READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

Title 4—ADMINISTRATION

PART I. GOVERNOR'S OFFICE

[4 PA. CODE CHS. 5 AND 7a]

[EXECUTIVE ORDER NO. 2015-12]

Coordination of Food and Nutrition Programs; Appointment of the Advisor to the Governor on Food and Nutrition Programs and the Governor's Food Security Partnership

September 29, 2015

Whereas, hunger and inadequate nutrition remain serious problems in the Commonwealth of Pennsylvania, with too many of our citizens unable to access food for themselves or their families; and

Whereas, infant mortality, health problems associated with aging, the ability of children to learn in school, and the job readiness of workers are directly related to proper nutrition; and

Whereas, proper nutrition plays a significant role in reducing infant mortality, with programs such as the Special Supplement Food Program for Women, Infants and Children (WIC) having a demonstrated effect on reducing the incidence of low birth weight, the primary cause of infant deaths; and

Whereas, studies have shown that 15.9 percent of Pennsylvania households experienced low or very low food security from 2012 through 2014; and

Whereas, Pennsylvania administers state and federal funds for food programs serving the elderly, families, pregnant women, infants and children, and other individuals in need; and

Whereas, through the coordination of the substantial and varied resources available to the public sector in conjunction with creative efforts in the private sector, Pennsylvania will ensure access to needed food and improve the nutrition of all Pennsylvanians.

Now, Therefore, I, Tom Wolf, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws, do hereby direct that all food and nutrition programs funded and administered by the Commonwealth be fully coordinated to assure that such programs achieve maximum effectiveness. To achieve such coordination, I do hereby direct the following.

Governor

ARTICLE I. PRELIMINARY PROVISIONS

CHAPTER 1. GENERAL PROVISIONS

DOCUMENTS GENERALLY

(Editor's Note: The following rule is new and printed in regular type to enhance readability.)

Rule 126. Citations of Authorities.

A party citing authority that is not readily available shall attach the authority as an appendix to its filing. When citing authority, a party should direct the court's attention to the specific part of the authority on which the party relies.

Official Note: Pa.R.A.P. 126 is intended to ensure that cited authority is readily available to the court and parties. This rule is not intended to supersede any internal operating procedure of an appellate court regarding the citation to memorandum decisions or unreported opinions. *See, e.g.,* Superior Court Internal Operating Procedure § 37, 210 Pa. Code § 65.37; Pa.R.A.P. 3716 and Commonwealth Court Internal Operating Procedure § 414, 210 Pa. Code § 69.414.

The second sentence of the rule encourages parties to provide pinpoint citations for cases and section or subsection citations for statutes or rules.

Although the rule does not establish rules for citation, the following guidelines regarding the citation of Pennsylvania cases and statutes are offered for parties' benefit:

Regarding cases, the rule does not require parallel citation to the National Reporter System and the official reports of the Pennsylvania appellate courts. Parties may cite to the National Reporter System alone.

Regarding statutes, Pennsylvania has officially consolidated only some of its statutes. Parties citing a statute enacted in the Pennsylvania Consolidated Statutes may use the format "1 Pa.C.S. § 1928." Parties citing an unconsolidated statute may refer to the Pamphlet Laws or other official collection of the Legislative Reference Bureau, with a parallel citation to *Purdon's Pennsylvania Statutes Annotated*, if available, using the format, "Act of February 14, 2008, P. L. 6, 65 P. S. §§ 67.101—67.3104" or "Section 3(a) of the Act of May 16, 1923, P. L. 207, *as amended*, 53 P. S. § 7106(a)." Parties are advised that *Purdon's* does not represent an official version of Pennsylvania statutes. *In re Appeal of Tenet HealthSystems Bucks Cnty., LLC*, 880 A.2d 721, 725-26 (Pa. Cmwlth. 2005), *appeal denied*, 897 A.2d 1185 (Pa. 2006).

Prior to Pa.R.A.P. 126, the format for citation was discussed only in Pa.R.A.P. 2119(b), a rule applicable to briefs. The format guidelines above are not mandatory, and a party does not waive an argument merely by failing to follow the format. The guidelines above do, however, provide assistance to parties looking for generally acceptable citation format in Pennsylvania.

CHAPTER 21. BRIEFS AND REPRODUCED RECORD

CONTENT OF BRIEFS

Rule 2119. Argument.

(a) *General rule.*—The argument shall be divided into as many parts as there are questions to be argued; and shall have at the head of each part—in distinctive type or in type distinctively displayed—the particular point treated therein, followed by such discussion and citation of authorities as are deemed pertinent.

(b) *Citations of authorities.*—Citations of authorities [**must set forth the principle for which they are cited**] in briefs shall be in accordance with Pa.R.A.P. 126 governing citations of authorities. [**Citations of uncodified statutes shall make reference to the book and page of the Laws of Pennsylvania (Pamphlet Laws) or other official edition, and also to a standard digest, where the statutes may be found. Citations of provisions of the Pennsylvania Consolidated Statutes may be in the form: "1 Pa.C.S. § 1928 (rule of strict and liberal construction)" and the official codifications of other jurisdictions may be cited similarly. Quotations from authorities or statutes shall also set forth the pages from which they are taken. Opinions of an appellate court of this or another jurisdiction shall be cited from the National Reporter System, if published therein.**]

(c) *Reference to record.*—If reference is made to the pleadings, evidence, charge, opinion or order, or any other matter appearing in the record, the argument must set forth, in immediate connection therewith, or in a footnote thereto, a reference to the place in the record where the matter referred to appears [**(see Rule 2132 (references in briefs to the record))**] (*see* Pa.R.A.P. 2132).

(d) *Synopsis of evidence.*—When the finding of, or the refusal to find, a fact is argued, the argument must

contain a synopsis of all the evidence on the point, with a reference to the place in the record where the evidence may be found.

(e) *Statement of place of raising or preservation of issues.*—Where under the applicable law an issue is not reviewable on appeal unless raised or preserved below, the argument must set forth, in immediate connection therewith or in a footnote thereto, either a specific [**cross reference**] **cross-reference** to the page or pages of the statement of the case which set forth the information relating thereto [**required pursuant to Rule 2117(c) (statement of place of raising or preservation of issues)**] **as required by Pa.R.A.P. 2117(c)**, or substantially the same information.

(f) *Discretionary aspects of sentence.*—An appellant who challenges the discretionary aspects of a sentence in a criminal matter shall set forth in a separate section of the brief a concise statement of the reasons relied upon for allowance of appeal with respect to the discretionary aspects of a sentence. The statement shall immediately precede the argument on the merits with respect to the discretionary aspects of the sentence.

Official Note: [**The 2014 amendment to paragraph (b) eliminated the requirement for parallel citation to the Pennsylvania State Reports, which is the official court reports of the Pennsylvania Supreme Court, the Pennsylvania Superior Court Reports, which had been the official court reports of the Pennsylvania Superior Court, and the Pennsylvania Commonwealth Court Reports, which had been the official court reports of the Commonwealth Court.**]

Where a challenge is raised to the appropriateness of the discretionary aspects of a sentence, the “petition for allowance of appeal” specified in 42 Pa.C.S. § 9781(b) is deferred until the briefing stage, and the appeal is commenced by filing a notice of appeal pursuant to Chapter 9 rather than a petition for allowance of appeal pursuant to Chapter 11.

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.16-4. Support Guidelines. Calculation of Support Obligation, Formula.

* * * * *

(d) *Divided or Split Physical Custody. When Each Party [Has Primary Custody of One or More of the Children] Owes Child Support to the Other Party. Varied Partial or Shared Custodial Schedules.*

(1) *Divided or Split Physical Custody. When Each Party [Has Primary Custody of One or More of the Children] Owes Child Support to the Other Party.* When calculating a child support obligation, and [**one or more of the children reside primarily with**] each party owes child support to the other party as a result of the custodial arrangement, the court shall offset the parties' respective child support obligations and award the net difference to the obligee as child support. [**For example, if**]

Example 1. If the parties have three children, one [**of whom resides with Father and two of whom reside with Mother**] child resides with the higher income party and two children reside with the lower income party, and their net monthly incomes are \$2,500 and \$1,250 respectively, [**Father's**] the higher income party's child support obligation is calculated as follows. Using the schedule in [**Rule**] Pa.R.C.P. No. 1910.16-3 for two children at the parties' combined net monthly income of \$3,750, the amount of basic child support to be apportioned between the parties is \$1,200. As [**Father's**] the higher income party's income is 67% of the parties' combined net monthly income, [**Father's**] the higher income party's support obligation for the

two children living with [Mother] the lower income party is \$804. The lower income party's child support obligation is calculated as follows. Using the schedule in [Rule] Pa.R.C.P. No. 1910.16-3 for one child, [Mother's] the lower income party's support obligation for the child living with [Father] the higher income party is \$276. Subtracting \$276 from \$804 produces a net basic support amount of \$528 payable to [Mother] the lower income party as child support.

Example 2. If the parties have two children, one child resides with the higher income party and the parties share custody (50% - 50%) of the other child, and the parties' net monthly incomes are as set forth in Example 1, the child support obligation is calculated as follows. Using the schedule in Pa.R.C.P. No. 1910.16-3 for the one child primarily residing with higher income party at the parties' combined net monthly income of \$3,750, the amount of basic child support to be apportioned between the parties is \$836. The lower income party's income is 33% of the parties' combined net monthly income, and the support obligation for the child living with the higher income party is \$276. For the higher income party's obligation for the child with the 50% - 50% shared custody arrangement, using the schedule in Pa.R.C.P. No. 1910.16-3 for one child at the parties' combined net monthly income of \$3,750, the amount of basic child support to be apportioned between the parties is \$836. The higher income party's proportionate share of the combined net incomes is 67%, but is reduced to 47% after applying the shared parenting time adjustment for 50% custody under Pa.R.C.P. No. 1910.16-4(c). The higher income party's child support obligation for the shared custody child is \$393 ($\$836 \times 47\%$). As the higher income party's obligation is greater than the lower income party's obligation, the lower income party is the obligee and receives the net of the two obligations by subtracting \$276 from \$393, or \$117.

When calculating a combined child support and spousal or alimony *pendente lite* obligation, and one or more children reside with each party, the court shall offset the obligor's spousal and child support obligation with the obligee's child support obligation and award the net difference to the obligee as spousal and child support. When one or more of the children resides with each party then, in calculating the spousal support or alimony *pendente lite* obligation, the court shall deduct from the obligor's income both the support owed for the child or children residing with the obligee, as well as the direct support the obligor provides to the child or children living with the obligor, calculated in accordance with the guidelines as if the child or children were not living with the obligor.

[(2) **Varied Custodial Schedules.** When the parties have more than one child and each child spends different amounts of partial or shared custodial time with the obligor, the trier of fact shall add the percentage of time each child spends with the obligor and divide by the number of children to determine the obligor's percentage of custodial time. If the average percentage of time the children spend with the obligor is 40% or more, the provisions of subdivision (c) above apply.]

(2) **Varied Partial or Shared Custodial Schedules.** When the parties have more than one child and each child spends:

(a) different amounts of partial or shared custodial time with the higher income party; or

(b) different amounts of partial custodial time with the lower income party

the trier of fact shall add the percentage of time each child spends with that party and divide by the number of children to determine the party's percentage of custodial time. If the average percentage of custodial time the children spend with the party is 40% or more, the provisions of subdivision (c) apply.

Example 1. The parties have two children and one child spends 50% of the time with the [obligor and another] higher income party and the other child spends 20% of the time with the [obligor] higher income party. Add those percentages together and divide by the number of children (50% plus 20% = 70% divided by 2 children = 35% average of the time with the [obligor] higher income party). Pursuant to subdivision (c), the [obligor] higher income party does not receive a reduction in the support order for substantial parenting time.

Example 2. The parties have three children. Two children spend 50% of the time with the [obligor and] higher income party and the third child spends 30% of the time with the [obligor] higher income party. Add the percentages of custodial time for all three children together and divide by the number of children (50% plus 50% plus 30% = 130% divided by three children = 43.33% average percentage of time with the [obligor] higher income party). Pursuant to subdivision (c), the [obligor] higher income party receives a reduction in the support order for substantial parenting time.

Example 3. The parties have three children, the higher income party has primary custody (60% - 40%) of one child, the lower income party has primary custody (60% - 40%) of one child, and the parties share custody (50% - 50%) of the third child. The parties net monthly incomes are \$2,500 and \$1,250. As a result of the custodial arrangement, the lower income party owes support for the child in the primary custody of the higher income party and the higher income party owes support for the child in the primary custody of the lower income party and for the child shared equally between the parties. The lower income party's child support obligation is calculated as follows. Using the schedule in Pa.R.C.P. No. 1910.16-3 for one child at the parties' combined net monthly income of \$3,750, the amount of basic child support to be apportioned between the parties is \$836. The lower income party's proportionate share of the combined net incomes is 33%, but is reduced to 23% after applying the shared parenting time adjustment for 40% custody under Pa.R.C.P. No. 1910.16-4(c). The lower income party's child support obligation for this child is \$192 ($\$836 \times 23\%$). The higher income party's child support obligation is calculated as follows. Using the schedule in Pa.R.C.P. No. 1910.16-3 for two children at the parties' combined net monthly income of \$3,750, the amount of basic child support to be apportioned between the par-

ties is \$1,200. The higher income party has varying partial or shared custody of the two children (40% and 50%). Under subdivision (d)(2), the custodial time is averaged or in this case 45%. The higher income party's proportionate share of the combined net incomes is 67%, but is reduced to 52% after applying the shared parenting time adjustment for 45% custody under Pa.R.C.P. No. 1910.16-4(c). The higher income party's child support obligation for these children is \$624 (\$1,200 x 52%). Offsetting the support amounts consistent with subdivision (d)(1), the higher income party's obligation is greater than the lower income party's obligation, and the lower income party is the obligee receiving the net of the two obligations by subtracting \$192 from \$624, or \$432.

Official Note: In cases with more than one child and varied partial or shared custodial schedules, it is not appropriate to perform a separate calculation for each child and offset support amounts as that method does not consider the incremental increases in support for more than one child built into the schedule of basic child support.

In some of the examples, the terms "higher income party" and "lower income party" are used rather than the more usual "obligor" and "obligee." In circumstances similar to the examples, it is often not immediately apparent which party will be the "obligor" or the "obligee" until after completing the calculation.

(e) *Support Obligations When Custodial Parent Owes Spousal Support.* Where children are residing with the spouse obligated to pay spousal support or alimony *pendente lite* (custodial parent) and the other spouse (non-custodial parent) has a legal obligation to support the children, the guideline amount of spousal support or alimony *pendente lite* shall be determined by offsetting the non-custodial parent's obligation for support of the children and the custodial parent's obligation of spousal support or alimony *pendente lite*, and awarding the net difference either to the non-custodial parent as spousal support/alimony *pendente lite* or to the custodial parent as child support as the circumstances warrant.

PUBLICATION REPORT

The Committee is proposing an amendment to Pa.R.C.P. No. 1910.16-4(d), *Divided or Split Physical Custody. When Each Party Has Primary Custody of One or More of the Children.* The Committee received input from several county Domestic Relations Hearing Officers and members of the bar that the current rule is confusing and is not clear in some cases involving multiple children with divided or split custody.

Currently, Pa.R.C.P. No. 1910.16-4(d), in relevant part, states:

(d) *Divided or Split Physical Custody. When Each Party Has Primary Custody of One or More of the Children. Varied Custodial Schedules.*

(1) *Divided or Split Physical Custody. When Each Party Has Primary Custody of One or More of the Children.* When calculating a child support obligation, and one or more of the children reside primarily with each party, the court shall offset the parties' respective child support obligations and award the net difference to the obligee as child support.

* * * * *

(2) *Varied Custodial Schedules.* When the parties have more than one child and each child spends different amounts of partial or shared custodial time with the obligor, the trier of fact shall add the percentage of time each child spends with the obligor and divide by the number of children to determine the obligor's percentage of custodial time. If the average percentage of time the children spend with the obligor is 40% or more, the provisions of subdivision (c) above apply.

From the language of this rule, it is clear that when both parties have primary custody of one child, subdivision (d)(1) applies and the parties' support obligations to each other are offset with the higher income party as the obligor. Additionally, subdivision (d)(2) of the rule is applicable in determining if a shared parenting time adjustment should be applied when an obligor has partial or shared custody of at least two children.

However, the scenario not clearly addressed by the rule is the situation involving multiple children with the higher income party having primary custody of at least one child and the parties equally sharing custody of at least one child. As subdivision (d)(1) requires that both parties have primary custody of at least one child, the current subdivision (d)(1) is inapplicable to these facts. Likewise, this scenario would not fall under subdivision (d)(2) as this subdivision is only applicable in determining the shared parenting time adjustment when an obligor has shared or partial custody of at least two children.

Under current subdivision (d)(1) of the rule, if the parties have primary custody of at least one child, each party has a duty of support to the other party and the support obligations are offset. The net difference of the two obligations would be paid to the party with the lower initial support obligation. With that said, the logical conclusion is that the primary custody and shared custody scenario best fits under subdivision (d)(1) as, typically, the higher income party would owe support to the lower income party for the equally shared child,¹ and the lower income party would owe support for the child primarily in the custody of the higher income party.²

The Committee proposes amending subdivision (d)(1) clarifying the applicability of the subdivision to cases involving multiple children when both parties would owe child support to the other party based on the custodial arrangement. The obligee would be determined after offsetting the support obligations and any net difference between the two obligations would be paid to the obligee. To further illustrate this scenario, an example of the application of the rule to these facts has been added following subdivision (d)(1).

Consequently, the Committee proposes amending subdivision (d)(2) clarifying the circumstances in which this subdivision is applicable in light of the proposed amendment to subdivision (d)(1) and modifying the heading to further illustrate the applicability of the subdivision. And, a third example has been added after subdivision (d)(2) with a factual scenario illustrating the interplay between subdivisions (d)(1) and (d)(2).

¹ As set forth in Pa.R.C.P. No. 1910.3(b)(2) and Pa.R.C.P. No. 1910.16-4(c)(2), the lower income party cannot be an obligor in a support case when a child spends equal time with both parties.

² This scenario is the typical case unless the trier-of-fact determines that *Colonna v. Colonna*, 855 A.2d 648 (Pa. 2004) applies to the facts of the case. If the trier-of-fact determines *Colonna* to be applicable to the case, then Pa.R.C.P. No. 1910.16-4(d) would not be applicable as the lower income party would not owe child support for the child in the primary custody of the higher income party; however, the higher income party would continue to owe support to the lower income party for the shared custody child and any other additional support the trier-of-fact determines appropriate under *Colonna* for the other child.

The Committee considered other methods of calculating support for multiple children with varying custody schedules, including averaging the custody time of all the children. The obligee would be the party with the higher amount of average custodial time with the children. However, the Committee believed this method led to unfavorable results when it considered various custodial arrangements. For example, the parties have three children with one child with the higher income party 100% of the time and the other two children 50% custody with each party would result in the average custodial time of 67% for the higher income party, who would be the obligee. The lower income party would pay support without any reduction due to substantial custody despite having two children 50% of the time. The Committee believed this to be unfair and inequitable, instead, preferred the method set forth in the proposed amendment.

Finally, the rule recommendation reflects a decision by the Committee to use gender neutral terms in the rules. In the future, as rules are amended or added, gender neutral terms will be substituted for specific gender terms (e.g. mother, father, husband, wife). With that policy determination in mind, in certain factual circumstances relevant to Pa.R.C.P. No. 1910.16-4(d), identifying the party who is the obligee or obligor is not readily apparent until completion of the entire calculation. An amended Note provides the rationale for the use of the terms "higher income party" and "lower income party" rather than the more frequently used terms "obligor" and "obligee."

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1920. ACTIONS OF DIVORCE OR FOR ANNULMENT OF MARRIAGE

Rule 1920.33. Joinder of Related Claims. [**Distribution of Property.**] **Equitable Division.** Enforcement.

(a) [**Each party shall file an inventory specifically describing all property owned or possessed at the date of separation.**] If a pleading or petition raises a claim for equitable division of marital property under Section 3502 of the Divorce Code, the parties shall file and serve on the other party an inventory, which shall include the information in subdivisions (1) through (3) and shall be substantially in the form set forth in Pa.R.C.P. No. 1920.75. Within 20 days of service of the moving party's inventory, the non-moving party shall file an inventory. A party may not file a motion for the appointment of a master or a request for court action regarding equitable [**distribution**] **division** until at least 30 days following the filing of that party's inventory. [**The other party shall file the inventory within 20 days of service of the moving party's inventory.**

The inventory shall set forth as of the date of separation:

(1) [**a specific description of all marital property in which either or both have a legal or equitable interest individually or with any other person and the name of such other person and all marital liabilities;**] a specific description of the marital assets, which either or both parties have a legal or equitable interest, individually or jointly with another person, the name of the co-owners, if applicable, and the marital liabilities, which either party incurred individually or jointly with another person, and the name of any co-debtors, if applicable;

An inventory may be incomplete [**where the party filing it does not know of all of the property**] if a party lacks a comprehensive knowledge of the assets and liabilities involved in the claim for equitable [**distribution**] **division**. Consequently, the rule does not contemplate that a party will

be precluded from presenting testimony or offering evidence as to **[property] assets or liabilities** omitted from the inventory. The omission may be **[supplied by] remedied by inclusion of the omitted information in** the pre-trial statement required by subdivision (b).

(b) Within the time required by order of court or written directive of the master or, if none, at least **[sixty] 60** days before the scheduled hearing on the claim for **[the determination and distribution of property, each party] equitable division, the parties** shall file and serve upon the other party a pre-trial statement. The pre-trial statement shall include the following matters, together with any additional information required by special order of the court:

A report of each expert witness listed shall be attached to the pre-trial statement. The report shall describe the **[witness's] expert's** qualifications and experience **[and]**, state the substance of the facts and opinions to which the expert is expected to testify and **[a summary of] summarize** the grounds for each opinion;

(4) **[a list of all of the exhibits which the party expects to offer in evidence, each containing an identifying mark. Any exhibits that do not exceed three pages shall be attached to the pre-trial statement, and any exhibits which exceed three pages shall be described;] a list of exhibits that the party expects to offer in evidence. Exhibits not exceeding three pages shall be attached to the pre-trial state-**

ment and shall have an identifying exhibit number affixed to or incorporated into the document, and exhibits exceeding three pages shall be described specifically and shall have an exhibit number in its description;

(ii) The non-marital liabilities:

- a. amount of the liability;
- b. date of the valuation; and
- c. the facts and documentation upon which the party relies to support the valuation.

[(11)] (10) a proposed resolution of the economic issues **raised in the pleadings**.

(c) If a party fails to file either an inventory, as required by subdivision (a), or a pre-trial statement, as required by subdivision (b), the court may make an appropriate order under **[Rule] Pa.R.C.P. No. 4019(c)** governing sanctions.

(d)(1) **[A] Except upon good cause shown, a party who fails to comply with a requirement of subdivision (b) [of this rule shall, except upon good cause shown,]**

shall be barred from offering [**any**] testimony or introducing [**any**] evidence in support of or in opposition to claims for the matters [**not covered therein**] omitted.

(2) [**A party shall, except upon good cause shown,**] **Except upon good cause shown, a party shall** be barred from offering [**any**] testimony or introducing [**any**] evidence that is inconsistent with or [**which**] goes beyond the fair scope of the information set forth in the pre-trial statement.

(e) An order [**distributing property under**] **entered by the court pursuant to** Section 3502 of the Divorce Code may be enforced as provided by the rules governing actions for support and divorce[,] and in the Divorce Code.

Explanatory Comment—1994

23 Pa.C.S. § 3105(a) states that an agreement is enforceable by any means available pursuant to the Divorce Code for enforcement on an order, as though the agreement were an order of court, except as otherwise provided in the agreement. Thus, although Rule 1920.33 refers only to enforcement of orders, it also applies to enforcement of agreements.

PUBLICATION REPORT

The Committee is proposing an amendment of Pa.R.C.P. No. 1920.33. After a recent amendment to the rule, which eliminated the time frame to file an inventory in divorce cases raising equitable division of marital property, it was reported to the Committee that the current reading of the rule requires the parties to file an inventory in every divorce case regardless of whether equitable division had been raised in the pleadings. This result was an unintended consequence of the previous amendment.

As has been the case prior to the last amendment, the proposed language clarifies the rule to only require the filing of an inventory in divorce cases when a claim for equitable division has been raised in the pleadings by the parties. The language revision only conforms the rule, in part, to the past practice.

Other changes to the rule include revisions for easier readability, format changes, and deleting redundancy. Subdivision (b)(7) has been eliminated from the list of items included in pre-trial statements. The subdivision set forth a requirement of identifying the parties' pension and retirement benefits in the pre-trial statement as a separate item. Although the line item has been eliminated from the enumerated list, pensions and retirement benefits are assets and, as such, should be included under subdivision (b)(1).

(b) Discovery shall be available without leave of court in accordance with [**R.C.P.**] Pa.R.C.P. No. 4001 et seq. in alimony, equitable distribution, counsel fee and expense, and complex support proceedings.

PUBLICATION REPORT

The Committee is proposing the amendments of Pa.R.C.P. Nos. 1930.2, 1930.4, and 1930.5. Due to the enactment of 42 Pa.C.S. §§ 62A01—62A20, providing for

the protection of victims of sexual violence and intimidation, and the Supreme Court adopting Chapter 1950 of the Pennsylvania Rules of Civil Procedure, ancillary rules dealing with post-trial relief, service of process, and discovery in Domestic Relations matters in the 1930 series of rules required amendment to incorporate the new legislation and rules into the existing rules. In addition, format, grammar, and stylistic changes were made to clarify the rules, provide for easier readability and ensure the rules were unambiguous.

(a) Saigon 5 Card shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Saigon 5 Card table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

If the payout limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each Saigon 5 Card table.

(c) Each Saigon 5 Card table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of

the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Saigon 5 Card table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 680a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Saigon 5 Card shall be played with one deck of cards that are identical in appearance and one cover card. The deck of cards used to play Saigon 5 Card must include one joker. A certificate holder may use decks that are manufactured with two jokers provided that only one joker is used for the play of the game.

(b) If an automated card shuffling device is utilized, Saigon 5 Card may be played with two decks of cards in accordance with the following requirements:

- (1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.
- (2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.
- (3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.
- (4) The cards from only one deck are placed in the discard rack at any given time.
- (c) The decks of cards used in Saigon 5 Card shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 680a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 680a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and preshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 680a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were preshuffled in accordance with

§ 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a flooperperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 680a.8, § 680a.9 or § 680a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a flooperperson or above may require the cards to be recut if the flooperperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Saigon 5 Card table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures in § 680a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

§ 680a.6. Saigon 5 Card rankings.

(a) The value of the cards in each deck shall be as follows:

(1) Any card from 2 to 9 shall have its face value.

(2) Any 10, jack, queen or king shall have a value of 10.

(3) Any ace shall have a value of 1.

(4) A joker has a value of 3, 6 or 9.

(b) The Point Count of a showdown hand shall be a number from 1 to 10, with 10 being the highest rank and 1 being the lowest rank, determined by totaling the value of the cards in the hand. If the total value of the cards in a showdown hand is greater than 10, 10 will be subtracted from the number. For example:

(1) A showdown hand composed of an ace and 4 has a Point Count of 5.

(2) A showdown hand composed of a 10 and a jack has a value of 20 but a Point Count of only 10 since 10 is subtracted from 20.

(c) For purposes of the Bonus Wager, a joker may be used as an ace in any hand, other than the royal flush with no joker, or may be used to complete a royal flush with a joker, straight flush, flush or a straight. An ace may be used to complete a straight flush or a straight formed with a 2, 3, 4 and 5 but may not be combined with any other sequence of cards (for example, a queen, king, ace, 2 and 3). The permissible Poker hands shall be:

(1) Five aces, which is a hand consisting of four aces and a joker.

(2) A royal flush with no joker, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit.

(3) A royal flush with a joker, which is a hand consisting of an ace, king, queen, jack and 10 of the same suit, with a joker used as one of the cards.

(4) A straight flush, which is a hand, other than a royal flush, consisting of five cards of the same suit in consecutive ranking.

(5) A four-of-a-kind, which is a hand consisting of four cards of the same rank.

(6) A full house, which is a hand consisting of a three-of-a-kind and a pair.

(7) A flush, which is a hand consisting of five cards of the same suit, not in consecutive order.

(8) A straight, which is a hand consisting of five cards of more than one suit and of consecutive rank.

(9) A three-of-a-kind, which is a hand consisting of three cards of the same rank.

(10) Two pair, which is a hand containing two pairs.

§ 680a.7. Wagers.

(a) Wagers at Saigon 5 Card shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Saigon 5 Card table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedure in § 680a.8, § 680a.9 or § 680a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated

dealing shoe) and may not be increased or withdrawn after the dealer has announced "no more bets."

(d) The following wagers may be placed in the game of Saigon 5 Card:

(1) A player may compete solely against the dealer by placing an Ante Wager.

(2) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Saigon 5 Card table the option to make an additional Bonus Wager which shall win if the player's five cards contain two pair or better as described in § 680a.6(c) (relating to Saigon 5 Card rankings).

(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 680a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 680a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce "no more bets." To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 680a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have five cards.

(d) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (f), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 680a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce "no more bets."

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed an Ante Wager in accordance with § 680a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have five cards. All cards shall be dealt face down.

(c) After five cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 680a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets."

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed an Ante

Wager in accordance with § 680a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards.

(c) After each stack of five cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 53 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 53 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 53 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 680a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 680a.8, § 680a.9 or § 680a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Saigon 5 Card shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) Each player shall examine his cards and shall set them into two hands. If any three of the player's five cards:

(1) Have a combined total value of 10, 20 or 30, the player's hand qualifies and the player shall set those three cards as the player's three-card hand. The remaining two cards shall be set as the player's two-card showdown hand. For example, if a player's hand contains a joker, 8, 6, 5 and 2, the player's three-card hand would contain the joker (used as a 9 value card), the 5 and the 6 for a total value of 20, which would qualify, and the 8 and 2 would compose the player's showdown hand with a Point Count of 10.

(2) Does not have a combined total value of 10, 20 or 30, the player's hand does not qualify and the player may place any three cards as the player's three-card hand and the remaining two cards in the player's two-card showdown hand.

(c) After each player has set his two hands, the dealer shall then reveal and arrange the dealer's cards. If any three of the dealer's five cards:

(1) Have a combined total value of 10, 20 or 30, the dealer's hand qualifies and the dealer shall set those three cards as the three-card hand. The remaining two cards shall be set as the dealer's two-card showdown hand.

(2) Does not have a combined total value of 10, 20 or 30, the dealer's hand does not qualify.

(d) After the dealer's cards are turned face up and set, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player. The dealer shall turn the player's three-card hand face up on the layout and compare the dealer's three-card hand to the player's three-card hand. If the dealer's three-card hand:

(1) Does not qualify and the player's three-card hand:

(i) Does not qualify, the dealer shall return the player's Ante Wager.

(ii) Qualifies, the dealer shall reveal the player's showdown hand. If the player's two-card showdown hand:

(A) Has a Point Count of 1-4 or 6-10, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(a) (relating to payout odds; Envy Bonus; rate of progression).

(B) Has a Point Count of 5, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(b).

(2) Qualifies, and the player's three-card hand:

(i) Does not qualify, the dealer shall collect the player's losing Ante Wager.

(ii) Qualifies, the dealer shall reveal the player's showdown hand and compare it to the dealer's showdown hand. If the dealer's showdown hand:

(A) Is higher in Point Count than the Point Count of the player's showdown hand, the dealer shall collect the player's losing Ante Wager.

(B) Is lower in Point Count than the Point Count of the player's showdown hand, the dealer shall pay the winning Ante Wager in accordance with § 680a.12(a) if the player's showdown hand had a Point Count 1-4 or 6-10 and in accordance with § 680a.12(b) if the player's showdown hand had a Point Count of 5.

(C) Is equal in Point Count with the Point Count of the player's showdown hand, the dealer shall return the player's Ante Wager.

(e) After settling the player's Ante Wager, the dealer shall settle any optional Bonus Wager by reconfiguring the player's five cards to form the highest ranking Poker hand. If the player's hand:

(1) Does not contain two pair or better, as provided in § 680a.6(c) (relating to Saigon 5 Card rankings), the dealer shall collect the losing Bonus Wager.

(2) Contains two pair or better, the dealer shall pay the winning Bonus Wager in accordance with § 680a.12(c).

(f) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 680a.12. Payout odds; Envy Bonus; rate of progression.

(a) A certificate holder shall pay winning Ante Wagers at odds of 1 to 1 if the player's showdown hand had a Point Count 1-4 or 6-10.

(b) A certificate holder shall pay winning Ante Wagers at odds of 1 to 2 if the player's showdown hand had a Point Count 5.

(c) A certificate holder shall pay out winning Bonus Wagers as provided in the following payout table:

<i>Hand</i>	<i>Paytable A</i>
Five aces	5,000 to 1
Royal flush—no joker	1,000 to 1
Royal flush—with a joker	250 to 1
Straight flush	100 to 1
Four-of-a-kind	50 to 1
Full house	20 to 1
Flush	15 to 1
Straight	12 to 1
Three-of-a-kind	10 to 1
Two pair	8 to 1

(d) Notwithstanding the payout odds in subsections (a)—(c), if specified in its Rules Submission form filed in accordance with § 601a.2 (relating to table games Rules Submissions), the certificate holder may establish an aggregate payout limit per player per round of play which may not be less than \$50,000 or the maximum amount that one patron could win per round when betting the minimum wager, whichever is greater.

§ 680a.13. Irregularities.

(a) A card that is found face up in the shoe or the deck while the cards are being dealt may not be used in that round of play and shall be placed in the discard rack. If more than one card is found face up in the shoe or the deck during the dealing of the cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(b) A card drawn in error without its face being exposed shall be used as though it were the next card from the shoe or the deck.

(c) If a player or the dealer is dealt an incorrect number of cards, all hands shall be void, all wagers shall be returned to the players and the cards shall be reshuffled.

(d) If an automated card shuffling device is being used and the device jams, stops shuffling during a shuffle or fails to complete a shuffle cycle, the cards shall be reshuffled.

(e) If an automated dealing shoe is being used and the device jams, stops dealing cards or fails to deal all cards during a round of play, the round of play shall be void, all wagers shall be returned to the players and the cards shall be removed from the device and reshuffled with any cards already dealt.

(f) If an automated card shuffling device or automated dealing shoe malfunctions and cannot be used, the automated card shuffling device or automated dealing shoe must be covered or have a sign indicating that the automated card shuffling device or automated dealing

shoe is out of order placed on the device before any other method of shuffling or dealing may be utilized at that table.

§ 679a.2. Three Card Prime table physical characteristics.

(a) Three Card Prime shall be played at a table having betting positions for no more than six players on one side of the table and a place for the dealer on the opposite side of the table.

(b) The layout for a Three Card Prime table shall be submitted to the Bureau of Gaming Operations in accordance with § 601a.10(a) (relating to approval of table game layouts, signage and equipment) and contain, at a minimum:

- (1) The name or logo of the certificate holder.
- (2) Three separate betting areas designated for the placement of Ante and Play Wagers for each player.
- (3) If the certificate holder offers the optional Prime Wager authorized under § 679a.7(d)(2) (relating to wagers), the Pair Bonus Wager authorized under § 679a.7(d)(3) or the All-Six Bonus Wager authorized under § 679a.7(d)(4), a separate area designated for the placement of each of the wagers for each player.

(4) Inscriptions that advise patrons of the payout odds for all permissible wagers offered by the certificate holder and the phrase "Dealer Qualifies with a Queen or Ante Pushes and Play Wins" and "Player wins ties." If payout odds are not inscribed on the layout, a sign indicating the payout odds for all permissible wagers shall be posted at each Three Card Prime table.

(5) If the certificate holder establishes a payout limit per player, per round of play, as authorized under § 679a.12(h) (relating to payout odds; Envy Bonus; rate of progression), inscriptions that advise patrons of the payout limit. If the payout limit is not inscribed on the layout, a sign identifying the payout limit shall be posted at each Three Card Prime table.

(c) Each Three Card Prime table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each Three Card Prime table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 679a.3. Cards; number of decks.

(a) Except as provided in subsection (b), Three Card Prime shall be played with one deck of cards that are identical in appearance and one cover card.

(b) If an automated card shuffling device is utilized, Three Card Prime may be played with two decks of cards in accordance with the following requirements:

(1) The cards in each deck must be of the same design. The backs of the cards in one deck must be of a different color than the cards included in the other deck.

(2) One deck of cards shall be shuffled and stored in the automated card shuffling device while the other deck is being used to play the game.

(3) Both decks are continuously alternated in and out of play, with each deck being used for every other round of play.

(4) The cards from only one deck are placed in the discard rack at any given time.

(c) The decks of cards used in Three Card Prime shall be changed at least every:

(1) Four hours if the cards are dealt by hand.

(2) Eight hours if the cards are dealt from a manual or automated dealing shoe.

§ 679a.4. Opening of the table for gaming.

(a) After receiving one or more decks of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed

thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 679a.5 (relating to shuffle and cut of the cards).

(d) If an automated card shuffling device is utilized and two decks of cards are received at the table, each deck of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c).

(e) If the decks of cards received at the table are preinspected and reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 679a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each round of play has been completed or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or automated shuffling device shall place the deck of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) If an automated card shuffling device is being used, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, and the device reveals that an incorrect number of cards are present, the deck shall be removed from the table.

(c) After the cards have been shuffled and stacked, the dealer shall:

(1) If the cards were shuffled using an automated card shuffling device, deal the cards in accordance with § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe).

(2) If the cards were shuffled manually or were reshuffled, cut the cards in accordance with subsection (d).

(d) If a cut of the cards is required, the dealer shall place the cover card in the stack at least ten cards in from the top of the stack. Once the cover card has been inserted, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The stack of cards shall then be inserted into the dealing shoe for commencement of play.

(e) After the cards have been cut and before any cards have been dealt, a floorperson or above may require the cards to be recut if the floorperson determines that the cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) If there is no gaming activity at a Three Card Prime table which is open for gaming, the cards shall be removed from the dealing shoe and discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the procedures

in § 679a.4(c) (relating to opening of the table for gaming) and this section shall be completed.

(g) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (d)—(f) do not apply.

(a) The rank of the cards used in Three Card Prime, in order of highest to lowest rank, shall be: ace, king, queen, jack, 10, 9, 8, 7, 6, 5, 4, 3 and 2. Notwithstanding the foregoing, an ace may be used to complete a straight flush or a straight with a 2 and 3 but may not be combined with any other sequence of cards (for example, king, ace and 2). (c) When comparing two Poker hands that are of identical rank under subsection (b), or that contain none of the hands in subsection (b), the hand that contains the highest ranking card under subsection (a), which is not contained in the other hand, shall be considered the higher ranking hand. If the hands are of equal rank after the application of this section, the hands shall be considered a tie.

(d) If a certificate holder offers the All-Six Bonus Wager, the rank of the hands shall be:

(1) A six-card royal flush, which is a hand consisting of an ace, king, queen, jack, 10 and 9 of the same suit.

§ 679a.7. Wagers.

(a) Wagers at Three Card Prime shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the table layout. Verbal wagers accompanied by cash may not be accepted.

(b) Only players who are seated at a Three Card Prime table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Play Wager, shall be placed prior to the dealer announcing “no more bets” in accordance with the dealing procedures in § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 679a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced “no more bets.”

(d) The following wagers may be placed in the game of Three Card Prime:

(1) A player may compete solely against the dealer’s Three Card Prime hand by placing an Ante Wager then a Play Wager, in an amount equal to the player’s Ante Wager, in accordance with § 679a.11(b).

(2) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player at a Three Card Prime table the option to make an additional Prime Wager which shall win if all three of player’s cards are of the same color.

(3) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Three Card Prime table the option to make an additional Pair Bonus Wager, which shall win if the player’s hand contains a pair or better as provided in § 679a.6(b) (relating to Three Card Prime rankings).

(4) If specified in its Rules Submission under § 601a.2, a certificate holder may offer to each player at a Three Card Prime table the option to make an additional All-Six Bonus Wager, which shall win if the player’s three cards and the dealer’s three cards form a three-of-a-kind or better as provided in § 679a.6(d).

(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

§ 679a.8. Procedures for dealing the cards from a manual dealing shoe.

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required

under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce “no more bets.” To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) Starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. If a player has placed a Pair Bonus Wager, the dealer shall deal an additional card to the area of the layout for the player’s fourth card. All cards shall be dealt face down.

(d) After three cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 679a.9. Procedures for dealing the cards from the hand.

(a) If the cards are dealt from the dealer’s hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce “no more bets.”

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. The dealer shall, starting with the player farthest to the dealer’s left and continuing around the table in a clockwise manner, deal one card at a time to each player who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers) and to the dealer until each player who placed a wager and the dealer have three cards. If a player has placed a Pair Bonus Wager, the dealer shall deal an additional card to the area of the layout for the player’s fourth card. All cards shall be dealt face down.

(c) After three cards have been dealt to each player and the dealer, the dealer shall, except as provided in subsection (d), place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

§ 679a.10. Procedures for dealing the cards from an automated dealing shoe.

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 679a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce “no more bets.”

(b) The dealer shall deliver the first stack of three cards dispensed by the automated dealing shoe face down to the player farthest to the dealer’s left who has placed an Ante Wager in accordance with § 679a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who has placed an Ante Wager. The dealer shall then deliver a stack of three cards face down to the area designated for the placement of the dealer’s cards.

(c) After each stack of three cards has been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards. If a player has placed a Pair Bonus Wager, after removing the stub from the automated dealing shoe, the dealer shall deal an additional card face down to the area of the layout for the player’s fourth card. Except as provided in

subsection (d), the dealer shall then place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device, which counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present, is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

(g) Notwithstanding the requirements in subsections (b) and (c), if a certificate holder is utilizing an automated dealing shoe that automatically reshuffles the cards, the dealer may distribute four cards to each player and the dealer provided that as the cards are dispensed and distributed to each player:

(1) The top card of a stack dealt to a player who placed a Pair Bonus Wager shall be moved off the top of the stack and placed face down on the table layout until it is revealed by the dealer in accordance with § 679a.11(d)(2) (relating to procedures for completion of each round of play).

(2) The top card of a stack dealt to a player who did not place a Pair Bonus Wager and to the dealer shall be collected and placed face down in the discard rack.

§ 679a.11. Procedures for completion of each round of play.

(a) After the dealing procedures required under § 679a.8, § 679a.9 or § 679a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(1) Each player who wagers at Three Card Prime shall be responsible for his own hand and no person other than the dealer and the player to whom the cards were dealt may touch the cards of that player.

(2) Each player shall keep his three cards in full view of the dealer at all times.

(b) After each player has examined his cards, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed an Ante Wager if he wishes to make a Play Wager in an amount equal to the player's Ante Wager or forfeit the Ante Wager and end his participation in the round of play. If a player has placed an Ante Wager and an optional Prime, Pair Bonus or All-Six Bonus Wager but does not make a Play Wager, the player shall forfeit the Ante Wager but does not forfeit the Prime, Pair Bonus or All-Six Bonus Wagers.

(c) After each player who has placed an Ante Wager has either placed a Play Wager on the designated area of the layout or forfeited his Ante Wager, the dealer shall collect all forfeited wagers and associated cards, except for the cards of those players who placed an optional Prime, Pair Bonus or All-Six Bonus Wager, and place the cards in the discard rack. The dealer shall then reveal the dealer's cards and place the cards so as to form the highest possible ranking Three Card Prime hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the three cards of each player face up on the layout.

(2) The dealer shall examine the cards of the player and form the highest possible ranking Three Card Prime hand for each player.

(3) If the dealer's highest ranking Three Card Prime hand:

(i) Does not qualify, the dealer shall return each player's Ante Wager and pay the player's Play Wager in accordance with § 679a.12(a) (relating to payout odds; Envy Bonus; rate of progression).

(ii) Qualifies, and the player's highest ranking Three Card Prime hand is higher than or equal to the dealer's hand, the dealer shall pay the winning Ante Wager in accordance with § 679a.12(a) and the player's winning Play Wager in accordance with § 679a.12(b).

(iii) Qualifies, and the player's hand contains a flush or lower and is lower than the dealer's hand, the dealer shall collect the player's losing Ante and Play Wagers.

(iv) Qualifies, and the player's hand contains a straight or better and is lower than the dealer's hand, the dealer shall collect the player's losing Ante Wager and pay the player a Bad Beat Bonus on the player's Play Wager in accordance with § 679a.12(c).

(d) After settling the player's Ante and Play Wagers, the dealer shall settle any optional wagers as follows:

(1) For the Prime Wager, if all three of the player's cards:

(i) Are not the same color, the dealer shall collect the losing Prime Wager.

(ii) Are of the same color, or if all three of the player's cards are the same color and all three of the dealer's cards are the same color as the player's three cards, the winning Prime Wager shall be paid out in accordance with § 679a.12(d).

(2) For the Pair Bonus Wager, if the player's hand:

(i) Does not contain a pair or better, the dealer shall collect the losing Pair Bonus Wager.

(ii) Contains a pair or better, the dealer shall reveal the fourth card dealt to the player. If the fourth card dealt to the player:

(A) Is not a 2, the dealer shall pay the winning Pair Bonus Wager in accordance with § 679a.12(e).

(B) Is a 2, the dealer shall pay the winning Pair Bonus Wager in accordance with § 679a.12(f).

(3) For the All-Six Bonus Wager, the dealer shall combine the player's three cards and the dealer's three cards to form the highest ranking six-card hand as provided in § 679a.6(d) (relating to Three Card Prime rankings). If the hand:

(i) Does not contain a three-of-a-kind or better, the dealer shall collect the losing All-Six Bonus Wager.

(ii) Contains a three-of-a-kind or better, the dealer shall pay the winning All-Six Bonus Wager in accordance with § 679a.12(g).

(e) After all wagers of the player have been settled, the dealer shall remove any remaining cards from the table and place them in the discard rack in a manner that permits the reconstruction of each hand in the event of a question or dispute.

§ 679a.12. Payout odds; Envy Bonus; rate of progression.

(a) A certificate holder shall pay winning Ante Wagers at odds of 1 to 1 and shall pay Play Wagers when a dealer does not qualify at odds of 1 to 1.

The CAFO is designed to maintain an animal population of approximately 764.82 animal equivalent units (AEUs) consisting of 4,800 swine, 40 dairy heifers, 40 calves, a miniature horse and a miniature donkey. Manure is stored in a stacking area, a stacking pad, an underbarn manure storage structure with a capacity of 811,337 gallons, an earthen pond with a capacity of 543,666, and a proposed underbarn manure storage structure with a capacity of 811,337 gallons. Prior to operation of the manure storage facilities, the design engineer will be required to submit certification that the facilities were constructed in accordance with appropriate PA Technical Guide Standards. A release or discharge to waters of the Commonwealth under normal operating conditions is not expected. Normal operating conditions are defined as conditions below a 25-year, 24-hour storm event.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to

Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approval or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin*

or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania*

Bulletin and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Waterways and Wetlands Program Manager, 2 East Main Street, Norristown, PA 19401, Telephone 484-250-5900.

EA15-015. Eastern Shore Natural Gas Company, 1110 Forrest Avenue, Suite 201, Dover, DE 19904, in Highland, Londonderry and Franklin Townships, **Chester County,** ACOE Philadelphia District.

Eastern Shore is proposing to construct two sections of single 16-inch diameter steel pipelines, referred to as the Daleville Loop and Kemblesville Loop, in the Cochranville

and Kemblesville areas of Chester County. The Daleville Loop includes 3.3 miles of proposed pipeline extending from an existing pipeline at Limestone Road (PA-10) south to the existing Daleville Compressor Station in the Cochranville area. The Kemblesville Loop was originally proposed to follow a route generally to the east of Kemblesville, following lands of private owners and existing utility easements to reroute the natural gas pipeline around developed areas. After further evaluation, Eastern Shore has concluded that it would be preferable on environmental grounds to align the Kemblesville Loop segment of the Project along Eastern Shore's existing pipeline right-of-way (an alignment which has come to be called Kemblesville Loop "Alternative 2"). The Kemblesville Loop Alternative 2 alignment will eliminate approximately 1.8 mile of pipeline and require less construction than Eastern Shore's originally proposed alignment. Construction of the Kemblesville Loop incorporating the Alternative 2 route includes 2.1 miles of proposed pipeline extending from the intersection of Hess Mill Road and Wingate Drive southeast to tie-in to an existing valve cluster south of Walker Road in the Kemblesville area.

The applicant is requesting a state water quality certification as required by Section 401 of the Clean Water Act in support of its Federal application to the Federal Energy Regulatory Commission to install and maintain the aforementioned pipeline for the purpose of transporting natural gas.

The proposed Daleville Loop includes approximately 43.39 acres of earth disturbance, and impacts to 549 linear feet of Doe Run and its unnamed tributaries, listed as Trout Stocking Fishery (TSF), 1.25 acre of floodway, 1.27 acre of temporary Palustrine Emergent (PEM) wetland impacts, and 0.07 acre of PEM wetland permanent impacts.

The proposed Kemblesville Loop includes approximately 24.18 acres of earth disturbance, and impacts to 439 linear feet of unnamed tributaries of West Branch White Clay Creek and Big Elk Creek, listed as TSF and High Quality (HQ) TSF, respectively, 1.38 acre of floodway, 0.31 acre of temporary PEM wetland impacts, 0.08 acre of temporary Palustrine Forested (PFO) wetland impacts, and 0.03 acre of PEM wetland permanent impacts.

The proposed project consists of two loops. The Daleville Loop starts at Parkesburg, PA Quadrangle N: 39°, 54', 10"; W: 75°, 54', 42" and ends at Oxford, PA Quadrangle N: 39°, 51', 35"; W: 75°, 53', 24". The Kemblesville Loop starts at West Grove, PA Quadrangle N: 39°, 46', 12"; W: 75°, 50', 46" and ends at Newark West, PA Quadrangle N: 39°, 44', 34"; W: 75°, 49', 52".

Any state water quality certification issued by DEP will include conditions requiring the applicant prior to construction to obtain all state permits and authorizations and to implement any other measures appropriate to ensure compliance with state water quality standards and the antidegradation requirements in Chapter 93.

E46-1128. PA Turnpike Commission, 700 South Eisenhower Blvd, Middletown, PA, 17057, Lower Salford, Salford, and Franconia Townships, **Montgomery County**, ACOE Philadelphia District.

The construction work for the proposed project includes the following water obstruction and encroachment activities within the 6.8-mile reconstruction and widening project of the Northeast Extension of the Pennsylvania Turnpike (I-476) from milepost A31.3 (just south of Fretz Road) to milepost A38.1 (just north of Clump Road). The project is located in Lower Salford, Salford, and Franconia, Montgomery County, Pennsylvania. Compensatory mitigation will be required for 1.2 acre of permanent impacts to wetlands and 2,275 linear feet of permanent channel loss to perennial and intermittent waterways. A Draft Compensatory Mitigation Report is included with the permit application.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description: Approval of a revision to the official plan of Hamilton Township, Franklin County. The project is known as Robert & Shelly Bricker. The plan provides for a small flow treatment facility to serve one new single family residence. The proposed development is located on Jacks Mill Road. The Department's review of the plan revision has not identified any significant impacts resulting from this proposal. The DEP Code Number for this planning module is A3-28909-482-3S and the APS Id is 880835. Any permits must be obtained in the name of the property owner.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL**Plan Disapprovals Under the Pennsylvania Sewage Facilities Act**

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Upper Paxton Township	506 Berrysburg Rd., Millersburg, PA, 17061	Dauphin

Plan Description: The planning module for the Donna Stroup Property, DEP Code No. A3-22934-195-3s, APS Id 885280, which proposes a new small flow treatment facility to serve two existing dwellings that were using a malfunctioning onlot sewage disposal system, is disapproved. The property is located at 1123 Shippen Dam Road. This plan is disapproved because it lacked the following items: 1) the public notification and any public comments, as described in section O of the sewage planning module instructions; 2) documentation of the establishment of specific operation and maintenance responsibilities, as described in section Q of the module instructions and Chapter 71, section 71.64(c)(5); 3) clear labelling of the small flow treatment facility discharge point on both the plot plan and topographic map, as well as the name of the receiving stream; 4) a description of the interim measures being taken to address the malfunctioning system as well as a schedule of implementation; 5) the additional information (regarding permit requirements for wetland encroachment) requested in the paragraph associated with question G4b of the module form. Furthermore, it was requested that any future submission include a list of any other small flow treatment facilities located in this watershed or municipality.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Middle Paxton Township	PO Box 277 Dauphin, PA 17018	Dauphin

Plan Description: The request for planning exemption submitted for the McKelvey Road Lot 5 Subdivision, DEP Code No. A3-22924-254-2E, APS Id 885633, consisting of a subdivision to create two new single family residential building lots to use individual onlot sewage disposal systems is disapproved. The proposed development is located south of McKelvey Road, between the two junctions with Speece Lane. This plan is disapproved because it proposes the use of onlot sewage disposal systems within a high quality watershed (Clark Creek), and Chapter 71, section 71.51(b)(1)(iii) prohibits the use of planning exemptions in such cases.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
West Manheim Township	2412 Baltimore Pike Hanover, PA 17331	York

Plan Description: The planning module for new land development for the Tollgate Subdivision, DEP Code No. A3-67964-233-2, consisting of a seven lot subdivision

proposing individual on lot sewage disposal systems on a 12.47 acre tract is denied. The proposal is comprised of six residential lots and one commercial lot. The project is located on the south side of Tollgate Road, west of its intersection with State Road 94 (Baltimore Pike) in West Manheim Township, York County. The plan is denied because: 1) The preliminary hydrogeologic study used a theoretical background nitrate-nitrogen concentration of 2.5 mgs/l instead of determining the actual current background concentration existing beneath the site; 2) The preliminary hydrogeologic study assigned a value of 20 mgs/l nitrate-nitrogen to the septic system effluent impacting the groundwater beneath each individual lot. The appropriate, long accepted value is 45 mgs/l nitrate-nitrogen. The value for systems using denitrification systems is 20 mgs/l but there is no reference to the use of denitrification systems in the submission; and 3) The narrative states that there is a commercial lot in this proposal. There is no provision for, or discussion of how much impermeable surface will be created on that lot and what impact the impermeable surfaces will have on the recharge rate. Depending upon storm water BMPs utilized, impermeable surfaces can substantially impact the recharge available to the lot.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**UNDER ACT 2, 1995
PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the

appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to

one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. Draft Hazardous Permit; Notice of Intent to Issue a Hazardous Waste Permit Modification

This is a revised notice, as the prior notice contained an error. The Department of Environmental Protection (Department) intends to issue a permit modification to Bethlehem Apparatus Company, Inc. a Solid Waste Management Act Permit. This draft permit modification is to include mercury retirement activities at their Hazardous Waste facility located in the City of Bethlehem. The Bethlehem facility of Bethlehem Apparatus is primarily a treatment and storage facility for mercury. The permit is being modified to include the addition of red mercury sulfide treatment process for mercury retirement for offsite disposal of mercury as a mercury bearing hazardous waste. The mercury retirement activities will convert elemental mercury to mercury sulfide to be sent for disposal at a facility permitted to accept this material. The facility currently has an office area, a paved receiving lot, a material sorting and preparation area with various safety and handling equipment, an enclosed and covered container storage area, six high vacuum mercury retorts and associated equipment, a high vacuum auto-feed retort system, calomel work area, a mercury amalgamation area (for mercury retirement) and a research and development laboratory. All storage and treatment operations take place within the enclosed building.

The public will be given 45 days to comment on the draft permit prepared under the Solid Waste Management Act. The comment period began on November 21,

2015, and will end on January 4, 2016. Any person interested in commenting on the application or draft permit must do so within this comment period. Copies of the application, draft permit and fact sheet for the Hazardous Waste Facility may be reviewed at the Department of Environmental Protection, Bethlehem District Office at 4530 Bath Pike (Route 512), Bethlehem, PA 18017. Contact Jeffrey Spaide at 570-826-2511 for further information.

All persons wishing to comment on any of the permit conditions or permit application should submit the comments in writing to the Department of Environmental Protection, Waste Management Program, 2 Public Square and Wilkes-Barre, PA 18701-1915; Attention Roger Bellas, Regional Solid Waste Manager. Comments should include all reasonably available references, factual grounds and supporting materials. A public hearing may be scheduled if requested.

When making a determination regarding the issuance of a hazardous waste permit to Bethlehem Apparatus Company, Inc. The Department will consider all written comments received during the comment period, and oral or written statements received during a public hearing, the requirements of the hazardous waste regulations of 25 Pa. Code Chapters 260—270 and the Department's permitting policies.

Availability of Grant Funds through the State Lead Program

The Department of Health's (Department) State Lead Program (Program), operated by the Department's Bureau of Family Health (Bureau), is accepting grant applications from health, housing and educational organizations for funding for a well-defined program or plan to accomplish one or both of the following:

- To connect certified lead-based paint (LBP) professionals with families who have children at risk for lead poisoning to work to lower the risk faced by those children.
- To build the training infrastructure for certification of members of the contractor community in LBP disciplines.

Lead paint and the dust that results from the breakdown of the paint can lead to serious health issues, including loss of IQ, attention deficit hyperactivity disorder, convulsions, coma and even death. Homes built before 1978 are more likely to have lead paint in them. According to the 2010 Census, this Commonwealth ranks fifth in the Nation in the percentage of homes built before 1978. Young children are the mostly likely age group to have elevated blood lead levels (EBLL). In 2014, 13,171 children in this Commonwealth 7 years of age and under had elevated EBLLs of 5 µg/dL or higher.

Applications will be rated based upon the creativity and efficacy with which the proposed services will meet the grant objectives of connecting LBP professionals with families who have children at risk for lead poisoning or building a training infrastructure for certification of members of the contractor community in LBP disciplines, or both. Successful applicants will be awarded grants of up to \$10,000 each. The grant period ends June 30, 2016.

Purpose. The Program will provide grants to provide funding for meeting the previously referenced objectives in an effort to decrease the incidence of childhood lead poisoning. Applicants are encouraged to identify and provide services to populations that are most at-risk for lead poisoning. Activities should further environmental justice efforts in at-risk neighborhoods. Partnerships with organizations that are already working toward the previously referenced objectives of this grant are strongly encouraged and will be considered in the process of evaluating grant applications and making awards.

The primary focus of this initiative is the prevention of childhood lead poisoning through assessment of LBP risks and abatement of LBP hazards. Applicants are encouraged to draw upon existing community resources and services in reaching high-risk populations, building environmental justice and reducing health disparities.

Funds. Funding for this project is contingent upon Department approval. Grantees awarded funds through the Program must use the funds for activities and materials to increase awareness of the LBP-certified disciplines, to build infrastructure and to support local efforts in LBP identification and abatement. Funded services may include, but are not limited to:

1) Activities that would assure that individuals engaged in LBP abatement are properly trained and that contractors engaged are certified. These activities could include initiatives to develop local capacity in low-income and rural areas.

2) Activities that increase public demand for certified and accredited service providers. These activities could include the provision of outreach and education to the regulated community, protected community and general public, provided that the primary intention of the outreach/education is to increase certification of firms and accreditation of training providers.

The grant period ends June 30, 2016. Funded activities must have been completed by June 30, 2016.

Requirements. Eligible applicants include health, housing and educational organizations located in this Commonwealth. Individuals may not apply.

To conduct business with the Commonwealth, grantees are required to be enrolled in the Systems, Applications and Products system. Applicants who are not enrolled may apply for a vendor identification number by contacting the Central Vendor Management Unit at (877) 435-7363 or (717) 346-2676 or <http://www.vendorregistration.state.pa.us> (click on "Non-Procurement Vendor Registration," then "Registration Form").

Application Deadline. It is anticipated that nine awards up to \$10,000 each will be made under this grant opportunity. Initial applications received by December 16, 2015, will be reviewed and scored by the Bureau. Applications received after this date will also be reviewed and scored, and may or may not receive funding depending upon both scoring and the availability of funding at that time. Applications may be mailed or e-mailed; see contact details at the end of this notice.

Application Process. Complete the 2015-2016 Application and the Proposed Budget. An authorized official of the organization must sign and date the application. Applications must be page numbered. Incomplete applications will not be reviewed.

Award Determination. Funding decisions are contingent upon the availability of allocated Program funds and Department approval. Applications are scored using a rating scale with the following pre-established criteria:

1. Degree of need for the proposed activities.
2. Extent to which the activities will likely demonstrate a change in awareness and actions.
3. Reasonableness of the proposed expenditures.

4. Likelihood that the proposed activities will be of on-going, systemic benefit to the target population.

5. Development of partnerships.

Notification of Award. Applicants shall be notified of their award status within 2 weeks of the submission due date. This grant is reimbursement only; no funds are provided at the start of the project. This Program reimburses applicants for actual and approved costs incurred by the successful applicant and reimbursements shall not exceed the approved amount.

Eligible Costs. Applicants may apply for funding reimbursement of multiple purchases or activities under the grant. However, the maximum cumulative award to any one applicant, as identified by Federal ID number, is \$10,000 per the terms previously described. Funds obtained through this grant may not supplant existing funds already available to the grantee from any other source. The grantee is the sole owner of any purchased property. The budget section of the application must include a budget narrative detailing by line item how project funds will be used and the degree to which competitive bids will be secured for purchases. Price quotes, estimates, catalog samples or other proof of cost must be submitted for each proposed expenditure.

Ineligible Costs. The following costs are not eligible for reimbursement under this Program:

1. Administrative/indirect costs (that is, costs not uniquely attributable in full to the programmatic activity).
2. New building construction or structural renovation of an existing space.
3. Capital expenses or equipment.
4. Staffing/personnel/paid intern.
5. One-time consumables (that is, event tickets, food/refreshments, child care, and the like).

By applying for grant funding, applicants affirm that they will abide by the previously listed spending limitations.

Summary Report and Invoice Procedures. Approved applicants shall be reimbursed with one check per invoice for approved expenses. To receive reimbursement of approved expenses, awardees must submit an invoice and receipts to the Bureau within 30 calendar days following completion of funded activity and no later than July 30, 2016.

Questions should be directed to Todd Christophel, EPA State Lead Program, Division of Child and Adult Health Services, (717) 772-2762, tochristop@pa.gov.

Applications should be submitted to the Department of Health, Bureau of Family Health, Division of Child and Adult Health Services, EPA State Lead Program, Health and Welfare Building, 7th Floor East, 625 Forster Street, Harrisburg, PA 17120, tochristop@pa.gov.

Applications received by December 16, 2015, will be part of the initial review. Review of applications after that date is contingent upon availability of funds.

DEPARTMENT OF LABOR AND INDUSTRY

Consumer Price Index Adjustment of Base Amounts on Bids Effective January 1, 2016

Each year the Department of Labor and Industry (Department) is required by the following statutes to publish changes to the base amounts triggering the requirement for public bids, telephonic bids or separate bids, or both, for certain contracts. The Department is required to announce the percentage change in the Consumer Price Index for All Urban Consumers (CPI-U); all items CPI-U for the United States city average for the 12-month period ending September 30 of each year. The Department utilizes the most current nonseasonally adjusted series, as published by the United States Bureau of Labor Statistics (BLS), which at present uses 1982-1984 as the index base period (set equal to 100). The percentage change for the 12-month period ending September 30, 2015, is 0.0%.

The change to the base rate is determined as follows:

1) Calculate the percentage change in CPI-U (I) from September 2014 to September 2015. This is derived as $I = (CPI_{15} - CPI_{14})/CPI_{14}$, where the subscripts refer to September 2015 and 2014 values of CPI-U. As reported by the BLS these values are $(237.945 - 238.031)/238.031 = -0.086/238.031 = -0.0361\%$,* which when rounded to 1 decimal place = 0.0%. (This was also reported as 0.0% in Table A of the BLS news release on the Consumer Price Index Summary for September 2015.)

2) The legislation puts a floor of 0 and a cap of 3% on the percentage change to be utilized in the calculations (technically these restrictions are on the Preliminary Adjusted Base (PAB), defined in step 4, however this is mathematically equivalent). The truncated value of the percentage change to be used in the adjustment formula is denoted as PC, resulting in:

- a) $PC = I$, for $0 \leq I \leq 3\%$,
- b) $PC = 0$, for $I < 0$ and
- c) $PC = 3\%$ for $I > 3\%$.

* The various statutes also direct no adjustments if there is no positive percent change.

3) The base value (either original for new legislation or the prior year's PAB) is designated as B and the product of B and PC (determined previously) is P. (There are different values of the base depending on the entity and the type of bid, so technically B could be designated with 2 subscripts. For illustration purposes, the subscripts are omitted.) Then $P = B \cdot PC$. A common value for the base amount in 2015 for a public bid is \$19,421.08. (The other two prior PABs, which are this year's bases for a variety of bid types, were \$10,497.88 and \$26,244.7.) For ex-

ample, using $B = \$19,421.08$, results in $P = \$19,421.08 \cdot 0.0\% = \0.00 .

4) Then the Preliminary Adjusted Base, $PAB = P + B$, which reduces to $\$0.00 + \$19,421.08 = \$19,421.08$

5) The Final Adjusted Base Amount, FAA (which is used as the limit for the next year that is 2016) is the PAB rounded to the nearest 100. Therefore the $FAA = \$19,400.00$.

DEPARTMENT OF REVENUE

Rates of Tax on Aviation Gasoline and Jet Fuel for 2016; Oil Company Franchise Tax Rate for 2016; Alternative Fuels Tax Rates for 2016

I. Aviation Gasoline and Jet Fuels

A. Aviation Gasoline Rate for 2016

Under 74 Pa.C.S. § 6121(b) (relating to tax on aviation fuels), the Secretary of Revenue (Secretary) announces that for calendar year 2016 the rate of tax on aviation gasoline and all other liquid fuels used or sold and delivered by distributors within this Commonwealth for use as fuel in propeller-driven piston engine aircraft or aircraft engines decreases to the new rate of 5.5¢¹ per gallon or fractional part thereof.

B. Jet Fuel Rate for 2016

Under 74 Pa.C.S. § 6131(b) (relating to tax on jet fuels), the Secretary announces that for calendar year 2016 the rate of tax on jet fuels used or sold and delivered by distributors within this Commonwealth for use as fuel in turbine-propeller jet, turbojet and jet-driven aircraft and aircraft engines decreases to the new rate of 1.6¢ per gallon or fractional part thereof.

C. Calculating the 2016 Aviation Gasoline and Jet Fuel Rates

The rate of tax on aviation gasoline is adjusted annually beginning on January 1, 1985, and each January 1 thereafter.

The rate of tax on jet fuels is adjusted annually beginning on January 1, 1986, and each January 1 thereafter. Under 74 Pa.C.S. §§ 6121(b) and 6131(b) the rate of each tax increases or decreases 0.1¢ per gallon for each 10% increase or decrease in the producer price index for jet fuel as determined by the United States Department of Labor, Bureau of Labor Statistics, for the most recent 12-month period available as of November 1, 2015, subject to a maximum rate of 6.0¢ per gallon for aviation gasoline and 2.0¢ per gallon for jet fuels.

On October 22, 2015, the most recently available 12-month period was September 2014 to September 2015, as reported in the Bureau of Labor Statistics, United States Department of Labor, Producer Price Index, September 2015, USDL-15-2005, released October 14, 2015, for which the percentage change was -45.8%. Accordingly, the aviation gasoline tax rate decreases from the 2015 rate of 5.9¢ per gallon to the new 2016 rate of 5.5¢ per gallon; the jet fuel tax rate also decreases, from the 2015 rate of 2.0¢ per gallon to the new 2016 rate of 1.6¢ per gallon.

II. Oil Company Franchise Tax

A. Transportation Funding Act of 2013

On November 25, 2013, Governor Corbett signed into law Act 89 of 2013 which amends 75 Pa.C.S. (relating to Vehicle Code) to both eliminate the inflationary cap on the Oil Company Franchise Tax and the fixed 12¢ per gallon Liquid Fuels and Fuels Tax. Specifically, 75 Pa.C.S. § 9002 (relating to definitions) provides for the future

¹The rate of 5.5¢ per gallon consists of the 1.5¢ per gallon tax imposed by the Liquid Fuels and Fuels Tax Act, 75 Pa.C.S. § 9004(c)(1), and the 4.0¢ per gallon additional tax imposed by 74 Pa.C.S. § 6121(a). As limited by 74 Pa.C.S. § 6121(b), the combined rate of these two component taxes may never exceed 6¢ per gallon or be less than 3¢ per gallon.

removal of the cap and specific wholesale prices for use in the interim years. Accordingly, the statutorily fixed average wholesale price for 2016 is \$2.49.

B. Calculating the 2016 Oil Company Franchise Tax Rate

The rate of the Oil Company Franchise Tax imposed under 75 Pa.C.S. Chapter 95 (relating to taxes for highway maintenance and construction), 75 Pa.C.S. § 9502 (relating to imposition of tax), and collected under 75 Pa.C.S. Chapter 90 (relating to Liquid Fuels and Fuels Tax Act), 75 Pa.C.S. § 9004(b) (relating to imposition of tax, exemptions and deductions), is determined annually by the Department of Revenue (Department) and announced by each December 15 for the following calendar year. The tax rate is determined on a “cents per gallon equivalent basis,” which is defined by 75 Pa.C.S. § 9002 as:

The average wholesale price per gallon multiplied by the decimal equivalent of any tax imposed by section 9502 (relating to imposition of tax), the product of which is rounded to the next highest tenth of a cent per gallon. The rate of tax shall be determined by the Department of Revenue on an annual basis beginning every January 1 and shall be published as a notice in the *Pennsylvania Bulletin* no later than the preceding December 15. In the event of a change in the rate of tax imposed by section 9502, the department shall redetermine the rate of tax as of the effective date of such change and give notice as soon as possible.

“Average wholesale price” as previously used is defined as:

The average wholesale price of all taxable liquid fuels and fuels, excluding the Federal excise tax and all liquid fuels taxes, shall be as follows:

(1) After December 31, 2013, and before January 1, 2015, the average wholesale price shall be \$1.87 per gallon.

(2) After December 31, 2014, and before January 1, 2017, the average wholesale price shall be \$2.49 per gallon.

(3) After December 31, 2016, the average wholesale price shall be as determined by the Department of Revenue for the 12-month period ending on the September 30 immediately prior to January 1 of the year for which the rate is to be set. In no case shall the average wholesale price be less than \$2.99 per gallon.

As previously noted, the average wholesale price of liquid fuels and fuels to be used in calculating the 2016 Oil Company Franchise Tax rate shall be \$2.49.

The Oil Company Franchise Tax imposed under 75 Pa.C.S. § 9502 is separated into two portions: mills per gallon not subject to discount (NSTD) and mills per gallon subject to discount (STD). The following table details the underlying calculations:

Composition of Oil Company Franchise Tax (OCFT)

<u>Total OCFT per Gallon, rounded to next highest tenth</u>		
	<i>Liquid Fuels</i>	<i>Fuels</i>
Total OCFT = NSTD + STD:	50.3¢	64.0¢

C. Imposition of Oil Company Franchise Tax on Liquid Fuels and Fuels

The act of April 17, 1997 (P. L. 6, No. 3) provides that the Oil Company Franchise Tax as previously computed is imposed when liquid fuels or fuels are used or sold and delivered in this Commonwealth. Accordingly, the tax imposed upon the use or sale and delivery of 1 gallon of liquid fuels (primarily gasoline) shall be 50.3¢, and the tax imposed upon the use or sale and delivery of 1 gallon of fuels (primarily undyed diesel fuel) shall be 64.0¢.

III. Alternative Fuels Tax Rates for 2016

Under 75 Pa.C.S. § 9004(d) the Secretary is required to compute the rate of tax applicable to each alternative fuel on a gallon-equivalent-basis. Under 75 Pa.C.S. § 9002 "gallon equivalent basis" is defined as the "amount of any alternative fuel as determined by the department to contain 114,500 BTU's." The amount determined on a "gallon-equivalent-basis" for each alternative fuel is subject to the Oil Company Franchise Tax currently imposed on 1 gallon of gasoline. The rate of tax on 1 gallon of gasoline during the period of this notice is 50.3¢ which is equal to the Oil Company Franchise Tax.

The 2016 tax rates for Compressed Natural Gas (CNG) and Hydrogen are calculated by utilizing the unit of measurement referred to as the gasoline gallon equivalent (GGE). A GGE is the amount of alternative fuel it takes to equal the energy content of 1 liquid gallon of gasoline. A GGE is the most common form of measurement for gaseous fuels at the retail level. By measuring in GGEs one may make energy and cost comparisons with gasoline.

The Secretary announces that the 2016 tax rates for alternative fuels are as follows:

<i>Alternative Fuel (Liquids)</i>	<i>Rate of Conversion (BTU/Gal of Alternative Fuel)</i>	<i>Tax Rate per Gallon of Alternative Fuel</i>
Ethanol	76,330	\$.336
Methanol	57,250	\$.252

M-85	65,838	\$.290
Liquefied Natural Gas (LNG)	75,714	\$.334
Electricity	3,414 BTU/kWh	\$.0151/kWh
<i>Alternative Fuels under GGE Formula (Gaseous)</i>	<i>GGE Equivalent to One Gallon of Gasoline</i>	<i>Tax Rate per GGE</i>
Compressed Natural Gas (CNG)	1	\$.503
Hydrogen	1	\$.503

FISH AND BOAT COMMISSION

Proposed Special Regulation Designations

The Fish and Boat Commission (Commission) has approved guidelines with regard to encouraging public participation on possible changes to the designation of streams, stream sections or lakes for special regulation programs. Under 58 Pa. Code Chapter 65 (relating to special fishing regulations), the Commission designates or redesignates certain streams, stream sections and lakes as being subject to special fishing regulations. These designations and redesignations are effective after Commission approval when they are posted at the site and a notice is published in the *Pennsylvania Bulletin*. Under the Commission's guidelines, a notice concerning the proposed designation or redesignation of a stream, stream section or lake under special regulations ordinarily will be published in the *Pennsylvania Bulletin* before the matter is reviewed by the Commissioners.

At the next Commission meeting on January 20 and 21, 2016, the Commission will consider taking the following actions with respect to waters subject to special fishing regulations under 58 Pa. Code Chapter 65, effective upon publication in the *Pennsylvania Bulletin*:

58 Pa. Code § 65.15. Catch and release all-tackle.

The Commission will consider designating the following water as catch and release all-tackle under § 65.15:

County	Water
Potter/Tioga	Upper Kettle Creek Basin, from the headwaters of Kettle Creek downstream to the confluence with Long Run, including Long Run and all tributaries upstream to the headwaters

58 Pa. Code § 65.19. Stocked trout waters open to year-round fishing.

The Commission will consider designating the following water as a stocked trout water open to year-round fishing under § 65.19:

County	Water
Wyoming	Lake Winola

At this time, the Commission is soliciting public input concerning the previous designations. Persons with comments, objections or suggestions concerning the designations are invited to submit comments in writing to the Executive Director, Fish and Boat Commission, P. O. **Pennsylvania Liquor Control Board Regulation
#54-85 (IRRC #3117)**

Limited Wineries

November 25, 2015

We submit for your consideration the following comments on the proposed rulemaking published in the September 26, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Liquor Control Board (Board) to respond to all comments received from us or any other source.

1. General.

The Board states that the purpose for the proposed rulemaking is to make its regulations consistent with the Liquor Code (“Code”) as it is currently written. In addition to wine and alcoholic ciders, Section 505.2(a)(1), (2) of the Code authorizes limited wineries licensees to produce and sell wine coolers. 47 P. S. § 5-505.2(a)(1), (a)(2). We note, however, that the Board’s amendments do not address the production or sale of wine coolers. (See §§ 3.62, 3.63, 5.103, and 11.111.) It is our understanding that the Board has excluded wine coolers from its regulations because the term “wine cooler” is not defined in the Code. We recommend the Board define the term and include it in the final rulemaking or explain how the exclusion conforms to the Board’s intent to make its regulations consistent with the Code.

2. Section 11.111. Sale by limited winery licensees. Statutory authority; Whether the regulation is consistent with statute; Public interest; Clarity.

Proposed Paragraph (a)(3) states the following:

A limited winery may sell wine and alcoholic ciders from 7 a.m. until 2 a.m. of the following morning, Mondays through Saturdays, and from 9 a.m. until 2 a.m. of the following morning on Sundays.

The Board’s response to Regulatory Analysis Form (RAF) question #10 indicates that the proposed rulemaking updates the current regulations to reflect the current hours of operation for limited wineries. The Board cites Section 505.2(a)(6.3) of the Code as the authorizing statutory provision for the proposed amendment.

Section 505.2(a)(6.3) states that holders of a limited winery license may:

[s]ell alcoholic cider, wine and wine coolers *only between the hours of nine o’clock antemeridian and eleven o’clock postmeridian*. A limited winery also may request approval from the board to extend sales hours in individual locations at other times during the year or beyond the limits set forth in this clause. This request shall be made *in writing* . . . and shall detail the exact locations where sales hours are proposed to be extended, the proposed hours and dates of extended operations and the reason for the proposed extended hours. (Emphasis added.)

47 P. S. § 5-502.2(a)(6.3). Since the sales hours may be extended only by considering a detailed request from a limited winery, we believe the Board’s proposal to provide for the expansion of the sales hours for all limited wineries is not authorized by the Code. We recommend the Board delete proposed Paragraph (a)(3) and retain existing Paragraph (a)(4), or explain how the proposed revision to sales hours is consistent with the Code.

Proposed Subparagraph (a)(4)(i)

The Preamble and the Board’s response to RAF question #10 states the payment method for wine and alco-

holic ciders is being updated to be consistent with the language in the Code and the Board’s regulations. However, the Board does not include the statutory authority for the proposed change. We request the Board clarify its statutory authority for this provision.

Proposed Paragraph (a)(5)

The Board proposes that visitors at the winery or at one of the additional Board-approved locations may be provided, with or without charge, samples of wine or alcoholic cider, or both, produced by the limited winery. The proposed language also provides for sampling of wine and alcoholic ciders at locations licensed under a farmer’s market permit or under the special permit issued for alcoholic cider, wine and food expositions.

In RAF question #10 and in the Preamble, the Board states that the regulation is being amended to reflect changes in the Code. However, there does not appear to be a specific statutory change to support this amendment to the regulation. The Board should clarify the rationale for including sampling at limited wineries and other licensed locations under special permit.

Existing Subparagraphs (a)(8)(i)(A, C) and (a)(8)(ii)

The Board proposes to delete Pennsylvania-grown fruits, jellies, jams, preserves and mushrooms from the list of items that a limited winery may offer for sale at the winery. We ask the Board to explain how removing Pennsylvania-grown commodities from the list of products that may be offered for sale at limited wineries is in the public interest.

Proposed Paragraph (a)(9)

The Board should provide the statutory authority for accepting Internet orders of wine and alcoholic ciders.

3. Miscellaneous Clarifications:

- The proposed rulemaking uses the following terms: sample, alcoholic cider, wine and food expositions, farmer’s market, and agricultural commodity. To improve clarity, we recommend the Board define these terms in the final-form regulation.

- The Board should revise its response to RAF question #8 to include specific statutory citations for all of the proposed changes.

- The Preamble and Board’s response to RAF question #10 should be revised to refer to Section 505.2(a)(6.1) of the Code which allows for on or off premises consumption of wine and alcoholic cider, not Section 505.2(a)(6.2) which authorizes licensees to sell wine or liquor-scented candles acquired or produced by the limited winery.

- The Board’s response to RAF questions #26 and #27 are identical. The Board should revise its response to RAF question #27.

- In proposed Section 11.111(a)(5) we recommend the Board insert the word “limited” after “the” and before “winery.”

(IRRC #3121)**

Remining Requirements

December 2, 2015

We submit for your consideration the following comments on the proposed rulemaking published in the October 3, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P. S. § 745.5b). Section 5.1(a) of the RRA

(71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

1. Compliance with the RRA.

Section 5.2 of the RRA (71 P. S. § 745.5b) directs this Commission to determine whether a regulation is in the public interest. When making this determination, the Commission considers criteria such as economic or fiscal impact and reasonableness. To make that determination, the Commission must analyze the text of the Preamble and proposed regulation and the reasons for the new or amended language. The Commission also considers the information a promulgating agency is required to provide under Section 745.5(a) in the Regulatory Analysis Form (RAF). EQB did not respond to question #23 on the RAF related to fiscal savings and costs associated with implementation and compliance for the regulated community, local government and state government for the current year and five subsequent years. We ask EQB to include a response to each question on the final-form RAF.

2. RAF—Clarity and lack of ambiguity.

EQB states in response to RAF question #11 that Section 87.210(d)(2), (3) and (5) include requirements to establish an in-stream pollutant baseline in certain circumstances. EQB states that these provisions are more stringent than federal requirements. These same provisions are found in parallel Sections 88.510 and 90.310. We ask EQB to include all provisions which are more stringent than federal requirements in its response to the final-form RAF.

3. Section 87.204. Application for authorization.—Protection of the public health, safety and welfare; Need for the regulation.

In Subsection (b), EQB currently requires the operator seeking authorization to continue the water quality and quantity monitoring program required by Subsection (a)(2) after making the authorization request. The operator is currently required to submit the results of this monitoring program to the Department of Environmental Protection on a monthly basis until a decision on the authorization is made. EQB states in the Preamble that on the recommendation of the Mining and Reclamation Advisory Board, EQB proposes to allow—rather than require—the operator to continue water monitoring until the permit is issued. We ask EQB to explain in the final-form RAF and Preamble the need for this change, and how this proposed change will adequately protect the public health, safety and welfare.

We ask EQB to address these same concerns related to parallel Sections 88.504 and 90.304 (relating application for authorization).

4. Section 87.210. Effluent limitations.—Clarity and lack of ambiguity.

We have clarity concerns in Subsection (d) (relating to in-stream requirements). Paragraph (d)(1) states:

If the [Department of Environmental Protection (Department)] determines that it is infeasible to collect samples for establishing the baseline pollutant levels *under this subsection*, and that reminging will result in significant improvement that would not otherwise occur, the permit applicant *may* establish an in-stream baseline concentration at a suitable point downstream from the reminging operation and the numeric effluent limitations in subsection (c)(1) do not apply. (Emphasis added.)

The circumstances under which it is infeasible to collect samples are found in Paragraph (d)(4). EQB should include a reference to the specific paragraph in order to make clear for the regulated community how the Department makes the determination.

Also, Paragraph (d)(1) states that a permit applicant may establish an in-stream baseline concentration at a suitable point downstream from the reminging operation. Does EQB intend for this provision to be optional? Paragraph (d)(5) includes circumstances under which the Department may waive the in-stream monitoring requirements. It appears that EQB intends to require permit applicants to establish an in-stream baseline concentration at a suitable point downstream from the reminging operation unless the Department grants a waiver. If so, EQB should amend the language to clarify that establishing an in-stream baseline concentration at a suitable point downstream from the reminging operation is a requirement unless the Department grants a waiver under Paragraph (d)(5).

We ask EQB to make these same clarifications in parallel Sections 88.510 and 90.310 (relating to effluent limitations).

5. Section 87.213. Procedure for calculating and applying an annual trigger.—Clarity and lack of ambiguity.

Subsections (b) and (c) provide methods for calculating the annual trigger. The methods are taken from paragraphs III.A and III.B of Appendix B in 40 CFR Part 434, respectively. We ask EQB to clarify the calculations as follows.

Based on subparagraph III.A.4 of the CFR, the calculation in paragraph (b)(4) should include an additional set of parentheses.

$$T_b = M + ((1.815 * R) / \text{SQRT}(n))$$

Based on subparagraph III.A.6 of the CFR, the calculation in paragraph (b)(6) should include an additional set of parentheses.

$$T_m = M' - ((1.815 * R') / \text{SQRT}(m))$$

Based on subparagraph III.B.3.b of the CFR, the calculation in subparagraph (c)(7)(ii) should use a small letter “m” rather than a capital.

$$\text{Critical Value} = 0.5 * n * (N+1) - 3.0902 * \text{SQRT}(n * m * (N+1) / 12)$$

Based on subparagraph III.B.3.c of the CFR, the calculation for V in subparagraph (c)(7)(iii) should include additional parentheses.

$$V = ((n * m * S) / (N * (N-1))) - ((n * m * (N+1)^2) / (4 * (N-1)))$$

We ask EQB to make these same clarifications in parallel Sections 88.513 and 90.313 (relating to procedure for calculating and applying an annual trigger).

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security

Public Meeting held
November 19, 2015

Commissioners Present: Gladys M. Brown, Chairperson;
John F. Coleman, Jr., Vice Chairperson; Pamela A.
Witmer; Robert F. Powelson; Andrew G. Place

*Electric Generation Supplier License Cancellations of
Companies with an Expired Financial Security;
M-2015-2490383*

Tentative Order

By the Commission:

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a bond or other approved security in the amount directed by the Commission has been obtained.

Failure to file the requested documentation before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

As of November 9, 2015, each EGS listed in the Supplier Table below has not submitted the required bond or other approved security to the Commission.

* Taking title to electricity

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services (TUS) sent a 60-day Security Renewal Notice Letter to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security, must be filed within 60 days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for each EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore*,

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier Licenses of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, Department of Revenue—Bureau of Corporation Taxes, all electric distribution companies, all of the Electric Generation Suppliers in the Supplier Table and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment or the filing of approved security within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary and shall advise the affected Bureaus within the Commission in writing that the Electric Generation Supplier Licenses held by each company listed in the Supplier Table, are cancelled and the cases may be closed.

4. Upon entry of the Final Order described in ordering Paragraph No. 3 above, each company listed in the Supplier Table will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

5. Upon entry of the Final Order described in ordering Paragraph No. 3, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.

Secretary
