READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

[204 PA. CODE CH. 83]

Amendments to the Pennsylvania Rules of Disciplinary Enforcement Relating to Attorneys Convicted of Crimes; Notice of Proposed Rule-making

The Disciplinary Board of the Supreme Court of Pennsylvania (Board) is considering recommending to the Pennsylvania Supreme Court that it amend the Pennsylvania Rules of Disciplinary Enforcement as set forth in Annex A.

Rule 214 establishes the disciplinary procedure when an attorney has been convicted of a crime. Under Pennsylvania law, a “conviction” does not occur until sentencing. *Commonwealth ex rel. McClenachan v. Reading*, 336 Pa. 165, 168-169, 6 A.2d 776, 778 (1939). The addition of subsection (j) to Rule 214 redefines the term “conviction” to mean any guilty verdict after trial by judge or jury, or any plea of guilty or *nolo contendere* that has been accepted by the court, whether or not sentence has been imposed.

The effect of proposed subsection (j) is to accelerate the point in time at which the Office of Disciplinary Counsel may initiate disciplinary proceedings under Rule 214 in those instances where there has been a determination of criminal liability but the criminal court has not yet imposed the sentence. This procedural effect applies with equal force to a “serious crime,” as defined by subsection (i), and to a crime other than a serious crime, which is controlled by subsection (g).

The Board has determined that there is no legal reason to wait until the criminal court imposes sentence before initiating an attorney disciplinary proceeding. In the case of a guilty plea, the plea is an acknowledgement by the defendant-attorney that he participated in the commission of certain acts with a criminal intent, *Commonwealth v. Anthony*, 504 Pa. 551, 558, 475 A.2d 1303, 1307 (1984), and entry of the plea constitutes a waiver of all defects and defenses except lack of jurisdiction, invalidity of the plea, and illegality of the sentence. *Commonwealth v. Tareila*, 895 A.2d 1266, 1267 (Pa. Super. 2006). A plea of *nolo contendere* is treated the same as a guilty plea, *Commonwealth v. Hayes*, 245 Pa. Super. 521, 523, 369 A.2d 750, 751 (1976), and their effect is equivalent, *Commonwealth v. Warner*, 228 Pa. Super. 31, 32, 324 A.2d 362, 363 (1974), in that the defendant-attorney does not expressly admit his guilt but authorizes the court for purposes of the case to treat him as if he were guilty. *North Carolina v. Alford*, 400 U.S. 25, 36 (1970). At the point at which a defendant-attorney is found guilty after trial by judge or jury, the criminal court has already afforded the defendant-attorney his due process right to a hearing in the form of a trial at which the government’s burden of proof is beyond a reasonable doubt. The defendant-attorney has also had an opportunity to present a defense to the criminal charges.

Proposed subsection (j) does not affect the procedural due process protections that are currently contained in

Rule 214. Upon receipt of notice that an attorney has been convicted of a crime, Disciplinary Counsel continues to be charged with the duty under subsection (c) of securing and filing a certificate of the conviction with the Supreme Court. If the conviction is for a “serious crime” as defined in subsection (i), the Supreme Court continues to have the discretion under subsection (d)(1) to enter a rule directing the respondent-attorney to show cause why the respondent-attorney should not be placed on temporary suspension. If the Supreme Court enters an order placing the respondent-attorney on temporary suspension prior to the criminal sentencing, and thereafter the criminal trial court, either prior to or at sentencing, grants some form of relief that provides a basis for reconsideration of the Supreme Court’s order to temporarily suspend, the respondent-attorney continues to have the right under subsection (d)(4) to petition the Supreme Court for dissolution or amendment of the order of temporary suspension. If the criminal trial court enters an order reversing the conviction, subsection (h) gives the Supreme Court the discretion to immediately reinstate the respondent-attorney.

Unless a respondent-attorney who has been temporarily suspended under the rule requests an accelerated disposition of the charges under subsection (f)(2), the amendment to subsection (f)(1) clarifies that Disciplinary Counsel will not file a petition for discipline or proceed to a hearing before a hearing committee prior to sentencing. If the respondent-attorney files a post-sentence appeal, Disciplinary Counsel will not proceed to a hearing until all direct appeals from the conviction are concluded, as required by subsection (f)(1) and consistent with current practice.

As a corollary to the acceleration effect of proposed subsection (j), the Pennsylvania Supreme Court will not have to wait until sentencing to temporarily suspend an attorney who has engaged in egregious criminal conduct. Thus, the new rule recognizes that some crimes are so offensive to the public and contrary to the ethical principles of the profession that swift action to suspend the attorney’s law license is necessary if for no reason other than to preserve the integrity and standing of the Court and the profession. In some instances, the nature of the crime will be such that prompt action to temporarily suspend the attorney is necessary to protect the public, including the attorney’s clients. In other instances, the attorney may already be incarcerated at the time of the guilty plea or guilty verdict, or have his or her bail revoked pending sentencing. An attorney who remains free on bail at the time of the guilty plea or guilty verdict may have already begun to wind up his or her law practice in anticipation of a term of incarceration or temporary suspension following sentencing. For reasons beyond the disciplinary system’s control, a sentencing proceeding may be postponed or delayed for months or longer after the attorney has admitted to or been found guilty of a serious crime.

Finally, the proposed amendment to subsection (a) changes the point in time at which an attorney must make a report to the Secretary of the Board. Under the new rule, an attorney will be required to report within 20 days of the attorney’s guilty or no contest plea, or verdict of guilt by judge or jury.

Interested persons are invited to submit written comments regarding the proposed amendments to the Office

of the Secretary, The Disciplinary Board of the Supreme Court of Pennsylvania, 601 Commonwealth Avenue, Suite 5600, P. O. Box 62625, Harrisburg, PA 17106-2625 on or before April 1, 2010.

ELAINE M. BIXLER,
Secretary of the Board
The Disciplinary Board of the
Supreme Court of Pennsylvania

Annex A

TITLE 204. JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT

Subpart B. DISCIPLINARY ENFORCEMENT

CHAPTER 83. PENNSYLVANIA RULES OF DISCIPLINARY ENFORCEMENT

Subchapter B. MISCONDUCT

Rule 214. Attorneys convicted of crimes.

(a) An attorney convicted of a serious crime shall report the fact of such conviction **within 20 days** to the Secretary of the Board [**within 20 days after the date of sentencing**]. The responsibility of the attorney to make such report shall not be abated because the conviction is under appeal or the clerk of the court has transmitted a certificate to Disciplinary Counsel pursuant to subdivision (b).

(b) The clerk of any court within the Commonwealth in which an attorney is convicted of any crime, or in which any such conviction is reversed, shall within 20 days after such disposition transmit a certificate thereof to Disciplinary Counsel, who shall file such certificate with the Supreme Court.

(c) Upon being advised that an attorney has been convicted of a crime within this Commonwealth, Disciplinary Counsel shall secure and file a certificate in accordance with the provisions of subdivision (b). If the conviction occurred in another jurisdiction, it shall be the responsibility of Disciplinary Counsel to secure and file a certificate of such conviction.

(d) (1) Upon the filing with the Supreme Court of a certified copy of an order demonstrating that an attorney has been convicted of a serious crime, the Court may enter a rule directing the respondent-attorney to show cause why the respondent-attorney should not be placed on temporary suspension, which rule shall be returnable within ten days.

(2) If a rule to show cause has been issued under paragraph (1), and the period for response has passed without a response having been filed, or after consideration of any response, the Court may enter an order requiring temporary suspension of the practice of law by the respondent-attorney pending further definitive action under these rules.

(3) Any order of temporary suspension issued under this rule shall preclude the respondent-attorney from accepting any new cases or other client matters, but shall not preclude the respondent-attorney from continuing to represent existing clients or existing matters during the 30 days following entry of the order of temporary suspension.

(4) The respondent-attorney may at any time petition the Court for dissolution or amendment of an order of temporary suspension. A copy of the petition shall be served upon Disciplinary Counsel and the Secretary of

the Board. A hearing on the petition before a member of the Board designated by the Chair of the Board shall be held within ten business days after service of the petition on the Secretary of the Board. The designated Board member shall hear the petition and submit a transcript of the hearing and a recommendation to the Court within five business days after the conclusion of the hearing. Upon receipt of the recommendation of the designated Board member and the record relating thereto, the Court shall dissolve or modify its order, if appropriate.

(5) At any time before a plea or verdict or after a guilty plea or verdict of guilt in the criminal proceeding, Disciplinary Counsel and the respondent-attorney may file with the Court a joint petition for temporary suspension of the respondent-attorney on the ground that the respondent-attorney's temporary suspension is in the best interest of the respondent and the legal system.

Official Note: The subject of the summary proceedings authorized by subdivision (d) is limited to whether the conditions triggering the application of subdivision (d) exist, i.e., proof that the respondent-attorney is the same person as the individual convicted of the offense charged and that the offense is a serious crime, and will not include such subjects as mitigating or aggravating circumstances. The provision of subdivision (d)(3) permitting the respondent-attorney to continue representing existing clients for 30 days is intended to avoid undue hardship to clients and to permit a winding down of matters being handled by the respondent-attorney, and the permissible activities of the respondent-attorney are intended to be limited to only those necessary to accomplish those purposes.

(e) A certificate of conviction of an attorney for a crime shall be conclusive evidence of the commission of that crime in any disciplinary proceeding instituted against the attorney based upon the conviction.

(f)(1) Upon the receipt of a certificate of conviction of an attorney for a serious crime, the Court shall, in addition to any order of suspension it may enter in accordance with the provisions of subdivision (d), also refer the matter to the Board for the institution of a formal proceeding before a hearing committee in the appropriate disciplinary district in which the sole issue to be determined shall be the extent of the final discipline to be imposed, except that a disciplinary proceeding so instituted shall not be brought to hearing until **sentencing and** all appeals from the conviction are concluded.

(2) Notwithstanding the provision of paragraph (1) that a hearing shall not be held until all appeals from a conviction have been concluded, a respondent-attorney who has been temporarily suspended pursuant to this rule shall have the right to request an accelerated disposition of the charges which form the basis for the temporary suspension by filing a notice with the Secretary of the Board and Disciplinary Counsel requesting accelerated disposition. Within 30 days after filing of such a notice, Disciplinary Counsel shall file a petition for discipline, if such a petition has not already been filed, and the matter shall be assigned to a hearing committee for accelerated disposition. The assignment to a hearing committee shall take place within seven (7) days after the filing of such a notice or the filing of a petition for discipline, whichever occurs later. Thereafter the matter shall proceed and be concluded by the hearing committee, the Board and the Court without appreciable delay. If a petition for discipline is not timely filed or assigned to a hearing committee for accelerated disposition under this

paragraph, the order of temporary suspension shall be automatically dissolved, but without prejudice to any pending or further proceedings under this rule.

Official Note: The “without appreciable delay” standard of subdivision (f)(2) of the rule is derived from *Barry v. Barchi*, 443 U.S. 55, 66 (1979). Appropriate steps should be taken to satisfy this requirement, such as continuous hearing sessions, procurement of daily transcript, fixing of truncated briefing schedules, conducting special sessions of the Board, etc.

(g) Upon receipt of a certificate of conviction of any attorney for a crime other than a serious crime, the Court shall take such action as it deems warranted. The Court may in its discretion take no action with respect to convictions for minor offenses.

Official Note: The actions the Court may take under subdivision (g) include reference of the matter to the Office of Disciplinary Counsel for investigation and possible commencement of either a formal or informal proceeding, or reference of the matter to the Board with direction that it institute a formal proceeding.

(h) An attorney suspended under the provisions of subdivision (d) may be reinstated immediately upon the filing by the Board with the Court of a certificate demonstrating that the underlying conviction has been reversed, but the reinstatement will not terminate any formal proceeding then pending against the attorney.

(i) As used in this rule, the term “serious crime” means a crime that is punishable by imprisonment for one year or upward in this or any other jurisdiction.

(j) For the purposes of this rule and Rule 203(b)(1), “conviction” means any guilty verdict, whether after trial by judge or jury, or finding of guilt, and any plea of guilty or *nolo contendere* that has been accepted by the court, whether or not sentence has been imposed.

Annex A

TITLE 234. RULES OF CRIMINAL PROCEDURE

PART I. GENERAL

CHAPTER 5. PRETRIAL PROCEDURES IN COURT CASES

PART B(3). Arrest Procedures in Court Cases

(a) Arrest Warrants

Rule 515. Execution of Arrest Warrant.

* * * * *

(C) When the warrant has been issued by a magisterial district judge, and the defendant cannot be found, the case shall remain in the magisterial district, and shall not be forwarded to the court of common pleas for further proceedings.

Comment

No substantive change in the law is intended by paragraph (A) of this rule; rather, it was adopted to carry on those provisions of the now repealed Criminal Procedure Act of 1860 that had extended the legal efficacy of an arrest warrant beyond the jurisdictional limits of the issuing authority. The Judicial Code now provides that the territorial scope of process shall be prescribed by the Supreme Court’s procedural rules. 42 Pa.C.S. §§ 931(d), 1105(b), 1123(c), 1143(b), 1302(c), 1515(b).

For the definition of police officer, see Rule [3] 103.

Section 8953 of the Judicial Code, 42 Pa.C.S. § 8953, provides for the execution of warrants of arrest beyond the territorial limits of the police officer’s primary jurisdiction. *See also Commonwealth v. Mason*, 507 Pa. 396, 490 A.2d 421 ([Pa.] 1985).

Pursuant to Rule 540, the defendant is to receive a copy of the warrant and the supporting affidavit at the time of the preliminary arraignment.

For purposes of executing an arrest warrant under this rule, warrant information transmitted by using advanced communication technology has the same force and effect as an original arrest warrant. This rule does not require that the transmitted warrant information be an exact copy of the original warrant. Nothing in this rule, however, is intended to curtail the Rule 540(C) requirement that the issuing authority provide the defendant with an exact copy of the warrant. *See* Rule 513 (Requirements for Issuance).

Paragraph (C) abolishes the traditional practice known as “NEI” or “no est inventus” as being no longer necessary.

PART D. Proceedings in Court Cases Before Issuing Authorities

Rule 541. Waiver of Preliminary Hearings.

* * * * *

(D) Once a preliminary hearing is waived and the case bound over to the court of common pleas, if the right to a preliminary hearing is subsequently reinstated, the preliminary hearing shall be held at the court of common pleas unless the parties agree, with the consent of the common pleas judge, that the preliminary hearing be held before the issuing authority.

Rule 543. Disposition of Case at Preliminary Hearing.

* * * * *

(G) Except as provided in Rule 541(D), once a case is bound over to the court of common pleas, the case shall not be remanded to the issuing authority.

Comment

* * * * *

In those cases in which a *prima facie* case is not established at the preliminary hearing, and the Commonwealth does not request that the issuing authority proceed on the summary offenses, the issuing authority should dismiss the complaint, and discharge the defendant unless there are outstanding detainers against the defendant that would prevent the defendant's release.

Paragraph (G) emphasizes the general rule that once a case has been bound over to the court of common pleas, it shall not be remanded to the

issuing authority. There is a limited exception to the general rule in the situation in which the right to a previously waived preliminary hearing is reinstated and the parties agree, with the consent of the common pleas judge, that the preliminary hearing be held before the issuing authority. See Rule 541(D).

CHAPTER 10. RULES OF CRIMINAL PROCEDURE FOR THE PHILADELPHIA MUNICIPAL COURT AND THE PHILADELPHIA TRAFFIC COURT

PART A. Philadelphia Municipal Court Procedures

Rule 1002. Procedure in Summary Cases.

* * * * *

Comment

This rule, which replaced former Rule 1002 in 2005, was developed to accommodate the procedures Philadelphia Municipal Court has implemented to address the issues in non-traffic summary cases unique to Philadelphia to more efficiently handle the vast number of non-traffic summary cases, to protect the defendants' rights to a fair and prompt disposition of their cases, and, when appropriate, to provide the necessary rehabilitations or social services. Municipal Court is required to implement local rules pursuant to Rule 105 (Local Rules) enumerating the details of the summary proceedings following the issuance of a citation or a summons. For purposes of this rule, "local rule" includes all memoranda of understanding and administrative orders that affect non-traffic summary case procedures.

Once a summary case is appealed to the Court of Common Pleas for trial de novo, the case shall remain in the Court of Common Pleas. See also Rule 462 and its Comment.

REMANDS OF CASES FROM THE COURT OF COMMON PLEAS

On February 12, 2010, effective April 1, 2010, upon the recommendation of the Criminal Procedural Rules Committee, the Court amended Rules of Criminal Procedure 515 (Execution of Arrest Warrant), 541 (Waiver of Preliminary Hearing), 543 (Disposition of Case at Preliminary Hearing), 561 (Withdrawal of Charges By Attorney for the Commonwealth), 589 (Pretrial Disposition of Summary Offenses Joined With Misdemeanor, Felony, or Murder Charges), and 1010 (Procedure on Appeal) and approved the revisions to the *Comment* to Rule of Criminal Procedure 1002 (Procedure in Summary Cases) to preclude the practice of remanding cases from the court of common pleas to the magisterial district judge or the

Philadelphia Municipal Court in several situations. The amendments address three areas in which remands from the court of common pleas to the issuing authority still are occurring despite the Court's policy that prohibits such remands: (1) the practice of remanding cases for a preliminary hearing where a defendant who was designated as "NEI" is apprehended; (2) use of remands as remedies for a waived preliminary hearing; and (3) the practice of remanding cases without court involvement when the district attorney withdraws felony/misdemeanor prior to the filing of the information.

I. Introduction

It has been a long-standing general requirement reflected in the Rules of Criminal Procedure that once a summary case moves to the court of common pleas, the case must stay in the court of common pleas and may not be remanded to the issuing authority.² This requirement applies both to summary cases on appeal for a trial *de novo*, Rule 462, and in cases in which the summary offenses have been joined with misdemeanor or felony charges, even when only summary charges remain. *See*, for example, Rules 313, 585, 589 and 622.

As a result of reports of several counties violating these requirements, on September 28, 2006, then-Chief Justice Cappy sent a letter to all President Judges emphasizing this point. After the Chief Justice's letter went out, the Committee received several inquiries from different judicial districts seeking clarification on whether certain remand practices violated the prohibition. Several counties raised scenarios in which cases are being remanded in circumstances that potentially were in contravention of Rules 589 and 622.

The Committee reviewed these scenarios and determined that rules changes were needed to make it clear in the rules that remands are improper in the following three situations:

1) The case is forwarded to the court of common pleas under the "NEI" practice. In these cases, the defendant has not been apprehended when the case is forwarded, nor has the defendant had a preliminary hearing. The defendant subsequently is apprehended before the filing of the criminal information occurs pursuant to Rule 565(A). In these situations, in some judicial districts, the case is remanded to the issuing authority for a preliminary hearing.

2) An originally unrepresented defendant initially waives the right to preliminary hearing and later, presumably after representation is obtained, requests such a hearing. It appears that these cases are being remanded to the issuing authority to hold the preliminary hearing as a matter of course.

3) In cases in which summary offenses are joined with misdemeanor and felony charges, and, pursuant to Rule 561, the district attorney withdraws all the misdemeanor and/or felony charges prior to the filing of the information, leaving only summary offenses, the district attorney remands the case, without any court involvement, to the issuing authority for disposition of the summary offenses.

While the specifics of each of the rules changes for these scenarios are addressed separately below, the gen-

² This policy has been set forth specifically in several of the Committee's Recommendations adopted by the Court. For example, it may be found in the *Final Reports* to Recommendation 3 of 2003 (292 Criminal Procedural Rules Doc. 2, February 28, 2003, see 33 Pa.B. 1324), and Recommendation 5 of 2006, (342 Criminal Procedural Rules Doc. 2, see 36 Pa.B. 1385). There is also the above-mentioned then-Chief Justice Cappy's letter of September 28, 2006 to all President Judges emphasizing this policy. Despite these clear statements, the Committee continued to receive reports from Clerks of Courts and the AOPC automation staff that common pleas judges still are remanding in many cases which clearly should remain in the court of common pleas.

eral concept of the changes is that, once a case has been transferred from the issuing authority to the court of common pleas, the cases must remain at the court of common pleas for further proceedings.

There are several reasons for the strong policy against remanding cases. First, there is the question of jurisdiction; once a case has moved from the issuing authority, the power of the issuing authority to hear the case comes into question. Second, any time a case moves from one level of court to another, there will be delays and complications that result from the physical requirements of the transfer.

II. Discussion of Proposed Amendments

1. NEI

The first remand situation occurs in cases declared "NEI," where the defendant never had a preliminary hearing, and is then apprehended before the filing of the information occurs pursuant to Rule 565(A).

"NEI," an abbreviation for the phrase "*non est inventus*," is the procedure used in some counties when a warrant has been issued for the defendant's arrest, the defendant cannot be found, and the case is transferred to the common pleas court for further proceedings. While the terminology is traditional, there is no written authority in the rules or statutes for the practice.

Presently, the practice is used in a limited number of counties to ensure that warrants initially issued by magisterial district judges are placed on law enforcement computer systems such as National Criminal Information Center (NCIC) system and the Commonwealth Law Enforcement Assistance Network (CLEAN). Another reason for its use is to transfer the warrant to a central fugitive unit at the county level.

The Court has approved the abolition of the practice of NEI, believing that there is no justification for the transfer of jurisdiction at this stage in the proceedings for essentially administrative law enforcement purposes. Currently, there is nothing to prevent the entry of issuing authority warrants on law enforcement systems such as CLEAN and NCIC except limited manpower. Additionally, with advances in systems technology, issuing authority warrant information will soon be routinely added to these systems via Magisterial District Justice System feeds to law enforcement networks. Furthermore, there is nothing to prevent a county from adopting a policy of providing all issuing authority warrants to a centralized fugitive unit upon their issuance.

Therefore, a new paragraph (C) is added to Rule 515 that abolishes the practice of transferring "NEI" cases to the court of common pleas solely on the basis of the defendant being a fugitive. Since these types of cases will no longer be transferred to the court of common pleas, upon apprehension, the case still will be within the jurisdiction of the issuing authority and will not need to be remanded.

2. Remand as Remedy for Waived Preliminary Hearing

The second remand scenario arises when an originally unrepresented defendant initially waives the right to have a preliminary hearing and later, presumably after representation is obtained, requests such a hearing. The Committee received reports that these requests are being granted as a matter of course despite appropriate waiver colloquies having been conducted.

The Court has concluded that, ordinarily, there is no need to remand for a preliminary hearing in these

situations; rather, if it is determined that the defendant should be granted a preliminary hearing, the preliminary hearing should be held in the court of common pleas. The one exception to this "no remands" policy is when all the parties, with the consent of the court, agree to a return of the case to the magisterial district judge. The Committee had received several publication responses arguing for this exception. The majority of the Committee members, after an extensive debate, ultimately concluded that it makes sense to carve out this limited exception. The Committee considered the suggestion that such an exception would emasculate the provision since the parties will always agree and the court will always consent to have the case returned to the issuing authority. The Court has concluded that this dire prediction is unlikely, believing that the requirement that all parties and the court must agree to the remand would limit its use to appropriate cases.

Accordingly, Rule 541(D) is amended to provide that, after the defendant has waived the preliminary hearing and the case is held for court, there are no remands from common pleas court to the magisterial district judge for a preliminary hearing absent an agreement of the parties with the consent of the common pleas judge. Also, a new paragraph is added to Rule 543 to emphasize further the "no remands" policy.

3. Withdrawal of felony/misdemeanor prior to information.

The third circumstance in which cases are being remanded from common pleas to the issuing authority is cases in which the summary offense has been joined with misdemeanor or felony charges, and, pursuant to Rule 561, the Commonwealth withdraws all the misdemeanor and/or felony charges, leaving only summary offenses. In some instances, the district attorney "remands" the case, without any court involvement, to the issuing authority for disposition of the summary offenses. Similarly, pursuant to Rule 589, when the misdemeanor and felony charges are dismissed and the Commonwealth does not appeal the dismissal, in some instances, the court will remand the summary offenses to the magisterial district judge for disposition.

The Court has concluded that there is no reason why these types of cases should be remanded. Since the case has gone up as a court case, the case remains a court case, and should be disposed of in common pleas court. Therefore, Rules 561 and 589 have been amended to provide that summary charges must be handled in common pleas court when the attorney for the Commonwealth decides to withdraw all non-summary charges and not to file an information.

Several publication comments were received that suggested that a complete ban on remands in this situation when only the summary offenses remain creates a problem in cases in which the defendant is on state parole and charged with a summary offense. The Pennsylvania Board of Probation and Parole (PBPP) interpreted the Parole Act, 61 P. S. § 331.1 *et seq.*, as differentiating between convictions in a court of record and those in a magistrate's court, with the former resulting in a revocation of a defendant's street time. On the other hand, the Board would not count a summary conviction at common pleas as a conviction by a court of record if the common pleas judge were declared to have been sitting as a magistrate but only when that declaration is made by the president judge. The Committee considered adding a provision to the *Comments* to Rules 561 and 589 explaining that for purposes of 61 P. S. § 331.21a(a), the common

pleas court is not a court of record when disposing of summary offenses and 3rd degree misdemeanors. However, the Committee ultimately rejected this suggestion, believing that the relative rarity of this problem should not be the basis for such a broad interpretation to be added to the rules. Subsequently, the case of *Jackson v. Pennsylvania Bd. of Probation and Parole*, 951 A.2d 1238 (Pa.Cmwlth. 2008), which determined that the Parole Board's interpretation is incorrect, appears to have addressed this concern.

4. Applicability to the Philadelphia Municipal Court

Following the publication of the proposed rule changes, the Committee considered in detail whether the proposal should be made specifically applicable to the Philadelphia Special Courts. Rule 1000 provides that, absent a specific rule applicable to practice in the Special Courts or local rule, the general rules of procedure would apply. The Committee was concerned that the unique requirements of the Philadelphia Special Court would be adversely impacted by a casual application of these changes. The Committee therefore discussed this matter with representatives of the Municipal Court and the Traffic Court and reviewed their procedures regarding the practice of having cases remanded from the Philadelphia Court of Common Pleas.

In the case of the Municipal Court, it was determined that there are no reasons why this clarification of the "no-remands" policy should not be stated to be applicable to appeals from the Municipal Court. Therefore, the Rule 1002 *Comment* is revised to state that summary appeals shall not be remanded to the Municipal Court.

Additionally, Rule 1010 is amended to clarify that the procedures in an appeal from the Municipal Court where the defendant subsequently fails to appear for the trial *de novo* or withdraws the appeal are consistent with the procedures contained in Rule 462 and that the judgment of the Municipal Court may be entered in the Court of Common Pleas.

The Committee's examination of appeal practice from the Traffic Court raised additional issues that were addressed in a separate proposal that was developed in conjunction with representatives of the Traffic Court and the First Judicial District. This proposal was adopted by the Court on October 16, 2009.³

Order

Per Curiam:

³ See 39 Pa.B. 6327 (October 31, 2009).

in the *Atlantic Reporter* (Second Series Advance Sheets, Vol. 971, No. 1, June 26, 2009), and on the Supreme Court's web page, and an *Explanatory Report* to be published with this *Order*:

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that the modifications to Rules 312 and 800 of the Rules of Juvenile Court Procedure are approved as follows.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective immediately.

Annex A

TITLE 237. JUVENILE RULES

PART I. RULES

Subpart A. DELINQUENCY MATTERS

CHAPTER 3. PRE-ADJUDICATORY PROCEDURES

PART B. INTAKE AND INFORMAL ADJUSTMENT

Rule 312. Informal Adjustment.

A. *Participation.* At any time prior to the filing of a petition, the juvenile probation officer may informally adjust the allegation(s) if it appears:

- 1) an adjudication would not be in the best interest of the public and the juvenile;
- 2) the juvenile and the juvenile's guardian consent to informal adjustment with knowledge that consent is not obligatory; and
- 3) the admitted facts bring the case within the jurisdiction of the court.

B. *Completion.*

- 1) If the juvenile successfully completes the informal adjustment, the case shall be dismissed and prosecution is barred.
- 2) If the juvenile does not successfully complete the informal adjustment, a petition shall be filed.

Comment

[**Informal**] Pursuant to paragraph (A), informal adjustments may not occur after the filing of a petition. See Rule 800(12), which suspends 42 Pa.C.S. § 6323(a) only to the extent that it conflicts with this rule. See also *Commonwealth v. J.H.B.*, 760 A.2d 27 (Pa. Super. Ct. 2000). [See 42 Pa.C.S. § 6323(a).]

The juvenile probation officer or other agencies may give "counsel and advice" as to the informal adjustment. See 42 Pa.C.S. § 6323(b). "Counsel and advice" may include referral to a social service agency or other conditions as agreed to by the juvenile probation officer and the juvenile.

A juvenile's participation in an informal adjustment may not exceed six months, unless extended by order of the court for an additional period not to exceed three months. See 42 Pa.C.S. § 6323(c). Any incriminating statements made by the juvenile to the juvenile probation officer and in the discussions or conferences incident thereto are not to be used against the juvenile over objection in any criminal proceeding or hearing under the Juvenile Act. See 42 Pa.C.S. § 6323(e).

Prior to informally adjusting the written allegation, the juvenile probation officer is to give the victim an opportunity to comment. In addition, the victim is to be notified of the final outcome of the hearing. See Victim's Bill of Rights, 18 P. S. § 11.201 *et seq.*

If a petition is filed because the juvenile has not successfully completed the requirements of an informal adjustment, the procedures of Rule 330 are to be followed.

Official Note: Rule 312 adopted April 1, 2005, effective October 1, 2005. **Amended February 12, 2010, effective immediately.**

CHAPTER 8. SUSPENSIONS

Rule 800. Suspensions of Acts of Assembly.

This rule provides for the suspension of the following Acts of Assembly that apply to delinquency proceedings only:

1) The Act of November 21, 1990, P. L. 588, No. 138, § 1, 42 Pa.C.S. § 8934, which authorizes the sealing of search warrant affidavits, and which is implemented by Pa.R.Crim.P. Rule 211, through Pa.R.J.C.P. Rule 105, is suspended only insofar as the Act is inconsistent with Pa.R.Crim.P. Rules 205, 206, and 211.

2) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6335(c), which provides for the issuance of arrest warrants if the juvenile may abscond or may not attend or be brought to a hearing, is suspended only insofar as the Act is inconsistent with Rules 124, 140, and 364, which require a summoned person to fail to appear and the court to find that sufficient notice was given.

3) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6336(c), which provides that if a proceeding is not recorded, full minutes shall be kept by the court, is suspended only insofar as the Act is inconsistent with Rule 127(A), which requires all proceedings to be recorded, except for detention hearings.

4) The Public Defender Act, Act of December 2, 1968, P. L. 1144, No. 358, § 1 *et seq.* as amended through Act of December 10, 1974, P. L. 830, No. 277, § 1, 16 P. S. 9960.1 *et seq.*, which requires the Public Defender to represent all juveniles who for lack of sufficient funds are unable to employ counsel is suspended only insofar as the Act is inconsistent with Rules 150 and 151, which requires separate counsel if there is a conflict of interest.

5) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6337, which provides that counsel must be provided unless the guardian is present and waives counsel for the juvenile, is suspended only insofar as the Act is inconsistent with Rule 152, which does not allow a guardian to waive the juvenile's right to counsel.

6) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6305(b), which provides that the court may direct hearings in any case or class or cases be conducted by the master, is suspended only insofar as the Act is inconsistent with Rule 187, which allows masters to hear only specific classes of cases.

7) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6321, which provides for commencement of a proceeding by the filing of a petition, is suspended only insofar as the Act is inconsistent with Rule 200, which provides the submission of a written allegation shall commence a proceeding.

8) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6303(b), which provides that a district judge or judge of the minor judiciary may not detain a juvenile, is suspended only insofar as the Act is inconsistent with Rule 210, which allows Magisterial District Judges to issue an arrest warrant, which may lead to detention in limited circumstances.

9) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6334, which provides that any person may bring a petition, is suspended only insofar as the Act is inconsistent with Rules 231, 233, and 330, which provide for a person other than a law enforcement officer to submit a private written allegation to the juvenile probation office or an attorney for the Commonwealth, if elected for approval; and that only a juvenile probation officer or attorney for the Commonwealth may file a petition.

10) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6304(a)(2), which provides that probation officers may receive and examine complaints for the purposes of commencing proceedings, is suspended only insofar as the Act is inconsistent with Rules 231 and 330, which provide that the District Attorney may file a certification that requires an attorney for the Commonwealth to initially receive and approve written allegations and petitions.

11) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6331, which provides for the filing of a petition with the court within twenty four hours or the next business day of the admission of the juvenile to detention or shelter care, is suspended only insofar as the Act is inconsistent with the filing of a petition within twenty-four hours or the next business day from the detention hearing if the juvenile is detained under Rule 242.

12) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6323(a)(2), which provides that a delinquent child may be referred for an informal adjustment by a juvenile probation officer, is suspended only insofar as the Act is inconsistent with Rule 312, which provides that only an alleged delinquent child may be referred for an informal adjustment because the filing of informal adjustment shall occur prior to the filing of a petition.

13) Section 5720 of the Wiretapping and Electronic Surveillance Control Act, Act of October 4, 1978, P. L. 831, No. 164, 18 Pa.C.S. § 5720, is suspended as inconsistent with Rule 340 only insofar as the section may delay disclosure to a juvenile seeking discovery under Rule 340(B)(6); and Section 5721(b) of the Act, 18 Pa.C.S. § 5721(b), is suspended only insofar as the time frame for making a motion to suppress is concerned, as inconsistent with Rules 347 and 350.

[13] 14) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6340(c), which provides consent decree shall remain in force for six months unless the child is discharged sooner by probation services with the approval of the court, is suspended only insofar as the Act is inconsistent with the requirement of Rule 373 that a motion for early discharge is to be made to the court.

[14] 15) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6335, which provides for a hearing within ten days of the juvenile's detention unless the exceptions of (a)(1) & (2) or (f) are met, is suspended only insofar as the Act is inconsistent with Rule 391, which provides for an additional ten days of detention if a notice of intent for transfer to criminal proceedings has been filed.

[15] 16) The Act of July 9, 1976, P. L. 586, No. 142, § 2, 42 Pa.C.S. § 6353(a), which requires dispositional review hearings to be held at least every nine months, is suspended only insofar as it is inconsistent with the requirement of Rule 610, which requires dispositional review hearings to be held at least every six months when a juvenile is removed from the home.

INTRODUCTION

The Supreme Court of Pennsylvania has adopted the proposed changes to Rules 312 and 800 with this Recommendation. The changes are effective immediately.

EXPLANATORY REPORT FEBRUARY 2010

The additions to the *Comment* of Rule 312 and Rule 800 (12) clarify that an informal adjustment may only occur prior to the filing of a petition. An informal adjustment is a diversionary process used to dispose of cases that should not come before the court. If a case should go to court, a petition is filed and the normal procedures of a case will follow.

As drafted, the Juvenile Act provides that a delinquent child may be referred for an informal adjustment by a juvenile probation officer. 42 Pa.C.S. § 6323(a)(2). A child is not delinquent until there has been an adjudication of delinquency. If a child is not delinquent until after the adjudication of delinquency, then an informal adjustment would occur after that determination. However, this is not the intent of the diversionary process or an informal adjustment.

The Juvenile Act at 42 Pa.C.S. § 6323(a)(2) is suspended to clarify that **alleged** delinquents may be referred for an informal adjustment. Once a petition is filed, informal adjustment is precluded as provided in Rule 312. *See* Rule 800(12).

Title 58—RECREATION

PENNSYLVANIA GAMING CONTROL BOARD
[58 PA. CODE CHS. 435a, 461a,
463a, 465a AND 501a]

Employees; Slot Machines; Accounting and Internal Controls; and Compulsive and Problem Gambling

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and specific authority in 4 Pa.C.S. §§ 1207(3), (5) and (7), 1321 and 1322 (relating to regulatory authority of board; additional licenses and permits and approval of agreements; and slot machine accounting controls and audits), amends Chapters 435a, 461a, 463a, 465a and 501a to read as set forth in Annex A.

Purpose of the Final-Form Rulemaking

This final-form rulemaking contains a number of amendments that are designed to clarify various reporting requirements, add some additional flexibility and conform the Board's regulations to industry practice.

Explanation of Amendments to Chapters 435a, 461a, 463a, 465a and 501a

In § 435a.1 (relating to general provisions), subsection (i) has been amended by adding the phrase "of a slot machine licensee" after "employee" to clarify that the bar on wagering at a licensed facility does not apply to employees of vendors who work at the licensed facility if the employees are not required to obtain a gaming permit or nongaming registration.

Section 461a.4(m) (relating to submission for testing and approval) has been amended to require that the notification of any known or suspected defect or malfunction in any slot machine or associated equipment be made to the Bureau of Gaming Laboratory Operations and the casino compliance representatives at the licensed facility instead of to the "Board." Similarly, the Bureau of Gaming Laboratory Operations, not the Board, will provide the direction to the slot machine licensee regarding the continued operation of the slot machine or associated equipment.

A similar amendment has been made in § 461a.8(o) (relating to gaming vouchers) which will require that the notification of any malfunction in a gaming voucher system be provided to the Bureau of Gaming Laboratory Operations and the casino compliance representatives at the licensed facility within 24 hours of the malfunction instead of being provided to the Board.

Sections 461a.7(y), 461a.10(b) and 461a.22(b) (relating to slot machine minimum design standards; automated gaming voucher and coupon redemption machines; and automated jackpot payout machines) have been amended to allow the Bureau of Gaming Operations to approve alternate sizes for the signs that are required on the top and front of these machines. This will allow slot machine licensees some additional flexibility concerning the signs to accommodate the particular location or design of these machines.

In § 461a.25 (relating to disputes), the phrase "concerning the payment of alleged winnings" has been deleted to

broaden the application of this provision to any dispute between a patron and a slot machine licensee. This change recognizes the fact that the Board's casino compliance representatives work with patrons and the slot machine licensees to resolve a wide range of potential disputes.

Section 463a.5(a) (relating to slot machine master lists), has been amended to replace "Office" with "Bureau" to reflect the name change from the Office of Gaming Operations to the Bureau of Gaming Operations.

In § 465a.2 (relating to internal control systems and audit protocols), a new subsection (a)(9) has been added which requires slot machine licensees to include procedures to ensure that their employees comply with Chapter 435a (relating to employees) in their internal controls. This provision has been added to clarify that the slot machine licensees are expected to be proactive about having their employees comply with the various reporting requirements.

Section 465a.8(c) (relating to licensed facility) has been amended allow the Bureau of Gaming Operations to designate addition doors which must be alarmed instead of just the emergency exits from the gaming floor. Because the design of each licensed facility is unique, this is needed to ensure both patron safety and for security reasons.

In § 465a.9 (relating to surveillance system; surveillance department control; surveillance department restriction), subsection (c)(5)(iv) has been amended to require slot machine licensees to include photographs of individuals who are on the self-exclusion list in surveillance system's photo libraries. Most, if not all, of the slot machine licensees already do this so that their employees will be able to identify self-excluded individuals and prevent them from engaging in any gaming activities. Additionally, subsection (e)(7) has been amended to require that surveillance recordings be made of the entrances and exits to the main bank, vault and satellite cages in addition to the gaming floor, cashiers' cage and count room to monitor access to these sensitive areas.

Section 465a.15(c) (relating to cashiers' cage) has been revised to incorporate provisions for the use of computerized access systems for the double entry and exit system. As this technology has improved, more slot machine licensees are shifting away from keys and implementing electronic access systems.

In § 465a.16 (relating to accounting controls for the cashiers' cage), three changes have been made. First, the term "slot cashier" has been replaced with "cage cashier" in various subsections, since cage cashier is the more generally used term. Next, the issuance of gaming vouchers has been added as a function of cage cashiers. At some of the licensed facilities, patrons may request the cage cashier to issue a gaming voucher instead of cash as a matter of convenience. Lastly, the responsibility for the issuance, receipt and reconciliation of cash and gaming vouchers to and from automated bill breaker, automated gaming voucher and coupon redemption and automated jackpot payout machines, and preparation of related documentation has been moved from the list of responsibilities of cage cashiers to the list of responsibilities of main bank cashiers. This reflects current practice in the licensed facilities.

In § 465a.31 (relating to gaming day), the general language stating that the gaming day will be uniform and determined by the Board has been replaced with the actual time being used, which is 6 a.m. to 5:59.59 a.m.

Section 501a.5(a)(2) (relating to signage requirements) has been amended by replacing the requirement that the gambling problem toll free assistance message be posted within 50 feet of each ATM, cash dispensing or change machine in each facility with the requirement that the message be above or below the cash dispensing opening on all ATMs, automated gaming voucher and coupon redemption machines and any other machine that dispenses cash to patrons in the licensed facility. Having the information posted within 50 feet was not an effective way to provide this information to patrons.

Comment and Response Summary

Notice of proposed rulemaking was published at 39 Pa.B. 5018 (August 22, 2009).

The Board received comments from International Game Technology and Downs Racing, L.P. (Downs) during the public comment period. On October 21, 2009, the Independent Regulatory Review Commission (IRRC) also filed comments on the proposed rulemaking. All of these comments were reviewed by the Board and are discussed in detail in the following paragraphs.

Concerning the amendment to § 461a.7(y), IRRC stated that it is unclear how the approval of other sizes of the labels for slot machines would be obtained from the Bureau of Gaming Operations and asked if the slot machine licensee would have to seek a waiver under § 461a.24 (relating to waivers). IRRC had the same questions related to the amendments to §§ 461a.10(b) and 461a.22(b).

The placement of the labels on slot machines and other equipment is done as part of the opening process for a licensed facility or when a major reconfiguration of the licensed facility occurs. The Bureau of Gaming Operations will verify that the labels are positioned so that they can be read by the surveillance department. In some cases however, because of the particular placement or the design of a slot machine, it is not possible to use labels that meet the minimum size requirements specified in the regulations. In these situations, the Bureau of Gaming Operations will work with the slot machine licensee to use a smaller label as long as the label is clearly visible to the surveillance department. The slot machine licensee is not required to file a waiver request under § 461a.24 or any other paperwork; verbal approval is given by the Board personnel who are onsite working with the slot machine licensee. Because this informal process has worked well, the Board does not see a need to add additional procedural language to these sections.

In § 465a.2, IRRC and Downs questioned the need for and reasonableness of the new requirement in subsection (a)(9). Additionally, Downs stated that the new requirement in subsection (a)(9) represents a shifting of the Board's responsibility to oversee employee reporting to the slot machine licensee and will create additional paperwork.

Under Chapter 435a, employees have a continuing responsibility to report any event that might have an impact on their suitability to hold a permit or registration. This amendment does not alter that requirement or shift that responsibility to the slot machine licensees. However, slot machine licensees are expected to have procedures in place (that is, internal controls) to ensure that their employees are in compliance with all of the Board's regulations. For example, most slot machine licensees include materials relating to employee's responsibilities in their employee orientation and training pro-

grams, employee handbooks, and the like. Similarly, slot machine licensees are already required to inform the Board about inappropriate behavior by their employees. All this amendment does is require slot machine licensees to tell the Board what they are doing, as part of their internal controls, to ensure that their employees are complying with Chapter 435a.

In § 465a.8, IRRC stated that it is unclear how the designation of additional doors that will be required to be alarmed will occur.

As part of the opening process, personnel from the Bureau of Gaming Operations review all aspects of the licensed facility to ensure patron safety and the integrity of gaming operations. It is during this inspection process that the Bureau of Gaming Operations may identify additional doors that should be alarmed. The Bureau of Gaming Operations will then work directly with the slot machine licensee to make the necessary change prior to opening, or it will be included on the written deficiency list that is given to the slot machine licensee at the opening. The slot machine licensee will then have to cure the deficiency within a specified time period. Again, because issues are resolved as part of the opening process, the Board does not believe additional procedural requirements are needed in the regulation.

In § 465a.9, IRRC and Downs stated that subsection (c)(5)(iv) is not clear as to whether or not the photos of individuals who are on the self-exclusion list should be included in the same photo library as all current employees of the slot machine licensee, or if they should be in a separate photo library. Downs suggested that the photos of self-excluded individuals should be kept in a separate photo library from the current employee photo library. Additionally, Downs asked if the additional entrances listed in subsection (e)(7) must be covered by dedicated fixed cameras.

The staff agrees with Downs' suggestion that the photos of self-excluded individuals should be in a separate database and has amended the final-form regulation to reflect this change. This will make it easier for slot machine licensees' personnel to review or search for photos of self-excluded individuals.

Concerning the question of what type of camera should be used for surveillance of the main bank, vault and satellite cages, the Board's sole concern is that continuous coverage of these areas be provided. If the slot machine licensee can use one camera to cover two entrances or exits, that will be sufficient to meet the Board's continuous coverage requirement.

Additional Revisions

In § 465a.15, the Board has made additional revisions to subsection (c). More specifically, subsection (c)(2)(ii) has been amended to allow the security or surveillance departments to have control of the second door of a mantrap, so long as whoever controls the access to the first door does not control the access to the second door. This will give slot machine licensees some additional flexibility, while maintaining the required segregation of duties. Subsection (c)(3) has been revised to recognize the fact that more licensed facilities are using computerized access systems instead of keyed locks. Additionally, the existing and proposed language pertaining to computerized access systems has been deleted and replaced by new provisions in paragraph (4). This will consolidate the provisions related to computerized access systems and provide slot machine licensees some additional flexibility to tailor their systems to their unique physical layout.

Affected Parties

Slot machine licensees will be required to comply with the revised requirements contained in this rulemaking.

Fiscal Impact

Commonwealth

This final-form rulemaking will have no fiscal impact on the Board or other Commonwealth agencies.

Political Subdivisions

This final-form rulemaking will have no fiscal impact on political subdivisions of the Commonwealth.

Private Sector

Slot machine licensees may incur some slight costs to comply with the revised requirements. However, because most of these revisions simply clarify existing requirements or reflect current practices, the Board does not anticipate that slot machine licensees will experience any significant expense.

General Public

This final-form rulemaking will have no fiscal impact on the general public.

Paperwork Requirements

This final-form rulemaking will not create or eliminate any paperwork requirements for slot machine licensees or the Board.

Effective Date

This final-form rulemaking will become effective upon publication in the *Pennsylvania Bulletin*.

Contact Person

The contact person for questions about this final-form rulemaking is Richard Sandusky, Director of Regulatory Review, (717) 214-8111.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 10, 2009, the Board submitted a copy of the proposed rulemaking, published at 39 Pa.B. 5018 (August 22, 2009) and a copy of the Regulatory Analysis Form to IRRC and to the House Gaming Oversight Committee and the Senate Community, Economic and Recreational Development Committee (Committees).

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Board has considered all comments received from IRRC, the Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), the final-form rulemaking was deemed approved by the Committees on January 20, 2010. Under section 5.1(e) of the Regulatory Review Act, IRRC met on January 21, 2010, and approved the final-form rulemaking.

Findings

The Board finds that:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial

area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first.

Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue Plan Approval No. 58-329-008 to Tennessee Gas Pipeline Company, 1001 Louisiana Street, Houston, TX 77002, for their facility located in Clifford Township, Susquehanna County. The facility currently has Title V Permit No. 58-00001. This plan approval will be incorporated into the Title V operating permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan Approval No. 58-329-008 is for the construction and operation of three (3) natural gas fired simple cycle combustion turbines and an emergency generator at the facility located in Clifford Township, Susquehanna County. These new turbines and generator will replace existing three recuperated turbines and generator operating at the facility under Title V operating permit No. 58-00001. These three combustion turbines will be used to move gas through the pipeline system. Natural gas will be used as a fuel for the turbines and generator.

The proposed sources are subject to the various state and federal New Source Performance Standard (NSPS) requirements.

A review of the information submitted by the Tennessee Gas Pipeline Co. indicates that the proposed project will meet all applicable State and Federal NSPS air quality

requirements. Based upon these findings, the Department plans to approve the application and issue a permit for the facility.

The following table summarizes the potential emissions from maximum operation of the turbines and generator according to the application submitted and the Department's own analysis:

<i>Pollutant</i>	<i>Total Project (TPY)</i>
NOx	54.45
CO	71.60
VOC	19.21
SO ₂	2.00
PM/PM ₁₀	3.90
Formaldehyde	0.89
Total HAPs	1.01

The emissions of these pollutants are within all applicable emissions limitations and will not cause an exceedance of the National Ambient Air Quality Standards.

To assure compliance with the applicable standards, the Department will place conditions in the plan approval.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Any person(s) wishing to provide the Department with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the following:

Name, address and telephone number of the person submitting the comments.

Identification of the proposed permit No. 58-329-008.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where the Department determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, P. E., Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, Phone 570-826-2511 within 30 days after publication date.

**COAL AND NONCOAL MINING
ACTIVITY APPLICATIONS**

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401

Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department

at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the

request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals

Description of Proposed Activity: Permit issued authorizing the discharge from a proposed 0.4 MGD Water Tower Square Gas Well Wastewater Processing Facility. This facility proposes to process wastewater generated from the drilling, development and use of natural gas wells in north central Pennsylvania and discharge the treated effluent.

The receiving stream, West Branch Susquehanna River, is in the State Water Plan watershed 10B and is classified for Warm Water Fishes and Migratory Fishes. The nearest downstream public water supply intake for Pennsylvania-American Water Company is located on the West Branch Susquehanna River and is 28.5 miles below the point of discharge.

The proposed effluent limits for Outfall 001 are based on a design flow of 0.4 MGD.

Description of Proposed Activity: An existing hog finishing operation that was previously operating under a General Permit.

The receiving stream, Jacks Creek, is in the State Water Plan watershed 12A and is classified for: CWF.

The proposed effluent limits for the operation/activity include: Except for the chronic or catastrophic rainfall events defined as over the 25-year/24-hour rain storms, the CAFO permit is a non-discharge NPDES permit. Where applicable, compliance with 40 CFR Federal effluent limitation guidelines is required. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**UNDER ACT 2, 1995****PREAMBLE 2**

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental

media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Interstate Pollution Transport Reduction; Final 2009 Ozone Season NOx Emission Limits for Nonelectric Generating Units

The Department of Environmental Protection (Department) is providing notice for the final nonelectric generating unit (non-EGU) 2009 ozone season NOx emission limitations established in accordance with 25 Pa. Code § 145.8(d) (relating to transition to the Clean Air Interstate Rule (CAIR) NOx trading programs).

A public comment period was held from October 10 through October 26, 2009, on these proposed limits. The public comment period offered the public an opportunity to review the information and data as a way to ensure that the information was correct. One comment was received. No changes to the emission limitations were made.

The commentator commented on the current Pennsylvania CAIR and on future rules that might replace CAIR. The commentator suggested that the Department reconsider the implementation of the non-EGU budget program by including non-EGUs in the CAIR trading program, and revisit the issue during development of EPA's CAIR replacement rule. The comment is beyond the scope of the proposed non-EGU 2009 ozone season NOx emission limitations. The Department addressed the issue in the preamble of Pennsylvania's 2008 CAIR rulemaking. The Department will review EPA's CAIR replacement rule when it is promulgated and will address policy issues at that time.

In this notice, the NOx emissions cap provides 181 tons of NOx emissions for non-EGUs and the other units that need to address their emissions through accounting adjustments, including units that previously participated in the NOx Budget Trading Program; emissions from these units were below the 25-ton exemption threshold. Adjustments were also made for the permanent retirement of NOx allowances due to generation of emission reduction credits. The Department will also use a portion of the 181 tons of the budgeted NOx emissions, if necessary, to address mistakes or miscalculations. This year, the Department is using 121 tons of the 181 tons of NOx for account adjustments, leaving 60 tons available for any additional adjustments at the end of the control period.

As proposed, the Department made accounting adjustments for the following facilities:

Retired Units: Naval Surface Warfare Division Unit 98; Shenango Unit Nos. 6 and 9 (the generation of emission offsets for small non-NOx Budget Trading Program units resulted in a permanent NOx accounting adjustment of 45 tons).

Exempt Units: Each of the following units has a 25-ton NOx permit limit: Armagh Compressor Station (Unit 31301); Entriken Compressor Station (Unit 31601); and the Naval Surface Warfare Division (Unit 100). The Naval Surface Warfare Division (Unit 99) has a 1-ton NOx permit limit. All of these 25-ton exempt status units account for a total adjustment of 76 tons of NOx emissions.

Units subject to the requirements in 25 Pa. Code § 145.8 are required to meet the monitoring and reporting requirements of the EPA's CAIR, found in 40 CFR Part 96, Subpart HHHH (relating to monitoring and reporting) and maintain general accounts and account representatives under 40 CFR Part 96, Subparts BBBB and FFFF (relating to CAIR designated representative for CAIR NOx ozone season sources; and CAIR NOx ozone season allowance tracking system). The "Non-EGU 2009 Ozone Season NOx Limits" table that follows lists the following: facility name, ORIS code, unit ID for each

non-EGU unit, operating year, heat input for 2008 ozone season, calculated 2009 rate and 2009 ozone season limit. A copy of this table can also be found at the Department's Air Quality web site at www.depweb.state.pa.us (DEP keyword "Air Quality").

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Questions concerning this notice should be directed to Randy Bordner, Chief, Stationary Source Section, Bureau of Air Quality to ranbordner@state.pa.us or at (717) 772-3921. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Nutrient and Sediment Reduction Credit Trading Program; Notice of Actions

The Department of Environmental Protection (Department) hereby provides notice of the following actions under the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). These actions were taken under The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Final Trading of Nutrient and Sediment Reduction Credits—Policy and Guidelines (Policy) (DEP ID# 392-0900-001). The Policy calls for a transparent system of credit reviews and approvals.

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board. Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

For further information about these certifications or the Trading Program, contact Ann Smith, Water Planning Office, Department of Environmental Protection, P. O. Box 2063, Harrisburg, PA 17105-2063, (717) 787-4726, annsmith@state.pa.us or visit the Department's web site at www.depweb.state.pa.us (DEP Keywords: "Nutrient Trading").

The following proposals have been certified by the Department. These certifications are considered final actions of the Department.

EnergyWorks BioPower, LLC (370 Spicer Road, Gettysburg, PA 17325). This certification is applicable to the operation of the Gettysburg Energy and Nutrient Recovery Facility that, as described, will process poultry manure from a farm in Adams County in an enclosed facility to generate renewable energy, nutrient reductions and an ash by-product that can be used for fertilizer or for a feed supplement. This certification includes a verification plan and authorizes the generation of nitrogen and phosphorous credits. Notice of the proposal for this certification was published for comment in the *Pennsylvania Bulletin* at 39 Pa.B. 2749 (May 30, 2009).

Lycoming County Conservation District (542 County Farm Road, Suite 202, Montoursville, PA 17754). This certification is applicable to the export of poultry litter from the Chesapeake Bay Watershed for Client WhCWaT0001. This certification includes a verification plan and authorizes the generation of nitrogen and phosphorous credits. Notice of the proposal for this certification was published for comment in the *Pennsylvania Bulletin* at 39 Pa.B. 4177 (July 18, 2009).

Nutrient and Sediment Reduction Credit Trading Program; Notice of Proposals

The Department of Environmental Protection (Department) hereby provides notice of the following proposals that have been submitted under the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). These proposals were submitted under The Clean Streams Law (35 P. S. §§ 691.1—691.1001), and the Final Trading of Nutrient and Sediment Reduction Credits—Policy and Guidelines (Policy) (DEP ID# 392-0900-001). The Policy calls for a transparent system of credit reviews and approvals.

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

The proposals described in this notice relates to the submitted proposals through February 12, 2010.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed: (1) the credit or offset proposal must be approved; (2) it must be verified; and (3) it must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of proposed or implemented activities to generate credits (in some cases the person generating the credits is not permitted to transfer them to another person, in which case they are called “offsets”). Certifications are based on at least: (1) a credit or offset proposal describing the qualifying activities that will reduce the nutrient loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying nutrient reduction activities have taken place. The proposals described in this Notice apply to the Chesapeake Bay Watershed.

Once the credits or offsets are certified, they must be verified. Verification means implementation of the verification plan contained in a certification, as required by the Department. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying nutrient reduction activities have taken place for the applicable compliance year.

The credits or offsets also need to be registered by the Department before they can be used to meet effluent limits in an NPDES permit. Registration occurs only after credits or offsets have been certified and verified and a trading contract for credits has been submitted to the Department. For the Chesapeake Bay Watershed, the Department will register credits on an annual basis for use during the compliance year in which the qualifying nutrient reduction activities have taken place and will provide such credits with an annual registry number for reporting and tracking purposes.

The Department has received 87 proposals that have been submitted for review to generate nutrient reduction credits in the Chesapeake Bay Watershed. Of those, 57

have been approved, one has been withdrawn and the remaining need additional clarification prior to qualifying for certification.

The following new proposals are being reviewed by the Department. The Department will accept written comments on these proposed projects for 30 days.

DEPARTMENT OF LABOR AND INDUSTRY

Public Comment on the Proposed Federal Fiscal Year 2011 Combined Agency State Plan Attachments; Times Announced for Public Comment

The Department of Labor and Industry, Office of Vocational Rehabilitation (OVR), under the Rehabilitation Act of 1973, as amended in the Workforce Investment Act of 1998, announces a period of public comment on its proposed Federal Fiscal Year (FFY) 2011 Combined Agency State Plan Attachments. The FFY 2011 begins on October 1, 2010, and ends on September 30, 2011.

The purpose of this period of comment is to provide individuals, advocates and other interested parties and/or organizations opportunities to present their views and recommendations regarding Vocational Rehabilitation (VR) services for persons with disabilities. In this Commonwealth, these services are provided by OVR through a network of 21 District Offices and the Hiram G. Andrews Center (HGAC).

OVR is required, under law, to develop and implement a Combined Agency State Plan, which must be reviewed and, as necessary, revised annually when there are changes to its VR program. These revisions take the form of updates to existing Attachments. The Plan currently in effect is for FFY 2010 and is a compliance document now on file with the Commissioner, Rehabilitation Services Administration and United States Department of Education. It is the blueprint for the provision of VR services to persons with disabilities living in this Commonwealth.

This period of public comment allows interested parties an opportunity to provide input regarding the Commonwealth's public VR program. Specifically, comment is being solicited regarding the following State Plan Attachments: input and recommendations of the Pennsylvania Rehabilitation Council; comprehensive system of personnel development; annual estimate of individuals to be served and costs of services; OVR's goals and priorities; order of selection; distribution of Supported Employment Funds; and innovation and expansion activities. In addition to the Vocational Rehabilitation State Plan, the agency's Bureau of Blindness and Visual Services will accept public comment on the Business Enterprise Program, Specialized Services for Children and Adults and Independent Living Services for older persons who are blind, which are unique to their funding.

Following is the pertinent information for the upcoming public meetings. Meeting sites are accessible and interpreters for people who are deaf or hard of hearing will be present at each public meeting. For additional information, reasonable accommodation requests or alternative format requests, call the OVR District Office conducting the public meeting they wish to attend. If an individual or organization's representative is unable to attend a public meeting, but wishes to provide testimony, written comments may be mailed to the appropriate OVR District Office serving the area in which the individual/organization member resides. Written comments must be received by 5 p.m., Wednesday, April 14, 2010.

Individuals/organizations wishing to obtain a copy of the proposed FFY 2011 Combined Agency State Plan Attachments or other information should call the contact person listed for the appropriate OVR District Office serving their county's geographical area.

Copies of the approved FFY 2010 Combined Agency State Plan Attachments and the proposed FFY 2011 Combined Agency State Plan Attachments, will be available on the OVR web site, www.dli.state.pa.us, by using "Disability Services" as the Keyword.

DEPARTMENT OF STATE

Official Forms

The Department of State (Department), Corporation Bureau (Bureau) proposes to amend 19 Pa. Code Appendix B (relating to official forms), to read as set forth in Annex A.

A. Effective Date

The proposed amendment will be effective upon publication of the final-form in the *Pennsylvania Bulletin*.

B. Statutory Authority

The Department has the authority to promulgate Bureau sample forms and instructions under 15 Pa.C.S. § 133 (relating to powers of Department of State) (Associations Code). Section 133(a)(1) of the Associations Code, 15 Pa.C.S. § 133(a)(1), specifies that sample filing forms shall not be agency regulations and are therefore explicitly excluded from the requirements of section 612 of The Administrative Code of 1929 (71 P. S. § 232), and review under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506) and the Regulatory Review Act (71 P. S. §§ 745.1—745.15). Section 133(a)(1) of the Associations Code does, however, require that the forms and instructions be subject to the opportunity for public comments under section 201 of the July 31, 1968 (P. L. 769, No. 240) (45 P. S. § 1201) Commonwealth Documents Law.

C. Description of Proposed Revisions

Fictitious Name Amendment, Withdrawal, Cancellation
 (DSCB: 54-312-313)

This proposal revises one of the existing forms and instructions currently published in the *Pennsylvania Code*. The form (DSCB: 54-312-313) relates to Fictitious Name Amendment, Withdrawal or Cancellation. The Department has updated the form so that it better comports with 54 Pa.C.S. § 312 (relating to amendment). In light of the statement that the amendment, “without reference to any other filing, sets forth all information with respect to the fictitious name which would be required in an original filing under the Fictitious Names Act,” the second part box 6 of the previous form is unnecessary and has been omitted.

The Fictitious Name Amendment, Withdrawal, Cancellation form and instructions currently published in 19 Pa. Code is being deleted and replaced with the revised form set forth in Annex A. Even though Rule 2.10(a) of the *Pennsylvania Code* and *Bulletin Style Manual* recommends that forms be referenced in regulations rather than adopted in regulations, section 133 of the Associations Code (15 Pa.C.S. § 133) requires that the forms and instructions be published in the *Pennsylvania Code*.

Procedure for Continuation of Business Domestic Limited Partnership and Domestic Limited Liability Company
 (DSCB: 15-8103A/8103B)

This form is eliminated in its entirety. Section 8103 of the Associations Code (15 Pa.C.S. § 8103), to which the form relates, was repealed by act 34 of 2001 (P. L. 418). This section had permitted a limited partnership or limited liability company upon certain circumstances to reduce the vote of the limited partners and members to a majority in interest, but required that those entities wishing to take advantage of the section make a special filing with the Department. The General Association Act Amendments Act of 2001 repealed section 8103 because that act transferred the substance of the section to 15 Pa.C.S. §§ 8571 and 8971. The provisions in 15 Pa.C.S. §§ 8571 and 8971 that replaced section 8103 do not require a filing and instead provide that the default rule will be a vote by a majority in interest. Therefore, this form is eliminated.

D. Fiscal Impact

Although this proposal would have no measurable fiscal impact upon the Commonwealth, its political subdivisions, or the private sector, a formal fiscal analysis was not conducted because these forms are exempt from the requirements of section 612 of The Administrative Code of 1929.

E. Paperwork Requirements

This proposal would not create new paperwork.

F. Regulatory Review

Under section 133(a) of the Association Code, sample forms are exempt from the requirements of the Regulatory Review Act (71 P. S. §§ 745.1—745.15), but shall be subject to the opportunity of public comment requirement under section 201 of the act of July 31, 1968 (P. L. 769, No. 240).

G. Public Comment

Under section 133(a)(1) of the Association Code, which requires that publication of these forms be subject to the opportunity for public comment, the Department invites interested persons to submit written comments, suggestions or objections regarding this proposal to Martha H. Brown, Assistant Counsel, Department of State, 301 North Office Building, Harrisburg, PA 17120, within 30 days following publication of this notice in the *Pennsylvania Bulletin*. Reference Corporation Bureau—Official Forms when submitting comments.

Environmental Quality Board Regulation #7-448 (IRRC #2807)

Paper, Film and Foil Surface Coating Processes February 12, 2010

We submit for your consideration the following comments on the proposed rulemaking published in the November 7, 2009 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Environmental Quality Board to respond to all comments received from us or any other source.

Section 129.52b. Control of VOC emissions from paper, film and foil surface coating processes.—Clarity.

Subsections (d) and (e) require the coating operation to maintain certain records. However, they are unclear as to the format in which these records must be maintained. Also, will requests for submission of records by the Department under Subsection (e) be made orally or in writing? These items should be clarified in the final-form regulation.
