# READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

### **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

### ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

### **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacode.com](http://www.pacode.com).

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at [www.pabulletin.com](http://www.pabulletin.com).

### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

#### § 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

# THE GOVERNOR

## Notice of Veto

May 18, 2016

To the Honorable House of Representatives  
of the Commonwealth of Pennsylvania:

Pursuant to Article IV, Section 15 of the Pennsylvania Constitution, I am returning herewith, without my approval, House Bill 805, Printer's Number 1843.

For months, the Department of Education and I have sought input on how to improve accountability in education. We have engaged with stakeholders including educators, parents, lawmakers, administrators, higher education faculty, and industry and workforce leaders to determine how best to measure success in the classroom and how to increase accountability. We believe that our common goal should be working together to invest in education, strengthen accountability, and place more educators in overcrowded classrooms to provide our children with the attention they deserve as well as the tools they need.

This bill relies heavily on a single score from the teacher evaluation system, as opposed to using the entire method of evaluation. At a time when there is bipartisan agreement that we need to reduce our reliance on high-stakes testing, we should not use high-stake test scores as the benchmark for teacher quality. The teacher evaluation system was created in 2012 to evaluate teachers on multiple measures of student success. As designed, teachers who did not achieve satisfactory scores across the multiple measures would lose any acquired protection from seniority. This evaluation process was designed to identify a teacher's weakness and then provide the teacher with the opportunity to improve their teaching through coaching and mentorship. Teachers who do not improve after being given the opportunity and tools to do so are the ones who should no longer be in the classroom. This is the system we should be using to remove ineffective teachers.

I am committed to greater accountability in our schools, but we should be working together to create a wide-ranging system that focuses on real, proven strategies to prepare our students and measure teacher effectiveness. I believe this bill does not address the broader issues at play with our evaluation and testing systems.

For the reasons set forth above, I must withhold my signature from House Bill 805, Printer's Number 1843.

Sincerely,

*Governor*

# RULES AND REGULATIONS

## Title 58—RECREATION

### GAME COMMISSION

[ 58 PA. CODE CH. 131 ]

#### Preliminary Provisions; Police Powers by Wildlife Conservation Officers

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 5, 2016, meeting, amended § 131.6 (relating to administration of police powers by wildlife conservation officers) to redirect the extent and manner in which it authorizes wildlife conservation officers to engage in the administration of police powers.

The final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 46 Pa.B. 1426 (March 19, 2016).

#### 1. Purpose and Authority

The exercise of general police powers by wildlife conservation officers has proven a unique challenge for the Commission over the past few years. On one hand the Commission asserts its preference to focus the primary responsibilities of wildlife conservation officers to be the enforcement of the code and related environmental concerns. On the other hand the Commission is challenged by the public's expectation that it remain adaptive and capable to address the spectrum of circumstances that wildlife conservation officers face on a daily basis. Increasingly, the Commission is identifying significant overlap and interconnectivity between its investigations into wildlife, habitat and other environmental crime, and other types of general crime. The Commission's policy to attempt to sever and transfer all general crime matters to other State or local law enforcement agencies has largely proven unsuccessful. Not only does this process often create significant procedural complications for both organizations, but, more importantly, these other agencies have consistently rejected their adoption of cases that they did not initiate. In an effort to reduce legal challenges, reduce potential civil liability and provide recognition of the importance of the relevant competing interests on this issue, the Commission amends § 131.6 to redirect the extent and manner in which it authorizes wildlife conservation officers to engage in the administration of police powers.

Section 901(a)(17) of the code (relating to powers and duties of enforcement officers) states in relevant part "[a]ll powers as provided for in this paragraph will be limited by such administrative procedure as the director, with the approval of the commission, shall prescribe." Section 322(c)(12) of the code (relating to powers and duties of commission) specifically empowers the Commission to "[t]ake any necessary action to accomplish and assure the purposes of this title." The amendments to § 131.6 are adopted under this authority.

#### 2. Regulatory Requirements

The final-form rulemaking amends § 131.6 to redirect the extent and manner in which the Commission autho-

rizes salaried wildlife conservation officers to engage in the administration of police powers.

#### 3. Persons Affected

Persons within the jurisdictional limits of this Commonwealth may be affected by the final-form rulemaking.

#### 4. Comment and Response Summary

There were no official comments received regarding the final-form rulemaking.

#### 5. Cost and Paperwork Requirements

The final-form rulemaking should not result in additional cost or paperwork.

#### 6. Effective Date

The final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

#### 7. Contact Person

For further information regarding the final-form rulemaking, contact Thomas P. Grohol, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

#### Annex A

#### TITLE 58. RECREATION

#### PART III. GAME COMMISSION

#### CHAPTER 131. PRELIMINARY PROVISIONS

#### § 131.6. Administration of police powers by wildlife conservation officers.

##### (a) General.

(1) Section 901(a)(17) of the act (relating to powers and duties of enforcement officers) authorizes wildlife conser-

vation officers, when acting within the scope of their employment, to pursue, apprehend or arrest any individual suspected of violating any provision of 18 Pa.C.S. (relating to Crimes Code) or any other offense classified as a misdemeanor or felony and, in addition, to serve and execute warrants and subpoenas for these offenses.

(2) For the purposes of enforcement of the authority granted by section 901(a)(17) of the act, “when acting within the scope of their employment” means that period of time that a wildlife conservation officer is currently engaged in any activity the officer is employed to perform at the time and places the officer is authorized to perform the activity.

(b) *Limitation.* A wildlife conservation officer will arrest or take other appropriate enforcement action pursuant to the authority vested by section 901(a)(17) of the act only in one or more of the following circumstances:

**GAME COMMISSION**  
**[ 58 PA. CODE CH. 139 ]**  
**Seasons and Bag Limits**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 5, 2016, meeting, amended § 139.4 (relating to seasons and bag limits for the license year) to provide updated seasons and bag limits for the 2016-2017 hunting/trapping license year.

The final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 46 Pa.B. 1427 (March 19, 2016).

*1. Purpose and Authority*

To effectively manage the wildlife resources and provide hunting and trapping opportunities in this Commonwealth during the upcoming license year, the Commission amended § 139.4 to provide updated seasons and bag limits for the 2016-2017 hunting/trapping license year. The 2016-2017 seasons and bag limits have been amended to reflect currently available scientific data, population and harvest records, field surveys and professional staff observations, as well as recommendations received from staff, organized sporting groups, members of the agricultural community and others interested in the management of the wildlife resources of this Commonwealth.

Changes to small game seasons include making youth and regular seasons for squirrels and rabbits concurrent in an effort to simplify regulations and expand rabbit hunting opportunities. The changes also make snowshoe hare season dates consistent Statewide to simplify regulations, facilitate species monitoring programs and reflect the fact that harvest mortality is not a major driver of population trends for this species.

Changes to wild turkey seasons include a reduction in the length of the fall season in four wildlife management units (WMU) that have exhibited declining trends in turkey population indices. Specifically, seasons decrease from 2 weeks + 3 days to 1 week + 3 days in WMUs 1A and 2A, from 1 week + 3 days to 1 week in WMU 1B and from 3 weeks + 3 days to 2 weeks + 3 days in WMU 4C.

Changes to black bear seasons include the addition of a 4-day extended firearms season (concurrent with the Wednesday-Saturday of the first week of firearms deer season) in WMU 1B. This season is intended to prevent further expansion of bears into the western portion of this WMU where potential for bear-human conflicts is high.

Changes to furbearer seasons include an increase in the length of the fisher trapping season from the current 6 days to 12 days in the 13 WMUs with open fisher seasons and the establishment of a firm, designated 8-day otter season, rather than a shorter, extendable season.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the Commission to “fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife.” Section 2102(b)(1) of the code (relating to regulations) authorizes the Commission to “promulgate regulations relating to seasons and bag limits for hunting or furtaking. . . .” The amendments to § 139.4 are adopted under this authority.

*2. Regulatory Requirements*

The final-form rulemaking amended § 139.4 by establishing when and where it is lawful to hunt and trap various game species and also place limits on the numbers that can be legally taken during the 2016-2017 hunting/trapping license year.

*3. Persons Affected*

Persons wishing to hunt or trap game or wildlife within this Commonwealth during the 2016-2017 hunting/trapping license year will be affected by the final-form rulemaking.

*4. Comment and Response Summary*

The Commission received 30 official comments concerning the final-form rulemaking. The comments received concerned the following subtopics:

*Deer seasons.* Seven comments were received concerning this subtopic: one opposed the long length of the deer seasons; one supported and two opposed the concurrent firearms deer season; one supported switching the rifle and flintlock season dates to accommodate youth on winter break; one opposed any antlerless deer hunting in WMU 3B; and one supported a buck-in-velvet only early September 4-up archery hunt.

*Bear seasons.* Nineteen comments were received concerning this subtopic: 3 supported and 10 opposed the closure of the extended bear season in WMU 3A; 1 supported having bear seasons every other year; 1 supported an extended bear season in WMU 2G; 1 supported a spring baited bear season; and 3 supported an overlap between archery bear season and archery deer season.

*Small game seasons.* Two comments were received concerning this subtopic: one supported closing ruffed grouse season temporarily; and one supported closing rabbit season 1 week earlier should it open 1 week earlier.

*Turkey seasons.* One comment was received concerning this subtopic and it opposed a fall wild turkey season reduction in WMU 1B.

*Furbearer hunting/trapping seasons.* One comment was received concerning this subtopic and it supported a fisher season.

5. *Cost and Paperwork Requirements*

The final-form rulemaking should not result in additional cost or paperwork.

6. *Effective Date*

The effective dates of the final-form rulemaking are July 1, 2016, to June 30, 2017.

7. *Contact Person*

**GAME COMMISSION**  
**[ 58 PA. CODE CH. 139 ]**

**Seasons and Bag Limits; Wildlife Management Units**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 5, 2016, meeting, amended § 139.17 (relating to wildlife management units) to expand wildlife management unit (WMU) 5D in the northeast corner to provide a more logical boundary.

The final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 46 Pa.B. 1553 (March 26, 2016).

1. *Purpose and Authority*

A uniform system of WMUs was implemented in 2003 to replace the system of multiple, species-specific management units. The primary objective of the WMU system was to develop and implement wildlife management decisions on a system of more homogenous units based on physiographic, land cover and use, human population density and land ownership. WMU boundaries were defined using readily recognizable features on the landscape rather than hard-to-identify political boundaries. In 2008, the Commission conducted a 5-year evaluation of the structure of the WMU system which resulted in the development and implementation of four WMU map revisions. The Commission again conducted an evaluation of the structure of the WMU system and amended § 139.17 to expand WMU 5D in the northeast corner to provide a more logical boundary. This amendment represents a 51,849-acre increase in the size of WMU 5D and an identical reduction in the size of WMU 5C.

**GAME COMMISSION**  
**[ 58 PA. CODE CH. 141 ]**  
**Hunting and Trapping; Big Game**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 5, 2016, meeting, amended § 141.41 (relating to general) to prohibit the possession of an expired, revoked, suspended or invalid hunting license or big game harvest tag while engaged in hunting or trapping activities.

The final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 46 Pa.B. 1552 (March 26, 2016).

*1. Purpose and Authority*

Each year the Commission investigates numerous big game violations involving improperly marked animals. A concerning portion of these violations involve a hunter's placement of a prior year's expired harvest tag on the big game animal rather than the current year's harvest tag. The Commission has determined that some of these violations are purposeful and intended to give the hunter the appearance of eligibility to harvest an additional animal with their unused current tag. However, the Commission also recognizes that other hunters are merely engaged in the bad habit of carrying prior years' licenses and harvest tags and are mistaking the similarly colored harvest tags for the then current year's harvest tags during the stress induced by a successful harvest. Therefore, in an effort to reduce the number of either purposeful or mistaken improperly marked big game violations from ever occurring, the Commission amends § 141.41 to prohibit the possession of an expired, revoked, suspended or invalid hunting license or big game harvest tag while engaged in hunting or trapping activities.

Section 2102(a) of the code (relating to regulations) provides that "[t]he commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 141.41 are adopted under this authority.

*2. Regulatory Requirements*

The final-form rulemaking amends § 141.41 to prohibit the possession of an expired, revoked, suspended or invalid hunting license or big game harvest tag while engaged in hunting or trapping activities.

**[ 58 PA. CODE CH. 141 ]**  
**Hunting and Trapping; Hunting Hours**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 5, 2016, meeting, amended Chapter 141, Appendix G (relating to hunting hours) to replace the current hunting hours table and migratory bird hunting hours table to accurately reflect the dates and hours of legal hunting for the 2016-2017 hunting license year.

The final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 46 Pa.B. 1423 (March 19, 2016).

1. *Purpose and Authority*

Each year there is a shift in calendar days for each month. As a result of this occurrence, the time tables in Appendix G must be amended and updated on an annual basis to accurately reflect the upcoming year's dates and hours for legal hunting. The Commission amends Appendix G to replace the current hunting hours table and migratory bird hunting hours table to accurately reflect the dates and hours of legal hunting for the 2016-2017 hunting license year.

Section 2102(a) of the code (relating to regulations) provides that "[t]he commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to Appendix G are adopted under this authority.

**GAME COMMISSION**  
**[ 58 PA. CODE CH. 141 ]**  
**Hunting and Trapping; Permitted Devices**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 5, 2016, meeting, amended § 141.18 (relating to permitted devices) to add hand-held rangefinders and those contained within a scope or archery sight to the list of approved devices that may be used to hunt or take wildlife.

The final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 46 Pa.B. 1425 (March 19, 2016).

1. *Purpose and Authority*

Each year the Commission is asked to review the prospective use of certain devices for hunting or trapping purposes that are otherwise prohibited by statute or

regulation. As part of the review process, the Commission generally reviews to what degree use of a given device might negatively impact principles of resource conservation, equal opportunity, fair chase or public safety. The Commission has recently been requested to formally review the use of electronic rangefinders, including hand-held devices and those contained within a scope or archery sight. The Commission determined that use of these devices for hunting purposes have no or negligible negative impacts to the previously mentioned principles. While the Commission has historically maintained an open use policy towards these electronic devices due to their ubiquitous use, their use could be construed as technically contrary to the Commission's restriction on the use of electronic contrivances while hunting. Therefore, in an effort to more formally approve their use, the Commission amends § 141.18 to add hand-held rangefinders and those contained within a scope or archery sight to the list of approved devices that may be used to hunt or take wildlife.

Section 2102(d) of the code (relating to regulations) authorizes the Commission to "promulgate regulations stipulating the size and type of traps, the type of firearms and ammunition and other devices which may be used, the manner in which and the location where the devices may be used, the species the devices may be used for and the season when the devices may be used." The amendments to § 141.18 are adopted under this authority.

#### 2. *Regulatory Requirements*

The final-form rulemaking amends § 141.18 to add hand-held rangefinders and those contained within a scope or archery sight to the list of approved devices that may be used to hunt or take wildlife.

#### 3. *Persons Affected*

Persons wishing to utilize hand-held rangefinders and those contained within a scope or archery sight to hunt or take wildlife within this Commonwealth will be affected by the final-form rulemaking.

## GAME COMMISSION

### [ 58 PA. CODE CH. 143 ]

#### Hunting and Trapping; Antlerless Deer Licenses

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its April 5, 2016, meeting, amended § 143.50 (relating to procedure for nonresidents of this Commonwealth) to allow nonresidents to submit applications for antlerless deer licenses on the third Monday in July, 1 week after resident applicants.

The final-form rulemaking will not have an adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 46 Pa.B. 1423 (March 19, 2016).

#### 1. *Purpose and Authority*

The Commission has been asked to review the preference given to resident license holders in the timing that antlerless deer applications can be submitted to county treasurers. Formerly, resident license holders could apply 2 weeks sooner than nonresident license holders. While this timing did not affect the availability of antlerless deer licenses for nonresident license holders in most wildlife management units (WMU), it often eliminated the availability of antlerless deer licenses in a number of low quota, highly preferred WMUs. Therefore, in an effort to narrow the gap, the Commission amends § 143.50 to allow nonresidents to submit applications for antlerless deer licenses on the third Monday in July, 1 week after resident applicants.

Section 2722(g) of the code (relating to authorized license-issuing agents) directs the Commission to adopt regulations for the administration, control and performance of license issuing activities. The amendments to § 143.50 are adopted under this authority.

#### 2. *Regulatory Requirements*

The final-form rulemaking amends § 143.50 to allow nonresidents to submit applications for antlerless deer licenses on the third Monday in July, 1 week after resident applicants.

3. *Persons Affected*

Persons wishing to hunt antlerless deer within this Commonwealth will be affected by the final-form rulemaking.

4. *Comment and Response Summary*

There were no official comments received regarding the final-form rulemaking.

5. *Cost and Paperwork Requirements*

The final-form rulemaking should not result in additional cost or paperwork.

6. *Effective Date*

The final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

(1) Public notice of intention to adopt the administrative amendments adopted by this order has been given

under sections 201 and 202 of the act of July 31, 1968 (P.L. 769, No. 240) (45 P.S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

*Order*

The Commission, acting under the authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 143, are amended by amending § 143.50 to read as set forth at 46 Pa.B. 1423.

1. *Purpose and Authority*

Last year, the Commission held a trial run of a veterans with disabilities hunt at the Pymatuning Wildlife Management Area. The Commission determined that holding this 1-day hunt during the regular open season in the future will further improve these sportsmen's opportunity to hunt waterfowl at both of the Commission's special wildlife management areas. The Commission has received significant support and future commitment from organized sporting organizations and unaffiliated sportsmen volunteers to enhance the quality and success of this unique hunting opportunity. The Commission is proposing to amend § 135.103 to permit the Director to designate 1

shooting day at the Middle Creek and Pymatuning Wildlife Management Areas as a veterans with disabilities only day.

Section 721(a) of the code (relating to control of property) provides "[t]he administration of all lands or waters owned, leased or otherwise controlled by the commission shall be under the sole control of the director, and the commission shall promulgate regulations...for its use and protection as necessary to properly manage these lands or waters." The amendments to § 135.103 are proposed under this authority.

# Title 55—PUBLIC WELFARE

## DEPARTMENT OF HUMAN SERVICES

[ 55 PA. CODE CH. 1101 ]

### Clarification of “Within a Provider’s Office”

This statement of policy applies to providers enrolled in the Medical Assistance (MA) Program.

#### *Purpose*

The purpose of this statement of policy is to clarify the meaning of “within a provider’s office” in § 1101.51(c)(3) (relating to ongoing responsibilities of providers) and to identify the enrollment process for co-location arrangements that are not precluded by the regulation.

#### *Background*

Section 1407(a)(2) of the Human Services Code (code 62 P.S. § 1407(a)(2)) provides that it is unlawful to:

Solicit or receive or to offer or pay any remuneration, including any kickback, bribe or rebate, directly or indirectly, in cash or in kind from or to any person in connection with the furnishing of services or merchandise for which payment may be in whole or in part under the medical assistance program or in connection with referring an individual to a person for the furnishing or arranging for the furnishing of any services or merchandise for which payment may be made in whole or in part under the medical assistance program.

Section 1101.51(c)(3) was promulgated to implement section 1407(a)(2) of the code. Section 1101.51(c)(3) prohibits providers from leasing or renting “space, shelves or equipment within a provider’s office to another provider or allowing the placement of paid or unpaid staff of another provider in a provider’s office.” Section 1101.51(c)(3) further provides that the regulation “does not preclude a provider from owning or investing in a building in which space is leased for adequate and fair consideration.”

Since promulgation of § 1101.51, developments in the health care industry that support a more integrated approach to receiving diagnosis and treatment of illness or injury have resulted in the growth of retail clinics, some of which are placed within the same building structure as a pharmacy, as well as multidisciplinary co-location arrangements between separate providers, including arrangements between physical and behavioral health providers.

According to the Centers for Medicare and Medicaid Services, multidisciplinary co-location arrangements have demonstrated effectiveness to reduce emergency room visits and increase consumer access to certain services.

The Department of Human Services (Department) supports these advancements in the health care industry when services are provided in a manner that ensures the beneficiary retains freedom of choice.

#### *Discussion*

Currently, when a provider submits an application to enroll in the MA Program and the provider is attempting to enroll with the same distinct address as another currently-enrolled provider, the Department’s Provider Enrollment system identifies the address match and both providers are asked to submit additional information and documentation regarding the arrangement between the providers.

In an effort to reduce delays in processing certain provider enrollment applications and increase operational efficiency, the Department is clarifying the application of § 1101.51(c)(3) as it relates to a provider’s enrollment and participation in the MA Program.

For purposes of § 1101.51(c)(3), “within a provider’s office” means the physical space where health care providers perform the following on an ambulatory basis: health examinations, diagnosis, treatment of illness or injury; other services related to diagnosis; or treatment of illness or injury. The term does not include a hospital, a skilled nursing facility, an intermediate care facility for individuals with an intellectual disability or an intermediate care facility for individuals with other related conditions.

To facilitate the enrollment of providers that are co-located with other providers, the Department developed an attestation form that will allow providers to attest to their compliance with State and Federal anti-kickback laws and the MA regulation in § 1101.51, and that the providers will advise beneficiaries of their freedom of choice in selecting providers and will display a sign that advises beneficiaries of their freedom of choice.

When a provider submits an enrollment application and is using the same distinct street address as a different currently enrolled provider, the Department will identify the address match and will forward the attestation form to both the applicant and the currently enrolled provider, along with a request for proposed language for signage. This signage advises beneficiaries that they may receive services from any enrolled provider.

In addition, a provider that seeks to enroll at a location that is located within another provider’s offices may request a copy of the attestation form and submit it and proposed language for signage to the Department prior to the Department identifying the co-location arrangement.

The following are examples of co-location arrangements under this statement of policy: a pharmacy operating within a Federally qualified health clinic (FQHC); a certified registered nurse practitioner group with an office at the site of a currently enrolled pharmacy; and a licensed clinical social worker or a psychologist operating within an FQHC.

The attestation form and proposed language for signage shall be submitted by both providers that are at the service location. The Department will review the information and proceed with the processing the application. The Department may, if needed, request additional information or clarification.

This statement of policy is effective upon publication in the *Pennsylvania Bulletin*.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 1

---

#### Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

---

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

##### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the De-

partment, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**06-03167A: Walbert Funeral Home & Cremation Services, PC** (14390 Kutztown Road, Fleetwood, PA 19522) for the installation of a human crematory controlled by an afterburner at the Walbert Funeral Home located in Richmond Township, **Berks County**. The expected increases in facility emissions as a result of the changes proposed are 0.82 tpy of PM, 0.29 tpy of SO<sub>x</sub>, 1.17 tpy of CO, 0.35 tpy of NO<sub>x</sub> and 0.35 tpy of VOC. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department proposes to issue a plan ap-

proval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into an Operating Permit.

**67-05083F: Calpine Mid-Merit, LLC** (500 Delaware Avenue, Suite 600, Wilmington, DE 19801) for the upgrade (Upgrade) of the York Energy Center Block 2 Electricity Generation Project's nominally rated power output capacity from 760 MWs to 830 MWs at its existing electric power generation facility located in Peach Bottom Township, **York County**. The additional 70 MWs of nominal electricity will be generated from the steam cycle portion of the Block 2 combined cycle (CC) power plant. The Upgrade consists of the following changes to the sources addressed in P.A. No. 67-05083D (issued on June 15, 2015): Increase each combustion turbines (CT) heat recovery steam generator's (HRSG) natural gas (NG)-fired duct burner's maximum rated heat input capacity from 688 mmBTUs/hr to 820 mmBTUs/hr, and the ability to fire each CT's HRSG's duct burner while the CT is firing ultra-low sulfur diesel (ULSD) fuel oil (duct burner firing during CT NG firing is authorized by P.A. No. 67-05083D).

The York Energy Center Block 2 Electricity Generation Project consists of the following:

1. Two NG/ULSD fuel oil-fired CC combustion turbines (Source IDs 205 and 206) controlled by a selective catalytic reduction (SCR) system (NO<sub>x</sub> control) and an oxidation catalyst (CO and VOC control) in series. Dry low NO<sub>x</sub> technology will also be employed during NG fuel firing. Water injection technology (NO<sub>x</sub> control) will also be employed during ULSD fuel oil firing;
2. One NG-fired auxiliary boiler (Source ID 031);
3. One cooling tower (Source ID 501) controlled by a high efficiency mist eliminator (PM/PM<sub>10</sub>/PM<sub>2.5</sub> control);
4. NG piping components (Source ID 502);
5. Circuit breakers (Source ID 503); and
6. Five NG condensate storage tanks and one ULSD fuel oil storage tank (Source ID 504).

The maximum expected increases in facility emissions as a result of the Upgrade are the following: 10.2 TPY CO; 20.9 TPY NO<sub>x</sub>; 4.8 TPY VOC; 12.9 TPY PM; 12.9 TPY PM<sub>10</sub>; 12.9 TPY PM<sub>2.5</sub>; 2.9 TPY SO<sub>x</sub>; 2.2 TPY H<sub>2</sub>SO<sub>4</sub>; 0.005 TPY lead; 0.3 TPY toluene; 0.1 TPY xylenes; 0.1 TPY ethyl benzene; 0.1 TPY acetaldehyde; 0.1 TPY propylene oxide; 0.1 TPY manganese; 0.7 TPY total HAPs; and 248,316 TPY CO<sub>2e</sub>. The facility is a Title V facility. The Department's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology (BAT) requirement of 25 Pa. Code §§ 127.1 and 127.12; 40 CFR Part 60, Subpart KKKK—Standards of Performance for Stationary Combustion Turbines (re: Source IDs 205 and 206); 40 CFR Part 60, Subpart TTTT—Standards of Performance for Greenhouse Gas Emissions for Electric Generating Units (Source IDs 205 and 206); 40 CFR Part

60, Subpart Dc—Standards of Performance for Small Industrial-Commercial-Institutional Steam Generating Units (re: Source ID 031); the Acid Rain Program requirements of 40 CFR Part 72; the Cross-State Air Pollution Rule (CSAPR) requirements of 40 CFR Part 97; the continuous emission monitoring systems (CEMS) requirements of 25 Pa. Code § 139.101 and 40 CFR Part 75; the Prevention of Significant Deterioration of Air Quality (PSD) regulations of 25 Pa. Code §§ 127.81—127.83, and 40 CFR 52.21; the Nonattainment New Source Review (NNSR) regulations of 25 Pa. Code §§ 127.201—127.218. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specifications of the application for plan approval, the requirements established in the plan approval will be incorporated into the facility's Title V Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450(a)(5).

In accordance with the PSD regulations in 40 CFR 52.21 and 25 Pa. Code § 127.83, Calpine Mid-Merit, LLC (Calpine) has conducted an air quality analysis which utilizes dispersion modeling. Calpine's air quality analysis satisfies the requirements of the PSD regulations and is consistent with the U.S. Environmental Protection Agency's (EPA) Guideline on Air Quality Models (40 CFR Part 51, Appendix W) and the EPA's air quality modeling policy and guidance.

In accordance with 40 CFR 52.21(k), Calpine's air quality analysis demonstrates that emissions due to the major modification with the proposed increase in nominal capacity (Upgrade) would not cause or contribute to air pollution in violation of the National Ambient Air Quality Standards (NAAQS) for CO, NO<sub>2</sub>, PM<sub>2.5</sub>, or PM<sub>10</sub>. Calpine's air quality analysis demonstrates that emissions due to the major modification with the proposed increase in nominal capacity (Upgrade) would not cause or contribute to air pollution in violation of the increments for NO<sub>2</sub>, PM<sub>2.5</sub>, or PM<sub>10</sub>.

In accordance with 40 CFR 52.21(o), Calpine provided a satisfactory analysis of the impairment to visibility, soils, and vegetation that would occur as a result of emissions due to the major modification with the proposed increase in nominal capacity (Upgrade) and general commercial, residential, industrial, and other growth associated with the major modification.

In accordance with 40 CFR 52.21(p), written notice of Calpine's major modification with the proposed increase in nominal capacity (Upgrade) has been provided to the Federal Land Managers of nearby Class I areas as well as initial screening calculations to demonstrate that emissions due to the major modification with the proposed increase in nominal capacity would not adversely impact air quality related values and visibility in nearby Federal Class I areas.

In accordance with the public notice requirements in 25 Pa. Code § 127.45(b)(4), the degree of Class II and Class I increment consumption expected to result from the operation of Calpine's emission sources due to the major modification with the proposed increase in nominal capacity is provided in the following tables:

Table 1—Degree of Class II Increment Consumption from Operation of Calpine's Emission Sources Due to Major Modification with Proposed Increase in Nominal Capacity

In accordance with 40 CFR 52.21(l)(2), where an air quality model specified in the EPA's Guideline on Air Quality Models is inappropriate, the model may be modified on a case-by-case basis. Written approval of the EPA Regional Administrator must be obtained for the use of a modified model. In addition, the use of a modified model must be subject to notice and opportunity for public comment under procedures developed in accordance with 40 CFR 52.21(q). Calpine's air quality analysis for nitrogen dioxide (NO<sub>2</sub>) utilized the Ozone Limiting Method (OLM), which is currently implemented as a non-regulatory-default option within the EPA's recommended near-field dispersion model, the American Meteorological Society/Environmental Protection Agency Regulatory Model (AERMOD). In accordance with the recommendations under subsection 3.2 of the EPA's Guideline on Air Quality Models, the Department submitted a request to EPA Region III for approval of the use of the OLM in Calpine's air quality analysis for NO<sub>2</sub> on October 8, 2014. The EPA Regional Administrator approved the Department's request on November 21, 2014. Pursuant to 25 Pa. Code §§ 127.44 and 127.83, and 40 CFR 52.21(l)(2) and (q), notice is hereby given that the Department is expressly soliciting written comments on the use of the OLM in Calpine's air quality analysis for NO<sub>2</sub>.

The emissions from each proposed engine included in this project will not exceed the following limits: 0.058 g/bhp-hr and 5.44 TPY NO<sub>x</sub>, 0.114 g/bhp-hr and 10.69 TPY CO, 0.037 g/bhp-hr and 3.47 TPY VOCs, 0.0006 lbs/MMBtu and 0.13 TPY SO<sub>x</sub>, 0.050 g/bhp-hr and 4.67 TPY PM/PM<sub>10</sub>/PM<sub>2.5</sub>, 0.0009 g/bhp-hr and 0.84 TPY formaldehyde, 10 ppmvd at 15% O<sub>2</sub> ammonia; no visible emissions equal to or greater than 10% for a period or periods aggregating more than three minutes in any 1 hour and equal to or greater than 30% at any time. In addition to the emission limitations, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements: performance testing requirement for all engines to verify compliance with the emissions limitations; establish a facility-wide leak detection and repair (LDAR) program to account for fugitive emissions from high pressure connections; restrict the engines to natural gas firing only; in addition to perfor-

mance testing, establish follow-up portable analyzer testing for NO<sub>x</sub> and CO for all engines every 2,500 hours of operation.

The facility is a State Only facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specifications of the application for Plan Approval 53-00019A, the applicant will subsequently apply for a State Only Operating Permit in accordance with 25 Pa. Code Subchapter F. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling 570-327-0550.

**14-00042A: Cintas Corporation** (27 Whitney Drive, Milford, OH 45150) for the construction and operation of a shop towel laundering operation consisting four electrically operated washers, three natural gas fired dryers and a laundry waste water system at State College facility located in College Township, **Centre County**. The application also request construction of several ancillary air emissions sources; one 9.8 MMBtu per hour natural gas fired steam boiler, one 0.4 MMBtu per hour natural gas fired steam tunnel and one 0.55 MMBtu per hour natural gas fired pony dryer. The Department of Environmental Protection's (Department) review of the information submitted by Cintas Corporation indicates that the air contamination sources to be constructed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed construction. The emission from the shop towel laundering operation included in this project and other ancillary sources at the facility will not exceed the following limits: VOCs—9.81 tons; PM<sub>10</sub>—2.48 tons; HAPs—1.7 tons; CO—7.27; NO<sub>x</sub>—8.56; and SO<sub>2</sub>—0.05. In addition to the emission limitations, the following is a brief description of the types of conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements: Limit the total VOCs from shop towel laundering operation to 9.3 tons in any 12 consecutive month period, Limit the maximum number of shop towels laundered at the facility to not exceed 2,750,000 pounds of soiled shop towel per year, Allow the use of only non-VOC detergents for shop towel laundering, Operate the dryers on natural gas fuel only, Establish work practice standards prohibiting the use print or furniture towels for laundering at the facility, Maintain and operate all the laundering equipment at the facility according to the Manufacturer's specification and recommendation, Maintain monthly records of product throughput and VOCs/ HAPs emissions to verify compliance with established limits, Establish annual reporting of emissions to the Department. The facility is a State Only facility. If the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for Plan Approval 14-00042A, the requirements established in the plan approval will be incorporated into a State Only Operating Permit pursuant to 25 Pa. Code § 127.411. All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101,

**67-05083F: Calpine Mid-Merit, LLC** (500 Delaware Avenue, Suite 600, Wilmington, DE 19801) to receive comments for the upgrade (Upgrade) of the York Energy Center Block 2 Electricity Generation Project's nominally rated power output capacity from 760 MWs to 830 MWs at its existing electric power generation facility located in Peach Bottom Township, **York County**. The additional 70 MWs of nominal electricity will be generated from the steam cycle portion of the Block 2 combined cycle (CC) power plant. The Upgrade consists of the following changes to the sources addressed in P.A. No. 67-05083D (issued on June 15, 2015): Increase each combustion turbines (CT) heat recovery steam generator's (HRSG) natural gas (NG)-fired duct burner's maximum rated heat input capacity from 688 mMBTUs/hr to 820 mMBTUs/hr, and the ability to fire each CT's HRSG's duct burner while the CT is firing ultra-low sulfur diesel (ULSD) fuel oil (duct burner firing during CT NG firing is authorized by P.A. No. 67-05083D).

The York Energy Center Block 2 Electricity Generation Project consists of the following:

1. Two NG/ULSD fuel oil-fired CC combustion turbines (Source IDs 205 and 206) controlled by a selective catalytic reduction (SCR) system (NO<sub>x</sub> control) and an oxidation catalyst (CO and VOC control) in series. Dry low NO<sub>x</sub> technology will also be employed during NG fuel firing. Water injection technology (NO<sub>x</sub> control) will also be employed during ULSD fuel oil firing;
2. One NG-fired auxiliary boiler (Source ID 031);

**41-00082: EPP Renewable Energy, LLC** (1605 N Cedar Crest Blvd., Suite 509, Allentown, PA 18104) has submitted an application to the Pennsylvania Department of Environmental Protection (Department) for the significant modification to the Title V operating permit 41-00082 to replace the hours of operation restriction with enhanced QA/QC monitoring for the four (4) landfill gas fired engines at the facility to ensure compliance with the emission limitations for the engines. The proposed significant modification does not increase the emission of any air contaminant from the sources at their facility located in Brady Township, **Lycoming County**. EPP Renewable Energy, LLC has demonstrated that the enhanced QA/QC procedures will be sufficient to demonstrate compliance with all emission limitations in the operating permit. Based on these findings, the Department intends to modify the Title V operating permit TVOP 41-00082.

The following is a summary of the conditions contained in the previously issued plan approval the Department proposes to place in the Title V operating permit to be issued to ensure compliance with all applicable air quality regulatory requirements: The permittee shall perform on the first day of every month a calculation which shows the carbon monoxide emissions total for the next rolling 12 month period will not exceed 240 tons. This calculation will be done by using the actual emissions from the previous 11 months and assuming the maximum possible operating time/throughput for the upcoming month. Should the theoretical total exceed the 240 ton total the permittee shall notify the Department within 48 hours and provide the following information: (a) The date on which the 240 tons of CO may be exceeded. (b) The actions being taken to keep the CO emission 12 month rolling total under 240 tons.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling (570) 327-0550.

(4) natural gas-fired brick dryers, two (2) cabinet dryers, a holding room and a chromite storage bin.

The facility has the potential to emit 26.73 tons of nitrogen oxides (NO<sub>x</sub>) per year, 76.71 tons of carbon monoxide (CO) per year, 2.11 tons of volatile organic compounds (VOCs) per year, 312.78 tons of sulfur oxides per year (SO<sub>x</sub>), 79.46 tons of particulate matter (PM/PM<sub>10</sub>) per year, 33.15 tons of hazardous air pollutants (HAPs) per year and 37,710 tons of greenhouse gasses (GHGs) per year. No emission or equipment changes are being proposed by this action. The emission limits, throughput limitations and work practice standards along with testing, monitoring, record keeping and reporting requirements have been included in the operating permit to ensure the facility complies with all applicable Federal and State air quality regulations. These operating permit conditions have been derived from the applicable requirements of Subpart JJJJJ of 40 CFR Part 63 and Pa. Code Title 25, Article III, Chapters 121–145.

All pertinent documents used in the evaluation of the application are available for public review during normal business hours at the Department's Northcentral Regional office, 208 West Third Street, Suite 101, Williamsport, PA 17701. ### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

#### *Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 2

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

---

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

---

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup

plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**46-00094: Highway Materials, Inc.** (5100 Joshua Road, Plymouth Meeting, PA 19462) On May 13th 2016 for an Administrative Amendment to State Only (Synthetic Minor) Operating Permit to amend the stack testing requirement for the combination HMA plant in such a manner that stack testing on auxiliary fuels (i.e., fuel oil or WDLF) is only required if consumed for 30 or more cumulative days over a certain period of time (i.e., a 12-month rolling period for fuel oil, or a 4-year consecutive time period for WDLF). This is a combination hot mix asphalt (HMA) plant at its facility located in Whitmarsh Township, **Montgomery County**.

**15-00055: Highway Materials, Inc.** (850 Quarry Road Downingtown, PA 19335), On May 13, 2016, for the amendment of a State Only, Synthetic Minor Operating Permit to amend Source 101, Condition # 006(a) in Section D of the permit. The revised condition reads, "The stack test shall be performed while the source is operating at maximum routine operating conditions and firing Waste Derived Liquid Fuel (WDLF) and natural gas." Highway Materials operates an Asphalt Plant located in East Caln Township, **Chester County**.

Highway Materials is requesting to use only natural gas as a fuel during source testing. Currently only natural gas is fired in the burner. While the company has not been using WDLF, they requested to preserve the right in the operating permit to use WDLF.

The modified condition is, "If on specification WDLF is used for 30 or more cumulative calendar days within a 4-year consecutive time period, the permittee shall conduct performance testing to measure emissions of NO<sub>x</sub>, CO, VOC, filterable and condensable PM, and opacity. Testing shall be performed using "on specification" WDLF no later than 90 days following the 30th day of cumulative WDLF usage."

There are no changes to any other conditions and no emissions in the modification of the operating permit. The facility maintains a synthetic minor operating status by maintaining total NO<sub>x</sub> emissions to less than 12 tons per year. The amended permit includes testing, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable local, state, and federal air quality requirements.

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

### **Proposed Conditional State Water Quality Certification for the Army Corps of Engineers Pennsylvania State Programmatic General Permit (PASPGP-5)**

On September 29, 2015, the Baltimore, Philadelphia and Pittsburgh Districts of the Army Corps of Engineers (Corps), under the authority of section 404(e) of the Clean Water Act (act) (33 U.S.C.A. § 1344(e)), proposed by its Special Public Notice 15-60 to issue Pennsylvania State Programmatic General Permit-5 (PASPGP-5) for a 5-year period. Section 401(a) of the act (33 U.S.C.A. § 1341(a)) requires an applicant seeking coverage under PASPGP-5 to provide the Corps with certification from the Commonwealth that its discharge will comply with the applicable provisions of the act (33 U.S.C.A. §§ 1251—1388). The Department of Environmental Protection (Department) has established water quality standards for this Commonwealth and programs to achieve those standards consistent with the applicable provisions of the act, which have been approved by the United States Environmental Protection Agency. On April 19, 2016, the Corps furnished the Department with a final copy of PASPGP-5 with a planned effective date of July 1, 2016. The Department is providing notice of its proposed conditional State Water Quality Certification for use by applicants seeking coverage under PASPGP-5 for projects that do not require any Federal permit or license other than a section 404 permit under the act.

PASPGP-5 continues the Corps' recognition of the Commonwealth's permitting process for activities affecting waterways, water bodies and wetlands authorized under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27). PASPGP-5 allows applicants to obtain both Corps section 404 permits and State water obstruction and encroachment permits through a joint application submitted to the Department and delegated conservation districts for the majority of projects requiring these permits in this Commonwealth. Through the incorporation of Federal and State permitting standards in one process, PASPGP-5 continues a streamlined process for permit applicants without compromising comprehensive environmental protection. This proposed State Water Quality Certification applies to activities that qualify for PASPGP-5 within the jurisdiction of section 404 of the act and structures or work in or affecting navigable waters of the United States under section 10 of the River and Harbor Act of 1899 (33 U.S.C.A. § 403).

The Department, by this notice, proposes to certify that the discharge of dredged or fill material under PASPGP-5 for a project to construct, operate and maintain an encroachment or water obstruction regulated under the Dam Safety and Encroachments Act and its implementing regulations in 25 Pa. Code Chapter 105 (relating to dam safety and waterway management) complies with the applicable provisions of sections 301—303, 306 and 307 of the act (33 U.S.C.A. §§ 1311—1313, 1316 and 1317). The Department further proposes to certify that the construction, operation and maintenance of the projects in accordance with PASPGP-5 will comply with the Commonwealth's water quality standards provided that the construction, operation and maintenance of the projects comply with the criteria and conditions of the applicable State law permits.

The Department further intends that this State Water Quality Certification be subject to the following conditions. Prior to beginning any activity covered by PASPGP-5, the applicant must obtain all necessary permits or approvals from the Department, including, but not limited to, those required by The Clean Streams Law (35 P.S. §§ 691.1—691.1001), the Dam Safety and Encroachments Act, the Solid Waste Management Act (35 P.S. §§ 6018.101—6018.1003), the Hazardous Sites Cleanup Act (35 P.S. §§ 6020.101—6020.1305), the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908) and the regulations promulgated thereunder including 25 Pa. Code Chapters 91, 92a, 93, 95, 102, 105 and 260a—299. Additionally, all environmental assessments required under these regulations, in addition to other regulatory requirements, must be complied with as a condition of the State Water Quality Certification for PASPGP-5 consistent with section 401 of the act. Individual activities conducted within the jurisdiction of section 404 of the act or section 10 of the River and Harbor Act of 1899 that are not covered under PASPGP-5 must obtain separate State Water Quality Certification consistent with section 401 of the act. Activities that require any Federal authorization other than or in addition to an authorization under section 10 of the Rivers and Harbors Act of 1899 or section 404 of the act (such as, but not limited to, an interstate natural gas pipeline, a gas storage field, or a nuclear or hydroelectric project requiring authorization by a Federal license, certification or permit) shall submit a request to the Department for State Water Quality Certification for the entire project requiring Federal authorizations as required by section 401 of the act.

The Department will consider all comments received on or before June 27, 2016, before taking final action on a conditional State Water Quality Certification. Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the originator's name and address. Commentators are urged to submit comments using the Department's online eComment system at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment). Written comments should be submitted by e-mail to [ecomments@pa.gov](mailto:ecomments@pa.gov) or by mail to the Department of Environmental Protection, Bureau of Waterways Engineering and Wetlands, 400 Market Street, P.O. Box 8460, Harrisburg, PA 17101-8465.

The proposed PASPGP-5 and Corps public notices can be viewed on the Corps web page at <http://www.nab.usace.army.mil/Missions/Regulatory/PublicNotices/PublicNoticeView/tabid/16587/Article/747111/spn16-22-pennsylvania-state-programmatic-general-permit-5-paspgp-5.aspx>. # INDEPENDENT REGULATORY REVIEW COMMISSION

## Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
7-528	Environmental Quality Board Water Quality Standards; Class A Stream Redesignations 46 Pa.B. 1205 (March 5, 2016)	4/18/16	5/18/16

### Environmental Quality Board Regulation # 7-528 (IRRC # 3140)

#### Water Quality Standards; Class A Stream Redesignations

May 18, 2016

We submit for your consideration the following comments on the proposed rulemaking published in the March 5, 2016 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

#### 1. Whether the regulation is supported by acceptable data.

As part of our determination of whether a regulation is in the public interest, the Independent Regulatory Review Commission (Commission) must consider whether the regulation is supported by acceptable data. 71 P.S. §§ 745.3, 745.5(a)(14), 745.5b(b)(3)(v) and (b)(7). An agency is required to submit a Regulatory Analysis Form (RAF) which includes:

- (14) A description of any data upon which a regulation is based with a detailed explanation of how the data was obtained and why the data is acceptable data. An agency advocating that any data is acceptable data shall have the burden of proving that the data is acceptable.

71 P.S. § 745.5(a)(14). To facilitate review of acceptable data, Regulatory Analysis Form (RAF) Question (28) asks:

If data is the basis for this regulation, please provide a description of the data, explain in detail how the

data was obtained, and how it meets the acceptability standard for empirical, replicable and testable data that is supported by documentation, statistics, reports, studies or research. Please submit data or supporting materials with the regulatory package. If the material exceeds 50 pages, please provide it in a searchable electronic format or provide a list of citations and internet links that, where possible, can be accessed in a searchable format in lieu of the actual material. If other data was considered but not used, please explain why that data was determined not to be acceptable.

In addition to the statutory and RAF requirements, the Commission's regulations require an agency to submit "A completed regulatory analysis form." 1 Pa. Code §§ 305.1(b)(1) and 307.2(c)(1).

The EQB's response to RAF 28 states: "Please see the attached stream evaluation report." The attached report provides a brief summary of 50 stream redesignations representing 207 miles of streams, states the Department of Environmental Protection staff conducted an independent review and provides one biomass estimate for each stream redesignation. The Preamble also states that "Copies of the Department's stream evaluation report for these waterbodies are available on the Department's website or from the contacts whose addresses and phone numbers are listed in Section B of this Preamble."

The amendments in this rulemaking are substantial. They represent 50 stream redesignations, 207 cumulative miles of streams and an unspecified square mileage of property within the drainage area. Clearly, a multitude of data was acquired and reviewed in the development of this rulemaking. However, the supporting data is not described in a way to establish the data meets the

standard of acceptable data. Also, one cannot discern the square miles of property affected within the drainage area from the Preamble, RAF or Annex A. We believe the Preamble should better reflect the magnitude of the amendments and the data considered.

We appreciate the public comment in support of redesignating these streams and the benefits of protecting our natural resources. Our concern is that acceptable data was not made directly available and the supporting information does not directly establish acceptable data as required by the Regulatory Review Act. Without direct access to the data and supporting information, the standing committees, public and the Commission are not given a sufficient opportunity to evaluate whether the regulation is supported by acceptable data. In order to meet 71 P.S. §§ 745.5b(3)(v) and (b)(7), 71 P.S. § 745.5(a)(14), RAF (28) and 1 Pa. Code 307.2(c)(1), the final-form regulation submittal should include the information required relating to acceptable data to support that the amendments are in the public interest.

**2. RAF (18) Explain how the benefits of the regulation outweigh any cost and adverse effects.—Economic impact.**

The response to RAF (18) explains that the benefits of clean water outweigh the cost of treatment technology and best management practices. The response also references responses to RAF (15) and (17). These RAF responses cite multiple benefits that include dollar estimates such as \$3.7 billion annually generated by sport fishing in Pennsylvania between the years 1995 to 1997. While these industry-wide evaluations provide useful information, that is not the question the RAF poses. The question posed is directed at the benefits of the amendments in this regulation. For example, how will this regulation incrementally affect the overall \$3.7 billion sport fishing industry or any of the other benefits presented in the RAF?

In regard to costs, the information presented is vague. The RAF (15) response indicates that the increased protection may result in higher design, engineering, construction and treatment costs, and that there are 11 known pollution control facilities affected. The responses to RAF (19), (20) and (23) do not provide any dollar estimates and state either that the costs cannot be determined because they are site-specific or that there are no costs. The RAF (20) response is inconsistent. It states, “No costs will be imposed directly upon local governments,” then states “certain municipalities . . . may be affected,” then concludes that the costs would be site-specific. We are concerned that the impact of the

redesignations on existing discharges is not sufficiently explained and the costs are not estimated. In addition, the redesignations limit future land uses, but there is no sufficient explanation or estimation of that impact on current landowners. The RAF asks for a specific estimate of costs associated with compliance with this regulation. Just because costs are site-specific, does not mean there are no costs or that an estimate could not be derived from other projects.

A conclusion that the benefits of this specific regulation outweigh the costs and adverse effects should be based on numbers specific to this regulation. Therefore, we ask the EQB to amend the RAF responses to provide information specific to this regulation. In support of its determination that benefits outweigh any cost and adverse effects, we ask the EQB to provide more thorough and specific explanations of benefits, costs and adverse effects in the RAF submitted with the final-form regulation.

**3. RAF (22) For each of the groups and entities identified in items (19)—(21) above, submit a statement of legal, accounting or consulting procedures and additional reporting, recordkeeping or other paperwork, including copies of forms or reports, which will be required for implementation of the regulation and an explanation of measures which have been taken to minimize these requirements.—Economic impact.**

Both the response to RAF (22) and the Preamble’s Section F.4. Paperwork Requirements explain that some permits and paperwork will be required. However, the response to RAF (22) did not include the detail requested in RAF (22). We ask the EQB to provide a more thorough response to RAF (22) in the final-form regulation submittal.

**4. RAF (7) Briefly explain the regulation in clear and nontechnical language.—Clarity.**

The first sentence of the second paragraph in this response states, “This proposal modifies Chapter 93 to reflect the recommended redesignation of streams shown on the attached list.” We did not find an attachment and are not clear regarding what this response references. The EQB should either include this list with the final-form submittal or amend the response to clarify what document it references.

### Repeal of Outdated Notices Regarding Form and Rate Filings; Filing Requirements under the Accident and Health Filing Reform Act; Notice 2016-01—Revised

The Repeal of Outdated Notices Regarding Form and Rate Filings; Filing Requirements under the Accident and Health Filing Reform Act, Notice 2016-01, published at 46 Pa.B. 535 (January 23, 2016), is hereby revised as to the filing of rates for small group excepted benefit policies.

Certain accident and health insurance policy forms, subject to filing under section 3(a) of the Accident and Health Filing Reform Act (40 P.S. § 3801.303(a)), added by the act of December 18, 1996 (P.L. 1066, No. 159) (Act 159), were exempted from filing with the Insurance Department (Department) by the Insurance Commissioner (Commissioner) by notices published at 26 Pa.B. 1453 (March 30, 1996) and 32 Pa.B. 3449 (July 13, 2002)<sup>1</sup> under the authority of section 3(b) of Act 159. In addition, there may be notices issued prior to Act 159 regarding form and rate filings that some may view as still in effect, including, but not limited to, Notice 1992-17, "Notice of the Insurance Commissioner Pursuant to Section 354 of The Insurance Company Law of 1921, Act of May 17, 1921, P.L. 682 (40 P.S. § 477(b)) Revising Requirements for Filing Certain Accident and Health Forms."

The Federal Patient Protection and Affordable Care Act (Pub.L. No. 111-148) and the Health Care and Education Reconciliation Act of 2010 (Pub.L. No. 111-152) (together, the Affordable Care Act (ACA)) and regulations and other Federal guidance promulgated thereunder have imposed new requirements on accident and health policy forms and rates in the large and small group markets, as well as the individual market. Act 159 was amended by the act of December 22, 2011 (P.L. 614, No. 134) (Act 134) to assure that the Commonwealth would maintain its authority to review rates for accident and health policies in light of the ACA.

In recognition of the recent changes in health insurance requirements, and to monitor and assure compliance with the ACA and State law requirements, the Department has determined that it is in the public interest to review forms, including riders, amendments and endorsements, for all group accident and health policies (other than disability) as well as all individual policies. First, all group accident and health forms, for both large and small groups, are required to comply with provisions of State and Federal law, including requirements brought about by the ACA and Federal laws that have explicit correla-

<sup>1</sup> The notice published at 32 Pa.B. 3449 repealed the notice published at 28 Pa.B. 4302 (August 29, 1988), under which the deregulation notices published at 27 Pa.B. 1893 (April 12, 1997) and 27 Pa.B. 3118 (June 28, 1997) had been temporarily discontinued.

tion to State law requirements, such as the mental health parity and genetic nondiscrimination requirements. (See the Health Insurance Coverage Parity and Nondiscrimination Act (40 P.S. §§ 908-11—908-16).) It will assist the Department in protecting insurance consumers in this Commonwealth to receive these forms prior to use as specified in Act 134.<sup>2</sup> Second, the Department has determined that its review of small group rate filings should be informed by a coordinated review of the forms associated with those rate filings. In addition, under Act 134, and consistent with the ACA, student, blanket, and franchise accident and health insurance is now defined and recognized not as group, but as individual coverage. To maintain the Commonwealth's status under the ACA as an effective rate review state and to assure that consumers in this Commonwealth receive all protections and benefits required by law, the Department will review student, blanket, and franchise accident and health policy rates.<sup>3</sup> As with small group products, a review of the forms for student and franchise policies will inform its review of those rates; however, due to the particular nature of blanket insurance, the Department intends to continue exempting blanket insurance from form filing.

#### *Form Filings*

Section 3(b) of Act 159 authorizes the Commissioner to require forms exempted from filing to be subsequently made subject to filing with the Department upon 90 days advance notice published in the *Pennsylvania Bulletin*. By this publication, the Commissioner hereby communicates her intent to discontinue certain form filing exemptions and reinstate certain form filings.<sup>4</sup> Accordingly, the Department identifies the forms that are currently required to be filed, as well as those that will no longer be exempt from filing, effective for the plan years specified. The forms specified here are required to be filed by each insurer, as that term is defined in Act 159, provided, however, that a form eligible to be filed through, and in fact filed through, the Interstate Insurance Compact need not be filed with the Department in accordance with this notice.

#### *Forms currently required to be filed*

- Individual accident and health forms, including:
  - Individual major medical forms (other than student, franchise, and blanket policies, as elsewhere specified in this notice).
  - Individual disability forms.
  - Individual limited benefit forms.<sup>5</sup>
  - Individual long-term care forms.
  - Individual Medicare supplement forms.
- Group long-term care and Medicare supplement forms.

#### *Forms to be filed for plan years beginning on or after July 1, 2016*

- Student and franchise accident and health forms.

<sup>2</sup> The Department notes that once it is assured that the insurance industry is familiar with post-ACA requirements, it may repeal this review of large group forms. See, for example, 28 Pa.B. 4302 (requiring form filings to assure compliance with the act of June 17, 1998 (P.L. 464, No. 68)), later repealed by Notice 2002-06 published at 32 Pa.B. 3449.

<sup>3</sup> Blanket insurance is individual insurance under Act 134. However, because of its particular nature, rather than requiring blanket insurance rates to be filed 45 days prior to use, the Department by this notice is establishing a shorter period of 15 days for these rate filings. See section 3(c) of Act 159.

<sup>4</sup> Insofar as any exemption notice issued prior to the effective date of Act 159 is believed to still be extant, any exemption thereunder, like the notices specifically identified herein, is discontinued by this notice.

<sup>5</sup> Limited benefit policies, for purposes of this notice, include dental, vision, hospital and other fixed indemnity, accident-only, critical illness, specified disease, wraparound, short-term limited duration health, and any other supplemental or excepted benefit accident and health insurance policies.

#### *Forms to be filed for plan years beginning on or after January 1, 2017*

- Major medical accident and health forms sold to small groups.
- Limited benefit forms sold to small groups.

#### *Forms to be filed for plan years beginning on or after January 1, 2018*

- Major medical accident and health forms sold only to large groups.

#### *Forms continuing to be deregulated and not subject to filing*

- Blanket accident and health forms.
- Group disability forms.
- Limited benefit forms sold only to large groups.

Notwithstanding the continued exemption of certain forms from filing, the Department reminds insurers that it retains full authority to request a copy of any form being issued in this Commonwealth, as provided in section 10 of Act 159 (40 P.S. § 3801.310).

#### *Rate Filings*

The Department by this notice reminds insurers that the following accident and health rates are currently required to be filed; provided, however, that a rate eligible to be filed through, and in fact filed through, the Interstate Insurance Compact need not be filed with the Department:

- All individual major medical, student, franchise, blanket, limited benefit, individual disability, long-term care and Medicare supplement rates.
- All major medical rates for policies sold to small groups.<sup>6</sup>
- All group long-term care and Medicare supplement rates.

The current form and rate filing requirements identified in this notice shall remain in effect as stated; the form filing requirements not currently in effect shall take effect for the plan years stated; and the discontinuation of the form filing exemptions specified by this notice shall be effective 90 days after publication of this notice in the *Pennsylvania Bulletin*. In accordance with section 3(a) of Act 159, as amended by Act 134, forms shall be filed no less than 45 days prior to use.

Questions concerning this notice may be directed to the Bureau of Life, Accident and Health, Office of Insurance Product Regulation, 1326 Strawberry Square, Harrisburg, PA 17120, ra-rateform@pa.gov.

TERESA D. MILLER,  
*Insurance Commissioner*

[Pa.B. Doc. No. 16-932. Filed for public inspection May 27, 2016, 9:00 a.m.]

<sup>6</sup> Rates for excepted benefits policies issued on a group basis are not required to be filed under section 3(c) of Act 159. However, issuers of small group stand-alone dental plans should refer to binder filing requirements in the Department's annual filing instructions for ACA-compliant individual and small group products, available at <http://www.insurance.pa.gov/Companies/ProductAndRateRequire>.

#### CWSRF Projects Being Considered

*Applicant:* Sandy Lake Township

*County:* Mercer

*Applicant Address:* 3086 Sandy Lake—Grove City Road, P.O. Box 205, Sandy Lake, PA 16145

*Project Description:* The proposed solution includes a sewer system consisting of 26 simplex grinder pumps, 3 duplex grinder pumps, and assorted pressure sewer and pressure main. The low-pressure sewer system will connect to the Sandy Lake Borough sewer system on United States Route 62 at the Sandy Lake Borough/Sandy Lake Township line with conveyance to the Lakeview Joint Sewer Authority Waste Water Treatment Plant (WWTP) for treatment.

*Problem Description:* The service area is the houses and businesses along Mercer Road and Walnut Street in Sandy Lake Township. It includes 21 residences, a 4-unit apartment building, a church, 2 commercial establishments, a restaurant and a convenience store/gas station. A sanitary survey of the sewage disposal needs within the proposed service area showed a significant number of malfunctioning onlot systems. The proposed project will eliminate the discharge of raw sewage into the groundwater or waters of the Commonwealth which can create potential health, safety and environmental issues.

*Applicant:* Greene Township

*County:* Erie

*Applicant Address:* 9333 Tate Road, Erie, PA 16509

*Project Description:* The proposed project includes the construction of approximately 26,370 linear feet of 8-inch through 15-inch diameter gravity sewer, 822 manholes, 3,472 linear feet of forcemain, 21,239 linear feet of low-pressure sewer, 1 pump station and 64 grinder pumps to provide wastewater service to 175 entities. The wastewater will be collected from Greene Township and conveyed through the Millcreek Township Sewer Authority system into the City of Erie system for treatment.

*Problem Description:* This is the first phase of a four-phase project whereby the most densely populated areas of Greene Township are proposed to receive public wastewater service. This phase will serve 165 residential and 10 commercial entities along the following roads: Langdon, Old Waterford, Hilborn, Gunnison, Kosiorek, as well as the northern portions of Lake Pleasant and State Route 8. A sanitary survey of this project area revealed a 62% confirmed onlot malfunction rate. These systems leach untreated and partially treated wastewater onto the ground surface and into the waters of the Common-

wealth. This project will eliminate the malfunctioning sewage systems thereby improving the area's water quality.

---

*Applicant:* Petersburg Borough Sewer Authority

*County:* Huntingdon

*Applicant Address:* 316 King Street, P.O. Box 6, Petersburg, PA 16669

*Project Description:* The waste water treatment facility (WWTF) improvement project will require the construction of a number of new mechanical components beginning with a new headworks all the way through the post-aeration tank. The collection and conveyance system will consist of 8,000 linear feet of 8-inch PVC gravity sewer, 1,650 linear feet of 6-inch PVC gravity sewer laterals, 1,400 linear feet of 3-inch PVC forcemain, 1 wastewater pump station and all other associated appurtenances to connect 44 properties.

*Problem Description:* The WWTF is experiencing equipment failure and equipment needs to be replaced. Existing onlot systems are old and have the potential to fail. The onlot systems are in close proximity to the existing WWTF and can be included in the WWTF system with an extension of the collection and conveyance system.

---

*Applicant:* Howe Township Municipal Authority

*County:* Perry

*Applicant Address:* 319 North 4th Street, Newport, PA 17074

*Project Description:* The project will provide public sewer service to approximately 599 equivalent dwelling units (EDU) at build-out, consisting of residential, commercial and institutional flow. The sanitary sewer collection system will consist of low-pressure sewer, gravity sewer, and three pump stations and their associated force mains. The Howe Township collection system will be connected to the Newport Borough Municipal Authority WWTP. A 5,000-gallon per day package WWTP and approximately 92 EDUs will be decommissioned as part of this project.

*Problem Description:* Howe Township is currently served by onlot disposal systems (OLDS). The Juniata Parkway Area of Howe Township has been experiencing issues with OLDS malfunctions and well water contamination. Tier One and Tier Two sanitary surveys and well water sampling were performed for Howe Township and the Juniata Parkway Area, which confirmed these issues. The State Route 34 Planned Growth Area of Howe Township requires a public sewer due to the potential for future growth.

---

*Applicant:* West Elizabeth Sanitary Authority (WESA)

*County:* Allegheny

*Applicant Address:* P.O. Box 503, West Elizabeth, PA 15088

*Project Description:* Replacement of the existing 0.5 million gallons per day (mgd) WESA Sewage Treatment Plant (STP) with a new 1.06 mgd treatment facility. Construct a three-tank sequencing batch reactor treatment unit with adaptive reuse of the existing plant for sludge processing.

*Problem Description:* The existing WESA STP subject to wet weather hydraulic overload resulting in wet weather sewage overflows.

---

*DWSRF Projects Being Considered*

*Applicant:* Municipal Authority of the Borough of Midland

*County:* Beaver

*Applicant Address:* 946 Railroad Avenue, Midland, PA 15059

*Project Description:* The Municipal Authority of the Borough of Midland (Authority) is proposing the construction of a new raw water intake and a temporary intake. The Department's review of the project and the information received in the Environmental Report for the project has not identified any significant, adverse environmental impact resulting from this proposal.

*Problem Description:* The Authority will build its own raw water intake to have access to raw water to process into finished water. The system serves the areas of Midland, Shippingport and part of Industry Boroughs. Prior to this, the Authority purchased its raw water from Allegheny Ludlum (ATI) who controlled the cost of raw water. ATI has shut down; therefore, the Authority needs its own water intake to control its own costs and to have an uninterrupted supply of raw water for processing into potable water for the town of Midland and the surrounding service areas.

---

*Applicant:* Steelton Borough Authority

*County:* Dauphin

*Applicant Address:* 123 North Front Street, Steelton, PA 17113-2238

*Project Description:* Install a new 260,000-gallon clearwell, new pumps for the transfer of filtered water to the new clearwell, modifications to the existing clearwell and all other related piping, electrical and controls work at the treatment plant.

*Problem Description:* Due to the lack of sufficient chlorine contact volume following treatment, chlorine is added to the raw water upstream of the clarifiers thus allowing chlorine to react with organics in the raw water prior to their removal. This has resulted in periodic exceedances of Disinfection Byproducts, Maximum Contamination Levels. Several Notices of Violation have been issued. The additional clearwell volume will enable raw water chlorine addition to be significantly reduced or eliminated.
