READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

COMMONWEALTH COURT

Notice to Election Bar and Administrative Order; Objections to Nomination Papers for Statewide Office, August, 2010

Pursuant to Pennsylvania law, the number of qualified signers on papers nominating an independent or third party candidate for national or statewide office must equal two percent of the largest entire vote cast for any elected candidate in Pennsylvania at the last preceding election involving statewide candidates.¹ In 2010, the required number of valid signatures amounts to 19,082. Because of the logistics inherent in resolving challenges to such a large number of signatures, objections filed to nomination papers for statewide or national office must be filed in a manner that is readily accessible and flexible for use by the Court and the parties.

Therefore, the Court *Orders*, as follows:

IN THE COMMONWEALTH COURT OF PENNSYLVANIA

In Re: Objections to
Nomination :
Papers for Statewide : No. 126 Misc. Docket No. 3
Office, :
August, 2010 :

And Now, this 28th day of July, 2010, *it is hereby Ordered* that all Petitions to Set Aside Nomination Papers (objection petitions) of candidates seeking national or statewide office shall, and objection petitions to all other nomination papers may, be filed in electronic format as well as filed in the usual paper format (original and one copy), utilizing the following guidelines:

1. The objection petition shall specify objections to individual signature lines in nomination papers and these shall be set forth in an EXCEL® spreadsheet format, *i.e.* as an "xls" or "xlsx" file (not as a "pdf" or similar file) using the downloadable spreadsheet provided on the Court's web site at: <http://www.aopc.org/T/Commonwealth>.

2. Spreadsheet columns shall include, for each challenged signature line: page number, line number, county, and the reason or reasons for each challenge, as designated in the spreadsheet on the Court's web site. The spreadsheet shall designate the grounds for challenge by codes, as follows:

NR = Not Registered
NRA = Not Registered at Address
NRDS = Not Registered on Date Signed
OC = Out of County
Ill = Illegible
LIO = Line Information Omitted
DUP = Duplicate
IHA = Line Information in Hand of Another
N/I = Nickname/Initial
PRI = Printed Signature
DCA = Defective Circulator Affidavit
SAC = Signed After Circulator's Affidavit Dated
Other = Any ground for objection not listed above

¹ Section 912.2 of the Election Code, Act of June 3, 1937, P. L. 1333, added by the Act of February 19, 1986, P. L. 29, 25 P. S. § 2872.2 (referencing Section 951 of the Election code, 25 P. S. § 2911).

3. The objection petition shall clearly state the number of signature lines challenged as well as the total number of completed signature lines on the face of the nomination papers.

4. Any "global" legal challenges must be clearly and separately stated in the objection petition.

5. When an objection petition is filed using the spreadsheet:

(a) Objector shall attach to the objection petition as an exhibit a printed copy of the spreadsheet printed on 8 1/2 x 14 inch paper, with all grid lines showing, and column headers appearing on each printed sheet, as well as a printed copy of the Election Spreadsheet Directions page setting forth the legend of the codes for grounds for challenge;

(b) Objector shall file two disks containing an electronic version of the spreadsheet and Election Spreadsheet Directions page as specified in Paragraph 1 above, and;

(c) In addition to the usual service requirements, Objector shall serve upon Candidate one disk containing a read-only electronic version of the spreadsheet and Election Spreadsheet Directions page as specified in Paragraph 1 above.

The requirement that an objection petition to nominating papers filed for national or statewide office be filed on the designated spreadsheet according to the procedures set forth above may be modified by the Court upon a showing of good cause.

Upon the filing of an objection petition, the Court will issue a scheduling and case management order. Counsel should be prepared to litigate in multiple courtrooms simultaneously, and to review contested signature lines and enter into appropriate stipulations prior to any court hearings.

The Chief Clerk is hereby directed to send a copy of this Order:

(a) to the Court Administrator of Pennsylvania who shall post this Order, a downloadable version of the election spreadsheet, and a sample election scheduling and case management order on the Commonwealth Court page of the Pennsylvania Unified Judicial System web site (<http://www.aopc.org/T/Commonwealth>) under the heading "NOTICE RE: OBJECTIONS TO NOMINATION PAPERS, AUGUST 2010";

(c) to the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*, and;

(d) for publication in *The Legal Intelligencer* and the *Pennsylvania Law Weekly*.

RULES AND REGULATIONS

Title 58—RECREATION

GAME COMMISSION [58 PA. CODE CH. 131]

Preliminary Provisions; Disclosure of Certain Records

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 29, 2010, meeting, added § 131.9 (relating to disclosure of certain records) to establish and define the manner that the Commission will respond to certain types of record requests.

The final-form rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 40 Pa.B. 3126 (June 12, 2010).

1. Purpose and Authority

It is the duty of the Commission to propagate, manage and preserve the game or wildlife of this Commonwealth. To effectively manage the wildlife resources of this Commonwealth, the Commission participates in various reviews for development projects across this Commonwealth. The two most common types of records and reviews are those collected under the Voluntary Wind Power Cooperative Agreements and those collected through the screening process with the Pennsylvania Natural Heritage Program. While some records may overlap, these are two distinct bodies of records. Many times the information gathered and shared is with regard to threatened and endangered species and even more often the information is with regard to species of special concern and greatest conservation need. In many cases, it is developed by developers themselves and is proprietary with regard to the site, the protocol and the findings. In all cases, information gathered and shared during these reviews is necessary to formulate policy and recommendations regarding policy and actions, including regulations and decisions about legal actions with regard to various types of development. In addition, the Commission keeps records regarding hunting and furtaking licenses to effectively manage the wildlife resources of this Commonwealth. Finally, many records contain personal identifying information which is necessary to predeliberative action, proprietary or the disclosure of which carries substantial and demonstrable risk of physical harm.

The Commonwealth established the Right-to-Know Law (act) (65 P. S. §§ 67.101—67.3104), effective January 1, 2009. Under the act, the definition of “public record” has changed and the list of exemptions to disclosure has grown. Under the prior law, documents regarding reviews would not have been of the kind or character to be a public record; under the act, they are classified as public records. In addition, hunting and furtaking license records were specifically exempt from disclosure by section 325 of the code (relating to limitation on disclosure of certain records). However, with the passage of the act, questions have again arisen with regard to these two classes of sensitive information. To clarify for Commission staff and the public how the act will be implemented with regard to the classes of records indicated as those col-

lected for review and those regarding hunting and furtaking licenses, the Commission adds § 131.9.

Section 2722(g) of the code (relating to authorized license-issuing agents) directs the Commission to adopt regulations for the administration, control and performance of license issuing activities. Section 2102(a) of the code (relating to regulations) provides that “The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” The addition of § 131.9 was adopted under this authority.

2. Regulatory Requirements

The final-form rulemaking adds § 131.9 to establish and define the manner that the Commission will respond to certain types of record requests.

3. Persons Affected

Persons seeking wind power records, Pennsylvania Natural Heritage Program records or recreational license records from the Commission may be affected by the final-form rulemaking.

4. Comment and Response Summary

The Commission received one official comment in opposition to the final-form rulemaking.

5. Cost and Paperwork Requirements

The final-form rulemaking should not result in additional cost or paperwork.

6. Effective Date

The final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. Contact Person

For further information regarding the final-form rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the regulation adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the regulation of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 131, are amended by adding § 131.9 to read as set forth at 40 Pa.B. 3126.

(b) The Executive Director of the Commission shall certify this order and 40 Pa.B. 3126 and deposit them with the Legislative Reference Bureau as required by law.

GAME COMMISSION
[58 PA. CODE CH. 141]

Hunting and Trapping; Protective Material Required

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 29, 2010, meeting, amended § 141.20 (relating to protective material required) to eliminate the voluntary posting of protective material outside of manufactured blinds allowance. In the alternative, final-form rulemaking requires that hunters hunting during any firearms season for deer, elk or bear post a minimum of 100 square inches of daylight fluorescent orange-colored material within 15 feet of a blind meeting the requirements in section 2308(a)(3) of the code (relating to unlawful devices and methods) in a manner that is visible within a 360° arc in addition to requirement of the wearing of protective material on their persons.

The final-form rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 40 Pa.B. 3123 (June 12, 2010).

1. *Purpose and Authority*

At its April 18, 2007, meeting, the Commission adopted amendments to § 141.20 that permitted the posting of protective material within 15 feet of a blind meeting the requirements in section 2308(a)(3) of the code instead of wearing the required protective material on their person while hunting during any firearms season for deer, elk or bear. These amendments were made in response to concerns raised by hunters regarding the then current requirement that protective material be worn only on their person inside a manufactured blind where its visual effectiveness is severely diminished. This requirement did not afford adequate safety for hunters. Upon further reflection of this issue, the Commission determined that a mandatory posting of protective material outside a manufactured blind for hunters who choose to utilize them while hunting during any firearms season for deer, elk or bear will better protect their safety rather than the current voluntary alternative. To this end, the Commission amends § 141.20 to eliminate the voluntary posting of protective material outside of manufactured blinds allowance and in the alternative require that hunters hunting during any firearms season for deer, elk or bear post a minimum of 100 square inches of daylight fluorescent orange-colored material within 15 feet of a blind meeting the requirements in section 2308(a)(3) of the code

in a manner that is visible within a 360° arc in addition to the requirement of the wearing of protective material on their persons.

Section 2102(a) of the code (relating to regulations) provides that “The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” The amendments to § 141.20 were adopted under this authority.

2. *Regulatory Requirements*

The final-form rulemaking amends § 141.20 to eliminate the voluntary posting of protective material outside of manufactured blinds allowance and in the alternative require that hunters hunting during any firearms season for deer, elk or bear post a minimum of 100 square inches of daylight fluorescent orange-colored material within 15 feet of a blind meeting the requirements in section 2308(a)(3) of the code in a manner that is visible within a 360° arc in addition to the requirement of the wearing of protective material on their persons.

3. *Persons Affected*

Persons wishing to hunt during any firearms season for deer, elk or bear from a blind meeting the requirements in section 2308(a)(3) of the code will be affected by the final-form rulemaking.

4. *Comment and Response Summary*

There were no official comments received regarding the final-form rulemaking.

5. *Cost and Paperwork Requirements*

The final-form rulemaking should not result in additional cost or paperwork.

6. *Effective Date*

The final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. *Contact Person*

For further information regarding the final-form rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendment adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendment of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

Order

The Commission, acting under authorizing statute, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 141, are amended by amending § 141.20 to read as set forth in Annex A.

(b) The Executive Director of the Commission shall certify this order and Annex A and deposit them with the Legislative Reference Bureau as required by law.

GAME COMMISSION

[58 PA. CODE CH. 141]

Hunting and Trapping; Wild Pheasant Recovery Areas

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 29, 2010, meeting, amended § 141.28 (relating to wild pheasant recovery areas) to create and define the geographic location of the Hegins-Gratz Valley wild pheasant recovery area (WPRA) and prohibit the hunting of small game and dog training activities from the first Sunday in February through July 31st within any area designated as a WPRA.

The final-form rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the final-form rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

Notice of proposed rulemaking was published at 40 Pa.B. 3124 (June 12, 2010).

1. Purpose and Authority

The Ring-necked Pheasant Management Plan calls for restoring self-sustaining and huntable ring-necked pheasant populations in suitable habitats by establishing at least four WPRAs by 2015. Wild-trapped pheasants will

be released in WPRAs in an effort to establish populations of at least ten hens per square mile in the spring, while WPRAs will remain closed to game farm pheasant stocking, pheasant hunting and dog training activities. Small game hunting within WPRAs will also be restricted during critical periods during the population establishment phase. Three WPRAs were listed in 2009 and one additional area, the Hegins-Gratz Valley WPRAs, was adopted to prepare for pheasant releases in 2011.

Section 322(c)(4) of the code (relating to powers and duties of commission) specifically authorizes the Commission to "Define geographic limitations or restrictions." Section 2102(c) of the code (relating to regulations) directs that "The commission shall promulgate regulations concerning the transportation, introduction into the wild, importation, exportation, sale, offering for sale or purchase of game or wildlife or the disturbing of game or wildlife in their natural habitat." Section 2102(a) of the code provides that "The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth." The amendments to § 141.28 were adopted under this authority.

2. *Regulatory Requirements*

The final-form rulemaking amends § 141.28 to create and define the geographic location of the Hegins-Gratz Valley WPRAs and prohibits the hunting of small game and dog training activities from the first Sunday in February through July 31st within areas designated as WPRAs.

3. *Persons Affected*

Persons wishing to hunt wild pheasants, release propagated pheasants, train dogs or hunt small game within areas designated as WPRAs may be affected by the final-form rulemaking.

4. *Comment and Response Summary*

There were no official comments received regarding the final-form rulemaking.

5. *Cost and Paperwork Requirements*

The final-form rulemaking should not result in additional cost or paperwork.

6. *Effective Date*

The final-form rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

7. *Contact Person*

For further information regarding the final-form rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the administrative amendment adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of the amendment of the Commission in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statute.

PROPOSED RULEMAKING

GAME COMMISSION

[58 PA. CODE CH. 139]

Seasons and Bag Limits; Private Property Coupons

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission) proposed, at its June 29, 2010, meeting, to amend § 139.4 (relating to seasons and bag limits for the license year) to reinstate 2,761 coupons on private land that would otherwise be denied.

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the June 29, 2010, meeting of the Commission. Comments can be sent until August 16, 2010, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. *Purpose and Authority*

The Commission is required to set hunting and furtaking seasons and bag limits on an annual basis. For the 2010-2011 seasons, the number of Deer Management Assistance Program permits was capped at the 2009-2010 totals within each wildlife management unit without further action by the Board. The Board subsequently learned that applying this cap would result in 2,761 coupons not being issued for private property that is not enrolled in the Commission's Public Access programs. After public comment, the Commission determined it was never its intent to take action that would result in these 2,761 coupons not being issued. This proposed rulemaking is to reinstate those coupons that would otherwise be denied.

Section 322(c)(1) of the code (relating to powers and duties of commission) specifically empowers the Commission to "fix seasons, daily shooting or taking hours, and any modification thereof, and daily, season and possession limits for any species of game or wildlife." Section 2102(b)(1) of the code authorizes the Commission to "promulgate regulations relating to seasons and bag limits for hunting or furtaking. . . ." The amendments to § 139.4 were proposed under this authority.

2. *Regulatory Requirements*

The proposed rulemaking amends § 139.4 by establishing when and where it is lawful to hunt deer and also place limits on the numbers that can be legally taken during the 2010-2011 license year.

3. *Persons Affected*

Persons wishing to hunt deer within this Commonwealth during the 2010-2011 license year may be affected by the proposed rulemaking.

4. *Cost and Paperwork Requirements*

The proposed rulemaking should not result in additional cost or paperwork.

5. *Effective Date*

The proposed rulemaking will be effective upon publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. *Contact Person*

For further information regarding the proposed rulemaking, contact Richard A. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

**[58 PA. CODE CH. 147]
Special Permits; Falconry**

To effectively manage the wildlife resources of this Commonwealth, the Game Commission (Commission), at its June 29, 2010, meeting, proposed to amend §§ 147.101 and 147.103 (relating to definitions; and classes) to require that a sponsor for a new falconer be a general or master class falconer having at least 2 years experience as a general class falconer and expand the list of eligible species of eagles that a master class falconer may possess with additional written authorization to include eagles not covered by the Migratory Bird Treaty Act (act) (16 U.S.C.A. §§ 703—712).

The proposed rulemaking will have no adverse impact on the wildlife resources of this Commonwealth.

The authority for the proposed rulemaking is 34 Pa.C.S. (relating to Game and Wildlife Code) (code).

The proposed rulemaking was made public at the June 29, 2010, meeting of the Commission. Comments can be sent until September 30, 2010, to the Director, Information and Education, Game Commission, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797.

1. Purpose and Authority

On October 6, 2009, the Commission finally adopted comprehensive changes to the various standards and conditions concerning falconry permits within this Commonwealth. See 39 Pa.B. 6760 (November 28, 2009). These amendments were primarily intended to bring the Commonwealth into compliance with new Federal permitting standards concerning falconry that become fully effective January 1, 2014. Since the adoption of these amendments, the Commission has come to the recognition that the standards concerning whom is eligible to sponsor new falconers are insufficient to ensure that sponsors have enough experience to properly guide new falconers. To this end, the Commission is proposing to amend § 147.101 to require that a sponsor for a new falconer be a general or master class falconer having at least 2 years experience as a general class falconer. The Commission is also proposing to amend § 147.103 to expand the list of eligible species of eagles that a master class falconer may

possess with additional written authorization to include eagles not covered by the act.

Section 2102(a) of the code (relating to regulations) provides that “The commission shall promulgate such regulations as it deems necessary and appropriate concerning game or wildlife and hunting or furtaking in this Commonwealth, including regulations relating to the protection, preservation and management of game or wildlife and game or wildlife habitat, permitting or prohibiting hunting or furtaking, the ways, manner, methods and means of hunting or furtaking, and the health and safety of persons who hunt or take wildlife or may be in the vicinity of persons who hunt or take game or wildlife in this Commonwealth.” Section 2901(b) of the code (relating to authority to issue permits) provides “The commission may, as deemed necessary to properly manage the game or wildlife resources, promulgate regulations for the issuance of any permit and promulgate regulations to control the activities which may be performed under authority of any permit issued.” The amendments to §§ 147.101 and 147.103 were proposed under this authority.

2. Regulatory Requirements

The proposed rulemaking amends §§ 147.101 and 147.103 to require that a sponsor for a new falconer be a general or master class falconer having at least 2 years experience as a general class falconer and expand the list of eligible species of eagles that a master class falconer may possess with additional written authorization to include eagles not covered by the act.

3. Persons Affected

Persons wishing to engage in falconry activities within this Commonwealth may be affected by the proposed rulemaking.

4. Cost and Paperwork Requirements

The proposed rulemaking should not result in additional cost or paperwork.

5. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin* and will remain in effect until changed by the Commission.

6. Contact Person

For further information regarding the proposed rulemaking, contact Richard R. Palmer, Director, Bureau of Wildlife Protection, 2001 Elmerton Avenue, Harrisburg, PA 17110-9797, (717) 783-6526.

JOINT COMMITTEE ON DOCUMENTS

[1 PA. CODE CH. 1]

Preliminary Provisions; Definitions

The Joint Committee on Documents (JCD) proposes to amend 1 Pa. Code § 1.4 (relating to definitions).

Statutory Authority

Section 1.4 is proposed to be amended under 45 Pa.C.S. § 503 (relating to general administration of part) and section 506 of The Administrative Code of 1929 (71 P. S. § 186).

Background of the Amendments

The Legislative Reference Bureau (LRB) purchases paper copies of the *Pennsylvania Bulletin* (*Bulletin*) and *Pennsylvania Code* (*Code*) for a variety of government entities enumerated in 1 Pa. Code Chapter 15 (relating to distribution of publications). This has been the policy of

the JCD since the inception of the *Bulletin* in 1970. Under 45 Pa.C.S. § 503, the JCD is required to encourage "the widest possible dissemination" of documents appearing in the *Code* and *Bulletin*.

The *Code* and *Bulletin* have been available at no charge on the Internet since 1996. The web sites receive approximately 500,000 visits each month. Subscribers to the print versions have steadily declined as a result of free electronic access.

This proposed rulemaking will amend § 1.4 to define a "copy" to include a printed or electronic version. As a result, most entities listed in Chapter 15 will no longer receive paper copies of the *Code* and *Bulletin* paid for by the LRB. Budgetary constraints require that the LRB cease these payments. Informal surveys conducted by the staff of the JCD indicate that most of the Chapter 15 entities use the electronic versions of the *Code* and *Bulletin*.

Contact Person

Comments and questions regarding this proposed rulemaking may be referred to Mary Jane Phelps, Director of the *Code* and *Bulletin* and Secretary to the JCD, Legislative Reference Bureau, 647 Main Capitol Building, Harrisburg, PA 17120, (717) 783-1530. Interested persons are invited to submit written comments regarding the proposed amendment within 30 days following publication in the *Bulletin*.

Effective Date

It is anticipated that the final-form regulation will go into effect on July 1, 2011.

Fiscal Impact

There will be no fiscal impact on the general public as a result of this proposed rulemaking. Political subdivisions may be slightly impacted if magisterial district judges choose to continue paper subscriptions. The LRB paid \$472,538 for Chapter 15 subscriptions in 2009. The Commonwealth will realize a savings but it is difficult to predict how many State entities will choose to purchase the print versions. It is anticipated that most will rely on the web sites, so substantial savings should result.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on July 28, 2010, the JCD submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the House State Government Committee and the Senate Rules and Executive Nominations Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review prior to final publication of the rulemaking, by the JCD, IRRC, the General Assembly and the Governor of comments, recommendations or objections raised.

Secretary

[4 PA. CODE CH. 9]

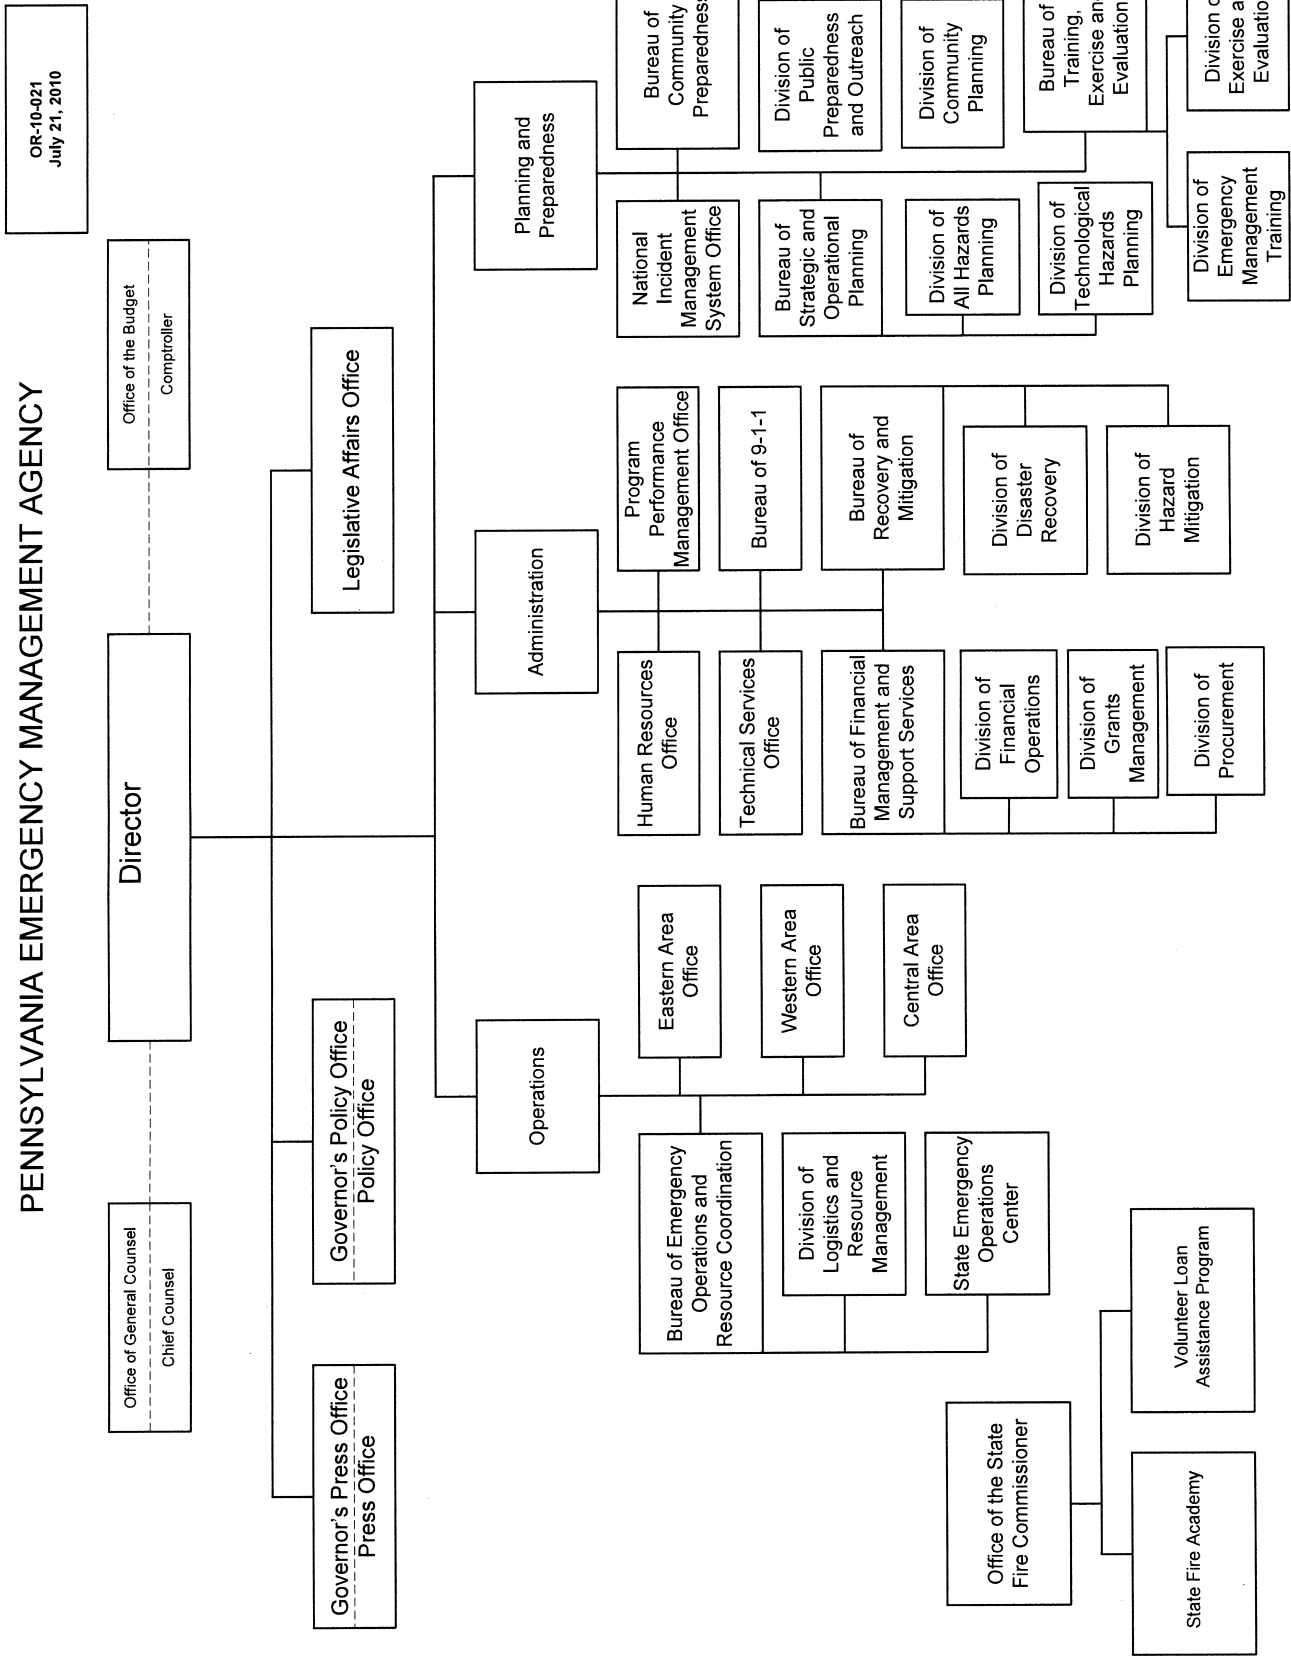

Reorganization of the Pennsylvania Emergency Management Agency

The Executive Board approved a reorganization of the Pennsylvania Emergency Management Agency effective July 21, 2010.

DEPARTMENT OF STATE
[4 PA. CODE CH. 165]
Notaries Public; Incompatible Crimes

The Secretary of the Commonwealth adds a statement of policy in § 165.1 to read as set forth in Annex A. This statement of policy establishes the policy and application review process of certain applications for appointment to the office of notary public under section 5 of The Notary Public Law (act) (57 P. S. § 151) regarding application to become a notary public. Section 5(b)(1) of the act requires that an applicant may not have been convicted of or pled guilty or nolo contendere to a felony or a lesser offense incompatible with the duties of a notary public during the 5-year period preceding the date of the application.

The purpose of this statement of policy is to provide notice of those misdemeanor crimes which the Secretary considers to be incompatible with the duties of a notary public.

This statement of policy is not intended to circumscribe administrative discretion given to the Secretary under any law, rule or regulation to appoint and commission notaries public. Other applicable laws include 18 Pa.C.S. § 9124 (relating to use of records by licensing agencies). Other applicable sections are section 5(b) of the act and section 22(a) of the act (57 P. S. § 168(a)), which permit the Secretary to reject an application for appointment "for good cause." Applicants must furthermore be "of good character, integrity and ability" under section 3(a) of the act (57 P. S. § 149(a)) to be eligible for the office of notary public. The Secretary must "be satisfied that the applicant is of good moral character" under section 5(b) of the act before issuing a commission. Therefore, while a crime may not directly preclude an applicant from appointment and commission under section 5(b)(1) of the act, conviction of a crime or a lengthy criminal history may nonetheless call into question an applicant's moral character or integrity and thus be good cause for rejection of the application.

Specific questions regarding this statement of policy should be directed to Travis Blouch, Chief, Division of Legislation and Notaries, Bureau of Commissions, Elections and Legislation, Department of State, 210 North Office Building, Harrisburg, PA 17120-0029, (717) 787-5280.

This statement of policy is effective upon publication in the *Pennsylvania Bulletin*.

BASIL L. MERENDA,
Acting Secretary

(Editor's Note: Title 4 of the Pa. Code is amended by adding a statement of policy in § 165.1 to read as set forth in Annex A.)

XX—Monitor and report.

In addition, the permit contains the following major special conditions:

- Stormwater Sampling Requirements.
- Chemical Additives.
- Schedule of Compliance for Temperature.
- Site-Specific Water Quality Criteria.

Site-Specific Water Quality Criteria

Consideration of effluent limits and/or monitoring requirements in this permit for Benzene Metadisulfonic Acid (BDSA), Benzene Monosulfonic Acid (BSA), p-Phenol Sulfonic Acid (p-PSA), and Resorcinol were based onsite-specific criteria that were developed by AMEC Earth & Environmental (AMEC), a consultant to Beazer East, Inc. (Beazer East). The criteria have been developed with methodologies approved by the Department of Environmental Protection (Department). The development of site-specific criteria for these substances was announced in the *Pennsylvania Bulletin* (39 Pa.B. 2594, May

23, 2009) as part of a request by the Department for analytical test methods, data and pertinent scientific information since there are no EPA-approved analytical methods for benzene metadisulfonic acid, benzene monosulfonic acid and p-phenol sulfonic acid (sulfonates).

Documentation to support the request was submitted to the Department on April 11, 2008 by Babst, Calland, Clements, and Zomnir, on behalf of Beazer East. These criteria apply to the sites that are located within an area approximately 60 square miles in size and that has been designated by the Department under the Hazardous Sites Cleanup Act (HSCA) as the "Bear Creek Area Chemical Site" (BCACS).

Because water quality criteria had not been developed for the sulfonates or resorcinol by either the Department or the U.S. EPA, AMEC used the U.S. EPA's National guidelines to develop aquatic life water quality criteria as stated in 25 Pa. Code § 16.22. In addition, the Department developed ambient water quality criteria for the protection of human health for resorcinol as stated in 25 Pa. Code § 16.32. The following documentation was used to support the resorcinol human health criterion: *Resorcino—Concise International Chemical Assessment Document 71*, published under the United Nations Environment Programme, the International Labour Organization, and the World Health Organization 2006. The proposed ambient water quality criteria are in the following table:

Compound	CAS Number	Aquatic Life		Human Health Criteria (ug/L)	Health Effect
		Criterion Maximum Concentration (Acute) (ug/l)	Criterion Continuous Concentration (Chronic) (ug/l)		
Benzene Metadisulfonic Acid	00098486	2,592,000	1,620,000	N/A	—
Benzene Monosulfonic Acid	00098113	1,956,000	1,151,000	N/A	—
p-Phenol Sulfonic Acid	00098679	3,476,000	1,363,000	N/A	—
Resorcinol	01084603	28,000	7,180	3,400	H

In the absence of an EPA approved analytical test method for the sulfonates and resorcinol, the Department is requiring that analytical laboratories apply for and obtain accreditation in accordance with 25 Pa. Code Chapter 252 prior to accepting and analyzing samples for analysis of these compounds. Therefore, the permittee may only rely on results received from a laboratory that has obtained accreditation for the sampling and analysis of sulfonates and resorcinol. Specific analytical requirements for the compounds are contained in the table that follows:

Compound	CAS Number	Minimum reporting limit ug/L	Spike recovery	Duplicate samples	Holding time
Benzene Metadisulfonic Acid	00098486	1,000	10% of daily samples	10% of daily samples, at least 1 daily	28 day
Benzene Monosulfonic Acid	00098113	1,000	10% of daily samples	10% of daily samples, at least 1 daily	28 day
p-Phenol Sulfonic Acid	00098679	1,000	10% of daily samples	10% of daily samples, at least 1 daily	28 day
Resorcinol	01084603	1,000	10% of daily samples	10% of daily samples, at least 1 daily	Freeze samples at collection, 7 day hold

XX—Monitor and report.

In addition, the permit contains the following major special conditions:

- Stormwater Associated with Industrial Activity from Chemical and Allied Products Manufacturing Facilities.
- Site-Specific Water Quality Criteria.

Site-Specific Water Quality Criteria

Consideration of effluent limits and/or monitoring requirements in this permit for Benzene Metadisulfonic Acid (BDSA), Benzene Monosulfonic Acid (BSA), p-Phenol Sulfonic Acid (p-PSA), and Resorcinol were based onsite-specific criteria that were developed by AMEC Earth & Environmental (AMEC), a consultant to Beazer East, Inc. (Beazer East). The criteria have been developed with methodologies approved by the Department. The development of site-specific criteria for these substances was announced in the *Pennsylvania Bulletin* (39 Pa.B. 2594, May 23, 2009) as part of a request by the Department of Environmental Protection (Department) for analytical test methods, data and pertinent scientific information since there are no EPA-approved analytical methods for benzene metadisulfonic acid, benzene monosulfonic acid and p-phenol sulfonic acid (sulfonates).

Documentation to support the request was submitted to the Department on April 11, 2008, by Babst, Calland, Clements, and Zomnir, on behalf of Beazer East. These criteria apply to the sites that are located within an area approximately 60 square miles in size and that has been designated by the Department under the Hazardous Sites Cleanup Act (HSCA) as the "Bear Creek Area Chemical Site" (BCACS).

Because water quality criteria had not been developed for the sulfonates or resorcinol by either the Department or the U.S. EPA, AMEC used the U.S. EPA's national guidelines to develop aquatic life water quality criteria as stated in 25 Pa. Code § 16.22. In addition, the Department developed ambient water quality criteria for the protection of human health for resorcinol as stated in 25 Pa. Code § 16.32. The following documentation was used to support the resorcinol human health criterion: *Resorcinol—Concise International Chemical Assessment Document 71*, published under the United Nations Environment Programme, the International Labour Organization, and the World Health Organization 2006. The proposed ambient water quality criteria are in the following table:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Best Available Technology at the facility will be met by control of emissions from the Caterpillar G3608 compressor units with CO/VOC oxidation catalysts, operation in conformance with manufacturer recommendations and good operating practices.

Annual emissions from the proposed facility are estimated to be 32.04 tons of NO₂, 13.73 tons of CO, 19.22 tons of VOC, 5.49 tons of formaldehyde and total emissions of 8.23 tons of HAPs. There are no new significant sources at the facility. The parts washer (Source ID 110) has been replaced with a parts washer which uses an aqueous based solvent. The new parts washer is therefore considered insignificant and not subject to the requirements of 25 Pa. Code § 129.63 (degreasing operations). Two Boilers, listed as Source ID 031 and 032, have been permanently removed and replaced with two small boilers. The maximum capacity of the new boilers is 1.68 mmBtu/hr, each. These boilers are exempt from plan approval requirements according to 25 Pa. Code § 129.7449(e) and are listed in Section G (Miscellaneous) of the permit as insignificant. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting. The sources at this facility are not subject to Compliance Assurance Monitoring (CAM) under 40 CFR Part 64.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 regarding notices of filing of permit applications, opportunity for comment, and informal conferences.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions

for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Replacement of the gas transmission pipelines shall be accomplished in dry stream work conditions by dam and pumping or fluming stream flow around work areas. As proposed, 26,000-feet of pipeline replacement shall not result in any permanent wetland and stream impact, while incurring 4.5-acres of temporary wetland and 650-feet of temporary stream impact. The project is located along the western right-of-way of SR 1019 approximately 2.4-miles north of SR 0049 and SR 1019 intersection.

E55-227. Department of Transportation, Engineering District 3-0, P. O. Box 218, Montoursville, PA 17754-0218. SR 2013, Section 004, Bridge Replacement Project, Union Township, **Snyder County**, ACOE Baltimore District (Dalmatia, PA Quadrangle N: 40° 41' 40"; W: 76° 52' 39").

Department of Transportation, Engineering District 3-0 proposes to replace a single span concrete slab bridge with a single span concrete box culvert. The existing structure has a normal span of 7.76 feet, skew of 90°, an underclearance of 3.3 feet, and a low chord elevation of 422.92 feet. The proposed structure has a normal span of 7.0 feet, skew of 90°, an underclearance of 6.0 feet, and a low chord elevation of 421.67 feet. The proposed box culvert will impact approximately 85 feet of stream channel. The channel flow line drops nearly 6 feet in elevation, due to three concrete formed steps within the existing structure. These steps within the existing structure will result in a proposed box culvert slope of 7.3% and 50 feet of upstream channel slope changes. The culvert outlet elevation is bound by an existing private stream enclosure, which outlets into the Susquehanna River. The proposed structure will be located on the same horizontal and similar vertical alignment. The project will not impact any jurisdictional wetland. This project will not require mitigation. The project is located over Herrold Run, which is a Tributary to the Susquehanna River (WWF). The project is located in Union Township, Snyder County.

Spring Creek Township, **Warren County**, ACOE Pittsburgh District (Spring Creek, PA Quadrangle N: 41° 49' 29"; W: 79° 35' 15").

To remove the existing bridge and to construct and maintain a 25.3-foot long prestressed concrete spread box beam bridge having a normal span of 53.25 feet and an average underclearance of 5 feet on a 55° skew across Spring Creek on a new alignment located approximately 150 feet downstream of the existing bridge. To place fill in a total of 0.155 acre of EV wetland in the 100-year flood plain of Spring Creek associated with the roadway approaches to the bridge. The project will include creation of 0.3 acre of replacement wetland onsite.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated

substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. Availability of Technical Guidance

Technical guidance documents are available on the Department of Environmental Protection's (Department) web site at <http://www.depweb.state.pa.us> (DEP Keywords: "eLibrary"). The "Technical Guidance Final Documents" heading is the link to a menu of the various Department bureaus where each bureau's final technical guidance documents are posted. The "Technical Guidance Draft Documents" heading is the link to the Department's draft technical guidance documents.

The Department will continue to revise its nonregulatory documents, as necessary, throughout 2010.

Ordering Paper Copies of Department Technical Guidance

The Department encourages the use of the Internet to view and download technical guidance documents. When this option is not available, persons can order a paper copy of any of the Department's draft or final technical guidance documents by contacting the Department at (717) 783-8727.

In addition, bound copies of some of the Department's documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Interim Final Technical Guidance—Substantive Revision

DEP ID: 258-2182-773. Title: Management of Fill. Description: This interim final modification separates Form FP-001 (Certification of Clean Fill) from the policy to be a stand-alone document to better accommodate future revisions to the form. Before clean fill that has been affected by a spill or release may be placed on a property, Form FP-001 must be provided to the Department certifying the origin of the fill material and results of analytical testing to qualify the material as clean fill. Concurrent with separating Form FP-001 from the policy, the Department has revised the form to be more informative and consistent with the Management of Fill policy. Although the Department is not soliciting formal comment on Form FP-001, interested persons may offer recommendations for improvements to the form for Department consideration. This technical guidance will be published as interim final with a 30-day comment period. Comments: Written comments should be submitted to Todd M. Wallace, Acting Director, Bureau of Waste Management, 14th Floor, Rachel Carson State Office Building, P. O. Box 8471, Harrisburg, PA 17105-8471. The Department will accept comments submitted by e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Comments must be received by the Department by September 7, 2010. Contact: Questions regarding the draft technical guidance document should be directed to Peter Arnt, at parnt@state.pa.us or (717) 787-4325.

Effective date: August 7, 2010.

Draft Technical Guidance—Substantive Revision

DEP ID: 257-3120-003. Title: Guidelines for Conducting Underground Storage Tank Facility Operations Inspections. Description: Storage Tank Regulations require periodic inspection of the operation of underground storage tank facilities. The purposes of the inspections are to determine if a facility's underground storage tanks have been installed and are being operated and maintained in accordance with Storage Tank Regulations. Third-party inspectors, certified by the Department, perform routine facility operations inspections. This guidance clarifies the procedures certified inspectors should follow when completing an underground storage tank facility operations inspection. Substantive revisions were made to the guidance to update the procedures Department-certified inspectors should follow when completing an underground storage tank facility operations inspection and to correlate with changes to the Storage Tank Regulations published on November 10, 2007, and December 26, 2009. Written Comments: The Department is seeking comments on the substantive revisions to draft technical guidance No. 257-3120-003. Interested persons may submit written comments on this draft technical guidance document by September 6, 2010. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Kris A. Shiffer, Department of Environmental Protection, Bureau of Waste Management, Division of Storage Tanks, Rachel Carson State Office Building—14th Floor, P. O. Box 8762, Harrisburg, PA

17105-8762 or kshiffer@state.pa.us. Contact: Questions regarding the draft technical guidance document should be directed to Kris Shiffer at (717) 772-5809 or kshiffer@state.pa.us.

Effective date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Draft Technical Guidance

DEP ID: 257-2300-001. Title: Underground Storage Tank Class A and Class B Operator Training Courses. Description: Storage Tank Regulations require that underground storage tank operators be designated by tank owners and trained as soon as practicable, contingent upon availability of approved training providers, but not later than August 8, 2012 (See Section 245.436 relating to operator training). There are three distinct classes of operators: Class A, B and C. Class A and B operators require formal training, testing and certification of training completion. Enactment of the Federal Energy Policy Act of 2005 requires states receiving funds under RCRA, Subtitle I to implement an underground storage tank operator training program. This guidance correlates with recent changes to Chapter 245 published on December 26, 2009, and will allow the Department to continue to receive Federal grants under Subtitle I. Written Comments: The Department is seeking comments on draft technical guidance No. 257-2300-001. Interested persons may submit written comments on this draft technical guidance document by September 6, 2010. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Kris A. Shiffer, Department of Environmental Protection, Bureau of Waste Management, Division of Storage Tanks, Rachel Carson State Office Building—14th Floor, P. O. Box 8762, Harrisburg, PA 17105-8762 or kshiffer@state.pa.us. Contact: Questions regarding the draft technical guidance document should be directed to Kris Shiffer at (717) 772-5809 or kshiffer@state.pa.us.

Effective date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Permit Extensions Law (Act 46); Notice of Applicability

Pursuant to Section 1607-I of the Act of April 9, 1929 (P. L. 343, No. 176), known as the Fiscal Code, added July 6, 2010 (P. L. ____, Act No. 46) (hereafter "Act 46"), this notice hereby identifies the applicability of the extension period provided under Act 46 to certain approvals granted under programs administered by the Department of Environmental Protection (Department).

Act 46 was passed by the General Assembly on July 6, 2010, to provide relief to the building industry impacted by the economic downturn and to that end is focused on land development for residential and commercial purposes. The Act automatically extends the expiration date of certain types of approvals, permits, decisions, agreements and other authorizations or decisions (hereafter "approvals") that were in effect, or issued, after December 31, 2008. The extension provided under Act 46 lasts until July 1, 2013.

By its express terms, Act 46 does not apply to: (1) an approval issued to comply with federal law, the duration or terms of expiration of which is specified or determined by federal law; or (2) requirements that are necessary to retain federal delegation to, or assumption by, the Commonwealth of the authority to implement a federal law or program. For example, Act 46 does not extend any of the NPDES permits administered by the Department or County Conservation Districts, including those for construction activities, for both of those reasons.

The following approvals issued by the Department, County Conservation Districts and local agencies are subject to Act 46 when they are associated with land development and related construction, subject to the exceptions listed below in this Notice:

1. Dam, Water Obstruction and Encroachment permits, and General Permit authorizations, under 25 Pa. Code Chapter 105. According to the Army Corps of Engineers, the related Pennsylvania State Programmatic General Permit ("SPGP") authorizes pursuant to Section 404 of the federal Clean Water Act will also be extended. Neither the Department nor any delegated County Conservation District or holder of such an authorization under Chapter 105 will have to take any action to effectuate this extension of any related SPGP authorization.

2. Water Quality Certifications under Section 401 of the Federal Clean Water Act that are issued by the Department for General Permits issued under Chapter 105. The extension is for the same length of time that the applicable Chapter 105 coverage approval is extended.

3. The following permits and general permit authorizations issued for beneficial use of residual waste, under 25 Pa. Code Chapter 287:

WMGR065—Beneficial use of the following types of residual wastes related to the manufacturing of iron and

steel: refractories, foundry sands, slags, air emission control solids and the media associated with their excavation as construction fill at an Act 2 remediation site.

WMGR070—Beneficial use of baghouse fines from air pollution devices generated at hot-mixed asphalt plants as a construction material or as levee core impermeable fill and pipe bedding.

WMGR072—Beneficial use of dewatered dredge waste for use as a roadbed material in roadway construction.

WMGR079—Processing and beneficial use of waste asphalt shingles as an aggregate in the production of hot mix asphalt paving material and as a sub-base for road and driveway construction.

WMGR082—Processing and beneficial use of steel and iron slag and refractory bricks mined from an existing slag pile for use as a construction material.

WMGR090—Processing and beneficial use of reclaimed asphalt pavement (RAP) materials as roadway construction material.

4. Deadlines for commencement of construction in public water system construction permits issued under 25 Pa. Code § 109.503.

5. Approvals for on-lot systems issued by local agencies under 25 Pa. Code Chapter 72.

6. Plan approvals under Act 167, 32 P.S. § 680.1 et seq. (relating to storm water management).

7. Part II permits for construction of sewage treatment facilities under 25 Pa. Code Chapter 91.

Holders of approvals (i.e., permittees) granted under programs administered by the Department should not assume that an expiration date has been extended under Act 46 unless it is one of the types of approvals listed in this Notice and the holder has received a verification according to guidelines included in the Department's Guidance for Implementation of Act 46, which is available on the Department's website at www.depweb.state.pa.us under the "Licensing, Permits & Certification" link.

Certain approvals granted under programs administered by the Department, as well as particular circumstances, are not applicable to the extensions provided under Act 46. These include:

1. An approval issued to comply with federal law, the duration or terms of expiration of which is specified or determined by federal law.

2. Requirements that are necessary to retain federal delegation to, or assumption by, the Commonwealth of the authority to implement a federal law or program.

3. Approvals where, after the approval and during the extension period, the surface waters became classified as High Quality pursuant to 25 Pa. Code Section 93.1, 93.4b(A) or classified as Exceptional Value pursuant to 25 Pa. Code § 93.4b(B)(1).

4. An approval that was issued in connection with Exceptional Value surface waters under 25 Pa. Code § 93.4b(B)(1).

5. An administrative consent order or other enforcement action relating to an approval that is subject to the extension period.

6. The revocation or modification of an approval or extension of an approval, when the approval authorizes the modification or revocation for cause.

The Department's interpretation of Act 46 referred to herein is not an adjudication or a regulation. There is no intent on the part of the Department to give the contents of this Notice, and the Department's guidance referred to in this Notice, that weight or deference. This Notice explains the framework within which the Department will exercise its administrative discretion in the future, and the Department reserves the discretion to deviate from that framework if circumstances warrant.

Questions concerning the applicability of Act 46 to approvals granted under programs administered by the Department may be directed to the Regional Office, District Mining Office, Central Office program, County Conservation District or local agency that issued the approval. Contact information is provided in the Department's guidance document referred to above.

Payment for Nursing Facility Services; Nonpublic Nursing Facility Medical Assistance Enhanced Supplemental Payments

Purpose

The purpose of this announcement is to provide advance public notice that the Department of Public Welfare (Department) intends to change its methods and standards for payment of Medical Assistance (MA) nursing facility services to offer a new category of supplemental payment to qualified nonpublic MA nursing facilities.

Specific Requirements

The Department is the Single State Agency responsible for the administration of the MA Program. The Department reimburses nonpublic MA nursing facilities for the services they render to MA recipients through a combination of per diem rate payments, which are computed under the case-mix payment methodology in 55 Pa. Code Chapter 1187 (relating to nursing facility services), and various supplemental payments, which are authorized in Chapter 1187 and the Commonwealth's approved Title XIX State Plan.

Consistent with its focus on ensuring the sustainability of quality MA long-term living services to the consumers of those services, the Department intends to submit a State Plan Amendment (SPA) to the Federal Centers for Medicare and Medicaid Services (CMS) to authorize an Enhanced Supplemental (ES) Payment to nonpublic MA nursing facilities that meet specified criteria and agree to certain conditions. Under the proposed SPA, the Department would provide nonpublic nursing facilities that serve a disproportionate number of MA residents or serve MA residents with high care needs, or both, the opportunity to receive enhanced MA Program funding. Making this enhanced funding available is part of the Department's ongoing efforts to ensure that MA recipients continue to receive access to medically necessary nursing facility services and that those services result in quality care that improves the lives of those who receive them.

In addition, consistent with the Department's focus on ensuring efficient use of tax dollars, the Department intends to include provisions in the proposed SPA to eliminate existing and potential litigation challenging the adequacy of the case-mix per diem rate payments. These measures will allow the Commonwealth and MA nursing facilities to direct more of their financial and staff resources into the delivery of services to consumers, rather than to underwriting the costs of protracted rate litigation. In addition, they will remove uncertainties and afford greater stability and predictability to the Commonwealth and to MA nursing facilities for budgeting and planning purposes.

If CMS approves the SPA, the Department will make the ES Payments in two installments. Each installment will be comprised of several components. The amount of a qualifying nursing facility's ES Payment will depend on how many components the facility is eligible to receive. The Department will use its best efforts to process the first installment within 20 days of the date it receives notice from CMS that the SPA is approved. The Department will use its best efforts to process the second installment within 14 days after the first installment payment is made.

The explanation of the qualifying criteria, the payment conditions, and the computation of the ES Payment is available in a Question and Answer document posted online at: <http://www.dpw.state.pa.us/PartnersProviders/MedicalAssistance/DoingBusiness/LTCCaseMixInfo/>.

Payment of the ES Payments to qualified nursing facilities is contingent upon approval by CMS of the SPA and the facilities' signed agreement accepting the terms and conditions for receipt of the ES Payments.

Fiscal Impact

The estimated increase in annual aggregate expenditures during Fiscal Year (FY) 2010-2011 is \$22 million in State funds.

Public Comment

Interested persons are invited to submit written comments regarding the ES Payments to Attn: Yvette Sanchez-Roberts, Department of Public Welfare/ Department of Aging, Office of Long-Term Living, 555 Walnut Street, Forum Place, 5th Floor, Harrisburg, PA 17101-1919. Additions to List of Class A Wild Trout Waters

The Fish and Boat Commission (Commission) has approved the additions to its list of Class A Wild Trout Streams as set forth at 40 Pa.B. 3027 (June 5, 2010). Under to 58 Pa. Code § 57.8a (relating to Class A wild trout streams), it is the Commission's policy to manage self-sustaining Class A wild trout populations as a renewable natural resource and to conserve that resource and the angling that it provides. Class A wild trout populations represent the best of this Commonwealth's naturally reproducing trout fisheries. The Commission manages these stream sections for wild trout with no stocking.

Removal of Certain Refuge Areas

Under 58 Pa. Code § 67.2 (relating to refuge areas), the Executive Director of the Fish and Boat Commission (Commission), with the approval of the Commission, may designate waters as refuge areas to which 30 Pa.C.S. § 2306 (relating to refuge areas), shall apply. Section 2306 of 30 Pa.C.S. provides that the Commission may set aside, in its discretion, areas as it may judge best as refuge areas in which fishing or entry shall be prohibited for periods of time as the Commission prescribes. According to the regulation, the designation of waters as refuge areas shall be effective upon posting of the waters after publication of a notice that the waters have been so designated in the *Pennsylvania Bulletin*. Refuge areas are closed to public fishing except during the period from June 15 until the last day of February of the following year. It is unlawful to disturb fish or other aquatic life in refuge areas by any means, including wading, throwing stones, rocks or other objects or otherwise agitating the waters. The regulation will not be construed to prohibit fishing in such areas during the extended trout season.

Based on current conditions, there are reasons to remove the refuge area designation from 18 streams. For example, some streams are no longer being maintained as marked refuge areas, some streams are no longer stocked with trout and some streams are simply not being well utilized by anglers. These conditions are inconsistent with the premise for the use of refuge areas. Therefore, the Commission removed the refuge area designations from the sections of the following waters that have been so designated for the following reasons, consistent with its

notice published at 40 Pa.B. 3029 (June 5, 2010):

<i>County</i>	<i>Water Area</i>	<i>Rationale for Removal</i>	<i>County</i>	<i>Water Area</i>	<i>Rationale for Removal</i>

INDEX OF GUIDANCE AVAILABLE REGARDING COMPLIANCE WITH LICENSEE STATUTES AND REGULATIONS

Instructions for license applications and Guidelines for compliance are available regarding each of the following statutes and, to the extent that regulations have been promulgated, their respective underlying regulations:

- Consumer Discount Company Act,
- Debt Management Services Act,
- Money Transmitter Act,
- Motor Vehicle Sales Finance Act,
- Pawnbrokers License Act,
- Check Cashers Licensing Act, and
- Credit Services Act.
- 7 Pa.C.S. § 6101 et seq. (relating to mortgage loan industry licensing and consumer protection)

In addition to the above indices, the Department of Banking maintains interpretive letters addressing the applicability of statutes and regulations administered by the Department of Banking to specific fact patterns. The Department may provide a summary of the Department's position on a particular issue or a redacted interpretive letter when appropriate in response to particular questions previously addressed by the Department, in order to assist the public and members of the lending industry in complying with laws administered by the Department. The Department of Banking will continue to issue interpretive letters on a case by case basis when appropriate regarding new issues raised by persons requesting such interpretive information.

BOARD OF PARDONS

Factors Considered by the Board of Pardons

In Evaluating Pardon/Commutation Requests

Many individuals call, write or email the Board of Pardons seeking information about what factors the

Board deems most important in considering pardon/commutation requests. Some wish to use this information to help them decide whether to apply for clemency. Others seek the information to assist them in completing their applications after they have decided to apply.

Neither the Pennsylvania Constitution nor the laws or regulations governing the Board establish minimum eligibility requirements in order to apply for executive clemency. Also, the law does not establish a specific list of factors that the Board must consider in evaluating applications. As a result, each of the five Board members is free to rely upon the information that he/she feels is most important both in deciding to grant a public hearing and in deciding to recommend clemency to the Governor.

The Board believes that it will be helpful to clemency applicants and the public generally to provide a list of some of the factors that have been considered by the Board in the past in evaluating clemency applications. This list is by no means exclusive, and is not applied by every Board member in every case. Satisfaction of the criteria identified below does not entitle the applicant to clemency, nor does failure to satisfy the criteria automatically result in rejection of the application. Rather, the Board evaluates every application on a case-by-case basis to determine whether clemency is appropriate.

Factors Considered in Pardon Applications

1. How much time has elapsed since the commission of the crime(s)? Obviously, this factor, coupled with being crime free after the offense, is one of the best indicators of whether the applicant has been successfully rehabilitated. Further, the more serious, or numerous, the crime(s), the greater the period of successful rehabilitation that the applicant should be able to demonstrate.

2. Has the applicant complied with all court requirements? The applicant should be able to demonstrate successful completion of all court-imposed requirements such as probation, parole, and payment of all fines and costs. If unsure of the latter, applicants should check with the County Clerk of Courts, and get receipts for any recent payments.

3. Has the applicant made positive changes to his/her life since the offense(s)? Successful rehabilitation may also be demonstrated by positive changes since the offense(s) in applicant's career, education, family or through community or volunteer service, particularly in areas that relate to the offense(s).

4. What is the specific need for clemency? The applicant should identify a specific need for clemency, e.g., a particular job that applicant cannot get, or some particular activity that he/she cannot participate in without clemency, as opposed to the more general answers of "employment purposes" or "to put this behind me" that applicants frequently use.

5. What is the impact on the victim(s) of the offense(s)? The Board's regulations require that victims or next of kin be notified and given the opportunity to appear at the hearing or make a confidential submission in writing. Applicants should be aware that victims or next of kin may be present and, in any event, will have their viewpoint considered by the Board.

Factors Considered in Commutation of Sentence Applications

1. Does the applicant still have appeals pending in any court? The Board views clemency as an extraordinary remedy that should ordinarily be resorted to only after all legal remedies have been exhausted.

2. Is the applicant eligible for parole or will he/she be eligible within a reasonable period of time? In most cases, parole is the more appropriate avenue for release by applicants eligible for parole.

3. Has an appropriate period of incarceration been served based on the circumstances of the offense?

4. Has the applicant maintained an appropriate conduct record for consideration of clemency? The Board looks to the number of both serious and minor misconducts as a reliable indicator of the rehabilitation of the applicant.

5. Has the applicant had a successful work record and/or availed himself/herself of the programming opportunities for self-improvement that are available through the correctional facility? Again, the Board views these factors as reliable indicators of the rehabilitation of the applicant.

6. What is the impact on the victim(s) of the offense(s)? The Board's regulations require that victims or next of kin be notified and given the opportunity to appear at the hearing or make a confidential submission in writing. Applicants should be aware that victims or next of kin may be present and, in any event, will have their viewpoint considered by the Board.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Numbering Plan Relief Planning for the 570 NPA

Public Meeting held
July 15, 2010

Commissioners Present: James H. Cawley, Chairperson; Tyrone J. Christy, Vice Chairperson; John F. Coleman, Jr.; Wayne E. Gardner; Robert F. Powelson

Petition of the North American Numbering Plan Administrator on behalf of the Pennsylvania Telecommunications Industry for Approval of Numbering Plan Area Relief Planning for the 570 NPA; P-2009-2117193

Final Order

By the Commission:

In this order, the Commission revisits the issue of area code exhaust¹ and the implementation of relief to address such exhaust. On July 1, 2009, the North American Numbering Plan Administrator (“NANPA”), NeuStar, Inc. (Neustar), in its role as the neutral third party Numbering Plan Area (“NPA”) Relief Planner for Pennsylvania,² acting on behalf of the Pennsylvania telecommunications industry (“industry”) filed a petition with the Commission requesting approval of its plan for the 570 Numbering Plan Area (“NPA” or “area code”). The Commission, therefore, is faced with deciding which form of area code relief should be implemented for the 570 area code and when the new area code must be added.

¹ The unavailability of NXX codes in an area code for assignment to telecommunications carriers leads to the exhaust of the area code.

² The NANPA is the entity that allocates numbering resources and monitors the viability of area codes to determine when all of the numbers available in the area code are nearing exhaust.

Background

A. Creation of the 570 Area Code

Much of the information leading to the establishment and implementation of the 570 area code can be found in prior Commission orders. Essentially, on June 28, 1996, the telecommunications industry asked the Commission to decide how to relieve the shortage of numbering resources in the original 717 area code as the industry could not reach a consensus.³ Accordingly, the Commission opened a docket at P-00961071 that ultimately led to the creation of the 570 area code on May 21, 1998.⁴ The 570 NPA was a geographic split⁵ of the original 717 area code and was activated on April 8, 1999. The geographic area covered by the new 570 area code is comprised of 21 north-central counties and includes the cities of Williamsport, Wilkes-Barre, Hazelton, Scranton, and Stroudsburg.

B. Dismissal of the First 570 Relief Plan

Neustar projected that the 570 NPA would have a life of approximately six years before the numbering resources would exhaust. Nevertheless, on May 4, 2000, or approximately one year later, the Commission was notified that relief planning for the 570 NPA was necessary yet again. According to the NANPA, the projected exhaust date for the 570 area code was now the first quarter of 2002.⁶ Accordingly, a 570 NPA Relief Meeting was held on June 1, 2000, where the industry reached a consensus⁷ to implement an all-services distributed overlay for the 570 area code with implementation of this overlay to begin on October 2, 2000.

On July 19, 2000, NeuStar filed the petition with the Commission requesting approval of its relief plan to implement an overlay for the geographic area covered by the 570 NPA (“July 19th Petition”). After receipt of this petition, the Commission requested comments from interested parties on the July 19th Petition and scheduled public input hearings regarding what type of relief should be implemented in the 570 NPA and when this relief should be implemented.

During the course of its deliberations regarding the July 19th petition, the Commission had received from the Federal Communications Commission (“FCC”) the authority to implement such number conservation measures as 1,000-block number pooling⁸ and NXX code reclamation⁹ in the 570 area code.¹⁰ Furthermore, the FCC had

³ The Industry Numbering Committee (INC) Guidelines provide that when an area code is nearing exhaust, the NANPA, which then becomes the NPA Relief Planner, convenes a meeting of the industry to discuss relief alternatives. *NPA Code Relief Planning & Notification Guidelines*, INC97-0404-016, reissued Nov. 8, 1999, at § 5.5.

⁴ *Petition of NPA Relief Coordinator Re: 717 Area Code Relief Plan*, Docket No. P-00961071 (Order entered May 21, 1998).

⁵ A geographic split occurs when an existing area code is divided into two or more separate geographic areas where one area retains the existing NPA and the others receive new NPAs.

⁶ Pursuant to the *INC Guidelines*, the NANPA was required to prepare relief options for an NPA that was projected to exhaust within 36 months and to conduct an industry meeting with the goal of reaching industry consensus regarding the form of relief for the area code. See *INC Guidelines* at §§ 5.0, 5.5.

⁷ A consensus is established when substantial agreement has been reached. Substantial agreement means more than a simple majority, but not necessarily unanimity. *CLC Principles and Procedures*, May 1998, at § 6.8.8.

⁸ Thousand-block number pooling is the process by which a 10,000 block of numbers is separated into ten sequential blocks of 1,000 numbers and allocated separately to providers within a rate center.

⁹ NXX code reclamation involves the return of unused NXX codes to the NANPA. Within six months of receiving an NXX code, a carrier must assign at least one number to an end user or the entire NXX code must be returned to the NANPA. 47 CFR 52.15(g)(iii).

¹⁰ The Commission implemented NXX code reclamation in the 570 NPA in August 2000, while mandatory 1,000-block pooling was implemented in February 2002. See *Petition of Representative Keith R. McCall and Members of the Northeast Delegation of the Pennsylvania House of Representatives Requesting that Additional Authority be Delegated to the Pennsylvania Public Utility Commission to Implement Additional Number Conservation Measures*, CC Docket No. 99-200 and NSD-L-01-113 (Order released December 28, 2001). By order entered on August 9, 2001, at Docket No. M-00001427, the Commission, with the consensus of the industry, ordered the implementation of a voluntary pool in 570, which subsequently became mandatory at the direction of the FCC in the *McCall Order*.

mandated that all wireless carriers participate in pooling as of November 24, 2002.¹¹ Thus, wireless carriers began participating in Pennsylvania's mandatory pools, including the pool in 570. As a result of the implementation of these various number conservation measures, the 570 area code experienced an unprecedented, efficient use of its numbering resources, which, in turn, lengthened the life expectancy of the 570 area code.

In May of 2003, the NANPA, after taking into account the effects of the number conservation measures, revised the projected exhaust date for the 570 NPA to the third quarter of 2008. A relief plan may be withdrawn prior to its approval if it is determined that the NPA will not exhaust in the next five years.¹² Accordingly, by Order entered August 1, 2003, at P-00961071F002, the Commission concluded that the data on which the 570 relief plan had been filed was outdated and that the various number conservation measures that had been implemented had resulted in more numbers becoming available in the 570 area code. Consequently, the Commission determined that there was good cause to dismiss the July 19th Petition.

C. Current 570 Relief Plan

On March 30, 2009, the NANPA again notified the Industry and the Commission that it needed to meet to discuss relief alternatives for the 570 NPA. According to the April Number Resource Utilization Forecast ("NRUF") and NPA Exhaust Analysis April 24, 2009 Update ("2009 NRUF Report"),¹³ the 570 NPA was projected to exhaust all available NXX codes during the third quarter 2011. Further, the 570 NPA was declared to be in jeopardy on April 1, 2009.¹⁴

The Industry met via conference call May 27, 2009, to discuss various relief alternatives proposed by the NANPA. At this meeting, the NANPA proposed four relief alternatives to alleviate the situation in the 570 NPA. Two of the proposed relief alternatives were two-way geographic splits and the other two were all-services distributed overlays. The industry reached a consensus to recommend an all-services distributed overlay as the form of relief for the 570 NPA for several reasons.

On July 1, 2009, NeuStar filed a petition with the Commission requesting approval of this plan for the 570 Numbering Plan Area ("NPA" or "area code").¹⁵ According to the petition, the industry reached a consensus to implement an all services distributed overlay for the geographic area covered by the 570 NPA which would create a new area code to service the area. By an Order entered July 29, 2009, the Commission denied the industry's recommendation and requested written comments from interested parties on the four relief alternatives that had initially been presented by Neustar to the telecommunications industry. Thereafter, by an Order entered

December 23, 2009, the Commission scheduled five public input hearings in various cities located throughout the 570 NPA.¹⁶

The Commission has reviewed the written comments and the transcripts of public input hearings regarding which form of area code relief should be implemented upon exhaust of the 570 NPA and the timeframe for the implementation. The Commission would like to express its sincere thanks to those that submitted written comments in this proceeding and to those who attended and participated in the public input hearings and offered their concerns and suggestions regarding which form of area code relief the Commission should implement for the 570 area code. The Commission has taken all of this into consideration in resolving the question of area code relief for the 570 area code.

Discussion

When the supply of numbers available within an NPA, or area code, is estimated to exhaust, some form of area code relief must be implemented so that customers in that area can continue to obtain the services they desire from the carrier of their choice. Pursuant to Section 251(e) of the Act, 47 U.S.C. § 251(e), the FCC delegated authority to state commissions to direct the form of area code relief in such situations.

The FCC has adamantly maintained that state commissions cannot engage in number conservation measures to the exclusion of, or as a substitute for, timely area code relief.¹⁷ Therefore, when Pennsylvania's area codes are about to exhaust their supply of NXX codes, the Commission must implement timely area code relief, i.e., add a new area code. When faced with the need to implement new area codes, the Commission must decide two very important issues. First, the Commission must decide how to implement the new area code (i.e., a geographic split or an overlay). Second, the Commission must determine when the new area code needs to be implemented.

When confronted with resolving area code exhaust and implementing area code relief, state commissions generally have the ability to use four viable options to introduce a new area code. However, the two most common methods of introducing new area codes are the geographic split or an overlay. Both of these options have their advantages and drawbacks. We note that local calling areas do not change no matter which method of area code relief is implemented.

With a geographic split, the geographic area covered by the existing area code is split into two smaller sections. One of the sections retains the existing area code while the other geographic section receives the new area code, which causes residential customers and businesses in that section to have to change their telephone numbers. Nevertheless, local calling areas do not change and both sections retain the ability to use seven-digit dialing when making calls within each corresponding geographic area. Conversely, telephone calls between the two geographic areas, even if rated as "local" calls by the telephone company, cannot be completed without the use of ten-digit dialing.

The other option is an all-services overlay. An overlay area code "covers" the pre-existing area code, most often serving the identical geographic area. This option puts an end to further shrinking of the geographic size of the area

¹³ Federal rules that went into effect on July 17, 2000, require all carriers to report to the NANPA their historical and forecast utilization data. 47 CFR 52.15(f). These reports are made semi-annually and are referred to as the "NRUF Reports." Using this data along with the rate of assignment of NXX codes in the NPA, the NANPA predicts the exhaust date for all NPAs in its NPA Exhaust Analysis. These reports can be found at www.nanpa.com.

¹⁴ According to the *Central Office Code (NXX) Assignment Guidelines*, "A jeopardy condition exists when the forecasted and/or actual demand for NXX resources will exceed the known supply during the planning/implementation interval for relief."

¹⁵ If the industry reaches a consensus, then its consensus plan is filed with the Commission and the Commission has an opportunity to take action at that point. See *NPA Code Relief Planning & Notification Guidelines*, INC97-0404-016, reissued November 8, 1999, at § 5.6.

code. Additionally, all existing numbers in the overlaid geographic area are able to keep the old area code, and only new telephone lines are assigned the new area code if the old area code has run out of numbers. Consequently, a customer might have two different area codes for telephone lines serving his or her home or place of business. Furthermore, since with an overlay there are multiple area codes for the same geographic area, all calls, including local calls, require ten-digit dialing in order to be completed. In fact, per FCC mandate, states are required to impose ten-digit dialing for all calls, even if those calls are made within the same area code. This purportedly eliminates a dialing disparity between customers in the old area code and those in the new overlay area code.

The Commission prefers to implement the form of area code relief that is the least disruptive to the residential customers and businesses that reside within the 570 area code. The Commission notes that the industry reached a consensus to implement an all-services distributed overlay for the geographic area covered by the 570 NPA, which would create a new area code to service the area and require ten-digit dialing to complete all calls. Additionally, upon our review of the written comments received and the transcript from the various public input hearings, many agree with the industry's consensus recommendation to implement an all-services distributed overlay for the geographic area covered by the 570 NPA.

We agree with the industry's recommendation and the sentiments of the majority of the commenters. We believe that the geographic size of the 570 area code lends itself to the imposition of an overlay. On the other hand, implementing a geographic split would create smaller and smaller geographic sections that result in arbitrary regions that make no geographic sense at all. A geographic split can divide communities of interest, such as neighborhoods, school districts and municipalities. Thus, the area code loses its meaning because there are too many areas and too many codes.

Furthermore, we believe that the imposition of an overlay would be the least disruptive to the customers and, more importantly, the businesses that reside within the 570 area code. With a geographic split, individuals and businesses in the area that changes or receives the new area code would have to re-print stationery and signs, write letters and send e-mails announcing the change of their phone number, or risk having their incoming calls misdirected. Additionally, the persons who call the affected numbers typically have to call twice and then update their paper and computer records. For these reasons, we will direct Neustar to implement an all-service distributed overlay for the 570 area code.

Next, we must determine the implementation timeline for the overlay of the 570 area code. In the instant petition, the industry initially requested thirteen months for full implementation of the new NPA for the 570 area code. Specifically, the industry recommended the following implementation schedule:

<i>Event</i>	<i>Time Frame</i>
Network Preparation Period	6 months
Permissive 10-Digit Dialing and Customer Education Period (Calls within 570 NPA can be dialed using 7 or 10 digits)	6 months
Mandatory dialing period begins at the end of the Permissive Dialing Period	

<i>Event</i>	<i>Time Frame</i>
First Code Activation after end of Permissive Dialing Period	1 month (after Mandatory Dialing Period)
Total Implementation Interval	13 months

The FCC has noted that state commissions are uniquely positioned "to ascertain and weigh the very local and granular information inherent in area code relief decision making."¹⁸ Additionally, FCC regulations at 47 CFR 52.19(a) state that "state commissions may resolve matters involving the introduction of new area codes within their states, which includes establishing the necessary dates for the implementation of relief plans."

The Commission notes that the 570 area code is projected to exhaust its remaining supply of NXX codes by the third quarter 2011, or approximately July 1, 2011. We acknowledge that we can no longer accommodate the industry's initial request of thirteen months due to the timing of this decision. Nevertheless, the Commission believes that the time line for the implementation of the new area code in the 570 geographical region did not necessarily have to be a length of thirteen months and could be shortened. The Commission's past experience with area code overlays is that they have been fully implemented within as little as 6 months. Therefore, having temporarily delayed the proposed implementation schedule to request input from the public has not compromised the ability of area code relief to be implemented in the 570 NPA on a timely basis nor adversely impact consumers.

We will revise the implementation schedule proposed by the telecommunications industry accordingly. We will direct that all network preparation for the implementation of the new overlay be completed within 8 months or no later than March 1, 2011, at 12:01a.m (EST). We believe that this timeframe is sufficient for telecommunications carriers to prepare their individual networks for the overlay area code.

While a state commission may not utilize numbering optimization measures in lieu of implementing timely area code relief, it may minimize the consumer impact of traditional area code relief by not implementing new area codes sooner than necessary. Even the FCC has noted that the implementation of new area codes before they are necessary forces consumers to go through the expense, trouble and dislocation of changing telephone numbers or dialing patterns earlier or more often than necessary.¹⁹

In view of the well-documented disruption to customers caused by changes in their area code, it is in the public interest to assure that new area codes are opened only when it is necessary, and only after the existing number resources in the existing area code are close to exhaustion. The mere fact that we are implementing timely area code relief does not mean we should not be diligent in ensuring that the remaining NXX codes in the existing area code are properly allocated or allow the premature exhaust of the existing area code. Thus, we direct Neustar to continue the rationing of two codes per month

¹⁸ *In the Matter of Numbering Resource Optimization*, Second Report and Order, CC Docket No 99-200, FCC 00-429 (rel. December 29, 2000).

¹⁹ *Id.*

for the 570 area code per the Jeopardy Procedures that were previously established.²⁰ This rationing will continue until exhaust of the 570 area code.

Moreover, the FCC recently granted the Commission additional delegated authority to implement mandatory number pooling throughout each and every rate center within the 570 area code.²¹ We believe that the implementation of mandatory pooling throughout all rate centers within the 570 area code will eventually add to the number of NXX codes available for assignment in this NPA. Consequently, we direct that Neustar not activate the new NPA or assign any NXX or central office codes from the new overlay until three months to NXX code exhaust in the 570 area code.²² The NANPA will comply with this directive until this threshold has been met and will continue to honor code requests for NXXs in the existing NPA in accordance with the aforementioned jeopardy procedures for as long as resources are available.

Additionally, as we directed Neustar to do for us with the proposed 445 and 835 NPAs, NANPA will provide the Commission with monthly updates on the projected exhaust date of the 570 NPA so that the Commission can ensure that no NXX code holders in Pennsylvania will be without adequate numbering resources to meet customer demand. The Commission will inform all NXX code holders in Pennsylvania when the 570 NPA is three months away from exhaust.

When introducing a new area code, there is an adjustment period commonly known as a permissive dialing period. During the permissive dialing period, customers may reach numbers in the area that is to be overlaid by either dialing the area code plus the number or the old

way by using the seven-digit number. During the permissive period, customers are encouraged to make calls using ten-digits. At the end of the permissive period, the mandatory dialing period commences and all calls must be made using the area code plus the seven-digit number. If only the seven-digit number is dialed at this time, the customer will reach a recorded announcement stating they must hang up and redial the number using the area code plus the seven-digit number. This recording will be available permanently. Once the ‘three months to exhaust’ threshold mentioned above has been reached, the permissive dialing period will begin and the telecommunications industry can start customer education programs for the new NPA, including the fact that when the new overlay area code is finally activated the FCC requires that all calls be made dialing ten digits, dialing the area code and the seven-digit number.

During the public input hearings, some commenters expressed reservations regarding the introduction of ten-digit dialing in the 570 area code. In fact, we understand that this was a primary motive of some who commented that the Commission implement a geographic split. As noted above, the implementation of an overlay requires the adoption of ten-digit dialing for all calls within and between the 570 NPA and the new NPA. However, we acknowledge that ten-digit dialing has become more prevalent nationwide and overlays, with ten-digit dialing, have been implemented in southeastern and western Pennsylvania. Nonetheless, if our conservation measures prove to be effective then possibly the activation of the new area code could be delayed indefinitely and ten-digit dialing would have been unnecessarily imposed upon the residents and businesses that are located in the 570 area code. Accordingly, we determine that the requirement of mandatory ten-digit dialing be suspended for the new overlay NPA until the actual assignment of an NXX code from the new overlay NPA.

With the assignment of an NXX code from the new overlay NPA, the dialing plan will be as follows:

Dialing Plan for the All Services Distributed Overlay for the 570 NPA

<i>Type of Call</i>	<i>Call Terminating in</i>	<i>Dialing Plan</i>
Local & Toll Calls	Overlay Home NPAs (HNPA)	10 digits (NPA-NXX-XXXX)*
Local & Toll Calls	Foreign NPA (FNPA) outside of overlay	1+10 digits (1+NPA-NXX-XXXX)
Operator Services Credit card, collect, third party	HNPA or FNPA	0+10 digits (0+NPA-NXX-XXXX)

*1+10 digit dialing for all HNPA and FNPA calls permissible at each service provider’s discretion

Conclusion

We encourage the industry and NANPA to work together with the Commission to ensure that new area codes are not unnecessarily opened in the Commonwealth when other viable alternatives are available. Nevertheless, the policy of the Commission is to ensure that numbering resources are made available on an equitable, efficient and timely basis in Pennsylvania; *Therefore,*

It Is Ordered That:

1. Neustar’s petition filed with the Commission on behalf of the Pennsylvania telecommunications industry at the above docket for approval of its relief plan for the 570 area code is hereby granted to the extent consistent with the body of this Order.

2. An all-services distributed overlay shall be implemented over the 570 area code.

3. From the effective date of this Order, the North American Numbering Plan Administrator shall provide this Commission with monthly updates on the projected exhaust date of the 570 NPA. Time to exhaust in months shall be calculated and based on actual carrier demand for numbers. The monthly updates shall be addressed to Mr. Christopher Hepburn, Bureau of Fixed Utility Services.

4. The Commission shall inform all NXX code holders in Pennsylvania when the 570 NPA is 3 months to NXX code exhaust so that the Commission can ensure that all

carriers, including nonpooling carriers, will have non-discriminatory access to numbers when needed to meet customer demand.

5. All NXX code holders in Pennsylvania are directed to complete all network preparation to their systems that is necessary to implement the new NPA no later than March 1, 2011.

6. All NXX code holders in Pennsylvania shall not commence their customer education program for the new overlay code until the Commission informs them that the 570 area code will exhaust within 3 months.

7. A copy of this order shall be published in the *Pennsylvania Bulletin* and also posted on the Commission's web site at <http://www.puc.pa.state.us/>.

8. A copy of this order shall be served to all NXX code holders in Pennsylvania, the Office of Consumer Advocate, the Office of Small Business Advocate, the Pennsylvania Telephone Association, and Neustar-NANPA.

Neighborhood Movers of Pittsburgh;
Doc. No. C-2010-2144722*

COMPLAINT

The Pennsylvania Public Utility Commission (Commission) is a duly constituted agency of the Commonwealth of Pennsylvania empowered to regulate public utilities within the Commonwealth. The Commission has delegated its authority to initiate proceedings which are prosecutory in nature to the Bureau of Transportation and Safety and other bureaus with enforcement responsibilities. Pursuant to that delegated authority and Section 701 of the Public Utility Code, the Bureau of Transportation and Safety Prosecutory Staff hereby represents as follows:

1. That Neighborhood Movers of Pittsburgh, respondent, maintains its principal place of business at 2665 South 18th Street, Pittsburgh, PA 15210.

2. That respondent is advertising as a household goods mover on Craigslist, Inc. without holding a certificate of public convenience issued by the Commission authorizing it to do so.

3. That on December 11, 2009, respondent advertised on Craigslist, Inc. The advertisement stated that Neighborhood Movers of Pittsburgh has been providing worry free moves for over six years. The following services were listed: load and unload, pack and unpack rental truck driving, local moves, long distance moves, furniture assembly, piano moving and pool table moving.

4. That on January 23, 2009, respondent performed a household goods move for Gale Jackson from 237 Hutton Road, Pittsburgh, PA to 7856 Mark Drive, Verona, PA for compensation. The carrier was warned previously by the Pittsburgh District Office on March 24, 2008. The warning advised the carrier to 'cease and desist' from further advertisement and transportation of property/household goods within Pennsylvania and of the penalties associated with future violations.

5. That respondent, in performing the acts described in Paragraphs 3 and 4 of this Complaint, violated the Public Utility Code, 66 Pa.C.S § 1101, in that Respondent held out to transport and transported household goods in use for compensation between points in the Commonwealth of Pennsylvania while not then holding a Certificate of Public Convenience issued by this Commission. The Bureau of Transportation and Safety Motor Carrier Services and Enforcement's Prosecutory staff's proposed civil penalty for each violation is \$1,000.00 for a total of \$2,000.00. Future violations may result in possible criminal prosecution with penalties up to \$10,000.00 and one year in prison.

Wherefore, the Bureau of Transportation and Safety Prosecutory Staff hereby requests that the Commission fine Neighborhood Movers of Pittsburgh the sum of two thousand dollars (\$2,000.00) for the illegal activity described in this complaint and order such other remedy as the Commission may deem to be appropriate.
