READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Temporary Amendment of the Water Quality Regulations, Water Code and Comprehensive Plan to Designate the Lower Delaware River a Special Protection Water

Summary

At its public meeting on January 19, 2005, the Commission temporarily amended the Commission's *Water Quality Regulations, Water Code and Comprehensive Plan* by classifying the Lower Delaware River—the reach between River Mile 209.5, which is the downstream boundary of the Delaware Water Gap National Recreation Area, and River Mile 133.4, which is the head of tide at Trenton, NJ—as Significant Resource Waters. The effect of this action was to make the Lower Delaware River subject to all provisions of the Commission's Special Protection Waters regulations except those that depend for implementation upon the use of numeric values for existing water quality.

Dates

This rule is effective immediately, and unless extended by amendment, it shall expire on September 30, 2005. An accompanying notice in today's *Pennsylvania Bulletin* proposes to extend the rule through September 30, 2006, pending a separate notice and comment rulemaking to permanently classify the Lower Delaware. See 35 Pa.B. 5013 (September 10, 2005).

Supplementary Information

On September 22, 2004, the Delaware River Basin Commission published on its website a Notice of Proposed Rulemaking to amend the *Water Quality Regulations, Water Code and Comprehensive Plan* to designate the Lower Delaware River a Special Protection Water. Notice was published in the *Federal Register* on September 23, 2004 (69 FR 57008), the *Delaware Register of Regulations* on October 1, 2004, the *New Jersey Register* on October 4, 2004, the *Pennsylvania Bulletin* on October 9, 2004, and the *New York Register* on October 20, 2004. A public hearing was held on October 27, 2004, and the public was invited to comment, either in person at the hearing or in writing through November 30, 2004. During the comment period, the Commission received approximately 250 letters from business, industry, individuals, municipalities and elected officials, including some opposed to designation. It also received between 1,100 and 1,200 letters and petitions in favor of designation. The Commission modified its proposed rule in part based upon comments received on the proposed action and in part based upon the need for additional analysis before all provisions of the Special Protection Waters regulations could be put into effect in the Lower Delaware.

In enacting the amendment, the Commission found on the basis of a series of studies, prior findings, plans and a federal designation, that the Lower Delaware River is characterized by exceptionally high scenic, recreational, and ecological values and water supply uses that require special protection. Before deciding whether or not to

classify certain sections of the Lower Delaware River as Outstanding Basin Waters, as originally proposed, and whether to make the temporary Special Protection Waters designation permanent for some or all of the Lower Delaware River, the Commission wishes to establish numeric values for existing water quality based upon analysis of a 5-year (2000-2004) data set, for which the final year of data only became available late in 2004. The Commission recognized that the process of developing numeric values based upon 5 years of data and subjecting them to public review and comment could take many months. It decided to provide temporary classification in order to protect the exceptional value of the Lower Delaware from degradation during that period. The proposed values for existing water quality in the Lower Delaware River based on the 5-year data set have been compiled and will be the subject of a separate notice and comment rulemaking by the Commission.

Further Information, Contacts:

The complete text of Resolution No. 2005-2, temporarily amending the *Water Quality Regulations, Water Code, and Comprehensive Plan* by designating the Lower Delaware River a Special Protection Water, is available on the Commission's website at www.drbc.net or upon request from the Delaware River Basin Commission, P. O. Box 7360, West Trenton, NJ 08628-0360. For further information, contact Pamela M. Bush, Commission Secretary and Assistant General Counsel, Delaware River Basin Commission, at (609) 883-9500, Ext. 203.

The final-form rulemaking temporarily amends Article 3, Section 3.10.3.A.2.g.2), listing stream reaches classified as Significant Resource Waters, by the addition of the following subsections 3.10.3.A.2.g.2).(b); 3.10.3.A.2.g.6).; and 3.10.3.A.2.g.7).

(b) The Lower Delaware River between River Miles 209.5 (the downstream boundary of the Delaware Water Gap National Recreation Area) and 133.4 (the Head of Tide at Trenton, NJ);

* * *

6) For the stream reaches listed in Section 3.10.3.A.2.g.2).(b), all provisions of Section 3.10.3.A.2 shall be in effect except those listed below:

- The requirement at Section 3.10.3.A.2.b.2). that “[p]oint and non-point sources from outside the boundaries of stream reaches classified as Significant Resource Waters shall be treated as required and then dispersed in the receiving water so that no measurable change occurs at Boundary and Interstate Special Protection Waters Control Points.”

- The requirement of Section 3.10.3.A.2.b., read in combination with Section 3.10.3A.2.d.6), that new and expanding wastewater treatment projects discharging to Special Protection Waters may be subject to additional treatment requirements, above and beyond the effluent criteria defining Best Demonstrable Technology, as necessary to ensure no measurable change in existing water quality in Special Protection Waters.

- The requirement at Section 3.10.3A.2.f. that state environmental agencies “shall assure to the extent possible, that existing water quality in Special Protection Waters is not measurably changed by pollution discharged into the intrastate tributary watersheds within their jurisdiction.”

Sections 3.10.3.A.2.g.2).(b) and 3.10.3.A.2.g.6). shall expire on September 30, 2005, unless extended by amendment to this rule.

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 53 AND 63]

General Provisions; Fishing

The Fish and Boat Commission (Commission) has amended Chapters 53 and 63 (relating to Fish and Boat Commission property; and general fishing regulations). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The final-form rulemaking relates to eliminating the requirement that tournaments, as a condition for culling, establish a daily limit of one fish less than the Statewide creel limit.

A. Effective Date

The final-form rulemaking will go into effect upon publication in the *Pennsylvania Bulletin*, not on January 1, 2006, as set forth in the notice of proposed rulemaking.

B. Contact Person

For further information on the final-form rulemaking, contact Laurie E. Shepler, Chief Counsel, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7815. This final-form rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. Statutory Authority

The amendments to §§ 53.24 and 63.40 (relating to tournament and fishing derby permits; and fishing tournaments and fishing derbies) are published under the statutory authority of sections 322 and 2102 of the code (relating to rules and regulations).

D. Purpose and Background

The final-form rulemaking is designed to improve and update the Commission's regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. Summary of Changes

As an outgrowth of recent discussions with tournament anglers and sponsors, there was interest in amending the

Commission's current regulations dealing with culling. Accordingly, the Commission has eliminated the requirement that tournament rules establish a daily limit of at least one fish less than the Statewide creel limit. This amendment will not have a negative fisheries impact, and the Commission's Bureau of Law Enforcement does not anticipate any problems. The Commission amended §§ 53.24 and 63.40 to read as set forth in the notice of proposed rulemaking.

As part of the proposed rulemaking package, the Commission also proposed amendments to §§ 51.32, 51.33, 51.35, 63.20 and 65.13. The Commission has not yet considered these proposed amendments on final-form rulemaking.

F. Paperwork

The final-form rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no new costs on the private sector or the general public.

H. Public Involvement

Notice of proposed rulemaking was published at 35 Pa.B. 3419 (June 18, 2005). The Commission did not receive any public comments regarding the proposed amendments to §§ 53.24 and 63.40.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and no comments were received.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 53 and 63, are amended by amending §§ 53.24 and 63.40 to read as set forth at 35 Pa.B. 3419.

(*Editor's Note:* The proposal to amend §§ 51.32, 51.33, 51.35, 63.20 and 65.13, included in the proposal at 35 Pa.B. 3419, has been postponed by the Commission.)

(b) The Executive Director will submit this order and 35 Pa.B. 3419 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 35 Pa.B. 3419 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

FISH AND BOAT COMMISSION
[58 PA. CODE CHS. 61, 65 AND 69]
Fishing

The Fish and Boat Commission (Commission) amends Chapters 61, 65 and 69 (relating to seasons, sizes and creel limits; special fishing regulations; and fishing in Lake Erie and boundary lakes). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The final-form rulemaking relates to the seasons, sizes and creel limits for various species in the Delaware River and River Estuary, the West Branch of the Delaware River in Wayne County and the Conowingo Reservoir. The final-form rulemaking also reduces the size limit and increases the number of walleye that may be taken from Lake Erie and its tributaries.

A. Effective Date

The final-form rulemaking will go into effect on January 1, 2006.

B. Contact Person

For further information on the final-form rulemaking, contact Laurie E. Shepler, Chief Counsel, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This final-form rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. Statutory Authority

The amendments to §§ 61.2, 61.4 and 69.12 (relating to Delaware River and Estuary; Conowingo Reservoir; and seasons sizes and creels limits—Lake Erie and Lake Erie tributaries) are published under the statutory authority of section 2102 of the code (relating to rules and regulations). The amendment to § 65.24 (relating to miscellaneous special regulations) is published under the statutory authority of section 2307 of the code (related to waters limited to specific purposes). The amendment to § 69.33 (relating to use of trap nets) is published under the statutory authority of section 2903 of the code (relating to boats and net licenses for boundary lakes).

D. Purpose and Background

The final-form rulemaking is designed to update, modify and improve the Commission's fishing regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. Summary of Changes

(1) *Section 61.2.* Three jurisdictions, New York, New Jersey and the Commonwealth, work in a cooperative fashion in setting regulations for the Delaware River and the West Branch because both are border waters. Differences in the rulemaking processes, license years and fisheries within different reaches may result in regula-

tions being out of synchrony for a year or so. However, the jurisdictions coordinate and attempt to provide consistency for the anglers.

Northern Pike. In the past few years, the Commission has become aware of occasional catches of northern pike from the Delaware River, which most likely originate from a few naturalized populations occurring in the drainage. Currently, regulations on northern pike do not exist. While it is not the Commission's intent to foster increases in this esocid in the river, it is likely that a low density northern pike population will persist. The Commission has adopted a 24-inch minimum length limit, a two fish daily creel limit and a year-round season to provide consistency with New Jersey's regulations. For simplification, the Commission has adopted a river wide approach even though pike have not been reported in the West Branch and the upper main stem to any great extent.

Trout. New York is seeking a 15-day extension to the trout season as part of refining trout regulations statewide. Currently, the season on the main stem and the West Branch closes at midnight September 30 when a catch-and-release artificial-lures-only begins on the West Branch. The Commission has extended the regular season 15 days on both waterways. This will provide additional angling opportunity with harvest of one trout per day upstream of I-84, five per day downstream of I-84 and two per day on the West Branch.

Black Bass (largemouth and smallmouth). Currently a year-round season with a 12-inch minimum length limit and five bass per day creel limit applies to the Delaware River and Estuary. Regulation changes recently adopted and effective January 2005 by New Jersey for the Delaware River are more conservative with respect to harvest during the black bass spawning period. The Commission has adopted amendments regarding the New Jersey/Pennsylvania portion of the river (downstream of I-84) that: (1) impose a catch-and-immediate release season that begins on the first Saturday after April 11 and extends through 12:01 a.m. the first Saturday after June 11; and (2) provide an opportunity for competitive anglers to have "paper" or catch-measure-immediate release tournaments during the catch-and-release season. This change will provide consistency with New Jersey's regulations.

Striped Bass. The upstream point of tidal influence at Trenton Falls is used as the boundary for separating freshwater and marine regulations. Use of a more readily identifiable descriptor would be easier for both anglers and law enforcement personnel. Accordingly, the Commission has adopted the Calhoun Street Bridge as a more recognizable limit. The extension is approximately 0.5 mile upstream.

The Commission has amended §§ 61.2 and 65.24 to read as set forth in the notice of proposed rulemaking.

(2) *Section 61.4.* By virtue of an agreement between the State of Maryland and the Commonwealth regarding shared jurisdictional waters, the Commonwealth will establish regulations for the Youghiogheny River Lake and Maryland will do the same for the Conowingo Reservoir. Maryland's fisheries staff recently notified the Commission that the Commonwealth's regulations for the Conowingo Reservoir are not current with Maryland's regulations. Thus, the Commission has amended its regulations pertaining to northern pike, striped bass and striped bass/white bass hybrids, sunfish, crappies, carp, channel catfish, suckers, eels, yellow perch and madtoms

so that they are consistent with Maryland's regulations. The Commission has amended § 61.4 to read as set forth in the notice of proposed rulemaking.

(3) *Sections 69.12 and 69.33.* Currently, an 18-inch minimum length and four per day creel limit are in effect for walleye taken from this Commonwealth waters of Lake Erie, Presque Isle Bay and peninsular waters. This regulation went into effect on January 1, 2004, and was designed to rebuild Lake Erie walleye populations. A relatively strong year class in 2001 was followed by a poor year class in 2002, and protection was needed to ensure that walleye numbers did not reach dangerously low levels.

In 2003, the largest year class of walleyes in 2 decades was produced and those fish will be 3 years of age and reaching average lengths of between 15 and 18 inches in 2006. This will result in a large number of walleyes that would not be harvestable under current regulations and would be subject to increased mortality due to culling. The purpose of the current regulations was to promote the rehabilitation of the walleye fishery. Based on the strength of the 2001 and 2003 year classes, and the sacrifices made by anglers in 2004 and 2005, that objective will have been met. Accordingly, the Commission has lowered the minimum size limit to 15 inches and has restored the creel limit to six per day. The Commission amended §§ 69.12 and 69.33 to read as set forth in the notice of proposed rulemaking. This action will allow Pennsylvania Lake Erie anglers to participate fully in the improving walleye fishery.

F. Paperwork

The final-form rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no new costs on the private sector or the general public.

H. Public Involvement

Notice of proposed rulemaking was published at 35 Pa.B. 2395 (April 23, 2005). The Commission did not receive any public comments regarding the proposed amendments to §§ 61.2, 61.4 and 65.24. Prior to the formal public comment period, the Commission received one public comment opposing the amendments to §§ 69.12 and 69.33. The Commission received one comment opposing these changes following the formal public comment period. Copies of all public comments were provided to the Commissioners.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the comments that were received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 61, 65 and 69, are amended by amending §§ 61.2, 61.4, 65.24, 69.12 and 69.33 to read as set forth at 35 Pa.B. 2395.

(b) The Executive Director will submit this order and 35 Pa.B. 2395 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 35 Pa.B. 2395 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect on January 1, 2006.

FISH AND BOAT COMMISSION [58 PA. CODE CHS. 63 AND 69] Fishing

The Fish and Boat Commission (Commission) amends Chapters 63 and 69 (relating to general fishing regulations; and fishing in Lake Erie and boundary lakes). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The final-form rulemaking clarifies the definition of "approved trout waters." The final-form rulemaking also eliminates the minimum size limit for recreationally caught yellow perch in Lake Erie and its tributaries during the April 1 through November 30 period and for commercially caught yellow perch and increases the recreational creel limit to 30.

A. Effective Date

The amendment to § 63.3 (relating to fishing in approved trout waters) will go into effect on January 1, 2006. The amendments to §§ 69.12 and 69.33 (relating to seasons, sizes and creel limits—Lake Erie and Lake Erie tributaries; and use of trap nets) will go into effect upon publication in the *Pennsylvania Bulletin* and not on January 1, 2006, as set forth in the notice of proposed rulemaking.

B. Contact Person

For further information on the final-form rulemaking, contact Laurie E. Shepler, Chief Counsel, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7815. This final-form rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. Statutory Authority

The amendments to §§ 63.3 and 69.12 are published under the statutory authority of section 2102 of the code (relating to rules and regulations). The amendments to § 69.33 are published under the statutory authority of section 2903 of the code (relating to boat and net licenses for boundary lakes).

D. Purpose and Background

The final-form rulemaking is designed to improve, enhance, clarify and update the Commission's fishing regulations. The specific purpose of the amendments is described in more detail under the summary of changes.

E. Summary of Changes

(1) *Section 63.3.* Prior to late 2002, the Commission's regulations defined the list of approved trout waters as the list contained in the "Summary Book." That definition did not allow the Commission much flexibility in adding and removing waters from the list. Accordingly, the Commission amended its regulations to define the term as "designated waters open to public fishing that are stocked with trout."

It recently has come to the staff's attention that the definition may be read in a manner that is not entirely consistent with the way that the Commission historically has designated waters as approved trout waters. Specifically, the Commission historically has designated entire waters or sections of waters as being approved trout waters even though they may contain parts that are closed to public fishing and therefore are not stocked with trout. These waters or sections, however, are primarily open to the public. To remove the portions that are closed to the public from the list of approved trout waters would create a complicated patchwork of waters that are approved trout waters and those that are not. It would create difficulty in enforcement and would cause confusion among anglers, which was not the intention of the regulatory definition of approved trout waters. To clarify that the definition of "approved trout waters" is consistent with the Commission's historical approach, the Commission amended § 63.3 to read as set forth in the notice of proposed rulemaking.

(2) *Sections 69.12 and 69.33.* Dramatic declines in Lake Erie yellow perch in Commonwealth waters during the 1990s required conservative harvest regulations for the fisheries. In 1996, the daily creel limit was reduced to 20 perch and an 8-inch minimum size limit was implemented to reduce exploitation and enhance spawning stock size. In 2002, the Commission amended its regulations to reduce the minimum size limit from 8 inches to 7 inches during the December 1 through March 31 period, while maintaining the 8-inch minimum size limit during the April 1 through November 30 period. An 8.5-inch minimum size limit is in effect for commercially caught yellow perch in this Commonwealth.

Other jurisdictions have implemented yellow perch conservation measures, but none continue to be as conservative as the Commonwealth. None of the jurisdictions have a recreational minimum size limit. Ohio has a creel limit of 30. Other jurisdictions have creel limits of 50.

By 2004, the Lake Erie perch had recovered to levels of abundance seen in the late 1980s with a 350% increase since the early 1990s. Even more dramatic, the 2004 population will more than double in 2005 due to the very large 2003 year-class. The 2004 boat angler survey estimated Commonwealth anglers harvested over 500,000 perch of the 750,000 perch that were caught. Thus, about 198,000 yellow perch were released because they were undersize. Catch and release mortality can be high because of hydraulic decompressing when there are large numbers of undersize yellow perch. With the very strong 2003 year class growing into the population as 3 year olds in 2006, losses could far exceed those seen in previous years.

The opportunity exists to reduce these losses and allow this Commonwealth's yellow perch anglers to benefit from the large yellow perch populations with an increase in harvest with large yellow perch populations. Appropriate regulatory changes include eliminating the minimum size limit for recreationally caught yellow perch during the April 1 through November 30 period and for commercially caught yellow perch and increasing the recreational creel limit to 30. These actions will reduce the release rate and any associated mortality. The commercial catch will continue to be controlled with a quota set at 30,000 pounds for this Commonwealth for 2005.

The yellow perch population is strong in Lake Erie and this Commonwealth's portion of Lake Erie. The Commission's evaluations suggest that the exceptional fishing should be sustained for several years. Beyond that, fishing quality would depend on yellow perch reproductive success in the coming years. The Commission will continue to be diligent in its assessment of Lake Erie fish stocks and increase the agency's agility in responding to changes in population status.

The Commission amended §§ 69.12 and 69.33 to read as set forth in the notice of proposed rulemaking.

F. Paperwork

The final-form rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no new costs on the private sector or the general public.

H. Public Involvement

A notice of proposed rulemaking was published at 35 Pa.B. 3421 (June 18, 2005). Prior to the formal public comment period, the Commission received one written public comment concerning the proposed amendment to § 63.3. The Commission received one written public comment during the formal public comment period. Both expressed concerns regarding the impact that the proposed rulemaking would have on private property rights and the related economic effects. The Commission also entertained oral comments at several public meetings. With regard to the proposed amendments to §§ 69.12 and 69.33, the Commission received two written public comments. One supported the proposal; the other opposed it. Copies of all public comments were provided to the Commissioners.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the comments that were received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapters 63 and 69, are amended by amending §§ 63.3, 69.12 and 69.33 to read as set forth at 35 Pa.B. 3421.

(b) The Executive Director will submit this order and 35 Pa.B. 3421 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 35 Pa.B. 3421 and deposit them with the Legislative Reference Bureau as required by law.

(d) The amendment to § 63.3 will go into effect on January 1, 2006. The amendments to §§ 69.12 and 69.33 will go into effect upon publication in the *Pennsylvania Bulletin*.

FISH AND BOAT COMMISSION
[58 PA. CODE CH. 75]
Fishing; Endangered Species

The Fish and Boat Commission (Commission) amends Chapter 75 (relating to endangered species). The Commission is publishing this final-form rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The final-form rulemaking adds the eastern spadefoot toad and eastern pearlshell to the list of endangered species, moves the rough green snake from the list of threatened species to the list of endangered species and updates the scientific names of certain listed species.

A. *Effective Date*

The final-form rulemaking will go into effect immediately upon publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information on the final-form rulemaking, contact Laurie E. Shepler, Chief Counsel, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7815. This final-form rulemaking is available on the Commission's website at www.fish.state.pa.us.

C. *Statutory Authority*

The amendments to §§ 75.1, 75.2 and 75.3 (relating to endangered species; threatened species; and candidate species) are published under the statutory authority of section 2305 of the code (relating to threatened and endangered species).

D. *Purpose and Background*

The final-form rulemaking is designed to update, modify and improve the Commission's regulations pertaining to endangered, threatened and candidate species. The specific purpose of the amendments is described in more detail under the summary of changes.

E. *Summary of Changes*

(1) Eastern Spadefoot Toad (*Scaphiopus holbrookii*). The eastern spadefoot toad is an inhabitant of sandy soils along the floodplains of streams and rivers and in temporary depressions in agricultural fields. Reproduction

occurs within one or two nights during and after heavy rain events, concentrated in vernal pools, rain-filled depressions in farm fields and along streams.

Two extant breeding populations of eastern spadefoot toads are currently reported in this Commonwealth in Northumberland and Berks Counties. Several years of herpetological inventory in this Commonwealth have failed to turn up additional records of the toads. Reports of occasional encounters in Franklin County remain unconfirmed. According to Hulse (2003), there were historical unvouchered reports of spadefoot toads in the Delaware Valley from Philadelphia to Monroe County, but these areas have since been heavily developed and industrialized.

The species ranges from southern New England to the Florida Keys and west to eastern Louisiana, but this Commonwealth forms a break between the New England populations and Maryland. The status of the spadefoot toad in the states surrounding this Commonwealth is as follows: it is listed as endangered in Ohio, considered a species of concern in New York, "declining" in New Jersey, rare in West Virginia, threatened in Massachusetts and endangered in Connecticut.

Given that spadefoot toads occur in floodplains and valleys, they are threatened by habitat destruction from residential and industrial development, as well as habitat alteration and changes in water chemistry from agricultural practices. The water in which they breed can be temporary pools, which are not necessarily delineated wetlands. Thus, wetland regulations cannot be relied upon to provide sufficient protection for this species.

The Pennsylvania Biological Survey (PABS) Amphibian and Reptile Technical Committee recommended the eastern spadefoot toad be listed as a State endangered species in 2002. Because there are only two known occurrences of this species in this Commonwealth and current survey efforts have failed to find additional occurrences, the Commission has added the eastern spadefoot toad to the Pennsylvania list of endangered species.

(2) Eastern Pearlshell (*Margaritifera margaritifera*). The eastern pearlshell is a freshwater mussel found in cold water trout streams and small rivers in softwater (acidic) conditions that have low levels of calcium. This is the only species of Pennsylvania mussel that is distributed beyond the North American continent. It occurs in the northeast from this Commonwealth north to Canada, as well as northern Europe.

Historically in the early 1900s, the eastern pearlshell occurred in several tributaries of the Little Schuylkill River, including Locust Creek, Panther Creek, Indian Run and Cold Run. However, impacts to water quality from coal mining in the Little Schuylkill drainage have eradicated the eastern pearlshell from all but Locust Creek, based on Statewide surveys from 1991 to 1995. While the population in Locust Creek is locally abundant, based on a 2003 survey, two dams on the creek restrict the pearlshell to 7 miles of stream with little likelihood of dispersal.

Two large eastern pearlshell mussels were collected in the Delaware River in recent years as part of extensive mussel surveys in the Upper Delaware. This species is documented to live over 100 years, and these specimens were determined to be extremely old. Based on the failure to find additional specimens during the ongoing collection efforts in the Upper Delaware or its tributaries, these specimens appear to represent a remnant population that is no longer reproducing.

The eastern pearlshell is listed as a species of concern in New York, Rhode Island and Connecticut, while it is threatened in Vermont. Additionally, the International Union for Conservation of Nature and Natural Resources has given it endangered status primarily due to threats to the European populations. Primary threats to the persistence of the eastern pearlshell are degradation of water quality, alteration of pH, eutrophication and temperature increases in the streams.

The PABS Bivalve Subcommittee of the Invertebrate Technical Committee recommended the eastern pearlshell be listed as a State endangered species in 2003. The restriction of a reproducing population of the eastern pearlshell mussel to only one small stream in this Commonwealth makes it very vulnerable to extirpation from activities that could adversely impact Locust Creek. Therefore, the Commission has added the eastern pearlshell to the Pennsylvania list of endangered species.

(3) Rough Green Snake (*Opheodrys aestivus*). The rough green snake is an arboreal species most often associated with wetland and riparian areas. The rough green snake is common in southern states from Texas to Florida, with this Commonwealth being the northern limit of its range. It has been known from only two isolated locations in this Commonwealth: Greene and Chester Counties. Thus, the Commission listed the rough green snake as a threatened species in 1979.

Several historic specimens or reports of this species are known from other counties. However, the only known locality of this species that has been confirmed as a reproducing population since 1939 is one in Chester County. The Greene County occurrence has not been seen since 1924 and is presumed extirpated. One additional sighting has been recorded from Lancaster County near the Maryland line, but the identification was not confirmed and no evidence of a population was documented. A Statewide Herpetological Atlas project failed to find any additional populations.

The rough green snake is a species of concern in Ohio and is rare in Delaware and West Virginia. This snake species is threatened primarily by habitat alteration from residential and industrial development.

The PABS Amphibian and Reptile Technical Committee recommended the rough green snake be listed as a state endangered species in 2002. Because there is only one known occurrence of this species in this Commonwealth and current survey efforts have failed to find additional occurrences, the Commission has moved the rough green snake from the list of Pennsylvania threatened species to the list of endangered species.

(4) *Updating Scientific Names*. The Commission has amended § 75.1 to change the name of *Clemmys muhlenbergii* (bog turtle) to *Glyptemys muhlenbergii*. Recent molecular data and genetic studies have resulted in a split in the genus *Clemmys*. Based on morphological data, Holman and Fritz (2001) split *Clemmys* as follows: *Clemmys guttata* was retained as the only member of the genus; *Clemmys insculpta* and *C. muhlenbergii* were placed in the genus *Glyptemys*. An independent analysis by Feldman and Parham (2002) supported this conclusion. Therefore, the species formerly named *Clemmys muhlenbergii* is now assigned to *Glyptemys muhlenbergii*. The name change has been adopted by NatureServe, an international biological conservation group that tracks rare and endangered species, as well as the Center for North American Herpetology (CNAH), the National herpetological group that tracks name changes.

The Commission also has amended § 75.3 to change the name of *Emydoidea blandingii* (Blandings Turtle) to *Emys blandingii*. Recent molecular and genetic studies (Feldman and Parham, 2002) have resulted in a rearrangement of several turtle groups, including the grouping of *Emydoidea blandingii* with *Emys orbicularis* in the genus *Emys*. The name change has been adopted by NatureServe and the CNAH.

The Commission further has amended § 75.1 to change the name of *Rana utricularia* (Coastal Plain Leopard Frog) to *Rana sphenoccephala*. Literature referring to this species from 1974 to 1992 used the old name *Rana utricularia* based on a morphological study by Pace (1974). However, in 1992 the International Commission on Zoological Nomenclature ruled that the name of this frog would return to *Rana sphenoccephala*, which it had been given in more recent references.

On final-form rulemaking, the Commission adopted all of the amendments as set forth in the notice of proposed rulemaking.

F. Paperwork

The final-form rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The final-form rulemaking will have no direct adverse fiscal impacts on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no new direct costs on the private sector or the general public. It is noted that the direct regulatory significance of designating a species as an endangered or threatened species is limited to prohibiting persons from taking, catching, killing or possessing these species in this Commonwealth. Since none of the species listed have any commercial or recreational significance because of their rarity, there are no direct fiscal impacts from providing these protections.

The private sector and regulated community have asserted that the designation of the eastern spadefoot toad as endangered will have indirect fiscal impacts on the Commonwealth because the Commission will incur additional costs to survey and investigate all areas where the toad may be located. The Commission does not routinely survey for endangered species. However, to the extent that the Commission would conduct biological surveys for this species, the surveys would be geographically based on known locations. As stated in the notice of proposed rulemaking, there currently are only two known breeding locations for the eastern spadefoot toad. Thus, the Commission's surveying costs would be nominal.

The private sector and regulated community also have asserted that the designation of the eastern spadefoot toad as endangered may have indirect fiscal impacts to them and political subdivisions because of the impacts on permitting decisions by the Department of Environmental Protection and other agencies. If an endangered or threatened species is found in an area slated for development, applicants for permits may be required to conduct additional studies or adjust their projects to avoid adverse impacts to this species and its habitat. It has been asserted that as a result, development may be restricted or completely halted, thus resulting in less tax revenue for political subdivisions. These fiscal impacts, however, result from regulatory and statutory authorities under the aegis of agencies other than the Commission.

H. *Public Involvement*

Notice of proposed rulemaking containing the proposed amendments was published at 35 Pa.B. 2398 (April 23, 2005). Before the formal public comment period, the Commission received five public comments regarding the proposed rulemaking. Two of the five generally supported the proposed listings; two specifically supported the listings of the eastern spadefoot toad and the rough green snake; and one specifically supported the listing of the eastern pearlshell mussel. During the formal public comment period, the Commission received six public comments. One supported the listing of the eastern pearlshell mussel; two supported the listings of the eastern spadefoot toad and the rough green snake; one supported the listing of the eastern spadefoot toad; and two raised concerns over the listing of the eastern spadefoot toad. After the formal public comment period, the Commission received a letter from the Department of Transportation requesting additional information from the Commission. Copies of all public comments were provided to the Commissioners.

After the conclusion of the public comment period, it was brought to Commission staff's attention that there was an error in the preamble of the notice of proposed rulemaking. The notice of proposed rulemaking erroneously stated that two extant breeding populations of eastern spadefoot toads are currently reported in this Commonwealth in Northumberland and Bucks Counties. The correct counties are Northumberland and Berks Counties. In light of this error, a correction was published at 35 Pa.B. 3425 (June 18, 2005) seeking public comments for an additional 30-day period. Following publication of the correction, the Commission received 21 public comments supporting the addition of the spadefoot toad to the endangered species list. Copies of those public comments were provided to the Commissioners as well.

The Commission did not receive any public comments regarding the proposal to update the scientific names of

the Bog Turtle, Coastal Plain Leopard Frog and Blandings Turtle.

Findings

The Commission finds that:

(1) Public notice of intention to adopt the amendments adopted by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) A public comment period was provided, and the comments that were received were considered.

(3) The adoption of the amendments of the Commission in the manner provided in this order is necessary and appropriate for administration and enforcement of the authorizing statutes.

Order

The Commission, acting under the authorizing statutes, orders that:

(a) The regulations of the Commission, 58 Pa. Code Chapter 75, are amended by amending §§ 75.1, 75.2 and 75.3 to read as set forth at 35 Pa.B. 2398.

(b) The Executive Director will submit this order and 35 Pa.B. 2398 to the Office of Attorney General for approval as to legality as required by law.

(c) The Executive Director shall certify this order and 35 Pa.B. 2398 and deposit them with the Legislative Reference Bureau as required by law.

(d) This order shall take effect immediately upon publication in the *Pennsylvania Bulletin*.

DOUGLAS J. AUSTEN, Ph.D.,
Executive Director

PROPOSED RULEMAKING

DELAWARE RIVER BASIN COMMISSION

[25 PA. CODE CH. 901]

Proposed Temporary Amendments to the Water Quality Regulations, Water Code and Comprehensive Plan to Extend the Designation of the Lower Delaware River as a Special Protection Water

The Delaware River Basin Commission (Commission) will hold a public hearing to receive comments on a proposed amendment to the Commission's *Water Quality Regulations, Water Code, and Comprehensive Plan* to extend the temporary classification of the Lower Delaware River as Significant Resource Waters. The temporary classification was enacted by Commission Resolution No. 2005-2 on January 19, 2005, following notice and comment rulemaking. Its effect was to make the Lower Delaware subject to all applicable provisions of the Commission's Special Protection Waters regulations, except those that depend for implementation upon the use of numeric values for existing water quality. Absent further amendment to extend the classification, it will expire on September 30, 2005. The Commission proposes to extend that date by up to 12 months. The classification would thus expire on September 30, 2006, unless the Commission should either permanently classify the Lower Delaware River or once again extend the temporary classification by rule amendment prior to that date.

The proposed extension is needed because before deciding whether or not to classify certain sections of the Lower Delaware River as Outstanding Basin Waters as originally proposed, and whether to make the temporary Special Protection Waters designation permanent for some or all of the Lower Delaware River, the Commission wishes to fully evaluate implementation options and establish numeric values for existing water quality based upon analysis of a 5-year (2000-2004) data set, for which the final year of data only became available late in 2004. Extension of the temporary designation will protect the exceptional value of the Lower Delaware from degradation during the period required to complete this evaluation and conduct a notice and comment rulemaking process on the numeric values and permanent classification.

Dates

The public hearing will be held on Monday, September 26, 2005 at the Commission's regular business meeting, which will be held at the Commission's office building, located at 25 State Police Drive, West Trenton, New Jersey, beginning at 1:30 p.m. Driving directions are available on the Commission's website, www.drbc.net. Persons wishing to testify are asked to register in advance with the Commission Secretary, (609) 883-9500, Ext. 203. Written comments will be accepted through the close of the public hearing; however, earlier submittals would be appreciated.

Supplementary Information

On September 22, 2004, the Delaware River Basin Commission published on its website a Notice of Proposed Rulemaking to amend the *Water Quality Regulations,*

Water Code and *Comprehensive Plan* to designate the Lower Delaware River—the reach between River Mile 209.5, which is the downstream boundary of the Delaware Water Gap National Recreation Area, and River Mile 133.4, which is the head of tide at Trenton, NJ—a Special Protection Water. Notice was published in the *Federal Register* on September 23, 2004 (69 FR 57008), the *Delaware Register of Regulations* on October 1, 2004, the *New Jersey Register* on October 4, 2004, the *Pennsylvania Bulletin* on October 9, 2004, and the *New York Register* on October 20, 2004. A public hearing was held on October 27, 2004, and the public was invited to comment, either in person at the hearing or in writing through November 30, 2004. During the comment period, the Commission received approximately 250 letters from business, industry, individuals, municipalities and elected officials, including some opposed to designation. It also received between 1,100 and 1,200 letters and petitions in favor of designation. The Commission modified its proposed rule in favor of temporary classification of the Lower Delaware as Significant Resource Waters in part based upon comments received on the proposed action and in part based upon the need for additional analysis before all provisions of the Special Protection Waters regulations could be put into effect in the Lower Delaware.

Further Information, Contacts

The complete text of Resolution No. 2005-2, temporarily amending the *Water Quality Regulations, Water Code, and Comprehensive Plan* by designating the Lower Delaware River a Special Protection Water, is available on the Commission's website at www.drbc.net or upon request from the Delaware River Basin Commission, P. O. Box 7360, West Trenton, NJ 08628-0360. For further information, contact Pamela M. Bush, Commission Secretary and Assistant General Counsel, Delaware River Basin Commission, at (609) 883, 9500, Ext. 203.

It is proposed to amend Section 3.10.3.A.2.g.6) of the *Water Quality Regulations and Water Code* by replacing the last paragraph of that section with the following:

Sections 3.10.3.A.2.g.2).(b) and 3.10.3.A.2.g.6) shall expire on September 30, 2006, unless extended by amendment to this rule.

STATE EMPLOYEES' RETIREMENT BOARD

[4 PA. CODE CH. 249]

Administration Duties of the Board

The State Employees' Retirement Board (Board) proposes to amend § 249.2 (relating to administrative duties of the Board) to read as set forth in Annex A.

A. *Effective Date*

This proposed rulemaking will go into effect upon final-form publication in the *Pennsylvania Bulletin*.

B. *Contact Person*

For further information, contact Robert Gentzel, Director of Communications and Policy, State Employees' Retirement System, 30 North Third Street, Harrisburg, PA 17101, (717) 787-9657; or Salvatore A. Darigo, Jr., Counsel, State Employees' Retirement System, 30 North Third Street, Harrisburg, PA 17101, (717) 787-7317. Information regarding submitting comments on this proposal appears in Section H of this preamble.

C. *Statutory Authority*

This proposed rulemaking is being made under the authority of 71 Pa.C.S. § 5902(h) (relating to administrative duties of the board).

D. *Background and Purpose*

The Board is responsible for implementing the retirement benefit program outlined in 24 Pa.C.S. Part IV (relating to Public School Employees' Retirement Code) (Retirement Code). Section 249.2(a) provides that the minutes of the Board's meetings will be available for public inspection at the Board's offices during normal working hours. This subsection further provides that the minutes will be the only records made available for public inspection. Section 249.2(a) is being deleted because it directly conflicts with the act of June 21, 1957 (P. L. 390, No. 212), known as the Right-to-Know Law (65 P. S. §§ 66.1—66.4). The purpose of this proposed rulemaking is to remove an outmoded and unenforceable provision that directly conflicts with the Right-to-Know Law.

E. *Benefits, Costs and Compliance*

Benefits

This proposed rulemaking would benefit the State Employees' Retirement System (SERS) and its members. Section 249.2(a) is unnecessary, outmoded and unenforceable. Deleting this subsection will avoid confusion on the part of members of SERS and the agency's personnel.

Costs

There are no additional costs to the Commonwealth, its citizens or State employees associated with this proposed rulemaking.

Compliance Costs

The proposed rulemaking is not expected to impose any additional compliance costs on State employees.

F. *Sunset Review*

Sunset review is not applicable in this instance.

G. *Regulatory Review*

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on August 25, 2005, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory

Review Commission (IRRC) and to the Chairpersons of the House State Government Committee and the Senate Finance Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

H. *Public Comments*

Written Comments—Interested persons are invited to submit comments, suggestions or objections regarding the proposed rulemaking to Robert Gentzel, Director of Communications and Policy, State Employees' Retirement System, 30 North Third Street, 5th Floor, Harrisburg, PA 17101. Comments submitted by facsimile will not be accepted. The Board must receive comments, suggestions or objections within 30 days of publication in the *Pennsylvania Bulletin*.

Electronic Comments—Comments may be submitted electronically to the Board at rgentzel@state.pa.us and must be received by the Board within 30 days of publication in the *Pennsylvania Bulletin*. A subject heading of the proposal and a return name and address must be included in each transmission. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

NICHOLAS J. MAIALE,
Chairperson

Applications, Actions and Special Notices

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a general permit. The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal waste; discharge into groundwater
Section IV	NPDES	MS4 individual permit
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the regional office noted before an application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit application are invited to submit a statement to the regional office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Description of Proposed Activity: The applicant proposes the construction of a 5,000 gpd sewage treatment plant that will serve the existing 100 campsites, 65 proposed expansion sites and the owner's existing residence. This system will be the replacement for a failed onlot system.

The receiving stream, a UNT to Parks Creek, is in the State Water Plan watershed 4D and is classified for CWF. The nearest downstream public water supply intake is the Danville Municipal Water Authority at Danville located on the Susquehanna River, 138 river miles below the discharge.

The proposed effluent limits for Outfall 001 are based on a design flow of 0.005 mgd:

<i>Parameter</i>	<i>Concentration (mg/l)</i>		
	<i>Average Monthly</i>	<i>Maximum Daily</i>	<i>Instantaneous Maximum</i>
CBOD ₅	10		20
TSS	20		40
pH	within the range of 6.0 to 9.0		
Fecal Coliforms	200 col/100 ml as a geometric mean		

In addition to the effluent limits, the permit contains the following major special conditions: required dechlorination.

PUBLIC WATER SUPPLY (PWS) PERMIT

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for a PWS permit to construct or substantially modify a public water system.

Persons wishing to comment on a permit application are invited to submit a statement to the office listed before the application within 30 days of this public notice. Comments received within the 30-day comment period will be considered in the formulation of the final determinations regarding the application. Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of Environmental Protection (Department) of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and any related documents are on file at the office listed before the application and are available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability who require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period

for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Sneider Residence, Millersburg Borough, **Dauphin County**. Groundwater Sciences Corporation, 2601 Market Place Street, Suite 310, Harrisburg, PA 17110, on behalf of the Estate of Jean Sneider, c/o Benjamin B. Schmick, 675 Saint Johns Drive, Camp Hill, PA 17011-1304, submitted a Notice of Intent to Remediate site soils and groundwater contaminated with No. 2 heating oil. The applicant proposes to remediate the site to the Statewide Health Standard. Future use of the site will continue to be used as a residential property.

Drumheller Property, Oley Township, **Berks County**. American Resource Consultants, Inc., 1000 West Broad Street, Quakertown, PA 18951, on behalf of Ethel Drumheller, 552 Bertolet Mill Road, Oley, PA 19547, and J & J Spill Service & Supplies, Inc., P. O. Box 370, Blue Bell, PA 19422, submitted a Notice of Intent to Remediate site soils contaminated with leaded gasoline from an unregulated storage tank. The applicant proposes to remediate the site to the Statewide Health Standard. Future use of the site will likely be nonresidential.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Thomas McGinley, New Source Review Chief, (484) 250-5920.

15-0094A: Metallurgical Products Co. (810 Lincoln Avenue, West Chester, PA 19381) for installation of a fiber bed filter mist eliminator in West Goshen Township, **Chester County**. This installation of the fiber bed filter mist eliminator may result in the emissions of 15.02 tons per year of particulate matter and 7.21 tons per year of phosphoric acid. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within applicable air quality requirements.

PA-09-0174: Liberty Coating Co., LLC. (21 South Steel Road, Morrisville, Falls Township, **Bucks County**) for installation of a surface coating operation at an existing facility. This facility is a minor for NOx and VOC. Total VOC emissions are 12.9 tpy and PM emissions are 0.034 tpy controlled by a dust collector. The Plan approval will contain recordkeeping and operating restriction designed to keep the facility operating within the allowable emissions and applicable air quality requirements.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Mark Wejkszner, New Source Review Chief, (570) 826-2531.

PA No. 13-302-024: Altadis USA (1000 Tresckow Road, McAdoo, PA 18237) for installation and operation of a 1,500 hp Johnston Boiler for their facility in Banks Township, **Carbon County**.

Under 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue Plan Approval No. 13-302-024 to Altadis USA, 1000 Tresckow Road, McAdoo, PA 18237 for their facility in Banks Township, Carbon County. This plan approval will be incorporated into the Title V operating permit No. 13-00005 through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

Plan approval No. 13-302-024 is for the installation and operation of 1,500 hp Johnston Boiler. The designed rated heat input to each boiler will be 62.76 mmBtu/hr. The boiler will fire No. 6 fuel oil as a primary fuel using a forced draft low NOx burner.

The facility is located in an area designated as a marginal nonattainment area for O₃. The project area is also included in the northeast Ozone Transport Region. The facility is currently a major source for SOx emissions only. The proposed net emission increases from the facility will be 39.9 tpy of NOx emissions, which is below

the NSR applicability triggering thresholds from the proposed new source. Thus, the addition of new boiler will not subject the facility to the provisions of NA NSR for NO_x. Emissions of SO₂, CO, NO_x TSP, PM₁₀, lead, asbestos, beryllium, mercury, vinyl chloride, fluorides, sulfuric acid mist, hydrogen sulfide, total reduced sulfur and reduced sulfur compounds associated with the proposed project will be below the PSD significant emission rates, and thus are not subject to PSD review. The following emission limitations are set for new boiler.

NO_x emissions—From BAT, 300 PPM @ 3%O₂ when firing with No. 6 fuel oil.

CO emission—From BAT, 100 PPM at 3% O₂.

Additionally the sulfur contained in fuel oil will be limited to 0.5 % by weight.

The company will operate the facility and maintain the system in accordance with the good engineering practices to assure proper operation of the system.

Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Persons who wish to provide the Department with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the following: name, address and telephone number of the person submitting the comments; identification of the proposed permit No. 13-302-024; and a concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held if the Department, in its discretion, decides that a hearing is warranted based on the comments received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone when the Department determines that notification by the telephone is sufficient. Written comments or requests for a public hearing should be directed to Mark J. Wejkszner, P. E., Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, (570) 826-2531 within 30 days after publication date.

PA No. 40-399-055: Cascade Tissue Group, PA, Inc. (901 Sathers Drive, Voglebacher Industrial Park, Pittston, PA 18640) for their plant in Pittston Township, **Luzerne County**.

Under 25 Pa. Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue Plan Approval No. 40-399-055 to Cascade Tissue Group, PA Inc., 901 Sathers Drive, Voglebacher Industrial Park, Pittston, PA 18640 for their plant located in Pittston Township, Luzerne County. The facility currently has Title V Permit No. 40-00019. This plan approval will be incorporated into the Title V operating permit through an administrative amendment at a later date, and the action will be published as a notice in the *Pennsylvania Bulletin*.

The company has proposed to obtain a Plantwide Applicability Limit (PAL) in accordance with the requirements of 40 CFR 51.165 and Federally Enforceable Emission Cap (FEEC) for the criteria pollutant from the facility.

To show compliance with the applicable standards, the Department will place the following conditions in the Plan Approval:

1. Under the requirements of 40 CFR 52.21(aa) the following PAL is established for emissions of pollutants from all sources at the facility.

a. PAL Emission Limitation for VOCs from the facility is 62.29 tpy expressed as a 12-month rolling sum, calculated monthly.

2. This Plan Approval establishes a FEEC for emissions of VOCs from all sources at the facility in accordance with 25 Pa. Code § 127.448.

3. The total actual emissions from sources at the facility shall not exceed the FEEC of 62.29 tpy of VOCs on a 12-month rolling sum. Any change that would result in an increase over the FEEC would be subject to the NSR requirements specified in 25 Pa. Code Chapter 127, Subchapter E.

4. The company shall show that the sum of the monthly emissions from each source including emissions from startup, shutdowns and malfunctions under the PAL and FEEC for the previous 12-consecutive months is less than the PAL or FEEC (12-month sum, rolled monthly) respectively. To determine the compliance with the PAL or FEEC, the calculated pollutants emissions for the month shall be added to the previous 11 months calculated pollutants emissions for the total facility.

5. The facility is not subject to the major NSR requirements of 25 Pa. Code Chapter 127, Subchapter E for VOC emissions so long as the permittee complies with the terms and conditions specified for the FEEC in this Plan Approval. Any increase in VOC emissions above this FEEC will subject the facility to the major NSR requirements.

6. The issuance of this Plan Approval does not prevent the future adoption by the Department of any rules, regulations or standards, or the issuance of orders necessary to comply with the requirements of the Federal Clean Air Act or the Air Pollution Control Act, or to achieve or maintain ambient air quality standards. The issuance of this Plan Approval shall not be construed to limit the Department's enforcement authority.

7. In accordance with 25 Pa. Code §§ 127.448(a) and 127.448(d)(1), the permittee shall notify the Department in writing at least 7 days prior to making any changes or modifications to sources at the facility, which result in an emission trade. This 7-day notice requirement applies to any changes or modifications, which do not subject the facility to major NSR requirements under Title I of the Federal Clean Air Act. In addition to the written notification requirements in 25 Pa. Code § 127.448(b), the notice shall also indicate how the proposed emission increases and decreases will comply with the terms and conditions in the plan approval.

8. The permittee may not construct or modify a new source at the facility unless the "new source," as defined in 25 Pa. Code § 121.1, meets the Best Available Technology requirements established by the Department under section 6.6(c) of the Air Pollution Control Act and 25 Pa. Code § 127.11.

9. At no time (during or after the PAL and FEEC effective period) are emissions reductions of a PAL and FEEC pollutant, which occur during the PAL and FEEC effective period, creditable as decreases for purposes of offsets unless the level of the PAL and FEEC are reduced

by the amount of such emissions reductions and such reductions would be creditable in the absence of the PAL and FEEC.

10. The affected sources subject to VOC ERCs is Source Id No. 105 (Corrugated Box Printer).

11. Cascade Tissue group is granted 0.11 ton of VOC ERCs from the shutdown of corrugated box printer.

12. The ERCs generated in this approval shall expire if not consumed within 10 years after the sources ceased emitting the ERC generating emissions.

13. Cascade Tissue group and any subsequent user of these credits shall comply with the requirements of 25 Pa. Code §§ 127.206—127.208 regarding ERC use and transfer requirements.

14. Any future VOC emission from this facility must comply with the New Source Review regulations under 25 Pa. Code Chapter 127, Subchapter E.

15. (a) A person may not permit the emission into the outdoor atmosphere of VOCs from a rotogravure or flexographic printing press subject to this section and must meet the following limitation:

(1) The volatile fraction of the ink, as applied to the substrate, contains 25% or less by volume of VOC and 75% or more by volume of water.

16. The permittee shall maintain records in accordance with recordkeeping requirements of 25 Pa. Code § 129.95, except that these records shall be retained in accordance with General Title V Requirement. The permittee shall keep on hand and make available to the Department upon request the following:

(1) Chemical composition data for all of the material used at the facility, to include all materials used in the flexographic printing process.

(2) The permittee shall keep comprehensive records indicating VOC materials used at the facility. Specifically for the flexographic printing process and adhesives converting lines and core machines. These records shall be in a format showing compliance with emission limitation, for flexographic printing, and indicate VOC emissions for the entire facility on a 12-month rolling sum basis.

(3) The permittee shall keep on hand all calculations to clearly demonstrate that the requirements of 25 Pa. Code §§ 129.91—129.94 are met. The file shall include, but not be limited to: a record of all VOC containing compounds used at the facility as well as calculations on the entire facility's VOC emissions updated on a 12-month rolling sum.

17. The company shall maintain a file containing all records and other data that are required to be collected under the various provisions of this plan approval. The file shall include, but not be limited to: all air pollution control systems performance evaluations and records of calibration checks, adjustments and maintenance performed on all equipment which is subject to this plan approval. All measurements, records and other data required to be maintained by the company, including a determination of each emissions unit 12-month rolling total emissions and other records required by 40 CFR 52.21(aa)(13), shall be retained for at least 5 years following the date on which the measurements, records or data are recorded.

18. The company shall comply with the recordkeeping and certification requirements in accordance with 40 CFR 60.46c(e), 60.42c(h) and 60.48c(f)(1). Reports shall be submitted on a quarterly basis unless no excess emissions

occurred. If there are no excess emissions, the company shall semiannually report that no excess emissions occurred during the semi-annual reporting period.

19. The company shall maintain an emission tracking system to document compliance with the PAL and FEEC for the facility, as specified in Condition No. 002 of this Plan Approval. The tracking system shall record on a monthly basis fuel usage, emission rates and total monthly emissions for the pollutants from all the sources at the facility. Compliance with the PAL and FEEC shall be determined through the use of total monthly ink/adhesive usage multiplying with VOC content in each ink/adhesive.

20. The company shall maintain adequate records of changes made to the sources at the facility under this Plan Approval so as to ensure proper recordkeeping and reporting and shall update the facility emitting source list at the time of permit renewal.

21. The permittee shall maintain records demonstrating compliance with the emission limit of this source group. The records shall include the monthly VOC emissions, all calculation, chemical composition data for all the inks used in each process, and shall record on a daily basis the amount of these inks and any VOC solvent usage for each process. The records shall be kept on hand for a period of no less than 5 years and be made available to the Department upon request.

22. The permittee will report on a quarterly basis the total facility VOC emissions based on a 12-month rolling sum. This report will be in a format showing the 12-month rolling sum of VOC emissions from the flexographic operations, adhesives converting lines, adhesive core machines, and any other material which contains VOCs. The report is due within 1 month of the end of each quarter. (April, July, October, January).

23. The company must record and report maximum potential emissions without considering enforceable emission limitations or operational restrictions for an emissions unit during any period of time that there is no monitoring data, unless another method for determining emissions during such periods is specified in this permit.

24. The company shall report unauthorized, accidental or emergency releases of air pollutants; malfunctions of equipment, the maintenance of which is necessary to meet plan approval requirements or emission limitations; instances of exceeding permit terms or conditions or regulatory requirements found during routine plant maintenance, whether or not the Department is aware of the situation; instances of exceeding permit terms or conditions or regulatory requirements recorded by continuous monitoring equipment; or other departures from the requirements of the act, regulations adopted under the act, terms or conditions of operating permits or plan approvals, or Department orders within 1 hour of having knowledge of the occurrence of such an event. The reporting of an event shall include the probable cause of the events and corrective actions or preventive measures taken to address the events. A written report describing the event and the preventative or corrective actions taken to address the event shall be submitted to the Department within 5 working days following the event. The Department may take enforcement action for any violations of the applicable provisions of the Air Pollution Control Act, regulations adopted under the Act, terms or conditions of operating permits or plan approvals and Department orders. This reporting requirement in no way supercedes or eliminates any other applicable Federal or State reporting requirements.

25. Any changes in the location of the source, or any changes in the process or control equipment would be considered a modification and would require the submittal of an amended application for plan approval in accordance with the provisions of 25 Pa. Code §§ 127.11 and 127.12.

26. The company shall submit semi-annual report to the Department within 30 days of the end of each reporting period. This report shall contain the following:

(A) The identification of owner and operator and the permit number.

(B) Total annual emissions (tons/year) based on a 12-month rolling sum for each month in the reporting period.

(C) All data relied upon, including, but not limited to, any Quality Assurance or Quality Control data, in calculating the monthly and annual PAL pollutant emissions.

(D) A list of any emissions units modified or added to the major stationary source during the preceding 6-month period.

(E) The number, duration, and cause of any deviations or monitoring malfunctions (other than the time associated with zero and span calibration checks), and any corrective action taken.

(F) A notification of a shutdown of any monitoring system, whether the shutdown was permanent or temporary, the reason for the shutdown, the anticipated date that the monitoring system will be fully operational or replaced with another monitoring system, and whether the emissions unit monitored by the monitoring system continued to operate and the calculation of the emissions of the pollutant.

(G) A signed statement by the responsible official (as defined by the applicable title V operating permit) certifying the truth, accuracy and completeness of the information provided in the report.

27. Any deviation shall be reported as per the requirements of 40 CFR 52.21(14)(ii).

28. Under the requirement of 40 CFR 52.21(14)(iii) the company shall submit to the Department the results of any revalidation test or method within 3 months after completion of the test or method.

29. Any notification as a result of any condition herein should be directed to Thomas A. DiLazaro, Air Quality Program Manager, Department of Environmental Protection, 2 Public Square, Wilkes-Barre, PA 18711-0790.

30. The company shall maintain and operates sources in accordance with the manufacturer specification and with good engineering practice.

31. The permittee shall maintain and operate equipment in accordance with accepted industry practices to optimize efficiency and good air pollution control practices.

32. The company shall not impose conditions upon or otherwise restrict the Department's access to the sources and/or any associated air cleaning devices and shall allow the Department to have access at any time to said sources and associated air cleaning devices with the measuring and recording equipment, including equipment recording visual observations, as the Department deems necessary and proper for performing its duties and for the effective enforcement of the Air Pollution Control Act.

33. PAL is effective from the date of issuance of this plan approval and expires after 10 years from the date of issuance of this approval. The company shall submit an

application to renew the PAL at least 6 month prior to, but not earlier than 18 months from, the date of expiration of the PAL. If the renewal application is submitted within this time period, then the PAL shall not expire at the end of the PAL effective period. It shall remain in effect until the Department issues a revised PAL permit. The renewal application shall be submitted in accordance with the requirement of 40 CFR 52.21(aa)(10).

34. During the effective period, the Department may reopen the permit to:

(1) Correct typographical/calculation errors made in setting the PAL and FEEC or reflect a more accurate determination of emissions used to establish the PAL and FEEC.

(2) Reduce the PAL and FEEC if the owner or operator of the major stationary source creates creditable emissions reductions for use as offsets.

(3) Revise the PAL and FEEC to reflect an increase in the PAL and FEEC.

(4) Reduce the PAL and FEEC to reflect newly applicable Federal requirements with compliance dates after the PAL and FEEC effective date.

(5) Reduce the PAL and FEEC consistent with any other requirement, that is enforceable as a practical matter, and that the Department may impose on the major stationary source.

(6) Reduce the PAL and FEEC if the Department determines that a reduction is necessary to avoid causing or contributing to a NAAQS or PSD increment violation, or to an adverse impact on an air quality related value that has been identified for a Federal Class I area by a Federal Land Manager and for which information is available to the general public. Except for the permit reopening for the correction of typographical/calculation errors, all other reopening shall be carried out in accordance with the public participation requirements of 40 CFR 52.21(aa)(5).

35. If the PAL expires and is not renewed, the company shall submit an application to comply with the requirement listed in 40 CFR 52.21(aa)(9) to the Department for review and approval.

36. To increase the PAL during effective period, the company shall submit an application to comply with the requirement listed in 40 CFR 52.21(aa)(11) to the Department for review and approval.

Copies of the application, the Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

Persons who wish to provide the Department with additional information which they believe should be considered prior to the issuance of this permit may submit the information to the address shown in the preceding paragraph. Each written comment must contain the name, address and telephone number of the person submitting the comments; identification of the proposed permit No. 40-399-055; and concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held if the Department, in its discretion, decides that a hearing is warranted based on the comments received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the

Pennsylvania Bulletin or by telephone when the Department determines that notification by telephone is sufficient. Written comments or requests for a public hearing should be directed to Mark J. Wejkszner, P. E., Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, (570) 826-2531 within 30 days after publication date.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

47-00001B: PPL Montour LLC (P. O. Box 128, Washingtonville, PA 17884) for the installation of flue gas desulfurization systems on two bituminous coal-fired electric utility boilers (Units 1 and 2) and the construction of two 500 horsepower diesel-fired engines at the Montour Steam Electric Station in Derry Township, **Montour County**.

A Title V operating permit (No. 47-00001) has been issued for this facility.

The proposed flue gas desulfurization systems will have the ability to remove 70% to 97% of the SO_x generated by the respective boilers, depending upon boiler load. This will not however necessarily result in a 70% to 97% reduction in the current level of SO_x emissions from the respective boilers (126,978.1 tons in 2004 for both boilers combined) due to the fact that the existence of the flue gas desulfurization systems will allow the use of higher sulfur coal in the boilers than can currently be used.

No change is expected in the emission rate of any other air contaminant from the boilers as a result of the flue gas desulfurization system installations.

PPL Montour LLC will also be constructing a new exhaust stack for the boilers, the exit of which will be no less than 540 feet above grade.

The air contaminant emissions from the proposed 500 horsepower diesel-fired engines are not expected to exceed 3.8 tons of NO_x, 1.1 tons of CO, .56 ton of total hydrocarbons, .42 ton of SO_x and .22 ton of particulate matter, including PM₁₀ per year.

The Department of Environmental Protection's (Department) review of the information submitted by PPL Montour LLC indicates that the boilers should comply with applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants following the installation of the proposed flue gas desulfurization systems. Likewise, the Department has determined that the proposed diesel-fired engines should comply with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants, including the best available technology provision of 25 Pa. Code §§ 127.1 and 127.12. Based on these findings, the Department proposes to issue plan approval for the installation of the flue gas desulfurization systems on the respective boilers as well as for the construction of the proposed diesel-fired engines. Additionally, if the boilers and flue gas desulfurization systems are subsequently determined by the Department to be operating in compliance with all applicable plan approval conditions and regulatory requirements following flue gas desulfurization system installation and if the diesel-fired engines are also subsequently determined by the Department to be operating in compliance with all applicable plan approval conditions and regulatory requirements following their construction, the conditions of the plan approval will be incorporated into Title V Operating Permit 47-00001 by means of administrative

amendment in accordance with the requirements specified in 25 Pa. Code § 127.450.

The following is a summary of the conditions the Department proposes to place in the plan approval to be issued to ensure compliance with all applicable requirements.

1. The emission of SO_x (expressed as sulfur dioxide) from Unit 1 shall not exceed .85 pound per million Btu of heat input (3-hour block average) once a flue gas desulfurization system has been installed on Unit 1.

2. The emission of SO_x (expressed as SO₂) from Unit 2 shall not exceed .85 pound per million Btu of heat input (3-hour block average) once a flue gas desulfurization system has been installed on Unit 2.

3. Following the installation of a flue gas desulfurization system on Unit 1 or Unit 2, the respective boiler shall exhaust to the atmosphere at a height of no less than 540 feet above grade. Additionally, the inside diameter of the flue for each of these two units shall be no greater than 30.68 feet at the point of exhaust.

4. The permittee shall install, certify, maintain and operate continuous monitoring systems for NO_x emissions (expressed as NO₂) and sulfur oxides emissions (expressed as SO₂) and volumetric flow on the exhaust of Unit 1 and on the exhaust of Unit 2 in accordance with all applicable requirements specified in 25 Pa. Code Chapter 139 and the Department's "Continuous Source Monitoring Manual."

5. The continuous emission monitoring and flow monitoring systems associated with each of the two units (Units 1 and 2) shall be installed and capable of operation before startup of the flue gas desulfurization system on the respective unit and before the respective unit is exhausted to the atmosphere through its new stack. No new continuous emission monitoring system or flow monitoring system may however be installed unless Phase I approval has first been obtained from the Department.

6. The permittee shall submit a Phase I application to the Department for all new continuous emission and flow monitoring systems to be associated with each of the two units (Unit 1 and Unit 2) at least 6 months before the startup of the flue gas desulfurization system on the respective unit.

7. The NO_x and SO_x emission monitoring systems shall be capable of monitoring the NO_x and SO_x emission rates expressed in pounds per million btu of heat input as well as in pounds per hour. They shall also be capable of monitoring the total emission of the respective air contaminant from the respective unit in any 12-consecutive month period (expressed in tons per year).

8. Neither Unit 1 nor Unit 2 shall be exhausted to the new stack for any reason unless the NO_x and SO_x continuous emission monitoring systems and flow monitoring system associated with the respective unit has received Phase I approval from the Department and has subsequently been installed and made operational in accordance with the conditions of this plan approval. Furthermore, the continuous emission monitoring systems and flow monitoring system associated with each unit shall be operated in accordance with all applicable requirements specified in 25 Pa. Code Chapter 139, as well as with all the applicable requirements specified in the Department's "Continuous Source Monitoring Manual," any time the respective unit is operating.

9. Relative accuracy testing shall be completed on the continuous emission monitoring systems and flow moni-

toring system associated with a unit, and the respective monitoring systems shall be fully certified, in accordance with all applicable requirements specified in the Department's "Continuous Source Monitoring Manual" within 180 days of startup of the flue gas desulfurization system on the respective unit.

10. The air contaminant emissions from each of the diesel-fired engines shall not exceed 6.9 grams of NO_x (expressed as NO₂) per brake horsepower-hour and 1.9 tons in any 12-consecutive month period, 2.0 grams of CO per brake horsepower-hour and .55 ton in any 12-consecutive month period, 1.0 gram of total hydrocarbons per brake horsepower-hour and .28 ton in any 12-consecutive month period, and .4 gram of particulate matter, including PM₁₀ per brake horsepower-hour and .11 ton in any 12-consecutive month period.

11. Each diesel-fired engine shall not be operated more than 500 hours in any 12-consecutive month period.

12. The diesel engines shall only be fired on virgin diesel fuel or No. 2 fuel oil to which no reclaimed or reprocessed oil or other waste materials have been added. Additionally, the sulfur content shall not, at any time, exceed .2% (by weight).

13. The permittee shall maintain comprehensive and accurate records of the number of hours that each diesel-fired engine operates each month as well as the amount and type of fuel used in each diesel-fired engine each month.

14. Within 15 days of the selection of specific diesel-fired engines to be constructed at this site, the permittee shall submit specifications for the engines to the Department as well as vendor-supplied, unit-specific air contaminant emission data for the engines.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter G.

Southeast Region: Air Quality Program, 2 East Main Street, Norristown, PA 19401, Edward Jurdones Brown, Facilities Permitting Chief, (484) 250-5920.

23-00071: Giant Construction, Inc. (260 Bridgewater Road, Aston, PA 19014) for a Non-Title V Facility, State-only, Natural Minor Permit in Montgomery Township, **Montgomery County**. The source of emissions is a concrete plant with a filter vent. Monitoring, recordkeeping and reporting requirements have been added to the permit to address applicable limitations.

46-00100: Moyco Precision Abrasives (200 Commerce Drive, Montgomeryville, PA 18936) for a Non-Title V Facility, State-only, Synthetic Minor Permit in Montgomery Township, **Montgomery County**. The sources of emissions are space heaters, surface coating operations and thermal oxidizer. The facility has a potential to emit VOCs. Monitoring, recordkeeping and reporting requirements have been added to the permit to address applicable limitations.

15-00077: Hanson Aggregates—Downingtown formerly Milestone Materials (1609 Sullivan Trail, Easton, PA 18044) for a Non-Title V Facility, State-only, Natural Minor Permit in East Caln Township, **Chester County**. The source of emissions is a stone crushing plant consisting of crushers, screens, conveyors, baghouses and wet suppression system. Monitoring, recordkeeping and reporting requirements have been added to the permit to address applicable limitations.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Mark Wejkszner, New Source Review Chief, (570) 826-2531.

40-00034: Schott Glass Technologies, Inc.—Duryea Plant (400 York Avenue, Duryea, PA 18642) for operation of nine continuous melting furnaces, melting pots, presses, silos, space heaters, water heaters, various bins and their associated air-cleaning devices at their facility in Duryea, **Luzerne County**. The major emission is of NO_x. This action is for the Title V Operating Permit to be issued.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, Muhammad Zaman, Facilities Permitting Chief, (570) 327-0512.

08-00003: CraftMaster Manufacturing, Inc. (Shiner Road, P. O. Box 311, Towanda, PA 18848) for their facility in Wysox Township, **Bradford County**. The respective facility is a major facility for which a Title V operating permit (TVOP 08-00003) has been issued. Under 25 Pa. Code §§ 127.521 and 127.541 (Significant Operating Permit Modification), the Department of Environmental Protection (Department) intends to issue a revised Title V operating permit incorporating the requirements of the following plan approvals: 08-302-039, 08-00004A, 08-316-014, 08-318-024A and 08-316-013A. The plan approvals have been issued for the construction or modification of the following sources: construction of a 242.4 mmBtu/hr wood/natural gas fired boiler and associated multicyclone, electrostatic precipitator and wood fuel handling equipment, a throughput increase to coating line No. 2, increased production from the die form press, construction of a resin blending facility and associated fabric collector and two cyclones and modification of the line No. 2 press to allow for the production of trimboard affecting the board saws, board-forming line and lap siding surface coating line. The revision also incorporates the following insignificant emissions sources exempted from the Department's plan approval requirements: two-side sander; trim surface coating brush machine and associated fabric collector; a die form coating wetting booth; an A-1 tool machine; and associated brush machine. There is no increase in air contaminant emissions as a result of this significant operating permit modification.

Copies of the application are available for public review between 8 a.m. and 4 p.m. at the Department's Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review may be made by calling Kathy Arndt, (570) 327-3693. Written comments or requests for a public hearing should be directed to Muhammad Q. Zaman, Chief, Facilities Permitting Section, Department of Environmental Protection, Air Quality Program, Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701, (570) 327-0512.

Intent to Issue Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter F.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Mark Wejkszner, New Source Review Chief, (570) 826-2531.

40-00091: America's Body Co., Inc. (275 West Union Street, Nanticoke, PA 18634) for motor vehicle and car painting plant in the City of Nanticoke, **Luzerne County**. The facility's main sources of emissions include two spray paint booths and one spray gun parts washer. The potential to emit PM, VOCs, HAPs, NO_x, SO_x and

CO are below the major emission thresholds. The proposed operating permit contains all applicable requirements including Federal and State regulations. In addition, monitoring, recordkeeping and reporting conditions regarding compliance with all applicable requirements are also included.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

18-00025: Moriarty-Dutcavich Funeral Home (112 East Church Street, Lock Haven, PA 17745) for operation of a crematory facility in the City of Lock Haven, **Clinton County**.

The crematory facility incorporates a crematory incinerator in which human remains are incinerated. The incinerator is equipped with an integral secondary combustion chamber which is used to minimize air contaminant emissions. The air contaminant emissions from this facility are not expected to exceed 1.09 tons of NOx, .16 ton of CO, .36 ton of SOx, .038 ton of total organic compounds and .036 ton of particulate matter including PM10 per year.

The respective facility is not a major (Title V) facility for any air contaminant.

The Department of Environmental Protection proposes to incorporate into the operating permit to be issued conditions requiring compliance with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants as well as conditions previously existing in Operating Permit 18-301-009. These previously-existing conditions include a particulate matter emission limitation of .08 grain per dry standard cubic foot of effluent gas (corrected to 7% oxygen), a condition prohibiting the incineration of anything other than human remains and associated containers, a condition requiring a secondary combustion chamber temperature of at least 1,800 F upon any occasion when the incinerator is in use and a condition requiring the secondary combustion chamber temperature to be continuously monitored and recorded whenever the incinerator is in use.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam

Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Coal Applications Received

Effluent Limits

The following coal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
iron (total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
manganese (total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
suspended solids	35 mg/l	70 mg/l	90 mg/l
pH ¹		greater than 6.0;	less than 9.0
alkalinity greater than acidity ¹			

¹ The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 mg/l applied to: (1) surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; and mined areas backfilled and revegetated; and (2) drainage (resulting from a precipitation event of less than or equal to a 1-year 24-hour event) from coal refuse disposal piles.

California District Mining Office: 25 Technology Drive, Coal Center, PA 15423, (724) 769-1100.

63831302 and NPDES Permit No. PA0213608, Eighty Four Mining Company (P. O. Box J, 1525 Pleasant Grove Road, Claysville, PA 15323), to revise the permit for the Mine No. 84 in Amwell Township, **Washington County** to install the South West Mains No. 3 air shaft and boreholes. Surface Acres Proposed 11.8. Receiving stream, Redd Runn, classified for the following use: TSF. Application received July 1, 2005.

30841320 and NPDES Permit No. PA0213861, Dana Mining Company of PA, Inc. (P. O. Box 1170, Morgantown, WV 26507), to renew the permit for the Dooley Run Mine in Dunkard Township, **Greene County** and related NPDES permit. No additional discharges. Application received July 29, 2005.

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, (814) 472-1900.

Permit No. 56930104 and NPDES Permit No. PA 0212415. Future Industries Inc., P. O. Box 157, Meyersdale, PA 15552, permit revision-land use change on Merrill Enterprises Inc. property from forest to cropland in Brothersvalley Township, **Somerset County**, affecting 129 acres. Noncoal Applications Received

Effluent Limits

The following noncoal mining applications that include an NPDES permit application will be subject to, at a minimum, the following technology-based effluent limitations for discharges of wastewater to streams:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity ¹ pH ¹	greater than 6.0; less than 9.0		

¹ The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applied to surface runoff resulting from a precipitation event of less than or equal to a 10-year 24-hour event. If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department of Environmental Protection (Department). Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the State to certify that the involved projects will not violate the applicable provisions of sections 301–303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311–1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA or to the issuance of a Dam Permit, Water Obstruction and Encroachment Permit or the approval of

an Environmental Assessment must submit comments, suggestions or objections within 30 days of the date of this notice, as well as questions, to the regional office noted before the application. Comments should contain the name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Individuals will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on each working day at the regional office noted before the application.

Persons with a disability who wish to attend a hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1–693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and requests for certification under section 401 of the FWPCA (33 U.S.C.A. § 1341(a)).

WATER OBSTRUCTIONS AND ENCROACHMENTS

The applicant proposes to remove the existing structure and to construct and maintain a bridge having a normal clear span of 68.09 feet and an underclearance of 10.35 feet across Quemahoning Creek (CWF) located on SR 0030, Section 010, Segment 0110, Offset 0000. The project includes construction of a temporary bridge having a clear span of 76 feet and an underclearance of 13.9 feet.

ACTIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT FINAL ACTIONS TAKEN FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

The Department of Environmental Protection (Department) has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and Notices of Intent (NOI) for coverage under general permits. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1–691.1001) and the Federal Clean Water Act.

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or amendment
Section III	WQM	Industrial, sewage or animal wastes; discharges to groundwater
Section IV	NPDES	MS4 individual permit

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section V	NPDES	MS4 permit waiver
Section VI	NPDES	Individual permit stormwater construction
Section VII	NPDES	NOI for coverage under NPDES general permits

Sections I—VI contain actions related to industrial, animal or sewage wastes discharges, discharges to groundwater and discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities and concentrated animal feeding operations (CAFOs). Section VII contains notices for parties who have submitted NOIs for coverage under general NPDES permits. The approval for coverage under general NPDES permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions set forth in each general permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions set forth in the respective permit. Permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

**PUBLIC WATER SUPPLY (PWS)
PERMITS**

The Department of Environmental Protection has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free

pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20a)

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

Plan Location:

Borough or Township	Borough or Township Address	County
West Manheim Township	31 Fairview Drive Hanover, PA 17331	York

Plan Description: High Point at Rojen Farms, Phase I South Section, A3-67964-180-3. The approved plan provides for an 87 lot single-family residential subdivision on 419.639 acres with one residual tract. Total estimated sewage flows are 30,450 gpd, and they will be tributary to public sewer currently being extended to the Oak Hills Drive and Kimberly Drive areas, and ultimately, will flow to the Penn Township Wastewater Treatment Plant. The proposed subdivision is located on the northwestern side of Sunset Drive, behind existing properties on Oak Hills

Drive, and at the ends of Oak Hills Drive and Kimberly Drive in West Manheim Township, York County. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority as appropriate.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Montgomery Township	12868 Fort Loudon Rd. Mercersburg, PA 17236	Franklin

Plan Description: The approved plan, entitled Whitetail Resort Community, provides for 958 homes, town homes, condominiums, a 150-room hotel and conference center, a 300-room hotel, a 10-room bed and breakfast, a clubhouse and a water park, with total flows of 395,500 gallons per day to be served by a proposed new wastewater treatment plant. The proposed development is located along Blairs Valley Road. Operation and maintenance will be the responsibility of the Whitetail Resort Community Homeowner's Association. The Department's review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. WQM Permits must be obtained in the name of the Whitetail Resort Community Homeowner's Association.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in

the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

Earth Tec, 2 Market Plaza Way, Mechanicsburg, PA 17055 has submitted a Final Report concerning groundwater contaminated with benzene, toluene, ethylbenzene, BTEX, MTBE and naphthalene. This Final Report is intended to demonstrate attainment of the Background Standard.

Former AMP, Inc. Selinsgrove Facility (Tyco Electronics Corp), Selinsgrove Borough, **Snyder County**. Science Applications International Corp., has submitted a Final Remedial Investigation/Risk Assessment Report concerning groundwater and soil contaminated with volatile organic compounds. This Final Report is intended to delineate the extent of contamination and determine the potential risk to human health and the environment.

Northwest Region: Environmental Cleanup Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481.

Amer Ref Group Bradford, Crude Tank Farm, Foster Township, **McKean County**. Dayne Crowley, MACTEC Eng. & Consulting, 700 N. Bell Avenue, Suite 200, Carnegie PA 15106 on behalf of Steve Sherk, American Refining Group, Inc., 77 N. Kendall Avenue, Bradford PA 16701, has submitted a Remedial Investigation Report concerning the remediation of site soil and groundwater contaminated with crude oil. The report is intended to document remediation of the site to meet the Site Specific Standards.

National Church Residences, Eastlake Woods, Harborcreek Township, **Erie County**. Korin Giles, Urban Engineers of Erie, 1319 Sassafras Street, Erie PA 16501 on behalf of Thomas Herlihy, Owner, National Church Residences, 2335 North Bank Drive, Columbus OH 43220 has submitted a Final Report concerning the remediation of site soil contaminated with Benzene, Ethyl Benzene and Naphthalene. The report is intended to document remediation of the site to meet the Statewide Health, Site Specific Standards.

Redevelopment Authority of the City of Meadville (Former Talon Plant 7 Site), City of Meadville, Crawford County. Mark B. Miller, Moody & Assoc., 11548 Cotton Rd., Meadville PA 16335 on behalf of Andy Walker, Director of Community Development, Redevelopment Authority of the City of Meadville, 764 Bessemer Street, Meadville PA 16335, has submitted a Baseline Environmental Report concerning the remediation of site soil contaminated with chlorinated solvents, inorganics and other organics and groundwater contaminated with chlorinated solvents, inorganics, lead and other organics. The report is intended to document remediation of the site to meet the Special Industrial Area Standards.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information

concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Northcentral Region: Environmental Cleanup Program Manager, 208 West Third Street, Williamsport, PA 17701.

Bellefonte School District, Middle School, 100 North School Street, Bellefonte, PA 16823, Bellefonte Borough, **Centre County** has submitted a Final Report concerning soils and groundwater contamination resulting from a methanol release. The Final Report demonstrated attainment of the Statewide Health Standard—Residential and was approved by the Department on August 10, 2005.

The company operates a catalytic converter manufacturing research and development facility.

- (i) One bag unloader.
- (ii) Two powder addition systems.
- (iii) Two dust collectors.

The revised Title V operating permit will contain additional monitoring, recordkeeping, reporting and work practice standards to keep the facility operating within all applicable air quality requirements. The conditions from the plan approvals that have been addressed in the amended Title V Permit are outlined as follows:

Wash Coat Batching Dust Collectors Nos. 1 and 2 (Source ID: CO13A and CO13B)

Condition No. 001—Emission Restriction condition that limits the emission of particulate matter from each dust collector to 0.02 grain per dry standard cubic foot.

Compliance with this more stringent, streamlined condition ensures compliance with 25 Pa. Code § 123.13).

Condition No. 002—Monitoring Requirement condition for the pressure drop across the dust collectors on a daily basis when this device is operating.

Condition No. 003—Recordkeeping Requirement condition for the pressure drop across the dust collectors on a daily basis when this device is operating.

Condition No. 004—Work Practice Standard condition to ensure that the dust collectors are both equipped with a device to monitor the pressure differential.

Condition No. 005—Work Practice Standard condition requiring the permittee to maintain a pressure drop of 2"-4" (w.g.) across each dust collector.

Condition No. 006—Work Practice Standard condition requiring the permittee to maintain, onsite, a sufficient supply of spare fabric filters for each dust collector.

Condition No. 007—Work Practice Standard condition requiring the permittee to minimize fugitive emissions from the dust collectors through good housekeeping and good air pollution practices.

The facility is not subject to Compliance Assurance Monitoring under 40 CFR Part 64. The Administrative Amendment of Title V Operating Permit for this facility is issued under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code § 127.450.

46-00025: Lonza, Inc. (900 River Road, Conshohocken, PA 19428) on August 17, 2005, to modify the pressure drop across the acid gas absorber serving the thermal oxidizer to the existing Title V Operating Permit in Upper Merion Township, **Montgomery County**.

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110; Ronald Davis, New Source Review Chief, (717) 705-4702.

ACTIONS ON COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Actions on applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). The final action on each application also constitutes action on the request for 401 Water Quality Certification and the NPDES permit application. Mining activity permits issued in response to the applications will also address the application permitting requirements of the following statutes: the Air Quality Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality

Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P.S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P.S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the FWPCA (33 U.S.C.A. § 1341).

SPECIAL NOTICES

Certified Emission Reduction Credits in the Commonwealth's ERC Registry

Emission reduction credits (ERCs) are surplus, permanent, quantified and Federally-enforceable emission reductions used to offset emission increases of NOx, VOCs and the following criteria pollutants: CO, lead (Pb), SOx, particulate matter (PM), PM-10 and PM-10 precursors.

The Department of Environmental Protection (Department) maintains an ERC registry in accordance with the requirements of 25 Pa. Code § 127.209. The ERC registry system provides for the tracking of the creation, transfer and use of ERCs. Prior to registration of the credits, ERC registry applications are reviewed and approved by the Department to confirm that the ERCs meet the requirements of 25 Pa. Code §§ 127.206—127.208. Registration of the credits in the ERC registry system constitutes certification that the ERCs satisfy applicable requirements and that the credits are available for use. The following registered and certified ERCs in the ERC registry are currently available for use as follows:

- (1) To satisfy new source review (NSR) emission offset ratio requirements.
- (2) To "net-out" of NSR at ERC generating facilities.
- (3) To sell or trade the ERCs for use as emission offsets at new or modified facilities.

The following ERCs, expressed in tons per year (tpy), satisfy the applicable ERC requirements contained in 25 Pa. Code §§ 127.206—127.208. ERCs created from the curtailment or shutdown of a source or facility expires for use as offsets 10 years after the emission reduction occurs. ERCs generated by the overcontrol of emissions by an existing facility do not expire for use as offsets. However, credits in the registry that are not used in a plan approval will be discounted if new air quality requirements are adopted by the Department or the United States Environmental Protection Agency.

For additional information concerning this listing of certified ERCs, contact Virendra Trivedi, Bureau of Air Quality, Division of Permits, Department of Environmental Protection, 12th Floor, Rachel Carson State Office Building, P. O. Box 8468, Harrisburg, PA 17105-8468, (717) 787-4325. Availability of Technical Guidance

Technical guidance documents are on the Department of Environmental Protection's (Department) website: www.dep.state.pa.us (DEP Keyword: Participate). The "Current Inventory" heading is the Governor's list of nonregulatory guidance documents. The "Final Documents" heading is the link to a menu of the various Department bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical Guidance" heading is the link to the Department's draft technical guidance documents.

The Department will continue to revise its nonregulatory documents, as necessary, throughout 2005.

Ordering Paper Copies of Department Technical Guidance

The Department encourages the use of the Internet to view guidance documents. When this option is not available, persons can order a bound paper copy of the latest inventory or an unbound paper copy of any of the final documents listed on the inventory by calling the Department at (717) 783-8727.

In addition, bound copies of some of the Department's documents are available as Department publications. Check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Following is the current list of recent changes. Persons who have questions or comments about a particular document should call the contact person whose name and phone number is listed with each document.

Draft Technical Guidance—Substantive Revision

DEP ID: 274-3000-003. Title: Continuous Source Monitoring Manual. Description: The Bureau of Air Quality Control of the Department of Environmental Protection is revising its *Continuous Source Monitoring Manual*. The *Continuous Source Monitoring Manual* is referenced in 25 Pa. Code § 139.102 (relating to references) and contains design specifications, performance specifications, performance test procedures, data storage and reporting requirements, quality assurance criteria and administrative procedures for requesting Department approval of continuous source monitoring systems required under the Department's rules and regulations. Many of the changes in the manual serve to harmonize requirements to meet the needs of State, Federal and regional programs. Major changes include the addition of a recertification guidance attachment and new PA EDR VERSION 2.0 Record Type Formats and Reporting Instructions. Copies of this document are available on the Department's public participation website at www.dep.state.pa.us (DEP Keyword: Participate) and on the Bureau of Air Quality's Continuous Emission Monitoring website at www.dep.state.pa.us/dep/deputate/airwaste/aq/cemspage/cems.htm. Written Comments: Interested persons may submit written comments on this draft technical guidance document by October 25, 2005. The Department will accept comments submitted by

e-mail, but comments submitted by facsimile will not be accepted. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Charles J. Zadakis, Chief, Continuous Emission Monitoring Section, Department of Environmental Protection, Bureau of Air Quality, P. O. Box 8468, Harrisburg, PA 17105-8468 or czadakis@state.pa.us. Effective Date: Upon publication of notice as final in the *Pennsyl-*

vania Bulletin. Contact: Questions regarding the draft technical guidance document should be directed to Charles Zadakis, (717) 772-3944.

Medical Assistance Program Fee Schedule Revisions; 2005 HCPCS Updates; Prior Authorization Requirements

The Department of Public Welfare (Department) announces several changes to the Medical Assistance (MA) Program Fee Schedule, and accompanying prior authorization requirements.

Fee Schedule Revisions

The Department is adding and end-dating procedure codes as a result of implementing the 2005 updates made by the Centers for Medicare and Medicaid Services (CMS) to the Healthcare Common Procedure Coding System (HCPCS). The 2005 HCPCS codes are effective for dates of service on and after October 1, 2005.

In addition to the 2005 HCPCS updates, the Department is adding the following procedure codes effective for dates of service on and after October 1, 2005: D7472, D7473, D7485, D5710, D7520, E2500, E2502, E2504, E2506, E2508, E2510, 17250, 66982, 87621, 93741, 93742, 93743, 93744 and 97602. These codes are being added due to significant Program Exception requests.

Procedure Code D1110 is currently on the Fee Schedule for recipients 13 years of age and older, however due to a clarification of the definition of adult by the American Dental Association as an individual 12 years of age and older, effective for dates of service on and after October 1, 2005, this code will be compensable for eligible recipients 12 years of age and older.

Certain procedure codes currently on the Fee Schedule will now be compensable for services provided in an Ambulatory Surgical Center (ASC) and Short Procedure Unit (SPU). ASCs and SPUs may bill for the following procedure codes using an SG modifier effective for dates of service on and after October 1, 2005: 31623, 31624, 31631, 31643, and 31646.

Fees for the added procedure codes will be published in a *Medical Assistance Bulletin* that will be issued to all providers within a few weeks.

Some local procedure codes that are being end-dated are being replaced with National procedure codes. In some instances, the fee associated with the National procedure code is higher or lower than the fee associated with the local procedure code. If the fee has been reduced, it is to reflect an appropriate payment rate to comply with the State Plan requirement that Pennsylvania Medicaid fees not exceed Medicare reimbursement fees. Specific information about these fee changes can be found in the table in this notice.

Prior Authorization Requirements

The following 2005 HCPCS procedure codes for items of durable medical equipment require prior authorization under section 443.6(b)(2) of the Public Welfare Code (code) (62 P. S. § 443.6(b)(2)), as amended by the act of July 7, 2005 (P. L. 177, No. 42), either because the item costs more than \$600, or because the item costs \$600 or less and the Department has determined to require prior authorization:

E1039 NU Transport chair, adult size, heavy duty, patient weight capacity 250 pounds or greater.

E2291 NU Back, planar, for pediatric size wheelchair including fixed attaching hardware.

E2292 NU Seat, planar, for pediatric size wheelchair including fixed attaching hardware.

E2293 NU Back, contoured, for pediatric size wheelchair including fixed attaching hardware.

E2294 NU Seat, contoured, for pediatric size wheelchair including fixed attaching hardware.

E2368 NU Power wheelchair component, motor, replacement only.

E2369 NU Power wheelchair component, gear box, replacement only.

E2370 NU Power wheelchair component, motor and gear box combination, replacement only.

E2602 NU General use wheelchair seat cushion, width 22 in. or greater, any depth.

E2603 NU Skin protection wheelchair seat cushion, width less than 22 in., any depth.

E2604 NU Skin protection wheelchair seat cushion, width 22 in. or greater, any depth.

E2605 NU Positioning wheelchair seat cushion, width less than 22 in., any depth.

E2606 NU Positioning wheelchair seat cushion, width 22 in. or greater, any depth.

E2607 NU Skin protection and positioning wheelchair seat cushion, width less than 22 inches, any depth.

E2608 NU Skin protection and positioning wheelchair seat cushion, width 22 inches or greater, any depth.

E2611 NU General use wheelchair back cushion, width less than 22 inches, any height, including any type mounting hardware.

E2612 NU General use wheelchair back cushion, width 22 inches or greater, any height, including any type mounting hardware.

E2613 NU Positioning wheelchair back cushion, posterior, width less than 22 inches, any height, including any type mounting hardware.

E2614 NU Positioning wheelchair back cushion, posterior, width 22 inches or greater, any height, including any type mounting hardware.

E2615 NU Positioning wheelchair back cushion, posterior-lateral, width less than 22 inches, any height, including any type mounting hardware.

E2616 NU Positioning wheelchair back cushion, posterior-lateral, width 22 inches or greater, any height, including any type mounting hardware.

E2618 NU Wheelchair accessory, solid seat support base (replaces sling seat), for use with manual wheelchair or lightweight power wheelchair, includes any type mounting hardware.

E2620 NU Positioning wheelchair back cushion, planar back with lateral supports, width less than 22 inches, any height, including any type mounting hardware.

E2621 NU Positioning wheelchair back cushion, planar back with lateral supports, width 22 inches or greater, any height, including any type mounting hardware.

The following 2005 HCPCS procedure codes are for orthoses and are therefore subject to prior authorization under section 443.6(b)(1) of the code:

K0630 Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0631 Sacroiliac orthosis, flexible, provides pelvic-sacral support, reduces motion about the sacroiliac joint, includes straps, closures, may include pendulous abdomen design, custom fabricated.

K0634 Lumbar orthosis, flexible, provides lumbar support, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include pendulous abdomen design, shoulder straps, stays, prefabricated, includes fitting and adjustment.

K0635 Lumbar orthosis, sagittal control, with rigid posterior panels, posterior extends from L-1 to below L-5 vertebrae, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0636 Lumbar orthosis, sagittal control, with rigid anterior and posterior panels, posterior extends from L-1 to below L-5 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0637 Lumbar-sacral orthosis, flexible, provides lumbosacral support, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include stays, shoulder straps, pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0639 Lumbar-sacral orthosis, sagittal control, with rigid posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, stays, shoulder straps, pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0640 Lumbar-sacral orthosis, sagittal control, with rigid anterior and posterior panels, posterior extends from sacrococcygeal junction to T-9 vertebra, produces intracavitary pressure to reduce load on the intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0645 Lumbar-sacral orthosis, sagittal-coronal control, lumbar flexion, rigid posterior frame/panels, lateral articulating design to flex the lumbar spine, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, anterior panel, pendulous abdomen design, custom fabricated.

K0646 Lumbar-sacral orthosis, sagittal-coronal control, with rigid anterior and posterior frame/panels, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0647 Lumbar-sacral orthosis, sagittal-coronal control, with rigid anterior and posterior frame/panels, posterior extends from sacrococcygeal junction to T-9 vertebra, lateral strength provided by rigid lateral frame/panels, produces intracavitary pressure to reduce load on intervertebral discs, includes straps, closures, may include padding, shoulder straps, pendulous abdomen design, custom fabricated.

K0648 Lumbar-sacral orthosis, sagittal-coronal control, rigid shells/panels, posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xiphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is provided by overlapping rigid plastic and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, prefabricated, includes fitting and adjustment.

K0649 Lumbar-sacral orthosis, sagittal-coronal control, rigid shells/panels, posterior extends from sacrococcygeal junction to T-9 vertebra, anterior extends from symphysis pubis to xiphoid, produces intracavitary pressure to reduce load on the intervertebral discs, overall strength is

provided by overlapping rigid plastic and stabilizing closures, includes straps, closures, may include soft interface, pendulous abdomen design, custom fabricated.

Department of Education—Compliance with the No Child Left Behind Act of 2001; Bridge Certification; Regulation No. 6-294

On June 30, 2005, the Independent Regulatory Review Commission (Commission) received this regulation from the Department of Education (Department). This rulemaking amends 22 Pa. Code Section 403.4. Notice of proposed rulemaking was omitted for this regulation. Governor Edward G. Rendell certified the regulation as necessary to meet an emergency on June 28, 2005. The regulation became effective upon publication in the *Pennsylvania Bulletin* on July 2, 2005.

The regulation extends the deadline for teachers to apply for participation in the Bridge Certification program to July 30, 2006. Bridge Certification is a means for certain teachers to become "highly qualified" as required by the Federal No Child Left Behind Act of 2001 (20 U.S.C.A. § 6319).

We have determined this regulation is consistent with the statutory authority of the Department (24 P.S. § 26-2603-B(d)(10)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Commissioners Voting: Alvin C. Bush, Acting Chairperson; Arthur Coccodrilli; John F. Mizner, Esq., by phone; Murray Ufberg, Esq.

State Athletic Commission—Communicable Disease Testing; Regulation No. 16-34

On November 1, 2004, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the State Athletic Commission (SAC). This rulemaking amends 58 Pa. Code Sections 1 and 21. The proposed regulation was published in the November 13, 2004, *Pennsylvania Bulletin* with a 30-day public comment period. The final-form regulation was submitted to the Commission on July 8, 2005.

This final-form regulation adds annual testing for communicable diseases to the requirements for the licensing of professional boxers in Pennsylvania.

We have determined this regulation is consistent with the statutory authority of the SAC (5 Pa.C.S. § 103) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Environmental Quality Board—Bond Adjustment and Bituminous Mine Subsidence Control Standards; Regulation No. 7-385

On September 3, 2003, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (Board). This rulemaking amends 25 Pa. Code Chapters 86 and 89. The proposed regulation was published in the September 13, 2003, *Pennsylvania Bulletin* with a 60-day public comment period. The final-form regulation was submitted to the Commission on July 1, 2005.

This final-form regulation satisfies conditions set forth by the Federal Office of Surface Mining and Reclamation and Enforcement. Pennsylvania must meet these conditions to maintain primary enforcement authority over coal mining. This regulation amends requirements relating to: the protection and repair of homes, related structures and noncommercial buildings above underground coal mines; the replacement of water supplies affected by underground mining operations; and permit applications for underground mining operations. It also requires the adjustment of bonds posted to ensure the fulfillment of subsidence damage repair obligations and reclamation obligations when the Department of Environmental Protection identifies a change in liability.

We have determined this regulation is consistent with the statutory authority of the Board (52 P.S. §§ 30.53b, 691.5, 1396.4b and 1406.1—1406.21) and the intention of the General Assembly. Having considered all of the other

criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Environmental Quality Board—Concentrated Animal Feeding Operations and Other Agricultural Operations; Regulation No. 7-391

On July 28, 2004, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Environmental Quality Board (EQB). This rulemaking amends 25 Pa. Code Chapters 91 and 92. The proposed regulation was published in the August 7, 2004, *Pennsylvania Bulletin* with a 90-day public comment period. The final-form regulation was submitted to the Commission on July 26, 2005.

This regulation amends existing regulations concerning management of manure generated by agricultural operations. The primary purpose of the amendments is for Pennsylvania to maintain delegation of the National Pollutant Discharge Elimination System Concentrated Animal Feeding Operation program.

We have determined this regulation is consistent with the statutory authority of the EQB (35 P. S. §§ 691.5 and 691.402) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

By Order of the Commission:

This regulation is approved.

Appeal of Brendan Lake; file no. 05-130-05600; Erie Insurance Exchange; doc. no. P05-07-028; September 21, 2005, 3 p.m.

Parties may appear with or without counsel and offer relevant testimony or evidence. Each party must bring documents, photographs, drawings, claims files, witnesses, and the like, necessary to support the party's case. A party intending to offer documents or photographs into evidence shall bring enough copies for the record and for each opposing party.

In some cases, the Insurance Commissioner (Commissioner) may order that the company reimburse an insured for the higher cost of replacement insurance coverage

obtained while the appeal is pending. Reimbursement is available only when the insured is successful on appeal and may not be ordered in all instances. If an insured wishes to seek reimbursement for the higher cost of replacement insurance, the insured must produce documentation at the hearing which will allow comparison of coverages and costs between the original policy and the replacement policy.

Following the hearing and receipt of the stenographic transcript, the Commissioner will issue a written order resolving the factual issues presented at the hearing and stating what remedial action, if any, is required. The Commissioner's Order will be sent to those persons participating in the hearing or their designated representatives. The Order of the Commissioner may be subject to judicial review by the Commonwealth Court.

Persons with a disability who wish to attend an administrative hearing and require an auxiliary aid, service or other accommodation to participate in the hearing should contact Kathryn Culbertson, Agency Coordinator at (717) 705-4194.

United Healthcare Insurance Company; Application for Approval of Revised Rates for AARP Group Prestandardized Medicare Supplement Policy Forms M1—M7 and MA; Rate Filing

United HealthCare Insurance Company has filed for approval increased rates for its AARP Group Prestandardized Medicare Supplement policy forms. The filing requests a rate increase of 11.3%.

These rate adjustments will affect approximately 15,837 insureds and will generate approximately \$3.3 million in additional premium annually. The company would like the revised rates to take effect on January 1, 2006.

Also included in the filing are reduced rates for insureds who choose to drop their prescription drug benefits. Plans M3, M4 and M7 include prescription drug benefits which the insureds may eliminate from their coverage effective January 1, 2006, in exchange for a reduced rate. These rate reductions compared with the proposed rates including prescription drug coverage are as follows: M3, -13.6%; M4, -13.6%; M7, -14.4%.

Unless formal administrative action is taken before November 22, 2005, the subject filing may be deemed approved by operation of law.

A copy of the filing is available on the Insurance Department's (Department) website: www.ins.state.pa.us. Under the Quick Links section, click on the link "Rate Filings Published in the PA Bulletin."

Copies of the filing are also available for public inspection, by appointment, during normal working hours at the Department's regional offices in Harrisburg, Philadelphia and Pittsburgh.

Interested parties are invited to submit written comments, suggestions or objections to Michael Gurgiolo, Insurance Department, Insurance Product Regulation and Market Enforcement, Room 1311, Strawberry Square, Harrisburg, PA 17120, mgurgiolo@state.pa.us within 30 days after publication of this notice in the *Pennsylvania Bulletin*.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". The penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter.

Act 1984-196 redefined a "qualified small business concern" as any independently owned and operated, for-profit business concern employing 100 or fewer employees. See 4 Pa. Code § 2.32. The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.

SERVICES

Construction & Construction Maintenance

RFP PASSHE-QAR-2005-1 The Pennsylvania State System of Higher Education (System), through the Office of the Chancellor, expects to centrally contract with 2 or more firms to be available on an as-needed basis to perform Quality Assurance Reviews of Construction Plans and Specifications (QA Reviews and Related Services) for projects that will occur throughout the System. Proposers shall be current and experienced providers of the types of services desired and shall have proven and documented methodologies, procedures, and checklists for the performance of the types of services desired. The System includes the Commonwealth's 14 state-owned universities located throughout Pennsylvania, Dixon University Center in Harrisburg, and various branch campuses and other facilities operated by the Universities. Anticipated work includes reviews for various projects undertaken by the System and its Universities associated with the construction and renovation of higher education facilities. The Request for Proposal (RFP) is available at the following Web Address: <http://www.passhe.edu/content/?office/finance/facilities/procurement>. Interested and qualified firms can obtain an RFP preferably from the web site or from Dorethe Latin, Construction Support Secretary, Pennsylvania State System of Higher Education, Dixon University Center, Office of the Chancellor, Construction Support Office, 2986 North Second Street, Harrisburg, PA 17110. Requests for the RFP can be faxed to (717) 720-4111, or e-mailed to dlatin@passhe.edu. A Pre-Proposal Conference will be held on September 14, 2005. Responses to the RFP are due on October 5, 2005, by 4 p.m. The System encourages responses from small firms, minority firms, women-owned firms, and firms that have not previously worked for the System, and will consider joint ventures that enable these firms to participate in System contracts. Non-discrimination and equal opportunity are the policies of the Commonwealth and the Pennsylvania State System of Higher Education.
