READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

In such event, the petitioner or counsel for the petitioner shall secure a date and time for the hearing and shall provide the Court with a proposed order scheduling hearing.

Local Rules Committee Notes:

- (1) If an action only raises a wrongful death claim, Court approval of settlement is required only where a minor or incapacitated person has an interest. If the complaint raised wrongful death and survival claims, Court approval is required as to allocation between the categories notwithstanding the absence of minors or incapacitated persons with an interest even if the Plaintiff requests that the entire allocation be to the wrongful death claim. It is anticipated that, in virtually all death cases settled prior to the filing of suit, Court approval will be sought in order to protect the interest of the parties.

- (2) It is anticipated that various circumstances may exist which may persuade the Court that a hearing is or is not required on a petition for court approval of settlement. Relevant information would likely include whether or not insurance policy limits are being offered and may include many other circumstances such as

whether or not a structured settlement is proposed, and whether a proposed attorney fee appears to be out of proportion to the services rendered.

RULES AND REGULATIONS

Title 37—LAW

STATE POLICE

[37 PA. CODE CHS. 31 AND 33]

Licensed Retail Dealers; Firearm Record Forms

The State Police (Department), by this order amends Chapters 31 and 33 (relating to standards for licensed retail dealers; and procedures and specifications for firearm record forms), as derived specifically from 18 Pa.C.S. §§ 6101—6126 (relating to the Pennsylvania Uniform Firearms Act of 1995) (UFA), to read as set forth in Annex A.

A. *Effective Date*

These final-form regulations will be effective upon publication in the *Pennsylvania Bulletin*.

B. *Statutory Authority*

These final-form regulations are adopted under the authority of the UFA. The UFA was most recently amended by the act of February 15, 1997 (P. L. 13, No. 5), the act of June 18, 1998 (P. L. 503, No. 70) (Act 70) and the act of December 8, 1998 (P. L. 933, No. 121) (Act 121). Act 70 amended section 6111.1 of the UFA and required the Department to implement the Pennsylvania Instant Check System (PICS) by July 1, 1998, for the purpose of conducting a criminal background check on every sale, transfer or purchase of a handgun between individuals and on all applicants for a license to carry a firearm. In addition, Act 121 required the Department to conduct a criminal background check through the PICS by December 31, 1998, on the sale, transfer or purchase of a long gun by a person from a firearms dealer licensed by the Commonwealth.

C. *Background and Purpose*

As provided, the act of June 26, 1995 (P. L. 88, No. 17) and the act of November 22, 1995 (P. L. 621, No. 66) amending the UFA, became effective on November 20, 1995, and November 22, 1995. The UFA and these implementing final-form regulations have been created to provide support to law enforcement in the area of crime prevention and control by establishing the PICS. It is not the purpose of the act, or these regulations, to place any undue or unnecessary restrictions or burdens on law-abiding citizens with respect to the acquisition, possession, transfer, transportation or use of firearms, rifles or shotguns for personal protection, hunting, target shooting, employment or any other lawful activity. These final-form regulations are not intended to discourage or restrict the private ownership and use of firearms by law-abiding citizens for lawful purposes, or to provide for the imposition by rules or regulations of any procedures or requirements other than those necessary to implement and effectuate the provisions of the UFA.

D. *Comments Received*

(1) *General Comments:*

Notice of proposed rulemaking was published at 18 Pa.B. 2037 (May 2, 1998) with an invitation to submit written comments within 30 days of publication. The Department received comments from the Pennsylvania Community Providers Association and the Independent Regulatory Review Commission (IRRC). The following is a summary of IRRC's comments and the Department's response:

(1) IRRC raised concern over the clarity of the use of the terms "act" and "steel mesh." The Department agrees with IRRC and has changed the regulation by deleting the term "steel mesh" and further defining the term "act." The remaining suggestions regarding the use of the terms "entrance can not be easily gained" and "constructed to require an excessive amount of force to gain illegal entry" were not incorporated, as the Department avers that they are self-explanatory and do not require further clarification.

(2) IRRC suggested removing and renaming the responsibilities of designated employes in § 31.104 (relating to storage requirements). The suggestion was adopted.

(3) IRRC identified the need for clarity regarding the storage requirements of firearms in an emergency. See § 31.105 (relating to Commissioner's notification). Each suggestion was incorporated.

(4) In § 31.106 (relating to fines and other penalties), relating to the Commissioner's notification to retail firearm dealers during an emergency, IRRC suggested using the news media to notify dealers. This suggestion was incorporated.

(5) IRRC suggested removal of § 31.101 (relating to scope) because it is duplicative. The section was removed from the final-form regulations.

(6) IRRC suggested use of different terminology to streamline § 33.102 (relating to definitions) to identify the contents of the section as "Scope." This suggestion was adopted.

(7) As a result of comments received by IRRC from the Sheriff of Delaware County, IRRC suggested the inclusion of county sheriffs in § 33.103(c) (relating to responsibilities of licensed retail dealers and designated employes). This suggestion was incorporated.

(8) IRRC raised several concerns regarding the use of the following terms: "firearm as defined in section 6102" and "firearm as defined in section 6111.2." Based on the need for consistency and clarity, IRRC suggested that the term "firearm as defined in section 6102" should be modified by replacing it with the term handgun and that the term "firearm as defined in section 6111.2" should be changed to just the term "firearm." Each term is defined and used specifically in the regulation based upon each term's use and application in the UFA. In addition, Federal firearm laws are very specific in the use of the term "firearms." See section 921 of the UFA. Due to the uniformity and consistency of use and application of these terms and to prevent confusion among the regulated community the Department respectfully disagrees with IRRC's recommendation.

(9) IRRC suggested the deletion of the term "or if required by law" from § 33.111 (relating to application/record of sale) based upon the need for clarity and reasonableness of inclusion. The Department concurs and has amended the section accordingly.

(10) IRRC raised a concern regarding the need for the Department to require the regulated community to use "100% sulfite bond paper" in complying with §§ 33.113—33.117 and 33.120 (relating to notification of mental health commitment) of the proposed rulemaking. The Department agrees with IRRC's concern and has deleted the 100% sulfite bond paper, paper requirement accordingly.

(11) IRRC asked the Department to justify the requirements in §§ 33.112 and 33.113 (relating to surcharge remittance form; and surcharge remittance continuation form). The justification is found in the UFA, which requires the retention of records by the firearm dealers. See section 6111(b) of the UFA (relating to sale or transfer of firearms). The Department complied with IRRC's second suggestion in this area and deleted the requirement in § 33.112.

(12) IRRC again raised the concern that the Department should use the term "firearm as defined in section 6102" consistently throughout the regulation and cites §§ 33.114 and 33.115 (relating to Pennsylvania license to carry firearms; and application for a Pennsylvania license to sell firearms) as an example. See paragraph (8) of this Preamble for background. These sections refer to a "license to carry firearms" as provided for in section 6109 of the UFA (relating to licenses). Section 6109 of the UFA does not define the term "firearms," therefore the Department refuses to expand section 6109 of the UFA by defining the term.

(13) IRRC questioned the Department's requirement in § 33.118 (relating to Pennsylvania sportsman's firearm permit) that the permit be distributed in quantities of 500 per pack. The Department concurs and has deleted this requirement.

(14) IRRC correctly points out a citation error in § 33.120. The term "note" should be deleted. The citation to section 6111.1(f)(3) has been changed to the correct cite of section 6111.1(f) and the term "note" has been deleted.

(15) IRRC suggested the deletion of the "SP" form designation in § 33.131 (relating to forms). The Department concurs and has removed the designation.

(2) *IRRC Disapproval and Recommendations:*

On June 22, 2000, IRRC disapproved these final-form regulations. On June 27, 2000, the Department received IRRC's disapproval order, which contained reasons for the disapproval and recommendations. On June 30, 2000, the Department sent notice to IRRC, the House Judiciary Committee and the Senate Law and Justice Committee of the Department's intent to resubmit revised final-form regulations in accordance with section 7(c) of the Regulatory Review Act (71 P. S. § 745.7(c)). In compliance with section 7(c) of the Regulatory Review Act, the Department enclosed and forwarded an agency report to IRRC, the House Judiciary Committee and the Senate Law and Justice Committee.

The Department has adopted each of the recommendations contained in the IRRC's June 22, 2000, disapproval order. The following is a summary of IRRC recommendations and the Department's responses:

(1) IRRC noted that the use of the term "firearm" in §§ 33.114 and 33.115 was unclear and that the term should be defined consistent with section 6102 of the act. The Department concurs with IRRC's recommendation and has amended the two sections by adding the term "as defined in section 6102 of the act" after the term "firearm."

(2) IRRC recommended that § 31.104 lacked clarity because the section contained the following terms: "entrance can not easily be gained" and "constructed to require an excessive amount of force to gain illegal entry." The Department has clarified this section by deleting the problematic terms and specifically requiring the use of certain construction materials to prevent unauthorized entry.

(3) IRRC recommended the deletion of subsections (c) in §§ 33.112 and 33.113. IRRC's reasoning for this recommendation was based on IRRC's previous recommendation to delete the 20 year retention of records requirements because they were inconsistent with the UFA. The Department complied with IRRC's previous recommendation, but failed to delete subsections (c) in §§ 33.112 and 33.113. The Department has corrected this error and complied with IRRC's recommendation by deleting subsections (c) in §§ 33.112 and 33.113.

(4) IRRC's final recommendation was to delete the reporting requirements for physicians contained in § 33.120(a) and (b) because they are inconsistent with the UFA. The reporting requirements in § 33.120 mandate that judges of the courts of common pleas, mental health review officers and county mental health and mental retardation administrators must notify the Department of individuals who have been adjudicated as incompetent or who have been involuntarily committed to a mental institution for inpatient care and treatment under sections 302—304 of the Mental Health Procedures Act (50 P. S. §§ 7102—7104). The recommendation by IRRC to delete this section was based on comments received from the Pennsylvania Psychiatric Society (PPS). The PPS requested that the reporting requirement for examining physicians be deleted because it is inconsistent with the UFA. The Department met with the PPS and drafted an agreed to amendment to this section which deletes the reporting requirement and delineates the only certification reporting requirement for physicians.

E. Compliance with Executive Order 1996-1

In accordance with the requirements of Executive Order 1996-1 "Regulatory Review and Promulgation," the Department solicited input and suggestions from the regulated community. These regulations address a compelling public interest, as described in the Preamble and otherwise comply with Executive Order 1996-1.

F. Benefits

These final-form regulations will clearly benefit the citizens of this Commonwealth by establishing procedures to prevent prohibited persons from obtaining firearms. To date, 182 individuals with active warrants for their arrest have been arrested attempting to purchase a firearm in violation of the UFA.

G. Effect

The final-form regulations will affect Commonwealth residents and nonresidents, firearm dealers and all county sheriffs and the Philadelphia Police Department. The effective date of the PICS was July 1, 1998; since that time the Department has provided seminars, participated in conferences, legislative hearings and various meetings with the regulated community.

H. Paperwork Requirements and Fiscal Impact

The final-form regulations continue to require the completion of additional forms, reports or other paperwork as prescribed and provided by the Department.

The costs of the PICS are funded through funds collected by the Firearms Ownership Fund and General Fund Monies. The costs incurred for operating the PICS and enforcing the UFA through these regulations are arranged into the following three areas: personnel, operating and fixed assets. The Department funds a total of 96 positions dedicated to the PICS. The 1999-2000 costs for these positions were \$3,334,000. Operating costs support contracted maintenance of the PICS, system phone line charges, printing of mandated firearms safety bro-

chures, forms and required system enhancements. In 1999-2000, the operating costs were \$966,000. Fixed assets also fund system modifications. Fixed assets costs for 1999-2000 were \$200,000.

I. *Input*

These final-form regulations were drafted with input from a committee consisting of Representative Robert W. Godshall, Senator Vincent J. Fumo, Attorney General Michael D. Fisher, Kathleen Eakin from the Governor's Office of General Counsel and Richard Sheetz from the Attorney General's Office. In addition, representatives from the Department of Treasury—Bureau of Alcohol, Tobacco, and Firearms, the National Rifle Association, various county sheriffs, retail firearm dealers and State and county mental health and mental retardation agencies were contacted.

J. *Review*

Due to the complexity of the UFA, recent and ongoing amendments to the regulations, the PICS, and every implementing form and procedure will be continuously reviewed for effectiveness, clarity and cost savings to ensure that the regulated community's interests are being properly served. The Department is committed to the success of the PICS and adherence to the UFA and will continue to take a proactive approach in soliciting comments from the regulated community.

K. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Department submitted a copy of these final-form regulations to IRRC and to the Chairpersons of the House Judiciary Committee and the Senate Law and Justice Committee on June 1, 2000, for review and comment. In accordance with section 5(b) of the Regulatory Review Act, the Department has also provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form in compliance with Executive Order 1982-2, "Improving Government Regulations." A copy of the material is available to the public upon request.

In preparing these final-form regulations, the Department considered the comments received from IRRC, the Committees and the regulated community.

These final-form regulations were deemed approved by the House Judiciary Committee and the Senate Law and Justice Committee on June 21, 2000. IRRC met on June 22, 2000, and disapproved these final-form regulations in accordance with section 5(c) of the Regulatory Review Act.

On June 30, 2000, the Department notified IRRC and the House Judiciary Committee and the Senate Law and Justice Committee of the Department's intent to revise and resubmit the regulations. On August 2, 2000, the Department resubmitted the revised regulations to IRRC and the House Judiciary Committees and the Senate Law and Justice Committee. The resubmitted regulations were deemed approved by the Committees on August 13, 2000. IRRC approved the resubmitted regulations on August 24, 2000.

L. *Contact Person*

The contact person is Ronald E. Plesco, Jr., Esq., Director, Policy Office, Pennsylvania State Police, 1800 Elmerton Avenue, Harrisburg, PA 17110, (717) 783-5558.

M. *Findings*

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate Submitted Under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to public in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the site(s) identified below, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is

located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified below. During this comment period the municipality may request that the person identified below, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, please contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

Notice of Plan Approval and Operating Permit Applications

Non-Major Sources and Modifications

The Pennsylvania Department of Environmental Protection (DEP) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

Notice is hereby given that DEP has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice, and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified below. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121 through 143, the Federal Clean Air Act and regulations adopted under the Act.

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401

Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, Technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52, and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity, and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan approvals granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
West Mahanoy Township	190 Pennsylvania Ave. Shenandoah Heights, PA 17976	Schuylkill

Plan Description: The Department has completed its review of the Act 537 Sewage Facilities Plan (Plan) for West Mahanoy Township, Schuylkill County, dated June 2000. The Department has found that the Plan is acceptable and granted planning approval on February 2, 2001.

The selected alternatives for the 10 planning areas are as follows: Shenandoah Heights and Weston Place—Construct a sewerage collection system that is tributary to the Shenandoah Municipal Sewer Authority's (SMSA's) system; Upper Brownsville and Lower Brownsville—Construct a sewerage collection system. Wastewater to be treated at a to be constructed package sewage treatment plant (STP) or at the SMSA's STP; East William Penn—Construct a sewerage collection system and package STP; West William Penn and Lost Creek No. 2—Construct a sewerage collection system and package STP; Lost Creek—Construct a sewerage collection system and package STP; Raven Run—Implement a Sewage Management Program; and Altamont—Continue to use the Frackville Area Municipal Authority's sewerage collection system and treatment facility.

The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Borough of Weissport	440 Allen Street Weissport, PA 18235	Carbon

Plan Description: The approved plan provides for replacement of the Borough's entire existing wastewater collection system. The selected wastewater disposal alternative is described in the Plan Update Revision as "Low-Pressure Sewer Alternative No. 2". The alternative also proposes a limited rehabilitation of the Weissport Borough Municipal Authority's (Authority) existing main pumping station.

Replacement of the Borough's entire wastewater collection system was found to be the only cost-effective alternative which would successfully eliminate excessive amounts of infiltration/inflow (I/I) from the Borough's wastewater collection system. Elimination of the excessive amounts of I/I is required to eliminate the existing hydraulic overload at the existing Leighton Sewerage Authority's Wastewater Treatment Facility. Wastewater from the proposed, replacement collection system will be discharged to the existing Leighton Sewerage Authority's Wastewater Treatment Facility for treatment and discharge. Upon completion of the proposed Central Carbon Municipal Authority's (CCMA) Wastewater Treatment Facility, wastewater from the Borough's wastewater collection system will be conveyed to and treated at the CCMA facility.

Financing of the proposed wastewater collection/conveyance system is to be provided by the Pennsylvania Infrastructure Investment Authority (PENNVEST). Financing of the Borough of Weissport's portion of the CCMA Wastewater Treatment Facility is to be provided by the United States Department of Agriculture's—Rural Utilities Service.

The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required

NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

NOTICE OF PROMPT INTERIM RESPONSE UNDER THE HAZARDOUS SITES CLEANUP ACT

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P.S. §§ 6020.101—6020.1305) has initiated a prompt interim response at the Clements Landfill site. This response has been undertaken under

Section 505(b) of the HSCA (35 P. S. §§ 6020.505(b)). The site is located at: Ontelaunee and Perry Townships, Berks County, PA.

The Clements Landfill Site (Site) is located approximately one and one-half miles east of Route 61, and is bordered by Birch Hill Road to the north, Shoemakersville Road to the east, Ontelaunee Drive to the south, and Kerns Road extending from the south to west-side of the site. The entire area surrounding the Site consists of residential and agricultural lands. The Site, an inactive landfill since 1970, is 68.29 acres on which approximately 25 acres are land filled.

In June 2000, the Department sampled 13 residential wells adjacent to the Site. Three adjacent properties south of the Site, located on a geologic fracture trace running through the land filled area, have volatile organic compounds (VOC) contaminations above regulatory standards. Trichloroethylene (TCE) levels ranged from 24 micrograms per liter ($\mu\text{g/L}$) to 73 $\mu\text{g/L}$, vinyl chloride from 4 $\mu\text{g/L}$ to 27 $\mu\text{g/L}$ and cis-1, 2-Dichloroethylene (cis-1,2-DCE) from 79 to 140 $\mu\text{g/L}$. The regulatory limits for these VOCs in groundwater are 5 $\mu\text{g/L}$, 2 $\mu\text{g/L}$, and 70 $\mu\text{g/L}$ respectively. Re-sampling of the impacted well water supplies confirmed these levels of VOC contamination.

The Department proposes a prompt interim response at this site to protect public health and safety or the environment. This determination is based on the continued release of VOCs to the groundwater, and the actual human exposure to hazardous substances via inhalation, ingestion and dermal contact.

The Department considered three alternatives: 1. No action, which allows the residents to have continued exposure to the VOC contamination; 2. Bottled water, which effectively removes the risk posed by ingestion, but would not remove the risk posed by inhalation and dermal contact; 3. Point-of-use water treatment systems that will treat the contaminated water to effectively remove the current human ingestion, inhalation and dermal contact threats. This alternative will be protective of human health and the environment.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)), and the publication of this notice starts the administrative record period under HSCA. SPECIAL NOTICES

Public Notice of Proposed Consent Order and Agreement

Former Avtex Fibers, Inc. Site, Vernon Township, Crawford County

Under Section 1113 of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1305) (HSCA), notice is hereby provided that the Department of Environmental Protection (Department) has agreed to a Consent Order and Agreement (Agreement) with FMC Corporation, 200 E. Randolph Drive, Chicago, Illinois 60601 (FMC) concerning the resolution of their liability for the mercury contamination at the former Avtex Fibers, Inc. facility's wastewater treatment plant (site), located in Vernon Township, Crawford County.

Between 1929 and 1986, mercury from the mercury seals leaked into the trickling filter tanks and the trickling filter media in the wastewater treatment plant at the Avtex Fibers, Inc. facility in Vernon Township, Crawford County, Pennsylvania. In 1995, certain aspects of the wastewater treatment plant, including the trickling filter media and mercury-lubricated distribution arms were dismantled. During and subsequent to this dismantling, mercury leaked into the trickling filter tanks, trickling filter media and soils near the trickling filter tanks. This leaking of mercury constituted a "release" and "threat of release" as defined by Section 103 of HSCA. Mercury is also defined in Section 103 of HSCA as a "hazardous substance".

As an owner during a period of time that hazardous substances were released at the site, FMC is a "responsible person" as defined in Section 103 of HSCA. Under the terms of the Agreement, FMC shall: 1) Collect the elemental mercury for off-site disposal or recycling to the extent possible from the trickling filter tanks; 2) Test the trickling filter media, if it fails a characteristically hazardous waste determination it will be treated to a level that allows on-site containment or disposed off-site as a hazardous waste; 3) Permanently contain all other sediments, wastes, and apparatus within a trickling filter tank, following any necessary decontamination. Following the completion of these actions, FMC shall be relieved of further liability concerning the release and threat of release of mercury from the wastewater treatment facility at the site, pursuant to Section 501(a) of the Land Recycling Act (35 P. S. § 6026.501(a)).

The specific terms of this settlement are set forth in the Agreement between the FMC and the Department. The Department will receive and consider comments relating to the Agreement for 60 days from the date of this Public Notice. The Department has the right to withdraw its consent to the Agreement if the comments concerning the Agreement disclose facts or considerations, which indicate that the Agreement is inappropriate, improper, or not in the public interest. After the public comment period, the Department's settlement with FMC shall be effective upon the date that the Department notifies FMC, in writing, that this Agreement is final and effective in its present form, and that the Department has filed a response to significant written comments to the Agreement, or that no such comments were received.

The Agreement is available for inspection and copying at the Department's office at 230 Chestnut Street, Meadville, PA. Comments may be submitted, in writing, to Mark Gorman, Program Manager, Department of Environmental Protection, Hazardous Sites Cleanup, 230

Chestnut Street, Meadville, PA 16335. Further information may be obtained by contacting Mark Gorman at 814-332-6648. TDD users may contact the Department through the Pennsylvania Relay Service at (800) 645-5984.

Because of the rapid depletion of area codes in this Commonwealth¹ the Pennsylvania Public Utility Commission (Commission) has been actively monitoring the need for area code relief while investigating and implementing various number conservation measures.² One number

¹ An area code becomes depleted when none of its "NXX codes" (which are the three digits following the area code in a 10-digit telephone number) are available for assignment to a carrier. Under the current infrastructure, telephone numbers are assigned to carriers by NXX code (which contains 10,000 numbers). Consequently, even if a carrier has only 10 customers, 10,000 numbers are still assigned in that area code causing 9,990 numbers to remain unused and unavailable. The result of this is that available NXX codes in an area code exhaust so that a new area code needs to be instituted to generate new NXX codes, and hence, make new numbers available for assignment.

² See *Relief Plan for the 570 NPA*, Docket No. P-00961071F0002 (Order entered September 15, 2000), 30 Pa. B. 5108 (September 30, 2000) (Commission seeking comments about industry consensus plan to institute an all services distributed overlay for the geographic area currently covered by the 570 area code.); *Implementation of Number Conservation Measures Granted to Pennsylvania by the Federal Communications Commission in its Order released March 31, 2000—NXX Code Reclamation*, Docket No. M-00001373 (Order entered August 22, 2000), 30 Pa.B. 4701 (September 2, 2000) (Commission established process for reclaiming NXX codes from carriers who have failed to activate them within 6 months of their availability for assignment to customers.); *Implementation of Number Conservation Measures Granted to Pennsylvania by the Federal Communications Commission in its Order released July 20, 2000—Thousand-Block Number Pooling*, Docket Nos. conservation measure that the Commission has previously investigated in 1997 and 1998 is rate center consolidation (RCC).³ RCC is a number conservation measure that permits the combination of existing rate centers⁴ into a smaller number of larger rating areas. Fewer rate centers in an area code allows certain carriers to use fewer NXX codes when entering a market to provide service.⁵ Implementation of this measure has the potential of decreasing the need for additional numbering resources in the area codes located in this Commonwealth, thereby prolonging the current area codes or numbering plan areas (NPAs).

The Federal Communications Commission (FCC) has permitted the Commission and other states to consider RCC as a number conservation measure that may reduce number usage and decrease the frequency of the need for additional area codes.⁶ The FCC affirmed this grant of authority for states to consider RCC in its delegation order issued July 20, 2000.⁷ Specifically, the FCC emphasized that state commissions do not require any additional delegation of authority to engage in rate center consolidation because this number conservation measure involves local calling scopes and ratings which clearly fall under a state commission's ratemaking authority.⁸

In its most recent order of December 29, 2000⁹, the FCC further discussed RCC. The FCC strongly encouraged state commissions to proceed as expeditiously as possible to consolidate rate centers located in their Numbering Plan Areas (NPA).

Discussion

The Commission is anxious to implement RCC in this Commonwealth as expeditiously as possible so that numbering resources can be used efficiently by all carriers operating in this Commonwealth. At the same time, the Commission realizes that the issues involved in RCC can be numerous.¹⁰ However, by further investigating and implementing RCC, the Commission will better ensure that telecommunications carriers have adequate numbering resources without needing to resort to adding new area codes.

On December 20, 2000, in its Final Pooling Order, the Commission established a Number Steering Committee to

pooling in the 610/484 area codes to be implemented on April 2, 2001); *Implementation of Number Conservation Measures Granted to Pennsylvania by the Federal Communications Commission in its Order released July 20, 2000—NXX Code Rationing*, Docket Nos. M-00001427F0002 and P-0961027F0002 (Order entered December 27, 2000) (Commission ordered that NXX code rationing would continue in the 412 and 878 area codes at a rate of six per month until February 17, 2002).

³ See *Petition of NPA Relief Coordinator regarding 412, 215/610, and 717 Area Code Relief Plans*, Docket Nos. P-00961027, P-00961061, and P-00961071 (Order entered December 19, 1997) (Commission established Joint Task Force to receive and analyze comments on rate center consolidation and other number conservation measures in Commonwealth area codes).

⁴ The FCC defines rate centers generally as creations of the incumbent local exchange carriers to facilitate billing and routing of calls. *In the Matter of Numbering Resource Optimization*, CC Docket Nos. 99-200, 96-98, NSD File No. L-99-101, ¶59 (FCC's Delegation Order).

⁵ Presently, Competitive Local Exchange Carriers (CLECs) desiring to provide service to a specific market area require NXX codes in each and every rate center in the area they wish to serve. Under the present system of utilizing telephone numbers for rating purposes, a given NPA-NXX code may only be assigned to a single rating area; the more rating areas in an NPA, the more NXX codes that must be assigned.

⁶ *Petition for Declaratory Ruling and Request for Expedited Action on the July 15, 1997 Order of the Pennsylvania Public Utility Commission Regarding Area Codes 412, 610, 215 and 717*, Memorandum Opinion and Order and Order on Reconsideration, 13 FCC Rcd 19009, 19025 (1998) (*Pennsylvania Order*).

⁷ *In the Matter of Numbering Resource Optimization*, CC Docket Nos. 99-200, 96-98, NSD File No. L-99-101 (FCC's Delegation Order).

⁹ *In the Matter of Numbering Resource Optimization*, Second Report and Order, CC Docket No. 99-200, CC Docket No. 96-98, December 29, 2000 (FCC's *Second NRO Order*).

¹⁰ For example, in the Commission's previous investigation of consolidating rate centers, participants in a Joint Task Force found that impact may occur to local exchange and intraLATA toll rates in this Commonwealth, which prompted concerns about billing systems and recovery of lost revenues. Also, this same Joint Task Force identified issues relating to the impact on 911 systems and geographic location of those centers to be consolidated.

monitor the progress of the pool in the 610 and 484 NPAs and to resolve issues that may arise during implementation of that number conservation measure.¹¹ The Commission ordered that the Number Steering Committee be chaired by staff and be comprised of representatives from the pool participants, the interim pooling administrator, and the Offices of Consumer Advocate and Small Business Advocate.

The Commission now directs that a Subcommittee of the Number Steering Committee be established to investigate and propose an implementation plan to consolidate rate centers in all NPAs in this Commonwealth. The Subcommittee will also be chaired by staff and will be comprised of representatives of the telecommunications industry, the Office of Consumer Advocate, and the Office of Small Business Advocate as well as the Pennsylvania Code Administrator. The present members of the Number Steering Committee will assist in finding those individuals who handle RCC for their organizations to serve on this Subcommittee.

The Commission expects that this Subcommittee will work diligently to produce an RCC plan that can be easily implemented in a timely fashion in this Commonwealth's NPAs. Also, the Commission directs that any proposed RCC plan fully consider customer impact and education. Thus, the Commission directs that the Subcommittee meet initially no later than March 15, 2001. At that point, the Commission expects that the Subcommittee will establish a regular meeting schedule and possibly divide into additional subcommittees or working groups to address the specific technical and rate issues inherent to an RCC implementation plan.

Also, the Commission directs the RCC Subcommittee to conclude its work and file a proposed implementation plan to consolidate any and all rate centers in this Commonwealth's area codes by August 1, 2001. The plan should include maps redrawing rate center boundaries to reflect the proposed consolidation. It should also include a proposed implementation schedule to provide for sufficient network testing and customer notification. At that time, the Commission will review and approve the plan accordingly.

Conclusion

Because the Commission is concerned about the current availability and usage of numbering resources and the impact of proliferating new area codes on consumers as well as telecommunications carriers, the Commission intends to investigate rate center consolidation through a Subcommittee of the Number Steering Committee. By taking this step to investigate and implement this additional number conservation measure, the Commission will better ensure that telecommunications carriers have adequate numbering resources to operate in this Commonwealth. *Therefore,*

It is Ordered That:

1. A Subcommittee of the Number Steering Committee be established to devise and implement an RCC plan in any and all area codes in this Commonwealth.
2. The RCC Subcommittee, chaired by Commission staff, shall convene its first meeting no later than March 15, 2001, to set forth a meeting schedule and assignment of issues to internal working groups.

¹¹ *Implementation of Number Conservation Measures Granted to Pennsylvania by the Federal Communications Commission in its Order released July 20, 2000—Thousand-Block Number Pooling*, Docket Nos. M-00001427 and P-00961061F0002 (Order entered December 27, 2000) (Commission ordered 1,000 block pooling in the 610/484 area codes to be implemented on April 2, 2001).

3. The RCC Subcommittee file with the Commission a proposed RCC implementation plan no later than August 1, 2001.

4. A copy of this order be served on all parties listed at this docket, all jurisdictional telecommunications carriers, wireless carriers, the Office of Consumer Advocate, the Office of Small Business Advocate, and the North American Numbering Plan Administrator.

5. A copy of this final order shall be published in both the *Pennsylvania Bulletin* and on the Commission's website at <http://puc.paonline.com>.
