READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 255—LOCAL COURT RULES

ADAMS COUNTY

Amendment of Rules of Civil Procedure 1302 and 1303; Administrative Order No. 4 of 2013

Order of Court

And Now, this 12th day of February, 2013, the Court hereby *Orders* that Rules 1302 and 1303 of the Adams County Rules of Civil Procedure shall be amended as follows:

Rule 1302(b). Motion for Appointment. Service. Conflicts.

A. Any party to a case, after the pleadings are closed or an agreement to arbitrate has been filed, may request the appointment of a board of arbitrators by written motion. Included in the motion shall be the names of all attorneys who, to the movant's knowledge, may have a conflicting interest in the case. **A motion failing to contain this information will not be scheduled for hearing.** The motion shall have a proposed Order in the form prescribed by Local Rule 1303 attached to the front of the motion that shall provide spaces for the

names of the board members to be inserted when appointed by the Court. [**The motion shall be accompanied by two copies of the pleadings filed by the moving party, or by two copies of the agreement to refer the case to arbitration.**] If the parties believe the matter involves complex litigation the motion shall so state and the parties shall comply with Local Rule 1303(A)(2).

[**B. The party moving for the appointment of a board of arbitrators shall serve a copy of the motion on all other parties, or their counsel, before the motion is filed with the Prothonotary. Proof of service shall be filed with the motion.**

[**C. Notification of conflicts.** Upon receipt of a motion for the appointment of a board of arbitrators, the parties or their counsel shall notify the Court Administrator of the names of all the attorneys who may have a conflicting interest in the case.]

Rule 1302(c). [**Selection and Appointment of the Board.**] Distribution of Pleadings.

[**After a motion for the appointment of a board of arbitrators has been received by the Court, the Court Administrator shall select three eligible attorneys to serve on the board and present an Order for appointment to the President Judge or the Judge to whom the case is assigned. Unless otherwise indicated, the person named first in the Order appointing the board shall be the chair.**]

The original files may be acquired from the Prothonotary on the date of the hearing by the Chairman of the Board. Electronic copies of the pleadings shall be distributed to all members of the board by the Prothonotary via electronic distribution no earlier than forty-five (45) days prior to the scheduled hearing nor later than thirty (30) days prior to the scheduled hearing.

Note: See Adams County Rule of Judicial Administration No. 5.0 about removing papers from the Prothonotary's Office.

Rule 1302(d). [**Copies of Pleadings and Distribution of Pleadings.**] Arbitrators' Fees.

[**Upon receipt of the Order appointing a board of arbitrators, the other parties shall promptly provide to the Prothonotary's office two copies of all pleadings that they have filed in the case. The chair of the board of arbitrators shall receive the original file. The copies of the pleadings shall be distributed to the other members of the board by the Prothonotary.**

Note: See Adams County Rule of Judicial Administration No. 5.0 about removing papers from the Prothonotary's office.]

A. Fees paid to the arbitrators for their services shall be set by Administrative Order of the Court.

B. In the event that a case is settled, withdrawn or terminated within forty-five (45) days of a scheduled hearing date but before the hearing date, the board shall not be required to file a report and award. The board members shall be entitled, how-

ever, to one-half of the arbitration fees. In such instance, the Court Administrator, upon notice from the Prothonotary that a praecipe has been filed, shall certify the settlement, withdrawal or termination of the case to the Controller so that the said fees may be paid.

[Rule 1302(e). Arbitrators' Fees.

A. Fees paid to the arbitrators for their services shall be set by Administrative Order of the Court.

B. In the event that a case settled, withdrawn or terminated after the board of arbitrators has been sworn but before the case is scheduled for hearing, the board shall not be required to file a report and award. The board members shall be entitled, however, to one-half of the arbitration fees and the Prothonotary shall certify the settlement, withdrawal or termination of the case to the County Treasurer so that the said fees may be paid.]

Rule 1303. Hearing.

A. *Schedule.* [The chair of the board shall set the time, date and place of the arbitration hearing. A copy of the notice of the hearing shall be provided to the Court Administrator.]

1. The Court Calendar shall have at least two days in each month scheduled for arbitration hearings. Each hearing shall commence at either 8:15 a.m., 10:15 a.m., 12:30 p.m., or 2:30 p.m. Arbitration hearings shall be scheduled for one of the designated arbitration days by Court Administration. Unless by Order of the Court of Common Pleas of Adams County, no hearing shall be scheduled within 90 days of the date that notice of hearing is provided to the parties. A party requesting that a matter be listed for arbitration shall provide notice of the request to the Court Administrator's Office concurrent with the filing of the request with the Prothonotary. The request to list a matter for arbitration shall identify all counsel involved in the litigation or who may otherwise have a conflict in serving as an arbitrator.

2. If the matter involved in the arbitration is anticipated to involve complex issues of law or lengthy evidence presentation, the Court, through written notice to Court Administration, shall be advised of the same. If the party moving to list the case for arbitration hearing believes the matter to involve complex litigation, the party shall so advise the Court in writing at the time the request for arbitration hearing is filed and shall include in the request the anticipated length of hearing. If the non-moving party anticipates complex litigation, the non-moving party shall advise the Court in writing of the same within seven (7) days of receipt of notice from the moving party of the request to list for arbitration hearing. An untimely request to list the matter as a complex case shall be denied as untimely.

In the event either party identifies the arbitration as one involving a complex case, if appropriate, the Court shall specially appoint a board of arbitrators and have the matter specially set by Court Administration. The Court reserves the right to deny a party's request to have the matter specially set as a complex case.

3. If the case is settled before the hearing date, plaintiff's counsel shall, prior to the date of the

scheduled hearing, file with the Prothonotary a praecipe to settle, discontinue and/or satisfy the action. Failure to do so may subject counsel, in the sole discretion of the Court, to sanctions including imposition of all costs of arbitration. Upon receipt of a praecipe to settle, discontinue and/or satisfy an action, the Prothonotary shall immediately notify Court Administration of the same.

B. *Continuance.* [A continuance of the scheduled hearing may be granted by the chair. The party requesting the continuance shall have the duty to coordinate a new time, date and place for a hearing with the arbitrators and with the other parties or their counsel. The party requesting the continuance shall also prepare notices of the rescheduled hearing with postage pre-paid envelopes and deliver them to the chair for signature and delivery. Nothing in this rule shall prohibit a party from seeking a continuance from the Court if it is refused by the chair.] A continuance of the scheduled hearing may only be granted by the Court of Common Pleas upon motion filed with the Court. All continuance requests must be filed at least 60 days prior to hearing absent exceptional circumstances. Unless compelling interests of justice require otherwise, untimely requests for continuance shall be denied.

C. *Hearing.*

[When the board is convened for hearing, and if one or more parties is not present, any party who is present may request the Court Administrator to arrange a hearing before a Judge. The Court Administrator will attempt to schedule a hearing before a Judge on the same date as scheduled for hearing before the board. Upon consent of all parties present and the Judge before whom the hearing is scheduled, a Judge shall hear the case and enter a decision.]

1. Unless a party advises the Court in writing that the matter for arbitration is a complex case requiring additional time for the presentation of evidence, each party to an arbitration shall be limited to one hour to present argument and evidence to the board of arbitrators. A party anticipating rebuttal testimony may reserve time from their initial presentation for the presentation of rebuttal testimony. No hearing shall exceed two hours from beginning to conclusion unless the matter is identified as a complex case.

2. Upon filing the report and award with the Prothonotary, the Prothonotary shall provide notice of the same to Court Administration in order to initiate payment to the arbitrators.

D. *Notice.* When a hearing is initially scheduled by Court Administration, notice of the hearing, as required by Pennsylvania Rule of Civil Procedure 1303, shall be provided to the parties or their attorneys of record. The notice shall be in the following form:

AND NOW, this _____ day of _____, 20 __, upon consideration of the within Petition, the Court does hereby appoint _____, Esquire, _____, Esquire, and _____, Esquire as arbitrators in the above-captioned matter.

An arbitration hearing is scheduled for _____ at _____ in Conference Room 307C on the third floor of the Adams County Courthouse.

It is further Ordered that the sum of \$650 be paid by the County of Adams to the arbitrators in accord with the provisions of Local Rule 1302(d) upon certification by the Court Administrator to the Controller of the County that the report and award of the arbitrators has been filed.

At the arbitration hearing before the arbitrators, each party shall be limited to one hour to present the party's evidence to the board of arbitrators. The Plaintiff may reserve a period of time to present rebuttal testimony, however, a party's total presentation shall not exceed one hour. If a party believes that it will require more than one hour to present the party's case, a written motion to have the matter specially set as a complex litigation must be filed within seven days of the date of this Order with the Adams County Court of Common Pleas. A party's failure to request the matter be specially set as a complex litigation shall be deemed as an agreement by the party to limit its presentation of evidence as set forth herein.

This matter will be heard by a board of arbitrators at the time, date, and place specified but, if one or more of the parties is not present at the hearing, the matter may be heard at the same time and date before a Judge of the Court without the absent party or parties. There is no right to a trial de novo on appeal from a decision entered by a Judge.

E. Failure to Appear. When a board is convened for a hearing, and if one or more parties is not present, any party who is present may request Court Administration to arrange a hearing before a Judge assigned to hear arbitration matters. Court Administration will then schedule a hearing before a Judge on the same date as scheduled for hearing before the board. Upon consent of all parties present, the Judge shall hear the case and enter a decision. Notwithstanding the foregoing, it will remain with the sound discretion of the assigned Judge whether the Judge shall hear the matter at that time.

F. Appointment of Board. Upon receipt of a petition to list a matter for hearing before a board of arbitrators, Court Administration shall schedule a hearing to be held at a time not sooner than 90 days from the date of the scheduling order. In all cases other than complex cases, arbitrators shall be assigned by arbitration dates rather than specific cases. Separate boards will be appointed for either morning or afternoon sessions. At least 45 days prior to a scheduled arbitration date, Court Administration shall notify the entire arbitration panel as to the specific cases to be held on that date. Court Administration shall further notify the Prothonotary's Office of the same who, in turn, will electronically forward the respective case files to the assigned arbitrators. In the event arbitration hearings are not scheduled for a specific date, Court Administration shall notify the panel of arbitrators of the same within the time period set forth herein.

This rule shall become effective thirty (30) days after publication in the *Pennsylvania Bulletin*. It is further directed that:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

A total of three (3) converting lines are impacted by this project; MC1, MC2 and MT66. P&G is proposing to add a single glue skid containing this glue capability to the following two (2) paper converting lines, MC1 and

MC2, while line MT66 will utilize the glue skid that already services units MT60, 61, 62, 63 and 65.

The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements. Also, the company shall be required to monitor and record VOC emissions.

Additionally a PSD and NSR applicability analysis was conducted to determine if the Project would result in a significant net increase of any regulated pollutant. This analysis took into account emission increases attributable to the installation of the modification to the converting lines, emission increases during the contemporaneous period, and emission decreases. The analysis has determined that the proposed modification project to the converting lines does not trigger the requirements of Prevention of Significant Deterioration or Nonattainment New Source Review permitting regulations.

This facility is a Title V facility. The plan approval will include all appropriate testing, monitoring, recordkeeping and reporting requirements designed to keep the operations within all applicable air quality requirements.

In addition to the emission limitations, the following is a summary of the types of conditions the Department intends place in the plan approval to ensure compliance with all applicable regulatory requirements including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12.

Emission restrictions to limit the emission of air contaminants.

Work practice and monitoring requirements to operate the source and control device with good air pollution control practices.

Recordkeeping conditions to verify compliance with the work practice and monitoring requirements.

46-00093: Main Line Hospitals—Bryn Mawr (130 S. Bryn Mawr Avenue, Bryn Mawr, PA 19010) for a renewal of the State Only (Synthetic Minor) Operating Permit, which was issued on April 28, 2008 in Lower Merion Township, **Montgomery County**. This proposed renewal of the State Only Operating permit does not authorize any increase in air emissions of regulated pollutants above previously approved levels. The facility uses the 3 boilers to generate steam and provide heat for the buildings. The facility also has seven permitted emergency generators to provide backup power to the facility. Total NO_x emissions from the facility are limited to 24.9 tons/yr on a 12-month rolling basis. The permit includes monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

46-00169: Constantia Colmar, Inc. (92 County Line Road, Colmar, PA 18915) for a renewal of State Only Operating Permit (“SOOP”) No. 46-00169 in Hatfield Township, **Montgomery County**. The following major changes have occurred at the facility since the SOOP was originally issued in April 2007:

- The removal of a seamer at the facility.
- The installation of a new flexographic press and the removal of an existing rotogravure press at the facility, as approved under Plan Approval No. 46-0169D.
- The replacement of the solvent distillation unit of the automatic parts washing system at the facility, as approved under Request for Determination of Changes of Minor Significance and Exemption from Plan Approval/Operating Permit (“RFD”) No. 2838.

In addition to the aforementioned current sources, Constantia Colmar, Inc., also operates three solvent

aboveground storage tanks, a cold parts cleaner, a roto-gravure press, a flexographic press, a regenerative thermal oxidizer (“RTO”), and various miscellaneous sources at the facility. While the potential to emit volatile organic compounds (“VOCs”) from the facility exceeds 25 tons per year, the major facility threshold for the Philadelphia Consolidated Metropolitan Statistical Area, Constantia Colmar, Inc., has elected to restrict the VOC emissions from the facility to 24.7 tons per year.

The new flexographic press and RTO are still permitted under Plan Approval No. 46-0169D, since the plan approval has yet to be authorized for incorporation into the SOOP. However, since the RTO has become subject to additional requirements since the issuance of the plan approval, the Department has included these requirements for the RTO in the renewal SOOP as well.

The renewal SOOP will continue to include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

46-00162: Hammond Lead Products, Inc. (10 South Grosstown Road, Pottstown, PA 19464) for operation of a lead oxide manufacturing plant in West Pottsgrove Township, **Montgomery County**. The renewal permit is for a non-Title V (State only) facility. Facility-wide potential to emit for all criteria pollutants is below major facility thresholds for the Philadelphia Consolidated Metropolitan Statistical Area. The plant is therefore a Natural Minor Facility. Particulate matter and lead emissions from each source are collected by baghouses and then controlled by high efficiency particulate air (HEPA) filter systems. All sources located at the facility are subject to the requirements of 40 CFR Part 63, Subpart VVVVVV—National Emission Standards for Hazardous Air Pollutants for Chemical Manufacturing Area Sources (producing NAICS Code 325 materials). The renewal permit will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

15-00095: Longwood Gardens (410 Street Rd., Kennett Square, PA 19348) for a non-Title V, State-Only, Synthetic Minor Operating Permit in East Marlborough Township, **Chester County**. This action is a renewal of the State Only Operating Permit. The permit was initially issued on 5-21-2003 and was subsequently renewed on 6-26-2008. Longwood Gardens is a non-profit business activity focused on horticulture. The primary emission sources include four (4) diesel-fired emergency generators that are used in the event of a power interruption and three (3) main boilers that are used to heat the greenhouses in the cool months of the year. The renewed permit will include monitoring, recordkeeping, reporting, and work practice standards designed to keep the facility operating within all applicable air quality requirements.

15-00092: Main Line Hospitals, Inc.—Paoli Memorial (255 West Lancaster Avenue, Paoli, PA 19301-1792) for renewal of a State Only, Synthetic Minor Operating Permit in Willistown Township, **Chester County**. The facility operates 9 boilers for hot water and heating, and 5 emergency generators for emergency power at this site. The proposed renewal of the Operating Permit does not authorize any increase in air emissions, of regulated pollutants, above previously approved levels. The facility maintains a synthetic minor operating status by maintaining total NO_x emissions to less than 24.90 tons per year. The renewed permit includes monitoring, recordkeeping and reporting requirements designed to keep the

facility operating within all applicable local, state, and federal air quality requirements.

46-00161: Reading Materials, Inc. (394 South Sanatoga Road, Pottstown, PA 19464-3148) for renewal of a State Only, Synthetic Minor Operating Permit in Lower Pottsgrove Township, **Montgomery County**. Reading Materials operates an Asphalt Plant at this site. The proposed renewal of the Operating Permit will authorize natural gas as an additional fuel. With the use of natural gas as a fuel the emissions of NO_x will decrease and the emissions of CO will increase. The facility maintains a synthetic minor operating status by maintaining total NO_x emissions to less than 24.90 tons per year. The renewed permit includes testing, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable local, state, and federal air quality requirements.

09-00192: Waste Management of Pennsylvania, Inc. (1000 New Ford Mill Rd, Morrisville, PA 19067) for a bulk material handling and storage facility in Falls Township, **Bucks County**. The initial operating permit is for a non-Title V (State only) facility. Operations at the facility include ship or truck loading/unloading of pumice, gypsum, slag, salt, scrap steel, or clean cover soils. The only pollutant of concern at this facility is particulate matter (PM) including PM that may be a hazardous air pollutant (HAP). PM/PM₁₀/PM_{2.5} (particulate matter 10 microns/2.5 microns and smaller) are limited to 79.8, 34.6 and 12.2 tons respectively, all on a 12-month rolling basis. HAP emissions are limited to 1.0 ton/year on a 12-month rolling basis. PM/PM₁₀/PM_{2.5} emissions are controlled by water suppression and/or Best Management Practices for material transfer. The conditions of Plan Approval 09-0192 and RFD No. 2597 form the basis of this initial operating permit. Upon final approval, the permit will be issued for five years. The Operating Permit will contain monitoring, recordkeeping and operating restrictions designed to keep the facility operating within the allowable emissions and all applicable air quality requirements.

46-00121: Main Line Hospitals, Inc.—dba Lankenau Hospital (100 East Lancaster Avenue, Wynnewood, PA 19096) for renewal of a State Only, Synthetic Minor Operating Permit in Lower Merion Township, **Montgomery County**. The facility currently operates four dual-fired (natural gas and no. 2 oil fired) boilers and eight diesel-fired emergency electric generators. The boilers are currently permitted under General Permit GP1-46-0243 and Plan Approval 46-0121. The boilers will be incorporated into the Operating Permit at a future date through an administrative amendment in accordance with 25 Pa. Code § 127.450(a)(5). Three (3) boilers that were operated under the Operating Permit were replaced by the new boilers and therefore; have been removed from the renewed Operating Permit. Three (3) of the eight (8) emergency engines are larger than 1000 HP and are subject to 25 Pa. Code §§ 129.203 and 129.204. These engines are also subject to 40 CFR Part 60 Subpart IIII. Lankenau Hospital is categorized as a synthetic minor facility. The permit includes monitoring, record keeping and reporting requirements designed to address all applicable air quality requirements.

Proposed Revision to the State Implementation Plan to Meet the Requirements of Reasonably Available Control Technology (RACT) set forth by the Clean Air Act (CAA) under the 8-Hour Ozone NAAQS

The Clean Air Act Amendments of 1990 (CAA) requires Philadelphia to submit to the U.S. Environmental Protection Agency (EPA) a State Implementation Plan (SIP) revision demonstrating that Philadelphia has implemented all necessary Reasonably Available Control Technology (RACT) controls on all major stationary sources of volatile organic compounds (VOC) and oxides of nitrogen (NO_x).

The Philadelphia Department of Public Health, Air Management Services (AMS) is now seeking public comment on a proposed update to the SIP revision that identifies RACT for the 8-hour ozone National Ambient Air Quality Standards (NAAQS).

In 2006, AMS developed a RACT SIP revision demonstrating that it implemented required RACT controls on all relevant stationary sources of VOC and NO_x emissions and that all RACT plans previously approved by EPA under the 1-hour ozone NAAQS were applicable to represent RACT control levels under the new 8-hour ozone NAAQS. The SIP revision relied on the NO_x SIP Call emissions trading program. On July 10, 2009, the D.C. Circuit Court determined that the NO_x SIP Call did not meet the specific source RACT requirements as required by the CAA. Accordingly, any air pollution source installed prior to the adoption of the 1997 8-hour Ozone NAAQS that was applicable to the NO_x SIP Call and did not have to install any controls in the original case-by-case RACT must now conduct a new case-by-case RACT determination to address any changes in technologies that occurred since the prior 1-hour Ozone NAAQS was adopted and implemented.

AMS identified the following five facilities affected by the court decision:

Exelon—Delaware Station (1325 N. Beach Street, Philadelphia, PA 19125), with three 15.5 MW combustion turbines and one 17.5 MW combustion turbine;

Exelon—Richmond Station (3901 N. Delaware Avenue, Philadelphia, PA 19137), with two 66 MW combustion turbines;

Exelon—Schuylkill Station (2800 Christian Street, Philadelphia, PA 19146), with one 233 MMBTU/hr combustion turbine, one 284 MMBTU/hr combustion turbine, and one 2.75 MW emergency generator;

Veolia—Edison Station (908 Sansom Street, Philadelphia, PA 19107), with two 283 MMBTU/hr boilers and two 335 MMBTU/hr boilers;

Veolia—Schuylkill Station (2600 Christian Street, Philadelphia, PA 19146), with one 795 MMBTU/hr boiler and one 761 MMBTU/hr boiler.

AMS has determined the RACT controls for the 8-hour ozone NAAQS to be the same as the RACT controls approved by EPA under the 1-hour ozone NAAQS. These RACT controls are included in the current proposed SIP revision for the 8-hour ozone NAAQS.

Anyone affected by the proposed update to the SIP revision may submit written comments for a request for a public hearing by mail to Air Management Services, 321 University Avenue, 2nd Floor, Philadelphia, PA 19104, Attn: Henry Kim within thirty (30) days from today. If requested, AMS will hold a public hearing to discuss

these issues on Thursday, April 4, 2013, at 6 PM at the Spellman Building, 321 University Avenue, 1st Floor Conference Room, Philadelphia, PA 19104. Persons with a disability who desire to attend the meeting and require an auxiliary aid, service, or other accommodation to participate in the proceedings should contact Alison Riley at (215) 685-9422 to discuss how AMS may accommodate their needs.

If no request for public hearing is received by 4 PM on Tuesday, April 2, 2013, the hearing will be cancelled and notice of the cancellation will be published on Wednesday, April 3, 2013 at 12 PM, on AMS' website <http://www.phila.gov/health/AirManagement/index.html>. Interested parties may also call (215) 685-9439 to find out if the hearing has been cancelled.

The update and other supporting information are available for inspection at the offices of AMS during normal business hours. For further information, please call Henry Kim at (215) 685-9439.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated

with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in

Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. The Department will also accept

requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

EROSION AND SEDIMENT CONTROL PERMITS

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance activities associated with either road maintenance or timber harvesting operations.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department regional office listed before the application within 30 days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing

may be held after consideration of comments received by the appropriate Department regional office during the 30-day public comment period.

Following the 30-day comment period, the appropriate regional office water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board (Board).

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate regional office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified regional office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Wastes; Discharges to Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35

P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act

for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A.

§§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Federal Interstate Consistency Review for a Development Project at the Philadelphia Navy Yard Annex

The Department of Environmental Protection (Department) is reviewing the proposed construction of a High Bay Test Facility at the Philadelphia Navy Yard Annex, in Philadelphia, PA for consistency with the Pennsylvania Coastal Resources Program's enforceable policies, as required by the Federal Coastal Zone Management Act of 1972 (16 U.S.C.A. §§ 1451—1466). This project is subject to the Department review for Federal consistency because it is a Federal activity with reasonably foreseeable coastal effects and is located within the Commonwealth's designated coastal zone.

The proposed project consists of the demolition of the two-story building attached to the west side of Building 633, other local structures at the west end of the center and north bays of Building 633 and Building 770 to make room for construction of a secure high bay test facility adjacent to Building 633. The proposed action would also include the construction of three submerged jacking points with the Reserve Basin to receive shipments of propulsion equipment by means of jack-up barges, the construction of two mooring points within the Reserve Basin, the demolition of a portion of the existing timber relieving platform and concrete seawalls along the 16th Street Wharf, construction of a new concrete relieving platform and the construction of steel reinforced pathway between the seawall and the high bay test facility.

The Department of the Navy has submitted a Federal Coastal Consistency Determination to the Pennsylvania Coastal Resources Management Program in accordance

with 15 CFR Part 930 (relating to Federal consistency with approved coastal management programs). The Department of the Navy has certified that the proposed Federal activity is reasonably likely to affect the land, water or natural resource of the Pennsylvania Coastal Zone, but would be conducted in a manner consistent with the applicable enforceable policies of the Commonwealth's approved Coastal Zone Management Plan to the maximum extent practicable. Interested parties may request a copy of the Federal Coastal Consistency Determination from the Department contact listed as follows.

The Department will consider all comments received within 15 days of the date of this notice before issuing a final Federal consistency concurrence or objection. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the originator's name and address. Written comments should be submitted to Matt Walderon, Federal Consistency Coordinator, Interstate Waters Office, 400 Market Street, P. O. Box 8465, Rachel Carson State Office Building, Harrisburg, PA 17101-8465, (717) 772-2196, mwalderon@pa.gov.

The Independent Regulatory Review Commission met publicly at 10 a.m., Thursday, December 13, 2012, and announced the following:

Action Taken—Regulation Disapproved:

Department of Labor and Industry #12-96: Unemployment Compensation; Active Search for Work (amends 34 Pa. Code § 65.11)

Disapproval Order

Public Meeting Held
December 13, 2012

*Order Issued February 15, 2013:
Department of Labor and Industry—
Unemployment Compensation; Active Search for Work;
Regulation No. 12-96 (#2939)*

On April 19, 2012, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Labor and Industry (Department). This rulemaking amends 34 Pa. Code § 65.11. The proposed regulation was published in the May 5, 2012 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on November 5, 2012.

This final-form regulation implements portions of Act 6 of 2011 (Act). In accordance with the Act, this regulation establishes the specific search criteria necessary for unemployment compensation claimants (claimants) to conduct an active search for suitable employment.

In its development of the final-form regulation, we recognize that the Department made a considerable effort to respond to issues raised at the proposed stage. However, we find that this final-form regulation is not in the public interest. As explained further below, we find that the final-form regulation does not meet the criteria in the Regulatory Review Act of consistency with the statute and reasonableness. In addition, because the regulation is inconsistent with the statute, it does not appear to be aligned with the intent of the General Assembly when it passed the Act. 71 P. S. §§ 745.5b(a), (b)(3)(i) and (b)(3)(iv).

Section 401(b)(1) of the Act requires claimants to make an “active search for suitable employment” in order to maintain eligibility for unemployment compensation. Section 401(b)(1) requires the Department to establish search requirements that *shall* include, *at a minimum, all* of the following (emphasis added):

- (i) Registration by a claimant for employment search services offered by the Pennsylvania CareerLink system or its successor agency within thirty (30) days after initial application for benefits.
- (ii) Posting a resume on the system’s database, unless the claimant is seeking work in an employment sector in which resumes are not commonly used.
- (iii) Applying for positions that offer employment and wages similar to those the claimant had prior to his unemployment and which are within a forty-five (45) minute commuting distance.

The regulation implements these provisions through a two-tiered search requirement, where the type of search performed is based upon the number of weeks for which a claim for compensation is filed. Specifically, Section 65.11(e) of the regulation requires the following:

(1) During each week from the third week of the benefit year for which a claim for compensation is filed through the eighth week of the benefit year for which a claim for compensation is filed, the claimant shall apply for employment as follows:

(i) Except as provided in subparagraph (ii), the claimant shall apply for at least two positions that would provide suitable employment under section 4(t) of the law (43 P. S. § 753(t)).

(ii) The claimant may limit his applications to positions that would provide employment and wages similar to those the claimant had prior to his unemployment and are within a 45 minute commuting distance. (Section 401(b)(1)(iii) of the law, 43 P. S. § 801(b)(1)(iii)).

(2) During the ninth week of the benefit year for which a claim for compensation is filed and each week thereafter for which a claim for compensation is filed, the claimant shall apply for employment as follows:

(i) The claimant shall apply for at least three positions that would provide suitable employment under section 4(t) of the law (43 P. S. § 753(t)).

(ii) The claimant may prioritize the types of positions for which he will apply in the following order:

(1) Positions described in paragraph (1)(ii).

(2) Other positions, to the extent that expanding the scope of the positions for which he will apply beyond the positions described in paragraph (1)(ii) is necessary in order to apply for at least three positions each week.

It is the Department’s position that the phrase “at a minimum” in the Act, authorizes the Department to expand the job search requirements during and after the ninth week to positions that are beyond a 45-minute commuting distance and positions that do not provide employment and wages similar to those the claimant had prior to his/her unemployment. The Department further explains that the requirement for claimants to search for positions outside the statutory requirements would not expand the scope of suitable employment. We disagree.

The Act does not specify the number of applications a claimant must file in order to conduct an active search for suitable employment; however, it does limit the search requirement to similar employment and wages within a certain commuting distance. While a claimant can certainly chose to go beyond these requirements, the Act does not compel the claimant to do so. To instruct otherwise would seem to render Section 401(b)(1)(iii) of the Act obsolete and result in an inconsistent application of the Act.

Additionally, the Department’s interpretation appears to be inconsistent with the intent of the General Assembly when it implemented the Act. The statute does not state that the minimum requirements should change based upon the number of weeks during which a claimant submits claims for compensation. Section 401(b)(1) sets forth what the minimum active search “shall” include and does not contain language that would allow the Department to alter these minimum requirements. Conse-

quently, we find that work search requirements in the final-form regulation are not consistent with the legislative intent of the Act.

Additionally, in our comments on Section 65.11(e)(2) of the proposed rulemaking (this subsection was designated as (d)(2) in the proposed version of the regulation), we questioned the ability of claimants to accrue and “bank” searches conducted in excess of the minimum two applications required per week during weeks three through eight. Specifically, our comments stated:

... Should a claimant exhaust all potential employment options for similar work prior to the ninth week, this subsection does not provide credit to claimants for these past searches. If claimants cannot apply prior searches to comply with this subsection, are they unfairly penalized for their efforts to find jobs within their field?

The Department responded that claimants are not unfairly penalized and that “despite the aggressiveness of a claimant’s prior work search efforts, or the fact that a job application is pending, nonetheless the claimant is

still unemployed and the requirement to continue to search for work is appropriate.” We disagree and contend that the prohibition on “banking” applications is not reasonable as it will discourage claimants from applying for positions in the first eight weeks.

As discussed above, we have determined that the work search requirements in this regulation are not consistent with the statute and the intention of the General Assembly. Additionally, we find the prohibition on “banking” job applications to be unreasonable. Therefore, we find that the promulgation of this regulation is not in the public interest.

By Order of the Commission:

The regulation #12-96 (IRRC #2939) from the Department of Labor and Industry was disapproved on December 13, 2012.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Certainty Tech Telecom, LLC; Tentative Order

Public Meeting held
February 14, 2013

Commissioners Present: Robert F. Powelson, Chairperson; John F. Coleman, Jr., Vice Chairperson; Wayne E. Gardner; James H. Cawley; Pamela A. Witmer

Certainty Tech Telecom, LLC;
A-311283

Tentative Order

By the Commission:

Certainty Tech Telecom, LLC (Certainty Tech or the Company) is a telecommunications interexchange reseller and a competitive local exchange carrier in the Verizon Pennsylvania LLC and Windstream PA territories certificated at A-311283. Once certificated, the Company made no further tariff revisions.

Through Commission staff's efforts to enforce the Commission's switched access tariff order entered on May 10, 2012, at Docket No. M-2012-2291824, Staff learned that

Certainty Tech was sold to USA Tek in 2006; however, the parties to the transaction never filed appropriate papers with the Commission to seek approval pursuant to 66 Pa.C.S. § 1102(a)(3) of the Public Utility Code. At some unknown point thereafter, USA Tek transferred the Company to a Mr. Gary Jackson, a former construction consultant to USA Tek, again without ever receiving Commission approval. Mr. Jackson has advised Staff that Certainty Tech has no reported revenues nor any Pennsylvania customers or telephone numbers. Mr. Jackson states that while he has been working towards interconnection and resale agreements with underlying carriers for point-to-point connections, he does not presently anticipate having any dial tone customers or the need of numbering resources. Based on these facts, Commission Staff has advised Mr. Jackson that it intends to recommend revoking his certificate, and, if granted, that he will be required to file a new application in order to operate as a public utility in Pennsylvania.

Finally, a search of Commission records reveals that the Company has failed to pay its annual assessment pursuant to section 510 of the Code, 66 Pa.C.S. § 510, for calendar years 2008, 2009, and 2010, and that the Commission was unable to serve the Company with the assessment for 2011 because the address on file was not current.

The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506, and 3301. Based on the above facts, we tentatively conclude that it is appropriate to revoke Certainty Tech's certificate of public convenience without the necessity of a formal complaint as being in the public interest. Furthermore, the Commission may take other appropriate action, including the imposition of penalties under section 3301, in lieu of cancellation, if Certainty Tech seeks relief from this Tentative Order; *Therefore,*

It Is Ordered That:

1. Revocation of Certainty Tech Telecom, LLC's certificate of public convenience is hereby tentatively approved as being in the public interest.
2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, and the Bureau of Investigation & Enforcement, and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.
3. Absent the filing of adverse public comment within 30 days after publication in the *Pennsylvania Bulletin*, this Tentative Order shall become final without further action by the Commission.
4. Upon this order becoming final, and without further action by the Commission, the certificate of public convenience held by Certainty Tech Telecom, LLC at A-311283 shall be canceled, and Certainty Tech Telecom, LLC's name stricken from all active utility lists maintained by

the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administrative Services.

Secretary
