READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

There are no restrictions on the republication of official documents appearing in the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted

proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

THE COURTS

Title 255—LOCAL COURT RULES

BRADFORD COUNTY

Rule of Judicial Administration No. 5000.7-1; No. 96IR000066

Order

And Now, this 11th day of September, 1997, the Court hereby adopts the following Bradford County Rule of Judicial Administration, to be effective thirty (30) days after the date of publication in the *Pennsylvania Bulletin*.

It is further ordered that the District Court Administrator shall file seven (7) certified copies of this Rule with the Administrative Office of Pennsylvania Courts, two (2) certified copies to the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*, one (1) certified copy to the Civil Procedural Rules Committee and one (1) copy to the *Bradford County Law Journal* for publication in the next issue of the *Bradford County Law Journal*.

It is further ordered that this local rule shall be kept continuously available for public inspection and copying in the Prothonotary's Office.

By the Court

JEFFREY A. SMITH,
President Judge

Bradford County Rule of Judicial Administration 5000.7-1.

Whenever testimony from a prior proceeding is incorporated into the record at any trial or hearing, and the court deems it necessary for some or all of the prior testimony to be transcribed, the costs of transcription of the prior testimony will be divided evenly between or among the parties, unless otherwise directed by the court. Costs of transcription shall be paid when and as directed by the court.

If the testimony to be incorporated has already been transcribed and billed to the County of Bradford, the parties shall be obligated to pay the customary rate for private parties. The County of Bradford will be reimbursed for the per page rate that it has advanced to the reporter and the reporter shall be paid the balance.

BRADFORD COUNTY

Rule of Judicial Administration No. 1901; No. 96IR000066

Order

And Now, this 11th day of September, 1997, the Court hereby adopts the following Bradford County Rule of Judicial Administration, to be effective thirty (30) days after the date of publication in the *Pennsylvania Bulletin*.

It is further ordered that the District Court Administrator shall file seven (7) certified copies of this Rule with the Administrative Office of Pennsylvania Courts, two (2)

certified copies to the Legislative Reference Bureau for publication in the *Pennsylvania Bulletin*, one (1) certified copy to the Civil Procedural Rules Committee and one (1) copy to the *Bradford County Law Journal* for publication in the next issue of the *Bradford County Law Journal*.

It is further ordered that this local rule shall be kept continuously available for public inspection and copying in the Prothonotary's Office.

By the Court

JEFFREY A. SMITH,
President Judge

Bradford County Rule of Judicial Administration 1901.

Prompt Disposition of Matters; Termination of Inactive Cases.

(1) The Prothonotary shall, upon the periodic request of the Court Administrator, cause a computer-generated report to be prepared which lists all civil matters, except support and eminent domain proceedings, in which no steps or proceedings have been docketed for two years or more prior thereto.

(2) Upon receipt of the report prepared by the Prothonotary, the Court Administrator shall give to all counsel of record, and to all parties for whom no appearance has been entered at least thirty (30) day's notice of the court's intention to terminate the matter as provided by Pa.R.J.A.No. 1901(c). The Court Administrator shall note therein that a rule has been entered to show cause by written objection why the matter should not be dismissed pursuant to Rule Pa.R.J.A. No. 1901.

(3) If any such notices are returned by the postal authorities as undelivered for any reason, the Court Administrator shall forward said notice to the Prothonotary's Office for placement in the official file. The Prothonotary's Office shall prepare a list of any such cases and cause the same to be published one time in the *Bradford County Law Journal*, together with a notice that said cases will be terminated 30 days after the date on which the list is published. The cost of publication shall be borne by the office of the Prothonotary. The Prothonotary shall transmit a copy of such a list to the Court Administrator.

(4) If no written objection is docketed prior to the date set for the rule returnable or within thirty (30) days after publication as set forth in (3) above, an order shall be entered by the Court dismissing the matter with prejudice for failure to prosecute under the provisions of this rule. If objections are filed, the court will review any objections and, if appropriate, schedule a hearing thereon.

(5) Each district justice shall, at least annually, compile a list of civil and criminal summary cases filed in their offices in which no steps or proceedings have been taken for two years or more prior thereto. Notice of intention to terminate shall be given by the district justice as set forth in Pa.R.J.A. 1901(c). In criminal summary cases, district justices shall give notice thereof to the District Attorney, any private prosecutor, the defendant, and the defendant's attorney of record as provided by Pa.R.J.A. 1901(c).

(6) If any such notices are returned by the postal authorities as undelivered, the district justice shall prepare a list thereof and cause the same to be published one time in the *Bradford County Law Journal*, together with a notice that said cases will be terminated thirty

(30) days after the date on which the list is published. The cost of publication shall be borne by the office of the district justice.

(7) If no written objection is received by the district justice prior to the date set for the rule returnable or within thirty (30) days after publication as set forth in (6)

above, an order shall be entered dismissing the matter with prejudice for failure to prosecute under the provisions of this rule.

RULES AND REGULATIONS

Title 31—INSURANCE

INSURANCE DEPARTMENT

[31 PA. CODE CH. 111]

Pennsylvania Fair Plan

The Insurance Department (Department) hereby deletes Chapter 111 (relating to Pennsylvania Fair Plan) under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412); and The Pennsylvania Fair Plan Act (act) (40 P. S. §§ 1600.101—1600.502).

Purpose

The purpose of this final rulemaking is to delete Chapter 111 to eliminate redundant regulations. The Department adopted the regulations more than 20 years ago to implement the provisions of act. The act provides for the establishment of an Industry Placement Facility to assure fair access to insurance requirements (FAIR Plan) in order to make available basic property insurance for residential and commercial properties in this Commonwealth.

The provisions of these regulations are sufficiently addressed in the act, and the regulations in no manner enhance the authorizing statute. Therefore, they are found to be redundant, and it is no longer necessary to include these regulations.

Comments

Notice of proposed rulemaking was published in 27 Pa. B. 1565 (March 29, 1997) with a 30-day public comment period.

No comments were received from the legislative standing committees, the Independent Regulatory Review Commission (IRRC) or the public.

Affected Parties

The deletion of these regulations affect all property and casualty insurers licensed to do business in this Commonwealth.

Fiscal Impact

The deletion of these regulations has no fiscal impact because of the redundant nature of the regulations to the act. The regulatory provisions remain in effect under the statute.

Paperwork

There is no impact on paperwork as a result of the deletion of this chapter.

Contact Person

Questions regarding this final rulemaking may be directed to Carolyn Montgomery, Director, Bureau of Consumer Services, 1321 Strawberry Square, Harrisburg, PA 17120, (717) 783-2153.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Department submitted a copy of this proposed rulemaking on March 17, 1997, to IRRC, the Chairpersons of the House Insurance Committee and the Senate Banking and Insurance Committee. In addition to submitting the proposed rulemaking, the Department has provided IRRC and the Committees with a copy of a

detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1. A copy of the material is available to the public upon request.

In preparing these final-form regulations, the Department has considered all comments received from IRRC, the Committees and the public. These final-form regulations were deemed approved by the House and Senate Committees on August 13, 1997. IRRC met on August 13, 1997, and approved the amendments in accordance with section 5(g) of the Regulatory Review Act.

Findings

The Insurance Commissioner finds that:

(1) Public notice of intention to adopt this rulemaking as amended by this order has been given under sections 201 and 202 of the act of July 31, 1968, (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of this rulemaking in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statutes.

Order

The Insurance Commissioner, acting under the authorizing statutes, orders that:

(a) The regulations of the Department, 31 Pa. Code Chapter 111, are amended by deleting §§ 111.1—111.4 to read as set forth at 27 Pa.B. 1565.

(b) The Commissioner shall submit this order and 27 Pa.B. 1565 to the Office of General Counsel and Office of Attorney General for approval as to form and legality as required by law.

(c) The Commissioner shall certify this order and 27 Pa.B. 1565 and deposit them with the Legislative Reference Bureau as required by law.

(d) The amendments adopted by this order shall take effect upon publication in the *Pennsylvania Bulletin*.

Acting Insurance Commissioner

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission relating to this document, see 27 Pa.B. 4596 (September 6, 1997).)

Fiscal Note: Fiscal Note 11-140 remains valid for the final adoption of the subject regulations.

[31 PA. CODE CH. 113]

Certificates of Insurance

The Insurance Department (Department) deletes Chapter 113, Subchapter C (relating to certificates of insurance) under the authority of sections 206, 506, 1501 and 1502 of The Administrative Code of 1929 (71 P. S. §§ 66, 186, 411 and 412); and The Insurance Company Law of 1921 (act) (40 P. S. §§ 361—991).

Purpose

The purpose of this final rulemaking is to delete §§ 113.31 and 113.32, to eliminate redundant regulations. The Department adopted the regulations over 20 years ago to caution and advise insurers and their representatives that many noninsurance entities require the submission of certificates of insurance by their insurance carrier, which may vary from the basic insurance policy. The regulations further simply reiterate that section 354 of the act (40 P. S. § 477b) prohibits the use of policy forms and documents that have not been approved by the Department, including certificates of insurance. As the provisions of these regulations are sufficiently addressed in the act, and the regulations in no manner enhance the authorizing statute, it is found to be redundant. Therefore, it is no longer necessary to continue these sections within the Department regulations.

Comments

Notice of this proposed rulemaking was published at 27 Pa.B. 1564 (March 29, 1997) with a 30-day public comment period.

No comments were received from the standing committees, the Independent Regulatory Review Commission (IRRC) or the public.

Affected Parties

The deletion of the regulations affects insurance companies licensed to do business in this Commonwealth.

Fiscal Impact

There is no fiscal impact as a result of the deletion of these sections because of the redundant nature of the regulations in relation to the statute. The regulatory provisions remain in effect under the statute.

Paperwork

There is no impact on paperwork as a result of the deletion of these regulations.

Contact Person

Questions or comments regarding this final rulemaking may be directed to Carolyn Montgomery, Director, Bureau of Consumer Services, 1321 Strawberry Square, Harrisburg, PA 17120, (717) 783-2153.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on March 17, 1997, the Department submitted a copy of the proposed rulemaking to IRRC, the Chairpersons of the House Insurance Committee and the Senate Banking and Insurance Committee. In addition to submitting the proposed rulemaking, the Department has provided IRRC and the Committees with a copy

of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1. A copy of the material is available to the public upon request.

In preparing these final-form regulations, the Department has considered the comments received from IRRC, the Committees and the public. These final-form regulations were deemed approved by the House and Senate Committees on August 13, 1997. IRRC met on August 13, 1997, and approved the deletion in accordance with section 5(g) of the Regulatory Review Act (71 P. S. § 745.5(g)).

Findings

The Insurance Commissioner finds that:

(1) Public notice of intention to adopt this rulemaking as amended by this order has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The adoption of this rulemaking in the manner provided in this order is necessary and appropriate for the administration and enforcement of the authorizing statutes.

Order

The Insurance Commissioner, acting under the authorizing statutes, orders that:

(a) The regulations of the Department, 31 Pa. Code Chapter 113, are amended by deleting §§ 113.31 and 113.32 to read as set forth at 27 Pa.B. 1564.

(b) The Commissioner shall submit this order and 27 Pa.B. 1564 to the Office of General Counsel and Office of Attorney General for approval as to form and legality as required by law.

(c) The Commissioner shall certify this order and 27 Pa.B. 1564 and deposit them with the Legislative Reference Bureau as required by law.

(d) The amendments adopted by this order shall take effect upon final publication in the *Pennsylvania Bulletin*.

PROPOSED RULEMAKING

DEPARTMENT OF CORRECTIONS

[37 PA. CODE CH. 93]

State Correctional Institutions and Facilities

The Department of Corrections (Department) acting under the authority conferred by the Prison Medical Services Act (act) (61 P. S. §§ 1011—1017), and Act 53 of 1996, gives public notice of its intention to adopt amendments to Chapter 93 (relating to State correctional institutions and facilities).

The proposed amendment will enable the Department to impose fees on inmates in State correctional institutions and facilities for the provision of certain medical services. The proposed amendment will also require inmates who are covered by medical insurance to pay for the medical services through that insurance as far as the medical insurance policy may allow. The proposed amendment includes formal changes to the regulations. Section 93.12 (relating to care and treatment) is amended to include subsections that contain definitions, specify what medical services will and will not be subject to a fee, require inmates who are covered by medical insurance to pay for the costs of those services through that insurance and describe the procedures to be used for the collection of the fees.

Section 93.12 is first proposed to be amended by designating its current and only subsection as subsection (a). Subsection (b) is proposed to be added to include definitions for the terms "Department," "fee," "inmate," "health care professional" and "medical service." Subsection (c) is added to designate the medical services for which a fee will be charged. Subsection (d) is added to designate the medical services for which a fee will not be charged. Subsection (e) is added to establish the amount of the fee to be charged for certain medical services and when the fee will be assessed. Subsection (e) also confers upon the Department the authority to modify the fee amount upon 60 days written notice to the inmate population. Subsection (f) is added to describe how payment of fees will be accomplished. Subsection (g) is added to require inmates who have medical insurance to pay for their own medical needs through that insurance. Subsection (h) is added to require the Department to include an explanation of the medical service fee program in the *Inmate Handbook*.

Background and Need for the Proposed Amendments

The amendment is proposed in accordance with the statutory mandate of the act and Act 53 of 1996. The act and Act 53 of 1996 establish the Prison Medical Services Program (Program) within the Department and direct the Department to issue regulations to implement the Program and to require inmates who are covered by medical insurance to pay for their medical needs through that insurance. The act states that the regulations shall specify the medical services which are subject to fees, the fee amounts, payment procedures, medical services that are not subject to fees and fees applicable to medical emergencies, chronic care and preexisting conditions.

Implementation of the Program will result in immediate savings to the taxpayers of this Commonwealth. Inmates will be required to pay for a portion of the

medical services actually used. This is in contrast to the present system where inmates receive free medical services at taxpayer expense. Additionally, it is anticipated that inmates will be less likely to seek and use medical services unnecessarily when they will be partly responsible for paying for those services. The money earned through the assessment of fees for medical services for inmates will be placed in the General Fund.

Fiscal Impact

The proposed amendment will require that inmates incarcerated within State correctional institutions and facilities pay a \$2 fee for certain medical services provided to them and to pay two-thirds of the total cost of medical services that are provided to another inmate as a result of the paying inmate's assaultive conduct. The proposed amendment will also require inmates who are covered by medical insurance to pay for their medical needs through that insurance. The proposed amendment will have no other direct fiscal impact on the private sector, the general public or political subdivisions. The additional revenue generated through the collection of fees will be deposited in the General Fund as required by the act.

Paperwork Requirements

The proposed amendment will create minimal additional paperwork for the private sector in that few inmates are covered by medical insurance that would require the filing of many medical claims with private insurance companies. The proposed amendment will not create any additional paperwork for the general public or political subdivisions of this Commonwealth. Minimal additional paperwork will be required for the Department. The Department will collect the fees through an inmate authorization form, which will describe the medical service to be provided and advise the inmate of the fee to be deducted from the inmate's account. The authorization form will then be forwarded to the institution's business office for debiting the inmate's account. The act also requires that the Department conduct an annual audit of the Program and submit an annual report to the Chairpersons and Minority Chairpersons of the Appropriations Committee and the Judiciary Committee of the Senate and the Chairpersons and Minority Chairpersons of the Appropriations Committee and the Judiciary Committee of the House of Representatives.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on September 24, 1997, the Department submitted a copy of the proposed amendment to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the House and Senate Judiciary Committees (Committees). In addition to submitting the proposed amendment, the Department has provided IRRC and the Committees with a copy of a detailed Regulatory Analysis Form prepared by the Department in compliance with Executive Order 1996-1, "Improving Government Regulations." A copy of this material is available to the public upon request.

If IRRC has objections to the proposed amendment, it will notify the Department within 10 days of the close of the Committees' comment period. The notification shall specify the regulatory review criteria which have not been met by that portion. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of

the amendments, by the Department, the General Assembly and the Governor of objections raised.

Statutory Authority

The Department's authority to establish the Program and impose the fees established by the proposed amendment is set forth in section 3(b) of the act (61 P. S. § 1013(b)) and Act 53 of 1996.

Effective Date

The proposed amendment shall be effective upon closure of the public comment period, the regulatory review process and subsequent publication as final rulemaking in the *Pennsylvania Bulletin*.

Public Comment Period/Contact Person

Written comments concerning the Department's proposed amendment of § 93.12 shall be submitted to Kathleen Zwierzyna, Director, Bureau of Health Care Services, Pennsylvania Department of Corrections, 2520 Lisburn Road, P.O. Box 598, Camp Hill, PA 17001-0598. Written comments must be received within 30 days of the publication of this notice of proposed rulemaking in the *Pennsylvania Bulletin*.

MARTIN F. HORN,
Commissioner

Fiscal Note: 19-1. (1) cost savings to the General Fund as listed; (2) Implementing Year 1996-97 is \$140,000; (3) 1st Succeeding Year 1997-98 is \$180,000; 2nd Succeeding Year 1998-99 is \$185,000; 3rd Succeeding Year 1999-00 is \$191,000; 4th Succeeding Year 2000-01 is \$197,000; 5th Succeeding Year 2001-02 is \$202,000; (4) 1995-96 \$826,878,000; 1994-95 \$720,826,000; 1993-94 \$595,379,000; (7) State Correctional Institutions; (8) recommends adoption. This regulation will also increase revenue to the General Fund from the \$2 inmate fee. The increased revenue is estimated at \$140,000 for Fiscal Year 1996-1997 and \$380,000 annually beginning in Fiscal Year 1997-1998. The increased revenue will augment the State Correctional Institutions Appropriation in the Department of Corrections.

Annex A

TITLE 37. LAW

PART III. AGENCIES AND OFFICES

Subpart B. DEPARTMENT OF CORRECTIONS

CHAPTER 93. STATE CORRECTIONAL INSTITUTIONS AND FACILITIES

Subchapter A. RIGHTS AND PRIVILEGES

§ 93.12. [Care and treatment] Prison Medical Services Program.

(a) Every institution will establish procedures to permit inmates to have access to health care staff, prescribed treatment for serious medical needs, appropriate nutrition, exercise and personal hygiene items.

(b) The following words and phrases, when used in this section, have the following meanings, unless the context clearly indicates otherwise:

Department—The Department of Corrections of the Commonwealth.

Fee—The portion of the actual cost of a medical service provided to an inmate which the Department has determined shall be charged to the inmate.

Health care professional—A physician, physician assistant, nurse, dentist, optometric professional or other person licensed to provide health care under the laws of the Commonwealth.

Inmate—A person confined to a correctional institution, motivational boot camp, community corrections center or other facility operated by the Department, its agent or contractor.

Medical service—A service the object of which is the diagnosis, evaluation, treatment or preservation of the health of the human body, including its organs, structures, systems or other components. The term shall be interpreted broadly and includes, but not be limited to, diagnostic testing, prescribing and administering medication, surgical procedures, dental care, eye care, the furnishing of prosthetic appliances and devices and any other type of treatment or preventative care, whether performed on an inpatient or outpatient basis.

(c) The Department will charge a fee to an inmate for one or more of the following:

(1) Medical service requested by the inmate.

(2) Nonemergency medical service provided to the inmate unless the medical service is provided during a follow-up appointment or was previously recommended or prescribed by a health care professional employed by the Department or its contractors.

(3) Medical service provided to the inmate as the result of a self-inflicted injury or illness, including emergency medical service provided to the inmate as the result of a self-inflicted injury or illness.

(4) An initial medication prescription except as provided in subsection (d).

(5) Medical service provided to another inmate as a result of assaultive conduct engaged in by the inmate to be charged the fee.

(6) Medical service provided to the inmate as a result of an injury or illness arising from the inmate's participation in a sport.

(7) Medical service provided to the inmate to determine whether the inmate's physical condition is suitable for participation in a sport unless the medical service is provided as part of the inmate's initial, annual or biennial physical examination.

(d) The Department will not charge a fee to an inmate for any of the following:

(1) A physical, dental or mental health screening provided to the inmate upon intake.

(2) An immunization, tuberculosis test, Hepatitis B vaccination or other treatment initiated by the Department for public health reasons.

(3) An institutional transfer screening.

(4) An annual and biennial physical and dental examination.

(5) A medical service provided to the inmate during a follow-up appointment scheduled by a health care professional employed by the Department or its contractors.

(6) Mental health treatment.

(7) Chronic care.

(8) Infirmary and long-term care.

(9) A medical referral ordered by a health care professional employed by the Department or its contractors.

(10) A medical service provided to the inmate during a medical emergency unless the medical emergency resulted from a self-inflicted injury or illness as determined by the health care professional providing the medical service.

(11) A laboratory test, electrocardiogram, dressing change or other treatment ordered by a health care professional employed by the Department or its contractors.

(12) A prenatal care.

(13) A medical service provided as a result of an injury or illness arising from the inmate's institutional work assignment.

(14) Medication prescription subsequent to the initial medication prescription provided to an inmate for the same illness or condition.

(15) A social service program including, but not limited to, substance abuse groups and counseling.

(16) A psychotropic medication.

(17) A medication prescribed for the inmate for public health reasons.

(18) A physical, dental and mental health screening performed at the request of the Department.

(19) A medical service provided to the inmate to determine whether the inmate's physical condition is suitable for an institutional work assignment.

(20) An eyeglass prescription.

(21) Dentures.

(22) Prosthetic devices excluding customized items.

(e) The fee for a medical service in subsection (c) is \$2, except that an inmate shall be required to pay a fee equivalent to two-thirds of the total cost of medical services provided to another inmate as a result of the inmate's assaultive conduct. The fee will be assessed each time a medical service in subsection (c) is provided to the inmate or as a result of the inmate's actions. The Department may modify the fee to be charged for any medical

service in subsection (c). Each inmate will receive 60 days written notice of the implementation of the Prison Medical Services Program (Program). Each inmate will receive written notice of any changes in medical service fees and payment procedures at least 60 days prior to the effective date of the changes.

(f) Payment for any medical service in subsection (c) shall be accomplished according to the following procedures:

(1) At the time a medical service is to be provided to the inmate, the inmate will be informed by the Department or its health care contractor whether a fee will be charged for the medical service and will be provided with an authorization form. The authorization form will describe the medical service to be provided and authorize the institution to deduct the fee from the inmate's account.

(2) An inmate who wishes to receive a medical service after being advised that a fee will be charged for the medical service, shall sign the authorization form acknowledging that the inmate's account will be debited for the fee. A nonemergency medical service will not be provided to an inmate who refuses to sign the authorization form after having been advised that a fee will be charged for the medical service. An inmate will not be denied access to medical services because of an inability to pay the required fee. If an inmate lacks sufficient funds to pay a medical service fee, the inmate's account will be debited and the fee recouped as soon as sufficient funds are deposited in the inmate's account.

(3) The Department may seek to recover any amount owed for medical services fees by an inmate upon release in the manner provided by law.

(g) Inmates who have medical insurance shall pay for their own medical needs through that insurance by submitting the proper paperwork to their insurance carrier.

(h) The Department will include an explanation of the Program in the *Inmate Handbook*.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

Action Plan for 1998

The Department of Community and Economic Development (DCED) proposes to adopt the Commonwealth's Action Plan for (FFY) 1998 and the program year which starts on January 1, 1998. The 1998 Action Plan is an

annual update of the Commonwealth's Consolidated Plan for FFY 1995 through 1999. The Action Plan contained herein is the third annual update of the Consolidated Plan submitted by the Commonwealth.

The 1998 Action Plan (Plan) updates documents previously submitted to the United States Department of Housing and Urban Development (HUD). These documents include the nonhousing community development plan and changes that DCED implemented in the application process concerning the three programs administered by DCED. The programs administered by DCED are the Community Development Block Grant (CDBG), the

HOME Investment Partnerships (HOME) and the Emergency Shelter Grant(ESG) programs. The Department of Health (DOH) administers the Housing Opportunities for Persons with AIDS (HOPWA) program. No changes other than the reorganization of DOH are reported concerning the HOPWA program.

This summary is designed to provide an opportunity to citizens, local government officials and interested organizations of the Commonwealth to comment about the Plan. Written comments should be submitted to Aldona Kartorie, Office of Community Development and Housing, Department of Community and Economic Development, Room 509 Forum Building, Harrisburg, PA 17120. Written comments must be received by November 3, 1997.

In addition, a public hearing has been scheduled as follows: October 21, 1997, Department of Community and Economic Development, Room 321 Forum Building, Harrisburg, PA 17120, 9 a.m. to 1:30 p.m.

Anyone who wants to speak must call to schedule a time to give oral testimony at the hearing. This hearing will be shortened if no one is scheduled to testify or if there is minimal response. To schedule oral testimony at the hearing, contact Aldona Kartorie at (717) 720-7409 by October 16, 1997.

Anyone who has a disability and wishes to attend this meeting and requires an auxiliary aid, service or other accommodation to participate in the proceeding should contact Aldona Kartorie, Room 509, Forum Building, Harrisburg, PA 17120, (717) 720-7409 to discuss how DCED may best accommodate those needs. For anyone with a hearing disability, text telephone (TT) calls can be placed through the Pennsylvania Relay System at (800) 654-5984. Calls will be relayed to the Department's number listed above.

Purpose

The Commonwealth's 1998 Action Plan updates the 5-Year Consolidated Plan by describing how the programs will be implemented in 1998. The Action Plan must be approved by HUD to receive direct funding under most HUD housing and community development programs or to permit the funds to go to projects and organizations within the State. Applicants for funding from Federal housing programs must obtain certification that their proposed use of HUD assistance will be consistent with the applicable Plan for the area.

The Plan will have a major impact on the types, location and number of affordable housing units generated and preserved in this Commonwealth as well as the infrastructure and public facilities, services and other economic and community development initiatives that Commonwealth communities will undertake.

Content

The major change discussed in the Plan is the Single Application Process implemented by DCED on July 1, 1997. No other major changes have occurred and all priorities are intact. DCED has undertaken the initiative, for the first time ever, to apply for Super NOFA funding.

Public Review

The Consolidated Plan is available for public comment now through November 4, 1997 at the locations listed:

1. County Offices.
2. DCED Regional Offices:

DEPARTMENT OF EDUCATION

Professional Standards and Practices Commission; Application of Homer L. Smith, Jr. for Reinstatement of Teaching Certificate; Doc. No. RE-96-03; Notice of Opportunity for Hearing and Invitation to Protest

Under the Teacher Certification Law (24 P. S. §§ 2070.1—2070.18) (law), the Professional Standards and Practices Commission (Commission) will consider the

application of Homer L. Smith, Jr. for reinstatement of his teaching certificate in Music Education.

Homer L. Smith, Jr. filed an application for reinstatement of his teaching certificate on September 9, 1996 under section 16 of the Teacher Certification Law (24 P. S. § 2070.16), §§ 35.1 and 35.2 of the General Rules of Administrative Practice and Procedure (1 Pa. Code §§ 35.1—35.2) and 22 Pa. Code § 233.14 (relating to reinstatements). Under section 16 of the law, the Department of Education (Department) on July 22, 1997, requested that the Commission deny Mr. Smith's application for reinstatement. This decision was based on Mr. Smith's failure to cooperate with the Department's required investigation of the request.

In accordance with the law, the General Rules of Administrative Practice and Procedure and 22 Pa. Code § 233.14 (d) (relating to waiver of hearing), the Commission will act upon the application without hearing, unless within 30 days after the publication of this notice a written request for public hearing is filed with the

Commission, along with a notice of intervention, a petition to intervene or protest in accordance with 1 Pa. Code §§ 35.23 and 35.24 (relating to protest) or 1 Pa. Code §§ 35.27—35.32 (relating to intervention). All petitions to intervene, protests and requests for hearing shall be filed with Dr. Warren D. Evans, Executive Director of the Professional Standards and Practices Commission, at 333 Market Street, Harrisburg, PA 17126-0333, on or before 4 p.m. on the due date prescribed by this notice. Persons with a disability who wish to attend the hearing, if held, and require an auxiliary aid, service or other accommodation to participate, should contact Suzanne B. Markowicz at (717) 787-6576 to discuss how the Commission may best accommodate their needs.

Applications, Actions and Special Notices

APPLICATIONS

APPLICATIONS RECEIVED UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[National Pollution Discharge Elimination System Program (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The following parties have applied for an NPDES permit to discharge controlled wastewaters into the surface waters of this Commonwealth. Unless otherwise indicated, on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain effluent limitations and special conditions. These proposed determinations are tentative.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permit are invited to submit a statement to the office noted above the application within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the responsible office considers the public response significant.

Following the 30-day comment period, the Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The application and related documents, proposed effluent limitations and special conditions, comments received and other information are on file and may be inspected and arrangements made for copying at the office indicated above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at 1 (800) 654-5984.

This application is for renewal of an NPDES permit to discharge treated sewage to the Hickory Run in North Beaver Township, **Lawrence County**. This is a new discharge.

The receiving water is classified for the following uses: trout stocked fishery, aquatic life, water supply and recreation. For the purpose of evaluating effluent requirements for TDS, NO₂-NO₃, fluoride and phenolics, the existing/proposed downstream potable water supply considered during the evaluation is the Municipal Authority of the Township of North Sewickley Township on the Beaver River located at River Mile 7.6 which is approximately 21 miles below point of discharge.

The proposed effluent limits for Outfall 001, based on a design flow of 0.230000 mgd, are:

<i>Parameter</i>	<i>Average Monthly (mg/l)</i>	<i>Instantaneous Maximum (mg/l)</i>
CBOD ₅	25	50
Total Suspended Solids	30	60
Ammonia-Nitrogen		
(5-1 to 10-31)	2	4
(11-1 to 4-30)	6	12
Fecal Coliform		
(10-1 to 4-30)	200/100 ml as a geometric average	
(5-1 to 9-30)	4,000/100 ml as a geometric average	
Total Residual Chlorine	0.5	1.6
pH	6.0—9.0 at all times	

The EPA waiver is in effect.

Proposed NPDES permit renewal actions for minor sewage discharges

The following parties have applied to renew their current NPDES permits to allow the continued discharge of controlled wastewater into the surface waters of this Commonwealth. The Department of Environmental Protection (Department) has made a tentative determination to renew these permits and proposes to issue them, subject to their current permit effluent limitations, and monitoring and reporting requirements, with appropriate and necessary updated requirements to reflect new or changed regulations and other requirements. The updates may include, but will not be limited to, applicable permit conditions and/or requirements addressing combined sewer overflows (CSOs), municipal sewage sludge management and total residual chlorine control (TRC). Any major changes to or deviations from the terms of the existing permit will be documented and published with the final Department actions.

The EPA, Region III, Regional Administrator has waived the right to review or object to these proposed permit actions under the waiver provision 40 CFR 123.6E.

Persons wishing to comment on the proposed permits are invited to submit a statement to the Field Operations indicated as the office responsible, within 30 days from the date of this public notice. Comments received within this 30-day period will be considered in the formulation of the final determinations regarding these applications and proposed permit actions. Comments should include the name, address and telephone number of the writer and a brief statement to inform the Field Office of the basis of the comment and the relevant facts upon which it is based. A public hearing may be held if the Field Office considers the public response significant.

Following the 30-day comment period, the Water Management Program Managers will make a final determination regarding the proposed permit action. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit renewal application and related documents, proposed effluent limitations and special conditions, comments received and other information are on the Department's file. The documents may be inspected at, or a copy requested from, the Field Office that has been indicated above the application notice.

Applications under the Pennsylvania Clean Streams Law

(Part II Permits)

The following permit applications and requests for plan approval have been received by the Department of Environmental Protection (Department). Persons objecting on the grounds of public or private interest to the approval of an application or submitted plan may file a written protest with the Department at the address indicated above each permit application or plan. Each written protest should contain the following: name, address and telephone number; identification of the plan or application to which the protest is addressed and a concise statement in sufficient detail to inform the Department of the exact basis of the protest and the relevant facts upon which it is based. The Department may conduct a fact-finding hearing or an informal conference in response to any given protests. Each writer will be notified in writing of the time and place if a hearing or conference concerning the plan, action or application to which the protest relates is held. To insure consideration by the Department prior to final action on permit applications and proposed plans, initial protests and additions or amendments to protests already filed should be filed within 15 calendar days from the date of this issue of the *Pennsylvania Bulletin*. A copy of each permit application and proposed plan is on file in the office indicated and is open to public inspection.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

INDIVIDUAL PERMITS

(PAS)

The following parties have applied for an NPDES permit to discharge stormwater from a proposed construction activity into the surface waters of this Commonwealth. Unless otherwise indicated on the basis of preliminary review and application of lawful standards and regulations, the Department of Environmental Protection (Department) proposes to issue a permit to discharge, subject to certain limitations set forth in the permit and special conditions. These proposed determinations are tentative. Limitations are provided in the permit as

erosion and sedimentation control measures and facilities which restrict the rate and quantity of sediment discharged.

Where indicated, the EPA, Region III, Regional Administrator has waived the right to review or object to this proposed permit action under the waiver provision 40 CFR 123.24(d).

Persons wishing to comment on the proposed permit are invited to submit a statement to the Regional Office or County Conservation District Office indicated as the responsible office, within 30 days from the date of this public notice. A copy of the written comments should be sent to the County Conservation District Office. Comments reviewed within this 30-day period will be considered in the formulation of the final determinations regarding this application. Responses should include the name, address and telephone number of the writer and a concise statement to inform the Regional Office of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held if the Regional Office considers the public response significant.

Following the 30-day comment period, the Water Program Manager will make a final determination regarding the proposed permit. Notice of this determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealable to the Environmental Hearing Board.

The application and related documents, including the erosion and sedimentation control plan for the construction activity, are on file and may be inspected at the County Conservation District Office or the Department Regional Office indicated above the application.

HAZARDOUS SITES CLEAN-UP

Under the act of October 18, 1988

Proposed Response

Gilbert Darnley/Petroleum Recovery Services Site, Greene Township, Beaver County.

The Department of Environmental Protection (Department) under the authority of the Hazardous Sites Cleanup Act (35 P. S. §§ 6020.101—6020.1304) (HSCA), is proposing a response action for the Darnley Site, located at 105 Francis Drive, Greene Township. The Darnley Site is approximately 1 acre in size and was used for the disposal of hazardous and residual wastes.

During an emergency action, the Department removed more than 100,000 gallons of waste from the site that was contained in drums and tanks, and also removed visible contaminated surface soils. Information collected by the Department during the emergency response show that buried wastes and contaminated subsurface soils remain on site and may possibly affect groundwater and surface water. Because groundwater is a source of drinking water for adjacent residents and surface water is used for live stock, a potential threat exists by direct contact.

The purpose of the proposed response is to determine 1) the nature and extent of groundwater contamination, 2) the nature and extent of soil contamination, 3) the volume and nature of waste remaining onsite, 4) the potential risk posed to residential wells, and 5) the need for remedial action.

The Department considered the following options: (1) no action, (2) restricting access by fencing the site, and (3) further investigation to characterize the site and risk posed by the site.

Options 1 and 2 would allow potential hazardous wastes to remain onsite to possibly affect groundwater and surface waters. Additionally, no risks would be identified under these options.

Option 2 would restrict direct contact with the waste but not qualify any risks associated with groundwater and surface water. Option 3 would characterize the nature of the risks and provide a basis for determining any remedial response action.

The Department proposes Option 3 be implemented.

This notice is being provided under section 506(b) of HSCA. The administrative record which contains the information that forms the basis and documents the selection of this response action is available for public review and comment. The administrative record is located at the Department of Environmental Protection (Department) Southwest Regional Office, 400 Waterfront Drive, Pittsburgh, PA 15222 and is available for review from 9 a.m. to 4 p.m.

The administrative record will be open for comment from October 2, 1997 until January 10, 1998. Persons may submit written comments into the record during this time only, by sending them to Annette Paluh, Environmental Protection Specialist, PA DEP, 400 Waterfront Drive, Pittsburgh, PA 15222 or by delivering them to this office in person.

In addition, persons may present oral comments, for inclusion in the administrative record, at a public hearing on November 20, 1997 at 7 p.m. at the Green Township Municipal Building, 1128 State Route 168. Persons wishing to present comments must register with Rita Zettelmayer before November 19, 1997 by telephone at (412) 442-4183 or in writing at 400 Waterfront Drive, Pittsburgh, PA 15222.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodations to participate in the proceeding, should call Rita Zettelmayer at (412) 442-4183 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

**LAND RECYCLING AND ENVIRONMENTAL
REMEDICATION**

Under Act 2, 1995

Preamble 1

**Acknowledgment of Notices of Intent to Remediate
submitted under the Land Recycling and Envi-
ronmental Remediation Standards Act (35 P. S.
§§ 6026.101—6026.908).**

Sections 302 and 303 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate identifies a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the background or Statewide health standard to remediate a site must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department must provide a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the Community Relations Coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southeast Regional Office: Environmental Cleanup Program Manager, Lee Park, Suite 6010, 555 North Lane, Conshohocken, PA 19428, (610) 832-5950.

Valhal Corp., City of Philadelphia, **Philadelphia County**. Gregory L. McIsaac, ATC Associates, Inc., 3540 Concord Rd., York, PA 17402, has submitted a Notice of Intent to Remediate site soil contaminated with PCBs, lead, heavy metals and petroleum hydrocarbons. The applicant proposes to remediate the site to meet the Statewide health standard. A final report was simultaneously submitted.

Southcentral Regional Office, Environmental Cleanup Program Manager, One Ararat Boulevard, Harrisburg, PA 17110, (717) 657-4592.

GPU Energy Hollidaysburg Pole Storage Yard, Hollidaysburg Borough, **Blair County**. Pennsylvania Electric Company, d/b/a GPU Energy, 2800 Pottsville Pike, Reading, PA 19640, has submitted a Notice of Intent to Remediate site soils contaminated with PHCs and PAHs. The applicant proposes to remediate the site to meet the Statewide health standard. A summary of the

Notice of Intent to Remediate was reported to have been published in the Altoona *Mirror* on September 19, 1997.

Westvaco Corporation Woodyard Landfill, Snyder Township, **Blair County**. Westvaco Corporation, 1600 Pennsylvania Avenue, Tyrone, PA 16686 has submitted a Notice of Intent to Remediate site soils and groundwater contaminated with toluene. The applicant proposes to remediate the site to meet the Statewide health standard. A summary of the Notice of Intent to Remediate was reported to have been published in the *Daily Herald* during the week of September 22, 1997.

Southwest Field Office: John J. Matviya, Environmental Cleanup Program Manager, 400 Waterfront Drive, Pittsburgh, PA 15222-4745, (412) 442-5217.

Rea, Mountain Research Inc., 825 25th Street, Altoona, PA 16601 has submitted a Notice of Intent to Remediate soil contaminated with heavy metals. The applicant proposes to remediate the site to meet the Statewide health standard.

GIL Partnership Property, City of Pittsburgh, **Allegheny County**. GIL Partnership Property, c/o Howard J. Wein, Esq., Klett, Leiber, Rooney & Schorling, P. C., 40th Floor, One Oxford Center, Pittsburgh, PA 15219-6498 has submitted a Notice of Intent to Remediate soil contaminated with lead and PHCs. The applicant proposes to remediate the site to meet the Statewide health standard.

**LAND RECYCLING AND ENVIRONMENTAL
REMEDICATION**

Under Act 2, 1995

Preamble 2

**Acknowledgment of Notices of Intent to Remediate
submitted under the Land Recycling and Envi-
ronmental Remediation Standards Act (35 P. S.
§§ 6026.101—6026.908).**

Sections 304 and 305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of any Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use a site-specific standard or who intend to remediate a site in a Special Industrial Area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of the cleanup standards identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department and shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period

for sites proposed for remediation using a site-specific cleanup standard, in whole or in part, and for sites determined to be located in Special Industrial Areas. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area by the person conducting remediation. For the sites identified below, a municipality may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, a municipality may request that the person identified below, as the remediator of a site, develop and implement a public involvement plan. Requests to be involved, and comments, should be directed to the remediator of a site. For further information concerning the content of a Notice of Intent to Remediate, contact the Department's Regional Office under which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Southcentral Regional Office, Environmental Cleanup Program Manager, One Ararat Boulevard, Harrisburg, PA 17110, (717) 657-4592.

Washington Square Phase II Parcel 2, City of Harrisburg, **Dauphin County**. UGI Utilities, Inc., 100 Kachel Boulevard, Reading, PA 19612 has submitted a Notice of Intent to Remediate site soils and groundwater contaminated with BTEX and PAHs. The applicant proposes to remediate the site to meet the site-specific standard. A summary of the Notice of Intent to Remediate was reported to have been published in the Harrisburg *Patriot News* on September 10, 1997.

Northwest Regional Office: Craig Lobins, Acting Environmental Cleanup Program Manager, 230 Chestnut Street, Meadville, PA 16335, (814) 332-6648.

GTE Erie West Plant Facility, 1157 West 16th Street, City of Erie, **Erie County** has submitted a Notice of Intent to Remediate groundwater. The site has been found to be contaminated with solvents. The applicant proposes to remediate the site to meet the site-specific standards. A summary of the Notice of Intent to Remediate was reported to have been published in the *Erie Morning News* and *Erie Daily Times* on September 12, 1997.

SOLID AND HAZARDOUS WASTE

HAZARDOUS WASTE, TREATMENT, STORAGE AND DISPOSAL FACILITIES

Permit No. PAD000429589. G.R.O.W.S. Inc. Hazardous Waste Treatment Facility, G.R.O.W.S. Inc., 1000 New Ford Mill Road, Morrisville, PA 19067. This facility treats hazardous waste leachate from the closed "Old GROWS" section of the landfill in an onsite leachate treatment plant. In place of filing a permit renewal for the facility's Part B permit for their onsite hazardous waste leachate treatment plant, this facility has converted to Permit-By-Rule (PBR) status under 25 Pa. Code § 265.433. With this conversion to PBR status, the Part B Permit No. PAD000429589, as issued on September 23,

1987, is being revoked at the permittee's request. Nothing in this action impacts the Part B Post Closure Permit No. PAD000429589 as re-issued on July 15, 1994 or subsequently amended. This facility is located in Falls Township, **Bucks County**. Action was taken by the Southeast Regional Office on September 19, 1997.

OPERATE WASTE PROCESSING OR DISPOSAL AREA OR SITE

Applications submitted under the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003), the Municipal Waste Planning, Recycling and Waste Reduction Act (53 P. S. §§ 4000.101—4000.1904) and regulations to operate solid waste processing or disposal area or site.

Notice of Intent to Revise Municipal Solid Waste (MSW) Landfill Operating Permit

Under section 111(d) of the 1990 Clean Air Act Amendments, the United States Environmental Protection Agency (EPA) promulgated Emission Guidelines (EG) for existing MSW landfills to control the emission of landfill gases. (See 61 FR 9905, March 12, 1996). A MSW landfill is considered an existing MSW landfill if the facility began construction, modification or reconstruction before May 30, 1991; or received waste on or after November 8, 1987, or has additional capacity available for the future deposition of waste control of landfill gases from existing landfills using best demonstrated technology.

The Commonwealth's State Plan for implementing the EG was submitted to the EPA on July 1, 1997. In accordance with the 111(d) plan, the Department of Environmental Protection (Department) will enforce the requirements of the EG through the issuance of Federally Enforceable State Operating Permits (FESOPS) to designated MSW landfills. Therefore, in accordance with the plan, the operating permit issued to the landfills identified, will be revised to incorporate the requirements of the EG. This revised permit will serve as the enforcement mechanism for the EG requirements.

Copies of the proposed permit amendments and other relevant information are available for public inspection and additional information may be obtained by contacting the Regional Office.

Interested persons may submit written comments, suggestions or objections concerning the proposed permit amendments to the regional office within 30 days of publication of this notice. Written comments submitted to the Department during the 30-day public comment period shall include the name, address and telephone number of the person submitting the comments, along with the reference number of the proposed permit. The commentator should also include a concise statement of any objections to the permit issuance and the relevant facts upon which the objections are based.

The Department reserves the right to hold a public hearing on the proposed action based upon the information received during the public comment period and will provide notice of any scheduled public hearing at least 30 days in advance of the hearing. The hearing notice will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation where the facility is located.

REASONABLY AVAILABLE CONTROL TECHNOLOGY (RACT)

The Department of Environmental Protection (Department) will hold a public hearing on October 22, 1997, at 10 a.m. in the Monongahela Room, located at 400 Waterfront Drive, Pittsburgh, PA 15222.

The hearing is for the Department to take testimony concerning the Reasonably Available Control Technology (RACT) proposal submitted by Anchor Glass Container for Plant #5 located in Connellsville, Fayette County, PA.

The proposed approval is for the immediate implementation of manual control of air-to-fuel ratios on Furnaces

#1, #2 and #3 for a 15 percent reduction in NOx emissions. Additionally, Anchor shall install Combustion Staging on Furnaces #1 and #2 by May 31, 1998, to reduce NOx emissions for these sources by approximately 50%.

RACT for all sources at this facility will include their operation and maintenance in accordance with manufacturer's recommendations, and accepted air pollution control practices.

Those wishing to present testimony during the hearing should contact Community Relations Coordinator, Betsy Mallison, at (412) 442-4182 by October 21, 1997, to register.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Betsy Mallison or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those who are unable to attend the hearing, but wish to comment, should provide written comments to Barbara Hatch, Air Pollution Control Engineer, DEP, 400 Waterfront Drive, Pittsburgh, PA 15222. Comments must be submitted within 30 days of the appearance of this notice.

Copies of the RACT proposal and the proposed Plan Approval are available for review from 8 a.m. to 4 p.m. at the same address. Appointments for scheduling a review may be made by calling (412) 442-4000.

Proposed Revision to the State Implementation Plan for Oxides of Nitrogen and Volatile Organic Compounds and Notice of Public Hearing

On December 19, 1996, the Department of Environmental Protection conducted a public hearing to solicit comments on a proposed nitrogen oxides Reasonably Available Control Technology (RACT) determination and proposed operating permit issuance for various combustion sources (boilers, and the like) owned and operated by The Magee Carpet Company in the Town of Bloomsburg, Columbia County. The Department subsequently issued an operating permit, identified as OP-19-0001, to The Magee Carpet Company for these sources on January 22, 1997 and, on July 7, 1997, transferred the respective operating permit to a successor, Magee Rieter Automotive Systems.

Magee found that it was unable to meet the nitrogen oxides emission limit established in operating permit OP-19-0001 for one of its combustion sources, a 60 million BTU per hour anthracite coal and carpet scrap pellet-fired traveling grate boiler identified as boiler #4, and further determined that this failure was due to an erroneous estimation of the boiler's nitrogen oxides emission potential at the time of the RACT plan and operating permit application submission.

Magee has now identified the boiler's true nitrogen oxides emission potential and has provided the Department with a revised RACT analysis for the respective boiler. After evaluating this information, the Department has made a preliminary determination that the proposed revisions should be approved.

The revised nitrogen oxides emission limits and annual coal/carpet scrap pellet usage limitation to which the Department has preliminarily determined boiler #4 should be subject to are .55 pounds of nitrogen oxides per million BTU of heat input, 57.8 tons of nitrogen oxides per 12 consecutive month period and 9,150 tons of coal and carpet scrap pellets burned per 12 consecutive month period.

If approved, the revised nitrogen oxides emission limits and coal/carpet scrap pellet usage limitation will be incorporated into a revised operating permit and submitted to the United States Environmental Protection Agency as a revision to Pennsylvania State Implementation Plan.

One public hearing will be held for the purpose of receiving comments on the proposed revised operating permit and the proposed SIP revision. The hearing will be held on November 5, 1997 at 1 p.m. at the DEP Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA. The public is invited to comment on the proposal. Persons interested in commenting are invited to appear at the public hearing.

Persons wishing to present testimony at the hearing should contact Daniel Spadoni at (717) 327-3659 at least 1 week in advance of the hearing to reserve a time to present testimony. Oral testimony will be limited to a maximum of 10 minutes per individual and two written copies of the oral testimony are requested. Each organization is requested to designate one witness to present testimony on its behalf.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodations to do so should contact Daniel Spadoni at (717) 327-3659 or the Pennsylvania AT&T relay service at (800) 654-5984 (TDD) to discuss how the Department may accommodate their needs.

Those unable to attend the hearing, but wishing to comment, should provide written comments to David Aldenderfer, Air Quality Environmental Program Manager, PA DEP, 208 West Third Street, Suite 101, Williamsport, PA 17701-6448. Comments should be submitted by November 20, 1997.

All pertinent documents are available for review from 8 a.m. to 4 p.m. in the DEP Northcentral Regional Office, 208 West Third Street, Suite 101, Williamsport, PA 17701. Appointments for scheduling a review must be made by calling (717) 327-3693.

MINING

APPLICATIONS TO CONDUCT COAL AND NONCOAL ACTIVITIES

MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District mining office indicated above each application. Where a 401 water quality certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for such certification.

Written comments or objections, or requests for informal conferences on applications, may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34 (relating to public notices of filing of permit applications, opportunity for comment, and informal conferences).

Where any of the mining activities listed below will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. The NPDES permits will contain, at a minimum, technology-based effluent limitations (as described in the Department's regulations—25 Pa. Code §§ 77.522, 87.102, 88.92, 88.187, 88.242, 89.52 and 90.102) for iron, manganese, suspended solids, settleable solids, alkalinity and pH. In addition to the above, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit when necessary for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies which have requested review of the NPDES permit requirements for a particular mining activity within the above-mentioned public comment period will be provided with a 30-day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

Ebensburg District Office, 437 South Center Street, P. O. Box 625, Ebensburg, PA 15931-0625.

Coal Applications Received

11850106: Permit Renewal, **C & K Coal Company** (P. O. Box 69, Clarion, PA 16214), commencement, operation and restoration of bituminous strip mine for reclamation, only in Reade Township, **Cambria County**, affecting 232.0 acres, receiving stream Curtis Run and an unnamed tributary to/and Muddy Run, application received September 15, 1997.

32870103: Permit Renewal, **M. B. Energy, Inc.** (P. O. Box 1319, Indiana, PA 15701-1319), commencement, operation and restoration of bituminous strip mine for reclamation, only in Burrell Township, **Indiana County**, affecting 74.0 acres, receiving stream unnamed tributaries to the Conemaugh River, application received September 19, 1997.

32970110, New SMP, **Mears Enterprises, Inc.** (P. O. Box 157, Clymer, PA 15728), commencement, operation and restoration of bituminous strip mine and auger mining in Rayne Township, **Indiana County**, affecting 143.0 acres, receiving stream Rayne Run to Crooked Creek to Allegheny River, application received September 18, 1997.

56920108. Permit Renewal, **Godin Brothers, Inc.** (136 Godin Drive, Boswell, PA 15531), commencement, operation and restoration of bituminous strip mine for reclamation, only in Jenner Township, **Somerset County**, affecting 71.7 acres, receiving stream unnamed tributary to Hoffman Run, Hoffman Run, and Quemahoning Creek, all to Quemahoning Creek to Stony Creek to Conemaugh River, application received September 15, 1997.

56970104. New SMP, **Heritage Mining Company** (P. O. Box 126, Cresson, PA 16630), commencement, operation and restoration of bituminous strip mine and a proposed stream variance including the following activities: 1) construction of erosion and sedimentation control structures within 100 feet, 2) intercept Unnamed tributary A at a point approximately 130 feet northeast of Township Route T-691 and construct a relocation channel for a distance of approximately 980 feet, 3) install a haul road stream crossing approximately 500 feet downstream of Unnamed tributary A's Intersection with Township Route T-691. The stream variance activity is located along T-691 starting at a point approximately 2,400 feet northeast of State Route 1012 in Shade Township, **Somerset County**, affecting 82.5 acres, receiving stream unnamed tributaries to Stonycreek River, application received September 12, 1997.

Greensburg District Office, R. D. 2, Box 603-C, Greensburg, PA 15601.

02910101R. **Cherep's Excavating** (9742 Saltsburg Road, Pittsburgh, PA 15239-2126). Renewal application received for continued reclamation of a bituminous surface mine located in Plum Borough, **Allegheny County**. Receiving streams unnamed tributaries to Pucketa Creek to the Allegheny River. Renewal application received September 17, 1997.

Hawk Run District Office, P. O. Box 209, Hawk Run, PA 16840.

14820103. **Al Hamilton Contracting Company** (R. D. 1, Box 87, Woodland, PA 16881, revision to an existing bituminous surface mine permit for a Change in Permit acreage from 335.5 to 379.7 acres, Rush Township, **Centre County**, receiving streams Moshannon Creek and unnamed tributaries to Trout Run, application received August 27, 1997.

17960103. **BBC Coal Company** (P. O. Box 249, Clearfield, PA 16830), revision to an existing bituminous surface mine permit for a Change in Permit acreage from 79.5 to 72.7 acres, receiving streams unnamed tributary to Biglers Run and Hughey Run, application received August 29, 1997.

17803045. **River Hill Coal Company, Inc.** (P. O. Box 141, Kylertown, PA 16847), revision to an existing bituminous surface mine permit for a Change in Permit Acreage from 139 to 150.8 acres, Karthaus Township, **Clearfield County**, receiving streams unnamed tributaries to Upper Three Runs, Upper Three Runs, and unnamed tributary to Saltlick Run, application received September 4, 1997.

17940103. **King Coal Sales, Inc.** (P. O. Box 712, Philipsburg, PA 16866), renewal of an existing bituminous surface mine permit in Decatur Township, **Clearfield County** affecting 50 acres, receiving streams Shimel Run, Moshannon Creek, West Branch of the Susquehanna River, application received September 8, 1997.

17970114. **Sky Haven Coal, Inc.** (R. D. 1, Box 180, Penfield, PA 15849), commencement, operation and restoration of a bituminous surface mine permit in Goshen

Township, **Clearfield County** affecting 70 acres, receiving streams Little Trout Run and two unnamed tributaries to Surveyor Run, application received September 10, 1997.

17970115. **Cougar Contracting, Inc.** (P. O. Box 217, Houtzdale, PA 16651), commencement, operation and restoration of bituminous surface mine-auger permit in Bigler and Gulich Townships, **Clearfield County** affecting 314 acres, receiving streams unnamed streams to Muddy Run and Little Muddy Run, Little Muddy Run, application received September 12, 1997.

17970116. **Hamilton Bros. Coal, Inc.** (R. R. 2, Box 563, Clymer, PA 15728), commencement, operation and restoration of a bituminous surface mine-auger permit in Beccaria Township, **Clearfield County** affecting 257 acres, receiving streams Snyder Run and two unnamed tributaries to Clearfield Creek, application received September 15, 1997.

APPLICATIONS RECEIVED UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT

ENCROACHMENTS

The following Dam Safety and Encroachment permit applications, requests for Environmental Assessment ap-

proval and requests for water quality certification have been received by the Department of Environmental Protection. Section 401(a) of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)) requires the State to certify that the involved projects will not violate the applicable provisions of 33 U.S.C.A. §§ 1311—1313, 1316 and 1317, as well as relevant State requirements. Initial requests for 401 certification will be published concurrently with the permit application. Persons objecting to approval of a request for certification under section 401 or to the issuance of a Dam Safety or Encroachment Permit or the approval of Environmental Assessments must submit any comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted above the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

E09-758. Encroachment. **Heritage Construction Company Inc.**, 3326 York Rd., Suite B, Furlong, PA 18925. To install and maintain storm runoff piping in and along an unnamed tributary to Neshaminy Creek and to place fill material in 0.22 acre of an adjacent wetland (PEM/PEO) associated with the construction of a roadway crossing which will provide an access to the proposed Creekview Estates Subdivision. The site is located at the southeast corner of PA Route 263 and School Road (Buckingham, PA Quadrangle N: 4.2 inches; W: 11.4 inches) in Warwick Township, **Bucks County**.

E23-361. Encroachment. **Desenberg Design LTD**, 63 Llangollen Lane, Newtown Square, PA 19073-3136. To impact approximately 660 linear feet of an unnamed tributary to Little Crum Creek (WWF) associated with the proposed New Forest residential subdivision. The project includes the following activities:

1. To modify an existing stream enclosure used to convey this stream beneath Swarthmore Avenue by removing approximately 80 linear feet of the upstream end of enclosure, and attaching 220 linear feet, twin 46-inch by 36-inch CSP enclosure.

2. To relocate aforementioned stream channel upstream of the modified enclosure and excavate approximately 140 linear feet of the 100-year floodway to accommodate construction of the proposed stormwater management facility. A request for an Environmental Assessment for on-stream non-jurisdictional dam is included as a part of this application.

3. To install and maintain 260 linear feet of 66-inch CSP stream enclosure upstream of aforementioned stormwater management facility to convey flow beneath the proposed access road impacting 0.04 acres of adjacent wetland (PFO).

The site is located at 649 Swarthmore Avenue (Lansdowne, PA Quadrangle N: 4.9 inches; W: 12.0 inches) in Springfield Township, **Delaware County**.

E23-365. Encroachment. **The Boeing Company**, P. O. Box 16858, MS# P25-62, Philadelphia, PA 19142-0858. To construct, operate and maintain a boat launching ramp and adjacent pedestrian access pier situated along the northern bank of the Delaware River (WWF,MF) at the

point of confluence with Crum Creek (WWF). The ramp will facilitate access for small watercraft used for spill response activities. The structure will be constructed primarily from treated pine lumber and welded steel components supported by four steel posts embedded into two concrete footings. The project site is located at the southwestern corner of the Boeing Company property, immediately south of the exit on SR 291 (Bridgeport, NJ-PA Quadrangle N: 19.5 inches; W: 9.9 inches) in Ridley Township, **Delaware County**.

E15-551. Encroachment. **General Real Estate Development Inc.**, 921 Briarwood Circle, West Chester, PA 19380-1895. To widen the existing Chesterfield Lane which will be used as an access road to Somerset Subdivision. The proposed work will impact a total area of 0.17 acre of wetlands (PEM). This site is located at the intersection of Hollow Road and Chesterfield Lane (Malvern, PA Quadrangle N: 14.5 inches; W: 9.00 inches) in Charlestown Township, **Chester County**.

E23-245A. Encroachment. **Kimberly Clark Tissue Company**, Front Street & Avenue of the States, Chester, PA 19013. To amend permit E23-245 to include the operation and maintenance of a steel pile supported high deck structure which will replace a collapsed timber pile supported low deck structure having approximately the same dimensions along the Delaware River (WWF-MF). The proposed work will increase the elevation of the low deck structure by approximately 5.0 feet to match the surrounding high deck structures on the existing pier. A steel sheet pile retaining wall will be placed between the new and existing high deck structures to contain existing earth fill. This work is associated with the Market Street Pier Project on the Kimberly Clark Tissue Company Property (Bridgeport, PA-NJ USGS Quadrangle N: 16.9 inches; W: 15.3 inches) located approximately 800 feet east of the confluence of the Chester Creek and the Delaware River.

E40-474. Encroachment. **TFP, Ltd.**, 1140, Route 315, Wilkes-Barre, PA 18711. To construct and maintain a stream enclosure of Coal Brook (CWF), consisting of 1,633 linear feet of 60-inch corrugated aluminized steel pipe with an improved inlet, and to place fill in 2.05 acres of PFO wetlands for the purpose of constructing a retail-commercial shopping center (the Arena Hub). The project is located south of Mundy Street and north of Interstate 81 approximately 1.0 mile southeast of Interchange 47 of I-81 (Wilkes-Barre East, PA Quadrangle N: 21.1 inches; W: 12.5 inches) in Wilkes-Barre Township, **Luzerne County** (Baltimore District, Army Corps of Engineers).

E40-475. Encroachment. **Leo A. Haydt & Jean E. Haydt**, 1698 Stairville Road, Mountaintop, PA 18637. To excavate in wetlands, within the drainage basin of Little Wapwallopen Creek (high quality coal water fishery), for the purpose of constructing two swales to convey stormwater drainage from highway culverts, through a pasture impacting approximately 0.37 acre of wetlands; and to maintain fill placed in approximately 0.11 acre of wetlands for the purpose of expanding a parking area to the south of Precision Tool & Machine, Inc. The project is located southeast of the Intersection of S. R. 2042 (Stairville Road) and T-404 (St. Mary's Road) (Wilkes-Barre West, PA Quadrangle N: 1.0 inch; W: 16.4 inches), in Dorrance Township, **Luzerne County** (at Baltimore District, U. S. Army Corps of Engineers).

E40-476. Encroachment. **Pennsylvania Department of Transportation, Engineering District 4-0**, P. O. Box 111, Scranton, PA 18501. To maintain a road crossing of Pikes Creek (HQ-CWF), consisting of two 83-inch × 57-inch corrugated metal pipe arch culverts. Construction of the road crossing was authorized by Emergency Permit EP4097404. The project is located on S. R. 1034, Section 350, Segment 0010, Offset 0132, approximately 1.1 miles north of the intersection of S. R. 0029 and S. R. 0118 (Harveys Lake, PA Quadrangle N: 13.1 inches; W: 13.8 inches) in Lake Township, **Luzerne County** (Baltimore District, Army Corps of Engineers).

E40-477. Encroachment. **William J. Hayes and Patricia A. Hayes**, 31 East Blackhorse Pike, Williamstown, NJ 08094. To construct and maintain a pile-supported dock/boathouse, extending approximately 103 feet from the shoreline and having an area of approximately 2,700 square feet, in Harvey's Lake (HQ-CWF). The project is located at Pole 191, Lakeside Drive, Harveys Lake, PA Quadrangle N: 20.4 inches; W: 7.8 inches) in Harveys Lake Borough, **Luzerne County** (Baltimore District, U. S. Army Corps of Engineers).

E45-335. Encroachment. **Anthony Ponder**, R. R. 5, Box 5234, East Stroudsburg, PA 18301. To place fill in a de minimis area of PVO wetlands less than or equal to 0.05 acre for the purpose of constructing a single family dwelling and associated driveway on Lot No. 154 of Penn Estates Residential Subdivision, Section D. The project is located approximately 1.7 miles west of the intersection of S. R. 0447 and S. R. 0191 (East Stroudsburg, PA Quadrangle N: 6.7 inches; W: 15.9 inches) in Stroud Township, **Monroe County** (Philadelphia District, Army Corps of Engineers).

E45-336. Encroachment. **Lester G. Abeloff**, 4005 Glenbrook Road, Stroudsburg, PA 18360. To regrade, stabilize and maintain approximately 50 feet of the channel of a tributary to Big Meadow Run (HQ-CWF) and associated PFO wetlands to obtain site distance for the proposed driveways of the Hunters Run Subdivision—Section 2, located on the north side of S. R. 2020 (Clearview Avenue) and Township Road T639 (East Stroudsburg, PA Quadrangle N: 1.6 inches; W: 13.5 inches) in Stroud Township, **Monroe County** (Philadelphia District, Army Corps of Engineers).

E54-240. Encroachment. **Paul Kennedy and Clarence Sterner**, Orwigsburg Ambulance Association, Inc., P. O. Box 4, Orwigsburg, PA 17901. To place fill in a de minimis area of PEM wetlands less than or equal to 0.05 acre to develop a site for a new building which will house emergency vehicles. This project is located along East Market Street, approximately 700 feet west of S. R. 0443 (Orwigsburg, PA Quadrangle N: 5.1 inches; W: 13.3 inches) in Orwigsburg Borough, **Schuylkill County** (Philadelphia District, Army Corps of Engineers).

E54-241. Encroachment. **Paul A. Moyer**, 102 South Route 183, Schuylkill Haven, PA 17972. To place fill in 0.3 acre of PEM wetlands to facilitate a future commercial building. This project is located in the southeast corner of the intersection of S. R. 0183 and S. R. 0443 (Friedensburg, PA Quadrangle N: 20.3 inches; W: 12.5 inches) in Wayne Township, **Schuylkill County** (Philadelphia District, Army Corps of Engineers).

E54-242. Encroachment. **East Union Township**, Schoolhouse Road, Shepton, PA 18248. To remove the existing structure and to construct and maintain two 43-inch × 68-inch elliptical concrete pipes in the channel of Little Tomhicken Creek (CWF). This project is located

along Township Road T-822, 2,400 feet northwest of the intersection of S. R. 0924 (Nuremburg, PA Quadrangle N: 7.2 inches; W: 0.1 inch) in East Union Township, **Schuylkill County** (Baltimore District, Army Corps of Engineers).

E64-185. Encroachment. **William Anton and Paul Ludick**, R. R. 5, Box 447, Honesdale, PA 18431. To construct and maintain a channel change consisting of the relocation of approximately 350 linear feet of a tributary to Carley Brook (HQ-CWF, MF). The relocated section will consist of approximately 390 linear feet of rock-lined trapezoidal channel, having a bottom width of 4 to 6 feet and 2:1 side slopes. The project includes an 8-inch CMP intake structure within the relocated channel section. The project is located east of T-554, approximately 1 mile south of the intersection of T-554 and T-964 (Galilee, PA Quadrangle N: 1.8 inches; W: 16.2 inches), in Oregon Township, **Wayne County** (Philadelphia District, U. ACTIONS

FINAL ACTIONS TAKEN UNDER THE PENNSYLVANIA CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

[NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM PROGRAM (NPDES)]

DISCHARGE OF CONTROLLED INDUSTRIAL WASTE AND SEWERAGE WASTEWATER

(Part I Permits)

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications and requests for plan approval and has issued the following significant orders.

Persons aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514), and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, 400 Market Street, Second Floor, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. Appeals must be filed with the Environmental Hearing Board (Board) within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings, should contact the specified program. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

Under Act 2, 1995

Preamble 3

The following final reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of any final reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed, and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected.

For further information concerning the final report, please contact the Environmental Cleanup Program in the Department's Regional Office under which the notice

of receipt of a final report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate Regional Office listed. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following final report:

ACTIONS TAKEN UNDER SECTION 401: FEDERAL WATER POLLUTION CONTROL ACT ENCROACHMENTS

The Department of Environmental Protection has taken the following actions on previously received permit applications, requests for Environmental Assessment approval, and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)).

Any person aggrieved by this action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Environmental Hearing Board within 30 days of receipt of written notice of this action unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decisional law.

Actions on applications filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and sections 5 and 402 of The Clean Stream Law (35 P. S. §§ 691.5 and 691.402) and notice of final action for certification under section 401 of the Federal Water Pollution Control Act (33 U.S.C.A. § 1341(a)). (Note: Permits issued for Small Projects do not include 401 Certification, unless specifically stated in the description).

WA 36-1005. Water Allocation. **West Earl Water Authority, Lancaster County**. The applicant was granted the right to purchase 500,000 gpd, based on a 30-day average, from the City of Lancaster.

SPECIAL NOTICES

Environmental Hearing Board, Docket No. 95-246-MG, November 6, 1996 Remand Order, in the case of *Fontaine, Scott and Berks County v. DEP and Waste Management Disposal Services of PA*. For further information, contact Ronald Furlan, Regional Manager, Waste Management Program, Southeast Regional Office, Conshohocken, PA. On November 6, 1996, the Environmental Hearing Board granted summary judgment to Berks County with respect to the County's contention that they were not given proper notice of, or opportunity to comment on, the application leading to the Department's issuance on October 2, 1995 of a waste permit for the Pottstown Landfill Eastern Expansion, Permit No. 100549. In December 1996, the Department and the permittee commenced the notice and comment procedures for Berks County and Douglass Township (Berks) under the remand order. Comments were received from Berks County Commissioners and Berks County Planning Commission. No comments were received from Douglass Township (Berks). Comments were also entertained from the public during a public hearing held on April 23, 1997. All pertinent comments received have been duly considered and written responses prepared. On September 15, 1997, copies of the Department's written responses to their comments were forwarded to Berks County Commissioners and Berks County Planning Commission. The Department believes that it has fulfilled its obligations under the remand order contained in EHB Docket No. 95-246-MG.

Money-Back Guarantee Permit Review Program

The Money-Back Guarantee Permit Review Program, established August 23, 1995, by Governor's Executive Order 1995-5, establishes clear timelines for the processing of certain Department of Environmental Protection (DEP) Permits. Should DEP fail to meet a published processing time, the Department will automatically return the permit fee to the applicant.

Availability of Technical Guidance

Technical guidance documents are on DEP's World Wide Web site (<http://www.dep.state.pa.us>) at the Public Participation Center. The "June 1997 Inventory" heading

is the Governor's List of Nonregulatory Documents. The "Search the Inventory of Technical Guidance Documents" heading is a database of the Inventory. The "Final Documents" heading is the link to a menu of the various DEP bureaus and from there to each bureau's final technical guidance documents. The "Draft Technical Guidance" heading is the link to DEP's draft technical guidance documents.

DEP will be adding its revised documents to the Web throughout 1997.

Ordering Paper Copies of DEP Technical Guidance

Persons can order a bound paper copy of the latest Inventory or an unbound paper copy of any of the final documents listed on the Inventory by calling DEP at (717) 783-8727.

In addition, bound copies of some of DEP's documents are available as DEP publications. Persons should check with the appropriate bureau for more information about the availability of a particular document as a publication.

Changes to Technical Guidance Documents

Here is the current list of recent changes. Persons who have any questions or comments about a particular document should call the contact person whose name and phone number are listed with each document. Persons who have questions or comments in general should call Jonathan Brightbill at (717) 783-8727.

Proposed Revision to the Pennsylvania State Implementation Plan for Sulfur Compound Emissions

A single comprehensive SIP revision for the sulfur dioxide nonattainment area of Conewango Township, Pleasant Township, Glade Township and the City of Warren in Warren County, PA.

The Department of Environmental Protection (Department) proposes to submit a single comprehensive State Implementation Plan (SIP) revision to the United States Environmental Protection Agency (EPA) for the aforementioned area. This SIP revision contains enforceable operating permit emission limitations for the GPU Warren Generating Station and an air quality modeling demonstration indicating the area is in attainment of the National Ambient Air Quality Standards for sulfur dioxide. A nonguideline model is being employed for use in the attainment demonstration for the SIP revision.

If adopted, the proposed SIP revision will be submitted to the EPA for approval.

The public hearing will be held on Wednesday, November 5, 1997, at 1 p.m. at the Department of Environmental Protection, Warren District Office, 321 North State Street, North Warren, PA.

Persons wishing to present testimony at the hearing must contact Michael Hopko at (717) 787-4310 or at the address that follows no later than Friday, October 31, 1997, to reserve a time to present testimony. Oral testimony will be limited to 10 minutes for each witness and three written copies of the oral testimony must be submitted at the hearing. Each organization should designate one witness to present testimony on its behalf.

Persons interested in submitting written comments should send the comments to J. Wick Havens, Chief, Division of Air Resource Management at the following address by November 19, 1997. Copies of the proposed revision may be obtained from the Bureau of Air Quality, Rachel Carson State Office Building, 12th Floor, P.O. Box 8468, Harrisburg, PA 17105-8468 or by telephone at (717) 787-4310.

Persons with a disability who wish to attend the hearing, and require an auxiliary aid, service or other accommodation to participate in the proceeding, should contact J. Wick Havens at the above address or telephone number; or for TDD users, the AT&T Relay Service at 1

Revised NPDES General Permit PAG-2 for Discharges of Stormwater Associated With Construction Activities (1997 Amendment)

The Department of Environmental Protection (Department) by this notice is revising and renewing the National Pollutant Discharge Elimination System (NPDES) General Permit for Stormwater Discharges Associated with Construction Activity (PAG-2) which was originally issued on October 10, 1992 (22 Pa.B 5063) with technical corrections on January 23, 1993 (23 Pa.B 492). PAG-2 is scheduled to expire on October 9, 1997. On October 19, 1996, the Department published a notice of proposed revisions to PAG-2 in the *Pennsylvania Bulletin*, 26 Pa. B. 5055, with a 30-day public comment period. The Department has received comments regarding the proposed revisions from 17 individuals representing the building industry, county conservation districts and State and Federal agencies. After consideration of the comments, the Department is amending the permit as follows:

- The filing fee has been increased from the current \$100 to \$250.
- The upper acreage limitation of 25 acres for participation in PAG-2 has been eliminated.
- Monitoring requirements have been revised to require visual site inspections of erosion and sediment control best management practices.
- Requirements have been added for preconstruction notification and conferences.
- Erosion and sediment control plans are required to be developed, submitted and approved for all spoil areas, borrow areas and phased projects.
- The permit encourages pollution prevention techniques by prohibiting its use in special protection waters, and by requiring proper disposal or recycling of building materials and wastes.
- The permit has been clarified so that both the permittee and copermittees are responsible for filing transfer agreements, maintaining erosion and sediment control best management practices (BMPs), and providing required notifications to the reviewing entity.
- Requirements have been added for the consideration of Federal and State threatened or endangered species and their habitat.
- Clarification has been provided to ensure that coal and noncoal mining activities are not eligible for coverage under this permit.
- Clarification has been added to ensure that wetlands are adequately protected.
- Conditions of the permit which were determined to be unnecessary, redundant or prescriptive have been eliminated.

Extension of Coverage under PAG-2 issued in 1992

The Department is, by this notice, granting permission for persons who submitted an administratively complete

and acceptable Notice of Intent (NOI) seeking coverage under PAG-2 (1992) on or after April 9, 1997, but before October 10, 1997, to continue their stormwater discharge associated with construction activities until October 9, 2002 under the terms and conditions of PAG-2 (1992).

The Department is, by this notice, extending the coverage of PAG-2 (1992) until December 31, 1997 for those persons who submitted an administratively complete and acceptable NOI prior to April 9, 1997. Persons in this category who wish to continue a stormwater discharge associated with construction activities may extend coverage beyond December 31, 1997 under PAG-2 (1992) by submitting an administratively complete and acceptable NOI on or before December 31, 1997. Upon receipt of an administratively complete and acceptable NOI, the reviewing entity will acknowledge and administratively extend the coverage under the terms and conditions of PAG-2 (1992) until October 9, 2002. The fee for continued coverage is \$100.

Persons seeking to continue a discharge of stormwater associated with construction activities, who do not submit an NOI request for extension of coverage on or before December 31, 1997 must apply for PAG-2 (1997 Amendment), or an individual NPDES Permit for Stormwater Discharge Associated with Construction Activities, to extend the coverage.

New Authorizations for Stormwater Discharges Associated with Construction Activities

Persons requesting authorization on or after October 10, 1997 to discharge stormwater associated with construction activities must apply for coverage under PAG-2 (1997 Amendment) accompanied by a \$250 filing fee, or an individual NPDES Permit for Stormwater Discharges Associated with Construction Activities.

Public Comment and Response

The major public comments and the Department's responses follow:

A commentator questioned the justification for a renewal fee, and for increasing the processing fee from \$100 to \$250 for projects under PAG-2 (1997 Amendment). Under the NPDES regulations at 25 Pa. Code, Chapter 92, the renewal of permit coverage requires an application fee. By this notice, the Department is continuing the \$100 fee for renewal of coverage under PAG-2 (1992). The justification for increasing the fee for PAG-2 (1997 Amendment) is based on a survey conducted by the Department of the actual costs associated with the processing of a permit application and related activities by the reviewing entities. The results of the survey indicated that the cost of processing a NOI averaged 12.5 hours per application at a rate of \$20 per hour or \$250.

One commentator recommended that clarification be provided for phased projects and the requirements for specific erosion and sediment control plans. The Department has clarified that the coverage under the permit is only granted for those phases or parcels of a project that have an approved erosion and sediment control plan.

One commentator questioned whether there is a need for individual NPDES permits for stormwater discharges from construction activities. Discharges of stormwater associated with construction activity that do not meet the terms and conditions of PAG-2 (for example, discharges to waters classified as special protection), or that fall within § 92.83(b) (relating to inclusion of individual dischargers in general NPDES permits), must seek an individual NPDES permit to discharge.

A commentator recommended that a wetland determination be conducted if hydric soils are present prior to authorizing coverage under a general permit. The Department has amended the permit so that when the reviewing entity finds that hydric soils are present, a wetland determination may be required to adequately determine the effectiveness of the erosion and sediment control plan.

A commentator recommended that the PA Natural Diversity Inventory (PNDI) be utilized to search for potential impacts to threatened and endangered species during the general permit review. The Department has amended the permit to be consistent with the proposed EPA general permit for stormwater discharged from construction activities, 62 Fed. Reg. 29785 (June 2, 1997), which requires protection of Federal threatened and endangered species and their habitat.

One commentator requested that the Department state the effluent limitations for sediment discharges, and describe how monitoring of these discharges is to be conducted. Effluent limitations are in the form of properly designed, implemented and maintained best management practices. Permittees and copermitees must conduct visual inspection of their best management practices weekly and after each rain event to ensure that the best management practices are working properly and effectively to prevent pollution to waters of this Commonwealth.

The proposed revisions to this general permit have been sent to the United States Environmental Protection Agency (EPA), Regional Administrator for Region III. Persons wishing to obtain a copy of this general permit, application forms, instructions and other related documents should request them from the Department's Bureau of Water Quality Protection, Division of Waterways, Wetlands, and Erosion Control, one of the Department's Regional Offices, a local county conservation district office or the Department's Website <http://www.dep.state.pa.us>. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

DEPARTMENT OF GENERAL SERVICES

Design Professional Selections

The Selections Committee for the Department of General Services (Department) will meet to consider selections of Design Professionals for the following projects:

Project No. DGS 163-25—Renovation of Marina, Presque Isle State Park, Erie County, PA. Construction Cost: \$962,000. The scope of work includes, but is not limited to, replacement of existing floating Pier Nos. 2, 5, 6 and 7; add utilities to Pier No. 4; rehabilitate two comfort stations to include ADA requirements; rehabilitate existing utilities on Piers A and B and replace roof on Administration Building.

Project No. DGS 182-14—Flood Protection Project, Borough of Coalport, Clearfield County, PA. Construction

Cost: \$1,000,000. The scope of work includes, but is not limited to, earth levees, concrete flood walls, stream channel improvements, and the like on Clearfield Creek, Blain Run and an unnamed tributary. The flood protection line could be as much as 7,000 feet.

Project No. DGS 183-11—Rehabilitation of Solomon Run Flood Protection Project, City of Johnstown, Borough of Dale, and Stoneycreek Township, Cambria County, PA. Construction Cost: \$545,000. The scope of work includes, but is not limited to, crack repair, joint repair, weep hole replacement, slab repair/replacement, wall replacement and improvements to low flow control.

Project No. DGS 412-46—Upgrade Sanitary Sewer System, Shippensburg University, Shippensburg, Cumberland County, PA. Construction Cost: \$319,000. The scope of work includes, but is not limited to, television inspection and infiltration/inflow analysis in addition to smoke and dye testing will be required as first stage of design. Design, based on inspection analysis, will correct deficiencies in system and is expected to include at least: placement of 2,300 feet of 16" sanitary sewer line parallel to the existing 10" line, which will remain during and after construction. Install nine new sanitary manholes with a new flow meter at the Borough's tie in. Pump Station renovations include upgrading pumps, valves, electrical control systems, back up generators and hold tank.

Project No. DGS 657-8—New Welcome Center, Erie County, PA. Construction Cost: \$1,841,000. The scope of work includes, but is not limited to, a complete Welcome Center/Safety Rest Area of approximately 7,000 sq. ft. This will include separated parking provisions for cars and truck/buses; water supply system; sewage system; electric power and telephone service; area and highway lighting system; standard acceleration/ deceleration access ramps; entrance road; highway and site signage; landscape; storage/ maintenance building and picnic facilities.

Project No. DGS 800-206—Electrical Distribution System, The Pennsylvania State University, Capital College, Middletown, Dauphin County, PA. Construction Cost: \$2,917,000. The scope of work includes, but is not limited to, replacement of existing overhead electrical distribution system with an underground system including duct, manholes, cable, transformers and related components. Existing underground services will be reconnected to new system; unused overhead equipment will be removed/disposed of; roadway lighting fixtures will be relocated/replaced and overhead distribution in adjacent housing area to be rebuilt with ground resistant construction. Construction of new building which will include new service entrance and branch circuit protective equipment. Distribution shall match existing parameters; system voltage shall be 12,470.

Requirements and Information

Project Program

A Project Program, prepared by the Using Agency, for the above advertised projects may be available and can be obtained upon request to the Selections Committee, Department of General Services, Room 104, 18th & Herr Streets, Harrisburg, PA 17125, (717) 783-8468.

Instructions for Filing Application

Professionals will not be considered by the Committee until all of the following requirements are met.

(a) Signed Revised 1994 Form 150, not more than 1 year old as of the deadline date stated in paragraph (d)

below, must be filed with the Department for the requesting professional firm and the designated key consultants listed on the requesting professional firm's application (Form 150-S). All signatures on Form 150 must be original signatures. Consultants listed on the requesting professional firm's application (Form 150-S) shall be deemed to be designated key consultants. If these documents are not on file with the Department, the requesting professional firm must submit them with the firm's application (Form 150-S). A photocopy of Form 150 without an original signature of a principal of the firm is not acceptable. Revised 1994 Form 150, Architect/Engineer Questionnaire, may be obtained upon request to the Selections Committee, Department of General Services, Room 104, 18th & Herr Streets, Harrisburg, PA 17125, (717) 783-8468.

(b) The requesting professional firm shall obtain from each consultant listed in the requesting professional firm's application (Form 150-S) a signed letter of certification on the consultant's letterhead, attesting to the firm's consent to participate in the requesting professional firm's application (Form 150-S) for the specific project. Signed letters of certification from consultants are required and constitute a part of the requesting professional firm's application (Form 150-S) for the specific project. All signatures on letters of certification must be original signatures.

(c) The requesting professional firm must submit six signed copies of Revised 1994 Form 150-S, Specific Project Form, for each project herein advertised in which the firm is interested and qualified to perform. All signatures on Form 150-S must be original signatures. For architectural projects and, when appropriate, for engineering projects, the Professional shall supply photographs showing a maximum of two different views of each of the three projects described in Question 14, Page 5 of the application (Form 150-S). The requesting professional firm or Joint Venture members must be the Professional of Record for the projects described in Question 14, Page 5 of the application (Form 150-S). It is not acceptable to list work performed by key consultants. The identification and appropriate supportive information concerning each photograph shall include the name, project title, location and the name of the Professional of Record. Renderings and brochures will not be accepted in lieu of photographs. The photographs shall be attached to each copy of the application (Form 150-S). The pages of each copy of revised 1994 Form 150-S must be stapled with photographs and consultant's letters of certification followed by photocopies of licenses of registered professionals included as the last section of the application. Do not bind the application (Form 150-S) in any way to any other documentation. Do not bind the application (Form 150-S) in a binder of any type. Revised 1994 Form 150-S may be obtained upon request to the Selections Committee, Department of General Services, Room 104, 18th and Herr Streets, Harrisburg, PA 17125, (717) 783-8468.

(d) A complete project submission, which consists of documents described in paragraphs (a), (b) and (c) above, must be received on or before the close of business (5 p.m.) Thursday, October 23, 1997, and addressed to the Selections Committee, Department of General Services, Room 104, 18th & Herr Streets, Harrisburg, PA 17125. FAX applications are not acceptable.

Project submissions must be made on the current 1994 forms. Outdated forms are not acceptable.

(e) The Selections Committee may, at its discretion, establish interviews with any or all of the Professionals who have requested consideration for appointment as designer for the above projects. If an interview is required, the Professional will be notified by the Committee as to the date, time and location.

(f) Additional information, in writing, may be requested by the Committee as required.

Additional Services—Indoor Air Quality Assessment Program and Hazardous Materials

The Professional firm selected to design a project will be expected to perform and administer, when required by the Department as Additional Services, an Indoor Air Quality Assessment Program during Building or Renovation Commissioning and the sampling, testing, inspection and monitoring for removal of any asbestos, other hazardous waste or contaminants encountered during project design or construction, unless otherwise stated in the Scope.

The professional agrees to comply with the terms of the Agreement and specifically as it relates to the Professional Liability Insurance and the General Liability Insurance Requirements.

The Selections Committee encourages responses from small firms, minority firms, women-owned firms and firms who have not previously performed State work, and will consider Joint Ventures, which will enable them to participate in this program.

All applications submitted are subject to review by the Selections Committee. The Selections Committee disclaims any liability whatsoever as to its review of the applications submitted and in formulating its recommendations for selection. All recommendations for selection made by the Committee shall be final under the act of July 22, 1975, PL. 75 (No. 45).

DEPARTMENT OF STATE

Request for Information Regarding Campaign Finance Reporting Software

Introduction

On May 20, 1997, Governor Tom Ridge and Secretary of the Commonwealth Yvette Kane unveiled the Ridge Administration's initiative for disclosure of campaign finance information to the public through electronic filing and posting of campaign contribution and expense reports. The initiative is funded by a \$370,000 appropriation requested by the Governor and approved by the General Assembly for the current fiscal year. The Department of State (Department) and its administrative head, Secretary Kane, are responsible for planning and implementing the initiative.

Through a Request for Information (RFI) the Department is seeking comment from computer software vendors regarding the development of campaign contribution and expense report software. In particular, the Department is asking vendors to critique the format and specifications for reporting software that it proposes to mandate, which are briefly summarized. Vendors may also inform the Department whether they intend to make their products compatible with the Department's software specifications, and thereby enable their customers to produce reports on diskette for filing with the Department.

Persons interested in reviewing or responding to the RFI may obtain a copy of the RFI and its attachments by contacting Deputy Secretary Jeffrey Logan, 302 North Office Building, Commonwealth Avenue and North Street, Harrisburg, PA 17120, (717) 787-3796, facsimile number (717) 787-1734, or by e-mail at "bcel@pop3.dos.state.pa.us."

Purpose and Goals of the Campaign Finance Disclosure Initiative

The purpose of the initiative is to put the Commonwealth in the forefront of the states in providing accurate, timely information to the public about political campaign contributions and expenditures. The initiative also furthers Governor Ridge's commitment to provide greater public access to information maintained by the government in a more "user-friendly" manner.

Beginning with the primary election cycle in the Spring of 1998, the campaign contribution and expense reports filed by all candidates for Statewide office (that is, Governor and Lieutenant Governor) and their campaign committees will be posted on the Commonwealth's Internet homepage for public inspection. The Department is currently developing an electronic campaign finance database with auxiliary components necessary for processing the database information and posting it to the web.

Initially, the Department will accept campaign contribution and expense reports for electronic filing only on micro diskette. The Department is exploring the possibility of accepting the reports via modem or some other form of electronic file transfer in the future. In order to facilitate the timely, accurate and efficient disclosure of campaign finance data on the Internet, the Governor and the Secretary have publicly advocated that the 1998 primary candidates for Statewide office and their committees file their reports on diskette.

Information obtained from paper form filings will have to be manually entered into the database. Since manual data entry is expensive and time-consuming, it is in the interests of both public information and government efficiency that as many candidates as possible adopt diskette filing as early as possible. One of the ultimate goals of the initiative is to make diskette filing preferable to paper form filing.

Another of the Administration's goals is to post on the Internet all candidate and committee reports filed with the Department by the year 2000. There are approximately 12,000 campaign finance reports filed with the Department each year.

Pennsylvania's Campaign Finance Reporting System

The Campaign Expense Reporting Law (law) (25 P. S. §§ 3241-3260b) governs the disclosure of contribution and expenditure information in Pennsylvania elections. The Law defines contributions and expenditures, identifies the candidates and political committees required to file reports, establishes a schedule of reporting, prohibits the making of contributions or expenditures by certain entities and creates a system of enforcement.

The Secretary of the Commonwealth is the official responsible for administering certain aspects of the law Statewide and the supervisor of campaign finance reporting by candidates for Statewide office, the General Assembly and most judicial offices, as well as the committees established to support those candidates. The campaign finance disclosure initiative encompasses only those reports that are filed with the Secretary in the Department's Bureau of Commissions, Elections and Legislation. Most candidates for local government office and their affiliated committees file reports at the county level.

The Secretary has the authority, among other things, to prescribe the forms for the various reports and statements required by the law. Filers who submit their contribution and expense reports on diskette in the approved format will no longer have to use or file the Department's paper "Campaign Expense Report" form (Form DSEB-502). However, for the purposes of authentication, a diskette filer will be required to submit a one-page affidavit form bearing the required original signatures.

The Secretary has prescribed other types of registration and report forms for the use of candidates and committees. The Department does not immediately intend to accept diskette filing of these other forms. However, the Department is hopeful that vendors will provide software that enables their clients to complete and print hard copies of the other types of forms.

Summary of Proposed Software Format and Specifications for Diskette Filing

The Department proposes to accept a contribution and expense report on diskette in lieu of a paper Form DSEB-502 only if the format and content of the diskette meets the Department's technical specifications. Vendors should be aware that the specifications, as set forth in the following, are still in the proposal stage and are subject to revision before final approval and publication.

A report must be submitted on a 3.5 inch micro diskette formatted for 1.44 megabyte capacity. Only MS-DOS/Windows compatible diskettes will be accepted. If necessary, a single report may be submitted on more than one diskette.

All data files must use the ASCII character set. All data files must be comma (,) delimited, that is, a comma must

separate all fields in the data files. All data files must be text qualified with double quotation marks (" "), that is, any field defined as alphanumeric, and only a field so defined, must be enclosed by double quotation marks. A sample of the mandatory data file format is provided as follows:

1234, "Mary Jones", 150.00, "123 East Main Street", "Anytown", "PA", "171021234"

In this sample, there are seven fields. The first field is a numeric registration number field, followed by an alphanumeric name field, a numeric dollar amount field, an alphanumeric address field, an alphanumeric city field, an alphanumeric state code field, and finally, an alphanumeric zip code field.

A diskette may contain up to five data files, as follows:

- The FILER.TXT file will store basic information about the candidate or committee filing the report. This file must be included in all diskette reports.

- The file designated CONTRIBUTION.TXT will consist of a separate record for each monetary or in-kind contribution received from a contributor who, during the reporting period, made one or more contributions to the candidate or committee in an aggregate amount or value in excess of \$50. This file must also be included in all reports submitted on diskette.

- The RECEIPT.TXT file will consist of a separate record for each receipt obtained by the candidate or committee during the reporting period that was not a monetary or in-kind contribution. Examples of the receipts to be included in this file are interest income, loans and refunds. If the candidate or committee obtains no receipts during the reporting period, this file need not be included in the diskette report.

- EXPENSE.TXT will consist of a separate record for each expenditure made by the candidate or committee during the reporting period. This file must also be included in all reports submitted on diskette.

- The DEBT.TXT file will consist of a separate record for each unpaid debt or obligation of the candidate or committee that remains outstanding as of the end of the reporting period. If there are no outstanding debts or obligations as of the end of the reporting period, this file need not be included in the diskette report.

Multiple campaign finance reports may be filed at one time. For example, a candidate's report may be submitted along with the report of an associated political committee. In the case of multiple filings, the FILER.TXT file must contain one record for each candidate or committee that is submitting a report, and there must be separate CONTRIBUTION.TXT, RECEIPT.TXT, EXPENSE.TXT and DEBT.TXT files for each candidate or committee. If a multiple filing is too large to fit on one diskette, the required files may be put on more than one diskette. However, no single text file may span more than one diskette.

The RFI includes the following attachments that provide detailed information about the proposed software specifications and the campaign finance reporting system:

- Appendix A, which is a copy of the Department's informational pamphlet entitled "Campaign Expense Reporting Law," which includes the text of the Law;

- Appendix B, which is a copy of the basic paper form approved by the Secretary for the reporting of contributions and expenditures, Form DSEB-502 (revised 12/85);

- Appendix C, which contains copies of other basic forms prescribed by the Secretary for the use of filers;
- Appendix D, a chart listing 1998 election dates and the campaign finance reporting schedule for 1998, which is representative of the Law's annual reporting regimen;
- Appendix E, which contains detailed file layouts and specifications for each of the five data files listed above and completion instructions for the fields within each file;
- Appendix F, which contains lists of the county codes, election cycle report codes, expense codes, party codes and office codes that candidates and committees must use to complete certain fields in a campaign contribution and expense report on diskette.

General Response Guidelines

The following is a list of topics that the Department encourages software vendors to discuss in their responses to the RFI:

- Are you willing and able to make your products compatible with the Department's proposed software format and specifications, and thereby enable diskette filing by your customers who must file reports with the Department?
- If the answer to the above question is "yes," can you make and distribute the necessary software modifications prior to the 1998 Primary Election reporting cycle? If the answer to the above question is "no," why not? Would your answer be different if the Department were to change its proposed filing format or specifications in any way?
- Do you have any comments regarding the structure of the Department's proposed electronic filing format, and can you suggest any modifications to improve or simplify campaign contribution and expense reporting on diskette?
- Are there necessary files or fields missing from the Department's proposed specifications? Should any of the fields be enlarged to accommodate more characters?
- Are the Department's proposed instructions for completing the fields clear and adequate?
- Do you have any comments regarding the proposed filing codes? Can you recommend additional expense codes that diskette filers might commonly use?

This list is not all-inclusive, and the Department welcomes all information and comment on the RFI subject that any vendor wishes to provide. Responding vendors may wish to address only some of the suggested topics or other topics altogether, which is acceptable to the Department.

All responses to the RFI become the property of the Commonwealth of Pennsylvania, which may use the responses for any purpose without incurring any obligation to compensate or seek the approval of any vendor. In order to be considered, a response must be received at the Pennsylvania Department of State, Attention: Deputy Secretary Jeffrey Logan, 302 North Office Building, Commonwealth Avenue and North Street, Harrisburg, PA 17120, on or before 5 p.m. prevailing time on Monday, October 20, 1997. Any questions regarding the RFI may be directed to Deputy Secretary Logan at the above address, (717) 787-3796, facsimile number (717) 787-1734, or by e-mail at "bcel@pop3.dos.state.pa.us."

The Commonwealth of Pennsylvania sincerely appreciates the vendor community's interest in this important

and worthwhile effort to improve the dissemination of campaign finance information to the public.

YVETTE KANE,
Secretary of the Commonwealth

Application for Lease of Right-Of-Way

District 11-0

The Department of Transportation, pursuant to the authority contained in Section 2002(c) of the Administrative Code (71 P.S. § 512(c)) and in 67 Pa. Code § 495.4, gives notice that an application to lease highway right-of-way has been submitted to the Department by The Port Authority of Allegheny County, of 2235 Beaver Avenue, Pittsburgh, Pennsylvania seeking to lease highway right-of-way located along the northerly side of S. R. 0286 at 415 Abers Creek Road, in the Borough of Plum, Allegheny county containing 12,680 sq. ft. ± adjacent to SR 0286 Section A03, for purposes of vehicle parking. Interested persons are invited to submit, within thirty (30) days from the publication of this notice in the *Pennsylvania Bulletin*, written comments, suggestions and/or objections regarding the approval of this application to Henry M. Nutbrown, P.E., District Engineer, Engineering District 11-0, 45 Thoms Run Road, Bridgeville, Pennsylvania 15017.

Questions regarding this application or the proposed use may be directed to: Michael Sudar, District Property Manager, 45 Thoms Run Road, Bridgeville, PA 15017, (412) 429-4830.

Retention of Engineering Firms

**Chester County
Project Reference No. 08430AG2113**

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately four (4) inspectors, under the Department's Inspector-in-Charge, for construction inspection and documentation services on the various S. R.'s for the inspection and documentation of Highway Occupancy Permit Projects, Guide Rail Repair, and Roadside Development Contracts and other general maintenance contracts.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the letter of interest in accordance with the "General Requirements and Information" section.
- b. Review of resumes with emphasis on ability to perform the basic needs of the contract which are understanding and interpreting of current design criteria and do inspection of guide rail, concrete median barriers and impact attenuator installation; assisting construction permit applicants and inspection of drainage, curb, roadway widening and utility installations on state highways; and inspection of roadside development work done by contractors for brushing, herbicide applications, landscaping, mowing, revitalization, and tree and stump removal.
- c. Understanding of Department's requirements, policies and specifications.
- d. Past Performances.
- e. Number of NICET certified inspectors in each payroll classification.
- f. Workload.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	3 (2)
Technical Assistant (TA) (NICET Highway Construction Level 1 or equivalent)	1 (0)

The number(s) in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

- 1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.
- 2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
- 3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
- 4. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.
- 5. Hold an Associate Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

The maximum reimbursement per hour of inspection for each Department Payroll Classification for calendar year of 1997:

<i>Payroll Classification</i>	<i>Maximum Straight Time Reimbursement Per Hour of Inspection</i>
(TCI)	\$33.44
(TA)	\$22.98

The maximum reimbursement per hour of inspection includes all costs for providing construction inspection services at the project site during the normal work week.

Maximum reimbursement per hour of inspection for subsequent calendar years, if applicable, will be established at the scope of work meeting.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item. The firm selected will be required to provide three (3) Transportation Construction Inspectors for permit work who have the ability to perform the following: to conduct on-site inspection including all necessary information for evaluation, which includes but is not limited to sight distance, existing drainage, road condition, shoulder condition, grade of roadway and any additional condition which may require further study by the County Permit Engineer, Traffic Engineer, or Utility Engineer; assist applicant—private citizen, Township or Municipal authority and utility company by interpreting Pennsylvania Department of

Transportation regulations on the driveway access, utility openings an method of restoration; attend municipal and utility preconstruction meetings to insure compliance with the Department of Transportation Regulations and coordination of inspection; enforce compliance with the Department of Transportation Publication 203—Work Zone Traffic Control; inspect work being conducted by the permittee as well as insure restoration of occupancy area within our right-of-way; coordinate inspection efforts with the County Permit Inspector of the Maintenance Department in the County to insure permittee's compliance with regulations; maintain a diary of permits which require intensive study and follow up on violation; have sufficient physical stamina to work under adverse weather conditions and hazardous terrain and stress; appear as a witness if required by the Assistant District Attorney's office; perform the above duties and any other duties and any other related work assignment that requires the same knowledge that a permit inspector has as directed or assigned by the County Maintenance Manager.

One (1) Transportation Construction Inspector must have the ability to inspect brushing, herbicide application, landscaping, mowing operations, revitalization, and tree and stump removal. This inspector must have the ability to identify dead and dying trees and do roadside restoration inspection and help with preparation of contract specifications and documents and obtain compliance with Work Zone Traffic Control specifications. One (1) Transportation Construction Inspector must be familiar with PennDOT guide rail construction specifications, and be able to prepare estimates and Work Orders, and obtain compliance with Work Zone Traffic Control specifications. All inspectors may be required to perform other duties as required.

The firm selected will be required to supply the following equipment at no direct cost to the Department:

- 1 Transportable Cellular Phone
- 6 Telephone Pagers
- 1 Polaroid Spectra II Camera
- 2 5-Power Abney Levels with Stadia

Letters of interest for this project must include a letter, signed by the individuals you propose for all TCIS positions, giving their approval to use their name in your letter of interest for this specific project.

The maximum number of resumes to be included in the letter of interest shall be as follows:

<i>Classification</i>	<i>No. of Resumes</i>
TCI	4

No resumes are required for the TA Classification.

The second copy of the letter of interest and required forms, (see general requirements and information section) shall be sent to: Mr. Andrew Warren, District Administrator, 200 Radnor-Chester Road St. Davids, PA 19087.

Any technical questions concerning the requirements for this project should be directed to Mr. Charles Stone, P.E., District 6-0, at (610) 964-6520.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Delaware County
Project Reference No. 08430G2114**

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately five (5) inspectors, under

the Department's Inspector-in-Charge, for construction inspection and documentation services on various S. R.'s for the inspection and documentation of Highway Occupancy Permit Projects, and Roadside Development Contracts and other general maintenance contracts.

The second copy of the letter of interest and required forms, (see general requirements and information section) shall be sent to: Mr. Andrew Warren, District Administrator, 200 Radnor-Chester Road, St. Davids, PA 19087.

Any technical questions concerning the requirements for this project should be directed to Mr. Charles Stone, P.E., District 6-0, at (610) 964-6520.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

**Montgomery County
Project Reference No. 08430AG2115**

The Department of Transportation will retain an engineering firm to provide supplementary construction inspection staff of approximately six (6) inspectors, under the Department's Inspector-in-Charge, for construction inspection and documentation services on various S. R.'s for the inspection and documentation of Highway Occupancy Permit Projects, and Roadside Development Contracts and other general maintenance contracts.

The Department will establish an order of ranking of a minimum of three (3) firms for the purpose of negotiating an Engineering Agreement based on the Department's evaluation of the acceptable letters of interest received in response to this solicitation. The ranking will be established directly from the letters of interest. Technical proposals will not be requested prior to the establishment of the ranking.

The following factors, listed in order of importance, will be considered by the Department during the evaluation of the firms submitting letters of interest:

- a. Ability to package and present the letter of interest in accordance with the "General Requirements and Information" section.
- b. Review of resumes with emphasis on ability to perform the basic needs of the contract which are understanding and interpreting of current design criteria and do inspection of guide rail, concrete median barriers and impact attenuator installation; assisting construction permit applicants and inspection of drainage, curb, roadway widening and utility installations on state highways; and

inspection of roadside development work done by contractors for brushing, herbicide applications, landscaping, mowing, revitalization, and tree and stump removal.

- c. Understanding of Department's requirements, policies and specifications.
- d. Past Performances.
- e. Number of NICET certified inspectors in each payroll classification.
- f. Workload.

The qualifications and experience required of the firm's inspectors will be established by the Department, and the qualifications of the firm's proposed employees will be reviewed and approved by the Department.

It is anticipated that the supplementary construction inspection staff for this assignment will consist of the following number of inspectors who meet the requirements for the following inspection classifications:

<i>Classification</i>	<i>No. of Inspectors</i>
Transportation Construction Inspector (TCI) (NICET Highway Construction Level 2 or equivalent)	4 (3)
Technical Assistant (TA) (NICET Highway Construction Level 1 or equivalent)	2 (0)

The number(s) in parenthesis above indicate the number of inspectors in each Classification that must meet at least one of the following requirements:

1. Be certified by the National Institute for Certification in Engineering Technologies (NICET) in the field of Transportation Engineering Technology, subfield of Highway Construction, or subfield of Highway Materials, at the Level required for the Inspection Classification.
2. Be registered as a Professional Engineer by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
3. Be certified as an Engineer-in-Training by the Commonwealth of Pennsylvania with the required highway experience specified for the Inspection Classification.
4. Hold a Bachelor of Science Degree in Civil Engineering or a Bachelor of Science Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.
5. Hold an Associate Degree in Civil Engineering Technology with the required highway experience specified for the Inspection Classification.

The maximum reimbursement per hour of inspection for each Department Payroll Classification for calendar year of 1997:

<i>Payroll Classification</i>	<i>Maximum Straight Time Reimbursement Per Hour of Inspection</i>
(TCI)	\$33.44
(TA)	\$22.98

The maximum reimbursement per hour of inspection includes all costs for providing construction inspection services at the project site during the normal work week.

Maximum reimbursement per hour of inspection for subsequent calendar years, if applicable, will be established at the scope of work meeting.

The firm selected may be required to attend a pre-construction conference with the Department and the construction contractor for this project. Under the supervision and direction of the Department, the selected firm will be required to keep records and document the construction work; prepare current and final estimates for payment to the construction contractor; assist the Department in obtaining compliance with the labor standards, safety and accident prevention, and equal opportunity provisions of the contract item. The firm selected will be required to provide three (3) Transportation Construction Inspectors for permit work who have the ability to perform the following: to conduct on-site inspection including all necessary information for evaluation, which includes but is not limited to sight distance, existing drainage, road condition, shoulder condition, grade of roadway and any additional condition which may require further study by the County Permit Engineer, or Utility Engineer; assist applicant—private citizen, Township or Municipal authority and utility company by interpreting Pennsylvania Department of Transportation regulations on the driveway access, utility openings and method of restoration; attend municipal and utility preconstruction meetings to insure compliance with the Department of Transportation Regulations and coordination of inspection; enforce compliance with the Department of Transportation Publication 203—Work Zone Traffic Control; inspect work being conducted by the permittee as well as insure restoration of occupancy area within our right-of-way; coordinate inspection efforts with the County Permit Inspector of the Maintenance Department in the County to insure permittee's compliance with regulations; maintain a diary of permits which require intensive study and follow up on violation; have sufficient physical stamina to work under adverse weather conditions and hazardous terrain and stress; appear as a witness if required by the Assistant District Attorney's office; perform the above duties and any other related work assignment that requires the same knowledge that a permit inspector has as directed or assigned by the County Maintenance Manger.

One (1) Transportation Construction Inspector must have the ability to inspect brushing herbicide application, landscaping, mowing operations, revitalization, and tree and stump removal. This inspector must have the ability to identify dead and dying trees and do roadside restoration inspection and help with preparation of contract specifications and documents and obtain compliance with Work Zone Traffic Control specifications. All inspectors may be required to perform other duties as required.

The firm selected will be required to supply the following equipment at no direct cost to the Department:

- 1 Transportable Cellular Phone
- 6 Telephone Pagers
- 1 Polaroid Spectra II Camera
- 2 5-Power Abney Levels with Stadia

Letters of interest for this project must include a letter, signed by the individuals you propose for all TCIS positions, giving their approval to use their name in your letter of interest for this specific project.

The maximum number of resumes to be included in the letter of interest shall be as follows:

<i>Classification</i>	<i>No. of Resumes</i>
TCI	5

No resumes are required for the TA Classification.

The second copy of the letter of interest and required forms, (see general requirements and information section)

shall be sent to: Mr. Andrew Warren, District Administrator, 200 Radnor-Chester Road, St. Davids, PA 19087.

Any technical questions concerning the requirements for this project should be directed to Mr. Charles Stone, P.E., District 6-0, at (610) 964-6520.

Any questions concerning the submittal of the letter of interest can be directed to the Consultant Agreement Division at (717) 783-9309.

General Requirements and Information

Firms interested in providing the above work and services are invited to submit two copies of a Letter of Interest and required information for each Project Reference Number for which the applicant wishes to be considered.

The first copy of the Letter of Interest and required information must be submitted to Charles W. Allwein, P.E., Chief, Consultant Selection Committee, 7th Floor, Forum Place, 555 Walnut Street, P.O. Box 3060 Harrisburg, PA 17105-3060.

The Letter of Interest and required information must be received within thirteen (13) calendar days of this Notice. The Deadline for receipt of a Letter of Interest at the above address is 4:30 p.m. prevailing time of the thirteenth day.

The second copy of the Letter of Interest and required information must be submitted to the appropriate District Engineer/Administrator or the Bureau Director as indicated in the individual advertisement. This copy must be postmarked or delivered on or before the deadline indicated above.

If an individual, firm, or corporation not authorized to engage in the practice of engineering desires to submit a Letter of Interest, said individual, firm or corporation may do so as part of a Joint Venture with an individual, firm or corporation which is permitted under the state law to engage in the practice of engineering.

If a Joint Venture responds to a project advertisement, the Department of Transportation will not accept separate Letters of Interest from the Joint Venture constituents. A firm will not be permitted to submit on more than one (1) Joint Venture for the same Project Reference Number. Also a firm that responds to a project as a prime may not be included as a designated subcontractor to another firm that responds as a prime to the project. Multiple responses under any of the foregoing situations will cause the rejection of all responses of the firm or firms involved. The above does not preclude a firm from being set forth as a designated subcontractor to more than one (1) prime responding to the project advertisement.

If a goal for Disadvantaged Business Enterprise (DBE) participation is established for an advertised project, firms expressing interest in the project must agree to ensure that Disadvantaged Business Enterprise (DBE) firms as defined in the Intermodal Surface Transportation Efficiency Act of 1991 and currently certified by the Department of Transportation shall have the maximum opportunity to participate in any subcontracting or furnishing supplies or services approved under Form 442, Section 1.10(a). The Act requires that firms owned and controlled by women (WBEs) be included, as a presumptive group, within the definition of Disadvantaged Business Enterprise (DBE). The goal for DBE participation shall be as stated in the individual project advertisement. Responding firms shall make good faith efforts to meet

the DBE goal using DBEs (as they were defined prior to the act), WBEs or combinations thereof.

Proposing DBE firms must be certified at the time of submission of the Letter of Interest. If the selected firm fails to meet the established DBE participation goal, it shall be required to demonstrate its good faith efforts to attain the goal.

Responses are encouraged by small firms, Disadvantaged Business Enterprise (DBE) firms, and other firms who have not previously performed work for the Department of Transportation.

Each Letter of Interest must include the following information and the information must be packaged and presented in the following order:

1. Transmittal Letter (Maximum of two (2) 8 1/2" x 11" typed pages, one side)

The subject heading of the transmittal letter must include the project reference number for which the applicant wishes to be considered, the firm's legal name, fictitious name (if applicable), and the firm's federal identification number. If the project advertisement indicated the Department will retain an engineering firm for the project, the applicant must indicate in the body of their transmittal letter the names and Professional Engineer License Number of individuals who are directing heads or employees of the firm who have responsible charge of the firm's engineering activities, and whose names and seals shall be stamped on all plans, specifications, plats, and reports issued by the firm.

2. Project Organization Chart (one 8 1/2" x 11" page, one side)

This Chart must show key staff from the prime and each subconsultant and their area of responsibility.

3. Standard Form 255, "Architect-Engineer and Related Services Questionnaire for Specific Project" (one Form 255 for the project team).

The Standard Form 255 must be signed, dated, and filled out in its entirety, including Item No. 6 listing the proposed subconsultants and the type of work or service they will perform on the project. Under Item 4 of this form, Column A must include the number of subconsultant personnel and Column B must include the number of prime consultant personnel to be assigned to work on this project reference number. The prime and each subconsultant may include no more than one page each for Items 10 and 11.

If a Disadvantaged Business Enterprise (DBE) goal is specified for the project, the DBE must be currently certified by the Department of Transportation, and the name of the DBE and the work to be performed must be indicated in Item No. 6. If a Woman Business Enterprise (WBE) firm is substituted for the DBE, the WBE firm must also be presently certified by the Department of Transportation and indicated in Item 6.

4. Standard Form 254, "Architect-Engineer for Related Services Questionnaire"

A Standard Form 254, not more than one (1) year old as of the date of this advertisement, must accompany each Letter of Interest for the firm, each party to a Joint Venture, and for each subconsultant the firm or Joint Venture is proposing to use for the performance of professional services regardless of whether the subconsultant is an individual, a college professor, or a Company, unless an acceptable Standard Form 254 for the prime and each subconsultant/subcontractor is on file

in both the Bureau of Design and the Engineering District Office or Central Office Bureau identified in the individual project advertisement.

If the Standard Form 254 is not submitted with the Letter of Interest, the transmittal letter shall indicate the dates that the Standard Forms 254 were submitted to the Bureau of Design and appropriate Engineering District/Central Office Bureau.

These Forms must be assembled with the prime's form first, followed by the form for each subconsultant in the same order as the subconsultants appear in Item 6 of Form 255.

5. Workload Projection Graph (Not required for Construction Inspection Services)

Separate Workload Projection Graphs for the prime and each subconsultant shown in Item 6 of the Form 255 must be included and must indicate the firm's current and anticipated workload compared to the anticipated capacity available for the next two-year time frame. The Workload Projection Graphs must be submitted for the office(s) where the work would be performed and must only include the personnel classifications required for providing the advertised services and work.

6. Authorization Letters (if required)

If the advertisement requires a letter signed by individuals giving their approval to use their name in the Letter of Interest, the letters from proposed prime employees must be first, followed by subconsultant employees, in the same order as shown in Item 6 of Form 255.

7. Registration To Do Business

Firms with out-of-state headquarters or corporations not incorporated in Pennsylvania must include, with each Letter of Interest, a copy of their registration to do business in the Commonwealth as provided by the Department of State. Firms who are not registered to do business in Pennsylvania at the time of this advertisement must document that they have applied for registration to the Department of State, Corporation Bureau. The telephone number for the Corporation Bureau is (717) 787-1057 or (717) 787-2004.

8. Overhead Rates (one page)

A single page summary must indicate the latest audited overhead rate developed in accordance with Federal Acquisition Regulations (FAR) for the prime consultant and each subconsultant. If a FAR rate is not available, the latest rate available from a Certified Public Account must

be indicated. New firms should indicate how long the firm has been in existence and when an audited overhead rate would be available.

9. Additional Information

Additional information, not to exceed ten (10) one sided 8 1/2" x 11" pages or five (5) double sided 8 1/2" x 11" pages may be included at the discretion of the submitting firm.

The assignment of the agreement/contract for the above advertisement(s) will be made to one of the firms who submitted an acceptable Letter of Interest in response to the project advertisement. The assignment will be made based on the Department's evaluation of the firm's qualification and capabilities. The Department reserves the right to reject all letters submitted, to cancel the solicitations requested under this Notice, and/or to readvertise solicitation for the work and services.

FISH AND BOAT COMMISSION

Triploid Grass Carp Permit Applications

Under 58 Pa. Code § 71.7, the Fish and Boat Commission (Commission) may issue permits to stock triploid grass carp in Commonwealth waters. Triploid grass carp are sterile fish that may, in appropriate circumstances, help control aquatic vegetation. The Commission has determined, consistent with 58 Pa. Code § 71.7(e)(3), to seek public input with respect to proposed stockings of triploid grass carp in waters having a surface area of more than 5 acres. Interested persons are invited to submit written comments, objections or suggestions about the notice to the Executive Director, Pennsylvania Fish and Boat Commission, P.O. Box 67000, Harrisburg, PA 17106-7000, within 10 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

The following applications to stock triploid grass carp in waters having a surface area of more than 5 acres are currently undergoing staff review:

<i>Applicant</i>	<i>Water</i>	<i>Location of Water</i>	<i>Description of Water</i>	<i>Nature of Vegetation to be Controlled</i>
Deer Lake Improvement Association	Deer Lake	Wharton Township, Fayette County	60 acre impoundment located on Trout Run used for fishing, boating, swimming	Myriophyllum, Potamogeton, Elodea

HISTORICAL AND MUSEUM COMMISSION

Division of Archival and Records Management Services; Notice of Availability

The Historical and Museum Commission (Commission) issues microfilm standards for municipal governments and school districts as promulgated by the Local Government Records Committee in accordance with the Municipal Records Act (53 P. S. §§ 9001—9010) and Public School Code (24 P. S. § 5-518).

The Commission wishes to provide public notice that revised microfilm standards were approved by the Local Government Records Committee at the September 16, 1997 meeting. The Committee also approved revisions to the policy and guidelines for the retention and disposition of original municipal records copied onto optical imaging and data storage systems as well as new standards and procedures for electronic records. Information on the standards and guidelines is available from the Pennsylvania Historical and Museum Commission, Division of Archival and Records Management Services, P. O. Box 1026, Harrisburg, PA 17108-1026, (717) 787-3913 or (717) 783-9874.

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Memorandum of Understanding Between Pennsylvania Infrastructure Investment Authority and Pennsylvania Public Utility Commission; Doc. No. M-00970725

Commissioners Present: John M. Quain, Chairperson; John Hanger; David W. Rolka; Robert K. Bloom

Public Meeting held
 April 24, 1997

Opinion and Order

The Pennsylvania Public Utility Commission (Commission) continues to be concerned about the ability of many water and wastewater systems to meet the regulatory challenges of the future. Many systems are over 100 years old and require major reinvestment in basic infrastructure. These systems also face the requirements of new drinking water quality standards developed under the Safe Drinking Water Act, adding significantly to both capital costs and operating expenses. Many systems have not increased rates when needed and now find themselves nonprofitable and unable to acquire financing to make these necessary improvements. The number of customer service complaints have been increasing yearly and requests for large rate increases have also generated numerous rate complaints.

In 1990, the Commission joined with the Department of Environmental Resources (DER)(now Department of Environmental Protection (DEP)) and Pennsylvania Infrastructure Investment Authority (PENNVEST) in an inter-agency study—State Initiatives to Address Non-Viable Small Water Systems in Pennsylvania.¹ The study concluded that, in order for a utility to be able to provide safe and reliable service at affordable rates, the utility must remain viable.

A viable water system is one which is self-sustaining and has the commitment and financial, managerial and technical capabilities to reliably meet Commission and DEP requirements on a long-term basis.

In order to assist in the overall objective of obtaining viability for all jurisdictional water systems in this Commonwealth, the Commission determined that it was appropriate to issue a Small Drinking Water System Viability Policy Statement at a Public Meeting on October 28, 1993. The Policy Statement defined viability and set forth the objective to work closely with DEP and other agencies and organizations involved in safe drinking water programs by discouraging the creation of new nonviable systems, and at the same time, encourage the restructur-

¹PA DER Contract BCEC RFP 10-89, ME #90014.

ing of existing nonviable systems. A comparable Viability Policy Statement was adopted by DEP on July 23, 1992.

To facilitate implementation of the Policy Statement, the Commission considered it imperative to work closely with DEP and formalized this working relationship with an interagency Memorandum of Understanding approved at the same Public Meeting. The signing of that Memorandum of Understanding marked a significant step to lead both agencies toward closer cooperation and improved regulatory actions in joint efforts to resolve the water purveyor challenges faced by this Commonwealth.

As an added implementation of the Policy Statement, the Commission also considers it imperative to work closely with PENNVEST and wishes to formalize this working relationship with an interagency Memorandum of Understanding. The signing of this Memorandum of Understanding will mark another significant step in closer cooperation and coordination of actions in joint efforts to resolve the water/wastewater system challenges of the Commission.

Accordingly, under 66 Pa. C.S. §§ 501, 1301, 1501 and 1505, section 102 of the act of July 31, 1968, (P. L. 769, No. 240), as amended, 45 P. S. § 1102, and 71 P. S. §§ 181—182 the Commission has the authority to approve this Memorandum of Understanding; *Therefore, It Is Ordered That:*

1. The Commission hereby adopts the Memorandum of Understanding (MOU) as follows:

2. A copy of this Order together with the MOU be served upon the Office of Trial Staff, the Office of Consumer Advocate, the Office of Small Business Advocate, the Secretary of the Department of Environmental Protection and Pennsylvania Infrastructure Investment Authority.

3. Upon execution of the MOU, the Order and the MOU shall be published in the *Pennsylvania Bulletin*.

By the Commission

JAMES J. MCNULTY,
Acting Secretary

Memorandum of Understanding

Between the Pennsylvania Infrastructure Investment Authority and the Pennsylvania Public Utility Commission

This Memorandum of Understanding entered into this 22nd day of July, 1997, by and between the Pennsylvania Infrastructure Investment Authority (PENNVEST) and the Public Utility Commission (PUC), each agencies of the Commonwealth of Pennsylvania.

Whereas, Sections 501 and 502 of The Administrative Code of 1929 (71 P. S. §§ 181 and 182) require Commonwealth departments and agencies to coordinate their work and activities with other Commonwealth departments and agencies.

Whereas, both PENNVEST and the PUC are concerned about management and operational issues with potentially nonviable public water and wastewater systems which provide drinking water or wastewater service to the public.

Whereas, it is PENNVEST's and the PUC's objective to work closely together and with other agencies and organizations involved in the provision of safe drinking water to encourage the restructuring of troubled water systems in order to substantially reduce the number of existing

nonviable water systems and ensure the long-term viability of all new drinking water systems.

Whereas, a viable system is one which is self-sustaining, has the commitment and the financial, managerial and technical capability to reliably meet Department of Environmental Protection (DEP) and PUC requirements on a long-term basis.

Whereas, both agencies affirm that they will cooperate fully in achieving the common goal of improving water and wastewater system viability through various methods including regionalization and restructuring.

Now, Therefore, to accomplish the common goal of improving water and wastewater system viability, both agencies shall cooperatively undertake the following initiatives:

(1) Develop joint policies to discourage the formation of new potentially nonviable water and wastewater systems and/or the continuation of existing nonviable water and wastewater systems. Use low interest loans, grants or other incentive based financing upon qualification where applicable.

(2) Promote sound business operations and the continuous provision of quality water and wastewater service that meets the Safe Drinking Water Act, the requirements of the Department of Environmental Protection (DEP) and the Public Utility Code.

(3) Encourage any existing system requesting PENNVEST funding to develop and implement comprehensive water and wastewater system facilities plans, management plans and financial plans in order to promote sound business operations and the continuous provision of quality service that meets the Safe Drinking Water Act, the requirements of the DEP and the Public Utility Code.

(4) Participate in a joint application conference (DEP, PENNVEST, PUC) for prospective water and wastewater utilities to identify other options to the creation of any new system.

(5) Encourage comprehensive planning at the local, county and regional levels to ensure water and wastewater system viability and to address potentially nonviable water and wastewater systems. Encourage use of the Business Plan as a viability assessment tool.

(6) Foster and coordinate the restructuring of contiguous and noncontiguous public utility systems, some of which are nonviable, to form viable utility systems.

(7) Provide and/or facilitate financial assistance and examine alternative rate-making and lending policies for projects which comply with the intent of items (2), (3), (4) and (5) above, and for projects which make systems viable through compliance with the intent of items (2), (3), (4) and (5) above.

(8) Participate in the development of safety net programs and procedures to deal with nonviable or abandoned public utility systems. Implement solutions where applicable.

(9) Educate the public, whenever possible, regarding public water and wastewater system regulation, planning and viability issues, as well as the associated cost and the public health benefits derived.

(10) Jointly participate in the PUC "Problem Water Company Task Force," the "Friday Group," and the DEP Technical Assistance Center for Small Water Systems Board (TAC Board). Use DEP Statewide mapping data base identifying locations of all water systems.

(11) Identify policies and procedures that present barriers to small system restructuring and seek solutions to these institutional barriers.

(12) Meet as often as necessary, but at least quarterly, to review progress toward improving water and wastewater system viability in Pennsylvania, to resolve any issues which have been identified by the staff of either agency, and to educate agency staff concerning new regulations, requirements or policies.

(13) For all water and wastewater systems having or applying for financial assistance from PENNVEST and regulated by the PUC, both agencies shall:

(A) Continue to work together to develop strategies to address capacity development for troubled systems.

(B) Work together to facilitate and/or coordinate regional solutions to troubled system problems whenever possible.

(C) Explore all options to develop a more aggressive joint agency policy to collect delinquent loan payments of PUC regulated systems and reexamine PENNVEST collateral process options.

(D) Work to ensure that troubled investor owned utilities with projects that have significant impact on public health, public safety, compliance and the environment have access to funding through the PENNVEST program.

(E) Jointly, including DEP, attend any prefilming meetings whenever necessary.

(F) Encourage all borrowers to file a "Self-Assessment Guide" with each loan application (PENNVEST) and applications for Certificates of Public Convenience (PUC). Jointly review each PUC regulated utility plan.

(G) Develop and implement cooperative strategies that will enable any interested and eligible system to access the application process.

(H) Work cooperatively to establish timely review of PUC regulated rate structures to meet scheduled PENNVEST debt service requirements.

(14) For all water and wastewater systems having or applying for financial assistance from PENNVEST and regulated by the PUC, PENNVEST shall:

(A) Inform PUC of all prefilming conferences and all applications filed with PENNVEST.

(B) Make funds readily available to troubled investor owned utilities following the established PENNVEST rating criteria for obtaining assistance and financing priorities contained in the Act, and the requirements of the Federal and State revolving loan fund for drinking water systems.

(C) Make loan funds available to capable and proximate viable systems: if they take over an identified proximate troubled system, or agree to acquire and improve a nonviable system that would otherwise qualify for funding.

(D) Use available utility mapping data bases to identify systems that should be considered in regionalization projects.

(E) Provide the PUC with a list of all projects per PENNVEST board meeting and the final action on each project.

(F) Provide the PUC with a copy of the General Assembly Annual Report of PENNVEST yearly.

(G) Make available all loan information pertaining to any PUC regulated utility for PUC audit purposes.

(H) Institute an aggressive loan collection policy to insure the continued availability of PENNVEST funds.

(I) Participate in ongoing initiatives, such as the "Problem Water Company Task Force" and the "Friday Group," to provide the lender's perspective on issues that relate to the investor owned water and wastewater utilities.

(15) For all water and wastewater systems having or applying for financial assistance from PENNVEST and regulated by PUC, the PUC shall:

(A) Institute an aggressive policy to support PENNVEST in collection of loans from PUC regulated water and wastewater utilities by developing an annual review process of all PUC regulated systems with PENNVEST financing.

(B) Work toward regional solutions, wherever possible, when attempting to solve troubled system problems.

(C) Require a business plan from all applicants requesting new Certificates of Public Convenience.

(D) Approve the abandonment of service for a PUC regulated utility with an outstanding PENNVEST loan balance, only upon considering the status of the outstanding PENNVEST debt and/or satisfaction of said debt.

(E) Use existing PUC enforcement policies, and/or develop new enforcement strategies, if necessary, to ensure that the rate increases approved by the PUC to pay for the PENNVEST debt service is used for the intended purpose.

(F) When requested, provide PENNVEST with recommendations on investor owned utilities' ability to meet PUC standards as they relate to a system's financial, managerial and technical capacity.

(G) When requested, participate in loan repayment meetings and support PENNVEST efforts to ensure repayment of funds loaned to PUC regulated utilities.

(H) Notify PENNVEST on a timely basis of any known outstanding technical, managerial or financial capacity issues that relate to systems that may be, or have been, funded through PENNVEST.

(I) Provide PENNVEST with a comprehensive list, by county, of all PUC regulated water and wastewater utilities in Pennsylvania, updated periodically.

(J) Identify for PENNVEST any PUC regulated system project that may need assistance to fund capital improvements including: utility name, address, contact person, phone number and the type of improvement anticipated and related construction cost estimate if available.

The parties to this Memorandum set forth the following as the terms and conditions of their understanding:

(1) This Memorandum is not intended to and does not create any contractual rights or obligations with respect to the signatory agencies or any other parties;

(2) Any dispute arising hereunder shall be submitted to the Office of General Counsel for final resolution; and

(3) Either party may terminate this Memorandum upon written notice to the other party.

The parties hereby acknowledge the foregoing as the terms and conditions of their understanding.

PORT OF PITTSBURGH COMMISSION

Independent Auditor's Report

Members of the Port of Pittsburgh Commission
Pittsburgh, Pennsylvania

We have audited the balance sheets of the Port of Pittsburgh Commission Special Revenue Fund (Commission), a component unit of the Commonwealth of Pennsylvania, as of June 30, 1997 and 1996, and the related statements of revenues, expenditures and changes in fund balance for the years then ended (not presented herein). In our report dated August 22, 1997, we expressed an unqualified opinion on the financial statements.

As described on the accompanying schedule, this summary financial information of the Commission as of and for the years ended June 30, 1997 and 1996 is not a presentation in conformity with generally accepted accounting principles. In our opinion, however, the accompanying summary financial information is fairly stated, in all material respects, in relation to the statements from which it has been derived.

STATE CONTRACTS INFORMATION

DEPARTMENT OF GENERAL SERVICES

Notices of invitations for bids and requests for proposals on State contracts for services and commodities for which the bid amount is reasonably expected to be over \$10,000, are published in the State Contracts Information Section of the *Pennsylvania Bulletin* prior to bid opening date. Information in this publication is intended only as notification to its subscribers of available bidding and contracting opportunities, and is furnished through the Department of General Services, Vendor Information and Support Division. No action can be taken by any subscriber or any other person, and the Commonwealth of Pennsylvania is not liable to any subscriber or any other person, for any damages or any other costs incurred in connection with the utilization of, or any other reliance upon, any information in the State Contracts Information Section of the *Pennsylvania Bulletin*. Interested persons are encouraged to call the contact telephone number listed for the particular solicitation for current, more detailed information.

EFFECTIVE JULY 1, 1985, A VENDOR'S FEDERAL IDENTIFICATION NUMBER (NUMBER ASSIGNED WHEN FILING INCOME TAX DOCUMENTS) OR SOCIAL SECURITY NUMBER IF VENDOR IS AN INDIVIDUAL, MUST BE ON ALL CONTRACTS, DOCUMENTS AND INVOICES SUBMITTED TO THE COMMONWEALTH.

Act 266 of 1982 provides for the payment of interest penalties on certain invoices of "qualified small business concerns". A qualified small business concern is an independently owned, operated for profit, business employing 100 or fewer employes and is not a subsidiary or affiliate of a corporation otherwise not qualified.

Such penalties apply to invoices for goods or services when payments are not made by the required payment date or within a 15 day grace period thereafter. The small business concern must include on every invoice submitted to the Commonwealth: "(name of vendor) is a qualified small business concern as defined at 4 Pa. Code § 2.32".

For information on the required payment date and annual interest rate, please call the Pennsylvania Department of Commerce, Small Business Action Center, 483 Forum Building, 783-5700.

GET THAT COMPETITIVE EDGE—FOR FREE!

Do you want to do business with your state government? The Treasury Department's office of Contract Information Services can assist you by providing you with information that may be helpful to you in successfully bidding on State contracts.

Act 244 of 1980 requires Commonwealth departments and agencies to file with the Treasury Department a copy of all contracts involving an expenditure of \$5,000 or more.

These fully executed contracts usually contain the vendor's name, dollar value, effective and termination dates and contract specifications. Some contracts also include the names of other bidding vendors and the bid proposal compiled by the awarded vendor. There is a minimal cost for photocopying contracts.
