READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

GOVERNOR'S OFFICE

Amendment to Proclamation

June 11, 1998

Whereas, two severe weather systems that each included a series of confirmed tornadoes struck the Commonwealth on May 31, 1998 and June 2, 1998 and caused extensive damage to private homes, businesses, public infrastructure and posed other adverse impacts upon the general population of the Commonwealth; and

Whereas, due to the two severe weather systems and resultant extensive damage to many areas of the Commonwealth, I declared a State of Disaster Emergency in nine counties of the Commonwealth on June 2, 1998; and

Whereas, on June 3, 1998 and June 5, 1998, I amended my Proclamation of Disaster Emergency to add five additional counties to the previously designated disaster emergency area; and

Whereas, additional investigations have determined that the June 2, 1998 severe weather system caused isolated but serious damage to private homes, dairy farms, and a business in Susquehanna County to the extent that additional resources of the Commonwealth may be needed to assist county and municipal officials in Susquehanna County to mitigate and contend with the consequences of this disaster emergency.

Now Therefore, pursuant to the provisions of Subsection 7301(c) of the Emergency Management Services Code (35 Pa.C.S. Section 7101 et seq.), I do hereby amend my Proclamation of June 2, 1998, as follows:

The County of Susquehanna is now declared to be in a state of disaster emergency and is added to the previously designated disaster emergency area. This Proclamation Amendment shall take effect immediately.

Given under my hand and the Seal of the Governor, at the City of Harrisburg, this eleventh day of June in the year of our Lord one thousand nine hundred and ninety-eight and of the Commonwealth the two hundred and twenty-second.

Governor

PHILADELPHIA COUNTY

Protocol for Production of Expert Reports in Civil Case Programs; Administrative Doc. No. 03 of 1998

Order

And Now, this 2nd day of June, 1998 to assure uniform rulings with regard to the production of expert reports in cases governed by Case Management Order, the Court adopts the following protocol.

It has come to the Court's attention that certain counsel believe that the deadlines imposed by the Case Management Order set the time when expert reports or answers to expert interrogatories are due. Counsel have even argued that the Discovery Court has no authority to require earlier responses.

This is inaccurate. Pennsylvania Rule of Civil Procedure 4006(a)(2) reads: "The answering party shall serve a copy of the answers, and objections if any, within thirty days after the service of the interrogatories." No Case Management Order may contradict the Pennsylvania Rules of Civil Procedure requirements for the timing of discovery responses.

Day Forward Case Management has not changed longstanding Philadelphia Discovery Court practice or the authority of the presiding discovery judge. Discovery Court retains jurisdiction to enter discovery orders and counsel should file timely motions to compel discovery whenever necessary. The dates set forth in the Case Management Order are deadlines after which, in the absence of extraordinary circumstances, no new experts or theories can be identified.

The Bar should recall that the expert deadlines adopted in Day Forward Case Management are based upon the recommendations of the Bar Association. The Bar recommended that the defense expert report deadline should be one month after the deadline for plaintiff's expert report(s). This one month difference is a normal procedure for Federal Court litigation and is embodied in the Federal Rules of Civil Procedure.

Counsel may file a Motion to Compel answers to interrogatories whenever they are overdue. It should be understood, however, that the standard Case Management Order leaves to counsel the conduct of discovery. The court believes that in most cases judicial micromanagement of discovery should be unnecessary. Presenting a discovery motion demonstrates that independent management of discovery by counsel has proven inadequate.

When the Court is requested to enter an Order to require answers to expert interrogatories before the Case Management deadline, the Court should make inquiry as to what discovery is outstanding or needed before the "offending" party can reasonably provide expert reports. The Court may then enter Orders setting deadlines for the specific discovery needed to properly respond. The Court can then set a reasonable time for providing expert reports.

Of course, expert interrogatory answers or expert reports can be supplemented at any time before the deadline established by the Case Management Order. Counsel may consider filing summary judgment motions where no critical expert opinion has been provided. The dispositive motion deadline of the Case Management Order does not state that motions cannot be filed earlier.

The interpretative views expressed herein have been agreed to by all Civil Program Team Leaders and represents a uniform protocol to be followed in all Civil Case Programs governed by Case Management Orders.

This Administrative Docket is promulgated in accordance with the April 11, 1986 Order of the Supreme Court of Pennsylvania, Eastern District, No. 55, Judicial Administration, Docket No. 1, Phila. Civ. #51 and Pa.R.C.P. 239, and shall become effective immediately. Title 255—LOCAL COURT RULES

DAUPHIN COUNTY

Promulgation of Rules; No. 1793 S 1989

Order

And Now, this 10th day of June, 1998, it is hereby ordered that Dauphin County Local Rule of Civil Procedure 211 is amended as follows:

Rule 211. Argument Court.

A. Matters Considered

(1) Pre-trial matters, including preliminary objections, motions for summary judgment **and judgment** on the pleadings.

(2) Other matters, including petitions to open/strike judgment [**and zoning appeals**].

(3) Preliminary objections to the existence or exercise of jurisdiction or venue in any action brought under the Domestic Relations code (23 Pa.C.S.) shall be assigned to a judge for disposition in accordance with Dauphin County Local Rule of Civil Procedure 215.2.

B. Organization of the Court

(1) All matters for argument shall be heard by the court at the time scheduled on the court calendar for common pleas argument court. There shall be six argument courts in each calendar year, each of two days duration. The argument court shall be heard by a panel of three judges, with the senior judge on each panel presiding.

(2) After the last day to list cases for a session of argument court, the Prothonotary shall promptly deliver all papers to the Court Administrator's Office.

(3) **The panel shall hear only those cases where the briefs, record and other supporting documents demonstrate that argument before the panel is necessary to resolve the issue(s) before the court. All other cases shall be assigned to individual judges on the panel.**

[(3) **The Court Administrator's Office shall prepare an argument list which shall be available in that office at least 15 days prior to the call of the list.**]

(4) **The Court Administrator's Office shall prepare lists designating cases assigned to the panel and those assigned to an individual judge. The lists will be mailed to all counsel and will also be available in the Court Administrator's Office at least fifteen (15) days prior to the scheduled argument court session.**

[(4) **The call of the list by the presiding judge shall be at 9:00 a.m. on the Friday immediately preceding argument court. Cases not answered shall be presumed for argument.**]

C. Listing and Briefing Cases

(1) Moving party

(a) Within 20 days of the filing of any matter, the moving party shall file one original and three copies of a supporting brief together with affidavits, depositions, transcripts, or other supporting documents.

(b) The moving party shall serve copies of its brief on all opposing parties together with a notice to file a responsive brief within 20 days of service.

(c) Upon the failure of the moving party to timely file and serve its brief, the court may sua sponte, or upon petition of the opposing party, order the matter withdrawn with prejudice.

(2) Opposition Party

(a) Any party in opposition to the matter shall file one original and three copies of its responsive brief within 20 days of service of the moving party's brief. An additional copy shall be served on the moving party.

(b) If an opposition party fails to file and serve its brief within the time period required, the court may consider such failure to be a waiver of opposition and shall sua sponte, or upon petition of the moving party, either 1) grant the relief requested, so long as such action does not result in dismissal of the case; or 2) exclude the opposition party from oral argument.

(3) Any party may list a case for argument by the filing of a praecipe with the Prothonotary at least four weeks prior to the first day of any argument court session, and provided further that

(a) all briefs have been filed, or

(b) the opposition brief has not been timely filed.

(4) Any party listing a case for argument shall give written notice thereof to all other parties within two days. Failure to give such notice may be grounds for striking the case from the list.

D. General Provisions

(1) Upon agreement of counsel [**and with consent of the court**], cases [**on the argument court list**] may be submitted on briefs and determined by the court without oral argument. **The moving party shall notify the Court Administrator's Office of such agreement in writing no later than five days prior to the scheduled argument.**

(2) Briefs shall refer specifically to those portions of the record relied upon. When opinions or decrees of this court are cited, briefs shall set forth the Dauphin County Reporter citation, and note if appeals were taken.

[**3 The brief of the moving party shall contain a procedural history of the case, a statement of facts, a statement of questions involved, and argument. The brief of the opposing party need not contain a procedural history of the case. The brief of each party, if more than fifteen (15) pages in length, shall contain an Index and a Table of Citations of cases and statutes therein, with references to the page at which they appear in the brief.**]

(3)(a) **The brief of the moving party shall contain the following:**

(1)(i) **a concise statement setting forth the reasons why oral argument is necessary and whether the matter should be assigned to the panel or an individual judge for disposition; or (ii) a statement waiving oral argument;**

(2) **a procedural history of the case;**

(3) **a statement of facts;**

(4) **a statement of questions involved; and**

(5) **legal discussion.**

(b) The brief of the opposing party need not contain a procedural history of the case but may contain a concise statement setting forth why oral argument is necessary to resolve the issues before the court, and whether the matter should be assigned to the panel or to an individual judge for disposition.

(c) The brief of each party, if more than fifteen (15) pages in length, shall contain an Index and a Table of Citations of cases and statutes therein, with reference to the page at which they appear in the brief.

[(4) Reply briefs may be filed only with permission of the court.]

(4) The moving party may file an original and three copies of a reply brief within ten (10) days after service of the opposing party's brief. No further briefs may be filed without leave of court.

(5) Requests for findings of fact and exceptions to findings of fact in proceedings at law or in equity shall refer specifically to those portions of the record relied upon.

Comment

This revision is part of the Court's continuing effort to improve both allocation of argument/research time and the speed of dispositions. It will encourage the submission of matters on briefs, thus saving counsel's time. It will also enable the Court to focus its panel time on cases with novel, complex or dispositive issues.

Under this revision counsel may request oral argument but must delineate reasons therefor. The delineation is to be the first issue addressed in the brief. The delineation will assist counsel in focusing on whether oral argument is essential and whether a three judge panel's insight is necessary. It will also help the Court make its panel/individual judge assignment.

After the last day to list for a given session, the Court Administrator's Office will prepare lists as directed by the Court, scheduling cases for the panel session and the individual judge sessions. It is envisioned that the panel session will take place the first morning of the first day of argument, with the individual judges' sessions to take place in the afternoon and the following day, if necessary.

This revision also eliminates the call of the list, the Court having determined that the call has become an unnecessary imposition on counsel's and the Court's schedules. Counsel experiencing a problem can notify the Court Administrator's Office to arrange resolution thereof.

These amendments shall be effective thirty (30) days after publication in the *Pennsylvania Bulletin* and shall control the format of argument court sessions beginning September, 1998.

MUNICIPAL POLICE OFFICERS' EDUCATION AND TRAINING COMMISSION

[37 PA. CODE CH. 203]

Administration of the Program

Purpose

The purpose of these proposed amendments is to clarify and correct various aspects of the existing regulations. The following are the proposed amendments:

Amending § 203.11 (relating to qualifications) allows certified police officers and enlisted members of the State Police who are not currently employed as police officers 2 years to obtain employment as a police officer with another police department without going through the certification process provided the employment takes place within 2 years of the termination of police employment.

Deleting § 203.11(9)(ii)(F)(I) eliminates retesting.

Amending § 203.33(b)(1) (relating to minimum school standards and requirements) and § 203.36(5) (relating to revocation of school certification) will permit schools to

conduct only one basic recruit training class every 3 years instead of every year to retain school certification.

Adding § 203.83(a)(2) (relating to grants for nonmandatory in-service training programs) will allow law enforcement officers presently not eligible for reimbursement to attend nonmandatory training classes after paying tuition to the Municipal Police Officers' Education and Training Commission (Commission).

Effect

The impact of the proposed changes will affect both recruits and veteran police officers. Recruits will be required to be retrained at the school they presently attend. This will be a new policy put in effect. Also veteran officers will be able to change departments within 2 years of leaving a police department without having to meet the certification standards.

Allowing schools to conduct one class every 3 years puts less of a burden on those schools that cannot get enough recruits to hold a class every year.

Proposing to amend the certification section allows those individuals that leave a police department or the State Police 2 years from the date of departure to obtain another police position without going through the certification process. This proposed change will make the process used to change employment more consistent with other professions. This will save the Commission an enormous amount of time as far as processing applications.

By allowing law enforcement officers who are not eligible for reimbursement to attend nonmandatory in-service training classes after paying a tuition to the Commission those agencies will have better trained officers and be able to be trained along with municipal police officers.

Statutory Authority

The authority for this proposal is 53 Pa.C.S. Chapter 21, Subchapter D (relating to municipal police education and training).

Legal Issues

There are no legal issues involved with these proposed amendments.

Fiscal Impact

The proposed changes will have no additional fiscal impact on the Commonwealth.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on June 15, 1998, the Commission submitted a copy of these proposed amendments to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Judiciary Committee and the Senate Law and Justice Committee for review and comment. In addition to submitting these proposed amendments, the Commission has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Commission in compliance with Executive Order 1982-2 "Improving Government Regulations." A copy of this material is available to the public upon written request.

Under section 5(g) of the Regulatory Review Act, if IRRC has objections to the proposed changes it will notify the Commission within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed

procedures for review, prior to final publication of the amendments, by the Commission, the General Assembly and the Governor of objections raised.

Public Comment

Interested parties wishing to comment are invited to submit a written statement within 30 days of the publication of this notice in the *Pennsylvania Bulletin*. Each written statement must include the name, address and telephone number of the interested party and a concise statement with sufficient detail on the subject. Written statements may be directed to Major Richard C. Mooney, Executive Director, Municipal Police Officers' Education and Training Commission, 75 East Derry Road, Hershey, PA 17033, (717) 533-5987, Ext. 205.

STATE BOARD OF VETERINARY MEDICINE

[49 PA. CODE CH. 31]

Professional Conduct; Advertising

The State Board of Veterinary Medicine (Board) proposes to amend § 31.21, Principle 5 (relating to advertising), pertaining to necessary information when advertising emergency services, to read as set forth in Annex A.

A. Effective Date

The amendment will be effective upon publication of a final-form regulation in the *Pennsylvania Bulletin*.

B. Statutory Authority

The amendment is proposed under the dual authority of sections 5(1) and (2) of the Veterinary Medicine Practice Act (act) (63 P. S. § 485.5(1) and (2)). Section 5(1) of the act empowers the Board to adopt reasonable rules and regulations governing the practice of veterinary medicine necessary to enable it to carry out and make effective the purpose and intent of the act. Section 5(2) of the act empowers the Board to adopt rules and regulations of professional conduct appropriate to establish and maintain a high standard of integrity, skills and practice in the profession of veterinary medicine.

C. Background and Purpose

The purpose of the proposal is to amend Principle 5 of the Rules of Professional Conduct for Veterinarians pertaining to advertising, requiring that veterinarians advertising emergency or 24-hour veterinary services include in the advertisements the hours when services will be provided and whether a veterinarian is on the premises or on call.

The Rules of Professional Conduct for Veterinarians were amended at 24 Pa.B. 1481 (March 18, 1994). Since that date, the Board has received suggestions that it require advertisements for emergency or 24-hour veterinary care to specify the type of veterinarian availability provided to avoid client confusion. The Pennsylvania Veterinary Medical Association and Priority Veterinary Consultants advocate adoption of the proposed amendment.

The Board believes that veterinarians have a special professional responsibility when advertising the availability of emergency services which takes into account when clients are most likely to use advertising. First, except for teaching hospitals and clinics, veterinary establishments are the sole source of emergency treatment. Most establishments have arrangements for current clients. However, many owners may not be a client of a veterinary establishment, or may be out of the establishment's service area when an emergency arises. The Board believes that in many cases owners are able to assess the nature of the emergency and whether they should seek the services of a veterinarian who will be immediately available at the veterinary establishment. In the case of a life-threatening emergency, this information may be invaluable to the owner in evaluating the appropriateness of a facility. For these reasons, the Board believes that veterinarians should provide this information.

D. Description of Proposed Amendment

Principle 5 currently proscribes false and misleading conduct and contains guidelines for the use of testimonials and endorsements. It is amended to require veterinarians advertising emergency services or 24-hour veterinary services to include in the advertisements the hours when services will be provided and whether a veterinarian is on the premises or on call.

E. Compliance with Executive Order 1996-1

In accordance with the requirements of Executive Order 1996-1 (February 6, 1996), in drafting and promulgating the proposed amendment, the Board solicited input from the regulated community as well as the Pennsylvania Veterinary Medical Association, the Regional Veterinary Medical Associations, the Veterinary Technicians

and Assistants Association of Pennsylvania, the Animal Health Commission, the University of Pennsylvania and the Pennsylvania Association of Veterinary Technician Education. The Board reviewed and considered all comments in drafting the proposed amendment.

F. Fiscal Impact and Paperwork Requirements

The proposed amendment will have no fiscal impact on the Commonwealth or its political subdivisions. Veterinarians who advertise emergency services or 24-hour veterinary care may incur additional costs in amending their advertisements if the advertisements do not list the hours during which the emergency/24-hour services will be provided and indicate whether there is a veterinarian on premises or on call. These costs may ultimately be passed on to the public.

G. Sunset Date

The Board continually monitors its regulations. Therefore, no sunset date has been assigned.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on June 17, 1998, the Board submitted a copy of this proposed amendment to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. In addition to submitting the proposed amendment, the Board has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Board in compliance with Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

If IRRC has objections to any portion of the proposed amendment, it will notify the Board within 10 days of the close of the Committees' review period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the regulation, by the Board, the General Assembly and the Governor, of objections raised.

I. Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed amendment to Deborah B. Eskin, Board Counsel, State Board of Veterinary Medicine, P. O. Box 2649, 116 Pine Street, Harrisburg, PA 17105-2649, within 30 days of publication of this proposed rulemaking.

DEPARTMENT OF CONSERVATION AND NATURAL RESOURCES

Interagency Land Exchange between the Department of Conservation and Natural Resources and the Department of Transportation

The Department of Conservation and Natural Resources, acting through the Bureau of Forestry, and the Department of Transportation are proposing a mutual exchange of property in Tioga County. These transfers of lands are under that portion of the Route 15 limited access highway project between the summit of Bloss Mountain to a point just north of the Borough of Blossburg.

The Bureau of Forestry will relinquish to the Department of Transportation a total of 215.02 acres of the Tioga State Forest in Liberty, Bloss and Covington Townships, and the Borough of Blossburg, for the purposes of limited access and other related rights of way.

In return, the Department of Transportation plans to convey to the Bureau of Forestry six tracts in the Borough of Blossburg containing altogether approximately 251.35 acres of land. These properties are bounded substantially by existing State Forest holdings, the westerly right of way of the proposed limited access highway, and are intended to be administered as part of the Tioga State Forest.

As is the policy of the Department of Conservation and Natural Resources, the public is hereby notified of this exchange. A 30-day period for public inquiry and/or comment will be in effect commencing June 29, 1998 and ending July 28, 1998. Oral or written comments or questions concerning this proposed exchange may be addressed to: Dr. James R. Grace, State Forester, Pennsylvania Bureau of Forestry, P. O. Box 8552, Harrisburg, PA 17105-8552; telephone (717) 787-2703. These oral and/or written comments will become part of the official document used in the final decision process.

If, in the duration of the 30-day comment period, a significant amount of public concern develops, the Secretary of the Department of Conservation and Natural Resources may schedule a public informational hearing.

Pennsylvania Rivers Conservation Registry

The Department of Conservation and Natural Resources (DCNR), Bureau of Recreation and Conservation has approved the: "Youghiogheny River Conservation Plan" (prepared for the river segment from Connellsville to the confluence with the Monongahela River at McKeesport) and is placing this segment of the Youghiogheny River, and the portion of its tributaries studied in the plan, on the Pennsylvania Rivers Conservation Registry (Registry).

On June 3, 1998, the Regional Trail Corporation submitted the Youghiogheny River Conservation Plan and other required information to gain Registry status.

After review of the Plan and the other information, the DCNR has determined that PA Rivers Conservation Program requirements have been satisfied and places the following on the Registry:

- A segment of the Youghiogheny River extending from Connellsville to its confluence with the Monongahela River, at McKeesport:
- A corridor extending from 1 mile east from the river's east bank to 1 mile west of its west bank.
- The portion of all tributary streams within the river corridor.

This action becomes effective June 27, 1998. Projects identified in the Youghiogheny River Plan become eligible for implementation, development or acquisition grant funding through the PA Rivers Conservation Program.

A copy of the Final Plan is available for review at:

HAZARDOUS SITES CLEAN-UP

Under the Act of October 18, 1988

Hanover Scrap Quarry Conewago Township, Adams County

The Department of Environmental Protection (DEP) under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.102—6020.1303) (HSCA) is initiating an interim response at the Hanover Scrap Quarry Site in Conewago Township, Adams County, Pennsylvania.

Hanover Scrap Quarry is a 5-acre site located along Narrow Drive 1/2 mile from Route 194 near the village of Mount Pleasant. The site is situated in a rural area that is predominately residential and agricultural. The former quarry occupies 1 acre of the site.

The site operated as a quarry during the 1940s and later was used as an unregulated dumping area for industrial and municipal wastes until the 1970s when the pit was completely filled. In 1987 homes using wells with contaminated groundwater were provided public water by the estate of the property owner (Estate). The quarry was determined to be the source of volatile organic compounds (VOCs) which contaminated the groundwater. In 1992, the Estate, under a Consent Decree and Order with DEP removed 200 abandoned drums of waste from the site. Sampling by DEP in 1993 showed metals contamination of site soils to be above health based risk levels.

DEP determined that an interim response is necessary to protect the public health and safety. Two alternatives were considered:

- No action, which would allow contaminated soils to remain in place.
- The removal of soils above health based risk levels and arranging for the treatment and/or disposal of these soils at a permitted facility.

DEP determined that the no action alternative would not be protective of human health and the environment since the risk of contact with contaminated soils would remain.

DEP is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)) and the publication of this notice starts the administrative record period under HSCA. The Administrative Record which contains information about this site and which supports DEP's decision to perform this action at the site is available for public review and comment. The Administrative Record can be examined from 8 a.m. to 3:30 p.m. at DEP's office at 909 Elmerton Avenue, Harrisburg, PA 17110, by contacting Barbara Faletti at (717) 705-4864. The Administrative Record can also be

reviewed at the Hanover Public Library, 2 Library Place, Hanover, PA during normal operating hours.

The Administrative Record will be open for comment from the date of publication of this notice in the *Pennsylvania Bulletin* and will remain open for 90 days. Persons may submit written comments regarding this action to DEP before September 25, 1998, by mailing them to Barbara Faletti at the DEP office at 909 Elmerton Avenue, Harrisburg, PA 17110-8200.

The public will have an opportunity to present oral comments regarding the proposed action at a public hearing. The hearing has been scheduled for Thursday, July 30, 1998, at 7 p.m. at the Hanover Borough Office Building, 44 Frederick Avenue, Hanover, PA. Persons wishing to present formal oral comment at the hearing should register before 4 p.m., July 24, 1998, by calling Mary Ann Fischer at (717) 705-4703.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should call Mary Ann Fischer at (717) 705-4703 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how DEP may accommodate their needs.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department must provide a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, please contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR POLLUTION

Notice of Plan Approval and Operating Permit Applications

Non-Major Sources and Modifications

The Department of Environmental Protection (Department) has developed an integrated plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequent prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If Department

schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the act.

Notice of Intent to Approve

Plan Approval Application #11-005B

Notice is hereby given, under 25 Pa. Code § 127.44, that the Department of Environmental Protection (Department) intends to issue a Plan Approval to **Bar Technologies, Inc.** to modify the existing caster equipment to produce leaded steel grades on the continuous caster. This will also include the installation of air cleaning equipment (baghouse) specifically for leaded steel production. Bar Technologies, Inc. (1001 Main Street—Gate 3 Johnstown, PA 15909) is located at Franklin Borough, **Cambria County**.

The proposal is to manufacture leaded steel instead of carbon steel and may result in the emission of lead and lead compounds of less than 2.37 pounds per hour and 3,000 pounds per year.

Copies of the application, Department's analysis and other documents used in evaluation of the application are available for public inspection during normal business hours at the address below.

In order to assure compliance with all applicable standards, Department proposes to place the following conditions on the Plan Approval:

General Conditions

3. This plan approval is for the modification of the continuous billet/bloom caster and for installation of a baghouse and a ventilation system on the caster by Bar Technologies, Inc. at their Johnstown facility in Franklin Borough, Cambria County. This is in accordance with 25 Pa. Code § 127.32.

4. The facility's potential to emit and annual allowable emission rates are established based on a maximum steel-making rate of 1.2 million tons per year in accordance with 25 Pa. Code § 127.12b.

5. The maximum caster production rate for all steels shall not exceed 5,200 tons per day and 1.2 million tons per year in accordance with 25 Pa. Code § 127.12b.

6. The new caster baghouse shall be constructed as stated in the application. The baghouse shall be equipped

with Gortex membrane felted polyester bags (or equipment) in accordance with 25 Pa. Code § 127.25 and § 127.1.

7. Particulate Matter < 10 microns (PM-10) emissions from the caster baghouse shall not exceed an outlet grain loading of 0.003 gr/dscf. Lead and lead compound emissions shall not exceed 0.0025 gr/dscf, 2.37 lbs/hr, and 3,000 pounds per year in accordance with 25 Pa. Code § 127.12b and § 127.25.

8. A mechanical or electrical interlock shall be installed to prevent lead from being fed to the caster if the baghouse is not operating in accordance with 25 Pa. Code § 127.12b.

9. The two bay doors nearest the caster torch cutting station shall remain fully closed when leaded steel is being produced in accordance with 25 Pa. Code §§ 127.123.1 and 127.12b.

10. Visible emissions from the continuous caster baghouse shall not equal or exceed 10% opacity in accordance with 25 Pa. Code §§ 127.1 and 127.12b.

11. There shall be no fugitive emissions present from this facility in accordance with 25 Pa. Code §§ 123.1 and 127.12b.

12. The owner/operator shall perform stack testing for particulate matter (as PM-10) and for lead and lead compound emissions in accordance with 25 Pa. Code Chapter 139 regulations and the Department's source testing manual. Section 6.1 of the Clean Air Act and 25 Pa. Code § 127.12b.

13. The stack test shall be performed while the continuous billet/bloom caster is operating at the maximum normal casting and lead injection rate. If stack testing is performed while the caster is operating at a lower casting rate or lower lead injection rate, then production shall be limited to the levels at which compliance has been demonstrated. Section 6.1 of the Clean Air Act and 25 Pa. Code § 139.11.

14. Two copies of a pretest protocol shall be submitted to the Department for review at least 60 days prior to the performance of the stack test in accordance with 25 Pa. Code § 139.2.

15. The Department shall be notified at least 2 weeks prior to the stack test of the date and time of the test so that an observer may be present in accordance with 25 Pa. Code § 139.2.

16. Two copies of the stack test results shall be supplied to the Department for review within 60 days of completion of testing in accordance with 25 Pa. Code § 139.2.

17. The Department may revise the allowable emission rates based on the results of the stack tests in accordance with 25 Pa. Code §§ 127.1 and 127.12b.

18. The owner/operator shall install, maintain and operate the caster baghouse and the caster ventilation system in accordance with manufactures specifications and in accordance with good air pollution control practices. This shall be done in accordance with 25 Pa. Code § 127.25.

19. A daily log shall be kept of all material throughput (lead and non-leaded steel production). This file shall be maintained for a period of not less than 2 years and shall be made available to the Department upon request in accordance with 25 Pa. Code § 127.12b.

20. A monthly log shall be kept of all lead used in the production of this leaded steel in accordance with 25 Pa. Code §§ 127.12b and 127.12a.

21. The baghouse and the caster ventilation system must operate at all times when leaded steel is being produced in accordance with 25 Pa. Code § 127.12b and § 127.25.

22. The owner/operator shall maintain spare bags in accordance with the manufactures recommendation to insure adequate maintenance of the air cleaning device in accordance with 25 Pa. Code § 127.25.

23. This Plan Approval authorizes temporary operation of the source covered by this Plan Approval provided the following conditions are met. In accordance with 25 Pa. Code § 127.12b.

a. The Department must receive written notice from the owner/operator of the completion of construction and the operator's intent to commence operation at least 5 working days prior to the completion of construction. The notice should state when construction will be completed and when operator expects to commence operation.

b. Operation is permitted only to facilitate the start-up and shake-down of sources and air cleaning devices, to permit operations pending the issuance of an Operating Permit or to permit the evaluation of the sources for compliance with all applicable regulations and requirements.

c. This condition authorizes temporary operation of the sources for a period of 180 days from the date of commencement of operation, provided the Department receives notice from the owner/operator under subpart (1), above.

In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 4

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 §§ 6026.101—6026.908) and Chapter 250 Administration of Land Recycling Program

Provisions of 25 Pa. Code § 250.8 Administration of Land Recycling Program requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the Act 2 (Land Recycling and Environmental Remediation Standards Act) remediation standards. Plans and reports required by provisions of Act 2 for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report, and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of reuse of the property, and in some circumstances, a rate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in

environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, please contact the Environmental Cleanup Program in the Department's Regional Office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

DEPARTMENT OF HEALTH

Laboratories Approved to Determine Blood Alcohol Content Under the Clinical Laboratory Act, the Vehicle Code, the Fish and Boat Code and the Game and Wildlife Code

The following laboratories are licensed by the Department of Health under the Clinical Laboratory Act (35 P. S. §§ 2151—2165) and are currently approved by the Department under 28 Pa. Code §§ 5.50 and 5.103 (relating to approval to provide special analytical services; and blood tests for blood alcohol content) to perform alcohol analyses of blood and/or serum and plasma. This approval is based on demonstrated proficiency in periodic tests conducted by the Department's Bureau of Laboratories. Since procedures for determining the alcohol content of serum and plasma are identical and results obtained from serum or plasma derived from a blood sample are the same, laboratories that demonstrate reliability in the analysis of serum proficiency testing specimens are approved to analyze both serum and plasma. These laboratories are also approved and designated under the provisions of the Vehicle Code, 75 Pa.C.S. §§ 1547 and 3755 (relating to chemical testing to determine amount of alcohol or controlled substance; and reports by emergency room personnel), the Fish and Boat Code, 30 Pa.C.S. § 5125 (relating to chemical testing to determine amount of alcohol or controlled substance) and the Game and Wildlife Code, 34 Pa.C.S. § 2502, (relating to hunting or furtaking under the influence of alcohol or controlled substance) as qualified to perform the types of specialized services which will reflect the presence of alcohol in blood and/or serum and plasma. Laboratories located outside this Commonwealth may not provide blood and/or serum and plasma alcohol testing services in Pennsylvania unless they are specifically licensed by the Department under the Clinical Laboratory Act.

Persons seeking forensic blood and/or serum and plasma analysis services from the following designated laboratories should determine that the laboratory employs techniques and procedures acceptable for forensic purposes, and that the director of the facility is agreeable to performing determinations for this purpose. The list of

approved laboratories will be revised semiannually and published in the *Pennsylvania Bulletin*.

The Department's blood alcohol and serum/plasma alcohol proficiency testing programs are approved by the United States Department of Health and Human Services (HHS) in accordance with the requirements contained in the Clinical Laboratory Improvement Amendments of 1988 (42 CFR 493.901 and 493.937) which are administered by the Health Care Financing Administration (HCFA). Participation in these programs may therefore be used to demonstrate acceptable performance for approval purposes under both Federal and Commonwealth statutes.

Questions regarding this list should be directed to Dr. M. Jeffery Shoemaker, Division of Chemistry and Toxicology, Department of Health, Bureau of Laboratories, P. O. Box 500, Exton, PA 19341-0500, (610) 363-8500. Persons with a disability may submit questions to Dr. Shoemaker in alternative formats, such as by audio tape, braille or using TDD: (717) 783-6514. Persons with a disability who require an alternative format of this document (for example, large print, audiotape, braille), should contact Dr. Shoemaker so that he may make the necessary arrangements.

The symbols S and B indicate the following:

S = approved for serum and plasma analyses

B = approved for blood analyses

SB = approved for serum, plasma and blood analyses

DEPARTMENT OF PUBLIC WELFARE

Availability of the Welfare-to-Work Program Plan

The Department of Public Welfare (Department) is making available to the public The Welfare-to-Work Program Plan, which will become an addendum to the Temporary Assistance for Needy Families State Plan (TANF). This document describes how the Department plans to use the Welfare-to-Work formula grant provided under Title IV, Part A of the Balanced Budget Act of 1997.

The Department is making the plan available throughout this Commonwealth to allow comments on the Welfare-to-Work Program Plan as encouraged by the Federal Planning Guidelines for the Welfare-to-Work Program. Nevertheless, the Department must submit the document by June 30, 1998 to meet the imposed United States Department of Labor deadline.

The Department has developed the Welfare-to-Work Plan in coordination and consultation with a wide array of agencies that are involved in providing services to recipients of TANF. These agencies include the Departments of Public Welfare, Labor and Industry, Education, Community and Economic Development, Aging and, particularly, the Job Training Partnership Act Service Delivery Areas.

The Department anticipates full implementation beginning in September 1998. The Department may submit amendments to the plan based upon public comment received.

Persons who want copies of the plan can obtain them either by contacting their local Private Industry Council or by calling (717) 787-8613.

Public comments can be made up to 30 days from the date of this notice by writing to David C. Florey, Director; Bureau of Employment and Training Programs; Office of Income Maintenance; Room 428 Health and Welfare Building; Harrisburg, PA 17120.

Secretary

Income Limits for the Subsidized Child Day Care Program

The Department of Public Welfare (Department) increases the income limits codified at 55 Pa. Code § 3040.62(c), § 3040.63(a)(4), (b), and (c), and § 3040 Appendix B effective July 1, 1998. Based on the increased

income limits, the Department of Public Welfare has also revised Appendix C, reference companion to Appendix B and Fee Formula—Statement of Policy.

The regulation at 55 Pa. Code § 3040.62(c) establishes the Department's requirement to update the income conversion charts located at 55 Pa. Code Chapter 3040 Appendix B and the companion Fee Schedule in Appendix C. Appendices B and C are being revised to reflect the changes in the Federal Poverty Income Guidelines (FPIG) which establish the annual income guidelines for the subsidized child day care program. As per § 3040.63, effective July 1, 1998, the income guidelines will be increased due to the increase in the FPIG. These changes will be used when the eligibility agent determines eligibility and establishes a weekly family fee. The Fee Schedule is adjusted to reflect the increases in the income guidelines. Appendix B establishes the income limit of 235% of the FPIG to be used to establish a family's eligibility.

Appendix B also establishes the family fee levels according to the family's computed annual income and the family's priority for service in comparing the computed family income to the percentage of the FPIG. Appendix C lists the weekly family fee based on the annual family income.

Under 55 Pa. Code § 3040.62(c), the Department revised the income limits for the subsidized child day care program effective July 1, 1998. Those limits and corresponding fees are set forth in Appendices B and C which are recommended for codification in 55 Pa. Code Chapter 3040.

FEATHER O. HOUSTOUN,
Secretary

Inpatient Hospitals Qualifying for Medical Assistance (MA) Disproportionate Share Payments for the Period July 1, 1997 through June 30, 1998

On July 1, 1988, the Department of Public Welfare (Department) implemented a disproportionate share payment system. Under Pennsylvania regulations, the Department is required to annually publish the names of each inpatient acute care general hospital, psychiatric unit and rehabilitation unit of acute care general hospitals, rehabilitation hospital, and private psychiatric hos-

pital qualifying for a disproportionate share payment and their respective disproportionate share payment percentage.

A. Disproportionate Share for Acute Care General Hospitals, Rehabilitation Hospitals and Private Psychiatric Hospitals.

The following lists identify the inpatient acute care general hospitals, psychiatric units and rehabilitation units of acute care general hospitals, rehabilitation hospitals and private psychiatric hospitals eligible for payment period July 1, 1997 through June 30, 1998, disproportion-

ate share payments and their respective payment percentages. For all inpatient facilities, disproportionate share payments are calculated as a percentage of projected MA inpatient income.

Payment period July 1, 1997 to June 30, 1998, disproportionate share payment percentages.

B. Additional Disproportionate Share Payments

Additional disproportionate share payments are made to inpatient facilities, with a Medicaid inpatient utilization rate of not less than 1%, which have provided

services to persons who have been determined to be low income by meeting the income and resource standards for the State's general assistance program.

The payment adjustments are paid directly proportional to the payment received for either general assistance recipients for all hospital services or Title XIX recipients age 21—64 for services rendered by institutions for mental diseases under the fee-for-service and capitation programs.

These are the Pennsylvania hospitals eligible for this payment adjustment.

Payments to Nursing Facilities; 1998-1999 Proposed Rates

The purposes of this notice are to announce proposed changes in payment rates for nursing facilities beginning July 1, 1998, and to identify the methodology and justification for these proposed rates. Under 42 U.S.C.A. § 1902(a)(13)(A), as amended by section 4711 of the Balanced Budget Act of 1997, P.L. 105-33, § 4711, a State must use a public process when it proposes to make changes in payment rates or payment methodologies for nursing facility services under its approved Title XIX State Plan. The Department is not proposing to amend its State Plan or to change its regulations, 55 Pa. Code Chapter 1187, relating to the rate-setting methodology used to set nursing facility payment rates. Rather, the Department is proposing to make changes in its nursing facility payment rates because those rate changes are required by the rate-setting methodology contained in its approved State Plan and regulations.

Rates

The proposed July 1, 1998 rates are available through the Bulletin Board System (BBS) at 1 (800) 833-5091, at the local County Assistance Offices throughout the Commonwealth, or by contacting Connie Pretz in the Policy Section of the Bureau of Long Term Care Programs at (717) 772-2570.

Methodology

The methodology that the Department used to set the proposed rates is contained in 55 Pa. Code Chapter 1187, Subchapter G (relating to rate setting) and the Commonwealth's approved Title XIX State Plan.

Justification

The justification for the proposed rates is that they were set under the rate-setting methodology required by the Commonwealth's approved State Plan and the current regulations.

Nursing facility trade associations have expressed concern to the Department regarding the impact of the Minimum Data Set (MDS) 2.0, the Federally-approved instrument used to assess the physical, mental and psychosocial condition of nursing facility residents, on the case-mix indices (CMIs) used to establish the proposed rates. The Department is evaluating the actual impact of the MDS 2.0 on rates and will determine whether payment adjustments are necessary and appropriate to address any significant decreases in overall nursing facility payment rates resulting from a decline in CMIs.

The estimated decrease in annual aggregate expenditures for Medical Assistance nursing facility services for FY 1998-1999 based on these proposed rates is \$12.330 million (\$5.712 million in State funds).

Interested persons are invited to submit written comments about the proposed rates to the Department within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Comments should be addressed to: Department of Public Welfare, Office of Medical Assistance Programs, Attention: Suzanne Love, Room 515 Health and Welfare Building, Harrisburg, PA 17120, (717) 787-1870.

Persons with a disability may use the AT&T Relay Services by calling (800) 654-5984 (TDD Users) or (800) 654-5988 (Voice Users). Persons who require another alternative should contact Thomas Vracarich in the Office of Legal Counsel at (717) 783-2209.

FEATHER O. HOUSTON,
Secretary

Fiscal Note: 14-NOT-174. No fiscal impact; (8) recommends adoption.

The first copy of the Letter of Interest and required information must be submitted to: Mr. Charles W. Alwein, P.E., Chief, Consultant Selection Committee, 7th Floor, Forum Place, 555 Walnut Street, P. O. Box 3060, Harrisburg, Pennsylvania 17105-3060. Note: The Zip Code for express Mailing is 17101-1900.

The Letter of Interest and required information must be received within twenty (20) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 p.m. prevailing time of the twentieth day.

The second copy of the letter of interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm, or corporation may do so as part of a Joint Venture with an individual, firm, or corporate which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WEBs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act, WEBs or combinations thereof.

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm

fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information *must be* packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organizational Chart (one page, one side, maximum size 11" x 17")

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team).

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project.

Under Item 4 of this form, Column A must specify only the number of subconsultant personnel and Column B must specify only the number of prime consultant personnel to be assigned to work on this project reference number. Do not include the total personnel for either the subconsultant or prime consultant under Item 4 unless the total personnel are necessary to provide the required work and services.

The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire" A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for

the prime and each subconsultant/subcontractor is on file in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (For Construction Inspections Services, if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Accountant must be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the

right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

At its April 1998 meeting, the Fish and Boat Commission (Commission) approved guidelines with regard to encouraging public participation on possible changes to the designation of stream sections or lakes for special regulation programs. Under 58 Pa. Code Chapter 65, the Commission designates certain streams, stream sections and lakes as being subject to special fishing regulations. These designations are effective after Commission approval when they are posted at the site and a notice is published in the *Pennsylvania Bulletin*. Under the new guidelines, a notice concerning the proposed designation or redesignation of a stream section or lake under special regulations ordinarily will be published in the *Pennsylvania Bulletin* before the matter is reviewed by the Commissioners.

At the next Commission meeting on July 18 and 19, 1998, the Commission will consider designating or redesignating the following stream sections or lakes as waters subject to special fishing regulations under 58 Pa. Code Chapter 65, effective January 1, 1999:

<i>County</i>	<i>Water on which located</i>	<i>Description</i>
Somerset and Fayette	Youghiogheny River	3.5 mile section from the confluence of Ramcat Run downstream to the pipeline crossing at the confluence of Lick Run

Concurrent with its consideration of adding this stream section to the All-Tackle Trophy Trout Program, the Commission will consider amending 58 Pa. Code § 65.24 to delete the section from miscellaneous special regulation.

58 Pa. Code § 65.6. Delayed Harvest Artificial Lures Only Areas.

The Commission will consider designating the following waters as regulated and managed under the Delayed Harvest Artificial Lures Only Program and adding them to the list of waters subject to this regulation (58 Pa. Code § 65.6):

STATE TAX EQUALIZATION BOARD

Common Level Ratios

The State Tax Equalization Board (Board) has established a Common Level Ratio for each county in the Commonwealth for the calendar year 1997. The ratios were mandated by Act 267-1982.

The law requires the Board to use statistically acceptable techniques, to make the methodology for computing ratios public and to certify, prior to July 1, the ratio to the Chief Assessor of each county each year.

The statistical technique which the Board used for the 1997 Common Level Ratio is to determine the arithmetic mean of the individual sales ratios for every valid sale received from the county for the calendar year 1997.

The methodology used is to include every valid sale with a ratio from 1% to 100% and compute a mean. Using this mean as a base, the Board has defined high and low limits by multiplying and dividing this computed mean by 4. Using these computed limits, the Board has utilized the valid sales, rejecting those sales which exceed the limits. The resulting arithmetic mean ratio is the ratio which the Board is certifying as the Common Level Ratio for each county for 1997.

There is one exception to this procedure. The original mean ratio for those counties which have a predetermined assessment ratio for 1997 of 100% will utilize valid sales from 1% to 200%.

GET A STEP AHEAD IN COMPETING FOR A STATE CONTRACT!

The Treasury Department's Bureau of Contracts and Public Records can help you do business with state government agencies. Our efforts focus on guiding the business community through the maze of state government offices. The bureau is, by law, the central repository for all state contracts over \$5,000. Bureau personnel can supply descriptions of contracts, names of previous bidders, pricing breakdowns and other information to help you submit a successful bid on a contract. We will direct you to the appropriate person and agency looking for your product or service to get you "A Step Ahead." Services are free except the cost of photocopying contracts or dubbing a computer diskette with a list of current contracts on the database. A free brochure, "Frequently Asked Questions About State Contracts," explains how to take advantage of the bureau's services.
