READER'S GUIDE TO THE *PENNSYLVANIA BULLETIN* AND THE *PENNSYLVANIA CODE*

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Pennsylvania Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances when the agency may omit the proposal step; it still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania Bulletin* before it can take effect. If the agency

wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, it must repropose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number, a page number and date. Example: Volume 1, *Pennsylvania Bulletin*, page 801, January 9, 1971 (short form: 1 Pa.B. 801 (January 9, 1971)).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa. Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*. The *Pennsylvania Code* is available at www.pacode.com.

Source Notes give the history of regulations. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

A chronological table of the history of *Pennsylvania Code* sections may be found at www.legis.state.pa.us/cfdocs/legis/CH/Public/pcde_index.cfm.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred. The *Pennsylvania Bulletin* is available at www.pabulletin.com.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised. A fiscal note provides the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the 5 succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the 5 succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

DAUPHIN COUNTY

Promulgation of Local Rules; No. 1793 S 1989; 1556 MD 2015

Order

And Now, this 9th day of November 2015, Dauphin County Local Rule of Judicial Administration 1907 is promulgated as follows:

Rule 1907. Constables—Service of Summary Warrants.

a. A Constable shall only serve summary warrants that are issued by a Magisterial District Judge to that Constable.

b. The Constable shall be in possession of the hard copy of the warrant to initiate contact with the subject of the warrant. Public web portal docket sheets are not permitted to be used for warrant service.

c. Upon service of the warrant pursuant to Pa.R.Crim.P. 431(B), if the subject of the warrant only owes money and possesses the full amount owed, the Constable shall accept the money, issue a receipt and remit the money to the applicable Magisterial District Judge as soon as possible but no later than noon on the next business day. The Constable shall sign the warrant and submit the signed Constable Fee/Expense Reimbursement Request/Approval form to the Magisterial District Judge. The subject of the warrant shall not be taken into custody.

d. Upon service of the warrant pursuant to Pa.R.Crim.P. 431(B), if the subject of the warrant is taken into custody due to the inability to pay the full amount, the Constable shall transport the individual to the office of the Magisterial District Judge where the warrant was issued. The Constable may ask the Magisterial Judge's staff to check if the individual has any other outstanding warrants from other Magisterial District Judge's office(s) in Dauphin County. If there are outstanding warrants from other offices, the Constable may call the other office(s) and ask that office to fax a copy of the active warrant to the Constable at the office of the Magisterial District Judge. That office shall timely fax any outstanding warrants to the requesting Constable at the other Magisterial District Judge's Office. Additional warrants may, at the discretion of the Magisterial District Judge, be addressed at the same time as the warrant that brought the individual to the Magisterial District Judge's office. If these other warrants are addressed, the Constable shall go to the Magisterial District Judge's office(s) which holds the original of the faxed warrant(s) to sign the original warrant and the Constable Fee/Expense Reimbursement Request/Approval form(s). If the original of the faxed warrant(s) is not signed and the Constable Fee/Expense Reimbursement Request/Approval form(s) that are submitted are not properly signed, the Constable will not receive payment. If the Magisterial District Judge chooses not to address these additional warrants, the Constable shall transport the subject to the appropriate Magisterial District Judge's office for processing.

e. Upon receipt of the signed warrant and signed Constable Fee/Expense Reimbursement Request/Approval form, the Magisterial District Judge shall add the constable fees to the MDJS system and mark the warrant as served.

f. Constables shall make every attempt to serve warrants during non-Night Court hours. Absent extraordinary circumstances, Constables are discouraged from transporting an individual to the Dauphin County Booking Center since it is not the primary function of Night Court to process outstanding summary warrants. Extraordinary circumstances shall include, inter alia, circumstances where the Constable is unable to effectuate service of the summary warrant during normal business hours. The Constable must articulate reason(s) why the

arrest cannot wait until morning or could not be accomplished during non-Night Court hours.

g. If a Magisterial District Judge makes a judicial determination that the case is dismissed, that the individual is found to be indigent or the individual is jailed in lieu of payment, the Magisterial District Judge shall check the appropriate box on the Constable Fee/Expense Reimbursement Request/Approval form, verify to the extent possible that the information on the form is accurate and timely submit the form to the Controller of Dauphin County for payment.

These amendments shall be effective thirty days after publication in the *Pennsylvania Bulletin*.

SUPREME COURT

Electronic Filing, Transmission and Remand of Records on Appeal; No. 450 Judicial Administration Doc.

Order

Per Curiam

And Now, this 13th day of November, 2015, the electronic filing, transmission and remand of records on appeal through the PACFile appellate court electronic filing system is hereby authorized, effective immediately. The applicable general rules of court and court policies that implement the rules shall continue to apply to the filing, transmission and remand of records on appeal regardless of whether a record is filed, transmitted or remanded electronically through the PACFile system. After experience is gained with electronic filing, transmission and remand of records on appeal, the Pennsylvania Rules of Appellate Procedure shall be amended to incorporate, where needed and as appropriate, procedures relating specifically to electronic filing, transmission and remand of records on appeal. In the interim, electronic filing, transmission and remand of records on appeal shall be governed by this Order and, to the extent there are differences between the procedures described in this Order and those prescribed by the Pennsylvania Rules of Appellate Procedure, the procedures described in this Order shall apply.

Electronic Filing, Transmission and Remand of Records

(A) The electronic filing, transmission or remand of a record through the PACFile system by a court or other government unit shall constitute the filing, transmission or remand of the record under the Pennsylvania Rules of Appellate Procedure.

(B) The filing, transmission or remand of a record through the PACFile system is effected when a court or other government unit utilizes the PACFile system to electronically file, transmit or give notice of the remand or remittal of the record to a court or other government unit.

(C) The date of the electronic filing, transmission or remand of a record through the PACFile system by a court or other government unit shall be noted on the docket of the filing, transmitting or remanding court or other government unit and on the docket of the receiving court or other government unit.

(D) Any documents or filings sealed in a court or other government unit may be electronically filed, transmitted or remanded through the PACFile system only in a manner that restricts access to the sealed documents or filings to the court or other government unit and registered users of the PACFile system who are authorized to view the sealed documents or filings. Documents filed in camera in a court or other government unit may not be electronically filed or transmitted through the PACFile system.

(E) The appellate courts shall retain control over electronic access to records electronically filed or transmitted through the PACFile system, and may exclude such electronic access in whole or in part.

(F) For the purposes of Pa.R.A.P. 1921, in any appeal in which the record is electronically filed or transmitted through the PACFile system, the documents and filings electronically filed or transmitted thereby shall constitute original papers and exhibits.

(G) Upon the electronic filing, transmission or remand of a record through the PACFile system, the record shall be considered to be in the possession of the receiving court or other government unit until the record is electronically filed in, or transmitted to another court or government unit, or notice of remand or remittal to another court or other government unit is given.

(H) If a Rule of Appellate Procedure or court policy requires that a court file, transmit, remand or remit a record to another court or other government unit, the filing, transmission or notice of remand or remittal to the receiving court or other government unit may also be effected through the PACFile system.

(I) If a Rule of Appellate Procedure or court policy requires that a court provide notice by mail of the filing, transmission, remand or remittal of a record (as, for example, in Pa.R.A.P. 1934), that court may instead provide electronic notice by means of the PACFile system to a registered user of the system.

(J) The procedures described in this Order apply in lieu of those prescribed by the Pennsylvania Rules of Appellate Procedure to the extent there are differences between the procedures; otherwise, the Rules of Appellate Procedure continue to apply with full force and effect.

RULES AND REGULATIONS

Title 34—LABOR AND INDUSTRY

DEPARTMENT OF LABOR AND INDUSTRY

[34 PA. CODE CHS. 401 AND 403]

Uniform Construction Code

Under section 304 of the Pennsylvania Construction Code Act (act) (35 P.S. § 7210.304), the Department of Labor and Industry (Department) amends §§ 401.1 and 403.21 (relating to definitions; and Uniform Construction Code) to read as set forth in Annex A.

Statutory Authority

This final-omitted rulemaking is issued under the authority of section 304(a)(1) of the act, which provides that, within 3 months of receiving the report from the Uniform Construction Code Review and Advisory Council (RAC) specifying the triennial code revisions of the International Code Council (ICC) codes that are to be adopted into the Commonwealth's Uniform Construction Code (UCC), the Department "shall promulgate final-omitted regulations" adopting the revisions listed in the report "without change."

Background

In 1999, the General Assembly established the UCC and directed the Department to promulgate regulations adopting certain building codes as the UCC. See sections 102(a)(3) and 301 of the act (35 P.S. §§ 7210.102(a)(3) and 7210.301). The Department did so and, currently, the UCC adopts, by reference, various codes issued by the ICC, including the International Building Code (IBC), the International Mechanical Code (IMC), the International Fire Code (IFC), the International Fuel Gas Code, the International Residential Code (IRC), the International Plumbing Code, the International Existing Building Code (IEBC) and the International Energy Conservation Code (IECC). See §§ 403.1 and 403.21. Every 3 years, the ICC publishes revisions to these codes.

The act of October 9, 2008 (P.L. 1386, No. 106) established the RAC and charged it with the duty to review the periodic changes to the codes prior to adoption into the UCC. See section 107 of the act (35 P.S. § 7210.107). At that time, the RAC reviewed "new and amended provisions contained in triennial revisions" to the ICC codes and directed the Department which sections should be excluded.

For the 2009 review cycle, the RAC reviewed the revisions to the 2006 codes and advised the Department that it was not directing exclusion of any revised provisions. The Department then promulgated the necessary regulations, as required under the act, and the 2009 edition of the ICC codes were adopted, in their entirety, into the UCC.

The act of April 25, 2011 (P.L. 1, No. 1) amended the procedure by which the triennial revisions to the ICC codes would be reviewed and adopted into the UCC. See sections 107 and 304 of the act. Beginning with the 2012 revisions, the RAC was directed under section 107(b.1) of the act to review only the "latest triennial code revisions" of the new codes and to vote on what provisions should be added to the UCC. For each review, the RAC must hold public hearings and perform a review utilizing the crite-

ria in section 107(b.1)(2) and (4) of the act. To approve a revision for adoption into the UCC, the RAC is required under section 107(b.1)(5) of the act to approve that revision by a "two-thirds vote of council membership." Under section 107(b.1)(3) of the act, the RAC then submits a report to the Secretary of the Department identifying every provision that the RAC approved for adoption into the UCC. The Department is required under section 304(a)(1) of the act to "promulgate final-omitted regulations . . . to adopt the triennial code revisions made in the report without change."

Following the 2012 review cycle, the RAC did not adopt new revisions to the ICC codes and changes were not made to the Commonwealth's existing UCC.

In May 2014, the ICC published the 2015 triennial revisions to the ICC codes, involving over 1,900 revisions. The RAC formed subcommittees for each ICC code category to review the revisions. Each subcommittee reviewed and gave recommendations on their respective revisions. The RAC held three public hearings on November 19, 2014, in Youngwood, on January 11, 2015, in Harrisburg, and on February 11, 2015, in Allentown. On May 20, 2015, the RAC held a meeting to discuss and vote on the 2015 triennial building code revisions. The RAC voted to adopt 16 revisions. On May 29, 2015, Thomas McCosby, Chairperson of the RAC, sent a final report to the Department Secretary Kathy M. Manderino listing the revisions that were "specified for adoption." On June 17, 2015, Thomas McCosby sent a clarification letter identifying the actual ICC code sections impacted by the adopted revisions.

Under section 304(a)(1) of the act, the Department is required to promulgate final-omitted regulations adopting, "without change," the provisions outlined in the RAC's report and as clarified in the RAC's June 17, 2015, letter.

Purpose

The purpose of this final-omitted rulemaking is to amend §§ 401.1 and 403.21 to adopt the revisions specified in the RAC's report as required by section 304(a)(1) of the act.

Summary of Revisions Adopted by the RAC

The 16 revisions in the RAC's May 29, 2015, report impacted multiple sections of the ICC codes. The June 17, 2015, clarification letter identified specific code sections impacted. The Department drafted these regulations incorporating these sections into the UCC. For ease of use and clarity, changes to each section are listed separately in the amended regulations.

PROPOSED RULEMAKING

INDEPENDENT REGULATORY REVIEW COMMISSION

[1 PA. CODE CHS. 301, 303, 305, 307,
309, 311, 311a AND 315]

General Revisions

The Independent Regulatory Review Commission (Commission) proposes to amend Chapters 301, 303, 305, 307, 309, 311, 311a and 315 to read as set forth in Annex A.

Statutory Authority

This rulemaking is proposed under the authority in section 11(a) of the Regulatory Review Act (act) (71 P. S. § 745.11(a)).

Purpose

This proposed rulemaking implements the act to clarify definitions, when documents are to be delivered to the Commission and what should be included in agency rulemaking packages, as well as to ensure consistency with the act and current practice and procedure.

Summary of Amendments

Proposed amendments to § 301.1 (relating to definitions) clarify the definitions of “comments” and “transmittal sheet” and add a definition of “preamble.”

Proposed amendments to §§ 301.2 and 303.1 (relating to regulation files; and notice of Commission public meetings; participation; minutes) clarify the retention schedule for regulation files and the location of the Commission’s fee schedule and Right to Know Law Policy.

Proposed amendments to § 301.3 (relating to determination of date and time of delivery of comments and documents) clarify that the time of delivery will be determined by when documents are received by the Commission.

Proposed amendments to § 301.7 (relating to withdrawal of a regulation) provide that a withdrawal notice should be delivered to the Commission and the committees before the Commission’s public meeting.

Proposed amendments to § 301.9 (relating to procedure for public hearings) provide that public hearings may be scheduled for any matter before the Commission, rather than just for regulations that are under review. This is consistent with section 11(c) of the act.

Proposed amendments to §§ 305.1, 307.2 and 307.3 (relating to delivery of a proposed regulation; delivery of a final-form regulation; and delivery of a final-omitted regulation) add cross-references to clarify the information that should be included in the preamble of a rulemaking. Proposed amendments to § 305.1 also add a requirement that instructions for submitting public comments should be included. Section 5(b) of the act (71 P. S. § 745.5(b)) requires a public comment period.

Proposed amendments to § 307.2 clarify what should be included in the final rulemaking package. Section 5.1(a) of the act (71 P. S. § 745.5a(a)) provides that the agency shall include in the package the names and addresses of commentators who have requested additional information. Accordingly, proposed amendments to

§ 307.2 state that if no commentator requested additional information, this should be specified by the agency.

Proposed amendments to § 307.3a (relating to formatting the text of a final regulation) take into consideration that prior to publication in the *Pennsylvania Bulletin*, the Legislative Reference Bureau may make revisions to the text of a proposed rulemaking to comply with its editorial policies and procedures. The published text is considered to be the official version of the proposed rulemaking. Therefore, § 307.3a is proposed to be amended to require an agency to use the official version when preparing and delivering a final rulemaking package.

Proposed § 307.3a(f) recognizes that there may be an instance when it is impractical for an agency to use the standard formatting method in a final rulemaking. In this case, the agency should contact the Commission to discuss an alternative method that will still allow readers to easily determine the changes that were made from the proposed rulemaking.

Proposed amendments to § 309.1 (relating to Commission and committee action on a final regulation) correct typographical errors.

Proposed amendments to § 311.1 (relating to Commission disapproval of a final regulation) replace “may” with “will” regarding the Commission’s notification to commentators to be consistent with section 6(a) of the act (71 P. S. § 745.6(a)).

Proposed amendments to § 311.4 (relating to report for a disapproved regulation submitted with revisions) require an agency to include a Regulatory Analysis Form (RAF) with a revised previously-disapproved regulation. The RAF will capture new cost data or other changes that may differ from the previously submitted final-form rulemaking.

Proposed amendments to §§ 311a.1—311a.5 and 311a.7 clarify that delivery before and after the end of the legislative session must be made between the 4th Monday in January and the 2nd Monday after publication of the General Assembly committee designations in the *Pennsylvania Bulletin*. Proposed amendments to § 311a.4 (relating to delivery of a final regulation within 20 days before the end of the legislative session) correct a typographical error.

Proposed amendments to § 315.1 (relating to review of an existing regulation) replace “investigation” with “further review” to be consistent with section 8.1 of the act (71 P. S. § 745.8a).

The headings for Chapter 315 (relating to existing regulations and published or unpublished documents) and § 315.2 (relating to review of a published or an unpublished document) are proposed to be amended to accurately reflect the content of the chapter and the section.

Persons and Entities Affected

This proposed rulemaking will affect Commonwealth agencies that promulgate regulations by way of the regulatory review process. It also provides clarity for members of the public and other entities that wish to comment on rulemakings or otherwise participate in the process.

Fiscal Impact

This proposed rulemaking is not expected to have a fiscal impact on the Commission, the regulated commu-

nity (that is, the promulgating agencies), the Commonwealth, local governments or the general public. This proposed rulemaking clarifies the requirements of the existing regulatory review process.

Effective Date

This proposed rulemaking will become effective upon final-form publication in the *Pennsylvania Bulletin*.

Sunset Provisions

The Commission will make this proposed rulemaking effective upon final-form publication after conducting an analysis and evaluation of the comments, suggestions or objections received. The Commission will not establish a sunset date for these regulations. However, the Commission will continue to closely monitor the regulations for effectiveness and consistency with the act.

Public Comments

Written comments, suggestions or objections will be accepted for 30 days after publication of this proposed rulemaking in the *Pennsylvania Bulletin*. The Commission invites comments from the General Assembly, the legislative standing committees, executive and independent agencies, and interested parties. Comments should be addressed to Leslie Lewis Johnson, Esq., Chief Counsel, Independent Regulatory Review Commission, 333 Market Street, 14th Floor, Harrisburg, PA 17101, (717) 783-5417, fax (717) 783-2664, ljohnson@irrc.state.pa.us, irrc@irrc.state.pa.us.

A copy of this material is available to the public upon request and is available on the Commission's web site at www.irrc.state.pa.us.

Under section 5(g) of the act, the Joint Committee on Documents may convey comments, recommendations or objections to the proposed rulemaking within 30 days of the close of the public comment period. The comments, recommendations or objections shall specify the regulatory review criteria that have not been met. Prior to final publication of the regulation, the Joint Committee on Documents, the General Assembly and the Governor are afforded the opportunity, under the procedures in the act, to review the comments and recommendations received and objections raised.

This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

<i>Location</i>	<i>Permit Authority</i>	<i>Application Type or Category</i>

Section IV	NPDES	MS4 Individual Permit
Section V	NPDES	MS4 Permit Waiver
Section VI	NPDES	Individual Permit Stormwater Construction
Section VII	NPDES	NOI for Coverage under NPDES General Permits

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 Individual Permits and Individual Stormwater Construction Permits in Sections IV and VI, the Department, based upon preliminary reviews, has made tentative determinations of proposed effluent limitations and other terms and conditions for the permit applications. In accordance with 25 Pa. Code § 92a.32(d), the proposed discharge of stormwater associated with construction activities will be managed in accordance with the requirements of 25 Pa. Code Chapter 102. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the United States Environmental Protection Agency (EPA) Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on NPDES applications are invited to submit statements to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on WQM permit applications are invited to submit statements to the office noted before the application within 15 days from the date of this public notice. Comments received within the respective comment periods will be considered in the final determinations regarding the applications. A comment submittal should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for public hearings on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after a public hearing is held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907)

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.302—6026.305) require the Department to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. A person intending to use the background standard, Statewide health standard, the site-specific standard or intend to remediate a site as a special industrial area shall file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one or a combination of cleanup standards or receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for contamination identified in reports submitted to and ap-

proved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a site-specific standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the following site, proposed for remediation to a site-specific standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified as follows. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office listed before the notice. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

The Department has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the general public. This approach allows the owner or operator of a facility to submit permitting documents relevant to its application for all sources related to a facility or a proposed project, affords an opportunity for public input, and provides for a decision on the issuance of the necessary permits.

The Department received applications for Plan Approvals or Operating Permits from the following facilities.

Copies of the application, the Department's analysis, all pertinent documents used in the evaluation of the application and subsequently prepared proposed plan approvals/operating permits are available for public review during normal business hours at the appropriate Department Regional Office. Appointments for scheduling a review must be made by calling the appropriate Department Regional Office. The address and phone number of the Regional Office is listed before the application notices.

Persons wishing to file a written protest or provide comments or additional information, which they believe should be considered prior to the issuance of a permit, may submit the information to the Department's Regional Office. A 30-day comment period from the date of this publication will exist for the submission of comments, protests and information. Each submission must contain the name, address and telephone number of the person submitting the comments, identification of the proposed Plan Approval/Operating Permit including the permit number and a concise statement regarding the relevancy of the information or objections to issuance of the permit.

A person wishing to request a hearing may do so during the 30-day comment period. A public hearing may be held, if the Department, in its discretion, decides that a hearing is warranted based on the information received. Persons submitting comments or requesting a hearing will be notified of the decision to hold a hearing by publication in the newspaper, the *Pennsylvania Bulletin* or by telephone, when the Department determines this type of notification is sufficient. Requests for a public hearing and any relevant information should be directed to the appropriate Department Regional Office.

Permits issued to the owners or operators of sources subject to 25 Pa. Code Chapter 127, Subchapter D or E, or located within a Title V facility or subject to 25 Pa. Code § 129.51(a) or permits issued for sources with limitations on their potential to emit used to avoid otherwise applicable Federal requirements may be submitted to the United States Environmental Protection Agency for review and approval as a revision to the State Implementation Plan. Final Plan Approvals and Operating Permits will contain terms and conditions to ensure that the sources are constructed and operating in compliance with applicable requirements in the Air Pollution Control Act (35 P. S. §§ 4001—4015), 25 Pa. Code Chapters 121—145, the Federal Clean Air Act (42 U.S.C.A. §§ 7401—7671q) and regulations adopted under the Federal Clean Air Act.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation

to participate should contact the regional office listed before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

14-00003H: Pennsylvania State University (101P Physical Plant Bldg, University Park, PA 16802) for the construction of two 2,000 kW Cummins model DQKAE emergency generators powered by 2,922 brake-horsepower diesel-fired Cummins QSK60 reciprocating internal combustion engines (RICE) and one Cummins model C25 D6 emergency generator powered by a 69 bhp Cummins 4BT3.3-G5 diesel-fired RICE at the Data Center at the University Park Campus located in College Township and State College Borough, **Centre County**. The Department of Environmental Protection's (Department) review of the information submitted by the Pennsylvania State University indicates that the air contamination sources will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the new source performance standards, the national emission standards for hazardous air pollutants, and the best available technology requirement (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the emergency generators.

The following is a brief description of the conditions the Department intends to place in the plan approval in order to ensure compliance with all applicable air quality regulatory requirements.

1. Pursuant to the Best Available Technology requirements of 25 Pa. Code §§ 127.1 and 127.12 and to 40 CFR 60.4205(b), the permittee shall operate Data Center Generators #1 & #2 in a manner such that the rate of emissions from the stationary reciprocating internal combustion engines (RICE) do not exceed the following limitations: (a) Nitrogen Oxide and Nonmethane Hydrocarbons—3.8 g/bhp-hr and 6.1 tons/year. (b) Carbon Monoxide—0.75 g/bhp-hr and 1.2 ton/year (c) Particulate Matter—0.09 g/bhp-hr and 0.15 ton/year (d) Sulfur Oxide—0.01 ton/year.

2. Pursuant to the Best Available Technology requirements of 25 Pa. Code §§ 127.1 and 127.12 as well as 40 CFR 60.4207(b) and 63.6604(a), the diesel fuel fired in Data Center Generators #1 & #2 shall comply with the following per-gallon standards: (a) Sulfur content of 15 ppm maximum. (b) Cetane index or aromatic content, as follows: (i) A minimum cetane index of 40; or (ii) A maximum aromatic content of 35 volume percent.

3. The permittee shall operate the Data Center Generators in accordance with the requirements of 40 CFR 60.4211(f), which limits non-emergency operation. The permittee shall equip the Data Center Generators with non-resettable hour meters that log the run-time of the engines.

4. Pursuant to 40 CFR 60.4211, the permittee shall install, configure, operate, and maintain the Data Center

Generators according to the manufacturer's emission-related written instructions; change only those emission-related settings that are permitted by the manufacturer; and meet the requirements of 40 CFR parts 89, 94, and/or 1068, as applicable.

5. The permittee shall keep records of the following information: (a) The monthly emissions of nitrogen oxides (NO_x), nonmethane hydrocarbons (NMHC), carbon monoxide (CO), particulate matter (PM), and sulfur oxides (SO_x) from the exhaust of Data Center Generators #1 & #2 and the supporting calculations/documentation; (b) The number of hours from the non-resettable hour meters that the engines are operated on a monthly basis; (c) For each delivery of diesel fuel for these engines, a copy of the fuel certification report that verifies compliance with diesel fuel requirements. MINING ACTIVITY NPDES DRAFT PERMITS

This notice provides information about applications for a new, amended or renewed NPDES permits associated with mining activity (coal or noncoal) permits. The applications concern industrial waste (mining) discharges to surface water and discharges of stormwater associated with mining activities. This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92a and 40 CFR Part 122, implementing provisions of The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act (33 U.S.C.A. §§ 1251—1376).

The Department of Environmental Protection (Department) has prepared a draft NPDES permit and made a tentative determination to issue the NPDES permit in conjunction with the associated mining activity permit.

Effluent Limits for Coal Mining Activities

For coal mining activities, NPDES permits, when issued, will contain effluent limits that are the more stringent of technology-based (BAT) effluent limitations or Water Quality Based Effluent Limits (WQBEL).

The BAT limits for coal mining activities, as provided in 40 CFR Part 434 and 25 Pa. Code Chapters 87—90 are as follows:

<i>Parameter</i>	<i>30-Day Average</i>	<i>Daily Maximum</i>	<i>Instantaneous Maximum</i>
Iron (Total)	3.0 mg/l	6.0 mg/l	7.0 mg/l
Manganese (Total)	2.0 mg/l	4.0 mg/l	5.0 mg/l
Suspended solids	35 mg/l	70 mg/l	90 mg/l
pH*		greater than 6.0; less than 9.0	
Alkalinity greater than acidity*			

* The parameter is applicable at all times.

A settleable solids instantaneous maximum limit of 0.5 ml/l applies to: surface runoff (resulting from a precipitation event of less than or equal to a 10-year 24-hour event) from active mining areas; active areas disturbed by coal refuse disposal activities; mined areas backfilled and revegetated; and all other discharges and drainage (resulting from a precipitation event of greater than 1-year 24-hour to less than or equal to a 10-year 24-hour event) from coal refuse disposal piles. Similarly, modified BAT limits apply to iron, manganese and suspended solids in surface runoff, discharges and drainage resulting from these precipitation events and those of greater magnitude in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Exceptions to BAT effluent limits may be applicable in accordance with 25 Pa. Code §§ 87.102, 88.92, 88.187, 88.292, 89.52 and 90.102.

Effluent Limits for Noncoal Mining Activities

The limits for noncoal mining activities as provided in 25 Pa. Code Chapter 77 are pH 6 to 9 and other parameters the Department may require.

Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional water quality based effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description specifies the parameters.

In addition to BAT or WQBEL limits, coal and noncoal NPDES permits establish effluent limitations in the form of implemented Best Management Practices (BMPs) identified in the associated Erosion and Sedimentation Plan, the Reclamation Plan and the NPDES permit application. These BMPs restrict the rates and quantities of associated pollutants from being discharged into surface waters in this Commonwealth.

More restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining that may occur are incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 563-2112-115, Developing National Pollutant Discharge Elimination System (NPDES) Permits for Mining Activities. Other specific factors to be considered include public comments and Total Maximum Daily Load(s). Additional discharge limitations may apply in the event that unexpected discharges occur.

Discharge rates for surface mining activities are precipitation driven. Discharge rates for proposed discharges associated with underground mining are noted in the permit description.

Persons wishing to comment on an NPDES draft permit should submit a written statement to the Department at the address of the district mining office indicated before each draft permit within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92a.82(d). The request or petition for a public hearing shall be filed within 30 days of this public notice and contain the name, address, telephone number and the interest of the party filing the request, and state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. When a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Provisions of Sections 301—308 of the Land Recycling and Environmental Remediation Standards Act (act) (35 P. S. §§ 6026.301—6026.308) require the Department to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, will also be published in the *Pennsylvania*

Bulletin. These include the remedial investigation report, risk assessment report and cleanup plan for a site-specific standard remediation. A remedial investigation report includes conclusions from the site investigation; concentration of regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the environmental cleanup program manager in the Department regional office under which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

Southcentral Region: Environmental Cleanup and Brownfields Program Manager, 909 Elmerton Avenue, Harrisburg, PA 17110. Phone 717.705.4705.

Danielle Hairston-Green Residence, 608 Muench Street, Harrisburg, PA 17102, City of Harrisburg, **Dauphin County**. LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995 PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.907).

Section 250.8 of 25 Pa. Code and administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by the act for compliance with selection of remediation to a site-specific standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation; concentration of

regulated substances in environmental media; benefits of reuse of the property; and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office under which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department will hold a public hearing on the draft NPDES permit renewal application at the LaBelle Volunteer Fire Department, Luzerne Township, 1101 LaBelle Road, LaBelle, PA 15450 on Thursday, January 7, 2016, from 6 p.m. to 8 p.m. The nature of the public hearing is to solicit concerns and comments regarding the draft NPDES permit renewal for the LaBelle Site. The public hearing will be held in accordance with 25 Pa. Code § 92a.83.

The public hearing is being held at the request of the Citizens Coal Council and Environmental Integrity Project, who state the draft permit is insufficient under the Clean Water Act and fails to achieve water quality standards because:

- It fails to include some of the most polluting point source discharges from the Matt Canestrone Contracting, Inc. site.
- It uses the coal refuse technology-based limits for a host of other pollutants which are likely to be in the waste streams from the site.
- The Department did not consider whether water-quality based limits are necessary when it is clear that the current technology-based limits are not sufficient to prevent violations of the water quality standards.

• The Department failed to carry out a comprehensive reasonable potential analysis on the tributaries of the Monongahela.

A Department representative will be available to receive both written and oral testimony regarding the draft NPDES permit. Testimony will be placed into public record for the draft NPDES permit and considered by Department staff in the review process. A court stenographer will be present to document the expressed concerns.

Persons with a disability who wish to attend this public hearing and require an auxiliary aid, service or other accommodation to participate in the proceedings should contact Bonnie Herbert at (724) 769-1100 to discuss how the Department may accommodate your needs. If necessary, use the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDD Users) or (800) 654-5988 (voice users) and request that the call be relayed to Bonnie Herbert at (724) 769-1100.

Copies of the draft NPDES permit are on file for public review, by appointment, at the Department of Environmental Protection, District Mining Operations, 25 Technology Drive, California Technology Park, Coal Center, PA 15423, (724) 769-1100.

GAME COMMISSION

Cervid Parts Importation Ban #8

Order

Whereas, Chronic Wasting Disease (CWD) is an infectious and progressive neurological disease that is found in, and always proves fatal to, members of the Family Cervidae (deer, elk or moose, collectively called cervids); and

Whereas, The specific cause of CWD is believed to be prions (abnormal infectious protein particles) that are known to be concentrated in the nervous system and lymphoid tissues of infected cervids; and

Whereas, There are no known treatments for CWD infection, no vaccines to protect against CWD infection, and no approved tests that can detect the presence of CWD in live cervids; and

Whereas, CWD has been designated a “dangerous transmissible disease” of animals by order of the Secretary of Agriculture under the provisions of the Domestic Animal Law (3 Pa.C.S. §§ 2301 et seq.), at 3 Pa.C.S. § 2321(d); and

Whereas, CWD is known to be transmissible from infected to uninfected cervids by contact with or ingestion of CWD-infected or contaminated cervid parts or materials; and

Whereas, CWD is of particular concern to the Commonwealth of Pennsylvania because, it has the potential to have a severe, detrimental impact on both Pennsylvania’s wild and captive cervid populations; and

Whereas, the Pennsylvania Game Commission (PGC) has determined that importation of potentially infectious parts or materials from cervids harvested in CWD-endemic States or Canadian Provinces into the Commonwealth of Pennsylvania poses an unacceptable risk of continued introduction of CWD into the state; and

Whereas, The Game and Wildlife Code (Code) (34 Pa.C.S. §§ 101 et seq.) and regulations promulgated thereunder (58 Pa. Code §§ 131.1 et seq.) collectively provide broad authority to the PGC to regulate activities relating to the protection, preservation, and management of game and wildlife, including cervids;

Whereas, 58 Pa. Code § 137.34 provides specific emergency authority to the Executive Director of the PGC to ban the importation of certain cervid parts from other states or nations to prevent the introduction or spread of CWD into the Commonwealth of Pennsylvania; and

Whereas, Previous executive orders concerning cervid parts importation restrictions were issued by the Commission on December 19, 2005, May 27, 2009, July 30, 2010, July 20, 2011, October 16, 2012, May 12, 2014 and October 27, 2015.

Now Therefore, I, R. Matthew Hough, Executive Director of the Pennsylvania Game Commission, pursuant to the authority vested in me by the Code and regulations promulgated thereunder, do hereby order and direct the following:

1. The previous executive order concerning cervid parts importation restrictions issued on October 27, 2015 is hereby rescinded in its entirety and replaced by this Order.

2. The importation of any high-risk parts or materials from cervids harvested in any CWD-endemic States or Canadian Provinces into the Commonwealth of Pennsylvania is hereby strictly prohibited.

3. For the purposes of this Order, CWD-endemic States or Canadian Provinces shall be defined as any States or Canadian Provinces where CWD has been detected in wild or captive cervid populations. At present, this includes the following specific States and Canadian Provinces: Alberta, Colorado, Illinois, Iowa, Kansas, Maryland (only Allegany County), Michigan, Minnesota, Missouri, Montana, Nebraska, New Mexico, New York (only Madison and Oneida Counties), North Dakota, Ohio (only Holmes County), Oklahoma, Saskatchewan, South Dakota, Texas, Utah, Virginia (only Frederick, Shenandoah, Warren, and Clarke Counties), West Virginia (only Hampshire, Hardy and Morgan Counties), Wisconsin, and Wyoming.

4. For the purposes of this Order, the term cervid shall include any member of the family Cervidae (deer), specifically including the following species: black-tailed deer, caribou, elk, fallow deer, moose, mule deer, red deer, sika deer, white-tailed deer, and any hybrids thereof.

5. For the purposes of this Order, high-risk parts or materials shall be defined as any parts or materials, derived from cervids, which are known to accumulate abnormal prions. This includes any of the following:

- a. Head (including brain, tonsils, eyes, and lymph nodes);
- b. Spinal Cord/Backbone (vertebra);
- c. Spleen;
- d. Skull plate with attached antlers, if visible brain or spinal cord material is present;
- e. Cape, if visible brain or spinal cord material is present;
- f. Upper canine teeth, if root structure or other soft material is present;
- g. Any object or article containing visible brain or spinal cord material;
- h. Brain-tanned hide.

6. This Order shall not be construed to limit the importation of the following cervid parts or materials into the Commonwealth of Pennsylvania:

- a. Meat, without the backbone;
- b. Skull plate with attached antlers, if no visible brain or spinal cord material is present;
- c. Tanned hide or rawhide with no visible brain or spinal cord material present;

d. Cape, if no visible brain or spinal cord material is present;

e. Upper canine teeth, if no root structure or other soft material is present; and

f. Taxidermy mounts, if no visible brain or spinal cord material is present.

7. This Order shall not be construed in any manner to limit the PGC's authority to establish additional importation or testing requirements on imported cervid parts or materials.

8. This Order is effective immediately and shall remain in effect until rescinded or modified by subsequent order.

Given under my hand and seal of the Pennsylvania Game Commission on this 11th day of November 2015.

The Commission comments are based upon the criteria contained in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b).

The Commission has issued comments on the following proposed regulations. The agency must consider these comments in preparing the final-form regulation. The final-form regulation must be submitted within 2 years of the close of the public comment period or it will be deemed withdrawn.

November 12, 2015

We submit for your consideration the following comments on the proposed rulemaking published in the August 8, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review

Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

1. Implementation procedures.

EQB establishes a compliance date of January 1, 2016, in this proposed regulation. However, in the Preamble, EQB notes that it is considering changing the compliance date to May 1, 2016. We recommend that EQB establish a compliance date that allows for the proper development of a final-form regulation and full compliance by the regulated community.

Additionally, § 129.52d(a)(4) provides owners and operators of a miscellaneous metal part surface coating process or a miscellaneous plastic part surface coating process the option of meeting compliance standards by being regulated under § 129.52e (relating to control of volatile organic emissions from automobile and light-duty truck assembly coating operations and heavier vehicle coating operation). Similar to this proposed regulation, § 129.52e is currently being reviewed as a proposed rulemaking. (See EQB regulation #7-490; IRRC #3110.) We ask EQB to ensure that the two rulemakings are adopted on the same date.

2. Section 129.52. Surface coating processes.—Reasonableness; Clarity.

Subsection (g) is being amended to require onsite storage of records. What is the reason for this change? We ask EQB to explain the rationale for this requirement in the Preamble to the final-form regulation.

In addition, we are concerned with the clarity of the last sentence of this subsection. It reads as follows: “The records shall be submitted to the Department in an acceptable format on a schedule reasonably prescribed by the Department.” The term “in an acceptable format” is vague. We suggest that it be clarified to state what formats would be acceptable. In addition, the term “on a schedule reasonably prescribed” is also vague. We note that this term is in the existing regulation. However, we believe the overall clarity of this section would be improved if a more definitive and binding timeframe or schedule is included in the final-form regulation.

3. Section 129.52d. Control of VOC emissions from miscellaneous metal parts surface coating processes, miscellaneous plastic parts surface coating processes and pleasure craft surface coatings.—Possible conflict with or duplication of statutes or existing regulations; Clarity.

Subsection (a)(5)(i) provides an exemption for the use or application of aerosol coatings. A commentator has asked for clarification on whether hand-held aerosol cans would be included in this exemption. In the Preamble to the final-form rulemaking, we ask EQB to explain if hand-held aerosol cans are exempt, and if they are, to clarify that in the regulation.

In addition, the commentator suggests that this rulemaking be amended to state that § 129.52d supersedes the emissions limits and other requirements of § 129.52, relating to surface coating processes. We note that other sections of 25 Pa. Code Chapter 129 include language that supersedes § 129.52. If supersedeas language is appropriate for this rulemaking, while at the same time consistent with Federal requirements on which this rulemaking is based, we suggest that it be included in the final-form regulation.

**Environmental Quality Board Regulation #7-490
(IRRC #3110)**

Control of Volatile Organic Compound Emissions from Automobile and Light-Duty Truck Assembly Coating Operations and Heavier Vehicle Coating Operations

November 12, 2015

We submit for your consideration the following comments on the proposed rulemaking published in the August 8, 2015 *Pennsylvania Bulletin*. Our comments are based on criteria in Section 5.2 of the Regulatory Review Act (RRA) (71 P. S. § 745.5b). Section 5.1(a) of the RRA (71 P. S. § 745.5a(a)) directs the Environmental Quality Board (EQB) to respond to all comments received from us or any other source.

Implementation procedures.

EQB establishes a compliance date of January 1, 2016, in this proposed regulation. However, in the Preamble, EQB notes that it is considering changing the compliance date to May 1, 2016. We recommend that EQB establish a compliance date that allows for the proper development of a final-form regulation and full compliance by the regulated community.

Additionally, EQB states in the Preamble that the owner or operator of a separate coating line at an automobile and light-duty truck assembly coating facility, and the owner or operator of a facility that coats a body or body part for a new heavier vehicle, would have the option to elect to be regulated under this proposed rulemaking instead of proposed rulemaking #7-491 (IRRC #3109), which EQB intends to adopt as a final-form rulemaking concurrently with adoption of this final-form regulation. We ask EQB to ensure that the two rulemakings are adopted on the same date.
