READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Order Amending Rules 410, 430, 1064 and 1065 of the Rules of Civil Procedure; No. 656 Civil Procedural Rules Doc.

Order

Per Curiam

And Now, this 30th day of December, 2016, upon the recommendation of the Civil Procedural Rules Committee; the proposal having been submitted without publication pursuant to Pa.R.J.A. No. 103(a):

It is *Ordered* pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rules 410, 430, 1064, and 1065 of the Pennsylvania Rules of Civil Procedure are amended in the following form.

This Order shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective January 1, 2017.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 400. SERVICE OF ORIGINAL PROCESS

SERVICE IN PARTICULAR ACTIONS

Rule 410. Real Property Actions.

* * * * *

(c) If service is made pursuant to an order of court under Rule 430(a), the court shall direct one or more of the following methods of service:

(1) publication as provided by Rule 430(b),

Official Note: See Rule 1064 for additional requirements for service of original process by publication for actions to quiet title involving subsurface mineral, oil, or natural gas rights.

* * * * *

SERVICE PURSUANT TO SPECIAL ORDER OF COURT

Rule 430. Service Pursuant to Special Order of Court. Publication.

(a) If service cannot be made under the applicable rule the plaintiff may move the court for a special order directing the method of service. The motion shall be accompanied by an affidavit stating the nature and extent of the investigation which has been made to determine the whereabouts of the defendant and the reasons why service cannot be made.

Official Note: A sheriff's return of "not found" or the fact that a defendant has moved without leaving a new forwarding address is insufficient evidence of concealment. *Gonzales v. Polis*, 357 A.2d 580 (Pa. Super. 1976). Notice of intended adoption mailed to last known address requires a "good faith effort" to discover the correct address. *Adoption of Walker*, 360 A.2d 603 (Pa. 1976).

An illustration of a good faith effort to locate the defendant includes (1) inquiries of postal authorities including inquiries pursuant to the Freedom of Information Act, 39 C.F.R. Part 265, (2) inquiries of relatives, neighbors, friends, and employers of the defendant, (3) examinations of local telephone directories, courthouse records, voter registration records, local tax records, and motor vehicle records, and (4) a reasonable internet search.

See Rule 1064 for additional requirements for service of original process by publication for actions to quiet title involving subsurface mineral, **oil, or natural gas** rights.

CHAPTER 1000. ACTIONS

Subchapter D. ACTION TO QUIET TITLE

Rule 1064. Service.

In actions involving subsurface mineral, **oil, or natural gas** rights, if the plaintiff seeks to serve original process by publication pursuant to Rule 430 and obtains actual knowledge of a last known address of the defendant outside the county in which the property is located, the plaintiff shall explain in the affidavit required by Rule 430(a) the search for the defendant in that locale.

Official Note: For service of original process, see Rule 410 governing service in actions involving real property. See Rule 430 for additional requirements for service of original process by publication.

Rule 1065. Specific Avertisments.

(a) Except as provided in subdivision (b), the plaintiff shall describe the land in the complaint.

(b) In an action to quiet title involving subsurface mineral, **oil, or natural gas** rights, the complaint shall describe the land by attaching:

(1) a summary of the abstract of the mineral, **oil, or natural gas** title, or the full abstract of the mineral, **oil, or natural gas** title if the title documents are not available in the courthouse records, and

(2) a statement of acreage involved that includes a metes and bounds description, if available, or other description sufficient to identify the subject land.

EXPLANATORY COMMENT

Recent amendments to Rules 410, 430, 1064, and 1065 updated the requirements for the service by publication authorized by special order of court for actions to quiet

title of subsurface mineral rights. These rules have been further amended to clarify that this procedure specifically applies to actions to quiet title of oil and natural gas rights.

It is intended that the subpoena shall be used not only for trial but also for any other stage of the proceedings when a subpoena is issuable, including preliminary hearings, hearings in connection with pretrial and post-trial motions, etc.

When the subpoena is for the production of documents, records, or things, these should be specified.]

Report explaining the rescission of Rule 107 and the adoption of new Rule 107 establishing procedures for the issuance, service, and content of subpoenas published for comment at 47 Pa.B. 181 (January 14, 2017).

(Editor's Note: The following rule is new and printed in regular type to enhance readability.)

Rule 107. Service and Contents of Subpoenas.

Comment

It is intended that the subpoena will be used not only for summary trials or trials in the courts of common pleas and the Philadelphia Municipal Court, but also for any other stage of the proceedings before the minor judiciary, Philadelphia Municipal Court, or common pleas court when a subpoena is issuable, including preliminary hearings, hearings in connection with pretrial and post-trial motions, etc. For the procedures governing investigating grand jury subpoenas, see 42 Pa.C.S. § 4548.

Paragraph (A) provides the procedures for the issuance of subpoenas by the minor judiciary. Nothing in this rule is intended to change the current subpoena practice for the issuance of subpoenas by the courts of common pleas.

When issuing a subpoena, the issuing authority may limit the scope of the subpoena to persons, documents, or things that are relevant to the cause of action before the issuing authority.

A subpoena is not to be used for the production of materials or information required or requested to be produced pursuant to rules 573 or 574.

All issued subpoenas must be signed by a judge of the court issuing the subpoena. The signature may be in any of the forms of signature authorized in the Rule 103 definition of "signature."

The service provisions in paragraph (B) apply to subpoenas issued by the judges of the courts of common pleas, the magisterial district courts, the Philadelphia Municipal Court, and the Pittsburgh Municipal Court.

Paragraph (B)(1)(d) permits service by electronic means when the witness is a law enforcement officer. This method of service may be utilized for subpoenas issued by a judge of the court of common pleas or the minor judiciary. When a law enforcement agency files the certification in paragraph (B)(2) consenting to electronic service, the agency is assuming the responsibility of accepting electronically-served subpoenas and ensuring that the correct member of the agency is notified to appear as required by subpoenas.

It is intended under paragraph (B)(3) that parties subpoenaing witnesses under the age of 18 are responsible for any additional costs for the service of the subpoena on a parent or guardian.

Nothing in paragraph (B)(3) gives the parent or guardian of a witness under the age of 18 legal standing in the matter being heard or creates a right for the minor witness to have his or her parent or guardian present. In addition, lack of required notice to a parent or guardian does not prevent the minor witness from appearing and testifying.

As noted in paragraph (B)(4), service is the responsibility of the party requesting the subpoena not the court.

Concerning service of subpoenas by first class mail and proof of service, see 42 Pa.C.S. § 5904.

Paragraph (C) sets forth the mandatory contents of the subpoena. Although this paragraph does not require that the address of the person being subpoenaed be included on the subpoena, this is not intended to prohibit inclusion of the address on the subpoena for purposes of service. When the subpoena is for the production of records, books, papers, documents, photographs, data, or other items, these must be specified in the subpoena. Concerning subpoenas for medical records, see 42 Pa.C.S. §§ 6151–6160.

Although paragraph (C)(1)(a) requires the name of the witness to be included in the subpoena, in cases in which a specific name is not known, for example when the subpoena is for records from a hospital and the name of the record keeper is not available at the time the subpoena is issued, this requirement may be satisfied by providing a description of the person to receive the subpoena such as “records custodian.”

Pursuant to paragraph (C)(2), the contents of subpoenas are not public records and not accessible by the public.

Before issuing a bench warrant for failure to obey the subpoena, the judge or issuing authority must ensure that the subpoenaed person has received sufficient notice of the proceeding. The requesting party has the burden of presenting proof of service. If the judge determines the person did not have sufficient notice, the judge may grant a continuance and order that the person be served the subpoena either in person or by certified mail, return receipt requested.

For the procedures following the execution of a bench warrant, see Rules 150 and 151.

The scope of an issuing authority’s authority to enforce a subpoena is limited by statute. See 42 Pa.C.S. § 4137(d), that provides, *inter alia*, issuing authorities “shall have the power to issue an attachment by means of a warrant” to have the witness brought before the issuing authority for a hearing on the failure to comply with the subpoena. See also, Rule 140(B)(1).

REPORT

Proposed Rescission of Pa.R.Crim.P. 107 and Adoption of New Pa.R.Crim.P. 107

Procedures for Issuance and Service of Subpoenas

Background

The Committee at various times since 2004 has worked on developing procedures that would govern subpoenas. After extensive study into the different procedures governing subpoenas in Pennsylvania, including the formulation of a subcommittee, study of the various rules and statutes governing subpoenas in other forums,¹ and the publication of several prior versions of this proposal,² as well as discussion with the Court regarding the proposal, the Committee concluded that the rules would benefit from providing more clarity as to the procedures for the issuance and service of subpoenas, particularly in the magisterial district courts. The proposed rule changes would create a new Rule 107 that would set forth the procedures for the issuance and service of subpoenas in addition to the provisions contained in current Rule 107 regarding content.

A. Issuance

Paragraph (A) would provide the procedures for the issuance of a subpoena in cases pending before the minor judiciary. The issuing authority would be given some discretion in paragraph (A) comparable to the discretion given magisterial district judges in civil cases pursuant to MDJ Rule 214. Additionally, the requesting individual would be required to provide the information required by paragraph (C) for the contents of the subpoena, and the issuing authority is required to fill in the subpoena with this information. All subpoenas issued by a member of the minor judiciary must be signed by the issuing authority. Given the diversity of practice in the courts of common pleas, the proposed rule does not provide specific procedures for the issuance of subpoenas by the courts of common pleas but language would be added to the Comment to the new rule that no change to existing practice is intended.

¹ See, e.g., the Rules of Criminal Procedure (Criminal Rules) (Rule 107), the Rules of Civil Procedure (Civil Rules) (Rules 234.1, 234.2, 234.5, and 234.6), and the Rules of Civil Procedure Governing Actions and Proceedings Before Magisterial District Judges (MDJ Rules) (Rules 213 and 214), and 42 Pa.C.S. §§ 5904 (Subpoena of Witnesses) and 5905 (Subpoenas).

² See 35 Pa.B. 1556 (March 5, 2005), 35 Pa.B. 5676 (October 15, 2005), and 45 Pa.B. 2140 (May 2, 2015).

B. Service

Paragraph (B) would set forth the requirements for service of the subpoena. The proposed service provisions in paragraph (B) are a combination of provisions from Rule 576(B) and from Minor Court Rule 214, and provide for personal service by a competent adult; service by certified, registered, or first class mail; or service by a carrier service.

In response to the most recent prior publication, the Committee received a suggestion that a provision be added permitting the electronic service of subpoenas to law enforcement agencies due to the large number of subpoenas issued to these entities. It was suggested that this practice is already in place in many jurisdictions and that it has resulted in significant savings of time, money and labor for prosecutors' offices. The Committee therefore incorporated this suggestion into paragraph (B)(1)(d) and (B)(2) of the new rule. In order to utilize this form of service, a written consent to be served with subpoenas electronically must be filed by the law enforcement agency with the clerk of courts and any issuing authorities from whom the agency is willing to accept e-service. Language would be added to the Comment that explains, when a law enforcement agency files a consent to be served electronically, the agency assumes the responsibility of accepting electronically-served subpoenas and ensuring the correct member of the agency is notified to appear as required by the subpoena.

Provisions concerning parental notification when the subpoenaed witness is under the age of 18 are included in paragraph (B)(3). The Committee recognized that not all individuals under the age of 18 are under the supervision or control of a parent or guardian and some are emancipated. In view of this, a provision similar to Juvenile Rule 123(E)(2) that would provide an exception to the service requirement when permitted by a judge for good cause shown has been added as the second sentence of paragraph (B)(2). Additionally, the Comment explains that the party subpoenaing the minor bears the responsibility for the costs of service on the parent, that the service provision does not provide legal standing or give the parent or guardian any right to be present, and that lack of the required notice does not prevent the minor witness from appearing and testifying.

Paragraph (B)(4) would provide that the party requesting the subpoena shall be responsible for the service of the subpoena. This provision was added in response to the report of the practice in some jurisdictions that the police were insisting that MDJs be responsible for serving subpoenas requested by the police.

C. Contents

Paragraph (C) sets forth the contents of the subpoena, incorporating the provisions in current Rule 107. Additionally, paragraph (C)(1)(c) requires that the subpoena include the name and address for service on the person applying for the subpoena. Paragraph (C)(1)(d) provides that the subpoena shall "inform the witness that the failure to comply with the subpoena may be considered by the court as grounds for contempt and that a bench warrant may be issued for the witness' arrest."

The Committee considered the concern that as a judicially signed document, a subpoena would be part of the public record. There was a concern such disclosure potentially could expose the witness to privacy invasion or intimidation or retribution. The Committee concluded that such concerns were valid and agreed that the rule should state that the contents of the subpoena, including

to whom the subpoena was issued, should be not be considered a public record. This provision would be contained in the new rule as paragraph (C)(2).

D. Comment Provisions

In addition to the provisions noted above, the Comment to new Rule 107 would include an explanation that subpoenas issued by Philadelphia Municipal Court judges are to be issued as provided in this rule. In addition, the Comment emphasizes that the subpoenas must be signed by a judge of the issuing court (common pleas court, Philadelphia Municipal, or magisterial district courts), and includes a cross-reference to the Criminal Rule 103 definition of "signature" to make it clear that the subpoena may be signed using any of the forms of signature set forth in Rule 103. The Comment also includes cross-references to 42 Pa.C.S. § 4137 and Pa.R.Crim. P. 140 to make it clear that subpoenas issued pursuant to paragraph (A) are subject to the minor court contempt powers.

Annex A

TITLE 234. RULES OF CRIMINAL PROCEDURE

CHAPTER 2. INVESTIGATIONS

PART A. Search Warrant

Rule 203. Requirements for Issuance.

* * * * *

(C) Immediately prior to submitting a search warrant application and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority by telephone, or by any device which, at a minimum, allows for simultaneous [audio-visual] audio communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant. In any telephonic communication, if the issuing authority has a concern regarding the identity of the affiant, the issuing authority has the discretion to require the affiant to communicate by a device allowing for two-way simultaneous communication or may require the affiant to appear in person.

* * * * *

Comment

* * * * *

When advanced communication technology is used, the issuing authority is required by this rule to (1) determine that the evidence contained in the affidavit(s) establishes probable cause, and (2) verify the identity of the affiant.

[The "visual" requirement in paragraph (C) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.]

Verification methods include, but are not limited to: a "call back" system, in which the issuing authority would call the law enforcement agency or police department that the affiant indicates is the entity seeking the warrant; a "signature comparison" system whereby the issuing authority would keep a list of the signatures of the law enforcement officers whose departments have advanced communication technology systems in place, and compare the signature on the transmitted information with the signature on the list; or an established "password" system.

Paragraph (F) was added to the rule in 2005 to provide for anticipatory search warrants. The rule incorporates the definition of anticipatory search warrants set forth in Commonwealth v. Glass, 562 Pa. 187, 754 A.2d 655 (2000).

Paragraph (G) was added to clarify who must retain possession of the original of the search warrant. When the search warrant is issued using advanced communication technology, the version delivered to the police officer is considered the original for purposes of this rule.

Official Note: Rule 203 adopted March 28, 1973, effective for warrants issued 60 days hence; renumbered Rule 203 and amended March 1, 2000, effective April 1, 2001; amended May 10, 2002, effective September 1, 2002; amended October 19, 2005, effective February 1, 2006; amended October 22, 2013, effective January 1, 2014; amended , 2017, effective , 2017.

CHAPTER 5. PRETRIAL PROCEDURES IN COURT CASES

PART B(3). Arrest Procedures in Court Cases

(a) Arrest Warrants

Rule 513. Requirements for Issuance; Dissemination of Arrest Warrant Information.

* * * * *

(B) ISSUANCE OF ARREST WARRANT

(1) In the discretion of the issuing authority, advanced communication technology may be used to submit a complaint and affidavit(s) for an arrest warrant and to issue an arrest warrant.

(2) No arrest warrant shall issue but upon probable cause supported by one or more affidavits sworn to before the issuing authority in person or using advanced communication technology. The issuing authority, in determining whether probable cause has been established, may not consider any evidence outside the affidavits.

(3) Immediately prior to submitting a complaint and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority by telephone, or by any device which, at a minimum, allows for simultaneous [audio-visual] audio communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant. In any telephonic communication, if the issuing authority has a concern regarding the identity of the affiant, the issuing authority has the discretion to require the affiant to communicate by a device allowing for two-way simultaneous communication or may require the affiant to appear in person.

Comment

This rule was amended in 2013 to add provisions concerning the delay in inspection and dissemination of arrest warrant information. Paragraph (A) provides a definition of the term "arrest warrant information" that is used throughout the rule. Paragraph (B) retains the existing requirements for the issuance of arrest warrants. Paragraph (C) establishes the procedures for a temporary delay in the inspection and dissemination of arrest warrant information prior to the execution of the warrant.

ISSUANCE OF ARREST WARRANTS

Paragraph (B)(1) recognizes that an issuing authority either may issue an arrest warrant using advanced communication technology or order that the law enforcement officer appear in person to apply for an arrest warrant.

This rule does not preclude oral testimony before the issuing authority, but it requires that such testimony be

reduced to an affidavit prior to issuance of a warrant. All affidavits in support of an application for an arrest warrant must be sworn to before the issuing authority prior to the issuance of the warrant. The language “sworn to before the issuing authority” contemplates, when advanced communication technology is used, that the affiant would not be in the physical presence of the issuing authority. *See* paragraph (B)(3).

This rule carries over to the arrest warrant the requirement that the evidence presented to the issuing authority be reduced to writing and sworn to, and that only the writing is subsequently admissible to establish that there was probable cause. In these respects, the procedure is similar to that applicable to search warrants. *See* Rule 203. For a discussion of the requirement of probable cause for the issuance of an arrest warrant, see *Commonwealth v. Flowers*, [24 Pa.Super. 198,] 369 A.2d 362 (Pa. Super. 1976).

The affidavit requirements of this rule are not intended to apply when an arrest warrant is to be issued for noncompliance with a citation, with a summons, or with a court order.

An affiant seeking the issuance of an arrest warrant, when permitted by the issuing authority, may use advanced communication technology as defined in Rule 103.

When advanced communication technology is used, the issuing authority is required by this rule to (1) determine that the evidence contained in the affidavit(s) establishes probable cause, and (2) verify the identity of the affiant.

[The “visual” requirement in paragraph (B)(3) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.]

Verification methods include, but are not limited to: a “call back” system, in which the issuing authority would call the law enforcement agency or police department that the affiant indicates is the entity seeking the warrant; a “signature comparison” system whereby the issuing authority would keep a list of the signatures of the law enforcement officers whose departments have advanced communication technology systems in place, and compare the signature on the transmitted information with the signature on the list; or an established “password” system.

Under Rule 540, the defendant receives a copy of the warrant and supporting affidavit at the time of the preliminary arraignment.

REPORT

Proposed Amendments of Pa.Rs.Crim.P. 203 and 513
Face-to-Face Requirement for Verification of Affidavits

The Committee has recently received a suggestion to amend the provisions of Rule 203 concerning the use of advanced communications technology for submitting search warrant affidavits. The suggestion was to eliminate the “face-to-face” requirement for the swearing of an affidavit in support of a search warrant application and permit the swearing to be done telephonically. Rule 203(C) provides:

(C) Immediately prior to submitting a search warrant application and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority by any device which, at a minimum, allows for simultaneous audio-visual communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant.

Additionally, the Comment states that “[t]he ‘visual’ requirement in paragraph (C) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.”

It was suggested that the face-to-face requirement of the rule can present significant impediments to using advance communication technology to obtain search warrants. This is especially critical when time is of the essence, such as in DUI cases, where ethanol or other intoxicants dissipate quickly. Officers who seek to obtain search warrants face significant obstacles if they must travel to a site with audio-visual conferencing equipment or to an issuing authority’s office to have a face-to-face appearance. These obstacles are more onerous at nighttime and in the more remote parts of the Commonwealth. Furthermore, it was noted that the federal courts have permitted telephonic submissions for many years. *See* Federal Rules of Criminal Procedure 4.1 and 41.

The current “face-to-face” requirement was added as part of the 2002 rule changes that first permitted the use of advanced communications technology (ACT) in the application process for search and arrest warrants. At that time, the Committee explained this change as follows:

In devising the new ACT procedures, the Committee agreed that the rules should continue to require the ‘written’ affidavits, yet allow for the writing to be submitted using ACT equipment. In addition, we agreed that an important concept for the new procedure would be to require the issuing authority to verify the identity of the affiant, and to maintain the requirement that the issuing authority administer an oath to the affiant. Under the new procedure, the issuing authority and the affiant may communicate from separate locations, and the issuing authority will be able to use ACT to verify the identity of the affiant and administer the oath before the required documentation is transmitted... Unlike the provisions in Federal Rule 41 that permit oral requests for warrants without the requirement of a “face-to-face” encounter, Rules 203 (Requirements for Issuance) and

513 (Requirements for Issuance) do not permit a warrant to issue based on oral testimony alone, and require that the issuing authority using ACT must be able to see the affiant when the oath is administered. 32 Pa.B. 2591 (May 25, 2002).

The Committee noted that when the original proposal was developed, the Committee had published a version of this proposal that included telephonic administration of the oath. See 29 Pa.B. 4426 (August 21, 1999). At that time, the Committee did not distinguish between telephonic and two-way simultaneous audio-visual communication for warrant affidavit verification but rather discussed the issue in terms of advance communications technology that includes both. The Committee was satisfied that any form of ACT was sufficient for the constitutional requirements of warrant issuance. Subsequently, the face-to-face requirement was incorporated into the amendments approved in 2002. The face-to-face requirement appears to have been added as a means of guaranteeing the identity of the affiant. Since this provision was added at the time that ACT first was going to be permitted, there may have been unease with the new technology without this additional guarantee of the affiant's identity.

In examining this issue, the Committee studied federal practice in this area at some length. As noted above, the federal system has permitted the use of "reliable electronic means" for search applications for some time. Originally formulated as part of F.R.Crim.P. 41, the procedures for the use of this type of technology currently are contained in F.R.Crim.P. 41. The Notes to F.R.Crim.P. 41 from the time when these provisions were added discuss the concept of "reliable electronic means":

The term "electronic" is used to provide some flexibility to the rule and make allowance for further technological advances in transmitting data. Although facsimile transmissions are not specifically identified, the Committee envisions that facsimile transmissions would fall within the meaning of "electronic means."

While the rule does not impose any special requirements on use of facsimile transmissions, neither does it presume that those transmissions are reliable. The rule treats all electronic transmissions in a similar fashion. Whatever the mode, the means used must be "reliable." While the rule does not further define that term, the Committee envisions that a court or magistrate judge would make that determination as a local matter. In deciding whether a particular electronic means, or media, would be reliable, the court might consider first, the expected quality and clarity of the transmission. For example, is it possible to read the contents of the warrant in its entirety, as though it were the original or a clean photocopy? Second, the court may consider whether security measures are available to insure that the transmission is not compromised. In this regard, most courts are now equipped to require that certain documents contain a digital signature, or some other similar system for restricting access. Third, the court may consider whether there are reliable means of preserving the document for later use.

Pennsylvania has had over a decade of experience with remote submission of warrant applications with little problem, easing some of the apprehension that may have existed when use of this technology was first introduced in 2002. The Committee also noted that telephonic verification appears to have worked with little problem in the

federal system. While there is potential for telephonic submissions to be abused, the Committee has concluded that this potential problem could be addressed by means other than requiring video-conferencing in every case. The Committee is therefore proposing an amendment to Rule 213 similar to that proposed in 1999 that would permit telephonic verification.

Although the rule already provides for issuing authority discretion in using ACT at all, the Committee concluded that a direct statement regarding telephonic verification would be helpful. Therefore, an additional provision would be added to paragraph (C) that would permit an issuing authority to refuse a telephonic application if there is a question regarding the applicant's identity. This would be consistent with the federal system that permits such assurance as a "local matter."

Although the original suggestion related only to search warrant applications, the Committee's 1999 proposal included arrest warrant submissions and would have permitted telephonic submission there as well. As with Rule 203, Rule 513 (Requirements for Issuance; Dissemination of Arrest Warrant Information) contains similar language regarding face-to-face verification of the affidavit of probable cause. The Committee concluded that the same concerns and rationale applied to arrest warrant applications as well. Therefore similar amendments are being proposed for Rule 513.

FINAL REPORT¹

Proposed Amendment of Pa.R.Crim.P. 564

Addition of Offenses to the Criminal Information

On December 21, 2016, effective December 21, 2017, upon the recommendation of the Criminal Procedural Rules Committee, the Court approved the amendment of Rule 564 (Amendment of Information) to more accurately reflect the interpretation of this rule that has developed since it first was adopted in 1974. Rule 564 provides that the court may allow an information to be amended as long as the amended information "does not charge an additional or different offense." It was suggested by one of the Committee members that case law has interpreted the rule more broadly than a plain reading of the language would indicate.

Rule 564 was adopted as Rule 229 in 1974. Except for renumbering as part of the general reorganization of the Rules of Criminal Procedure in 2000, the language of the rule has remained virtually unchanged since its initial adoption. There has been a considerable body of case law interpreting whether amendments that add new offenses are permissible under the rule. As defined in these cases, the purpose of Rule 564 (or then-Rule 229) is to ensure that a defendant is fully apprised of the charges, and to avoid prejudice to the defendant by prohibiting the last minute addition of alleged criminal acts of which the defendant is uninformed. See, e.g. *Commonwealth v. Lawton*, 414 A.2d 658 (Pa. Super. 1979). Courts apply the rule allowing amendment of a defective information with an eye toward its underlying purposes and with a commitment to do justice rather than be bound by a literal or narrow reading of the procedural rules. *Commonwealth v. Roser*, 914 A.2d 447 (Pa. Super. 2006), *appeal denied* 927

¹ The Committee's Final Reports should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the Committee's explanatory Final Reports.

A.2d 624 (Pa. 2007). In effecting this purpose, the courts employ the test of whether the crimes specified in the original information involved the same basic elements and evolved out of the same factual situation as the crimes specified in the amended information. If so, the defendant is deemed to have been placed on notice regarding the alleged criminal conduct. However, if the amended provision alleges a different set of events, or the elements or defense to the amended crime are materially different from the elements or defense to the crime originally charged, so that the defendant would be prejudiced by the change, then amendment is not permissible. *Commonwealth v. Page*, 965 A.2d 1212 (Pa. Super. 2009). See also, *Commonwealth v. Beck*, 78 A.3d 656 (Pa. Super 2013). Factors that the trial court must consider in determining whether a defendant was prejudiced by an amendment include: (1) whether the amendment changes the factual scenario supporting the charges; (2) whether the amendment adds new facts previously unknown to the defendant; (3) whether the entire factual scenario was developed during a preliminary hearing; (4) whether the description of the charges changed with the amendment; (5) whether a change in defense strategy was necessitated by the amendment; and (6) whether the timing of the Commonwealth's request for amendment allowed for ample notice and preparation. *Commonwealth v. Sinclair*, 897 A.2d 1218 (Pa. Super. 2006), *citing Commonwealth v. Grekis*, 601 A.2d 1284 (Pa. Super. 1992).

The most recent Pennsylvania Supreme Court case dealing with Rule 564 is *Commonwealth v. Brown*, 727 A.2d 541 (Pa. 1999), which held that, since the purpose of the information is to apprise the defendant of the charges against him so that he may have a fair opportunity to prepare a defense, an amendment should be precluded only when the variance between the original and the new charges prejudices a defendant by, for example, rendering defenses which might have been raised against the original charges ineffective with respect to the substituted charges. In this case, an amendment of the information changing the charge from one of sexual assault using force to one of sexual assault on an unconscious person was not proper because it prejudiced the defendant due to the differences in potential defenses available.

Based on the foregoing history and analysis, the Committee concluded that the language of the rule did not accurately reflect the correct standards, as developed by the courts, for allowance of amendment of the information. Therefore, the language of the rule has been amended to reflect that a court may allow the information to be amended provided that the amended information does not "charge offenses arising from a different set of events and that the amended charges are not so materially different from the original charge such that the defendant would be unfairly prejudiced" and cross-references to the pertinent case law have been added to the Comment.

REPORT

Proposed Amendments to Pa.R.Crim.P. 1006

Writs of *Certiorari* and Appeals for Trial *De Novo* in the Philadelphia Municipal Court

The Committee recently considered the opinion of the Pennsylvania Superior Court in the case of *Commonwealth v. Richards*, 128 A.3d 786 (Pa. Super. 2015), *appeal denied*, 145 A.3d 164 (Pa. 2016). *Richards* involved a defendant charged with DUI of a controlled substance. The Philadelphia Municipal Court granted defendant's motion to suppress and the Commonwealth petitioned for writ of *certiorari* to the Court of Common Pleas. After the petition had been filed, the Commonwealth withdrew the charges at a status hearing in the Municipal Court, apparently by mistake. The Court of Common Pleas subsequently dismissed the appeal as moot. The Commonwealth appealed to the Superior Court on the basis that the Municipal Court should not have approved the withdrawal since Rule of Appellate Procedure 1701 bars a lower court from conducting proceedings when a case is on appeal. The Superior Court held that the Rules of Appellate Procedure do not apply to a court of common pleas acting in its role as an appellate court deciding a petition for writ of *certiorari* unless that court expressly adopted such Rules. This finding was based on a plain reading of Rule of Appellate Procedure 103 that limits the applicability of those rules to the Supreme, Superior and Commonwealth Courts.

Rule 1006 provides the procedures for appeal from the Philadelphia Municipal Court. Rule 1006 provides two options for taking an appeal from a Municipal Court judgment: (1) to request a trial *de novo* before the Common Pleas Court; or (2) to file a petition for writ of *certiorari*, asking the Philadelphia Court of Common Pleas, sitting as an appellate court, to review the record made in the Municipal Court. See *Commonwealth v. Williams*, 125 A.3d 425 (Pa. Super. 2015). A trial *de novo* gives the defendant a new trial without reference to the Municipal Court record while a petition for writ of *certiorari* asks the Common Pleas Court to review the record made in the Municipal Court. Generally, a defendant is required to raise all claims in a writ of *certiorari* pertaining to the proceedings in the municipal court, or they will be considered waived on appeal. *Commonwealth v. Coleman*, 19 A.3d 1111 (Pa. Super. 2011).

The specific provision in Rule 1006 related to the filing of a writ of *certiorari* as an option for appeals from the Municipal Court was added in 1996. The Committee provided the rationale for this addition in the Final Report from that amendment:

Several members noted that, although the Philadelphia Public Defender's office utilized petitions for writs of *certiorari* fairly frequently, many members of the private bar apparently were not aware of the continued availability of *certiorari* as an alternative to an appeal for a trial de novo in the court of common pleas. We therefore agreed that the rules should expressly provide for this procedure. Final Report, 26 Pa.B. 989 (March 9, 1996).

This provision merely codifies the right contained in Article V, Section 26 of the Pennsylvania Constitution, and the Judicial Code, 42 Pa.C.S. § 934.¹

Rule of Appellate Procedure 1701 describes the effects on a case when an appeal has been filed. The general rule contained in Rule 1701(A) states, "Except as otherwise prescribed by these rules, after an appeal is taken or review of a quasi-judicial order is sought, the trial court or other government unit may no longer proceed further in the matter." As the *Richards* case holds, the Rules of Appellate Procedure do not apply to appeal to the court of common pleas.

Therefore, the Committee concluded that the principle that the Municipal Court cannot act in a matter once a petition for writ of *certiorari* has been filed with the Court of Common Pleas would have to be specifically added to the rules to be effective. The Committee concluded that such a provision prohibiting action by the Municipal Court once an appeal was filed would be advisable to prevent confusion such as occurred in *Richards* where two courts were acting at the same time on the case to cross purposes.

This provision also would be consistent with other rules which prevent cases from moving back and forth between courts of common pleas and the minor judiciary. See e.g. Rule 541 (if the right to preliminary hearing is reinstated after defendant waived preliminary hearing, the preliminary hearing must be in common pleas court, unless the parties and judge agree that the issuing authority conduct the preliminary hearing) and Rule 543(G) (once a case is bound over to the court of common pleas, the case shall not be remanded to the issuing authority.) It would also be consistent with the general principle that an appeal moves the case from one court to another.

In a case in which an appeal for trial *de novo* has been filed, it is much clearer that any action must be taken by the Court of Common Pleas. The Committee concluded that these appeals should also be included in the new provision for clarity. A new paragraph (B) would be added to Rule 1006 stating that once case has been appealed from the Municipal Court to the Philadelphia Court of Common Pleas, the Municipal Court may no longer take action on that case.

¹ Article V, Section 26 provides:

§ 26. Writs of *certiorari*.

Unless and until changed by rule of the Supreme Court, in addition to the right of appeal under section 9 of this article, the judges of the courts of common pleas, within their respective judicial districts, shall have power to issue writs of *certiorari* to the municipal court in the City of Philadelphia, justices of the peace and inferior courts not of record and to cause their proceedings to be brought before them, and right and justice to be done.

42 Pa.C.S. § 934 provides:

Unless and until changed by general rule, the judges of the courts of common pleas, within their respective judicial districts, shall have power, in addition to the right of appeal under section 9 of Article V of the Constitution of Pennsylvania, to issue writs of *certiorari* to the minor judiciary.

(B) *Economic hardship*

(1) In accordance with Pa.R.J.A. 4008(B)(1), a litigant who has already been permitted to proceed with the commencement of the underlying action or with the taking of the appeal in forma pauperis will, in matters under appeal or where the transcript is necessary to advance the litigation, receive waiver of transcript costs. The order granting the litigant in forma pauperis status shall be attached to the Transcript Request Form which is filed and served in accordance with Pa.R.J.A. 4007 and Erie County Rule of Judicial Administration 4007. In addition to attaching the order to the request, the litigant should also attach a verified statement indicating that the party is aware of his or her continuing obligation to inform the court of improvement in his or her financial circumstances and that no such improvement has occurred since entry of the order granting permission to proceed in forma pauperis. The petitioner shall be responsible for forwarding a copy of the resulting order to the District Court Administrator. Failure to serve the order may result in delayed transcription.

This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. PA DEP Central Office: Bureau of Clean Water, Rachael Carson State Office Building, 400 Market Street, Harrisburg, PA 17105-8184, Telephone: 717.787.8184.

PA0270814, Pesticides, SIC Code 4911, **PPL Electric Utilities Corp**, 1639 Church Road, Allentown, PA 18104-9342.

Description of Proposed Activity: The application is for a new NPDES permit coverage for discharges associated with the use of pesticides to control vegetation (weeds) in its Statewide treatment area that would interfere with the transmission and distribution corridors; and to control vegetation especially at substations, that could create a safety and security risk or has the potential to limit access by its personnel to facilities.

Applicators are required to follow product labeling instructions of pesticides, which may include provisions to reduce application doses and notify public water suppliers in the event applications are conducted near public water supply intakes. Applicators are required to coordinate with the operators of such drinking water treatment plants prior to treatment to avoid any shortages. The discharges associated with the pesticide applications by PPL are not expected to affect public water supplies.

DEP has made a tentative determination to issue the NPDES permit subject to the terms and conditions of the permit. An anti-degradation analysis has been completed to document that pesticide application activities in High Quality (HQ) or Exceptional Value (EV) waters will be conducted in a manner that minimizes adverse environmental effects. The proposed permit contains conditions that require implementation of Pest Management Measures, Recordkeeping and Annual Reporting Requirements, Corrective Action Documentation and Reporting, and a Pesticides Discharge Management Plan.

You may make an appointment to review the DEP files on this case by calling Bureau of Clean Water at 717-787-5017. You may submit written comments on the application and draft permit within 30 days to the address above. After the 30-day comment period, PA DEP will make a final determination on the issuance of the permit.

The EPA waiver is not in effect.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of

the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department’s analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department’s Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Public Notice of Proposed Limited Interim Response

CBS Vanport/Vanport Township Municipal Authority Site

Vanport Township, Beaver County

Under Section 506(b) of the Hazardous Sites Cleanup
Act (HSCA) (35 P.S. § 6020.506(b)), notice is hereby given
that the Department of Environmental Protection (De-
partment) is proposing to undertake a HSCA limited
interim response at the CBS Vanport/Vanport Township
Municipal Authority Site (Site), in Vanport Township,
Beaver County.

Samples obtained from various points upgradient of the
Vanport Township Municipal Authority water supply sys-
tem have indicated trichloroethylene (TCE) at concentra-
tions above the 5.0 ug/l standard set under the Land
Recycling and Environmental Remediation Standards Act
(35 P.S. §§ 6026.101—6026.9089), commonly known as
Act 2, which poses an ongoing threat to the Vanport
Township Municipal Authority water supply system.

The Department has considered the following three alternatives to address the release of TCE at the Site: 1) take no action; 2) subsidize monthly monitoring of VTMA's air stripping tower influent and select groundwater wells; or 3) continue a monthly sampling protocol; undertake fate and transport modeling of the TCE plume using existing groundwater data; collect additional data as needed; collect soil and surface water samples to better define TCE contamination areas; and assess the efficiency, future viability, and alternatives to the air stripping tower and pump and treat systems.

The Department proposes undertaking Alternative 3, because it complies with applicable or relevant and appropriate requirements and is cost-effective.

The Administrative Record which contains the information that supports the Department's selection of this response action is available for public review and comment. The Administrative Record is available for review at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222, Monday through Friday, between 9:00 a.m. and 4:00 p.m.

The Administrative Record will be open for review and comment from January 14, 2017, until April 14, 2017. Persons may submit written comments into the record during this time only, by sending them to Annette Paluh, Project Manager, Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222.

In addition, persons may present, at a public hearing, oral comments which will be transcribed for inclusion in the Administrative Record. The Department has scheduled the public hearing on February 28, 2017, at 6:00 p.m., at the Vanport Township Municipal Building, 477 State Avenue, Vanport, PA 15009. Persons wishing to present comments must register in writing with Brian Schimmel, at the Department's Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222, or by telephone at (412) 442-4199, before noon on February 28, 2017.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings should call Brian Schimmel at (412) 442-4199, or through the Pennsylvania AT&T Relay Service at 1-800-654-5984 (TDD), to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environ-

mental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

2) To construct and maintain approximately 8.3 miles of 230 kV electric transmission line in new ROW beginning at the existing ROW approximately 2 miles east of Cyclone near McOuan Hollow (Cyclone, PA Quadrangle N: 41°, 50', 35.96"; W: 78°, 32', 35.57") and continuing east to the Pierce Brook Substation (Smethport, PA Quadrangle N: 41°, 50', 31.34"; W: 78°, 24', 32.30") including the following impacts:

a. Aerial power line crossings of 29 wetlands, 1 pond, and 17 streams/floodways including Potato Creek and

associated tributaries, tributaries to South Branch Cole Creek, and tributaries to Pierce Brook.

b. Temporary equipment crossings of 30 wetlands and 12 streams including tributaries to South Branch Cole Creek and tributaries to Potato Creek resulting in temporary impacts to 1.03 acre of wetland and 210 LF of stream.

c. Installation of 4 poles in wetlands and 4 in floodways; 2 guy anchors in wetlands and 9 in floodways.

d. Permanent conversion of approximately 2.1 acres of PFO/PSS wetland to PEM in the maintained ROW.

3) To remove approximately 5.2 miles of existing electric transmission line and poles beginning approximately 2 miles east of Cyclone near McOuan Hollow (Cyclone, PA Quadrangle N: 41°, 50', 35.96"; W: 78°, 32', 35.57") and extending east along South Branch Cole Creek to the Farmers Valley Substation (Smethport, PA Quadrangle N: 41°, 51', 17.62"; W: 78°, 26', 51.75") including temporary equipment crossings of 32 wetlands and 19 streams including South Branch Cole Creek and associated tributaries resulting in temporary impacts to 1.4 acre of wetland and 479 LF of stream.

4) To install additional temporary equipment crossings of 15 wetlands and 4 streams including tributaries to Potato Creek and tributaries to South Branch Cole Creek resulting in temporary impacts to a total of 0.3 acre of wetland and 97 LF of stream.

5) To mitigate for the above impacts by enhancing 4.03 acres of existing wetland located adjacent to the ROW in Keating Township, McKean County (Smethport, PA Quadrangle N: 41°, 49', 52.06"; W: 78°, 25', 11.74") by planting trees and shrubs, excluding cattle, and placing the parcel in a conservation easement.

EROSION AND SEDIMENT CONTROL

The following Erosion and Sediment Control permits have been issued.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

<i>Applicant</i>	<i>Applicant Address</i>	<i>County</i>
Aqua Pennsylvania, Inc.	1 Aqua Way White Haven, PA 18661	Chestnuthill Township Monroe County

Project Description: The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth’s State Revolving Fund, is intended to be the funding source for this project. Aqua Pennsylvania, Inc. is proposing significant rehabilitation of the existing Sun Valley water system. Proposed improvements consist of replacing the two existing storage tanks with a 10,000 gallon tank; replacing the well pump with no increase in capacity; constructing a new well house; replacing the chemical feed system for disinfection purposes; replacing corrosion control treatment facilities (pH adjustment and blended potassium phosphate addition); installing new discharge piping with necessary appurtenances; installing 36 LF of 30-inch diameter contact main; and replacing approximately 10,300 LF of distribution system main with all necessary appurtenances. The Department’s review of the project and the information received in the Environmental Report for the project has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby approves the Environmental Assessment for the proposed project.

Conditional State Water Quality Certification for the Allegheny Lock and Dam # 2 Hydroelectric Project, FERC Project No. 13755

WQ05-002, FFP Missouri 12, LLC (Applicant), 745 Atlantic Avenue, 8th Floor, Boston, MA 02111. Allegheny Lock & Dam # 2 Hydroelectric Project (Project). The proposed project is located at the existing Allegheny Lock & Dam # 2 facility, within the Allegheny River, at approximate river mile 6.7 (Pittsburgh East, PA USGS Topographic Quadrangle N: 40°, 29’, 22”; W: -79°, 54’, 49”), in Sharpsburg Borough and O’Hara Township, **Allegheny County**, Pittsburgh Corps District.

The Project, as proposed, will modify the existing lock and dam to construct a new intake channel, trash rack, powerhouse, tailrace channel, spillway, retaining wall, access road, parking area, substation and transmission line, in association with constructing a new, 17.0 MW hydroelectric facility, for the purpose of generating electricity. The Project, as proposed, will require approximately 7.44 acres of earth disturbance, and permanent impacts to approximately 250 linear feet of the Allegheny River (WWF, N). In addition, the confluence of Guyasuta

Run (WWF) with the Allegheny River will be relocated, downstream, by constructing an approximately 170 feet long extension of an existing, approximately 10’ high, concrete arch culvert. The extension will consist of a corrugated metal pipe arch, with a 17’ span and an 11’-2” rise. This project will also permanently impact approximately 2.85 acres of floodway, and approximately 2.24 acres of the floodway fringe.

On February 3, 2014, Applicant filed an application with the Federal Energy Regulatory Commission (FERC), seeking a Hydropower License for its Project (FERC Docket No. P-13755). The hydropower license application for this project may be viewed on FERC’s website at www.ferc.gov (search eLibrary; Docket Search; P-13755). The Applicant is required, pursuant to section 401(a) of the Federal Clean Water Act (CWA) (33 U.S.C.A. § 1341(a)), to provide FERC with certification from the Commonwealth of Pennsylvania (Commonwealth) that any discharge from the Project to waters of the Commonwealth will comply with provisions of CWA relating to water quality standards, and necessary measures to achieve and maintain those standards. The Commonwealth has established such standards and programs to achieve and maintain them under State law, which have been approved by the U.S. Environmental Protection Agency as consistent with the applicable provisions of CWA. The Pennsylvania Department of Environmental Protection (Department) administers the Commonwealth’s water quality standards programs under state law, and is responsible for the review of requests from applicants for water quality certification made pursuant to section 401 of CWA.

On December 22, 2015, Applicant requested a state water quality certification from the Department, as required by Section 401 of CWA (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with state water quality standards and associated state law requirements, which are consistent with CWA requirements.

The Department published notice of its proposed state water quality certification in 46 Pa.B. 3518 (July 2, 2016), and received zero (0) comments from the public.

By this notice, the Department certifies that the construction, operation and maintenance of the Project complies with the applicable provisions of sections 301–303, 306 and 307 of CWA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317), and will not violate the Commonwealth’s water quality standards set forth in 25 Pa. Code Chapter 93, provided that the construction, operation and maintenance of the Project complies with the conditions for this certification as listed below, and the terms and conditions of the state law permits required to demonstrate compliance with Pennsylvania’s Water Quality Standards:

1. *Conditional State Water Quality Certification*—This conditional state water quality certification is based upon the information that is available, to date, due to the

FERC licensing process, and is granted with the understanding that the applicant will be submitting a final Environmental Assessment (EA) to the Department, to be reviewed and approved by the Department, prior to the start of construction. This final EA shall be submitted to the Department at the same time that the Applicant submits its application to the U.S. Army Corps of Engineers (USACE or Corps) for a Section 404 Permit, to facilitate a coordinated review between the Department and USACE. The final EA that is submitted to the Department must be developed from final design plans, specifications and reports.

2. *Erosion and Sediment Control*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 102. The Applicant shall obtain and comply with an NPDES permit from the Department for the discharge of stormwater if the earth disturbance activities associated with the Project will result in a total disturbance equal to or greater than 1 acre. Earth disturbance activities associated with discharging dredged or fill material from the Project to waters of the United States which require permit coverage under Section 404 of CWA (33 U.S.C.A. § 1344) need not obtain an additional NPDES Permit from the Department for earth disturbance activities covered by the Section 404 permit. The Applicant shall submit final detailed erosion and sediment control and post construction stormwater management plans for all Project activities to the Department and County Conservation District for their review and approval prior to commencement of construction. Specific guidance on the requirements of the NPDES Permit for Stormwater Discharges Associated with Construction Activities can be obtained from the County Conservation District or the DEP Regional Office.

3. *Water Obstruction and Encroachment Permit*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 105 relating to dam safety and waterway management. The Applicant shall obtain, from the Department, and comply with a Chapter 105 Water Obstruction and Encroachment Permit (WO&EP), for the construction, operation and maintenance of any water obstruction or encroachment associated with the Project that is outside the scope of work licensed under the Federal Power Act, pursuant to the Clean Streams Law (35 P.S. §§ 691.1—691.1001), Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601.), and all applicable implementing regulations.

4. *Submerged Lands License Agreement*—The Applicant shall obtain, from the Department, and comply with a Submerged Lands License Agreement, pursuant to Section 15 of the Dam Safety and Encroachments Act, 32 P.S. § 693.15, to occupy submerged lands of the Commonwealth in navigable waters as necessary to construct, operate and maintain the Project.

5. *Water Resource Planning Act Registration*—In accordance with the Pennsylvania Water Resources Planning Act, 27 Pa.C.S. §§ 3118, and the regulations thereunder, 25 Pa. Code Chapter 110, the Applicant must register the hydropower facility with the Department, and report water usage to the Department, annually.

6. *Limited Power Permit*—The Applicant shall obtain and comply with a permit from the Department as required by the Water Power and Water Supply Permits Act, Act of June 14, 1923, 32 P.S. §§ 591—625, related to the construction of a power dam or for a “change in stream” to develop power. The Applicant shall submit an

application for this permit to the Department on the form available from the Department.

7. *Water Quality Monitoring*—During final design, the Applicant shall develop a water quality monitoring plan, to be implemented during the construction and operation of this project, and shall submit this plan to the Department for review and approval, prior to the start of construction, to ensure that the receiving water quality is not adversely impacted by the Applicant's construction, operation or maintenance of the Project. This water quality monitoring plan shall include adequate provisions to ensure that monitoring will assess any potential cumulative effect upon water quality, from the operation of all the currently proposed hydroelectric projects, within the greater Pittsburgh region. Thereafter, Applicant shall submit the results of the water quality monitoring to the Department, and the USACE, along with suggested modifications in the operation or maintenance of the Project for inclusion in the adaptive management plan, should adverse impacts to water quality result from the project.

8. *Operating Plan and Adaptive Management Plan*—The applicant will be developing an operating plan, Memorandum of Agreement, and an adaptive management plan with the USACE. Applicant will submit these plans to the Department for review and approval, prior to the start of construction, to evaluate potential effects of these plans upon, and compliance with, state water quality standards.

9. *Final Project Design Development*—During final design, applicant shall evaluate alternative designs for the proposed Project that may have the potential to reduce expected fish entrainment and mortality, such as, but not limited to, reducing and/or modifying the proposed 5-inch trash rack spacing, intake channel design, or other alternative designs, pursuant to Section 105.14(b)(4) and (6) of the Department's regulations, 25 Pa. Code § 105.13(e)(1)(viii) and § 105.14(b)(4) and (6). This alternatives analysis shall be included in the Applicant's final EA, to be submitted to the Department for review and approval, prior to the start of construction. The final design shall also take into account the cumulative impact evaluations associated with conditions (10) and (11).

10. *Cumulative Impacts to Fish Populations*—Since the project is one of several, currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant, during final design, shall further evaluate the cumulative impacts from these hydroelectric projects, upon area fish populations, due to expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

11. *Cumulative Impacts to Mussel Populations*—Since the Project is one of several currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant shall further evaluate, during final design, the cumulative impacts from these hydroelectric projects, upon local mussel populations, due to potential unavailability of host fish from expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

12. *Minimum By-pass Flows*—Project shall provide year-round by-pass flows, across the length of the dam, through the proposed crest gates, during the operation of the Project, to provide aeration and protect water quality,

and to provide additional habitat diversity. During the final design, Applicant shall further evaluate the amount of by-pass flows necessary for the purposes of protection of public health, water quality control, conservation of fisheries, and aquatic habitat, improvement of recreation, and protection of instream and downstream water uses. Applicant shall provide this evaluation to the Department, within its final EA, for the Department's review and approval, prior to the start of construction.

13. *Higher Pool Elevation*—During the final design, since the pool elevation will be stabilized at a higher elevation with the proposed crest gates, Applicant shall evaluate the potential threats of the higher pool elevation upon the following, which shall include but not be limited to, property, riparian rights, existing wetlands and other aquatic habitats, and fishing access.

14. *Aids to Navigation (ATON) Plan*—Applicant shall develop an ATON Plan, to avoid or minimize impacts to recreational boating. This plan must be reviewed and approved by the PA Fish and Boat Commission (PFBC), prior to the start of construction. Please contact the PA Fish and Boat Commission, PO Box 67000, Harrisburg, PA 17106, regarding the requirements for an ATON Plan.

15. *Hydraulic Modeling*—Applicant has indicated that additional hydraulic modeling will be conducted during Final Design. The results of this additional hydraulic modeling shall be included in the applicant's final EA that is to be submitted to the Department, for the Department to review and approve. In addition, the Applicant shall provide an evaluation of potential impacts upon the habitat in the vicinity of Six Mile Island and the potential for increased erosion of this island, and a plan to address any potential habitat and erosion impacts. Alternative designs may need to be considered, to avoid or minimize any adverse environmental impacts that arise during this additional modeling and evaluation. Mitigation may be required to compensate for any adverse environmental impacts that cannot be avoided.

16. *Programmatic Agreement*—Applicant shall comply with the Final Programmatic Agreement Between the Federal Energy Regulatory Commission and the Pennsylvania State Historic Preservation Office for Managing Historic Properties that may be Affected by Issuing an Original License to FFP Missouri 12, LLC for the Construction, Operation, and Maintenance of the Allegheny Lock and Dam 2 Hydroelectric Project Located in Allegheny County, Pennsylvania (FERC No. 13755-002).

17. *Riparian Property*—Within its final EA, Applicant shall submit evidence that it has obtained notarized and signed releases, or has acquired rights of occupancy and use other than fee title, from the owners of any affected riparian property. With respect to a proposed extension of the existing Guyasuta Run stream enclosure, Applicant shall provide either proof of title or easement, in accordance with the requirements of Section 105.191(7) of the regulations, 25 Pa. Code § 105.191.7.

18. *Fish & Mussel Surveys and Mitigation*—The Project footprint will reduce riverine habitat below the dam by approximately 2.75 acres, and approximately 7.44 acres will be disturbed during construction. In addition, Applicant acknowledges that the project could potentially alter some mussel habitat conditions through changes in velocity and scour patterns downstream of the dam, and due to changes in water depth upstream of the dam. Accordingly, fish and mussel surveys shall be conducted three (3) years after project construction, to evaluate the project's impact to fish and mussel species in the project

area. The plans for these surveys shall be included within the Applicant's final EA, for the Department's review and approval. In addition, the results of these surveys shall be submitted to the Department for review, within 60 days of completion of these surveys. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the applicant may have to provide compensation for the adverse environmental impact.

19. *Cumulative Environmental Impact Assessment*—The Project is one of several, currently proposed hydroelectric projects in the Ohio, Monongahela, and Allegheny Rivers, within the greater Pittsburgh area river basins. Fish species, such as walleye, smallmouth bass, darters, etc., inhabit the area that can exhibit some migratory behavior, and could pass through multiple hydroelectric projects. In addition, the Applicant's Fish Entrainment Study reports mortality to fish species, such as catfish, walleye, drum, darters and bass, that are more likely to be host fish that are important to mussel propagation. Accordingly, Applicant shall develop a plan to conduct fish and mussel surveys, after the construction of all, or at least 50%, of the currently proposed hydroelectric projects, to evaluate the potential for cumulative impacts to area fish and mussel populations. This plan shall be included with the Applicant's final EA, for the Department's review and approval. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the Applicant may have to provide compensation for the adverse environmental impact.

20. *Clean Water Program Coordination*—Applicant shall evaluate the cumulative impacts of lowering Dissolved Oxygen (DO) concentration below existing levels on overall water quality. This analysis shall include an evaluation of the effects of lower DO levels on other dischargers, whose dissolved oxygen analysis could be impacted by any reduction in DO due to the proposed project. The Applicant shall include, within its final EA to be submitted to the Department, a full analysis depicting the pre- and post-construction dissolved oxygen using a Q7-10 flow, and achieving a 7-day average of 5.5 mg/l and a minimum of 5.0 mg/l at the project site, and all points potentially impacted downstream of the project, in accordance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder, and 25 Pa. Code § 93.7.

21. *Water Quality Requirements*—The project must maintain the applicable water quality standard of a 7-day average DO concentration of 5.5 mg/l and a minimum DO concentration of 5.0 mg/l, at Q7-10 low flow conditions, unless the analysis required by the preceding condition indicates that a higher DO level is needed to maintain the DO water quality standard within the Emsworth Pool given consideration of all existing, permitted dischargers currently within the pool in accordance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder.

22. *Stream and Habitat Mitigation*—Since the Project will eliminate approximately 2.75 acres of riverine habitat, and will enclose an additional 344 feet of Guyasuta Run, Applicant shall include, within its final EA to be submitted to the Department, a plan to mitigate for this lost habitat, for the Department's review and approval.

23. *Fishing Access*—During final design, Applicant shall develop a plan to compensate for lost recreational fishing by providing angler access that is comparable to, or better than, current conditions. Applicant shall consider providing angler access that is close to normal water surface elevations and the water's edge, and adequately compensate for the footage of fishing access lost.

24. *Boater Safety*—Project will cause some boaters in the vicinity of the Silky's Crows Nest Marina to experience a stronger cross-current (increase of up to 2 feet/sec or 1.2 knots), under certain flow conditions. Accordingly, in its final EA, Applicant shall provide to the Department, and to the operator of the marina, an analysis of the effect the stronger cross-current might have on boat safety, for boaters in the vicinity of this marina. This analysis shall be completed by a hydrologist. In addition, Applicant shall provide a letter from the operator of this marina, commenting on this analysis.

25. *Fish Mitigation*—Since the project will impact fish, Applicant shall include, within its final EA to be submitted to the Department, a mitigation plan to compensate for this environmental impact, for the Department's review and approval.

26. *Fish and Mussel Salvage*—Applicant shall further develop its fish and mussel salvage plan to safely remove fishes and mussels from the project area that would otherwise be trapped behind the proposed coffer dams during the dewatering process. These fish and mussels should be relocated to areas outside of the project area.

27. *River Sediment Testing*—Applicant shall manage dredge material removed from the river in accordance with the Solid Waste Management Act, Act of July 7, 1980, P.L. 380, No. 97, as amended, 35 P.S. §§ 6018.101—6018.1003 ("Solid Waste Management Act") and regulations promulgated thereunder. Permittee should contact the Facilities Chief, Waste Management Program, Southwest Regional Office, with questions regarding this requirement. The project shall be consistent with the Department's Management of Fill policy and the analytic requirements therein. If the testing reveals that the dredged material exceeds the requirements for unrestricted use as clean fill, then the Applicant shall arrange for off-site disposal of the dredged sediments, after applying for and obtaining approval from the Department's Waste Management Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

28. *Threatened, Endangered and Special Concern Species*—The results obtained from utilizing the Pennsylvania Natural Diversity Inventory's Pennsylvania Natural Diversity Inventory (PNDI), and any determinations received from an appropriate jurisdictional agency during any associated consultations, are valid only for 2 years. Accordingly, Applicant must include new PNDI search results within its final EA, along with evidence of any necessary follow-up with the appropriate jurisdictional agency(s). In addition, PNDI search results and clearances must be current and valid, prior to the start of construction.

29. *Geotechnical Testing*—If a temporary road, drilling platform or other structure is needed to conduct any core boring drilling operations or geotechnical testing, within the Commonwealth's waterways, Applicant shall obtain a permit(s) or other authorization(s) from the Department, prior to conducting any core boring drilling operations or geotechnical testing.

30. *Preparedness, Prevention and Contingency Plan*—The Applicant shall develop and maintain on site a Preparedness, Prevention and Contingency Plan (PPC Plan) for any project activities utilizing pollutants, pursuant to Section 91.34 of the regulations, 25 Pa. Code § 91.34. The PPC Plan shall be developed in accordance with the "Guidelines for the Development and Implementation of Environmental Emergency Response Plans" which can be found at: <http://www.elibrary.dep.state.pa.us/dsweb/Get/Document-48522/400-2200-001.pdf>.

31. *Operation*—The Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control and related appurtenances which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by the Applicant.

32. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of the Department to determine compliance with this State Water Quality Certification, including all required state water quality permits and state water quality standards. A copy of this certification shall be made available for inspection by the Department during such inspections of the Project.

33. *Transfer of Projects*—If the Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, the Applicant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the Department's Southwest Regional Office of such intent. Notice to the Department shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them. The existing owner shall continue to be responsible for construction and operations at the Project until a transfer to the new owner has been completed. The new owner shall comply with the conditions of this certification, which shall remain in effect.

34. *Correspondence*—All correspondence with and submittals to the Department concerning this State Water Quality Certification shall be addressed to the Department of Environmental Protection, Southwest Regional Office, Waterways and Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222, and shall reference DEP File No. WQ05-002, APS ID # 888360, or Authorization No. 1103412.

35. *Reservation of Rights*—The Department may suspend or revoke this State Water Quality Certification if it determines that the Applicant has not complied with the terms and conditions of this certification. The Department reserves the right to require additional measures to achieve compliance with applicable laws and/or regulations, subject to the Applicant's applicable procedural and substantive rights.

36. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve the Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable Federal or State law or regulation.

37. *Severability*—The provisions of this State Water Quality Certification are severable and should any provision of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Any person aggrieved by this action may appeal, pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Chapter 5A, to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, 717-787-3483. Special Pharmaceutical Benefits Program Advisory Council Public Meeting

The Statewide Special Pharmaceutical Benefits Program (SPBP) Advisory Council, established by the Department of Health (Department) to aid in the carrying

Special Supplemental Nutrition Program for Women, Infants and Children (WIC Program); Listing of Licensed Infant Formula Sellers

The WIC Program is a Federal program sponsored and funded by the United States Department of Agriculture (USDA) under section 17(d)(1) of the Child Nutrition Act of 1996 (42 U.S.C.A. § 1786(d)(1)), the Child Nutrition and WIC Reauthorization Act of 2004 (Pub.L. No. 108-265) and 7 CFR 246.1 (relating to general purpose and scope). Under 7 CFR 246.3(a) (relating to administration), the WIC Program is designed to provide nutritious foods to supplement the diets of certain low-income women, infants and children at nutritional risk. The Food and Nutrition Service (FNS) within the USDA has the responsibility for the administration of the WIC Program. Under 7 CFR 246.1, the USDA-FNS provides cash grants to state agencies to administer the WIC Program. The Department of Health (Department) is the State agency that has the responsibility for the operation of the WIC Program in this Commonwealth.

The Department, as the State agency for USDA-FNS in this Commonwealth, distributes nutritious foods, including infant formula, to WIC Program participants through a retail store food delivery system. Under 7 CFR 246.12(g) (relating to food delivery methods), the Department is required to authorize an appropriate number and distribution of WIC vendors to ensure the lowest practicable food prices consistent with adequate participant access to supplemental foods. As part of that responsibility under 7 CFR 246.12(g)(11), the Department is required to provide a list to all WIC authorized vendors of the names and addresses of licensed infant formula wholesalers, distributors and retailers, and infant formula manufacturers registered with the Food and Drug Administration (FDA) that provide infant formula.

The purpose of this notice is to provide a list of sellers of infant formula who are either: (1) registered with the Department of Agriculture or with the authorized agency in the state in which the seller is located and are,

therefore, deemed licensed by the Department; or (2) registered with the FDA. WIC authorized vendors must purchase infant formula to be sold to WIC participants from a seller on this list or from another WIC authorized vendor. Since WIC authorized vendors are authorized to sell and purchase infant formula within this Commonwealth, a WIC authorized vendor may purchase infant formula from another WIC authorized vendor. WIC authorized vendors are identifiable by the PA WIC decal located at the entrance of the vendor.

Pennsylvania WIC authorized vendors must maintain records of purchase for allowable foods and records used for Federal tax reporting purposes for a minimum of 2 years in accordance with 28 Pa. Code § 1105.3(a)(16) (relating to terms and conditions of participation). If a vendor is reviewed during a Formula Inventory Audit, the vendor will be required to submit authentic purchase records or invoices. The purchase records or invoices must identify the date of purchase and the name and address of the location where the purchase was made. No hand written receipts will be accepted.

Purchasing infant formula from a seller that is not registered either with the Department of Agriculture or with the authorized agency in the state in which the seller is located or registered with the FDA or that is not an active Pennsylvania WIC authorized vendor may result in disqualification from the WIC Program.

This notice is also available on the Vendor Assistant web site at <https://wic.health.state.pa.us/vendorassistant/>.

For more information, or persons with a disability who require an alternative format of this notice (for example, large print, audiotape, Braille) should contact Jay Mast, Public Health Program Manager, Division of Quality Assurance and Program Integrity Section, Bureau of WIC, 7th Floor, Health and Welfare Building, 625 Forster Street, Harrisburg, PA 17120, (717) 783-1289 or for speech and/or hearing impaired persons V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984.

DEPARTMENT OF HUMAN SERVICES

Nursing Facility Assessment Program for Fiscal Year 2016-2017

This notice announces the amount of the assessment that the Department of Human Services (Department) is implementing for Fiscal Year (FY) 2016-2017, provides an explanation of the assessment methodology that the Department is using in FY 2016-2017 and identifies the estimated aggregate impact on nursing facilities which will be subject to the assessment.

Background

Article VIII-A of the Human Services Code (code) (62 P.S. §§ 801-A—815-A) authorizes the Department to impose an annual monetary assessment on nursing facilities and county nursing facilities in this Commonwealth each fiscal year through FY 2016-2017. Under Article VIII-A of the code, the Department may impose the assessment only to the extent that the assessment revenues qualify as the State share of Medical Assistance (MA) Program expenditures eligible for Federal financial participation (FFP). See 62 P.S. § 803-A. To ensure receipt of FFP, Article VIII-A of the code requires the Department to seek a waiver from the Federal Centers for Medicare & Medicaid Services if necessary to implement the Assessment Program. See 62 P.S. § 812-A.

For each fiscal year that the Assessment Program is implemented, the code authorizes the Secretary of the Department (Secretary) to determine the aggregate amount of the assessment and the annual assessment rate in consultation with the Secretary of the Budget. See 62 P.S. § 804-A. The code specifies that annual assessment rates must be sufficient to generate at least \$50 million in additional revenue, but not more than the maximum aggregate assessment amount that qualifies for Federal matching funds. See 62 P.S. § 804-A.

The Secretary must publish a notice in the *Pennsylvania Bulletin* before imposing an annual assessment for a fiscal year. The notice must specify the amount of the assessment being proposed, explain the proposed assessment methodology, identify the estimated assessment amount and aggregate impact on nursing facilities subject to the assessment and provide interested persons a 30-day period to comment. See 62 P.S. § 805-A.

After consideration of any comments received during the 30-day comment period, the Secretary must publish a second notice announcing the rate of assessment for the

fiscal year. See 62 P.S. § 805-A. The annual aggregate assessment amount and assessment rate for the fiscal year must be approved by the Governor. See 62 P.S. § 804-A.

The Secretary published a notice at 46 Pa.B. 3352 (June 25, 2016) announcing the proposed assessment rates, the aggregate amount and the impact for FY 2016-2017. No comments were received by the Department in response to the proposed rates notice.

Assessment Methodology and Rates for FY 2016-2017

The following nursing facilities will continue to be exempt from the Assessment Program in FY 2016-2017:

- (1) State owned and operated nursing facilities.
- (2) Veteran's Administration nursing facilities.
- (3) Nursing facilities that have not been licensed and operated by the current or previous owner for the full calendar quarter prior to the calendar quarter in which an assessment is collected.
- (4) Nursing facilities that provide nursing facility services free of charge to all residents.

The Department will assess nonexempt nursing facilities at two rates. One rate will apply to four categories of nursing facilities: county nursing facilities; nursing facilities that have 44 or fewer licensed beds; qualified nursing facilities affiliated with Continuing Care Retirement Communities (CCRC) (see 40 Pa.B. 7297 (December 18, 2010)); and nursing facilities with an MA occupancy rate of at least 94% based on the four consecutive assessment quarters beginning April 1, 2015, and ending March 31, 2016, for each nursing facility as of April 22, 2016. The other rate will apply to all other nonexempt facilities, including nursing facilities that began participation in a CCRC on or after July 1, 2010. Using the applicable rate, the Department will calculate an annual assessment amount for each nonexempt facility by multiplying its assessment rate by the facility's historical non-Medicare resident day for the four consecutive assessment quarters beginning April 1, 2015, and ending March 31, 2016, and collect the annual assessment amount in four equal quarterly installments.

Although the Department will maintain the same basic rate structure for FY 2016-2017, the Department is increasing the assessment rate for nonexempt nursing facilities in the higher rate tier from the rates in FY 2016-2017. For FY 2016-2017, the assessment rates for nonexempt nursing facilities will be as follows:

- (1) For county nursing facilities, for nursing facilities that have 44 or fewer licensed beds, for qualified CCRC nursing facilities and nursing facilities with an MA occupancy rate of at least 94% based on the four consecutive assessment quarters beginning April 1, 2015, and ending March 31, 2016, for each nursing facility as of April 22, 2016, the assessment rate will be \$8.01 per historical non-Medicare resident day.
- (2) For all other nonexempt nursing facilities, the assessment rate will be \$32.10 per historical non-Medicare resident day.

Assessment payments are due the last day of the assessment quarter or 30 days after publication of this second notice, whichever is later.

The Assessment Program due dates, along with supplemental payment dates, will be available on the Department's web site at <http://www.dhs.pa.gov/provider/longtermcasemixinformation/index.htm>.

Aggregate Assessment Amounts and Fiscal Impact

The Department estimates that the annual aggregate assessment fees for nonexempt nursing facilities will total \$506.472 million. The Department will use the State revenue derived from the assessment fees and any associated FFP to support payments to qualified MA nursing facility providers in accordance with applicable laws and regulations.

Interested persons are invited to submit written comments regarding the contents of this notice to the Department of Human Services, Office of Long-Term Living, Bureau of Policy and Regulatory Management, Attention: Marilyn Yocum, P.O. INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

State Board of Examiners in Speech-Language Pathology and Audiology Regulation # 16A-6803 (IRRC # 3159)

**Fees; General Revisions
December 28, 2016**

We submit for your consideration the following comments on the proposed rulemaking published in the October 29, 2016 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Examiners in Speech-Language Pathology and Audiology (Board) to respond to all comments received from us or any other source.

1. Whether the regulation is consistent with the intent of the General Assembly; Fiscal impact.

The Speech-Language and Hearing Licensure Act was amended by Act 106 of 2014 (Act 106). Act 106 changed

the name of the aforementioned Act to the Speech-Language Pathologists and Audiologists Licensure Act (Act). 63 P.S. §§ 1701—1719. The 2014 legislation made numerous changes to the Act, including the addition of provisional licenses for speech-language pathologists and audiologists.

This rulemaking will add three fees and increase two fees. The three new fees are necessitated by changes to the Act. The two fee increases are needed because the Board believes a deficit will occur if revenues are not increased. For FYs 2015-2016 and 2016-2017, the Board projects a \$94,000 deficit. The deficit is expected to grow to \$184,000 for FYs 2022-2023 and 2023-2024. The Board states that the new fee structure will allow it to “continue a positive balance for at least 10 years.”

As noted in the Preamble, Section 8(a) of Act (63 P.S. § 1708(a)) “requires the Board to increase fees by regulation to meet or exceed projected expenditures if the revenues raised by fees, fines and civil penalties are not

sufficient to meet expenditures *over a two-year period.*" (Emphasis added.) The Board has provided a fiscal analysis of the additional revenue it expects the new fees and fee increases to produce each year. However, a similar analysis was not provided for expected expenditures for each year. In order for this Commission to determine if the Board is in compliance with Section 8(a) of the Act, we ask the Board to provide a more detailed comparison of expected revenues and expenses for each of the next 10 fiscal years. We are specifically interested in the projected expenses for each year during this time period.

2. Section 45.2. Definitions.—Clarity.

As part of this rulemaking, the Board is adding and amending regulatory definitions to align with the statutory changes made by Act 106. We have three concerns. First, to ascertain the entire meaning of the terms "practice of audiology" and "practice of speech-language pathology," a person would have to read both the statutory definition and the regulatory definition of those terms. We believe the clarity of the regulation would be improved if the regulatory definitions of these terms were expanded to include the meaningful provisions of the statutory definitions.

Second, the Pennsylvania Speech-Language Hearing Association submitted comments suggesting that references to documents produced by the American Speech-Language Hearing Association (ASHA) found under Clause (i)(A) of the definition of "practice of audiology" and Subparagraph (xi) of the definition of "practice of speech-language pathology" are outdated. They note that ASHA updated the referenced documents after these proposed regulations were adopted by the Board. We agree with PSHA's suggestion to update the references in the final-form regulation.

Third, Act 106 added a definition for the term "neurophysiologic intraoperative monitoring." Since this term is used throughout this proposal, we suggest that a regulatory definition be added to this section of the regulation.

3. Section 45.12. Licensure application procedures.—Clarity.

Subsection (a) requires an applicant for licensure to submit the required fees, a completed, signed and dated application and "applicable documentation." We recommend that the final-form regulation specify what documentation needs to be submitted with the application.

4. Section 45.14. Reactivation of licensure status.—Clarity.

Under Subsection (a), a licensee wishing to reactivate a license must apply for reactivation, pay the registration fee and submit a "verification of nonpractice in this Commonwealth." What is a "verification of nonpractice?" We ask the Board to clarify in the regulation what this is and how it is to be submitted to the Board.

5. Section 45.20. Supervised professional experience.—Clarity.

The Preamble states that audiology students complete their supervised professional experience during their last year of their doctoral degree programs. This statement implies that this section would not apply to audiologist applicants seeking licensure from the Board. To improve the clarity of the rulemaking, we suggest that the final-form regulation specify that this section only applies to speech-language pathologist applicants seeking licensure from the Board.

6. Section 45.22. Foreign-trained applicants.—Reasonableness; Clarity.

This section is being amended to reflect the different educational requirements for speech-language pathologists and audiologists. The Board is also deleting the requirement that foreign-trained applicants pass a licensure examination. What is the reason for deleting this requirement? Are the health, safety and welfare of Pennsylvania citizens adequately protected if this provision is deleted from the regulation? We ask the Board to explain its rationale for this deletion in the Preamble to the final-form rulemaking.

7. Section 45.23. Provisional licenses.—Clarity.

Under Subsection (d), a speech-language pathologist who was issued a provisional license under Subsection (a)(1)(ii) may seek an extension of the provisional license. The rulemaking does not include a similar provision for audiologists that were issued provisional licenses under Subsection (a)(2)(ii). Would an audiologist with a provisional license issued under Subsection (a)(2)(ii) be eligible to seek an extension of that license? If so, we suggest that Subsection (d) be amended to reflect that fact.

8. Section 45.103. Unprofessional conduct.—Reasonableness; Implementation procedures; Clarity.

The Board proposes to add Paragraph (24) to the list of types of conduct it considers to be unprofessional. This paragraph leads as follows: "Failing to utilize universal precautions or proper infection control methods." The Preamble explains that this language is modeled after the Center for Disease Control's recommendation for all health care providers as well as standards from other professional organizations. We do not question the need for this provision; however, we believe it lacks clarity. Since unprofessional conduct could lead to fines, suspensions or a revocation of one's license, we believe the regulated community would benefit from a more precise standard. We ask the Board to include in the final-form regulation a more definitive explanation of what precautions and infection control methods would be acceptable.
