READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 234—RULES OF CRIMINAL PROCEDURE

[234 PA. CODE CHS. 490, 722 AND 790]

Proposed New Pa.Rs.Crim.P. 490, 790 and Rescission of Rule 722

Introduction

The Criminal Procedural Rules Committee (Committee) is planning to recommend that the Supreme Court of Pennsylvania adopt new Rules of Criminal Procedure 490 and 790 that would establish the procedures for petitioning for expungement and ordering expungement in summary and court cases. The Committee also is proposing that the Supreme Court correlatively rescind Rule 722 as no longer necessary. This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee's considerations in formulating this proposal. Note that the Committee's Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee's Comments or the contents of the explanatory Reports.

The text of the proposed new rules and the proposed rescission precedes the Report. Deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal in writing to the Committee through counsel,

PROCEDURES FOR EXPUNGEMENT IN SUMMARY AND COURT CASES

I. Background

The Committee is planning to propose that the Supreme Court adopt new Rules of Criminal Procedure 490 and 790, and the correlative rescission of Rule 722. The proposed new rules would establish the procedures for requesting and ordering expungement in summary and court cases.

The Committee's examination of the issue of providing in the rules the procedures for requesting expungement was initiated after the enactment of Act 134 of 2008 and after receiving several related communications.¹ Act 134 amends Section 9122 of the Criminal History Record Information Act (18 Pa.C.S. § 9122) ("CHRIA") by providing that a defendant's summary offenses may be expunged when the defendant "has been free of arrest or prosecution for five years following the conviction for that offense." Cognizant that the current Rules of Criminal Procedure only establish procedures for expungement following the successful completion of an Accelerated Rehabilitation Disposition Program (ARD) and provide the contents of an expungement order, and recognizing that many defendants in summary cases will proceed pro se, the members agreed to explore statewide uniform procedures for requesting expungement.

II. Discussion

Initially, the Committee considered several options for how to proceed. The members considered merely retaining the current Rule 722 (Contents of Order for Expungement) and adding a reference to the summary expungement provisions in CHRIA in the Rule 722 Comment. The Committee also discussed adding to Rule 722 a section for procedures for summary case expungements; establishing a separate summary case expungement rule; or developing procedures for both summary and court case expungements. Ultimately, the Committee agreed (1) that the provisions for expungement following completion of ARD should continue to be handled separately under Rule 320; (2) offenses entitled to expungement under 35 P.S. § 780-119 would continue to proceed under the statute; and (3) there should be separate rules establishing the procedures for summary case expungements and for court case expungements. We believe retaining the separate procedures for ARD cases and for Section 19 cases and having separate new rules for all other summary and court cases will make it easier for the bench, bar, and the public to utilize the correct procedures. The Committee also decided that Rule 722 should be rescinded and the expungement order content requirements of Rule 722 should be incorporated into both new rules.

The next question the Committee considered was the placement of the new rules. Recognizing that an expungement request ordinarily would not occur until after sentencing, the Committee is proposing that the new summary case expungement rule be placed at the end of Chapter 4 as new Rule 490 and that the new court case expungement rule be placed at the end of Chapter 7 as

new Rule 790. To distinguish both new rules from the rules immediately preceding these new rules, we are proposing there be a new subchapter added to Chapter 4 and Chapter 7 governing expungement.

In determining what the procedures for summary and court case expungements should be, the Committee looked at the provisions for ARD expungements in Rule 320, the contents of the order set forth in Rule 722, the expungement procedures set forth in local rules, and the expungement procedures in other jurisdictions. Drawing from these resources, we agreed the new rules should provide to the following:

- the petition should be filed with the clerk of courts in the court of common pleas in which the offense occurred, and a copy must be served on the attorney for the Commonwealth;
- the contents of the petition should include the information that must be included in the order required by Rule 722 and the verification language from Rule 575(2)(g);
- the attorney for the Commonwealth should have the right to file objections to the petition;
- the court should conduct a hearing when there are objections and the parties should have an opportunity to respond
- there should be a separate section in the rules for the Order that would require the judge to enter an order and the order must include all the contents from Rule 722;
- the clerk of courts must serve copies of the expungement order on the criminal justice agencies specified in the court's order;

A. PROPOSED NEW RULE 490

Proposed new Rule 490 sets out the procedures for requesting and ordering expungement in all summary cases.

Paragraph (A)(1) and the second paragraph of the Comment make it clear that summary case ARD expungements are to proceed pursuant to Rule 320. Paragraph (A)(1) also requires the expungement petition to be filed with the clerk of courts in the judicial district in which the offenses were disposed.² Although the requested expungement is of summary offenses that are within the jurisdiction of the magisterial district judges, the Committee believes the CHRIA contemplates that the judges of the courts of common pleas should order expungements, even though this is not spelled out specifically in the CHRIA. Furthermore, the expungement proceedings should be in the court of common pleas because (1) there is not a rule-governed motion practice in the summary case rules; and (2) the magisterial district courts are not courts of record.³

As a matter of uniform procedure, the Committee uses of the term "motion" in the rules whenever feasible.⁴ However, for these new expungement procedures, we are proposing that the term "petition" be used to avoid confusion because this is the term used in the statute and in many of the local rules providing expungement procedures. To clarify this further, a provision would be added to the Comment explaining that "petition" as used in this rule is a "motion" for purposes of Rules 575, 576, and 577.

² Pursuant to Rules 575 and 576, the petition must be filed with the clerk of courts first rather than taking the petition to a judge or the court administrator before filing.

³ It should be noted, however, that under local procedures implementing Rules 300 and 301, some magisterial district judges may have the authority to expunge summary ARD records after successful completion in the same manner as common pleas judges under Rule 320.

⁴ See the Rule 103 definition of "motion."

¹ The Committee received communications about summary case expungements from John Heaton, Secretary to the Board of Pardons. Mr. Heaton noted that it would be helpful to have a uniform statewide rule establishing the procedures rather than having 67 different procedures, especially for the defendants who would proceed *pro se*.

Paragraph (A)(2) sets forth the contents of the petition. The information required to be on the petition all is necessary to aid the attorney for the Commonwealth and the court to accurately identify the offense(s) the defendant is asking to have expunged. Most of the required information is the same as the information that currently is required under Rule 722. In paragraph (A)(2)(a), we added "any aliases that the petitioner has used" as an additional identifier. We also added as paragraph (A)(2)(j) the requirement that the petitioner verify the facts set forth in the petition. The verification requirement is consistent with all other motions. *See* Rule 575(2)(g).

Rule 722(1) requires the defendant's social security number be included on the order for expungement. The Committee debated at length whether the social security number should be required on the petition and order in the new expungement rules. We are aware of the position being taken by many governmental agencies that social security numbers should not appear on public documents. The Committee also recognized that the social security number continues to be a necessary identifier for defendants in the criminal justice system. As a compromise, governmental agencies will require only the last four digits of the social security number. The Committee ultimately settled on this approach, and added the requirement of the last four digits of the social security number to the contents of the petition and the contents of the order.

Paragraph (B) sets forth the procedures for the Commonwealth to file objections to the expungement of a summary offense and for the scheduling and conducting of a hearing if the Commonwealth objects. Recognizing that most summary cases are not complicated and do not have extensive court records to be reviewed, the Committee reasoned a 30-day time period was an adequate amount of time for the attorney for the Commonwealth to determine if he or she is going to object to a summary expungement. Paragraph (B)(1) sets forth the provisions for the attorney for the Commonwealth to file objections within 30 days after service of the petition. The attorney for the Commonwealth also must serve copies of the objections on the petitioner's attorney, or the petitioner if unrepresented.

Paragraph (B)(2) requires the judge to enter an order granting expungement if the attorney for the Commonwealth consents or when the attorney for the Commonwealth fails to file objections within the 30-day time period. The Committee added the "Commonwealth consents" language to make it clear that the attorney for the Commonwealth may affirmatively consent at any time after the petition is filed rather than allowing the full 30-day period to expire before proceeding with the expungement. The judge's order is required to include the contents set forth in paragraph (C).

Paragraph (B)(3) requires the judge to promptly schedule a hearing on the objections when the attorney for the Commonwealth files objections within the 30-day period. The parties are to be afforded an opportunity to be heard at the time of the hearing. At the completion of the hearing, the judge promptly must enter an order either granting or denying the petition. If the judge grants the petition, the order must set forth the information required in paragraph (C).

Paragraph (B)(4) provides for the stay of the expungement order during the 30-day time period within which the attorney for the Commonwealth may file an appeal. If

the attorney for the Commonwealth does file an appeal, then the order will be stayed pending the disposition of the appeal.

Paragraph (C) sets forth the contents of the expungement order. As previously explained, the information required in paragraph (C) is the same as the information required in current Rule 722 with the addition of the last four digits of the social security number instead of the full social security number. It should be noted that the judge is required to name in the order the criminal justice agencies upon which the certified copies of the order are to be served. In addition, paragraph (C)(2) requires the clerk of courts to serve the order on the criminal justice agencies listed in the order. The Committee learned that the practice in some judicial districts is to require the defendant to provide the criminal justice agencies information for the order and to do the service of the order. The Committee rejected this practice, agreeing both of these functions are functions, and the responsibility should not be placed on the defendant.

The *Comment* includes paragraphs elaborating on the provisions of the new rule. It makes it clear that the list of information required to be included in the petition and the order are the minimum requirements and not intended to be an exclusive list. As explained in the Committee's *Final Report* when Rule 722 was adopted, "we did not want to preclude judges from adding information which they conclude is necessary for expungement matters in their respective judicial districts or relative to a specific defendant."⁵

One of the concerns expressed to the Committee about the new summary case expungements under the CHRIA is that many defendants in summary cases will seek expungement without the assistance of counsel. Because of this, it was suggested that the new rule include the form of the expungement petition. The Committee, when considering this suggestion, noted that, except in a few cases in which the Committee agreed the identical form must be used in all judicial districts (*e.g.* Rule 632 - juror information questionnaire), the Committee has not included the actual forms in the rules since the forms were deleted from the rules in 1985.⁶ The members agreed expungement petitions do not fit into the category of forms that must be identical in all judicial districts, and declined to devise a form and include it in the rules. However, we did agree that having a form available for the use of petitioners is a sound idea. Accordingly, as explained in the *Comment*, the Administrative Office of Pennsylvania Courts will design a form incorporating the required contents in paragraph (A)(2) in consultation with the Committee as provided in Rule 104. It is anticipated that this form will be easily accessible for petitioners.

The Committee also discussed whether the rule should address standing to challenge expungement. The member agreed this was not something that should be addressed in the Criminal Rules, but thought it would be helpful if the *Comment* included a cross-reference to the cases on standing in the expungement context.

B. PROPOSED NEW RULE 790

Except when modification of language is necessary to conform with procedures for court cases,⁷ the provisions in paragraphs (A)(2) and (C) in new Rule 790 are the

⁵ 23 Pa.B. 1135, 1135 (March 13, 1993).

⁶ The Committee's *Report* explaining the deletion of the forms was published at 13 Pa.B. 3813 (December 10, 1983).

⁷ For example, in paragraph (A)(2)(b), the petition is to provide the name of the judge of the court of common pleas rather than the magisterial district judge and paragraph (A)(2)(e) requires the OTN, a number not assigned to summary cases.

same as paragraphs (A)(2) and (C) in new Rule 490. Paragraph (A)(1) and the second paragraph of the Comment make it clear that summary case ARD expungements are to proceed pursuant to Rule 320 and expungements arising under 35 P.S. § 780-119 are to proceed pursuant to that statute. Paragraph (A)(1) also requires the expungement petition to be filed with the clerk of courts in the judicial district in which the offenses were disposed.⁸

Paragraph (B) sets forth the procedures in court cases for the attorney for the Commonwealth to file objections to the petition for expungement and for the judge to schedule a hearing when objections are filed. In court cases, the attorney for the Commonwealth is given 60 days to decide whether to file objections to the petition. The Committee agreed that the attorney for the Commonwealth should be afforded additional time in court cases because there may be more extensive records to review and more complicated issues to address. Paragraphs (B)(1) and (B)(2) incorporate the 60-day time period. In all other respects, paragraph (B) is the same as paragraph (B) in Rule 490.

The Rule 790 Comment includes the same provisions that are in the Rule 490 Comment. One point the Committee discussed in the context of proposed new Rule 790 is whether the order for expungements that arise under 35 P.S. § 780-119 must include the same contents as orders issued pursuant to Rule 790. The AOPC representative to the Committee pointed out that currently, under Rule 722, these expungement orders do comply with Rule 722. Because Rule 722 would be rescinded under this proposal, would these Title 35 expungement orders still be required to comply? The Committee agreed that the Title 35 orders should continue to include the same information as all other court case expungements. To make this clear, a provision to that effect has been added to the third paragraph of the Rule 790 Comment.

[Pa.B. Doc. No. 09-1317. Filed for public inspection July 24, 2009, 9:00 a.m.]

⁸ Pursuant to Rules 575 and 576, the petition must be filed with the clerk of courts first rather than taking the petition to a judge or the court administrator before filing.

RULES AND REGULATIONS

Title 58—RECREATION

PENNSYLVANIA GAMING CONTROL BOARD

[58 PA. CODE CHS. 461a AND 463a]

Slot Machine Master Lists

The Pennsylvania Gaming Control Board (Board), under its general authority in 4 Pa.C.S. § 1202(b)(30) (relating to general and specific powers) and the specific authority in 4 Pa.C.S. § 1207 (relating to regulatory authority of board) amends §§ 461a.1, 463a.3 and 463a.5 (relating to definitions; slot machine location; and slot machine master lists) as set forth at 39 Pa.B. 423 (January 24, 2009).

Purpose of the Final-Form Rulemaking

This final-form rulemaking updates the requirements for filing slot machine master lists by renaming each list, revising the lists of required information for each list and requiring that all of these lists be submitted electronically.

Explanation of Amendments to Chapters 461a and 463a.

In § 461a.1 (relating to definitions) definitions of the terms “machine displayed payout percentage” and “minimum payout percentage” have been added. Additionally, the definition of the term “paytable” has been amended to replace the word “payback” with “payout” which is the word that is used throughout the Board’s regulations.

Revisions to § 463a.3 (relating to slot machine location) delete unnecessary language and replace the old list name “Slot Machine Master List” with the new list name “Gaming Floor Slot Machine Master List.”

In § 463a.5 (relating to slot machine master lists), numerous revisions have been made to enhance the clarity of this section and to update the various reporting requirements. The generic references to the slot machine master list have been replaced with more descriptive names for each list. The slot machine master list for games on the gaming floor is now called the gaming floor slot machine master list, the list for slot machines in the possession of a slot machine licensee that are not on the gaming floor is called the Restricted Area/Off-Premises Slot Machine Master List and the list for non-slot machine licensees authorized to possess slot machines will retain the name Slot Machine Master List.

The list of items required to be included in the Gaming Floor Slot Machine Master List has been updated and expanded to include additional information that the Bureau of Gaming Laboratory Operations needs to monitor the operation of slot machines on the gaming floor and protect the integrity of gaming. The items required in the Restricted Area/Off-Premises Slot Machine Master List and the Slot Machine Master List consist of subsets of the items required for the Gaming Floor Slot Machine Master List. Less information is needed about these slot machines because they are not being used for gaming.

Finally, all of these reports will now be required to be submitted electronically using formats approved by the Bureau of Gaming Laboratory Operations. To simplify the submission process, the Bureau of Gaming Laboratory Operations has developed Excel templates that can be used for each of the required reports.

Comment and Response Summary

Notice of proposed rulemaking was published at 39 Pa.B. 423.

The Board received comments from Greenwood Gaming and Entertainment, Inc. (Greenwood) and Downs Racing, LP (Downs). On March 25, 2009, the Independent Regulatory Review Commission (IRRC) notified the Board that it had no objections, comments or recommendations to offer on the proposed rulemaking. All of the comments received were reviewed by the Board and are discussed in detail as follows.

In its comments, Greenwood had no objections to the proposed rulemaking, but asked for clarification of other requirements. More specifically, if Greenwood made certain changes to the Slot Machine Modification Request form, would it be sufficient to also meet the requirements for the Slot Machine Movement Log in § 463a.5(e) and (f).

The Board appreciates Greenwood’s expression of support for the proposed rulemaking. Concerning the related question raised in Greenwood’s comments, the Bureau of Gaming Laboratory Operations is reviewing the suggestion offered. If the Bureau of Gaming Laboratory Operations believes that the suggestion has merit, revisions will be proposed as part of a new rulemaking.

Downs suggested that the Board delete subsection (b)(2)(xi). Downs stated that the minimum payout percentage in subparagraph (xi) is already included in the payable ID in subparagraph (xii); accordingly there is no need to also report the minimum payout percentage.

The Board has not adopted this recommendation. As a general rule, paytables have multiple payout percentages. Only knowing what payable is being used, won’t tell you which payout percentage has been selected. Additionally, the Bureau of Gaming Laboratory Operations has reviewed paytables that have payout percentages above and below the required 85% level. While these paytables have been approved, the approval only applies the portions of paytables that have payout percentages of 85% or more. Accordingly, listing the payout percentage that has been selected is necessary to ensure that an allowable percentage is being used.

Affected Parties

This final-form rulemaking alters what information is required to be included in the reports that slot machine licensees and other entities that are authorized by the Board to possess slot machines currently file.

Fiscal Impact

Commonwealth

Under this final-form rulemaking, the Board will receive all of this information electronically which should reduce administrative costs. However, the reduction in costs is not anticipated to be significant.

Political Subdivisions

This final-form rulemaking will have no fiscal impact on political subdivisions of this Commonwealth.

Private Sector

There may be some minor cost to slot machine licensees and other entities required to file these reports because of the additional information that must be provided. However, these costs may be offset by the savings that will

result from the reduction in the amount of information that must be provided for slot machines that are not on the gaming floor and the use of electronic filing.

General Public

This final-form rulemaking will have no fiscal impact on the general public.

Paperwork Requirements

Slot machine licensees and other entities required to file these reports will be able to reduce paperwork through the use of electronic filing.

Effective Date

This final-form rulemaking will become effective September 23, 2009.

PROPOSED RULEMAKING

DEPARTMENT OF LABOR AND INDUSTRY

[34 PA. CODE CH. 13]

Propane and Liquefied Petroleum Gas

Under section 16 of the Propane and Liquefied Petroleum Gas Act (35 P. S. §§ 1329.1—1329.19) (act), the Department of Labor and Industry (Department) is submitting proposed rulemaking for the regulation of propane and liquefied petroleum gas (LPG).

The Department proposes the following amended regulations for propane and liquefied petroleum gas under the act as set forth in Annex A.

Statutory Authority

This proposed rulemaking is issued under the authority provided in section 16 of the act (35 P. S. § 1329.16) which provides: “The department shall promulgate and enforce regulations to implement this Act. These regulations may include setting forth minimum general standards covering the design, installation and construction of containers and pertinent equipment for the storage and handling of liquefied petroleum gases, specifying the odorization of the gases and establishing guidelines for the processes and technologies that are not covered by industry standards.”

Section 5(a) of the act (35 P. S. § 1329.5(a)) also mandates that the Department establish fees by regulation for the approval of new and expansion of existing liquefied petroleum gas facilities, permits and certification of training programs. Section 17(a)(1) of act charges the Department with responsibility for enforcing the act and regulations promulgated under act (35 P. S. § 1329.17(a)(1)).

Background

Liquefied petroleum gas is a highly flammable and combustible material, which can pose a serious threat to life and property if stored or handled improperly or if a leak occurs. The Commonwealth previously enacted the act of December 27, 1951 (P. L. 1793, No. 475) (35 P. S. §§ 1321—1329) (Repealed). In 2002, the Legislature replaced this repealed act with the act in an effort to bring the Commonwealth’s liquefied petroleum gas program up to current National standards of safety, training and inspection. The act’s primary improvement was requiring Nationally-accepted standards for and consistent application of inspections of liquefied petroleum gas containers and facilities. The proposed rulemaking is intended to amend the existing regulations regarding liquefied petroleum gas at 34 Pa. Code Chapter 13, Subchapter A (relating to liquefied petroleum gas).

Compliance with Executive Order 1996-1, Regulatory Review and Promulgation

Since the passage of the act, the Department has sought input from the Liquefied Petroleum Gas Advisory Board. The Liquefied Petroleum Gas Advisory (Board) was created under section 12 of the act (35 P. S. § 1329.12) to review and comment on all regulations before release of the regulations. The Board consists of representatives from the Liquefied Petroleum Gas Industry and a consumer representative. The Board reviewed drafts of this proposed rulemaking and provided com-

ments and input on a number of substantive issues. The Board met to review and comment on the proposed rulemaking on November 16, 2004, June 17, 2008, and September 9, 2008.

The Department has also provided draft copies of this proposed rulemaking to industry representatives and associations for input during the drafting process, including the Pennsylvania Propane Gas Association.

Purpose

This proposed rulemaking is necessary to implement the act. The regulation adopts National standards which bring the Commonwealth’s program to the most current “state of the art” in technology and safety. The rulemaking applies to bulk plants, distributors and industrial users and regulates the storage, transfer, sale and use of liquefied petroleum gas, including providing for approval of training programs for authorized attendants. This rulemaking adopts fees, provides for registration and annual permits and requires facilities to maintain insurance. The rulemaking sets forth the application and plan approval processes and provides for enforcement by the Department if an inspection reveals violations of the act or its rulemaking.

Under section 18(b) of the act (35 P. S. § 1329.18(b)), this proposed rulemaking does not apply to persons that both sell liquefied petroleum gas and the container in which the liquefied petroleum gas is contained if the container is not more than 2.5 pounds water capacity.

This proposed rulemaking will amend the existing regulations dealing with liquefied petroleum gas in Chapter 13 (relating to gas, lead and nitro amido compounds).

SUMMARY OF PROPOSED RULEMAKING

Subchapter A. GENERAL PROVISIONS

§ 13.1. Definitions.

This section provides definitions for the terms used in the chapter. It provides the statutory citation for the act.

This section identifies and provides addresses for the American Society of Mechanical Engineers (ASME), the Propane Education and Research Council, the National Board of Boiler and Pressure Vessel Inspectors, the National Fire Protection Association (NFPA) and the National Propane Gas Association (NPGA).

It also provides information on the National standards adopted by this chapter, such as ASME Code, National Board Inspection Code and NFPA 58 and it contains definitions of terms as “bulk plant,” “container,” “cylinder,” “cylinder exchange cabinets,” “dispensing station,” “industrial user,” “tank” and “transfer.”

§ 13.2. Scope.

This proposed rulemaking applies to the registration and permitting of bulk plants, distributors and industrial users. It applies to any storage, transfer, sale or use of liquefied petroleum gas. It applies to the design, construction, location, operation and inspection of tanks, cylinders and piping from the tank or cylinder to the regulator immediately outside a building. It sets forth the process for the approval of training programs for authorized attendants.

§ 13.3. *Fees.*

This section sets out the fees for facility applications, plan approvals, permits and training program certifications, required under section 5 of the act. This section also establishes a \$100 fee to apply for an Industrial Board variance. The fee is consistent with the Uniform Construction Code variance application fee. See 34 Pa. Code § 401.2(h) (relating to Department fees).

§ 13.4. *Adoption of National standards.*

This section states that the Department adopts NFPA 54 and NFPA 58, the standards referenced in these publications and published cases, interpretations or tentative interim amendments approved by the Industrial Board, except NFPA 58 sections that were specifically excluded from this rulemaking. It also sets forth effective dates for certain portions of NFPA 58.

§ 13.5. *Registration and annual permits.*

This section requires operators of bulk plants, distributors and industrial users to register with the Department by submission of a form, payment of the appropriate fee and submission of a valid copy of an industry standard insurance certificate, demonstrating liability insurance coverage as required under § 13.6 (relating to insurance).

This section also provides that the Department will issue an annual permit, which shall be posted by the bulk plant, distributor or industrial user.

§ 13.6. *Insurance.*

This section requires liquefied petroleum gas facilities to secure and maintain liability insurance policies in the amounts set forth, according to the facility's storage capacity.

§ 13.7. *Transfer of LPG.*

This section provides that only an authorized attendant, as defined in the regulations, may transfer liquefied petroleum gas. It further provides that a distributor may not provide product to a bulk plant, industrial user or other distributor unless the distributor has a current annual permit issued by the Department.

Subchapter B. REQUIREMENTS FOR FACILITIES, TANKS AND CYLINDERS

§ 13.20. *Application process and plan approval.*

This section requires the owner or operator of the following to submit an application to the Department: a liquefied petroleum gas tank exceeding 2,000 gallons capacity, a fixed location with aggregate capacity exceeding 4,000 gallons, or a dispensing station or a cylinder exchange cabinet location. The application must include a completed registration form and proof of annual insurance set forth in § 13.5 the appropriate fee set forth in § 13.3 (relating to fees); plans that provide information regarding equipment, distances of equipment to buildings, security, fire protection and vehicle protection measures; a fire safety analysis required by NFPA 58; and, a manufacturer's data report for each unfired pressure vessel.

For distributors installing or expanding a bulk plant with a capacity of less than 9,000 gallons or industrial users with a total storage capacity of less than 9,000 gallons, this section permits submission of a Notice of Intent to Install Form, instead of plans.

This section prohibits an owner or operator of the following to operate until it has received an annual permit issued by the Department: a liquefied petroleum gas tank exceeding 2,000 gallons capacity, a fixed location

with aggregate capacity exceeding 4,000 gallons, a dispensing station or a cylinder exchange cabinet. It also requires the Department to inspect applicants for compliance with the plans or notice of intent to install before issuance of the annual permit.

This section requires that a manufacturer's data report for every unfired pressure vessel be registered with the National Board.

§ 13.21. *LPG facilities over 400,000 gallons.*

This section requires the owner or operator of a new liquefied petroleum gas facility in excess of 400,000 gallons or an existing liquefied petroleum gas facility expanded to exceed 400,000 gallons to submit an application to the Department. The application must include a completed registration form required by § 13.5 and documentation and plans demonstrating storage quantities; proximity to populated areas and public ways; the impact of rejection from the Department upon the facility's ability to service current and anticipated customer needs and upon the facility's business investment; risk to and from existing adjacent facilities; topography of the site; access for emergency vehicle response; utilities (public and private); requirements for receipt or shipment of products; compliance with local land use ordinances; and the safety plan proposed by the facility. The application must also include proof of notification to the municipality set forth in subsection (b). The application must include the appropriate fee required by § 13.3.

Subsection (b) requires that upon submission of an application, the applicant shall send notification to the municipality where the facility is located of its Department filing through certified mail.

This section provides that the Department will publish notice of the application in the *Pennsylvania Bulletin* and provides an aggrieved party 45 days from this publication to file a protest with the Department. In addition, the municipality or county has 45 days to file a written comment with the Department.

Within 90 days of publication, the Department will issue a written determination approving or disapproving the application and will send a copy by certified mail to the applicant and to any party who filed a protest or submitted written comments.

Subsection (e) prohibits the facility owner or operator from installing or operating the facility or the expanded portion of the facility until it receives an annual permit issued by the Department.

§ 13.22. *Underground tanks.*

This section requires that underground tanks be installed in accordance with NFPA 58 and that dealers maintain records of installation locations using GPS coordinates for underground tanks exceeding 2,000 gallons water capacity.

§ 13.23. *Repairs to ASME vessels.*

This section requires that repairs to ASME vessels be performed in accordance with the National Board Inspection Code.

§ 13.24. *Cylinder exchange cabinets.*

This section requires retailers and locations using cylinder exchange cabinets to comply with Section 8.4.1 of NFPA 58 and provides that busy thoroughfares or sidewalks, as those terms are used in Section 8.4.1.2(3) of NFPA 58, include sidewalks, concrete aprons and parking lots at retail establishments.

*Subchapter C. TRAINING PROGRAMS**§ 13.40. Training programs for authorized attendants.*

This section requires that an individual must satisfactorily complete a training program approved by the Department for becoming an authorized attendant. It requires that all training programs include information regarding physical properties and combustion characteristics of propane; propane industry standards, safety codes and regulations; basic parts of propane tanks, cylinders and bulk storage installations; proper use of safety and protective equipment; and, maintenance of a safe working environment.

In addition to these basic requirements, training programs for attendants who will deliver liquefied petroleum gas must also include proper inspection, maintenance and operation of bulk propane delivery vehicles; proper inspection and filling of propane storage containers; and proper delivery of propane including exchange and filling of LPG containers. This section also requires that training programs for attendants who are employed in bulk plant operations must include identification and installation of valves in propane storage containers; identification and installation of gauges in propane storage containers; safe removal of propane from tanks and cylinders at the plant and at the container site; inspection, maintenance and filling of propane tanks and cylinders at the plant and at the container site; and proper unloading of propane transports and rail cars, in addition to the basic training requirements.

§ 13.41. Training program approval.

This section provides that the Department will approve facility operator provided training programs. It requires each liquefied petroleum gas operator that has individuals who transfer liquefied petroleum gas to submit a completed application for training program approval to the Department, with a detailed description of its training program and the appropriate fee under § 13.3. The Department will issue a program approval certificate or will inform the facility operator in writing of the reasons for rejecting a training program.

Subsection (c) requires facility operators to notify the Department in writing of any changes in their approved training program.

Subsection (d) provides that instead of developing and submitting a training program for authorized attendants, an LPG facility operator may utilize the Propane Education and Research Council training programs. A facility electing to use the Propane Education and Research Council program must notify the Department in writing of that election.

Subsection (e) requires facility operators to maintain training records for as long as the authorized attendant is employed by the facility. The records must include the date of training, the name of the authorized attendant, the name of the course and the name of the trainer or supervisor.

*Subchapter D. ADMINISTRATION**§ 13.50. Suspension of annual permit for container.*

This section provides that the Department will suspend the annual permit and seal of a liquefied petroleum gas container that is unsafe. It provides that a person, firm, partnership or corporation operating a liquefied petroleum gas container or facility with a suspended permit is subject to the penalties of section 17 of the act (35 P. S. § 1329.17).

§ 13.51. Suspension of annual permit for owner or operator.

This section provides that the Department will suspend the annual permit of an owner or operator for failure to pay the fee required in § 13.3 or for any violation of the act or this chapter.

§ 13.52. Notice of deficiency.

This section sets forth the procedures that will be used by the Department if an inspection reveals any violation of the act or this chapter. It provides that the Department will issue a written notice of deficiency to the owners or operators of the container or facility containing a description of the violations and an order requiring correction of the violations and repairs. The written notice of deficiency will include a certification for the owner or operator to complete certifying that the required repairs have been completed, which must be returned to the Department.

If the owner or operator does not correct the deficiency within the period of time allowed, or fails to return the certification, the Department may issue an order to show cause. This section requires the order to show cause to include a statement of the grounds for the action, the alleged violations of the act and its regulations, and notification that the equipment may be placed out of service. The order to show cause will direct the owner or operator to provide a written response within 30 days. The Department will serve an order to show cause by personal service or certified mail. Any answer filed by the owner or operator must be filed within 30 days following service of the order to show cause, must contain specific admissions or denials of the allegations set forth in the order to show cause, and must set forth the specific facts, matters of law, or regulation interpretation that the owner or operator relies upon. The answer may also contain a request for a variance or extension of time for compliance. This section requires the Department to forward all requests for variances, extension of time or appeals regarding interpretation of the regulation to the Industrial Board.

A request for variance, extension of time or an appeal will be considered a stay to the enforcement action.

At the expiration of an extension of time or other time period granted for compliance, the Department will inspect the container or facility. If the container or facility is found to violate the act or regulations after the inspection, the Department may seal the liquefied petroleum gas container or facility.

The Department will issue a notice to discontinue operation to the owner or operator for a violation that was not corrected, either by personal service or by certified mail. This notice will require the owner or operator to discontinue the use of the container or facility within 24 hours. The equipment may be returned to service only when the violations have been corrected, the repairs have been made and the Department removes the seal. A party aggrieved by a notice of deficiency or a notice to discontinue operation may appeal that order to the Industrial Board (Board) within 30 days of the issuance of the order. Appeals from the Board Order may be filed within 30 days of that order.

§ 13.53. Notice and hearing.

This section provides that any actions of the Department relating to a notice of deficiency, notice to discontinue operation or suspension of an annual permit for a container under §§ 13.50, 13.51 and 13.52 will be taken

subject to the right of notice, hearing and adjudication under 2 Pa.C.S. (relating to Administrative Law and Procedure). It further provides that proceedings will be conducted under 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure).

§ 13.54. *Municipal preemption.*

This section provides that the Department has the sole right and ability to regulate the liquefied petroleum gas industry and that no municipality or subdivision may adopt or enforce an ordinance or regulation that differs from the Act or these regulations. Municipalities may not prohibit placement of liquefied petroleum gas containers, other than to establish an absolute setback of 10 feet from a property line.

This section also provides that municipalities retain the right, in accordance with local zoning ordinances, to require a facility to locate in an approved zone and to require zoning permits and fees. Buildings located at LPG facilities must comply with municipal standards applied to primary structures.

Affected Persons

This proposed rulemaking affects owners and operators of liquefied petroleum gas bulk plants, cylinder exchange cabinets, dispensing stations, distributors and industrial users. The general public is also affected, as updating the regulations related to liquefied petroleum gas to National standards will increase public safety.

Fiscal Impact

The Commonwealth will incur no additional cost under these proposed rulemaking. The costs will be similar to costs now incurred by the Department's liquefied petroleum gas inspection and inspector certification program. This rulemaking will not increase administrative, enforcement or legal activity.

Reporting, Recordkeeping and Paperwork Requirements

This rulemaking will not require the creation of new forms and reporting requirements. Current forms may be updated.

Sunset Date

A sunset date is not appropriate for this rulemaking. However, the Department will continue to monitor the impact and effectiveness of the rulemaking.

Effective Date

This proposed rulemaking will take effect upon publication of the final-form regulations in the *Pennsylvania Bulletin*.

Contact Person

Interested persons are invited to submit written comments, suggestions or objections regarding this proposed rulemaking to Jack Davenport, Bureau of Occupational and Industrial Safety, Department of Labor and Industry, 16th Floor, Labor and Industry Building, 651 Boas Street, Harrisburg, PA 17121 or by electronic mail to jacdavenport@state.pa.us within 30 days of publication in the *Pennsylvania Bulletin*.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 9, 2009, the Department submitted a copy of this proposed rulemaking to the Chairpersons of the Senate Committee on Labor and Industry and the House Labor Relations Committee (Committee) and to the Independent Regulatory Review Commission (IRRC). In addition to submitting the proposed rulemaking, the

Department has provided the Committees and IRRC with a copy of a detailed Regulatory Analysis Form prepared by the Department. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking to the Department within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the proposed regulations, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release

of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program.

This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P.S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Wright Township	321 South Mountain Boulevard Mountain Top, PA 18707	Luzerne

Plan Description: The approved plan provides for a systematic Corrective Action Plan (CAP) to identify and propose corrective measures to the portions of the Mountaintop Area Joint Sanitary Authority's (MAJSA) wastewater collection system that are tributary to the Walden Park Pump Station. This portion of the wastewater collection and conveyance system appears to be subject to excessive amounts of infiltration/inflow (I/I). The CAP also contains time schedules for the implementation of the activities proposed in the CAP. The CAP is now to be considered an integral part of the Township's Official Sewage Facilities Plan.

Should conditions be encountered during the implementation of the CAP, which require the alteration of the approved CAP, Wright Township and the MAJSA shall contact the Department of Environmental Protection (Department), in writing, and discuss the need to alter the CAP at the earliest possible time. Any additional wastewater-related improvements, additions, deletions or changes outside of those explicitly described in the CAP must be in compliance with the Department's regulations and be submitted to and approved by the Department in writing.

SEWAGE FACILITIES ACT PLAN DISAPPROVAL

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Sugarloaf Township	P. O. Box 61 Sybertsville, PA 18251	Luzerne

Plan Description: The Department of Environmental Protection (Department) has reviewed the Official Sewage Facilities Plan Update Revision (Plan) dated September 23, 2008 (received by the Department on September 23, 2008), with additional materials dated January 6, 2009 (received by the Department on January 12, 2009), and July 1, 2009 (received by the Department on July 1, 2009), as prepared by Entech Engineering, Inc. on behalf of Conyngham Borough (Borough), Sugarloaf Township (Township) and the Conyngham Borough Authority (Authority).

During the review of an Official Sewage Facilities Plan Update Revision, the Department must ensure that various, relevant issues are addressed in an adequate and comprehensive manner. The Borough and the Township have failed to properly address all relevant issues. The reasons for the disapproval are described in the Department's letter addressed to the Borough, Township and Authority dated July 10, 2009.

The Borough, the Township and the Authority have a continuing obligation, under section 5 of the Pennsylvania Sewage Facilities Act and the Regulations promulgated thereunder, to jointly revise the Official Sewage Facilities Plans of the Borough and the Township to address existing and future sewage disposal needs within the planning area outlined in the Plan Update Revision and provide for adequate sewage disposal facilities. The Department requests that the municipalities and the Authority immediately take all actions necessary to jointly revise both municipalities' Official Sewage Facilities Plans.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Newberry Township	1915 Old Trail Road Etters, PA 17319	York

Plan Description: Rick Drawbaugh, DEP Code No. A3-67945-354-2: The plan consists of a five lot single-family residential subdivision on 37.438 acres with total proposed sewage flows of 1,600 gpd to be treated by individual onlot disposal systems. The proposed development is located on Kise Mill Road at its intersection with Popps Ford Road in Newberry Township, York County. The plan was disapproved because Lots 1 and 4 of the subdivision fail to meet the recommended lot size of the preliminary hydrogeologic study required by 25 Pa. Code § 71.62(c). As proposed, the onsite sewage systems for Lots 1 and 4 will pollute the waters of the Commonwealth in violation of The Pennsylvania Clean Streams Law. Such a condition is considered a nuisance and is prohibited.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Notice of Proposed Remedial Response Tomstown TCE Site Quincy Township, Franklin County

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites

Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305) is proposing a remedial response at the Tomstown TCE Site (Site).

The Site is located in Quincy Township, Franklin County, PA and is a rural community where residential homes, farms and small businesses are prevalent. The Department conducted sampling of approximately 90 private wells from October 2006 through March 2008. Twenty-nine residences and one business have well water contamination, with TCE concentrations ranging from less than 1 to 34 parts per billion (ppb). TCE is listed as a probable human carcinogen by the United States Environmental Protection Agency. Chronic effects to the liver, kidneys and immune and endocrine systems have been seen in humans exposed to trichloroethylene occupationally or from contaminated drinking water. The Maximum Contaminant Level (MCL) for public water supplies and the Statewide Health Standard for groundwater cleanup for TCE is 5 ppb. Residents in the area rely on private wells for their water supplies. The Department and its contractor, URS Corporation, conducted a remedial investigation that found TCE in the groundwater at levels from nondetect to 34 ppb. Groundwater flow exists in a karst setting at the Site. The many fractures and voids that exist beneath the Site are filled with soil from the surrounding surface areas and weathering of carbonate bedrock. It is likely that the combination of fractures/voids in the weathered zone, along with the irregularities in the bedrock surface, represent the primary controls and potential pathways of groundwater and subsequent contamination migration. A remedial response action is justified to remove the exposure risks posed by a hazardous substance in the groundwater serving residential well supplies.

After considering alternatives that include institutional controls and individual home point of entry carbon treatment systems, the proposed response is the extension of an existing municipal water supply system. This alternative is superior to the other alternatives because it eliminates all exposure associated with private use of groundwater (ingestion, inhalation and dermal contact), eliminates the need for long-term monitoring of individual wells and eliminates the need for deed notices and/or restrictions. Also, constant monitoring by the public water supplier ensures protection of public health through compliance with the Pennsylvania Safe Drinking Water Act requirements. This response will include installing the water distribution infrastructure, the lateral water line from the curb into each residence, and connecting this line into the home water distribution system. Any fees related to the initial connection to the system and all necessary restoration work would be included in the response. The response would require the Township to enact a mandatory tap-in ordinance for properties within the plume and prohibit installation of new residential wells within the plume. Residences, businesses and institutions connected to the public supply shall be responsible for customary continuing service payments.

The Department is providing this notice under sections 505(b) and 506(b) of HSCA (35 P. S. §§ 6020.505(b) and 6020.506(b)), and the publication of this notice in the *Pennsylvania Bulletin* starts the administrative record period under HSCA. The Administrative Record, which contains information about this site and which supports the Department's decision to perform this action at the site, is available for public review and comment. The Administrative Record can be examined Monday through Friday from 8 a.m. to 4 p.m. at the Department's Southcentral Regional Office located at 909 Elmerton

Avenue, Harrisburg, PA 17110, by contacting Ruth Bishop at (717) 705-4833. The Administrative Record can also be reviewed at the Quincy Township Building, 7575 Mentzer Gap Road, Waynesboro, PA, (717) 762-5679 from 8 a.m. to 4:30 p.m., Monday through Friday.

The Administrative record will be open for comment from the date of publication of this notice in the *Pennsylvania Bulletin* on July 25, 2009, and will remain open for 90 days. Persons may submit written comments regarding this action to the Department before October 23, 2009, by mailing them to Ruth Bishop at the Department's Southcentral Regional Office, 909 Elmerton Avenue, Harrisburg, PA 17110-8200. The public will have an opportunity to present oral comments regarding the proposed action at a public hearing. The hearing has been scheduled for September 9, 2009, at 7 p.m. at the Quincy Township Building. Persons wishing to present formal oral comment at the hearing should register before 4 p.m., September 3, 2009, by calling Lauri Lebo at (717) 705-4703.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should call Lauri Lebo at the previous number or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

HAZARDOUS SITE CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Settlement under the Comprehensive Environmental Response, Compensation and Liability Act and the Hazardous Sites Cleanup Act

Notice of Settlement under HSCA

The Department of Environmental Protection (Department), under the authority of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. §§ 6020.101—6020.1305), has entered into a Consent Order and Agreement (Agreement) with the Lenape Manufacturing Corporation (Company), the Lenape Manufacturing Trust (Trust), and Edwin Kuehnle, Trustee for the Trust, regarding the Lenape Manufacturing Site in Bucks County, PA. The Lenape Manufacturing Site is located at 1803 North 5th Street, Perkasio, PA, wherein the Lenape Manufacturing Company manufactured parts for the United States Air Force. The Site consists primarily of soil and groundwater contaminated with trichloroethylene (TCE).

In June of 1985, the Department entered into a Consent Adjudication with the Company for implementation of a groundwater recovery program. In 1998, the Company performed a cleanup under the provisions of the Land Recycling and Environmental Remediation Standards Act (Act 2) (35 P. S. §§ 6026.101—6026.908 et seq.) and demonstrated attainment of an Act 2 cleanup standard. Part of this demonstration of attainment involved a Post Remediation Care Plan which required the Company to monitor groundwater conditions at certain residential wells and to maintain existing carbon filtration systems at impacted residences.

On May 17, 2001, with the Department's approval, the Company established the Trust as a mechanism to assure compliance with the Company's long term responsibilities under the Post Remediation Care Plan.

In May of 2008, the Department determined that there continued to be a release or threatened release of hazardous substances in the area of the Site with additional impacted residences. Consequently, on October 21, 2008, the Department issued a Statement of Decision under HSCA wherein the Department chose to construct and install a municipal water line as a cost-effective means of providing water that meets the requirements of the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) to impacted residences.

As a result of the Department's action, the Trust no longer has obligations under the Post Remediation Care Plan and has agreed to turn over the remaining proceeds of the Trust to the Department for reimbursement of the Department's response costs under the terms and conditions of the Agreement.

This notice is provided under section 1113 of HSCA (35 P. S. § 6020.1113). The Agreement may be examined from 8 a.m. to 4 p.m. at the Department's Offices at 2 East Main Street, Norristown, PA 19401 by contacting either Ragesh Patel at (484) 250-5719 or Anderson Lee Hartzell at (484) 250-5866. (Hawes Street, Towanda, PA 18848-0504) for modification of control devices for 11 existing tungsten wire drawing capstan annealing heads and ten existing wire annealing ovens in department (012) at their North Towanda Township, **Bradford County** facility. GTP proposes to control the PM from the 11 capstan annealing heads with an existing Griffin model U-288-H14 fabric collector and filter, and to control the PM from the ten master tungsten wire annealing ovens with an existing Mikropul MT-288 fabric collector. This is a State-only facility.

The Department of Environmental Protection's (Department) review of the information contained in the application submitted by GTP indicates that the sources controlled by the proposed fabric collectors will comply with

all applicable air quality requirements pertaining to air contamination sources and the emission of air contaminants, including the fugitive air contaminant emission requirement of 25 Pa. Code § 123.1, the PM emission limitation of 25 Pa. Code § 123.13 and the visible emission limitation of 25 Pa. Code § 123.41. The plan approval, if issued, will subsequently be incorporated into the State-only operating permit by means of an administrative amendment in accordance with 25 Pa. Code § 127.450 at a later date.

Based upon this finding, the Department proposes to issue a plan approval for modification of the control devices to control PM emissions from the sources. The following is a summary of the types of conditions the Department intends place in the plan approval to ensure compliance with all applicable regulatory requirements.

Source ID P121 consists of the following equipment: 13 Small Multiple Draw Wire Annealing Units and ten Wire Master Annealing Ovens. The PM emissions from Source ID P121 shall be controlled by a Mikropul model MT-288 fabric collector (ID C121).

Source ID P122 consists of the following equipment: 11 Wire Drawing Capstan Annealing Heads and miscellaneous other existing equipment (Kocks Mill, Push rod/Entrance End of Kocks Mill, Heads 1 and 2 Moly. Anneal., Heads 3 and 4 Moly Anneal., and Heads 5 and 6 Moly. Anneal.). The PM emissions from Source ID P122 shall be controlled by a Griffin model U-288-H14 fabric collector (ID C122A) and filter (ID C122B).

Work practice requirements to operate the sources and control devices with good air pollution control practices.

Recordkeeping and Reporting conditions to verify compliance with all applicable requirements.

A copy of the plan approval application and the Department's review is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling the Department at (570) 327-3693. Written comments or requests for a public hearing should be directed to Muhammad Q. The existing control will be retained as back up. The plan approval will be incorporated into the facility's Title V operating permit No. 21-05029. Plan approval and operating permit shall contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

34-05001D: Armstrong Cabinet Products (12393 William Penn Highway, Thompsettown, PA 17094) for the modification of the existing Overhead Line, construction of a new Flat Line and the installation of a regenerative thermal oxidizer at their Thompsettown facility in Delaware Township, **Juniata County**. The facility is subject to 40 CFR Part 63, Subpart JJ—National Emission Standards for Wood Manufacturing Operations. VOC emissions from this project are not expected to increase significantly as a result of this project. The plan approval will include monitoring, recordkeeping, work practices and reporting requirements designed to keep the source operating within all applicable air quality requirements. The facility currently has a Title V operating permit No. 34-05001. The plan approval will be incorporated into the permit in accordance with 25 Pa. The respective facility is a major facility for which a Title V Operating Permit 59-00004 has been issued.

The Department of Environmental Protection's (Department) review of the information contained in the application indicates that the construction of the tumbler blast cleaning and peening machine meets all applicable air quality regulatory requirements pertaining to air contamination sources and the emission of air contaminants. Based on these findings, the Department intends to issue a plan approval for the construction of a tumbler blast cleaning and peening machine. Additionally, if the Department determines that the respective source is operating in compliance with all plan approval conditions, the conditions established in the plan approval will be incorporated into Title V operating permit 59-00004 by means of an administrative amendment under 25 Pa. Code § 127.450.

All applicable regulatory requirements relating to fugitive, visible, and malodorous emissions standards and additional requirements regarding malfunctions, testing, monitoring, recordkeeping and reporting have been included in the proposed plan approval. In addition to the previous requirements, the following is a list of conditions that the Department proposes to place in the plan approval to ensure compliance with all applicable regulatory requirements:

1. Under 25 Pa. Code § 127.12b, the permittee shall not permit the emission of PM into the outdoor atmosphere from Source 107 in a manner such that the concentration of PM in the effluent gas from Control Device C19 exceeds 0.01 gr/dscf whenever the 14 cubic foot, Rosler JMT No. 14 tumbler blast cleaning and peening machine is the only machine incorporated in Source 107 that is operating and being controlled by

4. Under 25 Pa. Code § 127.12b, all conditions contained in Title V Operating Permit 59-00004 remain in effect unless superseded or amended by conditions contained in this plan approval. If there is a conflict between a condition or requirement contained in this plan approval and a condition or requirement contained in Title V Operating Permit 59-00004, the permittee shall comply with the condition or requirement contained in this plan approval rather than the conflicting condition or requirement contained in Title V Operating Permit 59-00004.

A copy of the plan approval application is available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. (d) To be eligible for a Pennsylvania Lottery—Bonus PayDay™ Second-Chance Drawing, entries submitted via the Lottery's website must have complied with the requirements of section 10 (b).

(e) Manner of conducting the Pennsylvania Lottery—Bonus PayDay™ Second-Chance Drawings.

(1) All entries will be placed in numbered containers. All entries received by mail will be placed in numbered physical containers, each containing approximately 500 envelopes. All internet entries received via the Lottery's website will be placed in numbered virtual containers, each containing approximately 500 entries.

(2) A computer-generated randomizer will be used to select the numbered containers from which the winners will be selected, one from each container. The randomizer will not differentiate between physical and virtual containers. Winning entries can be selected from both physical and virtual containers. The randomizer will not be programmed to eliminate the possibility of the same container being selected more than once.

(3) If the numbered container selected is a physical container, one envelope will be randomly drawn from the container. As each entry envelope is selected, its contents will be qualified according to the requirements of section 10(a). If the entry does not meet the requirements of section 10(a), another entry will be selected from that container; and so on, until a qualified entry has been chosen. Once a qualified entry has been selected, further validation will take place by verifying the status of the tickets contained in the entry envelope drawn by entering the ticket information into the computerized instant ticket database. The first qualified and validated entry from the designated container will entitle its owner to the prize described in section 12.

(a) After notification by the Lottery that the player's entry was selected, the individual who submitted the entry will be required to complete and return a Lottery claim form.

(b) The right to claim the prize will expire one year from the date of notification by the Lottery and the prize money will be paid into the State Lottery Fund and used for purposes provided for by statute.

(4) If the numbered container selected is a virtual container, a computer-generated randomizer will be used to randomly select one entry from the container. The individual who submitted the entry will be entitled to the Prize described in section 12.

(a) The submission of an entry via the Internet which is selected to win a prize in the Pennsylvania Lottery—Bonus PayDay™ Second-Chance drawing will require the individual who submitted the entry to submit the two tickets used to create the submission and a Lottery claim form to the Lottery within 1 year of the Lottery notifying the individual who submitted the entry that the entry was selected.

(b) The back of each non-winning Pennsylvania PayDay™ instant lottery ticket entered in the Pennsylvania Lottery—Bonus PayDay™ Second-Chance Drawing via the Lottery's website and selected to win a prize must be completed by the same player who created the account in a legible manner, including the player's name, street address, city, state, zip code, telephone number and signature.

(c) If the tickets used to create the submission are not received by the Lottery within one year or the tickets do not meet the requirement of section 10(b)(2), the right of a ticket holder to claim the prize represented by the ticket, if any, will expire and the prize money will be paid into the State Lottery Fund and used for purposes provided for by statute.

(5) If a Pennsylvania Lottery—Bonus PayDay™ Second-Chance Drawing entry is rejected during the

Pennsylvania Lottery—Bonus PayDay™ Second-Chance Drawing, the sole remedy is to select another entry to replace the rejected entry in accordance with Lottery procedure.

S. § 1171.8) in connection with their companies' termination of the insureds' policies. The administrative hearing will be held in the Insurance Department's regional office in Pittsburgh, PA. Appeal of Anthony Dzuricky; file no. 09-181-72241; Erie Insurance Exchange; Doc. No. P09-07-007; August 27, 2009, 3 p.m.

Parties may appear with or without counsel and offer relevant testimony and/or other relevant evidence. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

Reimbursement is available only when the insured is successful on appeal and may not be ordered in all instances. Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

**PENNSYLVANIA
INFRASTRUCTURE
INVESTMENT AUTHORITY
AND
DEPARTMENT OF
ENVIRONMENTAL
PROTECTION**

**Clean Water and Drinking Water State Revolving
Fund Programs; 2nd Public Meeting on Ameri-
can Recovery and Reinvestment Act Intended
Use Plans**

The Pennsylvania Infrastructure Investment Authority (PENNVEST) and the Department of Environmental Protection (Department) have prepared addendums to the Intended Use Plans (IUPs) for the funding for the Clean Water State Revolving Loan Fund (CWSRF) and Drinking Water State Revolving Loan Fund (DWSRF) authorized under the American Recovery and Reinvestment Act (ARRA). These addendums to these IUPs include a list of drinking water, wastewater treatment, green infrastructure and pollution abatement projects to be considered for a design and engineering or construction loan from funds the Commonwealth expects to receive from the AARA for this purpose. In accordance with United States Environmental Protection Agency guidelines on the development of the IUPs, a public meeting has been scheduled for July 29, 2009, at 1 p.m. in the 2nd Floor Auditorium, Rachel Carson State Office Building, 400 Market Street, Harrisburg, PA. This meeting is scheduled for the purpose of receiving comments from the public regarding these addendums to the IUPs. Interested persons are invited to express their views on the narrative portion of the IUPs or the priority ranking of projects on the IUPs. Persons wishing to offer comments at the public meeting should contact the Division of Technical and Financial Assistance at the address or telephone number listed at the end of this notice or by e-mail to vbkasi@state.pa.us by 4 p.m. on July 28, 2009. Where written statements are prepared and will be submitted at the meeting, speakers will be asked to restrict the oral portion of the statement to a summary of the written comments.

The projects to be considered for a funding from the Clean Water and Drinking Water State Revolving Loan funds must meet the Federal requirements for funding in accordance with the Federal Safe Drinking Water Act and Clean Water Act. Accordingly, the projects included in the IUPs are expected to meet the requirements applicable to use of the DWSRF and CWSRF loan funds. Projects listed in the ARRA IUPs are on the Commonwealth's Project Priority Lists (PPLs) and are expected to proceed with design and engineering or construction before February 17, 2010. A project must appear on a PENNVEST-approved IUP before it can receive funding from the State Revolving Fund programs. A project's readiness to proceed, job creation and the reasonable availability of alternative funds also have a bearing on project selection for the IUPs. Consequently, the rank ordered list of projects on the PPLs does not solely dictate the order in which projects will be chosen for inclusion in an IUP.

The Commonwealth's allocation of funding for the DWSRF from the ARRA is approximately \$65.6 million. Of this amount a minimum of 20% must be set-aside for green infrastructure projects. The usual requirement for a 20% State match has been waived.

The Commonwealth's allocation of funding for the CWSRF from the ARRA is approximately \$155.2 million. Of this amount a minimum of 20% must be set-aside for green infrastructure projects. The usual requirement for a 20% state match has been waived.

It is not necessary to appear at the public meeting to present comments on the narrative portion of the IUPs or the PPLs. Interested persons may also submit written comments to the Department at the address that follows. Written comments will be considered equivalent to oral statements presented at the meeting. To be considered by the Department and PENNVEST, the written comments must be received by the Division of Technical and Financial Assistance by close of business, August 3, 2009.

Persons in need of accommodations as provided for in the Americans With Disabilities Act of 1990 should contact Veronica Kasi at (717) 772-4053 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

A copy of the IUPs and the PPLs may be obtained by contacting the Division of Technical and Financial Assistance at (717) 772-4053 or through the Department's web site at [http://www.depweb.state.pa.us/watersupply/cwp/view.asp?a=1263&Q=448094&watersupplyNav=\[30198\]](http://www.depweb.state.pa.us/watersupply/cwp/view.asp?a=1263&Q=448094&watersupplyNav=[30198])
