READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1915. ACTIONS FOR CUSTODY OF MINOR CHILDREN

Rule 1915.11-1. [Elimination of] Parenting Coordination.

[Only judges may make decisions in child custody cases. Masters and hearing officers may make recommendations to the court. Courts shall not appoint any other individual to make decisions or recommendations or alter a custody order in child custody cases. Any order appointing a parenting coordinator shall be deemed vacated on the date this rule becomes effective. Local rules and administrative orders authorizing the appointment of parenting coordinators also shall be deemed vacated on the date this rule becomes effective.]

If a judicial district implements a parenting coordination program, the court shall maintain a roster of qualified individuals to serve as parenting coordinators. The parenting coordinator shall attempt to resolve issues arising out of the custody order by facilitating an agreement between the parties and, if unable to reach an agreement, recommend a resolution to the court.

(a) *Appointment of a Parenting Coordinator.*

(1) After a final custody order has been entered, a judge may appoint a parenting coordinator to resolve parenting issues in cases involving repeated or intractable conflict between the parties affecting implementation of the final custody order. A parenting coordinator should not be appointed in every case. The appointment may be made on the motion of a party or on the court's own motion.

(2) Unless the parties consent and appropriate safety measures are in place to protect the participants, including the parenting coordinator and other third parties, a parenting coordinator shall not be appointed if:

(i) the parties to the custody action have a protection from abuse order in effect;

(ii) the court makes a finding that a party has been the victim of domestic violence perpetrated by a party to the custody action, either during the pendency of the custody action or within 36 months preceding the filing of the custody action; or

(iii) the court makes a finding that a party to the custody action has been the victim of a personal injury crime, as defined in 23 Pa.C.S. § 3103, which was perpetrated by a party to the custody action.

(iv) If a party objects to the appointment of a parenting coordinator based on an allegation that the party has been the victim of domestic violence perpetrated by a party to the custody action, the court shall have a hearing on the issue and may consider abuse occurring beyond the 36 months provided in subdivision (a)(2)(ii).

(3) The appointment of a parenting coordinator shall be for a specified period of time, which shall not exceed 12 months. A party may petition the court for an extension of the appointment or the court in its discretion may extend the appointment for an additional period.

(4) If the parenting coordinator seeks to withdraw from service in a case, the parenting coordinator shall petition the court and provide a copy to the parties or the parties' attorney.

(5) The parenting coordinator shall set forth in a separate written agreement with the parties:

(i) the amount of any retainer;

(ii) the hourly rate to be charged;

(iii) the process for invoices and payment for services;

(iv) information on the parenting coordination process; and

(v) provide a signed copy of the agreement to the parties prior to initiating any services.

(b) *Qualifications of the Parenting Coordinator.* To be appointed by the court, a parenting coordinator:

(1) shall be an attorney licensed to practice law in the Commonwealth of Pennsylvania;

(2) shall have practiced family law for at least five years;

(3) shall have a minimum of five hours training in the parenting coordination process from an appropriate provider;

(4) shall have a minimum of ten hours of family mediation training from an appropriate provider;

(5) shall have a minimum of five hours of training in domestic violence from an appropriate provider; and

(6) shall complete a minimum of ten continuing education credits on any topic related to parenting coordination in each two-year period after the initial appointment with a minimum of two hours in each two-year period on the issue of domestic violence; and

(7) shall sign an affidavit attesting that he or she has met the qualifications of this rule.

(i) Prior to being appointed as a parenting coordinator, the attorney shall send the affidavit to the president judge or administrative judge of the judi-

cial district where the attorney is seeking appointment as a parenting coordinator.

(ii) After submission of the initial affidavit pursuant to subdivision (b)(6)(i), a parenting coordinator shall submit a new affidavit every two years attesting that the continuing education requirements of subdivision (b)(5) have been met.

(8) An attorney appointed to serve as a parenting coordinator shall not practice family law before a conference officer, hearing officer, permanent or standing master, or judge in the judicial district in which the attorney has been appointed.

(c) *Appointment Order.* The parenting coordinator's authority as delineated in subdivision (d) shall be included in the order appointing the parenting coordinator, which shall be substantially in the form set forth in Pa.R.C.P. No. 1915.22.

(d) *Scope of Authority of the Parenting Coordinator.* The parenting coordinator shall have the authority to recommend resolutions to the court on issues ancillary to the custody order if the parties are unable to reach an agreement.

(1) In order to implement the custody order and resolve related parenting issues about which the parties cannot agree, the parenting coordinator is authorized to recommend resolutions to the court about issues that include, but are not limited to:

(5) A party cannot compel the testimony of a parenting coordinator without an order of court.

(f) *Recommendations. Objecting to the Recommendation. Judicial Review. Record Hearing.*

(1) The parenting coordinator shall provide to the parties notice and an opportunity to be heard on the issues.

- (ii) the court does not approve the recommendation, in whole or in part, and schedules a record hearing.
- (iii) If a timely objection is made by a party, the recommendation shall become an interim order of court pending further disposition by the court.

(g) *Fees.*

(1) The fees of the parenting coordinator shall be allocated between the parties by the appointing judge. The parenting coordinator may reallocate the fees, subject to review by the court, if one party has caused a disproportionate need for the services of the parenting coordinator.

(2) In order to limit the financial burden on the parties, a parenting coordinator should meet with the parties only upon a request of a party to resolve an issue about which the parties disagree.

(3) *Waiver of fees or reduced fees.* Judicial districts implementing a parenting coordination program shall effectuate a policy or program by local rule so that indigent or low-income parties may participate in the parenting coordination program at a reduced fee or no fee.

REPUBLICATION REPORT Recommendation 155

The Domestic Relations Procedural Rules Committee (Committee) is proposing a revision to Pa.R.C.P. No. Rule 1915.11-1. Parenting Coordination and the addition of two new rules/forms: Pa.R.C.P. No. 1915.22. Form of Order Appointing Parenting Coordinator and Pa.R.C.P. No. 1915.23. Form of the Summary and Recommendation of the Parenting Coordinator.

The Committee previously published Recommendation 155 in the *Pennsylvania Bulletin*, 46 Pa.B. 6107 (October 1, 2016), with a comment period ending February 24, 2017. After considering the comments, the Committee has made the following revisions to the proposal.

- Proposed Pa.R.C.P. No. 1915.11-1(a)(2)—The Recommendation has been revised by expanding the domestic violence exceptions to the appointment of a parenting coordinator. The expansion of the revised recommendation includes an exception for victims of a personal injury crime, as defined in 23 Pa.C.S. § 3103, and requiring that the court conducts a hearing if a party objects to the appointment of a parenting coordinator alleging a history of domestic violence. In making its determination on the alleged domestic violence, the court may consider allegations of abuse occurring beyond the 36 months (24 months in the original recommendation).

- Proposed Pa.R.C.P. No. 1915.11-1(b)—The Recommendation has been revised in two ways as it relates to parenting coordinator qualifications. First, an attorney seeking appointment as a parenting coordinator shall attest by affidavit to meeting the qualifications of a parenting coordinator and providing the affidavit to the judicial district prior to appointment as a parenting coordinator. This provision is similar to the certification of a juvenile master in Pa.R.J.C.P. No. 1182. Second, consistent with the support, custody, and divorce rules regarding attorneys appointed or serving as conference or

hearing officers and divorce masters, the revised recommendation proposes that parenting coordinators shall not practice family law in the judicial districts in which the parenting coordinator is appointed.

• Proposed Pa.R.C.P. Nos. 1915.11-1(f), 1915.22, and 1915.23 have been revised by shortening the time for a party to object to the parenting coordinator's recommendation from ten days to five days. Also, the revised recommendation provides the court with the additional option of approving a recommendation in part and conducting a hearing on any issues not approved.

The Committee invites comment on these revisions.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of May 2017

The Department of Banking and Securities (Department), under the authority contained in section 301 of the act of January 30, 1974 (P.L. 13, No. 6) (41 P.S. § 301), determines that the maximum lawful rate of interest for residential mortgages for the month of May, 2017, is 5 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub.L. No. 96-221). Further preemption was instituted with the signing of Pub.L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities

is 2.80 to which was added 2.50 percentage points for a total of 5.30 that by law is rounded off to the nearest quarter at 5 1/4%.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

**UNDER ACT 2, 1995
PREAMBLE 1**

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and State the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

pike, between U.S Route 22, and Interstate 79 (a.k.a. The Southern Beltway Project). The structures and activities requiring authorization for Section 55B in Mount Pleasant and Robinson Townships, Washington County (Clinton, Oakdale, and Midway, PA Quadrangle; starting at Latitude: 40° 23' 21" Longitude: -80° 16' 49"; and ending at Latitude: 40° 21' 32" Longitude: -80° 15' 08") will permanently impact a total of approximately 4,171 linear feet (LF) of various watercourses, resulting in a permanent loss of 2,672 LF of regulated watercourses and 0.737 acre of wetland, and temporarily impact a total of approximately 2,134 LF of various watercourse and 0.411 acre of wetland.

To compensate for the watercourse impacts associated with Section 55A-2 of the Southern Beltway Project, the stream mitigation plan includes the on-site relocation of 839 LF of stream channel, and restoration of approximately 2,671 LF of various tributaries in the Buck Run watershed, in Donegal Township, Washington County (West Middletown, PA Quadrangle; Latitude: 40° 8' 34" Longitude: -80° 25' 10"). EROSION AND SEDIMENT CONTROL PERMITS

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance activities associated with either road maintenance or timber harvesting operations.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department regional office listed before the application within 30 days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department regional office during the 30-day public comment period.

Following the 30-day comment period, the appropriate regional office water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board (Board).

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate regional office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified regional office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Burnett Oil Company, Inc. is proposing to install 0.99 mile of permanent gravel access road and the 119,500 square foot Coastal-Central Well Pad (N 39° 44' 21.48", W 79° 47' 10.68") in Springhill Township, Fayette County, Pennsylvania. The well pad is located approximately 0.59 mile Southwest of State Route 3004 (Wymps Gap Road) and approximately 0.59 mile East of State Route 857 (Springhill Furnace Road). The proposed access road will be 16 feet wide with additional spaces required for road construction and stormwater management.

The entire project area is approximately 23.3 acres and consists primarily of meadow and woodlands. Four individuals of the tree species *Oxydendrum arboreum* (Sourwood) was found in the project area and, per a letter from the Department of Conservation and Natural Resources (DCNR), will be relocated to an area outside of the limit of disturbance. All disturbed areas except for the described access road and well pad will be stabilized and seeded upon construction completion. The project is a Joint Permit Application due to the crossing of a stream where the drainage area is greater than 1 square mile (based on USGS Stream Stats). The project will result in one (1) wetland crossing and five (5) watercourse crossings, resulting in a total of 871 ft² of permanent wetland impacts and 348 linear feet of permanent stream impacts.

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Frankstown Township	2122 Frankstown Road Hollidaysburg, PA 16648	Blair

Plan Description: Approval of a revision to the official plan of Frankstown Township, Blair County. The project is known as Sylvan Springs Sewer Extension. The plan provides for a sewer extension to serve 13 existing lots with a total of 18 equivalent dwelling units located near the Sylvan Heights Drive and Frankstown Road intersection.

The Department's review of the plan revision has not identified any significant impacts resulting from this proposal. The DEP Code Number for this planning module is B3-07911-193-3M and the APS Id is 933127. Any permits must be obtained in the name of the municipality.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL**Plan Disapprovals Under the Pennsylvania Sewage Facilities Act**

Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Halifax Township	102 Fisher St. Halifax, PA 17032	Dauphin

Plan Description: The request for planning exemption submitted for the Ernest and Diane Schreffler Subdivision, DEP Code No. A3-22917-204-2E, APS Id 929429, is disapproved. The submission proposed a subdivision to create one new single family residential building lot and a residual tract with an existing dwelling, with each to use individual onlot sewage disposal systems. The proposed subdivision is located on the south side of Parmer Drive, east of the junction with Galli Road. This plan is disapproved for the following reasons. Based on the location of the percolation testing, an absorption area constructed between soil test probes T1 and T2 would violate the ten-foot isolation distance for easements prescribed by Chapter 73, section 73.13(c)(1). The easement in question is a "20' Ex. Stream Easement." Readings for percolation test hole number 2, between soil probes T1 and T2, did not continue until at least eight readings were made or stabilization was reached, as required by Chapter 73, section 73.15(7)(i). Finally, additional soil testing should be done to confirm the results associated with probe P-1982, considering that more recent testing done in close proximity and in the same soil series indicated much shallower limiting zones.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential

public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501–508 and 701–704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

E02-1705, Jefferson Hills Borough, 925 Old Clairton Road, Jefferson Hills, PA 15025-3133, Jefferson Hills Borough, **Allegheny County**, ACOE Pittsburgh District.

Has been given consent to:

Construct and maintain a stream restoration project in and along the channel of Peters Creek (TSF) for approximately 800 linear feet and will consist of three rock cross vanes, three log vanes, four log sills, and root wads and boulders where needed. This channel change will result in a loss of 23 linear feet of stream channel. The purpose of this project is to protect an existing high pressure gas line and Peters Creek Road. As mitigation for the impacts, an unnamed tributary to Peters Creek will be lengthened by 66 linear feet to join the relocated channel. Overall, the proposed project will shorten Peters Creek by 23 linear feet and lengthen the unnamed tributary to Peters Creek by 66 linear feet. The project site is located on the south side of Peters Creek Road, approximately 1,600.00 feet east from the confluence of Peters Creek and Beam Run (Glassport, PA Quadrangle N: 6.5 inches; W: 7.7 inches, Latitude: 40° 17' 10"; Longitude: -79° 55' 59"), in Jefferson Hills Borough, Allegheny County.

In addition, the proposed project impacts in Somerset County also include a total of five (5) pipeline crossings through the construction of a 0.65-mile-long 2-inch lateral pipeline, the removal of ten (10) pipeline crossings, grouting of seven (7) pipeline crossings, the removal of one (1) valve within a wetland, the removal of one (1) tap within a wetland, and the operation of maintenance of some segments of the existing line 138 within an existing Right-of-Way where service will be abandoned in Addison and Elk Lick Townships, which will be constructed in accordance with the terms and conditions of General Permit No. 11 (GP-11) regarding maintenance of existing water obstructions and General Permit No. 8 (GP-8) regarding temporary road crossings. These structures and activities will cumulatively affect approximately 1898LF of watercourses including Collier Run (WWF) and Zehner Run (HQ-CWF), and unnamed tributaries of Chub Run (WWF), Mill Run (WWF), Zehner Run (HQ-CWF), Big Shade Run (CWF), and Youghioghenny Lake (WWF) and 1.05 acre of wetlands (including the aforementioned wetland). The aforementioned proposed project impacts in this permit application are associated with a larger proposed, approximately 33 mile transmission pipeline service abandonment project, with portions extending into Somerset and Fayette Counties, in Pennsylvania. Interstate Pollution Transport Reduction; Final 2017 Ozone Season Nitrogen Oxide Emission Limits for Nonelectric Generating Units

The Department of Environmental Protection (Department) is providing notice for the final Nonelectric Generating Unit (non-EGU) 2017 Ozone Season Nitrogen Oxide (NO_x) emission limitations established in accordance with 25 Pa. Code § 145.8(d) (relating to transition to CAIR NO_x trading programs).

Notice of the proposed NO_x emission limitations was published at 47 Pa.B. 1593 (March 11, 2017) to allow for a minimum 15-day public comment period, which closed on March 27, 2017. The Department did not receive any comments on the Proposed 2017 Ozone Season Nitrogen Oxide Emission Limits for Nonelectric Generating Units notice during the public comment period. Therefore, no changes were made to the proposed emission limits.

The NO_x emissions cap provides 181 tons of NO_x emissions for non-EGUs and the other units that need to address their emissions through accounting adjustments, including units that previously participated in the NO_x Budget Trading Program; emissions from these units were below the 25-ton exemption threshold. Adjustments were also made for the permanent retirement of NO_x allowances due to generation of emission reduction credits. The Department will also use a portion of the 181 tons of the budgeted NO_x emissions, if necessary, to address mistakes or miscalculations. This year, the Department is using 71 tons of the 181 tons of NO_x for account adjustments, leaving 110 tons available for any additional adjustments at the end of the control period.

The Department made accounting adjustments for the following facilities:

Retired Units: Naval Surface Warfare Division Unit 98; Shenango Units Nos. 6 and 9 (the generation of emission offsets for small non-NO_x Budget Trading Program units resulted in a permanent NO_x accounting adjustment of 45 tons).

Exempt Units: The Naval Surface Warfare Division (Unit 100) has a 25-ton NO_x permit limit. The Naval Surface Warfare Division (Unit 99) has a 1-ton NO_x permit limit. These two exempt status units account for a total adjustment of 26 tons of NO_x emissions.

The following "Final Non-EGU 2017 Ozone Season NO_x Emission Limits" table lists the following: the facility name; ORIS code; the unit ID for each non-EGU unit; the NO_x rate in lb/MMBtu; the 2016 NO_x mass tons or the 2016 Ozone Season emissions; the heat input for the 2016 Ozone Season; the county location of the facility; the calculated 2017 rate; and the 2017 Ozone Season (OS) limit.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704

(relating to Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P.O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Questions concerning this notice should be directed to Randy Bordner at (717) 772-3921 or ranbordner@pa.gov. TDD users may contact the Pennsylvania AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

Nutrient Credit Trading Program; Credit Certification

The Department of Environmental Protection (Department) provides notice of its intention under the Nutrient Credit Trading Program (Trading Program) to approve a mass certification of pollutant reduction activities to generate credits by Significant Sewage point source discharges within the Commonwealth portion of the Chesapeake Bay watershed with annual mass load effluent limitations (Cap Load) in a National Pollutant Discharge Elimination System (NPDES) permit.

For a list of Significant Sewage point sources see Table 7-1 of the Phase 2 Watershed Implementation Plan (Phase 2 WIP) Wastewater Supplement, available at www.dep.pa.gov/npdes-bay or the Department's Nutrient Trading Program web site at www.dep.pa.gov/Nutrient_Trading. Also see 25 Pa. Code § 96.8 (relating to use of offsets and tradable credits from pollution reduction activities in the Chesapeake Bay Watershed).

Credit Certification

Effective October 1, 2017, to be eligible to generate credits for sale, all Significant Sewage point source discharges with an assigned Cap Load (see Table 7-1 of the Phase 2 WIP Wastewater Supplement) must demonstrate treated yearly effluent concentrations below 6.0 mg/L total nitrogen (TN) and 0.8 mg/L total phosphorous (TP) (that is, "baseline concentrations") in accordance with the procedures described in the Phase 2 WIP Nutrient Trading Supplement. When stringent effluent limitations for TN or TP, or both, are established in Part A of the permit for reasons other than the Cap Load assigned for protection of the Chesapeake Bay, the permittee is eligible to generate credits when the permittee demonstrates that these effluent limitations have been achieved in accord with the Phase 2 WIP Nutrient Trading Supplement. In addition:

- To generate credits, facilities must demonstrate they are in compliance with their NPDES permit.
- The total amount of credits the facility is certified to generate cannot exceed its permitted Cap Load.

- The calculation of credits will be made using formulas described in the Phase 2 WIP Nutrient Trading Supplement.

- This point source certification will expire on September 30, 2019.

To ensure that verification is complete in time for credit availability to be posted on the Department web site, facilities are encouraged to provide the Department with their verification requests by October 28th of each year. Verification requests must include a complete "Annual Chesapeake Bay Spreadsheet" for the compliance year in which the credits were generated (October 1 through September 30). This spreadsheet, verification forms and instructions can be found at the Department's Nutrient Trading web site at www.dep.pa.gov/Nutrient_Trading (select "Credit Generation Process").

The Department will accept written comments on this proposed pollutant reduction activity for 30 days. The Department must receive comments on this notice for credit certification no later than Monday, May 15, 2017. Commentators are encouraged to submit electronic comments using the Department's eComment site at www.ahs.dep.pa.gov/eComment. Written comments can be submitted by e-mail to ecomment@pa.gov or by mail to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063. Use "Mass Certification" as the subject line in written communication.

For further information about this certification notice or the Trading Program, contact the Nutrient Trading Program, Department of Environmental Protection, Bureau of Clean Water, P.O. Box 8774, Harrisburg, PA 17105-8774, RA_EPPANutrientTrad@pa.gov or visit the Department's web site at www.dep.pa.gov/Nutrient_Trading.

PHILADELPHIA PARKING AUTHORITY

Authorization of Wheelchair Accessible Taxicab Medallions; Doc. No. 17-003

Order

By the Authority:

The Philadelphia Parking Authority (the "Authority"), regulates all taxicab and limousine service in the City of Philadelphia (the "City").¹ The purpose of this Order is to authorize the sale of new taxicab medallions.² The Authority is currently authorized to issue and sell 46 new taxicab medallions. Effective June 1, 2017, the Authority will be empowered to issue and sell an additional 15 new taxicab medallions.³

Therefore,

It Is Ordered That:

1. The Director of the Authority's Taxicab and Limousine Division ("TLD"), or his designee (the "Director"), is authorized to administer the sale of 46 new Philadelphia taxicab medallions currently authorized by the Act and an additional 15 new Philadelphia taxicab medallions that will be authorized for issuance and sale on June 1, 2017.

2. Each of the 61 medallions authorized for sale by this Order is hereby designated a WAV medallion,⁴ in perpetuity.

3. Each of the medallions authorized for sale by this Order will be identified by the letters "WP" (Wheelchair Philadelphia), which shall precede the unique number assigned to the medallion.

¹ See 53 Pa.C.S. §§ 5701 et seq., as amended, (the "Act").

² See 53 Pa.C.S. §§ 5711(c)(2) and 5717(a) (relating to power of authority to issue certificates of public convenience, additional certificates and medallions).

³ Id.

⁴ See 52 Pa. Code § 1011.2 (relating to definitions); see also 53 Pa.C.S. § 5717(c).

5. Each sealed bid⁵ for a medallion must be filed with the TLD Clerk, by hand delivery, at the TLD's headquarters at 2415 South Swanson Street, Philadelphia, PA 19148.

7. The Clerk may only time stamp a medallion bid as follows:
