READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

The designation of permitted means of service shall be made in an appearance filed in a form substantially consistent with Form 120 provided with these rules.

Rule 117. Coverage—Issuing Warrants; Preliminary Arraignments and Summary Trials; and Setting and Accepting Bail

REGULAR BUSINESS HOURS

All magisterial district judge offices shall be open for regular business on Mondays through Fridays, excluding holidays, from 8:30 a.m. to 4:30 p.m. local time.

CONTINUOUS COVERAGE

Continuous coverage for the issuance of search warrants and arrest warrants, for warrants issued pursuant to Pa.R.Crim.P. 430 in a summary case, for the issuance of emergency orders under the Protection from Abuse Act, and for those services set forth in Pa.R.Crim.P. 117(A)(2)(a), (b), (c) and (d) shall be in accordance with the traditional on-call system as presently established.

NON-BUSINESS HOURS

At least one magisterial district judge shall be available at all times in Crawford County. The responsibility of the judge on call is to perform the services referred to in this order and any other acts of an emergency nature as required by rule or law. A magisterial district judge in a particular district may contact police officers and other law enforcement agencies to indicate that said judge shall be called first even though said judge is not the on call magisterial district judge in order to handle matters required of magisterial district judges within the district of that particular judge.

Otherwise, the magisterial district judge on call shall be contacted by all police agencies and other law enforcement agencies. Said judge must be available (able to be accessed or able to render services as required by rule or law). The magisterial district judge shall not have the option of determining when he or she will be available. The on call magisterial district judge must be available and must respond (answer or reply) in a timely fashion. In certain instances, such as under Rules 441 and 519 of the Pennsylvania Rules of Criminal Procedure, arresting officers may release a person from custody and subsequently file a citation or summons when specific conditions have been met. Police agencies and arresting officers are encouraged to familiarize themselves with these sorts of rules as those rules will be discussed by a magisterial district judge in deciding whether an arraignment is necessary in these cases.

The on call magisterial district judge will be available during non-office hours for a week at a time in rotation,

with each assignment period beginning on Monday at 4:30 p.m. and ending the following Monday at 8:30 o'clock a.m. (except Monday holidays, when the assignment period ends at 4:30 p.m. on that particular Monday).

During that time the on call magisterial district judge is responsible for coverage by being available for inquiries at his or her home, through use of the beeper, or through communication with Crawford County Control. By providing continuous availability the on call magisterial district judge can then effectively receive/monitor all on call requests. If it is necessary for the on call magisterial district judge to personally act within two (2) hours of the time that judge's office will open for the next business day, the magisterial district judge may require the police officer or other law enforcement agency to bring a defendant before the appropriate magisterial district judge at or after the opening of that office.

During temporary assignments in the on call schedule the magisterial district judge assigned is authorized to call upon the services of other magisterial district judges as needed, and mutually agreed upon, particularly if the other magisterial district judges have an office that is more convenient to the parties by reason of geographical location.

The court administrator shall, annually, prepare a temporary assignment schedule to be used in Crawford County outside of normal business hours for the purposes set forth in this rule. That schedule is known as the "Emergency Assignment Schedule." Modifications to this schedule may occur amongst respective magisterial district judges provided any modifications are mutually agreed upon and subsequently conveyed to Crawford County Control. Any additional compensation for subsequent modification of an existing schedule shall be waived.

MAGISTERIAL DISTRICT JUDGE TEMPORARY ASSIGNMENTS

When during regular business hours for magisterial district judges, a judge who has venue over a particular matter is unavailable, any other magisterial district judge in Crawford County is hereby temporarily assigned to serve the magisterial district of the judge who is unavailable. Such an arrangement may be made between respective magisterial district judges by mutual agreement. Any additional compensation for said arrangement will be waived.

OFFICIALS DESIGNATED TO ACCEPT BAIL

Magisterial district judges and the Clerk of Courts shall be authorized to accept bail in accordance with the provisions, and subject to the limitations, of the Pennsylvania Rules of Criminal Procedure.

Rule 118. Use of Two-Way Simultaneous Audio-Visual Communication in Criminal Proceeding.

A defendant may consent to a proceeding being conducted using two-way simultaneous audio-visual communication by signing a Waiver Of Courtroom Appearance, in a form substantially consistent with Form 118 of these rules, prior to or at the time of a two-way simultaneous audio-visual communication.

Additionally, a defendant may consent to a Gagnon II revocation hearing by two-way simultaneous audio-visual communication if, prior to that hearing, the defendant has indicated that intention on a Waiver Of Formal Revocation Hearing form, or an adult probation/parole officer has certified that the defendant has so consented

when filing a Motion To Schedule Gagnon II Hearing, provided in either event the required document has been filed of record.

Whenever a defendant consents to a proceeding being conducted using two-way simultaneous audio-visual communication, the Court or Issuing Authority shall conduct a colloquy regarding the defendant's consent when the defendant's constitutional right to be physically present is implicated.

A Bench Warrant Hearing:

- (1) May be held in Common Pleas Court by the Judge who issued the Bench Warrant or any other Common Pleas Judge.
- (2) May be held before the Magisterial District Judge who issued the Bench Warrant or any other Magisterial District Judge within the Thirtieth Judicial District, including but not limited to the on-call Magisterial District Judge.

Rule 319. Dismissal of Charges after Successful Completion of ARD Program.

Upon the successful completion of a defendant's participation in the Accelerated Rehabilitative Disposition Program, the Probation/Parole Department or the defendant may file a Motion requesting that the Court terminate the ARD case and dismiss the defendant's charges.

Said Motion shall include a proposed Order for the Court to sign setting forth a listing of the specific charges to be expunged by the Court and an additional Order substantially in the form set forth in Form 320 of these rules shall be attached to the Motion for the Court's consideration.

Note: The second paragraph of this rule which requires that a proposed order be attached to the motion is inconsistent with Pa.R.Crim.P. 575(c). While attaching an order truly assists the Court in promptly and efficiently processing a rather standard matter given the large number of ARD cases this Court processes, the Court cannot enforce this for defendants who file their own motion. But the Court can require one of its administra-

tive departments, such as the Adult Probation Department, to follow this Court's orders and expectations.

Rule 320. Expungement Upon Successful Completion of ARD Program.

When the Court enters an Order pursuant to Rule 319 dismissing charges against the defendant upon successful completion of the ARD Program, the Court shall, in a separate Order, in a form substantially consistent with Form 320 of these rules, also order the expungement of the defendant's arrest record.

Form 571

Rule 575. Motions and Answers.

If the party filing a motion knows that the motion is consented to by the other party, counsel for the moving party shall certify that consent within the motion so that the Court has that information in making a determination pursuant to Pa.R.Crim.P. 577 as to whether an answer and/or hearing and/or argument is necessary.

Rule 579. Time for Omnibus Pretrial Motion and Service.

Any omnibus pretrial motion not filed within thirty (30) days after arraignment must set forth the reasons why it was not filed timely, unless the late filing has been agreed to by the District Attorney or an Assistant District Attorney or already permitted by previous Order of Court. If the reasons are not stated within the motion, there has been no agreement with the District Attorney and there has been no prior Order of Court allowing the late filing, such motion may be summarily dismissed within the discretion of the Court.

Rule 590. Pleas, Plea Agreements and Written Colloquies.

(1) The Court will be available for the purpose of taking guilty or nolo contendere pleas from time to time as designated by the Court Administrator. Those times shall include each Thursday afternoon that court is in

session unless otherwise rescheduled with advance notice to the District Attorney and the criminal bar. Pleas will also be taken immediately after the call of each criminal trial list.

(2) (a) After pleas have been taken on the day of the call of the criminal trial list, the Court will not accept any plea for any case on that criminal list unless that plea is a straight plea as charged and in no way is a negotiated plea, even for the purposes of a sentencing recommendation by the District Attorney's Office.

(b) The Court may waive this prohibition against late plea agreements only if both parties agree and have shown good cause to the Court. In the event the Court does find good cause shown and agrees to take the negotiated plea, the Court will determine when the plea will be entered.

(3) **Plea Agreements**—Whenever a guilty plea or nolo contendere plea agreement is reached between the parties, a Plea Agreement Form substantially in the form set forth in Form 590 shall be filled out. Said form shall be signed by the District Attorney or Assistant District Attorney, defense counsel, and the defendant. A copy of the form to ultimately be filed in the Court Administrator's Office shall be provided by the District Attorney's Office to the judge who is taking the plea. Copies of the Plea Agreement Form shall be supplied to defense counsel and the defendant.

(4) **Written Guilty Plea and Nolo Contendere Colloquies**—The Court, within the discretion of the individual judge presiding at Plea Court, will permit guilty pleas and nolo contendere pleas to be entered through the use of a written colloquy on a form substantially consistent with the form hereinafter set forth in this rule, provided that the defendant is represented by counsel.

Those entering pleas through a written colloquy will do so at the onset of Plea Court times scheduled as aforesaid. Counsel representing the defendant who will be entering a plea through the use of a written colloquy shall appear with such clients at the time set for Plea Court to actually begin rather than the time designated for the video explaining a defendant's rights which begins approximately a half hour before the scheduled Plea Court.

A judge may decide that a written plea colloquy should not be used in certain cases. The written plea colloquy shall not be used where defendants are pleading guilty or nolo contendere to first, second or third degree murder.

If the plea is to be entered through the use of a written guilty plea or nolo contendere colloquy, counsel shall review and explain to the defendant the contents of the colloquy form and shall be satisfied that the defendant understands all of the questions on the form and that the defendant is entering a knowing and voluntary plea.

The defendant's counsel's signature on the Guilty or Nolo Contendere Plea Colloquy Form shall constitute a certification by the attorney that the attorney has read, discussed and explained the elements of all offenses and all other questions on the plea form, and to the best of counsel's knowledge, information or belief the defendant understands the consequences of his entering the plea.

The Guilty or Nolo Contendere Plea Colloquy shall be prepared substantially in the form hereinafter set forth and shall be filed in open court at the time of the entry of any plea of guilty or nolo contendere.

(5) **Megan's Law Supplement to Guilty Plea Colloquy**—If a guilty plea or nolo contendere plea is entered

by a defendant using a written plea colloquy substantially in the form hereinafter set forth in this Rule and the defendant is subject to the provisions of Megan's Law, the Megan's Law Supplement to Guilty Plea Colloquy hereinafter set forth shall be used.

Counsel shall review and explain to the defendant the contents of the Megan's Law Supplement and shall be satisfied that the defendant understands all the questions on the Megan's Law Supplement form.

The Megan's Law Supplement to Guilty Plea Colloquy shall be filed in open court at the time of the entry of any plea of guilty or nolo contendere.

PLEA COLLOQUY

**DIRECTIONS CONCERNING THE ENTERING OF A
GUILTY PLEA OR PLEA OF NOLO CONTENDERE
(NO CONTEST)**

You are present before this Court because you or your lawyer have indicated your desire to plead to some or all of the criminal offenses with which you have been charged.

By pleading guilty you are agreeing and admitting that you committed each of the elements of the crimes. By pleading nolo contendere (no contest), you are stating that you do not contest the fact that the Commonwealth can prove you committed the crimes. In criminal law, a plea of nolo contendere (no contest) has the same effect for sentencing purposes as pleading guilty and, therefore, everything contained in this plea colloquy also applies to a plea of nolo contendere (no contest).

It is important that you understand, agree with and answer truthfully everything contained in this plea colloquy.

Please answer all of the questions on these papers fully. Most of the questions are to be answered either "Yes" or "No." Where facts are requested, please fill in those facts specified in the blank space provided after the question. If you do not understand the question, indicate this by making an "X" in the blank space provided after the question you do not understand.

After you have completed this form and signed it, if there are any portions of it that you have stated you do not understand, tell your attorney, the attorney for the Commonwealth or the Judge so that you have a chance to have it explained.

If you are pleading Nolo Contendere (no contest) rather than Guilty, all references in this colloquy to "your plea of guilty" (or similar language) shall be interpreted to mean nolo contendere.

Form 590

Rule 600. Sessions of Criminal Court, Trial List and Other Procedures.

(1) Sessions of Criminal Court

(a) Regular sessions of Criminal Term of Court shall be held during the months of January, March, May, June, September and November of each year as designated on the court calendar published annually by the Court. Such sessions may be extended or other special sessions may be held at such times as will conform most conveniently to the business of the Court and the state and local criminal rules so long as at least 30 days notice of any extension of a criminal term or any addition of a term beyond a regular session of court is given. The notice shall be given by the Court Administrator to the District Attorney's Office; the Public Defender's Office; members of the Crawford County criminal defense bar and all magisterial district judges.

(b) Sentence Court and any other hearings shall be scheduled from time to time by the Court Administrator as the Court may direct and in compliance with the Pennsylvania Rules of Criminal Procedure as well as these Local Rules.

(c) Whenever Plea Court is scheduled pursuant to Cra.R.Crim.P. 590(1), the District Attorney shall notify the Court Administrator of the defendants who are scheduled to plead on a particular plea date. The Court Administrator shall keep a plea list with the pleas scheduled for specific plea dates. The list shall be available in the Court Administrator's Office and the Clerk of Courts Office at least twenty-four (24) hours prior to the scheduled plea date. The District Attorney shall not be required to comply with this provision for pleas scheduled following the call of any criminal trial list.

(2) Trial List and Other Procedures

(a) (1) The Court Administrator shall maintain a master list of criminal cases chronologically as the Court Administrator receives a copy of the Criminal Case Scheduling Form required to be provided by the Issuing Authority pursuant to Rule 502 of these rules. This list shall be known as the "Master Criminal List." Each entry on this list shall include information deemed pertinent by the Court Administrator in consultation with the Court, but shall at least contain the name of the defendant, the number docketed for the case in the Clerk of Courts

Office, the pertinent date pursuant to Pa.R.Crim.P. 600 and the name of any attorney who has appeared on behalf of the defendant.

(2) The Court Administrator shall prepare the Criminal Trial List for each session of the Criminal Term of Court and shall arrange the cases in chronological order based on the current status of the master criminal list beginning with case number one on said list and continuing through the last case in which a defendant has been notified by the Criminal Case Scheduling Form provided that that defendant's case may be tried during the term for which the list was prepared.

(3) All cases continued to a new trial term or not reached during the trial term due to the unavailability of the Court, shall appear chronologically on the Master Criminal List in the order in which they had previously appeared ahead of those cases chronologically listed for the next trial term so that the oldest cases will appear first on any list.

(4) The Master Criminal List shall be available for counsel and other interested persons to view in the Court Administrator's Office during normal business hours and copies of the Criminal Trial List based on that Master List for each Criminal Term of Court shall be available free of charge in the Court Administrator's Office and in the Clerk of Courts Office at least one week prior to the call of the trial list for that designated Criminal Term of Court.

(b) (1) Cases for each criminal term shall be tried in the order in which they chronologically appear on the criminal trial list for that trial term unless otherwise adjusted by the Court Administrator for proper reasons.

(2) Any party upon good cause shown may move the Court to advance a case forward from its chronological location on the Criminal Trial List or have the case moved down further on the list to be tried either within the same term of Criminal Court or to be continued to the next term of Criminal Court. Any such motion must be filed in compliance with Pa.R.Crim.P. 106 and Cra.R.Crim.P. 106. The Court in its discretion may continue a case after that deadline if the motion to continue is consented to by the opposing party and/or the Court finds that good cause to continue the case has arisen after the call of the trial list.

(3) Upon granting a motion under Crawford County Rule of Criminal Procedure 600(2)(b)(2), the Court will designate as part of its order where such case shall be placed on the chronological criminal list for that particular term of court or what date certain the case will commence. If the Court allows the case to be continued to the next Criminal Term of Court, it shall be placed by the Court Administrator on the Master Criminal List pursuant to Cra.R.Crim.P. 600(2)(a)(3).

(4) If a case involves complex issues so that it is not amenable to the normal schedule, any party may, after formal arraignment occurs or is waived, move the Court to remove said case from the Master Criminal List so that the flow of the case through the system is handled independently of that procedure.

(5) In the event a case is removed from its designated scheduling cycle originally established on the Criminal Case Scheduling Form [i.e. ARD consideration, omnibus pretrial motion, continuance, cases not reached during a trial term] and is returned to a scheduling sequence, the Court Administrator shall prepare a new Criminal Case Scheduling Form setting the remaining appropriate dates for the defendant to appear with said assigned dates to be

based on a reasonable effort to return the case into the sequence of the system at the point where the case was removed from the sequence or if the case is to be placed in a subsequent term of court, to a normal sequence for that term of court.

The Court Administrator shall distribute copies of the new Criminal Case Scheduling Form to the District Attorney's Office and defense counsel as well as to unrepresented defendants in a manner consistent with the Pennsylvania Rules of Criminal Procedure and the Crawford County Rules of Criminal Procedure.

(3) Call of the Trial List.

The call of the Criminal Trial List for a particular Criminal Term of Court shall be held by the Court on the date and time scheduled by the Court Administrator's Office pursuant to Cra.R.Crim.P. 502.

(a) All defendants and all attorneys representing defendants for cases on the schedule for that term of criminal court must attend the Call of the Criminal List unless:

(1) A date certain has been scheduled for the entry of a plea or for trial to commence; or

(2) A Motion For Continuance has been previously properly presented and granted; or

(3) The Court has excused the defendant and/or counsel based on good cause shown or defense counsel and the District Attorney's Office have agreed the defendant and/or counsel may be excused from the Call of the List.

(b) Failure to comply with the requirements of this Rule may result in the imposition of sanctions by the Court, including the issuance of a bench warrant and revocation of bail bond. Additionally, the District Attorney's Office may file a charge of Default in Required Appearance.

(c) In open court, prior to calling all the names of individuals on the Criminal Trial List, the Court shall announce that the day the list is being called is the last day to enter a negotiated plea and the last day to request a trial before a judge, rather than a jury. After the conclusion of the call of all names of individuals on the criminal trial list, the Court shall again announce in open court that the day the list is being called is the last day to enter a negotiated plea and the last day to request a trial before a judge, rather than a jury.

Rule 602. Presence of Defendants—Transportation.

(1) For incarcerated defendants, transportation orders must be obtained from the Court and served upon the Sheriff of Crawford County at least 7 days prior to the time the defendant is required to appear if the defendant is incarcerated in a facility in the county, and at least 14 days prior to the time the defendant is to appear if the defendant is incarcerated in an out-of-county facility.

(2) The responsibility for obtaining a transportation order shall be on:

(a) The District Attorney if the defendant is required to appear at trial or at a hearing set upon motion of the District Attorney or if the defendant is unrepresented by counsel.

(b) Defense counsel if the defendant is required to appear for a hearing set upon motion of the defendant. If the location of the defendant cannot reasonably be determined by defense counsel, such information may be sought from the District Attorney's Office and shall be reasonably provided to the defendant's counsel.

Rule 620. Waiver of Jury Trial.

The last day for a defendant to waive a jury trial shall be at the Call of the Criminal Trial List unless upon good cause shown the Court allows such a waiver after that date.

Rule 630. Juror Qualification Forms and Lists.

Any juror information provided to counsel pursuant to Pa.R.Crim.P. 630(A)(1)(c) or (d) is provided for use by counsel and shall be kept in counsel's possession at all times. However, counsel may, in preparation for and during jury selection, allow clients and others to see that information to aid in the jury selection process.

Rule 700. Sentencing Judge.

The judge receiving guilty or nolo contendere pleas may schedule the defendant for sentencing before another judge sitting in or assigned to the 30th Judicial District so long as the defendant is notified at the time of the entry of the plea that a different judge will be imposing the sentence.

Rule 704. Advising Defendants of Appellate Rights After Sentencing.

Prior to the sentencing hearing, a defendant who is represented by counsel shall execute Form 704 A, which is entitled "APPELLATE RIGHTS OF DEFENDANT AFTER SENTENCING—After Trial" or Form 704 B, which is entitled "APPELLATE RIGHTS OF DEFENDANT AFTER SENTENCING—Guilty Plea or Nolo Contendere Plea."

Defendant's counsel shall review and explain the form to the defendant and allow the defendant to read the form prior to the defendant and defendant's counsel signing the form. Counsel's signature on the form shall constitute certification by counsel that counsel has read, discussed and explained the form to the defendant and, to the best of counsel's knowledge, information or belief the defendant understands the form.

This is a right of appeal, which you may exercise without filing a Post-sentence Motion. If you file a Post-sentence Motion, you would also have a right to appeal from an Order deciding that Motion or denying the Motion by operation of law.

4. If you file a Post-sentence Motion, all requests for relief must be stated with specificity and particularity, and consolidated in the Motion, which may include:

- a. a Motion challenging the validity of a plea of guilty or nolo contendere, or the denial of a Motion to Withdraw a plead of guilty or nolo contendere;
- b. a Motion of Judgment of Acquittal;
- c. a Motion in Arrest of Judgment;
- d. a Motion for a New Trial; and/or
- e. a Motion to Modify Sentence.

5. If you file a Post-sentence Motion, it and any supplemental Motion you may be permitted to file must be decided by the judge within 120 days of the filing of the original Motion. The judge may, at your request, grant one 30-day extension for deciding the Motion, if good cause is shown. If the judge fails to decide the Motion within the allowed time, the Motion will be denied by operation of law, and the clerk will enter an order denying the Motion.

6. If you file a Post-sentence Motion, and wish to appeal from the Order deciding or denying the Motion, a Notice of Appeal must be filed with the Criminal Clerk of Courts of Crawford County, within thirty (30) days of that Order.

7. Whether or not you file a Post-sentence Motion, all issues raised before or during trial are preserved for appeal except if you wish to claim the verdict was against the weight of the evidence or the Court abused its discretion in sentencing you. Those issues must be raised in a Post-Sentence Motion before the trial judge before they can be raised on appeal to the Superior Court.

8. You have the right to assistance of counsel in the preparation of a Post-sentence Motion or any Appeal. If you are indigent, you have the right to proceed without payment of costs and with counsel appointed to represent you without charge. If you are now represented by the Public Defender's Office and continue to qualify for their services, that office would continue to represent you without cost.

9. If you qualify for bail and are released on bail after sentencing, a condition of release will be that you either file a Post-sentence Motion and perfect an Appeal, or, when no Post-sentence Motion is filed, perfect an Appeal with the time permitted by law.

(Guilty Plea or Nolo Contendere Plea)

1. After you are sentenced, you have the right to file either a Post-Sentence Motion in this Court or an Appeal to the Superior Court of Pennsylvania.

2. If you wish to file a Post-Sentence Motion, it must be filed with the Clerk of Courts no later than ten (10) days after the imposition of sentence.

3. If you wish to file an Appeal, a Notice of Appeal must be filed with the Clerk of Courts within thirty (30) days from when you are sentenced. You can file this Appeal without filing a Post-Sentence Motion in this Court. If you do file a Post-Sentence Motion in this Court, you also have the right to appeal from an order deciding that motion on the merits, or, if the Court does not decide that Motion within 120 days (or 150 days upon your motion to extend that time by thirty (30) days) from when it is filed. If the Court does not decide that Motion within that 120 day (or 150 day, if extended) time period, the Appeal must be filed within thirty (30) days from when the Clerk of Courts enters an Order denying the Motion by operation of law because the judge has failed to decide the Motion.

4. If you file a Post-Sentence Motion in this Court, your requests for relief must be stated with specificity and particularity in one motion, which may include:

- a. a Motion challenging the validity of your plea of guilty or nolo contendere or the denial of a Motion to Withdraw a plea of Guilty or Nolo Contendere

If the judge does not

decide the Motion within the time period allowed, the Clerk of Courts will enter an Order denying the Motion.

6. If you file a Post-Sentence Motion and wish to appeal from this Court's order, you must do so within thirty (30) days from when that Motion is decided or denied.

7. Since you have entered a guilty plea or nolo contendere plea, your Appeal to the Superior Court would be limited to the following four areas:

a. your plea of guilty or nolo contendere was unlawfully induced and was not voluntarily and understandingly made by you;

b. your sentence was illegal;

c. the lower court did not have jurisdiction in your case;

d. your attorney was ineffective in representing you.

8. Whether or not you file a Post-Sentence Motion, all issues raised before or during trial are preserved for appeal, except if you claim the Court abused its discretion in sentencing you. That issue must be raised in a Post-Sentence Motion before the trial judge before it can be raised on appeal to the Superior Court.

9. You have the right to assistance of counsel in the preparation of a Post-Sentence Motion in the Appeal you file. If you are unable to afford an attorney, you have the right to the assistance of counsel, free of charge through the Public Defender's Office throughout the appeal process. If you challenge the effectiveness of your attorney and cannot afford a new attorney, a new attorney will be appointed to represent you.

10. If you qualify for bail and are released on bail after sentencing, a condition of release will be that you either file a Post-Sentence Motion and, if that is not successful, an appeal or, when no Post-Sentence Motion is filed, that you file an Appeal within the thirty (30) day time period permitted by law.

(7) The defendant shall abstain completely from the use and possession of controlled substances.

(8) If the defendant has ever been convicted of a felony or a misdemeanor involving the use or possession of a weapon, the defendant shall not be permitted to own, possess or have access to any firearm nor ammunition that can be used in any firearm.

This decision shall be solely at the discretion of the defendant's Probation/Parole Officer.

(10) All fines, costs, restitution and Offender's Supervision Fees imposed upon the defendant by the Court must be paid immediately or in accordance with any schedule set up by the Court or the Probation/Parole Department before the defendant will be released from probation/parole.

(11) The defendant will submit to random and periodic testing to determine any use of illegal controlled substances and alcoholic beverages.

(12) The defendant will attend and pay all costs and fees of any therapeutic program offered by a recognized agency when directed to do so by the defendant's Probation/Parole Officer.

(14) The defendant shall obey the law and be of good behavior generally.

(15) The defendant shall report to the Crawford County Probation/Parole Department within 24 hours after being released from any institution unless directed to report sooner by the Probation/Parole Officer and/or Order of the Court.

(16) The defendant shall comply with any curfew imposed by the Probation/Parole Department.

(17) Any defendant required to comply with the provisions of 44 Pa.C.S.A. Section 2316 regarding the mandatory submission of a DNA sample, shall do so and shall further pay the mandatory costs set forth in 44 Pa.C.S.A. Section 2322 unless the Court has found that undue hardship would result and has excused the payment of that fee.

(18) Any defendant subject to the registration requirements for sexual offenders pursuant to the provisions of 42 Pa.C.S.A. Section 9791 et. seq. (as amended) (known as Megan's Law) shall at all times during the period of probation/parole comply with all such registration requirements.

(19) The defendant shall always be truthful and accurate in any written or oral statements the defendant makes to a Probation/Parole Officer or member of the staff of the Probation/Parole Department.

(20) The defendant shall receive a copy of these general terms and conditions of probation/parole at or about the time supervision commences.

(21) If the defendant believes that the defendant's rights have been violated as a result probation/parole supervision, the defendant must submit a timely complaint in writing, first to the Chief Probation/Parole Officer and then to the President Judge at the Crawford County Courthouse in Meadville, Pennsylvania, if the matter is not satisfactorily resolved.

PROPOSED RULEMAKING

DEPARTMENT OF HEALTH

[28 PA. CODE CHS. 101 AND 117]

Sexual Assault Victim Emergency Services

The Department of Health (Department) proposes to amend Chapters 101 and 117 (relating to general information; and emergency services) to read as set forth in Annex A.

A. *Purpose of the Proposed Rulemaking*

The proposed rulemaking amends Chapter 117 to add minimum requirements for the physical and psychological treatment of sexual assault victims by hospitals in this Commonwealth. According to the State Police's Uniform Crime Reporting System, there were 3,341 rapes by force reported in this Commonwealth in calendar year 2005. In addition to these forcible rapes, there were 8,636 other sexual offenses. Although most hospitals currently do provide medical services to sexual assault victims, there are no standard requirements for what services must be provided. It is necessary to ensure that appropriate physical and psychological services are provided to the victims of sexual assault in an effort to minimize the effects of the traumatic event on the victim and to ensure the victim's health and safety. The proposed rulemaking provides minimum requirements for "sexual assault emergency services," which include services regarding assessment and prophylactic treatment of sexually transmitted diseases, counseling regarding the assault either onsite or at a rape crisis center and information and services regarding emergency contraception. Further, the proposed rulemaking takes into consideration the needs of law enforcement in protecting the community by making evidence gathering easier and helping in the prosecution of a violent crime.

The proposed rulemaking is also intended to address the physical and psychological needs of sexual assault victims, while at the same time taking into consideration issues of religious freedom. The proposed rulemaking includes an exemption from requirements regarding the provision of emergency contraception services for those hospitals that believe provision of that particular service would be contrary to the stated religious or moral beliefs of the hospital.

Finally, the proposed rulemaking requires hospitals choosing to provide sexual assault emergency services to also provide victims with certain written and oral information. This information includes information regarding sexually transmitted diseases, prophylactic treatment of those diseases, risks relating to that treatment and necessary future testing. Hospitals would also be required to provide written information regarding emergency contraception in a range of languages. Hospitals not providing sexual assault emergency services would be required to comply with certain notice and transport provisions.

B. *Requirements of the Proposed Rulemaking*

In developing this proposed rulemaking, the Department reviewed a variety of information regarding the subject, including language from statutes in other states which currently have these requirements, such as California, Illinois, Massachusetts, New Jersey, New Mexico, New York, South Carolina and Washington. The Department also reviewed language in proposed legislation in

the General Assembly, the United States Congress and model legislation proposed by sexual assault victim advocacy groups.

The Department proposes to add several definitions to § 101.4 (relating to definitions) made necessary by proposed §§ 117.51—117.58 (relating to sexual assault victims emergency services). Because the Department's proposed regulations focus on the provision of "sexual assault emergency services," the Department proposes a definition for that term. The Department is also proposing to add definitions for "emergency contraception," "rape crisis center," "sexual assault," "sexual assault counselor" and "sexual assault victim." Although some of these terms may have a common usage in either the medical community or law enforcement community or are defined in statutes or other regulations, they are not currently defined in the Department's regulations regarding general and special hospitals. These definitions are required to ensure the purposes of proposed §§ 117.51—117.58 are properly implemented.

Proposed § 117.51 (relating to principle) explains the scope of proposed regulations and clarifies that a hospital that chooses to provide sexual assault emergency services would be required to comply with the minimum standards in the proposed regulations. However, this section also provides that a hospital choosing to seek a religious or moral exemption under provisions existing elsewhere in the proposed regulations would not be required to provide certain services relating to emergency contraception. Further, this section provides that hospitals not providing sexual assault emergency services would be required to comply with certain notice and transport provisions.

Proposed § 117.52(a) (relating to minimum requirements for sexual assault emergency services) contains the minimum standards for sexual assault emergency services, which would be provided only with the consent of the sexual assault victim. These services include services to treat both the physical and the psychological health of the victim. This section requires testing to ensure the health, safety and welfare of the victim, the presence or absence of a sexually transmitted disease, the provision of information on sexually transmitted diseases and pregnancy and on medical procedures, medication and accepted contraindications of medication available for prevention or treatment of infection or disease resulting from the assault, the provision of prophylactic treatment against the transmission of sexually transmitted diseases and HIV and provision of information regarding the need for additional testing and treatment. A comprehensive approach to the treatment of the victim would maximize the benefits to the victim of seeking proper treatment for a sexual assault in a hospital.

Proposed subsection (a) would also require that a hospital choosing to provide sexual assault emergency services provide the victim with information on the availability of a rape crisis center or sexual assault counselor, provide the victim with the telephone number and contact a rape crisis center or sexual assault counselor at the victim's request. The proposed subsection would also require that the hospital provide the victim with the opportunity to consult with the rape crisis center or sexual assault counselor in person and in private while at the hospital.

Finally, this section takes into account the needs of law enforcement since prosecution of a violent crime remains important to the well-being of the victim and the community. Subsection (a) includes tests that may be used in evidence at a criminal proceeding in its list of minimum requirements that hospitals providing sexual assault emergency services are to provide. Currently, these tests may be conducted with the assistance of law enforcement and the procedures would not be impeded by this proposed rulemaking. The Department intends that hospitals coordinate with law enforcement to ensure that all appropriate tests are conducted to maintain the integrity of evidence collection and analysis. However, the proposed rulemaking does not require a hospital to contact law enforcement prior to conducting the tests, as on certain occasions a victim does not wish to report the crime to law enforcement. The examinations and tests conducted by the hospital would provide for some evidence to be collected in the event the victim later decides to report the crime to law enforcement and seek apprehension and prosecution of the offender. Further, subsection (b) requires that hospitals maintain records of all examinations, tests and services provided to a sexual assault victim and make the records available to law enforcement at the victim's request and with the victim's consent.

Proposed § 117.53(a) (relating to emergency contraception) requires that a hospital inform a female sexual assault victim of the availability, use, risks and efficacy of emergency contraception and offer and provide her emergency contraception onsite at her request, unless the medication is contraindicated. These services must be provided by a hospital that provides sexual assault emergency services, unless that hospital claims an exemption under proposed § 117.57 (relating to religious and moral exemptions).

Hospitals providing sexual assault emergency services, including those claiming a religious or moral exemption under proposed § 117.57, shall provide the victim with medically and factually accurate and objective written informational materials regarding emergency contraception. Proposed § 117.55 (relating to emergency contraception informational materials) sets forth the preparation of that material.

Subsection (b) allows a hospital to require a sexual assault victim to undergo a pregnancy test before providing her with emergency contraception. Subsection (b) also allows the hospital to refuse emergency contraception to the victim if she is pregnant. Emergency contraception is intended to prevent a pregnancy and will not have an effect on eliminating an already existing pregnancy.

The Department also proposes provisions regarding pregnancy to address some of the concerns of Catholic hospitals and the United States Conference of Catholic Bishops, as well as the Pennsylvania Catholic Conference. See *Ethical and Religious Directives for Catholic Health Care Services*, 4th Edition, June 15, 2001 (www.nccbuscc.org/bishops/directives.shtml) and *Guidelines for Catholic Hospitals Treating Victims of Sexual Assault*, September 23, 1998 (www.pacatholic.org/pcha/statements/sexgdlines.htm). These guidelines include conducting a pregnancy test on the victim and prohibit Catholic hospitals from giving emergency contraception to a pregnant sexual assault victim.

Proposed § 117.54 (relating to prevention of sexually transmitted diseases) requires hospitals to perform sexually transmitted disease risk assessments on sexual assault victims according to recommendations from the United States Centers for Disease Control and Prevention

(CDC), to advise victims of the risk of transmission of sexually transmitted diseases and the availability of postexposure prophylaxis treatment for sexually transmitted diseases, the risks of deferral of the treatment and to provide postexposure prophylaxis treatment for sexually transmitted diseases with the consent of the victim. These requirements are proposed for the health of the victim and are intended to prevent and control the spread of sexually transmitted disease not only to the victim, but to the victim's future consensual sexual partners if the victim is untreated or unaware that a sexually transmitted disease may have been transmitted. In some cases, sexually transmitted diseases such as syphilis, Chlamydia and gonorrhea can lead to infertility and even death.

Proposed § 117.55 sets minimum standards for the development of medically and factually accurate and objective written informational materials regarding emergency contraception to be provided to sexual assault victims in accordance with proposed § 117.53(a)(1). Further, the informational materials would be required to be prepared and produced in clear and concise, readily comprehensible language and in varieties and forms as necessary to inform victims in English and languages other than English. The Department expects individual hospitals will determine which languages are appropriate based on the needs of the community the hospital serves.

The materials would explain what emergency contraception is and describe its use, risks and efficacy, as well as inform victims of locations where emergency contraception may be obtained in the event it is not obtained at the hospital. These requirements would ensure victims are fully aware of the use of emergency contraception in order to make an informed decision on whether taking the medication is desired. Further, providing information on alternate locations for obtaining emergency contraception would allow the victim to consider the information before taking the medication as well as reduce the strain in finding emergency contraception for those victims treated at hospitals that do not offer or provide emergency contraception to the victim under the religious and moral exemption in proposed § 117.57.

Proposed § 117.56 (relating to information regarding payment for sexual assault emergency services) requires hospitals to inform the sexual assault victim of the availability of known financial resources for services provided to the victim, including the victim's medical insurance provider, the Pennsylvania Crime Victim's Compensation Program and programs administered by the hospital. Informing the victim of these resources for payment for the services received at the hospital would further diminish the concern to the victim resulting from the criminal assault, and hopefully encourage victims to report the crimes to law enforcement to secure resources for payment of the services provided. The hospital would also provide the victim with any information required to obtain these services, including copies of itemized bills and medical records.

Proposed § 117.57 provides that a hospital would not be required to comply with § 117.53(a)(2) and (3) if doing so would be contrary to the stated religious or moral beliefs of the hospital. Offering and providing emergency contraception is well established to be a sensitive matter for certain religious groups and section 902 of the Health Care Facilities Act (act) (35 P. S. § 448.902) may mandate that the requirements of offering and providing emergency contraception would be unenforceable against hospitals able to establish that requirements are contrary to the hospital's stated religious or moral beliefs.

Although a hospital may be exempt from offering and providing emergency contraception under this section, it would still be required to provide all the other services required in the proposed rulemaking, including providing the victim with written and oral information about emergency contraception under § 117.55 and informing the victim of locations where emergency contraception may be obtained. Furthermore, this section requires a hospital that is exempt from offering and providing emergency contraception to a sexual assault victim under this section, to inform the victim of this fact and to arrange for transportation of the victim, at no cost, to a hospital in this Commonwealth that does provide the service. This section furthers the Department's goal of ensuring the appropriate treatment is provided to the sexual assault victim while attempting to avoid having hospitals decide against providing other sexual assault emergency services based on objections under section 902 of the act.

Recognizing that some of the hospitals in this Commonwealth are specialty hospitals with limited services and are not staffed and equipped to provide the services, proposed § 117.58 (relating to hospitals not providing sexual assault emergency services) allows a hospital to self-evaluate its facilities to determine if providing sexual assault emergency services at the hospital would be appropriate. Although ideally it would be of greater benefit to this Commonwealth to have sexual assault emergency services provided in as many locations as possible, there is a greater risk to the victim and the integrity of future criminal prosecution if a sexual assault victim is treated at a hospital without the appropriate staff and equipment. For example, the Department does not expect that hospitals not providing general emergency services, such as rehabilitation hospitals, would or could provide sexual assault emergency services.

Subsection (a) requires hospitals electing not to provide sexual assault emergency services to provide notification to the Department, law enforcement and ambulance and emergency medical care and transport services that these services will not be provided by the hospital. This notification must be in writing and provided within 30 days of the hospital's decision not to provide the services. Further, the Department will publish a notice in the *Pennsylvania Bulletin* to inform other facilities, local government and the general public that sexual assault emergency services are not provided at that facility. The notice published by the Department will differentiate between hospitals which elect not to provide emergency contraception under the religious and moral exemption in § 117.57 from those which do not provide any sexual assault emergency services under § 117.58.

Subsection (b) requires a hospital that elects not to provide sexual assault emergency services to inform the victim of this fact and to arrange for transportation of the victim, at no cost, to a hospital in this Commonwealth that does provide the service. This subsection ensures that a victim that presents at a hospital receives treatment at a facility that is properly staffed and equipped.

C. Affected Persons

This proposed rulemaking affects all Commonwealth hospitals which would be required to consider whether or not they will provide sexual assault emergency services. Hospitals that choose not to perform these services would be required to inform the Department, ambulance and emergency medical care and transport services and law enforcement agencies of this decision within a specified time frame. Further, hospitals choosing not to provide

these services, including those that choose to take an exemption under § 117.57, would be required to develop policies and procedures for informing sexual assault victims who present at those hospitals of the hospital's position on these issues and for transporting victims who request a transfer to hospitals that would provide the services.

Hospitals that choose to provide emergency sexual assault services would need to develop policies and procedures to comply with this proposed rulemaking, including those regarding provision of informational materials regarding emergency contraception, sexually transmitted diseases and pregnancy.

The proposed rulemaking also affects sexual assault victims who would be offered the same information and care at hospitals in this Commonwealth providing sexual assault services. Victims would also be offered the opportunity to be transported to hospitals that did offer these services, if they present at a hospital that does not do so.

Lastly, this proposed rulemaking affects law enforcement agencies and ambulance and emergency medical care and transport services, since these services would be required to be aware of the list of hospitals that have chosen to provide emergency sexual assault services, so that victims may be taken to these hospitals to ensure they receive sexual assault emergency services and information regarding those services.

D. Cost and Paperwork Estimate

Cost

Commonwealth—There will be additional costs to the Commonwealth resulting from this proposed rulemaking associated with the Department's need to enforce the proposed regulations. The Department estimates that an additional position for a Health Facility Quality Administrator would be required to survey and inspect hospitals to ensure compliance with the proposed rulemaking and respond to complaints regarding the manner in which the proposed regulations would be implemented by those hospitals. These costs include salary, benefits, workstation, computer, telephone, travel, training and other related costs. Reducing the effects a sexual assault would have on victims through implementation of the proposed regulations and the services offered through them, however, would outweigh the estimated costs.

Local government—There will be no additional cost to local government. Although the proposed regulations require that hospitals not providing sexual assault emergency services send notice to law enforcement agencies of their decision not to provide those services, and law enforcement agencies should be aware of this list to the extent that they transmit sexual assault victims to hospitals, this requires no additional work on the part of law enforcement agencies. The Department will publish a compiled list of these hospitals in the *Pennsylvania Bulletin*.

Regulated community—There will be additional cost to hospitals in this Commonwealth. The Department has estimated the costs of developing the informational materials that the proposed regulations would require hospitals providing sexual assault emergency services to distribute. The Department estimates that it would cost approximately \$7,500 to develop the written informational materials and approximately \$2,500 to print 5,000 brochures. These costs may be shared by the hospitals, however, if they join in developing standard information materials for all hospitals to utilize. Printing costs may

be lowered significantly if a hospital explores alternative methods for printing of the written materials.

In addition to these costs, hospitals could have additional costs of reviewing current procedures and making any changes necessary to comply with the proposed regulations once they are published in final form. These costs will depend upon what procedures individual hospitals in this Commonwealth currently have in place. However, as with the costs of developing and printing written informational materials, hospitals might be able to significantly reduce their costs by coordination of these efforts.

General public—There is no additional cost for the general public. In fact, since victims of rapes and other sexual offenses and their families are members of the general public and may be subject to serious medical and psychological effects as a result of the crime, including sexually transmitted disease and pregnancy, there would be a benefit to the general public from this proposed rulemaking. Because the proposed regulations also aid in gathering information necessary for investigation and successful prosecution of a violent crime, society as a whole would benefit from the implementation of the proposed regulation.

Paperwork Estimates

Commonwealth—To effectively survey and inspect hospitals for the purpose of enforcing the proposed regulations, the Department estimates additional survey and inspection time equivalent to an additional position for one Health Facility Quality Administrator would be necessary. There will be the need to review complaints in this additional area of proposed rulemaking. The Department, however, already has a process in place for the review and investigation of complaints against hospitals.

Further, the Department would be required to obtain and compile a list of hospitals that have decided not to provide sexual assault emergency services and to publish that list in the *Pennsylvania Bulletin*.

Regulated community—Hospitals would be required to either develop or obtain informational material on sexually transmitted diseases, pregnancy, emergency contraception and the need for additional testing. With respect to information regarding emergency contraception, the proposed regulations require that this written information be available in languages other than English. It is possible that this written information may be available in part from the CDC. It is also possible that hospitals may be able to join in developing standard information materials for all hospitals to utilize.

Hospitals would be required to review current policies and procedures and make any changes necessary to comply with the proposed regulations once they are adopted. Whether additional or revised policies or procedures are necessary would depend upon what policies and procedures each hospital currently has in place. However, as with the costs of developing and printing written informational materials, hospitals might be able to significantly reduce their costs by coordination of these efforts.

Local government—There is no additional paperwork requirement for local government. Although the proposed regulations require that hospitals not providing sexual assault emergency services send notice to law enforcement agencies of their decision not to provide sexual assault emergency services, and law enforcement agencies should be aware of this list to the extent that they transport sexual assault victims to hospitals, this re-

quires no additional work on the part of law enforcement agencies. The Department will publish a compiled list in the *Pennsylvania Bulletin*.

General public—There is no additional paperwork requirement for the general public.

E. Statutory Authority

Section 803(2) of the act (35 P. S. § 448.803(2)) authorizes the Department to promulgate, after consultation with the Health Policy Board, regulations necessary to carry out the purposes and provisions of the act. See section 601 of the act (35 P. S. § 448.601), which states that "The department, in the exercise of its duties under this act shall have the power to adopt such regulations as are necessary to carry out the purposes of this act." Section 801.1 of the act (35 P. S. § 448.801a) provides that a purpose of the act is to promote the public health and welfare through the establishment of regulations setting minimum standards for the operation of health care facilities. Section 801.1 of the act also provides that the minimum standards are to assure safe, adequate and efficient facilities and services and are also to promote the health, safety and adequate care of patients or residents of these facilities. The General Assembly has also stated that a purpose of the act is, among other things, to assure that all citizens receive humane, courteous and dignified treatment. See section 102 of the act (35 P. S. § 448.102). Finally, section 201(12) of the act (35 P. S. § 449.201(12)) provides the Department with explicit authority to enforce its rules and regulations promulgated under the act.

The Department also has the duty to protect the health of the citizens of this Commonwealth under section 2102(a) of The Administrative Code of 1929 (71 P. S. § 532(a)). The Department has general authority to promulgate regulations under section 2102(g) of The Administrative Code of 1929.

F. Effectiveness/Sunset Dates

The proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*. No sunset date has been established. The Department will continually review and monitor the effectiveness of these regulations.

G. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 11, 2006, the Department submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Health and Human Services Committee and the Senate Public Health and Welfare Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Department, the General Assembly and the Governor of comments, recommendations or objections raised.

H. Contact Person

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed

rulemaking to Gerald Radke, Director, Bureau of Facility Licensure and Certification, Department of Health, Room 932, Health and Welfare Building, 7th and Forster Streets, Harrisburg, PA 17120, (717) 787-8015 within 30 days after publication of this proposed rulemaking in the *Pennsylvania Bulletin*. Persons with a disability who wish to submit comments, suggestions or objections regarding this proposed rulemaking may do so by using the previous telephone number or address or for speech and/or hearing impaired persons, V/TT (717) 783-6514 or the Pennsylvania AT&T Relay Service at (800) 654-5984 (TT). CHAPTER 117. EMERGENCY SERVICES
SEXUAL ASSAULT VICTIMS EMERGENCY SERVICES

(Editor's Note: The following text is new. It is printed in regular type to enhance readability.)

§ 117.51. Principle.

This section and §§ 117.52—117.58 establish requirements for a hospital that provides sexual assault emergency services and for the provision of information and services relating to emergency contraception and prevention of sexually transmitted diseases to sexual assault victims. A hospital that provides sexual assault emergency services to sexual assault victims shall comply with these sections, except that a hospital may be excluded from providing the services required by § 117.53(a)(2) and (3) (relating to emergency contraception) under § 117.57 (relating to religious and moral exemptions). All hospitals electing not to provide sexual assault emergency services under § 117.58 (relating to hospitals not providing sexual assault emergency services) shall comply with the notification and transfer provisions therein.

§ 117.52. Minimum requirements for sexual assault emergency services.

(a) Promptly upon a sexual assault victim's presenting to a hospital that provides sexual assault emergency services, the hospital shall, at a minimum, provide, with the consent of the sexual assault victim, the following:

(1) Medical examinations and laboratory or diagnostic tests required to ensure the health, safety and welfare of the sexual assault victim, or which may be used as evidence in a criminal proceeding against a person accused of the sexual assault, or both.

(2) Oral and written information concerning the possibility of sexually transmitted disease and pregnancy resulting from the sexual assault.

(3) Oral and written information concerning accepted medical procedures, medication, and possible contraindications of the medication available for the prevention or treatment of infection or disease resulting from the sexual assault.

(4) Medication as deemed appropriate by the attending physician, including HIV and sexually transmitted disease prophylaxis.

(5) A blood test to determine the presence or absence of sexually transmitted disease.

(6) Oral and written instructions indicating the need for additional blood tests at time periods after the sexual assault as medically indicated to determine the presence or absence of sexually transmitted disease.

(7) Information on the availability of a rape crisis center or sexual assault counselor and the telephone number of a local rape crisis center or sexual assault counselor. The hospital shall contact the local rape crisis center or sexual assault counselor at the request of the victim.

(8) The opportunity for the victim to consult with the rape crisis center or sexual assault counselor in person and in private while at the hospital.

(b) A hospital shall maintain records of the results of all examinations, tests and services provided to a sexual assault victim and make those records available to law enforcement officials upon the request and with the consent of the sexual assault victim.

§ 117.53. Emergency contraception.

(a) The hospital shall provide the following services to a female sexual assault victim in addition to the minimum requirements in § 117.52 (relating to minimum requirements for sexual assault emergency services):

(1) Provide the victim with medically and factually accurate written informational materials regarding emergency contraception prepared under § 117.55 (relating to emergency contraception informational materials).

(2) Orally inform the victim of the availability of emergency contraception, its use, risks and efficacy unless the hospital claims an exception in accordance with § 117.57 (relating to religious and moral exemptions).

(3) Offer emergency contraception to the victim and provide emergency contraception onsite upon the victim's request, unless contraindicated or unless the hospital claims an exception in accordance with § 117.57.

(b) Prior to providing emergency contraception to a sexual assault victim as required in subsection (a)(3), a hospital may require the victim to submit to a pregnancy test. A hospital is not required to provide emergency contraception to a pregnant sexual assault victim, but shall provide the victim with information regarding the pregnancy and information relating to appropriate medical care for the pregnancy.

§ 117.54. Prevention of sexually transmitted diseases.

(a) A hospital shall promptly provide a sexual assault victim with an assessment of the victim's risk for contracting a significantly prevalent sexually transmitted disease.

(b) The hospital shall base the risk assessment upon the following considerations:

(1) Available information regarding the assault as well as the subsequent findings from medical examination and tests that may be conducted.

(2) Established standards of risk assessment, including consideration of recommendations established by the United States Department of Health and Human Services Centers for Disease Control and Prevention.

(c) In addition to the assessment required in subsection (a), a hospital shall advise a sexual assault victim of significantly prevalent sexually transmissible diseases for which postexposure prophylaxis exists, and for which deferral of treatment would either significantly reduce treatment efficacy or would pose a substantial risk to the individual's health.

(d) Upon the victim's consent, the hospital shall provide the victim with postexposure prophylactic treatment for sexually transmissible diseases, except that a hospital will not be required to comply with this subsection when risk evaluation, adopted by the United States Department of Health and Human Services Centers for Disease Control and Prevention, clearly recommends against the application of postexposure prophylaxis.

§ 117.55. Emergency contraception informational materials.

(a) A hospital that provides sexual assault emergency services shall ensure that each member of the hospital personnel that provides the services is furnished with medically and factually accurate and objective written informational materials about emergency contraception developed by the hospital under this section.

(b) The hospital shall prepare, produce and distribute the written informational materials. The informational material must meet the following standards:

(1) Be in clear and concise language, readily comprehensible, in such varieties and forms as are deemed necessary to inform victims in English and languages other than English.

(2) Explain the nature of emergency contraception, including its use, risks and efficacy.

(3) Provide sexual assault victims with information on finding locations where emergency contraception may be obtained in the event it is not obtained at the hospital.

§ 117.56. Information regarding payment for sexual assault emergency services.

A hospital shall inform a sexual assault victim receiving sexual assault emergency services at the hospital of the availability of known financial resources for services provided to the victim due to the sexual assault, including payments by the victim's medical insurer, if applicable, the Crime Victim's Compensation Program administered by the Pennsylvania Commission on Crime and Delinquency, and any programs administered by the hospital. The hospital shall provide the victim information required to secure the services, including copies of itemized bills and medical records.

§ 117.57. Religious and moral exemptions.

In accordance with section 902(a) of the act (35 P. S. § 448.902(a)), a hospital is not required to comply with § 117.53(a)(2) and (3) (relating to emergency contraception) if providing those services would be contrary to the stated religious or moral beliefs of the hospital. If the hospital does not provide services under this religious and moral exemption, the hospital shall provide the following services:

(1) Provide individual oral and written notice to the sexual assault victim that those services are not provided at the hospital due to the services being contrary to the stated religious or moral beliefs of the hospital.

(2) Upon request of the victim, arrange for the immediate transfer of the victim, at no cost, to a hospital in this Commonwealth in close proximity that does provide those services.

§ 117.58. Hospitals not providing sexual assault emergency services.

(a) If a hospital otherwise governed by this subpart elects not to provide sexual assault emergency services to victims, including a hospital not providing certain emergency contraception services under § 117.57 (relating to religious and moral exemptions), the hospital shall provide the following notifications:

(1) The hospital shall notify the Department within 30 days of the hospital's decision not to provide sexual assault emergency services. The hospital shall address and send the written notice to the Division of Acute and Ambulatory Care. The Department will publish a list of

hospitals in the *Pennsylvania Bulletin* that have chosen not to provide sexual assault emergency services.

(2) The hospital shall notify the law enforcement agencies which may transport or refer a sexual assault victim to the hospital that the hospital has elected not to provide sexual assault emergency services. The written notice to law enforcement agencies shall be sent no later than 30 days after the hospital's decision not to provide those services.

(3) The hospital shall notify the ambulance and emergency medical care and transport services which may transport or refer a sexual assault victim to the hospital that the hospital has elected not to provide sexual assault emergency services. The written notice to ambulance and emergency medical transport and care services shall be sent no later than 30 days after the hospital's decision not to provide those services.

(b) If a hospital does not provide services under this section, the hospital shall do the following:

(1) Provide individual oral and written notice to the sexual assault victim that those services are not provided at the hospital.

(2) Upon request of the victim, arrange for the immediate transfer of the victim, at no cost, to a hospital in this Commonwealth in close proximity that does provide those services.

**STATE BOARD OF
DENTISTRY**

[49 PA. CODE CH. 33]

Sexual Misconduct

The State Board of Dentistry (Board) proposes to add § 33.211a (relating to sexual misconduct) to read as set forth in Annex A.

Effective Date

This proposed rulemaking will be effective upon final-form publication in the *Pennsylvania Bulletin*.

Statutory Authority

Under section 3(c), (d), (d.1) and (o) of the Dental Law (63 P.S. § 122(c), (d), (d.1) and (o)), the Board has authority to establish standards of professional conduct for Board regulated practitioners under its jurisdiction. These individuals include dentists, dental hygienists and expanded function dental assistants (EFDA).

Background and Purpose

Over the past few years, the health-related boards within the Bureau of Professional and Occupational Affairs have been developing regulations regarding sexual misconduct. The purpose of this proposed rulemaking is to protect consumers of dental services and provide clear guidance to practitioners and the public that sexual misconduct by a dentist, dental hygienist or EFDA is prohibited.

The Board previously published a proposed rulemaking regarding sexual misconduct at 32 Pa.B. 5284 (October 26, 2002). The earlier version of the rulemaking prohibited sexual behavior with and sexual exploitation of patients. At that time, it was suggested by commentators that the definitions were somewhat vague and that the Board consider providing specific examples of prohibited conduct. It has been the Board's experience that when specific examples are used, courts interpreting the regulations often deem acceptable those situations not included in a list such as this. The Board does not wish to inadvertently approve sexual misconduct by omission, and therefore, chose not to provide specific examples of prohibited conduct. It would be virtually impossible to write regulations for sexual misconduct that clearly define every possible prohibited behavior and every possible innocent behavior. The Board believes the proposed rulemaking is flexible enough to cover most situations without being overly burdensome.

Description of Proposed Rulemaking

Proposed § 33.211a (relating to sexual misconduct) makes it clear that sexual misconduct constitutes unprofessional conduct and subjects the practitioner to disciplinary action.

The purpose of proposed § 33.211a is to better protect patients by providing guidance to the profession and the public that sexual conduct between practitioners and their current patients constitutes unprofessional conduct. This proposed section defines "sexual misconduct" as "[a]ny sexual conduct with a current patient, including words, gestures or expressions, actions or any combination thereof, which are sexual in nature, or which may be construed by a reasonable person as sexual in nature."

Proposed § 33.211a also defines "current patient" as one "that is in the process of dental treatment with a practitioner or who has been treated by the practitioner within the previous 3 months." The definition specifically excludes patients who affirmatively terminate the practitioner-patient relationship by becoming a patient of record at another dental office.

This proposed rulemaking further provides that Board regulated practitioners who engage in sexual misconduct with current patients will not be eligible for placement in the Board's impaired professional program instead of disciplinary or corrective actions. The impaired professional program is unable to effectively monitor Board regulated practitioners who have engaged in sexual misconduct.

The proposed rulemaking also provides that patient consent is not a defense to disciplinary action in these cases and specifically excludes conduct between a practitioner and the practitioner's spouse or a person cohabitating with the practitioner. The intent is to exclude spouses and people who live together on a permanent basis. Other types of more casual relationships are not excluded.

Fiscal Impact and Paperwork Requirements

The proposed rulemaking should have no fiscal impact on the Commonwealth or its political subdivisions. Likewise, the proposed rulemaking should not necessitate any legal, accounting, reporting or other paperwork requirements.

Sunset Date

The Board continuously monitors the cost effectiveness of its regulations. Therefore, no sunset date has been assigned.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on October 4, 2006, the Board submitted a copy of this proposed rulemaking and a copy of a Regulatory Analysis Form to the Independent Regulatory Review Commission (IRRC) and to the Chairpersons of the House Professional Licensure Committee and the Senate Consumer Protection and Professional Licensure Committee. A copy of this material is available to the public upon request.

Under section 5(g) of the Regulatory Review Act, IRRC may convey any comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections must specify the regulatory review criteria which have not been met. The Regulatory Review Act specifies detailed procedures for review, prior to final publication of the rulemaking, by the Board, the General Assembly and the Governor of comments, recommendations or objections raised.

Public Comment

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed rulemaking to Cynthia K. Montgomery, Counsel, State Board of Dentistry, P. O. Box 2649, Harrisburg, PA 17105-2649 within 30 days following publication of this proposed rulemaking.

DEPARTMENT OF COMMUNITY AND ECONOMIC DEVELOPMENT

[12 PA. CODE CH. 123]

Community Revitalization Program

The Department of Community and Economic (Department) amends Chapter 123 (relating to community revitalization program—statement of policy) to read as set forth in Annex A. Section 123.7 (relating limitations and penalties) is amended to require the grantee to place grant funds received into an interest bearing account and to return interest earned on grant funds to the Department.

Section 123.8 (relating to contact information) is amended to reflect that hard copies of applications may no longer be obtained from the Department; to clarify that the account manager is the Department contact; and provides that the applicant should have the application number available when contacting the account manager.

Section 123.9 (relating to vendor registration) is added to require that all applicants be registered with the Commonwealth's Vendor Registration System before they may receive a grant. Maximum Lawful Rate of Interest for Residential Mortgages for the Month of November 2006

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of November 2006 is 7 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which the individual occupies or has occupied as a principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 4.83 to which was added 2.50 percentage points for a total of 7.33 that by law is rounded off to the nearest quarter at 7 1/4%.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator

at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121–143, the Federal Clean Air Act (act) and regulations adopted under the act.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted under the Pennsylvania Sewage Facilities Act (35 P. S. §§ 750.1—750.20a)

Southcentral Region: Water Management Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110, (717) 705-4707.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Silver Spring Township	6475 Carlisle Pike Mechanicsburg, PA 17055	Cumberland

Plan Description: Approval of a revision to the Official Sewage Plan of Silver Spring Township, Cumberland County. The proposed Cumberland Chase subdivision consists of a 279-lot residential subdivision plus a community center. The proposal also includes hooking up the adjacent St. Katherine's Church, which is currently served by an onlot sewage disposal system, to the proposed sewage collection system. The proposed collection system includes a new sewage pump station and force main to be dedicated to the Silver Spring Township Authority, and with sewage treatment at the Silver Spring Township Sewage Treatment Plant. The Department's review of the sewage facilities update revision has not identified any significant impacts resulting from this proposal.

Plan Location:

<i>Borough or Township</i>	<i>Borough or Township Address</i>	<i>County</i>
Shrewsbury Township	121341 Susquehanna Trail South Glen Rock, PA 17327	York

Plan Description: Paul Blakemore Farm, A3-67955-214-2: The plan consists of a three lot single-family residential subdivision on 95.533 acres with total proposed sewage flows of 800 gpd to be treated by individual on-lot disposal systems. The subdivision will be served

with individual water supplies. The proposed development is located on the northwest and southeast sides of Valley Road and west side of Hametown Road in Shrewsbury Township, York County. The plan was disapproved because the hydrogeologic study contained in the planning information received by the Department and required by 25 Pa. Code § 71.62(c), contained information that the groundwater will be excessively polluted on a portion of the property and that the onsite sewage systems proposed for this subdivision will excessively pollute the waters of the Commonwealth in violation of The Clean Streams Law. The condition is considered a nuisance and is prohibited. Specifically, the groundwater easement in the proposal does not lay down-gradient of the primary or replacement on-lot sewage disposal systems and will not intersect the dispersion plumes.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department of Environmental Protection (Department) has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with the applicable provisions of sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to the Administrative Agency Law), to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*, unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create any right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge an action, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law (35 §§ 691.1—691.702) and Notice of Final Action for Certification under section 401 of the FWPCA (33 U.S.C.A. § 1341).

The structures will each be approximately 600 square feet and located within 50 feet of the top of the creek bank of Marsh Creek. This project proposes no permanent impact to Marsh Creek, which is designated a CWF stream and does not propose to impact any jurisdictional wetlands. This permit was issued under Section 105.13(e) "Small Projects." This permit also includes 401 Water Quality Certification.

E17-423. Clearfield County, 203 East Market Street, Clearfield, PA 16830. Burnside Township Road No. 315 (T-315) Bridge Replacement across West Branch Susquehanna River in Burnside Township, **Clearfield County**, ACOE Baltimore District (Burnside, PA Quadrangle N: 7.9 inches; W: 3.2 inches).

The two-span bridge shall be constructed with a minimum clear span of 170 feet along the roadway centerline, and an underclearance of 14.1 feet. Construction of in-stream bridge appurtenances and temporary structures shall be conducted during stream low flow, and dry work conditions by dams and pumping, fluming or diverting stream flow around work areas. The bridge replacement project will permanently impact 0.05 acre of wetlands and 110 feet of stream channel that is located at the western right-of-way of SR 0219, at the intersection of T-315 and SR 0219. This permit also authorizes construction, operation, maintenance and removal of temporary cofferdams, stream diversions and roadway crossings. All temporary structures shall be constructed of clean rock, which is free of fines. Upon project completion, all temporary structures shall be removed with the disturbed areas restored to original contours and elevations. The Department deems the 0.05 acre of wetland permanently impacted by the project as de minimis, and as such, the permittee shall not be required to construct replacement wetland to mitigate the permanent impact.

B. Additional Disproportionate Share Payments

Additional disproportionate share payments are made to inpatient facilities, with a Medicaid inpatient utilization rate of not less than 1%, which have provided services to persons who have been determined to be low income by meeting the income and resource standards for the State's General Assistance Program.

The payment adjustments are paid directly proportional to the payment received for either general assistance recipients for all hospital services or Title XIX recipients, 21 years of age or older but under 65 years of age, for services rendered by institutions for mental diseases under the fee-for-service and capitation programs.

C. Additional Class of Disproportionate Share Payments

Effective March 1, 1998, the Department established a new class of disproportionate share payments to hospitals which render uncompensated care and which the Department has determined are experiencing significant revenue loss as a result of MA program revisions under the act of May 16, 1996 (P. L. 175, No. 35).

Effective January 15, 1999, the Department revised its previously established new class of disproportionate share payments to include a Charity Care component of the Community Access Fund. A disproportionate share payment will be made to qualifying hospitals based on each hospital's percentage of charity care cost to the total charity care costs of all qualifying hospitals. The Department also established a disproportionate share payment for those hospitals which the Department has determined advanced its goal of enhanced access to multiple types of medical care in economically distressed areas of this Commonwealth.

The following hospitals qualify for this payment:

Payments to County Nursing Facilities; Proposed Rates for State Fiscal Year 2006-2007

This notice announces the Department of Public Welfare's (Department) proposed annual rates for State Fiscal Year 2006-2007 (FY 06-07), for county nursing facilities that participate in the Medical Assistance (MA) Program.

The rates will be calculated in accordance with 55 Pa. Code Chapter 1189, Subchapter D (relating to rate setting). As stated at 55 Pa. Code § 1189.91(a) (relating to per diem rates for county nursing facilities), the per diem rate paid to a county nursing facility for a rate year will be the facility's April 1, 2006, case-mix per diem rate as calculated under 55 Pa. Code Chapter 1187, Subchapter G (relating to rate setting) multiplied by a budget adjustment factor (BAF). The per diem rates for the quarter that began on April 1, 2006, were previously announced at 36 Pa.B. 1300 (March 18, 2006).

As required by 55 Pa. Code § 1189.91(d), the Department intends to follow the formula set forth in the Commonwealth's approved State Plan to determine the BAF for FY 06-07. The Department recently submitted State Plan Amendments 06-008 and 06-009 to the Federal Centers for Medicare and Medicaid Services to include, among other things, the BAF formula which the Department will use in FY 06-07. As set forth in Supplement III to SPA 06-008, the Department completed these steps to determine the BAF for county nursing facilities:

Step 1: The Department determined the total appropriated funds that will be allocated for MA payments to county nursing facilities for the 2006-2007 rate year as follows:

1. Each county nursing facility's projected MA days for the rate year were multiplied by the facility's April 1, 2006, MA per diem rate to obtain each facility's projected payments for the rate year.

2. The projected payments for all county nursing facilities were added to obtain the total projected county payments for the rate year.

3. Each nonpublic nursing facility's projected MA days were multiplied by the facility's April 1, 2006, MA per diem rate to obtain each facility's projected payments for the rate year.

4. The projected payments for all nonpublic nursing facilities were added to obtain the total projected nonpublic payments for the rate year.

5. The total projected county and the total projected nonpublic payments were added to obtain the Statewide total projected payments for all nursing facilities for the rate year.

6. The total projected county payments were divided by the Statewide total projected payments to obtain the county projected payment percentage.

7. The county projected payment percentage was multiplied by the total funds appropriated in the General Appropriations Act for MA nursing facility services for the rate year to determine the total appropriated funds allocated to county nursing facilities.

Step 2: The BAF for county nursing facilities was determined as follows:

The total allocated funds for county nursing facilities determined in Step 1-7 was added to the projected patient pay amount for county nursing facilities for the rate year and that amount was divided by the total projected county payments for the rate year as determined in Steps 1-1 through 1-2 to determine the budget adjustment factor to be used for the rate year.

Using the BAF formula set forth in the pending State Plan Amendments, the budget adjustment factor for county nursing facilities for FY 06-07 will be 1.04.

The proposed per diem rates for FY 06-07 are available on the website for the Office of Medical Assistance Programs at www.dpw.state.pa.us/omap and at local county assistance offices throughout this Commonwealth or by contacting Tom Jayson, Policy Unit, Bureau of Long Term Living Support at (717) 705-3705.

Fiscal Impact

The change in county nursing facility payment rates, effective July 1, 2006, is estimated to cost the Department \$23.704 million (\$10.772 million in State funds) in FY 06-07.

Public Comment

Interested persons are invited to submit written comments regarding the proposed rates for FY 06-07 or the BAF formula, to the Department at the following address: Department of Public Welfare, Bureau of Long-Term Living Support, Attention: Gail Weidman, P. O. Box 2675, Harrisburg, PA 17105. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the AT&T Relay Services at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

Payments to Nonpublic Nursing Facilities; Proposed Rates for State Fiscal Year 2006-2007

The Department of Public Welfare's (Department) announces its proposed annual case-mix per diem payment rates for State Fiscal Year 2006-2007 (FY 06-07) for nonpublic nursing facilities that participate in the Medical Assistance (MA) Program.

As required by the case-mix payment methodology set forth in 55 Pa. Code Chapter 1187, Subchapter G (relat-

ing to rate setting), as amended at 36 Pa.B. 3207 (June 24, 2006), the Department intends to set a new annual MA per diem rate for each nonpublic nursing facility provider. Each facility's annual per diem rate will have four components: resident care; other resident related; administrative; and capital. For each quarter of FY 06-07, the Department will adjust the resident care component of each facility's rate by multiplying the resident care cost component by the facility's MA case-mix index (CMI) for the appropriate picture date. In addition, the Department will adjust each facility's CMI-adjusted quarterly rate by multiplying the rate by a "budget adjustment factor" (BAF).

As required by 55 Pa. Code § 1187.96(d)(iv) (relating to price and rate setting computations), the Department intends to follow the formula set forth in the Commonwealth's approved State Plan to determine the BAF for FY 06-07. The Department recently submitted State Plan Amendments 06-008 and 06-009 to the Federal Centers for Medicare and Medicaid Services to include, among other things, the BAF formula which the Department will use in FY 06-07. As set forth in Supplement III to SPA 06-008, the Department completed these steps to determine the BAF:

Step 1: The Department determined the total appropriated funds that will be allocated for MA payments to nonpublic nursing facilities for the 2006-2007 rate year as follows:

1. Each county nursing facility's projected MA days for the rate year were multiplied by the facility's April 1, 2006, MA per diem rate to obtain each facility's projected payments for the rate year.

2. The projected payments for all county nursing facilities were added to obtain the total projected county payments for the rate year.

3. Each nonpublic nursing facility's projected MA days were multiplied by the facility's April 1, 2006, MA per diem rate to obtain each facility's projected payments for the rate year.

4. The projected payments for all nonpublic nursing facilities were added to obtain the total projected nonpublic payments for the rate year.

5. The total projected county and the total projected nonpublic payments were added to obtain the Statewide total projected payments for all nursing facilities for the rate year.

6. The total projected county payments were divided by the Statewide total projected payments to obtain the county projected payment percentage.

7. The county projected payment percentage was multiplied by the total funds appropriated in the General Appropriations Act for MA nursing facility services for the rate year to determine the total appropriated funds allocated to county nursing facilities.

8. The total appropriated funds allocated to county nursing facilities were subtracted from the total funds appropriated in the General Appropriations Act for MA nursing facility services for the rate year to determine the total appropriated funds allocated to nonpublic nursing facilities.

Step 2: The BAF for nonpublic nursing facilities was determined as follows:

1. The MA per diem rate for the first quarter of the rate year for each facility was calculated in accordance with § 1187.96(a)—(d) and (e)(1).

2. The first quarter rate for each nursing facility was multiplied by the facility's projected days to obtain the facility's nonacuity adjusted projected payments for the rate year.

3. The nonacuity adjusted projected payments for all nonpublic nursing facilities were added to obtain a Statewide nonpublic facility nonacuity adjusted payment total.

4. The Department estimated the Statewide total acuity adjustment percent by calculating the Statewide change in payments for nonpublic nursing facilities from payments at the first quarter rate level to payments at an average of the facility's four quarterly rates for each of the prior 4 rate years. The acuity adjustment percent for each of the prior 4 years was calculated by dividing the Statewide payments calculated using four quarterly rates by the payments calculated using the first quarter rate. The Statewide total acuity adjustment percent estimate for the current rate year is an average of the percents calculated for the prior 4 years.

5. The Department applied the Statewide total acuity adjustment percent estimate to the Statewide nonpublic facility nonacuity adjusted payment total to obtain the acuity-adjusted projected payment amount for all nonpublic nursing facilities for the current rate year.

6. The total appropriated funds allocated to nonpublic nursing facilities determined in Step 1-8 was added to the projected patient pay amount for nonpublic nursing facilities for the rate year and that amount was divided by the acuity-adjusted projected payment amount determined in Step 2-5 to determine the BAF to be used for each quarter of the rate year.

Using the BAF formula set forth in the pending State Plan Amendments, the budget adjustment factor for nonpublic nursing facilities for FY 06-07 will be .93755.

The proposed annual per diem rates for FY 06-07 are available on the website for the Office of Medical Assistance Programs (OMAP) at www.dpw.state.pa.us/omap and at local county assistance offices throughout this Commonwealth or by contacting Tom Jayson, Policy Unit, Bureau of Long Term Living Support, at (717) 705-3705. In addition, the Department will calculate adjusted quarterly rates for the October, January and April quarters of FY 06-07 for each nonpublic MA nursing facility provider. These adjusted quarterly rates will be made available on the OMAP website, at local county assistance offices and from Tom Jayson.

Fiscal Impact

The change in payment rates, effective July 1, 2006, is estimated to cost the Department \$103.782 million (\$47.164 million in State funds) in FY 06-07.

Public Comment

Interested persons are invited to submit written comments regarding the proposed annual rates for FY 06-07 or the BAF formula to the Department at the following address: Department of Public Welfare, Bureau of Long-Term Living Support, Attention Gail Weidman, P. O. Box 2675, Harrisburg, PA 17105. Comments received within 30 days will be reviewed and considered for any subsequent revision of the notice.

Persons with a disability who require an auxiliary aid or service may submit comments using the AT&T Relay Services at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

DEPARTMENT OF TRANSPORTATION

Finding Philadelphia County

Under section 2002(b) of The Administrative Code of 1929 (71 P. S. § 512(b)), the Deputy Secretary for Highway Administration (Deputy Secretary) makes the following written finding:

The Department of Transportation (Department) plans to reconstruct Germantown Avenue, SR 4005, Section 15P, from Ashmead Place to South Church Lane in the City of Philadelphia. The Colonial Germantown Historic District and Historic Route 23 Trolley Line are within the project limits.

Design of the project will include paving materials in the Germantown Avenue roadway and adjacent sidewalks that are sympathetic to the historic district, reusing historic granite blocks from the roadway in parking lanes, using granite curbs, leaving a 0.5 to 1.0 inch space in the grouting and maintaining the Route 23 Trolley Line tracks in the roadway. Also, coordination with consulting parties and the public will continue throughout final design of the project.

The Deputy Secretary has considered the environmental, economic, social and other effects of the proposed project as enumerated in section 2002 of The Administrative Code of 1929 and has concluded that there is no feasible and prudent alternative to the project as designed and all reasonable steps have been taken to minimize the effect.

Investigation of Conservation, Energy Efficiency Activities and Demand Side Response by Energy Utilities and Ratemaking Mechanisms to Promote Those Efforts; Doc. No. M-00061984

Public Meeting held
September 28, 2006

Commissioners Present: Wendell F. Holland, Chairperson; James H. Cawley, Vice Chairperson; Bill Shane; Kim Pizzingrilli; Terrance J. Fitzpatrick

Investigation Order

By the Commission

Through this order the Commission initiates an investigation into reasonable, cost-effective programs that electric distribution companies, electric generation suppliers, energy services providers and other stakeholders can implement to help retail electric customers conserve energy or use it more efficiently. This investigation shall also include an analysis of needed advanced metering infrastructure and appropriate ratemaking mechanisms that may remove any barriers to the development of energy efficiency, conservation, and demand side response. To expedite the investigation, we will reconvene the Demand Side Response Working Group ("DSR Working Group") for the purpose of investigating the specific issues addressed in this order. The Director of Operations will schedule meetings of the DSR Working Group, assign Commission staff to this investigation, develop a list of issues to investigate, solicit comments from interested parties, and provide specific recommendations to the Commission at the conclusion of the investigation.

BACKGROUND

At the outset, we emphasize that this should not be an open-ended investigation with generic recommendations. These topics have been studied and explored for many years and we do not envision this investigation to be a "re-education" of what these programs are or a report on their generic pros and cons. Rather, we hope that the

DSR Working Group will provide us with specific recommendations for implementation.

We have reviewed the reports prepared by the DSR Working Group in 2004 on the subjects of technology deployment, cost-recovery, benefits of demand side response, and consumer surveys.¹ We appreciate all the hard work that the original DSR Working Group put forth over the years beginning with roundtable discussions in November 2000. At that time the DSR Working Group included representatives from electric distribution companies, electric generation suppliers, the Offices of Consumer Advocate and Small Business Advocate, Industrial Energy Consumers of Pennsylvania and the PUC. The collective work product of this group is very much appreciated and the information should be used as a starting point for moving forward. While this work product and these reports have been helpful in educating the Commission about these issues, we request that the DSR Working Group provide specific policy recommendations on the subjects addressed in this order.

We also note that the Commission is currently reviewing comments and reply comments from the en banc hearing on Policies to Mitigate Electric Price Increases at Docket No. M-00061957. The DSR Working Group is encouraged to review the record in the en banc proceeding and incorporate any recommendations therein.

DISCUSSION

As most homeowners and businesses are well aware, energy prices have been at all-time highs. Natural gas prices continue to hover at historically high levels, and very little respite is in sight. For example, the U.S. Energy Information Administration is projecting a 2007 residential average natural gas price of \$13.53/Mcf.² While this price is slightly lower than the 2006 price (\$13.95/Mcf vs. \$13.53/Mcf), it is some 26% higher than the 2004 national average of \$10.75/Mcf and 166% higher than the inflation adjusted price in 1995³ (the unadjusted price would be several times higher). These national averages appear generally to track our experience in the Commonwealth.

While electric customers in many parts of the Commonwealth are protected—for now—from the increases in electric generation prices, other areas, such as Pike County, are directly feeling the effects. Consequently, this Commission has begun a separate investigation to review steps that may be appropriate in order to mitigate the hikes that have occurred, as well as those that may occur upon the termination of price protection in the 2009-2010 timeframe.

Even though this Commission and many energy utilities have various ongoing programs to encourage customers to conserve or shift usage to lower cost periods, and to assist them in identifying ways of doing so, we need to explore additional means to promote energy efficiency, conservation, and demand side response in an expedited manner, as is discussed in greater detail in the following sections.⁴ As part of this investigation, the DSR Working Group will consider what type of advanced metering infrastructure and rate making mechanisms are most conducive to these programs.

² EIA Short-Term Energy Outlook, August 8, 2006.

³ EIA, Annual Energy Outlook 2006 (Dec. 12, 2005). The above figures are in 2004 dollars.

⁴ For example, utility regulators from Pennsylvania, New Jersey, Delaware, Maryland, and the District of Columbia, in collaboration with federal and regional authorities, are members of the Mid-Atlantic Distributed Resources Initiative which advocates accelerated implementation of distributed energy resources in the region.

A. Efficient Energy Usage and Conservation

As we anticipate another winter of high energy prices, there is an acute need to find ways to assist utility customers in dealing with record high bills. Any comprehensive plan must necessarily include efforts to encourage customers to reduce their use of energy through conservation and energy efficiency. Although this Commission has been diligent in assuring that utility rates are only as high as they need to be to permit the utility to recover its actual costs and no more, those actual costs continue to increase at an alarming rate. And, for the most part, the increases are outside the control of Pennsylvania's energy utilities and this Commission. The best way to reduce a customer's energy bill in this environment of intensifying world energy prices is by continuing to educate customers on how to use less energy and to efficiently use only what is required.

There are numerous benefits that will accrue from pursuing an aggressive conservation program. While individual customers will obviously achieve benefits by reducing their overall energy bill, some studies indicate that such reductions can actually reduce natural gas prices for all customers.⁵ Similar studies regarding electricity pricing have indicated that encouraging individual customers to reduce their usage at peak times can result in reductions in overall wholesale prices.⁶

One crucially important source of conservation assistance is the utilities themselves. They may be in the best position to know which customers would most benefit from assistance and what programs might work best on their system. Certainly, all of the major energy utilities have at least some programs to help customers, particularly low income customers, use energy more efficiently. Efficiency and conservation efforts can also be encouraged or provided by regional transmission organizations, the private sector, or non-profit organizations. This includes non-profit organizations created with specific conservation and efficiency goals, such as the New York State Energy Research and Development Authority and various sustainable energy boards.

We would like recommendations from the DSR Working Group on specific energy efficiency and conservation measures that can be implemented in a cost-effective manner for all customers. In the current environment, utility efforts to assist their customers to reduce usage (thereby helping them to reduce their bills) is as essential a part of the utility's public service obligation as is securing adequate sources of supply or maintaining a safe and reliable distribution network.⁷

B. Demand Side Response

Another means of reducing energy costs is the reduction of energy use during peak periods of the day or year, when energy costs are highest. Currently, most electric utility customers pay a rate that is constant throughout the day, and even throughout the year, and thus they have little or no economic incentive to help reduce energy costs during peak cost periods. Many jurisdictions throughout the United States are increasingly looking at aligning the wholesale electricity costs of providing power with retail rates through innovative pricing programs,

⁵ A 2003 study found that increasing energy efficiency by 5% could reduce natural gas prices by as much as 20%. Neal, Shipley & Brown, *Impact of Energy Efficiency & Renewable Energy on Natural Gas Markets*, American Council for an Energy Efficient Economy, September 12, 2003.

⁶ See Eric Hurst, *Barriers to Price Responsive Demand in Wholesale Electricity Markets*, Edison Electric Institute, June 2002; Severin Borenstein, *The Trouble With Electricity Markets (and some solutions)*, University of California Energy Institute, January 2001.

⁷ See 66 Pa.C.S. §§ 1301, 1501.

such as time-of-use rates, critical peak power rates, seasonal rates, and hourly pricing programs.

These programs include financial incentives that reward consumers for reducing energy usage during peak cost periods or for reliability purposes. These can be in the form of passive programs that permit the utility or a third party to reduce demand automatically (e.g., water heating or HVAC control programs), or voluntary/active programs (e.g., economic or emergency load response programs).

An example of this type of approach that the DSR Working Group should consider is a program offered by Toronto Hydro-Electric System Limited, which is referred to as the "10/10 Program." One of the most interesting aspects of this 10/10 Program is that it focuses on rewarding residential and small commercial customers for achieving specific conservation goals. Many believe that demand response programs have been the domain of large commercial and industrial customers. These larger customers are presumed to be the most cost conscious and the most responsive to economic signals. Because of this assumption, the potential for small customers to also participate in demand response programs has been greatly discounted. Some highlights of the 10/10 Program are:

- All residential and small commercial (<50 kW) customers are eligible.
- The customers are automatically enrolled.
- No special metering is required.
- Customers that reduce their consumption during the 10/10 Program period (July 15 to September 15) by 10 percent or more will be given an additional 10 percent rebate off their total bill for the program period.
- Customers that achieve less than the 10 percent reduction will not be eligible for any rebates, although they still have achieved the benefits of lower electricity charges.
- The costs of the program are allocated only to the two eligible customer classes.

The 10/10 Program also includes a potential for a Lost Revenue Adjustment Mechanism to address the loss of distribution revenues.

Proponents of 10/10 Program believe that it may encourage residential and small commercial customers to modify their electricity usage and become more aware of energy conservation and its benefits. They also hold that there will be a "spill over" benefit from other customers who may not achieve the targeted 10 percent reduction yet still benefit from lower electricity bills.

The DSR approaches of the type described above can reduce energy bills and enhance overall system reliability. The DSR Working Group should provide specific recommendations on the types of programs that should be implemented.

C. Advanced Metering Infrastructure

Many demand side response strategies cannot be implemented without development of a robust and advanced metering infrastructure ("AMI") that can provide, at a minimum, hourly or sub-hourly metering information on a timelier basis. For example, time-based rates and many load response programs cannot be effectively administered without the availability of actual hourly usage

information.⁸ Implementation of advanced metering systems can provide many secondary benefits such as enhanced reliability, improved customer service, and reduced operating costs. Often, these secondary benefits alone justify the long term investment in such metering systems.⁹ Given the potential for these systems to help mitigate energy price increases and improve service in the future, we should examine more closely the potential benefits and costs for all utilities in Pennsylvania to develop our advanced metering infrastructure. The DSR Working Group should make specific recommendations regarding implementation, if appropriate, and look for new ways to communicate this information to utilities, customers, competitive energy suppliers, and other customer representatives.¹⁰

D. Ratemaking Mechanisms

The DSR Working Group should also explore the effective ratemaking mechanisms that remove any existing disincentives to utilities' pursuit of aggressive energy efficiency, conservation or demand side response initiatives.

Traditionally, a utility's base rates have been established on the basis of a typical (or "pro forma") level of test year sales. If the utility increased sales over that test year level, it increased its annual revenues, and, if all other parts of the ratemaking calculation remained the same, it earned a greater return for its investors. Conversely, if sales decreased in relation to test year levels, the utility collected fewer revenues than anticipated and, in turn, earned a lower return than it was given an opportunity to earn by the Commission in its rate case. For some utilities, lower sales may affect their ability to maintain a safe and reliable infrastructure. These ratemaking facts have led commentators to observe that utilities not only have no incentive to assist their customers to reduce usage, but actually have a strong incentive to increase usage on their systems, especially between base rate cases.¹¹

Several major studies have investigated ratemaking policies and programs that can be implemented to reduce or eliminate this potential barrier to aggressive promotion of conservation and energy efficiency by utilities.¹² One mechanism that has been identified as useful in removing any disincentives has been dubbed "revenue decoupling," which has been described as preventing financial erosion from future reductions in consumption so that utilities will not be harmed by those reductions when revenues fall below the levels on which the utility's base rates were set.¹³ The imposition of a decoupling mechanism permits a utility to recover its fixed and construction-related costs in the face of continual reductions in usage caused by the installation of more energy efficient appliances and prudent conservation steps. It is argued that the value to the customer of the increased conservation steps promoted or

made possible by the utility far outweighs any additional charge resulting from the decoupling mechanism.

Such mechanisms have been implemented by some states.¹⁴ It is particularly noteworthy that an eminent environmental advocacy group like the Natural Resources Defense Council would advocate the adoption of ratemaking mechanisms to separate a utility's margin recoveries from throughput, thereby enabling the utility to aggressively promote conservation programs to help customers reduce their consumption.

On the other hand, such mechanisms have also been criticized by various parties. Criticisms include concerns that decoupling mechanisms create more volatile and unpredictable rates and reduce a utility's incentive to offer innovative services. There are also concerns about public reaction, in part because the concept may be difficult to explain to customers.¹⁵ The DSR Working Group should fully investigate these concerns and provide specific recommendations for future action, if appropriate.

CONCLUSION

An investigation into efficient energy usage, conservation, demand side response, advanced metering infrastructure, and appropriate ratemaking mechanisms will permit the Commission to review available evidence of the necessity, costs and benefits of various programs and approaches. Doing so generically will prevent the specific facts and circumstances of individual utilities from skewing the results. The initiation of this investigation is not intended to preempt or prejudice any proposals by individual utilities or other stakeholders. Such requests, if they come before us, will be considered on the record before us in that proceeding; *Therefore:*

It Is Ordered That:

1. The Commission initiate an investigation of:

(a) Energy utilities' current efforts to assist their customers to reduce usage, increase energy efficiency, and implement demand side response programs (including implementation of time-based rates), and whether additional cost effective and reasonable steps can be taken to increase those efforts materially (and, if so, the nature of those activities and the costs that the utility or other entity and customers would incur to implement them); and

(b) Whether Advanced Metering Infrastructure should be developed by Pennsylvania utilities, and, if so, the timeline and standards that should be established for the implementation of these systems for the various customer classes and the methods of sharing this information with customers, competitive energy suppliers, and other customer representatives.

(c) Whether revenue decoupling or other similar mechanisms are necessary or appropriate to assure that energy utilities, and in particular natural gas utilities, aggressively encourage and implement conservation and energy efficiency in their service territories, and whether such mechanisms are fair to customers and otherwise in the public interest. At a minimum, the following legal and policy questions should be addressed: whether such mechanisms are legally permissible in Pennsylvania; whether such mechanisms are actually necessary in order to obtain the participation of energy utilities in conservation promotion activities; and whether the costs of implementing such mechanisms outweigh any benefits, and, if the benefits are greater, what type of decoupling approach is optimal.

⁸ The DSR Working Group should address the effects of the Commission adopting flat rates instead of time-of-use rates for default service. Would other benefits of AMI (for example, reduced operational costs, improved customer service, quicker emergency response, improved reliability, better capability to participate in demand response programs and retail choice alternatives, and overall economies of scale in AMI) exceed the costs of such an investment in our utility infrastructure?

⁹ Reply comments of the Pennsylvania Department of Environmental Protection on Policies to Mitigate Potential Electricity Price Increases, Docket No. M-00061957.

¹⁰ Again, we do not envision this investigation as a generic exploration of the pros and cons of energy efficiency or demand side response programs. We encourage the DSR Working Group to examine the recent Federal Energy Regulatory Commission Staff Report on the Assessment of Demand Response & Advanced Metering at Docket No. AD-06-2-000 for general background information and resource guide.

2. The Director of Operations reconvene the DSR Working Group for the purpose of investigating the issues addressed in this order. The Director shall schedule meetings of the DSR Working Group, assign Commission Staff to this investigation, provide a specific list developed by the working group of issues to investigate, solicit comments from interested parties, and provide specific recommendations to the Commission at the conclusion of the investigation, where working group consensus is attained.
