# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

There are no restrictions on the republication of official documents appearing in the *Pennsylvania Bulletin*.

## **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted

proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

## **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

## ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

## **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

#### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

#### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

# THE COURTS

## Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

### THE DISCIPLINARY BOARD OF THE SUPREME COURT OF PENNSYLVANIA

[204 PA. CODE CHS. 85 AND 93]

Amendments to the Rules of Organization and  
Procedure; Order No. 51; Doc. No. R-114

In this Order, The Disciplinary Board of the Supreme Court of Pennsylvania is adopting amendments to its Rules of Organization and Procedure relating to (i) the retention of records by the Board, (ii) the designation of the Chair and Vice Chair of the Board, and (iii) the addresses of certain offices maintained by the Board.

The Rules of the Board currently provide that the Board will maintain permanent records of all matters processed by the Board and the disposition thereof, but that the permanent retention of correspondence, transcripts, briefs and other similar documents which underlie the final disposition of a matter by the Board is not required. 204 Pa. Code § 93.54. The Rules are silent, however, as to how long correspondence, transcripts, briefs, etc. must be retained. This Order amends § 93.54 to specify that the materials that are not retained permanently will be retained for ten years. A Notice of Proposed Rulemaking regarding this change was published in the *Pennsylvania Bulletin* on December 28, 1996. No comments were received in response.

The Rules of the Board have been drafted to restate in full the substance of the Pennsylvania Rules of Disciplinary Enforcement. By Order dated March 4, 1997 (No. 318, Disciplinary Docket No. 3), the Supreme Court of Pennsylvania amended the Pennsylvania Rules of Disciplinary Enforcement with regard to the designation of the Chair and Vice Chair of the Board. The Board is taking this opportunity to make conforming changes to its Rules.

Finally, the Board is also taking this opportunity to update the addresses set forth in its Rules for certain of the offices maintained by the Board.

The Disciplinary Board of the Supreme Court of Pennsylvania hereby finds that the amendments to the Rules of Organization and Procedure of the Board adopted hereby are not inconsistent with the Pennsylvania Rules of Disciplinary Enforcement and are necessary and appropriate for the administration of the affairs of the Board.

The Board, acting pursuant to Rule 205(c)(10) of the Pennsylvania Rules of Disciplinary Enforcement, orders:

(1) Title 204 of the *Pennsylvania Code* is hereby amended as set forth in Annex A hereto.

(2) The Secretary of the Board shall duly certify this Order, and deposit the same with the Administrative Office of Pennsylvania Courts as required by Pa.R.J.A. 103(c).

(3) The amendments adopted hereby shall take effect upon publication in the *Pennsylvania Bulletin*.

(4) This order shall take effect immediately.

By the Disciplinary Board of the  
Supreme Court of Pennsylvania

ELAINE M. BIXLER,  
Secretary

**Explanatory Comment**

The Act of June 22, 1931, P. L. 883, 12 P. S. § 2358 et seq., when enacted, formed the basis for both the substantive and procedural law governing sheriff's interpleader. The rules of civil procedure governing the same subject promulgated in 1965 suspended the procedural provisions of the statute but preserved certain other provisions. However, in 1978 Section 2(a) of the Judiciary Act Repealer Act (JARA), 42 P. S. § 20002(a) [1124], repealed the Act of 1931 in its entirety.

As a result of the repeal of the Act of 1931, the Supreme Court of Pennsylvania has promulgated the following amendments to the rules governing Sheriff's Interpleader but these amendments do not affect practice and procedure:

1. Rule 3201 and the note to Rule 3205(b) are amended to delete references to the repealed Act of 1931 or other repealed statutes.

2. Rules 3202(b), 3205(b), 3206(a) and (d), 3207(a), (d) and (e), 3208 and 3213 are amended to be gender neutral.

3. Rule 3215 governing the effective date of the rules when originally promulgated in 1966 is rescinded as obsolete.

4. Rules 3231(33) and (35), 3234, 3241(80) and 3246 governing Acts of Assembly are rescinded as obsolete. The statutes preserved and suspended by these rules have been repealed.

### ARBITRATION

#### 17LR1301.1 Cases for Submission.

A. Compulsory arbitration of matters as authorized by Section 7361 of the Judicial Code, 42 Pa.C.S. Section 101, *et seq.* shall apply to all cases at issue where the amount in controversy shall be twenty-five thousand dollars (\$25,000.00) or less.

The amount in controversy shall be determined from the pleadings or by an agreement of reference filed by the attorneys. The amount in controversy, when determined from the pleadings, shall be the largest amount claimed by any one party.

In the event that a case within arbitration limits is consolidated with a case involving more than arbitration limits after the former has been referred to a board of arbitrators, the order of consolidation will remove the same from the jurisdiction of the board of arbitrators.

B. A civil action will be referred to arbitration 20 days after the filing with the prothonotary and the court administrator of a praecipe signed by either party or its counsel indicating the matter is ready for arbitration. If the other party objects to the filing, that party shall, within the 20 days, file a motion requesting delay in the appointment of arbitrators pending completion of the pre-trial discovery and filings. The objection shall specifically indicate the matters that must be preliminarily resolved and shall propose a timetable for their completion.

C. Cases subject to arbitration shall be subject to the status and calendar orders then prevailing with regard to the civil docket. Such cases shall not be scheduled for a pre-trial conference if the status as an arbitration case can readily be determined from examination of the docket entries. If the discovery deadline has expired at the time of the pretrial conference for contemporaneously filed cases, the matter shall be scheduled by the court administrator for disposition by arbitration.

#### **17LR1301.2 Agreement of Reference.**

Matters not in litigation may be referred to a board of arbitrators by an agreement of reference, signed by counsel for all sides in the case. Such agreement shall be filed with the prothonotary, who will forward a copy to the court administrator. Said agreement shall define the issue involved for determination by the board and, when agreeable, shall also contain stipulations with respect to facts. In such cases, the agreement shall take the place of the pleadings in the case and be filed of record.

#### **17LR1302 List of Arbitrators.**

A. Upon receipt of a praecipe, the court administrator shall nominate, from the list of attorneys, a board of potential arbitrators. The nominations shall be made in a rotational fashion from the members of the bar eligible for assignment, except where an attorney is excused by reason of incapacity, illness, or other disqualification. The court administrator shall further be responsible for apportioning assignments between members with more than five years' experience and those under five years. No more than one member of a family, firm, professional corporation, or association shall be nominated to serve on one potential board.

B. The court administrator shall nominate to the potential board 3 attorneys plus 1 additional attorney for each party of record. The list of attorneys nominated to the potential board shall be sent by the court administrator to each party or his or her attorney within 7 days of the receipt of the praecipe. Each party in the case or counsel for each party may strike off up to 1 attorney so named and return the list to the court administrator. If any or all parties strike the same name or fail to exercise their right to strike off any names from the potential board, the first 3 remaining names will make up the board of arbitration. In the event the court administrator cannot compile a list of sufficient names from the county in which the case arose, because of incapacity, illness or other disqualification, other attorneys whose practice is within the judicial district, regardless of county, may be included.

C. As soon as the court administrator receives the returned list from the parties (or after 7 days if any list is

not returned) each arbitrator shall be notified of his or her selection. A final board shall be sent to the attorneys of the parties.

#### **17LR1303 Scheduling of Hearings.**

A. Upon receipt of a praecipe, pursuant to 17LR1301, the court administrator shall schedule the case to be arbitrated for a one-half day hearing, no sooner than 45 days from the date of the praecipe, to commence either at 9:00 a.m. or 1:00 p.m.

B. The hearing shall be held in the separate court-houses in either Union County or Snyder County in either the Hearing Room or the Jury Room designated for that purpose. The chair may, if appropriate, schedule the arbitration hearing at such other location as would be more convenient to the parties, witnesses, counsel or arbitrators, on the same date as would otherwise apply.

C. After having been identified as a member of an arbitration panel under the methods set forth previously in Section 17LR1302.1, and after having been scheduled to serve on an arbitration panel on a date certain, pursuant to (A) above, should an arbitrator be unable to serve due to a conflict of interest, conflict in scheduling, or other such reason, that arbitrator shall inform the court administrator, who shall appoint a successor arbitrator.

#### **17LR1304.1 Conduct of Hearings.**

The conduct of all hearings, generally and with respect to the admissibility of evidence, shall be as set forth in Pa.R.C.P. Nos. 1304, 1305, and 1038(a). Arbitrators shall exercise reasonable restraint in questioning of witnesses. Witness fees shall be taxed as costs, as in other actions.

#### **17LR1304.2 Continuances.**

Continuances shall be granted only by court order for good cause shown on notice sent by the court administrator to the parties and the court. Requests for continuances shall be submitted in writing in the form of a motion. A motion for continuance should be filed not later than 3 days prior to the scheduled date for the arbitration hearing.

If a party fails to appear at a scheduled arbitration hearing, the arbitrators shall proceed as set forth in Pa.R.C.P. 1303 and 1304.

#### **17LR1306 Awards.**

A. After the case has been heard, the arbitrators shall make their report/award, which shall be signed by at least a majority of them. An award must be submitted within 10 days after the day of the hearing or the last adjournment thereof.

B. The award shall be filed with the prothonotary.

C. The prothonotary shall enter the award of the arbitrators in the docket and shall index the same in the judgment index. If an appeal is taken, the prothonotary shall notify the court administrator, who shall place it on the next pre-trial list.

D. Upon the award being indexed, the prothonotary shall give immediate written notice of the award to all the parties, or their attorneys, by regular mail and a copy to the court administrator.

#### **17LR1308.1 Compensation for Arbitrators.**

A. The chair of the board of arbitrators shall receive compensation in the amount of \$150.00 per case; the other members of the board shall receive compensation in the amount of \$100.00 per case.

B. Each arbitrator shall be entitled to receive an additional compensation at the rate of \$25.00 per hour in any case in which the actual time spent in the hearing exceeds 3 1/2 hours.

C. Upon the filing of the board's report or award, the prothonotary shall certify to the county controller that the report and award, if any, has been filed, together with the names of the members of the board serving in the case. The county shall then pay the aforesaid fee to each member of the board serving on the case in accordance with Subsection A of this rule.

D. In the event that a case shall be settled or withdrawn or otherwise terminated by or between the parties at any time prior to the date scheduled for hearing, the board members shall not be entitled to the aforesaid fee. If the case is settled, withdrawn, or otherwise terminated by or between the parties, on the date scheduled for hearing but prior to the scheduled starting time, the panel members shall be entitled to one-half of the base fee as set forth in Subsection A of this rule. In the event the case is continued after the arbitrators have convened, either before or after testimony has begun, the time required of the arbitrators during the first scheduled hearing shall be aggregated with the time required during the second hearing. To the extent that such aggregated time is less than 3 1/2 hours, the fee set forth in Paragraph A shall be applicable. ## DELAWARE RIVER BASIN COMMISSION

### Commission Meeting and Public Hearing

The Delaware River Basin Commission will hold a public hearing on Wednesday, April 30, 1997. The hearing will be part of the Commission's regular business meeting which is open to the public and scheduled to begin at 2 p.m. in the Goddard Conference Room of the Commission's offices at 25 State Police Drive, West Trenton, NJ.

An informal conference among the Commissioners and staff will be held at 1 p.m. at the same location and will include discussions of public hearings on proposed amendments to the Ground Water Protected Area Regulations for Southeastern Pennsylvania, service metering requirements compliance and a status report on flow needs analysis.

In addition to the subjects listed which are scheduled for public hearing at the business meeting, the Commission will also address the following matters: Minutes of the March 26, 1997 business meeting; announcements; General Counsel's report; report on Basin hydrologic conditions; resolutions concerning New Jersey grant agreements for a Maurice River water quality modeling study and high flow management objectives for New Jersey noncoastal waters; and public dialogue.

The subjects of the hearing will be as follows:

*Applications for Approval of the Following Projects under Article 10.3, Article 11 and/or Section 3.8 of the Compact:*

1. *Matamoras Municipal Authority D-81-78 CP Renewal 3.* An application for the renewal of a ground water withdrawal project to supply up to 11.7 million gallons (mg)/30 days of water to the applicant's distribution system from Well Nos. 3, 5, 7 and 8. Commission approval on March 25, 1992 was limited to 5 years. The applicant requests that the total withdrawal limit from all wells be increased from 9 mg/30 days to 11.7 mg/30 days. The project is located in Matamoras Borough, Pike County, PA.

2. *City of Bethlehem D-95-19 CP.* A project to repair the applicant's Penn Forest Dam by placing a Rolled Compacted Concrete (RCC) dam on the upstream side of the existing dam. No change in downstream conditions is proposed; the same spillway, withdrawal functions and water elevations will be maintained and all other design and operating functions will remain the same. The dam is located on Wild Creek in Penn Forest Township, Carbon County, Pennsylvania and will continue to provide water for the City of Bethlehem service area in Northampton and Lehigh Counties, PA.

3. *Young Life Lake Champion D-95-35.* A project to construct a new 30,000 gallons per day (gpd) subsurface sewage treatment system to replace several existing small subsurface sewage disposal systems serving the applicant's camp facilities in the town of Lumberland, Sullivan County, NY. The sewage disposal system will provide biological treatment via a septic tank and discharge to a subsurface disposal field in the Mill Brook watershed.

4. *City of Vineland D-95-47 CP.* An application for approval of a ground water withdrawal project to supply

up to 5.6 mg/30 days of water to the applicant's distribution system from new Well No. 14, and to increase the existing withdrawal limit of 400 mg/30 days from all wells to 494.5 mg/30 days. The project is located in the city of Vineland, Cumberland County, NJ.

5. *Star Enterprise D-96-31.* A project to continue use of the applicant's existing surface water withdrawal facilities formerly owned by Texaco Refining. The applicant proposes to continue withdrawal from the Delaware River at a maximum rate of 452 million gallons per day (mgd)/(13,560 mg/30 days) to supply once-through noncontact cooling water for its refinery operations and power plant. Discharge will continue to be by an existing outfall sluiceway to the Delaware River. The project is located just north of Delaware City, New Castle County, DE in Water Quality Zone 5.

6. *United Water Delaware D-96-50 CP.* A proposal to construct an inflatable Neoprene dam designed to capture tidal flow in White Clay Creek, to be located approximately 1,500 feet downstream from the applicant's Stanton intake in New Castle County, DE. The dam, a Tidal Capture Structure (TCS), is proposed to improve reliability of the applicant's White Clay Creek public water supply source. By intermittently inflating the TCS at high tide during periods of low stream flow, the applicant plans to capture tidal water to help serve its customer demand, while providing an adequate passby flow by a specially designed sluice with multiple gates. During normal hydrologic weather conditions, the TCS is designed to remain deflated and is expected to pose no flood hazard. Fish passage is expected to be unimpeded for two periods every 24 hours during days when the structure is in operation.

7. *The McKee Group D-96-51.* A project to modify an existing 0.1 mgd sewage treatment plant (STP) to serve development at the applicant's Village of Buckingham Springs retirement community in Buckingham Township, Bucks County, PA. The STP is situated approximately 3,000 feet south of the intersection of Route 413 and Lower Mountain Road and will continue to provide advanced secondary treatment and tertiary filtration prior to discharge to an unnamed tributary of Mill Creek in Buckingham Township.

8. *Bayway Refining Company D-96-52.* A proposal for use of existing water withdrawal facilities for a withdrawal of up to 151.7 mgd (4,550 mg/30 days) from the Delaware River at the applicant's Trainer Refinery (formerly known as the Marcus Hook Refinery) recently acquired from BP Oil Company. Bayway, a subsidiary of Tosco Refining Company, proposes to resume refining operations and operate the withdrawal facilities in substantially the same manner as the previous owner. Most of the water will be used for once-through cooling. The project intake is located approximately 1,500 feet upstream of the Marcus Hook Creek confluence in the Borough of Trainer, Delaware County, PA.

9. *Warwick Township Water & Sewer Authority D-96-59 CP.* A project to upgrade and expand the applicant's Fish Creek STP from 0.6 mgd to 0.85 mgd. The existing secondary biological treatment process/extended aeration will be upgraded to the advanced secondary process provided by sequencing batch reactors. The disinfection method will be changed from chlorine contact to ultraviolet light and there will be post-aeration. The STP will continue to serve portions of Warwick Township in Bucks

County, PA and discharge to Fish Creek, a tributary to the Neshaminy Creek, situated just to the west of York Road and north of Almshouse Road.

Documents relating to these items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Please contact Thomas L. Brand at extension 217 concerning docket-related questions. Persons wishing to testify at this hearing are

requested to register with the Secretary prior to the hearing.

### Applications under the Pennsylvania Clean Streams Law

#### (Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection. Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department of Environmental Protection at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protests. Each writer will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## INDIVIDUAL PERMITS

### (PAS)

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealable to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

## SEWAGE FACILITIES ACT

### PLAN APPROVAL

*Location: Shade—Central City Joint Authority, Somerset County, 429 Sunshine Avenue, Central City, PA 15926.*

The Authority's proposed project provides for the abandonment of onlot systems and their associated problems in the Cottagetown and nearby residential areas and the elimination of combined sewer overflows through the construction of replacement separate sanitary sewer lines within the existing Shade—Central City service area. Total project cost is estimated at \$1 million. Treatment is to be provided at the existing Authority's sewage treatment plant.

The Authority proposes to use Pennsylvania's State Revolving Fund administered by the Pennsylvania Infrastructure Investment Authority (PENNVEST) for the construction of these sewerage facilities. The Department's review of the Sewage Facilities Update Revision and other information received has not identified any significant environmental impact resulting from this proposal.

#### Reasonably Available Control Technology (RACT)

#### Notice of Proposed Revision to the State Implementation Plan for Oxides of Nitrogen and Volatile Organic Compounds and Notice of Public Hearing

Approval of Reasonably Available Control Technology (RACT) plan for **Strick Corporation** in Berwick Borough, **Columbia County.**

The Department of Environmental Protection has made a preliminary determination to approve a Reasonably Available Control Technology (RACT) plan and an amendment to the State Implementation Plan (SIP) for a truck trailer chassis manufacturing facility owned and operated by Strick Corporation in Berwick Borough, Columbia County.

The proposed SIP revision does not adopt any new regulations. It incorporates the provisions and requirements contained in the RACT approval for the facility to comply with current regulations.

The preliminary RACT determination, if finally approved, will be incorporated into an operating permit for the facility and will be submitted to the U. S. Environmental Protection Agency (EPA) as a revision to Pennsylvania's State Implementation Plan.

The only air contamination sources to be addressed in the proposed operating permit are 21 small combustion units (20 space heaters and one gas-fired oven) and surface coating equipment cleanup activities (spray gun cleaning, spray line flushing, and the like). The preliminary RACT determination for these sources is that the volatile organic compound emissions from each of the

respective two air contamination source categories ("small combustion units" and "surface coating equipment cleanup activities") shall remain below 3 pounds per hour, 15 pounds per day and 2.7 tons per year.

One public hearing will be held for the purpose of receiving comments on the proposed operating permit and the proposed SIP revision. The hearing will be held on May 20, 1997, at 1 p.m. at the DEP Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA. The public is invited to comment on the proposal. Persons interested in commenting are invited to appear at the public hearing.

Persons wishing to present testimony at the hearing should contact Daniel Spadoni at (717) 327-3659 at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to a maximum of 10 minutes per individual and two written copies of the oral testimony are requested. Each organization is requested to designate one witness to present testimony on its behalf.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Daniel Spadoni at (717) 327-3659 or the Pennsylvania AT&T relay service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those unable to attend the hearing, but wishing to comment, should provide written comments to William P. Parsons, Acting Air Quality Environmental Program Manager, Pennsylvania DEP, 208 West Third Street, Suite 101, Williamsport, PA 17701-6448. Comments should be submitted by June 4, 1997.

All pertinent documents are available for review from 8 a.m. to 4 p.m. in the DEP Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling (717) 327-3693.

## MINING

### CONDUCT COAL AND NONCOAL ACTIVITIES

#### MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.31); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection. A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or

local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chs. 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor, application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

*Northeast Regional Office: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790, telephone (717) 826-2553.*

**City of Pottsville, Borough of Port Carbon, Borough of Palo Alto, Schuylkill County.**

The Department has received the following submissions, as submitted by Alfred Benesch and Company on behalf of the Greater Pottsville Area Sewer Authority (Authority), the City of Pottsville, and the Boroughs of Port Carbon and Palo Alto:

—Correspondence, dated October 27, 1994, from Alfred Benesch and Company, transmitting the following items to the Department:

—Corrective Plan and Schedule for the Authority's Main Wastewater Treatment Facility, Revised and Dated October 27, 1993

—Corrective Plan and Schedule for the Authority's West End Wastewater Treatment Facility, Revised February 1, 1994

—Resolution No. 1994-2, Adopted September 12, 1994, by the Council of the Borough of Palo Alto

—Resolution No. 3 of 1994, Adopted July 1994 by the Council of the Borough of Port Carbon

—Resolution No. 145, Adopted July 18, 1994 by the Council of the City of Pottsville

All of the previously-referenced submissions proposed a revision of the Authority's existing Corrective Plan and Schedule (CP&S) for its Main and West End Wastewater Treatment Facilities. The existing CP&S documents will be replaced by the revised CP&S documents, previously listed in this correspondence, for both the Main and West End Wastewater Treatment Facilities. The revised CP&S documents set forth systematic plans to reduce and eliminate the hydraulic and organic overload conditions which currently exist in the authority's wastewater collection, conveyance and treatment facilities. The CP&S documents also contain time schedules for the implementation of the activities listed in each CP&S.

A substantial period of time has elapsed since the CP&S documents were submitted to the Department.

Since the Department was unable to act on each CP&S in a timely manner, the schedules, in the CP&S documents for both the Main and West End Wastewater Treatment Facilities are quickly becoming outdated. The Department still considers the activities listed in the CP&S documents valid. However, the Department will expect a completely updated CP&S for both the Main and West End Wastewater Treatment Facilities to be included in the Official Sewage Facilities Plan Update Revision currently being prepared by Alfred Benesch and Company on behalf of the municipalities and the Authority.

With this in mind, the Department hereby approves both CP&S document submissions. These documents are now to be considered an integral part of each municipality's Official Sewage Facilities Plan.

In accordance with the provisions of the Pennsylvania Sewage Facilities Act, 35 P. S. §§ 750.1—750.20(a) (Act 537), and Chapter 71 of the Department's regulations (25 Pa. Code Ch. 71), the Department will hold the municipalities and the Greater Pottsville Area Sewer Authority responsible for the complete and timely implementation of the activities listed in the CP&S documents previously described. Noncompliance with any of the provisions of the approved CP&S documents may result in Departmental action against each municipality and/or the Greater Pottsville Area Sewer Authority.

Additional wastewater-related improvements, additions, deletions or changes outside those explicitly described in the CP&S documents must be in compliance with the Department's Regulations and be submitted to and approved by the Department in writing.

#### Preamble 3

The following final reports were submitted to the Department of Environmental Protection under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediations standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

### Availability of Technical Support

#### *Governor's Office List*

Once a year on the first Saturday in August, the Governor's Office publishes a list of the nonregulatory guidance documents of all State agencies in the *Pennsylvania Bulletin*. The first publication of this list was in the August 3, 1996, edition of the *Pennsylvania Bulletin*. The next publication of this list will be in the August 2, 1997, *Pennsylvania Bulletin*.

#### *DEP's Technical Guidance Document Inventory*

DEP publishes a list of its technical guidance documents in its Technical Guidance Document Inventory twice a year. The most recent edition of the Inventory is the December 1996 edition. This edition is now available on DEP's World Wide Web site. DEP's Web address is <http://www.dep.state.pa.us>. To go to the location of the

Inventory once on the DEP home page, persons should choose the Public Participation Center/Technical Guidance Document/Basic Inventory.

Bound paper copies of the Inventory are available now for those who do not have access to the Web site. DEP automatically mails a paper copy of the December 1996 Inventory to persons who received a bound paper copy of the June 1996 Inventory. Persons who wish to add their address to the mailing list should call Nina Huizinga at (717) 783-8727.

#### *DEP's Technical Guidance Documents on the World Wide Web*

DEP's Web address is <http://www.dep.state.pa.us>. To go to the location of DEP's Technical Guidance Documents once on the DEP home page, persons should choose the Public Participation Center. The Center contains several links to DEP's Technical Guidance Documents. Persons should look under the heading "Proposals Open to Comment" for the link to "Draft Technical Guidance." Persons should look under the heading "Proposals Recently Finalized" for the link to "Technical Guidance." Persons should look under the heading "Technical Guidance" for one link to the "Basic Inventory" and a second link to "Final Guidance." The final documents menu will list DEP's bureaus. Persons should click on the name of the bureau to get to the list of the documents from that bureau that are currently on the Web. Then, to get to see a document, persons should click on the ID number of the document. DEP will be adding its revised documents to the Web throughout 1997.

#### *Help Protect the Environment: Use the Web and Save Trees*

DEP encourages members of the public who read these announcements in the *Pennsylvania Bulletin* and DEP's *UPDATE* and who have access to the World Wide Web to avoid the needless duplication of paper copies of DEP's technical guidance documents. Persons can download those DEP documents which are posted on DEP's Web site onto their computers and read them electronically. This method saves both paper and money.

#### *Ordering Paper Copies of DEP Technical Guidance*

Although DEP promotes the use of electronic copies of its technical guidance rather than paper copies, there are still reasons for DEP to continue to provide members of the public with paper copies: 1) It may be more convenient to use some documents in a paper form, 2) Not everyone has access to the World Wide Web and 3) Not all DEP documents are on the DEP's Web site yet.

Persons can order an unbound paper copy of the latest Inventory or an unbound paper copy of any of the final documents listed on the Inventory by calling DEP at (717) 783-8727. [Note: This is a change. DEP is now filing these orders in-house. Persons who placed an order with Elwyn, Inc. (the previous printer) on or after April 15, 1997, will have their order forwarded to DEP.]

In addition, bound copies of some of DEP's documents are available as DEP publications. Persons should check with the appropriate bureau for more information about the availability of a particular document as a publication.

#### *Changes to Technical Guidance Documents*

Between publication of its Inventory, DEP announces changes to its technical guidance documents in its weekly newsletter, the *UPDATE* and the *Pennsylvania Bulletin*. Here is the current list of recently finalized documents, draft documents and notices of intended changes to technical guidance.

Persons who have any questions or comments about a particular document should call the contact person whose name and phone number is listed with each document. Persons who have questions or comments about the Inventory, the documents on the World Wide Web, the availability of paper copies or the technical guidance document process in general should call Nina Huizinga at (717) 783-8727.

The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting a letter of interest:

This is the general work effort involved. A more specific and project related scope of work will be outlined for each individual work order developed under the open-end contract.

The second copy of the letter of interest and required forms (see general requirements and information section) shall be sent to: Earl L. Neiderhiser, P.E., District Engineer, District 9-0, 1620 North Juniata Street, Hollidaysburg, PA 16648.

### General Requirements and Information

Firms interested in providing the above work and services are invited to submit two copies of a letter of interest and required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the letter of interest and required information must be submitted to Charles W. Allwein, P.E., Chief, Consultant Agreement Division, 7th Floor, Forum Place, 555 Walnut Street, Harrisburg, PA 17101-1900.

The letter of interest and required information must be received within 13 calendar days of this notice. The deadline for receipt of a letter of interest at the above address is 4:30 p.m. prevailing time of the thirteenth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm or corporation not authorized to engage in the practice of engineering desires to submit a letter of interest, said individual, firm or corporation may do so as part of a Joint Venture with an individual, firm or corporation which is permitted under the State law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate letters of interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation, shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and

controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act), WBEs or combinations thereof.

Proposing DBE firms must be certified at the time of submission of the letter of interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each letter of interest must include the following information, and the information must be packaged and presented in the following order:

1. Transmittal Letter (maximum of two typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable) and the firm's Federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employes of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats and reports issued by the firm.

2. Project Organization Chart (one page, one side)

This chart should show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team)

The Standard Form 255 must be signed, dated and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project. Under Item 4 of this form, Column A should include the number of subconsultant personnel and Column B should include the number of prime consultant personnel to be assigned to work on this project reference number.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than 1 year old as of the date of this advertisement, must accompany each letter of interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor or a

company, unless an acceptable Standard Form 254 for the prime and each subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the letter of interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These forms shall be assembled with the prime's first, followed by the subconsultant's in the same order as they appear in Item 6 of Form 255.

5. Workload Projection Graph (not required for Construction Inspection Services)

A Workload Projection Graph for the prime and each subconsultant should indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next 2-year time frame. The Workload Projection Graph should be submitted for the offices where the work would be performed and should only include the personnel classifications required for providing the advertised services and work.

7. Registration To Do Business

Firms with out-of-State headquarters or corporations not incorporated in Pennsylvania must include, with each letter of interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

This page must show the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Account must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten one sided pages or five double sided pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisements will be made to one of the firms who submitted an acceptable letter of interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's quali-

fication and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this notice and/or to readvertise solicitation for the work and services.

### Acceptance of Rulemaking Petition for Study

The Environmental Quality Board (Board), at its April 15, 1997, meeting, accepted a petition for further study under 25 Pa. Code Chapter 23 (relating to Environmental Quality Board Policy for Processing Petitions).

The petition was submitted by an organization known as Bushkill Falls, which requests the Board to redesignate Little Bushkill Creek, located in Pike County, from "High Quality" to "Exceptional Value."

The Department is currently reviewing this petition and will forward its report evaluating the petition to the Board. If the Department proposes amendments to the existing regulations and the Board concurs, the amendments will be processed as a proposed rulemaking with opportunity for public comment.

Copies of this petition are available from the Environmental Quality Board, P. O. Box 8477, Harrisburg, PA 17105-8477, (717) 787-4526.

### Area Unsuitable for Coal Mining; Shade Township, Somerset County

The Environmental Quality Board (Board) approved the Department of Environmental Protection's (Department) final recommendation not to designate the Shade Township petition area as unsuitable for surface coal mining activities. This recommendation was based on a technical study and evaluation of public comments.

A petition submitted by the Shade Township Supervisors requested that approximately 565 acres of land located northeast of the Village of Reels Corners in Somerset County receive the designation. The petition asserted that further surface mining operations conducted on any coals within the petition area could result in the diminution, loss or degradation of surface and groundwater resources, including aquifer recharge areas used for water supply. A primary concern identified by the petitioners is the potential loss of private water supplies through surface effects of underground mining in the petition area.

The Department's review concluded that while there is a potential that underground mining operations within the petition area could result in diminution, loss or degradation of some water supply wells, there are strata which contain aquifer zones that are suitable as replacement water supplies. Therefore, alternate water supply sources could be developed in the event private water supplies would be affected by surface mining operations.

Notice of the Department's proposed recommendation not to designate the area was published at 26 Pa.B. 5913 (December 7, 1996) with a 30-day public comment period. Copies of the final recommendation, which includes the technical study and comment and response documents addressing comments received on the petition and those addressing the proposed recommendation, are available from Mick McCommons, Bureau of Mining and Reclamation, 2nd Floor, Executive House, P. O. Box 8641, Harrisburg, PA 17105-8461, (717) 787-4761, or through E-mail to McCommons.Milton@a1.dep.state.pa.us.

## FISH AND BOAT COMMISSION

### Closure to Public Fishing; Section of Muddy Creek, York County

The Executive Director of the Fish and Boat Commission, acting under the authority of 58 Pa. Code § 65.25, is taking action to close a small section of Muddy Creek in Muddy Creek Forks, York County, to public fishing on May 8, 9 and 10, 1997.

The Pennsylvania Film Office has requested the cooperation of the Fish and Boat Commission in closing a small section of Muddy Creek in connection with the production of a film at this site. The Fish and Boat Commission has been informed that all roads in the immediate vicinity will be closed to traffic on the dates in question and that the Muddy Creek Forks area will be filled with a great deal of film equipment. Under these circumstances limiting safe public access to this area, the Executive Director finds that this closure to public fishing is necessary and appropriate for the health and safety of persons who fish.

Muddy Creek is an approved trout water and is stocked with trout. The Fish and Boat Commission has reviewed the stocking schedule for this stream to ensure that this brief closure of a small section of stream does not impair fishing opportunities for stocked trout.

Accordingly, a section of Muddy Creek, 100 yards upstream and downstream of the country store in Muddy Creeks Fork, is closed to public fishing from 12:01 a.m. on May 8, 1997 until midnight on May 10, 1997.
