READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

ENVIRONMENTAL QUALITY BOARD

[25 Pa. CODE CH. 93]

Triennial Review of Water Quality Standards

The Environmental Quality Board (Board) is amending Chapter 93 (relating to water quality standards) to read as set forth in Annex A.

This order was adopted by the Board at its meeting of August 17, 2004.

A. *Effective Date*

This final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. *Contact Persons*

For further information contact Edward R. Brezina, Chief, Division of Water Quality Assessment and Standards, Bureau of Water Supply and Wastewater Management, 11th Floor, Rachel Carson State Office Building, P. O. Box 8467, (717) 787-9637 or Michelle Moses, Assistant Counsel, Bureau of Regulatory Counsel, 9th Floor, Rachel Carson State Office Building, P. O. Box 8464, Harrisburg, PA 17105-8464, (717) 787-7060. Persons with a disability may use the AT&T Relay Service by calling (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This final-form rulemaking is available electronically through the Department of Environmental Protection's (Department's) website (<http://www.dep.state.pa.us>).

C. *Statutory Authority*

This final-form rule is made under sections 5(b)(1) and 402 of The Clean Streams Law (35 P. S. §§ 691.5(b)(1) and 691.402), which authorize the Board to develop and adopt rules and regulations to implement provisions of The Clean Streams Law and section 1920-A of The Administrative Code of 1929 (71 P. S. § 510-20), which grants to the Board the power and duty to formulate, adopt and promulgate rules and regulations for the proper performance of the work of the Department. In addition, section 303 of the Federal Clean Water Act (33 U.S.C.A. § 1313) sets forth requirements for water quality standards and the Federal regulations in 40 CFR 131.32 (relating to Pennsylvania) set forth certain requirements for portions of the Commonwealth's antidegradation program.

D. *Background and Summary*

Section 303(c)(1) of the Clean Water Act requires that states periodically, but at least once every 3 years, review and revise as necessary, their water quality standards. This final-form rulemaking constitutes the Commonwealth's current triennial review of its water quality standards.

The Commonwealth's water quality standards, which are codified in Chapter 93 and portions of Chapter 92 (relating to National Pollutant Discharge Elimination System permitting, monitoring and compliance), are designed to implement the requirements of sections 5 and 402 of The Clean Streams Law and section 303 of the Federal Clean Water Act. The water quality standards consist of the designated uses of the surface waters of this

Commonwealth, along with the specific numerical and narrative criteria necessary to achieve and maintain those uses and antidegradation regulations. Water quality standards are in-stream water quality goals that are implemented by imposing specific regulatory requirements, such as treatment requirements and effluent limitations, on individual sources of pollution.

This final-form rulemaking revises Chapter 93. These regulatory revisions will clarify requirements, and update the regulations to be consistent with Federal regulatory changes when indicated, and preserve State-specific requirements to serve the citizens of this Commonwealth. This final-form rulemaking may affect persons who discharge wastewater into surface waters of this Commonwealth or otherwise conduct activities, which may impact those waters.

The Department's Water Resources Advisory Committee (WRAC), provided input on the proposed amendments at its November 13, 2002, and September 10, 2003, meetings. The proposed amendments were adopted by the Board as proposed rulemaking at its July 15, 2003, meeting. The proposed rulemaking was published at 33 Pa.B. 5190 (October 18, 2003) with provision for a 60-day public comment period that closed on December 17, 2003. The Board received 538 public comments. The comments received on the proposed rulemaking are summarized in Section E of this order.

The Board has considered all of the public comments received on its proposed rulemaking in preparing for these final-form regulations. The draft final-form regulations were discussed with and approved by WRAC on July 14, 2004, with additional clarifications to the dissolved oxygen criteria. The valuable input from the public and the collective knowledge and experience drawn from advisory committees and others on this proposal has been utilized to develop regulations which carefully balance the needs of citizens and the regulated community in assuring the protection of this Commonwealth's waters.

E. *Summary of Comments and Responses on the Proposed Rulemaking*

Comments were received from 538 commentators including the Independent Regulatory Review Commission (IRRC) as a result of the public comment period and the public hearing. Approximately 50% of the comments received involved § 93.2 (relating to scope). The proposed rulemaking recommended deletion of certain text in § 93.2(a) to correct any misinterpretation that the scope of Chapter 93 applies only to "discharges" or to "point sources." The majority of scope comments were in support of clarifying the language in § 93.2 to include point sources as well as nonpoint sources. There were a few commentators that expressed concerns with the removal of language from the scope section.

The other major issue was the proposed change to the application of dissolved oxygen criteria in § 93.7 (relating to specific water quality criteria) to recognize the effects of natural stratification in lakes, ponds and impoundments. Several commentators supported the proposed change to the dissolved oxygen criteria. A few commentators expressed concerns pertaining to the application of the criteria, the stratification process and definitions of epilimnion and hypolimnion.

A detailed description of the comments and revisions to the proposal follows:

General

Many commentators requested that the Board not weaken the water quality standards. They expressed concern that the Commonwealth was going to reduce the protection of the waters of this Commonwealth. The Board responded to those comments by assuring commentators that the amendments to its regulations will not weaken the water quality standards but will clarify the protection of the waters of this Commonwealth. A comment was received concerning the application of water quality standards to wetlands. The Department has reviewed the water quality standards, and there was no new scientific information, policies or directives found that would require changes to the water quality standards as they apply to wetlands.

§ 93.1. Definitions.

A few commentators expressed concerns that the application of the dissolved oxygen criteria and the stratification process was not clear. Therefore, a definition for "hypolimnion" has been added to the final-form rulemaking to further clarify natural stratification.

§ 93.2. Scope.

The proposed change to the scope is one of the major issues that was raised by commentators. The proposed rulemaking recommended deletion of certain text in § 93.2(a) to correct any misinterpretation that the scope of Chapter 93 applies only to "discharges" or to "point sources." The majority of the comments on the scope were in support of the proposed change that clarified its application to both point and nonpoint sources of pollution. There were a few commentators that expressed concerns with the proposed change to remove language from the scope. They have requested that the existing language be retained or that new language be added to insert "point and nonpoint source" before "discharges." On final-form rulemaking, the Board is inserting new language that reads as follows: . . . and will be considered by the Department in "implementing its authority under The Clean Streams Law and other statutes that authorize protection of surface water quality." This amendment will track current guidance and regulations for use of the standards in situations outside NPDES discharges. This change reaffirms the Department's longstanding position that the water quality standards in Chapter 93 are the standards that are used whenever the environmental statutes authorize the Department to make decisions or approvals relating to stream quality protection.

Questions have been raised regarding the relationship between 27 Pa.C.S. Chapter 31 (relating to conservation and natural resources) (act) and Chapter 93. The water withdrawal registration process required under the act does not expand the Department's existing authority to protect surface waters. Water withdrawal information gathered under that statute is for water planning purposes and the State Water Plan will be used for the purposes articulated by section 3116 of the act (relating to use of plan). Under multiple sections of the act it is clear that the planning statute does not authorize, diminish or expand existing authority of the Department to regulate, control or require permits for the withdrawal or use of water. See sections 3104 (4), 3111(c) and 3136(a) of the act (relating to administrative agreements with other agencies; plan contents; and relation to other laws.) By amending § 93.2 in this final-form rulemaking, the Department is not expanding its existing authority to protect surface waters. To clarify this point, a motion was

made and approved at the Board's meeting on August 17, 2004, to amend this final rulemaking by adding the following language to the end of § 93.2(a): "Nothing in this chapter shall be construed to diminish or expand the authority of the Department to regulate surface water quality as authorized by statute."

§ 93.7. Specific water quality criteria.

The other major issue in the comments was the proposed change to the application of dissolved oxygen criteria in § 93.7 to recognize the effects of natural stratification in lakes, ponds and impoundments. Several commentators supported the proposed change to the dissolved oxygen criteria. A few commentators expressed concerns pertaining to the application of the criteria, the stratification process, and definitions of epilimnion and hypolimnion. In response to the comments and to WRAC suggestions, the language in the final form rulemaking at § 93.7, Table 3—Dissolved Oxygen is revised to further clarify natural stratification and how the process is applied and a new definition of "hypolimnion" is added to § 93.1.

Fishable/Swimmable Waters

Part of the triennial review requires that states reexamine water body segments that do not meet the fishable or swimmable uses specified in section 101(a)(2) of the Federal Clean Water Act. The Department evaluated the two Pennsylvania water bodies where the uses are not currently met: (1) the Harbor Basin and entrance channel to Outer Erie Harbor/Presque Isle Bay and (2) several zones in the Delaware Estuary.

The swimmable use designation was deleted from the Harbor Basin and entrance channel demarcated by United States Coast Guard buoys and channel markers on Outer Erie Harbor/ Presque Isle Bay because boat and shipping traffic pose a serious safety hazard in this area. This decision was based on a Use Attainability study in 1985. Because the same conditions exist today, no change to the designated use for Outer Erie Harbor/Presque Isle Bay is made.

The Department cooperated with the Delaware River Basin Commission (DRBC), Environmental Protection Agency (EPA) and other DRBC signatory states on a comprehensive Use Attainability study in the lower Delaware River and Delaware Estuary. This study resulted in appropriate recommendations relating to the swimmable use, which DRBC included in water use classifications and water quality criteria for portions of the tidal Delaware River in May 1991. Criteria for enterococcus and changes in application to the fecal coliform criteria in this area reflect the use. The appropriate DRBC standards are referenced in §§ 93.9e and 93.9g (relating to Drainage List E; and Drainage List G). The primary water contact use remains excluded from the designated uses for river miles 108.4 to 81.8 because of continuing significant impacts from combined sewer overflows.

F. Benefits, Costs and Compliance

1. *Benefits*—Overall, the citizens of this Commonwealth will benefit from these recommended changes because they provide the appropriate level of protection for the uses of surface waters in this Commonwealth.

2. *Compliance Costs*—This final-form rulemaking is not expected to impose any significant additional compliance costs on the regulated community. These regulatory changes are not expected to increase total pollution

control expenditures over that which would otherwise be required under existing regulations.

3. *Compliance Assistance Plan*—This final-form rulemaking has been developed as part of an established program that has been implemented by the Department since the early 1980s. The revisions are consistent with and based on existing Department regulations.

This final-form rulemaking will be implemented in part through the National Pollutant Discharge Elimination System (NPDES) permitting program. No additional compliance materials are anticipated. Staff are available to assist regulated entities in complying with the regulatory requirements if any questions arise.

4. *Paperwork Requirements*—The regulatory revision should have no significant paperwork impact on the Commonwealth, its political subdivisions or the private sector.

G. Pollution Prevention

Water quality standards are a major pollution prevention tool because they protect water quality and designated and existing uses. This final-form rulemaking will be implemented through the Department's permit and approval actions. For example, the NPDES bases effluent limitations on the uses of the stream and assures water quality criteria are achieved and designated and existing uses are protected.

H. Sunset Review

This final-form rulemaking will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

I. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 1 2004, the Department submitted a copy of the proposed rulemaking published at 33 Pa.B. 5190, to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate and House Environmental Resources and Energy Committee for review and comment.

Under section 5(c) of the Regulatory Review Act (71 P. S. § 745.5(c)), the Department provided IRRC and the Committees with copies of the comments received, as well as other documentation. The Board has considered all public comments in preparing this final-form rulemaking. Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), this final-form rulemaking was deemed approved by the House and Senate Committees on November 3, 2004. Under section 5.1(e) of the Regulatory Review Act, IRRC met on November 4, 2004, and approved the final-form rulemaking.

J. Findings of the Board

The Board finds that:

(1) Public notice of proposed rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and regulations promulgated thereunder at 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law. In addition, two Board hearings were held. All comments were considered.

(3) This final-form rulemaking does not enlarge the purpose of the proposal published at 33 Pa.B. 5190.

(4) This final-form rulemaking is necessary and appropriate for administration and enforcement of the authorizing acts identified in Section C of this order.

K. Order of the Board

The Board, acting under the authorizing statutes, orders that:

(a) The regulations of the Department, 25 Pa. Code Chapter 93, are amended by amending §§ 93.1, 93.2, 93.6, 93.7, 93.8, 93.9, 93.9a, 93.9b, 93.9c, 93.9d, 93.9e, 93.9f, 93.9i, 93.9l, 93.9m, 93.9o, 93.9q and 93.9s to read as set forth in Annex A, with ellipses referring to the existing text of the regulation.

(b) The Chairperson of the Board shall submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for approval and review as to legality and form, as required by law.

(c) The Chairperson shall submit this order and Annex A to IRRC and the Committees as required by the Regulatory Review Act.

(d) The Chairperson of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau, as required by law.

(e) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

Annex

TITLE 25. ENVIRONMENTAL PROTECTION PART I. DEPARTMENT OF ENVIRONMENTAL PROTECTION

Subpart C. PROTECTION OF NATURAL RESOURCES

ARTICLE II. WATER RESOURCES

CHAPTER 93. WATER QUALITY STANDARDS GENERAL PROVISIONS

§ 93.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

* * * * *

High Quality Waters—Surface waters having quality which exceeds levels necessary to support propagation of fish, shellfish, and wildlife and recreation in and on the water by satisfying § 93.4b(a).

Hypolimnion—The cooler, denser, lower layer in a naturally stratified lake, pond or impoundment.

* * * * *

§ 93.2. Scope.

(a) This chapter sets forth water quality standards for surface waters of this Commonwealth, including wetlands. These standards are based upon water uses

which are to be protected and will be considered by the Department in implementing its authority under The Clean Streams Law and other statutes that authorize protection of surface water quality. Nothing in this chapter shall be construed to diminish or expand the authority of the Department to regulate surface water quality as authorized by statute.

(b) When an interstate or international agency under an interstate compact or international agreement establishes water quality standards regulations applicable to surface waters of this Commonwealth, including wetlands, more stringent than those in this title, the more stringent standards apply.

WATER QUALITY CRITERIA

§ 93.6. General water quality criteria

(a) Water may not contain substances attributable to point or nonpoint source discharges in concentration or amounts sufficient to be inimical or harmful to the water uses to be protected or to human, animal, plant or aquatic life.

(b) In addition to other substances listed within or addressed by this chapter, specific substances to be controlled include, but are not limited to, floating materials, oil, grease, scum and substances that produce color, tastes, odors, turbidity or settle to form deposits.

§ 93.7. Specific water quality criteria.

<i>Parameter</i>	<i>Symbol</i>	<i>Criteria</i>	<i>Critical Use*</i>
		* * * * *	
Color	Col	Maximum 75 units on the platinum-cobalt scale; no other colors perceptible to the human eye.	PWS
Dissolved Oxygen		The following specific dissolved oxygen criteria recognize the natural process of stratification in lakes, ponds and impoundments. These criteria apply to flowing waters and to the epilimnion of a naturally stratified lake, pond or impoundment. The hypolimnion in a naturally stratified lake, pond or impoundment is protected by the narrative water quality criteria in § 93.6 (relating to general water quality criteria). For nonstratified lakes, ponds or impoundments, the dissolved oxygen criteria apply throughout the lake, pond or impoundment to protect the critical uses.	See the following table.
	DO ₁	For flowing waters, minimum daily average 6.0 mg/l; minimum 5.0 mg/l. For lakes, ponds and impoundments, minimum 5.0 mg/l.	CWF HQ-WWF HQ-TSF
	DO ₂	Minimum daily average 5.0 mg/l; minimum 4.0 mg/l.	WWF
	DO ₃	For the period February 1 to July 31 of any year, minimum daily average 6.0 mg/l; minimum 5.0 mg/l. For the remainder of the year, minimum daily average 5.0 mg/l; minimum 4.0 mg/l.	TSF
	DO ₄	Minimum 7.0 mg/l.	HQ-CWF

§ 93.8. Development of site-specific water quality criteria.

(a) The Department will consider a request for site-specific criteria for protection of aquatic life, human health or wildlife when a person demonstrates that there exist site-specific biological or chemical conditions of receiving waters which differ from conditions upon which the water quality criteria were based. Site-specific criteria may be developed for use only in place of current Statewide or regional (such as the Great Lakes systems) criteria. The request for site-specific criteria shall include the results of scientific studies for the purpose of:

(1) Defining the areal boundaries for application of the site-specific criteria which will include the potentially affected wastewater dischargers identified by the Department, through various means, including, but not limited to, the total maximum daily load (TMDL) process de-

scribed in Chapter 96 (relating to water quality standards implementation) or biological assessments.

(2) Developing site-specific criteria which protect its existing use and designated use.

(b) Scientific studies shall be performed in accordance with the procedures and guidance in the Water Quality Standards Handbook (EPA 1994), as amended and updated, guidance provided by the Department or other scientifically defensible methodologies approved by the Department.

(c) Prior to conducting studies specified in subsections (a) and (b), a proposed plan of study shall be submitted to and approved by the Department.

(d) Signed copies of all reports including toxicity test data shall be submitted to the Department within 30 days of completion of the tests.

(e) If as a result of its review of the report submitted, the Department determines that a site-specific criterion is appropriate, the Department will, for site-specific changes to criteria in § 93.7 (relating to specific water quality criteria), prepare a recommendation to the EQB in the form of proposed rulemaking, incorporating that criterion for the water body segment. The site-specific changes to the criteria will become effective for the water body segment following adoption by the EQB as final rulemaking and publication in the *Pennsylvania Bulletin*.

(f) A person challenging a Department action under this section shall have the burden of proof to demonstrate that the Department's action does not meet the requirements of this section.

§ 93.9. Designated water uses and water quality criteria.

(a) The tables in §§ 93.9a—93.9z display designated water uses and water quality criteria in addition to the water uses and criteria specified in Tables 2 and 3. Designated uses shall be protected in accordance with Chapters 95 and 96 (relating to wastewater treatment requirements; and water quality standards implementation) and any other applicable State and Federal

laws and regulations. The tables also indicate specific exceptions to Tables 2 and 3 on a stream-by-stream or segment-by-segment basis by the words “add” or “delete” followed by the appropriate symbols described elsewhere in this chapter. The county column in §§ 93.9a—93.9z indicates the county in which the mouth of the stream is located. Abbreviations used in the Stream and the “Zone” columns are as follows:

FAS—Federal Aid Secondary Highway

I—Interstate Highway

LR—Pennsylvania Legislative Route

RM—River Mile; river miles are used to indicate the distance from a point on the waterbody to its mouth and are based on the DEP's River Mile Index

SR—Pennsylvania State Route

T—Township Road

UNT—Unnamed Tributaries

US—United States Federal Route

The State Board of Funeral Directors (Board) proposes to amend § 13.202 (relating to unprofessional conduct) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking is authorized under sections 11(a)(5) and 16(a) of the Funeral Director Law (act) (63 P. S. §§ 479.11(a)(5) and 479.16(a)).

Background, Need and Description of the Proposed Amendment

Section 11(a)(5) of the act authorizes the Board to discipline licensees for "misconduct in the carrying on of the profession" of funeral director. Although the act does not define the term "misconduct," the Board in its disciplinary actions has applied prior court interpretation of the term. See, for example, *Toms v. State Board of Funeral Directors*, 800 A.2d 342, 349 (Pa. Cmwlth. 2002) (misconduct is a breach of the generally accepted canons of ethics and propriety governing the reverential and respectful burial of the dead). Acting under its statutory authority, the Board has listed in § 13.202 various acts that the Board considers to be misconduct. Recent disciplinary cases before the Board concerning professional misconduct have inspired the Board to expand that list. Including acts of misconduct in the regulation serves to put licensees on notice of what the Board considers to be misconduct.

A funeral director might come into possession of funds of a decedent or intended for a decedent, even if the funeral director does not provide funeral goods or services for that decedent. Proposed § 13.202(13) would prohibit a funeral director from retaining funds for goods or services that the funeral director has not provided or that exceed the value of funeral goods and services that the funeral director has provided. This provision would permit the funeral director a reasonable amount of time to ascertain that any person to whom the funeral director would transfer the funds is entitled to receive them.

Section 8 of the act (63 P. S. § 479.8) sets forth various forms of organization that may engage in the practice of funeral directing, including as sole proprietor or partnership and certain corporations. Anyone practicing funeral directing in any of these forms must be licensed by the Board. Proposed § 13.202(14) would prohibit a funeral director from performing funeral director services on behalf of an establishment that the funeral director knows, or should know, is not properly licensed to engage in funeral directing.

A funeral director shall release a decedent's remains upon request of the family. Section 13.201(5) (relating to professional responsibilities) provides that the professional responsibility of a funeral director includes releasing remains to the funeral director chosen by the family if

the remains were removed prior to contacting the family. A funeral director may not refuse to release a decedent's remains as a means to enforce payment for services or merchandise. See *Toms* at 349. Proposed § 13.202(15) would codify this prohibition. Enforcement of a payment obligation must be through other means, such as subsequent billing or legal process.

Because it is the last opportunity to do so, proposed § 13.202(16) would prohibit a funeral director from refusing a reasonable request of a member of the decedent's immediate family to pay final respects. The immediate family would include the decedent's spouse, parents, grandparents, siblings, children and grandchildren. The provision does not require the funeral director to permit any of these persons to participate in a funeral service. Instead, upon request, the funeral director shall make available a reasonable opportunity to pay final respects, regardless of any instructions from the funeral director's customer who is paying for the funeral director's services.

Section 13(c) of the act (63 P. S. § 479.13(c)) prohibits a person who is not licensed as a funeral director, either directly or through an agent, from entering into a contract with a person then living to provide funeral services at the time of the person's subsequent death. This provision prohibits any unlicensed person from engaging in preneed sales, even on behalf of a funeral director. See *Ferguson v. State Board of Funeral Directors*, 566 A.2d 670 (Pa. Cmwlth. 2001), appeal denied, 566 Pa. 670, 782 A.2d 549. Proposed § 13.202(17) would prohibit a funeral director from aiding any person or entity that the funeral director has reason to believe is attempting through unlicensed persons or entities to engage in preneed sales.

Additionally, the Board proposes to amend § 13.202(11) concerning the requirement that a funeral director obtain permission from the family prior to furnishing embalming or other services or merchandise. A funeral director might be unable to locate family members, despite making reasonable good-faith attempts to locate them. However, there may be very good reasons why certain services must be provided at that time. The proposed amendment would permit the funeral director to provide these necessary services, so long as the funeral director has no reason to think the family would refuse. This proposed amendment is consistent with the Federal Trade Commission's Amended Funeral Rule (15 CFR 453.5), which provides that it is an unfair or deceptive trade practice for a provider of funeral services to embalm a deceased human body for a fee unless the law requires embalming, the family has given prior approval or the provider is unable to contact an appropriate person to give approval for embalming after exercising due diligence, has no reason to believe the family does not want embalming and obtains subsequent approval for embalming already performed. In general, the proposed amendment to § 13.202(11) would permit a funeral director to charge for funeral services provided prior to obtaining permission by obtaining that permission after the fact. However, the proposed amendment to § 13.202(11) would not permit a funeral director to charge for embalming provided prior to obtaining permission, unless the embalming is necessary and appropriate for other services, such as public viewing, selected by the person paying for the overall funeral goods and services.

Impact of the Proposed Rulemaking

The Board solicited input from and provided an exposure draft of this proposed amendment to funeral directors and organizations. In addition, the Board considered the impact the amendment would have on the regulated community and on public health, safety and welfare. The Board finds that the proposed amendment addresses a compelling public interest as described in this preamble.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose no additional paperwork requirements upon the Commonwealth, political subdivisions or the private sector.

Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 2, 2005, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

(i) A funeral director who has made reasonable attempts, without success, to locate family members or other persons authorized by law to make funeral arrangements for a deceased may provide embalming or other services without having obtained permission when there is a legitimate need to provide that service at that time and no facts known to the funeral director suggest that any authorized person, if requested, would refuse to give permission.

(ii) A funeral director who has provided funeral service without obtaining prior permission may not charge for the service unless:

(A) The provision of services without prior permission is authorized by this paragraph.

(B) The person paying for funeral goods and services agrees to pay for the previously unauthorized service.

A funeral director may preserve the funds for a reasonable amount of time for a person to demonstrate a legal entitlement to receive the funds or to receive payment of funds owed to the decedent.

(14) Performing funeral services on behalf of a funeral entity that the funeral director knew, or should have known, was not in compliance with section 8 of the act (63 P. S. § 479.8), regarding conduct of business.

(16) Refusing the reasonable request of any known member of a decedent's immediate family the opportunity to pay final respects, regardless of who is paying for funeral services or merchandise. (17) Aiding any person or entity that the funeral director has reason to believe is attempting

through unlicensed persons or entities to engage in the sale of funeral services for a person then living.

STATE BOARD OF MEDICINE

[49 PA. CODE CHS. 16 AND 18]

Registration and Practice of Acupuncturists

The State Board of Medicine (Board) proposes to amend §§ 16.11, 16.13, 18.11—18.17 and 18.19 regarding the registration and practice of acupuncturists to read as set forth in Annex A.

A. *Effective Date*

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

B. *Statutory Authority*

The statutory authority for this proposal is the act of May 16, 2002 (P. L. 326, No. 49) (Act 49) which amended the Acupuncture Registration Act (act) (63 P. S. §§ 1801—1806). Section 3 of the act (63 P. S. § 1803) authorizes the Board to promulgate regulations as necessary to regulate the practice of acupuncture.

C. *Background and Purpose*

The proposed rulemaking would amend the Board's existing regulations so that they comport with the Act 49 amendments to the act.

D. *Description of Amendments*

Sections 16.11 and 16.13 (relating to licenses, certificates and registrations; and licensure, certification, examination and registration fees) would be amended to delete references to acupuncture supervisor and fees for acupuncture supervisor registration. Section 18.11 (relating to definitions) would be amended to include the statutorily expanded definition of "acupuncture" to include the use of supplemental techniques, the statutorily established definition of an "acupuncture educational program" and the statutorily established definition of "supplemental techniques." Section 18.11 would also be amended to delete definitions rendered unnecessary by Act 49. Specifically, the definition of "acupuncture program" would be deleted as superseded by the term "acupuncture educational program." Definitions regarding supervision of acupuncturists would also be deleted because Act 49 eliminated the supervisory requirement in regard to the practice of acupuncture. Section 18.11 would also be amended to reflect the name change of the National Commission for the Certification of Acupuncturists and Oriental Medicine.

Sections 18.12—18.15 would be amended and §§ 18.16 and 18.17 (relating to responsibilities of acupuncturist supervisor; and notice responsibilities) would be deleted

to delete references to acupuncturist supervisor and provisions pertaining to the supervision of the practice of acupuncture.

Section 18.15 (relating to practice responsibilities of acupuncturist who is not a medical doctor) would be amended to incorporate statutorily established requirements that the acupuncturist ensure that prior to the application of acupuncture treatments the patient obtain a written referral from a licensed physician, that the patient has undergone a medical diagnostic examination, and that the results of the examination and the referral are maintained in the patient's record. Existing provisions pertaining to the acupuncturist's obligation to consult with the referring physician as necessary would be retained.

Lastly, § 18.19 (relating to registration during transitional period) pertains to outdated registration requirements under the original act and, therefore, would be deleted.

E. *Fiscal Impact and Paperwork Requirements*

The proposed rulemaking would have no adverse fiscal impact or additional paperwork requirements imposed on the Commonwealth, its political subdivisions or the private sector.

F. *Sunset Date*

The Board continuously monitors its regulations. Therefore, no sunset date has been assigned.

G. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 2, 2005, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

H. *Public Comment*

Interested persons are invited to submit written comments, recommendations or objections regarding the proposed rulemaking to Joanne Troutman, Health Licensing Division, Bureau of Professional and Occupational Affairs, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Refer to Acupuncture Registration when submitting comments.

STATE BOARD OF NURSING

[49 PA. CODE CH. 21]

Dietitian-Nutritionists

The State Board of Nursing (Board) proposes to add Subchapter G (relating to dietitian-nutritionists) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking implements the act of June 29, 2002 (P.L. 651, No. 99) (Act 99), which grants the Board authority to regulate the practice of dietetics and nutrition and licensing of dietitian-nutritionists in this

Commonwealth. The proposed rulemaking is authorized under section 2.1(k) of the Professional Nursing Law (act) (63 P.S. § 212.1(k)), which authorizes the Board to establish regulations for the practice of dietetics-nutrition.

Background and Need for the Proposed Rulemaking

Act 99 became effective on September 29, 2002. Until September 27, 2003, persons registered by the American Dietetic Association (ADA) as registered dietitians (RD) were eligible for licensure under the grandfathering provision of section 5(e) of the act (63 P.S. § 215(e)) without evidence of examination. In addition, until September 27, 2003, persons who met the requirements of section 6 of the act (63 P.S. § 216) who had been engaged in the practice for 5 of the preceding 7 years were eligible for licensure without examination. The Board proposes to add Subchapter G to establish procedures for issuance and biennial renewal of dietitian-nutritionist licenses and for the establishment of standards of professional conduct of licensed dietitian-nutritionists (LDNs).

Description of Proposed Amendments

The following is a summary of the sections of Subchapter G and, when appropriate, an explanation of the Board's rationale for the regulations.

Proposed General Provisions

Section 21.701 (relating to definitions) provides definitions for key terms used throughout the proposed rulemaking that are not defined in the act. Section 21.702 (relating to scope) provides a general statement of the scope of subchapter G. Subchapter G is limited to LDN licensees and applicants.

Section 21.703 (relating to applicability of general rules) provides for the applicability of the general rules of administrative practice and procedure to the activities of and proceedings before the Board regarding Subchapter G. This section is included to direct applicants and licensees to the procedural provisions that govern the Board's actions.

Section 21.704 (relating to matters related to allegations of sexual impropriety or violation) provides for specific procedural rules relevant in cases involving allegations of sexual impropriety or violation. These rules regarding defenses and presentation of opinion or reputation evidence protect alleged victims of sexual impropriety or violation and are consistent with the procedural rules applied in those cases involving a professional or practical nurse.

Section 21.705(a) (relating to fees) provides for fees related to the Board's administration of licensing and disciplining LDNs. These fees are consistent with the fees charged to professional nurses, who have similar educational levels and levels of practice as LDNs. The fees for certification and verification of licensure are established by the Bureau of Professional and Occupational Affairs fees. Section 21.705(b) and (c) provides instructions to applicants regarding the two examinations approved by the Board under section 6(b)(4) of the act.

Proposed Sections Regarding Responsibilities of LDNs

Section 21.711 (relating to professional conduct) provides rules of professional conduct for LDNs. Generally, the rules of professional conduct provide for the provision of information to clients, the objectivity of the LDN, the use of the title LDN and recordkeeping. The regulation prohibits: aiding the violation of law or Board regulation; discrimination in providing services; knowingly permit-

ting another to use the licensee's license; misappropriating from an employer or patient; soliciting, borrowing or misappropriating from a patient or patient's family; leaving an assignment without proper notification; falsifying records; sexual improprieties or violations; misleading or false advertising; practicing while affected by a drug, emotional or mental disability that could affect practice; accepting or treating a client or patient unnecessarily; and accepting or receiving compensation for referrals. The rules of professional conduct are consistent with the professional conduct guidelines of the ADA and represent the acceptable and prevailing standards of conduct for LDNs Nationwide. Some representatives of the profession suggested that the Board adopt the guidelines of the ADA. Because the Board has no control over how the ADA might alter its guidelines, the Board has proposed setting forth standards of professional practice in its regulations.

Proposed Licensure Requirements

Sections 21.721—21.723 and 21.725 concern education and the examination for licensure, inactive status, renewal of licensure and continuing education. Sections 5(b) and (c) and 6(b)(2) of the act require the Board to approve educational programs in dietetics-nutrition. Section 6(b)(4) of the act requires the Board to approve an examination for licensure. In § 21.721 (relating to education and examination of applicants), the Board adopts as approved educational programs those educational programs approved by the Commission on Accreditation for Dietetics Education or the American College of Nutrition.

Section 6(b)(4) of the act requires the Board to approve an examination for licensure as an LDN. Section 21.721 adopts the Registration Examination for Registered Dietitians (RD examination) and the Examination of the Certification Board for Nutrition Specialists (CBNS examination) as the examinations approved by the Board for licensure. These examinations are widely accepted. The RD examination is taken by persons with an undergraduate degree in nutrition, whereas the CBNS examination is taken by persons with a graduate degree in nutrition.

Section 21.722 (relating to license renewal) sets forth the requirements for biennial license renewal. LDN licenses will expire September 30 of even numbered years. This date was chosen based on the renewal cycles of the Board's approximately 250,000 nurse licensees to enable LDNs to have their license renewal applications processed in a timely and efficient manner and to give LDNs a maximum period of initial licensure prior to biennial renewal. The requirements for license renewal are consistent with the act and the regulations governing nurses. See §§ 21.29 and 21.156 (relating to expiration and renewal of license; and renewal of license).

Section 21.723 (relating to continuing education) sets forth the Board's requirements for continuing education. Section 21.723(a) provides that one credit will be given for each 50-minute clock hour of continuing education activity because a 50-minute clock hour is the standard time period for 1 hour of academic instruction in American universities. Thirty hours of continuing education biennially is the licensure renewal requirement set forth in section 11(c) of the act (63 P.S. § 221(c)). Section 11(c) of the act provides for Board approval of continuing education for LDNs. Section 21.723(b) sets forth the requirements that continuing education courses must meet to be accepted by the Board for licensure renewal.

During the development of the proposed rulemaking, several representatives of the dietetic profession ex-

pressed concern about the continuing education requirements in the act and this proposed rulemaking. First, concerns were raised because the requirement of 30 hours of continuing education for biennial renewal is not identical to the continuing education requirement for current registration by the Commission on Dietetic Registration (CDR) for RDs. Both RDs and certified nutrition specialists shall complete 75 hours of continuing education every 5 years. The Board explained to these commentators that it does not have the authority to alter the statutory requirement.

Second, a question was raised as to why all continuing education courses that would meet the requirement for maintaining current RD registration were not Board-approved. The Board approved only the continuing education courses which are substantive learning experiences relating to the field of nutrition and dietetics including case presentations, patient case studies, certain certificate programs or individual study programs, interactive workshops, lectures and seminars, and postbaccalaureate residency and fellowship programs. The Board specifically did not approve certain types and subjects of continuing education that are approved for maintenance of the RD including courses on office management or computer skills, experiential skill development, journal clubs, poster presentations, professional leadership positions or courses and professional reading. The Board's determination was based on its evaluation of the types and subject matter of continuing education that offer substantive learning experiences related directly to the practice of dietetics-nutrition.

Section 21.723(c) requires licensees to retain documentation evidencing their completion of Board-approved continuing education for at least 5 years and to submit this documentation to the Board upon request. The dietitian commentators informed the Board that all continuing education courses for RDs issue certificates of completion, as these certificates are required for RD renewal. In addition, all CNSs shall submit documentation of their attendance certificates to the CBNS when applying for recertification. Therefore, the Board anticipates no difficulties in licensees being able to comply with this provision.

Subsection 21.723(d) permits an LDN to request a waiver of all or part of the continuing education requirement in cases of verified hardship. The Board acknowledges that there is no specific statutory section that provides that the Board may grant a waiver of the continuing education requirement. The CDR and the CBNS do not grant waivers of the continuing education requirement for renewal of the RD or CNS; however, the continuing education requirements for these bodies must be fulfilled over a period of 5 years. The Board is generally granted discretion in matters involving licensure. When a continuing education requirement must be completed in 2 years, and given individual circumstances such as illness, pregnancy or military service, the Board believes it should exercise discretion in granting a waiver of the continuing education requirement. Only in rare cases of extreme hardship would a waiver encompass elimination of the continuing education requirement; it is more likely the Board would grant an extension of time in which to complete the requirement. Continuing education provides an important safeguard to the citizens of this Commonwealth. The Board believes that it should exercise its statutory discretion in licensure matters in considering requests for waivers when balanced against protection of the citizens of this Commonwealth accorded in the continuing education requirement.

Section 21.724 is left open for future use by the Board.

Section 21.725 (relating to inactive status) sets forth the rules related to a licensee placing his license on inactive status and later returning the license to active status. A license that has been on inactive status cannot be renewed unless the licensee submits proof of completing the continuing education requirement during the biennial period preceding reactivation. Consistent with the requirements for nurses, licensees who have had their licenses on inactive status for 5 consecutive years are required to retake the licensure examination or demonstrate they have held an active license in another state for at least 2 out of the last 5 years. These provisions ensure licensees will possess current knowledge, thereby protecting the citizens of this Commonwealth.

The Board sent these proposed regulations to numerous nursing and dietetics associations and individuals and hospital systems. These organizations were: Pennsylvania Dietetic Association, American Association of Neuroscience Nurses, Emergency Nurses Association, GPC-Oncology Nursing Society, The Hospital and Healthsystem Association of Pennsylvania, Intravenous Nurse Society, Licensed Practical Nurses Association of Pennsylvania, Pennsylvania Association of Home Health Agencies, Pennsylvania Association of Private School Administrators, Pennsylvania Association of Non-Profit Homes for the Aging, Pennsylvania Association of Nurse Anesthetists, Pennsylvania Association of Practical Nursing Program Administrators, Pennsylvania Coalition of Nurse Practitioners, Pennsylvania College of Associate Degree Nursing, Pennsylvania Council of Operating Room Nurses, Pennsylvania Department of Health—Bureau of CH Systems, Pennsylvania Health Care Association, Pennsylvania Higher Education Nursing Schools Association, Pennsylvania League for Nursing, Inc., Pennsylvania Organization of Nurse Leaders, Pennsylvania Society of Gastroenterology Nurses and Associates, Pennsylvania State Nurses Association, School Nurse Section, Southwestern Pennsylvania Organization for Nurse Leaders, Pennsylvania Medical Society, Nurses of Pennsylvania, Pennsylvania Association of School Nurses and Practitioners, Pennsylvania Nurses Association and Professional Nursing Resources, Inc. The draft regulations were also sent to individuals who expressed an interest in commenting on the regulations. In addition, the Board considered the impact the regulations would have on the regulated community and on public safety and welfare. The Board finds that the proposed regulations address a compelling public interest as described in this Preamble.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The Board is self-supporting. The Board will experience an increase in paperwork due to processing applications and renewals and pursuing disciplinary actions. However, the cost of providing these services will be borne by the licensees and applicants.

Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 2, 2005, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of

the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding this proposed rulemaking to Ann Steffanic, Board Administrator, State Board of Nursing, P. O. Box 2649, Harrisburg, PA 17105-2649, www.dos.state.pa.us within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

STATE BOARD OF PHARMACY

[49 PA. CODE CH. 27]

Biennial Renewal Fees

The State Board of Pharmacy (Board) proposes to amend § 27.91 (relating to schedule of fees) to read as set forth in Annex A. The proposed rulemaking would increase the biennial license renewal fee for pharmacists from \$120 to \$150 and the pharmacy permit biennial renewal fee from \$75 to \$100.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*. The new fees will take effect for the pharmacist biennial period beginning October 1, 2006.

Statutory Authority

The proposed rulemaking is authorized under section 8.2(a) of the Pharmacy Act (act) (63 P. S. § 390-8.2(a)). In addition, section 8.2(b) of the act requires the Board to increase fees by regulation in an amount adequate to meet the minimum enforcement efforts required by the act.

Background and Need for Amendment

The Board is required by law to support its operations from revenue it generates from fees, fines and civil penalties. In accordance with section 8.2 of the act, if the Board anticipates that its revenue will not meet its expenditures, the Board must increase its revenue. The Board raises virtually all of its operating revenue through fees. The biennial license renewal fees are the most substantial revenue generating fees of all the fees charged by the Board. The Board's current biennial license renewal fees were established by regulation in 1998.

At its February 17, 2004, Board meeting and again at its April 20, 2004, Board meeting, the Bureau of Finance and Operations (BFO) presented a summary of the Board's revenues and expenses for Fiscal Years (FY) 2001-2002 and 2002-2003 and projected revenues and expenses for FY 2003-2004 through FY 2010-2011. The summary, presented in the following table, demonstrated that the Board must raise fees to meet or exceed projected expenditures to comply with section 8.2(b) of the act.

FY 07-08 projected expenses	1,683,000.00
Remaining balance	(1,166,952.44)
2008-2009 beginning balance	(1,166,952.44)
FY 08-09 projected revenue	2,094,000.00
FY 08-09 projected expenses	1,733,000.00

Remaining balance	(2,038,952.44)
2010-2011 beginning balance	(2,038,952.44)
FY 10-11 projected revenue	2,094,000.00
FY 10-11 projected expenses	1,785,000.00
Remaining balance	(1,729,952.44)

As the foregoing indicates, at the close of FY 2005-2006, the Board's expenses will exceed its revenues by \$443,952.44. While the pharmacist renewal will bring the Board's account back to a positive balance in FY 2006-2007, the BFO estimates that in FY 2007-2008, the deficit will increase to \$1,166,952.44 if fees are not increased. The BFO anticipates that the proposed new fees will enable the Board to recapture the FY 2005-2006 deficit and meet its estimated expenditures for the FY 2006-2007 biennial cycle. The Board would operate at a slight deficit in the FY 2007-2008 pharmacy permit biennial renewal period, but that would be recaptured in the FY 2008-2009 pharmacist license biennial renewal period and the projections out to FY 2010-2011 show the Board carrying a positive balance forward.

The increases in the Board's biennial expenses occurred primarily in law enforcement costs and legal office costs. Law enforcement (the Bureau of Enforcement and Investigation) expenditures increased from approximately \$507,412 in FY 2002-2003 to approximately \$713,280 in FY 2003-2004. The legal office (division of the Bureau of Professional and Occupational Affairs) expenditures increased from approximately \$288,247 in FY 2002-2003 to approximately \$362,304 in FY 2003-2004.

The legal office saw an increase in the number of cases closed in calendar years 1998 through 2003. Beginning in 1998 the number of disciplinary sanctions imposed increased markedly. From 1994 through 1997 the number of disciplinary sanctions imposed never reached 100, 95 sanctions being the highest in 1995. However, from 1998 through 2003 the number of sanctions imposed never dipped below 125. Furthermore, the Board has undertaken several regulatory initiatives. Two large regulation packages, Technology and Automation and the regulations required under the act of June 28, 2002 (P. L. 673, No. 102), have been proposed, as well as other regulation packages the Board has undertaken to revise and update its regulations.

The Board carefully reviewed several options in fee increases to ensure the lowest fee increase possible while keeping the Board out of a long run deficit. In addition to increasing fees, the Board is looking at ways to stream-

line procedures to cut costs, but the fee increases are still necessary to maintain a positive balance in the Board account in the long run. Finally, in developing the proposed rulemaking, the Board reviewed fees of other states. It found that the proposed fees are comparable to the renewal fees charged in surrounding states and should cause no competitive disadvantage in this Commonwealth.

Description of Proposed Amendments

Based upon the expense and revenue estimates provided to the Board, the Board proposes to amend § 27.91 to increase the fee for biennial renewal of licenses for pharmacists from \$120 to \$150 and increase the biennial fee for pharmacy permits from \$75 to \$100. By this increase, the Board will recoup the FY 2005-2006 projected deficit in FY 2006-2007. A smaller deficit in FY 2007-2008 is projected. However, by FY 2008-2009, the Board's account should continue to carry a positive balance.

Fiscal Impact

The proposed rulemaking will increase the biennial renewal fee for pharmacists and pharmacies. A pharmacist will pay an additional \$30 for biennial renewal. A pharmacy will pay an additional \$25 for biennial renewal. The proposed rulemaking should have no other fiscal impact on the private sector, the general public or political subdivisions.

Paperwork Requirements

The proposed rulemaking will require the Board to alter some of its forms to reflect the new biennial renewal fees; however, the proposed rulemaking should not create additional paperwork for the private sector.

Sunset Date

The act requires that the Board monitor its revenue and expenses on a fiscal year and biennial basis. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on February 2, 2005, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Melanie Zimmerman, Executive Secretary, State Board of Pharmacy, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following

publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

STATE BOARD OF SOCIAL WORKERS, MARRIAGE AND FAMILY THERAPISTS AND PROFESSIONAL COUNSELORS

[49 PA. CODE CHS. 47—49]

Supervised Clinical Experience

The State Board of Social Workers, Marriage and Family Therapists and Professional Counselors (Board) proposes to amend §§ 47.12c, 48.13 and 49.13 (relating to licensed clinical social worker; licensed MFT; and licensed professional counselor) to read as set forth in Annex A. The proposed rulemaking would exclude group supervisory sessions within educational, institutional and agency settings from the requirement that supervisors supervise no more than six supervisees at the same time.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking is authorized under section 6(2) of the Social Workers, Marriage and Family Therapists and Professional Counselors Act (act) (63 P.S. § 1906(2)).

Background and Purpose

Section 7(d)(3), (e)(3) and (f)(3) of the act (63 P.S. § 1907(d)(3), (e)(3) and (f)(3)) requires an applicant for licensure as a clinical social worker, marriage and family therapist and professional counselor to, among other things, complete hours of supervised clinical experience. Sections 47.12c(b)(6), 48.13(b)(6) and 49.13(b)(6) concerning supervised clinical experience for licensed clinical social workers, licensed marriage and family therapists and licensed professional counselors currently prohibit a supervisor from supervising more than six supervisees at the same time. However, the Board recognizes that group supervision often occurs within educational, institutional and agency settings. In these settings, the Board recognizes that the prohibition of more than six supervisees is overly restrictive and enforcement would result in the exclusion of these sessions from qualifying as supervised clinical experience for purposes of licensure qualification. Accordingly, the Board believes that an exception should be made for these types of group supervisory settings.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will have no fiscal impact and impose no additional paperwork requirements on the Board or its licensees.

The proposed rulemaking should not impose any legal, accounting or reporting requirements on the regulated community.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on February 2, 2005, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding the proposed rulemaking to Sandra Matter, Administrative Assistant, State Board of Social Workers, Marriage and Family Therapists and Professional Counselors, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days of publication of this proposed rulemaking in the *Pennsylvania Bulletin*. DEPARTMENT OF ENVIRONMENTAL PROTECTION

[25 PA. CODE CH. 16]

Water Quality Toxics Management Strategy

The Department of Environmental Protection (Department) is amending Chapter 16 (relating to water quality toxics management strategy—statement of policy). This statement of policy complements the review and revision of Chapter 93 (relating to water quality standards). See 35 Pa.B. 1197 (February 12, 2005) for the text of the final-form rulemaking.

A. Effective Date

These final amendments will be effective upon publication in the *Pennsylvania Bulletin*.

B. Contact Persons

Brezina, Chief, Division of Water Quality Assessment and Standards, Bureau of Water Supply and Wastewater Management, 11th Floor, Rachel Carson State Office Building, P. O. This statement of policy is available electronically through Department of Environmental Protection's (Department) website: www.dep.state.pa.us.

C. Statutory Authority

This statement of policy is amended under sections 5(b)(1) and 402 of The Clean Streams Law (35 P.S. §§ 691.5(b)(1) and 691.402), which authorize the Board to develop and adopt rules and regulations to implement provisions of The Clean Streams Law and section 1920-A

of The Administrative Code of 1929 (71 P.S. § 510-20), which grants to the Board the power and duty to formulate, adopt and promulgate rules and regulations for the proper performance of the work of the Department. In addition, section 303 of the Federal Clean Water Act (33 U.S.C.A. § 1313) sets forth requirements for water quality standards and the Federal regulations at 40 CFR 131.32 (relating to Pennsylvania) set forth certain requirements for portions of the Commonwealth's antidegradation program. Section 303(c)(1) of The Clean Water Act requires that states periodically, but at least once every 3 years, review and revise as necessary, their water quality standards. This statement of policy is part of the Commonwealth's current triennial review of its water quality standards.

D. Background and Summary

The Commonwealth's water quality standards in Chapters 16 and 93 implement the provisions of section 5 and 402 of The Clean Streams Law and section 303 of the Federal Clean Water Act. Water quality standards consist of the uses of the surface waters of this Commonwealth, the specific numeric and narrative criteria necessary to achieve and maintain those uses and antidegradation regulations. Chapter 16 is a water quality policy for managing toxic pollutants. It sets forth the guidelines for development of criteria for toxic substances, and lists the water quality criteria and analytical methods and detection limits for toxic substances. Chapter 16 is directly referenced as a support policy document § 93.8a (relating to toxic substances).

The revisions to Chapter 16 will streamline and clarify requirements, update the policy to be consistent with Federal requirements and preserve Pennsylvania-specific requirements to serve the citizens. This statement of policy may affect persons who discharge wastewater into surface waters of this Commonwealth, or otherwise conduct activities, which may impact the waters.

The Department's Water Resources Advisory Committee (WRAC), provided input on the proposed statement of policy at its November 13, 2002, and September 10, 2003, meetings. The proposal was published at 33 Pa.B. 5190 (October 18, 2003) with provision for a 60-day public comment period that closed on December 17, 2003. Comments were received from six commentators as a result of the public comment period and the public hearings. The Department considered all of the public comments received on its proposal in preparing for this statement of policy. The draft statement of policy was discussed with WRAC on July 14, 2004. The valuable input from the public and the collective knowledge and experience drawn from advisory committees and others on this proposal has been utilized to develop a policy which carefully balances the needs of citizens and the regulated community in assuring the protection of this Commonwealth's waters. The comments received on the proposed statement of policy are summarized in Section E.

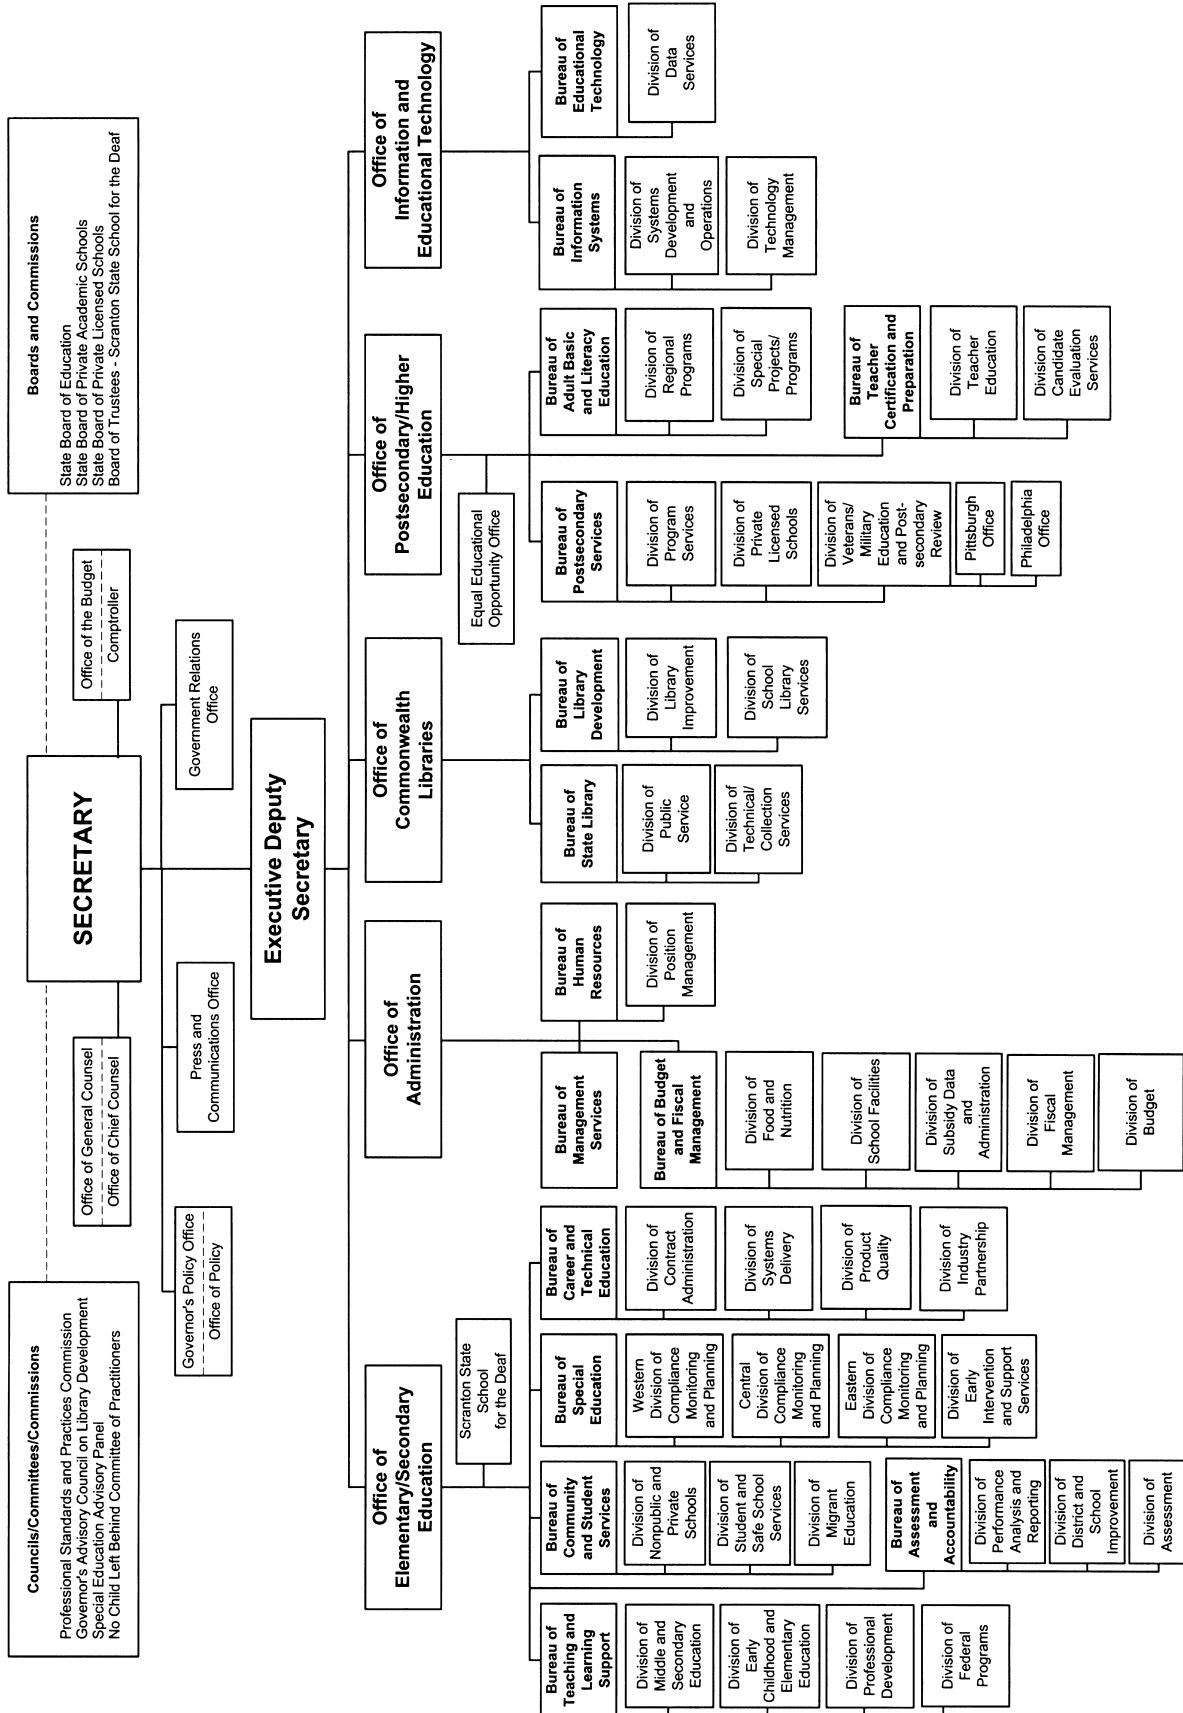

E. Summary of Comments and Responses on the Proposed Amendments

No changes were made to the proposal based on the comments received.

§ 16.32. (relating to threshold level toxic effects)

A comment stated that the Department should adopt the Environmental Protection Agency's (EPA) new fish consumption estimates in calculating its toxics criteria.

DEPARTMENT OF EDUCATION

The Department has not yet developed site-specific data and is considering the most appropriate fish consumption rate for use in updating the criteria at a future time.

§ 16.102. General, Appendix A. Table 1

A comment requested that the Department reexamine the Chapter 16 toxics criteria for comparison to Safe Drinking Water Act maximum contaminant levels (MCLs). The Commonwealth's ambient water quality criteria are developed under the Federal Clean Water Act. Safe Drinking Water Act requirements are different. Nevertheless, many water quality criteria are more stringent than MCLs.

The EPA requested that the Commonwealth consider a new human health criterion for arsenic. The Department will consider adopting the MCL or water quality criterion for arsenic, after the MCL requirements are put into place and the ambient water quality criterion is recommended.

Although requested, the Department is not adopting the EPA's human health criterion for methylmercury because the EPA has not yet developed sufficient implementation guidance for a water quality criterion that is based on concentration in fish and shellfish tissue.

The request to adopt the criteria continuous concentration (CCC) for aluminum did not result in any changes to

this section. The Department has no new information to support the CCC for aluminum.

The comment on the application of the CCC for mercury did not result in any changes. The Commonwealth adopted the EPA's 304(a) recommended aquatic life criterion for mercury based on the 1995 update of the Water Quality Criteria Documents for the Protection of Aquatic Life in Ambient Water (EPA-820-B-96-001, September 1996) and the EPA has not provided scientific rationale for a change.

The Department has prepared a Comment and Response document for the proposed amendments. Copies are available from the Division of Water Quality Assessment and Standards at the address in Section B.

KATHLEEN A. MCGINTY,
Secretary

(Editor's Note: The regulations of the Department, 25 Pa. Code, are amended by amending a statement of policy in §§ 16.24, 16.61, 16.101 and 16.102, Appendix A Table 1 and by establishing Tables 2A and 2B from existing text, with ellipses referring to the existing text.)

Fiscal Note: 7-511. No fiscal impact; (8) recommends adoption.

ARTICLE II. STATEMENTS OF POLICY

CHAPTER 16. WATER QUALITY TOXICS MANAGEMENT STRATEGY—STATEMENT OF POLICY

Subchapter A. GUIDELINES FOR DEVELOPMENT OF CRITERIA FOR TOXIC SUBSTANCES AND WATER QUALITY CRITERIA FOR TOXIC SUBSTANCES

GUIDELINES FOR DEVELOPMENT OF AQUATIC LIFE CRITERIA

§ 16.24. Metals criteria.

(a) The criteria are established to control the toxic portion of a substance in the water column. Depending upon available data, aquatic life criteria for metals are expressed as either dissolved or total recoverable. As information develops, the chemical identifiers for the toxic portion may be added, changed or refined. The criteria form one of the bases for water quality-based effluent limitations, which are expressed as total recoverable metal.

(b) Dissolved criteria are indicated in Appendix A, Table 1 with “*”, and have been developed by applying the most current EPA conversion factors to the total recoverable criteria. The EPA factors are listed in the following Conversion Factors Table.

Conversion Factors Table

	<i>Chronic</i>	<i>Acute</i>	<i>Source</i>
Arsenic	1.000 (As3+)	1.000 (As3+)	1,2
Cadmium	1.101672 – (ln[H]×0.041838)	1.136672 – (ln[H]×0.041838)	2
Chromium VI	0.962	0.982	1,2
Copper	0.960	0.960	1,2
Lead*		1.46203 – (ln[H]×0.041838)	
Mercury	0.85	0.85	1,2
Nickel	0.997	0.998	1,2
Selenium	0.922	0.922	1
Silver	NA	0.85	2
Zinc	0.986	0.978	1,2

*Conversion factor is for both acute and chronic criteria.

Source 1—Final Water Quality Guidance for the Great Lakes System (60 FR 15366, March 23, 1995)

2—Establishment of Numeric Criteria for Priority Pollutants; Revision of Metals Criteria-Interim Final Rule (60 FR 22229, May 4, 1995)

(c) Chemical translators are used to convert dissolved criteria into effluent limitations which are required by Federal regulations to be expressed as total recoverable metal. The default chemical translator used by the Department is the reciprocal of the conversion factor (listed in the Conversion Factors Table) that was used to determine the dissolved criterion.

(d) NPDES dischargers may request alternate effluent limitations by using site-specific water quality characteristics. This is accomplished by performing a site-specific chemical translator study for a dissolved criterion. A water effect ratio (WER) study may also be conducted, based on either total recoverable or dissolved criteria, depending on the form of the criterion.

(e) A WER is a factor that expresses the difference between the measures of the toxicity of a substance in laboratory water and the toxicity in site water. The WER provides a mechanism to account for that portion of a metal which is toxic under certain physical, chemical or biological conditions. At this time, WERs are applicable only to certain metals, which are listed by the EPA in "Guidance on the Determination and Use of Water-Effect Ratios for Metals" (February 1994), as amended and updated. Subject to Departmental approval of the testing and its results, the Department will use the WER to establish an alternate site-specific criterion.

(f) Chemical translator studies must be conducted in accordance with the EPA's interim final document, "The Metals Translator: A Guidance for calculating a total recoverable permit limit from a dissolved criterion" (June 1996), as amended and updated.

(g) Final reports on the studies shall be submitted to the Department within 60 days of completion. Upon approval of the study results, the Department will use the chemical translator or WER, or both, to determine revised effluent limitations.

GREAT LAKES SYSTEM

§ 16.61. Special provisions for the Great Lakes System.

(a) *Definitions.* The following words and terms, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

BAF—Bioaccumulation Factor—The ratio in liters per kilogram of a substance's concentration in tissues of an aquatic organism to its concentration in the ambient water, when both the organism and its food are exposed and the ratio does not change substantially over time.

BCC—Bioaccumulative Chemical of Concern—A chemical that has the potential to cause adverse effects which, upon entering the surface waters, by itself or its toxic transformation product, accumulates in aquatic organisms by a human health BAF greater than 1,000, after

considering metabolism and other physiochemical properties that might enhance or inhibit bioaccumulation, under the methodology in 40 CFR Part 132 Appendix B (relating to Great Lakes Water Quality Initiative). Current BCCs are listed in 40 CFR 132.6, Table 6 (relating to pollutants of initial focus in the Great Lakes Water Quality Initiative).

Great Lakes System—The streams, rivers, lakes and other bodies of surface water within the drainage basin of the Great Lakes in this Commonwealth.

(b) *Water quality criteria for the Great Lakes System.*

(1) *Aquatic life criteria.* Aquatic life criteria for toxic substances in the Great Lakes System will be developed under the methodologies in § 16.22 (relating to criteria development) to the extent they are consistent with 40 CFR Part 132, Appendix A (relating to Great Lakes Water Quality Initiative methodologies for developments of aquatic life values). If there are insufficient data to develop aquatic life criteria for a toxic substance identified in a discharge into these waters, the Department will develop or require a discharger to develop, subject to Department approval, protective aquatic life values using the methodologies in 40 CFR Part 132, Appendix A and guidance issued by the Department. For non-BCCs, WETT may be used in lieu of Tier II values to determine aquatic toxicity.

(2) *Human health criteria.* Human health criteria for the Great Lakes System will be developed using the methods in §§ 16.32 and 16.33 (relating to threshold level toxic effects; and nonthreshold effects (cancer)), except that fish consumption is 15 grams per day. If there are insufficient data to develop human health threshold criteria for a toxic substance identified in a discharge into these waters, the Department will develop, or require the discharger to develop, subject to Department approval, protective human health values using the methodologies in 40 CFR Part 132, Appendix C, Section III, as it relates to Tier II values, and guidance issued by the Department.

(3) *BAFs.* Human health criteria for BCCs will be developed under the methodologies in 40 CFR Part 132, Appendix B relating to bioaccumulation factors, and will be listed by the EPA in the GLI Clearinghouse. Because substances other than BCCs (Non-BCCs) bioaccumulate to a much lesser degree, BAFs for Non-BCCs are similar to bioconcentration factors (BCFs). Field measured BAFs, or BAFs equal to BCFs will be used for the development of non-BCC criteria in the Great Lakes.

(4) *Criteria for Great Lakes System.* Human health and aquatic life criteria for the Great Lakes System are contained in the following table. For any pollutant not listed in the table, criteria to protect existing and designated uses will be developed by the Department as needed in accordance with this section.

Subchapter B. ANALYTICAL METHODS AND DETECTION LIMITS FOR TOXIC SUBSTANCES

GENERAL PROVISIONS

§ 16.101. Introduction.

(a) This subchapter contains information on the final EPA Guidelines establishing test procedures for the analysis of priority pollutants under the Federal Water Pollution Control Act, known as the Clean Water Act (33 U.S.C.A. § 1251—1376). The procedures of analysis for the organic compounds are contained in 40 CFR 136 (relating to guidelines establishing test procedures). Procedures for inorganic substances are cited in this source, but details are found elsewhere. Analytical procedures for free cyanide are approved by the Department and are contained in Appendix A, Table 2A.

(b) This information provides the expected levels of analytical detectability for toxic priority pollutants. It is intended as a basis for review of NPDES application forms, and for establishing appropriate detection limits and methods of analysis to accompany final effluent limitations in permits.

(c) The Department recommends that clean techniques be employed as appropriate in collecting, handling, storing, preparing and analyzing samples. Clean techniques refer to methods that reduce contamination and enable the accurate and precise measurement of substances, and to related issues concerning detection limits, quality control and quality assurance. Clean techniques are those requirements or practices for sample collection and handling necessary to produce reliable analytical data in the microgram per liter (µl) or part per billion range. The use of clean techniques reduces the incidence of overstatement of environmental concentrations of trace substances.

§ 16.102. Approved EPA Analytical Methods and Detection Limits.

(a) Appendix A, Tables 2A and 2B contain the following data elements and is to be used as follows:

(1) Parameter + (CAS) is the chemical name preceded by an alphanumeric code for the priority pollutants. Other inorganics (metals) listed on the application form have also been included. The Chemical Abstracts Service (CAS) number, a unique chemical identifier, is also listed for completeness of identification. The CAS number should always be verified to ensure proper identification, particularly with chemicals with ambiguous or unfamiliar names, or both.

(2) Method number + (description) includes the approved EPA procedures by identifying number and an abbreviated description of each. The methods are detailed in one or more of the following sources:

(i) *Methods for Chemical Analysis of Water and Wastes*, EPA 600/4-79-020, Revised March 1984.

(ii) 40 CFR Part 136 (relating to guidelines establishing test procedures). The EPA provides a list of still other sources for these methods in 40 CFR Part 136. Methods that were not developed by the EPA, that is, have no EPA identifying method number, but are approved by the EPA for use in NPDES related analyses are marked with an asterisk (*) in Appendix A, Tables 2A and 2B.

(iii) *Standard Methods for the Examination of Water and Wastewater*, 20th Edition, APHA-AWWA-WEF, 1998.

(iv) *Hach Handbook of Wastewater Analysis*, Hach Chemical Company, 1979.

(v) *Direct Current Plasma (DCP) Optical Emission Spectrometric Method for Trace Elemental Analysis of Water and Wastes*, Method AES0029. Applied Research Laboratories, Inc., 1986-Revised 1991, Fison Instruments, Inc.

(vi) *ASTM Annual Book of Standards, Section 11, Water*. American Society for Testing and Materials, 1999.

(3) MDL is the method detection limit for each chemical for each method. The MDL is defined as the minimum concentration that can be measured and reported with 99% confidence that the value is above zero—that is, something is really there. The MDL concentrations listed were obtained using reagent water. Similar results were achieved using representative wastewaters. The MDL achieved in a given analysis will vary depending on instrument sensitivity and matrix effects.

(i) *Methods for Chemical Analysis of Water and Wastes*, EPA 600/4-79-020, Revised March 1984.

(ii) 40 CFR Part 136 (relating to guidelines establishing test procedures). The EPA provides a list of still other sources for these methods in 40 CFR Part 136. Methods that were not developed by the EPA, that is, have no EPA identifying method number, but are approved by the EPA for use in NPDES related analyses are marked with an asterisk (*) in Appendix A, Table 2.

(iii) *Standard Methods for the Examination of Water and Wastewater*, 20th Edition, APHA-AWWA-JWPCF, 1998.

(iv) The primary source for detection limits in Appendix A, Tables 2A and 2B is EPA MDL studies. However, when the EPA has not performed an MDL study or reported the detection limit, other sources—particularly, Standard Methods—are consulted. When there is no literature on detection limit, the Department's Bureau of Laboratories may be asked to determine the detection limit based on an MDL study.

(4) Permittees will be required to meet the detection limits listed in Appendix A, Tables 2A and 2B. If the detection limit is not listed, a permittee shall develop a detection limit using an MDL study.

(5) When permittees cannot meet a listed detection limit, they may be granted case-specific MDLs if they submit complete documentation demonstrating a matrix effect in their particular effluent. The permittees shall follow the procedure for determining MDLs published as Appendix B of 40 CFR Part 136 (relating to guidelines establishing test procedures). The Bureau of Laboratories will evaluate the data and advise the regional office of their decision.

(b) Appendix A, Table 3 gives a more detailed description of the EPA 600-series of analytical procedures for organic pollutants. Further detail is contained in 40 CFR Part 136.

** EPA currently measures “total cyanide” to satisfy cyanide limits and has not yet approved analytical methods for “free cyanide.” Free cyanide is a DEP required analysis, and either of the three listed methods are acceptable for its determination.

NOTE: Metal samples are to be unfiltered and predigested for measurement of the total recoverable (not dissolved) fraction. Samples for dissolved measurement are to be field filtered.

(2)—EPA says “When Benzidine is known to be present, screen with EPA 605.” However, because HPLC is a generally unavailable procedure at this time, GC-MS enhanced to achieve a detection level more sensitive than the EPA’s MDL can be used. Permit monitoring requirements for these two chemicals can also be set using EPA 625 as an acceptable analytical procedure.

The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste,

discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made

within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest

to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

The plan approval will contain additional testing, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality regulations.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, Richard Maxwell, New Source Review Chief, (570) 327-3637.

41-00010E: Andritz, Inc. (35 Sherman Street, Muncy, PA 17856) for construction of two 1,000-pound capacity electric induction iron and steel melting furnaces in their facility in Muncy Borough and Muncy Creek Township, **Lycoming County**.

Andritz, Inc. is a major facility for VOCs and PM10 (particulate matter with an aerodynamic diameter of 10 microns or less) and one for which a Title V operating permit (41-00010) has been issued.

The proposed furnaces will be used to produce a number of different iron and steel alloys, including some which contain high percentages of chromium and nickel. The furnaces will share a common power supply so only one of the two will be able to operate at any given time. The maximum melt rate will be 1.2 tons per hour.

The particulate matter emissions (including PM10) from the furnaces will be controlled by a fabric collector and an emission capture "ring hood" located on each furnace. The resultant air containment emissions are not expected to exceed .13 ton of VOCs per year, .59 ton of CO per year and .61 ton of particulate matter per year, of which no more than .51 ton per year are expected to be PM10 and no more than .0912 ton per year are expected to be hazardous air pollutants (no more than .00043 ton of cadmium, .00311 ton of chromium, .0588 ton of manganese, .00377 ton of nickel and .025 ton of lead).

The Department of Environmental Protection's (Department) review of the information submitted by Andritz, Inc. indicates that the proposed furnaces will comply with all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the best available technology requirement of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department intends to issue plan approval for the construction of the proposed furnaces. Additionally, if the furnaces are constructed and subsequently determined by the Department to be operating in compliance with all plan approval conditions and all applicable regulatory requirements, the conditions established in the plan approval will be incorporated into Title V Operating

Permit 41-00010 by means of administrative amendment in accordance with the requirements specified in 25 Pa. Code § 127.450.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable regulatory requirements:

1. Only one of the two furnaces shall operate at any given time.

2. No more than a combined total of 8,400 tons of metal shall be melted in the furnaces in any 12 consecutive month period.

3. The scrap used in the furnaces shall either be No.1 machinery cast and plate scrap conforming to a maximum .5% oil and/or dirt purchase specification or shot-blasted (except for Ni-Hard) foundry reverts.

4. No scrap containing lead which was intentionally added as an alloy material shall be charged to the furnaces.

5. No ductile iron shall be produced in the furnaces.

6. Each furnace shall be equipped with a lid or cover which shall be placed over the furnace top at all times except when the furnace is being charged or tapped, when alloys are being added or slag removed and when the furnace is out of operation.

7. The ring or bonnet emission capture hood installed on each furnace shall extend around the entire circumference of the furnace top, shall be capable of capturing furnace emissions both when the furnace lid or cover is in place and when it is swung aside as well as when the furnace is tilted for tapping. The hoods shall be employed for furnace emission capture during charging, melting, alloy additions slag removal and tapping.

8. The fabric installed to control the air contaminant emissions from the furnaces shall be an Advanced Integrated Resources, Inc. model Pulse II-1112JPD6 fabric collector containing approximately 1,250 square feet of filter area and equipped with reverse pulse bag cleaning and a fan capable of handling a 4,000 actual cubic feet per minute gas flow (or an alternate collector determined by the Department to be equivalent or better). If a fabric collector other than an Advanced Integrated Resources, Inc. model Pulse II-1112JPD6 fabric collector is selected, it shall not be installed until specifications have first been submitted to the Department and the Department has subsequently provided Andritz, Inc. with an equivalency determination.

9. The fabric collector shall be equipped with instrumentation to continuously monitor the pressure differential across the collector.

10. The air compressor used to supply compressed air to the fabric collector shall be equipped with an air dryer and an oil trap.

11. Spare fabric collector bags shall be kept on hand.

12. The particulate matter (including PM10) concentration in the exhaust of the fabric collector shall not exceed .001 grain per dry standard cubic foot of exhaust.

13. The particulate matter (including PM10), VOC, carbon monoxide and total combined hazardous air pollutant emissions from the furnaces shall not exceed .61, .13, .59 and .0912 ton, respectively, in any 12 consecutive month period.

14. If requested by the Department, Andritz, Inc. shall perform stack testing upon the fabric collector.

15. Records shall be maintained of the amount of metal melted in the furnaces each month. The records as are necessary to demonstrate that the furnaces have not been operated simultaneously and that each load of purchased scrap used in the furnaces meets the oil and/or dirt specification established herein shall also be maintained. All records shall be retained for at least 5 years and shall be shown to the Department upon request.

S. §§ 3301–3326); The Clean Streams Law (35 P. S. §§ 691.1–691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51–30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1–1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001–4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1–693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101–6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office

indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

ENVIRONMENTAL ASSESSMENT

Northeast Region: Water Supply Management Program Manager, 2 Public Square, Wilkes Barre, PA 18711-0790.

Location: North Manheim Township, Schuylkill County. Applicant: Borough of Schuylkill Haven, 12 West Main Street, Schuylkill Haven, PA 17972-1900.

Description: The Pennsylvania Infrastructure Investment Authority, which administers the Commonwealth's State Revolving Fund, is intended to be the funding source for this project. The Borough of Schuylkill Haven proposes reconstruction with design modification of the existing PWS water treatment plant located at Tumbling Run to be rated at a capacity of 2 mgd.

The Department of Environmental Protection's (Department) review of the project and the information received in the Environmental Report for the project has not identified any significant, adverse environmental impact resulting from this proposal. The Department hereby approves the Environmental Assessment.

Request for Comment and Notice of Public Meeting for the Proposed Total Maximum Daily Loads (TMDLs) for the Little Juniata River in Blair County

Central Office: Bureau Director, Water Supply and Wastewater Management, P. O. Box 8467, Harrisburg, PA 17105-8467.

The Department of Environmental Protection (Department) will accept comments on the proposed TMDL

developed for the Little Juniata River in Blair County. The TMDL was established in accordance with the requirements of Section 303(d) of the Clean Water Act. Pennsylvania's 1996 and 1998 Section 303(d) lists included stream segments in the watershed. The listings of these segments were due to use impairments caused by nutrients and siltation.

There currently are no State or Federal in-stream numerical water quality criteria for nutrients and sediment. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. The proposed TMDL sets allowable loadings of phosphorus and sediment in the Little Juniata River Watershed. The phosphorus loadings were allocated among all land use categories as well as point sources present in the watershed. Data used in establishing these TMDLs were generated using a water quality analysis model (AVGWLF) designed by the Pennsylvania State University. STREAMPLAN-PA was used to model the point sources in the watershed.

The data and all supporting documentation used to develop the proposed TMDL are available from the Department. The proposed TMDL and information on the TMDL program can be viewed on the Department's website at www.dep.state.pa.us (PA Keyword: TMDL). To request a copy of this TMDL, contact Lee McDonnell, Department of Environmental Protection, Water Supply and Wastewater Management, P. O. Box 8467, Harrisburg, PA 17105-8467, (717) 787-9637 or lmcdonnell@state.pa.us.

The Department will consider all comments in developing the final TMDL, which will be submitted to the EPA for approval. Written comments will be accepted at the previously listed address and must be postmarked by March 7, 2005. A public meeting to discuss the technical merits of the TMDL will be held on February 15, 2005, at 7 p.m. at the Antis Township Building.

Under 27 Pa.C.S. §§ 6101—6113 (relating to Environmental Stewardship and Watershed Protection Act), the Department is authorized to allocate these grants to a variety of eligible applicants, including: counties, authorities and other municipalities; county conservation districts; watershed organizations; and other organizations involved in the restoration and protection of the environment in this Commonwealth.

For the upcoming grant round, the Department will invest in projects that seek to address nonpoint source pollution, such as abandoned mine drainage, urban and agricultural runoff, atmospheric deposition, onlot sewage systems and earth-moving activities. Eligible projects could include reducing nonpoint source pollution in watersheds where streams are impaired; designing practices and activities that support water quality trading initiatives; integrating stormwater management and flood protection into watershed management; encouraging the beneficial use of abandoned mine pool water; and integrating air deposition controls and management with mitigating water quality problems.

The deadline for submitting applications to the DEP Grants Center (Center) is March 4, 2005. Applications must be postmarked no later than March 4, 2005. If hand delivered, the package must be received by the Center by 4:30 p.m. on March 4, 2005, at the following address. Late submissions will not be considered.

Through the same application, applicants can apply for additional funding through the Department's source water protection and flood protection grant programs. Source water protection grants are available to water suppliers and municipalities to develop and implement local source water protection programs for the protection of community drinking water sources. Flood protection grants are for communities that operate and maintain State and Federal flood protection projects.

Availability of Traumatic Brain Injury Grant Funds to Support TBI Education

The Bureau of Family Health (Bureau), Division of Child and Adult Health Services is accepting applications to support education and awareness of the causes and consequences of concussion/mild-severe traumatic brain injury (TBI) among youth in junior high and high school. Funding for up to \$3,000 is available to support education and awareness of the causes of TBI as a result of sports or other activities. Activities should educate school staff (that is, teachers, athletic trainers, coaches, school nurses), community sports programs, and/or providers of recreational opportunities which could result in physical injury, appropriate prevention strategies and intervention activities in the event that youth sustain concussions which could result in mild to severe head injury.

For the purpose of this funding opportunity, a TBI is defined as an insult to the brain, not of a degenerative or congenital nature, caused by an external physical force that may produce a diminished or altered state of consciousness, which results in impairment of cognitive abilities or physical functioning or in the disturbance of behavioral or emotional functioning. These impairments may be either temporary or permanent and cause partial or total functional disability or psychosocial maladjustment.

Youth with concussions/mild head injury often do not benefit from intervention because the extent of the injury is not recognized. Currently, approximately 200 high schools and colleges in this Commonwealth are utilizing preplay neuropsychological testing to develop a "baseline" or "benchmark" of an athlete's level of cognitive functioning in the event that the youth has a concussion while participating in sports. While growth in this type of program has grown dramatically over the past 5 years, the majority of high schools in this Commonwealth are not using any kind of concussion management program and junior high/middle schools, and recreational programs have been particularly underserved. Additional screening tools are also available that can be utilized after a youth sustains a concussion/head injury to determine if further evaluation or action is needed. Available resources appear at the end of this document.

The learning objectives of the proposed education and awareness activities must incorporate education on TBI, not just head injury, and should include the following:

1. How to prevent concussions/mild head injuries.
2. How to recognize the warning signs that indicate a concussion/mild head injury has occurred.
3. How to intervene in the event that a concussion/mild head injury is suspected.

Educational and recreational settings in communities in this Commonwealth are being targeted for this effort. Through educational opportunities, teachers, coaches, athletic trainers, school nurses, camp counselors, and the like, will be better equipped to prevent, recognize, manage and provide support for youth sustaining concussions/head injuries resulting from participation in sports or other recreational activities. Project funds must be used to reimburse purchases and activities occurring prior to April 1, 2005.

Eligible applicants are public and private organizations, community-based programs and agencies in this Commonwealth as recognized by a Federal Tax ID number. Individuals may not apply. Informal groups without Federal Tax ID numbers are encouraged to partner with a sponsor organization who may apply on behalf of the group. For-profit organizations may apply. However, no applicant may take a profit from these funds. Only those organizations, programs or agencies that have not received any grant funds from the Bureau of Family Health during the current fiscal year may apply for these funds.

Applicants may include but are not limited to:

- Sports organizations (such as football, baseball, cheerleading, hockey and soccer)
- Schools
- Recreation providers
- Community organizations
- Park and recreation centers
- Camps
- Athletic directors, coaches, trainers and school nurses
- Parent groups and organizations

To apply for funding, a complete application must be postmarked and mailed to the Department of Health (Department) no later than 4 p.m. on March 18, 2005. Applications may be mailed or hand delivered. Applications may not be faxed. Late applications will not be accepted regardless of the reason. The Department expects to notify all applicants of award status by March 31, 2005. It is anticipated that nine awards of up to \$3,000 or less will be made. This is a reimbursement program. Grantees must spend their own funds first and then be reimbursed by the Department.

Application Process

Applicants must complete Attachment A "FY 2004-2005 Application" and attach a clear and concise narrative of no more than five typewritten pages single spaced that includes the following information, labeled by section:

1. The organization's justified need for the awareness and educational activity.
2. The targeted audience for the training.
3. A description of the awareness and education activities that address the learning objectives under the Purpose section of this funding opportunity, including who will do the training and training content (any training/educational material used must be described).
4. A description of how funds will be expended.
5. How the proposed activity will be evaluated or measured for a change in awareness and education on head injury and TBI, specifically.

An explanation of an authorized official of an organization who can bind the provisions of your proposal must sign and date Attachment A. Submit an original and three complete copies of the application, which includes Attachment A, a narrative addressing the previous five points, and any supporting documentation. Applications should be page-numbered and unbound. Incomplete applications will not be reviewed.

Eligible Costs

The maximum cumulative award to any one applicant (as identified by Federal Tax ID number) is \$3,000 per fiscal year. Funds may be used for reimbursement of the costs up to April 1, 2005. The budget section of the application must include a budget narrative detailing by line item how project funds will be used. Expenses eligible for reimbursement under this project include:

1. Purchase of a concussion screening program.
2. Purchase of educational materials.
3. Trainers with expertise in TBI (see resource list).
4. Consultation by the trainer for the program after the initial training.
5. Training costs.

Ineligible Costs

The following costs are not eligible for reimbursement under this project:

1. Administrative/indirect costs.
2. Purchases/activities mandated by the Americans With Disabilities Act.
3. New building construction or structural renovation of an existing space.
4. Capital expenses or equipment.

Summary Report and Invoice Procedures

To receive reimbursement of approved expenses, awardees must submit the following documentation to the Bureau by May 1, 2005:

1. A summary report of activities and evaluative efforts.
2. An attendance list, including person's position in relation to youth.
3. A plan for continuing traumatic brain injury awareness and education.
4. An invoice with expense documentation supporting line item amounts.

All funding decisions are contingent upon the availability of Fiscal Year 04/05 funds and Department approval by means of a proposal review panel. The approval will be based upon a common set of pre-established criteria, including:

1. Does the applicant justify the need for the awareness and educational program.

2. Does the audience of the proposed activity meet the intended target.

3. Does the awareness and education activities meet the learning objectives.

4. The reasonableness of proposed expenditures/purchases.

5. Can the evaluation or measures taken demonstrate a change in awareness and knowledge.

6. Will the activity proposed be of an ongoing, systemic benefit to the community.

**Laboratories Approved to Determine Analyses of
Blood and/or Serum for Controlled Substances**

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (35 P.S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood and/or serum for the determination of controlled sub-

stances. This approval is based on demonstrated proficiency in tests conducted by the Department's Bureau of Laboratories. These laboratories are also approved and designated for purposes of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to chemical test to determine amount of alcohol), as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in blood and/or serum.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory analyses on blood and/or serum. Laboratories approved to perform screening analyses are designated on the approval list by an "S" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to screen both blood and serum would therefore have "SBSe" listed after their laboratory name. Laboratories approved to offer confirmatory analyses will be designated on the approval list by a "C" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to perform confirmatory analyses on both serum and blood would therefore have "CBSe" listed after the name of their laboratory.

Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic blood and/or serum analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the medicolegal purposes. They should also determine that the director of the facility is agreeable to performing analyses for forensic purposes. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought.

The name of a laboratory is sometimes changed but the location, personnel and testing procedures of the facility remain unchanged. When changes of this type occur, the clinical laboratory permit number does not change. If questions arise about the identity of a laboratory due to a name change, the clinical laboratory permit number should be used as the primary identifier. To assist in identifying a laboratory that performed a test if the name of the facility changed, the clinical laboratory permit numbers of the facilities are included in the lists of approved laboratories above the name of the laboratory at the time the list was prepared.

The list of approved laboratories will be revised approximately semiannually and published in the *Pennsylvania Bulletin*. Questions regarding this list should be directed to M. Jeffery Shoemaker, Ph.D., Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464.

Persons with a disability who require an alternative format of this notice (for example, large print, audiotope, Braille) should contact Dr. Shoemaker at the previously referenced address or phone number or persons who are speech or hearing impaired may use V/TT: (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

Laboratories Approved to Determine Urine Controlled Substance Content

The following laboratories are licensed by the Department of Health (Department) under the Clinical Laboratory Act (35 P.S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. amount of alcohol) as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in urine.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory urine drug analyses. Laboratories approved to perform screening tests only are designated on the approval list by an "S" after the laboratory's name. Laboratories approved to perform confirmatory testing only are designated by a "C" following the laboratory's name. Those approved to perform both screening and confirmatory analyses are designated by the letters "SC." Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic urine drug analysis services from a listed laboratory should determine that the laboratory employs techniques and procedures acceptable for the purpose. They should also determine that the director of the facility is agreeable to performing analyses for that purpose. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought.

DEPARTMENT OF REVENUE

Cigarette Tax Notice

Under section 227-A of The Fiscal Code (72 P.S. § 227-A), the Department of Revenue (Department) announces the lowest cost of the stamping agent, wholesaler and retailer, respectively, effective January 17, 2005, as follows:

	<i>Premium Brands (a.k.a. Kings & Regulars)</i>
Base Cost per 1,000	\$143.20
Cost of the Stamping Agent (for sales to wholesalers)	\$ 42.86
Cost of the Wholesaler (for sales to retailers)	\$ 44.58
Cost of the Retailer (for sales to retail customers)	\$ 47.25

The Department considers these costs as presumptive minimum costs. Cigarette stamping agents, wholesalers and retailers are prohibited from selling cigarettes at a price lower than their respective presumptive minimum costs. These costs are listed on a per carton basis, 10 packs of cigarettes per carton, 20 cigarettes per pack. To determine the presumptive minimum price per pack of cigarettes, an individual should divide the costs listed by 10 and round to the nearest hundredth of a percent. For

example, the presumptive minimum price of a pack of cigarettes sold by a retailer to a consumer is \$4.73 for premium brands (\$47.25/10).

Cigarette dealers who either sell cigarettes under a different packaging setup (that is, eight packs per carton) or sell cigarettes that do not qualify as premium or generic brands (that is, subgeneric, foreign or specialty cigarettes) are prohibited from selling cigarettes at a price lower than the cost of the stamping agent, cost of the wholesaler or cost of the retailer, respectively, as further defined and explained at 61 Pa. Code Part I, Subpart B, Article III (relating to cigarette and beverage taxes).

Cigarette dealers wishing to prove a cost different from the Department's presumptive costs must follow the procedures listed under 61 Pa. Code Chapter 76 (relating to unfair sales of cigarettes).

Secretary

DEPARTMENT OF TRANSPORTATION

Finding Bucks County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Deputy Secretary for Highway Administration makes the following written finding:

The Department of Transportation (Department) plans to replace the existing Kellers Church Road Bridge over Deep Run in Bedminster Township, Bucks County. The project includes minor approach roadway widening in conjunction with replacing the Kellers Church Road Bridge on the same location. The project will require right-of-way from the National Register-eligible Landis Property.

The design for the new Kellers Church Road Bridge structure will be sensitive to the aesthetics of the surrounding area. The new structure will feature aesthetic concrete treatments on the parapet walls and will be very similar in length and height to the original bridge.

The Deputy Secretary for Highway Administration has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize effects. No adverse environmental effect is likely to result from the replacement of the Kellers Church Road Bridge.

Deputy Secretary for Highway Administration

Finding Chester County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Deputy Secretary for Highway Administration makes the following written finding:

The Department of Transportation (Department) plans to replace the SR 1012, Section C01 Bridge over Trout Creek in Tredyffrin Township, Chester County. Temporary occupancies will also be required on the National Register eligible East Watch property and the Richards Road Open Space, which is a publicly owned recreation facility.

The subject project will use approximately 15.3 hectares (37.8 acres) of the National Park Service property within the designated boundaries of the Delaware Water Gap National Recreation Area.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize the effects. To minimize the harm to the Section 2002 protected property impacted by the project, the bridge will be recorded as a State-Level recordation following Historic American Engineering Record guidelines as per recommendation by the State Historic Preservation Officer. The replacement bridge will be designed sympathetically to the historic nature of the area. Stone from the existing bridge or a comparable stone will be used along the outside of the structure and along the inside of the parapet. Stream stabilization will be included in the final construction plans.

The Deputy Secretary for Highway Administration has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize effects.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>

**Pennsylvania Public Utility Commission Regulation
No. 57-236 (IRRC No. 2441)**

**Practice and Procedure Before the Commission
January 28, 2005**

We submit for your consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The Pennsylvania Public Utility Commission (PUC) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on December 29, 2004. If the final-form regulation is not delivered within two years of the close of the public comment period, the regulation will be deemed withdrawn.

1. Electronic filing.—Need; Reasonableness.

The PUC is proposing to add requirements related to electronic filing of documents, but is not authorizing the use of electronic filing. We question the need for and reasonableness of imposing requirements prior to implementing an electronic filing system.

The Office of Small Business Advocate (OSBA) and the Practitioners' Group (representing six utility practice law firms) have also raised concerns regarding electronic filing. The commentators note that technical aspects of an electronic filing system, such as the ability of parties to open and process large files, the handling of signature requirements and the establishment of a "tamper-proof" format, would need to be addressed before implementing electronic filing.

We agree that the proposed addition of electronic filing requirements is premature. We recommend that the PUC delete proposed electronic filing requirements until it is ready to put an electronic filing system in place. We have identified the following sections of the proposed regulation that relate to electronic filing:

- Section 1.11(a)(4)
- Section 1.24(b)(2)(i)(A)
- Section 1.25(a)
- Section 1.32(d)
- Section 1.35(a)(2)
- Section 1.37(c)
- Section 1.53(b)(3)
- Section 1.54(b)(3)

- Section 1.56(a)(5)
- Section 1.59(b)(1)(ii)
- Section 5.306

These sections should be deleted or amended, as appropriate, to eliminate implicit or explicit references to electronic filing.

2. Filing by fax.—Reasonableness.

The regulation precludes parties from filing documents by facsimile (fax) transmission. Other agencies allow filing by fax to meet the filing deadline, provided that an original is filed within a reasonable time thereafter. Has the PUC considered this approach?

3. Section 1.8. Definitions.—Clarity.

The following terms are used in the regulation, but are not defined: adversarial proceedings; nonadversarial proceedings; informal proceedings; agency; political subdivision; and government entity. Clarity would be improved by defining these terms in the final-form regulation. For any of these terms that are defined elsewhere in statute or regulations, the PUC could cross-reference those existing definitions.

4. Section 1.11. Date of filing.—Reasonableness; Clarity.

Under Subsection (a)(3), the PUC is deleting the date "shown by the United States Postal Service [USPS] stamp on the envelope" as a means of determining the date a document is filed with the PUC. Instead the date on a USPS Form 3817 certificate of mailing will be used. The impact of this change could be significant for consumers who file individual complaints and may not be familiar with Form 3817. As a result of this provision, consumer complaints may be filed incorrectly resulting in the need to re-file. We suggest the PUC retain the USPS stamp on the envelope as a means of determining the filing date.

Also under Subsection (a)(4), the PUC refers to "4:30 p.m. local time." For clarity, the reference to "local time" should be changed to "Eastern Standard Time."

5. Section 1.33. Incorporation by reference.—Reasonableness.

In Subsection (b), the PUC is deleting the 20-year time frame for documents that cannot be incorporated by reference without ascertaining that the PUC has the document in its files. As a result of this deletion, a party would have to determine the status of a referenced document in every instance. OSBA commented that it

would be burdensome to make this determination for every referenced document. We agree and suggest that the PUC continue to provide a time period during which parties can assume a document is still in the PUC files. If 20 years is too long, a shorter time frame may be established.

6. Section 1.38. Rejection of filings.—Statutory authority; Legislative intent; Clarity; Reasonableness; Need; Feasibility

This section provides that the PUC may reject the filing if the filing utility is “otherwise delinquent in its regulatory obligations.” We have three concerns.

First, this provision appears to preclude a utility from bringing or defending an action before the PUC if it has failed to satisfy any obligation imposed by regulation. We question the statutory authority for this provision.

Second, we believe that this provision is contrary to legislative intent. Subchapter A of the Public Utility Code explicitly outlines the procedures to be followed in bringing matters before the PUC. There is no indication that the legislature intended to foreclose these channels for obtaining relief to utilities who may not be in full compliance with regulations.

Third, we question the meaning of “delinquent in its regulatory obligations.” If the PUC believes it has the statutory authority for this provision, and that this provision is consistent with legislative intent, it should explain what is meant by this phrase.

7. Section 1.42. Mode of payment of fees.—Clarity.

Subsection (a) states, in part, “The Secretary’s Bureau *should* be contacted prior to submitting payment in a form other than money order or check.” (Emphasis added.) The term “should” is nonregulatory language which indicates that this provision is optional. If the PUC intends to require a party to contact the Secretary’s Bureau when submitting payment in an alternate form, the final-form regulation should replace the term “should” with “shall.”

8. Section 3.501. Certificate of public convenience as a water supplier or wastewater collection, treatment or disposal provider.—Reasonableness; Need; Feasibility; Protection of public health; Consistency with existing regulations.

Subsection (a) currently provides a list of requirements which an applicant for a certificate of public convenience must satisfy. The PUC is deleting this list. In lieu of retaining these requirements in the regulation, the PUC will include them on the forms which applicants must complete.

The Department of Environmental Protection (DEP) has objected to the deletion of application requirements from this provision. The basis for DEP’s objection is that by transferring the requirements from the regulation to forms, they will no longer constitute binding norms with the full force and effect of law.

We share DEP’s concern. Forms are subject to change at the discretion of the PUC, with no opportunity for notice and regulatory oversight. Therefore, the requirements for applications should remain in the regulation.

9. Section 5.14. Applications requiring notice.—Reasonableness; Clarity.

Existing Subsection (b), lists the applications for which notice will be published. PUC is proposing to delete this

list and retain only a general reference to applications for authority under the act.

The Practitioners’ Group believes that the existing list of applications which require notice provides certainty and consistency and should be retained. We agree and suggest the PUC retain the list in Subsection (b).

We have an additional concern. A new Paragraph (c) provides that the deadline for filing protests to applications is governed by Section 5.53. This section provides that the time for filing a protest shall be as stated in the application. If no deadline is specified, the time will be 60 days. We recommend that, for consistency, the PUC establish a standard time for the filing of protests which will be followed in all cases, unless there is good cause to allow a different time frame.

10. Section 5.24. Satisfaction of formal complaints.—Clarity.

Subsection (b) allows a respondent to certify to the PUC that it has satisfied a complaint if the complainant has either acknowledged satisfaction to the respondent or if the complainant no longer wishes to pursue the complaint. We recommend that the certification be in writing.

11. Section 5.53. Time of filing.—Reasonableness; Feasibility; Clarity.

This section states that a protest must be filed within the time specified in the published notice of the application. If the published notice does not contain a specified time, a party has 60 days to file a protest. We have two concerns.

First, as noted previously, this section lacks consistency because the regulated community does not have a reasonable expectation of when a protest must be filed. The final-form regulation should be amended to establish a uniform time period for filing a protest.

Second, this section does not specify how or where the notice must be published. To be consistent with other provisions of this rulemaking, we recommend that publication must be in the *Pennsylvania Bulletin*.

12. Section 5.62. Answers seeking affirmative relief or raising new matter.—Clarity.

Subsection (b) provides that an answer may raise new matter. The PUC should specify whether a notice to plead must be included in new matter. This may be important in view of the fact that Section 5.63(b) provides that failure to file a timely reply to new matter may be deemed an admission of the facts raised.

13. Section 5.74. Filing of petitions to intervene.—Clarity; Reasonableness; Feasibility.

The Office of Consumer Advocate expressed the concern that Subsection (b)(1) would create a default deadline for statutory notices of intervention in consumer complaint cases. This would result in dramatic departure from current practice and would work to the detriment of customers in need of assistance. The PUC should clarify its intent in this section.

14. Section 5.101. Preliminary objections.—Need; Clarity; Feasibility.

Subsection (a) substitutes the phrase “preliminary motion” with “preliminary objection,” as the latter phrase is more commonly used. Subsection (b) deletes the requirements that a preliminary objection be filed with an answer and that all preliminary objections be raised together.

The Practitioners' Group has raised the possibility that a party with substantial resources could use the new procedures to tie up a proceeding indefinitely. We share this concern, and request that the PUC revise this section to prevent that from happening.

We have an additional concern that the difference in the times for filing will result in confusion and missed deadlines. Subsection (c) states that a party may file an amended pleading within 20 days following service of preliminary objections. Subsection (d) states that an answer to a preliminary objection shall be filed within 10 days of the date of service. Subsection (f)(1) allows a party who files a stricken preliminary objection to file an amended pleading in 10 days. However, Subsection (f)(2) provides that a party who filed a preliminary objection which has been overruled has 20 days to plead over. The PUC should justify the difference in timelines or provide a standard time frame in most if not all instances.

15. Section 5.342. Answers or objections to written interrogatories by a party.—Clarity.

Subsection (d) provides timelines in which answers and objections must be served. The timelines contained in Subsection (d) and (d)(1) are contradictory. What timelines would a party be required to follow?

16. Miscellaneous clarity issues.

- The Practitioners' Group commented that the last sentence in Section 1.15(b) could be deleted if a revision is made to the first sentence in this subsection. Specifically, the phrase "timely filed with the Commission" should be replaced with "filed at least 5 days prior to the hearing date." We agree and suggest the PUC make this change.
- In Section 1.21(d)(2), the phrase "an appropriate individual" is unclear. The final-form regulation should more specifically identify the individuals who may represent parties in informal proceedings.
- In Section 1.36(a), the PUC should change the term "permitted" in the last sentence to "utilized."
- There is a typographical error in Section 1.53(b)(1). The word "by" should be inserted between "made" and "mailing."
- In Section 3.2, parallel construction should be employed. The codification of Subsection (a) should be restored. Proposed Paragraph (1) should be contained in Subsection (a). Proposed Paragraph (2) should be Subsection (b) and the Paragraphs (i) through (iv) should be codified (1) through (4). Subsequent subsections should be recodified accordingly.
- Section 3.502(b) requires a protest to be filed in "appropriate and legally sufficient form." This requirement is vague. The final-form regulation should contain cross-references to the applicable regulatory standards.
- Section 5.22(a)(7) references a "writing." The final-form regulation should either define this term in this subsection or delete the term and specifically identify what documents are subject to the requirements of this subsection.
- The first sentence of Section 5.22(c) references, "the act, a regulation or order of the Commission." The second sentence of this section states that the complaint must reference, "the regulation or order." To be consistent, the second sentence should also reference "the act."
- Section 5.41(c) requires copies to be served "in compliance with Commission direction." Clarity would be improved by cross-referencing specific service requirements contained in the regulations.
- In Section 5.52(a) the word "shall" should be shown in brackets.
- In Section 5.75(d), the word "permitted" should be replaced with "prohibited" to be consistent with the PUC's proposed wording changes in this subsection.
- In Section 5.91(a), the phrase "insofar as appropriate" is vague and unnecessary. It should be deleted.
- In Section 5.101(d), the word "motion" in the second sentence should be changed to "objection" to be consistent with the PUC's proposed terminology changes throughout Section 5.101.
- The phrase "in the public interest" is used in Section 5.232(d)(2). The PUC needs to clarify what this phrase means.
- In Section 5.235(a), the word "shall" in the second sentence should not be bracketed. The word "be," immediately following "shall," should be bracketed.
- Section 5.324(a) allows discovery of "facts known and opinions held by an expert." However, Section 5.323(a) precludes disclosure of opinions as part of discovery. In the final-form regulation, this inconsistency between these two sections should be rectified.
- Based on discussions with the PUC, we understand that Section 5.245, relating to failure to appear, proceed or maintain order in proceedings, also applies to interveners. The final-form regulation should be amended to reflect this fact.
- Section 5.401(b)(2)(iii) contains a typographical error. The word "By" should be deleted.
- Under Section 5.502(d), two commentators questioned if the PUC intended to delete the language related to "initial briefs." The PUC should clarify its intent in the final-form regulation.
- In the third sentence of Section 5.533(c), the existing word "shall" which appears after "exception" and before "exceptions shall" should be bracketed.
- In the last sentence of Section 5.535(a), the word "shall" should be bracketed, and the word "must" should be in bold type.

**Department of Transportation Regulation No.
18-398 (IRRC NO. 2450)**

Driver's License Examination

February 2, 2005

We submit for your consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The Department of Transportation (Department) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on January 3, 2005. If the final-form regulation is not delivered within two years of the close of the public comment period, the regulation will be deemed withdrawn.

Section 75.2. Definitions.—Consistency with the statute; Clarity.

Both the proposed regulation and the enabling legislation, Act 76 of 2004 (75 Pa.C.S.A. § 1508.1(b)), define the term “chiropractor.” However, the definition in the proposed regulation differs from the statutory definition. The major difference is that the statutory definition contains the phrase “scope of practice” while the regulatory definition does not. For consistency, the final-form regulation should replace the proposed regulatory definition with either the statutory definition verbatim or a reference to it.

Environmental Quality Board Regulation No. 7-393 (IRRC No. 2451)

Hazardous Waste Management System; Proposed Exclusion for Identification and Listing Hazardous Waste

February 2, 2005

We submit for your consideration the following comments that include references to the criteria in the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The Environmental Quality Board (EQB) must respond to these comments when it submits the final-form regulation. The public comment period for this regulation closed on January 3, 2005. If the final-form regulation is not delivered within two years of the close of the public comment period, the regulation will be deemed withdrawn.

1. General.—Protection of the public health, safety and welfare.

The public commentators advocate continuing existing methods for recovery of metals prior to the disposal of Electric Arc Furnace Dust (EAFD). Will delisting EAFD result in placing recoverable materials in landfills? If so, why is delisting 300,000 cubic yards of EAFD per year in the public interest?

2. Section 261a.32. Hazardous wastes from specific sources.—Clarity.

Paragraph (3) Changes in Operating Conditions

The phrase “approved EAFD generators” is used in Subparagraph (3)(i). Who are “approved EAFD generators” and how do they obtain approval?

Subparagraph (3)(i) uses the phrase “significantly changes” twice. There could be disagreement over what constitutes a “significant change.” How will the petitioner know when this limit is reached? How will the Department enforce this provision?

The last sentence of Subparagraph (3)(i) requires notice, but does not specify when. The regulation should state the time limit in which the petitioner must notify the Department.

Paragraph (4) Data Submittals

Subparagraph (v) requires data to be maintained on site. As long as the data is available for inspection, why must the data be maintained on site?

Paragraph (5) Reopener Language

Subparagraph (i) requires reporting to the Department if “any constituent identified in paragraph (1) is at a level in the leachate higher than the Toxicity Characteristic (40 CFR 261.24)” A commentator observed that nickel is listed in Paragraph (1) but is not listed in 40 CFR 261.24. The EQB should review these lists and address any discrepancies.

Subparagraph (i) also requires reporting to the Department based on “specific facility action levels.” The regulation should state where these levels are listed.

Interim Guidelines for Abbreviated Dispute Resolution Process; Doc. No. M-00021685

Tentative Order

Discontinuing Experimental Abbreviated Dispute Resolution Process

By the Commission:

In Appendix E to our *Global Order*¹, the Commission adopted interim guidelines for an Abbreviated Dispute Resolution Process (ADRP) on an experimental basis to determine if the guidelines would further this Commission's mission to promote competitive markets by expediting resolution of certain disputes between competing telecommunications carriers. The guidelines have been once revised in an attempt to make the process more efficient and to better fulfill its purpose.² The revised ADRP remained experimental, subject to further review.

At Public Meeting held November 7, 2002, the Commission sought public comment on the revised ADRP.³ The request for comment was published November 23, 2002 at 32 Pa.B. 5822. Comments were filed by Verizon Pennsylvania Inc., Verizon North Inc., and XO Pennsylvania, Inc.

Summary of ADRP (as Revised)

As of July 13, 2000, when the revised ADRP was adopted, the ADRP is set forth in a preamble and 13 enumerated paragraphs (“rules”). A summary is provided below.

The preamble sets forth the Commission's concern that the mediation, arbitration, and emergency relief regulations in place at the time the *Global Order* was issued may not have fully addressed the need for prompt resolution of disputes between competing telecommunica-

tions carriers, competitive, incumbent or otherwise. Thus, the Commission implemented the ADRP.

Rule 1 addresses the scope of the ADRP. The scope is limited to disputes between telecommunications carriers⁴ involving action or inaction of a telecommunications entity that (1) allegedly compromises the ability of a party to provide uninterrupted service, (2) unreasonably precludes the provisioning of scheduled service, (3) allegedly violates a provision of an existing interconnection agreement, (4) contains allegations of predatory pricing, or (5) involves collocation space limitation disputes, including allegations of false claim of space exhaustion.⁵ The ADRP is not designed to be a substitute for any dispute resolution processes that may be specified in the parties' interconnection agreements; nor is it designed to handle disputes that involve generic policy issues, consumer complaints against the carriers, or requests for damages.

Rule 2 requires good faith negotiations between the parties for at least 30 calendar days before a petition is referred to ADRP, with limited exception.

Rule 3 concerns collocation space limitation disputes. It requires the aggrieved party to first submit written notice to the Bureau of Fixed Utility Services explaining the dispute. Commission technical staff will then tour the facility, with representatives of the parties, and listen to the arguments while viewing the evidence. Staff will then submit written findings of fact and conclusions to the parties. If the staff determination does not resolve the dispute, then an ADRP petition will be brought to the Office of Administrative Law Judge.

Rule 4 describes the minimum standards for the petition. It encourages joint petitions, if possible as a product of the negotiation phase. The petition filed must include specifics of the action or inaction alleged. Copies of all documents within the petitioner's possession that are likely to bear significantly on the issues raised must be attached. Service upon the Office of Consumer Advocate, Office of Small Business Advocate, the Commission's Office of Trial Staff (collectively "Public Advocates") and, if not a joint petition, upon the opposing party is required. It also requires the petition to be clearly identified by bold typeface above the normal caption line on the first page as follows: "Dispute Resolution Petition: Answer Due Within 7 Days."

Rule 5 requires an original and two copies of the petition to be filed with the Secretary's Bureau. In addition to the respondent and Public Advocates, the Chief Administrative Law Judge should also be served on the same day. The Secretary will assign an individual docket number to each petition.

Rule 6 establishes that an Administrative Law Judge (ALJ) will be assigned to the petition within four calendar days of the filing and service. A prehearing conference will be scheduled at the earliest possible date to determine whether the petition qualifies for ADRP and, if so, to determine the schedule for the proceeding.

Rule 7 provides seven calendar days for the respondent to file an answer with the Secretary, including copies of

all documents in respondent's possession that are likely to bear significantly on the issues raised in the petition.

Rule 8 establishes that the Public Advocates may participate in the proceeding but may not conduct formal discovery and are precluded from opposing the voluntary withdrawal of a petition due to consummation of a settlement between the parties.

Rule 9 provides that the presiding ALJ will conduct an on-the-record evidentiary hearing. Parties are given the opportunity to file briefs prior to adjudication. An Initial Decision resolving the dispute is due within 30 calendar days of the filing of the petition, unless the ALJ extends the time frame for good cause shown recognizing that an expeditious result is in the public interest.

Rule 10 encourages parties to exchange information informally. Parties may seek leave to conduct such limited formal discovery as deemed reasonable and necessary by the presiding ALJ.

Rule 11 allows parties to file exceptions to the Initial Decision within seven calendar days of issuance. Reply exceptions are due within five calendar days after exceptions are filed. If no exceptions are filed and if two Commissioners do not request review within 15 days of issuance, the Initial Decision will become a final order by operation of law. If exceptions are filed or if Commission review is requested, the matter is assigned to the Office of Special Assistants for preparation of a recommendation for Commission consideration at the earliest possible Public Meeting.

Rule 12 confirms that the parties may, at any time during the ADRP proceeding, request the services of a Commission mediator consistent with the Commission's mediation policy statement at 52 Pa. Code §§ 69.391-69.394. Any time lost to unsuccessful mediation is not counted against the ALJ's time to issue an Initial Decision.

Rule 13 clarifies that the ADRP is not intended to replace or preclude any other procedures or remedies otherwise available to any party under law, and a party's participation in the ADRP shall not be considered a waiver of any available substantive or procedural rights.

Summary of Comments

Verizon Pennsylvania Inc. and Verizon North Inc. (collectively Verizon) filed joint comments. Verizon recommends certain improvements to the process. First, Verizon suggests that electronic mail should be the preferred method of service because e-mail service of documents is faster, easier and cheaper than first class mail and other forms of service. Verizon proposes that facsimile service be used where documents are paper and not available in electronic formats. Second, Verizon suggests that the due date for responsive pleadings be changed from seven calendar days to seven business days to ensure fairness and eliminate any advantage to an opposing party that decides to file a pleading late in the day on a Friday, especially a Friday before a holiday weekend.⁶ Third, Verizon suggests that the ADRP should include the opportunity for a respondent to file preliminary motions instead of going directly to a hearing. Fourth, Verizon suggests that Rule 6 should be revised to provide for telephonic prehearing conferences. Finally, Verizon suggests that the preamble be modified, placing emphasis on resolution of disputes between telecommunications carriers "that have the potential to impact service immedi-

⁴ Circumstances may exist where the respondent is other than a telecommunications carrier. For example, the respondent might be a County. See *Petition of Allegiance Telecom of Pennsylvania For Resolution of Dispute Pursuant to the Abbreviated Dispute Resolution Process, Opinion and Order* (entered Sep. 4, 2001), Docket No. P-00011882 (using the ADRP to resolve dispute arising from Delaware County's refusal to allow access to the Master Street Address Guide database).

⁵ *Pennsylvania P. U. C. v. Verizon Pa., Inc.*, Opinion and Order (entered June 8, 2001) at 68-69, Docket No. R-00994697 (providing for expedited Commission review, through the ADRP, of any CLEC claim regarding allegations of a false claim of space exhaustion).

⁶ Verizon applies its suggestion to Rule 7 (Answer) and to Rule 11 (Exceptions and Reply Exceptions).

ately” rather than the current emphasis on carrier disputes “that impact on the development of local telephone competition.”

XO Pennsylvania, Inc. (XO) strongly recommends that the ADRP and interim guidelines be retained and enhanced. XO states that the ADRP is a useful procedural vehicle for facilitating interconnection, collocation and reciprocal compensation disputes as well as other related disputes that are subject to this Commission’s jurisdiction. The traditional processes—formal complaints or petitions for emergency orders—have been time consuming for both the litigating parties and the Commission resulting in a delay in obtaining relief that resulted in a denial of relief.

XO recommends enhancing the ADRP by revising the interim guidelines in two respects. One proposed enhancement concerns collocation;⁷ the other concerns time intervals for issuance of final orders. Regarding collocation, XO respectfully suggests that the Commission amend the interim guidelines acknowledging that its technical staff will avail itself of the appropriate legal expertise during the course of any collocation investigation and that any relevant legal analysis will be part of the staff’s report and conclusions regarding a given collocation space limitation dispute. Regarding time intervals, XO respectfully suggests that the Commission amend the interim guidelines adopting finite time intervals for the issuance of its final orders when exceptions and/or commissioner requests for review apply to an ALJ’s ADRP Initial Decision. XO does not suggest what the time interval should be.⁸

Inventory of Commission Processes Available for Dispute Resolution

Pursuant to the Commission’s powers and duties set forth in the Public Utility Code (66 Pa.C.S. §§ 101—3316), the Commission makes a number of dispute resolution processes available. An inventory of available processes with a brief description of each of them is set forth below.

Processes Open Across All Fixed Utility Groups

1. *Formal Proceedings.* 52 Pa. Code §§ 5.1—5.633, includes provisions for pleadings (subchapter A), hearings (subchapter B), interlocutory review (subchapter C), discovery (subchapter D), evidence & witnesses (subchapter E), presiding officers (subchapter F), briefs (subchapter G), exceptions (subchapter H), reconsideration (subchapter I), reports on compliance (subchapter J), and, appeals to court (subchapter K). These are our traditional formal complaint and petition procedures, providing for an on-the-record proceeding that results in an adjudication that may be appealed to an appropriate court.⁹ Generally, a

⁷ Collocation space limitation disputes are one of the enumerated types of ADRP-qualified disputes. Collocation disputes must first be analyzed by appropriate Commission technical staff prior to any request for ADRP. The aggrieved party shall first submit written notice to the Bureau of Fixed Utility Services explaining the dispute. Commission technical staff will tour the facility, with representatives of the parties, and listen to arguments while viewing the evidence. Staff will then submit written findings of fact and conclusions to the parties. If the staff determination does not resolve the dispute, then an ADRP petition is filed. The staff report may be introduced as evidence by either party if properly introduced and authenticated. Interim Guideline Rule 3, reproduced in 32 Pa.B. at 5824.

⁸ A similar comment was made by the FirstEnergy Companies in the context of formal petitions generally. The FirstEnergy Comments at L-00020156 suggest that the Commission should render a decision on or before seven months after a petition is filed, borrowing from the statutory 7-month timelines established in 66 Pa.C.S. § 1308(d) for traditional base rate cases. Presumably, in an abbreviated process, the time interval would be shorter or at least not longer than the statutory deadline.

⁹ In some instances, a Commission order establishes a time limit for completion of the case. This has been done in cases involving the implementation of Chapter 30 of the Public Utility Code. See, e.g., *Re: Commonwealth Telephone Company of Pennsylvania, Petition and Plan for Alternative Form of Regulation Under Chapter 30*, Order (entered Jan. 17, 1997) at 134, as implemented in *Final Alternative Regulation Plan of Commonwealth Telephone Company* at 21, Docket No. P-00961024 (establishing a 105-day time frame for a Commission decision).

complaint may be filed by a person complaining of an act done or omitted to be done by a person subject to the Commission’s jurisdiction in violation, or claimed violation, of an appropriate statute, regulation or order. Generally, petitions may be filed when relief is sought on some subject matter within the Commission’s jurisdiction, for example, to remove uncertainty about an obligation, or to seek Commission action with respect to an existing or prospective regulation. The assigned bureau varies based on the nature of the proceeding.

2. *Mediation Process.* 52 Pa. Code §§ 69.391—69.397. Mediation is a flexible program designed to facilitate the amicable resolution of disputes between the parties. The mediator renders neither a formal nor informal decision, rather, the mediator encourages the parties to seek negotiated settlements. Mediation is available in all qualified contested proceedings or proceedings which could be contested, as determined by the Office of Administrative Law Judge. If the parties do not reach settlement, the matter may be brought to resolution through formal proceedings.

3. *Emergency Relief.* 52 Pa. Code §§ 3.1—3.12. In a situation that presents a clear and present danger to life or property, or is uncontested, a petition for emergency relief may be filed. Requests for an interim emergency order under § 3.2 are assigned to the Office of Administrative Law Judge for disposition in accordance with due process requirements. Requests for ex parte emergency relief under § 3.6 may be brought to the Commission’s attention through a written pleading or through informal contact. Such requests are directed to the Office of Executive Director for appropriate internal assignment and management. All ex parte orders must be ratified at the next scheduled public meeting.

4. *Informal Complaint Resolution.* The Commission’s Bureau of Consumer Services (BCS) has an informal complaint process to resolve retail customer issues in all fixed utility types, pursuant to 66 Pa.C.S. § 308(d). For most retail telecommunications customer issues, including local service provider (LSP) billing accuracy, application, basic service suspension and other credit and collection issues, BCS has authority to issue informal decisions.¹⁰ These decisions can be appealed by filing timely notice of intent to appeal with the Secretary of the Commission. Timely notice for telecommunications informal complaints is ten days from the date the BCS decision is issued. 52 Pa. Code § 64.162.¹¹

Occasionally, BCS addresses wholesale telecommunications issues. The issues might include procedures for dealing with end-users in a potential embargo or termination of a LSP, proper notice to the alleged delinquent LSP, and LSP disputes about migration of service (they include releasing accounts, porting numbers, interfering stations and similar issues). The informal process is not particularly effective at resolving wholesale billing disputes, but has been somewhat effective at facilitating acceptable payment terms between the parties. We note, however, that BCS has refrained from issuing informal decisions on complaints between certificated carriers.

Additional Processes—Those Open to Telecommunications Carriers

The following additional processes are also available specifically for resolution of telecommunications disputes.

¹⁰ For further information on Commission policy regarding BCS payment arrangements, see *Stammel v. PG Energy*, Opinion and Order (entered May 21, 2003), Docket No. C-20027994.

¹¹ Compare 52 Pa. Code § 56.172 (providing 20-day appeal period for other fixed utility types).

They are set forth chronologically, based on the entry date of the Commission order initiating the process.

5. *Interconnection Agreement Mediation and Arbitration. Implementation of the Telecommunications Act of 1996*, Order (entered June 3, 1996), as clarified by Order on Reconsideration (entered Sep. 6, 1996) at Docket No. M-00960799. This process was adopted following passage of the federal Telecommunications Act of 1996, 47 U.S.C. §§ 151, et seq., to ensure that the Commission meets all of its responsibilities under the federal Act and to give regulated companies the benefit of established policies to meet the Act's requirements. Where parties are unable to resolve issues arising from a carrier request for interconnection, service or network elements, the Commission will resolve all open issues through arbitration (or mediation, upon request). The lead bureau is Office of Administrative Law Judge. In formal proceedings, the assigned ALJ issues either an initial decision or a recommended decision, subject to review by the Commission upon exception or Commissioner request.

6. *"Opt In" Expedited Process. Petition of Global NAPs South, Inc. for Arbitration of Interconnection Rates, Terms and Conditions and Related Relief*, Order (entered May 27, 1999) at 17-18, Docket No. A-310771; *In re: Application of CCCPA, Inc., d/b/a CONNECT! for Approval of an Interconnection Agreement Between CONNECT! and Bell Atlantic-Pa., Inc.*, Order (entered May 27, 1999) at 16-17 at Docket No. A-310740. This process is designed to expeditiously secure interconnection agreement rights under 47 U.S.C. § 252(i) and 47 C.F.R. § 51.809. The lead bureau is the Office of Administrative Law Judge. The assigned ALJ issues either an initial decision or a recommended decision, subject to review by the Commission upon exception or Commissioner request.

7. *Master Street Address Guide Arbitration. Petition of Bell Atlantic-Pennsylvania, Inc. for a Declaratory Order Relating to Provision of Master Street Address Guides to Competitive Local Exchange Carriers*, Supplemental Final Order (entered May 17, 2000), Docket No. P-00971203. This process establishes a statewide process for resolving Master Street Address Guide disputes, disputes that are related to the provisioning of 9-1-1 service. A principal arbitrator with subject matter expertise is assigned; the arbitrator is likely to be assigned from the Bureau of Fixed Utility Services. The arbitrator issues an informal determination resolving the dispute within five business days of a party conference. There is a five business day appeal period to the Commission. If no appeal is taken, the informal decision becomes a final Commission order as evidenced by a Secretarial letter.

8. *Telco Monthly Meeting Forum ("OP-12") Determinations. Re: Structural Separation of Bell Atlantic-Pennsylvania, Inc. Retail and Wholesale Operations*, Order (entered Apr. 11, 2001) at ordering para. 12, Docket No. M-0001353. Regular meetings are hosted by the Office of Executive Director, with appropriate waivers, to address operational and performance issues with Verizon. An example of the type of issue addressed in the forum would be whether errors exist on wholesale bills and what can be done to eliminate the root cause of any existing errors. Settlements or informal determinations may be reached as a result of these meetings. If an informal determination issues, parties may object by providing formal notice to the Commission, in which case the parties retain all rights to a formal proceeding and traditional burdens of proof are not shifted. Because an informal determination may issue, this process differs from mediation. Issues are submitted for consideration by

contacting the Office of Executive Director, as assisted by Law Bureau and Bureau of Fixed Utility Services, in accordance with procedures instituted pursuant to a Secretarial Letter issued June 7, 2002 at M-00001353. The request for resolution is not filed with or docketed by the Secretary.

9. *Pennsylvania Carrier Working Group Deliberations. Re: Performance Measures Remedies*, Final Opinion and Order on Performance Measures and Remedies for Wholesale Performance for Verizon Pennsylvania Inc. (entered Dec. 10, 2002) at ordering para. 20, Docket No. M-00011468 (establishing Pennsylvania Carrier Working Group). The Commission constituted this group to aid the Commission's work in evaluating whether Verizon discriminates between their retail and wholesale customers in the local marketplace. This group provides an informal avenue for LECs and Public Advocates to work out and recommend to the Commission modifications to the established objective measures of Verizon's wholesale performance and self-executing remedies, thereby, reducing or eliminating contested proceedings. An example of the type of issue addressed by the group is how to measure objectively whether retail bills are more accurate than wholesale bills. This group differs from the Telco Monthly Meeting Forum in that this group is focused on comparing retail and wholesale performance, whereas the monthly forum focuses exclusively on correcting any inadequacy in Verizon's wholesale services. The lead bureaus are the Bureau of Fixed Utility Services and Law Bureau. Any recommended modification may be initiated upon petition of one or more parties or via staff recommendation.

Discussion

The Commission has encouraged use of the ADRP. See, e.g., *Petition of Sprint Commun. Co., L. P. for an Arbitration Award of Interconnection Rates, Terms and Conditions Pursuant to 47 U.S.C. § 252(b) and Related Arrangements with Verizon Pennsylvania Inc.*, Opinion and Order (entered Oct. 12, 2001) at 63, Docket No. A-310183F0002 (stating that the best course of action would be for the parties to file a joint ADRP petition); *Further Pricing of Verizon Pennsylvania Inc.'s Unbundled Network Elements*, Interim Opinion and Order (entered June 8, 2001) at 78, Docket No. R-00005261 (encouraging the parties to utilize the ADRP). The Commission has recognized, however, that the process has some limitations. See *Petition of Yipes Transmission, Inc. for Arbitration Pursuant to Section 252(b) of Telecommunications Act of 1996 to Establish an Interconnection Agreement with Verizon Pa., Inc.*, Opinion and Order (entered Oct. 12, 2001) at 29-32, Docket No. A-310964 (observing, without deciding, that ADRP may be inadequate as a regulatory response to the resolution of disputes taking place in a competitive and dynamic marketplace). It has also been observed that the process has not always been properly invoked. See *Petition of Core Commun., Inc. for Resolution of Dispute with Verizon Pa. Inc. Pursuant to the Abbreviated Dispute Resolution Process*, Initial Decision at n. 2, Docket No. A-310922F7000 (concluding that petition filed pursuant to the ADRP did not qualify for such treatment). Questions about the proper use of the process have resulted in discontinuation of the ADRP petition in favor of a conventional formal proceeding. See, e.g., *Petition of Verizon Pennsylvania Inc. for Resolution of a Dispute with CTSI, LLC Pursuant to the Abbreviated Dispute Resolution Process*, Opinion and Order (entered July 9, 2004) at 10-11, Docket No. P-00042088.

Verizon and XO submitted comments identifying recommendations for further revisions. However, given the

limited use of ADRP as well as the fact that only two companies responded to our request for comments, we question whether ADRP is serving a useful purpose.

Therefore, we tentatively conclude that the ADRP should be discontinued. Our experience with the process suggests that there is no justifiable need for continuing the process. The lack of demand and limited interest, the confusion over the proper use of the process, the recommendations for change from commenters, and the availability of a number of other formal and informal processes are the basis for our conclusion.

Our aim of providing an expedited path for resolution of certain issues might be better accomplished in other ways. Thus, rather than re-revise the ADRP, we tentatively conclude that the ADRP experiment should be discontinued at this time.

Interested parties are invited to comment before this determination becomes final. Any comment filed should address certain questions set forth below. The existing ADRP shall remain available pending a final order.

Request for Public Comment

Interested parties are invited to comment on our tentative conclusion to discontinue the experimental ADRP process. Any commenter who takes the position that the process should be retained should provide an answer to the following questions:

1. Have you been a party in an ADRP proceeding? Please identify the proceeding.
2. Under what general circumstances would you expect to be a party in an ADRP proceeding?

3. What is the advantage of the ADRP over other available processes?

4. Why are other available processes insufficient to adequately address the issues that fall within the scope of the ADRP?

5. What changes, if any, would you recommend to the ADRP?

6. If retained, should the ADRP (or revision thereof) be codified? Why?

Comments are due within 30 days of publication in the *Pennsylvania Bulletin*. Comments shall be filed only at Docket No. M-00021685; *Therefore,*

It Is Ordered:

1. A copy of this Tentative Order shall be delivered for publication to the *Pennsylvania Bulletin*.
2. Comments to our tentative conclusion to discontinue the Abbreviated Dispute Resolution Process are due within 30 days of publication in the *Pennsylvania Bulletin*. Any commenter who takes the position that the process should be retained should answer to the numbered questions set forth in the body of this Order.
3. Comments shall be filed only at Docket No. M-00021685.
