READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

There are no restrictions on the republication of official documents appearing in the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted

proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Effective Dates of Statutes

The effective dates specified above for laws and appropriation acts were contained in the applicable law or appropriation act. Where no date is specified or where the effective date specified is prior to the date of enactment, the effective date is 60 days after final enactment except for statutes making appropriations or affecting budgets of political subdivisions. See 1 Pa.C.S. §§ 1701—1704 (relating to effective dates of statutes).

Advance Copies of Statutes

Section 1106 of Title 1 of the Pennsylvania Consolidated Statutes provides that the prothonotaries of each county shall file advance copies of statutes in their offices for public inspection until the Laws of Pennsylvania are generally available. Section 2406(h) of The Administrative Code of 1929 provides that the Department of General Services shall distribute advance sheets of the Laws of Pennsylvania to each law judge of the courts, to every county and public library of this Commonwealth, and to each member of the General Assembly. These copies shall be furnished without charge. The Department shall also mail one copy of each law enacted during any legislative session to any person who pays to it the sum of \$20.

Requests for annual subscriptions for advance copies of statutes should be sent to the State Bookstore, State Records Center Building, 1825 Stanley Drive, Harrisburg, PA 17103, accompanied by a check or money order in the sum of \$20, payable to the "Commonwealth of Pennsylvania".

THE COURTS

Title 204—JUDICIAL SYSTEM GENERAL PROVISIONS

PENNSYLVANIA COMMISSION ON SENTENCING Impact of '3-Strikes' Legislation (Act 21 of 1995)

Act 21 of 1995, referred to as the '3-strikes' legislation, increased the mandatory penalties for certain repeat violent offenders. Act 21 further mandated the Pennsylvania Commission on Sentencing to provide an impact statement on the projected increases in the prison population as a result of this legislation. This impact analysis was conducted by the Correctional Population Projection Committee, which is comprised of the Lancaster County Prison Warden, the York County Chief Adult Probation Officer along with representatives of the following agencies: Commission on Crime and Delinquency, Commission on Sentencing, Department of Corrections, Board of Probation and Parole, and Office of the Budget. Questions concerning this impact statement should be directed to Doug Hoffman, Chair, at (717) 787-5152., of the Pennsylvania Commission on Crime and Delinquency.

SENATOR DAVID HECKLER,
Chair

Impact Summary: Violent Offense Mandatories—Act 21 of 1995 expands the definition of Act 54 of 1982 to include the offenses of robbery of a motor vehicle and burglary of an occupied dwelling. It also added solicitation or conspiracy to commit any of the designated offenses to the list of offenses for repeat offenders. The act increases the mandatory sentences for second offenses from 5 to 10 years if the presumption that the offender is a "High Risk

Dangerous" offender has not been rebutted. The act increases mandatory minimum sentences for third and subsequent offenses to 25 years and allows the court to sentence these offenders to life in prison.

Analysis and Assumptions: Consistent with all previous special session bill impact analyses, the Committee assumed that all new sentences would be effective January 1, 1996. For this analysis, the Committee assumed that 90% of the offenders who meet the criteria for the second offense mandatories will be found to be "High Risk Dangerous" and receive the 10 year mandatory minimum sentence. The other 10% of second time offenders will receive the mandatory 5 year minimum sentence. For third and subsequent offenders, it was assumed that all offenders who met the criteria would receive at least the 25 year mandatory minimum sentence and that 20% of these offenders would receive a sentence of life imprisonment. While the imposition of these mandatory sentences is currently subject to the discretion of the prosecution, the new criteria and sentence length is expected to affect plea bargains and other sentences by lengthening those sentences. The following tables show the estimated impact of this bill through the year 2005. However, the long sentences, defined as those with minimum sentences of up to 25 years or a life sentence, mean that the maximum impact will not be experienced for 40 years, assuming the average life sentence will be 40 years (average offender age = 32 years). That impact has been included below the projection for the year 2005.

Note: All analyses produced by the Committee unless, stated otherwise, assume only the changes described in the analyzed bill will occur. Total impact of all bills enacted will require a separate analysis. Since a single offender may be affected by more than one bill, simply adding the individual impact estimates will not produce an accurate total impact estimate.

Estimated Impact of Act 21 of 1995 (3-strikes legislation)¹

Per Curiam:

Now, this 9th day of July, 1996, upon the recommendation of the Criminal Procedural Rules Committee; this

Recommendation having been published at 25 Pa.B. 5920 (December 23, 1995) and in the *Pennsylvania Reporter* (Atlantic Second Series Advance Sheets Vol. 672) before adoption, with a *Final Report* to be published with this Order:

It Is Ordered pursuant to Article V, Section 10 of the Constitution of Pennsylvania that Pa.R.Crim.P. 9022 is hereby amended in the following form.

This *Order* shall be processed in accordance with Pa.R.J.A. 103(b) and shall be effective September 1, 1996.

The Criminal Procedural Rules Committee has prepared a *Final Report* explaining the July 9, 1996 amendments to Rule of Criminal Procedure 9022 (Filing). The amendments provide that the clerk of courts forward to counsel of record any filings by a defendant represented by counsel, rather than docket such filings. The *Final Report* follows the Court's Order.

Annex A

TITLE 234. RULES OF CRIMINAL PROCEDURE

PART II. LOCAL AND MINOR COURT RULES

CHAPTER 9000. GENERAL PROVISIONS

Rule 9022. Filing.

(a) Except as otherwise provided in these rules, all written motions, and any notice or document for which filing is required, shall be filed with the clerk of courts.

(b) [**When**] Except as provided in paragraph (c), when a written motion, notice, or document is received by the clerk of courts, the clerk shall docket it and record the time of filing in the docket. A copy of these papers shall be promptly transmitted to such person as may be designated by the court.

(c) **In any case in which a defendant is represented by an attorney, if the defendant submits for filing a written motion, notice, or document that has not been signed by the defendant's attorney, the clerk of courts shall not docket or record it, but shall forward it to the defendant's attorney within 10 days of receipt.**

[(c)] (d) Filing may be accomplished by:

(1) personal delivery to the clerk of courts; or

(2) mail addressed to the clerk of courts, provided, however, that filing by mail shall be timely only when actually received by the clerk within the time fixed for filing.

Official Note: Adopted October 21, 1983, effective January 1, 1984; amended March 22, 1993, effective January 1, 1994; **amended July 9, 1996, effective September 1, 1996.**

Comment

This rule requires the filing of all written motions, but it applies to notices and other documents only if filing is required by some other rule or provision of law. As used here, "written motions" includes all motions, challenges, and applications or requests for an order or relief that must be made by written motion under Rule 9020(a). [**Filing was covered by former Rule 309(a) before adoption of this rule in 1983.**]

Those rules that provide for filing with the trial court or the sentencing court are not exceptions to the general requirement of this rule that filing be with the clerk of courts. As used in this rule, "clerk of courts" is intended to mean that official in each judicial district who has the

responsibility and function under state or local law to maintain the official court file and docket, without regard to that person's official title.

The second sentence of paragraph (b) is intended to provide flexibility to the local courts to designate the court official, such as a local court administrator, who processes motions and other matters for appropriate scheduling and disposition.

Paragraph (c) was added in 1996 to provide a uniform, statewide procedure for the clerks of courts to handle filings by represented defendants when the defendant's attorney has not signed the document being filed by the defendant. See Pa.R.A.P. 3304 (Hybrid Representation). Paragraph (c) only applies to cases in which the defendant is represented by counsel, not cases in which the defendant is proceeding pro se.

Committee Explanatory Reports: Final Report explaining the March 22, 1993 amendments published with the Court's Order at 23 Pa.B. 1699 (April 10, 1993).

Final Report explaining the July 9, 1996 amendments published with the Court's Order at 26 Pa.B. 3532 (July 27, 1996).

FINAL REPORT

*Amendments to Pa.R.Crim.P. 9022
Filings by Represented Defendants*

Introduction

On July 9, 1996, upon the recommendation of the Criminal Procedural Rules Committee, the Supreme Court amended Rule 9022 (Filing) to require, in any case in which a defendant is represented, that the clerk of courts forward to the attorney of record, within ten days of receipt, any documents filed by the defendant which have not been signed by the defendant's attorney. The amendment will be effective September 1, 1996. This Final Report highlights the Committee's considerations in formulating this amendment.¹

Discussion

The changes to Rule 9022 are necessary to address a recurring problem in criminal cases—how to handle cases in which a defendant who is represented by counsel submits documents to the clerk of courts for filing.

At the request of John P. Moses and James G. Morgan, Special Counsel and Solicitor, respectively, to the State Association of Prothonotaries and Clerks of Courts, the Committee reviewed the procedure set forth in Rule of Appellate Procedure 3304 (Hybrid Representation), which requires that submissions for filing by represented litigants be forwarded to the attorney of record without docketing. The Committee concluded that it made sense to establish a comparable procedure for criminal cases at the trial court level, thereby establishing a uniform procedure statewide for the handling of these "hybrid representation" cases, and that it made sense to incorporate the new procedure into Rule 9022 (Filing), which provides the procedures for the docketing and recording of papers submitted to the clerk of courts for filing in a criminal case. Specifically, new paragraph (c) requires that the clerk of courts forward to counsel of record, within ten days of receipt, any papers submitted for filing by a defendant who is represented by counsel if the papers are not signed by counsel. The last paragraph of

¹ Please note that the Committee's *Final Reports* should not be confused with the official Committee *Comments* to the rules. Also note that the Supreme Court does not adopt the Committee's *Comments* or the contents of the Committee's explanatory *Final Reports*.

the *Comment* makes it clear that the new provisions do not apply to any defendant who has elected to proceed *pro se*, and includes a cross-reference to Appellate Rule 3304.

Publication Responses

The Committee received nine letters in response to the publication of its explanatory *Report*. Four of the correspondents wrote in support of the proposed changes, three of the correspondents wrote to express their concern about the proposal, particularly in cases in which there is a dispute between the defendant and counsel. Other correspondents suggested different approaches for resolving the problem, such as returning the documents to the

defendant or accepting the filing if it relates to problems with counsel or a request for new counsel. After carefully reviewing all the correspondence, the Committee concluded that the proposal as published satisfactorily resolved the problem. However, paragraph (c) has been modified at the request of the Court to include a 10-day time limit. Accordingly, new paragraph (c) requires that the clerk of courts forward any filings within ten days of receipt.

RULES AND REGULATIONS

Title 7—AGRICULTURE

DEPARTMENT OF AGRICULTURE

[7 PA. CODE CH. 104]

Potato Research Program

The Department of Agriculture (Department) amends Chapter 104, Subchapter B (relating to potato research program) to read as set forth in Annex A. These amendments are adopted under the authority of sections 3, 10 and 11 of the Pennsylvania Agricultural Commodities Marketing Act of 1968 (act) (3 P.S. §§ 1003, 1010 and 1011) which, respectively, direct the Department to administer and enforce the act, allow the Department to involve agricultural commodity sales agents in the collection of producer charges and delegate to the Department the power to adopt regulations necessary to implement the act.

The final regulations clarify the obligation of an affected potato producer to account for its production and pay the appropriate producer charge in a timely manner.

Compliance with Executive Order 1996-1, Regulatory Review and Promulgation

The Department reviewed this order and considered its purpose and likely impact in accordance with Executive Order 1996-1, Regulatory Review and Promulgation. This order accomplishes regulatory amendments that will more equitably spread the costs of the Potato Research Program (Program) among those who benefit from it: the Commonwealth's potato producers. This order addresses a compelling public interest and is otherwise in compliance with Executive Order 1996-1.

Comments

Notice of proposed rulemaking was published at 25 Pa.B. 3873 (September 16, 1995), and provided for a 30-day public comment period.

No comments were received from the general public.

No comments were offered by the Independent Regulatory Review Commission (IRRC).

The House Agricultural and Rural Affairs Committee (House Committee) offered several comments:

Initially, the House Committee observed that the proposed definition of "potatoes" at § 104.13 (relating to definitions) included all "...varieties of Irish potatoes grown in the Commonwealth," and asked whether Irish potatoes are the only type of potatoes grown, or likely to be grown, within this Commonwealth.

In response, the Department has deleted the word "Irish" from the definition of "potatoes." The proposed definition of "potatoes" was modeled after the definition of that term in the Federal Potato Research and Promotion Plan, at 7 CFR 1207.306. In considering the House Committee's comment, though, the Department acknowledges that the proposed definition may have caused confusion or been less expansive than intended. The revised definition of "potatoes" is also more consistent with the Program order which established the Program.

The House Committee noted that § 104.14 (relating to producer charge) bases the assessment of a producer charge upon the number of acres of potatoes planted in a particular calendar year, while § 104.18 (relating to

calculation of minimum producer charge) allows the Program to calculate a minimum producer charge using a mathematical formula that relies on average county yield statistics. The House Committee asked for an explanation of the rationale behind basing producer charges upon potato acreage planted, rather than actual potato yields.

In response, the Department notes that the current Program order provides, at Article VII, Section A, that: "The rate of assessment shall be \$4.00 per acre on all potatoes planted." This specific provision was approved by a majority of affected potato producers in a referendum conducted in 1993. Prior to that time, the producer charge assessment was based upon actual potato production.

Under section 11 of the act, the Department must promulgate regulations necessary "...to enforce the provisions of any marketing program..." Given this requirement, the final regulations cannot establish a producer charge assessment procedure at variance with the assessment procedure set forth in the current Program order.

There is precedent for a commodity marketing program basing its producer charge assessment upon some factor other than production. The Pennsylvania Apple Marketing Program (PAMP) requires an apple producer to pay an apple production-based charge if the producer has 500 or more apple trees of all ages. This requirement links responsibility for payment of a producer charge with the number of apple trees owned—regardless of whether 500 or more of the apple trees are capable of bearing fruit during a particular growing season.

The House Committee also asked the Department to clarify whether it intends to calculate a minimum producer charge in accordance with § 104.18 only with respect to those producers who have not voluntarily complied with the Program.

The Department anticipates that the Program will conduct some random spot-audits of producers using the procedures established in §§ 104.16 and 104.17 (relating to accounting and payment; and responsibilities of sales agents).

It is expected that in the vast majority of cases, though, the Program will only calculate a minimum producer charge in accordance with § 104.18 when it has evidence that a particular producer's potato production outstrips the average county per-acre potato yield figures—thereby suggesting the producer under-reported the acreage from which the potatoes were produced.

Fiscal Impact

Commonwealth

The amendments impose no costs and have no fiscal impact upon the Commonwealth. The Program obtains its operating funds entirely from producer charges collected from Pennsylvania's potato producers.

Political Subdivisions

The amendments impose no costs and have no fiscal impact upon political subdivisions.

Private Sector

The amendments impose minimal costs and have only slight fiscal impact upon the private sector. These costs are not readily measurable. Although requiring certain sales agents to provide information regarding the potato production of potato growers with which they transact business might impose some minor cost upon the sales

agents, these costs would certainly be lower than the cost of requiring sales agents to actually collect producer charges on the Program's behalf.

General Public

The amendments will impose no costs and have no fiscal impact upon the general public.

Paperwork Requirements

The amendments are not expected to result in an appreciable increase in paperwork.

Contact Person

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)) the Department submitted a copy of the notice of proposed rulemaking published at 25 Pa.B. 3873 on September 5, 1995, to IRRRC and to the Chairpersons of the House and Senate Standing Committees on Agriculture and Rural Affairs for review and comment. In compliance with section 5(b.1) of the Regulatory Review Act, the Department also provided IRRRC and the Committees with copies of the comments received, as well as other documentation.

In preparing these final-form regulations, the Department has considered all comments received from IRRRC, the Committees and the public.

These final-form regulations were deemed approved by the House Committee on June 11, 1996, were deemed approved by the Senate Committee on June 11, 1996, and were deemed approved by the Commission on June 20, 1996, in accordance with section 5(c) of the Regulatory Review Act.

Findings

The Department finds that:

- (1) Public notice of intention to adopt the amendments encompassed by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.
- (2) A public comment period was provided as required by law and that all comments received were considered.
- (3) The modifications that were made to these regulations in response to comments received do not enlarge the purpose of the proposed amendments published at 25 Pa.B. 3873.
- (4) The adoption of the amendments in the manner provided by this order is necessary and appropriate for the administration of the authorizing statute.

Order

The Department, acting under the authorizing statute, orders that:

- (a) The amendments to the regulations of the Department, 7 Pa. Code Chapter 104, are amended by deleting § 104.11 and adding §§ 104.12, 104.14—104.16 and 104.18 to read as set forth at 25 Pa.B. 3873 (September 16, 1995) and by adding §§ 104.13 and 104.17 to read as set forth in Annex A.

- (b) The Secretary of Agriculture shall submit this order, 25 Pa.B. 3873 and Annex A to the Office of General Counsel and to the Office of Attorney General for approval as required by law.

- (c) The Secretary of Agriculture shall certify this order, 25 Pa.B. 3873 and Annex A and deposit them with the Legislative Reference Bureau as required by law.

- (d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

CHARLES C. BROSIUS,
Secretary

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission relating to this document, see 26 Pa.B. 3237 (July 6, 1996).)

Fiscal Note: Fiscal Note 2-99 remains valid for the final adoption of the subject regulations.

TITLE 7. AGRICULTURE

PART IV. BUREAU OF MARKET DEVELOPMENT

CHAPTER 104. ENFORCEMENT OF MARKETING PROGRAMS

Subchapter B. POTATO RESEARCH PROGRAM

§ 104.13. Definitions.

The following words and terms, when used in this subchapter, have the following meanings, unless the context clearly indicates otherwise:

Act—The Pennsylvania Agricultural Commodities Marketing Act of 1968 (3 P. S. §§ 1001—1013).

Affected producer—A person who produces or grows 5 or more acres of potatoes within this Commonwealth in a calendar year for sale or marketing.

Department—The Department of Agriculture of the Commonwealth.

PASS—The Pennsylvania Agricultural Statistics Service.

Person—An individual, firm, partnership, corporation, association or other business unit.

Potatoes—All varieties of potatoes grown in this Commonwealth.

Processor—A person who commercially processes potatoes into potato products, including frozen, dehydrated or canned potato products, potato chips, shoestring potatoes and flour.

Program—The Pennsylvania Potato Research Program.

Sales agent—A processor, a producer or a person who purchases, handles, receives, sells or contracts to sell potatoes originating from a producer. A producer may be a sales agent with respect to potatoes of his own production.

§ 104.17. Responsibilities of sales agents.

- (a) *Required records.* A sales agent whose business is located in this Commonwealth shall maintain records of the identity of each producer with respect to which it transacts business, the date of the transaction and the weight of the potatoes involved in the transaction. A transaction includes the purchase of potatoes from a producer, the handling of potatoes on behalf of a producer, the processing of potatoes on behalf of a producer, the receipt of potatoes from a producer, the sale of potatoes

on behalf of a producer and the contracting to sell potatoes on behalf of a producer.

(b) *Retention of records.* A sales agent who is required to keep records under subsection (a) shall retain these records for at least 2 calendar years beyond the calendar year within which the transaction occurred.

(c) *Demand for production of information.* The Program may issue a written demand for production of the records described in subsection (a) upon a sales agent whose business is located in this Commonwealth.

(d) *Contents of demand.* A demand for production of information shall set forth the following:

(1) The time period with respect to which information is sought.

(2) A general description of the information which must be produced. This description may include the names of specific producers with respect to which information is sought.

(3) The date by which the sales agent shall mail or deliver its response to the Program. This date shall be at least 14 days from receipt of the demand for production of information.

(4) A reference to the penalties which could be imposed upon the sales agent if it fails to respond, fails to respond completely or fails to respond within the time specified to a demand for production of information.

(e) *Sales agent's duty.* A sales agent whose business is located in this Commonwealth who receives a written demand for production of information is responsible for providing the requested information that is within the sales agent's possession or control within the time specified in the demand for production of information.

(f) *Option for designated handlers under the Potato Research and Promotion Act.* A sales agent who is also a designated handler under the Potato Research and Promotion Act (7 U.S.C.A. §§ 2611—2627) and its attendant regulations, 7 CFR 1207.512 and 1207.513 (relating to designated handler; and payment of assessments), may satisfy its duty under subsection (e) by providing the Program with a copy of the appropriate designated handler report described at 7 CFR 1207.513(c).

(g) *Penalty for noncompliance.* A sales agent whose business is located in this Commonwealth who fails to respond, or who fails to respond completely, or who fails to respond within the time specified to a demand for production of information shall be required to pay a penalty of at least \$100 but not more than \$300. An action seeking imposition of a penalty may be brought in the appropriate magisterial district.

PROPOSED RULEMAKING

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Toxic Pollutants in Tidal Delaware River

Amendments to the Comprehensive Plan, Water Code and Administrative Manual Regarding the Tidal Delaware River

Notice is hereby given that the Delaware River Basin Commission (Commission) will hold a public hearing in accordance with this notice to receive comments on modifications to its proposed amendments to its Comprehensive Plan, Water Code and Water Quality Regulations concerning water quality criteria for toxic pollutants, and policies and procedures to establish wasteload allocations and effluent limitations for point source discharges to Zones 2 through 5 (Trenton, New Jersey to the Delaware Bay) of the tidal Delaware River.

Dates: The public hearing will be held on Thursday, September 5, 1996, beginning at 10 a.m. and continuing as long as there are people present wishing to testify.

The deadline for inclusion of written comments in the hearing record will be 5 p.m. on September 5, 1996.

Addresses: The hearing will be held in the Goddard Conference Room of the Commission's offices at 25 State Police Drive, West Trenton, New Jersey.

Written comments should be submitted to Susan M. Weisman, Commission Secretary, Delaware River Basin Commission, P.O. Box 7360, West Trenton, New Jersey 08628.

For Further Information Contact: Susan M. Weisman, Commission Secretary at (609) 883-9500 ext. 203.

SUPPLEMENTARY INFORMATION

Background and Rationale

On October 5, 11 and 13, 1995, the Commission held public hearings on proposed amendments to its water quality regulations as noticed in 25 Pa.B. 3478 (August 26, 1995) and 25 Pa.B. 4007 (September 23, 1995). The public hearing record, originally scheduled to close on November 13, 1995, was extended by the Commission at its October 25, 1995, business meeting to December 13, 1995. Oral and written comments were received from 31 individuals and organizations as well as a coalition of 14 industrial and municipal dischargers to the Delaware Estuary.

As a result of comments received on that proposal and discussions with the Commission's Water Quality and Toxics Advisory Committees, the Commission has decided to modify its initial proposal. The proposal, as modified, is described below and is the subject of the September 5, 1996, public hearing.

Persons wishing to testify are requested to notify the Secretary in advance of the hearing.

The subjects of the hearing will be as follows:

Amendments to the Comprehensive Plan, Water Code of the Delaware River Basin and Administrative Manual—Part III Water Quality Regulations

Article 3 of the Water Code and Administrative Manual—Part III Water Quality Regulations sets forth

the water quality standards for the Delaware River Basin; Article 4 the application of those standards. These regulations apply to all waste dischargers, public and private, using the waters of the Delaware River Basin. It is proposed to:

1. Amend Article 3 of the Administrative Manual—Part III Water Quality Regulations, the Comprehensive Plan and Article 3 of the Water Code of the Delaware River Basin as follows:

a. Subsection 3.10.3C. and D. are added to read as follows:

C. Aquatic Life Objectives for Toxic Pollutants. It is the policy of the Commission to designate numerical stream quality objectives for the protection of aquatic life for the Delaware River Estuary (Zones 2 through 5) which correspond to the designated uses of each zone. Aquatic life objectives for the protection from both acute and chronic effects are herein established on a pollutant-specific basis for:

pollutants listed as toxic under section 307(a)(1) of the Clean Water Act for which the U.S. Environmental Protection Agency (EPA) has published final criteria,

other chemicals for which EPA has published final criteria under Section 304(a) of the act, and

pollutants and other chemicals in combinations.

Other toxic substances for which any of the three Estuary states have adopted criteria or standards may also be considered for the development of stream quality objectives.

1. For the purpose of determining compliance with stream quality objectives for the protection of aquatic life, the duration of exposure of aquatic organisms shall be 1 hour for acute objectives and 4 days for chronic objectives.

2. Stream quality objectives for cadmium, chromium, copper, lead, nickel, silver and zinc shall be expressed as the dissolved form of the metal. The factors presented in Tables 3 and 4 shall be used to convert total recoverable criteria published by the U.S. Environmental Protection Agency to dissolved stream quality objectives. In the absence of data to develop a factor for any of the metals, an adjustment factor of 1.0 shall be utilized. Stream quality objectives for other metals shall be expressed as the concentration of the total recoverable form of the metal.

D. Human Health Objectives for Toxic Pollutants. It is the policy of the Commission to designate numerical stream quality objectives for the protection of human health for the Delaware River Estuary (Zones 2 through 5) which correspond to the designated uses of each zone. Stream quality objectives for protection from both carcinogenic and systemic effects are herein established on a pollutant-specific basis for:

pollutants listed as toxic under section 307(a)(1) and other toxic pollutants, and

other chemicals for which EPA has published final criteria under section 304(a) of the act.

Other toxic substances for which any of the three Estuary states have adopted criteria or standards may also be considered for the development of stream quality objectives.

1. An objective to protect against carcinogenic effects shall only be established if the pollutant is classified A, B

or C under the U.S. EPA classification system for carcinogens, and if a cancer potency factor (CPF) exists in IRIS.

2. An objective to protect against systemic effects shall only be established for a pollutant if a reference dose (RfD) exists in IRIS. An additional safety factor of 10 shall be utilized in establishing the stream quality objectives to protect against systemic effects for pollutants classified as carcinogens if a CPF is not available in IRIS.

3. In the absence of toxicological data for an RfD or CPF in IRIS, data published in the 1980 U.S. EPA water quality criteria documents will be considered.

4. In establishing stream quality objectives for carcinogens, the level of risk is established at 10^{-6} or one additional cancer in every 1,000,000 humans exposed for a lifetime (70 years).

5. For the purpose of determining compliance with human health stream quality objectives, the duration of exposure shall be 70 years for carcinogens and 30 days for systemic toxicants.

6. A rate of ingestion of water of 2.0 liters per day is assumed in calculating objectives for river zones where the designated uses include public water supplies after reasonable treatment. A rate of ingestion of fish of 6.5 grams per day (equivalent to consuming a 1/2 pound portion every 35 days) is assumed in calculating freshwater stream quality objectives for human health. A rate of ingestion of fish of 37 grams per day (equivalent to consuming a 1/2 pound portion every 6 days) is assumed in calculating marine stream quality objectives for human health.

7. Maximum Contaminant Levels (MCLs) shall be applied as stream quality objectives in Zones 2 and 3 which are designated for use as public water supplies for those toxic pollutants where the MCL value is more stringent than the calculated human health objectives for carcinogens or systemic toxicants.

8. Numerical criteria for toxic pollutants to protect the taste and odor of ingested water and fish shall be applied as stream quality objectives in the Estuary if these criteria are more stringent than the calculated human health objectives for carcinogens or systemic toxicants.

b. Subsection 3.10.5D. is revised to read as follows:

D. *Streamflow*. Numerical stream quality objectives are based on a minimum consecutive 7-day flow with a 10-year recurrence interval unless otherwise specified.

c. Subsection 3.10.5E. is added to read as follows:

E. *Requests for Modification of Stream Quality Objectives*. The Commission will consider requests to modify the stream quality objectives for toxic pollutants based upon site-specific factors. Such requests shall provide a demonstration of the site-specific differences in the physical, chemical or biological characteristics of the area in question, through the submission of substantial scientific data and analysis. The demonstration shall also include the proposed alternate stream quality objectives. The methodology and form of the demonstration shall be approved by the Commission.

d. Subsections 3.10.6H. through P. are added to read as follows:

H. *IRIS*. The Integrated Risk Information System established and maintained by the U.S. Environmental Protection Agency. An electronic data base containing information on the toxicity and carcinogenicity of individual substances which can be accessed by regulatory agencies and the public.

I. *Carcinogen*. A substance for which there is no level of exposure that does not pose a small, finite probability of inducing benign or malignant tumors.

J. *Systemic Toxicant*. A substance having a threshold exposure which must be exceeded before deleterious effects (other than cancer) are observed in organ systems.

K. *Acute Effects*. Effects (including but not limited to lethality) due to exposure to a toxicant over a short time period.

L. *Chronic Effects*. Effects (including but not limited to reduced reproduction, reduced growth and lethality) due to exposure to a toxicant over a relatively long period of time relative to the life span of the exposed organism.

M. *Cancer Potency Factor (CPF)*. The slope of the dose response curve in the low dose region expressed as the risk per milligram of a toxic substance per kilogram of body weight per day (mg/KG/day)⁻¹.

N. *Reference Dose (RfD)*. The daily exposure to a substance that is likely to be without an appreciable risk of deleterious effects during a lifetime expressed as milligram of the substance per kilogram of body weight per day (mg/KG/day).

O. *Maximum Contaminant Level (MCL)*. The maximum permissible level of a contaminant in water which is delivered to any user of a public water system.

P. *Stream Quality Objectives*. Numeric values for specific pollutants and narrative descriptions of the quality of a waterbody that will assure that the designated uses of the waterbody, including the protection of aquatic life and human health, are achieved.

e. Subsection 3.30.2C.14. is added to read as follows:

14. *Toxic Pollutants*.

a. Applicable MCLs and criteria to protect the taste and odor of ingested water and fish are presented in Tables 5 and 6.

b. Applicable freshwater stream quality objectives for the protection of aquatic life are presented in Table 7.

c. Applicable freshwater stream quality objectives for the protection of human health are presented in Tables 8 and 9.

f. Subsection 3.30.3C.15. is added to read as follows:

15. *Toxic Pollutants*.

a. Applicable MCLs and criteria to protect the taste and odor of ingested water and fish are presented in Tables 5 and 6.

b. Applicable freshwater stream quality objectives for the protection of aquatic life are presented in Table 7.

c. Applicable freshwater stream quality objectives for the protection of human health are presented in Tables 8 and 9.

g. Subsection 3.30.4C.12. is added to read as follows:

12. *Toxic Pollutants*.

a. Applicable criteria to protect the taste and odor of ingested water and fish are presented in Table 6.

b. Applicable freshwater stream quality objectives for the protection of aquatic life are presented in Table 7.

c. Applicable freshwater stream quality objectives for the protection of human health are presented in Tables 8 and 9.

h. Subsection 3.30.5C.11. is added to read as follows:

11. *Toxic Pollutants.* Freshwater stream quality objectives apply in areas upstream of the Delaware Memorial Bridges (River Mile 68.75), and the more stringent of the freshwater or marine stream quality objectives apply in areas below RM 68.75.

a. Applicable criteria to protect the taste and odor of ingested water and fish are presented in Table 6.

b. Applicable freshwater and marine stream quality objectives to protect aquatic life are presented in Table 7.

c. Applicable freshwater and marine stream quality objectives to protect human health are presented in Tables 8 and 9.

2. Amend Article 4 of the Administrative Manual—Part III Water Quality Regulations as follows:

a. Subsection 4.20.4B. is revised to read as follows:

B. so that the assimilation of such waste by the interstate waters will not result in a violation of such water quality criteria.

1. For the purposes of establishing wasteload allocations for toxic pollutants for the Delaware River Estuary, the lower of the 95th percentile of the available data at the appropriate criteria duration, or the water quality criterion at or above the head of the tide shall be used to establish boundary conditions.

b. Subsection 4.20.5 is added to read as follows:

4.20.5 Application of Criteria for Toxic Pollutants.

A. Delaware River Estuary.

1. In establishing wasteload allocations and other effluent requirements, exceedances of stream quality objectives for the protection of aquatic life from acute effects may be permitted in small areas near outfall structures, provided that all of the following requirements are met.

a. The dimensions of the area where objectives are exceeded shall be limited to the more stringent of the following restrictions:

1). a distance of 50 times the discharge length scale in any direction from the outfall structure, or

2). a distance of 5 times the local water depth in any direction from the outfall structure.

b. Stream quality objectives shall not be exceeded in areas designated as critical habitat for fish and benthic organisms.

c. Stream quality objectives shall not be exceeded where effluent flows over exposed benthic habitat prior to mixing with the receiving waters.

d. A zone of passage for free-swimming and drifting organisms equal to 50% of the surface width of the river at the location of the discharge shall be provided.

e. The total surface area of the Delaware River Estuary where stream quality objectives for the protection of aquatic life from acute effects are exceeded shall be limited to:

- 1). 5% of the total surface area of Zones 2, 3 and 4, and
- 2). 5% of the total surface area of Zone 5.

f. Upon the request of one or more dischargers, the Executive Director may consider requests for alternatives to the requirements of subsections a. through e. of section 4.20.5.A.1. Such requests shall provide a demonstration that the alternative requirement requested will not adversely impact free-swimming, drifting and benthic organisms. The demonstration(s) shall provide a sound rationale, and be supported by substantial scientific data and analysis. The methodology and form of the demonstration shall be approved by the Executive Director. The Executive Director may reject any requests which are not substantive, and may establish more restrictive areas where acute stream quality objectives may be exceeded based upon the evaluation of submitted demonstrations.

g. The Executive Director may consider requests to conduct studies to confirm the mixing characteristics and the predicted dilution isopleths of a discharge. Such requests shall provide a demonstration based upon sound scientific and technical rationale, and be supported by substantial data and analysis. The methodology and form of the demonstration shall be approved by the Executive Director. The Executive Director may reject any requests which are not substantive, and may establish areas where acute stream quality objectives may be exceeded that are less or more restrictive based upon the evaluation of submitted demonstrations.

2. For those stream quality objectives whose numerical value is related to hardness, a median hardness value of 74 mg/l as CaCO₃ shall be used to represent the hardness of the receiving water for the purposes of determining the numerical value of those objectives. This median hardness value shall be used to establish the aquatic life objective for protection from chronic effects; and in conjunction with the site-specific median hardness value of the effluent and the dilution factor, the aquatic life objective for protection from acute effects.

3. For those stream quality objectives whose numerical value is related to pH, a median pH value of 7.1 shall be used to represent the pH of the receiving water for the purposes of determining the numerical value of those objectives. This median pH value shall be used to establish the aquatic life objective for protection from chronic effects; and in conjunction with the site-specific median pH value of the effluent and the dilution factor, the aquatic life objective for protection from acute effects.

4. *Assumptions for Estuarine Mixing.* Complete vertical and lateral mixing shall be assumed in the Estuary in applying chronic aquatic life and human health stream quality objectives under design conditions. Site-specific data which does not support this assumption will be considered by the Commission in establishing allocations to discharges.

5. *Deriving Total Recoverable Wasteload Allocations for Metals.* Wasteload allocations developed from the dissolved stream quality objectives for seven cationic metals shall be converted into total recoverable wasteload allocations using a translator. The translator shall be determined using procedures specified by the Commission. In the absence of data to develop a translator for any of the metals, the reciprocal of the factor used to convert the total recoverable water quality criteria to a dissolved stream quality objective shall be used for the translator.

B. Definitions.

1. *Critical Habitat.* Specific areas within the tidal Delaware River which are or could be occupied by a

species absent the toxic effect of pollutants; and which have those physical, chemical and biological features which are essential to the conservation and maintenance of the Delaware Estuary population. The Commission shall identify and determine critical habitat within the tidal Delaware River. Such determination shall consider the spatial and temporal requirements of the species including critical life stages. Determinations shall be governed by the Commission's Rules of Practice and Procedure relating to review, hearing and decisions of objections thereto.

2. *Discharge Length Scale.* The square root of the cross-sectional area of any discharge outlet.

c. Subsection 4.30.7A.4.a. is revised to read as follows:

a. The reserve in each zone shall be utilized to accommodate new discharges or major revisions to an allocation, or any reallocation, when appropriate in the judgment of the Commission.

d. Subsection 4.30.7A.5. is revised to read as follows:

5. *Reallocations.*

a. *Carbonaceous Oxygen Demand*

1). All allocations shall be subject to review by the Commission and, after such review, the Commission may make such reallocation as it deems necessary.

2). If any factors upon which an individual allocation is based change significantly, application shall be made to the Executive Director for a revised allocation.

3). Whenever the reserve in a zone approaches depletion, or when the full use of the assimilative capacity is approached, or when in the judgment of the Commission, the allocations existing at that time are no longer equitable, the capacity in the zone, minus a reserve, will be reallocated among the waste dischargers in that zone.

b. *Toxic Pollutants*

1). All allocations shall be subject to review by the Commission and, after such review, the Commission may make such reallocation as it deems necessary.

2). If any factors upon which an individual allocation is based change significantly, application shall be made to the Executive Director for a revised allocation. The Executive Director shall provide notice to interested and affected parties prior to establishing the revised allocation.

3). Allocations shall, as a minimum, be reviewed and, if required, revised every 5 years, or as directed by the Commission.

e. Subsection 4.30.7A.8. is added to read as follows:

8. *Design Effluent Flow.* For the purpose of determining the waste assimilative capacity of a stream and the wasteload allocations for discharges of toxic pollutants, the following design effluent flows will be used:

a. For industrial wastewater treatment plant discharges covered by Effluent Limitations Guidelines (ELG) promulgated by the U.S. EPA, the effluent design flow shall be the average daily flow associated with:

1). the month having the highest monthly production rate of the previous 12 months or, if greater,

2). the year having the highest annual production rate of the previous 5 years.

b. If the discharge from an industrial wastewater treatment plant is not covered by Effluent Limitations Guidelines (ELG) promulgated by the U.S. EPA, is mixed

with stormwater or cooling water or production data are not available, the effluent design flow shall be the average daily flow associated with:

1). the month with the highest monthly flow rate of the previous 12 months, or if greater,

2). the year having the highest annual flow rate of the previous 5 years.

c. For municipal wastewater treatment plant discharges, the effluent design flow shall be the higher of:

1). the average daily flow of the plant for the previous 3 years including a growth factor based upon a 5-year projection, if available, or

2). the design capacity of the plant expressed as the annual average flow.

f. Subsection 4.30.7B.2. is added to read as follows:

2. *Toxic Pollutants.* Under sections 3.10.4.E. and 4.30.7.A. of these regulations, the Commission shall establish wasteload allocations and other effluent requirements that may be necessary to meet the stream quality objectives for toxic pollutants contained in section 3.30.

a. *Reserve.* A reserve allocation of 5% of the Total Maximum Daily Load (TMDL) shall be established as a part of an allocation or reallocation, by increasing the effluent design flow by 5%.

b. *Margin of Safety.* As part of an allocation or reallocation, a proportion of the Total Maximum Daily Load shall be established as a margin of safety. The proportion established shall reflect the degree of uncertainty in the data and resulting water quality-based controls.

c. *Allocation to Discharges.*

1). Wasteload allocations shall be established for continuous point source discharges to address acute aquatic life protection, chronic aquatic life protection and both carcinogenic and systemic toxicants.

a). The water quality objective for the establishment of any allocation or reallocation shall be the stream quality objectives contained in section 3.30. If the background concentration of a toxic pollutant at the appropriate criteria duration exceeds the stream quality objective as a result of loadings from sources not subject to control, then the water quality objective shall be the background concentration of the pollutant.

b). The minimum flows for aquatic life protection and to protect the taste and odor of ingested water and fish are based on a minimum consecutive 7-day flow with a 10-year recurrence interval for all tributaries; and for the Delaware River, a flow of 2500 cfs at Trenton. For the protection of human health, the harmonic mean flow shall be used for carcinogens, and the minimum consecutive 30-day flow with a 5-year recurrence interval shall be used for systemic toxicants.

2). Allocations shall be determined by the Executive Director using the procedure described in section 4.30.7.B.2.c.4). or alternative procedures that are consistent with the doctrine of equitable apportionment, and achieve the following:

a). assure compliance with applicable stream quality objectives;

b). provide maximum equity among competing discharges; and

c). minimize the overall cost of compliance.

3). The loadings of toxic pollutants identified in section 4.30.7.B.2.c. shall be allocated among individual continuous point source discharges which meet any of the following criteria:

a). The discharge has an existing permit limit for the parameter,

b). Effluent data indicates the presence of the parameter, or

c). The reasonable potential exists for the parameter to occur in the discharge.

4). Allocations for continuous point source discharges will be based upon the equal marginal percent reduction procedure which has been determined to be consistent with the requirements of section 4.30.7.B.2.c.2). This procedure requires all dischargers, whether they are part of a multiple discharge wasteload allocation scenario or not, to provide treatment of their wastewater to achieve the applicable water quality standard; and in addition, requires some dischargers to provide additional treatment due to the cumulative impact of all discharges.

a). Alternative wasteload allocation procedures may be considered by the Commission if they provide timely compliance with section 4.30.7.B.2.c.2). and include the consent of all dischargers affected by the alternative procedure.

b). Discharges meeting any of the requirements of section 4.30.7.B.2.c.3). will be assigned an initial loading based upon the following information in order of preference:

i). The average monthly limit obtained from effluent guideline limitations promulgated by the U.S. Environmental Protection Agency for the point source category applicable to the discharge,

ii). Any average monthly limitation for the parameter in the current discharge permit,

iii). Monitoring data of sufficient quantity and quality, as determined by the Executive Director, to characterize the concentration of the parameter in the discharge, or

iv). Minimum performance standards established by the Executive Director for industrial and municipal wastewater treatment plants discharging to the tidal Delaware River. In assigning the initial loading, the average loading at the appropriate criteria duration will be calculated using the coefficient of variation (CV) calculated from monitoring data or a default value of 0.6 in the absence of data of sufficient quantity and quality, as determined by the Executive Director.

c). Discharges contributing to an exceedance of a stream quality objective due to the cumulative effect of all discharges may not be required to provide additional treatment or loading reduction if the discharge does not represent a significant proportion of the marginal loading.

5). Allocations established by the Executive Director and reallocations required under section 4.30.7.A.5.b.2). shall be published in a document containing the specific procedures, tools and assumptions used to derive the allocations.

6). Wasteload allocations established under section 4.30.7.B.2.c. shall be referred to the appropriate agency of the signatory parties, respectively, for use, as appropriate, in developing effluent limitations, schedules of compliance and other requirements in permits.

d. *Adjustment for Pollutants in Intake Water.* Wasteload allocations established for an industrial discharge may be

adjusted by the Executive Director, in consultation with the appropriate agency of the signatory parties, to account for pollutants present in water withdrawn for use by the facility from the receiving water provided that the following conditions are met:

- 1). In the absence of pollutants in the water withdrawn, there would be no exceedance of the stream quality objectives for toxic pollutants;
- 2). Pollutants in the discharge resulting from any other activity, operation or materials used or produced at the facility do not significantly contribute to an exceedance of the stream quality objectives for toxic pollutants contained in section 3.30.;
- 3). No statistically significant difference can be detected between the intake and effluent concentrations and loadings of a toxic pollutant based upon a rigorous analysis of data representative of operating and ambient conditions at the facility; and
- 4). No practicable alternative source of intake water is available.

g. Subsection 4.30.7C. is added to read as follows:

C. *Definitions.*

1. *Wasteload Allocation.*

The portion of the Total Maximum Daily Load of a body of water or section thereof that is allocated to an existing or future point source of pollution. Or, any limitation on the loading and/or concentration of a pollutant discharged from a point source required to ensure that stream quality objectives are not exceeded.

2. *Total Maximum Daily Load (TMDL).* The maximum daily loading of a pollutant from all sources which still ensures that water quality objectives are met.

3. *Margin of Safety.* A factor that takes into account any uncertainty or lack of knowledge about the relationship between pollutant loadings and the quality of the receiving water.

4. *Marginal Load.* The portion of the loading of a pollutant that contributes to an exceedance of a stream quality objective when the cumulative loading from all point sources is considered.

5. *Effluent Limitations Guidelines.* Effluent limitations for pollutants for categories and classes of point sources promulgated by the U.S. Environmental Protection Agency under section 301 of the Clean Water Act which reflect the best available treatment technology.

6. *Harmonic Mean Flow.* The flow value corresponding to the number of daily flow measurements divided by the sum of the reciprocals of the flows.

7. *Background Concentration.* The concentration of a toxic pollutant at any point in the Estuary that results from loadings from tributaries, sediments (if applicable), and any point or non-point sources not subject to control in the current allocation or reallocation.

8. *Continuous Point Source Discharge.* A discharge of wastewater permitted under the National Pollutant Discharge Elimination System (NPDES) which occurs without interruption during the operating hours of a facility except for infrequent shutdowns, and is not primarily dependent on precipitation-induced flows.

9. *Long-term Average Concentration.* The mean concentration of a toxic pollutant in the effluent that represents the desired performance of a wastewater treatment plant.

10. *Minimum Performance Standards.* The long-term average concentration for an parameter for which stream quality objectives have been established under section 3.10.3.C. or D.

a. For volatile and non-volatile organic chemicals, the standard is the maximum for a monthly average specified in the effluent guideline limitations for the Organic Chemicals, Plastics, and Synthetic Fibers (OCPSF) industrial category, or the highest reported effluent value for activated sludge treatment specified in the U.S. EPA's Water Engineering Research Laboratory data base.

b. For chlorinated pesticides and polychlorinated biphenyls, the standard is the Practical Quantitation Limit (PQL) for the compound.

c. For metals and indicator parameters, the standard is the average concentration of the parameter in industrial or municipal treatment plant discharges to the Estuary.

3. Amend Interpretive Guideline No. 1 of the Administrative Manual—Part III Water Quality Regulations as follows:

a. Subsection A.(1)a. is revised to read as follows:

a. *Toxic Substances.* The following limits shall apply in Basin waters other than Zones 2, 3, 4 and 5.

b. Subsection B.(2)b. is revised to read as follows:

b. *Toxicity.* The following requirements shall apply in Basin waters other than Zones 2, 3, 4 and 5.

DEPARTMENT OF AGRICULTURE

[7 PA. CODE CH. 59]

Deletion of Grade AA Regulatory Standards for Milk

The Department of Agriculture (Department) proposes to amend Chapter 59 (relating to milk sanitation) by deleting all current provisions that allow milk to be designated Grade AA.

The statutory authority for these regulatory amendments is the act of July 2, 1935 (P. L. 589, No. 210) (31 P. S. §§ 645—660f), which authorizes the Department to

regulate the production, processing, storage and packaging of milk to safeguard human health.

Under current regulations, milk processed within this Commonwealth may be designated Grade AA if it meets prescribed chemical, bacteriological and temperature standards. This Grade AA standard, though, is in direct conflict with the requirements of the Nationwide compact under which Grade A milk moves unimpeded in interstate commerce. The regulatory amendment is necessary to keep Pennsylvania-produced milk and milk products competitive in interstate commerce, and to prevent the imposition of embargoes or burdensome inspection or certification requirements upon Pennsylvania-produced milk and milk products by other states.

The Commonwealth is a participant in the National Conference of Interstate Milk Shippers (NCIMS). The NCIMS is an organization created by the United States Food and Drug Administration Milk Safety Branch, state regulatory agencies and the Nation's dairy industry to standardize regulations to ensure the safety of the milk supply and to facilitate the interstate shipment of milk. Prior to NCIMS individual states—and even individual municipalities—had established milk sanitation or testing requirements that impeded the flow of milk in interstate commerce. The NCIMS developed a uniform set of standards—the Grade A Pasteurized Milk Ordinance—which, when adhered to by a member state, allows that state's milk to move in interstate commerce to other member states without those states imposing any further sanitation or testing requirements.

Since the 1950's, the Department has allowed limited use of a Grade AA designation for certain dairy products produced in this Commonwealth. As early as 1953, though, the Department and the Commonwealth's dairy processors were aware the NCIMS standards for Grade A milk prohibited the use of super-grade designations such as Grade AA.

The Commonwealth gained NCIMS in compliance status in the late 1970's.

The Department revised its milk sanitation regulations in 1982 and planned to delete the provisions relating to Grade AA at that time. A committee of dairy processors requested the retention of Grade AA standards and agreed to refrain from seeking certification for the interstate shipment of their pasteurized milk in exchange for the retention of these standards. The Department acceded to this request and retained the Grade AA standards.

Although the Department believed retention of the Grade AA standard for certain milk processed and sold only within this Commonwealth would not put other NCIMS member states at a competitive disadvantage, this has not proven to be the case. Out-of-State dairy processors who produce Grade A milk in accordance with the NCIMS Grade A Pasteurized Milk Ordinance (PMO) and attempt to market their milk in this Commonwealth are at some disadvantage when competing with products bearing a Grade AA designation.

On December 27, 1995, the NCIMS Council III (of which the Commonwealth is a member) ruled, in a 19-to-1 decision, that the Commonwealth's Grade AA standards violate the NCIMS's Grade A PMO. On January 8, 1996, the NCIMS Executive Board adopted this decision.

The NCIMS has made clear its intention to designate the Commonwealth as a state that is not in compliance with the NCIMS Grade A PMO if the Commonwealth

does not promptly delete its Grade AA standard. The Grade A PMO plainly states (at Part II, Section 4) that:

... The use of super grade designations shall not be permitted. Grade designations such as "Grade AA Pasteurized" ... give the consumer the impression that such a grade is significantly safer than Grade A. Such an implication is false, because the Ordinance requirements for Grade A pasteurized, ultrapasteurized or aseptically processed milk when properly enforced, will insure that this grade of milk will be as safe as milk can practicably be made.

Grade AA milk represents less than 5% of this Commonwealth's dairy output. Grade A milk, by contrast, represents over 90% of this Commonwealth's dairy output. If the Department deletes its Grade AA regulatory standards, current Grade AA processors will be affected. If the Department fails to delete its Grade AA regulatory standards, the NCIMS will take action that would seriously impede the marketability of Pennsylvania-produced Grade A milk in interstate commerce.

If the NCIMS designates this Commonwealth as a state that is not in compliance with the Grade A PMO, the immediate effect would be to allow member states to embargo Pennsylvania-produced milk or impose sanitation, testing or compositional requirements that would impede the interstate flow of that milk. For example, the state regulatory agency overseeing Maryland's dairy industry has stated it would require Pennsylvania dairy processors to be inspected by Maryland inspection personnel as a prerequisite to the importation of Pennsylvania-produced milk into Maryland.

This Commonwealth is an exporter of dairy products. Its dairy production far outstrips its consumption. The vast majority of this Commonwealth's dairy production is geared for compliance with the NCIMS standards in order to facilitate this export industry. On balance, the Department agrees the Grade AA regulatory standards must be deleted in order to protect this important export industry.

Fiscal Impact

Commonwealth

The proposed amendments would impose no costs and have no fiscal impact upon the Commonwealth.

Political Subdivisions

The proposed amendments would impose no costs and have no fiscal impact upon political subdivisions.

Private Sector

The proposed amendments may impose some costs upon the Pennsylvania-based dairy processors that currently produce milk meeting Grade AA requirements. Although the proposed amendments would decrease the testing costs borne by these dairy processors, these processors might suffer some short-term financial loss as customers familiar with the Grade AA designation on milk containers from these dairy processors encounter Grade A designations for the first time. It is not known whether these losses would be entirely offset by decreased testing costs.

The result of failing to proceed with these proposed amendments would be to subject Pennsylvania-produced milk and milk products to embargoes or testing requirements of other NCIMS member states. The adverse fiscal impact on this Commonwealth's dairy industry would be immediate and dramatic, and would far outweigh any adverse fiscal impact which this Commonwealth's Grade AA dairy processors might suffer if the regulation is promulgated.

General Public

The proposed amendments would impose no costs and have no fiscal impact upon the general public.

Paperwork Requirements

The proposed amendments would not result in an increase in paperwork.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Department submitted a copy of the proposed amendments on July 17, 1996, to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Standing Committees on Agriculture and Rural Affairs. In addition to the proposed amendments, the Department provided IRRC and the Committees with a copy of a detailed regulatory analysis form prepared by the Department in compliance with Executive Order 1982-2, "Improving Government Regulations," and Executive Order 1996-1, "Regulatory Review and Promulgation." A copy of this material is available to the public upon request.

If IRRC has an objection to any portion of the proposed amendments, it must notify the Department within 30 days of the close of the public comment period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the proposed amendments, by the Department, the General Assembly and the Governor of the objections raised.

Contact Person

All interested persons are invited to submit written comments regarding the proposed amendments within 30 days following publication in the Pennsylvania Bulletin. Comments are to be submitted to the Department of Agriculture, Bureau of Food Safety and Laboratory Services, 2301 North Cameron Street, Harrisburg, PA 17110-9408, Attention: James Dell.

Effective Date

The proposed amendments will become effective upon final adoption.

Supervision of Children

The purpose of this statement of policy is to clarify the requirement for supervision of children in child day care centers and group day care homes in order to assure that children in care are supervised at all times.

Discussion

The proper supervision of children in care is a critical health and safety issue. Children who are not properly supervised are more likely to be injured or wander into unsafe situations. Facilities are required to maintain staff: child ratios as specified in regulations at all times when children are in the care of the facility, including times when children are transported by the facility on a vehicle and when children are on a facility field trip.

The Department of Public Welfare (Department) reviewed the requirements relating to supervision of children in child day care centers and group day care homes and determined that it is necessary to issue policy clarifying the requirement to supervise children at all times (§§ 3270.113(a) and 3280.113(a)).

Interpretation

The phrase "supervised at all times" means that each staff person shall be assigned the responsibility for supervision of specific children. The staff person shall know the names and whereabouts of the children in his assigned group. The staff person must be physically present with the children in this group.

Departmental Access to the Facility Premises

The purpose of this statement of policy is to inform child day care facility operators that agents of the Department of Public Welfare (Department) will inspect all areas of the facility premises that are accessible to children.

Discussion

Current regulations require that a staff person shall provide to agents of the Department immediate access to the facility, children, files and records (§§ 3270.24, 3280.23 and 3290.21). The Department's inspection has been confined to areas of the facility identified by the operator for use by the children in care.

Following a child's death in a pool that was declared by the operator to be off-limits for children in care, the Department has determined to clarify its position regarding the extent of its inspection. The Department determines that an area of the facility not identified for use by children in care may nonetheless be accessed by a child. Conditions in that area may pose a hazard to a child who enters the area. The Department's agents are responsible to determine the hazardous condition of any area of a premise that may be accessible to children.

Interpretation

Agents of the Department will inspect the safety of all areas of the child day care facility premises that are accessible to children.

DEPARTMENT OF PUBLIC WELFARE

[55 PA. CODE CHS. 3270, 3280 AND 3290]

Inaccessibility of Aboveground Swimming Pools

The purpose of this statement of policy is to clarify the Department of Public Welfare's (Department) policy regarding inaccessibility of aboveground swimming pools.

Discussion

Swimming pools are inherently hazardous and children are inherently curious. They are often unaware of the potential drowning dangers associated with pools. In the summer of 1995, a child in care in a group day care home drowned in a swimming pool at the facility. As a result of that incident, the Department has determined it is necessary to clarify the current regulations that require that an above-ground pool which is not in use shall be made inaccessible to children (§§ 3270.115(a)(3), 3280.115(a)(3) and 3290.115(a)(2)).

The operator's assertion that an aboveground swimming pool is off-limits or inaccessible to children is not sufficient to constitute compliance with these regulations. Training has been provided to day care licensing representatives regarding assessing the potential for children

to access an aboveground swimming pool. If a licensing representative determines that a child can access a pool, the pool will be considered accessible to children and therefore not in compliance with the Department's regulations. The operator will be required to render the pool inaccessible to children. The Department must be satisfied that as the result of the correction, no child will be able to access the pool. All aboveground pools will be inspected according to this clarification.

Interpretation

The operator's representation that an above-ground swimming pool is off-limits or inaccessible to children is not sufficient to ensure compliance with the regulation. At the time of a facility inspection, the Department's licensing representative will determine whether an above-ground swimming pool is accessible to children. If the pool is accessible, the operator will be required to make the swimming pool inaccessible to children.

**DEPARTMENT OF PUBLIC WELFARE
[55 PA. CODE CHS. 3270, 3280 AND 3290]
Posting Department Inspection Summaries**

The purpose of this statement of policy is to inform child day care facility operators that a copy of the Department of Public Welfare (Department) inspection summary shall be posted in the facility next to the facility's certificate of compliance or registration.

Discussion

Current Department regulations require that a facility's certificate of compliance or registration and the child day care service regulations applicable to the facility shall be posted in a conspicuous location used by parents (§§ 3270.25, 3280.24 and 3290.22). The certificate of compliance or registration reflects the Department's approval of facility operation and the status of the facility compliance with Department regulations.

Following an inspection, the Department issues an inspection summary to the operator to provide information regarding the facility's compliance with regulations. By citing regulatory noncompliance on an inspection summary, the Department notes failure to approve specific regulated or regulatory aspects of the facility operation. It is misleading to consumers to post only a certificate of compliance or registration indicating the Department's approval of a facility when noncompliance has been cited. The Department cannot permit an operator to display only a certificate indicating approval by the Department when noncompliance has been cited. Posting the inspection summary gives a true picture of the status of the facility.

Interpretation

To accurately reflect the status of the Department's approval, the operator of a child day care facility is required to post each inspection summary issued by the Department next to the facility's certificate of compliance or registration in a conspicuous location used by parents. The inspection summary shall remain posted until a Department representative verifies that each noncompliance item noted on the inspection summary has been corrected.

Pennsylvania Peach and Nectarine Research Program; Referendum Order

Referendum on Proposed Amendment of the Pennsylvania Peach and Nectarine Research Program:

I. The Pennsylvania Peach and Nectarine Research Program (Program) was established in 1984 under the provisions of the Agricultural Commodities Marketing Act of 1968 (act), as amended (3 P. S. §§ 1001—1012). The Program was continued by referenda conducted in 1989 and 1994. The Commodity Research Board of the Program requested the Secretary of Agriculture to call a referendum on a proposed amendment to the program, to determine whether or not a majority of those voting desire the change. The proposed amendment would increase the producer charge assessed against affected producers by \$2 per acre. The current program order establishes a producer charge of \$3 per acre. The proposed amendment would increase that producer charge to \$5 per acre by revising Article VII, Section A of the program order to read, in pertinent part, as follows:

...The rate of assessment shall be \$5.00 per acre for each affected producer.

II. *Referendum Period:* The referendum period shall be August 5, 1996, until 4 p.m. on August 19, 1996. Completed ballots shall be mailed or hand-delivered to the Department of Agriculture, Bureau of Market Development, 2301 North Cameron Street, Harrisburg, PA 17110-9408. Hand-delivered ballots must be received by 4 p.m. on August 19, 1996. Ballots that are mailed must be postmarked no later than August 19, 1996, and received no later than August 22, 1996.

III. *Notice of Referendum:* This Referendum Order and an official ballot shall be mailed no later than August 5, 1996, to all affected producers, whose names appear on the list of Pennsylvania peach and nectarine producers maintained in the Office of the Secretary of Agriculture. Additional copies of the same material shall be made available at the Office of the Secretary of Agriculture.

IV. *Eligible Voters:* The rules governing the eligibility of a producer for voting are as follows: All growers with 500 or more peach and/or nectarine trees maintained for the purpose of producing or growing peaches and/or nectarines for sale or marketing are entitled to vote.

V. *Counting of Ballots:* The ballots will be canvassed and counted by a Teller Committee appointed by the Secretary of Agriculture. The counting of the ballots will begin at 10 a.m., Friday, August 23, 1996, in the State Agriculture Building, Harrisburg, PA. The Secretary will announce the results of the referendum within 30 days following the completion of the referendum period. The results will be published in the *Pennsylvania Bulletin* and disseminated to the news media.

VI. *Reporting Irregularities:* Any irregularities or disputes concerning the referendum procedures must be reported in written form to the Secretary of Agriculture not later than 7 calendar days from the end of the referendum period.

VII. *Publication:* This referendum order shall be published in the *Pennsylvania Bulletin* and the *Patriot-News*.

VIII. *Effective Date:* The foregoing order shall be effective from and after the seventeenth day of July, 1996.

CHARLES C. BROSIUS,
Secretary

DEPARTMENT OF ENVIRONMENTAL PROTECTION

Applications, Actions and Special Notices

APPLICATIONS

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

Applications received for National Pollutant Discharge Elimination System (NPDES) permit to discharge to State waters.

Northwest Regional Office: Regional Water Management Program Manager, 230 Chestnut Street, Meadville, PA 16335, telephone (814) 332-6942.

PA 0222038. Sewage, **Robert B. Pangallo**, R. D. 1, Box 51A, Sigel, PA 15860.

This application is for a new Part I NPDES permit to discharge treated sewage to an unnamed tributary to Cathers Run in Barnett Township, **Jefferson County**. This is a new discharge.

The receiving water is classified for the following uses: high quality cold water fishes, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing/proposed downstream potable water supply considered during the evaluation is the Clarion River and is used by the Pennsylvania-American Water Company Clarion District which is 13.31 miles below the discharge at river mile 40.96.

The proposed discharge limits for Outfall No. 001 based on a design flow of 0.000400 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	10	20
Total Suspended Solids	20	40
Fecal Coliforms (5-1 to 9-30) (10-1 to 4-30)	200/100 ml as a geometric average 2,000/100 ml as a geometric average	
Total Residual Chlorine	monitor and report	
pH	6.0—9.0 at all times	

The EPA waiver is in effect.

PA 0222071. Sewage, **Bruce W. and Cynthia A. Baker SFTF**, 316 South High Street, Zelienople, PA 16063.

This application is for a new Part I NPDES permit to discharge treated sewage to an unnamed tributary to Camp Run in Perry Township, **Lawrence County**. This is a new discharge.

The receiving water is classified for the following uses: warm water fishes, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing/proposed downstream potable water supply considered during the evaluation is the Municipal Authority of the Township of North Sewickley on the Beaver River located at North Sewickley Township, approximately 24 miles below the discharge.

The proposed discharge limits for Outfall No. 001 based on a design flow of 0.0008 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	10	20
Total Suspended Solids	20	40
Fecal Coliforms (year around)	200/100 ml as a geometric average monitor and report	
Total Residual Chlorine	6.0—9.0 at all times

The EPA waiver is in effect.

PA 0000809. Industrial waste, SIC: 4941 (Water Supply). **Shenango Valley Water Company**, 665 South Dock Street, P. O. Box 572, Sharon, PA 16146.

This application is for a renewal of an NPDES permit to discharge treated industrial waste to the Shenango River in the City of Sharon, **Mercer County**. This is an existing discharge.

The receiving water is classified for the following uses: warm water fishes, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing/proposed downstream potable water supply considered during the evaluation is the PA-American Water Company intake on the Shenango River located at New Castle, approximately 25 miles below point of discharge.

The proposed discharge limits for Outfall No. 001 based on a design flow of 0.45 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Flow (mgd)	monitor and report		
Total Suspended Solids	30	60	75
Aluminum	4	8	10
Iron	2	4	5
Manganese	1	2	2.5
Zinc	0.35	0.7	0.88
Total Residual Chlorine	0.5		1.6
pH	6.0		9.0

The EPA waiver is in effect.

PA 0034045. Sewage, **Greene Township Municipality**, 8899 Old Wattsburg Road, Erie, PA 16510.

This application is for renewal of an NPDES permit to discharge treated sanitary sewage from a subdivision to an unnamed tributary to Four Mile Creek in Greene Township, **Erie County**. This is an existing discharge.

The receiving water is classified for warm water and migratory fishery, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, there is no potable water supply to consider during the evaluation until Lake Erie.

The proposed effluent limits for Outfall 001 based on average design flow of 0.012 mgd are:

<i>Parameter</i>	<i>Effluent Concentration (mg/l)</i>	
	<i>Average Monthly</i>	<i>Instantaneous Maximum</i>
CBOD ₅	25	50
Total Suspended Solids	30	60
NH ₃ -N (5-1 to 10-31)	4.5	9
(11-1 to 4-30)	13.5	27
Phosphorus as "P"	1.0	
Dissolved Oxygen	minimum of 3.0 mg/l at all times	
Total Residual Chlorine (Interim Limits)	1.75	4.4
(Final Limits)	0.93	2.3
Fecal Coliforms (5-1 to 9-30)	200/100 ml as a geometric average	
(10-1 to 4-30)	19,000/100 ml as a geometric average	
pH	6.0—9.0 standard units at all times	

The EPA waiver is in effect.

PA 0104507. Sewage, **Keith and Debra Palumbo**, Palumbo Meat Market, 3600 Hubbard West Middlesex Road, West Middlesex, PA 16159.

This application is for a renewal of a Part I NPDES permit to discharge treated sewage to an unnamed tributary to the Shenango River in Shenango Township, **Mercer County**. This is an existing discharge.

The receiving water is classified for the following uses: warm water fishes, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing/proposed downstream potable water supply considered during the evaluation is the Shenango River and is used by the Pennsylvania-American Water Company New Castle District at river mile 5.05 and is 21.60 miles below the discharge.

The proposed discharge limits for Outfall No. 001 based on a design flow of 0.000350 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	10	20
Total Suspended Solids	20	40
Fecal Coliforms (5-1 to 9-30)	200/100 ml as a geometric average	
(10-1 to 4-30)	2,000/100 ml as a geometric average	
Total Residual Chlorine	1.5	3.5
pH	6.0—9.0 at all times	

The EPA waiver is in effect.

PA 0026174. Sewage. **The General Authority of the City of Franklin**, City Hall, 430 Thirteenth Street, Franklin, PA 16323.

This application is for a renewal of a Part I NPDES permit to discharge treated sewage to the Allegheny River in Franklin, **Venango County**. This is an existing discharge.

The receiving water is classified for the following uses: warm water fishes, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing/proposed downstream potable water supply considered during the evaluation is the Emlenton Water Company, on the Allegheny River located at Emlenton, approximately 30 miles below point of discharge.

The proposed effluent limits for Outfall No. 001 (after chlorination) based on a design flow of 5.0 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Average Weekly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	25	40	50
Total Suspended Solids	30	45	60
Fecal Coliforms (5-1 to 9-30)	200/100 ml as a geometric average		
(10-1 to 4-30)	100,000/100 ml as a geometric average		
Total Residual Chlorine	0.5		1.6
pH	6.0—9.0 at all times		

The EPA waiver is not in effect.

PA 0104396. Amendment No. 1. Industrial waste, SIC: 4911 (Electrical Power Generation) and SIC: 0182 (Food Crops Under Cover). **Cogentrix of Pennsylvania, Inc.**, P. O. Box 192, Hwy. LR 33001, Ringgold, PA 15770.

This application is for an amendment of an NPDES permit to discharge treated industrial waste and Group 1 stormwater to Caylor Run in Ringgold Township, **Jefferson County**. This is an existing discharge.

The receiving water is classified for the following uses: cold water fishes, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing/proposed downstream potable water supply considered during the evaluation is the Allegheny River and the PA-American Water Company located at Kittanning, 30 miles below point of discharge.

The proposed discharge limits for Outfall No. 101 based on a design flow of 0.0287 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Flow (mgd)	monitor and report on DMR		
Total Chromium	0.2	0.2	0.2
Total Zinc	1.0	1.0	1.0

The proposed discharge limits for Outfall No. 201 based on a design flow of 0.0246 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
------------------	-----------------------------------	---------------------------------	-----------------------------------------

This discharge shall be received by the wastewater treatment basin. All monitoring requirements and limits shall be met at Outfall 601, the discharge from the treatment basin.

The proposed discharge limits for Outfall No. 301 based on a design flow of 0.0013 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Flow (mgd)	monitor and report on DMR

pH	6.0—9.0 at all times		

The proposed discharge limits for Outfall No. 401 based on a design flow of N/A mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
This discharge shall consist solely of overflow from the stormwater collection/greenhouse irrigation pond.			

The proposed discharge limits for Outfall No. 501 based on a design flow of 0.0216 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
This discharge shall be received by the wastewater treatment basin, which discharges through Outfall 601.			

The proposed discharge limits for Outfall No. 601 based on a design flow of 0.0749 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>

The EPA waiver is in effect.

Northcentral Region: Environmental Program Manager, Water Management, 208 West Third Street, Suite 101, Williamsport, PA 17701-6448, telephone (717) 327-3666.

PA 011112. Sewerage, SIC: 4952, **H. H. Knoebel Sons, Inc.**, R. D. 1, Elysburg, PA 17824.

This proposed action is for issuance of an NPDES permit for an expansion to 0.1 mgd of an existing discharge of treated sewage to south branch of Roaring Creek in Franklin Township, **Columbia County**.

The receiving stream is classified for the following uses: high quality, cold water fishery and aquatic life, water supply and recreation.

For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the nearest downstream potable water supply (PWS) considered during the evaluation is at Danville.

The proposed effluent limits for Outfall 001 based on a design flow of 0.10 mgd are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	12	24

The EPA waiver is in effect.

PA 0008451. Industrial waste, SIC: 4911, **Pennsylvania Power and Light Company**, Two North Ninth Street, Allentown, PA 18101.

This proposed action is for renewal of an NPDES permit for an existing discharge of untreated cooling water, treated process water, stormwater and treated ash transport water from the Sunbury Steam Electric Station in Shamokin Dam Borough, **Snyder County**.

The following effluent limitations are proposed for discharges to the receiving waters of the Susquehanna River, Rolling Green Run and an unnamed tributary to the Susquehanna River.

The receiving streams are classified for the following uses: warm water fishery and aquatic life, water supply and recreation.

For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing downstream potable water supply (PWS) considered during the evaluation is Dolphin Consolidated Water Company located approximately 50 river miles downstream.

The proposed effluent limits are: Outfall 030: Existing discharge of 330 mgd of once through cooling water to the Susquehanna River.

Outfall 031 (interim) and Outfall 037 (before ash basin closure): Outfall 031 (interim) is an existing discharge of 3.38 mgd until July 1997 of treated plant miscellaneous wastewater, coal pile runoff, bottom ash sluice water and ash hopper overflow wastewater from ash basin No. 1 to Rolling Green Run. Outfall 037 is an existing discharge of 4.34 mgd of treated fly ash transport water from ash basin No. 2 to an unnamed tributary of the Susquehanna River. After July 1997 this ash basin will be closed and this discharge will consist of stormwater only.

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Maximum Daily (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
Total Suspended Solids	30	100	125

Proposed NPDES Permit Renewal Actions for Minor Sewage Discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (DEP) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management, and total residual chlorine control (TRC). Any major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Managers will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on DEP's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

The following parties have applied for an NPDES permit to discharge stormwater into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain effluent limitations set forth in Appendix A—J of the general permit and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons who wish to comment on the proposed permit are invited to submit a statement to the Regional Office indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Quality Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the Regional Office that has been indicated above the application.

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of the Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealable to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection.

Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department of Environmental Protection at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number, identification of the plan or application to which the protest is addressed and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protest or protests. Each commenter will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Acknowledgment of Notices of Intent to Remediate

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (the act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department must provide a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site, and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, please contact the Department of Environmental Protection Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department of Environmental Protection has received the following Notices of Intent to Remediate:

Northcentral Regional Office: Environmental Cleanup Program Manager, 208 West Third Street, Suite 101, Williamsport, PA 17701-6448, telephone (717) 321-6525.

Coley's Auto Salvage and Recycling, Loyalsock Township, **Lycoming County**. Staiman Brothers, Inc., 201 Hepburn Street, Williamsport, PA 17701 has submitted a Notice of Intent to Remediate soil and sediment contaminated with lead. The applicant proposes to remediate the site to meet the Statewide Health Stan-

dard. A summary of the Notice of Intent to Remediate was reported to have been published in the *Williamsport Sun-Gazette* on July 5, 1996.

Southeast Regional Office: Environmental Cleanup Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, telephone (610) 832-5950.

American Trading and Production Corp., Bristol Township, **Bucks County**. Gary R. Brown, P.E., President, RT Environmental Services, Inc., 215 W. Church Road, King of Prussia, PA 19406, has submitted a Notice of Intent to Remediate site soil and groundwater contaminated with heavy metals and solvents. The applicant proposes to remediate the site to meet the Statewide health standard and/or the background standard.

Bustleton Partners—Seaman's Underground Storage Tank Area, City of Philadelphia, **Philadelphia County**. Terence A. O'Reilly, Senior Project Manager, TriState Environmental Management Services, Inc., 1810A Byberry Rd., Bensalem, PA 19020, has submitted a Notice of Intent to Remediate site soils contaminated with BTEX, petroleum hydrocarbons and polycyclic aromatic hydrocarbons and groundwater contaminated with petroleum hydrocarbons and other undetermined contaminants. The applicant proposes to remediate the site to meet the Statewide health standard.

Public Notice of Proposed Consent Decree

Millcreek Dump Site
Millcreek Township, Erie County

Under section 122 of the Federal Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C.A. § 9622, and section 1113 of the Hazardous Sites Cleanup Act (35 P. S. § 6020.1113) notice is hereby provided that the Department of Environmental Protection (Department) has entered into a Consent Decree concerning settlement of the Department's Complaint against Max Silver and Sons and A. Arthur Silver (the Silvers). The Department's Complaint concerns the response costs that the Department has incurred and will incur to clean-up the Millcreek Dump Site in Erie County, PA. The Department's Complaint is filed in the United States District Court for the Western District of Pennsylvania, at Docket No. 93-297 (Erie).

The Department has incurred over \$700,000 in past response costs, and estimates that it will incur over 4 million dollars in response costs in the future at the Millcreek Dump Site. However, based upon the Silvers limited ability to pay, the Department has agreed to settle its Complaint against the Silvers for \$10,000. The specifics of the Department's settlement with the Silvers are set forth in the Consent Decree.

The Department will receive and consider comments relating to the Consent Decree for 60 days from the date of this public notice. The Department has the right to withdraw its consent to the Consent Decree if the comments concerning the Consent Decree disclose facts or considerations which indicate that the Consent Decree is inappropriate, improper, inadequate or not in the public interest. After the public comment period, the Department's settlement with the Silvers shall become final upon the filing of the Department's response to significant written comments to the Consent Decree and upon the United States District Court's approval of the Consent Decree.

Copies of the Consent Decree are available for inspection at the Department's office at 230 Chestnut Street,

Meadville, PA, and at the United States District Court-house in Erie, PA. Comments may be submitted, in writing, to Edward Orris, Project Manager, Department of Environmental Protection, Hazardous Sites Cleanup, 230 Chestnut Street, Meadville, PA 16335-3481. Further information may be obtained by contacting Edward Orris at (814) 332-6648. TDD users may contact the Department through the Pennsylvania Relay Service at 1 (800) 645-5984.

Reasonably Available Control Technology; Public Hearings

Approval of Reasonably Available Control Technology (RACT) Plans for:

Occidental Chemical Corporation (Lower Pottsgrove Township, Montgomery County)

Quaker Chemical Corporation (Whitemarsh Township, Montgomery County)

SmithKline Beecham Pharmaceuticals (Upper Merion Township, Montgomery County)

American Inks and Coatings Corporation (Schuylkill Township, Chester County)

Norwood Industries, Inc. (East Whiteland Township, Chester County)

Brown Printing Company (Upper Hanover Township, Montgomery County)

DEP has made a preliminary determination to approve RACT plans as amendments to the State Implementation Plan (SIP) for the above facilities. The proposed SIP revisions do not adopt any new regulations. They incorporate the provisions and requirements contained in RACT approvals for these facilities to comply with current regulations.

These preliminary determinations, if finally approved, will be incorporated into Plan Approvals and/or Operating Permits for the facilities and will be submitted to the U. S. Environmental Protection Agency (EPA) as revisions to Pennsylvania's SIP.

The following is a summary of the preliminary RACT determinations for these facilities:

Occidental Chemical Corporation (Operating Permit OP-46-0015)

<i>Source</i>	<i>Emission Limit (tons/year)</i>	<i>Control Device</i>
Boiler No. 1	116.4 NOx	Annual Tune-up
Boiler No. 3	122.6 NOx	50% Capacity Factor
Boiler No. 4	184.4 NOx	50% Capacity Factor
Boiler No. 5	360.7 NOx	Alternate Fuel
Reactors	2.7 VOC	Recordkeeping
Spray Dryers	171.0 VOC	Recordkeeping
Rotary Dryers	69.4 VOC	Recordkeeping
Wastewater Plant	25 VOC	Recordkeeping
Cleaning Tanks	2.7 VOC	Recordkeeping
Storage Tanks	2.7 VOC	Recordkeeping
Laboratories	2.7 VOC	Recordkeeping

The implementation schedule for the above is upon issuance of permit.

Quaker Chemical Corporation (Operating Permit OP-46-0071)

<i>Source</i>	<i>VOC Emission Limit (tons/year)</i>	<i>Control Device</i>	<i>Implementation Schedule</i>
Building 19	14	Recordkeeping	Upon permit issuance
Building 3	23	Recordkeeping	Upon permit issuance

This facility will meet the presumptive NOx requirements of section 129.93.

Smithkline Beecham Pharmaceuticals (Operating Permit OP-46-0035)

<i>Source</i>	<i>VOC Emission Limit (tons/year)</i>	<i>Control Device</i>
6 Raw Material Storage Tanks	2.79	White Paint
Ethyl Acetate Tank	1.2	Pressure Relief Vent

The implementation schedule for the above is within 2 months of issuance of the permit. This facility will meet the presumptive NOx requirements of section 129.93.

American Inks and Coatings Corporation (Operating Permit OP-15-0026A)

<i>Source</i>	<i>VOC Emission Limit (tons/year)</i>	<i>Control Device</i>	<i>Implementation Schedule</i>
Mixing & Milling Vessels	95	Covers, Housekeeping Practices, Maintenance Inspection Procedures	May 31, 1995

Norwood Industries, Inc. (Operating Permit OP-15-0014A)

<i>Source</i>	<i>Emission Limit (tons/year)</i>	<i>Control Device</i>	<i>Implementation Schedule</i>
Cleanup Operation	4.5 VOC	Recordkeeping	Upon permit issuance
DMF Combustion	115 NOx	Recordkeeping	Upon permit issuance

Brown Printing Company (Compliance Permit CP-46-0018)

<i>Source</i>	<i>VOC Emission Limit (tons/year)</i>	<i>Control Device</i>	<i>Implementation Schedule</i>
7 Presses	53.8	Thermal Oxidizer	Implemented
8 Ink Jet Printers	12.4	Condenser	Upon permit issuance

This facility will meet the presumptive NOx requirements of section 129.93.

One public hearing will be held for the purpose of receiving comments on the proposed SIP revisions. The hearing will be held at 2 p.m. on August 29, 1996, at the Department of Environmental Protection Southeast Regional Office, Lee Park, 555 North Lane, Suite 6010, Conshohocken, PA. The hearing will represent the opportunity for oral comment to DEP on the proposed SIP revisions and will not be a question and answer session. Persons wishing to present testimony at the hearing are encouraged to contact Clarke Rupert, DEP Community Relations Coordinator, at (610) 832-6020 to register prior to the hearing, but may also register at the hearing. Those unable to attend the hearing but who wish to comment should send their written comments to Francine Carlini, Air Quality Program Manager, Department of Environmental Protection, Southeast Regional Office, Lee Park, 555 North Lane, Suite 6010, Conshohocken, PA 19428 on or before August 29, 1996.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate should contact Clarke Rupert at (610) 832-6020 or through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Copies of the pertinent documents are available for review at the DEP Southeast Regional Office. Appointments for scheduling a review may be made by calling (610) 832-6268.

Notice of Intent to Issue Title V Operating Permit #03-076

Under 25 Pa. Code § 127.521, the Department of Environmental Protection (DEP) intends to issue a Title V Operating Permit to The Peoples Natural Gas Company for the Girty compressor station. Girty compressor station is located in South Bend Township, Armstrong County. The Peoples Natural Gas Company representative to contact regarding this application is William Runyan, P.E., Safety, Environmental and Compliance, 625 Liberty Avenue, Pittsburgh, PA 15222-3197.

The Girty compressor station is primarily used for the storage and distribution of natural gas. As a result of the levels of nitrogen oxides emitted, Girty is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments. The facility is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code, Chapter 127, Subchapter G.

Copies of the application, DEP's analysis and other documents used in evaluation of the application are available for public inspection during normal business

hours at the Department of Environmental Protection, 400 Waterfront Drive, Pittsburgh, PA 15222.

Any person wishing to provide the Department of Environmental Protection with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the Department of Environmental Protection at the address shown above. A 30-day comment period, from the date of this publication, will exist for the submission of comments. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.
- Identification of the proposed permit (specify permit #03-076).
- Concise statements regarding the relevancy of the information or objections to issuance of the permit. A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the information received. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or by the *Pennsylvania Bulletin*, or by telephone, where the Department of Environmental Protection determines such notification by telephone is sufficient. Written comments or requests for a public hearing should be directed to Joseph Pezze, Regional Air Quality Program Manager, Department of Environmental Protection, Southwest Region—Field Operations, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-4000. For additional information, contact Thomas J. Joseph, Air Pollution Control Engineer II, Air Quality Control, at the same address.

Notice of Plan Approval Application Minor Source

The following stationary sources have filed a request for a plan approval with the Department of Environmental Protection (DEP), Bureau of Air Quality. Persons wishing to file protests or comments on the proposed plan approval have 30 days to submit the protests or comments to the Regional Office at the address listed below. Interested persons may also request that a hearing be held concerning the plan approval application by filing a request with the Regional Office stating the reason for the request.

The Department will evaluate and consider all protests and comments received. The Department will, where appropriate, modify the proposed plan approval based on the protests and comments received.

The final plan approval will contain terms and conditions to ensure that the source is constructed and operated in compliance with the Department's regulations contained in 25 Pa. Code Chapters 121 through 143 and

the requirements of the Federal Clean Air Act. A notice of the Department's final decision on the proposed plan approval will be published in the *Pennsylvania Bulletin*. Air contaminants emitted from these sources are less than the amounts that would trigger major new source review requirements. For additional information on the following applications, contact Devendra Verma, Engineering Services Chief, (814) 332-6940.

Northwest Regional Office, Bureau of Air Quality Control, 230 Chestnut Street, Meadville, PA 16335.

24-313-138. The Department received a plan approval application for construction of a burn-off oven (7.5 mm Btu/hr with afterburner) by **The Carbide/Graphite Group, Inc.** (800 Theresia Street, St. Marys, PA 15857) in St. Marys, **Elk County**.

33-399-011. The Department received a plan approval application for construction of three leachate storage tanks and the installation of three carbon adsorption canisters to control venting from the storage tanks by **Eagle Environmental, L. P.** (Happy Landing Landfill, 9 Logan Blvd., Altoona, PA 16602) in Washington Twp., **Jefferson County**.

Plan Approval applications received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and regulations to construct, modify or reactivate air contamination sources and associated air cleaning devices.

Regional Office: Northeast Regional Office, Bureau of Air Quality, 2 Public Square, Wilkes-Barre, PA 18711-0790.

An application for Plan Approval has been received by this office for the construction, modification, or reactivation of the air contamination sources and associated air cleaning devices described below for the specified companies.

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (52

P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection. A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. Such NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chs. 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor, application number, a brief summary of the issues to be raised by the requestor at the conference and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

ACTIONS

The Department of Environmental Protection has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel

Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions under The Clean Streams Law (35 P. S. §§ 691.1—691.1001).

Final Reports

The following final reports were submitted to the Department of Environmental Protection under the Land Recycling and Environmental Remediation Standards Act, the act of May 19, 1995 (P. L. 4, No. 2).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (the act) require the Department of Environmental Protection to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program in the Department of Environmental Protection Regional Office under which the notice of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at 1 (800) 654-5984.

The Department has received the following final report:

Southeast Regional Office: Environmental Cleanup Program Manager; Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, telephone (610) 832-5950.

Gabe Staino Chrysler-Plymouth (Drains), Birmingham Township, **Delaware County**. Thomas R. Bugey and Pamela K. Pidge, Dames & Moore, 2325 Maryland Rd., Willow Grove, PA 19090, have submitted a Final Report concerning remediation of site soils contaminated with solvents. The report is intended to document remediation of the site to meet the Statewide health standard.

Requests for Certification under section 401 of the Federal Water Pollution Control Act

The following requests have been made to the Department of Environmental Protection for certification under § 401(a) of the 1972 amendments to the Federal Water Pollution Control Act, 33 U.S.C.A § 1341(a), that there is reasonable assurance that the construction herein described will not violate applicable Federal and State water quality standards.

Prior to final approval of the proposed certification, consideration will be given to any comments, suggestions or objections which are submitted in writing 30 days of the date of this notice. Comments should be submitted to the Department of Environmental Protection at the address indicated above each of the following requests for certification. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed, and a concise statement of comments, objections or suggestions in sufficient detail to inform the Department of the exact basis of the proposal and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given comments if deemed necessary to resolve conflicts. Each individual will be notified in writing of the time and place of any scheduled hearing or conference concerning the certification request to which the protest relates. Maps, drawings and other data pertinent to the certification request are available for inspection and review at the address indicated above each request for certification between the hours of 8 a.m. and 4 p.m. on each working day.

DEPARTMENT OF TRANSPORTATION

Retention of Engineering Firms

Bucks, Chester, Delaware, Montgomery and Philadelphia Counties Reference No. 08430AG2004

The Department of Transportation will retain engineering firms for two separate open-end contracts to provide various environmental studies on various projects located in Bucks, Chester, Delaware, Montgomery and Philadelphia Counties in Engineering District 6-0. The contracts will be for 30 months with projects assigned on an as-needed basis. The required services may encompass a wide range of environmental efforts with the possibility of several different types of projects having short completion schedules. The anticipated types of projects may include, but are not limited to, bridge replacements or bridge rehabilitations with minor approach work, roadway betterments (3R Type), SAMI final design, Capital Improvement Projects (bridges or roadways), and minor alignment studies. The maximum amount of each open-end contract will be \$750,000.

The selected firm will be required to provide environmental services to identify and assess the following: historic and archaeological resources; regional and community growth; land use and development patterns; wildlife habitat; wetlands; floodplains; surface water and groundwater; vegetation; farmlands; geological resources; noise and air quality; parks and recreational facilities; emergency service, health and educational facilities; utility locations; residential and commercial property values; hazardous waste; aquatic resources; national natural landmarks; vibration; aesthetics and visual qualities; and construction impacts.

The environmental studies will be conducted to prepare an environmental document in accordance with accepted analysis techniques and methodologies.

The selected firm will be required to perform the following to ensure a complete environmental investigation has been performed: provide all necessary environmental services, material and equipment necessary to collect, analyze and organize data; assess impacts; conduct agency and public involvement activities; and prepare reports and mitigation plans. The reports and other written graphic material to be prepared may include, but are not limited to, early coordination and scoping correspondence; project need; preliminary alternatives analysis; meeting minutes; newsletters; mailing lists; public meetings and hearings; handouts and displays; NEPA environmental documents; Section 106 documents; Section 4(f) evaluations; mitigation plans and reports; hazardous waste mitigation plans; DEP permits, Corps of Engineers 404 permits; formulating and participating in

public involvement program; and coordinating the development of the study with various agencies and special interest groups.

The format and content of all documents, plans and specifications will be consistent with applicable State and Federal regulations and guidelines.

The Department will establish an order of ranking of a minimum of six firms for the purpose of negotiating two open-end contracts based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Specialized experience and technical competence of firm.
- b. Current workload.
- c. Available staffing for this assignment.
- d. Past record of performance with respect to cost control, work quality, ability to meet schedules, and previous experience on open-end contracts. The specific experience of individuals who constitute the firms shall be considered.
- e. Relative size of firm to size of projects that may be completed under these contracts.

The environmental studies identified above are the general work activities that can be expected under these open-end contracts. A more specific and project-related scope of work will be outlined for each individual work order developed under these open-end contracts.

The transmittal letter for the letter of interest should be limited to four pages. Double sided copy counts as two pages. The letter of interest should include no more than four resumes of key staff members for the prime consultant and two resumes for the subconsultants.

Technical questions concerning the requirements for this project should be directed to Timothy R. O'Brien, P.E., District 6-0, at (610) 964-6526.

Questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in performing any of the above services are invited to submit letters of interest to: Director, Consultant Selection Committee, Room 1118, Transportation and Safety Building, Harrisburg, PA 17120.

A separate letter of interest and required forms must be submitted for each project for which the applicant wishes to be considered. The letter of interest and required forms must be received within 13 calendar days of this notice. The deadline for receipt of a letter of interest at the above address is 4:30 p.m. of the thirteenth day.

If the project advertisement indicates that the Department will retain an engineering firm, letters of interest will only be accepted from individuals, firms or corporations duly authorized to engage in the practice of engineering. If an individual, firm or corporation not authorized to engage in the practice of engineering desires to submit a letter of interest, said individual, firm or corporation may do so as part of a joint venture with an

individual, firm or corporation which is permitted under State law to engage in the practice of engineering.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet the DBE goal using DBEs (as they were defined prior to the act), WBEs or combinations thereof. Proposed DBE firms must be certified at the time of submission of the letter of interest. If the selected firm fails to meet the goal established, it shall be required to demonstrate its good faith efforts to attain the goal. Failure to meet the goal and to demonstrate good faith efforts may result in being barred from Department contracts in the future.

Responses are encouraged by small engineering firms, disadvantaged business enterprise engineering firms and other engineering firms who have not previously performed work for the Department of Transportation.

Each letter of interest must include in the heading, the firm's Federal Identification Number and the Project Reference Number indicated in the advertisement. The letter of interest must also include the following:

1. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project."

2. Standard Form 254, "Architect-Engineer and Related Services Questionnaire" not more than 1 year old as of the date of this advertisement, must accompany each letter of interest for the firm, each party to a joint venture and for each subconsultant the firm or joint venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor or a company. Please disregard the statements on Standard Form 255 that indicate a Standard Form 254 is only required if not already on file with the contracting office. The Department does not maintain a file for Standard Form 254 for contracting purposes; therefore, this Form is required for the prime consultant and each subconsultant as stated above.

3. Two copies of the Department's Form D-427 (Rev. 6-89), "Current Workload" for the firm submitting the letter of interest. At least one copy of Form D-427 must remain free and not bound in any way to any other portion of the letter of interest or accompanying documentation. Copies of Form D-427 are available upon request from the above address or by contacting the Department's Consultant Agreement Division at (717) 783-9309.

4. Firms with out-of-State headquarters or corporations not incorporated in Pennsylvania must include with each letter of interest a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

The Standard Form 255 must be filled out in its entirety including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project. If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be presently certified by the Department of Transportation, and the name of the firm and the work to be performed must be indicated in Item 6. If a Women Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

The Standard Form 254 must be signed and dated and must be less than 1 year old as of the date of this advertisement. A Standard Form must accompany each letter of interest for the firm submitting the letter of interest, each party to a joint venture, and for each subconsultant shown under Item 6 of the Standard Form 255.

Unless other factors are identified under the individual project reference number, the following factors, listed in their order of importance, will be considered by the Committee during their evaluation of the firms submitting letters of interest:

a. Specialized experience and technical competence of firm.

b. Past record of performance with respect to cost control, work quality, and ability to meet schedules. The specific experience of individuals who constitute the firms shall be considered.

c. Current workload and capacity of firm to perform the work within the time limitations.

d. Location of consultant.

e. Special requirements of the project.

f. Other factors, if any, specific to the project.

The Department currently limits its participation in the remuneration of principals or consultant employees performing work on projects to \$72,800 per annum or \$35 per hour or their actual audited remuneration, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on design and miscellaneous projects to 130% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department currently limits its participation in the consultant's indirect payroll costs (overhead) on construction inspection projects to 85.2% of the direct payroll cost or the consultant's actual audited overhead rate, whichever is less. The Department's limitations will apply to the projects advertised above unless the Department policy is revised prior to the negotiation of an agreement or contract.

The assignment of the above services will be made to one of the firms responding to this notice, but the Committee reserves the right to reject all letters of interest submitted, to cancel the solicitations requested under this notice, and/or to readvertise solicitation for these services.

ENVIRONMENTAL QUALITY BOARD

Areas Unsuitable for Coal Mining; Notice of Hearing

Petition #56959901. Because of the unexpected number of people attending the public hearing on the Shade Township Areas Unsuitable for Mining Petition No. 56959901 originally scheduled for July 10, 1996, the public hearing was canceled and has been rescheduled and moved to a larger facility.

The Department of Environmental Protection and the Environmental Quality Board again invite all interested persons to attend a public hearing on a proposal to designate a portion of Shade Township, Somerset County, as unsuitable for surface mining operations. The petition area includes approximately 565 acres located northeast of the village of Reels Corners.

The hearing will be held at 6:30 p.m. on Wednesday, August 14, 1996, in the Shade High School located at Box 7 McGregor Avenue, Cairnbrook, PA 15924.

The hearing concerns Petition No. 56959901, which was submitted by the Shade Township Supervisors.

The petitioners alleged that surface and underground mining could result in the degradation or loss of surface and groundwater resources, including aquifers and aquifer recharge areas.

The hearing will be legislative and fact-finding in nature where interested persons will be afforded an

opportunity to present oral or written testimony and comments on the merits of the petition. Persons wishing to present oral testimony must register with the Department before 4:30 p.m. on Friday, August 9, 1996, and must bring three copies of the testimony to the hearing. Persons can register by calling (717) 783-8846 between 8 a.m. and 4:30 p.m. Monday through Friday. Persons who previously registered to present testimony do not need to register again. It is requested that only one person from each organization present testimony. No cross-examination of witnesses will be permitted. Written comments will be accepted by the Department of Environmental Protection, Bureau of Mining and Reclamation, Room 213 Executive House, P. O. Box 8461, Harrisburg, PA 17105-8461 until 4:30 p.m., August 29, 1996 when the public record will close. Submission of comments by facsimile (fax) machine will not be accepted. Comments may also be submitted electronically to the Board at RegComments@a1.dep.state.pa.us and must be received by July 29, 1996.

Persons with a disability who require an auxiliary aid, service or other accommodation to participate in the proceedings should contact M. C. McCommons at (717) 787-4761 before 4:30 p.m. on Wednesday, August 7, 1996, to discuss how we may best accommodate their needs. If necessary, persons may use the AT&T Relay Service by calling 1 (800) 654-5984 (TDD users) or 1 (800) 654-5988 (voice users) and request that they relay the call to M. C. McCommons at (717) 787-4761.

This notice is given under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a), The Clean Streams Law (35 P. S. §§ 691.1—692.1001), and the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66) and the regulations promulgated thereunder.

STATE SYSTEM OF HIGHER EDUCATION

Request for Proposals

Indiana University of Pennsylvania, State System of Higher Education, invites interested professionals to submit proposals for design services for the installation of utilities, roads, parking, structures, drainage, stormwater management and other amenities to provide for the initial and future development of the South Campus area consistent with the University's Long Range Campus Development Plan. Interested professionals are to submit the information required under the following section entitled "Instructions for Filing Application."

Instructions for Filing Application

(a) Proposals must be received on or before the close of business August 9, 1996, addressed to the Slating Committee, Engineering and Construction Group Office, Indiana University of Pennsylvania, Robert Shaw Building, 650 S. 13th Street, Indiana, PA 15705-1087. Questions may be directed to Robert L. Marx, Director, Engineering and Construction Group at (412) 357-2289 (FAX 412-357-6480) Monday through Friday, between the hours of 8 a.m. and 4 p.m.

(b) The Professional must submit six copies of either forms (Form 150 or 150-S or SF 254 & 255). The Professional shall supply photographs showing a maximum of two different views of each of the three projects described in Question 13 Form 150-S or Question 10 of SF-255. The identifications and appropriate supportive information concerning each photograph shall include the name, project title, location and the name of the Professional of Record. The University will return photographs submitted with applications to those firms that request it, and provide a self-addressed stamped envelope in which to return the photographs. The most qualified firms will be slated for consideration by the University Selections Board.

(c) The University Selections Board may at its discretion establish interviews with any or all of the Professionals who have requested consideration for appointment. If an interview is required, the Professional will be notified by the Board as to the date, time and location.

(d) Additional information, in writing, may be requested by the Slating Committee as required. Professional agrees that he shall comply with the terms of the agreement and specifically as it relates to the Professional Liability Insurance and the General Liability Insurance Requirements.

The Slating Committee encourages responses from small firms, minority firms, women-owned firms and firms who have not previously performed System work, and will consider Joint Ventures, which will enable them to participate in this program.

Applications submitted are subject to review by the Slating Committee. The Slating Committee and Selection Boards disclaim any liability whatsoever as to their review of the applications submitted and in formulating their recommendations for selection. Recommendations for selection made by the Committee shall be final under the act of November, 1982 (P. L. 660, No. 188).

FEDERAL SURPLUS PROPERTY PROGRAM

DEPARTMENT OF GENERAL SERVICES

INVENTORY AND INFORMATION

The Department of General Services, Bureau of Supplies and Surplus Operations oversees the Federal Surplus Property Program within the Commonwealth of Pennsylvania in accordance with the Federal Property and Administrative Services Act of June 30, 1949, 63 Stat. 377 as amended. Personal property is made available on an equitable basis to our State Agency for allocation to eligible organizations at minimal service charges. Available property can include office equipment and furniture, clothing, hand tools, hardware, light machinery, heavy equipment and much more. Some of the equipment is new, while some may require repair, but all of the property is useful, and is available to your organization at a fraction of the cost of buying retail. Most nonprofit, tax-exempt organizations, such as municipalities, schools, emergency management agencies, day care centers and other public service organizations are eligible and have saved thousands of dollars annually through the use of federal surplus property.

All federal surplus property is donated on a first-come, first-served basis to eligible nonprofit organizations within the Commonwealth. A nominal cost is incurred by the participants in the form of a service charge to cover the state's cost of administering the program. Questions about the availability of items or about your organization's ability to participate in the Federal Surplus Property Program should be directed to: The Department of General Services, Bureau of Supplies and Surplus Operations, Federal Surplus Property Program, P. O. Box 1365, 2221 Forster Street, Harrisburg, PA 17105, or call TOLL-FREE 1-800-235-1555.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". A qualified small business concern is an independently owned, operated for profit, business employing 100 or fewer employes and is not a subsidiary or affiliate of a corporation otherwise not qualified.

Such penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter. The small business concern must include on every invoice submitted to the Commonwealth: "(name of vendor) is a qualified small business concern as defined at 4 Pa. Code § 2.32".

For information on the required payment date and annual interest rate, please call the Pennsylvania Department of Commerce, Small Business Action Center, 483 Forum Building, 783-5700.

GET THAT COMPETITIVE EDGE—FOR FREE!

Do you want to do business with your state government? The Treasury Department's office of Contract Information Services can assist you by providing you with information that may be helpful to you in successfully bidding on State contracts.

Act 244 of 1980 requires Commonwealth departments and agencies to file with the Treasury Department a copy of all contracts involving an expenditure of \$5,000 or more.

These fully executed contracts usually contain the vendor's name, dollar value, effective and termination dates and contract specifications. Some contracts also include the names of other bidding vendors and the bid proposal compiled by the awarded vendor. There is a minimal cost for photocopying contracts.

Allow the Treasury Department to "make a difference for you." For contract information call the office of Contract Information Services TOLL-FREE (in Pennsylvania) at 1-800-252-4700 or (717) 787-4586. Or you may write or visit the office at Room G13, Finance Building, Harrisburg, Pa. 17120.
