READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 234—RULES OF CRIMINAL PROCEDURE

[234 PA. CODE CHS. 1, 5, 6, 10 AND 11]

Proposed New Pa.Rs.Crim.P. 556—556.12, and Proposed Correlative Changes to Pa.Rs.Crim.P. 103, 540, 542, 544, 547, 560, 573, 578, 582, 646, 648, 1003 and 1101

The Criminal Procedural Rules Committee is planning to recommend that the Supreme Court of Pennsylvania adopt new Rules of Criminal Procedure 556 through 556.12, amend Rules of Criminal Procedure 103, 540, 544, 547, 560, 646, 1003, and 1101, and revise the Comments to Rules of Criminal Procedure 542, 573, 578, 582, and 648. The proposed new rules and correlative rule changes have been developed at the request of the Court and provide, *inter alia*, for the resumption of the use of indicting grand juries, but only as a local option in the narrowly defined circumstance of cases in which witness intimidation has occurred, is occurring, or is likely to occur. This proposal has not been submitted for review by the Supreme Court of Pennsylvania.

The following explanatory Report highlights the Committee’s considerations in formulating this proposal. Please note that the Committee’s Report should not be confused with the official Committee Comments to the rules. Also note that the Supreme Court does not adopt the Committee’s Comments or the contents of the explanatory Reports.

The text of the proposed new rules and amendments to the rules precedes the Report. Additions are shown in bold; deletions are in bold and brackets.

We request that interested persons submit suggestions, comments, or objections concerning this proposal in writing to the Committee through counsel,

TITLE 234. RULES OF CRIMINAL PROCEDURE CHAPTER 1. SCOPE OF RULES, CONSTRUCTION AND DEFINITIONS, LOCAL RULES

PART A. Business of the Courts

Rule 103. Definitions.

The following words and phrases, when used in any Rule of Criminal Procedure, shall have the following meanings:

* * * * *

INDICTMENT is [a bill of indictment which has been approved by a grand jury and properly returned to court, or which has been endorsed with a waiver as provided in former Rule 215] the instrument holding the defendant for court after a grand jury votes to indict and authorizing the attorney for the Commonwealth to prepare an information.

INFORMATION is a formal written [accusation] statement charging the commission of an offense [made] signed and presented to the court by the attorney for the Commonwealth [, upon which a defendant may be tried, which replaces the indictment in all counties since the use of the indicting grand jury has been abolished.] after a defendant is held for court or waives the preliminary hearing or a grand jury proceeding.

* * * * *

Comment

The definitions of arraignment and preliminary arraignment were added in 2004 to clarify the distinction between the two proceedings. Although both are administrative proceedings at which the defendant is advised of the charges and the right to counsel, the preliminary arraignment occurs shortly after an arrest before a member of the minor judiciary, while an arraignment occurs in the court of common pleas after a case is held for court and an information is filed.

The definition of indictment was amended in 2011 consistent with the adoption of the new indicting grand jury rules in Chapter 5 Part E. Under the new rules, the indictment is the functional equivalent of an issuing authority’s order holding the defendant for court and that forms the basis for the information that is prepared by the attorney for the Commonwealth. Formerly, an indictment was defined as a bill of indictment that has been approved by a grand jury and properly returned to court, or which has been endorsed with a waiver as provided in former Rule 215.

CHAPTER 5. PRETRIAL PROCEDURES IN COURT CASES

PART D. Proceedings in Court Cases Before Issuing Authorities

Rule 540. Preliminary Arraignment.

* * * * *

(F) Unless the preliminary hearing is waived by a defendant who is represented by counsel, or the attorney for the Commonwealth is presenting the case to an indicting grand jury pursuant to Rule 556.2, the issuing authority shall:

(1) fix a day and hour for a preliminary hearing which shall not be [less than 3 nor more than 10 days after the preliminary arraignment,] later than 14 days after the preliminary arraignment if the defendant is in custody and no later than 21 days if not in custody unless:

Report explaining the proposed revision of the Comment concerning indicting grand juries published for comment at 41 Pa.B. 5549 (October 15, 2011).

Rule 544. Reinstating Charges Following Withdrawal or Dismissal.

(A) When charges are dismissed or withdrawn at, or prior to, a preliminary hearing, or when a grand jury declines to indict, the attorney for the Commonwealth may reinstate the charges by approving, in writing, the [refiling] re-filing of a complaint with the issuing authority who dismissed or permitted the withdrawal of the charges.

(B) Following the [refiling] re-filing of a complaint pursuant to paragraph (A), if the attorney for the Commonwealth determines that the preliminary hearing should be conducted by a different issuing authority, the attorney shall file a Rule 132 motion with the clerk of courts requesting that the president judge, or a judge designated by the president judge, assign a different

issuing authority to conduct the preliminary hearing. The motion shall set forth the reasons for requesting a different issuing authority.

Comment

This rule provides the procedures for reinstating criminal charges following their withdrawal or dismissal at, or prior to, the preliminary hearing, **or after a grand jury declines to indict.**

The authority of the attorney for the Commonwealth to reinstate charges that have been dismissed at the preliminary hearing is well established by case law. *See, e.g., McNair’s Petition, 324 Pa. 48, 187 A. 498* ([Pa.] 1936); *Commonwealth v. Thorpe, 549 Pa. 343, 701 A.2d 488* ([Pa.] 1997). This authority, however, is not unlimited. First, the charges must be reinstated prior to the expiration of the applicable statute(s) of limitations. *See Commonwealth v. Thorpe, 549 Pa. 343, 701 A.2d 488* ([Pa.] 1997). In addition, the courts have held that the reinstatement may be barred in a case in which the Commonwealth has repeatedly rearrested the defendant in order to harass him or her, or if the rearrest results in prejudice. *See Commonwealth v. Thorpe, 549 Pa. 343, 701 A.2d 488* ([Pa.] 1997); *Commonwealth v. Shoop, 420 Pa. Super. 606, 617 A.2d 351* ([Pa. Super.] 1992).

The decision to reinstate charges must be made by the attorney for the Commonwealth. Therefore, in cases in which no attorney for the Commonwealth was present at the preliminary hearing, the police officer may not [refile] re-file the complaint without the written authorization of the attorney for the Commonwealth. *See* Rule 507 (Approval of Police Complaints and Arrest Warrant Affidavits by Attorney for the Commonwealth—Local Option) for procedures for prior approval of complaints.

* * * * *

See Chapter 5 Part E for the procedures governing indicting grand juries. If the attorney for the Commonwealth is reinstating the charges after a grand jury has declined to indict, the complaint should be re-filed with the issuing authority with whom the original complaint was filed.

See Chapter 5 Part F(1) for the procedures governing motions.

Official Note: Original Rule 123, adopted June 30, 1964, effective January 1, 1965; suspended January 31, 1970, effective May 1, 1970. New Rule 123 adopted January 31, 1970, effective May 1, 1970; renumbered Rule 143 September 18, 1973, effective January 1, 1974; amended January 28, 1983, effective July 1, 1983; amended August 9, 1994, effective January 1, 1995; amended September 13, 1995, effective January 1, 1996. The January 1, 1996 effective date extended to April 1, 1996; the April 1, 1996 effective date extended to July 1, 1996; renumbered Rule 142 October 8, 1999, effective January 1, 2000. New Rule 143 adopted October 8, 1999, effective January 1, 2000; renumbered Rule 544 and amended March 1, 2000, effective April 1, 2001; **amended** , 2011, **effective** , 2011.

Rule 547. Return of Transcript and Original Papers.

(A) When a defendant is held for court, **either following a preliminary hearing or an indictment by a grand jury**, the issuing authority shall prepare a transcript of the proceedings. The transcript shall contain all the information required by these rules to be recorded on the transcript. It shall be signed by the issuing authority, and have affixed to it the issuing authority’s seal of office.

* * * * *

(C) In addition to this transcript the issuing authority shall also transmit the following items:

* * * * *

(5) a request for the court of common pleas to issue a bench warrant as required in Rule 543(D)(3)(b); [**and**]

(6) notice informing the court of common pleas that the defendant has failed to comply with the fingerprint order as required in Rule 543(D)(3)(b)(ii)[.] ; **and**

(7) **when the defendant is indicted by the grand jury, the copy of the indictment.**

Comment

* * * * *

When the case is held for court pursuant to Rule 543(D)(3)(b)(ii), the issuing authority must include with the transcript transmittal a notice to the court of common pleas that the defendant has not complied with the fingerprint order issued pursuant to Rule 510(C)(2). **See Rule 543(D)(3)(b)(ii).** The court of common pleas must take whatever actions deemed appropriate to address this non-compliance.

See Chapter 5 Part E for the procedures governing indicting grand juries. Pursuant to Rule 556.11, the supervising judge will forward a copy of the indictment to the issuing authority for inclusion with documents forwarded with the transcript under this rule. When the case is transmitted to the court of common pleas, the clerk of courts should associate the transcript and other documents transmitted by the issuing authority with the original indictment filed by the supervising judge.

PART E. Indicting Grand Jury

Rule	
556.	Indicting Grand Jury.
556.1	Summoning Panels of Grand Jurors.
556.2.	Proceeding by Indicting Grand Jury Without Preliminary Hearing.
556.3.	Composition and Organization of the Indicting Grand Jury.
556.4.	Challenges to Grand Jury and Grand Jurors.
556.5.	Duration of Indicting Grand Jury.
556.6.	Administering Oath to Grand Jury and Foreperson.
556.7.	Administration of Oath to Witnesses; Court Personnel.
556.8.	Recording of Testimony Before Indicting Grand Jury.
556.9.	Who May be Present During Sessions of Indicting Grand Jury.
556.10.	Secrecy; Disclosure.
556.11.	Proceedings When Case Presented to Grand Jury.
556.12.	Waiver of Grand Jury Action.

Rule 556. Indicting Grand Jury.

Each of the several courts of common pleas may proceed with an indicting grand jury pursuant to these rules only in cases in which witness intimidation has occurred, is occurring, or is likely to occur.

Comment

This rule was adopted in 2011 to permit the use of an indicting grand jury as an alternative to the preliminary hearing but only in cases in which witness intimidation has occurred, is occurring, or is likely to occur.

Official Note: New Rule 556 adopted , effective .

Committee Explanatory Reports:

Report explaining the proposed new rule published at 41 Pa.B. 5549 (October 15, 2011).

Rule 556.1 Summoning Panels of Grand Jurors.

(A) When the court of common pleas elects to proceed with an indicting grand jury, the president judge, or president judge's designee, shall order one or more grand juries to be summoned for the purpose of issuing indictments or shall order that the sitting investigating grand jury shall sit as the indicting grand jury.

(B) The judge shall order the officials designated by law to summon prospective jurors to summon such number of jurors who are eligible by law as the judge deems necessary to serve as a panel for grand jury service.

(C) The summons shall be made returnable on such date as is ordered by the court.

Comment

Pursuant to paragraph (A), the president judge, or president judge's designee, may order that an investigating grand jury that is sitting will also serve in the capacity of the indicting grand jury. To the extent that 42 Pa.C.S. § 4548(c) is inconsistent with this rule, the statute is suspended by Rule 1101 (Suspension of Acts of Assembly).

The number of persons who may be summoned is left to the discretion of the president judge or the president judge's designee to accommodate the needs of the judicial district.

The qualification, selection, and summoning of prospective jurors, as well as related matters, are generally dealt with in 42 Pa.C.S. §§ 4501—4503, 4521—4527, 4531—4532.

Official Note: New Rule 556.1 adopted , effective .

Committee Explanatory Reports:

Report explaining the proposed new rule published at 41 Pa.B. 5549 (October 15, 2011).

Rule 556.2. Proceeding by Indicting Grand Jury Without Preliminary Hearing.

(A) After a person is arrested or otherwise proceeded against with a criminal complaint, the attorney for the Commonwealth may move to present the matter to a grand jury instead of proceeding to a preliminary hearing.

(1) The motion shall allege facts asserting that witness intimidation has occurred, is occurring, or is likely to occur.

(2) The motion shall be presented *ex parte* to the president judge, or the president judge's designee.

(3) Upon receipt of the motion, the president judge, or the president judge's designee, shall review the motion. If the judge determines the allegations are sufficient, the judge shall grant the motion, and shall notify the proper issuing authority.

(4) The order granting the motion and the motion shall be sealed.

(5) The attorney for the Commonwealth shall file the sealed order and the sealed motion with the clerk of courts.

(B) If not already assigned, the president judge shall assign one of the judges in the judicial district to serve as the supervising judge for the indicting grand jury.

(C) If the motion is granted, the case shall be presented to the grand jury within 21 days of the date of the order, unless the grand jury proceedings are waived by the defendant with the consent of the attorney for the Commonwealth.

(D) If the district attorney elects not to present the case to a grand jury, the defendant is entitled to a preliminary hearing before the proper issuing authority.

Comment

An accused in Pennsylvania ordinarily has the right to a preliminary hearing before he or she may be indicted by the grand jury. *See Commonwealth v. Hoffman*, 396 Pa. 491, 152 A.2d 726 (1959). However, the 2011 amendments to the rules permit the attorney for the Commonwealth to proceed to the indicting grand jury without first presenting the matter to an issuing authority for a preliminary hearing but only in cases in which witness intimidation has occurred, is occurring, or is likely to occur.

Pursuant to paragraph (A)(2), the president judge may designate another judge to receive motions from the attorney for the Commonwealth. It is anticipated that this designee will be the judge designated to be the supervising judge of the grand jury.

See Rule 556.11 for the procedures when a case is presented to the grand jury.

See Rule 556.12 for the procedures for the defendant to waive the grand jury proceedings.

If, after a motion to proceed to a grand jury is granted, the attorney for the Commonwealth elects not to present the case to the grand jury, the case will proceed as any other criminal case following the preliminary arraignment. *See* Rules 541—547.

Official Note: New Rule 556.2 adopted , effective

Committee Explanatory Reports:

Report explaining the proposed new rule published at 41 Pa.B. 5549 (October 15, 2011).

Rule 556.3. Composition and Organization of the Indicting Grand Jury.

(A) There initially shall be impaneled to serve on an indicting grand jury 23 legally qualified jurors and a minimum of 7 and not more than 15 legally qualified alternates. During its term, the indicting grand jury shall consist, as provided hereinafter, of not less than 15 nor more than 23 legally qualified jurors, and the remaining alternates.

(B) When an indicting grand jury is to be impaneled, the supervising judge in charge of the grand jury shall examine prospective jurors to determine which prospective jurors to excuse for cause. After prospective grand jurors have been excused for cause, the reduction to the minimum of 30 or maximum of 38 shall take place by random drawing in the following manner: 30 to 38 jurors shall be selected by random drawing, of which the first 23 jurors so selected shall be designated permanent grand jurors and the next 7 to 15 jurors shall be designated alternate jurors. Alternate jurors shall replace permanent jurors in the sequence in which the alternate jurors are selected.

(C) Alternate jurors shall attend and participate in sessions of the grand jury but they may not attend or participate in the deliberations and voting until such time as they may be appointed as permanent grand jurors as provided in paragraph (D).

(D) The court shall have the power to permanently excuse a permanent or alternate grand juror for cause at any time during the term of the indicting grand jury. For each such excused permanent grand juror, the court shall appoint a new permanent grand juror from among the available alternates.

(E) Fifteen permanent members of the grand jury shall constitute a quorum, but an affirmative vote of 12 permanent members of the grand jury shall be required to indict.

(F) Whenever the number of permanent grand jurors, including alternates who have been appointed to replace permanent grand jurors, becomes less than 15, the term of the indicting grand jury shall be considered at an end.

(G) The supervising judge shall appoint one of the grand jurors as foreperson and another juror as the deputy foreperson, who will act in the foreperson's absence. The grand jury shall select one of its members as a secretary to assist the foreperson in keeping a record of the action of the grand jury.

Comment

To accommodate the possibility that a grand jury would serve the dual function of both an investigating and indicting grand jury, see Rule 556.2(A), the procedures in this rule comport to the procedures in Rule 222 (Composition and Organization of the Investigating Grand Jury).

The term "permanent grand juror" is used to distinguish grand jurors with the power to vote from alternate grand jurors. The purpose of providing a built-in system of alternates is to ensure the smooth functioning of the grand jury throughout its term and to provide that

alternates, when made permanent grand jurors, will be fully cognizant of all the proceedings before the grand jury.

It is intended that no alternate may be appointed as a temporary substitute for a permanent grand juror, and that the court will excuse permanent grand jurors only when necessary and in the interests of justice. However, whenever a permanent juror is excused for cause and an alternate is available to become a permanent grand juror, the court must substitute an alternate for the excused permanent grand juror. It is intended that such substitution be made in the order of the alternate jurors' numerical designation.

Rule 556.4. Challenges to Grand Jury and Grand Jurors.

(A) *Challenges*

The attorney for the Commonwealth or a defendant may challenge the grand jury on the ground that it was not lawfully drawn, summoned, or selected, and may challenge an individual juror on the ground that the juror is not legally qualified.

(1) The challenge shall be in the form of a written motion and shall allege the ground upon which the challenge is made.

(2) If a challenge to an individual grand juror is sustained, the juror shall be discharged and replaced with an alternate juror.

(B) *Motion to Dismiss*

(1) The attorney for the Commonwealth or a defendant may move to dismiss the information filed following the grand jury's vote to indict the defendant based on the following grounds:

(a) an objection to the grand jury or on an individual juror's lack of legal qualification, unless the court has previously ruled on the same objection under paragraph (A);

(b) the evidence did not establish probable cause that the defendant committed the crime or crimes charged;

(c) lack of jurisdiction of the grand jury; or

(d) expiration of the Statute of Limitations.

(2) The judge shall not dismiss the information on the ground that a grand juror was not legally qualified if the record shows that at least 12 qualified jurors concurred in the indictment.

(C) Any motion under paragraph (A) or paragraph (B) shall be made as part of the omnibus pretrial motion.

Comment

Concerning the right to challenge the array of the grand jury, see, *Commonwealth v. Dessus*, 423 Pa. 177, 224 A.2d 188 (1966), in which the Court held, *inter alia*, that "the law must not deprive an accused of any of his legal or Constitutional rights in this case the right to promptly (a) challenge the array of the grand jury and (b) prove by legally competent evidence that one or more of the grand jurors should be disqualified for cause."

Nothing in this rule is intended to limit the availability of *habeas corpus* review as provided by law.

Nothing in this rule is intended to require notice to the defendant of the time and place of the impaneling of a grand jury, or to give the defendant the right to be present for the selection of the grand jury.

Official Note: New Rule 556.4 adopted _____, effective _____.

Committee Explanatory Reports:

Report explaining the proposed new rule published at 41 Pa.B. 5549 (October 15, 2011).

Rule 556.5. Duration of Indicting Grand Jury.

(A) The length of the grand jury term shall be determined by the president judge, or the president judge's designee, but shall not exceed 18 months, unless an order for discharge is entered earlier by the supervising judge upon determination by the grand jury, by majority vote, that its business has been completed, or an extension is granted pursuant to paragraph (B).

(B) At the end of its original term or any extension thereof, if the grand jury determines by majority vote that it has not completed its business, it may request the supervising judge to extend its term for an additional period of 6 months. No grand jury term shall exceed 24 months from the time the grand jury was originally summoned.

(1) The supervising judge shall grant a request for extension unless the judge determines that such request clearly is without basis.

(2) Failure to grant an extension of term under this rule may be appealed by the attorney for the Commonwealth to the Supreme Court in the manner prescribed by general rule.

(3) If an appeal is taken, the grand jury shall continue to exercise its powers pending the disposition of the appeal.

(C) At any time within the original term of a grand jury, or any extension thereof, if the supervising judge determines that the grand jury is not conducting proper indicting activity, the judge may order that the grand jury be discharged.

(1) An order of discharge under this rule shall not become effective less than 10 days after the date on which the order is issued and actual notice given to the attorney for the Commonwealth and the foreperson of the grand jury.

(2) The order may be appealed by the attorney for the Commonwealth to the Supreme Court in the manner prescribed by general rule.

(3) If an appeal is taken, the grand jury shall continue to exercise its powers pending the disposition of the appeal.

Comment

The procedures governing the duration of the indicting grand jury are consistent with the procedures for investigating grand juries as set forth in 42 Pa.C.S. § 4546.

Rule 556.6. Administering Oath to Grand Jury and Foreperson.

(A) After the selection of the members of the grand jury, the supervising judge shall administer the oath

separately to the foreperson and deputy foreperson and then to the other grand jurors. The supervising judge shall then charge the grand jury concerning its duties.

(B) The supervising judge shall administer the oath to the grand jury in substantially the following form:

"You, as grand jurors, do solemnly swear that you will make diligent inquiry with regard to all matters brought before you as well as such things as may come to your knowledge in the course of your duties; that you will keep secret all that transpires in the jury room except as authorized by law; that you will neither approve any indictment or present any person for hatred, envy or malice, or refuse to approve any indictment or present any person for love, fear, favor, or any reward or hope thereof; and that you will present all things truly to the court as they come to your knowledge and understanding."

(C) The supervising judge shall administer the oath to the foreperson and deputy foreperson in substantially the following form:

"You, as foreperson, do solemnly swear that you will make diligent inquiry with regard to all matters as shall be given you in charge; that you will keep secret all that transpires in the jury room, except as authorized by law; that you will neither approve any indictment or present any person for hatred, envy or malice, or refuse to approve any indictment or present any person for love, fear, favor, or any reward or hope thereof; and that you will present all things truly to the court as they come to your knowledge and understanding."

Comment

It is intended that all grand jurors, including alternate grand jurors, will be sworn at this time.

Rule 556.7. Administration of Oath to Witnesses; Court Personnel.

(A) Each witness to be heard by the indicting grand jury shall be sworn by the foreperson before testifying.

(B) All court personnel who are to be present during any portion of the grand jury proceedings, and all others who assist in the proceedings, shall be sworn to secrecy by the supervising judge prior to their participation.

Comment

When it is necessary to give constitutional warnings to a witness, the warnings and the oath must be administered by the supervising judge. As to warnings that the court may have to give to the witness when the witness is sworn, see, e.g., *Commonwealth v. McCloskey*, 443 Pa. 117, 277 A.2d 764 (1971).

Rule 556.8. Recording of Testimony Before Indicting Grand Jury.

(A) Proceedings before an indicting grand jury, other than the deliberations and voting of the grand jury, shall

be recorded by a court reporter or by a suitable recording device, and a transcript made.

(B) The supervising judge shall retain control of the recording device and the original and all copies of the transcript, and shall maintain their secrecy.

(C) When physical evidence is presented before the indicting grand jury, the supervising judge shall establish procedures for supervising custody.

(D) In cases in which an indictment is not returned, the notes or transcriptions shall be destroyed unless ordered by the supervising judge to be preserved for good cause shown, including but not limited to the prosecution of a witness for perjury.

Comment

This rule requires that the supervising judge retain control over the transcript of the indicting grand jury proceedings and all copies thereof, as the record is transcribed, until such time as the transcript is released as provided in these rules.

Rule 556.9. Who May be Present During Sessions of Indicting Grand Jury.

(A) The attorney for the Commonwealth, the alternate grand jurors, the witness under examination, and a stenographer may be present while the indicting grand jury is in session. Counsel for the witness under examination may be present as provided by law.

(B) The supervising judge, upon the request of the attorney for the Commonwealth or the grand jury, may order that an interpreter, security officers, and such other persons as the judge may determine are necessary to the presentation of the evidence may be present while the indicting grand jury is in session.

(C) All persons who are to be present while the indicting grand jury is in session shall be identified in the record, shall be sworn to secrecy as provided in these rules, and shall not disclose any information pertaining to the grand jury except as provided by law.

(D) No person other than the permanent grand jurors may be present during the deliberations or voting of the grand jury.

Comment

It is intended in paragraph (B) that when the supervising judge authorizes a certain individual to be present during a session of the indicting grand jury, the person may remain in the grand jury room only as long as is necessary for that person to assist the grand jurors.

Paragraph (C) prohibits the disclosure of any information related to testimony before the indicting grand jury. This prohibition differs from the disclosure provisions in 42 Pa.C.S. § 4549 for investigating grand juries that provides some exceptions for witnesses to disclose their testimony.

See also Rule 556.10 concerning secrecy and disclosure of indicting grand jury proceedings.

Nothing in these rules precludes the supervising judge from permitting a witness to testify using two-way simultaneous audio-visual communication.

Rule 556.10. Secrecy; Disclosure.

(A) Secrecy

(1) All evidence, including exhibits and all testimony presented to the grand jury, is subject to grand jury secrecy, and no person may disclose any matter occurring before the grand jury.

(2) A violation of grand jury secrecy rules may be punished as a contempt of court.

(B) Disclosure

(1) Attorney for the Commonwealth:

Upon receipt of the certified transcript of the proceedings before the indicting grand jury, the supervising judge shall furnish a copy of the transcript to the attorney for the Commonwealth for use in the performance of official duties.

(2) Defendant in a Criminal Case:

(a) If a defendant in a criminal case has testified before the indicting grand jury concerning the subject matter of the charges against him or her, upon application of such defendant, the supervising judge shall order that the defendant be furnished with a copy of the transcript of such testimony.

(b) Pretrial discovery in cases indicted by a grand jury is subject to Rule 573, except that discovery shall not be ordered until 30 days before the commencement of trial. Pretrial discovery includes the transcripts of the testimony of any witnesses in a criminal case who have testified before the indicting grand jury concerning the subject matter of the charges against the defendant and, when ordered by the supervising judge, the grand jury material that is subject to the secrecy provisions in paragraph (A).

(c) The attorney for the Commonwealth may request that the supervising judge delay the disclosure of a grand jury witness' testimony, but such delay in disclosure shall not be later than the conclusion of direct testimony of that witness at trial.

(3) Other Disclosures:

Disclosure of grand jury material or matters, other than the grand jury's deliberations and the vote of individual jurors, may be made to any law enforcement personnel that an attorney for the Commonwealth considers necessary to assist in the enforcement of the criminal law.

(C) The supervising judge shall close to the public any hearing relating to grand jury proceedings to the extent necessary to prevent disclosure of a matter occurring before a grand jury. Records, orders, and subpoenas relating to grand jury proceedings shall be kept under seal to prevent the unauthorized disclosure of a matter occurring before a grand jury.

Comment

The attorney for the Commonwealth has an affirmative duty to provide the defendant with any testimony before the indicting grand jury and any physical evidence presented to the grand jury that is exculpatory to the defendant consistent with the line of cases beginning with

Brady v. Maryland, 373 U.S. 83 (1963), and the refinements of the *Brady* standards embodied in subsequent judicial decisions.

Paragraph (B) establishes the limitations on pretrial discovery in cases in which a defendant has been indicted by a grand jury information. Although the Criminal Rules generally recognize the defendant's right to have pretrial discovery to be able to prepare his or her case, given the nature of the cases presented to the grand jury, see Rule 556, this rule provides for the limited delay in providing pretrial discovery of grand jury testimony until 30 days before the commencement of trial. For purposes of this rule, a trial commences when the trial judge determines that the parties are present and directs them to proceed to *voir dire* or to opening argument, or to the hearing of any motions that had been reserved for the time of trial, or to the taking of testimony, or to some other such first step in the trial. It is not intended that preliminary calendar calls should constitute commencement of a trial.

Paragraph (B)(2)(b)(ii) permits the supervising judge to extend the time for the disclosure of a grand jury witness' testimony upon the request of the attorney for the Commonwealth. Under no circumstances may the extension be later than the completion of the witness' direct testimony at trial.

The supervising judge may grant a continuance to enable the defendant to review the grand jury testimony as the interests of justice require.

Rule 556.11. Proceedings When Case Presented to Grand Jury.

(A) When a case is presented to an indicting grand jury, the case shall remain open in the office of the issuing authority in which the complaint was filed until conclusion of the proceedings before the grand jury, and the issuing authority shall cancel the preliminary hearing and schedule a hearing to review the status of the case.

(1) The status hearing shall be held 30 days from the date when the issuing authority received notice that the case will be presented to the grand jury. If the case still is before the grand jury at the time of the status hearing, the issuing authority shall schedule additional status hearings every 30 days until such time as the grand jury indicts the defendant or declines to indict the defendant.

(2) The defendant, the defendant's attorney, if any, and the attorney for the Commonwealth shall be present at the status hearings.

(3) In the discretion of the issuing authority, the status hearing may be conducted by using two-way simultaneous audio-visual communication. When counsel for the defendant is present, the defendant must be permitted to communicate fully and confidentially with defense counsel immediately prior to and during the status hearing.

(B) A grand jury has the authority to:

(1) inquire into violations of criminal law through subpoenaing witnesses and documents; and

(2) based upon evidence it has received, including hearsay evidence as permitted by law, or upon a presentment issued by an investigating grand jury, indict defend-

dant for an offense under the criminal laws of the Commonwealth of Pennsylvania; or

(3) decline to indict.

(B) After a grand jury has considered the evidence presented, the grand jury shall vote whether to indict the defendant. The affirmative vote of at least 12 grand jurors is required to indict.

(C) In cases in which the grand jury votes to indict, an indictment shall be prepared setting forth the offenses on which the grand jury has voted to indict. The indictment shall be signed by the grand jury foreperson, or deputy foreperson if the foreperson is unavailable, and returned to the supervising judge.

(D) Upon receipt of the indictment, the supervising judge shall:

(1) provide a copy of the indictment to the Commonwealth authorizing the attorney to prepare an information pursuant to Rule 560; and

(2) forward the indictment to the issuing authority, or issue an arrest warrant, if the subject of the indictment has not been arrested on the charges contained in the indictment.

(E) At the request of the attorney for the Commonwealth, the supervising judge shall order the indictment to be sealed.

(F) In cases in which the grand jury does not vote to indict, the foreperson promptly and in writing shall so report to the supervising judge who immediately shall dismiss the complaint and shall notify the issuing authority of the dismissal.

Comment

As provided in paragraph (A), the case will remain open in the magisterial district office in which the complaint was filed and the issuing authority must conduct a hearing into the status of the case every 30 days until the grand jury takes action on the case. At the status hearing, issues related to the case, such as bail, may be addressed.

When the grand jury votes to indict the defendant, the vote to indict is the functional equivalent of holding the defendant for court following a preliminary hearing. In these cases, the matter will proceed in the same manner as when the defendant is held for court following a preliminary hearing. *See, e.g.,* Rules 547 and 560.

The indictment required by paragraph (C) no longer serves the traditional function of an indictment, but rather serves as an instrument authorizing the attorney for the Commonwealth to file an information. *See* Rule 103.

Concerning hearsay evidence before the indicting grand jury, see *Commonwealth v. Dessus*, 423 Pa. 177, 224 A.2d 188 (1966).

If the grand jury declines to indict, the attorney for the Commonwealth may reinstitute the charges as provided in Rule 544.

Rule 556.12. Waiver of Grand Jury Action.

A defendant, with the consent of the attorney for the Commonwealth and the approval of the supervising judge, may waive action by the grand jury and consent to be bound over to court. The waiver shall be in writing and signed by the defendant and defense attorney, if any, and shall certify that the defendant voluntarily waives the grand jury action and consents to be bound over to court.

See Rule 543(D) for the procedures when a defendant fails to appear for the preliminary hearing. When the preliminary hearing is held in the defendant's absence and the case is held for court, the attorney for the Commonwealth should proceed as provided in this rule.

See Chapter 5 Part E for the procedures governing indicting grand juries. As explained in the Comment to Rule 556.11, when the grand jury indicts the defendant, this is the functional equivalent to holding the defendant for court following a preliminary hearing.

Comment

This rule is intended to apply only to court cases. However, the constitutional guarantees mandated in *Brady v. Maryland*, 373 U.S. 83 (1963), and the refinements of the *Brady* standards embodied in subsequent judicial decisions, apply to all cases, including court cases and summary cases, and nothing to the contrary is intended. For definitions of "court case" and "summary case," see Rule 103.

Rule 578. Omnibus Pretrial Motion for Relief.

* * * * *

Comment

Types of relief appropriate for the omnibus pretrial motions include the following requests:

* * * * *

- (5) to quash **or dismiss** an information;
- (6) for change of venue or venire;
- (7) to disqualify a judge;
- (8) for appointment of investigator; [**and**]
- (9) for pretrial conference[.] ; **and**
- (10) **challenging the array of an indicting grand jury.**

The omnibus pretrial motion rule is not intended to limit other types of motions, oral or written, made pretrial or during trial, including those traditionally called motions *in limine*, which may affect the admissibility of evidence or the resolution of other matters. The earliest feasible submissions and rulings on such motions are encouraged.

See Rule 556.4 for challenges to the array of an indicting grand jury and for motions to dismiss an information filed after a grand jury indicts a defendant.

Comment

* * * * *

Paragraph (A)(1)(a) is based upon *Commonwealth v. Morris*, 493 Pa. 164, 425 A.2d 715 ([Pa.] 1981). Paragraph (A)(1)(b) is based upon statutory and case law that, ordinarily, if all offenses arising from the same criminal episode or transaction are not tried together, subsequent prosecution on any such offense not already tried may be barred. See the Crimes Code, 18 Pa.C.S. §§ 109–110; *Commonwealth v. Campana*, 452 Pa. 233, 304 A.2d 432 (1973), vacated and remanded, 414 U.S. 808 (1973), addendum opinion on remand, 455 Pa. 622, 314 A.2d 854 ([Pa.] 1974); *Commonwealth v. Tarver*, 467 Pa. 401, 357 A.2d 539 ([Pa.] 1976). The court has also held that a defendant's failure to move for consolidation does not

ordinarily constitute a waiver of an objection to a subsequent, separate trial of any such offense. See, e.g., *Commonwealth v. Stewart*, 493 Pa. 24, 425 A.2d 346 ([Pa.] 1981).

See Rule 571 concerning arraignment procedures.

* * * * *

Comment

Paragraph (A) of the rule replaces the practice of automatically appointing the first juror chosen as foreman of the jury. Paragraphs (C), (D), and (E) serve only to codify the procedure where conviction or acquittal of one offense operates as a bar to a later trial on a necessarily included offense. Similarly, the rule applies to situations of merger and *autrefois* convict or acquit. No attempt is made to change the substantive law [**which**] that would operate to determine when merger or any of the other situations arise. See, e.g., *Commonwealth v. Comber*, 374 Pa. 570, 97 A.2d 343 (1953).

Indicting Grand Juries

I. Background

In January 2010, the Philadelphia Inquirer published a series of articles reporting on what was seen as systemic problems within the criminal justice system of the First Judicial District. In response to these articles, the Court appointed a Commission to study the issues raised by the Philadelphia Inquirer.

One of the problems identified in the Inquirer articles concerned intimidation by threats of violence to witnesses and/or witnesses’ family members. “Witness intimidation pervades the Philadelphia criminal courts, increasingly extracting a heavy toll in no-show witnesses, recanted testimony—and collapsed cases . . . Prosecutors, detectives, and even some defense lawyers say witness fear has become an unspoken factor in virtually every court case involving violent crime in Philadelphia. Reluctant or terrified witnesses routinely fail to appear in court, and when they do, they often recant their earlier testimony or statements to police.”¹

The recommendations of the Court’s Commission included, as a way to address the problem of witness intimidation, a proposal that the Court adopt rules providing for the use of the indicting grand jury similar to the indicting grand jury procedures in a number of other jurisdictions, including the federal courts. The Commission’s Report explained that the indicting grand jury would be utilized in lieu of proceeding by preliminary hearing on an as-needed basis in cases in which witness intimidation has occurred or is a distinct possibility. The Court referred the matter to the Committee to consider the Commission’s proposal and to develop a set of rules that would reinstitute the indicting grand jury in Pennsylvania as suggested by the Commission.

The Committee reviewed the history of the indicting grand jury and its evolution in Pennsylvania, examining the constitutional, statutory, and rule provisions, and the case law governing indicting grand juries in Pennsylvania and in other jurisdictions. An initial question raised by the Court was whether the process for reinstating the indicting grand jury could be accomplished by rule or would have to be by statute. After thoroughly reviewing the history of the indicting grand jury and its evolution in Pennsylvania, and the materials prepared by the Commission, the Committee unanimously agreed that the Court, pursuant to its constitutional and statutory authority to prescribe general rules governing practice,

¹ Nancy Phillips, et al., “Witnesses Fear Reprisals, and Cases Crumble—Intimidation On The Streets Is Changing the Way Trials Are Run.” PHILA. INQUIRER, Dec. 14, 2009.

procedure, and conduct of all courts, has the power to reinstitute the indicting grand jury by rule. The Committee therefore proceeded with development of procedural rules to accomplish this as requested by the Court, and is proposing that the Court adopt new Rules of Criminal Procedure 556 through 556.12 that establish the procedures for the judicial districts to resume using the indicting grand jury and that establish the procedures necessary to convene the indicting grand jury, to conduct the grand jury, and to proceed following the grand jury's action. The Committee also is proposing correlative and conforming amendments Rules of Criminal Procedure 103, 540, 544, 547, 560, 646, 1003, and 1101 and revisions of the Comments to Rules of Criminal Procedure 542, 573, 578, 582, and 648. The proposed new procedures, as much as possible, incorporate the procedures recommended by the Commission, the procedures from the current investigating grand jury rules, Rules 220—231, and the former indicting grand jury rules, former Rules 200—224.

II. Discussion of Rule Changes

Placement of New Rules

When initially considering the placement of the new indicting grand jury rules, it was thought that the rules just would be re-inserted into the same chapter of the rules where the indicting grand jury rules were prior to being rescinded—then-Chapter 200 (Grand Jury, Indictment, and Information). However, since the time when the indicting grand jury rules were rescinded, the Criminal Rules have been reorganized and renumbered, and there no longer is a chapter comparable to former Chapter 200.² In the current rules, Chapter 200 deals only with investigations and includes the search warrant and investigating grand jury rules. The rules governing preliminary hearings are in Chapter 5, Part D (Proceedings in Court Cases Before Issuing Authorities) and the rules governing informations, formerly in Chapter 2, are now in Chapter 5 Part E (Procedures Following a Case Held for Court). Sequentially, the indicting grand jury procedures come after the rules governing preliminary hearings and before the procedures for when a case is held for court. In view of this, the Committee is proposing that a separate Part be added to Chapter 5 that would be dedicated to the indicting grand jury procedures. This separate Part would be new Part E (Indicting Grand Jury) and begin with Rule 556.³ Because of the dearth of available numbers in this chapter, although not a preferred method for numbering the Criminal Rules but a less confusing option than renumbering all the rules in Chapter 5, all the new rules in Part E will fall under Rule 556, and the next rules in the sequence would be Rule 556.1 *etc.*

Resumption of Using Indicting Grand Jury

In 1973, Article I § 10 of the Pennsylvania Constitution (Initiation of criminal proceedings; twice in jeopardy; eminent domain) was amended to provide “each of the several courts of common pleas may, with the approval of the Supreme Court, provide for the initiation of criminal proceedings therein by information filed in the manner provided by law.” The implementing statute, Act 238 of 1974,⁴ and the Criminal Rules establishing the procedures for the use of informations in judicial districts that had received approval from the Court to proceed by information instead of indicting grand jury were adopted in 1974.

² See 30 Pa.B. 1478 (March 18, 2000).

³ This will necessitate re-naming current Parts E and F.

⁴ The Act 238, which initially was in Title 17, sections 271—276, was repealed in 1978 as part of the Judiciary Act Repealer Act and replaced and amended by 42 Pa.C.S. § 8931.

In 1991, the Supreme Court approved the request of the last court of common pleas to abolish the indicting grand jury,⁵ and directed the Committee to develop rules providing for the rescission of the indicting grand jury rules. On August 12, 1993, effective September 1, 1993, the Court adopted the Committee's proposal for the rescission of the indicting grand jury and indictment rules as no longer necessary, and for correlative changes to other rules necessitated by the rescission.⁶

The Committee believes that, because the Supreme Court was constitutionally required to approve the judicial districts' request to proceed by information instead of indictment, which effectively rescinded the indicting grand jury, before a judicial district may resume using the indicting grand jury, the judicial district would have to receive the approval of the Supreme Court.

The Committee initially considered requiring the individual judicial districts to petition the Court for permission to reinstitute the indicting grand jury, similar to the petition procedure used when the judicial districts requested permission to proceed by information. Procedurally, however, such a procedure seemed to be overly complex, time consuming, and potentially confusing. Alternatively, the Committee agreed that the best way to accomplish the reinstatement of the indicting grand jury would be for the Supreme Court, correlatively with adopting procedural rules governing indicting grand jury rules, to issue an administrative order permitting any judicial district to resume using the indicting grand jury subject to the provisions of the indicting grand jury rules. Accordingly, the Committee plans on proposing this to the Court when it submits the proposal for the new indicting grand jury rules. If the Court adopts the rules and issues such an administrative order, the administrative order would be referenced in the Comment to proposed new Rule 556.

Scope of Indicting Grand Jury Authority: Proposed New Rule 556

The Committee discussed how broad the jurisdiction of the indicting grand juries should be and whether the scope should be expanded beyond the cases in which witness intimidation is at issue. There were a number of different opinions expressed by the Committee about whether and in what manner the use of the indicting grand jury should be limited. After considering various approaches, the Committee ultimately agreed that, as a first step for bringing back the indicting grand jury the new procedures should be narrowly drafted. Adding to this determination was the fact that indicting grand juries had not been used in Pennsylvania for more than eighteen years and the new proposals would not provide for a preliminary hearing procedure following indictment as was the case in the previous practice.

Accordingly, proposed new Rule 556 (Indicting Grand Jury) permits the judicial districts to proceed by indicting grand jury as provided by the rules but only in cases in which witness intimidation has occurred, is occurring, or is likely to occur.

Proposed Rule 556.1 (Summoning Panels of Grand Jurors)

Rule 556.1 sets forth the procedures for summoning an indicting grand jury. When a judicial district elects to proceed with the indicting grand jury, the president judge, or the president judge's designee, must order that one or more panels be summoned. The Committee noted that the judicial districts that choose to use the indicting

⁵ Bedford County Court of Common Pleas.

⁶ See 22 Pa.B. 3826 (July 25, 1992).

grand jury may want to have a standing grand jury for that purpose, and agreed that should be permitted in the rule.

In addition, the Committee discussed whether judicial districts with sitting investigating grand juries could order the investigating grand jury to sit as an indicting grand jury reasoning that permitting this dual function would promote judicial economy. From research into this question, we learned that several other jurisdictions provide for this by rule or statute, and agreed that the rules should permit this in Pennsylvania. To accommodate a sitting investigating grand jury sitting as an indicting grand jury, to the extent possible, the proposed new procedures for the indicting grand jury, including the procedures for summoning, are the same as the procedures for the investigating grand jury.⁷

By permitting the investigating grand jury to sit as an indicting grand jury, the rules create an inconsistency with the provision of Section 4548(c) of the Investigating Grand Jury Act, 42 Pa.C.S. § 4548(c) (Other Powers), that provides, *inter alia*, “[e]xcept for the power to indict, the investigating grand jury shall have every power available to any other grand jury in the Commonwealth,” and, unless addressed, may cause confusion for the bench and bar. Because of the benefits of permitting the investigating grand jury to sit as an indicting grand jury, the proposal includes the recommendation that 42 Pa.C.S. § 4548(c) be suspended but only insofar as it is inconsistent with Rule 556.1(A). To accomplish this, the Rule 556.1 Comment includes a paragraph explaining the suspension and referring to Rule 1101. Rule 1101 would be amended to provide for the suspension.

When an investigating grand jury sits as an indicting grand jury, there should not be an overlap of functions. However, there may be situations in which there has been a crime but the Commonwealth does not know who did it and submits the case to the investigating grand jury. The investigating grand jury gathers information during its investigation of the crime and learns the identity of the perpetrator. The attorney for the Commonwealth then determines the crime is one in which there is intimidation and submits the case to the indicting grand jury, which, in this case, is the same body as the investigating grand jury. In this situation, it makes sense to permit the incorporation of the evidence presented to the grand jury during the investigation for the grand jury’s consideration when it is sitting as the indicting grand jury. The Comment explains that the rule does not prevent the investigating grand jury when sitting as an indicting grand jury from considering the evidence already presented to it.

Proposed Rule 556.2 (Proceeding by Indicting Grand Jury without Preliminary Hearing)

Rule 556.2 sets forth the new procedures for either proceeding to an indicting grand jury or proceeding to a preliminary hearing. To proceed to an indicting grand jury, the attorney for the Commonwealth must file a motion setting forth facts that show that witness intimidation has occurred, is occurring, or is likely to occur. This fact-based motion procedure provides the judge with an opportunity to decline to grant the motion but only if the attorney for the Commonwealth does not make out sufficient facts about the witness intimidation. However, if the judge finds the motion is sufficient, he or she must grant the motion.

⁷ This reasoning also applies to the inclusion of the procedures from the investigating grand jury rules in proposed new Rules 556.3, 556.5, 556.6, 556.7, 556.8, 556.9, and 556.10.

The motion is made *ex parte* to the president judge, or the president judge’s designee. In most cases, the Committee anticipates that the judge designated to receive these motions also will be the judge designated to supervise the grand jury. If the judge grants the motion, the judge shall seal the motion and order granting the motion, and the attorney for the Commonwealth shall file both with the clerk of courts. In addition, concurrently with granting the motion, the judge must notify the proper issuing authority that the attorney for the Commonwealth’s motion has been granted thereby providing notice that the preliminary hearing must be stayed.

Procedurally, all court cases will continue to be instituted by the filing of a complaint or an arrest without a warrant, the preliminary arraignments will be conducted by the proper issuing authority, and the preliminary hearing initially will be scheduled by the issuing authority. When the attorney for the Commonwealth is proceeding to an indicting grand jury instead of to a preliminary hearing, because the case has not been held for court, and because, until the grand jury proceeding actually is held, the possibility that a preliminary hearing will have to be held remains, the Committee is proposing that the case remain open in the proper issuing authority’s office. Proposed new Rule 556.11, explained in more detail below, sets forth the procedures for maintaining the case before the magisterial district judge when the case is submitted to the grand jury.

The proposal also permits the defendant to waive the grand jury proceedings in the same manner that he or she may waive the preliminary hearing, but only with the consent of the Commonwealth. The consent of the Commonwealth requirement was added because there may be situations in which the Commonwealth will want to memorialize a witness’s testimony on the record particularly when there is witness intimidation. Paragraph (C) of this rule and new Rule 556.12 provide for the waiver.

Proposed Rule 556.3 (Composition and Organization of the Indicting Grand Jury)

Rule 556.3 incorporates most of the procedures for the composition and organization of the indicting grand jury as are set forth in Rule 222 for the investigating grand jury because the investigating grand jury also may be sitting as the indicting grand jury. The Committee is proposing some organizational changes to paragraph (B) to make the rule clearer with regard to the manner of selection.

Proposed Rule 556.4 (Objections to Grand Jury and Grand Jurors; Motion to Dismiss)

Rule 556.4 is taken from former Criminal Rule 203. During discussions of these procedures, questions arose about the procedures for challenging the array of the grand jury and whether such challenges have a constitutional basis. Research revealed that the right to challenge the array is a common law right and that some of the challenges, such as those based on race or gender, are constitutional challenges. *Commonwealth v. Dessus*, 423 Pa. 177, 224 A.2d 188 (1966), cited in the former indicting grand jury rules, and other early Pennsylvania cases that recognize the right to challenge the array appear to still be good law. In view of this research, proposed new Rule 556.4 incorporates procedures for challenging the array. The rule also sets forth the procedures for filing a motion to dismiss the indictment.

The former rules provided that the motion to dismiss an indictment should be made as part of the omnibus pretrial motion. This provision was deleted from the rules

when the indicting grand jury rules were rescinded. With the reinstatement of the indicting grand jury, the new procedures incorporate this previous procedure. In addition, the challenge to the array also would be made as part of the omnibus pretrial motion. Rule 556.4(C) spells out these requirements and the Comment to Rule 578 would be revised to add challenges to the array and motions to dismiss to the list of matters that should be included in the omnibus pretrial motion.

One concern raised throughout the Committee's discussions was the importance of protecting a defendant's right to *habeas corpus* proceedings when there has been an indicting grand jury proceeding. To ensure that the procedures in Rule 556.4 are not read as limiting this right, the Rule 556.4 Comment includes a cautionary provision explaining that "nothing in the rule limits the availability of *habeas corpus* proceedings as provided by law."

A last point with reference to challenges to the array and motions to dismiss relates to the defendant's access to information concerning the indicting grand jury prior to the grand jury proceedings. Providing for these challenges and motions in the rules does not give the defendant a right to participate in the process prior to an indictment, see, e.g., *Commonwealth v. Dessus, supra*. In recognition of the special nature of these indicting grand juries because of witness intimidation and the fact that indicting grand juries have not been in existence in Pennsylvania for over 18 years, the Comment provides clarification by explaining "nothing in this rule is intended to require notice to defendant of the time and place of the impaneling of a grand jury, or to give the defendant the right to be present for the selection of the grand jury."

Proposed Rule 556.5 (Duration of Indicting Grand Jury)

Rule 556.5 is consistent with 42 Pa.C.S. § 4546 (Term of Investigating Grand Jury) but leaves the duration to the discretion of the judge with the outside limit of 18 months. Although the Committee believes the indicting grand jury proceedings under these new rules ordinarily will be relatively brief, and therefore it might not be necessary to provide for an extension mechanism, because the goal is to have the new procedures for the indicting grand jury be the same as the procedures for the investigating grand jury, Rule 556.5 includes, as much as possible, the same detailed procedures for the extension of and early termination of the grand jury that are applicable in investigating grand jury proceedings.

Proposed Rules 556.6 (Administering Oath to Grand Jury and Foreperson) and 556.7 (Administration of Oath to Witnesses; Court Personnel)

The provisions in Rules 556.6 and 556.7 are taken from former Criminal Rules 206 and 207 and Criminal Rules 223, 223, and 225. The supervising judge would be required to administer the oath to the foreperson, the deputy foreperson, and the other grand jurors. This provision is taken from the rescinded rules and includes the text of the oaths that is required to be administered. The oaths to the witnesses and court personnel would be administered by the foreperson, or deputy foreperson, and the text of the oaths are taken from the investigating grand jury rules.

Proposed Rule 556.8 (Recording of Testimony Before Indicting Grand Jury)

Rule 556.8 provides for the recording of the grand jury proceedings other than deliberations and voting and is taken from Criminal Rules 228 and 229. The rescinded

indicting grand jury rules prohibited the recording of the proceedings. The Committee agreed to follow the procedure in the investigating grand jury rules, as well as a number of states, to ensure there is a record should there be a need to review the grand jury proceedings. The supervising judge would maintain control of the recordings and the transcript, as well as, of any physical evidence introduced during the proceedings. In addition, the rule provides for the destruction of the transcript if no indictment is returned, except for good cause. "Good cause" would include, for example, the prosecution of a witness for perjury.

Proposed Rule 556.9 (Who May be Present During Sessions of Indicting Grand Jury)

Rule 556.9 is taken from Criminal Rule 231. In considering the provisions of Rule 231, whether a witness may disclose his or her testimony was discussed in view of the provisions of 42 Pa.C.S. § 4549(d) that provides for a witness to disclose his or her grand jury testimony. Because any case before the indicting grand jury under these new rules involves witness intimidation and permitting a witness to disclose his or her testimony could be dangerous, there are different considerations for these witnesses than for witnesses before the investigating grand jury. In view of this, Rule 556.9 provides that the indicting grand jury witness may not disclose his or her testimony unless the witness has received the supervising judge's permission to do so. This variation between the investigating grand jury procedures and the indicting grand jury procedures is explained in the Comment.

The Committee also considered the procedures in other jurisdictions for permitting witnesses to testify using two-way simultaneous audio-visual communication. Although the Committee does not believe the rules should mandate this procedure, it agreed there would be no reason not to permit such testimony with the approval of the supervising judge. A paragraph explaining this is included in the Comment.

Proposed Rule 556.10 (Secrecy; Disclosure)

Rule 556.10 is taken from Criminal Rule 230 and provides the procedures for maintaining the secrecy of the grand jury proceedings, paragraph (A), and for the disclosure, paragraph (B).

Paragraph (A) requires that all evidence is subject to grand jury secrecy and any violation may be subject to contempt.

Paragraph (B)(1) provides that the supervising judge must provide the attorney for the Commonwealth with a copy of the transcript of the grand jury proceeding for the attorney's official duties.

Paragraph (B)(2) provides that the transcript of a witness's testimony be furnished to the defendant but only after the direct testimony of the witness at trial. This limitation on disclosure was a concern for the Committee. We explored various options for the time for pretrial discovery taking into consideration the concerns about witness intimidation as well as the defendant's need to have adequate time to review the discovery to prepare for the trial. The proposal is that rule would provide that the pretrial discovery would be 30 days before the commencement of trial with a provision for the attorney for the Commonwealth to request a delay in discovery when the need arises. The Comment explains that the court should grant a continuance to the defendant when he or she needs more time to review the

materials. The Comment also includes an explanation of what constitutes the “commencement of trial” using the provisions from Rule 600.

Another issue discussed concerned whether a defendant may testify before the indicting grand jury, noting that Rule 230(B)(1) suggests that the defendant may testify before the investigating grand jury, and that other jurisdictions provide for the defendant’s testimony. The Committee agreed the rules should not address this issue, but reasoned that leaving the rule silent did not prevent a defendant from asking to testify. However, the Committee decided to include language comparable to Rule 230(B)(1) in Rule 556.10 to ensure that any defendant who is permitted to testify before the indicting grand jury would be entitled to a copy of the transcript of his or her testimony. They were concerned that if the language was omitted from Rule 556.10 then it might be construed as prohibiting the defendant’s right to the transcript and that would create due process issues.

Proposed Rule 556.11 (Grand Jury Authority and Action)

Although Rule 556.11 is taken from former Criminal Rule 210, the new rule sets forth a completely new concept for the proceedings related to the indicting grand jury’s actions and for how the case is handled while remaining with the issuing authority. Under the former indicting grand jury procedures, after a defendant was held for court following a preliminary hearing, the attorney for the Commonwealth would prepare a bill of indictment and submit that to the indicting grand jury. If the indicting grand jury, after considering the bill of indictment, voted to indict, the attorney for the Commonwealth would prepare the indictment and file it in the court of common pleas and the case would proceed to an arraignment. Under the proposed new procedures:

(1) The case would remain open in the magisterial district court until the grand jury acts to either indict the defendant (holds the case for court), or declines to indict. The issuing authority would forward the case to the clerk of courts pursuant to Rule 547 after the grand jury indicts in the same way he or she forwards a case after a case is held for court following a preliminary hearing.

(2) When the issuing authority receives notice from the president judge that the case is being presented to an indicting grand jury, the issuing authority is required to cancel the preliminary hearing. To provide a means to monitor the case while the proceedings are before the indicting grand jury, the rule would require the issuing authority to conduct status hearings every 30 days until the grand jury acts.

(3) To simplify the post-indictment procedures and to keep them more in line with the post-preliminary hearing procedures, the function of the grand jury’s indictment would be changed from the charging document that was comparable to an information to a notice-type document that sets forth the charges held for court by the grand jury and authorizes the attorney for the Commonwealth to file an information. Thereafter, the attorney for the Commonwealth would proceed in the same manner as he or she would proceed after a case is held for court following a preliminary hearing.

(4) If the grand jury declines to indict, the supervising judge must dismiss the complaint and the attorney for the Commonwealth may re-file pursuant to Rule 544.

Proposed Rule 556.12. (Waiver of Grand Jury Action)

Rule 556.12 sets forth the procedures for the waiver of the grand jury proceedings. The procedures are comparable to the procedures for waiving the preliminary hearing but, as explained above, require the consent of the attorney for the Commonwealth. In addition, the supervising judge has to approve the waiver.

Conforming Changes to Rules 103, 540, 542, 544, 547, 560, 573, 578, 582, 646, 648, and 1003

The Committee also is proposing conforming changes to Rules 103, 540, 542, 544, 547, 560, 573, 578, 582, 646, 648, and 1003. Except for the changes described below, the conforming changes merely add references to the new indicting grand jury procedures.

Rule 103 would be amended to change the definition of “indictment” from “a bill of indictment which has been approved by a grand jury and properly returned to court, or which has been endorsed with a waiver as provided in former Rule 215” to “the instrument holding the defendant for court after a grand jury votes to indict and authorizing the attorney for the Commonwealth to prepare an information” to conform with the proposal that when an indicting grand jury votes to indict the defendant, the attorney for the Commonwealth proceeds by filing an information as set forth in the rules. The definition of “information” also would be amended to make it clear that an information is presented to the court by the attorney for the Commonwealth when the defendant is held for court or waives the preliminary hearing or a grand jury proceeding. The Rule 103 Comment further clarifies the new function of the “indictment” under the indicting grand jury rules.

Rule 540(F) includes, as an exception to when an issuing authority would set the date for the preliminary hearing, the situation when the attorney for the Commonwealth is presenting the case to an indicting grand jury. Paragraph (F)(3) would be amended to extend the time for conducting the preliminary hearing from 3 to 10 days after the preliminary arraignment to 14 to 21 days after the preliminary arraignment to accommodate the timing for proceeding to an indicting grand jury depending on whether or not the defendant is in custody.

Rule 544(A) would be amended to add when the indicting grand jury declines to indict a defendant as a situation when the attorney for the Commonwealth may re-file the charges.

Rule 547(A) would be amended by adding “either following a preliminary hearing or an indictment by a grand jury” after “When a defendant is held for court” to include the action by the grand jury into the rule requirement for when an issuing authority must prepare a transcript of the proceedings to send to the court of common pleas. Similarly, paragraph (C) would be amended by the addition of a new paragraph (7) that requires a copy of the indictment to be forwarded with the transcript.

Rule 560(A) would be amended by adding the issuance of an indictment to when an information is to be prepared by the attorney for the Commonwealth.

The Rule 578 Comment would be amended to add “or dismiss” in paragraph (5) to make it clear that a motion to dismiss an information is to be included in the

omnibus pretrial motion and to add a new paragraph (10) providing that a challenge to the array of an indicting grand jury ordinarily would be made as part of the omnibus pretrial motion.

The amendment to Rule 646(C)(3) adding “indictment” is a corrective amendment referring to indictments under the former indicting grand jury rules that were rescinded in 1993 as explained further in the Comment.

Rule 1003(D)(3)(d)(iii) would be amended by adding an “unless” clause comparable to the “unless” clause in Rule 540(F), and explains that the Municipal Court judge must inform the defendant of the preliminary hearing unless the preliminary hearing is waived or the case is being presented to an indicting grand jury.

As explained more fully in the discussion of proposed new Rule 556.1, Rule 1101 would be amended to include the suspension of 42 Pa.C.S. § 4548(c) but only insofar as the statute is inconsistent with the provisions of Rule 556.1 that permit an investigating grand jury to also sit as an indicting grand jury.

DISCIPLINARY BOARD OF THE SUPREME COURT

Notice of Suspension

Notice is hereby given that Kurt D. Mitchell having been suspended from the practice of law in the State of Florida for a period of 10 days by Order of the Supreme Court of Florida dated October 5, 2010; the Supreme Court of Pennsylvania issued an Order dated September 26, 2011, suspending Kurt D. Mitchell from the practice of law in this Commonwealth for a period of 10 days. In accordance with Rule 217(f), Pa.R.D.E., since this formerly admitted attorney resides outside the Commonwealth of Pennsylvania, this notice is published in the *Pennsylvania Bulletin*.

PROPOSED RULEMAKINGS

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 69]

Fishing; Lake Erie and Boundary Lakes

The Fish and Boat Commission (Commission) proposes to amend Chapter 69 (relating to fishing in Lake Erie and boundary lakes). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. *Effective Date*

The proposed rulemaking, if adopted on final-form, will go into effect on January 1, 2012, or upon publication in the *Pennsylvania Bulletin*, whichever occurs later.

B. *Contact Person*

For further information on the proposed rulemaking, contact Wayne Melnick, Esq., P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. *Statutory Authority*

The proposed amendments to §§ 69.11 and 69.12 (relating to applicability of fishing regulations; and seasons, sizes and creel limits—Lake Erie, Lake Erie tributaries and Presque Isle Bay including peninsula waters) and proposed §§ 69.12b and 69.19 (relating to Lake Erie walleye and yellow perch adaptive management for establishing daily limits; and permits for the use of cast nets, throw nets or dip nets by sport anglers) are published under the statutory authority of section 2102 of the code (relating to rules and regulations). The proposed amendments to §§ 69.21, 69.22, 69.23, 69.26, 69.33, 69.35, 69.37 and 69.39 are published under the statutory authority of 2903 of the code (relating to boat and net licenses for boundary lakes).

D. *Purpose and Background*

The proposed rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the proposed rulemaking is described in more detail under the summary of proposals.

E. *Summary of Proposals*

(1) The Lake Erie Committee (LEC) is a convening body consisting of fisheries managers from Pennsylvania, Ohio, New York, Michigan and Ontario, Canada, operating under the auspices of the Great Lakes Fishery Commission. Critical management issues regarding Lake Erie fisheries are discussed and decisions are derived through consensus among the members in the best interest of the resource. One major responsibility of the LEC is to set annual Lakewide harvest limits (quotas) for walleye and yellow perch in the form of a Total Allow Catch (TAC) for these species.

Annually, a range (minimum, mean and maximum) of recommended allowable harvests (RAH) for walleye and perch are generated by agency biologists that serve on technical task groups, the Walleye Task Group (WTG) and the Yellow Perch Task Group (YPTG). A compilation of assessment and fishery survey data from across Lake Erie are used to generate population estimates of perch

and walleye utilizing state-of-the-art catch-at-age models. Based on these abundance estimates, the RAHs are calculated by the WTG and YPTG and forwarded to the LEC to provide safe guidelines in establishing the annual TAC. Each March, the LEC reviews the RAH of the WTG and YPTG and sets the TAC for yellow perch and walleye based on a set of biological and social metrics.

After the TAC is established, individual harvest limits for each state (and Ontario) are apportioned based on the percentage of Lake Erie owned by each jurisdiction. It is the responsibility of each fisheries management agency to ensure that local TACs are not exceeded. These harvest controls are usually met through regional commercial quotas and angling regulations (creel limits, minimum size limits and closed seasons).

A challenge for the state fisheries agencies is applying angling regulations in a timely manner, synchronized with the condition of fish stocks. Because regulatory change is typically a lengthy process, harvest regulation changes cannot usually be applied in ample time to provide for effective control. Another issue is the application of analogous sport harvest regulations across jurisdictions. Many anglers believe that when more conservative or liberal regulations are appropriate, they should be applied across the board, effectively sharing in both the pain and the bounty. Ohio implemented this strategy in 2010, Michigan in 2011 and New York expects to adopt a proposal in 2012. The flexibility of being able to apply creel limits in April, before the onset of each fishing season (similar to setting commercial quotas), will align the harvest controls (regulations) with the condition of the stocks and establish fishing regulations similarly across jurisdictions.

The Commission therefore proposes to amend §§ 69.11 and 69.12 and add § 69.12b to read as set forth in Annex A. The proposed amendments to §§ 69.11 and 69.12(c)(4) and (f) are housekeeping changes. The other proposed amendments to § 69.12(f) and the proposed addition of § 69.12b implement the adaptive management approach to establishing daily limits for walleye and yellow perch.

(2) The discovery of viral hemorrhagic septicemia (VHS) in the Great Lakes watershed resulted in the creation of Federal and State regulations intended to contain the disease within the Great Lakes. The United States Department of Agriculture—Animal Plant Health Inspection Service prohibits the interstate transport of 37 VHS susceptible fish species, unless they are determined to be VHS free based on analysis from a certified laboratory. Similar regulations imposed by the Department of Agriculture and the Commission prohibit the transport of 27 of these species outside of the Great Lakes watershed (10 of these species are marine or not found in the Great Lakes). Among the VHS susceptible species listed are emerald and spottail shiners, which are popular baitfish preferred by Lake Erie yellow perch anglers. These restrictions have resulted in limited availability and significant increases in the cost of these species at local bait shops. In response, the sportsmen's group SONS of Lake Erie has requested that harvest limits of emerald shiners be increased from 50 per day to 150 per day.

The Commission identified two concerns with this request: 1) the formation of entitlement regulations unique to Lake Erie; and 2) protest by the Commonwealth's Lake Erie commercial seine fishery, which pays for a license that allows for the harvest and sale of baitfish. Upon review, the Commission determined that this issue could be best addressed by implementing a cast/throw net permit similar to the permit system currently in place on Blue Marsh Lake, Nockamixon Lake, Beltzville Lake, Raystown Lake, Lake Wallenpaupack, Lake Arthur and Shenango River Lake that allows for the harvest of certain baitfish (gizzard shad or alewife) in excess of the creel limit of 50 per day provided under the general fishing regulations. Including Lake Erie under this permit system will not provide a special privilege to Lake Erie anglers in the form of enhanced baitfish harvest limits beyond what is allowed in other areas of this Commonwealth. In addition, it will address possible opposition by commercial seine operators because anglers will also be paying for the opportunity to harvest additional shiners. The Commission therefore proposes that § 69.19 be added to read as set forth in Annex A.

(3) Related to the inadequate supply of shiners is the limited availability of commercial seine licenses for Lake Erie. Since 2007, there have been numerous requests for commercial seine licenses that have not been granted due to regulatory constraints limiting the availability of seine licenses. Currently, there are only ten seine licenses available, which are held by six individuals (one individual holds three licenses, two individuals hold two licenses and three individuals hold one license). Seine licenses are assigned to an individual net, which sometimes results in multiple licenses per applicant.

The impact of this fishery on shiner populations has been minimal. Harvest by the existing commercial seine fishery has averaged about 5,700 pounds annually since 1987, representing less than 2% of the total biomass estimates from assessment trawls conducted by the Commission's Lake Erie Research Unit. Harvest can fluctuate significantly and is correlated to the abundance of the population.

Harvest has steadily increased in the last 3 years and peaked at 17,673 pounds in 2010, coinciding with prodigious increases in emerald shiner abundance and demand for this popular baitfish by perch anglers during this same time period.

Increasing the number of available seine licenses in § 69.21 (relating to limitations on number and types of commercial licenses) from 10 to 40 should increase the local availability of shiners and help control the escalating cost of baitfish while having no measurable impact on shiner populations. Moreover, limiting the commercial harvest to emerald and spottail shiners, gizzard shad and alewife in § 69.35 (relating to use of commercial seines) will reduce the potential of accidental introduction of exotic species (that is, round gobies) by means of feral baitfish collections. The Commission therefore proposes that §§ 69.21 and 69.35 be amended to read as set forth in Annex A.

In addition, the Commission conducted a comprehensive review of Chapter 69, Subchapters C and D (relating to commercial fishing licenses; and commercial fishing, seasons and nets) and proposes amendments to other commercial fishing regulations. The Commission proposes that §§ 69.22, 69.23, 69.26, 69.33, 69.37 and 69.39 be amended to read as set forth in Annex A.

F. Paperwork

The proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The proposed rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will not impose new costs on the private sector or the general public. However, under section 2902 of the code (relating to net permits), the fee for net permits is \$10. Therefore, Lake Erie anglers wishing to take advantage of the new permit for the use of cast nets, throw nets or dip nets under proposed § 69.19 will be charged that fee. The Commission estimates that it will initially issue approximately 200 permits under proposed § 69.19 each year. The Commission expects that number to increase over time.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 30 days after publication in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

JOHN A. ARWAY,
Executive Director

Fiscal Note: 48A-232. No fiscal impact; (8) recommends adoption.

Annex A

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart B. FISHING

CHAPTER 69. FISHING IN LAKE ERIE AND BOUNDARY LAKES

Subchapter B. SPORT FISHING AND ANGLING

§ 69.11. Applicability of fishing regulations.

Except as otherwise provided in this subchapter, this subpart applies to fish and sport fishing in Lake Erie [and its], Lake Erie tributaries and Presque Isle Bay, including peninsula waters.

§ 69.12. Seasons, sizes and creel limits—Lake Erie [and], Lake Erie tributaries and Presque Isle Bay including peninsula waters.

* * * * *

(c) It is unlawful to take, catch or kill more than 1 day's limit of any species of fish as specified in the following chart during 1-calendar day. It is unlawful to possess more than 1 day's limit of any species of fish as specified in the following chart except under the following circumstances:

* * * * *

(4) A fish caught that is not to be counted in the creel limit shall be immediately released unharmed into the water from which taken. **A fish that is injured or is bleeding as a result of being caught will not be**

considered unharmed and will be considered as part of a daily creel or possession limits. Except as otherwise provided in § 53.24 or § 63.40 (relating to tournament and fishing derby permits; and fishing tournament and fishing derbies), a fish placed on a stringer, or confined by any type of container, structure or device, or not returned immediately to the water, will be considered as part of the daily creel or possession limits. Fish

returned to the water shall be handled carefully and be returned unharmed to the water from which taken.

* * * * *

(f) Subject to the provisions of subsections (d) and (e), the following seasons, sizes and creel limits apply to Lake Erie, Lake Erie tributaries and Presque Isle Bay, including peninsula waters:

SPECIES	SEASONS	MINIMUM SIZE	DAILY LIMIT
	* * * * *		
WALLEYE	January 1 to midnight March [15] 14 and [12:01 a.m. the first Saturday in] May 1 to December 31.	15 inches	[6] Established annually by April 15*

	* * * * *		

* * * * *

****See § 69.12b (relating to Lake Erie walleye and yellow perch adaptive management for establishing daily limits). After the Executive Director establishes the daily limit for the year, the information will be posted on the Commission’s web site and available from any Commission office.**

(Editor’s Note: Sections 69.12b and 19 are new and printed in regular type to enhance readability.)

§ 69.12b. Lake Erie walleye and yellow perch adaptive management for establishing daily limits.

The Executive Director or a designee will monitor the walleye and yellow perch populations in Lake Erie taking into account commercial and recreational harvest. Based on that information, the Executive Director will establish daily limits for walleye and yellow perch that are necessary and appropriate for the better protection and management of the fishery. The Executive Director will establish the daily limits for walleye and yellow perch each year and announce them on or before April 15. In any given year, the Executive Director may revise the daily limit for walleye or yellow perch if the Executive Director determines that conditions warrant a revision. The daily limits will remain in effect until the Executive Director establishes new daily limits. Anglers are responsible for obtaining the current daily limits for walleye and yellow perch on Lake Erie including Presque Isle Bay prior to fishing those waters.

§ 69.19. Permit for the use of cast nets, throw nets or dip nets by sport anglers.

(a) The Executive Director or a designee may issue permits for the use of cast nets, throw nets or dip nets for

the taking of emerald shiners or spottail shiners from Lake Erie including Presque Isle Bay.

(b) In addition to other permit conditions that the Executive Director may require, the cast nets or throw nets may not be greater than 10 feet in radius (20 feet in diameter) and the dip nets may not be greater than 10 feet in diameter.

(c) Notwithstanding the provisions in § 69.12 (relating to seasons, sizes and creel limits—Lake Erie, Lake Erie tributaries and Presque Isle Bay including peninsula waters), holders of a permit issued under this section may take, catch, kill or possess a daily creel limit of 200 emerald shiners and spottail shiners (combined species).

(d) A person may apply for a permit for the use of cast nets, throw nets or dip nets by completing the form prescribed by the Commission. The applicant shall submit the completed form to the Commission along with the fee in section 2902 of the code (relating to net permits).

(e) It is unlawful to use cast nets, throw nets or dip nets for the taking of emerald shiners or spottail shiners or to take, catch, kill or possess more than the daily creel limit of emerald shiners or spottail shiners as set forth in § 69.12 without the required permit. A permit for the use of cast nets, throw nets or dip nets shall be carried so that it can be presented to an officer authorized to enforce the code. The permit holder is the only person authorized to use the cast net, throw net or dip net.

(f) It is unlawful to use emerald shiners or spottail shiners taken under a permit for the use of cast nets, throw nets or dip nets as bait in any water other than Lake Erie and Lake Erie tributaries including Presque Isle Bay.

(g) It is unlawful to sell, offer for sale, trade or barter live, dead or preserved emerald shiners or spottail shiners taken under a permit for the use of cast nets, throw nets or dip nets.

(h) It is unlawful to transport or export live, dead or preserved emerald shiners or spottail shiners taken under a permit for the use of cast nets, throw nets or dip nets out of the Lake Erie watershed.

(i) The holder of a permit for the use of cast nets, throw nets or dip nets may possess an unlimited number of preserved emerald shiners or spottail shiners at the permit holder's residence provided the residence is located within the Lake Erie watershed.

(j) It is unlawful for a holder of a permit under this section to use a cast net, throw net or dip net within 100 yards of a holder of a commercial seine license.

(k) It is unlawful for a holder of a permit under this section to use a cast net, throw net or dip net within an area 300 feet from the mouth of any stream or within the confines of a tributary stream to Lake Erie.

(l) It is unlawful for a holder of a permit under this section to use a cast net, throw net or dip net to interfere with sport anglers or boaters.

Subchapter C. COMMERCIAL FISHING LICENSES

§ 69.21. Limitations on number and types of **commercial** licenses.

[(a)] The number and types of commercial fishing licenses for fishing in Lake Erie shall be limited as follows:

(1) Trap nets: Up to three [**individuals**] **applicants** may be licensed to fish up to six trap nets each. Each trap net requires a separate license.

(2) [**Trawls: zero licenses.**

(3)] Seines: [**ten**] **40** licenses. **An applicant may be issued up to three seine licenses in a year. Each seine requires a separate license.**

[(4) **Outlines: zero licenses.**

(b) **Implementation of trap net licenses.** The Executive Director may implement subsection (a)(1), providing for additional trap net licenses, by gradually increasing the number of trap net licenses on an annual basis up to the maximum number of licenses authorized. In making a determination on how many trap net licenses to issue, the Executive Director may consider the available estimates of fish populations and the possible impacts of additional commercial fishing efforts.]

§ 69.22. Applications.

(a) *Renewals.* Licensees applying for renewal of a Lake Erie commercial fishing license shall submit their application on forms provided by the Commission by no later than March [**26**] **1** of the year for which the license is sought. The applicant shall fully and accurately complete the application and provide requested information.

(b) *Nonrenewals.* Applicants for new licenses shall submit their applications on forms provided by the Commission by no later than [**April**] **March** 15 of the year for which the license is sought. Applicants shall fully and accurately complete the application [**form**] and provide requested information. A new license will not be issued until on or after April [**16**] **1**. If there are more

applicants for new licenses than the number of licenses available after renewals have been issued, on or after April [**16**] **1**, the Executive Director will cause a random drawing to be conducted to determine which applicants for new licenses shall be issued these licenses.

(c) *Residency.* Applicants for resident commercial fishing licenses shall submit proof of their residence in this Commonwealth by showing that they paid personal income tax to the Commonwealth for the year prior to the year of application. Proof shall include evidence that the applicant paid resident personal income tax to the Commonwealth and did not pay income tax as a resident of any other state or sovereignty. Applicants for resident commercial licenses shall also submit proof that boats used for fishing in Commonwealth waters of Lake Erie are either registered with the Commonwealth or documented in accordance with **Federal** law. To qualify for a resident license, both the applicant and the principal operators of the gear subject to licensing shall prove to the satisfaction of the Commission that they are bona fide residents of this Commonwealth. The applicant shall submit the names and addresses of all operators of the gear to be licensed, including proof of their residence in this Commonwealth.

* * * * *

§ 69.23. Responsibility of licensees.

* * * * *

(b) [**Licensees**] **Trap net licensees** are personally responsible for, and shall be physically present during, the day-to-day operation of gear licensed under this chapter and section 2903 of the code (relating to boat and net licenses for boundary lakes). Day-to-day operation of gear includes setting, lifting, pulling and cleaning of nets and the sorting and landing of catch. If exigent circumstances preclude the physical presence of the licensee during the day-to-day operation of gear, the licensee shall notify in advance the Northwest Region Law Enforcement Office.

(c) **Seine net licensees are personally responsible for the day-to-day operation of gear licensed under this chapter and section 2903 of the code. The seine net licensee, agent or employee of a licensee may conduct day-to-day operation of the licensed seine net. Day-to-day operation of gear includes setting, pulling and cleaning of the seine net and the sorting and landing of catch.**

(d) A licensee shall prove to the satisfaction of the Commission that the licensee is responsible to carry out the obligations of the license. The proof shall consist of the following:

* * * * *

(2) For the second and [**all**] subsequent years, the **trap net** licensee shall show proof of at least 50 days of commercial fishing **with the licensed gear** in the Commonwealth waters of Lake Erie in the previous year.

(3) **For the second and subsequent years, the seine net licensee shall show proof of at least 10 days of commercial fishing with the licensed gear in the Commonwealth waters of Lake Erie including Presque Isle Bay in the previous year.**

(e) **A licensee that fails to show proof of the required minimum number of days of commercial fishing with the licensed gear may not be eligible for renewal of the license for the next year.**

§ 69.26. Reports.

(e) Information contained in reports submitted under this section may be used for governmental purposes by the Commission and other agencies [**and for reporting catch statistics to the authorized agent of the United States Fish and Wildlife Service**]. Information contained in the reports will not be released to the public without the consent of the licensee except as may be required in compliance actions and prosecutions for violation of reporting requirements or as otherwise required by law.

<i>Species</i>	<i>Size Limit</i>
Yellow perch (<i>Perca flavescens</i>)	None
Walleye (<i>Stizostedion vitreum</i>)	15 inches

* * * * *

(e) **Restricted waters.** The use of trap nets to harvest yellow perch from Lake Erie will be prohibited from an area bound on the west by the 80°00" longitudinal line and on the east at the Commonwealth/New York border (79°45'43") and on the south by the Lake Erie shoreline and on the north by the international border between the Commonwealth and Ontario, Canada.

(f) **Time.** Trap nets may be fished 24 hours a day, but it is unlawful to set or lift them during the period from 30 minutes after sunset to 30 minutes before sunrise. Trap nets may be set or fished, or both, from March 1 to November 30.

[(f)] (g) *Description of trap net.*

* * * * *

(2) A trap net fishing device is designed to catch fish by impoundment[, as opposed to catching fish by entanglement, which is the action by which gill nets capture fish]. Fish caught by impoundment remain alive and swimming for an extended period while confined within the trap net crib. [**Fish caught by entanglement are unable to free themselves of the net, cannot swim freely and cannot be expected to live while entangled in the gear.**] The elements of netting, webbing and twine (thread) size (diameter) used in the construction of a trap net shall be of design and dimension that will discourage, prohibit and preclude the enmeshing and entanglement of fish in the netting of any part of the trap net device. The netting of the crib shall be constructed as a single panel or sheet of webbing. Lawful trap nets may not have liners or covers which would make the external crib webbing two or more sheets in thickness.

* * * * *

[(g)] (h) *Setting or tending trap nets.* A boat engaged in the setting or tending of trap nets shall comply with

Subchapter D. COMMERCIAL FISHING, SEASONS AND NETS

§ 69.33. Use of **commercial** trap nets.

* * * * *

(b) *Species.* A commercial trap net licensee may not possess or sell a fish except in compliance with the following size limits and seasons. The following size limits apply to commercial trap net licensees except that 5% of each licensee's daily catch by number per species may be undersized fish that may be lawfully sold:

Season

No closed season until the total allowable catch is taken. **See § 69.31 (relating to seasons).**

January 1 to March 14 and [**12:01 a.m. the first Saturday in**] May 1 to December 31. This season will close when the total allowable catch for walleye is taken. **See § 69.31.**

Navigation Rule 26 (United States Coast Guard) from the time the boat leaves the dock until it arrives back at the dock.

§ 69.35. [**Seines**] Use of **commercial seines.**

(a) *Species.* It is unlawful to use a seine for commercial fishing in Lake Erie except for the taking of [**minnows and smelt**] **emerald shiners, spottail shiners, gizzard shad and alewife.** There shall be no minimum length or **daily limit** for legal species captured by means of seines.

(b) *Taking shiners, gizzard shad and alewife.* It is unlawful to use a seine for the purpose of taking [**smelt,**] **emerald shiners, [and spot tail] spottail shiners, gizzard shad and alewife** within an area 300 feet from the mouth of any stream or within the confines of a [**stream**] **tributary stream** to Lake Erie.

[58 PA. CODE CH. 71]

Fishing; Propagation and Introduction of Fish into Commonwealth Waters

The Fish and Boat Commission (Commission) proposes to amend Chapter 71 (relating to propagation and introduction of fish into Commonwealth waters). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code). The proposed rulemaking amends and updates the Commission's fishing regulations.

A. Effective Date

The proposed rulemaking, if approved on final-form, will go into effect on January 1, 2012.

B. Contact Person

For further information on the proposed rulemaking, contact Wayne Melnick, Esq., P. O. Box 67000, Harris-

burg, PA 17106-7000, (717) 705-7810. This proposed rulemaking is available on the Commission's web site at www.fish.state.pa.us.

C. Statutory Authority

The proposed amendments to § 71.7 (relating to triploid grass carp) are published under the statutory authority of section 2904 of the code (relating to permits for protection and management of particular fish).

D. Purpose and Background

The proposed rulemaking is designed to improve, enhance and update the Commission's fishing regulations. The specific purpose of the proposed rulemaking is described in more detail under the summary of proposal.

E. Summary of Proposal

Under section 2904 of the code, the Executive Director, with the Commission's approval, may require permits for the taking, catching, killing, possession, introduction, removal, importing, transporting, exporting or disturbing of fish when it is determined that the permits may be needed to insure proper protection and management of any species of fish. This section also authorizes the Commission to establish fees and to promulgate regulations. Under the section, the Commission may not establish a fee in excess of \$5 per permit for trout/salmon permits. There is no other restriction on fees. This section further provides that the Commission may not issue permits under the authority of the section for game fish other than trout or salmon.

Section 71.7 pertains to the possession and introduction of triploid grass carp (white amur). This section provides that permits shall be required for possessing triploid grass carp, introducing them into Commonwealth waters and importing or transporting them into this Commonwealth to provide for proper protection and management of these fish and other fish in the waters of this Commonwealth. A pondowner, landowner or other person who wishes to possess triploid grass carp and introduce them into a pond or waters located on property owned, leased or otherwise controlled by the person shall, before placing triploid grass carp in the waters, obtain a triploid grass carp possession/introduction permit from the Commission. A person who wishes to import triploid grass carp into this Commonwealth shall obtain a triploid grass carp importation/transportation permit from the Commission.

The triploid grass carp program (program) was initiated by the Commission in January 1994. Two types of permits with associated fees were established and those fees are the same today. A triploid grass carp possession/introduction permit is \$20. A triploid grass carp importation/transportation permit is \$50.

For bodies of water that are more than 5 acres in surface area or are considered to be of special concern, an applicant is required to submit an environmental inspection report prepared by a biologist or fisheries or environmental scientist acceptable to the Commission. This is a detailed report that requires personal inspection of the body of water. Currently, § 71.7 states that the applicant may request the Commission to conduct the inspection and prepare the report upon payment of a \$200 fee. Today, this fee would not begin to cover costs that would be incurred by staff to perform an environmental inspection of a large body of water or a water of special concern.

The Aquatic Resource Section within the Commission's Bureau of Fisheries, Division of Environmental Services, administers the program. Administering the program

requires staff to review permit applications, maintain a database, process and approve the permits. Reviewing the applications requires a technical review, some field views and clerical support.

In 2010, the Commission issued 307 triploid grass carp permits and in the past 5 years approximately 1,700 triploid grass carp permits have been issued by the Commission. Staff time spent reviewing and processing triploid grass carp permits costs approximately \$75 per permit. The Commission therefore proposes to increase the fees in § 71.7 to \$75 to help offset inflation and increasing program costs and to remove the option for applicants to request the Commission to perform the environmental inspection for a \$200 fee. The Commission proposes that § 71.7 be amended to read as set forth in Annex A.

F. Paperwork

The proposed rulemaking will not increase paperwork and will not create new paperwork requirements.

G. Fiscal Impact

The proposed rulemaking will not have adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking, however, will impose new costs on the private sector and the general public. The current fees for a triploid grass carp possession/introduction permit and an importation/transportation permit are \$20 and \$50, respectively. The Commission proposes to increase the fee for both permit types to \$75. These fee increases will affect the applicants for the approximately 300 to 400 permits that the Commission issues per year.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 30 days after publication in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically by completing the form at www.fishandboat.com/regcomments. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt. Electronic comments submitted in any other manner will not be accepted.

JOHN A. ARWAY,
Executive Director

Fiscal Note: 48A-231. No fiscal impact; (8) recommends adoption.

TITLE 58. RECREATION

PART II. FISH AND BOAT COMMISSION

Subpart B. FISHING

CHAPTER 71. PROPAGATION AND INTRODUCTION OF FISH INTO COMMONWEALTH WATERS

§ 71.7. Triploid grass carp.

* * * * *

(c) *Permit required.*

(1) The Commission finds, under section 2904 of the code (relating to permits for protection and management of particular fish), that permits shall be required for possessing triploid grass carp (white amur) or introducing them into Commonwealth waters and for importing or transporting triploid grass carp into this Commonwealth to provide for proper protection and management of these fish and other fish in the waters of this Commonwealth. A pondowner, landowner or other person who wishes to possess triploid grass carp and introduce them into a pond or waters located on property owned, leased or otherwise controlled by the person shall, before placing triploid grass carp in the waters, obtain from the Commission a triploid grass carp possession/introduction permit for a fee of [\$20] \$75. A person who wishes to import triploid grass carp into this Commonwealth shall, before doing so, obtain from the Commission a triploid grass carp importation/transportation permit for a fee of [\$50] \$75. Permits shall be applied for on forms supplied by the Commission. Applications for permits may be obtained from: Triploid Grass Carp Manager, Bureau of Fisheries, 450 Robinson Lane, Bellefonte, PA 16823-9616. Permits will not be issued until after January 1, 1994.

* * * * *

(e) *Restrictions on introduction of triploid grass carp.*

* * * * *

[(6) When an applicant for a triploid grass carp permit is required to submit an environmental inspection report, the applicant may request the Commission to conduct the inspection and prepare the report upon payment of a fee of \$200.]

APPLICATIONS

THE CLEAN STREAMS LAW AND THE FEDERAL CLEAN WATER ACT

APPLICATIONS FOR NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM (NPDES) PERMITS AND WATER QUALITY MANAGEMENT (WQM) PERMITS

This notice provides information about persons who have applied for a new, amended or renewed NPDES or WQM permit, a permit waiver for certain stormwater discharges or submitted a Notice of Intent (NOI) for coverage under a General Permit. The applications concern, but are not limited to, discharges regarding industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFO). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>
Section I	NPDES	Renewals
Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Waste; Discharge into Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on WQM permit applications are invited to submit statements to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

STATE CONSERVATION COMMISSION

NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

The State Conservation Commission has taken the following actions on previously received applications for nutrient management plans under 3 Pa.C.S. Chapter 5, for agricultural operations that have or anticipate submitting applications for new, amended or renewed NPDES permits or NOIs for coverage under a general permit for CAFOs under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Persons aggrieved by an action may appeal under 3 Pa.C.S. § 517, section 4 of the Environmental Hearing Board Act (35 P. S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law) to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, P. O. Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users should contact the Environmental Hearing Board (Board) through the Pennsylvania AT&T Relay Service at (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin*. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary of the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decision law.

For individuals who wish to challenge actions, appeals must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for pro bono representation. Call the Secretary of the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY (PWS) PERMITS

Under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17), the following parties have applied for PWS permits to construct or substantially modify public water systems.

Persons wishing to comment on permit applications are invited to submit statements to the office listed before the application within 30 days of this public notice. Comments received within this 30-day comment period will be considered in the formulation of the final determinations regarding an application. A comment should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based. A public hearing may be held after consideration of comments received during the 30-day public comment period.

Following the comment period, the Department will make a final determination regarding the proposed permit. Notice of this final determination will be published in the *Pennsylvania Bulletin* at which time this determination may be appealed to the Environmental Hearing Board.

The permit application and related documents are on file at the office listed before the application and available for public review. Arrangements for inspection and copying information should be made with the office listed before the application.

Persons with a disability that require an auxiliary aid, service or other accommodations to participate during the 30-day public comment period should contact the office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area,

the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the mediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the mediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following Notices of Intent to Remediate:

Northeast Region: Eric Supey, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915.

Green Acres MHP/Szoke Residence, 8989 Breinigs Run Circle, Upper Macungie Township, **Lehigh County**. Christopher A. Jacangelo, J. Rockwood & Associates, Inc., P. O. Box 1006, Easton, PA 18044 has submitted a Notice of Intent to Remediate (on behalf of his client, MHC Green Acres, LP, c/o Equity Lifestyle Properties, Inc., Two North Riverside Plaza, Suite 800, Chicago, IL 60606), concerning the remediation of soil found to have been impacted by No. 2 fuel oil/kerosene as a result of an accidental release occurring from an aboveground storage tank, which is located outside the residential dwelling. A summary of the Notice of Intent to Remediate is expected to be published in a local newspaper serving the general area sometime in the near future.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110.

FedEx Freight, Inc., 2030 North Union Street, Middletown, PA 17057, Lower Swatara Township, **Dauphin County**. Bureau Veritas North America, Inc., 110 Fieldcrest Avenue, Edison, NJ 08837, on behalf of FedEx, Freight, Inc., 3405 Victor Street, Santa Clara, CA 95054, submitted a Notice of Intent to Remediate site soils contaminated with petroleum hydrocarbons from an oil/water separator. The site will be remediated to the non-residential Statewide Health Standard, and will continue operating as a trucking terminal or commercial/industrial site.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS NEW SOURCES AND MODIFICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of these applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office listed before the applications. Persons interested in reviewing the application files should contact the appropriate regional office to schedule appointments.

Persons wishing to receive a copy of a proposed Plan Approval or Operating Permit shall indicate interests to the Department regional office within 30 days of the date of this notice and shall file protests or comments on a proposed Plan Approval or Operating Permit within 30 days of the Department providing a copy of the proposed documents to persons or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that hearings be held concerning a proposed Plan Approval or Operating Permit. A comment or protest filed with the Department regional office shall include a concise statement of the objections to the issuance of the Plan Approval or Operating Permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

36-03186A: Kline's Services, Inc. (5 Holland Street, Salunga, PA 17538) for installation of an anaerobic waste

digester process to produce electricity at their Kline's Services, Inc. facility in East Hempfield Township, **Lancaster County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to the abovementioned company for the abovementioned project.

Plan Approval #36-03186A is for the construction of an anaerobic waste digester process to generate electricity. The process will include the construction of one (1) digester, one (1) 1,057 bhp biogas fired IC engine and one (1) 852 kwe generator. The air contaminant emissions from the operation of the biogas fired engine will be controlled by an H₂S biogas scrubber. The company shall be subject to and comply with 40 CFR 63 Subpart ZZZZ—National Emissions Standards for Hazardous Air Pollutants for Stationary Reciprocating Internal Combustion Engines and 40 CFR 60 Subpart JJJJ—Standards of Performance for Stationary Spark Ignition Internal Combustion Engines. CO, NO_x and VOCs will be controlled by a lean burn engine combustion system with automatic air/fuel ratio control. PM will be controlled with a gas particulate filter. SO_x will be controlled by an H₂S biogas scrubber. The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements. The expected actual air emissions from the proposed project are 1.53 tpy of PM₁₀, 20.41 tpy of NO_x, 22.45 tpy of CO and 10.21 tpy of VOCs.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed plan approval, or may provide the Department with additional information to consider in its review, by filing a written protest with the Department at the address listed above. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.
- Identification of the proposed permit by the permit number listed above.
- A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the *Pennsylvania Bulletin*, will exist for the submission of comments or protests.

Mr. Thomas Hanlon, East Permitting Section Chief, may be contacted at 717-705-4862, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

Plan approvals issued to sources identified in 25 Pa. Code § 127.44(b)(1)–(4) or plan approvals issued to sources with limitations on the potential to emit may become part of the SIP, and will be submitted to EPA for review and approval.

06-03029C: Yuasa Battery, Inc. (2901 Montrose Ave., Laureldale, PA 19605) for upgrading equipment at their Laureldale facility in Laureldale Borough, **Berks County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to the abovementioned company for the abovementioned project. This plan approval may be incorporated into the company's facility-wide permit via an administrative amendment at a later date.

Plan Approval 06-03029C is for replacing the existing remelt pot and small parts caster with a new melt pot and a new lead cylinder casting operation controlled by a baghouse followed by a HEPA filter; installing a new ball mill for making lead oxide controlled by a baghouse followed by a HEPA filter; and installing three new silos for storage of lead oxide controlled by bin vent filters with HEPA filters. The company shall be subject to and comply with 40 CFR 60, Subpart KK; 40 CFR 63, Subpart P; and Best Available Technology (BAT). The Plan Approval and Operating permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements. The proposed project will increase the facility's potential-to-emit by 0.022 ton/yr of lead oxide.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110. A person may oppose the proposed plan approval, or may provide the Department with additional information to consider in its review, by filing a written protest with the Department at the address listed above. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.
- Identification of the proposed permit by the permit number listed above.
- A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the *Pennsylvania Bulletin*, will exist for the submission of comments or protests.

Mr. Thomas Hanlon may be contacted at 717-705-4862, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

Plan approvals issued to sources identified in 25 Pa. Code § 127.44(b)(1)–(4) or plan approvals issued to sources with limitations on the potential to emit may become part of the SIP, and will be submitted to EPA for review and approval.

06-03117F: Custom Processing Services, Inc. (2 Birchmont Drive, Reading, PA 19606) for construction of an additional micro milling unit and associated collection system at their facility in Exeter Township, **Berks County**.

In accordance with 25 Pa. Code §§ 127.44(a) and 127.45(a), the Department of Environmental Protection (DEP) has received and intends to issue a Plan Approval to the above mentioned company for the above mentioned project. This plan approval may be incorporated into the company's facility-wide permit via an administrative amendment at a later date.

This plan approval is for the authorization to construct an additional micronizer grinder. Particulate matter (PM) emissions are not expected to increase beyond 3.94 tons per year. The Plan Approval and Operating permit will

contain additional testing, recordkeeping, and operating restrictions designed to keep the facility operating within all applicable air quality requirements. The project will not trigger PSD or NSR requirements.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed plan approval, or may provide the Department with additional information to consider in its review, by filing a written protest with the Department at the address listed above. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.
- Identification of the proposed permit by the permit number listed above.
- A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the *Pennsylvania Bulletin*, will exist for the submission of comments or protests, or for requests for a public hearing. A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted based on the comments received.

Tom Hanlon, East Permitting Section Chief, may be contacted at 717-705-4862, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments, protests, or requests for a public hearing.

Plan approvals issues to sources identified in 25 Pa. Code § 127.44(b)(1)–(4) or plan approvals issued to sources with limitations on the potential to emit may become part of the SIP, and will be submitted to EPA for review and approval.

37-332A: Amerikohl Aggregates, Inc.—McMillin Mine (1384 State Route 711, Stahlstown, PA 15687) for construction of a limestone processing plant at their facility in Wayne Township, **Lawrence County**.

Pursuant to 25 Pa. Code §§ 127.44(b) and 127.424(b), the Pennsylvania Department of Environmental Protection (DEP) intends to issue Plan Approval 37-332A to Amerikohl Aggregates, Inc. for the construction of a limestone processing plant at their McMillin Mine facility located on Chewton-Wurtemberg Rd., Wayne Township, Lawrence County. The Plan Approval will subsequently be incorporated into the facility's Operating Permit through an administrative amendment in accordance with 25 Pa. Code § 127.450.

Plan Approval No. 37-332A is for the construction of a 500 ton/hour capacity limestone processing plant, which will consist of sixteen (16) conveyors, two (2) crushers, two (2) screens, a 440 bhp diesel-fired generator, and associated stockpiles and paved and unpaved roadways. Based on the information provided by the applicant and DEP's own analysis, the proposed source will emit a maximum of 37.2 tons of particulate matter, 11.5 tons of which will be particulate matter less than 10 microns (PM-10), 2.7 tons of carbon monoxide, 3.1 tons combined

of nitrogen oxides and volatile organic compounds (VOC), and 0.98 ton of sulfur oxides per year.

The proposed facility will be limited to an annual throughput not to exceed 650,000 tons per year of material processed, and will be subject to the applicable requirements of 40 CFR Subparts 000 (Standards of Performance for Nonmetallic Mineral Processing Plants) and IIII (Standards of Performance for Stationary Compression Ignition Internal Combustion Engines). The Plan Approval will contain testing, monitoring, recordkeeping, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, DEP's analysis, and other documents used in the evaluation are available for public inspection between the hours of 8 a.m. and 4 p.m. weekdays at the address shown below. To make an appointment, contact Records Management at 814-332-6340.

Anyone wishing to provide DEP with additional information they believe should be considered may submit the information to the address shown below. Comments must be received by the Department within 30 days of the last day of publication. Written comments should include the following:

1. Name, address, and telephone number of the person submitting comments.
2. Identification of the proposed Plan Approval; No. 37-332A.
3. Concise statement regarding the relevancy of the information or any objections to issuance of the Plan Approval.

A public hearing may be held, if the Department of Environmental Protection, in its discretion, decides that such a hearing is warranted on the comments received during the public comment period. All persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in a local newspaper of general circulation or the *Pennsylvania Bulletin* or by telephone, where the Department determines such notification is sufficient. Written comments or requests for a public hearing should be directed to John Guth, Regional Air Quality Manager, Department of Environmental Protection, Northwest Regional Office, 230 Chestnut St., Meadville, PA 16335, 814-332-6940.

1. Replacement one (1) 2036 kilowatt (kW) Emergency Generator with a 2000 kW Emergency Generator with Selective Catalytic Reductive (SCR) control device for Nitrogen Oxides (NO_x),

2. Installation of two (2) 2000 kW emergency generators, each equipped with NO_x SCR Control Device.

3. Modify the requirement under Plan Approval No. 10135 for an annual catalytic activities test to be conducted on each NO_x SCR to at least every two (2) years.

4. Modify the requirement under Plan Approval No. 10135 for continuous temperature monitors and recorders to be installed on each of the SCR for Emergency Generator Nos. 2 thru 9 with the following requirements:

(a) NO_x portable analyzer test or NO_x stack test at least every five (5) years.

(b) Tuning of the SCR injection control panel at least every five (5) years

After the replacement, installation, and modification there will be a potential decrease of 8.8 tpy of NO_x; and a potential increase of 4.5 tpy for Sulfur Oxides, 21.4 tpy for Carbon Monoxide, and 6.8 tpy for Particulate Matter. The Plan Approval will contain operating, testing, monitoring, recordkeeping, and reporting requirements to ensure operation within all applicable requirements.

OPERATING PERMITS

Intent to Issue Title V Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter G.

01-05009: Raven Rock Mountain Complex (201 Beasley Drive, Suite 100, Fort Detrick, MD 21702) for operation of their communication facility in Liberty Township, **Adams County**. This is a renewal of the Title V Operating permit issued in January 2007.

In accordance with 25 Pa. Code §§ 127.424, 127.425 and 127.521, the Department of Environmental Protection (DEP) has received an application and intends to issue an Air Quality Operating Permit for the above-mentioned facility. Actual emissions for calendar year 2010 included 9.7 tons of NO_x and 2.5 tons of CO. The Operating Permit will include emission limits and work

practice standards along with monitoring, recordkeeping, and reporting requirements to ensure the facility complies with the applicable air quality regulations.

Copies of the application, DEP's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at the PA DEP Southcentral Regional Office at 909 Elmerton Avenue, Harrisburg, PA 17110.

A person may oppose the proposed operating permit, or may provide the Department with additional information to consider in its review, by filing a written protest with the Department at the address listed above. Each written comment must contain the following:

- Name, address and telephone number of the person submitting the comments.

- Identification of the proposed permit by the permit number listed above.

- A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A 30-day comment period, from the date of publication of this notice in the *Pennsylvania Bulletin*, will exist for the submission of comments or protests.

Daniel C. Husted, PE, Chief, West Permitting Section, may be contacted at 717-705-4863, or at PA DEP Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, for additional information or for the submission of comments or protests.

The renewal permit also contains emission restrictions, recordkeeping, work practice, and additional requirements to ensure compliance with the Clean Air Act and the Air Pollution Control Act.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes:

the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department. A copy of the application is available for inspection at the district mining office indicated before each application. Notices of requests for 401 Water Quality Certifications are included in individual application notices, as noted.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application and request for Section 401 water quality certification application may be submitted by any person or any officer or head of any Federal, state or local government agency or authority to the Department at the address of the district mining office indicated before each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections regarding a mining permit application should contain the name, address and telephone number of persons submitting comments or objections, application number and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

A request for an informal conference or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code § 77.123 or § 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When an NPDES number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. A separate notice will be provided after the draft NPDES permit is prepared.

56663069 and NPDES No. PA0120944. Rosebud Mining Company, 1117 Shaw Mines Road, Meyersdale, PA 15552, revision of an existing bituminous surface and auger mine to add 251 acres of additional mining area in Elk Lick and Summit Townships, **Somerset County**, affecting 3040.0 acres. Receiving stream(s): UTS to/and Casselman River and UTS to/and Elk Lick Creek classified for the following use(s): cold water fisheries. There are no potable water supply intakes within 10 miles downstream. Application received: September 26, 2011.

56970301 and NPDES No. PA0234362. Garrett Limestone Company, Inc., 451 Stoystown Road, Suite 104, Somerset, PA 15501, revision of an existing bituminous surface mine to add 8.7 acres to the existing permit for surface support in Black and Summit Townships, **Somerset County**, affecting 174.4 acres. Receiving stream(s): Casselman River classified for the following use(s): warm water fishery. There are no potable water supply intakes within 10 miles downstream. Application received: September 26, 2011.

56100105. NPDES No. PA0263079 and General Permit GP-12-56100105, Wilson Creek Energy, LLC, 140 West Union Street, Somerset, PA 15501, revision of an existing bituminous coal mining site to obtain coverage for coal processing under air quality general permit GP-12 in Black Township, **Somerset County**, affecting 140.3 acres. Receiving stream(s): Wilson Creek and Coxes Creek classified for the following use(s): warm water fishery. There are no potable water supply intakes within 10 miles downstream. Application received: September 20, 2011.

Knox District Mining Office: P. O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, 814-797-1191

61110102 and NPDES Permit No. PA0259187. Ben Hal Mining Company, (389 Irishtown Road, Grove City, PA 16127). Commencement, operation and restoration of a bituminous surface mine in Clinton Township, **Venango County** affecting 47.0 acres. Receiving streams: unnamed tributary to Scrubgrass Creek, classified for the following uses: CWF. The first downstream potable water supply intake from the point of discharge is Clintonville Water & Sewer. Application received: September 23, 2011.

61970101 and NPDES Permit No. PA0227358. Bedrock Mines, LP (111 Freeport Road, Aspinwall, PA 15215) Renewal of an existing bituminous surface mine in Irwin Township, **Venango County** affecting 71.5 acres. Receiving streams: Four unnamed tributaries to Scrubgrass Creek, classified for the following uses: CWF. There are no surface water supply intakes within 10 miles downstream. Application received: September 30, 2011.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, 570-621-3118

54960201R3. Northeastern Power Co., (P. O. Box 7, McAdoo, PA 18237), renewal of an existing anthracite coal refuse reprocessing operation in Kline, Hazle and Banks Townships, **Schuylkill, Luzerne and Carbon Counties** affecting 429.7 acres, receiving stream: Catawissa Creek, classified for the following use: cold water fishes. Application received: September 22, 2011.

54110101 and NPDES Permit No. PA0225096. KK Coal, LLC, (P. O. Box 8, Cumbola, PA 17930), commencement, operation and restoration of an anthracite surface mine, coal refuse reprocessing and refuse disposal operation and NPDES Permit for discharge of treated mine drainage in Blythe Township, **Schuylkill County** affecting 236.0 acres, receiving streams: Bushey Creek and unnamed tributary to Schuylkill River, classified for the following uses: cold water and migratory fishes. Application received: September 26, 2011.

Noncoal Applications Received

Cambria District Mining Office: 286 Industrial Park Road, Ebensburg, PA 15931, 814-472-1900

01740401C2 and NPDES Permit No. PA0613045. New Enterprise Stone & Lime Company, Inc., P. O. Box 2009, Chambersburg, PA 17201, renewal of NPDES Permit, Hamiltonban Township, **Adams County**. Receiving stream(s): Muddy Run classified for the following use(s): cold water fishery. There are no potable water supply intakes within 10 miles downstream. Application received: September 6, 2011.

Knox District Mining Office: P. O. Box 669, 310 Best Avenue, Knox, PA 16232-0669, 814-797-1191

24112802 and NPDES Permit No. PA0259179. North Star Aggregates, Inc. (P. O. Box 51, Penfield, PA 15849) Commencement, operation and restoration of a small industrial minerals operation in Ridgway Township, **Elk County** affecting 10.6 acres. Receiving streams: Little Mill Creek, classified for the following uses: HQ-CWF. There are no potable surface water supply intakes within 10 miles downstream. Application received: September 23, 2011.

Pottsville District Mining Office: 5 West Laurel Boulevard, Pottsville, PA 17901, 570-621-3118

54110301 and NPDES Permit No. PA0225100. Pierson-Middleport, LLC, (P. O. Box 430, Woodstown, NJ 08098), commencement, operation and restoration of a sandstone, siltstone, clay and topsoil quarry operation

and NPDES Permit for discharge of treated mine drainage in Walker and Blythe Townships, **Schuylkill County** affecting 139.92 acres, receiving stream: unnamed tributary to Schuylkill River, classified for the following use: cold water fishes. Application received: September 21, 2011.

58110304 and NPDES Permit No. PA0225088. Powers Stone, Inc., (15324 SR 3001, Montrose, PA 18801), commencement, operation and restoration of a sandstone, shale and bluestone quarry operation and NPDES Permit for discharge of treated mine drainage in Auburn Township, **Susquehanna County** affecting 41.47 acres, receiving streams: tributary to Nick Creek and unnamed tributary to Riley Creek, classified for the following uses: cold water and migratory fishes. Application received: September 23, 2011.

38870301C11 and NPDES Permit No. PA0595543. Pennsy Supply, Inc., (P. O. Box 3331, Harrisburg, PA 17105), renewal of NPDES Permit for discharge of treated mine drainage from a quarry operation in North Londonderry, North Annville, South Annville and Annville Townships, **Lebanon County**, receiving streams: Killinger Creek and Quittapahilla Creek, classified for the following use: trout stock fishery. Application received: September 27, 2011.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

In addition, the Department imposes a technology-based aluminum limit of 2.0 mg/l (30 day average) to protect stream uses. A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges

and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The BAT limits for noncoal mining activities as provided in 40 CFR Part 436 and 25 Pa. Code Chapter 77 are as follows:

<i>Parameter</i>	<i>30-day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Suspended solids	35 mg/l	70 mg/l	90 mg/l
Alkalinity exceeding acidity*		greater than 6.0; less than 9.0	
pH*			

* The parameter is applicable at all times.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associ-

ated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91–96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding (MOU) Concerning Water Quality Management, NPDES Program Implementation, and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department

at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Coal NPDES Draft Permits

California District Office: 25 Technology Drive, Coal Center, PA 15423, 724-769-1100

NPDES No. PA0235989 (Mining Permit No. 56100701), Wilson Creek Energy, LLC, (140 West Union Street, Suite 102, Somerset, PA 15501). A new NPDES and mining activity permit for the Milford #3 CRDA in Milford Township, **Somerset County** for a new coal refuse disposal site. Surface Acres Affected 89.4. The application was considered administratively complete on February 16, 2011. Application received September 2, 2010.

Unless otherwise noted for a specific outfall, the proposed effluent limits for all outfalls in this permit are the BAT limits described above for coal mining activities.

FEDERAL WATER POLLUTION CONTROL ACT, SECTION 401

The following permit applications, requests for Environmental Assessment approval and requests for 401 Water Quality Certification have been received by the Department. Section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341) requires the Commonwealth to certify that the involved projects will not violate the sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) as well as relevant State requirements. Persons objecting to approval of a request for certification under section 401 of the FWPCA, the issuance of a Dam Permit or Water Obstruction and Encroachment Permit or the approval of an Environmental Assessment shall submit comments, suggestions or objections within 30 days of the date of this notice as well as any questions to the office noted before an application. Comments should contain the

name, address and telephone number of the person commenting, identification of the certification request to which the comments or objections are addressed and a concise statement of comments, objections or suggestions including the relevant facts upon which they are based.

The Department may conduct a fact-finding hearing or an informal conference in response to comments if deemed necessary. Each individual will be notified, in writing, of the time and place of a scheduled hearing or conference concerning the certification request to which the comment, objection or suggestion relates. Maps, drawings and other data pertinent to the certification request are available for inspection between 8 a.m. and 4 p.m. on working days at the office noted before the application.

Persons with a disability who wish to attend the hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact the specified program. TDD users may contact the

Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Applications Received under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27) and section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and Requests for Certification under section 401(a) of the FWPCA.

E05-361: Kathryn Kunkel, Pennsylvania Electric Company, BNB Aerial Electric Distribution Line Construction, 2800 Pottsville Pike, Reading, Pennsylvania 19612-6001, in Bedford Borough and Bedford Township, **Bedford County**, ACOE Baltimore District

To install two single poles in wetlands, a temporary crossing of wetland approximately 760.0 feet long by 15.0 feet wide (0.26 acre), and a Chapter 105 General Permit GP-5 (Utility line Stream crossing) for each of the four aerial crossings of the Raystown Branch of the Juniata River (TSF), for the purpose of a new electrical distribution line in the Bedford, Pennsylvania area to improve electrical reliability and to support the electrical load growth. The project is located between Bedford area and Bedford North Substations (Bedford and Everett West, PA Quadrangle; N: 9.30 inches, W: 0.68 inch; Latitude: 40°03'4.36", Longitude: -78°30'17.40") in Bedford Borough and Bedford Township, Bedford County.

E28-371: W. D. Mills, Bridge Construction, 8402 Path Valley Road, Fort Loudon, Pennsylvania 17224, in Metal Township, **Franklin County**, ACOE Baltimore District

To construct and maintain a 14.5-foot wide, single span steel I-beam open grate iron deck bridge, having a normal span of 60.0 feet and a minimum underclearance of 5.25 feet across West Branch Conococheague Creek (CWF, MF). The project is located at 8402 Path Valley Road (SR 0075) (Fannettsburg, PA Quadrangle; N: 5.36 inches, W: 15.84 inches; Latitude: 40°01'46.31", Longitude: -77°51'47.34") in Metal Township, Franklin County. The purpose of the project is to provide access to adjoining fields for agriculture.

E31-223: Alexandria Borough Porter Township Joint Sewer Authority, Grange Hall Road, PO Box 113, Alexandria, Pennsylvania 16611, in Alexandria Borough and Porter Township, **Huntingdon County**, ACOE Baltimore District

To: 1) construct and maintain an 8.0-inch PVC sewer line in and across an unnamed tributary to Frankstown Branch Juniata River (TSF) in two locations impacting 20 linear feet of stream channel and bored under nine wetlands temporarily impacting 0.09 acre of wetland from Latitude: 40°34'38", Longitude: -78°06'20" to Latitude: 40°33'08", Longitude: -78°05'49", 2) construct and maintain an 8.0-inch PVC sewer line in and across an unnamed tributary to Frankstown Branch Juniata River (TSF) in eleven locations impacting 68.0 linear feet of stream channel and bored under three wetlands temporarily impacting 0.05 acre of wetland from Latitude: 40°32'17", Longitude: -78°07'18" to Latitude: 40°33'08", Longitude: -78°05'49", and 3) place and maintain 10,000

cubic yards of fill in the 100-year floodplain of Frankstown Branch Juniata River (TSF) (Latitude: 40°33'08", Longitude: -78°05'49") to construct a new office building, control building, pump station, UV channel, reactor tanks, clarifier, and digesters. The purpose of the project is to expand and upgrade the existing Alexandria Borough Porter Township Joint Sewer Authority wastewater treatment plant, located on Grange Hall Road in Alexandria Borough and Porter Township, Huntingdon County.

E34-130: Robert Barton, Lost Creek Community Park Revitalization, 181 Bunkertown Road, PO Box 68, McAlisterville, Pennsylvania 17049, in Fayette Township, **Juniata County**, ACOE Baltimore District

To revitalize the existing Lost Creek Community Park. The proposed improvements consist of a new paved parking lot which is outside of the existing floodplain. Other improvements include paved walking trails by the pavilions and tot lots, renovating existing pavilions, and buffer restoration. The proposed work within the 100-year floodway of Little Lost Creek (TSF) for the project includes a proposed walking path at the existing grade and the riparian buffer restoration. There will be no fill in the 100-year floodway and flood plain and no wetlands impact. The project is located northwest of the intersection between State Routes 35 and 1004 (McClure, PA Quadrangle; N: 2.05 inches, W: 3.90 inches; Latitude: 40°38'10.6", Longitude: -77°16'41.2") in Fayette Township, Juniata County.

Northwest Region: Watershed Management Program Manager, 230 Chestnut Street, Meadville, PA 16335-3481

E37-187, New Castle Area School District, 420 Fern Street, New Castle, PA 16101-2220. Harry W Lockley Elementary School Expansion, in the City of New Castle, **Lawrence County**, ACOE Pittsburgh District (New Castle North, PA Quadrangle N: 41°, 0', 10.1"; W: -80°, 19', 39.3";).

To permanently fill 0.4636 acres of wetlands in the watershed of Neshannock Creek (TSF) as part of the expansion of the Harry W Lockley Elementary School and to mitigate for the wetland impacts by constructing 0.92 acres of onsite replacement wetlands all at a point approximately 1000 feet southeast of the State Route 108 and North Scott Street intersection.

E62-427, Ellwood National Forge Co. One Front Street, Irvine, PA 16329. Existing Levee Upgrade, in Brokenstraw Township, **Warren County**, ACOE Pittsburgh District (Youngsville, PA Quadrangle N: 41°, 50', 228"; W: -79°, 16', 10").

To upgrade an existing flood protection levee along the right bank of Brokenstraw Creek (CWF) around the Ellwood National Forge—Irvine Facility approximately 1500 feet north of the National Forge Road and Althom Road intersection consisting of:

1. Placement of additional embankment material up to approximately 1 foot above existing grade along approximately 200 feet of the northwest reach of the levee

2. Placement of additional embankment material up to approximately 3 feet above existing grade along approximately 600 feet of the southwest reach of the levee

Installation of sheet piling to a height of up to approximately 3 feet above existing grade along approximately 750 feet of the south reach of the levee.

ACTIONS

**THE PENNSYLVANIA CLEAN STREAMS LAW AND
THE FEDERAL CLEAN WATER ACT**
FINAL ACTIONS TAKEN FOR NPDES PERMITS AND WQM PERMITS

The Department has taken the following actions on previously received applications for new, amended and renewed NPDES and WQM permits, applications for permit waivers and NOIs for coverage under General Permits. This notice of final action is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P.S. §§ 691.1—691.101) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>

Section II	NPDES	New or Amendment
Section III	WQM	Industrial, Sewage or Animal Wastes; Discharges to Groundwater
Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

Sections I—VI contain actions regarding industrial, animal or sewage wastes discharges, discharges to groundwater, and discharges associated with MS4, stormwater associated with construction activities and CAFOs. Section VII contains notices for parties who have submitted NOIs for Coverage under General NPDES Permits. The approval for coverage under these General NPDES Permits is subject to applicable effluent limitations, monitoring, reporting requirements and other conditions in each General Permit. The approval of coverage for land application of sewage sludge or residential septage under applicable general permit is subject to pollutant limitations, pathogen and vector attraction reduction requirements, operational standards, general requirements, management practices and other conditions in the respective permit. The permits and related documents, effluent limitations, permitting requirements and other information are on file and may be inspected and arrangements made for copying at the contact office noted before the action.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act (35 P.S. § 7514) and 2 Pa.C.S. §§ 501—508 and 701—704 (relating to Administrative Agency Law). The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

PUBLIC WATER SUPPLY PERMITS

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.1—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor,

Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to

the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

HAZARDOUS SITES CLEAN-UP UNDER THE ACT OF OCTOBER 18, 1988

Proposed Consent Order and Agreement

Superior Tube Co., Collegeville, Montgomery County

The Department of Environmental Protection ("Department"), under the authority of the Pennsylvania Hazardous Sites Cleanup Act ("HSCA"), 35 P. S. § 6020.1113, has

entered into a Consent Order and Agreement with Superior Tube Co. and Superior Tube Co., Inc. ("Superior Tubes"), sister corporations with plant operations located in a portion of the Lower Providence DCE HSCA Site in Montgomery County, PA ("the site"). This site consists of commercial and residential properties impacted by groundwater contamination.

The contaminants of concern impacting the site include: 1,1-dichloroethene (DCE), trichloroethene (TCE), cis-1,2-dichloroethene, 1,1,1-trichloroethane, tetrachloroethene (PCE), chloromethane, chloroform, methyl ethyl ketone (MEK), trichlorofluoromethane, xylene and toluene. Superior is responsible for a portion of the TCE released and threatened to be release on certain properties within the site area. Superior presently operates a groundwater pump and treat system to address certain contamination released from its plant. The Department shall install a public waterline to deliver potable water to affected residents and businesses within the site area.

In a Consent Order and Agreement, Superior and the Department agreed that Superior would reimburse the Department for response costs incurred and to be incurred by the Department for the public waterline project. Additionally, Superior agreed to remediate a portion of the site where TCE has been released and Superior agreed to attain an Act 2 (Land Recycling and Environmental Remediation Standards Act, 35 P. S. § 6026.101 et seq.) standard on this portion of the site. Superior's Notice of Intent to Remediate, its Remedial Investigation Report and its Cleanup Plan filed pursuant to Act 2, are retained in the Department's Regional Office Files.

This notice is provided under Section 1113 of HSCA, 35 P. S. § 6020.1113, which states that, "settlement shall become final upon the filing of the Department's response to significant written comments". The Consent Order and Agreement, which contains the specific terms of the agreement is available for public review and comment. The agreement can be examined from 8 a.m. to 4 p.m. at the Department's Southeast Regional Office, located at 2 East Main Street in Norristown, PA by contacting either Timothy Cherry or Gina M. Thomas, Esquire at (484) 250-5930. Mr. Cherry and Ms. Thomas may also be contacted electronically at tcerry@pa.gov and githomas@pa.gov, respectively. A public comment period on the Consent Order and Agreement will extend for 60 days from today's date. Persons may submit written comments regarding the agreement within 60 days from today's date, by submitting them to Mr. Cherry at the above address.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to

document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Northeast Region: Eric Supey, Environmental Cleanup Program Manager, 2 Public Square, Wilkes-Barre, PA 18701-1915.

Green Acres MHP/Szoke Residence, 8989 Breinigs Run Circle, Upper Macungie Township, **Lehigh County**. Christopher A. Jacangelo, J. Rockwood & Associates, Inc., P. O. Box 1006, Easton, PA 18044 has submitted a Final Report (on behalf of his client, MHC Green Acres, LP, c/o Equity Lifestyle Properties, Inc., Two North Riverside Plaza, Suite 800, Chicago, IL 60606), concerning the remediation of soil found to have been impacted by No. 2 fuel oil/kerosene as a result of an accidental release occurring from an aboveground storage tank, which is located outside the residential dwelling. A public notice regarding the submission of the Final Report was to have been published in *The Morning Call* on September 21, 2011.

Southcentral Region: Environmental Cleanup Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110

PSECU Elmerton Avenue Site, Elmerton Avenue, Harrisburg, PA 17110, Susquehanna Township, **Dauphin County**. Advantage Engineers, LLC, 910 Century Drive, Mechanicsburg, PA 17055, on behalf of PA State Employees Credit Union, PO Box 67013, Harrisburg, PA 17106-7013, submitted a Risk Assessment Report and Cleanup Plan concerning remediation of site soils and groundwater contaminated with arsenic and barium. The report and plan are intended to document remediation of the site to meet the Site-Specific Standard.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the Pennsylvania Bulletin a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Sources at this facility include front end loaders, vibrating grizzly feeder, jaw crusher, screens, conveyors, stackers, stockpiles, and roadways. Emissions from this site will not exceed 10 tons of particulate matter per year. Testing of the slag pile has indicated an 11.5% moisture content, so dust should be minimal. Fugitive emissions from this site are controlled through the use of water sprays; pressurized water truck; and road sweeper. Operating Permit contains conditions relating to monitoring, recordkeeping and work practice standards.

30-00087: Emerald Coal Resources, L.P. (158 Portal Road, Waynesburg, PA 15370) on September 27, 2011, to issue state only operating permit to operate the Emerald

Mine Coal Preparation Plant and rail loading facility in Franklin Township, **Greene County**. The operation of the 10 Million ton per year facility's air contamination sources, consisting of a breaker, conveyers, chemical froth flotation system, and storage piles emit 7.28 tons per year of PM10 and 31.84 tons per year of VOC. The facility is limited to a maximum opacity from any processing equipment of 20 percent. The facility is subject to the applicable requirements of Pa. Code Title 25, Chapters 121—145, and 40 CFR 60, Subpart Y. The permit also includes emission limitations, operational requirements, monitoring requirements, and recordkeeping requirements for the facility.

56-00149: Somerset Area School District (645 S Columbia Ave, Somerset, PA 15501-2513) on September 29, 2011, for a non-Title V, State Only, Synthetic Minor Operating Permit renewal for the Maple Ridge & Eagle View Elementary Schools in Somerset Borough, **Somerset County**. The permit is for the operation of two 4.3 mmbtu/hr tri-fuel boilers at each school. Maple Ridge Elementary School also has a 35 kW natural gas fired emergency generator and Eagle View Elementary School has a 55 kW natural gas fired emergency generator. The permit will include monitoring, recordkeeping, reporting, and work practice requirements designed to keep the facility operating within all applicable air quality requirements.

63-00131: Avella Area School District (1000 Avella Rd., Avella, PA 15312-2109) on September 30, 2011, for a non-Title V, State Only, Synthetic Minor Operating Permit renewal for the Avella Area Elementary & Senior High Schools in Cross Creek Township, **Washington County**. The renewal permit contains emission restrictions, recordkeeping, work practice, and additional requirements to ensure compliance with the Clean Air Act and the Air Pollution Control Act.

ACTIONS ON COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Actions on applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law; the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.20a). The final action on each application also constitutes action on the NPDES permit application and, if noted, the request for a Section 401 Water Quality Certification. Mining activity permits issued in response to applications will also address the application permitting requirements of the following statutes: the Air Quality Pollution Act (35 P. S. §§ 4001—4014); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1002).

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

**Request for Comments on the Proposed Total Maximum Daily Loads (TMDLs) Developed
for the Limestone Run Watershed in Northumberland County**

The Department of Environmental Protection will accept comments on the proposed TMDLs developed for the Limestone Run Watershed in Northumberland County. These TMDLs were established in accordance with the requirements of Section 303(d) of the Clean Water Act. The Pennsylvania Integrated Water Quality Monitoring and Assessment Report included impaired stream segments in this watershed. The listings of these waterbodies were due to use impairments caused by excessive siltation.

There currently are no state or federal instream numerical water quality criteria for siltation. Therefore, the Department utilized a reference watershed approach to implement the applicable narrative criteria. These proposed TMDLs set allowable loadings of sediment in the Limestone Run Watershed. The sediment loading was allocated among cropland, hay/pasture land, transitional land and streambank categories present in the watershed. Data used in establishing these TMDLs was generated using a water quality analysis model (AVGWLF) designed by the Pennsylvania State University.

The following table shows the estimated current sediment loading for the watershed. Overall load reductions necessary in order to meet the TMDLs are also identified.

Summary of TMDL Based Load Reductions in the Limestone Run

<i>POLLUTANT</i>	<i>EXISTING LOAD (lbs. /yr.)</i>	<i>EXISTING LOAD (lbs. /day)</i>	<i>TMDL (lbs. /yr.)</i>	<i>TMDL (lbs. /day)</i>	<i>PERCENT REDUCTION</i>
Sediment	3,352,600	9,185	2,632,702	7,213	21.5%

The data and all supporting documentation used to develop the proposed TMDLs are available from the Department. The proposed TMDLs and information on the TMDL program can be viewed on the Department's website (www.dep.state.pa.us/watermanagement_apps/tmdl/). To request a copy of any of the proposed TMDLs contact:

Sean Kilmartin, Civil Engineer Hydraulic
 Watershed Protection Division, Central Office
 Pennsylvania Department of Environmental Protection
 Rachel Carson State Office Building
 Harrisburg, PA 17105
 Phone: 717-772-3922, e-mail: sekilmarti@pa.gov

The Department will consider all comments in developing the final TMDLs, which will be submitted to EPA for approval. Written comments will be accepted at the above address and must be postmarked by 45 days after publication in the *PA Bulletin*. A public meeting to discuss the technical merits of the TMDLs will be held upon request.

Pennsylvania State Clean Diesel Grant Program; Opening of the Grant Application Acceptance Period

The Department of Environmental Protection (Department) announces an opportunity to apply for \$561,946 that has been made available through the United States Environmental Protection Agency (EPA) and the Federal Diesel Emission Reduction Act (42 U.S.C.A. §§ 16131—16137). This funding is available through the Pennsylvania State Clean Diesel Grant Program for eligible diesel emission reduction projects that will improve air quality and protect public health and the environment in this Commonwealth by reducing emissions from diesel-powered vehicles.

The Department is seeking applications for projects that will replace, repower or retrofit fleet diesel-powered school or transit buses. Funding is available for public and private entities that operate diesel-powered fleets throughout this Commonwealth. These entities may include school districts, municipal authorities, political subdivisions, other State agencies, nonprofit entities, corporations, limited liability companies or partnerships incorporated or registered in this Commonwealth. Projects must use technologies certified or verified by the EPA or the California Air Resources Board to lower diesel emissions. The technology may be a single technology or a combination of available technologies. The majority of the fleet's annual operation time must occur within this Commonwealth.

The Department will not reimburse grant recipients for project costs incurred prior to the grant performance period set forth in the applicable grant agreement.

The application package including guidance, instructions and application forms is available by contacting Martin T. Felion, Department of Environmental Protection, Bureau of Air Quality, Air Resource Management Division, 12th Floor, 400 Market Street, Harrisburg, PA 17101, (717) 787-9702. The application package is also available electronically on the Department's web site at www.depweb.state.pa.us (DEP Keywords "Clean Diesel").

The Department will begin accepting applications on October 17, 2011. Applications must be postmarked or hand delivered by 4 p.m. on December 15, 2011. Faxes and electronic copies will not be accepted.

DEPARTMENT OF PUBLIC WELFARE

Pharmacy Prior Authorization

The Department of Public Welfare (Department) announces it will add stimulants and related agents designated as preferred on the Department's Preferred Drug List when prescribed for recipients 18 years of age and older to the Medical Assistance (MA) Program's list of services and items requiring prior authorization.

Section 443.6(b)(7) of the Public Welfare Code (62 P. S. § 443.6(b)(7)) authorizes the Department to add items and services to the list of services requiring prior authorization by publication of notice in the *Pennsylvania Bulletin*.

The Department will phase-in implementation of prior authorization of preferred stimulants and related agents and will issue MA Bulletins to providers enrolled in the MA Program specifying each age group of recipients, the effective date of implementation and the procedures for obtaining prior authorization of prescriptions. The first phase of implementation will be for preferred stimulants and related agents dispensed on or after October 17, 2011, to recipients 18 years of age or older but under 27 years of age. The second phase of implementation will be for preferred stimulants and related agents dispensed on and after November 14, 2011, to recipients 27 years of age and older.

Fiscal Impact

These changes are estimated to result in savings totaling \$0.399 million (\$0.181 million in State funds) in the MA Outpatient Program in Fiscal Year (FY) 2011-2012. Savings are estimated \$ 0.685 million (\$0.312 million in State funds) in FY 2012-2013.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Public Welfare, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revisions to these prior authorization requirements.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).

MILK MARKETING BOARD

Hearing and Presubmission Schedule for All Milk Marketing Areas; Official General Order A-875

Under the Milk Marketing Law (31 P.S. §§ 700j-101—700j-1302), the Milk Marketing Board (Board) will conduct a public hearing for Milk Marketing Areas 1—6 on February 8, 2012, at 11:30 a.m. in Room 202, Agriculture Building, 2301 North Cameron Street, Harrisburg, PA.

The purpose of the hearing is to receive testimony and exhibits concerning whether to remove the service contract initial fee and renewal fee from Official General Order A-875.

The staff of the Board is deemed to be a party to this hearing, and the attorney representing staff is deemed to have entered his appearance. Other persons who wish to present evidence may be included on the Board's list of parties by: (1) having their attorney file with the Board on or before 3 p.m. on January 6, 2012, a notice of appearance substantially in the form prescribed by 1 Pa. Code § 31.25 (relating to form of notice of appearance); or (2) if unrepresented by counsel, filing with the Board on or before 3 p.m. on January 6, 2012, notification of their desire to be included as a party. Parties shall indicate in their notices of appearance if alternate means of service, that is, e-mail or fax, are acceptable. Notices of appearance filed electronically should be directed to deberly@state.pa.us.

The parties shall observe the following requirements for advance filing of witness information and exhibits. The Board may exclude witnesses or exhibits of a party that fails to comply with these requirements. In addition, the parties shall have available in the hearing room at least 20 additional copies made available for the use of non-parties attending the hearing.

1. By 3 p.m. on January 12, 2012, Board staff shall file with the Board, in person or by mail, one original and five copies and ensure receipt by all other parties of one copy of:

a. A list of witnesses who will testify for the petitioner, along with a statement of the subjects concerning which each witness will testify. A witness who will be offered as an expert shall be so identified, along with the witness's area or areas of proposed expertise. For expert witnesses there shall also be filed a statement of the substance of the facts and opinions to which the expert is expected to testify and a summary of the grounds for each opinion.

b. Each exhibit to be presented, including testimony to be offered in written form.

2. By 3 p.m. on January 26, 2012, each responding party shall file and serve as set forth in paragraph 1 information concerning rebuttal witnesses and copies of rebuttal exhibits.

3. By 3 p.m. on February 2, 2012, parties shall file and serve as set forth in paragraph 1 information concerning surrebuttal witnesses and copies of surrebuttal exhibits.

Parties that wish to offer in evidence documents on file with the Board, public documents or records in other proceedings before the Board or wish the Board to take official notice of facts, shall comply with, respectively, 1 Pa. Code § 35.164, § 35.165, § 35.167 or § 35.173. Whenever these rules require production of a document as an exhibit, copies shall be provided to each Board member and to all other parties; in addition, at least 20 copies shall be available for distribution to nonparties attending the hearing.

Requests by parties for Board staff to provide data pertinent to the hearing shall be made in writing and received in the Board office by 12 p.m. on January 30, 2012.

The filing address for the Board is Milk Marketing Board, Room 110, Agriculture Building, 2301 North Cameron Street, Harrisburg, PA 17110.
