READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

1) Pennsylvania Rules of Evidence 803.1 and 804 are amended; and

2) The Comment to Pennsylvania Rule of Evidence 613 is revised;

in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective April 1, 2017.

Annex A

TITLE 225. RULES OF EVIDENCE

ARTICLE VI. WITNESSES

Rule 613. Witness's Prior Inconsistent Statement to Impeach; Witness's Prior Consistent Statement to Rehabilitate.

(a) *Witness's Prior Inconsistent Statement to Impeach.* A witness may be examined concerning a prior inconsistent statement made by the witness to impeach the witness's credibility. The statement need not be shown or its contents disclosed to the witness at that time, but on request, the statement or contents must be shown or disclosed to an adverse party's attorney.

* * * * *

Comment

Pa.R.E. 613 differs from F.R.E. 613 to clarify its meaning and to conform to Pennsylvania law.

Pa.R.E. 613(a) and (b) are similar to F.R.E. 613(a) and (b), but the headings and the substance make it clear that the paragraphs are dealing with the use of an inconsistent statement to impeach. The disclosure requirement in paragraph (a) is intended to deter sham allegations of the existence of an inconsistent statement.

Pa.R.E. 613(b) differs from F.R.E. 613(b) in that extrinsic evidence of a prior inconsistent statement is not admissible unless the statement is shown or disclosed to the witness during the witness's examination. Paragraph (b) is intended to give the witness and the party a fair opportunity to explain or deny the allegation.

To be used for impeachment purposes, an inconsistent statement need not satisfy the requirements of Pa.R.E. 803.1(1)(A)–(C).

F.R.E. 613 does not contain a paragraph (c); it does not deal with rehabilitation of a witness with a prior consistent statement. Pa.R.E. 613(c) gives a party an opportunity to rehabilitate the witness with a prior consistent statement where there has been an attempt to impeach the witness. In most cases, a witness's prior statement is hearsay, but F.R.E. 801(d)(1)(B) treats some prior consistent statements offered to rebut impeachment as not hearsay. Pa.R.E. 613(c) is consistent with Pennsylvania law in that the prior consistent statement is admissible, but only to rehabilitate the witness. *See Commonwealth v. Hutchinson*, [521 Pa. 482,] 556 A.2d 370 (Pa. 1989) (to rebut charge of recent fabrication); *Commonwealth v. Smith*, [518 Pa. 15,] 540 A.2d 246 (Pa. 1988) (to counter alleged corrupt motive); *Commonwealth v. Swinson*, [426 Pa. Super. 167,] 626 A.2d 627 (Pa. Super. 1993) (to negate charge of faulty memory); *Commonwealth v. McEachin*, [371 Pa. Super. 188,] 537 A.2d 883 (Pa. Super. 1988) (to offset implication of improper influence).

Pa.R.E. 613(c)(2) is arguably an extension of Pennsylvania law, but is based on the premise that when an attempt has been made to impeach a witness with an alleged prior inconsistent statement, a statement consistent with the witness's testimony should be admissible to rehabilitate the witness if it supports the witness's denial or explanation of the alleged inconsistent statement.

Official Note: Adopted May 8, 1998, effective October 1, 1998; amended March 23, 1999, effective immediately; amended March 10, 2000, effective July 1, 2000; rescinded and replaced January 17, 2013, effective March 18, 2013; **amended March 1, 2017, effective April 1, 2017.**

ARTICLE VIII. HEARSAY

Rule 803.1. Exceptions to the Rule Against Hearsay—Testimony of Declarant Necessary.

The following statements are not excluded by the rule against hearsay if the declarant testifies and is subject to cross-examination about the prior statement:

Comment

A witness must be subject to cross-examination regarding the prior statement. See *Commonwealth v. Romero*, 722 A.2d 1014, 1017-1018 (Pa. 1999) (witness was not available for cross-examination when witness refused to answer questions about prior statement).

(1) *Prior Inconsistent Statement of Declarant-Witness.* A prior statement by a declarant-witness that is inconsistent with the declarant-witness's testimony and:

(A) was given under oath subject to the penalty of perjury at a trial, hearing, or other proceeding, or in a deposition;

(B) is a writing signed and adopted by the declarant; or

(C) is a verbatim contemporaneous electronic [, **audiotaped, or videotaped**] recording of an oral statement.

Comment

The Federal Rules treat statements corresponding to Pa.R.E. 803.1(1) and (2) as “not hearsay” and places them in F.R.E. 801(d)(1)(A) and (C). Pennsylvania follows the traditional approach that treats these statements as exceptions to the hearsay rule if the declarant testifies at the trial.

Pa.R.E. 803.1(1) is consistent with prior Pennsylvania case law. See *Commonwealth v. Brady*, [510 Pa. 123,] 507 A.2d 66 (Pa. 1986) (seminal case that overruled close to two centuries of decisional law in Pennsylvania and held that the recorded statement of a witness to a murder, inconsistent with her testimony at trial, was properly admitted as substantive evidence, excepted to the hearsay rule); *Commonwealth v. Lively*, [530 Pa. 464,] 610 A.2d 7 (Pa. 1992). In *Commonwealth v. Wilson*, [550 Pa. 518,] 707 A.2d 1114 (Pa. 1998), the Supreme Court held that to be admissible under this rule an oral statement must be a verbatim contemporaneous recording in electronic, audiotaped, or videotaped form.

An inconsistent statement of a witness that does not qualify as an exception to the hearsay rule may still be introduced to impeach the credibility of the witness. See Pa.R.E. 613.

(2) **Prior Statement of Identification by Declarant-Witness.** A prior statement by a declarant-witness identifying a person or thing, made after perceiving the person or thing, provided that the declarant-witness testifies to the making of the prior statement.

Comment

Pennsylvania treats a statement meeting the requirements of Pa.R.E. 803.1(2) as an exception to the hearsay rule. F.R.E. 801(d)(1)(C) provides that such a statement is not hearsay. This differing organization is consistent with Pennsylvania law.

Pa.R.E. 803.1(2) differs from F.R.E. 801(d)(1)(C) in several respects. It requires the witness to testify to making the identification. This is consistent with Pennsylvania law. See *Commonwealth v. Ly*, 599 A.2d 613 (Pa. 1991). The Pennsylvania rule includes identification of a thing, in addition to a person.

(3) **Recorded Recollection of Declarant-Witness.** A memorandum or record made or adopted by a declarant-witness that:

(A) is on a matter the declarant-witness once knew about but now cannot recall well enough to testify fully and accurately;

(B) was made or adopted by the declarant-witness when the matter was fresh in his or her memory; and

(C) the declarant-witness testifies accurately reflects his or her knowledge at the time when made.

If admitted, the memorandum or record may be read into evidence and received as an exhibit, but

may be shown to the jury only in exceptional circumstances or when offered by an adverse party.

Comment

Pa.R.E. 803.1(3) is similar to F.R.E. 803(5), but differs in the following ways:

1. Pennsylvania treats a statement meeting the requirements of Pa.R.E. 803.1(3) as an exception to the hearsay rule in which the testimony of the declarant is necessary. F.R.E. 803(5) treats this as an exception regardless of the availability of the declarant. This differing organization is consistent with Pennsylvania law.

2. Pa.R.E. 803.1(3)(C) makes clear that, to qualify a recorded recollection as an exception to the hearsay rule, the witness must testify that the memorandum or record correctly reflects the knowledge that the witness once had. In other words, the witness must vouch for the reliability of the record. The Federal Rule is ambiguous on this point and the applicable federal cases are conflicting.

3. Pa.R.E. 803.1(3) allows the memorandum or record to be received as an exhibit, and grants the trial judge discretion to show it to the jury in exceptional circumstances, even when not offered by an adverse party.

Pa.R.E. 803.1(3) is consistent with Pennsylvania law. See *Commonwealth v. Cargo*, 444 A.2d 639 (Pa. 1982).

(4) **Prior Statement by a Declarant-Witness Who Claims an Inability to Remember the Subject Matter of the Statement.** A prior statement by a declarant-witness who testifies to an inability to remember the subject matter of the statement, unless the court finds the claimed inability to remember to be credible, and the statement:

(A) was given under oath subject to the penalty of perjury at a trial, hearing, or other proceeding, or in a deposition;

(B) is a writing signed and adopted by the declarant; or

(C) is a verbatim contemporaneous electronic recording of an oral statement.

Comment

Pa.R.E. 803.1(4) has no counterpart in the Federal Rules of Evidence. The purpose of this hearsay exception is to protect against the “turncoat witness” who once provided a statement, but now seeks to deprive the use of this evidence at trial. It is intended to permit the admission of a prior statement given under demonstrably reliable and trustworthy circumstances, see, e.g., *Commonwealth v. Hanible*, 30 A.3d 426, 445 n. 15 (Pa. 2011), when the declarant-witness feigns memory loss about the subject matter of the statement.

A prior statement made by a declarant-witness having credible memory loss about the subject matter of the statement, but able to testify that the statement accurately reflects his or her knowledge at the time it was made, may be admissible under Pa.R.E. 803.1(3). Otherwise, when a declarant-witness has a credible memory loss about the subject matter of the statement, see Pa.R.E. 804(a)(3).

Official Note: Adopted May 8, 1998, effective October 1, 1998; amended March 10, 2000, effective July 1, 2000; rescinded and replaced January 17, 2013, effective March 18, 2013; amended March 1, 2017, effective April 1, 2017.

Committee Explanatory Reports:

Final Report explaining the amendment to paragraph (1) and the updates to the Comment to paragraph (1) published with the Court's Order at 30 Pa.B. 1646 (March 25, 2000).

Final Report explaining the January 17, 2013 rescission and replacement published with the Court's Order at 43 Pa.B. 651 (February 2, 2013).

Final Report explaining the March 1, 2107 revision of the Comment and addition of paragraph (4) published with the Court's Order at 47 Pa.B. 1627 (March 18, 2017).

Rule 803.1(2). [Prior Statement of Identification] (Reserved).

[(2) *Prior Statement of Identification by Declarant-Witness.* A prior statement by a declarant-witness identifying a person or thing, made after perceiving the person or thing, provided that the declarant-witness testifies to the making of the prior statement.

Comment

Pennsylvania treats a statement meeting the requirements of Pa.R.E. 803.1(2) as an exception to the hearsay rule. F.R.E. 801(d)(1)(C) provides that such a statement is not hearsay. This differing organization is consistent with Pennsylvania law.

Pa.R.E. 803.1(2) differs from F.R.E. 801(d)(1)(C) in several respects. It requires the witness to testify to making the identification. This is consistent with Pennsylvania law. *See Commonwealth v. Ly*, 528 Pa. 523, 599 A.2d 613 (1991). The Pennsylvania rule includes identification of a thing, in addition to a person.]

Rule 803.1(3). [Recorded Recollection] (Reserved).

[(3) *Recorded Recollection of Declarant-Witness.* A memorandum or record made or adopted by a declarant-witness that:

(A) is on a matter the declarant-witness once knew about but now cannot recall well enough to testify fully and accurately;

(B) was made or adopted by the declarant-witness when the matter was fresh in his or her memory; and

(C) the declarant-witness testifies accurately reflects his or her knowledge at the time when made.

If admitted, the memorandum or record may be read into evidence and received as an exhibit, but may be shown to the jury only in exceptional circumstances or when offered by an adverse party.

Comment

Pa.R.E. 803.1(3) is similar to F.R.E. 803(5), but differs in the following ways:

1. Pennsylvania treats a statement meeting the requirements of Pa.R.E. 803.1(3) as an exception to the hearsay rule in which the testimony of the declarant is necessary. F.R.E. 803(5) treats this as

an exception regardless of the availability of the declarant. This differing organization is consistent with Pennsylvania law.

2. Pa.R.E. 803.1(3)(C) makes clear that, to qualify a recorded recollection as an exception to the hearsay rule, the witness must testify that the memorandum or record correctly reflects the knowledge that the witness once had. In other words, the witness must vouch for the reliability of the record. The Federal Rule is ambiguous on this point and the applicable federal cases are conflicting.

3. Pa.R.E. 803.1(3) allows the memorandum or record to be received as an exhibit, and grants the trial judge discretion to show it to the jury in exceptional circumstances, even when not offered by an adverse party.

Pa.R.E. 803.1(3) is consistent with Pennsylvania law. *See Commonwealth v. Cargo*, 498 Pa. 5, 444 A.2d 639 (1982).

Rule 804. Exceptions to the Rule Against Hearsay—When the Declarant is Unavailable as a Witness.

(a) *Criteria for Being Unavailable.* A declarant is considered to be unavailable as a witness if the declarant:

(1) is exempted from testifying about the subject matter of the declarant's statement because the court rules that a privilege applies;

(2) refuses to testify about the subject matter despite a court order to do so;

(3) testifies to not remembering the subject matter, **except as provided in Rule 803.1(4)**;

(4) cannot be present or testify at the trial or hearing because of death or a then-existing infirmity, physical illness, or mental illness; or

(5) is absent from the trial or hearing and the statement's proponent has not been able, by process or other reasonable means, to procure:

(A) the declarant's attendance, in the case of a hearsay exception under Rule 804(b)(1) or (6); or

(B) the declarant's attendance or testimony, in the case of a hearsay exception under Rule 804(b)(2), (3), or (4).

But this [**subdivision**] **paragraph** (a) does not apply if the statement's proponent procured or wrongfully caused the declarant's unavailability as a witness in order to prevent the declarant from attending or testifying.

Comment

[This rule is identical to F.R.E. 804(a).] Pa.R.E. 804(a)(3) differs from F.R.E. 804(a)(3) in that it excepts from this rule instances where a declarant-

witness's claim of an inability to remember the subject matter of a prior statement is not credible, provided the statement meets the requirements found in Pa.R.E. 803.1(4). This rule is otherwise identical to F.R.E. 804(a). A declarant-witness with credible memory loss about the subject matter of a prior statement may be subject to this rule.

Rule 804(b). The Exceptions.

(b) *The Exceptions.* The following are not excluded by the rule against hearsay if the declarant is unavailable as a witness:

(1) *Former Testimony.* Testimony that:

(A) was given as a witness at a trial, hearing, or lawful deposition, whether given during the current proceeding or a different one; and

(B) is now offered against a party who had—or, in a civil case, whose predecessor in interest had—an opportunity and similar motive to develop it by direct, cross-, or redirect examination.

Comment

Pa.R.E. 804(b)(1) is identical to F.R.E. 804(b)(1).

In criminal cases the Supreme Court has held that former testimony is admissible against the defendant only if the defendant had a “full and fair” opportunity to examine the witness. *See Commonwealth v. Bazemore*, [531 Pa. 582,] 614 A.2d 684 (Pa. 1992).

Depositions

Depositions are the most common form of former testimony that is introduced at a modern trial. Their use is provided for not only by Pa.R.E. 804(b)(1), but also by statute and rules of procedure promulgated by the Pennsylvania Supreme Court.

The Judicial Code provides for the use of depositions in criminal cases. 42 Pa.C.S. § 5919 provides:

Depositions in criminal matters. The testimony of witnesses taken in accordance with section 5325 (relating to when and how a deposition may be taken outside this Commonwealth) may be read in evidence upon the trial of any criminal matter unless it shall appear at the trial that the witness whose deposition has been taken is in attendance, or has been or can be served with a subpoena to testify, or his attendance otherwise procured, in which case the deposition shall not be admissible.

42 Pa.C.S. § 5325 sets forth the procedure for taking depositions, by either prosecution or defendant, outside Pennsylvania.

In civil cases, the introduction of depositions, or parts thereof, at trial is provided for by Pa.R.C.P. No. 4020(a)(3) and (5).

A video deposition of a medical witness, or any expert witness, other than a party to the case, may be introduced in evidence at trial, regardless of the witness's availability, pursuant to Pa.R.C.P. No. 4017.1(g).

42 Pa.C.S. § 5936 provides that the testimony of a licensed physician taken by deposition in accordance with the Pennsylvania Rules of Civil Procedure is admissible in a civil case. There is no requirement that the physician testify as an expert witness.

(2) *Statement Under Belief of Imminent Death.* A statement that the declarant, while believing the declarant's death to be imminent, made about its cause or circumstances.

Comment

Pa.R.E. 804(b)(2) differs from F.R.E. 804(b)(2) in that the Federal Rule is applicable in criminal cases only if the defendant is charged with homicide. The Pennsylvania Rule is applicable in all civil and criminal cases, subject to the defendant's right to confrontation in criminal cases.

In *Crawford v. Washington*, 541 U.S. 36 (2004), the Supreme Court interpreted the Confrontation Clause in the Sixth Amendment of the United States Constitution to prohibit the introduction of “testimonial” hearsay from an unavailable witness against a defendant in a criminal case unless the defendant had an opportunity to confront and cross-examine the declarant, regardless of its exception from the hearsay rule. However, in footnote 6, the Supreme Court said that there may be an exception, *sui generis*, for those dying declarations that are testimonial.

(3) *Statement Against Interest.* A statement that:

(A) a reasonable person in the declarant's position would have made only if the person believed it to be true because, when made, it was so contrary to the declarant's proprietary or pecuniary interest or had so great a tendency to invalidate the declarant's claim against someone else or to expose the declarant to civil or criminal liability; and

(B) is supported by corroborating circumstances that clearly indicate its trustworthiness, if it is offered in a criminal case as one that tends to expose the declarant to criminal liability.

Comment

This rule is identical to F.R.E. 804(b)(3).

(4) *Statement of Personal or Family History.* A statement made before the controversy arose about:

(A) the declarant's own birth, adoption, legitimacy, ancestry, marriage, divorce, relationship by blood, adoption or marriage, or similar facts of personal or family history, even though the declarant had no way of acquiring personal knowledge about that fact; or

(B) another person concerning any of these facts, as well as death, if the declarant was related to the person by blood, adoption, or marriage or was so intimately associated with the person's family that the declarant's information is likely to be accurate.

Comment

Pa.R.E. 804(b)(4) differs from F.R.E. 804(b)(4) by requiring that the statement be made before the controversy arose. *See In re McClain's Estate*, 392 A.2d 1371 (Pa. 1978). This requirement is not imposed by the Federal Rule.

(5) *Other exceptions (Not Adopted)*

Comment

Pennsylvania has not adopted F.R.E. 804(b)(5) (now F.R.E. 807).

(6) *Statement Offered Against a Party That Wrongfully Caused the Declarant's Unavailability.* A statement offered against a party that wrongfully caused—or acquiesced in wrongfully causing—the declarant's unavailability as a witness, and did so intending that result.

Comment

This rule is identical to F.R.E. 804(b)(6).

FINAL REPORT¹

Revision of the Comment to Rule of Evidence 613
Amendment of Rules of Evidence 803.1 & 804

On March 1, 2017, effective April 1, 2017, upon the joint recommendation of the Committee on Rules of Evidence, the Court adopted a revision of the Comment to

¹ The Committee's Final Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the Committee's explanatory Final Reports.

Pa.R.E. 613 and amendment of Pa.R.E. 803.1 to add a new paragraph (4) and Pa.R.E. 804(a)(3).

As described in the Publication Report, the Committee proposed amendments to protect against the “turncoat witness” who once provided a statement, but now seeks to deprive the use of this evidence at trial by feigning memory loss. “[T]he unwilling witness often takes refuge in a failure to remember.” 3A J. Wigmore, Evidence § 1043, at 1061.

New paragraph (4) to Pa.R.E. 803.1 excepts from the hearsay rule a prior statement when the declarant-witness claims an inability to remember the substance of the statement and the prior statement was given under circumstances identical to paragraph (1).

Pa.R.E. 804(a)(3), which considers a declarant unavailable to testify as a witness if the declarant testifies to not remembering the subject matter at issue, has been amended to recognize the new exception in Pa.R.E. 803.1(4). However, this new exception is not applicable if the court finds the claimed inability to remember to be credible. A witness with a credible inability to remember the subject matter at issue may be subject to Pa.R.E. 804.

Notwithstanding a witness’s claimed memory loss about the subject matter of the prior statement, the witness must still be subject to cross-examination about the statement pursuant to Pa.R.E. 803.1. Further, readers should note that these amendments do not attempt to codify or reflect requirements under the Confrontation Clause. See Pa.R.E. 802, Comment.

Relatedly, the Comment to Pa.R.E. 613 was revised to clarify that the criteria set forth in Pa.R.E. 803.1(1)(A)—(C) is not applicable to the use of inconsistent statements for impeachment pursuant to Rule 613.

(a) *Separate Awards of Real Property.* A schedule of distribution shall set forth separate awards of real property in separate paragraphs.

(b) *Description of Real Property. Certification by Counsel.* Real property shall be described in the manner appearing in the last deed of record and shall, in addition, include information pertinent to the derivation of decedent's title.

2.10. Foreign Heirs and Unknown Distributees. Report by Fiduciary.

(b) The report required by Pa.O.C. Rule 2.10(b) shall be submitted at the audit to the Court and the Auditor and shall include substantially the following:

(1) *Unknown Distributee.* If it appears that the existence, identity or whereabouts of a distributee is unknown, or there are no known heirs, the fiduciary shall submit the written report, verified by the fiduciary or the fiduciary's counsel, in which shall be set forth:

(i) The nature of the investigation made to locate the heirs of the decedent, in complete detail; and

(ii) In cases of intestacy, or where there are no known heirs, a family tree, as complete as possible under the circumstances, supported by such documentary evidence as the fiduciary has been able to obtain. The term "investigation", as used in this Rule, shall include inquiry of or to as many of the following as may be pertinent and feasible: residents of the household in which the decedent resided; friends and neighbors; beneficial organizations; insurance records; church membership; school records; social security, Veterans' Administration or military service records; naturalization records, if not native born; and such other sources of information as the circumstances may suggest.

(2) *Foreign Distributees.* If the fiduciary requests the Court to withhold distribution to a foreign distributee, he or she shall submit the written report, verified by the fiduciary or the fiduciary's counsel, in which shall be set forth:

(i) the relationship of the distributee to the decedent, and any available information concerning his/her present whereabouts;

(ii) in cases of intestacy, a family tree, as complete as possible under the circumstances, supported by such documentary evidence as the fiduciary has been able to obtain; and

(iii) the reasons for the request that distribution be withheld, and the suggested manner of withholding.

CHAPTER III

RULE 3

(3) *Notice Requirements Prior to Presentation at Motion Court.* Prior to the presentation to the Court of any motion or petition requesting an immediate Order of Court, other than a Rule to Show Cause which grants no relief, opposing counsel and unrepresented parties must be given notice, subject to the following:

(i) *Contents of Notice.* The notice must give the date and time when the motion or petition will be presented to the Court and must be accompanied by a copy of the proposed motion and Order.

(ii) *Certification of Notice.* The motion or petition must contain a certificate signed by counsel verifying that proper notice or citation was given under this Rule.

(iii) *Length of notice required.* Except where otherwise required under law, the following notice shall be required:

(a) If the motion or petition is uncontested, either two (2) full business days' notice must be given by personal delivery or facsimile transmission to each party or their counsel's office, or five (5) full business days' notice must be given if notice is by mail.

(b) Where such motion or petition does not meet the requirements of subsection (iii)(a) above, twenty (20) days' notice as set forth in Pa.O.C. Rule 2.5(d) and 3.5(b).

(iv) *Failure to give notice.* The Court will not enter an Order on a petition or motion without the Certificate of Notice being attached unless a special cause is shown to the Court.

CHAPTER IV

RULE 4

FORMAT AND SERVICE OF LEGAL PAPER BY PARTIES AND COURT; ELECTRONIC FILING

Rule 4.1. Format of All Legal Paper.

(a) No paper or other document may be filed in the Register of Wills or Clerk other than paper 8 1/2" x 11" size. The only exception to this Rule is the filing of a will or other original document.

Explanatory Comment

This rule provides an additional alternative for the Clerk and the Court to serve notices, opinions, and orders. This rule does not permit service upon counsel via counsel's box by any persons or entities other than the Clerk and the Court.

CHAPTER V

RULE 5

RULES GOVERNING SPECIFIC TYPES OF PETITIONS

The notice shall be submitted by regular U.S. mail and shall include the following:

- (1) The name of the creator of the property interest;
- (2) The nature of the property interest created;
- (3) Notification that the addressee has been named as a beneficiary in said dispositive instrument and a copy of such instrument or a description of the beneficiary's interest under the terms of the instrument; and
- (4) The address where a copy of the dispositive interest instrument can be acquired if desired.

Comment: 20 Pa.C.S. § 301(b) provides that the title to real estate is vested in beneficiaries and/or heirs, as applicable upon the death of the decedent subject to the right of the personal representative to administer the estate. 20 Pa.C.S. § 3357(a) provides that beneficiaries and/or heirs, as applicable, can give a good deed to real estate if more than one year has elapsed after death and no letters have been issued or within such year if no letters have been issued in the Commonwealth. As a result there can be circumstances when the probate of a will or filing of a proof of death that identifies the beneficiaries and establishes the decedent died intestate may along with an inheritance tax return and notice to medical assistance, etc. serve as a less expensive form of estate "administration" when the only assets are real estate and there are no creditors to speak of. The purpose of Local Rule 5.18, which is to apply when a will is probated but letters not issued, is to provide for notice to parties named in the will that has been probated.

PROPOSED RULEMAKING

BOARD OF COAL MINE SAFETY

[25 PA. CODE CH. 208]

Sensitive Ground Fault

The Board of Coal Mine Safety (Board) proposes to amend Chapter 208 (relating to underground coal mine safety) to read as set forth in Annex A. This proposed rulemaking adds a provision to require operators to equip certain circuits with sensitive ground fault protection, as well as related definitions. This protection will enhance miner safety with respect to electric cables.

This proposed rulemaking was adopted by the Board at its meeting of September 13, 2016.

A. *Effective Date*

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

B. *Contact Persons*

For further information, contact Craig Carson, Director, Bureau of Mine Safety, 131 Broadview Road, New Stanton, PA 15672, (724) 404-3154 or cocarson@pa.gov; or Joseph Iole, Assistant Counsel, Bureau of Regulatory Counsel, Rachel Carson State Office Building, P.O. Box 8464, Harrisburg, PA 17105-8464, (717) 787-9376 or jiole@pa.gov. Information regarding submitting comments on this proposed rulemaking appears in Section J of this preamble. Persons with a disability may use the Pennsylvania AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This proposed rulemaking is available on the Department of Environmental Protection's (Department) web site at www.dep.pa.gov.

C. *Statutory Authority*

Sections 106 and 106.1 of the Bituminous Coal Mine Safety Act (BCMSA) (52 P.S. §§ 690-106 and 690-106.1) authorize the adoption of regulations to implement the BCMSA. The BCMSA further authorizes the Board to promulgate necessary or appropriate regulations to implement the requirements of the BCMSA and to protect the health, safety and welfare of miners and other individuals in and about mines.

D. *Background and Purpose*

The BCMSA was enacted on July 7, 2008, which was the first significant update of the Commonwealth's underground bituminous coal mine safety laws since 1961. See section 103(a) of the BCMSA (52 P.S. § 690-103(a)). The BCMSA provides broad authority to promulgate regulations that are necessary or appropriate to implement the BCMSA and to protect the health, safety and welfare of miners and other individuals in and about mines. See section 106.1(a) of the BCMSA. Under section 106 of the BCMSA, the Board consists of three members representing mine workers, three members representing underground bituminous coal mine operators and the Secretary of the Department, who serves as the Board's chairperson.

This proposed rulemaking adds a provision to Chapter 208 to enhance cable safety. Specifically, section 334(c) of the BCMSA (52 P.S. § 690-334(c)) directed the mining industry to initiate studies into possible means of enhancing safety of underground cables, including through,

among other things, "more sensitive ground fault limiting and detection." Section 334(c) of the BCMSA further required both laboratory and underground testing of these systems, and that the Board will take action on the industry's reports and recommendations.

To that end, the Pennsylvania Coal Alliance formed a committee with representatives from several coal mine operators to convene, manage the studies, and ultimately produce a report and recommendations to the Board. The committee produced a report in March 2012 entitled "Pennsylvania Coal Association Bituminous Coal Mine Safety Act Section 334 Industry Studies Final Report" (Final Report). This proposed rulemaking is the product of the Final Report, which was followed by extensive deliberations by the Board over the course of 3 years.

This proposed rulemaking enhances miner safety from electrocution by improving the sensitive ground fault mechanisms on certain electrical circuits powering machinery within the mines. This proposed rulemaking will require operators to ensure that certain new and rebuilt power centers are equipped with these more sensitive ground fault protection devices (including sensing relays, limiting resistors and interrupting devices) thus enhancing the safety of persons working with or around the electric cables supplying power to certain machinery.

To improve miner safety, per the BCMSA, this proposed rulemaking is more stringent than Federal regulations in certain regards. The Federal Mine Safety and Health Administration (MSHA) regulation in 30 CFR 75.901(a) (relating to protection of low- and medium-voltage three-phase circuits used underground) requires a ground fault current limit (trip setting) of 25 amperes or less, and an MSHA policy manual recommends that the device be adjusted to operate at not more than 50% of the current rating of the grounding resistor.

In light of the Final Report, which indicated that a setting of 125 milli-amperes would be too low to functionally operate equipment at the mine, but that 300 milli-amperes was more protective than the current regulatory requirement of 25 amperes, this proposed rulemaking requires a trip setting of 300 milli-amperes or less nominally, except in the case of circuits powering equipment using variable speed drives, in which case, if nuisance tripping occurs at 300 milli-amperes, the operator may adjust the setting no greater than the lower value of 500 milli-amperes or 1/2 of the neutral ground resistor's current rating. These settings improve safety while maintaining mining operations.

There is a compelling public interest in ensuring that miners are safe in the workplace. Miners, their families, mining companies and others will benefit from electrical safety in underground mines. As a result of this proposed rulemaking, the risk of workplace injuries and deaths related to these electric cables will decline. Adopting this proposed rulemaking ensures that operations at underground bituminous coal mine sites are safely conducted and maintained.

E. *Summary of Proposed Regulatory Requirements*

§ 208.1. *Definitions*

The following terms are proposed to be added: "cross-cut," "inby" and "working section," which appear in proposed § 208.600 (relating to sensitive ground fault); and "working face," which appears in the proposed definition of "inby."

§ 208.600. *Sensitive ground fault*

This proposed section requires that operators utilize sensitive ground fault devices on circuits that operate three-phase electrically operated equipment operated on a working section in by the last open crosscut; specifies the settings of the sensitive ground fault devices powering various machines; and sets an implementation schedule for utilizing these devices on new, rebuilt and existing power centers.

F. *Benefits, Costs and Compliance*

Benefits

This proposed rulemaking enhances cable safety by requiring on certain circuits a sensitive ground fault protective device. Sensitive ground fault protective devices improve cable safety by shutting off electrical power through the circuit when it detects that a current is flowing along an unintended path, thereby reducing the risk of bodily harm from electrocution.

Compliance costs

This proposed rulemaking will cost the nine operators approximately \$500,000 over 5 years. This cost reflects the purchase of new power centers equipped with the sensitive ground fault devices and the rebuilding of existing machines to include these devices.

Paperwork requirements

This proposed rulemaking does not generate additional paperwork.

G. *Pollution Prevention*

The Federal Pollution Prevention Act of 1990 (42 U.S.C.A. §§ 13101—13109) establishes a National policy that promotes pollution prevention as the preferred means for achieving state environmental protection goals. The Department encourages pollution prevention, which is the reduction or elimination of pollution at its source, through the substitution of environmentally friendly materials, more efficient use of raw materials and the incorporation of energy efficiency strategies. Pollution prevention practices can provide greater environmental protection with greater efficiency because they can result in significant cost savings to facilities that permanently achieve or move beyond compliance. This proposed rulemaking has minimal impact on pollution prevention since it is focused on mine safety.

H. *Sunset Review*

The Board is not establishing a sunset date for these regulations, since they are needed for the Department to carry out its statutory authority. The Department will continue to closely monitor these regulations for their effectiveness and recommend updates to the Board as necessary

I. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on March 3, 2017, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Environmental Resources and Energy Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review

state where a program of certification or registration is not provided or when the program does not meet at least minimum Federal standards established by the Secretary of the United States Department of Labor, the certification or registration shall be by the Secretary of the United States Department of Labor.

Crosscut—A passageway driven between the entry and its parallel air course or air courses for ventilation purposes.

Flash point—The minimum temperature at which sufficient vapor is released by a liquid or solid to form a flammable vapor-air mixture at atmospheric pressure.

Inby—In the direction of the working face.

MSHA—The term as defined in section 104 of the act.
* * * * *

Underground bituminous coal mine or mine—The term as defined in section 104 of the act.

Working face—Any place in a mine where coal is extracted during a mining cycle.

CABLE SAFETY

(Editor's Note: The following section is new and printed in regular type to enhance readability.)

§ 208.600. Sensitive ground fault.

All three-phase electrically operated equipment operated on a working section inby the last open crosscut must receive power from a circuit equipped with a sensitive ground fault protection as specified in this section.

(1) *Sensitive ground fault.*

(i) A sensitive ground fault protective device must be connected so that the associated circuit will be instantaneously interrupted upon the occurrence of a ground fault which may not exceed 300 milli-amperes nominally.

(ii) A sensitive ground fault protective device on these circuits on equipment utilizing variable speed drives must be connected so that the associated circuit will be instantaneously interrupted upon the occurrence of a ground fault which may not exceed 300 milli-amperes nominally. If nuisance tripping occurs on these circuits, the devices shall be permitted to be adjusted to the minimum setting necessary to prevent nuisance tripping. In no case shall a device be adjusted greater than the lower value of 500 milli-amperes or 1/2 of the neutral ground resistor's current rating.

(iii) The secondary main circuit breaker protecting any sensitive ground fault circuit subject to this section must also provide backup sensitive ground fault protection. Relay settings may include a short time delay (250mS) or a higher current setting, or both, to provide coordination. In no case shall a device be adjusted greater than the lower value of 500 milli-amperes or 1/2 of the neutral ground resistor's current rating.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of April 2017

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of April, 2017, is 5 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.74 to which was added 2.50 percentage points for a total of 5.24 that by law is rounded off to the nearest quarter at 5 1/4%.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Availability of Draft 2016 Consolidated Plan Annual Performance and Evaluation Report

The Department of Community and Economic Development (Department) is preparing its 2016 Consolidated Annual Performance and Evaluation Report (CAPER) on

the progress and accomplishments made during the 2016 program year in implementing the Commonwealth's Consolidated Plan for Federal Fiscal Years 2014—2018. This document must be submitted to, and approved by, the United States Department of Housing and Urban Development (HUD) for the Commonwealth and organizations within this Commonwealth to receive funding under most HUD housing and community development programs. The Consolidated Plan creates a unified strategy for housing, homelessness and community development programs, as well as the necessary linkages for building successful neighborhoods and communities.

The Commonwealth has allocated funds under several programs, namely the Community Development Block Grant, the HOME Investment Partnerships Program, the Emergency Solutions Grant Program and the Housing Opportunities for People with AIDS Program. Additionally, this CAPER will detail funding from 2016 under the Neighborhood Stabilization Program and the Community Development Block Grant—Disaster Recovery Program. The CAPER discusses accomplishments in relation to goals and objectives identified in the 2016 Action Plan of the Consolidated Plan.

The CAPER assesses the goals and objectives of this strategic plan; discusses how the Commonwealth is affirmatively furthering fair and affordable housing; reviews the activities of the Continuums of Care; and appraises how well resources in community development, homelessness and housing are being leveraged.

Public Comments

Individuals or organizations may provide written comments regarding this draft version of the CAPER. This report will be available on March 11, 2017, at <http://dced.pa.gov> or by calling (717) 720-7404. Written comments will be accepted about the CAPER content and the process by which public input is gathered. The Commonwealth encourages public participation in this process.

Written comments will be accepted until 4 p.m. on March 28, 2017, and should be sent to Megan L. Snyder, Department of Community and Economic Development, Center for Compliance, Monitoring and Training, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120-0225, RA-DCEDcdbg&home questions@pa.gov.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation

to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25

Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

06-03171A: Dengler Funeral Home, Inc. (144 North Spruce Street, Birdsboro, PA 19508) for construction of a human crematory controlled by an afterburner at the facility in Birdsboro Borough, **Berks County**. The facility has the following potential air emissions: 0.53 tpy of PM, 0.35 tpy of CO, 0.42 tpy of NO_x and negligible for VOCs. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination source as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. The plan approval and subsequent State-Only operating permit will include emission restrictions, work practice standards, and testing, monitoring, record keeping, and reporting requirements to ensure the facility complies with the applicable air quality regulations. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the source is constructed and operated in compliance with

the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval may be incorporated into an Operating Permit pursuant the provisions of 25 Pa. Code Chapter 127.

containing VOC and HAP. For some client needs, hydroblasting is used to add texture to the concrete. PM emission result from four (4) outdoor silos, each equipped with bin vents, and the hydroblasting operation. Combustion from fifteen (15) kerosene heaters and two (2) natural gas Beck water heaters results in emissions of all criteria pollutants. The following are potential site-wide emissions: PM—less than 15 TPY; SO_x—less than 3 TPY; NO_x—less than 2 TPY; CO—less than 1 TPY; VOC—less than 1 TPY; and HAP—less than 1 TPY. Monitoring, record keeping and reporting requirements already exist in the operating permit to address applicable limitations.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

**HAZARDOUS SITES CLEAN-UP
UNDER THE ACT OF
OCTOBER 18, 1988
Notice of Interim Response
Former TP Corporation Site
Duryea Borough, Luzerne County**

The Department, under the authority of the Hazardous Sites Cleanup Act, 35 P.S. § 6020.101 et seq. ("HSCA"), has proposed an interim response action at the Former TP Corporation Site ("Site"). This response will be undertaken pursuant to Sections 505(b) and (c) of HSCA, 35 P.S. § 6020.505(b) and (c). The Site is located at 620 Foote Ave. in Duryea Borough, Luzerne County, Pennsylvania.

TP Corporation coated and printed designs onto fabric materials utilizing adhesives and flock material and ceased operation in 2006. However, many of the chemicals and solvents remained at the facility. Caren Cembalest is the former owner of the building. She declared bankruptcy and the building/property has been abandoned.

On February 9, 2011, the Department conducted a Site visit to evaluate the building and abandoned chemicals.

Approximately 250—350 containers of varying sizes (55-gallon drums, 35-gallon drums and 5-gallon containers) were observed and classified as being either flammable solids/liquids, acids, potassium hydroxide, paint and acetone.

Phase I of the investigation included the sampling, characterization and consolidation of the materials in preparation for disposal. The consolidated materials were then either reused, recycled or disposed of at Department-approved facilities.

Phase II of the investigation, conducted in October 2012, determined that some soil samples exceeded the Pennsylvania Statewide Health Standard (SHS), Non-Residential Soil to Groundwater standards for toluene, trichloroethylene (TCE), 1,2,4-trimethylbenzene (1,2,4-TMB), 1,3,5-trimethylbenzene (1,3,5-TMB), dichloromethane (DCM), ethylbenzene, and tetrachloroethylene (PCE).

Phase III of the investigation, conducted in 2013, consisted of the installation of three (3) monitoring wells, groundwater sampling, and offsite soil sampling. None of the groundwater samples had detections of any of the constituents. Based on the results, it appeared there was no impact to the groundwater and no constituents have migrated off-site. Indoor air sampling was conducted inside the building in October 2013. None of the vapor sample results exceeded the SHS.

The results of on-Site sampling have identified the contaminants of concern (COC) as toluene, TCE, 1,2,4-TMB, 1,3,5-TMB, DCM, ethylbenzene, and PCE. These COCs were present in the materials used while the plant was printing and coating fabric. Direct contact with the soils on Site, via dermal contact and/or direct ingestion, is the primary concern.

The Department considered eight alternatives to address the threats at the Site: 1) No Action; 2) Soil Removal and off-Site Disposal/Treatment (Exterior of Building) and Deed Restrictions or Environmental Covenant; 3) Soil Vapor Extraction (SVE); 4) In-situ Chemical Oxidation (ISCO); 5) Enhanced Bioremediation; 6) Bioventing; 7) Monitored Natural Attenuation (MNA); and 8) Excavation with ISCO.

The Department has chosen the following actions because they are in compliance with applicable or relevant and appropriate requirements (ARARs) and are cost effective:

- Soil removal and off-site disposal/treatment; and
- Implementation of environmental covenants to restrict future land uses and remove the potential for harm to the implemented remedy.

Based upon the fact that a release of a hazardous substance as defined by HSCA has occurred and that the threat of a release of hazardous substances exists and that an ongoing release is likely if no actions are taken, the Department is authorized to undertake a response action at this Site under Section 501(a) of HSCA, 35 P.S. § 6020.501(a).

This notice is being provided pursuant to Section 506(b) of HSCA. The Administrative Record, which contains the information that forms the basis and documents the selection of this response, is available for public review and comment at the DEP's Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA, and at the Duryea Borough Building, 315 Main Street, Duryea, PA. It is available for review at the Regional Office Monday

through Friday from 8 a.m. to 4 p.m., and at the Borough Building Office of the Borough Manager, Monday through Friday from 8 a.m. to 4 p.m.

The Administrative Record will be open for comment through June 16, 2017. Persons may submit written comments into the Record during this time only, by sending them to Jonathan Ulanoski, Project Officer, at the DEP's Northeast Regional Office, 2 Public Square, Wilkes-Barre, PA 18701, or by delivering them to that office in person.

In addition, persons may present oral comments on the response action, for inclusion in the Administrative Record, at a public hearing scheduled for May 3, 2017, at 10:00 a.m. at the Duryea Borough Building, Council Room or Library. Persons wishing to present testimony at the hearing should register with Jonathan Ulanoski before April 26, 2017, by telephone at (570) 826-5546, or in writing to Jonathan Ulanoski at the DEP's Northeast Regional Office. The testimony at the public hearing will be limited to the proposed interim response. If no person registers to present oral comments by the date specified above, the hearing will not be held.

Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings, should contact Jonathan Ulanoski or the Pennsylvania AT&T Relay Service at 1-800-654-5984 (TDD) to discuss how the Department may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in

the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Nursing Home Patient Safety Trust Fund Surcharge for Fiscal Year 2016-2017 as Provided for under the Medical Care Availability and Reduction of Error (MCARE) Act

Sections 401—411 of the Medical Care Availability and Reduction of Error (MCARE) Act (MCARE Act) (40 P.S. §§ 1303.401—1303.411) require nursing homes to electronically report health care-associated infection (HAI) data to the Department of Health (Department) and the Patient Safety Authority (Authority). Mandatory reporting of nursing home HAIs was implemented in June 2009.

Section 409 of the MCARE Act states that every fiscal year, beginning July 1, 2008, each nursing home shall pay the Department a surcharge on its licensing fee to provide sufficient revenues for the Authority to perform its responsibilities related to the MCARE Act. The base amount of \$1 million for Fiscal Year (FY) 2008-2009 has the potential to be increased no more than the Consumer Price Index in each succeeding fiscal year.

The FY 2015-2016 surcharge was \$1.08 million. The Authority has recommended that the FY 2016-2017 surcharge assessment total \$1.11 million.

To assess the surcharge in an equitable manner, the number of licensed nursing home beds as of December 31, 2016, was totaled and that amount was divided into \$1.11 million. The total number of licensed beds is 86,779. This equates to a surcharge of \$12.791 per bed.

To obtain a copy of the assessment for all facilities, send an e-mail to paexcept@pa.gov and request the FY 2016-2017 MCARE surcharge assessment list for nursing care facilities. Each facility will receive notification from the Department setting forth the amount due, date due, the name and address to which the payment should be sent. Payment will be due within 60 days. The MCARE Act authorizes the Department to assess an administrative penalty of \$1,000 per day on facilities who fail to pay the surcharge by the due date.

If a nursing care facility has any questions concerning this notice, a representative from that facility should contact Susan Williamson, Director, Division of Nursing Care Facilities, Room 526, Health and Welfare Building, 825 Forster Street, Harrisburg, PA 17120, (717) 787-1816.

Persons with a disability who require an alternative format of this document (for example, large print, audio-tape or Braille) should contact Susan Williamson at the address or telephone number listed previously, or for speech and/or hearing impaired persons V/TT (717) 783-6514, or the Pennsylvania AT&T Relay Service at (800) 654-5984.

Patient Safety Trust Fund Surcharge for Fiscal Year 2016-2017 as Provided for under the Medical Care Availability and Reduction of Error (MCARE) Act

On March 20, 2002, the Medical Care Availability and Reduction of Error (MCARE) Act (MCARE Act) (40 P.S. §§ 1303.101—1303.910) was enacted. Among other provisions, the MCARE Act established the Patient Safety

Authority (Authority) to collect, analyze and evaluate data regarding reports of serious events and incidents occurring in certain medical facilities and to make recommendations to those facilities regarding changes, trends and improvements in health care practices and procedures for the purpose of reducing the number and severity of serious events and incidents.

Section 305(a) of the MCARE Act (40 P.S. § 1303.305(a)) authorizes the establishment of a Patient Safety Trust Fund (Fund) for the operations of the Authority. Section 305(c) of the MCARE Act states that beginning July 1, 2002, and for every fiscal year thereafter, each medical facility covered by the MCARE Act shall pay the Department of Health (Department) a surcharge on its licensing fee as necessary to provide sufficient revenues for the Authority to operate. Section 305(c) of the MCARE Act also states that the total assessment amount for Fiscal Year (FY) 2002-2003 shall not exceed \$5 million and that the Department shall transfer the total assessment amount to the Fund within 30 days of receipt. Section 305(d) of the MCARE Act provides that for each succeeding calendar year, the Department shall determine and assess each medical facility a proportionate share of the Authority's budget. The base amount of \$5 million provided for in FY 2002-2003 shall be increased no more than the Consumer Price Index in each succeeding fiscal year.

Initially, the surcharge was assessed on ambulatory surgical facilities (ASF), birth centers and hospitals. Subsequently, the MCARE Act was amended and abortion facilities were also required to pay the surcharge.

With the cooperation of hospitals, birthing centers, abortion facilities and ASFs in this Commonwealth, the surcharge has been implemented and has provided resources for the implementation of the web-based Pennsylvania Patient Safety Reporting System and the operation of the Authority.

This notice sets forth the procedure that the Department will follow in assessing and collecting the surcharge for FY 2016-2017. The Authority FY 2016-2017 surcharge assessment is \$6.675 million. The MCARE Act states that the surcharge shall be collected from medical facilities, which are defined as ASFs, birth centers and hospitals licensed under either the Health Care Facilities Act (35 P.S. §§ 448.101—448.904b) or Article X of the Human Services Code (62 P.S. §§ 1001—1088). Also included, as of May 1, 2006, are abortion facilities which are defined in 18 Pa.C.S. § 3203 (relating to definitions). Nursing homes, which are assessed under sections 401—411 of the MCARE Act (40 P.S. §§ 1303.401—1303.411), receive a separate assessment notification.

To assess the surcharge in an equitable manner, the Department continues to use a common denominator in these facilities. For ASFs, birth centers and abortion facilities, the Department has chosen the number of operating and procedure rooms. For hospitals, the Department has chosen the number of beds contained on the license of each hospital, whether by the Department (general and special acute care hospitals) or the Department of Human Services (privately-owned psychiatric hospitals). It was also necessary to pick a point in time to make this assessment; the Department has chosen December 31, 2016.

The number of operating/procedure rooms (for ASFs, birth centers and abortion facilities) and the number of licensed beds (for hospitals) was totaled and that number was divided into \$6.675 million to arrive at a charge per unit for the assessment. The total number of units

(operating rooms, procedure rooms and licensed beds) is 42,135. Dividing this number into \$6.675 million results in a per unit assessment for each installment of approximately \$158.42. The assessment is payable by May 31, 2017.

To obtain a copy of the assessment for all facilities, send an e-mail to paexcept@pa.gov and request the FY 2016-2017 MCARE surcharge assessment lists.

Each facility will receive notification from the Department setting forth the amount due, date due and the name and address to which the payment should be sent. Payment will be due within 60 days. The MCARE Act authorizes the Department to assess an administrative penalty of \$1,000 per day on facilities who fail to pay the surcharge by the due date.

If a facility has any questions concerning this notice, a representative from that facility should contact Garrison E. Gladfelter, Jr., Chief, Division of Acute and Ambulatory Care, Room 532, Health and Welfare Building, 825 Forster Street, Harrisburg, PA 17120, (717) 783-8980.

Persons with a disability who require an alternative format of this document (for example, large print, audiotape or Braille) should contact Garrison E. Gladfelter, Jr. at the previously listed address or telephone number, or for speech and/or hearing impaired persons V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984.

PHILADELPHIA PARKING AUTHORITY

Taxicab Rate Review; Request for Public Comment; Public Comment Hearing; Doc. No. P-17-02-01

On February 22, 2017, a Petition for Rate Change (Petition) was filed with the Philadelphia Parking Authority's (Authority) Taxicab and Limousine Division (TLD) requesting a change to the existing rates charged by taxicabs operating in Philadelphia.

The Petition requests, among other things, that:

- 1) The Authority re-establish boundaries of all taxicab trips within the airport flat-rate zone.
- 2) The minimum fare originating from the Philadelphia International airport be increased from \$11 to \$20, which includes the \$1.50 egress fee.
- 3) A convenience fee of \$1 be charged to a taxicab customer using a credit card or; in the alternative, a 5% convenience fee be charged to a taxicab customer using a credit card.
- 4) The mileage and waiting time increments be increased from \$0.23 to \$0.25.
- 5) A \$0.50 per trip "rush hour" surcharge be added to all taxicab fares between 6 a.m. to 9 a.m. and between 4 p.m. to 8 p.m.; and
- 6) Taxicab drivers be provided the option of charging a \$35 cleaning fee to a taxicab passenger that vomits or intentionally causes a defect to the inside of a taxicab from the use of other riders.

The TLD will formally request to the Authority on March 24, 2017, to approve the reopening of a rate investigation. Contingent upon the Authority's approval, the TLD is now seeking information and comment from the public-at-large, members of the taxicab, limousine

and dispatcher industry, prospective and current technology vendors, and any other interested parties regarding the Petition.

The TLD will hold a public comment hearing concerning the Petition on Thursday, March 30, 2017, from 10:30 a.m. to 1 p.m. at the Independence Visitor Center, Liberty View Ballroom, 2nd Floor, 1 North Independence Mall West, 6th and Market Streets, Philadelphia, PA 19106.
