READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PROPOSED RULEMAKING

GAME COMMISSION

[58 PA. CODE CH. 147]

Special Permits; Mentored Youth Hunting Program Permit

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its September 25, 2012, meeting to amend § 147.804 (relating to general) to allow a mentor to transfer a valid Deer Management Assistance Program (DMAP) permit issued to him to an eligible mentored youth upon the harvest of an antlerless deer.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the September 25, 2012, meeting of the Commission. Comments can be sent, until January 22, 2013, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

Sporting organizations and other interested groups have continued to express an interest in having the Commission expand mentored youth hunting opportunities within this Commonwealth. These groups are currently supporting an amendment to § 147.804 to permit the transfer of no more than one DMAP permit to a mentored youth hunter per license year. This will not significantly increase antlerless deer harvest and is consistent with the goal of providing additional mentored youth hunting opportunity.

Section 2711(a.1) of the code (relating to unlawful acts concerning licenses) states that "For the sole purpose of implementing and enhancing a mentored youth hunting program within this Commonwealth, the commission may establish regulations exempting certain limited youth hunting activities from the prohibitions specified in subsection (a)(1), (3), (5) and (8)." Section 2102(a) of the code (relating to regulations) provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendment to § 147.804 is proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 147.804 to allow a mentor to transfer a valid DMAP permit issued to him to an eligible mentored youth upon the harvest of an antlerless deer.

3. Persons Affected

Persons wishing to hunt antlerless deer within this Commonwealth under the Mentored Youth Hunting Program will be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking may result in some additional cost and paperwork associated with the effects transferring tags will have on the Pennsylvania Automated License System. However, the Commission has determined that if there is additional expense associated with this effort, it will not be substantial and would be absorbed by the current budget.

5. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. Contact Person

For further information regarding the proposed rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

The transfer of the fall turkey tag may not occur until after the mentored youth has harvested the fall turkey, but before tagging the carcass. A mentored youth may not receive by transfer more than one fall turkey tag each license year.

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 461a, 463a, 464a, 465a, 607a,
627a, 629a, 631a AND 633a]

Slot Machine and Table Game Device Testing and Control; Possession of Slot Machines and Fully Automated Electronic Gaming Tables; Slot Machine Tournaments; Accounting and Internal Controls; Possession of Table Game and Table Game Devices; Rules of Play

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 1207(3), (6), (9), (21) and 13A02(1), (2) and (4) (relating to regulatory authority of board; and regulatory authority), proposes to amend Chapters 461a, 463a, 465a, 627a, 629a, 631a and 633a and add Chapters 464a and 607a (relating to slot machine tournaments; and possession of table games and table game devices) to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking will amend the requirements for the termination, transfer or modification of progressive jackpots, require operators to provide monthly table game device master lists to the Bureau of Gaming Laboratory Operations (Bureau), codify Board policy on slot machine tournaments and add an additional side wager to the Baccarat games.

§ 461a.1. Definitions

The definitions proposed to be added in this section are moved from § 461a.12 (relating to progressive slot machines).

§ 461a.8. Gaming vouchers

Although operators are required to file a report with the State Treasurer regarding old gaming vouchers that have escheated to the Commonwealth, the proposed amendments do not require operators to submit a copy of that report to the Board.

§ 461a.12. Progressive slot machines

The definitions of “progressive slot machine” and “wide area progressive system” are proposed to be moved from subsection (a) to § 461a.1 (relating to definitions) as these definitions are applicable to all sections in the chapter. Subsections (b)—(f) and (h) are proposed to be amended for clarity.

Proposed amendments to subsection (k)(4) require operators to receive written approval from the Bureau prior to transferring the progressive jackpot. Additionally, operators may transfer progressive jackpots to machines with a similar probability of winning.

Proposed amendments to subsection (k)(5) state that if a transfer cannot be made slot machine licensees may remove the progressive functionality, change the game theme or permanently remove the machine from the gaming floor. This section is proposed to be amended to ensure that progressive jackpots are not taken off the gaming floor if they can be transferred and not without prior approval from the Bureau. Additionally, proposed subsection (l) ensures that progressive jackpots that are removed are not simply returned to the gaming floor with

lower reset amounts within a short period of time after removal. The remaining sections are renumbered.

§ 461a.26. Testing and software installation on the live gaming floor

The Board proposes to add four types of electronic devices that require Bureau testing and approval prior to placement on the live gaming floor.

Chapter 463a. Possession of slot machines and fully automated electronic gaming tables

This chapter addresses the requirements for the possession and of slot machines in this Commonwealth. Fully automated electronic gaming tables, which are more similar to slot machines than other types of table games, are proposed to be added to the requirements in this chapter. Operators will be required to include fully automated electronic gaming tables to the slot machine master device list which operators are required to submit to the Bureau monthly.

Chapter 464a. Slot machine tournaments

This proposed chapter codifies a Board policy known to the industry as § 461b.4. This policy was not published in the *Pennsylvania Bulletin*. The policy allowing operators to conduct tournaments was submitted to the industry on November 23, 2011, and was subsequently updated to allow for the charging of fees. This chapter reflects the current policy, submitted to the industry on March 21, 2012, without substantive revisions.

Operators shall submit a notice of intent to conduct a tournament to the Board as well as the Department of Revenue (Department) 10 days prior to the start of the tournament. In accordance with statutory provisions, operators may charge a fee to enter tournaments provided that the revenue generated is reported to the Department. Operators have discretion to establish rules of entry and prize structures provided that the rules are specified in the notice and provided to patrons who participate in the tournament. Currently eight slot machine licensees offer slot tournaments.

§ 465a.2. Internal control systems and audit protocols

A minor proposed amendment updates the name of the form that operators complete when submitting updated internal controls. Additionally, the language regarding the submission of changes to internal controls to the Department is proposed to be deleted. The Department is sent only initial internal control submissions prior to a casino opening.

§ 465a.19. Acceptance of tips or gratuities from patrons

Proposed language in subsection (d) allows dealers to accept as a tip a winning wager that a patron has identified as a tip prior to play provided that the tip shall be collected and deposited after the round of play or after a roll of the dice in craps that decides the outcome of the wager. A dealer is not allowed to subsequently wager a winning tip.

§ 465a.33. Access to areas containing central control computer equipment

A minor amendment is proposed to the key control requirements for access to the central control computer system.

Chapter 607a. Possession of table games and table game devices

This proposed chapter addresses the possession of table games and table game devices. This chapter is similar to Chapter 463a (relating to possession of slot machines and

fully automated electronic gaming tables). Section 607a.1 (relating to transportation of table games and table game devices into, within and out of this Commonwealth) requires persons transporting table games or table game devices to notify the Bureau and the Bureau of Casino Compliance that equipment is being shipped. Section 607a.2 (relating to table game device master list) requires operators to provide a monthly table game master list for certain table game equipment enumerated in subsection (a).

Section 607a.3 (relating to off premises storage of table games and table game devices) requires operators to obtain approval prior to storing table games or table game devices in locations other than the licensed facility. These provisions are consistent with the requirements applicable to slot machines.

Chapter 627a. Minibaccarat

Chapter 629a. Midibaccarat

Chapter 631a. Baccarat

Panda 8, a new side wager, is proposed to be added for the Baccarat type games. The sections on layout, wager and payout odds are proposed to be amended accordingly.

§ 633a.13. *Payout odds; payout limitation*

The payout table applicable to the hit and run progressive wager for Blackjack is proposed to be corrected in subsection (1)(1).

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

**PLAN APPROVAL AND OPERATING PERMIT
APPLICATIONS NEW SOURCES AND
MODIFICATIONS**

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

EROSION AND SEDIMENT CONTROL PERMITS

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance activities associated with either road maintenance or timber harvesting operations.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department regional office listed before the application within 30 days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department regional office during the 30-day public comment period.

Following the 30-day comment period, the appropriate regional office water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board (Board).

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate regional office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified regional office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Interim Response Hoff VC HSCA Site

New Hanover Township, Montgomery County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act, Act of October 18, 1988, P. L. 756, No. 108, 35 P. S. §§ 6020.101—6020.1305 ("HSCA"), is proposing a response action at the Hoff VC HSCA Site ("Site") in New Hanover Township, Montgomery County, Pennsylvania.

The Department, under the authority of HSCA, has been conducting an environmental investigation of the Site. This investigation included the sampling of private drinking water supply wells located along portions of Layfield Road, Hoffmansville Road, Colflesh Road, and Erb Road in New Hanover Township. Sampling revealed levels of Volatile Organic Compounds exceeding the Safe Drinking Water Maximum Contaminant Level along Layfield Road and Hoffmansville Road.

To address the release and threat of release of hazardous substances at the Site, and corresponding threats to human health and the environment, the Department proposes to implement a response action at the Site under Sections 501(a) of HSCA, 35 P. S. § 6020.501(a). The Department hereby proposes the installation of a public water line, and construction of laterals to connect homes to the public water supply and an environmental covenants or municipal ordinance. This proposed alternative complies with Applicable, Relevant and Appropriate Requirements (ARARs) and is feasible and cost-effective. Other possible alternatives include no action and environmental covenants, supplying bottled water to affected residences and environmental covenants a, the installation whole house treatment systems and environmental covenants, and construction of a community water supply system with environmental covenants or municipal ordinance.

An Administrative Record, which contains more detailed information concerning this proposed response action, is available for public inspection. The Administrative Record may be examined from 8 a.m. until 4 p.m. at the Department's office at 2 East Main Street, Norristown PA 19401. Those interested in examining the Administrative Record should contact Colin Wade at (484) 250-5722 to arrange for an appointment. Additional copies of the Administrative Record are available for review at the New Hanover Township Municipal Building located at 2543 North Charlotte Street, Gilbertsville PA, 19525

Pursuant to Section 506(d) of HSCA, 35 P. S. § 6020.506(d), the Department shall conduct a public hearing on December 4, 2012 at 7:00 p.m. at the Boyertown Junior High East Auditorium located at 2020 Big Rd, Gilbertsville, PA 19525. Anyone who would like to present formal oral comments regarding this proposed response may do so by calling DEP Community Relations Coordinator Lynda Rebarchak, at (484) 250-5820 to register.

or other accommodation to participate in the proceedings should contact Lynda Rebarchak at the telephone number listed above or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs. Members of the public may also submit written comments regarding the Department's proposed Interim Response action during the period of public comment. In accordance with Section 506(c) of HSCA, 35 P. S. § 6020.506(c), the Department has established a period for public comment that is now open until close of business January 18, 2013. Written comments should be addressed to Colin R. Wade, Solid Waste Specialist, Pennsylvania Department of Environmental Protection, 2 East Main Street, Norristown, PA 19401.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the

notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Nutrient Credit Trading Program; Notice of Certification Request

The Department of Environmental Protection (Department) provides notice of the following certification requests that have been submitted under the Nutrient Credit Trading Program (Trading Program). See 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed), published at 40 Pa.B. 5790 (October 9, 2010).

Nutrient credit trading is a market-based program that provides incentives for entities to create nutrient reduction credits (credits) by going beyond statutory, regulatory or voluntary obligations and goals to remove nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients.

The information described in this notice relates to submitted certification requests received on September 4, 2012.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed: (1) the certification request must be approved; (2) generation of the credits must be verified; and (3) the credits must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of a pollutant reduction activity to generate credits. Certifications are based on at least: (1) a written request describing the qualifying pollutant reduction activity that will reduce the pollutant loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying pollutant reduction activity has taken place.

Once the credits are certified, they must be verified to be applied toward an NPDES permit for compliance with effluent limits. Verification means implementation of the verification plan contained in the certification. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying pollutant reduction activity has taken place for the applicable compliance year.

The credits also need to be registered by the Department before they can be applied toward an NPDES

permit for compliance with effluent limits. Registration occurs only after credits have been certified, verified and a contract has been submitted. The Department registers credits for use during the compliance year in which the qualifying pollutant reduction activity has taken place. The Department provides registered credits with an annual registry number for reporting and tracking purposes.

Certification Request

The following request is being reviewed by the Department.

<i>Applicant</i>	<i>Pollution Reduction Activity Description</i>
Kulpmont-Marion Heights Joint Municipal Authority (Northumberland County) NPDES PA0020338	This certification request is for nutrient reduction credits to be generated from the pollutant reduction activity at Kulpmont-Marion Heights Joint Municipal Authority's wastewater treatment plant.

Written Comments

Interested persons may submit written comments on this proposed pollutant reduction activity by November 13, 2012. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Brian Schlauderaff, Bureau of Point and Non-Point Source Regulation, Department of Environmental Protection, P. O. Box 8774, Harrisburg, PA 17105-8774, (717) 772-5620, bschlauder@pa.gov.

Public Notice of Availability; Proposed Revisions to General NPDES Permit for Concentrated Animal Feeding Operations (PAG-12)

The Department of Environmental Protection (Department) is proposing to revise the National Pollutant Discharge Elimination System (NPDES) General Permit for Concentrated Animal Feeding Operations (PAG-12, 2012 amendment) for renewal for 5 years. This General NPDES Permit is issued under the authority of the Clean Water Act (33 U.S.C.A. §§ 1251—1387), The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and sections 1905-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P.S. §§ 510-5, 510-17 and 510-20). The current PAG-12 permit is scheduled to expire at midnight on March 31, 2013. The PAG-12 permit will continue to be in force until formal revision of PAG-12 is completed and announced in the *Pennsylvania Bulletin*, unless rescinded by the Department at an earlier date.

This permit is available for Concentrated Animal Feeding Operations (CAFOs) that do not discharge to a surface water classified as a High Quality or an Exceptional Value Water. CAFOs are regulated under both State and Federal law with clear and express requirements. The scope and specificity of the regulatory requirements make CAFOs an appropriate category for regulation under a general permit.

The Department is not proposing to charge a fee for processing the Notice of Intent (NOI) for CAFOs. A notice will be published in the *Pennsylvania Bulletin* of the receipt of each NOI under this general permit and of each approval for coverage under this general permit.

The proposed revisions included in the draft PAG-12, 2012 amendment are summarized as follows: the "Approval for Coverage" identifies the animal types and numbers based on the current approved nutrient management plan; the "Authorization to Operate" clarifies who may and may not be covered under PAG-12, lists applicable effluent limitations guidelines for animal types and explains the procedures and conditions for major and minor permit modifications; Part A includes manure storage requirements and additional self-monitoring, reporting and recordkeeping on the part of the operator; Part C includes clarification of setbacks for mechanical and winter application of manure, management of animal mortalities and manure storage facility and water quality management permit requirements, including maintaining records documenting the current design of any manure or litter storage structure. Part C also provides limitations on the disposal of feed and raw materials.

The Department invites public comments on the proposed revisions to PAG-12. Comments must be submitted by November 26, 2012. If there is significant public interest or if requested, the comment period may be extended at the discretion of the Department for an additional 15-day period. Only comments received during the specified comment period will be considered in the final renewal permit. If more significant issues of public interest are raised, the Department may schedule a public meeting or hearing. Written comments should be submitted to Kenn Pattison, Chief of the Nutrient Management Section at the address listed as follows. Comments will also be accepted by e-mail to RA-EPPAG12Comments@state.pa.us. Comments sent by facsimile or voice mail will not be accepted.

The proposed PAG-12, 2012 amended draft permit is available by contacting the Department of Environmental Protection, Bureau of Conservation and Restoration,

Rachel Carson State Office Building, P.O. Box 8465, 10th Floor, Harrisburg, PA 17105-8465, (717) 787-5267, RA-EPPAG12Comments@state.pa.us. The proposed PAG-12, 2012 amended draft permit is also available on the Department's web site at www.dep.state.pa.us (choose "Public Participation"; then "Public Participation Center" and then scroll down to "Proposals Currently Open for Comment").

Persons with a disability may contact the Department by using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). Following the specified comment period, the Department will review all submitted comments, prepare a comment and response document and the final documents package for this General Permit. Availability of the final permit documents will be announced in the *Pennsylvania Bulletin*.

DEPARTMENT OF PUBLIC WELFARE

Delay in Implementation of Alternative Cost Sharing for Families of Children with Disabilities with Incomes over 200% of the Federal Poverty Income Guidelines

The Department of Public Welfare (Department) previously published a public notice at 42 Pa.B. 6222 (September 29, 2012) announcing the implementation of copayments for services provided to children eligible for Medical Assistance (MA) under the MA for Children with Special Needs category with family income above 200% of the Federal Poverty Income Guidelines. The copayments were to be effective for dates of service on and after October 1, 2012, for newly eligible beneficiaries and November 1, 2012, for current beneficiaries.

Based upon feedback from families, stakeholders and other interested parties, the Department has decided to delay the implementation of copayments. Families of children eligible for MA under this category of assistance will not owe a copayment for any services until further notice.

Many stakeholders have acknowledged the need for cost sharing in the MA for Children with Special Needs program and have indicated that a premium would be preferred over copayments. The Department agrees, but has been unable to implement premiums because the Centers for Medicare and Medicaid Services (CMS) has taken the position that implementing premiums violates the Maintenance of Effort provisions of the Affordable Care Act. Delaying the implementation of copayments will allow the Department the opportunity to work with stakeholders and to seek approval from CMS to apply premiums or to identify and implement other cost-sharing alternatives. Once a decision has been reached, families will receive advance notice of their cost-sharing requirements.

Fiscal Impact

This delay is anticipated to result in costs of \$9.405 million (\$4.300 million in State funds) in the MA Outpatient Program in Fiscal Year 2012-2013 and annualized costs of \$12.540 million (\$5.813 million in State funds) in Fiscal Year 2013-2014.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Deputy Secretary's Office, Attention: Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered in the development of subsequent notice. Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Payment for Nursing Facility Services Provided by County Nursing Facilities that Privatize; Change in Methods and Standards of Setting Payment Rates

The Department of Public Welfare (Department) is proposing to amend its methods and standards for payment of Medical Assistance (MA) nursing facility services to county nursing facilities that privatize beginning November 1, 2012.

Proposed Changes

For county nursing facilities that have a change of ownership from a county ownership to a private nursing facility provider, the Department is proposing to determine the per diem rate using the peer group price for resident care, other resident related and administrative costs from the appropriate peer group in accordance with 55 Pa. Code § 1187.94 (relating to peer grouping for price setting) until there is a nursing facility cost report submitted by the new provider audited for use in the rebasing process. The resident assessment data from the former county nursing facility will be used to establish the MA case-mix index in the resident care rate calculation. If the facility's beds are eligible for the capital component of payment, then the fixed property component will be the only component in the capital portion of the case-mix rate until a nursing facility cost report submitted by the new provider is audited for use in the rebasing process.

Fiscal Impact

No fiscal impact is anticipated as a result of these changes.

Whereas, The specific cause of CWD is believed to be prions (abnormal infectious protein particles) that are known to be concentrated in the nervous system and lymphoid tissues of infected cervids; and

Whereas, There are no known treatments for CWD infection, no vaccines to protect against CWD infection, and no approved tests that can detect the presence of CWD in live cervids; and

Whereas, CWD has been designated a "dangerous transmissible disease" of animals by order of the Secretary of Agriculture under the provisions of the Domestic Animal Law (3 Pa.C.S. §§ 2301 et seq.), at 3 Pa.C.S. § 2321(d); and

Whereas, CWD is known to be transmissible from infected to uninfected cervids by contact with or ingestion of CWD-infected or contaminated cervid parts or materials; and

Whereas, CWD is of particular concern to the Commonwealth of Pennsylvania because, it has the potential to have a severe, detrimental impact on both Pennsylvania's wild and captive cervid populations; and

Whereas, the Pennsylvania Game Commission (PGC) has determined that importation of potentially infectious parts or materials from cervids harvested in CWD-endemic States or Canadian Provinces into the Commonwealth of Pennsylvania poses an unacceptable risk of continued introduction of CWD into the state; and

Whereas, The Game and Wildlife Code (the Code) (34 Pa.C.S. §§ 101 et seq.) and regulations promulgated thereunder (58 Pa. Code §§ 131.1 et seq.) collectively provide broad authority to the PGC to regulate activities relating to the protection, preservation, and management of game and wildlife, including cervids; and

Whereas, 58 Pa. Code § 137.34 provides specific emergency authority to the Executive Director of the PGC to ban the importation of certain cervid parts from other states or nations to prevent the introduction or spread of CWD into the Commonwealth of Pennsylvania; and

Now Therefore, I, Carl G. Roe, Executive Director of the Pennsylvania Game Commission, pursuant to the authority vested in me by the Code and regulations promulgated thereunder, do hereby order and direct the following:

1. My previous executive order concerning cervid parts importation restrictions issued on July 20, 2011 is hereby rescinded in its entirety and replaced by this Order.

5. For the purposes of this Order, high-risk parts or materials shall be defined as any parts or materials, derived from cervids, which are known to accumulate abnormal prions. This includes any of the following:

- b. Spinal Cord / Backbone (vertebra);
- c. Spleen;
- d. Skull plate with attached antlers, if visible brain or spinal cord material is present;

e. Cape, if visible brain or spinal cord material is present;

f. Upper canine teeth, if root structure or other soft material is present;

g. Any object or article containing visible brain or spinal cord material;

h. Brain-tanned hide.

b. Skull plate with attached antlers, if no visible brain or spinal cord material is present;

c. Tanned hide or rawhide with no visible brain or spinal cord material present;

e. Upper canine teeth, if no root structure or other soft material is present; and

f. Taxidermy mounts, if no visible brain or spinal cord material is present.

7. This Order shall not be construed in any manner to limit the PGC's authority to establish additional importation or testing requirements on imported cervid parts or materials.

8. This Order is effective immediately and shall remain in effect until rescinded or modified by subsequent order.

Given under my hand and seal of the Pennsylvania Game Commission on this 16th day of October 2012.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

**State Board of Pharmacy
Regulation #16A-5424 (IRRC #2963)**

Pharmacy Internship

October 17, 2012

We submit for your consideration the following comments on the proposed rulemaking published in the August 18, 2012 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Pharmacy (Board) to respond to all comments received from us or any other source.

Section 27.26. Pharmacy internship.—Consistency with statute; Protection of the public welfare; Need; Feasibility; Reasonableness.

Under Paragraph (b)(2), the proposed regulation requires the “ACPE-accredited pharmacy degree program” (Program) to send acceptable documentation directly to the Board “which includes the pharmacy student’s name, address, *Social Security Number . . .*” (Emphasis added.)

We have multiple concerns relating to the requirement for the acceptable documentation to include the student’s Social Security Number (SSN). First, given the risk of identity theft and hardship to which the student could potentially be exposed, how will the Board internally

secure this documentation, that includes the student’s SSN, to protect the student from identity theft?

Additionally, the existing provision at Paragraph (b)(2) does not require the student’s SSN. Why does the Board now need the student’s SSN? Do all students, including foreign students, possess SSNs? Even if the SSN is provided, what capacity does the Board have to verify the SSN and how would it actually perform this verification?

Finally, in this instance, the Board is not directly asking the student to produce the SSN, but is rather asking a third party, the Program, to provide the student’s SSN. Do all Programs, in all instances and locations, possess the student’s SSN? Would the Board deny an internship to a student if the SSN is not disclosed by or available to the Program? What provisions of the Pharmacy Act would the Board use to deny an internship if the student’s SSN is not provided by the Program?

Unless the Board can address our concerns and demonstrate the need for this SSN requirement, we recommend deleting it from Paragraph (b)(2).
