READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Temporary Amendments to the Water Quality Regulations, Water Code and Comprehensive Plan to Extend Designation of the Lower Delaware River as a Special Protection Water

At its public meeting on September 27, 2006, the Delaware River Basin Commission (Commission) amended its Water Quality Regulations, Water Code and Comprehensive Plan by extending through September 2007 its temporary classification of the nontidal Lower Delaware River as Significant Resource Waters (SRW). The effect of temporary classification has been to make this portion of the main stem Delaware River and its drainage area subject to all applicable provisions of the Commission's Special Protection Waters regulations except those that depend for implementation upon the use of numeric values for existing water quality.

Dates

This final-form rulemaking is effective immediately and, unless extended by amendment, expires on September 30, 2007. An accompanying proposed rulemaking at 37 Pa.B. 4624 (August 25, 2007) proposes to extend this final-form rulemaking through May 15, 2008, pending a separate notice and comment rulemaking to permanently classify the Lower Delaware.

Supplementary Information

The Lower Delaware extends from the southern boundary of the Delaware Water Gap National Recreation Area at River Mile (RM) 209.4 to the head of tide at Trenton, New Jersey, RM 144.4. The effect of temporary classification of the Lower Delaware as SRW has been to make this portion of the main stem Delaware River and its drainage area subject to all applicable provisions of the Commission's Special Protection Waters regulations, Section 3.10.3 A.2 of the Commission's Water Quality Regulations and its Water Code, except those that depend for implementation upon the use of numeric values for existing water quality.

Key provisions of the Special Protection Waters Regulations that continue to apply within the drainage area to the Lower Delaware River as a result of the Commission's extension of the SRW classification include the following: Section 3.10.3 A.2.c.1—3, in part requiring that no new or expanded wastewater discharges may be permitted in waters classified as Special Protection Waters until all nondischarge-load reduction alternatives have been fully evaluated and rejected because of technical or financial infeasibility; Section 3.10.3 A.2.d.1—7, setting forth requirements for wastewater treatment facilities; and Section 3.10.3 A.2.e.1 and 2, conditioning project approval on the existence of an approved Non-Point Source Pollution Control Plan for the project area and requiring that approval of a new or expanded withdrawal and/or wastewater discharge project be subject to the condition that new connections to the project system be limited to service areas regulated by a nonpoint source pollution control plan approved by the Commission.

Previous register notices concerning designation of the Lower Delaware River as Special Protection Waters include notices published in the *Federal Register* at 69 FR 57008 (September 23, 2004) (proposed Special Protection Waters designation), 70 FR 48923 (August 22, 2005) (proposed extension through September 30, 2006) and 71 FR 48497 (August 21, 2006) (proposed extension through September 30, 2007); and in the *Pennsylvania Bulletin* at 34 Pa.B. 5557 (October 9, 2004) (proposed designation), 35 Pa.B. 5005 and 5013 (September 10, 2005) (temporary amendment and proposed extension) and 36 Pa.B. 4726 (August 26, 2006) (proposed extension). The proposed and final versions of the initial temporary designation, approved by Resolution No. 2005-2, and the subsequent extensions approved by Resolutions Nos. 2005-15 (extension through September 30, 2006) and 2006-22 (extension through September 30, 2007) were also published on the Commission's website, www.drbc.net. The final rules have been filed in accordance with Section 14.2(a) of the Delaware River Basin Compact, Pa. Acts of 1961, Act No. 268.

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 63]

Fishing; Tautog

The Fish and Boat Commission (Commission) amends Chapter 63 (relating to general fishing regulations). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. Effective Date

The final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on the final-form rulemaking, contact Jason E. Oyler, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. Statutory Authority

The final-form rulemaking adding § 63.50 (relating to importation of tautog) is published under the statutory authority of section 2102(c) of the code (relating to rules and regulations).

D. Purpose and Background

The final-form rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the amendment is described in more detail under the summary of change.

E. Summary of Change

It has been brought to the attention of the Commission that tautog (*Tautoga onitis*), a marine fish common on hard bottom from Cape Cod to Delaware, are being harvested illegally on the Atlantic coast and being sold in the live fish markets in Philadelphia. The Commission encountered a similar situation in 1993 regarding the sale of sublegal size weakfish in this Commonwealth's fish markets that was subsequently addressed with a minimum size limit on weakfish being imported into this Commonwealth.

The New Jersey Division of Fish and Wildlife Marine Conservation Officers asked the Commission to implement a 14-inch minimum size limit on tautog that are imported into this Commonwealth. This restriction will minimize this Commonwealth's black market for sublegal size tautog. Accordingly, the Commission proposed a 14-inch minimum size limit on tautog that are imported into this Commonwealth. The Commission adds § 63.50 to read as set forth in the proposed rulemaking.

F. Paperwork

The final-form rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no new costs on the private sector or the general public.

H. Public Involvement

Notice of proposed rulemaking was published at 37 Pa.B. 2694 (June 16, 2007). The Commission received one public comment from the Atlantic States Marine Fisheries Commission's Tautog Management Board supporting the proposed rulemaking.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the regulation adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the comments that were received were considered.

(3) The adoption of the regulation of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 63, are amended by adding § 63.50 to read as set forth at 37 Pa.B. 2694.

(b) The Executive Director will submit this order and 37 Pa.B. 2694 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 37 Pa.B. 2694 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

DOUGLAS J. AUSTEN, Ph.D.,
Executive Director

Fiscal Note: Fiscal Note 48A-194 remains valid for the final adoption of the subject regulation.

Title 67—TRANSPORTATION

DEPARTMENT OF TRANSPORTATION

[67 PA. CODE CH. 71]

School Bus Drivers

The Department of Transportation (Department), under the authority in 75 Pa.C.S. § 1509 (relating to qualifications for school bus driver endorsement), amends §§ 71.2 and 71.3 (relating to definitions; and physical examination) to read as set forth in Annex A.

Purpose of Chapter

The purpose of Chapter 71 (relating to school bus drivers) is to define more fully the requirements of 75 Pa.C.S. § 1509 by listing minimum medical requirements for school bus drivers.

Purpose of the Final-Form Rulemaking

The purpose of this final-form rulemaking is to allow chiropractors to administer the physical examination required for school bus drivers. Pennsylvania law requires a school bus driver to have a physical examination every year. According to Department regulations, the only health care providers who can perform physicals are licensed physicians, certified registered nurse practitioners or physician's assistants. The Pennsylvania Chiropractic Association requested chiropractors also be allowed to conduct physicals as part of the process of obtaining a driver's license.

Chiropractors are currently considered by health insurance companies to be portal of care practitioners. This means they are regarded as primary care physicians, permitted to furnish necessary patient care for health maintenance. They are also allowed, by Federal regulation, to conduct the medical examinations for commercial drivers required every 2 years by the Federal Highway Administration under Motor Carrier Safety regulations. Since the exclusion of chiropractors from the Department's list of health care providers is inconsistent with current health care practices and Federal regulations, chiropractors should be added to Chapter 71 as one of the providers who can give the school bus driver's physical examination.

Summary of Comments and Changes to the Final-Form Rulemaking

Public comment was received from the Pennsylvania Medical Society (PMS), the Pennsylvania Academy of Family Physicians Foundation, the American Osteopathic Association and the Pennsylvania Osteopathic Medical Association objecting to the inclusion of chiropractors as medical professionals authorized to conduct examinations required for the school bus driver endorsement. These organizations argue that chiropractors are not medically qualified to conduct the basic medical examination required under 75 Pa.C.S. (relating to Vehicle Code) (Vehicle Code). They argue that chiropractors lack the training and experience of physicians and doctors of osteopathy to make sophisticated diagnoses.

The objections overstate the sophistication of the basic medical examination required under the Vehicle Code. Moreover, this final-form rulemaking merely conforms the regulation to include the authorization of chiropractors to conduct the required examinations which has already been authorized in the 2004 amendments to the Vehicle Code enacted by the General Assembly and signed by the Governor.

Section 1509(b) of 75 Pa.C.S. does not set up a separate physical examination for school bus drivers; rather, that section requires that school bus drivers carry proof that they have passed the physical examination required of all drivers under 75 Pa.C.S. § 1508.1 (relating to physical examinations). The General Assembly amended 75 Pa.C.S. § 1508.1 to include chiropractors in the list of medical professional authorized to conduct the examination.

The comments of PMS suggest that additional disclaimer language be added to note that there are some symptoms and conditions that may be beyond the training and experience of chiropractors to diagnose. It should be noted that there may also be symptoms or conditions which are beyond the training and experience of physician assistants and nurse practitioners. And although the professional may typically work in some collaboration with physicians, the General Assembly has placed no

restriction on those professionals that the required examination must be given in collaboration with a physician. The Department declines to implicitly restrict the authority of chiropractors under 75 Pa.C.S. § 1508.1 by adopting the PMS suggested disclaimer.

The Independent Regulatory Review Commission (IRRC) commented that the new definition of "doctor of chiropractic medicine" differed from the definition of "chiropractor" in the Vehicle Code. It was recommended that the rulemaking be revised to conform verbatim to the definition of "chiropractor" in the Vehicle Code or be replaced by a reference to the statutory definition. The recommended change to reference the statutory definition of "chiropractor" has been made. This change should also resolve the concerns raised by the Chiropractic Fellowship of Pennsylvania that the definition in the proposed rulemaking unreasonably restricted the authority to conduct the examination to a subset of chiropractors. In response to this concern, the reference to "doctor of chiropractic medicine" in § 71.3 has also been changed to "chiropractor."

In addition, IRRC questioned the continued use of the term "school transportation physician" and suggested that it could be deleted. The Department believes that the authority of school districts to designate a specific medical practitioner to conduct the physical examination of school bus drivers should be retained. To address the concerns raised by IRRC, and to provide further clarification in the regulation, the Department included a definition of "physician" in the final-form rulemaking and amended the definition of "school transportation physician" to "school transportation medical practitioner" and included physicians, chiropractors, certified nurse practitioners and physician assistants as the medical professionals who could be so designated by a school district.

IRRC comments also noted that § 71.3(c) needed to be amended to include chiropractors in the list of practitioners in that section. That change has also been made.

Finally, Rosemary Chiavetta, Esquire, on behalf of the Pennsylvania Chiropractic Association, submitted comments supporting the rulemaking.

Persons and Entities Affected

This final-form rulemaking affects licensed school bus drivers or persons interested in becoming a school bus drivers and chiropractors.

Fiscal Impact

Implementation of this final-form rulemaking will not require the expenditure of additional funds by the Commonwealth or local municipalities. This final-form rulemaking will not impose additional costs on the medical community and may reduce costs by allowing applicants for a learner's permit to get their physical examination from their primary care physician.

Regulatory Review

PROPOSED RULEMAKING

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Proposed Temporary Amendments to the Water Quality Regulations, Water Code and Comprehensive Plan to Extend the Designation of the Lower Delaware River as a Special Protection Water

The Delaware River Basin Commission (Commission) will hold a public hearing to receive comments on a proposed amendment to the Commission's Water Quality Regulations, Water Code, and Comprehensive Plan to extend through May 15, 2008, the temporary classification of the Lower Delaware River as Significant Resource Waters (SRW). Permanent classification is anticipated following an additional notice and comment rulemaking that is expected to begin by September. Extending the temporary classification will help to protect the exceptional scenic, recreational and water quality values of the Lower Delaware from degradation pending completion of that process.

Dates

The public hearing will take place at 1:30 p.m. on Wednesday, September 26, 2007, during the Commission's regular business meeting, which will be held at the Commission's office building, 25 State Police Drive, West Trenton, NJ. Driving directions are available on the Commission's website, www.drbc.net. Persons wishing to testify are asked to register in advance with the Commission Secretary, (609) 883-9500, Ext. 203. Written comments will be accepted through the close of the public hearing; however earlier submittals would be appreciated.

Supplementary Information

The Lower Delaware extends from the southern boundary of the Delaware Water Gap National Recreation Area at River Mile (RM) 209.4 to the head of tide at Trenton, NJ, RM 144.4. The effect of temporary classification of the Lower Delaware as SRW has been to make this portion of the main stem Delaware River and its drainage area subject to all applicable provisions of the Commission's Special Protection Waters regulations, Section 3.10.3 A.2 of the Commission's Water Quality Regulations, except those that depend for implementation upon the use of numeric values for existing water quality.

Key provisions of the Special Protection Waters Regulations that will continue to apply within the drainage area to the Lower Delaware River if the proposed extension of the SRW classification is approved include the following: Section 3.10.3 A.2.c.1—3, in part requiring that no new or expanded wastewater discharges may be permitted in waters classified as Special Protection Waters until all nondischarge-load reduction alternatives have been fully evaluated and rejected because of technical or financial infeasibility; Section 3.10.3 A.2.d.1—7, setting forth requirements for wastewater treatment facilities; and Section 3.10.3 A.2.e.1 and 2, conditioning project approval on the existence of an approved Non-Point Source Pollution Control Plan for the project area and requiring that

approval of a new or expanded withdrawal and/or wastewater discharge project be subject to the condition that new connections to the project system be limited to service areas regulated by a non-point source pollution control plan approved by the Commission.

Temporary SRW classification of the Lower Delaware was enacted by Commission Resolution No. 2005-2 on January 19, 2005, and initially was due to expire on September 30, 2005. By Resolution No. 2005-15 approved on September 26, 2005, the temporary classification was extended through September 30, 2006, to allow time for the Commission to evaluate implementation options and establish numeric values for existing water quality. By Resolution No. 2006-22 on September 27, 2006, the Commission extended temporary designation a second time, through September 30, 2007, because it had not completely resolved implementation issues. The Commission has nearly resolved the remaining issues with respect to implementation, but to allow time to complete this process and conduct notice and comment rulemaking on permanent designation of the Lower Delaware as Special Protection Waters, the Commission is proposing to extend the temporary classification for 6 months more. If approved, the classification would expire on May 15, 2008, unless the Commission should either permanently classify the Lower Delaware River or once again extend the temporary classification by rule amendment prior to that date.

Previous register notices concerning designation of the Lower Delaware River as Special Protection Waters include notices published in the *Federal Register* at 69 FR 57008 (September 23, 2004) (proposed Special Protection Waters designation), 70 FR 48923 (August 22, 2005) (proposed extension through September 30, 2006) and 71 FR 48497 (August 21, 2006) (proposed extension through September 30, 2007); and in the *Pennsylvania Bulletin* at 34 Pa.B. 5557 (October 9, 2004) (proposed designation), 35 Pa.B. 5005 and 5013 (September 10, 2005) (temporary amendment and proposed extension) and 36 Pa.B. 4726 (August 26, 2006) (proposed extension). The proposed and final versions of the initial designation, approved by Resolution No. 2005-2, and the subsequent extensions approved by Resolutions Nos. 2005-15 (extension through September 30, 2006) and 2006-22 (extension through September 30, 2007) were also published on the Commission's website, www.drbc.net. The final rules have been filed in accordance with Section 14.2(a) of the *Delaware River Basin Compact*, Pa. Acts of 1961, Act No. 268.

Further Information, Contacts:

Resolution No. 2005-2, temporarily amending the Water Quality Regulations, Water Code and Comprehensive Plan of the Commission by designating the Lower Delaware River a Special Protection Water, and Resolutions Nos. 2005-15 and 2006-22, extending the temporary amendment approved by Resolution No. 2005-2, are available on the Commission's website at www.drbc.net or upon request from the Delaware River Basin Commission, P. O. Box 7360, West Trenton, NJ 08628-0360. Maps depicting the designated area are also available on the website. For further information, contact Pamela M. Bush, Commission Secretary and Assistant General Counsel, Delaware River Basin Commission, (609) 883-9500, Ext. 203.

It is proposed to amend Section 3.10.3.A.2.g.6. of the *Water Quality Regulations* and *Water Code* by replacing the last paragraph of that section with the following:

Sections 3.10.3.A.2.g.2). (b) and 3.10.3.A.2.g.6). shall expire on May 15, 2008, unless extended by amendment to this rule.

Secretary

STATE ARCHITECTS LICENSURE BOARD

[49 PA. CODE CH. 9]

Requirements for Examination Eligibility

The State Architects Licensure Board (Board) proposes to amend §§ 9.27, 9.41a, 9.46, 9.50 and 9.52 to read as set forth in Annex A.

A. *Effective Date*

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

B. *Statutory Authority*

The proposed rulemaking is authorized under section 6(a) and (d) of the Architects Licensure Law (63 P. S. § 34.6(a) and (d)).

C. *Background and Need For Amendments*

Currently, § 9.46(b) (relating to requirements for examination eligibility) states that “[a]n architectural degree candidate applying for first time licensure is required to pass the entire professional licensure examination of the Board within 5 years of the date of eligibility to take the examination.” Passing the entire examination requires that each candidate must pass all nine divisions of the examination within 5 years of the date of eligibility to take the examination. Under this provision, if a candidate passes eight divisions within the 5-year period, but still has one more division to complete and the eligibility period ends, that candidate would lose all eight divisions of the examination that had been passed and would be required to take the entire examination all over again.

However, on January 1, 2006, the National Council of Architecture Registration Boards (NCARB) implemented a National “rolling clock” standard for examination eligibility. Prior to this time, NCARB had no standard time limit for completion of the exam, instead leaving that determination to individual State boards. NCARB’s Committee on Procedures and Documents, in a statement of support prior to NCARB’s 2004 annual meeting, explained that “[r]equiring that all divisions be passed within a reasonable period will better assure that the ARE [Architecture Registration Exam] remains a valid measure of the level of competency necessary to independently practice architecture. While some changes may occur within any 5 year period, there is a lower likelihood that applicants will be tested under different forms of administration and methodologies than is the case currently with applicants having unlimited time in which to pass all divisions.”

According to NCARB’s rolling clock guidelines, exam candidates who have passed all divisions of the Architecture Registration Exam (ARE) by January 1, 2006, regardless of the time taken, will have passed the ARE. Exam candidates who have passed one or more but not all divisions of the ARE by January 1, 2006, will have 5 years to pass all remaining divisions. A passing grade for a remaining division will be valid for 5 years, after which time the division must be retaken if the remaining divisions have not been passed. NCARB’s guidelines further specify that divisions taken before January 1, 2006, will not have to be retaken.

The Board proposes to adopt NCARB’s guidelines with respect to the “rolling clock” with one exception. The Board’s proposed rulemaking differs from NCARB’s guidelines in that candidates who had passed at least one division of the ARE by January 1, 2006, and are, therefore, already in the system, will have a total of 5 years to complete the entire examination. If the candidate does not complete the entire examination within 5 years, a division that the candidate has passed that is older than 5 years will drop off and the candidate will be required to retake the “stale” division of the examination. Thus, the candidate will not lose the entire examination, as the current regulation requires, only those divisions that are older than 5 years.

D. *Description of Amendments*

The Board proposes to amend § 9.27 (relating to inactive records) by deleting language pertaining to an examination candidate completing the entire examination within 5 years.

The Board further proposes to amend § 9.41a(b) (relating to adoption of National Board Examinations) by adding language specifying that examination candidates shall comply with NCARB’s examination procedures, conduct standards and standards pertaining to eligibility and passing of the ARE, unless otherwise stated in the Board’s regulations.

In § 9.46(b), the Board proposes to delete the requirement that examination candidates complete the entire examination within 5 years of the date of eligibility to take the examination. Instead, the Board proposes new language that specifies that the Board will consider only divisions of the examination passed within the 5-year period since the first passed division was administered. If a division is more than 5 years old, the candidate will be required to retake that division of the examination and will automatically be given a new 5-year period beginning from the date of the administration of the next oldest

passed division without the need to reapply. This would implement the new "rolling clock" standard for the Board.

The Board proposes to amend § 9.50 (relating to reapplications) to delete the cross-reference to § 9.46(3) because reapplication will no longer be necessary under the rolling clock requirement. The Board also proposes to add a cross reference to § 9.41a(b). The Board further proposes to amend § 9.52 (relating to grading compilation) to add cross-references to §§ 9.41a(b) and 9.46(b) with regard to the opportunity to retake portions of the examination which were failed or which expired under the 5-year rolling clock.

E. Fiscal Impact

The proposed rulemaking should have no fiscal impact on the Commonwealth or its political subdivisions. Likewise, the proposed rulemaking should not necessitate legal, accounting, reporting or other paperwork requirements.

F. Paperwork Requirements

The proposed rulemaking will not create additional paperwork for the Board.

G. Sunset Date

The Board continuously monitors the effectiveness of its regulations. Therefore, no sunset date has been assigned.

H. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 15, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

I. Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Penny Walker, Administrator, State Architects Licensure Board, 2601 North Third Street, P. CHAPTER 9. STATE ARCHITECTS LICENSURE BOARD

FUNCTIONS OF THE BOARD

§ 9.27. Inactive records.

Records of candidates for licensure that are inactive for 5 years will be destroyed. A record will be considered inactive if a candidate does not correct a deficiency in an application [, or pass the entire examination] within 5 years of notice from the Board of the deficiency [or eligibility to take the examination].

LICENSURE BY EXAMINATION

§ 9.41a. Adoption of National Board Examinations.

* * * * *

(b) Candidates shall comply with examination procedures [and], conduct standards, and standards pertaining to eligibility and passing of the ARE as established by the NCARB, unless otherwise stated in this chapter.

§ 9.46. Requirements for examination eligibility.

(a) **General requirements.** A candidate for the examination shall have:

* * * * *

(b) [An architectural degree candidate applying for first time licensure is required to pass the entire professional licensure examination of the Board within 5 years of the date of eligibility to take the examination.] **"Rolling clock" requirement.** An applicant for licensure shall have 5 years from the date that the first passed division of the examination was administered to pass all remaining divisions. If an applicant for licensure fails to pass all remaining divisions within the 5-year period, the applicant will automatically be given a new 5-year period measured from the date of administration of the next oldest passed division ("rolling clock") to pass all divisions of the examination and this rolling clock period will continue to automatically renew until all divisions of the examination are passed, without the need to reapply to the Board. Applicants will have the benefit of the rolling clock but the Board will only consider the divisions of the examination passed within the 5-year time period immediately preceding the date of the latest administered division passed by the applicant. The Board may waive this requirement upon proof of medical hardship or other extraordinary circumstances.

§ 9.50. Reapplications.

Candidates required to file new applications under §§ 9.27 and [9.46(3)] 9.41a(b) (relating to inactive records; and [requirements for examination eligibility] adoption of National Board Examinations) shall meet the requirements of the act and regulations in effect at the time the new application is filed.

STATE BOARD OF CHIROPRACTIC

[49 PA. CODE CH. 5]

Reactivation of Lapsed License

The State Board of Chiropractic (Board) proposes to amend § 5.17 (relating to biennial registration; unregistered status and inactive status; failure to renew; address of record) to read as set forth in Annex A.

Effective date

The proposed rulemaking will be effective upon final form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking is authorized under sections 302(3) and 501(b) of the Chiropractic Practice Act (act) (63 P. S. §§ 625.302(3) and 625.501(b)).

Background and Need for the Proposed Rulemaking

Under section 501(b) of the act, a chiropractor's license must be renewed biennially and a licensee "who has failed to renew his license for a period of longer than five years shall be required to apply for a license in accordance with subsection (a) if he desires to resume practicing chiropractic." Currently, § 5.17(m) requires a licensee whose license has been inactive for more than 5 years to apply for licensure in accordance with § 5.12 or § 5.13 (relating to licensure by examination; and licensure by reciprocity). However, each of these two bases for reactivation has significant administrative limitations or drawbacks that make it inadequate.

Since 1997, the Board has required applicants for licensure by examination to successfully complete all four parts of the National board examination of the National Board of Chiropractic Examiners (NBCE). An inactive licensee who had not previously taken all parts of the exam was required to take the missing parts to reactivate the licensee's license. However, as it has now been more than 5 years since the end of the first renewal period during which applicants were first required to successfully complete all parts of the examination, some applicants who have been inactive for more than 5 years have already completed all four parts of the examination. Thus, there are no "missing parts" of the examination for those inactive licensees to take to demonstrate current competence.

Additionally, a common reason for a licensee to have been inactive for more than 5 years is that the licensee has been practicing in another state. However, reciprocity under § 5.13 is not available to licensees from every state. The Board has attempted to make reactivation administratively simple in this proposed rulemaking, while assuring that a licensee is competent to practice chiropractic after a period of inactivity.

Description of the Proposed Rulemaking

The proposed rulemaking would replace § 5.17(m). A licensee whose license has been inactive for more than 5 years would be permitted to demonstrate competence to resume practice on any of four bases. First, as it is the standard for licensure by examination, a licensee who has successfully completed all parts of the required examination within the year prior to applying for reactivation would be permitted to reactivate. Second, the Board would continue permitting reactivation by qualifying for licensure by reciprocity in accordance with § 5.13. Third, because a licensee who left this Commonwealth and has practiced in another jurisdiction should be as qualified to practice chiropractic today as a licensee who has remained in this Commonwealth, the Board would permit reactivation upon a showing of at least 5 years of continuous licensed practice of chiropractic in another jurisdiction immediately preceding application for reactivation. Finally, successful completion, within 6 months prior to applying for reactivation, of the special purpose examination in chiropractic, which is also offered by the NBCE and often used to demonstrate competence to practice, would be a basis to qualify for reactivation.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will not impose additional paperwork requirements upon the Commonwealth, political subdivisions or the private sector.

Sunset Date

The Board continuously monitors the effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 15, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding this proposed rulemaking to Deborah L. Smith, Administrator, State Board of Chiropractic, P. O. Box 2649, Harrisburg, PA

STATE BOARD OF COSMETOLOGY

[49 PA. CODE CH. 7]

General Revisions

The State Board of Cosmetology (Board) proposes to amend Chapter 7 (relating to State Board of Cosmetology) to read as set forth in Annex A. The proposed rulemaking would implement changes made to the act of May 3, 1933 (P. L. 242, No. 86) (Act 86) by the act of July 7, 2006 (P. L. 704, No. 99) (Act 99), as well as to generally update the regulations to strengthen safety and sanitation requirements and to reflect current processes and practices utilized by the Board.

A. Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

B. Statutory Authority

Section 11 of Act 86 (63 P. S. § 517) authorizes the Board to promulgate regulations generally for the conduct of persons, copartnerships, associations or corporations affected by Act 86. Section 16 of Act 99 (63 P. S. § 522) requires the Board to promulgate regulations to implement Act 99 within 18 months of its effective date. The effective date of Act 99 was September 5, 2006.

C. Background and Need for Proposed Rulemaking

Act 99 made substantial changes to Act 86 by adding a limited license classification—the natural hair braider license; by making changes to terminology in Act 86; by making other changes within Act 86 to implement the new natural hair braider license; and by extending to all limited license classes: (1) the ability to practice outside of a licensed salon in a client's residence under specified circumstances; (2) the ability to practice on a temporary license; and (3) the prohibition on booth rental within a licensed salon. These changes require corresponding changes and additions to Chapter 7. Act 99 requires the Board to promulgate regulations to make those changes within 18 months of its effective date.

Because the Board needed to make wholesale changes to Chapter 7 to implement Act 99, the Board also took the opportunity to propose a number of other changes to the regulations. Although piecemeal changes have been made to the regulations over the years, generally in response to legislative changes to Act 86, the Board had not undertaken an overall review and update since 1975. In the intervening period, some of the Board's regulatory provisions have become obsolete, terms of art have changed, standards of sanitation have evolved, some of the Board's licensing and examination processes have changed and deficiencies or errors in the regulations have become apparent. Accordingly, in this proposed rulemaking the Board is making changes, in addition to those required by Act 99, that the Board finds necessary to update the regulations and to address the way the profession and the Board have changed since 1975.

D. Description of Proposed Amendments

Terminology and Definitions in General

Act 99 replaced a number of terms in Act 86 with updated terminology. This proposed rulemaking would

replace the following old terms and their definitions throughout the regulations to reflect the updated terminology:

<i>Old Term</i>	<i>New Term</i>
Cosmetician	Esthetician
Manicuring	Nail technology
Manicurist	Nail technician
Shop	Salon

Additionally, this proposed rulemaking would add the following new terms and their definitions to the regulations where applicable, based on Act 99's addition of them to the cosmetology lexicon: "braiding," "esthetics," "limited license," "natural hair braider" and "natural hair braiding."

Because Act 99 added a definition of "limited license" that encompasses the nail technician, esthetician and natural hair braider licenses, the term "limited license" has been substituted throughout the regulations, when appropriate, to reduce the number of times that all three limited license classifications are enumerated.

Finally, throughout the existing regulations, the possessive nouns "cosmetologist's," "teacher's," "barber's," "student's" and "school's" were used to modify another term such as "license," "examination" or "uniform." However, Act 99's additions to Act 86 refer to the "esthetician license," the "nail technician license" and the "natural hair braider license," using the terms as adjectives to modify another term instead of using the possessive forms. Therefore, to remain consistent throughout Act 86 and the regulations, this proposed rulemaking would replace the possessive nouns with the unit modifier.

§ 7.1. Definitions.

Section 7.1 is amended by amending the existing definitions of "Board," "booth space" and "Bureau" to comport with the definitions in Act 86. The proposed rulemaking would delete the obsolete definition of "manicuring" and add the statutory definitions of "braiding," "cosmetologist," "cosmetology," "Department," "esthetics," "esthetician," "limited license," "nail technician," "nail technology," "natural hair braider," "natural hair braiding," "school of cosmetology" and "tanning units."

In addition, the Board proposes adding definitions in § 7.1 of "limited practice salon" and "limited practice teacher" and to use the defined terms throughout the proposed rulemaking to refer to salons licensed by the Board for the provision of esthetician services, nail technology services or natural hair braiding services only, and to those teachers licensed by the Board to provide instruction in the area of esthetics, nail technology or natural hair braiding only. Finally, because the Board recently had several salon applications and variance requests in which questions arose as to the definition of "lavatory," which is used elsewhere in the regulations, but which is not defined, the Board added a definition of "lavatory."

§ 7.2. Fees.

In § 7.2, the proposed rulemaking would add the natural hair braider license to the list of fees charged by the Board related to individual licenses, making the charges for initial licensure (\$10) and for biennial renewal (\$35) the same as current fees for the other individual license classes. Similarly, the proposed rulemaking adds the limited practice teacher license fee and the limited practice salon license fee so that the fees for limited practice teachers (\$10 for initial licensure and \$55 for biennial renewal) and limited practice salons (\$55 for

initial licensure and \$60 for biennial renewal) are the same as existing fees for cosmetology teachers and for cosmetology salons. Similar changes would be made to the provisions establishing the fees for a change in or reinspection of a salon (\$55 if a change is made that requires an inspection, \$15 if a change is made requiring no inspection and \$40 for reinspection after failing an inspection).

The Board did not previously have fees established for making changes in a cosmetology school. However, making changes, whether they require an inspection or not, requires some amount of clerical activity and time for processing. Because the fees are intended to recoup the costs associated with the processing of changes, the Board determined that fees are needed for changes in a school that require an inspection and for changes in a school that do not require an inspection, and established the fees in this proposed rulemaking. The fee for a change in a school that requires an inspection would be set at \$110 and the fee for a change that does not require an inspection would be set at \$35. The Board established these fees by taking the existing parallel fees regarding salons and increasing them according to the percentage by which the fee for a school license exceeds the fee for a salon license, believing that the amount of work involved would increase by the same proportion because of the additional paperwork and inspection time required with regard to a school.

§ 7.11. Types of individual licenses.

The Board proposes to amend § 7.11 by distinguishing between the cosmetology teacher license and the limited practice teacher license, by replacing the cosmetician and manicurist licenses with esthetician and nail technician licenses and adding the natural hair braider license.

§ 7.12. Scope of teacher's license.

§ 7.12a. Scope of limited practice teacher license.

The Board proposes to amend § 7.12 to clarify that this section applies only to cosmetology teachers and to add § 7.12a to define the scope of practice of limited practice teachers in esthetics, nail technology and natural hair braiding.

§ 7.14. Scope of cosmetologist's license.

§ 7.14a. Scope of cosmetician's license.

§ 7.15. Scope of manicurist's license.

§ 7.17. Scope of natural hair braider license.

The Board proposes to amend §§ 7.14, 7.14a and 7.15 and to add § 7.17 to define the scope of practice of the various individual licenses.

§ 7.31. Examination prerequisite for licensure; exception.

The Board proposes to amend § 7.31 to incorporate the new terminology of Act 99, and to add a grandfather clause for existing natural hair braiders provided in section 6 of Act 99 (63 P. S. § 512). As required by Act 99, for 1 year after the effective date of adoption of this proposed rulemaking, the Board will issue a natural hair braider license to an applicant who submits the application adopted by the Board, pays the required licensing fee and provides proof that the applicant has practiced natural hair braiding for 3 consecutive years immediately prior to the date of the application for licensure.

§ 7.31a. Examination dates and locations.

§ 7.32. Deadline for examination applications.

§ 7.32a. Contents of examination application.

The proposed rulemaking would amend existing provisions pertaining to the examinations to reflect current

processes. The Board's processes regarding the examinations have changed over the years since the regulations were initially promulgated because the functions regarding exam administration rest with the contracted exam provider, which means the exam administrator makes the day-to-day administration decisions, although it does so in accordance with the statutory requirements as the broad framework within which it operates.

Therefore, because the exam provider now administers the examinations on more frequent occasions than was the case previously, § 7.31a would be amended to delete the specific days and months on which the exams are given, to delete locations that are not always available and to permit additional locations to be established. Also, because the exams are given more frequently, § 7.32 would be amended to delete the specific exam deadlines, which are no longer in use, and to simply specify that the deadline is a month prior to the testing date for the specific location where the applicant intends to take the exam, a date to be established by the exam administrator.

Additionally, proposed § 7.32(c) requires that a first-time examinee complete and pass both the theoretical and the practical portions of the exam within 1 year of each other. The Board finds it desirable to institute this requirement because it is concerned that if applicants wait too long between taking one portion and the other, the knowledge they have learned in school will begin to become cloudy, lessening their chances of passing the second portion of the exam and their entrance into the profession will be delayed to the point that their skills will not be as sharp as they otherwise might have been. Proposed subsection (c) would also give the Board discretion to grant exceptions to the 1-year requirement to facilitate the transition from one exam provider to another. This is based on the Board's recent experience in changing from one contracted exam administrator to another, which created delays between some candidates' taking the two portions of the exam.

§ 7.32b. Requirements for teacher's examination.

The changes made by Act 99 allow an individual with a limited license to obtain a limited practice teacher license when previously, to teach an area of cosmetology, an individual could obtain a teacher license only if the individual was licensed as a cosmetologist. Accordingly, § 7.32b would be amended by addressing the requirements for the cosmetology teacher examination in subsection (a) and by providing the requirements for an individual with a limited license to obtain a limited practice teacher license in subsection (b). Subsection (c) would be added to specify that an applicant who already holds a teacher license for one limited practice field (esthetics, nail technology or natural hair braiding) may obtain a teacher license in an additional limited practice field if the applicant meets the teacher license requirements for the additional practice field and successfully completes the practical portion of the teacher exam for the additional practice field.

§ 7.32d. Requirements for cosmetologist's examination.

Proposed § 7.32d(c) would allow limited license holders who wish to obtain cosmetology licenses to receive educational credit toward the cosmetology education credits required for cosmetology licensure from the credits the applicants received when obtaining their education in their limited practice field. The new provision specifies the number of hours each limited licensee may be credited toward the total 1,250 hours that comprise the full cosmetology training program. The Board arrived at the

credited number of hours for each limited license by totaling the number of hours recommended in § 7.129(d) and (e) (relating to curriculum requirements) that relate to training for the actual techniques that the limited licensee needs to know. Thus, the esthetician curriculum recommendation is for 100 hours of training in facial treatments, 10 hours of training in temporary hair removal and 50 hours of training in makeup, for a total of 160 hours of training in the actual techniques of esthetics, which is the number that proposed subsection (c) would credit a licensed esthetician with if that licensee wished to train for the cosmetology license. The credited hours for the nail technician were calculated the same way, as were the credited hours for a natural hair braider, with these last being based on the technique hours that the Board would establish in the proposed § 7.129(f). Finally, subsection (d) would be added to require that the total 1,250 hours, including those already completed in a limited practice field program, must be completed within 4 consecutive years.

§ 7.32e. Requirements for cosmetician's examination.

§ 7.32f. Requirements for manicurist's examination.

§ 7.32h. Requirements for natural hair braider examination.

Act 99 amended Act 86 to specify the qualifications for licensure that limited license applicants must meet. Act 86 previously was silent as to the qualifications for limited license applicants. While the existing regulations stated the number of hours that an applicant for the cosmetician or manicurist exam had to have completed to be eligible for the applicable exam, no other qualifications were set forth. Accordingly, §§ 7.32e and 7.32f would be amended to set forth the requirements that applicants for esthetician and nail technician licenses must meet. Additionally, proposed § 7.32h sets forth the requirements that an applicant for the natural hair braider examination must meet to qualify for the examination and licensure after successful completion of the examination. This provision enumerates the qualifications specified by Act 99.

§ 7.32g. Issuance of temporary licenses to qualified examination applicants.

Act 99 also amended Act 86 to allow the Board to issue temporary licenses to limited license applicants, rather than just to cosmetologist and manicurist applicants. Therefore, § 7.32g would be amended to extend its temporary license provisions to applicants for limited licenses. This includes establishing the requirement, set forth in Act 99, that holders of temporary limited licenses may practice under the supervision of a holder of a corresponding limited license, as well as under the supervision of a licensed teacher or licensed cosmetologist.

Also, subsection (b) would be amended by deleting the last clause. The existing regulation makes a temporary license valid for 9 months "or until the next examination, whichever comes first." Because of changes in the Board's processes regarding the exam being given more frequently than just four times per year, retaining the "or until the next examination, whichever comes first" provision would mean some temporary licenses could be good for less than a month in certain instances. The Board believes it is more equitable to make temporary licenses valid for 9 months, particularly in light of section 21.1 of Act 86 (63 P. S. § 518.1), which provides that "[t]emporary licenses are granted for a nine-month period."

§ 7.34. Models for practical portion of examination.

The proposed rulemaking would amend § 7.34, which requires an examinee taking the practical portion of an examination to bring a model to the exam. Under current practice, determined by the exam administrator, only individuals taking the esthetics practical are required to provide their own models. Accordingly, this amendment would bring the regulation into harmony with the current practice.

§ 7.35. Failure of examination.

Section 7.35 would be amended by adding a clause that requires license applicants who fail a portion of the exam to retake and pass the failed portion within 1 year of the date the examinee takes and successfully passes the other portion of the exam. This would make § 7.35 consistent with proposed § 7.32(c) (relating to deadline for examination applicants). The rationale is the same. The Board finds it desirable to institute this requirement because it is concerned that if applicants wait too long between taking one portion and the other, the knowledge they have acquired in school will begin to become cloudy, lessening their chances of passing the second portion of the exam, and their entrance into the profession will be delayed to the point that their skills will not be as sharp as they otherwise might have been.

§ 7.41. Display of licenses and permits.

The proposed rulemaking would amend § 7.41 by slightly modifying the rule pertaining to display of licenses. First, "or permit" would be deleted because the Board does not issue permits of any kind so the words are meaningless. Additionally, the section would be broken down into two subsections, one regarding salon licenses and one regarding individual licenses. Subsection (a) would require the salon license to be displayed in a conspicuous place with the salon's business premises, while subsection (b) would be added to require that individual licenses should be readily available for inspection at the place of business or employment of the individual holding the license. The Board would make this change because of the recent growth of and concerns about identify theft. If an individual's license is posted in the open in a salon, it is there for all to see, thus making the individual susceptible to identify theft of the information that the license contains, including the license number. However, if the license is not out in the open but is readily available for inspection, the public still has access to license information, but the individual will know who has had access to it and might have copied something from it, thus limiting the exposure to and possible theft of personal information. In practice, the Board has permitted this for some time and many salons now keep the individual licenses in a book under the counter that is readily available for view by anyone who would ask for it. The amendment would make the practice and the regulation consistent, while protecting the licensee from identity theft and still making the license information available to the public.

§ 7.43. Expiration and renewal of licenses.

Section 7.43(a) would be amended to change "application" to "notice" in relation to the license renewal. This would align the language of the regulation with current practice, in that, due to the advent of online renewals of licenses, the Board no longer sends out license renewal applications. Rather, it sends out license renewal notices that notify the licensee that it is time to renew and provides a code by which the licensee may renew online directly at the Board's renewal website. The notice also

permits the licensee to renew by means of the traditional hard copy application by either downloading a renewal application form from the Board's website or by contacting the Board and requesting that a hard copy renewal application form be sent via regular mail to the licensee to complete the renewal process.

Additionally, the Board proposes to add subsection (c), which sets forth the requirement that, as a condition of biennial renewal for the first biennial renewal after initial licensure, an individual initially licensed as a natural hair braider without examination under § 7.31(c) (relating to examination prerequisite for licensure; exception) must provide to the Board proof that the licensee has completed 150 hours of education in specified subject matter areas, within 2 years of the date the license was initially issued. This implements the statutory provision from Act 99. Subsection (c) further enumerates the numbers of hours required in each of the subject matter areas specified by Act 99. The Board proposes to require 75 hours in scalp care, 50 hours in hygiene and 25 hours in occupational safety, the provisions of Act 86 and the regulations of the Board, for the statutorily-required total of 150. The Board made this distribution of hours based on its ranking of the importance of and amount of material required for adequate training in each of the subject matter areas.

§ 7.62. Management of cosmetology shop.

The proposed rulemaking would amend § 7.62 by adding a provision to establish who may be the designated person in charge for a natural hair braiding salon. This provision permits either a licensed cosmetologist or a licensed natural hair braider to be the designated person in charge, paralleling the provisions regarding esthetics and nail technology salons, which allow the holder of an applicable limited license or a licensed cosmetologist to be the designated person in charge.

§ 7.71. Equipment and supplies for a cosmetology shop.

§ 7.71a. Equipment and supplies for a cosmetician shop.

§ 7.71b. Equipment and supplies for a manicuring shop.

§ 7.71c. Equipment and supplies for a natural hair braiding salon.

The Board proposes to amend §§ 7.71, 7.71a and 7.71b and to add § 7.71c.

The existing regulations in §§ 7.71, 7.71a and 7.71b contain outdated terminology, require equipment or supplies the Board now views as optional or unnecessary and do not require some items the Board now believes to be essential for safety and sanitation reasons. Accordingly, in these three sections, the terminology is updated so that "styling station" or "work station" replaces the outdated term "dresserette" and "sanitizer" supplants "sterilizer." Also, in § 7.71, the Board would delete the requirement that a cosmetology salon have one container for hair pins or clips and one neck strip dispenser, because those are not necessary for a cosmetology salon to operate effectively, safely or in a sanitary fashion. A salon may still have them, but they are no longer required.

Each of these sections would also be amended by deleting the language requiring one dry sterilizer, an outdated requirement, and replacing it with the requirement that each salon have a closed container for sanitized implements. Also, to update the requirements and make salons safer and more sanitary, the Board would add the requirement that all salons have a labeled first aid kit containing nine specifically-enumerated items that the Board views as the minimum first aid equipment re-

quired to respond to an emergency in the salon. The Board has always required a first aid kit for salons but believed that, in this day and age when universal precautions for blood spills are taught and practiced in almost every workplace, and when the average salon deals with chemicals of many different kinds, the equipment in a first aid kit must include protective gloves, a blood spill kit, a hazardous waste bag, an eyewash and burn ointment. The other items enumerated are typically found in a basic first aid kit and make sense for the minor daily mishaps of daily work. To complete its update of the safety and sanitation requirements, the Board would amend these three sections to require a minimum of 12 sanitary towels for each styling or work station; at least 1 sink with hot and cold running water that is readily accessible to each styling or work station in the work area of the salon; and one multipurpose fire extinguisher suitable for use on Class A, B and C fires. Again, given the fact that salons now deal with all kinds of chemicals, some of them flammable, the Board believes the last requirement is something no salon should be without if it is going to provide the best in safety precautions to its clients.

Section 7.71c would also be added to establish the minimum equipment and supplies required for a natural hair braiding salon to operate. This provision parallels §§ 7.71, 7.71a and 7.71b, which impose similar equipment and supply requirements on cosmetology, esthetician and nail technology salons. These requirements list the minimum equipment that the Board believes a one-person natural hair braider salon needs to be able to provide both adequate service and a safe, sanitary environment to its clients.

§ 7.78. Sign.

Section 7.78 would be amended by adding "or limited practice salon" to extend the regulation's sign display requirement to all types of salons, rather than just to cosmetology salons.

§ 7.79. Lavatories.

The proposed rulemaking would amend § 7.79 by adding a second sentence defining "on the premises." The Board has seen many salon license applications in which the lavatory is not located inside the licensed premises of the salon, although it may be within the building of which the salon is a part. Consequently, there have been many requests for variances from this provision, or situations in which the applicant questions what the Board's regulation means by "on the premises." Accordingly, the second sentence would be added to clarify what is meant by the phrase and the Board's definition is "within the square footage of the salon."

§ 7.81. Rendering of services outside a shop.

§ 7.82. Record of services rendered outside a shop.

§ 7.83. Responsibility of a shop for outside services.

Under Act 86, as it existed previously, only cosmetologists could render services outside of a salon. However, Act 99 extended the authority to render services outside of a salon to all of the limited licensees. Accordingly, § 7.81 would be amended to add language extending its applicability to limited licensees as well as to cosmetologist licensees. It would also be amended to add the requirement that services be rendered by appointment, which is a specific requirement of section 8 of Act 86 (63 P. S. § 514). Similarly, § 7.82 would be amended by changing the limited terms "cosmetologist" and "cosmetology services" to the broader terms "licensee" and "licensed

services," thus making the recordkeeping provision applicable to all licensees who render services outside a licensed salon.

Finally, § 7.83 would be amended. As it reads presently, it makes a salon "that sponsors" services outside the salon responsible for supplying and equipping the cosmetologists who render those services. It would be amended to replace "that sponsors services outside the shop" with "through which appointments are made for the rendering of cosmetology or limited license services outside the salon," thus clarifying the regulation because the phrase "that sponsors services" was vague and open to interpretation. Additionally, the amendment extends this section's applicability to all licensees and all licensed salons, rather than just cosmetologists and cosmetology salons.

§§ 7.91—7.100.

Proposed § 7.91(c) (relating to sanitation and safety generally) requires that sharp implements be stored upright with the points down or in a protective case. This is an update to the general safety requirements that the Board believes licensees must implement to properly protect their clients and themselves.

The proposal would amend § 7.92 (relating to sterilization of equipment) to update the outdated term "sterilization" and replace it with "sanitization." It would also clarify that the provision applies to razors for hair, rather than to razors for the skin.

Additionally, § 7.93 (relating to sanitary use of towels) would be amended by adding "closed" before "towel dispenser." The Board believes requiring a closed towel dispenser for clean towels better protects the sanitary nature of the clean towels than would be the case if they were kept in an open container.

Likewise, the proposal would amend § 7.94(c) (relating to sanitary use of supplies) by adding "or hair" after "skin," thus prohibiting direct contact by a spatula or similar utensil with the hair of a client and helping to prevent the spread of bacteria and the like from one client to another.

Because of a citation to an inapplicable provision of Act 86, § 7.98 (relating to violation of related laws) is amended to correct the erroneous reference to "section 20 of the act" with a reference to section 13 of Act 86 (63 P. S. § 519).

The proposed rulemaking amends § 7.100 (relating to permanent wave operation) by extending the requirement that a client not be left unattended during the heating or processing period of a permanent wave operation to chemical applications, reflecting the Board's recognition that chemicals may be applied to a client in other operations and that, for safety's sake, clients should not be left alone during the heating or processing period of any chemical application.

§§ 7.111—7.129.

The Board would amend § 7.111 (relating to application for a school license) in that the qualifications of the school supervisor would be slightly modified by inserting "work" between "satisfactory" and "experience," and by deleting "as the designated person in charge of a cosmetology shop." This amendment would broaden the range of work experience that the Board finds acceptable in the individual named as a school supervisor in an application for a school license. The Board understands that an individual with a cosmetology teacher license issued by the Board may have a broad range of experience practicing cosmetology in salons, teaching in schools or teaching

apprentices in salons, that would make the individual an acceptable school supervisor regardless of whether the individual had ever been the designated person in charge, and this amendment reflects that understanding.

The Board's proposes to amend §§ 7.114 and 7.115 (relating to school equipment and supplies; and student equipment and supplies) for much the same reasons it would amend the provisions previously discussed regarding salon equipment and also to make the school and student equipment and supply requirements consistent with the salon equipment and supply requirements when the two coincide. The existing regulations contain outdated terminology and lack some items the Board now believes to be essential for safety and sanitation reasons. Accordingly, § 7.114 would amend the school equipment and supply requirements, updating "dry sterilizers" by replacing it with "closed containers for sanitized implements"; updating "sterilizers" by replacing the term with "sanitizers"; and updating "dresserettes" with "styling stations." Section 7.114 would also be amended by adding the requirement that a school enrolling 25 students have at least 2 sanitary towels per student. The equipment and supply requirements for students in § 7.115 would be amended by adding "hair cutting" to modify "razor," thus clarifying that the required razor for cosmetologist students is a hair cutting razor; by deleting the requirement that required tools for nail technology, for both cosmetologist and nail technician students, include nippers or scissors; and by adding the requirement that each cosmetology student have a pair of tweezers.

Additionally, proposed § 7.115(d) sets forth the required supplies and equipment that each natural hair braiding student must possess. This provision is necessary to cover the natural hair braider students who will come about as a result of Act 99's creation of the natural hair braider license.

Section 7.118 (relating to professional staff) would be amended in a minor way by replacing "instructor" or "instructors" with the term "teacher" or "teachers," as appropriate, because there is no other place in Act 86 or in the regulations where the term "instructor" or "instructors" is used.

Also, § 7.120(a) (relating to work done by students on the public) would be amended slightly for clarity. The regulation implemented section 7 of Act 86 (63 P.S. § 513), which prohibits schools from charging "any money whatsoever for treatments done by its students" and permits schools to charge only for "the reasonable cost of materials used in such treatments." However, over the years, it has become apparent that some schools have been calculating into the "reasonable cost of materials used in the treatment" items such as overhead, prorated teacher salaries and wear and tear on equipment. The Board does not believe that those broader expenses were intended to be encompassed in the cost of materials used in the treatment of clients, and therefore would make this amendment to clarify that the charge must be based on the reasonable cost of materials "used on the client" only.

§ 7.129. Curriculum requirements.

This proposal would amend § 7.129 by replacing the outdated term "sterilization" with the current term "disinfection," consistent with other proposed amendments. Additionally, § 7.129(a) would be amended by updating the reference to Act 86, changing "Beauty Culture Law" to "Cosmetology Law" to be consistent with current usage. While there is no actual provision in Act 86 that designates a short title, unlike many other licensing acts, the

common usage in the profession is to refer to Act 86 as the "Cosmetology Law." For example, section 1 of Act 99 (63 P.S. § 507) refers to Act 86 as the "Cosmetology Law." This amendment would adopt that modernization.

Proposed § 7.129(f) sets forth the natural hair braider curriculum that schools shall implement to train candidates for licensure as natural hair braiders. The regulation establishes a curriculum of 300 hours, as mandated by Act 99, and recommends that schools distribute the hours as follows: 50 to professional practices, including sanitation; 125 to sciences, including scalp care and anatomy; and 125 to cognitive and manipulative skills regarding natural hair braiding. This recommended apportionment is similar to the recommended apportionment for the other limited license curricula.

§ 7.132. Apprentice curriculum.

Finally, the Board proposes to amend § 7.132 by adding language to clarify the curriculum for apprentices. The existing regulation states merely that the cosmetology teacher responsible for offering instruction to an apprentice in a cosmetology salon shall teach the same cosmetology curriculum that the Board prescribes for schools of cosmetology in § 7.129. However, because section 4 of Act 86 (63 P.S. § 510) requires that apprentices shall complete 2,000 hours of training to sit for the cosmetology exam, which is 750 hours more than a cosmetology student shall complete who takes a course of training in a licensed school, some confusion has arisen as to how the hours in an apprenticeship program should be apportioned. This proposed rulemaking adds the apportionment of hours for the cosmetology curriculum in § 7.129 and assigns the additional 750 hours to the category of "cosmetology cognitive and manipulative skills." This narrows down the subject matter of the additional hours but leaves the actual content to the discretion of the cosmetology teacher and apprentice. The proposed rulemaking, therefore, gives a cosmetology teacher some guidance but permits leeway as to what else should be taught, thus allowing for differences in interest and in the nature of the services a given salon may actually provide.

E. Fiscal Impact and Paperwork Requirements

There is no adverse fiscal impact or paperwork requirement imposed on the Commonwealth, political subdivisions or the private sector.

F. Sunset Date

The Board continuously monitors its regulations. Therefore, no sunset date has been assigned.

G. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on August 15, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the

General Assembly and the Governor of comments, recommendations or objections raised.

STATE BOARD OF FUNERAL DIRECTORS

[49 PA. CODE CH. 13]

Preneed Funeral Arrangements

The State Board of Funeral Directors (Board) proposes to amend §§ 13.1, 13.224, 13.225 and 13.226 and to add §§ 13.227, 13.228 and 13.229 (relating to limitations on preneed funeral contracts; transfer of a preneed funeral contract by customer; and sale or transfer of preneed funeral contracts or preneed funeral funds by funeral director) to read as set forth in Annex A.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking is authorized under sections 13(c) and 16(a) of the Funeral Director Law (act) (63 P. S. §§ 479.13(c) and 479.16(a)).

Background and Need for the Amendment

Section 13(c) of the act requires that a funeral director who accepts money under a contract with a living person to render funeral services to that person when needed to forthwith deposit the money in an escrow account or transfer it in trust to a banking institution in this Commonwealth. The money may be withdrawn or disbursed only for the purposes for which it was deposited.

The Board's current regulations regarding preneed funeral arrangements were originally promulgated in 1977 and last amended in 1991. Current § 13.224 (relating to funding and reporting of prepaid burial contracts) requires a funeral director to place the funds received for preneed funeral arrangements into trust or escrow accounts kept separate from the funeral director's personal or business accounts and to make reports to the Board. Under § 13.226 (relating to nature and description of escrow or trust account for prepaid burial contracts), interest or other earnings from preneed funds must be kept together with the principal to assure delivery of the same quality of services and merchandise for which the preneed contract was entered.

The Board determined that the regulations need to be updated to conform to existing practices in the funeral industry and to provide adequate protection to the consumer of preneed services in the instance of changed

circumstances. For example, reports under § 13.224 are time-consuming to prepare and to review. However, the reports provide little value to the Board, the regulated community or the public. Existing regulations do not address the transferability of funds when a funeral director other than the contracting funeral director provides funeral services and merchandise or the ability of a customer to change funeral directors or transfer funds in the event of a change of funeral directors. The regulations do not adequately address the cessation or acquisition of a preneed funeral business.

Description of the Proposed Amendments

In § 13.1 (relating to definitions), definitions of "prepaid burial contract" and "prepaid burial account" would be deleted and replaced with definitions of new terms "preneed funeral contract" and "preneed funds." The proposed definition of "preneed funds" would exclude premiums paid directly to an insurance company to purchase a life insurance policy. However, preneed funds would include amounts to be paid for arrangement fees or additional allowance for other services or merchandise. Preneed funds would also include the assignment of a life insurance policy or other asset received by a funeral director to fund a preneed contract.

Section 13.224 requires a funeral director to deposit in escrow or transfer in trust money received under a prepaid contract. The Board proposes to amend subsection (a) to require the deposit or transfer be made within 10 days of receipt. In addition, the Board proposes to add a provision to prohibit a funeral director or entity from using another person or entity to avoid this requirement. Currently, a funeral director must submit to the Board a written report every time the funeral director enters into a prepaid burial contract or performs under a prepaid contract. Under proposed subsection (b), a funeral director would be required to report to the Board all preneed accounts on a quarterly basis, including activity during that quarter. A funeral director could submit these reports on paper or disk or electronically and must maintain copies of the report for 3 years. A funeral director closing a business would be required to submit a report showing how all funds were distributed. These reports are not public records and will not be available for public review.

The limitations proposed for contract provisions are added in § 13.227. Under the proposed rulemaking, every preneed contract must be in writing. Also, a funeral director performing under a preneed contract would be prohibited from charging or collecting any fee that exceeds the fees set forth in the funeral director's current price list at the time the service or merchandise is provided. In addition, a preneed contract may not incorporate a contract with an unlicensed person or entity.

Proposed § 13.228 would govern customer transfers of preneed funds to another funeral director or funeral entity. Every preneed funeral contract entered into after the effective date of the final-form rulemaking must expressly permit the customer to transfer the preneed funeral account and funds to another funeral director or funeral entity of the customer's choosing that will provide funeral goods and services. The funeral director would be required to forward to the other funeral director the entire amount of preneed funds, including both principal and interest or other earnings, within 30 days of notice from the customer. The proposed rulemaking would prohibit a funeral director from collecting a fee for funeral goods or services that have not been provided or liquidated damages for the cancellation.

Proposed § 13.229 would govern funeral director transfers of preneed contracts or funds. It would require a funeral director or entity that acquires a portion of the preneed business of another to notify each customer and provide each customer with the opportunity to transfer the contract and funds to another funeral director of the customer's choosing. A funeral director ceasing preneed business must notify each customer and provide each customer with the opportunity to transfer the preneed funds to another funeral director of the customer's choosing.

Input from the Regulated Community

The Board solicited input from and provided an exposure draft of this proposed rulemaking to funeral directors and organizations. In addition, the Board considered the impact the rulemaking would have on the regulated community and on public health, safety and welfare.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will not impose additional paperwork requirements upon the Commonwealth, its political subdivisions or the private sector.

Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 15, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding this proposed rulemaking to Michelle T. Smey, Administrative Officer, State Board of Funeral Directors, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days of publication of this proposed rulemaking in the *Pennsylvania Bulletin*. STATE BOARD OF MEDICINE

[49 PA. CODE CH. 16]

Expert Witness

The State Board of Medicine (Board) proposes to amend § 16.52 (relating to creation of lists of medical consultants) to read as set forth in Annex A.

A. *Effective Date*

The proposed rulemaking will be effective upon final publication in the *Pennsylvania Bulletin*.

B. *Statutory Authority*

Sections 8 and 9 of the Medical Practice Act of 1985 (act) (63 P. S. §§ 422.8 and 422.9) authorize the Board to promulgate regulations addressing procedures to be followed in proceedings before it consistent with section 9 of the act.

C. *Background and Purpose*

To enhance the quality of testimony given in disciplinary proceedings before the Board and the hearing examiners who hear matters on behalf of the Board, the Board is proposing to adopt the criteria for qualification as an expert witness established by section 512 of the Medical Care Availability and Reduction of Error (Mcare) Act (Mcare Act) (40 P. S. § 1303.512). The Board has found that expert testimony offered by witnesses who do not possess the same specialty qualifications as the respondent whose conduct is under review has led to the assertion of expert opinions that lack the thoroughness and accuracy that the nature of the proceedings before the Board demands. The Board is of the opinion that a physician is not competent to offer an expert medical opinion in a disciplinary action before the Board alleging medical professional negligence, incompetence or violation of the standard of care unless that physician possesses sufficient education, training, knowledge and experience to provide credible, competent testimony and fulfills the qualifications as set forth in this proposed rulemaking.

D. *Description of Amendments*

Existing § 16.52 is amended to delete references to the maintenance of lists of expert medical consultants who might serve as expert witnesses and would instead establish qualifications consistent with section 512 of the Mcare Act for experts testifying in proceedings before the Board.

Section 16.52(a) would establish the general rule that a person will not be competent to offer an expert medical opinion in a disciplinary action before the Board unless that person possesses sufficient education, training, knowledge and experience to provide credible, competent testimony and fulfills the additional qualifications set forth in this section, as applicable.

Section 16.52(b) would establish qualifications for an expert to testify on a medical matter, including the standard of care, risks and alternatives, causation and the nature and extent of the injury. Those qualifications would include: (1) possessing an unrestricted physician's license to practice medicine in any state or the District of Columbia; and (2) being engaged in, or having retired within the previous 5 years from, the active clinical practice or teaching of medicine. The Board may waive these requirements for an expert on a matter other than the standard of care if the Board determines that the expert is otherwise competent to testify about medical or scientific issues by virtue of education, training or experience.

Section 16.52(c) would establish additional requirements for experts regarding standard of care issues. The expert would need to: (1) be substantially familiar with the applicable standard of care for the specific care at issue as of the time of the alleged breach of the standard of care; (2) practice in the same specialty and subspecialty as the respondent physician or in a subspecialty that has a substantially similar standard of care for the specific care at issue; and (3) in the event a Board-recognized certifying board certifies the respondent physician, the expert shall also be board certified by the same or a similar approved board.

Under § 16.52(d), the Board may waive the same subspecialty requirement for an expert testifying on the standard of care for the diagnosis or treatment of a condition if the Board determines that: (1) the expert is trained in the diagnosis or treatment of the condition, as applicable; and (2) the respondent physician provided care for that condition and that care was not within the Respondent physician's specialty.

Under § 16.52(e), the Board may waive the same specialty, subspecialty and board certification requirements for an expert testifying as to a standard of care if the Board determines that the expert possesses sufficient training, experience and knowledge to provide the testimony as a result of active involvement in or full-time teaching of medicine in the applicable subspecialty or a related field of medicine within the previous 5-year time period.

Finally, under § 16.52(f), the Board reserves its authority to apply its own expertise in determining the applicable standard of care in disciplinary matters before the Board.

E. *Input from the Regulated Community*

In drafting and promulgating this proposed rulemaking, the Board solicited input and suggestions from the regulated community and other parties who have identified themselves as interested in the Board's regulatory agenda. The Board received comments from the Hospital and Healthsystem Association of Pennsylvania (HAP), the Pennsylvania Medical Society (PMS) and the Pennsylvania Academy of Family Physicians (PAFP). Comments from HAP and PMS were supportive of this proposed rulemaking. PAFP suggested the standards should only apply to experts testifying against the respondent physician and not those testifying on behalf of the respondent physician. The Board disagrees. Improvement in the quality of expert testimony on all sides can only serve to benefit the quality of the entire proceeding. PAFP also believes only licensed physicians from this Commonwealth should be qualified to testify. The Board believes that PAFP's position is not supported by the act, Mcare Act or the Pennsylvania Rules of Evidence (see 225 Pa. Code).

F. *Fiscal Impact and Paperwork Requirements*

There is no adverse fiscal impact or paperwork requirement imposed on the Commonwealth, political subdivision or the private sector.

G. *Sunset Date*

The Board continuously monitors its regulations. Therefore, no sunset date has been assigned.

H. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 15, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

I. *Public Comment*

Interested persons are invited to submit written comments, recommendations or objections regarding the proposed rulemaking to Gerald S. Smith, Senior Counsel in Charge, Department of State, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Refer to 16A-4923: Expert Witnesses when submitting comments.

CHAPTER 16. STATE BOARD OF MEDICINE—GENERAL PROVISIONS

Subchapter E. MEDICAL DISCIPLINARY PROCESS AND PROCEDURES

HEARING EXAMINERS AND MEDICAL CONSULTANTS

§ 16.52. [Creation of lists of medical consultants] Expert witnesses.

[The Board, through the cooperation of various State and local professional societies, has created lists of licensed physicians and surgeons of varied expertise, specialty and training from which medical consultants can be selected to serve on a part-time basis as resource personnel, with medical expertise required for the individual case.]

To enhance the quality of expert testimony given in disciplinary proceedings before the Board and its hearing examiners, the Board adopts the criteria for qualification as an expert established by section 512 of the Medical Care Availability and Reduction of Error (Mcare) Act (40 P. S. § 1303.512), as follows:

(1) **General rule.** A person will not be competent to offer an expert medical opinion in a disciplinary action before the Board unless that person possesses sufficient education, training, knowledge and experience to provide credible, competent testimony and fulfills the additional qualifications in this section, as applicable.

(2) **Medical testimony.**

(i) An expert testifying on a medical matter, including the standard of care, risks and alternatives, causation and the nature and extent of the injury, shall:

(A) Possess an unrestricted physician's license to practice medicine in any state or the District of Columbia.

(B) Be engaged in, or have retired within the previous 5 years from, active clinical practice or teaching of medicine.

(ii) The Board may waive the requirements of this subsection for an expert on a matter other than the standard of care if the Board determines that the expert is otherwise competent to testify about medical or scientific issues by virtue of education, training or experience.

(c) **Standard of care.** In addition to the requirements in subsections (a) and (b), an expert testifying as to a physician's standard of care shall:

(1) Be substantially familiar with the applicable standard of care for the specific care at issue as of the time of the alleged breach of the standard of care.

(2) Practice in the same specialty and subspecialty as the respondent physician or in a subspecialty that has a substantially similar standard of care for the specific care at issue, except as provided in subsection (d) or (e).

(3) In the event a Board-recognized certifying board certifies the respondent physician, the expert shall also be board certified by the same or a similar approved board, except as provided in subsection (e).

(d) **Care outside specialty.** The Board may waive the same subspecialty requirement for an expert testifying on the standard of care for the diagnosis or treatment of a condition if the Board determines that:

(1) The expert is trained in the diagnosis or treatment of the condition, as applicable.

(2) The respondent physician provided care for that condition and the care was not within the respondent physician's specialty.

(e) **Otherwise adequate training, experience and knowledge.** The Board may waive the same specialty, subspecialty and Board certification requirements for an expert testifying as to a standard of care if the Board determines that the expert possesses sufficient training, experience and knowl-

edge to provide the testimony as a result of active involvement in or full-time teaching of medicine in the applicable subspecialty or a related field of medicine within the previous 5-year time period.

(f) Application of Board's own expertise. Nothing in this subsection shall be construed to preclude the Board from applying its own expertise in determining the applicable standard of care in disciplinary matters before the Board.

STATE BOARD OF NURSING

[49 PA. CODE CH. 21]

Faculty Requirements for Nursing Education Programs

The State Board of Nursing (Board) proposes to amend §§ 21.71 and 21.72 (relating to faculty and staff requirements for baccalaureate and associate degree programs; and faculty policies) and to delete § 21.74 (relating to faculty and staff requirements for diploma programs) to read as set forth in Annex A. This proposed rulemaking is intended to remove unnecessary restrictions on appointments of faculty for nursing education programs.

Effective Date

The proposed rulemaking will be effective upon final form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking is authorized by section 6.1 of the Professional Nursing Law (63 P. S. § 216.1), which provides that the Board establish standards for the operation and approval of nursing education programs.

Background and Need for the Proposed Rulemaking

The Nursing Education Capacity Working Group, an ad hoc committee of the Pennsylvania Center for Health Careers (Center), suggested that the Board amend its regulations regarding nursing education faculty. Following a series of roundtables held throughout this Commonwealth to discuss the nursing shortage and through research and discussion with experts, the Center concluded that this Commonwealth needs to expand, as quickly as possible, the supply of qualified nurse educators without compromising the quality of nursing education. This suggestion addresses the nursing shortage because one of the impediments to this Commonwealth's goal of an adequate nurse workforce is the inability of nursing schools to meet the demand for enrollment due to faculty shortages. The Board now proposes these amendments to allow nursing education programs greater leeway in hiring qualified faculty to educate nursing students.

Description of Proposed Amendments

The Board proposes to amend § 21.71, which sets forth the faculty and staff requirements for baccalaureate and associate degree nursing education programs, so that it applies to all nursing education programs (baccalaureate and associate degree programs, programs in transition and diploma programs). The Board proposes to delete § 21.74, which currently sets forth the faculty and staff

requirements for diploma nursing education programs. In this proposed rulemaking, the Board has reorganized § 21.71. Proposed subsection (a) provides the general requirement that a nursing education program employ a sufficient number of adequately qualified faculty, faculty assistants and staff to accomplish the program objectives. Proposed subsection (b) sets forth the qualifications for the nurse administrator of the nursing education program. Proposed subsection (c) sets forth the qualifications for faculty, faculty assistants and allied faculty in the nursing education program.

The Board proposes to amend § 21.71(b) to provide that the nurse administrator's credentials shall be submitted for Board approval. This requirement is not new; proposals for new nursing education programs must already include the administrator's credentials for approval. The Board proposes in paragraphs (1) and (2) to permit nursing education programs to employ an administrator with at least one graduate degree in nursing rather than "a master's degree in nursing." The Board anticipates that this change will greatly increase the pool of applicants qualified to serve as nurse administrator.

The Board's current regulations require that nursing faculty hold a master's degree in nursing. The current regulations also allow employment of a faculty assistant, who does not hold a master's degree in nursing, provided the faculty assistant provides evidence of actively pursuing a master's degree in nursing.

This proposed rulemaking would create three categories of nursing faculty: faculty, faculty assistants and allied faculty. Faculty teaching required clinical nursing courses will be required to hold at least one graduate degree in nursing. This requirement is much less restrictive than the current requirement of a master's degree in nursing because it allows individuals with a nursing-related master's degree and a doctoral degree in nursing to teach required clinical nursing courses. For example, under the current regulation, an individual with a bachelor's degree in nursing, a master's degree in public health and a doctoral degree in nursing is precluded from faculty posts until the individual obtains a master's degree in nursing. Under the proposed rulemaking, this individual would be considered fully qualified to teach required clinical nursing courses.

Faculty assistants, that is, individuals who do not hold at least one graduate degree in nursing, will continue to be permitted to teach required clinical nursing courses only if qualified candidates are not available. The Board will retain the requirement that faculty assistants work under the direct guidance of a faculty member fully qualified in the specific teaching area.

The Board has always intended to restrict faculty assistants to a maximum of 5 years as a faculty assistant before obtaining a graduate degree in nursing. However, the current wording has allowed individuals to continue to teach in nursing education programs in this Commonwealth indefinitely without obtaining a graduate degree by moving from school to school in this Commonwealth, or moving out-of-State and then returning to this Commonwealth, at least once every 5 years. The Board proposes to clarify the limitation by providing, in proposed § 21.71(c)(2), that faculty assistants may teach in this Commonwealth for a maximum cumulative period of 5 years without obtaining a graduate degree in nursing. To further advance this objective, the Board proposes to amend § 21.72 by adding subsection (g), which requires faculty assistants to maintain a record of their activities leading to the completion of a graduate degree in nursing

and to submit to the Board, at least annually, a transcript of courses completed toward the degree. As schools of nursing in this Commonwealth are required to obtain and maintain Board approval, a school that employs a faculty assistant who does not submit the required materials to the Board or who fails to complete a graduate degree in nursing within the specified time frame, may be subject to placement on the list of provisionally approved schools.

Under proposed § 21.71(c)(3), a nursing education program will be authorized to employ allied faculty to teach courses in the basic sciences or specialized areas of nursing practice. Allied faculty shall hold at least one graduate degree in a subject area pertinent to the area of teaching. For example, this amendment will permit a nursing education program to employ an individual with a graduate degree in chemistry to teach chemistry courses and will allow a program to employ an individual with a doctoral degree in pharmacy to teach pharmacology.

The Board also proposes to address the use of clinical preceptors by nursing education programs in proposed § 21.71(c)(5). A clinical preceptor is a licensed professional nurse who serves as a clinical instructor and mentor to a very limited number of students placed at a particular practice site where the clinical preceptor is employed. The Board proposes to specifically authorize the use of clinical preceptors and to provide that faculty shall retain responsibility for planning and evaluating student learning experiences and also have input into the selection of preceptors.

The Board is also proposing amendments to § 21.72. The Board proposes to amend § 21.72(f) to require faculty members to maintain records of their participation in continuing education, professional self-development and other activities that promote the maintenance of expertise in their respective areas of teaching. As already explained, the Board also proposes to require faculty assistants to provide the Board with annual progress reports related to their progress toward an appropriate degree.

Input from the Regulated Community

The Board requested input from nursing education programs and other interested parties. The Board finds that the proposed rulemaking addresses a compelling public interest as described in this preamble.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking will not have an adverse fiscal impact on the Commonwealth or its political subdivisions as the Board is self-supporting. The proposed rulemaking will not impose additional paperwork requirements upon the Commonwealth, its political subdivisions or the private sector.

Sunset Date

The Board continuously monitors the cost-effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 15, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Ann Steffanic, Board Administrator, State Board of Nursing, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

STATE BOARD OF PHARMACY

[49 PA. CODE CH. 27]

Sales of Hypodermic Needles and Syringes

The State Board of Pharmacy (Board) proposes to amend § 27.18 (relating to standards of practice) to read as set forth in Annex A. The proposed rulemaking would alter the current requirements regarding the sale of hypodermic needles and syringes in pharmacies. The proposed rulemaking would permit a pharmacist to sell

up to 30 hypodermic needles and syringes to persons 18 years of age or older without a prescription.

Effective Date

The proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

The proposed rulemaking is authorized under sections 4(j) and 6(k)(1) and (9) of the Pharmacy Act (act) (63 P. S. §§ 390-4(j) and 390-6(k)(1) and (9)).

Background and Need for Proposed Rulemaking

In February 2005, Pennsylvanians for the Deregulation of Syringe Sales petitioned the Board under 1 Pa. Code § 35.18 (relating to petitions for issuance, amendment, waiver or deletion of regulations) to amend § 27.18(s)(2) to eliminate the prescription requirement for the sale of hypodermic needles and syringes. The Board subsequently heard testimony in support of the proposed amendment at its August 16-17, 2005, meeting from Dr. Scott Burriss of Pennsylvania Coalition to Save Lives Now; Renee Cox of Prevention Point Pittsburgh; and Janice Kopelman, Director of the Department of Health's Bureau of Communicable Diseases.

Under the current regulation, which has not been amended for a number of years, the sale of hypodermic needles and syringes in pharmacies in this Commonwealth may only occur under the presentation of a prescription. More recently, studies have shown that increased access to clean needles and syringes has been proven to reduce the transmission of hepatitis C and HIV. The evidence also suggests that drug use will not increase if the prescription requirement is removed. See Douglas A. McVay, (ed.). *Drug War Facts 2006*, (citing National Commission on AIDS, *The Twin Epidemics of Substance Abuse and HIV* (Washington, DC: National Commission on AIDS, 1991); General Accounting Office, *Needle Exchange Programs: Research Suggests Promise as an AIDS Prevention Strategy* (Washington, DC: US Government Printing Office, 1993); Lurie, P. & Reingold, A.L., et al., *The Public Health Impact of Needle Exchange Programs in the United States and Abroad* (San Francisco, CA: University of California, 1993); Satcher, David, MD, (Note to Jo Ivey Bouffard), *The Clinton Administration's Internal Reviews of Research on Needle Exchange Programs* (Atlanta, GA: Centers for Disease Control, December 10, 1993); National Research Council and Institute of Medicine, Normand, J., Vlahov, D. & Moses, L. (eds.), *Preventing HIV Transmission: The Role of Sterile Needles and Bleach* (Washington, DC: National Academy Press, 1995); Office of Technology Assessment of the U. S. Congress, *The Effectiveness of AIDS Prevention Efforts* (Springfield, VA: National Technology Information Service, 1995); National Institutes of Health Consensus Panel, *Interventions to Prevent HIV Risk Behaviors* (Kensington, MD: National Institutes of Health Consensus Program Information Center, February 1997).

In 2000, the National Association of Boards of Pharmacy encouraged boards of pharmacy to revise laws and regulations to permit the sale and distribution of sterile needles and syringes. The Commonwealth is one of only four states that still prohibit the sale of hypodermic needles and syringes in pharmacies without a prescription. Through 2004, this Commonwealth was the seventh leading state reporting the highest number of cumulative AIDS cases among residents, with 30,174 cases. See Centers for Disease Control and Prevention, *HIV/AIDS Surveillance Report, 2004*, Vol. 16. Atlanta: United States Department of Health and Human Services, Centers for

Disease Control and Prevention; 2005: page 27. (Available at www.cdc.gov/hiv/stats/hasrlink.htm.)

The Board recognizes that there is a compelling public health interest in reducing the spread of hepatitis C and HIV. Increased access to clean needles and syringes is essential to this interest. Studies have shown that removing the requirement that hypodermic needles and syringes only be sold with a prescription in pharmacies in this Commonwealth would not lead to increased drug use. To this end, the Board proposes amending the prescription requirement by permitting pharmacists to sell up to 30 hypodermic needles and syringes to persons 18 years of age or older without a prescription. Persons who use hypodermic needles and syringes for injecting medications may still obtain more than 30 by presenting a prescription. It is anticipated that many patients will continue to present a prescription to obtain prescription benefits in paying for hypodermic needles and syringes.

Description of Proposed Amendments

The proposed rulemaking would amend § 27.18(s)(2) to eliminate the requirement that a prescription be presented in all cases for a pharmacist to sell hypodermic needles and syringes to persons 18 years of age and older. Further, the proposed rulemaking would require that these needles and syringes be kept in the prescription area of the pharmacy. Section 27.1 (relating to definitions) defines "prescription area" as the area of the pharmacy used for compounding, legend drug storage and other activities necessary to the practice of pharmacy. The term does not include waiting counters or display space attached to the waiting counter. Hypodermic needles and syringes would have to be stored behind the counter and accessible only by pharmacists and pharmacy personnel authorized to be behind the counter while the pharmacy is open. Anyone under 18 years of age would still need to present a prescription to purchase hypodermic needles and syringes in a pharmacy.

The proposed amendment would also delete § 27.18(s)(1), which requires pharmacists to report to the Board the sale of accessories found in illegal traffic when sold in unusually large quantities; as well as the language that deems it unprofessional conduct to sell, give away or otherwise dispose of accessories, chemicals or proprietary products when the pharmacist knows or has reason to know of their intended use for illegal purposes. The Board proposes to remove this language because it has not served as the basis for disciplinary action in the recent history of the Board, nor has the Board received a report as currently required by this section. The reporting requirement is unenforceable and counterintuitive to the goal of the proposed rulemaking. The language that deems it unprofessional conduct to sell, give away or otherwise dispose of accessories, chemicals or proprietary products when the pharmacist knows or has reason to know of their intended use for illegal purposes is also counterintuitive to the goal of the proposed rulemaking. Furthermore, it is duplicative in that § 27.18(u) provides that a violation of The Controlled Substance, Drug, Device and Cosmetic Act (35 P. S. §§ 780-101—780-143) or the rules and regulations promulgated thereunder constitutes a violation of the Board's regulations and the act.

The Department of Health recommended that the Board also require pharmacies to distribute information on safe needle disposal. The Board declined to include this in the proposed rulemaking, but will work with the Department of Health to alert pharmacies of available literature and safe needle disposal practices.

Fiscal Impact

The proposed rulemaking will have no fiscal impact on the Board or the regulated community.

Paperwork Requirements

The proposed rulemaking will impose no paperwork requirements on the Board or the regulated community.

Sunset Date

The Board monitors its regulations on an ongoing basis. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 15, 2007, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, recommendations or objections regarding this proposed rulemaking to Melanie Zimmerman, Executive Secretary, State Board of Pharmacy, P. O. Box 2649, Harrisburg, PA 17105-2649, within 30 days following publication of this proposed rulemaking in the *Pennsylvania Bulletin*.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of September 2007

The Department of Banking (Department), under the authority contained in Section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of September 2007 is 7 1/2%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which such individual owns and which

such individual occupies or has occupied as his principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 5.10 to which was added 2.50 percentage points for a total of 7.60 that by law is rounded off to the nearest quarter at 7 1/2%.

Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior to the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984. Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

The fugitive PM emissions from the tubgrinder are controlled by a water spray dust suppression system. The fugitive PM emissions from the use of facility roadways are controlled by a water truck and a truck wash station.

The facility has the potential to emit up to 210.3 tons of PM, 52.4 tons of PM10, 154.0 tons of CO, 47.6 tons of NOx, 20.4 tons of SOx, 14.1 tons of VOC and 10.3 tons of HAPs per year.

The Department of Environmental Protection (Department) proposes to renew Title V Operating Permit 18-00009. The Department intends to incorporate into this renewal all conditions currently contained in Title V Operating Permit 18-00009 with these exceptions, changes and additions:

1. The conditions of Plan Approval 18-00009C, issued on October 13, 2005, to allow the average daily waste volume the landfill is permitted to receive to increase from 725 tons per day to 1,200 tons per day, have been incorporated into the permit.

5. A condition requiring malfunctions to be reported to the Department has been modified to exclude the reporting of malfunctions which do not result in, or potentially result in, air contaminant emissions in excess of an applicable air contaminant emission limitation and/or do not result in, or potentially result in, noncompliance with any operating permit condition.

6. Three small gasoline-fired portable generators have been added to the permit along with conditions specifying the applicable 25 Pa. Code § 123.13 PM and 25 Pa. Code § 123.21 SOx emission limits as well as restricting the fuel used in the respective generators to gasoline.

7. A condition has been added to the permit which requires the performance of stack testing on the landfill gas flare by no later than June 1, 2008, and every 4 years thereafter, to determine the nonmethane organic compound, NOx and CO emission rates as well as the nonmethane organic compound destruction efficiency in the flare.

8. A condition requiring the maintenance of records of "supporting calculations used to verify compliance with the NOx, CO, SOx and PM emissions limitations" for the landfill gas flare has been removed from the permit as it has been determined by the Department that compliance with the applicable limits cannot be verified by means of a "calculation."

9. A portable trommel screen and associated diesel engine have been added to the permit along with conditions specifying the applicable 25 Pa. Code § 123.13 PM and 25 Pa. Code § 123.21 SOx emission limits for the engine, restricting the operation of the trommel screen and engine to 1,300 hours in any 12-consecutive month period and requiring the maintenance of records of the number of hours the trommel screen and engine are operated each month.

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

To construct, operate and maintain 24,000 feet of 8-inch gravity and 15,000 feet of 4-inch force main sanitary sewer line within the Susquehanna River watershed (WWF) for the treatment of municipal wastewater. Construction of the sanitary sewer lines will require stream and wetland crossings as follows:

<i>Crossing</i>	<i>Stream</i>	<i>Impact</i>	<i>Longitude</i>	<i>Latitude</i>

All sewer line crossings shall be constructed with a minimum of 3-feet of cover with concrete encasement beneath the waterways. Trench plugs or clay dikes shall be used at every sewer line crossing a waterway to ensure the hydrology of the stream is not altered. Construction of the treatment plant will require the placement of fill in the floodway of South Creek (WWF). The project will temporarily impact 140 linear feet of wetlands while impacting 240-feet of waterway. The project is located along the eastern and western right-of-way of SR 0014 from the Borough of Gillett to the Borough of Fassett.

E17-410A1. Muddy Run Regional Authority, P. O. Box 474, Madera, PA 16661-0474. Muddy Run Regional Authority Wastewater Treatment Facility and Collection System, Beccaria, Bigler, Gulich Townships and Ramey Borough, **Clearfield County**, ACOE Baltimore District (Ramey, PA Quadrangle N: 15.25 inches; W: 9.20 inches).

The initial E17-410 permit authorized the applicant to construct, operate and maintain 250,000 linear feet of wastewater collection and conveyance lines within a 30-foot right-of-way for the treatment of municipal wastewater. Construction of the wastewater collection and

conveyance system resulted in 78 stream and 28 wetland crossings. This amendment requests additional authorization for the following: (1) Four hundred and forty-five square feet (0.01 acre) of permanent PEM wetland impact due to the placement of fill in the floodway of Muddy Run for the construction of a pump station; and (2) Six feet of temporary impact due to an additional utility crossing of a UNT to Muddy Run, which has a stream classification of CWF. This amendment proposes to compensate for the proposed wetland impacts through the creation of 0.71-acres of wetlands at State Game Lands No. 60.

E17-436. Emigh Run—Lakeside Watershed Association, P. O. Box 204, Morrisdale, PA 16858. Emigh Run No. 13 Acid Mine Drainage Treatment Project in Morris Township, **Clearfield County**, ACOE Baltimore District (Wallaceton, PA Quadrangle Latitude: 40° 56' 58.81"; Longitude: 78° 15' 57.09").

The applicant proposed to construct, operate and maintain a passive acid mine drainage treatment system requiring a rock outfall along Emigh Run (CWF), minor road crossing Emigh Run, fill in wetland associated to Emigh Run and rock outfall along a UNT (CWF) to

Emigh Run for the abatement of acid mine drainage pollution. As proposed, the project permanently impacts 0.06 acre of wetland and 50 feet of stream channel that is located along the southern right-of-way of SR 2033 approximately 2.3 stream miles upstream of the Emigh Run Reservoir. The Emigh Run No. 13 Acid Mine Drainage Treatment Project permanently impacts 0.06 acre of wetland, for which the permittee has agreed to construct 0.06 acre of onsite replacement wetland to mitigate the impact. Construction of the 0.06-acre replacement wetland shall commence prior to or be concurrent with the construction activities authorized by this permit.

PUBLIC WATER SUPPLY (PWS) PERMITS

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Draft Technical Guidance—Substantive Revision

DEP ID: 562-2112-503. Title: Bituminous Coal Surface Mining Near Underground Utility Lines and Blasting Near Underground Utility Lines on All Mining and Construction Sites. Description: This guidance document, formerly titled "Coal Surface Mining and Blasting Near Underground Utility Lines and Pipelines," establishes procedures mine operators should follow when conducting mining and blasting activities near underground utility lines. The procedures identified in the guidance serve to not only ensure the integrity of underground utility lines, but to also protect the safety of workers and the interests of utility line owners. Substantive changes were recently made to the guidance to further enhance the procedures for limiting the effects blasting may have on underground utility lines. These revisions result in a guidance document that more clearly follows the regulatory requirements for blasting activities. The document also includes guidance on the regulation of blasting near underground utility lines in anthracite coal mining, noncoal mining and on construction sites. Written Comments: The Department is seeking comments on the substantive revisions to draft technical guidance #562-2112-503. Interested persons may submit written comments on this draft technical guidance document by September 24, 2007. Comments submitted by facsimile will not be accepted. The Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Richard Lamkie, Department of Environmental Protection, Bureau of Mining and Reclamation, Rachel Carson State Office Building, P. O. Box 8461, Harrisburg, PA 17105-8461; rlamkie@state.pa.us. Contact: Questions regarding the draft technical guidance document should be directed to Richard Lamkie at (717) 787-5103, rlamkie@state.pa.us. Effective Date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Notice To Rescind Technical Guidance

DEP ID: 700-5600-001. Title: Guidance for Pollution Prevention and Energy Efficiency Site Assessments. Description: This guidance document was formerly issued by the Department to identify the policy and procedures for

which it would conduct pollution prevention and energy efficiency site assessments. Since the guidance document was finalized, the Department has determined that there is insufficient need to maintain the protocol in the guidance document, as it does not reflect current program goals and priorities of the Department and is therefore outdated and invalid. Contact: Questions concerning the rescission of technical guidance document #700-5600-001 should be directed to Richard Illig, Department of Environmental Protection, Office of Energy and Technology Deployment, Rachel Carson State Office Building, 15th Floor, P. O. Box 8772, Harrisburg, PA 17105-8772, (717) 772-5834, rillig@state.pa.us. Effective Date: August 25, 2007.

INDEPENDENT REGULATORY REVIEW COMMISSION

Notice of Comments Issued

Section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)) provides that the Independent Regulatory Review Commission (Commission) may issue comments within 30 days of the close of the public comment period. The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulation. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

<i>Reg. No.</i>	<i>Agency/Title</i>	<i>Close of the Public Comment Period</i>	<i>IRRC Comments Issued</i>
125-64	Pennsylvania Gaming Control Board Manufacturer Designees; Principal Licenses; Employees; Vendor Certification and Registration; Slot Machine Licenses 37 Pa.B. 2695 (June 16, 2007)	7/16/07	8/15/06

Pennsylvania Gaming Control Board Regulation #125-64 (IRRC #2614)

Manufacturer Designees; Principal Licenses; Employees; Vendor Certification and Registration; Slot Machine Licenses

August 15, 2007

We submit for your consideration the following comments on the proposed rulemaking published in the June 16, 2007 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Pennsylvania Gaming Control Board (Board) to respond to all comments received from us or any other source.

Chapter 429a. Manufacturer Designees

1. General.—Reasonableness; Clarity.

The term “manufacturer designee” is the subject of this Chapter, but it is not defined. This term should be defined in the final-form regulation.

Also, the regulation requires manufacturer designees to submit applications to the Board, but provides no guidance on how soon the Board will act on the application or what recourse the applicant has if the application is denied. We recommend that those details be included in the final-form regulation.

2. Section 429a.6. Manufacturer designee as agent.—Statutory authority.

Under Subsection (b), a licensed manufacturer “shall be jointly and severally liable for any act or omission by the

licensed manufacturer designee in violation of the act or this part, regardless of actual knowledge by the licensed manufacturer of the act or omission." What is the Board's statutory authority for this provision?

Chapter 433a. Principal Licenses

3. Section 433a.1. Definitions.—Consistency with statute; Clarity.

Applicant

This definition differs from the definition found in Section 1103 the Pennsylvania Race Horse Development and Gaming Act (Act) (4 Pa.C.S. § 1103). It also differs from the definition found in Section 401.4 of the Board's regulations. A consistent definition should be used. A similar concern is found in Section 441a.1.

Holding company

This definition references at least 20% of the power or right to control or vote outstanding voting securities of a corporation or other entity. The definition in the Act only references "any significant part." What is the basis for the 20%?

Principal

Since this term is used throughout this chapter, we recommend that it be defined.

4. Section 433a.3. Individual ownership.—Need; Reasonableness.

Subsection (g) states, "The Board may require any individual who has a financial interest in, or receives an economic benefit from, an applicant or licensee to be licensed as a principal." Why is it necessary to require these individuals to be licensed as a principal? A similar question applies to Sections 433a.4(h) and 433a.6(d).

5. Section 433a.7. Trusts.—Clarity.

The term "similar business entity" is used in this section, but it is not defined. We recommend that it be defined in Section 433a.1 (relating to Definitions).

Chapter 435a. Employees

6. General.—Reasonableness; Clarity.

Sections 435a.2 (relating to Key employee license), 435a.3 (relating to Occupation permit) and 435a.5 (relating to Nongaming employee registration) outline the requirements for obtaining licenses, permits and registrations. These sections and this chapter do not provide detail on how long the Board has to review the applications, how the applicant will be notified of the Board's decision and how the applicant can appeal the Board's decision. These details should be included in the final-form regulation.

7. Section 435a.1. General provisions.—Statutory authority; Reasonableness; Clarity.

Under Subsection (k), what is the Board's statutory authority for requiring applicants for licenses or permits to demonstrate that they are current on any financial obligation owed to the Commonwealth or any subdivision thereof, including court-ordered child support payments? Additionally, if the Board has the statutory authority, the regulation should specify what documentation must be submitted to the Board to demonstrate compliance with this provision.

8. Section 435a.6. Board credentials.—Reasonableness; Clarity.

This section requires certain individuals to obtain Board credentials. The final-form regulation should include the process for obtaining Board credentials.

Chapter 437a. Vendor Certification and Registration

9. Section 437a.1. General vendor requirements.—Reasonableness; Clarity.

Subsection (b) explains when a vendor will be required to apply for certification. Subsection (b)(4) states that vendor certification will be required "based on the Board's analysis of the vendor's services." This criterion is vague. The final-form regulation should include the criteria the Board will use to determine if certification is needed.

10. Section 437a.2. Vendor registration applications.—Statutory authority.

Subsection (c) requires an applicant for a vendor registration to reimburse the costs incurred by the Board in conducting the review of the application *up to a maximum amount of \$2,000*. Section 1208(1)(iii) of the Act requires the Board to recoup *all* expenses relating to investigations. What is the Board's statutory authority for imposing the cap of \$2,000? Further, does an applicant for a vendor registration fall within the definition of an "applicant, licensee, permittee or registrant" as referenced in Section 1208(1)(iii) of the Act? Additionally, the term "vender" in Subsection (a) should be amended to use the proper term "vendor."

11. Section 437a.11. Slot machine applicants' and licensees' duty to investigate.—Need; Reasonableness; Clarity.

Subsection (a) requires slot machine licensees and applicants to investigate the background and qualifications of potential vendors. It states that "Certification or registrations by the Board may not be relied upon as the sole criterion for entering into an agreement with a certified or registered vendor." We question the reasonableness of and need for this provision. If the Board finds a vendor to be suitable for registration or certification after its extensive investigation, that should be sufficient to allow a licensee or applicant to conduct business with the vendor. We recommend that this provision be deleted.

If the Board elects to retain this provision, we recommend that the final-form regulation specifically include the other criteria that an applicant or licensee must use when deciding to enter into an agreement with a certified or registered vendor.

Chapter 441a. Slot Machine Licensing

12. Section 441a.1. Definitions.—Consistency with statute and existing regulations.

Under the definition of "guest rooms under common ownership," do time share units equal common ownership? How is this provision consistent with the Section 1305 of the Act, which requires Category 3 licensed facilities to be in a "well-established" resort hotel having no fewer than 275 guest rooms under common ownership?

13. Section 441a.7. Licensing hearings for slot machine licenses.—Clarity.

Subsection (b) references prehearing conferences, but the regulation does not provide any detail on when or how those conferences are conducted. The final-form regulation should include, or provide a cross-reference to, this information.

Subsection (u) states that a final order and written decision will be served on the applicants for slot machine licenses. After the conclusion of the licensing hearings, within what time frame will the Board issue the final order?

14. Section 441a.16. Slot machine license term and renewal.—Consistency with statute; Fiscal impact; Reasonableness; Clarity.

Under this section, slot machine licenses will be valid for 1 year, and renewal applications must be submitted to the Board at least 60 days prior to the expiration of the license. Commentators note that this section does not provide details on the renewal requirements and are concerned that the lack of specificity could result in an unreasonable, burdensome and expensive renewal process.

We agree that this section is vague and recommend that the final-form regulation include the application requirements for license renewal.

15. Section 441a.20. Slot machine license agreements.—Reasonableness; Clarity.

Subsection (a) requires agreements or noncontractual relationships between a person and a slot machine licensee to receive Board approval. The process that the Board will use to approve these agreements and relationships is not included in the regulations. This information, including timelines for review, should be included in the final-form regulation.

16. Section 441a.21. Management contracts.—Statutory authority.

Under section, a slot machine licensee “shall be jointly and severally liable for any act or omission by the management company in violation of the act or this part, regardless of actual knowledge by the slot machine licensee of the act or omission.” What is the Board’s statutory authority for this provision?

17. Section 441a.23. Category 3 slot machine licenses.—Statutory authority; Clarity.

Under Subsection (a), amenities offered by a resort hotel must be on the premises of that hotel. Would a satellite location or property owned by the hotel qualify as “premises?” This should be clarified in the final-form regulation.

Subsection (d) allows a patron of the amenities at a Category 3 slot machine licensee’s facility unlimited access to the gaming floor for one 24-hour period within 72 hours of use of the amenity. What is the Board’s statutory authority for this provision?

18. Miscellaneous Clarity.

Under Section 437a.1.(c)(4), the term “associates” should be changed to “associations.”
