READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 255—LOCAL COURT RULES

DELAWARE COUNTY

Bail Bonds Posted by Corporate Surety; No. MD 29-2016

And Now, this 2nd day of March, 2016, It is hereby Ordered and Decreed that the existing Rule 531(e) is amended and shall be entirely replaced by New Rule 531(e) in accordance with the following language effective 30 days after publication.

New Rule 531(e). Corporate Surety. Pennsylvania Rule of Criminal Procedure 528(D)(5) recognizes the surety bond of a surety company authorized to do business in the Commonwealth of Pennsylvania as an acceptable form of security to satisfy the full amount of the monetary condition of a defendant's release on bail. Rule 531 of the Pennsylvania Rules of Criminal Procedure permits, by local rule of Court, additional requirement to be imposed on surety companies approved by the Court. This Regulation sets forth the additional requirement imposed by this Judicial District on corporate sureties and their agents.

1. *Applicability.* This Regulation applies to any corporate surety and its agents seeking to post a bond in satisfaction of the full amount of the monetary condition of a defendant's release on bail.

2. *Definitions.* For purposes of this Regulation:

A "Corporate Surety" is any corporation, limited liability corporation or partnership which engages in the business of providing bail, providing or soliciting bail undertakings, or providing or soliciting indemnity or court indemnity to others on bail undertakings.

3. *Requirements for Approval.* To become qualified to act as a corporate surety, or agent thereof, with respect to the posting of bail bonds in the Thirty Second Judicial District of Pennsylvania, a corporate surety and its agents must:

a) Present satisfactory proof that the corporate surety is licensed by the Pennsylvania Department of Insurance to do business in the Commonwealth of Pennsylvania, registered with the Department of State, and in full compliance with 42 Pa.C.S. § 5743.1.

b) Every corporate surety shall keep at its office the usual and customary records pertaining to transactions authorized by its license and/or the license of any of its agents, including, but not limited to, such records of bail bonds executed or countersigned by the corporate surety to enable the court to obtain all necessary information concerning such bail bonds for at least 3 years after the liability of the surety has been terminated. Such records must be open at all times to examination, inspection, and copying by the court or its representative, and the court may at any time require the corporate surety to furnish it, in such manner or form as the court requires, any information concerning the bail bond business of the corporate surety;

c) Certify that neither the corporate surety, nor its employees or agents, have been convicted of any criminal offense. The certification must be based on a criminal history search conducted by the Pennsylvania State Police for each employee or agent, and a copy of the search results must be attached to the list of employees or agents and certification submitted with the petition required by Section 5 of this Regulation. The on-line quick search/background check is not acceptable. Conviction of a corporate surety, or any of its employees or agents, will render the corporate surety ineligible to conduct business in the 32nd Judicial District.

d) Post with the Office of Judicial Support as security the minimum sum of \$50,000 in United States currency or unencumbered securities of the United States Government, which will entitle the corporate surety to post bond in the aggregate sum of \$500,000 or post \$75,000 in US currency or unencumbered securities of the US Government, which will entitle the corporate surety to post bond in the amount of \$1,000,000, and by further posting the sum required for each individual bond or undertaking with the bail authority. Provided, however, that the corporate surety must post additional security with the Office of Judicial Support in the event the corporate surety intends to post bond in excess of \$1,000,000. The additional security to be posted with the Office of Judicial Support must be in units of \$50,000 which will entitle the corporate surety to post bond in the additional sum of \$1,000,000 per unit. No interest will be paid on any deposits;

e) Provide a financial statement certified by a Certified Public Accountant which verifies that the corporate surety has sufficient assets to satisfy all bail obligations undertaken by or on behalf of the corporate surety in the Delaware County and in other jurisdictions in which the corporate surety conducts business. A current certified statement must be filed with the petition required in Section 5 of this Regulations;

f) Certify that only the corporate surety, which is approved by the President Judge of the Delaware County Court of Common Pleas, or his designee, upon petition as provided in this Regulation, may post bail for criminal defendant, in the name exactly as it appears on the surety's license, and not in the name of any agent or other business entity;

g) Certify full compliance with the training and education requirements set forth in Section 6 of this Regulation;

h) Upon approval of the petition required in Section 5 of this Regulation, register with Delaware County and pay to the Office of Judicial Support an initial registration fee of \$400 plus any applicable filing fee, or such amount as may be established from time to time by the 32nd Judicial District, and County Council;

i) Certify that neither the corporate surety nor any agent or employee of such surety, will represent itself, directly or indirectly, as an employee or agent of the Commonwealth of Pennsylvania or Delaware County. The employees and agents of the corporate surety must not wear clothing or present badges or any other form of law enforcement credentials that create the impression of employment of the Commonwealth of Pennsylvania, Delaware County or any of its units, including the Pretrial Services Unit or the Warrant Unit of Delaware County;

j) Each applicant or licensee shall provide to the District Attorney such information as may be required concerning its business practices or business methods, or proposed business practices or methods, as a Corporate Surety. The Solicitor of Delaware County shall also be served with a copy of this information.

k) Certify that the corporate surety, its agents and employees are in compliance with all applicable laws, regulations, rules of court and procedures and that neither the corporate surety nor any of its agents or employees are under suspension or revocation in any jurisdiction.

4. *Standards of Conduct.* To remain qualified to post bond in Delaware County, the corporate surety and its agents must:

a) Maintain compliance with the requirements specified in Section 3 of this Regulation;

b) Provide quarterly statements certified by the corporate surety that it is in compliance with the security posting requirements specified in Section 3 of this regulation;

c) Provide, on a quarterly basis, or as often as requested by the Common Pleas Court President Judge, or his designee, a financial statement certified by a Certified Public Accountant which verifies that the corporate surety has sufficient assets to satisfy all bail obligations undertaken by the corporate surety and all agents acting on its behalf in Delaware County and in other jurisdictions in which the corporate surety conducts business;

d) Immediately notify, in writing, the Common Pleas President Judge, or his designee, and the Office of Judicial Support, if the corporate surety, or any of its employees or agents, has been charged with any criminal offense, or if its license or the license of any of its agents has been revoked, suspended or not renewed in the Commonwealth of Pennsylvania or any other jurisdiction;

e) Certify continued full compliance with the training and education requirements set forth in Section 6 of this Regulation;

f) Annually renew their registration with Delaware County, provide all certifications required by this Regulation and pay to the Office of Judicial Support an annual renewal registration fee of \$200, on or before the anniversary date of the initial authorization to post bail, or such amount as may be established from time to time by the 32nd Judicial District and County Council.

g) Each applicant or licensee shall provide to the District Attorney such information as may be required concerning its business practices or business methods, or proposed business practices or methods, as a Corporate Surety. The Solicitor of Delaware County shall also be served with a copy of this information.

h) Fully comply with all statutes, laws, regulations, rules of court and procedures as may be established from time to time.

5. Process to be Utilized in Seeking Approval as a Corporate Surety.

Any corporate surety which is licensed by the Pennsylvania Department of Insurance may seek approval to post bail in Delaware County by filing a petition and paying the filing fee with the Office of Judicial Support. The petition must provide the information, documents and certifications set forth in Section 4 of this Regulation. Upon filing, the petition shall be assigned to the President Judge, or his designee for determination.

6. Training and Continuing Education.

To register as a corporate surety desiring to post bail in Delaware County, the corporate surety must certify that all employees and agents who will write any bail on its behalf in Delaware County, not less than thirty (30) hours of education in subjects pertinent to the duties and responsibilities of corporate sureties, including, but not limited to, all laws and regulations relating thereto, the criminal justice system, rights of the accused, bail bond industry ethics, prohibited conduct and apprehension of bail fugitives. Additionally, a corporate surety desiring to post bail in Delaware County must certify that all employees and agents who will write any bail on its behalf in Delaware County have satisfactorily completed not less than eight (8) hours of continuing education in these subjects during the year preceding any renewal of its registration in Delaware County.

7. Bail Piece Procedure. Whenever a bail piece is used pursuant to Pa.R.Crim.P. 536(B)(2) and the defendant is apprehended by or on behalf of the corporate surety or its agents, the defendant must be brought to the George W. Hill Correctional Facility or such other location as designated by a Common Pleas Judge of the 32nd Judicial District after the filing of a petition or presentation of a warrant.

8. Review and Monitoring. RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Amendments to the Rules of Practice and Procedure to Allow Each Signatory Party and the Commission to Administer a Single Process for the Review and Adjudication of Projects

Proposed: Pennsylvania Bulletin (45 Pa.B. 2611 (May 30, 2015)).

Adopted: December 9, 2015 by the Delaware River Basin Commission, Pamela M. Bush, Esq., Commission Secretary.

Filed: February 16, 2016 as a final regulation.

Effective: March 4, 2016 (thirty days after publication in the *Federal Register*, which occurred on February 3, 2016).

Summary: By Resolution No. 2015-9 on December 9, 2015, the Delaware River Basin Commission (“DRBC” or “Commission”) approved amendments to the Commission’s *Administrative Manual Part II—Rules of Practice and Procedure* to provide for the One Process/One Permit Program. The Program is intended to promote inter-agency cooperation and collaboration on shared mission objectives, achieve regulatory program efficiencies, avoid unnecessary duplication of effort, and reduce the potential for confusion on the part of regulated entities and the public regarding regulatory requirements applicable to projects.

Contacts: For technical information, David Kovach, 609-477-7264. For legal information, Pamela Bush, 609-477-7203.

Supplementary Information: The Delaware River Basin Commission is a federal-interstate compact agency charged with managing the water resources of the Delaware River Basin on a regional basis without regard to political boundaries. Its members are the governors of the four basin states—Delaware, New Jersey, New York and Pennsylvania—and the North Atlantic Division Commander of the U. S. Army Corps of Engineers, representing the federal government. The purpose of this notice is to advise the public that duly adopted regulations of the Commission have been filed with the state in accordance with Section 14.2 of the *Delaware River Basin Compact*.

Background. This final rule amends the *Administrative Manual Part II—Rules of Practice and Procedure* by the addition of a new section 2.3.11 (18 CFR 401.42), providing for DRBC and each of the parties to the *Delaware River Basin Compact* (United States Public Law 87-328, Approved September 27, 1961, 75 U. S. Statutes at Large 688; 53 Delaware Laws, Chapter 71, Approved May 26, 1961; New Jersey Laws of 1961, Chapter 13, Approved May 1, 1961; New York Laws of 1961, Chapter 148, Approved March 17, 1961; and Pennsylvania Acts of 1961, Act No. 268, Approved July 7, 1961 (“the Compact”))—Delaware, New Jersey, New York, Pennsylvania and the federal government (“Signatory Parties”)—to coordinate and collaborate in the administration of a single process

for the review and adjudication of certain projects, including, where appropriate, issuance of a single permit or other approval instrument.

Currently, the sponsors of many water resource-related projects in the Delaware River Basin are required to apply to both the DRBC and a state agency, among others, for approvals. New § 2.3.11 (18 CFR 401.42) of the Commission’s *Rules of Practice and Procedure* provides for the DRBC and the administrative agencies of the Signatory Parties to identify regulatory programs that by mutual agreement will be managed through a single process that may result in one decision or approval. The program, known as One Process/One Permit (hereinafter, “the Program” or “One Permit”) is intended to promote interagency cooperation and collaboration on shared mission objectives, achieve regulatory program efficiencies, avoid unnecessary duplication of effort, and reduce the potential for confusion on the part of regulated entities and the public regarding regulatory requirements applicable to projects. Importantly, the rule expressly preserves the authorities of the DRBC and each of its Signatory Parties and effects no change to federal, state or DRBC substantive standards and requirements.

In accordance with this final rule, administrative agreements between DRBC and Signatory Party agencies to implement the Program may be approved by the Commission after each such agreement undergoes a duly noticed public hearing. Notably, each Signatory Party may choose whether and when to initiate an agreement or agreements with DRBC under the Program.

In accordance with Resolution No. 2015-4 of the Commission, which was adopted on March 11, 2015 following a public hearing on March 10, 2015, an administrative agreement between the DRBC and the New Jersey Department of Environmental Protection (NJDEP) was executed, in part to demonstrate how the Program would operate in New Jersey. With adoption of the final rule, DRBC and NJDEP will fully implement their March 2015 agreement. A draft agreement between DRBC and the New York State Department of Environmental Conservation (NYSDEC) was published on January 29, 2016. The earliest date on which the Commission could approve the agreement with NYSDEC is at its next scheduled public meeting on March 16, 2016.

Procedural background. The Commission introduced One Permit to the basin community during meetings with regulated entities, environmental organizations and other stakeholders on February 12 and March 3, 2015 and through publication on the DRBC website of a press release and a set of FAQs on February 27, 2015. During the Commission’s quarterly public meeting on March 10-11, 2015, the Commission approved Resolution No. 2015-4, in part authorizing and directing the Executive Director to initiate rulemaking to amend DRBC’s *Rules of Practice and Procedure* to provide specific authorization for and define the scope of the Program. A notice of proposed rulemaking was published on the Commission’s web site on May 17, 2015.

Notice of the proposed amendments appeared in the *Federal Register* at 80 FR 28567, May 19, 2015; *Delaware Register of Regulations*, 18 DE Reg. 1002, June 1, 2015; *New Jersey Register*, 47 N.J.R. 1256, June 1, 2015; *New York State Register*, May 27, 2015 (page 4); and *Pennsylvania Bulletin*, 45 Pa.B. 2611, May 30, 2015. The Com-

mission held a public hearing on the proposed rule on June 9, 2015 and accepted written comments on the rule through July 1, 2015.

Changes to the draft rule. In its action adopting the final rule, the Commission also adopted a detailed comment and response document identifying the commenters and comments received during the comment period and setting forth the Commission’s responses, including changes to the rule to address concerns and respond to recommendations submitted by stakeholders.

Revisions to the draft rule include the following:

- Paragraph B (18 CFR 401.42(b)) was clarified to provide that applications for approvals required by the Compact and Commission regulations, but not within the scope of the Program, must continue to be submitted to the Commission. This clarification makes express the intent of the draft rule.

- To ensure continued public access to information on the status of all projects under review pursuant to the *Delaware River Basin Compact*, including those administered under One Permit, a new paragraph D.2. (18 CFR 401.42(d)(2)) was added, establishing that participating Signatory Party agencies will notify DRBC at least once monthly of applications received under the Program; and paragraph D.5 (18 CFR 401.42(d)(5)) was revised to establish that the list that the Commission will maintain of projects being administered under One Permit will be posted on the Commission’s website. Additional benefits of these changes are described in the comment and response document.

- Paragraph H (18 CFR 401.42(h)) of the draft rule was revised to clarify that DRBC’s current Project Review Fee Schedule as set forth in Resolution No. 2009-2 will be the operative fee schedule for projects reviewed under the Program, unless and until the Commission replaces it.

- Paragraph I (18 CFR 401.42(i)) was revised to provide more efficient mechanisms for the disposition of Commission dockets during the transition to One Permit. A new paragraph I.1 (18 CFR 401.42(i)(1)) provides that for projects covered by the Program, the most recent docket will be deemed administratively continued when a renewal application is timely submitted to the Signatory Party Agency. A new paragraph I.2 (18 CFR 401.42(i)(2)) eliminates the need for separate Executive Director action to terminate provisions of each docket by providing that unless the Executive Director or the Commission otherwise directs, upon the Signatory Party Agency’s final action on an application for a project subject to the Program, (a) any existing or administratively continued docket will terminate as to all of its provisions and conditions within the scope of the Signatory Party Agency

approval; and (b) such docket will continue in effect as to any provisions and conditions outside the scope of the Signatory Party Agency approval, including for example, addition of a project to the Comprehensive Plan.

- The rule as proposed authorizes Signatory Party agencies, in accordance with an applicable administrative agreement, to issue in their approvals for projects to be administered under the Program the finding and determination required by section 3.8 of the Compact that a project subject to section 3.8 review does not substantially impair or conflict with the Commission’s Comprehensive Plan (“the finding”). Paragraph D.4 (18 CFR 401.42(d)(4)) of the draft rule was revised to clarify that where in accordance with an applicable administrative agreement implementing One Permit the finding continues to be made by the Commission, the Signatory Party agency may include the Commission’s finding in the agency’s approval, together with any conditions identified by the Commission as necessary to support it, thereby achieving a unified permit.

Minor additional revisions to the rule text were made as deemed necessary for clarity or accuracy. In particular, changes were made to underscore two aspects of the rule that have been part of One Permit from the start: (1) that participation in the program by Signatory Party agencies is voluntary; and (2) that the scope of a Signatory Party Agency’s participation is defined by an administrative agreement between DRBC and the agency that has been duly adopted in accordance with paragraph D (18 CFR 401.42(d)) of the rule.

Fiscal Note: Fiscal Note 68-58 remains valid for the final adoption of the subject regulation.

The rule text, shown with the CFR numbering system, follows:

Effective March 4, 2016, the Commission’s rule adoption amends the *Pennsylvania Administrative Code*, Title 25, Part V, Chapter 901, as set forth below. New text is denoted by bold face type. Deleted text is denoted by bold face type in brackets:

§ 901.1. Rules of Practice and Procedure.

The rules of practice and procedure as set forth in 18 CFR 401 (2016 [2002]) are hereby incorporated by reference and made a part of this title.

The text of the new section as it will appear in the *Code of Federal Regulations* is printed in its entirety below.

§ 401.42. One Permit Program.

(a) *Purpose.* The purpose of the One Permit Program set forth in this section is to provide the opportunity for the environmental agency and/or other administrative agency of a Signatory Party (“Signatory Party Agency”) and the Commission to coordinate and collaborate in the administration of a single process for the review and adjudication of projects. The One Permit Program allows the Signatory Party Agency and Commission to incorporate requirements and determinations of both entities in a single permit or other approval instrument, pursuant to a duly adopted Administrative Agreement under paragraph (d) of this section.

(b) *Scope.* This section applies to all projects that:

- (1) Are reviewable under the Compact;
- (2) Meet the thresholds for review set forth in § 401.35 of these *Rules of Practice and Procedure*;
- (3) Are subject to review by a Signatory Party Agency under its own statutory authorities; and

(4) Are within regulatory programs that have been identified in a duly adopted Administrative Agreement between the Commission and a Signatory Party Agency under this section. For any project that requires an approval under the Compact that is outside the scope of the Signatory Party Agency’s approval issued in accordance with an Administrative Agreement under this section, the project sponsor shall apply to the Commission in accordance with procedures established by the Commission.

(c) *Regulatory programs.* Regulatory programs eligible for administration under the One Permit Program may include but are not limited to those concerning: Basin discharges, Basin water withdrawals, and Basin flood plain requirements.

(d) *Procedure.* The categories of projects covered and the procedures for processing applications under the One Permit Program shall be set forth in one or more Administrative Agreements between the Commission and the Signatory Party Agency that have been adopted by the Commission following a duly noticed public hearing and are in form and substance acceptable to the Commission and the Signatory Party Agency, consistent with the following:

- 1. Except as provided in paragraphs (b) and (e) of this section or in an Administrative Agreement that has been duly executed by the Commission and the Signatory Party Agency under this section, an application for initial approval, renewal or revision of any project subject to the One Permit Program shall be filed only with the Signatory Party Agency.
- 2. To enable the Commission to compile and make available to the public a current list of pending applications for projects within the Basin subject to Commission jurisdiction, the Signatory Party Agency shall notify the Commission at least monthly of applications the Signatory Party has received during the preceding month that may be eligible for review under the One Permit Program.
- 3. For those categories of projects identified in the Administrative Agreement as requiring Commission input, the Commission staff shall provide the Signatory

Party Agency with such input, including where specified by the Administrative Agreement, a recommendation as to any conditions of approval that may be necessary or appropriate to include in the project review determination under Section 3.8 of the Compact as to those regulatory programs identified in an Administrative Agreement in accordance with paragraph (b) of this section.

4. Unless the Signatory Party Agency disapproves the project or the Administrative Agreement provides for separate Commission action under Section 3.8 of the Compact, the Signatory Party Agency shall make the project review determination under Section 3.8 of the Compact, as specified in the Administrative Agreement, as to the regulatory program covered by the Signatory Party Agency's approval and include the determination and any associated conditions of approval within the permit or other approval instrument that it issues to the project sponsor. If in accordance with the applicable Administrative Agreement the determination under Section 3.8 of the Compact is made by the Commission, the Signatory Party Agency may include the determination together with any associated conditions of approval in its permit or other approval instrument covering the project.

5. The Commission will maintain on its website a list of all projects being administered pursuant to the Program.

(e) *Comprehensive Plan projects.* Articles 11 and 13 of the Compact require certain projects to be included in the Comprehensive Plan. To add a project not yet included in the Comprehensive Plan, the project sponsor shall submit a separate application to the Commission. If following its review and public hearing the Commission approves the addition of the project to the Comprehensive Plan, the Commission's approval will include such project requirements as are necessary under the Compact and Commission regulations. All other project approvals that may be required from the Signatory Party Agency or the Commission under regulatory programs administered pursuant to this section may be issued through the One Permit Program. An application for renewal or modification of a project in the Comprehensive Plan that does not change the project so substantially as to render it a new and different project may be submitted only to the Signatory Party Agency unless otherwise specified in the Administrative Agreement.

(f) *Retention of Commission review and enforcement authorities.* Notwithstanding any other provision of this section, any Commissioner or the Executive Director may designate for Commission review any project that is reviewable under the Compact. Nothing in this section shall limit the authority of the Commission to exercise its review authority under the Compact and applicable Commission regulations. Similarly, although Administrative Agreements executed pursuant to this section may include collaborative and cooperative compliance and enforcement procedures, nothing in this section shall limit the authority of the Commission to exercise its enforcement authority under the Compact and applicable regulations.

(g) *Exhaustion of Signatory Party administrative remedies prerequisite to appeal.* Before commencing an action in a court of appropriate jurisdiction challenging any final action taken by a Signatory Party Agency under this section, the appellant must first exhaust its administrative remedies under the law of the Signatory Party whose agency issued the decision at issue.

(h) *Fees.* The Commission shall establish and maintain a schedule of fees for any or all of the services it renders

pursuant to this section. The applicable fee(s) for Commission services rendered pursuant to this section shall be those set forth in DRBC Resolution No. 2009-2 (available at <http://www.nj.gov/drbc/library/documents/Res2009-2.pdf>) for the review and renewal of project approvals. Project sponsors shall pay such fees, if any, directly to the Commission in accordance with the current schedule and applicable rules.

(i) *Effect of One Permit Program on Commission dockets.*

(1) Unless the Executive Director or Commission otherwise directs, if a docket holder submits, or has submitted, a timely application to a Signatory Party Agency for a project subject to review under an Administrative Agreement duly adopted under paragraph (d) of this section, the most recent docket for the project shall, upon expiration, be deemed administratively continued until final action is taken in accordance with paragraph (i)(2) of this section.

(2) Unless the Executive Director or Commission otherwise directs, upon a Signatory Party Agency's final action on an application for a project subject to the One Permit Program:

(i) Any existing or administratively continued docket for such project shall terminate as to all of its provisions and conditions that pertain to regulatory programs administered by the Signatory Party Agency under the Administrative Agreement ("the Covered Programs"); and

(ii) The docket shall continue in effect as to any provisions and conditions not pertaining only to Covered Programs, including, as applicable, the incorporation of the project in the Commission's Comprehensive Plan.

(j) *Modification of rules of practice and procedure to conform to this section.* Any project subject to review under an Administrative Agreement duly adopted under paragraph (d) of this section, shall be governed by this section and not §§ 401.4, 401.5, 401.6, 401.8, 401.34(a), (c) and (e), 401.37, 401.38 and 18 CFR part 401, subpart F, where they are inconsistent with the procedures provided in this section.

(k) *No interference with Supreme Court decree.* In accordance with Sections 3.3(a) and 3.5 of the Compact, nothing in this section shall grant the authority to any Signatory Party Agency to impair, diminish or otherwise adversely affect the diversions, compensating releases, rights, conditions, obligations and provisions for administration thereof provided in the United States Supreme Court decree in *New Jersey v. New York*, 347 U.S. 995 (1954) ("Decree"). PROPOSED RULEMAKING

BOARD OF COAL MINE SAFETY

[25 PA. CODE CH. 208]

Proximity Detection Systems

The Board of Coal Mine Safety (Board) proposes to add §§ 208.500—208.504 (relating to proximity detection systems) to read as set forth in Annex A. The proposed rulemaking implements existing Federal regulations, thereby making certain Federal provisions independently enforceable by the Commonwealth.

This proposed rulemaking was adopted by the Board at its meeting of December 8, 2015.

A. *Effective Date*

This proposed rulemaking will be effective upon final form publication in the *Pennsylvania Bulletin*.

B. *Contact Persons*

For further information, contact Craig Carson, Director, Bureau of Mine Safety, 131 Broadview Road, New Stanton, PA 15672, (724) 404-3154 or cocarson@pa.gov; or Joseph Iole, Assistant Counsel, Bureau of Regulatory Counsel, Rachel Carson State Office Building, P. O. Box 8464, Harrisburg, PA 17105-8464, (717) 787-9376 or jirole@pa.gov.

C. *Statutory Authority*

Sections 106 and 106.1 of the Bituminous Coal Mine Safety Act (BCMSA) (52 P. S. §§ 690-106 and 690-106.1) authorize the adoption of regulations to implement the BCMSA. The BCMSA further authorizes the Board to promulgate necessary or appropriate regulations to implement the requirements of the BCMSA and to protect the health, safety and welfare of miners and other individuals in and about mines.

D. *Background and Purpose*

On July 7, 2008, the General Assembly enacted the BCMSA, which was the first significant update of the Commonwealth's underground bituminous coal mine safety laws since 1961. See section 103(a) of the BCMSA (52 P. S. § 690-103(a)). The BCMSA provides broad authority to promulgate regulations that are necessary or appropriate to implement the BCMSA and to protect the health, safety and welfare of miners and other individuals in and about mines. See section 106.1(a) of the BCMSA. Regulations consistent with Federal standards may also be promulgated under section 106.1(c) of the BCMSA. Under section 106 of the BCMSA, the Board consists of three members representing mine workers, three members representing underground bituminous coal mine operators and the Secretary of the Department of Environmental Protection (Department) who serves as the Board's chairperson.

This proposed rulemaking implements existing Federal regulations in 30 CFR Part 75 (relating to mandatory safety standards—underground coal mines) that require underground bituminous coal mine operators to equip continuous mining machines, except full-face continuous mining machines, with proximity detection systems. Conditions in underground bituminous coal mines, including low visibility, limited space and uneven ground, present hazards that contribute to machine-related accidents that

can cause injury or death. Proximity detection systems, which use electronic sensors to detect motion or the location of one object relative to another, can be used to provide warning and stop mining machines before the machine pins, crushes or strikes a miner.

The Federal Mine Safety and Health Administration promulgated rules regarding proximity detection systems to reduce potential for pinning, crushing or striking accidents.

Adopting these regulations ensures that operations at underground bituminous coal mine sites are safely conducted and maintained. Although underground bituminous coal mine operators are already required to comply with these Federal regulations, implementing them in Chapter 208 (relating to underground coal mine safety) provides the Department with the independent authority to enforce the Federal requirements when Commonwealth inspectors observe violations, improving efficiency and increasing Commonwealth autonomy regarding enforcement efforts.

E. *Summary of Proposed Regulatory Requirements*

Proximity detection systems

§ 208.500. *Proximity detection systems*

This section requires operators to install proximity detection systems on certain mobile machines.

§ 208.501. *Machines covered*

This section incorporates by reference 30 CFR 75.1732(a) (relating to proximity detection systems). This provision describes the types of machines that must be equipped with a proximity detection system and provides the schedule by when certain machines must be in compliance with the rule.

§ 208.502. *Requirements*

This section incorporates by reference 30 CFR 75.1732(b). This provision describes certain technical specifications required in a proximity detection system.

§ 208.503. *System checks*

This section incorporates by reference 30 CFR 75.1732(c). This provision requires a manual inspection of the system at specified intervals, and requires defects to be corrected.

§ 208.504. *Certifications and records*

This section incorporates by reference 30 CFR 75.1732(d). This provision describes the certifications and records related to a proximity detection system an operator shall maintain, and requires the operator to make records available for inspection to the Department.

F. *Benefits, Costs and Compliance*

Benefits

The proposed rulemaking makes certain Federal regulations independently enforceable by the Commonwealth. This improves safety by providing enforcement authority to the Commonwealth and maintaining consistency between Federal and State safety requirements.

Compliance costs

The proposed rulemaking does not add compliance costs since it implements existing Federal regulations with which mining operators in this Commonwealth must already comply.

Paperwork requirements

The proposed rulemaking does not generate additional paperwork because mining operators must comply with the existing Federal regulations that will be implemented by this proposed rulemaking.

G. Pollution Prevention

The Federal Pollution Prevention Act of 1990 (42 U.S.C.A. §§ 13101—13109) establishes a National policy that promotes pollution prevention as the preferred means for achieving state environmental protection goals. The Department encourages pollution prevention, which is the reduction or elimination of pollution at its source, through the substitution of environmentally friendly materials, more efficient use of raw materials and the incorporation of energy efficiency strategies. Pollution prevention practices can provide greater environmental protection with greater efficiency because they can result in significant cost savings to facilities that permanently achieve or move beyond compliance. This proposed rulemaking has minimal impact on pollution prevention since it is focused on mine safety.

H. Sunset Review

The regulations will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulations effectively fulfill the goals for which they were intended.

I. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on March 9, 2016, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate and House Environmental Resources and Energy Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b) which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

J. Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to the Board. Comments, suggestions or objections must be received by the Board by April 18, 2016. In addition to the submission of comments, interested persons may also submit a summary of their comments to the Board. The summary may not exceed one page in length and must also be received by the Board by April 18, 2016. The one-page summary will be distributed to the Board and available publicly prior to the meeting when the final rulemaking will be considered.

Comments including the submission of a one-page summary of comments may be submitted to the Board online, by e-mail, by mail or express mail as follows. If an

acknowledgement of comments submitted online or by e-mail is not received by the sender within 2 working days, the comments should be retransmitted to the Board to ensure receipt. Comments submitted by facsimile will not be accepted.

Comments may be submitted to the Board by accessing eComment at www.ahs.dep.pa.gov/eComment. Comments may be submitted to the Board by e-mail at RegComments@pa.gov. A subject heading of the proposed rulemaking and a return name and address must be included in each transmission.

Written comments should be mailed to the Board of Coal Mine Safety, P. O. Box 8477, Harrisburg, PA 17105-8477. Express mail should be sent to the Board of Coal Mine Safety, Rachel Carson State Office Building, 16th Floor, 400 Market Street, Harrisburg, PA 17101-2301.

GAME COMMISSION

[58 PA. CODE CH. 143]

Hunting and Trapping; Antlerless Deer Licenses

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its February 2, 2016, meeting to amend § 143.50 (relating to procedure for nonresidents of this Commonwealth) to allow nonresidents to submit applications for antlerless deer licenses on the third Monday in July, 1 week after resident applicants.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the February 2, 2016, meeting of the Commission. Comments can be sent until April 1, 2016, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

The Commission has been asked to review the preference given to resident license holders in the timing that antlerless deer applications can be submitted to county treasurers. Currently, resident license holders can apply 2 weeks sooner than nonresident license holders. While this timing does not affect the availability of antlerless deer licenses for nonresident license holders in most wildlife management units (WMU), it often eliminates the availability of antlerless deer licenses in a number of low quota, highly preferred WMUs. The Commission reviewed the resident license holder preference policy and determined that the nonresidents most impacted by this negative preference are former residents of this Commonwealth who annually return to hunt. Therefore, in an effort to narrow the gap, the Commission is proposing to amend § 143.50 to allow nonresidents to submit applications for antlerless deer licenses on the third Monday in July, 1 week after resident applicants.

Section 2722(g) of the code (relating to authorized license-issuing agents) directs the Commission to adopt regulations for the administration, control and performance of license issuing activities. The amendments to § 143.50 are proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 143.50 to allow nonresidents to submit applications for antlerless deer licenses on the third Monday in July, 1 week after resident applicants.

3. Persons Affected

Persons wishing to hunt antlerless deer within this Commonwealth will be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

5. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

Hunting and Trapping; Hunting Hours

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its February 2, 2016, meeting to amend Chapter 141, Appendix G (relating to hunting hours) to replace the current hunting hours table and migratory bird hunting hours table to accurately reflect the dates and hours of legal hunting for the 2016-2017 hunting license year.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the February 2, 2016, meeting of the Commission. Comments can be sent until April 1, 2016, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

Each year there is a shift in calendar days for each month. As a result of this occurrence, the time tables in Appendix G must be amended and updated on an annual basis to accurately reflect the upcoming year's dates and hours for legal hunting. The Commission is proposing to amend Appendix G to replace the current hunting hours table and migratory bird hunting hours table to accurately reflect the dates and hours of legal hunting for the 2016-2017 hunting license year.

Section 2102(a) of the code (relating to regulations) provides that "[t]he commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting

hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” The amendments to Appendix G are proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking will amend Appendix G by replacing the current hunting hours table and migratory bird hunting hours table to accurately reflect the dates and hours of legal hunting for the 2016-2017 hunting license year.

3. *Persons Affected*

Persons wishing to hunt or trap game or wildlife within this Commonwealth during the 2016-2017 hunting license year will be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

5. *Effective Date*

The effective dates of the proposed rulemaking are July 1, 2016, to June 30, 2017.

6. *Contact Person*

[58 PA. CODE CH. 141]
Hunting and Trapping; Permitted Devices

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its February 2, 2016, meeting to amend § 141.18 (relating to permitted devices) to add hand-held rangefinders and those contained within a scope or archery sight to the list of approved devices that may be used to hunt or take wildlife.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the February 2, 2016, meeting of the Commission. Comments can be sent until April 1, 2016, to the Director, Informa-

tion and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

Each year the Commission is asked to review the prospective use of certain devices for hunting or trapping purposes that are otherwise prohibited by statute or regulation. As part of the review process, the Commission generally reviews to what degree use of a given device might negatively impact principles of resource conservation, equal opportunity, fair chase or public safety. The Commission has recently been requested to formally review the use of electronic rangefinders, including hand-held devices and those contained within a scope or archery sight. The Commission has determined that use of these devices for hunting purposes has no or negligible negative impacts to the previously mentioned principles. While the Commission has historically maintained an open use policy towards these electronic devices due to their ubiquitous use, their use could be construed as technically contrary to the Commission's restriction on the use electronic contrivances while hunting. Therefore, in an effort to more formally approve their use, the Commission is proposing to amend § 141.18 to add hand-held rangefinders and those contained within a scope or archery sight to the list of approved devices that may be used to hunt or take wildlife.

Section 2102(d) of the code (relating to regulations) authorizes the Commission to "promulgate regulations stipulating the size and type of traps, the type of firearms and ammunition and other devices which may be used, the manner in which and the location where the devices may be used, the species the devices may be used for and the season when the devices may be used." The amendments to § 141.18 are proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 141.18 to add hand-held rangefinders and those contained within a scope or archery sight to the list of approved devices that may be used to hunt or take wildlife.

3. Persons Affected

Persons wishing to utilize hand-held rangefinders and those contained within a scope or archery sight to hunt or take wildlife within this Commonwealth will be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

5. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. Contact Person

For further information regarding the proposed rulemaking, contact Thomas P. Grohol, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

[58 PA. CODE CH. 131]

Preliminary Provisions; Police Powers by Wildlife Conservation Officers

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its February 2, 2016, meeting, to amend § 131.6 (relating to administration of police powers by wildlife conservation officers) to redirect the extent and manner in which it authorizes wildlife conservation officers to engage in the administration of police powers.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the February 2, 2016, meeting of the Commission. Comments can be sent until April 1, 2016, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

The exercise of general police powers by wildlife conservation officers has proven a unique challenge for the Commission over the past few years. On one hand the Commission asserts its preference to focus the primary responsibilities of wildlife conservation officers to be the enforcement of the code and related environmental concerns. On the other hand the Commission is challenged by the public's expectation that it remain adaptive and capable to address the spectrum of circumstances that wildlife conservation officers face on a daily basis. Increasingly, the Commission is identifying significant overlap and interconnectivity between its investigations into wildlife, habitat and other environmental crime, and other types of general crime. The Commission's policy to attempt to sever and transfer all general crime matters to

other State or local law enforcement agencies has largely proven unsuccessful. Not only does this process often create significant procedural complications for both organizations, but, more importantly, these other agencies have consistently rejected their adoption of cases that they did not initiate. In an effort to reduce legal challenges, reduce potential civil liability and provide recognition of the importance of the relevant competing interests on this issue, the Commission is proposing to amend § 131.6 to redirect the extent and manner in which it authorizes wildlife conservation officers to engage in the administration of police powers.

Section 901(a)(17) of the code (relating to powers and duties of enforcement officers) states in relevant part "[a]ll powers as provided for in this paragraph will be limited by such administrative procedure as the director, with the approval of the commission, shall prescribe." Section 322(c)(12) of the code (relating to powers and duties of commission) specifically empowers the Commission to "[t]ake any necessary action to accomplish and assure the purposes of this title." **[58 PA. CODE CH. 139]
Seasons and Bag Limits**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed at its February 2, 2016, meeting to amend § 139.4 (relating to seasons and bag limits for the license year) to provide updated seasons and bag limits for the 2016-2017 hunting/trapping license year.

The proposed rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the February 2, 2016, meeting of the Commission. Comments can be sent until April 1, 2016, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

To effectively manage the wildlife resources and provide hunting and trapping opportunities in this Commonwealth during the upcoming license year, the Commission is proposing to amend § 139.4 to provide updated seasons and bag limits for the 2016-2017 license year. The 2016-2017 seasons and bag limits have been amended to reflect currently available scientific data, population and harvest records, field surveys and professional staff observations, as well as recommendations received from staff, organized sporting groups, members of the agricultural community and others interested in the management of the wildlife resources of this Commonwealth.

Proposed changes to small game seasons includes making youth and regular seasons for squirrels and rabbits concurrent to simplify regulations and to expand rabbit hunting opportunities and also making snowshoe hare season dates consistent Statewide to simplify regulations, facilitate species monitoring programs and reflect the fact that harvest mortality is not a major driver of population trends for this species.

Proposed changes to wild turkey seasons include a reduction in the length of the fall season in four wildlife management units (WMU) that have exhibited declining trends in turkey population indices. Specifically, seasons would decrease from 2 weeks + 3 days to 1 week + 3 days in WMUs 1A and 2A, from 1 week + 3 days to 1 week in WMU 1B and from 3 weeks + 3 days to 2 weeks + 3 days in WMU 4C.

Proposed changes to black bear seasons include the addition of a 4-day extended firearms season (concurrent with the Wednesday-Saturday of the first week of firearms deer season) in WMU 1B. This season is intended to prevent further expansion of bears into the western portion of this WMU where potential for bear-human conflicts is high.

Proposed changes to furbearer seasons include an increase in the length of the fisher trapping season from the current 6 days to 12 days in the 13 WMUs with open fisher seasons.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the Commission to "fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife." Section 2102(b)(1) of the code (relating to regulations) authorizes the Commission to "promulgate regulations relating to seasons and bag limits for hunting or furtaking. . ." The amendments to § 139.4 are proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking will amend § 139.4 by establishing when and where it is lawful to hunt and trap

various game species and also place limits on the numbers that can be legally taken during the 2016-2017 hunting/trapping license year.

3. *Persons Affected*

Persons wishing to hunt or trap game or wildlife within this Commonwealth during the 2016-2017 hunting/trapping license year will be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

5. *Effective Date*

The effective dates of the proposed rulemaking are July 1, 2016, to June 30, 2017.

6. *Contact Person*

For further information regarding the proposed rulemaking, contact Thomas P. Grohol, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

(ii) The payout odds for all permissible wagers offered by the certificate holder. If the payout odds are not inscribed on the layout, a sign identifying the payout odds for all permissible wagers shall be posted at each 21 Baccarat table.

(c) Each 21 Baccarat table must have a drop box and a tip box attached on the same side of the table as, but on opposite sides of, the dealer, as approved by the Bureau of Casino Compliance in accordance with § 601a.10(g). The Bureau of Casino Compliance may approve an alternative location for the tip box when a card shuffling device or other table game equipment prevents the placement of the drop box and tip box on the same side of the gaming table as, but on opposite sides of, the dealer.

(d) Each 21 Baccarat table must have a discard rack securely attached to the top of the dealer's side of the table.

§ 681a.3. Cards; number of decks; value of cards.

(a) 21 Baccarat shall be played with four or eight decks of cards.

(b) If an automated card shuffling device is utilized, other than a continuous shuffler, 21 Baccarat shall be played with two batches of four or eight decks of cards in accordance with the following requirements:

(1) An equal number of decks shall be included in each batch.

(2) The cards in each batch must be of the same design but the backs of the cards in one batch must be of a different color than the cards in the other batch.

(3) One batch of cards shall be shuffled and stored in the automated card shuffling device while the other batch is being used to play the game.

(4) Both batches of cards shall be continuously alternated in and out of play, with each batch being used for every other dealing shoe.

(5) The cards from only one batch shall be placed in the discard rack at any given time.

(c) The decks of cards opened for use at a 21 Baccarat table shall be changed at least once every 24 hours.

(d) The value of the cards shall be as follows:

- (1) Any card from 2 to 10 shall have its face value.
- (2) Any jack, queen or king shall have a value of 10.

(3) An ace shall have a value of 11 unless that value would give the Player's Hand or Banker's Hand a score in excess of 21, in which case the ace shall have a value of 1.

(e) For purposes of the Bonus Wager, the hands eligible for a payout shall be:

- (1) Three 7s, which is a hand containing three 7s.
- (2) A three-of-a-kind, which is a hand containing three cards of the same rank.

(3) A three-card straight, which is a hand with three cards in consecutive rank regardless of suit. For example: a 5, 7 and 6.

(4) A three-card 21, which is a hand containing three cards that total 21. For example: a 6, 6 and 9.

(5) A pair, which is a hand containing two cards of the same rank regardless of suit (such as two 10s or two queens), provided that only the initial two cards dealt to the hand shall be considered for purposes of a payout for a pair. For example, if a player receives a 5 and a 9 in the first two cards, then receives another 5, the player would not be eligible for the payout.

§ 681a.4. Opening of the table for gaming.

(a) After receiving one or more batches of cards at the table, the dealer shall inspect the cards for any defects. The floorperson assigned to the table shall verify the inspection.

(b) After the cards are inspected, the cards shall be spread out face up on the table for visual inspection by the first player to arrive at the table. The cards shall be spread in horizontal fan shaped columns by deck according to suit and in sequence.

(c) After the first player arriving at the table has been afforded an opportunity to visually inspect the cards, the cards shall be turned face down on the table, mixed thoroughly by a washing of the cards and stacked. Once the cards have been stacked, the cards shall be shuffled in accordance with § 681a.5 (relating to shuffle and cut of the cards).

(d) If an automated shuffling device is utilized, other than a continuous shuffler, all the decks in one batch of cards shall be spread for inspection, mixed, stacked and shuffled in accordance with subsections (a)—(c) separate from the decks in the other batch of cards.

(e) If the batches of cards received at the table are preinspected and reshuffled in accordance with

§ 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), subsections (a)—(d) do not apply.

§ 681a.5. Shuffle and cut of the cards.

(a) Immediately prior to commencement of play, unless the cards were reshuffled in accordance with § 603a.16(u) or (v) (relating to cards; receipt, storage, inspection and removal from use), after each shoe of cards is dealt or when directed by a floorperson or above, the dealer shall shuffle the cards, either manually or by use of an automated card shuffling device, so that the cards are randomly intermixed. Upon completion of the shuffle, the dealer or device shall place the decks of cards in a single stack. The certificate holder may use an automated card shuffling device which, upon completion of the shuffling of the cards, inserts the stack of cards directly into a dealing shoe.

(b) After the cards have been shuffled, the dealer shall offer the stack of cards, with the backs facing away from the dealer, to the players to be cut. The dealer shall begin with the player seated in the highest number position at the table and, working clockwise around the table, offer the stack to each player until a player accepts the cut. If a player does not accept the cut, the dealer shall cut the cards.

(c) The cards shall be cut by placing a cover card in the stack at least ten cards in from the top or the bottom of the stack.

(d) Once the cover card has been inserted into the stack, the dealer shall take all cards above the cover card and the cover card and place them on the bottom of the stack. The dealer shall then insert the second cover card in a position at least ten cards above the bottom of the stack.

(e) After the cards have been cut and before the cards have been placed in the dealing shoe, a floorperson or above may require the cards to be reshuffled or recut if the floorperson or above determines that the shuffle or cut was performed improperly or in any way that might affect the integrity or fairness of the game.

(f) A reshuffle of the cards in the shoe shall take place after the cover card is reached in the shoe and the round of play is completed, as provided in § 681a.7 (relating to procedure for dealing the cards; completion of each round of play), except that a floorperson may determine that the cards should be reshuffled after any round of play.

(g) If there is no gaming activity at a 21 Baccarat table which is open for gaming, the cards shall be removed from the dealing shoe and the discard rack and spread out on the table face down unless a player requests that the cards be spread face up on the table. After the first player arriving at the table is afforded an opportunity to visually inspect the cards, the cards shall be:

(1) Mixed thoroughly by a washing of the cards, stacked, then shuffled and cut in accordance with this section if there is no automated shuffling device in use.

(2) Stacked and placed into the automated shuffling device to be shuffled if an automated shuffling device is in use. The batch of cards already in the shuffler shall then be removed. Unless a player requests otherwise, the batch of cards removed from the shuffler does not need to be spread for inspection and reshuffled prior to being dealt provided that the automated card shuffling device stores a single batch of shuffled cards inside the shuffler in a secure manner.

(h) A certificate holder may utilize a dealing shoe or other device that automatically reshuffles and counts the cards provided that the device is submitted to the Bureau of Gaming Laboratory Operations and approved in accordance with § 461a.4 (relating to submission for testing and approval) prior to its use in the licensed facility. If a certificate holder is utilizing the approved device, subsections (b)—(g) do not apply.

§ 681a.6. Wagers.

(a) Wagers at 21 Baccarat shall be made by placing value chips, plaques or other Board-approved table game wagering instruments on the appropriate areas of the 21 Baccarat layout.

(b) All wagers shall be placed prior to the first card being dealt for each round of play. A player may not handle, remove or alter any wagers that have been made until a decision has been rendered and implemented with respect to that wager.

(c) To participate in a round of play, a player shall place a wager on either the Player's Hand or Banker's Hand. A wager on:

(1) The Player's Hand shall win if the total value of the cards dealt to the Player's Hand:

(i) Is 21 or less and is greater than the total value of the cards dealt to the Banker's Hand.

(ii) Is over 21 but is lower than the total value of the cards dealt to the Banker's Hand.

(2) The Banker's Hand shall win if the total value of the cards dealt to the Banker's Hand:

(i) Is 21 or less and is greater than the total value of the cards dealt to the Player's Hand.

(ii) Is over 21 but is lower than the total value of the cards dealt to the Player's Hand.

(d) If specified in its Rules Submission under § 601a.2 (relating to table games Rules Submissions), a certificate holder may offer to each player who placed a wager in accordance with subsection (c) the option of placing any of the following optional wagers:

(1) A Tie Wager which shall win if the Banker's Hand and the Player's Hand are equal in value.

(2) A Bonus Wager on the Player's Hand which shall win if the Player's Hand contains a pair or better as described in § 681a.3(e) (relating to cards; number of decks; value of cards).

(3) A Bonus Wager on the Banker's Hand which shall win if the Banker's Hand contains a pair or better as described in § 681a.3(e).

§ 681a.7. Procedure for dealing the cards; completion of each round of play.

(a) All cards shall be dealt from a dealing shoe which must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures under § 681a.5 (relating to shuffle and cut of the cards) have been completed, the stacked cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Each card shall be removed from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and placed on the appropriate area of the layout with the opposite hand.

(c) After each full batch of cards is placed in the shoe, the dealer shall remove the first card and place it in the discard rack. Each new dealer who comes to the table shall also remove one card and place it in the discard rack before dealing any cards to the players.

(d) If the cover card appears as the first card in the dealing shoe at the beginning of a round of play or appears during play, the cover card shall be removed and placed to the side and the hand shall be completed. The dealer shall then:

(1) Collect and reshuffle the cards by removing the cards remaining in the shoe and placing them in the discard rack to ensure that no cards are missing.

(2) Shuffle the cards so that they are randomly intermixed.

(e) After all Player and Banker Wagers and optional Tie and Bonus Wagers have been placed, the dealer shall deal the cards as follows:

(1) One card face up to the area in front of the table inventory container designated for the Player's Hand.

(2) One card face up to the area in front of the table inventory container designated for the Banker's Hand.

(3) A second card face up to the area for the Player's Hand.

(4) A second card face up to the area for the Banker's Hand.

(f) If either the Player's Hand or Banker's Hand is a natural and if:

(1) There were no Bonus Wagers placed, no additional cards may be dealt to either hand. All Player and Banker Wagers shall then be settled in accordance with subsections (h)—(j).

(2) Any player placed a Bonus Wager, one additional card shall be drawn face up to the Player's Hand or Banker's Hand if the Player's Hand or Banker's Hand has a total value of less than a soft or hard 17. The additional card shall count only for purposes of the Bonus Wager but may not count for purposes of the player's Player or Banker Wager. The player's Player or Banker Wager shall be settled in accordance with subsections (h)—(j) and the player's Bonus Wager shall be settled in accordance with subsection (k).

(g) If neither the Player's Hand nor Banker's Hand is a natural, the dealer shall draw one additional card face up to the Player's or Banker's Hand if either the Player's Hand or Banker's Hand has a total value of less than a soft or hard 17.

(h) After all cards have been dealt, the dealer shall compare the total value of the Player's Hand to the total value of the Banker's Hand. Starting with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction the dealer shall then settle all Player and Banker Wagers as provided in subsections (i) and (j).

(i) For players who wagered on the Player's Hand, if the Player's Hand:

(1) Is 21 or less and the total value of the Banker's Hand is over 21, the dealer shall pay each player who wagered on the Player's Hand in accordance with § 681a.8(a) (relating to payout odds).

(ii) Do not have the same total value, the dealer shall collect the losing Tie Wager.

(2) For the Bonus Wager on the Player's Hand, if the Player's Hand:

Standards for Automotive Fuel

Section 4187.4(a) of 3 Pa.C.S. (relating to standards for automotive fuel) requires that the Department of Agriculture (Department): (1) adopt the latest automotive fuel standards for automotive spark ignition engines based on the latest standards of the American Society for Testing and Materials International (ASTM) as determined by the Federal Trade Commission; and (2) publish notice of these standards in the *Pennsylvania Bulletin*.

This notice supplants and replaces an earlier notice on this subject published at 44 Pa.B. 7443 (November 29, 2014).

The standards for automotive fuel adopted by the Department are the most current standards published at 16 CFR Part 306 (relating to automotive fuel ratings, certification and posting), with the following modification:

With respect to gasoline-ethanol blended automotive fuel, the maximum vapor pressure shall not exceed the limits specified in the latest ASTM International Standard D4814, *Standard Specification for Automotive Spark-Ignition Engine Fuel*, by more than:

1. One pound per square inch for blends containing 9 to 10 volume percent ethanol from June 1 through September 15.
2. One pound per square inch for blends containing 1 or more volume percent ethanol for Vapor Pressure/Distillation Classes A, B, C and D from September 16 through May 31.
3. One-half pound per square inch for blends containing 1 or more volume percent ethanol for Vapor Pressure/Distillation Class E from September 16 through May 31.

The modification previously described effectively continues an exception established in the National Institute of Standards and Technology (NIST) Handbook 130, *Uniform Laws and Regulations in the Areas of Legal Metrology and Engine Fuel Quality*, in this handbook's *Uniform Engine Fuels and Automotive Lubricants Regulation*. This NIST Handbook 130 exception expires by May 1, 2016. The Department shall effectively continue this exception, through the modification previously described, until the earlier of: (1) ASTM confirming and re-establishing that same vapor pressure tolerance in ASTM International Standard D4814; or (2) ASTM establishing a different vapor pressure tolerance; or (3) a subsequent notice from the Department changing that vapor pressure tolerance.

The referenced standards can be read online at www.ecfr.gov.

The Department will provide copies of these standards upon request at (717) 787-9089, or by writing to the Department of Agriculture, Attn: Director, Bureau of Ride and Measurement Standards, 2301 North Cameron Street, Harrisburg, PA 17110-9408.

The referenced standards are adopted by the Department as of the date of publication in the *Pennsylvania Bulletin*.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of April 2016

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of April, 2016, is 4 3/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. 96-221). Further preemption was instituted with the signing of Pub. L. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such

individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 2.20 to which was added 2.50 percentage points for a total of 4.70 that by law is rounded off to the nearest quarter at 4 3/4%.

Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. In accordance with 25 Pa. Code § 92a.32(d), the proposed discharge of stormwater associated with construction activities will be managed in accordance with the requirements of 25 Pa. Code Chapter 102. These determinations are published as proposed actions for comments prior to taking final actions.

Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

PA0270806, Pesticides, SIC Code 4959, **PA Turnpike Commission**, PO Box 67676, Harrisburg, PA 17106-7676.

Description of Proposed Activity: The application is for a new NPDES permit for discharges associated with the application of pesticides to control weeds and roadside vegetation in PA Turnpike Commission's Right-Of-Ways (ROWs) and along turnpike roadsides and other PTC facilities throughout the Commonwealth to maintain a travel way free of obstructing vegetation to ensure public safety.

Applicators are required to follow product labeling instructions of pesticides, which may include provisions to reduce application doses and notify public water suppliers in the event applications are conducted near public water supply intakes. Applicators are required to coordinate with the operators of such drinking water treatment plants prior to treatment to avoid any shortages. The discharges associated with the pesticide applications by PA Turnpike Commission are not expected to affect public water supplies.

PA DEP has made a tentative determination to issue the NPDES permit subject to the terms and conditions of the permit. An anti-degradation analysis has been completed to document that pesticide application activities in High Quality (HQ) or Exceptional Value (EV) waters, if necessary, will be conducted in a manner that minimizes adverse environmental effects. The proposed permit contains conditions that require implementation of Pest Management Measures, Recordkeeping and Annual Reporting Requirements, Corrective Action Documentation and Reporting, and a Pesticides Discharge Management Plan.

use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to

make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Notice is hereby given in accordance with 25 Pa. Code §§ 127.44(b) and 127.424(b) that the Department of Environmental Protection (DEP) intends to issue **Plan Approval # 45-00005C** to **Sanofi Pasteur, Inc.**, Discovery Drive, Swiftwater, PA 18370 for their facility located in Pocono Township, **Monroe County**. This plan approval will be incorporated into the Title V operating permit # **45-00005** through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan approval # 45-00005C is for the installation and operation of two (2) natural gas fired boilers (#13 & #14) at the existing facility located in Pocono Township, Monroe County. The designed rated heat input to boiler #13 & #14 will be 49.00 MMBtus/hr each. Each boiler will fire natural gas as a fuel using a forced draft low NO_x burner with internal flue gas recirculation.

The following emission limitations are set for each new boiler.

NO_x emissions—From BAT, 30 @ PPM 3%O₂ when firing with natural gas.

CO emission—From BAT, 100 PPM at 3% O₂.

The facility is located in an area designated as a marginal nonattainment area for O₃. The project area is also included in the northeast Ozone Transport Region (OTR). The facility is currently a major source for NO_x emissions only. The NA NSR PAL chosen by the company for the NO_x emission will keep the proposed emission increase from the facility below the NSR applicability triggering thresholds from the proposed new sources. Thus, the addition of sources will not subject the facility to the provisions of NA NSR for NO_x. Emissions of SO₂, CO, NO_x, TSP, PM₁₀, lead, asbestos, beryllium, mercury, vinyl chloride, fluorides, sulfuric acid mist, hydrogen sulfide, total reduced sulfur, and reduced sulfur compounds associated with the proposed projects will be below the PSD significant emission rates as the company will maintained the emissions from the entire facility below the PSD PALs level and thus are not subject to PSD review.

Copies of the applications, DEP's analysis and other documents used in the evaluation of the applications are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701.

Any person(s) wishing to provide DEP with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the name, address and telephone number of the person submitting the comments, identification of the proposed permit No.: 45-00005C and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, where DEP determines such notification is sufficient. Written comments or requests for a public hearing should be directed to Raymond Kempa, P.E., Environmental Group Manager, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18701, Phone 570-826-2511 within 30 days after publication date.

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit

applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

E02-1665-A1, Allied Waste Systems of PA, LLC, 11 Boggs Road, P. O. Box 47, Imperial, PA 15126, Findlay Township, Allegheny County, Pittsburgh ACOE District.

To applicant is proposing to:

Amend Permit Number E02-1665 (which authorized the placement and maintenance of fill in approximately 2.39 acres of wetlands for the purpose of reconfiguring and expanding the existing Imperial Landfill) to:

1.) Place and maintain fill in two (2) PEM wetlands, which will cumulatively affect 0.08 acre of wetland.

2.) To construct and maintain two (2) utility line stream crossings, consisting of a treatment effluent line and a sanitary sewer line, across 35 linear feet of a perennial Unnamed Tributary (UNT) to South Fork Montour Run (aka Stream-001) (TSF).

3.) Construct and maintain a water utility line stream crossing of the same aforementioned UNT, but at a different location, which will impact 18 linear feet of watercourse.

4.) Construct and maintain a water utility line stream crossing of a UNT to South Fork Montour Run (aka Stream-003) (TSF), which will impact 7 linear feet of watercourse.

For the purpose of constructing and operating a pre-treatment leachate facility to allow wastewater discharge from the Imperial Landfill facility to be discharged to the Moon Township Municipal Authority's sewer system. This project is located near the intersection of Boggs Road and Santiago Road (Quadrangle: Clinton, PA; Latitude: 40° 26' 36"; Longitude: -89° 16' 14"; Sub-basin: 20G; Chapter 93 Type: TSF), in Findlay Township, Allegheny County. The project will cumulatively impact 0.08 ac of PEM wetland, permanently, and 60 linear feet of various watercourses. The 0.08 acre of permanent PEM wetland impact will be offset by the creation of a 3.25 acre wetland, which was previously approved under the original permit to off-set 2.39 acres of wetland impact.

3. Install and maintain road associated stormwater facilities and outfalls in the Millers Run watershed (WWF).

In association with constructing a new 0.65 mile section (Section 55B) of the Pennsylvania Turnpike in South Fayette Township, Allegheny County (Canonsburg, PA Quadrangle; starting at Latitude: 40° 21' 77.3" Longitude: -80° 13' 15.6"; and ending at Latitude: 40° 21' 37.1" Longitude: -80° 12' 66.5"), as a component of the overall construction of a new 13.3 mile section (aka The Southern Beltway Project) of the Pennsylvania Turnpike, between U.S Route 22, and Interstate 79 (a.k.a. The Southern Beltway project). Two mitigation projects will compensate for the cumulative total of impacts to watercourses from this portion of Section 55B, as well as for impacts from several future subprojects associated with the overall Southern Beltway Project. Although final plans for future projects are not available, the applicant estimates that the aforementioned future subprojects and the current project will permanently affect a cumulative total of approximately 15,231 LF, and temporarily impact approximately 700 LF, of various watercourses. To compensate for the cumulative total of impacts from the Southern Beltway Project, the stream mitigation plan includes the reconstruction, rehabilitation, and enhancement of approximately 15,672 LF of various tributaries in the Buck Run watershed, in Donegal Township, Washington County (West Middletown, PA Quadrangle; Latitude: 40° 8' 34" Longitude: -80° 25' 10"). 3. Construct and maintain a 1,735' x 4' culvert in a UNT to Millers Run (aka UNT 12 to Millers Run) (WWF).

4. Place and maintain fill in 0.118 acre of PEM wetland in the Millers Run watershed (WWF).

5. Construct and maintain a 50' x 2' culvert as a temporary stream crossing of a UNT to Millers Run (aka UNT 15 to Millers Run) (WWF).

6. Temporarily relocate 139 LF of a UNT to Robinson Run (WWF).

7. Install and maintain road associated stormwater facilities and outfalls in the Millers Run and Robinson Run watersheds (WWF).

The Southern Beltway project). The structures and activities requiring authorization for Section 55B in Mount Pleasant and Cecil Townships, Washington County (Canonsburg, PA Quadrangle; starting at Latitude: 40° 21' 60" Longitude: -80° 15' 35.5"; and ending at Latitude: 40° 21' 77" Longitude: -80° 13' 15.6") will permanently impact a total of approximately 2001 linear feet (LF) of various watercourses and 0.118 acre of wetland, and temporarily impact a total of approximately 189 LF of various watercourse. Two mitigation projects will compensate for the cumulative total of impacts to watercourses from Section 55B, as well as for impacts from several future subprojects associated with the overall Southern Beltway Project. Although final plans for future projects are not available, the applicant estimates that the aforementioned future subprojects and the current project will permanently affect a cumulative total of approximately 15,231 LF, and temporarily impact approximately 700 LF, of various watercourses. As compensation for 6.089 acres of permanent

wetland impacts associated with the overall Southern Beltway Project, the applicant will construct approximately 6.98 acres of wetlands, at a site approximately 0.5 miles west of the intersection of S.R. 18, and Joffre Bulger Road, in Smith Township, Washington County (Clinton, PA Quadrangle; Latitude: 40° 23' 16" Longitude: -80° 22' 24").

E24-248A, Advanced Disposal Services Greentree Landfill, LLC, 635 Toby Road, Kersey, PA 15846. Greentree Landfill Mitigation Plan Revision, in Fox Township, **Elk County**, ACOE Pittsburgh District (Brandy Camp, PA Quadrangle N: 41°, 17', 00.1"; W: 78°, 38', 43.8").

Applicant proposes to amend existing permit E24-248, issued December 8, 2008, which authorized permanent impacts to 1.6 acre of wetland and 1,465 LF of stream channel and required mitigation consisting of the creation of 3.29 acres of wetland and 5,196 LF of stream channel on-site. The amount of mitigation originally proposed included a significant portion that was intended to off-set future impacts at the landfill. The applicant currently has no plans for additional expansion that would require mitigation and is seeking to amend the permit to reflect only the mitigation required for permitted impacts. Applicant proposes to construct 3.29 acres of wetland and 1,747 LF of stream channel to compensate for the originally permitted impacts. No impacts authorized by E24-248 have occurred at this time, and no additional impacts are proposed as part of this amendment.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program man-

ager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. DEPARTMENT OF HUMAN SERVICES

Payment for Nursing Facility Services Provided by Nonpublic Nursing Facilities; Medical Assistance Day One Incentive Payments to Nonpublic Nursing Facilities for Fiscal Year 2015-2016

This announcement provides advance notice that the Department of Human Services (Department) intends to continue to make Medical Assistance Day One Incentive (MDOI) payments to qualified nonpublic nursing facilities for Fiscal Year (FY) 2015-2016. The MDOI payments to nonpublic nursing facilities will provide incentives to nonpublic nursing facilities to provide services to individuals who are Medical Assistance (MA) eligible on the day of admission. The MDOI payments are intended to encourage nonpublic nursing facilities to increase access to care for the poor and indigent citizens of this Commonwealth.

Background

The act of July 9, 2013 (P. L. 369, No. 55) and the act of July 10, 2014 (P. L. 1053, No. 126), among other things, directed the Department to make MDOI payments for FY 2013-2014 and FY 2014-2015 to qualified nonpublic nurs-

ing facilities. The act of December 28, 2015 (P. L. 500, No. 92) also directs the Department to continue to make MDOI payments to qualified nonpublic nursing facilities for FY 2015-2016. The Department will use the Total Pennsylvania Medical Assistance (PA MA) days and Total Resident Days as reported by nonpublic nursing facilities under Article VIII-A of the Human Services Code (62 P. S. §§ 801-A—815-A), regarding nursing facility assessments, to determine eligibility and calculate payments.

To qualify for MDOI payments, the nursing facility must be a nonpublic nursing facility for the full Resident Day quarter prior to the applicable quarterly reporting due dates of October 31, January 31, April 30 and July 31. In addition, the nonpublic nursing facility shall have an overall occupancy rate of at least 85% and an MA occupancy rate of at least 65% during the Resident Day quarter. A nursing facility's overall occupancy rate for these payments will be determined as follows: Overall occupancy rate = (Total Resident Days ÷ (licensed bed capacity at the end of the quarter × the number of calendar days in the quarter)). A nursing facility's MA occupancy rate for these payments will be determined as follows: MA occupancy rate = Total PA MA days ÷ Total Resident Days.

Each nursing facility may qualify for a maximum of four MDOI payments. Using the nursing facility assessment quarterly resident day reporting forms available on October 31 for the first payment, January 31 for the second payment, April 30 for the third payment and July 31 for the fourth payment, the Department will calculate each qualified nonpublic nursing facility's MDOI payments based on the following formula:

(i) A MDOI per diem for each payment will be 1/4 of the total funds appropriated for the fiscal year divided by the Total PA MA days as reported by all qualifying nonpublic nursing facilities.

(ii) Each qualified nonpublic nursing facility's MDOI payment will be the per diem multiplied by a nonpublic nursing facility's Total PA MA days.

The Department will not retroactively revise an MDOI payment amount based on a nursing facility's late submission or revision of its report related to the previously listed dates. The Department may recoup payments based on an audit of a nursing facility's report.

The Department will submit a Medicaid State Plan Amendment (SPA) to the Centers for Medicare and Medicaid Services (CMS). If CMS approves the SPA, the Department will have the authority to make MDOI payments to nonpublic nursing facilities for FY 2015-2016.

Fiscal Impact

The fiscal impact of this change is estimated at \$12.503 million (\$6 million in State funds) for FY 2015-2016 and \$4.167 million (\$2 million in State funds) for FY 2016-2017.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Long-Term Living, Bureau of Policy and Regulatory Management, Attention: Marilyn Yocum, P. O. Box 8025, Harrisburg, PA 17105-8025. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Pennsylvania Public Utility Commission; Bureau of Investigation and Enforcement v. Yannis Cab Co.; Docket No. C-2013-2382835

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has del-

egated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Investigation and Enforcement. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Investigation and Enforcement Prosecutory Staff hereby represents as follows:

1. That Yannis Cab Co., Respondent, maintains its principal place of business at 1603 North Delaware Avenue, Philadelphia, PA 19125.

2. That Respondent was issued Certificates of Public Convenience by this Commission on November 3, 2004 at Application Docket No. A-00120932 F.3, on March 8, 2005 at A-00120932 F.4, and on March 28, 2005 at A-00120932 F.5.

3. That by Secretarial Letter issued on April 5, 2011 at C-2010-2213368, Respondent was directed to pay a civil penalty of two hundred fifty dollars (\$250.00). To date, Respondent has not submitted any payments to this Commission.

4. That by Secretarial Letter issued on July 8, 2011 at C-2010-2135198, Respondent was directed to pay a civil penalty of two hundred fifty dollars (\$250.00). To date, Respondent has not submitted any payments to this Commission.

5. That by Secretarial Letter issued on May 24, 2012 at C-2011-2256026, Respondent was directed to pay a civil penalty of one thousand dollars (\$1,000.00). To date, Respondent has not submitted any payments to this Commission.

6. That Respondent failed to pay fines totaling one thousand five hundred dollars (\$1,500.00) and violated 66 Pa.C.S. § 501(c) for failing to observe, obey and comply with Secretarial Letters issued on April 5, 2011 at C-2010-2213368, July 8, 2011 at C-2010-2135198, and May 24, 2012 at C-2011-2256026.

A Certificate holder has an obligation to comply with the Commission's rules and regulations. A Certificate of Public Convenience is neither a contract nor a property; it is a privilege. Where that privilege is violated, the Commission may, for due cause, exercise its power to revoke a carrier's privilege to operate. *Paradise v. Pennsylvania Public Utility Commission*, 132 A.2d 754, 184 Pa. Superior Court 8 (1957).

Wherefore, the Bureau of Investigation and Enforcement Prosecutory Staff hereby requests that the Commission issue an Order which revokes the Certificates of Public Convenience held by Respondent at A-00120932 Fs. 3, 4 and 5.

Taxicab Rate Review and Request for Public Comment

On February 23, 2016, the Philadelphia Parking Authority Board (Board) approved, through oral resolution, the recommendation of the Taxicab and Limousine Division (TLD) to reopen a limited rate review investigation. The TLD's request was based partly upon a petition that was filed on Doc. No. P-16-01-03 by Danielle Friedman, Esq. on behalf of certified taxicab driver Khalid Alvi seeking a new proposed flat rate in the core area of the City of Philadelphia during certain hours and days of the week.

In addition to the aforementioned petition, the TLD also recommended the reopening of a rate review because of the on-going significant decreases in gasoline prices, because of repeated requests to review the current boundaries of the Airport-Center City flat rate zone and because of numerous complaints from industry members concerning the economic strain on the taxicab industry as a result of loss in market share due to alternative for-hire transportation services now being provided in Philadelphia.

Therefore, the TLD seeks information and comment from the public at large and the industry concerning the reopening of a rate review limited to the following:

- (1) A flat rate trip in the core of the City of Philadelphia as proposed in the petition.
- (2) A review of the current method for determining a fuel surcharge.
- (3) The boundaries outlined in the current taxicab tariff for flat rate trips between the "Center City Zone" and the Philadelphia International Airport.

Interested parties are invited to submit written comments by April 8, 2016, to Christine A. Kirlin, Esq., Administrative Counsel, Philadelphia Parking Authority, Taxicab and Limousine Division, 2415 South Swanson Street, Philadelphia, PA 19148-4113, ckirlin@philapark.org. Interested parties may review the pending petition along with the TLD's recommendation to the Board at the TLD's web site <http://www.philapark.org/taxis-limos/>.

During this comment period, the TLD will also begin to conduct its own investigation concerning the aforementioned items of this rate review. After the TLD's initial investigation is concluded and upon review of all received written comments, the TLD may hold a public meeting to take further comment on any initial findings.
