READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

(f) Each Six-Card Fortune Pai Gow Poker table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 588.3. Cards; number of decks.

(a) Except as provided in subsection (b), Six-Card Fortune Pai Gow Poker shall be played with one deck of cards that are identical in appearance and two cover cards. (b) If an automated card shuffling device is utilized, Six-Card Fortune Pai Gow Poker may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design but the backs of the cards in one deck must be of a different color than the cards in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(c) The decks of cards used in Six-Card Fortune Pai Gow Poker shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 588.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) If the deck of cards used by the certificate holder contains two jokers, the dealer and a floorperson shall ensure that only one joker is utilized and that the other joker is torn in half and placed in the box, envelope or container that the deck came from. After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence and include the one joker.

(c) After the first player is afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 588.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 588.5. Shuffle and cut of the cards; procedures for determining the starting position for dealing cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by the floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, determine the starting position in accordance with subsection (i), then deal the cards in accordance with § 588.8, § 588.9 or § 588.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually, cut the cards in accordance with the procedures in subsections (c)—(e).

(c) Upon completion of a manual shuffle, the dealer shall place the stack of cards on top of one of the cover cards. The dealer shall offer the stack of cards to be cut,

with the backs facing away from the dealer, to the player determined under subsection (d). If no player accepts the cut, the dealer shall cut the cards.

(d) The cut of the cards shall be offered to players in the following order:

(1) The first player arriving at the table, if the game is just beginning.

(2) The player at the farthest position to the right of the dealer. If this player refuses, the offer to cut the cards shall rotate to each player in a counterclockwise manner.

(e) The player or dealer making the cut shall place the second cover card in the stack at least ten cards from the top or the bottom of the deck. Once the second cover card has been inserted, the dealer shall take the second cover card and all the cards on top of the second cover card and place them on the bottom of the stack. The dealer shall then remove the first cover card and place it on the bottom of the stack. The dealer shall remove one of the cover cards and either place it in the discard rack or use it as an additional cover card to be inserted four cards from the bottom of the deck. The dealer shall then determine the starting position in accordance with subsection (i) and deal the cards in accordance with § 588.8, § 588.9 or § 588.10.

(f) After the cards have been cut and before the cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game. If a recut is required, the cards shall be recut either by the player who last cut the cards, or by the next person entitled to cut the cards, as determined under subsection (d).

(g) If there is no gaming activity at a Six-Card Fortune Pai Gow Poker table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards:

(1) If there is no automated shuffling device in use, the cards shall be mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section.

(2) If an automated shuffling device is in use, the cards shall be stacked and placed into the automated shuffling device to be shuffled. The deck of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the deck of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt, if the automated card shuffling device stores a single deck of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

(i) To determine the starting position for the dealing of cards, the certificate holder shall use one of the following:

(1) A Pai Gow Poker shaker in accordance with the following procedures:

(i) The dealer shall shake the Pai Gow Poker shaker at least three times to cause a random mixture of the dice.

(ii) The dealer shall then remove the lid covering the Pai Gow Poker shaker and place the uncovered shaker on the designated area of the table layout. The dealer shall then total the dice and announce the total.

(iii) To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner, until the count matches the total of the three dice.

(iv) After the dealing procedures required under § 588.8, § 588.9 or § 588.10 have been completed, the dealer shall place the cover on the Pai Gow Poker shaker and shake the shaker once. The Pai Gow Poker shaker shall then be placed to the right of the dealer.

(2) A computerized random number generator to select and display a number from 1 to 7. To determine the starting position, the dealer shall count each betting position in order, regardless of whether there is a wager at the betting position, beginning with the dealer as number one and continuing around the table in a counterclockwise manner until the count matches the number displayed by the random number generator.

(j) After the starting position for a round of play has been determined, a certificate holder may mark that position with an additional cover card, flat button or similar object.

§ 588.6. Six-Card Fortune Pai Gow Poker rankings.

(a) The rank of the cards used in Six-Card Fortune Pai Gow Poker, in order of highest to lowest, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example: queen, king, ace, 2 and 3). The joker shall be used and ranked as an ace or may be used as any card to complete a straight or a flush.

(b) The permissible five-card high hands at the game of Six-Card Fortune Pai Gow Poker, in order of highest to lowest rank, shall be:

(4) A four-of-a-kind consisting of four cards of the same rank, with four aces being the highest ranking four-of-a-kind and four 2s being the lowest ranking four-of-a-kind.

(5) A full house consisting of a three-of-a-kind and a pair, with three aces and two kings being the highest ranking full house and three 2s and two 3s being the lowest ranking full house.

(6) A flush consisting of five cards of the same suit. When comparing two flushes, the hand which contains the highest ranking card, as provided in subsection (a), which is not in the other hand, shall be considered the higher ranking hand.

(7) A straight consisting of five cards of consecutive rank, regardless of suit, with an ace, king, queen, jack and 10 being the highest ranking straight; an ace, 2, 3, 4 and 5 being the second highest ranking straight; and a 2, 3, 4, 5 and 6 being the lowest ranking straight.

(8) A three-of-a-kind containing three cards of the same rank, with three aces being the highest ranking three-of-a-kind and three 2s being the lowest ranking three-of-a-kind.

(9) Two pair containing two pairs, with two aces and two kings being the highest ranking two pair hand and two 3s and two 2s being the lowest ranking two pair hand.

(10) A pair consisting of two cards of the same rank, with two aces being the highest ranking pair and two 2s being the lowest ranking pair.

(c) When comparing two high hands or two low hands that are of identical hand rank under subsection (b), or contain none of the hands listed in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not in the other hand, shall be considered the higher ranking hand. If a player uses a joker as the low hand, the player's hand shall be considered the higher ranking hand. If the two hands are of identical rank after the application of this section, the dealer's hand shall be considered the higher ranking hand.

§ 588.7. Wagers.

(a) Wagers at Six-Card Fortune Pai Gow Poker shall be made by placing value chips, plaques or other Board-approved wagering instruments on the appropriate areas of the Six-Card Fortune Pai Gow Poker layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Six-Card Fortune Pai Gow Poker table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) Except the Double Down Wager, all wagers at Six-Card Fortune Pai Gow Poker shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 588.8, § 588.9 or § 588.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except the Double Down Wager, a wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

(d) To participate in a round of play and compete against the dealer's high and low hands, a player shall place a Six-Card Fortune Pai Gow Poker Wager.

(e) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a Six-Card Fortune Pai Gow Poker Wager, in accordance with subsection (d), the option of placing the following additional wagers:

(1) A Double Down Wager equal to the Six-Card Fortune Pai Gow Poker Wager that both the player's high and low hands will beat the dealer's high and low hands.

(2) A Fortune Bonus Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of

a three-of-a-kind or better as described in § 588.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings).

(3) An Insurance Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a king-high or less.

(4) A Progressive Payout Wager that the six cards dealt to the player will form a five-card Poker hand with a rank of a straight or better as described in § 588.6(b).

(f) If specified in its Rules Submission under § 601a.2, a certificate holder may permit a player to wager on two adjacent betting areas at a Six-Card Fortune Pai Gow Poker table. If a certificate holder permits a player to wager on adjacent betting areas, the cards dealt to each betting area shall be played separately. If the two wagers are not equal, the player shall rank and set the hand with the larger wager before ranking and setting the other hand. If the amounts wagered are equal, each hand shall be played separately in a counterclockwise rotation with the first hand being ranked and set before the player proceeds to rank and set the second hand. Once a hand has been ranked, set and placed face down on the layout, the hands may not be changed.

§ 588.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 588.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe either by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce "no more bets" and:

(1) If the Fortune Bonus Wager or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(2) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(c) The dealer shall determine the starting position for dealing the cards using one of the procedures authorized under § 588.5(i).

(d) The dealer shall then deal the first card to the starting position as determined in subsection (c) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards. Each card dealt shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed face down on the appropriate area of the layout with the opposite hand.

(e) After 6 cards have been dealt to each position and the dealer, the dealer shall remove the stub from the

manual dealing shoe and determine whether 11 cards are left by spreading them face down on the layout. The cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(f) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 588.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 588.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the dealer shall place the deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand when holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce "no more bets" and:

(i) If the Fortune Bonus or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall deal each card by holding the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall then determine the starting position for dealing the cards using one of the procedures authorized under § 588.5(i).

(c) The dealer shall then deal the first card to the starting position as determined in subsection (b) and, continuing around the table in a clockwise manner, deal one card at a time to all other positions, regardless of whether there is a wager at the position, and the dealer, until each position and the dealer has six cards.

(d) After 6 cards have been dealt to each position and the dealer, the dealer shall determine whether 11 cards are left by spreading them face down on the layout. The

11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 588.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures under § 588.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets" and:

(i) If the Fortune Bonus or Progressive Payout Wager is being offered and a player makes a Qualifying Wager, the dealer shall place an Envy lammer next to that player's wager.

(ii) If the Progressive Payout Wager is being offered, the dealer shall use the progressive table game system to prevent the placement of any additional Progressive Payout Wagers. If any Progressive Payout Wagers have been made, the dealer shall collect the wagers and, on the layout in front of the table inventory container, verify that the number of value chips wagered equals the number of Progressive Payout Wagers accepted by the progressive table game system. The dealer shall then place the value chips into the table inventory container.

(b) The dealer shall determine the starting position for delivering the stacks of cards using one of the procedures authorized under § 588.5(i).

(c) After the starting position for delivering the cards has been determined, the dealer shall deliver the first stack of cards dispensed by the automated dealing shoe face down to that position. As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other positions, regardless of whether there is a wager at the position, and the dealer.

(d) After 6 cards have been dispensed and delivered to each position and the dealer, the dealer shall remove the remaining cards from the shoe and determine whether 11 cards are left by spreading them face down on the layout. The 11 cards that remain may not be exposed to anyone and shall be placed in the discard rack.

(e) If more or less than 11 cards remain, the dealer shall determine if the cards were misdealt. If the cards were misdealt (a player position or the dealer has more or less than six cards), all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(f) If the dealer determines the cards were dealt properly, the dealer shall collect any stacks dealt to a position where there was no wager and place them in the discard rack without exposing the cards.

§ 588.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 588.8, § 588.9 or § 588.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at a Six-Card Fortune Pai Gow Poker table shall be responsible for setting his own hands and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player. If a player requests assistance in the setting of his hands, the dealer shall inform the player of the manner in which the certificate holder requires the hands to be set.

(2) Each player shall keep his six cards in full view of the dealer at all times.

(3) Once each player has set a high and low hand and placed the two hands face down on the appropriate area of the layout, the player may not touch the cards again.

(b) Each player shall set his hands by arranging the cards into a high hand and a low hand. When setting the two hands, the five-card high hand must be equal to or higher in rank than the one-card low hand.

(c) After all players have examined their cards, the dealer shall offer each player the option to place an additional Double Down Wager equal to the player's Six-Card Fortune Pai Gow Poker Wager.

(d) After all players have set their hands and placed the cards on the table, the six cards of the dealer shall be turned over and the dealer shall arrange his cards into a high and low hand in accordance with the following requirements:

(1) The dealer may not break any sets as described in § 588.6(b) (relating to Six-Card Fortune Pai Gow Poker rankings) to play a higher card in the dealer's low hand. Once the dealer has played the set, the dealer shall use the highest-ranking card in his low hand. Notwithstanding the following requirements:

(i) If the dealer has two three-of-a-kinds in his hand, the dealer shall play the lower ranking set as the three-of-a-kind and the higher one as a pair to play the higher card in the low hand.

(ii) If the dealer has three pairs, the dealer shall play the two lower ranking pairs as the high hand and the highest ranking card of the third pair as the low hand.

(2) If the dealer has a Six-Card Fortune straight, Six-Card Fortune flush or a Six-Card Fortune straight flush, the dealer shall play the lowest possible straight, flush or straight flush and place the highest ranking card in the low hand.

(3) If the dealer has both a straight and a flush, the dealer shall set the flush as the dealer's high hand.

(4) If the dealer has both a straight and a straight flush, the dealer shall set the straight flush as the dealer's high hand.

(5) If the dealer has both a Six-Card Fortune flush and a straight flush, the dealer shall play the straight flush as the high hand and the remaining card as the dealer's low hand.

(6) If the dealer does not have pairs, straights or flushes, the dealer shall play the highest ranking card, in accordance with § 588.6(a), in the dealer's high hand, the second highest ranking card as the dealer's low hand and the remaining four cards in the dealer's high hand.

(e) After the dealer has set a high hand and a low hand, the dealer shall reveal both hands of each player, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction. The dealer shall compare the high and low hand of each player to the high and low hand of the dealer and shall announce if the Six-Card Fortune Pai Gow Poker Wager of that player wins, loses or is a tie.

(f) A Six-Card Fortune Pai Gow Poker Wager will:

(1) Lose and will immediately be collected if:

(i) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is lower in rank than the high hand of the dealer and the low hand of the player is identical in rank to the low hand of the dealer.

(iii) The high hand of the player is identical in rank to the high hand of the dealer and the low hand of the player is lower in rank than the low hand of the dealer.

(iv) The high and low hands of the player are identical in rank to the high and low hands of the dealer.

(v) The high hand of the player was not set so as to rank equal to or higher than the low hand of that player.

(2) Tie and will be returned to the player if:

(i) The high hand of the player is higher in rank than the high hand of the dealer, but the low hand of the player is lower in rank than the low hand of the dealer.

(ii) The high hand of the player is lower in rank than the high hand of the dealer, but the low hand of the player is a joker or is higher in rank than the low hand of the dealer.

(3) Win if the high hand of the player is higher in rank than the high hand of the dealer and the low hand of the player is a joker or is higher in rank than the low hand of the dealer. The dealer shall pay the winning Six-Card Fortune Pai Gow Poker Wager in accordance with the payout odds in § 588.12(a) (relating to payout odds; Envy Bonus; rate of progression).

(g) After settling the player's Six-Card Fortune Pai Gow Poker Wager, the dealer shall settle the player's optional Double Down Wager as follows:

(1) If the dealer's hand contains a pair of eights or better, as described in § 588.6(b), the Double Down Wager shall win, lose or tie in accordance with subsection (f).

(2) If the dealer's hand does not contain a pair of eights or better, the Double Down Wager shall be returned to the player.

(h) If a player has placed a Fortune Bonus, Insurance or Progressive Payout Wager, the dealer shall rearrange the six cards of any player who placed an optional wager to form the highest ranking hand. If any player at the table has placed a Qualifying Wager, the dealer shall rearrange the cards of all players regardless of whether

the player placed a Fortune Bonus or Progressive Payout Wager. After rearranging the player's six cards, the dealer shall:

(1) Settle the player's Fortune Bonus Wager as follows:

(C) Did not place a Fortune Bonus Wager but has an Envy Bonus Qualifying Hand, and another player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Fortune Bonus Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 588.12(b) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(2) Settle the player's Insurance Wager. If a player has a hand ranked:

(III) Have a floorperson or above validate the progressive payout in accordance with the certificate holder's approved internal control procedures.

(IV) Pay the winning Progressive Payout Wager in accordance with the payout odds in § 588.12(d)(1). If a player has won a progressive payout that is a percentage of the progressive meter, the progressive payout may not be paid from the table inventory container. If a player has won a progressive payout that is not being paid from the

table inventory, the cards of that player shall remain on the table until the necessary documentation has been completed.

(C) Has an Envy Bonus Qualifying Hand and any player at the table placed a Qualifying Wager, the dealer shall verbally acknowledge the Envy Bonus Qualifying Hand and leave the cards of the player face up on the table.

(ii) After all Progressive Payout Wagers have been settled, if any player is the holder of an Envy Bonus Qualifying Hand, the dealer shall pay an Envy Bonus in accordance with § 588.12(d)(4) to each player who has an Envy lammer at the player's betting position. Players are entitled to multiple Envy Bonuses when another player at the same Six-Card Fortune Pai Gow Poker table is the holder of an Envy Bonus Qualifying Hand. A player is not entitled to an Envy Bonus for his own hand or the hand of the dealer.

(i) The dealer shall settle all of the player's optional wagers before placing the player's cards in the discard rack.

(j) All cards removed from the table shall be placed in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

PROPOSED RULEMAKING

PENNSYLVANIA PUBLIC UTILITY COMMISSION

[52 PA. CODE CHS. 3, 5, 23, 31, 32 AND 41]

[L-2013-2376902]

Household Goods in Use Carriers and Property Carriers

The Pennsylvania Public Utility Commission (Commission), on September 12, 2013, adopted a proposed rulemaking order amending existing regulations governing household goods carriers, eliminating the requirement that applications for authority establish a public demand or need for the proposed service and modifying insurance requirements.

Executive Summary

The Pennsylvania Public Utility Commission is vested with jurisdiction over common carriers, including household goods carriers, operating within Pennsylvania. Due to increased competition in this industry, the Commission proposes modifying its current regulations governing household goods carriers.

The evidentiary criteria governing applications for household goods in use authority are found at 52 Pa. Code § 41.14. In light of the competitive nature of the industry, we believe that it is appropriate to eliminate the requirement that an applicant for household goods in use authority establish that approval of the application will serve a useful public purpose, responsive to a public demand or need. 52 Pa. Code § 41.14(a). Further, the Commission would not consider the effect that a new carrier in the household goods industry might have on existing carriers. 52 Pa. Code § 41.14(c).

As a corollary to the proposed elimination of public demand or need in the application process, we propose modifying our tariff regulations governing household goods carriers. 52 Pa. Code § 23.67. Additionally, we will no longer restrict a carrier to a jurisdictional operating territory, unless that carrier would indicate it desired such a limitation. Existing household goods carriers would be deemed to have statewide authority, unless they would advise the Commission otherwise.

The remaining criteria set forth at 52 Pa. Code § 41.14 will remain in force. Household goods applicants will be required to establish that they have the technical and financial ability to provide the proposed service safely and legally.

Our insurance requirements provide for \$300,000 minimum liability coverage for property and household goods carriers. 52 Pa. Code § 32.12. We believe this minimum is insufficient and propose raising the minimum to \$750,000 for carriers operating commercial motor vehicles (vehicles weighing over 10,000 pounds). This coverage is consistent with federal requirements as well as numerous other states. Finally, we propose delineating more clearly the minimum insurance coverage for loss and damage to consumers' goods. This information is provided to prospective consumers in the required "Information for Shippers" form prescribed by our regulations. 52 Pa. Code § 31.121.

Proposed Rulemaking Amending 52 Pa. Code Chapters 3, 5, 23, 31, 32, and 41; Household Goods in Use Carriers and Property Carriers; Doc No. L-2013-2376902

Proposed Rulemaking Order

By the Commission:

Pursuant to Section 1101 of the Public Utility Code (Code), 66 Pa.C.S. § 1101, a public utility must obtain a certificate of public convenience from the Commission in order to offer, render, furnish, or supply public utility service in Pennsylvania. Section 1103 of the Code, 66 Pa.C.S. § 1103, establishes the procedure to obtain a certificate of public convenience. That provision provides, *inter alia*, that "[A] certificate of public convenience shall be granted by order of the commission, only if the commission shall find or determine that the granting of such certificate is necessary or proper for the service, accommodation, convenience, or safety of the public."

Pursuant to Section 102 of the Code, 66 Pa.C.S. § 102, common carriers by motor vehicle are public utilities. The Commission recognizes distinct types of common carriers in its regulations. 52 Pa. Code Chapters 21, 29, and 31. One of these common carrier types is the household goods in use carrier, which is defined as a "motor common carrier or contract carrier that transports household goods in use." 52 Pa. Code § 21.1.¹

The evidentiary criteria governing applications for household goods in use authority are found at 52 Pa. Code § 41.14.² As part of our continuing effort to

¹ "Household goods in use" is defined at 52 Pa. Code § 21.1, as:

(i) As used in connection with transportation, the term means personal effects and property used or to be used in a dwelling, when a part of the equipment or supply of the dwelling, and similar property if the transportation of the effects or property is arranged and paid for by either the householder or by another party.

(ii) The term does not include:

(A) A motor carrier when the motor carrier provides transportation of household goods in containers or trailers that are entirely packed, loaded, unloaded or unpacked by an individual other than an employee or agent of the motor carrier.

(B) Transportation of property from a factory or store when the property is purchased by the householder with the intent to use it in the householder's dwelling.

² 52 Pa. Code § 41.14 provides:

§ 41.14. Evidentiary criteria used to decide motor common carrier applications—Statement of Policy

(a) An applicant seeking motor common carrier authority has a burden of demonstrating that approval of the application will serve a useful public purpose, responsive to a public demand or need.

(b) An applicant seeking motor common carrier authority has the burden of demonstrating that it possesses the technical and financial ability to provide the proposed service. In addition, authority may be withheld if the record demonstrates that the applicant lacks a propensity to operate safely and legally. In evaluating whether a motor carrier applicant can satisfy these fitness standards, the Commission will ordinarily examine the following factors, when applicable:

(1) Whether an applicant has sufficient capital, equipment, facilities and other resources necessary to serve the territory requested.

(2) Whether an applicant and its employees have sufficient technical expertise and experience to serve the territory requested.

(3) Whether an applicant has or is able to secure sufficient and continuous insurance coverage for all vehicles to be used or useful in the provision of service to the public.

(4) Whether the applicant has an appropriate plan to comply with the Commission's driver and vehicle safety regulations and service standards contained in Chapter 29 (relating to motor carriers of passengers).

(5) An applicant's record, if any, of compliance with 66 Pa.C.S. (relating to the Public Utility Code), this title and the Commission's orders.

(6) Whether an applicant or its drivers have been convicted of a felony or crime of moral turpitude and remains subject to supervision by a court or correctional institution.

(c) The Commission will grant motor common carrier authority commensurate with the demonstrated public need unless it is established that the entry of a new carrier into the field would endanger or impair the operations of existing common carriers to an extent that, on balance, the granting of authority would be contrary to the public interest.

(d) Subsections (a) and (c) do not apply to an applicant seeking authority to provide motor carrier of passenger service under §§ 29.331–29.335 (relating to limousine service).

ensure that our regulatory requirements are necessary and appropriate, we have considered whether the evidentiary criteria at § 41.14 should be applied, in total, to applicants for household goods in use authority. In light of the increased competition in this industry, we believe that it is appropriate to eliminate the requirement that an applicant for household goods in use authority establish that approval of the application will serve a useful public purpose, responsive to a public demand or need. 52 Pa. Code § 41.14(a). Rather than determining public need by means of an administrative process, competition among these carriers in regard to price, quality and reliability as well as the experienced demand for their services by consumers who may freely choose among those competing carriers, will determine whether a given carrier's service is needed by the public. Further, the Commission would not consider the effect that a new carrier in the household goods industry might have on existing carriers. 52 Pa. Code § 41.14(c). In a competitive market with low barriers to entry, the Commission finds no reason to continue to protect, by an administrative process, carriers whose services are no longer demanded by consumers who have chosen other carriers. We believe these proposed changes are reflective of and consistent with the competitive environment that characterizes the household goods industry. Indeed, lowering these outdated barriers to entry will further promote competition in this industry, which will, in turn, provide consumers with more choices and more competition among carriers as to price, quality and reliability.

We note that our authority to eliminate the public need requirement has been considered and affirmed by the Pennsylvania Supreme Court. *Elite Industries, Inc. v. Pa. P.U.C.*, 832 A.2d 428 (Pa. 2003). In *Elite*, the Court posited:

Allowing the applicant to meet a less stringent evidentiary burden makes expansion of the market possible. This situation falls squarely within the PUC's area of expertise and is best left to the commission's discretion. (432)

The Court found that an agency may revise its policies and amend its regulations in interpreting its statutory mandates. Citing *Seaboard Tank Lines v. Pa. P.U.C.*, 502 A.2d 762 (Pa. Cmwlth. 1985), the Court reiterated that an agency's past interpretation of a statute, though approved by the judiciary, does not bind that agency to that particular interpretation. Moreover, the Court in *Elite* cited, with approval, the *Seaboard* description of the Commission's scope of authority, as follows:

The PUC's mandate with respect to the granting of certificates of public convenience is a broad one: "a certificate of public convenience shall be granted by order of the commission, only if the commission shall find or determine that the granting of such certificate is necessary or proper for the service, accommodation, convenience, or safety of the public." The legislature, however, provided no definition of specifically what the criteria were to be in determining the propriety of granting a certificate, leaving the formulation of such criteria to the PUC

Id. at 432 Accordingly, the *Elite* and *Seaboard* cases hold that the various and specific factors, to be considered in determining whether to grant a certificate of public convenience to an applicant for motor carrier authority, beyond those expressly stated in the statute, are matters left to the administrative expertise, sound discretion, and good judgment of the Commission.

Other jurisdictions, such as New York (New York Transportation Law Article 9), New Jersey (N.J. Statutes 45:14D-1 et seq.), Maryland, and Ohio (O.R.C. Chapter 4921), as well as the Federal Motor Safety Administration, do not require household goods applicants to establish a public demand or need as a prerequisite to certification. We believe that at this juncture, it is appropriate and in the public interest to eliminate the need requirement from the household goods application process. This will foster further competition in this market.

As a corollary to the proposed elimination of public demand or need in the application process, we envision an industry that will grow even more competitive. Competition drives market pricing, obviating the need to engage in traditional ratemaking processes geared toward monopoly markets. Chapter 23 of our regulations, 52 Pa. Code Chapter 23, governs tariffs and ratemaking procedures for common carriers. Specifically, 52 Pa. Code § 23.67 provides that household goods carriers, with gross intrastate operating revenues of less than \$200,000, and with operating ratios of no less than 93%, need not file substantiating data to support changes in rates. By order entered October 14, 2011, we waived the \$200,000 threshold, on a case by case basis as appropriate, and increased it to \$500,000.³ Petition of Tristate Household Goods Tariff Conference, Inc. Docket No. P-2011-2257808. We now propose eliminating the threshold amount completely, permitting all household goods carriers, with qualifying operating ratios, to change rates without filing supporting financial justification.

Another consequence of eliminating the public need requirement for household goods applicants is that the current territorial restrictions that accompany a carrier's certificate will no longer be necessary. Therefore, we will no longer restrict a carrier to a jurisdictional operating territory, unless that carrier would indicate it desired such a limitation.⁴ Also, existing household goods carriers would be deemed to have statewide authority, unless they would advise the Commission otherwise.

Given the elimination of the public need requirement for applicants as well as the statewide authorization for all household goods carriers, we believe that the regulatory provisions providing for Emergency Temporary Authority (ETA) and Temporary Authority (TA) are no longer applicable to household goods carriers. 52 Pa. Code §§ 3.383—3.385. The regulations governing ETA and TA are designed to meet emergency situations when there is an immediate need for service that cannot be met by existing carriers. These provisions would not be relevant in a competitive market served by carriers that are not constrained by artificial territorial restrictions. To the extent an emergency would arise requiring service, we believe that our regulations governing Emergency Relief in general, would suffice. 52 Pa. Code §§ 3.1—3.12.

We stress that the remaining criteria set forth at 52 Pa. Code § 41.14 will remain in force.⁵ Household goods

³ Of the 278 currently certificated household goods carriers, only 38 have revenues above the \$500,000 threshold.

⁴ A carrier may wish to limit its operating territory due to operational concerns, insurance costs, etc.

⁵ Protests to household goods applications will be limited to these criteria. Given the limited scope of any protests, the provisions providing for restrictive amendments to applications for motor carrier authority would be no longer applicable to applications for household goods authority. See 52 Pa. Code § 5.235.

applicants will be required to establish that they have the technical and financial ability to provide the proposed service safely and legally. Toward this end, we believe that applicants should have at least two (2) years of experience with a household goods carrier, or the equivalent. This requirement would ensure that only those applicants who are familiar with the industry would be eligible to operate. An applicant could satisfy this requirement by hiring managers with the necessary experience. We note that, notwithstanding this requirement, each application will be considered on its own merits. Additionally, we propose that all applicants who do not have a satisfactory safety rating by the United States Department of Transportation be required to successfully complete a Safety Fitness Review conducted by Commission staff. This requirement is currently in place for property carriers. 52 Pa. Code § 3.381(f). In addition to the Safety Fitness Review, we also propose that, after 18 months of operation, new carriers must successfully complete a Household Goods Audit conducted by Commission staff. The Audit ensures ongoing compliance and identifies any deficiencies of a carrier.

We also note that in our review of regulations governing household goods carriers, our insurance requirements provide for \$300,000 minimum liability coverage. 52 Pa. Code § 32.12. We believe this minimum is insufficient and propose raising the minimum to \$750,000 for carriers operating commercial motor vehicles (vehicles weighing over 10,000 pounds). This coverage is consistent with federal requirements as well as numerous other states. The proposed increase would apply to both property carriers and household goods carriers.

Finally, we propose delineating more clearly the minimum insurance coverage for loss and damage to consumers' goods. This information is provided to prospective consumers in the required "Information for Shippers" form prescribed by our regulations. 52 Pa. Code § 31.121. The minimum base coverage, provided as default coverage, is 60 cents per pound, per article. This is consistent with federal requirements. Additional coverage may be secured by the consumer for a fee, if requested. We believe that given the potential inadequacy of the default rate, the "Information for Shippers" form should be modified to better alert consumers of this issue.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 17, 2013, the Commission submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Consumer Affairs Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Commission, the General Assembly and the Governor of comments, recommendations or objections raised.

Conclusion

In sum, while we are eliminating certain outdated barriers to entry for household goods carriers, applicants

will continue to be required to demonstrate their technical and financial fitness to provide the proposed service, including adequate training and experience, capitalization and insurance coverage. Moreover, we intend to remain vigilant as to consumer protection and will not hesitate to bring enforcement actions against carriers that fail to maintain proper levels of insurance, fail to operate safely or lawfully, fail to be transparent in their prices and contract terms with consumers, fail to adequately protect consumers' household goods in transit, or otherwise fail to meet their fundamental duty to provide safe, reasonable, and adequate service to the public. 66 Pa.C.S. § 1501.

Annex A, proposed regulations, is permitted by sections 501, 1102, and 1103 of the Public Utility Code. Code §§ 7.1, 7.2 and 7.5, we amend our regulations as set forth in Annex A; *Therefore,*

(1) *Applications for passenger or household goods in use authority.*

(i) *Content and effect.*

(A) A person objecting to the approval of an application shall file with the Secretary and serve upon the applicant and the applicant's attorney, if any, a written protest which shall contain the following:

* * * * *

(VI) A statement of any restrictions to the application which would protect the protestant's interest, including a concise statement of any amendment which would result in a withdrawal of the protest. **This provision is not applicable to applications for household goods in use authority.**

(VII) A protest to a household goods in use application is limited to challenging the fitness of the applicant, including whether the applicant possesses the technical and financial ability to provide the proposed service and whether the applicant lacks a propensity to operate safely and legally.

(B) Upon the filing of a timely protest, the protestant will be allowed to participate in the proceeding as a party intervenor.

* * * * *

(iii) *Failure to file protests.* If no protest is filed with the Commission on or before the date specified in the *Pennsylvania Bulletin* or if all protests have been withdrawn at or prior to the hearing, the Commission may take either of the following actions:

(A) Consider the application without holding an oral hearing if it deems the facts are sufficient as in the application or as determined from additional information as the Commission may require of the applicant. An application processed under this section, without oral hearing, will be determined on the basis of verified statements submitted by the applicant and other interested parties.

* * * * *

(IV) There will be the following extensions of time to file verified statements. When extenuating circumstances exist, the Commission will grant up to 45 days to file verified statements. Requests for extensions of time may be granted by the Commission based upon a written request giving reasons for the extension.

(1) *Applications for passenger or household goods in use authority.*

(i) *Scheduling hearings.*

(A) Applications for passenger authority. The applications to which timely protests were filed will not be acted on by the Commission for 20 days after the closing date for filing of protests, to permit the applicant to make restrictive amendments leading to the withdrawal of

protests. If all protests are withdrawn upon amendment, the Commission may dispose of the application in accordance with subsection (c). If the application is still subject to protest, then after the expiration of the 20-day waiting period, the Commission will set the application for hearing and will notify all parties thereof. Absent good cause shown, no further amendments to the application will be considered after expiration of the 20-day period or the commencement of hearings.

(B) Applications for household goods in use authority. Applications for household goods in use authority to which timely protests were filed will be set for hearing with notice to the parties.

(ii) *Requests for postponements.* If any scheduled hearing is postponed for any reason prior to the date thereof, notice of postponement and the date, time and place of the continued hearing will be given by the presiding officer of the Commission to all parties. Requests for hearing postponements shall be submitted in writing to the Secretary of the Commission and the presiding officer with copies to parties of record, no later than 5 days prior to hearing. Hearings will not be postponed absent good cause.

* * * * *

(e) *Compliance: conditions for approval for passenger and household goods in use authority.* When the Commission approves operation by a motor common carrier of passengers or household goods in use, forwarder, broker or motor contract carrier of passengers or household goods in use, the applicant will be notified of the approval by registered or certified mail. The applicant shall file with the Commission within 60 days of receipt of the notice, a certificate of insurance or other security required by this title, relating to insurance and security for the protection of the public. In addition, motor common carriers of passengers or household goods in use shall file tariffs of their applicable rates and charges, and contract carriers of passengers or household goods in use shall file schedules of actual charges. When all of these requirements have been met, the Commission will issue the certificate, permit or license as the case may be. Failure by an applicant to comply with this section within the 60-day period may result in the dismissal of the application and rescission of prior approval, unless the Commission has, upon written request demonstrating good cause, extended the time for compliance.

(1) An applicant for household goods in use authority that does not possess a current satisfactory safety rating issued by the United States Department of Transportation or by a state with safety regulations comparable to the Commonwealth shall complete a safety fitness review conducted by Commission staff. The safety fitness review must be scheduled and completed within 180 days of the date of approval of the application. If the applicant fails to attain a satisfactory safety evaluation within the 180-day period, the applicant will be given an additional 90 days to correct the deficiencies. Failure to achieve a satisfactory evaluation within the 90-day period will result in immediate suspension of the certificate of public convenience and in proceedings to revoke the certificate.

(2) Safety fitness reviews shall take place at the applicant's primary place of business in this Commonwealth. Out-of-State carriers without facilities in this Commonwealth shall have reviews con-

ducted at the nearest Commission office. Out-of-State carriers shall provide Commission enforcement officers with sufficient records to enable meaningful examination of the applicant's safety related programs.

(3) In the course of a safety fitness review, Commission enforcement staff will examine an applicant's management policies, records and equipment to ensure that the applicant understands and will comply with Chapter 37 (relating to safety code for transportation of property and passengers).

Subchapter B. INSURANCE REQUIREMENTS

§ 32.12. Property carrier and household goods in use carrier insurance.

(a) No common carrier or contract carrier of property or household goods in use may engage in intrastate commerce and no certificate will be issued, or remain in force, except as provided in § 32.15 (relating to applications to self-insure), until there has been filed with and approved by the Commission, a certificate of insurance by an insurer authorized to do business in this Commonwealth, to provide for the payment of valid accident claims against the insured for bodily injury to or the death of persons, or the loss or damage to property of others resulting from the operation, maintenance or use of a motor vehicle in the insured authorized service. The liability of the insurance company on each motor vehicle operated in common or contract carrier service shall be in amounts not less than \$300,000 per accident for a vehicle with a manufacturer's gross vehicle weight rating of 10,000 pounds or less, in the case of a single vehicle, or a manufacturer's gross combination weight rating of 10,000 pounds or less, in the case of an articulated vehicle. The liability of the insurance company on each motor vehicle operated in common or contract carrier service shall be in amounts not less than \$750,000 per accident for a vehicle with a manufacturer's gross vehicle weight rating over 10,000 pounds, in the case of a single

vehicle, or a manufacturer's gross combination weight rating over 10,000 pounds, in the case of an articulated vehicle.

(c) Insurance coverage of motor carriers of property and household goods in use shall meet the requirements of 75 Pa.C.S. §§ [1701—1798] 1701—1799.7 (relating to Motor Vehicle Financial Responsibility Law).

§ 32.13. Cargo liability insurance.

(a) A common carrier of property or household goods in use by motor vehicle shall file with the Commission, in addition to the public liability and property damage certificate of insurance required by § 32.12 (relating to property carrier insurance), certificates of insurance in an amount satisfactory to the Commission, but not less than \$5,000 to provide payment for loss or damage to cargo carried on a motor vehicle. No motor vehicle may be operated unless the insurance policy or other approved method of protection is in effect at the time of operation. This section may not be modified or abrogated by tariff filings. The Commission may approve another method of cargo protection in specific cases.

§ 41.14. Evidentiary criteria used to decide motor common carrier applications—statement of policy.

* * * * *

(b) An applicant seeking motor common carrier authority has the burden of demonstrating that it possesses the technical and financial ability to provide the proposed service. In addition, authority may be withheld if the record demonstrates that the applicant lacks a propensity to operate safely and legally. In evaluating whether a motor carrier applicant can satisfy these fitness standards, the Commission will ordinarily examine the following factors, when applicable:

* * * * *

(2) Whether an applicant and its employees have sufficient technical expertise and experience to serve the territory requested. **For an applicant requesting authority to provide household goods service, the applicant is required to have a minimum of 2 years of experience with a licensed household goods carrier or the equivalent.**

* * * * *

(6) Whether an applicant or its drivers have been convicted of a felony or crime of moral turpitude and remains subject to supervision by a court or correctional institution.

(7) An applicant for household goods authority that does not have a satisfactory safety rating issued by the United States Department of Transportation or by a state with safety regulations comparable to the Commonwealth shall successfully complete a Safety Fitness Review conducted by Commission staff.

(8) After 18 months of operation, a new household goods carrier shall successfully complete a Household Goods Audit conducted by Commission

staff. Failure to pass the audit may result in proceedings to revoke the carrier's certificate.

(c) The Commission will grant motor common carrier authority commensurate with the demonstrated public need unless it is established that the entry of a new carrier into the field would endanger or impair the operations of existing common carriers to an extent that, on balance, the granting of authority would be contrary to the public interest.

(d) Subsections (a) and (c) do not apply to an applicant seeking authority to provide motor carrier of passenger service under §§ 29.331—29.335 (relating to limousine service) **or household goods in use service under §§ 31.121—31.134 (relating to transportation of household goods in use).**

This manual provides a complete listing of issuances, specified in Title 4 of the *Pennsylvania Code* § 1.2, from the Governor’s Office and from agencies under the Governor’s jurisdiction, except proclamations and press releases, that are intended for distribution to two or more agencies following the procedures for publication of issuances in Management Directive 210.1, Directives Management System.

Effective January 2010, this manual is updated semi-annually for publication on the Office of Administration’s website. The manual will be amended to reflect the latest issuances, and published annually in Title 4 of the *Pennsylvania Code* § 1.4 at the end of each fiscal year.

This manual replaces, in its entirety, Manual 210.3 dated July 31, 2012. This manual includes all new and amended issuances through June 30, 2013.

How to Use Index:

- o Executive orders are by year of issuance.
- o Management directives and manuals are numbered in sequence by category (e.g., Financial Management) and subcategory (e.g., Payroll).
- o All documents preceded by the letter “M” are manuals.
- o Documents that have been rescinded are indicated as rescinded.
- o Amendments are presented as complete documents that incorporate all changes since the last issuance.
- o Revisions which generally affect older issuances are pen and ink changes or replacement pages and affect only those parts of an issuance being changed. Therefore the issuance changed by a revision will be in more than one document because there will be original issuance and any revision.

Fiscal Note: 2013-210.3. No fiscal impact; (8) recommends adoption.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appro-

priate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Code §§ 127.44—127.46 that the Department of Environmental Protection (Department) intends to issue Air Quality Plan Approval: PA-65-00839B to allow the installation and initial temporary operation of one Solar Titan 250 natural gas-fired compressor turbine rated at 30,000 hp (at ISO conditions) and controlled by an oxidation catalyst at the Delmont Compressor Station located in Salem Township, **Westmoreland County**. One GE Frame 5 natural gas-fired compressor turbine rated at 18,500 hp and four Ingersoll-Rand KVS-412 lean burn natural gas-fired engines rated at 2,000 bhp each are to be deactivated upon the new

turbine's release for commercial service. One Solar Mars 100 natural gas-fired compressor turbine rated at 15,000 hp (at ISO conditions), six Ingersoll-Rand KVG-410 rich burn natural gas-fired compressor engines rated at 1,100 bhp each and controlled by NSCR, and two emergency generators will remain authorized for operation under TV-65-00839.

Potential to emit (PTE) changes from installation of the new turbine and the removal of and restrictions on currently authorized sources are calculated to be an increase of 0.60 ton of sulfur oxides (SO_x); and a decrease of 751.7 tons of nitrogen oxides (NO_x), 211.3 tons of carbon monoxide (CO), 93.1 tons of volatile organic compounds (VOC), 1.62 tons of particulate matter less than 10 microns in diameter (PM₁₀), 1.62 tons of particulate matter less than 2.5 microns in diameter (PM_{2.5}), 47.7 tons of formaldehyde, 66.3 tons of total hazardous air pollutants (HAP), and 26,886 tons of carbon dioxide equivalents (CO₂e) per year. The authorization is subject to State regulations including 25 Pa. Code §§ 123.1, 123.2 and 123.31; and Federal New Source Performance Standards (NSPS) including 40 CFR Part 60 Subpart KKKK for stationary combustion turbines. The reporting of greenhouse gas (GHG) emissions in the form of CO₂e and on a mass basis has also been included in this Plan Approval. Plan Approval has been conditioned to ensure compliance with all applicable rules. This includes NO_x, CO, VOC, PM₁₀, PM_{2.5}, and visible emission limits, limitation of fuel sulfur content, and testing, work practice, monitoring, recordkeeping, and reporting conditions. Additional conditions include revised emission limitations for the Solar Mars 100 turbine and Ingersoll-Rand KVG-410 engines and an hours of operation limitation on the engines. Once compliance with the Plan Approval is demonstrated, the applicant will subsequently submit a Title V Operating Permit administrative amendment application in accordance with 25 Pa. Code Subchapters F and G. Delmont Compressor Station remains a Title V facility based upon its potential to emit NO_x, CO, VOC, and GHG emissions. PTE from the facility will be 116.49 tons of nitrogen oxides (NO_x), 169.57 tons of carbon monoxide (CO), 79.8 tons of volatile organic compounds (VOC), 12.59 tons of particulate matter less than 10 microns in diameter (PM₁₀), 12.59 tons of particulate matter less than 2.5 microns in diameter (PM_{2.5}), 5.16 tons of sulfur oxides (SO_x) 8.58 tons of formaldehyde, 19.13 tons of total hazardous air pollutants (HAP), and 238,130 tons of carbon dioxide equivalents (CO₂e) per year.

Effluent Limits—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

Parameter	Table 2		
	30-day Average	Daily Maximum	Instantaneous Maximum
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*			

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

An additional site in Sugar Grove Township, Mercer County will be utilized to mitigate for the permanent conversion of palustrine forested and palustrine shrub-scrub wetlands to Palustrine emergent wetlands. The water obstructions and encroachments in the Mercer County portion of the project are described below:

The water obstructions and encroachments for the purposes of installing the pipeline are described below:

EROSION AND SEDIMENT CONTROL PERMITS

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance activities associated with either road maintenance or timber harvesting operations.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department regional office listed before the application within 30 days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department regional office during the 30-day public comment period.

Following the 30-day comment period, the appropriate regional office water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the

Pennsylvania Bulletin at which time this determination may be appealed to the Environmental Hearing Board (Board).

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate regional office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified regional office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

<i>Line/Type of Acid Used</i>	<i>Quantity of Tanks (Stages)</i>	<i>Quantity of Wet Scrubbers</i>
Hydrochloric Acid ("HCl")	10	1
Nitric Acid ("HNO ₃ ")	20	2

The project serves to expand the current wet operations at the facility, which were previously exempted from Plan Approval and Operating Permit requirements under Request for Determination of Changes of Minor Significance and Exemption from Plan Approval/Operating Permit ("RFD") No. 2895, by increasing the quantity and capacities of process tanks (and consequently, production) for, and the strength of the acids used in, the lines.

The (pre-control) potential emission rates of HCl (a hazardous air pollutant ("HAP")) and HNO₃ from the lines are approximately 4.3 tons/yr and 6.3 tons/yr, respectively. Packed tower wet scrubbers will be installed, with a vendor's guarantee to achieve a minimum acid gas removal efficiency of 99%, to reduce the acid gas emissions from the facility. Nitric oxide ("NO") and nitrogen dioxide ("NO₂") are also emitted from the HNO₃ line, and the second associated scrubber will also achieve some NO₂ control.

The Plan Approval will include emission concentration restrictions for HCl, HNO₃, NO, and NO₂ of 0.1 ppmv, 0.1 ppmv, 3.0 ppmv, and 7.0 ppmv, respectively. The Department reserves the right to review these restrictions based on the results of stack testing required under the Plan Approval.

The Plan Approval will include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

Water Quality Certification under Section 401 of the Federal Clean Water Act for the Texas Eastern Appalachian to Market 2014 Project

Southcentral Region: Waterways & Wetlands Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Scott Williamson, Program Manager, 717.705.4802.

On February 24, 2013, Texas Eastern filed an application with the Federal Energy Regulatory Commission (FERC) in Docket No. CP13-84-000 under Section 7(b) and (c) of the Natural Gas Act (NGA) seeking a Certificate of Public Convenience and Necessity (Certificate) authorizing abandonment, construction, and operation of the Texas Eastern Appalachia to Market 2014 Project (the TEAM 2014 Project or Project) located in Pennsylvania and other states. The proposed facilities would consist of approximately 33.6 miles of 36-inch-diameter natural gas pipeline comprising seven separate pipeline loops and associated facilities and horsepower (hp) upgrades at four existing compressor stations in Pennsylvania. Additional piping modifications and maintenance would occur at sites within Pennsylvania to accommodate bi-directional flow.

The four existing compressor station upgrades proposed in Pennsylvania are as follows: the Uniontown Compressor Station in Fayette County; the Delmont Compressor Station in Westmoreland County; the Armagh Compressor Station in Indiana County; and the Entriiken Compressor Station in Huntingdon County.

The pipeline facilities are loops that are collocated with existing natural gas pipelines except for 0.2 mile along the Perulack East Loop. This segment of the Perulack East Loop has been sited away from the existing right-of-way due to a combination of steep vertical and horizontal slope areas. The proposed Project's pipeline facilities in Pennsylvania new loops of 36-inch diameter piping as follows: Holbrook Loop, 6.7 miles, Fayette County; Perulack West Loop, 2.7 miles, Perry County; Perulack East Loop, 5.4 miles, Perry County; Shermans Dale Loop, 7.1 miles, Dauphin County; Grantville West Loop, 2.3 miles, Lebanon County; Grantville East Loop 3.8 miles, Lebanon County; and the Bernville Loop, 5.6 miles, Berks County. The project also includes various aboveground facilities, including pig launchers, pig receivers, and valves, that would be constructed to support the pipeline system expansion in Pennsylvania at these new loops.

The Department, by this notice, proposes to certify that the construction, operation and maintenance of the Project complies with the applicable provisions of sections 301—303, 306 and 307 of the Federal Clean Water Act

(33 U.S.C.A. §§ 1311—1313, 1316 and 1317). The Department further proposes to certify that the construction, operation and maintenance of the projects complies with Commonwealth water quality standards and that the construction, operation and maintenance of the projects does not violate applicable Commonwealth water quality standards provided that the construction, operation and maintenance of the projects complies with the conditions proposed for this certification, including the criteria and conditions of the following permits:

1. *Discharge Permit*—Texas Eastern shall obtain and comply with a PADEP National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the pipeline pursuant to Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001) and all applicable implementing regulations (25 Pa. Code Chapter 92a).

2. *Erosion and Sediment Control Permit*—Texas Eastern shall obtain and comply with PADEP's Chapter 102 Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17) and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Texas Eastern shall obtain and comply with a PADEP Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601.) and all applicable implementing regulations (25 Pa. Code Chapter 105).

4. *Water Quality Monitoring*—PADEP retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by any operational and construction process that may be employed by Texas Eastern.

5. *Operation*—For each Project under this certification, Texas Eastern shall at all times properly operate and maintain all Project facilities and systems of treatment and control (and related appurtenances) which are installed to achieve compliance with the terms and conditions of this Certification and all required permits. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by Texas Eastern.

6. *Inspection*—The Projects, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of PADEP to determine compliance with this Certification, including all required permits required, and Pennsylvania's Water Quality Standards. A copy of this Certification shall be available for inspection by the PADEP during such inspections of the Projects.

7. *Transfer of Projects*—If Texas Eastern intends to transfer any legal or equitable interest in the Projects which is affected by this Certification, Texas Eastern shall serve a copy of this Certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the PADEP Regional Office of such intent. Notice to PADEP shall include a transfer

agreement signed by the existing and new owner containing a specific date for transfer of Certification responsibility, coverage, and liability between them.

8. *Correspondence*—All correspondence with and submittals to PADEP concerning this Certification shall be addressed to the Department of Environmental Protection, South-central Regional Office, Scott Williamson, Waterways and Wetlands Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110-8200.

9. *Reservation of Rights*—PADEP may suspend or revoke this Certification if it determines that Texas Eastern has not complied with the terms and conditions of this Certification. PADEP may require additional measures to achieve compliance with applicable law, subject to Texas Eastern's applicable procedural and substantive rights.

10. *Other Laws*—Nothing in this Certification shall be construed to preclude the institution of any legal action or relieve Texas Eastern from any responsibilities, liabilities, or penalties established pursuant to any applicable federal or state law or regulation.

11. *Severability*—The provisions of this Certification are severable and should any provision of this Certification be declared invalid or unenforceable, the remainder of the Certification shall not be affected thereby.

The Environmental Assessment prepared by FERC may be viewed on FERC's website at www.ferc.gov under the Docket No. CP13-84-000.

The Clean Streams Law; Proposed Consent Decree with Waste Treatment Corporation

The Department of Environmental Protection (Department), intends to enter into a proposed Consent Decree with Waste Treatment Corporation (Waste Treatment) in accordance with the Pennsylvania Clean Streams Law. Waste Treatment owns and operates a wastewater treatment plant located at 341 West Harmar Street, Warren, Pennsylvania 16365, which discharges oil and gas and other wastewaters to the Allegheny River.

Biological surveys of the Allegheny River conducted by the Department in 2012 indicate that the discharges from Waste Treatment's plant are adversely impacting the River's water quality and biological community. The proposed Consent Decree identifies the corrective actions that Waste Treatment must take to resolve these adverse impacts.

The proposed Consent Decree requires Waste Treatment to, among other things: apply to the Department for the permit to install the additional treatment necessary for the wastewater discharges to meet or exceed the effluent limits identified in the Consent Decree, including the effluent limit of 500 mg/l for Total Dissolved Solids

and 250 mg/l for Chlorides; verify, through biological surveys, that this additional treatment is successful in restoring the water quality and biological community of the Allegheny River; and install the additional treatment and complete all other requirements of the proposed Consent Decree by January 1, 2016.

The public comment period for this proposed Consent Decree extends for 30 days from the date of publication of this notice in the *Pennsylvania Bulletin*. A press release has been submitted to local news organizations announcing the proposed Consent Decree and the 30-day public comment period.

Persons wishing to obtain a copy of the proposed Consent Decree may do so by contacting the Department of Environmental Protection, Northwest Regional Office, Clean Water Program, at 230 Chestnut Street Meadville PA 16335, or by telephone at 814.332.6942. Persons may submit written comments on the proposed Consent Decree within the 30 day comment period to the Department at the same address.

After the close of the 30-day public comment period, the Department will file responses to the comments that it received during the public comment period. If applicable based on the comments received, the Department and Waste Treatment will then file a Joint Motion requesting that the Pennsylvania Commonwealth Court approve the entry of the Consent Decree. The Consent Decree will be final upon the Commonwealth Court's approval and entry of the Decree.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

**Ronald Cab, Inc., t/a Community Cab, et al. v.
OGED, Inc.; Doc. Nos. C-2010-2167828 and
M-2013-2381012**

On July 12, 2013, the Commonwealth Court issued an Opinion and Order remanding the previously-referenced matter to the Pennsylvania Public Utility Commission (Commission) for further proceedings. In accordance with that order, this matter is referred to the Commission's Office of Administrative Law Judge (OALJ) for appropri-

ate proceedings and issuance of a recommended decision.

OGED, Inc., a medallion taxicab company, held rights to serve areas outside Philadelphia in addition to its medallion authority. In 2004, the General Assembly transferred the responsibility for regulating taxicab service in Philadelphia from the Commission to the Philadelphia Parking Authority (Authority) under the act of July 16, 2004 (P. L. 758, No. 94) (Act 94). Outside Philadelphia, the Commission remains solely responsible for regulating taxicab service.

The issue on remand involves the effect Act 94 had on OGED, Inc.'s ability to provide taxicab service both within Philadelphia and outside Philadelphia and, inter alia, whether Act 94 bifurcated OGED, Inc.'s original

Commission issued certificate of public convenience into two certificates, one issued by the Commission and one by the Authority, whether OGED, Inc. is a medallion company subject only to regulation by the Authority but with the ability to have a service area outside Philadelphia and whether a separate or amended certificate of public convenience issued by the Commission is required by medallion taxis to provide service wholly outside of Philadelphia. See *Ronald Cab, Inc. v. Pa. PUC*, No. 797 C.D. 2012 (Pa. Cmwlth. 2013).

At the time of enactment of Act 94, extra-Philadelphia rights were associated with 800 medallions, similar to OGED, Inc. Since that time, numerous carriers voluntarily discontinued their extra-Philadelphia authority. However, a significant number of carriers remain that may hold both medallion authority as well as authority to provide service outside Philadelphia. Given these carriers' potential interest in this proceeding, they are being served with this letter and provided the opportunity to intervene in this proceeding. Individuals have been identified as a carrier that may have an interest in this case.

Individuals who intend to intervene in this proceeding must file a written Notice of Intervention with the Commission within 30 days of the date of this letter. The Notice of Intervention must be mailed to the Commission at Pennsylvania Public Utility Commission, P. O. Box

3265, Harrisburg, PA 17105-3265 and contain the individual or the individual's company name, the Commission certificate number along with any medallion numbers, Doc. Nos. C-2010-2167828 and M-2013-2381012, an authorized signature, the name of the individual's attorney, if individuals are a corporation or partnership and dated. Note that the Commission's regulations in 52 Pa. Code §§ 1.21(b) and 1.22 (relating to appearance; and appearance by attorney or certified legal intern) require corporations and partnerships to be represented by counsel in adversarial proceedings. A blank Notice of Intervention form follows for convenience.

As noted, this matter is being referred to the OALJ for further proceedings, including development of a complete record to address the issues as outlined in the Commonwealth Court's opinion. At a minimum, that record shall contain the original certificate of public convenience and any amendments thereto, of OGED, Inc., and any similarly situated carrier that intervenes. Additionally, the record should reflect the details of the exact operations of OGED, Inc., and any similarly situated carrier that intervenes, both before and after enactment of Act 94.

Direct questions to John Herzog, Assistant Counsel, Law Bureau, at (717) 787-5000.

1. *Important Background*:

a. This hearing is not related to Mr. Sandusky's criminal prosecution or appeal. It is related to his appeal of the State Employees' Retirement System's determination that his pension is forfeited pursuant to Pennsylvania's Public Employee Pension Forfeiture Act (Act 1978-140).

b. Mr. Sandusky will not appear at the hearing in person. He will participate via closed-circuit television.

c. This is an administrative hearing, part of SERS' appeal process in which evidence is presented before an independent hearing examiner who makes a recommendation to the State Employees' Retirement Board, following which the Board will render a decision at an undetermined future date. No ruling will be made during or at the close of this hearing.

If, when it does issue its decision, the Board denies an appeal, the petitioner has a right to appeal the denial to Commonwealth Court. More information about SERS' appeal process is available at www.SERS.state.pa.us. Click "Active Members" from the left-hand navigation, then select "Appeals and Hearing Process" from the "More Information On..." box on the lower, right side of the page.

d. Because SERS' Board will be making a determination in this matter, SERS will not discuss legal strategy or make any comments during the hearing. (However, SERS will provide a specific area with backdrop, microphone stand and multibox in the unlikely event that any other entity would like to make comments.)

e. More information about Pennsylvania's Public Employee Pension Forfeiture Act (Act 1978-140) is available at www.SERS.state.pa.us. Click "Pension Forfeiture Policy" in the footer, under the blue bar at the bottom of the page.

Live re-streaming or re-streaming the hearing in its entirety is prohibited.

3. *Additional Media Opportunities to Cover the Hearing:* With registration by Jan. 2, credentialed members of the media can request a password that will allow them to access real-time, online streaming of the event via secure website.
