on the PAPL. Table 1 lists the site added to the PAPL by this notice. The name of the site, HRS score, municipality, county and the Department region are included in this table. Table 2 lists eight sites currently on the PAPL. Included is the site added by this notice. The name of the sites, HRS score, municipality, county and the Department region are included in this table. The sites are listed in decreasing order of HRS scores.

F. *Site Listing Summary*

The Bear Creek Area Chemical Site (Site) is located in Fairview, Parker and Concord Townships and Petrolia, Fairview, Karns City and Bruin Boroughs, Butler County and in Perry Township, Armstrong County. The site includes, at minimum, 24 areas where the Department knows or has evidence to suggest that industrial wastes were disposed and the surface water, groundwater, soils and sediments that have been contaminated from hazardous substances and contaminants that have migrated from the disposal areas. The industrial wastes were transported to and disposed in various site areas from approximately the 1950s into the 1970s by Francis Spitzer and others. The industrial wastes were generated by Koppers Company (now known as Beazer East, Inc.) and Witco Chemical Corporation (now known as Crompton Corporation) and others.

Various hazardous substances are present in the disposal areas and associated surface water, groundwater and soils within the site. The hazardous substance most frequently detected is resorcinol. Additionally, the following contaminants have been detected in waste and environmental media at most of the disposal areas: meta-benzene disulfonic acid, benzene sulfonic acid, para-phenol sulfonic acid and calcium petronate/KSS (Site contaminants). Resorcinol and Site contaminants have been detected in the groundwater and springs over a wide geographical area, including numerous private and public drinking water wells. Beginning on March 21, 2002, the Department began supplying alternative potable water to what now numbers over 680 residences, businesses and institutions in the Site area whose wells contain or are threatened by contamination with resorcinol or Site contaminants.

The Site consists of two operable units for the purposes of study and remediation. They are operable unit 1 (OU1): the various site disposal areas and OU2: the groundwater impacted or threatened by the release of hazardous substances and contaminants at the site. The Department intends to conduct the following remedial response at OU2: construction of a public water supply system that would provide potable water to persons at the site.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (Act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the Act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated

substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the Act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department Regional Office after which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Northeast Region: Joseph A. Brogna, Environmental Cleanup Program Manager; 2 Public Square, Wilkes-Barre, PA 18711-0790, (570) 826-2511.

Former Foster Wheeler Energy Corporation Facility, Wright Township, Luzerne County. American Geosciences, Inc., 3925 Reed Boulevard, Suite 400, Murrysville, PA 15668-1848 submitted a Baseline Remedial Investigation Workplan (on behalf of Wabtec, 1001 Air Brake Avenue, Wilmerding, PA 15148) concerning the characterization of site soil and groundwater that was found or suspected to have been contaminated with solvents. The workplan was submitted in partial fulfillment of the Special Industrial Area standard and was approved on January 16, 2003.

HOUSING FINANCE AGENCY

Homeownership Choice Program

The Housing Finance Agency (Agency) is this Commonwealth's leading provider of capital for affordable homes and apartments. As a leader, the Agency is always seeking new methods to serve the housing and community needs of all Commonwealth residents. To this end, the Agency has set aside funds to continue the Homeownership Choice Program (Program).

The Program is designed to provide funds for the development of single family homes, for purchase, in urban communities. The Program is intended to be a part of a municipality's comprehensive approach to increase the net investment in housing in urban areas while building mixed-income communities and encouraging diversity of homeownership.

The Program encourages market-sensitive and innovative land use planning concepts in urban areas and works in concert with commercial development and community and downtown revitalization efforts. The Program focuses on new construction and the development of new homeownership opportunities and the transformation of disinvested urban neighborhoods into attractive places to live, thereby offering a viable alternative to suburbia and sprawl development.

Program proposals require partnerships among the municipality and for-profit and nonprofit builders/developers. The Program funding is just a part of the overall financing. To date, approved proposals have combined Program funds with many various municipal, State and Federal program funding, as well as private moneys and commercial development activities. For example, in the first 3 years, Program loans of \$17.15 million have leveraged over \$154 million in additional housing and infrastructure investment in 14 communities in this Commonwealth.

This year, the Agency has committed an additional \$7.5 million to the Program. Program proposals must be based upon the requirements in the Request for Proposals (RFP). Applicants seeking Program funding in 2003 must attend a preapplication meeting at the Agency. Meetings have been scheduled for March 4, 2003, and March 27, 2003, at 2101 North Front Street, Harrisburg, PA. The RFP for the 2003 Program, including due dates for proposals, is available on the Agency's website (www.phfa.org). Information to register for the mandatory preapplication meetings is also available at www.phfa.org or by contacting Robert F. Bobincheck, Associate Director—Office of Strategic Planning and Policy, (717) 780-1801, bbobincheck@phfa.org.

Surplus Lines Agents and Interested Parties; Export List of Insurance Coverages

In June 2002, the Insurance Commissioner (Commissioner) determined that certain insurance coverages were generally unavailable in the authorized market and declared those coverages as exportable. The Commissioner declared that the export list would remain in effect until revised or superseded by a subsequent list.

At this time, the Commissioner is soliciting comments regarding the current export list. Persons may request in writing that a coverage be added or removed from the list.

Persons wishing to comment on the Commissioner's current export list are invited to submit a written statement within 30 days from the date of publication of this notice in the *Pennsylvania Bulletin*.
