READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Annex A

TITLE 207. JUDICIAL CONDUCT

PART III. JUDICIAL CONDUCT BOARD

CHAPTER 117. [DISPOSITION; CONTINUANCES] (Reserved)

Rule 31. [Disposition of Complaint] (Reserved).

[(A) Except as provided in paragraph (C), within 180 days of the Board's receipt of the Judicial Officer's written response pursuant to Rule 30(B)(2)(c) or written response to any subsequent letter requesting information by the Board, the Board shall:

(1) dismiss the complaint upon a finding that there is no existing probable cause to file formal charges;

(2) dismiss the complaint with the issuance of a letter of counsel upon a determination that, even if the alleged conduct occurred, it was not conduct which requires that formal charges be filed, provided that the Judicial Officer:

(a) consents in writing;

(b) stipulates that the letter of counsel may be used during proceedings involving new complaints against the Judicial Officer; and

(c) agrees to and satisfies any conditions required by the Board; or

(3) authorize the filing of formal charges with the Court of Judicial Discipline.

(B) If the Board dismisses a complaint following a full investigation, Chief Counsel shall promptly notify the Judicial Officer and the complainant.

(C) Exceptions.

(1) The Board may continue a full investigation of a matter beyond the 180-day period set forth in paragraph (A) upon a good faith belief that further investigation is necessary.

(2) The Board may defer disposition of a complaint pursuant to paragraph (A) upon discovery or receipt of additional, corollary, or cognate allegations which may necessitate an investigation.

(3) The receipt of the Judicial Officer's written response to any Rule 30(B) notice or supplemental or investigatory letter is a necessary prerequisite to the tolling and calculation of the 180-day period set forth in paragraph (A). Thus, the 180-day time period is wholly inapplicable if the Judicial Officer fails to file a written response and the investigation will continue to conclusion.]

RULES AND REGULATIONS

Title 12—COMMERCE, TRADE AND LOCAL GOVERNMENT

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

[12 PA. CODE CH. 145]

Industrial Housing and Components

The Department of Community and Economic Development (Department), under section 5 of the Industrialized Housing Act (act) (35 P. S. § 1651.5), amends Chapter 145 (relating to industrialized housing and components). The purpose of this final-form rulemaking is to eliminate the exception for energy conservation for industrialized homes, adopt the model code requirements for energy efficiency bringing industrialized housing on par with the Pennsylvania Construction Code Act (35 P. S. §§ 7210.101—7210.1103) and reduce the number of required inspections by the Department.

Introduction

The act authorizes the Department to promulgate rules and regulations to interpret and make specific the provisions of the act. Under section 5 of the act, the rules and regulations are to be amended to “assure the health, safety and welfare of the people of Pennsylvania by requiring safe and sanitary industrial housing and shall include provisions imposing requirements reasonably consistent with recognized and accepted model codes.” The purpose of this final-form rulemaking is to provide parity with conventional housing constructed under the Pennsylvania Construction Code Act and industrialized housing constructed for other states. Adoption of the model energy standards will improve energy efficiency in housing produced and allow manufacturers to utilize newer technology in designing heating and cooling systems.

Following the public comment period, minor changes were made to the proposed rulemaking to clarify the standards. In § 145.42(a)(2)(iv) (relating to alternate standards), “stairs” was replaced with “stairways” to clarify that this standard applied to each stair in the stairway. In § 145.42(a)(2)(v), the tense of a verb was changed to make the sentence consistent.

Analysis

Section 145.41 (relating to adoption of standards) is amended to adopt the ICC International Energy Conservation Code and the ICC International Residential Code as additional standards applicable to the industrialized housing and housing components for purposes of this chapter and to remove the energy conservation and stair geometry exceptions to the ICC International Building Code.

Section 145.42 is amended to provide the International Energy Conservation Code and Pennsylvania's Alternative Residential Energy Provisions as the alternatives to § 145.41 with respect to energy efficiency. The ICC International Residential Code is removed as an alternative because it is a standard in § 145.41. The amendment also provides alternate standards regarding stairway construction.

Section 145.93 (relating to factory inspections; right of entry) is amended to replace the biannual inspection requirement with an annual inspection requirement.

Fiscal Impact

Commonwealth. While striving to reduce the number of required inspections per year at each plant, the Department estimates the total number of inspections will remain unchanged. This is in part a result of additional production facilities seeking approval each year and increased inspections at warranted plants once granted the ability to focus Department inspection efforts.

Political subdivisions. There will be no fiscal impact on political subdivisions.

Public. Increased costs to the industry will be negligible. The majority of manufacturers presently exceeds the current provisions and builds homes that comply with the proposed standard.

Paperwork

The final-form rulemaking will not change existing paperwork requirements.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 7, 2006, the Department submitted a copy of the notice of proposed rulemaking, published at 36 Pa. B. 3820 (July 22, 2006), to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House Commerce and Economic Development Committee and the Senate Community and Economic Development Committee for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on April 4, 2007, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5(g) of the Regulatory Review Act, the final-form rulemaking was deemed approved by IRRC, effective April 4, 2007.

Effective Date/Sunset Date

The final-form rulemaking will become effective on June 20, 2007. The regulations are monitored on a regular basis and updated as needed.

Contact Person

Interested persons are invited to submit in writing comments, suggestions or objections regarding the final-form rulemaking to Matthew J. Speicher, Assistant Counsel, Office of Chief Counsel, Department of Community and Economic Development, Commonwealth Keystone Building, 4th Floor, 400 North Street, Harrisburg, PA 17120, (717) 720-7317; or Mark Conte, Chief, Housing Standards Division, Office of Community Development, Department of Community and Economic Development, Commonwealth Keystone Building, 4th Floor, 400 North Street, Harrisburg, PA 17120, (717) 720-7416.

Findings

The Department finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The final-form rulemaking is necessary and appropriate.

Order

The Department, acting under the authorizing statute, orders that:

(a) The regulations of the Department, 12 Pa. Code Chapter 145, are amended by amending §§ 145.41 and 145.93 to read as set forth at 36 Pa.B. 3820 and by amending § 145.42 to read as set forth in Annex A.

(b) The Department shall submit this order, 36 Pa.B. 3820 and Annex A to the Office of Attorney General and the Office of General Counsel for approval as to legality as required by law.

The Board's temporary regulations will be added to Part VII (relating to Gaming Control Board). Chapter 429, entitled Manufacturer Designees, is added to Subpart B, entitled Licensing, Registering, Certifying and Permitting.

Purpose and Background

The licensing, registration, certification and permitting of individuals and other classes of applicants will be reimbursed by the applicants through fees established by the Board. It is anticipated that all expenses of the Board and all associated activities shall be reimbursed by the applicants and gaming entities as previously specified. The Board shall have no financial impact on the State budget.

Statutory Authority

The Board is authorized under 4 Pa.C.S. § 1203(a) to adopt and publish temporary regulations to implement the policies and purposes of Act 71.

Regulatory Review

Under 4 Pa.C.S. § 1203(b), the Board's authority to adopt temporary regulations expires April 15, 2007.

Findings

The Board finds that:

(1) Under 4 Pa.C.S. § 1203(a), the temporary regulations are exempt from the requirements of the Regulatory Review Act and sections 201—205 of the CDL.

(2) The adoption of the temporary regulations provided by this order is necessary and appropriate for the administration of the authorizing statute.

PROPOSED RULEMAKING

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CHS. 1150 AND 1243]

Clinical Laboratory Improvement Amendments

The Department of Public Welfare (Department), under the authority of sections 201(2), 403 and 443.3 of the Public Welfare Code (62 P. S. §§ 201(2), 403 and 443.3), proposes to amend Chapters 1150 and 1243 (relating to MA Program payment policies; and outpatient laboratory services) to read as set forth in Annex A.

Purpose of Proposed Rulemaking

The proposed amendments to Chapters 1150 and 1243 amend current Medical Assistance (MA) regulations to be consistent with the Clinical Laboratory Improvement Amendments of 1988 (CLIA).

Background

Under the CLIA, specifically 42 U.S.C.A. § 263a, regarding certification of laboratories, the United States Department of Health and Human Services (HHS) was required to establish certification requirements for laboratories performing tests on human specimens and to certify through the issuance of a certificate that those laboratories meet the requirements established by the HHS. Further, 42 CFR Part 493 (relating to laboratory requirements) sets forth the certification requirements and establish uniform certification requirements for laboratories, regardless of location, size or type of testing performed. Section 263a of the U.S.C.A. applies to laboratories that examine human specimens for the diagnosis, prevention or treatment of any disease or impairment of, or the assessment of the health of human beings.

The provisions in 42 U.S.C.A. § 263a(f) also specify performance requirements, based on test complexity and risk factors related to erroneous test results. This section also provides requirements that ensure the quality of laboratory services and support the best interest of public health.

The purpose of the CLIA and the Federal regulations is to ensure that appropriate standards are established to ensure quality laboratory testing to improve the diagnosis of disease, management of care for treatment and assessment of health of patients and to avoid or eliminate test errors that might result in patient harm. In addition, both 42 U.S.C.A. § 263a(b) and the Federal regulations require that laboratories have a CLIA identification number and a CLIA certificate identifying those laboratory procedures the laboratory is eligible to perform.

A State Medicaid agency may only pay for laboratory services performed by laboratories that have CLIA certification. (See 42 U.S.C.A. § 1396a(a)(9)(C), regarding state plan for medical assistance, and 42 CFR 493.1809 (relating to limitation on Medicaid payment).) The Department is now amending its regulations to reflect this Federal requirement.

Requirements

Under existing MA regulation, the Department limited MA payment to hospital and independent laboratories enrolled in the MA Program. The Department will adopt the CLIA definition of "laboratory" and include hospital

laboratories and privately owned laboratories under the same definition, thus the term "independent laboratory" is obsolete.

The Department proposes to amend the following sections to be consistent with the CLIA:

Section 1150.57(d) (relating to diagnostic services and radiation therapy) by deleting the reference to an independent laboratory.

Section 1243.1 (relating to policy) by deleting the reference to independent laboratories.

Section 1243.2 (relating to definitions) by deleting the definition of "independent laboratory" and by adding the definitions of "CLIA" and "laboratory."

Sections 1243.41(1), (3) and (4), 1243.42(1) and (3), 1243.52(a) and 1243.54(3) are amended to incorporate CLIA requirements and definitions.

Individuals and Organizations

The proposed rulemaking requires laboratories participating in the MA Program to meet CLIA certification requirements established by the HHS.

Accomplishments and Benefits

The Department's adoption of the CLIA definition of "laboratory" will include hospital and privately owned laboratories under the same definition. This amendment will help ensure consistency across the MA Program, both for laboratory providers and for laboratory services provided to MA recipients. In addition, the amendments will be consistent with Federal requirements for participating laboratories.

Fiscal Impact

Laboratories should already be in compliance with Federal law and regulations; therefore, there is no anticipated fiscal impact.

Paperwork Requirements

There are no additional reports, paperwork or new forms needed to comply with the proposed rulemaking.

Effective Date

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to the Department of Public Welfare, Office of Medical Assistance Programs, Attention: Regulations Coordinator, c/o Deputy Secretary's Office, Room 515, Health and Welfare Building, Harrisburg, PA 17120 within 30 calendar days after publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Persons with a disability who require an auxiliary aid or service may submit comments by using the AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Regulatory Review Act

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 11, 2007, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairper-

sons of the House Committee on Health and Human Services and the Senate Committee on Public Health and Welfare. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. STATE BOARD OF FUNERAL DIRECTORS

[49 PA. CODE CH. 13]

Forms Review

The State Board of Funeral Directors (Board) proposes to amend §§ 13.204 and 13.224 (relating to written agreement; and funding and reporting of prepaid burial contracts) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking is authorized under section 16(a) of the Funeral Director Law (act) (63 P. S. § 479.16(a)).

Background, Need and Description of the Proposed Amendment

Currently, §§ 13.204 and 13.224 set forth requirements for contracts typically used by licensees in providing, or agreeing to provide, funeral goods and services. Under § 13.204(a), a licensee shall use a form agreement or statement of funeral goods and services that has been reviewed and approved by the Board. Likewise, § 13.224(f) requires a licensee to use a form prepaid burial contract or preneed contract form that has been reviewed and approved by the Board. However, the existing provisions do not state the basis upon which the Board may disapprove a form submitted to it.

In implementing the existing sections, the Board has refused to approve form contracts or agreements that include a term prohibited by the act or Board regulations,

or form contracts or agreements that do not include a term required by the act or Board regulations. However, in the absence of express language in its regulations, the Board has not disapproved a form that includes a contractual provision the enforcement of which would lead to a violation of a provision of the act or Board regulations.

Under the proposed amendments to §§ 13.204 and 13.224, the Board would have authority to refuse to approve a form that does not comply with the act or the regulations or if the enforcement of any terms of the form would result in a violation of the act or Board regulations.

The Board solicited input from and provided an exposure draft of this proposed rulemaking to funeral directors and organizations. In addition, the Board considered the impact the proposed amendments would have on the regulated community and on public health, safety and welfare. The Board finds that the proposed amendments address a compelling public interest as described in this preamble.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose no additional paperwork requirement upon the Commonwealth, political subdivisions or the private sector.

Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 11, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Michelle T. Smey, Administrator, State Board of Funeral Directors, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Reference No. 16A-4813 (Forms Review) when submitting comments.

[49 PA. CODE CH. 13]
Renewal Fee

The State Board of Funeral Directors (Board) proposes to amend § 13.12 (relating to fees) to read as set forth in Annex A. The proposed rulemaking will raise the biennial renewal fee for licensed funeral directors and funeral establishments from \$185 to \$325.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*. The increase in the biennial renewal fee will go into effect beginning with renewal for the February 1, 2008, through January 31, 2010, biennial renewal period.

Statutory Authority

This proposed rulemaking is authorized by section 18.1 of the Funeral Director Law (act) (63 P. S. § 479.18.1).

Background and Need for the Amendment

Section 18.1(a) of the act requires the Board to fix the fees for renewal of licenses by regulation and if the revenue generated by fees, fines and civil penalties is not sufficient to match expenditures over a 2-year period, the

Board is required to increase those fees by regulation. Section 18.1(b) of the act requires the Board to increase fees when revenue raised by fees, fines and civil penalties are not sufficient to meet expenditures.

The Board's current biennial license renewal fee was established by regulation and took effect for the 2004-2006 biennial renewal period, the only increase since 1992. The Board raises virtually all its revenue through fees. The biennial license renewal fee is the most substantial revenue-generating fee of the fees charged by the Board.

At the Board's meeting on June 7, 2006, the Department of State's Revenue and Budget Offices presented a summary of the Board's actual revenues and expenses for Fiscal Year (FY) 2004-05 and projected revenues and expenses for FY 2005-06 through FY 2016-17. At the end of FY 2004-05, the Board had a deficit of \$99,582. The Budget Office projects that, without an increase in the renewal fee, deficits will continue to grow, with an anticipated deficit of \$684,119 at the end of FY 2008-09, an anticipated deficit of \$1,212,119 at the end of FY 2010-11 and an anticipated deficit of \$4,037,119 by the end of FY 2016-17.

For the Board's consideration, the Budget Office presented summaries for various increases in the renewal fee beginning with the 2008-10 renewal period. If the renewal fee were increased to \$230, an increase of approximately 25%, the Budget Office projected continued deficits. Specifically, the Board would experience a deficit of \$374,009 at the end of FY 2008-09, a deficit of \$591,899 at the end of FY 2010-11 and a deficit of \$1,002,789 at the end of FY 2012-13. The deficits would continue to grow to \$2,486,569 at the end of FY 2016-17. Similarly, if the renewal fee were increased to \$280, an increase of approximately 50%, the Budget Office projected a deficit of \$46,159 at the end of FY 2008-09, a surplus of \$63,801 at the end of FY 2010-11 and a deficit of \$19,239 at the end of FY 2012-13. The deficits would continue to grow to \$847,319 at the end of FY 2016-17.

If, however, the renewal fee were increased to \$325, an increase of approximately 75%, the Budget Office projected a surplus of \$249,906 at the end of FY 2008-09, a surplus of \$653,931 at the end of FY 2010-11 and a surplus of \$865,956 at the end of FY 2012-13. The surplus would then continually decrease to \$628,006 at the end of FY 2016-17. If the renewal fee were increased to \$370, an increase of approximately 100%, the Budget Office projected a surplus of \$543,971 at the end of FY 2008-09 and a surplus of \$1,244,061 at the end of FY 2010-11. The surplus would then continually increase to \$2,103,331 at the end of FY 2016-17. After considering each of these options, the Board elected to increase the biennial renewal fee to \$325, as the least restrictive means of eliminating the projected deficits and restoring the Board's fiscal integrity as required by section 18.1 of the act.

Description of the Proposed Amendments

Section 13.12 (relating to fees) will be amended to increase the biennial renewal fee from \$185 to \$325.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will increase the biennial renewal fee for funeral directors and funeral establishments in this Commonwealth, but, otherwise, should have no adverse fiscal impact on the Commonwealth, its political subdivisions or the private sector. The proposed

rulemaking will impose no additional paperwork requirements upon the Commonwealth, its political subdivisions or the private sector.

Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 11, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Michelle T. Smey, Board Administra-

tor, State Board of Funeral Directors, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days of publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Reference No. 16A-4817 (Renewal Fee) when submitting comments.

Title 55—PUBLIC WELFARE

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CH. 1101]

Clarification Regarding the Definition of “Medically Necessary”

Scope

This statement of policy applies to providers enrolled in the Medical Assistance (MA) Program.

Purpose

The purpose of this statement of policy is to clarify the definition of “medically necessary” in § 1101.21 (relating to definitions).

Background

On February 1, 1997, the Commonwealth implemented the HealthChoices Program, the mandatory managed care program for both physical and behavioral health care services for MA recipients. More than 70% of MA recipients currently receive their physical and behavioral health care through HealthChoices. The remaining MA population is served in the voluntary managed care or the fee-for-service delivery system.

Discussion

The Department of Public Welfare (Department) only pays for medically necessary services, items, procedures and levels of care. The definition of “medically necessary” is in § 1101.21. The HealthChoices contract contains a definition of “medical necessity” that uses language that is similar, but not identical, to the language in the regulatory definition of “medically necessary.” Although the language is not identical, the intended meaning is the same. The HealthChoices definition merely clarifies the intent of the regulatory definition.

To assure consistent application of the terms “medical necessity” and “medically necessary” in both the mandatory and voluntary managed care and the fee-for-service delivery systems, the Department is clarifying when a service, item, procedure or level of care is “[n]ecessary to the proper treatment or management of an illness, injury or disability” as required by subparagraph (ii) of the regulatory definition of “medically necessary.”

Effective Date

This statement of policy is effective immediately upon publication in the *Pennsylvania Bulletin*.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of May 2007

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of May 2007 is 7 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 4.69 to which was added 2.50 percentage points for a total of 7.19 that by law is rounded off to the nearest quarter at 7 1/4%.

The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a Statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a Statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise Statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Application No. PA 0260177, CAFO, **David E. Gemmill (Belview Valley Farms)**, 458 Gemmill Road, Delta, PA 17314.

David E. Gemmill has submitted an application for a CAFO National Pollutant Discharge Elimination System (NPDES) permit on December 26, 2006 for a proposed agricultural operation known as Belview Valley Farms, located on Gemmill Road in Peach Bottom Township. The CAFO would be situated near a UNT of Neill Run, which is classified as a TSF. The nearest downstream public surface water supply is a Baltimore City intake just above the Conowingo Dam on the Susquehanna River. The farm is not expected to impact the water supply.

The operation would include 7 beef cows that are currently located on the home farm site and a new 4,400-head swine finishing barn located just west of the home farm. According to the Nutrient Management Plan for the operation, manure generated by the swine animals will be collected in a concrete manure storage structure located below the barn, with dimensions of 120-feet wide by 297-feet long by 6-feet deep, with an approximate storage capacity of 1.47 million gallons with 6-inches of freeboard. The Nutrient Management Plan indicates that there are approximately 525 acres under the control of the farm for manure application.

The Department has conducted a preliminary review of the application and has deemed the application administratively complete. The Department has made a tentative determination to issue the NPDES permit. A draft CAFO NPDES permit was issued to the farm on March 28, 2007. The draft permit proposes BMPs for manure management, erosion and sediment pollution control and manure storage. The State Conservation Commission, through the York County Conservation District, approved the Nutrient Management Plan for this proposed agricultural operation on January 12, 2007.

The permit application, draft permit and Nutrient Management Plan are on file at the Southcentral Regional Office of the Department. Persons may make an appointment to review these documents and related files by calling Jennifer Troutman at (717) 705-4732 between 8 a.m. and 4 p.m., Monday through Friday.

Persons wishing to comment on the draft permit or the Nutrient Management Plan are invited to submit written comments to the Southcentral Regional Office at the address listed above within 30 days from the date of this public notice. Comments received within this 30-day public comment period and comments submitted at the public hearing held on April 5, 2007, will be considered in formulating the Department's final determination regarding the application. Comments should include the name, address and telephone number of the writer and a concise Statement to inform the Department of the basis of the comment and the relevant facts upon which it is based.

Following the 30-day comment period, the Watershed Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time the determination may be appealed to the Environmental Hearing Board.

The Environmental Protection Agency permit waiver provision under 40 CFR 123.24(e) does not apply to this NPDES permit.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment

period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise Statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a

notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

The Philadelphia Department of Public Health, Air Management Services (AMS) will conduct a public hearing on May 23, 2007, at 321 University Avenue beginning promptly at 6 p.m. and continuing till conclusion of testimony to receive comments on the preliminary determination to approve the modification.

Copies of all documents and information concerning this permit are available for review in the office of AMS, Room 218, 321 University Avenue, Philadelphia, PA 19104-4543, during normal business hours. Persons wishing to review these documents or to submit written comments should contact Karol Bowman at (215) 685-7572 or at the previous address. The manufacturing plant operates saturators, graphic art lines and surface coating lines, as well as various clean-up operations and combustion units. There are no control devices for sources operated at the facility. The facility is major for VOC and HAP emissions. The graphic arts lines (Source ID 301 and 302) are subjected to 40 CFR Part 63 Subpart KK—National Emission Standards for the Printing and Publishing Industry. COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous

Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.12—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a Statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor

at the conference; and a Statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Public Notice of Proposed Consent Decree

Chem-Fab Site, 300 North Broad Street, Doylestown Borough, Bucks County, PA.

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Clean-up Act (HSCA), (35 P. S. § 6020.1113), has entered into a Consent Decree with 300 North Broad Street, Ltd. (300 NBS), for reimbursement of certain response costs incurred to investigate and remediate hazardous substances released and threatened to be released at the Chem-Fab Site in Doylestown Borough, Bucks County, PA (the site).

Between 1965 and 1995, Chem-Fab, Inc., an electroplating business operated the site and caused the release of hazardous substances on the site. The site is the source of groundwater contamination in certain areas of Doylestown Borough and Doylestown Township. The Department performed an environmental assessment and characterization of the site and its study revealed hexavalent chromium and other hazardous substances in groundwater beneath the site and on adjacent properties. The Department has incurred \$1,337,071.19 in response costs related to investigation of the site and anticipates conducting future response actions to remediate hazardous substances released at the site.

As the owner of the site, 300 NBS is a responsible party under section 701 of HSCA, (35 P. S. § 6018.701). Consequently, the Department has a claim against this limited partnership for response costs incurred at the site. On July 21, 2005, 300 NBS agreed to reimburse the Department in the amount of \$251,518.52 for certain past and future response costs incurred at the site. This agreement was made on the record before the Commonwealth Court and memorialized in an Order dated July 21, 2005, in the matter captioned and docketed as Commonwealth of Pennsylvania, Department of Environmental Protection v. 300 North Broad Street, Ltd., No. 334 M.D.1999. 300 NBS failed to comply with the July 21, 2005 Order.

It is in the public interest for the Department to resolve its claim against 300 NBS. The Department and 300 NBS

have negotiated in good faith and 300 NBS has agreed to pay off the liability required in the Commonwealth Court's July 21, 2005 Order. Thus, the parties have entered into a Consent Decree to resolve the Department's outstanding claims.

This notice is provided under section 1113 of HSCA, (35 P. S. § 6020.1113), which states that, "settlement shall become final upon the filing of the Department's response to significant written comments." The Consent Decree, which contains the specific terms of the agreement is available for public review and comment. The agreement can be examined from 8 a.m. to 4 p.m. at the Department's Southeast Regional Office, located at 2 East Main Street in Norristown, PA by contacting either April Flipse, at (484) 250-5721 or Gina M. Thomas, Esquire at (484) 250-5930. April Flipse and Gina Thomas may also be contacted electronically at aflipse@state.pa.us and githomas@state.pa.us, respectively. A public comment period on the Consent Decree will extend for 60 days from today's date. Persons may submit written comments regarding the agreement within 60 days from today's date, by submitting them to April Flipse at the previous address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of reuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at

the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation

tion standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. Notice to Rescind Technical Guidance

DEP ID: 383-2129-001 Title: Enhanced Coagulation Calculator Spreadsheet—Version 1.1. Description: The Enhanced Coagulation Calculator Spreadsheet—Version 1.1 is an obsolete technical guidance document that is rescinded from the Department's technical guidance inventory. The guidance document was formerly used to

provide instructions to assist water suppliers in understanding and implementing the "Enhanced Coagulation" requirements of the Stage 1 Disinfection Byproducts Rule. In lieu of using the enhanced coagulation calculator tool described in the guidance document, public water suppliers now have access to a Total Organic Carbon (TOC) calculation tool that enables users to retrieve specifically defined data from the Pennsylvania Drinking Water Information System. By using the TOC calculation tool, system users are provided with TOC performance data from treatment plants for any given 12-month period for which data is available. The tool can be accessed through the Drinking Water Reporting System on the Department's website at www.drinkingwater.state.pa.us/dwrs/HTM/DEP_frm.html (select the "Sample" function, enter a PWSID or select a county from the list; on the next screen, select PWSID(s) of interest, enter the desired 1-year time period and select the TOC report from the list of available reports). In addition to public water suppliers, other system users, including the public, university researchers and the regulated community can use the TOC calculation tool to retrieve user-defined data from the Pennsylvania Drinking Water Information System that can be downloaded for further analysis.

Contact: Questions regarding the rescission of technical guidance no. 383-2129-001 may be directed to Tim Lehman, Bureau of Water Standards and Facility Regulation at (717) 787-6744, or timlehman@state.pa.us. Effective Date: April 21, 2007.

Proposed Revision to the State Implementation Plan for the Allentown-Bethlehem-Easton 8-Hour Ozone Nonattainment Area; Public Hearing

Ground-level ozone concentrations above the Federal health-based standard are a serious human health threat and can also cause damage to crops, forests and wildlife. The Allentown-Bethlehem-Easton 8-Hour Ozone Nonattainment Area has met the health-based National ambient air quality standard for ozone based on 2003–2005 concentrations. Therefore, the Department of Environmental Protection (Department) plans to submit a request to the United States Environmental Protection Agency (EPA) to redesignate this nonattainment area to attainment of the 8-hour ozone national ambient air quality standard (NAAQS). The Department is seeking public comment on the 8-hour ozone redesignation request, the 2002 base year inventory and a State Implementation Plan revision setting forth a Maintenance Plan, demonstrating that the area can maintain the health-based ozone standard for the next 10 years as required under section 175A(a) of the Federal Clean Air Act (42 U.S.C.A. § 7505a). The Maintenance Plan, once approved by the EPA, will also establish new motor vehicle emission budgets for purposes of transportation conformity.

This proposal is available on the Department's website at www.depweb.state.pa.us (DEP Keywords: Air Plans) or through the contact persons listed.

The Department will hold a public hearing to receive comments on the proposals on Tuesday, May 22, 2007, at 10 a.m. at the Lehigh County Government Center, Con-

ference Room 123, 17 S. 7th Street, Allentown, PA 18101. Persons wishing to present testimony at the hearing should contact Yvette House, P. O. Box 8468, Harrisburg, PA 17105, (717) 787-9495, yhouse@state.pa.us to reserve a time. Persons who do not reserve a time will be able to testify as time allows. Witnesses should keep testimony to 10 minutes and should provide two written copies of their statement at the hearing.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceeding should contact Yvette House at (717) 787-9495 or yhouse@state.pa.us. TDD users may contact the AT&T Relay Service at (800) 654-5984 to discuss how the Department can best accommodate their needs.

The Department must receive comments no later than May 25, 2007. Written comments should be sent to the attention of J. Wick Havens, Chief, Division of Air Resource Management, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468, jhavens@state.pa.us. Laboratories Approved to Determine Analyses of Blood and/or Serum for Controlled Substances

The following laboratories are licensed by the Department of Health under the Clinical Laboratory Act (35 P. S. §§ 2151—2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Code § 5.50 (relating to approval to provide special analytical services) to perform analyses of blood and/or serum for the determination of controlled substances. This approval is based on demonstrated proficiency in tests conducted by the Bureau of Laboratories of the Department of Health (Department). These laboratories are also approved and designated for purposes of 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), 30 Pa.C.S. § 5125 (relating to chemical test to determine amount of alcohol controlled substance) and 34 Pa.C.S. § 2502 (relating to chemical test to determine amount of alcohol), as qualified to perform the types of services which will reflect the presence of controlled substances or their biotransformation products in blood and/or serum.

Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform screening and/or confirmatory analyses on blood and/or serum. Laboratories approved to perform screening analyses are designated on the approval list by an "S" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to screen both blood and serum would therefore have "SBSe" listed after their laboratory name. Laboratories approved to offer confirmatory analyses will be designated on the approval list by a "C" followed by the letters "B" for blood and/or "Se" for serum. Laboratories approved to perform confirmatory analyses on both serum and blood would therefore have "CBSe" listed after the name of their laboratory.

Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic blood and/or serum analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the medicolegal purposes. They should also determine that the director of the facility is agreeable to performing analyses for forensic purposes. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. That specification should be predicated upon the purpose for which the analysis is being sought.

The name of a laboratory is sometimes changed but the location, personnel and testing procedures of the facility remain unchanged. When changes of this type occur, the Clinical Laboratory Permit number does not change. If questions arise about the identity of a laboratory due to a name change, the Clinical Laboratory Permit number should be used as the primary identifier. To assist in identifying a laboratory that performed a test if the name of the facility changed, the Clinical Laboratory Permit numbers of the facilities are included in the lists of approved laboratories above the name of the laboratory at the time the list was prepared.

The list of approved laboratories will be revised approximately semiannually and published in the *Pennsylvania Bulletin*. Questions regarding this list should be directed to M. Jeffery Shoemaker, Ph.D., Director, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 280-3464.

Persons with a disability who require an alternative format of this notice (for example, large print, audiotape, Braille) should contact Dr. Shoemaker at the previously referenced address or phone number. Persons who are speech or hearing impaired may use V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

Laboratories Approved to Determine Urine Controlled Substance Content

The following laboratories are licensed by the Department of Health under the Clinical Laboratory Act (35 P. S. §§ 2151–2165) and/or the Federal Clinical Laboratory Improvement Act of 1967 (42 U.S.C.A. § 263a) and are currently approved by the Department under 28 Pa. Depending upon their capability and performance in proficiency surveys, laboratories are approved to perform

screening and/or confirmatory urine drug analyses. Laboratories approved to perform screening tests only are designated on the approval list by an "S" after the laboratory's name. Laboratories approved to perform confirmatory testing only are designated by a "C" following the laboratory's name. Those approved to perform both screening and confirmatory analyses are designated by the letters "SC." Screening analyses provide a presumptive indication that a controlled substance is present. Confirmatory testing is used to substantiate screening results.

Persons seeking forensic urine drug analysis services from any of the listed laboratories should determine that the laboratory employs techniques and procedures acceptable for the purpose. They should also determine that the director of the facility is agreeable to performing analyses for that purpose. Persons seeking the analyses are responsible for specifying the extent to which the presence of a controlled substance is to be verified. DEPARTMENT OF REVENUE

Pennsylvania Treasure Hunt Terminal-Based Lottery Game

Under the State Lottery Law (72 P.S. §§ 3761-101—3761-314), and 61 Pa. Code § 875.4 (relating to notice of terminal-based lottery game rules), the Secretary of Revenue hereby provides public notice of the rules for the following terminal-based lottery game:

1. *Name:* The name of the terminal-based lottery game is Pennsylvania Treasure Hunt. The game will commence at the discretion of the Secretary, and will continue until the Secretary publicly announces a suspension or termination date.

2. *Price:* The price of a Pennsylvania Treasure Hunt ticket is \$1 per game or play. Additional games or plays may be purchased at the discretion of the player. A ticket will contain one to five games or plays.

3. *Description of the Pennsylvania Treasure Hunt lottery game:*

(a) Pennsylvania Treasure Hunt is designed to give players the opportunity to win one prize in each game or play.

(b) For a \$1 purchase, the player gets a ticket containing five different numbers ranging from 1 to 30. Players can win a prize by matching winning numbers randomly selected by the Lottery as determined and publicly announced by the Secretary.

(c) Correctly matching two or more of the five winning numbers randomly selected by the Lottery, and meeting all other validation criteria, entitles the ticket holder to a prize identified in Section 6(a) (relating to prizes available to be won and determination of prize winners).

4. *Pennsylvania Treasure Hunt bet slip and ticket characteristics:*

(a) To purchase a ticket, the player shall remit to an on-line retailer the purchase price, submit the completed Pennsylvania Treasure Hunt bet slip or request the number selection through quick pick or manual terminal entry to have a ticket issued. The ticket shall consist of one to five games or plays, each containing one five-number selection for each \$1 wagered, the drawing date or range of dates for which the ticket is entered, amount bet, and validation number data. On tickets containing multiple games or plays, each five-number selection will be identified by a letter prefix: A for the first game or play printed on the ticket; B for the second game or play printed on the ticket; C for the third game or play printed

on the ticket; D for the fourth game or play printed on the ticket; and E for the fifth game or play printed on the ticket. This ticket shall be the only valid proof of the bet placed, and the only valid receipt for claiming a prize. The ticket shall only be valid for the drawing date or range of dates printed on the ticket.

(b) Pennsylvania Treasure Hunt bet slips shall be available at no cost to the player. The minimum wager is \$1. For \$1, play game A; for \$2, play games A and B; for \$3, play games A, B, and C; for \$4, play games A, B, C and D; for \$5, play games A, B, C, D and E. Games shall be selected in accordance with the instructions printed on the Pennsylvania Treasure Hunt bet slip. A Pennsylvania Treasure Hunt bet slip has no pecuniary or prize value and does not constitute evidence of the purchase of a ticket or the numbers selected.

(c) If Pennsylvania Treasure Hunt bet slips are unavailable, number selections may be given to an on-line retailer in groups of five-number selections, for each game or play and for each \$1 wagered. The retailer shall manually enter the selections into the Lottery terminal.

(d) A player may also request number selection using the quick pick option by indication on the bet slip or making the request to an on-line retailer.

5. *Time, place and manner of conducting drawings.*

(a) *Time of drawing.* A Pennsylvania Treasure Hunt drawing will be held on a daily basis or as determined and publicly announced by the Secretary.

(b) *Place of drawing.* A Pennsylvania Treasure Hunt drawing will be conducted in the Harrisburg, Pennsylvania area unless the Secretary directs that a drawing or part of the drawing procedure be conducted at some other location.

(c) *Manner of conducting drawings.* The Lottery will select, at random, five numbers from 1 through 30, with the aid of mechanical devices or any other selection methodology as authorized by the Secretary. The five numbers selected will be used in determining winners for each individual drawing. The validity of a drawing will be determined solely by the Lottery.

6. *Prizes available to be won and determination of prize winners.*

(a) Determination of Pennsylvania Treasure Hunt prize winners for tickets correctly matching the winning numbers selected by the Lottery are:

(1) Holders of tickets upon which the player's five numbers, in a single game or play, match the five winning numbers selected by the Lottery, shall be the winner of the jackpot category prize.

(i) The minimum jackpot category prize will be \$10,000 divided equally by the number of tickets determined by the Lottery to be entitled to claim a jackpot category prize. The Lottery will estimate and announce the projected amount of the upcoming jackpot prior to the drawing. Payment will be made in the amount estimated and announced as the projected jackpot, or in the actual amount of the jackpot, whichever is greater, divided equally by the number of plays on tickets determined by the Lottery to be entitled to claim a jackpot category prize.

(ii) Prize money allocated to the jackpot category will be paid on a pari-mutuel basis. If more than one winning jackpot prize play is determined, each, upon meeting the requirements of 61 Pa. Code §§ 875.10 and 875.11 (relating to terminal-based lottery game ticket validation and

requirements; and procedures for claiming and payment of prizes), is entitled to a prorated payment share of the total jackpot prize category.

(iii) If, in a Pennsylvania Treasure Hunt drawing, there are no winning jackpot prize plays, prize money allocated to that prize category will be carried forward and added to the amount allocated for the jackpot prize category money in the next Pennsylvania Treasure Hunt drawing (20.46% of sales).

(2) Holders of tickets upon which four of the player's numbers, in a single game or play, match four of the winning numbers selected by the Lottery, shall be entitled to a prize of \$100.

(3) Holders of tickets upon which three of the player's numbers, in a single game or play, match three of the winning numbers selected by the Lottery, shall be entitled to a prize of \$6.

(4) Holders of tickets upon which two of the player's numbers, in a single game or play, match two of the winning numbers selected by the Lottery, shall be entitled to a prize of \$1.

(b) All Pennsylvania Treasure Hunt prize payments, including the jackpot prize, will be made as a one-time, lump-sum cash payment.

(c) A winning Pennsylvania Treasure Hunt ticket is entitled only to the highest prize won by those numbers in each game or play appearing on the ticket.

(d) The number of prize categories, the allocation of prize money among the prize categories, and the minimum jackpot category amount may be changed at the discretion of the Secretary and the change will be announced by public notice. The changes will only apply prospectively to Pennsylvania Treasure Hunt drawings as of the date specified in the public notice.

7. *Probability of winning.* The following table sets forth all possible ways that a prize can be won on a single ticket; corresponding prize or prizes won; and probability of winning each prize or combination of prizes:

<i>Number Of Winning Numbers Selected By The Player In A Single Game Or Play</i>	<i>Probability Of Winning Per Game Or Play Are 1 In:</i>	<i>Prize Won:</i>
5	142,506.00	Jackpot
4	1,140.05	\$100
3	47.50	\$6
2	6.20	\$1

8. *Retailer Incentive and Marketing Promotion Programs.*

(a) The Lottery may conduct a separate Retailer Incentive Program for retailers who sell Pennsylvania Treasure Hunt lottery tickets. The conduct of the Program will be governed by 61 Pa. Code § 811.41 (relating to promotional prizes).

(b) Retailer Incentive and Marketing Promotion Programs, including the use of unfunded free tickets, may be implemented at the discretion of the Secretary. If needed, funds for the programs, including the payment of prizes resulting from the programs, will be drawn from the Lottery Fund.

9. *Unclaimed Prize Money.* For a period of 1 year from the announced close of Pennsylvania Treasure Hunt game, prize money from winning Pennsylvania Treasure Hunt lottery game tickets will be retained by the Secretary for payment to the persons entitled thereto. If no

claim is made within 1 year of the anniversary date of the drawing in which the ticket or chance was entered, the right of a ticket holder to claim the prize represented by the ticket, if any, will expire and the prize money will be paid into the State Lottery Fund and used for purposes provided for by statute.

10. *Governing Law.* In purchasing a ticket, the player agrees to comply with and abide by the State Lottery Law (72 P. S. §§ 3761-101—3761-314), 61 Pa. Code Part V (relating to State Lotteries) and the provisions contained in this notice.

DEPARTMENT OF TRANSPORTATION

Finding Indiana County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Chief Engineer, Department of Transportation (Department), makes the following written finding:

The Federal Highway Administration and the Department are planning the construction of a two-lane collector roadway, Rose Street II, connecting West Philadelphia Street (Business Route 422 (SR4032)) and Oakland Avenue (SR 0286) in White Township and Indiana Borough, Indiana County, PA.

An Environmental Assessment (EA) was prepared to evaluate the potential environmental impacts caused by the subject project. The Federal Highway Administration issued a Finding of No Significant Impact on March 22, 2007, determining that the proposed alternative will have no significant impact on the human environment.

The EA and supporting documentation find there is no practicable alternative to construction of the preferred alternative, and the proposed action includes all practicable measures to minimize harm to the environment, which may result from the proposed project.

Mitigation measures will be taken to minimize harm as stipulated in the EA. The proposed project has no Section 4(f) use.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 have been considered. It has been concluded that all reasonable planning was completed to avoid, minimize or mitigate the environmental effects that are likely to result from the construction of this project.

Chief Engineer

Finding Monroe County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Chief Engineer for Highway Administration makes the following written finding:

The Department of Transportation (Department) plans to replace the Warnertown Bridge (SR 423, Section 01B) over Tobyhanna Creek in Coolbaugh Township, Monroe County. The project will require the use of land from State Game Lands No. 127.

Mitigation measures will be taken to minimize harm to the game lands including payment of fair market value for land acquired, transfer of vacated right-of-way no longer needed back to the Game Commission, regrading and reseeding all disturbed vacated right-of-way, providing a minimal 5'—10' between the proposed cut/fill line, and the required right-of-way line, and using the existing bridge to maintain traffic while the new bridge is being built.

The Chief Engineer for Highway Administration has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and have concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize the effect.

No adverse environmental effect is likely to result from this project.

Chief Engineer
