READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Rule 212.1. Pre-trial Statements.

(a) *Time tables:*

(1) All plaintiffs, within twenty (20) days after the 240 day period, or the extension thereof, shall file their pre-trial statements with the Prothonotary.

(2) All original defendants, within twenty (20) days of the filing of the plaintiff's pre-trial statements, shall file their pre-trial statements with the Prothonotary.

(3) All other parties, within twenty (20) days of the filing of original defendants' pre-trial statements, shall file their pre-trial statements with the Prothonotary.

(b) The pre-trial statement shall contain:

(1) A brief narrative statement of the essential facts upon which liability is asserted or denied.

(2) The legal issues involved and legal authorities relied upon.

(3) A list of the names and addresses of all witnesses the party expects to call, which witnesses shall be classified as liability or damage witnesses.

(4) A specific description of damages.

(i) Any party seeking to recover damages for personal injuries shall attach to their pre-trial statement, if not previously provided to all parties, a written authorization to inspect and make copies of the records and reports of any physician, hospital or clinic by whom or where said party may have been examined, treated, or hospitalized for the injuries or disabilities complained of, and covering prior injuries or disabilities where the same may be relevant.

(ii) A list of the damages that the party intends to claim and prove at trial.

(5) The settlement status of the case.

(6) A realistic estimate of the trial time required for presentation of their case, as well as total trial time required.

(7) There shall be attached to the pre-trial statement:

(i) A copy of all reports containing findings or conclusions of any physician who has treated or examined the party or has been consulted in connection with any injuries complained of and whom the party expects to call as a witness at the trial of the case. If timely production of any report is not made, the testimony of such physician shall be excluded at the trial except upon consent of all parties or upon express order of the Court.

(ii) A copy of all reports containing findings or conclusions of any expert who has been consulted in connection with the matters involved in the case and whom the party expects to call as a witness at the trial of the case. If timely production of any report is not made, the testimony of such expert shall be excluded at the trial except upon consent of all parties or upon express order of Court.

(8) Upon failure of any party to file a pre-trial statement within the time required, upon motion the Court may impose the sanctions provided in Pa.R.C.P. Sec. 4019(c). Also, the Court may order other appropriate relief including, but not limited to, the barring of testimony, assessment and awarding of attorney fees, and expenses and costs to opposing counsel.

(9) Counsel, upon agreement of all parties, or upon Order of Court, may file a supplemental pre-trial statement up to the time of trial as long as such filing does not delay trial. Supplemental statements may include additional claims for damages, additional damage and/or liability witnesses, expert witnesses, and/or exhibits intended to be used at trial.

STATEMENTS OF POLICY

Title 22—EDUCATION

PROFESSIONAL STANDARDS AND PRACTICES COMMISSION

[22 PA. CODE CH. 233]

Bylaws

The Professional Standards and Practices Commission (Commission) amends Chapter 233 (relating to bylaws—statement of policy) to read as set forth in Annex A.

Chapter 233 delineates the Commission's internal governance procedures, including the duties and responsibilities of Commission members and staff, and procedures for the Commission's adjudication of educator misconduct complaints and applications for reinstatement. The Educator Discipline Act (act) (24 P. S. §§ 2070.1a—2070.18c) was significantly amended by the act of December 18, 2013 (P. L. 1205, No. 120), thereby necessitating amendments to the Commission's bylaws. These amendments are intended to ensure the Commission's bylaws reflect the changes to the act, streamline procedures, and provide guidance to the Department of Education (Department), educators and the public with respect to the Commission's interpretation and administration of the act. The most significant changes are summarized as follows.

Summary

Section 233.113(c) (relating to disciplinary proceedings) sets forth the purposes of professional discipline and the factors the Commission considers in crafting disciplinary sanctions. The factors are intended to promote consistency, fairness and transparency by providing a framework to guide the exercise of discretion in determining sanctions which meet the general sanctioning objectives. They are also intended to assist Department prosecutors and educators in the negotiation of settlement agreements and hearing officers in issuing proposed adjudications by informing the parties as to the considerations that the Commission believes are relevant to any sanctioning decision.

Section 233.113(d) clarifies the Commission's interpretation and administration of the act with regard to settlement agreements and, specifically, the necessity of Commission approval of settlement agreements. The act contemplates that the Commission, as the body charged with overseeing the educator discipline system and as the adjudicator with exclusive authority to impose professional discipline, must approve settlement agreements entered between the Department and educators prior to implementation.

In § 233.123 (relating to reinstatements), the Commission streamlined the procedures regarding reinstatement of certificates suspended, surrendered or revoked by simplifying the rules for providing public notice of reinstatement applications.

Affected Parties

Chapter 233 affects primarily educators over whom the Commission has jurisdiction to discipline for misconduct. The amendments clarify the interpretation and administration of the act for these educators.

Cost and Paperwork Estimates

The amendments to Chapter 233 do not impose additional reporting or paperwork requirements beyond those

specified by the act or 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure) and will not engender additional costs.

Effective Date

These amendments are effective upon publication.

Sunset Date

Although not subject to sunset, the Commission will review Chapter 233 on an ongoing basis.

Regulatory Review

As a statement of policy, Chapter 233 is not subject to the Regulatory Review Act (71 P. S. §§ 745.1—745.14). The Commission adopted the amendments after consultation with interested representatives of affected parties at public meetings.

§ 233.102. Purpose.

The Commission is committed to providing leadership for improving the quality of education in this Commonwealth by establishing high standards for preparation, certification, practice and ethical conduct in the teaching profession. As the body charged with the oversight and enforcement of the educator discipline system, the primary goal of the Commission is to ensure the health, safety and welfare of students and other individuals in schools in this Commonwealth while facilitating the fair, efficient and transparent adjudication of complaints against educators.

§ 233.106. Commission staff.

(a) *Executive Director of the Commission.* Under the act, there is an Executive Director of the Commission who serves as the executive officer and secretary of the Commission. The Commission and the Secretary jointly employ and fix the compensation of the Executive Director. The Executive Director, with approval of the Commis-

sion and the Secretary, may employ additional professional and clerical personnel as may be necessary to carry out the duties and responsibilities of the Commission. The Department will provide adequate space and equipment to facilitate the activities of the Commission. The duties of the Executive Director are as follows:

(1) The Executive Director will serve as the executive officer of the Commission without the right to vote.

(2) The Executive Director will serve as the administrative liaison of the Commission with the Legislature, agencies and bureaus of the Department and the State and Federal government, local education agencies and organizations with which the Commission has common interests.

(3) The Executive Director will manage the administrative details of meetings of the Commission and committees established by the Commission, including the preparation of agendas, minutes and records of action, and the proper circulation of notices of meetings of the Commission.

(4) The Executive Director will obtain, organize and provide information and materials pertinent to and prepare reports for the work of the Commission.

(5) The Executive Director will assist committees of the Commission involved in studies and hearings, research projects and literature reviews.

(6) The Executive Director will monitor and inform the Commission of actions of the State Board, the Department, and other agencies and organizations whose actions and interests are congruent with those of the Commission.

(7) The Executive Director will monitor and inform the Commission of legislation affecting the responsibilities of the Commission.

(8) The Executive Director will supervise Commission staff persons.

(9) The Executive Director will, with the advice and consent of the Commission's ad hoc budget committee, prepare and present budgets on behalf of the Commission to the Department.

(10) The Executive Director will act as the public relations officer of the Commission, as directed by the Chairperson and the Commission.

(11) The Executive Director will perform related work as required by the Commission.

(b) *Commission counsel.* Under the act, the Governor, through the Office of General Counsel, will provide legal advice and assistance as the Commission may require.

§ 233.107. Meetings of the Commission.

(a) Under the act, meetings will be held at least five times per year at the call of the Chairperson or upon request in writing of a majority of the seated members of the Commission. A majority of the Commission members then seated constitutes a quorum, and a majority of a quorum has authority to act upon any matter properly before the Commission unless otherwise specified in the act. Meetings of the Commission will be open to the public in accordance with 65 Pa.C.S. Chapter 7 (relating to Sunshine Act), when applicable.

(b) The Commission will conduct its meetings in accordance with the act and 2 Pa.C.S. (relating to administrative law and procedure), when applicable. If an inconsistency arises, the provisions of the act are controlling. The Commission will enter as a matter of record the

minutes of each meeting, every vote taken by the Commission and every official act of the Commission.

(c) The annual reorganization meeting will take place during the first meeting after the Governor appoints the Chairperson. At that meeting, a Vice Chairperson will be appointed by the Chairperson with the consent of the Commission.

(d) Notification of Commission meetings will be mailed to the commissioners at least 2 weeks in advance. An agenda and supportive data will be included with written notification.

(e) Upon the written request of a majority of the Commissioners, the Chairperson will call a special meeting within 5 days of the receipt of the request. Commissioners will be notified by phone and provided with the date, time, place and agenda. Written notification will follow.

(f) Meetings of the Commission are ordinarily held at the Department's Harrisburg offices. Meetings may be called at other locations to accommodate larger public groups or for other specific purposes.

(g) A roll call vote of the Commissioners present at a meeting is required for actions taken on recommendations to the State Board, for statements of policy and for actions taken in fulfillment of the duties of the Commission as prescribed by law. A voice vote is sufficient for all other matters unless a roll call vote is requested by two or more Commissioners. Unless otherwise required by law, a majority of those present and voting is sufficient for a motion to pass.

(h) Proxy voting will be permitted only if the following conditions are met:

(1) The Chairperson announces an intention to permit proxy voting and a majority of those Commissioners present do not object.

(2) The proxy vote applies only to questions that appear clearly on the meeting agenda or to motions that have been presented for consideration during the meeting.

(3) The Commissioner is present at the meeting but is required to leave prior to a vote.

(4) The Commissioner requests permission to vote by proxy.

(5) The Commissioner presents a proxy in writing to the Chairperson indicating how the vote is to be cast.

(6) Proxy voting will not be permitted in matters of discipline and reinstatement.

(i) The Commission may declare an executive session as allowed under 65 Pa.C.S. § 708 (relating to executive sessions) to the extent applicable. Executive sessions of the Commission will be held only in accordance with 65 Pa.C.S. Chapter 7.

(j) Rules and procedures not specifically adopted by the Commission will be in accordance with the latest edition of *Robert's Rules of Order*.

§ 233.109. Methods of operation for Commission and committee meetings.

(a) The order of business for Commission meetings will be set forth in an agenda, which will reflect all action items.

(b) Only matters assigned to the Commission by law will be considered as agenda items.

(c) Business will be conducted in accordance with this chapter and the latest edition of *Robert's Rules of Order*.

(d) Except as provided in paragraph (3), a person or organization, other than the Commissioners and the staff of the Commission, will not be permitted to participate in a Commission or committee meeting unless that person or organization has been placed on the agenda. The Commission or committee may establish limits to the content and length of speeches by persons who wish to address the Commission or committee.

(1) A person disturbing, interrupting or preventing the conduct of a public meeting may be requested to leave the meeting or may be removed upon failure to comply with the meeting rules of the Commission.

(2) Visitors to meetings are allowed to record the proceedings using audio or video recording equipment, but must first inform the Commission of their intent to record.

(3) For a brief period at each meeting, prior to consideration of the action items, time will be allotted on the agenda for hearing public comment. Public comments may be entertained at other times during a meeting at the discretion of the Chairperson. A Commissioner may request a member of the public who has spoken to an issue to clarify a position.

(e) The Commission and committees will receive and record into the minutes written proposals submitted by associations, individuals representing the teaching profession and other interested persons.

(f) The Commission or a committee may request the services of resource persons to facilitate the work of the Commission or committee.

(g) Action items may be submitted to the Commission or committee by agencies of the Commonwealth, a Commissioner or an interested party. The Commission or committee may take the item under advisement or may table, refer, dismiss or act upon the item.

(h) Any commissioner may submit agenda items for discussion or new business for the next Commission or committee meeting. This will not prohibit a commissioner from initiating items under new business in a current meeting.

(i) Public notice will be issued at least 36 hours prior to a meeting of the Commission or a committee and at least 24 hours before a reconvened or rescheduled Commission or committee meeting. Public notice is not required for emergency meetings. Emergency meetings are those called to deal with "a real or potential emergency involving a clear and present danger to life or property."

(j) Except when specifically prohibited by law, votes on action items taken at a Commission or committee meeting are publicly cast and, in the case of roll call votes, recorded in the minutes of the Commission or committee.

(k) Formal hearings will be conducted in accordance with 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure) and other rules or procedures which might be promulgated by the Commission.

(l) A copy of the minutes of Commission and committee meetings will be made available to any individual or organization so requesting.

(m) Materials and statements released in the name of the Commission will be approved by the Commission.

(n) Executive sessions will be held as follows:

(1) The Commission or committees may admit to an executive session persons necessary to carry out the purpose of the meeting. The persons may include staff persons, legal and technical advisors, and individuals and their representatives who may be affected by matters to be discussed.

(2) An executive session may be held during an open meeting or at the conclusion of an open meeting, or may be announced for a future time at an open meeting.

(3) At the open meeting occurring immediately prior to or subsequent to an executive session, the Commission or committee will announce and include within its minutes, the date, time, location and purpose of an executive session. The purpose of an executive session may be explained by a general reference to the types or categories of subjects discussed at the session and need not identify with specificity persons or matters considered during the meeting.

(4) Unless otherwise provided by law, a meeting at which a quorum of the members of the Commission or committees takes official action with regard to matters discussed at an executive session will be open to the public.

§ 233.113. Disciplinary proceedings.

(a) Disciplinary proceedings will be initiated and conducted in accordance with sections 9 and 9.2—9.5 of the act (24 P. S. §§ 2070.9 and 2070.9b—2070.9e) and §§ 233.114—233.122.

(b) At any disciplinary proceeding conducted by or on behalf of the Commission, the affected educator is entitled to represent himself or be represented by legal counsel. No other designated representative other than legal counsel will be permitted to appear on behalf of the affected educator.

(c) The Commission considers allegations of misconduct on a case-by-case basis, taking into consideration the details specific to each case. The overall purposes of the educator discipline system and the Commission's responsibility in imposing sanctions are as follows: protecting the public from educators who are unfit to discharge their professional duties and ensuring the safety and security of students and others in schools in this Commonwealth; preserving the integrity and reputation of the teaching profession and the public's confidence in the profession; declaring and upholding proper standards of conduct and performance; determining the continued fitness of an educator to remain in the profession and, whenever possible, rehabilitating the educator; and deterring further unethical conduct. The discipline, if any, to be imposed in a particular case will depend upon the facts and circumstances of the case, will be fashioned in light of the purposes of educator discipline in this subsection and will take into account aggravating or mitigating circumstances. The Commission strives to ensure that similar violations result in similar outcomes and that the sanction or combination of sanctions that it decides to impose is both sufficient and no more than is necessary to achieve the purposes of sanctions. When applying these principles and crafting appropriate sanctions, the Commission may consider one or more of the following factors, as it deems appropriate:

(1) The seriousness and circumstances surrounding the misconduct.

(2) The extent, severity and imminence of danger to students, other educators or the public.

(3) Whether the misconduct involved sexual misconduct, or sexual abuse or exploitation.

(4) The status of the victim, if any, including the victim's age or special vulnerability.

(5) The harm or adverse impact to students or other persons.

(6) The harm or adverse impact to the educator's employer and to the profession.

(7) If the misconduct or violation is an isolated occurrence, part of a continuing pattern or one of a series of incidents.

(8) The educator's state of mind at the time of the misconduct (that is, negligent, reckless or intentional).

(9) The pecuniary benefit or other gain inuring to the educator by virtue of the misconduct.

(10) Whether the conduct was criminal in nature.

(11) The likelihood of a recurrence of the misconduct or violation.

(12) The age and level of maturity of the students served by the educator.

(13) The danger that students will imitate the educator's behavior or use it as a model.

(14) The educator's level of experience.

(15) The educator's past performance and performance following the misconduct or violation.

(16) The educator's prior disciplinary record, including warnings, or absence of a prior disciplinary record.

(17) Timely good faith effort to make restitution or to rectify the consequences of the misconduct.

(18) Meaningful and sustained period of successful rehabilitation.

(19) Impositions of other penalties or sanctions, including local disciplinary action.

(20) The educator's attitude and conduct during the disciplinary proceedings.

(21) The deterrence impact of the sanction.

(22) Penalties imposed in other cases for similar violations.

(23) Other extenuating circumstances or other factors bearing on the appropriate nature of a disciplinary sanction.

(d) After completion of a preliminary or full investigation, the Department may enter into a written settlement agreement with the educator.

(1) Settlement agreements will be presented to the Commission or a panel of members of the Commission for approval or disapproval.

(2) The Commission will promptly approve the settlement agreement if it is deemed by the Commission to be fair and just and the interests of the parties and the public interest have been considered.

(3) Once approved by the Commission, a settlement agreement will become a final order of the Commission.

(4) If the Commission disapproves a settlement agreement, the agreement will not be enforceable and the parties retain all rights they had prior to the execution of the agreement.

(5) Admissions made by an educator in a settlement agreement that is ultimately rejected by the Commission

may not be used against the educator in a formal disciplinary proceeding. This subsection does not prevent the Department from offering, at a formal disciplinary hearing, other evidence to prove factual matters disclosed in a settlement agreement.

(6) Whenever an educator surrenders his educator certification or employment eligibility, the Department will request an order from the Commission accepting the educator's surrender.

§ 233.114. Confidentiality and unauthorized release of information.

(a) Under section 17.2 of the act (24 P. S. § 2070.17b), information relating to complaints, or proceedings relating to or resulting from complaints, including the identity of the complainant, will remain confidential unless discipline, other than a private reprimand or a supplemental sanction deemed private by the Commission, is ordered. If proceedings, after the exhaustion of all appeals, result in discipline, other than a private reprimand or a supplemental sanction deemed private by the Commission, all records pertaining thereto will become public. Records relating to immediate discipline are public at the time the immediate discipline is imposed.

(b) Disclosure of information previously made public as a result of action by a school entity to discipline or dismiss an educator for cause or as a result of an educator having been formally charged with or convicted of a crime is permitted. The confidentiality provisions of the act are not intended to prohibit a school entity from using information previously known, or received through its own investigation, in fulfillment of its duties under the Public School Code of 1949 (24 P. S. §§ 1-101—27-2702), including those duties associated with local dismissal proceedings.

(c) Members, staff and employees of the Commission, the Department, local school entities and participants in disciplinary proceedings shall comply with the confidentiality requirements of the act. Correspondence between and among the Commissioners and staff persons containing confidential material will be marked as personal and confidential, and precaution will be taken to avoid unauthorized disclosure.

(d) Under section 17.2 of the act, a person who releases or gives out information deemed confidential under the act, without the authorization of the Commission or as authorized by the act, commits a misdemeanor of the third degree, unless the information was known to the person or available independently of the disciplinary proceeding.

(e) Petitions for authorization to release information under section 17.2 of the act shall be filed with the Commission in accordance with 1 Pa. Code § 35.17 (relating to petitions generally). Petitions shall be served on all interested parties, including the Department and the affected educator. Interested parties shall have 20 days or the number of days set by the Commission from the date of service to respond to the petition. In determining whether to grant the petition, the Commission will consider the public interest and the interests of all affected parties, including the petitioner, the educator and the Department.

(f) This section does not apply to reinstatement proceedings or to proceedings under section 9.2 or 9.5 of the act (24 P. S. §§ 2070.9b and 2070.9e).

(g) Nothing in this section is intended to deny an educator access to information necessary to prepare a

defense in a disciplinary proceeding or to protect an individual from civil liability if the individual participated in the disciplinary process under the act maliciously or provided false information that the individual knew, or had reason to know, was false.

(h) The Commission, in releasing information to the public, will take all steps reasonably possible to protect the identity of any child or student involved in the disciplinary proceeding.

§ 233.115. Notice and hearings.

(a) *Written notice.* Upon determination to initiate hearing procedures, section 13(a) of the act (24 P. S. § 2070.13(a)) requires the Department, within 30 days, to send a written notice to the affected educator and to the governing board of the school entity in which the educator is or was last employed. The notice will be treated by the Commission as an order to show cause under 1 Pa. Code § 35.14 (relating to orders to show cause). The notice should contain a statement of the particulars of the charges against the educator, the right of the educator to respond and to request a hearing within 30 days after service of the notice of charges, and the right of the governing body of the school entity in which the educator is or was last employed to intervene under section 13(c)(4) of the act and 1 Pa. Code § 35.28 (relating to eligibility to intervene).

(b) *Docket number and notice.* After the Department files a copy of the notice of charges with the Commission, the Commission will immediately establish a docket number. The Commission will provide notice thereof to the Department, the educator and the governing board of the school entity by which the affected educator is or was last employed. The Commission will also provide to the governing board a copy of the notice of charges and will inform the governing board of its opportunity to file a petition to intervene under section 13(c)(4) of the act and 1 Pa. Code § 35.28.

(c) *Failure to respond.*

(1) If the educator fails to timely respond to the notice of charges, the educator is deemed in default under 1 Pa. Code § 35.37 (relating to answers to orders to show cause), and the Commission may, upon motion of any party, deem admitted the relevant facts stated in the notice of charges and proceed to consideration of discipline based upon the admitted facts and exhibits, if any, to the notice of charges.

(2) The Commission will not in these cases appoint a hearing officer or hold a hearing unless the Commission determines that the appointment of a hearing officer is necessary for the Commission to decide the matter. In these cases, the Commission will determine the scope of the hearing officer's authority.

(3) The Executive Director will provide notice to the parties of the meeting at which the Commission intends to consider the matter.

(d) *Right to an evidentiary hearing.*

(1) If the educator timely responds in writing to the notice of charges by specifically admitting or denying the allegations of the notice of charges, setting forth the facts upon which the educator relies, and stating concisely the matters of law relied upon in compliance with 1 Pa. Code § 35.37, the Commission will appoint a hearing officer to conduct proceedings in accordance with the act, 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure) and other rules which the Commission might prescribe.

(2) If the educator timely responds in writing to the notice of charges but expressly waives the right to an evidentiary hearing under section 13(c)(3) of the act or fails to comply with 1 Pa. Code § 35.37, the Commission may appoint a hearing officer to conduct the proceedings as the Commission or its legal counsel might direct or, upon motion of a participant, the Commission may proceed directly to consider the matter of discipline based upon the notice of charges, the response to the notice of charges and other documents as might be part of the formal record.

(e) *Review of notice.* Whenever the Commission has determined, after review of the notice of charges and a certified copy of the verdict, judgment or sentence that an educator has been convicted of a crime involving moral turpitude or a crime listed in section 111(e)(1)—(3) of the Public School Code of 1949 (24 P. S. § 1-111(e)(1)—(3)), the Commission will direct the Department to revoke the educator's certificates or employment eligibility in accordance with section 9.2(a)(2) of the act (24 P. S. § 2070.9b(a)(2)). In determining whether a crime involves moral turpitude, the Commission may elect to consider the matter directly or may appoint a hearing officer to assist with disposition of the case.

§ 233.117. Hearing procedures.

Hearings will be held in accordance with the act and 1 Pa. Code Part II (relating to General Rules of Administrative Practice and Procedure), as follows:

(1) *Hearing officer appointed.* Within 15 days of the filing of a notice of charges and response thereto requiring the services of a hearing officer, the Commission will appoint a hearing officer from a list of impartial third parties qualified to conduct hearings as provided by section 13(c)(1) of the act (24 P. S. § 2070.13(c)(1)).

(2) *Burden of proof.* Under section 13(c)(2) of the act, the burden of proof is on the Department, which acts as prosecutor, to establish by a preponderance of the evidence that grounds for discipline exist.

(3) *Right to counsel.* Under section 13(c)(3) of the act, an educator against whom a charge is made has the right to be represented by legal counsel and to present evidence and argument under 1 Pa. Code Part II and other rules of procedure promulgated by the Commission.

(4) *Closed hearings.* Under section 13(c)(5) of the act, hearings will be closed, and only the Department, Commission members and staff, the educator and his counsel, any intervener or its counsel, and witnesses will be permitted to attend. When a witness is a child or student, the Commission or its hearing officers may in their discretion permit a parent or guardian to be in attendance during the testimony of the child or student.

(5) *Department recommendation.* Under section 13(c)(6) of the act, the Department may recommend to the hearing officer and Commission appropriate discipline.

§ 233.118. Hearing officer's decision and exceptions.

(a) Under section 13(c)(7) of the act (24 P. S. § 2070.13(c)(7)), the hearing officer will issue a proposed report concerning whether the Department has met its burden of establishing that misconduct has occurred and whether discipline should be imposed within 90 days after the conclusion of the hearing, including the submissions of briefs and oral argument. A proposed report will include proposed findings of fact and conclusions of law, and will specify the discipline recommended.

(b) Under section 14(a) of the act (24 P. S. § 2070.14(a)), the decision of the hearing officer will

become final unless excepted to by the Department or the educator within 30 days after the proposed report is mailed or unless the Commission initiates a review of the proposed report in the absence of exceptions or reopens the proceeding for the reception of further evidence within 60 days of the date the proposed report was mailed.

(c) The Commission will promptly consider exceptions to the hearing officer's proposed report. After receiving the proposed report of the hearing officer, the written exceptions thereto and the written response to exceptions, the Commission will set the matter for oral argument before the Commission. The Executive Director will provide notice to the parties of the meeting at which the Commission intends to consider the matter.

(d) When exceptions are filed or when the Commission initiates a review of the proposed report in the absence of exceptions, the Commission, by a majority vote of its full membership, will accept, modify or reject the hearing officer's proposed report.

§ 233.119. Appeal.

(a) *Educator or Department appeal.* Under section 15(a) of the act (24 P. S. § 2070.15(a)), an order of the Commission regarding discipline or reinstatement of an educator may be appealed only by the Department or the educator as an adjudication by a State agency in the manner provided by law.

(b) *Appeal stays discipline.* Under section 15(b) of the act, an appeal filed under section 15(a) of the act operates as a stay of the discipline until the determination of the appeal, except when the grounds for discipline include sexual misconduct or sexual abuse or exploitation, the Commission's decision to discipline is accompanied by a finding that immediate discipline is necessary to protect the health, safety or welfare of students or other persons in the schools of this Commonwealth, or when the discipline imposed is the result of a negotiated settlement between the parties or is imposed under section 9.2 of the act (24 P. S. § 2070.9b).

§ 233.120. Expedited hearing procedures.

(a) Notwithstanding another provision of the act, if the Department determines that immediate discipline is necessary to protect the health, safety or welfare of students or other persons in the schools of this Commonwealth, section 13(b) of the act (24 P. S. § 2070.13(b)) permits the Department to request that the Commission modify the hearing procedures set forth in section 13(c) of the act and schedule an expedited hearing.

(b) A written request by the Department that the Commission modify the procedures in section 13(c) of the act will be treated by the Commission as a petition under 1 Pa. Code §§ 35.17 and 35.18 (relating to petitions generally; and petitions for issuance, amendment, waiver or deletion of regulations). An answer to the petition shall be filed with the Commission within 15 days after service of the petition, or at another time as directed by the Commission.

(c) If an educator is indicted for a crime set forth in section 111(e)(1)—(3) of the Public School Code of 1949 (24 P. S. § 1-111(e)(1)—(3)) and the Department believes that the educator poses a threat to the health, safety or welfare of a student or other individuals in a school, the Commission will expedite consideration of the suspension of the educator's certificate or eligibility under section 9.2(a)(1) of the act (24 P. S. § 2070.9b(a)(1)) as follows:

(1) The educator's response to the notice of charges is due within 15 days of service of the notice of charges. If the educator requests a hearing in his response, the Commission or a committee thereof shall hold a hearing within 30 days of the receipt of the request for hearing. If the educator fails to request a hearing, the Commission or a panel of members of the Commission promptly will convene a meeting to consider the request for immediate suspension. The meeting may be conducted by telephone.

(2) Within 20 days after the conclusion of the hearing, including receipt of the transcript or the filing of briefs, the Commission or the committee will issue a decision.

(3) The educator may appeal the decision of the Commission as an adjudication of a State agency in accordance with section 15 of the act. An appeal of a suspension imposed under section 9.2(1) of the act does not operate as a stay of the discipline.

§ 233.121. Reciprocity.

(a) Upon receipt of certified copies of an adjudication from the licensing authority in another state, territory or nation imposing discipline for grounds that are comparable to grounds for discipline under the act, the Department may issue an order to show cause why the imposition of identical or comparable discipline would be unwarranted in this Commonwealth. The order to show cause will:

(1) Contain a statement of the particulars of the charges against the educator.

(2) Advise the educator of the right to respond within 30 days after receipt of the notice.

(b) The final adjudication by the licensing authority in another state, territory or nation shall be conclusive as to the misconduct of the educator.

(c) The Commission may direct the Department to impose identical or comparable discipline unless the educator demonstrates that one or more of the following applies:

(1) The discipline would result in a grave injustice.

(2) The discipline is substantially different from what would have been imposed for similar conduct in this Commonwealth.

(3) The procedure used in the other jurisdiction did not provide due process.

§ 233.122. Expungement.

If the final decision of the Commission or appellate court of proper jurisdiction in a disciplinary proceeding conducted under the act does not find educator misconduct, section 15(c) of the act (24 P. S. § 2070.15(c)) requires that the charges pertaining to the Commission's disciplinary proceeding be expunged from any personal or professional file of the educator maintained by the Department and the local school entity, unless the school entity has taken or is pursuing local disciplinary action against the educator.

§ 233.123. Reinstatements.

(a) *Application for reinstatement.*

(1) Under section 16 of the act (24 P. S. § 2070.16), an educator whose certificate or employment eligibility has been suspended, surrendered or revoked may apply to the Commission for an order lifting the suspension or reinstating the certificate or employment eligibility. The application should be filed with the Commission, served upon the Department in accordance with 1 Pa. Code Part

II (relating to General Rules of Administrative Practice and Procedure) and be in the form prescribed by the Commission. The educator shall indicate expressly whether the educator wishes to invoke or waive the right to a hearing.

(2) The Commission will immediately assign a docket number and inform the educator, the Department and the governing board of the school entity or entities where the educator was employed at the time the misconduct occurred, as well as the school entity by which the applicant was last employed, if different.

(3) In accordance with section 16(b) of the act, the Commission will not consider any application for reinstatement of any educator whose certificate or employment eligibility was revoked or suspended as a result of a finding of guilt for sexual abuse or exploitation, or who surrendered a certificate or employment eligibility for conduct related to sexual abuse or exploitation.

(4) In accordance with section 16(c) of the act, the Commission will not consider any application for reinstatement of a certificate or eligibility of an educator convicted of a crime under 18 Pa.C.S. (relating to Crimes Code) set forth in section 111(e)(1)—(3) of the Public School Code of 1949 (24 P. S. § 1-111(e)(1)—(3)) for the time period established in that section.

(b) *Recommendation of the Department and local school entity.*

(1) Under section 16 of the act, the Department and the school entity or entities in which the educator was employed at the time of the misconduct may review the application and, based upon the information in the application and any investigation the Department or school entity or entities might deem appropriate, make a recommendation regarding the application within 90 days, or the time designated by the Commission, after their receipt of the application.

(2) The recommendation of the Department and of the school entity or entities should be served upon the educator in accordance with 1 Pa. Code Part II.

(3) The Executive Director will verify that the Department and the school entity or entities in which the educator was employed at the time of the misconduct have received the application for purposes of making a recommendation. If the Commission has not received the Department's or the school entity's or entities' recommendation or a request for additional time in which to respond within the time prescribed, the Commission will presume that the Department or the school entity or entities has no position on the application.

(4) The decision making of the Commission will be best served if the Department conducts an investigation of the justification and propriety of the relief requested by the educator and provides complete information to support its recommendation.

(c) *Notices.*

(1) The confidentiality provisions of section 17.2 of the act (24 P. S. § 2070.17b) do not apply to applications for reinstatement. It is the policy of the Commission to conduct proceedings involving applications for reinstatement in public and to provide the public with a full opportunity to comment upon these applications by publishing the appropriate notice in the *Pennsylvania Bulletin* consistent with the format prescribed by 1 Pa. Code §§ 11.31 and 11.32 (relating to sample notice of opportunity for hearing; and sample notice of hearing). The notice will describe the application and will provide interested

persons and entities 30 days within which to petition to intervene or file protests with the Commission.

(2) The Executive Director will provide copies of all notices prescribed by this subsection to the applicant educator, the Department, the school entity or entities where the misconduct occurred, and the governing board of the school entity by which the applicant was last employed, if known.

(d) *Waiver of hearing.* Notwithstanding the educator's waiver of a hearing, the Department may request a hearing or the Commission may appoint a hearing officer to prepare a proposed report or proceed directly to consider the application.

(e) *Hearing procedures.*

(1) *Hearing officer appointed.* If it has been determined that a hearing will be held, the Commission will appoint a hearing officer from a list of impartial third parties qualified to conduct hearings from the list agreed upon jointly by the Governor's General Counsel and at least two-thirds of the Commission under section 13(c)(1) of the act (24 P. S. § 2070.13(c)(1)).

(2) *Burden of proof.*

(i) *Burden of proof on applicant.* The burden of proof is on the applicant to establish that the relief the applicant seeks is just and proper. The applicant may not contest the allegations of misconduct that resulted in the revocation, suspension or surrender of the applicant's certificate or employment eligibility.

(ii) *Just and proper standard.* For purposes of determining whether it is just and proper to lift a suspension or reinstate a certificate, at a minimum, the Commission may consider the following:

(A) The conduct which resulted in discipline or which led to the surrender.

(B) Other past conduct of the applicant.

(C) The applicant's current attitude towards past conduct.

(D) Rehabilitation efforts and activities.

(E) References and letters of support or opposition.

(3) *Right to counsel.* An applicant has the right to be represented by counsel and to present evidence and argument in accordance with 1 Pa. Code Part II and other rules of procedure promulgated by the Commission.

(4) *Hearing officer's proposed report.* Within 90 days after the conclusion of the hearing, including briefing and oral argument, the hearing officer will issue a proposed report concerning whether relief should be granted. A proposed report will include proposed findings of fact and conclusions of law, and will specify the relief, if any, proposed.

(5) *Exceptions to hearing officer's decision.*

(i) The proposed report of the hearing officer will become final unless excepted to by a party within 30 days after the date the proposed report was mailed or unless the Commission initiates a review of the hearing officer's proposed report in the absence of exceptions or reopens the proceeding for the reception of further evidence within 60 days of the date the proposed report was mailed. If no timely exceptions are filed and the Commission does not initiate a review of the proposed report in the absence of exceptions or reopen the proceeding for the reception of further evidence, the Commission will at its next regularly scheduled meeting consider the report of

the hearing officer and issue an order implementing the hearing officer's proposed report.

(ii) If timely exceptions are filed or the Commission initiates a review of the proposed report in the absence of exceptions or reopens the proceeding for the reception of further evidence, the Commission, within a reasonable time, will by a majority vote of its full membership accept, modify or reject the hearing officer's proposed report and issue a written decision.

(6) *Automatic reinstatement.*

(i) Any certificate or employment eligibility suspended or revoked pursuant to a criminal indictment or conviction under section 9.2 of the act (24 P. S. § 2070.9b) will be reinstated upon notice to the Commission that the criminal indictment has been dismissed or that the conviction was overturned and the underlying charges dismissed.

(ii) Notice to the Commission means the filing of court records reflecting the dismissal. The court records shall be certified or bear comparable written indicia of validity.

(iii) The Commission authorizes its legal counsel to enter reinstatement orders under this subsection. Legal

counsel shall report all reinstatement orders to the Commission at its regularly scheduled meetings.

§ 233.124. **Power of subpoena.**

S. § 2070.18(b)) to issue subpoenas as provided for by law for the purposes of assisting the Department in reviewing complaints and investigating educator misconduct and to compel the attendance and testimony of witnesses and the production of books, records, documents and other evidentiary material. Petitions for the issuance of subpoenas shall be filed with the hearing officer, if one has been appointed, or with the Commission under 1 Pa. Code § 35.142 (relating to subpoenas). Objections to a petition for the issuance of subpoenas, which shall be filed within 5 days from service, will be ruled upon by the hearing officer or, if none has been appointed, by the legal counsel to the Commission. A decision of the legal counsel may be appealed to the Commission under 1 Pa. Code § 35.20 (relating to appeals from actions of the staff).

Retention of Professional Design Firms; Project Reference No. FDC-500-806

The Department of Conservation and Natural Resources (Department) is seeking proposals from interested and qualified professional design firms (Consultant) for an open-end contract or contracts for various architectural, landscape architectural and engineering design services. The contract or contracts will be for a 12-month period with four 12-month extensions possible. Projects will be assigned on an as-needed basis. The contract or contracts will be managed by the Department's Bureau of Facility Design and Construction (Bureau).

The number of open-end contracts and the dollar amount of each contract shall be at the discretion of the Department for the first year. The extent of the work for the subsequent 4 years of the contract will be dependent on the availability of additional funds and additional projects for those years, also at the discretion of the Department.

Letters of Interest for this project will only be accepted from individuals, firms or corporations duly authorized to engage in the practice of professional design. If an individual, firm or corporation not authorized to engage in the practice of architecture or engineering, or both, wishes to submit a Letter of Interest, the individual, firm or corporation may do so as part of a joint venture with an individual, firm or corporation which is permitted under State law to engage in the practice of architecture or engineering, or both, in this Commonwealth. The professional design firm may be an architectural/engineering firm and engineering/architectural firm, an architectural firm with an engineering subconsultant or an engineering firm with an architectural subconsultant.

Background

Established on July 1, 1995, the Department is charged with: maintaining and preserving the 120 State Parks; managing the 2.1 million acres of State forest land; providing information on the State's ecological and geologic resources; and establishing community conservation partnerships with grants and technical assistance to benefit rivers, trails, greenways, local parks and recreation, regional heritage parks, open space and natural areas.

The Bureau provides multidisciplinary facility and infrastructure technical support to the other bureaus in the Department in the areas of project design, project inspections, construction management, contract administration, surveying and other technical advice and consultation. This Bureau is comprised of three divisions: Dams, Bridges and Roadways; Environmental Engineering and Design; and Field Engineering and Contract Management.

The Bureau's Central Office (located in Harrisburg) is responsible for the development of architectural, landscape architectural, water and sanitary, bridge and roadway, and civil and environmental projects required to support the Department's facility construction and maintenance program. The Central Office is comprised of five sections: Architectural Design, Landscape Design, Sanitary and Water Management, Bridges and Road Management, and Civil Design. In addition to project design, staff also provides technical architectural and engineering support and advice to assist field operation in State Parks and State Forests.

The Bureau also has four field offices: Northcentral Office in Emporium; Western Office in Moraine State Park; Southcentral Office in Shawnee State Park; and Eastern Office in Nockamixon State Park. Each office is responsible for providing direct engineering and technical support to the State Parks and Forests field operation staff in each area. Staff is responsible for project inspection and construction management to ensure contractor compliance with the construction contract documents as well as some project design.

PART I GENERAL REQUIREMENTS

I-1. *Specific Requirements.* The open ended design services work will primarily be architectural in nature but will also include building related sites, civil, landscape, structural, mechanical, plumbing and electrical. It may occasionally include other related engineering work such as bridges, roadway, geotechnical, alternative energy and utility infrastructure. Project types may include new construction and renovation, alteration or addition to existing structures, while structure types cover a broad range of facilities typically found at State Parks and may include picnic pavilions, toilet facilities, shower houses, maintenance and storage buildings, visitor centers, and Park and Forest District office and administration buildings.

Many of the projects may be for buildings less than 5,000 square feet in size and small in terms of project scope. Construction budgets for typical projects have ranged from as low as \$25,000 to as high as \$7 million. The average construction budget is likely to be less than \$2 million. Consultants should give strong consideration to the typical project size when considering submitting for this Request for Proposal (RFP).

The services anticipated under the contract may include project planning, scoping and programming, budget estimating, site visits, existing facility review, assessment and documenting, life cycle cost analysis, computer energy and daylight modeling, conceptual design, design development, construction documentation including preparation of drawings and specifications, cost estimating, permit preparation and submission, construction administration including construction submission review and construction inspection, and existing building code and facility condition reviews. Permitting services may include Pennsylvania Uniform Construction Code build-

ing permits, 25 Pa. Code Chapter 105 (relating to dam safety and waterway management) sanitary permits, National Pollutant Discharge Elimination System permits, erosion and sedimentation control plans, water encroachment plans, storm water management plans and land development plans.

All work will be performed with a focus on environmentally sustainable design and construction principles and practices. All projects designed under this contract must achieve a high level of environmental performance, durability and healthy indoor air quality through integrated design and sustainable practices, features and technologies. Designs should implement financially feasible and technologically sound strategies to conserve energy and to surpass current norms for water conservation, waste management and recycling. Furthermore, the quality of the indoor environment (including quality of indoor air, light, acoustics and personal controllability of building systems) must be of primary consideration. Sustainability should be incorporated into the earliest design decisions. Projects may require certification through the Leadership and Energy and Environmental Design (LEED) Green Building Rating system, Green Globes or other similar certification program.

Projects will be located throughout this Commonwealth. Travel to the project sites will be required. Project assignment will be through individual project Work Orders. The scope of the Work Order may range from full responsibility for all aspects of the design to a collaborative design effort with Department in-house staff where only one or more specific design disciplines are required. Work Orders may be for a single phase or portion of a project such as conceptual design or for all phases of the entire project. The work shall be identified in the Work Order by a series of tasks that encompass the full scope of the project. The number and description of the tasks will vary based on a project's scope and complexity. A typical Work Order will require formal submissions at the end of the Sketch (10%), Preliminary (50%), Preliminary (95%) and Final (100%) design stages. Complexity may require more or less submissions for certain projects. The Consultant will be required to develop and maintain a detailed project schedule showing all related project tasks including design phases, submissions, review periods and timelines for required permits. The project schedule shall identify the critical path for completion for the project. A Bureau Project Coordinator will be assigned to each Work Order. The Project Coordinator may change from project to project. A Performance Review may be performed by the Project Coordinator at the completion of the Work Order and used in assigning additional projects to the Consultant.

The Department's standard contract method is multiple prime, design-bid-build, although other nonbid construction methods, including construction by Department staff and volunteer organizations, may be used. The Consultant will be required to prepare construction documents appropriate to the construction method selected by the Department.

The Consultant will be required to submit project data and documents in both written and electronic form. Drawings will be required to comply with the Department's Computer-Aided Design (CAD) Standard. Three-dimensional drawings will be expected throughout the design process and presentation renderings may be required at the completion of design.

I-2. *Qualifications.* The Consultant shall have staff available to provide rapid services associated with assigned projects. The Consultant may be called upon to provide services on multiple projects at the same time. The Consultant shall have demonstrated knowledge of the building design and construction method.

The following minimum qualification will be expected of all Consultants:

- Possess current professional registrations required to perform required services.
- Be licensed to conduct business in this Commonwealth
- Have sufficient staff or subconsultants experienced in the various required services.
- Have an established quality control and assurance program for checking documents for accuracy, consistency, coordination, quality and compliance with all necessary codes and regulations.
- Have specialized experience in the field of sustainable building design and a demonstrated ability to comprehensively integrate the concept of sustainability into the project.
- Have LEED certified designers as current members of staff and available for assigned projects.
- Have design capabilities in digital format (AutoCAD and Revit).
- Have the ability to produce three-dimensional drawings in to further illustrate design intent.

I-3. *Addenda to the RFP.* If the Department deems it necessary to revise any part of this RFP before the proposal response date, the Issuing Office will post an addendum to the Department's web site at <http://www.dcnr.state.pa.us>. It is the Offeror's responsibility to periodically check the web site for any new information or addenda to the RFP. Answers to the questions asked during the Questions and Answers period also will be posted, as necessary, to the web site as an addendum to the RFP.

I-4. *Small Diverse Business (SDB) Information.* The Department encourages participation by SDBs as prime contractors and encourages all prime contractors to make a significant commitment to use SDBs as subcontractors and suppliers.

An SDB is a Department of General Services (DGS) verified minority-owned business, woman-owned business, veteran-owned business or service-disabled veteran-owned business.

A small business is a business in the United States which is independently owned, not dominant in its field of operation, employs no more than 100 full-time or full-time equivalent employees, and earns less than \$7 million in gross annual revenues for building design, \$20 million in gross annual revenues for sales and services and \$25 million in gross annual revenues for those businesses in the information technology sales or service business.

Questions regarding this program can be directed to the Department of General Services, Bureau of Small Business Opportunities, Room 611, North Office Building, Harrisburg, PA 17125, (717) 783-3119, fax (717) 787-7052, gs-bsbo@pa.gov, www.dgs.state.pa.us.

The DGS' directory of Bureau of Small Business Opportunities (BSBO) verified minority, women, veteran and service disabled veteran-owned businesses can be accessed by searching for "Small Diverse Businesses" at www.dgs.state.pa.us.

I-5. *Notification of Selection.* Offerors whose proposals are not selected will be notified when contract negotiations have been successfully completed and the Department has received the final negotiated contract signed by the selected Offeror.

I-6. *Type of Contract.* The type of contract as a result of this RFP shall be an open-end, requirements contract. Work shall be assigned on an as-needed basis as determined by the Department. The initial term of the agreement shall be 1 year and renewable for up to four subsequent years. Reimbursement for services shall be by fixed fee percentage based upon project allocation or hours of service and qualifying expenses and may vary from project to project. The reimbursement type shall be at the Department's discretion. Direct costs for travel and subsistence will be based on current State rates. Miscellaneous expenses such as copies, prints or postage will be reimbursed at cost. The work shall be reviewed by the staff of the Bureau and, when applicable, approved by same staff.

II-4. *Contract Requirements—SDB Participation*

All contracts containing SDB participation must also include a provision requiring the selected contractor to meet and maintain those commitments made to SDB at the time of proposal submittal or contract negotiation, unless a change in the commitment is approved by the BSBO. All contracts containing SDB participation must include a provision requiring SDB subcontractors to perform at least 50% of the subcontracted work.

The selected contractor's commitments to SDBs made at the time of proposal submittal or contract negotiation shall, to the extent so provided in the commitment, be maintained throughout the term of the contract and through any renewal or extension of the contract. Any proposed change must be submitted to the BSBO, which will make a recommendation to the Contracting Officer regarding a course of action.

If a contract is assigned to another contractor, the new contractor must maintain the SDB participation of the original contract.

The selected contractor shall complete the Prime Contractor's Quarterly Utilization Report (or similar type document containing the same information) and submit it to the contracting officer of the Issuing Office within 10 workdays at the end of each quarter the contract is in force. This information will be used to determine the actual dollar amount paid to SDB subcontractors and suppliers. Also, this information will serve as a record of fulfillment of the commitment the selected contractor made and for which is received SDB participation points. If there was no activity during the quarter then the form must be completed by stating "No activity in this quarter."

Note: Equal employment opportunity and contract compliance statements referring to company equal employment opportunity policies or past contract compliance practices do not constitute proof of SDB status or entitle an Offeror to receive credit for SDB utilization.

II-5. *Debriefing.* The Department will not offer a debriefing session to the unsuccessful firms. The Department disclaims any liability whatsoever to its review of the proposal submitted and in formulating a recommendation for selections. Recommendations made by the Department shall be final.

**Part III
CRITERIA FOR SELECTION**

III-1. *Selection Criteria.* The engineering consulting firm will be evaluated upon, but not limited to, the following criteria:

- A. Consultant's experience on past projects of similar scope, type and size.
- B. Consultant's staff qualifications, experience and ability to perform the required services, including available manpower to perform the required services. This includes the qualifications, experience and abilities of subconsultant's staff.
- C. Consultant's understanding of the problem and the services required.
- D. Consultant's project approach and methodology.
- E. Knowledge and experience with environmentally sustainable design and LEED accreditation.
- F. Quality control and assurance program and procedures.
- G. Equitable distribution of contracts.

H. SDB Participation (evaluated by the BSBO), the BSBO has established the weight for the SDB participation criterion for the RFP as 20% of the total points. Each SDB participation submittal will be rated for its approach to enhancing the utilization of SDB's in accordance with the listed priority ranking and subject to the following requirements:

- 1. A business submitting a proposal as a prime contractor must perform 60% of the total contract value to receive points for this criterion under any priority ranking.
- 2. To receive credit for an SDB subcontracting commitment, the SDB subcontractor must perform at least 50% of the work subcontracted to it.

3. A significant subcontracting commitment is a minimum of 5% of the estimated total contract value.

4. A subcontracting commitment less than 5% of the total estimated contract value is considered nominal and will receive reduced or no additional SDB points depending on the priority ranking.

Priority Rank 1: Proposals submitted by SDBs as prime Offerors will receive 150 points. In addition, SDB prime Offerors that have significant subcontracting commitments to additional SDB's may receive up to an additional 50 points (200 points total available).

Subcontracting commitments to additional SDBs are evaluated based on the proposal offering the highest total percentage SDB subcontracting commitment. All other Offerors will be scored in proportion to the highest total percentage SDB subcontracting commitment within this ranking. See following formula.

Priority Rank 2: Proposals submitted by SDBs as prime contractors, with no or nominal subcontracting commitments to additional SDB's will receive 150 points.

Priority Rank 3: Proposals submitted by non-SDBs as prime contractors, with significant subcontracting commitments to SDBs, will receive up to 100 points. Proposals submitted with nominal subcontracting commitments to SDBs will receive points equal to the percentage level of their total SDB subcontracting commitment.

SDB subcontracting commitments are evaluated based on the proposal offering the highest total percentage SDB subcontracting commitment. All other Offerors will be scored in proportion to the highest total percentage SDB subcontracting commitment within this ranking. See following formula.

Priority Rank 4: Proposals by non-SDBs as prime contractors with no SDB subcontracting commitments shall receive no points under this criterion.

To the extent that there are multiple SDB Participation submittals in Priority Rank 1 or Priority Rank 3, or both, that offer significant subcontracting commitments to SDBs, the proposal offering the highest total percentage SDB subcontracting commitment shall receive the highest score (or additional points) available in that Priority Rank category and the other proposal(s) in that category shall be scored in proportion to the highest total percentage SDB subcontracting commitment. Proportional scoring is determined by applying the following formula:

$$\text{SDB \% Being Scored} \times \frac{\text{Points/Additional}}{\text{Additional Highest \% SDB Commitment Points Available* SDB Points}}$$

Priority Rank 1 = 50 Additional Points Available

Priority Rank 3 = 150 Total Points Available

For an illustrative chart which shows SDB scoring based on a hypothetical situation in which the Commonwealth receives proposals for each Priority Rank, see http://www.portal.state.pa.us/portal/server.pt/community/rfp_scoring_formulas_overview/20124.

III-2. *Number of Contracts.* It is the intent of the Department to select more than one firm for projects to be assigned on a regional basis.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to

Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

36-03199A: Doodad Printing LLC (72 Industrial Circle, Lancaster, PA 17601) for construction of a printing operation at a new facility to be located in East Lampeter Township, **Lancaster County**. The operation will consist of four heatset presses controlled by a regenerative thermal oxidizer, one coldest press, and parts washers. Expected potential emissions at the new plant are expected to be approximately 11.58 tpy VOCs, 0.37 tpy HAPs, 0.33 tpy PM, 0.03 tpy SO_x, 4.29 tpy NO_x and 3.60 tpy CO. The facility is a State Only facility. DEP's review of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1, 127.12 and 129.67b. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into a State Only Operating Permit.

41-00019: VT Hackney, Inc. (914 Saegers Station Road, Montgomery, PA 17752-8501) has submitted an application to the Pennsylvania Department of Environmental Protection for the significant modification to the State Only (Synthetic Minor) operating permit SMOP 41-00019 to incorporate terms and conditions contained in the previously issued Plan Approval 41-00019A. The proposed significant modification authorizes for the construction and operation of a spray booth equipped with an 11 million Btu per hour, natural gas-fired drying area (Source P321) at the Montgomery facility located in Clinton Township, **Lycoming County**. VT Hackney, Inc. has the following potential emissions for all sources at the facility: 19.70 TPY of carbon monoxide; 49.90 TPY of nitrogen oxides; 2.11 TPY of sulfur oxides; 3.14 TPY of particulate matter; <50 TPY of volatile organic compounds and 18,345 TPY of greenhouse gases.

VT Hackney, Inc. has demonstrated compliance with all applicable air quality regulatory requirements pertaining to the operation of all air contamination sources and the emission of air contaminants authorized by the previously issued plan approval. Based on these findings, the Department intends to modify the State only (Synthetic Minor) operating permit SMOP 41-00019 in order to authorize the continued operation of a spray booth equipped with an 11 million Btu per hour, natural gas-fired drying area (Source P321) at the Montgomery facility located in Clinton Township, Lycoming County.

The following is a summary of the conditions contained in the previously issued plan approval the Department proposes to place in the State Only (Synthetic Minor) operating permit to be issued to ensure compliance with all applicable air quality regulatory requirements. The total combined volatile organic compound emissions from the Spray Booth Systems, Inc. shall not exceed 7.13 tons in any 12 consecutive month period. This limitation does not include the volatile organic compound emissions generated by surface coating cleanup in or associated with the small parts spray booth or Booth #1 incorporated

in Source P305. All containers of volatile organic compound-containing, volatile hazardous air pollutant-containing and acetone-containing materials shall be kept closed except when material is being added or removed from the containers.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The applicant is proposing to construct a 279,000 square foot commercial warehouse for the storage of finished products associated with the manufacturing facil-

ity. The project includes but is not limited to the construction of the warehouse, 30 bay tractor trailer loading dock, employee parking and stormwater management facilities.

The project will require fill to be placed and maintained in 0.03 acre (1,123 square feet) of Palustrine Emergent (PEM) wetland located in the watershed for the West Branch of the Susquehanna River, a Chapter 93 designated Warm Water Fishery (WWF) and Migratory Fishery (MF). No impacts to streams are proposed.

Due to the small size, isolated nature and low quality of the wetland to be impacted, no mitigation is proposed.

E02-1709. Municipality of Mt. Lebanon, 710 Washington Road, Pittsburgh, PA, 15228; Mt. Lebanon Township, **Allegheny County**: ACOE Pittsburgh District.

The applicant is proposing to construct and maintain an approximately 112' long and 10.5' high retaining wall, along the right descending bank of an unnamed tributary to Painters Run (WWF), for the purpose of protecting and stabilizing the stream bank, to prevent further erosion, along Lindendale Drive, near its intersection with Cedar Boulevard (Bridgeville, PA USGS topographic quadrangle; Latitude: 40° 22' 4.57"; Longitude: -80° 3' 42.07"; Pittsburgh District U.S. Army Corps of Engineers), in the Municipality of Mount Lebanon, in Allegheny County. Riprap protection will be installed within the UNT, along the base of the retaining wall. In addition, fill will be placed and maintained within the floodway, behind the retaining wall. The project will also include approximately 60' of grouted riprap placement on the left

descending bank to protect a proposed manhole, modifications to existing utilities and outfall structures, and will temporarily impact an additional 150' of watercourse.

E02-1714, McKees Rocks Harbor Service, LLC, 109 Nichol Ave., McKees Rocks, PA 15136; Stowe Township, **Allegheny County**: ACOE Pittsburgh District.

The applicant is proposing to operate and maintain an existing concrete structure, an existing concrete intake structure and two (2) existing brick river cells;

Construct and maintain seven (7) breasting dolphins (constructed of steel sheet pile) in the Ohio River (WWF);

Construct and maintain two anchor cells (constructed of steel sheet pile) located at the upstream end of the fleeting area;

Place and maintain a captive barge (to be used as a docking device), which will be anchored to the aforementioned, existing, concrete structure, which will also provide access to the entire barge fleet (170,625 ft² mooring area).

For the purpose of storing twenty-five (25) hopper river barges, to handle the increased barge traffic from the existing expansion of the existing McKees Rocks Harbor Service, LLC dock. The project is located near Mile Marker 4, upstream from the existing McKees Rocks Harbor Service, LLC dock, on the left descending bank of the Ohio River, near the intersection of Graham Street and Sexton Road (Pittsburgh West PA USGS Topographic Quadrangle; Latitude: 40°28'53"; Longitude: -80°3'19"; Sub-basin: 19A; Chapter 93 Type: WWF), in Stowe Township, Allegheny County. The project will permanently impact 1,000 linear feet of the Ohio River.

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. SEWAGE FACILITIES ACT PLAN DISAPPROVAL

Plan Approvals Granted Under the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Southcentral Region: Clean Water Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. 717-705-4707.

Plan Location:

Borough or Township	Borough or Township Address	County
Longswamp Township	1112 State St. Mertztown, PA 19539-9101	Berks

Plan Description: The request for an exception to the requirement to revise the Official Plan for the Diehl Subdivision, DEP Code No. A3-06939-148-1, APS Id 876606, consisting of creating one new single family residential building lot to be served by an on-lot sewage disposal system, is disapproved. This request was denied because it proposed the use of onlot sewage disposal systems in an area that is within 1/4 mile of water supplies documented to exceed 5 PPMs nitrate-nitrogen as per Chapter 71, Section 71.55(a)(2) and Chapter 71, Section 71.62(c)(2)(iii). The project is located northwest of the junction of Mary Ann Drive and Eric Lane.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Bern Township	1069 Old Bernville Rd, Reading, PA 19605	Berks

Plan Description: The proposed Component 2 Official Plan revision for the Carriage House, DEP Code No. A3-06920-166-2, APS Id 870516, is disapproved. This submission consisted of renovating a farmstead for use as a special event venue for hosting private parties. Total proposed sewage flows were 1,913 gallons per day to be served by an existing onlot sewage disposal systems and new holding tanks. The project is located in between Bernville Road and Old Bernville Road, east of Fairview Drive. This request was denied because the following technical deficiencies were not addressed:

1. The proposed use of holding tanks for this project was not consistent with the regulatory requirements of Chapter 71, Section 71.63. Sections 71.63(c)(1) and (2) require the replacement of the holding tanks by adequate sewerage facilities under a schedule and municipal financial assurances of the replacement project's implementation. Section 71.63(e) provides an exception to these requirements; however, the project did not qualify because the proposed sewage flow exceeded 800 gallons per day.

2. Insufficient documentation was provided to demonstrate compliance with Section 71.63(c)(3). In particular, an administrative entity with the responsibility to receive, review and retain pumping receipts was not identified, and the requirement for the completion and retention of annual inspection reports was not clearly stated in either the maintenance agreement of the ordinance submitted with this planning module.

3. The holding tanks were proposed to be within 10 feet of the driveway/parking spaces. The holding tanks must comply with the minimum horizontal isolation distances specified for tanks in Chapter 73.13(b).

4. The plan did not provide documentation that the pre-regulatory onlot disposal system that currently serves the existing farmhouse was capable of accepting and treating the flows that it was proposed to accept (600 gallons per day). It should not be assumed that this capacity exists based solely on the number of bedrooms in the farmhouse.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the

selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports

submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

document should call the contact person whose name and phone number is listed with each document.

Final TGD: New Guidance

DEP ID: 580-0100-001. *Title:* Accident Reporting Requirements. *Description:* The purpose of this guidance is to outline guidelines relative to the reporting of accidents/incidents at underground bituminous coal mine sites. Underground bituminous coal mining is highly specialized, technical and complex, and requires frequent review, refinement and improvement of standards to protect the health and safety of miners. It is the purpose of the Bituminous Coal Mine Safety Act (act) (52 P. S. §§ 690-101—690-708) to use the full extent of the Commonwealth's powers to protect the lives, health and safety of miners and others in and about underground bituminous mines, and to enable the Commonwealth to respond as necessary and appropriate to accidents and other emergencies at underground bituminous coal mines. It is the policy of the Department for mine operators to report all accidents as both generally defined and specifically delineated in the act and to encourage mine operators to report unanticipated incidents if there is any doubt that it may fall within the scope of an "accident" as that term is defined in section 104 of the act (52 P. S. § 690-104) and used in section 109 of the act (52 P. S. § 690-109). Notice of availability of the interim final guidance was published at 39 Pa.B. 5276 (September 5, 2009), with provision for a 30-day public comment period that ended on October 5, 2009. The Department received comments on the draft technical guidance document, which did not result in modifications to the final technical guidance. A comment and response document was developed that includes a summary of the comments received and the modifications that were made to the document. The comment and response document is available, in addition to the final guidance, on the Department's web site.

Solicitation of Comments to Develop the Commonwealth's Compliance Plan for the United States Environmental Protection Agency's Final Rule for Carbon Pollution Emissions Guidelines for Existing Stationary Sources; Electric Generating Units (Clean Power Plan); Listening Sessions

On August 3, 2015, the United States Environmental Protection Agency (EPA) released the final Carbon Pollution Emissions Guidelines for Existing Stationary Sources: Electric Utility Generating Units (Clean Power Plan), accessible at <http://www2.epa.gov/sites/production/files/2015-08/documents/cpp-final-rule.pdf>. The Clean Power Plan sets carbon dioxide emission standards for power plants and establishes customized goals for states to reduce carbon dioxide. Carbon dioxide is the primary pollutant affecting climate disruption, accounting for approximately 84% of all United States greenhouse gas emissions. Under the Clean Air Act (42 U.S.C.A. §§ 7401—7671q), each state is required to develop a state-specific compliance plan to meet individual state targets set by the EPA or be subject to the Federal Plan.

The Commonwealth will draft a State Plan to comply with the Clean Power Plan that is tailor-made for this Commonwealth's economy and people, protecting indigenous resources and position as a net energy exporter. To develop a specific State Plan, the Department of Environmental Protection (Department) will seek the comments and feedback of many stakeholders including the Legislature, industry and citizens throughout this process, with the goal of submitting a plan to the EPA by the September 6, 2016, deadline.

A. Public Comments

To start this dialogue, the Department will be accepting comments on the Commonwealth's compliance with the EPA's Clean Power Plan through November 12, 2015. The Department is soliciting comments on the Clean Energy Incentive Program component of the Clean Power Plan. The Department will also accept comments on the EPA-proposed Federal Plan that serves as a model rule for states developing state plans, accessible at <http://www.epa.gov/airquality/cpp/cpp-proposed-federal-plan.pdf>.

While there will be no formal comment-response document as a result of the written comments or listening sessions, the Department will make all comments received available through eComment, accessible at <http://www.ahs.dep.pa.gov/eComment/>. Comments received by the Department will be used to develop the Commonwealth's compliance plan. Those who wish to comment on the EPA's proposals must submit comments to the EPA directly.

Comments submitted by facsimile will not be accepted. Comments, including comments submitted by e-mail, must include the originator's name and address. Commentators are encouraged to submit comments using the Department's online eComment tool at www.ahs.dep.pa.gov/eComment/. Written comments should be submitted to the Department of Environmental Protection, Policy Office, Rachel Carson State Office Building, P. O. Box 2063, Harrisburg, PA 17105-2063, ecomment@pa.gov.

Specifically, the Department is soliciting comments on the following questions for the State Plan:

Compliance Targets/Timeline

- Should the State Plan use rate-based (expressed in pounds of carbon dioxide emissions per megawatt-hour) or mass-based (total tons of carbon dioxide) targets?
- How should allowances be allocated under a mass-based approach?
- Should new natural gas plants be included within a mass-based target?
- What methods should be used to measure compliance?

Participation in Trading

- Should the Commonwealth adopt a trade-ready program without a formal multistate agreement?
- Should the Commonwealth join a formal multistate trading collaborative?
- Should the Commonwealth manage carbon emissions without trading at all?

Energy Efficiency and Renewables

- How can the Commonwealth best use renewable energy in meeting its compliance obligations?
- How can the Commonwealth best use energy efficiency in meeting its compliance obligations?
- Should the Commonwealth participate in the Clean Energy Incentive Program?

- Should the Commonwealth set aside allowances or credits to participate in the Clean Energy Incentive Program?

- What other energy conservation measures could be considered?

Least-Cost Compliance and Reliability Issues

- What compliance pathway represents the least-cost option for the Commonwealth?
- How can the Commonwealth meet its objective of prioritizing indigenous resources?
- How can the Commonwealth maintain a diverse fuel mix?
- How can the Commonwealth protect the Commonwealth's position as a net energy exporter?
- How can the Commonwealth ensure electric reliability?

Vulnerable, Over-Burdened and Environmental Justice Communities

- What specific communities of this Commonwealth may currently be experiencing adverse, disproportionate impacts of climate change and air pollution?
- What specific communities of this Commonwealth may experience economic concerns over the implementation of the State Plan?
- What additional steps can be taken by the Department to effectively reach out to these vulnerable communities to ensure that their concerns are taken into consideration?
- How can the Commonwealth ensure that these communities are not disproportionately impacted by the State Plan?

B. Listening Sessions

In addition to accepting written comments, the Department will be holding 14 listening sessions around this Commonwealth to take comments on the Clean Power Plan and the questions previously listed. Persons wishing to present at a listening session are requested to contact the Department's Policy Office at (717) 783-8727, at least 1 week in advance to reserve time. Verbal testimony is limited to 5 minutes for each witness. Witnesses are requested to submit two written copies of their verbal testimony.
