READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 210. APPELLATE PROCEDURE

PART I. RULES OF APPELLATE PROCEDURE

ARTICLE II. APPELLATE PROCEDURE

CHAPTER 9. APPEALS FROM LOWER COURTS

Rule 903. Time for Appeal.

* * * * *

(c) *Special provisions.* Notwithstanding any other provision of this rule [,]:

(1) [an] An appeal from any of the following orders shall be taken within ten days after the entry of the order from which the appeal is taken:

[(1)] (i) An order changing venue or venire in a criminal proceeding. See Rule 311(a)(3) (change of criminal venue or venire).

[(2)] (ii) An order in any matter arising under the Pennsylvania Election Code.

[(3)] (iii) An order in any matter arising under the Local Government Unit Debt Act or any similar statute relating to the authorization of public debt.

(2) Where an election has been filed under Rule 311(b) (order sustaining venue or personal or *in rem* jurisdiction), the [ten day period under this subdivision shall run from] notice of appeal shall be filed within 30 days after the filing of the election.

Official Note:

* * * * *

[Subdivision (a) is patterned after 42 Pa.C.S. § 5571(b) (other courts). Where an appeal is taken under Rule 311 (interlocutory appeals as of right), unless an extension to plead is obtained it will as a practical matter continue to be necessary to take the appeal within the 20 day pleading period specified in Pa.R.Civ.P. 1026.]

* * * * *

Explanatory Comment—2000

The 2000 amendment to Subdivision (c) clarifies that the appeal period for appealing from orders in civil cases sustaining venue or personal or in rem jurisdiction runs from the date of the election under Pa.R.A.P. 311(b)(1), not the date of the original order. The 2000 amendment extends the appeal period following such an election from ten days to thirty days to conform the appeal period for civil orders changing venue pursuant to Pa.R.A.P. 311(c).

The portion of the Note suggesting the necessity of taking an appeal within the 20 day pleading period is misleading and is deleted. For this reason, the bracketed material of the note is deleted.

(a) When a government unit seeks to enforce an order issued under a statute which it administers, it may initiate the proceeding by filing a petition to enforce.

(b) The petitioner shall serve the petition and order in the manner prescribed by the Pennsylvania Rules of Civil Procedure for service of original process and shall file the return or certificate of service prescribed by the same rules.

(c) Upon the filing of a petition to enforce, the court will issue an order setting a date for a hearing and a date by which the respondent must answer the petition. The petitioner shall serve the court's order upon the respondent in the manner prescribed by Rules 121 and 122.

(d) Following the hearing, the court will enter such orders as may be appropriate.

Official Note: Rule 3761 (relating to enforcement proceedings) has been promulgated by the Commonwealth Court of Pennsylvania pursuant to authority granted to it by Pa.R.A.P. 104. The rule was made necessary by the opinion issued by the Supreme Court of Pennsylvania in *Pennsylvania Human Relations Commission v. School District of Philadelphia*, 732 A.2d 578 (Pa. 1999), in which the Court held that "the rules of appellate procedure, rather than the rules of civil procedure, govern enforcement proceedings in Commonwealth Court." *Id.* at 581.

Prior to the Supreme Court ruling in *PHRC*, Commonwealth Court had treated enforcement proceedings as matters resting within the Court's original jurisdiction and thereby governed in part by the rules of appellate procedure and in part by the Rules of Civil Procedure. In *PHRC*, the Supreme Court made clear that enforcement proceedings are within Commonwealth Court's appellate jurisdiction and that only the Rules of Appellate Procedure apply. The Supreme Court's ruling left a void, however, because the rules of appellate procedure did not prescribe specific procedures governing enforcement proceedings.

Consistent with *PHRC*, therefore, Rule 3761 was adopted to establish a Rule of Appellate Procedure to codify the practice which the Commonwealth Court had theretofore followed in enforcement proceedings when those proceedings were regarded as matters within the Court's original jurisdiction. This special rule governing Commonwealth Court practice adheres to the Supreme Court's opinion in *PHRC* and should prove to be of benefit to both the bench and bar.

Explanatory Comments

The Recommendation would authorize a single judge of the Commonwealth Court to hear enforcement proceedings brought by a government unit. See proposed amendment adding paragraph (3) to subdivision (c) or Rule 3102 (Quorum and Action).

Proposed new Rule 3761 (Enforcement Proceedings) prescribes a procedure for such enforcement proceedings since such proceedings are now within the appellate jurisdiction of the Commonwealth Court and the Rules of Civil Procedure do not otherwise apply.

The proposed amendment and new rule are designed to address issues arising from the Supreme Court of Pennsylvania's opinion in *Pennsylvania Human Relations Commission v. School District of Philadelphia*, 732 A.2d 578 (Pa. 1999), in which the Supreme Court held that "the rules of appellate procedure, rather than the rules of civil procedure, govern enforcement proceedings in Commonwealth Court." *Id.* at 581.

Prior to the Supreme Court ruling in *PHRC v. School District of Philadelphia*, Commonwealth Court had treated enforcement proceedings as matters resting within the Court's original jurisdiction and thereby governed in part by the rules of appellate procedure and in part by the Rules of Civil Procedure. In *PHRC v. School District of Philadelphia*, the Supreme Court held that enforcement proceedings are within Commonwealth Court's appellate jurisdiction and that only the Rules of Appellate Procedure apply. Because the Rules of Appellate Procedure do not prescribe specific procedures governing enforcement proceedings, there is a need for new procedural rules governing enforcement proceedings.

Consistent with *PHRC v. School District of Philadelphia*, the Appellate Court Procedural Rules Committee proposes new Rule 3761 to establish a Rule of Appellate Procedure codifying the practice which the Commonwealth Court had followed in enforcement proceedings when those proceedings were regarded as matters within the Court's original jurisdiction. This special rule governing Commonwealth Court practice adheres to the Supreme Court's opinion in *PHRC v. School District of Philadelphia* and should prove to be of benefit to both the bench and bar.

The Committee further recommends that enforcement proceedings continue to be heard by a single judge of the Commonwealth Court and the proposed amendment adding paragraph (3) to Subdivision (c) of Rule 3102 codifies that practice.

RULES AND REGULATIONS

Title 61—REVENUE

BOARD OF CLAIMS

[61 PA. CODE CH. 899]

Rules of Procedure

The Board of Claims (Board) adopts amendments to the Rules of Procedure, Rules 899.201(b) and (d) and 899.801 (relating to statement of claim; and no posthearing motions).

The purpose of the amendment to Rule 899.201(b) is to reduce the number of copies of a claim which must be filed with the Board from four copies to three copies. Rule 899.201(d) is being deleted because this rule does not accurately state the time period during which some types of actions may be filed. Rule 899.801 is being added. It states the long-standing practice of the Board not to entertain posthearing motions.

Section 8 of the act of May 20, 1937 (P. L. 728, No. 193) (72 P. S. § 4651-8) and case law, *Pennsylvania Institutional Health Services, Inc. v. Commonwealth of Pennsylvania, Department of Corrections*, 167 Pa. Cmwlth. 226, 647 A.2d 692 (1994), mandate that all matters before the Board are governed by the Pennsylvania Rules of Civil Procedure (Pa.R.C.P.) as well as regulations promulgated by the Board.

In 1997, the Board amended its regulations to add new rules of procedure, see Rules 899.101—899.702. Those rules supplement the Pa.R.C.P. and provide that "(If a discrepancy between this chapter and the [Pa.R.C.P.] arises, this chapter applies." See Rule 899.102 (relating to scope of rules). Rule 227.1 of the Pa.R.C.P. (relating to post-trial relief) requires the filing of posttrial motions prior to appeal, but the Board will now amend its regulations to add Rule 899.801, which will dispose of this requirement.

The Board is an independent agency and as such may promulgate rules of practice and procedure under the proposed rulemaking omitted process. Under section 204(1) of the act of July 31, 1968 (CDL) (P. L. 769, No. 240) (45 P. S. § 1204) and the regulation thereunder, 1 Pa. Code § 7.4 (relating to filing of special petitions), proposed rulemaking has been omitted.

Notices of the Board's intention to submit new rules by final order, proposed rulemaking omitted were published at 30 Pa.B. 1755 (April 1, 2000) and 30 Pa.B. 4932 (September 23, 2000). The public was invited to review the rules and submit comments. Also, copies of the rules were sent to State agencies and attorneys who regularly appear before the Board, to the Independent Regulatory Review Commission (IRRC) and the Office of General Counsel. In preparing these amendments, the Board has considered the comments it received.

Analysis

The following is a description of the changes made by the amendments to the rules governing practice before the Board.

Rule 899.201—Statement of Claim

Rule 899.201(b) previously provided that a plaintiff shall file an original and four copies of its claim with the

Board. This rule is being changed to now require only an original and three copies be filed.

Rule 899.201(d) is being deleted. It states that a claim is timely if it is received by the Board within 6 months of accrual. Because of certain provisions added in 1998 to 62 Pa.C.S. § 101 (relating to the Commonwealth Procurement Code), Rule 899.201(d) may not be an accurate statement of the filing time for every action and will be deleted to avoid misleading any litigants.

Rule 899.801—No Posthearing Motions

Rule 899.801 provides that no posthearing motions may be filed. It has long been the practice of the Board not to accept and dispose of posthearing motions and this amendment to the regulation continues that practice and formally exempts the Board from the requirements of Pa.R.C.P. No. 227.1.

Authority

The amendments are promulgated under 72 P. S. § 4651-10. This section provides the Board with the power and duty to promulgate rules governing practice before it.

Fiscal Impact

The Board has determined that these amendments to its rules of procedure will have no significant fiscal impact.

Paperwork

The amendments will not generate substantial additional paperwork for the public or the Commonwealth. In fact, they will cut paperwork.

Effective Date

These amendments will become effective 30 days after publication in the *Pennsylvania Bulletin*.

Contact Person

The contact person for an explanation of the new rules is Louis Martin, Esquire, Senior Counsel, Board of Claims, 200 North Third Street, Suite 700, Harrisburg, PA 17101-1518.

Regulatory Review

Under section 5.1(c) of the Regulatory Review Act (71 P. S. 745.5a(c)), on March 22, 2001, the Board submitted copies of these final-omitted amendments to IRRC and the Chairpersons of the Senate and House Finance Committees. On the same date, the final-omitted amendments were submitted to the Office of Attorney General for review and approval under the Commonwealth Attorneys Act (71 P. S. §§ 732-101—732-506).

Under section 5.1(d) of the Regulatory Review Act, on April 12, 2001, these final-omitted amendments were deemed approved by the House and Senate Finance Committees. Under section 5.1(e) of the Regulatory Review Act, on April 19, 2001, IRRC met and approved the final-omitted amendments.

Findings

The Board finds that:

(1) There is good cause to amend the rules of procedure, Rules 899.201(b) and (d) and 899.801.

(2) The amendments to the rules of procedure, Rules 899.201(b) and (d) and 899.801 and are necessary and appropriate for practice before the Board.

(3) Under section 204(1) of the CDL, the proposed amendment procedures in sections 201 and 202 of the CDL (45 P. S. §§ 1201 and 1202) do not apply because these amendments relate to agency practice.

Order

The Board, acting under its authorizing statute, orders that:

(a) The regulations of the Board of Claims, 61 Pa. Code Chapter 899, are amended by amending Rule 899.201 and adding Rule 899.801 to read as set forth in Annex A.

(b) The Chief Administrative Judge shall submit this order and Annex A to the Office of Attorney General for approval as to form and legality as required by law.

(c) The Chief Administrative Judge shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect June 11, 2001.

DAVID C. CLIPPER,
Chief Administrative Judge

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission, relating to this document, see 31 Pa.B. 2444 (May 5, 2001).)

Fiscal Note: 105-4. No fiscal impact; (8) recommends adoption.

STATE BOARD OF PHARMACY

[49 PA. CODE CH. 27]

Reference Libraries; Facsimile Machines

The State Board of Pharmacy (Board) proposes to amend §§ 27.14 and 27.20 (relating to supplies; and facsimile machines) to read as set forth in Annex A.

Effective Date

The amendments will be effective upon publication of the final-form regulations in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed amendments are authorized under sections 4(j) and 6(k)(1) and (9) of the Pharmacy Act (act) (63 P. S. §§ 390-4(j) and 390-6(k)(1)–(9)).

Background and Purpose

Section 27.14(c)(14) currently requires a pharmacy to have an adequate reference library including two or more of the latest editions of references specifically listed in the section. The proposed rulemaking would amend this section by eliminating the specific list of references and replacing it with language that would allow a pharmacy to maintain references which are more appropriate and necessary to that pharmacy's area of practice.

Section 27.20 allows a pharmacist to fill a prescription for a Schedule II controlled substance that is received on a facsimile machine under certain conditions. The Board regulation is consistent with Federal law with one exception. Federal law allows a pharmacist to use the facsimile prescription as the original prescription for all Schedule II controlled substances for hospice patients, while the Board regulation only allows a facsimile prescription as the original prescription for "injectable" Schedule II con-

trolled substances for hospice patients. This rulemaking package is the Board's attempt to make its regulation consistent with Federal law.

Description of Proposed Amendments

Proposed § 47.14(c)(14) would remove a list of 13 references from which the current regulation now requires the pharmacy to maintain the latest editions of at least two references. The proposal recognizes that many references are not listed in the regulation which are more comprehensive or pertinent, or both, to current pharmacy practice or more appropriate to a pharmacy's particular area of practice. It is not uncommon that pharmacies maintain the two required references which then sit on the shelf unused because the pharmacy actually uses other references that are more applicable to current pharmacy practice as well as more consistent with that pharmacy's scope of practice. The proposed rulemaking would eliminate the unnecessary cost of maintaining required, yet unused, references while allowing and encouraging pharmacies to maintain references more pertinent to their area of practice.

Current § 27.20 allows a pharmacist to fill a prescription for a Schedule II controlled substance received on a facsimile machine if the original prescription signed by the medical practitioner is presented to the pharmacist for review prior to the actual dispensing of the controlled substance. There are two exceptions to the requirement that the original prescription be presented prior to dispensing; 1) prescriptions for "injectable" Schedule II controlled substances which will be administered in a patient's home or hospice; and 2) prescriptions for Schedule II controlled substances for residents of a long-term care facility.

The Board regulation is consistent with Federal law regarding the "injectable only" prescriptions for Schedule II controlled substances administered in a patient's home, and prescriptions for Schedule II controlled substances for residents of long-term care facilities. It is inconsistent with Federal law regarding hospice patients. Federal law allows facsimile prescriptions as the original prescription for all Schedule II controlled substances for patients in hospice facilities. On July 25, 2000, the Drug Enforcement Agency published an Interim Rule in the *Federal Register* that interprets the Federal regulation's language regarding "patients residing in a hospice facility" to include all hospice patients regardless of the setting. The Board regulation only allows facsimile prescriptions for "injectable" Schedule II controlled substances for patients in a hospice.

The Board's rulemaking package would amend the Board regulation to allow facsimile prescriptions as original prescriptions for all Schedule II controlled substances for all hospice patients, making it consistent with Federal law and the Drug Enforcement Administration Interim Rule.

Hospice patients are often homebound and it may be difficult for them or their caregivers to obtain a written prescription. At this time, a faxed prescription for an injectable Schedule II controlled substance may serve as the original pharmacy record. However, a faxed prescription for an oral or topical Schedule II controlled substance for a hospice patient can be dispensed to the hospice patient only after the original prescription is presented to the pharmacist for review. If the faxed copy of hospice patients' oral and topical Schedule II controlled substance

prescriptions could serve as the original pharmacy record, the burden on hospice patients and their care-givers would be reduced by eliminating the need to first obtain a written prescription from the medical practitioner for the oral and topical Schedule II controlled substances. Increased access for hospice patients to oral and topical Schedule II medications, especially during emergencies, allows for faster pain relief and an increase in the quality of life.

Compliance with Executive Order 1996-1

In compliance with Executive Order 1996-1, the Board extended the invitation to the following boards, associations and interested licensees and educators to preliminarily review and comment on the Board's draft regulatory proposal:

Lonna H. Donaghue, Executive Director, Pennsylvania Hospice Network; Joan Harrold, MD, Medical Director, Hospice of Lancaster County; Coleen Kayden, R.Ph., Lancaster, PA; Denise Harris, Director, Pinnacle Health Hospice; Richard B. Greene, R.Ph., Hospice Pharmacia; Michael P. Cinque, R.Ph.; Terri Bostick, iScribe; Pennsylvania Pharmacists Association; Pennsylvania Society of Health-Systems Pharmacists.

The Board reviewed and considered all comments and suggestions received by these and other interested parties during the regulatory development process.

Fiscal Impact and Paperwork Requirements

These proposed amendments would have no fiscal impact or additional paperwork requirements on the Commonwealth. Additionally, the proposed amendments should not necessitate any legal, accounting or reporting requirements on the regulated community.

Sunset Date

The Board reviews the effectiveness of its regulations on an ongoing basis. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on May 2, 2001, the Board submitted a copy of proposed amendments to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House of Professional Licensure Committee and the Senate Consumer Protection and Licensure Committee. In addition to submitting the proposed amendments, the Board has provided IRRC and the Committees with a detailed regulatory analysis form prepared by the agency in compliance with Executive Order 1996-1 "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to any portion of the proposed amendments, it will notify the Board within 10 days after the close of the Committees' review. The notification shall specify that regulatory review criteria which have not been met by the portion. The Regulatory Review Act specifies detailed procedures for review prior to publication of the regulations by the Board, the General Assembly and the Governor of objections raised.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed amendments to Eva Cheney, State Board of Pharmacy, P. O. Box 2649, Harrisburg, PA 17105-2649, within 30

days of publication of this proposed rulemaking. Please reference No. 16A-549 when submitting comments.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995

Preamble 1

Acknowledgment of notices of intent to remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under Sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and

implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

NOTICE OF PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (DEP) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for DEP, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time,

affords an opportunity for public input and provides for sequential issuance of the necessary permits.

Notice is hereby given that DEP has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the DEP Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the DEP providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with DEP Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If DEP schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121 through 143, the Federal Clean Air Act and regulations adopted under the Act.

Applications received and intent to issue operating permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter F (relating to operating permit requirements).

The facility is subject to 40 CFR Part 60 Subpart KKK for VOC monitoring.

Intent to issue plan approvals under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B (relating to plan approval requirements).

Southwest Region: Air Quality Program, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, William Charlton, New Source Review Chief, (412) 442-4174.

03-00027A: Reliant Energy (1001 Broad Street, P. O. Box 1050, Johnstown, PA 15907-1050) for construction of Selective Catalytic Reduction systems on the exhaust from Units #1 and #2 at the Keystone Generating Station in Plumcreek Township, **Armstrong County**.

The proposed facility is subject to the applicable requirements of 25 Pa. Code, Chapter 127 (related to construction, modification, reactivation and operation of sources). The Department believes that the facility will meet these requirements by complying with the following Plan Approval conditions:

1. The facility is to be constructed in accordance with the plans submitted with the application (as approved herein).

2. Upon completion of the construction of the facility, an operating permit must be obtained. Notify the Depart-

ment when the installation is completed so that the facility can be inspected for issuance of an operating permit.

3. This Plan Approval authorizes the installation of Selective Catalytic Reduction (SCR) Systems on the exhaust from Units #1 and #2 at Keystone Station, Plumcreek Township, Armstrong County. Each SCR system will consist of urea unloading, storage and processing equipment, an ammonia injection system, catalyst beds, gas path ductwork and dampers, replacement induced draft fans, limestone unloading, storage and addition system, instrumentation and controls and support equipment. SCR installation and operation on Units #1 and #2 is a voluntary pollution control project and is not required by regulation for the operation of the subject sources. (25 Pa. Code § 127.11)

4. Urea and limestone storage silos shall be equipped with bin vent collectors. Urea and limestone shall be pneumatically transferred from trucks/railcars to storage silos. Unloading of urea and limestone trucks/railcars shall not take place unless the pneumatic transfer/bin vent collector systems are also operating properly.

5. The emission of ammonia from the SCR systems shall not exceed 5 ppmv at stack conditions as determined by USEPA Conditional Test Method (CTM-027), *Procedure for Collection and Analysis of Ammonia in Stationary Sources* or other procedure approved by the Department. The 5 ppmv ammonia slip limit ensures compliance with the existing limitation on the flue gas conditioning systems which follow the SCRs in the exhaust gas path. (25 Pa. Code § 127.12b).

6. Stack testing to determine the mass emission rate of ammonia (as NH₃), PM₁₀ and H₂SO₄ shall be conducted within 90 days of the of achieving maximum capacity of the SCR system on each unit (25 Pa. Code §§ 127.12b and 139.11).

a) Stack testing shall be conducted in accordance with the provisions of 25 Pa. Code Chapter 139 and the Department's Source Testing Manual.

b) At least 60 days prior to the test, the owner/operator shall submit to the Department two copies of the procedures for the stack test and drawings with dimensions indicating the location of sampling ports and other data to ensure the collection of representative samples.

c) At least 15 days prior to the test, the Regional Air Quality Manager shall be informed of the date and time of the test.

d) All relevant operating parameters (for example, boiler steam flow, air flow, gross megawatts, O₂; CEMS heat input and stack flue gas volumetric flow rate; and/or SCR ammonia feed flow rate) shall be recorded at appropriate intervals throughout the duration of the stack tests. Operating data recorded shall be sufficient to establish that the units and the air cleaning devices are operating at maximum routine operating conditions. A discussion of the recorded operating parameters and values shall be included in the test report.

e) Within 60 days after the stack test, two copies of the complete test report, including all recorded operating parameters, shall be submitted to the Regional Air Quality Manager for approval.

7. Owner/operator shall keep a monthly log of all urea delivered to this facility. These records shall be kept onsite for a period of 5 years and be made available to the Department upon request. (25 Pa. Code § 127.12b).

8. This approval to construct shall become invalid (1) if construction is not commenced (as defined in 40 CFR 52.21(b)(8)) within 18 months after the date of this approval; or (2) if construction is discontinued for a period of 18 months or more. (25 Pa. Code § 127.13(b)).

9. This Plan Approval authorizes temporary operation of the sources and/or control devices covered by this Plan Approval provided the following conditions are met. (25 Pa. Code § 127.12b(d))

a) The Department must receive written notice from the Owner/Operator of the completion of construction and the operator's intent to commence operation at least 5 working days prior to the completion of construction. The notice should state when construction will be completed and when operator expects to commence operation.

b) Operation is permitted only to facilitate the start-up and shake-down of sources and/or air cleaning devices, to permit operations pending the issuance of an Operating Permit or to permit the evaluation of the sources and/or control devices for compliance with all applicable regulations and requirements.

c) This condition authorizes temporary operation of the sources and/or control devices for a period of 180 days from the date of commencement of operation, provided the Department receives notice from the Owner/Operator under subpart (a).

d) The Owner/Operator may request an extension if compliance with all applicable regulations and Plan Approval requirements has not been established. The extension request shall be submitted in writing at least 15 days prior to the end of this period of temporary operation and shall provide a description of the compliance status of the sources and/or control devices, a detailed schedule for establishing compliance and the reasons compliance has not been established.

e) The notice submitted by the Owner/Operator under subpart (a), above, prior to the expiration of this Plan Approval, shall modify the plan approval expiration date. The new Plan Approval expiration date shall be 180 days from the date of the written notice.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Disapprovals Granted Under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20).*Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790*

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Pine Grove Borough	1 Snyder Avenue Pine Grove, PA 17963	Schuylkill
Pine Grove Township	R. R. 4, Box 260A Pine Grove, PA 17963	Schuylkill

Plan Description: An Update Revision to the Pine Grove Borough and the Pine Grove Township Official Sewage Facilities Plans has been denied Departmental approval. This Update Revision was developed for the Borough and the Township by the Pine Grove Joint Treatment Authority. The Update Revision contains a Selected Alternative that calls for a sewer line replacement program in portions of Pine Grove Borough and the construction of a new 2.0 million gallon per day (MGD) sewage treatment plant. The new plant is to be located in Pine Grove Township at a site along the western side of the I-81 Pine Grove interchange. A new pump station and a 10,000 lineal foot force main/interceptor are to be constructed to convey the sewage from the existing service area to the location of the new plant. The Update Revision indicates that the chosen alternative was to be financed through a grant from U. S. Department of Agriculture, Rural Utilities Service (RUS), in the amount of \$9,044,030 and a \$3,018,679 loan for a term of 40-years at an interest rate of 4.5 percent. The timeline for completing the Selected Alternative is found in the Schedule of Implementation of the Update Revision.

The reason for the Department denying planning approval of the Update Revision is that the Selected Alternative cannot be implemented as presented and failed to contain any contingency financial plan.

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (Act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or non-residential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Notice of Final Action on Request for Certification Under Section 401 of the Federal Water Pollution Control Act

Except as otherwise noted, the Department of Environmental Protection (Department), under Section 401(a) of the Federal Clean Water Act (act), as amended (33 U.S.C.A. § 1341(a)) certifies that the construction and operation herein described will comply with the applicable provisions of Sections 301—303, 306 and 307 of that act and that the construction will not violate applicable Federal and State water quality standards, provided the following requirements are met.

Final or proposed action on certain other certification requests for projects which require both a Water Obstruction and Encroachment permit and either a United States Army Corps of Engineers individual permit or a Nationwide permit 14, 18 or 26 will be published with Applications and Actions filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27).

Any person aggrieved by this action may appeal, under Section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law) to the Environmental Hearing Board, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedures may be obtained from the Board. The appeal form and the Board's rules of practice and procedures are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Regional Office: Regional Manager, Water Management Program, Northwest Region, 230 Chestnut Street, Meadville, PA 16335.

Certification Request Initiated by: Erie Western Pennsylvania Port Authority, Raymond P. Schreckengost, Executive Director, 17 West Dobbins Landing, Erie, PA 16507-1424.

Date of Initial Pennsylvania Bulletin Notice: March 17, 2000.

Project Description: The Erie-Western Pennsylvania Port Authority has requested a State certification under Section 401(a) of the act that the discharge of dredged

material from the East Avenue Launch Ramp into the Lake Erie Harbor Confined Disposal Facility (CDF) will comply with the applicable provisions of Sections 301—303, 306 and 307 of the act.

This request was necessitated by conditions imposed by the Department's Water Obstruction and Encroachment Permits E25-404A and E25-581 issued to the Erie-Western Pennsylvania Port Authority requiring Federal Water Act Section 401 certification for the disposal of dredged material into the CDF prior to each dredging and disposal event. The Erie-Western Pennsylvania Port Authority has sampled and tested the sediments in accordance with Attachment A "Sample Collection and Testing Protocol" of both Water Obstruction and Encroachments Permits E25-404A and E25-581. Laboratory testing was conducted in accordance with the US Army Corps of Engineer's Inland Testing Manual and the document "Ecological Evaluation of Proposed Discharge of Dredged or Fill Material in Navigable Waters." Based upon this sampling and laboratory testing, the Erie-Western Pennsylvania Port Authority indicates that the approximately 500 cubic yards of basin sediments from the East Avenue Launch Ramp (Erie North, PA N: 3.6 inches; W: 8.9 inches) discharged into the Lake Erie Harbor Confined Disposal Facility (Erie North, PA N: 4.7 inches; W: 10.3 inches) will have a relatively insignificant effect on the water quality of Lake Erie. This 401 Water Quality Certification is only for this single activity. Any subsequent dredging of the East Avenue Launch Ramp basin and use of the CDF will require separate 401 Water Quality Certification.

Location: Lake Erie Harbor Confined Disposal Facility (Erie North, PA N: 4.7 inches; W: 10.3 inches) Erie City, Erie County.

Final Action on Request: Certification granted. This is a one-time certification for the described project.

Diesel School Bus Retrofit Demonstration Project Grant Opportunity Notice

The Department of Environmental Protection (DEP) is seeking one or more school bus fleet operators to participate in a demonstration project that will greatly reduce pollution emissions from participating diesel buses. Buses could be as much as 70% cleaner, and most likely any visible smoke would also be reduced. DEP will pay 100% of the costs to purchase and install retrofit technology. The type of retrofit equipment would be determined in large part by the model engine of each bus and other characteristics of the fleet.

Technical information about diesel vehicle retrofit is available from the United States Environmental Protection Agency at www.epa.gov/otaq/retrofit. Applicants will be ranked on the severity of the pollution in the area, appropriateness of the fleet for retrofit and potential emission reductions. Because of the specificity of retrofit technology, two or three finalists will be selected for further fleet characterization before a grantee is chosen. Any school bus operator (public or private school, school district or contractor) is eligible to apply.

Applications are due June 29, 2001. For more information and an application package, access DEP's website at www.dep.state.pa.us, subject index "air quality," contact Chris Trostle, DEP Bureau of Air Quality, at (717) 787-9494 or send an email to dtrostle@state.pa.us.

DEPARTMENT OF REVENUE

Cigarette Tax Notice

Under section 227-A of the Fiscal Code (72 P. S. § 227-A) (relating to administration powers and duties), the Department of Revenue (Department) hereby announces the lowest cost of the stamping agent, wholesaler and retailer, respectively, effective April 26, 2001, as follows:

	<i>Premium Brands (a.k.a. Kings & Regulars)</i>	<i>Generic Brands</i>
Cost of the Stamping Agent (for sales to wholesalers)	\$29.04	\$26.34
Cost of the Wholesaler (for sales to retailers)	\$30.21	\$27.40
Cost of the Retailer (for sales to retail customers)	\$32.02	\$29.04

The Department considers these costs as presumptive minimum costs. Cigarette stamping agents, wholesalers and retailers are prohibited from selling cigarettes at a price lower than their respective presumptive minimum costs. These costs are listed on a per carton basis, 10 packs of cigarettes per carton, 20 cigarettes per pack. To determine the presumptive minimum price per pack of cigarettes, one should divide the costs listed by ten and round to the nearest hundredth of a percent. For example, the presumptive minimum price of a pack of cigarettes sold by a retailer to a consumer is \$3.21 for premium brands (\$32.02/10), \$2.91 for generic brands (\$29.04/10).

Cigarette dealers who either sell cigarettes under a different packaging setup (such as, eight packs per carton) or sell cigarettes that do not qualify as premium or generic brands (such as, sub-generic, foreign or specialty cigarettes) as described are prohibited from selling cigarettes at a price lower than the cost of the stamping agent, cost of the wholesaler or cost of the retailer, respectively, as further defined and explained in the Department's cigarette tax regulations, 61 Pa. Code, Article III (relating to cigarette and beverage taxes).

Cigarette dealers wishing to prove a cost different from the Department's presumptive costs stated must follow the procedures listed under 61 Pa. Code, Chapter 76 (relating to Unfair Sales of Cigarettes).

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(d) and (g) of the Regulatory Review Act (71 P. S. § 745.5(d) and (g)) provide that the designated standing committees may issue comments within 20 days of the close of the public comment period, and the Independent Regulatory Review Commission (Commission) may issue comments within 10 days of the close of the committees' comment period. The Commission's Comments are based upon the criteria contained in section 5.1(h) and (i) of the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)).

The Commission issued Comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted by the date indicated.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Issued</i>	<i>Final-Form Submission Deadline</i>
57-218	Pennsylvania Public Utility Commission Natural Gas Emergency Plans and Emergency Actions	04/26/01	03/27/03

**Pennsylvania Public Utility Commission
Regulation No. 57-218**

**Natural Gas Emergency Plans and
Emergency Actions**

April 26, 2001

We submit for consideration the following objections and recommendations regarding this regulation. Each objection or recommendation includes a reference to the criteria in the Regulatory Review Act (71 P. S. § 745.5a(h) and (i)) which have not been met. The Pennsylvania Public Utility Commission (PUC) must respond to these Comments when it submits the final-form regulation. If the final-form regulation is not delivered by March 27, 2003, the regulation will be deemed withdrawn.

1. General.—Nonregulatory language.

Sections 59.72(b) and (d) and 59.73(h) and (h)(2) contain language which implies that the provisions in these subsections are optional. For example, § 59.72(b) states, in part, “. . . NGDCs are encouraged to make contractual or informal arrangements. . . .” (Emphasis added.) Section 59.72(d) states, in part, “Each natural gas emergency plan *should* specify . . .” and “. . . usage reductions should be designed . . .” (Emphasis added.) Section 59.73(h) and (h)(2) uses the term “should” to describe natural gas distribution company (NGDC) actions related to priority-based curtailments.

Regulations establish binding norms and have the full force and effect of law. If these subsections are intended to impose mandatory requirements on NGDCs, the word “shall” must be used in place of the phrases “are encouraged to” and “should.” If the provisions in §§ 59.72(b) and (d) and 59.73(h) and (h)(2) are not mandatory, then these subsections should be deleted.

2. Section 59.72. Natural gas emergency planning.—Reasonableness; Clarity.

Subsection (a)

This subsection states that an NGDC is required to file a natural gas emergency plan with the PUC “within 90 days from the effective date of these regulations, or such later date as may be determined by the Commission. . . .” If the PUC decides to use a later date, how will the PUC communicate this date to NGDCs? This should be specified in the final-form regulation.

Subsection (d)

This subsection provides that each natural gas emergency plan “should specify the procedures the NGDC shall use to provide notices to affected customers.” This section should include language that requires notice to be issued by the NGDC within a specific time period.

3. Section 59.73. Emergency action.—Reasonableness; Clarity.

Subsection (a)

It appears that the cross-reference in this subsection contains a typographical error. The last sentence references the definition of “Priority 1 customers” in subsection (j). The definition is contained in subsection (i).

Use of the term “will”

Subsections (b), (b)(3), (h)(1) and (h)(3) use the term “will” to describe actions that the NGDC must take. Based on the *Pennsylvania Code & Bulletin Style Manual*, the term “will” is used to describe actions that an agency will undertake. The term “shall” is used

whenever anyone else has a duty to act. Therefore, the term “will” in these subsections should be replaced with “shall.”

4. Section 59.74. Utility liability.—Clarity.

Subsection (b)(1) uses the term “will” to describe a required NGDC action. For the reasons discussed in Issue # 3, the term “will” should be replaced with “shall.”

Subsection (b)(2) uses the phrase “will have the right to” in describing the NGDC’s discretionary authority to discontinue service. Based on the *Pennsylvania Code & Bulletin Style Manual*, the term “may” is used to express a right, power or privilege. Therefore, the phrase “will have the right to” should be replaced with “may.”

TURNPIKE COMMISSION

Retention of Two Engineering Firms

Two Open End Contracts Traffic Engineering Services

Reference No. 3-138

The Turnpike Commission (Commission) will retain two engineering firms to perform traffic engineering related services on an Open End Contract basis. The contracts will be for a period of 2 years or \$500,000, whichever occurs first.

The engineering services required may include signing, capacity and operational analysis, traffic and revenue studies, origination and destination studies, ITS planning and design, traffic engineering and safety studies, and traffic studies including counts.

Direct inquiries to Timothy M. Scanlon at (717) 939-9551, Ext. 5590; or by e-mail at tscanlon@paturnpike.com. Direct contractual questions to George M. Hatalowich at (717) 986-8737; or by e-mail at ghatalow@paturnpike.com.

The following factors will be considered by the Commission during the evaluation of the firms submitting letters of interest for these projects:

a. Specialized experience and technical competence of prime consultant and subconsultants. The Team must clearly demonstrate an ability to analyze available data to make decisions and develop plans to complete the project in a timely and cost effective manner.

b. Past record of performance with respect to cost control, work quality, ability to meet schedules and previous experience on similar projects. The consultant should identify similar projects that have been completed by that firm as the prime, the magnitude of the project and the client.

c. The specific experience and number of individuals who constitute the firm.

d. Workload of the prime consultant and subconsultants for all Department of Transportation (Department) and Commission projects.

e. Other factors, if any, specific to the project.

General Requirements and Information

Firms interested in providing the previous work and services are invited to submit a letter of interest with the required information. The letters of interest must include the following:

1. One page transmittal letter clearly identifying the project reference number, brief description of the project from the advertisement, the firm's Federal identification number, the firm's legal name, contact person or project manager, address of corporate office and project office. (If the firm has multiple offices, the location of the office performing the work must be identified).

2. A three page expression of interest on the advertised project. Each firm should demonstrate their ability to perform the specific requirements indicated for each project and provide explanation that the firm has successfully completed similar type projects of the same magnitude.

3. An organization chart for the Project, identifying key personnel and any subconsultants and their roles. Any deviation from the subconsultant's listed in the letter of interest will require written approval from the Commission.

4. Tabulation or listing of workload for the prime consultant and all subconsultants for all Department and Commission projects. Do not submit the firms workload represented graphically.

5. An Annual Qualification Package similar to the one submitted to the Department for the current year that is in the same District as this project or one that is best suited for this project.

The Annual Qualification Package copy should contain at a minimum the following information for the prime consultant and all subconsultants and attached to the back of the letter of interest (subs to follow primes):

- Standard Form (SF) 254—Architect-Engineer and Related Services Questionnaire in its entirety, not more than 1 year old as of the date of the advertisement.
- Resumes of key personnel expected to be involved in the project. (limit to one 8 1/2 x 11 page, one side, per person). Only resumes of key personnel should be included.
- Copy of the firm's registration to do business in this Commonwealth as provided by the Department of State for firms with out-of-State headquarters or corporations not incorporated in this Commonwealth.
- A copy of the Department's DBE/WBE Certification, if applicable.

If a Joint Venture responds to a project advertisement, the Commission will not accept separate letters of interest from joint venture constituents. A firm will not be permitted to submit a letter of interest on more than one joint venture for the same project reference number. Also, a firm that responds to a project as a prime may not be included as a designated subconsultant to another firm that responds to the same project advertisement. This does not preclude a firm from being set forth as a designated subconsultant to more than one prime consultant responding to the project advertisement.

Firms interested in performing the above services are invited to submit a letter of interest and required information to Barry L. Troup, P.E., Assistant Chief Engineer for Design, Turnpike Commission Administration Building, Eisenhower Boulevard and Rt. 283, Highspire, PA 17034 (shipping address). The mailing address is P. O. Box 67676, Harrisburg, PA 17106-7676.

The letter of interest and required information must be received by 12 p.m. (noon), Friday, May 12, 2001. Any letters of interest received after this date and time will be time-stamped and returned.

Based on an evaluation of acceptable letters of interest received in response to these solicitations, two firms will be selected, one for each contract. The order of preference will be established for the purpose of negotiating an agreement with the highest ranked firm established by the Technical Review Committee and approved by the Commission. The first two firms identified by the Com-

mission will be selected. Technical Proposals or Requests for Proposals will not be requested prior to selection.

The Commission reserves the right to reject all letters of interest, to cancel solicitation requested under this notice, and/or to readvertise solicitation for the work and services.

Chairperson
