READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

Title 4—ADMINISTRATION

PART I. GOVERNOR'S OFFICE

[4 PA. CODE CH. 1]

[EXECUTIVE ORDER 2004-6]

Minority and Women-Owned Business Opportunities

April 15, 2004

Whereas, the level of participation by minority and women-owned businesses in the Commonwealth's procurement of supplies, services, and construction has averaged only two percent of the total dollars spent by the Commonwealth; and

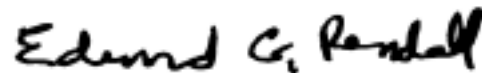

Whereas, Section 2101 of the Commonwealth Procurement Code, 62 Pa.C.S. § 2101, provides that it is the policy of this Commonwealth to assist small and disadvantaged businesses in learning how to do business with Commonwealth agencies; and

Whereas, the Constitution of the Commonwealth of Pennsylvania prohibits discrimination on the basis of race, color, or gender; and

Whereas, the Commonwealth must take steps not only to prevent discrimination against, but also to increase the Commonwealth contract participation rate by minority and women-owned businesses and other similarly disadvantaged businesses; and

Whereas, formulation of specific policy initiatives to implement these important goals are assigned to the Department of General Services as the agency responsible for the formulation of general procurement policy under Section 310 of the Commonwealth Procurement Code, 62 Pa.C.S. § 301.

Now, Therefore, I, Edward G. Rendell, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws, do hereby designate the Department of General Services as the central agency to manage and develop the participation of minority and women-owned businesses and other disadvantaged businesses in Commonwealth contracts.

Governor

Fiscal Note: GOV 04-5. No fiscal impact; (8) recommends adoption.

Annex A

TITLE 4. ADMINISTRATION

PART I. GOVERNOR'S OFFICE

CHAPTER 1. AGENCY OPERATION AND ORGANIZATION

Subchapter LL. MINORITY AND WOMEN BUSINESS ENTERPRISE

§ 1.451. Responsibilities of the Department of General Services.

The Department of General Services will do the following:

(1) Develop and implement policy initiatives to substantially increase contracting and subcontracting opportunities for minority and women-owned businesses and other disadvantaged businesses in the Commonwealth's procurement of supplies, services and construction.

(2) Centrally manage Commonwealth information, policies, procedures and issues pertaining to minority and women-owned businesses and other disadvantaged businesses.

(3) Expand the pool of certified minority and women-owned businesses by:

(i) Repealing the current 8-year graduation requirement for Commonwealth certified minority and women-owned businesses.

(ii) Periodically adjusting the business size limitation for Commonwealth certification.

(iii) Establishing reciprocal certification agreements with other governmental and nongovernmental organizations.

(iv) Establishing an expedited certification process for those minority and women-owned businesses certified by other certifying bodies.

(4) Enforce compliance with the minority and women-owned business program by both business and Commonwealth agencies.

(5) Make investigations and reports relating to the administration of the minority and women-owned business program and operations of an executive agency as they relate to the program.

(6) Request information or assistance as may be necessary, for carrying out the duties and responsibilities provided in this subchapter from any Federal, State or local government agency or unit thereof.

§ 1.452. Responsibilities of agency heads.

Agency heads under the Governor's jurisdiction will:

(1) Be responsible for ensuring that all competitive contract opportunities issued by their agency seek to maximize participation by minority and women-owned businesses and other disadvantaged businesses.

(2) Give consideration, when possible and cost effective, to contractors offering to utilize minority and women-owned businesses and disadvantaged businesses in the selection and award of contracts.

(3) Ensure that the agency's commitment to the minority and women-owned business program is clearly understood and appropriately implemented and enforced by all agency employees.

(4) Designate a responsible official to supervise the agency minority and women-owned business program and ensure compliance within the agency.

(5) Furnish the Department of General Services, upon request, all requested information or assistance.

(6) Recommend sanctions to the Secretary of General Services, as may be appropriate, against businesses that fail to comply with the policies of the Commonwealth minority and women-owned business program.

§ 1.453. Objective.

The Department of General Services (Department) will seek to increase the utilization of minority and women-owned businesses and other disadvantaged businesses in all competitive contracting opportunities. To achieve this objective, the Department will:

(1) Establish procurement policy that will give consideration, when possible and cost effective, to contractors offering to utilize minority and women-owned businesses and disadvantaged businesses in the selection and award of contracts.

(2) Develop and maintain an effective enterprise-wide data collection system in procurement and contracting, and institute quarterly and annual reporting requirements on participation level and spending in each agency.

(3) Create an internal data linkage so that agency buyers and purchasing agents will have a substantial number of commodity or service specific minority and women-owned businesses to solicit.

(4) Train procurement buyers and purchasing agents so they can assist in the Department's mission.

§ 1.454. Definitions.

The following words and terms, when used in this subchapter, have the following meanings, unless the context clearly indicates otherwise:

Disadvantaged business—A business that is owned or controlled by a majority of persons, not limited to members of minority groups, who are subject to racial or ethnic prejudice or cultural bias.

Minority-owned business—A business owned and controlled by a majority of persons who are African-Americans, Hispanic Americans, Native Americans, Asian-Americans, Alaskans and Pacific Islanders.

Women-owned business—A business owned and controlled by a majority of persons who are women.

§ 1.455. Rescission.

Executive Order 1996-8, Minority and Women Business Enterprise and Contract Compliance Programs, is rescinded.

Subdivision (c) is new. Rule 2119(e) (statement of place of raising or preservation of issues) requires that the argument contain a reference to the manner of raising or preservation of an issue in immediate connection with the argument relating thereto. See Rule 302 (requisites for reviewable issue), and Rule 1551(a) (review of quasijudicial orders).

The 2004 amendment replaces references in subdivision (d) to appeals from a “case stated” because this procedure was abolished pursuant to Pa.R.C.P. 1038.2. In its place, the Supreme Court adopted Pa.R.C.P. 1038.1 providing for a “case submitted on stipulated facts.” The statement of the case under subdivision (a)(4) of this rule may now only consist of those facts stipulated to by the parties.

PART I. RULES OF APPELLATE PROCEDURE [210 PA. CODE CHS. 31 AND 37]

Amendment to Pa.R.A.P. 3102 and Adoption to New Pa.R.A.P. 3761; No. 135 Appellate Court Rules; Doc. No. 1

Amended Order

Per Curiam:

Now, this 28th day of January, 2002, upon the recommendation of the Appellate Court Procedural Rules Committee, this Recommendation having been published before adoption at 31 Pa.B. 2470 (May 12, 2001);

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that the proposed amendment to Pa.R.A.P. 3102 and new Pa.R.A.P. 3761 are adopted in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective January 28, 2002.

**CHAPTER 31. BUSINESS OF THE COURTS
GENERALLY**

IN GENERAL

Rule 3102. Quorum and Action.

* * * * *

(c) *Commonwealth Court evidentiary hearing and election matters.* A single judge of the Commonwealth Court shall be a quorum of the Court for the purposes of hearing and determining:

(3) Any enforcement proceeding under Rule 3761 (relating to enforcement proceedings).

**CHAPTER 37. BUSINESS OF THE
COMMONWEALTH COURT**

ENFORCEMENT PROCEEDINGS

Rule 3761. Enforcement Proceedings.

(a) *Petition.* When a government unit seeks to enforce an order issued under a statute which it administers, it may initiate the proceedings by filing a petition to enforce.

(b) *Service.* The petitioner shall serve the petition and order in the manner prescribed by the Pennsylvania Rules of Civil Procedure for service of original process and shall file the return or certificate of service prescribed by the same rules.

(c) *Hearing and Notice.* Upon the filing of a petition to enforce, the court will issue an order setting a date for a hearing and a date by which the respondent must answer the petition. The petitioner shall serve the court's order upon the respondent in the manner prescribed by Rules 121 and 122.

(d) *Relief.* Following the hearing, the court will enter such orders as may be appropriate.

(e) *Discovery*. Discovery shall be allowed only upon leave of court.

Official Note: Rule 3761 (relating to enforcement proceedings) has been promulgated by the Commonwealth Court of Pennsylvania pursuant to authority granted to it by Pa.R.A.P. 104. The rule was made necessary by the opinion issued by the Supreme Court of Pennsylvania in *Pennsylvania Human Relations Commission v. School District of Philadelphia*, 732 A.2d 578 (Pa. 1999), in which the Court held that the rules of appellate procedure, rather than the rules of civil procedure, govern enforcement proceedings in Commonwealth Court.

Prior to the Supreme Court ruling in *PHRC*, Commonwealth Court had treated enforcement proceedings as matters resting within the Court's original jurisdiction and thereby governed in part by the rules of Appellate Procedure and in part by the Rules of Civil Procedure. In *PHRC*, the Supreme Court made clear that enforcement proceedings are within Commonwealth Court's appellate jurisdiction and that only the Rules of Appellate Procedure apply. The Supreme Court's ruling left a void, however, because the Rules of Appellate Procedure did not prescribe specific procedures governing enforcement proceedings.

Consistent with *PHRC*, therefore, Rule 3761 was adopted to establish a Rule of Appellate Procedure to codify the practice which the Commonwealth Court had theretofore followed in enforcement proceedings when those proceedings were regarded as matters within the Court's original jurisdiction. This special rule governing Commonwealth Court practice adheres to the Supreme Court's opinion in *PHRC* and should prove to be of benefit to both the bench and bar.

Title 225—RULES OF EVIDENCE

[225 PA. CODE ART. I]

Rule 104 Comment Changes

The Committee on Rules of Evidence is planning to recommend that the Supreme Court of Pennsylvania approve the revision of the Comment to Rule of Evidence 104. This Comment Revision is being proposed to alert the bench and bar to changes in the conduct of child competency hearings.

This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. Please note that the Committee's Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Report.

The text of the proposed Comment changes precedes the Report. Additions are bold, and deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal to the Committee through counsel:

TITLE 225. RULES OF EVIDENCE

ARTICLE I. GENERAL PROVISIONS

Rule 104. Preliminary Questions.

* * * * *

Comment

* * * * *

The second sentence of paragraph 104(c) is identical to the second sentence of F.R.E. 104(c). Paragraph 104(c) **[indicates]** says that hearings on other preliminary matters, both criminal and civil, shall be conducted outside the jury's presence when required by the interests of justice. Certainly, the court should conduct **[the]** a hearing outside the presence of the jury when the court believes that it is necessary to prevent the jury from hearing prejudicial information. **[The right of an accused to have his or her testimony on a preliminary matter taken outside the presence of the jury does not appear to have been discussed in Pennsylvania law.]**

In *Commonwealth v. Washington*, 722 A.2d 643 (1998) a case involving child witnesses, the Supreme Court created a per se error rule requiring competency hearings to be conducted outside the presence of the jury. In *Commonwealth v. Delbridge*, _____ Pa. _____, _____ A.2d _____ (2003), the Supreme Court held that a competency hearing is the appropriate way to explore an allegation that the testimony of a child has been "impaired" or "tainted" by suggestive interview techniques, and that the burden is on a party alleging testimonial incompetency by reason of taint to prove it by clear and convincing evidence.

The right of an accused to have his or her testimony on a preliminary matter taken outside the presence of the jury, a right that the rule expressly recognizes, does not appear to have been discussed in prior Pennsylvania case law.

REPORT

Proposed Revision of the Comment to Pa.R.E. 104

Comment Changes

The Committee on Rules of Evidence is planning to recommend that the Supreme Court of Pennsylvania approve the revision of the Comment to Pa.R.E. 104. This Comment revision is being proposed to alert the bench and bar to some significant changes in the conduct of child competency hearings.

In *Commonwealth v. Washington*, 722 A.2d 643 (1998), the Supreme Court created a rule requiring that the

competency hearing of a child witness be conducted outside the presence of the jury.

In *Commonwealth v. Delbridge*, _____ A.2d (2003), the Supreme Court held that the testimony of a child witness may be so tainted or impaired by suggestive interview techniques as to render the child incompetent to testify. The Court also held that the burden is on the party alleging testimonial incompetence by reason of taint to prove it by clear and convincing evidence.

President Judge

ORPHANS' COURT DIVISION RULE 14

Rule 14. Incapacitated Persons; Guardians

L. R. 14.A. Local Rules.

The practice and procedure with respect to incapacitated persons' estates shall be as prescribed by local rules, which shall not be inconsistent with the Pennsylvania Supreme Court Orphans' Court Rules.

L. R. 14.B. Contents of Petition.

1. A petition for the appointment of a guardian of the estate or person of an alleged incapacitated person shall set forth:

- a) The name, age, residence and post office address of the alleged incapacitated person;
- b) the names and addresses of the spouse, parents and presumptive adult heirs of the alleged incapacitated person;
- c) the name and address of the person or institution providing residential services to the alleged incapacitated person;
- d) the names and addresses of other service providers;
- e) the name and address of the person or entity whom petitioner asks to be appointed guardian;
- f) an averment that the proposed guardian has no interest adverse to the alleged incapacitated person;
- g) the reasons why guardianship is sought;

h) a description of the functional limitations and physical and mental condition of the alleged incapacitated person;

- i) the steps taken to find less restrictive alternatives;
- j) the specific areas of incapacity over which it is requested that the guardian be assigned powers; and
- k) the qualifications of the proposed guardian.

2. If a limited or plenary guardian of the estate is sought, the petition shall also set forth:

- a) The gross value of the estate and the net income of the alleged incapacitated person from all sources to the extent known;
- b) the potential for conflict with regard to the issue of who will be appointed as guardian and with regard to the issue of capacity; and
- c) the current status of the alleged incapacitated person (i.e. unconscious, unable to communicate due to a stroke, combative, etc.).

3. If an emergency guardian is sought, the petition shall also include an indication as to whether or not the condition of the alleged incapacitated person is one that will or will not be remedied within the first 72 hours.

4. A consent, signed by the proposed guardian, shall be attached to the petition in which the proposed guardian shall agree to act as guardian of the person or the estate of the alleged incapacitated person if appointed by the Court and shall state that the proposed guardian has no interest adverse to that of the alleged incapacitated person and is not a fiduciary of any estate, trust or similar fund in which the alleged incapacitated person has an interest. The form of consent shall be substantially as set out in Appendices A-1 and A-2 to this Rule.

5. The petition shall conclude with a prayer for the appointment of a guardian of the estate or person or both of the alleged incapacitated person and for the award of a citation directed to the alleged incapacitated person to show cause why he should not be adjudged an incapacitated person and why a guardian should not be appointed.

L. R. 14.C. Preliminary Order; Notice; Service

1. Upon presentation of a petition for the appointment of a guardian, the Court will enter a preliminary order awarding the citation prayed for. The form of the preliminary order shall be substantially as set out in Appendix B to this Rule.

2. Written notice of the petition and hearing, to which shall be attached the citation and a copy of the petition and preliminary order, shall be provided to the alleged incapacitated person. The written notice shall be in large type and in simple language and shall indicate the purpose and seriousness of the proceeding, the rights that can be lost as a result thereof, the date, time and place of the hearing, and that the alleged incapacitated person has the right to request the appointment of counsel, to have counsel appointed if the Court deems it appropriate, and to have such counsel paid for if it cannot be afforded. The form of written notice shall be substantially as set out in Appendix C to this Rule.

3. Personal service of the written notice, petition, citation and preliminary order shall be made on the alleged incapacitated person and the contents and terms of the petition shall be explained to such person to the maximum extent possible in language and terms the individual is most likely to understand. Service shall be no

less than 20 days in advance of the hearing. In addition, notice of the petition and hearing shall be given in such manner as the Court shall direct to all persons residing within the Commonwealth who are sui juris and would be entitled to share in the estate of the alleged incapacitated person if he died intestate at that time, to the person or institution providing residential services to the alleged incapacitated person and to such other parties as the Court may direct, including other service providers. An Affidavit of Service shall be filed on or before the day of hearing.

L. R. 14.D. Notice of Retention of Counsel

1. Counsel retained by the person alleged to be incapacitated in a petition under 20 Pa.C.S.A. § 5511(a) shall enter an appearance and shall provide a copy thereof to the petitioner at least seven (7) days prior to the date set for hearing.

2. If petitioner does not receive notice under Rule 14.3(a) that counsel has entered an appearance on behalf of the alleged incapacitated person, petitioner shall notify the Court, in writing, at least seven (7) days prior to the date set for hearing that the alleged incapacitated person is not represented by counsel as set out in Appendix D to this Rule.

L. R. 14.E. Hearing

At the time fixed for the hearing on the petition, testimony shall be submitted in support of the petition (See 20 Pa.C.S.A. §§ 5512.1, 5518 and 5518.1). The alleged incapacitated person shall be present in court at such hearing unless (1) the Court is satisfied, upon the deposition or testimony of, or sworn statement by a physician or licensed psychologist, that his physical or mental condition would be harmed by his presence; or (2) it is impossible for him to be present because of his absence from the Commonwealth.

L. R. 14.F. Appointment of Guardian

1. *Findings.* In all cases, the Court, upon presentation of proper proof, shall consider and make specific findings of fact as required by 20 Pa.C.S.A. § 5512(a).

2. *Final Orders.* The Court shall determine whether a plenary or limited guardian of the person or estate of the alleged incapacitated person is required. The forms of final orders for the appointment of plenary and limited guardians are set out in Appendices E-1 and E-2 to this Rule.

3. There shall be attached to the final order as an exhibit the Statement of Rights, the form of which is set out in Appendix F to this Rule.

4. At the time of final hearing, the Petitioner shall submit to the Court the Pennsylvania Notification of Mental Health Commitment, the form of which is set out as Appendix G to this Rule.

L. R. 14.G. Emergency Guardians

1. *Petition.* A petition for the appointment of an emergency guardian of the person or estate of the alleged incapacitated person shall both set forth the information required in 20 Pa.C.S.A. § 5511(e) and Rule 14.1, and shall be subject to the provisions of 20 Pa.C.S.A. § 5511 (including those relating to notification concerning the right to counsel and the appointment of such counsel for the alleged incapacitated person), unless the Court directs in its order setting the time of the emergency hearing that the preparation and inclusion of such information is not feasible under the circumstances. Such emergency petitions must, however, contain facts and information

sufficient to enable the Court to determine that: (1) the person allegedly lacks capacity; (2) is in need of the appointment of an emergency guardian; and (3) the failure to make such appointment will result in irreparable harm to the person or estate of the alleged incapacitated person.

2. *Citation.* Upon presentation of an appropriate petition for the appointment of an emergency guardian of the person or estate of an alleged incapacitated person, the Court will enter an order awarding a citation, subject to the provisions of 20 Pa.C.S.A. § 5511(a), and will direct such notice as it shall determine to be feasible in the circumstances to persons appearing to be entitled to such notice. In addition to fixing a return day for the filing of a written answer to the petition (though such written answer shall not be mandatory), the order shall also fix a time and place for hearing on the petition. The citation, together with written notice of the petition, to which shall be attached a copy of the petition and the order, shall be served personally upon the alleged incapacitated person prior to the hearing. The forms of orders for the setting of a hearing upon a petition for appointment of an emergency guardian of the person or the estate of an alleged incapacitated person shall be substantially as provided in Appendix H to this Rule.

3. *Hearing.* At the time fixed for hearing on the petition for appointment of an emergency guardian, testimony shall be submitted in support of the petition (See 20 Pa.C.S.A. §§ 5513 and 5518). The alleged incapacitated person shall be present at the hearing unless: (1) the Court is satisfied, upon the deposition, testimony or sworn statement by a physician or licensed psychologist, that his physical or mental condition would be harmed by his presence, or (2) it is impossible for him to be present because of his absence from the Commonwealth.

4. *Appointment of Emergency Guardian.* Upon proper proof, the Court shall make a finding of incapacity and appoint an emergency guardian of the person or estate, or both, pursuant to 20 Pa.C.S.A. §§ 5512.1 and 5513 and, if the petition is for the appointment of an emergency guardian of the estate, will fix the amount of the surety bond, if any, to be filed by the guardian. The required bond must be submitted to the Court for approval and filed in the Clerk's Office before the order of appointment will be released by the Court. The emergency guardian of an alleged incapacitated person shall have only and be subject to such powers, duties and liabilities and serve for such time as the Court in its order of appointment shall direct. The forms of orders of appointment of an emergency guardian shall be substantially as provided in Appendices I-1 and I-2 to this Rule.

L. R. 14.H. Inventory

Within three (3) months after the real or personal property of the incapacitated person comes into his possession or as otherwise ordered by the Court, a guardian of the estate of an incapacitated person shall verify by oath and file with the Clerk an inventory and appraisal of personality and a statement of real estate, and a statement of any real or personal property which the guardian expects to acquire thereafter.

L. R. 14.I. Reports Required of Guardian

1. Each guardian of an incapacitated person shall file a report with the Court at least once within the first twelve (12) months of his appointment or such earlier time as may be set by the Court and at least annually thereafter.

2. The annual report of a guardian of the estate of an incapacitated person shall include:

a) Assets held by the guardian and the current value thereof.

b) All receipts and disbursements of principal and income since the date of appointment of the guardian, or, if later, since the date of the last annual report. The report shall identify expenditures which have been made since the date of appointment or, if later, the date of the last annual report, pursuant to any order for an allowance under 20 Pa.C.S.A. § 5536, or otherwise for the housing, maintenance, support, medical expenses, rehabilitation, education and other needs of the incapacitated person.

c) The estimated annual income from the assets held by the guardian and from other sources.

d) Notice of the filing of an annual report by the guardian of an estate shall be provided to the guardian's surety, the guardian of the person if someone other than the guardian of the estate, the incapacitated person and his or her counsel, if any, and such other interested parties as the Court may direct.

The form of the Report of a guardian of the estate shall be substantially as set out in Appendix J to this Rule.

3. Within sixty (60) days of the death of the incapacitated person or an adjudication of capacity and modification of existing orders, the guardian of the estate of such incapacitated person shall file a final report with the Court. The final report shall cover the period from the date of the appointment of the guardian of the estate to the date of death of the incapacitated person or the adjudication of capacity. Such final report shall be filed as an account of the guardian in the office of the Clerk as provided by 20 Pa.C.S.A. § 5532, and the practice and procedure concerning the filing and audit of such accounts, reviews, distribution and rights of distributees shall conform to the practice and procedure governing the administration as set forth in 20 Pa.C.S.A. § 5533 of a decedent's or minor's estate.

4. The annual report of guardian of the person of an incapacitated person shall include:

a) Current address, type of placement and living arrangements of the incapacitated person, e.g., private home, personal care facility, hospital, institution, etc.

b) Major medical or mental problems of the incapacitated person.

c) A brief description of the social, medical, psychological and other support services the incapacitated person is receiving.

d) The opinion of the guardian as to whether the guardianship should continue or be terminated or modified, and the reasons therefore.

e) The number and length of times the guardian visited the incapacitated person in the past year.

The form of the report of a guardian of the person shall be substantially as set out in Appendix K to this Rule.

5. Within sixty (60) days of the death of the incapacitated person or an adjudication of capacity and modification of existing orders, the guardian of the person shall file a final report with the Court, providing the address and type of placement of the incapacitated person as of the date of death or adjudication of capacity, number and length of times the guardian visited the incapacitated person since the last report, and the reason why the report is being filed. The form of the final report of the guardian of the person shall be substantially as set out in Appendix L to this Rule.

L. R. 14.J. Petition for Allowance

A petition under 20 Pa.C.S.A. § 5536 for an allowance from the incapacitated person's estate during incapacity, may be presented by the guardian or any interested party. The petition shall set forth:

1. The name of the guardian and the date of the guardian's appointment; if the petitioner is not the guardian, the petitioner's relationship to the incapacitated person or the nature of the petitioner's interest;

2. the nature and present value of the incapacitated person's estate and the net annual income therefrom;

3. the address of the incapacitated person;

4. the names and addresses of the incapacitated person's dependents, if any;

5. a statement of all claims of the incapacitated person's creditors known to the petitioner;

6. all previous allowances by decree; and

7. a prayer for the allowance requested.

No order for an allowance out of an incapacitated person's estate shall be made without prior notice to the incapacitated person's guardian, if any.

L. R. 14.K. Sales, Mortgages, Leases, Exchanges and Options

A petition for the sale, mortgage, lease, exchange or option of an incapacitated person's real or personal property shall comply with 20 Pa.C.S.A. §§ 3353, 5155 and 5521(b), and the applicable provisions of Rules 12.9, 12.10 and 12.11 of this Court.

Notice of a sale or other transaction under this section shall be given to all persons who are sui juris and would be entitled to share in the estate of the incapacitated person if the incapacitated person died intestate at the time the petition is presented.

L. R. 14.L. Small Estates

1. When the entire real and personal estate, wherever located, of a resident or non-resident alleged incapacitated person has a gross value of \$25,000 or less, a petition to have him adjudged incapacitated shall be filed in the form prescribed in Rule 14.1 of this Rule except that the appointment of a guardian of his estate shall not be requested. After the hearing on such a petition and upon presentation of the required evidence, the Court will make a finding of incapacity as to the alleged incapacitated person and may authorize the person or institution maintaining the person to receive and hold or dispose of the property of the person without the appointment of a guardian or the entry of security.

2. Without the appointment of a guardian, any amount in cash of a resident or non-resident incapacitated person may be ordered by the Court to be deposited in one or more savings accounts in the name of the person in banks, building and loan associations or savings and loan associations insured by a federal government agency, provided that the amount deposited in any one such savings institution shall not exceed the amount to which accounts are thus insured. Every such order shall contain a provision that no withdrawal can be made from any such account except as authorized by order of Court.

L. R. 14.M. Foreign or Successor Guardian

1. A foreign guardian shall file an exemplification of the record of the foreign guardianship in the office of the Register of Wills and thereafter a petition with the Court requesting full faith and credit to be given to the foreign

adjudication of incompetency. The Court will enter a preliminary order awarding a citation directed to the alleged incapacitated person and providing that at least twenty days' written notice of the proceeding be given to all persons appearing to be entitled to such notice. In addition to fixing a return date for the citation, the order shall also fix a time and place for a hearing on the petition. The citation, together with a copy of the petition and order, shall be served personally on the alleged incapacitated person. Notice to other persons shall be given personally or by registered or certified mail.

2. The Court, after such notice to parties in interest as it shall direct, may without a hearing appoint a succeeding guardian to fill a vacancy in the office of guardian or may appoint a co-guardian of the estate of an incapacitated person. Where the vacating guardian was a parent who is now deceased, any testamentary nominee of the parent shall be given preference by the Court.

L. R. 14.N. Distribution of Principal (Estate Plan)

In all petitions brought under 20 Pa.C.S.A. § 5536(b),

the Court will appoint a guardian ad litem to represent the interests of the incapacitated person at the hearing on the petition.

Alternate: In all petitions brought under 20 Pa.C.S.A. § 5536(b), petitioner shall (1) request the Court to appoint a guardian ad litem to represent the interests of the incapacitated person in the proceedings, or (2) assert facts and circumstances as to why such guardian need not be appointed.

L. R. 14.O. Testamentary Writings

All testamentary writings of the incapacitated person found by the guardian, or in the possession of any other person, shall, at the time of the filing of the inventory, be filed with the Clerk of the Orphans' Court and sealed, not to be opened without Order of Court.

L. R. 14.P. Accounts and Distribution

The practice and procedure with respect to the filing and audit of accounts, as well as the distribution of the assets comprising the estate, shall conform with the practice and procedure governing all other accounts.

Final Order Appointing Permanent Plenary Guardian Under Rule 14.5 (b)

IN THE COURT OF COMMON PLEAS OF BEAVER COUNTY,
PENNSYLVANIA
ORPHANS' COURT DIVISION

IN RE: _____ :
_____ : No. _____ of _____
_____ :
an Alleged Incapacitated Person _____ :

ORDER OF COURT DETERMINING INCAPACITY
AND APPOINTING PERMANENT PLENARY
GUARDIAN OF PERSON AND/OR ESTATE

AND NOW, this _____ day of _____, 20 _____, a hearing in this case having been held on _____, 20 _____, and it appearing to the Court that _____ was served with a Notice of this hearing on _____, 20 _____, and was present at the hearing (or) the Court finds that the physical or mental condition of _____ would be harmed by his/her presence at the hearing, and further finds from the testimony as follows:

- 1. That _____ suffers from _____, a condition or disability which totally impairs his/her capacity to receive and evaluate information effectively and to make and communicate decisions concerning his/her management of financial affairs or to meet essential requirements for his/her physical health and safety.
2. That there are insufficient supports available to assist _____ in overcoming such limitations and that there exists no less restrictive alternative mechanism for decision making than the appointment of a Plenary Guardian.
3. That based on the total incapacity of _____ to receive and evaluate information effectively and to make or communicate decisions, a Plenary Guardian of the Person and a Plenary Guardian of the Estate are required on a permanent basis.

NOW THEREFORE, based on the clear and convincing evidence supporting the foregoing findings, IT IS HEREBY ORDERED, ADJUDGED AND DECREED that _____ be and hereby is adjudged a totally incapacitated person.

_____ is appointed Permanent Plenary Guardian of the Person of _____ and _____ is appointed Permanent Plenary Guardian of the Estate of _____ .

The Permanent Plenary Guardian of the Person shall have authority to consent to the general care, maintenance and custody of _____ without exception.

The Permanent Plenary Guardian of the Person shall assure that _____ receives appropriate services and shall assist him/her in developing self-reliance and independence.

The Permanent Plenary Guardian of the Estate shall have the authority to marshal all of _____'s income and assets, pay his/her bills and manage his/her financial affairs as fully as _____ could do so himself/herself if he/she had not been adjudged incapacitated.

If there is a safe deposit box in the name of the Incapacitated Person alone or in the names of the Incapacitated Person and another or others, said safe deposit box shall not be entered by the Guardian except in the presence of a representative of the financial institution where the box is located or in the presence of a representative of the Orphans' Court Division. The representative present at the time of entry shall make or cause to be made a record of the Incapacitated Person's property, and said record shall be filed with the Clerk of the Orphans' Court Division. None of the Incapacitated Person's property may be removed until after the aforesaid inventory is completed.

If the safe deposit box is jointly owned, five (5) days' notice of the proposed entry shall be given to the other owners by the Guardian.

An Inventory must be filed within ninety (90) days. A report by the Guardian of the Person and Estate shall be filed within _____ days and annually thereafter in a form approved by the Orphans' Court Division.

Within sixty (60) days of the death of the Incapacitated Person or an adjudication of capacity and modification of existing orders, the Guardian of the Estate shall file a final report with the Court in the form prescribed for accounts and shall cover the period from the date of the appointment of the Guardian of the Estate to the date of death of the Incapacitated Person or the adjudication of capacity.

A surety bond in the amount of \$ _____ shall be presented for approval by the Guardian of the Estate within five (5) days of the date of this Order.

_____, an Incapacitated Person, has the right to appeal this Order of Court by filing exceptions with the Clerk of the Orphans' Court Division within twenty (20) days of the date of this Order or by filing an appeal with the Prothonotary's Office of the Superior Court of Pennsylvania within thirty (30) days of the date of this Order or to petition this Court for a hearing to review or terminate the adjudication of incapacity and guardianship herein established.

If _____ was not present at the hearing on the adjudication of his/her incapacity and the appointment of a Guardian, then Petitioner shall serve upon, and read to _____, the Statement of Rights attached to this Order of Court and marked as Exhibit A. Proof of service of the Statement of Rights shall be filed by the Guardian with the Clerk of the Orphans' Court within ten (10) days of the date of this Order.

Preliminary Order Awarding a Citation for Emergency and Permanent Guardian Under Rule 14.2(a) and 14.6(a)

IN THE COURT OF COMMON PLEAS OF BEAVER COUNTY, PENNSYLVANIA ORPHANS' COURT DIVISION

IN RE: : No. _____ of _____ an Alleged Incapacitated Person

PRELIMINARY ORDER OF COURT (Emergency and Permanent Guardian)

AND NOW, this _____ day of _____, 20 _____, the foregoing Petition having been presented in Open Court, upon consideration thereof and on motion of _____, counsel for Petitioner, IT IS HEREBY ORDERED AND DECREED that a Citation be awarded, directed to _____. This Petition seeks to have _____ adjudged an Incapacitated Person and to have a Plenary/Limited Guardian of his/her Person and Estate appointed. The Citation shall be returnable and an emergency and permanent hearing on the Petition, and any answer thereto, shall be held on the following dates and times:

Emergency Guardianship Permanent Guardianship Return Date: Return date: Hearing Date: Hearing Date: Hearing Time: Hearing Time: Courtroom No. Courtroom No.

The alleged Incapacitated Person shall be given notice of the hearing on appointment of an Emergency Guardian of his/her Person and Estate by serving him/her personally with the Citation, this Order of Court and a copy of the foregoing Petition prior to the time of such emergency hearing.

OR

The Court finds that service of notice of the hearing on appointment of an Emergency Guardian upon the alleged Incapacitated Person is not feasible under the circumstances and is, therefore, waived pursuant to 20 Pa.C.S.A. § 5513.

Any Answer or other response to the Petition shall be filed at the Office of the Register of Wills of Beaver County sitting as Clerk of the Orphans' Court, Beaver County Court House, Beaver, Pennsylvania 15009. Hearing shall be held in Court Room No. _____, Beaver County Court House, Beaver, Pennsylvania.

The Court finds that strict compliance with 20 Pa.C.S.A. § 5511(e) and Rule 14.1 of the Beaver County Orphans' Court Division Rules (both relating to contents of the Petition) are not feasible under the circumstances and are waived for the purpose of the hearing on appointment of an Emergency Guardian of the alleged Incapacitated Person.

The Court further finds that strict compliance with 20 Pa.C.S.A. § 5511(a) (relating to notification concerning the right to counsel and the appointment of counsel for the alleged Incapacitated Person) are not feasible under the circumstances and are waived for the purpose of the hearing on appointment of an Emergency Guardian of the alleged Incapacitated Person.

At least twenty (20) days' written notice of the hearing on appointment of a Permanent Guardian shall be given to _____, the alleged Incapacitated Person, by serving him/her personally with a copy of the Petition, the Citation and this Order of Court, together with an explanation of their contents. At least twenty (20) days' written notice of the petition and hearing on the appointment of a Permanent Guardian shall be given to the next of kin and other parties in interest in the petition, either personally or by registered or certified mail.

BUCKS COUNTY

Mediation Pilot Program; Administrative Order No. 47

The Court recognizes that the use of mediation may offer litigants a faster and less expensive alternative to litigation. Accordingly, in the interests of judicial economy and of those litigants who may benefit from the availability of mediation as a means of dispute resolution, the following program, which shall be known as the "Mediation Pilot Program," is hereby adopted:

- 1. For a period of six months from June 1, 2004, every fifth litigant who files a complaint in assumpsit, trespass, or equity, and every litigant filing a complaint alleging medical malpractice will receive a list of approved mediators and a "Mediation Notice" outlining the availability of mediation as an alternative to litigation. The Notice shall be in the following form:

MEDIATION NOTICE

You have been selected to participate in a pilot program that is intended to introduce litigants to mediation as an alternative to litigation.

Mediation requires the voluntary participation of all parties to submit this dispute to a mediator trained in resolving conflicts of this nature.

You may submit this matter to mediation at any time during the litigation process prior to arbitration or trial by contacting a mediator directly. A list of mediators approved by the Court is attached.

If your case is mediated and not resolved, you are entitled to proceed directly to trial without proceeding through mandatory arbitration.

The cost of the first two hours of mediation is \$300.00, split by the parties and paid directly to the mediator. Some cases may require additional time to resolve.

THIS NOTICE MUST ACCOMPANY ORIGINAL SERVICE OF PROCESS ON ALL PARTIES. IF YOU JOIN OTHER PARTIES TO THIS ACTION, YOU MUST ALSO SERVE A COPY OF THIS NOTICE ON EACH PARTY YOU JOIN.

If you have any questions or need any further information, please call the mediation pilot program coordinator at 215-340-7655.

2. The prothonotary shall keep a list of all cases receiving the Mediation Notice.

3. Plaintiff shall serve a copy of this notice upon all defendants with the complaint or writ of summons. The notice shall also be served on any party joined subsequently.

4. Parties electing mediation shall pay a mediation fee of \$300.00 directly to the mediator for a two-hour mediation.

5. If the mediation resolves the dispute, the parties shall file a Praecipe to Settle, Discontinue and End, and may also file an Agreed Order.

6. If the mediation does not resolve the dispute, any party may file an Omnibus Praecipe moving the case directly to trial. The mediator shall issue to the litigants a special form of Omnibus Praecipe stating that the parties participated in mediation without result, and now wish to proceed to trial. In the alternative, if all parties agree, the matter may be listed for arbitration. If the parties agree to arbitration following mediation and thereafter one party chooses to appeal the arbitration award, the normal arbitration appeal fee must be paid.

7. The Dispute Resolution Committee shall gather information by which the usefulness of a mediation program administered through the Court may be assessed.

8. One year from the implementation of this Pilot Program, the Dispute Resolution Committee shall submit a report to the President Judge describing the results of the Pilot Program.

RULES AND REGULATIONS

Title 28—HEALTH AND SAFETY

DEPARTMENT OF HEALTH

[28 PA. CODE CH. 25]

Schedules of Controlled Substances

The Department of Health (Department) amends the schedules of controlled substances under the powers and duties in The Controlled Substances, Drug, Device and Cosmetic Act (act) (35 P. S. §§ 780-101—780-144). The Department amends § 25.72 (relating to schedules of controlled substances) to reschedule the substance estazolam from Schedule I to Schedule IV, to reschedule the substance buprenorphine from Schedule V to Schedule III and to schedule butorphanol, sibutramine and zolpidem as Schedule IV controlled substances to read as set forth in Annex A.

A. Purpose of the Final-Form Rulemaking

The act recognizes the fact that there is a need to control substances that have potential for abuse while also recognizing that some of those substances have medical uses. The act provides for a system of five schedules of controlled substances as a means of grouping potentially dangerous substances based on their differing potentials for abuse and on their potential for medical use. Penalties for illegal use of the controlled substances vary according to the schedule on which the substance is listed. The health and safety of the public is protected by having a substance placed on the proper schedule. Additionally, proper scheduling ensures appropriate enforcement when a substance is abused or otherwise used illegally.

The act requires that a controlled substance be placed in Schedule I when there is: (1) a high potential for abuse; (2) no currently accepted medical use in the United States; and (3) a lack of accepted safety for use under medical supervision.

The act requires that a controlled substance be placed in Schedule III when: (1) there is a potential for abuse less than the substances listed in Schedules I and II; (2) there is well documented and currently accepted medical use in the United States; and (3) abuse may lead to moderate or low physical dependence or high psychological dependence.

The act requires that a controlled substance be placed in Schedule IV when there is: (1) a low potential for abuse relative to substances listed in Schedule III; (2) currently accepted medical use in the United States; and (3) limited physical dependence or psychological dependence liability, or both, relative to the substances listed in Schedule III.

The act requires that a controlled substance be placed in Schedule V when there is: (1) a low potential for abuse relative to the substances listed in Schedule IV; (2) currently accepted medical use in the United States; and (3) limited physical dependence or psychological dependence liability, or both, relative to the substances listed in Schedule IV.

The Drug, Device and Cosmetic Board (Board) met on December 12, 2002. The meeting notice was published at 32 Pa.B. 5713 (November 16, 2002).

The Board heard the petition of Abbott Laboratories, which requested that estazolam be rescheduled from Schedule I to Schedule IV. The petition was based on the fact that the substance is listed in Drug Enforcement Agency (DEA) regulations as a Schedule IV controlled substance, there is a low potential for abuse and it has current acceptable medical use in the United States. As a Schedule I substance at the State level, serious problems existed relating to the inability of physicians to prescribe the substance and how law enforcement officials prosecute crimes relating to the illegal manufacture, distribution and possession of the substance. Resolution of this conflict is critical since estazolam is commonly prescribed for the short-term management of insomnia. Rescheduling would allow for the resolution of these conflicting issues between physicians prescribing the substance and law enforcement officials who enforce the act. Based on this information, the Board unanimously approved a motion to authorize the Secretary of the Department (Secretary) to reschedule the substance.

The Board heard the petition of the Department, which requested that buprenorphine be rescheduled from Schedule V to Schedule III. The petition was based on the fact that the DEA has rescheduled the substance from Schedule V to Schedule III, there has been significant abuse and diversion of buprenorphine in many countries, the potential for abuse of buprenorphine is less than the substances listed in Schedules I and II and there is a currently accepted medical use for this substance in the United States. The abuse potential of buprenorphine is high and closely resembles other narcotics in Schedule II. However, buprenorphine is a safer drug in overdose than other Schedule II narcotics. Therefore, buprenorphine appears to have somewhat less abuse potential than Schedule I or Schedule II narcotic substances, but more abuse potential than partial agonists in Schedule IV.

Further, buprenorphine is used in treatment of narcotic addiction. Rescheduling allows access to users for treatment, but adds controls to minimize the risk that the substance will be diverted for illicit use. Based on this information, the Board unanimously approved a motion to authorize the Secretary to reschedule the substance.

The Secretary, upon being authorized by the Board, directed that the substances estazolam and buprenorphine be rescheduled.

The Board heard the petitions of the Office of Attorney General, which requested that butorphanol, including its salts and optical isomers, and sibutramine and zolpidem be scheduled as Schedule IV controlled substances.

The scheduling of butorphanol, sibutramine and zolpidem allows law enforcement to improve enforcement and prosecution for the illegal manufacture, transport, distribution, sale, possession and use of these substances. There has been a tremendous increase in abuse of these substances over the past several years. These substances are currently scheduled by the DEA as Schedule IV controlled substances. The fact that these substances are not scheduled at the State level hinders law enforcement agencies in their prosecutions for illegal sale and illegal possession of these drugs, so that including them in Schedule IV would provide law enforcement with much needed tools to address this problem.

Further, although these substances are abused, they have a low potential for abuse relative to substances in Schedule III. There is current accepted medical use in the

United States for these substances. Butorphanol is classified as an opiate agonist-antagonist analgesic for the relief of moderate to severe pain. Sibutamine is an amphetamine analog that produces central nervous system stimulation and is used for long-term management of obesity. Zolpidem is a sedative.

Based on this information, the Board approved a motion to provide written advice to the Secretary to add these substances to Schedule IV of controlled substances. The Secretary then directed that the substances be added to Schedule IV of controlled substances.

The Department published proposed rulemaking at 33 Pa.B. 2169 (May 3, 2003). The Department proposed scheduling estazolam, previously listed in Schedule I, to Schedule IV, buprenorphine, previously listed in Schedule V, to Schedule III and would have scheduled butorphanol, sibutamine and zolpidem as Schedule IV substances. The Department provided a 30-day public comment period.

B. Summary

The Department received no comments to the proposed rulemaking and is adopting its proposed amendments to § 25.72 without change. The final-form rulemaking re-schedules or schedules substances on the lists of schedules of controlled substances as follows:

- a. The substance estazolam is deleted from Schedule I and rescheduled on Schedule IV.
- b. The substance buprenorphine is deleted from Schedule V and rescheduled on Schedule III.
- c. The substance butorphanol is scheduled on Schedule IV.
- d. The substance sibutamine is scheduled on Schedule IV.
- e. The substance zolpidem is scheduled on Schedule IV.

C. Affected Persons

Patients using and physicians prescribing estazolam will be affected by its rescheduling. Patients in need of the drug will be able to obtain it more readily and physicians will not be subject to criminal prosecutions for prescribing it.

Pharmacies and pharmacists in this Commonwealth, physicians, hospitals and certain health clinics and drug distributors, manufacturers and distributors who are already complying with the current regulations will also be affected. They will have to become aware of which substances have been scheduled or rescheduled and deal with those substances appropriately.

The general public will be affected and will benefit from the rescheduling of buprenorphine and the addition of butorphanol, sibutamine and zolpidem to Schedule IV. Rescheduling buprenorphine and including the other drugs in Schedule IV allows for better enforcement and control of the drug abuse problems in this Commonwealth. Patients in need of buprenorphine for treatment will continue to have access to it through their physicians and drug abuse treatment clinics, but the changes in scheduling will allow for stronger controls to minimize the risk that the substance will be diverted for illicit use.

D. Fiscal Impact

The final-form rulemaking has no measurable fiscal impact on the Commonwealth, local government, the private sector or the general public. This amendment does not significantly affect costs or savings by the regulated community. The final-form rulemaking does not require new legal, accounting or consulting procedures not al-

ready being undertaken by the regulated community. There is no measurable fiscal impact on local governments because a system exists for the oversight of controlled substances, and no measurable fiscal impact on State government.

E. Paperwork Requirements

A system already exists for the handling of controlled substances under the act and the final-form rulemaking does not increase paperwork.

F. Effective Date/Sunset Date

The final-form rulemaking will become effective upon publication. There is no sunset date. The regulations will be continually monitored and updated as needed.

G. Statutory Authority

The final-form rulemaking is adopted under sections 3 and 4 of the act (35 P. S. §§ 780-103 and 780-104). The final-form rulemaking is also adopted under section 2102(g) of The Administrative Code of 1929 (71 P. S. § 532(g)).

Section 3 of the act provides that the Secretary may control all substances listed in Schedules I—V of the act. Section 3(c) of the act provides that the Secretary shall not reschedule any controlled substance unless specifically authorized by the Board to do so. The Board has authorized the Secretary to reschedule estazolam and buprenorphine.

Section 3(a) of the act provides that the Secretary may add a substance as a controlled substance, and that before doing so, shall request advice in writing from the Board as to whether a substance should be added as a controlled substance. The Secretary sought that advice, and the Board provided it following its December 12, 2002, meeting. The Board recommended that the substances butorphanol, sibutamine and zolpidem be added as Schedule IV controlled substances. The Secretary then decided that these substances should be scheduled.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 17, 2003, the Department submitted a copy of the notice of proposed rulemaking, published at 33 Pa.B. 2169, to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House Committee on Health and Human Services and the Senate Committee on Public Health and Welfare for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the House and Senate Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on March 8, 2004, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5(g) of the Regulatory Review Act, the final-form rulemaking was deemed approved by IRRC effective March 10, 2004.

I. Contact Person

Questions regarding the final-form rulemaking should be submitted to Carol Williams, Director, Bureau of Community Program Licensure and Certification, Department of Health, 132 Kline Plaza, Suite A, Harrisburg, PA 17104, (717) 783-8665. Persons with a disability may

submit questions in alternative formats, such as audio tape or Braille, or for speech or hearing impaired persons, V/TT: (717) 783-6514 or the Pennsylvania AT&T Relay Services at (800) 654-5984 (TT). Persons who require an alternative format of this document (that is, large print, audio tape or Braille) should contact Carol Williams at the previous address or telephone numbers to make necessary arrangements.

J. Findings

The Department finds that:

(1) Public notice of the intention to adopt the amendment adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law.

(3) The adoption of the final-form rulemaking in the manner provided by this order is necessary and appropriate for the administration of the authorizing statutes.

TITLE 28. HEALTH AND SAFETY

PART III. PREVENTION OF DISEASES

CHAPTER 25. CONTROLLED SUBSTANCES, DRUGS, DEVICES AND COSMETICS

SCHEDULES OF CONTROLLED SUBSTANCES

§ 25.72. Schedules of controlled substances.

* * * * *

(b) Schedule I. In determining that a substance comes within this schedule, the Secretary will find: a high potential for abuse; no currently accepted medical use in the United States; a lack of accepted safety for use under

medical supervision. The following controlled substances are included in this schedule:

* * * * *

(6) Unless specifically excepted or unless listed in another schedule, a material, compound, mixture or preparation which contains any quantity of the following substances including the salts, isomers and salts of isomers:

* * * * *

- (x) Ethyl loflazepate.
(xi) Fludiazepam.
(xii) Flunitrazepam.
(xiii) Haloxazolam.
(xiv) Ketazolam.
(xv) Loprazolam.
(xvi) Lormetazepam.
(xvii) Medazepam.
(xviii) Nimetazepam.
(xix) Nitrazepam.
(xx) Nordiazepam.
(xxi) Oxazolam.
(xxii) Pinazepam.
(xxiii) Tetrazepam.
(xxiv) 3, 4-Methylenedioxymethamphetamine (MDMA)
(xxv) 4-methylaminorex.
(xxvi) Cathinone.
(xxvii) Methcathinone HCL.
(xxviii) Dimethylamphetamine.

* * * * *

(d) Schedule III. In determining that a substance comes within this schedule, the Secretary will find: a potential for abuse less than the substances listed in Schedules I and II; well documented and currently accepted medical use in the United States; and abuse may lead to moderate or low physical dependence. The following classes of controlled substances are included in this schedule:

* * * * *

- (10) Buprenorphine.

(e) Schedule IV. In determining that a substance comes within this schedule, the Secretary will find: a low potential for abuse relative to substances in Schedule III; currently accepted medical use in the United States; and limited physical or psychological dependence liability relative to the substances listed in Schedule III. The following controlled substances are included in this schedule:

(1) A material, compound, mixture or preparation, unless specifically excepted or unless listed in another schedule, which contains a quantity of the following substances:

* * * * *

- (xxv) Estazolam.
(xxvi) Zolpidem.

* * * * *

(3) Unless specifically excepted or unless listed in another schedule, a material, compound, mixture or

preparation which contains any quantity of the following substances including its salts, isomers whether optical position or geometric, and salts of the isomers whenever the existence of the salts, isomers and salts of isomers is possible within the specific chemical designation:

* * * * *

(xi) Butorphanol.

(xii) Sibutramine.

* * * * *

(f) *Schedule V.* In determining that a substance comes within this schedule, the Secretary will find: a low potential for abuse relative to the substances listed in Schedule IV; currently accepted medical use in the United States; and limited physical dependence or psychological dependence liability relative to the substances listed in Schedule IV. The following controlled substances are included in this schedule:

* * * * *

(2) Propylhexadrine, except when labeled for over-the-counter drug sale in conformity with 21 CFR 1308.15 (relating to schedule V).

(3) Pyrovalerone.

NOTICES

DEPARTMENT OF AGRICULTURE

Pennsylvania Agricultural Product Promotion Matching Grant Program; 2004-2005 Application Period

An application period for grants under the Pennsylvania Agricultural Product Promotion Matching Grant Program (program) administered by the Department of Agriculture (Department) has started. The statement of policy describing the program is in 7 Pa. Code Chapter 105 (relating to Pennsylvania agricultural product promotion matching grant program—statement of policy).

In summary, the program provides matching funds to nonprofit agricultural product promotion and marketing organizations in this Commonwealth for projects intended to increase consumer awareness of Pennsylvania agricultural products and thereby increase sales of these products.

The Secretary of Agriculture will review and evaluate the application and supporting documentation and may consider the following factors, among others, in deciding whether to approve or reject the grant request:

1. The relevance of the project to the promotion or marketing of Pennsylvania agricultural products, such as through the PA Preferred Program.
2. The innovativeness of the project described in the application, for example, renewable energy programs.
3. The scope of the project and the number of people who will be exposed to or affected by the project described in the application.
4. The impact which the project will have upon the promotion and sales of the Pennsylvania agricultural products to which the project is targeted.
5. The availability of full funding for the project from the applicant or from any source other than the program.

6. The apparent ability of the applicant to complete the project as described in the application or, in the case of a grant to fund a National or regional agricultural product promotion or marketing project, the apparent ability of the entity with primary responsibility for the project to complete it.

7. The overall performance of the project if the project had received funding from the program in a previous fiscal year.

8. Projects that are joint efforts between two or more nonprofit agricultural product promotion and marketing organizations in this Commonwealth may be given preference over projects involving only one organization.

9. Projects where reference to the Department, as a source of funding, can practicably be made in promotional materials or broadcasts, and that would make a reference, may be given preference over projects that would not make a reference.

The application, work plan and budget should reflect January 1, 2005, as the project start date. Grant funds will be disbursed as an advance payment upon receipt of a fully executed grant agreement by the grantee. The project completion date will be December 31, 2005.

Applications for the program will be accepted by the Department beginning Monday, June 7, 2004, and continue through Friday, July 9, 2004. Applications must be received by 4 p.m. in the Bureau of Market Development on the closing date. Information and a grant application can be obtained from Peter C. Witmer, Director, Bureau of Market Development, Department of Agriculture, 2301 North Cameron Street, Room 308, Harrisburg, PA 17110-9408 or accessed at www.pda.state.pa.us.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of June 2004

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of June 2004 is 7 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as a principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 4.75 to which was added 2.50 percentage points for a total of 7.25 that by law is rounded off to the nearest quarter at 7 1/4%.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental

cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Public comments must be submitted within 60 days of this notice and may recommend revisions to and approval or denial of the application.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in

this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Department of Public Health, Air Management Services: 321 University Avenue, Philadelphia, PA 19104; Edward Braun, Chief, (215) 823-7584.

AMS 03236: Park Plaza Condominium, 3900 Ford Road, Philadelphia, PA 19131 for permitting two 400 hp no. 4 oil fired boilers in the City of Philadelphia, **Philadelphia County**. The potential NO_x emission increase is 6.46 tons per year. The plan approval will contain requirements to ensure operation within all applicable requirements.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401; Thomas Edward Jurdones Brown, New Source Review Chief, (484) 250-5920.

09-00024: Waste Management Disposal Services of Pennsylvania—Tullytown Resource Recovery Facility (1121 Bordentown Road, Morrisville, PA 19067) for an administrative amendment to Title V Operating Permit 09-00024 in Tullytown, **Bucks County**. The permit is being amended to address the concerns expressed in the Appeal Document. The facility's major emission points include an enclosed flare and the landfill without Southern Expansion. The amended Title V operating permit will contain monitoring, recordkeeping, reporting and work practice standards to keep the facility operating within all applicable air quality requirements.

09-00007: Waste Management Disposal Services of Pennsylvania—G. R. O. W. S. (1121 Bordentown Road, Morrisville, PA 19067) for an administrative amendment to Title V Operating Permit 09-00007 in Falls Township, **Bucks County**. The permit is being amended to address the concerns expressed in the Appeal Document. The facility's major emission points include an enclosed flare and the landfill without expansion. The amended Title V operating permit will contain monitoring, recordkeeping, reporting and work practice standards to keep the facility operating within all applicable air quality requirements.

46-00070: Finneran and Haley, Inc. (901 Washington Street, Conshohocken, PA 19428) a renewal of their Title V Operating Permit in Conshohocken Borough, **Montgomery County**. The initial permit was issued on August 25, 1999. The facility is paint and lacquer manufacturing plant. As a result of potential emissions of VOCs, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. No changes have taken place at the facility since the permit was issued in 1999. The facility is not subject to Compliance Assurance Monitoring under 40 CFR Part 64. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745; William Charlton, New Source Review Chief, (412) 442-4174.

65-00634: Dominion Transmission Inc.—Tonkin Compressor Station (625 Liberty Avenue, Pittsburgh, PA 15222) in Murrysville Borough, **Westmoreland County**. The facility's major source of emissions include two internal combustion engines and a space heating boiler which primarily emit NOx. There are also small quantities of fugitive VOC emissions from facility pumps, valves, flanges, and the like.

15-00110: Pepperidge Farm, Inc. (421 Boot Road, Downingtown, PA 19335) for a non-Title V, State-only,

Synthetic Minor Operating Permit in Downingtown Borough, **Chester County**. Pepperidge Farm, Inc. produces frozen baked goods at their Downingtown facility. There are three boilers, a bread oven with a catalytic oxidizer, a cake oven, two impingement ovens, two emergency generators, several miscellaneous heaters, a dust collection system and a parts washer at this facility. There is a limit of 25 tons of NOx per 12-month rolling period for all the fuel-fired sources at this facility. There is also 25 tons VOC per 12-month rolling period limit on the emissions from the fuel fired sources, the baking of bread and the parts oven. Monitoring and recordkeeping requirements have been added to the permit to address applicable limitations.

09-00034: Penn Protective Coatings, Inc. (474-C Pike Road, Huntingdon Valley, PA 19006) for a non-Title V (State-only-Synthetic Minor) facility in Lower Southampton Township, **Bucks County**. The facility's sources include three spray paint booths. The permittee has elected to take an emission restriction of 24.9 ton/year for VOC to be compliant with synthetic minor requirements. The permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

PUBLIC HEARINGS

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790; Mark Wejkszner, New Source Review Chief, (570) 826-2531.

66-315-035: Procter Gamble Paper Product Company (P. O. Box 32, Mehoopany, PA 18629) for modification to a plan approval for construction and operation of two paper machines at their facility in Washington Township, **Wyoming County**.

The Procter and Gamble Paper Products Company submitted to the Department an application under 25 Pa. Code § 127.11 and it has been reviewed in accordance with all applicable air quality regulations.

The proposed modification and changes are not subject to the requirement of PSD regulations. A preliminary review of the information submitted by The Procter & Gamble Paper Products Company indicates that the construction and operation of the proposed two paper machines will meet all applicable air quality requirements. Based upon these findings, the Department plans to approve the application and issue a permit for the modification of two paper machines.

The information provided by the applicant and the Department's own analysis indicates that after modification emissions from these paper machines will either remain the same or have an expected decrease in the NOx emissions. Particulate emissions will be reduced to 54.9 tpy from 63.9 tpy; CO emissions will remain the same at 306 tpy; VOCs will remain the same at 380.2 tpy; and NOx emissions will increase from 162.2 tpy to 206.9 tpy. The emissions of these pollutants are within all applicable emissions limitations and will not cause an exceedance of the National Ambient Air Quality Standards. A decreasing of NOx emissions from the existing boilers by installing low NOx burners will offset NOx emission increases from these two paper machines. No net increase will occur in NOx emissions from this project, therefore, the modification is not subject to the NSR requirement.

To assure compliance with the applicable standards, the Department will place the following conditions on the plan approval.

1. The stack test shall be performed in accordance with 25 Pa. Code Chapter 139 to show compliance with the applicable standards.
2. NOx emissions from boilers 1, 2 and 4 shall be recorded continuously.

Persons wishing to provide the Department with additional information they believe should be considered prior to the issuance of the Plan Approval may submit the information to Mark J. Wejkszner, P. E., Chief, Engineering Services, Air Quality Program, Department of Environmental Protection, 2 Public Square, Wilkes-Barre, PA 18711, (570) 826-2531. Written comments should include the name and address and telephone number of the person submitting the comment, identification of proposed Plan Approval 66-315-035 and a concise statement regarding the relevancy of the information or any objections to issuance of the Plan Approval.

Request for a public fact finding conference or hearing may also be made by writing the Department at the previous address. A public conference may be held if the Department, in its discretion, decides that a conference is warranted on the basis of the information received. Persons who submitted comments or requested a confer-

ence will be notified of the decision to hold a conference by publication in a newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines notification by telephone is sufficient. Comments and requests must be received by the Department by 30 days after final publication date.

**COAL AND NONCOAL MINING
ACTIVITY APPLICATIONS**

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an

informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Effluent Limits—The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to: (1) surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas, active areas disturbed by coal refuse disposal activities and mined areas backfilled and revegetated; and (2) drainage (resulting from a precipitation event of less than or equal to a 1-year 24-hour event) from coal refuse disposal piles.

26890103 and NPDES Permit No. PA0591327. Duran Excavating Company (18 North Ross St., Masontown, PA 15461), renewal application for continued operation and restoration of an existing bituminous surface mine in Nicholson Township, **Fayette County**, affecting 32 acres. Receiving streams: unnamed tributaries to Cats Run (WWF). The first potable water supply intake within 10 miles downstream from the point of discharge is the Masontown Borough Municipal Authority. Renewal application received May 3, 2004.

Moshannon District Mining Office: 186 Enterprise Drive, Philipsburg, PA 16866, (814) 342-8200.

17803094 and NPDES Permit No. PA0127086. Sky Haven Coal, Inc. (5510 State Park Road, Penfield, PA 15849), renewal of an existing bituminous surface mine-auger-sandstone permit in Goshen Township, **Clearfield County**, affecting 295 acres. Receiving streams: Little Trout Run, Trout Run, West Branch of the Susquehanna River. Application received April 14, 2004.

17990901 and NPDES Permit No. PA0238295. AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650), transfer of an existing bituminous surface mine permit from Moravian Run Reclamation Co., Inc. The permit is in Ferguson Township, **Clearfield County** and affects 26 acres. Receiving streams: unnamed tributary to Campbell Run. Application received April 27, 2004.

17000108 and NPDES Permit No. PA0242977. AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650), transfer of an existing bituminous surface mine permit from Moravian Run Reclamation Co., Inc. The permit is in Ferguson Township, **Clearfield County** and affects 14.7 acres. Receiving streams: Gazzam Run, unnamed tributaries to Gazzam Run. Application received April 27, 2004.

17980119 and NPDES Permit No. PA0238121. AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650), transfer of an existing bituminous surface mine permit from Moravian Run Reclamation Co., Inc. The permit is in Morris Township, **Clearfield County** affecting 26 acres. Receiving streams: unnamed tributaries to Moshannon Creek. Application received April 27, 2004.

17980109 and NPDES Permit No. PA0238015. AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650), transfer of an existing bituminous surface mine permit from Moravian Run Reclamation Co., Inc. The permit is in Pike Township, **Clearfield County** and affects 145 acres. Receiving streams: Hogback Run. Application received April 27, 2004.

17010105 and NPDES Permit No. PA0243078. AMFIRE Mining Company, LLC (One Energy Place, Latrobe, PA 15650), transfer of an existing bituminous surface mine-auger permit from Moravian Run Reclamation Co., Inc. The permit is in Knox Township, **Clearfield County** and affects 29.9 acres. Receiving streams: unnamed tributary to Carson Run, unnamed tributary to Potts Run. Application received April 27, 2004.

Noncoal Applications Received

Effluent Limits—The following noncoal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

A settleable solids instantaneous maximum of 0.5 ml/l applied to surface runoff resulting from a precipitation event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Permit No. 05920301 and NPDES Permit No. PA0212261. New Enterprise Stone & Lime Company, Inc. (P. O. Box 77, New Enterprise, PA 16664), renewal of NPDES permit in Snake Spring Township, **Bedford County**. Receiving streams: Cove Creek and Raystown Branch of the Juniata River (EV and TSF). There are no potable water supply intakes within 10 miles downstream. Application received May 3, 2004.

Moshannon District Mining Office: 186 Enterprise Drive, Philipsburg, PA 16866, (814) 342-8200.

08040803. Barry Reese (R. R. 2, Box 213, Wyalusing, PA 18853), commencement, operation and restoration of a small industrial minerals (bluestone) permit in Wilmot Township, **Bradford County**, affecting 3 acres. Receiving streams: unnamed tributary to Panther Lick, Panther Lick. Application received April 13, 2003.

08040804. Jeffery Osmun (5890 Potters Lane, Pipersville, PA 18947), commencement, operation and restoration of a small industrial minerals (flagstone/shale) permit in Tuscarora Township, **Bradford County**, affecting 5 acres. Receiving streams: Mill Creek, tributary to Tuscarora Creek. Application received April 28, 2004.

ABANDONED MINE RECLAMATION

Under Act 181 of 1984, the Department of Environmental Protection solicits letters of interest from the landowners and/or licensed mine operators for the reclamation of the following abandoned strip mine project:

Project No. BF 500, Clinton Township, Venango County, 5 acres.

Letters of interest must be received by Roderick A. Fletcher, P. E., Director, Bureau of Abandoned Mine Reclamation, Department of Environmental Protection, 400 Market Street, P. O. Box 8476, Harrisburg, PA 17105-8476 by 4 p.m. on June 21, 2004, to be considered. Telephone inquiries shall be directed to Charles E. Lonkart, P. E., Division of Mine Hazards, (717) 787-3448.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and

other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the FWPCA (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

E51-209. Isle of Capri, 242 S. 17th Street, Philadelphia, PA 19103, Philadelphia, **Philadelphia County**, ACOE Philadelphia District.

To redevelop and maintain Piers 36—39 North (a/k/a Waterfront Square) consisting of a high-rise condominium gated community with several multistory structures including a parking garage. Work will include:

1. The placement of approximately 18,572 cubic yards of fill within a footprint of the piers currently occupying submerged lands of the Delaware River (WWF-MF).

2. To construct and maintain a new high-deck structure over an existing timber low deck structure at the ends of Piers 37 and 38. This structure will consist of several steel pipe piles, a concrete seawall and concrete deck. Timber piles will be attached to the face of the seawall along with a horizontal timber wale system and a vertical timber planking debris barrier.

3. To install and maintain approximately 924 14-inch diameter steel piles through the fill and underlying submerged lands of the Delaware River to provide structural support for the proposed buildings.

4. To install and maintain approximately 296 10-inch diameter steel piles through the fill and underlying submerged lands of the Delaware River to provide structural support for the proposed parking garage.

5. The placement of approximately 1,015 linear feet of sheet piling to provide bulkhead support.

6. To construct and maintain one 24-inch diameter and one 12-inch diameter RCP stormwater outfall structure along the southern edge of Pier 36 and discharging into the area labeled as Cohocksink Creek. Also, construct and maintain one 24-inch diameter RCP stormwater outfall structure at the eastern limit of Pier 39 and discharging into the area labeled as Delaware River.

7. To place and maintain approximately 700 linear feet of riprap bank protection around the perimeter of previously filled submerged lands along with landscaping features.

The existing site and encroachment on Commonwealth submerged lands was authorized by numerous pre-existing licenses issued by either the Port of Warden's Office, Department of Wharves, Docks and Ferries or the City of Philadelphia—Department of Commerce. Leasehold of the property within Commonwealth sub-

merged lands were further authorized by an act of General Assembly (House Bill No. 629 (Session of 2003)).

This site is approximately 3,500 feet north of Ben Franklin Bridge at a site along the Delaware River between 877 and 923 Penn Street (Philadelphia, PA-NJ Quadrangle N: 15.7 inches; W: 1.7 inches).

To construct and maintain a single-span prefabricated steel truss pedestrian bridge, having a span of 140 feet and an underclearance of approximately 17 feet across West Branch Lackawaxen River (HQ-CWF). The bridge will provide access to a parking area on the south side of the river. The project is south of the intersection of SR 0006 (Park Street) and West Street (Honesdale, PA Quadrangle N: 13.7 inches; W: 1.3 inches).

E48-337. Lower Saucon Township, 3700 Old Philadelphia Pike, Bethlehem, PA 18015 in Lower Saucon Township, **Northampton County**, U. S. Army Corps of Engineers, Philadelphia District.

To repair and maintain an existing two-span cast iron pony truss pedestrian bridge across Saucon Creek (CWF). The proposed work consists of structural upgrades to the superstructure and rehabilitation of the concrete and stone center pier. The project is northeast of the intersection of Old Mill Road and Reading Road (Hellertown, PA Quadrangle N: 11.1 inches; W: 13.7 inches).

To remove 48 lineal feet of 48-inch corrugated metal pipe and to install and maintain 40 linear feet of 54-inch corrugated metal pipe depressed 1 foot below the streambed at a point (Millerstown, PA Quadrangle N: 12.25 inches; W: 8.8 inches) approximately 70 feet downstream of the existing pipe on an unnamed tributary to the Juniata River (CWF) in Delaware Township, Juniata County.

E29-089: Dublin Township, 29195 Great Cove Road, Fort Littleton, PA 17223 in Dublin Township, Fulton County, ACOE Baltimore District.

To construct and maintain: (1) a 20-foot by 14-inch bored sanitary sewer crossing of an unnamed tributary to Little Aughwick Creek (TSF) (Burnt Cabins, PA Quadrangle N: 11.9 inches; W: 12.3 inches); (2) a 10-foot by 12-inch bored sanitary sewer crossing of an unnamed tributary to Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 11.8 inches; W: 12.6 inches); (3) a 10-foot by 8-inch bored sanitary sewer crossing of an unnamed tributary to Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 11.5 inches; W: 12.3 inches); (4) a 10-foot by 8-inch bored sanitary sewer crossing of an unnamed tributary to Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 11.5 inches; W: 12.3 inches); (5) a 10-foot by 12-inch bored sanitary sewer crossing of an unnamed tributary to Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 11.4 inches; W: 12.3 inches); (6) a 15-foot by 4-inch bored sanitary sewer crossing of an unnamed tributary to Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 8.7 inches; W: 12.4 inches); (7) a 15-foot by 14-inch bored sanitary sewer crossing of an unnamed tributary to Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 8.4 inches; W: 12.7 inches); (8) a 20-foot by 4-inch bored sanitary sewer crossing of an unnamed tributary to Licking Creek (CWF) (Burnt Cabins, PA Quadrangle N: 5.1 inches; W: 13.7 inches); (9) an 8-inch outfall with riprap apron in Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 12.3 inches; W: 12.3 inches); (10) a 65-foot by 14-inch bored sanitary sewer crossing of the South Branch of Little Aughwick Creek (HQ-CWF) (Burnt Cabins, PA Quadrangle N: 14.1 inches; W: 2.5 inches); (11) an 80-foot by 14-inch bored sanitary sewer crossing of the South Branch of Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 14.1 inches; W: 2.2 inches); (12) a 25-foot by 12-inch bored sanitary sewer crossing of the South Branch of Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 14.0 inches; W: 1.9 inches); (13) an 8-inch outfall with riprap apron in South Branch of Little Aughwick Creek (Burnt Cabins, PA Quadrangle N: 14.6 inches; W: 3.6 inches); (14) a total of 0.28 acre of temporary PFO wetland impacts for three 8-inch sanitary sewer crossings (Burnt Cabins, PA Quadrangle N: 12.0 inches; W: 12.3 inches, N: 14.5 inches; W: 3.6 inches and N: 14.1 inches; W: 2.3 inches); (15) 0.03 acre of temporary PSS wetland impact for an 8-inch sanitary sewer crossing (Burnt Cabins, PA Quadrangle N: 12.6 inches; W: 7.8 inches); and (16) 0.02 acre of temporary PEM wetland impact for an 8-inch sanitary sewer crossing (Burnt Cabins, PA Quadrangle N: 4.4 inches; W: 13.2 inches) all for the purpose of constructing

approximately 30,000 linear feet wastewater collection sewer and approximately 5,000 linear feet of wastewater force main in Dublin Township, Fulton County. The project includes a total of 86 linear feet of stream impacts waived under 105.12(a)(2) for utility lines and a minor road crossing and proposes to directly impact a total of 366 linear feet of stream channel and temporarily impact 0.33 acre of wetlands.

E67-770: Springettsbury Township, 1501 Mount Zion Road, York, PA 17402 in Springettsbury Township, York County, ACOE Baltimore District.

To construct and maintain a new roadway and associated fill in the floodplain of Codorus Creek (WWF) and an outfall structure with a rip-rap rock apron discharging into Johnson's Run (CWF), all near the intersection of Eden Road and Route 30 (York, PA Quadrangle N: 20.5 inches; W: 13.25 inches) in Springettsbury Township, York County.

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

E17-397. Department of Conservation and Natural Resources, Bureau of Forestry, P. O. Box 845, Harrisburg, PA 17105-8451. Reservoir Road crossing Upper Three Runs in Karthaus Township, Clearfield County, ACOE Baltimore District (Bellefonte, PA Quadrangle N: 15.3 inches; W: 2.0 inches).

To remove and existing structure and construct, operate and maintain a public road crossing Upper Three Runs (HQ-CWF) to provide improved public access on Reservoir Road. The crossing of Reservoir Road across Upper Three Runs shall be constructed with a single cell corrugated elliptical metal culvert pipe that will have a minimum span of 7.9 feet, rise of 5.6 feet, length of 38 feet and depression into the streambed of 1.0 foot. The road crossing shall also be constructed with headwalls and wing-walls. All construction and future repair work shall be conducted during stream low flow and dry work conditions by dams and pumping or diverting stream flow around the work area. Since Upper Three Runs is a wild trout stream, no construction or future repair work shall be done in or along the stream channel between October 1 and December 31 without the prior written approval of the Fish and Boat Commission. As proposed the project will not impact wetlands while impacting 50 feet of waterway that is along the eastern right-of-way of SR 1011 approximately 1.45 miles east of Reservoir Road and SR 1011 intersection.

E60-165. Alan C. Wagner and Leon M. Botts, 300 Market Street, Mifflinburg, PA 17844. Black Run Country Estates Road crossing in Buffalo Township, Union County, ACOE Baltimore District (Mifflinburg, PA Quadrangle N: 22.6 inches; W: 2.8 inches).

To construct, operate and maintain a road crossing Blacks Run (HQ-CWF) to provide access to single residential dwelling. The road crossing shall be constructed with three 4-foot diameter metal culvert pipes in dry work conditions by dams and pumping or fluming stream low around the work area. Construction of the road crossing shall be completed during stream low flow conditions. Construction of the road crossing will permanently impact 40 feet of Blacks Run and 0.05 acre of associated wetland. Since instead of constructing replacement wetlands for the 0.05 acre of permanently impacted wetland, the applicant is seeking to contribute to the Pennsylvania Wetland Fund through the National Fish and Wildlife Foundation Project No. 95-096.

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E25-686, Franklin Township, 10411 Route 98, Edinboro, PA 16412. T-424 (Falls Road) bridge replacement in Franklin Township, **Erie County**, ACOE Pittsburgh District (Edinboro North, PA Quadrangle N: 13.5 inches; W: 13.7 inches).

The applicant proposes to remove the existing structure and to construct and maintain a single span prestressed concrete adjacent box beam bridge having a clear span of 12.16 feet and an underclearance of 7.5 feet across Falk Run (CWF, MF, perennial) on T-424 (Falls Road) approximately 100 feet west of the intersection of SR 98 and T-424 (Falls Road). The project proposes to directly affect a total of approximately 50 linear feet of stream channel

E25-687, Department of Transportation, District 1-0, 255 Elm Street, P. O. Box 398, Oil City, PA 16301-1412. SR 0090, Section B07, Segment 0110, Offset 2082 (EB) and Segment 0111, Offset 2153 (WB) bridge replacement in Girard Township, **Erie County**, ACOE Pittsburgh District (Albion, PA Quadrangle N: 18.2 inches; W: 8.1 inches).

The applicant proposes to remove the existing structures and to construct and maintain two dual three-span steel plate girder bridges each having a spans of 115 feet, 169 feet and 169 feet and an average underclearance of 61.5 feet on a 70 degree skew across Halls Run (HQ CWF, MF, perennial) on SR 0090 (Interstate 90—eastbound and westbound lanes), Section B07, Segment 0110, Offset 2082 (EB) and Segment 0111, Offset 2153 (WB) approximately 1.8 miles northeast of the intersection of Interstate 90 and SR 18. The project proposes to directly affect a total of approximately 160 linear feet of stream channel.

E27-044A, Department of Transportation, District 1-0, 255 Elm Street, P. O. Box 398, Oil City, PA 16301. T-345 Kellettsville Bridge across Tionesta Creek and SR 666 improvements in Kingsley Township, **Forest County**, ACOE Pittsburgh District (Kellettsville, PA Quadrangle N: 8.2 inches; W: 0.9 inch).

To amend, on behalf of Forest County, DEP Permit No. E27-044 which authorized Forest County to construct and maintain the Kellettsville Bridge having two clear, normal spans of 140 feet and 120 feet and an underclearance of 17 feet, 4 inches, across Tionesta Creek on T-345 east of SR 666. The proposed amendment is to realign the west approach of the bridge beginning at the west abutment and extending to SR 666. Realignment will fill a total of approximately 0.43 acre of the flood plain of Tionesta Creek, including impact to a de minimis area of wetland (0.0037 acre).

ENVIRONMENTAL ASSESSMENT

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

EA 08-005. Department of Transportation, Engineering District 3-0, P. O. Box 218, Montoursville, PA 17754-0218. SR 1027 bridge removal project in Wysox Township, **Bradford County**, ACOE Baltimore District, State Water Plan Subbasin 4C (Towanda, PA Quadrangle N: 6.6 inches; W: 1.1 inches).

The applicant proposes to remove an abandoned 117-foot long single-span steel truss bridge that crosses Wysox Creek (CWF, perennial). Erosion and sedimentation control measures, coordinated with the Bradford County Conservation, will be implemented during the project. Most of the proposed work will be performed from the existing roadway and streambank and therefore, no significant impact to the stream channel is expected.

DAM SAFETY

Central Office: Bureau of Waterways Engineering, 400 Market Street, Floor 3, P. O. Box 8554, Harrisburg, PA 17105-8554.

D40-079A. The Ice Lakes Limited, 220 Pine Ridge Road, Tunkhannock, PA 18647. To modify, operate and maintain the Ice Pond Dam across a tributary to Little Wapwallopen Creek (CWF) for the purpose of modifying the existing spillway to manage stormwater from the proposed The Ice Lakes Subdivision (Wilkes-Barre West, PA Quadrangle N: 3.2 inches; W: 9.15 inches) in Rice Township, **Luzerne County**.

ACTIONS

**THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT
FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE
ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY
MANAGEMENT (WQM) PERMITS**

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have

submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of

itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania*

Bulletin a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317)

and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the FWPCA (33 U.S.C.A. § 1341).

Permits, Environmental Assessments and 401 Water Quality Certifications Issued

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, 2 East Main Street, Norristown, PA 19401.

E15-712. Department of Transportation, 7000 Geerdes Boulevard, King of Prussia, PA 19406, Westtown Township, Chester County, ACOE Philadelphia District.

To replace the existing Westtown Road Arch Bridge, which spans over the East Branch of Chester Creek (TSF), with a new CONSPAN arch bridge. The existing bridge is a masonry brick twin arch structure. The proposed twin span structure will span the main channel and the overbanks. The main channel has a waterway opening of approximately 42 feet wide by 10 feet high. The overbank structure will have a waterway opening of approximately 12 feet wide by 10 feet high. The work will include the following activities:

1. To perform grading within the floodway to facilitate roadway approach widening and construction of footings.
2. To place approximately 95 cubic yards of fill within the floodway to facilitate the construction of the bridge wingwalls and associated slope stabilization.
3. To place approximately 272 cubic yards of R-8 riprap and 80 cubic yards of R-6 riprap for scour protection at specific locations along the wingwalls, inlets and outlets.

4. To construct a temporary cofferdam to accommodate dewatering activities for bridge footings construction.

The project will temporarily impact approximately 285 linear feet of streambanks and 64 linear feet of streambed. It will permanently impact approximately 177 feet of streambank. The site is approximately 1,776 feet southeast of intersection of Westtown Road, Westtown Way and Little Shiloh Road (West Chester, PA Quadrangle N: 13.99 inches, W: 6.82 inches).

E46-949. McGrath Homes, 1262 Wood Lane, Langhorne, PA 19047, Limerick Township, Montgomery County, ACOE Philadelphia District.

To construct and maintain the following activities associated with the construction of the Villas Subdivision:

1. To place 0.26 acre of fill within an approximately 0.9-acre impoundment of an existing man-made pond on the southwestern border of the site for the purpose of providing an access road (D).
2. To construct an 8-inch utility stream crossing of an unnamed tributary of the Schuylkill River (WWF) and adjacent wetlands. This activity will temporarily impact 30 linear feet of watercourse and 0.03 acre of wetland (PFO).
3. To construct and maintain a stormwater outfall from Basin 1 to an unnamed tributary to the Schuylkill River.
4. To construct and maintain a stormwater outfall from Basin 2 to an unnamed tributary to Brooke Evans Creek.
5. To stabilize and enhance a riparian area consisting of approximately 120 linear feet of plantings along the spring and wetland upstream of an existing enclosure for a fairway. Plantings will also be installed downstream of the enclosure. Additionally, the upstream end of the enclosure and the pond berm will be stabilized.

6. The permit also approves the Environmental Assessment for impacts associated with the placement of fill within 190 linear feet of an unnamed tributary to the Schuylkill River for construction and maintenance of a nonjurisdictional dam. The dam will be used for stormwater management Basin 3.

This site is just northwest of the intersection of Brownback and Limerick Center Roads (Phoenixville, PA USGS Quadrangle N: 16.1 inches; W: 10.5 inches).

The issuance of this permit also constitutes approval of a Water Quality Certification under section 401 of the Federal Water Pollution Control Act.

E09-869. Department of Transportation, 7000 Geerdes Boulevard, King of Prussia, PA 19406, Wrightstown Township, Bucks County, ACOE Philadelphia District.

To replace the existing Swamp Road masonry arch culvert with a reinforced concrete open bottom box culvert measuring approximately 93.5 feet long, 20 feet wide and with a 4-foot underclearance. The bridge spans an unnamed tributary of the Neshaminy Creek (TSF, MF). The works involved the following activities:

1. To construct an approximately 50-foot long cofferdam across the stream at the upstream and downstream limits of the proposed culvert to facilitate the dewatering process and to accommodate construction activities.

2. To place and maintain approximately 87.5 cubic yards of R-6 riprap for scour protection for wingwalls at the inlet and outlet of the culvert.

3. To perform grading activities in the floodway associated with bridge footings adjustment, wingwalls construction, depressing of the culvert bottom and reconstruction and grading of roadway approach.

4. To place fill or excavate within .17 acre of wetland to accommodate roadway approach widening, construction access and stormwater diversion.

5. To relocate a drainage ditch outfall associated with the roadway widening.

The project proposes to temporarily impact 95 linear feet of watercourse, 0.17 acre of wetland and permanently impact a total of approximately 115 linear feet of stream banks and 0.05 acre of wetland. The project site is approximately 343 feet east of the intersection of Worthington Mill and Swamp Roads in Wrightstown Township (Langhorne, PA Quadrangle N: 22.68 inches; W: 15.69 inches).

The issuance of this permit also constitutes approval of a Water Quality Certification under section 401 of the Federal Water Pollution Control Act.

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

E50-220: Campbell's Cabin, L. P., P. O. Box 260, Millerstown, PA 17062 in Greenwood Township, **Perry County**, ACOE Baltimore District.

To remove and existing 72-inch diameter corrugated metal pipe and to install and maintain a new 31-foot long 128-inch by 83-inch arch pipe across Wildcat Run (CWF) for the purpose of promoting natural stream flow through an existing impoundment area, approximately 3.4 miles east of Millerstown at a point along Hollow Road (T-494) (Reward, PA Quadrangle N: 7.38 inches; W: 14.80 inches) in Greenwood Township, Perry County.

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701.

E41-534. Department of Conservation and Natural Resources, P. O. Box 8451, Harrisburg, PA 17105-8451. Water Obstruction and Encroachment joint permit application in Cascade Township, **Lycoming County**, ACOE Susquehanna River Basin District (Grover, PA Quadrangle N: 1.8 inches; W: 7.8 inches).

To remove existing stone masonry bridge piers, construct and maintain a 20-foot by 5-foot reinforced concrete box culvert, to include cast-in-place end walls in Pleasant Stream (HQ-CWF), 10.5 miles northeast of the intersection of Pleasant Stream Road and SR 0014 along Pleasant Stream Road. This project proposes to permanently impact 60 linear feet of Pleasant Stream and does not propose to impact any jurisdictional wetlands. This permit was issued under section 105.13(e) "Small Projects." This permit also includes 401 Water Quality Certification.

E59-449. Department of Conservation and Natural Resources, Rachel Carson Office Building, P. O. Box 8451, Harrisburg, PA 17105. Mine Hole Run Road project in Morris Township, **Tioga County**, ACOE Baltimore District (Cedar Run, PA Quadrangle N: 14.2 inches; W: 8.2 inches).

The applicant proposes to remove the existing bridge and appurtenant substructures and: (1) to construct and maintain a precast reinforced concrete box culvert with a single clear span of 8.28 feet, a rise of 5 feet with 1-foot depression and 22.78 feet long with precast reinforced

concrete inlet and outlet end sections; (2) construct AASHTO no. 1 aggregate lined drainage ditches along the near and far upstream roadway embankments; (3) permanently fill 54.33 square feet of wetland areas as a result of guide rail anchorage and the near right rock lined ditch; and (4) place R-6 riprap for scour protection at the inlet and outlet of the proposed culvert. The proposed project will directly affect approximately 130 linear feet of the tributary to Mine Hole Run (EV) and will permanently impact 0.001 acre of wetlands and temporarily impact 0.013 acre of wetlands. This permit also includes 401 Water Quality Certification.

E60-164. Department of Conservation and Natural Resources, P. O. Box 8451, Harrisburg, PA 17105-8451. Water Obstruction and Encroachment joint permit application in Hartley Township, **Union County**, ACOE Susquehanna River Basin District (Harleton, PA Quadrangle N: 19.4 inches; W: 8.3 inches).

To remove the existing single span steel beam bridge, construct and maintain a single span prestressed adjacent box beam bridge with a clear span of 23 feet 2 inches and a minimum underclearance of 4.8 feet; to include R-7 rock protection along the bridge piers in Rapid Run (HQ-CWF), .25 mile south of the intersection of Pine Creek Road and SR 0192 along Pine Creek Road. This project proposes to permanently impact 60 linear feet of Rapid Run, a stream containing wild trout and a TSF and does not propose to impact any jurisdictional wetlands. This permit was issued under section 105.13(e) "Small Projects." This permit also includes 401 Water Quality Certification.

Northwest Region: Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

E27-075, Jenks Township, P. O. Box 436, Marienville, PA 16239-0436 in Jenks Township, **Forest County**, ACOE Pittsburgh District (Marienville East, PA Quadrangle N: 15.1 inches; W: 16.5 inches).

The applicant proposes to construct and maintain an upgrade to the existing wastewater treatment plant to process increased sewage loading involving: (1) to temporarily affect 0.006 acre of PEM wetland with a crossing by a 1.25-foot diameter gravity flow PVC plastic influent pipeline; (2) to temporarily affect 0.005 acre of PEM wetland with a crossing by a 1.33-foot diameter gravity flow ductile iron effluent pipeline; and (3) to construct and maintain an outfall, having a 1.33-foot diameter ductile iron pipe, to West Branch Millstone Creek (HQ CWF, perennial) approximately 0.8 mile east of the intersection of SR 66 and SR 899. This project proposes to temporarily affect a total of 0.01 acre of PEM wetland.

E42-303, University of Pittsburgh, Bradford Campus, 300 Campus Drive, Bradford, PA 16701. Blaisdell Hall parking expansion in Bradford Township, **McKean County**, ACOE Pittsburgh District (Bradford, PA Quadrangle N: 12.3 inches; W: 6.6 inches).

To construct and maintain an expansion onto the existing parking lot, an access roadway and a stormwater management facility and a stormwater outfall with riprap along the left (north) bank and within the mapped FEMA floodway/floodplain of West Branch Tunungwant Creek associated with Blaisdell Hall and Campus Drive modifications.

ENVIRONMENTAL ASSESSMENTS

Central Office: Bureau of Waterways Engineering, Rachel Carson State Office Building, Floor 3, 400 Market Street, Harrisburg, PA 17105.

EA46-036CO. East Norriton Township, 2501 Stanbridge Street, East Norriton, PA 19401-1616. East Norriton Township, **Montgomery County**, ACOE Philadelphia District.

Project proposes to breach and remove Calvert Hurdle Park Dam across a tributary to Stony Creek (TSF) for the purpose of eliminating a resident goose problem and restoring the stream to a free flowing condition. The dam is approximately 1,000 feet south of the intersection of Township Line Road (SR 3001) and North Wales Road (SR 2010) (Lansdale, PA Quadrangle N: 5.8 inches; W: 10.85 inches.

Availability of Technical Guidance

Technical guidance documents are on the Department of Environmental Protection's (Department) website (www.dep.state.pa.us) at the Public Participation Center page. The "Current Inventory" heading is the Governor's list of nonregulatory guidance documents. The "Final Documents" heading is the link to a menu of the various Department bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical

Guidance" heading is the link to the Department's draft technical guidance documents.

The Department will continue to revise its nonregulatory documents, as necessary, throughout 2004.

Ordering Paper Copies of Department Technical Guidance

The Department encourages the use of the Internet to view guidance documents. When this option is not available, persons can order a bound paper copy of the latest

inventory or an unbound paper copy of any of the final documents listed on the inventory by calling the Department at (717) 783-8727.

In addition, bound copies of some of the Department's documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Final Technical Guidance—Substantive Revisions

DEP ID: 381-5511-014. Title: Guidance on Utilization of Disadvantaged Business Enterprise (DBE) Firms. Description: The Department is required to implement requirements for solicitation of DBE firms to participate in the Clean Water and Drinking Water State Revolving Fund programs (programs), in conformance with the program operating agreement among the Department, the Pennsylvania Infrastructure Investment Authority and the Environmental Protection Agency. The purpose of the revisions is to update the existing DBE guidance document with current forms, DBE list sources and contacts. This guidance will apply to all recipients of loan funds under the programs. Notice requesting comment on the draft guidance was published at 34 Pa.B. 997 (February 21, 2004). A 30-day public comment period was provided. The Department did not receive any comments on the draft guidance. Effective Date: May 22, 2004. Contact: Tony Maisano, (717) 772-4055, amaisano@state.pa.us.

DEP ID: 391-2000-011. Title: Technical Reference Guide (TRG) PENTOXSD for Windows PA Single Discharge Wasteload Allocation Program for Toxics Version 2.0. Description: The purpose of this technical reference guide is to describe how applicable regulatory requirements and technical methods are incorporated into PENTOXSD. PENTOXSD is the Commonwealth's Single Discharge Wasteload Allocation Computer Program for Toxic Substances and is used by the Department to determine recommended NPDES effluent limitations for toxics and other substances based on water quality criteria and other instructions in 25 Pa. Code Chapters 16, 93 and 96 (relating to water quality toxics management strategy—statement of policy; water quality standards; and water quality standards implementation). The technical reference guide explains how these requirements and methods are applied to available data to determine recommended effluent limitations. It also describes the mathematical relationships, default equations and values and wasteload allocation procedures used in PENTOXSD. Notice requesting comment on the draft guide was published at 33 Pa.B. 4630 (September 13, 2003). A 30-day public comment period was provided. The Department did not receive any comments on the draft guide. Effective Date: May 22, 2004. Contact: Tom Starosta, (717) 787-4317, tstarosta@state.pa.us.

Draft Technical Guidance

DEP ID: 383-3310-309. Title: Pennsylvania Drinking Water Information system (PADWIS) Laboratory Sample User's Manual. Description: The purpose of this document is to establish uniform instructions and protocol for using and maintaining computerized public drinking water laboratory sample data for the management of the Safe

Drinking Water Program in this Commonwealth. Written Comments: Interested persons should submit written comments on draft technical guidance document #383-3310-309 by June 21, 2004. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Michael C. Mark, Bureau of Water Supply and Wastewater Management, Rachel Carson State Office Building, 11th Floor, Harrisburg, PA 17105-8467, mmark@state.pa.us. Questions regarding the draft technical guidance document should be directed to Michael C. Mark, (717) 772-4466.

Approval of Drugs which may be Used by Certain Optometrists

Under the Optometric Practice and Licensure Act (act) (63 P. S. §§ 244.1—244.12), and specifically as the act was amended by the act of December 16, 2002 (P. L. 1950, No. 225) (Act 225), the Secretary of Health (Secretary) has the authority to approve drugs for use in the practice of optometry as the "practice of optometry" is defined in Act 225. The State Board of Optometry, through the Secretary of State, sent the Secretary a letter on February 20, 2004, and requested that the Secretary approve the use of the following drug. Act 225 requires that the Secretary, within 90 days of the receipt of the list of drugs, and in consultation with the Physician General, approve or disapprove for good cause each drug. The Secretary has found good cause to approve the use of the following drug in the practice of optometry:

Elestat (epinastine HCL ophthalmic solution)

The approval of the use of this drug is effective upon publication of this notice in the *Pennsylvania Bulletin*.

Special Supplemental Nutrition Program for Women, Infants and Children (WIC Program); Maximum Allowable Prices

Under 28 Pa. Code § 1103.4(5) (relating to selection criteria for authorization and reauthorization), the WIC Program hereby publishes notice of the maximum allowable prices. Due to a significant increase in the price of milk, the prices for the following WIC allowable foods have been increased. Retroactive to April 1, 2004, through June 30, 2004, the maximum allowable prices the Department of Health will pay for a WIC allowable food are as follows:

1/2 gal. of Milk: Whole, Reduced Fat, Low Fat or Skim	\$2.49
1 qt. Lactose Reduced Milk	\$2.29
1/2 gal. Kosher Milk	\$3.24
1 lb. Cheese	\$6.12
1 lb. Kosher Cheese	\$8.32

A store must permit purchase of WIC allowable foods that exceed the maximum allowable price to WIC participants using a WIC check; however, the amounts that exceed the maximum allowable price of any WIC allowable foods sold to WIC participants will be billed to the store on a quarterly basis in accordance with 28 Pa. Code § 1105.2 (relating to price adjustment).

Persons with a disability who require an alternative format of this listing of maximum allowable prices (for example, large print, audiotape or Braille) should contact Chris Harr, Department of Health, Division of WIC, Room 604, Health and Welfare Building, Harrisburg, PA 17120, (717) 783-1289, for speech and/or hearing impaired persons, V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Services at (800) 654-5984.

9. *Retailer Incentive Awards:* The Lottery may conduct a separate Retailer Incentive Game for retailers who sell Pennsylvania Bullseye Bingo instant lottery game tickets. The conduct of the game will be governed by 61 Pa. Code § 819.222 (relating to retailer bonuses and incentives).

10. *Unclaimed Prize Money:* For a period of 1 year from the announced close of Pennsylvania Bullseye Bingo, prize money from winning Pennsylvania Bullseye Bingo instant lottery game tickets will be retained by the Secretary for payment to the persons entitled thereto. If no claim is made within 1 year of the announced close of the Pennsylvania Bullseye Bingo instant lottery game, the right of a ticket holder to claim the prize represented by the ticket, if any, will expire and the prize money will be paid into the State Lottery Fund and used for purposes provided for by statute.

11. *Governing Law:* In purchasing a ticket, the customer agrees to comply with and abide by the State Lottery Law (72 P. S. §§ 3761-101—3761-314), 61 Pa. Code Part V (relating to State Lotteries) and the provisions contained in this notice.

12. *Termination of the Game:* The Secretary may announce a termination date, after which no further tickets from this game may be sold. The announcement will be disseminated through media used to advertise or promote Pennsylvania Bullseye Bingo or through normal communications methods.

DEPARTMENT OF TRANSPORTATION

Finding Bedford County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Secretary of Transportation makes the following written finding:

The Department of Transportation plans to improve the existing intersection of SR 56 with SR 4032 (Fish Hatchery Road) and T-559 (Presnell Road) in East Saint Clair Township, Bedford County. The proposed project consists of the realignment of SR 4032 and T-559 with SR 56, the addition of left turn lanes on SR 56 and shoulder widening to improve this intersection to current design standards. This project will require the acquisition of approximately 0.01 acre from the Reynoldsdale Fish Hatchery and 0.08 acre from the Spring Meadow Farm. Both of these resources are along SR 4032 and have been determined eligible for listing on the National Register of Historic Places.

Information describing the project together with the associated environmental analysis is contained in the Level 2 Categorical Exclusion Evaluation (CEE)/Programmatic Section 4(f) Evaluation that was prepared for this project. The Federal Highway Administration approved the Level 2 CEE/Programmatic Section 4(f) Evaluation for this project on April 9, 2004.

Based upon studies, there is no prudent and feasible alternative to the acquisition of approximately 0.01 acre from the Reynoldsdale Fish Hatchery and 0.08 acre from the Spring Meadows Farm.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered, and it has been concluded that all reasonable planning was completed to avoid, minimize or mitigate for the environmental effects that are likely to result from the improvement of this section of highway.

ENVIRONMENTAL HEARING BOARD

Mountain Watershed Association and Citizens For Pennsylvania's Future v. DEP and Kaiser Refrac- tories, Permittee; EHB Doc. No. 2004-102-R

Mountain Watershed Association and Citizens For Pennsylvania's Future have appealed the issuance by the Department of Environmental Protection of NPDES Permit PA0202851 (November 20, 2003) and Noncoal SMP 2966BSM50 to Kaiser Refractories for a facility in Steward Township, Fayette County.

A date for the hearing on the appeal has not yet been scheduled.

The appeal is filed with the Environmental Hearing Board (Board) at its office on the Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457 and may be reviewed by interested parties on request during normal business hours. If information concerning this notice is required in an alternative form, contact the Secretary to the Board at (717) 787-3483. TDD users may telephone the Board through the AT&T Pennsylvania Relay Center at (800) 654-5984.

Petitions to intervene in the appeal may be filed with the Board by interested parties under 25 Pa. Code § 1021.81 (relating to intervention). Copies of the Board's rules of practice and procedure are available upon request from the Board.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Amended Reliability Benchmarks and Standards for Electric Distribution Companies

Public Meeting held
May 7, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzingrilli; Wendell F. Holland

Amended Reliability Benchmarks and Standards for the Electric Distribution Companies; Doc. No. M-00991220

Order

By the Commission:

Today, in conjunction with our Final Rulemaking Order at Docket No. L-00030161, we tighten our standards for performance reliability in the electric distribution industry and reiterate the Commission's regulations regarding qualifying an interruption as a major event as well as the process for filing formal requests for waivers from having to submit reliability data for any reporting period.

Procedural History

The Electricity Generation Customer Choice and Competition Act (Act), December 3, 1996, P. L. 802, No. 138 § 4, became effective January 1, 1997. The Act amends 66 Pa.C.S. by adding Chapter 28 to establish standards and procedures to create direct access by retail customers to the competitive market for the generation of electricity, while maintaining the safety and reliability of the electric system. Specifically, the Commission was given a legislative mandate to ensure that levels of reliability that were present prior to the restructuring of the electric utility industry would continue in the new competitive markets. 66 Pa.C.S. § 2802(12).

In response to this legislative mandate, the Commission adopted a Final Rulemaking Order on April 23, 1998, at Docket No. L-00970120, setting forth various reporting requirements designed to ensure the continuing safety, adequacy and reliability of the transmission and distribution of electricity in the Commonwealth. See 52 Pa. Code §§ 57.191—57.197. The Final Rulemaking Order acknowledged that the Commission could reevaluate its monitoring efforts at a later time as deemed appropriate.

On December 16, 1999, the Commission entered a Final Order at M-00991220, which established reliability benchmarks and standards¹ for the electric distribution companies (EDC) in accordance with 52 Pa. Code § 57.194(h). The Commission's regulations for Electric Reliability Standards at 52 Pa. Code § 57.194(h)(1) state that:

"In cooperation with an electric distribution company and other affected parties, the Commission will, from time to time, establish numerical values for each

¹ A performance benchmark is the statistical average of an EDC's annual reliability performance index values for a given time period and is established by the Commission. The benchmark represents company-specific reliability performance for a specific historical period. An EDC's performance benchmark is the average of the historical annual averages of the performance index values for the 5-year time period from 1994-1998 and appear in Appendix B.

A performance standard is a numerical value established by the Commission that represents the minimal performance allowed for each reliability index for a given EDC. Performance standards established by this order are derived from and based on each EDC's historical performance as represented in performance benchmarks. Both long-term and short-term performance standards are established for each EDC. Long-term, 3-year rolling performance standards are based on the three most recent annual index values. Short-term, 12-month rolling performance standards are based on the four most recent quarterly index values. The long-term and short-term performance standards appear in Appendix B.

reliability index or other measure of reliability performance that identify the benchmark performance of an electric distribution company, and performance standards."

In a series of orders at Docket No. M-00991220, the Commission established reliability Benchmarks and Standards regarding: (1) Customer Average Interruption Duration Index (CAIDI); (2) System Average Interruption Frequency Index (SAIFI); (3) System Average Interruption Duration Index (SAIDI); and (4) Momentary Average Interruption Index (MAIFI).² The benchmark for each performance value index is the average of the historical annual averages of the index for the 5-year period from 1994-1998 and is company specific. The standard is two standard deviations from the benchmark. These benchmarks and standards have remained in effect since their issuance in December 1999.

In June 2002, the Legislative Budget and Finance Committee (LB&FC) issued a report entitled *Assessing the Reliability of Pennsylvania's Electric Transmission and Distribution Systems*. The report, in part, concluded that the two-standard deviation minimum performance standard is too loose and should be tightened as it does not assure that reliability performance will be maintained at levels experienced prior to the Act, December 3, 1996, P. L. 802, No. 138 § 4, effective January 1, 1997.

A Staff Internal Working Group on Electric Service Reliability (Staff Internal Working Group) prepared a report entitled *Review of the Commission's Monitoring Process For Electric Distribution Service Reliability*, dated July 18, 2002, which reviewed the Commission's monitoring process for electric distribution service reliability and commented on the recommendations from the LB&FC report. In its report, the Staff Internal Working Group recommended, in part, that "the Commission should develop minimum performance standards that achieve the Commission's policy objective (See Recommendation III-1, p. 7)." A subsequent Commission Order on August 29, 2002, at Docket No. D-02SPS021 directed:

"That the Commission staff shall undertake the preparation of such orders, policy statements, and proposed rulemakings as may be necessary to implement the recommendations contained within the Staff Internal Working Group . . . Report (p. 4)."

The Staff Internal Working Group was assigned this task and conducted field visits to EDCs to identify the current capabilities of each EDC for measuring and reporting reliability performance. These field visits began in October 2002 and continued through March 2003.

On June 27, 2003, the Commission entered a Tentative Order at M-00991220, which recomputed the reliability benchmarks and standards for the EDCs. The Tentative Order was published for comments in the *Pennsylvania Bulletin*. Comments were filed by the Attorney General's Office of Consumer Advocate (OCA), AFL-CIO Utility Caucus (AFL-CIO), Energy Association of Pennsylvania (EAP), Metropolitan Edison Company (Met-Ed), Pennsyl-

² CAIDI is Customer Average Interruption Duration Index. It is the average duration of sustained interruptions for those customers who experience interruptions during the analysis period. CAIDI represents the average time required to restore service to the average customer per sustained interruption. It is determined by dividing the sum of all sustained customer interruption durations, in minutes, by the total number of interrupted customers. SAIFI is System Average Interruption Frequency Index. SAIFI measures the average frequency of sustained interruptions per customer occurring during the analysis period. SAIDI is System Average Interruption Duration Index. SAIDI measures the average duration of sustained customer interruptions per customer occurring during the analysis period. MAIFI measures the average frequency of momentary interruptions per customer occurring during the analysis period. These indices are accepted national reliability performance indices as adopted by the Institute of Electrical and Electronics Engineers, Inc. (IEEE), and are defined with formulas at 52 Pa. Code § 57.192.

Discussion

The comments raised issues regarding several topics. The following is a short synopsis of each topic, the parties' positions and our disposition of each issue.

1. Recalculation of Reliability Benchmarks

A. System-wide Major Event Exclusion Standardization

In our Tentative Order, we discussed two sources of variability in the computation of the permanent benchmarks to date that made it difficult to set new performance standards equitably across the EDCs.

The first source of variability was that some EDCs used one, system-wide operating area to compute their reliability metrics, while other EDCs subdivided their service territories and used multiple operating areas to compute their metrics. The number, size and composition of operating areas used for metric computations introduced variability into the criterion used to exclude major events from the reliability metrics reported to the Commission. An EDC that subdivided its territory into several small geographic operating areas could exclude major events from its metric calculations based on a criterion of an interruption affecting 10% of the customers in an operating area; whereas another EDC, employing only one service territory-wide operating area had to meet a much higher criterion of an interruption affecting 10% of the total EDC customer base. The proposed solution to this benchmark variability problem was to develop one uniform calculation method using system-wide performance (for the entire service territory) for computing and reporting reliability metrics to the Commission.

We proposed that EDCs should compute and report their reliability metrics to the Commission considering the entire service territory as one operating area and the major event exclusion of an interruption that affects 10% of the entire customer base for a duration of 5 minutes or longer.

To develop proposed standards based on the uniform definition of an operating area, Commission staff requested those EDCs that had developed their metrics using more than one operating area to recalculate their metrics for the 1994-2002 period using the entire service territory criterion. The data recalculations were used by Commission staff to recompute the current benchmarks using a uniform methodology across the EDCs. In the Tentative Order, the Commission emphasized that the recomputed benchmarks do not represent a lowering or raising of the historical benchmarks. All of the EDCs were asked to apply a uniform exclusion criterion to their original data. The only major events excluded from the recomputed benchmarks were unscheduled interruptions that affected 10% or more of the customers in the entire service territory for a duration of 5 minutes or longer. For EDCs that had previously excluded major events based on the multiple operating area criterion, the recomputed benchmark values may be higher than the original benchmark values because previously excluded outage data may now be included in the metric values. However, we noted in our Tentative Order that the recomputed bench-

marks should be viewed as representing the actual reliability performance during the historical period, as calculated using a uniform methodology.

Positions of the Parties

PPL filed comments in support of the Commission's proposed recalculation of the historical benchmarks using the single operating area data as it will establish a uniform calculation method for computing and reporting reliability metrics. However, the OCA strongly urged the Commission to retain the existing historic performance benchmarks rather than lowering expectations for certain EDCs through a recomputation of historic data. The OCA agrees that on a prospective basis, the Commission should ensure that the major event criteria are applied uniformly by the EDCs as that is an appropriate way to proceed on a going forward basis. The OCA also noted a concern identified in the LB&FC Report that wide variations exist among EDCs in both data collection and the application of Commission regulations to the data. The OCA noted that the LB&FC recommended that the Commission clarify when an EDC can exclude data for major events from the underlying data used to calculate the metrics.

In response to the OCA's comments, EAP countered that the recomputed benchmarks do not change the historical service provided to the relevant EDC customers. EAP commented that the Commission has not lowered the benchmarks going forward but has sought to ensure compatibility. EAP notes that it is critical for accurate comparisons that the same method be employed for historical and future evaluations of reliability.

The OCA submits that operating area information reflects how an EDC manages its distribution system and utilizes its resources within its system and that worst performing circuit reports as required under the companion Final Rulemaking Order at L-00030161 are not a suitable proxy for operating area information. The OCA also recognizes that the Staff Report noted that some EDCs defined operating areas differently for internal purposes than for Commission reporting purposes. As a result, the OCA suggests that EDCs be required to continue reporting of operating area reliability metrics using operating areas consistent with those used for internal operations and monitoring.

Disposition

The Commission strongly emphasizes that recalculating the historical benchmarks so that all EDCs are using standard criteria for excluding major events is not lowering the bar for future reliability performance. The recalculation is consistent with the recommendation of the LB&FC (as noted in the comments of the OCA) that the Commission clarify when an EDC can exclude major events from the data used to calculate the metrics. The benchmark recalculation achieves three important objectives for the Commission. The first objective is uniformity of metric calculations. The second objective is that the Commission, in performing its reliability monitoring role, can view the metric values on the same numerical scale. The third Commission objective is captured in the reply comments of EAP who points out that it is critical to use identical calculations for historical benchmarks (reference points) and future reliability performance measures. We would add that to allow the use of different calculation measures for benchmarks, but to use a standard calculation method for measuring reliability performance on a going forward basis (as suggested by the OCA), would render erroneous results so that the Commission would

conclude that some EDCs' performance relative to their benchmarks had improved or deteriorated when in fact that was not the case. Therefore, we will retain the recalculated benchmarks and require EDCs to use the standard methodology that employs the system-wide definition of an operating area for the exclusion of major events from reliability metric calculations.

It should be realized that if EDCs are required to report by the operating areas they use for internal operations, all previous years' operating area reliability metrics would need to be recomputed each time they reconfigure their internal operations. This would make it more difficult to find pocket areas where reliability is a concern, since the companies could continually reconfigure operating areas to cover areas of concern. The circuit analysis proposed eliminates this potential problem and allows for identifying problem areas that are in need of remedial action. Therefore, we will adopt the initial Commission position, whereby companies report reliability data using a system-wide operating area and a listing of worst performing circuits. Our position is further addressed in our Final Rulemaking Order at L-00030161.

B. Standardization of Individual EDC Calculations

A second source of variability discussed in our Tentative Order that made it difficult to equitably set new performance standards for all the EDCs pertained to two EDCs not excluding any data on major events and another EDC using a different major event definition than that contained in Commission regulations and used by all the other EDCs. In the first instance, Wellsboro and Citizens' did not exclude major events from their metric calculations for 1994-2002, although the regulations permit these exclusions.³ This was in contrast to the calculations of all the other EDCs and, therefore, was a source of variability to only Citizens' and Wellsboro. In the second instance, Penn Power used the FirstEnergy definition of a major event which is different than the definition used by the Commission and can yield a different result.

Commission staff requested that the metrics for Citizens', Wellsboro and Penn Power be recomputed so that they would be calculated using the same uniform methodology that other EDCs used.

Positions of the Parties

The OCA noted in their comments that for Citizens' and Wellsboro, the recomputed historical benchmarks suggest that a much higher reliability was achieved from 1994-1998 than was previously calculated. The OCA is unclear as to why there was a change in these two EDCs' benchmarks with the recalculation since these small EDCs always reported on a system-wide basis rather than a multiple operating area basis. EAP reply comments noted that Citizens and Wellsboro have recomputed their benchmarks to exclude major events consistent with the other EDCs to ensure comparability. In their comments, FirstEnergy did not specifically address the recomputation of Penn Power's benchmarks using the Commission's definition of a major event rather than using FirstEnergy's definition which yields a different result. However, FirstEnergy commented that as a broad conceptual matter and over the long-term, that they agree with and support the Commission's efforts to standardize among the EDCs the outage data maintained and submitted to the Commission.

³ The Tentative Order noted that Citizens' did not exclude major events. However, it is clear that both Citizens and Wellsboro did not exclude major events in their original calculations.

Disposition

The reply comments of EAP correctly capture the reason why the recalculated benchmarks of Citizens' and Wellsboro reflect a higher level of reliability during the benchmark period than was previously reported. As we noted in our Tentative Order, Citizens' did not exclude any major events from its metric calculations for 1994-2002 although the Commission's regulations permit these exclusions. To place Citizens' and Wellsboro's metric values on the same numerical scale as the metrics from the other EDCs, the Commission requested that Citizens' and Wellsboro recalculate their benchmarks using the allowed exclusions of major events, thereby lowering their benchmark values from those reported previously. We will retain the recomputed benchmarks for Citizens' and Wellsboro. We will retain the recomputed benchmarks for Penn Power as advanced in the Tentative Order that used the Commission's definition of a major event so that Penn Power's benchmarks are calculated using the same methodology that other EDCs use. We will interpret FirstEnergy's comments to be consistent with this disposition.

Appendix A contains a table of the benchmarks as originally calculated and the recomputed benchmarks based on: (1) excluding major event data using the entire service territory criterion (changes for Allegheny Power, Duquesne Light, Met-Ed, Penelec and PPL); (2) excluding major events for the first time (Citizens' and Wellsboro); (3) using the Commission's definition of a major event (Penn Power as noted in our Tentative Order); and corrected SAIDI calculations that reflect SAIDI as being the product of SAIFI multiplied by CAIDI (UGI and Pike County). We will adopt the recomputed benchmarks contained in Appendix A and also add remarks to clarify why the prior benchmarks were changed as reflected in the recomputed benchmarks.

2. Reliability Data Quality Issues

In our Tentative Order, we discussed two data quality issues that may affect the Commission's electric reliability monitoring efforts. The first issue pertained to Allegheny Power which reported having several months of missing data for their 1997 and 1998 SAIFI calculations. We noted that because 1997 and 1998 data was used to calculate the historical benchmarks, Allegheny Power's SAIFI and SAIDI benchmarks were set artificially low. Thus Allegheny Power's SAIFI and SAIDI post restructuring reliability performance metric values as compared to the benchmarks would be inherently unfavorable to the company.

The second data quality issue we discussed in our Tentative Order pertained to EDCs that had implemented automated reliability Outage Management Systems (OMS) which had the potential to improve the accuracy of reliability monitoring information. We noted that the changes in data gathering methods had implications for comparing historical reliability performance to current performance and introduced a degree of uncertainty into our ability to interpret reliability trend data. Our discussion in the Tentative Order pointed out the importance of separating out the method variance (due to differences in measurement capability) from the variance in reliability scores that is attributable to true changes in reliability. We concluded that we could not quantify the exact degree of method variance resulting from OMS implementation.

Positions of the Parties

As to the first data quality issue, Allegheny Power commented that the specific benchmarks proposed for

Allegheny Power are unrealistic and not useful for future comparisons. Allegheny Power claims that their SAIFI benchmark is skewed by a period of incomplete data and that their SAIFI benchmark is unrealistically low in comparison to other large EDCs. As evidence, Allegheny Power comments that their SAIFI performance for 2000-2002 matches the best performance of all large EDCs for the same period. Accordingly, Allegheny Power requests an adjustment of their benchmarks.

Comments were filed on behalf of Met-Ed, Penelec and Penn Power (collectively, FE Companies) that pertained to data quality issues about the implementation of OMS and the resulting implications for the validity of the proposed benchmarks. The FE Companies noted that with the exception of Allegheny Power, Met-Ed and Penelec are in the unique position of having installed and implemented new automated processes for collecting outage information after the 1994-1998 base period used by the Commission in setting the reliability benchmarks. The FE Companies comment that the Tentative Order recalculates their benchmarks without any consideration of the improvement in their methods for collecting reliability data since electric restructuring. Quoting from their 2002 Reliability Report to the Commission, the FE Companies state that although statistics for several operating areas are elevated, there has been no real change in reliability performance. FE Companies believe that the elevated statistics have been the result of the implementation of the new automated systems.

The comments of the FE Companies also note that the benchmarks and standards proposed in the Tentative Order for Penn Power do not give any consideration to the inaccuracy of some of its historic period reliability data. The comments note that in the early 1990s Penn Power relied in part on estimates of the number of customers affected by power outages. However, with more recent electronic mapping efforts, Penn Power now has substantially more accurate outage statistics that are not directly comparable to the historic benchmark as proposed by the Commission.

In place of the benchmarks proposed by the Commission in the Tentative Order, the FE Companies request that the Commission utilize revised benchmarks and standards proposed by the FE Companies which are based on reported performance during the 1998-2002 period. The benchmarks and standards proposed by the FE Companies in Exhibit 1 of their comments are significantly higher (allowing for worse reliability performance) than those we proposed. In support of the higher benchmarks and standards proposed by the FE Companies, they cite the Commission's 2002 Customer Service Performance Report as evidence of customers' positive perception of reliability performance.

The AFL-CIO and the OCA filed reply comments in response to some of the points noted in the comments of Allegheny Power and the FE Companies pertaining to data quality issues. The AFL-CIO comments that, in theory, it is possible that the mere fact of changing data collection methods could have some effect on the reliability statistics reported by the EDCs. However, the AFL-CIO notes that the FE Companies have not shown that this has occurred. Similarly, the OCA comments that no evidence has been presented by the EDCs that shows or even supports the claims that the historic data is not representative of pre-restructuring performance or that the installation of new OMS is the sole cause of the apparent deterioration in reliability. The OCA notes that the claim that the new OMS are causing the appearance

of deterioration in reliability has not been subjected to evaluation or review. The OCA commented that the LB&FC Report made the point that careful analyses of these claims are needed before any adjustments should be considered. The OCA also comments that the Commission should not entertain requests to change individual EDC benchmarks and standards through the Tentative Order. In the view of the OCA, these requests are more properly made as a separate petition where the merits and all underlying facts can be thoroughly examined on the record.

The AFL-CIO and the OCA also offered reply comments addressing the FE Companies citation of the Commission's 2002 Customer Service Performance Report findings to note customer satisfaction with post-restructuring reliability and the need to adapt new benchmarks and standards proposed by the FE Companies. The AFL-CIO notes that the Commission's Report evaluates EDC call center operations and has nothing to do with the reliability of distribution service. The OCA comments that the use of customer service data is not an adequate substitute for objective standards for reliability.

Disposition

First we will address the requests by Allegheny Power and the FE Companies to adjust the Commission's proposed benchmarks and standards or to substitute benchmarks and standards proposed by the FE Companies for those proposed by the Commission in our Tentative Order. We will adopt the position advanced by the OCA that the Commission should not entertain requests to change individual EDC benchmarks and standards through this Tentative/Final Order process. We note that this is a generic proceeding and does not have provisions for the more intensive presentation and review of evidence that the AFL-CIO and the OCA note should accompany a request for changes in benchmarks and standards.

The data that Allegheny Power and the FE Companies are now claiming is inaccurate was the same data (covering the period of 1994-1998) used to establish the original benchmarks in 1999, and no EDC appealed the Commission's December 16, 1999, Order at M-00991220 which established those benchmarks. The December 16, 1999, Order stemmed from a consensus proceeding as opposed to an evidentiary hearing and at that time the companies represented that those benchmarks were the averages of their indices over a 5-year, precompetition period (from 1994-1998). Based upon the companies' representations, the December 16, 1999, Order was entered establishing the benchmarks and standards. No one appealed said Order and we believe the EDCs cannot now challenge the original benchmarks. However, we will allow the EDCs to challenge the recomputed benchmarks if they have new evidence such as the impact of OMS systems on their reliability indices by allowing utility-specific on-the-record proceedings to afford the parties the opportunity to examine all relevant issues and provide the Commission with a complete factual record upon which to base its decision. The proceedings must be initiated within 30 days of the date of entry of this Order and the burden of proof is to be on the Petitioners. The petition must be served upon all parties of interest including the Pennsylvania AFL-CIO (Utility Caucus), the OCA and OSBA.

In the case of the FE Companies requests for new benchmarks and standards, we believe that a thorough examination of factual data by all interested parties is necessary before any potential revisions to the benchmarks are made. We note that as recently as May 2001,

Met Ed and Penelec reliability metrics were incorporated into a Service Quality Index that was part of the Joint Application for Approval of the Merger of GPU, Inc. with First Energy Corporation approved by the Commission in an Order dated May 24, 2001. It is not clear why the FE Companies' claims regarding the inaccuracy of the metrics was not an issue at that time, but is an issue now.

Further, we note that other Pennsylvania EDCs have implemented OMS and taken measures to increase connectivity but have not made similar claims of adverse effects on reliability indices. Absent an on-the-record proceeding which can determine the facts that are specific to the FE Companies, it does not appear to be fair to make specific adjustments to the FE Companies benchmarks and standards that will not also be made to other EDCs' benchmarks and standards. The FE Companies should have expected in advance that implementing OMS had the potential to affect the measurement of reliability performance and thus should have taken steps to conduct parallel measurements of their old and new data gathering systems.

With parallel measurement and analysis, the FE Companies could then determine the degree of method variance, if any, and have factual information to present to the Commission to support a request for a change in benchmarks and standards. Also, having factual information about the degree of method variance would appear to be necessary to make meaningful comparisons of current performance to past performance so that EDC management could determine if there was any true change in reliability performance over time aside from any change that may have occurred from the implementation of OMS. If parallel measurement and analyses were conducted, this information should be presented in an on-the-record proceeding before the Commission.

We also want to address the comments of the FE Companies that cite the Commission's 2002 Customer Service Performance Report as evidence of customer satisfaction with service reliability. As noted by the AFL-CIO, the customer survey reported on in the Commission Report does not inquire about satisfaction on the number of service interruptions or service restoration times. The focus of the survey data is on call center performance such as access, courteousness and knowledge of the call center representatives. We do not view this data as an indication that customers are satisfied with the aspects of Met Ed and Penelec's service reliability measured by the benchmarks and standards.

Going forward, the Commission wishes to stress the importance of EDCs conducting parallel measurements and analyses when implementing changes in reliability monitoring and data gathering methods so that the Commission is provided with accurate information about true reliability performance. Parallel measurement efforts also appear necessary to enable EDC management to fulfill their obligations to effectively maintain good reliability performance.

Finally, we want to point out that the Commission is providing some degree of latitude to all EDCs by setting the 3-year rolling standard at 110% of the benchmark versus 100% of the benchmark as discussed in greater detail later in this Order. This latitude should sufficiently account for any potential typical degree of method variance that may have occurred in the measurement of the benchmarks and performance in the post-restructuring period. Absent a determination from the Commission based on an on-the-record proceeding, the Commission

will not permit revisions to individual EDCs' benchmarks and standards to allow for a greater degree of latitude because of reliability measurement method variance.

3. Revised Performance Standards

In our Tentative Order, we noted two shortcomings in our existing minimum reliability standards that were established in 1999. The first shortcoming was statistical in nature and related to the establishment of standards that were two standard deviations above the benchmarks. This method of establishing standards yielded a result that enabled an EDC to perform worse on a performance index (such as CAIDI or SAIFI) after 1998 than any year during the 1994-1998 benchmark period and still be within the standard. This wide band of acceptable performance within the standard led to the second shortcoming, an inconsistency with the Commission's policy objective of setting standards for reliability that maintain the same level of reliability after restructuring as was experienced prior to restructuring. We also noted that the LB&FC arrived at a similar conclusion about an overly wide band of acceptable performance with the current performance standards. In our Tentative Order, we showed figures for the major EDCs revealing that our two standard deviation approach to setting standards allowed for average SAIFI values to be 40% greater than the historical benchmark and average CAIDI values to be 24% above the benchmark, but still within standards.

Based on the shortcomings previously identified, the Commission proposed to set new reliability standards that were more closely tied to the EDCs' historic benchmark performance but also allowed for some degree of variability from year to year. The Commission considered but declined to use the standard deviation approach for setting the proposed new performance standards. A standard deviation measures the degree of variance from an average and can be useful for the establishment of variability standards. However, because the benchmark data currently available consists of only five data points for each reliability index per EDC (the annual average indices for the years 1994, 1995, 1996, 1997 and 1998), we were not confident that the standard deviation statistic would yield a valid result. The standard deviation is typically used to summarize the variability in a large data set. We did not believe that this underlying assumption for the statistic was met with only five data points per EDC for each metric.

Instead of using the standard deviation approach for setting an acceptable band of performance, the Commission proposed thresholds using a percentage bandwidth above the benchmark for a shorter term standard and another percentage for a longer term standard.⁴ The proposed longer term standards were generic in the sense that the proposed percentages above each EDC's benchmarks were the same for all EDCs. However, the generic percentage standard was applied to each EDCs' benchmarks which were based on individual EDC performance from 1994-1998. The proposed longer term standard was that the rolling 3-year average for system-wide reliability indices should be no higher than 10% above the historic benchmark. The proposed rolling 3-year standard was set at 10% above the benchmark to ensure that the rolling 3-year standard is not worse than the worst annual performance experienced during the years prior to re-

⁴ When referring to the establishment of new performance standards based on a percentage of the benchmark, it is important to note that this is the recomputed benchmark based on excluding major event data using the entire service territory criterion.

structuring (1994-1998). Rolling 3-year performance was proposed to be measured against the standard at the end of each calendar year.

The Commission also proposed a short-term standard to monitor performance on a more frequent basis. For the large EDCs⁵ (companies with 100,000 or more customers) the Commission proposed that the rolling 12-month averages for the system-wide indices be within 20% of the benchmark. For small EDCs⁶ (companies with less than 100,000 customers), the Commission proposed that the rolling 12-month averages for the system-wide indices should be within 35% of the historical benchmarks. A greater degree of short-term latitude was proposed for the small EDCs in the rolling 12-month standard because small EDCs have fewer customers and fewer circuits than the large EDCs, potentially allowing a single event to have more of a significant impact on the reliability performance of the small EDCs' distribution systems.

The distinction between small EDCs and large EDCs is illustrated by the SAIFI calculation. SAIFI is a ratio of customers interrupted divided by customers served. With a much smaller number of customers served, outages that are relatively insignificant for a large EDC's reliability measures will have a more significant impact on small EDCs. Thus, small EDCs have standards of deviation that are higher than the large EDCs because of small sample sizes. Reducing the former two-standard deviation standard to a 135% standard is a significant tightening of the standard for the small EDCs. The rolling 12-month performance was proposed to be measured against the standard on a quarterly basis.

The proposed long-term and short-term standard set points were selected for a number of reasons. First, the standards allow for some variability from the benchmarks because reliability performance is influenced by weather conditions and other factors that are inherently variable in nature. Second, a review of historical reliability performance levels reveals a certain degree of variance from year to year. However, the use of rolling averages, particularly for the 3-year rolling average standard, will tend to even out some of the inherent variance in performance metrics. The longer the period under review, the more year-to-year high and low variations will tend to cancel each other out. As such, the 3-year rolling average standard should promote reliability performance that is closer to the benchmark over time. Finally, the set points were selected so that the Commission would be more actively involved in monitoring and remedial activities when performance deviates significantly from the benchmark, but would not be as involved when the variations are within the more typical range.

The Tentative Order also made comparisons of the proposed standards with the standards set by the Commission in 1998. In all cases, the 3-year rolling average standards are tighter than the previous standards that were based on two standard deviations. Comparisons of the proposed 12-month rolling standards to the previous standards revealed that in 32 of 33 cases (11 EDCs with 3 metrics each) the proposed standards are tighter than those established in 1998. Therefore, the Commission concluded that the proposed standards represented a tightening of our reliability standards for electric distribution service.

⁵ Large EDCs currently include: Allegheny Power, Duquesne Light, Met-Ed, Penelec, Penn Power, PECO and PPL.

⁶ Small EDCs include: UGI, Citizens', Pike County and Wellsboro.

Positions of the Parties

The FE Companies and EAP offered comments in support of abandoning the two standard deviation approach for setting reliability standards for the large EDCs. However, numerous comments were filed by the small EDCs (Citizens', Pike, UGI and Wellsboro) in support of using the standard deviation approach for setting reliability standards for themselves. EAP also supported this approach and joined with Citizens', Pike County and UGI in recommending that the 12-month rolling average standard should be set at 1 1/2 standard deviations above the benchmark and the 3-year rolling standard be set at one standard deviation above the benchmark for the small EDCs only. Pike County recommended the use of standard deviations because of the significant amount of variation in the data caused by small events that skew the statistics. In reply comments the OCA noted that it could not support the use of the standard deviation approach for the small EDC standards.

The Commission's proposal to generally tighten the reliability standards received support in comments by the AFL-CIO, the FE Companies and the OCA. However, the AFL-CIO and the OCA commented that the Commission did not go far enough in their efforts to tighten the standards. These commenters pointed out that the Commission's proposals fall short of requiring reliability performance to be at a level experienced prior to restructuring. The OCA recommends an alternative approach whereby the 12-month rolling average standard be established at 10% above the benchmark and the 3-year rolling standard be established at the benchmark.

Comments filed by PPL recommend a different model of setting reliability standards than that proposed by the Commission in the Tentative Order. PPL comments that there should be a single Statewide standard for the industry. PPL believes that benchmarks and standards should consider an EDC's historical performance and provide additional allowances for those EDCs that have met performance objectives. In PPL's view, the application of their model for a Statewide standard would ensure that better performing EDCs are not penalized for historically good performance and that improvement by those EDCs whose performance has lagged would be encouraged.

The Commission received supportive comments from several parties (AFL-CIO, the FE Companies, the OCA and PPL) about the overall proposed model whereby we would seek to establish short-term and long-term standards. The FE Companies and PPL also generally supported the percentages proposed for the short-term and long-term standards (20% and 10% above the benchmarks, respectively). EAP and UGI recommended that as an alternative to using standard deviations to set the standards for small EDCs, the Commission should consider setting the 12-month standard at 45% above the benchmark and the 3-year standard at 15% above the benchmark.

The OCA filed comments recommending that the Commission clarify the regulatory purpose of the short-term, 12-month rolling average standard. The OCA recommends that the 12-month standard be used to ensure that performance does not deteriorate on an annual basis to a level that makes it unlikely that an EDC will meet the requirements of the regulation over time. The OCA suggested that the Commission incorporate language from the 2002 Staff Report that addressed the purpose of the short-term standard.

Disposition

The Commission will retain its proposal for using percentages to establish standards for electric distribution service reliability. In so doing, we will not adopt the position of the small EDCs who offered comments in support of the alternative of using the standard deviation statistic. With only five data points, a key underlying assumption for the standard deviation statistic is not met, thereby rendering the statistic invalid for our purposes.

We will also retain our proposal for adopting both a long-term, 3-year rolling average standard and a 12-month rolling average short-term standard for all EDCs. We will not adopt the model advised by PPL for a single, Statewide standard for all EDCs. The intent of the Act is that service "be *maintained* at the same level of quality under retail competition" 66 Pa.C.S. § 2807(d) (emphasis added). The Act could have required that all EDCs' performance not fall below some absolute standard, but it does not state that. Instead, the language of the Act implicitly recognizes that different EDCs may have had different levels of service reliability, and that each EDC's historic performance prior to electric restructuring would be the minimum performance standard to be maintained for the future. We also recognize that a single, Statewide performance standard may not account for legitimate differences in geography that can affect reliability. Accordingly, we shall, for the time being, retain these standards on a company-specific basis.

As previously noted, EAP, UGI and other small EDCs provided comments in support of having somewhat more lenient standards for the small EDCs than those proposed by the Commission. Commenters supported 1 1/2 standard deviations or an upper range of 45% above the benchmark for the for the 12-month rolling standard for small EDCs and advanced either one standard deviation or an upper range of 15% above the benchmark for the 3-year rolling standard for small EDCs. We have already addressed our reservations about using the standard deviation statistic, the logic of which applies to small and large EDCs alike. We are not inclined to set an even wider bandwidth of acceptable performance for the small EDCs than we originally proposed. With regard to the 3-year rolling average, we believe the small EDCs should be within 10% of their benchmark, just like the large EDCs. For the 12-month rolling average, we proposed a somewhat more lenient standard of 135% for the small EDCs versus 120% for the large EDCs. We believe this extra degree of latitude is justified for the small EDCs because of the greater potential impact of single outage events on distribution systems with few circuits. However, we decline to provide even more latitude to the small EDCs. We would prefer to keep the acceptable performance range moderate and to examine specific causes and events on a case-by-case basis should the reported metric values exceed the 135% standard.

Comments filed by the AFL-CIO and the OCA recommended that the Commission further tighten the standards for EDC reliability performance beyond that proposed in our Tentative Order. We will not adopt standards that are tighter than we proposed in our Tentative Order at this time. We believe that our proposals represent very significant steps to tighten the standards over the next few years and should serve to focus EDC management on achieving benchmark performance in the future. Given the uncertainty of weather and other events that can affect reliability performance, EDCs should set goals to achieve benchmark performance or better to allow for those times when unforeseen circumstances push the

indices above the benchmark. By carefully managing performance in this manner, EDCs will have the necessary latitude to occasionally have performance above the benchmark, but still have the 12-month and 3-year averages close to the benchmark and well within the Commission's standards.

We agree with the OCA that the Commission should clarify the purpose of the short-term 12-month rolling average standard. The primary purpose of the short-term 12-month standard is to ensure that performance does not deteriorate and move too far from the benchmark without Commission attention during the period in which the 3-year average develops. If quarterly monitoring of the 12-month rolling average metric values reveals trends that are incompatible with meeting the long-term standards, the Commission will conduct further reviews and remedial activities with the subject EDC until performance trends in the desirable range.

Appendix B contains the recomputed benchmarks, rolling 12-month standard and the rolling 3-year standard for each EDC's SAIFI, CAIDI and SAIDI metrics.

4. Waiver Petitions

In Ordering Paragraph No. 4 of the Commission's June 27, 2003, Tentative Order, we ordered EDCs to request, in writing to the Commission's Secretary Bureau, any waivers of reliability reporting requirements necessary to fulfill its obligations under 52 Pa. Code Chapter 57, Subchapter N (Electric Reliability Standards). Since there were no adverse comments to this requirement and there were supportive comments filed by the OCA and PPL, we will maintain our initial position requiring the formal filing of waiver requests, and again direct that all requests for waiver shall be made formally in writing to the Commission. EDCs are required to timely file in advance of the reporting requirements a petition for waiver of formal reporting requirements under 52 Pa. Code § 5.43 (relating to petitions for waiver of regulations). The EDCs are directed to disclose the reasons they are not in full conformity with the reliability regulations in all waiver petitions submitted to the Commission.

5. Starting and Ending Times of Major Events

The LB&FC and the Staff Internal Working Group identified scenarios wherein certain EDCs had inappropriately claimed service interruptions as a major event by excluding all outage data that took place on any day in which a major event took place, regardless of the actual timeframes in which the major event took place. The current definition of a "major event" (as defined in 52 Pa. Code § 57.192) indicates that "The event begins when notification of the first interruption is received and ends when service to all customers affected by the event are restored." We agree that the designated starting and ending time of major events should be enforced according to the regulations.

Although we revised the definition of a major event, there was no change made to the starting and ending times of a major event. The Commission hereby reiterates that there are regulations which define the designated starting and ending times of major events according to 52 Pa. Code § 57.192 and these shall be followed by all EDCs.

Positions of the Parties

No adverse comments were filed.

Disposition

We reiterate the starting and ending times of major events is adequately defined in 52 Pa. Code § 57.192.

6. Formal Requests for Exclusion of Service Interruptions as Major Events

The Staff Internal Working Group's Recommendation No. IV-1 states that the Commission should implement a process that will enable EDCs to formally request exclusion of service interruptions for reporting purposes by proving an outage qualifies as a major event. To analyze and set measurable goals for service reliability performance, outage data is partitioned into normal and abnormal periods so that only normal event periods are used for calculating service reliability indices. The term "major event" is used to identify an abnormal event, for which this outage data is to be excluded when calculating service reliability indices. 52 Pa. Code § 57.192 currently defines a "major event" as follows:

(i) Either of the following:

(A) An interruption of electric service resulting from conditions beyond the control of the electric distribution company which affects at least 10% of the customers in an operating area during the course of the event for a duration of 5 minutes each or greater. The event begins when notification of the first interruption is received and ends when service to all customers affected by the event are restored. When one operating area experiences a major event, the major event shall be deemed to extend to all other affected operating areas of the electric distribution company.

(B) An unscheduled interruption of electric service resulting from an action taken by an electric distribution company to maintain the adequacy and security of the electrical system, including emergency load control, emergency switching and energy conservation procedures, as described in Section 57.52 (relating to emergency load control and energy conservation by electric utilities), which affects at least one customer.

(ii) A major event does not include scheduled outages in the normal course of business or an electric distribution company's actions to interrupt customers served under interruptible rate tariffs.

The Staff Internal Working Group identified the following scenarios wherein certain EDCs had inappropriately claimed service interruptions as a major event:

- Combining two separate storm events, of which only one meets the definition of a major event, into one major event.
- Excluding outage data from all operating areas when a major event had occurred in only one operating area.
- Excluding all outage data that took place on any day in which a major event took place, regardless of the actual timeframes in which the major event took place.

Reliability performance will appear to be better than it really is when an EDC excludes more outage data from its reliability calculations than it should. The performance will appear to be better because the number of customers interrupted and/or the customer minutes of the interruption are excluded from the calculations of the performance metrics, thus resulting in lower (better) scores. To avoid the inappropriate exclusion of outage data from any calculated service reliability indices reported to the Commission, the Staff Internal Working Group recommended that a process be established whereby the EDC could formally notify the Commission that it has recently experienced what it believes to be a major event so that the specific outage data associated with the event would be excluded for calculating reliabil-

ity performance. After providing Commission Staff with the report, the utility would be able to exclude the related outage data from its reliability calculations. The Staff Internal Working Group also recommended that the following outage data be provided in support of the request:

- The starting and ending times of the outage.
- The main operating area(s) affected by the major event, including the causes and number of customers affected.
- The neighboring operating area(s) affected, including the causes and number of customers affected.

It will not be necessary to provide information about neighboring operating areas affected, since the Staff Internal Working Group is recommending that the definition of a major event be revised so that it is based on interruption criteria of the entire service territory of an operating company as opposed to individual operating areas defined by each operating company.

Positions of the Parties

The Energy Association states that while it supports the clarification of what constitutes a major storm, there is not a compelling reason to have a costly and duplicate major storm determination process. EAP states that the information proposed to be included in the formal request form is virtually identical to the information required in Service Outage Report filed under 52 Pa. Code § 67.1; thus, the Commission should eliminate the formal request requirement as being duplicative of existing reporting requirements. If, however, the Commission maintains a major event approval process, EAP requests that the filing be deemed approved after ten days if no Commission action is taken. (EAP's October 10, 2003, Comments, p. 10-12.)

The FE Companies believe that the proposed form would be costly and time consuming for all parties involved. Rather than implement the formal process, the FE Companies propose that the Commission review each company's annual report to determine if there has been any abuse or misunderstanding regarding the claims for major events, and direct any necessary and appropriate adjustments based upon this after the fact evaluation. (FE Companies' October 9, 2003, Joint Comments p.15-16.)

PPL believes that the proposed form for requesting an exclusion is duplicative because most "major events" would be associated with storms that require submission of a Storm Outage Report in 52 Pa. Code § 67.1. PPL recommends that the Commission develop a standard reporting format for outages which includes the required information. PPL also recommends that the request to classify a storm as a "major event" be part of the Storm Outage Report and that the request be deemed approved unless denied by the Commission within 10 business days. (PPL's October 10, 2003, Comments, p. 5-6.)

The OCA submits that the Commission should retain the formal process for requesting exclusion of major event data from the reported results at this time. The OCA avers that although the Commission provided clarification about the application of the criteria to underlying data in the Tentative Order, the Commission should utilize a formal process to ensure that the criteria are being applied uniformly. The OCA asserts that a formal process to review the continuing use of the regulation is in order, given the significant differences in the application and

interpretation of this regulation in the past. (OCA's October 27, 2003, Reply Comments, p. 17-18.).

Disposition

Upon further review of this issue, the Commission orders the implementation of a process by which the utility must submit a formal request for exclusion of service interruptions for reporting purposes, accompanied by data which demonstrates that a service interruption qualifies as a major event as defined by regulations. The outage data to be provided in support of the request will be as follows:

- (1) The approximate number of customers involved in the incident/outage.
- (2) The total number of customers served in the service territory.
- (3) The geographic areas affected, in terms of the county and local political subdivision.
- (4) The reason for the interruption, including weather conditions if applicable.
- (5) The number of utility workers and others assigned specifically to the repair work.
- (6) The date and time of the first information of a service interruption.
- (7) The actual time that service was restored to the last affected customer.

Following this Order as Appendix D is a sample Major Event exclusion request form which the Commission directs the companies to use to request exclusions for major events.

We also reject PPL's and EAP's claim that the exclusion request would be duplicative. 52 Pa. Code § 67.1 requires utilities to provide notification to the Commission when 2,500 or 5% (whichever is less) of its customers are without service for 6 hours or more. 52 Pa. Code § 57.192 defines a major event as at least 10% of the customers being without service for at least 5 minutes. Obviously, there is the potential for 2,500 customers to be out of service for more than 6 hours, thus requiring a Section 67.1 report, but not fulfilling the requirements to be classified as a major event. Conversely, there is the potential for large numbers of customers to be out of service for less than 6 hours. In this case, the major event criteria may be met, but a Section 67.1 report would not be required. Contrary to EAP and PPL's assertion that these types of events are unlikely, they can and have occurred. Thus, tying a major event exclusion request to the Section 67.1 report does not conform to this Commission's intent to ensure the application of 52 Pa. Code § 57.192 in a timely and consistent manner.

EAP and FE Companies have characterized the requirement to submit a major event exclusion form as costly and time consuming. However, neither has presented any reasoning for these assertions. In fact, EAP points out the similarities between the forms required for §§ 67.1 and 57.192. This Commission is not aware of any arguments that compliance with the currently effective § 67.1 is costly and burdensome to utility operations. We therefore find EAP and FirstEnergy's assertions to be without merit.

FE Companies' proposal to review each company's annual report to determine if there has been any abuse or misunderstanding regarding the claims for major events is inappropriate. A major event review could occur as late as after four quarterly reports were filed with the Commission for the year in question. If there were adjust-

ments made as a result of a review of a utility's major event exclusion claims, those adjustments would need to be implemented retrospectively in each affected quarterly report. The intent of quarterly report submissions is that the Commission be able to perform a timely review and analysis of a utility's reliability performance on the most accurate information available. Making adjustments to quarterly data 15 to 18 months after the fact clearly does not allow for a timely and accurate analysis. We will therefore not adopt the FE Companies' suggestion in this regard.

EAP and PPL requested that the filing be deemed approved after 10 days if no Commission action is taken. We believe that it is important that a utility know as soon as possible whether its request for a major event exclusion is accepted because of the time and complication associated with the calculation of the various reliability indices. Therefore, we will strive to provide a response to the filing utility within 10 days of the request, but we will give Commission staff 20 days from the date of receipt of the request for exclusion to request any additional information from the utility. If staff does not approve the exclusion, request additional information or reject the exclusion within that time, the filing utility may treat the excluded period as a major event.

The authority to respond to the request is delegated to the Bureau of Fixed Utility Services, which shall notify the filing utility in writing of staff's determination. All filings are subject to an audit at a later time by the Bureau of Audits. The utility may appeal staff's determination under 52 Pa. Code § 5.44 by filing a petition within 10 days after service. Requests for major event exclusions must be filed with the Secretary's Bureau and copies served upon the Bureau of Audits and Bureau of Fixed Utility Services prior to the quarterly report in which the exclusion is proposed to be claimed.

7. Commission Enforcement

Several parties raised the issue regarding what action the Commission will take if an EDC's reported indices are higher (worse) than the performance benchmark or higher (worse) than the EDC's performance standard. Generally, we view the new, recomputed benchmarks to represent the EDC's average performance prior to the Act and prior to competition. Since we have tightened the performance standards, we view performance within the standard to approximate the benchmark. Therefore, the Commission will not take compliance enforcement action against any EDC that meets its performance standard. However, once a standard is violated, Commission staff will carefully review all information presented in the EDC's quarterly and annual reliability reports including the EDC's causal analysis, inspection and maintenance goal data, expenditure data, staffing levels and other supporting information and Section 67.1 reports to determine appropriate monitoring and enforcement actions. Depending upon the findings of this review, we may consider a range of compliance actions including engaging in additional remedial review, requiring additional EDC reporting, conducting an informal investigation, initiating a formal complaint, requiring a formal improvement plan with enforceable commitments and an implementation schedule and assessing penalties and fines.

While overall system performance trends that fall in the range between the benchmark and the standard will not be subject to compliance enforcement, the Commission will keep EDCs whose performance is within the standard, but trending away from the benchmark, under review as a precautionary measure.

The Commission will hold the EDCs to the new 3-year standard using 2004, 2005 and 2006 annual data, effective with the April 30, 2007, annual report, and will hold the EDCs accountable to the 12-month standard using data from the last quarter of 2003 and the first three quarters of 2004, effective with the quarterly report to be filed November 1, 2004. *Therefore,*

It Is Ordered That:

1. The Commission is issuing, under 52 Pa. Code § 57.194(h), final benchmarks and standards for EDCs operating within this Commonwealth as set forth in Appendices A, B and C.

2. The Commission will enforce the 3-year standard on April 30, 2007, and the Commission will enforce the 12-month standard on November 1, 2004.

3. EDCs are directed to use the draft form in Appendix D when requesting the exclusion of service interruptions for reporting purposes by proving that a service interruption qualifies as a major event as defined by regulations.

4. An EDC shall request, in writing to the Commission's Secretary's Bureau, any waivers of reliability reporting requirements necessary to fulfill its obligations under 52 Pa. Code Chapter 57, Subchapter N (Electric Reliability Standards).

5. The Commission shall review and consider the EDC's request for waivers and shall issue Secretarial Letters granting or denying said requests.

6. Copies of this Order be served upon all parties to this proceeding including: EDCs operating in this Commonwealth, the OCA, the Office of Small Business Advocate, EAP and the Pennsylvania AFL-CIO—Utility Division.

7. A copy of this Order and Appendices A, B, C and D shall be filed at the Proposed Rulemaking Docket L-00030161, *Rulemaking Re Amending Electric Service Reliability Regulations at 52 Pa. Code Chapter 57.*

8. The Secretary certify this Order with Appendices and deposit with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.

9. Requests for major event exclusions must be filed with the Secretary's Bureau and copies served upon the Bureau of Fixed Utility Services and Bureau of Audits prior to the quarterly report in which the exclusion is proposed to be claimed.

10. Authority is delegated to the Bureau of Fixed Utility Services to determine whether requests for major event exclusions should be accepted or denied. Appeals may be taken under 52 Pa. Code § 5.44 from staff's determination within 10 days of service of the letter.

11. All requests for major event exclusions shall be subject to audit by the Bureau of Audits.

12. Any EDC requesting its benchmark be modified is directed to file a petition with the Commission outlining the reasons why the benchmark should be modified within 30 days of the date of entry of this Order.

13. Copies of the petition to amend benchmarks and/or standards should be served upon the Pennsylvania AFL-CIO—Utility Division, the OCA and the Office of Small Business Advocate.

Notice of Names of Persons Appearing to be Owners of Abandoned and Unclaimed Property

Listed in this notice are the names and last known addresses (if known) of persons whose names have been

reported as owners of tangible unclaimed property. Tangible unclaimed property includes items from abandoned safe deposit boxes, items left behind at hospitals or items confiscated by police departments.

The Treasury Department holds all unclaimed property in safekeeping until the rightful owner, or his legal representative, files a claim. If your name appears on the list, you or your legal representative may contact the Bureau of Unclaimed Property at

1-800-222-2046

to file a claim. Customer service representatives are available to assist you Monday through Friday, 7:30 a.m.—4:30 p.m. You may also file a claim by writing to the Pennsylvania Treasury Department at:

Bureau of Unclaimed Property
P. O. Box 1837
Harrisburg, PA 17105-1837
Attn. Tangible Property Unit

According to Pennsylvania's Disposition of Abandoned and Unclaimed Property Act, the Treasury Department may sell tangible items to the highest bidder at public sale if no claim is filed; however, the proceeds of the sale are maintained in the name of the rightful owner, until the owner or his legal representative is found.

Pennsylvania's unclaimed property program is administered by Barbara Hafer, State Treasurer.

TURNPIKE COMMISSION

Requests for Information; RFI No. 04-130-2925

The Turnpike Commission (Commission) is requesting technical information on toll system technologies and toll plaza configurations that would provide E-Z Pass capabilities on the Turnpike's Beaver Valley Expressway (James A. Ross Highway), Greensburg By-Pass (Amos K. Hutchinson By-Pass), open portions of the Mon-Fayette Expressways including West Virginia to Uniontown, Route 40 to I-70 and I-70 to SR 51, the Findlay Connector portion of the Southern Beltway and the Clarks Summit and Keyser Avenue Interchanges on the Turnpike's North East Extension. Responding firms should include innovative proven alternative toll collection technologies and systems that maximize vehicular throughput and customer services while minimizing toll system operations and maintenance costs and capital expenditures. Interested parties are invited to view the entire Requests for Information on the Commission's website: www.paturnpike.com (Doing Business with PTC/Requests For Proposals/All Other Types/04-130-2925).

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.
