# READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND THE PENNSYLVANIA CODE

## *Pennsylvania Bulletin*

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

### **Adoption, Amendment or Repeal of Regulations**

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

### **Citation to the *Pennsylvania Bulletin***

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

### ***Pennsylvania Code***

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

### **How to Find Documents**

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at [www.pacode.com](http://www.pacode.com).

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at [www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde\\_index.cfm](http://www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm).

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at [www.pabulletin.com](http://www.pabulletin.com).

### Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [ ] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

### Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

### Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

#### § 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

The Pennsylvania Gaming Control Board (Board), under the general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. § 13A02(1) and (2) (relating to regulatory authority), proposes to amend Chapters 617a, 625a, 637a, 639a, 641a, 643a, 647a, 653a, 655a, 657a, 677a and 679a and add Chapter 684a (relating to Four Card Frenzy) to read as set forth in Annex A.

#### *Purpose of the Proposed Rulemaking*

This proposed rulemaking will incorporate new side wagers, payout tables and variations of existing table games and add a new table game to the compliment of games available for play in this Commonwealth.

#### *Explanation*

Minor revisions are proposed for clarity and for consistency among the table game.

#### *Chapter 617a. Roulette*

A new side wager, Touchdown Roulette, is proposed to be added to Chapter 617a (relating to Roulette). The layout requirements for Touchdown Roulette are proposed to be added in § 617a.1 (relating to Roulette ball; Roulette wheel and table; physical characteristics; double zero Roulette wheel used as a single zero Roulette wheel), a description of the wagers is proposed to be added in § 617a.3 (relating to placement of wagers) and the payout odds for the wager are proposed to be added to § 617a.4 (relating to payout odds).

#### *Chapter 625a. Sic Bo*

A new variation is proposed to be added to Sic Bo in which a player can active the automated Sic Bo shaker. Additionally, a new payout table is proposed to be added in § 625a.6(a) (relating to payout odds) and § 625a.6(b) is proposed to be amended for clarity.

#### *Chapter 637a. Poker*

Section 637a.10 (relating to Seven-card Stud Poker; procedures for dealing the cards; completion of each round of play) is proposed to be amended to allow up to nine players to participate in a round of play, which is consistent with the number of players allowed in other Poker games.

#### *Chapter 639a. Caribbean Stud Poker*

New payout tables are proposed to be added to the progressive payout wager in § 639a.12(d) (relating to payout odds; rate of progression). The same payout tables were also approved for the progressive payout wager, referred to as the Five-Card Progressive Payout Wager, in Chapters 641a, 643a, 647a, 653a, 655a and 657a.

Additionally, seed/reseed and incrementation rates are specified for all progressives as these rates correspond with the rates submitted by the manufacturer that were tested/approved by the Board's Gaming Laboratory. The

same amendments are proposed to be made in Chapters 641a, 643a, 647a, 653a, 655a and 657a.

#### *Chapter 641a. Four Card Poker*

A new side wager, the Six Card Bonus Wager, is proposed to be added to Four Card Poker. Layout requirements for the new wager are proposed to be added in § 641a.2 (relating to Four Card Poker table physical characteristics), the description of the winning hands is proposed to be added in § 641a.6 (relating to Four Card Poker rankings), a description of the wager is proposed to be added in § 641a.7 (relating to wagers), the procedure for dealing the Six Card Bonus Wager card is proposed to be added in §§ 641a.8—641a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) and the procedure to complete the round of play when a patron has placed a Six Card Bonus Wager is proposed to be added in § 641a.11 (relating to procedures for completion of each round of play). The permissible payout odds for the wager are proposed to be added in § 641a.12 (relating to payout odds; Envy Bonus; rate of progression).

The Six Card Bonus Wager is proposed to be added, in the same format, in Chapters 643a, 647a, 653a, 655a and 657a.

#### *Chapter 643a. Let It Ride Poker*

The odds for the Five Card Bonus Wager in § 643a.12(b) (relating to payout odds; payout limitation) are proposed to be corrected to reflect that odds are paid out based on the denomination of the wager placed by the player and should be in the consistent "to 1" format.

#### *Chapter 653a. Ultimate Texas Hold 'Em Poker*

A Bad Beat Bonus Wager is proposed to be added to Ultimate Texas Hold 'Em Poker. The table layout requirements for the wager are proposed to be added in § 653a.2 (relating to Ultimate Texas Hold 'Em Poker table physical characteristics), a description of the wager is proposed to be added in § 653a.7 (relating to wagers), how the dealer is to complete the round of play when a player has placed a Bad Beat Bonus Wager is proposed to be added to § 653a.11 (relating to procedures for completion of each round of play) and the payout odds are proposed to be added in § 653a.12(g) (relating to payout odds; Envy Bonus; rate of progression; payout limitation).

Additionally, the payout limitation in § 653a.12 is proposed to be amended to reflect that only required wagers are subject to a payout limitation. Wagers that are optional for players should not be included as a cap on payouts alters the approved hold percentages. Proposed amendments to payout limitations reflect that only required wagers may be subject to a cap are also in Chapters 677a and 679a (relating to World Poker Tour Heads-Up Hold 'Em; and Three Card Prime).

#### *Chapter 655a. Mississippi Stud*

Other table game chapters contain a section addressing the procedures for handling irregularities that occur during play of the game. Section 655a.13 (relating to irregularities) is proposed to be added for consistency with other table game chapters.

#### *Chapter 679a. Three Card Prime*

An alternative dealing procedure is proposed to be added in §§ 679a.8—679a.10 (relating to procedures for

dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) which allows operators to deal only one community card to be used by all players who placed a Pair Bonus Wager rather than dealing each player who placed the wager an additional card.

*Chapter 684a. Four Card Frenzy*

Proposed Chapter 684a contains the requirements for Four Card Frenzy, a new table game. Section 684a.1 (relating to definitions) contains the definitions used throughout the chapter. Section 684a.7 (relating to wagers) outlines the permissible wagers players may place during a round of play.

Sections 684a.8—684a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) address how the cards are to be dealt and the number of cards dealt to each player. Section 684a.11 (relating to procedures for completion of each round of play) specifies how wagers are to be settled and a round of play completed. Section 684a.12 (relating to payout odds; payout limitation) outlines the permissible payout odds for winning wagers and allows the operator to place a payout limit, per player per round of play on required wagers. Section 684a.13 and (relating to irregularities) addresses how a dealer is to handle irregularities during play.

The approved payout tables in § 684a.12 have a hold percentage between 1.19% and 1.67% for required wagers. For optional wagers, the hold percentage ranges from 1.7% to 7.23% for the Four Bonus Wager, between 6.74% to 18.1% for the All Six Bonus Wager (the same wager offered in Four Card Prime and Cajun Stud) and from 4.74% to 9.8% for the Prime Wager.

(b) Only players who are seated at a Four Card Frenzy table may wager at the game. Once a player has placed a wager and received cards, that player shall remain seated until the completion of the round of play. If a player leaves the table during a round of play, any wagers made by the player may be considered abandoned and may be treated as losing wagers.

(c) All wagers, except the Raise Wager, shall be placed prior to the dealer announcing "no more bets" in accordance with the dealing procedures in § 684a.8, § 684a.9 or § 684a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe). Except as provided in § 684a.11(b) (relating to procedures for completion of each round of play), a wager may not be made, increased or withdrawn after the dealer has announced "no more bets."

(d) The following wagers may be placed in the game of Four Card Frenzy:

(1) A player may compete solely against the dealer's Four Card Frenzy hand by placing Ante and Odds Wagers in equal amounts, then a Raise Wager in accordance with § 684a.11(b).

(e) A certificate holder shall specify in its Rules Submission under § 601a.2 the number of adjacent boxes on which a player may place a wager in one round of play.

**§ 684a.8. Procedures for dealing the cards from a manual dealing shoe.**

(a) If a manual dealing shoe is used, the dealing shoe must be located on the table in a location approved by the Bureau of Casino Compliance in accordance with § 601a.10(g) (relating to approval of table game layouts, signage and equipment). Once the procedures required under § 684a.5 (relating to shuffle and cut of the cards) have been completed, the stacked deck of cards shall be placed in the dealing shoe by the dealer or by an automated card shuffling device.

(b) Prior to dealing any cards, the dealer shall announce "no more bets." To deal the cards, the dealer shall remove each card from the dealing shoe with the hand of the dealer that is closest to the dealing shoe and place it on the appropriate area of the layout with the opposite hand.

(c) If a player has placed an All-Six Bonus Wager, the dealer shall deal the first card face down to the area of the layout designated for the All-Six Bonus card. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed Ante and Odds Wagers in accordance with § 684a.7(d)(1) (relating to wagers) and to the dealer until each player who placed Ante and Odds Wagers and the dealer have five cards. All cards shall be dealt face down.

(d) After five cards have been dealt to each player and the dealer, the dealer shall remove the stub from the manual dealing shoe and, except as provided in subsection (e), place the stub in the discard rack without exposing the cards.

(e) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(f) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(g) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 684a.9. Procedures for dealing the cards from the hand.**

(a) If the cards are dealt from the dealer's hand, the following requirements shall be observed:

(1) An automated shuffling device shall be used to shuffle the cards.

(2) After the procedures required under § 684a.5 (relating to shuffle and cut of the cards) have been completed, the dealer shall place the stacked deck of cards in either hand. After the dealer has chosen the hand in which to hold the cards, the dealer shall continue to use that hand whenever holding the cards during that round of play. The cards held by the dealer shall be kept over the table inventory container and in front of the dealer at all times.

(3) Prior to dealing any cards, the dealer shall announce "no more bets."

(b) To deal the cards, the dealer shall hold the deck of cards in the chosen hand and use the other hand to remove the top card of the deck and place it face down on the appropriate area of the layout. If a player has placed an All-Six Bonus Wager, the dealer shall deal the first card face down to the area of the layout designated for the All-Six Bonus card. Thereafter, starting with the player farthest to the dealer's left and continuing around the table in a clockwise manner, the dealer shall deal one card at a time to each player who has placed Ante and Odds Wagers in accordance with § 684a.7(d)(1) (relating to wagers) and to the dealer until each player who placed Ante and Odds Wagers and the dealer have five cards.

(c) After five cards have been dealt to each player and the dealer, except as provided in subsection (d), the dealer shall place the stub in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 684a.10. Procedures for dealing the cards from an automated dealing shoe.**

(a) If the cards are dealt from an automated dealing shoe, the following requirements shall be observed:

(1) After the procedures required under § 684a.5 (relating to shuffle and cut of the cards) have been completed, the cards shall be placed in the automated dealing shoe.

(2) Prior to the shoe dispensing any stacks of cards, the dealer shall announce "no more bets."

(b) The dealer shall deliver the first stack of five cards dispensed by the automated dealing shoe face down to the player farthest to the dealer's left who has placed Ante and Odds Wagers in accordance with § 684a.7(d)(1) (relating to wagers). As the remaining stacks are dispensed to the dealer by the automated dealing shoe, the dealer shall, moving clockwise around the table, deliver a stack face down to each of the other players who have placed Ante and Odds Wagers. The dealer shall then deliver a stack of five cards face down to the area designated for the placement of the dealer's cards. If any player placed an All-Six Bonus Wager, the dealer shall then remove the next stack of five cards dispensed by the automated dealing shoe and deal the top card of the stack face down to the area of the layout designated for the All-Six Bonus card and place the remaining cards of the stack in the discard rack without exposing the cards.

(c) After all cards have been dispensed and delivered in accordance with subsection (b), the dealer shall remove the stub from the automated dealing shoe and, except as provided in subsection (d), place the cards in the discard rack without exposing the cards.

(d) If an automated card shuffling device that counts the number of cards in the deck after the completion of each shuffle and indicates whether 52 cards are present is not being used, the dealer shall count the stub at least once every 5 rounds of play to determine if the correct number of cards are still present in the deck. The dealer shall determine the number of cards in the stub by counting the cards face down on the layout.

(e) If the count of the stub indicates that 52 cards are in the deck, the dealer shall place the stub in the discard rack without exposing the cards.

(f) If the count of the stub indicates that the number of cards in the deck is incorrect, the dealer shall determine if the cards were misdealt. If the cards were misdealt but 52 cards remain in the deck, all hands shall be void and all wagers shall be returned to the players. If the cards were not misdealt, all hands shall be void, all wagers shall be returned to the players and the entire deck of cards shall be removed from the table.

**§ 684a.11. Procedures for completion of each round of play.**

(a) After the dealing procedures required under § 684a.8, § 684a.9 or § 684a.10 (relating to procedures for dealing the cards from a manual dealing shoe; procedures for dealing the cards from the hand; and procedures for dealing the cards from an automated dealing shoe) have been completed, each player shall examine his cards subject to the following limitations:

(2) Each player shall keep his five cards in full view of the dealer at all times.

(b) After each player has examined his cards and formed the best possible four-card hand, the dealer shall, beginning with the player farthest to the dealer's left and moving clockwise around the table, ask each player who placed Ante and Odds Wagers if he wishes forfeit the Ante and Odds Wagers and end his participation in the round of play or make a Raise Wager. If the player elects to:

(1) Place a Raise Wager, the player's Raise Wager shall be equal to the player's Ante Wager if player's hand is a pair of kings or lower as provided in § 684a.6(b) (relating to Four Card Frenzy rankings). If the player's hand is a pair of aces or higher, the player's Raise Wager may be equal to one, two or three times the player's Ante Wager.

(2) Forfeit his Ante and Odds Wagers by failing to place a Raise Wager, the dealer shall collect the player's Ante and Odds Wagers and place the player's cards in the discard rack provided that if a player has placed an optional Four Card Bonus, Prime or All Six-Bonus Wager, the player does not forfeit the optional wagers and the player's cards shall remain on the layout until the optional wagers are settled in accordance with subsection (d).

(c) After each player has either placed a Raise Wager on the designated area of the layout or forfeited his Ante and Odds Wagers, the dealer shall reveal the dealer's

cards and place the cards so as to form the highest possible ranking four-card hand. After the dealer's cards are turned face up, the dealer shall, beginning with the player farthest to the dealer's right and continuing around the table in a counterclockwise direction, complete the following applicable procedures in succession for each player:

(1) The dealer shall turn the cards of each player face up on the layout and compare the player's four-card hand to the dealer's four-card hand. The dealer shall then settle the player's required wagers as provided in paragraphs (2)—(4).

(2) For purposes of the Ante Wager:

(i) If the dealer's highest ranking four-card hand is not a king high or better, as described in § 684a.6(b) and (c), the dealer shall return the player's Ante Wager.

#### THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTANT DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications concern, but are not limited to, discharges regarding industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFO). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Waste; Discharge into Groundwater
Section IV	NPDES	MS4 Individual Permit

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. In accordance with 25 Pa. Code § 92a.32(d), the proposed discharge of stormwater associated with construction activities will be managed in accordance with the requirements of 25 Pa. Code Chapter 102. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on WQM permit applications are invited to submit statements to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

### PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain

the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P.S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

**Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P.S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.**

**09-0216A: B. Blair Corporation** (95 Louise Drive, Ivyland, PA 18974) for installation and operation of a portable nonmetallic mineral processing plant in Northampton Township, **Bucks County**. The plan approval is for a non-Title V facility and will consist of a 400 ton per hour jaw crusher powered by a 2014 model year 350 horsepower diesel-fired engine. Potential emissions to the atmosphere will be less than or equal to the following: NO<sub>x</sub>—9.18 tpy, CO—7.97 tpy, and PM—3.92 tpy. There will be no add-on control technology for the air emissions from this engine. PM emissions from the crusher will be controlled by appropriate water sprays. The plan approval will include monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

**46-0044C: Glasgow, Inc.** (Church & Flint Hill Roads, King of Prussia, PA 19406), for the following modifications for the existing batch hot mix asphalt (HMA) plant

and associated dust collector (baghouse) at its McCoy Quarry & Asphalt Plant facility:

- Revisions to the hourly and annual particulate matter (PM)/PM less than 10  $\mu\text{m}$  in aerodynamic diameter (PM<sub>10</sub>) emission rate restrictions for the batch HMA plant to correspond with the best available technology PM emission concentration restrictions of 0.016 grain per dry standard cubic foot (gr/dscf) for filterable PM and 0.021 gr/dscf for PM<sub>10</sub> (i.e., filterable plus condensable). The revisions result in an increase in the potential to emit PM/PM<sub>10</sub> for the batch HMA plant from 2.01 tons/yr to 5.71 tons/yr (PM) and 7.50 tons/yr (PM<sub>10</sub>), as based on adjusted exhaust gas flow parameters from the most recent stack test for the batch HMA plant.

- A change to the source description for the batch HMA plant to correct the name of the baghouse manufacturer and the quantity of filter bags used in the baghouse.

The facility is located in Upper Merion Township, **Montgomery County**, and is a non-Title V facility.

The plan approval will include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

In accordance with 40 CFR 52.21(o), Robinson Power provided additional impact analysis of the impairment to visibility, soils, and vegetation that would occur as a result of the Robinson Power facility and general commercial, residential, industrial, and other growth associated with the Robinson Power facility.

In accordance with 40 CFR 52.21(p), written notice of the proposed project has been provided to the Federal Land Managers of nearby Class I areas as well as initial screening calculations to demonstrate that Robinson Power's proposed emissions will not adversely impact visibility and air quality related values (AQRV) in nearby Class I areas.

This authorization is subject to New Source Review (NSR) requirements of 25 Pa. Code Chapter 127, Subchapter E for NO<sub>x</sub>. This air contaminant is subject to Lowest Achievable Emission Rate (LAER) requirements. Prior to commencing operation, Robinson Power will be required to secure 219 tons of NO<sub>x</sub> emission reduction credits (ERCs) in order to offset emission increases from this air contaminant.

This authorization is subject to State regulations including 25 Pa. Code Chapters 123, 127, 129, 135, 139 and 145. State standards for contaminants and sources are superseded in most cases by more stringent BACT and LAER requirements. This authorization is also subject to Federal New Source Performance Standards (NSPS) including 40 CFR Part 60 Subparts Dc, IIII, KKKK, and TTTT; and National Emission Standards for Hazardous Air Pollutants (NESHAP) including 40 CFR Part 63 Subparts YYYYY, and ZZZZ. Other applicable Federal regulations include 40 CFR Parts 52—Approval and Promulgation of Implementation Plans (specifically 52.21—Prevention of Significant Deterioration of Air Quality), 68—Chemical Accident Prevention Provisions; 72, 73, and 75—Permits Regulation, Sulfur Dioxide Allowance System, and Continuous Emission Monitoring; Part 97—Federal NO<sub>x</sub> Budget Trading Program, CAIR NO<sub>x</sub> and SO<sub>2</sub> Trading Programs, and CSAPR NO<sub>x</sub> and SO<sub>2</sub> Trading Programs, and Part 98—Mandatory Greenhouse Gas Reporting.

Plan approval conditions will include source specific and facility-wide emission limitations, operational restrictions, compliance testing and monitoring requirements, work practice standards, and associated recordkeeping and reporting requirements. The Department has determined that the proposed facility satisfies BACT, LAER, and the Department's Best Available Technology (BAT) requirements. Once compliance with the Plan Approval is demonstrated, the applicant will be required to submit a Title V Operating Permit (TVOP) application in accordance with 25 Pa. Code Subchapters F and G.

A person may oppose the proposed plan approval by filing a written protest with the Department through Alan Binder via the U.S. Postal Service to Pennsylvania Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222; email to abinder@pa.gov; or fax to 412.442.4194. **OP-04-00480: Valley Medical Facilities, Inc.** (1000 Dutch Ridge Road, Beaver, PA 15063-1013), In accordance with 25 Pa. Code §§ 127.424, 127.425 and 127.521, the Department of Environmental Protection (DEP) is providing notice that it intends to issue a renewal State Only Operating Permit (SOOP-04-00480) to Valley Medical Facilities, Inc. ("VMF") to authorize the continued operation of boilers, emergency generators, and ethylene oxide sterilizer located at their Heritage Valley Beaver in Brighton Township, **Beaver County**.

The facility's air contamination sources consist of two (2) 25.5 MMBtu/hr natural gas or No. 2 fuel oil-fired boilers, one (1) 12.075 MMBtu/hr natural gas or No. 2 fuel oil-fired boiler, four (4) emergency generators, and one (1) ethylene oxide sterilizer. Potential emissions from the emission sources of the facility are based on burning natural gas in all boilers for 8,760 hours per year and low sulfur diesel fuel in the emergency generators for 500 hours per year. Potential emissions are estimated to be 66.7 tons NO<sub>x</sub>, 15.1 tons CO, 72.2 tons SO<sub>x</sub>, 5.9 tons PM, and 0.6 tons VOC. Ethylene Oxide is estimated to be 70 pounds per year. Actual emissions from the facility are much lower considering most of the boilers do not operate at full rated capacity.

This facility is subject to the applicable requirements of 25 Pa. Code Chapters 121—145. Proposed SOOP renewal includes conditions relating to applicable emission restrictions, testing, monitoring, recordkeeping, reporting and work practice standards requirements. The emergency generator is subject to the applicable requirement of 40 CFR Part 63 Subpart ZZZZ and the Ethylene Oxide Sterilizer is subject to 40 CFR Part 63 Subpart WWWW.

### MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

*Effluent Limits for Coal Mining Activities*

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

\* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

#### *Effluent Limits for Noncoal Mining Activities*

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91–96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

#### EROSION AND SEDIMENT CONTROL PERMITS

The following parties have applied for Erosion and Sediment Control Permits for earth disturbance activities associated with either road maintenance or timber harvesting operations.

Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department proposes to issue a permit to discharge, subject to certain limitations in the permit conditions. These proposed determinations are tentative. Limitations are provided as erosion and sediment control best management practices which restrict the rate and quantity of sediment discharged.

A person wishing to comment on a proposed permit are invited to submit a statement to the appropriate Department regional office listed before the application within 30 days of this public notice. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and relevant facts upon which it is based. A public hearing may be held after consideration of comments received by the appropriate Department regional office during the 30-day public comment period.

Following the 30-day comment period, the appropriate regional office water management program manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board (Board).

The application and related documents, including the erosion and sediment control plan for the earth disturbance activity, are on file and may be inspected at the appropriate regional office.

Persons with a disability that require an auxiliary aid, service or other accommodation to participate during the 30-day public comment period should contact the specified regional office. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

#### FINAL ACTIONS TAKEN FOR NPDES PERMITS AND WQM PERMITS

The Department has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and NOIs for coverage under General Permits. This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Wastes; Discharges to Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a

different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

## PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

ponent 1 module) submitted for the Dan Haubert Subdivi-  
sion, DEP Code No. A3-34904-170-1, APS Id 941546, is  
disapproved. The submission proposed a subdivision to  
create one new single family residential lot and a residual

tract with an existing dwelling, with each to use individual onlot sewage disposal systems. The proposed subdivision is located on the north side of Cedar Springs Road, east of the junction with Fielders Lane. This plan is disapproved because it lacked a preliminary hydrogeologic study, which must be submitted as part of the component 2 sewage planning module. A preliminary hydrogeologic study is required because the proposed subdivision is within 1/4 mile of water supplies documented to exceed 5 PPM nitrate-N and onlot sewage disposal is proposed. ## **HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988**

### **Public Notice of proposed Consent Order and Agreement Cook Technologies Site, Green Lane Borough, Montgomery County**

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA), 35 P.S. §§ 6020.101—6020.1305, has entered a Consent Order and Agreement ("Agreement") with Cook Technologies Inc ("Cook") for the ongoing monitoring and maintenance of carbon filtration systems installed at residential properties surrounding the Cook Technologies Site.

The Cook Technologies Site ("the Site") is located to the east of the intersection of Gravel Pike (Route 29) and Main Street (Route 63) in Green Lane Borough Montgomery County. In 1981, soil and groundwater samples revealed the presence of Tetrachloroethene (PCE) contamination that had been released by operations at the Site. In August 2011, the Department issued an administrative order requiring that Cook conduct additional remedial investigation of the PCE contamination and formally enter the Act 2 program. Cook filed a timely appeal of the administrative order, and in June 2012, the appeal was settled through an agreement under which Cook and the Department agreed to perform tasks to investigate and address the PCE contamination. The Department has completed its investigation by installing and sampling monitoring wells, sampling residential water wells and carbon filtration systems, conducting soil vapor sampling, and testing residential indoor air quality at the Site. The Department has determined that approximately twenty (20) properties continue to require ongoing maintenance, which includes periodic sampling and replacement of filters on water wells at those properties. An additional six (6) properties require sampling to determine if carbon filtration systems are needed. Upon execution of the Agreement, Cook will assume (and have assumed) responsibility for the water filter maintenance, as they have maintained the filters since 1984.

This notice is provided under Section 1113 of the HSCA, 35 P.S. § 6020.1113. The Agreement may be examined from 8 a.m. to 4 p.m. at the Department's Southeast Regional Office, 2 East Main Street, Norristown, Pennsylvania 19401 by contacting either Bonnie McClennen (484) 250-5965 or Robert Schena at 484.250.5865. They may also be contacted electronically at [bmccledden@pa.gov](mailto:bmccledden@pa.gov) and [roschena@pa.gov](mailto:roschena@pa.gov), respectively. A public comment period on the Agreement will extend for a period of 60 days from the date of publication of this notice. Interested persons may submit written comments regarding the Agreement within 60 days from the date of

publication of this notice to the Department by submitting them to Bonnie McClennen at the previously listed address.

## **LAND RECYCLING AND ENVIRONMENTAL REMEDIATION**

### **UNDER ACT 2, 1995 PREAMBLE 2**

**The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. ## LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

### UNDER ACT 2, 1995 PREAMBLE 3

**The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907).**

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment

report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. The 0.113 acre of permanent PEM wetland impact will be offset by the creation of a 3.25 acres wetland, which was previously approved under the original permit to off-set 2.39 acres of wetland impact. This project is located near the intersection of Boggs Road and Santiago Road (Quadrangle: Clinton, PA; Latitude: 40° 26' 36"; Longitude: -89° 16' 14"; Sub-basin: 20G; Chapter 93 Type: TSF), in Findlay Township, Allegheny County.

## **DEPARTMENT OF HEALTH**

### **Approved and Required Medications Lists for Emergency Medical Service Agencies and Emergency Medical Service Providers**

Under 28 Pa. Code §§ 1027.3(c) and 1027.5(b) (relating to licensure and general operating standards; and medication use, control and security), the Department of Health (Department) has approved the following medications for administration by emergency medical responders (EMR), emergency medical technicians (EMT), advanced emergency medical technicians (AEMT), paramedics, prehospital registered nurses (PHRN), prehospital physician extenders (PHPE) and prehospital emergency medical services physicians (PHP) when functioning on behalf of an emergency medical service (EMS) agency. The approvals are based upon the type of EMS service an EMS agency is licensed to provide under 35 Pa.C.S. § 8129 (relating to emergency medical services agencies). This notice also specifies the minimum required medications to be stocked on a specified EMS vehicle based upon the type of EMS service the EMS agency is licensed to provide.

Under 28 Pa. Code § 1027.5(d), EMS providers, other than a PHP, may administer to a patient medications, or assist the patient to administer medications previously prescribed for that patient, as specified in the Statewide EMS protocols or as authorized by a medical command physician. An EMS provider may administer medications contained on this list if the EMS provider is credentialed to do so and the EMS vehicle on which they are providing EMS is properly licensed to carry the medication.

Unless otherwise stated or restricted to a specific level of provider, listed medications may be given by any acceptable route as listed in protocol or as ordered by a medical command physician.

Medications that are listed as required must be carried on the specified level of EMS vehicle and must be carried in a quantity sufficient to treat at least one adult using the Statewide EMS protocols. If the protocol identifies repeat doses, then additional medication must be carried. When a pediatric dose option is available (for example a pediatric EPINEPHrine autoinjector), then both the adult and pediatric options must be carried.

During interfacility transport, all medications given by continuous infusion (except intravenous electrolyte solutions with potassium concentrations of no more than 20 mEq/L) must be regulated by an electronic infusion pump. For prehospital transport, continuous infusions of crystalloid solutions containing medication (except intravenous electrolyte solutions with potassium concentrations of no more than 20 mEq/L) and all vasoactive medications must be rate controlled by electronic IV pump or a manual flow control device capable of setting specific numeric flow rates. Nitroglycerin infusion must be regulated with an electronic pump.

Persons with a disability who require an alternate format of this notice (for example, large print, audiotape, Braille) should contact Richard L. Gibbons, Bureau Director, Department of Health, Bureau of Emergency Medical Services, Room 606, Health and Welfare Building, 625 Forster Street, Harrisburg, PA 17120-0710, (717) 787-8740. Speech or hearing impaired persons may call by using V/TT (717) 783-6154 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

[Pa.B. Doc. No. 17-964. Filed for public inspection June 9, 2017, 9:00 a.m.]

### Scope of Practice for Emergency Medical Service Providers

Under 35 Pa.C.S. §§ 8101—8157 (relating to Emergency Medical Services System Act) and the Department of Health's (Department) regulations in 28 Pa. Code §§ 1023.24(d)(1), 1023.25(d)(1), 1023.26(d)(1), 1023.27(d)(1), 1023.28(d), 1023.29(d) and 1023.30(e), the Department is publishing the scope of practice for emergency medical responders (EMR), emergency medical technicians (EMT), advanced emergency medical technicians (AEMT), paramedics, prehospital registered nurses (PHRN), prehospital physician extenders (PHPE) and prehospital physicians (PHP).

Skills identified may be performed by an emergency medical service (EMS) provider at the provider's level of certification or registration only if the provider has successfully completed the approved education (cognitive, affective and psychomotor) on the specified skill, which includes training to perform the skill on adults, children and infants, as appropriate. EMRs, EMTs, AEMTs and Ps may only perform the skills identified, through either Statewide or other Department-approved protocols, or skills that may be ordered online by a medical command physician.

As the following chart indicates, a PHRN, PHPE and PHP may perform all skills identified as within a paramedic's scope of practice. Each of these EMS providers may perform additional skills outlined as follows.

A PHRN who is appropriately credentialed by the EMS agency medical director may perform other services authorized by The Professional Nursing Law (63 P.S. §§ 211—225.5) when authorized by a medical command physician through either online medical command or through the applicable Statewide or Department-approved EMS protocols.

A PHPE who is appropriately credentialed by the EMS agency medical director may perform services within the scope of practice of a physician assistant under the Medical Practice Act of 1985 (63 P.S. §§ 422.1—422.51a) or the Osteopathic Medical Practice Act (63 P.S. §§ 271.1—271.18) when authorized by a medical command physician through either online medical command or through applicable Statewide or Department-approved EMS protocols. When a PHPE functions as an EMS

provider, the physician supervision requirements applicable to a physician assistant under the Medical Practice Act of 1985 and the Osteopathic Medical Practice Act do not apply.

A PHP who is appropriately credentialed by the EMS agency medical director may perform skills within a paramedic's scope of practice and other skills within the practice of medicine or osteopathic medicine. A PHP may not perform a skill that the PHP has not been educated and trained to perform.

Under 28 Pa. Code § 1023.1(a)(1)(vi) and (vii) (relating to EMS agency medical director), the EMS agency medical director must make an initial assessment of each EMS provider at or above the AEMT level, and then within 12 months of each prior assessment, to determine whether the EMS provider has the knowledge and skills to competently perform the skills within the EMS provider's scope of practice, and a commitment to adequately perform other functions relevant to the EMS provider providing EMS at that level. EMS providers at or above the AEMT level may only perform skills that the EMS agency medical director has credentialed them to perform.

The Department wishes to highlight the following change to the scope of practice for all EMS providers. Effective November 29, 2014, administration of Naloxone in intranasal or auto-injector form is approved for all levels of EMS providers and is listed under the "Medications" category of this notice. This change is under sections 13.7 and 13.8 of The Controlled Substance, Drug, Device and Cosmetic Act (35 P.S. §§ 780-113.7 and 780-113.8), which requires the Department by December 31, 2014, to amend the scope of practice for EMS providers to include the administration of Naloxone. Prior to this change, Naloxone was listed on the approved drug list only for ALS ambulance services and for advanced-level EMS providers. See 42 Pa.B. 4229 (July 7, 2012).

Persons with a disability who require an alternate format of this notice (for example, large print, audiotape, Braille) should contact Richard Gibbons, Department of Health, Bureau of Emergency Medical Services, Room 606, Health and Welfare Building, 625 Forster Street, Harrisburg, PA 17120-0710, (717) 787-8740. Speech or hearing impaired persons may call by using V/TT (717) 783-6154 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT).

## DEPARTMENT OF HUMAN SERVICES

### Change to Disproportionate Share Payments for Access to Care

The Department of Human Services (Department) is announcing its intent to increase the funding for the Fiscal Year (FY) 2016-2017 disproportionate share hospital (DSH) payments made to qualifying acute care general hospitals that provide enhanced access to multiple types of medical care in economically distressed areas. The Department does not intend to otherwise change the qualifying criteria or payment methodology for these payments.

All payment limitations are applicable, including those limitations that the Commonwealth may not exceed its aggregate annual DSH allotment and that no hospital may receive DSH payments in excess of its hospital-specific limit.

#### *Fiscal Impact*

The total FY 2016-2017 impact as a result of this increase in the allocation for the DSH payments for these qualifying hospitals is \$63.051 million (\$30.403 million in State general funds and \$32.648 million in Federal funds) upon approval by the Centers for Medicare & Medicaid Services.

#### *Public Comment*

Interested persons are invited to submit written comments regarding these payments to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. The Department will review and consider comments received within 30 days in determining the final payment methodology for these payments.

### Pennsylvania Keystone Cash Fast Play Game 5000; Change to Game Rules

Under the State Lottery Law (72 P.S. §§ 3761-101—3761-314) and 61 Pa. Code § 803.11 (relating to powers and duties of the Secretary of Revenue), the Acting

Secretary of Revenue hereby provides public notice of changes to the Pennsylvania Keystone Cash Fast Play lottery game rules that were published at 47 Pa.B. 1240 (February 25, 2017).

On May 4, 2017, the Pennsylvania Lottery's gaming system encountered a communications error during the processing of a Pennsylvania Keystone Cash lottery game transaction. Due to that computer error, the game's Progressive Top Prize was reset to \$45,000 without a Progressive Top Prize winning ticket being purchased. The Lottery took corrective action to restore \$48,888.50 to the Progressive Top Prize amount, which represented the Progressive Top Prize accrual amount of \$0.15 per ticket sold (per the game rules as originally published at 47 Pa.B. 1240). Because of the error, the Lottery issues this notice of the reset of the Progressive Top Prize and the resulting changes to the number and approximate chances of winning a Progressive Top Prize. The corrected version of this document is as follows, with ellipses referring to the existing text as it appeared at 47 Pa.B. 1240—1244.

# INDEPENDENT REGULATORY REVIEW COMMISSION

## Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P.S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

### Department of Transportation Regulation # 18-466 (IRRC # 3166)

#### Vehicle Equipment and Inspection

May 24, 2017

We submit for your consideration the following comments on the proposed rulemaking published in the March 25, 2017 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P.S. § 745.5b). Section 5.1(a) of the RRA (71 P.S. § 745.5a(a)) directs the Department of Transportation (Department) to respond to all comments received from us or any other source.

#### 1. Determining if the regulation is in the public interest.

Section 5.2 of the RRA (71 P.S. § 745.5b) directs the Independent Regulatory Review Commission (Commission) to determine whether a regulation is in the public interest. When making this determination, the Commission considers criteria such as economic or fiscal impacts and reasonableness. To make that determination, the Commission must analyze the text of the Preamble and proposed regulation and the reasons for the new or amended language. The Commission also considers the information a promulgating agency is required to provide under Section 5 of the RRA (71 P.S. § 745.5(a)) in the Regulatory Analysis Form (RAF).

The Preamble included with this proposal is not sufficient enough to allow the Commission to determine if the regulation is in the public interest. While the Preamble provides a general overview of the changes made to the subchapters, it does not provide a rationale or detailed description for each section being amended. We ask the Department to provide a more detailed explanation of the intent of and need for all new language included in the rulemaking.

#### 2. Legislative Comment.

Representative William F. Keller, Democratic Chairperson of the Pennsylvania House of Representatives Transportation Committee, submitted comments requesting the Department add language that would allow an inspection station to verify electronic vehicle registrations when they become available. He also requests that §§ 175.28(a),

175.43 and 175.51(a)(2)(iii), in addition to any other relevant sections, be amended to allow an inspection station, as opposed to the safety inspector, to verify financial responsibility in an electronic format. We will review the Department's response to Representative Keller's comments as part of our consideration of the final regulation.

#### Subchapter A. GENERAL PROVISIONS

#### 3. Section 175.2. Definitions.—Clarity and lack of ambiguity; Consistent with statutes or existing regulations.

The Department is deleting the term "certified inspection mechanic" and replacing it with the term "safety inspector." The Preamble to the proposed regulation does not explain why the Department is making the change. The Department should explain the need and statutory basis for the proposed amendment and how it plans to make the regulation consistent with Title 75 Chapter 47 (relating to Inspection of Vehicle) which references the terms: mechanic, certified official inspection mechanic and certified inspection mechanic.

Similarly, there are sections and subchapters of Chapter 175 (relating to Vehicle Equipment and Inspection) that reference the term "mechanic" that are not part of this proposal. For instance, Section 175.29 Paragraph (7) and Subsection (e) Paragraph (2) reference the term "certified mechanic." Likewise "certified inspection mechanic" also appears in Subchapter K (relating to Street Rods, Specially Constructed and Reconstructed Vehicles). The Department should consider submitting a separate rulemaking to make consistent all the sections and subchapters of Chapter 175 with regard to terminology.

#### Subchapter B. OFFICIAL INSPECTION STATIONS

#### 4. Section 175.21. Appointment.—Clarity, feasibility and reasonableness; Economic or fiscal impact of the regulation.

The Department is amending Subsection (b) to require a station that is applying for reappointment after a suspension to enroll in the Department's e-Safety program prior to reappointment. A station must maintain its participation in the program as a condition of keeping its certificate of appointment. The Department does not provide a rationale for this amendment nor does it

include a description of the e-Safety program. As such, we have three questions:

- What is the e-Safety program?
- What are the costs/savings to station owners that enroll, either voluntarily or mandated, in the state's e-Safety program?
- What are the costs/savings to the Commonwealth to operate the e-Safety program?

The Department should provide a description and rationale for this amendment. The Department responded "N/A" to RAF # 23, which requests an estimate of the fiscal savings and costs associated with implementation and compliance for the regulated community, local and state governments. Based on our review of the e-Safety program, we learned that there is a management fee of 18 cents per transaction. Therefore, "N/A" is not an appropriate answer as it does not consider the costs to members of the regulated community mandated to enroll in the state's e-Safety program. The Department should report estimates of the costs associated with compliance of this section in RAF # 23 along with costs to the Commonwealth to operate the e-Safety program.

As we understand, one of the benefits of the e-Safety program is that it "eliminates the need to maintain or retain MV431 or MV480 record books." Since the e-Safety program is replacing manual forms with electronic records, the Department should revise its response to RAF # 22 and provide either a link, copies of the forms, or a detailed description of the information to be reported. Section 5(a)(5) of the RRA requires that copies of forms or reports be submitted along with the proposed regulation and the RAF.

The Pennsylvania Automotive Association (PAA) commented that requiring an electronic safety inspection program is appropriate when a station has been suspended, but opposes requiring the station to enroll in the state's e-Safety program indefinitely. PAA states there are a variety of providers that currently offer a compliant electronic safety inspection program that can provide assistance to a station after a suspension other than the state's e-Safety program. PAA suggests the language be amended to allow for the use of other electronic safety inspection programs and to set a limit for mandated enrollment to a period of at least two years. In light of the PAA's comments, we ask the Department to explain the rationale for this provision in the Preamble to the final-form regulation.

#### **5. Section 175.22. Making application.—Clarity.**

Subsection (b) Paragraph (4) is being amended to read that "cancellation of the bond or insurance shall automatically void the certificate of appointment. Inspections shall cease until the Bureau receives a new bond or proof of insurance and the station has applied for appointment."

We believe the proposed language does not clearly indicate that the applicant must also serve a mandatory 3 month suspension and enroll in the e-Safety program before they can be reappointed and resume inspections. In the final regulation, we suggest the Department reference §§ 175.21(b) and 175.51(4) "Category 4" new (x) in this section to make clear the Department's intent.

#### **6. Section 175.24. Required certificates and station signs.—Clarity, feasibility and reasonableness.**

In Paragraph (2) the Department is proposing to include "the electronic processing of inspection data" to the sign that stations must display regarding the fees associ-

ated with state inspection. What is "electronic processing of inspection data" and how is it calculated or determined? The Department should explain in the Preamble to the final-form regulation what this fee is and how station owners will calculate it.

#### **7. Section 175.25. Inspection area.—Clarity and lack of ambiguity.**

New language in Subsection (a) Paragraph (5) requires that work areas remain free of debris with the required tools easily accessible. Is a "work area" different than an "inspection area?" If they are two separate areas, the Department should make a clear distinction between the two areas. Otherwise it is difficult for the regulated community to know what required tools must be easily accessible in the work area. The Department should define "work areas" in the final-form regulation and include a list of required tools for the "work area" or state where the regulated community can obtain the list.

#### **8. Section 175.28. Certified [inspection mechanics] Safety Inspectors.—Clarity.**

The amendments to Subsection (a) relating to safety inspectors being able to test drive vehicles equipped with adaptive controls lacks clarity. What are the circumstances under which a safety inspector would not be allowed to perform the test drive? Does the new language apply only to mechanics with a physical disability? In situations where the vehicle has been deferred to the entity that installed the adaptive device, does that entity need to be authorized to perform state safety inspections? If not, what is the process by which the entity verifies that the vehicle has passed the test drive portion of the state safety inspection? The Department should explain how it plans to implement this provision.

### **Subchapter D. SCHEDULE OF PENALTIES AND SUSPENSIONS: OFFICIAL INSPECTION STATIONS AND CERTIFIED [MECHANICS] SAFETY INSPECTORS**

#### **9. Section 175.51. Cause for suspension.—Clarity, feasibility and reasonableness; Economic or fiscal impact of the regulation.**

In this section, the Department is proposing to significantly lengthen the duration of suspensions for certain violations and is adding three new types of violations to the schedule. In the Summary of Significant Amendments section of the Preamble, the Department does not provide a rationale for doubling or tripling the suspension time for certain violations and summarizes only two of the three new violations being added. The Department should provide the rationale and a complete summary of the proposed changes in the final version of the rulemaking.

PAA expressed concern that doubling or tripling suspensions for first-time violations could potentially put an inspection station out of business. It shares the same concern for the new violations being added to the schedule of penalties and suspensions. The PAA comments refer to Act 165 of 2016 (Act 165) which grants the Department greater flexibility in the types of sanctions it can impose on inspection stations and certified mechanics. Under Act 165, the Department may develop and implement a penalty schedule that would allow for the imposition of monetary penalties and warnings in lieu of suspensions when it deems them appropriate. We ask the Department to explain in the final-form regulation the rationale for increasing suspension times for certain offenses. The Department should also include whether it considered alternative sanctions such as monetary penalties as authorized by Act 165. If the Department consid-

ered and rejected other forms of sanctions in developing the schedule, it should revise its response to RAF # 26 to reflect that discussion.

### **Subchapter E. PASSENGER CARS AND LIGHT TRUCKS**

#### **10. Section 175.80. Inspection procedure.—Clarity and lack of ambiguity.**

Subparagraph (b)(1)(vi) is amended to read “The flexible steering coupler, rag joint, or universal/flex joint is badly misaligned, twisted or out of alignment between attaching collars.” The phrase “badly misaligned” was used in the original language and the Department is including it in its new language. How is “badly” measured? The same comment applies to Subparagraph (e)(3)(viii). The Department should revise the subparagraphs to establish standards that are measurable and easily understood by the regulated community and the public.

### **Subchapter G. RECREATIONAL, SEMI AND UTILITY TRAILERS**

#### **11. Section 175.130. Inspection procedure.—Clarity; Protection of the public health, safety and welfare.**

The Department is deleting the reference to proof of financial responsibility for recreational, semi and utility trailers as part of the external inspection procedure. The Department states that it is no longer a requirement. We ask the Department to provide an explanation for the proposed amendment in the Preamble to the final-form regulation.

#### **12. Miscellaneous.**

- The Department should review its responses to RAF # 24(c). We believe there is an error as the language refers to “hazardous materials” and “federal standards.” The Department should delete these references.

- § 175.29(a)(3) uses the phrase “certified safety inspector” which is redundant based on the definition of “safety inspector.” The Department should remove the term “certified” before the word “safety.”

- § 175.80(e)(6)(ix) reads “The catalytic converter has had an external repair, been removed, disconnected or has an external repair.” The Department should remove the redundant phrase from this sentence.

### **Environmental Quality Board Regulation # 7-529 (IRRC # 3162)**

#### **Gasoline Volatility Requirements**

**May 31, 2017**

We submit for your consideration the following comments on the proposed rulemaking published in the February 25, 2017 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

**Whether the regulation is consistent with the intent of the General Assembly; Possible conflict with or duplication of statutes; Protection of the public health, safety and welfare; Implementation procedures.**

Act 50 of 2014 amended the Air Pollution Control Act (35 P.S. §§ 4001—4106) to require the Department of Environmental Protection to:

Within sixty (60) days of the effective date of this clause, initiate the process of amending the State implementation plan. Upon approval of a revision which demonstrates continued compliance with Federal national ambient air quality standards through utilization of commensurate emission reductions by the Environmental Protection Agency, the board shall promulgate regulations to repeal the provisions of 25 Pa. Code Ch. 126 Subch. C (relating to gasoline volatility requirements).

35 P.S. § 4004(18.3).

This proposed rulemaking implements Act 50 of 2014 by deleting 25 Pa. Code Chapter 126, Subchapter C and four related definitions from 25 Pa. Code § 121.1, relating to definitions.

The Preamble to this proposal states that if the rulemaking is published as a final-form rulemaking, it will be submitted to the Environmental Protection Agency (EPA) for approval as a revision to the Commonwealth's State Implementation Plan (SIP). EQB's plan for implementation of Act 50 would appear to conflict with the legislative directive to promulgate the required regulations after approval of revisions to the Commonwealth's SIP by EPA.

Why is EQB proceeding with this proposal prior to securing approval of the Commonwealth's SIP revisions from EPA? How is this plan for implementation consistent with the intent of the General Assembly? If this proposal is published as a final-form rulemaking and the EPA does not approve revisions to the Commonwealth's SIP, would the health, safety and welfare of the citizens of the Commonwealth be adequately protected? In the Preamble to the final-form rulemaking, we ask EQB to provide an explanation for its implementation plan and why it believes it is consistent with Act 50.

## **PENNSYLVANIA INFRASTRUCTURE INVESTMENT AUTHORITY DEPARTMENT OF ENVIRONMENTAL PROTECTION**

### **Clean Water and Drinking Water State Revolving Fund Programs; Federal Fiscal Year 2017 Intended Use Plans; Public Meeting**

The Pennsylvania Infrastructure Investment Authority (PENNVEST) and the Department of Environmental Protection (Department) have prepared the Federal Fiscal Year (FY) 2017 Intended Use Plans (IUP). These IUPs

include a list of drinking water, wastewater treatment, nonpoint source and pollution abatement projects to be considered for a design and engineering or construction loan or grant from funds the Commonwealth expects to receive from the Federal FY 2017 Drinking Water State Revolving Fund (DWSRF) and Clean Water State Revolving Fund (CWSRF) programs.

In accordance with the United States Environmental Protection Agency (EPA) guidelines on the development of the IUPs, a public meeting has been scheduled for June 28, 2017, at 1:30 p.m. in the 2nd Floor Auditorium, Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA. This meeting is scheduled for the purpose of receiving comments from the public regarding the Federal FY 2017 IUPs. Interested persons are invited to express their views on the narrative portion of the IUPs, the DWSRF set-aside work plan or the priority rating or ranking of projects on the IUPs. Persons wishing to offer comments at the public meeting should contact the Division of Municipal Facilities at the address or telephone number listed at the end of this notice or by e-mail to [jaypatel@pa.gov](mailto:jaypatel@pa.gov) by 4 p.m. on June 27, 2017. When written statements are prepared and will be submitted at the meeting, speakers will be asked to restrict the oral portion of the statement to a summary of the written comments.

The projects to be considered for a loan or grant from the DWSRF and CWSRF programs must meet the Federal requirements for funding in accordance with the Federal Safe Drinking Water Act (42 U.S.C.A. §§ 300f—300j-27) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1388). Accordingly, the projects included in the IUPs are expected to meet the requirements applicable to the use of the DWSRF and CWSRF loan or grant funds. Projects listed in the FY 2017 IUPs are on these Commonwealth's Project Priority Lists (PPL) and are expected to proceed with design and engineering or construction within the next 2 years. A project must appear on a PENNVEST-approved IUP before it can receive a loan or grant from the State Revolving Fund programs. A project's readiness to proceed and the reasonable availability of alternative funds also have a bearing on project selection for the IUPs. Consequently, the rank ordered list of projects on the PPLs does not solely dictate the order in which projects will be chosen for inclusion in an IUP.

The DWSRF will be capitalized with an approximated maximum of \$31.8 million in Federal funds and \$6.6 million of State funds. Approximately \$8.6 million of these funds will be set aside for technical assistance to small systems, operator training and certification, and source water assessment and protection, as authorized under the Federal Safe Drinking Water Act. The DWSRF IUP also includes a narrative work plan that describes how these set-aside funds will be used. PENNVEST is also allocating an additional \$1.3 million for administrative purposes. Finally, an additional \$6.4 million must be set aside for additional subsidization to disadvantaged communities. The FY 2017 DWSRF grant does not have a requirement to set-aside funding for green infrastructure projects. However, the Commonwealth will continue to promote them. These projects can fall into one of four categories: (1) water efficiency; (2) energy efficiency; (3) environmentally innovative; and (4) green stormwater infrastructure and meet the EPA criteria for green infrastructure.

The CWSRF will be capitalized with an approximated maximum of \$63.5 million of Federal funds and approxi-

mately \$12.7 million of State funds. One million dollars will be set aside for program administration costs. Finally, an approximated maximum of \$15.8 million may be set aside for additional subsidization to disadvantaged communities and approximately \$5.3 million must be set-aside for green infrastructure projects that fall into one or more of the following categories: (1) water efficiency; (2) energy efficiency; (3) environmentally innovative; and (4) green stormwater infrastructure and meet the EPA criteria for green infrastructure.

It is not necessary to appear at the public meeting to present comments on the narrative portion of the IUPs, the set-aside work plan or the PPLs. Interested persons may also submit written comments to the Department through Monday, July 10, 2016. Commentators are encouraged to submit electronic comments using the Department's eComment site at [www.ahs.dep.pa.gov/eComment](http://www.ahs.dep.pa.gov/eComment). Written comments can be submitted by e-mail to [ecomment@pa.gov](mailto:ecomment@pa.gov) or by mail to the Policy Office, Department of Environmental Protection, Rachel Carson State Office Building, P.O. Box 2063, Harrisburg, PA 17105-2063. Use "Clean Water and Drinking Water State Revolving Funds" as the subject line in written communication.

Persons in need of accommodations as provided for in the Americans with Disabilities Act of 1990 should contact Jay Patel at (717) 705-4090 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users) to discuss how the Department may accommodate their needs.
