READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

There are no restrictions on the republication of official documents appearing in the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted

proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

THE COURTS

Title 249—PHILADELPHIA RULES

PHILADELPHIA COUNTY

Adding a Provision for Relisting Arbitration Cases by Agreement of All Parties; Administrative Doc. No. 01 of 1996

Order

And Now, this 25th day of January, 1996, at the request of the Compulsory Arbitration Committee of the Philadelphia Bar Association, *It Is Hereby Ordered and Decreed* that until further Order of this Court, and on a trial basis, Philadelphia Civil Rule No. ★1303(c) is amended by adding the following language thereto:

(7) *Rescheduling By Agreement of All Parties*: If all parties agree to reschedule an Arbitration Hearing and they file with the Arbitration Center an Application in the form attached hereto, the Arbitration Hearing will be rescheduled provided that the Application is filed no later than noon, at least two (2) business days prior to the originally scheduled hearing, and further provided that

all parties agree on a specific rescheduled date which must be within two (2) weeks of the original scheduled hearing date. All counsel and unrepresented parties must sign the Application and the case shall be deemed rescheduled only upon the execution of the Order by the Manager of the Arbitration Center. Requests for rescheduling pursuant to this Order may only be made one time per case.

This Order is issued in accordance with the April 11, 1986, Order of the Supreme Court of Pennsylvania, Eastern District, No. 55 Judicial Administration, Docket No. 1, Phila. Civ. R. No. ★51 and Pa.R.C.P. No. 239, and shall become effective immediately. As required by Pa.R.C.P. No. 239, the original Order shall be filed with the Prothonotary in a docket maintained for Administrative Orders issued by the Administrative Judge of the Trial Division, and copies shall be submitted to the Administrative Office of Pennsylvania Courts, the Legislative Reference Bureau and the Civil Procedural Rules Committee. Copies of this Order shall also be submitted to Legal Communications, Ltd., *The Legal Intelligencer*, Jenkins Memorial Law Library and the Law Library for the First Judicial District.

DELAWARE COUNTY Adoption of Rule *2039

Order

And Now, this 1st day of February, 1996, the Court herewith adopts Rule *2039 as follows:

Rule *2039—Compromise, Settlement, Discontinuance of a Minor's Action and Distribution.

(a) The petition to compromise, settle or discontinue a minor's action shall include the following items:

1. A report from a physician dated within thirty (30) days of the filing of the petition;

2. A verified statement by the minor's guardian with respect to (i) the minor's physical and/or mental condition and (ii) certifying the guardian's approval of the proposed settlement (or discontinuance) and distribution of the settlement proceeds;

3. A statement by the minor's attorney of his or her professional opinion concerning liability; and

4. The minor's written approval of the proposed settlement and distribution (or discontinuance) in the event the minor has attained the age of sixteen (16).

(b) 1. If the proposed distribution includes a claim for counsel fees in excess of twenty-five percent (25%) of the net (after expenses incurred by counsel) settlement, evidence shall be presented as to the nature and extent of the services rendered.

2. Within thirty (30) days of the order approving the proposed settlement and distribution counsel for the minor shall file with the Office of Judicial Support a

certification that the funds awarded to the minor were deposited in accordance with the provisions of Pa.R.C.P. 2039(b)(2).

DELAWARE COUNTY Amendment of Rule *1305(b)

Order

And Now, this 1st day of February, 1996, Local Rule of Civil Procedure *1305(b) is hereby amended to read as follows:

(b) In addition to the items described in Pa.R.C.P. 1305(b) and subject to all the provisions thereof, a party may offer in evidence without further proof

(5) photographs, models and other non-documentary exhibits,

(6) expert witness reports and qualifications,

(7) certifications by attorneys of time and hourly rates,

(8) a letter from the custodian or other qualified witness satisfying the requirements of the Uniform Business Records as Evidence Act (42 Pa.C.S.A. § 6108).

Where the nature of the exhibits referred to in (5) above is such that it is not feasible to send a copy to the adverse party, an accurate description of the exhibit shall be provided, and the exhibit shall be made available for reasonable inspection by the adverse party. If the moving party receives no written objection thereto not less than ten (10) days prior to the trial date, this physical evidence shall be admitted. If objection is made, the moving party may submit a written request to the court administrator for reference to the appropriate judge.

PROPOSED RULEMAKING

INSURANCE DEPARTMENT

[31 PA. CODE CH. 27]

Disclosure of Material Transactions

The Insurance Department (Department) proposes to adopt Chapter 27 (relating to disclosure of material transactions), to read as set forth in Annex A. These regulations are proposed under the authority of section 320 of The Insurance Company Law of 1921 (act) (40 P. S. § 443). Under section 320 of the act, insurers transacting business in this Commonwealth are required to file financial statements with the Department on at least an annual basis, and the Department has the discretion to require additional statements as necessary. The proposed regulations would require domestic insurers to file interim statements relating to specific transactions in order to allow the Department to monitor better the financial condition of the insurers.

Purpose

The Department is primarily responsible for regulation of the financial solvency of insurers domiciled in this Commonwealth. Under section 320 of the act, insurers transacting business in this Commonwealth are required to file financial statements with the Department on at least an annual basis. Section 320 of the act further provides the Department with the discretion to require insurers to file additional statements concerning their affairs and financial condition.

This proposed rulemaking would require domestic insurers to file with the Department interim statements of specific transactions that may have a material effect on their financial condition. Unless otherwise excluded from the filing requirement under the proposed regulations, the general types of transactions required to be filed are:

(1) Acquisitions and dispositions of assets (as described in § 27.6 (relating to nature and scope of material acquisitions and dispositions of assets)) that are nonrecurring and not in the ordinary course of business and involve more than 5% of the reporting insurer's total admitted assets.

(2) Nonrenewals, cancellations or revisions of ceded reinsurance agreements (as described in § 27.8 (relating to nature and scope of material nonrenewals, cancellations or revisions of ceded reinsurance agreements with respect to property and casualty insurers)) that relate to reinsurance cessions which generate either: 50% or more of the insurer's ceded written premiums as reported in the most recent annual statutory financial statement filed by the insurer; or 50% or more of the insurer's total ceded indemnity loss and loss adjustment expense reserves.

Without knowledge of these types of extraordinary transactions as they occur, the Department is at a disadvantage in monitoring the financial condition of domestic insurers. Therefore, the regulations are needed to enable the Department to better monitor insurer solvency between annual financial statement filing dates.

Explanation of Regulatory Requirements

Section 27.1 (relating to definitions) contains definitions of "domestic" and "insurer" as key terms used in identifying the types of insurance entities that fall within the scope of the proposed regulations. Section 27.3 (relating to application) specifies that the proposed regulations

apply to those insurers required to file financial statements under section 320 of the act. Section 27.3 also clarifies that the proposed regulations do not affect a separate statute which requires insurers to provide prior notice to the Department of certain transactions involving disposals of assets or reinsurance cessions.

Section 27.4 (relating to statements disclosing material transactions) identifies the general types of transactions that must be reported under the proposed regulations and establishes a 30-day time frame for filings. This section also provides an example of how the 30-day filing requirement is applied to a series of related material acquisitions or dispositions of assets.

Section 27.5 (relating to confidentiality of statements disclosing material transactions) provides for confidential treatment to be given to statements filed under the proposed regulations, except that the Department may share information with the National Association of Insurance Commissioners (NAIC) and other states or jurisdictions if those parties can and will protect its confidentiality. This section protects the confidentiality of information which would not otherwise be reported in public documents while providing the Department with the discretion to share information with the NAIC and other regulators when appropriate, particularly in situations involving domestic insurers that have a significant number of policyholders in other states.

Section 27.6 (relating to nature and scope of material acquisitions and dispositions of assets) establishes the parameters for material acquisitions and dispositions of assets that fall within the scope of the proposed regulations and provides examples of specific types of transactions that are required to be reported. Section 27.7 (relating to content of statements disclosing material acquisitions or dispositions of assets) lists the information that must be included in statements of material acquisitions or dispositions of assets.

Section 27.8 (relating to nature and scope of material nonrenewals, cancellations or revisions of ceded reinsurance agreements with respect to property and casualty insurers) defines the type of nonrenewals, cancellations or revisions of ceded reinsurance agreements that are required to be reported by property and casualty insurers. This section also provides exemptions for certain transactions that meet the definition but are not required to be filed. In general, the exemptions include transactions (1) where the amount of premium ceded to reinsurers is less than 10% of the insurer's total premiums; and (2) where existing reinsurance is replaced with an agreement with another licensed or qualified reinsurer and there is no significant increase in the amount of risk retained by the ceding insurer. Revisions to inter-company pooling reinsurance agreements among affiliated insurers are also exempted from the filing requirement.

Section 27.9 (relating to nature and scope of material nonrenewals, cancellations or revisions of ceded reinsurance agreements with respect to life insurers) includes provisions for life insurers comparable to provisions in § 27.8 for property and casualty insurers for reporting of material transactions relating to reinsurance agreements. Section 27.10 (relating to contents of statements disclosing material nonrenewal, cancellation or revision of ceded reinsurance agreements) lists the information that must be included in statements of material nonrenewal, cancellation or revision of ceded reinsurance agreements filed

by both property and casualty insurers and life insurers. This section also permits reporting on a consolidated basis when the reporting insurer is part of a group of insurers which utilizes a pooling arrangement or 100% reinsurance agreement.

Section 27.11 (relating to penalties) provides for penalties consistent with the authorizing statute for failure to file or for willfully filing a false statement. Finally, Appendix A (relating to certification for statement disclosing material transaction) is a certification form to be executed by an officer of an insurer filing a statement disclosing a material transaction.

Fiscal Impact

State Government

Review of reports filed under these proposed regulations will not have a measurable impact on Department costs associated with the analyses of financial statements filed by domestic insurers.

General Public

The proposed regulations have no immediate fiscal impact on the general public. However, the general public will benefit to the extent that adoption of the proposed regulations enhance the ability of the Department to monitor the financial solvency of domestic insurers.

Political Subdivisions

The proposed regulations have no impact on costs to political subdivisions.

Private Sector

The reporting requirements in these proposed regulations will impose no significant costs on domestic insurers.

Paperwork

The proposed regulations require additional reporting by domestic insurers. However, the disclosure requirements established by the proposed regulations are necessary in order for the Department to determine whether material transactions may have an adverse impact on the interests of policyholders or on the financial stability of a domestic insurer.

Effectiveness/Sunshine Date

The proposed regulations will become effective upon publication in the *Pennsylvania Bulletin* as final rule-making. The regulations will be monitored annually. No sunset date has been assigned.

Contact Person

Questions or comments regarding the proposed rule-making may be addressed in writing to Elaine M. Leitzel, Administrative Officer, Office of Regulation of Companies, 1345 Strawberry Square, Harrisburg, PA 17120, (717) 787-8840, within 30 days following publication of this notice in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Department submitted a copy of these proposed regulations on February 8, 1996, to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Insurance and the Senate Committee on Banking and Insurance. In addition to submitting these proposed regulations, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the agency in compliance with Execu-

tive Order 1982-2, "Improving Government Regulations." A copy of this material is available to the public upon request.

If IRRC has any objections to any portion of the proposed regulations, it will notify the Department within 30 days after the close of the public comment period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review prior to final publication of the regulations by the Department, the General Assembly and the Governor of objections raised.

PART I. GENERAL PROVISIONS

Subpart B. SECURITIES AND STOCK TRANSACTIONS

CHAPTER 27. DISCLOSURE OF MATERIAL TRANSACTIONS

- Sec. 27.1. Definitions.
- 27.2. Purpose.
- 27.3. Application.
- 27.4. Statements disclosing material transactions.
- 27.5. Confidentiality of statements disclosing material transactions.
- 27.6. Nature and scope of material acquisitions and dispositions of assets.
- 27.7. Content of statements disclosing material acquisitions or dispositions of assets.
- 27.8. Nature and scope of material nonrenewals, cancellations or revisions of ceded reinsurance agreements with respect to property and casualty insurers.
- 27.9. Nature and scope of material nonrenewals, cancellations or revisions of ceded reinsurance agreements with respect to life insurers.
- 27.10. Contents of statements of material nonrenewal, cancellation or revision of ceded reinsurance agreements.
- 27.11. Penalties.

§ 27.1. Definitions.

The following words and terms, when used in this chapter, have the following meanings, unless the context clearly indicates otherwise:

Act—The Insurance Company Law of 1921 (40 P. S. §§ 341—991.1718).

Commissioner—The Insurance Commissioner of the Commonwealth.

Department—The Insurance Department of the Commonwealth.

Domestic—Incorporated or organized under the laws of the Commonwealth.

Insurer—A company, association or exchange as defined in section 101 of the act (40 P. S. § 361).

§ 27.2. Purpose.

Section 320 of the act (40 P. S. § 443), requires every stock and mutual insurance company, association and exchange doing business in this Commonwealth to file a financial statement with the Department on at least an annual basis and further provides the Department with the discretion to require insurers to file additional statements concerning their affairs and financial condition. The Department is primarily responsible for regulation of the financial solvency of insurers domiciled or organized

in this Commonwealth. This chapter provides for the interim filing of statements of transactions that may have a material effect on the financial condition of a domestic insurer. The filing of statements disclosing material transactions will provide the Department with significant information needed to monitor domestic insurer solvency on a timely basis.

§ 27.3. Application.

(a) This chapter applies to licensed domestic insurers subject to section 320 of the act (40 P. S. § 443) relating to filing of statements of financial condition.

(b) This chapter does not supersede or in any way affect an insurer's duty to comply with the act of July 31 1968 (P. L. 941, No. 288) (40 P. S. §§ 995.1—995.4), relating to prior notice to the Commissioner of disposal of assets and certain reinsurance cessions.

§ 27.4. Statements disclosing material transactions.

(a) Insurers subject to this chapter shall file statements with the Department disclosing the following material transactions:

- (1) Acquisitions and dispositions of assets.
- (2) Material nonrenewals, cancellations or revisions of ceded reinsurance agreements.

(b) Notwithstanding subsection (a), if statements disclosing material transactions have been submitted to the Department for review, approval or informational purposes under other laws, regulations or requirements, no filing is required under this chapter.

(c) A statement disclosing a material transaction shall be filed with the Department within 30 days after the date on which the transaction was closed.

(d) When a statement is required as the result of a series of related material acquisitions or dispositions of assets during a 30-day period, the statement shall be filed within 30 days after any transaction within a 30-day period which results in the aggregate of transactions within that 30-day period involving more than 5% of the reporting insurer's total admitted assets as reported in that insurer's most recent annual statutory financial statement filed with the Department. For example:

Company A has total admitted assets of \$5 million.
Threshold for Filing Statement: \$250,000.

<i>Closing Date</i>		Series of Related Transactions				<i>Filing Required</i>
		<i>Amount</i>	<i>30-Day Total</i>	<i>% of Assets</i>	<i>30-Day Total</i>	
1	Jan. 1	\$ 50,000	\$	1%		No
	Jan. 15	100,000	150,000	2%	3%	No
2	Jan. 21	200,000	350,000	4%	7%	Yes-1
	Feb. 8	25,000	325,000	.5%	6.5%	Yes-2

Filing 1 must be made within 30 days of January 21.
Filing 2 must be made within 30 days of February 8.

§ 27.5. Confidentiality of statements disclosing material transactions.

(a) Statements obtained by or disclosed to the Department under this chapter shall be given confidential treatment, unless one or more of the following occur:

(1) The insurer to which the information pertains gives its prior written consent that the information may be disclosed.

(2) The Commissioner, after giving the affected insurer notice and an opportunity to be heard, determines that the interest of policyholders, shareholders or the public would be served by the publication, in which event the Commissioner may publish all or any part thereof in a manner that the Commissioner deems appropriate.

(3) The statements are subpoenaed. The Department will notify the affected insurer prior to providing the information subject to subpoena.

(b) Notwithstanding this section, the Department may share statements obtained by or disclosed to the Department under this chapter with the National Association of Insurance Commissioners and with insurance departments of other states or jurisdictions, as long as, prior to the Department's disclosure, those parties demonstrate the necessary authority and intent to provide the same confidential treatment required by this chapter.

§ 27.6. Nature of scope of material acquisitions and dispositions of assets.

(a) For purposes of this chapter, a material acquisition (or the aggregate of a series of related acquisitions during a 30-day period) or a material disposition (or the aggregate of a series of related dispositions during a 30-day period) is a transaction that is nonrecurring and not in the ordinary course of business and involves more than 5% of the reporting insurer's total admitted assets as reported in that insurer's most recent annual statutory financial statement filed with the Department.

(b) Acquisitions of assets subject to this chapter include every purchase, lease, exchange, succession or other acquisition, other than the following:

(1) The purchase, construction or development of real property occupied or to be occupied by the insurer for the transaction of its business or the acquisition of materials for that purpose.

(2) Electronic data processing hardware and operating software acquired by the insurer to support the transaction of its business.

(c) Dispositions of assets subject to this chapter include every sale, lease, transfer, exchange, mortgage, hypothecation, assignment (whether for the benefit of creditors or otherwise), abandonment, destruction, alienation or other conveyance of an interest in assets.

§ 27.7. Content of statements of material acquisitions or disposition of assets.

(a) Statements of material acquisitions or dispositions of assets shall include the following information:

- (1) The dates of the transactions.
- (2) The manner of acquisition or disposition.
- (3) A description of the assets involved.
- (4) The nature and amount of the consideration given or received.
- (5) The purpose of or reason for the transactions.
- (6) The manner by which the amount of consideration was determined.
- (7) The gain or loss recognized or realized as a result of the transaction.
- (8) The name of the person from whom the assets were acquired or to whom they were disposed.
- (9) The name, title, address and telephone number of the individual to whom notices and correspondence concerning the statements should be addressed.
- (10) A certification of an officer of the insurer as provided in Appendix A (relating to certification for statement disclosing material transaction).

(b) Material acquisitions and dispositions of assets shall be reported on a nonconsolidated basis.

§ 27.8. Nature and scope of material nonrenewals, cancellations or revisions of ceded reinsurance agreements with respect to property and casualty insurers.

(a) For purposes of this chapter, a nonrenewal, cancellation or revision of a ceded reinsurance agreement with respect to property and casualty business—including accident and health business written by a property and casualty insurer—is material if it relates to reinsurance cessions which generate one or more of the following:

- (1) Fifty percent or more of the insurer's ceded written premiums as reported in the most recent annual statutory financial statement filed by the insurer.
- (2) Fifty percent or more of the insurer's total ceded indemnity loss and loss adjustment expense reserves.

(b) Notwithstanding subsection (a), a statement under this chapter is not required if one or more of the following conditions are met:

(1) The total ceded written premium of a property and casualty insurer represents, on an annualized basis, less than 10% of the sum of the insurer's total written premium for direct and assumed business as reported in the insurer's most recent annual statutory financial statement filed with the Department.

(2) A ceded reinsurance agreement which is nonrenewed or canceled is replaced under the following conditions:

- (i) The replacement reinsurer is licensed or on the Department's list of qualified reinsurers.
- (ii) The percentage increase in the net aggregate retention by the domestic ceding insurer is less than 50%.

(3) A revision to a ceded reinsurance agreement does not increase the ceding insurer's retention of risk or exposure to loss.

(4) A revision is made to an intercompany pooling reinsurance agreement among affiliated insurers.

(c) A material revision of a ceded reinsurance agreement shall be reported if one or more of the following events occur:

(1) A reinsurer which represents more than 10% of a total cession and which is licensed to transact business in this Commonwealth or included on the Department's list of qualified reinsurers is replaced by one or more reinsurers that are neither licensed nor on the Department's list of qualified reinsurers.

(2) Previously established collateral requirements have been reduced or waived for one or more reinsurers that are neither licensed nor on the Department's list of qualified reinsurers, representing collectively more than 10% of a total cession.

(3) The percentage increase in the net aggregate retention by the domestic ceding insurer is equal to or greater than 50%.

(d) Statements filed under this section shall be prepared in compliance with § 27.10 (relating to content of statements disclosing material nonrenewal, cancellation or revision of ceded reinsurance agreements).

§ 27.9. Nature and scope of material nonrenewals, cancellations or revisions of ceded reinsurance agreements with respect to life insurers.

(a) For purposes of this chapter, a material nonrenewal, cancellation or revision of a ceded reinsurance agreement with respect to life, annuity and accident and health business written by a life insurer is a transaction that affects more than 50% of the total reserve credit taken for business ceded as reported in the insurer's most recent annual statutory financial statement filed with the Department.

(b) Notwithstanding subsection (a), a statement under this chapter is not required if one or more of the following conditions are met:

(1) The total reserve credit taken for business ceded represents less than 10% of the amount of gross reserves reported in the insurer's most recent annual statutory financial statement filed with the Department.

(2) A ceded reinsurance agreement which is nonrenewed or canceled is replaced under the following conditions:

(i) The replacement reinsurer is licensed or on the Department's list of qualified reinsurers.

(ii) The percentage increase in the amount of reserve credit taken by the domestic ceding insurer under the replacement agreement does not exceed 50% of the reserve credit which was taken under the agreement being replaced.

(3) A revision to a ceded reinsurance agreement does not increase the ceding insurer's retention of risk or exposure to loss.

(4) A revision is made to an inter-company pooling reinsurance agreement among affiliated insurers.

(b) A material revision of a ceded reinsurance agreement shall be reported if one of the following events occur:

(1) A reinsurer which represents more than 10% of a total cession and which is licensed to transact business in this Commonwealth or included on the Department's list of qualified reinsurers is replaced by one or more reinsurers that are neither licensed nor on the Department's list of qualified reinsurers.

(2) Previously established collateral requirements have been reduced or waived with regard to one or more reinsurers that are neither licensed nor on the Department's list of qualified reinsurers, representing collectively more than 10% of a total cession.

(c) Statements filed under this section shall be prepared in compliance with § 27.10 (relating to contents of statements disclosing material nonrenewal, cancellation or revision of ceded reinsurance agreements).

§ 27.10. Contents of statements of material nonrenewal, cancellation or revision of ceded reinsurance agreements.

(a) Statements of material nonrenewal, cancellation or revision of ceded reinsurance agreements shall include the following information:

(1) The effective date of the nonrenewal, cancellation or revision.

(2) A description of the transaction.

(3) Identification of the party which initiated the transaction.

(4) The purpose of or reason for the transaction.

(5) The identity of replacement reinsurers, if applicable.

(6) Quantification of additional risk to the insurer resulting from the transaction.

(7) The name, title, address and telephone number of the individual to whom notices and correspondence concerning the statements should be addressed.

(8) A certification of an officer of the insurer as provided in Appendix A (relating to certification for statement disclosing material transaction).

(b) Material nonrenewals, cancellations or revisions of ceded reinsurance agreements shall be reported on a nonconsolidated basis. If the reporting insurer is part of a consolidated group of insurers which utilizes a pooling arrangement or 100% reinsurance agreement which affects the solvency and integrity of the reporting insurer's reserves and that insurer ceded substantially all of its direct and assumed business to the pool, material nonrenewals, cancellations or revisions of ceded reinsurance agreements may be reported on a consolidated basis. An insurer is deemed to have ceded substantially all of its direct and assumed business to a pool if the insurer has less than \$1 million total direct plus assumed written premiums during a calendar year that are not subject to a pooling arrangement and the net income of the business not subject to the pooling arrangement represents less than 5% of the insurer's capital and surplus as reported in its most recent annual statutory financial statement filed with the Department.

§ 27.11. Penalties.

(a) An insurer that neglects to make and file a statement in the form or within the time required by this chapter shall be subject to the penalty for late filing of statements concerning its financial condition and affairs as provided in section 320(e)(1) of the act (40 P. S. § 443(e)(1)).

(b) For willfully filing a false statement required by this chapter, an insurer and the persons making oath to or subscribing the statement shall be subject to the penalties as provided in section 320(e)(2) of the act (40 P. S. § 443(e)(2)).

Termination of Proposed Rulemaking: Integrated Resource Planning for Water Utilities (52 Pa. Code § 65.21); Doc. No. L-00930077

Public meeting held

Opinion and Order

By the Commission:

On February 12, 1988, the Commission promulgated regulations for the purpose of implementing a lease cost planning strategy in the electric and gas industry. On April 2, 1993, the Commission issued an Order requesting comments on initial draft regulations for integrated resource planning (IRP) for water utilities. In the Commission's judgment, there were reasons to inquire whether a similar strategy for the water industry would be appropriate.

One of the underlying premises was that IRP as applied to the electric and gas utilities was easily transferred to water utilities. Based on the comments received in this docket, we now conclude that this premise was not accurate.

The development of the IRP principles for the electric and gas industry was undertaken to achieve certain objectives in consideration of characteristics unique to those two industries. The water industry differs in many ways to those industries.

One of the main reasons for the IRP in the electric and gas industry was to control rapid growth in a cost effective manner. Over the past two decades, the water industry has actually experienced a decline in per cus-

tomers water demand. Further, unlike the electric industry there are no new water consuming products introduced in the home or industry creating additional water requirements such that new source development would be necessary. In fact, the water industry is experiencing a decline in water usage on a per capita basis due to conservation efforts and the increasing availability and use of water efficient fixtures such as dishwashers, shower heads and low consumption water closets.

The investment in the quality of the product differs from the electric and gas industries. The major challenge for the water industry is upgrading treatment and distribution facilities for existing customers rather than building new supplies to meet growth in per customer demand. The difficulty is that water must be treated to exacting standards so as to comply with the Safe Drinking Water Act.

The Commission is not in a position to effectively implement a comprehensive, Statewide IRP since its jurisdiction does not extend to all water suppliers. There are also many regulatory agencies with broad jurisdictional responsibilities for water resource management that are in a better position to review components of an IRP. These agencies include the United States Environmental Protection Agency, the Delaware River Basin Commission, the Susquehanna River Basin Commission and the Pennsylvania Department of Environmental Protection which have the legislative and regulatory responsibilities to manage and control water withdrawal of all users. There is the potential for redundancy and/or conflict between the Commission and the other regulatory agencies. It would be inappropriate for this Commission to impose IRP requirements on the regulated water utilities in a manner that may not be consistent with IRP policies and guidelines for regulatory agencies which have broader jurisdictional authority and greater responsibility for total water management.

The IRP goal states that the filing of planning information will provide to the Commission information that is needed for the Commission to evaluate the needs of water utilities. The proposed regulations will not provide this information. An effective IRP must include all jurisdictional water companies. The small, troubled water companies are the companies that the Commission needs such planning information to enable better regulation. However, the smaller companies are exempt from the proposed regulations because of their size and the cost associated with compliance with the proposed regulations. The water companies that fall under the proposed regulations have planning staffs and must answer to shareholders for deficiencies in their systems.

With that goal in mind, the cost associated with reporting requirements is not justified. Given the limited resources of the Commission, the money would be better spent focusing on the small troubled water companies that are exempt from the proposed regulations. The Commission already has in place several task forces and working groups that are examining the plight of the troubled water companies.

Based on the discussion above, we shall terminate the rulemaking in this docket. Accordingly, under 66 Pa.C.S. §§ 308, 501, 504, 523 and 1501, and the Commonwealth Document Law (45 P.S. § 1201, *et seq.*) and regulations promulgated thereunder at 1 Pa. Code §§ 7.1—7.4, we find that the IRP regulations at 52 Pa. Code § 65.21 are not warranted and are rejected; *Therefore,*

It Is Ordered:

1. That the rulemaking proceeding at this docket number is hereby terminated.

2. That this Order shall be published in the *Pennsylvania Bulletin*.

3. That a copy of this Order shall be served upon the Office of Consumer Advocate, the Department of Environmental Protection, the Delaware and Susquehanna River Basin Commissions, the Office of Small Business Advocate, the Office of Trial Staff, the Pennsylvania Emergency Management Agency, the Department of Community Affairs, all jurisdictional Class A water utilities, and all parties who submitted comments to the advance notice of proposed rulemaking.

4. That the Secretary shall duly certify this Order and deposit it with the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*.

5. Alternate formats of this document are available to persons with disabilities and may be obtained by contracting Shirley M. Leming, Regulatory Coordinator, Law Bureau, at (717) 772-4597 or through AT&T Relay Center at 1 (800) 654-5988. The contact persons are Stanley E. Brown, Assistant Counsel, Law Bureau, (717) 783-3968, and Thomas Heck, Bureau of CEEP, (717) 783-1985.

6. That the docket at L-00930077 is closed.

STATE BOARD OF MEDICINE AND STATE BOARD OF OSTEOPATHIC MEDICINE

[49 PA. CODE CHS. 18 AND 25]

Respiratory Care Practitioners

By this combined proposal, the State Board of Medicine and State Board of Osteopathic Medicine (the Boards) propose to amend Chapters 18 and 25, as set forth in Annex A. These proposed regulations will add new subchapters pertaining to the certification and practice of respiratory care practitioners in this Commonwealth.

In 1993, the Legislature amended both medical practice acts to create a new certification class of practitioners regulated by the Boards to be known as respiratory care practitioners. Under the amendatory acts, respiratory care practitioners may obtain certifications from either Board.

The Boards have elected to promulgate the proposed new Subchapters F and I (relating to respiratory care practitioners) jointly inasmuch as the amendments to both Boards' practice acts regarding respiratory care certification are substantially identical.

Statutory Authority

The regulations are proposed under the authority of sections 13.1(c) and 36.1 of the Medical Practice Act of

1985 (MPA) (63 P.S. §§ 422.13a(c) and 422.36a) and sections 10.1(c) and 10.2 of the Osteopathic Medical Practice Act (OMPA) (63 P.S. §§ 271.10a(c) and 271.10b), added by the act of July 2, 1993 (P.L. 424, No. 60) and the act of July 2, 1993 (P.L. 418, No. 519) respectively. These sections require that the Boards issue certificates and temporary permits to individuals meeting the qualifications set forth in the MPA and the OMPA to practice or offer to practice respiratory care in this Commonwealth. Under section 13.1(a) of the MPA and section 10.1(a) of the OMPA, on and after June 30, 1995, an individual may not practice, hold himself out to the public to practice or offer to practice as a respiratory care practitioner unless that individual holds a valid, current temporary permit or certificate issued by either Board. See section 3 of the act of July 2, 1993, section 13.1(a) of the MPA, section 3 of the act of July 2, 1993 and section 10.1(a) of the OMPA.

Under section 13.1(c) of the MPA and section 10.1(c) of the OMPA, the Boards are authorized to promulgate regulations to establish procedures for application, credentials, verification, examination, certification and fees.

Persons Affected

Persons who practice or who seek to practice respiratory care in this Commonwealth on and after June 30, 1995, must obtain a permit or a certificate in accordance with the provisions of this proposal.

Summary of Provisions

Major features of the new subchapters as proposed are summarized as follows.

§§ 18.302 and 25.293. Definitions.

These proposed sections would define words and phrases used in the subchapters. The National uniform examination adopted by the Boards is the CRTT, the entry level respiratory care examination of the National Board for Respiratory Care (NBRC). The Boards also recognize as the accrediting agency for acceptable respiratory care educational programs the Joint Review Committee on Respiratory Therapy Education (JRCRTE).

§§ 18.303 and 25.924. Fees.

These proposed sections establish fees for obtaining a temporary permit, certification, examination and biennial renewal of certifications. Each of the fees for the issuance of a temporary permit and initial certification and for examination is based upon the costs of providing the service. The biennial renewal fee represents the estimation of the Boards of the costs of administering the certification program over a biennial period.

§§ 18.304 and 25.295. Certification of respiratory care practitioners; practice; exceptions.

Subsection (a) of each section would notify persons intending to practice respiratory care of the requirements of certification unless exempted by statute.

Subsections (b) of each section as proposed would notify persons that the words "respiratory care practitioner," the letters "R.C.P." or similar words and abbreviations, may not be used in connection with the provision of respiratory care services unless provided by a certified respiratory care practitioner under the supervision of a licensed physician.

§§ 18.305 and 25.296. Functions of respiratory care practitioners.

Proposed subsection (a) of each section states the functions that have been legislatively reserved to respiratory care practitioners. Proposed subsection (b) of each

section restates the limitation of the MPA and the OMPA that respiratory care functions may only be performed upon a physician prescription, a referral or under medical direction under standing orders or protocols in a health care facility or other health care site.

§§ 18.306 and 25.297. Temporary permits.

The MPA and the OMPA require the Boards to issue temporary permits to persons who are qualified by education to take the examination for certification. Proposed subsection (a) of each section provides that a temporary permit will be issued to applicants who submit evidence of: (1) having graduated from a respiratory care program while awaiting the results of the Board-approved examination; (2) expecting to graduate within 30 days of the date of application for temporary permit; or (3) having provided respiratory care services for at least 12-consecutive months prior to December 28, 1993, and awaiting results of the examination. Proposed subsection (b) of each section provides that a temporary permit expire in the case of failure of the examination or at the end of 12 months, whichever occurs first. Only those applicants who have not fulfilled the requirements for certification need obtain a temporary permit.

§§ 18.307 and 25.298. Criteria for certification as a respiratory care practitioner.

These proposed sections provide the criteria which the Boards will apply in the initial certification of applicants. Proposed subsection (a) of each section requires that the applicant submit evidence of: (1) having graduated from a respiratory care program and passed the Boards' examination; (2) having been credentialed as a Certified Respiratory Therapy Technician or a Registered Respiratory Therapist by the National Board for Respiratory Care; (3) holding a valid license, certificate or registration as a respiratory care practitioner in another state, territory or the District of Columbia issued based upon requirements substantially similar to those required in the Commonwealth; or (4) having provided respiratory care services for at least 12-consecutive months prior to December 23, 1993, and passed the CRTT. Proposed subsection (b) of each section requires the payment of the appropriate fee as a precondition to Board certification.

§§ 18.308 and 25.299. Renewal of certification.

As proposed, these sections establish the procedure for certificateholders to biennially renew their certifications as required under the MPA and the OMPA. Biennial review forms will be provided to certificateholders at their last mailing address on record with the appropriate Board. Certificateholders are required to inform the appropriate Board within 10 days of address changes. Certificateholders are further notified of the statutorily imposed \$5 late penalty fee required by the Bureau of Professional and Occupational Affairs Fee Act (63 P.S. §§ 1401-101—1401-501) Subsections (e)—(h) of each section will notify certificateholders of procedures to request inactive status and to return to active status as a respiratory care practitioner in this Commonwealth.

Fiscal Impact

Commonwealth

The proposed regulations establish fees for the issuance of temporary permits, certifications and biennial renewal for respiratory care practitioners. Revenue generated from these fees will be used to cover the costs of administration of the certification program. The proposed regulations would not otherwise impose additional costs on the Commonwealth.

Political Subdivisions

The proposed regulations should not have any direct fiscal impact upon political subdivisions in this Commonwealth.

Private Sector

The proposed regulations may impose additional costs upon the private sector. In particular, entities who provide respiratory care services may incur additional costs in bringing their facilities into compliance by employing or utilizing certified practitioners. Persons wishing to obtain certification from the Boards will incur those costs associated with the administration of the certification program, as well as costs associated with the qualifying examination.

General Public

The proposed regulations should impose no additional costs upon the general public.

Paperwork Requirements

Persons seeking temporary permits or certifications will be required to obtain application forms from the Boards in order to obtain certification.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Boards submitted a copy of these proposed regulations on February 9, 1996, to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Committee on Consumer Protection and Professional Licensure and the House Committee on Professional Licensure. In addition to submitting the proposal, the Boards have provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Boards in compliance with Executive Order 1982-2, "Improving Government Regulations." A copy of this material is available to the public upon request.

If IRRC has objections to any portion of the proposal, it will notify the Boards within 30 days of the close of the public comment period. The notification shall specify the regulatory review criteria which are not met by that portion. The Regulatory Review Act specifies detailed procedures for review of objections raised, prior to final publication of the regulations, by the Boards, the General Assembly and the Governor.

Contact Persons

Interested persons are invited to submit written comments, suggestions or objections regarding the proposal to either the State Board of Medicine or the State Board of Osteopathic Medicine at the following address: P. O. Box 2649, Harrisburg, PA 17105-2649, within 30 days following publication of the proposal in the *Pennsylvania Bulletin*. Procedures for filing written comments or requests for documents and additional information may be obtained by contacting Cindy Warner, Administrative Assistant for the State Board of Medicine, at (717) 783-1400, or Gina Bittner, Administrative Assistant for the State Board of Osteopathic Medicine, at (717) 783-4858.

(*Editor's Note:* The following subchapter is proposed to be added. It is printed in regular type to enhance readability.)

Sec.	
18.301.	Purpose.
18.302.	Definitions.
18.303.	Fees.
18.304.	Certification of respiratory care practitioners; practice; exemptions.
18.305.	Functions of respiratory care practitioners.
18.306.	Temporary permits.
18.307.	Criteria for certification as a respiratory care practitioner.
18.308.	Change of name or address.
18.309.	Renewal of certification.
18.310.	Inactive status.

§ 18.301. Purpose.

This subchapter implements sections 13.1 and 36.1 of the act (63 P. S. §§ 422.13a and 422.36a), which were added by section 3 of the act of July 2, 1993 (P. L. 424, No. 60) to provide for the certification of respiratory care practitioners.

§ 18.302. Definitions.

The following words and terms, when used in this subchapter have the following meanings, unless the context clearly indicates otherwise:

CRTT—The entry level respiratory care examination, a National uniform examination developed and administered by the NBRC for certified respiratory care therapy technicians.

JRCRTE—The Joint Review Committee on Respiratory Therapy Education, which accredits respiratory care programs.

NBRC—The National Board for Respiratory Care, the agency recognized by the Board to credential respiratory care practitioners.

Respiratory care practitioner—A person who has been certified in accordance with the act and this subchapter.

§ 18.303. Fees.

The following is the schedule of fees charged by the Board:

- (1) Temporary permit \$15
- (2) Initial certification \$15
- (3) Certification examination \$90
(Effective 7-96) \$100
- (4) Reexamination \$60
- (5) Biennial renewal of certification \$25

§ 18.304. Certification of respiratory care practitioners; practice; exemptions.

(a) A person may not practice or hold himself out as being able to practice as a respiratory care practitioner in this Commonwealth unless the person holds a valid, current temporary permit or certificate issued by the Board, or the State Board of Osteopathic Medicine under

Chapter 25 (relating to State Board of Osteopathic Medicine), or is exempted under section 13.1(e) of the act (63 P. S. § 422.13a(e)) or section 10.1(e) of the Osteopathic Medical Practice Act (63 P. S. § 271.10a(e)).

(b) A person may not use the words "respiratory care practitioner," the letters "R.C.P." or similar words and related abbreviations to imply that respiratory care services are being provided, unless the services are provided by a respiratory care practitioner who holds a valid, current temporary permit or certificate issued by the Board or the State Board of Osteopathic Medicine and only while working under the supervision of a licensed physician.

§ 18.305. Functions of respiratory care practitioners.

(a) Under section 13.1(d) of the act (63 P. S. § 422.13a(d)), a respiratory care practitioner may perform activities that include the following:

- (1) Administration of medical gases.
- (2) Humidity and aerosol therapy.
- (3) Administration of aerosolized medications.
- (4) Intermittent positive pressure breathing.
- (5) Incentive spirometry.
- (6) Bronchopulmonary hygiene.
- (7) Management and maintenance of natural airways.
- (8) Maintenance and insertion of artificial airways.
- (9) Cardiopulmonary rehabilitation.
- (10) Management and maintenance of mechanical ventilation.
- (11) Measurement of ventilatory flows, volumes and pressures.
- (12) Analysis of ventilatory gases and blood gases.

(b) Under section 13.1(d) of the act, a respiratory care practitioner may perform the activities listed in subsection (a) only upon physician prescription or referral or while under medical direction consistent with standing orders or protocols in an institution or health care facility.

§ 18.306. Temporary permits.

(a) A temporary permit will be issued to an applicant who submits evidence satisfactory to the Board, on forms supplied by the Board, that the applicant has met one or more of the following criteria:

- (1) Has graduated from a respiratory care program approved by the JRCRTE, and is awaiting results of the CRTT.
- (2) Is enrolled in a respiratory care program approved by the JRCRTE, expects to graduate within 30 days of the date of application, and has applied to sit for the next scheduled examination.
- (3) Has provided respiratory care services for at least 12-consecutive months prior to December 28, 1993.

(b) A temporary permit shall expire upon notification of failure of the examination or 12 months from the date of issuance, whichever occurs first.

§ 18.307. Criteria for certification as a respiratory care practitioner.

The Board will approve for certification as a respiratory care practitioner an applicant who:

(1) Submits evidence satisfactory to the Board, on forms supplied by the Board, that the applicant has met one or more of the following criteria:

- (i) Has graduated from a respiratory care program approved by the JRCRTE and passed the CRTT as determined by the NBRC.
- (ii) Has been credentialed as a Certified Respiratory Therapy Technician or Registered Respiratory Therapist by the NBRC.

(iii) Holds a valid license, certificate or registration as a respiratory care practitioner in another state, territory or the District of Columbia which has been issued based on requirements substantially the same as those required by the Commonwealth, including the examination requirement.

(iv) Has provided respiratory care services for at least 12 consecutive months prior to December 28, 1993, and has passed the CRTT as determined by the NBRC.

(2) Has paid the appropriate fee in the form of a check or money order.

§ 18.308. Change of name or address.

A certificateholder shall inform the Board in writing within 10 days of a change of name or mailing address.

§ 18.309. Renewal of certification.

(a) A certification issued under this subchapter expires on December 31 of every even-numbered year unless renewed for the next biennium.

(b) Biennial renewal forms and other forms and literature to be distributed by the Board will be forwarded to the last mailing address given to the Board.

(c) To retain the right to engage in practice, the certificateholder shall renew certification in the manner prescribed by the Board and pay the required fee prior to the expiration of the next biennium.

(d) When a certification is renewed after December 31 of an even-numbered year, a penalty fee of \$5 for each month or part of a month of practice beyond the renewal date will be charged in addition to the renewal fee.

§ 18.310. Inactive status.

(a) A certificateholder who does not intend to practice in this Commonwealth and who does not desire to renew certification shall inform the Board in writing. Written confirmation of inactive status will be forwarded to the certificateholder.

(b) A certificateholder shall notify the Board, in writing, of his desire to reactivate the registration.

(c) A certificateholder who is applying to return to active status is required to pay fees which are due, submit a sworn statement stating the period of time during which the certificateholder was not engaged in practice in this Commonwealth, submit a resume of professional activities since the most recent registration and submit a letter of good standing from another state or territory where the certificateholder is currently licensed or registered to practice.

(d) The applicant for reactivation will not be assessed a fee or penalty for preceding biennial periods in which the applicant did not engage in practice in this Commonwealth.

NOTICES

DELAWARE RIVER BASIN COMMISSION

Commission Meeting and Public Hearing

The Delaware River Basin Commission will hold a public hearing on Wednesday, February 28, 1996. The hearing will be part of the Commission's regular business meeting which is open to the public and scheduled to begin at 1 p.m. in the Goddard Conference Room of the Commission's offices at 25 State Police Drive, West Trenton, New Jersey.

An informal conference among the Commissioners and staff will be held at 11 a.m. at the same location and will include a presentation on the Neshaminy Creek Basin Study and management options, discussion of proposed DRBC computer system and GIS, the Commission's 1996 meeting schedule and public dialogue.

The subjects of the hearing will be as follows:

Applications for Approval of the Following Projects Under Article 10.3, Article 11 and/or Section 3.8 of the Compact:

1. *Holdover Project: Crompton & Knowles Colors Incorporated, D-95-8 (Revised).* A request to revise the applicant's recently approved 0.22 million gallons per day (mgd) industrial wastewater treatment plant (IWTP) expansion docket to increase the average monthly allowable copper concentration limits from 0.50 milligrams per liter (mg/l) to 1.0 mg/l. The applicant requests the limit on the basis of demonstration of best practicable treatment provided by its IWTP that serves the applicant's dyestuff and special chemical manufacturing operation. The plant is located in Robeson Township, Berks County, PA and will continue to discharge to the Schuylkill River. This hearing continues that of January 24, 1996.

2. *Merrill Creek Owners Group (MCOG) D-77-110 CP (Amendment 9).* An application for inclusion of the Grays Ferry Cogeneration Partnership's 173 megawatt cogeneration plant (an oil/natural gas fueled combustion turbine approved by Docket No. D-95-32 on June 28, 1995) as a Designated Unit to Table A (Revised) of the Merrill Creek Reservoir project, to enable releases from the reservoir to make up for consumptive water use of the plant during drought periods. The MCOG expects the Grays Ferry Cogeneration plant to have a maximum monthly consumptive water use of 267,840 gallons per day (gpd) during winter and 60,480 gpd during summer. The plant is situated on the site of an existing cogeneration facility which was formerly part of the PECO Energy Company's Schuylkill Generating Station, in the City of Philadelphia, PA. Merrill Creek Reservoir is located in Harmony Township, Warren County, NJ.

3. *Borough of Doylestown D-79-18 CP RENEWAL 3.* An application for the renewal of a groundwater withdrawal project to supply up to 50 million gallons (mg)/30 days of water to the applicant's distribution system from well nos. 7, 8, 9, 10, 12 and 13. Commission approval on March 27, 1991, was limited to 5 years and will expire unless renewed. The applicant requests that the total withdrawal from all wells remain limited to 50 mg/30 days. The project is located in the Borough of Doylestown, Bucks County, in the Southeastern Pennsylvania Ground Water Protected Area.

4. *Evesham Municipal Utilities Authority D-93-12 CP RENEWAL.* An application for approval of a groundwater withdrawal project to supply up to 23 mg/30 days of water to the applicant's distribution system from new well no. 12 screened in the PRM Aquifer, and to retain the existing withdrawal limit of 136 mg/30 days from all wells. The project is located in Evesham Township, Burlington County, NJ.

5. *Village of Wurtsboro D-94-25 CP.* An application for approval of a groundwater withdrawal project to supply up to 2.5 mg/30 days of water to the applicant's distribution system from new well nos. 2 and 3, and to limit the withdrawal from all wells to 6.0 mg/30 days. The project is located in the Village of Wurtsboro, Sullivan County, NY.

6. *Warminster Township Municipal Authority D-94-40 CP.* An application for the approval of a groundwater withdrawal project to supply up to 18 mg/30 days to the applicant's distribution system from new well nos. 43, 44 and 45; and to increase the existing withdrawal limit from all wells from 98.46 mg/30 days to 114 mg/30 days. The project is located in Warminster Township, Bucks County, in the Southeastern Pennsylvania Ground Water Protected Area.

7. *Old York Country Club D-95-3.* An application for approval of a groundwater and surface water withdrawal project to supply up to 8 mg/30 days of water to the applicant's golf course irrigation system from new well nos. 1 and 2, and to limit the withdrawal from the man-made storage reservoirs to 8 mg/30 days. The project is located in Chesterfield Township, Burlington County, NJ.

8. *Delaware Avenue Enterprises, Inc. D-95-61.* A project to construct a multipurpose marine terminal on the Delaware River which will entail removal of existing deteriorated pier structures, construction of approximately 1,750 linear feet of new bulkheading, filling approximately 2.3 acres of open water, and dredging approximately 197,760 cubic yards. The project is located immediately upstream of the Walt Whitman Bridge (encompassing Piers 103 through 108) in the City of Philadelphia, Philadelphia County, PA.

Documents relating to these items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Please contact George C. Elias concerning docket-related questions. Persons wishing to testify at this hearing are requested to register with the Secretary prior to the hearing.

DEPARTMENT OF AGRICULTURE

Referendum on Proposed Amendment of the Pennsylvania Apple Marketing Program

I. The Pennsylvania Apple Marketing Program (Program) was established in 1987 under the provision of the

Agricultural Commodities Marketing Act of 1968 (Act) (3 P.S. §§ 1001—1012). The Program was continued by a referendum conducted in 1992. The Commodity Marketing Board of the Program requested the Secretary of Agriculture to call a referendum on a proposed amendment to the Program, to determine whether or not a majority of those voting desire the change. Under the proposed amendment Article VII, Section A of the program order would read:

The rate of assessment beginning with the 1996-97 marketing season shall be 12¢ per bushel of apples sold for fresh market use and 6¢ per hundred pounds of apples sold or accepted for processing. Beginning with the year 2000-01 marketing season and thereafter, the rate of assessment shall be 15¢ per bushel of apples sold for fresh market use and 8¢ per hundred pounds of apples sold or accepted for processing.

II. *Referendum Period:* The referendum period shall be March 25, 1996, until 4 p.m. on April 8, 1996. Completed ballots shall be mailed or hand-delivered to the Department of Agriculture, Bureau of Market Development, 2301 North Cameron Street, Harrisburg, PA 17110-9408. Hand-delivered ballots must be received by 4 p.m. on April 8, 1996. Ballots that are mailed must be post-marked no later than April 8, 1996, and received no later than April 11, 1996.

III. *Notice of Referendum:* This Referendum Order and an official ballot shall be mailed no later than March 22, 1996, to all affected producers, whose names appear on the list of Pennsylvania apple producers maintained in the Office of the Secretary of Agriculture. Additional

copies of the same material shall be made available at the Office of the Secretary of Agriculture.

IV. *Eligible Voters:* The rules governing the eligibility of a producer for voting are as follows: All growers with 500 or more apple trees maintained for the purpose of producing or growing apples for sale are entitled to vote.

V. *Counting of Ballots:* The ballots will be canvassed and counted by a Teller Committee appointed by the Secretary of Agriculture. The counting of the ballots will begin at 10 a.m., Friday, April 12, 1996, in the State Agriculture Building, Harrisburg, PA. The Secretary will announce the results of the referendum within 30 days following the completion of the referendum period. The results will be published in the *Pennsylvania Bulletin* and disseminated to the news media.

VI. *Reporting Irregularities:* Any irregularities or disputes concerning the referendum procedures must be reported in written form to the Secretary of Agriculture not later than 7 calendar days from the end of the referendum period.

VII. *Publication:* This referendum order shall be published in the *Pennsylvania Bulletin* and the *Patriot-News*.

VIII. *Effective Date:* The foregoing order shall be effective from and after February 24, 1996.

DEPARTMENT OF COMMUNITY AFFAIRS

State Planning Assistance Grant (SPAG) Program

The Department of Community Affairs (DCA) (and its successor agency, the Department of Economic and Community Development (ECD)) announces the opening of the application period for funding from the State Planning Assistance Grant (SPAG) Program for State Fiscal Year 1996-97. Grant applications will be accepted from the beginning date of this notice through the DCA

regional offices (addresses appear at the end of this notice). All applications must be received in the regional offices by close of business April 19, 1996, or if mailed, postmarked no later than that date. Applications not meeting the deadline will not be considered for funding. Telefax submissions are not acceptable.

The SPAG Program was created by the General Assembly through the passage of Act 73A, effective July 1, 1969. Subsequent funding has been provided through annual legislative appropriations. Funding of any application is subject to approval of the appropriation by the General Assembly.

The objective of the SPAG Program is to assist municipalities of the Commonwealth to address their community development needs through the preparation of comprehensive plans, environmental or physical development strategies, specialized studies, or ordinances regulating zoning, land development or environmental protection.

Eligible Applicants

An applicant can be any county, city, borough township, incorporated town, Home Rule municipality or multimunicipal planning agency or any council of governments. Applicants should apply through their official planning commission, committee, department or other authorized planning agency.

The Fiscal Year 1996-97 Program will emphasize planning needs in the following areas: as a part of comprehensive community strategy, financially disadvantaged municipalities, areas coping with strong rates of growth and addressing serious environmental problems.

General Project Types

State financial assistance under this program may be used for the following activities:

1. Developing new, or the updating of existing, comprehensive community development plans and policies or individual plan components.
2. Preparing environmental protection or physical development strategies or special studies which will support the comprehensive planning process.
3. Developing or updating ordinances and other mechanisms for implementation of comprehensive community development plans and policies, or environmental protection or physical development strategies.
4. Training and education when proposed as a participatory planning component of a planning program.

Ineligible Activities

State financial assistance under this program may not be used for the following activities:

1. General government operating and maintenance expenses, including legal fees;
2. Engineering studies, site specifications and designs;
3. Preparation of promotional campaigns, other than the required citizen participatory planning component necessary to the project; or
4. Any activity declared by the Department to be ineligible.

Grant Limit and Local Matching Requirements

Individual grant awards generally will be limited to 5% or less of the program appropriation; however, this percent may be exceeded in the case of joint applications filed by more than one municipality.

Applicants generally will be required to provide at least a 50% match for the State grant amount. The Department may reduce this amount in the case of 1) applicants experiencing extreme levels of economic distress, 2) joint applications, and 3) proposed work programs of exceptional quality which strongly reflect the Department's program priorities.

Proposal Requirements

The following information and/or documentation must be submitted to complete the application for State assistance:

1. Application must include the proposed detailed work program and budget;
2. Evidence of compliance with the Flood Plain Management Act (Act 166 of 1978);
3. Evidence of matching funds (local, private and/or Federal) necessary to carry out the project;
4. Copy of the cooperative agreement when the applicant is an official member of a group of participating municipalities.

The Department reserves the right to contact individual applicants to obtain clarification and additional information regarding the application.

The original application and three copies must be submitted to the appropriate regional office. Incomplete applications will be ineligible for funding and will be returned to the applicant.

Application Information

Copies of the application information and the application forms are available upon request by contacting any DCA regional office or the Department of Community Affairs/Department of Economic and Community Development, Bureau of Community Planning, 551 Forum Building, P. O. Box 155, Harrisburg, PA 17120, (717) 787-7400.

Also, alternative formats (for example, braille, large print, cassette tape) can be made available. Requests for alternative formats may be made to Dallas A. Dollase at the above telephone number.

Local government officials seeking additional information about the State Planning Assistance Grant Program may contact the Bureau of Community Planning at the above address and telephone number or contact the appropriate DCA (ECD) regional office:

DEPARTMENT OF EDUCATION

Application of San Francisco Theological Seminary of San Anselmo, California for Approval to Operate in Pennsylvania; Opportunity for Hearing and Invitation to Protest

Under 24 Pa.C.S. § 6503(e) (relating to certification of institutions), the Department of Education (Department) will consider the application of San Francisco Theological Seminary of San Anselmo, California for a Certificate of Authority approving the institution's operation in Pennsylvania with programs leading to a Certificate in the Art of Spiritual Direction and a Joint Certificate in the Art of Spiritual Direction and a Doctor of Ministry degree.

In accordance with 24 Pa.C.S. § 6503(e), the Department will act upon the application without hearing, unless within 30 days after the publication of this notice in the *Pennsylvania Bulletin* a written request for public hearing is filed with the Department, along with a notice of intervention, a petition to intervene or protest in

accordance with 1 Pa. Code §§ 35.23 and 35.24 (relating to protest) or 1 Pa. Code §§ 35.27—35.32 (relating to intervention).

Petitions to intervene, protest and request for hearing shall be filed with Dr. Warren D. Evans, Chartering/Governance/Accreditation Specialist, 333 Market Street, Harrisburg, PA 17126-0333, (717) 787-6576 on or before 4 p.m. on the due date prescribed by this notice. Persons wishing to review the application should phone or write to the aforementioned office to schedule a time for an in-office review. Duplicate copies of the application are not available.

Persons with a disability who wish to attend the hearing, if held, and require an auxiliary aid, service or other accommodation to participate, should contact Suzanne B. Markowicz at (717) 787-6576 to discuss how the Department of Education may best accommodate their needs.

EUGENE W. HICKOK,
Secretary

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact the Secretary to the Board at (717) 787-3483. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

Applications for National Pollutant Discharge Elimination System (NPDES) Permit to discharge to State waters.

PA 0056685. Industrial waste, **SEPTA—Victory Avenue Terminal**, 1234 Market Street, Philadelphia, PA 19107.

This application is for issuance of an NPDES permit to discharge stormwater from the parking lot and maintenance yard of the Victory Avenue Bus Terminal in Upper Darby Township, **Delaware County**. This is an existing discharge to Cobbs Creek.

The receiving stream is classified for warm water fish, migratory fish, potable water supply, industrial water supply, livestock water supply, wildlife water supply, irrigation, boating, fishing, water contact sports and esthetics.

The proposed monitoring requirements for Outfalls 001—003, based on an average storm event are as follows:

<i>Parameter</i>	<i>Average Semi-Annual (mg/l) monitor/report</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
<i>CBOD₅</i>			
Total Suspended Solids	monitor/report

PA 0032492. Sewerage, SIC: 4952, **Department of Conservation and Natural Resources**, Bureau of State Parks, Bald Eagle State Park, 149 Main Park Road, Howard, PA 16841.

This proposed action is for renewal of an NPDES permit for an existing discharge of treated sewage to Bald Eagle Creek in Liberty Township, **Centre County**.

The receiving stream is classified for the following uses: warm water fishery and aquatic life, water supply and recreation.

For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply (PWS) considered during the evaluation is PA American Water Company located at Milton approximately 50 river miles downstream.

The proposed effluent limits for Outfall 001 based on a design flow of 0.45 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Average Weekly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
<i>CBOD₅</i>	25	40	50

The EPA waiver is in effect.

PA 0028461. Sewerage, SIC: 4952, **Mifflinburg Borough Municipal Authority**, 333 Chestnut Street, Mifflinburg, PA 17844.

This amendment action is necessary because of a Water Quality Management Permit Part II treatment plant rerate of the existing facility to 1.4 mgd from 0.9 mgd.

The receiving stream is classified for the following uses: cold water fishery, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply (PWS) considered during the evaluation is the Susquehanna River located at Sunbury, 20 miles downstream.

The proposed effluent limits for Outfall 001 based on a design flow of 1.4 mgd are:

PA 0217263. Sewage, **Timothy and Mary Mooney**, P. O. Box 375, Avella, PA 15312.

This application is for issuance of an NPDES permit to discharge treated sewage from the Mooney Single Residence Sewage Treatment Plant in Independence Township, **Washington County**.

The following effluent limitations are proposed for discharge to the receiving waters, known as an unnamed tributary of Cross Creek, which are classified as a warm water fishery with existing and/or potential uses for aquatic life, water supply and recreation. The first downstream potable water supply intake from this facility is the City of Wheeling on the Ohio River at River Mile 87.

Outfall 001: new discharge, design flow of 0.0004 mgd.

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (DEP) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated

requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management, and total residual chlorine control (TRC). Any major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

Stormwater Applications

The following parties have applied for an NPDES permit to discharge stormwater into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain effluent limitations set forth in Appendix A—J of the general permit and special conditions. These proposed determinations are tentative.

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of the Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the

exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealable to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

Proposed Consent Order and Agreement

Filmore Site
Millcreek Township, Erie County

Under section 1113 of the Pennsylvania Hazardous Sites Cleanup Act (35 P. S. § 6020.1113) notice is hereby provided that the Department of Environmental Protection (Department) has entered into a Consent Order and Agreement with Whipple-Allen Realty and Construction Company (Whipple-Allen) concerning the Filmore Site. The Filmore Site encompasses approximately 20 acres at the south end of Filmore Avenue in Millcreek Township. In the past, wastes containing hazardous substances were disposed throughout the Filmore Site. The Department has determined that response actions are necessary to protect the public health, welfare and the environment at the Filmore Site.

Since 1992, Whipple-Allen has owned land within the Filmore Site that covers approximately 1.04 acres (Property). The Department has incurred and will incur response costs because of the hazardous substances that have contaminated the Property. However, based upon information obtained by the Department, and based upon information certified to by Whipple-Allen, the Department has determined that Whipple-Allen did not cause or contribute to the contamination of the Property or the rest of the Filmore Site. Accordingly, the Department has agreed to settle any claims that it may have against Whipple-Allen for \$2,120 and Whipple-Allen's consent to access so that the Department, and its designated agents, may conduct response actions at the Property.

The specifics of the Department's settlement with Whipple-Allen are set forth in the Consent Order and Agreement. The Department will receive and consider comments relating to the Consent Order and Agreement for 60 days from the date of this public notice. The Department may withdraw its consent to the settlement with Whipple-Allen if the comments concerning the Consent Order and Agreement disclose facts or considerations which indicate that the settlement is inappropriate, inad-

equate or not in the public interest. The Department's settlement with Whipple-Allen shall become final upon the filing of the Department's response to any significant comments that it receives during the 60-day public comment period.

Copies of the Consent Order and Agreement are available for inspection at the Department's office at 230 Chestnut Street, Meadville, PA. Comments may be submitted, in writing, to Charles Tordella, Project Manager, Department of Environmental Protection, Hazardous Sites Cleanup, 230 Chestnut Street, Meadville, PA 16335-3481. Further information may be obtained by contacting Charles Tordella at (814) 332-6648. TDD users may contact the Department through the Pennsylvania Relay Service at (800) 645-5984.

Acknowledgment of Notices of Intent to Remediate

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the Act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, please contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department of Environmental Protection has received the following Notices of Intent to Remediate:

Fisher Scientific, Inc., Instrument Manufacturing Division, 1410 Wayne Avenue, Indiana, PA 15701, has submitted a Notice of Intent to Remediate soil contaminated with lead. The applicant proposes to remediate the site to meet the Statewide health standard.

Hunter Farm Site, West Deer Township, **Allegheny County**. Hunter Farm Site, 4389 Clendenning Road and R. D. 5, Box 550, Gibsonia, PA 15044, has submitted a Notice of Intent to Remediate soil contaminated with lead, heavy metals, solvents, PHCs and asbestos. The applicant proposes to remediate the site to meet the Statewide health standard.

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the Act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified below, a municipality may request to be involved in the development of the remediation and

reuse plans for the site if the request is made within 30 days of the date specified below. During this comment period, a municipality may request that the person identified below, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, please contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

Reasonably Available Control Technology; Public Hearing

Approval of Reasonably Available Control Technology (RACT) Plans for:

Empire Sanitary Landfill, Inc. Taylor Borough, Lackawanna County, PA.

The Department of Environmental Protection has made a preliminary determination to approve RACT plans and amendments to the State Implementation Plan (SIP) for the above listed facility.

The proposed SIP revisions do not adopt any new regulations. They incorporate the provisions and requirements contained in RACT approvals for this facility to comply with current regulations.

The preliminary RACT determinations, if finally approved, will be incorporated into Operating Permit(s) for the facility and will be submitted to the U. S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan.

The following is the summary of the preliminary RACT determination for the main source at Empire Sanitary Landfill, Inc. which is subject to operating permit:

<i>Source</i>	<i>VOC RACT Limit</i>	<i>Control Device</i>	<i>Implementation Date</i>
Landfill	75% VOC collection efficiency and 98% destruction efficiency for VOC generated from the landfill	Landfill gas extraction system with flares	June 1, 1996

Facility is not subject to NO_x RACT requirements.

For the above facility, public hearing will be held for the purpose of receiving comments on the above proposed Operating Permit and the proposed SIP revisions. This public hearing is scheduled as follows:

<i>Facility Name</i>	<i>Location of Hearing</i>	<i>Date and Time</i>
Empire Sanitary Landfill Inc.	Abington Heights Middle School, Newton-Ransom Blvd., Newton Township, Lackawanna County	March 28, 1996 6 p.m.

Persons wishing to present testimony at the hearing for the above listed facility should contact: Hearing Examiner, DEP, 2 Public Square, Wilkes-Barre, PA 18711-0790, ATT: Mark Carmon at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to a maximum of 10 minutes and two written copies of the oral testimony. Each organization is requested to designate one witness to present testimony on its behalf.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should by contacting Richard Shudak (717) 826-2060, or the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those unable to attend the hearing, but wishing to comment, should provide written comments to Babu H. Patel, Engineering Services Chief, DEP, Air Quality Control Program, 2 Public Square, Wilkes-Barre, PA 18711-0790. Comments should be submitted within 30 days of the date of this publication notice.

All the pertinent documents are also available for review from 8 a.m. to 4 p.m. at the DEP Regional Office address noted above. Appointments for scheduling a review must be made by calling the DEP contact person noted previously.

Public Hearing Notice

The Department of Environmental Protection (DEP) will hold a public hearing on March 28, 1996, at 6 p.m. in Abington Heights Middle School, Newton-Ransom Blvd., Newton Township, Lackawanna County, PA.

The hearing is for DEP to take testimony concerning four pending applications submitted by Empire Sanitary Landfill, Inc. Empire Sanitary Landfill, Inc. is located in Taylor Borough, Ransom Township, and Old Forge Borough, Lackawanna County, PA.

The four applications involve two applications submitted to the Air Quality Program and two applications submitted to the Waste Management Program. The two air quality applications concern the Reasonably Available Control Technology (RACT) plan for the existing landfill area and the application for plan approval to construct and operate a landfill gas extraction system with two flares in proposed Area II Expansion Landfill. The two waste management applications involve an expansion of the existing landfill area which is known as Area II Expansion, and an application to increase the average and maximum daily waste intake volumes.

The application for Area II Expansion involves an expansion of the disposal area by 53 acres for a total of 203 acres. The application also requests renewing the term of the existing permit for a 10 year term. The expansion does not involve an increase in the landfill permit area. Empire Sanitary Landfill, Inc. currently has a 512.9 acre permit area for a municipal waste landfill. The expansion application also revises the original site's closure schedule, construction schedules and gas management system.

The proposed increase in daily waste volumes proposes an increase in the maximum daily volume from 5,500 tons per day to 6,000 tons per day. The application also proposes to increase the average daily volume from 5,000 tons per day to 5,500 tons per day. The Municipal Waste Regulations, 25 Pa. Code § 273.140 requires the Department to condition municipal waste landfill permits by establishing maximum daily waste volumes and average daily waste volumes.

The RACT plan for the control of volatile organic compounds (VOCs) from the various air contamination sources at this facility is to meet the requirements under 25 Pa. Code §§ 129.91—129.95. The final RACT approval will be submitted to the U. S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan (SIP).

The application for plan approval was submitted under 25 Pa. Code § 127.11 and has been reviewed in accordance with all applicable air quality regulations. The Department regulations require the emissions from the new source will be the minimum attainable through the use of the best available technology (BAT). A preliminary review of the information submitted by the Empire Sanitary Landfill Inc. indicates that the construction and operation of the proposed Landfill gas extraction system with two flares will meet all applicable air quality requirements including the above stated BAT. Based upon this finding, DEP plans to approve the application and issue a Plan Approval for the construction of a landfill gas extraction system with two flares.

The information provided by the applicant in the application for plan approval and DEP's own analysis indicate that the applicant will collect at least 75% of landfill gas generated from the Area II Expansion Landfill and burn the gas in a flare having 98% destruction efficiency for volatile organic compounds (VOCs). The VOC emission is within all applicable emission limitations, and both proposed flares will meet the BAT requirements of the Department.

A stack test shall be performed in accordance with the provision of Chapter 139 of the Rules and Regulations of the Department of Environmental Protection to show compliance with the applicable standards.

Persons wishing to present testimony at the hearing for the above listed facility should contact Hearing Examiner, DEP, 2 Public Square, Wilkes-Barre, PA 18711-0790, Attn: Mark Carmon.

In order to provide an opportunity for all individuals who desire to present testimony, oral testimony will be limited to 10 minutes. The Department requests that individuals planning to testify provide two written copies of their oral testimony. Each organization is requested to designate one witness to present testimony on its behalf. Individuals who preregister to testify will be given priority on the agenda.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Richard Shudak (717) 826-2060, or the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those unable to attend the hearing, but wishing to comment, should provide written comments to the address listed within this notice. Comments can be submitted until April 5, 1996.

All the pertinent documents are also available for review from 8 a.m. to 4 p.m. at the DEP Regional Office address noted above. Appointments for scheduling a review can be made by calling the Records Management Section of DEP at (717) 826-2511.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection. A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed

mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chs. 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor, application number, a brief summary of the issues to be raised by the requestor at the conference and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

The following permit applications and requests for Environmental Assessment approval and requests for water quality certification have been received by the Department of Environmental Protection.

In addition to permit applications, the Bureau of Dams, Waterways and Wetlands (BDWW) and the Regional Office Soils and Waterways Sections have assumed primary responsibility for processing requests for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)), for projects requiring both a Dam Safety and Encroachments Permit, and a United States Army Corps of Engineers (ACOE) permit. Section 401(a) of the Federal Water Pollution Control Act requires the State to certify that the involved projects will not violate the applicable provisions of 33 U.S.C.A. §§ 1301—1303, 1306 and 1307, as well as relevant State requirements. Initial requests for 401 certification will be published concurrently with the BDWW permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Safety or Encroachment Permit, or the approval of Environmental Assessments must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the Bureau or Field Office indicated as the responsible office.

Applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the Federal Water Pollution Control Act.

Initial Notice of Request for Certification under section 401 of the Federal Water Pollution Control Act

The following requests have been made to the Department of Environmental Protection for certification under

section 401(a) of the Federal Clean Water Act, (33 U.S.C.A. § 1341(a)), that the construction and operation herein described will comply with the applicable provisions of sections 301—303, 306 and 307 of that Act, and that the construction will not violate applicable Federal and State water quality standards.

Prior to final approval of the proposed certification, consideration will be given to any comments, suggestions and objections which are submitted in writing within 30 days of the date of this notice. Comments should be submitted to the Department of Environmental Protection at the address indicated above each of the following requests for certification. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments are addressed, and a concise statement of comments, objections and suggestions in sufficient detail to inform the Department of the exact basis of the proposal and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given comments if deemed necessary to resolve conflicts. Each individual will be notified in writing of the time and place of any scheduled hearing or conference concerning the certification request to which the protest relates. Maps, drawings and other data pertinent to the certification request are available for inspection and review at the address indicated above each request for certification between the hours of 8 a.m. and 4 p.m. on each working day.

Final or proposed action on certain other Certification requests for projects which require both a Dam Safety and Encroachments Permit and either a U. S. Army Corps of Engineers individual permit or a Nationwide permit 14, 18 or 26 will be published with Actions or Applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27).

Regional Office: Regional Manager, Water Management, Northwest Region, 230 Chestnut Street, Meadville, PA 16335.

Certification Request Initiated By: U. S. Army Corps of Engineers, Buffalo District.

Project Description: The U. S. Army Corps of Engineers has requested a section 401 State Water Quality Certification for the discharge of dredged material from the lakeward portion of the Federal navigation channels of Erie Harbor at the existing open-lake site. An estimated total of 125,000 cubic yards of material will be dredged and discharged. The purpose of the project is to maintain sufficient depth for deep-draft commercial vessels.

ACTIONS

The Department of Environmental Protection has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of

receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions under The Clean Streams Law (35 P. S. §§ 691.1—691.1001).

Submission of Final Reports on Attainment of Background and Statewide Health Standards (sections 302(e)(2) and 303(h)(2)).

The following final reports were submitted to the Department of Environmental Protection under to the Land Recycling and Environmental Remediation Standards Act, the act of May 19, 1995 (P. L. 4, No. 1995).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report

appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following final report(s).

Notice of Plan Approval Application Minor Source

The following stationary sources have filed a request for a plan approval with the Department of Environmental Protection (Department), Bureau of Air Quality. Persons wishing to file protests or comments on the proposed plan approval have 30 days to submit the protests or comments to the Regional Office at the address listed below. Interested persons may also request that a hearing be held concerning the plan approval application by filing a request with the Regional Office stating the reason for the request.

The Department will evaluate and consider all protests and comments received. The Department will, where appropriate, modify the proposed plan approval based on the protests and comments received.

The final plan approval will contain terms and conditions to ensure that the source is constructed and operated in compliance with the Department's regulations contained in 25 Pa. Code Chapters 121 through 143 and the requirements of the Federal Clean Air Act. A notice of the Department's final decision on the proposed plan approval will be published in the *Pennsylvania Bulletin*. Air contaminants emitted from these sources are less than the amounts that would trigger major new source review requirements. For additional information on the following applications, contact Devendra Verma, Engineering Services Chief, Northwest Regional Office, Air Quality Program, 230 Chestnut Street, Meadville, PA 16335, (814) 332-6940.

The Department of Environmental Protection has taken the following actions on previously received permit applications, requests for Environmental Assessment approval, and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of the act of June 22, 1937 (P.L. 1987, No. 394) under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)) (Note: Permits issued for Small Projects do not include 401 Certification unless specifically stated in the description).

E09-701. Encroachment. **Department of Transportation**, 200 Radnor-Chester Road, St. Davids, PA 19087-5178. To remove an existing deteriorated bridge structure which consists of three spans 40 feet each, which are supported by two concrete piers and two abutments that provide a minimum 10 foot underclearance. This bridge carries Bristol Road (S. R. 2025) over the Little Neshaminy Creek and will be replaced by a three span continuous composite steel plate multigirder structure having span lengths of 84.7 feet, 112.6 feet and 84.7 feet. The width of the new bridge will be 37 feet and have an underclearance of 10.67 feet. This structure will have a 19.5 degree skew to the stream channel. Also, this project will include the relocation and realignment of approxi-

mately 1,000 feet of Bristol Road which is associated with the proposed bridge alignment. This will eliminate several dangerous sharp turns at the bridge approaches. The proposed bridge construction will necessitate placement of fill material in a de minimus amount of adjacent wetlands, and will require the construction and maintenance of two rock-stone temporary access causeways and sandbag cofferdams. The proposed bridge will be located approximately 200 feet upstream of the existing structure, and will also require the realignment of Meeting House Road (T-379) to provide access to Bristol Road and the new bridge. This work will include associated construction and maintenance of five stormwater outfall structures. This site is located approximately 2 miles southeast from the intersection of S. R. 0611 and Bristol Road, and is situated along the Warminster and Warwick Township border (Hatboro, PA Quadrangle N: 19.4 inches; W: 14.2 inches) in Warminster and Warwick Townships, **Bucks County**.

E46-726. Encroachment. **The Rosen Organization**, 3625 West Moreland Road, Willow Grove, PA 19060. To construct and maintain approximately 75 linear feet of a 40-foot by 12.58-foot concrete arch bridge. Issuance of this permit constitutes approval of the Environmental Assessment for a nonjurisdictional (type) dam proposed at the project site. The site is situated at the intersection of Mingo Creek and the proposed Road "D" located approximately 1,100 feet south and 300 feet west of the intersection of Lewis Road (S. R. 4013) and U. S. Route 422 (Phoenixville USGS Quadrangle N: 10.3 inches; W: 2.7 inches) in Upper Providence Township, **Montgomery County**.

E51-145. Encroachment. **Sun Pipeline Company**, Ten Penn Center—26th Floor, 1801 Market Street, Philadelphia, PA 19103-1699. To temporarily disturb 0.67 acre of Exceptional Value (EV), Palustrine open water/emergent mixed wetlands during the construction of two 30-inch, one 26-inch, one 24-inch and one 12-inch underground pipelines that carry petroleum products and crude oil. Temporarily disturbed wetlands will be restored to pre-existing conditions following construction. The project is located at the Philadelphia International Airport, approximately 450 feet east of Hog Island Road, just east of the Enterprise Avenue Landfill (Philadelphia, PA-NJ Quadrangle N: 1.25 inches; W: 12.0 inches) in the City and County of **Philadelphia**.

DEP Central Office, Bureau of Dams, Waterways and Wetlands, P. O. Box 8554, Harrisburg, PA 17105-8554, telephone (717) 783-1384.

Environmental Assessment Approvals and Actions on 401 Certification

Notice of Beginning of Review; Certificates of Need

The Department has completed its preliminary assessment of the following applications for the offering, development, construction, renovation, expansion or establishment of reviewable clinically related health services or health care facilities. This notice is published in accordance with sections 702(c), 704(a) and 704(b) of the Health Care Facilities Act (35 P. S. §§ 448.702(c), 704(a) and 704(b)).

CON-96-H-7696-F: The Medical Center, 1000 Dutch Ridge Road, Beaver, PA. The project involves the addition of Canonsburg Hospital to the mobile renal lithotripsy route. There will be no additional cost.

CON-95-H-2515-B: GrandVue Senior Living Center, Inc., c/o Donald C. Wendel, 1333 Plantation Drive, Bethel Park, PA 15102. The project involves construction of a new 56-bed long-term care facility in North Strabane Township, Washington County, PA, at an estimated cost of \$2,660,000.

The projects are scheduled to be reviewed and a decision rendered by the Department of Health within 90 days beginning February 24, 1996. Interested persons, as defined in section 103 of the act (35 P. S. § 448.103) may request a public meeting. Requests must be made in writing within 15 days of this notice, to the Department of Health, Division of Need Review, Room 1027, Health and Welfare Building, Harrisburg, PA 17120. In order to preserve any appeal rights under section 506(a) of the act (35 P. S. § 448.506(a)) regarding the decisions made on these applications, any interested person as defined in the act must request a public meeting and participate in that meeting.

If the Department of Health receives a timely request for a public meeting, such meeting will be held in Room 812 of the Health and Welfare Building, Seventh and Forster Streets, Harrisburg, PA. The Medical Center, Beaver public meeting will begin at 10 a.m., Thursday, March 21, 1996. GrandVue Senior Living Center public meeting will begin at 11 a.m. Friday, April 26, 1996. Persons who need an accommodation due to a disability and want to attend a meeting, should contact Jack W. Means, Jr., Director, Division of Need Review at (717) 787-5601 at least 24 hours in advance so arrangements can be made. These meetings are subject to cancellation without further notice.

DEPARTMENT OF PUBLIC WELFARE

Notice of Rule Change—180 Day Extension; Elimination of the Transitionally Needy Component of the General Assistance Program

On July 8, 1995, the Department published a Notice of Rule Change (14-NRC-58) at 25 Pa.B. 2762 relating to Elimination of the Transitionally Needy Component of the General Assistance Program under Joint Committee on Documents Resolution 1994-1 (JCD Resolution). The Rule Change will be adopted by final rulemaking to 55 Pa. Code Chapters 141, 178 and 181 relating to General Assistance (GA) and Medical Assistance (MA) program requirements. The changes to policy are based on amendments to the Public Welfare Code, P. L. 31, No. 21 as amended by Act No. 1995-20.

The Notice announced that effective July 1, 1995, cash assistance payments will no longer be authorized under the GA-TN category. Persons receiving TN assistance as of June 30, 1995, may continue to receive uninterrupted benefits until their 60-day benefit period is exhausted. In

no instance will TN benefits continue beyond August 28, 1995. Sections of 55 Pa. Code are revised to reflect the elimination of the TN component. Revisions are based on the existing Pa. Code, notwithstanding regulations that will be promulgated under Act No. 1994-49. References to both the TN and Chronically Needy (CN) components are deleted since there is no longer a need to differentiate between GA program requirements. The regulation is currently under review in the Department.

This Notice, under section 2(d)(ii) of the JCD Resolution, announces that the original NORC (14-NRC-58) shall remain in effect for an additional 180 days or until final regulations are adopted, whichever is sooner.

Under section 4 of the JCD Resolution, copies of the Notice have been forwarded to the Senate Public Health and Welfare Committee and the House Health and Human Services Committee.

FEATHER O. HOUSTOUN,
Secretary

Notice of Rule Change—180 Day Extension; Medical Documentation for General Assistance Chronically Needy (CN) Nonfinancial Eligibility Determination

On July 17, 1993, the Department published a Notice of Rule Change (14-NRC-35) at 23 Pa.B. 3433 relating to Medical Documentation for General Assistance Chronically Needy (CN) Nonfinancial Eligibility Determination under Joint Committee on Documents Resolution 1992-1 (JCD Resolution). The Rule Change will be adopted by final rulemaking to 55 Pa. Code § 141.61(d)(1)(iii)(B).

The Notice announced that effective July 17, 1993, the Department expanded its documentation requirements to permit the acceptance of physical or mental handicap determinations based on documentation provided by sources such as, but not limited to, the Social Security Administration (SSA), the Department of Veterans Affairs (DVA), if the DVA's determination is no less than 50% disability, or from the Department's Medical Review Team (MRT). The regulation is currently under review in the Department.

This Notice, under section 2(d)(iii) of the JCD Resolution, announces that the original NORC (14-NRC-35) shall remain in effect for an additional 180 days or until final regulations are adopted, whichever is sooner. This Rule Change was extended by publication of an 180 Day Extension at 24 Pa.B. 80 on January 1, 1994; and at 24 Pa.B. 3483 on July 16, 1994; at 24 Pa.B. 6609 on December 31, 1994; and at 25 Pa.B. 3918 on September 16, 1995.

Under section 4 of the JCD Resolution, copies of the Notice have been forwarded to the Senate Public Health and Welfare Committee and the House Health and Human Services Committee.

Notice of Rule Change—180 Day Extension; Payment of Drugs for the Medically Needy

On July 30, 1994, the Department published a Notice of Rule Change (NORC) (14-NRC-48) at 24 Pa.B. 3760 relating to Payment of Drugs for the Medically Needy under Joint Committee on Documents Resolution 1994-1 (JCD Resolution). The Rule Change will be adopted by final rulemaking to 55 Pa. Code Chapter 1121.22.

The Notice announced that effective June 1, 1994 the Medical Assistance Program will provide drug coverage to Medically Needy Only recipients receiving nursing facility services. This includes Medically Needy Only recipients who reside in nursing facilities and Intermediate Care Facilities/Mental Retardation (IFCs/MR). The regulation is currently under review in the Department.

This Notice, under section 2(d)(iii) of the JCD Resolution, announces that the original NORC (14-NRC-48) shall remain in effect for an additional 180 days or until final regulations are adopted, whichever is sooner. This Rule Change was extended by publication of a 180 Day Extension at 25 Pa.B. 199 on January 14, 1995; and at 25 Pa.B. 3919 on September 16, 1995.

Under section 4 of the JCD Resolution, copies of this Notice have been forwarded to the Senate Public Health and Welfare Committee and the House Health and Human Services Committee.

Notice of Rule Change—180 Day Extension; Prior Authorization for Psychiatric Partial Hospitalization Services

On January 28, 1995, the Department published a Notice of Rule Change (NORC) (14-NRC-55) at 25 Pa.B. 347 relating to Prior Authorization for Psychiatric Partial Hospitalization Services under Joint Committee on Documents Resolution 1994-1 (JCD Resolution). The Rule Change will be adopted by final rulemaking to 55 Pa. Code Chapter 1153.53(1).

The Notice announced that effective January 28, 1995 the Department will require prior authorization for psychiatric partial hospitalization services that exceed the limit of 240 three hour sessions (720 total hours) of psychiatric partial hospitalization in a 365 consecutive day period for recipients under 21 years of age. Federal law requires states, with respect to Early and Periodic Screening, Diagnosis, and Treatment (EPSDT) coverage under the Medical Assistance Program, to cover services or treatment which are medically necessary to correct or lessen health problems of these persons. Although a state may not place an absolute limit on a medically necessary service, it may require that the service be prior authorized (42 U.S.C.A. § 1396d(r)(5)), (42 C.F.R. 440.230(d)). The limitation of 720 total hours remains in effect for recipients age 21 and over. The regulation is currently under development in the Department.

This Notice, under section 2(d)(iii) of the JCD Resolution, announces that the original NORC (14-NRC-55) shall remain in effect for an additional 180 days or until final regulations are adopted, whichever is sooner. This

Rule Change was initially extended by publication of a 180 Day Extension at 25 Pa.B. 3920 on September 16, 1995.

Under section 4 of the JCD Resolution, copies of this Notice have been forwarded to the Senate Public Health and Welfare Committee and the House Health and Human Services Committee.

Retention of Engineering Firms

Fayette, Greene, Washington and Westmoreland Counties Reference No. 08430AG1978

The Department of Transportation will retain an engineering firm for an open-end contract for various engineering services and environmental studies on various projects located in Fayette, Greene, Washington and Westmoreland Counties in Engineering District 12-0. The contract will be for a 30 month period with projects assigned on an as-needed basis. The required services may encompass a wide range of design and environmental efforts with the possibility of several different types of projects having short completion schedules. The anticipated types of projects may include, but are not limited to, bridge replacements or bridge rehabilitations with minor approach work, roadway betterments (3R Type), ECONS studies, ECONS final design, Capital Improvement Projects (bridges or roadways), and minor location studies. The maximum amount of the open-end contract will be \$750,000.

The Department will establish an order of ranking of a minimum of three firms for the purpose of negotiating an open-end contract based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Specialized experience and technical competence of firm.
- b. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on open-end contracts. The specific experience of individuals who constitute the firms shall be considered.
- c. Location of consultant in respect to the District.
- d. Current workload.
- e. Available staffing for this assignment.

f. Relative size of firm to size of projects that may be completed under this contract.

The firm may be required to perform any or all of the following engineering services: attend field views and prepare minutes; prepare submissions for field views and safety review meeting; field surveys; plot topography and cross sections; prepare submissions and materials necessary for the Department to prepare the application to Public Utility Commission (PUC) for the PUC field conference; attend and supply any required information for all PUC meetings and hearings during project design; develop erosion control details and narrative; develop right-of-way plans; prepare type, size and location reports; prepare hydraulic report for waterway approval; prepare bridge drawings; traffic control plans and narrative; procure core borings; provide the soil and foundation engineering report; investigate utility and property involvement; prepare and disseminate right of entry letters; prepare prints and information required for a value engineering review; make the necessary investigations and adjustments to the design as a result of the value engineering review comments; make all necessary contact with railroad officials for any railroad-related costs estimates, permits, insurance, approvals and other required information; collect traffic signal timing and accident data; perform traffic counts and speed delay studies; prepare plans for signal design and implementation of signal interconnections; evaluate alternatives using benefit/cost analysis; document study activities and findings; and prepare construction plans, specifications and estimates.

The format and content of all documents, plans and specifications will be consistent with applicable State and Federal regulations and guidelines.

The firm may be required to perform any or all of the following environmental studies: air quality; surface water and groundwater hydrology; terrestrial ecology; wetlands; soils; geology; farmland; visual quality; socio-economic; cultural; Section 4(f) and Section 106 documents; and other related studies not identified above. The environmental studies will be conducted in accordance with Department policy and accepted analysis techniques and methodologies.

The firm may also be required to perform any or all of the following in order to ensure a complete environmental investigation has been performed: provide all necessary environmental services, material and equipment necessary to collect, analyze and organize data; assess impacts; conduct agency and public involvement activities; and prepare reports and design mitigation plans.

The reports and other written graphic material to be prepared may include, but are not limited to, early coordination and scoping correspondence; meeting minutes; public meetings and hearing presentations; handouts and displays; technical basis reports; NEPA environmental documents; Section 106 documents; Section 4(f) evaluations; mitigation plans and reports; and wetland and floodplain findings.

The engineering services and environmental studies identified above are the general work activities that can be expected under this open-end contract. A more specific and project-related scope of work will be outlined for each individual work order developed under this open-end contract.

Technical questions concerning the requirements for this project should be directed to George W. Tanner, Liaison Engineer, District 12-0, at (412) 439-7383.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Lehigh County
Reference No. 08430AG1979**

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately eight inspectors, under the Department's Inspector-in-Charge, for construction inspection and documentation services on S. R. 0145, Sections 03M and 06M (MacArthur Road), in Whitehall Township, Lehigh County. This project involves the surfacing of a divided and undivided roadway with bituminous binder course ID-2 (heavy duty) polymer modified and bituminous wearing course ID-2, SRL-E (heavy duty) polymer modified; a latex overlay of a one span steel I-beam bridge; miscellaneous bridge repairs; concrete pavement patching and accelerated concrete pavement patching; miscellaneous drainage improvements; guide rail upgrading; cement concrete curb and sidewalk; utility adjustments; temporary impact attenuating devices; temporary traffic signals; and signing and pavement marking within a length of 2.083 miles.

The Department will establish an order of ranking of a minimum of three firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Review of inspectors' resumes with emphasis on construction inspection capabilities and specialized experience in the Maintenance and Protection of Traffic, soils, structures, concrete, asphalt paving, drainage, guide rail and latex overlay.
- b. Past performance.
- c. Understanding of Department's requirements, policies and specifications.
- d. Workload.
- e. Number of NICET certified inspectors in each payroll classification.
- f. Number of available inspectors in each payroll classification.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Insp. Super. (TCIS) (NICET Highway Construction Level 3 or equivalent)	3 (2)
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	5 (3)

The numbers in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the level required for the Inspection Classification.
2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classifications.
4. Hold a Bachelor of Science degree in Civil Engineering or a Bachelor of Science degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.
5. Hold an Associate degree in Civil Engineering Technology with the required experience specified for the Inspection Classification.

The maximum reimbursement of direct payroll cost for each Department Payroll Classification for calendar year 1996 will be limited to the actual direct salary of the individual employe, or the following rates, whichever is less:

<i>Payroll Classification</i>		<i>Direct Payroll Rate</i>
Transportation Construction Inspector Supervisor	(TCIS)	\$17.34
Transportation Construction Inspector	(TCI)	\$15.18

Maximum reimbursable direct payroll rates for subsequent calendar years, if applicable, will be established at the scope of work meeting.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item; and perform other duties as may be required. Firms applying must have qualified personnel capable of climbing structures during painting, rehabilitation or construction.

Letters of interest for this project must include a letter, signed by the individuals proposed for all TCIS positions, giving their approval to use their name in the letter of interest for this specific project.

The goal for Disadvantaged Business Enterprise (DBE) participation in this agreement shall be 15% of the total contract price. Additional information concerning DBE participation in this agreement is contained in the General Requirements and Information section after the advertised projects.

Technical questions concerning the requirements for this project should be directed to Brian H. Graver, District 5-0, at (610) 791-6022.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Schuylkill County
Reference No. 08430AG1980**

The Department of Transportation will retain an engineering firm to perform final design, services during construction, and shop drawing reviews for the S. R. 0501, Section 01B, bridge over Lower Little Swatara Creek and for the S. R. 0501, Section 02B, bridge over an unnamed tributary to the Lower Little Swatara Creek in Pine Grove Township, Schuylkill County.

S. R. 0501, Section 01B, which is located 1,000 feet south of the intersection of S. R. 0501, and S. R. 0895, is the replacement of an existing 100-foot, four span, open-grate structure with a new, two span, prestressed adjacent box beam bridge having a length of approximately 112 feet and a curb to curb width of approximately 37 feet on the same alignment. This bridge involves approximately 340 feet of roadway improvements. The estimated construction cost is \$1.1 million.

S. R. 0501, Section 02B, which is located 2,500 feet south of the intersection of S. R. 0501 and S. R. 0895, is the replacement of an existing 10-foot, single span, open-grate structure with a single cell, precast box culvert having a length of approximately 76 feet on a 45 degree skew. This bridge involves approximately 350 feet of roadway improvements. The estimated construction cost is \$150 thousand.

The typical roadway section for both bridges is two 12-foot lanes with 6-foot shoulders. Both structures will be constructed one at a time under a full detour.

The firm selected will be required to perform the following: prepare final right-of-way plans; prepare final design/construction plans, specifications and cost estimates; review shop drawings; and provide consultation during construction.

The goal for Disadvantaged Business Enterprise (DBE) participation in this agreement shall be 15% of the total contract price. Additional information concerning DBE participation in this agreement is contained in the General Requirements and Information section after the advertised projects.

Technical questions concerning the requirements for this project should be directed to Donald E. Lerch, P.E., District 5-0, at (610) 791-6019 or Jack W. Hubbard, District 5-0, at (610) 791-6020.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in performing any of the above services are invited to submit letters of interest to: Director, Consultant Selection Committee, Room 1118, Transportation and Safety Building, Harrisburg, PA 17120.

A separate letter of interest and required forms must be submitted for each project for which the applicant wishes to be considered. The letter of interest and required forms must be received within 13 calendar days of this notice. The deadline for receipt of a letter of interest at the above address is 4:30 p.m. of the thirteenth day.

If the project advertisement indicates that the Department will retain an engineering firm, letters of interest will only be accepted from individuals, firms or corpora-

tions duly authorized to engage in the practice of engineering. If an individual, firm or corporation not authorized to engage in the practice of engineering desires to submit a letter of interest, said individual, firm or corporation may do so as part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of engineering.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act), WBEs or combinations thereof. Proposed DBE firms must be certified at the time of submission of the letter of interest. If the selected firm fails to meet the goal established, it shall be required to demonstrate its good faith efforts to attain the goal. Failure to meet the goal and to demonstrate good faith efforts may result in being barred from Department contracts in the future.

Responses are encouraged by small engineering firms, disadvantaged business enterprise engineering firms and other engineering firms who have not previously performed work for the Department of Transportation.

Each letter of interest must include in the heading, the firm's Federal Identification Number and the Project Reference Number indicated in the advertisement. The letter of interest must also include the following:

1. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project."

2. Standard Form 254, "Architect-Engineer and Related Services Questionnaire" not more than 1 year old as of the date of this advertisement, must accompany each letter of interest for the firm, each party to a joint venture and for each subconsultant the firm or joint venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor or a company. Please disregard the statements on Standard Form 255 that indicate a Standard Form 254 is only required if not already on file with the contracting office. The Department does not maintain a file for Standard Form 254 for contracting purposes; therefore, this Form is required for the prime consultant and each subconsultant as stated above.

3. Two copies of the Department's Form D-427 (Rev. 6-89), "Current Workload" for the firm submitting the letter of interest. At least one copy of Form D-427 must remain free and not bound in any way to any other portion of the letter of interest or accompanying documentation. Copies of Form D-427 are available upon request from the above address or by contacting the Department's Consultant Agreement Division at (717) 783-9309.

4. Firms with out-of-State headquarters or corporations not incorporated in Pennsylvania must include with each

letter of interest a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

The Standard Form 255 must be filled out in its entirety including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project. If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be presently certified by the Department of Transportation, and the name of the firm and the work to be performed must be indicated in Item 6. If a Women Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

The Standard Form 254 must be signed and dated and must be less than 1 year old as of the date of this advertisement. A Standard Form must accompany each letter of interest for the firm submitting the letter of interest, each party to a joint venture, and for each subconsultant shown under Item 6 of the Standard Form 255.

Unless other factors are identified under the individual project reference number, the following factors, listed in their order of importance, will be considered by the Committee during their evaluation of the firms submitting letters of interest:

a. Specialized experience and technical competence of firm.

b. Past record of performance with respect to cost control, work quality, and ability to meet schedules. The specific experience of individuals who constitute the firms shall be considered.

c. Current workload and capacity of firm to perform the work within the time limitations.

d. Location of consultant.

e. Special requirements of the project.

f. Other factors, if any, specific to the project.

The Department currently limits its participation in the remuneration of principals or consultant employees performing work on projects to \$72,800 per annum or \$35 per hour or their actual audited remuneration, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on design and miscellaneous projects to 130% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on construction inspection projects to 85.2% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department's limitations will apply to the projects advertised above unless the Department policy is revised prior to the negotiation of an agreement or contract.

The assignment of the above services will be made to one of the firms responding to this notice, but the Committee reserves the right to reject all letters of interest submitted, to cancel the solicitations requested

under this notice, and/or to readvertise solicitation for these services.

HOUSING FINANCE AGENCY

Low-Income Rental Housing Tax Credit Allocation Plan for 1996

The Housing Finance Agency (Agency) as the Allocating Agency of the Federal Low-Income Rental Housing Tax Credit Program for the Commonwealth of Pennsylvania is announcing the final approval of the Pennsylvania 1996 Low-Income Rental Housing Tax Credit Allocation Plan. In 1996, the Allocation Plan includes an additional set aside for projects meeting selected State housing and economic development goals and priorities (Board Reserve). The Agency has established the selection criteria for the Board Reserve, which includes characteristics such as: community economic impact, disaster relief needs and location in an area that has historically not received a proportionate share of tax credit allocations. Applications for 1996 Tax Credits may be made to either the Board Reserve or the Regional Set Aside as set forth in the Allocation Plan.

Requests for a copy of the 1996 Allocation Plan and Guidelines and for an application for 1996 Tax Credits may be submitted to the Housing Finance Agency, Attn: Tax Credit Division, P. O. Box 8029, Harrisburg, PA 17105-8029, (717) 780-3881, TDD (717) 780-1869.

INDEPENDENT REGULATORY REVIEW COMMISSION

Actions Taken by the Commission

The Independent Regulatory Review Commission met publicly at 11 a.m., Wednesday, February 7, 1996, and took the following actions:

Regulations Approved:

Department of Labor and Industry #12-36: Restroom Equity (Amends 34 Pa. Code by revising Chapter 50)

Office of Administration #99-5: Defense of Suits Against Commonwealth Employees (Amends 4 Pa. Code by revising Chapter 39)

Pennsylvania Public Utility Commission #57-126: Integrated Resource Planning for Gas Utilities (Amends 52 Pa. Code by revising Chapters 59 and 69)

Commissioners Present: John R. McGinley, Jr., Chairperson; Robert J. Harbison, III, Vice-Chairperson; Thomas P. Comerford, Jr.; John F. Mizner; Irvin G. Zimmerman

Public meeting held

*Department of Labor and Industry—Restroom Equity;
Doc. No. 12-36*

Order

On December 10, 1993, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Labor and Industry (L & I). This rulemaking would amend 34 Pa. Code Chapter 50 under the authority found in section 4 of the Restroom Equity Act (act) (35 P. S. § 5820.4). The proposed regulation was published in the December 25, 1993 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on January 19, 1996.

The statutory amendment was enacted in response to public controversy over the long lines women are often forced to wait in in order to use a restroom at large public facilities. Section 4 of the act directs L & I to make and enforce regulations setting forth general restroom equity standards with respect to all public and private facilities where the public congregates, unless such facilities are exempt from coverage under section 6. Section 3 of the act stipulates that more lavatories shall be provided for women than for men by a ratio to be determined by L & I. In addition, the act provides that facilities shall conform with and be approved by L & I in accordance with the provisions of the Fire and Panic Act of 1927 (P. L. 465, No. 299).

The language of the proposed regulation mirrors that of the act in that L & I will apply the requirements of this regulation to facilities that are used as sports and entertainment arenas, stadiums, community and convention halls, specialty event centers, amusement parks, ski resorts and public middle and high schools. As directed by the act, L & I has established the requirement that at least two water closets for women will be provided for every one water closet, single-use urinal, or 20 inches of trough urinal provided for men. It also provides that this minimum two-to-one ratio shall apply to temporary facilities provided at parks for special events.

The regulation repeats the statutory exemption for hotels, public eating and drinking places and any community or municipal park with a fixed seating capacity for less than 500 persons. In addition, the regulation provides that these requirements apply to community and municipal parks with a fixed seating capacity for 500 or more persons.

These requirements will take effect for new facilities that have contracted for construction or have designs drawn up for construction after the date of final publication of the regulation. In addition, the requirements will apply to existing facilities for which contracts for the design or construction or the renovation, alteration or addition are executed on or after the date of publication of the final regulation.

Funds for the enforcement of these new requirements are to be drawn from funds allocated to operate the Fire and Panic approval and inspection program. L & I is responsible for enforcing this regulation under the provi-

sions of the Fire and Panic Act except in cities of the first class, second class and second class A, where the cities will be responsible for enforcing the regulation. L & I does not anticipate any increased enforcement costs and it will not be requiring any additional paperwork.

L & I has resolved all issues raised in our Comments on the proposed rulemaking. In our Comments, we raised a number of questions concerning statutory authority and consistency with legislative intent.

We questioned the statutory basis for the proposed requirement which would restrict the application of the regulations to facilities that can accommodate 300 persons or more. The act is very specific in defining which facilities fall under the provision of the act and it exempts only certain facilities under section 6. For this reason, L & I deleted this proposed limitation from the final-form rulemaking.

We also requested that L & I more clearly define its jurisdiction with regard to specialty event centers and community and municipal parks with a seating capacity for 500 or more persons. L & I revised the final rulemaking to clarify that the regulations apply to specialty event centers whether or not they are located in public parks. However, to provide additional clarity, the regulation reflects that if the specialty event center is located in a community or municipal park then it is subject to the regulation only if it has a seating capacity for 500 or more persons.

Our Comments also questioned the proposed limitation for the seating capacity to be "fixed" seating capacity because this conflicted with the language of the act. In response, L & I deleted from the final rulemaking any reference to "fixed" when referring to seating capacity.

As proposed, L & I intended to apply the requirements of this regulation to any public building being renovated when the capacity of the facility increased. However, the act states that the requirements apply only when the rehabilitation of an existing building affects 50% or more of the gross floor area of the entire building. Our Comments noted that the act is specific in this regard. In addition, we noted that the regulation should not require any facility which constructs an addition to bring the entire facility in to compliance with the restroom ratio mandated by L & I. For these reasons, we recommended that L & I more closely align the rulemaking with the definition of "renovation" from the act in order to remain in compliance with the stated intent of the Legislature. L & I complied with this recommendation and conformed the final regulation exactly with the statutory language.

We have reviewed this regulation and find it to be in the public interest. These standards implement the act which was designed to end the inequitable delays which women face when they need to use restroom facilities in certain public places.

Therefore, It Is Ordered That:

1. Regulation No. 12-36 from the Department of Labor and Industry, as submitted to the Commission on January 19, 1996, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

Executive Board—Defense of Suits Against Commonwealth Employes; Doc. No. 99-5

Order

On January 16, 1996, the Independent Regulatory Review Commission (Commission) received this regulation from the Executive Board (Board). This rulemaking would amend 4 Pa. Code Chapter 39. The authority for this regulation is found at section 709(f) of The Administrative Code of 1929 (71 P. S. § 249(f)) and the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506). Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*. On January 31, 1996, the Board submitted an amendment to its January 16, 1996 submit-tal.

The regulation makes several changes to Subchapter A of Chapter 39. First, the revisions clarify that if a defendant's conduct giving rise to the cause of action was within the scope of his employment and a good faith exercise of his authority, the Commonwealth or its insurance company will undertake the defense with an attorney of its choosing at its expense and will indemnify the defendant for the expense of a judgment against him or a settlement that is approved by the General Counsel or his designee. The regulation also clarifies that if the defendant engages his own attorney, indemnification and reimbursement of attorney fees will be at the discretion of the General Counsel.

Second, the regulation deletes the requirement that a defense will be provided to an employe whose conduct was a bad faith exercise of authority, malicious, or outside the scope of employment, if there are other defendants in the case that the Commonwealth's attorneys are defending. Instead, the regulation provides that in these instances, the General Counsel, in his sole discretion, will determine on a case-by-case basis whether a defense will be provided.

Third, the regulation currently provides that in cases involving alleged violations of Federal civil rights legislation, the Commonwealth will provide a defense to a defendant whose conduct was outside the scope of his employment if there are other defendants represented by Commonwealth attorneys. However, the defense would be limited to the argument that the defendant was not acting under color of State law. The proposed regulation deletes this language because the provision has presented problems in implementation and may conflict with an attorney's obligation to provide his client with a complete and vigorous defense.

Fourth, the regulation adds a provision that if the General Counsel, or his designee, initially determines that the defendant's conduct was a bad faith exercise in his authority, malicious, or outside the scope of his employment, and the defendant ultimately prevails in the civil action, the General Counsel, in his sole discretion, will determine if the Commonwealth will reimburse the defendant for the costs of defense and attorney fees.

Fifth, the amendments require that if the Commonwealth provides a defense, the employe must cooperate fully in the defense of the case. Finally, the regulation

provides that to the extent the Commonwealth is indemnifying the employe, the Commonwealth is authorized to settle the case and to make other legal and strategic decisions relating to the defense of the case.

The House State Government Committee approved the regulation on January 31, 1996. On January 25, 1996, Michael Fox, Assistant to the Executive Director of the American Federation of State, County and Municipal Employees (AFSCME) Council 13, submitted a letter stating that AFSCME no longer objects to the adoption of the regulation.

When the regulation was initially submitted in December 1995, AFSCME and the Pennsylvania Social Services Union contended that the amendments were a topic subject to bargaining between the administration and the unions. In addition, AFSCME stated that the regulation is part of its collective bargaining agreement with the Commonwealth by reference.

To satisfy the concerns raised by the unions, the Board agreed to include language in the rulemaking stating that the revisions would not apply to or change the terms of any current agreement. However, the language only appeared in the Preamble to the regulation as submitted on January 16, 1996. By letter dated January 30, 1996, the Board amended the regulation to incorporate the language contained in the Preamble into a new section 36.6 entitled Applicability.

We have reviewed this regulation and find it to be in the public interest. The regulation deletes unwise public policy which currently requires the Commonwealth to provide a defense or pay attorney fees to represent an employe who has been sued because of criminal, malicious or bad faith actions. In addition, the regulation deletes provisions that conflicted with an attorney's obligations under the Code of Professional Responsibility.

However, we have one remaining concern. Subchapter B of Chapter 39 contains a statement of policy regarding the defense of suits. Because of the amendments to Subchapter A, a number of the provisions of Subchapter B will need to be deleted or revised. Therefore, we strongly encourage that amendments to the statement of policy be drafted and adopted in the very near future.

Therefore, It Is Ordered That:

1. Regulation No. 99-5 from the Executive Board, as submitted to the Commission on January 16, 1996, and as amended on January 31, 1996, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

Pennsylvania Public Utility Commission—Integrated Resource Planning for Gas Utilities; Doc. No. 57-126

Order

On August 13, 1993, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Public Utility Commission (PUC). This rulemaking would amend 52 Pa. Code,

Chapters 59 and 69, relating to supply and demand reporting requirements of major jurisdictional gas utilities. The authority for this regulation is found at 66 Pa.C.S. §§ 308, 501, 504, 523, 1319 and 1501; 45 P.S. § 1201 *et seq.*; and 1 Pa. Code §§ 7.1 through 7.4. The proposed regulation was published in the August 28, 1993 *Pennsylvania Bulletin* with a 90-day public comment period. The final-form regulation was submitted to the Commission on November 15, 1995. At the Commission's December 6, 1995, public meeting, we disapproved the final-form regulation. On January 17, 1996, a revised final-form regulation was submitted to the Commission.

The PUC is proposing to consolidate supply and demand reporting requirements for natural gas utilities. The regulation, as amended, requires each jurisdictional public gas utility with annual sales of 8 billion cubic feet (Bcf) or more, including transportation sales, to submit an annual Integrated Resource Planning (IRP) report to the PUC. These utilities will also be required to submit an Annual Conservation Activities (ACA) report with the IRP report. By consolidating these reporting requirements, duplication of reporting and obsolete reporting requirements will be eliminated. The PUC will use the data from the IRP report and the ACA report to monitor and evaluate utilities' supply and demand planning activities.

According to the PUC, consolidating reporting requirements will reduce preparation time and administrative costs for the gas utilities. Additionally, the PUC's administrative costs associated with reviewing the reports will decrease.

The Senate Consumer Protection and Professional Licensure Committee voted to approve the revised regulation on January 30, 1996.

The PUC made several revisions to the proposed rulemaking as a result of comments made by individual gas utilities, the General Assembly and the Commission. First, the revisions establish June 1, 1996, as the due date for the first IRP report with subsequent IRP reports due on or before June 1 of successive years. Second, the revisions require the IRP reports to be filed every year, instead of every other year with incremental reports in the interim year, as originally proposed. Finally, the regulation requires utilities to use benefit-cost methodologies to evaluate their conservation and load management programs. The methodologies for the benefit-cost methodologies are not specified in the regulation, but the PUC will provide a guidance manual to assist the utilities in preparing benefit-cost evaluations.

In our Comments on the proposed rulemaking, we questioned the cost-effectiveness of requiring small gas utilities to meet the reporting requirements contained in the rulemaking and believed there needed to be some minimum exemption provided in the regulation. In response, the PUC indicated in its adoption order that it believed it may not be cost effective to require utilities with less than 8 Bcf of annual sales to complete the reporting requirements. However, section 59.81 of the final-form regulation, which the PUC submitted on November 15, 1995, provided that each jurisdictional public utility must submit to the PUC an annual IRP report, and section 59.82 provided that each jurisdictional gas utility must submit an ACA report. In addition, section 59.83 required each jurisdictional utility to utilize benefit-cost methodologies to evaluate conservation and load management programs. Therefore, while the PUC indicated that it may not be cost-effective for utilities with

less than 8 Bcf of annual sales to have to comply with the reporting requirements contained in the rulemaking, the regulation required all gas utilities, regardless of size, to submit all of the information.

At our December 6, 1995 public meeting, we disapproved the regulation because of the discrepancy between the PUC's statement that it may not be cost-effective to require utilities with less than 8 Bcf of annual sales to complete the reporting requirements and the final-form regulation's requirement that all utilities must complete the reporting requirements. In our disapproval Order, we stated that it is essential for the regulation to specify who will be required to submit the annual IRP report and the ACA report to ensure adequate notice and consistent application of the exemption. Since the PUC indicated that it did not intend to require gas utilities with less than 8 Bcf of annual sales to complete the reporting requirements, we stated that the regulation should contain this exemption. We further stated that if the PUC decides in the future that the 8 Bcf exemption is inappropriate, it should submit a new rulemaking providing for a new exemption threshold to ensure adequate public review and opportunity for comment by affected gas utilities, the General Assembly, and the Commission. Consequently, in our disapproval Order we recommended that sections 59.81, 59.82 and 59.83 of the final-form rulemaking be amended to specifically provide that jurisdictional gas utilities with less than 8 Bcf of annual sales are exempt from the reporting requirements.

In response to our disapproval Order, the PUC revised the final-form regulation to specify that only utilities with annual sales of 8 Bcf or more, including transportation sales, must complete the reporting requirements. With this change, we find this regulation to be in the public interest. We commend the PUC's clarification of the regulation. The final-form regulation reflects the PUC's intent to exempt utilities with less than 8 Bcf of annual sales and, therefore, provides for cost-effective implementation of the reporting requirements.

Therefore, It Is Ordered That:

1. Regulation No. 57-126 from the Pennsylvania Public Utility Commission, as submitted to the Commission on January 17, 1996, is approved; and

2. The Commission will transmit a copy of this Order to the Legislative Reference Bureau.

TURNPIKE COMMISSION

Retention of Engineering Firm

**Berks, Bucks, Carbon, Chester, Cumberland,
Dauphin, Lackawanna, Lancaster, Lebanon, Lehigh,
Luzerne, Montgomery and York Counties**

Reference No. 4-044

The Turnpike Commission will retain an engineering firm or construction management firm at a specific rate of compensation for an open end contract for construction inspection services on various projects in the East Region (Milepost 200.0 to Milepost 359.0 and the Northeast Extension) of the Pennsylvania Turnpike. The types of projects to be inspected under the contract may include, but are not limited to, bituminous overlays, bridge rehabilitations, and service plaza parking lot expansions, fuel tank replacements and building modifications.

The contract will have a completion date of December 31, 1997, with projects assigned on an as-needed basis. The contract will be for a maximum cost of \$500,000.

The firm will be required to provide sufficient office personnel, managers, engineers, technicians and clerical staff to support the field functions. In addition, the firm selected may be required to attend the prebid meetings and the preconstruction conferences for each project with the Commission.

The selected firm may be required to provide onsite construction inspections, write all project correspondence, review and approve construction computations such as temporary shoring, support forms, and the like, approve materials, and inspect the manufacture of selected construction materials. In addition, the selected firm may be required to keep records, document the construction work, review current estimates, prepare final estimates for payment to the construction contractor, prepare change orders, conduct monthly job conferences, monitor the monthly progress, provide liaison with affected utilities and communities, conduct semifinal and final inspections, determine from project records the final quantities of each contract item, and perform other duties as may be required.

Sixty percent of the inspection staff assigned to this Commission construction project must meet any of the following requirements:

- (1) Be certified by the National Institute for Certification in Engineering Technologies (NICET) as a Transportation Engineering Technician—Construction, Level 2 or higher.
- (2) Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with 1 year of highway experience acceptable to the Commission.
- (3) Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with 2 years of highway experience acceptable to the Commission.

(4) Hold a Bachelor of Science degree in Civil Engineering with 2 years of highway experience acceptable to the Department or a Bachelor of Science degree in Civil Engineering Technology with 2 years of highway experience acceptable to the Commission.

(5) Hold an Associate degree in Civil Engineering Technology with 3 years of highway experience acceptable to the Commission.

The remaining 40% assigned to each Commission construction project shall meet the following minimum education and experience requirements:

Education—Graduation from high school or equivalent certification or formal training. Completion of a training program in construction inspection approved by the Commission may be substituted for high school graduation.

Experience—1 year of experience in construction inspection or workmanship which required reading and interpreting construction plans and specifications or 1 year of experience in a variety of assignments involving the testing of materials used in highway or similar construction projects. A 2 to 4 year engineering college degree may be substituted for 1 year of experience.

In addition, the Consultant shall employ one NICET Level 1, Student Enrollment Employee for this assignment.

The Selection Committee will establish an order of ranking of a minimum of three firms for the purpose of negotiating an engineering agreement based on the evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

Direct inquiries to Matthew J. Wagner at (717) 939-9551, Extension 5210.

General Requirements and Information

Firms interested in performing the above services are invited to submit letters of interest to: John F. Graham, Jr., P.E., Deputy Executive Director—Engineering/Chief Engineer, Administration Building located on Eisenhower Boulevard at the Harrisburg-East Interchange near Highspire, PA (Mailing Address: P. O. Box 67676, Harrisburg, PA 17106-7676).

The letters of interest must include the heading, the firm's Federal Identification Number and the Project Reference Number indicated in this advertisement. A Standard Form 254, "Architect-Engineer and Related Services Questionnaire", not more than 1 year old as of the date of this advertisement must be submitted for the firm, each party in a joint venture and for each subconsultant the firm or joint venture is proposing to use for the performance of professional services. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project", must accompany each letter of interest. DOT Form D-487 (as revised 6/89) must be completed to show an indication of both the prime consultant's and subconsultant's current workload by listing all Department of Transportation and Turnpike Commission projects.

Standard Form 255 must be filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on this project. DBEs must be presently certified by the Department and the name of the firms and the work to be performed must be indicated in Item 6.

Firms with out-of-State headquarters or corporations not incorporated in Pennsylvania must include with each letter of interest a copy of their registration to do business in the Commonwealth as provided by the Department of State.

The Turnpike Commission currently limits its participation in the remuneration of principals or consultant employees performing work on projects to \$72,800 per annum or \$35 per hour or their actual audited remuneration, whichever is less. The Commission currently limits its participation in the consultant's office indirect payroll costs (overhead) to 130% and the consultant's field indirect payroll costs (overhead) to 100% or the consultant's actual audited overhead rate, whichever is less.

The following factors will be considered by the Committee during their evaluation of the firms submitting letters of interest:

(A) Specialized experience and technical competence of firm.

(B) Past record of performance with respect to cost control, work quality and ability to meet schedules. The specific experience of individuals who constitute the firms shall be considered.

(C) The prime consultant's and subconsultant's current workload as indicated on DOT Form D-427 (as revised

6/89). Letters of interest not including Form D-427 and subject to nonconsideration by the Selection Committee.

(D) Location of consultant's and subconsultant's office where the work will be performed.

(E) Listing of subconsultants intended. Any deviation from the subconsultants listed in the letter of interest will require written approval from the Commission.

(F) Previous experience in construction inspection of large highway or public works projects.

(G) Other factors, if any, specific to the project.

The letters of interest and required forms must be received by 4 p.m. on Friday, March 22, 1996. Letters of interest received after this date and time will be time-stamped and returned.

The assignment of the above services will be made to one of the firms responding to this notice, but the Commission reserves the right to reject all letters of interest submitted, to cancel the solicitation requested under this notice and/or to readvertise solicitation for these services.

FEDERAL SURPLUS PROPERTY PROGRAM

DEPARTMENT OF GENERAL SERVICES

INVENTORY AND INFORMATION

The Department of General Services, Bureau of Supplies and Surplus Operations oversees the Federal Surplus Property Program within the Commonwealth of Pennsylvania in accordance with the Federal Property and Administrative Services Act of June 30, 1949, 63 Stat. 377 as amended. Personal property is made available on an equitable basis to our State Agency for allocation to eligible organizations at minimal service charges. Available property can include office equipment and furniture, clothing, hand tools, hardware, light machinery, heavy equipment and much more. Some of the equipment is new, while some may require repair, but all of the property is useful, and is available to your organization at a fraction of the cost of buying retail. Most nonprofit, tax-exempt organizations, such as municipalities, schools, emergency management agencies, day care centers and other public service organizations are eligible and have saved thousands of dollars annually through the use of federal surplus property.

All federal surplus property is donated on a first-come, first-served basis to eligible nonprofit organizations within the Commonwealth. A nominal cost is incurred by the participants in the form of a service charge to cover the state's cost of administering the program. Questions about the availability of items or about your organization's ability to participate in the Federal Surplus Property Program should be directed to: The Department of General Services, Bureau of Supplies and Surplus Operations, Federal Surplus Property Program, P. O. Box 1365, 2221 Forster Street, Harrisburg, PA 17105, or call TOLL-FREE 1-800-235-1555.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". A qualified small business concern is an independently owned, operated for profit, business employing 100 or fewer employes and is not a subsidiary or affiliate of a corporation otherwise not qualified.

Such penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter. The small business concern must include on every invoice submitted to the Commonwealth: "(name of vendor) is a qualified small business concern as defined at 4 Pa. Code § 2.32".

For information on the required payment date and annual interest rate, please call the Pennsylvania Department of Commerce, Small Business Action Center, 483 Forum Building, 783-5700.

Do you want to do business with your state government? The Treasury Department's office of Contract Information Services can assist you by providing you with information that may be helpful to you in successfully bidding on State contracts.

Act 244 of 1980 requires Commonwealth departments and agencies to file with the Treasury Department a copy of all contracts involving an expenditure of \$10,000 or more.

These fully executed contracts usually contain the vendor's name, dollar value, effective and termination dates and contract specifications. Some contracts also include the names of other bidding vendors and the bid proposal compiled by the awarded vendor. There is a minimal cost for photocopying contracts.
