READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 204. JUDICIAL SYSTEM GENERAL PROVISIONS

PART VII. ADMINISTRATIVE OFFICE OF PENNSYLVANIA COURTS

CHAPTER 213. COURT RECORDS POLICIES

Subchapter D. PUBLIC ACCESS POLICY OF THE UNIFIED JUDICIAL SYSTEM OF PENNSYLVANIA: CASE RECORDS OF THE APPELLATE AND TRIAL COURTS

Sec.

213.81. Public Access Policy of the Unified Judicial System of Pennsylvania: Case Records of the Appellate and Trial Courts.

§ 213.81. Public Access Policy of the Unified Judicial System of Pennsylvania: Case Records of the Appellate and Trial Courts.

Section 1.0. Definitions.

A. "Abuse Victim" is a person for whom a protection order has been granted by a court pursuant to Pa.R.C.P. No. 1901 et seq. and 23 Pa.C.S. § 6101 et seq. or Pa.R.C.P. No. 1951 et seq. and 42 Pa.C.S § 62A01 et seq.

B. "Case Records" are (1) documents for any case filed with, accepted and maintained by a court or custodian; (2) dockets, indices, and documents (such as orders, opinions, judgments, decrees) for any case created and maintained by a court or custodian. This term does not include notes, memoranda, correspondence, drafts and work product of judges and court personnel. Unless otherwise provided in this policy, this definition applies equally to case records maintained in paper and electronic formats.

C. "Clerical errors" are errors or omissions appearing in a case record that are patently evident, as a result of court personnel's action or inaction.

D. "Court" includes the Supreme Court, Superior Court, Commonwealth Court, Courts of Common Pleas, and Philadelphia Municipal Court, excluding the Traffic Division of Philadelphia Municipal Court.

E. "Court Facility" is the location or locations where case records are filed or maintained.

F. "Custodian" is any person responsible for maintaining case records or for processing public requests for access to case records.

G. "Docket" is a chronological index of filings, actions, and events in a particular case, which may include identifying information of the parties and counsel, a brief description or summary of the filings, actions, and events, and other case information.

H. "Financial Account Numbers" include financial institution account numbers, debit and credit card numbers, and methods of authentication used to secure accounts such as personal identification numbers, user names and passwords.

I. "Financial Source Documents" are:

1. Tax returns and schedules;
2. W-2 forms and schedules including 1099 forms or similar documents;

3. Wage stubs, earning statements, or other similar documents;

4. Credit card statements;
5. Financial institution statements;
6. Check registers;
7. Checks or equivalent; and
8. Loan application documents.

J. "Medical/psychological records" are records relating to the past, present, or future physical or mental health or condition of an individual.

K. "Minor" is a person under the age of eighteen.

L. "Party" is one who commences an action or against whom relief is sought in a matter.

M. "Public" is any person, member of the media, business, non-profit entity, organization or association. The term does not include a party to a case; the attorney(s) of record in a case; Unified Judicial System officials or employees if acting in their official capacities; or any federal, state, or local government entity, and employees or officials of such an entity if acting in their official capacities.

N. "Remote Access" is the ability to electronically search, inspect, print or copy information in a case record without visiting the court facility where the case record is maintained or available, or requesting the case record from the court or custodian pursuant to Section 4.0.

Commentary

Regarding Subsection B, "documents for any case filed with, accepted and maintained by a court or custodian" are those not created by a court or custodian, such as pleadings and motions. Indices are tools for identifying specific cases.

Regarding Subsection C, examples of clerical errors are the docket entry links to the wrong document or court personnel misspells a name in the caption.

Regarding Subsection F, the definition of "custodian" does not include those entities listed in Pa.R.A.P. 3191 who receive copies of briefs filed in an appellate court.

Regarding Subsection J, this definition is derived from the definition of "health information" provided in 45 C.F.R. § 160.103 (HIPAA). Examples of case records that would fall within this exclusion are: drug and alcohol treatment records, psychological reports in custody matters, and DNA reports.

Regarding Subsection L, *amici curiae* are not parties. See Pa.R.A.P. 531.

Regarding Subsection M, Unified Judicial System officials or employees include: judicial officers and their personal staff, administrative staff and other central staff, prothonotaries, clerks of the courts, clerks of the orphans' court division, sheriffs, prison and correctional officials, and personnel of all the above.

Section 2.0. Statement of General Policy.

A. This policy shall govern access by the public to case records.

B. Security, possession, custody, and control of case records shall generally be the responsibility of the applicable custodian and designated staff.

C. Facilitating access by the public shall not substantially impede the orderly conduct of court business.

D. A court or custodian may not adopt more restrictive or expansive access protocols than provided for in this policy. Nothing in this policy requires a court or custodian to provide remote access to case records. However, if a court or custodian chooses to provide remote access to any of its case records, access shall be provided in accordance with Section 10.0.

Commentary

The Supreme Court of Pennsylvania has adopted other policies governing public access to Unified Judicial System case records: the *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania* that provides for access to the statewide case management systems' web docket sheets and requests for bulk data and the *Public Access Policy of the Unified Judicial System of Pennsylvania: Official Case Records of the Magisterial District Courts* that provides for access to case records of the magisterial district courts maintained in a paper format.

Section 3.0. Access to Case Records.

All case records shall be open to the public in accordance with this policy.

Section 4.0. Requesting Access to Case Records.

A. When desiring to inspect or copy case records, a member of the public shall make an oral or written request to the applicable custodian, unless otherwise provided by court order or rule. If the request is oral, the custodian may require a written request.

B. Requests shall identify or describe the records sought with specificity to enable the custodian to ascertain which records are being requested.

Commentary

Public access requests to the courts and custodians are routinely straightforward and often involve a limited number of records. Therefore, artificial administrative barriers should not be erected so as to inhibit making these requests in an efficient manner.

This policy provides the courts and custodians latitude to establish appropriate administrative protocols for viewing/obtaining case records remotely. However, the definition of "remote access" in Section 1.0 clarifies that a request under this section is neither necessary nor expected under this policy.

Nonetheless, Subsection A provides a custodian with the flexibility to require that a more complex request be submitted in writing to avoid misunderstandings and errors that can often result in more time being expended to provide the requested information than is necessary. This approach is not novel; submission of a written request form has been a longstanding practice under the Unified Judicial System's *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania* and *Public Access Policy of the Unified Judicial System of Pennsylvania: Official Case Records of the Magisterial District Courts*.

Subsection B does not require a requestor to identify a case by party or case number in order to have access to the files, but the request shall clearly identify or describe the records requested so that court personnel can fulfill the request.

Written requests should be substantially in the format designed and published by the Administrative Office of Pennsylvania Courts.

Section 5.0. Responding to Requests for Access to Case Records.

A. A custodian shall fulfill a request for access to case records as promptly as possible under the circumstances existing at the time of the request.

B. If a custodian cannot fulfill the request promptly or at all, the custodian shall inform the requestor of the specific reason(s) why access to the information is being delayed or denied.

C. If a custodian denies a written request for access, the denial shall be in writing.

D. Relief from a custodian's written denial may be sought by filing a motion or application with the court for which the custodian maintains the records.

Commentary

Given that most public access requests for case records are straightforward and usually involve a particular case or matter, custodians should process the same in an expeditious fashion.

There are a number of factors that can affect how quickly a custodian may respond to a request. For example, the custodian's response may be slowed if the request is vague, involves retrieval of a large number of case records, or involves information that is stored off-site. Ultimately, the goal is to respond timely to requests for case records.

In those unusual instances in which access to the case records cannot be granted in an expeditious fashion, the custodian shall inform the requestor of the specific reason(s) why access to the information is being delayed or denied, which may include:

- the request involves such voluminous amounts of information that the custodian is unable to fulfill the same without substantially impeding the orderly conduct of the court or custodian's office;
- records in closed cases are located at an off-site facility;
- a particular file is in use by a judge or court staff. If a judge or court staff needs the file for an extended period of time, special procedures should be considered, such as making a duplicate file that is always available for public inspection;
- the requestor failed to pay the appropriate fees, as established pursuant to Section 6.0 of this policy, associated with the request;
- the requested information is restricted from access pursuant to applicable authority, or any combination of factors listed above.

An aggrieved party may seek relief from a denial of a written request for access consistent with applicable authority (for example, in an appellate court, Pa.R.A.P. 123 sets forth procedures for applications for relief under certain circumstances, or pertinent motion practice at the trial court level).

Section 6.0. Fees.

A. Unless otherwise provided by applicable authority, fees for duplication by photocopying or printing from electronic media or microfilm shall not exceed \$0.25 per page.

B. A custodian shall establish a fee schedule that is (1) posted in the court facility in an area accessible to the public, and (2) posted on the custodian's website.

Commentary

Reasonable fees may be imposed for providing public access to case records pursuant to this policy and in accordance with applicable authority. This section does not authorize fees for viewing records that are stored at the court facility.

To the extent that the custodian is not the court, approval of the fee schedule by the court may be necessary.

An example of applicable authority setting forth photocopying fees is 42 Pa.C.S. § 1725(c)(1)(ii) that provides the Clerk of Orphans' Court of the First Judicial District shall charge \$3 per page for a copy of any record. *See also* 42 P.S. § 21032.1 (providing authority for the establishment of fees in orphans' court in certain judicial districts). In addition, the copying fees for appellate court records are provided for in 204 Pa. Code § 155.1. However, copies of most appellate court opinions and orders are available for free on the Unified Judicial System's website, www.pacourts.us.

Section 7.0. Confidential Information.

A. Unless required by applicable authority or as provided in Subsection C, the following information is confidential and shall be not included in any document filed with a court or custodian, except on a Confidential Information Form filed contemporaneously with the document:

1. Social Security Numbers;
2. Financial Account Numbers, except an active financial account number may be identified by the last four digits when the financial account is the subject of the case and cannot otherwise be identified;
3. Driver License Numbers;
4. State Identification (SID) Numbers;
5. Minors' names and dates of birth except when a minor is charged as a defendant in a criminal matter (see 42 Pa.C.S. § 6355); and
6. Abuse victim's address and other contact information, including employer's name, address and work schedule, in family court actions as defined by Pa.R.C.P. No. 1931(a), except for victim's name.

This section is not applicable to cases that are sealed or exempted from public access pursuant to applicable authority.

B. The Administrative Office of Pennsylvania Courts shall design and publish the Confidential Information Form.

C. Instead of using the Confidential Information Form, a court may adopt a rule or order permitting the filing of any document in two versions, a "Redacted Version" and "Unredacted Version." The "Redacted Version" shall not include any information set forth in Subsection A, while the "Unredacted Version" shall include the information. Redactions must be made in a manner that is visibly evident to the reader.

D. Parties and their attorneys shall be solely responsible for complying with the provisions of this section and shall certify their compliance to the court. The certification that shall accompany each filing shall be substantially in the following form: "I certify that this filing complies with the provisions of the *Public Access Policy of the Unified Judicial System of Pennsylvania: Case Records of the Appellate and Trial Courts* that require filing

confidential information and documents differently than non-confidential information and documents.”

E. A court or custodian is not required to review or redact any filed document for compliance with this section. A party’s or attorney’s failure to comply with this section shall not affect access to case records that are otherwise accessible.

F. If a filed document fails to comply with the requirements of this section, a court may, upon motion or its own initiative, with or without a hearing order the filed document sealed, redacted, amended or any combination thereof. A court may impose sanctions, including costs necessary to prepare a compliant document for filing in accordance with applicable authority.

G. This section shall apply to all documents for any case filed with a court or custodian on or after the effective date of this policy.

Commentary

There is authority requiring information listed in Subsection A to appear on certain documents. For example, Pa.R.C.P. No. 1910.27 provides for inclusion of the plaintiff’s and defendant’s social security number on a complaint for support.

This section is not applicable to cases that are sealed or exempted from public access pursuant to applicable authority, for example, cases filed under the Juvenile Act that are already protected by 42 Pa.C.S. § 6307, and Pa.Rs.J.C.P. 160 and 1160.

Unless constrained by applicable authority, court personnel and jurists are advised to refrain from inserting confidential information in court-generated case records (e.g., orders, notices) when inclusion of such information is not essential to the resolution of litigation, appropriate to further the establishment of precedent or the development of law, or necessary for administrative purposes. For example, if a court’s opinion contains confidential information and, therefore, must be sealed or heavily redacted to avoid release of such information, this could impede the public’s access to court records and ability to understand the court’s decision.

Whether using a Confidential Information Form or filing a redacted and unredacted version of a document, the drafter shall indicate where in the document confidential information has been omitted. For example, the drafter could insert minors’ initials in the document, while listing full names on the Confidential Information Form. If more than one child has the same initials, a different moniker should be used (e.g., child one, child two, etc.).

While Pa.R.C.P. No. 1931 is suspended in most judicial districts, the reference to the rule is merely for definitional purposes.

With regard to Subsection D, the certification of compliance is required whether documents are filed in paper form or via an e-filing system.

With regard to Subsection E, a court or custodian is not required to review or redact documents filed by a party or attorney for compliance with this section. However, such activities are not prohibited.

Any party may make a motion to the court to cure any defect(s) in any filed document that does not comport with this section.

Section 8.0. Confidential Documents.

A. Unless required by applicable authority, the following documents are confidential and shall be filed with a court or custodian under a cover sheet designated “Confidential Document Form”:

1. Financial Source Documents;
2. Minors’ educational records;
3. Medical/Psychological records;
4. Children and Youth Services’ records;
5. Marital Property Inventory and Pre-Trial Statement as provided in Pa.R.C.P. No. 1920.33;
6. Income and Expense Statement as provided in Pa.R.C.P. No. 1910.27(c); and
7. Agreements between the parties as used in 23 Pa.C.S. § 3105.

This section is not applicable to cases that are sealed or exempted from public access pursuant to applicable authority.

B. The Administrative Office of Pennsylvania Courts shall design and publish the Confidential Document Form.

C. Confidential documents submitted with the Confidential Document Form shall not be accessible to the public, except as ordered by a court. However, the Confidential Document Form or a copy of it shall be accessible to the public.

D. Parties and their attorneys shall be solely responsible for complying with the provisions of this section and shall certify their compliance to the court. The certification that shall accompany each filing shall be substantially in the following form “I certify that this filing complies with the provisions of the *Public Access Policy of the Unified Judicial System of Pennsylvania: Case Records of the Appellate and Trial Courts* that require filing confidential information and documents differently than non-confidential information and documents.”

E. A court or custodian is not required to review any filed document for compliance with this section. A party’s or attorney’s failure to comply with this section shall not affect access to case records that are otherwise accessible.

F. If confidential documents are not submitted with the Confidential Document Form, a court may, upon motion or its own initiative, with or without a hearing, order that any such documents be sealed. A court may also impose appropriate sanctions for failing to comply with this section.

G. This section shall apply to all documents for any case filed with a court or custodian on or after the effective date of this policy.

Commentary

This section is not applicable to cases that are sealed or exempted from public access pursuant to applicable authority, such as Juvenile Act cases pursuant to 42 Pa.C.S. § 6307, and Pa.Rs.J.C.P. 160 and 1160.

Unless constrained by applicable authority, court personnel and jurists are advised to refrain from attaching confidential documents to court-generated case records (e.g., orders, notices) when inclusion of such information is not essential to the resolution of litigation, appropriate to further the establishment of precedent or the development of law, or necessary for administrative purposes. For example, if a court’s opinion contains confidential infor-

mation and, therefore, must be sealed or heavily redacted to avoid release of such information, this could impede the public's access to court records and ability to understand the court's decision.

Examples of "agreements between the parties" as used in Subsection (A)(7) include marital settlement agreements, post-nuptial, pre-nuptial, ante-nuptial, marital settlement, and property settlement. See 23 Pa.C.S. § 3105 for more information about agreements between parties.

With regard to Subsection D, the certification of compliance is required whether documents are filed in paper form or via an e-filing system.

With regard to Subsection E, if the party or party's attorney fails to use a cover sheet designated "Confidential Document Form" when filing a document deemed confidential pursuant to this section, the document may be released to the public.

Any party may make a motion to the court to cure any defect(s) in any filed document that does not comport with this section.

Section 9.0. Limits on Public Access to Case Records at a Court Facility.

The following information shall not be accessible by the public at a court facility:

A. Case records in proceedings under 20 Pa.C.S. § 711(9), including but not limited to case records with regard to issues concerning recordation of birth and birth records, the alteration, amendment, or modification of such birth records, and the right to obtain a certified copy of the same, except for the docket and any court order or opinion;

B. Case records concerning incapacity proceedings filed pursuant to 20 Pa.C.S. §§ 5501—5555, except for the docket and any final decree adjudicating a person as incapacitated;

C. Any Confidential Information Form or any Unredacted Version of any document as set forth in Section 7.0;

D. Any document filed with a Confidential Document Form as set forth in Section 8.0;

E. Information sealed or protected pursuant to court order;

F. Information to which access is otherwise restricted by federal law, state law, or state court rule; and

G. Information presenting a risk to personal security, personal privacy, or the fair, impartial and orderly administration of justice, as determined by the Court Administrator of Pennsylvania with the approval of the Chief Justice. The Court Administrator shall publish notification of such determinations in the *Pennsylvania Bulletin* and on the Unified Judicial System's website.

Commentary

Unless constrained by applicable authority, court personnel and jurists are advised to refrain from inserting confidential information in or attaching confidential documents to court-generated case records (e.g., orders, notices) when inclusion of such information is not essential to the resolution of litigation, appropriate to further the establishment of precedent or the development of law, or necessary for administrative purposes. For example, if a court's opinion contains confidential information and, therefore, must be sealed or heavily redacted to avoid

release of such information, this could impede the public's access to court records and ability to understand the court's decision.

With respect to Subsection F, Pennsylvania Rule of Appellate Procedure 104(a), Pa.R.A.P. 104(a), provides that the appellate courts may make and amend rules of court governing their practice. The Administrative Office of Pennsylvania Courts shall from time to time publish a list of applicable authorities that restrict public access to court records or information. This list shall be published on the Unified Judicial System's website and in the *Pennsylvania Bulletin*. In addition, all custodians shall post this list in their respective court facilities in areas accessible to the public and on the custodians' websites.

With respect to Subsection G, the Administrative Office of Pennsylvania Courts shall include any such determinations in the list of applicable authorities referenced above. The same provision appears in existing statewide public access policies adopted by the Supreme Court: *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania* and *Public Access Policy of the Unified Judicial System of Pennsylvania: Official Case Records of the Magisterial District Courts*. The provision is intended to be a safety valve to address a future, extraordinary, unknown issue of statewide importance that might escape timely redress otherwise. It cannot be used by parties or courts in an individual case.

Section 10.0. Limits on Remote Access to Case Records.

A. The following information shall not be remotely accessible by the public:

1. The information set forth in Section 9.0;

2. In criminal cases, information that either specifically identifies or from which the identity of jurors, witnesses (other than expert witnesses), or victims could be ascertained, including names, addresses and phone numbers;

3. Transcripts lodged of record, excepting portions of transcripts when attached to a document filed with the court;

4. *In Forma Pauperis* petitions;

5. Case records in family court actions as defined in Pa.R.C.P. No. 1931(a), except for dockets, court orders and opinions;

6. Case records in actions governed by the Decedents, Estates and Fiduciaries Code, Adult Protective Services Act and the Older Adult Protective Services Act, except for dockets, court orders and opinions; and

7. Original and reproduced records filed in the Supreme Court, Superior Court or Commonwealth Court as set forth in Pa.R.A.P. 1921, 1951, 2151, 2152, and 2156.

B. With respect to Subsections A(5) and A(6), unless otherwise restricted pursuant to applicable authority, dockets available remotely shall contain only the following information:

1. A party's name;

2. The city, state, and ZIP code of a party's address;

3. Counsel of record's name and address;

4. Docket number;

5. Docket entries indicating generally what actions have been taken or are scheduled in a case;

6. Court orders and opinions;

7. Filing date of the case; and

8. Case type.

C. Case records remotely accessible by the public prior to the effective date of this policy shall be exempt from this section.

Commentary

Remote access to the electronic case record information residing in the Pennsylvania Appellate Court Case Management System (PACMS), the Common Pleas Case Management System (CPCMS) and the Magisterial District Judges System (MDJS) is provided via web dockets, available on <https://ujportal.pacourts.us/>, and is governed by the *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania*.

Depending upon individual court resources, some courts have posted online docket information concerning civil matters. If a court elects to post online docket information concerning family court actions and actions governed by the Decedents, Estates and Fiduciaries Code, Adult Protective Services Act and the Older Adult Protective Services Act, the docket may only include the information set forth in Subsection B. This information will provide the public with an overview of the case, its proceedings and other pertinent details, including the court's decision. Release of such information will enhance the public's trust and confidence in the courts by increasing awareness of the procedures utilized to adjudicate the claims before the courts as well as the material relied upon in reaching determinations. This provision does not impact what information is maintained on the docket available at the court facility.

Access to portions of transcripts when attached to a document filed with the court in family court actions is governed by Subsection A(5). While Pa.R.C.P. No. 1931 is suspended in most judicial districts, the reference to the rule is merely for definitional purposes.

Section 11.0. Correcting Clerical Errors in Case Records.

A. A party, or the party's attorney, seeking to correct a clerical error in a case record may submit a written request for correction.

1. A request to correct a clerical error in a case record of the Supreme Court, Superior Court or Commonwealth Court shall be submitted to the prothonotary of the proper appellate court.

2. A request to correct a clerical error in a case record of a court of common pleas or Philadelphia Municipal Court shall be submitted to the applicable custodian.

B. The request shall be made on a form designed and published by the Administrative Office of Pennsylvania Courts.

C. The requestor shall specifically set forth on the request form the information that is alleged to be a clerical error and shall provide sufficient facts, including supporting documentation, that corroborate the requestor's allegation that the information in question is in error.

D. The requestor shall provide copies of the request to all parties to the case.

E. Within 10 business days of receipt of a request, the custodian shall respond in writing to the requestor and all parties to the case in one of the following manners:

1. The request does not contain sufficient information and facts to determine what information is alleged to be in error, and no further action will be taken on the request.

2. The request does not concern a case record that is covered by this policy, and no further action will be taken on the request.

3. A clerical error does exist in the case record and the information in question has been corrected.

4. A clerical error does not exist in the case record.

5. The request has been received and an additional period not exceeding 30 business days is necessary to complete a review of the request.

F. A requestor may seek review of the custodian's response under Subsections E(1)—(4) within 10 business days of the mailing date of the response.

1. The request for review shall be submitted on a form that is designed and published by the Administrative Office of Pennsylvania Courts.

2. The request shall be reviewed by the judge(s) who presided over the case.

Commentary

Case records are as susceptible to clerical errors and omissions as any other public record. The power of the court to correct errors in its own records is inherent. E.g., *Jackson v. Hendrick*, 746 A.2d 574 (Pa. 2000). It is important to emphasize that this section does not provide a party who is dissatisfied with a court's decision, ruling or judgment a new avenue to appeal the same by merely alleging there is an error in the court's decision, ruling or judgment. Rather, this section permits a party to "fix" information that appears in a case record which is not, for one reason or another, correct.

Particularly in the context of Internet publication of court records, a streamlined process is appropriate for addressing clerical errors to allow for prompt resolution of oversights and omissions. For example, to the extent that a docket in a court's case management system incorrectly reflects a court's order, or a scanning error occurred with regard to an uploaded document, such clerical inaccuracies may be promptly corrected by the appropriate court staff, upon notification, without a court order. Since 2007, the *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania* has provided a similar procedure for any errors maintained on the web docket sheets of the PACMS, CPCMS and MDJS. The procedure has successfully addressed clerical errors on docket entries in a timely and administratively simple manner.

A party or party's attorney is not required to utilize the procedures set forth in this section before making a formal motion for correction of a case record in the first instance. Alleged inaccuracies in orders and judgments themselves must be brought to the attention of the court in accordance with existing procedures.

This section is not intended to provide relief for a party's or attorney's failure to comply with Sections 7.0 and 8.0 of this policy. Sections 7.0 and 8.0 already provide for remedial action in the event that non-compliance occurs.

With respect to this section, a custodian includes, but is not limited to, the county prothonotaries, clerks of orphans' court, and clerks of the court.

A log of all corrections made pursuant to this section may be maintained by the custodian, so that there is a record if an objection is made in the future. Such a log should remain confidential. It is suggested that custodians include a registry entry on the case docket when a request is received and a response is issued.

Section 12.0. Continuous Availability of Policy.

A copy of this policy shall be continuously available for public inspection in every court and custodian's office and posted on the Unified Judicial System's website.

EXPLANATORY REPORT

Public Access Policy of the Unified Judicial System of Pennsylvania: Case Records of the Appellate and Trial Courts

General Introduction

Recognizing the importance of the public's access to the courts and with the Supreme Court's approval, the Administrative Office of Pennsylvania Courts (AOPC) has developed statewide policies governing access to court records. Protocols have been implemented for access to electronic case records in the Judiciary's statewide case management systems, magisterial district court case records, and financial records of the Unified Judicial System (UJS). In 2013, the AOPC embarked on the next

phase of policy development designed to address access to case records of the trial and appellate courts.

This latest effort is necessitated by the confluence of several factors. The proliferation of e-filing systems and related decisions to post (or not post) case records online (as part of document imaging or e-filing systems) on a county-by-county basis has resulted in disjointed accessibility to the UJS's trial court case records. A county may post all divorce and custody records online for viewing, perhaps for free, and a neighboring county may not. Online posting of sensitive information contained in case records, such as social security numbers, currently depends upon geography. Surveys conducted by the AOPC also revealed the treatment of sensitive information con-

tained in paper case records maintained by the filing offices varies widely. For example, whether a social security number is available to a member of the public who wishes to view the records of a particular case in a filing office depends upon local practices.

The implementation of e-filing in Pennsylvania's appellate courts and future initiatives at other court levels is also a catalyst for policy development. While appellate court opinions, orders and dockets have been online via the UJS's website for over a decade, the e-filing of appellate briefs and related legal papers raises basic questions that should be considered when a court undertakes such a project, for instance: What sensitive information must be redacted? Who is responsible for ensuring the appropriate information is redacted?

At the state and local level, the Judiciary is moving forward into the digital age, and it clearly needs to give thoughtful consideration to its systems and procedures to ensure equal access to the UJS's trial and appellate case records. Disparate filing and access protocols certainly impede the statewide practice of law in the Commonwealth. Litigants and third parties, some of whom are unrepresented or are not voluntary participants in the judicial process, may be left in the dark as to whether their private, personal identifiers and intimate details of their lives will be released (online) for public viewing.

Government and the private sector collect extensive amounts of personal data concerning individuals' finances, unique identifiers, medical history and so on. Many of these types of data are relevant to the cases that are before the courts for decision, and some data is provided in court filings even though irrelevant to the matter before the court. Therefore, like other branches of government and the private sector, the courts are constantly considering issues regarding the need for openness and transparency and the concern for personal privacy and security.

With regard to the courts, however, the constitutional and common law presumption of openness has to be carefully weighed against relevant practical, administrative considerations when crafting solutions to avert breaches of privacy and security. Striking the right balance is not an easy task.

The public's right to access court proceedings and records is grounded in the First and Sixth Amendments of the U.S. Constitution, Article I §§ 7, 9, and 11 of the Pennsylvania Constitution, and the common law. While there is overlap between the common law and constitutional analyses, there is a distinction between the two. Specifically, the constitutional provisions provide a greater right of access than the common law.¹ However, these constitutional and common law rights are not absolute and may be qualified by overriding interests. A more extensive discussion of the right to access is contained in the Explanatory Report of the *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania*.²

Therefore, with the approval of the Supreme Court, the Court Administrator of Pennsylvania convened a working group to study and develop a proposed policy for public comment. Under the experienced and dedicated leadership of Commonwealth Court Judge Renée Cohn Jubelirer and Montgomery County Court of Common Pleas Judge Lois E. Murphy, the working group under-

took its charge with an open mind and an aim to appropriately balance the competing interests at hand. The group consisted of judges, appellate court filing office personnel, local court personnel, two Prothonotaries/Clerks of Courts, one Register of Wills/Clerk of Orphans' Court, and representatives from the Pennsylvania Bar Association and the rules committees of the Supreme Court, as well as AOPC staff.

Before developing a proposed policy, the working group studied and discussed the different types of records pertaining to criminal, domestic relations, civil, juvenile, orphans' court and appellate matters filed in the courts. Tackling each case type individually, the working group considered existing legal restrictions and other jurisdictions' access policies on the release of data and documents. In formulating whether information and documents should be considered confidential, the group also determined how access would be limited. There are categories of information that are completely restricted, such as social security numbers, and categories that are restricted from online viewing by the public but remain available for public inspection at a court facility, such as original and reproduced records filed in the appellate courts.

The working group published its proposal for a 60-day public comment period³ and received thirty-two submissions. The comments reflected diverse, and sometimes conflicting, viewpoints, which helped the working group define the issues and find solutions. In doing so, the working group endeavored to find as much "common ground" as it could in reviewing and addressing the various comments.

In crafting its proposal, the group was guided at all times by the long-standing tradition of access to court records and the important interests it serves, as follows:

to assure the public that justice is done evenhandedly and fairly; to discourage perjury and the misconduct of participants; to prevent decisions based on secret bias or partiality; to prevent individuals from feeling that the law should be taken into the hands of private citizens; to satisfy the natural desire to see justice done; to provide for community catharsis; to promote public confidence in government and assurance that the system of judicial remedy does in fact work; to promote the stability of government by allowing access to its workings, thus assuring citizens that government and the courts are worthy of their continued loyalty and support; to promote an understanding of our system of government and courts. *Commonwealth v. Fenstermaker*, 530 A.2d 414, 417 (Pa. 1987) (citing *Commonwealth v. Contankos*, 453 A.2d 578, 579-80 (Pa. 1982)).

However, the group also recognized that transparency of judicial records and proceedings must be balanced with other considerations in this Internet age. The group attempted to strike the appropriate balance between access and interests involving the administration of justice, personal privacy and security—particularly with regard to online records. Also essential to the group's evaluation were practical considerations, such as the methods of redaction to be implemented and identification of various "best practices" that should be instituted statewide.

The working group provides the following relevant Commentary for the sections of the policy.

Section 1

The definitions incorporate elements of those found in existing UJS public access policies and other authorities.

This policy governs access to (1) official paper case records of appellate courts, courts of common pleas, and Philadelphia Municipal Court, (2) images of scanned or e-filed documents residing in the three statewide case management systems, (3) images of scanned or e-filed documents residing in the case management systems of the judicial districts, and (4) case record information posted online by judicial districts via their own “local” case management systems. This approach ensures a more equitable and systematic approach to the case records filed in and maintained for the trial and appellate courts.

It is important to note how this policy intersects with existing UJS policies, namely the *Electronic Case Record Public Access Policy of the Unified Judicial System of Pennsylvania* (hereinafter referred to as “*Electronic Policy*”) and *MDC Paper Policy*. The *Electronic Policy* governs access to the electronic case record information, excluding images of scanned documents, residing in the three statewide case management systems: Pennsylvania Appellate Courts Case Management System, Common Pleas Case Management System and the Magisterial District Judge System. Put simply, the *Electronic Policy* governs what information resides on the public web docket sheets accessible via the UJS web portal or is released to a member of the public requesting electronic case record information from one of the systems.

The *MDC Paper Policy* governs access to the paper case records on file in a magisterial district courts.

The definition of “financial source document” is derived from the definition of “sealed financial source documents” used in Minnesota (Minn.G.R.Prac. Rule 11.01) and Washington (WA.R.Gen. Rule 22(b)).

Section 2

This section’s provisions are similar to those contained in the *MDC Paper Policy*, which have been successfully implemented.

Section 4

Requestors may be unable to complete a written request, if required by a court. In such circumstances, access should not be denied but may be delayed until the custodian or designated staff is available to assist the requestor. If the request is granted, it may be necessary for the custodian or designated staff to sit with the requestor and monitor the use of the file to ensure its integrity. This is consistent with the responsibility placed upon the custodian and designated staff for the security, possession, custody and control of case records in Section 2.0(B). Such a practice is also consistent with the requirement that addressing requests for access cannot impede the administration of justice or the orderly operation of a court, pursuant to Section 2.0(C).

This section’s provisions are similar to those contained in the *MDC Paper Policy*.

Section 5

While implementing the provisions of this policy should not unduly burden the courts and custodians or impinge upon the delivery of justice, it is reasonable for the public to expect that courts and custodians shall respond to requests for access in a consistent fashion. This section brings uniformity, in general, as to when and how courts and custodians must respond to requests. Similar sections are found in the *Electronic Policy* and *MDC Paper Policy*.

Section 6

Judicial districts have adopted different approaches to imposition of fees, especially with regard to remote access to court records. Some impose a fee for providing remote access because the costs associated with building and maintaining such systems are often substantial. Given that remote access is a value-added service, not a requirement, it is thought that those who avail themselves of this service should be charged for the convenience of maintaining these systems.

Others do not impose fees for remote access because providing this service reduces the “foot traffic” in the filing offices for public access requests. This, in turn, frees staff to attend to other business matters, resulting in a financial benefit by reducing costs associated with dealing with the requests over the counter. The AOPC has provided “free” online access to public web docket sheets for cases filed in the appellate courts, criminal divisions of the courts of common pleas and Philadelphia Municipal Court, as well as the magisterial district courts for years. In 2014, 59 million of those web dockets sheets were accessed online.

It is interesting to note that the two largest judicial districts in the Commonwealth are at opposite ends of the spectrum (i.e., one has posted virtually all dockets and documents for free, and the other posts some dockets for free but not documents). While the working group recognizes that other factors play into these determinations (such as, technological capabilities, statutorily mandated fees), judicial districts should ensure that fees do not become a barrier to public access. Completion of statewide case management systems in all levels of court will likely bring about standardization in remote access to case records.

The working group notes that this section’s provisions are similar to those contained in the *MDC Paper Policy*.

Section 7

The concept of restricting access to particular, sensitive identifiers is not novel. The *Electronic Policy* and *MDC Paper Policy* restrict access to social security numbers and financial account numbers, for example. The federal courts, and many state court systems, have restricted access to the types of identifiers that are listed in Section 7.0.

The *Electronic Policy* and *MDC Paper Policy* provide that access to social security numbers is shielded from release. Moreover, there are scores of authorities at both the federal and state level that protect the release of this information. While some of these authorities are not applicable to court records, they require access to this information in government records be limited or wholly restricted. For example: 65 P.S. § 67.708(b)(6)(i)(A), 74 P.S. § 201, 42 U.S.C.A. § 405(c)(2)(C)(viii), F.R.Civ.P. 5.2(a)(1), F.R.Crim.P. 49.1(a)(1), Alaska (AK R Admin Rule 37.8(a)(3)), Arizona (AZ ST S CT Rule 123(c)(3)), Arkansas (Sup. Ct. Admin. Order 19(VII)(a)(4)), Florida (FL ST J ADMIN Rule 2.420(d)(1)(B)(iii)), Idaho (ID R Admin Rule 32(e)(2)), Indiana (Ind. St. Admin. Rule 9(G)(1)(d)), Maryland (MD. Rules 16-1007), Michigan (Administrative Order 2006-2), Minnesota (Minn.Gen.R.Prac. Rule 11.01(a)), Mississippi (Administrative Order dated August 27, 2008 paragraph 8), Nebraska (Neb Ct R § 1-808(a) and Neb. Rev. Stat § 84-712.05(17)), New Jersey (NJ R GEN APPLICATION Rule 1:38-7(a)), North Dakota (N.D.R.Ct. Rule 3.4(a)(1) and A.R. 41(5)(B)(10)(a)), Ohio (OH ST Sup Rules 44(h) and 45(d)), South Dakota (SDCL § 15-15A-8), Texas (TX ST J ADMIN Rule 12.5(d)), Utah (UT R J

ADMIN Rules 4-202.02(4)(i) and 4-202-03(3)), Vermont (VT R PUB ACC CT REC § 6(b)(29)), Washington (WA. R. Gen. Rule 31(3)(1)(a)) and West Virginia (WV R RAP Rule 40(e)(3)).

With regard to financial account numbers, the *Electronic Policy* and *MDC Paper Policy* provide that this information is not accessible. Many other jurisdictions have taken a similar approach. For example: F.R.Civ.P. 5.2(a)(1), F.R.Crim.P. 49.1(a)(1), Alaska (AK R Admin Rule 37.8(a)(5)), Arizona (AZ ST S CT Rule 123(c)(3)), Arkansas (Sup. Ct. Admin. Order 19(VII)(a)(4)), Florida (FL ST J ADMIN Rule 2.420(d)(1)(B)(iii)), Idaho (ID R Admin Rule 32(e)(2)), Indiana (Ind. St. Admin. Rule 9(G)(1)(f)), Minnesota (Minn.Gen.R.Prac. Rule 11.01(a)), Nebraska (Neb Ct R § 1-808(a) and Neb. Rev. Stat § 84-712.05(17)), New Jersey (NJ R GEN APPLICATION Rule 1:38-7(a)), North Dakota (N.D.R.Ct. Rule 3.4(a)(1) and A.R. 41(5)(B)(10)(a)), Ohio (OH ST Sup Rules 44(h) and 45(d)), South Dakota (SDCL § 15-15A-8), Vermont (VT R PUB ACC CT REC § 6(b)(29)), Washington (WA. R. Gen. Rule 31(3)(1)(b)) and West Virginia (WV R RAP Rule 40(e)(4)).

Concerning driver license numbers, the *Electronic Policy* provides that driver license numbers should be protected. Moreover, there are many authorities at both the federal and state level that protect the release of this information. While some of these authorities are not applicable to court records, they require access to this information in government records be limited or wholly restricted. For example: 65 P.S. § 67.708(b)(6)(i)(A), 75 Pa.C.S. § 6114, 18 U.S.C. §§ 2721—2725, Alaska (AK R Admin Rule 37.8(a)(4)), Idaho (ID R Admin Rule 32(e)(2)), New Jersey (NJ R GEN APPLICATION Rule 1:38-7(a)), Utah (UT R J ADMIN Rules 4-202.02(4)(i) and 4-202-03(3)), Vermont (VT R PUB ACC CT REC § 6(b)(29)) and Washington (WA. R. Gen. Rule 31(3)(1)(c)).

State Identification Numbers (“SID”) have been defined as “[a] unique number assigned to each individual whose fingerprints are placed into the Central Repository of the State Police. The SID is used to track individuals for crimes which they commit, no matter how many subsequent fingerprint cards are submitted.” See 37 Pa. Code § 58.1. The *Electronic Policy* prohibits the release of SID. Furthermore, in *Warrington Crew v. Pa. Dept. of Corrections*, (Pa. Cmwlth., No. 1006 C.D. 2010, filed Nov. 19, 2010)⁴, the Commonwealth Court upheld a ruling by the Office of Open Records that a SID number is exempt from disclosure through a right-to-know request because such numbers qualify as a confidential personal identification number.

Other jurisdictions provide similar protections to minors’ names, dates of births, or both. For example: F.R.Civ.P. 5.2(a)(1), F.R.Crim.P. 49.1(a)(1), Alaska (AK R Admin Rule 37.8(a)(6)), North Dakota (N.D.R.Ct. Rule 3.4(a)(3) and A.R.41(5)(B)(10)(c)), Utah (UT R J ADMIN Rules 4-202.02(4)(l) and 4-202-03(3)) and West Virginia (WV R RAP Rule 40(e)(1)).

With regard to abuse victims’ address and other contact information, Pennsylvania through the enactment of various statutes has recognized the privacy and security needs of victims of abuse. For example, Pennsylvania’s Domestic and Sexual Violence Victim Address Confidentiality Act (23 Pa.C.S. §§ 6701—6713) provides a mechanism whereby victims of domestic and sexual violence can shield their physical address (even in court documents)

and hence protect their ability to remain free from abuse. The Pennsylvania Right To Know Law (65 P.S. §§ 67.101—67.1304) recognizes the potential risk of harm which can be caused by the disclosure by the government of certain personal information. For example, 65 P.S. § 67.708(b)(1)(ii) prohibits the disclosure that “would be reasonably likely to result in a substantial and demonstrable risk of physical harm to or the personal security of an individual.” Moreover, 23 Pa.C.S. § 5336(b) prohibits the disclosure of the address of a victim of abuse in a custody matter to the other parent or party. 23 Pa.C.S. § 4305(a)(10)(ii) and (iii) provides that the domestic relations section shall have the power and duty to:

“implement safeguards applicable to all confidential information received by the domestic relations section in order to protect the privacy rights of the parties, including: prohibitions against the release of information on the whereabouts of one party or the child to another party against whom a protective order with respect to the former party or the child has been entered; and prohibitions against the release of information on the whereabouts of one party or the child to another person if the domestic relations section has reason to believe that the release of the information may result in the physical or emotional harm to the party or the child.”

In addition, other jurisdictions have taken a measure to protect similarly situated individuals, such as: Alaska (AK R Admin Rule 37.8(a)(2)), Florida (FL ST J ADMIN Rule 2.420(d)(1)(B)(iii)), Indiana (Ind. St. Admin. Rule 9(G)(1)(e)(i)), New Jersey (NJ R GEN APPLICATION Rule 1:38-3(c)(12)), and Utah (UT R J ADMIN Rules 4-202.02(8)(E)(i) and 4-202-03(7)).

To maintain the confidentiality of the information listed in subsection (A), parties and their attorneys can set forth the listed information on a Confidential Information Form, designed and published by the AOPC. This is akin to the procedure set forth in the *MDC Paper Policy*; the Confidential Information Form used by that policy is posted on the UJS’s website at www.pacourts.us.

Alternatively, parties and their attorneys can file two versions of each document with the court/custodian—one with sensitive information redacted (“redacted copy”) and the other with no information redacted (“unredacted copy”). The redacted copy shall omit any information not accessible under this policy in a visibly evident manner, and be available for public inspection. The unredacted copy shall not be accessible by the public. At least one other jurisdiction has implemented a similar approach. See WA. R. Gen. R. 22(e)(2) (Washington). Some contend that a redacted copy of a document will be more readable than an unredacted copy containing monikers as placeholders for sensitive information not included in the document. This approach was also identified as a more amenable solution given the current design of the statewide e-filing initiative.

While a court or custodian is not required to review any pleading, document, or other legal paper for compliance with this section, such activity is not prohibited. If a court or custodian wishes to accept the burden of reviewing such documents and redacting the same, such a process must be applied uniformly across all documents or cases. This provision, however, does not alter or expand upon existing legal authority limiting a custodian’s authority to reject a document for filing. See *Nagy v. Best Home Services, Inc.*, 829 A.2d 1166 (Pa. Super. 2003).

⁴ Pursuant to Section 414(a) of the Commonwealth Court’s Internal Operating Procedures, an unreported panel decision issued by the Court after January 15, 2008 may be cited “for its persuasive value, but not as binding precedent.” 210 Pa. Code § 69.414(a).

Courts that permit e-filing should consider the development of a compliance “checkbox” whereby e-filers could indicate their compliance with this policy.

This section only applies to documents filed with a court or custodian on or after the effective date of this policy. There will be a period of transition prior to full implementation of this policy; that is, some documents filed with a court or custodian prior to the effective date of this policy will contain information that the policy restricts from public access. To expect full and complete implementation of this policy by applying it retroactively to those documents filed prior to the effective day of this policy is impractical and burdensome.

However, it is important to remember with regard to pre-policy records, a party or attorney always has the option to file a motion with the court to seal, in whole or part, a document or file. This includes the ability to request sealing and/or redaction of only some information that resides on a document in the court file (e.g., a social security number on a document).

Section 8

The protocol of submitting to a court or custodian certain documents under a cover sheet so that the documents are not accessible to the public has been instituted in other jurisdictions, such as Minnesota (Minn.G.R.Prac. Rule 11.03), South Dakota (SDCL § 15-15A-8), and Washington (WA.R.Gen. Rule 22(b)(8) and (g)). One manner in which to implement this protocol (e.g., the need to separate a confidential document within a file accessible to the public) is to maintain a confidential electronic folder or confidential documents file within the case file, thus ensuring that the file folder with the non-public information can be easily separated from the public case file, when access is requested.

Concerning financial source documents, other jurisdictions have similar provisions regarding such documents including Minnesota (Minn.G.R.Prac. Rule 11.03), South Dakota (SDCL § 15-15A-8), and Washington (WA.R.Gen. Rule 22(b)(8) and (g)).

Similar protocols with regard to minors’ education records are found in other jurisdictions, such as Nebraska (Neb Ct R § 1-808(a) and Neb. Rev. Stat § 84-712.05(1)) and Wyoming (WY R Gov Access Ct Rule 6(a) and WY ST § 16-4-203(d)(viii)).

With regard to medical records, other jurisdictions have similar provisions including Indiana (Ind. St. Admin. Rule 9(G)(1)(b)(xi)), Maryland (MD. Rules 16-1006(i)), Nebraska (Neb Ct R § 1-808(a) and Neb. Rev. Stat § 84-712.05(2)), Utah (UT R J ADMIN Rules 4-202.02(4)(k) and 4-202-03(3)), Vermont (VT R PUB ACC CT REC § 6(b)(17)), West Virginia (WV R RAP Rule 40(e)(1)) and Wyoming (WY R Gov Access Ct Rule 6(t)).

Section 7111 of the Mental Health Procedures Act, 50 P.S. § 7111, provides that all documentation concerning an individual’s mental health treatment is to be kept confidential and may not be released or disclosed to anyone, absent the patient’s written consent, with certain exceptions including a court’s review in the course of legal proceedings authorized under the Mental Health Procedures Act (50 P.S. § 7101). While it is unclear if this provision is applicable to the public accessing an individual’s mental health treatment records in the court’s possession, the working group believes this provision provides guidance on the subject. Thus, such records should not be available to the public except pursuant to a court order. See *Zane v. Friends Hospital*, 575 Pa. 236, 836 A.2d 25 (2003). Other jurisdictions have similar protocols, such as

Maryland (MD. Rules 16-1006(i)), New Mexico (NMRA Rule 1-079(c)(5)), Utah (UT R J ADMIN Rules 4-202.02(4)(k) and 4-202-03(3)), Vermont (VT R PUB ACC CT REC § 6(b)(17)) and Wyoming (WY R Gov Access Ct Rule 6(p)).

Children and Youth Services’ records introduced in juvenile dependency or delinquency matters are not open to public inspection. See 42 Pa.C.S. § 6307 as well as Pa.Rs.J.C.P. 160 and 1160. Introduction of such records in a different proceeding (e.g., a custody matter) should not change the confidentiality of these records; thus, the records should be treated similarly. These records are treated similarly by other jurisdictions, such as Florida (FL ST J ADMIN Rule 2.420(d)(1)(B)(i)), Indiana (Ind. St. Admin. Rule 9(G)(1)(b)(iii)) and New Jersey (NJ R GEN APPLICATION Rule 1:38-3(d)(12) and (15)).

The extent of financially sensitive information required by Pa.R.C.P. No. 1910.27(c) and 1920.33 that must be listed on income and expense statements, marital property inventories and pre-trial statements rivals information contained in a financial source document. Therefore, these documents should also be treated as confidential. Vermont has a similar protocol (VT R PUB ACC CT REC § 6(b)(33) and 15 V.S.A. § 662).

Courts that permit e-filing should consider the development of a compliance “checkbox” whereby e-filers could indicate their compliance with this policy.

This section only applies to documents filed with a court or custodian on or after the effective date of this policy. There will be a period of transition prior to full implementation of this policy; that is, some documents filed with a court or custodian prior to the effective date of this policy will contain information that the policy restricts from public access. To expect full and complete implementation of this policy by applying it retroactively to those documents filed prior to the effective day of this policy is impractical and burdensome.

However, it is important to remember with regard to pre-policy records, a party or attorney always has the option to file a motion with the court to seal, in whole or part, a document or file. This includes the ability to request sealing and/or redaction of only some information that resides on a document in the court file (e.g., a social security number on a document).

Section 9

This section safeguards certain sensitive information that is already protected by existing authority or was deemed to require protection by the working group from access at the court facility. The latter category included two specific types of records: birth records and incapacity proceeding records.

Access to a birth certificate from the Department of Health, particularly an amended birth certificate, such as in an adoption case, is limited pursuant to various statutes. 35 P.S. §§ 450.603, 2915 and 2931. Unrestricted access to records filed in proceedings about birth records could have the unintended effect of circumventing the purposes of the confidentiality provisions of the above statutory framework. Moreover, at least one jurisdiction, Florida (FL ST J ADMIN Rule 2.420(d)(1)(B)(vi)), provides similar protections to these records. However, concerned that the lack of transparency may erode the public’s trust and confidence, dockets and any court order, decree or judgment in these cases are exempted by the policy. Releasing the dockets as well as any order, decree or judgment disposing of the case is believed to strike the appropriate balance between access to the court’s deci-

sion, and hence the public's understanding of the judicial function, and personal privacy.

Given the extent of financial and sensitive information that is provided in order that a court may determine whether a person is incapacitated and, if so, that must subsequently be reported in a guardian's report, these records are not be accessible. Similar provisions are found in many other jurisdictions including: California (Cal. Rules of Court, Rule 2.503(c)(3)), Florida (F.S.A. §§ 744.1076 and 744.3701), Georgia (Ga. Code Ann. § 29-9-18), Idaho (ID. R. Admin. Rule 32), Maryland (MD. Rules 16-1006), New Jersey (NJ R GEN APPLICATION Rule 1:38-3(e)), New Mexico (NMRA Rule 1-079(c)(7)), South Dakota (SDCL § 15-15A-7(3)(m)), Utah (UT R J Admin. Rule 4-202.02(4)(L)(ii)), Washington (WA.R.Gen. Rule 22(e)) and Wyoming (WY R Gov Access Ct Rule 6(g)). For the reasons of transparency, the case docket and any court order, decree or judgment for these cases is exempted pursuant to this policy.

The provisions of Subsection G are consistent with those contained in the *Electronic Policy, MDC Paper Policy* and Rule of Judicial Administration 509. The Judiciary's commitment to the principle of open and accessible case records is reflected in the inclusion of a publication requirement.

Section 10

Any information to which access is limited pursuant to Sections 7, 8 or 9 is also not accessible remotely pursuant to Subsection A(1). As to Subsections A(2) through A(7), it is important to note that this information will remain available at the courthouse or court facility where access has been traditionally afforded. There is a difference between maintaining "public" records for viewing/copying at the courthouse and "publishing" records on the Internet. Thus, there is certain information for which at the present time courthouse access remains the appropriate forum.

Concerning Subsection A(2)'s restriction on remote access to information that identifies jurors, witnesses, and victims in criminal cases, similar provision exist in the *Electronic Policy* and have been implemented by other jurisdictions, including Alaska (AK R ADMIN Rule 37.8(a)(1) and (2)), Indiana (Ind. St. Admin. Rule 9(G)(1)(e)), Mississippi (Administrative Order dated August 27, 2008 paragraph 8), Nebraska (NE R CT § 1-808(b)(3)), Texas (TX ST J ADMIN Rule 12.5(d)) and Utah (UT R J ADMIN Rules 4-202.02(8)(e) and 4-202-03(7)).

As pertains to Subsection A(5), in considering family court records (i.e., divorce, custody, and support), individual courts have implemented protocols to shield some of these records from access. Sensitive to these concerns, prohibiting online posting of any family court records (save for a docket, court orders and opinions), along with the requirements that certain information and documents filed with the court or custodian be restricted from access via the use of a Confidential Information Form, redacted filings or a Confidential Document Form, removes a significant amount of the personal, sensitive information from access, while allowing public access to ensure accountability and transparency of the judicial system.

With regard to Subsection A(6), New Mexico has a similar protocol protecting Older Adult Protective Services Act matters (NMRA Rule 1-079(c)(4)). For the reasons expressed above, remote access should be afforded to dockets, court orders and opinions in these cases, to the extent that the judicial districts have developed systems and procedures that facilitate such access.

While case records remotely accessible to the public prior to the effective date of this policy may remain online in unredacted form, judicial districts are not prohibited from taking steps to safeguard sensitive case records designated by this section. To expect full and complete implementation of the policy by applying it retroactively to records remotely accessible prior to the effective date of this policy is impractical and burdensome.

However, it is important to remember with regard to pre-policy records, a party or attorney always has the option to file a motion with the court to seal, in whole or part, a document or file. This includes the ability to request sealing and/or redaction of only some information that resides on a document in the court file (e.g., a social security number on a document).

It is essential that courts and custodians in designing systems, such as those for document imaging, e-filing, or both consider the requirements of this policy and ensure such systems are in compliance. This is imperative as the Judiciary moves toward statewide e-filing for all levels of courts.

As for systems currently in existence, the policy may require changes to current protocols and processes.

Section 11

A similar provision is included in the *Electronic Policy*. This policy delineates a procedure by which an individual may correct a clerical error that appears in a case record accessible remotely. As noted in the Explanatory Report to the *Electronic Policy*, these provisions borrow heavily from the correction provisions in the Criminal History Record Information Act. For the same reasons outlined in the Explanatory Report, a similar protocol was included in this policy.

Best Practices

The following are various "best practices" that should be considered by the courts, parties and their attorneys to promote the successful implementation of this policy.

1. The Judiciary should remain cognizant of this policy in the development of e-filing and case management systems, procedures and forms. The following "best practices" should be considered as courts develop systems for e-filing:

a. Access to the courts should be promoted by the e-filing processes;

b. Court control over its own records should be preserved;

c. Systems should have consistent functionality, compatible protocols and rules to facilitate statewide practice;

d. Processes for *pro se* litigants should be defined to provide equal and secure access to the system;

e. Issues involving public access to e-documents, and the sensitive data that may be contained therein, should be fully studied before the e-filing system is developed (e.g., separate e-filing of exhibits from other documents);

f. Payment of any required filing fees should be accomplished via electronic methods;

g. Bi-directional exchange of data should be facilitated between e-filing and case management systems; and

h. Maximum flexibility in the design of a system should be sought to accommodate future evolutions of technology.

2. Compliance with this policy and the Judiciary's commitment to open records may be assisted by various technological and administrative solutions, such as:

a. Implementation of redaction and "optical character recognition" software may assist parties and their attorneys in complying with the policy. Some judicial districts also employ redaction software to protect sensitive data as a "best practice."

b. Due consideration and routine review by custodians should be given to the standards for record retention as applied to those records in paper form and electronic form.

TITLE 234. RULES OF CRIMINAL PROCEDURE CHAPTER 5. PRETRIAL PROCEDURES IN COURT CASES

PART G(1). Motion Procedures

Rule 578. Omnibus Pretrial Motion for Relief.

Unless otherwise required in the interests of justice, all pretrial requests for relief shall be included in one omnibus motion.

Comment

Types of relief appropriate for the omnibus pretrial motions include the following requests:

* * * * *

(11) for transfer from criminal proceedings to juvenile proceedings pursuant to 42 Pa.C.S. § 6322[.];

(12) proposing or opposing the admissibility of scientific or expert evidence.

The omnibus pretrial motion rule is not intended to limit other types of motions, oral or written, made pretrial or during trial, including those traditionally called motions *in limine*, which may affect the admissibility of evidence or the resolution of other matters. The earliest feasible submissions and rulings on such motions are encouraged.

See Pa.Rs.E. 702 and 703 regarding the admissibility of scientific or expert testimony. Pa.R.E 702 codifies Pennsylvania's adherence to the test to determine the admissibility of expert evidence first established in *Frye v. United States*, 293 F. 1013 (App. D.C. 1923) and adopted by the Pennsylvania Supreme Court in *Commonwealth v. Topa*, 369 A.2d 1277 (Pa. 1977). Given the potential complexity when the admissibility of such evidence is challenged, such challenges should be raised in advance of trial as part of the omnibus pretrial motion if possible. However, nothing in this rule precludes such challenges being raised in a motion *in limine* when circumstances necessitate it.

See Rule 556.4 for challenges to the array of an indicting grand jury and for motions to dismiss an information filed after a grand jury indicts a defendant.

Official Note: Formerly Rule 304, adopted June 30, 1964, effective January 1, 1965; amended and renumbered Rule 306 June 29, 1977 and November 22, 1977, effective as to cases in which the indictment or information is filed on or after January 1, 1978; amended October 21, 1983, effective January 1, 1984; Comment revised October 25, 1990, effective January 1, 1991; Comment revised August 12, 1993, effective September 1, 1993; renumbered Rule 578 and Comment revised March 1, 2000, effective April 1, 2001; Comment revised June 21, 2012, effective in 180 days; Comment revised July 31, 2012, effective November 1, 2012; **Comment revised , 2017, effective , 2017.**

REPORT

*Proposed Revision of the Comment to
Pa.R.Crim.P. 578***Rule 578: Pretrial Resolution of Admissibility of
Expert Testimony**

The Committee recently examined the question of the pretrial determination of the admissibility of expert testimony. This was prompted by a dissenting opinion penned by Justice Dougherty in the case of *Commonwealth v. Safka*, 141 A.3d 1239 (Pa. 2016). *Safka* was a vehicular manslaughter case in which there was a dispute over the admissibility of evidence of the vehicle's speed from the vehicle's Event Data Recorder (EDR). Although there was no pretrial challenge to this evidence, the defense, at trial, questioned the reliability and accuracy of the data retrieved from the EDR. After provisionally admitting the EDR evidence, following closings, the trial judge *sua sponte*, reopened the record for the limited purpose of providing the parties the opportunity to present expert testimony to address the reliability of the manner in which data was recorded in the EDR. The Commonwealth subsequently produced an expert on the question and the trial judge confirmed the original tentative decision to admit the EDR evidence.

On appeal to the Supreme Court, the majority upheld the trial court and Superior Court decisions, finding that it was not improper for the trial court, *sua sponte*, to allow the Commonwealth to establish the reliability of the scientific evidence after the Commonwealth had rested, particularly when the parties are permitted to seek a reopening under similar circumstances. In his dissent, Justice Dougherty maintained that, since the Commonwealth bears the burden of establishing the reliability of its evidence, the record should not have been reopened on this issue. More importantly from a procedural standpoint, he noted that this issue could have been avoided had the EDR's reliability been challenged earlier than at trial as it had been. Acknowledging that the defense did nothing improper under the current rules, he recommended that the Committee examine rule changes that would encourage the pretrial resolution of these types of challenges.

Frye v. United States, 293 F. 1013 (App. D.C. 1923) is the seminal case establishing the test for the admissibility of scientific evidence. The *Frye* test requires the proponent of scientific evidence to establish that the theory and method used by the expert witness were generally accepted within the relevant scientific community. Although modified in a number of jurisdictions by acceptance of the holding in *Daubert v. Merrell Dow Pharmaceuticals, Inc.*, 509 U.S. 579 (1993) and *Kumho Tire Co. v. Carmichael*, 526 U.S. 137 (1999), Pennsylvania still adheres generally to the *Frye* test and this standard is recognized in Rule of Evidence 702. Rule of Evidence 703 also enumerates the bases for expert opinion testimony.

Neither of these rules of evidence addresses procedures for raising such challenges. Rule of Civil Procedure 207.1 provides specific procedures for raising challenges to scientific evidence. However, as Justice Dougherty notes, the civil rule does not provide for specific timing but is primarily a content rule. In fact, paragraph (b) of Rule 207.1 states that a party is not required to raise the admissibility of expert testimony pre-trial unless the court so orders. There is language in the Official Note to Rule 207.1 providing some guidance as to the pretrial determination of such issues:

In deciding whether to address prior to trial the admissibility of the testimony of an expert witness, the following factors are among those which the court should consider: the dispositive nature or significance of the issue to the case, the complexity of the issue involved in the testimony of the expert witness, the degree of novelty of the proposed evidence, the complexity of the case, the anticipated length of trial, the potential for delay of trial, and the feasibility of the court evaluating the expert witness' testimony when offered at trial.

However, this guidance is directed toward the judge in deciding the issue and not toward the parties regarding the time for raising such issues.

The Rules of Criminal Procedure do not provide specific procedures for raising *Frye* issues. *Frye* challenges generally are raised as motions *in limine* but the rules do not provide for any specific timing for raising these motions. Rules 578 and 579 require an omnibus pretrial motion to be served within 30 days of arraignment and a court to determine all pretrial motions before trial. However, motions *in limine* are distinguished from the omnibus pre-trial motion (and its timing provisions) in the Rule 578 Comment.

The Committee noted that the federal system encourages the pretrial determination of challenges to expert testimony. For example, the Third Circuit has emphasized the importance of conducting *in limine* hearings under Fed. R. Evid. 104 (resolution of preliminary questions) when making reliability determinations required by Fed. R. Evid. 702 and *Daubert. Padillas v. Stork-Gamco, Inc.*, 186 F.3d 412, 417 (3d Cir. 1999). However, this is based heavily on the gatekeeping function that is placed on the trial court by *Daubert* and such motions may still be brought during trial. *See, e.g., Smoot v. Mazda Motors of America, Inc.*, 469 F.3d 675, 676 (7th Cir. 2006).

Based on a review of the foregoing, the Committee concluded that the rules should encourage the pre-trial determination of the admissibility of expert testimony. However, the Committee believes that it would not be effective to create a specific deadline by which time the motion must be filed, given the wide variations of the types of evidence involved and the circumstances under which the evidence is discovered. The Committee decided that the question would be best addressed by adding a general provision to encourage pre-trial determination of these issues. The Committee is proposing a revision to the Comment to Rule 578 that contains a list of suggested types of pretrial motions to be included in the omnibus pretrial motion by adding to that list those motions that would "establish a challenge to the admissibility of scientific or expert evidence."

One of the issues that the Committee discussed was the question of whether or not adding these types of motions to the Rule 578 Comment list of suggested motions would now tie them to the time limitations for omnibus pretrial motions. The Committee first noted that the time limitations for filing omnibus motions often are treated more flexibly by most courts, given the wide variations of issues raised. More specifically, the Committee believes that if there is a legitimate question concerning the reliability of scientific evidence, a trial judge would permit it to be raised even if it was after the Rule 578 time limit. The Committee discussed removing the Rule 578 Comment language referring to motions *in limine* but decided that there are motions *in limine* unrelated to *Frye* issues that should continue to be exempt and did not want to confuse the issue.

The Committee ultimately agreed to add language to the Comment that would state that the pre-trial determination of *Frye* issues should be encouraged but that raising these issues in a later motion *in limine* is permissible as well. The Committee concluded that a cross-reference in the Rule 578 Comment to Rules of Evidence 702 and 703, which address more substantive aspects of the admissibility of expert testimony, would be helpful. Additionally, the Comment should also contain a cross-reference to *Frye* and the chief Pennsylvania cases applying it.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Amendments to the Rules of Practice and Procedure Concerning Regulatory Program Fees and to the Basin Regulations—Water Supply Charges Concerning Rates

Proposed: *Pennsylvania Bulletin* (46 Pa.B. 2967 (June 11, 2016))

Adopted: December 14, 2016 by the Delaware River Basin Commission, Pamela M. Bush, Esq., Commission Secretary.

Filed: January 10, 2017 as a final regulation.

Effective: January 1, 2017.

Summary: By Resolution No. 2016-9 on December 14, 2016, the Delaware River Basin Commission amended its *Rules of Practice and Procedure* and *Basin Regulations—Water Supply Charges*, respectively, to adopt a new project review fee structure and provide for automatic inflation adjustments. These changes were also incorporated into the Commission's Comprehensive Plan.

Contact: Richard C. Gore, Director of Administration and Finance, 609-883-9500, ext. 201.

Supplementary Information: Background. The Delaware River Basin Commission ("DRBC" or "Commission") is a Federal-interstate compact agency charged with managing the water resources of the Delaware River Basin on a regional basis without regard to political boundaries. Its members are the governors of the four basin states—Delaware, New Jersey, New York and Pennsylvania—and on behalf of the federal government, the North Atlantic Division Commander of the U.S. Army Corps of Engineers.

By Resolution No. 2016-9 on December 14, 2016 the Commission approved a comprehensive revision of its project review fee structure, including an automatic annual indexed inflation adjustment for most fees. An inflation adjustment was also approved for DRBC's water supply charges rates applicable to consumptive and non-consumptive surface water withdrawals. The changes to DRBC's regulatory program fees are designed to provide a more predictable and sustainable source of revenues and to close the annual gap in funding needed to support DRBC's project review program. They also adjust the fees program to better align with the One Process/One Permit Program instituted earlier in 2016. The changes to DRBC's water supply charges regulations are designed to help revenues assigned to DRBC's Water Supply Storage Facilities Fund keep pace with inflation.

Public Process. A Notice of Proposed Rulemaking and Public Hearing was posted to the Commission's website on May 9, 2016. A detailed set of questions and answers about the proposal ("FAQs") and a press release accompanied the May 9, 2016 web posting. On May 10, 2016, an email alert, including a link to the notice and supporting documents, was transmitted to all parties subscribed to DRBC's list serve. Notice of the proposed rules was published in the *Federal Register* at 81 FR 35662, June 3,

2016 and appeared in the *Delaware Register of Regulations*, 19 DE Reg., 1052, June 1, 2016; *New Jersey Register*, 48 N.J.R. 949, June 6, 2016; *New York State Register*, May 25, 2016 (page 1); and *Pennsylvania Bulletin*, 46 Pa.B. 2967, June 11, 2016. DRBC staff hosted a public informational meeting on the proposal on Wednesday, June 15, 2016 in Washington Crossing, Pa., including presentations by staff and informal questions and answers. The FAQs posted on the Commission's website were thereafter supplemented with questions and responses offered during the informational meeting. A public hearing on the proposed amendments took place at the Commission's office building in West Trenton, N.J. on July 27, 2016 and written comments were accepted through August 12, 2016.

In response to the written and oral comments submitted on the draft rules, staff developed a detailed comment and response document, including modest changes to the rule text. After careful consideration and consultation with staff on the comments and proposed changes to the draft rules, the Commissioners determined that the changes were appropriate, responsive to the public's concerns and a logical outgrowth of the rules as proposed. The changes and the staff response to comments were adopted by unanimous vote of the Commissioners to approve Resolution No. 2016-9 at the Commission's public business meeting on December 14, 2016.

§ 901.3. Water supply charges.

The Basin Regulations—Water Supply Charges as set forth in 18 CFR Part 420 (2017 [1994]) are hereby incorporated by reference and made part of this title.

Part 401—Rules of Practice and Procedure

[Subpart C has been amended by the addition of a new § 401.43 to read as follows:]

§ 401.43 Regulatory program fees.

(a) *Purpose.* The purpose of this section is to provide an adequate, stable and reliable stream of revenue to cover the cost of the Commission's regulatory program activities, an important means by which the Commission coordinates management of the shared water resources of the Basin. Activities to be covered by the fees include the review of applications for projects that are subject to review under the Delaware River Basin Compact and implementing regulations; and ongoing activities associated with such projects, including but not limited to, effluent and ambient monitoring, data analysis, hydrodynamic and water quality modeling, and coordination with state and federal agencies.

(b) *Types of fees.* The following types of fees are established by this section:

(1) *Docket application fee.* Except as set forth in paragraph (b)(1)(iii) of this section, the docket application fee shall apply to:

(i) *Project requiring a DRBC-issued docket or permit.* Any project that, in accordance with the Delaware River Basin Compact and DRBC regulations, requires a Commission-issued docket or permit, whether it be a new or existing project for which the Commission has not yet issued an approval or a project for which the renewal of a previous Commission approval is required.

(ii) *Project requiring inclusion in the comprehensive plan.* Any project that in accordance with section 11 or section 13.1 of the *Delaware River Basin Compact* and DRBC regulations must be added to the Comprehensive Plan (also, "Plan"). In addition to any new project required to be included in the Plan, such projects include existing projects that in accordance with section 13.1 of the *Compact* are required to be included in the Plan and which were not previously added to the Plan. Any existing project that is changed substantially from the project as described in the Plan shall be deemed to be a new and different project for purposes of this section.

(iii) *Exemptions.* The docket application fee shall not apply to:

(A) Any project for which the Signatory Party Agency serves as lead under the One Permit Program rule (§ 401.42), unless such project must be added by the Commission to the Comprehensive Plan.

(B) Any project for which an agency, authority or commission of a signatory to the Compact is the primary sponsor. Projects sponsored by political subdivisions of the signatory states shall not be included in this exemption. For purposes of this section "political subdivisions" shall

include without limitation municipalities, municipal utility authorities, municipal development corporations, and all other entities not directly under the budgetary and administrative control of the Commission's members.

(2) *Annual monitoring and coordination fee*—(i) Except as provided in paragraph (ii) below, an annual monitoring and coordination fee shall apply to each active water allocation or wastewater discharge approval issued pursuant to the *Compact* and implementing regulations, regardless of whether the approval was issued by the Commission in the form of a docket, permit or other instrument, or by a Signatory Party Agency under the One Permit Program rule (§ 401.42). The fee shall be based on the amount of a project's approved monthly water allocation and/or approved daily discharge capacity.

(ii) For any withdrawal or diversion covered in part by a certificate of entitlement issued pursuant to 18 CFR § 420.31-32 of the water supply charges regulations, the annual monitoring and coordination fee shall be based on the allocated amount, if any, in excess of the quantity specified in the entitlement.

(3) *Alternative review fee.* In instances where the Commission's activities and related costs associated with the review of an existing or proposed project are expected to involve extraordinary time and expense, an alternative review fee equal to the Commission's actual costs may be imposed. The Executive Director shall inform the project sponsor in writing when the alternative review fee is to be applied and may require advance payment in the amount of the Commission's projected costs. Instances in which the alternative review fee may apply include, but are not limited to, matters in which:

(i) DRBC staff perform a detailed pre-application review, including but not limited to the performance or review of modeling and/or analysis to identify target limits for wastewater discharges.

(ii) DRBC staff perform or review complex modeling in connection with the design of a wastewater discharge diffuser system.

(iii) DRBC manages a public process for which the degree of public involvement results in extraordinary effort and expense, including but not limited to, costs associated with multiple stakeholder meetings, special public hearings, and/or voluminous public comment.

(iv) DRBC conducts or is required to engage third parties to conduct additional analyses or evaluations of a project in response to a court order.

(4) *Additional fees*—(i) *Emergency approval.* A request for an emergency certificate under § 401.40 to waive or amend a docket condition shall be subject to a minimum fee in accordance with paragraph (e) of this section. An alternative review fee also may be charged in accordance with paragraph (b)(3) of this section.

(ii) *Late filed renewal application.* Any renewal application submitted fewer than 120 calendar days in advance of the expiration date or after such other date specified in the docket or permit or letter of the Executive Director for filing a renewal application shall be subject to a late filed renewal application charge in excess of the otherwise applicable fee.

(iii) *Modification of a DRBC approval.* Following Commission action on a project, each project revision or modification that the Executive Director deems substantial shall require an additional docket application fee calculated in accordance with paragraph (e) of this section and subject to an alternative review fee in accordance with paragraph (b)(3) of this section.

(iv) *Name change.* Each project with a docket or permit issued by the DRBC or by a Signatory Party Agency pursuant to the One Permit Program rule (§ 401.42) will be charged an administrative fee as set forth in paragraph (e) of this section.

(v) *Change of ownership.* Each project that undergoes a “change in ownership” as that term is defined at 18 CFR 420.31(e)(2) will be charged an administrative fee as set forth in paragraph (e) of this section.

(c) *Indexed adjustment.* On July 1 of every year, beginning July 1, 2017, all fees established by this section will increase commensurate with any increase in the annual April 12-month Consumer Price Index (CPI) for Philadelphia, published by the U.S. Bureau of Labor Statistics

during that year.¹ In any year in which the April 12-month CPI for Philadelphia declines or shows no change, the docket application fee and annual monitoring and coordination fee will remain unchanged. Following any indexed adjustment made under this paragraph (c), a revised fee schedule will be published in the Federal Register by July 1 and posted on the Commission’s website. Interested parties may also obtain the fee schedule by contacting the Commission directly during business hours.

(d) *Late payment charge.* When any fee established by this section remains unpaid 30 calendar days after the payment due date provided on the Commission’s invoice, an incremental charge equal to 2% of the amount owed shall be automatically assessed. Such charge shall be assessed every 30 days thereafter until the total amount owed, including any late payment charges has been paid in full.

(e) *Fee schedules.* The fees described in this section shall be as follows:

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of February 2017

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of February, 2017, is 5 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.81 to which was added 2.50 percentage points for a total of 5.31 that by law is rounded off to the nearest quarter at 5 1/4%.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Community Conservation Partnerships Program Grants Available

The Department of Conservation and Natural Resources (Department) announces the 2017 open application period for the Community Conservation Partnerships Program Grants administered by the Bureau of Recreation and Conservation (Bureau). The open application period opens January 23, 2017, and will end at 4 p.m. on April 12, 2017. Depending on the funding source, eligible applicants include municipalities and appropriate non-profit organizations in this Commonwealth.

Applications must be submitted electronically through the Department's Grants Portal. No paper, faxed or e-mailed applications will be accepted. Grant information, project guidance documents, program policies, applications and instructions are available online at <http://www.dcnr.state.pa.us/brc/grants>. Grant assistance from the Department helps communities and organizations in this Commonwealth plan, acquire and develop recreation, park and trail facilities, and conserve open space. New in 2017 is the Riparian Forest

Buffer Grant Program from which grants will be awarded to municipal entities, educational institutions and nonprofits to establish riparian forest buffers along the Commonwealth's waterways.

The Bureau administers the Community Conservation Partnerships Program, which combines several State and Federal funding sources including the Keystone Recreation, Park and Conservation Fund, the Environmental Stewardship Fund, the Pennsylvania Recreation Trails Program, the Land and Water Conservation Fund, the Snowmobile Restricted Account and the All-Terrain Vehicle Restricted Account.

The Statewide Comprehensive Outdoor Recreation Plan 2014—2019 at www.paoutdoorrecplan.com identifies the Commonwealth's outdoor recreation priorities. Projects will be selected, in part, on how well they align with these priorities. The priorities include:

Community parks and recreation: Priority projects in this category include planning and development projects that focus on rehabilitation of existing parks or promote health and wellness through innovative partnerships.

Land conservation: Priority projects in this category include land conservation projects that protect critical habitat, forested watersheds, wetlands and riparian corridors, or create critical connections between public lands.

Rivers implementation: Priority projects in this category include projects that enhance public access to the Commonwealth's waterways or projects that improve the Commonwealth's watersheds including the planting of riparian forest buffers.

Trails: Priority projects in this category include projects that close priority trail gaps as well as projects that rehabilitate or upgrade existing trails.

Bureau staff are available to assist agencies with developing a competitive grant application. Staff contact information can be found on the Bureau's web site at <http://www.dcnr.state.pa.us/brc/aboutus/index.htm>.

Revisions to Schedule of Prices for State Parks

A. Summary and Background

Under section 314 of the Conservation and Natural Resources Act (71 P.S. § 1340.314) and 17 Pa. Code § 11.224 (relating to prices), the Department of Conservation and Natural Resources (Department), Bureau of State Parks (Bureau), will revise its price schedule for State Park activities, uses and privileges effective February 1, 2017. The new schedule, which is in section D, includes revisions to the schedule to add a transaction fee range and a base price for campsites fee range.

The new schedule includes a price increase for non-Commonwealth residents for the base night of camping.

The new schedule reflects a price increase for the transaction fee to continue to defray the cost of using the upgraded reservation system.

The revisions to the schedule provide a range to be used for larger multifamily overnight facilities. This range currently applies to the Hufman and Copper Kettle facilities at Laurel Hill State Park. This range could also be utilized at other large family group facilities in the future.

The revisions to the schedule provide a reduced range for whitewater rafting launching due to collecting a transaction fee for each reservation. The revision also includes a range/fee for the use of facilities to recharge electric cars.

The revisions to the schedule also provide a weekend/holiday daily admission range to be used at pools. This reflects current trends in the surrounding communities where a higher rate is charged on peak days. This assists operationally as well as increases revenue generation.

The new price schedule, which is comparable to those of state parks in neighboring states, is needed to increase revenue to the Bureau. In addition to offsetting inflation, it narrows the gap between State Parks and private

facilities, resulting in a more favorable competitive climate for the private sector.

For comparison purposes, the current price schedule along with the new price schedule can be found at the State Parks web site at <http://www.dcnr.state.pa.us/stateparks/prices/index.htm>. It can also be obtained by calling State Parks Reservations and Information at (888) PA-PARKS. When the new price schedule becomes effective, it will be posted on the previously listed State Parks web site.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or

suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State

Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southcentral Region: Air Quality Program, 909 Elmerston Avenue, Harrisburg, PA 17110.

Contact: Thomas Hanlon, Facilities Permitting Chief, 717-705-4862, Virendra Trivedi, New Source Review Chief, 717-705-4863, or William Weaver, Regional Air Quality Manager, 717-705-4702.

22-03095A: Fager-Finkenbinder Funeral Home & Crematory, Inc. (208 North Union Street, Middletown, PA 17057) for the installation of a human crematory at the funeral home located in Middletown Borough, **Dauphin County**. The expected increases in facility emissions as a result of the changes proposed are: 2.30 tpy of PM, 0.99 tpy of NO_x, 3.29 tpy of CO, 0.82 tpy of SO_x, 0.99 tpy of VOCs and 927.53 tpy of CO₂. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

PUBLIC HEARINGS

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Contact: Raymond Kempa, New Source Review Chief—Telephone: 570-826-2507.

Public Notification to Solicit Comments on **PennEast Pipeline Company; Plan Approval Application No: 13-00019A.**

Notice is hereby given under 25 Pa. Code §§ 127.44(b)(5) and 127.424, that the Department of Environmental Protection (Department) is soliciting comments on the proposed Air Quality Plan Approval 13-00019A for PennEast Pipeline Company, 1 Meridian Boulevard, Suite

2C01, Wyomissing, PA 19610 for the construction and operation of the Kidder compressor station to be located in Kidder Township, **Carbon County** as described in their March 21, 2016 Plan Approval Application and any other subsequent supplemental submissions.

The project includes the following equipment:

1. Three (3) natural gas-fired, combustion turbine—Gas Compressor Sets, (model no. Mars 100-16000S rated at 15,900 horsepower (hp) each under ISO conditions (47,700 total ISO hp)).

2. One (1) new natural gas-fired internal combustion engine auxiliary power unit.

3. Two (2) fuel gas heaters rated at approximately 1.03 million British thermal units per hour (MMBtu/hr) heat input each.

4. One (1) 1,100 gallon storage tank to store pipeline liquids collected in the gas filters.

5. Various small storage vessels (for waste liquids, lubricating oil, etc.)

The company has proposed to use Solar's lean-premixed dry low emissions system (SoLoNO_x) to provide the lowest NO_x emissions possible during normal operating conditions. The hot exhaust gas leaving the CTs will be directed through an exhaust system that includes a catalytic oxidizer for reducing carbon monoxide (CO) and volatile organic compounds (VOCs) emissions. The combustion and fuel systems are designed to reduce NO_x, CO and unburned hydrocarbons to attain NO_x emission level of 15 PPM and CO emission level of 2.5 PPM, corrected to

15% oxygen, and non-methane/non-ethane hydrocarbons at 2.5 PPM corrected to 15% oxygen when burning natural gas. The company will operate each turbine for 8,760 hours annually.

The natural gas fired auxiliary power unit will be operated to a maximum of 500 hours of operation each, in any 12 consecutive month periods, for non-emergency operation.

The facility will be subject to NSPS Subpart KKKK, JJJJ and 25 Pa. Code § 127.12(a)(5) Best Available Technology (BAT) requirements. The visible emission will be equal to or less than 20% for up to 3 minutes in one hour; <60% at all time from each turbine. The company shall be subject to and comply with 25 Pa. Code § 123.31 for malodorous emissions. Fugitive emissions, including greenhouse gases (GHGs) emissions, have been reviewed pursuant to 25 Pa. Code § 123.1(a)(9). A Best Available Technology (BAT) review for Greenhouse Gases (GHGs) emissions and Gas Compression vs. Electric Compression emissions analysis was submitted by the company and has been reviewed by the Department.

Emissions from the turbines will meet BAT & NSPS Subpart KKKK requirements. Emissions from the emergency generator engine will meet BAT & NSPS Subpart JJJJ requirements. * The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

Parameter	30-Day Average	Daily Maximum	Instantaneous Maximum
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a

remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Approval of a Reasonably Available Control Technology (RACT II) plan for **Calpine Corporation** located in Bethlehem, **Northampton County**.

In accordance with 25 Pa. Code §§ 129.96—129.100, the Department of Environmental Protection has made a preliminary determination to approve a RACT II plan and an amendment to the State Implementation Plan (SIP) for the Bethlehem Energy Center owned and operated by Calpine Corporation in Bethlehem, Northampton County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the amended RACT II approval for the facility, which are intended to satisfy the requirements for the 1997 National Ambient Air Quality Standard (NAAQS) and the 2008 NAAQS for ozone.

The proposed amendments to the RACT II determination, if finally approved, will be incorporated into a revised operating permit 48-00076 for the facility. The relevant RACT II requirements will be submitted to the U.S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan and will remain in effect until replaced pursuant to 40 CFR 51 and approval by the EPA. Requirements that are not part of the RACT II determination will be excluded from the SIP submittal.

The following is a summary of the proposed amendments to the RACT II determination for this operation that will be submitted to the EPA as a SIP revision:

Conditional State Water Quality Certification for the Emsworth Locks and Dam Hydroelectric Project, FERC Project No. 13757-002

On March 14, 2014, **FFP Missouri 5, LLC** (Applicant) filed an application with the Federal Energy Regulatory Commission (FERC) for a license to construct and operate a 24-megawatt (MW) hydroelectric facility at the Emsworth Locks and Dam, which is owned and operated by the U.S. Army Corps of Engineers (Corps), on the Ohio River, at river mile 6.2, in **Allegheny County**, Pennsylvania (Project). The Applicant is required pursuant to section 401(a) of the Federal Clean Water Act (act) (33 U.S.C.A. § 1341(a)) to provide FERC with certification from the Commonwealth of Pennsylvania (Common-

wealth) that any discharge from the Project to waters of the Commonwealth will comply with provisions of the act relating to water quality standards, and necessary measures to achieve and maintain those standards. The Commonwealth has established such standards and programs to achieve and maintain them under State law, which have been approved by the U.S. Environmental Protection Agency as consistent with the applicable provisions of the act. The Pennsylvania Department of Environmental Protection (Department) administers the Commonwealth's water quality standards programs under State law, and is responsible for the review of requests from applicants for water quality certification made pursuant to section 401 of the act.

On January 7, 2016, Applicant requested a State water quality certification from the Department, as required by Section 401 of CWA (33 U.S.C.A. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with CWA requirements.

On August 23, 2016, Rye Development, LLC provided the Department with a complete application for State Water Quality Certification, including an Environmental Assessment for the Project, on behalf of the Applicant. The Project would consist of a new 205-foot-long, 180-foot-wide intake channel to be excavated into the riverbed immediately downstream of the Corps' gate 7 and 8. Four (4) 50-foot-wide, 40-foot-high spillway gate bays would be constructed along the river side of the excavated intake channel, to pass flow equivalent to the Corps' spillway gates 7 and 8. The intake channel would lead to a concrete intake structure that would convey flows past a trash rack with 5-inch clear bar spacing, to a new reinforced concrete powerhouse that is 30 feet long, 180 feet wide and 63.5 feet in height. The powerhouse would house four equally sized horizontal pit Kaplan turbine generator units with a combined capacity of 24 MW. Flows would exit the powerhouse into a 380-foot-long tailrace excavated into the riverbed. Project power would be transmitted from the powerhouse to a new project substation with an 88-foot-long, medium-voltage buried cable, and then from the new substation to an existing substation with a 1,893-foot-long, 69-kilovolt overhead transmission line.

The Department published notice of its proposed state water quality certification in the *Pennsylvania Bulletin*,

46 Pa.B. 5902 (September 17, 2016), and received zero (0) comments from the public.

By this notice, the Department certifies that the construction, operation and maintenance of the Project complies with the applicable provisions of sections 301–303, 306 and 307 of CWA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317), and will not violate the Commonwealth's water quality standards set forth in 25 Pa. Code Chapter 93, provided that the construction, operation and maintenance of the Project complies with the conditions for this certification as listed below, and the terms and conditions of the State law permits required to demonstrate compliance with Pennsylvania's Water Quality Standards:

1. *Conditional State Water Quality Certification*—This conditional State water quality certification is based upon the information that is available, to date, due to the FERC licensing process, and is granted with the understanding that the applicant will be submitting a final Environmental Assessment (EA) to the Department, to be reviewed and approved by the Department, prior to the start of construction. This final EA shall be submitted to the Department at the same time that the Applicant submits its application to the U.S. Army Corps of Engineers (USACE or Corps) for a Section 404 Permit, to facilitate a coordinated review between the Department and USACE. The final EA that is submitted to the Department must be developed from final design plans, specifications and reports.

2. *Erosion and Sediment Control*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 102. The Applicant shall obtain and comply with an NPDES permit from the Department for the discharge of stormwater if the earth disturbance activities associated with the Project will result in a total disturbance equal to or greater than 1 acre. Earth disturbance activities associated with discharging dredged or fill material from the Project to waters of the United States which require permit coverage under Section 404 of CWA (33 U.S.C.A. § 1344) need not obtain an additional NPDES Permit from the Department for earth disturbance activities covered by the Section 404 permit. The Applicant shall submit final detailed erosion and sediment control and post construction stormwater management plans for all Project activities to the Department and County Conservation District for their review and approval prior to commencement of construction. Specific guidance on the requirements of the NPDES Permit for Stormwater Discharges Associated with Construction Activities can be obtained from the County Conservation District or the DEP Regional Office.

3. *Water Obstruction and Encroachment Permit*—The Applicant shall comply with the rules and regulations of 25 Pa. Code Chapter 105 relating to dam safety and waterway management. The Applicant shall obtain, from the Department, and comply with a Chapter 105 Water Obstruction and Encroachment Permit (WO&EP), for the construction, operation and maintenance of any water obstruction or encroachment associated with the Project that is outside the scope of work licensed under the Federal Power Act, pursuant to the Clean Streams Law (35 P.S. §§ 691.1–691.1001), Dam Safety and Encroachments Act (32 P.S. §§ 673.1–693.27), and Flood Plain Management Act (32 P.S. §§ 679.101–679.601.), and all applicable implementing regulations.

4. *Submerged Lands License Agreement*—The Applicant shall obtain, from the Department, and comply with a Submerged Lands License Agreement, pursuant to Section 15 of the Dam Safety and Encroachments Act, 32 P.S.

§ 693.15, to occupy submerged lands of the Commonwealth in navigable waters as necessary to construct, operate and maintain the Project.

5. *Water Resource Planning Act Registration*—In accordance with the Pennsylvania Water Resources Planning Act, 27 Pa.C.S. § 3118, and the regulations thereunder, 25 Pa. Code Chapter 110, the Applicant must register the hydropower facility with the Department, and report water usage to the Department, annually.

6. *Limited Power Permit*—The Applicant shall obtain and comply with a permit from the Department as required by the Water Power and Water Supply Permits Act, Act of June 14, 1923, 32 P.S. §§ 591–625, related to the construction of a power dam or for a “change in stream” to develop power. The Applicant shall submit an application for this permit to the Department on the form available from the Department.

7. *Water Quality Monitoring*—During final design, the Applicant shall develop a water quality monitoring plan, to be implemented during the construction and operation of this project, and shall submit this plan to the Department for review and approval, prior to the start of construction, to ensure that the receiving water quality is not adversely impacted by the Applicant's construction, operation or maintenance of the Project. This water quality monitoring plan shall include adequate provisions to ensure that monitoring will assess any potential cumulative effect upon water quality, from the operation of all the currently proposed hydroelectric projects, within the greater Pittsburgh region. Thereafter, Applicant shall submit the results of the water quality monitoring to the Department and the USACE, along with suggested modifications in the operation or maintenance of the Project for inclusion in the adaptive management plan, should adverse impacts to water quality result from the project.

8. *Operating Plan and Adaptive Management Plan*—The applicant will be developing an operating plan, Memorandum of Agreement, and an adaptive management plan with the USACE. Applicant will submit these plans to the Department for review and approval, prior to the start of construction, to evaluate potential effects of these plans upon, and compliance with, state water quality standards.

9. *Final Project Design Development*—During final design, applicant shall evaluate alternative designs for the proposed Project that may have the potential to reduce expected fish entrainment and mortality, such as, but not limited to, reducing and/or modifying the proposed 5-inch trash rack spacing, intake channel design, or other alternative designs, pursuant to Section 105.14(b)(4) and (6) of the Department's regulations, 25 Pa. Code § 105.13(e)(1)(viii) and 105.14(b)(4) and (6). This alternatives analysis shall be included in the Applicant's final EA, to be submitted to the Department for review and approval, prior to the start of construction. The final design shall also take into account the cumulative impact evaluations associated with conditions (10) and (11).

10. *Cumulative Impacts to Fish Populations*—Since the project is one of several, currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant, during final design, shall further evaluate the cumulative impacts from these hydroelectric projects, upon area fish populations, due to expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

11. *Cumulative Impacts to Mussel Populations*—Since the Project is one of several currently proposed hydroelectric projects on the Ohio, Monongahela and Allegheny Rivers within the greater Pittsburgh area river basins, the applicant shall further evaluate, during final design, the cumulative impacts from these hydroelectric projects, upon local mussel populations, due to potential unavailability of host fish from expected fish entrainment and mortality. Applicant shall include this evaluation in its final EA, to be submitted to the Department for review and approval, prior to the start of construction.

12. *Minimum By-pass Flows*—During the final design, Applicant shall further evaluate the amount of by-pass flows necessary for the purposes of protection of public health, water quality control, conservation of fisheries, and aquatic habitat, improvement of recreation, and protection of instream and downstream water uses. Applicant shall provide this evaluation to the Department, within its final EA, for the Department's review and approval, prior to the start of construction. If it is determined that by-pass flows are needed, the by-pass flows shall be provided across the length of the dam.

13. *Aids to Navigation (ATON) Plan*—Applicant shall develop an ATON Plan, to avoid or minimize impacts to recreational boating. This plan must be reviewed and approved by the PA Fish and Boat Commission (PFBC), prior to the start of construction. Please contact the PA Fish and Boat Commission, PO Box 67000, Harrisburg, PA 17106, regarding the requirements for an ATON Plan.

14. *Hydraulic Modeling*—Applicant has indicated that additional hydraulic modeling will be conducted during Final Design. The results of this additional hydraulic modeling shall be included in the applicant's final EA that is to be submitted to the Department, for the Department to review and approve, prior to the start of construction. In addition, the applicant shall use the results of the additional hydraulic modeling to further evaluate potential impacts to mussels and their habitat, the potential for increased erosion of Neville Island and the river bed, and any other potential impacts that may be identified during the Department's review of the Applicant's final EA. Alternative designs may need to be considered, to avoid or minimize any adverse environmental impacts that may be identified from this additional modeling and/or additional evaluations for impacts. Mitigation may be required to compensate for any adverse environmental impacts that cannot be avoided. The evaluation of potential impacts to mussels and their habitat shall also include an evaluation of the potential to impact the mussel bed that was identified, which is a unique resource in the Ohio River, within Pennsylvania.

15. *Programmatic Agreement*—Applicant shall comply with the Final Programmatic Agreement Between the Federal Energy Regulatory Commission and the Pennsylvania State Historic Preservation Office for Managing Historic Properties that may be Affected by Issuing an Original License to FFP Missouri 5, LLC for the Construction, Operation, and Maintenance of the Emsworth Locks and Dam Hydroelectric Project Located in Allegheny County, Pennsylvania (FERC No. 13757-002).

16. *Riparian Property*—Within its final EA, Applicant shall submit evidence that it has obtained notarized and signed releases, or has acquired rights of occupancy and use other than fee title, from the owners of any affected riparian property. This conditional water quality certification does not convey any real property rights or interests or authorization to trespass on privately-owned riparian land.

17. *Corps Authorization*—This conditional water quality certification does not relieve the Applicant of the responsibility to obtain any applicable approval/permit from the District Engineer, Pittsburgh District, U.S. Army Corps of Engineers, Room 1817 Federal Building, 1000 Liberty Avenue, Pittsburgh, PA 15222, under Section 10 of the Rivers and Harbor Act or Section 404 of the Clean Water Act of 1977.

18. *Fish and Mussel Surveys and Mitigation*—The Project footprint will reduce riverine habitat below the dam by approximately 3.5 acres, and approximately 11.2 acres will be disturbed during construction. In addition, Applicant acknowledges that the project could potentially alter some mussel habitat conditions through changes in velocity and scour patterns downstream of the dam. In addition, the Applicant identified a mussel bed below the dam, along the edge of Neville Island, which is a unique resource in the Ohio River, in Pennsylvania. Accordingly, fish and mussel surveys shall be conducted three (3) years after project construction, to evaluate the project's impact to fish and mussel species in the project area. The plans for these surveys shall be included within the Applicant's final EA, for the Department's review and approval. In addition, the results of these surveys shall be submitted to the Department for review, within 60 days of completion of these surveys. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the applicant may have to provide compensation for the adverse environmental impact.

19. *Cumulative Environmental Impact Assessment*—The Project is one of several, currently proposed hydroelectric projects in the Ohio, Monongahela, and Allegheny Rivers, within the greater Pittsburgh area river basins. Fish species, such as walleye, smallmouth bass, darters, etc., inhabit the area that can exhibit some migratory behavior, and could pass through multiple hydroelectric projects. In addition, the Applicant's Fish Entrainment Study reports mortality to fish species, such as catfish, drum, darters and bass, that are more likely to be host fish that are important to mussel propagation. Accordingly, Applicant shall develop a plan to conduct fish and mussel surveys, after the construction of all, or at least 50%, of the currently proposed hydroelectric projects, to evaluate the potential for cumulative impacts to area fish and mussel populations. This plan shall be included with the Applicant's final EA, for the Department's review and approval. If the results of these surveys indicate an adverse environmental impact to fish and mussels in the project area, Applicant shall develop a remediation plan to eliminate or reduce the adverse environmental impact. In addition, the Applicant may have to provide compensation for the adverse environmental impact.

20. *Clean Water Program Coordination*—Applicant shall evaluate the cumulative impacts of lowering Dissolved Oxygen (DO) concentration below existing levels on overall water quality. This analysis shall include an evaluation of the effects of lower DO levels on other dischargers, whose dissolved oxygen analysis could be impacted by any reduction in DO due to the proposed project. The Applicant shall include, within its final EA to be submitted to the Department, a full analysis depicting the pre- and post-construction dissolved oxygen using a Q7-10 flow, and achieving a 7-day average of 5.5 mg/l and a minimum of 5.0 mg/l at the project site, and all points potentially impacted downstream of the project, in accord-

ance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder, and 25 Pa. Code § 93.7.

21. *Water Quality Requirements*—The project must maintain the applicable water quality standard of a 7-day average DO concentration of 5.5 mg/l and a minimum DO concentration of 5.0 mg/l, at Q7-10 low flow conditions, unless the analysis required by the preceding condition indicates that a higher DO level is needed to maintain the DO water quality standard within the Dashields Pool given consideration of all existing, permitted dischargers currently within the pool in accordance with The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the regulations promulgated thereunder.

22. *Stream and Habitat Mitigation*—Since the Project will eliminate approximately 3.5 acres of riverine habitat, Applicant shall include, within its final EA to be submitted to the Department, a plan to mitigate for this lost habitat, for the Department's review and approval, prior to the start of construction.

23. *Fishing Access*—During final design, Applicant shall evaluate the feasibility of restoring/providing angler access to the Ohio River, within or near the project area.

24. *Boater Safety*—During final design, Applicant shall evaluate the potential for velocity changes within the river channel, from the hydroelectric project discharge, to affect navigation and boaters in the vicinity of nearby dock(s) (e.g. Neville Island Terminals Corp. dock or other). Accordingly, in its final EA, Applicant shall provide to the Department, and to the owner(s)/operator(s) of the dock(s), an analysis of the effect that the increased velocities might have on barge and/or boat safety, and on barge operators and boaters, in the vicinity of the dock(s). This analysis shall be completed by a hydrologist. In addition, Applicant shall provide a letter from the owner(s)/operator(s) of the dock(s), commenting on this analysis.

25. *Fish Mitigation*—Since the project will impact fish, Applicant shall include, within its final EA to be submitted to the Department, a mitigation plan to compensate for this environmental impact, for the Department's review and approval, prior to the start of construction.

26. *Fish and Mussel Salvage*—Applicant shall further develop its fish and mussel salvage plan to safely remove fishes and mussels from the project area that would otherwise be trapped behind the proposed coffer dams during the dewatering process. These fish and mussels should be relocated to areas outside of the project area. The Applicant shall include this salvage plan within its final EA, to be reviewed and approved by the Department, prior to the start of construction.

27. *River Sediment Testing*—Applicant shall manage dredge material removed from the river in accordance with the Solid Waste Management Act, Act of July 7, 1980, P.L. 380, No. 97, as amended, 35 P.S. §§ 6018.101—6018.1003 ("Solid Waste Management Act") and regulations promulgated thereunder. Permittee should contact the Facilities Chief, Waste Management Program, Southwest Regional Office, with questions regarding this requirement. The project shall be consistent with the Department's Management of Fill policy and the analytic requirements therein. If the testing reveals that the dredged material exceeds the requirements for unrestricted use as clean fill, then the Applicant shall arrange for off-site disposal of the dredged sediments, after applying for and obtaining approval from the Department's Waste Management Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745.

28. *Threatened, Endangered and Special Concern Species*—The results obtained from utilizing the Pennsylvania Natural Diversity Inventory's Pennsylvania Natural Diversity Inventory (PNDI), and any determinations received from an appropriate jurisdictional agency during any associated consultations, are valid only for 2 years. Accordingly, Applicant must include new PNDI search results within its final EA, along with evidence of any necessary follow-up with the appropriate jurisdictional agency(s). In addition, PNDI search results and clearances must be current and valid, prior to the start of construction.

29. *Seasonal Construction Schedule*—No activities related to the transmission line portion of this project shall be completed during the osprey (*Pandion haliaetus*, PA threatened) nesting season, March 25 to July 31. All activities related to the transmission line should be completed between August 1 and March 24, which is outside the nesting season, to avoid potential impacts to nesting osprey.

30. *Geotechnical Testing*—If a temporary road, drilling platform or other structure is needed to conduct any core boring drilling operations or geotechnical testing, within the Commonwealth's waterways, Applicant shall obtain a permit(s) or other authorization(s) from the Department, prior to conducting any core boring drilling operations or geotechnical testing.

31. *Preparedness, Prevention and Contingency Plan*—The Applicant shall develop and maintain on site a Preparedness, Prevention and Contingency Plan (PPC Plan) for any project activities utilizing pollutants, pursuant to Section 91.34 of the regulations, 25 Pa. Code § 91.34. The PPC Plan shall be developed in accordance with the "Guidelines for the Development and Implementation of Environmental Emergency Response Plans" which can be found at: <http://www.elibrary.dep.state.pa.us/dsweb/Get/Document-48522/400-2200-001.pdf>.

32. *Operation*—The Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control and related appurtenances which are installed to achieve compliance with the terms and conditions of this State Water Quality Certification and all required permits, authorizations and approvals. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by the Applicant.

33. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of the Department to determine compliance with this State Water Quality Certification, including all required state water quality permits and state water quality standards. A copy of this certification shall be made available for inspection by the Department during such inspections of the Project.

34. *Transfer of Projects*—If the Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, the Applicant shall serve a copy of this certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the Department's Southwest Regional Office of such intent. Notice to the Department shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of certification responsibility, coverage, and liability between them. The existing owner shall continue

to be responsible for construction and operations at the Project until a transfer to the new owner has been completed. The new owner shall comply with the conditions of this certification, which shall remain in effect, unless modified, in writing, by the Department.

35. *Correspondence*—All correspondence with and submittals to the Department concerning this State Water Quality Certification shall be addressed to the Department of Environmental Protection, Southwest Regional Office, Waterways and Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222, and shall reference DEP File No. WQ05-003, APS ID # 888601, or Authorization No. 1103887.

36. *Reservation of Rights*—The Department may suspend or revoke this State Water Quality Certification if it determines that the Applicant has not complied with the terms and conditions of this certification. The Department reserves the right to require additional measures to achieve compliance with applicable laws and/or regulations, subject to the Applicant’s applicable procedural and substantive rights.

37. *Other Laws*—Nothing in this State Water Quality Certification shall be construed to preclude the institution of any legal action or relieve the Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable federal or State law or regulation.

38. *Severability*—The provisions of this State Water Quality Certification are severable and should any provi-

sion of this certification be declared invalid or unenforceable, the remainder of the certification shall not be affected thereby.

Any person aggrieved by this action may appeal, pursuant to Section 4 of the Environmental Hearing Board Act, 35 P.S. § 7514, and the Administrative Agency Law, 2 Pa.C.S. Chapter 5A, to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, 717-787-34-83. Request for comments on the Total Maximum Daily Load (TMDL) Developed for Stony Run, Westmoreland County

The Department of Environmental Protection will accept comments as of January 21, 2017 for the proposed TMDL proposed address aquatic life use impairments in Stony Run as noted in 2014 Pennsylvania Integrated Water Quality Monitoring and Assessment Report (Integrated List), initially listed in 2006. Stony Run is a tributary of the Kiski-Conemaugh River and the larger Allegheny River Basin. The watershed is located in Derry Township, Westmoreland County. The impairments were documented during biological surveys of the aquatic life present in the watershed (2005). No additional assessments have been conducted in this watershed as of the original impairment assessment (2005) and consecutive listing (2006). Excessive siltation due to agriculture activities was the source identified as causing impairment to the designated aquatic life use (Cold Water Fishery—CWF) in Stony Run. Pennsylvania does not currently have water quality criteria for sediment, a TMDL endpoint was identified using a reference watershed approach.

This proposed TMDL sets allowable loadings within the specifically impaired stream segments of the Stony Run watershed. The loading was allocated among the land uses of cropland, hay/pasture, and associated stream banks present in the watershed. Data used in these TMDLs was generated using a water quality analysis model (MapShed—GWLF) designed by the Penn State University. The following table shows the estimated current loadings for the watershed. Overall load reductions necessary in order to meet the TMDLs are also identified.

Summary of TMDL based load reductions for Stony Run in lbs./yr.

Pollutant	TMDL	WLA	MOS	LA	LNR	ALA
Sediment	4,035,993.8	40,359.9	403,599.4	3,592,034.5	78,400.0	3,513,634.5

Summary of TMDL based load reductions for Stony Run in lbs./day

Pollutant	TMDL	WLA	MOS	LA	LNR	ALA
Sediment	11,057.5	110.6	1,105.8	9,841.2	214.8	9,626.4

The data and all supporting documentation used to develop the proposed TMDLs are available from the Department. The proposed TMDLs and information on the TMDL program can also be viewed on the Department’s website (www.dep.state.pa.us/watermanagement_apps/tmdl/). To submit comments or request a copy of the proposed TMDLs, contact Scott Alexander, Water Program Specialist, Bureau of Clean Water, Central Office, Department of Environmental Protection, Rachel Carson State Office Building, Harrisburg, PA 17105, 717-772-5670, salexander@pa.gov.

The Department will consider all comments in developing the final TMDLs, which will be submitted to EPA for final approval. Written comments will be accepted at the above address and must be postmarked by 30 days after publication in the *Pennsylvania Bulletin*.

Alternative Fuels Technical Assistance Program Opportunity

The Department of Environmental Protection (Department), Office of Pollution Prevention and Energy Assistance, announces an opportunity for eligible entities to apply for the Alternative Fuels Technical Assistance (AFTA) Program for the purpose of maximizing the economic and environmental benefits of alternative fuel use in vehicle fleets within this Commonwealth. Selected applicants will receive professional assistance by a Department-assigned contractor who will work with the applicant to develop technically viable and economically sustainable alternative fueling plans and strategies. Alternative fuels considered under the AFTA Program may include natural gas, electric, propane, hydrogen, hythane, ethanol, methanol and other advanced biofuels.

The Department is seeking applications for the AFTA Program from the following eligible entities: municipalities; school districts; municipal authorities; and nonprofit organizations.

Eligible organizations may apply to the Department by completing an application and providing basic fleet and operational information. An eligible entity can apply alone or in combination with other eligible project partners. Upon acceptance into the AFTA Program, the Department will assign a technical assistance provider (provider) with relevant experience and expertise. The applying organization will work directly with that provider to develop a suitable scope of work and provide all relevant fleet and operational information necessary to complete the analysis. The provider will then evaluate the technical and economic considerations of various alternative fueling strategies specific to the circumstances of the vehicles and organizations involved.

The technical assistance project will result in a final report that will identify fueling options and recommended strategies based on technical and economic considerations specific to the circumstances of the organizations involved, their vehicle needs and their operating profiles. The report is not expected to include detailed project designs or engineered site plans, but will provide analysis and recommendations needed for the applying organizations to make informed decisions that may result in the implementation of an alternative fueling project.

The application period will open on January 21, 2017, and remain open through June 1, 2017. The AFTA Program application is available on the Department's web site at <http://www.dep.pa.gov> (select "Citizens," then "Grants, Loans and Rebates," then "Alternative Fuels Incentive Grant").

The AFTA Program was designed to provide assistance to those eligible entities who are considering an alternative fuels project in this Commonwealth. Funding from the AFTA Program is provided by the Department's Alternative Fuels Incentive Fund. For additional information or application assistance contact Geoff Bristow, Department of Environmental Protection, Office of Pollution Prevention and Energy Assistance at (814) 332-6681 or gbristow@pa.gov.

Interim Final Technical Guidance—New Guidance

DEP ID: 310-2137-006. **Title:** Chapter 105 Water Obstruction and Encroachment Permit Comprehensive Environmental Assessment of Proposed Project Impacts. **Description:** This proposed technical guidance is intended to clarify the process for completing the information requirements for a Water Obstruction and Encroachment Permit application, Environmental Assessment Form # 3150-PM-BWEW0017. Currently, the permit application requirements generally address proposed project impacts to waters of the Commonwealth associated with small scale projects located in a single county and covered by a single permit application. Large scale projects, however, often cross more than one county and are covered by multiple permit applications necessitating the need for a comprehensive review of all proposed impacts to waters of the Commonwealth from the entire project. This guidance outlines for the permit applicant the required project wide comprehensive environmental assessment information in the permit application in accordance with the rules and regulations of 25 Pa. Code Chapter 105 (relating to dam safety and waterway management).

Written Comments: Interested persons may submit written comments on this draft technical guidance document by Tuesday, March 21, 2017. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail must include the originator's name and address. Commentators are encouraged to review this proposed guidance and submit comments using the Department's online eComment tool at www.ahs.dep.pa.gov/eComment or by e-mail to ecomment@pa.gov. Additional Class of Disproportionate Share Payments

The Department of Human Services (Department) is announcing its intent to allocate funding for Fiscal Year (FY) 2016-2017 disproportionate share hospital (DSH) payments to qualifying hospitals that provide a high volume of services to the Medical Assistance population to promote continued access to inpatient and ancillary outpatient services in this Commonwealth and to support academic medical programs that provide integrated patient-centered medical services. The Department does

not intend to otherwise change the qualifying criteria or payment methodology for these payments.

All payment limitations are still applicable, including those limitations that the Commonwealth may not exceed its aggregate annual DSH allotment and that no hospital may receive DSH payments in excess of its hospital-specific limit.

Medical Assistance Transportation Program Grant Funding to Primary Contractors

The Department of Human Services (Department) announces how grant funding for the Medical Assistance Transportation Program (MATP) is disbursed to primary contractors when county governments elect not to administer MATP.

Discussion

MATP provides Medical Assistance (MA) beneficiaries with nonemergency medical transportation for the purpose of receiving medical treatment or medical evaluation or purchasing prescription drugs or medical equipment from MA participating providers. The Department administers MATP at the county level through agreements with county governments (county), primary contractors and transportation brokers (Philadelphia County only).

Funding is allocated to the county and the primary contractor through public assistance block grants comprised of the total projected cost to provide transportation services for a given fiscal year.

The Department offers a county the first opportunity to administer MATP. When a county elects not to administer MATP, the Department will enter into a direct grant agreement with a primary contractor to provide nonemergency medical transportation. Under this arrangement, the Department will distribute the grant funds to the primary contractor based on a negotiated trip fee established for each contract period, multiplied by the number of completed trips identified in the primary contractor's monthly invoice. Semiannual adjustments will be made to the initial trip fee projection based on policy and utilization changes that materially affect MATP.

In addition, the Department will reimburse the primary contractor monthly for copayments paid on behalf of an MA beneficiary to access public or private transportation. This includes the cost of fares in excess of the established general fare structure not subsidized by other programs or funding for which an MA beneficiary may also qualify.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice. The identifying information from a Qualifying Ticket may be submitted only once in the Game. No other method of submission will be accepted, and entries submitted using any other method, including entries mailed or hand-delivered to the Pennsylvania Lottery, are not valid and will be disqualified.

(3) Each entry must be complete and the information supplied by the entrant must be accurate. Incomplete entries cannot be accepted.

(4) Only one claimant per entry allowed.

This game may reveal a predetermined cash prize, or a predetermined prize that triples the number of entries the entrant receives for the ticket submitted (hereafter the "Entry Tripler Prize"). Each Qualifying Ticket will have a predetermined ticket file assigned at the time the ticket is printed that will determine the outcome of the non-prize-determinative game play.

(4) The number of entries an entrant will receive for the Drawing is determined by the purchase price of the Qualifying Ticket entered and the Entry Tripler Prize, if applicable. The respective purchase prices and corresponding number of entries for Qualifying Tickets are as follows: PA-1262 Lots O' Loot (\$2) = 2 entries; and PA-1261 Pot of Gold (\$5) = 5 entries.

cash prize or an Entry Tripler Prize, the play sequence will show the player receiving the number of entries that were assigned to the Qualifying Ticket entered for the Drawing.

(3) When the predetermined ticket file for a Qualifying Ticket entered in the Game indicates that the non-prize-determinative game play shall result in an award of an instant cash prize, the play sequence will show the player winning a cash prize and receiving the number of entries that were assigned to the Qualifying Ticket entered for the Drawing. The following tables set forth the approximate number of cash prize winners for each cash prize, and the approximate odds of winning a cash prize:

identifying information from a Qualifying Ticket may be submitted only once in the Game. No other method of submission will be accepted, and entries submitted using any other method, including entries mailed or hand-delivered to the Pennsylvania Lottery, are not valid and will be disqualified.

(3) Each entry must be complete and the information supplied by the entrant must be accurate. Incomplete entries cannot be accepted.

(4) Only one claimant per entry allowed.

(c) *Game Description.*

(1) The Game will consist of a drawing (hereafter the "Drawing") and a virtual non-prize-determinative game.

(2) *Drawing.*

(i) The Lottery will conduct one Drawing. All time references are Eastern Prevailing Time.

(ii) All entries received after 11:59:59 p.m. January 22, 2017, through 11:59:59 p.m. March 23, 2017, will be entered into the Drawing to be held between March 24, 2017 and April 4, 2017.

(iii) The entry period for the Drawing will be posted to the Pennsylvania Lottery's publicly accessible website.

(3) By entering a Qualifying Ticket, each entrant will have the opportunity to play a virtual non-prize-determinative game. This game may reveal a predetermined cash prize, or a predetermined prize that triples the number of entries the entrant receives for the ticket submitted (hereafter the "Entry Tripler Prize"). Each Qualifying Ticket will have a predetermined ticket file assigned at the time the ticket is printed that will determine the outcome of the non-prize-determinative game play.

(4) The number of entries an entrant will receive for the Drawing is determined by the purchase price of the Qualifying Ticket entered and the Entry Tripler Prize, if applicable. The respective purchase prices and corresponding number of entries for Qualifying Tickets are as follows: PA-1262 Lots O' Loot (\$2) = 2 entries; and PA-1261 Pot of Gold (\$5) = 5 entries.

(5) Players may review prizes won and their entries for the Drawing via the Game's promotional website.

(d) *Prizes Available to be Won, Determination of Winners, and Odds of Winning.*

(2) When the predetermined ticket file for a Qualifying Ticket entered in the Game indicates that the non-prize-determinative game play shall not result in an instant cash prize or an Entry Tripler Prize, the play sequence will show the player receiving the number of entries that were assigned to the Qualifying Ticket entered for the Drawing.

(3) When the predetermined ticket file for a Qualifying Ticket entered in the Game indicates that the non-prize-determinative game play shall result in an award of an

instant cash prize, the play sequence will show the player winning a cash prize and receiving the number of entries that were assigned to the Qualifying Ticket entered for the Drawing. The following tables set forth the approximate number of cash prize winners for each cash prize, and the approximate odds of winning a cash prize:

Qualifying Ticket	Approximate Number of Winners Based on 100% of Eligible Qualifying Tickets:

The following table sets forth the approximate number of Entry Tripler Prizes and the approximate odds of winning an Entry Tripler Prize:

PMO III—Change in Meeting Schedule of Pennsylvania Carrier Working Group—M-00011468; PMO III—Docket for 2017 Matters and Filings—M-2017-2582567

The Pennsylvania Carrier Working Group (PA CWG) meeting schedule will change from the first Tuesday at 10 a.m. in even numbered months to the second Tuesday at 10:30 a.m. in the third month of each calendar quarter, beginning with the next meeting now scheduled for March 14, 2017, at 10:30 a.m. The meetings will continue to be held by conference call with call-in details announced by e-mail to active participants prior to the meeting.

The PA CWG¹ was formed in 2003 under Pennsylvania Public Utility Commission (Commission) Order to provide a mechanism for Verizon Pennsylvania, LLC² (Verizon PA) and competitive local exchange carriers (CLEC) in this Commonwealth to resolve metrics and remedies issues relative to the wholesale interconnection services that the CLECs obtain from Verizon PA and to coordinate with similar carrier working groups in other jurisdictions. Primary participation in the PA CWG is open to this Commonwealth's incumbent local exchange carriers, CLECs, statutory advocates and Commission staff, as well as consultants sponsored by these Commonwealth entities. Secondary participation is open to entities from other jurisdictions in the traditional Verizon footprint.

Further, the new industry facilitator of the PA CWG is Margaret Rubino of Windstream. Carrier-to-carrier matters related to metrics and remedies proposals and reports of performance in calendar year 2017 will be processed at Doc. No. M-2017-2582567.

The Commission will publish this Secretarial Letter in the *Pennsylvania Bulletin*. For questions related to the PA CWG, contact either Margaret Rubino, Margaret.rubino@windstream.com, or Louise Fink Smith, Pennsylvania Public Utility Commission, finksmith@pa.gov.

11. Pursuant to the provisions of the applicable Commonwealth statutes and regulations, the Commission has jurisdiction over the subject matter of this complaint and the actions of Respondent related thereto.

Factual Background

12. On July 23, 2015, I&E filed a Complaint against Respondent at Docket No. C-2015-2494317, alleging that Respondent violated Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c), by failing to pay its 2014-2015 Fiscal Year Assessment.

13. On March 21, 2016, I&E filed a Certificate of Satisfaction pursuant to 52 Pa. Code § 5.24, noting that Respondent satisfied the outstanding assessment and civil penalty requested in I&E's Complaint.

14. On or about February 6, 2015, the Commission mailed to Respondent an assessment report for Respondent to report its gross intrastate operating revenues for the 2014 calendar year.

15. The assessment report was accompanied by a letter, which notified Respondent that the report was to be completed and returned to the Commission on or before March 31, 2015.

16. Respondent failed to file an assessment report stating its 2014 calendar year revenues.

17. On or about September 10, 2015, the Commission mailed to Respondent, by certified mail, an assessment invoice for the July 1, 2015 to June 30, 2016 Fiscal Year

(2015-2016 Fiscal Year) that was based, in part, on Respondent's estimated revenues for the 2014 calendar year. Respondent's assessment was \$1,009.

18. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

19. On September 16, 2015, Respondent signed a certified mail card, which indicated that it received an assessment invoice for the 2015-2016 Fiscal Year.

20. The Commission received no objections from Respondent to this assessment.

21. Respondent failed to pay its 2015-2016 Fiscal Year Assessment Invoice.

22. The total outstanding assessment balance for Respondent is \$1,009.

Violations

COUNT 1

23. That Respondent failed to report its gross intrastate operating revenues for the 2014 calendar year in that it did not file an assessment report for that year. If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,000.

COUNT 2

24. That Respondent failed to satisfy its 2015-2016 Fiscal Year assessment in that it did not pay the amount due within thirty (30) days of receipt of the invoice. If proven, this is a violation of Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is 25% of the outstanding assessment balance or \$252. This civil penalty is based, in part, on Respondent's history of noncompliance with the Public Utility Code involving a failure to timely pay assessments, as set forth above.

Wherefore, for all the foregoing reasons, the Pennsylvania Public Utility Commission's Bureau of Investigation and Enforcement respectfully requests that:

(a) Respondent be ordered to pay a total of \$2,261, which consists of its outstanding assessment balance of \$1,009 and a total civil penalty of \$1,252 for the above-described violations;

(b) Respondent be directed to file assessment reports on a going-forward basis; and

(c) If payment of the assessment and civil penalty is not made, the Bureau of Investigation and Enforcement requests that:

(1) the Commission issue an Order to cancel the Certificate of Public Convenience issued to Respondent;

(2) this matter be referred to the Pennsylvania Office of Attorney General for appropriate action; and

(3) the Commission certify automobile registrations to the Pennsylvania Department of Transportation for suspension or revocation.

Respectfully submitted,

11. Pursuant to the provisions of the applicable Commonwealth statutes and regulations, the Commission has jurisdiction over the subject matter of this complaint and the actions of Respondent related thereto.

Factual Background

Prior Case

12. On October 4, 2011, I&E filed a Complaint against Respondent at Docket No. C-2011-2256676, alleging that Respondent violated Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b), by failing to file assessment reports for the 2007, 2008, 2009, and 2010 calendar years. I&E requested that Respondent file an assessment report with the Commission for the 2011 calendar year and if not, that the Commission impose a civil penalty in the amount of \$1,000 upon Respondent.

13. On November 3, 2011, Respondent filed its assessment report for the 2011 calendar year and the Complaint docketed at C-2011-2256676 was marked closed.

2015-2016 Fiscal Year

14. On or about February 6, 2015, the Commission mailed to Respondent an assessment report for Respondent to report its gross intrastate operating revenues for the 2014 calendar year in order to calculate Respondent's July 1, 2015 to June 30, 2016 Fiscal Year (2015-2016 Fiscal Year) Assessment.

15. The assessment report was accompanied by a letter, which notified Respondent that the report was to be completed and returned to the Commission on or before March 31, 2015.

16. Respondent failed to file an assessment report stating its 2014 calendar year revenues.

17. On or about September 10, 2015, the Commission mailed to Respondent, by certified mail, an assessment invoice for the 2015-2016 Fiscal Year that was based, in part, on Respondent's estimated revenues for the 2014 calendar year due to Respondent's failure to file an assessment report stating its 2014 calendar year revenues. Respondent's assessment was \$6,538.

18. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

19. The assessment invoice was mailed to Respondent at 2659 South 67th Street, Philadelphia, PA 19142, which is the mailing address that Respondent provided to the Commission.

20. On October 15, 2015, the assessment invoice was returned to the Commission by the United States Postal Service as being undeliverable.

21. On or about October 16, 2015, the Commission re-mailed the 2015-2016 Fiscal Year Assessment Invoice to Respondent by first class mail at 2659 South 67th Street, Philadelphia, PA 19142 and there is no indication that this mailing was returned to the Commission as being undeliverable.

22. The Commission received no objections from Respondent to the assessment amount set forth in the 2015-2016 Fiscal Year Assessment Invoice.

23. Respondent failed to pay its 2015-2016 Fiscal Year Assessment Invoice.

24. The total outstanding assessment balance for Respondent is \$6,538.

Violations

COUNT 1

25. That Respondent failed to report its gross intrastate operating revenues for the 2014 calendar year in that it did not file an assessment report for that year. If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,500. This civil penalty is based, in part, on Respondent's history of non-compliance with the Public Utility Code involving a failure to file assessment reports, as set forth above.

COUNT 2

26. That Respondent failed to satisfy its 2015-2016 Fiscal Year Assessment in that it did not pay the amount due within thirty (30) days of receipt of the invoice. If proven, this is a violation of Section 510(c) of the Public Utility Code, 66 Pa.C.S. § 510(c). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is 15% of the outstanding assessment balance or \$981.

Wherefore, for all the foregoing reasons, the Pennsylvania Public Utility Commission's Bureau of Investigation and Enforcement respectfully requests that:

(a) Respondent be ordered to pay a total of \$9,019, which consists of its outstanding assessment balance of \$6,538 and a total civil penalty of \$2,481 for the above-described violations;

(b) Respondent be directed to file assessment reports on a going-forward basis; and

(c) If payment of the assessment and civil penalty is not made, the Bureau of Investigation and Enforcement requests that:

(1) the Commission issue an Order to cancel the Certificate of Public Convenience issued to Respondent;

(2) this matter be referred to the Pennsylvania Office of Attorney General for appropriate action; and

(3) the Commission certify automobile registrations to the Pennsylvania Department of Transportation for suspension or revocation.

Respectfully submitted,

7. Section 501(a) of the Public Utility Code, 66 Pa.C.S. § 501(a), authorizes and obligates the Commission to execute and enforce the provisions of the Public Utility Code.

8. Section 701 of the Public Utility Code, 66 Pa.C.S. § 701, authorizes the Commission to, inter alia, hear and determine complaints against public utilities for a violation of any law or regulation that the Commission has jurisdiction to administer.

9. Section 3301 of the Public Utility Code, 66 Pa.C.S. § 3301, authorizes the Commission to impose civil penalties on any public utility, or any other person or corporation subject to the Commission's authority, for violation(s) of the Public Utility Code and/or Commission regulations.

10. Respondent, in transporting passengers as a common carrier for compensation, is subject to the power and authority of this Commission pursuant to Section 501(c) of the Public Utility Code, 66 Pa.C.S. § 501(c), which requires a public utility to comply with Commission regulations.

11. Pursuant to the provisions of the applicable Commonwealth statutes and regulations, the Commission has jurisdiction over the subject matter of this complaint and the actions of Respondent related thereto.

Factual Background

2014-2015 Fiscal Year

12. On or about September 11, 2014, the Commission mailed to Respondent, by certified mail, an assessment invoice for the July 1, 2014 to June 30, 2015 Fiscal Year (2014-2015 Fiscal Year). Respondent's assessment was \$9,120.

13. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

14. The assessment invoice and notice of assessment were mailed to Respondent at 3740 East Thompson Street, Philadelphia, PA 19137-1421, which is the mailing address that Respondent provided to the Commission for assessment purposes.

15. On September 17, 2014, Respondent signed a certified mail card, which indicated that it received the assessment invoice and notice of assessment for the 2014-2015 Fiscal Year.

16. On September 29, 2014, Durham School Services, L.P. (Durham School Services) filed a letter (September 29, 2014 letter) with the Commission objecting to Respondent's 2014-2015 Fiscal Year Assessment Invoice noting

that it acquired certain assets of Respondent's corporation through a bankruptcy auction in February 2014.

17. In its September 29, 2014 letter, Durham School Services provided that the last known mailing address for Respondent was at 7 North Street, Staten Island, NY 10302.

18. Respondent did not file with the Commission any copy of a petition for bankruptcy or apprise the Commission of a change in its current address.

19. On February 3, 2016, Durham School Services filed a letter with the Commission withdrawing its objection to Respondent's 2014-2015 Fiscal Year Assessment noting that its September 29, 2014 letter should not be considered an objection to Respondent's 2014-2015 Fiscal Year Assessment. Durham School Services stated that the reason for the withdrawal of its objection was that it did not have the authority, intent, or legal right to object to Respondent's 2014-2015 Fiscal Year Assessment or to take any other action on behalf of Respondent as Durham School Services acquired certain assets of Respondent's corporation, but did not assume ownership or any liabilities for current or past operations of Respondent.

20. Respondent failed to pay its 2014-2015 Fiscal Year Assessment Invoice.

2015-2016 Fiscal Year

21. On or about February 6, 2015, the Commission mailed to Respondent an assessment report for Respondent to report its gross intrastate operating revenues for the 2014 calendar year in order to calculate Respondent's July 1, 2015 to June 30, 2016 Fiscal Year (2015-2016 Fiscal Year) Assessment.

22. The assessment report was accompanied by a letter, which notified Respondent that the report was to be completed and returned to the Commission on or before March 31, 2015.

24. On or about September 10, 2015, the Commission mailed to Respondent, by certified mail, an assessment invoice for the 2015-2016 Fiscal Year that was based, in part, on Respondent's estimated revenues for the 2014 calendar year due to Respondent's failure to file an assessment report stating its 2014 calendar year revenues. Respondent's assessment was \$8,443.

25. Accompanying the assessment invoice was a notice that informed Respondent that it was obligated to pay the amount listed on the assessment invoice within thirty (30) days or file objections within fifteen (15) days.

26. The assessment invoice and notice of assessment were mailed to Respondent at 3740 East Thompson Street, Philadelphia, PA 19137-1421, which is the mailing address that Respondent provided to the Commission for assessment purposes.

27. On September 15, 2015, Respondent signed a certified mail card, which indicated that it received the assessment invoice and notice of assessment for the 2015-2016 Fiscal Year.

28. The Commission received no objections from Respondent to this assessment.

29. Respondent failed to pay its 2015-2016 Fiscal Year Assessment Invoice.

30. Being that Respondent's 2014-2015 and 2015-2016 Fiscal Year Assessments remained unpaid, on or about July 27, 2016, the Commission re-mailed the assessment

invoices and notice of assessments for the 2014-2015 and 2015-2016 Fiscal Years to Respondent, via certified mail and first class mail, at 7 North Street, Staten Island, NY 10302, which is the last known mailing address of Respondent that Durham School Services provided to the Commission in its September 29, 2014 letter.

Violations

COUNT 1

34. That Respondent failed to report its gross intrastate operating revenues for the 2014 calendar year in that it did not file an assessment report for that year. If proven, this is a violation of Section 510(b) of the Public Utility Code, 66 Pa.C.S. § 510(b). The Bureau of Investigation and Enforcement's proposed civil penalty for this violation is \$1,000.

COUNTS 2-3

35. That Respondent failed to satisfy its 2014-2015 and 2015-2016 Fiscal Year Assessments in that it did not pay the amounts due within thirty (30) days of receipt of the invoices. (b) Respondent be directed to file assessment reports on a going-forward basis; and

(c) If payment of the assessment and civil penalty is not made, the Bureau of Investigation and Enforcement requests that:
