READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

Title 4—ADMINISTRATION

PART I. GOVERNOR'S OFFICE

[4 PA. CODE CH. 6]

[EXECUTIVE ORDER NO. 2013-03]

Governor's Advisory Council on Veterans Services

November 11, 2013

Whereas, Veterans have rendered and continue to render extraordinary service to the United States; and

Whereas, Pennsylvania's citizens include nearly one million veterans who have defended our nation's freedom by serving in the United States Armed Forces, making our commonwealth home to the 4th largest population of veterans among the states; and

Whereas, Veterans have unique needs and have earned a wide array of benefits that are fragmented across the federal, state and local levels; and

Whereas, The Commonwealth of Pennsylvania is committed to providing a structure to provide coordinated, high-quality services to help veterans recognize and access the benefits and services which they earned and deserve; and

Whereas, The Adjutant General, Deputy Adjutant General for Veterans Affairs and the State Veterans Commission are responsible for championing Veterans Affairs at the federal, state and local levels and to ensure programs and services are delivered, investigated, reported and coordinated to provide timely and effective programs to veterans and their families; and

Whereas, There is a continued need to increase collaboration between state agencies to enhance administrative efficiency and optimize services for veterans; and

Whereas, Veterans require dedicated and strategic outreach, collaboration between many departments and partners at the federal, state and local levels; and

Whereas, A cooperative advisory council would be best suited to bridge the gaps in coordination and communication at the state level and ultimately enhance the quality of services provided for our veterans.

Now, Therefore, I, Tom Corbett, Governor of the Commonwealth of Pennsylvania, by virtue of the authority vested in me by the Constitution of the Commonwealth of Pennsylvania and other laws of the commonwealth, do formally establish the Governor's Advisory Council on Veterans Services, and do order and direct as follows.

Comments and Responses to Proposed Rulemaking

Notice of proposed rulemaking was published in the *Federal Register* on December 26, 2012 (77 FR 75915); the *New York Register* on January 2, 2013; the *Pennsylvania Bulletin* on February 2, 2013; and the *Maryland Register* on January 11, 2013. The Commission convened a public hearing on February 14, 2013, in Harrisburg, Pennsylvania and a written comment period was held open through February 25, 2013. In addition to proposing modifications to 18 CFR 806.34, the Commission regulation authorizing the issuance of emergency certificates, the proposed rulemaking also advanced a new provision to include in the Commission's project review regulations that would impose limitations on surface and groundwater withdrawals in headwater areas. The Commission received numerous comments on the headwaters proposal. The Commission continues to evaluate those comments and will make an appropriate determination at a future date. Meanwhile, however, for the reasons articulated in the proposed rulemaking notice, the Commission is now proceeding with finalization of the provision in the proposed rulemaking related to the issuance of emergency certificates under 18 CFR 806.34.

The two main comments received on the proposed modifications to the emergency regulation were as follows:

1. The criteria for issuance of an emergency certificate should not be limited to human health and safety, or that of livestock, but should include all animal, aquaculture, agronomic, and horticultural operations for the production of fiber or forage crops.

2. Preservation of employment should be an additional consideration in the issuance of an emergency certificate.

The Commission has made revisions to the final rules in response to these comments, by including the protection of food, fiber or forage crops and the avoidance of significant disruptions in employment as eligible criteria.

List of Subjects in 18 CFR Part 806

Administrative practice and procedure, Water resources.

Accordingly, for the reasons set forth in the preamble, the Susquehanna River Basin Commission amends 18 CFR part 806 as follows:

Part 806—Review and Approval Of Projects

1. The authority citation for Part 806 continues to read as follows:

Authority: Secs. 3.4, 3.5(5), 3.8, 3.10 and 15.2, Pub. L. 91-575, 84 Stat. 1509 et seq.

Subpart D—Terms and Conditions of Approval

2. In § 806.34, revise paragraphs (a), (b) introductory text, (b)(2) introductory text, and (b)(2)(iii) to read as follows:

§ 806.34. Emergencies.

(a) *Emergency certificates.* The other requirements of these regulations notwithstanding, in the event of an emergency requiring immediate action to protect the public health, safety and welfare or to avoid substantial and irreparable injury to any person, property, or water resources when circumstances do not permit a review and determination in the regular course of the regulations in this part, the Executive Director, with the concurrence of the chairperson of the Commission and the commissioner from the affected member state, may issue an emergency certificate authorizing a project sponsor to take such action as the Executive Director may deem necessary and proper in the circumstances, pending review and determination by the Commission as otherwise required by this part. In the exercise of such authority, consideration should be given to actions deemed necessary to sustain human life, health and safety, or that of livestock or food, fiber or forage crops, the maintenance of electric system reliability to serve such needs, to avoid significant disruption of employment, or any other such priorities that the Commission may establish from time to time utilizing its authority under Section 11.4 of the Compact related to drought emergencies.

(b) *Notification and application.* A project sponsor shall notify the Commission, prior to commencement of the project, that an emergency certificate is needed. In the case of a project operating under an existing Commission approval seeking emergency approval to modify, waive or partially waive one or more conditions of such approval, notice shall be provided to the Commission prior to initiating the operational changes associated with the request. If immediate action, as defined by this section, is required by a project sponsor and prior notice to the Commission is not possible, then the project sponsor must contact the Commission within one (1) business day of the action. PROPOSED RULEMAKING

DEPARTMENT OF TRANSPORTATION

[67 PA. CODE CH. 47]

Display of Registration Plates

The Department of Transportation (Department), under the authority in 75 Pa.C.S. § 1332 (relating to display of registration plate), proposes to amend §§ 47.2 and 47.4 (relating to location; and validating stickers) to read as set forth in Annex A.

Purpose of this Chapter

The purpose of Chapter 47 (relating to display of registration plates) is to designate the manner in which registration plates are to be displayed on vehicles as prescribed by 75 Pa.C.S. § 1332.

Purpose of the Proposed Rulemaking

The purpose of this proposed rulemaking is to update the location and manner of attachment requirements with respect to persons with disability, disabled veterans and severely disabled veterans registration plates. The proposed amendments establish the required location of a second registration plate, if one is issued. In addition, the act of November 25, 2013 (P. L. 974, No. 89) amended 75 Pa.C.S. § 1332 as follows: "Validating registration stickers shall not be issued or required to be displayed." The amendment will become effective December 31, 2016. Consequently, as of December 31, 2016, § 47.4 will be rendered null and void. An Editor's Note is proposed to be added to that effect.

Summary of Significant Amendments

Section 47.2(c) is proposed to be added to permit the mounting of a second persons with disability, disabled veteran or severely disabled veteran registration plate on the rear of a carrier attached to the rear of a vehicle for the purpose of transporting a wheelchair or similar personal assistive mobility equipment. This second registration plate is intended to be used to ensure visibility of the vehicle registration when the registration plate affixed to the rear of the vehicle is obstructed or obscured by a wheelchair or similar personal assistive mobility equipment mounted on a carrier attached to the rear of the vehicle.

An Editor's Note is proposed to be added to § 47.4 to reflect that as of December 31, 2016, the section will become null and void.

Persons and Entities Affected

This proposed rulemaking will affect vehicle owners who have a person with disability, disabled veteran or severely disabled veteran registration plate who wish to mount a second plate on the rear of a carrier attached to the rear of their vehicles for the purpose of transporting a wheelchair or similar personal assistive mobility equipment.

The elimination of the requirement for the Department to issue and the registrant to display a validating registration sticker will have a positive effect on registrants due to the significant cost savings achieved by the elimination.

Fiscal Impact

The cost to the Commonwealth for proposed § 47.2(c) is estimated to be \$2.73 to mail each double plate configuration to vehicle owners who request them, as well as \$3.60 to produce each double plate configuration and approximately \$37,500 for system updates to record the issuance of these plates. Since it is not known how many vehicle owners will request the plates available under proposed § 47.2(c), a total cost impact cannot be provided. The fiscal impact to vehicle owners is limited to those vehicle owners who choose to apply for the dual plate configuration. These vehicle owners will pay fees as established in 75 Pa.C.S. (relating to Vehicle Code).

By eliminating validation stickers, the Department will annually save approximately \$1 million. Customers will no longer need to apply for replacement validation stickers at a cost of \$7.50 per replacement sticker.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 22, 2014, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Transportation Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Sunset Provisions

The Department is not establishing a sunset date for proposed § 47.2(c) because it is needed to administer provisions required under 75 Pa.C.S. The Department, however, will continue to closely monitor these regulations for their effectiveness. However, by operation of the amendment to 75 Pa.C.S. § 1332, § 47.4 will sunset as of December 31, 2016.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to Anita Wasko, Director, Bureau of Motor Vehicles, Riverfront Office Center, 1101 South Front Street, Harrisburg, PA 17104 within 30 days of the publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

Contact Person

The contact person for technical questions about the proposed rulemaking is Kristen Singer, Manager, Customer Service Division, Department of Transportation, Bureau of Motor Vehicles, Riverfront Office Center, 1101 South Front Street, Harrisburg, PA 17104, (717) 787-2171.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department has developed an “integrated” plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the De-

partment, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

*The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity* pH*		greater than 6.0; less than 9.0	

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91–96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is war-

ranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage

under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate

that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to

be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Proposed Revisions to the Infrastructure State Implementation Plans for the 2008 8-Hour Ozone National Ambient Air Quality Standard, 2010 1-Hour Nitrogen Dioxide National Ambient Air Quality Standard, 2010 1-Hour Sulfur Dioxide National Ambient Air Quality Standard and 2012 Annual Fine Particulate Matter National Ambient Air Quality Standard; Proposed State Implementation Plans Revision for Clean Air Act Section 128 for all National Ambient Air Quality Standard; Public Hearings

The Department of Environmental Protection (Department) is proposing to revise the Commonwealth's State Implementation Plans (SIP) to address the requirements of section 110(a)(1) and (2) of the Clean Air Act (CAA) (42 U.S.C.A. § 7410(a)(1) and (2)) for the 2008 8-Hour Ozone National Ambient Air Quality Standard (NAAQS), the

2010 1-Hour Nitrogen Dioxide (NO₂) NAAQS, the 2010 1-Hour Sulfur Dioxide (SO₂) NAAQS and the 2012 Annual Fine Particulate Matter (PM_{2.5}) NAAQS. Additionally, the Department is proposing an SIP revision addressing the requirements of section 128 of the CAA (42 U.S.C.A. § 7428) for all NAAQS. Section 110(a)(1) and (2) of the CAA direct each state to develop and submit to the United States Environmental Protection Agency (EPA) a plan that provides for the implementation, maintenance and enforcement of the NAAQS within 3 years after promulgation of a new or revised primary or secondary NAAQS. This type of SIP revision is commonly referred to as an infrastructure SIP. The proposed SIP revision for section 128 of the CAA for all NAAQS is in the same document as the proposed infrastructure SIP revision for the 2008 Ozone NAAQS and consists of the information provided for sections 110(a)(2)(E)(ii) and 128 of the CAA and the statutory provisions in Appendix B. The infrastructure SIP revisions for ozone, NO₂, SO₂ and PM_{2.5}

address section 110(a)(2)(A), (B), (C), (D)(i) and (ii), (E)(i)—(iii), (F)(i)—(iii), (G), (H), (J), (K), (L) and (M) of the CAA. The Department does not address section 110(a)(2)(I) of the CAA in these SIP revisions per the September 2013 “Guidance on Infrastructure State Implementation Plan (SIP) Elements under Clean Air Act Sections 110(a)(1) and 110(a)(2)” provided by the EPA. The SIP revision for section 128 of the CAA addresses sections 110(a)(2)(E)(ii) and 128 of the CAA for all NAAQS.

This proposal is available on the Department’s web site at www.dep.state.pa.us (click on “Air”).

The Department is seeking public comment on the proposed section 110(a)(1) and (2) of the CAA infrastructure SIP revisions and the proposed section 128 of the CAA SIP revision, which address the requirements of section 110(a)(1) and (2) of the CAA for the 2008 Ozone NAAQS, the 2010 NO₂ NAAQS, the 2010 SO₂ NAAQS and the 2012 PM_{2.5} NAAQS and the requirements of sections 110(a)(2)(E)(ii) and 128 of the CAA for all NAAQS. Basin

Under 25 Pa. Code § 93.4d (relating to processing of petitions, evaluations and assessments to change a designed use) the Department of Environmental Protection (Department) gives notice that an evaluation will be conducted on the stream section listed to determine the proper aquatic life use designation in this Commonwealth’s Water Quality Standards.

<i>Stream Name</i>	<i>County</i>	<i>Tributary To</i>
Stony Run—Basin	Fayette	Indian Creek

Persons who have technical data concerning the water quality, instream habitat or biological condition of this stream section are encouraged to make it available to the Department for consideration in the assessment. This assessment may lead to a recommendation to the Environmental Quality Board (Board) for redesignation.

Data should be submitted to Mark Brickner, Division of Water Quality Standards, Bureau of Point and Non-Point Source Management, P. O. Box 8774, Harrisburg, PA 17105-8774, mbrickner@pa.gov. Submission Date for Recycling Program Development and Implementation Grants under Section 902 of Act 101, The Municipal Waste Planning, Recycling and Waste Reduction Act of 1988

The Department of Environmental Protection (Department) announces the opening of a new Section 902 grant round to support the development of municipal recycling

programs under section 902 of the Municipal Waste Planning, Recycling and Waste Reduction Act (act) (53 P. S. § 4000.902). Municipalities eligible for recycling grants include counties, cities, boroughs, incorporated towns, townships, home rule municipalities, councils of governments, consortiums or similar entities established by two or more municipalities under 53 Pa.C.S. Chapter 23, Subchapter A (relating to intergovernmental cooperation). The application deadline is August 15, 2014.

Application Requirements

Applicants must be in compliance with the act and the implementing regulations, the Department's Guidelines for Proper Management of Recyclable Materials and any previous grant contract provisions to be eligible to receive grant funding. County applicants should be in compliance with planning and other county-related provisions of the act. Applicants who are not in compliance with the act annual reporting requirements or the program requirements of the act of November 9, 2006 (P. L. 1347, No. 140) will not be considered in this grant application round. Municipalities that received funding in the last 902 grant award round in 2013 will not be considered for funding this solicitation period. Programs operating in municipalities covered by land use plans and ordinances (as outlined under the act of June 22, 2000 (P. L. 483, No. 67) and the act of June 22, 2000 (P. L. 495, No. 68)) or projects that are in compliance with their municipality's land use plan will receive priority over similar programs and projects absent such conditions.

Municipalities are eligible for 90% funding of approved recycling program costs. Municipalities considered financially distressed by the Department of Community and Economic Development under the Municipalities Financial Recovery Act (53 P. S. §§ 11701.101—11701.712), also known as the Financially Distressed Municipalities Act, are eligible for 100% of approved costs. No application requesting more than \$250,000 in grant funding will be accepted.

Applicants are required to complete the Sustainability Plan portion of the application that includes definitive actions and strategies for optimizing program self-sufficiency. The Sustainability Plan shall include, at a minimum, strategies for reducing costs and generating revenues, provisions for establishing incentives associated with waste reduction and recycling, mechanisms for public outreach and stakeholder input, and tracking mechanisms to document progress toward sustainability milestones until optimum sustainability is realized. The Department's technical report on Building Financially Sustainable Recycling Programs can provide assistance in developing these methods and strategies. The technical report can be found on the Department's web site at www.dep.state.pa.us/dep/deputate/airwaste/wm/recycle/document/fin_sust_rec.pdf. Applicants that fail to complete the Sustainability Plan portion of the application will not be considered for funding.

The following will receive priority for funding:

- Newly mandated municipalities based on the 2010 decennial census by the Bureau of the Census of the United States Department of Commerce.
- Applicants proposing incentive-based pricing and collection programs designed to increase the quantities and types of recyclable materials and reduce the quantity of waste collected.

- Applicants proposing multimunicipal collection, processing or a materials marketing program where capital costs are reduced or a recycling marketability is enhanced due to intergovernmental cooperation, or both.

- Applicants proposing new or expanded collection, education and outreach for commercial and institutional establishments, including school recycling programs.

In addition, communities whose existing recycling programs contain the following components will receive additional consideration:

- Municipally operated or municipal-contracted waste and recycling services that provide consistency and uniformity of the waste and recycling programs.

- The collection of six or more of the following materials: newsprint, office paper, corrugated paper, other marketable grades of paper, aluminum cans, steel or bimetallic cans, colored glass containers, clear glass containers and plastics.

Eligibility Requirements

Only those projects involving municipalities that have a mandatory trash collection program or projects seeking support for a residential recycling program that have a corresponding commercial recycling program will be considered for funding. Applicants seeking funds to replace curbside collection containers or collection vehicles, or both, will need to demonstrate that the new equipment will increase collection efficiencies and tonnage of materials.

Eligibility Costs

Eligible recycling program development costs include recycling program design costs, recycling market investigations, development of recycling market commitments, development of recycling program ordinances, development of recycling public education programs and the costs of developing contracts for procuring equipment or services necessary for the operation of the recycling program.

Eligible recycling program implementation costs include: purchasing or leasing vehicles used to collect recyclables (including automated and single-stream collection vehicles), transporting recyclables to processing facilities or markets and vehicles used in the operation of a materials recovery facility; reusable containers for the collection or storage of recyclable materials; acquiring or renovating buildings, or both, for the processing or storage of recovered materials; equipment used to process or manufacture recyclable materials into usable products; improvements to land needed to operate a recycling facility or yard waste composting facility authorized under 25 Pa. Code § 271.103(h) (relating to permit-by-rule for municipal waste processing facilities other than for infectious or chemotherapeutic waste; qualifying facilities; general requirements); and the costs associated with educating the public on recycling program requirements. Under this grant solicitation, promotional items, glass crushing equipment (unless specific marketing arrangements have been identified), vehicles equipped with compaction units (except for the sole collection of yard waste, paper fiber or single-stream collection, or both, where a facility equipped to process this material has been identified), backyard composting units and public recycling

containers for parks and streetscapes will not be considered eligible for funding. Other eligible and noneligible costs are listed in the grant application packet. Composting projects and programs will be considered to be recycling projects or programs accordingly.

A municipality must retain sole ownership of equipment or facilities funded by the grant. Funding for equipment or facilities purchased for the recycling program used for recycling and other purposes will be prorated according to its recycling use (no equipment used for recycling less than 50% of the time will be eligible for funding). Funding for certain leaf and yard waste collection equipment may be limited according to its seasonal use. Funding for wood chipping equipment will be approved only when the equipment is part of an approved yard waste composting facility operating under the Department's guidelines and where the material is collected curbside from residents. Funding of street sweepers for the purpose of leaf collection will not be considered.

Funding may be restricted in situations where equipment or services requested through a grant application may be available from the public or private sector within the county of the applicant. Public notices may be required before the grant application may be submitted depending upon the nature of the funding request. When the municipality submits the recycling grant application to the Department, it must include proof of compliance with the notification requirements, a description of any responses received to the notice and an explanation of why the municipality has concluded the mechanical processing equipment is not available to the program from the private sector.

Preapplication Conferences

Potential applicants must contact the appropriate Department regional planning and recycling coordinator to schedule a preapplication conference to discuss application requirements and program particulars. Applications will be returned to municipalities that fail to schedule a preapplication conference. Grant application forms are available from the Department's regional offices and the Department's web site at www.dep.state.pa.us (DEP Keyword "Recycling Grants").

Application Deadline

Grant applications must be received or postmarked by August 15, 2014. Applications received by the Department after that date will not be considered during the current round of solicitation. Applications must be on forms provided by the Department, with two copies submitted to the Department Central Office (Rachel Carson State Office Building, Harrisburg) and one copy submitted to the appropriate county recycling coordinator listed as follows. Grant awards will be based on the funds available in the Recycling Fund.

DEPARTMENT OF HEALTH

Adoption of the 2014 Edition of the Guidelines for Design and Construction of Hospitals and Outpatient Facilities

Under its authority under the Health Care Facilities Act (act) (35 P. S. §§ 448.101—448.904b) and the hospital and ambulatory surgical facility regulations promulgated under the act, the Department of Health (Department) will adopt the 2014 edition of the *Guidelines for Design*

and *Construction of Hospitals and Outpatient Facilities (Guidelines)* effective December 1, 2014. As of December 1, 2014, the Department will apply these new requirements to all plans for new construction or renovations for hospitals and ambulatory surgical facilities.

The Department currently applies the 2010 edition of the *Guidelines* for all new construction, renovations or modernization of hospitals and ambulatory surgical facilities. The 2010 edition of the *Guidelines* will continue to be utilized through December 1, 2014.

While the mandatory usage of the new *Guidelines* will not occur until December 1, 2014, the Department has received inquiries indicating that some facilities may wish to use the 2014 *Guidelines* before that date. The Department will permit facilities to use the 2014 *Guidelines* starting June 2, 2014. From June 2, 2014, until November 30, 2014, facilities may elect to use either the 2010 *Guidelines* or the 2014 *Guidelines*, but after December 1, 2014, all facilities must use the 2014 *Guidelines*. The Department recommends that smaller renovation projects or new additions be designed and submitted for approval based on compliance with the 2014 edition of the *Guidelines* as soon as possible after June 2, 2014. Although it is still permissible to utilize the 2010 edition until December 1, 2014, it would be prudent to utilize the 2014 edition. Larger or more complicated projects should be designed in conformance with the new *Guidelines*, however, all final plan approvals issued after December 1, 2014, will be based upon conformance with the 2014 edition of the *Guidelines*, regardless of when the preliminary plans were submitted.

The established procedure requires the submission of construction plans and the issuance of a final construction plan approval by the Division of Safety Inspection (Division) prior to the start of any new construction, renovation, modernization or changes in usage. Blueprints are to be submitted to the Division and are reviewed for compliance with the NFPA 101, Life Safety Code and the requirements in the *Guidelines*. The plan approval function is a requirement to insure that all new construction or renovations comply with all applicable regulations to avoid building noncompliant conditions into hospitals or ambulatory surgical buildings, which would necessitate costly remedial work to correct prior to the Department allowing the renovated area to be occupied.

After construction has been completed, a final inspection must be conducted for Life Safety Code requirements by the Division of Safety Inspection and for State Licensure or Federal Certification, or both, requirements by the Division of Acute and Ambulatory Care.

Those persons interested in purchasing a copy of the 2014 edition of the *Guidelines* may contact the Facility Guidelines Institute at (800) 242-2626 or www.ashestore.com.

Questions regarding this notice should be directed to Charles A. Schlegel, Director, Division of Safety Inspection at (717) 787-1911. Persons with a disability who require an alternative format of this document should contact V/TT (717) 783-6514 for speech and/or hearing impaired persons or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

Department of Labor and Industry

Regulation #12-99 (IRRC #3047)

Special Rules of Administrative Practice and Procedure Before the Workers' Compensation Appeal Board and Workers' Compensation Judges

April 23, 2014

We submit for your consideration the following comments on the proposed rulemaking published in the February 22, 2014 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Department of Labor and Industry (Department) to respond to all comments received from us or any other source.

1. RRA Section 2—Reaching of consensus.

Section 2 of the RRA (71 P.S. § 745.2) explains why the General Assembly felt it was necessary to establish a regulatory review process. Given the interest this pro-

posal has generated, we believe it is appropriate to highlight the following provision of Section 2(a) of the RRA. The provision states, "To the greatest extent possible, this act is intended to encourage the resolution of objections to a regulation and the reaching of a consensus among the commission, the standing committees, interested parties and the agency."

The Department provides a thorough response regarding the lengthy process it undertook in drafting the proposed regulation. The Department concludes, "The Committee reached a final consensus regarding the proposed revisions to the Rules at a meeting conducted on May 2, 2013." However, comments were submitted by the Pennsylvania Workers' Compensation Judges Professional Association (PWCJPA) and four workers' compensation judges (who work for the Department), including one who is on the Rules Committee, raising numerous concerns about the regulation. Also, the Insurance Federation of Pennsylvania states that insurers were not part of the drafting process. We recommend that the Department

make every effort to resolve and reach consensus among the regulated community as the Department prepares the final-form regulation.

2. Need for the regulation.

The Summary of Proposed Rulemaking in the Preamble states that the “proposed rulemaking clarifies and provides detailed guidance for practice and procedure.” However, we find that the Department does not make clear why some of the changes are being made. While we address specific concerns in our comments below, we ask the Department to ensure that the Preamble and final-form Regulatory Analysis Form (RAF) make clear the need for any changes implemented by the final-form regulation, including any problems that are being addressed by the regulation.

3. Section 111.3. Definitions.—Clarity and lack of ambiguity; Reasonableness of requirements.

Under Subsection (a), the Department proposes to define common carrier as “an entity which is subject to the authority of the Pennsylvania Public Utility Commission [(PUC)] or the United States National Surface Transportation Board.” We note that taxicabs and utility companies are among the entities subject to the authority of the PUC. Is it the Department’s intent to include these entities? If so, the definition would seem to be insufficient. For example, there are taxicabs subject to the authority of the Philadelphia Parking Authority rather than the PUC. We ask the Department to clarify the definition of common carrier as appropriate.

Regarding the term party, we ask the Department to explain the need for amending the definition to include “employee.” How does an employee differ from a claimant?

4. Section 111.11. Content and form.—Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements; Implementation procedures.

The Department is proposing to add to Paragraph (a)(1) the following language: “An appeal from a workers’ compensation judge’s decision is deemed to include all claims, disputes and petitions referenced in the decision and order which are the subject of the appeal.” A commentator asks if the Department’s intent is to disallow partial appeals. If so, we ask the Department to explain the need for and reasonableness of this requirement. If not, we ask the Department to clarify this provision for the regulated community.

5. Section 111.12. Filing, service and proof of service.—Clarity and lack of ambiguity; Implementation procedures.

Subsection (b) states that when filing electronically, a petitioner shall “follow the online procedures . . .” The Department does not provide further information on where these procedures will be located. We ask the Department to clarify how electronic filing is to be implemented in the final-form regulation.

6. Section 131.3. Waiver and modification of rules.—Clarity and lack of ambiguity; Reasonableness of requirements; Implementation procedures.

The Department is amending the language in Subsection (a) to include Subchapter D as an exception. Subsection (a) is proposed to state, “The judge may, for good cause, waive or modify a provision of this chapter, except as otherwise provided in Section 131.59b(a) and Subchapter D . . .” We note that Section 131.204 of

Subchapter D relates to waiver and modification. However, we do not see that another type of waiver or modification rule is otherwise provided for in the other sections of Subchapter D. We ask the Department to explain the reasonableness of including the entire Subchapter D, or to revise the amended language to clarify the specific provision(s) the Department is addressing regarding waiver and modification of rules.

7. Section 131.11. Filing, service and proof of service.—Clarity and lack of ambiguity; Implementation procedures.

We find the amended language under Paragraph (a)(3) to be unclear. We ask the Department to ensure that Paragraph (a)(3) provides clear filing requirement for the regulated community.

Under Subsection (e), we recommend that the Department require that this information related to filing and service be published in both the *Pennsylvania Bulletin* and on the Department’s web site. The Department should ensure that any changes in implementation procedures are documented in hard copy in the *Pennsylvania Bulletin*.

8. Section 131.52. First hearing procedures.—Need for the regulation; Reasonableness of requirements; Implementation procedures.

Subsection (e) removes the requirement that the parties provide the judge with all documents required to be filed with the Department. The amended language seems to move responsibility for obtaining documents to the judge. What is the need for this change in first hearing procedures? We ask the Department to explain the reasonableness of placing responsibility for obtaining the documents on the judge.

9. Section 131.53b. Bifurcation and summary disposition.—Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements; Implementation procedures.

The Department adds language in Subsection (b) that allows a motion to be filed at any time. The new language states that the judge will rule on the motion within 45 days. The Department is silent as to whether the opposing party has the opportunity to file a response to the motion, and when the opposing party may do so. We ask the Department to explain the need for and reasonableness of this new provision. We also ask the Department to ensure that the procedures for implementation are clear.

10. Section 131.55. Attorney fees and costs.—Clarity and lack of ambiguity; Need for the regulation; Reasonableness of requirements; Implementation procedures.

Several commenters sought clarity as to whether an attorney must seek approval for payment of fees and costs from a workers’ compensation judge in every instance. Must an attorney be expected to advance costs on behalf of a client, even where there is a contingent fee agreement in place? Some attorneys may not be in a position to advance costs or it may be against their policy, and this requirement could delay legal representation or eliminate it altogether for a claimant seeking assistance. What is the need for this provision?

11. Section 131.81. Subpoenas.—Need for the regulation; Reasonableness of requirements; Implementation procedures.

The Department is adding new language related to subpoenas in Subsection (b). We have several concerns.

What is the need for changing these procedures? What is to occur following the filing of an objection to a subpoena? Why are objections required to be made to a request for a subpoena rather than to the service of an actual subpoena? We ask the Department to explain the need for and reasonableness of this provision, to ensure the procedures for implementation are clear. We also ask the Department to explain how it determined that seven days is the appropriate length of time within which objections must be made.

12. Subchapter D. Proceedings Involving the UEGF—Need for the regulation; Reasonableness of requirements; Implementation procedures.

Based on the concerns raised by commentators regarding certain provisions in the newly proposed Subchapter D, we ask the Department to explain the need for and reasonableness of adding Subchapter D and implementing the new provisions thereunder.

13. Section 131.202. First hearing information and stay.—Need for the regulation; Reasonableness of requirements.

In Subsection (a), the Department provides for the judge to inform the claimant of the existence of the Uninsured Employers Guaranty Fund (UEGF). The PWCJPA suggests that involvement of the judge in providing written legal information as provided by the Office of Adjudication is contrary to Section 1404(a) of the

Workers' Compensation Act (Act) (77 P.S. § 2504(a)). Why does the Department believe it is reasonable for the judge to inform the claimant of the existence of the UEGF? We ask the Department to explain the need for and reasonableness of this requirement.

14. Section 131.204. Waiver and modification of §§ 131.202 and 131.203.—Determining whether the regulation is in the public interest; Need for the regulation; Reasonableness of requirements.

Section 131.204(a) proposes that the judge cannot waive Rules 131.201 or 131.202 unless all parties agree. PWCJPA notes that the proposed requirement gives the uninsured employer, who may be guilty of a felony of the 3rd degree under Section 305(b) of the Act, veto power over law-abiding employers, their insurers, and the judge. Is this the Department's intent? What is the basis for requiring all participating parties to agree and for removing the judge's discretion, as provided for in Sections 131.3 and 131.53a? In the Preamble and RAF of the final-form regulation, we ask the Department to explain the need for and reasonableness of this provision, and how this requirement is in the public interest.
