READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Effective Dates of Statutes

The effective dates specified above for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the *Pennsylvania Consolidated Statutes* provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the Laws of Pennsylvania are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the Laws of Pennsylvania to each law judge of the courts, to every county and public library of this Commonwealth and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, State Records Center Building, 1825 Stanley Drive, Harrisburg, PA 17103, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania."

THE COURTS

Title 234—RULES OF CRIMINAL PROCEDURE

[234 PA. CODE CHS. 1, 2, 5, 8 AND 10]

Order Adopting New Rule 518, Amending and Renumbering Present Rule 518 as Rule 519, Amending Rules 103, 112, 130, 131, 203, 513, 516, 540, 571, 582, 801, and 1003, and Revising the Comments to Rules 514, 515, and 517; No. 281 Criminal Procedural Rules; Doc. No. 2

The Criminal Procedural Rules Committee has prepared a Final Report explaining new Rule of Criminal Procedure 518, amendments to and renumbering of present Rule 518 as Rule 519, amendments to Rules 130, 131, 203, 513, 516, 540, 571, and 1003, the revision of the Comments to Rules 514, 515, and 517, and correlative changes to Rules 103, 112, 582, and 801. These changes provide for the use of advanced communication technology in criminal proceedings, including inter alia, preliminary arraignments and arraignments, and search warrant and arrest warrant procedures. The Final Report follows the Court's Order.

Order

Per Curiam:

Now, this 10th day of May, 2002, upon the recommendation of the Criminal Procedural Rules Committee; the proposal having been published before adoption at 28 Pa.B. 3934 (August 15, 1998), 29 Pa.B. 2665 (May 22, 1999), 29 Pa.B. 4426 (August 21, 1999), 29 Pa.B. 4429 (August 21, 1999), and 29 Pa.B. 4539 (August 28, 1999), and in the *Atlantic Reporter* (Second Series Advance Sheets, Vols. 712, 727, 728, 733, and 734), and a Final Report to be published with this Order:

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that:

- (1) new Rule of Criminal Procedure 518 is adopted, and present Rule 518 is amended and renumbered Rule 519;

Final Report explaining the May 10, 2002 amendments concerning advanced communication technology published with the Court's Order at 32 Pa. B. 2591 (May 25, 2002).

Rule 112. Publicity, Broadcasting, and Recording of Proceedings.

(A) The court or issuing authority shall:

(1) prohibit the taking of photographs, **video**, or motion pictures of any judicial proceedings or in the hearing room or courtroom or its environs during the judicial proceedings; and

(2) prohibit the transmission of communications by [**telegraph**,] telephone, radio, [**or**] television, **or advanced communication technology** from the hearing room or the courtroom or its environs during the progress of or in connection with any judicial proceedings, whether or not the court is actually in session.

* * * * *

(B) The court or issuing authority may permit the taking of photographs, or radio or television broadcasting, or broadcasting by advanced communication technology, of judicial proceedings, such as naturalization ceremonies or the swearing in of public officials, which may be conducted in the hearing room or courtroom.

(C) Except as provided in paragraph (D), the stenographic, mechanical, or electronic recording, or the recording using any advanced communication technology, of any judicial proceedings by anyone other than the official court stenographer in a court case, for any purpose, is prohibited.

(D) In a judicial proceeding before an issuing authority, the issuing authority, the attorney for the Commonwealth, the affiant, or the defendant may cause a recording to be made of the judicial proceeding as an aid to the preparation of the written record for subsequent use in a case, but such recordings shall not be publicly played or disseminated in any manner unless in a court during a trial or hearing.

Comment

* * * * *

The prohibitions under this rule are not intended to preclude the use of advanced communication technology for purposes of conducting court proceedings.

Official Note: Former Rule 27, previously Rule 143, adopted January 31, 1970, effective May 1, 1970; renumbered Rule 27 September 18, 1973, effective January 1, 1974; amended February 15, 1974, effective immediately; Comment revised March 22, 1989, effective July 1, 1989; amended June 19, 1996, effective July 1, 1996; rescinded March 1, 2000, effective April 1, 2001, and replaced by Rule 112. Former Rule 328 adopted January 25, 1971, effective February 1, 1971; amended June 29, 1977 and November 22, 1977, effective as to cases in which the indictment or information is filed on or after January 1, 1978; Comment revised March 22, 1989, effective July 1, 1989; rescinded March 1, 2000, effective April 1, 2001, and replaced by Rule 112. PART C. Venue, Location, and Recording of Proceedings before Issuing Authority

Rule 130. Venue; Transfer of Proceedings.

(A) VENUE

All criminal proceedings in summary and court cases shall be brought before the issuing authority for the magisterial district which in the offense is alleged to have occurred or before an issuing authority on temporary assignment to serve such magisterial district, subject, however, to the following exceptions:

* * * * *

(4) Whenever an arrest is made without a warrant for any summary offense arising under the Vehicle Code, which allegedly occurred on a highway of the Pennsylvania Turnpike System or any controlled or limited access highway, or any right-of-way of such System or highway, or any other highway or highways of the Commonwealth, the defendant shall be taken and the proceeding shall be brought either where the offense allegedly occurred, or before the issuing authority for any other magisterial district within the same judicial district which, in the judgment of the arresting officer, is most convenient to the place of arrest without regard to the boundary line of any magisterial district or [county] judicial district.

* * * * *

Comment

[Except as otherwise provided in paragraph (A)(3), paragraph (A) of this rule governs venue between magisterial districts within the same judicial district, i.e., the matter of where a proceeding is to be brought within the judicial district having jurisdiction.]

* * * * *

Venue is not altered when an issuing authority conducts a proceeding from an advanced communication technology site outside the issuing authority's magisterial district or judicial district.

See Rule 134 (Objections to Venue) for the procedures to challenge a transfer of proceedings under this rule.

Rule 131. Location of Proceedings Before Issuing Authority.

(A) An issuing authority within the magisterial district for which he or she is elected or appointed shall have jurisdiction and authority at [any time other than during his established office hours] all times to receive complaints, issue warrants, hold preliminary arraignments, [fix and take] set and receive bail, [and] issue commitments to jail, and hold hearings and summary trials. [at his residence within the magisterial district, but all hearings and trials before such issuing authority shall be held publicly at his established office, or at another location, within or without the magisterial district, designated by the President judge, unless an emergency exists or the number of persons lawfully assembled and entitled to be present is too great to be accommodated in such place, in which event the hearing

or trial may be adjourned as quickly as may be, to a suitable place, within the magisterial district.]

(1) Except as provided in paragraph (A)(2), all preliminary arraignments shall be held in the issuing authority's established office, a night court, or some other facility within the Commonwealth designated by the president judge, or the president judge's designee.

(2) Preliminary arraignments may be conducted using advanced communication technology pursuant to Rule 540. The preliminary arraignment in these cases may be conducted from any site within the Commonwealth designated by the president judge, or the president judge's designee.

(3) All hearings and summary trials before the issuing authority shall be held publicly at the issuing authority's established office. For reasons of emergency, security, size, or in the interests of justice, the president judge, or the president judge's designee, may order that a hearing or hearings, or a trial or trials, be held in another more suitable location within the judicial district.

(4) The issuing authority may receive complaints, issue warrants, set and receive bail, and issue commitments to jail from any location within the judicial district, or from an advanced communication technology site within the Commonwealth.

* * * * *

Comment

The 2002 amendments to paragraph (A) divided the paragraph into subparagraphs to more clearly distinguish between the locations for the different types of proceedings and business that an issuing authority conducts.

Paragraph (A)(3) permits the president judge, or the president judge's designee, to order that a hearing or hearings be held in a location that is different from the issuing authority's established office. Nothing in this rule is intended to preclude the president judge, or the president judge's designee, from issuing a standing order for a change in location. For example, this might be done when a state correctional institution is located in the judicial district and the president judge determines that, for security reasons, all preliminary hearings of the state correctional institution's inmates will be conducted at that prison.

See Rule 540 and Comment for the procedures governing the use of advanced communication technology in preliminary arraignments.

See Rule 130 concerning the venue when proceedings are conducted by using advanced communication technology.

Paragraph (B) of this rule is intended to facilitate compliance with the requirement that defendants be represented by counsel at the preliminary hearing. *Coleman v. Alabama*, 399 U. S. 1, 90 S.Ct. 1999 (1970).

Paragraph (A)(4) permits issuing authorities to perform their official duties from an advanced communication technology site within the Commonwealth. The site may be located outside the magisterial district or judicial district where the issuing authority presides.

CHAPTER 2. INVESTIGATIONS

PART A. Search Warrant

Rule 203. Requirements for Issuance.

(A) In the discretion of the issuing authority, advanced communication technology may be used to submit a search warrant application and affidavit(s) and to issue a search warrant.

(B) No search warrant shall issue but upon probable cause supported by one or more affidavits sworn to before the issuing authority **in person or using advanced communication technology.** The issuing authority, in determining whether probable cause has been established, may not consider any evidence outside the affidavits.

(C) Immediately prior to submitting a search warrant application and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority by any device which, at a minimum, allows for simultaneous audio-visual communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer an oath to the affiant.

[(B)] (D) At any hearing on a motion for the return or suppression of evidence, or for suppression of the fruits of evidence, obtained pursuant to a search warrant, no evidence shall be admissible to establish probable cause other than the affidavits provided for in paragraph [(A)] (B).

[(C)] (E) * * *

Comment

Paragraph (A) recognizes that an issuing authority either may issue a search warrant using advanced communication technology or order that the law enforcement officer appear in person to apply for a search warrant.

[This rule] Paragraph (B) does not preclude oral testimony before the issuing authority, but it requires that such testimony be reduced to an affidavit prior to issuance of a warrant. All affidavits in support of an application for a search warrant must be sworn to before the issuing authority prior to the issuance of the warrant. "Sworn" includes "affirmed." See Rule 103. The language "sworn to before the issuing authority" contemplates, when advanced communication technology is used, that the affiant would not be in the physical presence of the issuing authority. See paragraph (C).

Paragraph [(B)] (D) changes the procedure discussed in *Commonwealth v. Crawley*, 223 A.2d 885 (Pa. Super. 1966), *aff'd per curiam* 247 A.2d 226 (Pa. 1968). See *Commonwealth v. Milliken*, 300 A.2d 78 (Pa. 1973).

The requirement in paragraph [(C)] (E) of a showing of reasonable cause for a nighttime search highlights the traditional doctrine that nighttime intrusion into a citizen's privacy requires greater justification than an intrusion during normal business hours.

An affiant seeking the issuance of a search warrant, when permitted by the issuing authority, may use advanced communication technology as defined in Rule 103.

When advanced communication technology is used, the issuing authority is required by this rule to (1) determine that the evidence contained in the affidavit(s) establishes probable cause, and (2) verify the identity of the affiant.

The "visual" requirement in paragraph (C) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.

Official Note: Rule 2003 adopted March 28, 1973, effective for warrants issued 60 days hence; renumbered Rule 203 and amended March 1, 2000, effective April 1, 2001; **amended May 10, 2002, effective September 1, 2002.**

CHAPTER 5. PRETRIAL PROCEDURES IN COURT CASES

PART B(3). Arrest Procedures in Court Cases

(a) Arrest Warrants

Rule 513. Requirements for Issuance.

(A) In the discretion of the issuing authority, advanced communication technology may be used to submit a complaint and affidavit(s) for an arrest warrant and to issue an arrest warrant.

(B) No arrest warrant shall issue but upon probable cause supported by one or more affidavits sworn to before the issuing authority in person or using advanced communication technology. The issuing authority, in determining whether probable cause has been established, may not consider any evidence outside the affidavits.

(C) Immediately prior to submitting a complaint and affidavit to an issuing authority using advanced communication technology, the affiant must personally communicate with the issuing authority by any device which, at a minimum, allows for simultaneous audio-visual communication. During the communication, the issuing authority shall verify the identity of the affiant, and orally administer the oath to the affiant.

[(B)] (D) At any hearing on a motion challenging an arrest warrant, no evidence shall be admissible to establish probable cause for the arrest warrant other than the affidavits provided for in paragraph [(A)] (B).

Comment

Paragraph (A) recognizes that an issuing authority either may issue an arrest warrant using advanced communication technology or order that the law enforcement officer appear in person to apply for an arrest warrant.

This rule does not preclude oral testimony before the issuing authority, but it requires that such testimony be reduced to an affidavit prior to issuance of a warrant. All affidavits in support of an application for an arrest warrant must be sworn to before the issuing authority prior to the issuance of the warrant. **The language "sworn to before the issuing authority" contemplates, when advanced communication technology is used, that the affiant would not be in the physical presence of the issuing authority. See paragraph (C).**

This rule carries over to the arrest warrant the requirement that the evidence presented to the issuing authority be reduced to writing and sworn to, and that only the writing is subsequently admissible to establish that there was probable cause. In these respects, the procedure is [now] similar to that applicable to search warrants. See Rule 203.

* * * * *

The affidavit requirements of this rule are not intended to apply when an arrest warrant is to be issued for noncompliance with a citation, with a summons, or with a court order.

An affiant seeking the issuance of an arrest warrant, when permitted by the issuing authority, may use advanced communication technology as defined in Rule 103.

When advanced communication technology is used, the issuing authority is required by this rule to (1) determine that the evidence contained in the affidavit(s) establishes probable cause, and (2) verify the identity of the affiant.

The "visual" requirement in paragraph (C) must allow, at a minimum, the issuing authority to see the affiant at the time the oath is administered and the information received.

Rule 514. Duplicate and Alias Warrants of Arrest.

* * * * *

Comment

This rule permits the use of advanced communication technology for the issuance of duplicate and alias arrest warrants.

Under this rule, warrant information transmitted by using advanced communication technology has the same force and effect as a duplicate or alias arrest warrant. This rule does not require that the transmitted warrant information be an exact copy of the original warrant for purposes of execution under Rule 515. Nothing in this rule, however, is intended to curtail the Rule 540(C) requirement that the issuing authority provide the defendant with an exact copy of the warrant at the preliminary arraignment. See Rule 513 (Requirements for Issuance).

Official Note: Original Rule 113 adopted June 30, 1964, effective January 1, 1965; suspended January 31, 1970, effective May 1, 1970. * * * * *

Comment

* * * * *

For purposes of executing an arrest warrant under this rule, warrant information transmitted by using advanced communication technology has the same force and effect as an original arrest warrant. This rule does not require that the transmitted warrant information be an exact copy of the original warrant. Rule 516. Procedure in Court Cases When Warrant of Arrest is Executed Within Judicial District of Issuance.

(A) When a defendant has been arrested in a court case, with a warrant, within the judicial district where the warrant of arrest was issued, the defendant shall be afforded a preliminary arraignment by the proper issuing authority without unnecessary delay.

(B) When a preliminary arraignment is conducted using advanced communication technology pursuant to Rule 540(A), the defendant shall be taken to an advanced communication technology site that, in the judgment of the arresting officer, is most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district.

Comment

* * * * *

This rule is intended to permit the use of advanced communication technology (including two-way simultaneous audio-visual communication and closed circuit television) in preliminary arraignments. See Rule 540 and Comment for the procedures governing the use of advanced communication technology in preliminary arraignments.

This rule permits a defendant to be transported to an advanced communication technology site that is located outside the judicial district of arrest for preliminary arraignment. The arresting officer should determine which site is the most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district.

(b). Arrests Without Warrant

(Editor's Note: The following rule is new and is printed in regular face to enhance readability.)

Rule 518. Using Advanced Communication Technology in Court Cases When Warrant of Arrest is Executed Outside Judicial District of Issuance.

(A) When a defendant has been arrested in a court case, with a warrant, outside the judicial district where the warrant of arrest was issued, the defendant may be taken for a preliminary arraignment or the posting of bail to an advanced communication technology site that, in the judgment of the arresting officer, is most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district; and

(1) the defendant must be taken to the advanced communication technology site without unnecessary delay.

(2) The preliminary arraignment may be conducted pursuant to Rule 540 by the proper issuing authority in the magisterial district or judicial district in which the warrant was issued; or

(3) the defendant may post bail as permitted by law with the proper issuing authority in the judicial district in which the defendant was arrested.

(B) If a preliminary arraignment is conducted pursuant to paragraph (A)(2), and the defendant does not post bail, the issuing authority who conducted the preliminary arraignment shall commit the defendant to the jail in the judicial district in which the defendant was arrested or the judicial district in which the warrant was issued.

(1) The issuing authority may transmit to the jail any required documents by using advanced communication technology.

(2) When a monetary condition of bail is set by the issuing authority who conducted the preliminary arraignment, the payment of the monetary condition shall be made to either the issuing authority who imposed the monetary condition or the proper issuing authority in the judicial district in which the defendant was arrested.

(C) Pursuant to paragraph (A)(3), when the defendant appears via advanced communication technology before the proper issuing authority in the judicial district in which the defendant was arrested, the procedures set forth in Rule 517 shall be followed.

Comment

This rule sets forth the procedures for using advanced communication technology when a defendant is arrested with a warrant outside the judicial district in which it was issued: when advanced communication technology is available, the defendant could be preliminarily arraigned by the issuing authority who issued the warrant, or the "on-duty" issuing authority in that judicial district, or "appear" via advanced communication technology before the proper issuing authority for the purpose of posting bail.

See Rule 130 concerning venue.

See Rule 132 concerning the continuous availability and temporary assignment of issuing authorities.

When advanced communication technology is available only in the judicial district of arrest, the case would proceed under paragraph (A)(3), unless the defendant consents to dispense with the procedures in paragraph (A)(3), and the defendant is afforded a preliminary arraignment without unnecessary delay in the judicial district in which the warrant was issued.

See Rule 540 and Comment for the procedures governing the use in preliminary arraignments of two-way simultaneous audio-visual communication, which is a form of advanced communication technology.

This rule permits a defendant to be transported to an advanced communication technology site that is located outside the judicial district of arrest. The arresting officer should determine which site is the most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district.

Official Note: New Rule 518 adopted May 10, 2002, effective September 1, 2002.

Committee Explanatory Reports:

Rule [518] 519. Procedure in Court Cases Initiated by Arrest Without Warrant.

(A) PRELIMINARY ARRAIGNMENT

(1) Except as provided in paragraph (B), when a defendant has been arrested without a warrant in a court case, a complaint shall be filed against the defendant and the defendant shall be afforded a preliminary arraignment by the proper issuing authority without unnecessary delay.

(2) When a preliminary arraignment is conducted by advanced communication technology pursuant to Rule 540(A), the defendant shall be taken to an advanced communication technology site that, in the judgment of the arresting officer, is most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district.

(B) RELEASE

(1) When the arresting officer deems it appropriate, the officer may promptly release from custody a defendant who has been arrested without a warrant, rather than taking the defendant before the issuing authority, when the following conditions have been met:

[(1)] (a) * * *

[(2)] (b) * * *

[(3)] (c) * * *

[(4)] (d) * * *

[(5)] (e) * * *

[(C)] (2) When a defendant is released pursuant to paragraph (B)(1), a complaint shall be filed against the defendant within 5 days of the defendant's release.

Thereafter, a summons, not a warrant of arrest, shall be issued and the case shall proceed as provided in Rule 510.

Comment

Paragraph (A) requires that the defendant receive a prompt preliminary arraignment. See Rule 540 (Preliminary Arraignment).

Under paragraph (A), following arrest, the officer may file the complaint with the issuing authority using advanced communication technology.

Paragraph (A) is intended to permit the use of advanced communication technology (including two-way simultaneous audio-visual communication equipment and closed circuit television) in preliminary arraignments. See Rule 540 and Comment for the procedures governing the use of advanced communication technology in preliminary arraignments.

Paragraph (A)(2) permits a defendant to be transported to an advanced communication technology site that is located outside the judicial district of arrest for preliminary arraignment. The arresting officer should determine which site is the most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district.

Paragraph (B)(1) provides an exception to the requirement that a defendant be afforded a preliminary arraignment after a warrantless arrest. It permits an arresting officer, in specified circumstances, to release a defendant rather than take the defendant before an issuing authority for preliminary arraignment. Prior to 1994, this exception applied to all DUI cases, but in other cases was only available at the election of individual judicial districts. With the 1994 amendments, the exception is now an option available to arresting officers statewide and may not be prohibited by local rule.

* * * * *

Appropriate circumstances for following the procedure under paragraph (B)(1) may vary. Among the factors that may be taken into account are whether the defendant resides in the Commonwealth, and whether he or she can safely be released without danger to self or others.

* * * * *

With reference to the provisions of paragraph [(C)] (B)(2) relating to the issuance of a summons, see also Part B(2) of this Chapter, Summons Procedures.

PART D. Proceedings in Court Cases Before Issuing Authorities

Rule 540. Preliminary Arraignment.

(A) **In the discretion of the issuing authority, the preliminary arraignment of the defendant may be conducted by using two-way simultaneous audio-visual communication. When counsel for the defendant is present, the defendant must be permitted to communicate fully and confidentially with defense counsel immediately prior to and during the preliminary arraignment.**

Comment

A preliminary arraignment as provided in this rule bears no relationship to arraignment in criminal courts of record. See Rule 571.

Within the meaning of Rule 540, counsel is present when physically with the defendant or with the issuing authority.

Under paragraph (A), the issuing authority has discretion to order that a defendant appear in person for the arraignment.

Under paragraph (A), two-way simultaneous audio-visual communication is a form of advanced communication technology.

See Rule 130 concerning venue when proceedings are conducted using advanced communication technology.

Paragraph [(B)] (C) requires that the defendant receive copies of the arrest warrant and the supporting affidavit(s) at the time of the preliminary arraignment. See also Rules 513(A), 208(A), and 1003.

Paragraph [(B)] (C) includes a narrow exception which permits the issuing authority to provide copies of the arrest warrant and supporting affidavit(s) on the first business day after the preliminary arraignment. This exception applies only when copies of the arrest warrant

and affidavit(s) are not available at the time the issuing authority conducts the preliminary arraignment, and is intended to address purely practical situations such as the unavailability of a copier at the time of the preliminary arraignment.

* * * * *

When a defendant has not been promptly released from custody after a warrantless arrest, the defendant must be afforded a preliminary arraignment by the proper issuing authority without unnecessary delay. See Rule [518(A)] 519(A).

Under paragraph [(C)] (D), if a defendant has been arrested without a warrant, the issuing authority must make a prompt determination of probable cause before a defendant may be detained. See *Riverside v. McLaughlin*, 500 U.S. 44 (1991). The determination may be based on written affidavits, an oral statement under oath, or both.

PART F. Procedures Following Filing of Information

Rule 571. Arraignment.

(A) Except as otherwise provided in paragraph [(c)] (D), arraignment shall be in such form and manner as provided by local court rule. Notice of arraignment shall be given to the defendant as provided in Rule 113 or by first class mail. Unless otherwise provided by local court rule, or postponed by the court for cause shown, arraignment shall take place no later than 10 days after the information has been filed.

(B) **In the discretion of the court, the arraignment of the defendant may be conducted by using two-way simultaneous audio-visual communication. When the counsel for the defendant is present, the defendant must be permitted to communicate fully and confidentially with defense counsel immediately prior to and during the arraignment.**

(C) At arraignment, the defendant shall be advised of:

* * * * *

[(C)] (D) A defendant may waive appearance at arraignment if the following requirements are met:

* * * * *

(2) the defendant and counsel sign and file with the clerk of courts a waiver of appearance at arraignment that acknowledges the defendant:

Within the meaning of paragraph (B), counsel is present when physically with the defendant or with the judicial officer presiding over the arraignment.

Under paragraph (B), the court has discretion to order that a defendant appear in person for the arraignment.

Under paragraph (B), two-way simultaneous audio-visual communication is a form of advanced communication technology.

Paragraph [(C)] (D) is intended to facilitate, for defendants represented by counsel, waiver of appearance at arraignment through procedures such as arraignment by mail. For the procedures to provide notice of court proceedings requiring the defendant's presence, see Rule 9024.

See Rule 571 concerning arraignment procedures.

Although most references to indictments and indicting grand juries were deleted from these rules in 1993 since the indicting grand jury was abolished in all counties (see PA. CONST. art. 1, § 10 and 42 Pa.C.S. § 8931(b)), the reference was retained in this rule because there may be some cases still pending that were instituted prior to the abolition of the indicting grand jury.

Rule 801. Notice of Aggravating Circumstances.

The attorney for the Commonwealth shall file a Notice of Aggravating Circumstances that the Commonwealth intends to submit at the sentencing hearing and contemporaneously provide the defendant with a copy of such Notice of Aggravating Circumstances. Notice shall be filed at or before the time of arraignment, unless the attorney for the Commonwealth becomes aware of the existence of an aggravating circumstance after arraignment or the time for filing is extended by the court for cause shown.

For purposes of this rule, the notice requirement is satisfied if the copy of the notice to the defendant sets forth the existing aggravating circumstances substantially in the language of the statute. (3) when the offense charged does not fall within the categories specified in paragraph (C)(1) or (2), the [judge] issuing authority may, in his or her discretion, issue a summons or a warrant of arrest.

(D) PRELIMINARY ARRAIGNMENT

(1) When a defendant has been arrested within Philadelphia County in a Municipal Court case, with or without a warrant, the defendant shall be afforded a preliminary arraignment by [a Municipal Court judge] an issuing authority without unnecessary delay. If the defendant was arrested without a warrant pursuant to paragraph (A)(1)(a) or (b), unless the [Municipal Court judge] issuing authority makes a determination of probable cause, the defendant shall not be detained.

(2) In the discretion of the issuing authority, the preliminary arraignment of the defendant may be conducted by using two-way simultaneous audiovisual communication. When counsel for the defendant is present, the defendant must be permitted to communicate fully and confidentially with defense counsel immediately prior to and during the preliminary arraignment.

Former Rule 6003 was rescinded and replaced in 1994 by new Rule 6003, renumbered Rule 1003 in 2000. Although Rule 1003 has been extensively reorganized, only paragraphs (D)(1) and [(D)(2)(c)] (D)(3)(c) reflect changes in the procedures contained in the former rule.

* * * * *

The procedure set forth in paragraph (C)(3) allows the [**Municipal Court judge**] **issuing authority** to exercise discretion in whether to issue a summons or an arrest warrant depending on the circumstances of the particular case. Appropriate factors for issuing a summons rather than an arrest warrant will, of course, vary. Among the factors that may be taken into consideration are the severity of the offense, the continued danger to the victim, the relationship between the defendant and the victim, the known prior criminal history of the defendant, etc.

Within the meaning of paragraph (D)(2), counsel is present when physically with the defendant or with the issuing authority.

Under paragraph (D)(2), the issuing authority has discretion to order that a defendant appear in person for the preliminary arraignment.

Under paragraph (D)(2), two-way simultaneous audio-visual communication is a form of advanced communication technology.

See Rule 130 concerning venue when proceedings are conducted pursuant to this rule using advanced communication technology.

Paragraph [(D)(2)(c)] (D)(3)(c) requires that the defendant receive copies of the arrest warrant and the supporting affidavits at the preliminary arraignment. This amendment parallels Rule 540(B). See also Rules 513(A) and 208(A).

Paragraph [(D)(2)(c)] (D)(3)(c) includes a narrow exception which permits the issuing authority to provide copies of the arrest warrant and supporting affidavit(s) on the first business day after the preliminary arraignment. This exception applies only when copies of the arrest warrant and affidavit(s) are not available at the time the issuing authority conducts the preliminary arraignment, and is intended to address purely practical situations such as the unavailability of a copier at the time of the preliminary arraignment.

* * * * *

Under paragraph [(D)(3)] (D)(4), after the preliminary arraignment, if the defendant is detained, the defendant must be given an immediate and reasonable opportunity to post bail, secure counsel, and notify others of the arrest. Thereafter, if the defendant does not post bail, he or she must be committed to jail as provided by law.

A. BACKGROUND

Since 1983 when the Court revised the Comments to Rules 516 and 1003 and Rule 519 “to permit closed circuit television in preliminary arraignments,” the Committee from time to time has considered expanding the scope of the “closed circuit television” provisions to provide in the Criminal Rules a comprehensive scheme for the use of advanced communication technology (ACT) in criminal proceedings. In 1998, we resumed our consideration of ACT in view of 42 Pa.C.S. § 8703 that provides for arraignment of a defendant by two-way electronic audio-visual communications, and correspondence we received suggesting that ACT provisions would promote judicial efficiency and economy. Initially, the Committee’s focus on ACT was narrow, considering only the rules that provide the procedures for preliminary arraignments and arraignments. However, after we learned that several judicial districts already are moving forward and experimenting with ACT in various criminal proceedings, our narrow focus quickly expanded to encompass consideration of the use of ACT in other procedures, including inter alia, search warrant and arrest warrant procedures, and procedures following the arrest of a defendant.

Recognizing that ACT equipment is expensive and not uniformly available statewide, the rule changes 1) encourage the use of ACT while maintaining the non-ACT provisions of the present rules, 2) accommodate the localities within the Commonwealth that do not have access to ACT systems and equipment, and 3) provide for those situations in which the judicial officer conducting a criminal proceeding may want an individual to appear in person, rather than conduct judicial business using ACT. In addition, the new provisions:

- further the Court’s goal to promote uniform, statewide procedures;
- provide for the prompt and efficient administration of justice;
- bring convenience to the parties; and
- protect the rights of the defendant.

The following discussion of the new ACT provisions is divided into four separate parts: (1) preliminary arraignments and arraignments, Part B below; (2) procedures following arrest of defendant, Part C below; (3) search warrants and arrest warrants, Part D below; and (4) correlative changes, Part E below.

B. PRELIMINARY ARRAIGNMENTS AND ARRAIGNMENTS

1. Background

In 1998, 42 Pa.C.S. § 8703 providing for arraignment of a defendant using two-way electronic audio-visual communications was enacted. During the same time period, the Committee received correspondence requesting that the rules be amended to permit the use of ACT, such as closed circuit television, in criminal proceedings, particularly for preliminary arraignments and arraignments.

The correspondents commented that many types of technology are readily available, and, when used, increase the efficiency of court proceedings. They also pointed out that many judicial districts already use forms of ACT in various criminal proceedings, including preliminary arraignments and arraignments. The correspondents’ experience with ACT has shown that the use of ACT reduces delays and costs, and, when ACT is used for the preliminary arraignment, the defendant is not unnecessarily detained because of the unavailability of an issuing authority. The concern noted by the correspondents was that, other than the Comment references to closed circuit television preliminary arraignments in Rules 516, 519, and 1003, the Criminal Rules do not specifically include such practices, so there is no uniformity in the ACT procedures that already are being used. In addition, many judicial districts are not using ACT because the rules do not authorize its use.

The Committee reviewed Pennsylvania case law addressing the use of technology in criminal proceedings generally, and found that the courts have upheld the use of electronic and mechanical devices in preliminary arraignments, as long as the defendant is not prejudiced or deprived of constitutional rights. See, e.g., *Commonwealth v. Terebieniec*, 408 A.2d 1120 (Pa. Super. 1979). The Committee also surveyed rules, statutes, and case law of other jurisdictions, and found that the use of ACT in criminal proceedings is widespread and continually expanding.

In view of the 1998 statutory enactment, the points outlined in the correspondence, the fact that the existing rules do not include procedures specifically providing for the use of ACT in preliminary arraignments and arraignments, and the growing use of ACT in criminal proceedings in Pennsylvania and other jurisdictions, the Committee agreed that the rules providing the procedures for preliminary arraignments and arraignments should be amended to authorize the use of ACT for these proceedings.

2. Discussion of Rule Changes

a. Preliminary Arraignments

i. Rule 540 (Preliminary Arraignment)

Rule 540 provides the procedures governing preliminary arraignments in all cases except in Philadelphia, which is governed by the Municipal Court Rules, see Rule 1003. Rule 540 has been amended by the addition of new paragraph (A), which provides that (1) preliminary arraignments, in the discretion of the issuing authority, may be conducted by using two-way simultaneous audio-visual communication, and (2) when the counsel for the defendant is present, the defendant must be permitted to communicate fully and confidentially with defense counsel immediately prior to and during the preliminary arraignment.³ By using “two-way simultaneous audio-visual communication,” the rule requires that the defendant and the issuing authority be able to see and communicate with each other during the proceeding. The new ACT provisions precede the present provisions concerning the conduct of preliminary arraignments to emphasize the new ACT provisions, thereby encouraging the use of communication technology when available in the judicial districts, and making it clear that the decision whether to use ACT is within the issuing authority’s discretion.

Several correlative changes have been made in the Rule 540 Comment. First, a new second paragraph has been

³ Comparable changes also have been made to Rules 571 and 1003. See discussion below.

added to explain that counsel is “present” when physically with the defendant or with the issuing authority. A new third paragraph emphasizes that the issuing authority has the discretion not to use ACT and to order that a defendant appear in person for the preliminary arraignment. Because Rule 540 uses “two-way simultaneous audio-visual communication,” a new fourth paragraph explains that type of communication is a form of advanced communication technology as defined in Rule 103. Finally, a new fifth paragraph cross-references Rule 130 (Venue; Transfer of Proceedings) to emphasize that when an issuing authority conducts the preliminary arraignment from an ACT site that is outside the magisterial district or judicial district, the venue does not change.

ii. *Rule 1003 (Procedure in Non-Summary Municipal Court Cases)*

Rule 1003 provides, *inter alia*, the procedures for the conduct of preliminary arraignments in Philadelphia Municipal Court. Rule 1003(D) and Comment have been changed to mirror the Rule 540 changes concerning two-way simultaneous audio-visual communication discussed in Section B.2.a.i. above.

b. *Arraignments: Rule 571 (Arraignment)*

Rule 571 has been amended by the addition of a new paragraph (B) that authorizes the use of two-way simultaneous audio-visual communication for the conduct of arraignments. These changes accomplish the same goals as the changes to Rule 540 by giving the judicial officer presiding over the arraignment the discretion to use ACT in an arraignment proceeding, and requiring that the defendant be permitted to communicate fully and confidentially with defense counsel prior to and during the arraignment. In addition, the “two-way simultaneous audio-visual” language makes the rule clear that the defendant and the issuing authority must be able to see and communicate with each other during the proceeding. In addition, correlative changes to the Comment, comparable to the changes to the Rule 540 Comment described in Section B.2.a.i., have been made.

C. PROCEDURES FOLLOWING ARREST OF DEFENDANT

1. *Background*

During the development of the rule changes concerning the use of ACT in preliminary arraignments and arraignments, the Committee received correspondence questioning the propriety of law enforcement officers transporting a defendant out of county for a preliminary arraignment when the out-of-county site is set up to conduct the preliminary arraignment using ACT. The correspondent:

- pointed out that the Criminal Rules are silent in this regard, and requested that the Committee consider amending the rules specifically to permit this procedure;
- indicated that when ACT procedures are used and the ACT sites are established, there may be a site that is located outside of the judicial district in which an arrest occurred, but is closer to the location of the arrest;
- suggested that the benefits of allowing the law enforcement officers to transport a defendant to an “out-of-county” site would: “relieve police officers from outlying communities from costly and time-consuming trips” that are caused by the requirement that the defendant be brought to appear before the proper issuing authority, or to an ACT site that is not convenient; and speed up the processing of a defendant; and
- made it clear that “a defendant would still be arraigned by the proper issuing authority in the jurisdiction

of the alleged criminal incident”—the officers merely would be using out-of-county facilities as the technological link between the defendant and the issuing authority for the preliminary arraignment.

In considering this correspondence, the Committee acknowledged that when developing the proposed rule changes providing the procedures for using ACT in preliminary arraignments, we had not considered whether a law enforcement officer may transport a defendant to an out-of-judicial district ACT site for the preliminary arraignment, but as worded, the proposed changes do not preclude the procedure. After further discussion, we agreed that as long as the proper issuing authority conducts the preliminary arraignment, we did not foresee any disadvantages or prejudice of such a procedure, and agreed that the practice should be permitted. However, because the concept of permitting a law enforcement officer to transport a defendant to a site outside the territorial limits of the officer’s jurisdiction seems contrary to accepted procedures, the Committee agreed that the rules specifically should authorize the procedure.

Accordingly, the changes adopted by the Court provide when a preliminary arraignment is conducted by ACT pursuant to Rule 540, the defendant must be taken to the ACT site most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district. Under these changes, once ACT sites are established, an arresting officer may transport the defendant to a site outside the magisterial district or judicial district of arrest for the preliminary arraignment. This procedure is intended to promote the primary goals of ACT procedures—the prompt and efficient administration of justice, and convenience to the parties.

2. *Discussion of Rule Changes*

a. *Rule 516 (Procedure in Court Cases When Warrant of Arrest is Executed Within Judicial District of Issuance) and Rule 519⁴ (Procedure in Court Cases Initiated by Arrest Without Warrant)*

Rule 516 provides the procedures in court cases when a warrant of arrest is executed within the judicial district of issuance, and Rule 519 provides the procedures in court cases when a defendant is arrested without a warrant. Rules 516 and 519 have been amended to (1) reference the preliminary arraignment procedures found in Rule 540, and (2) make clear that when the preliminary arraignment is conducted using two-way simultaneous audio-visual communication, which is a form of ACT, the defendant shall be taken to an ACT site which, in the judgment of the arresting officer, is most convenient to the place of arrest without regard to the boundary of any magisterial district or judicial district. Once ACT sites are established, a police officer will have several options: the officer could take a defendant for the preliminary arraignment to:

- (1) the proper issuing authority where the defendant was arrested;
- (2) an approved ACT site in the judicial district of arrest; or
- (3) an approved ACT site outside the judicial district in which the defendant was arrested. The changes are worded broadly to encompass all three possibilities, as well as others that may arise once ACT is more widely used throughout the Commonwealth.

The Comments to Rules 516 and 519 have been revised to include a cross-reference to Rule 540 to highlight that

⁴ Rule 518 was renumbered Rule 519 as part of the changes adopted by the Court on May 10, 2002.

an issuing authority may conduct a preliminary arraignment by using forms of ACT other than closed circuit television as long as the requirements of Rule 540 are satisfied. The Comments also emphasize that under the new provision in the rules, the arresting officer may transport a defendant to an ACT site that is outside of the judicial district in which the defendant was arrested.

In addition to the changes described above, Rule 519 has been separated into two paragraphs to make it clear that after a defendant is arrested without a warrant, the arresting officer has two options: take the defendant without unnecessary delay for a preliminary arraignment (see Rule 540); or release the defendant. The first new paragraph in the Comment explains that under paragraph (A), when an arresting officer is required to file a complaint, the officer may use ACT to file the complaint with the proper issuing authority.

b. New Rule 518 (Using Advanced Communication Technology in Court Cases When Warrant of Arrest is Executed Outside Judicial District of Issuance)

When developing the procedures for the use of out-of-judicial district ACT sites for preliminary arraignments, the Committee agreed that the procedures in Rule 517 for cases in which the warrant is executed outside the county of issuance needed to be modified to accommodate ACT. Initially, when we tried to work the ACT procedures into Rule 517, we experienced great difficulty with this approach and were unable to come up with a comprehensible procedure. Accordingly, new Rule 518 provides the procedures for using ACT when a warrant of arrest is executed outside the judicial district in which it was issued, and Rule 517 has been retained in its current form for cases in which ACT is not used.

The new rule is divided into three paragraphs. Paragraph (A) provides the defendant may be taken, for a preliminary arraignment or for the posting of bail, to an ACT site convenient to the place of arrest without regard to the boundary of any magisterial or judicial district. This paragraph also includes the requirement that the defendant must be taken to the ACT site without unnecessary delay. See paragraph (A)(1).

Paragraph (A)(2) provides that when the defendant is taken to the ACT site, the preliminary arraignment may be conducted in accordance with the requirements set forth in Rule 540 by the issuing authority in the judicial district in which the warrant was issued.

Paragraph (A)(3) provides when the defendant is taken to the ACT site, the defendant may post bail with the issuing authority in the judicial district in which the defendant was arrested.

Paragraph (B) provides that when a preliminary arraignment is conducted pursuant to paragraph (A)(2)—by the proper issuing authority in the judicial district in which the warrant was issued—and the defendant does not post bail, the issuing authority who conducted the preliminary arraignment is authorized to commit the defendant to the jail in the county in which the defendant was arrested or the county in which the warrant issued, and that the issuing authority, by using ACT, may transmit to the jail any required documents. The Committee considered this provision at length, and agreed that a provision to permit the issuing authority who issued the warrant to conduct the preliminary arraignment would promote judicial economy and be more efficient. In addition, because issuing authorities have statewide jurisdic-

tion,⁵ the issuing authority who conducts the preliminary arraignment may issue the paperwork required to have the defendant lodged in a jail in the county of arrest.

Paragraph (B)(2) provides that when bail is set by the issuing authority who conducted the preliminary arraignment, the payment of bail may be made to either the issuing authority who imposed the condition or to the proper issuing authority in the judicial district in which the defendant was arrested. The Committee anticipates that this requirement will facilitate the posting of bail so the defendant is released in a timely manner.

Paragraph (C) provides that when the defendant appears via ACT before the proper issuing authority in the judicial district in which the defendant was arrested, the procedures set forth in Rule 517 must be followed. In other words, although the proper issuing authority in the judicial district of issuance may not be available, if ACT is available between the defendant and the issuing authority in the county of arrest, ACT may be used to proceed pursuant to Rule 517.

The Rule 518 Comment explains that (1) the rule sets forth the procedures for using ACT when a defendant is arrested outside the judicial district in which a warrant was issued, and explains that when ACT is available, the defendant may be preliminarily arraigned by the issuing authority who issued the warrant, or the “on-duty” issuing authority in that judicial district, or “appear” via ACT before the proper issuing authority for the purpose of posting bail; (2) when ACT is available only in the judicial district of arrest, the case would proceed under paragraph (A)(3), unless the defendant consents to dispense with the paragraph (A)(3) requirement and is afforded a preliminary arraignment without unnecessary delay in the judicial district in which the warrant was issued; and (3) under new Rule 518, a defendant may be transported to an ACT site that is located outside the judicial district of arrest, and suggests the arresting officer should determine the ACT site most convenient to the place of arrest.

c. Rule 130 (Venue; Transfer of Proceedings)

The Comment to Rule 130 has been revised by (1) deleting the first paragraph, and (2) adding as a new fourth paragraph language explaining that venue is not altered when an issuing authority conducts a proceeding from an ACT site outside the issuing authority’s magisterial district or judicial district.

d. Rule 131 (Location of Proceedings Before Issuing Authority)

Rule 131 governs the location(s) from which an issuing authority may conduct official duties. The Committee agreed, in view of new Rule 518 and the amendments to Rules 516, 517, and 519 discussed above, that some changes to Rule 131 were necessary to explain that: 1) an issuing authority may conduct official duties from an ACT site; and 2) under paragraph (A), the ACT site may be located at any site within the Commonwealth designated by the president judge or the president judge’s designee. Accordingly, paragraph (A) has been restructured, and the changes concerning ACT are included as new paragraphs (A)(2) and (4). In addition, to update the rule, the language in paragraph (A) “fix and take” has been changed to “set and receive.”

The Comment to Rule 131 has been revised to make it clear that an ACT site located outside of the magisterial district or judicial district is contemplated by paragraph (A). The Comment also has been revised by adding a

cross-reference to Rule 540 concerning the procedures to conduct preliminary arraignments and Rule 130 concerning venue, and making some editorial changes and technical corrections.

D. USING ADVANCED COMMUNICATION TECHNOLOGY FOR SEARCH AND ARREST WARRANTS

1. Background

During our consideration of the use of ACT in criminal proceedings, the Committee discussed whether the arrest and search warrant procedures in Pennsylvania also could be streamlined by including in the warrant rules provisions allowing the use of ACT to obtain a warrant.

The Committee's research into this issue revealed that the substantive meaning of the provisions of the Fourth Amendment of the U.S. Constitution⁶ and article I, section 8 of the Pennsylvania Constitution⁷ are seemingly identical. These similarities support the concept of using ACT to request and issue warrants particularly since federal case law has construed this constitutional provision as permitting some forms of ACT. See *U.S. Turner*, 558 F.2d 46 (2d Cir. 1977), *People v. Snyder*, 449 N.W.2d 703 (Mich. Ct. App. 1989), *State v. Andries*, 297 N.W.2d 124 (Minn. 1980). In the Pennsylvania Constitutional provision, however, there is the additional language "subscribed to by the affiant." The Committee agreed that this provision requiring the affiant's signature, without more, would not bar the use of ACT to obtain a warrant as long as the technology employed captures the signature.

The Committee looked at other jurisdictions and found that although not widespread across the country, there are a few jurisdictions that have specific procedures for using advanced technology communication equipment in warrant procedures as an alternative to the traditional method of the "in person, face-to-face" appearance before the magistrate. F.R.Crim.P. 41 permits a federal magistrate or judge to issue a warrant based upon sworn testimony communicated by telephone or other appropriate means of communication, including electronic transmission. We also examined the case law, which indicates that the use of electronic communications to obtain warrants is permitted as long as the constitutional requirements and spirit of the law are satisfied. See, e.g., *U.S. v. Richardson*, 943 F.2d 547 (5th Cir. 1991); *State v. Evans*, 822 P.2d 1198 (Or. Ct. App. 1991); *State v. Myers*, 815 P.2d 761 (Wash. 1991); *State v. Lindsey*, 473 N.W.2d 857 (Minn. 1991); *People v. Snyder*, 449 N.W.2d 703 (Mich. Ct. App. 1989).

The Committee recognizes that there are a sufficient number of "warrant" situations in which time and convenience are important, and expects that the new ACT provisions will (1) reduce the amount of time it takes to obtain a warrant, and (2) increase the convenience to both affiant and issuing authority. In addition, the Committee agreed with the concept that proceeding with a warrant is favored over proceeding without a warrant, and using ACT will reduce the number of warrantless arrests and seizures.

2. ACT in Pennsylvania Search Warrant and Arrest Warrant Procedures

⁶ The right of the people to be secure in their persons, houses, papers, and effects, against unreasonable searches and seizures, shall not be violated, and no warrants shall issue, but upon probable cause, supported by oath or affirmation, and particularly describing the place to be searched, and the persons or things to be seized." U.S. CONST. amend 4.

⁷ The people shall be secure in their persons, houses, papers and possessions from unreasonable searches and seizures, and no warrant to search any place or to seize any person or things shall issue without describing them as nearly as may be, nor without probable cause, supported by oath or affirmation subscribed to by the affiant." PA.CONST. art. I, sec. 8.

In devising the new ACT procedures, the Committee agreed that the rules should continue to require the "written" affidavits, yet allow for the writing to be submitted using ACT equipment. In addition, we agreed that an important concept for the new procedure would be to require the issuing authority to verify the identity of the affiant, and to maintain the requirement that the issuing authority administer an oath to the affiant. Under the new procedure, the issuing authority and the affiant may communicate from separate locations, and the issuing authority will be able to use ACT to verify the identity of the affiant and administer the oath before the required documentation is transmitted.

In addition, under the new procedures, the use of ACT in warrant procedures is discretionary with the issuing authority. The new ACT provisions do not: 1) mandate the use of ACT for every situation in which an affiant requests a warrant; 2) preclude the issuing authority from requiring the affiant to appear before the issuing authority to obtain the warrant, and 3) preclude the technology from being used at any time. The Committee considered that there also will be situations in which the issuing authority cannot readily identify the affiant or verify the identity of the affiant, and when these instances arise, the issuing authority is required to have the affiant appear in person.

a. Requirements for Issuance: Rules 203 and 513

Rule 203 sets forth the requirements for the issuance of search warrants, and Rule 513 sets forth the requirements for the issuance of arrest warrants. Noting that Rule 513 parallels Rule 203, the Committee agreed that the parallel structure should be maintained with the new ACT provisions; the following explanation of the rule changes applies to both Rule 203 and 513. New paragraph (A) provides that in the discretion of the issuing authority, an affiant may use ACT to submit an affidavit of probable cause (Rule 203) or a complaint (Rule 513) to the issuing authority, and the issuing authority may use ACT to issue the warrant. Former paragraph (A) has become paragraph (B), and includes the additional language "in person or using advanced communication technology" to make it clear that the "sworn to before the issuing authority" requirement contemplates the use of ACT under the rules. The rules also require that the issuing authority be able to verify the identity of the affiant who is requesting an arrest warrant or a search warrant, and administer an oath to the affiant. See paragraph (C).

Similar to Federal Rule of Criminal Procedure 41, these new provisions make it clear that when the new procedures are followed, the rules do not require that an affidavit in support of the warrant be sworn to in the physical presence of the issuing authority. Unlike the provisions in Federal Rule 41 that permit oral requests for warrants without the requirement of a "face-to-face" encounter, Rules 203 (Requirements for Issuance) and 513 (Requirements for Issuance) do not permit a warrant to issue based on oral testimony alone, and require that the issuing authority using ACT must be able to see the affiant when the oath is administered.

Former paragraph (B) has been "relettered" as new paragraph (D), without modification. Finally, Rule 203 maintains its provision for searches conducted at nighttime as new paragraph (E).

The Comments to Rules 203 and 513 have been revised to 1) reiterate that simultaneous audio-visual communication is permitted to obtain both arrest warrants and

search warrants; 2) explain that the probable cause requirement has not been altered; 3) make it clear that when ACT is used, the language “sworn to before the issuing authority” contemplates that the affiant would not be in the physical presence of the issuing authority; 4) emphasize that the issuing authority is required to verify the identity of the affiant; and 5) require that when ACT is used in warrant procedures, the issuing authority must be able to see the affiant.

b. *Rules 514 (Duplicate and Alias Warrants of Arrest) and 515 (Execution of Arrest Warrants)*

Rule 514 provides the procedures for issuing duplicate and alias warrants of arrest and Rule 515 provides the procedures for the execution of arrest warrants. The Comments to both rules have been revised to:

- 1) make it clear that ACT is permitted for the issuance of duplicate and alias warrants;
- 2) explain that when warrant information is transmitted, the information does not have to be an exact copy of the warrant;
- 3) clarify that the rule does not modify the Rule 540(C) requirement that the issuing authority provide the defendant with an exact copy of the warrant at the time of the preliminary arraignment; and
- 4) provide a cross-reference to Rule 513.

E. CORRELATIVE CHANGES

As noted above, several correlative changes have been made to make it clear that the new provisions have been designed to encourage the use of ACT. Terms that are new to the rules, or meanings that have changed because of the new ACT provisions, are included in Rule 103. In addition, editorial changes and technical corrections have been made to the rules to conform them to the new ACT provisions.

1. *Rule 103 (Definitions)*

Because the concept of ACT in criminal practice is novel to the Criminal Rules, Rule 103 has been amended to include definitions of the terms “advanced communication technology,” “advanced communication technology site,” and “copy.” The definition of “advanced communication technology” is intentionally broad in anticipation of future changes in technology, and includes examples of ACT.

“Advanced communication technology site” is a term of art developed by the Committee to define the parameters concerning the locations where the judicial officers and other parties would be located when using ACT. The definition requires the site be approved by the president judge or the president judge’s designee, located within Pennsylvania, and equipped with ACT equipment that satisfies the ACT requirements as provided in the Criminal Rules.

The Committee also recognized that by authorizing ACT, further clarification was necessary concerning whether a document received through a transmission by ACT constitutes a valid “copy” for purposes of the Criminal Rules. We agreed that the salutary benefits of ACT would be frustrated if the rules were not made clear that “copy” as used in the rules includes documents received by transmission through technological equipment. Accordingly, Rule 103 has been amended to define “copy” as “an

exact duplicate of an original document, including any required signatures, produced through mechanical or electronic means.” The definition also includes examples of types of equipment that may be used for the reproduction of documents.

2. *Rule 112 (Publicity, Broadcasting, and Recording of Proceedings)*

Rule 112 has been amended to update the rule and clarify that the prohibitions in the rule are not intended to apply to the use of ACT in court proceedings. The changes also expand the rule to include more contemporary means of recording and transmitting to accommodate ACT.

3. *Rule 582 (Joinder—Trial of Separate Indictments or Informations)*

Rule 582 provides the procedures for joinder of separate indictments or informations. Rule 582 has been amended to require the original joinder notice be filed with the clerk of courts and a copy of the notice served on the defendant. The Rule 582 Comment also has been revised to include a cross-reference to Rule 571 concerning arraignment procedures.

NOTICES

DELAWARE RIVER BASIN COMMISSION

Commission Meeting and Public Hearing

The Delaware River Basin Commission (Commission) will hold an informal conference followed by a public hearing on Friday, May 31, 2002. The hearing will be part of the Commission's regular business meeting. The conference session and business meeting both are open to the public. The conference session will be held at Grey Towers, 151 Grey Towers Drive, Milford, PA. The business meeting also will be held at Grey Towers, unless there is a possibility of bad weather in the afternoon or evening. In that event, the business meeting will be held at the Best Western Inn at Hunt's Landing, 120 Routes 6 and 209, Milford, PA. In case of doubt about the hearing location, contact the Commission on May 31, 2002, at (609) 883-9500. Directions to both locations are posted on the Commission's website, <http://www.DRBC.net>.

The conference among the Commissioners and staff will begin at 10 a.m. Topics of discussion will include: an update on a proposal for protecting existing water quality in the Lower Delaware River pending a possible special protection waters designation; an update on PCB TMDL development and sampling activities; a proposed resolution authorizing the Executive Director to engage a consultant to assist in development of a PCB fate and transport model for the Delaware Estuary; a proposal to engage the Chesapeake Biological Laboratory of the University of Maryland to conduct carbon analytical work in connection with development of a TMDL for PCBs in the Delaware Estuary; a report on the May meeting of the Commission's Flow Management Technical Advisory Committee; and proposed resolutions authorizing the Executive Director to renew the Commission's contract with the Northeast-Midwest Institute and to engage a consultant to perform a position classification and compensation analysis.

The subjects of the public hearing to be held during the 1 p.m. business meeting include, in addition to the following dockets, a resolution amending Article 8 of the Administrative Manual—Rules of Practice and Procedure relating to fees associated with Commission responses to Freedom of Information Act requests. In the event a resolution or docket is considered involving modification of the Commission's Comprehensive Plan to adjust releases from the New York City Reservoirs to protect tailwaters fisheries, then a hearing on the proposal also will be held. Contact the Commission Secretary after May 16, 2002, for information on the status of this item.

The dockets scheduled for public hearing are as follows:

1. *Boyertown Foundry Company. D-85-80 Renewal* 2. A renewal of a ground water withdrawal project to supply up to 3.54 million gallons (mg)/30 days of water to the applicant's foundry facility (formerly Eastern Foundry Company) from existing Well No. 1A in the Leithsville Dolomite Formation. No increase in allocation is proposed. The project is located in Boyertown Borough, Berks County, PA.

2. *Schwenksville Borough Authority. D-98-30 CP*. A project to increase the rated capacity of the applicant's existing 0.206 million gallons per day (mgd) sewage

treatment plant (STP) to 0.3 mgd. The STP will continue to provide secondary biological treatment by trickling filter and activate sludge systems to serve the Borough of Schwenksville and adjacent portions of Perkiomen and Lower Frederick Townships, all in Montgomery County, PA. The STP is situated just west of Perkiomen Creek, to which it will continue to discharge, and just east of SR 73 between Church and Maple Streets in the Borough of Schwenksville, Montgomery County, PA.

3. *McGinley Mills, Inc. D-91-55 Renewal*. A renewal of a ground water withdrawal project to continue withdrawal of 13.4 mg/30 days to supply the applicant's industrial facility from existing Wells Nos. 1 and 2 in the Allentown formation. The project is located in the Town of Phillipsburg, Warren County, NJ.

4. *Maidencreek Township Authority. D-91-58 CP Renewal*. A renewal of a ground water withdrawal project with an increase of withdrawal from 13.2 mg/30 days to 22.7 mg/30 days to supply the applicant's public water distribution system from existing Wells No. 1—3 in the Epler and Allentown formations. The project is located in Maidencreek Township, Berks County, PA.

5. *New Jersey Department of Corrections-Bayside State Correctional Facility. D-2000-10 CP*. A ground water withdrawal project to supply up to 30 mg/30 days of water to the applicant's correctional facility and farm from new Well No. 5 in the Cohansey-Kirkwood aquifer and to retain the withdrawal limit from all wells at 30 mg/30 days. The project is located in Maurice River Township, Cumberland County, NJ.

6. *Pennridge Wastewater Treatment Authority. D-2001-1 CP*. A project to expand the applicant's existing advanced secondary STP from 4.0 mgd to 4.325 mgd via trickling filter and chemical addition processes. Located in both West Rockhill Township and Sellersville Borough, both in Bucks County, PA, the STP will serve the Boroughs of Perkasio, Sellersville, Silverdale and Telford, and the Townships of East Rockhill, Hilltown and West Rockhill, all in Bucks County. Treated effluent will continue to be discharged to the adjacent East Branch Perkiomen Creek through an existing outfall.

7. *West Vincent Township. D-2001-60*. A project to construct a 0.11 mgd aerated-lagoon type STP and effluent spray irrigation system to serve proposed housing and commercial office development on the northeast corner of Routes 100 and 401 in West Vincent Township, Chester County, PA. Following secondary treatment, effluent will be sprayed on 22 acres of adjacent farm and wooded lands. During inclement weather, STP effluent can be stored in onsite lagoons, so no discharge to nearby Birch Run Creek in the French Creek watershed is required.

8. *Tidewater Utilities, Inc. D-2002-4 CP*. A ground water withdrawal project to supply up to 7.95 mg/30 days of water to the applicant's public water distribution system from new Wells Nos. L5 and L9 in the Columbia Formation. Wells Nos. L5 and L9 will be interconnected with the applicant's 11 other wells, which are located outside the Delaware River Basin. The project is located in the Broadkill River watershed in Lewes/Rehoboth, Sussex County, DE.

9. *Philadelphia Suburban Water Company. D-2002-5 CP*. A ground water withdrawal project to supply a combined total of 6.26 mg/30 days of water to the applicant's public water supply distribution system from

new Kay Wells B and C, to be interconnected with nine existing wells currently comprising the Pennsylvania Suburban Water Company (PSW) UGS Northern Division service area, and to limit the withdrawal from all wells to 15.86 mg/30 days. Kay Well B is to be allocated at 2.80 mg/30 days and Kay Well C at 3.45 mg/30 days. The project is located in the Beaver Creek watershed in East Brandywine Township, Chester County, PA. As proposed in the Department of Environmental Protection draft water supply permit, Special Condition I, the Kay Wells would be removed from service once a water treatment plant receiving water from PSW's Cornog Quarry Project (a proposed surface water withdrawal and storage project on the East Branch Brandywine Creek in Wallace Township, Chester County) is placed into operation. At this time, the Commission's combined total allocation for the remaining wells is proposed to be limited to 9.6 mg/30 days.

10. *Kidder Township, D-2002-6 CP.* A project to expand the 0.15 mgd Split Rock STP to process 0.4 mgd, while continuing to provide a tertiary level of treatment. The applicant proposes to purchase the existing STP from Vacation Charters, Ltd. and expand the sequencing batch reactor plant to serve future development at the Split Rock Resort and current flows from properties in the Lake Harmony and Split Rock areas, all within Kidder Township, Carbon County, PA. The project is located about 2 miles west of the intersection of Interstate 80 and SR 115. The existing STP owner will retain a spray irrigation permit to apply the effluent to its resort golf course, as needed, or allow it to discharge to Shingle Mill Run, a tributary of Tobyhanna Creek in the Lehigh River Watershed.

In addition to the public hearing items, the Commission will address the following at its 1 p.m. business meeting: minutes of the April 3, 2002, business meeting; announcements; a report on Basin hydrologic conditions; reports by the Executive Director and General Counsel; discussion

and possible Commission response to requests for a hearing to review the Commission's action on Docket D-98-11 CP of the PSW (formerly Philadelphia Suburban Water Company); and resolutions: (1) authorizing the Executive Director to engage a consultant to assist in development of a PCB fate and transport model for the Delaware Estuary; (2) authorizing the Executive Director to engage the Chesapeake Biological Laboratory of the University of Maryland to conduct carbon analytical work in connection with development of a TMDL for PCBs in the Delaware Estuary; (3) authorizing the Executive Director to renew the Commission's contract with the Northeast-Midwest Institute; (4) authorizing the Executive Director to engage a consultant to performing a position classification and compensation analysis; (5) providing for election of the Commission Chair, Vice Chair and Second Vice Chair for the year 2002-03, commencing July 1, 2002; and (6) honoring N.G. Kaul. The meeting will conclude with an opportunity for public dialogue.

Documents relating to the dockets and other items may be examined at the Commission's offices. Preliminary dockets are available in single copies upon request. Contact Thomas L. Brand at (609) 883-9500 ext. 221 with docket-related questions. Persons wishing to testify at this hearing are requested to register in advance with the Commission Secretary at (609) 883-9500 ext. 203.

Individuals in need of an accommodation as provided for in the Americans With Disabilities Act who wish to attend the hearing should contact the Commission Secretary at (609) 883-9500 ext. 203 or through the New Jersey Relay Service at (800) 852-7899 (TTY), to discuss how the Commission may accommodate their needs.

APPLICATIONS

NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS

NPDES APPLICATIONS

PART I PERMITS

Under the Federal Clean Water Act and The Clean Streams Law, the following parties have applied for an NPDES permit or to renew their current permit to discharge controlled wastewaters into the waters of this Commonwealth or to conduct other activities required by the NPDES permit. For renewal applications listed in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements. For all new permit applications, renewal application with major changes or applications for permits not waived by the EPA, the Department, based upon preliminary reviews, also made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications listed in Section II. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement, to the office noted before the application within 30 days from the date of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding this application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant. Following the comment period, the Department's Water Management Program Manager will make a final determination regarding these applications. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The renewal application, including proposed effluent limitations and special conditions, is available on file. For new permit applications, information submitted with the applications is available on file. The information may be inspected and arrangements made for copying at the office indicated before the application.

Persons with a disability, who require an auxiliary aids, service, including TDD users or other accommodations to seek additional information, should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

Application No. PA 0246638, CAFO, **Franklin-View Farms**, 2232 Franklin Road, Columbia, PA 17512. Franklin-View Farms has submitted an application for an individual NPDES permit for an individual expanding CAFO known as Franklin-View Farms, 2232 Franklin Road, Manor Township, **Franklin County**.

The CAFO is situated near Staman and Strickler Runs in Watershed 7-G, which is classified for WWF. The CAFO will be designed to maintain an animal population of approximately 1,073.4 animal equivalent units consisting of 500 milking cows, 50 dry cows, 230 heifers, 120 calves, 3 bulls and 34,000 broilers. The animals will be housed in free stall and enclosed buildings. Manure will be collected in concrete under house, concrete underground and one aboveground metal storage tank. The total capacity of the manure storage facilities will be 3.73 MG. Prior to operation of the manure storage facilities, the design engineer will be required to submit certification that the facilities were constructed in accordance with appropriate Pennsylvania Technical Guide Standards. A release or discharge to waters of this Commonwealth under normal operating conditions is not expected. Normal operating conditions are defined as conditions below a 25-year, 24-hour storm event.

The Department has conducted administrative and technical reviews of the application. Based on the preliminary review and application of lawful standards and regulations, the Department has made a tentative determination to issue an NPDES permit for the operation subject to the terms and conditions and monitoring and reporting requirements specified in the permit.

The permit application and draft permit are on file at the Southcentral Regional Office of the Department. Individuals may make an appointment to review the files by calling the File Review Coordinator at (717) 705-4732.

Persons wishing to comment on the proposed permit are invited to submit written comments to the previous address within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in formulating the Department's final determination regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the basis of the comment and the relevant facts upon which it is based.

Following the 30-day comment period, the Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time the determination may be appealed to the Environmental Hearing Board.

The EPA permit waiver provision under 40 CFR 123.24(e) does not apply to this NPDES permit.

Southwest Regional Office: Regional Manager, Water Management, 400 Waterfront Drive, Pittsburgh, PA 15222-4745; (412) 442-4000.

PA0006297, Sewage, **Menasha Packaging, LLC**, Route 70, P. O. Box 418, Yukon, PA 15698-0418. This application is for renewal of an NPDES permit to discharge treated sewage, process wastewater and uncontaminated stormwater runoff in Sewickley Township, **Westmoreland County**.

The following effluent limitations are proposed for discharge to the receiving waters, known as Sewickley Creek, which are classified as a WWF with existing and/or potential uses for aquatic life, water supply and recreation. The first downstream potable water supply intake from this facility is the McKeesport Municipal Water Authority.

Outfall 001: existing discharge, design flow of 0.0075 mgd.

APPLICATIONS UNDER THE CLEAN STREAMS LAW

PART II PERMITS

The following permit applications or requests for plan approval have been received by the Department of Environmental Protection (Department).

Persons wishing to comment on any of the applications are invited to submit a statement to the office noted before the application within 15 days from the date of this public notice. Comments received within this 15-day comment period will be considered in making the final decision regarding the application. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department reserves the right to hold a public hearing if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation of the area. If no hearing is held, the Department's Water Management Program Manager will make a final determination regarding the applications after a complete review. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

A copy of the permit application or proposed plan is on file in the office indicated and is open to public inspection. Appointments to review the application may be made by contacting Records Management at the indicated telephone number.

NPDES Stormwater Individual Permit

The following parties have applied for an NPDES permit to discharge stormwater associated with a construction activity into waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA Region III Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the appropriate Department Regional Office noted before the application within 30 days from the date of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department Regional Office during the 30-day public comment period.

Following the 30-day comment period, the appropriate Regional Office Water Management Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determina-

tion may be appealed to the Environmental Hearing Board.

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the office identified in this notice.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified Regional Office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the Act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the Act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part and for sites remediated as

a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Office identified in this notice. Persons interested in reviewing the application files should contact the appropriate Regional Office to schedule an appointment.

Persons wishing to receive a copy of the proposed Plan Approval or Operating Permit must indicate their interest to the Department Regional Office within 30 days of the date of this notice and must file protests or comments on a Proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts, which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the Regional Office identified. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act and regulations adopted under the Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001–4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

23-0074: GS Roofing Production Co., Inc. (800 West Front Street, Chester, PA 19013) in the City of Chester, **Delaware County** for the increase in production of two asphalt roofing production lines and installation of a replacement thermal oxidizer (regenerative) that will control emissions from the aforementioned production lines. This facility is a non-Title V facility. The following is a summary of potential annual emissions from the two production lines:

VOCs	Less than 10 tons
Particulate matter	Less than 27 tons
Sulfur oxides	Less than 33 tons
Carbon monoxide	Less than 7 tons
Nitrogen oxides	Less than 6 tons
Hazardous air pollutants	Less than 6 tons

The facility shall be required to operate the thermal oxidizer at all times when either of the two production lines are in operation. The plan approval will contain recordkeeping and operating restrictions designed to keep the facility operating within the allowable emissions and all applicable air quality requirements.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790; Contact: Mark Wejksznar, Acting New Source Review Chief, (570) 826-2531.

39-317-028: Kraft Foods North America, Inc. (7352 Industrial Boulevard, Allentown, PA 18106) for modification of a mustard seed storage and transfer operation at their production facility in Upper Macungie Township, **Lehigh County**. This facility is a Non-Title V facility. The modification will convert existing starch storage silos into the mustard seed storage and transfer operation, utilizing two baghouses to reduce particulate emissions. The modification will result in emissions of 0.27 ton per year of particulate matter. The plan approval will include all appropriate monitoring, record keeping and reporting requirements designed to keep the source operating within all applicable air quality requirements.

54-310-028: Lehigh Asphalt Paving and Construction Co. (P. O. Box 549, Tamaqua, PA 18252) for modification stone crushing plant by adding a cone crusher and increasing the plant throughput capacity in West Penn

Township, **Schuylkill County**. This facility is a non-Title V facility. Fugitive dust will be controlled by the water spray system to the extent that the operation will have no fugitive dust. The company will monitor and visually inspect the process daily during operating hours to ensure all wet suppression equipment is working properly. Any defects will be corrected immediately and the equipment will be operated as per vendor's specifications to assure the compliance with Department regulations.

40-303-011A: Slusser Brothers Trucking and Excavating Co., Inc. (Evans Asphalt) (125 North Warren Street, West Hazleton, PA 18201) to utilize waste derived liquid fuel in the asphalt plant in Hanover Township, **Luzerne County**. The fuel will be heated in a preheater prior to being used in the mix. The installation will not emit particulate emissions more than 0.02 grain/dscf. The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements. The facility currently has a Synthetic Minor Operating Permit 40-00056. This plan Approval will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Synthetic Minor Operating Permit through an administrative amendment at a later date.

01-03024: Tucker Industrial Liquid Coatings, Inc. (407 North Avenue, East Berlin, PA 17316) for construction of three spray paint booths each controlled by a dry panel filter at its facility in East Berlin Borough, **Adams County**. The potential emissions from this source are approximately 10 TPY. The source is subject to 25 Pa. Code § 129.52. The plan approval will contain additional emission restrictions, work practice standards and testing, monitoring, record keeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

ERC-36-05117: Dart Container Corp. of Pennsylvania (60 East Main Street, Leola, PA 17540) to authorize the transfer and use of certified VOC emission reduction credits (ERCs) to offset the net increase in the potential-to-emit VOCs from the construction and operation of a cup manufacturing plant at Pitney Road in East Lampeter Township, **Lancaster County**. The transfer of the VOC ERCs will be subject to the following Plan Approval conditions:

1. This plan approval authorizes the transfer and use of 406.72 tons of VOC ERCs for offset purposes from the following ERC-generating facilities to Dart Container in accordance with 25 Pa. Code § 127.208(2).

2. The 48.00 tpy of VOC ERCs were generated from the shutdown of sources at the Ball Corp., Heekin Can Inc., at the Roswell Drive Plant in Allegheny County on April 10, 1996. The Department certified and registered the 48.00 tpy of VOC ERCs on August 22, 1997. AES Ironwood, LLC is a holder of these credits.

3. The 28.80 tpy of VOC ERCs were generated from the shutdown of sources at the Caparo Steel Co. at the Farrell Plant in Mercer County, Pittsburgh, PA on November 30, 1992. The Department certified and registered the 28.80 tpy of VOC ERCs on February 21, 1997. AES Ironwood, LLC is a holder of these credits.

4. The 305.00 tpy of VOC ERCs previously registered to Bethlehem Structural Products Corp. were generated from the shutdown of sources at the Bethlehem Plant in Northampton County on March 28, 1998. The Department certified and registered the 305.00 tpy of VOC ERCs on June 26, 2000.

5. The 13.87 tpy of VOC ERCs previously registered to Delphi Harrison Thermal Systems were generated from the shutdown of the unit at Lockport, Niagara County, NY on August 1, 1992.

6. The 11.05 tpy of VOC ERCs previously registered to Dart Container were generated from the change over to nonvolatile UV cured inks at the Leola facility in Lancaster, PA on October 15, 1999. The Department certified and registered the 11.05 tpy of VOC ERCs on April 17, 2002.

7. The offsetting VOC ERCs identified in this plan approval are approved for use at Dart Container's Pitney Road facility in East Lampeter Township, Lancaster County. This approval is in accordance with the requirements of 25 Pa. Code Chapter 127, Subpart E including 25 Pa. Code §§ 127.205(4), 127.210 and 127.211.

8. Under 25 Pa. Code § 127.208(2), upon the issuance of this plan approval, the 395.67 tpy of VOC ERCs not generated by the over-control of emissions are no longer subject to the 10-year expiration date under 25 Pa. Code § 127.206(f), except as specified in 25 Pa. Code § 127.206(g). If the VOC ERCs identified in this plan approval are not used and are subsequently reentered into the ERC registry, the applicable 10-year expiration date for ERCs generated from the shutdown of sources will not be extended.

9. This plan approval is granted solely for the transfer and use of ERCs according to 25 Pa. Code § 127.208(2) and does not authorize a person to construct, modify or reactivate an air contaminant source or allow for the installation of an air cleaning device on an air contaminant source.

41-302-042B: The Federal Bureau of Prisons (USP Allenwood, P. O. Box 3500, White Deer, PA 17887-3500) for modification of two existing 12.55 million Btu per hour boilers at the Allenwood Federal Prison Camp in Brady Township, **Lycoming County** by utilizing landfill gas from the Lycoming County Landfill as fuel in the

boilers in addition to the natural gas and #2 fuel oil which the boilers are currently approved to use.

The boilers are expected to destroy at least 98% of the nonmethane organic compounds present in the landfill gas, or, alternately, achieve a nonmethane organic compound concentration in the boilers' exhaust gas of 20 parts per million or less (on a dry volume basis, expressed as hexane, corrected to 3% oxygen). This level of nonmethane organic compound control complies with the landfill gas destruction efficiency requirements of Subpart WWW of the Federal Standards of Performance for New Stationary Sources (40 CFR 60.750—60.759, Standards of Performance for Municipal Solid Waste Landfills), even though the respective boilers are not subject to said requirements and is also the same level of control proposed by the EPA on November 7, 2000, as maximum achievable control technology for the control of hazardous air pollutants in landfill gas from municipal waste landfills.

The use of landfill gas as fuel in the respective boilers is also expected to result in the emission of up to .44 pound of nitrogen oxides, .45 pound of carbon monoxide and .38 pound of sulfur oxides per hour from each boiler. These nitrogen oxides and carbon monoxide emission rates are approximately equivalent to the emission rates which result from the use of natural gas in the boilers but lower than the rates which result from the use of #2 fuel oil. The sulfur oxides emission rate resulting from the use of landfill gas will be higher than that resulting from the use of natural gas but significantly lower than that resulting from the use of #2 fuel oil.

A preliminary review of the information contained in the application indicates that the respective boilers, as modified, will meet all applicable requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12. Based on the information currently in its possession, the Department intends to issue plan approval for the modification of the respective boilers.

A public meeting and hearing will be scheduled by the Department for this application. An announcement containing the exact date, time and location of this meeting and hearing will be published by the Department in a newspaper of general circulation in Lycoming County.

The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

1. At any time that either of the respective two boilers is firing landfill gas, that boiler shall achieve a nonmethane organic compound destruction efficiency of at least 98% or, alternately, achieve a nonmethane organic compound concentration in the boiler flue gas of 20 parts per million or less (on a dry volume basis, expressed as hexane, corrected to 3% oxygen).

2. Each boiler shall be equipped with a flue gas recirculation system.

3. The nitrogen oxides, carbon monoxide and sulfur oxides emission rates from each boiler shall not exceed .44, .45 and .38 pound per hour, respectively, when firing landfill gas.

4. Within 90 days of the initial firing of landfill gas in a boiler, stack testing shall be performed on that boiler to determine the nonmethane organic compound destruction

efficiency in the boiler as well as the nonmethane organic compound concentration in the boiler's exhaust.

5. Records shall be maintained of the amount of landfill gas burned in each boiler each month.

6. The boilers shall burn only landfill gas from the Lycoming County Landfill, natural gas or virgin #2 fuel oil. Additionally, only one of these fuels may be burned in a boiler at any given time.

60-0001B: Bucknell University (Department of Physical Plant, Lewisburg, PA 17837) for construction of a 5.5 megawatt natural gas/#2 fuel oil-fired (dual fuel) combustion turbine equipped with dry low NOx combustors in Lewisburg Borough, **Union County**. The proposed dual fuel combustion turbine will replace a natural gas-fired combustion turbine currently operating at the facility.

Bucknell University is currently a synthetic minor facility for which a State only operating permit (60-00001) has been issued. However following startup of the combustion turbine, Bucknell University will become a major facility and will need to submit an application for a Title V operating permit.

The information provided by the applicant, as well as the Department's own analysis, indicates that construction of the dual fuel combustion turbine will increase the facility's potential emission of nitrogen oxides (NOx, expressed as NO₂) by 11.13 tons per year and their emission of sulfur oxides (SOx, expressed as SO₂) by 10.10 tons per year. The facility's potential emission of all other air contaminants will remain relatively unchanged.

A preliminary review of the information submitted by the applicant indicates that the proposed turbine will meet all applicable air quality requirements including the "best available technology" requirements of 25 Pa. Code §§ 127.1 and 127.12 and the requirements of Subpart GG of the Federal Standards of Performance for Stationary Gas Turbines (NSPS) specified in 40 CFR 60.330—60.335. Based on this finding, the Department proposes to approve the application and issue a plan approval.

To ensure compliance with all applicable standards, the Department proposes to place the following requirements in the respective plan approval.

1. The air contaminant emissions from the combustion turbine shall not exceed the respective limitations as listed:

Firing natural gas

Nitrogen oxides (NOx, expressed as NO ₂)	25 ppmdv @ 15% O ₂ and 6.58 pounds per hour
Carbon monoxide	50 ppmdv @ 15% O ₂ and 8.02 pounds per hour
VOC (expressed as methane)	25 ppmdv @ 15% O ₂ and 2.30 pounds per hour
Sulfur oxides (SOx, expressed as SO ₂)	0.09 pound per hour

Firing #2 fuel oil

Nitrogen oxides (NOx, expressed as NO ₂)	90 ppmdv @ 15% O ₂ and 22.04 pounds per hour
Carbon monoxide	50 ppmdv @ 15% O ₂ and 6.99 pounds per hour
VOC (expressed as methane)	25 ppmdv @ 15% O ₂ and 2.00 pounds per hour

Firing natural gas

Sulfur oxides (SO_x, expressed as SO₂) 14.12 pounds per hour

2. The air contaminant emissions from the combustion turbine shall not exceed the respective limitations as listed during any 12 consecutive month period:

Nitrogen oxides (NO _x , expressed as NO ₂)	39.95 tons
Carbon monoxide	34.39 tons
VOC (expressed as methane)	9.86 tons
Sulfur oxides (SO _x , expressed as SO ₂)	12.82 tons
Particulate matter	10.50 tons

3. The combustion turbine is to be fired only on natural gas or #2 fuel oil, to which there has been no reclaimed or waste oil or other waste materials added. Additionally, the sulfur content of the #2 oil fired in the turbine shall not at any time exceed 0.2% (by weight).

4. The combustion turbine shall not be operated more than 1,440 hours in any 12 consecutive month period while being fired on #2 fuel oil.

5. The University shall maintain accurate, comprehensive records of the number of hours the combustion turbine is operated each month while firing natural gas and while firing #2 fuel oil, as well as fuel supplier certifications for each shipment of fuel oil received to demonstrate that the oil used complies with the 0.2% sulfur content limitation.

6. The University shall perform concurrent nitrogen oxides (NO_x, expressed as NO₂), carbon monoxide and VOC (expressed as methane) testing using test methods and procedures approved by the Department. The testing shall be performed while the turbine is being fired on natural gas, as well as when being fired on #2 fuel oil and operating under maximum load conditions. The university shall submit a test report containing the results of the testing to the Department for review.

7. Two years after the performance of the initial compliance testing and every 2 years thereafter, the University shall perform nitrogen oxides (NO_x, expressed as NO₂) and carbon monoxide testing using test methods and procedures approved by the Department. The testing shall be performed while the turbine is being fired on natural gas, as well as when being fired on #2 fuel oil and operating under maximum load conditions. The University shall submit a test report containing the results of the testing to the Department for review.

17-00001A: Reliant Energy Mid-Atlantic Power Holdings, LLC (1001 Broad Street, Box 1050, Johnstown, PA 15907-1050) for modification of an existing ash disposal facility at the Shawville Generating Station in Bradford Township, **Clearfield County**. The proposed modification will consist of an 86 acre expansion of the disposal facility. Additionally, ash generated by coal-fired boilers other than those at the Shawville Generating Station will be disposed of in the respective disposal facility.

The Shawville Generating Station is a major facility which has been issued a Title V Operating Permit (#17-00001). The proposed modification is expected to result in actual emission increases of 14.06 tons per year total particulate matter of which 3.11 tons per year will be particulate matter sized at 10 microns or below (PM-10).

The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable air quality regulatory requirements:

1. The amount of ash disposed at the ash disposal facility identified in condition 2 herein shall not exceed 261,000 tons in any 12 consecutive month period.

2. The total amount of soil transferred from the facility property to the ash disposal facility and soil transported from offsite locations to the ash disposal facility (soil borrow) shall not exceed 18,121 tons in any 12 consecutive month period.

3. All disposal areas shall be covered with soil and/or bottom ash and vegetated upon cessation of active use.

4. The Shawville Generating Station's raw water supply system shall provide an adequate supply of water to the ash unloaders and paddle mixer associated with the Station's ash silos under all plant operating conditions.

5. The only wastes to be disposed of at the ash disposal facility shall be ash from the Shawville Generating Station or ash from offsite coal-fired power generation plants unless prior Department approval is obtained to dispose of additional wastes.

6. All ash disposed of in the ash disposal facility shall be properly conditioned with water prior to disposal. All ash from the Shawville Generating Station shall be conditioned with water in the ash unloaders and paddle mixer associated with the ash silos.

7. The trucks transporting ash from all offsite locations shall be fully tarped (affixed with a tarp covering the entire truck bed opening) during all times of transport.

8. All ash hauled to the ash disposal facility during the course of a day shall be dumped, spread and compacted by the end of that day.

9. There shall be no fugitive emissions from the loads in the trucks serving the Shawville Station other than what the Department determines to be of minor significance.

10. A water truck equipped with both a pressurized spray bar and a pressurized hose or spray nozzle shall be maintained onsite at all times. The water truck shall be used as necessary to minimize fugitive particulate matter emissions from all roadways. The permittee shall implement all winterization measures necessary to render this water truck capable of use under all weather conditions.

53-00005B: Dominion Transmission Corp. (625 Liberty Avenue, Pittsburgh, PA 15222-3199) for construction of a 4,735 horsepower, four-stroke lean burn, natural gas-fired, internal combustion compressor engine, the air contaminants from which shall be controlled by an LEC system and a catalytic exhaust silencer, at their Greenlick Compressor Station located in Stewardson Township, **Potter County**.

Dominion Transmission Corporation's Greenlick Compressor Station is a major facility for which a Title V operating permit (53-00005) has been issued.

The information provided by the applicant, as well as the Department's own analysis, indicates that construction of the compressor engine will increase the facility's potential emission of nitrogen oxides (NO_x, expressed as NO₂) by 22.34 tons per year, the emission of carbon monoxide by 6.98 tons per year and the emission of VOCs by 6.98 tons per year, as well as increase the facility's potential emission of hazardous air pollutants by 2.20

tons per year, of which 1.42 tons will be formaldehyde. The potential increase of all other air contaminants will be insignificant.

The de minimis accumulation of NOx and VOC emission increases at this facility has been 38.38 tons and 0.13 ton per year respectively to date. To prevent the total accumulation of de minimis NOx emission increases from equaling or exceeding 40 tons per year when the NOx emission increase associated with the proposed engine is added to the 38.38 ton per year NOx value, the company requested that 20.73 of the 39.94 tons per year of NOx emission reduction credits (ERCs) generated from the earlier shutdown of sources at this facility be applied towards internal netting, thereby escaping the need for emissions offsets as required by the New Source Review provisions of 25 Pa. Code §§ 127.201—127.217. The company did not request that any VOC ERCs be applied. As a result, the total de minimis accumulation of NOx and VOC emission increases at this station will now be 39.99 and 7.11 tons per year respectively. Additionally, the total NOx and VOC ERCs remaining will be 19.21 tons and 0.60 ton per year respectively. Since the potential emissions from the engine are under the significance threshold for all pollutants, prevention of significant deterioration also has no applicability.

A preliminary review of the information submitted by the applicant indicates that the proposed engine will meet all applicable air quality requirements including the "best available technology" requirements of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to approve the application and issue a plan approval.

To ensure compliance with all applicable standards, the Department proposes to place the following requirements in the respective plan approval.

1. The compressor engine shall not emit air contaminants in excess of the following limitations:

Pollutant	Emission Rates	
	(hourly)	(annual)
NOx	8.35 pounds per hour	22.34 tons per 12 consecutive month period
CO	2.61 pounds per hour	6.98 tons per 12 consecutive month period
VOCs	2.61 pounds per hour	6.98 tons per 12 consecutive month period
HAPs	0.82 pound per hour	2.20 tons per 12 consecutive month period
Formaldehyde	0.53 pound per hour	1.42 tons per 12 consecutive month period
PM		Less than 1.0 ton per 12 consecutive month period
SOx		Less than 1.0 ton per 12 consecutive month period

2. Operation of the compressor engine shall not exceed 5,350 hours in any 12 consecutive month period.

3. The compressor engine shall only be fired on pipeline quality natural gas.

4. The permittee shall maintain accurate, comprehensive records of the number of hours the compressor engine is operated each month.

5. The permittee shall perform concurrent nitrogen oxides (NOx, expressed as NO₂), carbon monoxide, VOC (expressed as methane) and formaldehyde testing using test methods and procedures approved by the Department. The testing shall be performed while the engine is operating under maximum load conditions. The permittee shall submit a test report containing the results of the testing to the Department for review.

6. Six months after the performance of the initial compliance testing and every 6 months thereafter, the permittee shall perform nitrogen oxides (NOx, expressed as NO₂) testing using portable NOx testing equipment. Additionally, 4 years after the performance of the initial compliance testing, the permittee shall perform concurrent nitrogen oxides (NOx, expressed as NO₂), carbon monoxide, VOC (expressed as methane) and formaldehyde testing using reference test methods. All testing shall be performed while the engine is operating under maximum load conditions using test methods and procedures approved by the Department. The permittee shall submit a test report containing the results of the testing to the Department for review.

63-00641D: Regal Industrial Corp. (P. O. Box 291, Donora, PA 15033) for installation of a shot blasting area and baghouse at the Donora facility in Donora Borough, **Washington County**.

For the Department to assure compliance with all applicable standards, the Department proposes to place the following conditions on the Plan Approval:

Special Conditions for Plan Approval 63-00641D

1. This Plan Approval is for the installation of a shot blast operation and baghouse at the Regal Industrial Corporation facility located in Donora Borough, Washington County (25 Pa. Code § 127.12(b)).

2. The Owner/Operator shall not permit the emission into the outdoor atmosphere of particulate matter in a manner that the concentration of particulate matter exceeds 0.02 grain per dry standard cubic foot (25 Pa. Code § 127.1).

3. The Owner/Operator shall not permit the emission to the outdoor atmosphere of visible emissions from the baghouse, in a manner that the opacity of the emission is greater than 10% (25 Pa. Code §§ 127.1 and 127.12(b)).

4. The Owner/Operator shall perform a daily inspection of the baghouse and its emissions and keep on file written statements describing all actions taken to maintain baghouse performance. This inspection shall include following:

A visual inspection of the exhaust from the dust collector for emissions.

A visual inspection of the baghouse interior for dislodged bags, bag wear and tear and dust build-up in the baghouse.

A visual inspection of the baghouse dust storage drums for additional capacity.

The inspection log shall be maintained onsite for a minimum of 5 years and shall be made available to the Department upon request (25 Pa. Code § 127.12(b)).

5. The Owner/Operator shall permanently install a device to continuously monitor the pressure drop across the baghouse. Records of pressure drop shall be taken a

minimum of once per shift. These records shall be maintained onsite for a minimum of 5 years and shall be made available to the Department upon request (25 Pa. Code § 127.12(b)).

6. The Owner/Operator shall not conduct shot blast operations during periods when the baghouse is not operating (25 Pa. Code § 127.12(b)).

7. Spare bags for the baghouse, as recommended in the manufacturer's literature, shall be kept onsite and be available for use at all times (25 Pa. Code § 127.12(b)).

8. This Plan Approval authorizes temporary operation of the sources covered by this Plan Approval provided the following conditions are met (25 Pa. Code § 127.12(b)).

The Department must receive written notice from the Owner/Operator of the completion of construction and the operator's intent to commence operation at least 5 working days prior to the completion of construction. The notice should state when construction will be completed and when operator expects to commence operation.

(a) Operation is authorized only to facilitate the start-up and shake-down of sources and air cleaning devices, to permit operations pending the issuance of an Operating Permit or to permit the evaluation of the sources for compliance with all applicable regulations and requirements.

(b) This condition authorizes temporary operation of the sources for a period of 180 days from the date of commencement of operation, provided the Department receives notice from the Owner/Operator under subpart (a).

(c) The Owner/Operator may request an extension if compliance with all applicable regulations and Plan Approval requirements has not been established. The extension request shall be submitted in writing at least 15 days prior to the end of this period of temporary operation and shall provide a description of the compliance status of the source, a detailed schedule for establishing compliance and the reasons compliance has not been established.

(d) The notice submitted by the Owner/Operator under subpart (a) prior to the expiration of this Plan Approval, shall modify the plan approval expiration date. The new plan approval expiration date shall be 180 days from the date of the written notice.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the previously-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications and requests for Environmental Assessment approval and requests for Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341(a)), requires the State to certify that the involved projects will not violate the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Initial requests for 401 Water Quality Certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Permit or Water Obstruction and Encroachment Permit, or the approval of an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between the hours of 8 a.m. and 4 p.m. on each working day at the office noted before the application.

Person with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

E54-296. Keith Seigfried, 83/85 Harris Avenue, Pine Grove, PA 17963-1200, in Pine Grove Borough, **Schuylkill County**, U. S. Army Corps of Engineers, Baltimore District.

To remove an existing mobile home and to construct and maintain an aboveground 18-foot x 36-foot oval swimming pool in the floodway of Swatara Creek. The project is located along Harris Avenue, approximately 300 feet southwest of Wake Street (Pine Grove, PA Quadrangle N: 10.0 inches; W: 2.5 inches).

Northcentral Region: Water Management Program Manager, 208 West Third Street, Williamsport, PA 17701, (570) 327-3636.

E08-389. Clyde and Jeanne Applegate, P. O. Box, Soper Drive, Burlington, PA 18814. Stream Restoration, in Smithfield Township, **Bradford County**, ACOE Baltimore District (East Troy, PA Quadrangle N: 10.95 inches; W: 2.0 inches).

To construct and maintain 50 feet of channel change and 1,500 feet of stream bank stabilization in Tom Jack Creek 200 feet north of the intersection of Soper Drive with the Berwick Turnpike (SR 4013) in Smithfield Township, Bradford County. The project will not impact wetlands while impacting approximately 1,600 feet of waterway. Tom Jack Creek is a TSF stream.

E14-421. Pennsylvania Department of Transportation, Engineering District 2-0, 1924-30 Daisy Street, Clearfield, PA 16830. SR 3006 Section A02 Buffalo Run bridge replacement, in Benner Township, **Centre County**, ACOE Susquehanna River Basin District (Bellefonte, PA Quadrangle N: 22.1 inches; W: 14.4 inches).

To remove existing structure and construct and maintain a 42 foot by 28 foot prestressed concrete adjacent box beam bridge on a skew of 75° in Buffalo Run located 0.5 mile northwest of the intersection of SR 0550 and SR 3006 along SR 3006, in Benner Township, Centre County. This project proposes to have a minimal impact on Buffalo Run, which is designated HQ-CWF. Buffalo Run is a designated Wild Trout Stream. This project does not propose to impact any jurisdictional wetlands.

To breach and remove the Hershey Dam across Swatara Creek (WWF) for the purpose of restoring the stream to a free flowing condition. The dam is located approximately 900 feet downstream of the SR 0039 Bridge across Swatara Creek (Hershey, PA Quadrangle N: 7.4 inches; W: 7.1 inches).

ACTIONS

FINAL ACTIONS TAKEN UNDER THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT—NPDES AND WQM PART II PERMITS

INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

The Department of Environmental Protection has taken the following actions on previously received permit applications and requests for plan approval.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available

in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

NPDES STORMWATER INDIVIDUAL PERMITS—(PAS)

The following NPDES Individual Permits for Discharges of Stormwater Associated with Construction Activities have been issued.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Safe Drinking Water Act for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (Act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site where one of the Act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected.

For further information concerning the final report, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, Administration of the Land Recycling and Environmental Remediation Standards Act (Act) requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Act. Plans and reports required by provisions of the Act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environ-

mental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final reports:

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Water Obstruction and Encroachment Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description.)

Permits Issued and Actions on 401 Certifications:

WATER OBSTRUCTIONS AND ENCROACHMENTS

Southeast Region: Water Management Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428.

E46-904. The Rosen Organization I, Inc., 3625 Welsh Road, Willow Grove, PA 19090, Abington Township, **Montgomery County**, ACOE Philadelphia District.

To replace, construct and maintain a road crossing of the Meadow Brook tributary to the Pennypack Creek (TSF-MF). The project involves the removal of the existing single span structure. The proposed bridge will be a continuous triple precast concrete box culvert. It will be composed of three continuous cells, each 10 feet wide, 9 feet high and 37 feet long. The project includes a sanitary sewer utility line crossing previously authorized as GP054601323 and also proposes the construction and maintenance of gas and water utility line crossings to serve the proposed five-lot residential subdivision situated on the 6.8-acre tract. The project site is located 500 feet west of the intersection of Valley Road and Washington Lane (Frankford, PA Quadrangle N: 19.8 inches; W: 14.75 inches).

E23-413. Thornbury Investors, L.P., 1541 East Strasburg Road, West Chester, PA 19380, Thornbury Township, **Delaware County**, ACOE Philadelphia District.

To perform the following water obstruction and encroachment activities associated with the Cherry Farms Residential Subdivision in, along and across, 1,095 linear feet of unnamed tributaries of Chester Creek (TSF) and 0.60 acre if adjacent wetlands (PFO/PEM).

1. To remove 24 linear feet of 36-inch existing driveway culvert and to construct and maintain, in its place, 30 linear feet of 36-inch RCP culvert with endwalls across an intermittent watercourse. The crossing will contain 10 linear feet of riprap and will provide improved emergency access, which will also serve as a walking trail.

2. To construct and maintain 70 linear feet of 27-inch by 42-inch RCP culvert road crossing across an intermittent watercourse for Cherry Farm Lane at Station 1+30 to provide access from Dilworthtown Road (SR 4016). The crossing will include 10 linear feet of rip rap at the downstream end and utility line stream crossings consisting of a DIP water main, gas main, telephone, electric and cable lines either above or below the culvert.

3. To construct and maintain 95 linear feet of 19-door by 6-foot 3 1/2-inch pipe arch bridge with mitered end sections across a perennial watercourse for Cherry Farm Lane at Station 15+30. The crossing will require 30 linear feet of twin 30-inch steel pipes as temporary culverts with clean stone cover to serve as an equipment crossing and a temporary stream diversion during construction. Work will include utility line stream crossings consisting of a

PVC sanitary sewer, DIP water main, gas main, telephone, electric and cable lines either above or below the culvert.

4. To relocate 160 linear feet of intermittent watercourse through a 149 linear feet of 48-inch RCP stormwater outfall, 10 linear feet of riprap at the downstream end and utility line stream crossings consisting of a PVC sanitary sewer, DIP water main, gas main, telephone, electric and cable lines above the stream enclosure.

5. To place and maintain fill in 0.05 acre of adjacent wetlands (PFO) for Cherry Farm Lane at Station 58+00. Work will include utility line wetland crossings consisting of a PVC sanitary sewer, DIP water main, gas main, telephone, electric and cable lines.

6. To construct and maintain 59 linear feet of 30-inch RCP culvert across an intermittent watercourse and 0.11 acre of adjacent wetland (PFO) for Cherry Farm Lane at Station 61+70. Work will include utility line stream crossings consisting of a PVC sanitary sewer, DIP water main, gas main, telephone, electric and cable lines either above or below the culvert.

7. To construct and maintain 70 linear feet of 18-inch RCP culvert across a perennial watercourse and 0.10 acre of adjacent wetland (PFO) for Cherry Farm Lane at Station 65+00. Work will include weep drains to convey spring seeps to the edge of fill and utility line stream crossings a PVC sanitary sewer, DIP water main, gas main, telephone, electric and cable lines either above or below the culvert.

8. To construct and maintain 112 linear feet of 18-inch RCP stream enclosure across an intermittent watercourse and 0.12 acre of adjacent wetland (PFO) for Cherry Farm Lane at Station 67+30. Work will include utility line stream crossings for lot 4 consisting of a PVC sanitary sewer, DIP water main, gas main, telephone, electric and cable lines either above or below the stream enclosure.

9. To relocate 95 linear feet of perennial watercourse through 83 linear feet of 6-foot by 12-foot arch bridge for Old Barn Lane at Station 2+00. Work will include utility line stream crossings consisting of a PVC sanitary sewer, DIP water main, gas main, telephone, electric and cable lines either above or below the culvert.

10. To relocate 153 linear feet of perennial watercourse through 126 linear feet of 84-inch RCP stream enclosure and impacting 0.23 acre of adjacent wetlands (PFO) for Old Barn Drive at Station 24+30. Work will include 20 linear feet of riprap at the downstream end, a stormwater conduit and utility line stream crossings consisting of a DIP water main, telephone, electric and cable above the stream enclosure.

11. To remove an existing 18 linear-foot long 24-inch CMP culvert located in a watercourse near Lots 112 and 76 and to construct and maintain a pedestrian bridge and 8-inch PVC sanitary sewer crossing.

The applicant has proposed to construct 1.54 acres of replacement wetlands to compensate for impacts associated with Dam Safety Permits D23-114, Pennsylvania Department of Transportation General Permit GP072302302 and PECO Energy General Permit GP052303202.

The proposed subdivision is located on a 192-acre parcel along Dilworthtown Road (SR 4016) approximately 2,000 feet east of its junction with the Wilmington-West Chester Pike (SR 0202) (West Chester, PA USGS Quadrangle N: 4.5 inches; W: 8.0 inches).

Northeast Region: Water Management Program Manager, 2 Public Square, Wilkes-Barre, PA 18711-0790.

E54-287. Dr. Vincent G. Dauchess, 78 Great Oaks Drive, Nesquehoning, PA 18240-2136. Rush Township, **Schuylkill County**, Army Corps of Engineers Philadelphia District.

To maintain the following existing, private structures in Lake Hauto: (1) a boat dock consisting of two "L-shaped" floating sections having a surface area of 788 SF; (2) a 208 SF concrete bulkhead; and (3) an 88 SF concrete access ramp. The dock and associated concrete bulkhead extends approximately 44.5 feet from the original shoreline of the lake and the total impact to shallow water habitat from the three existing structures is approximately 1,084 SF. The project is located along the northern shore, approximately 3 miles northeast of the intersection of SR 0309 and SR 0054 (Tamaqua, PA Quadrangle N: 15.0 inches; W: 7.5 inches).

E40-584. Earth Conservancy, 101 South Main Street, Ashley, PA 18706-1506. Newport Township, **Luzerne County**, Army Corps of Engineers Baltimore District.

To modify and maintain approximately 150 linear feet of channel of a tributary to South Branch Newport Creek, locally known as Wanamie Run, at the outlet of the Wanamie Lake Dam. The project includes widening and riprap lining of the channel section, to eliminate the dam's potential to impound water and will impact a de minimis area of wetlands equal to 0.02 acre through excavation within the impoundment area. The project is located approximately 4,500 feet southeast of the intersection of SR 3004 and SR 3002 (Nanticoke, PA Quadrangle N: 7.7 inches; W: 3.2 inches).

E48-320. Plainfield Township, 6292 Sullivan Trail, Nazareth, PA 18064. Plainfield Township, **Northampton County**, Army Corps of Engineers Philadelphia District.

To remove the existing structure and to construct and maintain two 12-foot x 5.5-foot concrete box culverts depressed 12 inches below the streambed of Waltz Creek. The project is located along Township Road T666 (Bocce Club Road), just west of its intersection with T664 (Jory Road) (Bangor, PA Quadrangle N: 19.1 inches; W: 16.8 inches).

E40-597. Borough of Harveys Lake, P. O. Box 60, Harveys Lake, PA 18618. Harveys Lake Borough, **Luzerne County**, Army Corps of Engineers Baltimore District.

To maintain the Harveys Lake Flood Protection Project (C40:15), in a 1,200-foot reach of a tributary to Harveys Lake known as Wordan Place Run. The project consists of a rectangular concrete channel having a bottom width of 6 feet and a depth of 4 feet, with eight 6-foot by 4-foot concrete box culverts located at SR 1415, Center Street and six driveways. The project extends from Harveys Lake eastward under SR 1415 (Lakeside Drive) and along the south side of SR 1024 (Harveys Lake, PA Quadrangle N: 20.3 inches; W: 4.4 inches).

SPECIAL NOTICES

Multiple Permits Required for a New Water Supply in Chester County

Permit Applications Submitted to the Department by the Philadelphia Suburban Water Company to Construct and Operate a New Water Supply in Wallace Township, Chester County

Philadelphia Suburban Water Company, 762 W. Lancaster Avenue, Bryn Mawr, PA 19010-3489 has submitted multiple permit applications to the Department. These applications will be the subject of a public hearing to be held at 7 p.m. on June 13, 2002, at the North Brandywine Middle School, 256 Reeceville Rd., Coatesville, PA 19320.

On April 18, 2002, the Department issued a water allocation permit to Philadelphia Suburban Water Company (PSW) that will allow the company to withdraw water from the East Brandywine Creek. The Delaware River Basin Commission also approved this water withdrawal on April 3, 2002.

Comments on the issued water allocation permit will not be taken at the June 13, 2002, hearing.

The withdrawal was requested by PSW as part of a proposed project that would use water from the East Brandywine Creek to serve customers in East and West Brandywine Townships. PSW's project would construct a conventional treatment plant and transmission lines. The project includes the proposed use of Cornog Quarry as a raw water reservoir.

To construct and operate this proposed water supply system, the following permits will be required by PSW and are the subjects of the hearing:

1598513. Public Drinking Water. This permit authorizes construction of a conventional 1.0 million gallon per day water treatment plant to be known as the Cornog Water Treatment Plant located in Wallace Township, Chester County to serve the drinking water needs of East Brandywine and West Brandywine Townships. This permit is subject to the following special condition:

The facilities authorized by this permit shall be constructed and operated within the Townships of Wallace, East Brandywine and West Brandywine in a manner consistent with franchise service areas authorized by and agreements filed with the Pennsylvania Public Utility Commission (Commission) and with municipal zoning ordinances and zoning approvals concerning new or expanded development.

E15-589. Water Obstruction. This permit would allow PSW to construct and maintain an approximately 26-foot wide raw water intake on the East Branch Brandywine Creek (HQ-TSF-MF) for transferring water from the East Branch Brandywine Creek to the Cornog Quarry and a 48-inch intake tunnel to pump water from the quarry to the water treatment plant for treatment before distributing to customers of PSW. The site is located about 1,500 feet east of the intersection of Marshall and Creek Roads

(Downingtown USGS Quadrangle N: 13.70 inches; W: 17.50 inches) in Wallace Township, Chester County. This permit is subject to the following special conditions:

A. Since this stream is a TSF stream, no work shall be done in the stream channel between March 1 and June 15.

B. This permit also authorizes the construction and maintenance of a surface swale and 16-inch outfall structure to direct water into Cornog Quarry, which must be done in accordance with the conditions of the Department's General Permit BDWM-GP-4. No additional notification to the Southeast Region, Field Operations, Water Management Program, Soils and Waterways Section is necessary.

C. The facilities authorized by this permit shall be constructed and operated within the Townships of Wallace, East Brandywine and West Brandywine in a manner consistent with the franchise service areas authorized by and agreements filed with the Commission and with municipal zoning ordinances and zoning approvals concerning new or expanded development.

PAS10G338. NPDES Stormwater. PSW is seeking permission to discharge stormwater from a construction activity located in Wallace Township, Chester County, to East Branch Brandywine Creek. This permit is subject to the following special condition:

The facilities authorized by this permit shall be constructed and operated within the Townships of Wallace, East Brandywine and West Brandywine in a manner consistent with the franchise service areas authorized by and agreements filed with the Commission and with municipal zoning ordinances and zoning approvals concerning new or expanded development.

1599201. Water Quality Industrial Waste Part II. On March 19, 1999, PSW submitted an application for construction and operation of two proposed sludge lagoons to handle residual materials resulting from the water treatment plant and to discharge lagoon supernatant to the Cornog Quarry. A flow of 38,440 gallons per day of wastewater will be directed from the water treatment plant to the sludge lagoons. This permit is subject to the following special conditions:

A. The water level, within the impoundments, shall be controlled so that a freeboard of at least 24 inches is maintained at all times.

B. If there is a change in ownership of this facility or in permittee name, an application for transfer of permit must be submitted to the Department.

C. Collected screenings, slurries, sludges and other solids shall be handled and disposed of in compliance with 25 Pa. Code Chapters 262—264, 287—289, 291 and 299 and applicable Federal regulations, the Federal Clean Water Act, RCRA and their amendments.

D. Discharge limitations and monitoring requirements. The effluent from the sludge lagoons to the Cornog Quarry shall be sampled and shall be limited at all times as follows:

Parameter	Discharge Limitations (mg/l)			Monitoring Requirements	
	Average Monthly	Maximum Daily	Instantaneous Maximum	Measurement Frequency	Sample Type
Total Suspended Solids	30	60	75	1/Month	8 Hour Comp
Iron, Total	2	4	5	1/Month	8 Hour Comp
Aluminum, Total	4	8	10	1/Month	8 Hour Comp
Manganese, Total	1	2	2.5	1/Month	8 Hour Comp
Total Residual Chlorine	0.5		1.17	1/Month	Grab
pH	With in Limits of 6.0 to 9.0 Standard Units at all times			1/Month	Grab

E. The proposed facilities will be constructed and operated within the Townships of Wallace, East Brandywine and West Brandywine in a manner consistent with the franchise service areas authorized by and agreements filed with the Commission and with municipal zoning ordinances and zoning approvals concerning new or expanded development.

The public should submit verbal or written comments at the hearing. The comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

Persons with a disability or those who require special accommodations to fully participate in the public hearing should contact Deborah Fries, Community Relations Coordinator at (610) 832-6020.

DEPARTMENT OF TRANSPORTATION

Finding Lawrence County

Under the provisions of section 2002(b) of The Administrative Code (71 P. S. § 2002(b)), the Secretary of Transportation makes the following written finding:

The Federal Highway Administration and the Department of Transportation plan to replace the Ewing Park Bridge, which carries Sims Street over the Connoquenessing Creek in the Borough of Ellwood City, Lawrence County.

The Ewing Park Bridge, also known as the Shelby Tube Bridge, has been determined eligible for the National Register of Historic Places and therefore qualifies as a section 2002/section 4(f) resource.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code, have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize these effects.

INDEPENDENT REGULATORY REVIEW COMMISSION

Actions Taken by the Commission

The Independent Regulatory Review Commission met publicly at 10:30 a.m., Thursday, May 9, 2002, and took the following actions:

Regulations Approved:

Department of Revenue #15-420: Powerball (adds 61 Pa. Code Chapter 871).

Milk Marketing Board #47-7: Calculation of Bonding Obligation (amends 7 Pa. Code § 151.9)

Department of Health #10-164: Drug and Alcohol Facilities and Services—Standards for Approval of Prevention and Intervention Activities (amends 4 Pa. Code Chapter 259 and 28 Pa. Code Chapters 701 and 713)

Environmental Hearing Board #106-6: Practice and Procedure (amends 25 Pa. Code Chapter 1021)

Approval Order

Public Meeting Held

Commissioners Voting: Alvin C. Bush, Vice Chairperson; Arthur Coccodrilli; Robert J. Harbison, III; John F. Mizner, by phone

*Department of Revenue—Powerball;
Regulation No. 15-420*

On April 11, 2002, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Revenue (Department). This rule-making adds Chapter 871 to 61 Pa. Code. Notice of proposed rulemaking was omitted for this regulation; it will become effective upon publication in the *Pennsylvania Bulletin*.

This final-omitted regulation establishes a multi-state lottery game, called Powerball, in the Commonwealth. This game will be played in conjunction with 21 other states and the District of Columbia.

We have determined this regulation is consistent with the statutory authority of the Department of Revenue (72 P. S. § 3761-303) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

*Milk Marketing Board—Calculation of Bonding
Obligation; Regulation No. 47-7*

On August 4, 2000, the Independent Regulatory Review Commission (Commission) received this proposed regula-

tion from the Milk Marketing Board (Board). This rule-making amends 7 Pa. Code § 151.9. The proposed regulation was published in the August 12, 2000, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on April 10, 2002.

This regulation: changes the formula by which milk dealers' bonding obligations are calculated; changes the basis of the bonding obligation calculation from the license year to the calendar year; and updates a statutory reference. The Board estimates that the new bonding obligation formula will result in a slight increase in bonding obligations for an estimated 20 percent of milk dealers.

We have determined this regulation is consistent with the statutory authority of the Board (31 P. S. § 626.7(c) and 626.8) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Department of Health—Drug and Alcohol Facilities and Services—Standards for Approval of Prevention and Intervention Activities

On April 11, 2001, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Health (Department). This rulemaking amends 4 Pa. Code Chapter 259 and 28 Pa. Code Chapters 259, 701 and 713. The proposed regulation was published in the April 21, 2001, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on April 11, 2002.

This regulation rescinds the standards for approval of prevention and intervention activities offered by drug and alcohol facilities. The regulations are being deleted because of changes in the delivery of prevention services. As a result of the repeal, the Department will no longer approve prevention and intervention activities.

We have determined this regulation is consistent with the statutory authority of the Department (71 P. S. §§ 751-25, 751-31 and 1690.101 et seq.) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Environmental Hearing Board—Practice and Procedure; Regulation No. 106-6

On October 25, 2001, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Hearing Board (Board). This rulemaking amends 25 Pa. Code Chapter 1021. The proposed regulation was published in the November 10, 2001, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on April 2, 2002.

This regulation modifies a number of provisions to the Board's rules of practice and procedure. These include: adding a rule on withdrawal of appearance, a number of definitions that deal with electronic filing; authorizing electronic filing and service of specific legal documents; amending the rule on number of copies that need to be filed with the Board, the rules on reconsideration of interlocutory orders and the rules governing discovery; requiring that parties attach a proposed order to their motions and responses; and reorganizing the rules to make them more user-friendly.

We have determined this regulation is consistent with the statutory authority of the Board (35 P. S. § 7515(c)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

OTR Truckers Association, Inc. and Over the Road Healthcare Fund (OTR); Prehearing

Petition of Injunctive Release under 40 P. S. § 47; Doc. No. MS02-05-012

The proceeding in this matter will be governed by 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure) and 31 Pa. Code Chapter 56 (relating to special rules of administrative practice and procedure). A prehearing conference is scheduled for May 16, 2002, at 3 p.m. in Room 200, Administrative Hearings Office, Capitol Associates Building, Room 200, 901 North Seventh Street, Harrisburg, PA 17102. A hearing shall occur on May 20, 2002, at 10:30 a.m. in Room 200, Administrative Hearings Office, Capitol Associates Building, 901 North Seventh Street, Harrisburg, PA 17102. At the prehearing conference, the parties shall be prepared to discuss settlement, stipulations, witnesses and the documents anticipated for use at the hearing, estimated time for the hearing, special evidentiary or legal issues and other matters relevant to the orderly, efficient and just resolution of this matter.

Failure to appear at the prehearing conference will result in the preclusion of evidence at the hearing or in a judgment against the absent party or in other appropriate action. Furthermore, in the event the respondent fails to appear at the prehearing conference, absence will be presumed to constitute a waiver of the requirement in 40 P. S. § 47 to schedule a hearing within 15 days and the May 8, 2002, Order will remain in effect until further order.

On or before May 15, 2002, each party shall file with the Administrative Hearings Office by facsimile at (717) 787-8781 and serve upon the other party by facsimile an entry of appearance designating the lead attorney or representative to receive service or orders, filings and communications in this matter, together with that person's address, telephone number and facsimile number. Each party shall similarly designate the lead attorney or representative who will attend the prehearing conference, if different than the person designated for service. Except as established at the prehearing conference, both parties shall appear at the scheduled hearing prepared to offer all relevant testimony or other evidence. Each party must bring documents, photographs, drawings, files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents for photographs into evidence shall bring enough copies for the record and for each opposing party.

Kevin Small; Hearing

Appeal of Kevin Small under the Motor Vehicle Financial Responsibility Law; Catastrophic Loss Benefits Continuation Fund; Doc. No. CF02-05-003

A prehearing telephone conference initiated by this office is scheduled for July 3, 2002, at 10:30 a.m. Each party shall provide a telephone number to be used for the telephone conference to the Hearings Administrator on or before June 3, 2002. A hearing shall occur on July 24, 2002, at 10:30 a.m. in Room 200, Administrative Hearings Office, Capitol Associates Building, 901 North Seventh Street, Harrisburg, PA 17102. At the prehearing telephone conference, the parties shall be prepared to discuss settlement, stipulations, witnesses and the documents anticipated for use at the hearing, estimated time for the hearing, special evidentiary or legal issues and other matters relevant to the orderly, efficient and just resolution of this matter. Pending hearing, parties shall exchange proposed exhibits, the names of witnesses, provide an offer of proof with respect to each witness and informally attempt to resolve undisputed facts by stipulation.

On or before June 12, 2002, each party shall file with the Administrative Hearings Office a prehearing statement which shall contain: (1) a comprehensive statement of undisputed facts to be stipulated between the parties; (2) a statement of additional contended facts; (3) names and address of witnesses along with the specialties of experts to be called; (4) a list of documents to be used at the hearing; (5) special evidentiary or other legal issues; and (6) the estimated time for that party's case. Contemporaneously with service of the prehearing statement on the opposing party, each party shall supply the other with a copy of any report generated by an expert witness designated on the prehearing statement. Any report subsequently received from a party's expert witness prior to hearing shall be supplied to the other party within 2 business days. Copies of expert reports need not be filed with the Administrative Hearings Office.

Except as established at the prehearing conference, both parties shall appear at the scheduled hearing prepared to offer all relevant testimony or other evidence. Each party must bring documents, photographs, drawings, claims, files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents for photographs into evidence shall bring enough copies for the record and for each opposing party.

Motions preliminary to those at hearing, protests, petitions to intervene, or notices of intervention, if any, must be filed on or before June 19, 2002, with the Hearings Administrator, Administrative Hearings Office, Capitol Associates Building, Room 200, 901 North Seventh Street, Harrisburg, PA 17102. STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.

BARBARA HAFER,
State Treasurer

Effective April 15, 2002, the Department of General Services (Department), Bureau of Purchases, will no longer send vendors notices of the availability of invitations for bids or requests for proposals (by fax or other means). Bidding/contracting opportunities will be posted on the Department's website. Vendors who are interested in competing for a particular contracting opportunity with this Commonwealth will be able to download the particular invitation for bids or request for proposals.

The website address for viewing bidding/contracting opportunities and for obtaining copies of invitations for bids and requests for proposals is www.dgs.state.pa.us. To access the information on this website, vendors must select "Procurement" followed by "Bidding Opportunities."

If a vendor wishing to participate does not have access to a computer, public libraries offer free access to the Internet. Additionally, a vendor can obtain a copy of an individual invitation for bids or request for proposals by calling Vendor Services at (717) 787-2199 or (717) 787-4705, or by visiting us at 414 North Office Building, Harrisburg, PA.

Contact Susan Plecker, Website Manager, at (717) 787-1105 or Ray Cunningham, Vendor Information Section Supervisor, at (717) 787-5862, concerning questions or problems in gaining access to bidding/contracting opportunities information or in locating and downloading invitations for bids or requests for proposals.
