READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Order

Per Curiam

And Now, this 8th day of April, 2013, upon the recommendation of the Civil Procedural Rules Committee; the proposal having been published at 41 Pa.B. 2316 (May 7, 2011):

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rule 1311.1 of the Pennsylvania Rules of Civil Procedure is amended in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective May 8, 2013.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1300. ARBITRATION

Subchapter A. COMPULSORY ARBITRATION

Rule 1311.1. Procedure on Appeal. Admission of Documentary Evidence.

(a) The plaintiff may [stipulate to] elect a limit of \$25,000.00 as the maximum amount of damages recoverable upon the trial of an appeal from the award of arbitrators. The [stipulation] election shall be filed and served upon every other party at least thirty days from the date the appeal is first listed for trial. **The election may be withdrawn at any time by agreement of the parties. If the parties cannot agree, upon plaintiff's motion to withdraw the election, the court may grant the withdrawal of the election upon good cause shown.**

(b) If the plaintiff has filed and served [a stipulation] an election as provided in subdivision (a), any party may offer at trial the documents set forth in Rule 1305(b)(1). The documents offered shall be admitted if the party offering them has provided written notice to every other party of the intention to offer the documents at trial at least twenty days from the date the appeal is first listed for trial. The written notice shall be accompanied by a copy of each document to be offered.

* * * * *

(d) Any other party may subpoena the person whose testimony is waived by this rule to appear at or serve upon a party a notice to attend the trial and any adverse party may cross-examine the person as to the document as if the person were a witness for the party offering the document. The party issuing the subpoena shall pay the [reasonable] usual and customary fees and costs of

the person subpoenaed to testify, including a [reasonable] usual and customary expert witness fee if applicable.

(1) If another party subpoenas or otherwise arranges for the attendance at trial of the person whose testimony is waived by this rule, the document may be presented to the judge or jury as direct examination as if the person has not been subpoenaed by another person, or the plaintiff may conduct a direct examination of the witness.

(2) Any party, or the person subpoenaed, may require that the testimony be given by deposition pursuant to Pa.R.C.P. 4020(a)(5). The party issuing the subpoena shall pay the witness's usual and customary fee for such testimony.

(e) The [stipulation] election required by subdivision (a) shall be substantially in the following form:

(Caption)

[Stipulation to Limitation of] Election to Limit
Monetary Recovery
Pursuant to Rule 1311.1

To: _____
(Name of Party/Parties)

_____, plaintiff, [stipulates to] elects \$25,000.00 as the maximum amount of damages recoverable upon the trial of the appeal from the award of arbitrators in the above captioned action.

(Name of Plaintiff)

(Attorney for Plaintiff)

Date

Official Note: The term "plaintiff" includes a defendant who is the plaintiff in a counterclaim.

A plaintiff may include in a single document the [stipulation] election and the notice of intent to offer documents.

* * * * *

Explanatory Comment

The Supreme Court of Pennsylvania has amended Rule 1311.1 governing the admission of documentary evidence upon the appeal of an award of arbitrators in compulsory arbitration in three respects. Currently, subdivision (a) of the rule provides for a party to stipulate to \$25,000 as the maximum amount recoverable. The rule is silent as to any procedure for withdrawing the stipulation. The amended rule will allow a plaintiff to elect, rather than stipulate, a limit of \$25,000. An election can subsequently be withdrawn upon agreement by the parties or pursuant to a court order upon good cause shown.

Subdivision (d) of the current rule provides that the expert witness be paid a reasonable fee for his or her testimony. The amendment changes the reasonable fee to a usual and customary fee.

The amendment to subdivision (d) also provides a new procedure when another party subpoenas the witness

whose testimony is waived under this rule. The amendment would allow the plaintiff to present the document to the judge or jury as direct examination as if the person has not been subpoenaed by another person, or allow the plaintiff to conduct a direct examination of the witness.

PART I. GENERAL

[231 PA. CODE CH. 3000]

Order Amending Rule 3051 of the Rules of Civil Procedure; No. 574 Civil Procedural Rules Doc.

Order

Per Curiam

And Now, this 5th day of April, 2013, upon the recommendation of the Civil Procedural Rules Committee; the proposal having been published at 41 Pa.B. 5062 (September 24, 2011):

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Rule 3051 of the Pennsylvania Rules of Civil Procedure is amended in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. No. 103(b), and shall be effective May 5, 2013.

Annex A

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 3000. JUDGMENTS

Subchapter C. FORMS

Rule 3051. Relief from Judgment of Non Pros.

(a) Relief from a judgment of non pros shall be sought by petition. All grounds for relief, whether to strike off the judgment or to open it, must be asserted in a single petition.

(b) **[If] Except as provided in subdivision (c), if the relief sought includes the opening of the judgment, the petition shall allege facts showing that**

- (1) the petition is timely filed,
- (2) there is a reasonable explanation or legitimate excuse for the **[inactivity or delay] conduct that gave rise to the entry of judgment of non pros**, and
- (3) there is a meritorious cause of action.

Official Note: See Rule 237.3 for special provisions relating to relief from a judgment of non pros entered pursuant to Rule 1037(a).

(c) If the relief sought includes the opening of the judgment of non pros for inactivity, the petition shall allege facts showing that

Official Note: The “inactivity” covered by this subdivision is governed by and subject to *Jacobs v. Halloran*, 551 Pa. 350, 710 A.2d 1098 (1998).

- (1) the petition is timely filed,
- (2) there is a meritorious cause of action, and
- (3) the record of the proceedings granting the judgment of non pros does not support a finding that the following requirements for entry of a judgment of non pros for inactivity have been satisfied:

(i) there has been a lack of due diligence on the part of the plaintiff for failure to proceed with reasonable promptitude,

(ii) the plaintiff has failed to show a compelling reason for the delay, and

(iii) the delay has caused actual prejudice to the defendant.

Explanatory Comment

The Supreme Court of Pennsylvania has amended Rule 3051 governing relief from a judgment of *non pros* to clarify the requirements for opening a judgment of *non pros* entered for inactivity. In *Madrid v. Alpine Mountain Corp.*, 24 A.3d 380 (Pa. Super. 2011), the Superior Court of Pennsylvania ruled that under the current language of Rule 3051(b) it was compelled to conclude that a plaintiff is not entitled to relief from a judgment of *non pros* for inactivity without a showing that there was a reasonable explanation or legitimate excuse for the inactivity. Under this interpretation of Rule 3051(b), a judgment of *non pros* for inactivity cannot be opened even if the record did not establish actual prejudice unless the plaintiff could also show a reasonable explanation or legitimate excuse for the delay. Thus, while the defendant was required to show that the delay caused actual prejudice in order to obtain a judgment of *non pros* for inactivity, the plaintiff who cannot show a reasonable excuse for the delay may not challenge the entry of the judgment of *non pros* on the ground that the record failed to establish actual prejudice.

New subdivision (c) is intended to alter the ruling in *Madrid* by providing for the opening of a judgment of *non pros* dismissing a case for inactivity upon a showing that the defendant did not meet each of the three requirements for the entry of a judgment of non pros.

PART I. GENERAL

[246 PA. CODE CH. 200]

Proposed Amendment to Rule 207

The Minor Court Rules Committee is planning to recommend that the Supreme Court of Pennsylvania adopt an amendment to Rule 207 of the Minor Court Civil Rules. The Committee has not yet submitted this proposal for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. The

Committee's Report should not be confused with the Committee's Official Notes to the rules. The Supreme Court does not adopt the Committee's Official Notes or the contents of the explanatory reports.

The text of the proposed changes precedes the Report. Additions are shown in bold.

We request that interested persons submit written suggestions, comments, or objections concerning this proposal to the Committee through counsel,

TITLE 246. MINOR COURT CIVIL RULES

PART I. GENERAL

CHAPTER 200. RULES OF CONSTRUCTION; GENERAL PROVISIONS

Rule 207. Representation in Magisterial District Court Proceedings.

(A) In magisterial district court proceedings:

(1) Individuals may be represented by themselves, by an attorney at law, or by a representative with personal knowledge of the subject matter of the litigation and written authorization from the individual to appear as the individual's representative.

(2) Partnerships may be represented by an attorney at law, a partner, or by an employee or authorized agent of the partnership with personal knowledge of the subject matter of the litigation and written authorization from a partner to appear as the partnership's representative.

(3) Corporations or similar entities and unincorporated associations may be represented by an attorney at law, by an officer of the corporation, entity, or association, or by an employee or authorized agent of the corporation, entity, or association with personal knowledge of the subject matter of the litigation and written authorization from an officer of the corporation, entity, or association to appear as its representative.

(B) A representative, employee, or authorized agent:

(1) must provide verification of personal knowledge of the subject matter of the litigation, and

(2) may take no action on behalf of a party until the written authorization required under paragraph (A)(1), (2), or (3) is filed with the court.

Official Note: This rule is intended to permit a non-lawyer representative, employee, or authorized agent to appear on behalf of an individual, partnership, corporation or similar entity, or unincorporated association, but not to allow a non-lawyer to establish a business for the purpose of representing others in magisterial district court proceedings.

It is intended that the designation of a non-lawyer representative, employee, or authorized agent to represent a party is to apply only on a case-by-case basis. A

party may not give blanket authorization for a non-lawyer representative, employee, or authorized agent to represent the party in all cases involving the party.

As to "personal knowledge of the subject matter of the litigation" see Pa.R.E. 602 and Comment.

A business organized as a sole proprietorship may be represented in the same manner as an individual under paragraph (A)(1).

See rules in Chapter 800 as to representation of minors and incapacitated persons by guardians.

REPORT

Proposed Amendment to Rule 207 of the Minor Court Civil Rules

Verification by Non-Lawyer Representative, Employee or Authorized Agent

I. Introduction

The Minor Court Rules Committee (the "Committee") is proposing an amendment to the rules of procedure governing actions in magisterial district courts. The goal of this rule change is to ensure that a non-lawyer representative, employee or authorized agent representing a party in a magisterial district court proceeding has personal knowledge of the subject matter of the litigation as required by Pa.R.C.P.M.D.J. No. 207.

II. Discussion

In 2006, the Supreme Court of Pennsylvania amended Pa.R.C.P.M.D.J. No. 207, clarifying who may represent certain parties in magisterial district court proceedings, and establishing an authorization procedure for non-lawyer representatives, employees and authorized agents of parties. Specifically, Rule 207 was amended to permit a non-lawyer representative, employee or authorized agent to appear on behalf of an individual, partnership, corporation or similar entity. Rule 207 requires that the authorized representative must have "personal knowledge of the subject matter of the litigation." The rule requires the party to file a written authorization with the magisterial district court naming the non-lawyer representative, employee or authorized agent to act as the party's authorized representative. A written authorization form is available on the website of the Unified Judicial System for use by the public.

In 2012, the Administrative Office of Pennsylvania Courts advised the Committee that it received a request from a magisterial district judge to modify the written authorization form to include the party's verification that the authorized representative has personal knowledge of the subject matter of the litigation. After reviewing and discussing the request, the Committee concluded that a more direct way to ensure that the authorized representative has the requisite personal knowledge is to require the representative's verification.

III. Proposed Rule Changes

The Committee proposes adding a provision to Pa.R.C.P.M.D.J. No. 207(B) requiring that the representative, employee or authorized agent provide verification of the subject matter of the litigation.

Title 25—ENVIRONMENTAL PROTECTION

ENVIRONMENTAL QUALITY BOARD [25 PA. CODE CH. 123] Corrective Amendment to 25 Pa. Code § 123.22

The Department of Environmental Protection has discovered a discrepancy between the agency text of 25 Pa. Code § 123.22 (relating to combustion units) and the official text as published in the *Pennsylvania Code Reporter* (Master Transmittal Sheet No. 150, May 1987), and as currently appearing in the *Pennsylvania Code*. The official text omitted the exponent “6” in the heading to the table in subsection (e)(5)(iii).

Therefore, under 45 Pa.C.S. § 901: The Department of Environmental Protection has deposited with the Legislative Reference Bureau a corrective amendment to 25 Pa. Code § 123.22. The corrective amendment to 25 Pa. Code § 123.22 is effective May 9, 1987, the date the defective official text was announced in the *Pennsylvania Bulletin*.

The correct version of 25 Pa. Code § 123.22(e) appears in Annex A, with ellipses referring to the existing text of the regulations.

(e) *Southeast Pennsylvania air basin.* Combustion units in the Southeast Pennsylvania air basin must conform with the following:

(1) *General provision.* A person may not permit the emission into the outdoor atmosphere of sulfur oxides, expressed as SO₂, from a combustion unit except as provided in paragraph (3) or (5), in excess of the applicable rate in pounds per million Btu of heat input specified in the following table:

<i>Rated Capacity of Units in 10⁶ Btus per hour</i>	<i>Inner Zone</i>	<i>Outer Zone</i>
Less than 250	1.0	1.2
Greater than or equal to 250	0.6	1.2

(2) *Commercial fuel oil.*

(i) Except as specified in subparagraphs (ii) and (iii), a person may not offer for sale, deliver for use, exchange in trade or permit the use of commercial fuel oil in a combustion unit in the Southeast Pennsylvania air basin if the commercial fuel oil contains sulfur in excess of the applicable maximum allowable sulfur content set forth in the following tables:

<i>Grades of Commercial Fuel Oil</i>	<i>Maximum Allowable % Sulfur by Weight through June 30, 2016</i>	
	<i>Inner Zone</i>	<i>Outer Zone</i>
No. 2 and lighter (viscosity less than or equal to 5.82cSt)	0.2	0.3
No. 4, No. 5, No. 6 and Heavier (viscosity greater than 5.82cSt)	0.5	1.0

No. 2 and lighter oil	500 ppm	(0.05%)
No. 4 oil	2,500 ppm	(0.25%)
No. 5, No. 6 and heavier oil	5,000 ppm	(0.5%)

(ii) Commercial fuel oil that was stored in this Commonwealth by the ultimate consumer prior to July 1, 2016, which met the applicable maximum allowable sulfur content for commercial fuel oil through June 30, 2016, in subparagraph (i) at the time it was stored, may be used by the ultimate consumer in this Commonwealth on and after July 1, 2016.

(iii) Beginning July 1, 2016, the Department may temporarily suspend or increase the applicable maximum allowable sulfur content for a commercial fuel oil set forth in subparagraph (i) if the following occur:

(A) The Department receives a written request at the address specified in subsection (h) for a suspension or increase on the basis that compliant commercial fuel oil is not reasonably available in the subject air basin. The request must include both of the following:

(I) The reason compliant commercial fuel oil is not reasonably available.

(II) The duration of time for which the suspension or increase is requested and the justification for the requested duration.

(B) The Department determines that an insufficient quantity of compliant commercial fuel oil is reasonably available in the air basin and that the circumstances leading to the insufficiency are due to events that could not have been reasonably foreseen or prevented and are not due to lack of prudent planning on the part of the transferor of the commercial fuel oil into or within the air basin.

(C) The Department approves the request, in writing, prior to the transferor distributing the noncompliant commercial fuel oil into or within the air basin.

(iv) The Department will limit a suspension or increase in the applicable maximum allowable sulfur content granted under subparagraph (iii) to the shortest duration in which adequate supplies of compliant commercial fuel oil can be made reasonably available, but in no case longer than 60 days from the date the Department grants the suspension or increase.

(3) *Noncommercial fuels.* A person may not permit the emission into the outdoor atmosphere of sulfur oxides, expressed as SO₂, from a combustion unit using a noncommercial fuel, in excess of the rate of 0.6 pound per million Btu of heat input in the inner zone or 1.2 pounds per million Btu of heat input in the outer zone.

(4) *Equivalency provision.* Paragraph (2) does not apply to a person who uses equipment or a process, or to the owner or operator of an installation where equipment or a process is used, to reduce the sulfur emissions from the burning of a fuel with a higher sulfur content than that specified in paragraph (2). The emissions may not exceed those which would result from the use of commercial fuel oil that meets the applicable maximum allowable sulfur content specified in paragraph (2).

(5) *Solid fossil fuel fired combustion units.* Solid fossil fuel fired combustion units shall conform with the following:

(i) This paragraph applies to all solid fossil fuel fired combustion units with a rated capacity greater than or equal to 250 million Btus of heat input per hour and to any solid fossil fuel fired combustion unit upon petition to and acceptance by the Department.

(ii) The owner of any solid fossil fuel fired combustion unit with a rated capacity of less than 250 million Btu heat input per hour may petition the Department for application of the limitations in this paragraph in lieu of the limitations in paragraph (1). Upon demonstration of installation of continuous monitoring equipment which complies with Chapter 139, the Department will grant the petition.

(iii) No person may permit the emission into the outdoor atmosphere of sulfur oxides, expressed as SO₂, from any combustion unit in excess of the applicable rate in pounds per million Btu of heat input specified in the following table:

	<i>Rated Capacity of Unit in 10⁶ Btus per Hour</i>

Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

STATE BOARD OF MEDICINE [49 PA. CODE CHS. 16 AND 18] Athletic Trainers

The State Board of Medicine (Board) amends §§ 16.11, 16.13 and 18.501—18.511 to read as set forth in Annex A.

Effective Date

This final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin*.

Statutory Authority

The final-omitted rulemaking is required to implement the act of December 22, 2011 (P. L. 572, No. 124) (Act 124). Section 51.1(d) of the Medical Practice Act of 1985 (act) (63 P. S. § 422.51a(d)) authorizes the Board and the State Board of Osteopathic Medicine to jointly promulgate regulations regarding athletic trainers. Additionally, section 8 of the act (63 P. S. § 422.8) authorizes the Board to adopt regulations reasonably necessary to carry out the purposes of the act.

Omission of Proposed Rulemaking

Under section 204 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. § 1204), known as the Commonwealth Documents Law (CDL), the Board is authorized to omit the procedures for proposed rulemaking in sections 201 and 202 of the CDL (45 P. S. §§ 1201 and 1202) if the Board finds that the specified procedures are impracticable, unnecessary or contrary to the public interest.

In this instance, the procedures for proposed rulemaking are unnecessary. The final-omitted rulemaking tracks the amendments in Act 124, changing “certified” to “licensed” athletic trainers and defines the term “licensed athletic trainer” as defined in Act 124. Furthermore, section 4 of Act 124 provides that references in the current regulations referring to certification or certified athletic trainers are deemed to be references to licensure or licensed athletic trainers. Because the final-omitted rulemaking does not change or interpret the statutory language in any way, notice of proposed rulemaking is unnecessary. The Board is updating the regulations to be consistent with the act.

Background and Need for Amendment

Act 124 amended the act by replacing references to “certified” athletic trainers with references to “licensed” athletic trainers. The Board is amending its regulations to conform to the act.

Description of Amendments

“Athletic trainer license” and “biennial registration of athletic trainer license” are added to the list of licenses the Board issues under § 16.11(b) and (c) (relating to licenses, certificates and registrations).

The Board is adding “license” to § 16.13(h) (relating to licensure, certification, examination and registration fees) and amends the reference to “application for certification” to “application” to conform subsection (h) to the format of this section.

The remaining changes are to Chapter 18, Subchapter H (relating to athletic trainers). The Board is changing

“certification” to “licensure,” “certified” to “licensed” and “certificate” to “license” throughout the subchapter.

Section 18.502 (relating to definitions) is amended to replace the definition of “certified athletic trainer” with a definition of “licensed athletic trainer.” In § 18.503 (relating to licensure requirement), the abbreviations used by certified athletic trainers, “A.T.C” and “C.A.T.,” are replaced with those used by licensed athletic trainers, “A.T.L.” and “L.A.T.” In addition, § 18.503(c) is deleted because Act 124 deleted section 51.1(b) of the act, which provided a transitional rule for athletic trainers formerly licensed under the Physical Therapy Practice Act (63 P. S. §§ 1301—1313).

In §§ 18.506 and 18.507 (relating to examination requirement; and temporary licensure), the Board is deleting “certification” to refer simply to the Board of Certification, Inc. examination, which is the examination required for licensure.

When the regulations refer to athletic trainers in other states, “certified” and “licensed” are used because some states still use the term “certified” to refer to athletic trainers. Therefore, both terms appear in § 18.503(b)(1) because athletic trainers from other states may be in this Commonwealth on a visiting basis. Likewise, in § 18.509(a) and (b) (relating to practice standards for athletic trainers), athletic trainers from other states may be in this Commonwealth working with an out-of-State team.

Fiscal Impact

This final-omitted rulemaking will not have fiscal impact on the Commonwealth, the general public or political subdivisions.

Paperwork Requirements

This final-omitted rulemaking does not create additional paperwork for the Board, the Board’s licensees or the general public.

Sunset Date

The Board continuously monitors its regulations. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P. S. § 745.5a(c)), on March 4, 2013, the Board submitted a copy of the final-omitted rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC) and the House Professional Licensure Committee (HPLC). On the same date, the regulations were submitted to the Office of Attorney General for review and approval under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506).

Under section 5.1(j.2) of the Regulatory Review Act, on April 3, 2013, the final-omitted rulemaking was deemed approved by the HPLC and the SCP/PLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on April 4, 2013, and approved the final-omitted rulemaking.

Additional Information

For additional information about the final-omitted rulemaking, contact Teresa Lazo, Board Counsel, State Board of Medicine, P. O. Box 2649, Harrisburg, PA 17105-2649, (717) 783-7200, tlazo@pa.gov. When requesting additional information, reference No. 16A-4936 (athletic trainers).

Findings

The Board finds that:

(1) Notice of the Board's intention to amend its regulations under the procedures in sections 201 and 202 of the CDL has been omitted under the authority of section 204 of the CDL because public comment is unnecessary due to the fact that this final-omitted rulemaking is limited to implementing statutory requirements and it does not interpret the act or make other changes not authorized under the act.

(2) The amendment of the Board's regulations in the manner provided in this order is necessary and appropriate for the administration of the act.

Order

The Board, acting under its authorizing statute, orders that:

(a) The regulations of the Board, 49 Pa. Code Chapters 16 and 18, are amended by amending §§ 16.11, 16.13 and 18.501—18.511 to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.

(b) The Board shall submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for approval as to form and legality as required by law.

(c) The Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the Pennsylvania Bulletin.

Chairperson

(b) Biennial renewal forms and other forms and literature to be distributed by the Board will be forwarded to the last mailing address given to the Board.

(c) To retain the right to engage in practice, the licensee shall renew licensure in the manner prescribed by the Board and pay the required fee prior to the expiration of the next biennium.

(d) When a license is renewed after December 31 of an even-numbered year, a penalty fee of \$5 for each month or part of a month of practice beyond the renewal date will be charged in addition to the renewal fee as set forth in section 225 of the Bureau of Professional and Occupational Affairs Fee Act (63 P. S. § 1401-225).

(e) As a condition of renewal, a licensee shall comply with the continuing education requirements in § 18.511 (relating to continuing education).

(5) Consult promptly with the referring physician, dentist or podiatrist regarding a new ailment or condition or a worsened ailment or condition of the physically active person.

(6) Consult with the referring physician, dentist or podiatrist upon request of either the referring physician, dentist or podiatrist or the physically active person.

(7) Refer a physically active person with conditions outside the scope of athletic training services to a licensed physician, dentist or podiatrist.

(b) Athletic trainers licensed by the Board or certified or licensed by the proper licensing authority of another state, province, territory or the District of Columbia who are working in a team setting, treating injuries which arise in the course of practices or team sports events, may treat the participant at the events under the conditions of the referral, or the standing written prescription or written protocol.

(c) An athletic trainer shall obtain the standing written prescription or protocol annually from the supervising physician and review it at least annually. The standing

written prescription or written protocol shall be retained at or near the treatment location or facility. An individual referral or prescription from a referring physician, dentist or podiatrist is required in the absence of a standing written prescription or written protocol.

§ 18.510. Refusal, suspension or revocation of license.

(a) The Board may refuse to issue a license, and after notice and hearing, may suspend or revoke the license of a person who is subject to disciplinary action under section 41 of the act (63 P. S. § 422.41) as set forth in § 16.61 (relating to unprofessional and immoral conduct).

(b) Actions taken by the Board regarding the refusal, suspension or revocation of a license are taken subject to the right of notice, hearing and adjudication and appeal under 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law).

**STATE BOARD OF MEDICINE
[49 PA. CODE CH. 18]
Certified Registered Nurse Practitioners**

The State Board of Medicine (Board) rescinds Chapter 18, Subchapter C to read as set forth in Annex A.

Effective Date

The final-omitted rulemaking will be effective upon publication in the *Pennsylvania Bulletin*.

Statutory Authority

The amendments are authorized under section 8 of the Medical Practice Act of 1985 (act) (63 P. S. § 422.8) and sections 2.1(k) and (l) and 8.1—8.3 of The Professional Nursing Law (nursing act) (63 P. S. §§ 212.1(k) and (l) and 218.1—218.3).

Background and Purpose

The Board and the State Board of Nursing jointly promulgated regulations regarding certified registered nurse practitioner (CRNP) practice at 30 Pa.B. 5943 (November 18, 2000) under section 15 of the act (63 P. S. § 422.15) that provided for joint regulation of CRNPs by the Board and the State Board of Nursing. Section 15 of

the act was repealed by the act of December 9, 2002 (P. L. 1567, No. 206) (Act 206). The nursing act was amended by Act 206 to provide that the State Board of Nursing would have exclusive jurisdiction over the regulation of CRNPs. The nursing act was further amended by the act of July 20, 2007 (P. L. 318, No. 48) (Act 48). The State Board of Nursing's final-form rulemaking implementing Act 206 and Act 48 was published at 39 Pa.B. 6994 (December 12, 2009).

Because the statutory authority under which the Board regulated the practice of CRNPs was repealed and the State Board of Nursing has adopted regulations which take the place of the jointly promulgated regulations, the Board is rescinding the regulations related to CRNPs.

Omission of Proposed Rulemaking

Under section 204 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. § 1204), known as the Commonwealth Documents Law (CDL), the Board is authorized to omit the procedures for proposed rulemaking in sections 201 and 202 of the CDL (45 P. S. §§ 1201 and 1202) if the Board finds that the criteria in section of the CDL are met.

The Board's regulations were jointly promulgated under statutory authority that has been repealed to specifically provide that the State Board of Nursing has the sole authority to regulate the practice of CRNPs. Under authority of section 204(3) of the CDL, the Board finds that proposed rulemaking may be omitted as unnecessary because these amendments merely conform the Board's regulations to the applicable statutes by deleting outdated regulations.

Description of Amendments

The Board is rescinding Chapter 18, Subchapter C.

Fiscal Impact

The final-omitted rulemaking will not have fiscal impact on the Board, its licensees, the private sector, the general public or political subdivisions.

Paperwork Requirements

The final-omitted rulemaking will not create additional paperwork for the Board, its licensees, the private sector, the general public or political subdivisions.

Sunset Date

The Board continuously monitors the effectiveness of its regulations. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P. S. § 745.5a(c)), on March 4, 2013, the Board submitted a copy of the final-omitted rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC) and the House Professional Licensure Committee (HPLC). On the same date, the regulations were submitted to the Office of Attorney General for review and approval under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506).

Under section 5.1(j.2) of the Regulatory Review Act, on April 3, 2013, the final-omitted rulemaking was deemed approved by the HPLC and the SCP/PLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on April 4, 2013, and approved the final-omitted rulemaking.

Additional Information

For additional information about the final-omitted rulemaking, submit inquiries to Teresa Lazo, Counsel, State Board of Medicine, P. O. Box 2649, Harrisburg, PA 17105-2649, (717) 783-7200.

Findings

The Board finds that:

(1) Public notice of the Board's intention to amend its regulations under the procedures in sections 201 and 202 of the CDL has been omitted under the authority of section 204 of the CDL because public comment is unnecessary in that individuals are not adversely affected by this final-omitted rulemaking that deletes regulations promulgated under the authority of a repealed statute.

(2) The amendment of the Board's regulations in the manner provided in this order is necessary and appropriate for the administration of the act.

Order

The Board, acting under its authorizing statute, orders that:

(a) The regulations of the Board, 49 Pa. Code Chapter 18, are amended by deleting §§ 18.21, 18.22, 18.31, 18.41, 18.42, 18.51—18.57, 18.61—18.64, 18.71, 18.81, 18.91, 18.101 and 18.111 as set forth in Annex A.

(b) The Board shall submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for approval as to form and legality as required by law.

(c) The Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

Chairperson

STATE BOARD OF OSTEOPATHIC MEDICINE

[49 PA. CODE CH. 25]

Athletic Trainers

The State Board of Osteopathic Medicine (Board) amends §§ 25.1, 25.231 and 25.701—25.711 to read as set forth in Annex A. This final-omitted rulemaking conforms the Board's regulations to the amendments to the Osteopathic Medical Practice Act (act) (63 P.S. §§ 271.1—271.18) under the act of December 22, 2011 (P.L. 567, No. 123) (Act 123).

Effective Date

The final-omitted rulemaking will be effective upon publication in the *Pennsylvania Bulletin*.

Statutory Authority

This final-omitted rulemaking is mandated by the Act 123 amendments to sections 2 and 7.1 of the act (63 P.S. §§ 271.2 and 271.7a). Furthermore, section 16 of the act (63 P.S. § 271.16) authorizes the Board to adopt and revise regulations reasonably necessary to carry out the purposes of the act.

Omission of Proposed Rulemaking

Under section 204(3) of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. § 1204(3)), known as the Commonwealth Documents Law (CDL), the Board may omit the procedures for proposed rulemaking in sections 201 and 202 of the CDL (45 P.S. §§ 1201 and 1202) if the Board for good cause finds that the specified procedures are impracticable, unnecessary or contrary to the public interest. The Board finds for good cause that publication of this rulemaking as proposed is unnecessary because the regulations are limited to implementing the statutory requirements. This rulemaking does not interpret the act or make changes not contained in Act 123. The Board is required to promulgate these regulations. Therefore, the procedures for making comments are unnecessary.

Background and Need for Final-Omitted Rulemaking

Act 123 amended the act to delete references to “certified” athletic trainers and replace them with “licensed” athletic trainers. Furthermore, Act 123 defined the term “licensed athletic trainer,” which appears in § 25.702 (relating to definitions).

The significance of changing “certified” to “licensed” is explained on the web site of the National Athletic Trainer Association Board of Certification, Inc. (BOC). In addition to the information provided in the definition of “BOC” in § 25.702, the BOC was incorporated in 1989 to provide a certification program for entry-level athletic trainers. The BOC establishes and regularly reviews both the standards for the practice of athletic training and the continuing education requirements for BOC certified athletic trainers. The BOC has the only accredited certification program for athletic trainers in the United States and also administers the BOC certification examination for athletic trainers. On the BOC's web site, www.bocatc.org, the BOC defines and distinguishes between “licensure” and “certification” under frequently asked questions about state regulation. The BOC defines “licensure” as “the most restrictive form of professional and occupational regulation. Licensure is often referred to as right-to-practice. Under licensure laws, it is illegal for a person to practice a profession without first meeting state standards.” The BOC defines “certification” as the status under which “the state grants title protection (right-to-title) to persons meeting predetermined standards. Those

without certification may perform the duties of the occupation, but may not use the title.” In this Commonwealth, “licensure” is the appropriate term applying to athletic trainers.

Description of Final-Omitted Rulemaking

“Board-regulated practitioner” is defined in section 2 of the act. As with other definitions, Act 123 changed “certified” to “licensed” in this definition. Although the definition of “Board-regulated practitioner” is in section 2 of the act, it was not previously in § 25.1 (relating to definitions). Because the definition of “Board-regulated practitioner” makes reference to an osteopathic physician, a physician assistant, a respiratory therapist and an athletic trainer as well as an applicant for a license or certificate issued by the Board, this definition is added to § 25.1 because its application to various licensees applies to many regulations in Chapter 25. To implement section 2 of the act, “licensed athletic trainer” is used in this definition.

In § 25.231 (relating to schedule of fees), “application for athletic trainer certification” is amended to “application for athletic trainer license” to follow Act 123.

In § 25.701 (relating to purpose), “certification” is changed to “licensure.”

In § 25.702, definitions in section 2 of the act were followed by changing “certified” to “licensed” in the definitions of “athletic training services,” “direction,” “referral” and “written protocol.” Furthermore, because Act 123 deleted the definition of “certified athletic trainer,” this definition is deleted from § 25.702. In similar fashion, because Act 123 added the definition of “licensed athletic trainer,” the Board also added this definition.

The heading of § 25.703 (relating to licensure requirement) is amended from “certification requirement” to “licensure requirement” to follow Act 123. Likewise, to track the statutory mandate in section 7.1(c) of the act, in subsection (a) references to certified athletic trainers have been updated to “licensed athletic trainer,” “A.T.L.” and “L.A.T.”

In § 25.703, “certified” is updated to “licensed.” In § 25.703(b)(1), “certified” is not deleted because other medical professionals, such as physician assistants, are certified by the Board and “certification” appears in Subchapter C (relating to physician assistant provisions). Section 25.703(c) is deleted because there are no more athletic trainers with licenses or certificates from the State Board of Physical Therapy and the former regulation grandfathering certificateholders under the Physical Therapy Practice Act (63 P.S. §§ 1301—1313) prior to July 14, 2007, no longer applies. In § 25.703(d), “athletic training certificateholders” is replaced with “athletic trainers licensed to practice” because it refers to athletic trainers licensed by the Board and section 7.1(b.1)(1) of the act contains a cross reference to athletic trainers licensed by the State Board of Medicine.

The title of § 25.704 (relating to application for licensure) is amended by replacing “certification” with “licensure.” In § 25.704(b), “licensure” is updated to “certification.”

In § 25.705 (relating to educational requirements), “licensure” is updated to “certification.” Because the BOC only issues credentials for certified athletic trainers, the Board did not change the title to licensed athletic trainer in § 25.705(2). Because the BOC only issues credentials for certified athletic trainers, the Board did not change

that title to licensed athletic trainer in § 18.505(2) (relating to educational requirements).

In § 25.706 (relating to examination requirement), “certificate” is updated to “license” and “certified” to “licensed.” Because the BOC administers the certification examination for athletic trainers, the Board did not change “certification examination” in this section or in § 25.707 (relating to temporary licensure).

In the heading of § 25.707, “certification” is updated to “licensure.” Likewise, the following substitutions are made: “certificate” to “license;” “certified” to “licensed;” and “certification” to “license” or “licensure,” as appropriate.

In the heading of § 25.708 (relating to renewal of license), “certificate” is updated to “license.” Throughout this section, the following substitutions are made: “certificate” or “certificates” to “license” or “licenses;” “certificate-holder” to “licensee;” and “certification” to “license.”

In § 25.709 (relating to practice standards for athletic trainers), after changing “certified” to “licensed,” the words “certified or licensed” are added in subsections (a) and (b) because, according to the BOC, some states still use “certified” to refer to athletic trainers. Therefore, to encompass athletic trainers in states that certify or license athletic trainers, the Board uses both terms. As noted in § 25.703(b)(2), athletic trainers from other states may be in this Commonwealth on a visiting basis, so it is appropriate to encompass athletic trainers who are either certified or licensed. Also, in § 18.509(b) (relating to practice standards for athletic trainers), an athletic trainer may be in this Commonwealth if the athletic trainer is working in a team setting, so the Board uses both terms “certified or licensed.”

In §§ 25.710 and 25.711 (relating to refusal, suspension or revocation of license; and continuing education), “certificate” is changed to “license” throughout these sections when appropriate.

Fiscal Impact

The final-omitted rulemaking should not have fiscal impact on the Commonwealth, the general public or political subdivisions.

Paperwork Requirements

The final-omitted rulemaking does not create additional paperwork for the Board, the Board’s licensees or the general public.

Sunset Date

The Board continuously monitors its regulations. Therefore, a sunset date has not been assigned.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P. S. § 745.5a(c)), on March 4, 2013, the Board submitted a copy of the final-omitted rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC) and the House Professional Licensure Committee (HPLC). On the same date, the regulations were submitted to the Office of Attorney General for review and approval under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506).

Under section 5.1(j.2) of the Regulatory Review Act, on April 3, 2013, the final-omitted rulemaking was deemed approved by the HPLC and the SCP/PLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on April 4, 2013, and approved the final-omitted rulemaking.

Additional Information

For additional information about the final-omitted rulemaking, contact Regulatory Unit Counsel, Department of State, P. O. Box 2649, Harrisburg, PA 17105-2649, (717) 783-7200, st-osteopathic@pa.us. When submitting questions, reference No. 16A-5325 (athletic trainers).

Findings

The Board finds that:

(1) Public notice of the Board’s intention to amend its regulations under the procedures in sections 201 and 202 of the CDL has been omitted under the authority of section 204 of the CDL because public comment is unnecessary due to the fact that this rulemaking is limited to implementing the statutory requirements and does not interpret the act or make other changes not contained in Act 123.

(2) The amendment of the Board’s regulations in the manner provided in this order is necessary and appropriate for the administration of the act.

Order

The Board, acting under its authorizing statute, orders that:

(a) The regulations of the Board, 49 Pa. Code Chapter 25, are amended by amending §§ 25.1, 25.231 and 25.701—25.711 to read as set forth in Annex A, with ellipses referring to the existing text of the regulations.

(b) The Board shall submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for approval as to form and legality as required by law.

(c) The Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

The licensee shall complete the renewal application and return it to the Board with a renewal fee before December 31 of the year in which the application was received. Licenses other than temporary

licenses expire on December 31 of each even-numbered year. Upon receipt of an application and renewal fee, the Board will verify the accuracy of the application and issue to the applicant a license of renewal for the next biennial period.

(b) When a license is renewed after December 31 of an even-numbered year, a penalty fee of \$5 for each month or part of a month of practice beyond the renewal date will be charged in addition to the renewal fee, as set forth in section 225 of the Bureau of Professional and Occupational Affairs Fee Act (63 P. S. § 1401-225).

(c) As a condition of renewal, a licensee shall comply with the continuing education requirements in § 25.711 (relating to continuing education).

§ 25.709. Practice standards for athletic trainers.

(a) Athletic trainers licensed by the Board or certified or licensed by the proper licensing or certification authority of another state, province, territory or the District of Columbia shall comply with the following:

(4) Keep a copy of the referral or prescription and the results of the medical diagnostic examination in the physically active person's file.

(5) Consult promptly with the referring physician, dentist or podiatrist regarding a new ailment or condition or a worsened ailment or condition of the physically active person.

(b) Athletic trainers licensed by the Board or certified or licensed by the proper licensing authority of another state, province, territory or the District of Columbia who are working in a team setting, treating injuries which arise in the course of practices or team sports events, may treat the participant at the events under the conditions of the referral, the standing written prescription or written protocol.

(c) An athletic trainer shall obtain the standing written prescription or written protocol annually from the supervising physician and review it at least annually. This standing written prescription or protocol must be in writing and retained at or near the treatment location or facility. An individual referral or prescription from a referring physician, dentist or podiatrist is required in the absence of a written protocol.

§ 25.710. Refusal, suspension or revocation of license.

PROPOSED RULEMAKINGS

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 421a, 421b, 439a, 465a, 481a,
501a, 503a, 503b, 513a, 603a AND 633a]

Gaming Junket Enterprises, Accounting and Internal Controls, Compulsive and Problem Gambling, Self-Exclusion, Underage Gaming, Equipment, Blackjack

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(15) and (30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. §§ 1207(2), (5), (8) and (9), 1212, 13A02(2), 13A26(c), 1509, 1516, 1518(a)(13) and 1602, proposes to rescind Chapters 421b and 503b (relating to advertising guidelines—statement of policy; and disclosure of information related to persons on the self-exclusion list—statement of policy) and amend Chapters 421a, 439a, 465a, 481a, 501a, 503a, 513a, 603a and 633a to read as set forth in Annex A.

Purpose of the Proposed Rulemaking

This proposed rulemaking will transition Chapters 421b and 503b into regulations, allow for the conditional licensure of gaming junket enterprises, amend the procedure for removal from the exclusion list for individuals whose period of voluntary exclusion has concluded, add a procedure for the possible removal of an individual's name from the lifetime exclusion list, update several provisions to reflect the other forms of cash equivalents used by licensed facilities and add an additional payable to an already existing side wager in Blackjack.

Advertising

Section 421a.6 (relating to advertising) is proposed to be rescinded as these requirements belong in Chapter 501a (relating to compulsive and problem gambling requirements). These provisions are proposed to be added in § 501a.7 (relating to advertising). Additionally, the statements of policy §§ 421b.1—421b.4 are proposed to be deleted and the requirements added to proposed § 501a.7. Section 501a.7 provides guidelines regarding the gambling assistance message that must be on gaming related advertising.

Conditioned licensure for gaming junket enterprises

Proposed § 439a.6b (relating to conditional licenses) contains provisions for a conditioned license awarded to gaming junket enterprises provided that certain criteria are satisfied including the following: agreements are submitted to the Board; the gaming junket enterprise is licensed or otherwise credentialed in good standing in a gaming jurisdiction that the Board has determined has licensing standards that are as comprehensive and thorough and provide similar safeguards as those required under 4 Pa.C.S. Part II (relating to gaming); and the applicant has passed a preliminary review for criminal history.

Internal controls

In § 465a.20 (relating to personal check cashing), provisions are proposed to be added prohibiting a licensee or an entity certified or registered with the Board that is operating within a licensed facility from accepting checks

made payable to an individual such as Social Security, unemployment, public assistance checks, and the like. Notwithstanding the prohibition, a licensee may cash a payroll check of one of its employees or a check issued to a patron by the licensee. This provision was added as an employee convenience and to allow a licensee to cash its own check made payable to a patron who won a jackpot payout.

The prohibition on check cashing that was moved into § 465a.20 was previously in § 501a.6 (relating to check cashing). Section 501a.6 is proposed to be rescinded as the provisions more logically belong in Chapter 465a (relating to accounting and internal controls). Cross references to § 501a.6 are proposed to be deleted from § 465a.20 and §§ 465a.21 and 465a.22 (relating to wire transfers; and cash equivalents).

Section 465a.26(b)(2) (relating to jackpot and credit meter payouts) currently requires that two individuals be present to sign off on a jackpot payout greater than \$1,200 but less than \$9,999.99. This proposed rulemaking would allow operators to utilize only one individual instead of two for credit meter payouts less than \$5,000 provided that both the facility's casino management system and the central control computer system are fully operational. This should reduce the number of personnel required to sign off on a majority of jackpot payouts that occur on a daily basis.

Diversity

Chapter 481a (relating to diversity) is proposed to be amended to reflect that the Bureau of Small Business Opportunities (formerly the Bureau of Minority and Women's Business Enterprises) verifies that a business is minority or women's business enterprise. Proposed amendments to § 481a.6 (relating to diversity reviews) reflect that Board staff conducts diversity reviews, not audits. This technical revision was made for consistency with 4 Pa.C.S. § 1212(b) (relating to diversity goals of board).

Compulsive and problem gambling

As previously mentioned, the advertising requirements currently in § 421a.6 and Chapter 421b are included in proposed § 501a.7.

The definition of "advertising" is proposed to be added to § 501a.1 (relating to definitions). Redundant language in § 501a.2(i) (relating to compulsive and problem gambling plan) is proposed to be deleted and a cross reference to the requirements in subsections (g) and (h) is proposed to be added.

Proposed § 501a.3(b) (relating to employee training program) requires that training materials be updated annually to include the most current research on responsible and problem gambling. The remaining subsections are proposed to be renumbered.

A signage requirement is proposed to be added to § 501a.5(a) (relating to signage requirements) to reflect 4 Pa.C.S. § 1509(c) (relating to compulsive and problem gambling program). References to advertisements are proposed to be deleted from this section as advertising requirements are addressed in proposed § 501a.7.

Self-exclusion

In § 503a.1 (relating to definitions), language is proposed to be added to the definitions of "fully executed

gaming transaction” and “self-exclusion list” to reflect that gaming activity may also be conducted in locations off the gaming floor. The same language is proposed to be added throughout Chapter 503a (relating to self-exclusion) to reflect this change. A definition of “gaming activity” is proposed to be added and the definition of “gaming related activity” is proposed to be amended in § 503a.1.

In § 503a.2 (relating to request for self-exclusion), the cross reference in subsection (c) is proposed to be corrected.

In subsection (e)(5), language is proposed to be added specifying that a self-excluded individual’s gambling winnings will be subject to confiscation to support compulsive and problem gaming programs. Confiscation is consistent with 4 Pa.C.S. § 1516(a) (relating to list of persons self excluded from gaming activities). The confiscation of winnings language will also be included in the waiver individuals are required to sign to be placed on the exclusion list as specified in subsection (e)(6)(iii).

Section 503a.4(a) (relating to duties of slot machine licensees) is proposed to be amended for clarity and to delete unnecessary language. Subsection (a)(2) is proposed to be deleted as it is redundant with proposed subsection (a)(1)(iii). The remaining subsections are proposed to be renumbered. Subsection (a)(7) (proposed subsection (a)(6)) currently requires licensees to disseminate self-exclusion program materials but does not provide guidelines for licensees to ensure compliance. This paragraph is proposed to be amended to require licensees to “make available” information on the self-exclusion program. This proposed amendment is consistent with § 609a.12(f) (relating to duties of certificate holders).

In subsection (e), redundant language is proposed to be deleted and replaced with a cross reference to the submission and approval process in subsections (c) and (d).

In § 503a.5 (relating to removal from self-exclusion list), the removal process for individuals whose term of voluntary exclusion has concluded is proposed to be amended and a procedure for the possible removal of an individual’s name from the exclusion list when then individual has signed up for lifetime exclusion is proposed to be added.

Currently, once an individual’s period of exclusion has concluded (those with a 1-year or 5-year term), the individual can schedule an appointment and at the appointment time submit a Request for Removal form. The individual is then required to schedule another appointment and return a second time to sign the form. Requiring individuals to come back to the Board’s Harrisburg office or a regional office in Pittsburgh, Conshohocken and Scranton on two separate occasions can present substantial challenges to those individuals who live some distance from a Board office. Therefore, individuals whose term of voluntary exclusion has expired will be required to schedule only one appointment to be removed from the voluntary list once their period of exclusion has ended. Additionally, the Office of Compulsive and Problem Gambling may now approve an alternative location to complete the removal process if circumstances, such as geographical distance, warrant the use of an alternative location. Alternative locations can be discussed with the Director of the Office of Compulsive and Problem Gambling when the self-excluded individual schedules an appointment to be removed from the list.

This chapter also includes a proposed mechanism by which an individual who has signed up for lifetime exclusion may be removed from the list. An individual who has signed up for lifetime exclusion may petition the Board for removal from the list; however, the individual will be prohibited from petitioning for removal for a period of 10 years from the date the individual was placed on the list.

To petition the Board, the self-excluded person shall comply with the general petition requirements in § 493a.4 (relating to petitions generally) and must include affidavits supporting the individual’s removal from the list. The petition must state the specific grounds believed by the petitioner to constitute good cause as to why the individual’s name should be removed from the lifetime self-exclusion list. The Board may deny the petition, grant the petition or refer the matter to a hearing officer to develop the evidentiary record.

In subsection (d) (proposed subsection (e)), the time period for the Board and licensees to remove the name of a self-excluded person is proposed to be amended from 5 to 15 business days. After an individual completes the process to be removed from the self-exclusion list, the Board will update the database, provide notice to the licensees and the licensees shall update their in-house databases. Based on the Board’s experience to date, 15 business days will provide adequate time to the Board and slot machine licensees to complete the administrative process of removing the individual’s information from all databases. This additional time should also ensure that individuals who have completed the removal process are not inadvertently ejected from a licensed facility and charged with criminal trespass.

Proposed § 503a.7 (relating to disclosure of information related to persons on the self-exclusion list) specifies the type of general information that the Board may disclose publicly. In accordance with 4 Pa.C.S. § 1516(d), detailed information regarding an individual on the list is deemed confidential and will not be publically disclosed.

Underage gaming

Proposed amendments to Chapter 513a (relating to underage gaming) add additional requirements to ensure the exclusion of underage individuals from gaming and gaming related activities. Slot machine licensees are required to train their employees and establish procedures to identify underage individuals, refuse gaming related activities to minors, including check cashing and to notify the onsite casino compliance representatives and the Pennsylvania State Police if an underage individual is discovered on the gaming floor or areas off the gaming floor where contests or tournaments are conducted.

In § 513a.4 (relating to signage requirements), the underage prohibition language is proposed to be updated to add specificity on the type of activity that an underage individual is prohibited from engaging in and to reflect that gaming activity now includes the play of not only slot machines but also table games.

Table gaming equipment

Proposed amendments to § 603a.12 (relating to dice; physical characteristics) require that dice used in an automated Sic Bo must be a 0.625 inch cube with ball edge corners. These size specifications ensure a proper tumble of the dice in the automated Sic Bo shaker.

Blackjack

A payout table is proposed to be added to § 633a.13(k) (relating to payout odds; payout limitation) for winning Three Card Poker wagers.

Affected Parties

Slot machine licensees, gaming junket enterprises and individuals who are currently on the voluntary self-exclusion list or may request placement on the list will be affected by this proposed rulemaking.

Fiscal Impact

Commonwealth. The Board does not expect that this proposed rulemaking will have fiscal impact on the Board or any other Commonwealth agency. Updates to internal control procedures or training materials regarding compulsive and problem gambling submitted by licensees will be reviewed by Board staff.

Political subdivisions. This proposed rulemaking will not have fiscal impact on political subdivisions of this Commonwealth.

Private sector. Slot machine licensees will be required to comply with the requirements in this proposed rulemaking and may need to submit updated internal control procedures and training materials regarding compulsive and problem gambling. However, licensees have already been complying with requirements in the statements of policy. Therefore, it is not anticipated that this proposed rulemaking will have a negative fiscal impact on the licensees.

With respect to the amendment to the number of individuals required for jackpot credit meter payouts, the licensees may see a slight cost savings as licensees will only need one individual instead of two to perform a majority of the credit meter payouts during the gaming day.

General public. This proposed rulemaking will not have fiscal impact on the general public.

Paperwork Requirements

If a certificate holder selects different options for the play of table games, the certificate holder will be required to submit an updated rules submission reflecting the changes. These forms are available and submitted to the Board electronically.

Additionally, licensees will be required to update their compulsive and problem gambling training annually to include current research and information. This information is submitted electronically to the Director of the Office of Compulsive and Problem Gambling.

Effective Date

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Referendum on Continuation of the Pennsylvania Vegetable Marketing and Research Program

Under the applicable provisions of 3 Pa.C.S. Chapter 45 (relating to Agricultural Commodities Marketing Act), a review referendum was held from March 4 to March 18, 2013, to determine if the producers affected by the Pennsylvania Vegetable Marketing and Research Program (program) desired to continue the program for an additional 5 years. To pass, a majority of eligible producers voting had to vote in favor of the program's continuation. An impartial Teller Committee met on March 27, 2013, to count the ballots. The following results were submitted by the Teller Committee: a total of 466 eligible votes were cast with 396 producers voting in favor of and 70 voting against the continuation of the program. An additional eight ballots were invalid because five were not signed and three were postmarked and received after the deadline. Votes favoring continuation of the program by number of producers represented 85% of eligible votes and votes against continuation of the program represented 15% of eligible votes. Because a majority of the votes were cast in favor of the program, the program shall continue for 5 years, effective immediately.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

The existing RTO (control device C05) will be used to control VOC emissions for sources 101 through 105. The facility manufactures aluminum cans used for packaging various consumer products and is permitted under synthetic minor operating permit #43-00270.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

46-0044B: Glasgow, Inc. (Church & Flint Hill Roads, King of Prussia, PA 19406) for installation of two (2) replacement secondary crushers for the existing secondary stone crushing plant at their McCoy Quarry facility in Upper Merion Township, **Montgomery County** and is a non-Title V facility.

Particulate matter ("PM") emissions from the replacement secondary crushers will be controlled by the existing water spray dust suppression system and enclosure associated with the secondary stone crushing plant. As the rated capacities of the proposed replacement secondary crushers are less than those of the current secondary crushers, no increase in the potential to emit PM is expected from the project.

The plan approval will include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

37-327A: R. Cunningham Funeral Home Inc. (2429 Wilmington Road, New Castle, PA 15195) to issue a plan approval for authorization to continue operation of two existing crematories (one human and one animal) at their existing facility in the City of New Castle, **Lawrence County**. Public notice is required for sources required to obtain a Plan Approval in accordance with 25 Pa. Code § 127.44.

The facility consists of one human and one pet crematory each installed January 18, 2008 under authorization from GP14-37-327. This plan approval application was submitted per the Department's instruction that those crematories which open their primary chamber's door during operation could no longer use the GP-14 for authorization and must be authorized by a plan approval or discontinue the opening of the door during the cremation cycle and continue to maintain their GP-14. Cunningham has elected to apply for a plan approval rather than discontinue the opening of their door which they feel is necessary for efficient and complete cremation cycles.

Emissions are estimated to be: less than 1.5 tons per year (tpy) of particulate matter, less than 1.0 tpy (each) of SO_x, NO_x, CO, VOC, and HAP.

This plan approval will be subject to special conditions [25 Pa. Code § 127.12(b)]:

WORK PRACTICE

1) The crematories' burners shall be operated and maintained as prescribed by the manufacturer. A copy of the burner's operational and maintenance literature shall be maintained onsite with the units at all times.

2) The owner/operator may only cremate human or animal remains and the container used to transport the remains. The head of an animal carcass infected with rabies must be removed before the remainder of the carcass is burned. Rabies infected tissue may not be incinerated at this facility.

3) The owner/operator of the crematory must ensure that all medical devices (e.g. pacemakers, defibrillators, etc.) and potentially hazardous remedial devices (e.g. radioactive implants, etc.) have been removed from bodies and properly disposed of prior to cremation. Documentation certifying compliance with this requirement shall be maintained for each cremation.

4) The crematory shall be:

a. Operated in such a manner as not to cause air pollution, as defined in 25 Pa. Code § 121.1.

b. Operated and maintained in a manner consistent with good operating and maintenance practices.

c. Attended by a trained operator at all times when the unit is in operation.

d. Operated and maintained in accordance with the manufacturer's specifications and the applicable terms and conditions of this Permit.

e. Operated such that the temperature at the exit of the secondary chamber shall be maintained at or above 1800° F throughout the cremation cycle.

f. Observed by a trained operator for stack emissions. The permittee shall verify compliance with visible, fugitive, and odor emission limitations through the following procedures:

(1) The permittee shall observe the exhaust stack and the premise of the crematory at least once during each cremation cycle for the presence of any visible, fugitive, or odor emissions;

(2) If any visible, fugitive, or odor emissions are apparent, the permittee shall take immediate action to eliminate them and record/describe the event in a log. The log entry shall at a minimum include the items described in Monitoring Condition 2)c.(1)—(6); and

(3) If any visible emissions are apparent after the corrective action, the crematory shall not start another cremation cycle until the permittee can verify compliance with the visible emission limitations specified in this plan approval through methods prescribed in 25 Pa. Code § 123.43 (relating to measuring techniques), such as Method 9 readings taken by a certified visible emissions reader.

g. Lit with adequate artificial lighting of the plume at the stack outlet to enable observations of stack emissions at night, if nighttime operation of the crematory is to occur.

5)

a. The crematory will be required to have an interlock system that meets specific requirements identified by the Department.

b. The operator may open the loading door to the crematory during the cremation cycle to inspect and, if deemed necessary, reposition the charge. However, the operator is still required to ensure that the crematory is operated in compliance with all terms and conditions specified in this operating permit, and that the emission of air contaminants from the crematory does not exceed any of the restrictions specified in this operating permit or established pursuant to any applicable rule or regulation contained in 25 Pa. Code Article III.

c. The operator shall monitor the crematory for visible air contaminant emissions, via the opacity sensor of the crematory or via direct observation of the crematory's stack, whenever the loading door is opened for inspection and repositioning of the charge.

d. The permittee shall ensure that the opacity sensor of this crematory is set to activate at 10% opacity.

6) The operator shall be familiar with and follow the manufacturer's recommend procedure for the cremation of an obese individual. A physical copy of the procedure shall be maintained with the unit at all times.

7) The manufacturer's representative or another qualified technician shall adjust the burners after the unit is constructed and before a new unit is first operated and at other appropriate times such as when the use of an approved fuel is initiated and when visible emissions are observed.

8) The manufacturer's representative or another qualified training source shall provide adequate instruction to

all operators of each new crematory and to new operators of existing crematories including hands-on control of the unit for at least two operating cycles. The training will need to include specific elements identified by the Department at a minimum.

MONITORING

1) The owner/operator shall install, maintain, and operate continuous temperature monitors to measure the temperatures at the exit from the primary combustion chamber and at the exit from the secondary (or last) chamber of the crematory. Sensors shall be located such that flames from the burners do not impinge on the sensors. These temperatures shall be recorded in either analog or digital read-only format.

2) All detectable objectionable odors that originate on-site and cross the property line, as well as visible and/or fugitive air contaminant emissions that originate on-site, shall:

a. Be investigated.

b. Be reported to the facility management, or individual(s) designated by the permittee.

c. Be recorded in a permanent written log which, at a minimum, shall include items specifically identified by the Department.

3) The Department reserves the right to change the above monitoring requirements at any time, based on, but not limited to, the review of complaints, monitoring results, and/or Department findings.

RECORDKEEPING

1) The owner/operator will be required to maintain records identified by the Department which demonstrate compliance with the requirements of this plan approval and demonstrate proper operation and maintenance of the crematory.

2) The permittee shall maintain all logs on-site for a minimum period of five years and shall furnish these records to the Department upon request.

EMISSION RESTRICTIONS

1) No person may permit the emission to the outdoor atmosphere of particulate matter from any incinerator, at any time, in such a manner that the particulate matter concentration in the effluent gas exceeds 0.08 gr/dscf, corrected to 7% oxygen. (Filterable Only)

2) Visible emissions shall not exceed either of the following limitations:

a. Equal to or greater than 10% for a period or periods aggregating more than three minutes in any 1 hour;

b. Equal to or greater than 30% at any time.

3) A person may not permit the emission into the outdoor atmosphere of any malodorous air contaminants from any source in such a manner that the malodors are detectable outside the property of the person on whose land the source is being operated.

REPORTING

The owner/operator will be required to report malfunctions to the Department per specific conditions.

Other

1) The operator shall not use the crematory to dispose of any animals used for commercial or medical experimentation purposes.

2) The owner or operator of any crematory authorized to use this General Permit may not cremate human or

animal bodies whose weight exceeds 500 pounds, including the weight of the container.

Permit (“SOOP”) No. 23-00073 in Marcus Hook Borough, **Delaware County**. The facility’s air emissions sources consist of various types of woodworking machinery (with associated dust collectors) and a wood waste- (primary fuel) and No. 2 fuel oil-fired boiler (with an associated multi-cyclone). (Six dry kilns and eleven space heaters are also operated at the facility, but these are powered by steam from the boiler.) While the potential to emit nitrogen oxides (“NO_x”) from the facility exceeds 25 tons per year, the major facility threshold for the Philadelphia Consolidated Metropolitan Statistical Area, Alan McIlvain Co. has elected to restrict the NO_x emissions from the facility to less than 25 tons per year. As such, the facility is categorized as Synthetic Minor.

No changes have occurred at the facility since the SOOP was amended in December 2009. However, since this time, the boiler has become subject to the requirements of 40 C.F.R. Part 63, Subpart JJJJJJ. All applicable requirements of this regulation will be included in the renewal SOOP.

The renewal SOOP will continue to include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

Noncoal Applications Received

Effluent Limits—The following effluent limits will apply to NPDES permits issued in conjunction with a noncoal mining permit:

<i>Parameter</i>	<i>Table 2</i>		
	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	10 to 35 mg/l	20 to 70 mg/l	25 to 90 mg/l

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

E41-644. Roger D. Jarrett, 5680 State Route 405, Muncy, PA 17756-6356. Jarrett Fresh Water Withdrawal System in Muncy Creek Township, **Lycoming County**, ACOE Baltimore District (Muncy, PA Quadrangle Lat: 41° 12' 17"; Long: -77° 03' 51").

To construct and maintain a surface water withdrawal in Muncy Creek Township—Lycoming County, which is located within the floodway/floodplain of West Branch of the Susquehanna River. The proposed fresh water withdrawal system will be designed to accommodate a withdrawal volume of 3.0 million gallons per day (MGD) to be made available for bulk sale to the natural gas industry. The proposed system includes three (3) 8-inch intake pipes located a maximum of 40 feet into bottom of the river bed. The end of each intake pipe will include a screen structure that is 20 inches in diameter and 24 inches long. It will be installed so that it is approximately 6-inches above the bottom of the river bed utilizing custom made stainless steel pipe supports.

The proposed improvements will not have any effect on the floodway, which is located on West Branch, Susquehanna River and is classified as Warm Water Fishery (WWF) waterway. The construction of the proposed site and withdrawal system will result in approximately 6,800 cubic yards of exported soil volume and 2,800 cubic yards of relocated/imported fill volume. These result in a site volume reduction of approximately 4,000 cubic yards of soil for the proposed construction activities located within the floodway of the West Branch of the Susquehanna River. The proposed project will not result in the construction of any permanent structures within the floodway. The pumping system and all controls are located in a trailer with quick disconnects for control wiring and electric to allow the owner to remove the

entire pumping system in the event of a storm that may cause potential flooding in the project area.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted Under the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Northcentral Region: Clean Water Program Manager, 208 West Third Street, Williamsport, PA 17701

Plan Location:

Borough or Township	Borough or Township Address	County
Milton Borough Turbot Township	Borough: 2 Filbert Street, Milton, PA 17847 Township: 323 North Ridge Road, Milton, PA 17847	Northumberland

Plan Description: The approved plan provides the Milton Regional Sewer Authority the ability to completely replace and realign existing sewer pipe sections identified to be limiting hydraulic conveyance capacity, as well as the replacement of structurally deficient manholes, and the installation of additional manholes for the purpose of providing better sewer alignment, for the portion of the sewer shed tributary to King Street and its connection to the Front Street Interceptor. The work to be completed should eliminate inflow and infiltration issues, sewer back-ups, and sanitary sewer overflows in the respective portion or the sewer shed, while also accommodating the projected increase in sewage flows from future development within both Milton Borough and Turbot Township. The total project cost is estimated to be \$2,713,800. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from the proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the authority.

Northeast Region: Clean Water Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915

Plan Location:

Borough or Township	Borough or Township Address	County
Pocono Township	P. O. Box 197 Tannersville, PA 18372	Monroe
Hamilton Township	P. O. Box 285 Sciota, PA 18354	Monroe

Plan Description: The approved Plan Revision, dated December 26, 2012 and revised February 26, 2013, provides for: (1) removal of the following condition from Pocono Special Study & the BCRA Regional Plan: In order to promote water reuse & to encourage the use of on-lot wastewater disposal, the Plan requires that any developed lot in the service area may connect to the system for its existing flow. If a developed lot proposes a change in flow of more than 800 gpd, sewage planning is required. Any undeveloped lot within the service area may connect to the system if its proposed flow is 800 gpd or less. If its proposed flow is more than 800 gpd, individual sewage planning will be required. (2) Deletion of potential 10 Year Service Area (future) flow projections for specific undeveloped properties. (3) Clean-up of map discrepancies between original Pocono Township Regional Act 537 Special Study Plan Base Map, latest revision April 25, 2006, & the Regional WWTP Service Area Map,

dated April 28, 2009, in the BCRA Regional Plan. (4) The addition of 4 properties to the sewer service area.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted Under the Pennsylvania Sewage Facilities Act

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. Telephone: 717-705-4707.

Plan Location:

Borough or Township	Borough or Township Address	County
Fairview Township	599 Lewisberry Rd, New Cumberland PA 17070	York

Plan Description: The planning module for the Harold Deardorff Jr Subdivision, DEP Code No. A3-67919-437-2, APS Id 804388, consisting of a four lot residential subdivision to be served by individual on lot sewage disposal systems is disapproved. The proposed development is located on the south side of Pinetown Road, approximately 2300 feet east of Moore's Mountain Road in Fairview Township. This plan is disapproved because the minimum lot size as determined by the preliminary hydrologic study is 2.01 acres. Proposed Lots 3 and 4 do not meet this required minimum lot size and therefore do not have the area required to infiltrate the amount of groundwater recharge necessary to successfully dilute the nitrate-nitrogen from each lot's sewage discharge. The average nitrate-nitrogen levels in the groundwater leaving these lots will exceed 10 mg/l.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects

caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate

and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

Patient Safety Trust Fund Surcharge for Fiscal Year 2012-2013 as Provided for under the Medical Care Availability and Reduction of Error (MCARE) Act

Because of an inadvertent error in the notice published at 43 Pa.B. 1934 (April 6, 2013), the Department of Health (Department) is reprinting the document in its entirety to ensure accuracy of the information contained in this document.

On March 20, 2002, the Medical Care Availability and Reduction of Error (MCARE) Act (MCARE Act) (40 P. S. §§ 1303.101—1303.910) was enacted. Among other provisions, the MCARE Act established the Patient Safety Authority (Authority) to collect, analyze and evaluate data regarding reports of serious events and incidents occurring in certain medical facilities and to make recommendations to those facilities regarding changes, trends and improvements in health care practices and procedures for the purpose of reducing the number and severity of serious events and incidents.

Section 305(a) of the MCARE Act (40 P. S. § 1303.305(a)) authorizes the establishment of a Patient Safety Trust Fund (Fund) for the operations of the Authority. Section 305(c) of the MCARE Act states that beginning July 1, 2002, and for every fiscal year thereafter, each medical facility covered by the MCARE Act shall pay the Department a surcharge on its licensing fee as necessary to provide sufficient revenues for the Authority to operate. Section 305(c) of the MCARE Act also states that the total assessment amount for Fiscal Year (FY)

2002-2003 shall not exceed \$5 million and that the Department shall transfer the total assessment amount to the Fund within 30 days of receipt. Section 305(d) of the MCARE Act provides that for each succeeding calendar year, the Department shall determine and assess each medical facility a proportionate share of the Authority's budget. The base amount of \$5 million provided for in FY 2002-2003 shall be increased no more than the Consumer Price Index in each succeeding fiscal year.

Initially, the surcharge was assessed on ambulatory surgical facilities (ASF), birth centers and hospitals. Subsequently, the MCARE Act was amended and certain abortion facilities were also required to pay the surcharge.

With the cooperation of hospitals, birthing centers, abortion facilities and ambulatory surgery facilities in this Commonwealth, the surcharge has been implemented and has provided resources for the implementation of the web-based Pennsylvania Patient Safety Reporting System and the operation of the Authority.

This notice sets forth the procedure that the Department will follow in assessing and collecting the surcharge for FY 2012-2013. The Authority FY 2012-2013 surcharge assessment is \$5.5 million. The MCARE Act states that the surcharge shall be collected from medical facilities, which are defined as ASFs, birth centers and hospitals licensed under either the Health Care Facilities Act (35 P. S. §§ 448.101—448.904b) or Article X of the Public Welfare Code (62 P. S. §§ 1001—1088). Also included, as of May 1, 2006, are abortion facilities which are defined in 18 Pa.C.S. § 3203 (relating to definitions) and which perform 100 or more abortions during a calendar year. Nursing homes, which are assessed under sections 401—411 of the MCARE Act (40 P. S. §§ 1303.401—1303.411), receive a separate assessment notification.

To assess the surcharge in an equitable manner, the Department continues to use a common denominator in these facilities. For ASFs, birth centers and abortion facilities, the Department has chosen the number of operating and procedure rooms. For hospitals, the Department has chosen the number of beds contained on the license of each hospital, whether by the Department (general and special acute care hospitals) or the Department of Public Welfare (privately owned psychiatric hospitals). It was also necessary to pick a point in time to make this assessment; the Department has chosen December 31, 2012.

The number of operating/procedure rooms (for ASFs, birth centers and abortion facilities) and the number of licensed beds (for hospitals) was totaled and that number was divided into \$5.5 million to arrive at a charge per unit for the assessment. The total number of units (operating rooms, procedure rooms and licensed beds) is 43,041. Dividing this number into \$5.5 million results in a per unit assessment for each installment of approximately \$127.78.

To obtain a copy of the assessment for all facilities, send an e-mail to paexcept@pa.gov, and request the 2012-2013 MCARE surcharge assessment list.

Each facility will receive notification from the Department setting forth the amount due, date due and the name and address to which the payment should be sent. Payment will be due within 60 days. The MCARE Act authorized the Department to assess an administrative penalty of \$1,000 per day on facilities who fail to pay the surcharge by the due date.

If a medical facility has any questions concerning this notice, a representative from that facility should contact Joanne Salsgiver, Director, Department of Health, Division of Acute and Ambulatory Care, 625 Forster Street, Health and Welfare Building, Room 532, Harrisburg, PA 17120, (717) 783-8980.

Persons with a disability who require an alternative format of this document (for example, large print, audiotape or Braille) should contact the Division of Acute and Ambulatory Care at the previously listed address or telephone number, or for speech and/or hearing impaired persons V/TT (717) 783-6514, or the Pennsylvania AT&T Relay Service at (800) 654-5984.

Pennsylvania Gaming Control Board Regulation #125-166 (IRRC #2981) Slot Machines and Table Game Controls, Equipment, Credit and Rules April 10, 2013

We submit for your consideration the following comments on the proposed rulemaking published in the February 9, 2013 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. § 627a.7. Wagers.—Miscellaneous clarity.

House Money Wager

In paragraph (a)(7), we have clarity concerns related to subparagraphs (i) and (ii), which appear to be inconsistent. According to subparagraph (i), a House Money

Wager shall “win if the first two cards of either the Player’s Hand or Banker’s Hand, or both, are a pair.” In this situation, a player wins if the first two cards of either the player’s hand or banker’s hand is a pair. However, under subparagraph (ii), a House Money Wager shall “lose if the first two cards of *either* the Player’s Hand or Banker’s Hand do not contain a pair.” (Emphasis added.) We ask the Board to clarify the circumstances when a House Money Wager would win and when a House Money Wager would lose.

We ask the Board to address similar issues in § 629a.7(a)(7)(i) and (ii) (relating to wagers in Midibaccarat), as well as § 631a.8(a)(7)(i) and (ii) (relating to wagers in Baccarat).

2. § 659a.6. Asia Poker rankings.—Miscellaneous clarity.

Joker

Subsection (a) describes how the joker shall be used and ranked for completion of a straight, flush, straight

flush or royal flush. Subsection (b) ranks the permissible Poker hands at the game of Asia Poker. In ranking the hands, paragraph (b)(1) includes the use of a joker, whereas paragraphs (b)(2), (b)(3), (b)(5) and (b)(6) do not include the use of the joker. We ask that the Board clarify these provisions to ensure consistency in the use of the joker.

Similarly, we ask the Board to review and clarify subsection (d) regarding the use of the joker.

3. § 659a.10. Procedures for dealing the cards from an automated dealing shoe.—Miscellaneous clarity.

Determining the starting position

Paragraph (a)(2) states that the dealer shall use the procedures authorized under § 659a.5(g) to determine the starting position for dealing the cards; however, paragraph (a)(1) already requires that the procedures under § 659a.5 (relating to shuffle and cut of the cards; procedures for determining the starting position for dealing cards) have been completed. We ask the Board to review and clarify these two provisions.

4. § 663a.11. Procedures for completion of each round of play.—Miscellaneous clarity.

Losing Tie Wagers

Paragraph (j)(1) provides for a player to place a Tie Wager. Subparagraph (j)(1)(i) requires a dealer to pay

winning Tie Wagers if the high hand or low hand, or both, of the player is identical in point value with the high hand, low hand, or both, of the dealer. However, subparagraph (j)(1)(ii) requires a dealer to collect losing Tie Wagers if the high hand or low hand of the player is not identical in point value with the high hand or low hand of the dealer. Subparagraph (j)(1)(ii) seems to contradict (j)(1)(i). It is unclear whether the Board intends for a player who places a Tie Wager to win or lose if the high hand is identical in point value to the dealer but the low hand is not identical in point value to the dealer, or vice versa (i.e., high hand is not identical in point value but low hand is identical in point value). We ask the Board to review subparagraph (j)(1)(ii) and clarify the circumstances when the dealer shall collect all losing Tie Wagers.

5. Miscellaneous clarity.

In § 663a.6(a), the Board should correct the second sentence to read, "The point value of all non-face cards is their denomination."

INSURANCE DEPARTMENT

Affordable Care Act; Guidance for Compliance Submissions; Notice 2013-03

The Affordable Care Act (ACA)—that is, Patient Protection and Affordable Care Act (Pub. L. No. 111-148) and the Health Care and Education Reconciliation Act of 2010 (Pub. L. No. 111-152), collectively and as amended—sets forth market reform requirements for plan years beginning on or after January 1, 2014, for, individual and small group health insurance policies that provide "major medical" coverage, which is comprehensive health coverage, including PPO and HMO coverage. The ACA also

sets forth requirements for a plan to be a qualified health plan (QHP), so that the plan may be certified for offering on an exchange. Finally, the ACA contains several provisions that will impact rate development.

The Insurance Department (Department) provides the following guidance to insurance entities seeking to demonstrate compliance with the ACA relative to new or modified policy forms offered, issued or renewed in this Commonwealth. This guidance applies to new policy forms, as well as to policy forms for which an insurance entity (insurer) is not seeking to make any changes other than as necessary to make the policy form comply with the ACA. Further, it applies to any plan an insurer anticipates may be certified as a QHP.

If an insurer is required under the act of December 22, 2011 (P. L. 614, No. 134) to file a policy form or policy form modification with the Department for prior approval, or if an insurer is intending to use after January 1, 2014, a form not required to be filed, that is, a “product” as contemplated by the ACA, the Commonwealth will accept as evidence of satisfying the ACA market reform requirements a “Compliance Checklist and Certification,” with the Market Reform portion of the Compliance Checklist filled out and the Certification executed by an authorized representative of the insurer, when the Compliance Checklist and Certification is substantially identical to the “Compliance Checklist and Certification” as Attachment A. Attachment A is also available on the Department’s web site at www.insurance.pa.gov. File a form with each policy form or policy form modification being submitted.

If an insurer is anticipating that any form/product along with its associated plans may be certified as a QHP and offered on an exchange, the Commonwealth will accept as evidence of satisfying the ACA QHP requirements a Compliance Checklist and Certification, with both the Market Reform and the QHP portions of the Compliance Checklist filled out and the Certification executed by an authorized representative of the insurer, when the Compliance Checklist and Certification is substantially identical to the “Compliance Checklist and Certification” as Attachment A. Attachment A is also available on the Department’s web site. File a Compliance Checklist and Certification with each form/product and its associated plans being submitted. In addition to any Federally-facilitated exchange filing requirement (that is, HIOS), also include the QHP Application Templates in the SERFF filing, as instructed in SERFF.

Further, with respect to the ACA rating requirements, including those amending the Public Health Service Act (PHSA) (42 U.S.C.A. §§ 201–300mm-61) and as further explained in Federal regulations, the Department requests that an actuarial memorandum be submitted as part of a rate filing for a product or plan subject to the ACA. In that actuarial memorandum, submitters are requested to:

- State the anticipated loss ratio (see ACA § 1001, PHSA § 2718, noting also compliance with 31 Pa. Code § 89.83(b) (relating to rates)).
- Specify compliance with the rating requirements in the ACA, that is, use of no rating factors other than: (i) age (premium band ratio not exceeding 3:1 and Federally approved standard age curve); (ii) tobacco use (premium band ratio not exceeding 1.5:1); (iii) family size (as specified in Federal regulation); and (iv) geography (State rating regions as Federally approved, listed in Attachment B, and also shown in map form on the Department’s web site) (see ACA § 1201, PHSA § 2701).
- Specify compliance with the single risk pool per market (individual or small group) requirement (see ACA § 1312).

Additional information may be found in the general instructions in SERFF.

Finally, while certain forms and rates referenced in this notice are subject to review and approval by the Department prior to use, the Department reminds filing entities that those forms and rates (and all forms and rates used in this Commonwealth) remain subject to, and must comply in all respects with, the Commonwealth’s insurance laws and regulations, and the Department retains its ability to take after-use enforcement action and seek

any available remedy for noncompliant forms or rates. An insurer will be responsible for assuring that all of its insureds are provided the full benefits provided by the ACA.

Questions regarding this notice may be directed to Peter Camacci, Director, Bureau of Life, Accident and Health Insurance, Insurance Department, 1311 Strawberry Square, Harrisburg, PA 17120, (717) 787-0762 or pcamacci@state.pa.us.

Compliance Checklist and Certification

If an entity (the “Company”) submits a form filing to the Commonwealth, or intends to use after January 1, 2014 a form not required to be filed, that is, a “product” as contemplated by the ACA, where that form/product is intended to comply with the market reform requirements or the market reform and qualified health plan requirements of the Affordable Care Act (ACA), the Commonwealth will accept as demonstrating compliance with those requirements a compliance checklist and certification submitted with your contract/ endorsement via SERFF as a Form Schedule document, substantially identical to this Compliance Checklist and Certification. These ACA requirements apply only to policies for health insurance coverage referred to as “major medical” in the statute, which is comprehensive health coverage, including PPO and HMO coverage. This checklist identifies the requirements for small group and individual plans, and, where specified, for grandfathered plans (coverage in effect prior to March 23, 2010). Refer to the relevant statute and any applicable regulations to ensure compliance. Complete each item applicable to your product category to confirm that diligent consideration has been given to each statutory requirement as to each plan encompassed by the identified form/product. PENNSYLVANIA PUBLIC UTILITY COMMISSION

Extension of the Fuel Cost Recovery Surcharge Special Permission 28207

Public Meeting held
April 4, 2013

Commissioners Present: Robert F. Powelson, Chairperson; John F. Coleman, Jr., Vice Chairperson; Wayne E. Gardner; James H. Cawley; Pamela A. Witmer

*Extension of the Fuel Cost Recovery
Surcharge Special Permission 28207; R-2009-2094616*

Order

By the Commission:

Tristate Household Goods Conference, Inc. (Tristate), a tariff publishing agency, represents approximately 215 PUC household good carriers. Substantially large increases in the cost of diesel fuel, which were unanticipated, motivated Tristate to request the implementation of the Fuel Cost Recovery Surcharge. The Fuel Cost Recovery Surcharge Special Permission 28207 was approved in Public Meeting held April 17, 2003, and extended in subsequent Public Meetings. The extension was approved for a duration of one year unless changed, cancelled or extended. The current surcharge grants approval to temporarily increase the Tristate tariff to recover temporarily increased fuel costs when transporting household goods for moves more than 40 miles (weight and distance) and moves that are 40 miles or less (hourly) by the use of a Fuel Cost Recovery Surcharge.

Tristate filed a request on January 8, 2013 to permit members of its conference to continue assessing a fuel cost recovery surcharge to defray the continuing rise in costs of diesel fuel.

The surcharge is determined by a formula which attempts to approximate the amount of fuel used on a particular trip and multiplies that amount by the increased cost of fuel, allowing the carrier to recover only the additional fuel charges incurred. The formula includes the following constant factors: (1) base price per gallon of fuel¹; (2) average vehicle fuel consumption of 5 miles per gallon; and (3) a terminal factor which allows the carrier to recover the additional cost of fuel used in traveling to and from the carrier's terminal to the origin point of the move. The formula also includes one variable factor, the current month's diesel fuel price.²

Moves of 40 miles or less will be divided into 4 categories according to average mileage: 5 mile average for trips ranging from 1 to 10 miles, 15 mile average for trips ranging from 10 to 20 miles, 25 mile average for trips ranging from 20 to 30 miles, and 35 mile average for trips ranging from 30 to 40 miles. An example calculation for an 8 mile move is as follows³:

Origin of move to destination	
8 miles	= 5 miles average
Terminal factor	= 40 miles
Total miles	= 45 miles
Average miles per gallon	= 5
Fuel used	= 9 gallons
DOE current Fuel Price as of	
1/07/13	= \$4.11
Base fuel Price	= \$1.27
Fuel price difference	= \$2.84
Gallons X Fuel price difference	= 9 x 2.84 = \$25.56

Moves of more than 40 miles will be calculated using actual mileage from the move's origin to destination and return. An example calculation for a 100 mile move is as follows:

Origin of move to destination	= 100 miles
Empty Return (dest. to origin)	= 100 miles
Terminal factor	= 40 miles
Total miles	= 240 miles
Average miles per gallon	= 5
Fuel used	= 48 gallons
DOE current Fuel Price as of	
1/07/13	= \$4.11
Base fuel Price	= \$1.27
Fuel price difference	= \$2.84
Gallons X Fuel price difference	= 48 x 2.84 = \$136.32

On January 8, 2013, Tristate filed a request to again extend the Fuel Cost Recovery Surcharge. The request was filed in response to the volatile nature of the petroleum market, which continues to produce unanticipated increases in diesel fuel prices.

In support of the request for extension, Tristate has submitted data from the Department of Energy for the Central Atlantic Region. The average price of diesel fuel for the period of January 2012 to December 2012 was \$4.10 per gallon, which is a 3% increase over the previous 12-month period.

¹ The proposed base price is \$1.267, which was the price of a gallon of diesel fuel according to the Department of Energy report of Retail On-Highway Diesel Prices for the Central Atlantic Region as of February 15, 2002. Tristate proposes this as a base price since fuel prices have steadily increased from that date.

² This figure is determined by the Department of Energy's report of Retail On-Highway Diesel Prices for the Central Atlantic Region. The current month's diesel fuel price will be effective beginning the 15th day of each month through the 14th day of the subsequent month.

³ All fuel surcharges shall be calculated and provided to the customer as part of the Estimate of Charges.

The Federal Department of Transportation has responded to the escalating fuel costs for interstate transportation by approving a fuel surcharge on a similar sliding scale. The Federal Fuel Surcharge became effective May 15, 2000 and continues in effect.

Pursuant to 66 Pa.C.S. § 1301, the Commission is required to ensure that all rates charged by a public utility are just and reasonable. Additionally, the Commission is obligated to address industry-wide problems "without creating a chaotic rate structure impossible to manage or police." Emergency Fuel Surcharge, 47 Pa. P.U.C. 389, 391 (1974). The current surcharge addresses the problem of rising fuel costs, while being just and reasonable in that carriers are compensated only for the additional cost of the fuel used.

Based on our review, it appears that the extension of the Fuel Cost Recovery Surcharge for transportation of household goods is necessary, is an appropriate means to address this regulatory problem and will result in just and reasonable rates. In order to prevent financial hardship, it is imperative that Pennsylvania household goods carriers be afforded an opportunity to temporarily adjust rates to offset escalating fuel costs using the proposed extended Fuel Cost Recovery Surcharge and, accordingly, we shall allow the proposed extended surcharge to become effective for a period of one year unless changed, cancelled or further extended.

Therefore,

It Is Ordered That:

1. Tristate members rendering service under authority of this Commission shall charge a Fuel Cost Recovery Surcharge on transportation provided for over 40 mile charges and for 40 miles or less hourly charges in accordance with all other tariff rules of this Commission. The Fuel Cost Recovery Surcharge is to be extended effective April 18, 2013.

2. The Extended Fuel Cost Recovery Surcharge shall be in effect for one year to April 18, 2014 unless changed, cancelled or further extended by the Commission.

3. Copies of this order shall be served by the Secretary to the Office of Consumer Advocate and Office of Small Business Advocate. The Secretary shall forward this Order to the *Pennsylvania Bulletin* for publication.

4. Each carrier shall post a copy of this Extended Fuel Cost Recovery Surcharge along with the original Fuel Cost Recovery Surcharge dated April 17, 2003 in a conspicuous place in the office and vehicles. In addition, each carrier shall include the surcharge as a separate line item of the Estimate of Charges provided to prospective shippers and on the Bill of Lading.

5. The rates collected to the Extended Fuel Cost Recovery Surcharge are subject to refund in the event that any formal complaints are filed, within 30 days of the date of publication of this order, and are successful in challenging the surcharge.
