READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of *Code* and *Bulletin*.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

THE GOVERNOR

GOVERNOR'S OFFICE

Proclamation Terminating the State of Disaster Emergency

October 19, 2015

Whereas, on August 24, 2015, I proclaimed the existence of a disaster emergency in the Commonwealth due to a continuing weather pattern of high winds, severe thunderstorms, heavy rains and tornadoes and widespread flooding that affected the Commonwealth; and

Whereas, this weather pattern caused severe adverse effects to multiple political subdivisions in the Commonwealth resulting in impacts that were both immediate and long term, and required a comprehensive partnership between the Commonwealth and its political subdivisions for effective recovery; and

Whereas, immediate steps were taken to stabilize the affected areas, recovery operations continue, and ongoing monitoring of conditions and investigations made at my direction have disclosed that the adverse impacts of this event have been mitigated such that emergency conditions no longer exist.

Now Therefore, pursuant to the provisions of section 7301(c) of the Emergency Management Services Code (35 Pa.C.S. § 7101 et seq.), I do hereby proclaim the termination of the state of disaster emergency in the Commonwealth.

Given under my hand and the Seal of the Governor, at the City of Harrisburg, this nineteenth day of October in the year of our Lord two thousand fifteen, and of the Commonwealth the two hundred and fortieth.

Governor

PROPOSED NUTRIENT MANAGEMENT PLANS RELATED TO APPLICATIONS FOR NPDES PERMITS FOR CAFOs

This notice provides information about agricultural operations that have submitted nutrient management plans (NMPs) for approval under 3 Pa.C.S. Chapter 5 and that have or anticipate submitting applications for new, amended or renewed NPDES permits, or Notices of Intent (NOIs) for coverage under a general permit, for CAFOs, under 25 Pa. Code Chapter 92a. This notice is provided in accordance with 25 Pa. Code Chapter 92a and 40 CFR Part 122, implementing The Clean Streams Law and the Federal Clean Water Act.

Based upon preliminary reviews, the State Conservation Commission (SCC) or County Conservation Districts (CCD) working under a delegation agreement with the SCC have completed an administrative review of NMPs described. These NMPs are published as proposed plans for comment prior to taking final actions. The NMPs are available for review at the CCD office for the county where the agricultural operation is located. A list of CCD office locations is available at <http://www.nacdnet.org/about/districts/directory/pa.phtml> or can be obtained from the SCC at the office address listed or by calling (717) 787-8821.

Persons wishing to comment on an NMP are invited to submit a statement outlining their comments on the plan to the CCD, with a copy to the SCC for each NMP, within 30 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the NMPs. Comments should include the name, address and telephone number of the writer and a concise statement to inform the SCC of the exact basis of the comments and the relevant facts upon which they are based. Comments should be sent to the SCC, Agriculture Building, Room 310, 2301 North Cameron Street, Harrisburg, PA 17110.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995
 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P.S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P.S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a

facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

28-03045A: Dominion Transmission, Inc. (5000 Dominion Blvd, Glen Allen, VA 23060) for a gas turbine project, as described below, at the Chambersburg Compressor Station in Hamilton Township, **Franklin County**. Plan Approval No. 28-03045A will authorize the installation of a new natural gas fired Solar Mars gas turbine, rated at 13,220 hp. The potential emissions from the turbine are: NO_x 29 tpy, CO 3 tpy, VOC 2 tpy, SO_x 1.8 tpy, PM_{10/2.5} 8 tpy, and HAPs 0.4 tpy. Review by DEP of the information submitted by the applicant indicates that the air contamination sources as constructed or modified will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12, and will be subject to 40 CFR Part 60 Subpart KKKK—Standards of Performance for Stationary Combustion Turbines. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. If, after the project has been implemented, the Department determines that the sources are constructed and operated in compliance with the plan approval conditions and the specification of the application for plan approval, the requirements established in the plan approval will be incorporated into a State Only Operating Permit pursuant to the administrative amendment provisions of 25 Pa. Code § 127.450.

42-028G: Ardagh Glass—Port Allegany Facility (One Glass Place, Port Allegany, PA 16743), for establishing SO₂ emission limits for both furnaces due to the Global Consent Decree with EPA in Port Allegany Borough, **McKean County**. This is a Title V facility. The public notice is required for sources required to obtain a Plan Approval in accordance with 25 Pa. Code § 127.44. This plan approval will, in accordance with 25 Pa. Code § 127.450 or § 127.505, be incorporated into the facility operating permit at a later date.

Plan approval No 42-028G is for the proposed SO₂ emission limits required for Furnaces 1 & 3 from Global Consent Decree (GCD) with EPA. This modification will not result in an emission increase at the facility. This Plan Approval will contain emission restriction, testing, recordkeeping, work practice standard and additional requirement conditions, which will satisfy the requirements of 25 Pa. Code § 127.12b (pertaining to plan approval terms and conditions) and will demonstrate Best Available Technology (BAT) for the source including, but are not limited to, the following:

- Source 101 (Furnace 1)
 - Normal Operation (Flint): Furnace No. 1 shall not emit more than 2.4 # SO₂ per ton of glass produced on a 30-day Rolling Average as measured using an SO₂ CEMS, except during the following periods: Abnormally Low Production Rate Days; Color Transition; Furnace Startup; Malfunction of the Furnace; and Maintenance of the Furnace. [This condition replaces Section D Condition #009 from facility operating permit 42-00028 revised on May 19, 2014.]
 - Normal Operation (Colored): Furnace No. 1 shall not emit more than 2.4 # SO₂ per ton of glass produced on a 30-day Rolling Average as measured using an SO₂ CEMS, except during the following periods: Abnormally Low Production Rate Days; Color Transition; Furnace Startup; Malfunction of the Furnace; and Maintenance of the Furnace. [This condition replaces Section D Condition #009 from facility operating permit 42-00028 revised on May 19, 2014.]
 - Abnormally Low Production Day (Flint): Furnace No. 1 SO₂ Limit during Abnormally Low Production Rate Days the facility may elect to exclude—all Abnormally Low Production Rate Days from the Emission Rate 30-day Rolling Average when Furnace No. 1 is operating at an Abnormally Low Production Rate. During these days, a CEMS shall be used to demonstrate compliance on a 24-hour Block Average with the following pound per day limit for the Furnace(s) operating at an Abnormally Low Production Rate: 501 #/day of SO₂ as calculated by (2.4 # SO₂/ton glass) x (P/0.35) where P = 73. [This condition replaces Section D Condition #010 from facility operating permit 42-00028 revised on May 19, 2014.]
 - Abnormally Low Production Day (Colored): Furnace No. 1 SO₂ Limit during Abnormally Low Production Rate Days the facility may elect to exclude—all Abnormally Low Production Rate Days from the Emission Rate 30-day Rolling Average when Furnace No. 1 is operating at an Abnormally Low Production Rate. During these days, a CEMS shall be used to demonstrate compliance on a 24-hour Block Average with the following pound per day limit for the Furnace(s) operating at an Abnormally Low Production Rate: 501 #/day of SO₂ as calculated by (2.4 # SO₂/ton glass) x (P/0.35) where P = 73. [This condition replaces Section D Condition #010 from facility operating permit 42-00028 revised on May 19, 2014.]

During these days, a CEMS shall be used to demonstrate compliance on a 24-hour Block Average with the following pound per day limit when Furnace No. 1 has a Color Transition: 1,042 #/day of SO₂ as calculated by 2 x (2.5 # SO₂/ton glass) x (P/0.35) where P = 73. [This condition replaces Section D Condition #011 from facility operating permit 42-00028 revised on May 19, 2014.]
 - Furnace Malfunction: For any Operating Day where a Malfunction of the Furnace No. 1 system occurs for any period of time, the facility may elect

to exclude the emissions generated during that Operating Day (or Operating Days if the event covers more than one Operating Day) from the Emission Rate 30-day Rolling Average. During the Malfunction Days excluded from the Emission Rate 30-day Rolling Average, a CEMS shall be used to demonstrate compliance on a 24-hour Block Average with the following pound per day limit: 1,563 #/day SO₂ as calculated by $3 \times (2.5 \text{ # SO}_2/\text{ton glass}) \times (P/0.35)$ where $P = 73$. [This condition replaces Section D Condition #012 from facility operating permit 42-00028 revised on May 19, 2014.]

 - Where:
 - SO₂ Maint Flint = SO₂ emission limit for Furnace No. 1 during a Maintenance Day (Flint), in pounds per day.
 - P = Furnace-specific production threshold (73)
 - MH = Hours of Maintenance
 - NH = Normal Hours = 24 – MH
 - [This condition replaces Section D Condition #014 from facility operating permit 42-00028 revised on May 19, 2014.]
- Furnace Maintenance (Colored): For any Operating Day where Maintenance activities on Furnace No. 1 are performed, the facility may elect to exclude the Maintenance Day from the Emission Rate 30-day Rolling Average. For any Day which is excluded from the 30-day Rolling Average, a CEMS shall be used to demonstrate compliance on a 24-hour Block Average with the following pound per day limit:
 - $\text{SO}_2 \text{ Maint Colored} = [\text{MH} \times (3 \times (2.5 \text{ # SO}_2/\text{ton glass}) \times (P/0.35)) + \text{NH} \times ((2.4 \text{ # SO}_2/\text{ton glass}) \times (P/0.35))] / 24$
 - Where:
 - SO₂ Maint Colored = SO₂ emission limit for Furnace No. 1 during a Maintenance Day (Colored), in pounds per day.

If coal will be extracted incidental to the extraction of noncoal minerals, at a minimum, the technology-based effluent limitations identified under coal applications will apply to discharges of wastewater to streams.

Permit No. 58050809. Michael Kirchmeier, (8120 Laurel Lake Road, Montrose, PA 18801), Stage I & II bond release of a quarry operation in Silver Lake Township, **Susquehanna County** affecting 1.0 acre on property owned by Michael Kirchmeier. Application received: October 13, 2015.

MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	

Alkalinity greater than acidity*

*The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should contact a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

The Department has taken the following actions on applications received under the Pennsylvania Safe Drinking Water Act (35 P. S. §§ 721.—721.17) for the construction, substantial modification or operation of a public water system.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this document to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

SEWAGE FACILITIES ACT PLAN APPROVAL

Plan Approvals Granted Under the Pennsylvania Sewage Facilities Act (35 P. S. § 750.5)

Freedom Township	131 Municipal Street, East Freedom, PA 16637	Blair

Plan Description: The approved plan (C1-07912-ACT) provides for the retention of the temporary auxiliary effluent outfall as a permanent auxiliary effluent outfall for the Freedom Township Wastewater Treatment Plant. This outfall will provide continued protection of the ultraviolet disinfection system during extreme weather and subsequent flooding and/or high flow conditions at the treatment facility. The plan also provides for the replacement of the existing primary outfall line (Outfall 001) and headwall with an 18” PVC gravity discharge line and new outfall headwall in the same alignment as the existing Outfall 001 line. The Department’s review of the sewage facilities update revision has not identified any significant environmental impacts resulting from this proposal. Any required NPDES Permits or WQM Permits must be obtained in the name of the municipality or authority, as appropriate.

On October 7, 2015, the Southeast Regional office approved an update to Richland Township (Township), Bucks County’s official Plan under the Pennsylvania Sewage Facilities Act, 35 P. S. § 750.1 et seq. (“537 Plan”) (APS ID 22532 AUTH ID 799171).

The 537 Plan provides for:

- 1) The expansion of the Township’s sewer service area, as shown on Figure 11, the map titled Proposed 5 & 10 Year Sewage Facilities Service Areas, dated November 2, 2009. Areas not shaded on this map are designated as being served by on-lot septic systems.
- 2) The replacement and upgrade of portions of the Licking Run Interceptor.
- 3) Expansion of the Erie Road Pump Station (ERPS), a.k.a PS #1, to accommodate total average annual flows of 0.527 million gallon of sewage per day (mgd), which accounts for the existing flows to the pump station and the projected flows identified in the 537 Plan for the pump station’s service area.
- 4) Expansion of the Morgan Creek Pump Station (MCPS), a.k.a PS #3, to accommodate total average annual flows of 0.479 million gallon of sewage per day (mgd), which accounts for the existing flows to the pump station and the projected flows identified in the Plan the pump station’s service area.
- 5) The replacement and upgrade of the Beaver Run Interceptor from Cedar Lane to the Quakertown Borough Wastewater Treatment Plant.
- 6) The Summary of Anticipated Conveyance Improvements located within Table 45 found on Page 6-54(R) of the 537 Plan lists conveyance improvements to occur within the Township within 5 years or when needed. The

Township has committed to conduct additional sewage facilities planning for these "when needed" improvements, if required. These recommended upgrades could occur within 5 years or after 5 years, based on development needs. Flow monitoring would occur where development is proposed and existing flows are not known, but believed to be at or near capacity with the future project. DEP should be contacted prior to the implementation of any conveyance improvements listed as when needed in order to determine if additional sewage facilities planning will be required for these improvements.

The Township will implement the 537 Plan, consistent with the Table 45 found on Pages 6-54(R) of the 537 Plan and the Implementation Schedule found on Pages 7-1(R) and 7-2(R) of the 537 Plan.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information

concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

FEDERAL WATER POLLUTION CONTROL ACT SECTION 401

The Department has taken the following actions on previously received permit applications, requests for Environmental Assessment approval and requests for Water Quality Certification under section 401 of the Federal Water Pollution Control Act (FWPCA) (33 U.S.C.A. § 1341).

Except as otherwise noted, the Department has granted 401 Water Quality Certification certifying that the construction and operation described will comply with sections 301—303, 306 and 307 of the FWPCA (33 U.S.C.A. §§ 1311—1313, 1316 and 1317) and that the construction will not violate applicable Federal and State water quality standards.

Persons aggrieved by an action may appeal that action to the Environmental Hearing Board (Board) under section 4 of the Environmental Hearing Board Act and 2 Pa.C.S. §§ 501—508 and 701—704. The appeal should be sent to the Environmental Hearing Board, Second Floor, Rachel Carson State Office Building, 400 Market Street, PO Box 8457, Harrisburg, PA 17105-8457, (717) 787-3483. TDD users may contact the Board through the Pennsylvania AT&T Relay Service, (800) 654-5984. Appeals must be filed with the Board within 30 days of publication of this notice in the *Pennsylvania Bulletin* unless the appropriate statute provides a different time period. Copies of the appeal form and the Board's rules of practice and procedure may be obtained from the Board. The appeal form and the Board's rules of practice and procedure are also available in Braille or on audiotape from the Secretary to the Board at (717) 787-3483. This paragraph does not, in and of itself, create a right of appeal beyond that permitted by applicable statutes and decisional law.

For individuals who wish to challenge an action, the appeal must reach the Board within 30 days. A lawyer is not needed to file an appeal with the Board.

Important legal rights are at stake, however, so individuals should show this notice to a lawyer at once. Persons who cannot afford a lawyer may qualify for free pro bono representation. Call the Secretary to the Board at (717) 787-3483 for more information.

Actions on applications for the following activities filed under the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27), section 302 of the Flood Plain Management Act (32 P. S. § 679.302) and The Clean Streams Law and Notice of Final Action for Certification under section 401 of the FWPCA.

To maintain an existing 20-foot wide road crossing of Notch Brook (EV, MF), consisting of a 36-inch diameter reinforced concrete pipe and concrete headwalls, for the purpose of providing access to the PPL Susquehanna Roseland 500kV Transmission Line. The project is located on the west side of State Route 402 approximately 3.9 miles south of the intersection with Interstate 84 (Promise Land, PA Quadrangle Latitude: 41°19'2"; Longitude: -75°7'55"). Subbasin: 1D.

Susquehanna River Stabilization/Restoration/Bridge Replacement, in Montour Township, **Columbia County**, ACOE Baltimore District (Catawissa, PA Quadrangle Latitude: 40-57-8.; Longitude: 76-29-1.0).

To construct, operate and maintain a stream restoration project and bridge replacement project. To restore a more natural pattern, profile and dimension to the Unnamed Tributary to the Susquehanna River which carries a water quality designation of Cold Water Fishery with Migratory Fish. The restorative efforts will begin at the culvert outlet of the SR 4002 (Legion Road) and extend 175 linear feet downstream to the proposed single span steel thru-girder bridge structure. To correct a severe scour and steep slope directly below the outlet of the SR 4002 culvert, this permit authorizes the installation of four rock vein weirs spaced 25 feet apart for 100 linear feet. Each structure will not exceed a 1 foot 3 inch plunge on the downstream end to enable aquatic passage. The remaining 75 linear feet will establish a slight meander bend in the stream channel to mimic a more natural stream pattern. This meander will increase the length of stream in this reach than the existing conditions allowing the slope to be reduced slightly. Toe rock protection will be included along both sides of the stream to assist in stability. A pre-cast box culvert having a rise of 4.8 feet and a width of 14.5 feet will replace the steel thru-girder. Baffles measuring 8 inches high by 1 foot wide are placed within the culvert and on the upstream and downstream end sections of the aprons. Stream bed material is to be placed within the structure to an elevation of 1 foot in depth in order to offset flow through the structure along with retention of natural stream bed material. This permit also authorizes stability work in the stream channel 150 linear feet downstream of the box culvert to include natural material rock bank revetment along the outside or left bank. The natural material rock bank revetment incorporates footer logs, root wads, rock riprap, and live stakes. Upon completion of the construction work the project shall be planted with shrub and tree species for shading and bank stability. This project is located 0.6 mile west along SR 4002 (Legion Road) from the intersection with SR 0042 (Catawissa, PA Quadrangle, Latitude: 40-57-12.3; Longitude: 76-28-59.9) Montour Township, Columbia County. This permit also includes 401 Water Quality Certification.

DEP ID: 394-3000-001. Title: Pennsylvania Improving Waters Program Guidelines: Documenting and Reporting Measurable, Incremental Improvements in Water Quality of Streams, Rivers and Lakes. Description: The purpose of these guidelines is to explain the process for the Department staff, and others involved in water quality monitoring, in documenting and reporting measurable, incremental improvements for water quality in streams, rivers and lakes towards an impairment free condition.

The information collected through the guidelines will be used to develop the Department's biennial *Pennsylvania Improving Waters Report*, which is not meant to replace the biennial *Pennsylvania Integrated Water Quality Monitoring and Assessment Report (Integrated Report)* to the United States Environmental Protection Agency. Instead, the *Pennsylvania Improving Waters Report* will illustrate water quality attainment successes described in the *Integrated Report* and share information about surface waters that show incremental improvement.

Effective Date: Upon publication of notice as final in the *Pennsylvania Bulletin*.

Written Comments: Interested persons may submit written comments on this draft technical guidance document by Monday, November 30, 2015. Comments submitted by facsimile will not be accepted. Coastal Resources Management Program; Final Program Assessment and Strategy under Section 309 of the Coastal Zone Management Act

The Commonwealth's Coastal Resources Management Program has developed a final program Assessment and Strategy in accordance with section 309 of the Federal Coastal Zone Management Act of 1972 (16 U.S.C.A. § 1456b), as amended in 1990 and 1996. This assessment is part of a voluntary coastal zone enhancement grants program (program) that encourages states and territories to develop program changes in one or more of the following nine coastal enhancement areas: coastal wetlands; coastal hazards; public access; marine debris; cumulative and secondary impacts; special area management planning; ocean/Great Lakes resources; energy and government facility siting and activities; and aquaculture. Under this program, the United States Secretary of Commerce is authorized to make awards to states and territories to develop and submit for Federal approval program changes that support attainment of the objectives of one or more of the enhancement areas. The National Oceanic and Atmospheric Administration approved the Commonwealth's final Section 309 Assessment and Strategy on September 25, 2015. Implementation of the new strategy will begin October 1, 2016.

DEPARTMENT OF HUMAN SERVICES

Medical Assistance Program Fee Schedule Addition

In accordance with 55 Pa. Code § 1150.61(a) (relating to guidelines for fee schedule changes), the Department of Human Services (Department) announces the addition of procedure codes to the Medical Assistance (MA) Program Fee Schedule for three-dimensional (3D) mammography, also known as “digital tomosynthesis,” effective for dates of service on and after December 1, 2015.

Background

On October 5, 2015, Governor Tom Wolf announced that 3D mammograms, a service also known as tomosynthesis, are included under State law as a mammographic exami-

nation and must be covered by insurers in the same manner as traditional two-dimensional (2D) mammograms. Tomosynthesis is becoming more common as many health care facilities in this Commonwealth are replacing 2D mammography technology with 3D mammography technology, offering new opportunities to diagnose breast cancer and providing life-saving treatment earlier than ever.

Discussion

The Department is adding procedure codes 77061, 77062, 77063 and G0279 to the MA Program Fee Schedule to ensure that quality diagnostic testing and preventive breast cancer services are available to individuals enrolled in the MA Program.

The professional component fee (billed with modifier 26), the technical component fee (billed with modifier TC) and the total fee (billed with no modifier), as applicable, are set forth as follows:

<i>Procedure Code</i>	<i>Procedure Code Description</i>	<i>Pricing Modifier 26</i>	<i>Pricing Modifier TC</i>	<i>No Modifier</i>
77061	Digital breast tomosynthesis; unilateral	\$25.68	\$22.51	\$48.19
77062	Digital breast tomosynthesis; bilateral	\$25.68	\$22.51	\$48.19
77063	Screening digital breast tomosynthesis, bilateral	\$23.98	\$20.05	\$44.03
G0279	Diagnostic digital breast tomosynthesis, unilateral or bilateral	\$24.26	\$19.25	\$43.51

The Department will issue an MA Bulletin to providers regarding tomosynthesis.

Fiscal Impact

The estimated cost for Fiscal Year 2015-2016 is \$0.054 million (\$0.026 million in State funds) in the MA Outpatient Program and for Fiscal Year 2016-2017 is \$0.128 million (\$0.062 million in State funds) in the MA Outpatient Program as a result of adding procedure codes to the MA Program Fee Schedule.

Public Comment

Interested persons are invited to submit written comments regarding this notice to the Department of Human Services, Office of Medical Assistance Programs, c/o Regulations Coordinator, Room 515, Health and Welfare Building, Harrisburg, PA 17120. Comments received within 30 days will be reviewed and considered for any subsequent revision to the MA Program Fee Schedule.

Persons with a disability who require an auxiliary aid or service may submit comments using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD users) or (800) 654-5988 (voice users).
