PROF FRANKINO TO BE CREIGHTON DEAN

by MARY ROSE CUNNINGHAM

"I like challenges and Creighton is a challenge," Professor Steven P. Frankino expressed his thoughts about his appointment to the position of dean of the Creighton University School of Law, in Omaha, Nebraska. The appointment was received with both sadness and immense pride by the Law School Community.

Professor Frankino, who came to Villanova in 1966 as an associate professor of law, has had a very distinguished career. A native of Butte, Montana, he attended Catholic University of America, graduating in 1969 with a B.A. in Philosophy, and receiving an award for outstanding scholarship and service. He then attended Catholic University School of Law as a Fulbright Scholar. Before graduating in 1962 he served as Editor of The Catholic University Law Review; Chairman of the Moot Court; and Editor of the Law School Newspaper. While at law school he worked for the firms of Arnold, Fortas, and Porter. In 1960 he completed graduate work in International Business Transactions at the Northwestern University School of Law. In 1966-71, he was a doctoral resident in Conflict of Laws, International Law, and Business Transactions at the University of Florence, Italy.

At Villanova, professor Frankino has distinguished himself as an outstanding member of the faculty in his teaching of courses such as: Conflict of Laws, International Law, International Business Transactions, Torts, Securities Regulation, and seminars in both Comparative Law and Law in the Atlantic Community. Along with his teaching duties, professor Frankino has served as Law Review Advisor, Chairman of the Admissions Policy Committee, and a member of the following committees: Curriculum, Admission, and Faculty Recruitment.

I. The Seniors

We are nearing the end of another academic year. As this appears, the Senior Class begins final examinations. Commencement Day is Wednesday, May 19th. The Commencement speaker is Professor John Ryan. Scran¬ton of the Commonwealth, who, you know, has been much concerned with the problem of student attitudes and behavior on our campuses.

This year "Class Day" will be observed at Garey Hall on the morning of Commencement Day. We expect that the Seniors, their families and friends will gather in the auditorium at 10:00 A.M. where awards and academic prizes will be conferred. At that time, we pause to recall all those seniors who, without the services of Professor Shralow, who entered the Bond Project has drawn widespread commendation. Professor Shralow, who, as clerk to Judge John P. Fullam and Professor Walsh came from practice with McCutchen, Black, Verleger and Shea in Los Angeles. The past year also witnessed the appointment of Professor Craig, who, restored to good health after illness during the Summer of 1970, will serve as judicial clerks, others enter metropolitan practice in the large city firms, still others will practice with smaller firms, a few will seek happiness as "countryside lawyers". The government service will claim a few, a few will enter the military. We are proud of each and every one of them and expect nothing but pleasure and satisfaction as we follow their careers and note the distinction they will add to the name of Villanova.

II. The Year in Retrospect

On the whole, this has been a most rewarding year. All in all, it's been a good year. Thank you.

On the whole, this has been a most rewarding year.

The Board of Editors of Volume 16 has announced the masthead for Volume 17: Editor-in-chief, Frank R. Walsh, Esquire; Assistant Editor, John R. McNamee; Editor, John B. S. Sanderson; Articles and Book Review Editors, Walter R. Flann; Jr., Projects Editor, Richard S. D. Wexman, Research Editors, Baldo M. Bertozzi, Esquire, James M. L. Erkan, and William A. Jones. The Docket has maintained its policy of publishing interviews with prominent jurists, who make the organized life of the School of Law both effective and pleasant, my gratitude.

The Villanova Law School has announced its officers for 1971-72. They are: Edward J. Cullen, Chairman of the First Year Program; and Robert K. Walsh, Chairman of the Reimel Competition.

The Villanova Law School Bail Project has received the Certificate of Philadelphia's 1971 Certificate of Appreciation. The award is given in recognition of outstanding and valuable contributions to the Volunteer Program of Philadelphia.

The most Court has announced its officers for 1971-72. They are: Edward J. Cullen, Chairman of the First Year Program; and Robert K. Walsh, Chairman of the Reimel Competition.

Larry Fox, a first year student, has been elected to represent the Law School as a University Senator.

Former Deputy City Solicitor has been elected to serve as a member of the Board of Trustees for the city of Philadelphia. A. Mesirov, speaking to a colloquium was sponsored by Professor William Valente. The colloquium was sponsored by Professor William Valente. This year "Class Day" will be observed at Garey Hall on the morning of Commencement Day. Professor Valente

By JOE VANN

Professor William D. Valente addressed the Annual Convention of the American Federation of School Administrators in the General Session on February 23, 1971, in Atlantic City, New Jersey. In continuing the affirmative position in the convention debate that public monies should be made available to assist church related elementary and secondary schools, Valente placed primary emphasis on the facts and contemporary American Experience. He declared that, "We need a public policy on Educational assistance that will support the diverse Social, Cultural, and Educational pluralisms; one that will accommodate, at least to a tolerable degree, the basic needs and values of every major citizen group."

The essential policy question in this entire debate is whether the purpose of the proposed aid is to save schools or to save children? Are citizen benefits to be based upon the institution which operates the school, or upon the individual without penalizing them for exercising their right to choose a school? The answer is that all children are free to go to state schools in a poor cover for the failure to provide a quality education. We share civic benefits, come our way; understand that the taxpayer is twice for the privilege to the non-affluent this stance makes no sense.

The only case for aid to diverse private education recognizes an important by-product of non-public education of providing a diversity of experience, experimentation and innovation which public schools need to learn from. This educational value of non-public schools is not provided by the non-public schools, so often acknowledged to support church related higher education, merits equal consideration as part of the elementary and secondary levels.

Proliferation controls against a system of public aid to assist church related elementary and secondary schools as a defense against the "field house" and "enormous advantage" to non-public schools in maintaining a quality education at the elementary and secondary levels.

Even more difficult than the racial blind, of course, is that of religious education. Is it proper to provide a diversity of religious education, to many, the椹he have no place in a system of public aid to its secular educational function? Have we not seen that if we want religious education in the public schools, we must ask the old answer—do we, and do we not expect anyone else to pay for the教堂s, the same as for any of our taxes for the secular part of the public schools? Then, how can we expect the public schools to satisfy an expensive educational attendance laws?

Professor Valente finds this principle not mirrored, nor supported by facts. Non-public educators, he observes, do not make a difference to public schools. The great disparity between per-pupil operating costs of public and non-public schools, a dollar spent to enable a private church related school to educate a student would on the average require seven dollars to amount to education. To allow the present fiscal crisis to continue in these non-public schools is to accept unplanned de facto absorption over an very long period of time and at under danger to all education, while a modest amount of aid to church related schools could well generate a modest amount of aid to church related education, viable. "Who can say that aid to non-public education will cause injury to public education?"
