READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Rule 206.1(a) Petition. Definition. Content. Form.

"Petition" as used in these rules shall mean:

- (1) An application to open a default judgment or a judgment of non pros;
- (2) A petition for relief from a judgment by confession;
- (3) A petition for civil contempt, except in a support or custody action;
- (4) A request for delay damages;
- (5) A petition to transfer venue on grounds of forum non conveniens.

Rule 206.4(c) Rule to Show Cause.

(1) Issued as of course.

A rule to show cause shall be issued by the Court as of course upon petition pursuant to Pa.R.C.P. 206.6. The rule to show cause shall direct that an answer to the petition must be filed within twenty (20) days after service of the petition on any respondent unless the Court directs that an answer be filed within a shorter period of time. The Court may, in appropriate circumstances, dispense with the necessity of filing an answer all together.

(2) Steps that the moving party must take:

(a) The moving party must file a petition with the Prothonotary or by way of the process governing the filing of contested motions as set forth in Cra.R.C.P. 208.3(a).

Comment

It is preferred that a petition seeking only the issuance of a rule to show cause shall be filed with the Prothonotary so as to not inconvenience a responding party by requiring the responding party to appear in Motions Court.

(b) The moving party shall attach to the petition a proposed order. The form of the proposed order shall be as set forth in Pa.R.C.P. 206.5, with alternative provisions in paragraph 4, so that the Court may determine whether to proceed with depositions or an evidentiary hearing on disputed issues of material fact.

(c) The moving party must indicate, in a thoroughly considered and good faith manner, the amount of time the moving party anticipates that an evidentiary hearing or argument will take.

(d) The moving party must comply with the required pre-filing notice set forth in Cra.R.C.P. 208.3(a)(6).

(e) The Court will determine whether to proceed by deposition or an evidentiary hearing on disputed issues of material fact.

(f) The moving party must comply with the required Service Of Order Entered rule set forth in Cra.R.C.P. 208.3(a)(10).

(3) Request for stay.

If a moving party requests a stay of execution pending disposition of a motion to open a default judgment:

(a) The petition must be filed in Motions Court in accordance with the rules governing contested motions as set forth in Cra.R.C.P. 208.3(a).

(b) A proposed order shall be attached and shall include the stay provisions the moving party requests.

(c) The Court will exercise its discretion as to whether to grant a stay and the terms and conditions of any stay after hearing from the parties in Motions Court or, if a protracted argument and more deliberate consideration is required, at a date and time to be set by the Court.

Rule 208.2(c) Statement of Authority.

Except for uncontested motions, all motions shall contain a statement of authority citing a statute, rule of Court, or case law in support of the relief requested. The statement may be in the body of the motion itself or may be in the form of a brief filed contemporaneously with the motion.

Rule 208.2(d) Certification of Uncontested Motion.

If a motion is uncontested, the moving party or counsel must certify that the motion is uncontested in a manner set forth in Cra.R.C.P. 208.3(a).

Rule 208.2(e) Discovery Motions.

Any motion relating to discovery shall include a statement signed by counsel for the moving party that counsel has conferred, or attempted to confer, with all interested parties in order to resolve the matter without Court action.

Rule 208.3(a) Motions Procedure. Motions Court.

(1) Motions Court session.

There shall be a session of the Court for the presentation of motions, appropriate requests and applications, every Monday, Wednesday and Friday at 8:45 o'clock a.m., except on holidays and other times when no judge is available ("Motions Court"). The business of the Court, in open Court or in chambers, shall not be interrupted by the presentation of motions or requests and applications, except where the Court, by statute or rule, is required to be available, and except for emergencies.

(2) Filing.

(i) Uncontested motions shall be filed in the Office of the Prothonotary. Contested motions may be filed in the Office of Prothonotary or in Motions Court. The Prothonotary shall place appropriate stamps and notations on each motion, make an appropriate docket entry, and promptly forward the motion to the Court Administrator for presentation to a Judge and the entry of an appropriate order.

(ii) Simultaneously with the filing of a motion in the Office of the Prothonotary, the moving party shall serve a copy, clearly marked as a "copy," upon the Court Administrator. The Court Administrator is not required to act or respond to a "copy."

(iii) Motions, appropriate requests and applications intended for consideration by a motions Judge, shall be presented in Motions Court and are not required to be filed in the Office of the Prothonotary in advance of such presentation. The Prothonotary or a designee shall be present at every session of Motions Court to receive such papers for filing.

(3) Emergencies.

In the case of a true emergency, a motion, appropriate request or application, shall be presented to the Court Administrator who will immediately refer the matter to a Judge for consideration. If a moving party claims that an emergency exists, the nature of the emergency and the reasons why any required notice could not be given must be set forth in the motion, request or application being filed.

(4) Uncontested motions. Definition.

Uncontested motions are defined as those

(a) Where all parties or their counsel of record have consented to the motion and order. Counsel may certify that all parties or their counsel have consented, or attach written consents.

(b) Where the proposed order seeks only a rule to show cause with the return hearing or argument date and no such other further relief.

(c) Where the proposed order seeks only the appointment of a master, mediator or hearing officer and no such other further relief.

(5) Continuances.

Absent exceptional circumstances, motions for continuances shall be presented no later than ten (10) days before the date of the proceeding for which the continuance is requested. Thereafter, no motions for continuance will be granted except for substantial reasons which were not previously known or reasonably ascertainable. A request for a continuance based on proceedings scheduled in another Court may not be granted unless that Court's scheduling order was issued before the order scheduling the proceedings for which the continuance is requested. If the motion is based on a conflict with the matter scheduled in another Court of Common Pleas, the scheduling order from the other Court shall be attached to the motion. By signing a motion to continue, an attorney is representing to the court that the attorney's client has been consulted and is aware of the motion.

(6) Required pre-filing notice.

Before any motion is filed, the moving party shall serve a copy of the motion, request or application, and any proposed order, and a statement of the date and time of the intended presentation to counsel of record and any unrepresented party at least three (3) business days in advance of the presentation. Service may be accomplished personally, by first class mail or by facsimile transmission. Service shall be made pursuant to Pa.R.C.P. 440.

(7) Cover sheet.

A cover sheet in the following form shall be attached to each contested and uncontested motion and every copy of the same that is filed or served:

You are hereby notified that the attached motion/petition will be presented by me on _____, 20____.

() to the Prothonotary.

(9) Suggested order.

Every motion, request and application shall have attached thereto a suggested order granting the relief that is requested by the moving party.

(10) Service of order entered.

All orders entered by the Court after the presentation of a motion, request or application shall be served upon all opposing parties or their counsel by the moving party within three (3) business days after the entry of the order by the Court. Service of a conformed order is sufficient. As a courtesy, the Prothonotary may furnish a copy of the

actual order at a later date, but the responsibility of the moving party to effectuate service is not relieved thereby.

Comment

The purpose of this rule is to process motions, requests and applications as efficiently as possible. Uncontested motions will move through the system quickly, should be clearly identified as "uncontested" and must be filed with the Prothonotary. Contested motions may either be filed in the Office of the Prothonotary or in Motions Court. The use of Motions Court practice is greatly encouraged for all matters which are not likely to require lengthy evidentiary hearings or involve argument on complex legal issues. Counsel desiring to take advantage of the Motions Court practice must be diligent in complying with the notice requirements as a matter of fundamental fairness.

Rule 210 Briefs.

Briefs shall be typewritten, dated and double spaced (except for quotations) on paper 8 1/2 × 11 inches in size, and shall contain:

- (1) A history of the case.
- (2) A statement or counterstatement of facts.
- (3) A statement of the question or questions involved.
- (4) A copy of, or reference to, the pertinent parts of any relevant document, report, recommendation or order.
- (5) An argument with citations relied upon.
- (6) A conclusion stating the relief sought.
- (7) A certificate of service that the brief has been served upon all parties or counsel in accordance with Pa.R.C.P. 440.

Briefs shall be filed with the Prothonotary who shall date and time stamp the briefs and transmit them to the Judge or Court Administrator promptly after receiving the same. (See Cra.R.C.P. 307(5) for the timing requirements). (See Cra.R.C.P. 1034(a) and 1035.2(a) covering briefs on motions for judgment on the pleadings and motions for summary judgment.)

Rule 212.1 Civil Actions to be Tried by Jury. Notice of Earliest Trial Date. Time for Completing Discovery and Filing Pretrial Statement. Nonjury Trials.

- (1) Jury trials in civil actions shall be held:
 - (a) In the months of February, April and October, as designated in the Court calendar published annually by the Court Administrator by the last day of the preceding year.
 - (b) At such other times specially set by the Court.
 - (2) Nonjury trials in civil actions shall be held on dates certain to be set by the Court Administrator after the close of the civil trial list.

- (3) Notice of earliest trial date.

The earliest trial date will be the first trial term following the date when the case is at issue and all pretrial procedures have been completed.

- (4) Trial lists and pretrial procedures.

Unless the Court, upon a party's or its own motion enters a case management or scheduling order, the procedure for moving a case to trial is as follows:

- (a) Completion of discovery.

Unless an extension of time is agreed to in writing by all parties or permitted by the Court upon cause shown, all discovery shall be completed within 75 days after a party has given notice to all other parties to do so. The notice may be given at any time after the pleadings are closed, shall specifically refer to the time limitation provided herein, shall be filed in the office of the Prothonotary and copies shall be served on all other parties.

- (b) Certificate of readiness.

To place the case on the trial list, counsel for a party or an unrepresented party shall file a certificate of readiness with a copy to be served on all other parties in accordance with Pa.R.C.P. 440 and with a certificate of service attached thereto. The certificate of readiness shall affirmatively state that the pleadings are closed, that discovery has been completed and that all preliminary matters have been concluded. A party that files a certificate of readiness may not be granted a continuance of the trial by reason of not being ready. A non-filing party who does not file timely objections to the certificate of readiness may not be granted a continuance by reason of not being ready. Whether the case is to be tried by a jury or nonjury must be stated clearly on the cover sheet. This does not affect the right to a jury trial or the manner in which a jury trial must be demanded.

- (c) Consent to trial listing.

If a certificate of readiness is signed by or on behalf of all parties, then discovery shall be deemed to be completed whether or not any party has complied with the notice to complete discovery.

- (d) Objection to certificate of readiness.

Any party or counsel who objects to the filing of a certificate of readiness shall file a Motion to Strike in Motions Court within 14 business days after receipt of the certificate of readiness. The Motion to Strike must specifically state the reasons for the objection.

- (e) Trial lists.

Upon receipt of a certificate of readiness, the Prothonotary shall list the case for the trial term that begins at least 75 days after the date the certificate of readiness was filed and shall give a written notice to all parties of the date and time for the first day of trials.

- (f) Compilation and publication of jury and nonjury trial lists.

At the close of any trial list, the Prothonotary shall compile a list of the cases in chronological order according to the date the certificate of readiness was filed, giving preference, however, in the preparation of trial lists, to cases described in Pa.R.C.P. 214. The list shall be posted on the bulletin board in the Prothonotary's office, five (5) copies shall be sent to the Court Administrator and one (1) copy mailed to each attorney of record and non-represented parties promptly.

- (g) Dates when pretrial statements are due.

(i) A pretrial statement shall be filed by all plaintiffs within 30 days after certificate of readiness is filed.

(ii) Pretrial statements shall be filed by all defendants and all additional defendants within 45 days after the certificate of readiness is filed.

(iii) The Court may not set a pretrial conference or a trial date in any case where any party has failed to file a pretrial narrative.

- (h) Call of trial list.

There will not be a call of the civil trial list. Matters that historically were taken up at the call of the civil trial list in Crawford County will only be brought to the attention of a judge in response to a motion filed in accordance with motions practice.

(5) Status Conferences.

Status conferences may be ordered by the Court on its own or upon written motion of a party, which motion shall set forth reasons in support of a request for a status conference. The Court may enter appropriate orders at the conclusion of the status conference.

(6) Special management cases.

(a) Any party may file a motion for special management status with a proposed order in keeping with motions practice. The motion shall be filed at any time up to 60 days after the close of the pleadings and shall state the reasons for the request. The Court on its own may designate a case for special management.

(b) Criteria for special management may include any of the following:

- (i) Large number of parties.
- (ii) Large number of claims or defenses.
- (iii) Complex factual or legal issues.
- (iv) Large volume of evidence.
- (v) Problems locating or serving evidence.
- (vi) Extensive discovery.
- (vii) Exceptionally long time to prepare for disposition.
- (viii) Exceptionally short time needed for a decision.
- (ix) Need to decide preliminary issues before final disposition.

(c) Special management designation shall be made at the discretion of the Court. Cases granted special management status shall be assigned to an individual Judge.

(d) After a case has been given special management designation all subsequent filings shall include, under the civil action number on the cover page, the words "SPECIAL MANAGEMENT: ASSIGNED TO JUDGE _____."

(e) After the Court has granted special management designation any party may request, by motion, or the Court may, on its own, schedule a status conference to address, inter alia, the following:

- (i) Discovery issues.
- (ii) Issues involving experts.
- (iii) Pretrial motions.
- (iv) Settlement conferences, mediation or other alternative dispute resolution.
- (v) Management and scheduling provisions.
- (vi) Establishing tentative trial dates.

Comment

Status conferences may be beneficial for several reasons. For instance, at the early stages of a case, it may be appropriate that a case specific scheduling order be established. Likewise, at the later stages of the case, the parties may want to set a schedule for the disposition of the case that calls for shorter time periods than those set forth in these rules in order to bring a case to trial much faster. Status conferences may not be necessary in every case, but can afford a perfect opportunity for the parties

and the Court to meet, discuss and determine the best path and schedule that the case should take.

Comment

In compulsory arbitration cases these rules only apply if an appeal is taken.

Rule 212.2 Civil Actions to be Tried by Jury. Pre-trial Trial Statement. Content. Sanctions. Nonjury Trials.

In addition to the requirements governing the content of pretrial statements set out in Pa.R.C.P. 212.2 each pretrial statement in any civil case shall contain:

(1) A brief statement of all legal issues involved or reasonably anticipated. The Court may require trial briefs on specific legal issues.

(2) An estimate of the length of the trial, any trial scheduling preferences and any scheduling conflicts.

(3) A certificate that the attorney has checked with all witnesses who are listed and they are available for trial.

Rule 212.3 Pretrial Conferences. Settlement Conferences.

(1) Pretrial Conferences.

(a) Unless otherwise ordered by the Court, pretrial conferences will be scheduled by the Court Administrator shortly after the trial list closes.

(b) In addition to the matters set forth in Pa.R.C.P. 212.3 for consideration of a pretrial conference, the Court will consider, and attempt to resolve, all motions in limine filed up to that time. All known or anticipated pretrial motions in limine should be presented prior to or at the pretrial conference.

(c) Attorneys present at a pretrial conference must have complete authority to enter into stipulations concerning liability, and other trial-related and evidentiary issues.

Comment

It is expected that by the time of the pretrial conference all depositions for use at trial have been completed and there will be no further depositions, for discovery or for use at trial, to be held between the time of the pretrial conference and the beginning of the upcoming civil trial term. The Court may, on its own, continue the trial to a later term if there are any depositions to be taken after the pretrial conference. By the time the case gets to the pretrial conference stage, the Court expects that all parties are then ready for trial.

Comment

In compulsory arbitration cases these rules only apply if an appeal is taken.

(2) Settlement Conferences.

(a) A settlement conference may be held at the discretion of the Court or on written request of a party, which said request shall set forth substantial reasons for the conference. The Court may hold a settlement conference prior to or after a pretrial conference.

(b) At least five (5) days prior to the settlement conference, all plaintiffs shall have made a bona fide written demand and proposal of settlement on all opposing counsel and non-represented parties. By the time of the settlement conference, each defendant or additional defendant shall respond in writing to such written to demand.

(c) Each party, corporation, and insurance carrier of a party who has an actual interest in the case, or can have an effect on the settlement of the case, shall be personally present at the settlement conference and be represented by someone authorized to speak for such party, corporation or insurance carrier with respect to the trial of the case and the settlement of the case, and who is also authorized to settle the case within any policy limits or up to any plaintiff's demand that is within the policy limits. The Court, on motion filed at least five (5) business days prior to the settlement conference, may for good cause, permit a party or representative to appear by telephone rather than in person.

Rule 216 Grounds for Continuance.

(1) Trial Continuances.

All requests for a continuance of a jury trial must be made at least 45 days prior to the first date of trials. Thereafter, no request for continuance will be granted except for substantial reasons. By signing a motion to continue, an attorney is representing to the court that the attorney's client has been consulted and is aware of the motion.

(2) Consent to Second Continuance.

Only one (1) continuance of a case by agreement of counsel will be permitted. Thereafter, any further motions for continuance by agreement may be refused and will not be considered by the Court unless there is endorsed thereon a statement signed by all of the parties to the action that they are aware of the filing of said motion and consent to a continuance.

(3) Counsel—Other Required Court Appearances.

If the basis for a continuance is a required appearance of an attorney or party in a Court in another county the policy of this Court is to grant such a continuance only if the other matter was scheduled before the Crawford County matter was scheduled. Any motion for a continuance on these grounds must include a true and correct copy of the scheduling order entered by the other Court. This Court may communicate with the other Court in order to resolve any conflicts to the benefit and satisfaction of both courts.

Rule 223 Conduct of the Trial. Generally.

(1) Status Conference.

Plaintiff's counsel shall deliver to the Court Administrator, at the time a medical professional liability action is filed with the Prothonotary, a time-stamped copy of the cover sheet of the complaint or praecipe to issue a summons. Ninety (90) days after a medical professional liability action is filed with the Prothonotary, the Court Administrator shall thereafter schedule a status conference before a Judge for the purpose of, inter alia, considering and determining the manner and time in which the case shall proceed through discovery, pretrial motions, mediation, settlement conferences, pretrial conferences and trial for the mutual benefit of the parties and the Court.

(2) Selection of Cases for Mediation.

Upon motion of any party, including a motion pursuant to Pa.R.C.P. 1042.21, or upon written agreement of the parties or on its own motion, the court may refer a case to mediation. Any objection to a motion to request mediation must be filed within ten (10) days of the filing of the motion. A case ordered for mediation shall remain on any trial list upon which it has been placed, but shall not proceed to trial until the mediation process has concluded.

(3) Mediation.

(a) Agreement of the Parties.

All parties are encouraged to stipulate to the terms and conditions of mediation including, but not limited, to the matters referred to in this rule.

(b) Expectations of the Parties.

When ordered by the Court to participate in medical professional liability mediation, the parties are not required to reach a resolution. They are expected to: engage in principled negotiations, commit to the process, keep an open mind, discuss openly and freely, understand the needs of others, and explore ways to create a mutually acceptable resolution in good faith.

(c) Selection of Mediators.

The parties are encouraged to agree on the mediator and, if appropriate, co-mediator. If they cannot agree, then the Court will select a mediator and, if appropriate, a co-mediator, either on its own or by choosing among suggestions made by the parties.

(d) Judge as Mediator.

The Court, in its discretion, may choose a Judge to serve as mediator.

(e) Type of Mediation.

The parties and the Court shall decide at the outset whether the mediation shall be the facilitative model, the evaluative model, or the facilitative/evaluative hybrid model.

(f) Qualifications of the Mediator/Co-Mediator.

Any mediator or co-mediator, except a Judge, shall have at least the following qualifications: successful completion of an appropriate mediation course of formal training or education (preferably a recognized course of at least forty (40) hours); participation in a minimum of five (5) mediated medical professional liability cases or, in lieu thereof, a minimum of ten (10) mediated civil personal injury cases; mediation professional liability insurance; compliance with all ethical standards of the mediator profession; and the ability to satisfy the parties' practical needs for availability and affordability.

(g) Objections to the Mediator.

Any objection to a named mediator is waived by any party who fails to file an objection within fifteen (15) days after the mediator is named by the Court.

(h) Role of the Mediator.

Mediation is a confidential, informal, nonadversarial process where a neutral third party assists disputing parties in resolving by agreement some or all of the differences between them. It shall be the role of the mediator to facilitate communication, clarify interests and issues, identify information that may be gathered to assist in making decisions, foster joint problem solving and assist the parties in reaching a mutually acceptable settlement of their dispute.

Mediators will not provide legal advice, although in evaluative mediations, mediators may express opinions on the applicability of the law to the facts to the extent that such opinions may, in the judgment of the mediator, be helpful in facilitating a settlement. Mediators may offer recommendations, evaluations or suggest settlement proposals, but mediators act for no party and have no authority to make any decisions or compel an agreement. Parties will rely solely on the advice of their attorneys, as well as their own judgment in arriving at a resolution of the dispute and cannot claim to have relied to their detriment on any advice or comment of a mediator.

(i) Time and Place.

The mediation shall be conducted at a time and place to be arranged by the parties. It is expected that mediation shall take place within forty-five (45) days of the date the mediation order is entered. It is preferred that mediation will not take more than one (1) day. Each party shall pledge to be fully prepared for mediation at that time and make every effort to keep the mediation session within that time frame. Subsequent sessions will be arranged if the parties or the mediator believe(s) that sufficient progress is being made to merit another session. Media-

tion should be completed within sixty (60) days from the date of the order or agreement to mediate.

(j) Preconference Submissions.

Each party will prepare a preconference statement that shall be presented to the mediator not less than ten (10) days prior to the mediation conference. The summary should not exceed six (6) pages or such additional length as the mediator may permit. Statements should address, in concise form:

(i) Statement of facts including description of the injury and list of special damages and expenses incurred and expected to be incurred;

(ii) Theory relative to liability and damages, and authorities in support thereof;

(iii) Summary of reports of experts and testimony of key non-expert witnesses;

(iv) Status of the case, and expected trial date;

(v) Last demand and offer, if any.

A limited number of documents may be attached to assist the mediator and the parties, but counsel and parties are urged to keep the number of attachments to a minimum. Summaries of data are encouraged, as are stipulations of the parties. The parties are not to attach copies of discovery requests, pleadings, motions, etc. but to provide fair and accurate statements/attribution, since the primary purpose of the preconference submission is to accurately inform the mediator of the facts and issues.

(k) Attendance and Settlement Authority.

Every party or entity that has an interest in the outcome of the case, may be affected by the outcome of the case, has the ability to effect a resolution, etc. is required to attend the mediation session. Each shall have the authority to settle the case. Each defendant, or each party representing or having an interest in a defendant's case, shall have the authority to settle up to its policy limits or the last demand of a plaintiff, whichever is less. Mediators may postpone the mediation or require the participation of an individual by telephone or by direct communication with the mediator. Telephone attendance must be arranged ahead of time. In an appropriate case, representatives of the M(Care) Fund must either attend in person or be available by telephone during all mediation sessions. If any party or person required to attend fails to appear at the mediation session without good cause, or appears without decision making discretion, the Court, sua sponte, or upon motion, may impose sanctions, including an award of reasonable mediator and attorney's fees and other costs, against any defaulting responsible party.

(l) Confidentiality.

The mediation process must comply with any Pennsylvania statutory mediation confidentiality provisions (42 Pa.C.S. § 5949). Mediation proceedings constitute settlement negotiations between and among the parties and mediators. Therefore, all statements made by, or on behalf of, the parties or their representatives relating to anything arising out of or relating to the mediation process, and any documents created for or during the mediation process are beyond the scope of discovery and are not admissible into evidence for any purpose, including impeachment, in any pending or subsequent proceeding. The obligation of total confidentiality will apply to all participants in the mediation process. Evidence that is discoverable or admissible is not rendered inadmissible or undiscoverable as a result of its use in the mediation

process (for example: medical records maintained by a physician). If a settlement agreement is reached, it shall be binding upon the parties thereto, and its terms and enforcement shall be governed by the terms of the agreement and not subject to the confidentiality provisions herein. Confidential communications and settlement offers of the parties may not be disclosed or discussed with any other persons, including attorneys representing parties with similar or unrelated claims or the media, or via electronic means, to the general public, or in any other judicial proceedings, including a conciliation before a trial court Judge, or special master. If the mediation did not result in settlement, the final settlement position of any party may not be divulged to any third party, including a Judge, without the consent of all parties.

(m) Mediators Privilege and Immunity.

No party shall request nor subpoena a mediator to testify or provide evidence in any matter for any reason, nor will a party request or subpoena any mediator's notes, records or any material in possession of the mediator, for any purpose. Mediators shall have the same immunity as Judges and judicial employees have under the laws of the Commonwealth of Pennsylvania, and no mediator is, or will claim to be, a necessary party in any judicial, quasi-judicial or administrative proceeding arising out of or relating to any mediation or the underlying litigation.

(n) Fees and Expenses.

Unless the parties agree otherwise, the Court will order the parties to share, equally, the cost and charges of the mediator, including any deposit or prepayment required by a mediator.

(o) Communications Between Mediators and the Court.

During a mediation, a Judge should only be informed of the following:

(i) The failure of a party to comply with the order to attend mediation;

(ii) Any request by the parties for additional time to complete the mediation;

(iii) If the parties agree, any procedural action by the Court that would facilitate the mediation; and

(iv) The mediator's assessment that the case is inappropriate for mediation.

When the mediation has been concluded, the Court should be informed of the following:

(i) That an agreement has been reached;

(ii) That the parties did not reach an agreement on any matter. The mediator shall report the lack of an agreement to the Court without comment or recommendation; and

(iii) With the consent of the parties, the mediator's report may also identify the pending motions or outstanding legal issues, discovery process or other action by any party which, if resolved or completed, would facilitate the possibility of a settlement.

Whenever possible, all communications with the Judge should be made jointly by the parties. Ex parte communications by less than all of the parties with the Court will not be permitted. Any party seeking further Court action must follow state and local petition and motion practice. Where the mediator must communicate with the Judge, such communications shall be made in writing.

COMPULSORY ARBITRATION**Rule 1301 Arbitration.**

(1) Cases Subject to Arbitration.

All cases which are at issue where the amount in controversy shall be twenty-five (\$25,000) thousand dollars or less, exclusive of interest and costs, shall be submitted to and heard by a Board of Arbitrators consisting of three (3) members or one (1) member of the Bar in active practice in this County.

In all cases where a party has obtained a judgment by default, said party may elect to have unliquidated damages assessed at a trial by arbitration with the issues limited to the amount of damages which shall not exceed twenty-five (\$25,000) thousand dollars. The election to assess damages by arbitration shall constitute a waiver by the party making such election of any damages in excess of \$25,000.

(2) Arbitration by Stipulation.

By agreement signed by the parties or their counsel, the parties may agree to submit a case to arbitration. Such agreement shall define the issues and contain such stipulation as to facts, admissions, or waivers of defenses or proofs as are agreed upon.

(3) Exceptions.

These rules shall not apply to the following actions:

- (a) Ejectment
- (b) Quiet Title
- (c) Replevin—except by Order of Court
- (d) Mandamus
- (e) Quo Warranto
- (f) Mortgage Foreclosure
- (g) Actions requiring Equitable or Declaratory Relief
- (4) Compensation of Board.

(a) Each member of a Board of Arbitration who has signed an award shall receive as compensation a fee in an amount as set by the Court from time to time by special order. Where hearings exceed 1/2 day, the arbitrators may petition the Court for additional compensation, which may be granted for cause shown.

(b) In the event that a case shall be settled or withdrawn or otherwise terminated by or between the parties before the board members have attended any hearing, the board members shall not be entitled to a fee. The attorney for the plaintiff(s) in such case shall file a praecipe with the Prothonotary, requesting that the board so appointed be vacated.

(c) When the arbitrators certify that a case was settled or withdrawn after the hearing began but no report or award was made, the arbitrators need not file a report and shall be entitled to a fee.

(5) Procedure for Payment.

Where the arbitrators are entitled to a fee, the Prothonotary shall certify to the County Commissioners and to the County Treasurer the names of the members of the Board and an Order for payment. The County Commissioners and Treasurer shall pay the applicable fee to each member of the Board. Such fees shall not be taxed as costs.

Rule 1302 List of Arbitrators. Appointment to Board. Oath.

(1) Eligibility to Serve as Arbitrators.

Only persons actively engaged in the practice of law in Crawford County shall be eligible to serve as arbitrators. For purposes of this rule, persons "actively engaged in the practice of law" are persons who regularly maintain a law office in Crawford County for the practice of law. That shall include part-time assistant public defenders and part-time assistant district attorneys. Excluded are the chief public defender, the district attorney, and full time assistant public defenders and full-time assistant district attorneys. Only persons admitted to the practice of law for at least five (5) years are eligible to serve as chair of the Board of Arbitrators.

(2) List of Arbitrators.

The Prothonotary of Crawford County shall, on or before January 1 of each year, compile a list of persons eligible to serve as arbitrators and a list of persons eligible to serve as chair of Boards of Arbitrators.

(3) Selection of Board.

A party wishing to have an arbitration hearing shall file a Praecipe for Arbitration with the Prothonotary. The Praecipe shall state whether the moving party elects to proceed under the First Selection Method or the Second Selection Method set forth below. If the moving party selects the First Selection Method, any opposing party may, within ten (10) days of the date he/she was served with the Praecipe, file a Responsive Praecipe to Election with the Prothonotary requesting that the panel be selected with the Second Selection Method, in which case the Prothonotary shall proceed under the Second Selection Method to select the Arbitration Panel. If no praecipe is filed by a responding party within ten (10) days of the service date, the Prothonotary shall proceed to select the Arbitration Panel under the First Selection Method. A Praecipe for Arbitration shall contain a certificate of service indicating service upon all other parties and the date of service.

(a) First Selection Method.

The Prothonotary shall select the first three (3) available attorneys in alphabetical order from the list maintained by the Prothonotary; the first member named who is eligible to be chair shall be chair of the board; or

(b) Second Selection Method.

The Prothonotary shall nominate a list of seven (7) attorneys selected at random from the entire list of arbitrators, with an additional two (2) attorneys for each additional party with an adverse interest. The Prothonotary will mail the list to each party or their counsel with an endorsement of the date of mailing. Each party shall have the right to strike off two (2) attorneys from the list and file the list with the Prothonotary within ten (10) days after the Prothonotary's date of mailing. Any party who fails to file a proper selection list with the Prothonotary within ten (10) days, waives its right to strike. After ten (10) days, the Prothonotary shall appoint the first three attorneys from the nomination list who have not been stricken. The first member named who is eligible to be chair shall be chair of the Board.

(c) Sole Arbitrator.

A sole arbitrator may be selected to adjudicate the case by agreement of all parties. The award shall have the same effect as that of a three (3) person panel. The Prothonotary shall nominate a list of five (5) attorneys

selected at random from the entire list with an additional two (2) attorneys for each additional party with an adverse interest. Each party alternately in the order in which the parties appear in the caption, shall have the right to strike off two attorneys from the list at a time. The remaining attorney shall be the sole arbitrator. This selection process shall be completed within ten (10) days after the Prothonotary mails the list to each party or their counsel with an endorsement of the date of mailing. Any party who fails to file a proper selection list for the Prothonotary within said ten (10) days waives its right to strike.

(4) Notification of Appointment and Objections.

The Prothonotary shall file the appointment of the Board of Arbitrators and shall deliver a copy thereof to the chair and to each party or their counsel of record. Attorneys must sign their qualifications within five (5) business days after their appointment. The Prothonotary shall approach the President Judge if attorneys have not signed their qualification within said period of time. Any party may object to the composition of the Board of Arbitration at this point only for good cause shown. The filing of such objections shall operate as a stay of proceedings. The party filing such objections shall serve a copy thereof upon all other parties or their counsel and shall give notice of intention to present the objections to Motions Court. Failure to file such objections within five (5) days of delivery of notice of the appointment shall operate as a waiver thereof.

(5) Companion Cases.

The Prothonotary shall appoint the same Board to serve as arbitrators in any companion case.

(6) Vacancies on Board—Prior to Hearing.

Should a vacancy on the Board of Arbitration occur prior to hearing, or should a member of the board fail to attend the hearing, a member of the Board shall notify the Prothonotary, who shall immediately vacate that appointment and make an appointment to fill that vacancy.

(7) Post-Hearing Vacancies.

Should a vacancy on the Board of Arbitration occur after hearing but before an award is signed by all arbitrators, or should a member of the board fail or refuse to perform his/her duties, the award shall be signed and filed by the remaining members of the Board. If they are unable to agree, they shall notify the Prothonotary who shall appoint a third member. Thereafter, the arbitrators may in their discretion schedule a rehearing for the new Board, which shall thereafter file an award.

Rule 1303 Hearing. Notice.

(1) Scheduling of Hearing.

The Chair shall fix the date, time and place of arbitration hearings, which shall be held within sixty (60) days after appointment of the Board of Arbitrators and shall be held at the Crawford County Courthouse.

(2) Notice.

Notice of the hearing shall be in writing and mailed to all unrepresented parties by certified mail, return receipt requested, and counsel for represented parties by regular mail at least thirty (30) days prior to the hearing date, all in accordance with Pa.R.C.P. 1303. Arbitrators shall be notified by regular mail.

(3) Continuances.

The Board of Arbitrators shall have the power to grant one continuance for good and sufficient reason before the hearing convenes and shall immediately reschedule the hearing for a time not more than thirty (30) days beyond the date set for the original hearing. A party requesting further continuances must file a motion with the Court in keeping with Cra.R.C.P. 208.3 governing motions practice.

(4) Compliance with Time Requirements.

The Court expects arbitrators and parties to comply with all time limits governing arbitration. Any arbitrator or party that believes the arbitrators or any other party are not following any time limits or time requirements governing arbitrations may file a motion with the Court for relief. The Court may sanction those who do not comply with the arbitration time requirements.

Rule 1304 Conduct of Hearing. Generally.

The Board or Arbitrators shall have no power to allow amendment of pleadings, the addition or substitution of parties, nor rule on preliminary objections, motions for judgment on the pleadings or motions for summary judgment.

Rule 1305 Conduct of Hearing. Evidence.

(1) Pretrial Exchange of Information.

In all cases subject to compulsory arbitration, the parties shall exchange the following information at least twenty (20) days prior to the arbitration hearing:

(a) A copy of all expert reports, including those from physicians, whom the party expects to call as a witness at the arbitration. These shall include the substance of the facts, findings or opinions of the expert, as well as a summary of the grounds or reasons for each opinion. The report must be signed by the expert.

(b) Names and addresses of all witnesses the party expects to call.

(c) Copies of all exhibits the party intends to use at the arbitration, with the designation of those documents to be produced pursuant to Pa.R.C.P. 1305.

If timely production is not made of any of the information required above, such evidence may be excluded by the arbitrators.

(2) Rulings on Objections.

Initially, all rulings on objections to evidence or on other issues which arise during the hearing shall be made by the Chair of the Board of Arbitrators and such rulings shall be final unless objected to by one of the other arbitrators. In the latter instance, the arbitrators shall consult and vote and the final ruling shall be that of the majority.

(3) Release of Exhibits.

Following the hearing and entry of award, the Chair of the Board of Arbitrators shall release the exhibits to the party that offered them.

Rule 1306 Award.

The arbitrators shall file their award within seven (7) days after the completion of the arbitration hearing. Arbitrators who fail to file the award as required by this rule may forfeit their fees. The arbitrators may consider the subject of damages for delay after an award has been made in accordance with Pa.R.C.P. 238. Any such delay damages shall be added to the principal amount awarded, but shall be separately stated on the report and award.

**ACTIONS PURSUANT TO PROTECTION FROM
ABUSE ACT**

Rule 1901.3 Commencement of Action.

(1) Commencement of Action—Court Unavailable.

The Court shall be unavailable to accept petitions on holidays, weekdays after the close of Court, weekend periods from 4:30 o'clock p.m. on Friday until 8:30 o'clock a.m. the next regular Court business day as well as all other times when the courthouse is closed for business. (iv) Programs that exist for victims of domestic violence;

(a) If a petitioner desires to discontinue an action after a temporary abuse order has been entered but before the hearing, the petitioner shall sign a written discontinuance on a form provided by the Prothonotary and file the same with the Prothonotary prior to the time scheduled for the hearing. All record Court costs shall be paid at the time the discontinuance is filed. If costs are not paid at that time, the Prothonotary shall not accept the discontinuance and the plaintiff is required to appear at the hearing so that the Court may determine the ability of the plaintiff to pay costs.

Except as hereinafter provided, the procedure with respect to enforcement by arrest and private criminal complaint shall be similar.

(2) Probable Cause Arrest.

A police officer may arrest a defendant for violation of a protection order (except for economic matters) upon probable cause, which shall be supplied by the victim, officer, witnesses or combination thereof. A complaint for indirect criminal contempt shall be completed, signed and filed by the arresting officer or the victim, along with a probable cause affidavit, on forms that are available in the Prothonotary's office or Court Administrator's office.

(3) Private Criminal Complaint.

A plaintiff may file a private criminal complaint against the defendant alleging indirect criminal contempt for non-economic violations of any provision of an order issued under the Protection From Abuse Act by the Court or a Magisterial District Judge. The private criminal complaint may be filed with the Prothonotary, the District Attorney, the Magisterial District Judge who entered the Protection From Abuse order or the Magisterial District Judge in the jurisdiction where the violation occurred.

(d) If the private criminal complaint is filed with the Prothonotary, the Prothonotary shall docket the complaint and forward it to the Court Administrator, who shall deliver the complaint to a Judge, and the procedure set forth above with respect to filings from the District Attorney shall apply.

(e) The Sheriff shall not require a deposit for service, however, the cost of service may be assessed to one or both of the parties when the hearing is held.

(a) When a defendant is arrested by a police officer upon probable cause or pursuant to a private criminal complaint for violation of a Protection From Abuse order issued by a Judge or an emergency order issued by a Magisterial District Judge, the defendant shall be preliminarily arraigned forthwith before the Court, or if the Court is unavailable, before a Magisterial District Judge.

(b) If the arraignment occurs during the Court's business hours, the Magisterial District Judge shall contact the Court Administrator to obtain a time and date for the hearing. The Magisterial District Judge shall then inform the plaintiff and defendant of the date and time for the hearing in writing in the form attached to this rule.

If the Magisterial District Judge is unable to contact the Court Administrator at the preliminary arraignment, the Magisterial District Judge shall contact the Court Administrator as soon thereafter as possible. (ii) That a hearing will be held in the Court of Common Pleas of Crawford County when scheduled by the Court Administrator; and

(iii) That the defendant is entitled to be represented by counsel, and if unable to afford counsel, free counsel may be appointed. The defendant should immediately contact the office of the Public Defender of Crawford County.

Title 70—WEIGHTS, MEASURES AND STANDARDS

DEPARTMENT OF GENERAL SERVICES

DEPARTMENT OF AGRICULTURE

[70 PA. CODE CHS. 2, 10 AND 110]

General Provisions; Device Type Approval; State Metrology Laboratory

The Department of General Services (DGS) and the Department of Agriculture (Department) adopt fees for

testing services performed by the State Metrology Laboratory by amending §§ 2.1 and 10.10 (relating to definitions; and fees) in the Department's regulations and adding Part V (relating to State Metrology Laboratory), administered by DGS.

Statutory Authority

The final-form rulemaking is made under the authority of 3 Pa.C.S. §§ 4101—4194 (relating to Consolidated Weights and Measures Act) (act). Section 4178 of the act (relating to fees) requires that DGS establish, by regulation, fees for metrology laboratory calibration, type evaluation and other testing services. Section 4190 of the act (relating to rules and regulations) provides the Department authority to regulate as necessary to implement the act.

Purpose of the Final-Form Rulemaking

The final-form rulemaking fulfills the statutory requirement that DGS establish, charge and collect the fees in section 4178 of the act. Currently, the State Metrology Laboratory (Laboratory) provides these services without charge. The final-form rulemaking is necessary to comply with the act. Adoption of the final-form rulemaking will ensure that taxpayer dollars are not used to pay for testing by the Laboratory when user fees are statutorily authorized and required. The final-form rulemaking adds definitions in § 2.1, amends § 10.10 to clarify that DGS shall charge fees for metrology testing as required by the act and establishes Part V, in which DGS adopts procedures and sets fees to for Laboratory testing services.

Notice of proposed rulemaking was published at 35 Pa.B. 2631 (April 30, 2005). Publication was followed by a 30-day public comment period during which DGS did not receive any comments. The Senate State Government Committee, the House State Government Committee, the Senate Agriculture and Rural Affairs Committee and the House Agriculture and Rural Affairs Committee had no comments. On June 30, 2005, the Independent Regulatory Review Commission (IRRC) submitted two comments to the proposed rulemaking.

Comments and Responses

IRRC recommended that the rulemaking include language recognizing that State agencies are statutorily exempt from payment of the fees. This recommendation has been implemented in the final-form rulemaking. Section 110.2(b) (relating to State Metrology Laboratory fee schedule) has been amended to more closely parallel the statute by stating that Commonwealth agencies are exempt from the fees. IRRC also recommended that the regulation explicitly provide that the fee deposit is nonrefundable. Section 110.2(d) was amended to reflect that the deposit is nonrefundable.

Fiscal Impact

Commonwealth: The estimated annual revenue to the Commonwealth (DGS) from the final-form rulemaking is approximately \$105,000. The final-form rulemaking should not result in additional costs to the Commonwealth.

Public Sector: No other government entity will incur any costs or realize any savings.

General Public: The final-form rulemaking will impose no costs and have no fiscal impact upon the general public.

Affected Businesses: Affected businesses that use Laboratory services will have to pay the fees set in the final-form rulemaking. The anticipated average fee per user is estimated to be \$262.50.

Paperwork Requirements

The final-form rulemaking will result in an increase in paperwork for the Laboratory, which will be required to issue invoices, collect payments and transmit payments to the State Treasury. Under section 4193(c) of the act (relating to disposition of funds), the Treasury Department will have an increase in paperwork to reflect the receipt of the fees from DGS and to credit the fees collected to the general government appropriations of DGS for the operation and maintenance of the Laboratory.

Effective Date

This final-form rulemaking will take effect upon publication in the *Pennsylvania Bulletin*.

Additional Information

Individuals who need information about the final-form rulemaking should contact Mary Benefield Seiverling, Assistant Chief Counsel, Office of Chief Counsel, Department of General Services, 603 North Office Building, Harrisburg, PA 17125, (717) 787-5599.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on April 20, 2005, DGS and the Department submitted a copy of the notice of proposed rulemaking, published at 35 Pa.B. 2631, to IRRC. On that same date, the Department submitted a copy of the proposed rulemaking to the Chairpersons of the House Agriculture and Rural Affairs Committee and the Senate Agriculture and Rural Affairs Committee and DGS submitted a copy of the proposed rulemaking to the Chairpersons of the House Committee on State Government and the Senate Committee on State Government. IRRC provided the Committees with a copy of its comments.

Under section 5(c) of the Regulatory Review Act, IRRC and the Committees were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the House and Senate Committees and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on September 7, 2005, the final-form rulemaking was deemed approved by the House and Senate Committees. Under section 5.1(e) of the Regulatory Review Act, IRRC met on September 8, 2005, and approved the final-form rulemaking.

Findings

DGS and the Department find that:

(1) Public notice of intention to adopt this final-form rulemaking has been given under sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and the regulations promulgated thereunder, 1 Pa. Code §§ 7.1 and 7.2.

(2) The final-form rulemaking adopted by this order is necessary and appropriate for the performance of DGS and the Department duties under The Administrative Code of 1929 (71 P. S. §§ 51—732).

Order

DGS and the Department, acting under the authorizing statutes, order that:

(a) The regulations of DGS and the Department, 70 Pa. Code Chapters 2, 10 and 110, are amended by amending §§ 2.1 and 10.10 and by adding § 110.1 to read as set forth at 35 Pa.B. 2631 and by adding § 110.2 to read as set forth in Annex A.

(b) The Secretaries of DGS and the Department shall submit this order, 35 Pa.B. 2631 and Annex A to the Office of Attorney General for approval as to legality and form as required by law.

(c) The Secretaries of DGS and the Department shall certify and deposit this order, 35 Pa.B. 2631 and Annex A with the Legislative Reference Bureau as required by law.

(d) This order shall take effect upon publication in the *Pennsylvania Bulletin*.

Secretary
Department of Agriculture

(Editor's Note: For the text of the order of the Independent Regulatory Review Commission, relating to this document, see 35 Pa.B. 5332 (September 24, 2005).)

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental

cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the

date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications Received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

The Plan Approval is for a Non-Title V State-only facility. The condensers for the two 100-gallon reactors will increase in size from 40 ft² to 79 ft² and the condensers for the two 50-gallon reactors will increase

from 15 ft² to 23 ft². The material for the condenser coils will be changed from glass to an alloy with better corrosion resistance and fabricability. The process will have emissions reduced by 95 to 99% due to the condensers. The installation of the 100-gallon reactor will increase the VOC emissions by 1.5 tons per year, therefore the overall VOC emission limit will increase from an existing 3.0 tons per year limit to 4.5 tons per year limit on a 12-month rolling basis. The plan approval will include monitoring, recordkeeping and reporting requirements to keep the facility operating within all applicable air quality requirements.

(9 Iron Bridge Drive, Collegetown, PA 19426) for installation of a Methanol Glass Cleaning Operation, that uses methanol as cleaning agent, at the Transicoil military, aerospace and medical product and parts manufacturing new facility at 9 Iron Bridge Drive, Collegetown, PA 19426, Perkiomen Township, **Montgomery County**. The installation of the methanol glass cleaning operation may result in the emissions of 4.2 tons per year of methanol. Methanol is a VOC and a HAP. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Northeast Region: Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711-0790, Mark Wejkszner, New Source Review Chief, (570) 826-2531.

Code §§ 127.44(b) and 127.424(b), the Department of Environmental Protection (Department) intends to issue a Plan Approval to Northeastern Power Co., for their facility in the Kline Township, Schuylkill County. The facility currently has a Title V Permit No. 54-00008. This Plan Approval No. 54-305-021 will, in accordance with 25 Pa. Code § 127.450, be incorporated into the Title V Operating Permit through an administrative amendment at a later date.

Plan Approval No. 54-305-021 is for the construction and operation of anthracite refuse screening and loading facility. The company will add a 45 tons per hour capacity portable power screen unit at the existing facility to process anthracite refuse coal for the plant fuel. Water sprays will control particulate emission generated from this process. Installation of this screen will increase 2.5 tons per year of particulate emissions from the facility. The Plan Approval and Operating Permit will contain additional recordkeeping and operating restrictions designed to keep the facility operating within all applicable air quality requirements.

Copies of the application, Department's analysis and other documents used in the evaluation of the application are available for public review during normal business hours at Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711.

A concise statement regarding the relevancy of the information or objections to the issuance of the permit.

A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the comments received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper or the *Pennsylvania Bulletin* or by telephone, when the Department determines that telephone notification is sufficient. Written comments or requests for a public hearing should be directed to Mark J. Wejkszner, P. E., Chief, New Source Review Section, Air Quality Program, 2 Public Square, Wilkes-Barre, PA 18711, (570) 826-2511 within 30 days after publication date.

The facility emissions associated with this modification are not expected to change. The new RTO is subject to the Compliance Assurance Monitoring rule of 40 CFR Part 64, which will require the new RTO to meet specific monitoring and work practice standards to assure compliance with the applicable standard for VOCs. This plan approval and amended Title V operating permit will include testing, monitoring, recordkeeping and reporting requirements designed to keep the sources operating within all applicable air quality requirements.

36-05014G: Alumax Mill Products, Inc. (1480 Manheim Pike, Lancaster, PA 17604) for installation of two cartridge filter dust collection systems at the secondary aluminum processing plant in Manheim Township, **Lancaster County**. (2880 Blackbridge Road, York, PA 17402) for construction of a spray paint booth; the removal of one existing spray paint booth from the recuperative thermal oxidizer (RTO); the addition of another existing spray paint booth to the RTO; and an increase in the facility VOC emission cap from 100 tpy to 139.5 tpy at their casket manufacturing facility in Manchester Township, **York County**. These changes will result in a potential VOC emissions increase of 39.5 tpy. The plan approval and amended Title V operating permit will include emission restrictions, work practice standards and testing, monitoring, recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

67-05083: Conectiv Mid-Merit LLC (P. O. Box 6066, 92 DC 72, Newark, DE 19714-6066) for construction of a combined cycle electric generating facility in Peach Bottom Township, **York County**, off Atom Road along Pikes Peak Road, approximately 1 mile northeast of the Borough of Delta.

The proposed facility will have an overall nominal maximum generation capacity of 1,100 megawatts of electricity for sale. The primary fuel will be natural gas. Liquid distillate fuel (low sulfur light petroleum product or LSPP) will be used on a limited basis. The major components of the facility will include:

- (a) Six nominal 100-megawatt (MW) Siemens Westinghouse V84.2 combustion turbines.
- (b) Six selective catalytic reduction systems for NOx control.
- (c) Six unfired heat recovery steam generators.
- (d) Two nominal 150 MW steam turbines for a three-on-one configuration.
- (e) Two 4 million gallon fuel oil tanks.
- (f) Two mechanical draft cooling towers.
- (g) Each turbine has a 135 ft. simple cycle stack and a 188 ft. combined cycle stack.
- (h) Two 12,000-gallon (49,000 lb) anhydrous ammonia tanks.

A modeling analysis was conducted for CO, NOx, SO₂, and PM10. The modeling used five years of meteorological data collected at the Peach Bottom nuclear facility and the New Castle County Airport in Wilmington, DE and the Environmental Protection Agency's approved AERMOD and CALPUFF models. The modeling indicated that none of the emissions from the turbines will have a significant impact on the surrounding area. Additional analyses were performed to assess the proposed facility's impact on soils, vegetation, and visibility in the area and the closest Class I area. The predicted impacts from all modeled pollutants fell within the allowable concentration levels as long as fuel oil firing is limited. A plan approval condition has been included to limit fuel oil firing to prevent visibility impacts at Class I areas.

Conectiv's emissions, along with additional background sources will consume the following portion of the available Prevention of Significant Deterioration air quality increments:

<i>Pollutant</i>	<i>Avg. Time</i>	<i>Max. Modeled Impact ug/m3</i>	<i>Class II Area Increment ug/m3</i>
PM10	24-hour	13.2	30
SO ₂	3-hour	60.0	512
SO ₂	24-hour	20.7	91

The plan approval includes the following limits on annual emission from the facility:

<i>Pollutant</i>	<i>Facility Total (tons/year)</i>
NOx	460.2
CO	439.3
PM/PM ₁₀ ¹	526.0
SO ₂	301.0
VOCs ²	46.2
H ₂ SO ₄ Mist	46.1
Ammonia	444.5
HAPs	< 25 (total HAPs) < 10 (any single HAP)

¹ Includes 5.3 tons/year (tpy) from cooling towers.

² Includes 0.8 tpy from the liquid distillate fuel oil storage tanks, and 1.0 tpy from miscellaneous sources such as the pipeline gas condensate tank.

The Plan approval will contain the following conditions to ensure compliance with the noted regulations:

16. With respect to the operating periods specified in Condition 015, the permittee may operate the combustion turbines in Diffusion mode during the NOx Budget Rule "Control Period" (as defined in 25 Pa. PUBLIC HEARINGS

Southcentral Region: Air Quality Program, 909 Elmerton Avenue, Harrisburg, PA 17110, Ronald Davis, New Source Review Chief, (717) 705-4702.

67-05083: Conectiv Mid-Merit LLC (P. O. Box 6066, 92 DC 72, Newark, DE 19714-6066) for construction of a combined cycle electric generating facility. The facility is in Peach Bottom Township, **York County**, off Atom Road along Pikes Peak Road, approximately 1 mile northeast of the Borough of Delta.

The proposed facility will have an overall nominal maximum generation capacity of 1,100 megawatts of electricity for sale. The primary fuel will be natural gas. Liquid distillate fuel (low sulfur light petroleum product or LSPP) will be used on a limited basis. The major components of the facility will include:

- (a) Six nominal 100-megawatt Siemens Westinghouse V84.2 combustion turbines.
- (b) Six selective catalytic reduction systems for NOx control.
- (c) Six unfired heat recovery steam generators (HRSGs).
- (d) Two nominal 150 MW steam turbines for a three-on-one configuration.
- (e) Two 4 million gallon fuel oil tanks.
- (f) Two mechanical draft cooling towers.
- (g) Each turbine has a 135 ft. simple cycle stack and a 188 ft. combined cycle stack.
- (h) Two 12,000-gallon (49,000 lb.) anhydrous ammonia tanks.

A modeling analysis was conducted for CO, NOx, SO₂ and PM10. The modeling used five years of meteorological data collected at the Peach Bottom nuclear facility and the New Castle County Airport in Wilmington, DE and the Environmental Protection Agency's approved AERMOD and CALPUFF models. The modeling indicated that none of the emissions from the turbines will have a significant impact on the surrounding area. Additional analyses were performed to assess the proposed facility's impact on soils, vegetation, and visibility in the area and the closest Class I area. The predicted impacts from all modeled pollutants fell within the allowable concentration levels as long as fuel oil firing is limited. A plan approval condition has been included to limit fuel oil firing to prevent visibility impacts at Class I areas.

Conectiv's emissions, along with additional background sources will consume the following portion of the available Prevention of Significant Deterioration air quality increments:

<i>Pollutant</i>	<i>Avg. Time</i>	<i>Max. Modeled Impact ug/m³</i>	<i>Class II Area Increment ug/m³</i>
PM10	24-hour	13.2	30
SO ₂	3-hour	60.0	512
SO ₂	24-hour	20.7	91

The plan approval includes the following limits on annual emission from the facility:

<i>Pollutant</i>	<i>Facility Total (tons/year)</i>
NOx	460.2
CO	439.3
PM/PM ₁₀ ¹	526.0
SO ₂	301.0
VOCs ²	46.2
H ₂ SO ₄ Mist	46.1
Ammonia	444.5
HAPs	< 25 (total HAPs) < 10 (any single HAP)

¹ Includes 5.3 tons/year (tpy) from cooling towers.

² Includes 0.8 tpy from the liquid distillate fuel oil storage tanks, and 1.0 tpy from miscellaneous sources such as the pipeline gas condensate tank.

The Plan approval will contain the following conditions to ensure compliance with the noted regulations:

General Plan Approval Requirements

The State-only Operating Permit will contain additional recordkeeping and reporting requirements designed to keep the facility operating within all applicable air quality requirements.

Northcentral Region: Air Quality Program, 208 West Third Street, Williamsport, PA 17701, David Aldenderfer, Program Manager, (570) 327-3637.

49-00008: Milton Steel, Inc. (6 Canal Street, Milton, PA 17847) for operation of a steel shelving manufacturing facility in Milton Borough, **Northumberland County**.

The respective facility incorporates two heated paint dip tanks, a paint spray operation, various welding operations, 19 natural gas-fired heaters, furnaces, and the like, a solvent parts washer and a propane-fired emergency generator. The air contaminant emissions from this facility are not expected to exceed 32.05 tons of VOCs, 13.44 tons of hazardous air pollutants (of which no single hazardous air pollutant will total 10 or more tons per year), 4.51 tons of NO_x, 3.18 tons of CO, 4.74 tons of particulate matter, all of which may be PM₁₀ and .03 ton of SO_x per year.

The facility is not a major (Title V) facility for any air contaminant but, due to the theoretical potential to emit both VOCs and hazardous air pollutants at levels which would qualify the facility as such, Milton Steel, Inc. has elected to restrict their ability to emit VOCs and hazardous air pollutants such that they will be a "synthetic minor" facility with respect to the Title V permitting requirements.

The Department of Environmental Protection (Department) proposes to incorporate into the operating permit to be issued conditions requiring compliance with all applicable regulatory requirements pertaining to air contamination sources and the emission of air contaminants as well as conditions previously established in Operating Permit 49-318-034. These previously-established conditions include conditions requiring both dip tanks to be operated indoors, to be equipped with lids that remain closed except when a tank is in actual use or during tank cleaning, to clean the coating circulation systems associated with the dip tanks by flushing solvent through the entire system and reclaiming as much of the solvent in liquid form as is practicable and to clean the dip tanks by draining as much coating mixture from the tanks as is practicable then allowing the remaining coating mixture to dry and physically removing the dried residue, a condition limiting the VOC content of the coating used in the "blue tank" to 3.3 pounds of VOCs per gallon of coating mixture averaged over each calendar month period taking into account all materials added to the tank during each respective month, a condition limiting the VOC content of the coating used in the "orange tank" to 3.1 pounds of VOC per gallon of coating mixture averaged over each calendar month taking into account all materials added to the tank during each respective month, a condition limiting the combined VOC emissions from the dip tanks to 30 tons in any 12-consecutive month period and the combined hazardous air pollutant emissions to 12 tons in any 12-consecutive month period, a condition prohibiting the use of coatings, coating additives and cleaning solvents which contain methylene chloride, 1,1,1-trichloroethane, perchloroethylene or formaldehyde and a condition requiring all volatile organic compound-containing materials to be stored in closed containers when not in actual use.

The Department additionally proposes to incorporate into the operating permit to be issued a condition limiting the total combined facility-wide emission of VOCs to less than 50 tons in any 12-consecutive month period and a condition limiting the total combined facility-wide emission of any single hazardous air pollutant to less than 10 tons in any 12-consecutive month period and the total combined facility-wide emission of all hazardous air pollutants combined to less than 25 tons in any 12-consecutive month period.

The Department also intends to incorporate into the operating permit to be issued appropriate recordkeeping and reporting requirements intended to help monitor compliance with the permit conditions described above as well as with applicable regulatory requirements.

(Route 219 and Route 59 intersection, Lewis Run, Lafayette, PA 16738) for a Natural Minor Permit to operate a gas production and distribution corporation in Lafayette Township, **McKean County**. The significant sources are one compressor engine of 360 hp with dehydrator, one 186 hp compressor engine with catalytic converter, one 180 HP compressor engine, one 30,000 gallons propane tank and miscellaneous equipment leaks.

S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of an application is available for inspection at the district mining office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the district mining office indicated before an application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30-day period to review and submit comments on the requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; the application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Persons aggrieved by an action may appeal, under section 4 of the Environmental Hearing Board Act (35 P. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

Continental General Insurance Company; Application for Approval of Revised Rates for Standardized Medicare Supplement Policy Forms 340—342, 347 and 3AA—3AK; Rate Filing

Continental General Insurance Company has filed for approval increased rates for its issue-age and attained-age rated standardized Medicare supplement policy forms. The filing requests rate increases that vary by standardized benefit package and range from 0% to 25%.

These rate adjustments will affect approximately 8,157 insureds in this Commonwealth and will generate approximately \$3.5 million in additional premium annually. The company requests that the revised rates take effect on January 1, 2006. The requested rate adjustment percentages and age 65 female open enrollment rates by plan are as follows:

<i>Policy Form</i>	<i>Rating Method</i>	<i>Standardized Plan</i>	<i>Proposed Adjustment</i>	<i>Current Rate</i>	<i>Proposed Rate</i>
340	Issue-age	Plan A	12.0%	\$2,460	\$2,755
341	Issue-age	Plan B	24.0%	\$2,401	\$2,978
342	Issue-age	Plan C	13.0%	\$3,270	\$3,695
347	Issue-age	Plan H	4.0%	\$5,222	\$5,430
3AA	Attained-age	Plan A	12.0%	\$1,432	\$1,603
3AB	Attained-age	Plan B	24.0%	\$1,467	\$1,819
3AC	Attained-age	Plan C	13.0%	\$2,056	\$2,324
3AD	Attained-age	Plan D	25.0%	\$1,375	\$1,718
3AE	Attained-age	Plan E	9.5%	\$1,285	\$1,407
3AF	Attained-age	Plan F	13.0%	\$1,687	\$1,907
3AG	Attained-age	Plan G	25.0%	\$1,377	\$1,722
3AK	Attained-age	Plan Fhd	0.0%	\$ 491	\$ 491

These rates are applicable to most areas in this Commonwealth; insureds with attained-age plans residing in zip codes beginning with 150, 151, 152, 153, 154, 189, 190, 191, 192, 193 or 194 should add 10% to the rates shown previously.

Also included in the filing are reduced rates for insureds who choose to drop their policy's prescription drug benefit. Plan 347 includes a prescription drug benefit that the insured may eliminate from their coverage effective January 1, 2006, in exchange for a reduced premium rate. The proposed 2006 rates for this plan with the prescription drug benefit (\$3,644 for an age 65 female

open enrollee), when compared with the proposed 2006 rates with the prescription drug benefit, reflect a 32.9% rate reduction associated with the removal of the prescription drug benefit.

Unless formal administrative action is taken prior to January 10, 2006, the subject filing may be deemed approved by operation of law.

A copy of the filing is available on the Insurance Department's (Department) website at www.ins.state.pa.us. Under the Quick Links section, click on the link "Rate Filings Published in the PA Bulletin."

Copies of the filing are also available for public inspection, by appointment, during normal working hours at the Department's regional offices in Harrisburg, Philadelphia and Pittsburgh.

Interested parties are invited to submit written comments, suggestions or objections to Michael Gurgiolo, Insurance Department, Insurance Product Regulation and Market Enforcement, Room 1311, Strawberry Square, Harrisburg, PA 17120, mgurgiolo@state.pa.us, within 30 days after publication of this notice in the *Pennsylvania Bulletin*.

The Insurance Department (Department), Medical Care Availability and Reduction of Error Fund, by Sarah H. Lawhorne, Deputy Insurance Commissioner, under section 712 of the Medical Care Availability and Reduc-

tion of Error (MCARE) Act (act) (40 P. S. § 1303.712), has determined that the annual assessment to be levied for calendar year 2006 shall be 29% applied to the prevailing primary premium for each participating health care provider.

The act defines "prevailing primary premium" as the schedule of occurrence rates approved by the Insurance Commissioner for the Joint Underwriting Association (JUA). For purposes of the 2006 annual assessment, the rates shall be those currently approved for use by the JUA.

Participating health care providers having approved self-insurance plans shall be assessed an amount equal to the assessment imposed on a participating health care provider of like class, size, risk and kind as determined by the Department.

This action is subject to 1 Pa. Code Part II (relating to the General Rules of Administrative Practice and Procedure).

PENNSYLVANIA PUBLIC UTILITY COMMISSION

Generic Investigation Regarding Virtual NXX Codes; Doc. No. I-00020093

Public Meeting held
September 9, 2005

Commissioners Present: Wendell F. Holland, Chairperson; James H. Cawley, Vice Chairperson; Bill Shane, dissenting statement follows; Kim Pizzingrilli; Terrance J. Fitzpatrick

Statement of Policy

By the Commission:

By Order entered March 4, 2005, the Pennsylvania Public Utility Commission (Commission) requested input in the form of supplemental comments from interested parties regarding any possible implications that newly enacted legislation, Act 183, P.L. 1398, 66 Pa.C.S. §§ 3011, et. seq. (Act 183)¹ may have on the issue of Virtual NXX (VNXX) arrangements. This order addresses the supplemental comments received from the Pennsylvania Telephone Association (PTA), Verizon Pennsylvania Inc. and Verizon North Inc. (Verizon), CTSI, LLC (CTSI), Core Communications, Inc. (Core), the Office of Consumer Advocate (OCA), and the Office of Small Business Advocate (OSBA) and adopts a final policy statement.

Background

Telephone numbers consist of ten digits set forth as NPA-NXX-XXXX² and are obtained by telephone companies from the North American Number Plan Administrator³ ("NANPA"). The first three digits of a 10-digit telephone number, or the "NPA," refer to the area code.⁴ The second three digits in a 10-digit telephone number, or the "NXX," refer to the "central office code" or "NXX

¹ Act 183 enacted an amended version of the original Chapter 30 that provided for the regulatory reform of the telephone industry in Pennsylvania.

² The "N" in the "NXX" represents any of the numbers 2 through 9 and the "X" represents any one of the numbers 0 through 9.

³ The North American Numbering Plan Administrator is the entity responsible for managing the North American Numbering Plan ("NANP"). Presently, Neustar is the entity managing the NANP.

⁴ See 47 C.F.R. § 52.7(a).

code.⁵ In order to assign telephone numbers, a telephone company obtains a central office code or NXX code from the NANPA and usually assigns the NXX code to a switch⁶ pursuant to standard industry practice. A telephone company's central office switch normally serves a particular geographic area called a rate center.⁷ Accordingly, each NXX code generally corresponds to a particular geographic area or rate center.

When a telephone company assigns a telephone number from the NXX code to a customer, in general, it gives the customer a telephone number from a NXX code that is associated with the central office switch serving the particular rate center where the customer is physically located. The purpose of this assignment procedure by telephone companies is to ensure the proper routing of the telephone call and, more importantly, to ensure the accuracy and integrity of the rating structure so that calls between customers are properly billed by the telephone company.

With VNXX service, a customer can obtain a telephone number from a NXX code that is associated with a rate center or local calling area in which they are not physically located. This type of arrangement or service has been referred to as "virtual" NXX because the customer has only a virtual presence, as opposed to a physical presence, in the local calling area based solely on the use of the assigned NXX code for that local calling area.

In August 2002, we initiated a generic investigation at the above-captioned docket in order to consider the issue of VNXX codes given that the controversial practice, among other things, could have an adverse impact on Pennsylvania efforts to conserve numbering resources and prevent avoidable area code relief. As part of the generic investigation, interested parties filed comments addressing 13 specific questions related to the use of VNXX codes and also regarding what intercarrier compensation regime should apply to such arrangements. The Office of Administrative Law Judge conducted the generic investigation. The notice regarding the generic investigation was published October 19, 2002, at 32 Pa.B. 5240.

The generic investigation culminated with the issuance of an *Investigation Report* on February 9, 2004, as directed by the Commission. The *Investigation Report* outlined the parties' positions regarding the legality of VNXX service in Pennsylvania and the intercarrier compensation regime that should apply to such arrangements. By an Order entered May 24, 2004, the Commission released the *Investigation Report* to the public. The Commission did so in light of the fact that the *Investigation Report* was a valuable educational tool regarding the usage of VNXX codes in Pennsylvania. However, since the *Investigation Report* was not dispositive of the issues surrounding VNXX, the May 24, 2004 Order also directed Staff to submit a recommendation indicating whether any regulatory or policy changes regarding VNXX service needed to be implemented by the Commission. In accordance with the May 24, 2004 Order, Staff initiated its review of the *Investigation Report*. In the meantime, Act 183 became effective on December 1, 2004. Moreover, the Commission noted that the Federal Communications Commission (FCC) had taken action recently in a pro-

ceeding⁸ involving the appropriate intercarrier compensation regime for emerging technologies, including Internet access on the public switched network.

In light of these developments, we issued an Interim Order at this docket that was entered on March 4, 2005. We determined that additional comments on these particular topics would assist us in reaching a final determination on the use of VNXX arrangements in Pennsylvania. Accordingly, through the Interim Order, we requested input in the form of supplemental comments from interested parties regarding any possible implications that Act 183 may have on the issue of VNXX arrangements. Additionally, we sought input from interested parties on the potential impact of the recent action taken by the FCC in its pending intercarrier proceeding. The Interim Order was published on March 19, 2005 at 35 Pa.B. 1851.

The Pennsylvania Telephone Association (PTA), Verizon Pennsylvania Inc. and Verizon North (collectively Verizon), CTSI LLC (CTSI), Core Communications, Inc. (Core), the Office of Consumer Advocate, (OCA), and the Office of Small Business Advocate (OSBA) filed supplemental comments. This order addresses those comments and sets forth a final form policy statement on VNXX service.

Comments

PTA

The PTA filed supplemental comments on behalf of its members that are rural telephone companies serving areas adjacent to the ILECs where resale and UNE is occurring. In its supplemental comments, the PTA asserted that VNXX affects these small, rural companies by virtue of extended area service (EAS) routes that have been opened by the Commission between them and Verizon Pennsylvania, Verizon North and Sprint/United. The PTA explained that calls to the CLEC's customer appear to be "local" calls because the rate center associated with the NXX code by the CLEC is within the EAS calling plan of the adjacent ILEC. Nevertheless, the physical destination of the call may fall somewhere outside the listed rate center thus making the telephone call a long distance or toll call. The PTA argues that VNXX results in a complete lack of compensation for use of the network of the ILEC offering an EAS calling plan. Accordingly, the PTA characterizes VNXX as an "arbitrage device to avoid toll and switched access charges."

The PTA further asserts that under Act 183, Section 3017, 66 Pa.C.S. § 3017, governs the intercarrier compensation for telephone calls utilizing VNXX arrangements. The PTA states that the language of section 3017(b) clearly mandates that if a telephone call terminates outside of the local calling area of the calling party, access charges apply regardless of whether the rate center associated with the NXX code by the LEC is within the local calling area.

Additionally, the PTA notes that the Federal Communications Commission (FCC) currently has a pending proceeding in which it intends to set a regime that unifies compensation for all traffic types. The PTA suggests that since Act 183 clearly governs the compensation scheme for VNXX arrangements, the Commission should defer from taking any further action on VNXX until the FCC issues a decision in its pending intercarrier compensation proceeding.

⁸ See *In the Matter of Developing a Unified Intercarrier Compensation Regime*, Notice of Proposed Rulemaking, CC Docket No. 01-92, 16 FCC Rcd 9610 (2001).

⁵ See 47 C.F.R. § 52.7(c). There are 792 possible NXX codes in each NPA or area code.

⁶ A switch is usually housed in a telephone company's central office. Thus, a switch is commonly referred to as "central office switch."

⁷ A rate center is a telephone-company designated geographic area that generally defines the local calling area of a customer. Rate centers comprise a telephone company's entire service territory. A telephone company's service territory can consist of any number of individual rate centers.

Verizon

In its supplemental comments, Verizon asserts that VNXX is a substitute for toll-free calling services, such as 1-8XX service⁹ but is used as a scheme to avoid paying compensation to the underlying carriers whose networks are being used to haul the traffic. Verizon states that the ILEC provides transport for the VNXX call that resembles the transport provided for calls to 1-8XX numbers; however, the VNXX carrier does not compensate the ILEC for such transport because the VNXX carrier claims that the call is a "local" call. Verizon asserts that Act 183 requires that the geographic endpoints of a telephone call dictate the applicable intercarrier compensation. In particular, Verizon echoes PTA's argument that section 3017 now absolutely requires that access charges be paid by carriers for VNXX calls and that any carrier refusing to pay tariffed access charges on VNXX traffic is violating the law.

CTSI

CTSI's supplemental comment asserts that Act 183 does not appear to affect expressly the intercarrier compensation regime for VNXX calls. Nevertheless, CTSI asserts that the FCC's pending unified intercarrier compensation proceeding will have an impact on the compensation rules for VNXX calls. As a result, CTSI states that the Commission should maintain the status quo and refrain from issuing any further rulings, decisions, or orders on VNXX pending resolution of the FCC's intercarrier compensation proceeding.

Core

Core asserts that federal law exclusively governs the intercarrier compensation regime for all calls, including ISP-bound calls. Core asserts that it is unlawful for the Commission to use any provision of Act 183 to change the applicable intercarrier compensation for VNXX calls by disrupting the FCC's established manner of determining the jurisdictional classification of a call. Core states that the FCC acknowledged that it is standard industry practice for telecommunications carriers to determine the jurisdictional classification and proper rating of a call by comparing the relevant V & H¹⁰ coordinates of the originating and terminating NPA-NXX codes associated with the call. Core asserts that FCC precedent has clearly established that the physical destination of the call does not govern its jurisdictional classification or rating structure. Core further asserts that if the NPA-NXXs of the originating and terminating codes are within the same local calling area then the call is a local call and is subject to the reciprocal compensation regime set forth in section 251(b)(5) of the Telecommunications Act of 1996, 42 U.S.C. § 251(b)(5).

Additionally, Core states that the legislative history of Act 183 reveals that the Act should have no impact on the intercarrier compensation for VNXX arrangements. Furthermore, Core asserts that any effort by the Commission to create another category of traffic—a VNXX category—

⁹ Toll-free 8XX numbers as identified by the North American Numbering Plan Administrator, for example, 800, 888, 877, or 866, allow callers to reach businesses and/or individuals without being charged for the call. The charge for using a toll-free number is paid by the called party (the toll-free subscriber) instead of the calling party. Toll-free numbers can be dialed directly to your business or personal telephone line.

¹⁰ Each NXX code is associated with a switch within a rate center. Additionally, each rate center has a particular vertical and horizontal (V & H) coordinate or rating point. Accordingly, the NPA-NXX prefixes are based upon individual and specific V & H coordinates. This rating point (or V & H coordinate) is significant as it is the starting point for determining mileage when calculating the cost of the telephone call between two end-users. If the rating points of the two NXX codes (representing both the calling party and called party) have a zero distance (are the same) or are within the same local calling area then the telephone call is rated as local.

for intercarrier compensation purposes would disrupt the FCC's goal of creating a unified intercarrier compensation system.

OCA

The OCA asserts that it is unaware of any impact that Act 183 may have on the applicable intercarrier compensation regime for VNXX arrangements in Pennsylvania. In fact, the OCA states that none of the rate modifications possible under Act 183 have any particular relationship to the use of VNXX codes. Additionally, OCA acknowledges that the FCC's unified intercarrier compensation proceeding might have an impact on the use of virtual NXX codes and the applicable intercarrier compensation regime for virtual NXX arrangements in Pennsylvania. The OCA suggests that the Commission should wait until the FCC has entered its order in its proceeding before the Commission attempts to resolve the issue concerning VNXX arrangements.

OSBA

In its supplemental comments, the OSBA states that it has not been able to identify any impact that Act 183 or the FCC's intercarrier compensation proceeding might have on either the use of virtual NXX codes or on the intercarrier compensation regime used for virtual NXX arrangements in Pennsylvania.

Discussion

VNXX service allows a telephone company to assign a telephone number to a customer in a calling area where the customer has no physical presence. Essentially, the telephone number of that VNXX customer is associated with the particular local calling area. Therefore, a telephone call from a person residing in the local calling area to the VNXX customer is rated as a "local" call by the telephone company of the calling party even though the VNXX customer is located outside of the calling party's local calling area. We acknowledge that VNXX service is an attractive option for businesses that want to expand their marketing base to customers in surrounding areas without incurring the costs of building additional facilities in that distant market or having consumers incur long distance charges in attempting to call them. We also note, however, that the ILECs are opposed to the use of VNXX arrangements and have expressed various reasons why the Commission should prohibit VNXX arrangements in Pennsylvania.

In light of the diametrically opposed views regarding VNXX service, we focused on two main issues in our generic investigation: (1) the legality of VNXX service in Pennsylvania and (2) the appropriate intercarrier compensation for VNXX arrangements. Upon our review of the initial comments and the supplemental comments submitted by the parties in this generic investigation, the Commission determines that there is no state or federal law or regulation that requires us to take any steps to prohibit the use of VNXX service in Pennsylvania. We agree with those parties that stated in their supplemental comments that there are no provisions in Act 183 that impact the legality of VNXX arrangements in Pennsylvania. Moreover, we determine that there are no public policy considerations that warrant a prohibition against the use of VNXX arrangements by telecommunications providers in Pennsylvania. Accordingly, we decline to implement any regulatory or policy changes regarding the use of VNXX arrangements in Pennsylvania.

Nonetheless, the heart of the dispute concerning VNXX service has never truly been its legality, but rather, the applicable intercarrier compensation scheme for such

arrangements. The crux of the debate regarding what intercarrier compensation applies to VNXX arrangements is whether a VNXX call that passes between an ILEC network and a CLEC network should be rated as a local call (subject to reciprocal compensation charges) or a toll call (subject to access charges).

In their comments and supplemental comments submitted in this proceeding, the CLECs have continued to assert that the proper rating classification for telephone calls has always been based on a comparison of the NPA-NXX prefixes of the parties to the telephone call and that the geographical ending point of the telephone call does not govern the rating structure that applies to the call. We acknowledge that the current methods of identifying and rating all telephone calls, including telephone calls facilitated by VNXX arrangements, do not readily ascertain whether the traffic that originates at a local exchange calling area of an ILEC can be properly classified as anything other than local traffic.¹¹

We also note that the FCC is engaged in a comprehensive proceeding that holds the potential of fundamentally affecting intercarrier compensation arrangements. *In re Developing a Unified Intercarrier Compensation Regime*, (FCC Rel.: March 3, 2005), CC Docket No. 01-92, *Further Notice of Proposed Rulemaking*, FCC 05-33 (*Unified Intercarrier Compensation*). Based on the FCC's activities in its *Unified Intercarrier Compensation* proceeding and their potential impact on intrastate access charge reform that primarily relates to rural ILECs, this Commission has stayed its related investigation proceeding at Docket No. I-00040105. *Investigation Regarding Intrastate Access Charges and IntraLATA Toll Rates of Rural Carriers, and the Pennsylvania Universal Service Fund*, Docket No. I-00040105, Opinion and Order entered August 30, 2005. Likewise, in view of the FCC's pending proceeding, we believe that it is premature for this Commission to reach any conclusions at this time on issues of intercarrier compensation for traffic that moves over VNXX code arrangements.

Conclusion

Based upon the discussion above, we decline to take any steps at this time to prohibit the use of virtual NXX service in Pennsylvania. Additionally, since the FCC is currently considering to establish a unified intercarrier compensation regime for all telecommunications traffic that utilizes the public switched network, we will not make any conclusions at this time on the issue of intercarrier compensation for traffic that moves over VNXX arrangements; *Therefore*,

It Is Ordered That:

1. The use of VNXX code arrangements within Pennsylvania is lawful.
2. This Statement of Policy shall apply in any future adjudication involving the issue of virtual NXX arrangements until the Commission issues a definitive ruling on intercarrier compensation.
3. The record in this proceeding be marked closed.
4. The Secretary's Bureau serves a copy of this Statement of Policy upon all jurisdictional ILECs and CLECs.

¹¹ Furthermore, an additional degree of difficulty relates to the issue of classifying a telephone call as local when an ILEC and a CLEC have different local calling areas in the same geographic locale. The Commission is currently investigating intercarrier compensation issues "when the local calling area of the CLECs and the ILECs are different (i.e., the CLEC's local calling area is larger or smaller than the ILEC's local calling area)." *Generic Investigation in re: Impact On Local Carrier Compensation if A Competitive Local Exchange Carrier Defines Local Calling Areas Differently Than the Incumbent Local Exchange Carrier's Local Calling Areas but Consistent With Established Commission Precedent*, Docket No. I-00030096, Investigation Order, entered June 26, 2003, at 5.

5. A copy of this Statement of Policy be published in the *Pennsylvania Bulletin* and published on our website.

Generic Investigation Regarding Virtual NXX Codes; Doc. No. I-00020093

I agree with the Vice-Chairman that we should decline to take any steps to prohibit the use of virtual NXX service in the Commonwealth, however, I am of the opinion that Act 183 incorporates certain provisions that have established an intercarrier compensation scheme governing VNXX arrangements and that the Act clearly states that a Local Exchange Carrier must pay access charges whenever an ISP-bound call between its customers terminates in another local calling area even if the phone call is facilitated by a VNXX arrangement that has associated the VNXX customer's telephone number with the calling party's local calling area. This should be our policy and should be applied in any future adjudication involving the issue of virtual NXX arrangements unless and until the FCC issues an order in its unified intercarrier proceeding that preempts us from establishing an intercarrier compensation regime for all ISP-bound calls. For this reason, I cannot support the Vice-Chairman's Motion.

The business must include the following statement on every invoice submitted to the Commonwealth: "(name of business) is a qualified small business concern as defined in 4 Pa. Code 2.32."

A business is eligible for payments when the required payment is the latest of:
 The payment date specified in the contract.
 30 days after the later of the receipt of a proper invoice or receipt of goods or services.
 The net payment date stated on the business' invoice.

A 15-day grace period after the required payment date is provided to the Commonwealth by the Act.
