READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

PROPOSED RULEMAKING

DEPARTMENT OF TRANSPORTATION

[67 PA. CODE CH. 102] Child Passenger Protection

The Department of Transportation (Department), under 75 Pa.C.S. §§ 4581 and 6103 (relating to restraint system; and promulgation of rules and regulations by department), proposes to amend Chapter 102 (relating to child passenger protection) to read as set forth in Annex A.

Purpose of Chapter 102

The purpose of Chapter 102 is to improve safety in transporting children by providing for exemption from the booster seat requirements in 75 Pa.C.S. (relating to the Vehicle Code) for children over a certain weight or height or for children with a medical condition which makes use of a standard child passenger restraint system inappropriate.

Summary of Significant Provisions

Section 102.102(a) (relating to physical criteria for use of child passenger restraint system) provides the general rule that children under 4 years of age must be fastened into a child passenger restraint system and children 4 years of age but younger than 8 years must be fastened into the vehicle's safety seat belt system with the use of an appropriately fitting booster seat.

Section 102.102(b) provides that children 4 years of age but younger than 8 years of age who weigh less than 40 pounds may be secured in a child passenger restraint system instead of the use of a booster seat. If the vehicle was not originally equipped with a shoulder safety belt system, the child may be fastened in the safety seat belt system without the use of a booster seat. Children who weigh more than 80 pounds or who are 4 feet 9 inches or taller may also be fastened in the safety seat belt system without the use of a booster seat.

Section 102.102(c) provides that the requirements of the chapter can be satisfied through appropriate use of child restraint systems, booster seats or vehicle seats designed to accommodate children under 80 pounds, which are integrated into the design of the vehicle by the vehicle manufacturer.

Section 102.103 (relating to medical exemption from use of child passenger restraint system) provides that, upon certification by a physician, children with a medical condition which makes use of a child passenger restraint system or booster seat impractical may also be exempted from the requirements of the proposed rulemaking. The section delineates the information required to obtain a medical exemption.

Persons and Entities Affected

This proposed rulemaking will affect all vehicle operators transporting children under 8 years of age.

Fiscal Impact

The proposed rulemaking will not require the expenditure of any additional funds by the Commonwealth. The cost to the regulated community will be in the cost of a booster seat which range between \$25 and \$130. This proposed rulemaking may also result in marginal savings

to parents with children falling within the exemptions who will thus not have to purchase booster seats.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on October 5, 2004, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House and Senate Transportation Committees. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

Sunset Date

The Department is not establishing a sunset date for the proposed rulemaking, since the proposed rulemaking is needed to administer provisions required under 75 Pa.C.S. The Department, however, will continue to closely monitor the proposed rulemaking for effectiveness.

Public Comments

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to Dianna J. Reed, Transportation Planning Manager, Bureau of Highway Safety and Traffic Engineering, Department of Transportation, Commonwealth Keystone Building, 400 North Street, P. O. Box 2047, Harrisburg, PA 17105-2047 within 30 days of publication of this notice in the *Pennsylvania Bulletin*.

Contact Person

The contact person for this proposed rulemaking is Dianna J. Reed, Transportation Planning Manager, Bureau of Highway Safety and Traffic Engineering, Department of Transportation, Commonwealth Keystone Building, 400 North Street, P. O. Box 2047, Harrisburg, PA 17105-2047, (717) 787-6853.

§ 102.103 Medical exemption from use of child passenger restraint system.

(a) Exemption from the use of a child passenger restraint system for medical reasons may be obtained upon written certification by a physician that use of a child passenger restraint system is impractical. The certification must be made on a form developed by the Department which requires the following information:

(1) The physician's name and practice address.

(2) The date the form was completed.

(3) The name, age and weight of the child.

(4) The medical or physical reasons that the use of a particular child passenger restraint system or systems is impractical.

(5) A recommendation of the type of restraint the child should be fastened into or a statement that no appropriate restraint system is known.

(6) A recommendation regarding the length of time the exemption should extend, or a statement of the conditions under which the exemption should be lifted.

(7) Other information deemed relevant by the physician, such as whether the child can be fastened into the child passenger restraint system but for only limited periods of time.

(b) The completed form must be in the possession of the vehicle operator whenever the child is being transported.

The business meeting will begin at 11 a.m. The portion of the meeting running from 11 a.m. until 12:15 p.m. will consist of the public hearing on a proposal to amend the Water Quality Regulations, Water Code and Comprehensive Plan by establishing pollutant minimization plan requirements for point and nonpoint source discharges following issuance of a TMDL or assimilative capacity determination.

The business meeting will resume at 1:30 p.m. Public hearings on the following project review applications will be held during this afternoon portion of the meeting:

1. *Cabot Corporation D-70-72-2*. An application to upgrade an industrial wastewater treatment plant (IWTP) and implement manufacturing operation improvements necessary to meet water quality objectives in Swamp Creek, a tributary of Perkiomen Creek in the Schuylkill River Watershed. The applicant produces primary nonferrous metals and alloys plus inorganic chemicals at its Boyertown Facility, which is located off Swamp Creek Road and straddles the borders of Douglass Township, Montgomery County and Colebrookdale Township, Berks County. No expansion of the 0.222 million gallon per day (mgd) IWTP is proposed. The plant effluent, along with stormwater, cooling water and water supply treatment wastewater, will continue to be discharged to Swamp Creek by way of the existing outfall. (This was NAR'd as Cabot Supermetals D-70-72 (Revision).)

2. *New Jersey-American Water Company D-90-89 CP-3*. An application for the renewal of a groundwater withdrawal project to increase withdrawal from 15 million gallons per 30 days (mg/30 days) to 28.5 mg/30 days to supply the applicant's public water supply system from existing Wells 1 and 2 in the Kittatinny Limestone formation. The project is located in the Pophandusing Brook Watershed, White Township, Warren County, NJ. (This was NAR'd as D-90-89 CP Renewal 2.)

3. *Waltz Golf Farm, Inc. D-92-49-2*. An application for the renewal of a surface water withdrawal project to continue withdrawal of 9.0 mg/30 days to supply the applicant's golf course from an existing manmade pond on Landis Creek in the Lodal Creek Watershed. The project is located in Limerick Township, Montgomery County, in the Southeastern Pennsylvania Ground Water Protected Area.

4. *Air Products and Chemicals D-93-48-2*. An application for the renewal of a groundwater withdrawal project to continue withdrawal of 8.7 mg/30 days to supply the applicant's manufacturing facility from existing Wells 2 and 4 in the Lehigh River Watershed. 5. *Blue Ridge Real Estate Company D-93-57-2*. An application for the renewal of a surface water withdrawal project to continue withdrawal of 100 mg/30 days from an existing intake in Tobyhanna Creek to supply the applicant's snowmaking operations at the Jack Frost Ski Area. The project is located in Kidder Township, Carbon County.

6. *Buckingham Township D-2003-13 CP-1*. An application for approval of a groundwater withdrawal project to supply up to 5.18 mg/30 days to the applicant's public water supply distribution system from new Wells F-4 and F-5 and to increase the combined withdrawal from all wells from 33.2 mg/30 days to 37.5 mg/30 days. New Wells F-4 and F-5 are located in the Brunswick Formation. The project is located in the Mill Creek Watershed in Buckingham Township, Bucks County, in the Southeastern Pennsylvania Ground Water Protected Area. (This was NAR'd as D-2003-13 CP.)

7. *Buckingham Township D-2004-15 CP-1*. An application to expand the Township's Furlong Sewage Treatment Plant (STP) from 116,825 gallons per day (gpd) to treat an average flow of 257,312 gpd by means of additional lagoon treatment systems. The project will continue to provide secondary treatment of flow from residential and commercial development in Buckingham Township, Bucks County. The STP is located just east of State Route 263 in Buckingham Township. Additional effluent spray fields and drip irrigation zones are proposed. The project will continue to provide long-term effluent storage and utilize Mill Creek in the Neshaminy Creek Watershed as an alternate discharge point. (This was NAR'd as D-2004-15 CP.)

8. *City of New York Department of Environmental Protection D-2004-28 CP-1*. An application to modify an STP located at 4 Neversink Drive, Port Jervis, Orange County, NY. The STP has a capacity of 5 mgd and serves the City of Port Jervis. The existing plant provides secondary treatment and discharges to the Neversink River, upstream from Commission Special Protection Waters and the Delaware Water Gap National Recreation Area. The proposed modification, which constitutes Phase I of a multiphase improvement project, involves the demolition of three Imhoff tanks and construction of two sedimentation basins, plus minor facility upgrades. No increase in STP capacity is proposed.

9. *Exelon Generation Company, LLC D-69-210 CP Final (Revision 12)*. An application for temporary approval to modify the Operating Plan of the Limerick Generating Station (LGS), a nuclear-powered electric generating station located in Limerick Township, Montgomery County,

regarding surface water withdrawal restrictions related to ambient water temperature in the Schuylkill River. The applicant proposes to demonstrate under controlled conditions that the withdrawal of Schuylkill River water can continue without adverse impact when the background water temperature exceeds 59°F, the maximum temperature at which withdrawals can be made under the current docket. In July 2004, an amended application and draft operating and monitoring plan were submitted after discussion with the Commission staff, the Commonwealth and stakeholders. A revised draft operating and monitoring plan was submitted on October 1, 2004, and is attached to the draft docket. The amended application provides for the following:

- A multiyear demonstration period during the remainder of the 2004 season through the 2007 season associated with flow and temperature restrictions in accordance with an approved operating and monitoring plan.
- Withdrawals not to exceed 24 mgd of LGS' consumptive cooling water needs during times when the Schuylkill River 24-hour average river ambient water temperature exceeds 59°F and when the 24-hour average river flow is at or below 1,791 cubic feet per second (cfs) (but above 560 cfs) at the gaging station at Pottstown.
- Withdrawals of LGS' entire consumptive cooling water needs during times when the Schuylkill River 24-hour average river ambient water temperature exceeds 59°F and when the 24-hour average river flow exceeds 1,791 cfs.
- Maintenance of minimum flow of at least 10 cfs in the East Branch Perkiomen Creek at all times in accordance with the draft Demonstration Operation and Monitoring Plan for the Joint Limerick Generating Station Water Supply Modification Demonstration and Wadesville Mine Pool Withdrawal & Stream Flow Augmentation Project that was submitted by Exelon.
- Development of recreational flow management plans to increase flows in the East Branch Perkiomen Creek above 10 cfs to support specific short-term recreational events.
- Establishment of a restoration and monitoring fund based on \$0.06/1,000 gallons of makeup water that is not required for LGS consumptive cooling water needs due to lifting the 59°F temperature requirement. Flows pumped to the EBPC during periods when the 59°F restriction would have been in effect, but not used for consumptive cooling water needs at the LGS, will be credited against this fund.
- Working with stakeholders regarding the design and implementation of the demonstration and restoration projects during 2005 and future years.
- Test periods with no augmentation/makeup waters supplied for LGS consumptive cooling water needs (beyond the minimum 10 cfs flows in the East Branch Perkiomen Creek).
- The continuation of the Wadesville Mine Pool withdrawal and Stream Flow Augmentation Demonstration Project that was approved under Doc. No. D-69-210 CP (Final) (Revision 11) and extended for 1 year by Commission Resolution No. 2003-25 adopted December 3, 2003.

In addition to the previously listed items, the afternoon portion of the Commission's business meeting will include the public hearing on a resolution to amend the Water Quality Regulations, Water Code and Comprehensive Plan to designate the Lower Delaware River as Special Protection Waters. In addition, the meeting will include:

adoption of the minutes of the September 1, 2004, business meeting; announcements; a report on Basin hydrologic conditions; a report by the executive director; a report by the Commission's general counsel; and an opportunity for public dialogue.

Draft dockets and materials relating to the other items scheduled for public hearing on October 27, 2004, will be posted on the Commission's website: www.drbc.net (select "Next DRBC meeting"). Additional documents relating to the dockets and other items may be examined at the Commission's offices. Contact William Muszynski at (609) 883-9500, Ext. 221 with docket-related questions.

Persons who wish to offer comment on items scheduled for public hearing should contact the office of the Commission Secretary, Pamela M. Bush at (609) 883-9500, Ext. 224.

Individuals in need of an accommodation as provided for in the Americans With Disabilities Act who wish to attend the informational meeting, conference session or hearings should contact the office of the Commission Secretary at (609) 883-9500, Ext. 224 or through the Telecommunications Relay Services at 711 to discuss how the Commission may accommodate their needs.

DEPARTMENT OF AGRICULTURE

Partial Revocation of Plum Pox Virus Quarantine

Recitals

1. The Plant Pest Act (act) (3 P. S. §§ 258.1—258.27) empowers the Department of Agriculture (Department) to take various measures to detect, contain and eradicate plant pests in this Commonwealth.

2. The powers granted the Department under section 21 of the act (3 P. S. § 258.21) include the power to establish quarantines to prevent the dissemination of plant pests within this Commonwealth.

3. Plum Pox Virus (PPV) is a serious non-native plant pest that injures and damages stone fruits such as peaches, nectarines, plums and apricots by drastically reducing the fruit yields from these stone fruit trees and by disfiguring the fruit to the point it is unmarketable and has been detected in certain areas of this Commonwealth.

4. The Department has exercised its authority under the act and issued several Orders of Quarantine affecting portions of Adams, Cumberland, Franklin and York Counties in an effort to contain, identify and eradicate PPV.

5. The Department is satisfied it is appropriate to rescind the Order of Quarantine applicable to Quincy Township and Mont Alto Borough, Franklin County and the Order of Quarantine applicable to Southampton Township, Cumberland County, since 3 consecutive years of extensive testing have failed to detect the presence of PPV among stone fruit trees in those areas.

Order

Under authority of section 21 of the act, the Department hereby enters the following order:

The Order of Quarantine dated August 27, 2001, and published at 31 Pa.B. 5117 (September 8, 2001) and the Order of Quarantine dated June 26, 2001, and published at 31 Pa.B. 3559 (July 7, 2001) are hereby rescinded. Those orders had imposed a quarantine on all properties in Quincy Township and Mont Alto Borough, Franklin County and on all properties in Southampton Township, Cumberland County, respectively, to facilitate the containment and eradication of PPV and to make the affected stone fruit tree owners eligible for reimbursement of certain costs related to the destruction of stone fruit trees, herbicide applications, insect control measures and other PPV eradication activities under the Department's Commercial Orchard and Fruit Tree Indemnity Program and the Department's Plum Pox Noncommercial Prunus Tree and Landscape Nursery Prunus Tree Indemnity Program. All PPV-infected stone fruit trees and all stone fruit trees within 500 meters of the infected trees have since been removed from the quarantined locations, and the owners of those trees compensated for the losses attendant to this removal. Three consecutive years of intensive sampling and testing stone fruit leaves in the three municipalities have not yielded any additional positive detections of PPV. Therefore, the locations covered by the referenced August 27, 2001, and June 26, 2001, Orders of Quarantine are no longer considered a potential reservoir of the PPV virus and as a result can be considered free of PPV. The locations hereby released from quarantine are as follows:

All properties and land located in Quincy Township, Franklin County.

All properties and land located in Mont Alto Borough, Franklin County.

All properties and land located in Southampton Township, Cumberland County.

The Department will consult with the United States Department of Agriculture, European experts and scientific authorities with respect to the most efficacious measures by which to contain and eliminate this serious plant pest. The Department will issue further restrictions under authority of this Quarantine Order, as is required under the section 21(a) of the act. These restrictions may address aphid control, elimination or reduction of aphid habitat, destruction of PPV-infected stone fruit trees and budwood, destruction of endangered or exposed stone fruit trees or budwood and any other measures necessary to the containment and elimination of the PPV in this Commonwealth.

This quarantine is effective as of September 30, 2004, and shall remain in effect until terminated by subsequent order.

The Department of Conservation and Natural Resources (Department), acting through the Bureau of Forestry (Bureau), and John Marshall are proposing to negotiate an exchange of lands in Abbott Township, Potter County.

The Bureau is proposing to acquire from John Marshall a 25-acre parcel of land near the Village of Carter Camp. In return, the Bureau proposes to convey to John Marshall a 25-acre parcel of land in the same vicinity. The purpose of this proposed land exchange is to settle the location of the Marshall parcel and the included camp building.

As is the policy of the Department, the public is hereby notified of this exchange. A 30-day period for public inquiry and/or comment will begin October 18, 2004, and end November 16, 2004. Oral or written comments or questions concerning this proposed exchange should be addressed to Daniel A. Devlin, Director of Forest Resource Planning and Stewardship, Bureau of Forestry, P. O. Box 8552, Harrisburg, PA 17105-8552, (717) 787-2105. Oral and/or written comments will become part of the official document used in the final decision process.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and

implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

HAZARDOUS SITES CLEANUP UNDER THE ACT OF OCTOBER 18, 1988

Proposed Consent Order and Agreement Bo-Rit Asbestos Site, Borough of Ambler, Montgomery County

The Department of Environmental Protection (Department), under of section 707 of the Hazardous Sites Cleanup Act (HSCA) (35 P. S. § 6020.707), has entered into a De Minimis Consent Order and Agreement with DEAP, Inc. (DEAP) for reimbursement of certain response costs incurred to remediate hazardous substances released and threatened to be released at the Bo-Rit Asbestos Site (Site), 6 South Maple Street, Borough of Ambler, Montgomery County.

This Site was the former location of asbestos-containing materials manufacturing operations. The EPA conducted an investigation of the Site and documented a release or threatened release of asbestos at the Site. Since 1987, the Department has performed interim response actions at this Site, including a field investigation of the Site, and has concluded that asbestos and asbestos containing materials exist as contaminants at the Site. The Department has not conducted a full investigation to determine the extent of the known contamination, the risk to human health or the environment from the release or threatened release of the known contamination, or to identify whether any additional hazardous wastes, hazardous substances or contaminants exist on the Site.

DEAP purchased the Site with the intent to remediate and develop the Site for residential purposes but has opted to sell it to a buyer for commercial development. The Site is currently under an agreement of sale. DEAP has represented to the Department that it is has not caused or contributed to the release or threatened release of any hazardous substances or contaminants at the Site. DEAP wishes to resolve its potential liability to the Department for reimbursement of certain response costs incurred to investigate the asbestos and asbestos containing materials on the Site. The Department has determined that it is in the public interest to resolve its claim against DEAP. Therefore, DEAP has agreed to reimburse

the Department for certain response costs in the amount of \$2,000 and shall receive contribution protection from claims regarding asbestos and asbestos containing materials related to its ownership of this property.

This notice is provided under section 1113 of the HSCA (35 P. S. § 6020.1113), which states that "settlement shall become final upon the filing of the Department's response to the significant written comments." The Consent Order and Agreement, which contains the specific terms of the agreement, is available for public review and comment and can be examined from 8 a.m. to 4 p.m. at the Department's Southeast Regional Office, 2 East Main Street, Norristown, PA 19401. Contact Sharon Mills, (484) 250-5200, shamills@state.pa.us or Adam N. Bram, Esquire, (484) 250-5300, abram@state.pa.us. A public comment period on the Consent Order and Agreement will extend for 60 days from October 16, 2004. Persons may submit written comments regarding the agreement within 60 days from today's date, by submitting them to Sharon Mills at the previous address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. Public Meeting for Source Water Assessment; Mountain Water Association

The Department of Environmental Protection (Department) will hold a public meeting on October 26, 2004, for the Source Water Assessment for Mountain Water Association. The Source Water Protection Assessment Program (SWAP) meeting will be held on October 26, 2004, at 6:30 p.m. at the Mountain Water Association Office, 2799 Morgantown Road, Smithfield, PA.

The purpose of this meeting is to provide a review of the draft SWAP Report and an opportunity for the public to voice any additional concerns or make suggestions regarding the assessment of the groundwater source within the Brownfield Hollow Watershed. This watershed is the source of public water supplied by the Mountain Water Association.

The Safe Drinking Water Reauthorization of 1996 required states to develop a SWAP to assess drinking water sources that serve public water systems for their susceptibility to pollution and to use this information as a basis for building voluntary, community-based remedies to drinking water contamination. The SWAP assessments are of raw water quality, not of finished water quality and are not intended as a measure of water supplier compliance with the Safe Drinking Water Act. These source water assessment public meetings will assist the Department in gaining vital information about the watershed in the vicinity of groundwater sources and in gaining public support for the assessments. The ultimate goal of the assessments is to support and promote the development of voluntary, local source water protection programs and to reduce the threat of contamination of public drinking water.

For more information about the public meeting, contact Helen Humphreys-Short, Community Relations Coordinator, (412) 442-4183. Persons with a disability who wish to attend the hearing and require auxiliary aid, service or other accommodations to participate in the proceedings should call Helen Humphreys-Short at (412) 442-4183 or through the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD) to discuss how the Department can accommodate their needs.

Request for Comment and Notice of Public Meeting for the Proposed Total Maximum Daily Load (TMDL) Developed for Long Valley Run in Bradford County

The Department and the Susquehanna River Basin Commission (SRBC) are holding a public meeting on October 18, 2004, at 7 p.m. at the Stoll Natural Resource Center, Lake Road, Towanda, PA. The purpose of the meeting is to discuss and accept comments on the proposed TMDL developed for Long Valley Run in Bradford County. In accordance with the requirements of section 303(d) of the Clean Water Act, several stream segments in the watershed have been identified as impaired due to high levels of metals, from acid mine drainage.

<i>Stream Code</i>	<i>Stream Name</i>	<i>Miles Degraded</i>
30360	Long Valley Run	1.6

The proposed plan provides calculations of stream's total capacity to accept metals (aluminum, iron, manganese and acidity), pH and maintain levels below water quality criteria. The applicable water quality criteria are as follows:

<i>Parameter</i>	<i>Criterion Value</i>	<i>Total Recoverable/Dissolved</i>
Aluminum	0.75	Total Recoverable
Iron	1.5	Total Recoverable
	0.3	Dissolved
Manganese	1.0	Total Recoverable
pH	6.0—9.0	N/A

The primary pollutant source for the watershed is abandoned mine workings. This watershed was mined for coal throughout the 19th and 20th centuries. The affects of this are still present. All on the allocations made in the TMDL are load allocations, which are made to nonpoint sources of pollution.

The TMDL was developed using Monte Carlo Simulation (MCS) to determine long-term average concentrations that each stream segment could accept and still meet water quality criteria 99% of the time. MCS allows for the expansion of a data set based on its statistical makeup. Since there was no critical flow condition where criteria were exceeded, the Department used the average flow to express the loading values in the TMDL.

The TMDL sets allowable loading rates for metals and acidity at specified points in the watershed. The basis of information used in the establishment of this TMDL is, SRBC collected, 604(b) report data collected during 2002 and 2003.

The data and all supporting documentation used to develop the proposed TMDL are available from the Department. The proposed TMDL and information on the TMDL program can be viewed and printed on the Department's website: www.dep.state.pa.us/watermanagement_apps/tmdl/. To request a copy of this TMDL, contact Lee McDonnell, Department of Environmental Protection, Water Quality Assessment and Standards, 400 Market Street, P. O. Box 8467, Harrisburg, PA 17105, (717) 783-2938.

Written comments will be accepted at the previous address and must be post marked by December 16, 2004. Persons who plan to make a presentation at the public meeting should notify the Department by 4 p.m. on October 15, 2004. The Department will consider all comments in developing the final TMDL, which will be submitted to the EPA for approval.

Draft Technical Guidance—Substantive Revision

DEP ID: 383-3301-106. Title: Turbidity Reporting Instructions for Public Water Systems Using Filtered Surface Water or Groundwater Under the Influence of Surface Water (GUDI) Sources. Description: This manual, which was formerly titled "Filter Rule Reporting Instructions for Public Water Systems Using Filtered Surface Water Resources," contains detailed instructions for reporting monitoring results for turbidity to the Department as required by the PA Filter Rule (Federal Surface Water Treatment Rule), the Interim Enhanced Surface Water Treatment Rule (IESWTR) and the Long Term 1 Enhanced Surface Water Treatment Rule (LT1 ESWTR). The Turbidity Reporting Instructions in this manual were recently updated to reflect the new Federal monitoring and reporting requirements for turbidity, as specified in the IESWTR and LT1 ESWTR rules. Substantive changes to the manual include the lowering of turbidity standards for combined filter effluent, the incorporation of new monitoring and reporting requirements for individual

filters and the incorporation of a revised SDWA-5 Form for reporting monthly filter plant performance data. The instructions in this manual apply to public water systems that are required to submit surface water turbidity monitoring results to the Department. The monitoring and reporting requirements described in this manual are in addition to other routine monitoring and reporting requirements for public water systems, and do not supersede them. Written Comments: Interested persons should submit written comments on technical guidance document 383-3301-106 by November 15, 2004. Comments submitted by facsimile will not be accepted. However, the Department will accept comments submitted by e-mail. A return name and address must be included in each e-mail transmission. Written comments should be submitted to Phil Consonery, Rachel Carson State Office Building, 11th Floor, Harrisburg, PA 17105-8467, pconsonery@state.pa.us. PENNSYLVANIA PUBLIC UTILITY COMMISSION

Default Order

Public Meeting held
 September 30, 2004

Commissioners Present: Terrance J. Fitzpatrick, Chairperson; Robert K. Bloom, Vice Chairperson; Glen R. Thomas; Kim Pizzingrilli; Wendell F. Holland

Pennsylvania Public Utility Commission Law Bureau Prosecutory Staff v. Promise—Net Intl., Inc. (2003.0264.00); C-20031940; A-310789

Default Order

By the Commission:

On October 17, 2003, Law Bureau Prosecutory Staff filed a Complaint against Promise—Net Intl., Inc. (Respondent), an interexchange reseller certificated at A-310789. In the Complaint, Prosecutory Staff alleged that the Commission sent by certified mail a notice to the Respondent that its 2002 Annual Report was overdue. The Complaint charged that the Respondent's failure to file its 2002 Annual Report violated 66 Pa.C.S. § 504. The Complaint sought an order from the Commission canceling the Respondent's certificate of public convenience for failure to file its 2002 Annual Report.

The Complaint was mailed by the Secretary's Bureau to Respondent's last known business address, but proof of service has not been confirmed because the Commission has on file no record of a return receipt. To date, no answer has been filed to the Complaint, and the 2002 Annual Report has never been filed. In addition, we are not aware that Respondent has any current customers in Pennsylvania, and Respondent was never assigned any NXX codes.

Since filing the Complaint, an Assessment Report form seeking a statement of operating revenues for the calendar year 2003 for use in calculating the General Assessment was sent by first class mail on February 23, 2004, to Respondent at its last known business address, and was returned as undeliverable. Telephone calls to the last known telephone number for Respondent were answered by a nonjurisdictional "800" service provider operating in the same building under a different name. A knowledgeable source with this other provider advised that Respondent is no longer in business. At this point, there is no reasonable means to reach the Respondent, and it has failed in its responsibility to notify the Commission of any address or telephone number changes.

Based on Respondent's failure to file its 2002 Annual Report and its failure to file the Assessment Report for

2003, and upon our inability to serve the Complaint and other documents upon Respondent, we conclude that revocation of Respondent's certificate of public convenience is in the public interest. The Commission puts the industry on notice that we will not hesitate to invoke our authority under the Public Utility Code to ensure timely compliance with our regulations and orders including the ordering of such other remedy as the Commission may deem appropriate. 66 Pa.C.S. §§ 504, 505, 506 and 3301. Furthermore, we may take other appropriate action, including the imposition of penalties under section 3301, in lieu of cancellation, if Respondent seeks relief from this Default Order; *Therefore,*

It Is Ordered That:

1. The allegations in the Law Bureau Prosecutory Staff's Complaint are deemed admitted and the Complaint is thereby sustained.

2. The Secretary serve a copy of this Default Order upon the Office of Consumer Advocate, the Office of Small Business Advocate, the Office of Trial Staff and the Attorney General's Bureau of Consumer Protection, and also cause a copy of this Default Order to be published in the *Pennsylvania Bulletin* with a 30-day comment period.

3. Absent the filing of adverse public comment, 30 days after publication in the *Pennsylvania Bulletin* and without further action by the Commission, the certificate of public convenience held by Promise—Net Intl. Inc. at A-310789 shall be revoked, and the company's name stricken from all active utility lists maintained by the Tariff and Annual Report Section of the Commission's Bureau of Fixed Utility Services and the Assessment Section of the Bureau of Administrative Services.
