READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Rule 214.2. Assignment of Medical Professional Liability Actions and Protracted Cases.

(a) Following the filing of a Complaint by the plaintiff pursuant to Pa.R.C.P. 1042.2 and the entry

of appearance by the defendant(s) or defense counsel pursuant to Pa.R.C.P. 1012(a) or Lacka.Co.R.C.P. 200.1(a) in all medical professional liability actions subject to the reporting requirements set forth in Pa.R.C.P. 1042.51(c), the Court Administrator shall assign the case to the judges of the court on a rotating basis and shall promptly schedule a status conference before that judge and forward notice of the conference to all counsel and unrepresented parties. During the status conference, the assigned judge will establish deadlines for the completion of discovery, the exchange of expert witness reports and the filing of case dispositive motions, and schedule dates certain for trial and the final pre-trial conference. All preliminary objections, motions for judgment on the pleadings, motions for summary judgment, and other case dispositive motions, discovery motions, and other pre-trial motions will be addressed to, served upon and decided by the assigned judge.

(b) Any other case that will require at least eight (8) days of total trial time, including jury selection, may be designated as a protracted case and assigned to a judge of the court on a rotating basis for pre-trial and trial purposes. A case may be designated as a protracted case upon the filing of a Certification for Protracted Case Designation, subject to the provisions of Pa.R.C.P. 1023.1 to 1023.4, with the concurrence of all counsel of record and unrepresented parties in the form attached to the Appendix of these Local Rules as Form 7A. The motion requesting designation as a protracted case must set forth with specificity, and subject to Pa.R.C.P. 1023.1 to 1023.4, the reason(s) why the case warrants designation as a protracted case.

(c) A Certification for Protracted Case Designation (Form 7A) or a motion requesting the designation of a case as a protracted case may be filed following the filing of a complaint by the plaintiff and the entry of appearance by all defense counsel and unrepresented parties pursuant to Pa.R.C.P. 1012(a) and Lacka.Co.R.C.P. 200.1(a). Once a Certification for Protracted Case Designation or an Order of Court designating a case as a protracted case has been filed, the Court Administrator shall assign the case to a judge of the court on a rotating basis and shall promptly schedule a status conference before the assigned judge and forward notice of that conference to all counsel of record and unrepresented parties. During the status conference, the assigned judge will establish deadlines for the completion of discovery, the exchange of expert witness reports and the filing of case dispositive motions, and schedule dates certain for trial and the final pre-trial conference. After a case has been designated as a protracted case and assigned to a judge, all case dispositive motions, discovery motions, and other pre-trial motions in a protracted case will be addressed to, served upon and decided by the assigned judge.

If the plaintiff(s) shall fail to complete and forward a Case Management Proposal within thirty (30) days of the closure of the pleadings, nothing in this Rule shall preclude an opposing party from submitting a Case Management Proposal in compliance with this Rule.

If the [Special Trial Master for Discovery] Discovery Motions Court Judge is not available, the motion for a protective order may be oral and shall be presented to the [Special Trial Master for Discovery] Discovery Motions Court Judge within forty-eight hours of the suspension of the taking of deposition. Otherwise, the objecting party or deponent will be deemed to have waived the objection and the taking of the deposition shall be immediately resumed on notice to all interested parties and the deponent.

(b) In all other cases, the motion must be in writing and presented to the [Special Trial Master for Discovery] Discovery Motions Court Judge as provided in Lacka.Co.R.C.P. 4000 herein except that, upon failure to present such motion within fifteen (15) days of the suspension of the taking of the deposition, the objecting party or deponent will be deemed to have waived the objection whereupon the taking of the deposition shall be resumed on reasonable notice to all interested parties and deponent.

STATEMENTS OF POLICY

Title 67—TRANSPORTATION

DEPARTMENT OF TRANSPORTATION

[67 PA. CODE CH. 190]

Letter of Local Determination

The Department of Transportation (Department), under the authority in section 7 of the act of February 14, 2012 (P. L. 87, No. 13) (Act 13), the act of November 25, 2013 (P. L. 974, No. 89) and 75 Pa.C.S. §§ 4902 and 6103 (relating to restrictions on use of highways and bridges; and promulgation of rules and regulations by department), amends Chapter 190 (relating to Letter of Local Determination—statement of policy) to read as set forth in Annex A. This amended statement of policy establishes the framework within which the Department will exercise its administrative discretion.

Purpose

The purpose of Chapter 190 is to establish Department policy regarding the use of Letters of Local Determination by vehicles and combinations having a gross weight in excess of the posted weight limit on highways posted with weight restrictions under 75 Pa.C.S. § 4902.

Chapter 190 provides a mechanism (Letters of Local Determination) to identify local, over-posted-weight traffic that is exempt from posted and bonded road requirements, including, but not limited to, bonding and proportional sharing of costs to repair damaged roads. The amendments to Chapter 190 are consistent with recent amendments to 75 Pa.C.S. § 4902 that reflect a clearer definition of “local traffic” as that term is used in Chapter 190 and provides details for issuance of Letters of Local Determination.

Significant Provisions

The amendments to Chapter 190 include definitions of key terms in the recent amendments to 75 Pa.C.S. § 4902, which include two new categories of local traffic: permanent coal reprocessing and preparation plants; and permanent forest product processing mills. This expanded definition will provide an expanded means for haulers to operate under the categories of “local traffic.”

Persons and Entities Affected

This amended statement of policy will not change the affected persons or entities, except for the expansion of the definition of “local traffic” to include permanent coal reprocessing and preparation plants and permanent forest product processing mills.

Fiscal Impact

This amended statement of policy will not have fiscal impact to the Commonwealth and local governments and a positive fiscal impact on qualifying local traffic, including individuals, businesses, labor communities and other public and private organizations.

Sunset Date

Act 13 originally provided that this statement of policy shall remain in effect until December 31, 2015. Recent amendments to 75 Pa.C.S. § 4902 provide that this statement of policy, as amended, remains in effect until December 31, 2018.

Effective Date

These amendments are effective upon publication.

Contact Person

The contact person for technical questions related to this statement of policy is Halley Cole, PE, Bureau of Maintenance and Operations, Department of Transportation, 400 North Street, 7th Floor, Commonwealth Keystone Building, Harrisburg, PA 17120, (717) 783-6146, fax (717) 705-5520.

Secretary

(Editor’s Note: Title 67 of the Pennsylvania Code is amended by amending statements of policy in §§ 190.1—190.3 to read as set forth in Annex A.)

Annex A

TITLE 67. TRANSPORTATION

PART I. DEPARTMENT OF TRANSPORTATION

Subpart A. VEHICLE CODE PROVISIONS

ARTICLE VII. VEHICLE CHARACTERISTICS

CHAPTER 190. LETTER OF LOCAL DETERMINATION—STATEMENT OF POLICY

§ 190.1. Purpose.

(a) This chapter is adopted under section 7 of Act 13 and section 33 of the act of November 25, 2013 (P. L. 974, No. 89) (75 Pa.C.S. § 4902 (relating to restrictions on use of highways and bridges)). The purpose of this chapter is to provide guidance for the implementation of a program to provide Letters of Local Determination identifying particular vehicles, routes or uses as local in nature to provide exemption from the requirements of Chapter 189 (relating to hauling in excess of posted weight limit).

(b) This chapter only applies to Chapter 189 and does not apply to roads and bridges posted under Chapters 191 and 193 (relating to authorization to use bridges posted due to condition of bridge; and authorization to use highways posted due to traffic conditions).

This chapter is not an adjudication or a regulation. This chapter establishes the framework within which the Department will exercise its administrative discretion. The Department reserves the discretion to deviate from this chapter if circumstances warrant.

(iii) The terms “gathering,” “transmission” and “distribution pipelines” shall be read consistently with the definitions of those terms in the Federal pipeline safety regulations of the United States Department of Transportation, Pipeline and Hazardous Materials Safety Administration in 49 CFR 192.3 (relating to definitions).

§ 190.3. Local traffic and Letters of Local Determination.

(a) *Self certification as local traffic.* A hauling activity, but not hauling activity related to natural resource development, harvesting or extraction, going to or coming from a site, may be self-certified as local traffic if it meets the definition of “local traffic” in § 189.2 (relating to definitions), the provisions of § 189.3(c) (relating to local traffic) or as specifically provided in 75 Pa.C.S. § 4902 (relating to restrictions on use of highways and bridges).

(1) An application to the Department or Letter of Local Determination is not necessary.

(2) If a completed application for a Letter of Local Determination is submitted by the hauler, the Department may, at its discretion, issue a Letter of Local Determination.

(3) Timber and coal local traffic routes are limited to only delivery or pickup of:

(i) Logs and other forest products on one or more posted highways required to travel to or from a permanent forest product processing mill to or from the nearest nonposted highway by the most direct route possible.

(ii) Coal on those posted roads required to travel to or from a permanent coal reprocessing and preparation plant to or from the nearest nonposted highway by the most direct route possible. Hauling in excess of a posted weight limit related to delivery or pickup of coal to or from permanent coal reprocessing and preparation plants may qualify as local only when the permanent coal reprocessing and preparation plant is not on the same posted highway as a site at which coal is extracted.

(b) *Criteria for local determination.* A hauling activity may qualify for a Letter of Local Determination under the following circumstances:

(1) *At-risk industry sector.*

(i) Hauling in excess of a posted weight limit related to an at-risk industry as defined in Act 13 will qualify as local:

(A) On highways bonded by unconventional oil and gas development companies.

(B) Upon submission of a completed application for a Letter of Local Determination.

(C) Provided that existing excess maintenance agreements and permits held by the requesting hauler for the requested highways are closed out in accordance with the terms of the excess maintenance agreement. The excess maintenance agreement and permits will not be closed out until repairs and final inspections are completed.

(ii) Hauling in excess of a posted weight limit related to an at-risk industry as defined in Act 13 which is not for highways bonded by unconventional oil and gas development companies may, at the Department’s discretion, qualify as local upon the submission and review of a completed application for a Letter of Local Determination in accordance with subsection (d).

(2) *De minimis operations.* Hauling activity may qualify as local if all of the following apply:

- (i) It cannot be self-certified under subsection (a).
- (ii) It is not related to an at-risk industry as defined in Act 13.
- (iii) The Department, upon the submission and review of a completed application for a Letter of Local Determination, determines the scale of hauling activity and nature of the business is not likely to cause damage to the highway requested in the application based on all of the following:

- (A) The type and amount of hauling activity.
- (B) The structure of the requested highway.
- (C) The availability and suitability of alternate highways in the region.

(3) *Unconventional oil and gas industry.*

(i) Hauling related to unconventional oil and gas development as defined in this chapter does not qualify for a Letter of Local Determination.

(ii) Hauling related to unconventional oil and gas industries may qualify for a Letter of Local Determination if, upon the submission and review of a completed application, the Department determines that:

- (A) The hauling is not related to unconventional oil and gas development.
- (B) The scale of the hauling activity is not likely to cause damage to the highway specified in the application based on the structure of the requested highway and the availability and suitability of alternate highways in the region.

(c) *Application for Letter of Local Determination.* A completed application for a Letter of Local Determination must contain the following information:

- (1) The type of business and industry sector code.
- (2) The type and weight of vehicle.
- (3) A list of the roads (State highways by segments and offsets or intersecting roads) to be used on the hauling highway.
- (4) The number and frequency of trips per day, week and month.
- (5) The time of year and dates and duration of expected hauling.
- (6) Other evidence showing that the hauler is engaged in hauling for an at-risk industry for the duration of the hauling.
- (7) Other information the Department may require.

(d) *Review of application for Letter of Local Determination.*

(1) In reviewing an application for a Letter of Local Determination, the Department may consider various factors including the following:

(i) Protection of the integrity of the Commonwealth's highways.

(ii) The existing pavement strength, including the condition, thickness and age.

(iii) The existing average daily truck traffic.

(iv) The number and type of expected additional over-posted-weight vehicles.

(v) The impact of the freeze-thaw cycle, including whether hauling activities are planned during the calendar period between approximately February 15th and April 15th during which times the temperature results in changes (weakening) to the structural strength of the road surface.

(vi) The total expected loading and historical roadway performance.

(2) The Department will determine and acknowledge receipt of the application as administratively complete if it contains the necessary information and documents. If the application is not administratively complete, the Department will return it to the applicant along with a written statement of the specific information or documents required for administrative completeness. Returned applications will be deemed denied if not resubmitted within 15 days.

(3) The Department will only evaluate the hauler's proposed highways based on the available State highway network. Weight-restricted municipal highways will not be evaluated by the Department. If the hauler's proposed highway includes a weight-restricted municipal highway, the hauler shall contact the proper local authority for permission to utilize that weight-restricted highway.

(e) *Issuance of a Letter of Local Determination.*

(1) The scope of a Letter of Local Determination will be based on the vehicles, highways and uses identified in the application.

(2) The Department may restrict the operation of vehicles and hauling for which a Letter of Local Determination is issued by time of day, date, location or use. Restrictions will be specified in the Letter of Local Determination.

(3) The term of a Letter of Local Determination will not be longer than 12 months from the date of issuance.

(4) Existing bonded permits held by the requesting hauler for the requested highway must be closed out in accordance with the terms of the excess maintenance agreement. The bonded permits will not be closed out until repairs and final inspections are completed. Letters of Local Determination are not valid during the freeze-thaw period. If desired, an excess maintenance agreement and or a security bond may be retained for issuance of a bonded permit during freeze-thaw periods or other restriction period.

B. The Plant Pest Act (Act) (3 P. S. §§ 258.1—258.27) empowers The Department of Agriculture (Department) to take various measures to detect, contain and eradicate plant pests. A plant pest is defined as an organism, including other plants, causing or capable of causing injury or damage to plants or plant products (3 P. S. § 258.2). These powers include the authority, set forth at section 258.21 of the Act (3 P. S. § 258.21), to establish quarantines to prevent the spread of plant pests within this Commonwealth.

C. Under the authority of section 258.20 of the Act (3 P. S. § 258.20) the Department may declare a pest to be a public nuisance when the Department determines a plant pest to be dangerous or destructive to the agriculture, horticulture or forests of this Commonwealth. For the reasons set forth in Paragraph A above, the Department declares Spotted lanternfly, *Lycorma delicatula*, to be a public nuisance.

D. Consistent with the Order of Quarantine published at 44 Pa.B. 6947 issued Saturday, November 1, 2014, where the Department detects or confirms any of the plant pests established in this Order of Quarantine—Spotted lanternfly, *Lycorma delicatula*—the place or area in which any of these plant pests are detected or confirmed shall be subject to the provisions of that Order of Quarantine published at 44 Pa.B. 6947 issued Saturday, November 1, 2014.

E. The place or area in which the plant pest is detected or confirmed shall be added to the Order of Quarantine, published at 44 Pa.B. 6947 issued Saturday, November 1, 2014, through an addendum delineating the specific location and geographic parameters of the area or place. Such Addendum shall be published in the *Pennsylvania Bulletin* and enforcement of the Addendum to the Order of Quarantine, published at 44 Pa.B. 6947 issued Saturday, November 1, 2014, with regard to that place or area shall become effective immediately.

Order

Under authority of section 21 of the act (3 P. S. § 258.21), and with the Recitals previously listed incorporated into and made a part hereof this Addendum to the Order of Quarantine published at 44 Pa.B. 6947 issued Saturday, November 1, 2014 by reference, the Department orders the following:

1. Establishment of Quarantine.

A quarantine is hereby established with respect to Douglass Township and Amity Township, Berks County.

This is in addition to, and does not replace, any townships and areas already subject to the Spotted Lanternfly Quarantine Order published at 44 Pa.B. 6947 issued Saturday, November 1, 2014, and any previous Addendums to that Quarantine Order.

2. All Provisions Apply.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Availability of the Commonwealth's Draft Analysis of Impediments to Fair Housing Choice and Summary of Recommendations; Public Hearing

The Department of Community and Economic Development (Department) is requesting public comment on the proposed Commonwealth's Analysis of Impediments to Fair Housing Choice (AI) with emphasis on the regions of this Commonwealth not receiving direct Federal funding from the United States Department of Housing and Urban Development (HUD) through the Community Development Block Grant (CDBG) or Federal Home Investment Partnership (HOME) programs.

This summary is designed to provide an opportunity for citizens, stakeholders, local governmental officials and interested organizations of this Commonwealth to comment about the AI and the recommendation to eradicate these impediments.

As a condition of receiving Federal funding from HUD, municipalities and states must certify that they are affirmatively furthering fairness and equal opportunity in housing for individuals and groups protected by the Federal Fair Housing Act of 1968 (42 U.S.C.A. §§ 3601—3631) and its amendments. Jurisdictions must meet this obligation by performing an AI as part of their consolidated planning process for housing and community development programs under 24 CFR Part 91 (relating to consolidated submissions for community planning and development programs). The AI is used to identify barriers to fair housing and to develop and implement strategies and actions to overcome these impediments.

The Department, as the Commonwealth's recipient HOME, Emergency Solutions Grant and CDBG program funds, has been designated as the Department responsible for the preparation of the AI.

Content

This AI broadly analyzes actions and conditions that may have the effect of restricting housing choice for people protected under State and Federal fair housing laws. The AI not only identifies impediments to fair housing choice, but also makes recommendations to overcome the effects of those impediments and shall serve as the basis for fair housing planning, providing essential information to staff, policy makers, housing providers, lenders and fair housing advocates and assisting with garnering community support for fair housing efforts.

To address impediments identified in the study, the report offers a set of recommendations for consideration.

Recommendation #1: Increase Public Awareness of Fair Housing Rights

The Commonwealth could strengthen efforts to make the public aware of fair housing rights and further emphasize how reporting fair housing violations can have positive outcomes. This would include providing communities information on fair housing laws and policies, model zoning ordinances and advice from other communities that have succeeded in overcoming regulatory impediments to fair housing choice.

Recommendation #2: Improve and Better Utilize Financial Assistance for Housing

High housing costs and cost burdens to both buyers and renters can be reduced through financial assistance programs. The variety and volume of programs available to low/moderate-income persons is large. Realtors, lenders and rental property owners often do not know what is available and what the qualifications are for the various programs. All could benefit from more information on the availability of home financing and rental subsidy programs. In addition, Federally-supported programs could be better designed and targeted. The Commonwealth could provide more information and realign its housing finance policies to more directly confront housing affordability issues.

Recommendation #3: Increase Access to Special Needs Housing

The Commonwealth should gather more information of this emerging impediment and determine to the extent to which the available supply of supportive housing is limited. Further investigation may also be necessary of potential discriminatory practices reported in recent complaints. Promoting best practices for alternative types of special needs/elderly housing and considering policy changes may be in order. Shaping community attitudes as described in the first recommendation may also be necessary to confront this barrier.

Recommendation #4: Strengthen Linkages between Transportation and Jobs

As stated in the findings, inadequate access to and from employment centers and the availability of job opportunities where people live remains a barrier to fair housing. To address this impediment to fair housing choice, the Commonwealth can strengthen linkages between transportation and jobs. This would first entail examining linkages between transportation, jobs and housing. Incentives for transit oriented housing development in this Commonwealth have resulted in better linkages between transportation and jobs. Various State agencies could examine similar incentives that connect to jobs as well. Efforts could be made to link all three elements using those same incentives, jobs transportation and housing. The State government could also explore

and identify regional development opportunities that locate and provide access to jobs near where people live then share success stories with local governments.

Recommendation #5: Strengthen Local Zoning Ordinances

The Commonwealth could provide assistance to local governments to strengthen zoning ordinances to further fair housing. This could include help to identify and remove regulatory impediments, to promote fair share principles articulated in the Pennsylvania Municipalities Planning Code (53 P.S. §§ 10101—11202) and in case law, and to enact regulatory best practices that further fair housing such as inclusionary zoning provisions. Also, the Commonwealth could consider amendments to the Municipalities Planning Code to provide authority, currently lacking, for enactment of mandatory inclusionary zoning provisions.

Public Review

The Commonwealth's Draft AI is available on the Internet for public comment through January 6, 2016. The AI can be viewed at <http://community.newpa.com/library/>. Scroll to the bottom of the page for a quick link. The final plan will be made available again at these same locations following HUD approval. CD copies of the AI can be obtained by calling (717) 720-7404.

Written comments must be received by close of business at 4 p.m. on January 6, 2016, to be included as testimony in the AI.

Public Hearing

A public hearing is scheduled for December 22, 2015, from 1:30 p.m. to 2:30 p.m. The public hearing will be conducted electronically by means of the Internet. The format will be more accessible in that persons who wish to make a comment may participate directly from their phone, personal computer or from any computer location that has Internet access, such as their public library.

Any individual or organization may give testimony or comments by means of the Internet. Comments will be accepted about topics related to the AI. The Commonwealth encourages public participation in this process.

**LAND RECYCLING AND

PREAMBLE 1**

**Acknowledgment of Notices of Intent to Remediate
Submitted under the Land Recycling and Environ-
mental Remediation Standards Act (35 P. S.
§§ 6026.101—6026.907)**

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution

Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

The turbine will be equipped with a heat recovery steam generator (HRSG), low NO_x option mode (SoLoNO_x) and a BASF Corporation CAMET oxidation catalyst. Potential emissions from the project are estimated to be 14.0 tpy CO, 30.1 tpy NO_x, 3.7 tpy PM₁₀/PM_{2.5}, 0.7 tpy SO_x, 7.8 tpy VOC, 1.1 tpy of a single HAP (formaldehyde), and 1.3 tpy of combined HAPs. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 123.13, 123.21, 127.1 and 127.12, 40 CFR 60, Subpart KKKK—Standards of Performance for Stationary Combustion Turbines and 40 CFR 60, Subpart IIII—Standards of Performance for Stationary Compression Ignition Internal Combustion Engines. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an operating permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit

applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Greene Township	9333 Tate Road Erie, PA 16509	Erie

Plan Description: The approved plan provides for the construction of a 1,300 equivalent dwelling units (EDUs) sewage collection system to collect and convey all wastewater from the planning area within Greene Township to the Millcreek Township Sewer Authority sanitary sewer system and ultimately to the City of Erie wastewater treatment plant. The plan provides for initially serving 982 EDUs. This plan re-evaluated the two alternatives contained within a previous plan and concluded with selecting the alternative that does not require a new

Greene Township wastewater treatment plant. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. 717-705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>

Plan Description: Approval of a revision to the official plan of Letterkenny Township, Franklin County. The project is known as Delvin Zullinger. The plan provides for a small flow treatment facility to serve one new single family residence. The proposed development is located on Park Road. The Department's review of the plan revision has not identified any significant impacts resulting from this proposal. The DEP Code Number for this planning module is A3-28910-120-3S and the APS Id is 879376. Any permits must be obtained in the name of the property owner.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Under the Pennsylvania Sewage Facilities Act

Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. 717-705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Franklin Township	150 Century Lane, Dillsburg, PA 17019	York

Plan Description: The private request to revise the Official Plan of Franklin Township, York County for the Lexington Fields Subdivision, made by the Bennington Investment Group LLC, DEP Code No. A3-67923-300-3, consisting of a 344-unit residential subdivision on 62.58 acres to be served by a 144,000 gpd private package treatment plant with discharge to an unnamed tributary to the North Branch of Bermudian Creek is denied. The proposal also includes eight lots for stormwater management, open space/recreation, sewage facilities, and non-building. The project is located north of Franklintown Borough on the west side of Route 194, south of the Franklin Township border with Carroll Township in York County. The private request is denied because: 1) The private request failed to document that the Official Plan of Franklin Township is not being implemented or is inadequate to meet the sewage disposal needs of the property as required by Section 5(b) of the Act and Chapter 71, Section 71.14(a); and 2) Franklin Township's Official Act 537 Plan designates this area as a sewer service area to be served by the Dillsburg Area Authority, of which Franklin Township is a member. Pursuant to Franklin Township Ordinance 3-1999 the Dillsburg Area Authority is the exclusive agent of the Township to provide public water and sewer service within its service area.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

DEPARTMENT OF HEALTH

Amendments to Charges for Medical Records

In the notice published at 44 Pa.B. 7617 (December 6, 2014), the Department of Health (Department) published the guidelines and fees that a health care provider or facility may charge in response to a request for production of medical charts or records. The Secretary of Health (Secretary), under 42 Pa.C.S. §§ 6152 and 6152.1, is directed to adjust annually the amounts which may be charged by the health care provider or facility.

The Secretary is directed to base these adjustments on the most recent changes in the Consumer Price Index reported annually by the Bureau of Labor Statistics of the United States Department of Labor. The previously listed fees shall apply for paper copies or reproductions on electronic media whether the records are stored on paper or in electronic format.

In addition to the amounts listed previously, charges may also be assessed for the actual cost of postage, shipping and delivery of the requested records.

The Department is not authorized to enforce these charges.

The previous charges, however, are subject to the following exceptions:

(1) An insurer shall not be required to pay for copies of medical records required to validate medical services for which reimbursement is sought under an insurance contract, except as provided in: (a) the Workers' Compensation Act (77 P. S. §§ 1—1041.4 and 2501—2506) and the regulations promulgated thereunder; (b) 75 Pa.C.S. Chapter 17 (relating to Motor Vehicle Financial Responsibility Law) and the regulations promulgated thereunder; or (c) a contract between an insurer and any other party.

a. *Electronic health record.* Under 42 U.S.C.A. § 17935(e), if a health care provider uses or maintains health records in an electronic format with respect to protected health information of an individual, the individual shall have a right to obtain from the health care provider a copy of the information in an electronic format. The individual also has a choice to direct the health care provider to transmit electronically a copy of the health record directly to an entity or person designated by the individual, provided that any choice is clear, conspicuous and specific. Any fee that the health care provider may impose for providing this information (or a summary or explanation of this information) in an electronic format shall not be greater than the labor costs in responding to the request. Nursing Facility Assessment Program for Fiscal Year 2015-2016

This notice announces the amount of the assessment that the Department of Human Services (Department) is implementing for Fiscal Year (FY) 2015-2016, provides an explanation of the assessment methodology that the Department is using in FY 2015-2016 and identifies the estimated aggregate impact on nursing facilities which will be subject to the assessment.

Background

Article VIII-A of the Public Welfare Code (code) (62 P. S. §§ 801-A—815-A) authorizes the Department to impose an annual monetary assessment on nursing facilities and county nursing facilities in this Commonwealth each fiscal year through FY 2015-2016. Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). See 62 P. S. § 803-A. To ensure receipt of FFP, Article VIII-A of the code requires the Department to seek a waiver from the Federal Centers for Medicare and Medicaid Services if necessary to implement the Assessment Program. See 62 P. S. § 812-A.

For each fiscal year that the Assessment Program is implemented, the code authorizes the Secretary of the Department (Secretary) to determine the aggregate amount of the assessment and the annual assessment rate in consultation with the Secretary of the Budget. See 62 P. S. § 804-A. The act specifies that annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for Federal matching funds. See 62 P. S. § 804-A.

The Secretary must publish a notice in the *Pennsylvania Bulletin* before imposing an annual assessment for a fiscal year. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P. S. § 805-A.

After consideration of any comments received during the 30-day comment period, the Secretary must publish a

second notice announcing the rate of assessment for the fiscal year. See 62 P. S. § 805-A. The annual aggregate assessment amount and assessment rate for the fiscal year must be approved by the Governor. See 62 P. S. § 804-A.

The Secretary published a notice at 45 Pa.B. 2796 (June 6, 2015) announcing the proposed assessment rates, the aggregate amount and the impact for FY 2015-2016. No comments were received by the Department in response to the proposed rates notice.

Assessment Methodology and Rates for FY 2015-2016

The following nursing facilities will continue to be exempt from the Assessment Program in FY 2015-2016:

- (1) State owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.

(3) Nursing facilities that have not been licensed and operated by the current or previous owner for the full calendar quarter prior to the calendar quarter in which an assessment is collected.

(4) Nursing facilities that provide nursing facility services free of charge to all residents.

The Department will assess nonexempt nursing facilities at two rates. One rate will apply to four categories of nursing facilities: county nursing facilities; nursing facilities that have 44 or fewer licensed beds; qualified nursing facilities affiliated with Continuing Care Retirement Communities (CCRC) (see 40 Pa.B. 7297 (December 18, 2010)); and nursing facilities with an MA occupancy rate of at least 94% based on the 4 most recently submitted assessment quarter reports for each nursing facility as of November 5, 2014. The other rate will apply to all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010. Using the applicable rate, the Department will calculate each nonexempt facility's quarterly assessment amount by multiplying its assessment rate by the facility's non-Medicare resident days during the calendar quarter that immediately preceded the assessment quarter. This rate structure is essentially the same structure that was used in FY 2014-2015, but for an adjustment to the qualifications for the assessment rates.

Although the Department will maintain essentially the same basic rate structure for FY 2015-2016, the Department is increasing the assessment rate for nonexempt nursing facilities from the rates in FY 2014-2015. For FY 2015-2016, the assessment rates for nonexempt nursing facilities will be as follows:

(1) For county nursing facilities, for nursing facilities that have 44 or fewer licensed beds, for qualified CCRC nursing facilities and nursing facilities with an MA occupancy rate of at least 94% based on the latest 4 assessment quarters for each nursing facility as of November 5, 2014, the assessment rate will be \$8.01 per non-Medicare resident day.

(2) For all other nonexempt nursing facilities, the assessment rate will be \$30.06 per non-Medicare resident day.

Assessment payments are due the last day of the assessment quarter or 30 days after publication of this second notice, whichever is later.

The Assessment Program due dates, along with supplemental payment dates, will be available on the Department's web site at <http://www.dhs.state.pa.us/provider/doingbusinesswithdhs/longtermcarecasemixinformation/index.htm>.

Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that the annual aggregate assessment fees for nonexempt nursing facilities will total \$485.035 million. The Department will use the State revenue derived from the assessment fees and any associated Federal matching funds to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Long-Term Living, Bureau of Policy and Regulatory Management, Attention: Marilyn Yocum, P. O. Box 8025, Harrisburg, PA 17105-8025. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

PENNSYLVANIA eHEALTH PARTNERSHIP AUTHORITY

Financial Statements INDEPENDENT AUDITORS' REPORT

Board of Directors
Pennsylvania eHealth Partnership Authority
Harrisburg, Pennsylvania

We have audited the accompanying financial statements of the business-type activities of the PENNSYLVANIA eHEALTH PARTNERSHIP AUTHORITY ("The Authority"), a component unit of the Commonwealth of Pennsylvania, as of and for the year ended June 30, 2015, and the related notes to the financial statements, which collectively comprise the Authority's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities of the Authority as of June 30, 2015, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Adoption of Governmental Accounting Standards Board Statements

As discussed in Note 1 to the financial statements, during the year ending June 30, 2015, The Authority adopted the provisions of Governmental Accounting Standards Board's Statement No. 68, "Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27", Statement No. 69, Government Combinations and Disposals of Government Operations", and Statement No. 71, "Pension Transition for Contributions Made Subsequent to the Measurement Date—an Amendment of GASB Statement No. 68". Our opinion is not modified with respect to these matters.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the schedule of Authority's proportionate share of the net pension liability and the schedule of Authority's contributions on pages 19-20 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquires of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Omission of Management's Discussion and Analysis

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

**NOTES TO FINANCIAL STATEMENTS YEAR

NOTE 1: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The Pennsylvania eHealth Partnership Authority (the "Authority") was established by Act 121 of 2012 (effective July 5, 2012), as an independent agency of the Commonwealth of Pennsylvania (the "Commonwealth"). The Authority took over the work of its predecessor, the PA eHealth Collaborative, a separate fund of the Commonwealth. The purpose of the Authority is to improve healthcare delivery and healthcare outcomes in Pennsylvania by providing, as appropriate, leadership and strategic direction for public and private, federally-funded and state-funded investments in health information technology (HIT) initiatives, including electronic health information exchange (eHIE) capabilities and other related HIT initiatives.

The Authority's operations are administered by a board of directors consisting of fifteen members including the following: the Secretary of Health or a designee; the Secretary of Public Welfare, or a designee; seven members are appointed by the Governor; three members are appointed by the President pro tempore of the Senate, in consultation with the Majority and Minority Leaders of the Senate; and three members are appointed by the Speaker of the House of Representatives, in consultation with the Majority and the Minority Leaders of the House of Representatives.

The Authority is a component unit of the Commonwealth reporting entity due to the Commonwealth's ability to impose its will on the Authority. The Authority is presented as an enterprise fund on the accrual basis of accounting.

B. Measurement Focus and Basis of Accounting

The Authority follows Generally Accepted Accounting Principles (GAAP). GAAP allows specialized accounting for government entities, which is governed by pronouncements set by the Government Accounting Standards Board (GASB).

The Authority is considered a special-purpose government since it is engaged solely in business-type activities under GASB Statement No. 34. The Authority's financial statements are prepared using the economic resources measurement focus and accrual basis of accounting. Under the accrual basis of accounting revenues are recorded when earned and expenses are recorded when they have been incurred. The statements are intended to report the Authority as an economic unit that includes all measurable assets and liabilities, financial and capital, of the institution.

All activities of the Authority are accounted for within a single proprietary (enterprise) fund. A proprietary fund is used to account for operations that are (a) financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination or revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, account ability, or other purpose.

The Authority follows the Government Accounting Standards Board (GASB) Statement No. 34, Basic Financial Statements and Management's Discussion and Analysis. Within the Statements of Revenues, Expenses and Changes in Net Position, Statement No. 34 requires operating income and expenses to be separated from non-operating income in order to show net operating income. Operating income and expenses are defined as those activities directly related to the Authority's primary business of providing employment through economic development lending. Non-operating revenues and expenses consist of those revenues and expenses that are related to financing and investing types of activities and result from non-exchange transactions, such as investment income/loss.

When an expense is incurred for purposes for which both restricted and unrestricted net positions are available, the Authority's policy is to apply restricted net position first, then unrestricted net position as they are needed.

C. Net Position

Restricted Net Position—This category presents external restrictions imposed by creditors, grantors, contributors or laws and regulations of other governments and restrictions imposed by law through constitutional provisions or enabling legislation.

D. Investments

The Authority values its investments at fair value. The fair value of the Authority's investments are based upon values provided by external investment managers and quoted market prices.

E. Use of Estimates

The preparation of financial statements requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

F. Statement of Cash Flows

The Authority considers all highly liquid investments with a maturity of three months or less at the time of purchase to be cash equivalents. Cash equivalents are stated at cost, which approximates fair value.

G. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Pennsylvania State Employees' Retirement System (SERS) and additions to/deductions from SERS' fiduciary net position have been determined on the same basis as they are reported by SERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

H. Deferred Outflows/Inflows of Resources

In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to a future period(s) and so will not be recognized as an outflow of resources (expense/expenditure) until then. The Authority has deferred outflows related to pensions that qualifies for reporting in this category.

In addition to liabilities, the statement of net position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The Authority has deferred inflows related to pensions that qualifies for reporting in this category.

I. Adoption of Governmental Accounting Standards Board Statements

In June 2012, the GASB issued Statement No. 68, Accounting and Financial Reporting for Pensions—an amendment of GASB Statement No. 27. In November 2013, the GASB issued Statement No. 71, Pension Transition for Contributions Made Subsequent to the Measurement Date—an Amendment of GASB Statement No. 68. The principal objective of GASB Statement No. 68 is to improve the usefulness of information for decisions made by the various users of the general purpose external financial reports of governments whose employees, both active employees and inactive employees, are provided with pensions. The objective of GASB Statement No. 71 is to improve accounting and financial reporting by addressing an issue in Statement No. 68 concerning transition provisions related to certain pension contributions made to defined benefit pension plans prior to implementation of that Statement. The Authority adopted these statements for its fiscal year ended June 30, 2015. Net position as of July 1, 2014 was decreased by \$864,740.

The effect on beginning balances for fiscal year 2015 is as follows:

Description	June 30, 2014 as Previously Reported	Beginning Balance Restatement	July 1, 2014 as Restated
Statement of Net Position			
Deferred outflows of resources from pensions	\$ —	\$ 66,034	\$ 66,034
Net Pension Liability	—	(930,774)	(930,774)
Net position	4,024,457	(864,740)	3,159,717

See Note 3 for additional disclosures required by these statements.

In January 2013, the GASB issued Statement No. 69, Government Combinations and Disposals of Government Operations. The adoption of this statement had no effect on the previous reported amounts.

J. Pending Changes in Accounting Principles

In February 2015, the GASB issued Statement No. 72, Fair Value Measurement and Application. The Authority is required to adopt Statement No. 72 for its fiscal year 2016 financial statements.

In June 2015, the GASB issued Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68. The Authority is required to adopt Statement No. 73 for its fiscal year 2017 financial statements.

In June 2015, the GASB issued Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans. The Authority is required to adopt Statement No. 74 for its fiscal year 2017 financial statements.

In June 2015, the GASB issued Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions. The Authority is required to adopt Statement No. 75 for its fiscal year 2018 financial statements.

In June 2015, the GASB issued Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. The Authority is required to adopt Statement No. 76 for its fiscal year 2016 financial statements.

In August 2015, the GASB issued Statement No. 77, Tax Abatement Disclosures. The Authority is required to adopt Statement No. 77 for its fiscal year 2017 financial statements.

The Authority has not yet performed analysis to determine the impact of these statements.

NOTE 2: DEPOSIT AND INVESTMENT RISK

The Commonwealth's fiscal code, as amended, authorizes the Authority to invest in obligations of the U.S. government and government-sponsored agencies and instrumentalities; certificates of deposits, fully insured or collateralized; certain commercial paper and repurchase agreements; highly rated bank promissory notes or investment funds or trusts; and "prudent man" investments as determined by the Authority's depository (i.e. Commonwealth Treasury Department).

All of the Authority's investments are invested in the Common Investment Pool of the Commonwealth which is managed by the Commonwealth's Treasury Department (the Treasury Department).

The deposit and investment policies of the Treasury Department are governed by Sections: 301, 301.1 and 505 of the Pennsylvania Fiscal Code (Act of 1929 P.L. 343), and Section 321.1 of the Pennsylvania Administrative Code (Act of 1929 P.L. 177. No. 175).

Treasury deposits must be held in insured depositories approved by the Board of Finance and Revenue and must be fully collateralized. The Fiscal Code grants the Treasury Department the authority to invest in any deposits and investments subject. This authority is subject, however, to the exercise of that degree of judgment and care under the circumstances then prevailing which persons of prudence, discretion and intelligence who are familiar with such matters exercise in the management of their own affairs not in regard to speculation but in regard to the permanent disposition of the funds considering the probable income to be derived therefrom as well as the probable safety of their capital. Treasury Department deposits and investments may include equity securities and mutual funds.

As of June 30, 2015, the Treasury Department manages the Commonwealth Investment Program (CIP). Treasury is required to exercise careful judgment in determining those investments that are appropriate for each Commonwealth fund based upon distinct investment criteria such as income needs, cash flow requirements, investment time horizons, and risk tolerance. All investments are made in accordance with the statutory authority described in the preceding paragraph. The CIP investment pool structure invests in both equity securities and fixed income securities to achieve the investment objectives of the funds of the Commonwealth Investment Program. Asset allocation targets among cash, equity securities, fixed income securities and alternative are established in order to meet these overall objectives.

Treasury has created two separate Pools within the Commonwealth Investment Program, each with its own distinct investment strategies, goals, and holdings that reflect the differing needs of Commonwealth funds for income, cash flows, and investment risk tolerance. A highly liquid vehicle, Pool 99, consists of short-term fixed income and cash and provides a high degree of liquidity and security but only modest returns. A less liquid vehicle, Pool 198, allows for investment in assets that offer potentially higher returns with commensurate risk.

As of June 30, 2015, the Authority's investments held in the Commonwealth Investment Pool was \$3,893,086.

NOTE 3: RETIREMENT BENEFITS

General Information about the Pension Plan*Plan Description*

All employees of the Authority participate in the Pennsylvania State Employees' Retirement System (SERS), a cost-sharing multiple-employer defined benefit pension plan established by the Commonwealth to provide pension benefits for employees of state government and certain independent agencies. Membership in SERS is mandatory for Authority (and other state) employees. Article II of the Commonwealth's constitution assigns the authority to establish and amend the benefit provision of the plan to the General Assembly. SERS issues a publicly available financial report that can be obtained at www.sers.pa.gov.

Benefits Provided

SERS provides retirement, death, and disability benefits. Member retirement benefits are determined by taking years of credited service, multiplied by final average salary, multiplied by 2%, multiplied by class of service multiplier. Authority employees participate in one of the following class of service categories: Class A, Class AA, Class A-3 or Class A-4. According to the State Employees' Retirement Code (SERC), all obligations of SERS will be assumed by the Commonwealth should SERS terminate.

Contributions

Section 5507 of the SERC (71 Pa.C.S. § 5507) requires the Commonwealth and other employers whose employees are SERS members to make contributions to the fund on behalf of all active members and annuitants necessary to fund the liabilities and provide the annuity reserves required to pay benefits. SERS funding policy, as set by the board, provides for periodic active member contributions at statutory rates. The SERS funding policy also provides for periodic employer contributions at actuarially determined rates based on SERS funding valuation, expressed as a percentage of annual retirement covered payroll, such that they, along with employee contributions and an actuarially determined rate of investment return, are adequate to accumulate assets to pay benefits when due. However, Act 2010-120 imposes rate increase collars (limits on annual rate increases) on employer contributions. The collar for Commonwealth fiscal year 13/14 was 4.5% and will remain at that rate until no longer needed. The Authority's retirement contribution, as a percentage of covered payroll, by class is as follows:

Year Ended June 30	Class A	Class AA	Class A-3	Class A-4
2015	15.94%	19.92%	13.77%	13.77%
2014	12.10%	15.12%	10.46%	10.46%
2013	8.43%	10.51%	7.29%	7.29%

Contributions to the pension plan from the Authority were \$180,543 for the fiscal year ended June 30, 2015.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At June 30, 2015, the Authority reported a liability of \$2,267,052 for its proportionate share of the net pension liability. The net pension liability was measured as of December 31, 2014, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contributions to the pension plan relative to the projected contributions of all participating agencies, actuarially determined. At December 31, 2014, the Authority's proportion was 0.015%, which was an increase of .009% from its proportion measured as of December 31, 2013.

For the fiscal year ended June 30, 2015, the Authority recognized pension expense of \$1,366,278. At June 30, 2015, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences between expected and actual experience	\$ 12,307	\$ —
Net difference between projected and actual investment earnings on pension plan investments	65,502	—
Changes of assumptions	—	—
Differences between employer contributions and proportionate share of contributions	—	23,695
Changes in proportion	947,998	—
Authority contributions subsequent to measurement date	40,998	—
	<u>\$ 1,066,805</u>	<u>\$ 23,695</u>

\$40,998 reported as deferred outflows of resources related to pensions resulting from Authority contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended June 30, 2016. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended June 30:

2016	\$ 219,987
2017	219,987
2018	219,987
2019	219,987
2020	122,164
Thereafter	—

Actuarial assumptions

The following methods and assumptions were used in the December 31, 2014 and 2013 actuarial valuations. These methods and assumptions were applied to all periods included in the measurement:

Investment rate of return	7.50% net of expenses including inflation
Projected salary increases	average of 6.10% with range of 4.3%—11.05% including inflation
Inflation	2.75%
Mortality rate	projected RP-2000 Mortality Tables adjusted for actual plan experience and future improvement
Cost of living adjustments (COLA)	ad hoc and thus are not considered to be substantively automatic

Some of the methods and assumptions mentioned above are based on the *17th Investigation of Actuarial Experience*, which was published in January 2011, and analyzed experience from 2006 through 2010. The Commonwealth's actuary made recommendations with respect to the actuarial assumptions and methods based on their analysis.

The long-term expected real rate of return on pension plan investments is determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class included in the pension plan's target asset allocation as of December 31, 2014 are summarized in the following table:

Asset Class	Target Allocation	Long-term Expected Rate of Return
Alternative Investments	15.00%	8.50%
Global Public Equity	40.00%	5.40%
Real Assets	17.00%	4.95%
Diversifying Assets	10.00%	5.00%
Fixed Income	15.00%	1.50%
Liquidity Reserve	3.00%	0.00%
Total	<u>100.00%</u>	

Discount Rate

The discount rate used to measure the total pension liability was 7.50%. The projection of cash flows used to determine the discount rate assumed that employee contributions will be made at the rates applicable for each member and that employer contributions will be made based on rates determined by the actuary. Based on the assumptions, SERS fiduciary net position was projected to be available to make all projected future benefit payments of current active and non-active SERS members. Therefore, the long-term expected rate of return on SERS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Authority's proportionate share of the net pension liability to change in the discount rate

The following presents the Authority's proportionate share of the 2014 and 2013 net pension liability calculated using the discount rate of 7.50%, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is one percentage point lower or one percentage point higher than the current rate:

	1% Decrease 6.50%	Current discount rate 7.50%	1% Increase 8.50%

NOTE 4: POSTEMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The Commonwealth of Pennsylvania (the "Commonwealth") sponsors the Retired Employees' Health Program (REHP). We participate in the Commonwealth's REHP, a single-employer defined benefit postemployment healthcare plan administered by the Pennsylvania Employees' Benefit Trust Fund (PEBTF), acting as a third-party administrator on behalf of the Commonwealth's Office of Administration. The REHP provides health care and prescription drug plan benefits to eligible Commonwealth retirees, and their eligible dependents. The REHP's benefit provisions are established and may be amended by the Commonwealth of Pennsylvania's Office of Administration.

While the Commonwealth accounts for the REHP as a single employer plan, we account for our participation in the plan as a cost-sharing employer, because the plan is administered like a cost-sharing plan with a single actuarial valuation and the Commonwealth allocates annual OPEB costs to Commonwealth funds and component units, consistent with a pooling arrangement. Additionally, the Commonwealth structured the REHP so that employer contributions are irrevocable, plan assets are dedicated to providing benefits to retirees and their beneficiaries in accordance with the terms of the plan, and plan assets are legally protected from creditors of the employer(s) or plan administrator.

The REHP does not issue stand-alone financial statements, however the REHP note disclosures will be included in the Commonwealth's CAFR for the year ended June 30, 2015. For additional information on the REHP including the Commonwealth's total Other Post Employment Benefit (OPEB) expenses, funded status, funding progress, actuarial accrued liability, and the actuarial assumptions used to determine these amounts for the Commonwealth's REHP, a complete actuarial report is available for review at www.budget.state.pa.us (select Financial Reports and under the heading "Special Reports" select "Actuarial Valuation of the Commonwealth's Post-Retirement Medical Plan (August 2015)).

Funding Policy

The Office of Administration and the Governor's Budget Office establish REHP contribution requirements. All employing agencies and certain plan members of the Commonwealth must contribute specified amounts to the REHP.

REHP plan members with a retirement date between July 1, 2005 and June 30, 2007, must contribute 1.0% of their final annual gross salary toward the cost of the REHP coverage. REHP plan members with a retirement date on or after July 1, 2007 but before July 1, 2011 are required to pay retiree contributions of 3.0% of either their final annual gross salary or final average salary, whichever is less. REHP plan members with a retirement date on or after July 1, 2011 are required to pay retiree contributions of 3.0% of their final average salary.

Upon enrollment in Medicare, Commonwealth employees who are currently paying 3.0% will pay retiree contributions of 1.5% of either their final annual gross salary or final average salary, whichever applies.

Surviving spouses and dependents of deceased retirees may continue to participate in the plan if they pay contributions at a rate designed to fund the full cost of the coverage.

For the year ended June 30, 2015, our annual contribution rate was \$83,166, and we have made the required contribution to the REHP as determined by the Office of Administration.

The monthly contribution rate was based on a projected retiree cost for the related fiscal year times the number of current, active REHP eligible employees. Effective July 1, 2015, our contribution rate will be approximately \$9,126 per month or \$109,516 annually. This current level of funding generally represents an amount needed to fund ongoing annuitant health care costs for the current year with a small portion representing advance funding.

The Statements of Funded Status and Funding Progress are disclosed in the Commonwealth's CAFR, Pension and Other Postretirement Benefits footnote for the year ended June 30, 2015. The June 30, 2015, Commonwealth's CAFR can be accessed online at www.budget.state.pa.us, select "Financial Reports" and select "Comprehensive Annual Financial Reports".

NOTE 5: RELATED PARTY

The Authority entered into an Interagency Agreement with the Commonwealth, through the Commonwealth Office of Administration to provide administrative and operational support services for the Authority. The Authority owns no capital assets; the employees performing service for the Authority are Commonwealth employees. As such, under the Interagency Agreement, the Authority reimburses the Commonwealth for services rendered by Commonwealth employees to the Authority. For the fiscal year ended June 30, 2015, the services provided by the Commonwealth to the Authority are recorded as Personnel Services totaled \$1,747,227. As of June 30, 2015, the Authority owed the Commonwealth \$12,106 for personnel and operating expenditures incurred and paid for by the Commonwealth.

NOTE 6: CONTINGENCIES

Litigation

In the normal course of business, there may be various claims and suits pending against the Authority and its appointed officials. Management is of the opinion that these matters, if any, will not have a material adverse effect on the Authority's financial position at June 30, 2015.

Economic Dependency

The program operations of the Authority are funded through multiple grant funding streams. For fiscal year ending June 30, 2015, the Authority received \$506,248 in grant funding. The Authority also receives a significant amount of operating revenue from contributions. For fiscal year ending June 30, 2015, the Authority received \$236,217 in contributions from outside entities. The administrative operations of the Authority are primarily funded through Commonwealth budget appropriations (see Note 8). Reduction of, or loss of, these funding sources could have a significant effect on the Authority's overall operations.

NOTE 7: PROGRAM OPERATIONS

The program operation expenses consist of the following:

Other Authority Program Operations	\$ 503,677
P3N Costs	921,740
Staff Augmentation	<u>349,087</u>
	<u>\$ 1,774,504</u>

NOTE 8: COMMONWEALTH APPROPRIATION

For fiscal year 2014-2015, the Commonwealth of Pennsylvania approved a \$1.85 million appropriation from the Commonwealth to the PA eHealth Partnership Authority, which is reflected in the Commonwealth contribution line on the financial statements.
