READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Rule 1019. Contents of Pleadings. General and Specific Averments.

(h) (1) [A pleading shall state specifically whether any claim or defense set forth therein is based upon a writing.] When any claim or defense arises from an agreement, the pleading shall state specifically whether the agreement is oral or written.

Title 249—PHILADELPHIA RULES

PHILADELPHIA COUNTY

Procedure for Requesting Judicial Discharges of Dependency Cases under DHS Commit

On occasion, situations arise prior to a next court date wherein Counsel for any party or Social Worker within the Department of Human Services (DHS) learns of a major change with regard to a juvenile which he/she feels requires the immediate discharge of a DHS commit. If it is a DHS Social Worker he/she documents the facts in the case and immediately takes this information directly to a City Solicitor or, if unavailable, a Representative of the DHS Court Unit. If it is presented to a Representative of the DHS Court Unit first, it is taken directly by that Representative to the City Solicitor for presentation of the problem.

After hearing the information presented by the attorney, private party, DHS Social Worker or Representative of the DHS Court Unit, either attorney may make the determination as to whether to prepare an Order and Stipulation for Discharge of the DHS Commitment (With or Without Supervision) for presentation to the Judge.

Once the Order for Discharge of the DHS Commitment (With or Without Supervision) is drawn up, the attorney who prepares the Order will notify and acquire the signatures on the Order for Discharge of the DHS Commitment (With or Without Supervision) of all parties stipulating to the agreement prior to presenting the Order to the Judge. Any party stipulating to the agreement may designate counsel to sign his/her signature on the agreement. In this case, the Counsel is to sign his/her clients name then apply his/her initials directly following the signature of the party designating his/her approval. If any party does not Stipulate to the Agreement, Counsel may submit a Motion for relisting as soon as possible to Dependent Court Operations.

Upon completion of obtaining all the signatures necessary for Stipulation to the above Order, the attorney who prepared the Order will walk the Order for Discharge of the DHS Commitment (With or Without Supervision) into the assigned Judge's Courtroom for presentation of the problem to the assigned Judge for consideration.

If the Judge agrees and signs the *Order to Discharge the DHS Commitment (Without Supervision)*, Counsel will take the Order immediately to Dependent Court Operations (DCO) and time/date stamp the Order. The Order will then be presented to the DCO Clerk assigned to that specific Courtroom or his/her Supervisor, who will pull the Juvenile's petition, enter the Order for *Discharge of*

the *DHS Commitment/Discharge DHS Petition* into the juvenile's petition, update the computer, and archive the petition.

If the Order is for *Discharge of the DHS Commitment With Supervision* Counsel will take the Order immediately to Dependent Court Operations (DCO) and time/date stamp the Order. The Order will then be presented to the DCO Clerk assigned to that specific Courtroom or his/her Supervisor who will pull the Juvenile's petition, enter the Order Discharging the DHS Commitment with DHS to Supervise, update the computer, and file the petition back in the date given for review by the Judge at the last hearing.

Prior to archival or filing in the next court date, the Dependent Court Operations (DCO) Clerk or his/her Supervisor will also copy and distribute the Order for Discharge of the DHS Commitment to all parties Stipulating to the Agreement.

This protocol for Discharge of Commitment to the Department of Human Services (With or Without Supervision) is effective as of July 3, 2000.

The following tables identify each school and grade level in those districts on the Empowerment List and the Empowerment District in which 50% or more of the students scored in the bottom group of the 2-year average PSSA Math and Reading scores.

**LAND RECYCLING AND
ENVIRONMENTAL REMEDIATION**

Under Act 2, 1995

Preamble 1

Acknowledgment of Notices of Intent to Remediate submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to

publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background standard, Statewide health standard, the site-specific standard, or who intend to remediate a site as a special industrial area, must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known suspected contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one, or a combination of the cleanup standards, or who receives approval of a special industrial area remediation identified under the act, will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(l)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following sites proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Notice of Plan Approval and Operating Permit Applications

Nonmajor Sources and Modifications

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities. Although the sources covered by these applications may be located at a major facility, the sources being installed or modified do not trigger major new source review or prevention of significant deterioration requirements.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the Regional Offices identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to file protests or comments on the proposed plan approval and/or operating permits must submit the protest or comment within 30 days from the date of this notice. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Any comments or protests filed with Department Regional Offices must include a concise statement of the objections to the issuance of the plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act and regulations adopted under the act.

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

These NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition, more restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

HAZARDOUS SITES CLEANUP

Under the Act of October 18, 1988

Public Notice of Proposed Consent Order and Agreement

Sandy Lake Asbestos Site

Stoneboro Borough, Mercer County

Under section 1113 of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1305) (HSCA), the Department of Environmental Protection (Department) has

agreed to a de minimis Consent Order and Agreement (Agreement) with the Lakeside Park Company, Robert R. Gillette, Bessie G. Gillette, the Estate of Homer B. Widell (Julie M. Widell, Executrix) (collectively, referred to as Lakeside) and the Sandy Creek Conservancy (Conservancy), concerning the resolution of Lakeside's liability for the Sandy Lake Asbestos Site (Site). The Site is located on a 31.75-acre parcel between the former Penn Central Railroad Line and Route 845 in Stoneboro Borough, Mercer County, PA.

In the past, asbestos containing wastes were disposed at the Site and this waste contaminated the environment at the Site. Asbestos is defined in section 103 of HSCA (35 P. S. § 6020.103) as a "hazardous substance." The Department expects to incur approximately \$350,000 to remove the asbestos wastes for proper disposal off-site. As owners of the Site during the time of the release and threatened release of hazardous substances at the Site, the members of Lakeside are each a "responsible person" as defined in section 103 of HSCA. Under the terms of the Agreement, Lakeside shall donate the 31.75-acre parcel that contains the Site to the Conservancy for public benefit in perpetuity.

The Department anticipates that it will remove the asbestos wastes from the Site during the summer of 2000. This response will help mitigate the threat to human health and the environment posed by the asbestos wastes there.

The specific terms of this settlement are set forth in the Agreement with Lakeside and the Conservancy. The Department will receive and consider comments relating to the Agreement for 60 days from the date of this Public Notice. The Department has the right to withdraw its consent to the Agreement if the comments concerning the Agreement disclose facts or considerations which indicate that the Agreement is inappropriate, improper, or not in the public interest.

After the public comment period, the Department's settlement with Lakeside and the Conservancy shall be effective upon the date that the Department notifies Lakeside and the Conservancy, in writing, that this Agreement is final and effective in its present form, and that the Department has filed a response to significant written comments to the Agreement, or that no such comments were received.

The Agreement is available for inspection and copying at the Department's office at 230 Chestnut Street, Meadville, PA. Comments may be submitted, in writing, to James W. Weaver, Project Manager, Department of Environmental Protection, Hazardous Sites Cleanup, 230 Chestnut Street, Meadville, PA 16335. Further information may be obtained by contacting James Weaver at (814) 332-6648. TDD users may contact the Department through the Pennsylvania Relay Service at (800) 645-5984.

Notice of Settlement Under the Hazardous Sites Cleanup Act

The Department of Environmental Protection (Department), under the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1304) (HSCA) and the Comprehensive Environmental Response, Compensation, and Liability Act, 42 U.S.C.A. § 9601 et seq. (CERCLA), has entered into a de minimis settlement with Aukland Automotive Shop for reimbursement of certain response costs incurred to remediate hazardous substances disposed at the Sellersville Inactive Landfill (Site). This Site is located at the corner of Main and Twelfth Streets, in the Borough of Sellersville, Bucks County, PA.

Between the 1940s and the 1970s, the Site was used as an unpermitted dump for municipal, residual and hazardous wastes. Radioactive and nonradioactive hazardous substances were released on a 2-acre portion of the Site. Under its authority under section 501(a) of HSCA (35 P. S. § 6020.501(a)), the Department conducted a response action to remediate hazardous substances disposed on the Site. The Department incurred \$6,106,720.50 in response costs to abate the release and threat of release of hazardous substances at the Site. The Department has determined that the amount of hazardous substances contributed by Auckland Automotive Shop is minimal; the toxic or other hazardous effect of these substances is minimal and these substances have caused only a minor portion of the response costs. Thus, it is in the public interest for the Department to resolve its claim against Auckland Automotive Shop in a de minimis settlement agreement. Auckland Automotive Shop shall reimburse the Department for certain response costs in the amount of \$1,000.

This notice is provided under section 1113 of HSCA (35 P. S. § 6020.1113), which provides that "settlement shall become final upon the filing of the Department's response to the significant written comments." The Consent Order and Agreement, which contains the specific terms of the settlement is available for public review and comment. The agreement can be examined from 8 a.m. to 4 p.m. at the Department's Southeast Regional Office, located in Lee Park, 555 North Lane, Suite 6010, Conshohocken, PA 19428, by contacting either Timothy Cherry, at (610) 832-6204 or Gina M. Thomas, at (610) 832-6300. Timothy Cherry and Gina Thomas may also be contacted electronically at cherry.timothy@dep.state.pa.us and thomas.gina@dep.state.pa.us, respectively. A public comment period on the Consent Order and Agreement will extend for 60 days from today's date. Persons may submit written comments regarding the agreement within 60 days from today's date, by submitting them to Timothy Cherry at the previous address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908) and Chapter 250 Administration of Land Recycling Program.

Provisions of 25 Pa. Code § 250.8 Administration of Land Recycling Program requires the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the Land Recycling and Environmental Remediation Standards Act (act). Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigations, concentration of regulated substances in environmental media, benefits of reuse of the property, and in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. A cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the content of the plans and reports, please contact the Environmental Cleanup Program Manager in the Department Regional Office under which the notice of the plan and report appears. If information concerning the plan and report is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

1. Projects that, when implemented, will increase the amount of recyclable material recovered from the previous year;
2. Projects in which the level of recycling education exceeds the requirements of the act, section 1501(d) for all persons occupying residential, commercial, institutional and municipal premises;
3. Projects implemented by a municipality in which the affected community is mandated to participate; and,
4. Intergovernmental cooperative projects.

Municipalities are eligible for 90% funding of approved recycling program costs. Municipalities considered financially distressed by the Department of Community and

Economic Development under the Municipalities Financial Recovery Act (53 P. S. §§ 11701.101—11701.501) are eligible for an additional 10% of approved cost. No application requesting more than \$2 million in grant funding will be accepted.

The following recyclable materials diverted from the municipal solid waste will be considered as eligible for grant funding: clear glass, colored glass, aluminum, steel and bimetallic cans, high-grade office paper, newsprint, corrugated paper, other marketable grades of paper, plastics, source separated food scraps, and leaf and yard wastes.

Eligible recycling program development costs include: recycling program design costs; recycling market investigations; development of recycling market commitments; development of recycling program ordinances; developing of recycling public education programs; and the costs of developing contracts for procuring equipment or services necessary for the operation of the recycling program.

Eligible recycling program implementation costs include: purchasing or leasing vehicles used to collect recyclables, transport recyclables to processing facilities or markets, and vehicles used in the operation of a materials recovery facility; reusable containers for the collection or storage of recyclable materials; acquiring and/or renovating buildings for the processing or storage of recovered materials; equipment used to process or manufacture recyclable materials into usable products; improvements to land needed to operate a recycling facility or yard waste composting facility; and, the costs associated with educating the public on recycling program requirements, including the development and publication of printed and audio-visual educational materials, advertisements, the development of Internet "Recycling Home Pages," and school or special event programs. Composting projects and programs will be considered to be recycling projects or programs accordingly. A municipality must retain sole ownership of equipment or facilities funded by the grant.

Funding for equipment or facilities purchased for the recycling program used for recycling and other purposes will be prorated according to its recycling use. Funding for certain leaf and yard waste collection equipment may be limited according to its seasonal use. Funding for wood processing equipment will be approved only when the equipment is part of an approved yard waste composting facility operating under the Department's guidelines or in cases where the equipment is used cooperatively among two or more municipalities. Funding of street sweepers for the purpose of leaf collection will not be considered.

Funding may be restricted in situations where equipment or services requested through a grant application may be available from the public or private sector within the county of the applicant. Public notices may be required before the grant application may be submitted depending upon the nature of the funding request. When the municipality submits the recycling grant application to the Department, it must include proof of compliance with the notification requirements, a description of any responses received to the notice, and an explanation of why the municipality has concluded the mechanical processing equipment is not available to the program from the private sector.

It is required that potential applicants contact the following appropriate DEP Regional Planning and Recycling Coordinator listed to schedule a pre-application

conference to discuss application requirements and program particulars. Applications will be returned to municipalities who fail to schedule pre-application conferences. Grant application forms are available from DEP Regional and Central offices.

Grant applications must be received or postmarked by 3 p.m., October 6, 2000. Applications received by the Department after that date will not be considered during the current round of solicitation. Applications must be on forms provided by the Department, with two copies submitted to the appropriate DEP Regional Office. All grant awards will be predicated on the receipt of recycling fees required by sections 701 and 702 of the act, and the availability of moneys in the Recycling Fund.

Inquiries concerning this notice should be directed to Todd Pejack, Department of Environmental Protection, Bureau of Land Recycling and Waste Management, Division of Waste Minimization of Planning, P. O. Box 8472, Harrisburg, PA 17105-8472.

Certified Emission Reduction Credits in Pennsylvania's ERC Registry

Emission reduction credits (ERC) are surplus, permanent, quantified and Federally enforceable emission reductions used to offset emission increases of oxides of nitrogen (NO_x), volatile organic compounds (VOC) and the following criteria pollutants: carbon monoxide (CO), lead (Pb), oxides of sulfur (SO_x), particulate matter (PM), PM-10 and PM-10 precursors.

The Department of Environmental Protection (Department) maintains an ERC registry in accordance with the requirements of 25 Pa. Code § 127.209. The ERC registry system provides for the tracking of the creation, transfer and use of ERCs. Prior to registration of the credits, ERC Registry Applications are reviewed and approved by the Department to confirm that the ERCs meet the requirements of 25 Pa. Code §§ 127.206—127.208. Registration of the credits in the ERC registry system constitutes certification that the ERCs satisfy applicable requirements and that the credits are available for use. The following registered, and certified ERCs in the ERC Registry are currently available for use as follows: (1) To

satisfy new source review (NSR) emission offset ratio requirements; (2) To “net-out” of NSR at ERC-generating facilities; (3) To sell or trade the ERCs for use as emission offsets at new or modified facilities.

The following certified ERCs shown, expressed in tons per year (tpy), satisfy the applicable ERC requirements contained in 25 Pa. Code §§ 127.206—127.208. ERCs created from the curtailment or shutdown of a source or facility expire for use as offsets 10 years after the emission reduction occurs. ERCs generated by the over-control of emissions by an existing facility do not expire for use as offsets. However, credits in the registry which are not used in a plan approval will be discounted if new air quality requirements are adopted by the Department or United States Environmental Protection Agency (EPA).

For additional information concerning this listing of certified ERCs, contact Virendra Trivedi, Bureau of Air Quality, Division of Permits, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325.

DEPARTMENT OF LABOR AND INDUSTRY

Changes to Quarterly UC Tax Forms Now in Effect

Employers have begun receiving revised Pennsylvania (PA) Unemployment Compensation (UC) tax forms. The changes are a part of the Department of Labor and Industry's (Department) project to revise PA Form UC-2/

2A/2B to be more customer-friendly and machine-readable to efficiently capture the data.

Specifications to print Department approved facsimile Form UC-2 and UC-2A were mailed out to payroll service providers in early May. Anyone not using the preprinted quarterly reports provided by the Department, or filing by Magnetic Media, will be required to print their reports in accordance with these new specifications.

The specifications for Form UC-2A (wage detail) can be used immediately. Beginning with the third quarter of 2000, employers will be expected to utilize the Department provided form or an approved facsimile for reporting wage detail. Also beginning with the third quarter of 2000, employers with less than 250 employees can have their employee names and social security numbers preprinted on Form UC-2A. For persons interested in this service, please be sure to fill in the circle beside item No. 6 on Form UC-2A. This item must be completed each quarter for the following quarter to be preprinted. For additional information about Form UC-2A, contact Rosemary Light at (717) 783-3829.

The new specifications for Form UC-2 (tax return) should not be used until the third quarter of 2000, filed in October of this year. Continue to refer questions about Form UC-2 to Cathy Johnson at (717) 787-5231 or cjohnson@dli.state.pa.us.

DEPARTMENT OF PUBLIC WELFARE

Office of Medical Assistance Programs; Funeral Director Services Fee Increase

As provided in 55 Pa. Code § 1150.61(a), the Department of Public Welfare (Department) announces that effective July 3, 2000, it will increase the fees listed in the Medical Assistance (MA) Program Fee Schedule for services rendered by funeral directors. Specifically, effective July 3, 2000, the Department will increase the maximum payment available for burial and/or cremation to \$750 if there are no resources that reduce the payment. Further, the Department will eliminate the sliding scale payment based on the age of the deceased. The specific changes to the MA Program Fee Schedule are as follows:

<i>Procedure Code</i>	<i>Description</i>	<i>Current Fee</i>	<i>Increased Fee Effective 7-3-2000</i>
Z9194	Adult or Child; 10 or Over—Goods and Services	\$280.00	\$600.00
Z9195	Interment; Actual Charges But Not Over	70.00	150.00
Z9196	Child Under 10—Goods and Services	180.00	600.00
Z9197	Interment; Actual Charges But Not Over	70.00	150.00
Z9198	Child Born Dead—Goods and Services	50.00	600.00
Z9199	Interment; Actual Charges But Not Over	35.00	150.00

The Department is implementing these changes to the MA Program Fee Schedule in conjunction with the Notice of Rule Change published June 10, 2000 (30 Pa.B. 2957). In this Notice, the Department has changed the requirements of 55 Pa. Code § 285.3(d) and (e) relating to maximum payment amounts for burial and/or cremation when there are no resources to reduce the payment. Neither the change to the MA Program Fee Schedule nor the Rule Change affect any other requirement relating to the payment for burial and/or cremation services.

The fiscal note was prepared under provision of section 612 of The Administrative Code of 1929 (71 P. S. § 232).

The Contract will include roadway and bridge construction projects, material plant inspection and highway occupancy permit inspection. The Contract will be for a period of sixty (60) months, with a maximum cost of \$2 Million dollars.

Department policy requires firms providing construction inspection services to have a Federal Acquisition Regulation (FAR) field overhead rate established. The Department's current policy (SOL-430-91-34) requires a firm to submit their proposed field and office cost allocation approach, before the beginning of the fiscal year where the separate overhead rates would apply. This approach must comply with the provisions set forth in Part 31 of the Federal Acquisition Regulations (48 CFR

Chapter 1) which governs the determination of the eligibility of costs making up the firm's Direct and Indirect Costs.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The final ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the final ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Review of inspectors' resumes with emphasis on construction inspection capabilities and specialized experience in the Maintenance and Protection of Traffic, soils, structures, concrete, asphalt paving, and drainage.
- b. Past Performance.
- c. Understanding of Department's requirements, policies, and specifications.
- d. Number of available inspectors in each payroll classification.
- e. Number of NICET certified inspectors in each payroll classification.
- f. Ability to provide CPM scheduling.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Manager 1 (TCM-1)	1 (1)
(NICET Highway Construction Level 4 or equivalent)	
Transportation Construction Ins. Super. (TCIS)	10 (6)
(NICET Highway Construction Level 3 or equivalent)	
Transportation Construction Inspector—Materials (TCI-Materials)	2 (2)
(NICET Highway Materials Level 2 or equivalent)	
Transportation Construction Inspector (TCI)	10 (6)
(NICET Highway Construction Level 2 or equivalent)	
Technical Assistant—1 (TA-1)	2 (0)
(NICET Highway Construction Level 1 or equivalent)	
Technical Assistant (TA)	2 (0)
(NICET Highway Construction Level 1 or equivalent)	

The number(s) in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of High-

way Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.

2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.

3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.

4. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

5. Hold an Associate Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

The maximum hourly payroll rate for each Department Payroll Classification for calendar year 2000 shall be as shown:

<i>Payroll Classification</i>	<i>Maximum Straight Time Hourly Payroll Rate (Year 2000)</i>
(TCM-1)	\$23.22
(TCIS)	\$20.34
(TCI-Materials)	\$17.55
(TCI)	\$17.05
(TA-1)	\$13.80
(TA)	\$11.72

If applicable, the maximum straight time hourly payroll rate for subsequent calendar years will be established at the scope of work meeting.

The maximum hourly payroll rate is the maximum hourly rate paid to an employee in a specific Department Payroll classification. The Department reserves the right to negotiate hourly payroll rates of compensation of individuals based on knowledge, experience and education up to the payroll classification maximum hourly payroll rate.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item; and perform other duties as may be required. Firms applying must have qualified personnel capable of climbing structures during painting, rehabilitation, or construction.

The firm selected may be required to supply the following equipment at no direct cost to the Department:

<i>Quantity</i>	<i>Item</i>
(1)	Nuclear Densometer Gauges/License
(1)	Vehicle for Transporting Nuclear Gauge
(2)	Paint Test Medical Kits
(2)	Camera

The Department will directly reimburse the selected engineering firm for the above equipment, for use by the consultant inspection staff at their actual cost not to exceed the maximum direct reimbursement shown below. The engineering firm is required to include their billing rates for each type of equipment in the letter of interest.

- Nuclear Densometer Gauge \$660.00 each *Maximum/month*
- Vehicle for Gauge \$650.00 each *Maximum/month*
- Paint Inspection As per invoice
- Medical Tests As per invoice
- Camera As per invoice

If the equipment is self-owned, reimbursement will be based on actual cost of ownership not to exceed the maximum allowable. If equipment is from an outside supplier, the engineer must secure a minimum of three written quotes. The Department reserves the right to request additional quotes.

The Department will reimburse for actual miles driven on the project as directed by the Department, and a maximum of \$32.50/day for either mileage to and from the work site or lodging. An inspector will not be reimbursed for a combination of the two during the same day. Mileage will be reimbursed for the most direct route from the inspector's residence or the Consultant's office, whichever is less, to the project site and return at the lesser of the maximum mileage rate established by the Commonwealth or the firm's current policy. The first 15 miles each day of an inspector's commute from and to his/her residence or the consultant's office to the work location is considered normal commuting travel and will not be eligible for mileage reimbursement. Lodging will be reimbursed at a maximum rate of \$32.50/day, in lieu of mileage, but receipts for all costs must be provided to the Department with the Engineer's invoice. Lodging will only be reimbursed for employees whose home or headquarters is more than 65 miles from the project.

The maximum number of resumes to be included in the letter of interest shall be as follows:

General Requirements and Information

Firms interested in providing the above work and services are invited to submit a Letter of Interest with the required information for each Project Reference Number for which the applicant wishes to be considered.

The Letter of Interest and required information must be submitted to the person designated in the individual advertisement.

The Letter of Interest and required information must be received by the Deadline indicated in the individual advertisement.

For District projects, all consultants, both prime consultants and subconsultants, who desire to be included in a Letter of Interest must have an Annual Qualification Package on file with the appropriate District Office, by the deadline stipulated in the individual advertisements.

For Statewide projects, all consultants, both prime consultants and subconsultants, who desire to be included in a Letter of Interest must have an Annual Qualification Package on file with Central Office, Bureau of Design by the deadline stipulated in the individual advertisements.

Information concerning the Annual Qualification Package can be found in Strike-off Letter No. 433-99-04 or under the Notice to all Consultants published in the February 27, 1999 issue of the *Pennsylvania Bulletin*.

By submitting a letter of interest for the projects that request engineering services, the consulting firm is certifying that the firm is qualified to perform engineering services in accordance with the laws of the Commonwealth of Pennsylvania. A firm not conforming to this requirement may submit a letter of interest as a part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of engineering.

The letter of interest must include full disclosure of any potential conflict of interest by the prime or any subconsultant based on Engineering Involvement Restrictions Guidelines as established in Strike-off Letter No. 433-00-02 published March 27, 2000. If there are no potential conflicts you shall include the following statement: "I have reviewed Strike-off Letter No. 433-00-02 and determine that there are no potential conflicts of interest for anyone on this project team."

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit a Letter of Interest on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Transportation Equity Act for the 21st century (TEA-21) and currently certified by the Department of Transportation shall have the opportunity

to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The TEA-21 requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they are defined prior to the act, WBEs or combinations thereof).

Proposed DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Letters of Interest for will be considered non-responsive and eliminated from further consideration for any of the following reasons:

1. Letters of Interest not received on time.
2. Project of interest is not identified.
3. An Annual Qualification Package for the prime consultant and all subconsultants is not on file with the organization receiving the Letter of Interest.
4. Conflict of Interest evaluation statement is not included.
5. A Disadvantaged Business Enterprise (DBE) participation goal is established for the Project Reference Number but no DBE/WBE is identified and no good faith effort is included.
6. Firm submitted a Letter of Interest on more than one (1) Joint Venture or a firm submitted a Letter of Interest as a prime and was also included as a subconsultant, to another firm. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm, or firms, involved.

In addition to the above reasons, a Letter of Interest for Construction Inspection Services will be considered non-responsive for any of the following reasons:

1. Prime consultant or any subconsultant does not have a Federal Acquisition Regulation (FAR) Audit Field Overhead Rate on file with the Department.
2. Using an individual's resume without including a letter granting the individual's approval for TCIS and higher positions.
3. Exceeding the maximum number of resumes in a payroll classification.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the

right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

Revised Goal—Disadvantaged Business Enterprise (DBE); Participation in Federally-Funded Contracts

Under the authority contained in the Transportation Act for the 21st Century, Act of June 9, 1998, Pub. L. No 105-178, 112 Stat. 113 (23 U.S.C. § 101), and in keeping with the requirements of Part 26 of Title 49 of the Code of Federal Regulations, the Pennsylvania Department of Transportation (Department) provides public notice of its revised goal for participation by Disadvantaged Business Enterprises (DBEs) in its federally assisted contracts.

Pending receipt of public comments, the Department's revised goal is a work in progress. However, the Department proposes an overall goal of 8.90 percent for DBE participation in Department contracts funded in whole or in part with federal monies.

As a recipient of federal funds from the United States Department of Transportation (US DOT) through its agencies, including the Federal Highway Administration, the Department must comply with the goal setting provisions of the new US DOT DBE regulation, set forth in 49 C.F.R. Part 26, effective March 4, 1999. The Department is mandated to submit a revised goal and methodology for federally assisted contracts in accordance with the provisions of 49 C.F.R. Sections 26.45 and 26.51. The revised goal and methodology must be submitted to the Federal Highway Administration by August 1, 2000. An important part of this process is providing notice to the public

concerning the revised goal and methodology used to arrive at the final goal and affording the public the opportunity to provide comments on the goal proposal.

To comply with the goal setting provisions of the new regulation, the Department employed a two step process, as outlined in 49 C.F.R. Section 26.45. Under step one, the Department created a baseline figure for the relative availability of "ready, willing and able DBEs" in a relevant market, derived from demonstrative evidence of local market conditions. To this end, the Department developed a definition of "ready, willing and able DBEs" relative to any business "ready willing and able" to perform on federally assisted Department contracts. The Department considered historical activity within specified market areas including research, engineering, and design consulting, contractors (prime, subcontractors and suppliers), and other consultant activities. Additionally, the Department developed a ratio within market areas of "ready willing and able DBEs" relative to the universe of all other "ready willing and able" enterprises.

Under step two, the Department examined all relevant evidence in its jurisdiction to determine what adjustments, up or down, are needed to arrive at the overall goal, taking into consideration other conditions or variables impacting DBEs in the Commonwealth. As part of this adjustment phase, the Department considered market potential based upon employment security data and other public data. The Department also considered certain changes relative to counting and certification that occurred as the result of the new regulation.

Consistent with the public participation requirement for this process, the Department is making the proposed revised goal and methodology available for inspection and review for forty-five days from the date of this notice. The Department considers the revised overall goal and methodology a work in progress pending input from the public. To review the DBE goal documents, contact any of the following locations:
