READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in §§ IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under §§ 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a

public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984. Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

reprocessed oil in addition to No. 2 fuel oil and construct a 20,000 gallon vertical aboveground storage tank at their facility located in Franklin Township, **Snyder County**.

The Department's review of the information submitted by Meckley's Limestone Products, Inc. indicates that the proposed modification and construction will meet all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the BAT requirements of 25 Pa. Code §§ 127.1 and 127.12. The proposed modification will also meet all applicable requirements of Subpart I of the New Source Performance Standards, 40 CFR 60.90 through 60.93. Based on these findings, the Department intends to approve the application and issue plan approval for modification of the existing aggregate dryer to fire reclaimed/reprocessed oil in addition to No. 2 fuel oil and construction of 20,000 gallon vertical aboveground storage. Additionally, if the Department determines that the modification of the aggregate dryer and the construction of the 20,000 gallon tank are operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into the State-only operating permit 55-00020 by means of an administrative amendment under 25 Pa. Code § 127.450. This facility is a State-only facility.

The following is a summary of the conditions the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

Proposed Interim Response

Lenape Manufacturing HSCA Site, East Rockhill Township, Bucks County.

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1305) (HSCA), is proposing an Interim Response at the Lenape Manufacturing HSCA Site (Site) in East Rockhill Township, Bucks County, Pennsylvania.

The Department, under the authority of HSCA, is conducting an investigation of the Site. This investigation includes the sampling of private drinking water supply wells located in the vicinity of the former Lenape Manufacturing facility at 1803 North 5th Street, Perkasio, PA. Approximately 55 wells are contaminated or may potentially become contaminated with detectable levels of Trichloroethene (TCE). Tetrachloroethene (PCE) and breakdown products of TCE were also detected in some of the wells, but TCE is the primary contaminant of concern.

To address the release and threat of release of hazardous substances at the Site, and corresponding threats to human health and the environment, the Department proposes a response action at the Site under section 501(a) of HSCA (35 P. S. § 6020.501(a)). The Department hereby proposes the installation of a waterline, including water mains and lateral connections to the public water supply. This proposed alternative complies with Applicable, Relevant and Appropriate Requirements (ARARs) and is feasible and cost-effective. Other possible alternatives include no action or the installation and continued monitoring and maintenance of whole-house carbon filtration units and/or supplying bottled water.

An Administrative Record, which contains more detailed information concerning this proposed response action, is available for public inspection. The Administrative Record may be examined from 8 a.m. until 4 p.m. at the Department's office at 2 East Main Street, Norristown PA 19401. Those interested in examining the Administrative Record should contact Natalie Huff at (484) 250-5722 to arrange for an appointment. An additional copy of the Administrative Record is available for review at the East Rockhill Township Municipal Building at 1622 Ridge Road, Perkasio, PA 18944.

Under section 506(d) of HSCA (35 P. S. § 6020.506(d)), the Department shall conduct a public hearing on September 15, 2008, at 7 p.m. in the cafeteria of the Bucks County Community College Upper Bucks Campus, 1 Hillendale Road in Perkasio. Anyone who would like to present formal oral comments regarding this Interim Response may do so by registering with the Department before the meeting. Individuals may register by calling the Department's Community Relations Coordinator, Lynda Rebarchak, at (484) 250-5820.

Any person with a disability who wishes to attend the public hearing and will require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Lynda Rebarchak at the telephone number listed above or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs. The public may also submit written comments regarding the Department's proposed Interim Response action during the period of public comment. In accordance with section 506(c) of HSCA, the Department has established a period for public comment that is now open until close of business October 20, 2008. Written comments should be addressed to Natalie Huff, Project Officer, Pennsylvania Department of Environmental Protection, 2 East Main Street, Norristown, PA 19401.

Anyone with questions regarding this notice should contact Natalie Huff at (484) 250 5722.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling

methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Nutrient and Sediment Reduction Credit Trading Program; Nutrient Trading Program Activities and NPDES Permits

The Department of Environmental Protection (Department) hereby provides notice of the following actions regarding the Nutrient and Sediment Reduction Credit Trading Program (Trading Program). These actions were taken in relation to the Interim Final Policy and Guidelines for Nutrient and Sediment Trading issued in 2005 and the Final Trading of Nutrient and Sediment Reduction Credits—Policy and Guidelines (Policy) (DEP ID# 392-0900-001) (see 36 Pa.B. 7999 (December 30, 2006)). The Policy called for a transparent system of credit reviews and approvals.

Trading is a market-based program that provides incentives for entities to create nutrient reduction credits by going beyond statutory, regulatory or voluntary obligations and goals by removing nutrients from a watershed. The credits can be traded to help others more cost-effectively meet their obligations or goals. The primary purpose of the Trading Program is to provide for more efficient ways for National Pollutant Discharge Elimination System (NPDES) permittees to meet their effluent limits for nutrients and sediment. Currently, the focus of the program is on the Chesapeake Bay Watershed.

The actions described in this notice relate to: (1) submitted proposals; (2) approved proposals; and (3) registered credits, through June 30, 2008.

Background

Before a credit can be used by an NPDES permittee, a three-step process is followed. First, the credit or offset proposal must be approved, second, it must be verified and third, it must be registered.

Approval is also known as certification, which is a written approval by the Department for the use of proposed or implemented activities to generate credits (in some cases the person generating the credits is not permitted to transfer them to another person, in which case they are called "offsets"). Certifications are based on at least: (1) a credit or offset proposal to be submitted describing the qualifying activities that will reduce the nutrient loadings delivered to the applicable watershed; (2) the calculation to quantify the pounds of reductions expected; and (3) a verification plan that, when implemented, ensures that the qualifying nutrient reduction activities have taken place. All of the proposals, certifications and registrations described in this Notice apply to the Chesapeake Bay Watershed.

Once the credits or offsets are certified, they must be verified. Verification means implementation of the verification plan contained in a certified credit or offset proposal as required by the Department. Verification plans require annual submittal of documentation to the Department that demonstrates that the qualifying nutrient reduction activities have taken place for the applicable compliance year.

The credits or offsets also need to be registered by the Department before they can be used in an NPDES permit. Registration occurs only after credits or offsets have been certified and verified, and a trading contract for credits has been submitted to the Department. For the Chesapeake Bay Watershed, the Department will register credits on an annual basis for use during the compliance year in which the qualifying nutrient reduction activities have taken place and will provide such credits with an annual registry number for reporting and tracking purposes.

The Department has received 52 proposals that have been submitted for review to generate nutrient reduction credits in the Chesapeake Bay Watershed. Of those, 29 have been approved, 18 are in review, 1 has been withdrawn and the remaining need additional clarification prior to certification.

Proposals under Review

The following proposals are being reviewed by the Department.

Future notices

In the future, the Department plans to provide notice in the *Pennsylvania Bulletin* at three separate times during the Trading Program.

Second, upon approval of a proposal (certification), the Department will provide notice in the *Pennsylvania Bulletin* of the proposal details including the generation method and number of credits or offsets to be certified. This notice will include the chance for informal public input into the certification decisions.

Finally, the Department will also provide notice in the *Pennsylvania Bulletin* when the credits and offsets have been verified and registered.

DEPARTMENT OF PUBLIC WELFARE

Designated Exceptional Durable Medical Equipment

Purpose of Notice

In accordance with the Department of Public Welfare's (Department) currently approved State Plan the Department is required to publish an annual list of exceptional durable medical equipment (DME) by notice in the *Pennsylvania Bulletin* in July of each year. Interested persons may petition the Department to consider additions to the exceptional DME list by submitting a written request to the Department. Requests received on or before December 31 will be considered in developing the list for the following July.

During calendar year 2007, the Department received two written requests for additions to the list of exceptional DME. One request is to add a Mist Therapy System to the list of exceptional DME. The Department determined that a mist therapy system does not meet the criteria to qualify as an item of "Specially Adapted DME" since the system is not substantially adapted or modified in a way to meet the needs of a specific resident and therefore is suitable for the contemporaneous use by numerous other persons.

Therefore, the Department has decided that the request for the addition of a mist therapy system as a separate category of exceptional DME is unwarranted since the system does not qualify as an item of "specially adapted DME" as defined in § 1187.2 (relating to definitions).

A second request for an addition to the list of exceptional DME is for a mobile air chair. The purchase price of a mobile air chair is \$4,076 and does not meet the acquisition cost of \$5,000 or more necessary to qualify as an item of exceptional DME. In addition, the Department's medical consultants evaluated the product and concluded that there is no medical evidence that demonstrates the effectiveness of a mobile air chair on the treatment or prevention of pressure ulcers.

Therefore, the Department has decided that the request for the addition of a mobile air chair as a separate category of exceptional DME is unwarranted.

Accordingly, this notice makes no changes in either the acquisition cost or the list of qualifying DME.

"Exceptional DME" is defined as DME that has an acquisition cost of \$5,000 or more and is either Specially Adapted DME or other DME that is designated as Exceptional DME by the Department annually by notice in the *Pennsylvania Bulletin*.

"Specially Adapted DME" is DME that is uniquely constructed or substantially adapted or modified in accordance with the written orders of a physician for the particular use of one resident, making its contemporaneous use by another resident unsuitable.

The list of Exceptional DME that has been designated by the Department is as follows:

(1) *Air fluidized beds*. The pressure relief provided by this therapy uses a high rate of airflow to fluidize fine particulate material (for example, beads or sand) to produce a support medium that has characteristics similar to liquid. May have a Gortex cover.

(2) *Powered air flotation bed (low air loss therapy)*. A semi-electric or total electric bed with a fully integrated powered pressure-reducing mattress which is characterized by all of the following:

(a) An air pump or blower with a series of interconnected woven fabric air pillows which provides sequential inflation and deflation of the air cells or a low interface pressure throughout the mattress allowing some air to escape through the support surface to the resident. May have a Gortex cover;

(b) Inflated cell height of the air cells through which air is being circulated is five inches or greater;

(c) Height of the air chambers, proximity of the air chambers to one another, frequency of air cycling (for alternating pressure mattresses), and air pressure provide adequate patient lift, reducing pressure and prevent bottoming out;

(d) A surface designed to reduce friction and shear;

(e) May be placed directly on a hospital bed frame; and

(f) Automatically readjusts inflation pressures with change in position of bed (for example, head elevation, and the like).

(3) *Augmentative communication devices.* Used by residents who are unable to use natural oral speech as a primary means of communication. The specific device requested must be appropriate for use by the resident and the resident must demonstrate the abilities or potential abilities to use the device selected. Portable devices need to supplement, aid or serve as an alternative to natural speech for residents with severe expressive communication disorders. Nonportable devices may be covered only if required for visual enhancement or physical access needs that cannot be accommodated by a portable device.

(4) *Ventilators (and related supplies).*

(a) Used by residents 21 years of age and older who require full ventilator support for a minimum of 8 hours per day to sustain life.

(b) Used by residents 20 years of age and younger who require ventilator support to sustain life (no minimum time requirement).

Effective Date

This notice is effective upon publication in the *Pennsylvania Bulletin*.

Medical Assistance Prior Authorization Requirements

Purpose of Notice

The purpose of this notice is to announce that the Department of Public Welfare (Department) will add nonemergency advanced radiologic imaging services to the Medical Assistance (MA) Program's list of services and items that require prior authorization, effective with dates of service on and after August 1, 2008.

Section 443.6(b)(7) of the Public Welfare Code (62 P. S. § 443.6(b)(7)) authorizes the Department to add items and services to the list of services requiring prior authorization by publication of notice in the *Pennsylvania Bulletin*.

Advanced radiologic imaging services are diagnostic studies that provide greater differentiation than X-rays between bone and soft tissue, allowing practitioners to diagnose diseases at earlier stages while avoiding more invasive and costly diagnostic procedures. The MA Program will require prior authorization for the following outpatient advanced radiologic imaging services:

- Magnetic Resonance Imaging (MRI)
- Magnetic Resonance Angiogram (MRA)
- Magnetic Resonance Spectroscopy (MRS)
- Computerized Tomography (CT)
- Positron Emission Tomography (PET)
- Single Photon Emission Computed Tomography (SPECT)
- Nuclear Medicine Cardiology Scans

The Department will issue an MA Bulletin to providers enrolled in the MA Program, specifying the procedures and review guidelines for obtaining prior authorization of these services.

Fiscal Impact

Implementing the prior authorization requirement for advanced radiologic imaging services is estimated to save \$1.121 million (\$0.622 million in State funds) in the Medical Assistance Outpatient Program in Fiscal Year 2008-2009, and annualized savings of \$1.345 million (\$0.746 million in State funds) are anticipated in Fiscal Year 2009-2010.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision to the prior authorization requirements for advanced radiologic imaging services.

Payments to County Nursing Facilities; Proposed Rates for State Fiscal Year 2008-2009

Purpose of Notice

This notice announces the Department of Public Welfare's (Department) proposed annual rates for State Fiscal Year (FY) 2008-2009, for county nursing facilities that participate in the Medical Assistance (MA) Program.

The rates will be calculated in accordance with 55 Pa. Code Chapter 1189, Subchapter D (relating to rate setting). As stated at § 1189.91(b) (relating to per diem rates for county nursing facilities), for each rate year beginning on or after July 1, 2007, the per diem rate paid to a county nursing facility for a rate year will be the facility's prior rate year per diem rate multiplied by a budget adjustment factor (BAF).

As required by § 1189.91(d), the Department intends to follow the formula set forth in the Commonwealth's approved State Plan to determine the BAF to be applied to county nursing facility payment rates for FY 2008-2009. The Department will be submitting State Plan Amendment (SPA) 08-008 to the Federal Centers for Medicare and Medicaid Services (CMS) to include the BAF formula which the Department will use in FY 2008-2009. Contingent on CMS approval of SPA 08-008 the Department will use the following formula to determine the BAF which will apply in setting rates for the county nursing facilities. The BAF formula = 1.00 + the percent increase permitted by the General Appropriations Act.

Based on the funding provided in the governor's executive budget and the approval of SPA 08-008 by CMS the BAF for county nursing facilities for FY 2008-2009 will be 1.00.

The proposed per diem rates for FY 2008-2009 are available on the web site for the Department of Public Welfare at www.dpw.state.pa.us/PartnersProviders/LongTermLiving/ and at local county assistance offices throughout the Commonwealth or by contacting Gail Weidman, Department of Public Welfare, Office of Long-Term Living at (717) 705-3705.

Fiscal Impact

No fiscal impact is anticipated as a result of the proposed rates in FY 2008-2009.

Public Comment

Interested persons are invited to submit written comments regarding the proposed rates for FY 2008-2009 or the BAF formula, to the Department at the following address: Department of Public Welfare, Office of Long Term Living, Attention: Gail Weidman, P. O. Box 2675, Harrisburg, PA 17105. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Payments to Nonpublic Nursing Facilities; Proposed Rates for State Fiscal Year 2008-2009

Purpose of Notice

This notice announces the Department of Public Welfare's (Department) proposed annual case-mix per diem payment rates for State Fiscal Year (FY) 2008-2009 for nonpublic nursing facilities that participate in the Medical Assistance (MA) Program.

As required by the case-mix payment methodology set forth in Chapter 1187, Subchapter G (relating to rate setting), the Department intends to set a new annual MA per diem rate for each nonpublic nursing facility provider. Each facility's annual per diem rate will have four components: resident care; other resident related; administrative; and capital. For each quarter of FY 2008-2009, the Department will adjust the resident care component of each facility's rate by multiplying the resident care cost component by the facility's MA case-mix index (CMI) for the appropriate picture date. In addition, the Department will adjust each facility's CMI-adjusted quarterly rate by multiplying the rate by a "budget adjustment factor" (BAF).

As required by § 1187.96(e)(2)(iv) (relating to price- and rate-setting computations), the Department intends to follow the formula set forth in the Commonwealth's approved State Plan to determine the BAF for FY 2008-2009. The Department will be submitting State Plan Amendment (SPA) 08-007 to the Federal Centers for Medicare and Medicaid Services (CMS) to include the BAF formula which the Department will use in FY 2008-2009.

Contingent on CMS approval of SPA 08-007 the Department will use the following formula to determine the BAF which it will apply in setting rates for nonpublic nursing facilities:

- (nonpublic nursing facilities' share of total appropriated funds + estimated annual patient pay amount) divided by
- estimated acuity-adjusted annual payments

Based on the funding provided in the Governor's executive budget and approval of SPA 08-007 by CMS, the Department has determined that the percentage rate of increase appropriated for nursing facility services for FY 2008-2009 is .90551.

The proposed annual per diem rates for FY 2008-2009 are available on the web site for the Department of Public Welfare at www.dpw.state.pa.us/PartnersProviders/LongTermLiving/ and at local county assistance offices throughout this Commonwealth or by contacting Gail

Weidman, Department of Public Welfare, Office of Long Term Living, at (717) 705-3705. In addition, the Department will calculate adjusted quarterly rates for the October, January and April quarters of FY 2008-2009 for each nonpublic MA nursing facility provider. These adjusted quarterly rates will be posted on the Department's web site, at local county assistance offices and from Gail Weidman, as they become available.

Fiscal Impact

No fiscal impact is anticipated as a result of the proposed rates in FY 2008-2009.

Public Comment

Interested persons are invited to submit written comments regarding the proposed annual rates for FY 2008-2009 or the BAF formula to Department of Public Welfare, Office of Long-Term Living, Attention: Gail Weidman, P. O. Box 2675, Harrisburg, PA 17105. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Design as delegated by the Secretary of Transportation makes the following written finding.

The Department of Transportation (Department) is planning to replace the Harmonyville Road Bridge which carries SR 4018 (Harmonyville Road) over French Creek in Warwick Township, Chester County. The bridge is a contributing element to the North Warwick Historic and Archaeological District, and it has been determined that the bridge replacement project will have an adverse effect on the District. The project will require minor right-of-way acquisition from two properties within the District, as well as a temporary construction easement within the District.

Therefore, in accordance with Act 120, a Section 2002 Evaluation has been prepared to evaluate the potential impacts to the Section 2002 resource caused by the bridge replacement project. The Section 2002 Evaluation was approved June 26, 2008.

Based upon studies, there is no feasible and prudent alternative to the proposed action. Mitigation measures will be taken to minimize harm as stipulated in the Section 2002 Evaluation.

The environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code, have been considered. It has been concluded that there is no feasible and prudent alternative to the project as designed, and all reasonable steps have been taken to minimize the effects.

**State Employees' Retirement Board
Regulation #31-7 (IRRC #2689)**

**Priority of Taxation, Attachment and
Assignment of Funds**

July 2, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 3, 2008, *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Employees' Retirement Board (Board) to respond to all comments received from us or any other source.

Section 247.11. Priority of taxation, attachments and assignment of funds.—Statutory authority; clarity.

Subsection (a)(3) pertains to money that is owed on account of taxes. We have three concerns. First, would this subsection apply to taxes owed by a member not on account of the member's employment? For instance, would this subsection apply to taxes owed due to the sale of real estate by a member? We recommend that the provision be clarified to state that any obligations of a member must relate to their employment.

Second, what is the Board's statutory authority for this provision? If the Board is relying on particular statutes as justification for this subsection, references to those statutes should be included in the final-form regulation.

Third, assuming the Board has the statutory authority for Subsection (a)(3), what is the sequential priority for the various taxing authorities that might seek payment? For example, would a claim filed by the Internal Revenue Service for taxes owed take precedence over a claim filed by the Pennsylvania Department of Revenue or a local employment tax collection agency?

In addition, Subsection (a)(1) includes the phrase "as otherwise provided by law" and Subsection (c) includes the phrase "under the operative forfeiture law." Both phrases lack clarity. We recommend that specific statutory citations be included in the final-form regulation.

**State Board of Medicine
Regulations#16A-4924 (IRRC #2690)**

Acupuncture Registration

July 2, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 3, 2008, *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Medicine (Board) to respond to all comments received from us or any other source.

1. General.—Statutory authority.

In the Preamble, the Board's statutory authority is identified as Act 186 of 2006 (Act 186) which amended the Acupuncture Registration Act (Act) (63 P. S. §§ 1801—1806). The Board's specific rulemaking authority is found in Section 3 of the Act (63 P. S. § 1803). Section 3 should be included in the explanation of statutory authority in the Preamble and the Regulatory Analysis Form that are submitted with the final-form

regulation. If the Board is relying on any other provisions for statutory authority, it should specifically cite them as well.

2. Section 18.15. Practice responsibilities of acupuncturist and practitioner of Oriental medicine who are not medical doctors.—Public health and safety; Reasonableness; Consistency; Clarity.

The proposed regulation contains a new Subsection (a)(4) which states that an acupuncturist or practitioner of Oriental medicine:

Shall, **within 60 calendar days** from the date of first treatment, refer the patient to a physician, dentist or podiatrist, as appropriate to the patient's condition, if the acupuncturist or practitioner of Oriental medicine determines that further acupuncture or Oriental medicine treatment is contraindicated for the patient or determines that the patient's condition has worsened. (Emphasis added.)

It is our understanding that, at least in part, the intent of this provision is to have the acupuncturist or practitioner of Oriental medicine refer a patient to another health care professional if medically necessary before the 60-day period has expired. However, the use of the phrase "within 60 calendar days from the date of first treatment" is unclear. We have two concerns.

First, the phrase "within 60 calendar days" could be interpreted as allowing an acupuncturist to wait until the 60th day before referring even though an earlier referral might be appropriate and necessary to protect the health and safety of the patient. Subsection (a)(4) also indicates that a referral to a doctor shall be made only when the acupuncturist determines the following:

- 1) Acupuncture or Oriental medicine is contraindicated; or
- 2) The patient's condition has worsened.

Acupuncturists should not wait until their patient's condition worsens if they can immediately determine that care from a medical doctor is appropriate and necessary to protect or improve the patient's health. The acupuncturist should refer a patient to a different provider as soon as he or she knows that the patient's condition is beyond the scope of acupuncture or herbal therapy. Even though acupuncture treatment may occur up to 60 days without one, Act 186 still requires a medical diagnosis. Hence, the statute recognizes the need for medical involvement. There is no limitation on the Board requiring an acupuncturist to make the proper referral at any time it is necessary.

There are examples of similar provisions in existing regulations. Current mandates at 49 Pa. Code §§ 18.6(6) and 18.509(a)(7) require midwives and athletic trainers to refer a patient to a physician if the patient presents a medical problem that is beyond their scope of practice. Another example is an existing regulation for physical therapists at 49 Pa. Code § 40.61(d)(3), which requires referral to a physician if a patient's case is beyond the education, expertise or experience of the physical therapist.

Second, the requirements of Subsection (a)(4) should not be limited to "within 60 days." Even after the patient receives a diagnosis from a doctor, a situation may arise during acupuncture treatment when there is a need for the acupuncturist to refer the patient back to the doctor.

In the final-form regulation, the Board should delete the phrase "within 60 days" from Subsection (a)(4), and it

should direct the acupuncturist and practitioner of Oriental medicine to refer a patient to a physician, dentist, or podiatrist as soon as it is appropriate and necessary to protect the patient. In addition, the Board should provide clear and thorough direction for when these referrals should occur.

**Pennsylvania Gaming Control Board
Regulation #125-84 (IRRC #2691)**

Releases

July 2, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 3, 2008, *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

General.—Need; Reasonableness; Clarity.

Right-to-Know Law reference

Three different subsections of this regulation require executed releases that would allow the Board to obtain further information under the Pennsylvania Right-to-Know Law (Law) and the federal Freedom of Information Act (Act). Board staff has indicated that this is partially to obtain certain criminal information about the applicant. However, we note that a public record request under the Law would not yield access to this information. Additionally, we note that, under the Law, public records are accessible even without a signed release from the subject of the records. Therefore, we question why the Law is included in the proposed regulation. The Board should explain the need for an applicant to execute a release from the Law or it should delete it from the appropriate sections.

Confidentiality of information

Numerous commentators have expressed concern about whether the information obtained through the execution of a release would be protected by the confidentiality restrictions that the Board currently has in place or the confidentiality of information provided for under the Law and the Act. The final-form regulation should specify how this information will be protected.

**Pennsylvania Gaming Control Board
Regulation #125-85 (IRRC #2692)**

Licensed Facility

July 2, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 3, 2008, *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

1. Section 401a.3.—Definitions.—Statutory Authority; Legislative Intent; Whether the Regulation is in the Public Interest; Fiscal Impact; Possible Conflict with Statute; Need; Whether the Regulation represents a Policy Decision of Such Substantial Nature that It Requires Legislative Review; Reasonableness; Clarity.

This proposed regulation changes the definition of “licensed facility” by restricting the location of the facility to “[t]he gaming floor and all restricted areas servicing slot operations together with all adjacent and proximate amenities”

According to the Preamble, the Board has changed the definition because “a number of questions have arisen as to how the term should be interpreted,” in particular with respect to linear distance between gaming facilities.

The Board has received several comments in opposition to this regulation from members of the legislature and the public who reside in Lebanon County, in particular, East Hanover Township. The Gaming Act (Act) provides that licensees must pay a “local share assessment” into the Gaming Fund.

See 4 Pa.C.S. § 1403. These commentators are concerned that the new definition will deny Lebanon County residents their portion of the local share assessment paid by Hollywood Casino, a Category 1 licensee, because the commentators assert that facility operations span across both Dauphin and Lebanon counties, and the new definition would extend the facility only as far as Dauphin County. However, as a result of their close proximity to the casino, Lebanon County providers offer various “associated” services to the casino, including sewage and emergency services.

We raise five issues.

A. Statutory Authority, Possible Conflict with Statute and Clarity.

First, we join several commentators in questioning whether the Board has the statutory authority to change the definition of “licensed facility” found in the Act. The Act defines a licensed facility as “the physical land-based location at which a licensed gaming entity is authorized to place and operate slot machines.” 4 Pa.C.S. § 1103. The new definition adds language stating that the facility includes:

“[t]he gaming floor and all restricted areas servicing slot operations together with all adjacent and proximate amenities, including, but not limited to, food, beverage and retail outlets and other areas directly accessible from the gaming floor or the restricted areas servicing slot operations The term does not encompass areas or amenities exclusive to pari-mutuel activities, hotel activities and other amenities and activities not related to slot machine gaming operations.”

If the Board can demonstrate its authority for changing the statutory definition, the Board should then clarify whether “physical land-based location” refers to an entire property owned by a licensee, or whether it refers to an identified structure(s) on that property. Furthermore, how does the proposal’s specific language relate to the Act’s reference to a “physical land-based location”? The Board should explain both how the proposed language is consistent with the Act, and the source of its statutory authority for changing the statutory definition.

Second, a commentator also questioned whether the Board has the authority to change this definition, because

to do so would interfere with rights exclusively granted by statute to the Department of Revenue (Department). See 4 Pa.C.S. § 1403 and 61 Pa. Code Ch. 1001. Has the Board consulted with the Department to determine what impact, if any, this regulation will have on the Department's operations?

B. Legislative Intent and Whether the Regulation Represents a Policy Decision of Such a Substantial Nature That It Requires Legislative Review.

Third, several legislators have expressed concern that the proposed regulation does not reflect the legislative intent of the Act. Overall, opposition stems from the claim that to change the definition creates a policy whereby East Hanover Township will no longer stand to receive the approximately \$350,000 in local share fees they believe they are entitled to under the Act. Senator Mike Folmer (48th Senatorial District) indicated that because this definition would preclude East Hanover Township from receiving its portion of the local share assessment, the regulation is "profoundly unfair considering that the original intent of the Gaming Law was to compensate municipalities for costs incurred as a result of the gaming facilities being located within their jurisdiction." Representatives Gingrich (101st Legislative District), Swanger (102nd Legislative District) and Marsico (105th Legislative District) collectively commented that the original intent of the Act was to define "licensed facility" as "the land-based location of the facility, as defined, whether they are part of the racetrack, part of a hotel, or even the parking lot." Additionally, Senator Tomlinson (6th Senatorial District) provided to the Board transcripts from the Senate floor debate on amendments to the Act.

The Board should explain how the final-form regulation is consistent with the intent of the General Assembly. Moreover, the Board should consider whether the underlying issues represent a policy decision of such a substantial nature that they require legislative review.

C. Whether the Regulation is in the Public Interest; Need; Fiscal Impact; Reasonableness.

Fourth, a Category 2 license applicant suggested changes to the second sentence of the definition, and indicated the definition should not include "[d]istinctly hotel related operations such as stand-alone [sic] food and beverage outlets, catering facilities including room service facilities serving the hotel, convention, meeting and multi-purpose facilities and stand-alone retail facilities." The commentator stated that, without their suggested changes, an "unintended consequence" could be that "[e]mployees of . . . restaurants and retail shops that are leased to the tenants and not owned by the casino licensee . . . would have to be licensed by the Board as Non-Gaming employees." The commentator states that this could result in various regulatory and financial burdens. Has the Board considered the proposed changes recommended by this commentator? Without these changes, how will the Board avoid possible unnecessary costs for licensees?

Finally, the Preamble indicates that the rationale behind changing the definition is statutory provisions such as "[t]he Act requires that no Category 3 license shall be located within 15 linear miles of another licensed facility." As a result, "[q]uestions have been raised as to whether the 15 linear miles should be measured from the property line of the licensed facility or the building that houses the gaming floor." Given this concern, how does the proposed language address the confusion raised? If the purpose of the changes to the definition is solely to measure dis-

tance, has the Board considered including language restricting the new definition "for purposes of measuring linear distance between facilities only?"

**Department of Education
Regulation #6-305 (IRRC #2693)**

**Auditing of Approved Private Schools and
Chartered Schools for the Education of Deaf and
Blind Children**

July 2, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 3, 2008, *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Department of Education (Department) to respond to all comments received from us or any other source.

General.—Statutory authority.

In paragraph 9 of the Regulatory Analysis Form, the Department has identified as the statutory authority for this proposed regulation two provisions of the Public School Code specifically authorizing it to promulgate interim and final standards. 24 P. S. §§ 13-1376(c.8) and 13-1376.1(f.5). The authority to establish standards does not include the authority to regulate. Where the legislature intends to authorize the promulgation of regulations, it has done so explicitly. *Main Line Health, Inc., v. CAT Fund*, 738 A.2d 66 (Pa. Cmwlth. 1999), *affirmed* 777A.2d 1048 (Pa. 2001). Therefore, with submittal of the final-form regulation, the Department should further explain its statutory authority enabling this rulemaking.

Section 171.202. General guidelines.—Fiscal impact; Need; Reasonableness.

A commentator is concerned with the requirement, under Subsection (9), that reports from the independent auditors must be limited to the Approved Private School (APS) Program. The commentator asserts that the cost of preparation of a separate audit report for the APS program in addition to the standard audit report will impose a financial burden and reduce the funds available for direct student expenses. It suggests that the word "will" be changed to "may" to allow the APS to have the choice of submitting a separate report or including the report on the APS program within the standard audit report. To give an APS the opportunity to maximize its funds, we recommend the Department adopt the commentator's suggestion, or explain the need for two audit reports.

**State Athletic Commission
Regulation #16-41 (IRRC #2694)**

Mixed Martial Arts

July 9, 2008

We submit for your consideration the following comments on the proposed rulemaking published in the May 10, 2008, *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Athletic Commission (Commission) to respond to all comments received from us or any other source.

1. General.—Protection of the public health, safety and welfare; Implementation procedures; Clarity.

Referees

According to the Regulatory Analysis Form submitted with the proposed rulemaking, the Commission anticipates that 100 professional and 180 amateur mixed martial arts (MMA) contestants will seek licenses to compete in Pennsylvania. In addition, the Commission estimates that five or six referees will become licensed and that 15 to 20 MMA events will be held each year. We have two concerns. First, if the number of professional and amateur contestants and the number of events held each year is greater than the estimates noted above, will there be enough qualified referees to officiate all of the matches?

Second, we believe that having a sufficient number of qualified referees familiar with the regulation and other safety protocols is essential to protecting the health and safety of the contestants. What implementation procedures are in place to ensure that a sufficient number of qualified referees are available for this new form of competition? We understand that the rules for boxing referees found at 58 Pa. Code § 21.11 would apply to MMA referees. Are those regulations sufficient to ensure that MMA referees are adequately trained and prepared to officiate an MMA contest?

Commission approvals

Several places in this regulation state that approval from the Commission is needed for contestant equipment, ring set-up and other match-related items. However, it is not clear how these approvals will be granted by the Commission. The final-form regulation should specifically state how contestants and promoters must obtain the approvals required through this regulation. The approvals in question include Sections 29.4(b)(4), (c)(4) and (c)(6), 29.9(a) through (d), 29.25(a) and (b), 29.26(a) and 29.27(a) through (f).

2. Section 29.3. General requirements.—Clarity.

Fees

Subsection (b) requires a professional contestant to be licensed by the Commission. Commission staff indicates that the fees for boxing apply also to MMA contestants. For clarity, the Commission should add a cross-reference to the appropriate boxing fees.

Commission-approved forms

Subsection (c) requires a debut professional contestant to complete a “Commission-approved form.” The final-form regulation should state how this form is obtained. A similar concern applies to debut amateur contestants under Section 29.22(d).

3. Section 29.4. Ring or fenced area requirements.—Reasonableness; Clarity.

Subsection (d) requires the promoter to “thoroughly clean” the ring area after each match. However, it is not clear what constitutes a “thorough” cleaning. Does the Commission intend for the ring area to be disinfected or merely washed down between matches? The final-form regulation should specify acceptable methods for cleaning the ring.

4. Section 29.5. Duration of rounds.—Clarity.

Subsections (a) and (b) both include the phrase “except with the permission of the Commission or the Executive Director.” Is written permission required or can it be oral? The final-form regulation should clarify this point.

5. Section 29.12. Acts constituting fouls.—Clarity.

It is not clear what constitutes a “flagrant foul” under Subsection (a). We note that the term is not defined in this section, in Section 29.2 (relating to Definitions) or in the Athletic Code relating to Boxing (5 Pa.C.S.A. § 302). To be clear, this term should be defined in the final-form regulation. A similar concern applies to Section 29.29(a).

6. Section 29.17. Promoter licensing and bonding requirements.—Clarity.

Subsection (3) requires that the Commission be given at least ten days notice prior to an event and that the promoters must receive written approval from the Commission in order to hold that event. We have two concerns. First, it is not clear whether the notification should be received by the Commission “at least 10 days in advance of the event” or if it merely should be post-marked by that date. This notice requirement should be clarified in the final-form regulation.

Second, in what timeframe will the Commission respond in order to allow enough time for the promoter to receive “written approval” before the event?

HealthAmerica Pennsylvania, Inc.—HMO Conversion Rates; Eastern, Western and Southeastern Service Areas; Rate Filing

On June 27, 2008, HealthAmerica submitted a rate filing to replace the current conversion benefit with three new benefit options. This filing will affect approximately 270 contracts. The requested effective date of the change is January 1, 2009.

- Specialist/Outpatient Mental Health—Copay changed from \$10 to \$40 per visit.

- Diabetic Supplies—from \$8 copay to \$20 per script for equipment and supplies.

In addition, the rates will be changed from 4 tiers to 5 tiers by separating out the rates for Parent/Child and Parent/Children. The previous changes are being made in order to provide affordable and adequate health care coverage to the members and bring more personal accountability.

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth

STATE BOARD OF EDUCATION

**Application to Combine the Center Area School
District and Monaca School District**

Application and Opportunity for Hearing

Acting under section 224 of the Public School Code (School Code) (24 P. S. § 2-224), the Center Area School District and the Monaca School District (both situate in Beaver County) filed with the Secretary of Education (Secretary) an application for approval to combine as one school district. Under section 224 of the School Code, it is the responsibility of the State Board of Education (Board) to review the school districts' application and approve it

"as it deems wise in the best interest of the educational system of the Commonwealth."

As part of its consideration of an application of school districts to combine, the Board has the discretion under section 224 to permit any school district or interested party that is aggrieved by the application to file objections, stating why the application will cause it harm and the facts supporting that harm. In addition, the Board has the discretion generally to seek comment from the general public respecting the application to combine.

In accordance with section 224 of the School Code, the Board invites any school district or interested party aggrieved by the application to combine to file its objections to the application with the Board. Also, the Board invites any member of the public to submit written comments to the Board and to present testimony at public hearings that the Board will convene as part of its consideration of the application to combine. Objections and written public comment must be received by the Board at its offices at 333 Market Street, Harrisburg, PA 17126-0333 or jbuckheit@state.pa.us no later than August 8, 2008.

Background

Section 224 of the School Code provides as follows:

Any two or more school districts . . . may combine to create a larger school district. The board of school directors of each school district shall, by majority vote, adopt a resolution outlining the areas to be combined and file an application with the Secretary. The Secretary shall place such application on the agenda of the Board for its consideration.

The Board shall review the application and approve it as it deems wise in the best interest of the educational system of the Commonwealth.

The Board may continue the application on its agenda and may permit any school district or interested party, aggrieved by the petition, to file its objection. Such objection shall set forth the basis for and facts of aggrievement.

If an application is not approved it shall be returned to the applying districts for resubmission in accordance with such recommendations as may be attached thereto.

When an application receives approval, the Board shall direct the Secretary to issue a certificate creating the new school district, listing the name, constituting components, classification and effective date of operation.

24 P. S. § 2-224

On October 25, 2007, the Board of School Directors of the Center Area School District and the Board of School Directors of the Monaca School District jointly transmitted to the Secretary an application for approval to combine the two school districts. On November 30, 2007, the Secretary forwarded the application to the Board for placement on its agenda. On December 18, 2007, following the installation of new members of the boards of school directors, the Secretary and the Board agreed to defer for 60 days further consideration of the school districts' application. Following further discussions with representatives of the two school districts, the Secretary and the Board agreed to defer consideration of the application to combine until the school districts mutually agree to proceed.

On June 12, 2008, the Board of School Directors of the Center Area School District and the Board of School Directors of the Monaca School District each approved a revised application to combine. The school districts transmitted the revised application to the Secretary, which the Secretary transmitted to the Board on June 23, 2008. Copies of the application to combine, as well as other documents filed with the Board, are available from the offices of the Board, which may be reached at (717) 787-3787.

Procedure

In accordance with the regulations of the Board, 22 Pa. Code § 1.5 (relating to applicability of general rules before the Board), the application to combine will be considered under 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure) (General Rules). The chairperson of the Board has appointed a committee to conduct all necessary proceedings under section 224 of the School Code and the General Rules and to recommend final action by the Board under section 224 (relating to School Code).

The Board committee will conduct a public hearing on August 18, 2008, in the Auditorium of the Student Union

Building, Penn State University—Beaver Campus, 100 University Drive, Monaca, PA. There will be two sessions. The first will begin at 1:30 p.m. The second will begin at 6:30 p.m. Individuals wishing to provide testimony must register in advance. Individual oral testimony is limited to 10 minutes.
