READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE COURTS

Title 231—RULES OF CIVIL PROCEDURE

PART I. GENERAL

[231 PA. CODE CH. 1910]

Amendment of Rules 1910.11 and 1910.12 of the Rules of Civil Procedure; No. 555 Civil Procedural Rules Doc.

Amended Order

Per Curiam

And Now, this 23rd day of December, 2011, upon the recommendation of the Domestic Relations Procedural Rules Committee; the proposal having been published for public comment in the *Pennsylvania Bulletin*, 41 Pa.Bull. 3527 (July 2, 2011) and *West's Pennsylvania Reporter*, 21 A.3d No. 3, Ct.R-3-5 (August 5, 2011):

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rule 1910.11 and Rule 1910.12 of the Pennsylvania Rules of Civil Procedure are amended in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective on January 31, 2012.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1910. ACTIONS FOR SUPPORT

Rule 1910.11. Office Conference. Subsequent Proceedings. Order.

* * * * *

(d)(1) The conference officer [**may**] shall make a recommendation to the parties of an amount of support [**which is**] calculated in accordance with the guidelines.

(2) If an agreement for support is reached at the conference, the officer shall prepare a written order substantially in the form set forth in Rule 1910.27(e) and in conformity with the agreement for signature by the parties and submission to the court together with the officer's recommendation for approval or disapproval. The court may enter the order in accordance with the agreement without hearing the parties.

(3) **In all cases in which one or both parties are unrepresented, the parties must provide income information to the domestic relations section so that a guidelines calculation can be performed.**

(4) **In cases in which both parties are represented by counsel, the parties shall not be obligated to provide income information and the domestic relations section shall not be required to perform a guidelines calculation if the parties have reached an agreement about the amount of support and the amount of contribution to additional expenses.**

* * * * *

Explanatory Comment—2011

The rule has been amended to require that income information be provided in all cases, unless

both parties are represented in reaching an agreement, so that a guidelines calculation can be performed. The guidelines create a rebuttable presumption that the amount calculated pursuant to them is the correct amount, so there should be a calculation in every case. If parties agree to receive or to pay an order other than the guideline amount, they should know what that amount is so that they can enter an agreement knowingly. If both parties are represented by counsel, it is assumed that their entry into the agreement for an amount other than a guidelines amount is knowing as it is counsels' responsibility to advise the parties. In addition, part of the mandatory quadrennial review of the support guidelines mandates a study of the number of cases in which the support amount ordered varies from the amount that would result from a guidelines calculation. Federal regulations presume that if a large percentage of cases vary from the guideline amount, then the guidelines are not uniform statewide.

Rule 1910.12. Office Conference. Hearing. Record. Exceptions. Order.

(a) There shall be an office conference as provided by Rule 1910.11(a) through (d). **The provisions of Rule 1910.11(d)(3) and (4) regarding income information apply in cases proceeding pursuant to Rule 1910.12.**

Title 234—RULES OF CRIMINAL PROCEDURE

[234 PA. CODE CH. 6]

Order Revising the Comment to Rule 621 of the Rules of Criminal Procedure; No. 407 Criminal Procedural Rules Doc.

Order

Per Curiam

And Now, this 9th day of January, 2012, upon the recommendation of the Criminal Procedural Rules Committee; the proposal having been submitted without publication pursuant to Pa.R.J.A. 103(a)(3) in the interests of efficient administration, and a Final Report to be published with this *Order*:

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that the revision of the Comment to Pennsylvania Rule of Criminal Procedure 621 is approved in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective February 1, 2012.

**TITLE 234. RULES OF CRIMINAL PROCEDURE
CHAPTER 6. TRIAL PROCEDURES IN COURT
CASES**

PART B. Non-Jury Procedures

Rule 621. Procedure When Jury Trial is Waived.

* * * * *

Comment

The 1999 amendment conforms this rule to the 1998 amendment to article I, § 6 of the Pennsylvania Constitution providing that “the Commonwealth shall have the same right to trial by jury as does the accused.”

Paragraph (B) was amended in 1999 to make it clear that the defendant, the attorney for the Commonwealth, or the judge may unilaterally withdraw the jury trial waiver or the approval at any time before the commencement of trial. **Concerning the time when trial commences, see *Commonwealth v. Dowling*, 598 Pa. 611, 619-620, 959 A.2d 910, 915 (2008) (holding that “trial commences for purposes of Pa.R.Crim.P. 621(B), when a court has begun to hear motions which have been reserved for the time of trial; when oral arguments have commenced; or when some other such substantive first step in the trial has begun”).** After commencement of trial, Rule 605 governs.

Paragraph (c) was deleted in 1999 to permit the defendant and the attorney for the Commonwealth to waive a jury trial with the court’s approval, under Rule 620, even after the withdrawal of a previous jury trial waiver.

When there are co-defendants, withdrawal of a waiver, or withdrawal of the judge’s approval, with respect to one or more defendants does not preclude a waiver and non-jury trial for other defendants.

Official Note: Rule 1102 adopted January 24, 1968, effective August 1, 1968; amended April 16, 1999, effective July 1, 1999; renumbered Rule 621 and Comment revised March 1, 2000, effective April 1, 2001; **Comment revised January 9, 2012, effective February 1, 2012.**

FINAL REPORT¹

Revision of the Pa.R.Crim.P. 621 Comment

Timeliness of Request to Withdraw Waiver of Jury Trial

On January 9, 2012, effective February 1, 2012, upon the recommendation of the Criminal Procedural Rules Committee, the Court approved the revision of the Comment to Pa.R.Cim.P. 621 (Procedure When Jury Trial is Waived) that adds a citation to *Commonwealth v. Dowling*,

598 Pa. 611, 959 A.2d 910 (2008) concerning the period within which a defendant may withdraw a waiver of a jury trial. At the request of the Court, the Committee undertook a review of the provisions of Rule 621(B) with regard to the defendant’s right to withdraw a waiver of a jury trial at any time before the commencement of trial in light of the different approaches to withdrawal of jury waivers that other jurisdictions have adopted.

The Committee reviewed the case law and rules in other jurisdictions. As noted in *Dowling*, a number of other jurisdictions permit withdrawals of jury trial waivers in the discretion of the trial judge. The Committee found numerous procedural variations in how the discretion is exercised and about what is the burden of proof. The Committee also noted that, even though permission to withdraw the waiver is left to the discretion of the trial judge, the commencement of trial or the taking of evidence are the time limits within which the request to withdraw the waiver must be made.

During the Committee’s discussion various views were articulated, with some members suggesting that permitting withdrawal in the judge’s discretion makes sense because the judge is in the best position to know whether and when a withdrawal should be permitted. Other members suggested that current Pennsylvania practice permitting the withdrawal of a waiver of a jury trial is essential to protect the defendant’s rights. They argued that the bright line limitation on when a withdrawal may be made in current Rule 621(B) adequately safeguards the defendant and promotes judicial economy, and with the clarifications in *Dowling*, there will be fewer challenges about when a request to withdraw a waiver of the jury trial should be granted. In addition, there was concern that changing to a discretionary system potentially could result in more issues being raised with the courts concerning the judge’s exercise of discretion rather than reducing the number of challenges.

The Committee ultimately concluded that no changes in the procedures are necessary. However, the members agreed that the Rule 621 Comment should be revised to include a citation to the *Dowling* case and the Court’s definition of “commencement of trial.”² This revision will provide adequate notice to the bench and bar of the definitional clarification, and is consistent with the Court’s stated goal of ensuring that the exercise of the right to withdraw a jury trial waiver is “not used to frustrate the administration of justice by delaying the proceedings for tactical gain.” *Id.* at 620, 959 A.2d at 915. Accordingly, the Rule 621 Comment has been revised with the addition of the following language:

Concerning the time when trial commences, see *Commonwealth v. Dowling*, 598 Pa. 611, 619-620, 959 A.2d 910, 915 (2008) (holding that “trial commences for purposes of Pa.R.Crim.P. 621(B), when a court has begun to hear motions which have been reserved for the time of trial; when oral arguments have commenced; or when some other such substantive first step in the trial has begun”).

[Pa.B. Doc. No. 12-135. Filed for public inspection January 27, 2012, 9:00 a.m.]

¹ The Committee’s Final Reports should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee’s Comments or the contents of the Committee’s explanatory Final Reports.

² The Court in *Dowling* clarified that the definition of “commencement of trial” in the jury trial waiver context is the same as the definition of “commencement of trial” in the prompt trial context.

Title 237—JUVENILE RULES

PART I. RULES

[237 PA. CODE CH. 1]

Order Amending Rule 152 of the Rules of Juvenile Court Procedure; No. 554 Supreme Court Rules Doc.

Order

Per Curiam

And Now, this 11th day of January, 2012, upon the recommendation of the Juvenile Court Procedural Rules Committee; the proposal having been published for public comment before adoption at 41 Pa.B. 1013 (February 26, 2011), in the *Atlantic Reporter* (Third Series Advance Sheets, Vol. 11, No. 3, March 4, 2011), and on the Supreme Court's web-page, and an Explanatory Report to be published with this *Order*:

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that the amendments to Rule 152 of the Rules of Juvenile Court Procedure are approved in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective March 1, 2012.

Annex A

TITLE 237. JUVENILE RULES

PART I. RULES

Subpart A. DELINQUENCY MATTERS

CHAPTER 1. GENERAL PROVISIONS

PART B(2). COUNSEL

Rule 152. Waiver of Counsel.

A. *Waiver requirements.* A juvenile who has attained the age of fourteen may [not] waive the right to counsel [unless] if:

1) the waiver is knowingly, intelligently, and voluntarily made; and

2) the court conducts a colloquy with the juvenile on the record[.]; and

3) the proceeding for which waiver is sought is not one of the following:

a) detention hearing pursuant to Rule 242;

b) transfer hearing pursuant to Rule 394;

c) adjudicatory hearing pursuant to Rule 406, including the acceptance of an admission pursuant to Rule 407;

d) dispositional hearing pursuant to Rule 512; or

e) a hearing to modify or revoke probation pursuant to Rule 612.

B. *Stand-by counsel.* The court may assign stand-by counsel if the juvenile waives counsel at any proceeding or stage of a proceeding.

C. *Notice and revocation of waiver.* If a juvenile waives counsel for any proceeding, the waiver only applies to that proceeding, and the juvenile may revoke the waiver of counsel at any time. At any subsequent proceeding, the juvenile shall be informed of the right to counsel.

Comment

[It is recommended that, at a minimum, the court ask questions to elicit the following information in determining a knowing, intelligent, and voluntary waiver of counsel:

1) Whether the juvenile understands the right to be represented by counsel;

2) Whether the juvenile understands the nature of the allegations and the elements of each of those allegations;

3) Whether the juvenile is aware of the dispositions, community service, or fines that may be imposed by the court;

4) Whether the juvenile understands that if he or she waives the right to counsel, he or she will still be bound by all the normal rules of procedure and that counsel would be familiar with these rules;

5) Whether the juvenile understands that there are possible defenses to these allegations that counsel might be aware of, and if these defenses are not raised at the adjudicatory hearing, they may be lost permanently;

6) Whether the juvenile understands that, in addition to defenses, the juvenile has many rights that, if not timely asserted, may be lost permanently; and if errors occur and are not timely objected to, or otherwise timely raised by the juvenile, these errors may be lost permanently;

7) Whether the juvenile knows the whereabouts of absent guardians and if they understand they should be present; and

8) Whether the juvenile has had the opportunity to consult with his or her guardian about this decision.]

Because of the ramifications of a juvenile record, it is important that every safeguard is taken to ensure that all constitutional and procedural guarantees and rights are preserved. Juveniles should not feel pressured to waive counsel or be the subject of any proactive pursuit for obtaining a waiver.

In determining whether the waiver of counsel is knowingly, intelligently, and voluntarily made, the court, on the record, is to ask the juvenile questions to elicit: 1) the reasons why the juvenile wants to waive counsel; 2) information regarding the juvenile's: a) age; b) maturity; c) education; d) mental health issues, if any; and e) any current alcohol or drug issues that may impair the juvenile's decision-making skills; 3) the juvenile's understanding of the: a) right to an attorney, including the provisions of Rule 151; b) juvenile's role when proceeding *pro se*; c) allegations in the petition against the juvenile; d) possible consequences if the juvenile is found delinquent; 4) whether the juvenile consulted with the juvenile's guardian; and 5) whether the juvenile consulted with an attorney.

If it is determined that the juvenile has not knowingly, intelligently, and voluntarily waived counsel, the court immediately is to appoint counsel for the juvenile. If it is determined that the juvenile has made a knowing, intelligent and voluntary waiver, the court may appoint stand-by counsel for all proceedings.

This rule is not meant to preclude the guardian's presence at any hearing. **Indeed, the presence and active participation of a guardian should be welcomed. During the colloquy which is the subject of this rule, the court should feel free to elicit information from the guardian.** As provided in Rule 131 and the Juvenile Act, 42 Pa.C.S. §§ 6310, 6335(b), and 6336.1, the court can order the guardian's presence if the court determines that it is in the best [**interests**] **interest** of the juvenile. When conducting the colloquy, the court should also keep in mind the age, maturity, intelligence, and mental condition of the juvenile, as well as [,] the experience of the juvenile, the juvenile's ability to comprehend, the guardian's presence and consent, and the juvenile's prior record.

This rule requires the juvenile to waive the right to counsel. A guardian may not waive the juvenile's right to counsel. To implement this rule, Rule 800 suspends 42 Pa.C.S. § 6337 only to the extent that the right to waiver of counsel belongs to the juvenile and the guardian may not waive the right for the juvenile.

Additionally, Rule 150(B) provides that once an appearance is entered or the court assigns counsel, counsel is to represent the juvenile until final judgment, including any proceeding upon direct appeal and dispositional review, unless permitted to withdraw. See Pa.R.J.C.P. 150(B).

Notwithstanding the provisions of paragraph (A)(3), a juvenile fourteen years of age or older may make or file a motion pursuant to Rule 344(E) for alternative relief, for example, when the juvenile subscribes to a protected formal belief system which prohibits attorney representation.

Pursuant to paragraph (C), if waiver of counsel is revoked, the court is to appoint counsel before proceeding.

EXPLANATORY REPORT

January 2012

The Supreme Court of Pennsylvania has adopted the changes to Rule 152 with this Recommendation. The changes are effective March 1, 2012.

Background

The issue of waiver of counsel has been a topic of discussion and debate since the inception of the Juvenile Court Procedural Rules Project in 1999 and the creation of the Juvenile Court Procedural Rules Committee in 2001.

Despite the recurring debate on various aspects of waiver, research indicates that in most jurisdictions, juveniles are very rarely waiving counsel. According to 2009 statistics from the Juvenile Court Judges' Commission, over 99.2% of juveniles have an attorney for court proceedings. In 2009, one hundred eighty five (<.08%) juveniles waived the right to have an attorney. In the

majority of waiver cases, the juvenile was discharged from court supervision, placed on informal adjustment, or the case was dismissed.

Even though waiver of counsel is rarely occurring across this Commonwealth, the unfortunate circumstances that came to light in Luzerne County brought this subject to the forefront more recently. In August of 2009, the Interbranch Commission on Juvenile Justice (ICJJ) was convened to address how the Luzerne County juvenile system failed, to restore public confidence, and to prevent similar events from occurring again. One of the primary issues concerned unrepresented juveniles sent to placement facilities for minor infractions.

One method of protecting juveniles is ensuring that all juveniles have an attorney. In May of 2011, the Supreme Court adopted a rule recommendation presuming all juveniles to be indigent. Effective July 1, 2011, all juveniles are appointed counsel unless they decide to retain a private attorney.

Once counsel is appointed, the question is whether the juvenile may waive his or her right to an attorney. The debate on waiver of counsel has centered on the derivation of the juvenile's right to counsel. The analysis for waiving a right is dependent upon this origin.

It is clear that an adult defendant has a Sixth Amendment right to counsel. The U.S. Supreme Court has also determined that adult defendants have a right to self-representation. See *Faretta v. California*, 422 U.S. 806 (1975). This right was determined to be derived from the defendant's Sixth Amendment right to counsel.

In juvenile delinquency cases, the U.S. Supreme Court determined that the juvenile has a right to counsel but it is derived from the Fourteenth Amendment's due process clause. In *re Gault*, 387 U.S. 1 (1967). Pennsylvania then recognized the juvenile's right to counsel by providing in its Juvenile Act that a party is entitled to representation by legal counsel at all stages of any proceedings. See 42 Pa.C.S. § 6337.

In *re Winship*, the U.S. Supreme Court expanded its ruling in *Gault* by providing the juvenile with additional due process rights to confront and cross-examine witnesses, and to the same standard of proof as adult defendants which is a finding of guilty beyond a reasonable doubt. In *re Winship*, 397 U.S. 358 (1970).

However, there is no precedent for a juvenile's right to self-representation. In *McKeiver v. Pennsylvania*, 403 U.S. 528 (1971), the U.S. Supreme Court determined that a juvenile does not have the right to a trial by jury. It found that "a juvenile proceeding is not a criminal prosecution within meaning and reach of [the] Sixth Amendment guaranteeing [a] right to an impartial jury in all criminal prosecutions." *McKeiver, supra*.

In *McKeiver*, all the litigants agreed that the applicable due process standard in juvenile proceedings, as developed by *Gault* and *Winship*, is fundamental fairness. As that standard was applied in those two cases, the U.S. Supreme Court placed an emphasis on fact-finding procedures. The requirements of notice, counsel, confrontation, cross-examination, and standard of proof naturally flowed from this emphasis. "But one cannot say that in our legal system, the jury is a necessary component of accurate fact-finding." *McKeiver, supra*.

Under this same analysis, it can be argued that the right to self-representation is also not a necessary component of accurate fact-finding. It actually tends to lead us to the opposite conclusion as juveniles are not effective advocates with specialized training who can accurately set forth the facts in a case or object to evidence that legally should be excluded.

The next question of whether the juvenile has a right to self-representation under the “law of the land” due process clause of the Pennsylvania Constitution is also addressed by this same analysis. *See* Pa. Const., Art. 1, § 9.

In re Terry, 265 A.2d 350 (Pa. 1970), the Supreme Court of Pennsylvania held that the juvenile does not have a right to a trial by jury. This case was consolidated with another case and affirmed by the U.S. Supreme Court in *McKeiver*, *supra*. The Supreme Court of Pennsylvania stated that it was “confident that a properly structured and fairly administered juvenile court system can serve our present societal needs without infringing upon individual freedoms. If hearings are conducted in accordance with the procedural safeguards, juveniles are not constitutionally compelled to be granted a trial by jury.” *Terry*, *supra*.

The Committee believes that the constitutional analysis, as stated *supra*, is persuasive and supports the proposition that juveniles do not have an absolute right to self-representation. Therefore, the Committee believes that a juvenile’s right to waive counsel can be limited while protecting the juvenile’s freedoms and fundamental fairness.

There has never been any debate that when a juvenile waives counsel, the waiver must be knowingly, intelligently, and voluntarily made. When looking at this standard for waiver, it is clear to the Committee that any person under the age of fourteen does not have the capacity to understand a complex legal system in which attorneys must be educated and receive additional appropriate training. Therefore, the Committee recommended no juvenile under the age of fourteen can waive counsel.

It can be argued that a minority of juveniles over the age of fourteen may be able to make a knowing, intelligent, and voluntary waiver of counsel. The Court has recognized the rights of juveniles over the age of fourteen to make decisions concerning their mental health treatment, including taking medication. Additionally, the legislature has recognized that juveniles over the age of fourteen can be transferred to and from criminal proceedings for certain offenses. In the adult system, juveniles may be able to waive counsel if their waiver is knowingly, intelligently, and voluntarily made.

Therefore, the Committee balanced the rights of these juveniles with the need to protect them when serious consequences arise from their actions. Protecting juveniles outweighs any right to self-representation in any proceeding that has lifetime implications. Because of the consequences attached to certain proceedings in juvenile court, the Committee recommended a juvenile cannot waive counsel at a detention, adjudicatory, transfer, disposition, or probation revocation hearing.

A juvenile may be sent to an out-of-home placement for any delinquent act. There are also several collateral consequences related to a delinquency adjudication, which include challenges to obtaining employment, licenses, public housing, enrolling in the military; or

being expelled from school. *See* <http://www.pacourts.us/T/BoardsCommittees/JuvenileCourtProcedural/> for the Collateral Consequences Checklist.

Because of the lifetime implications that flow from a delinquency adjudication, juveniles must be protected at the hearing that determines their guilt or innocence. Individual liberties and freedom are at stake at the detention, transfer, dispositional, and probation revocation hearings; therefore attorney representation is needed to protect the juvenile’s rights.

Additionally, once an attorney has been appointed or retained, Rule 150(B) requires the attorney to represent the juvenile until final judgment, including any proceeding upon direct appeal and dispositional review, unless permitted to withdraw. If counsel withdraws, new counsel must be appointed. Therefore, it is expected that a juvenile will always have an attorney at those proceedings.

Rule discussion

As previously stated, the modifications to Rule 152 are consistent with the Recommendations of the ICJJ which emphasize the importance of protecting juveniles who face serious consequences. *Interbranch Commission on Juvenile Justice Report*, May 2010, pp. 50–51.

Paragraph (A) allows a juvenile who is at least fourteen years of age to waive counsel if: 1) waiver is knowingly, intelligently, and voluntarily made; 2) the court conducts the colloquy with the juvenile on the record; and 3) the hearing is not one of the specified proceedings.

Because the consequences of a detention, transfer, adjudicatory, dispositional, and probation revocation hearings are too harsh for a juvenile to navigate the system alone, a juvenile may not waive counsel at those proceedings. As implied in the constitutional analysis *supra*, the Committee believes that the juvenile’s right to self-representation fails under a balancing test of the Fourteenth Amendment’s due process clause.

No changes were made to paragraph (B) & (C). Paragraph (B) allows the court to appoint stand-by if the juvenile waives counsel at any proceeding not enumerated in paragraph (A)(3). Paragraph (C) emphasizes waiver of counsel applies only to one proceeding and the juvenile must be informed of the right to counsel at each subsequent proceeding.

The colloquy requirements were changed in the Comment to address the general minimal requirements for information that should be obtained by the court. It is important to understand why the juvenile wishes to waive counsel. If there are any misperceptions by the juvenile, the court can dispel those misperceptions.

Another addition to the Comment includes that if a juvenile has a constitutionally protected formal belief system that prohibits attorney representation, the juvenile may move or file a motion under Rule 344(E) requesting the provisions of this rule do not apply to him or her. For example, an individual whose religious belief does not permit attorney representation may claim that his or her First Amendment right would outweigh any Fourteenth Amendment constitutional balancing test.

PROPOSED RULEMAKING

DEPARTMENT OF ENVIRONMENTAL PROTECTION

[25 PA. CODE CH. 77]

Noncoal Mining Fees; Notice of Public Comment Period

The Department of Environmental Protection (Department) is soliciting additional public comment on proposed amendments to 25 Pa. Code Chapter 77 (relating to noncoal mining) encompassing noncoal mining fees. The proposed rulemaking amends existing permit application fees and establishes an annual administrative fee for the noncoal mining program. The proposed rulemaking was published by the Environmental Quality Board (Board) for public comment at 40 Pa.B. 4963 (August 28, 2010). During the public comment period, 19 commentators provided comments to the Board on the proposed rulemaking. In addition, the Independent Regulatory Review Commission issued comments on the proposed rulemaking on October 27, 2010. To seek further input by the public prior to the development of the final rulemaking, the Department is requesting additional comment on the proposed rulemaking, which remains unchanged from its initial publication at 40 Pa.B. 4963.

Interested persons are invited to submit electronic or written comments on the proposed rulemaking by February 27, 2012. The Department will not accept comments submitted by facsimile. Comments should be submitted to Thomas Callaghan, Director, Bureau of Mining Programs, Department of Environmental Protection, Rachel Carson State Office Building, P. O. Box 8461, Harrisburg, PA 17105-8461, tcallaghan@pa.gov. Comments submitted electronically should reference the proposed rulemaking in the subject line of the e-mail and include the name and address of the commentator. If an acknowledgement of electronic comments is not received by the sender within 2 business days, the comments should be retransmitted to ensure receipt.

For further information or to request a copy of the proposed rulemaking, interested individuals should contact Thomas Callaghan, (717) 787-5015, tcallaghan@pa.gov. ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CH. 105]

Dam Safety and Waterway Management Fees

The Environmental Quality Board (Board) proposes to amend Chapter 105 (relating to dam safety and waterway

management). The amendments update existing fees and include additional fees for activities performed by the Department of Environmental Protection (Department).

This proposed rulemaking was adopted by the Board at its meeting of December 21, 2010.

A. *Effective Date*

This proposed rulemaking will go into effect upon final-form publication in the *Pennsylvania Bulletin*.

B. *Contact Persons*

For further information regarding Dam Safety, contact Roger P. Adams, P.E., Chief, Division of Dam Safety, P. O. Box 8460, Harrisburg, PA 17105-8460; or Patricia A. McSparran, Director, Bureau of Waterways Engineering and Wetlands, P. O. Box 8460, Rachel Carson State Office Building, Harrisburg, PA 17105-8460, (717) 787-3411.

For further information regarding Water Obstruction and Encroachments (WO&E), contact Kenneth F. Murin, Chief, Division of Wetlands, Encroachment and Training, P. O. Box 8460, Harrisburg, PA 17105-8460; or Patricia A. McSparran, Director, Bureau of Waterways Engineering and Wetlands, P. O. Box 8460, Rachel Carson State Office Building, Harrisburg, PA 17105-8460, (717) 787-3411.

Information regarding submitting comments on this proposed rulemaking appears in section J of this preamble. Persons with a disability may use the Pennsylvania AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This proposed rulemaking is available on the Department's web site at <http://www.depweb.state.pa.us>.

C. *Statutory Authority*

The proposed rulemaking is being made under the authority of sections 5, 7, 10, 11 and 17 of the Dam Safety and Encroachments Act (Dam Safety Act) (32 P. S. §§ 693.5, 693.7, 693.10, 693.11 and 693.17), which grants the Board the authority to adopt regulations and standards for the design, construction, operation, monitoring, maintenance, modification, repair and removal of dams and reservoirs, water obstructions and encroachments as are necessary and proper to carry out the purposes of the Dam Safety Act; sections 5, 6, 8 and 402 of The Clean Streams Law (35 P. S. §§ 691.5, 691.6, 691.8 and 691.402); sections 514, 1901-A, 1908-A, 1917-A and 1920-A of The Administrative Code of 1929 (71 P. S. §§ 194, 510-1, 510-8, 510-17 and 510-20); and sections 302 and 402 of the Flood Plain Management Act (32 P. S. §§ 679.302 and 679.402).

D. *Background and Purpose*

The purpose of the proposed rulemaking is to amend the Department's Dam Safety and Waterway Management regulations to update existing fees and include additional fees for activities performed by the Department as the current fees for most activities have not been increased since 1991 and do not provide enough revenue to support existing program functions. These amendments were developed to offset a portion of the operating costs of the WO&E Program and the Dam Safety Program. The new fees included in the proposed rulemaking are associated with: 1) review of permit applications, general permit registration or other requests for approval; 2) inspections; and 3) review of permit related submissions, such as Emergency Action Plans (EAP), inspection reports, transfers and amendments.

Dam Safety Program

The Department oversees the construction and operation of dams through the Dam Safety Program. The Dam Safety Program historically has been and continues to be a model for similar state programs across the country. This is evidenced by the Commonwealth's leadership role in the Association of State Dam Safety Officials (ASDSO). The Commonwealth was part of the Organizing Committee for the Association of State Dam Safety Officials in 1983, which led to its formation in 1984. The Commonwealth's leadership has served on the ASDSO Board of Directors for most of the years of its existence. The Commonwealth and ASDSO took a leadership role along with Federal agencies in formulating the National Dam Safety Program. The Commonwealth's leadership was also recommended by ASDSO to the United States Department of Homeland Security and serves as one of only eight states representing state dam safety programs on the United States Department of Homeland Security's Dams Sector—Government Coordinating Council in its mission to improve and protect the Nation's dam infrastructure as part of the National Infrastructure Protection Plan. In 2009, the Department was appointed by the National Dam Safety Review Board as the co-chair of the Federal Emergency Management Agency/National Dam Safety Program Emergency Action Plans workgroup. The Commonwealth's EAP Guidelines were selected to be used as one of two model EAPs for dam safety programs to use across the country. The Commonwealth has been recognized as a leader on the issues of the need for Federal dam rehabilitation and repair funding for aging infrastructure as well as the need for a second National dam inspection program. Through its partnership with the Pennsylvania Emergency Management Agency and county emergency management personnel, the EAP guidelines were revised in 2009 in a manner that ensured the most up-to-date information is available to emergency responders.

The Dam Safety Program oversees the regulation and safety of approximately 3,200 dams and reservoirs throughout this Commonwealth to protect the health, safety and welfare of its citizens and property downstream of dams. The goal is to assure proper planning, design, construction, maintenance, operation, monitoring and supervision of dams and reservoirs. The Dam Safety Program also oversees removal of dams that are no longer needed by their owners. The Commonwealth's Dam Safety Program is leading the Nation in its review and approval of EAPs from owners of high hazard dams through a very successful enforcement initiative begun in 2004. The most recent report available from ASDSO lists the National average for percentage of high hazard dams with an approved EAP at 61%. The Commonwealth is currently at 87% and with those EAPs in the review process it is expected to increase to 98%.

To carry out the responsibilities mentioned previously and remain a National leader, the Department must ensure adequate funding for the Dam Safety Program. The revenue generated by the Department will ensure

that adequate and consistent monitoring, compliance and inspection of dams will occur and reviews will be accomplished in a timely manner. The revenue from this fee package will restore key positions in the Dam Safety Program to better protect the public. Recently the Dam Safety Program lost one of two critical geotechnical engineering positions due to budget cuts to the Department. The person in this position was responsible to review the geotechnical aspects of new dam projects, perform inspections of unsafe, high hazard dams and investigate deficiencies and recommend corrective action to unsafe high hazard dams. The loss of this position has increased the workload on the remaining geotechnical engineer and has significantly delayed dam permit application processing and project review times. Also, there is a concern for public safety due to the position's direct involvement with dams of special concern in this Commonwealth. The fees collected from this proposed rulemaking will also allow the Department to fund eight full-time dam inspectors located in and under the supervision of the six regional offices. With budget cuts to the Department, the number of engineers in the section that performs the dam inspections in each of the regional offices has been reduced so there no longer are eight full-time inspectors. By restoring engineering positions for geotechnical review and dam inspections through this proposed rulemaking, it will ensure that dams are maintained as designed and will help protect the public safety of the communities located downstream and assist the public who depend on dams for water supply, flood control or recreation.

WO&E Program

The revenue generated for the WO&E Program from these fees will be used to continue to administer the WO&E Program. The fee increases will allow the Department to continue to provide timely and thorough review of permit applications ensuring the protection of surface waters and wetlands. In addition, a significant amount of time has been spent by WO&E Program staff and applicants working through several application submissions to determine the minimum amount of impacts to aquatic resources. The increased review fees and additional Disturbance Review Fee will encourage applicants to avoid and minimize impacts to the maximum extent possible on their initial applications.

Submerged Lands License Agreements

The Department, on behalf of the Commonwealth, processes grant leases, licenses, easements and rights-of-ways in submerged lands in the form of Submerged Lands License Agreements (SLLA) to entities wishing to occupy submerged lands of this Commonwealth. Those entities shall obtain an SLLA and pay the appropriate charge. These charges have not been increased since 1991.

Dam Safety Program

Dam Safety regulations vary greatly across the United States as indicated in the following table:

<i>State</i>	<i>Application / Review Fees</i>	<i>Annual Fees</i>
Pennsylvania	\$6,000-\$26,500—Permits (New, Modification, Operation & Maintenance) \$650-\$14,700—Letter of Amendment/Authorization \$1,700-\$4,700—Major Dam Design Revision \$900-\$1,400—Environmental Assessment \$300-\$550—Transfer of Permit	\$0—Category 4 \$800—Category 3 \$1,500—Category 1 or 2

<i>State</i>	<i>Application / Review Fees</i>	<i>Annual Fees</i>
New Hampshire ¹	\$2,000—Non-high Hazard \$3,000—Low Hazard \$4,000—Significant Hazard \$4,000—High Hazard	\$400—Low Hazard \$750—Significant Hazard \$1,500—High Hazard
New York	None	None
New Jersey	None	None
Delaware	\$500	N/A
Maryland	\$750—Does not apply to Federal, state or local government	None
West Virginia	\$300—Construction or modification \$200—Breaching or Abandonment \$100—Removal	\$25—Class 4 Dam \$50—Class 3 Dam \$75—Class 2 Dam \$100—Class 1 Dam
Ohio	Based on estimated construction costs—4% up to \$100,000, 3% for next \$400,000, 2% for next \$500,000 and 0.5% for costs in excess of \$1 million	Based on class and height, length, and storage of dam
Michigan ²	\$500—Construction, reconstruction, or enlargement—dam height 6'-<10' \$1,000—Construction, reconstruction, or enlargement—dam height 10'-<20' \$3,000—Construction, reconstruction, or enlargement—dam height ≥20' \$100—Minor project	None
Texas ²	None	None

¹ Dam Safety program is 60% funded by fees.

² States with similar number of dams as Pennsylvania.

WO&E Program

WO&E regulations and fees vary widely across the United States making it very difficult to compare. The proposed amendments to the regulations are comparable to other states given the wide variety of what actions are regulated and require fees. Additional WO&E Maryland, Ohio, New Jersey and Virginia fees are available for reference.

<i>State</i>	<i>Admin Filing Fee</i>	<i>GP</i>
Pennsylvania	1,750 + \$400 / 0.1 ac of temporary disturbance 1,750 + \$800 / 0.1 ac of permanent disturbance	\$50-\$750 based upon GP* * Some general permits have additional disturbance fee
Maryland	\$750 + ≤ \$7,500 / ac of disturbance	\$750 for <5,000 sf
Ohio	\$200	none found
New Jersey	\$2,400	\$600 + \$240 / additional GP
Virginia	\$2,400	≤ \$2,400 based upon acreage

SLLA

SLLA charges vary across the United States. The proposed amendments to the regulations are comparable to Ohio. Ohio, Florida and Maine's SLLA regulations are available for reference.

<i>State</i>	<i>Annual Charge (acreage based)</i>
Pennsylvania	\$0.04 / sf this is an average of fees
Ohio	\$0.03 / sf for small facilities \$0.04 / sf for large facilities
Florida	\$0.1413 / sf
Maine	% of gross income of lessee

In summary, the Board proposes to incorporate these amendments into the Dam Safety and Waterway Management regulations to update existing and develop new sections.

The proposed amendments to the regulations were submitted to the Water Resources Advisory Committee (WRAC) for review and discussion at its May 11, 2010,

meeting. Comments from WRAC were addressed and the revised rulemaking package was presented to WRAC at its July 14, 2010, meeting with a request for a formal record of WRAC's recommendations. The proposed amendments were approved by WRAC on July 14, 2010.

The proposed amendments were also submitted to the Agricultural Advisory Board for review and discussion at its June 16, 2010, meeting.

E. Summary of Regulatory Requirements

The proposed rulemaking updates existing fees and includes additional fees for activities performed by the Department. There are not companion Federal regulations.

§ 105.13. Regulated activities—information and fees

The heading of § 105.13 is proposed to be amended to "regulated activities—information and fees" to better define the information contained within this section. The amendments to this section include updated fees, new fees and specify the appropriate restricted revenue ac-

counts where the fees will be deposited for each program administering Chapter 105. The proposed rulemaking maintains fee exemptions, including Federal, State, county or municipal agencies or municipal authorities for the WO&E Program. The proposed rulemaking maintains a fee exemption for Federal and State agencies for the Dam Safety Program. Additionally, in the final-form rulemaking, the Department will include counties and municipalities within the Dam Safety Program's fee exemption in § 105.13(a)(1). In addition, the Department will review the adequacy of the fees once every 3 years and provide a written report to the Board.

§ 105.35. *Charges for use and occupation of submerged lands of this Commonwealth*

Section 105.35 is proposed to be amended to reflect new charges for SLLAs.

§ 105.131a. *Annual dam registration*

Proposed § 105.131a was developed to establish annual dam registration fees for the Department's administration of specific categories of dams regulated under the Dam Safety Act.

§ 105.444. *Contents of general permits*

This section is proposed to be amended to require the submission of registration or general permit fees.

§ 105.448. *Determination of applicability of a general permit*

This section is proposed to be amended to clarify the Department's ability to charge a registration or general permit fee.

In addition to the summary of the proposed rulemaking, the Board, upon the advice of WRAC, seeks comment on modifying the proposed rule to incorporate flexibility in the WO&E fee proposal to accommodate multiple structures in one project.

F. *Benefits, Costs and Compliance*

Benefits

The proposed rulemaking amends the Department's Dam Safety and Waterway Management regulations to update existing fees and include additional fees for activities performed by the Department as the current fees for most activities have not been increased since 1991 and do not provide enough revenue to support existing program functions. These amendments were developed to offset a portion of the operating costs of the

WO&E Program and the Dam Safety Program thereby reducing each program's dependency on the General Fund.

The revenue generated by the Department for the Dam Safety Program (an estimated \$1,139,850) will ensure that adequate and consistent monitoring, compliance and inspection of dams will occur and reviews will be accomplished in a timely manner. This will ensure that dams are maintained as designed and will help protect the public safety of the communities located downstream and assist the public who depend on dams for water supply, flood control or recreation.

The revenue generated for the WO&E Program from these fees (an estimated \$2,952,612 annually) will be used to continue to administer the WO&E Program. Traditionally a significant amount of time has been spent by WO&E Program staff and applicants working through several application submissions to determine the minimum amount of impacts to aquatic resources. The increased review fees and additional Disturbance Review Fee will encourage applicants to avoid and minimize impacts to the maximum extent possible on their initial application. In doing so, the applicant can reduce the Disturbance Review Fee and the possibility of additional review fees if a resubmission is required. While the review time for each application will not change, the applicant can expect a significant time savings overall due to a decrease in applications being submitted several times.

Compliance Costs

The proposed rulemaking will apply to any existing or potential dam owners and individuals or entities seeking authorization to perform activities regulated under Chapter 105.

Proposed Rulemaking

The additional costs in the proposed rulemaking are for increased permitting fees; increased SLLA charges, and the addition of annual dam registration, major and minor amendment or authorization, design revision, environmental assessment review and transfer of permit fees. Additional costs could also be incurred for noncompliance with the new regulations resulting in fines or attorney fees, or both. The values noted in the following charts are based on an average of 3 years of activities performed by the Department (Dam Safety and WO&E Programs) and the new fee applied to each activity. The proposed annual approximate cost for SLLAs is based on the current amount collected updated to reflect new fees.

Commonwealth

Administrative	Unknown*	Transfer w/o SLLA	n/a
WO&E Permit Total	\$0		\$0

* Currently there is no record of Minor Amendments or Transfers without SLLA.

There is a benefit to the Commonwealth with the new WO&E regulations since the increased fees add revenue to the Commonwealth. There is no cost to the Commonwealth as fees are not currently associated with Commonwealth projects requiring authorizations under the WO&E Program and no fees are proposed in the new regulations. The benefits should offset a portion of the WO&E Program’s permitting operating cost; fees are not currently associated with Commonwealth projects requiring authorizations under the WO&E Program and fees are not proposed in the new regulations.

There is a benefit to the Commonwealth with the new regulations for SLLA since the increased charges add revenue to the Commonwealth. There is no cost to the Commonwealth as charges are not currently associated with Commonwealth projects requiring authorizations under this program and no charges are proposed in the new regulations.

Municipal

Company 4	Monitoring	\$10,500	Annual Registration
Company 5	Monitoring	\$9,000	Annual Registration
Total		\$104,300	

The cost to the five largest affected corporations based on annual approximate cost with the new Dam Safety regulations is previously indicated. The only annual increase that can be accounted for is the proposed annual registration fee. It cannot be determined whether or not these businesses will need to perform necessary projects to upgrade their facilities at this time.

WO&E Program

The cost to the five largest affected corporations with the new WO&E regulations cannot be addressed since WO&E permits are not reoccurring authorizations and identifying affected corporations is not possible.

SLLA

<i>Business</i>	<i>Expenditures</i>	<i>Annual Approx. Cost</i>	<i>Source</i>

Company 4	Monitoring	\$16,727	SLLA
Company 5	Monitoring	\$15,600	SLLA
Total		\$92,654	

The cost to the five largest affected corporations based on average annual cost with the new regulations is previously indicated. The only annual increase that can be accounted for is the increased annual SLLA charge.

Dam Safety Program

<i>Expenditures</i>	<i>Proposed Annual Approx. Cost</i>	<i>Source</i>	<i>Existing Annual Approx. Cost</i>

Administrative	\$32,400	Env Assessment	n/a
Administrative	\$4,750	Transfer of Permit	n/a
Dam Safety Total	\$1,139,850		\$28,000

The cost to private entities affected with the new Dam Safety regulations is the proposed annual registration fee. It cannot be determined whether or not these individuals will need to perform necessary projects to upgrade their facilities at this time. The cost to individuals owning a hazard potential 1 or 2 dam will be assessed an annual fee of \$1,500, a hazard potential 3 dam will be \$800 and a hazard potential 4 dam will be \$0.

WO&E Program

<i>Expenditure</i>	<i>Proposed Annual Approx. Cost</i>	<i>Source</i>	<i>Existing Annual Approx. Cost</i>
Administrative	\$497,613	WO&E Permit	\$47,850
Administrative	\$1,925,748	Disturbance Fees	n/a

Administrative	Unknown ²	Transfer w/o SLLA	n/a
WO&E Permit Total	\$2,952,612		\$47,850

¹ Currently Environmental Assessments and Major Amendments are included with WO&E Permits.

² Currently there is no record of Minor Amendments or Transfers.

The cost to private entities affected with the new WO&E regulations is the cost of the proposed new and increased fees. The cost to individuals will be highly variable. Cumulatively, activities requiring a review fee will increase from \$47,850 to an estimated \$2,952,612 because there are proposed new and increased fees.

SLLA

<i>Expenditure</i>	<i>Proposed Annual Approx. Cost</i>	<i>Source</i>	<i>Existing Annual Approx. Cost</i>
Monitoring	\$1,564,000	SLLA	\$391,000
SLLA Total	\$1,564,000		\$391,000

The cost to individuals affected with the new regulations for SLLAs is the cost of the increased annual charge. SLLA charges will increase from \$0.010/sf to \$0.040/sf to reflect an increase in value as these charges have not been updated since 1991.

Compliance Assistance Plan

Financial assistance is not necessary. Dam owners will be notified by letter advising of the revisions and how to comply. SLLA licensees will also be notified by letter advising them of the new fee and how to comply. The regulated community will be notified of all Dam Safety, WO&E and SLLA fee changes by public notice in the *Pennsylvania Bulletin*.

Paperwork Requirements

The additional paperwork required for the dam owner would be the submission of the annual registration fee for dams and the new review and transfer of permit fees for

dams. The proposed rulemaking will create additional compliance/legal, accounting, reporting, recordkeeping and paperwork for the Department above what is already required in the existing regulations. This will occur for the collection of the new fees for dams including review fees, transfer of permit fees and annual registration fees from dam owners.

The proposed rulemaking will require the Department to develop and distribute new SLLA agreements to current SLLA licensees. The SLLA licensees will be required to sign and return the new agreements. Other additional paperwork will not be required for the SLLA licensees, WO&E applicants or permittees or the Department.

G. Sunset Review

The regulations will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which the regulations were intended.

H. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on January 18, 2012, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate and House Environmental Resources and Energy Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

I. *Public Comments*

Written comments—Interested persons are invited to submit comments, suggestions or objections regarding the proposed rulemaking to the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477 (express mail: Rachel Carson State Office Building, 16th Floor, 400 Market Street, Harrisburg, PA 17101-2301). Comments submitted by facsimile will not be accepted. Comments, suggestions or objections must be received by the Board by February 27, 2012. Interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must also be received by February 27, 2012. The one-page summary will be provided to each member of the Board in the agenda packet distributed prior to the meeting at which the final regulation will be considered.

Electronic comments—Comments may be submitted electronically to the Board at RegComments@pa.gov and must also be received by the Board by February 27, 2012. A subject heading of the proposal and a return name and address must be included in each transmission.

ARTICLE II. WATER RESOURCES

CHAPTER 105. DAM SAFETY AND WATERWAY MANAGEMENT

**Subchapter A. GENERAL PROVISIONS
PERMIT APPLICATIONS**

§ 105.13. [**Permit applications**] Regulated activities—information and fees.

(a) [**Application for permits under this chapter shall be submitted to the Department, in writing, upon forms provided by the Department. Applicants are encouraged to request a meeting with the Department prior to submission of their applications.**

(b) [**An application for a permit, registration for a general permit, request for permit amendment, major or minor letter of amendment or authorization, major dam design revision, environmental assessments, permit transfer or annual dam registration under this chapter [, except applications submitted by Federal, State, county or municipal agencies or a municipal authority for a dam, water obstruction or encroachment] shall be accompanied by a check payable to “Commonwealth of Pennsylvania” [in accordance with the following schedule] except for submissions by the following:**

- (1) **Federal or State agencies related to a dam.**
- (2) **Federal, State, county or municipal agencies or a municipal authority related to a water obstruction or encroachment.**

(b) **Fees collected by the Dam Safety Program and Water Obstruction and Encroachment Program will be deposited into a restricted revenue account known as the Clean Water Fund and utilized to offset the operating costs to implement respective programs.**

(c) **The fees are as follows:**

(1) **Dams based on size and hazard potential category as defined in § 105.91 (relating to classification of dams and reservoirs).**

[**Class A \$3000** (Based on Size Category as defined in § 105.91)
Class B \$2500
Class C \$1500]

(i) ***Dam permit application fees for new dam construction.***

Size Category	Hazard Potential Category			
	1	2	3	4
A	\$26,500	\$26,500	\$25,500	\$23,500
B	\$19,000	\$19,000	\$18,500	\$17,000
C	\$10,500	\$10,500	\$10,000	\$8,000

(A) Initial fees are based upon the size and hazard potential category of the final operating stage of the dam.

(B) Staged construction requires an additional 90% of the appropriate fee for each additional stage beyond the initial stage of work proposed under this permit application, including any closure stage.

(ii) *Dam permit application fees for modification of existing dams.*

Size Category	Hazard Potential Category			
	1	2	3	4
A	\$18,500	\$18,500	\$18,500	\$18,000
B	\$12,000	\$12,000	\$12,000	\$11,500
C	\$7,500	\$7,500	\$7,500	\$7,500

(A) Initial fees are based upon the size and hazard potential category of the final operating stage of the dam.

(B) Staged construction requires an additional 85% of the appropriate fee for each additional stage beyond the initial stage of work proposed under this permit application, including any closure stage.

(iii) *Dam permit application fees for operation and maintenance of existing dams.*

Size Category	Hazard Potential Category			
	1	2	3	4

(iv) *Letter of amendment or authorization review fees.*

Size Category	Major Project	Minor Project
A	\$14,700	\$1,300
B	\$8,700	\$1,000
C	\$4,400	\$650

(A) The estimated total construction cost of the project shall be provided to the Department with the submission of the letter of amendment or authorization request.

(B) A major project is a dam rehabilitation project qualifying for a Letter of Amendment for Dams or a Letter of Authorization for Dams as defined in § 105.1 (relating to definitions) whose total construction costs equal or exceed \$250,000. If, after completion of the project, the total construction costs do not exceed \$250,000, the Department will refund the difference between major and minor project review fees upon approval of the completion certification as required under § 105.108 (relating to completion, certification and project costs).

(C) A minor project is a dam rehabilitation project qualifying for a Letter of Amendment for Dams or a Letter of Authorization for Dams as defined in § 105.1 whose total construction costs are less than \$250,000. If, after completion of the project, the total construction costs exceed \$250,000, the difference in review fees between major and minor projects must be submitted to the Department with the completion certification as required under § 105.108.

(v) *Major dam design revision review fees based on major dam design revision as defined in § 105.1.*

Size Category	Fee
A	\$4,700
B	\$3,200
C	\$1,700

(vi) *Environmental assessment review fees for nonjurisdictional dams, letters of amendment or letters of authorization.*

Size Category	Fee
A	\$1,400
B	\$1,000
C	\$900

(vii) *Transfer of dam permit as required under § 105.25 (relating to transfer of permits).*

Type of Dam Permit Transfer	Fee
No Proof of Financial Responsibility Required	\$550
Proof of Financial Responsibility Required	\$300

(viii) *Annual dam registration fees as required under § 105.131a (relating to annual dam registration).*

B	\$1,500	\$1,500	\$800	\$0
C	\$1,500	\$1,500	\$800	\$0

(A) Annual registration fees are due by July 1 of each year.

(B) If the annual registration fee is not received by July 1, dams regulated by the Department are subject to a temporary suspension of the dam permit, if applicable, and the owner or operator may be required to drain the reservoir at a rate not to exceed 1 foot per day.

(C) If the annual registration fee is not received by July 1, dams regulated by the Department qualifying for waiver of permit provisions in § 105.12 (relating to waiver of permit requirements) may be subject to a temporary draining of the reservoir at a rate not to exceed 1 foot per day.

(D) If annual registration fees are not remitted as specified, interest will accrue on the entire amount from the original date payment was due, at a rate of 12% per annum until payment is remitted.

(2) *Water obstructions and encroachments.*

* The Disturbance Review Fee is calculated by adding all permanent and temporary impacts to waterways, floodways/plains and bodies of water including wetlands to the next highest 10th acre and multiplied by the respective fee for either permanent impacts or temporary impacts and then this amount is added to the other applicable fee.

[(c)] (d) A single application may be submitted or a single permit may be issued for multiple structures and activities which are part of a single project or facility or part of related projects and facilities, located in a single county, constructed, operated or maintained by the same persons. When a single application covers multiple structures or activities other than a single structure and related maintenance dredging, the application fee shall be the sum of fees in subsection [(b)] (c) for the applicable structures and activities. Stream crossings located within a single county for the installation of a public service line shall be treated as a single structure or activity but the application fee shall be the sum of fees for each stream crossing.

[(d)] (e) An application for a permit shall be accompanied by information, maps, plans, specifications, design analyses, test reports and other data specifically required under this chapter and additional information as required by the Department to determine compliance with this chapter.

* * * * *

[(e)] (f) A permit application for small projects located in streams or floodplains shall be accompanied by the following information. This permit application may not be used for projects located in wetlands. If upon review the Department determines that more information is required to determine whether a small project will have an insignificant impact on safety and protection of life, health, property or the environment, the Department may require the applicant to submit additional information and processing fees required under this chapter.

* * * * *

[(f)] (g) Except for small projects, an application for a permit under this chapter shall be accompanied by proof of an application for an Earth Disturbance Permit or an erosion and sedimentation control plan for activities in the stream and earthmoving activities. The plan must conform to requirements in Chapter 102 (relating to erosion and sediment control) and must include a copy of a letter from the conservation district in the county where the project is located indicating that the district has reviewed the erosion and sediment control plan of the applicant and considered it to be satisfactory, if applicable. Earthmoving activities, including small projects, shall be conducted pursuant to an earth disturbance plan.

[(g)] (h) An application shall be submitted by the person who owns or has primary responsibility for the proposed dam or reservoir, water obstruction or encroachment. If an application is submitted by a person with primary responsibility for the structure or activity, the owner of a dam or reservoir, water obstruction or encroachment will not thereby be relieved of legal duties or responsibilities for the structure or activity as imposed by the act or this chapter.

[(h)] (i) An application shall be signed by the owners of the dam or reservoir, water obstruction or encroachment, or the persons exercising primary responsibility for the dam or reservoir, water obstruction or encroachment. In the case of a partnership, one or more members of the partnership authorized to sign on behalf of the entire partnership shall sign the application. In the case of a corporation, it shall be signed by the president, vice president or other responsible official empowered to sign for the corporation. In the case of a political subdivision, it shall be signed by the chief officers of the political subdivision or other responsible official empowered to sign for the political subdivision, with the seal affixed and attested by the clerk.

[(i)] (j) Plans, specifications and reports accompanying applications for any category of dams, or for bridges and other water obstructions or encroachments which would pose a threat to human life or substantial potential risk to property shall be affixed with the seal of a registered professional engineer and a certification, signed by the registered professional engineer, which shall read as follows:

* * * * *

[(j)] (k) The Department may waive the specific information requirements of this section in writing, in the record of decision, if upon review of the permit application, the Department finds that specific information is not necessary to review the application.

(l) The Department will review the adequacy of the fees at least once every 3 years and provide a written report to the EQB. The report will identify any disparity between the amount of program income generated by the fees and the costs to administer these programs, and it will contain recommendations to increase fees to eliminate the disparity, including recommendations for regulatory amendments to increase program fees.

**SUBMERGED LANDS OF THE
COMMONWEALTH—LICENSES AND ANNUAL
CHARGES**

§ 105.35. Charges for use and occupation of submerged lands of this Commonwealth.

(a) Except as provided in subsections (b) and (c), the following charges apply to the granting of an easement, right-of-way, license or lease to occupy submerged lands of this Commonwealth issued under section 15 of the act (32 P. S. § 693.15) and § 105.32 (relating to projects—proper purpose):

(1) For commercial utility and other dams, water obstructions and encroachments except as listed in subsection (c), annual license charges:

(i) For areas occupied by facilities, [\$50] \$150 per tenth of an acre.

(ii) For barge fleeting and mooring areas, [\$10] \$30 per tenth of an acre.

(iii) Minimum annual charge, [\$250] \$750.

* * * * *

(b) Licenses for public service lines crossing or occupying submerged lands of this Commonwealth, issued under section 15 of the act or section 514 of The Administrative Code of 1929 (71 P. S. § 194) are subject to the following schedule of annual charges:

<i>Length of Crossings (in feet)</i>	<i>Charges (in dollars)</i>
Less than 500	[\$250] 750
500 to 999	[500] 1,500
1000 to 1499	[1000] 3,000
1500 to 1999	[1500] 4,500
2000 to 2499	[2000] 6,000
2500 to 2999	[2500] 7,500
3000 to 3499	[3000] 9,000
3500 to 3999	[3500] 10,500
4000 to 4499	[4000] 12,000
4500 to 4999	[4500] 13,500
5000 and over	[5000] 15,000

* * * * *

**Subchapter B. DAMS AND RESERVOIRS
OPERATION, MAINTENANCE AND EMERGENCIES**

§ 105.131a. Annual dam registration.

This chapter establishes annual dam registration fees according to § 105.13(c)(viii) (relating to regulated activities—information and fees) for the Department’s administration of the act.

Subchapter L. GENERAL PERMITS

§ 105.444. Contents of general permits.

Each general permit issued by the Department will include, but not be limited to, the following contents:

* * * * *

(5) A specification of registration requirements if any, established under § 105.447 (relating to registration requirements) **and registration or general permit fees established under § 105.13 (relating to regulated activities—information and fees).**

§ 105.448. Determination of applicability of a general permit.

* * * * *

(b) A request for a determination of the applicability of a general permit may not be considered a permit application for purposes of this chapter[, **and no application fee will be charged**].

(c) **A project requiring registration under § 105.447 (relating to registration requirements) may be charged an application fee as set forth in the general permit governing each category of dam, water obstruction or encroachment.**

NOTICES

DEPARTMENT OF AGRICULTURE

Dog Law Grant Program Fiscal Year 2012-2013

The Department of Agriculture (Department) gives notice that the Dog Law Grant Program (Program) that will run this year will run from July 1, 2012, through June 30, 2013, and will award up to \$250,000 in grants. The Program will award bill reimbursement grants to humane societies or associations for the prevention of cruelty to animals that meet the guidelines and conditions of this Program. Recipients of funds under this Program may not make any claim or request for fees under 7 Pa. Code § 25.1 (relating to general) for holding and disposing. The Program will be funded from the Dog Law Restricted Account, from funds which are hereby declared to be "surplus" funds for the limited purposes in section 1002(b) of the Dog Law (3 P. S. § 459-1002(b)).

The Department hereby gives notice that although it proposes the Program for Fiscal Year (FY) 2012-2013, there will not likely be a similar program after June 30, 2013. Humane societies or associations for the prevention of cruelty to animals are hereby provided notice of this fact and—for budgeting and financial planning purposes—should proceed with the knowledge that the Department will not likely be offering a similar version of the Program after June 30, 2013, or, at best, will be offering a significantly scaled-back version of the Program.

In fulfillment of 7 Pa. Code § 23.4 (relating to guidelines and conditions), the Department invites public and legislative review of the proposed guidelines and conditions set forth as follows. Commentators should submit their comments, in writing, so they are received by the Department no later than February 27, 2012—30 days from the date the proposed guidelines and conditions are published in the *Pennsylvania Bulletin*. Comments should be directed to Lynn Diehl, Director, Dog Law Enforcement Office, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408.

The Department will review and consider all written comments in preparing the final guidelines and conditions for the Program. The final guidelines and conditions for the Program will be published in the *Pennsylvania Bulletin* after the close of the comment period referenced. The Department will invite the submission of grant applications at that time.

The proposed guidelines and conditions for the Program are as follows.

Proposed Guidelines and Conditions for the Fiscal Year 2012-2013 Dog Law Grant Program

1. *Definitions.*

The following words and terms, when used in these guidelines and conditions, have the following meanings:

Department—The Department of Agriculture.

Dog control—The apprehending, holding and disposing of stray or unwanted dogs, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Eligible Bill—A document seeking payment for materials, services (other than veterinary services and spaying/neutering services) or utilities from a grant recipient, setting forth the following:

i. The date the document is issued.

ii. The name and address of the humane society or association for the prevention of cruelty to animals to which the bill is issued.

iii. If for materials, a description of the materials and the date of delivery. Invoices and/or receipts for materials must set forth or be accompanied by a written description of the intended use of the material and the date the material is used. Materials may not include computers, computer equipment or software. Examples of eligible materials include the following:

- Cleaning supplies;
- Office supplies—typical supplies used to carry on daily office duties;
- Materials for building and repair projects; and
- Purchases of medication, needles, and the like.

iv. If for services, the services must be other than veterinary services or spaying/neutering services, and shall include a description of the nature of the services and the dates upon which the services were rendered. Examples of services include the following:

- Labor charges with respect to which the invoice details the exact service performed and the date of performance;
- Cremation services with respect to which the invoice either verifies that only dogs were cremated or—in the event that animals other than dogs were cremated—separates the dogs from those other animals and identifies a charge attributable to only the cremation of the dogs.
- Exterminator services with respect to which the invoice identifies the date of the service and identifies location of the service.

○ Property, casualty and liability insurance services (excluding workers compensation insurance).

v. If for utilities (such as electricity, water, sewer, waste disposal and similar purposes), a statement of the period for which the utility, for which payment is sought, was provided.

vi. The name, address and telephone number of the entity issuing the invoice or receipt.

Humane society or association for the prevention of cruelty to animals (SPCA)—A nonprofit society or association duly incorporated under 15 Pa.C.S. Chapter 53, Subchapter A (relating to incorporation generally) for the purpose of prevention of cruelty to animals, or as otherwise defined in the Dog Law (3 P. S. § 459-102).

Program—The July 1, 2012, through June 30, 2013, Dog Law Grant Program.

2. *Eligibility.*

A humane society or association for the prevention of cruelty to animals is eligible to apply to receive a grant under the Program if that humane society or association for the prevention of cruelty to animals:

a. Has been in operation for at least 1 year immediately preceding the application date.

b. Has performed dog control functions for at least 1 year immediately preceding the application date.

c. Has, in the performance of its dog control functions, accepted at least 100 stray or unwanted dogs into its facility within the year immediately preceding the application date.

d. Agrees—as a condition of receiving any grant money under the Program—to continue to perform dog control activities and to accept stray or unwanted dogs from the Department’s State Dog Wardens performing dog control functions, through June 30, 2013.

e. Agrees—as a condition of receiving any grant money under the Program—to accept stray or unwanted dogs as described in the preceding paragraph without regard to whether the stray or unwanted dog originates from a county other than the county in which the humane society or association for the prevention of cruelty to animals is located.

f. Maintains a valid Pennsylvania 2012 and 2013 “Non Profit” kennel license, and operates only a nonprofit kennel at the facility for which grant reimbursement is requested. Facilities which house kennel operations other than a nonprofit facility (that is, boarding kennel and/or commercial kennel) at the same location are not eligible to participate in this program.

3. Use of Grant Funds.

The Department will allocate a specific maximum grant amount to a successful grant applicant through a written grant agreement. This maximum grant amount will be specified in the grant agreement.

The maximum grant amount will be retained by the Department and used to reimburse the grant recipient for eligible bills the grant recipient has paid with respect to materials, services or utilities provided to the grant recipient from July 1, 2012, through June 30, 2013. The total reimbursement the Department will pay a grant recipient will not exceed the maximum grant amount. Any money remaining in a grant allocation beyond the termination date of the grant agreement will lapse into the Dog Law Restricted Account. If a bill covers materials, services or utilities provided, in whole or in part, before July 1, 2012, or after June 30, 2013, that bill is not an eligible bill and will not be reimbursed by the Department under the Program.

4. Application Process.

a. *Application required.* A humane society or association for the prevention of cruelty to animals seeking a grant under the Program must complete a written application form and deliver it to the Department no later than 30 days from the date this notice is published in the *Pennsylvania Bulletin*. Applications received by the Department beyond that date will not be considered.

b. *Obtaining an application form.* The Department will provide grant application forms upon request, or the application may be downloaded from the Department’s web site: www.agriculture.state.pa.us.

Requests for application forms should be directed to Lynn Diehl, Director, Dog Law Enforcement Office, Department of Agriculture, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 787-4833, fax (717) 772-4352.

c. *Contents of grant application form.* A grant application form shall require the following information:

i. The name and address of the applicant.

ii. Information to verify that the applicant is a humane society or association for the prevention of cruelty to animals and otherwise meets the eligibility requirements set forth in paragraph 2.

iii. The maximum grant amount sought by the applicant.

iv. A description of the eligible bills for which the grant applicant intends to seek reimbursement, including a description (and copies, if available) of bills received by the applicant in 2011 for the same type of materials, services (other than veterinary services and spaying/neutering services) or utilities for which reimbursement will be sought under the grant agreement.

v. Verification that, in the event a grant is awarded, the applicant will continue to perform dog control activities, and to accept stray or unwanted dogs from the Department’s State Dog Wardens performing dog control functions, through the FY 2012-2013.

vi. Other information as the Department might reasonably require.

5. Review and approval of grant application.

a. *Review and notification.* The Department will review each timely grant application and provide the applicant written notification of whether the Department awards the grant, denies the grant or awards a grant in some amount less than the applicant sought.

b. *Review criteria.* The Department will consider the following, among other factors, in determining whether to award a grant application:

i. The number of applications received and the availability of funds for the grants sought.

ii. The relative contribution of the applicant to dog control activities in the area it serves.

iii. The relative contribution of the applicant to dog control as compared to the relative contribution of other applicants.

iv. The relative importance of the grant to the continued operation of the applicant’s dog control facility.

v. The expense or logistical difficulty the Department would encounter if the applicant’s dog control facility was no longer in operation.

vi. The relative contribution of the applicant in terms of the number of stray or unwanted dogs it accepts from the Department’s State Dog Wardens performing dog control functions.

6. Grant agreement.

a. *Grant agreement required.* A successful grant applicant must execute a grant agreement with the Department, setting forth the terms and conditions under which the grant money will be used by the Department to reimburse the grant recipient for payment of eligible bills.

b. *Reimbursement requests.* The grant agreement will set forth the exact procedure by which a grant recipient shall seek reimbursement from the Department for payment of eligible bills. The basic reimbursement request procedure will be as follows:

By January 15, 2013, the grant recipient will: (1) deliver copies of the eligible bills it has paid between July 1, 2012, and December 31, 2012; (2) verify that these bills have been paid and are eligible for reimbursement; and

(3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 6-month period.

By July 15, 2013, the grant recipient will: (1) deliver copies of the eligible bills it has paid between January 1, 2013, and June 30, 2013; (2) verify that these bills have been paid and are eligible for reimbursement; and (3) provide a detailed report of the dog control activities performed by the successful applicant during the referenced 6-month period.

c. *Payment by the Department.* The Department will reimburse a grant recipient for eligible bills within 60 days of receiving a complete and timely reimbursement request.

d. *Termination.* The Department may terminate a grant agreement at any time by providing the grant recipient written notice of termination at the address set forth on the grant application.

Holding and Humane Disposition of Stray Unlicensed Dogs

The Department of Agriculture (Department) gives notice that, effective April 1, 2012, it shall decrease the amount it reimburses legally constituted law enforcement agencies that maintain compounds for the humane disposition of stray unlicensed dogs apprehended running at large. The current reimbursement amount is \$30 per dog. As of April 1, 2012, the reimbursement amount for the care and disposal of stray unlicensed dogs at these facilities shall decrease to \$25 per dog. No other fee will be paid by the Department for the care and disposal of stray unlicensed dogs with respect to which this \$25 per dog sum is accepted.

This reimbursement is authorized under 7 Pa. Code § 25.1 (relating to general), which allows the Secretary of the Department to determine an appropriate reimbursement amount (over \$5) on a funds-available basis. The reimbursement payments will be funded from the Dog Law Restricted Account, from funds which are hereby declared to be “surplus” funds for the limited purposes in section 1002(b) of the Dog Law (3 P.S. § 459-1002(b)).

The referenced \$25 per dog payments shall be applicable to dogs apprehended on or after April 1, 2012, and will continue on a funds-available basis until further notice.

Temporary Order Designating Dangerous Transmissible Diseases

The Department of Agriculture (Department) issues a temporary order designating Chronic Wasting Disease (CWD), Spring Viremia of Carp (SVC), Viral Hemorrhagic

Septicemia (VHS), Lymphocitic Choriomeningitis Virus (LCMV) and the neurologic form of Equine Rhinopneumonitis or Equine Herpes Virus (EHV-1) as “dangerous transmissible diseases.” These designations are made under the authority of 3 Pa.C.S. §§ 2301—2389 (relating to the Domestic Animal Law).

This temporary order is the successor to a previous temporary order with respect to these same diseases, as published at 40 Pa.B. 7109 (December 11, 2010), that made the same dangerous transmissible disease designations. This previous temporary order will expire as of January 1, 2013.

Under 3 Pa.C.S. § 2327(a) (relating to disease surveillance and detection), the Department has authority to monitor the domestic animal population of this Commonwealth to determine the prevalence, incidence and location of transmissible diseases of animals. Under 3 Pa.C.S. § 2321(d) (relating to dangerous transmissible diseases), the Department has authority to declare a disease that has not been specifically identified in that statute as a “dangerous transmissible disease” to be a dangerous transmissible disease through issuance of a temporary order making that designation.

1. CWD

CWD is a disease of whitetail deer, elk and other cervids and is a member of the group of diseases known as transmissible spongiform encephalopathies (TSEs). Other more well-known TSEs are scrapie and bovine spongiform encephalopathy (BSE) or “mad cow” disease. All are thought to be caused by a protein that has converted to an abnormal infectious form known as a “prion.” There is some evidence, in the case of BSE, that humans may become infected through consumption of meat products containing central nervous system tissues, thus there is a significant public health interest concerning all TSEs.

A number of states have, in recent years, instituted import regulations requiring that cervids entering those states: (1) originate from herds that are participating in a surveillance program; and (2) originate from states that have authority to take action in the event that CWD is diagnosed. The designation of CWD as a “dangerous transmissible disease” will facilitate the development and oversight of a surveillance program and will help the Department react and take action in the event CWD is detected.

2. SVC

SVC is caused by a ribonucleic acid virus known as *Rhabdovirus carpio* and is considered an emerging disease in the United States. SVC poses a threat to both domestic fish health and wild fish health in this Commonwealth and has the potential to create a significant adverse economic impact on this Commonwealth’s aquaculture industry.

The SVC virus readily infects species of the *Cyprinidae* family (carp and minnows) and spreads through direct contact with infected fish and through shared infected water sources. Symptoms typically appear in the spring time as water temperatures increase. Symptoms in infected fish range from undetectable through mild disease to sudden massive die-off.

There is no specific treatment for fish infected with SVC and no vaccine to prevent the disease. Once natural water resources become infected, SVC may be impossible to eradicate and may pose a permanent threat to aquaculture facilities utilizing those water sources.

3. *VHS*

VHS virus is a serious pathogen of fresh and saltwater fish that is causing an emerging disease in the Great Lakes region of the United States and Canada. VHS virus is a rhabdovirus (rod shaped virus) that affects fish of all size and age ranges. It does not pose any threat to human health. VHS can cause hemorrhaging of fish tissue, including internal organs, and can cause the death of infected fish. Once a fish is infected with VHS, there is no known cure. Not all infected fish develop the disease, but they can carry and spread the disease to other fish. The World Organization of Animal Health has categorized VHS as a transmissible disease with the potential for profound socio-economic consequences.

4. *LCMV*

LCMV is known to cause potentially fatal disease in humans and is capable of being spread by various rodent species. From time to time, outbreaks have occurred in the United States—necessitating swift investigation and disease containment strategies in order to protect human health.

5. *Neurologic Form of EHV-1*

EHV-1 is a highly contagious virus that is ubiquitous in horse populations worldwide. The age, seasonal and geographic distributions vary and are likely determined by immune status and concentration of horses. Infection with EHV-1 most commonly causes respiratory illness, characterized by fever, rhinopharyngitis and tracheobronchitis. Infection may also cause abortions in pregnant mares, following clinical or subclinical infection and can be fatal to newborn foals. A further, infrequent clinical resultant effect of EHV-1 infection is the development of neurologic disease. Depending upon the location and extent of the lesions, signs of neurologic disease may vary from mild in coordination and posterior paresis to severe posterior paralysis with recumbency, loss of bladder and tail function and loss of sensation to the skin in the perineal and inguinal areas and even the hindlimbs. In

exceptional cases, the paralysis may be progressive and culminate in quadriplegia and death.

Transmission of EHV-1 occurs by direct or indirect contact with infective nasal discharges, aborted fetuses, placentas or placental fluids. Transmission can occur by means of coughing or sneezing over a distance of up to 35 feet, as well as by direct contact with infected horses, feed and equipment.

There is currently no known method to reliably prevent the neurologic form of EHV-1 infection. Sound management practices, including isolation, are important to reduce the risk of infection with EHV-1. Maintaining appropriate vaccination protocols may also be prudent in an attempt to reduce the incidence of the respiratory form of EHV-1 infection, which may reduce the incidence of the neurologic form.

Order

The Department designates West Nile Encephalitis, CWD, SVC, VHS, LCMV and EHV-1 “dangerous transmissible diseases” under 3 Pa.C.S. § 2321(d). This order supplants any previous temporary order making a designation.

This order shall take effect as of January 1, 2012, and shall remain in effect until no later than January 1, 2013. This Department may: (1) reissue this temporary order to extend the designation beyond January 1, 2013; (2) allow this temporary order to expire on January 1, 2013; (3) supplant this temporary order with a formal regulation; or (4) modify this temporary order.

Questions regarding this temporary order may be directed to Craig Shultz, DVM, Director, Bureau of Animal Health and Diagnostic Services, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 772-2852.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of February 2012

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of February, 2012, is 4 3/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which

the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.33 to which was added 2.50 percentage points for a total of 4.83 that by law is rounded off to the nearest quarter at 4 3/4%.

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, actions and special notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications concern, but are not limited to, discharges regarding industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFO). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Waste; Discharge into Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on WQM permit applications are invited to submit statements to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be

published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Application No. PA0261726, Concentrated Animal Feeding Operation (CAFO), Lester Martin, 415 East Old York Road, Carlisle, Pa. 17015.

Lester Martin has submitted an application for an Individual NPDES permit for a proposed CAFO known as Lester Martin Duck Operation, located at 415 East Old York Road, Carlisle, Pa. 17015 in South Middleton Township, **Cumberland County**.

The CAFO is situated near an unnamed tributary of the Yellow Breeches Creek in Watershed 7-E, which is classified for HQ-CWF. The CAFO will be designed to maintain an animal population of approximately 131.57 animal equivalent units (AEUs) consisting of 38,000 ducks. Manure will be collected and stored in an earthen HDPE-lined lagoon. Prior to operation of the manure storage facilities, the design engineer will be required to submit certification that the facilities were constructed in accordance with appropriate PA Technical Guide Standards. A release or discharge to waters of the Commonwealth under normal operating conditions is not expected. Normal operating conditions are defined as conditions below a 100-year, 24-hour storm event.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

The permit application and draft permit are on file at the Southcentral Regional Office of the Department. You may make an appointment to review the files by calling the File Review Coordinator at 717.705.4732. The Environmental Protection Agency (EPA) permit waiver provision under 40 CFR 123.24(e) does not apply to this NPDES permit.

III. WQM Industrial Waste and Sewerage Applications under The Clean Streams Law

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790

WQM Permit No. 3512401, Sewerage, **Lackawanna College**, 501 Vine St., Scranton, PA 18509.

This proposed facility is located in Covington Twp., **Lackawanna County**, PA.

Description of Proposed Action/Activity: This Project involves construction of a small flow sewage treatment system consisting of a septic tank, flow equalization, a greenhouse treatment system, ultraviolet disinfection and reuse of treated effluent for toilet flushing.

WQM Permit No. 4812401, Sewerage, **Borough of Glendon**, 24 Franklin Street, Glendon PA 18042.

This proposed facility is located in Glendon Boro., **Northampton County**, PA.

Description of Proposed Action/Activity: This Project involves construction of a sewer extension to serve approximately 25 existing dwelling along Main Street. The sewer consists of approximately 1400 lineal feet of gravity sewer, a pump station and a force main.

WQM Permit No. 1311401, Sewerage, **Tuthill Corporation dba Blue Mountain Ski Area**, PO Box 216, Palmerton PA.

This proposed facility is located in Lower Towamensing Twp., **Carbon County**, PA.

Description of Proposed Action/Activity: This Project involves installation of additional facilities at the existing Blue Mountain Ski Area to increase the capacity of the existing sewage treatment facility from 0.060 MGD to 0.300 MGD.

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. Phone: 717-705-4707.

WQM Permit No. 2112401, Sewerage, **William and Laura Lee Kauffman**, 110 Union Hall Road, Carlisle, PA 17013-8391.

This proposed facility is located in North Middleton Township, **Cumberland County**.

Description of Proposed Action/Activity: Seeking permit approval for the construction/operation of a small flow treatment system to serve their existing single family residence.

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701

WQM Permit No. 4910403, Sewerage [SIC 4952], PO Box 80, Dewart, PA 17730-0080

This proposed facility is located in Delaware Township, Watsontown Borough and Milton Borough, **Northumberland County**.

Description of Proposed Action/Activity: Value engineering conducted after the issuance of WQM Permit No. 4910403 for the Northern Neighbors Sewer Improvement Project requires an amendment to the permit. The changes include: replacement of the proposed Fredericks Drive Pump Station with a low pressure sewer extension, decreases in pipe diameter of the proposed Dewart Main Pump Station and Watsontown Main Pump Station force mains and changes to the design of the Watsontown Main Pump Station.

Southwest Region: Clean Water Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745

WQM Permit No. 6312401, Sewerage, **Live Nation Pittsburgh**, 665 Route PA 18, Burgettstown, PA 15021

This proposed facility is located in Hanover Township, **Washington County**

Description of Proposed Action/Activity: Application for the construction and operation of a pump station.

WQM Permit No. WQG026134, Sewerage, **Hempfield Township Municipal Authority**, 1146 Woodward Drive, Greensburg, PA 15601

This proposed facility is located in Hempfield Township, **Westmoreland County**

Description of Proposed Action/Activity: Application for the construction and operation of a sewer system.

STATE CONSERVATION COMMISSION

NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

The State Conservation Commission has taken the following actions on previously received applications for nutrient management plans under 3 Pa.C.S. Chapter 5, for agricultural operations that have or anticipate submitting applications for new, amended or renewed NPDES permits or NOIs for coverage under a general permit for CAFOs under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Persons aggrieved by an action may appeal under 3 Pa.C.S. § 517, section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge actions, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for PWS permits to construct or substantially modify public water systems.

Persons wishing to comment on permit applications are invited to submit statements to the office listed before the application within 30 days of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding an application. A comment should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and related documents are on file at the office listed before the application and available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability that require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific

standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745

Contact: M. Gorog & B. Hatch, Environmental Engineer Managers—Telephone: 412-442-4163/5226

56-00181C: Southern Alleghenies Landfill, Inc. (843 Miller Picking Road, Davidsville, PA 15928) to deactivate the 4,000 cubic feet per minute cfm McGill enclosed flare and operate the 3,500 cfm Parnell enclosed flare as the primary flare at the Conemaugh Township Landfill in Conemaugh Township, **Somerset County**.

04-00718: Three Rivers Aggregates, LLC (SR 351, New Galilee, PA 16141) for a portable crusher, a diesel generator for power, and processing sand and gravel at the Palmer Sand and Gravel Plant in Darlington Township, **Beaver County**.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401

Contact: Sachin Shankar, New Source Review Chief—Telephone: 484-250-5920

09-0219: Premium Excavating, LLC (18 Steel Road West, Morrisville, PA 19067) for the installation of a nonmetallic crushing plant to process construction wash-out material (concrete waste) from concrete delivery trucks located in Falls Township, **Bucks**. The Plan Approval will contain all applicable requirements including monitoring, recordkeeping and reporting designed to keep the facility operating within all applicable air quality requirements.

46-0108C: Highway Materials, Inc. (1128 Crusher Road, Perkiomenville, PA 18074) for installation of a secondary crusher and baghouse at their Perkiomenville Quarry in Marlborough Township, **Bucks County**. The crusher replaces an existing secondary crusher and will be electrically powered. This replacement will not cause the facility to exceed any major source thresholds and the facility will continue to maintain its synthetic minor operating status. The Plan Approval will contain recordkeeping and operating restrictions designed to keep the facility operating within the allowable emissions and all applicable air quality requirements.

09-0184: Doylestown Hospital (595 West State Street, Doylestown, PA 18901) for the installation of a Selective Catalytic Reduction (SCR) system and Oxidation Catalyst to an existing natural-gas fired electric generator located in Doylestown Township, **Bucks County**. The facility has proposed to increase the use of this generator up to a maximum of 5,500 hours per year for peak shaving purposes. This project will not cause the facility to exceed any major source thresholds and the facility will continue to maintain its synthetic minor operating status. The Plan Approval will contain recordkeeping and operating restrictions designed to keep the facility operating within the allowable emissions and all applicable air quality requirements.

46-0274A: Tegrant Diversified Brands, Inc. (161 Corporate Drive, Montgomeryville, PA 18936) for modification of an insulated shipping container manufacturing operation in Montgomery Township, **Montgomery County**. Tegrant Diversified Brands is a minor facility. The manufacturing process is a closed mold, rigid polyurethane foam molding operation which uses materials containing Volatile Organic Compounds. The modification consists of: switching to a different manufacturer of the raw materials (polyol resin and isocyanate), increase the amount of raw materials currently used, and to replace the mixing/injection equipment used to blend and inject the foam into the molds. Tegrant is requesting the increase of raw material usage because of future expected growth. Therefore, the company is also requesting an increase to the facility volatile organic emission limit from 6.5 tons per year (tpy) to 8.0 tpy. Best Available Technology (BAT) is applicable for this modification. BAT for this modification will be: reduction of clean up solvent used, more efficient injection equipment, and good house-keeping practices. The Plan Approval will include work practice standards, monitoring, and recordkeeping requirements designed to keep the facility operating within all applicable air quality requirements.

06-05077A: Can Corp. of America (326 June Ave., PO Box 170, Blandon, PA 19510) for installing a metal sheet coater at their Blandon Plant in Maidencreek Township, **Berks County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to the abovementioned company for the abovementioned project. This plan approval may be incorporated into the company's facility-wide permit via an administrative amendment at a later date.

Plan Approval 06-05077A is for installing a metal sheet coater controlled by an oxidizer. The company shall be subject to and comply with Best Available Technology (BAT) requirements of 25 Pa. Code § 127.12(a)(5). The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements. The expected air emissions from the proposed project are a maximum of 6.6 tons per year of VOC.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed plan approval, or may provide the Department with additional information to consider in its review, by filing a written protest with the Department at the address listed above. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.
- Identification of the proposed permit by the permit number listed above.
- A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the *Pennsylvania Bulletin*, will exist for the submission of comments or protests.

Mr. Thomas Hanlon, P.E., Facility Permitting Chief, may be contacted at 717-705-4862, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

Plan approvals issued to sources identified in 25 Pa. Code § 127.44(b)(1)—(4) or plan approvals issued to sources with limitations on the potential to emit may become part of the SIP, and will be submitted to EPA for review and approval.

28-05045A: PPL Renewable Energy, LLC (Two North Ninth Street, Allentown, PA 18101) for construction of a landfill gas treatment system, four (4) landfill gas-fired reciprocating internal combustion engines (RICEs) and associated four (4) electric generators, and an enclosed ground flare at its new Blue Ridge Renewable Energy Plant in Greene Township, **Franklin County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received an application and intends to issue a Plan Approval to the above-mentioned company for the above-mentioned project. This plan approval will be incorporated into the company's new Title V Operating Permit at a later date.

Plan Approval No. 28-05045A authorizes the construction of the abovementioned sources. The four (4) landfill gas-fired RICEs will be subject to 40 CFR Part 60, Subpart JJJJ—Standards of Performance for Stationary Spark Ignition Internal Combustion Engines and 40 CFR Part 63, Subpart ZZZZ—National Emission Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines. The Plan Approval and Title V Operating Permit will contain emission restrictions, work practice standards, and testing, monitoring, record keeping, and reporting requirements to ensure the facility complies with the applicable air quality requirements. Potential CO emissions from the proposed sources will be capped at 249.9 TPY in order to avoid Prevention of Significant Deterioration (PSD) applicability. The proposed sources will also have the following potential emissions: 95.3 TPY NO_x; 92.9 TPY PM₁₀; 91.0 TPY SO_x; 48.7 TPY VOC; 31.0 TPY formaldehyde; 36.4 TPY total HAPS; and 7,548.6 TPY CO_{2e}.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the PA DEP Southcentral Regional Office, at 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed plan approval, or may provide the Department with additional information to consider in its review, by filing a written protest with the Department at the address listed above. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.
- Identification of the proposed permit by the permit number listed above.
- A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the *Pennsylvania Bulletin*, will exist for the submission of comments or protests.

Daniel C. Husted, P.E., New Source Review Chief, may be contacted at 717-705-4863, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

Plan approvals issued to sources identified in 25 Pa. Code § 127.44(b)(1)—(4) or plan approvals issued to sources with limitations on the potential to emit may become part of the SIP, and will be submitted to EPA for review and approval.

18-00032A: PVS Chloralkali, Inc. (10900 Harper Avenue, Detroit, MI 48213) for a plan approval to install a packed bed scrubber to control the air contaminant emissions from the hydrochloric acid transloading operation at their facility in Castanea Township, **Clinton County**. The respective facility is a state only (natural minor) facility for which a state only operating permit has not been issued.

The Department's review of the information submitted by PVS Chloralkali, Inc. indicates that installation of the scrubber will meet all applicable air quality regulatory requirements pertaining to air contamination sources and the emission of air contaminants. Based on these find-

ings, the Department intends to issue a plan approval for the installation of the scrubber. Additionally, if the Department determines the scrubber is operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into a state only (natural minor) operating permit.

The following is a summary of the conditions that the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable regulatory requirements:

1. No more than 10,400,000 gallons of hydrochloric acid shall be transferred from railcars to tanker trucks at this facility in any 12 consecutive month period.

2. The emission of hydrochloric acid from the transloading operation shall not exceed 0.08 tons in any 12 consecutive month period.

3. Hydrochloric acid shall not be transferred from railcars to tanker trucks without the simultaneous operation of the packed bed scrubber.

4. The packed bed scrubber shall be equipped with instrumentation to continuously monitor the differential pressure across the packing bed, the flow rate of the recirculating scrubbing solution and the conductivity of the scrubbing solution.

5. The recirculation flow rate of the packed bed scrubber shall be maintained at or above 10.8 gallons per minute and the hydrochloric acid concentration of the scrubbing solution shall not exceed 4%, by weight, whenever railcars and/or tanker trucks are being vented to the scrubber.

6. A rubber-lined, conical loading spout, or a loading spout assembly referred to a "mexican hat," shall be used to capture the hydrochloric acid emissions from tanker trucks whenever the hydrochloric acid is top-loaded via the tanker's loading hatch.

7. The permittee shall maintain accurate and comprehensive records of the amount of hydrochloric acid transferred from railcars to tanker trucks during each month and the amount of hydrochloric acid emitted each month for the previous 12 consecutive month period. These records shall be submitted to the Department on an annual basis.

A copy of the plan approval application is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at 570-327-3693. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Environmental Program Manager, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, 570-327-3648.

03-00253: Western Allegheny Energy, LLC (301 Market Street, Kittanning, PA 16201) for construction and initial temporary operation of a coal preparation plant rated for an annual throughput of 800,000 tons of coal at the Parkwood Mine Coal Preparation Plant in Plumcreek Township, **Armstrong County**.

In accordance with 25 Pa. Code § 127.44—127.46 the Department of Environmental Protection (DEP) intends

to issue Air Quality Plan Approval: PA-03-00253 to allow the construction and initial temporary operation of a coal preparation plant rated for an annual throughput of 800,000 tons of coal at the Parkwood Mine Coal Preparation Plant located in Plumcreek Township, Armstrong County. The facility will consist of a double deck screen controlled by water sprays, conveyers, stackers, stockpiles, truck loadout, and an emergency diesel generator.

Potential emissions from the facility are estimated to be 1.25 tons of nitrogen oxides (NO_x), 0.15 tons of carbon monoxide (CO), 20.21 tons of particulate matter (PM) and 5.35 tons of particulate matter less than 10 microns in diameter (PM₁₀) per year. Best available technology (BAT) for the proposed sources will include but is not limited to the use of a water sprays on all transfer points; paving, sweeping and watering of roadways; enclosures and covers at transfer points; use of stackers for coal stockpiles; maintaining a coal moisture content greater than or equal to 5%; use of existing wind barriers; use of a water truck with pressurized spray gun; tarping of all loaded trucks and a posted notice of tarping requirement; upwind/downwind dustfall monitoring at the request of the Department; and a posted speed limit of 15 mph on all in plant roads.

The authorization is subject to State regulations and Federal New Source Performance Standards (NSPS) including 40 CFR Part 60 Subparts Y and III. Plan Approval has been conditioned to ensure compliance with all applicable rules. This includes work practice, monitoring, recordkeeping, and reporting conditions. Once all compliance with the Plan Approval is demonstrated, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F.

Those who wish to provide the Department with additional written information that they believe should be considered prior to the issuance of the Plan Approval may submit the information to Alexander Sandy, Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA, 15222. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed Plan Approval (PA-03-00253).

Concise statements regarding the relevancy of the information or objections to issuance of the Plan Approval.

All comments must be received prior to the close of business 30 days after the date of this publication.

For additional information you may contact Alexander Sandy at 412-442-4028.

32-00059E: GenOn Northeast Management Co. (121 Champion Way, Suite 200, Canonsburg, PA 15317) to allow construction and initial operation of selective catalytic reduction (SCR) systems and associated support equipment to control NO_x emissions at the Conemaugh Power Plant located in West Wheatfield Township, **Indiana County**.

Notice is hereby given in accordance with 25 PA Code §§ 127.44—127.46 that the Department of Environmental Protection (DEP) intends to issue Air Quality Plan Approval: PA-32-00059E to allow the construction and initial operation of selective catalytic reduction (SCR) systems and associated support equipment to control NO_x emis-

sions at the Conemaugh Power Plant located in West Wheatfield Township, Indiana County.

SCR systems are to be installed downstream from the economizer and upstream from the airheater in the Boiler Units 1 and 2 exhaust streams. SCR may employ 29% aqueous ammonia injection in controlling NOx emissions. New air contamination sources proposed at the facility include one limestone and two hydrated lime storage silos. Fugitive emissions are also expected from aqueous ammonia, limestone, and hydrated lime deliveries to the plant and fly ash disposal. Best available technology (BAT) for the proposed sources includes pneumatic (enclosed) loading of the silos and installation of bin vent filters on the silos. Existing vehicle and roadway emission reduction practices will remain in effect at the facility. This authorization is subject to state regulations including 25 Pa. Code §§ 123.1, 123.2 and 123.31. Opacity and fugitive emission limits; testing, monitoring, recordkeeping, and reporting requirements; and work practice standards are included for the SCR systems and storage silos.

Potential emissions from the SCR system installation are calculated to be 20.20 tons of particulate matter (PM), 7.60 tons of particulate matter less than 10 microns (PM), and 1.06 tons of particulate matter less than 2.5 microns (PM_{2.5}) per year. Once compliance with the Plan Approval is demonstrated, the applicant will subsequently submit a TVOP administrative amendment application in accordance with 25 Pa. Code Subchapters F and G.

Interested persons may submit written comments, suggestions or objections concerning the proposed Plan Approval to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed Plan Approval (PA-32-00059E).

Concise statements regarding the relevancy of the information or objections to issuance of the Plan Approval.

A public hearing may be held if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such a notification is sufficient. Written comments or requests for a public hearing should be directed to Alan Binder, Air Quality, 400 Waterfront Drive, Pittsburgh, PA 15222. For additional information you may contact Alan Binder at 412-442-4168.

AMS 11375: Philadelphia Marriott (1201 Market Street, Philadelphia, PA 19107) for the operation of existing two (2) 500 HP boilers firing natural gas and #2 fuel oil, one (1) 1200 kW emergency generator, one (1) 300 kW emergency generator, and one (1) 182 HP fire pump. Each emergency generator and fire pump is limit to 500 hrs of operation. The operations of the emergency generators are limited to emergency, testing, and tuning. The facility will be restricted to 25 ton per year of NOx

emissions to qualify as Synthetic Minor. The plan approval will contain operating, testing, monitoring, and recordkeeping requirements to ensure operation within all applicable requirements.

AMS 11243: Philadelphia International Airport (8800 Essington Avenue, Philadelphia, PA 19153) for the operation of existing emergency and non-emergency generators. Emergency generators include one (1) 100 kW Cummins diesel fired generator, two (2) 80 kW Winco diesel fired generators, one (1) 275 kW Marathon diesel fired generator, and one (1) 350 kW Marathon diesel fired generator. Non-emergency generators include one (1) 320 kW Caterpillar diesel fired generator and one (1) 350 kW Marathon diesel fired generator. Each emergency and non emergency generator is limit to 500 hrs of operation. The operations of the emergency generators are limited to emergency, testing, and tuning. The generators are subject to area source MACT Subpart ZZZZ with compliance date of May 3, 2013. There will be a potential emission increase of 5.73 tons for Nitrogen Oxides (NOx) for the facility. The plan approval will contain operating, testing, monitoring, and recordkeeping requirements to ensure operation within all applicable requirements.

AMS 11031: SEPTA—Southern Bus Facility (20th & Johnson Street, Philadelphia, PA 19145) for installing two (2) each 8.4 MMBTU/hr, and two (2) each 8.66 MMBTU/hr boilers firing 32 and Natural gas, Stage 2 Vapor Recovery Unit, a paint booth, Parts washer, and Pressure Washer. There will be a potential emission increase of 22 tons of Nitrogen Oxides (NOx) and 30 tons of (SOx) Sulfur Oxide per year for the facility. The plan approval will contain operating, monitoring and recordkeeping requirements to ensure operation within all applicable requirements.

AMS 11031: SEPTA—Wayne Junction Car House (4500 Germantown Ave. Philadelphia, PA 19141) for installing two (2) each 2.51 MMBTU/hr, one (1) 2.05 MMBTU/hr boilers firing No. 2 and Natural gas, and a .60MMBTU/hr space heater, a Spray can paint booth, Parts washer, and Pressure Washer, There will be a potential emission increase of 5.29 tons of Nitrogen Oxides (NOx) and 7.5 tons of (SOx) Sulfur Oxide per year for the facility. The plan approval will contain operating, monitoring and recordkeeping requirements to ensure operation within all applicable requirements.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

46-00011: ArcelorMittal Plate, LLC (900 Conshohocken Stare Road, Conshohocken, PA 19428) for renewal of the Title V Operating Permit in Plymouth Township, **Montgomery County**. The initial permit was issued on 7-5-2001 and was subsequently renewed on 6/8/2001. The facility use quenching and tempering heat treatment processes to increase the strength and hardness of steel plate, which is used as the protective skins on military vehicles and other many non-military application. As a result of potential emissions of NOx, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments, and is therefore subject to the Title V permitting requirements adopted in 25

Pa. Code Chapter 127, Subchapter G. The proposed Title V Operating Permit renewal does not reflect any change in air emissions from the facility. The facility is subject to Compliance Assurance Monitoring (CAM) pursuant to 40 CFR Part 64.

The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

46-00041: Graphic Packaging International, Inc. (1035 Longford Road, Phoenixville, PA 19460) for renewal of the Title V Operating Permit in Upper Providence Township, **Montgomery County**. The current permit will expire on March 13, 2012. The facility's major emission points include printing presses containing Volatile Organic Compounds (VOCs). The facility is an area source for Hazardous Air Pollutants (HAP). There are no new sources at this facility; however, new source IDs have been added to the permit in order to address applicable regulations for existing sources. Source ID 741 has been added to Section A (Site Inventory) and D (Source Level) to include the applicable presumptive RACT requirements and the applicable requirements of 40 CFR Part 63 Subpart ZZZZ. Source ID 902 has been created in order to incorporate the applicable provisions of 25 Pa. Code § 129.63 for existing degreasing operations. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting. The sources at this facility are not subject to Compliance Assurance Monitoring (CAM) pursuant to 40 CFR Part 64 because there are no control devices on sources at this facility. The source is not a major source for Greenhouse Gases (GHG).

This is a renewal of the facility's operating permit issued in 2006, that will also incorporate the requirements from plan approval number 36-05136C.

In accordance with 25 Pa. Code §§ 127.424, 127.425 and 127.521, the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit for the abovementioned facility.

Actual air emissions for 2010 were 13.4 tons of NO_x, 40.8 tons of CO, 0.9 tons of SO_x, and 2.4 tons of PM₁₀. The Operating Permit will include emission limits and work practice standards along with monitoring, recordkeeping, and reporting requirements to ensure the facility complies with the applicable air quality regulations. The facility is subject to 40 CFR Part 63, Subpart ZZZZ—National Emission Standards For Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines (RICE).

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the PA DEP Southcentral Regional Office, at 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed operating permit, or may provide the Department with additional information to consider in its review, or may request a public hearing, by filing a written protest with the Department at the address listed above. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.
- Identification of the proposed permit by the permit number listed above.
- A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the *Pennsylvania Bulletin*, will exist for the submission of comments or protests.

Mr. Thomas Hanlon, P.E., Facilities Permitting Chief, may be contacted at 717-705-4862, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

Permits issued to sources identified in 25 Pa. Code § 127.44(b)(1)–(4) or permits issued to sources with limitations on the potential to emit used to avoid otherwise applicable Federal requirements may become part of the SIP, and will be submitted to the EPA for review and approval.

Equipment at this facility includes two 16.7 mmbtu/hr natural gas or No. 2 fuel oil-fired boilers, several smaller natural gas or No. 2 fuel oil-fired boilers, four emergency generators, and an ethylene oxide sterilizer. Potential emissions from the emission sources at this facility are based on burning natural gas in all boilers for 8,760 hours per year and low sulfur diesel fuel in the emergency generators for 500 hours per year. Emissions are estimated to be 29.6 tons NO_x, 1.2 tons VOCs, 18.1 tons CO, 2.2 tons particulate matter and 0.8 tons SO₂. Actual emissions from the

facility are much lower considering most of the boilers do not operate at full rated capacity. The facility is subject to the applicable requirements of Pa Code Title 25 Chapters 121 through 145. The proposed Operating Permit contains applicable emission limits, as well as testing, monitoring, recordkeeping, reporting and work practice requirements.

48-317-024: ConAgra Food Ingredients Co. (4888 South Delaware Drive, PO Box 193, Martins Creek, PA 18063) for their facility in Lower Mt. Bethel Township, **Northampton County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a) the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to ConAgra Food Ingredients Company (4888 South Delaware Drive, PO Box 193, Martins Creek, PA 18063) for their facility located in Lower Mt. Bethel Township, Northampton County. This Plan Approval No. 48-317-024 will be incorporated into a Synthetic Minor Permit through an administrative amendment at a later date.

Plan Approval No. 48-317-024 is for the installation of a new wheat receiving and storage operation. Emissions will be controlled by the use of a baghouse. The facility is subject to 40 CFR Part 60 Subpart DD. The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any person(s) wishing to provide DEP with additional information, which they believe should be considered prior to the issuance of this permit, may submit the information to the address shown in the preceding paragraph. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed permit No.: 48-317-024.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Ray Kempa, Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, Phone 570-826-2511 within 30 days after publication date.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department. A copy of the application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application and request for Section 401 water quality certification application may be submitted by any person or any officer or head of any Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. A separate notice will be provided after the draft NPDES permit is prepared.

Coal Applications Received

California District Office: 25 Technology Drive, Coal Center, PA 15423, 724-769-1100

30841316 and NPDES No. PA 0213535. Consol Pennsylvania Coal Company, LLC, (P. O. Box J, 1525 Pleasant Grove Road, Claysville, PA 15323), to renew the permit for the Bailey Mine & Prep Plant in Richhill, Aleppo, Gray and Morris Townships, **Green County** and East Finley and West Finley Townships, **Washington County** and related NPDES permit. No additional discharges. The application was considered administratively complete on January 10, 2012. Application received: October 28, 2011.

30841316. Consol Pennsylvania Coal Company, LLC, (P. O. Box J, 1525 Pleasant Grove Road, Claysville, PA 15323), to revise the permit for the Bailey Mine & Prep Plant in Richhill and Aleppo Townships, **Greene County** to change 165 underground and subsidence control plan area permit acres from development mining to longwall mining for the 19H longwall panel. The application was considered administratively complete on January 10, 2012. Application received: December 2, 2011.

30841316 and NPDES No. PA 0213535. Consol Pennsylvania Coal Company, LLC, (P. O. Box J, 1525 Pleasant Grove Road, Claysville, PA 15323) to revise the permit for the Bailey Mine & Prep Plant in Morris Township, **Greene County** and related NPDES permit to add one new outfall for the 7 North 1 Shaft and Portal. Surface Acres Proposed 52.9. Receiving stream: Patterson Creek, classified for the following use: HQ-WWF. The application was considered administratively complete on January 12, 2012. Application received: November 30, 2010.

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, 814-472-1900

56823143 and NPDES No. PA0605841. Croner, Inc., P. O. Box 260, Friedens, PA 15541, permit renewal for the continued operation and restoration of a bituminous surface mine in Quemahoning Township, **Somerset County**, affecting 202.0 acres. Receiving stream(s): unnamed tributaries to Beaverdam Creek and Beaverdam Creek classified for the following use(s): high quality—cold water fishery. The first downstream potable water supply intake from the point of discharge is Hooversville Borough Municipal Authority, Stonycreek River. Application received: December 28, 2011.

56120101 and NPDES No. PA0263397, Wilson Creek Energy, LLC, 140 West Union Street, Somerset, PA 15501, commencement, operation and restoration of a bituminous surface mine in Jenner Township, **Somerset County**, affecting 154.1 acres. Receiving stream(s): Hoffman Run classified for the following use(s): cold water fishery. The first downstream potable water supply intake from the point of discharge is Quemahoning Reservoir. This application incorporates SMP No. 56090110 and its related stream encroachment. Application received: December 20, 2011.

56940104 and NPDES No. PA0212849. Mountaineer Mining Corporation, 1010 Garret Shortcut Road, Berlin, PA 15530, permit renewal for the continued operation and restoration of a bituminous surface and auger mine in Brothersvalley Township, **Somerset County**, affecting

107.2 acres. Receiving stream(s): UTS to Tubs Run and Laurel Run classified for the following use(s): warm water fishery. There are no potable water supply intakes within 10 miles downstream. Application received: January 5, 2012.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, 570-621-3118

40020201R2. South Tamaqua Coal Pockets, Inc., (804 West Penn Pike, Tamaqua, PA 18252), renewal of an existing anthracite coal refuse reprocessing operation in Hazle Township, **Luzerne County** affecting 113.0 acres, receiving stream: Catawissa Creek, classified for the following use: cold water fishes. Application received: January 5, 2012.

Noncoal Applications Received

Knox District Mining Office: P. O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, 814-797-1191

10000305. Three Rivers Aggregates, LLC (225 North Shore Drive, Pittsburgh, PA 15212) Renewal of NPDES Permit No. PA0241792 in Worth Township, **Butler County**. Receiving streams: Black Run and unnamed tributaries to Black Run, classified for the following uses: CWF. There are no potable surface water supply intakes within 10 miles downstream. Application received: January 12, 2012.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, 570-621-3118

64122501 and NPDES Permit No. PA0225240, Tim Kohrs, (1031 Bethany Turnpike, Honesdale, PA 18431), commencement, operation and restoration of a quarry operation and NPDES Permit for discharge of treated mine drainage in Texas Township, **Wayne County** affecting 10.0 acres, receiving stream: Indian Orchard Brook, classified for the following uses: HQ-cold water fishery and migratory fishes. Application received: December 28, 2011.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*			
pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Coal NPDES Draft Permits

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the Commonwealth to certify that the involved projects will not violate the sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA, the issuance of a Dam Permit or Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment shall submit comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before an application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request

are available for inspection between 8 a.m. and 4 p.m. on working days at the office noted before the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401(a) of the FWPCA.

E65-945. Daniel Shapira, Esq. Shirley 301 Grant Street, Pittsburgh, PA 15217. ACOE Pittsburgh District. The applicant proposes to expand and maintain the pool zones of two existing ponds to increase 0.56 acres the overall surface area of each pond. The existing surface areas of pond No. 1 is 1 acre and pond No. 2 is 2.3 acres. The ponds are located on an unnamed tributary to Snyders Run (Wilpen, PA Quadrangle N: 16.75 inches; W: 9.8 inches; Latitude: 40°20'31"; Longitude: 79°11'42") in Fairfield Township, **Westmoreland County**. The impacts associated with expansion of pond 1 include 0.031 acre of wetland and 76 linear feet of streams; 0.398 acre of wetland will be impacted by spoil area. The impacts associated with expansion of pond 2 include 0.058 acre of wetland and 427 linear feet of stream channel. The requested mitigation consists of construction of 0.56 acre of palustrine open-water wetlands; and 0.08 acre of palustrine scrub-shrub wetlands, and 230 linear feet of emergency spillway channel.

ACTIONS

THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

FINAL ACTIONS TAKEN FOR NPDES PERMITS AND WQM PERMITS

The Department has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and NOIs for coverage under General Permits. This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Wastes; Discharges to Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

II. New or Expanded Facility Permits, Renewal of Major Permits and EPA Nonwaived Permit Actions

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701

NPDES Permit No. PA0234087, CAFO, 0213, 0211, **Philip D. Courter**, 6527 Jacksonville Road, Mill Hall, PA 17751-8876.

This proposed facility is located in Porter Township, **Clinton County**.

Description of Size and Scope of Proposed Operation/Activity: An existing beef and swine facility near Mill Hall, PA. The farm consists of 20 cow/calf pairs and 2200 finishing hogs and plans to add 2400 finishing hogs for a total of 690.01 AEU's. The farm consists of 160 acres which includes about 22 acres of pasture land, about 124 acres of cropland, and the balance in farmstead and woods. The hogs will produce 1.6 MG of liquid manure per year and will be stored in two, underbarn concrete pits totaling 1.543 MG (currently .734 MG). The beef produce 129 tons of solid manure per year and 48,644 gallons of liquid manure per year and is stored in a .316 MG round, concrete pit.

There will be a total manure storage capacity of 1.86 MG. The excess manure will be exported to George Courter.

The receiving stream, Cedar Run, is in the State Water Plan Watershed 09C (Bald Eagle Creek) and is classified for: HQ-CWF.

The proposed effluent limits for the operation/activity include: Except for the chronic or catastrophic rainfall events defined as over the 25-year/24-hour rain storms, the CAFO permit is a non-discharge NPDES permit. Where applicable, compliance with 40 CFR federal effluent limitation guidelines is required. The permit requires no other numeric effluent limitations and compliance with the Pennsylvania Nutrient Management Act and the Clean Stream Law constitutes compliance with the state narrative water quality standards.

QM Permit No. 6705413, Amendment 11-1, Sewerage, **Newberry Township Municipal Authority**, 400 Cly Road, York Haven, PA 17370.

This proposed facility is located in Newberry Township, **York County**.

Description of Proposed Action/Activity: Permit approval for upgrades to the existing treatment plant to meet proposed nutrient limits specified in their NPDES permit issued on June 24, 2010.

QM Permit No. 0711403, Amendment 11-1, Sewerage, **Freedom Township Water & Sewer Authority**, 131 Municipal Street, East Freedom, PA 16637.

This proposed facility is located in Blair Township, **Blair County**.

Description of Proposed Action/Activity: Permit approval for the construction of sewage facilities consisting of approximately 820' of 8" and 180' of 10" gravity sanitary sewer lines to connect McKee sewer service area to the existing manhole on the Country Road 101 (Everett Road) to eliminate the existing McKee pump station. The existing McKee pump station will be demolished.

STATE CONSERVATION COMMISSION

NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

The State Conservation Commission has taken the following actions on previously received applications for nutrient management plans under 3 Pa.C.S. Chapter 5, for agricultural operations that have or anticipate submitting applications for new, amended or renewed NPDES permits or NOIs for coverage under a general permit for CAFOs under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Persons aggrieved by an action may appeal under 3 Pa.C.S. § 517, section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704 to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge actions, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board’s rules of practice and procedure may be obtained from the Board. The appeal form and the Board’s rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Plan Description: This Plan Revision (Special Study) provides for re-rating the existing wastewater treatment plant to 0.374 MGD (Alternative 1), installation of a second (parallel) sanitary force main sewer and replacement of the existing Westfall Sewage Pump Station No. 1 with a larger capacity pump station within the existing sewage conveyance system (Alternative 2D), and the Authority's (Municipal Authority of the Township of Westfall) takeover of the existing Milford Landing Pumping Station including installation of a new package pump station to address operational and equipment issues (Alternative 3C).

Any required NPDES Permits or WQM Permits should be obtained in the name of the Authority.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the

final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Southeast Region: Environmental Cleanup Program Manager, 2 East Main Street, Norristown, PA 19401

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501–508 and 701–704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1–693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

To construct and maintain a corrugated metal pipe having a diameter of 7-feet and measuring 20-feet long

within Bear Creek, 0.6 mi. west of the int. with SR 0287 and Upper Bear Creek Road along Upper Bear Creek Road. This project proposes to permanently impact 20 linear feet of Bear Creek, which is designated a Warm Water Fishery and does not propose to impact any jurisdictional wetlands. This permit was issued under Section 105.13(e) "Small Projects."

ENVIRONMENTAL ASSESSMENTS

Central Office: Bureau of Waterways Engineering, Rachel Carson State Office Building, Floor 3, 400 Market Street, Harrisburg, PA 17105

D15-416EA. Mr. Robert Jones, 4030 Whitehorse Road, Devault, PA 19432. Charlestown Township, **Chester County**, ACOE Philadelphia District.

Project proposes to breach and remove Charlestown Park Dam across a tributary to French Creek (TSF) for the purpose of eliminating a threat to public safety and restoring the stream to a free flowing condition. The project will restore approximately 300 feet of stream channel. The dam is located approximately 600 feet northeast of the intersection of Township Line Road (T459) and Cold Stream Road (SR1028) (Malvern, PA Quadrangle; Latitude: 40° 07' 07", Longitude: -75° 33' 22").

EROSION AND SEDIMENT CONTROL

The following Erosion and Sediment Control permits have been issued.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Availability of Technical Guidance

Technical guidance documents are available on the Department of Environmental Protection's (Department) web site at <http://www.elibrary.dep.state.pa.us>. The "Technical Guidance Final Documents" heading is the link to a menu of the various Department bureaus where each bureau's final technical guidance documents are posted. The "Technical Guidance Draft Documents" heading is the link to the Department's draft technical guidance documents.

Ordering Paper Copies of Department Technical Guidance

The Department encourages the use of the Internet to view and download technical guidance documents. When this option is not available, persons can order a paper copy of any of the Department's draft or final technical guidance documents by contacting the Department at (717) 783-8727.

In addition, bound copies of some of the Department's documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Draft Technical Guidance—New Guidance

DEP ID: 385-2314-001. Title: Act 537 Program Guidance; Training Provider Manual for the Pennsylvania Onlot Sewage System Training Program. Description: This document serves to establish the Pennsylvania Onlot Sewage System Training Program. Within the administration of the training program, this document creates uniform procedures and protocol for reviewing and approving training providers as approved sponsors and for review and approval of third-party provider-based training courses and conferences for the continuing education of sewage enforcement officers, to ensure application of appropriate credit to sewage enforcement officers for

training taken and for the comprehensive training of onlot sewage system installers. Written Comments: The Department is seeking comments on draft technical guidance No. 385-2314-001. Interested persons may submit written comments on this draft technical guidance document by February 27, 2012. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to John Borland, Department of Environmental Protection, Bureau of Point and Non-point Source Management, Division of Planning and Permitting, Rachel Carson State Office Building, 11th Floor, P. O. Box 8774, Harrisburg, PA 17105-8774 or jboland@pa.gov. Contact: Questions regarding the draft technical guidance document should be directed to John Borland at (717) 783-7423 or jboland@pa.gov.

Effective Date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Initial Notification Concerning Emissions and Source Reporting Requirements for Unconventional Natural Gas Operations

In accordance with section 4(3) of the Air Pollution Control Act (35 P.S. § 4004(3)) and 25 Pa. Code § 135.3 (relating to reporting), the Department of Environmental Protection (Department) is authorized to collect air quality emissions inventories including those from owners and operators of facilities engaged in unconventional natural gas development, production, transmission, processing and related activities.

On December 6, 2011, the Department mailed 99 initial notifications to certain owners and operators of unconventional natural gas development activities of the need to submit data on their facilities' air emissions for the 2011 calendar year. The source reports for this notification are due to the Department by March 1, 2012.

The initial notification published here applies to any other owner and operator involved in unconventional natural gas development in this Commonwealth. Sources and activities at unconventional natural gas operations that the Department has identified as subject to the emissions reporting requirements include the following: compressor stations; dehydration units; drill rigs; fugitives, such as connectors, flanges, pump lines, pump seals and valves; heaters; pneumatic controllers and pumps; stationary engines; tanks, pressurized vessels and impoundments; venting and blow down systems; and well heads and well completions. The source reports are due for activities at all unconventional natural gas wells and facilities that support the unconventional natural gas wells. Complete source reports including emissions data for unconventional natural gas operations during the 2011 calendar year should be submitted to the Department within 60 days. In accordance with 25 Pa. Code § 135.3(c), the Department may grant an extension for a reasonable cause.

Subsequently, the source reports and annual emissions inventories will be due to the Department by March 1 each year for operations during the preceding calendar year. Emission statements required for stationary sources emitting 50 and 100 tons per year of volatile organic compounds and oxides of nitrogen, respectively, should have already been submitted to the Department as required under 25 Pa. Code § 135.21 (relating to emission statements).

Additional information may be obtained by contacting Michael Rudawski, Department of Environmental Protection, Bureau of Air Quality, Air Information Section, P. O. Box 8468, Harrisburg PA 17105-8468, mrudawski@pa.gov, (717) 783-9241.

Nutrient Credit Trading Program; Certification Requests

The Department of Environmental Protection (Department) provides notice of the following certification requests that have been submitted under the Nutrient Credit Trading Program (Trading Program). See 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed), published at 40 Pa.B. 5790 (October 9, 2010).

Nutrient credit trading is a market-based program that provides incentives for entities to create nutrient reduction credits (credits) by going beyond statutory, regulatory or voluntary obligations and goals to remove nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients.

The information described in this notice relates to submitted certification requests received from January 5, 2012, through January 9, 2012.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed: (1) the certification request must be approved; (2) generation of the credits must be verified; and (3) the credits must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of a pollutant reduction activity to generate credits. Certifications are based on at least: (1) a written request describing the qualifying pollutant reduction activity that will reduce the pollutant loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying pollutant reduction activity has taken place.

Once the credits are certified, they must be verified to be applied toward an NPDES permit for compliance with effluent limits. Verification means implementation of the verification plan contained in the certification. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying pollutant reduction activity has taken place for the applicable compliance year.

The credits also need to be registered by the Department before they can be applied toward an NPDES permit for compliance with effluent limits. Registration occurs only after credits have been certified, verified and a contract has been submitted. The Department registers credits for use during the compliance year in which the qualifying pollutant reduction activity has taken place. The Department provides registered credits with an annual registry number for reporting and tracking purposes.

Certification Request

The following request is being reviewed by the Department. The Department will accept written comments on this proposed pollutant reduction activity for 30 days.

Applicant

Entech Engineering on behalf of Butler Township Wastewater Department (Luzerne County) (NPDES Permit No. PA-0046388-A1)

HRG, Inc. on behalf of Mid-Centre County Authority (Centre County) (NPDES Permit No. PA-0110965)

Written Comments

Interested persons may submit written comments on this proposed pollutant reduction activity by February 27, 2012. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Karen Price, Interstate Waters Office, Department of Environmental Protection, P. O. Box 2063, Harrisburg, PA 17105-2063, (717) 787-4785, kprice@pa.gov.

For further information about this certification request or the Trading Program contact Karen Price, at the previously listed address or phone number, or visit the Department's web site at www.depweb.state.pa.us (DEP Keywords: "Nutrient Trading").

Mega Millions® Terminal-Based Lottery Game

Under the State Lottery Law (72 P.S. §§ 3761-101—3761-314) and 61 Pa. Code § 875.4 (relating to notice of terminal-based lottery game rules), the Secretary of Revenue hereby provides public notice of changes to the Mega Millions® terminal-based lottery game rules that were published at 40 Pa.B. 676 (January 30, 2010); and amended at 40 Pa.B. 5263 (September 11, 2010), 40 Pa.B. 6846 (November 27, 2010) and 41 Pa.B. 2778 (May 28, 2011).

This amendment further provides for the Megaplier® promotion by specifying how the Megaplier® number will be determined if a Megaplier® drawing does not occur prior to the Mega Millions® drawing and further provides for the calculation of the second category prize with the Megaplier® option when set prizes become pari-mutuel. These changes will be effective on the publication date of this notice.

The correct version of this document is as follows, with ellipses referring to the existing text as it appeared at 40 Pa.B. 676—681, 40 Pa.B. 5263 and 5264, 40 Pa.B. 6846 and 6847 and 41 Pa.B. 2778 and 2779:

(c) Prior to the time of each Mega Millions® drawing, the Mega Millions® drawing officials shall conduct a Megaplier® drawing which shall result in the selection of the Megaplier® number from among the following series of numbers: 2, 2, 3, 3, 3, 3, 3, 3, 3, 3, 4, 4, 4, 4, 4, 4, 4, 4, 4, 4, and 4. If the Megaplier® drawing does not occur prior to the Mega Millions® drawing, as solely determined by the lottery authorized to conduct the Megaplier® drawing, the Megaplier® number will be a 4.

* * * * *

(g) When the Mega Millions® second through fifth category prizes become parimutuel, the third through the fifth category prizes won will be calculated by multiplying the parimutuel prize value by the Megaplier® number. The second category prize amount with the Megaplier® option will be reduced by the same percentage as the second category prize is reduced when it becomes a parimutuel prize.

DEPARTMENT OF TRANSPORTATION

Receipt of Applications for Funding under the Section 5310 Program Fiscal Year 2011-2012

The Department of Transportation, Bureau of Public Transportation, under the authority in section 5310 of the Federal Transit Laws (49 U.S.C.A. § 5310), rescinds the notice published at 41 Pa.B. 6842 (December 17, 2011) relating to the receipt of applications for the State-administered Section 5310 Program (program).

Under the program, private nonprofit organizations and designated public bodies may apply for Federal capital assistance to pay up to 80% of the purchase cost of new wheelchair accessible small transit vehicles and other equipment used to provide needed transportation services for senior citizens and persons with disabilities who cannot be reasonably accommodated by existing transportation providers.

However, because of changes being made in the application process, applications will not be received until further notice.

Additional information can be obtained by calling Ben Brosius, Bureau of Public Transportation, (717) 787-1211, bbrosius@pa.gov.

*Pennsylvania Gaming Control Board—
Table Game Devices;
Regulation No. 125-138 (#2886)*

On January 19, 2011, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Gaming Control Board (Board). This rulemaking deletes temporary 58 Pa. Code Chapters 524, 528 and 529; adds permanent Chapters 605a, 613a and 615a; and amends 58 Pa. Code Chapter 461a. The proposed regulation was published in the January 29, 2011 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on October 14, 2011 but was withdrawn by letter dated November 9, 2011. The final-form regulation was re-submitted to the Commission on November 22, 2011.

This rulemaking rescinds Chapters 524, 528 and 529 of the Board's temporary regulations and replaces them with permanent Chapters 605a (relating to electronic gaming tables), 613a (relating to gaming related gaming service providers) and 615a (relating to conditional table game device licenses). This regulation also updates Chapter 461a to include table game devices and gaming related services.

We have determined this regulation is consistent with the statutory authority of the Board (4 Pa.C.S. §§ 1202 (b)(30)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

*Pennsylvania Gaming Control Board—
General Table Games Provisions; Credit; Table Game
Minimum Training Standards;
Regulation No. 125-142 (#2890)*

On March 22, 2011, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Gaming Control Board (Board). This rulemaking deletes temporary 58 Pa. Code Chapters 521, 526 and 527 and adds permanent Chapters 601a, 609a and 611a. The proposed regulation was published in the April 2, 2011 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on November 22, 2011.

This rulemaking rescinds Chapter 521, 526 and 527 of the Board's temporary regulations and replaces them with permanent Chapter 601a (relating to general table games provisions), Chapter 609a (relating to credit) and Chapter 611a (relating to table game minimum training standards).

We have determined this regulation is consistent with the statutory authority of the Board (4 Pa.C.S. §§ 1202 (b)(30)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

*Pennsylvania Gaming Control Board—
Table Game Rules for Roulette, Big Six Wheel
and Casino War;
Regulation No. 125-148 (#2895)*

On May 12, 2011, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Gaming Control Board (Board). This rulemaking deletes temporary 58 Pa. Code Chapters 531, 533 and 567 and adds permanent Chapters 617a, 619a and 651a. The proposed regulation was published in the June 11, 2011 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on October 14, 2011 but was withdrawn by letter dated November 9, 2011. The final-form regulation was re-submitted to the Commission on November 22, 2011.

This rulemaking rescinds three chapters of the Board's temporary table game regulations pertaining to the games of Roulette, Big Six Wheel and Casino War and replaces them with three new chapters of permanent regulations.

We have determined this regulation is consistent with the statutory authority of the Board (4 Pa.C.S. §§ 1202 (b)(30)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agencies must consider these comments in preparing the final-form regulation. The final-form regulations must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>

Department of Transportation Regulation #18-420 (IRRC #2922)

Public Transportation—Sustainable Mobility January 11, 2012

We submit for your consideration the following comments on the proposed rulemaking published in the November 12, 2011 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Department of Transportation (Department) to respond to all comments received from us or any other source.

1. Expiration of the temporary regulation—Consistency with statute; Compliance with the regulations of the Independent Regulatory Review Commission.

The Department states in the Preamble that:

The purpose of Chapter 427 is to implement 74 Pa.C.S. Chapter 15 (relating to sustainable mobility options), as required under 74 Pa.C.S. § 1505. *Section 1505 of 74 Pa.C.S. directed the Department to promulgate temporary regulations within 2 years of the effective date of 74 Pa.C.S. Chapter 15, by July 18, 2009, and thereafter to promulgate permanent regulations.* The Department has used the period during which the temporary regulations have been effective to test and refine the regulations to assure compliance in carrying out the purposes for which 74 Pa.C.S. Chapter 15 provides financial assistance for public transportation services and infrastructure in this Commonwealth. This proposed rulemaking is the result of that experience under the temporary regulations. (Emphasis added.)

On November 1, 2011, the Department submitted the proposed regulation showing the full text of temporary Chapter 427 with amendments. On November 12, 2011, the proposed regulation appeared in the *Pennsylvania Bulletin* in an abbreviated form, just showing the amendments.

The Department's authority to promulgate a temporary regulation states, in part:

Unless otherwise provided in this chapter, in order to facilitate the prompt implementation of this chapter, during the two-year period following the effective

date of this section, the Department shall promulgate temporary regulations *which shall expire four years from the effective date of this section.* (Emphasis added.)

See 74 Pa.C.S. § 1505(b)(1).

By statute, the temporary regulations expired on July 18, 2011, prior to the submittal of the proposed regulation. In effect, there is no existing Chapter 427 to amend.

We recognize the Department's intent was to implement temporary Chapter 427 with the amendments. However, neither the Department's submittal of the proposed regulation, nor the subsequent *Pennsylvania Bulletin* publication show the addition of the full text of Chapter 427 in compliance with 1 Pa. Code § 305.1a. We recommend that the final-form regulation properly designate the addition of the full text of Chapter 427 in compliance with our regulations at 1 Pa. Code § 307.3a.

2. Section 427.4. Local matching funds.—Clarity.

"Swaptions"

Paragraph (a)(6) uses the term "swaptions." We recommend defining this term or deleting it.

"Schedules as required by the Department"

Paragraphs (b)(4) and (c)(3) use the phrase "schedules as required by the Department." This phrase is vague because the regulation is not clear regarding what is required. We recommend clarifying these provisions.

3. Section 427.5. Procurement.—Clarity; Reasonableness.

Subsection (b) begins with the phrase "failure to comply with any applicable requirement." This phrase is subjective. We recommend specifying the requirements that apply.

4. Section 427.6. Restriction on use of funds.—Clarity.

Paragraph (a)(3) uses the phrase "State capital assistance including current or carryover PTAF, Act 3, Section 1514 Bond or Section 1517 Capital Improvement assistance." It is not clear what the phrases "PTAF," "Act 3," "Section 1514 Bond" or "Section 1517 Capital Improvement assistance" refer to. For example, "Act 3" of what year? The regulation should either be amended to specify these phrases or define them.

5. Section 427.7. Audits.—Clarity.*Auditing standards*

Subparagraph (a)(4)(i) requires an audit to be conducted in accordance with “auditing standards generally accepted in the United States.” How can the regulated community determine what standards apply? The Department should replace this phrase with specific standards.

“Schedules as required by the Department”

Subparagraph (a)(4)(v) requires an audit to include all supplemental schedules “as required by the Department.” This phrase is vague. Again, the regulation itself should state the specific requirements.

6. Section 427.11. Data submission and verification.—Clarity.

Subsections (a), (b) and (d) use the phrase “section 1513 operating assistance” funds or grants. The Department should either define this phrase or provide the specific citation. The same concern applies to Subsection 427.12(a)

7. Section 427.12. Performance reviews.—Clarity.

Paragraph (b)(2) states the Department will provide its performance review policy on its website. We request a specific website reference to this policy and an explanation of how the policy will affect the regulation. Why didn't the Department include the process for conducting a performance review in regulation?

**Department of Revenue
Regulation #15-453 (IRRC #2924)
Realty Transfer Tax Amendments
January 18, 2012**

We submit for your consideration the following comments on the proposed rulemaking published in the November 19, 2011 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Department of Revenue (Department) to respond to all comments received from us or any other source.

1. Determining whether the regulation is in the public interest.

Section 5.2 of the RRA (71 P. S. § 745.5b) directs this Commission to determine whether a regulation is in the public interest. When making this determination, the Commission considers criteria such as economic or fiscal impact and reasonableness. To make that determination, the Commission must analyze the text of the proposed rulemaking and the reasons for the new or amended language. The Commission also considers the information a promulgating agency is required to provide under § 745.5(a) in the Regulatory Analysis Form (RAF).

The information contained in the RAF submitted with this rulemaking is not sufficient to allow this Commission to determine if the regulation is in the public interest. By way of example, there is no detailed fiscal impact and cost benefit analysis in the RAF. How did the Department arrive at the conclusion that there will be no costs or savings to the regulated community, local government and state government? Regarding the approximate number of people that will be required to comply with the regulation, the Department responded that the number is indeterminable. Why is that number indeterminable? The Department has also failed to describe how the regulation compares to those of other states. Without this information, we cannot determine if this proposed regulation is in

the public interest. In the Preamble and RAF submitted with the final-form rulemaking, the Board should provide more detailed information required under § 745.5(a) of the RRA.

2. Section 91.101. Definitions.—Whether the regulation is consistent with the intent of the General Assembly; Clarity.*Business trust*

A commentator believes that, under this definition, all trusts would be considered business trusts. Therefore, every transfer of real estate to a trust would be subject to realty transfer tax. This would be contrary to the Realty Transfer Tax Law (72 P. S. §§ 8101-C—8103-C.1) (Law) and the statutory exclusions it provides for living trusts and ordinary trusts. Given the concerns raised by the commentator, we ask the Department to explain if transfers to living trusts and ordinary trusts would be taxable, and if so, what statutory provision would allow the Department to tax those transfers. If the transfers are not taxable, we recommend that the definition of “business trust” be clarified to reflect that fact.

3. Section 91.138. Valuation.—Clarity.

Paragraph (3) pertains to other valuation methods when there is not a bona fide sale or computed value. A commentator has pointed out two concerns with this paragraph. First, under Subparagraph (3)(ii)(A), the reference to the term “licensed real estate appraiser” is incorrect and should be replaced with “certified real estate appraiser” because appraisers in Pennsylvania are certified, not licensed. Second, Subparagraph (3)(ii)(b) includes the phrase “realistic estimate of the value of the real estate.” The commentator notes that the term “realistic” is difficult to quantify and suggests that it either be deleted or a reference to Section 608(c) of the Real Estate Licensing and Registration Act be added to the regulation. We agree with the commentator and ask the Department to amend the regulation accordingly.

4. Section 91.153. Agent and straw party transactions.—Reasonableness; Need; Clarity.

According to the Preamble, new Subsection (e) expands on the subject matter of this section because it has generated questions from taxpayers. We have two concerns. First, we ask the Department to explain the nature of the questions and how the new language addresses the concerns. We also ask the Department to explain the need for invalidating an indemnification or subrogation agreement between a purported principal or real party in interest and a purported agent or straw party, and whether this invalidation is consistent with the law.

Second, as noted by a commentator, what does the phrase “does not circumvent this condition” found in Subsection (e)(4) mean? We suggest that this phrase be clarified.

5. Section 91.193. Exemptions and exclusions.—Statutory authority; Whether the regulation is consistent with the intent of the General Assembly; Clarity.

Amendments to this section of the regulation replace the characterization of certain transactions as being “excluded” from tax as now being “exempt” from tax. The Preamble provides little information on why this change is needed. Commentators are concerned that this change conflicts with the Law. We agree that this change appears to conflict with excluded transactions specifically cited as such in Section 1102-C.3 of the Law (72 P. S. § 8102-C.3). We ask the Department to provide a more detailed

explanation of why this change is needed and how it is consistent with the Law and the intent of the General Assembly when it enacted the Law.

In addition, it is our understanding that the Court of Common Pleas issues divorce decrees. Therefore, Example 2 under § 91.193(b)(6)(i)(F) should be amended accordingly.

Review Procedure Hearings; Cancellation or Refusal of Insurance

The following insurer has requested a hearing as authorized by the act of June 17, 1998 (P. L. 464, No. 68) (Act 68) in connection with the termination of the insured's automobile insurance policy. The hearing will be held in accordance with the requirements of Act 68; 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure); and 31 Pa. Code §§ 56.1—56.3 (relating to Special Rules of Administrative Practice and Procedure). The administrative hearing will be held in the Insurance Department's regional office in Harrisburg, PA. Failure by an appellant to appear at the scheduled hearing may result in dismissal with prejudice.

The following hearing will be held in the Administrative Hearings Office, Capitol Associates Building, Room 200, 901 North Seventh Street, Harrisburg, PA 17102.

Appeal of Donegal Mutual Insurance Company; file no. 11-130-111375; Peter and Mary Goulet; Doc. No. P12-01-002; February 22, 2012, 10 a.m.

Parties may appear with or without counsel and offer relevant testimony or other relevant evidence. Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the

party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal, and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend the previously-referenced administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Donna R. Fleischauer, Human Resources Director at (717) 705-4194.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Additional Numbering Resources to Local Exchange Carriers: Safety Valve Process; Tentative Order

Public Meeting held
January 12, 2012

Commissioners Present: Robert F. Powelson, Chairperson; John F. Coleman, Jr., Vice Chairperson; Wayne E. Gardner; James H. Cawley; Pamela A. Witmer

Additional Numbering Resources to Local Exchange Carriers: Safety Valve Process; Doc. No. M-2008-2032767

Tentative Order

By the Commission:

The Commission, on its own initiative, is re-examining its current "safety valve" numbering request process in order to further streamline and expedite the process. The safety valve process involves the Commission's delegated authority to award numbering resources to telecommunications carriers in certain situations where Neustar,¹ the national numbering resource administrator, has declined a carrier's request. By this Tentative Order, the Commission hereby adopts a further streamlined safety valve numbering request process.

Background

In order to address the rapid growth and use of numbering resources, the Federal Communications Commission (FCC) issued several orders implementing various methods to reduce the depletion of numbering resources.² In these orders, the FCC delegated to state commissions the ability to monitor and enforce a carrier's compliance with the federal utilization requirements.³

Specifically, as part of its initiative to address the depletion of numbering resources, the FCC established procedures that address growth numbering resources in its Third Report and Order.⁴ The FCC, in that order, reaffirmed that carriers must meet a months-to-exhaust requirement before receiving growth numbering resources

¹ Neustar serves as the administrator for both the North American Numbering Plan and the Pooling Administration, under separate contracts.

² See Petition for Declaratory Order Ruling and Request for Expedited Action on the July 15, 1997 Order of the Pennsylvania Public Utility Commission Regarding Area Codes 412, 610, 215, and 717, Memorandum Opinion and Order and Order on Reconsideration, CC Docket 96-98 (rel. September 28, 1998); In the Matter of Numbering Resources Optimization, Report and Order and Further Notice of Proposed Rulemaking, CC Docket No. 99-200, (rel. March 31, 2000); In the matter of Numbering Optimization, Second Report and Order, Order on Reconsideration in CC Docket No. 96-98 and CC docket No. 99-200, and Second Further Notice of Proposed Rulemaking in CC Docket No. 99-200, CC Dockets 99-200 and 96-98, (rel. ⁴ In the Matter of Numbering Resource Optimization, Third Report and Order and Second Order on Reconsideration, CC Docket No. 99-200 (Order adopted December 12, 2001). The order addresses the issue of national thousand-block pooling, including pooling for non-Local Number Portability capable and wireless carriers as well as a

so as to ensure that telephone numbers are used efficiently and that carriers are prevented from maintaining excessive inventories of numbers.⁵ In addition, the utility must meet the national utilization threshold requirement of 75%.⁶ According to the FCC's regulations, the North American Numbering Plan Administrator (NANPA), Neustar, shall withhold numbering resources from any carrier based on its determination that the utility has not demonstrated a verifiable need for numbering resources and has not exhausted all other available remedies.⁷

However, in that same order, the FCC also established a "safety valve" process⁸ that allows a carrier to obtain additional NXX numbers, in limited circumstances, even if a carrier is not able to meet the utilization level and months-to-exhaust thresholds discussed above that are normally required to obtain additional numbering resources.⁹ The safety valve process is to be used as a last resort and, to the extent possible, as a stop-gap measure to enable carriers in need of additional numbering to continue to serve their customers. The FCC delegated this authority to state commissions. As such, the Commission can provide a telecommunications carrier with additional numbering resources in a given rate center if the carrier cannot meet the demand for resources through its current inventory.

Initially, the Commission's safety valve process involved a carrier filing a formal petition with the Commission requesting safety valve numbering relief. In that petition, the carrier needed to provide a cover letter requesting a waiver to obtain additional numbering resources; details for the request are generally set forth in an attachment. The information contained in the attachment also included a statement of the purpose of the petition, background of the customer's numbering request, an explanation as to why the carrier is unable to fulfill the customer's request with current numbering resources, and an indication that the carrier applied to Neustar (the numbering administrator) for the requested numbers and evidence that the application was denied.

In addition, it was mandatory that the petition include a "Thousands-Block Application Form, Part 1A," a months-to-exhaust and utilization certification worksheet, a copy of the written rejection from Neustar, and documentation from the end-user customer that supports the request.

Upon receipt of the petition, the Secretary's Bureau would docket the petition and allow 20 days for an answer or response to the petition in accordance with the Commission's regulations.¹⁰ In the interim, Commission staff would draft an order for consideration by the full Commission at the Public Meeting immediately following the expiration of the 20-day answer period. After approval at Public Meeting, the order was entered and served upon the carrier and the appropriate numbering administrator.¹¹

At its March 27, 2008 Public Meeting, the Commission unanimously approved the motion of former Commis-

sioner Pizzingrilli to convene a working group of interested stakeholders to examine the Commission's procedures for processing safety valve petitions. In her motion, Commissioner Pizzingrilli stated:

I believe that the Commission's current process for evaluating safety valve requests can be streamlined to improve the timeliness and efficiency with which these requests are reviewed. . . . I am confident that Pennsylvania can . . . develop a streamlined approach that will improve our current process while maintaining an appropriate level of oversight and continuing to ensure that any action taken is in the public interest.

By its Secretarial letter issued April 2, 2008, the Commission requested that interested parties submit comments on the safety valve process.¹² A working group meeting was subsequently held on May 15, 2008. Participants included AT&T, Verizon, PTA, Embarq, BCAP and Sprint.

After reviewing the comments and meeting with the interested parties, the Commission, by Order entered November 13, 2008, at M-2008-2032767, determined that the following changes would be made to the current safety valve process: (1) requests for numbering relief shall no longer be filed in the nature of a formal petition; (2) the Commission will create a template form that companies can file when requesting numbering relief from the Commission; and (3) safety valve requests will be disposed of via Secretarial letters approved at Public Meeting.

The Commission is now re-examining the current safety valve process to determine whether it should again revise the method of processing safety valve requests in order to further streamline the process.

Discussion

In accordance with our authority under Section 501(a) of Title 66 of the Public Utility Code, we hereby modify our November 13, 2008 to no longer require that carriers' safety valve requests be disposed of at the Commission's regularly scheduled public meetings. We believe that our initial safety valve process streamlined in November 2008 should be further modified so that Commission resources can be used more efficiently and numbering requests can be addressed within a shorter time period. We take this action because Commission staff has identified compelling reasons for doing so.

First, safety valve requests are filed based on the specific carrier and customer needs and do not necessarily coordinate with adequate review time and subsequent disposition at a regularly scheduled public meeting. Because of customer concerns, the carriers expect a very quick turn around on their requests and often their requests are rarely filed or received by the Commission in a fashion so as to submit the request on the regular agenda for public meetings. Thus, safety valve requests may be delayed simply because of the timing of the Commission's public meetings.

Second, for the most part, the safety valve process is both uncontested and non-adversarial. Since streamlining the procedures of the safety valve process, there have been forty-one (41) safety valve requests granted by this Commission to which there was no objection by any entity. However, at the same time, Technical Utility

federal cost recovery mechanism for thousand-block pooling. The order further addresses other numbering optimization measures including service-specific and technology-specific area code overlays.

⁹ All applicants for growth numbering resources shall achieve a 75% utilization threshold, calculated in accordance with the federal regulations for the rate center in which they are requesting growth numbering resources. In addition, the carrier shall provide a months-to-exhaust worksheet that provides utilization by rate center for the preceding six months and projected utilization for the next twelve months.

¹⁰ See 52 Pa. Code §§ 5.61 and 5.101.

¹¹ National Pooling has numbering administrators for each geographic region.

¹² Comments were received from AT&T, Verizon, the Pennsylvania Telephone Association (PTA), the United Telephone Company of Pennsylvania, LLC d/b/a Embarq Pennsylvania (Embarq); the Broadband Cable Association of Pennsylvania (BCAP); D&E Systems, Inc. (D&E); and Sprint.

Services (TUS) staff works closely with each requesting carrier to ensure that its request is proper and that the carrier has efficiently utilized its current inventory of numbering resources before the Commission acts on its requests. TUS staff communications with the carrier immediately after receipt of the filing if there is any issue with their specific request and provides information to assist the carrier in resolving the issue or any discrepancies. Therefore, staff's assessment of the safety valve requests submitted by carriers is invaluable to the Commission to protect the public resource of numbering while providing numbering resources on a timely basis to carriers in need.

Also, the Commission notes that, when it previously initiated the proceeding to streamline the safety valve process, all of the commenting parties adamantly suggested that the Commission grant Commission staff full delegated authority to dispose of safety valve requests. The parties had stated that numerous other states including New Jersey, New York and Delaware disposed of safety valve requests via administrative action. The parties believed that such delegation would expedite the safety valve process here.

While we acknowledge that adopting such an approach would result in the streamlining of our current process, we continue to believe that safety valve requests involve scarce public resources—NXX codes or telephone numbers. Accordingly, we believe that future safety valve requests should be handled similar to the manner that the Commission currently processes pro forma transactions subject to 66 Pa.C.S. §§ 1102(a) and 1103(a). See 52 Pa. Code § 63.325(k). In particular, staff will review the safety valve request and draft the appropriate Secretarial letter. However, in this instance, the Commission will issue a Secretarial letter no later than ten days after the filing of the safety valve form by the carrier.

We believe that a ten-day timeframe will still provide a requesting carrier with numbering resources in a reasonable amount of time while not hampering the Commission's ability to fully review each request. However, the Commission reserves the right to review safety valve requests beyond the ten-day time frame prescribed above if the carrier's information is incomplete or warrants additional review.

Conclusion

Based on the foregoing, we tentatively modify the current safety valve process in the following manner: TUS Staff is solely responsible for reviewing safety valve requests and preparing the requisite Secretarial Letter addressing the request. Additionally, we suggest that the carriers submit an electronic copy of the safety valve request to TUS so that they can process the request immediately in order to ensure that the above-mentioned ten-day frame is met. Those who may oppose this process may file comments addressing their concerns; *Therefore*,

It Is Ordered That:

1. The Commission will streamline the "safety valve" process as set forth in the body of this Tentative Order.
2. A copy of this Tentative Order shall be published in the *Pennsylvania Bulletin* and published on our web site.
3. If no comments are received within twenty days of the entry date of this Tentative Order, the Tentative Order shall become final without further Commission action.
4. If the Tentative Order becomes a Final Order in accordance with Ordering Paragraph No. 3, all safety

valve requests submitted to the Commission thereafter shall be processed via Secretarial Letter in the manner set forth in the body of the Tentative Order.

Fleeher Sewage Treatment Plant; Tentative Order

Public Meeting held
January 12, 2012

Commissioners Present: Robert F. Powelson, Chairperson; John F. Coleman Jr., Vice Chairperson; Wayne E. Gardner; James H. Cawley; Pamela A. Witmer

Fleeher Sewage Treatment Plant;
A-2012-2281410; A-98057-73

Tentative Order

By the Commission:

Fleeher Sewage Treatment Plant (Fleeher) was a wastewater treatment provider located in Cecil Township, Washington County, Pennsylvania with a mailing address of 21 Timber Crest Circle, Cecil, PA 15321, certificated at

A-98057-73. Fleeher and Cecil Township Municipal Authority (CTMA) entered into a Settlement Agreement and General Release on May 26, 2011, wherein Fleeher agreed to abandon its sewage treatment plant and convey its sewage system to CTMA with certain materials, rights and easements necessary for conveyance of flows to CTMA's Millers Run Sewage Treatment Plant (Millers Run).

Background

George and Marian Fleeher, as husband and wife, owned and operated Fleeher. On May 15, 2009, George Fleeher passed away. Marian Fleeher individually was then the sole owner and operator of Fleeher. In August of 2009, DEP issued an Administrative Order reporting that Fleeher had numerous violations of DEP Permits and Clean Streams Law dating as far back in its operations to February of 1993.

With regard to Commission complaints and violations, on August 3, 2008, Steve Drazick, a customer of Fleeher, filed a Formal Complaint with the Commission against Fleeher requesting that a collapsed Fleeher service line under the road in front of his home be repaired by Fleeher. This matter was scheduled for hearing on January 13, 2009, with the Office of Administrative Law Judge of the Commission. However, on this same date, the parties met and amicably resolved the issues, resulting in a settlement. Additionally, Fleeher failed to file its 2008, 2009, and 2010 Annual Reports with the Commission. The 2007 Annual Report was the last Annual Report Fleeher filed with the Commission. Fleeher violated 66 Pa.C.S. § 504 by failing to file annual reports for 2008, 2009, and 2010.

By Administrative Order of August 9, 2009, the Department of Environmental Protection (DEP), pursuant to Clean Streams Law and Pennsylvania Sewage Facilities Act, ordered CTMA to take over the existing sewage facilities of Fleeher. CTMA and Fleeher appealed the DEP determination to the Environmental Hearing Board. However, CTMA and Fleeher decided to discontinue the appeal and amicably resolve the matter. On February 15, 2011, CTMA entered into a resolution accepting the terms of DEP's proposed Consent Order. On May 26, 2011, Fleeher entered into a Settlement Agreement and General Release (May 26 Agreement) with CTMA in which it agreed to abandon its sewage treatment plant and convey its sewage system to CTMA with certain materials, rights and easements necessary for conveyance of flows to CTMA's Millers Run.

On June 6, 2011, DEP then issued a Consent Order Agreement whereby CTMA and Fleeher agreed to resolve the matter and discontinue the appeal before DEP. The Chairman and Chief Judge of the Environmental Hearing Board of DEP issued an order dated June 15, 2011, marking the Appeal by Fleeher and CTMA closed and discontinued.

Paragraph nine of the May 26 Agreement stated that, "Fleeher shall immediately notify the PUC of the impending cessation of its sewage treatment operations and take all actions necessary to comply with and satisfy PUC regulations in a timely manner so as to avoid any delays or violations of the parties' Consent Order and Agreement with the PaDEP." At no time did Fleeher contact the Commission regarding the cessation of its sewage treatment operations.

Discussion

As part of Prosecutory Staff investigation into this matter, Staff contacted Bruce M. Herschlag, Counsel for

the Department of Environmental Protection (DEP). On April 7, 2011, Mr. Herschlag advised Prosecutory Staff that Fleeher and CTMA had agreed in principle to resolve the matter. All parties were ready to sign the agreement, when a landslide occurred in the subdivision damaging a pump station and force main in the sewer system. To keep the agreement intact, Fleeher agreed to repair the sewer system. After further consideration, Fleeher and CTMA decided it would be better to eliminate the damaged pump station instead of repairing it. Fleeher then conveyed an easement to CTMA to allow it to build the necessary gravity sewer and this easement was also reflected in the final agreement. Mr. Herschlag advised Prosecutory Staff that Fleeher and CTMA then entered into a Consent Order and Agreement, and that DEP had closed the appeals of the August 5, 2009 Order issued by DEP. He also advised that DEP had issued a January 11, 2010 Cause and Effect Survey documenting that Fleeher had “an adverse effect” on the receiving stream.

On July 27, 2011, Jeff Hollowood, counsel for CTMA, advised the Commission that Fleeher is now offline and its sewage system has been bypassed. He further advised that CTMA has taken over the Fleeher customers; and that CTMA had been directly billing the former Fleeher customers as of July 5, 2011.

On June 23, 2011, and again on July 28, 2011, Prosecutory Staff contacted counsel for Fleeher advising Fleeher to file an Application to Abandon and Transfer its Certificate of Authority with the Commission and stating that Fleeher's actions of allowing another entity to serve the public without first receiving Commission review and approval of an application to abandon its certificate, is illegal, a violation of the Public Utility Code, and subject to fines and such other actions that the Commission may deem necessary. 66 Pa.C.S. §§ 1102(a)(2), and 3301. Prosecutory Staff did not hear back from Fleeher or its counsel regarding filing an application to abandon.

A certificate of public convenience is a privilege and not a contract or property right under which the holder acquires vested rights. *Western Pennsylvania Water Company v. PA Public Utility Commission*, 311 A.2d 370 (Pa. Cmwlth. 1973). As such, a certificate of public convenience may be revoked where the utility fails to perform its essential service functions to the public. In the instant case, it appears that Fleeher is no longer performing any services for the public. The services it was permitted to perform by its certificate are now being provided by CTMA. Thus, Fleeher no longer has any facilities that provide service to the public. Nor has Fleeher filed its annual reports as required by Commission regulations. Based upon the foregoing, we find that Mrs. Fleeher is no longer capable of operating Fleeher in a lawful manner and has failed to provide “adequate, efficient, safe and reasonable service and facilities” in accordance with its statutory duty under Section 1501 of the Public Utility Code, 66 Pa.C.S. § 1501.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 501, 504, 1501, and 3301. Based on these circumstances, we tentatively conclude that it is appropriate to revoke Fleeher's certificate of public convenience. Furthermore, the Commission may take other appropriate action, including the imposition of penalties under section 3301, in lieu of cancellation, if Fleeher seeks to maintain its certificate of public convenience; *Therefore*,

It Is Ordered That:

1. Revocation of Fleeher Sewage Treatment Plant's certificate of public convenience is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, and the Bureau of Investigation and Enforcement, and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, this Tentative Order shall become final without further action by the Commission.

4. Upon this order becoming final, and without further action by the Commission, the certificate of public convenience held by Fleeher Sewage Treatment Plant at A-98057-73 shall be canceled, and Fleeher Sewage Treatment Plant's name stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administrative Services.

Public Hearing

The Susquehanna River Basin Commission (Commission) will hold a public hearing on February 16, 2012, at 2:30 p.m. at the Pennsylvania State Capitol, Room 8E-B, East Wing, Commonwealth Avenue, Harrisburg, PA. At this public hearing the Commission will hear testimony on the projects listed in the Supplementary Information section of this notice. The projects are intended to be scheduled for Commission action at its next business meeting, tentatively scheduled for March 15, 2012, which will be noticed separately. Included in the list of projects scheduled for comment at the public hearing are both new projects and certain projects that were acted upon at the Commission's December 15, 2011, public hearing held in Wilkes-Barre, PA. The Commission is affording this opportunity for additional comment due to the disruptive behavior of certain individuals that prevented many interested persons from being able to offer testimony at the December 15, 2011, public hearing. To give due consideration of any new oral or written comment received on the projects, the Commission will reconsider, at its March 2012, meeting, the actions taken on December 15, 2011. Details concerning the list of all projects that are the subject of the public hearing are contained in the Supplementary Information section of this notice. The public should take note that this public hearing will be the only opportunity to offer oral comment to the Commission for the listed projects. There will be no opportunity for further comment on these projects at the Commission's business meeting in March 2012, where the Commission is expected to take action thereon. The deadline for written comments on all the projects is February 27, 2012.
