READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

GOVERNOR'S OFFICE

Proclamation Terminating the State of Disaster Emergency

March 23, 2016

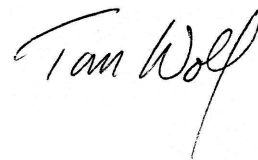

Whereas, on January 21, 2016, I proclaimed the existence of a disaster emergency in the Commonwealth due to a severe winter event that was expected to impact the Commonwealth of Pennsylvania, causing dangerous winter weather conditions including snow and ice accumulation; and

Whereas, this winter event caused severe adverse effects to multiple political subdivisions in the Commonwealth resulting in impacts that were both immediate and long term, and required a comprehensive partnership between the Commonwealth and its political subdivisions for effective recovery; and

Whereas, immediate steps were taken to stabilize the affected areas and recovery operations continue, and ongoing monitoring of conditions and investigations made at my direction have disclosed that the adverse impacts of this event have been mitigated such that emergency conditions no longer exist.

Now Therefore, pursuant to the provisions of section 7301(c) of the Emergency Management Services Code (35 Pa.C.S. § 7101 et seq.), I do hereby proclaim the termination of the state of disaster emergency in the Commonwealth.

Given under my hand and the Seal of the Governor, at the City of Harrisburg, on this twenty-third day of March in the Year of our Lord two thousand and sixteen, and of the Commonwealth the two hundred and fortieth.

Governor

TITLE 204. JUDICIAL SYSTEM GENERAL PROVISIONS

PART V. PROFESSIONAL ETHICS AND CONDUCT

Subpart B. DISCIPLINARY ENFORCEMENT

CHAPTER 83. PENNSYLVANIA RULES OF DISCIPLINARY ENFORCEMENT

Subchapter B. MISCONDUCT

Rule 219. Annual registration of attorneys.

* * * * *

(d) On or before July 1 of each year, all attorneys required by this rule to pay an annual fee shall file with the Attorney Registration Office a signed or electronically endorsed form prescribed by the Attorney Registration Office in accordance with the following procedures:

(1) The form shall set forth:

* * * * *

(iii) The name of each Financial Institution, as defined in Pa.R.P.C. 1.15(a)(4), within or outside this Commonwealth in which the attorney [**on May 1 of the current year or at any time during the preceding 12 months**], from May 1 of the previous year to the date of the filing of the annual fee form, held funds of a client or a third person subject to Rule 1.15 of the Pennsylvania Rules of Professional Conduct. The form shall include the name and account number for each account in which the attorney held such funds, and each IOLTA Account shall be identified as such. The form provided to a person holding a Limited In-House Corporate Counsel License or a Foreign Legal Consultant License need not request the information required by this subparagraph.

For purposes of this subparagraph, the phrase “funds of a client or a third person subject to Rule 1.15 of the Pennsylvania Rules of Professional Conduct” means funds that belong to a client or third person and that an attorney receives:

(A) in connection with a client-lawyer relationship;

(B) as an escrow agent, settlement agent, representative payee, personal representative, guardian, conservator, receiver, trustee, agent under a durable power of attorney, or other similar fiduciary position;

(C) as an agent, having been designated as such by a client or having been so selected as a result of a client-lawyer relationship or the lawyer’s status as such;

(D) in connection with nonlegal services that are not distinct from legal services;

(E) in connection with nonlegal services that are distinct from legal services, and the attorney knows or reasonably should know that the recipient of the service might believe that the recipient is receiving the protection of a client-lawyer relationship; or

(F) as an owner, controlling party, employee, agent, or as one who is otherwise affiliated with an entity providing nonlegal services and the attorney knows or reasonably should know that the recipient of the service might believe that the recipient is receiving the protection of a client-lawyer relationship.

Official Note: For purposes of subparagraph (iii), “funds of a third person” shall not include funds held in: 1) an attorney’s personal account held jointly; or 2) a custodial account for a minor or dependent relative unless the source of any account funds is other than the attorney and his or her spouse.

If an attorney employed by a law firm receives fiduciary funds from or on behalf of a client and deposits or causes the funds to be deposited into a law firm account, the attorney must report the account of deposit under this subparagraph (iii).

(iv) Every account not reported under subparagraph (iii), that held funds of a client or [**third party**] a **third person**, and over which the attorney had sole or shared signature authority or authorization to transfer funds to or from the account, during the same time period specified in subparagraph (iii). For each account, the attorney shall provide the name of the financial institution (whether or not the entity qualifies as a “Financial Institution” under Pa.R.P.C. 1.15(a)(4)), location, and account number.

Official Note: Regarding “funds of a third person,” see Note to Rule 219(d)(1)(iii).

(v) Every business operating account maintained or utilized by the attorney in the practice of law during the same time period specified in subparagraph (iii). For each account, the attorney shall provide the name of the financial institution, location and account number.

* * * * *

(3) Every attorney who has filed the form or elects to file the form electronically shall notify the Attorney Registration Office **in writing** of any change in the information previously submitted, including e-mail address, within 30 days after such change, **which notice shall be sent by mail or facsimile transmission, provided, however, that any change in the information required by subsections (d)(1)(iii), (iv) and (v) (collectively relating to financial account information) that occurs after the filing of the form required by subdivisions (a) and (d)(1) of this rule need only be reported on the next regular annual fee form due July 1. Failure to timely register and file the next annual fee form shall not excuse this subsection's requirement of reporting changes in financial account information on an annual basis on or before July 1, and failure to make such a report shall constitute a violation of this rule.**

(ii) filing a written request for this method of service to be performed in all cases, specifying a facsimile number or an electronic address to which these orders and notices may be sent.

The request for electronic service in all cases filed pursuant to paragraph (ii) may be rescinded at any time by the party's attorney, or the party if unrepresented, by filing a written notice that service of orders and notices shall be accomplished as otherwise provided in this rule.

(Editor's Note: The following rule is new and printed in regular type to enhance readability.)

Rule 576.1. Electronic Filing and Service of Legal Papers.

(A) The president judge of a judicial district by local rule promulgated pursuant to Rule 105 may authorize electronic filing of legal papers with the clerk of courts in cases in the courts of common pleas and in the Philadelphia Municipal Court through the statewide electronic filing system as provided in this rule.

(B) The local rule required under this rule shall include the following provisions:

(1) state that the electronic filing system is permissive and specify the legal papers subject to the rule, but in no case shall legal papers prohibited from being filed electronically by this rule be permitted to be filed electronically;

(2) provide for the procedures to ensure that any party who declines to participate in the system, or who is unable to file or accept service of legal papers which were filed electronically, or who is otherwise unable to access the system, at a minimum, shall be able to file legal papers in a physical paper format and be served legal papers in a physical format which were electronically filed; and

(3) any additional provisions as the court may deem necessary to provide a full and complete procedure for the use of the system within the judicial district.

(C) As used in this rule, the following words shall have the following meanings:

“electronic filing,” the electronic submission of legal papers by means other than facsimile transmission and the acceptance of the document by the clerk of courts;

“filing party,” an attorney, defendant, or other person who files a legal paper by means of electronic filing;

“legal paper,” a pleading or other submission to the court, including motions, answers, notices, or other documents, of which filing is required or permitted, including orders, exhibits, and attachments, but excluding

(1) applications for search warrants,

(2) applications for arrest warrants,

(3) any grand jury materials, except the indicting grand jury indictment or the investigating grand jury presentment,

(4) submissions filed *ex parte* as authorized by law, and

(5) submissions filed or authorized to be filed under seal;

“original document,” a legal paper filed electronically shall be deemed the original document, but copies of exhibits electronically filed do not constitute the original of the exhibit for evidentiary purposes; and

“the system,” the PACFile electronic filing system, developed and administered by the Administrative Office of Pennsylvania Courts, is the exclusive system for electronic filing.

(D) Participation

(1) The system shall permit attorneys and defendants proceeding without counsel to file electronically.

(a) In order to participate in the system, an attorney shall establish an account in the system by procedures established by the Administrative Office of Pennsylvania Courts.

(b) A defendant who is proceeding without counsel shall be permitted to utilize the system through an authorization process established by the Administrative Office of Pennsylvania Courts.

(2) Establishment of an account by an attorney or authorization by a defendant proceeding without counsel in the system shall constitute consent to participate in electronic filing, including acceptance of service electronically of any document filed on the system in any judicial district that permits electronic filing.

(3) An attorney or defendant participating in the system is permitted to file legal paper papers in either an electronic format or in a physical paper format. Service upon an attorney or defendant participating in the system shall be done electronically.

(E) Filing

(1) When a legal paper is to be electronically filed, it shall be submitted to the system at the UJS web portal at <http://ujportal.pacourts.us>, in accordance with this rule, any local rule adopted pursuant to this rule, and any filing instructions as may be otherwise provided at the web portal site.

(2) Electronic filings may be submitted at any time, except during times of periodic maintenance. The electronic submission must be completed by 11:59:59 p.m. EST/EDT to be considered filed that day.

(3) The time and date on which a legal paper is submitted to the system shall be recorded by the system. The system shall provide an acknowledgement to the filing party and shall permit the filing party to select other parties to the case who are participating in electronic filing to receive notice that the legal paper has been submitted, including the date and time of submission, in a form that can be printed. Parties who are not participating in the system shall be served with a copy of the acknowledgement by mail.

(4) The time and date on which the legal paper is accepted by the clerk of courts office also shall be recorded by the system. The system shall provide an acknowledgement to the filing party and other parties to the case who are participating in electronic filing to receive notice that the legal paper has been accepted for filing, including the date and time of acceptance, in a form that can be printed. Parties who are not participating in the system shall be served with a copy of the acknowledgement by mail.

(5) A legal paper shall be considered filed upon submission of the legal paper to the system and acceptance of the filing by the clerk of courts. If the clerk of courts determines that the requirements for filing have been met, the time and date of filing shall be the time and date that the legal paper was submitted to the system. If the clerk of courts finds that the requirements for filing are not met, the clerk may reject the filing.

(6) A filing party shall be responsible for any delay, disruption, and interruption of the electronic signals and legibility of the document electronically filed, except when caused by the failure of the system's website.

(7) The system shall attribute the filing of an electronic legal paper to the party whose account is used to log onto the system and file the legal paper.

(8) Legal papers shall be presented for filing in portable document format (".pdf").

(9) All legal papers electronically filed shall be maintained and retained by the clerk of courts in an electronic format. Neither the clerk of courts nor the court is required to maintain in a physical paper format any legal paper filed electronically as provided in this rule.

(10) Any legal paper submitted for filing to the clerk of courts in a physical paper format shall be accepted by the clerk of courts in that format and shall be retained by the clerk of courts as may be required by applicable rules of court and record retention policies. The clerk of courts shall convert such legal paper in a physical paper format to .pdf and added to the system. However those submissions which are excluded from the definition of "legal paper" under paragraph (C) shall not be converted and added to the system.

(11) No legal paper that complies with the Pennsylvania Rules of Criminal Procedure shall be refused for filing by the clerk of courts or the electronic filing system based upon a requirement of a local rule or local administrative procedure or practice pertaining to the electronic filing of legal papers.

(F) Signature

(1) Except as provided in paragraph (F)(3), an electronic signature of the filer as provided for in the system is permitted on electronic filings in the following form: *John L. Doe*.

(2) The electronic filing of a motion or answer that includes an electronic signature constitutes a certification

pursuant to Pa.R.Crim.P. 575 that the filing party or attorney has read the legal paper, that to the best of the filing party's or attorney's knowledge, information and belief there is good ground to support the motion or answer, and that it is not interposed for delay.

(3) Any motion that avers facts not of record and requiring a sworn affidavit must be created in a physical paper form, a physical signature placed on it, and then converted into a .pdf before it may be electronically filed.

(4) The original of a sworn or verified legal paper that is an electronic filing or is contained within an electronic filing shall be maintained by the electronic filer and made available upon direction of the court or reasonable request of the signatory or opposing party.

(G) The court by local rule shall provide for the maintenance by the clerk of courts of an electronic file only, or of such electronic and physical paper format files as set forth in the local rule. Those legal papers that are not permitted to be electronically filed pursuant to paragraph (C) shall be maintained in a physical paper format only.

(H) Service

(1) The notification of acceptance of an electronic filing to the system as provided in paragraph (E)(4) shall satisfy the service requirements of Rules 114(B) and 576(B) on any attorney or party who has established a system account.

(2) Service of electronic filings on any attorney or party who has not established a UJS web portal account or who is unable to file or receive legal papers electronically or otherwise unable to access the system shall be made by the procedures provided under Rules 114(B) and 576(B).

Comment

This rule, adopted in 2016, permits as a local practice the electronic filing of legal papers. This rule does not require the implementation of electronic filing by a local court. To provide a uniform system for electronic filing, the Administrative Office of Pennsylvania Courts has developed the PACFile electronic filing system. This is the only authorized system for electronic filing of legal documents in criminal court cases in the courts of common pleas and Philadelphia Municipal Court.

This rule is applicable to cases in courts of record. See Rule 103 for the definition of a "court."

The UJS Portal contains other automated services beside PACFile. There may be circumstances when an attorney, who has registered as a user on another service of the UJS Portal may have an established account that would be usable for PACFile. Any question about the requirements of registration or accessibility to PACFile should be referred to the Administrative Office of Pennsylvania Courts.

The system permits a user to designate other users as proxies on individual cases. These proxies all receive notice of any filing in the case. It is anticipated that offices such as those of a district attorney or public defender would be able to establish general user accounts with particular attorneys assigned and their supervisors or back-ups listed as proxies in individual cases.

An attorney is responsible for the actions of other individuals whom the attorney authorizes to use the attorney's account.

The local rule required by this rule must conform to the requirements of Rule 105.

A file in physical paper format is not required by this rule. If the local rule requires a file in physical paper format, the requirement may extend to all cases or only to certain specified cases. For example, the court may require files in physical paper format for cases listed for trial or scheduled for argument while maintaining only electronic files for all other cases.

Upon the electronic filing of a legal paper, the electronic filing system shall automatically send notice of the filing to all parties who have agreed to service by electronic transmission or whose e-mail address is included on an appearance or prior legal paper filed in connection with the case. If the electronic filing system sends notice of such filing, the party filing the legal paper only need serve those parties who are not served by the electronic filing system. An electronic mail address set forth on letterhead is not a sufficient basis under this rule to permit electronic service of legal papers.

Nothing in this rule is intended to prohibit the use of advanced communication technology to submit an application for search warrant as provided in Rule 203(A) or to submit an application for an arrest warrant using advanced communications technology as provided in Rule 513(B)(1).

In addition to the filing fees now applicable, an online payment convenience fee for use of the PACFile system may be imposed. *See* 204 Pa. Code § 207.3.

See Rule 114(B) providing for the clerk of courts to serve orders and court notices by facsimile transmission or other means.

Legal papers filed electronically should be consistent with the formatting requirements of Rule 575(C).

See Rule 576(B) governing service of motions and any written answers, and any notices or documents for which filing is required by facsimile transmission or other means.

See Rule 1002, for the applicability of this rule to summary cases filed in the Philadelphia Municipal Court.

Electronic Filing and Service of Legal Papers

Background

For the past several years, the Committee has been investigating the issue of electronic filing. This began in 2012 when the First Judicial District (FJD) approached the Committee requesting rule changes that would permit the electronic filing of pleadings in criminal cases as a local option. This was part of an initiative to implement an electronic filing system in criminal cases similar to the e-filing system already in place in Philadelphia for civil and orphans' court cases. The Committee believes that the goal of implementing electronic filing is a good one. The Committee concluded that the best approach would be to have practical experience in how such a system

would work in practice before recommending statewide rule changes to the Court. This led to the establishment of an electronic filing pilot project in Philadelphia that has been ongoing since February 2013.

Given the success of that program, the Committee agreed to develop rule changes that would permit electronic filing, as a local option, throughout the Commonwealth. The Committee formed a subcommittee to develop the details of these rule changes. In addition to members of the Criminal Rules Committee, the subcommittee included representatives of the FJD and of the IT and Legal departments of the Administrative Office of Pennsylvania Courts (AOPC). During the subcommittee's discussion, it was learned that AOPC was working on a statewide electronic filing system based on the e-filing system used in the Appellate Courts, the PACFile system. The tentative time frame for the roll-out of the system to criminal cases in the courts of common pleas is the end of 2016.¹ It was therefore decided that any proposed electronic filing rule should be based on this statewide system rather than any locally-developed systems.

Proposed New Rule 576.1

As an initial matter, the Committee agreed that electronic filing should not be required in every judicial district but rather available as a local option. The Committee also concluded that those judicial districts that wish to participate in electronic filing should be required to create a local rule permitting electronic filing within the judicial district as was done in the Philadelphia pilot project.² This latter provision would permit the Committee to retain some oversight of the process by the local rule review process contained in Rule 105.

The main provisions for e-filing would be contained in new Criminal Rule 576.1. The basic statement of authority for establishing local e-filing is contained in paragraph (A). Paragraph (B) would list the contents of this required local rule. Paragraph (C) is a definitional section. Paragraph (D) provides the procedures for establishing participation in the system. Paragraph (E) discusses the filing and receipt of documents. Paragraph (F) contains provisions regarding electronic signatures. Paragraph (G) would permit, with some exceptions, paperless files and paragraph (H) contains service provisions.

Paragraph (A) of proposed new Rule 576.1 provides the general scope of the procedures, including the statements that use of the system is voluntary and that cases in the Philadelphia Municipal Court would be included in the electronic filing system.

One of the issues that the Committee had examined at great length was the question of whether the statewide rules should provide that use of the system was strictly voluntary or should permit a local court to make it mandatory if desired. There was a concern about exactly how the "mandatoriness" could be enforced. Making e-filing mandatory could result in an otherwise appropriate filing being refused because it was not presented in electronic form. After considerable debate, the Committee agreed that the proposed rule initially should not permit a local court to make electronic filing mandatory but to recommend inclusion of a "sunset provision" that would enable revisiting the issue after more information and experience has been obtained.

¹ AOPC also indicated that the e-filing capability soon would be available for juvenile cases.

Legal Papers

Paragraph (C) of Rule 576.1 contains definitions of various terms used in the rule. One of these is a definition of “original document” that would include the electronically filed version of the document as the original. However, the definition would make it clear that electronic copies of exhibits would not be considered originals.

Also included in paragraph (C) is a definition of “legal paper” that broadly defines the types of documents that may be filed electronically. There was the discussion of how to handle those documents that are physically filed because the party does not have the ability or willingness to file electronically even though the documents are permitted to be filed electronically and other parties to the case may have agreed to e-filing. As is practiced in the Philadelphia pilot project, such physical documents are accepted and then scanned into the system by the Clerk of Courts Office. Even after uploading these converted documents into the system, the physical documents are retained. The Committee agreed that this same process should be retained, at least for the present. These provisions are contained in paragraph (E)(10). The rule provides that any physically filed document also must be converted to an electronic form and added to the electronic case file.

The definition of “legal paper” also lists the types of documents that are excluded from electronic filing. If a document is excluded from being filed electronically, it would have to be physically filed and the physical document maintained in the case file. While the new rule does contemplate that most legal papers that are filed in a physical paper format may be scanned into the system for the convenience of the user, those documents excluded from the definition of legal papers may not be scanned into the system. This is because many of these excluded documents involve confidentiality issues and placement of them onto the system might result in them becoming public records.

Participation

Paragraph (D) describes how participation in e-filing is to be initiated. Participation would require that a user establish an account in the PACFile system. The establishment of an account would constitute consent to participate in e-filing including receipt of service of filed documents. This would be a blanket consent for all cases in which that party was participating, including cases in any jurisdiction in which electronic filing is permitted. For *pro se* defendants, there is a requirement for an authorization process based on a similar provision contained in the Court Order for electronic filing in the appellate courts.³

There was a question of whether the rules should allow that participation can be accepted for an office, such as the district attorney’s office or public defender, as a whole. The concern was that there may be turn-over or reassignment and, if only the individual attorney was listed on the case, it could fall through the cracks. It was noted that the PACFile system currently permits in appellate cases filing by a named office with specific individuals associated with the office listed as the main filer as well as others being able to be listed as proxies. The Committee believes that this capability should be

utilized in trial court cases, especially since it permitted an office to have multiple proxies listed who all would receive notice of a filing and could serve as back-up. However, the Committee concluded that this was more of an administrative matter and rather than a rule change a reference to this capability should be added to the Comment.

While the rules provide that participation in electronic filing is voluntary, the Committee also discussed whether a party who has agreed to participate in electronic filing should be permitted to file legal papers in a physical paper format. The Committee concluded that, at least initially, this should be permitted since this is a new practice and a filing should not be refused solely because it is not done electronically. However, any party that agrees to participate in electronic filing must accept service electronically.

Filing and Receipt

Paragraph (E) contains the provisions related to the filing and receipt of legal papers. The Committee struggled with the question of what constitutes the actual “filing” of a document submitted electronically. This arose in the context of how a filing that is incorrect for some reason, such as improper docket number, would be handled. The main problem arises from the way documents are placed into the PACFile system. A user will submit a document by uploading it onto the system website. The filing office will receive notice that this has occurred. The filing office must then affirmatively accept the document to be considered filed on the PACFile system. Depending on how busy the filing office is, there may be some delay between having the document uploaded onto the system and then accepted as filed. Also, there may be occasions when a filing might be rejected or sent back to the filer for correction, for example, when it is uploaded to an incorrect docket or the required filing fees have not been paid by a non-indigent defendant.

It was noted that even in traditional paper filings, there may be occasions when a document is not accepted immediately for filing for similar reasons. In current practice, this is not a large problem because the document is date-stamped upon presentation at the clerk of courts’ office, problems can be corrected quickly or, if not, the time and date of presentation can be used as the time of filing once any dispute regarding the document has been resolved.

The Committee concluded that a similar process could be applied to electronic filing. The electronic filing system will record the time that a document was submitted as well as the time when the document is accepted by the filing office. Notice may be sent to parties selected by the filer when the document is submitted. Notice also may be served on selected parties when the document has been accepted. Therefore, the definition for “filing,” contained in paragraph (E)(5), states that filing occurs when the acceptance is made but that once accepted, the time and date of filing shall relate back to the time of submission. However, if the legal paper does not meet the requirements for filing, such as not having the correct docket number or not having paid the applicable filing fee, the filing may be rejected in the same manner in which a physical paper filing may be rejected. In this situation, the time and date of original submission still would be recorded in case there is a dispute regarding whether the document should have been accepted upon submission.

³ Although PACFile currently is in use by the appellate courts, the Appellate Court Procedural Rules have not been amended to reflect that usage. Instead a Supreme Court Order provides the procedures.

Signatures

Included in paragraph (F)(2) is a provision for motions and answers that specifically states that an electronic filing containing an electronic signature constitutes the certification required under Rule 576 that the filer “has read the document and to the best of their knowledge, information and belief, there is good ground to support the motion or answer, and that it is not interposed for delay.”

The Committee generally agreed with the allowance of electronic signatures as being sufficient for the filing of most legal papers. However, a concern was raised regarding motions filed pursuant to 575(A)(1)(g) that aver facts not of record. These motions must be supported by a sworn affidavit averring the facts presented. Given potential consequences for the fraudulent filing of such documents, the Committee concluded that the best way for them to be handled would be by requiring the physical document to be prepared and signed and then scanned into the system for filing. Language to this effect is included in a paragraph (F)(3).

Philadelphia Municipal Court

The PACFile system will include Philadelphia Municipal Court non-summary and summary cases. Therefore, cases in the Municipal Court are included in paragraph (A) of new Rule 576.1.⁴

Other Rule Changes

Finally, the proposal contains correlative changes to several other criminal rules. Rule 113 (Criminal Case File and Docket Entries) would be amended to permit a “paperless” case file in those counties that permit electronic filing. Additionally, Rule 114 (Orders and Court Notices: Filing; Service; and Docket Entries) would be amended to recognize electronic service of court orders and notices for those parties who are participating in the e-filing system. Rule 576 (Filing and Service by Parties) would recognize e-filing pursuant to Rule 576.1.

A. *Effective Date*

The final-form rulemaking will go into effect on June 19, 2016.

B. *Contact Person*

For further information on the final-form rulemaking, contact Laurie E. Shepler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The amendments to § 65.24 (relating to miscellaneous special regulations) are published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes).

D. *Purpose and Background*

The final-form rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. *Summary of Changes*

(1) Opossum Lake, a 47-acre impoundment owned by the Commonwealth and managed by the Commission, is located in Lower Frankford Township, Cumberland County, approximately 6 miles west-northwest of the Borough of Carlisle. The dam impounds Opossum Creek at river mile 0.5. This lake was completely dewatered in October 2008 to make dam and spillway repairs and modifications per dam safety standards of the Department of Environmental Protection (Department). Following completion of the dam and spillway repairs and modifications as well as construction of numerous habitat enhancement devices, the impoundment was refilled and the Commission resumed annual adult trout stocking during spring 2013 to provide angling opportunities for stocked trout. Additionally, the Commission began to re-establish a high quality warmwater and coolwater fishery through fingerling plants of select fish species beginning in summer 2013. This process was completed during fall 2015. However, additional fingerlings may be stocked as deemed necessary.

Immediately upon refilling of the lake, the Commission opened the lake to fishing under a miscellaneous special regulation that allows for the harvest of trout under Commonwealth inland seasons, sizes and creel limits but allows catch and release fishing only for all other fish species. The Commission took this approach to allow a balanced fishery to develop under protective regulations while offering acceptable levels of recreational angling opportunities. This regulation will remain in effect until June 18, 2016.

Based on a recent assessment of the fish community, the fishery continues to develop. However, the fishery has not progressed to levels where the Commission believes that regulations should be relaxed at this time. Therefore, the Commission amends the current miscellaneous special regulation to extend it until the Commission deems it appropriate for removal. Commission staff plan to monitor the fishery biennially. Once the warmwater fishery has been re-established, Commission staff will recommend that the lake be removed from the miscellaneous special regulation and included in one of the Commission's existing warmwater regulation programs.

The Commission amends § 65.24 to read as set forth in the proposed rulemaking published at 45 Pa.B. 6695 (November 21, 2015).

(2) Leaser Lake, a 117-acre impoundment owned by the Commonwealth and managed by the Commission, is located in Lynn Township, Lehigh County, approximately 20 miles west-northwest of Allentown. The dam impounds an unnamed tributary to Ontelaunee Creek. This lake was completely dewatered in 2008-2009 to make dam and spillway repairs and modifications per Department dam safety standards. Following completion of the dam and spillway repairs and modifications as well as construction of numerous habitat enhancement devices, the impoundment was nearly refilled by spring 2013, then partially drained by 20 feet in late summer 2014 for additional repairs and fully refilled in 2015. The Commission resumed annual adult trout stocking during spring 2013 to provide angling opportunities for stocked trout. Additionally, the Commission began to re-establish a high quality warmwater and coolwater fishery through fingerling plants of select fish species beginning in 2013. This process remains on-going albeit with some cancellations, such as walleye fingerlings, required in 2014 due to the partial drawdown.

Immediately upon refilling of the lake, the Commission opened the lake to fishing under a miscellaneous special regulation that allowed for the harvest of trout under Commonwealth inland seasons, sizes and creel limits but allowed catch and release fishing only for all other fish species. The Commission took this approach to permit balanced fish populations to develop under protective regulations while offering acceptable levels of recreational angling opportunities. This regulation will remain in effect until June 18, 2016.

Based on the stocking delay that occurred, a recent fisheries management assessment of the fish community and information from Commission staff and anglers regarding their catches, the growth and abundances of warmwater/coolwater fish populations have not progressed to levels where staff believe that regulations should be relaxed at this time. Therefore, the Commission amends the current miscellaneous special regulation to extend it until the Commission deems it appropriate for removal. Commission staff plan to monitor the fishery biennially. Once the warmwater/coolwater fish populations have been re-established, Commission staff will recommend that the lake be removed from the miscellaneous special regulation and included in one of the Commission's existing warmwater regulation programs.

The Commission amends § 65.24 to read as set forth at 45 Pa.B. 6695.

F. Paperwork

The final-form rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

PROPOSED RULEMAKING

LIQUOR CONTROL BOARD

[40 PA. CODE CHS. 9 AND 11]

Distributors Accepting Credit Cards from Licensees

The Liquor Control Board (Board), under the authority of sections 207(i) and 493(2) of the Liquor Code (47 P.S. §§ 2-207(i) and 4-493(2)), proposes to amend § 9.95 (relating to sales) and add § 11.152 (relating to sales by importing distributors and distributors).

Summary

The Board proposes to amend its regulations pertaining to the types of payment importing distributors and distributors are allowed to accept from other Board licensees. Section 493(2) of the Liquor Code prohibits importing distributors and distributors from accepting cash from anyone possessing a license as payment for malt or brewed beverages. Section 493(2) of the Liquor Code further provides that money orders and cashier's checks are permissible in these situations, as well as "any other type of payment authorized by the board. . . ." In exercise of this authority, the Board is proposing to authorize an additional form of payment.

The proposed rulemaking expressly permits importing distributors and distributors to accept credit cards as payment from other licensees of the Board. It will thus allow distributors to use credit cards as payment for malt or brewed beverages when purchasing from importing distributors, as well as allowing importing distributors and distributors to accept credit cards as payment from retail licensees. The credit cards shall be issued by institutions other than licensees to avoid one licensee extending credit to another licensee.

Credit cards are widely used by both businesses and consumers, and importing distributors and distributors are already permitted to accept credit cards as payment from nonlicensee purchasers. By authorizing importing distributors and distributors to accept credit cards from licensees, the Board aims to make transactions between importing distributors and distributors, as well as other licensees, easier and more reliable. Since in credit card transactions the payee instantly receives the funds, while the payor creates a debt obligation to the third-party card issuer, the transaction is instantly complete. This ensures prompt payment and reduces the likelihood of disputes between licensees compared to transactions involving business checks, which can later "bounce" or be denied for processing by the financial institution due to insufficient funds.

Affected Parties

The affected parties include importing distributor and distributor licensees as well as licensees that purchase malt or brewed beverages from importing distributors and distributors.

Paperwork Requirements

This proposed rulemaking will not require additional paperwork to be filed. It will, however, require importing distributors and distributors to maintain as business records all written agreements with credit card issuers.

Fiscal Impact

There is no anticipated fiscal impact of the proposed rulemaking since the acceptance of credit cards as a form of payment is voluntary.

Effective Date

This proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comments

Interested persons are invited to submit written comments about the proposed rulemaking to Rodrigo Diaz, Chief Counsel, or Justin Blake, Assistant Counsel, Office of Chief Counsel, Liquor Control Board, Room 401, Northwest Office Building, Harrisburg, PA 17124-0001 within 30 days after publication in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Public comments will be posted on the Independent Regulatory Review Commission's (IRRC) web site. Personal information will not be redacted from public comments.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on March 8, 2016, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to IRRC and to the Chairpersons of the House Liquor Control Committee and Senate Committee on Law and Justice. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b) which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

TIM HOLDEN,
Chairperson

Fiscal Note: 54-89. No fiscal impact; (8) recommends adoption.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Weatherization Assistance Program's Proposed State Plan; Public Hearing

The Department of Community and Economic Development (Department) will hold a public hearing at 3 p.m. on Monday, April 11, 2016, in PUC Hearing Room 3, Plaza

Level, Commonwealth Keystone Building, 400 North Street, Harrisburg, PA. The purpose of this hearing is to receive comments on the proposed Pennsylvania 2016-2017 annually appropriated United States Department of Energy (DOE) Weatherization Assistance Program Plan (regular plan).

The 2016-2017 regular plan will authorize the current 2016-2017 formula-based distribution for each county. Specific performance goals emphasize production, quality of the work product, prompt, accurate and complete reporting, and compliance with program standards and regulations.

The State Plan includes some changes:

- The Weather Assistance Program will use the DOE-approved Energy Audit called HEAT. This replaces a specialized Priority List of Measures used to audit single family homes. In addition, the Commonwealth will continue its use of the Manufactured Home Energy Audit as the standard audit process for manufactured housing/mobile homes.
- The Weather Assistance Program Field Guide and National Standard Work Specifications (SWS) have been streamlined into the Pennsylvania Standard Work Specifications Field Manual.
- A final Quality Control Inspection (QCI) checklist has been developed.
- The Weather Assistance Program Performance Assessment tool has been restructured to include weighted criterion when determining the final risk level/score.

These changes are part of a Quality Work Plan requirement per the DOE's implementation of the SWS for the weatherization workforce and QCI. There is a continued National focus on coordination of efforts when other health and safety, lead-abatement, utility weatherization and housing rehab services are coordinated locally with weatherization services.

Copies of the 2016-2017 regular plan may be obtained beginning April 1, 2016, by contacting the Department of Community and Economic Development, Center for Community Services, Commonwealth Keystone Building, 400 North Street, 4th Floor, Harrisburg, PA 17120, (717) 425-7597 or it can be downloaded from the Department's web site at www.newpa.com.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific

standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

(PO Box 147, Lyon Station, PA 19536) for the installation of formation (battery charging) systems controlled by mist eliminators and installation of battery finishing lines at their Lyon Station Plant in Richmond Township, **Berks County**. The potential increases in facility emissions as a result of the changes proposed are 5.93 tpy of VOC and 16.74 tpy of H_2SO_4 . The facility is a Title V facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

The Terre Hill facility is a major facility that is subject to the operating permit requirements of Title V of the Federal Clean Air Act, and 25 Pa. Code Chapter 127, Subchapters F and G. The expected annual emissions based on an allowable use of 2,175,000 gallons of by-product oil is 39.8 tons of NO_x , 2.5 tons of SO_x , 6.8 tons of PM_{10} , 2.3 tons of CO, and 0.14 ton of VOCs. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and 40 CFR Part 60, Subpart Dc, and 40 CFR Part 63, Subpart JJJJJJ. Based on these findings, the Department proposes to issue a plan approval for the proposed modification. If, after the project has been implemented, the Department determines that the source has been modified in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals

Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential

septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-

specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

SPECIAL NOTICES

Air Quality Plan Approvals

Philadelphia: Air Management Services, 321 University Avenue, Philadelphia, PA 19104-4543, Contact: Edward Wiener, Chief, Source Registration at 215-685-9426.

Air Management Services (AMS) issued modifications to the approved Reasonably Available Control Technology (RACT) plan approvals for the following facilities in the City of Philadelphia, **Philadelphia County**:

PES Refinery, formerly Sunoco Refinery (3144 Passyunk Ave., Philadelphia, PA 19145) to update a Responsible Official. Change the 433 H-1 Heater capacity from 243 MMBTUs/hr to 260 MMBTUs/hr. Add 864 Heater PH1, which was mistakenly deleted in the last RACT plan approval. Delete some shut down heaters. Add a requirement to vent the 1232 FCCU to the CO Boiler when operating as a partial-burn unit and a requirement to follow good combustion practices. Delete a quarterly leak detection and repair requirement, as fugitives are covered by 25 Pa. Code § 129.58. Made a control requirement for Girard Point Marine Loading only applicable to materials with a Reid Vapor Pressure of 4 psi or greater. Remove the Marine Vapor Collection and Control System requirement for Point Breeze Marine Loading and limit the process to loading materials with a RVP of less than 4 psi and an annual VOC emission limit of 25.99 tons. Reduced a 433 Heater H-1 NO_x emission limit from 0.060 lbs/MMBTU to 0.035 lbs/MMBTU. Reduced an 859 Heater 1H-1 NO_x emission limit from 0.035 lbs/MMBTU to 0.020 lbs/MMBTU. These revisions will reduce potential NO_x and VOC emissions from the facility.

Exelon Generation Company—Richmond Station (3901 North Delaware Avenue, Philadelphia, PA 19137) to correct an annual capacity factor limit from 18% to 15% for two combustions turbines. To remove a requirement to limit the sulfur content of No. 2 oil to 15 ppm beginning July 15, 2015 and an associated recordkeeping requirement. The facility will comply with the provisions of Air Management Code Section 3-207, which has a similar limit but allows use of existing fuel oil for a period of time. These revisions will reduce potential NO_x emissions from the facility.

Veolia Energy—Schuylkill Station, formerly Trigen—Schuylkill (2600 Christian Street, Philadelphia, PA 19146) to change the wording on the NO_x emission limits for Boiler #23 and Boiler #26 to clarify that the boilers must comply with each limit and the averaging period for some limits. These revisions will not change potential emissions for the facility.

Kinder Morgan, previously GATX (3300 North Delaware Ave., Philadelphia, PA 19134) to delete a quarterly leak detection and repair requirement, as fugitives are covered by Air Management Regulation V, Section XIII(1). Remove gasoline and crude oil limits for marine loading, as the process cannot load these materials at all due to a limit on the Reid Vapor Pressure of materials loaded. Change the initial test date for marine vapor loading to a date that is within 5 years of the previous stack test. These revisions will not change potential emissions for the facility.

Plains Products Terminals LLC (3400 South 67th Street, Philadelphia, PA 19153) to combine the RACT

plan approvals for the previous Maritank and ExxonMobil facilities into one facility. Remove shut down processes. Add a 6.6 tons per rolling 12-month period VOC limit for marine loading. Remove a vapor recovery requirement for truck loading at the vapor recovery tanks due to a change to low vapor pressure materials and very low overall potential emissions. These revisions will reduce the potential VOC emissions from the facility.

Naval Surface Warfare Center Carderock Division (5001 South Broad Street, Code 02, Philadelphia, PA 19112-1403 to add a 0.38 lbs/MMBTU NO_x emission limit for Boiler DDG-15 and add a stack test program. Require new test engines and turbines to comply with the Standard Navy Plan Maintenance Program. These revisions will reduce the potential NO_x emissions from the facility.

AMS issued a RACT plan approval for the following facility in the City of Philadelphia, **Philadelphia County**:

Philadelphia Prison System (8001 State Road, Philadelphia, PA 19136) for a 365 HP gas-fired chiller with Non-Selective Catalytic Reduction. NO_x emissions from the chiller are limited to 2.0 gs/bhp-hr. The chiller must have a stack test every 5 years and records must be kept for all tests.

Proposed State Water Quality Certification

Required by Section 401 of the Clean Water Act for the Line 138 Service Abandonment and Lateral Construction Project

Southwest Region: Waterways & Wetlands Program, 400 Waterfront Drive, Pittsburgh, PA 15222, Rita A. Coleman, 412-442-4000

WQ05-011, Columbia Gas Transmission, LLC (Applicant), 1700 MacCorkle Avenue, S.E. Charleston, WV 25314. Line 138 Service Abandonment and Lateral Construction Project (Project), in Springhill, Henry Clay and Wharton Townships, **Fayette County** and Addison and Elk Lick Townships, **Somerset County**, ACOE Pittsburgh District. The proposed project starts approximately 2.25 miles southeast of the intersection of State Route 857 and Gans Road in Springhill Township, Fayette County (Lake Lynn, PA, WV Quadrangle N: 39°, 43', 16"; W: -79°, 45', 49") and ends approximately 0.7 mile southwest of the intersection of State Route 669 and Ash Hill Road in Elk Lick Township, Somerset County (Grantsville, MD, PA Quadrangle N: 39°, 43', 22"; W: -79°, 10', 18")

On May 20, 2015, Applicant filed an application with the Federal Energy Regulatory Commission (FERC) under Section 7 of the Natural Gas Act (15 U.S.C. § 717f) seeking a certificate of public convenience and necessity to construct and operate its Project (FERC Docket No. CP15-495-000). The FERC Environmental Assessment for the Project, which was issued on 9/17/15, may be viewed on FERC's website at www.ferc.gov (search eLibrary; Docket Search; CP15-495-000).

On August 14, 2015, Applicant requested a state water quality certification from the Pennsylvania Department of Environmental Protection (PADEP), as required by Section 401 of the Clean Water Act (33 U.S.C. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

The Project, as proposed would operate and maintain some segments of the existing, approximately 33-mile,

Line 138 natural gas pipeline, consisting of 4-inch, 6-inch, 8-inch and 16-inch pipeline, within an existing 50-foot right-of-way, where service is being abandoned. Columbia proposes to remove approximately 0.18 mile of exposed pipeline, two (2) residential tap consumers, two (2) meter stations, one (1) odorizer, one (1) siphon, five (5) ground valves and eight (8) mainline valves. Columbia plans to grout 28 road crossings to abandon in place.

Columbia also proposes to construct an approximate 0.65-mile, 2-inch lateral extension within the existing 50-foot wide Line 138 right-of-way (ROW) in order to maintain service to the Firm Transportation customer and their operations. The Firm Transportation customer is served from Line 138 through which service will be abandoned, Columbia proposes to maintain gas service to this customer by installing a lateral extension within the Line 138 ROW to connect with Lines 1804 and 10240. The lateral extension project will involve construction activities within the existing 50-foot wide ROW, acquisition of 50 feet of new ROW to connect the lateral to the Line 1804 and 10240 ROW, two (2) new isolation valves on Lines 1804 and 10240, and a contractor/staging yard all located in Somerset County Pennsylvania. The proposed lateral extension activities are herein referred to as the "Lateral Construction Project".

In Pennsylvania, the Project, as proposed, will require impacts to 0.3416 acre of Laurel Run (HQ-CWF), Reason Run (WWF), Collier Run (WWF) and Zehner Run (HQ-CWF), and unnamed tributaries of Patterson Run (HQ-CWF), Big Sandy Creek (HQ-CWF), Youghiogheny River (WWF), Chub Run (WWF), Mill Run (WWF), Zehner Run (HQ-CWF), Big Shade Run (CWF), 5.05 acres of floodway, 0.8664 acre of temporary PEM wetland impacts, and 0.0292 acre of PEM and PSS permanent impacts.

PADEP anticipates issuing a state water quality certification to Applicant for the Project that will require compliance with the following State water quality permitting programs, criteria and conditions established pursuant to State law to ensure the Project does not violate applicable State water quality standards set forth in 25 Pa. Code Chapter 93:

1. *Discharge Permit*—Applicant shall obtain and comply with a PADEP National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the pipeline pursuant to Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001), and all applicable implementing regulations (25 Pa. Code Chapter 92a).

2. *Erosion and Sediment Control Permit*—Applicant shall obtain and comply with PADEP's Chapter 102 Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17), and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Applicant shall obtain and comply with a PADEP Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601.), and all applicable implementing regulations (25 Pa. Code Chapter 105).

Proposed State Water Quality Certification

Required by Section 401 of the Federal Clean Water Act for the Tennessee Gas Pipeline Company, LLC Triad Expansion Project

Northeast Region: Waterways & Wetlands Program, 2 Public Square, Wilkes-Barre, PA 18711, Joseph Buczynski, Program Manager, 570-826-2511

WQ02-004, Tennessee Gas Pipeline Company, LLC (Applicant), 1001 Louisiana Street, Suite 1000, Houston, Texas 77002-5089, Triad Expansion Project (Project), in Lenox and Clifford Townships, **Susquehanna County**, Baltimore District Corps of Engineers. The proposed project starts at a point along the 300-1 line at Sta. 871 + 66 (Lenoxville, PA Quadrangle N: 41.713445, W: -75.725361) and ends at Tennessee's existing Compressor Station ("CS") 321 (Clifford, PA Quadrangle N: 41.711774, W: -75.596717).

On June 19, 2015, Applicant filed an application with the Federal Energy Regulatory Commission (FERC) under Section 7 of the Natural Gas Act (15 U.S.C. § 717f) seeking a Certificate of Public Convenience and Necessity to construct and operate its Project (FERC Docket No. CP 15-520-000). The FERC Environmental Assessment for the Project, when available, may be viewed on FERC's website at www.ferc.gov (search eLibrary; Docket Search; CP 15-520-000).

On February 8, 2016, Applicant requested a state water quality certification from the Pennsylvania Department of Environmental Protection (PADEP), as required by Section 401 of the Clean Water Act (33 U.S.C. § 1341), to ensure that the construction, operation and maintenance of the Project will protect water quality in Pennsylvania through compliance with State water quality standards and associated State law requirements, which are consistent with the requirements of the Clean Water Act.

The Project, as proposed, includes approximately a 7.0-mile long, 36-inch pipeline for the purpose of transporting natural gas from a point along the 300-1 line at Sta. 871 + 66 to an existing Compressor Station CS 321. The Project, as proposed, will require approximately 178.32 acres of earth disturbance, and impacts to 1,511 linear feet of Partners Creek, Sterling Brook Creek, Nine Partners Creek, Tunkhannock Creek and unnamed tributaries to Tunkhannock Creek, Tower Branch and Lake Idlewild (CWF, MF, HQ-CWF), 4.7 acres of floodway, 1.3 acre of temporary PEM/PSS/PFO wetland impacts, and 0.13 acre of PSS/PFO conversion to PEM impacts.

PADEP anticipates issuing a state water quality certification to Applicant for the Project that will require compliance with the following State water quality permitting programs, criteria and conditions established pursuant to State law to ensure the Project does not violate applicable State water quality standards set forth in 25 Pa. Code Chapter 93:

1. *Discharge Permit*—Applicant shall obtain and comply with a PADEP National Pollutant Discharge Elimination System (NPDES) permit for the discharge of water from the hydrostatic testing of the pipeline pursuant to Pennsylvania's Clean Streams Law (35 P.S. §§ 691.1—691.1001) and all applicable implementing regulations (25 Pa. Code Chapter 92a).

2. *Erosion and Sediment Control Permit*—Applicant shall obtain and comply with PADEP's Chapter 102

Erosion and Sediment Control General Permit for Earth Disturbance Associated with Oil and Gas Exploration, Production, Processing or Treatment issued pursuant to Pennsylvania's Clean Streams Law and Storm Water Management Act (32 P.S. §§ 680.1—680.17) and all applicable implementing regulations (25 Pa. Code Chapter 102).

3. *Water Obstruction and Encroachment Permits*—Applicant shall obtain and comply with a PADEP Chapter 105 Water Obstruction and Encroachment Permits for the construction, operation and maintenance of all water obstructions and encroachments associated with the project pursuant to Pennsylvania's Clean Streams Law, Dam Safety and Encroachments Act (32 P.S. §§ 673.1—693.27), and Flood Plain Management Act (32 P.S. §§ 679.101—679.601.) and all applicable implementing regulations (25 Pa. Code Chapter 105).

4. *Water Quality Monitoring*—PADEP retains the right to specify additional studies or monitoring to ensure that the receiving water quality is not adversely impacted by any operational and construction process that may be employed by Applicant.

5. *Operation*—Applicant shall at all times properly operate and maintain all Project facilities and systems of treatment and control (and related appurtenances) which are installed to achieve compliance with the terms and conditions of this Certification and all required permits. Proper operation and maintenance includes adequate laboratory controls, appropriate quality assurance procedures, and the operation of backup or auxiliary facilities or similar systems installed by Applicant.

6. *Inspection*—The Project, including all relevant records, are subject to inspection at reasonable hours and intervals by an authorized representative of PADEP to determine compliance with this State Water Quality Certification, including all required State water quality permits and State water quality standards. A copy of this Certification shall be available for inspection by the PADEP during such inspections of the Projects.

7. *Transfer of Projects*—If Applicant intends to transfer any legal or equitable interest in the Project which is affected by this State Water Quality Certification, Applicant shall serve a copy of this Certification upon the prospective transferee of the legal and equitable interest at least thirty (30) days prior to the contemplated transfer and shall simultaneously inform the PADEP Regional Office of such intent. Notice to PADEP shall include a transfer agreement signed by the existing and new owner containing a specific date for transfer of Certification responsibility, coverage, and liability between them.

8. *Correspondence*—All correspondence with and submittals to PADEP concerning this Certification shall be addressed to the Department of Environmental Protection, Northeast Regional Office, Joseph Buczynski, Waterways and Wetlands Program Manager, 2 Public Avenue, Wilkes-Barre, PA 18711.

PADEP may require additional measures to achieve compliance with applicable law, subject to Applicant's applicable procedural and substantive rights.

10. *Other Laws*—Nothing in this Certification shall be construed to preclude the institution of any legal action or

relieve Applicant from any responsibilities, liabilities, or penalties established pursuant to any applicable Federal or State law or regulation.

11. *Severability*—The provisions of this Certification are severable and should any provision of this Certification be declared invalid or unenforceable, the remainder of the Certification shall not be affected thereby.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
11-254	Insurance Department Annual Financial Reporting Requirements 46 Pa.B. 458 (January 23, 2016)	2/22/16	3/23/16

**Insurance Department Regulation #11-254
(IRRC #3129)**

Annual Financial Reporting Requirements

March 23, 2016

We submit for your consideration the following comments on the proposed rulemaking published in the January 23, 2016 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Insurance Department (Department) to respond to all comments received from us or any other source.

1. Section 147.8a. Internal audit function requirements.—Clarity; Implementation procedures.

Subsection (f) states that an insurer or group of insurers exempt from the requirements of this section is encouraged to conduct a review of the insurer business type, sources of capital and other risk factors to determine whether an internal audit function is warranted.

Subsection (f) further states that the potential benefits of an internal audit function should be assessed and compared against the estimated costs. The terms “encouraged” and “should” are non-regulatory language which indicates that these provisions are optional. While we recognize that this language is taken word-for-word from the National Association of Insurance Commissioners (NAIC) Model Regulation, it is inappropriate to include optional provisions in a regulation. If the intent of this provision is to advise the exempted regulated community of the Department's preference regarding whether an internal audit function is warranted, it may be more appropriate to include this information in a policy statement. Otherwise, we ask the Department to amend the final-form regulation to establish binding norms of general applicability and future effect.

2. Section 147.13. Effective date and exemption.—Clarity; Implementation procedures.

Subsection (j) states that if an insurer or group of insurers no longer qualifies to be exempt from the requirements in Section 147.8a (relating to internal audit

function requirements), it has "1 year after the year the threshold is exceeded" to comply with the requirements of Section 147.8a. Again, while we recognize that this language is taken word-for-word from the NAIC Model Regulation, the date by which an insurer would be required to comply is unclear. Is one year defined as a calendar or fiscal year, or by some other measure? We ask the Department to explain in the Preamble of the final-form regulation how this provision will be implemented,

and to ensure that the language in the final regulation makes clear when the regulated community must comply with this provision.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security

Public Meeting held
March 17, 2016

Commissioners Present: Gladys M. Brown, Chairperson; Andrew G. Place, Vice Chairperson; Pamela A. Witmer; John F. Coleman, Jr.; Robert F. Powelson

Electric Generation Supplier License Cancellations of Companies with an Expired Financial Security;
M-2015-2490383

Tentative Order

By the Commission:

The Commission's regulations at 52 Pa. Code § 54.40(a) state that an Electric Generation Supplier (EGS) license will not be issued or remain in force until the licensee furnishes a bond or other security approved by the Commission. In addition, 52 Pa. Code § 54.40(d) states that the maintenance of an EGS license is contingent on the licensee providing proof to the Commission that a bond or other approved security in the amount directed by the Commission has been obtained.

Each EGS must file an original bond, letter of credit, continuation certificate, amendment, or other approved financial instrument with Rosemary Chiavetta, Secretary, Pennsylvania Public Utility Commission, 400 North Street, Harrisburg, PA 17120 prior to the EGS's current security expiration date. Each financial instrument must be an original document that displays a "wet" signature or digital signature, preferable in blue ink, and displays a "raised seal" or original notary stamp. The name of the principal on the original financial instrument must match exactly with the name that appears on the EGS's license issued by the Commission.

Failure to file before the financial security's expiration date may cause Commission staff to initiate a formal proceeding that may lead to the following: cancellation of each company's electric supplier license, removal of each company's information from the Commission's website and notification to all electric distribution companies, in which each company is licensed to do business, of the cancellation of the license.

As of March 8, 2016, each EGS listed in the Supplier Table below has not provided proof to the Commission that it has a bond or other approved security in the amount directed by the Commission, to replace its expired bond as noted in the table below.

* Taking title to electricity

As part of its EGS license validation procedures, the Commission's Bureau of Technical Utility Services sent a 60-day Security Renewal Notice Letter to each entity in the Supplier Table above stating that original documentation of a bond, or other approved security, must be filed within 60 days prior to each entity's security expiration date. None of the companies listed in the Supplier Table provided the required documentation.

Based on the above facts, we tentatively conclude that the EGSs listed in the Supplier Table are not in compliance with 52 Pa. Code § 54.40(a) and (d) and therefore it is appropriate to initiate the cancellation process for each EGS license of each company listed in the Supplier Table, without the necessity of a formal complaint, as being in the public interest; *Therefore,*

It Is Ordered That:

1. Cancellation of the Electric Generation Supplier Licenses of each company listed in the Supplier Table is hereby tentatively approved as being in the public interest.

2. The Secretary serve a copy of this Tentative Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Bureau of Investigation & Enforcement, Department of Revenue—Bureau of Corporation Taxes, all electric distribution companies, all of the Electric Generation Suppliers in the Supplier Table and also cause a copy of this Tentative Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment or the filing of approved security within 30 days after publication in the *Pennsylvania Bulletin*, the Bureau of Technical Utility Services shall prepare a Final Order for entry by the Secretary.

4. Upon entry of the Final Order described in Ordering Paragraph No. 3 above, each company listed in the Supplier Table will be stricken from all active utility lists maintained by the Commission's Bureau of Technical Utility Services and the Assessment Section of the Bureau of Administration, removed from the Commission's website, and notifications be sent to all electric distribution companies in which the Electric Generation Suppliers are licensed to do business.

5. Upon entry of the Final Order described in Ordering Paragraph No. 3, each electric distribution company in which the Electric Generation Suppliers are licensed to do business, shall return the customers of the Electric Generation Suppliers to default service.

Secretary
