# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

## ***Pennsylvania Bulletin***

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

## **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

*Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

## **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

**SUBSCRIPTION INFORMATION: (717) 766-0211  
GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

#### § 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Explanatory Comment

The Civil Procedural Rules Committee is proposing to recommend a new chapter of rules, Rule 3301 et seq., to govern the attachment of wages, salary and commissions pursuant to Section 8127(a)(3.1) of the Judicial Code in actions or proceedings for "amounts awarded to a judgment creditor-landlord arising out of a residential lease." Rule 3101 et seq. governing the enforcement of judgments for the payment of money will not apply to a wage attachment under this provision of the Judicial Code.

Pursuant to the definition of the term "judgment" in proposed Rule 3301(b), wages may be attached to satisfy a judgment for rent or physical damage to a leased premises entered in a "civil action" whether in a court of common pleas or before a district justice. However, if the money judgment sought to be enforced is entered in an action for recovery of possession of real property before a district justice pursuant to Pa.R.C.P.D.J. 501 et seq., a writ of attachment of wages may issue only if the defendant appeared or filed papers in the action or if the complaint was handed to the defendant (judgment debtor-tenant).

Section 8127 of the Judicial Code imposes certain requirements upon the attachment of wages.

Security Deposit.—

Section 8127(a)(3.1) provides for the deduction from the attachment of a security deposit under circumstances set forth in the Code. Rule 1311 prescribes a form of Praecipe for Notice of Intent to Attach Wages which requires the plaintiff (judgment creditor-landlord) to execute a Certification as to the status of the security deposit.

Exemptions from Attachment.—

1. Poverty Guidelines. Section 8127(a)(3.1) requires that the "sum attached shall be no more than 10% of the net wages per pay period of the judgment debtor-tenant or a sum not to place the debtor's net income below the poverty income guidelines as provided annually by the Federal Office of Management and Budget, whichever is less." First, the employer-garnishee will determine the ten percent limit of the net wages to be attached. Second, since the defendant (judgment creditor-tenant) is the only person who has knowledge whether the attachment will bring his or her net income below the poverty level, the rules require the defendant to assert this objection to the attachment by filing a claim for exemption which is attached to the Notice of Intent to Attach Wages served upon the defendant. Third, Rule 3302(b) requires the prothonotary to attach to the Notice a copy of the most recent federal poverty income guidelines of the Federal Department of Health and Human Services.

2. Other Exemptions. The Notice of Intent to Attach Wages advises the defendant that there may be other exemptions available, giving the example of an abused

person or victim/witness, and that these exemptions are to be claimed by filing a motion with the court.

*Withholding of Wages.—*

Section 8127(c) sets forth duties of the employer-garnishee with respect to the withholding of wages. The form of the writ of attachment set forth in Rule 3313 advises the employer of these statutory duties.

*Prohibition against Discharge.—*

Section 8127(e) provides that the “employer shall not take any adverse action against any individual solely because his wages, salaries or commissions have been attached.” The form of the writ of attachment advises the employer of this obligation as well.

The proposed rules require the intervention of the court in two circumstances. First, if the defendant files a claim for exemption on the ground that his or her income is below the federal poverty income guideline or that the attachment will bring his or her income below the federal poverty income guideline, the plaintiff may dispute the claim by filing a motion requesting the court to direct the prothonotary to issue a writ of attachment of wages. The motion must set forth facts which establish that the plaintiff is entitled to attach wages pursuant to Section 8127(a)(3.1) of the Judicial Code. Second, the defendant may file a motion to stay or vacate the attachment on other grounds of exemption from attachment, including the ground of being an abused person or victim-witness.

## REPORT

### **Proposal to Amend Rule 209 and Rescind Rules 320 and 511 of the Rules of Conduct, Office Standards and Civil Procedure for District Justices**

#### Continuances

##### I. Background and Discussion

In an ongoing effort to simplify and consolidate certain Rules of Conduct, Office Standards, and Civil Procedure for District Justices, the Minor Court Rules Committee (hereinafter the Committee) undertook a review of the rules relating to continuances. The Committee noted that there are currently three separate rules relating to continuances: Rule 209 (relating to grounds for continuances generally), Rule 320 (relating to continuances in civil actions), and Rule 511 (relating to continuances in possessory actions). The Committee was concerned about unnecessary duplication and confusion resulting from having three continuance rules. In addition, some members of the Committee expressed concern about the restrictions on the length of continuances, particularly in Rule 511, being unnecessarily complicated.

Accordingly, the Committee proposes to consolidate all provisions relating to continuances in existing Rule 209,<sup>1</sup> and to rescind Rules 320 and 511.

##### II. Proposed Rule Changes

###### A. Rule 209

As indicated above, the Committee proposes that all provisions relating to continuances would be consolidated in Rule 209. Subdivision A of the amended Rule would retain the existing provisions from Rules 320 and 511 that continuances may be granted for cause or by agreement. Likewise, Subdivision B would retain the existing provisions that continuances must be to a time and date certain, and that the district justice must note continuances on the docket and notify the parties.

Subdivision C of the amended Rule would incorporate the limitations on continuances from Rules 320 and 511 with some changes. Specifically, the Rule would provide that generally not more than one continuance may be granted to each party. In addition, the aggregate of all continuances would be limited to extending the date of the hearing

- not more than 90 days from the filing of the plaintiff's complaint in civil actions, or
- not more than 30 days from the filing of the plaintiff's complaint in possessory actions.

The Committee believes that these time limitations are reasonable and would ensure that district justice cases proceed expeditiously, while allowing sufficient time for necessary continuances and taking into consideration the time frames for scheduling the original hearing date,<sup>2</sup> service,<sup>3</sup> and the filing of cross-complaints.<sup>4</sup> The introductory clause of Subdivision C would also provide that the limitations on continuances apply except for good cause shown, giving the district justice discretion to grant continuances outside the limitations when necessary.

<sup>1</sup> The placement of this Rule in Chapter 200 (Rules of Construction; General Provisions) makes it applicable to both civil actions (Chapter 300) and possessory actions (Chapter 500).

<sup>2</sup> See Rules 305 and 504.

<sup>3</sup> See Rules 307 and 506.

<sup>4</sup> See Rules 315 and 508.

Subdivision D of the amended Rule would incorporate, with only minor editorial changes, the existing provisions of Rule 209 relating to continuances because of scheduling conflicts with a party's attorney who must participate in attorney or judicial disciplinary proceedings.

*B. Rules 320 and 511*

In light of the Committee's proposed amendments to Rule 209, the Committee further proposes that Rule 320 (relating to continuances in civil actions) and Rule 511 (relating to continuances in possessory actions) be rescinded.

# PROPOSED RULEMAKING

## GAME COMMISSION

[58 PA. CODE CH. 141]  
Hunting and Trapping

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its October 7, 2003, meeting, proposed the following amendment:

Amend § 141.22 (relating to small game) to create a safety zone around Commission vehicles to reduce the chances of employees who are releasing pheasants from being injured.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the October 7, 2003, meeting of the Commission. Comments can be sent until January 27, 2004, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

### 1. Introduction

Every year as Commission employees release pheasants for hunting during the open season, hunters shoot the pheasants at or near the vehicles being used to transport the pheasants. Not only is this contrary to fair chase, it jeopardizes the safety of Commission employees releasing the pheasants. Adding § 141.22(a)(9) reduces the chances of Commission employees being injured when stocking pheasants.

### 2. Purpose and Authority

Because of increased incidents of careless hunters shooting at pheasants being released by Commission employees from their vehicles during the hunting season and the potential of serious physical injury, the Commission proposes to impose a safety zone of 150 yards around the vehicles. The safety zone distance is the same that is currently in place surrounding occupied dwellings and structures per section 2505(a) of the code (relating to safety zones). The intent of this proposed rulemaking is to provide the same safety parameters and protection for Commission employees releasing pheasants from their vehicles that is currently afforded to the general public at their residences.

Section 2102 of the code (relating to regulations) provides that the Commission shall promulgate regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth. This provision provides the authority for the proposed rulemaking.

### 3. Regulatory Requirements

The proposed rulemaking will make it unlawful for hunters to shoot at pheasants within 150 yards of a Commission vehicle involved in releasing pheasants.

### 4. Persons Affected

Persons who hunt for pheasants will be affected by the proposed rulemaking.

### 5. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

### 6. Effective Date

The proposed rulemaking will be effective on final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

### 7. Contact Person

For further information regarding the proposed rulemaking, contact Michael A. Dubaich, Director, Bureau of Law Enforcement, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

## [58 PA. CODE CH. 143]

### Hunting and Furtaker Licenses

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its October 7, 2003, meeting, proposed the following amendments:

Amend §§ 143.45 and 143.52 (relating to completing and submitting applications; and procedure for unlimited antlerless licenses) by eliminating the requirement to circle the appropriate number on the antlerless license application envelope and to move the date when county treasurers begin accepting over the counter antlerless license applications.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the October 7, 2003, meeting of the Commission. Comments can be sent until January 27, 2004, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Introduction

This proposed rulemaking eliminates the legal requirement that an applicant for an antlerless license circle the appropriate number on the application envelope, so it can be properly processed without being placed in a dead letter file, while another amendment adjusts the date for treasurers accepting over the counter applications so as not to conflict with the mail-in application processing demands.

2. Purpose and Authority

By eliminating the requirement that the preprinted number on the outside of the envelopes for those applying for antlerless deer licenses be circled indicating the number of applications enclosed, the Commission will not be forced into placing them into a dead letter file because of an inadvertent mistake, but rather can legally accept them and the enclosed applications and process them without unnecessary delay and extra mail handling.

By adjusting the date when county treasurers can begin accepting over the counter applications for antlerless deer licenses to the third Monday in September, the burden on the treasurers who are still processing mail-in applications will be lessened and allow ample time for applicants who have applied by mail to have their applications received and processed before others can purchase them over the counter.

Section 2705(13) of the code (relating to classes of licenses) lists antlerless deer licenses as one of the licenses that the Commission administers by establishing regulations, requirements and conditions. Section 2722(g)(2) of the code (relating to authorized license-issuing agents) provides that "The commission shall adopt regulations for the administration, control and performance of activities conducted pursuant to the provisions of this chapter." These provisions provide the statutory authority for the proposed rulemaking.

3. Regulatory Requirements

The proposed rulemaking allows applicants for antlerless licenses who fail to circle the number of applications enclosed within their envelope to have their applications legally accepted and processed. This proposed rulemaking also allows county treasurers to legally accept over the counter antlerless applications at a later date to ease processing demands and conflicts with the mail-in applications.

4. Persons Affected

Persons who wish to apply for an antlerless deer license will be affected by the proposed rulemaking.

5. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

6. Effective Date

The proposed rulemaking will be effective on final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

**[58 PA. CODE CH. 147]**

**Special Permits; Commercial Wildlife Pest Control**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its October 7, 2003, meeting, proposed the following amendment:

Amend § 147.721 (relating to general) to include the act of soliciting in the definition of activities requiring a commercial wildlife pest control permit.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the October 7, 2003, meeting of the Commission. Comments can be sent until January 27, 2004, to the Director,

Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

### 1. *Introduction*

The Commission is proposing to amend § 147.721 to include the act of soliciting as one of the requirements for a commercial wildlife pest control permit. This is currently not unlawful and has resulted in several incidents of nonpermitted persons taking advantage of the public.

### 2. *Purpose and Authority*

The purpose of the proposed rulemaking is to protect the public from unscrupulous persons who advertise to perform commercial wildlife pest control services while not currently possessing a permit. There have been several incidents of persons offering their services and activities for wildlife pest control when neither they nor their employees, who were to perform the actual control service, possessed a current commercial wildlife pest control permit from the Commission. Since the timing of some wildlife pest control methods and techniques is often critical, it is vitally important to more effectively regulate the activity.

Section 2901(b) of the code (relating to authority to issue permits), provides that "Unless otherwise provided in this title, the commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued."

### 3. *Regulatory Requirements*

The proposed rulemaking will make the act of soliciting to provide commercial wildlife pest control services without a current permit from the Commission unlawful.

### 4. *Persons Affected*

Persons who advertise or solicit wildlife pest control services who are not currently permitted by the Commission will be affected by the proposed rulemaking. Wildlife pest control permittees will be affected through protection from the competition from unpermitted individuals, while the general public will be affected by not hiring someone advertising wildlife pest control services when they are not permitted by the Commission.

### 5. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

### 6. *Effective Date*

The proposed rulemaking will be effective on final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

### 7. *Contact Person*

For further information regarding the proposed rulemaking, contact Michael A. Dubaich, Director, Bureau of Law Enforcement, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

### [58 PA. CODE CH. 147]

#### Special Permits; Falconry

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its October 7, 2003, meeting, proposed the following amendment:

Amend § 147.103 (relating to classes of permits) to allow residents of this Commonwealth to apply for a falconry permit at 16 years of age.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the October 7, 2003, meeting of the Commission. Comments can be sent until January 27, 2004, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

#### 1. *Introduction*

The act of June 17, 2003 (P. L. 12, No. 5) (Act 5) amended section 2901 of the code (relating to authority to issue permits) to allow residents of this Commonwealth who are at least 16 years of age to apply for a falconry permit. Currently, § 147.103(a) requires a person to be 18 years of age. This conflict can be eliminated by amending § 147.103(a).

#### 2. *Purpose and Authority*

Act 5 amended section 2901 of the code by changing the age requirement for eligible residents of this Commonwealth to apply for apprentice falconry permits from 18 years of age to 16 years of age. Current regulations require persons applying for a falconry permit to be at least 18 years of age. To make the regulations compatible with the code, § 147.103(a) needs to be amended to allow persons at least 16 years of age to apply for an apprentice falconry permit.

Section 2901(b) of the code states that unless otherwise provided in the code, the Commission may, as deemed necessary to properly manage game or wildlife resources,

promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued. This provision provides statutory authority for the proposed rulemaking.

3. *Regulatory Requirements*

The proposed rulemaking will allow a person 16 years of age to apply for a falconry permit.

4. *Persons Affected*

Persons who wish to apply for a falconry permit will be affected by the proposed rulemaking.

5. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

6. *Effective Date*

The proposed rulemaking will be effective on final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. *Contact Person*

(i) Request additional information regarding proposed use of funds.

(ii) Verify non-Department funding sources.

(iii) Require explanation or revision of the project's budget.

(iv) Require clarification of the project's narrative.

the Department's Single Application for Assistance when applying for CRP, especially, with regards to the completion of the Project Narrative, Project Budget and Profiles sections. The following excerpt from the Department's Single Application for Assistance provides the level of detail that the Department is seeking on a project:

Applicants must explain who they are and what they are going to do with the grant funds. The narrative must specifically address each of the cost items identified in the Project Budget section of the application. In general, the narrative should include:

- Projected Schedule and Key Milestones and Dates. A detailed project schedule must accompany the application, including key milestones and dates.

- Documentation to support Projected Budget Costs. This documentation may consist of an itemized line-by-line listing of how you arrived at the specific budget items for the project, bids or cost quotations, contractor estimates, appraisals, engineer estimates. A specific explanation is needed for any amounts in an "Other" or "Indirect Costs" budget category.

- Documentation of matching dollars such as commitment letters, receipts, etc.

- Religious disclaimer. If an applicant has a religious affiliation, the applicant should provide a disclaimer assuring that Department funds will not be used for religious purposes.

**§ 123.5. Application submission and approval procedure.**

Applications will be accepted throughout the fiscal year up to the April 30, 2004, submission deadline. Applications will be subject to § 123.7 (relating to limitations and penalties).

(1) Applications may be submitted by mail to the following address:

Department of Community and Economic Development  
Customer Service Center  
Commonwealth Keystone Building  
400 North Street, Fourth Floor  
Harrisburg, PA 17120-0225  
(800) 379-7448

(b) CRP grant awards will be made in two funding rounds during the fiscal year. The Department will grant

approximately 50% of the program appropriation in each round. These percentages are targets. The Department will make every effort to allocate program funds in accordance with these targets, but is not bound to them. Applicants should not apply in each round, and should apply only once during the 2003-2004 Fiscal Year. Grant applications not funded in a round will be rolled into the next round for consideration.

(1) The first round consideration will include all applications received between July 1, 2003, and February 13, 2004.

(2) The second round will include applications received by April 16, 2004, and applications not approved in the first round.

(3) Targeted grant announcement dates, subject to change without notice at the discretion of the Department, are as follows:

(i) April 2004 for the first round.

(ii) June 2004 for the second round.

(c) Any CRP funds remaining after the second round may be awarded by the Department up to the end of the fiscal year.

(d) Letters will not be sent to applicants after each funding round advising applicants that they have not been funded.

(e) Applicants that do not receive funding during any of the rounds will be notified during July 2004 to reapply during the next fiscal year.

(f) Follow up information as to the status of submitted grant applications may be obtained by contacting the DCED Customer Service Center. However, calls are not encouraged. The account manager letter is confirmation of receipt of the application. The demand for this program is very high, and staff may not be familiar with each individual application. Applicant care in preparation of the application will assist the Department in processing the application.

(g) Applicants should not submit more than one application per fiscal year. Additional applications do not enhance opportunity for funding. The Department reserves the right to reject additional applications from the same applicant, without notice to the applicant.

(h) The Department reserves the right to reject, without notification, applications received after April 30, 2004, for the 2003-2004 fiscal year appropriation.

### § 123.6. Procedures.

(a) CRP grant award notifications will be made by letter. After the award letter has been mailed, the applicant will receive a contract document that shall be signed by the grantee and returned to the Department for execution on behalf of the Commonwealth. Grants will not be awarded without a fully executed contract.

(b) The applicant will maintain full and accurate records with respect to the project. The Department will have free access to these records including invoices of material and other relative data and records, as well as the right to inspect all project work. The applicant will furnish upon request of the Department all data, reports, contracts, documents, and other information relevant to the project.

(c) Approved grants in the amount of \$100,000 or more require the grantee to provide an audit of the grant by a certified public accountant, prepared at the expense of the grantee, in compliance with Pennsylvania State law. The single audit performed for Federal audit purposes will not be accepted for auditing grants funded with State moneys.

(d) Approved grants under \$100,000 require the grantee to submit a detailed financial statement and a close out report of the use of State funds consistent with the contract. An audit is recommended, although not required.

(e) Funds will be disbursed according to the provisions in the contract between the applicant and the Department.

(f) Applications from grant recipients who did not fulfill their audit requirements under previous contracts will not be considered and will be placed on hold until the audit requirements are met.

(g) Applications not acted on favorably will be considered to have been denied and will not be considered for the 2004-2005 fiscal year.

# NOTICES

## DEPARTMENT OF AGRICULTURE

### Temporary Order Designating Dangerous Transmissible Diseases

The Department of Agriculture (Department) hereby: (1) reissues its previous temporary orders designating West Nile Encephalitis (WNE) and Chronic Wasting Disease (CWD) "dangerous transmissible diseases"; and (2) designates Spring Viremia of Carp (SVC) as a "dangerous transmissible disease." These designations are made under authority of 3 Pa.C.S. §§ 2301—2389 (relating to the Domestic Animal Law).

Under 3 Pa.C.S. § 2327(a) (relating to disease surveillance and detection), the Department has authority to monitor the domestic animal population of this Commonwealth to determine the prevalence, incidence and location of transmissible diseases of animals. Under 3 Pa.C.S. § 2321(d) (relating to dangerous transmissible diseases), the Department has authority to declare a disease that has not been specifically identified in that statute as a "dangerous transmissible disease" to be a dangerous transmissible disease through issuance of a temporary order making that designation.

WNE is a disease of public health significance. It also poses a threat to domestic animal health and to the economic well being of domestic animal industries—particularly the equine industry. Section 2322(c) of 3 Pa.C.S. (relating to neoplastic diseases, metabolic diseases and heritable diseases) requires the Department to proceed with the agreement of the Department of Health (Health) when it adds a disease of public health significance to the list of designated dangerous transmissible diseases. Both the Department and Health agreed upon adding WNE to the list of dangerous transmissible diseases and to the reissuance of this temporary order.

WNE is an infection of the brain caused by the West Nile virus. Although West Nile virus has, in the past, been found most typically in Africa, Eastern Europe and West Asia, it was detected in the New York City area and in parts of New Jersey in 1999. It has spread across the United States since then. In mild cases of human disease, infection can cause fever, headache, body aches, skin rash and swollen lymph glands. In more severe cases, it can cause headache, high fever, neck stiffness, stupor, disorientation, coma, tremors, paralysis and occasional convulsions. In animals, horses and birds appear to be most susceptible to illness following infection—although reports of illness in other species are increasing.

Humans and animals can acquire West Nile virus through a bite from a mosquito that has bitten an infected bird. The designation of WNE as a "dangerous transmissible disease" will facilitate the Department's surveillance of birds, horses and other animals for the presence of the West Nile virus or WNE. The designation will also help the Department in providing assistance to Health and other public health agencies in monitoring and treatment efforts.

CWD is a disease of whitetail deer, elk and other cervids and is a member of the group of diseases known as transmissible spongiform encephalopathies (TSEs).

Other more well-known TSEs are scrapie and bovine spongiform encephalopathy (BSE) or "mad cow" disease. All are thought to be caused by a protein that has converted to an abnormal infectious form prion. There is some evidence, in the case of BSE, that humans may become infected through consumption of meat products containing central nervous system tissues, thus there is a significant public health interest concerning all TSEs.

A number of states have, in recent years, instituted import regulations requiring that cervids entering those states: (1) originate from herds that are participating in a surveillance program; and (2) originate from states that have authority to take action in the event that CWD is diagnosed. The designation of CWD as a "dangerous transmissible disease" will facilitate the development and oversight of a surveillance program, and will help the Department react and take action in the event CWD is detected.

SVC is caused by a ribonucleic acid virus known as *Rhabdovirus carpio* and is considered an emerging disease in the United States. SVC poses a threat to both domestic fish health and wild fish health in this Commonwealth and has the potential to create a significant adverse economic impact on this Commonwealth's aquaculture industry.

The SVC virus readily infects species of the *Cyprinidae* family (carp and minnows) and spreads through direct contact with infected fish and through shared infected water sources. Symptoms typically appear in the spring time as water temperatures increase. Symptoms in infected fish range from undetectable through mild disease to sudden massive die-off.

There is no specific treatment for fish infected with SVC and no vaccine to prevent the disease. Once natural water resources become infected, SVC may be impossible to eradicate and may pose a permanent threat to aquaculture facilities utilizing those water sources.

#### Order

The Department hereby designates WNE, CWD and SVC "dangerous transmissible diseases" under 3 Pa.C.S. § 2321(d). This order supplants any previous temporary order making these designations.

This order shall take effect January 1, 2004, and shall remain in effect until no later than January 1, 2005. The Department may: (1) reissue this temporary order to extend the designation beyond January 1, 2005; (2) allow this temporary order to expire on January 1, 2005; (3) supplant this temporary order with a formal regulation; or (4) modify this temporary order.

Questions regarding this temporary order should be directed to John I. Enck, Jr. VMD, Director, Bureau of Animal Health and Diagnostic Services, 2301 North Cameron Street, Harrisburg, PA 17110-9408, (717) 783-6677.

## DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

### Proposed Exchange of Lands

The Department of Conservation and Natural Resources (Department), acting through the Bureau of Forestry (Bureau), and Edward Signor and Robert A. Signor are proposing to negotiate an exchange of lands in Tioga County.

The Bureau is proposing to acquire from the Signors a parcel of 39 acres in Union Township, a parcel of 40 acres in Covington Township and a parcel of 368 acres in Morris and Duncan Townships. These three parcels all adjoin existing Tioga State Forest holdings and contain a total of 447 acres.

In return, the Bureau proposes to convey to the Signors a parcel of 377 acres in Bloss Township adjoining Arnot Village on the east and north.

As is the policy of the Department, the public is notified of this exchange. A 30-day period for public inquiry and comment will begin January 26, 2004, and end February 24, 2004. Oral or written comments or questions concerning this proposed exchange should be addressed to Daniel A. Devlin, Chief, Forest Resource Planning and Information Division, Bureau of Forestry, P. O. Box 8552, Harrisburg, PA 17105-8552, (717) 787-2105. The oral and written comments will become part of the official document used in the final decision process.

If, in the duration of the 30-day comment period, a significant amount of public concern develops, the Secretary of the Department may schedule a public informational meeting.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995

#### PREAMBLE 1

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of

Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

#### NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the

date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

**19-304-008D: Benton Foundry, Inc.** (5297 SR 487, Benton, PA 17814) for construction of a phenolic urethane cold box foundry core-making machine at their iron foundry in Sugarloaf Township, **Columbia County**.

The proposed core-making machine is a Gaylord Model 24VTSB core-making machine. The VOC and VHAP emissions from this machine will be controlled by an existing packed bed scrubber which utilizes a sulfuric acid solution as the scrubbing medium. The resultant VOC and VHAP emissions from the machine will be a maximum of 5.055 tons and .479 ton, respectively, in any 12 consecutive month period. The VOC and VHAP emissions from the foundry will not increase however as the proposed core-making machine will replace two existing core-making machines.

The Department's review of the information submitted by Benton Foundry, Inc. indicates that the proposed core-making machine will meet all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue plan approval for the construction of the proposed core-making machine.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable regulatory requirements:

1. The VOC and combined VHAP emissions from the Gaylord Model 24VTSB core-making machine shall not exceed 5.055 tons and .479 ton, respectively, in any 12 consecutive month period nor shall the total combined VOC and total combined VHAP emissions from the two existing Gaylord Model 19-VSTB-RD core-making machines constructed under Plan Approval 19-304-008C exceed 5.055 tons and .479 ton, respectively, in any 12 consecutive month period nor shall the total combined VOC and total combined VHAP emissions from all phenolic urethane cold box core-making machines at this site, both existing and new, exceed 5.055 tons and .479 ton, respectively, in any 12 consecutive month period.

2. The Gaylord Model 24VTSB core-making machine shall not process more than 10,000 tons of sand in any 12 consecutive month period nor shall the two Gaylord Model 19-VSTB-RD core-making machines constructed under Plan Approval 19-304-008C process more than a combined total of 10,000 tons of sand in any 12 consecutive month period nor shall all phenolic urethane cold box core-making machines at this site, both existing and new, process more than a combined total of 10,000 tons of sand in any 12 consecutive month period.

3. The packed bed scrubber shall be equipped with instrumentation to continuously monitor the differential pressure across the scrubber, the pH of the scrubbing solution and the pressure of the scrubber's recirculation system.

4. The pH of the scrubbing solution shall not exceed 5.0.

5. The flow rate of the packed bed scrubber's recirculation system shall be equal to or greater than 120 gallons per minute. Compliance with this condition shall be verified by ensuring that the pressure of the recirculation system is equal to or greater than 25 psi.

6. Comprehensive, accurate records shall be maintained of the amount of sand processed through the Gaylord Model 24VTSB core-making machine each month, the amount of sand processed through the two Gaylord Model 19-VSTB-RD core-making machines each month, the total combined amount of sand processed through all of the core-making machines each month, the pH of the scrubbing solution, the identity of the binders and catalyst used in the core-making process and the resin to sand ratio and the catalyst to binder ratio for all sand processed.

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of the NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30 day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under General Permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOI for coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. Plan Description: Approval of a revision on January 7, 2004, to the Official Plan of Antis Township, Blair County by Shawn McElravy. Project involves construction of a small flow treatment facility to serve a proposed single-family dwelling on the north side of SR 4021 approximately 1 mile north of the intersection with SR 865 near Bellwood. Treated effluent is to be discharged to an unnamed tributary to the Little Juniata River. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES permits or WQM permits must be obtained in the name of the owner as appropriate.

**Plan Disapprovals Granted under the Pennsylvania Sewage Facilities Act**

*Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.*

Plan Location: The proposed development is along the north side of Bell-Tip Road (SR 4021), approximately 1,200 feet northeast of SR 0865 in Antis Township, Blair County.

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>

Plan Description: The plan was disapproved because the proposal is inconsistent with municipal wasteload management under Chapter 94 in that the sewage generated from this development is tributary to the hydraulically overloaded sewer system in Bellwood Borough. The approved Correction Action Plan for Bellwood Borough does not allow for new connections to its system at this time.

**HAZARDOUS SITES CLEAN-UP  
UNDER THE ACT OF  
OCTOBER 18, 1988**

**Proposed Consent Decree**

**Quaker City Gear Site, Lower Moreland Township,  
Montgomery County**

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305), has entered into a Consent Decree with the Mermelstein Family Trust (Trust), to resolve the litigation captioned and docketed as *Commonwealth of Pennsylvania, Department of Environmental Protection v. David Mermelstein, Trustee for the Mermelstein Family Trust*, No. 46 M. D. 2002, presently pending before the Commonwealth Court. The Trust shall reimburse certain Department response costs incurred to remediate hazardous substances released and threatened to be released at the Quaker City Gear Site (Site), 351 Red Lion Road, Huntingdon Valley, Lower Moreland Township, Montgomery County. The Trust is the present owner of the Site. Quaker City Gear Works Corporation abandoned the property after conducting metal workings and gear manufacturing on the Site. The Department has performed response actions including an environmental assessment and field investigation

of the Site, the characterization of abandoned drums of liquid hazardous substances on the Site and the removal and lawful disposal of these drums at a permitted facility.

The Trust wishes to sell the Site and settle its response cost liability. The Department has determined that it is in the public interest to resolve its claims against the Trust. ### **Pennsylvania Priority List of Hazardous Sites for Remedial Response**

#### *1. Background*

The Hazardous Sites Cleanup Act (HSCA) was enacted in 1988 to provide for the cleanup of Commonwealth sites that are releasing or threatening the release of hazardous substances. Section 502(a) of the HSCA (35 P. S. § 6020.502) requires that the Department publish in the *Pennsylvania Bulletin* a priority list of sites with releases or threatened releases for the purpose of taking remedial response. This list is called the Pennsylvania Priority List of Hazardous Sites for Remedial Response (PAPL). The Department places sites on the PAPL when the Department has determined through investigation that there are releases or threatened releases of hazardous substances, or releases or substantial threatened releases of contaminants, which present a substantial threat to the public health, safety and environment. In accordance with section 502(a) of the HSCA, the Hazard Ranking System (HRS) (40 CFR Part 300, Appendix A), established under the Comprehensive Environmental Response, Compensation and Liability Act of 1980 (CERCLA) (42 U.S.C.A. §§ 9601–9675), is utilized to rank the sites for placement on the PAPL. The HRS uses mathematical formulas that reflect the relative importance and interrelationships of the various human health and environmental factors to arrive at a final score on a scale of 0 to 100. The values are assigned using information obtained from site investigations. Section 502(a) of the HSCA also directs the Department to consider its administrative, enforcement and financial capabilities when placing sites on the PAPL. HRS scores are finalized by the Department using the HRS in effect at the time the score is prepared and the proposed listing notice is issued under the statute.

The HRS was developed by the EPA as the method used to evaluate the relative potential of hazardous substance releases to cause health or safety problems, ecological or environmental damage. It is the principal mechanism for placing a site on the National Priorities List, the list of priority releases for long-term remedial evaluation and response under CERCLA. The HRS is

calculated by utilizing known information to establish the level of threat presented in four potential pathways of human or environmental exposure: groundwater, surface water, air and soil exposure. Within each pathway of exposure, the HRS considers three categories of factors:

- (1) Factors that indicate the presence or likelihood of a release to the environment.
- (2) Factors that indicate the nature and quantity of the substances presenting the potential threat.
- (3) Factors that indicate the human or environmental targets potentially at risk from the site.

The resultant HRS score represents an estimate of the relative probability and magnitude of harm to human populations or sensitive environments from potential exposure to hazardous substances by the groundwater, surface water, soil exposure or air pathways.

#### *2. Summary and Purpose*

Placement of a site on the PAPL is used to identify sites that need further study and/or remedial response decisions to address threats to the public health, safety or the environment. The Department will decide on a case-by-case basis whether to take enforcement or other actions under the HSCA or other authorities and/or to proceed directly with HSCA-funded remedial response actions and seek cost recovery after the cleanup.

Remedial response actions will not necessarily be taken in the same order as a site's ranking on the PAPL. The investigation conducted to place a site on the PAPL may not be sufficient to determine either the extent of contamination or the appropriate response actions for a site. The Department may undertake further site investigation and/or an analysis of remedial alternatives to determine appropriate response actions. The length of time needed to complete these studies will vary due to the complexity of a site. Response action decisions and implementation will proceed on individual sites regardless of the progress at other sites. Given the limited resources available in the Hazardous Sites Cleanup Fund, the Department must carefully balance the relative needs for response at the sites it has studied. The Department may decide not to immediately proceed with a HSCA remedial action or that no remedial action is necessary.

#### *3. Technical Evaluation Grants under the HSCA*

Under section 510 of the HSCA (35 P. S. § 6020.510), the Department may make available a reasonable sum as a grant to the governing body of the host municipality of a site where the Department is considering a remedial response. The host municipality shall use this sum solely to conduct an independent technical evaluation of the proposed remedial response. The grant shall not exceed \$50,000. Information and a technical evaluation grant package may be obtained from the Department regional office in which the site is located. Refer to the Additional Information section of this notice.

A municipality will be sent grant information by the Department after a listing announcement has been published in the *Pennsylvania Bulletin*. The grant will be signed; however, the grant will not be effective until the proposed remedial response is available for public review. At that time, the municipality may proceed with the review of the Department's proposed remedial response.

#### *A. Effective Date*

The following site is being placed on the PAPL effective upon publication of this *Pennsylvania Bulletin*.

### B. Contact Persons

Individual site information may be obtained by contacting the Department's regional office in which the site is located. The regional office's address is in the Additional Information section of this notice.

### C. Statutory Authority

The PAPL is published under the authority of section 502(a) of the HSCA. Under section 502(b) of the HSCA, a decision to place a site on the PAPL or to remove a site from the PAPL is not a final action subject to review under 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) or section 4 of the Environmental Hearing Board Act (35 P.S. § 7514), nor shall it confer a right or duty upon the Department or any person.

### D. Review and Public Comment

The HSCA provides for a 30-day public comment period subsequent to publication of the PAPL. This notice opens the 30-day comment period for the sites being added with this publication. Written comments should be mailed to April Flipse, Hazardous Sites Cleanup Program, Department of Environmental Protection, Southeast Region, 555 North Lane, Lee Park, Suite 6010, Conshohocken, PA 19428.

The regional office site files contain all information considered by the Department in placing a site on the PAPL. Files are available for review in the appropriate regional Field Operations Office, by appointment only, from 8 a.m. to 4 p.m., Monday through Friday excluding State holidays. Contact the regional Environmental Cleanup Program Manager, whose address can be found in the Additional Information section of this notice. The Department considers all written comments received during the formal comment period. All written comments and the Department's responses will be placed into the site file and will later be incorporated into the Administrative Record.

### F. Site Listing Summary

The Chem Fab Site (Site), 300 North Broad Street, Doylestown Borough, Bucks County is an approximately 1-acre parcel currently owned by 300 North Broad Street, Ltd., a fictitious name of Heywood Becker, and is situated several blocks west of the Bucks County Courthouse in Doylestown Borough, as well as an associated plume of contaminated groundwater that extends into Doylestown Township. The surrounding properties are light industrial, commercial and residential.

Chem Fab, Inc., a subsidiary of Harvey Radio Company, Inc. from 1969 to approximately 1977, operated an electroplating and metal etching facility at the Site from 1965 to approximately 1986. Wastes generated included ferric chloride, mineral spirits, chromic acid rinse water and sludge, chromic acid, sulfuric acid, trichloroethylene and tetrachloroethylene.

The EPA conducted a drum removal action at the Site in 1995 and then placed it on the No Further Remedial Action Planned list. Subsequent to these EPA actions, the Department has conducted a site investigation in two phases and generated a Site Characterization Report in July 2000, a Phase II Site Characterization Report in November 2002, a Site Characterization Report Addendum in January 2003 and an Engineering Evaluation Report in May 2003.

These Department investigations have identified several areas, both on the current 300 N. Broad Street property and on a former part of the Chem Fab property now owned by Extra Space, Inc., which have soil contamination above Statewide health standards. Contaminants in soils are impacting surface water. In addition, there is an extensive groundwater plume beneath both properties and other neighboring properties. The plume is migrating towards Doylestown Borough's Public Water Production Well No. 13. The primary contaminants of concern include trichloroethylene, tetrachloroethylene, their degradation products and chromium, mostly in hexavalent form. The groundwater in several monitoring wells at the Site is literally yellow due to extremely high concentrations of chromium. While groundwater pH varies, several sampling events have generated purge water that was D002 hazardous for corrosivity.

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. **Certified Emission Reduction Credits in the Commonwealth's ERC Registry**

Emission reduction credits (ERCs) are surplus, permanent, quantified and Federally enforceable emission reductions used to offset emission increases of NO<sub>x</sub>, VOCs and the following criteria pollutants: CO, lead, SO<sub>x</sub>, PM, PM<sub>10</sub> and PM<sub>10</sub> precursors.

The Department of Environmental Protection (Department) maintains an ERC registry in accordance with 25 Pa. Code § 127.209. The ERC registry system provides for the tracking of the creation, transfer and use of ERCs. Prior to registration of the credits, ERC registry applications are reviewed and approved by the Department to confirm that the ERCs meet the requirements of 25 Pa. Code §§ 127.206—127.208. Registration of the credits in the ERC registry system constitutes certification that the ERCs satisfy applicable requirements and that the credits are available for use. The following registered and certified ERCs in the ERC registry are currently available for use as follows:

(1) To satisfy new source review (NSR) emission offset ratio requirements.

(2) To "net-out" of NSR at ERC-generating facilities.

(3) To sell or trade the ERCs for use as emission offsets at new or modified facilities.

The following certified ERCs, expressed in tons per year (tpy), satisfy the applicable ERC requirements contained in 25 Pa. Code §§ 127.206—127.208. ERCs created from the curtailment or shutdown of a source or facility expires for use as offsets 10 years after the emission reduction occurs. ERCs generated by the overcontrol of emissions by an existing facility do not expire for use as offsets. However, credits in the registry that are not used in a plan approval will be discounted if new air quality requirements are adopted by the Department or the EPA.

For additional information concerning the certified ERCs, contact Virendra Trivedi, Bureau of Air Quality, Division of Permits, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325. This ERC registry report, ERC registry application and instructions are on the Department's website: [www.dep.state.pa.us](http://www.dep.state.pa.us) (select Subjects/Air Quality/Business/Permits/Emission Reduction Credits).

**Proposed Revisions to General Plan Approval and General Operating Permit**

The Department of Environmental Protection (Department) proposes to revise the following general plan approval and operating permit: BAQ-GPA/GP-1 (GP-1) for small gas and no. 2 oil fired combustion units.

The primary purpose of this revision is to reflect the way general permit conditions have evolved since GP-1 was issued initially. These changes clarify that the general permit may be used either as a general plan approval or as a general operating permit for one or more boilers in a facility, depending upon the conditions as outlined under Condition 2, Applicability/Source Coverage Limitations. In addition, a number of conditions have been changed to clarify that the authorization to continue operation under the general permit expires every 5 years, which is the same term for regular operating permits.

Conditions 9, 10 and 17 from the previously issued general permit were deleted since many of those provisions are now outlined in expanded Condition 2. This has created changes in the numbering of conditions from Condition 9 and following.

*Proposed Permit Conditions*

Following are the conditions affected by this revision. The condition numbers reflect how they will appear in the new revision.

*2. Applicability/Source Coverage Limitations*

This Small Combustion Unit General Permit is limited to combustion units with rated capacities of less than 50 million Btu per hour of heat input fueled by natural gas supplied by a public utility, liquefied petroleum gas, or by No. 2 or lighter (viscosity less than or equal to 5.82 cSt) commercial fuel oils.

This Small Combustion Unit General Permit shall not be used where the operator has added waste materials or recycled oils to their commercial fuel oils.

This Small Combustion Units General Permit has been established in accordance with the provisions described in 25 Pa. Code Subchapter H of Chapter 127. If the combustion units at the facility cannot be regulated by the requirements of this general permit, an operating permit issued in accordance with 25 Pa. Code Subchapter F of Chapter 127 will be required, or, if the facility is a Title V facility, a Title V operating permit issued in accordance with Subchapters F and G will be required.

This Small Combustion Unit General Permit is designed to serve as both a general plan approval and a general operating permit for one or more boilers located in a facility. The specific use of the general permit will depend upon permit status, emission levels and location of the facility as outlined below.

*Plan Approval*

This Small Combustion Unit General Permit authorizes the construction of combustion unit(s) that meet the best available technology (BAT) required under 25 Pa. Code §§ 127.1 and 127.12(a)(5). For purposes of this general permit, BAT for units with a rated capacity equal to or greater than 10 million Btu per hour shall include the installation of low NOx burners, flue gas recirculation (FGR), combinations of these or other measures capable of meeting the emission limitations described in Condition No. 17. A facility may use this general permit as a plan approval to construct qualifying combustion units. Appropriate provisions of this general permit will then be

incorporated into either a Title V or state-only operating permit where the non-Title V facility includes regulated sources in addition to combustion units covered by this Small Combustion Unit General Permit. If the facility consists only of small combustion units qualifying for coverage under this General Permit, the facility may continue to operate so long as authorization to operate is renewed every five years in accordance with Condition 9 of this General Permit.

*Operating Permit*

This Small Combustion Units General Permit is not intended for use as an operating permit by a Title V facility as defined in 25 Pa. Code § 121.1. A "Title V facility" includes sources that have actual emissions or a potential to emit (PTE) equal to or greater than the maximum permitted emission levels shown in the following table for a single facility. A facility is eligible to operate under this Small Combustion Units General Permit if its actual emissions will remain below the maximum permitted emission levels listed below. A combustion unit in a facility is exempted from the permit requirements of § 127.402 if it is demonstrated that the facility's actual emissions are less than the permit exemption levels in this section.

<i>Pollutant</i>	<i>Maximum Permitted Emission Levels/Facility</i>	<i>Facility Permit Exemption Levels</i>
CO	<100 TPY	< 20 TPY
NOx	<100 TPY *	< 10 TPY
SOx	<100 TPY	< 8 TPY
VOCs	< 50 TPY *	< 8 TPY
PM <sub>10</sub>	<100 TPY	< 3 TPY
Single HAP	< 10 TPY	< 1 TPY
HAPs	< 25 TPY	<2.5 TPY

\* <25 TPY for Severe nonattainment area including Bucks, Chester, Delaware, Montgomery and Philadelphia counties.

*3. Application for Use*

Any person proposing to install, operate, or modify a combustion unit under this Small Combustion Unit General Permit shall notify the Department using the Small Combustion Unit General Permit Application provided by the Department. In accordance with 25 Pa. Code § 127.621 (relating to application for use of general plan approvals and general operating permits), the applicant shall receive written authorization from the Department prior to constructing or operating under this general permit.

*4. Compliance*

Any combustion unit operating under this Small Combustion Unit General Permit shall comply with the terms and conditions of the general permit. The combustion unit and any associated air cleaning devices shall be:

- a. Operated in such a manner as not to cause air pollution.
- b. Operated and maintained in a manner consistent with good operating and maintenance practices.
- c. Operated and maintained in accordance with the manufacturer's specifications and the applicable terms and conditions of this Small Combustion Unit General Permit.

#### 5. *Permit Modification, Suspension and Revocation*

This Small Combustion Unit General Permit may be modified, suspended, or revoked if the Department determines that affected combustion unit(s) cannot be regulated under this general permit. Authorization to use this Small Combustion Unit General Permit shall be suspended or revoked if the permittee fails to comply with applicable terms and conditions of the Small Combustion Unit General Permit.

Authorization to operate the combustion unit under this Small Combustion Unit General Permit may be suspended, if, at any time, the permittee causes, permits or allows any modification without Department approval (as defined in 25 Pa. Code § 121.1) of the combustion unit and any associated air pollution control device covered by this general permit. Upon suspension of the authorization, the permittee may not continue to operate or use said combustion unit. If warranted, the Department will require that the combustion unit be permitted under the state operating permit or Title V operating permit requirements in 25 Pa. Code Chapter 127, as appropriate.

#### 6. *Notice Requirements*

The applications and notifications required by 25 Pa. Code § 127.621 shall be submitted to the appropriate Regional Office of the Department responsible for issuing general permits in the county in which the combustion unit is, or will be, located. As required under § 127.621(b) the application shall be either hand delivered or transmitted by certified mail return receipt requested.

The permittee shall notify the Department in writing of any malfunction of the combustion unit which results in, or may result in, the emission of air contaminants in excess of the limitations specified in, or established pursuant to, any applicable rule or regulation contained in 25 Pa. Code, Subpart C, Article III (relating to air resources). The notification shall be made to the Department within 24 hours of the discovery of the malfunction during a business day or by 5:00 pm on the first business day after a weekend or holiday.

#### 7. *Sampling and Testing*

No later than one hundred and eighty days (180) of initial start-up, the permittee shall demonstrate compliance with the emission limitations for NO<sub>x</sub>, CO, and VOC established in Conditions 15, 16, and 17 for each boiler. The demonstration may include performance stack testing in accordance with applicable provisions of 25 Pa. Code Chapter 139 (relating to sampling and testing), portable analyzers approved by the Department, recent on-site test data on identical boilers, or any other means approved by the Department. As an alternative, this demonstration may be submitted to the Department with the application to construct and operate under this Small Combustion Unit General Permit.

The permittee shall, upon the request of the Department, provide fuel analyses, or fuel samples of the fuel used in any combustion unit authorized to operate under this general permit.

If, at any time, the Department has cause to believe that air contaminant emissions from a combustion unit covered by this general permit are in excess of the limitations specified in, or established pursuant to, any applicable regulation contained in 25 Pa. Code, Subpart C, Article III, the permittee shall conduct tests deemed necessary by the Department to determine the actual emission rate(s).

#### 8. *Monitoring, Recordkeeping and Reporting*

The permittee shall comply with applicable monitoring, recordkeeping and reporting requirements set forth in 25 Pa. Code Chapter 139 (relating to sampling and testing), the Air Pollution Control Act, the Clean Air Act, and the applicable regulations under the acts.

#### 9. *Term of Permit*

Authority to operate under this Small Combustion Unit General Permit is granted for a fixed period of five years. The Department will notify each applicant, in writing, when authority to construct and/or operate under this general permit is granted.

#### 10. *Permit and Administrative Fees*

The Small Combustion Unit General Permit establishes the following application and permit renewal fees payable every five years if no equipment changes occur:

a. Three hundred dollars during the 2000-2004 calendar years.

b. Three hundred seventy-five dollars beginning in the 2005 calendar year.

An additional application and fee as indicated above is required each time the permittee installs or modifies a combustion unit. The installation or modification of a combustion unit must be conducted according to the terms and conditions of this general permit and only after written authorization is received from the Department. Two or more combustion units may be installed under a single plan approval fee.

#### 11. *Expiration and Renewal of Authorization*

The permittee's right to operate under this Small Combustion Unit General Permit terminates on the date of expiration of the authorization to operate under this permit unless a timely and complete renewal application is submitted to the Department 30 days prior to the authorization expiration date.

Upon receipt of a complete and timely application for renewal, the combustion unit may continue to operate subject to final action by the Department on the renewal application. This protection shall cease to exist if, subsequent to a completeness determination, the applicant fails to submit by the deadline specified in writing by the Department any additional information required by the Department to process the renewal application.

The Small Combustion Unit General Permit application for renewal shall include the identity of the owner or operator, location of the combustion unit, current authorization number, description of the combustion unit, the appropriate renewal fee listed in Condition 10 and any other information requested by the Department. At a minimum, the permit renewal fee shall be submitted to the Department at least 30 days prior to the expiration of the Small Combustion Unit General Permit.

#### 13. *Prohibited Use*

Any stationary air contamination source that is subject to the requirements of 25 Pa. Code Chapter 127, Subchapter D (relating to prevention of significant deterioration) and 25 Pa. Code Chapter 127, Subchapter E (relating to new source review), 25 Pa. Code Chapter 127, Subchapter G (relating to Title V operating permits), or 25 Pa. Code § 129.91 (relating to control of major sources of NO<sub>x</sub> and VOCs), may not operate under this Small Combustion Unit General Permit. Title V facilities may use this Small Combustion Unit General Permit as a

general plan approval when the major new source review and prevention of significant deterioration requirements are not applicable.

14. *Transfer of Ownership or Operation*

The permittee may not transfer authorization to operate under this Small Combustion Unit General Permit. New owners shall submit a new application and fees as described in Condition 10.

15. *Combustion Units Constructed On or Before June 9, 1989*

Any combustion unit operated under this Small Combustion Unit General Permit may not, at any time, result in the emission of:

a. Visible emissions in excess of the limitations specified in 25 Pa. Code § 123.41 (relating to limitations) as follows:

i. Equal to or greater than 20% for a period or periods aggregating more than 3 minutes in any one hour.

ii. Equal to or greater than 60% at any time.

b. Particulate matter in excess of 0.4 pound per million Btu of heat input as specified in 25 Pa. Code § 123.11 (relating to combustion units).

c. Sulfur oxides in excess of the limitations specified in 25 Pa. Code § 123.22 (relating to combustion units) as follows:

i. In areas outside of the air basins and in the Allegheny County, Lower Beaver Valley, and Monongahela Valley air basins, the sulfur content of No. 2 oil shall not exceed 0.5% by weight.

ii. In all air basins, except the Allegheny County, Lower Beaver Valley, Monongahela Valley air basins and the outer zone of the Southeast Pennsylvania air basin, the sulfur content of No. 2 oil shall not exceed 0.3% by weight.

iii. In the inner zone of the Southeast Pennsylvania air basin, the sulfur content of No. 2 oil shall not exceed 0.2% by weight.

16. *Combustion Units for Which Construction Commenced After June 9, 1989 and Subject to Federal New Source Performance Standards*

These combustion units shall also comply with this Condition, subparagraphs a. through e. of this Small Combustion Unit General Permit and the emission limitations of the New Source Performance Standards prescribed in 40 CFR Part 60, Subpart Dc.

## Approval Order

Public Meeting held  
January 8, 2004

*Commissioners Voting:* John R. McGinley, Jr., Esq., Chairperson, by phone; Alvin C. Bush, Vice Chairperson by phone; Daniel F. Clark, Esq.; Arthur Coccodrilli; Murray Ufberg, Esq.

*Department of Health—Out-of-Hospital Do-Not-Resuscitate Orders; Regulation No. 10-174*

On August 26, 2003, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Health (Department). This rulemaking amends 28 Pa. Code Chapters 1001, 1003, 1005, 1007 and 1051. The proposed regulation was published in the September 6, 2003, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on December 5, 2003.

This regulation implements Act 59 of 2002 which amended the Advance Directive for Health Care Act to instruct emergency medical services providers to follow procedures for implementing an out-of-hospital do-not-resuscitate (DNR) order. An out-of-hospital DNR order issued under Act 59 of 2002 directs that cardiopulmonary resuscitation will not be provided to an eligible patient who goes into cardiac or respiratory arrest. This regulation will replace the interim regulation the Department established under Act 59 of 2002.

We have determined this regulation is consistent with the statutory authority of the Department (Act 59 of 2002, Section 6) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

*By Order of the Commission:*

This regulation is approved.
