READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

INSURANCE DEPARTMENT

[25 PA. CODE CH. 977]

Underground Storage Tank Indemnification Fund; Owner and Operator Fees

The Insurance Department (Department) and the Underground Storage Tank Indemnification Board (Board) amend § 977.12 (relating to owner and operator fees) to read as set forth in Annex A. Sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412) provide the Insurance Commissioner with the authority to promulgate regulations governing the enforcement of the laws relating to insurance. Public notice of this rulemaking is impractical and unnecessary because the proposed amendment is needed to ensure the solvency of the Underground Storage Tank Indemnification Fund (Fund) and any input from the public would not decrease the necessity to increase the fees collected.

Notice of proposed rulemaking is omitted in accordance with section 204(3) of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. § 1204(3)), known as the Commonwealth Documents Law (CDL). In accordance with section 204(3) of the CDL, notice of proposed rulemaking may be omitted when the agency for good cause finds that public notice of its intention to amend an administrative regulation is, under the circumstances, impracticable and unnecessary.

Purpose

The final-omitted rulemaking will bring the fees to the appropriate levels as recommended by an actuarial report that was completed on October 18, 2001. After reviewing this report, the Board determined that this increase is necessary to maintain the solvency of the Fund for the public health and safety of this Commonwealth's citizens and their environment. The actuarial study, performed by MMC Enterprise Risk Consulting, Inc., determined that an increase in the gallon and capacity fees was necessary to maintain the actuarial soundness of the Fund in the future.

Explanation of Regulatory Requirements

Section 977.12 is being amended to reflect the fees that the actuary recommended in the report.

Fiscal Impact

An owner or operator transacting business in this Commonwealth will be affected by this final-omitted rulemaking. However, any fiscal impact will be minimal, as the increases still result in very low fees in relation to the benefits provided by the Fund to the owners and operators.

The costs that local governments are currently paying will increase by approximately \$79,000 per quarter. Because local governments currently pay the gallon fee to the distributor and the capacity fee directly to the Fund, the only change will be a larger fee.

Commonwealth-owned tanks are exempt from all Fund fees.

General Public

Because the public is a consumer of goods and services provided by owners and operators of an underground storage tank (UST) or a heating oil tank (HOT), any increase to the fees could result in higher prices to consumers. However, it is expected that this increase in fees will only result in an additional 4¢ per month to motorists, in accordance with a survey on vehicle fuel consumption and expenditures by United States' households, conducted by the Energy Information Administration, Office of Energy Markets and End Use.

The increase will keep the Fund solvent after an actuarial study completed in November 2001 indicated the need for additional revenue, to maintain the Fund's actuarial soundness.

Effectiveness/Sunset Date

This final-omitted rulemaking will become effective April 1, 2002.

Paperwork

Adoption of this final-omitted rulemaking should not require any significant paperwork for the owners or operators of USTs or HOTs. The paperwork necessary after the increase is expected to be the same as before the increase was implemented.

Persons Regulated

This final-omitted rulemaking applies to all owners or operators of USTs and HOTs in this Commonwealth.

Contact Person

Questions regarding the final-omitted rulemaking may be addressed to Peter J. Salvatore, Regulatory Coordinator, Insurance Department, 1326 Strawberry Square, Harrisburg, PA 17120, (717) 787-4429. Questions may also be e-mailed to psalvatore@state.pa.us or faxed to (717) 772-1969.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P. S. § 745.5a(c)), on February 7, 2002, the Department submitted copies of this final-omitted rulemaking to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Committee on Insurance and the Senate Committee on Banking and Insurance. On the same date, the final-omitted rulemaking was submitted to the Office of the Attorney General for review and approval under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506).

Under section 5.1(d) of the Regulatory Review Act, on February 27, 2002, this final-omitted rulemaking was deemed approved by the House and Senate Committees. The Attorney General approved the final-omitted rulemaking on February 26, 2002. Under section 5.1(e) of the Regulatory Review Act, on March 7, 2002, IRRC met and approved this final-omitted rulemaking.

Findings

The Commissioner finds that:

(1) There is good cause to amend § 977.12, effective upon publication with the proposed rulemaking omitted. Deferral of the effective date of the final-omitted rulemaking would be impractical and not serve the public interest. Under section 204(3) of the CDL, there is no purpose to be served by deferring the effective date. An

immediate effective date will best serve the public interest by ensuring that fees have the full potential that the actuarial study predicted.

(2) There is good cause to forego public notice of the intention to amend § 977.12 because notice of the amendment under the circumstances is unnecessary and impractical because the amendments proposed are necessary to ensure the solvency of the Fund and any input from the public would not decrease the necessity to increase the fees collected.

Order

The Commissioner, acting under the authority in sections 206, 506, 1501 and 1502 of The Administrative Code of 1929, orders that:

(1) The regulations of the Department, 25 Pa. Code Chapter 977, are amended by amending § 977.12 to read as set forth in Annex A.

(2) The Department shall submit this order and Annex A to the Office of Attorney General and the Office of General Counsel for approval as to form and legality as required by law.

(3) The Department shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(4) This order shall take effect April 1, 2002.

M. DIANE KOKEN,
Commissioner

E. BRUCE SHELLER,
*Chair, Underground Storage
Tank Indemnification Board*

Title 31—INSURANCE

INSURANCE DEPARTMENT

[31 PA. CODE CH. 65]

Charter Amendments; Financial Requirements

The Insurance Department (Department) deletes Chapter 65, Subchapter C (relating to charter amendments; financial requirements) to read as set forth at 31 Pa.B. 5552 (October 6, 2001). The chapter applies to property and casualty insurers authorized to write automobile insurance coverages under section 202(c)(11) of The Insurance Company Law of 1921 (40 P. S. § 382(c)(11)) (act). The subchapter provided for the automatic amendment of existing charters and established minimum capital and surplus requirements for domestic insurers affected by the act of November 27, 1968 (P. L. 118, No. 349) (Act 349).

Purpose

The purpose of this rulemaking is to delete Subchapter C to eliminate obsolete, unnecessary regulations. Section 202 of the act delineates the underwriting authorities of various types of insurers. Act 349 consolidated the underwriting authority to write automobile bodily injury liability and automobile property damage liability insurance coverages. The regulations were adopted May 16, 1969, to implement the provisions of Act 349 with respect to insurers writing automobile insurance coverages in this Commonwealth.

Section 65.23 (relating to charters automatically amended) provided for the automatic amendment of the existing charters of insurers that were authorized to write both of the consolidated coverages and delineated the effect of Act 349 on the authority of insurers that had one of the two consolidated underwriting powers. The GAA Amendments Act of 1990 (15 P. S. §§ 21205—21207) updated the Commonwealth's business corporation laws relating to insurance companies. The updates included the repeal of provisions in the act requiring the Department's approval of charters for the creation of insurers. As a result of these updates, insurer charters are no longer required to specify underwriting authority. Therefore, §§ 65.21 and 65.22 (relating to definition of act; and authority for writing certain policies) and § 65.23 are outdated and no longer needed.

Sections 65.24—65.26 (relating to minimum paid-up capital for stock insurers; minimum surplus for mutual insurers; and determining compliance) established minimum capital and surplus requirements for mutual insurers with the authority to write automobile liability insurance. The current minimum capital and surplus requirements for these insurers are now found in sections 206 and 601 of the act (40 P. S. §§ 386 and 721). Therefore, §§ 65.24—65.26 also are outdated and no longer needed.

Statutory Authority

This final-form rulemaking is adopted under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412); sections 202, 206 and 601 of the act; and 15 Pa.C.S. §§ 21201—21208.

Comments

Notice of the proposed rulemaking was published at 31 Pa.B. 5552 with a 30-day public comment period.

No comments were received from the public or the standing committees. On December 6, 2001, the Independent Regulatory Review Commission (IRRC) notified the Department that IRRC had no objections, comments or suggestions to offer on the proposed rulemaking.

Fiscal Impact

There is no fiscal impact as a result of the deletion of the subchapter.

Paperwork

The deletion of the subchapter would impose no additional paperwork requirements on the Department or insurers.

Persons Regulated

The deletion of the subchapter affects property and casualty insurers authorized to write automobile insurance coverages in this Commonwealth.

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing

this final-form rulemaking, the Department has considered the comments received from IRRC, the Committees and the public.

PROPOSED RULEMAKING

DEPARTMENT OF LABOR AND INDUSTRY

[34 PA. CODE CHS. 111 AND 131]

Special Rules of Administrative Practice and Procedure Before the Workers' Compensation Appeal Board and the Workers' Compensation Judges

The Department of Labor and Industry (Department), Bureau of Workers' Compensation (Bureau), proposes amendments to clarify and provide detailed guidance for practice and procedure before workers' compensation judges ("judges," formerly "referees") and the Workers' Compensation Appeal Board (the "Board," formerly, the "Workmen's Compensation Appeal Board"). The Department also proposes to amend Chapters 111 and 131 (relating to special rules of administrative practice and procedure before the Workers' Compensation Appeal Board; and special rules of administrative practice and procedure before workers' compensation judges) (Rules) to provide additional guidance for the litigation of matters before judges and the Board, and to refine existing regulations governing practices and procedures before judges and the Board.

Statutory Authority

The Department proposes these Rules under the authority contained in sections 401.1 and 435(a) and (c) of the Workers' Compensation Act (act) (77 P. S. §§ 710 and 991(a) and (c)), and section 2205 of The Administrative Code of 1929 (71 P. S. § 565), as well as section 414 of the Occupational Disease Act (77 P. S. § 1514).

Background

In 1980, the Secretary of the Department established a Rules Committee (committee) to develop rules and procedures for the workers' compensation system. The committee consisted of workers' compensation judges, as well as equal numbers of representatives of the claimant's and defense bar and representatives of the Department. This committee was reactivated in 1987 to revise the existing rules. These revisions were published in 1991 and this rulemaking is intended to amend the 1991 publication. The committee, composed of the same general representation, again met in 1996 to review the Rules because of amendments to the act. The committee wanted to incorporate legislative amendments and changes in workers' compensation jurisprudence which occurred since the 1991 publication. Since assembling in 1996, the committee has established various subcommittees to review various subchapters and specific provisions of the regulations. From 1991 to the present, the committee received written comments from various parties suggesting changes to the 1991 publication of the Rules. The commentators included members of the bar and representatives of various parties who litigate within the Pennsylvania workers' compensation system. The committee as a whole reviewed these comments and forwarded the meritorious comments to subcommittees for further review and analysis. In response, the various subcommittees issued written reports regarding the recommended changes. Thereafter, the committee as a whole drafted proposed revisions which have been incorporated into this rulemaking.

Similarly, the committee allowed interested parties an opportunity to address the committee. Since at least 1996, the committee has undertaken an outreach program through announcements and addresses at workers' compensation section meetings of the Pennsylvania Bar Association, which met at least annually. In March 1998, the committee circulated its first draft of these proposed amendments to the Rules. Additionally, the committee has met with the Workers' Compensation Advisory Council (Council). In a meeting on September 17, 1998, the committee explained to the Council the committee's purpose and the process by which it reviewed commentary or suggested regulatory amendments.

The Department previously submitted these regulations for review as a final-omitted rulemaking on November 16, 2001, and withdrew this final-omitted rulemaking on December 7, 2001.

Purpose

These proposed amendments clarify and expedite the hearing and determination of matters in the workers' compensation system and update existing regulations to ensure timely and fair disposition of matters as required by the act. The present Rules have not been comprehensively reviewed since at least 1991. Since that time, the act has been amended on at least three occasions. See the act of July 2, 1993 (P. L. 190, No. 44) (Act 44); act of February 23, 1995 (P. L. 1, No. 1) (Act 1); and the act June 24, 1996 (P. L. 350, No. 57) (Act 57). These proposed amendments incorporate changes made necessary by these legislative amendments and ensure that parties will continue to be advised of up-to-date rules for practice and procedures before judges and the Board.

Affected Persons

Those affected by these proposed amendments include workers' compensation judges, Workers' Compensation Appeal Board Commissioners and officials, employees of the Department of Labor and Industry, Bureau of Workers' Compensation and Workers' Compensation Appeal Board, and attorneys and litigants in the Pennsylvania workers' compensation system.

Fiscal Impact

There is no significant impact associated with this proposed rulemaking. However, the proposed amendments may provide the following savings to the regulated community: (1) reduced travel costs, as hearings may now take place electronically; (2) reduced copying costs, reflecting the regulations' reduced copy requirements; and (3) reduced overall litigation expenses attributable to the more expeditious process defined by the regulations.

Summary of Proposed Rulemaking

These proposed amendments clarify and provide detailed guidance for practice and procedure before workers' compensation judges and the Worker's Compensation Appeal Board.

Chapter 111

Special Rules of Administrative Practice and Procedure before the Workers' Compensation Appeal Board

The Department proposes to amend Chapter 111 by removing all references to the "Workmen's Compensation Appeal Board" and substituting "Workers' Compensation Appeal Board."

Similarly, the Department proposes to amend § 111.3 (relating to definitions) to clarify that documents are properly filed and served by mail only upon deposit in the United States mail as evidenced by a United States Postal Service postmark.

The Department proposes to amend:

Section 111.11 (relating to content and form) to provide for cross appeals.

Section 111.12 (relating to filing, service and proof of service) to provide that two copies of an appeal or a cross appeal, rather than four, must be filed with the Board.

Section 111.13 (relating to process of appeals and cross appeals) to provide for cross appeals.

Section 111.17 (relating to oral argument) to clarify that oral argument will be scheduled by the Secretary of the Board, rather than established by the closing of the briefing schedule. The proposed amendment also provides for cross appeals.

Section 111.18 (relating to decisions of the Board) to provide for cross appeals.

Section 111.21 (relating to form/content) to clarify that a request for supersedeas must be filed as a separate petition from the appeal, and to set forth the criteria for determining whether supersedeas is appropriate.

Section 111.22 (relating to filing) to provide that only two copies of a request for supersedeas, rather than four, must be filed with the Board. The proposed amendments also provide that a request for supersedeas shall be filed within the time set for appealing the judge's decision.

Section 111.23 (relating to answers) to provide that only two copies of an answer, instead of four, shall be filed with the Board.

Section 111.24 (relating to disposition of request for supersedeas) to clarify that the Board will rule on requests for supersedeas within 20 days of the date when the answer is due, regardless of when the answer is received.

Section 111.31 (relating to applicability) to remove references to sections 306(f) and 314 of the act (77 P. S. §§ 531(f) and 651) as these sections of the act have been amended.

Section 111.32 (relating to form/content) to provide that only two copies of petitions and requests, rather than four, must be filed with the Board.

Section 111.33 (relating to specific petitions/requirements) to remove references to section 314 of the act as this section of the act has been amended.

Chapter 111 by removing all references to "referees" and substituting "judges." Similarly, the Department proposes to amend Chapter 111 by specifically superseding each applicable General Rule of Administrative Practice and Procedure.

Chapter 131

Special Rules for Administrative Practice and Procedure before Workers' Compensation Judges

The Department, through this proposed rulemaking, proposes to:

Amend § 131.5 (relating to definitions) to include definitions for the following terms: "Bureau record," "insurer" and "judge." In addition, this proposed rulemaking deletes the following terms: "close of the record" and "referee." The proposed amendments to this section are intended to define terms used throughout this chapter and remove definitions for terms that these amendments have eliminated in this chapter.

Amend § 131.11 (relating to filing, service and proof of service) to clarify that items required to be served upon a party must also be served upon the party's attorney in the same manner as the party is served, and that documents are properly filed and served by mail only upon deposit in the United States mail as evidenced by a United States Postal Service postmark.

Add § 131.15 (relating to computation of time). To promote consistency, these proposed amendments adopt the method of calculation currently utilized in proceedings under the General Rules of Administrative Practice and Procedure.

Add § 131.24 (relating to recusal of judge). The proposed amendments require that the judge hold a hearing regarding a motion for recusal and issue a decision within 15 days following receipt of the evidentiary hearing transcript and post-hearing submissions. The proposed amendment also provides that decisions on motions for recusal are interlocutory unless certified for immediate appeal.

Add § 131.30 (relating to consolidation) to provide a mechanism for a judge to consolidate proceedings involving a common question of law or fact and to provide for the expeditious and economical disposition of proceedings.

Amend § 131.31 (relating to form of pleadings) to clarify that all proceedings, with the exception of challenges under sections 413(c) and 413(d) of the act (77 P. S. §§ 774.2 and 774.3), shall be initiated by petition.

Amend § 131.32 (relating to petitions except petitions for joinder and challenge proceedings) to provide that petitions shall be on a Bureau petition form. In addition, these proposed amendments clarify that the number of copies required shall be as prescribed on the Bureau form. Additionally, the proposed amendments require that the facts on which a cause of action or defense is based shall be stated in a concise and summary form.

Amend § 131.33 (relating to answers except answers to petitions for joinder and challenge proceedings) to clarify that a failure to answer a claim petition within 20 days of assignment of the petition shall result in the admission of all allegations of the claim petition, and that answers must specifically admit or deny the averments of each paragraph of the petition, where applicable. The proposed amendments further clarify that all petitions other than

claim petitions may be answered within 20 days after assignment by the Bureau. Further, these proposed amendments specify the form and number of answers, as well as service requirements for answers.

Amend § 131.36 (relating to joinder) to require that the petition for joinder have attached to it a list of the dates and locations of all prior hearings held and depositions taken, to require that an original and the number of copies specified on the Bureau petition for joinder form be filed and to provide that answers to petitions for joinder may be filed within 20 days following service of the petition for joinder.

Amend this chapter to add § 131.40 (relating to frivolous pleadings) to provide a mechanism for the dismissal or other disposition of frivolous pleadings.

Amend § 131.50 (relating to return to work-modification or suspension) to clarify that the form utilized under this section shall be the form prescribed by the Bureau.

Amend § 131.52 (relating to first hearing procedures) to clarify the chapter's purpose of providing a fair and prompt hearing process, and of allowing all parties to introduce appropriate evidence and to receive a timely decision from the judge. The Department also proposes to amend § 131.52 to reaffirm that, where practicable and appropriate, the entire record shall be completed at the first hearing. The proposed amendments further provide that the procedures utilized for hearings may differ based upon a number of factors and that the process ultimately utilized in any particular case is within the discretion of the judge.

Amend § 131.53 (relating to procedures subsequent to the first hearing) to provide that a party wishing to present rebuttal or surrebuttal testimony must notify the judge within 21 days after the initial testimony is presented, instead of notifying the judge within 14 days.

Amend this chapter to add § 131.53a (relating to consolidated hearing procedure) to provide a mechanism for the implementation of expedited hearing procedures including 1 day trials. The proposed amendments further provide that trial or deposition testimony may be taken from witnesses prior to a party's obligation to conduct medical depositions.

Amend § 131.54 (relating to manner and conduct of hearings) to clarify that hearings may, at the discretion of the judge, be conducted by telephone or other electronic means if the parties do not object. The proposed amendments also provide that a witness whose identity has not been revealed as provided in this chapter will not be permitted to testify on behalf of the defaulting party unless the testimony is allowed within the judge's discretion.

Amend § 131.55 (relating to attorney fees and costs) to provide for the calculation of quantum meruit fees, objections to these fees and the issuance of decisions awarding quantum meruit fees. The proposed amendments allow applicants for quantum meruit attorney fees to submit a detailed itemized calculation of these fees. The opposing party may then respond to the request within 15 days after service of the application. A decision on the fee award will be made on the application and response submitted, if any, and the record of the case. If deemed appropriate by the judge, a hearing may be held and evidence presented. The application and response will be made exhibits and must be served upon the judge, counsel and unrepresented parties according to § 131.34(a) (relating to other filings).

Amend this chapter to add § 131.57 (relating to compromise and release agreements) which delineates procedures for the filing and approval of compromise and release agreements under section 449 of the act (77 P. S. § 1000.5). The proposed amendments also provide that proposed compromise and release agreements, including the parties' stipulations, shall be recorded on a form prescribed by the Bureau, and that the parties may attach additional information to the form if circumstances so require. The proposed amendments further provide that a pending matter may, at the request of one or more parties, be amended to a Petition to Seek Approval of a Compromise and Release Agreement. Additionally, the proposed amendments clarify that compromise and release agreements are subject to an expedited resolution, and that the judge will circulate a decision within 30 days after a hearing on the compromise and release agreement.

Add § 131.58 (relating to informal conferences) which provides procedures for requesting and participating in informal conferences. The proposed amendments provide that requests for informal conferences shall be recorded on a form prescribed by the Bureau, and shall be filed with the judge to whom a pending petition has been assigned. If no petition is pending, a petition and the request for informal conference shall be filed with the Bureau.

Amend § 131.61 (relating to exchange of information) to clarify that digital recordings, including CD ROMs and diskettes, are included in the types of information which must be exchanged prior to the first hearing. Additionally, the proposed amendments clarify the requirement that the moving party provide this information prior to the first hearing and that the respondent provide it within 45 days after the first hearing. The proposed amendments also provide that information that was not exchanged prior to the first hearing, which becomes available after the times set forth in subsection (b), must be provided within 15 days after a party's receipt of the item or information. Formerly, this section required disclosure of the material within 10 days of receipt. Finally, the proposed amendments provide that witnesses may not be permitted to testify and statements, documents or other records may be excluded if a party fails to comply with this section.

Amend § 131.62 (relating to oral depositions) to provide that the deposition of a party may only be taken upon approval of the judge and, if taken, may be used only for evidence. The proposed amendments also provide that depositions may be taken by other electronic means, in addition to the telephone, upon motion as directed by the judge, in addition to being taken upon agreement of counsel of record and unrepresented parties.

Amend § 131.63 (relating to time for taking oral depositions) to provide that a party wishing to present depositions for rebuttal or surrebuttal must notify the judge within 21 days, rather than 14 days, after the hearing or deposition at which the initial testimony was given.

Amend § 131.64 (relating to notice of oral depositions) to provide that the notice of oral deposition shall be served at least 20 days, rather than 15 days, prior to the date scheduled for the taking of the deposition and to provide notice that objections must be mailed or delivered at least 10 days, rather than 7 days, before the deposition.

Amend § 131.65 (relating to objections to taking of oral depositions) to provide that objections to an oral deposi-

tion must be served no later than 10 days, rather than 7 days, prior to the scheduled date of the deposition.

Amend § 131.81 (relating to subpoenas) to clarify that digital recordings, including CD ROMS and diskettes, are among the items subject to subpoena. The Department proposes to amend this section to provide that service of a subpoena under this section shall be made by personal service, by any form of mail requiring a return receipt, postage prepaid and restricted delivery, or by first-class United States mail as provided in § 131.11(b). Further, the Department proposes to amend this section to require that witness fees for witness testimony and travel: (1) be tendered upon the witness's demand at the time of the service of the subpoena; or (2) accompany the subpoena if served by mail. The fee for 1 day's attendance and roundtrip mileage is as prescribed in 42 Pa.C.S. §§ 5901—5988 (relating to depositions and witnesses).

Amend § 131.101 (relating to briefs, findings of fact and close of record) to set forth that the record is closed when the parties have submitted all of their evidence and rested, or when the judge has closed the evidentiary record on a party's motion or on the judge's own motion. The proposed amendments also provide that the judge may hold open the record if the judge determines that additional hearings are necessary, additional evidence needs to be submitted, or if the judge schedules additional written or oral argument, the evidentiary record may be held open by the judge. Any party may move to close the record and all other parties shall advise the judge within 20 days as to whether the evidentiary record is closed or whether there is additional evidence to be submitted. The proposed amendments further provide for certification of the record at or before the filing of proposed findings of fact, conclusions of law or briefs. The proposed amendments provide that the judge will specify the contents of the evidentiary record in the decision.

Amend § 131.102 (relating to oral argument) to clarify that a party may request oral argument any time prior to the submission of its proposed findings of fact, conclusions of law or brief. If these submissions are not filed, a party may request oral argument prior to the close of the evidentiary record.

Amend § 131.112 (relating to correction or amendment of decision) to clarify that a judge may correct an "obvious omission or error" either on the judge's motion or on the motion of one or both parties.

Amend 131.121 (relating to penalty proceedings initiated by a party) to clarify that answers may be filed as provided in § 131.33. Additionally, the proposed amendments specify that penalty proceedings may be initiated by petition or by motion on the record of a pending proceeding. Further, the proposed amendment provides that a party complaining of a violation of the act or this chapter bears the burden of proving the violation.

Amend Chapter 131 by removing all references to "referees" and substituting "judges." Similarly, the Department proposes to amend Chapter 131 by specifically superseding each applicable General Rule of Administrative Practice and Procedure.

Reporting, Recordkeeping and Paperwork Requirements

The proposed amendments do not require the creation of any new forms. Existing forms relating to practice before the Board and judges require few modifications. Therefore, the proposed amendments do not impose any additional reporting, recording or paperwork requirements on either the Commonwealth or the regulated community.

Effective Date

These proposed amendments will be effective on publication in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on March 7, 2002, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the Senate Committee on Labor and Industry and the House Labor Relations Committee. S. § 745.5(g)), if IRRC has objections to any portion of the proposed rulemaking, it shall notify the Department within 10 days after the expiration of the Committees' review period. The notification shall specify the regulatory review criteria that have not been met by the portion of the proposed rulemaking to which an objection is made. The Regulatory Review Act specifies detailed procedures for review, prior to final-form publication of the regulations, by the Department, the General Assembly and the Governor of objections raised.

I. The Pennsylvania Apple Marketing Program (program) was established under the provisions of the Agricultural Commodities Marketing Act of 1968 (act) (3 P. S. §§ 1001—1012). The act requires that the Secretary call a referendum of affected producers every 5 years to determine whether or not a majority of those voting still desire the program. The program was last subjected to a review referendum conducted in 1997. It is now time for another review referendum to determine whether a majority of the apple producers desire the program to continue.

II. *Referendum Period:* The referendum period shall be April 1, 2002, until 4 p.m. on April 15, 2002. DEPARTMENT OF EDUCATION

Availability of Workforce Investment Act, Title II, Section 223 Funds for State Leadership Activities for July 1, 2002—June 30, 2003

These services are designed to strengthen the Adult Basic and Literacy Education (ABLE) programs operated

by the Department of Education (Department), Bureau of Adult Basic and Literacy Education (Bureau) by providing Statewide support for leadership activities in Title II of the Workforce Investment Act described in the Unified State Plan 1999-2005.

I. Authorization

A. Title II of The Workforce Investment Act of 1998, The Adult Education and Family Literacy Act, provides funds to local eligible provider agencies through the Department for the establishment of adult education and family literacy programs that will:

1. Assist adults to become literate and obtain the knowledge and skills necessary for employment and self-sufficiency.

2. Assist adults who are parents to obtain the educational skills necessary to become full partners in the educational development of their children.

3. Assist adults in the completion of a secondary school education.

B. Eligible applicants include local education agencies (LEAs) and public or private nonprofit agencies, organizations and institutions. A for-profit agency is eligible to participate in the program only if it is part of a consortium with an LEA or other eligible sponsor, with the nonprofit agency acting as fiscal agent. A for-profit organization must also have the capability and capacity to augment significantly the adult education services of a consortium.

Consistent with the purpose of the Adult Education and Family Literacy Act for Program Year 2002-2003, the Department will give primary consideration to programs for the educationally disadvantaged.

The Federal share of a grant will be 75% of the total cost of the program. The applicant must provide 25% match of the total cost of the program. The local match may be in kind. Other Federal funds may not be used for the local match unless specifically identified as eligible for use as matching funds.

C. Restrictions placed upon the Department by the United States Department of Education on the administration of the grant include:

1. Not more than 12.5% of the State's allotment shall be used for State Leadership Activities.

2. Not more than 5% of a local applicant's grant may be used for administrative costs, unless a higher percent is approved in advance by the Bureau.

Letters of intent are due April 12, 2002, and applications are due May 1, 2002.

Note: The Bureau reserves the right to consider proposals received after the deadlines, and if appropriate, to approve them if and when funds become available.

II. Application Procedures and Program Guidelines.

A letter of intent is due at the Bureau by April 12, 2002. The letter of intent should state the priority number and a one-sentence description of the proposed project. Applications for State Leadership funds must be completed on-line and submitted via the e-grant website at <http://www.e-grants.ed.state.pa.us> to the Bureau. Instructions and the application guidelines are available via the Bureau website at www.paadulted.org and via the e-grant sites. Faxes will not be accepted.

III. Funds for State Leadership activities are made available under section 222(a)(2) for one or more of the following activities. Specific priorities that support these activities for program year 2002-2003 follow this section.

1. The establishment or operation of professional development programs to improve the quality of instruction provided under local activities required under section 231(b).
2. The provision of technical assistance to eligible providers of adult education and literacy activities.
3. The provision of technology assistance, including staff training, to eligible providers of adult education and literacy activities to enable the eligible providers to improve the quality of the activities.
4. The support of State or regional networks of literacy resource centers.
5. The monitoring and evaluation of the quality of, and improvement in, adult education and literacy activities.
6. Incentives for program coordination and integration and performance awards.
7. Developing and disseminating curricula.
8. Other activities of Statewide significance that promote the purpose of this title.
9. Coordination with existing support services, such as transportation, childcare and other assistance designed to increase rates of enrollment in, and successful completion of, adult education and literacy activities, to adults enrolled in those activities.
10. Integration of literacy instruction and occupational skill training and promoting linkages with employers.
11. Linkages with postsecondary educational institutions.

Priorities State Leadership 2002-2003

1. Communications for Professional Development (AXIS)

Management of a project to provide for the design and/or publication of newsletters, reports, handbooks and brochures as needed by adult education providers in this Commonwealth. The project will direct and provide systematic communication and coordination for the Bureau, professional development service providers and adult basic and literacy education providers. The project will also include support of on-line and Internet communications.

2. Adult Education Newsletter

Provision of a general adult basic education newsletter to be published a minimum of six times at a length of eight pages or more to disseminate information in areas of interest to adult basic education practitioners and program supporters in this Commonwealth. The areas may include, but are not limited to, professional development, program areas such as GED, ABE, ESL, Workplace and Family Literacy, and include adult education theory, best practices and awareness information. Applicant must establish an editorial review board and plan for a circulation of approximately 4,000 copies across this Commonwealth with distribution as requested by the Department.

3. Outstanding Adult Learners

Management of an event that includes the identification, selection and recognition of ten exemplary adult learners enrolled in adult basic and literacy education programs whose success stories focus on the role of adult

basic education in their lives. Approximately 2,000 copies of a Success Stories booklet featuring both past and current winners and their ABE programs will be prepared, published and disseminated as requested by the Department. Promotional fliers featuring Success Stories students will be prepared and disseminated to winners' program providers. Applicant will coordinate with an identified ABE Bureau staff person in the development of the project.

4. Outstanding Adult Practitioners

Management of an event to identify, select and honor outstanding adult education practitioners in this Commonwealth whose interaction with adult learners, colleagues and their programs is indicative of best practices in adult teaching and learning. Applicants will review the standards and performance indicators set forth by the Pennsylvania Adult Teachers Competencies project to use those criteria for the selection of Excellent Educators and Instructors in keeping with their recommendations for expert practitioners. The applicant will coordinate with an identified Bureau staff person, a Project EQUAL representative and a Professional Development Center coordinator in the development and implementation of the project.

5. Review and Dissemination of Exemplary Projects

Management of a project to review current and past Section 353 and State Leadership special demonstration/experimental and professional development projects from this Commonwealth and from other states in designated topic areas to determine their significance and appropriateness for adoption/adaptation in this Commonwealth. The project should identify exemplary and innovative practices/approaches and provide for the Statewide dissemination of information through publication of the reviewed projects via a newsletter to be published a minimum of six times a year.

6. Support of Adult Education Professional Development

Administration, fiscal management and support of Statewide adult basic education professional development activities and other Department activities to include provision for support of State Leadership requirements and initiatives under the Workforce Investment Act of 1998, support of various adult basic and literacy conference activities, support of Act 42 Council activities and provision of honoraria for presenters at State-sponsored activities.

7. Work-Based Foundation Skills

Management of a project to facilitate expanded dissemination and effective use of the Work-Based Foundation Skills Framework across this Commonwealth and agencies in support of the Commonwealth's workforce development initiatives. This project will continue the activities of a project developed and tested from 1999-2002. The project will develop and implement training procedures and products to build the ABE provider's capacity to understand and implement the Foundation Skills Framework. Activities in this project will be integrated with activities of ABE coalitions, local Workforce Investment Boards (WIBs) and CareerLink to strengthen communication and system integration. The project will develop and implement targeted Foundation Skill Framework training procedures and products for ABE programs and work with Professional Development Centers in identifying and training non-Pennsylvania Workforce Improvement Network affiliates in the use of the framework as well as in disseminating the Foundation Skills Framework throughout the workforce investment system. The project will

continue and further refine the foundation skills framework link to occupational skill standards, working collaboratively with the ABLE Interagency Coordinating Council skill standards work group so that a process and product is developed providing ABLE programs links between occupational skill standards and the foundation skills.

8. *English as a Second Language (ESL) Standards and Competencies*

Using recommendations from the ESL standards and competencies project of 2001-2002, this project will continue the development of the coordinated system of ESL training in support of program quality standards and competencies identified in the 2001-2002 project. Using existing training modules identified in the 2001-2002 project adopted/adapted for this Commonwealth, the project will implement training on sound research-based practices in ESL instruction and align it with the recommended program standards and teacher competencies. Based upon recommendations from the 2001-2002 project, new training may be developed.

9. *Planning for Change*

Provision of a Statewide system of consultants trained to provide individualized technical assistance to ABLE adult education coalitions, building on activities begun in the Planning for Change project funded in 2001-2002. Technical assistant consultants will guide and support adult education coalitions in attaining regional workforce development goals, including increased/improved communication with regional WIBs and CareerLink Centers, and the development, implementation and monitoring of an Adult Education Coalition Workforce Plan. The project applicant should provide services Statewide, be broad-based and participate in the ABLEworks system developed by the Bureau.

10. *Professional Development Institutes*

Purpose: To provide an opportunity for professional development in a specific area of ABLE in an intensive format.

Background: The Bureau has supported the professional development of practitioners and administrators through the institute format for several years. The format allows for the consistency in the delivery of information and methodologies in a specific area and at varying levels of expertise. It also builds the collegiality of participants through shared experiences and encourages ongoing professional development after the institute has ended. The activities offered through the institute and follow up trainings are guided by the Guiding Principles for Professional Development of Adult Education Practitioners.

Program Goals:

1. Administrative and fiscal management and support of a project for Statewide adult basic education professional development through the provision of a professional development institute (topics follow) to include the arrangements for physical accommodations for administrators, teachers, counselors and volunteers in adult basic education programs;

2. Delivery of information to participants that is relevant to the topic, research-based and representative of best practices that is provided by subject matter experts.

3. Development of strands on the institute topic for new and experienced practitioners.

4. Provision of follow-up training through the regional professional development centers and/or other activities.

5. Evaluation of the design and effectiveness of the training.

Suggested areas for institute format: Corrections Education, Teaching Math and ESL in the Workplace.

11. *Professional Development Center for Learning Differences/Disabilities*

Purpose: To continue the provision of a centralized system of professional development for practitioners serving adults with adult learning differences/disabilities; to serve as an information clearinghouse for research and best practice in teaching adults with learning differences/disabilities; to facilitate coordination of services to individuals with learning differences/disabilities among State and local agencies as provided in Program Years 2000-2001 and 2001-2002.

Background: Current research indicates that adult basic and literacy education programs are serving significant numbers of individuals who have learning differences/disabilities. According to needs assessments conducted in this Commonwealth, many adult education practitioners feel unprepared for the challenges presented in the teaching of those adults. The Bureau recognizes the need to support adult education practitioners who are teaching adults with learning differences/disabilities in Bureau sponsored programs. The Bureau desires to continue the support of previous activities by providing funds for a "center" to continue the efforts of coordinating a uniform and systematic approach to the provision of professional development for practitioners teaching adults with learning differences/disabilities and to the improvement to the quality of services offered to this population of learners.

Application requirements: The applicant must describe how it will address the following program elements:

1. Provide a centralized training and technical assistance system to support Commonwealth practitioners working with individuals with learning differences/disabilities.

- Develop and deliver uniform training products and processes to address the needs of Commonwealth adult education practitioners in the areas of learning differences that reflect state-of-the-art research and development efforts.

- Coordinate existing activities related to the provisions of training and technical assistance for practitioners teaching individuals with learning differences/disabilities.

- Develop and implement a train-the-trainer system consistent with current adult education train-the-trainer efforts to certify and credential trainers.

- Develop and implement a system of technical assistance that includes identification of best practices and peer networking.

- Coordinate the delivery of training with the Pennsylvania Adult Education professional development system including its Professional Development Centers, State Literacy Resource Center and Tutors for Literacy in the Commonwealth.

2. Serve as an information clearinghouse for research and best practices in teaching adults with learning differences/disabilities.

- Maintain expertise in the areas of adults with learning differences/disabilities for the purpose of identifying emerging best practices and research.

- Disseminate relevant and timely information related to special accommodations, research-based instructional planning, screening and identification, legal issues and other information related to serving adults with learning differences/disabilities.

- Coordinate information collection and dissemination with the State Adult Literacy Resource Center.

3. Facilitate the coordination of services to individuals with learning differences/disabilities among State and local agencies.

- Facilitate the leveraging of resources among State and local entities for the purpose of providing comprehensive services to individuals with learning differences/disabilities.

- Identify other State and local models of interagency coordination for individuals with learning differences/disabilities and assist in implementing them.

- Establish and maintain a working relationship with entities that serve individuals with learning differences/disabilities for the purpose of exchanging information and establishing interagency initiatives.

- Maintain a presence by representing the Commonwealth's efforts at National and State meetings, workshops and seminars.

12. *Mini-Grants*

These grants may be used to support State Leadership activities at the local level. For example, a mini grant can be used to complement Statewide initiatives that impact at the local level such as implementing adult learner competencies into an agency's program, determining the impact of instructional programs on adult learners or to assist an agency in integrating adult basic education and workforce development activities in the local area. Funds should not be used for direct instructional time but for time to research, design, plan and support the activities needed to carry out the goals of the project. Grants may not exceed \$5,000.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to or has been required to, respond to a release of a regulated substance at a site. Persons intending to

use the background standard, Statewide health standard, the site-specific standard or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits. The

Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act and regulations adopted under the Act.

(711 East College Avenue, Bellefonte, PA 16823) for construction of various new pieces of stone screening and conveying equipment at their existing facility in Spring Township, **Centre County**. Fugitive dust emissions from the additional equipment are expected to be minimal due to the amount of water that will be applied throughout the process.

The Department has determined that the proposed additional equipment will comply with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12 and the requirements of Subpart OOO of the Federal Standards of Performance for New Stationary Sources, 40 CFR 60.670—60.676. The Department consequently intends to issue plan approval for the construction of the respective equipment.

The Department intends to place conditions in the plan approval to be issued to assure compliance with all applicable air quality regulatory requirements. The following is a summary of these conditions:

1. If at any time it is determined that the air contaminant emissions from the screening and conveying equipment are in excess of any applicable air contaminant emission limitation, the company shall install additional water spray dust suppression nozzles and/or take other control measures as are necessary to reduce the air contaminant emissions to within the applicable limitations.

2. The air contaminant emissions from the equipment shall comply with the applicable requirements specified in Subpart OOO of the Federal Standards of Performance for New Stationary Sources, 40 CFR 60.670—60.676.

3. This plan approval does not authorize the construction of any engines or generators.

4. The company shall have onsite an operable water truck equipped with a pressurized spray bar to be used, as needed, for the prevention and control of fugitive air contaminant emissions from roadways, stock piles, truck loading activities and the like.

19-00006B: H. J. Heinz Co., L.P. (6670 Low Street, Bloomsburg, PA 17815) for plan approval to modify two 26.6 million Btu per hour and one 53.0 million Btu per hour natural gas/#6 fuel oil-fired boilers at the dog and cat food manufacturing facility in South Centre Township,

Columbia County. The modification will consist of an increase in the amount of #6 fuel oil, which is allowed to be combusted in the boilers. The Department's review of the information contained in the application indicates that the proposed modification will meet all applicable air quality requirements. Based on this finding, the Department intends to approve the application and issue a plan approval for the proposed modification.

The dog and cat food manufacturing facility is a major facility, which has been issued a Title V Operating Permit (#19-00006).

As a result of the proposed modification, revised #6 fuel oil usage limitations and revised #6 fuel oil sulfur content limitations for the respective boilers, a reduced annual facility-wide nitrogen oxides emission limitation and a reduced annual facility-wide sulfur oxides emission limitation will be established.

The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable air quality regulatory requirements:

1. The usage of #6 fuel oil having a sulfur content greater than 1.0% but less than 2.8% by weight in the three boilers shall not exceed 450,000 gallons in any 12 consecutive month period.

2. The usage of #6 fuel oil having a maximum sulfur content of 1.0% by weight in the three boilers shall not exceed 1.4 million gallons in any 12 consecutive month period.

3. The permittee shall not combust in any sources at the facility any #6 fuel oil having a sulfur content greater than 2.8% by weight.

4. The total combined emission of nitrogen oxides from the three boilers plus two natural gas/#2 fuel oil-fired boilers existing at the facility shall not exceed 82.4 tons in any 12 consecutive month period.

5. The total combined emission of nitrogen oxides from all sources at the facility shall not exceed 89.3 tons in any 12 consecutive month period.

6. The total combined emission of sulfur oxides from the three boilers shall not exceed 212 tons in any 12 consecutive month period.

7. The total combined emission of sulfur oxides from all sources at the facility shall not exceed 218 tons in any 12 consecutive month period.

8. Nitrogen oxides stack testing shall be performed on the boilers.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments or objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on

the extent of mining that may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Underground Storage Tank Indemnification Board—Fees and Collection Procedures; Regulation No. 11-214

On February 7, 2002, the Independent Regulatory Review Commission (Commission) received this regulation from the Underground Storage Tank Indemnification Board (Board). This rulemaking amends 25 Pa. Code § 977.12. Notice of proposed rulemaking was omitted for this regulation; it will become effective the first of the month following publication in the *Pennsylvania Bulletin*.

This rulemaking increases two fees and is necessary to maintain the solvency of the Underground Storage Tank Fund.

We have determined this regulation is consistent with the statutory authority of the Board (35 P. S. § 6021.705) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

State Board of Veterinary Medicine—Examinations, Application for Licensure and Certification, Fees; Regulation No. 16A-5713

On October 26, 2000, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the State Board of Veterinary Medicine (Board). This rulemaking amends 49 Pa. Code Chapter 31. The proposed regulation was published in the December 2, 2000, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on October 5, 2001. On October 24, 2001, the Board withdrew this final-form regulation. On February 11, 2002, the Board resubmitted the final-form regulation to the Commission.

This regulation eliminates the specific exam fee listings paid by applicants to take the required examinations for veterinarians and animal health technicians. It also adds criminal history and out-of-State licensure information as application requirements for certification of animal health technicians.

We have determined this regulation is consistent with the statutory authority of the Board (63 P. S. §§ 485.11 and 485.13) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

State Board of Physical Therapy—Examination Fees; Regulation No. 16A-658

On April 24, 2001, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the State Board of Physical Therapy (Board). This rulemaking amends 49 Pa. Code Chapter 40. The proposed regulation was published in the May 5, 2001, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on February 11, 2002.

This rulemaking deletes references to the fees for licensure examinations for physical therapists, athletic trainers, and physical therapist assistants. These fees are established by a professional testing organization, not the Board.

We have determined this regulation is consistent with the statutory authority of the Board (63 P. S. § 1308) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

Department of Labor and Industry—Uniform Construction Code Training and Certification for Code Administrators; Regulation No. 12-57

On June 26, 2001, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Labor and Industry (Department). This rulemaking adds 34 Pa. Code Chapter 401. The proposed regulation was published in the July 7, 2001, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on February 7, 2002.

This regulation establishes training and certification requirements for code administrators. Code administrators include municipal code officials, construction code officials, third-party agencies and the Department of Labor and Industry.

We have determined this regulation is consistent with the statutory authority of the Department of Labor and Industry (35 P. S. § 7210.701(a)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

Notice of Comments Issued

Section 5(d) of the Regulatory Review Act (71 P. S. § 745.5(d)) provides that the designated standing Committees may issue comments within 20 days of the close of the public comment period, and the Independent Regulatory Review Commission (Commission) may issue comments within 10 days of the close of the Committees' comment period. The Commission's comments are based upon the criteria contained in section 5.1(h) and (i) of the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)).

The Commission issued comments on the following proposed regulations. The agencies must consider these comments in preparing the final-form regulations. The final-form regulations must be submitted by the dates indicated.

| <i>Reg. No.</i> | <i>Agency/Title</i> | <i>Issued</i> | <i>Final-Form Submission Deadline</i> |
|-----------------|---|---------------|---|
| #2-135 | Department of Agriculture Dog Licensure (32 Pa.B. 66 (January 5, 2002)) | 3/7/02 | 2/4/04 |

**Department of Agriculture Regulation No. 2-135
Dog Licensure
March 7, 2002**

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which have not been met. The Department of Agriculture (Department) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by February 4, 2004, the regulation will be deemed withdrawn.

1. Fiscal impact of the regulation on county treasurers.—Economic and fiscal impact.

In response to Question #18 on the Regulatory Analysis Form, the Department states that this regulation will not impose any compliance costs on local governments. However, county treasurers assert that they will incur costs for updating their computer programs to accommodate both the license number and the microchip number. The Department should include an analysis of the costs for counties to update their computer programs when it submits the final-form regulation.

2. Process for applying for a lifetime dog license.—Reasonableness.

As written, the proposed regulation requires a dog owner to apply for a lifetime license prior to having a dog

microchipped. After the microchip is installed, the person installing the chip records the microchip number on the license application, and the dog owner returns the completed paperwork to the county treasurer's office. The lifetime license is then issued.

Commentators have noted that this procedure is overly complicated for dogs which are microchipped. After a dog is microchipped, the owner could simply bring the microchip certificate to the county treasurer's office, at which point, the microchip identification number could be recorded and the lifetime license could be issued.

We agree with the commentators that the proposed process appears to be unnecessarily complicated. The Department should consider adopting a more streamlined process for granting a lifetime license for microchipped dogs.

3. Section 21.1. Definitions.—Need.

This section defines the term "releasing agency." However, this term is not used elsewhere in Chapter 21. Therefore, it appears that the definition of this term is unnecessary and should be deleted.

4. Section 21.4. Penalties.—Clarity.

The Department is proposing to delete this section which contains the penalties for the violation of this chapter. In the Preamble, the Department indicates, "there is no need to repeat the penalties in the regulation." For clarity, rather than eliminate the penalty section in its entirety, the Department should consider replacing the content of this section with a cross-reference to the section relating to penalties contained in the Dog Law at 3 P. S. § 459-201(c).

5. Section 21.51. Lifetime dog license issuance.—Consistency with the statute; Reasonableness; Clarity.

Subsection (b)

Paragraphs (b)(2) and (7) require the county treasurer to "assign" or "issue" the microchip license number. Paragraph (c)(1) also refers to the microchip license number "assigned" by the treasurer. Commentators have noted that the microchip number is preprogrammed into the chip by the manufacturer, and cannot be "assigned" by the county treasurer.

In the final-form regulation, paragraphs (b)(2), (7) and (c)(1) should be amended to clarify that the lifetime license number will be assigned by the county treasurer. In instances where microchipping is used, the county treasurer will record the microchip number, as well as the license number, on the license certificate.

Subsection (c)

This subsection addresses the dog owner's responsibilities for obtaining a lifetime dog license. However, this subsection does not specifically address the process to be followed for owners who had their dogs microchipped before the effective date of this regulation, or for new owners of previously microchipped dogs. The final-form regulation should specify the process for these parties to obtain lifetime dog licenses.

Paragraph (c)(3) states that the "person implanting the microchip shall record the identifying number on the microchip on the tattoo/microchip license certificate." This sentence is confusing. It appears that the intent is to require the microchip number to be recorded on the license certificate. The final-form regulation should be revised to make the intent of this provision clearer.

Subsection (d)

Paragraph (d)(1) states that the county treasurer will issue the lifetime license and tag "upon receipt of the properly completed tattoo/microchip certificate . . ." Prior to obtaining a lifetime license, the dog owner must also remit the appropriate fee set forth in the Dog Law. For clarity, this subsection should contain a cross-reference to the fees established in 3 P. S. § 459-201(b).

In paragraph (d)(2), should the reference to the "microchip-license number" be changed to "lifetime license number"?

Paragraph (d)(3) refers to a 50¢ issuance fee. However, section 200(b) of the Dog Law (3 P. S. § 459-200(b)) authorizes a \$1 fee. In the final-form regulation, the fee referenced in paragraph (d)(3) should be consistent with the Dog Law.

Subsection (e)

In this subsection, the phrase "with the county treasurer's copy behind filed in sequence" is confusing. The Department should clarify this phrase in the final-form regulation.

6. Section 21.52. Recordkeeping for lifetime dog licenses.—Need; Clarity.

This section repeats the requirement in § 21.51(e) that "the county treasurer or an agent shall mail or electronically transmit a monthly record of lifetime licenses information to the Department." The Department should eliminate one of the repetitious provisions.

The regulation provides that the counties are to retain the records for 20 years. How long is the Department going to retain records for lifetime dog licenses?

7. Section 21.53. Transfer of lifetime dog licenses.—Clarity.

This section provides the issuance of a new license or tag is not required when transferring a lifetime dog license. We have four concerns.

First, the regulation does not specify a period of time within which an owner must notify the county that issued the lifetime license after a change of address or change of ownership.

Second, the regulation is unclear as to what information is necessary for the owner to provide as part of the transfer application.

Third, section 205(a) of the Dog Law (3 P. S. § 459-205(a)) specifies a \$1 fee for transferring a license. This fee is neither included nor cross-referenced in the regulation.

Finally, the regulation is silent regarding the applicability of the transfer process for a dog owner moving to this Commonwealth from another state with a dog that has already been tattooed or implanted with a microchip in the former state of residence.

Clarity would be improved if this information were included in the final-form regulation.

**Environmental Quality Board Regulation No. 7-357
Noncoal Underground Mines and Other
Excavations
March 8, 2002**

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the

criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which have not been met. The Environmental Quality Board (EQB) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by February 6, 2004, the regulation will be deemed withdrawn.

1. Section 207.211. Safety requirements.—Clarity.

Subsection (c) requires documents sent to the United States Department of Labor, Mine Safety and Health Administration to also be submitted to the Department of Environmental Protection (Department). The regulation should specify where those documents should be sent.

2. Section 207.214. Certificate of qualification application requirements.—Clarity.

Subsection (2) uses the phrase "certified official under the Pennsylvania Anthracite Coal Mine Act (52 P. S. §§ 70-101—70-145) or the Pennsylvania Bituminous Coal Mine Act (52 P. S. §§ 701-101—701-706) . . ." If the term "certified official" is defined in statute, the regulation should provide a specific cross-reference to where the definition and the associated qualifications can be found. If the term is not defined in statute, the regulation should define the term.

3. Section 207.215. Standards for issuing certificates of qualification.—Reasonableness; Clarity.

Subsection (a) requires applicants to pass an examination to obtain a certificate of qualification. In the Preamble, the EQB states the Department has been using a voluntary program to certify mine foremen for noncoal mines. Will foremen who hold a voluntary certificate of qualification be granted certification without taking another examination when this rulemaking is implemented? If so, language should be added to the final-form regulation to allow voluntary certificate holders to qualify.

4. Section 207.303. Approvals.—Clarity.

For a business to operate in a mined-out area, a developed facility must be "approved by the Department." Is there a specific provision or citation in which a developed facility is "approved by the Department"?

5. Section 207.312. Lighting.—Clarity.*Subsection (a)*

This subsection requires a "permanent lighting system," but does not specify what would meet this requirement. The regulation should include or reference what qualifies as "a permanent lighting system."

Subsection (b)

This subsection includes two vague requirements.

First, this subsection requires "an emergency lighting system meeting the requirements of the Department." Does the Department have existing regulations that address the requirements of an emergency lighting system? If so, this subsection should provide a cross-reference to the requirements. If not, this subsection should specify the requirements an emergency lighting system must meet.

Second, this subsection allows the owner to provide each worker with "an approved personal lamp." What is an approved personal lamp?

6. Section 207.314. Ventilation.—Clarity.

Subsection (a) requires mechanical ventilation systems to be approved by the Department. How does the owner obtain Department approval?

7. Section 207.317. Record of inspection.—Clarity.

This section includes the requirement that the log be dated and signed. It is unclear whether the requirement to date and sign applies to the entire log or each individual entry. The regulation should specify that each individual entry into the log should be dated and signed.

The last sentence of this section is unclear. It states, "Corrections or orders required by the Department representative shall be in writing and shall become part of the log." Can the Department representative require orders? Is the Department representative required to date and sign a log entry for a correction or order?

8. Section 207.318. Storage of flammable liquids.—Protection of the public safety; Clarity.

Both subsections (a) and (b) specify requirements for storage of flammable liquids, but end with the phrase "unless otherwise approved by the Department." How is this approval requested? Does a Department representative have authority to issue approval? Is the approval required to be in writing? This information should be included in the final-form regulation.

TURNPIKE COMMISSION

Retention of a Design Management Firm

**Mon/Fayette Expressway Project;
Allegheny County, PA**

Reference No. E-018

The Turnpike Commission (Commission) will retain a design management firm to provide project management services for the design development of a limited access highway on new alignment from PA 51 to I-376, a distance of approximately 24 miles. It is anticipated that the design manager will manage, direct and coordinate the efforts of approximately 12 roadway design consultants, 1 consultant for the design of the Monongahela River Bridge and 1 toll plaza design consultant.

The design manager will act as an agent of the Commission. All project correspondence, except contractual issues, will be directed to the design manager for recommendation to the Commission. The design manager will assist the Commission in resolution and response.

Design management activities will begin with review of the scopes-of-work for the design consultants and end with the bidding of the final construction contract on the PA 51 to I-376 Mon/Fayette Project. The work will be divided into two parts-preliminary design management

activities before the design field view and final design management activities after the design field view. A minimum of 13 major construction contracts and approximately 4 minor construction contracts are anticipated. This contract may be financed with Federal, State and Commission funds and will be subject to Federal review and oversight in accordance with Federal Aid Regulations (23 CFR Chapter 1). The project has an estimated construction cost of \$1.4 billion as developed in the draft Environmental Impact Statement, section 4(f) evaluation and Section 404 Permit application.

The selected firm will be required to provide engineering review services during the design phase of the project and to provide sufficient staff to adequately maintain project coordination and schedule from preliminary design through bidding of the construction contracts.

Tasks required include, but are not limited to: prepare master schedules to coordinate all phases of the project; monitor schedules to assure compliance with the master schedule; monitor design costs to keep cost within budget; review of design submissions, preliminary and final right-of-way plans, design drawings, special provisions, specifications and estimates prepared by other consulting engineering firms; conduct design review meetings and plan checks; provide constructibility reviews; review environmental items of work; coordinate required permit applications; standardize design details; coordinate design and right-of-way acquisition activities; and coordinate with the Department of Transportation (Department), Federal Highway Administration environmental agencies, township officials, municipal authorities and utility companies by means of periodic meetings.

The selected firm will be required to provide a full-time, permanent staff of qualified and experienced professional engineers and support personnel required to maintain project control. In addition to the full-time staff, other in-house specialists may be required to assist with specific work tasks encountered. The Commission must approve the individual who will head the design management team.

The selected firm is required to furnish a fully equipped office in this Commonwealth, conveniently accessible and within 50 miles of the Commission Western Regional Office, 2200 North Center Avenue, New Stanton, PA 15672-9602. The office must include a conference room capable of seating at least 25 people.

The following factors will be considered by the Commission during the evaluation of the firms submitting statements of interest for this project:

- a. Specialized experience and technical competence of prime consultant and subconsultants. The team must clearly demonstrate experience and competence on management of large-scale public works design projects.
- b. Past record of performance with respect to cost control, work quality ability to meet schedules and previous experience on management projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project and the client.
- c. The specific experience and number of individuals who constitute the firm.
- d. Location of consultant's office where the work will be performed.
- e. Workload of the prime consultant and subconsultants for all Department and Commission projects.

f. Other factors, if any, specific to the project.

Address these items and any necessary further details in a brief yet comprehensive manner in the statement of interest.

Firms expressing interest in this project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Transportation Equity Act for the 21st Century (act) and currently certified by the Department shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and controlled by women (WBE) be included, as a presumptive group, within the definition of DBE. The goal of DBE participation in this contract will be established prior to the submission of technical proposals from the shortlisted firms for this project. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they are defined prior to the act), WBEs or combinations thereof. Proposed DBE firms must be certified at the time of submission of the statement of interest. If the selected firm fails to meet the established goal, it shall be required to demonstrate its good faith efforts to attain the goal. If further information is desired concerning DBE/MBE/WBE participation, direct inquiries to the Contracts Administration Department, Turnpike Commission at the previous address or by calling (717) 939-9551 ext. 4241.

Direct inquiries about this advertisement to P. Gregory Bednar at (724) 755-5182; or by e-mail at gbednar@paturpike.com. Direct contractual questions to George M. Hatalowich at (717) 986-8737 or by e-mail at ghatalow@paturpike.com.

General Requirements and Information

Firms interested in providing the previous work and services are invited to submit a statement of interest with the required information. The statements of interest must include the following:

1. One page transmittal letter clearly identifying the project reference number, brief description of the project from the advertisement, the firm's Federal identification number, the firm's legal name, contact person or project manager, address of corporate office and project office. (If the firm has multiple offices, the location of the office performing the work must be identified.)

2. A three-page statement of interest on the advertised project. Each firm should demonstrate their ability to perform the specific requirements indicated for this project and provide explanation of the technical approach, stressing the team's ability to coordinate several construction contracts that were designed by different design consultants.

3. An organization chart for the project, identifying key personnel and any subconsultants and their roles. Any deviation from the subconsultant's listed in the statement of interest will require written approval from the Commission.

4. Tabulation or listing of workload for the prime consultant and all subconsultants for all Department and Commission projects. Do not graphically represent the firm's workload.

5. A Consultant Qualification Package similar to the one submitted to the Department for the current year or

one that is best suited for this project. A copy of the Consultant Qualification Package printed directly from the Department's ECMS website is acceptable.

The Consultant Qualification Package should contain at a minimum the following information for the prime consultant and all subconsultants and attached to the back of the statement of interest (subs to follow primes):

- ECMS General Information and Project Experience Forms or Standard Form (SF) 254—Architect-Engineer and Related Services Questionnaire in its entirety, either not more than 1 year old as of the date of the advertisement.

- Resumes of key personnel expected to be involved in the project. (Limit to two 8 1/2 × 11 pages, per person). Only resumes of key personnel should be included.

- Copy of the firm's registration to do business in this Commonwealth as provided by the Department of State for firms with out-of-State headquarters or corporations not incorporated in this Commonwealth.

- A copy of the Department's DBE/WBE Certification, if applicable.

If a joint venture responds to a project advertisement, the Commission will not accept separate statements of interest from joint venture constituents. A firm will not be permitted to submit a statement of interest on more than one joint venture for the same project reference number. Also, a firm that responds to a project as a prime may not be included as a designated subconsultant to another firm that responds to the same project advertisement. This does not preclude a firm from being set forth as a designated subconsultant to more than one prime consultant responding to the project advertisement.

Firms interested in performing the previous services are invited to submit a statement of interest and required information to George M. Hatalowich, Engineering Contract Manager, Turnpike Commission Administration Building, 700 South Eisenhower Boulevard, Middletown, PA 17057 (street address). The Commission mailing address is P. O. Box 67676, Harrisburg, PA 17106-7676.

The statement of interest and required information must be received by 12 p.m., Friday, April 12, 2002. Any statements of interest received after this date and time will be time-stamped and returned.

Based on an evaluation of acceptable statements of interest received in response to these solicitations, a minimum of three firms will be shortlisted for this contract. Technical proposals will be requested from the shortlisted firms prior to the establishment of the final ranking. An order of preference will be established for the purpose of negotiating an agreement with the highest ranked firm established by the Technical Review Committee and approved by the Commission.

The Commission reserves the right to reject all statements of interest, to cancel solicitation requested under this notice and/or to readvertise solicitation for the work and services.

Chairperson

PROPOSED RULEMAKING

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

[17 PA. CODE CH. 11]
State Parks; General Provisions

The Department of Conservation and Natural Resources (Department), Bureau of State Parks (Bureau), proposes to amend Chapter 11 (relating to general provisions). The amendments update the chapter to improve the protection of State park resources, the safety of visitors and the recreational opportunities of park visitors.

These proposed amendments also reorganize Chapter 11 and eliminate unnecessary provisions. The present sections of Chapter 11 are deleted and replaced with §§ 11.201—11.224.

Statutory Authority

These amendments are proposed under the authority in sections 303, 313 and 314 of the Conservation and Natural Resources Act (act) (71 P.S. §§ 1340.303, 1340.313 and 1340.314); and 18 Pa.C.S. §§ 7505 and 7506 (relating to violation of governmental rules regarding traffic; and violation of rules regarding conduct on Commonwealth property).

Background and purpose

Under Executive Order 1996-1, the Department reviewed Chapter 11 and determined that it needed to be updated, reorganized and streamlined. This proposed rulemaking is intended to accomplish these objectives, as well as to incorporate the flexibility to expand recreational opportunities of the public in State parks.

The substance of most provisions in the current Chapter 11 is retained in the proposed amended chapter, but many of these provisions appear in a different arrangement. In addition, unnecessary provisions have been eliminated. These include provisions that would more appropriately be in the form of permit conditions rather than regulations; provisions that are matters of internal Department policy rather than rules governing conduct of the public in State parks; and provisions that merely restate Fish and Boat Commission regulations.

In the current Chapter 11, many rules of conduct carry criminal penalties—the offender may be cited with a summary offense—while others do not. The only means of enforcing the latter is to order the offender to leave a State park. An offender who refuses to leave may be charged with criminal trespass, a misdemeanor. In the revised Chapter 11, all rules of conduct carry a criminal penalty. Therefore, the revised chapter gives officers more flexibility in enforcing the regulations—if a regulation needs to be enforced against a park visitor, the officer may either cite the offender for violating the regulation or order the offender to leave the State park.

Finally, as a result of several successful pilot programs, this proposed rulemaking liberalizes some provisions in Chapter 11 to expand recreational opportunities in State parks.

Summary of the Proposed Amendments

Title. The title of Subpart B is changed from “State Recreation Areas” to “State Parks,” and all references throughout Chapter 11 to “State Recreation Area” are changed accordingly. This change is being made because the act uses the term “State parks” to refer to land which the Department has jurisdiction to acquire and administer for State park purposes. The term “State Recreation Areas” does not appear in the act.

Definitions. Section 11.201 (relating to definitions) replaces current § 11.1 (relating to definitions). The new definition of “State park” includes all areas which, under the act, the Department has the authority to acquire and administer for State park purposes. The terms “family unit” and “resident” are deleted from the definition section because they are not used in the revised chapter. It should be noted that the term “resident” is also not used in current Chapter 11.

Scope. Section 11.202 (relating to scope) replaces current § 11.2 (relating to scope).

State park waters. Section 11.203 (relating to State park waters) replaces current § 11.62 (relating to State Recreation Area waters). Current § 11.62(d) is deleted because it consists of both internal Department policy, which does not require a regulation, and a provision that is redundant with new § 11.204 (relating to application of Fish and Boat Commission rules and Game Commission rules).

Fish and boat and game rules. Section 11.204 replaces current § 11.7 (relating to application of game and fish rules).

Trespass. Section 11.205 (relating to trespass) replaces current § 11.6 (relating to trespass).

Property left in a State park. Section 11.206 (relating to property left in a State park) replaces current § 11.15 (relating to property left in State Recreation Areas).

Traffic and parking. Section 11.207 (relating to traffic and parking) replaces current §§ 11.3, 11.4 and 11.16 (relating to crimes and offenses—traffic and parking; application of the Vehicle Code; and bus parking). It adds as a summary offense parking without the proper authorization in an area designated for persons with disabilities.

Vehicle Code. The provision in current § 11.4 stating that the Vehicle Code is applicable in State parks is eliminated in the revised chapter because it has been a source of confusion and is unnecessary. The intent of the provision was to make the public aware that the regulations governing operation of a vehicle in a State park do not negate the applicability of 75 Pa.C.S. (relating to the Vehicle Code). The provision is not necessary because the Vehicle Code’s applicability in any given situation or location is governed by the provisions of the Vehicle Code itself.

Schedule; closure. Section 11.208 (relating to schedule; closure) replaces current §§ 11.8, 11.111 and 11.122 (relating to schedule; evening driving; and fishing hours). In response to requests by the public, particularly those who enjoy jogging and walking in the early morning, the new section provides that State parks will open at sunrise (unless otherwise posted), rather than at 8 a.m. under current § 11.8.

Current § 11.8 allows use of camping facilities and cabins 24-hours a day by persons who have permits. This provision is deleted in new § 11.208 because it is contained in permits issued to these persons.

New § 11.208 adds hunting, trapping and snowmobiling as activities that are permitted 24-hours a day. This provision reflects current Bureau policy.

Miscellaneous activities. Section 11.209 (relating to miscellaneous activities) replaces current § 11.5(a)(3), (5) and (7)—(14) (relating to crimes and offenses—general). It also prohibits the following activities: removing or disturbing an historical or archeological artifact, relic or object; bringing an animal, other than a pet, into a State park; failing to comply with a condition of a permit; obstructing or impeding persons or vehicles, or subjecting persons to unwanted physical contact or unwanted verbal behavior; failing to dress appropriately; and storing or leaving food in a manner that is reasonably likely to attract wildlife.

Fires. Section 11.210 (relating to fires) replaces current § 11.5(a)(17) and (18) and adds a new prohibition against disposing hot charcoal except in a facility designated by the Department for charcoal disposal.

Natural resources. Section 11.211 (relating to natural resources) replaces current § 11.9 (relating to wood) and § 11.5(a)(4), which prohibit cutting, removing, damaging or defacing a tree, rock, plant or other natural object. However, under the new section, gathering edible fruits, nuts, berries and fungi (other than threatened, endangered, rare or vulnerable wild plants) in reasonable amounts for one's own personal or family consumption is permitted. In addition, gathering dead and down wood for use within the State park in designated campfire facilities is permitted. The new section prohibits planting seeds, trees, shrubs or plants; feeding wildlife; and releasing animals that were brought into a State park.

Pets. Section 11.212 (relating to pets) replaces current § 11.5(a)(19) and § 11.11 (relating to pets). The current sections require a 6-foot leash for pets. As a result of a successful pilot program, new § 11.212 does not mandate a maximum leash length. Instead, it states that if posting specifies the maximum length, the leash may not exceed this length. In addition, it permits use of a cage or crate as an alternative to leashing.

New § 11.212 adds the following conditions to the keeping of a pet in a State park: the pet may not behave in a manner that may reasonably be expected to disturb or intimidate another person; it may not behave in a manner that may cause damage to property; its droppings must be disposed of in trash receptacles or outside the park; and it must have been licensed and vaccinated as required by law.

Organized events; public assemblies; distribution of written material. Section 11.213 (relating to organized events; public assemblies; distribution of printed matter) replaces current § 11.5(a)(6) and (12) and current § 11.13 (relating to proselytism and distribution of printed matter). The new section generally prohibits organized events, public assemblies or distribution of printed matter without written permission of the Department. The procedure for requesting permission and for the Department's handling of a request is substantially the same as under the current § 11.13, but the provision has been simplified.

Waste. Section 11.214 (relating to waste) replaces current § 11.5(a)(15) and (16). The prohibition against dis-

posing of waste is expanded to specify the types of material that are considered to be waste and to refer to posted instructions.

Weapons and hunting. Section 11.215 (relating to weapons and hunting) replaces current §§ 11.5(a)(7) and 11.10 and § 11.115 (relating to duck hunting). A provision is added prohibiting target-shooting except in areas designated by the Department. This target-shooting provision reflects current Bureau policy.

General recreational activity; horses; snowmobiles; all-terrain vehicles; mountain bikes. Section 11.216 (relating to general recreational activity; horses; snowmobiles; all-terrain vehicles; mountain bikes) replaces current § 11.12 (relating to recreational activity). The provision relating to horses is expanded to prohibit hitching or confining a horse in a manner that may cause damage to property, and to require the disposal outside the park of droppings from hitched or confined horses. The meaning of "antlerless deer season" in relation to the use of snowmobiles is clarified to allow for changes in Game Commission regulations establishing deer seasons. A new provision is added permitting mountain bikes on trails only if the trail is posted as being open for mountain biking. This biking provision reflects current Bureau policy and practice.

Swimming. Section 11.217 (relating to swimming) replaces the following current sections under "Swimming Areas": §§ 11.21—11.27.

Current § 11.25 (relating to closure), which states that the Department will close entry to a swimming area when it reaches capacity, is eliminated in the revised chapter, because it is a matter of internal Department policy and does not require a regulation.

Under the new § 11.217, hours during which swimming is permitted are as posted.

The provisions relating to attire worn in designated swimming areas are expanded. Clothing may not display lifeguard lettering or insignia. In swimming pools, children who are not toilet-trained must be clothed in leak-proof clothing. The requirements concerning supervision of children are more specific than the current requirements. Current § 11.27 (relating to supervision of children required) requires that children 9 years of age or younger be supervised by a "responsible" person. The new provision requires that children under 10 years of age be supervised "competently and effectively by a person at least 14 years of age."

Provisions addressing diving and sports activities are added. Running-entry diving, diving from the shoulders of another person and head-first diving from poolside in shallow water are prohibited.

Because of a successful pilot program, aquatic apparatus that is prohibited under current § 11.23 (relating to aquatic apparatus) is allowed under new § 11.217(8) if permission is given by posting or by an on-duty lifeguard. Similarly, engaging in sports activities, including water polo, volleyball, disc throwing and catch, is prohibited unless permission is given by posting or by an on-duty lifeguard.

Camping; overnight facilities. Section 11.218 (relating to camping; overnight facilities) replaces current § 11.5(21). It prohibits camping or using an overnight facility without a permit.

The sections in current Chapter 11 that govern the conduct of persons using overnight facilities are eliminated in the revised chapter and will appear instead as

conditions of the permits issued to these persons, including §§ 11.32—11.39, 11.101 and 11.102. Section 11.209(b)(1) of this proposed rulemaking prohibits the failure to comply with a condition of a permit.

Some provisions under “Camping Areas” and “Cabin Areas” in current Chapter 11 are matters of internal Department policy and do not require regulations. For that reason they are eliminated in the revised chapter, including §§ 11.31, 11.32(d), 11.34(a) and 11.41(c). Sections 11.34(b) and 11.41(b) (relating to camping permits; and occupancy and use of cabins) are deleted because they are statements of statutory authority and are not needed as regulations.

Boating. Many of the boating provisions in current Chapter 11 are merely reiterations of Fish and Boat Commission regulations. These provisions are eliminated in the proposed rulemaking because they are enforceable as Fish and Boat Commission regulations. The provisions being eliminated are the following sections under “Boating Areas”: §§ 11.68—11.71 and 11.73; and the following sections under “Special Provisions for Presque Isle State Park”: §§ 11.117, 11.119, 11.121(a) and 11.124.

New § 11.219 (relating to boating) applies to boating other than whitewater boating. It replaces the following sections under “Boating Areas”: §§ 11.63 and 11.72—11.74; and the following sections under “Special Provisions for Presque Isle State Park”: §§ 11.118 and 11.121(b) (relating to boating near beach areas; and anchoring of watercraft).

The provisions in current §§ 11.61 and 11.64 (relating to use; and mooring and dock space—general) are eliminated in the revised chapter because they are matters of internal Department policy or are more appropriate as permit conditions than as regulations.

Two current sections under “Special Provisions for Presque Isle State Park” are eliminated because they covered by other provisions. Section 11.120 (relating to hydroplaning) is eliminated because it is covered by a Fish and Boat Commission regulation establishing a slow, no-wake zone for boating within 500 feet of shore at Presque Isle State Park. Section 11.121(b) is eliminated because it is covered by new § 11.219(e)(1).

As a result of a successful pilot program, new § 11.219(b)(4)(viii) permits the use of surfboards and body boards in designated areas of Presque Isle State Park.

New § 11.219(e)(1)(ii) replaces current § 11.94 (relating to boat mooring) under “Special Provisions for Point State Park.”

Current § 11.73 (relating to motor boats) specifies power restrictions for motorboats at each park where boating is permitted. Only electric motors are permitted at some parks, and horsepower limits are specified for most parks where internal combustion engines are allowed. New § 11.219 replaces these power restrictions with a requirement that boaters must comply with power restrictions as posted. Although the power restrictions posted at each park are established by Fish and Boat Commission regulations, the removal of these restrictions from Chapter 11 and the reliance on posting allows for flexibility in the future.

Whitewater boating. Section 11.220 (relating to whitewater boating) replaces current § 11.75 (relating to whitewater boating). The quota provisions in § 11.75(a)(3) are eliminated from the chapter because they are matters of internal Department policy and do not require regulations. Provisions applicable to whitewater boating at all

three whitewater State parks have been consolidated under subsections (a), entitled “general requirements” and (b), entitled “general prohibitions” of new § 11.220. Subsection (c) contains additional provisions applicable only to Ohioypyle State Park; subsection (d) applies only to Lehigh Gorge State Park and subsection (e) applies only to McConnells Mill State Park.

As a result of a successful pilot program, the prohibition in current § 11.75(a)(3)(iv) prohibiting weekend and holiday use of the Youghiogheny River Loop before 3 p.m. from May 1 to September 30 is eliminated.

Point State Park. Section 11.221 (relating to special provisions for Point State Park) replaces current §§ 11.91, 11.92, 11.95 and 11.96 under “Special Provisions for Point State Park.” Under new § 11.221(4), an exception is permitted to the prohibition against wheeled recreational equipment, such as bicycles. The Department can allow an exception by means of posting or written permission. This is a liberalization of current § 11.96 (relating to recreational equipment), which allows no exception to the prohibition against the equipment, and is the result of a successful pilot program at Point State Park. Under this pilot program, posting states that bicycling is permitted on a route from the north side of the park along the walkway on the Fort Duquesne Bridge, through the Park’s portal, then exiting the Park at the north end of Commonwealth Place

Section 11.93 (relating to group activities) is deleted from the Point State Park provisions because it is redundant with new § 11.213. Section 11.94 is replaced by new § 11.219(e)(1)(ii).

Presque Isle State Park. Section 11.222 (relating to special provisions for Presque Isle State Park) replaces current §§ 11.112, 11.113 and 11.123 (relating to visiting after closing; violation of night parking permit; and seining for bait). Current § 11.116 (relating to duck blind permits) is eliminated in the revised chapter because it is a matter of internal Department policy and is not required as a regulation.

Violation of rules regarding conduct in State parks—summary offense. Section 11.223 (relating to violation of rules regarding conduct in State parks) is a new provision. Under this section, engaging in any activity that is prohibited under Chapter 11 (other than a traffic or parking offense, which is covered under new § 11.207) constitutes a summary offense. This new provision is intended to correct several problems in the current Chapter 11.

First, under the current Chapter 11, confusion often arises from the fact that the violation of some rules is clearly identified as a summary offense, but the violation of others is not. The only means of enforcing the latter is for a law enforcement officer to order the offender to leave the park; a person who refuses to leave the park may then be charged with the misdemeanor of criminal trespass. There appears to be no rational basis for considering some types of violations but not others as summary offenses. The new § 11.223 will eliminate this distinction and will allow any rule to be enforced as a summary offense.

Second, § 11.223 will give law enforcement officers greater flexibility in enforcing the rules and regulations in Chapter 11. Currently, if a park officer determines that enforcement is necessary in a particular situation, and the violation is not one of those listed in Chapter 11 as being a summary offense, the officer has no alternative but to order the offender to leave the park; if the offender refuses to leave, the park officer may file a charge of

criminal trespass, which is a misdemeanor. Under the new § 11.223, the park officer has the option of issuing a summary citation to enforce any regulation.

Prices. Section 11.224 (relating to prices) replaces current §§ 11.14 and 11.164 (relating to volunteer projects and State Recreation Area promotion; and fees). The reference in current § 11.164 to the Environmental Quality Board is eliminated because under section 313(f) of act, the Environmental Quality Board has no authority over matters within the Department's jurisdiction. New § 11.224 does not itemize the activities, uses and privileges for which fees may be charged. These items and the prices to be charged will be published in the *Pennsylvania Bulletin*.

Affected Individuals

Chapter 11 governs the conduct of visitors to State parks, and therefore, State park visitors will be affected by the revisions to this chapter. In 2001, State parks had 36—38 million visitors. The proposed rulemaking adds rules of conduct, liberalizes some current rules of conduct and revises the application of criminal sanctions for violation of rules of conduct.

Cost and Paperwork Requirements

The revision of Chapter 11 will result in no additional costs or paperwork requirements for the general public, local governments or the private sector. The only additional costs for the Commonwealth will be the Department's costs in revising rules and regulations booklets, summaries of rules and regulations for posting in State parks, web pages and permits to include conditions that are being eliminated from Chapter 11; posting horsepower limits for motorboats; and posting length limits for pet leashes.

Effective Date/Sunset Date

These amendments will be effective upon publication of final-form rulemaking in the *Pennsylvania Bulletin*. Chapter 11 will thereafter be monitored by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

Contact Person

These proposed amendments are posted on the Department's website at www.dcnr.state.pa.us. Written comments, suggestions or objections from interested persons will be accepted by the Department for 60 days after publication of these proposed amendments in the *Pennsylvania Bulletin*. The comments may be directed to Gary Smith, Chief, Division of Park Operations and Maintenance, Bureau of State Parks, P. O. Box 8551, Harrisburg, PA 17105-8551; fax (717) 783-5017; or e-mail at garysmith@state.pa.us.

Alternative means of providing comments and alternative formats of the proposed amendments may be made available to persons with disabilities upon request by contacting Gary Smith at (717) 787-8800 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD).

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on March 13, 2002, the Department submitted a copy of this proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the Senate and House Environmental Resources and Energy Committees for review and comment. In addition to submitting the proposed rulemaking, the Department has provided IRRC and the Committees

with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

If IRRC has any objections to any portion of the proposed rulemaking, it will notify the Department by June 21, 2002. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for the Department, the Governor and the General Assembly to review these objections before final publication of the regulations.
