READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GENERAL ASSEMBLY

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

**COMMISSION ON SENTENCING
[204 PA. CODE CH. 303]**

[Correction]

Adoption of Sentencing Guidelines

Errors appeared in the adoption of the Sentencing Guidelines as submitted and published at 35 Pa.B. 1520, 1534, 1537 and 1549 (March 5, 2005). In § 303.15 (relating to offense listing), the Prior Record Points assigned to 18 Pa.C.S. § 2506 INCHOATE Drug Delivery Resulting in Death was printed incorrectly, the listing

and assignment of the omnibus offense gravity scores for 18 Pa.C.S. § 4915 Failure to Comply with Registration of Sexual Offenders Requirements was missing, the listing for 18 Pa.C.S. § 6105 (Persons Not to Possess, Use, Manufacture, Control, Sell, or Transfer Firearms) was printed incorrectly, and the listings for 42 Pa.C.S. § 9795.2(d)(1) and § 9795.2(d)(2) (Failure to Register) and 42 Pa.C.S. § 9796(e)(1) and § 9796(e)(2) (Failure to Verify Residence) were printed incorrectly.

The correct versions of these sections appear in Annex A.

Annex A

TITLE 210. APPELLATE PROCEDURE

PART I. RULES OF APPELLATE PROCEDURE

ARTICLE I. PRELIMINARY PROVISIONS

CHAPTER 3. ORDERS FROM WHICH APPEALS MAY BE TAKEN

FINAL ORDERS

Rule 341. Final Orders; Generally.

* * * * *

(c) *Determination of Finality.* When more than one claim for relief is presented in an action, whether as a claim, counterclaim, cross-claim, or third-party claim or when multiple parties are involved, the trial court or other governmental unit may enter a final order as to one or more but fewer than all of the claims and parties only upon an express determination that an immediate appeal would facilitate resolution of the entire case. Such an order becomes appealable when entered. In the absence of such a determination and entry of a final order, any order or other form of decision that adjudicates fewer than all the claims and parties shall not constitute a final order. In addition, the following conditions shall apply:

(1) The trial court or other governmental unit is required to act on an application for a determination of finality under subdivision (c) within 30 days of entry of the order. During the time an application for a determination of finality is pending, the action is stayed.

* * * * *

Explanatory Comment—2005

In a declaratory judgment action, an order based on a pre-trial motion or petition affirmatively or negatively declaring the rights and duties of the parties is considered a “final order,” as defined by statute, under subdivision (b)(2) of Rule 342. *Nationwide Mut. Ins. Co. v. Wickett*, 563 Pa. 595, 763 A.2d 813 (2000); 42 Pa.C.S. § 7532. An order in a declaratory judgment action sustaining a demurrer, and dismissing some, but not all, defendants is an example of such an order. This type of order does not meet subdivision (b)(1)’s requirement of “finality” that an order must dismiss all claims and all parties. It is nevertheless considered to be a “final order,” because the legislature has defined it as such, by statute, in the Declaratory Judgment Act. It is important to note, however, that following a trial in a declaratory judgment action, an aggrieved party must file post-trial motions as required by Pa.R.C.P. No. 227.1, in order to preserve issues for appeal. *Motorists Mutual v. Pinkerton*, 574 Pa. 333, 830 A.2d 958 (2003); *Chalkey v. Roush*, 569 Pa. 462, 805 A.2d 491 (2002).

CHAPTER 100. RULES OF CONSTRUCTION

Rule 76. Definitions.

The following words and phrases when used in [any rule promulgated by the Supreme Court under the authority of Article V, Section 10(c) of the Constitution of 1968, or of any Act of Assembly,] the Rules of Civil Procedure shall have the following meanings, respectively, unless the context clearly indicates otherwise or the particular word or phrase is expressly defined in the chapter in which the particular rule is included:

* * * * *

“signature,” includes

(1) mark when the individual cannot write, the individual’s name being written near it, and witnessed by another who writes his or her own name,

(2) when used in reference to documents generated by a court of the Unified Judicial System, a handwritten signature, a copy of a handwritten signature, a computer generated signature or a signature created, transmitted, received, or stored by electronic means, by the signer or by someone with the signer’s authorization unless otherwise provided in these rules.

* * * * *

Explanatory Comment

The Administrative Office of Pennsylvania Courts is implementing a statewide system of automated court management. That system generates documents which may contain computer generated signatures. Rule 76 presently defines the term “signature” to include “a mark when the individual cannot write” and gives no guidance with respect to computer generated signatures.

It is proposed that Rule 76 be amended to facilitate the filing of documents generated by the courts of the Unified Judicial System by authorizing the signature on such documents to be an original signature, a copy of a signature, a computer generated signature or an electronic signature. The proposed rule incorporates the definition of signature in Rule of Criminal Procedure 103.

Rule 3132. Setting aside sale.

* * * * *

Official Note: For the time for delivery of the sheriff’s deed to real property, see Rule 3135(a).

Adopted March 30, 1960, effective November 1, 1960.

Rule 3135. Sheriff’s deed to real property. Correction of deed.

(a) When real property is sold in execution and no petition to set aside the sale has been filed, the sheriff, at the expiration of [ten] thirty days after [the filing of the schedule of distribution] the execution sale, shall execute and acknowledge before the prothonotary a deed to the property sold. The sheriff shall forthwith deliver the deed to the appropriate officers for recording and for registry if required. Confirmation of the sale by the court shall not be required.

* * * * *

Explanatory Comment

The proposed amendment to Rule 3135 governing the sheriff’s deed to real property eliminates a gap in the execution rules and dissociates the execution and delivery of the sheriff’s deed from the filing of the schedule of distribution.

Rule 3135(a) currently provides in part that “the sheriff, at the expiration of ten days after the filing of the schedule of distribution, shall execute and acknowledge before the prothonotary a deed to the property sold.” This rule does not take into consideration the second sentence of Rule 3136(a) which provides that a schedule of distribution need not be filed where the property is sold to the plaintiff for costs only. Rule 3135(a) provides no guidance to the sheriff in this instance. The proposed amendment eliminates the gap by providing a definite time period for execution and delivery of the sheriff’s deed applicable to all execution sales, including a sale to the plaintiff for costs only.

Where no petition to set aside the sale is filed, the proposed amendment measures the time for execution and delivery of the sheriff's deed from the date of the sheriff's sale rather than the date of the filing of the schedule of distribution. The revised rule provides that the delivery of the deed is not dependent on the filing of the schedule of distribution and makes applicable to all execution sales a uniform time period for execution and delivery of the sheriff's deed.

Under the current system, there can be a significant and unpredictable delay in the delivery of the sheriff's deed to the purchaser. The amended rule provides both certainty and promptness with respect to the execution and delivery of the sheriff's deed. Parties will have a definite time period in which to file a petition to set aside a sale of real property, i.e., thirty days from the date of the sale. The prompt delivery of the sheriff's deed to the purchaser will facilitate the change in ownership of the property and enable the purchaser to enjoy the benefits and responsibilities with respect to that ownership.

Rule 3132 governing the setting aside of the sale remains unchanged. However, a note has been added cross-referring to revised Rule 3135(a) which ties the time for the delivery of the deed to the date of the execution sale.

TITLE 231. RULES OF CIVIL PROCEDURE

PART I. GENERAL

CHAPTER 1300. COMPULSORY ARBITRATION

Subchapter A. RULES

Rule 1311.1 Procedure on Appeal. Admission of Documentary Evidence.

(a)(1) [The] Except as otherwise provided by subdivision (a)(2), plaintiff may stipulate to [\$15,000.00] \$25,000.00 as the maximum amount of damages recoverable upon the trial of an appeal from the award of arbitrators. The stipulation shall be filed and served upon every other party at least thirty days from the date the appeal is first listed for trial.

(2)(i) A court may provide by local rule that a plaintiff may stipulate to \$15,000.00 as the maximum amount of damages recoverable upon the trial of an appeal from the award of arbitrators

(ii) The local rule shall be designated Local Rule 1311.1 and shall be promulgated, published and effective as provided by Rule 239.8(b) through (d).

Official Note: A local rule promulgated under subdivision (a)(2) must be published on the UJS Web Portal of the Administrative Office of Pennsylvania Courts.

* * * * *

(e) The stipulation required by subdivision (a)(1) shall be substantially in the following form:

(Caption)

Stipulation to Limitation of Monetary Recovery Pursuant to Rule 1311.1

To: _____ :
(Name of Party/Parties)

_____, plaintiff, stipulates to (\$15,000.00) (\$25,000.00) as the maximum amount of damages recoverable upon the trial of the appeal from the award of arbitrators in the above captioned action.

(Name of Plaintiff)

(Attorney for Plaintiff)

(Date)

Official Note: The plaintiff must set forth maximum recoverable damages of \$25,000.00 or of \$15,000.00 if the court has limited the application of the rule by local rule pursuant to subdivision (a)(2).

The term "plaintiff" includes a defendant who is the plaintiff in a counterclaim.

* * * * *

Explanatory Comment

Rule 1311.1 governing the admission of documentary evidence upon the trial de novo of an appeal from the award of arbitrators in compulsory arbitration became

effective September 1, 2003. The response of the bench and bar has been overwhelmingly favorable.

The rule as promulgated applies to appeals in which the plaintiff stipulates to \$15,000.00 as the maximum amount of recoverable damages in the appeal. In light of the favorable reception to the rule, it is proposed that the maximum amount of recoverable damages be increased to \$25,000.00.

The rule also provides that a local court may continue the present maximum amount of recoverable damages at \$15,000.00. However, a court choosing to maintain the present limit must promulgate a local rule numbered Local Rule 1311.1 so stating and publish it on the UJS Web Portal according to the procedures set forth in Rule 239.8.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

COAL AND CLAY MINE SUBSIDENCE INSURANCE BOARD

[25 PA. CODE CH. 401]

Mine Subsidence Fund

The Coal and Clay Mine Subsidence Insurance Board (Board) amends Chapter 401 (relating to mine subsidence fund), regarding the administration of the Mine Subsidence Insurance Fund (Fund), to read as set forth in Annex A. The final-form rulemaking will improve the understanding of Mine Subsidence Insurance (MSI) policyholders and applicants relevant to terms and provisions of insurance coverage.

This order was adopted by order of the Board at its meeting of December 15, 2004.

A. *Effective Date*

The final-form rulemaking is effective upon publication in the *Pennsylvania Bulletin*.

B. *Contact Persons*

For further information, contact Lawrence Ruane, Administrator, Mine Subsidence Program, P. O. Box 8462, Rachel Carson State Office Building, Harrisburg, PA 17105-8462, (717) 783-9590; or Marc Roda, Assistant Counsel, Bureau of Regulatory Counsel, P. O. Box 8464, Rachel Carson State Office Building, Harrisburg, PA 17105-8464, (717) 787-7060. Persons with a disability may use the AT&T Relay Service, (800) 654-5984 (TDD users) or (800) 654-5988 (voice users). This final-form rulemaking is available on the Department of Environmental Protection's (Department) website: www.dep.state.pa.us (DEP Keyword: Participate).

C. *Statutory Authority*

The final-form rulemaking is being made under the authority of section 19 of the act of August 23, 1961 (P. L. 1068 No. 484) (52 P. S. § 3219) (Act 484), which provides that the Board shall have the power to make rules and regulations and other conditions of the policies.

D. *Background and Summary of the Amendment*

The Fund was created in 1961 to provide a reliable source of compensation for losses caused by coal and clay mine subsidence, a risk excluded from standard homeowners insurance policies. The Fund is vital to the economic well being of this Commonwealth's coal mining regions because it underwrites potential losses to real property and thereby facilitates the collateralization of real property that is needed for economic growth in the housing industry.

Section 1 of Act 484 (52 P. S. § 3219) created the Board. Its members consist of the Secretary of the Department as Chairperson, the State Treasurer and the Insurance Commissioner. A listing of Board members is available upon request from Lawrence Ruane, whose name, address and phone number appear in Section B of this preamble. Section 19 of Act 484 provides that "the Board may make such rules and regulations and such other conditions of the policies as it deems just and expedient in keeping with the fulfillment of the purposes herein set out . . ."

Chapter 401 codifies terms and definitions used by the Fund, establishes procedures that are followed in the administration of the Fund and the Mine Subsidence Program and establishes static provisions of coverage, such as eligibility criteria, that are not expected to be routinely changed. In prior amendments to Chapter 401, more dynamic provisions of the insurance policy, that is, coverage limits, premium surcharges and policy durations, which are coverage provisions that are continually reviewed and revised by the Board, were inappropriately added to Chapter 401. This final-form rulemaking will remove the dynamic provisions of coverage from Chapter 401 and thereby facilitate the Board's efforts to provide policyholders with relevant coverage while safeguarding the solvency of the Fund. It will also eliminate confusion and the potential for conflicts between provisions in Chapter 401 and provisions in the insurance policy. This final-form rulemaking also serves to define that agents of the Board are employees of the Department who work on behalf of the Board. Finally, it codifies the established practice of the Board to make coverage effective upon the date of the Board's receipt of a completed application if the corresponding premium in full is also received within 80 days of the receipt of the application and all the statutory and regulatory eligibility requirements are met.

The Department presented the proposed rulemaking to the Board at a meeting held on December 18, 2003, wherein the Board adopted it. The proposed rulemaking was subsequently published at 34 Pa.B. 1329 (March 6, 2004) with a 30-day comment period that ended on April 5, 2004. Due to the minor and uncontroversial nature of the proposed rulemaking, no public meetings or hearings were held. The proposed rulemaking was provided to the Independent Regulatory Review Commission (IRRC) on March 31, 2004. IRRC provided its comments to the Board on May 5, 2004.

E. *Summary of Changes to the Proposed Rulemaking*

The Board revised proposed § 401.1 (relating to definitions) by adding a definition of the term "agent" to establish that throughout Chapter 401 the term refers to employees of the Department who work on behalf of the Board. The Board also revised proposed § 401.13 (relating to coverage limits and premiums for insurance) to clarify that coverage is effective retroactive to the date of the submission of a completed application if the corresponding premium-in-full is received within 80 days of the receipt of a completed application.

F. *Summary of Comments and Responses on the Proposed Rulemaking*

Two comments were received on the proposed rulemaking. One comment was from the Insurance Agents and Brokers of Pennsylvania, a trade association representing independent insurance producers licensed in this Commonwealth, who expressed support for the rulemaking. The other comment was from IRRC, who recommended a definition be provided for the term "agent," which is incorporated into the final-form rulemaking.

G. *Benefits, Costs and Compliance*

Benefits

This final-form rulemaking benefits the Fund and its policyholders by eliminating conflicts between insurance coverage provisions in § 401.13 and those contained in the insurance policy, which is the contract between the Fund and its policyholders. Those conflicts are eliminated

by removing from § 401.13 provisions of insurance coverage that periodically change, such as coverage limits, because they are more appropriately provided in the insurance policy, where they may be adopted by the Board in open public meetings. As a result, the Board will be more agile when making adjustments to the provisions of coverage, which is what Act 484 intends. The Fund and its policyholders will also benefit from clarity that this final-form rulemaking provides through improvements made to definitions in § 401.1 and through clarifications in § 401.13, concerning effective date of coverage.

Compliance Costs

There are no costs associated with the final-form rulemaking. However, removing the coverage provisions from § 401.13 so that they are only provided in the insurance policy will not only eliminate conflicts but it will also eliminate the need to promulgate regulations when changes in the insurance policy are implemented. These efficiencies will result in significant cost savings, which ultimately may be conveyed to policyholders in the form of lower premium rates.

Compliance Assistance Plan

The final-form rulemaking does not require a compliance assistance plan because it does not propose new or modify existing compliance provisions. In addition to information included as part of subsequent MSI policies, these amendments will be highlighted on the MSI website (www.pamsi.org) and, with the assistance of the mortgage insurance industry, other mass media avenues such as newspaper and radio announcements will be utilized.

Paperwork Requirements

No additional paperwork will result from this final-form rulemaking.

Pollution Prevention

This final-form rulemaking does not result in pollution or pollution prevention.

H. Sunset Review

This final-form rulemaking will be reviewed in accordance with the sunset review schedule published by the Department to determine whether the regulation effectively fulfills the goals for which it was intended.

I. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on March 31, 2004, the Department submitted a copy of the notice of proposed rulemaking, published at 34 Pa.B. 1329, to IRRC and the Chairpersons of the Senate and House Environmental Resources and Energy Committees for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P.S. § 745.5a(j.2)), on March 9, 2005, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on March 10, 2005, and approved the final-form rulemaking.

J. Findings

The Board finds that:

(1) Public notice of the proposed rulemaking was given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations promulgated there under, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided as required by law and all comments received were considered.

(3) The modifications to the amendments do not enlarge the purpose of the proposed rulemaking published at 34 Pa.B. 1329.

(4) These regulations are necessary and appropriate for administration and enforcement of the authorizing acts identified in Section C of this Preamble and in the public interest.

K. Order

The Board, acting under the authorizing statutes, orders that:

(a) The regulations of the Department of Environmental Protection, 25 Pa. Code Chapter 401, are amended by amending §§ 401.1 and 401.13 to read as set forth in Annex A.

(b) The Chairperson shall submit this order and Annex A to the Office of General Counsel and the Office of Attorney General for approval and review as to legality and form as required by law.

(c) The Chairperson shall submit this order and Annex A to IRRC and the Senate and House of Environmental Resources and Energy committees as required by the Regulatory Review Act.

(d) The Chairperson of the Board shall certify this order and Annex A and deposit them with the Legislative Reference Bureau, as required by law.

(e) This order shall take effect immediately.

KATHLEEN A. MCGINTY,

Corrective Amendment to 49 Pa. Code § 35.201

The State Real Estate Commission has discovered a discrepancy between the agency text of 49 Pa. Code

§ 35.201 (relating to definitions) as deposited with the Legislative Reference Bureau and the official version of 49 Pa. Code § 35.201 as published at 34 Pa.B. 6530, 6534 (December 11, 2004), codified in the February 2005 *Pennsylvania Code Reporter* (Master Transmittal Sheet No. 363), and as currently appearing in the *Pennsylvania Code*. When the amendments at 34 Pa.B. 6530, 6534 were codified, the term "real estate school" should have been deleted.

Therefore, under 45 Pa.C.S. § 901: The State Real Estate Commission has deposited with the Legislative Reference Bureau a corrective amendment to 49 Pa. Code § 35.201. The corrective amendment to 49 Pa. Code § 35.201 is effective as of December 11, 2004, the date the defective official text was published in the *Pennsylvania Bulletin*.

The correct version of 49 Pa. Code § 35.201 appears in Annex A, with ellipses referring to the existing text of the regulation.

PROPOSED RULEMAKING

DEPARTMENT OF GENERAL SERVICES DEPARTMENT OF AGRICULTURE

[70 PA. CODE CHS. 2, 10 AND 110]

General Provisions; Device Type Approval and State Metrology Laboratory

The Department of General Services (DGS) and the Department of Agriculture (Department) propose to establish fees for testing services performed by the State Metrology Laboratory. The proposed rulemaking amends the Department's current regulations in §§ 2.1 and 10.10 (relating to definitions; and fees) and adds Part V (relating to State Metrology Laboratory), administered by Department of General Services, to read as set forth in Annex A.

Statutory Authority

This proposed rulemaking is made under the authority of 3 Pa.C.S. §§ 4101—4194 (relating to Consolidated Weights and Measures Act) (act). Section 4178 of the act (relating to fees) requires that DGS establish, by regulation, fees for metrology laboratory calibration, type evaluation and other testing services. Section 4190 of the act (relating to rules and regulations) provides the Department with the authority to regulate as necessary to implement the act.

Purpose of the Proposed Rulemaking

The proposed rulemaking will fulfill the statutory requirement that DGS establish, charge and collect the fees described in section 4178 of the act. Currently, the State Metrology Laboratory (Laboratory) provides these services without charge. The proposed rulemaking is necessary to comply with the act. The proposed rulemaking will ensure that taxpayer dollars are not used to pay for testing by the Laboratory when user fees are statutorily authorized and required.

Background

Reorganization Plan No. 1 of 1986 (71 P. S. § 751-38) transferred the Department's statutory functions, powers and duties regarding weights and measures laboratory testing to DGS. The Department retained general weights and measures enforcement responsibility. This division of responsibilities between DGS and the Department was repeated in the act, which took effect in 1997.

DGS manages and operates the Laboratory as part of the Division of Quality Assurance in the Bureau of Purchases under the Deputy Secretary for Procurement.

In 1999, the Department promulgated extensive regulations under authority of the act. In particular, § 10.10 states that the Laboratory may charge a fee for device type approval. Under the act, the Laboratory is required to charge and collect fees for metrology calibration and other testing in addition to device type evaluation. A fee schedule was not included in the regulations adopted in 1999.

The proposed rulemaking would establish a schedule of fees and add relevant definitions. As structured, it would

also allow DGS to revise the fee schedule in the future without involving the Department in the promulgation process.

Overview of the Proposed Rulemaking

The proposed rulemaking amends § 10.10 to clarify that DGS will charge fees for metrology testing as required by the act and adds definitions to § 2.1. The proposed rulemaking also adds Chapter 110, in which the DGS adopts procedures and sets fees for Laboratory testing services.

Affected Individuals and Organizations

Each year, the Laboratory provides metrology calibration, type evaluations and testing for several hundred persons, who sell, install, service or repair commercially used weighing and measuring devices and who must have the accuracy of their field standards verified under § 6.3 (relating to field standards). Last year, the Laboratory provided approximately 740 services, including services to approximately 400 private persons. Under the proposed rulemaking, the Laboratory will charge these persons fees for testing now provided for free.

Cities and counties required to procure standards of weights and measures and any additional equipment in accordance with section 4123 of the act (relating to city and county standards and equipment), regarding city and county standards and equipment, are exempt from the fee requirements with respect to the calibration, evaluation or other testing of those standards and equipment. See section 4178 of the act.

The general public will benefit because the fees generated will pay for services now paid for from taxpayer dollars.

Fiscal Impact

Commonwealth: The estimated annual revenue to the Commonwealth (DGS) from the proposed rulemaking is approximately \$105,000. The proposed rulemaking should not result in additional costs to the Commonwealth.

Public Sector: No other government entity will incur any costs or realize any savings.

General Public: The proposed rulemaking will impose no costs and have no fiscal impact upon the general public.

Affected Businesses: The affected businesses, which use Laboratory services, will have to pay the fees set in the proposed rulemaking. The anticipated average fee per user is estimated to be \$262.50.

Paperwork Requirements

The proposed rulemaking will result in an increase in paperwork for the Laboratory, which will be required to issue invoices, collect payments and transmit payments to the State Treasury. Under section 4193(c) of the act (relating to disposition of funds), the Treasury Department will have an increase in paperwork to reflect the receipt of the fees from the DGS and to credit the fees collected to the general government appropriations of the DGS for the operation and maintenance of the Laboratory.

Effective Date

The proposed rulemaking will take effect upon publication in the *Pennsylvania Bulletin*.

Public Comments and Contact Person

Interested persons are invited to submit written comments regarding the proposed rulemaking to Mary Benefield Seiverling, Senior Counsel, Office of Chief Counsel, Department of General Services, 603 North Office Building, Harrisburg, PA 17125, (717) 787-5599 within 30 calendar days after the date of publication of this proposed rulemaking in the Pennsylvania Bulletin.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 20, 2005, DGS and the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC). On that same date, the Department submitted a copy of this proposed rulemaking to the Chairpersons of the House Agriculture and Rural Affairs Committee and the Senate Agriculture and Rural Affairs Committee and DGS submitted a copy of this proposed rulemaking to the Chairpersons of the House Committee on State Government and the Senate Committee on State Government. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the DGS and the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

DONALD T. CUNNINGHAM, Jr., Secretary Department of General Services

DENNIS C WOLFF, Secretary Department of Agriculture

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 65]

Fishing; Miscellaneous Special Regulations

The Fish and Boat Commission (Commission) proposes to amend Chapter 65 (relating to special fishing regulations). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The proposed rulemaking relates to permits for the use of cast nets or throw nets for the taking of gizzard shad and alewife on Lake Arthur in Butler County.

A. *Effective Date*

The proposed rulemaking, if approved on final-form, will go into effect immediately upon publication of an order in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the proposed rulemaking, contact Laurie E. Shepler, Chief Counsel, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7815. This proposed rulemaking is available on the Commission's website: www.fish.state.pa.us.

C. *Statutory Authority*

The proposed amendment to § 65.24 (relating to miscellaneous special regulations) is published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes).

D. *Purpose and Background*

The proposed rulemaking is designed to update, modify and improve the Commission's fishing regulations. The specific purpose of the proposed amendments is described in more detail under the summary of proposal.

E. *Summary of Proposal*

Several years ago, the Commission promulgated a regulation pertaining to the issuance of permits for the use of cast nets for taking live gizzard shad and alewife at Raystown Lake in Huntingdon County. Live gizzard shad and alewife have proved to be a popular bait for striped bass but are difficult to capture by means of conventional seines and nets less than or equal to 4 feet in diameter. Subsequently, the Commission amended its regulation at Raystown Lake to increase the maximum size from 12 to 20 feet in diameter.

A recent application was filed for use of larger cast nets at Lake Arthur to capture alewife for striped bass angling. This application was denied as the cast net permit applies only to Raystown Lake. The use of a net such as this at Lake Arthur warrants consideration given the presence of surface schooling alewife for much of the year and the desire to enhance striped bass angling there. The Commission has determined that using larger cast nets on Lake Arthur is feasible and can be done without adverse impacts. This regulation will enhance striped bass fishing in the region. The Commission therefore proposes that § 65.24 be amended to read as set forth in Annex A.

F. Paperwork

The proposed rulemaking will increase paperwork in that individuals who wish to use cast nets or throw nets to take gizzard shad and alewife on Lake Arthur will be required to complete an application and, if approved, the Commission will issue a permit. The Commission estimates that it will issue less than 100 permits each year for the use of cast nets or throw nets on Lake Arthur. No new paperwork requirements will be created because the Commission already issues net permits under section 2902 of the code (relating to net permits).

G. Fiscal Impact

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose no new costs on the private sector or the general public. Under section 2902 of the code, the Commission has the authority to issue net permits for a fee of \$10.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.state.pa.us/Fish/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

[58 PA. CODE CH. 65]

Fishing; Special Trout Fishing Regulations

The Fish and Boat Commission (Commission) proposes to amend Chapter 65 (relating to special fishing regulations). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The proposed rulemaking would simplify the existing special trout fishing regulations by combining certain existing programs and making certain conditions consistent across all special trout regulation programs. The proposed rulemaking has a focus on preserving opportunities for the harvest of trophy trout; however, the Commission would also like to receive public comment on an alternative simplification scheme that has a focus on catch and release.

A. Effective Date

The proposed rulemaking, if approved on final-form, will go into effect on January 1, 2006.

B. Contact Person

For further information on the proposed rulemaking, contact Jason E. Oyler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7827. This proposed rulemaking is available on the Commission's website: www.fish.state.pa.us.

C. Statutory Authority

The proposed amendments to §§ 65.2, 65.3, 65.4a, 65.5, 65.6, 65.7 and 65.24 and the addition of §§ 65.14 and 65.15 (relating to catch and release fly-fishing only areas; and catch and release all-tackle areas) are published under the statutory authority of sections 2102 and 2307 of the code (relating to rules and regulations; and waters limited to specific purposes).

D. Purpose and Background

The proposed rulemaking is designed to simplify, improve and make consistent the Commission's special trout regulations. The specific purpose of the proposed amendments is described in more detail under the summary of proposals.

E. Summary of Proposals

The Commission is committed to simplifying regulations used in trout management. Although a 1997 study of ex-license buyers indicated that the complexity of regulations was not a primary reason for not purchasing a fishing license, attendees at the Trout Summit 2002 and members of the Trout Management Discussion Group have encouraged the Commission to simplify these regulations. Results of studies on waters managed with these special regulations have shown that benefits are difficult to discern among and between the different programs. The Commission believes that consolidation and simplification is possible and that the Commission will be able to continue to conserve fish while reducing impediments to fishing.

Consolidation has other benefits as well. It will reduce the number of different signs/posters that are necessary to adequately inform anglers of the special regulations. It will also increase angler understanding and compliance with the regulations with fewer programs to remember.

Currently, there are a number of special regulations programs used in trout stream management. They include Delayed Harvest Fly-Fishing-Only (FFO), Heritage Trout Angling, Trophy Trout, All-Tackle (AT) Trophy Trout, Catch-and-Release, Delayed Harvest Artificial Lures Only (ALO), Wild Brook Trout Enhancement and at least three different miscellaneous special regulations. The Commission does not envision any changes to the recently created Wild Brook Trout Enhancement Program. The Commission envisions only minor changes to the Delayed Harvest ALO Program to encourage consistency of certain conditions among all special trout regulation programs. Earlier this year, the Commission eliminated the Selective Harvest and AT Selective Harvest Programs. The Commission now proposes to continue its efforts to simplify and consolidate special trout regulations in this notice of proposed rulemaking.

As part of the simplification process and to promote consistency within the special trout regulations programs, the Commission proposes eliminating the barbless hook

requirements, establishing uniform 24 hours of legal angling and eliminating restrictions on wading. Given problems in “pinching” barbs on tiny flies, difficulty in determining whether or not “pinched” barbs are legal or not, lack of substantial scientific literature supporting barbless hooks as a means to reduce mortality of released fish, and limited availability of manufactured barbless hooks, the Commission proposes discontinuing the barbless hook requirement. The Commission proposes that fishing should be permitted on a 24-hour basis rather than the “1 hour before sunrise to 1 hour after sunset” requirement currently on some, but not all, special trout regulations waters. The Commission further proposes that wading should be permitted in all waters.

The proposed rulemaking will result in fewer programs and simplified regulations within programs. In undertaking the simplification of these special trout regulations, the Commission was presented with two options: one focusing on catch and release and the other focusing on trophy trout. The primary difference between the two alternatives is that the option focusing on trophy trout contains a provision for taking one large trout and the option focusing on catch and release does not.

The programs under the two options are shown on the following chart:

2005 Program	Commission Proposal Trophy Trout Focus	Alternative C & R Focus
Wild Brook Trout	Wild Brook Trout	Wild Brook Trout
Delayed Harvest ALO	Delayed Harvest ALO	Delayed Harvest ALO
Heritage Trout Angling Delayed Harvest FFO	Catch-and-Release FFO	Catch-and-Release FFO
Catch-and-Release Trophy Trout (14-inch)	Trophy Trout ALO (24-inch)	Catch-and-Release ALO
AT Trophy Trout (14-inch) Allegheny River (14-inch)	Trophy Trout AT (24-inch)	Catch-and-Release AT
Spring Creek Valley Creek	Catch-and-Release AT	Catch-and-Release AT

The proposal for which the Commission primarily seeks public comment contains the trophy trout focus. However, the Commission also seeks public comment on an alternative proposal that focuses on catch and release and would not allow the harvesting of any fish in certain special regulation waters.

The Commission’s primary proposal retains the Wild Brook Trout Enhancement Program and Delayed Harvest ALO (with time of day fishing restriction removed) and consolidates the remaining eight special regulations into four programs, including the new Catch and Release FFO, the renamed Trophy Trout AT, the renamed Trophy Trout ALO and the new Catch and Release AT.

The Commission’s proposal has the following components:

(1) The Commission proposes establishing a new program called Catch and Release FFO. The Heritage Trout Angling Program and the Delayed Harvest FFO Program will be eliminated, and all waters currently in them (7 waters in the Heritage Program and 26 waters in the Delayed Harvest FFO Program) will be designated into the new Catch-and-Release FFO Program. This program will provide no closed season with no harvest, no hourly restrictions, no restriction on wading and no requirement for barbless hooks. During the substantial public commentary regarding the proposal to permit AT on delayed harvest waters during the harvest season, a large segment of the fly fishing community indicated a preference for no-harvest in the current Delayed Harvest FFO Program. The main change for current delayed harvest FFO waters is the removal of the former summer harvest season.

The effect of the proposed amendments are shown on the following chart:

Action	Program	Number Waters	Harvest Season	Size Limit	Creel Limit	Tackle
New Program § 65.14	Catch and Release FFO	33	None	—	None	FFO
Eliminate § 65.2	Delayed Harvest FFO Areas	26	June 15 through Labor Day	9"	3	FFO
Eliminate § 65.3	Heritage Trout Angling Program	7	None	—	None	FFO

(2) The Commission proposes to rename the All Tackle Trophy Trout to Trophy Trout All Tackle. This program will offer a year-round harvest season (increased from mid-April to Labor Day) with a 24-inch minimum length limit (increased from 14 inches), a one trout daily creel limit and no wading restrictions. The area of the Allegheny River, Warren County, will be moved from miscellaneous special regulations in § 65.24 (relating to miscellaneous special regulations) to the Trophy Trout AT program in renamed § 65.4a (relating to all-tackle trophy trout).

The effect of the proposed changes is shown in the following table:

Action	Program	Number Waters	Harvest Season	Size Limit	Creel Limit	Tackle
New Name § 65.4a	Trophy Trout AT	5	Year-round	24"	1	AT
Rename § 65.4a	AT Trophy Trout	4	Mid-April through Labor Day	14"	2	AT
Remove from § 65.24	Allegheny River, Warren County	1	Mid-April through Labor Day	14"	2	AT

(3) The Commission proposes renaming the existing Trophy Trout Program to the Trophy Trout Artificial Lures Only Program and eliminating the existing Catch and Release Program. All waters in the existing Trophy Trout Program will remain in the renamed program and all waters in the existing Catch and Release Program will be designated to the Trophy Trout ALO Program. Tackle for this program will remain ALO as currently specified for both existing programs, except barbed hooks will now be allowed. Fishing will be permitted year-round with no hourly restriction and no taking of bait fish or fish bait. A 24 inch minimum length limit and a one trout per day creel limit will apply.

The effect of these proposed amendments is shown in the following table:

Action	Program	Number Waters	Harvest Season	Size Limit	Creel Limit	Tackle
New Name § 65.7	Proposed Trophy Trout ALO	26	Year-round	24-inch	1	ALO
Rename § 65.7	Trophy Trout Program	8	Mid-April through Labor Day	14-inch	2	ALO
Eliminate § 65.5	Catch-and-Release Areas	18	None	—	—	ALO

(4) The Commission proposes creating a new program called Catch and Release All-Tackle. One miscellaneous special regulation water, Spring Creek, Centre County, and one water designated under § 65.23 (relating to special restrictions on polluted zones), Valley Creek, Chester County, will be designated into this new program.

The effect of the proposed amendments is shown in the following table:

Action	Program	Number Waters	Harvest Season	Size Limit	Creel Limit	Tackle
New Program § 65.16	Catch and Release AT	2	None	—	None	AT
Remove from § 65.23	Valley Creek	1	None	—	None	Valley Forge National Park special bait restrictions apply
Remove from § 65.24	Spring Creek	1	None	—	None	AT

(5) The Commission proposes amending the Delayed Harvest ALO Program to remove the daily fishing time restriction and to clarify that wading is permitted and a current trout/salmon stamp is required.

Accordingly, the Commission proposes that §§ 65.2, 65.3, 65.4a, 65.5, 65.6, 65.7 and 65.24 be amended to read as set forth in Annex A. The Commission further proposes the addition of §§ 65.14 and 65.15 to read as set forth in Annex A.

In addition to the proposal containing the preceding components, the Commission also seeks public comment on an alternative proposal that focuses on catch and release. The proposal focusing on catch and release is similar to the proposal focusing on trophy trout in that it retains the Wild Brook Trout Enhancement Program and the Delayed Harvest ALO (with the time of day fishing restrictions removed) and in that the Heritage Trout

Angling Program and Delayed Harvest FFO Program will be eliminated and all waters in them will be designated into a new Catch and Release FFO Program. However, the Catch and Release Program and Trophy Trout Program, under the catch and release alternative, would become Catch and Release ALO fishing areas. Under the alternative proposal, the AT Trophy Trout waters and the Allegheny River special regulation area would be combined with Spring and Valley Creeks into a new Catch and Release AT Program. The catch and release alternative proposal would prohibit harvesting of any trout on waters regulated under the Catch and Release FFO, Catch and Release ALO and Catch and Release AT Programs.

F. Paperwork

The proposed rulemaking will not increase paperwork and will create no new paperwork requirements.

G. *Fiscal Impact*

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose no new costs on the private sector or the general public.

H. *Public Comments*

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 45 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.state.pa.us/Fish/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

STATE BOARD OF OSTEOPATHIC MEDICINE

[49 PA. CODE CH. 25] Deletion of Exam Fees

The State Board of Osteopathic Medicine (Board) proposes to amend §§ 25.223 and 25.231 (relating to applications for examination; and schedule of fees) by deleting references to examination applications and examination fees to read as set forth in Annex A.

A. Effective Date

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin*.

B. Statutory Authority

The proposed rulemaking is authorized under section 13.1 of the Osteopathic Medical Practice Act (act) (63 P. S. § 271.13a).

C. Background and Purpose

The Board is proposing to eliminate references to Nationally established examination fees over which the Board has no control or involvement. The General Assembly has indicated its preference for the recognition of National uniform examinations and grading services in accordance with section 812.1 of The Administrative Code of 1929 (71 P. S. § 279.3a). Over the past several years, National uniform examinations have been developed for every category of license the Board issues. The fees for the examinations are established by the National examiners and are subject to being changed periodically by the National examiner. Thus, it is unnecessary and impractical for the Board to continue to publish the National examiners’ examination fees in the Board’s regulations. Because examination fees are no longer established by

the Board, section 13.1 of the act is inapplicable as to National uniform examinations. Thus, the Board is eliminating reference to these examination fees. Also, the Board is proposing to eliminate the reference to the osteopathic diagnosis and manipulative therapy examination fee. This examination is administered by Professional Credential Services (PES) and the applicant for this examination pays the examination fee directly to PES.

In addition, the Board is taking this opportunity to delete references in § 25.223(b) to specific dates for the administration of examinations and related deadlines for the submission of examination applications because the examinations are now computer-based, rather than written, and therefore are administered regularly as scheduled by the applicant.

D. Fiscal Impact and Paperwork Requirements

The proposed rulemaking would have no adverse fiscal impact on the Commonwealth or its political subdivisions or members of the private sector who apply for examinations. The proposed rulemaking will impose no additional paperwork requirements upon the Commonwealth, political subdivisions or the private sector.

E. Sunset Date

The Board continuously monitors its regulations. Therefore, no sunset date has been assigned.

F. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 20, 2005, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

G. Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Beth Sender Michlovitz, Counsel, State Board of Osteopathic Medicine, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

STATE BOARD OF SOCIAL WORKERS, MARRIAGE AND FAMILY THERAPISTS AND PROFESSIONAL COUNSELORS

[49 PA. CODE CHS. 47—49] Continuing Education

The State Board of Social Workers, Marriage and Family Therapists and Professional Counselors (Board) proposes to amend §§ 47.32—47.37 and 47.41 and add §§ 48.31—48.42 and 49.31—49.42 (relating to continuing education) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

Under section 18(a) of the Social Workers, Marriage and Family Therapists and Professional Counselors Act (act) (63 P. S. § 1918(a)), the Board is authorized to require evidence of continuing education as a condition of license renewal.

Background and Purpose

With the enactment of the act of December 21, 1998 (P. L. 1017, No. 136), the Board now licenses marriage and family therapists, clinical social workers and professional counselors along with social workers. The Board's current regulations provide for continuing education of social workers only. The proposed rulemaking will amend the provisions pertaining to continuing education for social workers in Chapter 47 to extend the continuing education requirement to clinical social workers and add similar provisions in Chapters 48 and 49, which will include continuing education requirements for marriage and family therapists and professional counselors respectively. This proposed rulemaking will require 30 clock hours of continuing education as a condition of biennial renewal of a license beginning with the renewals in 2007.

Description of Proposed Rulemaking

The proposed rulemaking would amend §§ 47.32—47.37 and 47.41. These sections currently contain the continuing education requirements for licensed social workers. These sections would be amended to extend the continuing education requirements to clinical social workers. In addition, 3 of the 30 hours of continuing education would be required to be completed in topics related to ethical issues. The Board also proposes to add §§ 48.31—48.42 to include continuing education requirements for

marriage and family therapists and §§ 49.31—49.42 to including continuing education requirements for professional counselors.

Sections 48.31 and 49.31 (relating to definitions) would define the terms “biennium,” “certification,” “clock hour” and “provider.” Section 47.32 (relating to requirement for biennial renewal) would be amended to extend the continuing education requirement to licensed clinical social workers effective with the 2007 renewals and also to require that at least 3 of the required 30 clock hours be completed in topics related to ethical issues. Similarly, §§ 48.32 and 49.32 (relating to requirement for biennial renewal) would require marriage and family therapists and professional counselors to complete, as a condition of biennial renewal for 2007 renewals and thereafter, 30 clock hours of continuing education offered by approved providers which must include at least 3 clock hours in ethical issues. Any excess hours may not be carried over to the next biennium.

Section 47.33 (relating to acceptable continuing education courses and programs) would be amended and §§ 48.33 and 49.33 (relating to acceptable continuing education courses and programs) would be added to explain that acceptable continuing education courses and programs would be those that are geared toward the master's level practitioner and must pertain to the scope of practice appropriate to the particular license. Subsection (d) would allow a licensee to accrue up to 20 of the required clock hours in home study courses offered by approved providers so long as the course has specific learning objectives and the provider evaluates the extent of learning that has taken place.

Section 47.34 (relating to registration of continuing education providers, courses and programs) would be amended and §§ 48.34 and 49.34 (relating to registration of continuing education providers who offer one course or program) would be added to clarify the requirements for the registration of continuing education providers who offer or intend to offer only one course or program. A provider could be an agency, organization, institution, association, center or individual. These provisions set forth the information required from the applicant and permit the Board to reject a submitted course or program which is outside the scope of practice for that particular license or is unacceptable because of presentation, content or failure to meet the standards under §§ 47.35, 48.35 and 49.35 (relating to standards for courses and programs). Applicants who are disapproved by the Board will receive a letter explaining the reason for disapproval and inform the applicant of the opportunity to submit a revised application within 10 days of receipt of the disapproval. Subsection (f) allows the Board to withdraw approval of a provider for cause and provides that the provider will be notified in writing of the reasons for withdrawal of approval.

Section 47.35 would be amended and §§ 48.35 and 49.35 would be added to set out the standards that courses and programs must meet in order to be approved by the Board. Section 47.36 (relating to sources of continuing education courses and programs) would be amended and §§ 48.36 and 49.36 (relating to preapproved providers of continuing education courses and programs for marriage and family therapists; and preapproved providers of continuing education courses and programs for professional counselors) would be added to list the providers that the Board has determined have already met the standards of §§ 47.35, 48.35 and 49.35 and therefore are considered to have preapproval status.

These providers would be approved for all courses and programs given by these providers (whereas §§ 47.34, 48.34 and 49.34 pertain to providers offering only one course or program). Subsection (b) would allow the Board to consider for approval, on a biennial basis, other organizations that offer multiple courses and programs for licensees.

Sections 47.36a, 48.37 and 49.37 (relating to other sources of continuing education) would authorize the Board to grant clock hours on a case-by-case basis for particular types of experiences. Section 47.37 (relating to reporting of hours spent in continuing education) would be amended and §§ 48.38 and 49.38 (relating to reporting by licensee of hours spent in continuing education) would require applicants for license renewal to provide a signed statement certifying that the continuing education requirements have been met. Subsection (b) would list the information that a licensee would need to submit in the event that the licensee would be selected for audit. Sections 48.39 and 49.39 (relating to retention of records) would require a licensee to retain documentation of completion of the required continuing education for 4 years following the certification period pertaining to that particular biennial renewal period.

Sections 48.40 and 49.40 (relating to exemption and waiver) would provide that an individual applying for licensure in this Commonwealth for the first time would be exempted from the continuing education requirement for the biennial renewal period following initial licensure. Subsection (b) would permit the Board to waive all or a portion of the continuing education requirement for biennial renewal upon request of a licensee. The request would need to be in writing and include a description of the circumstances sufficient to show why compliance is impossible. Waivers could be granted for serious illness, military service or other demonstrated hardship.

Sections 48.41 and 49.41 (relating to continuing education requirement for biennial renewal of inactive and lapsed licenses) would require a licensee seeking to reinstate an inactive or lapsed license to show proof of compliance with the continuing education requirement for the preceding biennium. Section 47.41 (relating to disciplinary action authorized) would be amended and §§ 48.42 and 49.42 (relating to disciplinary action authorized) would be added to provide for discipline by the Board, under section 11(a)(5) of the act (63 P. S. § 1911(a)(5)), in the event a licensee would submit fraudulent clock hour reports. Subsection (b) would also provide that the falsification of a clock hour report by a program provider would result in revocation of approval by the Board for further program offerings of that provider.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will require the Board to alter its license renewal forms to include data regarding the licensee's compliance with the continuing education requirements and will also require licensees to maintain their own records of continuing education credits. The proposed rulemaking would not have any additional adverse fiscal impact on the Commonwealth or its political subdivisions. There would be a fiscal impact upon licensees who would be required to pay for and complete continuing education hours.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 20, 2005, the Board submitted a copy of this proposed rulemaking and a copy of a

Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the Senate Consumer Protection and Professional Licensure Committee and the House Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of

the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

**PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS
NEW SOURCES AND MODIFICATIONS**

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board

within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of

concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

SPECIAL NOTICES

BUREAU OF DEEP MINE SAFETY

Approval of Request for Variance

The Department of Environmental Protection (Department), Bureau of Deep Mine Safety (Bureau) has approved RoxCoal, Inc.'s request for a variance from the requirements of section 242(c) of the Pennsylvania Bituminous Coal Mine Act (act) at the Roytown Mine. This notification contains a summary of this request and the basis for the Department's approval. A complete copy of the variance request may be obtained from Allison Gaida at (724) 439-7469 or from the Bureau's website at www.dep.state.pa.us/dep/deputate/minres/dms/dms.htm.

Summary of the Request: RoxCoal, Inc. requested a variance from section 242(c) of the act to allow for the common ventilation of belt conveyor entry with other entries at the Roytown Mine. The proposal accords protections to persons and property substantially equal to or greater than the requirements set forth in the act.

The basis for the Bureau's approval is summarized as follows:

1. The Pyott-Boone 9500 CO Monitoring System will provide advance warning of a developing mine fire originating in the conveyor belt entry. When maintained and operating correctly, this system provides warnings much earlier than the point type heat sensors.

2. Common entries would permit the larger section mantrip and scoops access to belt entry for transportation of personnel and supplies.

3. The operator will maintain a separate isolated intake escapeway that is at a higher air pressure than the belt and common entries.

4. The plan provides for the common entries to serve as an alternate intake escapeway. There will be a total of three separate, isolated escape routes.

This approval is limited to a variance from the requirements in section 242(c) of the act requiring that the belt entry is isolated from other entries. All other terms and

requirements of section 242(c) of the act shall remain in effect. Continued authorization for operation under the approval is contingent upon compliance with the measures described in the plan and the following conditions:

1. All mine employees shall be task trained in the Pyott Boone Model 9500 CO monitoring system alert and alarm response procedures. These procedures shall also be included in the 8-hour annual retraining.
2. As part of the requirements of section 228 of the act, all belt entries, common entries, and unfenced roadways shall be preshifted in their entirety.
3. A preshift date board should be placed at each CO sensor location.
4. Designated areas shall be established (with approval from the District Inspector) at strategic locations along the belt entry and common entries to determine whether the air is traveling in the proper course and normal volume. This air reading shall be taken by a scientific means (anemometer, chemical smoke tube, velometer) and recorded in the preshift examination record book.
5. The investigative committee shall conduct an underground ventilation survey when the belt and common entries are established to verify pressure differential between the intake escapeway and the common entries.
6. The investigative committee shall evaluate the visual and audible alarms during the installation process.
7. A list of designated surface personnel shall be forwarded to the District Inspector upon activation of the

CO Monitoring System. Copies of the task training records shall also be forwarded to the District Inspector.

8. The investigators shall interview supervisory and non-supervisory personnel upon commencement of mining operations.

9. The operator must ascertain whether or not the belt compounds used in the mine produce CO when burnt. Should the operator use a non-CO producing compound in the mine, additional sensors must be used in conjunction with the CO detectors to provide the early warning benefits of the monitoring system.

Prearrest Breath Testing Devices

The Department of Health (Department) is approving the following prearrest breath testing devices for determining the alcohol content of the blood by analysis of a person's breath as required by 28 Pa. Code §§ 5.101—5.104 (relating to equipment to determine blood alcohol content under the Vehicle Code and the Fish and Boat Code). This list of approved prearrest breath testing devices is adopted under the authority contained in the Motor Vehicle Code, 75 Pa.C.S. § 1547 (relating to chemical testing to determine amount of alcohol or controlled substance), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance), the Game and Wildlife Code, 34 Pa.C.S. § 2502 (relating to chemical test to determine amount of alcohol) and section 2101 of The Administrative Code of 1929 (71 P. S. § 532).

Devices approved under this notice may be used by police officers, waterways patrolmen and officers enforcing the Game and Wildlife Code in conducting preliminary alcohol content in blood determinations on persons suspected of driving, boating, hunting or furtaking while under the influence of alcohol. The sole purpose of these testing devices is to assist the officer or patrolman in determining whether or not the person should be placed under arrest for violation of 75 Pa.C.S. § 3802 (relating to driving under influence of alcohol or controlled substance), for violation of 30 Pa.C.S. § 5502 (relating to operating watercraft under influence of alcohol or controlled substance), for violation of 34 Pa.C.S. § 2501 (relating to hunting or furtaking prohibited while under influence of alcohol or controlled substance) or for any other criminal offense under the Vehicle Code, the Game and Wildlife Code or the Fish and Boat Code which involves operating a vehicle, hunting or furtaking while under the influence of alcohol.

This notice lists devices that were included in the previous publication of this list, published at 22 Pa.B. 1001 (March 7, 1992), and adds additional devices to that list.

The National Highway Traffic Safety Administration (NHTSA) of the United States Department of Transportation published model specifications for Screening Devices to Measure Alcohol in Bodily Fluids at 59 FR 39382 (August 2, 1994). These specifications established performance criteria and methods for testing alcohol screening devices using either breath or bodily fluids to measure

blood alcohol content. The NHTSA established these specifications to support state laws and the United States Department of Transportation's workplace alcohol testing program.

The NHTSA published a conforming products list of alcohol screening devices at 66 FR 22639 (May 4, 2001). The Department uses the NHTSA criteria for approving devices for the prearrest testing of a person's breath to determine the alcohol content of the person's blood. The breath testing devices included in the Federal approval list are incorporated by reference into the list in this notice. Since this notice pertains to only those devices that test breath, items on the NHTSA list that test saliva or other bodily fluids are not incorporated by reference in the list in this notice.

Some of the devices are listed under the name of more than one manufacturer. This is due to the fact that the name of the manufacturer has changed or the right to produce a device has been transferred to a different company. In these instances, the device is listed under the name of each company that was ever associated with the device to allow law enforcement agencies to continue using devices bearing the name of a previous manufacturer.

Additionally, there are a number of handheld breath testing devices on the Department's list of approved evidentiary breath testers that frequently are used as prearrest screening devices. A device on the list of evidentiary breath testers that was tested against the 1993 Model Specifications for Evidential Breath Testers, as published by the NHTSA at 58 FR 48765 also fully meets the requirements of the Model Specifications for prearrest screening devices. Both procedures evaluate the performance of instruments at the 0.020 alcohol level.

DEPARTMENT OF TRANSPORTATION

Finding Juniata County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Deputy Secretary for Highway Administration makes the following written finding:

The Department of Transportation (Department) plans to replace the existing Parker pin-connected thru truss carrying State Route 3008 over the Tuscarora Creek in Milford and Turbutt Townships, Juniata County. The Tuscarora Creek Bridge is eligible for listing on the National Register of Historic Places.

Information describing the project together with the associated environmental analysis is contained in the Categorical Exclusion Evaluation/Section 2002 Evaluation that was prepared for this project.

The Categorical Exclusion Evaluation/Section 2002 Evaluation satisfies all State environmental evaluation requirements as published in section 2002 of Pennsylvania Act 120.

Based upon studies, there is no prudent and feasible alternative to the use of this National Register eligible resource. The effect of this project on the Tuscarora Creek Bridge will be mitigated by measures outlined in the Memorandum of Agreement, which was executed on January 4, 2005. They include:

1. Ensure that an Archaeological Data Recovery Work is implemented.
2. Ensure that any human remains and grave associated artifacts encountered during the archeology investigations are brought to the attention of the Federal Highway Administration, the State Historic Preservation Officer and the Tribes, as appropriate.
3. Prepare a report on the data recovery excavations.
4. Ensure that all records including fieldnotes, maps, photographs and associated materials resulting from the investigations will be curated in accordance with 36 CFR Part 79 (relating to curation of Federally-owned and administered archaeological collections) and the curation guidelines developed by the Historical and Museum Commission.
5. Ensure that a plan is prepared for marketing the Tuscarora Creek Bridge.
6. Ensure that if the bridge is not salvaged or relocated, select intact components of the truss will be salvaged for material and stress testing at a suitable university.
7. Ensure that a portable display will be created to explain the significance of the Tuscarora Creek Bridge to a general audience through historic images and narrative text.

The Deputy Secretary for Highway Administration has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible and prudent alternative to

the project as designed, and all reasonable steps have been taken to minimize effects.

Deputy Secretary for Highway Administration

Pennsylvania Public Utility Commission—Filing Requirements Relating to Water and Wastewater Public Utilities; Regulation No. 57-223

On February 19, 2003, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Pennsylvania Public Utility Commission (PUC). This rulemaking amends 52 Pa. Code Chapter 53. The proposed regulation was published in the March 1, 2003 *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on March 2, 2005.

This rulemaking revises the filing requirements for water and wastewater public utilities when they request a general rate increase in excess of one million dollars. These filing requirements are more streamlined than those in existing regulation and also delete obsolete requirements.

We have determined this regulation is consistent with the statutory authority of the PUC (66 Pa.C.S. § 501(b)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Verizon Pennsylvania Inc. Petition and Plan for Alternative Form of Regulation Under Chapter 30; 2000 Biennial Update to Network Modernization Plan (Petition For Reconsideration of May 15, 2002 Order); P-00930715

Order

By the Commission:

At our Public Meeting of March 23, 2005, the Commission had before it a proposed Tentative Order setting forth the details for an audit of the Network Modernization Plan (NMP) of Verizon Pennsylvania Inc. (Verizon). This proposed order was in response to our previous directive to Commission Staff to prepare a recommendation "detailing the nature and scope of an appropriate audit plan related to the network modernization plans of Verizon Pennsylvania Inc. and other Chapter 30 companies." *Verizon Pennsylvania Inc. Petition and Plan for Alternative Form of Regulation under Chapter 30; 2000 Biennial Update to Network Modernization Plan*, Docket No. P-00930715F0002 et al., Ordering Paragraph No. 16 (Order entered September 17, 2003) (September Order).¹

Effective December 1, 2004, Act of 2004, P. L. 1398, No. 183 (Act 183), became the new Chapter 30 to Title 66 of the *Pennsylvania Consolidated Statutes*. *Prior to Act 183, ILECs who submitted NMPs were able to seek an alternate form of regulation. 66 Pa.C.S. § 3003 (repealed 2004). Act 183 continues the NMPs that are currently in effect but also allows ILECs to amend them to accelerate broadband deployment.*²

Act 183 also requires that the Commission "monitor and enforce companies' compliance with their interim and final 100% commitments for broadband availability in their amended network modernization plans."³ ILECs failing to meet their NMP commitments may be required to provide refunds and may also be subject to civil or other penalties pursuant to the Commission's general authority under Chapter 33. 66 Pa.C.S. §§ 3301—3316.

This statutory change, which occurred since we first announced our intent to audit Verizon's NMP, requires us to further evaluate the best way to fulfill our statutory role of monitoring and enforcing companies' compliance with the NMP provisions of Act 183. To ensure that the Commission has the information needed to develop a

¹ A Secretarial Letter dated April 21, 2004, was thereafter issued noticing our intent to "commence the NMP audit program envisioned by the September Order" to ensure that the progress of each NMP "can be adequately tracked and independently verified." After setting forth the specific areas targeted for the audit, the Secretarial Letter indicated that a Request for Proposal (RFP) would be released in the first quarter of 2005 "in order to commence the audit program in a timely manner upon receipt of Verizon's 2004 Biennial Update which is due by June 30, 2005." Finally, while the initial audit would be limited to Verizon, the Secretarial Letter stated that the NMP audit program "may extend to other Incumbent Local Exchange Carriers (ILECs) in subsequent years," and it was served on all ILECs with Chapter 30 plans.

² See Act 2004, P. L. 1398, No. 183, § 3014(a)—(b). Since the effective date of Act 183, the Commission has received petitions to amend from all 33 ILECs with NMPs currently in effect. On February 17, 2005, Verizon filed its Petition to Amend.

³ See Act 2004, P. L. 1398, No. 183, § 3015(a)(2).

useful, comprehensive and appropriate NMP monitoring and enforcement program in accordance with Act 183, the Commission needs further input from interested parties on all relevant issues relating to such an undertaking. For example, commenters should address the nature, extent and funding of any monitoring and enforcement program that may be needed to verify independently, based on a review of company records and on-site inspections, each company's network deployment as reported in its NMP updates. Additionally, commenters should address the appropriate timing of embarking upon such a program in consideration of the time lapse between the Commission's decision to implement an NMP audit program and the passage of Act 183 allowing ILECs to amend their NMPs. Finally, commenters are invited to address other related matters that would assist in our deliberation of this matter.

Due to the complexity of the issues raised, we direct that comments be due within 30 days of the publication of this Order in the *Pennsylvania Bulletin* with replies due 20 days thereafter.

By building on the solid foundations we have already established as a result of our September Order in combination with Act 183 and the input of interested parties, the Commission will be better positioned to fulfill its statutory responsibility of monitoring and enforcing ILECs' NMP commitments. In this way, the Commission will be able to ensure that all Pennsylvanians have the opportunity to receive the benefit of the advanced broadband services contemplated by both the previous version of Chapter 30 as well as Act 183; *Therefore,*

It Is Ordered That:

1. The Secretary serve a copy of this order on all incumbent local exchange telecommunications carriers, the Office of Consumer Advocate, the Office of Small Business Advocate and the Pennsylvania Telephone Association. Notice of this Order shall be published in the *Pennsylvania Bulletin*.

2. An original and 15 copies of any comments by interested parties shall be filed with the Secretary within 30 days of publication in the *Pennsylvania Bulletin*. Reply comments shall be filed within 20 days thereafter.

3. The contact persons for this matter are Dennis Hosler, Bureau of Audits, (717) 772-0312, Lou Samsel, Bureau of Fixed Utility Services, (717) 787-5164, and Carl S. Hisiro, Law Bureau, (717) 783-2812.
