READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

ENVIRONMENTAL QUALITY BOARD

[25 PA. CODE CH. 93]

Corrective Amendment to 25 Pa. Code § 93.9i

The Department of Environmental Protection (Department) has discovered a discrepancy between the agency text of 25 Pa. Code § 93.9i, (relating to Drainage List I), as deposited with the Legislative Reference Bureau and as published at 39 Pa.B. 2523, 2539 (May 16, 2009) and the official text as published in the *Pennsylvania Code Reporter* (Master Transmittal Sheet No. 417) and as currently appearing in the *Pennsylvania Code*. When the amendments made by the Environmental Quality Board at 39 Pa.B. 2523, 2539 were codified, entries for the North Branch Mehoopany Creek and Mehoopany Creek were inadvertently omitted.

Therefore, under 45 Pa.C.S. § 901 (relating to official text of published documents): the Department has deposited with the Legislative Reference Bureau a corrective amendment to 25 Pa. Code § 93.9i. The corrective amendment to 25 Pa. Code § 93.9i is effective as of August 1, 2009, the date the defective official text was announced in the *Pennsylvania Bulletin*.

The correct version of 25 Pa. Code § 93.9i appears in Annex A, with ellipses referring to the existing text of the regulation.

The CDRPA (62 P. S. §§ 2921—2927) created the Cancer Drug Repository Program (Program) to permit pharmacies to voluntarily accept donated cancer drugs and to dispense those drugs to indigent persons as provided in the CDRPA. It also authorizes and requires the Board to promulgate regulations to implement the CDRPA, including income eligibility criteria, pharmacy eligibility and standards, necessary forms, maximum handling fee, categories of drugs to be accepted, informed consent provisions, drug recall provisions, and theft and diversion minimization procedures. Upon promulgation, this proposed rulemaking would fulfill the Board's obligations under the CDRPA.

Description of the Proposed Rulemaking

The proposed rulemaking would add six new sections to the Board's regulations to implement the Program. Proposed § 27.501 (relating to purpose) specifies that these sections implement the CDRPA. Proposed § 27.502 (relating to definitions) provides the necessary definitions from the CDRPA.

Proposed § 27.503 (relating to participation in the Cancer Drug Repository Program) addresses application processes and eligibility criteria for participation in the Program. Subsection (a) provides that a pharmacy holding a current unrestricted permit may participate in the Program in accordance with the regulations and the CDRPA. Subsection (b) sets forth the information to be included on a pharmacy's application for approval to participate in the Program. Subsection (c) sets forth three criteria for a pharmacy's eligibility to participate in the Program. Along with possessing a current unrestricted permit in good standing, and agreeing to participate in the Program in accordance with applicable law, the applicant pharmacy must delegate to a licensed pharmacist the responsibility to receive donations at the designated delivery area in the pharmacy. This will provide a level of involvement, control and supervision by an individual licensed by, and answerable to, the Board, as opposed to a pharmacy intern or technician. Subsection (d) provides the criteria as to who may make a donation of cancer drugs and supplies, as well as what information about the drug or supply must be provided in writing by the donor at the time of donation. Subsection (e) sets

forth the Board's authority to refuse, revoke or suspend its approval of a pharmacy's participation in the Program and the occasions upon which it may elect to exercise that authority.

Proposed § 27.504 (relating to drugs) addresses drugs that are eligible for the Program. Subsection (a) requires that the drug be in its original unopened, sealed and tamper-evident unit dose packaging or, if the outside packaging is opened but the single-unit-dose packaging is unopened, be packaged in single unit doses. As defined in proposed § 27.502, the term "original sealed and tamper-evident unit dose packaging" means single unit dose packaging of oral medications from a manufacturer or a repackager licensed with the United States Food and Drug Administration (FDA) or from a licensed pharmacy and includes injectables, topicals and aerosols in the manufacturer's or repackager's unopened original tamper-evident packaging. This implements the requirement of section 4(1) of the CDRPA (62 P. S. § 2924(1)) that a cancer drug accepted for donation must be in its original unopened, sealed and tamper-evident unit dose packaging, though outside packaging may be opened if the single-unit-dose packaging is unopened.

Under proposed § 27.504(b)(1), a pharmacy could not accept a drug bearing an expiration date that is earlier than 6 months after it will be restocked. Under subsection (b)(2), a pharmacy could not accept a drug that is adulterated or misbranded.

Proposed § 27.504(b)(3) excludes drugs designated by the United States Drug Enforcement Agency (DEA) as a controlled substance under 21 CFR Part 1308 (relating to schedules of controlled substances). The DEA determined that an individual patient may not return unused controlled substance prescription medication to a pharmacy. Federal laws and regulations do not make provisions for an individual to return a controlled substance prescription medication to a pharmacy for further dispensing or disposal. There are no provisions in the Controlled Substances Act (21 U.S.C.A. §§ 801—904) for a DEA registrant to acquire controlled substances from a nonregistrant. Federal laws and regulations do not make provisions for controlled substances that have already been dispensed to patients, regardless of the packaging method, to be returned to a pharmacy for further dispensing or disposal.

Proposed § 27.504(b)(4) excludes drugs whose distribution the FDA has restricted under 21 CFR 314.520 or 314.610 (relating to approval with restrictions to assure safe use; and approval based on evidence of effectiveness from studies in animals). Examples of this type of drug are thalidomide and lenalidomide. The purpose of this exclusion is to minimize the possibility that health care professionals unaware of the specific registration requirements for distribution of these drugs may inadvertently facilitate their ingestion by patients.

Additionally, because the effectiveness and safety of a cancer drug requiring refrigeration cannot be assured without continued refrigeration, proposed § 27.504(b)(5) excludes drugs that require refrigeration. Lastly, because compounded prescription drugs are designed to meet a particular patient's specific needs, subsection (b)(6) excludes drugs that have been previously compounded.

Proposed § 27.504(c) provides that, unless otherwise ineligible, a pharmacy may accept a cancer drug in any of the categories of the American Hospital Formulary Ser-

vice Pharmacologic—Therapeutic Classification. Proposed § 27.504(d) requires that a pharmacy handle the recall of any drug in the Program as if the drug had come directly from the manufacturer.

Proposed § 27.505 (relating to repositories) addresses the repository site. Under subsection (a), a participating pharmacy would have to designate a drop-off site within the pharmacy at which its licensed pharmacist shall personally receive, and acknowledge in writing, donations of cancer drugs. Subsection (b) requires the pharmacy's compliance with Federal and State laws regarding storage, distribution, dispensing, disposal and destruction of cancer drugs. It also requires the pharmacy to inspect donated cancer drugs for adulteration or misbranding prior to dispensing. Subsection (b) also requires that donated cancer drugs be dispensed only by a licensed pharmacist under a prescription issued by a prescribing practitioner. Under subsection (c), a participating pharmacy would be required to dispose of donated drugs that it does not accept into the Program. To better assure compliance with the storage and other requirements of participation, proposed § 27.505(d) requires a pharmacy to store the cancer drugs separately from other drugs in the pharmacy's stock.

Proposed § 27.505(e) sets forth the specific information that a pharmacy must provide to a patient. This information constitutes the basis of the patient's informed consent and shall be presented to the patient on a written form. The patient shall sign the informed consent form before the pharmacy dispenses the cancer drug to that patient. The form must contain information regarding the donation of the drug or supply. It must further state that the drug or supply may have been previously dispensed but was unused, that it was donated to the pharmacy in its original sealed and tamper-evident packaging to be restocked and redistributed, that the pharmacist conducted a visual inspection to ensure that the drug was in its original, unopened packaging and had not expired or been adulterated or misbranded. The form also must contain a provision that, while the pharmacist has determined that the drug or supply appears to be safe for dispensing or administering, the safety of the drug or supply cannot be guaranteed.

Proposed § 27.505(f) requires recordkeeping to be easily auditable and account for every dose and that the pharmacy use forms developed by the Board for receipt and dispensing of the drug. The proposed forms are available upon request. Subsection (g) would limit the handling fee that a pharmacy may charge up to 250% of the current \$4 Medical Assistance (MA) dispensing fee in 55 Pa. Code § 1121.55 (relating to method of payment). Subsection (h) would require the participating pharmacy to have a policy to deter theft and diversion.

Proposed § 27.506 (relating to patient eligibility) would address patient eligibility for the Program. Subsection (a) sets forth the patient status eligibility criteria: being diagnosed with cancer; not possessing or possessing only limited prescription drug coverage regarding the treatment of cancer; and being ineligible for the State MA Program that provides prescription drug coverage regarding the treatment of cancer. Subsection (b) addresses patient financial eligibility for the Program. It would limit participation to those individuals meeting the family income standard published by the Department of Public Welfare based upon income not exceeding 350% of the Federal Poverty Income Guidelines and may not otherwise have insurance that would cover the cancer drugs. Appendix A provides the current income amounts for eligibility in the Program.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose additional paperwork requirements upon the Board in the form of the processing of applications for participation in the Program and it also contains recordkeeping requirements for the regulated community.

Sunset Date

The Board continuously monitors the effectiveness of its regulations. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on March 2, 2011, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Consolidated Plan; 2010 Annual Performance and Evaluation Report

The Department of Community and Economic Development is preparing its Consolidated Annual Performance and Evaluation Report (CAPER) on the progress and accomplishments made during 2010 in implementing the Commonwealth's Consolidated Plan for Federal Fiscal Years 2009-2013. This document must be submitted to, and approved by, the United States Department of Housing and Urban Development (HUD) for the Commonwealth and organizations within this Commonwealth to receive funding under most HUD housing and community development programs. The Consolidated Plan creates a unified strategy for housing and community development programs, as well as the necessary linkages for building successful neighborhoods and communities.

The Commonwealth has allocated funds under several programs, namely Community Development Block Grant, HOME Investment Partnerships Program, Emergency Shelter Grant Program and Housing Opportunities for People with AIDS Program. Additionally, this CAPER will detail funding from 2009 under both the Housing and Economic Recovery Act and the American Recovery and Reinvestment Act. The CAPER discusses accomplishments in relation to goals and objectives identified in the Action Plan of the Consolidated Plan.

The CAPER assesses the goals and objectives of this strategic plan; discusses how the Commonwealth is affirmatively furthering fair and affordable housing; reviews the activities of the Continuums of Care; and appraises how well resources in community development and housing are being leveraged.

Public Comments

Any individual or organization may provide written comments regarding this draft version of the CAPER. This report will be available at www.newPA.com or by calling (717) 720-7412. Comments will be accepted about

funding activities, community development, housing, CAPER content and the process by which public input is gathered. The Commonwealth encourages public participation in this process.

Written comments will be accepted until 5 p.m. on March 28, 2011, and should be sent to Dan Fox, Department of Community and Economic Development, Center for Community Financing, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120-0225.

The applicant for this permit renewal is the Pennsylvania Department of Transportation (PennDOT), P. O. Box 2857, Harrisburg, PA 17105. The permit authorizes the discharge of stormwater from the outfalls of PennDOT's regulated small municipal separate storm sewer systems (MS4s) in all designated urbanized areas within Pennsylvania. Stormwater discharges from the outfalls of the regulated small MS4s flow into waters of the Commonwealth within the designated urbanized areas of Pennsylvania. Since no new discharges are authorized by this permit, no potable water supplies will be affected by the proposed renewal.

This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 implementing the Clean Streams Law (35 P. S. §§ 691.1 et seq.) and 40 CFR Part 122 implementing the Federal Clean Water Act (33 USC Section 1251 et seq.).

The renewal application describes special conditions including a Stormwater Management Program to satisfy six (6) Minimum Control Measures (MCMs) that meet the narrative effluent limitations required by 40 CFR § 122.34. The permit renewal application proposes to satisfy discharge requirements associated with approved Total Maximum Daily Loads (TMDLs) through special conditions established in future NPDES permits for stormwater discharges associated with construction activities. The proposed permit renewal will become effective June 10, 2012 and will continue for a term of five (5) years until June 9, 2017. The applicant's existing MS4 individual permit has been extended through June 9, 2012.

Individuals interested in obtaining further information or to inspect and copy the application for permit renewal may contact the Department using the following address: Barry A. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief

description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401-7671q) and regulations adopted under the Federal Clean Air Act.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law; the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4014); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1002).

The following permit applications to conduct mining activities have been received by the Department. A copy of an application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference or a public hearing, as applicable, on a mining permit application may be submitted by a person or an officer or head of Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of the person submitting comments or objections, the application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for

an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are in Technical Guidance Document 362-0600-001, NPDES Program Implementation-Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads.

Persons wishing to comment on NPDES permit applications should submit statements to the Department at the address of the district mining office indicated before each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. A comment must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

To construct and maintain: 1) 41.25 cubic yards of earthen fill and stone walls for a 25-foot by 35-foot riverfront patio, 2) a 20-foot long by 24-foot wide open-sided pavilion on top of the patio to over-look the West Branch Susquehanna River and an at-grade 20-foot long by 24-foot wide by 4 inches thick concrete pad on top of the existing gravel patio surface, 3) a 6-foot wide by 30-foot long by 2-foot deep flood relief channel on the landward side of the patio area with the channel floor 6-inches higher in elevation than the normal water elevation in Holland Run, 4) a 5-foot wide by 10-foot long foot-bridge over this new relief channel to allow for access to the patio, all of which is located on the upstream left edge of Holland's Run confluence with the West Branch Susquehanna River, which is in the 100-year floodway of the river. This project proposes to indirectly impact 35 linear feet of the left streambank of Holland's Run, which is classified as a High Quality—Cold Water Fishery and 25 linear feet of the right floodway of the West Branch Susquehanna River, which is classified as a Warm Water Fishery.

E49-315. Northumberland Terminals Corporation, PO Box 2621, Harrisburg, PA 17105-2621. Northumberland East, in Point Township, **Northumberland County**, ACOE Baltimore District (Riverside, PA Quadrangle Latitude: 40-54-59.37; Longitude: 76-45-1.42).

The proposed activity includes wetland and stream impacts. There are 400 linear feet of stream impacts associated with stream relocation, stabilization, and a vehicle crossing in an unnamed tributary to the Susquehanna River, Warm Water Fishery. The stream stabilization is proposing utilizing toe riprap and an imbricated rip-rap wall. The vehicular crossing is proposed to be a 1 foot by 5 foot box culvert crossing that is

45 linear feet long with a total stream impact of 65 linear feet, including the outlet apron and inlet protection. An aerial utility line will cross the unnamed Tributary to the Susquehanna River 23 feet above the stream due to also crossing a rail spur. The rail spur will permanently impact 0.51 acres of wetland. This is proposed to be mitigated with 0.83 acres of wetland creation located 1,500 feet southwest of the project area on the nearby Northumberland Terminals Corporation property.

The project is located near River Mile 22, approximately 50.0 feet downstream from the confluence of the Monongahela River and Wiley Run.

ENVIRONMENTAL ASSESSMENTS

Central Office: Bureau of Waterways Engineering, Rachel Carson State Office Building, Floor 3, 400 Market Street, Harrisburg, PA 17105

EA1946-001. To remove an abandoned concrete water obstruction located in Fishing Creek, in the Borough of Bloomsburg and the Township of Hemlock. The owner and original purpose of the structure are unknown. The project goal is to remove the abandoned concrete water obstruction for the purpose of increasing the natural functions and services provided by Fishing Creek. The concrete structure is approximately 4 feet wide at its crest and varies between an estimated 10 feet to 20 feet wide at its base. The total length of the structure is approximately 590 feet. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate

that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Request for Comments on the Proposed Total Maximum Daily Load (TMDL) Developed for the Beaverdam Creek Watershed in Adams County

The Department of Environmental Protection will accept comments on the proposed TMDL developed for the Beaverdam Creek Watershed in Adams County, PA. This TMDL was established in accordance with the requirements of Section 303(d) of the Clean Water Act. The Pennsylvania Integrated Water Quality Monitoring and Assessment Report included impaired stream segments in this watershed. The listings of these waterbodies were due to use impairments caused by excessive siltation.

There currently are no state or federal instream numerical water quality criteria for siltation. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. This proposed TMDL

set allowable loadings of sediment in the Beaverdam Creek Watershed. The sediment loadings were allocated among cropland, hay/pasture land, transitional land and streambank categories present in the watershed. Data used in establishing these TMDLs was generated using a water quality analysis model (AVGWLF) designed by the Pennsylvania State University.

The following table shows the estimated current sediment loadings for the watershed. Overall load reductions necessary in order to meet the TMDL is also identified.

Summary of TMDL Based Load Reductions in the Beaverdam Creek Watershed

<i>Pollutant</i>	<i>Existing Load (lbs./yr.)</i>	<i>Existing Load (lbs./day)</i>	<i>TMDL (lbs./yr.)</i>	<i>TMDL (lbs./day)</i>	<i>Percent Reduction</i>
Sediment	1,288,687	3,531	1,111,570	3,045	25.7%

The data and all supporting documentation used to develop the proposed TMDL are available from the Department. The proposed TMDL and information on the TMDL program can be viewed on the Department's website (www.dep.state.pa.us/watermanagement_apps/tmdl/). To request a copy of the proposed TMDL contact:

Pennsylvania Department of Environmental Protection
909 Elmerton Avenue
Harrisburg, PA 17110
Phone: 717-705-4150, e-mail: chrboyer@state.pa.us

The Department will consider all comments in developing the final TMDL, which will be submitted to EPA for approval. Written comments will be accepted at the above address and must be postmarked by 45 days after publication in the PA bulletin. A public meeting to discuss the technical merits of the TMDL will be held upon request.

Clean Air Interstate Rule; Proposed 2015 Annual and Ozone Season CAIR Nitrogen Oxides Allowance Allocations and Redistribution of 2010-2014 Allowances for Certain Facilities

In accordance with 25 Pa. Code §§ 145.211(d) and 145.221(d) (relating to timing requirements for CAIR NOx allowance allocations; and timing requirements for CAIR NOx Ozone Season allowance allocations), the Department of Environmental Protection (Department) is providing notice and an opportunity to comment on the proposed 2015 annual and ozone season Clean Air Interstate Rule (CAIR) nitrogen oxides (NOx) allowance allocations. The Commonwealth's NOx budget for the annual CAIR program contains 82,514 NOx allowances; 81,441 NOx allowances are proposed for allocation. The remaining 1,073 (1.3% of the annual CAIR program budget) NOx allowances are set aside for future allocation in accordance with 25 Pa. Code § 145.212(f)(2) (relating to CAIR NOx allowance allocations). The Commonwealth's NOx budget for the ozone season CAIR program contains 35,143 NOx allowances, all of which are in the proposed allocations.

The Department is also proposing to redistribute 473 allowances as follows: 268 annual NOx allowances and 205 ozone season NOx allocations. These allowances were originally allocated to FPL Energy for 2010 through 2014, for FPL's MH50 unit, but the United States Environmental Protection Agency (EPA) has since determined that MH50 is not subject to CAIR. The Department is proposing to allocate the NOx allowances returned to the Department to the existing CAIR units for 2010 through 2014.

The EPA returned 486 allowances to the Department for the FLP MH50 unit. The Department is proposing to reduce this amount by 13 to remedy an over-allocation of the State budget of 4 CAIR NOx ozone season allowances for 2012 and 9 CAIR NOx ozone season allowances for 2013.

For each CAIR unit and qualifying resource receiving a NOx allocation, Tables 1 and 2 list the following: the Facility Name, ORIS Code, the Unit ID for each CAIR unit, either the gross loading or steam loading depending on type of unit, county, converted heat input from the base year and 2015 allowance allocation.

Table 3 lists each CAIR unit and qualifying resource that is being allocated NOx allowances from those returned to the Department due to the change in the FPL MH50 unit's CAIR status.

Action at the Federal or State level could affect these allocations, once final. Annual and ozone season CAIR NOx allowances do not constitute property rights.

Written Comments

Written comments on the proposed annual and ozone season CAIR NOx allowance allocations for 2014 should be sent to the attention of Randy Bordner, Environmental Group Manager, Air Resource Management Division, Bureau of Air Quality, DEP, P. O. Box 8468, Harrisburg, PA 17105-8468 or ranbordner@state.pa.us no later than March 28, 2011. Any written comments (including e-mails) should include the name, affiliation (if any), mailing address and telephone number of the interested person and contain "Proposed 2015 Annual and Ozone Season CAIR Nitrogen Oxides (NOx) Allowance Allocations" in the subject line.

Questions concerning this notice should be directed to Randy Bordner at (717) 772-3921. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Interstate Pollution Transport Reduction; Proposed 2011 Ozone Season NOx Emission Limits for Nonelectric Generating Units

The Department of Environmental Protection (Department) is providing notice and an opportunity for comment concerning the proposed Nonelectric Generating Unit (non-EGU) 2011 Ozone Season Nitrogen Oxide (NOx) Trading Program budget established in accordance with 25 Pa. Code § 145.8(d) (relating to transition to CAIR NOx trading programs). The 15-day public comment period will end on March 28, 2011.

In April 2008, the Commonwealth's Clean Air Interstate Rule (CAIR) adopted by the Environmental Quality Board included NOx Budget Trading Program amendments to allow the owners and operators of non-EGUs in this Commonwealth to transition to the CAIR NOx Trading Program. (See 38 Pa.B. 1705 (April 12, 2008).) Specifically, 25 Pa. Code § 145.8(d) establishes a non-EGU NOx Budget Trading Program budget of 3,619 tons of NOx, less a specified adjustment amount, to serve as a State-wide ozone season NOx emissions cap for new and existing non-EGUs. This NOx emissions cap also applies to CAIR-exempt EGUs that were subject to the NOx Budget Trading Program. If total emissions from all of

the units exceed the Statewide NOx emissions cap of 3,438 tons, the owners and operators of non-EGUs must comply with the NOx emission limitations established under 25 Pa. Code § 145.8(d). The owners and operators of units exceeding their individual NOx limits would need to purchase and then surrender one CAIR NOx Ozone Season allowance and one CAIR NOx allowance for each ton of excess emissions. The proposed NOx emissions cap ensures that non-EGUs in this Commonwealth continue to meet the emission limits of the NOx Budget Trading Program, as required under the United States Environmental Protection Agency's (EPA) CAIR.

The proposed NOx emissions cap provides 181 tons of NOx emissions for non-EGUs and the other units that need to address their emissions through accounting adjustments, including units that previously participated in the NOx Budget Trading Program; emissions from these units were below the 25-ton exemption threshold. Adjustments were also made for the permanent retirement of NOx allowances due to generation of emission reduction credits. The Department will also use a portion of the 181 tons of the budgeted NOx emissions, if necessary, to address mistakes or miscalculations. This year, the Department is proposing to use 121 tons of the 181 tons of NOx for account adjustments, leaving 60 tons available for any additional adjustments at the end of the control period.

The Department made accounting adjustments for the following facilities:

Retired Units: Naval Surface Warfare Division Unit 98; Shenango Units Nos. 6 and 9 (the generation of emission offsets for small non-NOx Budget Trading Program units resulted in a permanent NOx accounting adjustment of 45 tons).

Exempt Units: Each of the following units has a 25-ton NOx permit limit: Armagh Compressor Station (Unit 31301); Entriken Compressor Station (Unit 31601); and the Naval Surface Warfare Division (Unit 100). The Naval

Surface Warfare Division (Unit 99) has a 1-ton NOx permit limit. All of these 25-ton exempt status units account for a total adjustment of 76 tons of NOx emissions.

Units subject to the requirements in 25 Pa. Code § 145.8 are required to meet the monitoring and reporting requirements of the EPA's CAIR, found in 40 CFR Part 96, Subpart HHHH (relating to monitoring and reporting) and maintain general accounts and account representatives under 40 CFR Part 96, Subparts BBBB and FFFF (relating to CAIR designated representative for CAIR NOx ozone season sources; and CAIR NOx ozone season allowance tracking system). The Proposed Non-EGU 2011 Ozone Season NOx Limits table lists the following: the Facility Name, ORIS Code, the Unit ID for each non-EGU unit, the operating year, the heat input for the 2010 ozone season, the calculated 2011 rate and the 2011 ozone season limit.

Written Comments

Written comments on the proposed non-EGU 2011 Ozone Season NOx Emission Limits should be sent to the attention of Randy Bordner, Environmental Group Manager, Air Resource Management Division, Bureau of Air Quality, DEP, P. O. Box 8468, Harrisburg, PA 17105-8468 or ranbordner@state.pa.us no later than March 28, 2011. Any written comments (including e-mails) should include the name, affiliation (if any), mailing address and telephone number of the interested person and contain "Proposed Non-EGU 2011 Ozone Season NOx Emission Limits" in the subject line.

Questions concerning this notice should be directed to Randy Bordner at (717) 772-3921. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

DEPARTMENT OF TRANSPORTATION

Finding Crawford County

Under section 2002(b) of The Administrative Code of 1929 (71 P.S. § 512(b)), the Director of the Bureau of Project Delivery as delegated by the Secretary of Transportation makes the following written finding:

The Department of Transportation (Department) is planning to remove the Peters Road Bridge that carries Township Route 703 over the Western New York and Pennsylvania Railroad line in Woodcock Township, Crawford County. The bridge is currently closed, and will be replaced with an at-grade crossing of the railroad line.

The proposed project will require a De Minimis Use of the Western New York and Pennsylvania Railroad line which is eligible for listing on the National Register of Historic Places and therefore qualifies as a Section 4(f)/Section 2002 resource.

In accordance with section 2002 of The Administrative Code of 1929 establishing the Department, a Level 1b Categorical Exclusion Evaluation Environmental has been developed for the subject bridge removal project along with a Determination of Section 4(f) De Minimis Use, Section 2002 No Adverse Use, Historic Properties document to evaluate the potential environmental impacts caused by the subject project. The Section 4(f) document also serves as the Section 2002 Evaluation. The approved documents are available in the CE/EA Expert System.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929, have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize the effects. Mitigation measures will be taken to minimize harm as stipulated in the Section 4(f)/Section 2002 document.

FISH AND BOAT COMMISSION

Classification of Wild Trout Streams; Proposed Addition of Bennett Brook, McKean County

Under 58 Pa. Code § 57.11 (relating to listing of wild trout streams), it is the policy of the Fish and Boat Commission (Commission) to accurately identify and classify stream sections supporting naturally reproducing populations of trout as wild trout streams. The Commission's Fisheries Management Division maintains the list of wild trout streams. The Executive Director, with the approval of the Commission, will from time to time publish the list of wild trout streams in the *Pennsylvania Bulletin*. The listing of a stream section as a wild trout stream is a biological designation that does not determine how it is managed. The Commission relies upon many factors in determining the appropriate management of streams.

At the next Commission meeting on April 11 and 12, 2011, the Commission will consider adding Bennett Brook, a tributary to the West Branch Tunungwant Creek, McKean County, from the headwaters downstream to the mouth, to its list of wild trout streams. The Commission will consider adding Bennett Brook to its list in addition to the proposed additions, deletions and adjustments to the list published at 41 Pa.B. 1294 (March 5, 2011).

Persons with comments, objections or suggestions concerning the classification of this stream may submit them in writing to Executive Director, Fish and Boat Commis-

sion, P. O. Box 67000, Harrisburg, PA 17106-7000, within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the com-

ments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

In adopting the original version of the TRM, the Commission directed the Bureau of Conservation, Economics and Energy Planning ("CEEP") to oversee the implementation, maintenance and periodic updating of the TRM.

Subsequently, in the Energy Efficiency and Conservation ("EE&C") Program Implementation Order, entered on January 16, 2009 at Docket No. M-2008-2069887, the Commission adopted the TRM as a component of the EE&C Program evaluation process. In that Implementation Order, the Commission also noted that the TRM will need to be updated and expanded to fulfill the requirements of the EE&C Program.

In the Order entered June 1, 2009, at Docket No. M-00051865, the Commission directed CEEP to update the TRM on an annual basis. The Commission's adoption of the 2011 TRM concludes the current annual update to the TRM.
