READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

GENERAL INFORMATION AND FINDING AIDS: (717) 783-1530**

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where "no fiscal impact" is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

Title 210—APPELLATE PROCEDURE

PART II. INTERNAL OPERATING PROCEDURES [210 PA. CODE CH. 65]

Amendments to the Superior Court Internal Operating Procedures

The Superior Court of Pennsylvania has adopted amendments to its Internal Operating Procedures. These amendments are reflected in the Superior Court Internal Operating Procedures with amendments to 210 Pa. Code 65.1 et seq.

These changes were approved on November 20, 2003, effective immediately.

ERNEST GENNACCARO,
*Chief Staff Attorney to the
Superior Court of Pennsylvania*

Annex A

TITLE 210. APPELLATE PROCEDURE

PART II. INTERNAL OPERATING PROCEDURES

CHAPTER 65. INTERNAL OPERATING PROCEDURES OF THE SUPERIOR COURT

ADMINISTRATIVE OFFICES AND STAFF

§ 65.3. [Court Recorder] Reporter.

A. The [Recorder] Reporter shall be a member of the administrative staff of the Court whose duties and responsibilities include:

* * * *

§ 65.5. Panels.

* * * *

E. The presiding judge of each panel shall be the commissioned judge highest in seniority, except where the panel includes the President Judge who shall then be the presiding judge. The presiding judge shall preside at all panel sessions, assign the cases, and record the assignment of cases. The presiding judge shall transmit to the members of the panel[, the President Judge, the Prothonotary, the Chief Staff Attorney,] and the [Recorder] Reporter a record of all assignments and/or actions taken by the judge.

F. [The identity of the members of a panel shall be confidential prior to the commencement of a session.] All discussion, votes, and drafts of decisions prior to the filing of the final decision shall [also] remain confidential.

§ 65.6. Courts en banc.

* * * *

C. At the conclusion of each en banc session, the presiding judge shall forward to all judges, the Prothonotary, the Chief Staff Attorney, the administrative assistant to the President Judge, and the [Recorder] Reporter a record of all assignments and other actions taken during the session.

§ 65.9. Confidentiality Considerations.

A member of staff owes a duty of confidentiality to the judges of the Superior Court. This duty extends to matters concerning any opinions, statements, or events with respect to the decision-making process of the Court. A staff member should avoid even informal contact with attorneys or litigants with respect to a matter pending before the Court. An attorney should refrain from discussions outside the Court, public or private, regarding the merits of pending proceedings. Matters involving the decision-making process are inappropriate for discussion outside the Court, including but not limited to [the composition of panels prior to argument or submission of a case,] the assignment of a case to a particular judge, the motions assignment judge, or the identity of the judge who may have signed an order in a case per curiam.

MOTIONS PRACTICE

(Editor's Note: Section 65.21 has been entirely replaced with the following text, printed in regular type to enhance readability.)

§ 65.21. Motions Subject to Single Judge Disposition.

A. Except as otherwise provided in § 65.22, a single judge of this Court, whether commissioned or specially assigned, may entertain and may grant or deny any request for relief which under the Rules of Appellate Procedure may properly be sought.

Comment: Section 65.21(A) merely reaffirms the procedure codified in Pa.R.A.P. 123. A single judge may grant or deny relief requested by a proper application, Pa.R.A.P. 123(e). However, the Court may by order or rule provide that an application or class of applications must be acted upon by the Court.

B. All petitions for extension of time shall be referred by the Prothonotary to the motions judge. Such petitions should be acted upon as soon as possible unless the motion judge feels an answer is necessary. Petitions for extension shall be granted only on cause shown and in any event the filing of the brief is required, particularly in criminal cases, even though the right to argue is lost. Central Legal Staff shall be notified of the filing of the motion and the disposition. However, if the petition for extension is accompanied by a substantive motion, such as a motion to quash, remand, or withdraw, Central Legal Staff shall review the motion in an expeditious manner pursuant to the procedures set forth in Section 65.21(C) herein. Notwithstanding any contrary procedure set forth above, all petitions for extension in cases which have been identified as family law fast track cases, upon receipt by the Prothonotary, shall be sent to Central Legal Staff for processing. All such petitions for extension in family law fast track cases shall be presented to a motions judge for disposition within three days of receipt of the petition by Central Legal Staff.

C. All other motions, petitions or applications for relief subject to this rule, shall, upon receipt by the Prothonotary, be transmitted to Central Legal Staff.

D. Central Legal Staff, upon receiving an application for relief pursuant to subsection C, shall review the application and prepare a recommendation and present the application and recommendation to the assigned motions judge at a time and place convenient to the motions judge.

E. The motions judge may decide the application on the basis of the application or may require the filing of an answer or briefs, or the motions judge may schedule a hearing thereon.

F. Unless ordered by the Court, oral argument will not be permitted.

G. It is within the discretion of a single judge to whom an application has been referred to decide the motion or to have it presented to a motions panel. Pa.R.A.P. 123(e). (As amended, effective 1/1/97)

H. Once a case is scheduled before a panel, all motions filed thereafter shall be referred to that panel.

I. Motions for continuance are to be referred to the presiding judge of the panel who alone may decide the motion, or who may obtain a vote of the other judges of the panel by letter or phone.

J. Any motions for mandamus, prohibition and writs of habeas corpus where no direct appeal is pending shall be referred by the Chief Staff Attorney to the assigned motions judge.

Comment: See *Municipal Publications v. Court of Common Pleas of Philadelphia County*, 507 Pa. 194, 489 A.2d 1286 (1985).

§ 65.22. Motions Review Subject to Motions Panel Disposition.

* * * * *

B. [The President Judge shall set the motions panel. Each motions panel shall consist of three commissioned judges and shall serve for a period of two months.] After a motion subject to this Rule has been filed by the Prothonotary's office, the Prothonotary shall forward the motion to Central Legal Staff which shall prepare and circulate to the motions panel a legal memorandum and recommendation. Votes thereon shall be due three weeks from the date on which the motion and accompanying document are sent by Central Legal Staff. Votes on cases which have been identified as family law fast track cases shall be due two weeks from the date on which the motion and accompanying documents are sent by Central Legal Staff.

C. If, in reviewing motions to be referred to a motions panel, Central Legal Staff determines that the motion is patently defective or the appeal is clearly defective or can be disposed of based upon established case law, the motion may be presented to the assigned motions judge.

§ 65.23. Discontinuances.

* * * * *

Comment: Fugitive appeals will be quashed rather than discontinued on motion of the District Attorney or sua sponte by the Court. See Pa.R.A.P. 1972(6), *Commonwealth v. Passaro*, 504 Pa. 611, 476 A. 2d 346 (1984).

§ 65.25. Assignment of Judges to Motions Duty.

A. * * *

B. The President Judge shall set the motions panel. Each motions panel shall consist of three commissioned judges and shall serve for a period of two months. During each two-month period, the motions panel shall consider all Section 65.22 motions ready for disposition during the two-month period.

DECISIONAL PROCEDURES

§ 65.37. Unpublished Memoranda Decisions.

* * * * *

[C. The publication of a decision is within the panel's discretion, however, a decision generally should be published when it:

1. Is by a Court en banc, provided that a majority of the voting members of the panel may vote to refrain from publication and to decide the appeal by memorandum;
2. Establishes a new rule of law;
3. Applies an existing rule of law to facts significantly different than those stated in prior decisions;
4. Modifies or criticizes an existing rule of law;
5. Resolves an apparent conflict of authority;
6. Involves a legal issue of continuing public interest; or
7. Constitutes a significant, non-duplicative contribution to law because it contains;
 - a. An historical review of the law,
 - b. A review of legislative history,
 - c. A review of conflicting decisions among the courts of other jurisdictions.
- D. A judgment order, without separate memorandum decision, may be used to decide an appeal where the decision is unanimous and requires minimal explanation because it is mandated by established and unquestioned precedential decision, statute or principle of law or is based on findings of fact which are fully supported by the evidence.]

RULES AND REGULATIONS

Title 25—ENVIRONMENTAL PROTECTION

DEPARTMENT OF ENVIRONMENTAL PROTECTION
[25 PA. CODE CH. 109]

Corrective Amendment to 25 Pa. Code § 109.301(2)(i)(A)

The Department of Environmental Protection has discovered a discrepancy between the agency text of 25 Pa. Code § 109.301(2)(i)(A) (relating to general monitoring requirements) as deposited with the Legislative Reference Bureau and the text published at 32 Pa.B. 3894, 3902 (August 10, 2002) and the text published in the *Pennsylvania Code Reporter* (Master Transmittal Sheet No. 335). The heading for the table in clause (A) was inadvertently changed on final publication of the amendment in the *Pennsylvania Bulletin*. The correct heading should be Samples/Week.

Therefore, under 45 Pa.C.S. § 901: The Department of Environmental Protection has deposited with the Legislative Reference Bureau a corrective amendment to 25 Pa. Code § 109.301(2)(i)(A). The corrective amendment to 25 Pa. Code § 109.301(2)(i)(A) is effective as of August 10, 2002, the date the defective text was printed in the *Pennsylvania Bulletin*.

The correct version of 25 Pa. Code § 109.301(2)(i)(A) appears in Annex A, with ellipses referring to the existing text of the regulation.

§ 109.301. General monitoring requirements.

The monitoring requirements established by the EPA under the National Primary Drinking Water Regulations, 40 CFR Part 141 (relating to national primary drinking water regulations), as of December 8, 1984, are incorporated by reference. Public water suppliers shall monitor for compliance with MCLs and MRDLs in accordance with the requirements established in the National Primary Drinking Water Regulations, except as otherwise established by this chapter unless increased monitoring is required by the Department under § 109.302 (relating to special monitoring requirements). Alternative monitoring requirements may be established by the Department and may be implemented in lieu of monitoring requirements for a particular National Primary Drinking Water Regulation if the alternative monitoring requirements are in conformance with the Federal act and regulations. The monitoring requirements shall be applied as follows:

* * * * *

(2) *Performance monitoring for unfiltered surface water and GUDI.* A public water supplier using unfiltered

surface water or GUDI sources shall conduct the following source water and performance monitoring requirements on an interim basis until filtration is provided, unless increased monitoring is required by the Department under § 109.302:

(i) Except as provided under subparagraphs (ii) and (iii), a public water supplier:

Title 49—PROFESSIONAL AND VOCATIONAL STANDARDS

STATE BOARD OF PODIATRY

[49 PA. CODE CH. 29]

Continuing Education

The State Board of Podiatry (Board) amends Chapter 29 by listing a preapproved course provider from which licensees can obtain the requisite amount of continuing education credits in a biennial period to read as set forth in Annex A. The Board also amends Chapter 29 by instituting fees for reviewing continuing education waivers or extension requests and reinstatement of license requests following inactive or expired status to read as set forth in Annex A.

A. *Effective Date*

The amendments will be effective upon publication of the final-form rulemaking in the *Pennsylvania Bulletin*.

B. *Statutory Authority*

The final-form rulemaking is authorized under sections 9, 9.1 and 15 of the Podiatry Practice Act (act) (63 P. S. §§ 42.9, 42.9a and 42.15).

C. *Background and Purpose*

The final-form rulemaking was precipitated by problems that occurred during the biennial renewal period ending December 31, 2000. During that renewal period, approximately nine continuing education providers filed applications for course approval with the Board after the October 18, 2000, Board meeting. The conferences had already taken place, but had not yet been approved as providing acceptable continuing education credits for the

Board's licensees. Those applications could not be considered by the Board until the following meeting, which took place in January 2001, after the renewal period had already passed. This created an enormous problem for licensees who had relied on the credits they received from those conferences to effectuate their biennial registration.

To avoid this problem during the ensuing biennial renewal periods, the Board amends its continuing education regulations to include a preapproved course provider. Instituting the Council on Podiatric Medical Education (CPME) as a preapproved provider would further eliminate the Board's task of sifting through lengthy course applications at each meeting and voting whether to approve or disapprove the individual courses.

The proposed rulemaking was published at 32 Pa.B. 5759 (November 23, 2002).

D. Description of Final-Form Rulemaking

Section 29.13 (relating to fees) is amended by adding the following fees:

<i>Application</i>	<i>Current Fee</i>	<i>Amended Fee</i>
Review of continuing education waiver or extension requests	0	\$50
Review of reinstatement of license requests following inactive or expired status	0	\$25

Section 29.60 (relating to definitions) is added to define "biennium," "certification," "clock hour" and "provider."

Section 29.61 (relating to requirements for biennial renewal and eligibility to conduct educational conferences) adds the requirements for biennial renewal, emphasizing that it is the responsibility of the licensee to ensure that the licensee has met the required 30 hours of credit per biennium. Applicants for license renewal are required to provide to the Board a signed statement certifying that the licensee has complied with the continuing education requirements. In the past, problems with noncompliance have arisen because licensees have not been diligent in complying with the Board's regulations that only courses approved by the Board will be accepted as continuing education credit. Additionally, subsection (a) informs the licensee that a maximum of 10 clock hours of computer/Internet, self-study magazine or journal article courses will be accepted by the Board.

Sections 29.62 and 29.63 (relating to length of time of educational conferences; and curriculum of educational conferences) are amended to provide that educational conferences shall offer at least 1 hour of instruction, instead of the current 4 hours. This is intended to give both licensees and providers increased flexibility.

The most important addition to the Board's continuing education requirements is § 29.63a (relating to preapproved course provider). Courses or programs offered or approved by the CPME will be accepted by the Board for continuing education credit.

Section 29.64 (relating to applications for approval of educational conferences) is amended to approve educational conferences by having the applicant—licensee or provider—submit an application for program/course approval if the licensee chooses to attend a program that is not offered by the preapproved provider or if a provider would like to gain Board approval for a particular program it is offering. Section 29.64(b) is amended by requiring detailed information about the prospective course. The Board felt that a copy of the program brochure or the course syllabus, or both, would be sufficient.

Section 29.67 (relating to approval or disapproval of educational conferences) provides that the Board will notify the designated person stated on the application for course/conference approval as to the approval or disapproval of the application within 30 days of action taken by the Board at the next scheduled Board meeting. This amends the current regulation which requires the Board to take action on an application within 30 days of receipt of the application. The amendment is necessary because the Board meets bimonthly. When an application for approval of an educational course or conference arrives within a month subsequent to a meeting, the Board is unable to meet the current 30 day requirement because the Board meets every 60 days. With the amendment, even if the application arrives right after a Board meeting, the Board has 30 days from the time of the next board meeting to notify the designated person stated on the application whether or not the course/conference has been approved.

Section 29.68 (relating to continuing education exemptions) adds a provision allowing for waivers of the continuing education requirements for serious illness or other demonstrated hardship. In addition, a fee shall be assessed for review of waiver or extension requests. Section 29.13 is amended to reflect this new fee.

Section 29.69 (relating to continuing education requirement for biennial renewal of inactive and lapsed licenses) states that a licensee seeking to reinstate an inactive or lapsed license shall show proof of compliance with the continuing education requirement for the preceding biennium. In addition, a fee of \$25 shall be assessed for reactivation of an inactive or lapsed license. This fee is also reflected in § 29.13.

Section 29.69a (relating to disciplinary action authorized) notifies the licensee that submission of fraudulent information to the Board or failure to complete the required number of continuing education credits may result in disciplinary action. This section was published as § 29.70 in the proposed rulemaking and is renumbered in the final-form rulemaking.

E. Comment and Regulatory Review of Proposed Rulemaking

Publication of the proposed rulemaking was followed by a 30-day public comment period during which the Board received no public comments.

Following the close of the public comment period, the Board received comments from the House Professional Licensure Committee (HPLC) and the Independent Regulatory Review Commission (IRRC). The Board did not receive comments from the Senate Consumer Protection and Professional Licensure Committee (SCP/PLC).

The following are the comments submitted by the HPLC and IRRC and the Board's responses:

1. In response to the HPLC's suggestion that course providers be required to retain documentation of attendance at courses as a backup means to authenticate attendance in the event a licensee's documentation is lost or comes into question, the Board will retain § 29.65 (relating to compilation of official attendance list).
2. The HPLC requested an explanation as to how continuing education will be accomplished through computer/Internet, magazine or journal article courses.

The Commonwealth and Texas are the only two states that currently do not accept these kinds of courses for continuing education. To receive credit through an Internet course, a licensee must pay a fee to log into the

course, provide a license number, complete the entire course and take a self-examination, which is then submitted to the CPME-approved provider. After a licensee has read a magazine or journal article, a self-examination must be completed, which is then sent to the CPME approved provider along with a fee.

3. The HPLC and IRRC requested an explanation as to why American Medical Association (AMA) and American Osteopathic Association (AOA) courses relevant to the practice of podiatry, which appeared in the exposure draft, were excluded from the proposed rulemaking.

In response to the exposure draft of the amendments, the executive director of the Pennsylvania Podiatric Medical Association (PPMA) sent a persuasive letter to the Board in which objected to the inclusion of the AMA and the AOA courses. The following reasons were cited:

(a) The American Podiatric Medical Association works closely with the CPME to assure that the substance and presentation of a program granting continuing education credits is in compliance with the requirements of the CPME.

(b) The PPMA has, in the past, run programs with the Pennsylvania Medical Society, which have not had required attendance tracking efforts.

(c) Attendance verification is one of the hallmarks of the CPME programs.

(d) The operation of continuing education programs through the CPME is a source of income to benefit the profession and its continued ability to fund research and maintain quality standards.

In 2002, the CPME approved 68 sponsors. Once a sponsor is approved under the CPME criteria, the sponsor may offer as many courses as it likes. The vast array of courses approved by the CPME encourages licensees to take courses that have already been approved.

However, the Board agrees with the HPLC and IRRC that courses provided by the AMA and the AOA may be of educational value to podiatrists. That the CPME is a preapproved provider does not preclude licensees or AMA/AOA sponsors from seeking course approval from the Board under § 29.64.

4. IRRC recommended that the definition of "clock hour" be changed to "60 minutes of instruction, exclusive of coffee breaks, lunches, visits to exhibits and the like." The Board has complied with this recommendation in § 29.60.

5. IRRC commented that if § 29.61(c) requires applicants for license renewal to provide a signed statement certifying compliance with the continuing education requirements "on forms approved by the Board," then the name of the "form" and whether it can be downloaded from the Board's website should be included in the final-form rulemaking.

The signed statement appears on the biennial license renewal application itself, not on a separate document or form. Therefore, the Board has clarified this subsection.

6. IRRC questioned whether § 29.61(d) requires a licensee to retain continuing education course attendance certificates for 5 years after the completion of the course or for 5 years after the biennial period during which the course is completed.

Section 29.61(d) has been amended and specifies that the licensee is required to retain attendance certificates for 5 years after the completion of the course.

7. IRRC questioned the Board's statutory authority to implement § 29.68, which provides that the Board "... may waive all or a portion of the continuing education requirement for biennial renewal upon request of a licensee for serious illness or other demonstrated hardship."

Section 15 of the act authorizes the Board to make reasonable rules and regulations as it deems necessary and proper to carry out the intent and purposes of the act within the scope of the act. Under this statutory provision, the Board, in implementing continuing education regulations under section 9 of the act, has the discretion to decide that disciplinary action not be taken against a licensee who, because of serious illness or demonstrated hardship, cannot obtain continuing education credits. The Board, as well as most licensing authorities, has long recognized that hardship circumstances (such as military service or debilitating illness) may occur that should excuse a licensee's inability to obtain the required continuing education credits. Section 29.68 codifies that discretion.

G. Fiscal Impact and Paperwork Requirements

The final-form rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The final-form rulemaking will impose no additional paperwork requirements upon the Commonwealth, political subdivisions or the private sector. To the contrary, having a preapproved course provider would reduce the amount of paperwork. The majority of course providers would no longer need to file applications for Board approval which are currently processed by Board staff.

H. Sunset Date

The Board continuously monitors the cost effectiveness of its regulation. Therefore, no sunset date has been assigned.

I. Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), on November 7, 2002, the Board submitted a copy of the notice of proposed rulemaking, published at 32 Pa.B. 5759, to IRRC and the Chairpersons of the SCP/PLC and the HPLC for review and comment.

Under section 5(c) of the Regulatory Review Act, IRRC and the SCP/PLC and the HPLC were provided with copies of the comments received during the public comment period, as well as other documents when requested. In preparing the final-form rulemaking, the Department has considered all comments from IRRC, the SCP/PLC and the HPLC and the public.

Under section 5.1(j.2) of the Regulatory Review Act (71 P. S. § 745.5a(j.2)), on September 30, 2003, the final-form rulemaking was deemed approved by the SCP/PLC and the HPLC. Under section 5.1(e) of the Regulatory Review Act, IRRC met on October 23, 2003, and approved the final-form rulemaking.

J. Contact Person

Further information may be obtained by contacting Gina Bittner, Board Administrator, State Board of Podiatry, 116 Pine Street, Post Office Box 2649, Harrisburg, PA 17105-2649, gbittner@state.pa.us.

(3) This final-form rulemaking does not enlarge the purpose of proposed rulemaking published at 32 Pa.B. 5759.

STATE BOARD OF VETERINARY MEDICINE
[49 PA. CODE CH. 31]

Rules of Professional Conduct for Veterinarians

The State Board of Veterinary Medicine (Board) adopts an amendment to § 31.21 (relating to Rules of Professional Conduct for Veterinarians) to read as set forth in Annex A.

Notice of proposed rulemaking was published at 32 Pa.B. 2997 (June 22, 2002). Publication was followed by a 30-day public comment period during which the Board received one comment. On August 9, 2002, the House Professional Licensure Committee (HPLC) informed the Board that it would not be submitting comments to the proposed rulemaking. The Senate Consumer Protection and Professional Licensure Committee (SCP-PLC) made no comments. The Independent Regulatory Review Commission (IRRC) submitted comments to the proposed rulemaking on August 22, 2002.

*Summary of Comments and Responses to Proposed Rulemaking**IRRC Comments*

IRRC pointed out an inconsistency in the introductory language to definitions for "drug," "prescription drug" and "under the veterinarian's care." On some occasions, the Board prefaced the definition by stating the definition was applicable only for a particular subsection. The Board finds that these definitions are generally applicable to all of § 31.21, and strikes the prefatory language "for purposes of this section" in the final-form rulemaking.

Regarding proposed § 31.21, Principle 8(d)(6), IRRC requested the Board's references to the Federal Food, Drug and Cosmetic Act (21 U.S.C.A. §§ 301—397) and 21 CFR (relating to food and drugs) be made more specific as to what sections of the law and what parts of the *Code of Federal Regulations* apply. Upon review of IRRC's com-

ments and concerns, the Board has determined that this subsection should be revised. First, veterinarians have an affirmative duty to comply with Federal and State laws and regulations pertaining to all aspects of drug dispensing including labeling. Thus, as IRRC suggested, the subsection would not provide necessary or useful information to the practicing veterinarian. Additionally, the specificity suggested by IRRC would require the Board to revise its regulations whenever the Federal government made substantial changes. Veterinarians receive training in both State and Federal drug labeling requirements and the Board's regulation does not need to specify the many State and Federal laws and regulations in this area. Therefore, the Board strikes all references to Federal laws and regulations.

Principle 8(f) would have required a veterinarian to provide a client with a written prescription, rather than dispense a drug, if the client requested a prescription. Principle 8(f) also provided that the veterinarian would not be subject to discipline if the veterinarian refused to give the client a written prescription because the veterinarian had a good faith belief that the prescription might be misused. IRRC questioned "the need for the 'good faith belief' exemption," and stated that where a prescription was filled was an issue unrelated to whether the medication was necessary.

The good faith exemption applied to situations when the veterinarian had "a good faith belief that the prescription would be misused." Any health care practitioner, including a veterinarian, with the authority to dispense or prescribe medications may legally refuse to give a prescription to a patient or client if the practitioner has a good faith belief the prescription may be misused. A veterinarian is only permitted to prescribe "in good faith in the course of his professional practice." See section 111(e)(i) of The Controlled Substance, Drug Device and Cosmetic Act (35 P. S. § 780-111(e)(i)). If a veterinarian cannot in good faith give a client a written prescription because the veterinarian believes the prescription may be misused, the veterinarian may not provide a written prescription. The good faith exception is consistent with other State law.

The Board considered several types of possible misuse of a written prescription. First, a client might misuse a prescription by failing to promptly fill the prescription and administer the medication. In this case, dispensing the drug rather than issuing a written prescription would ensure that the animal's treatment began in a timely manner and the special duty of a veterinarian to attend to the welfare of the animal patient would be fulfilled. In the judgment of the professional members of the Board regarding the prescribing, dispensing and use of drugs in veterinary medicine, a veterinarian must have the ability to refuse to issue a prescription where in the veterinarian's professional judgment it would be detrimental to the health of the animal or the public welfare.

Second, the Board considered the possibility that a client could misuse a prescription by altering the prescribed quantity to use the medication on animals that are not under the veterinarian's care, to use more than the prescribed amount on the animal for which the medication was prescribed, to sell the medication to others or to misuse the medication himself.

Third, the Board was cognizant of the responsibilities of a veterinarian that go beyond animal patient and the owner-client. For example, veterinarians who work with farm animals have a duty to protect this Commonwealth's milk and meat supply, and all veterinarians have a duty

to protect the public health and welfare. The Board's regulation would not have changed the current law or acceptable and prevailing standards of veterinary medical practice and ethics. Therefore, the Board declined to strike the good faith exemption as proposed by IRRC.

IRRC further commented that the regulation would be improved by the addition of a provision in the final-form rulemaking that would require a veterinarian to notify clients that the clients could request a written prescription rather than a dispensed drug. IRRC's comment appears to be aimed at providing the consumer of veterinary services with options regarding the provision of drugs.

The Board gave careful consideration to IRRC's comment. The Board was concerned that it would be difficult to regulate a notice provision because of the variety of practice settings of veterinarians. For example, there is no equivalent in a mobile practice to posting a sign in the waiting room or examination room of a veterinary hospital. To require a veterinarian to provide oral notice would not be appropriate under certain circumstances. For example, if a client's terminally ill animal needed painkillers so that it could remain comfortable and the client could bring the animal home to die, it would be callous for the veterinarian to inquire whether the client wanted a written prescription. In addition, veterinarians, unlike physicians, are prohibited from selling professional veterinary products without a veterinarian/client relationship. See § 31.1 (relating to definitions) and § 31.21, Principle 3(d). Thus, depending on the type of medication, it may be difficult or impossible for the client to fill the prescription anywhere other than the prescribing veterinarian's office. In this case, it would be fruitless to require the veterinarian to notify the client that the client could obtain a written prescription. For these reasons, the Board declined to impose a general notice requirement on its licensees.

Finally, IRRC suggested that the regulation should reference the recordkeeping requirements in § 31.22 (relating to recordkeeping rationale) and the specific recordkeeping requirements for controlled substances in 21 CFR Part 1304 (relating to records and reports of registrants). The Board added a new section to the rulemaking specifying the duty of the veterinarian to keep appropriate records relating to drugs and prescription drugs and has added a new subsection to proposed Principle 8.

IRRC disapproved the Board's final-form rulemaking at its July 24, 2003, meeting. In its disapproval order, IRRC stated the following:

One issue, which we raised in our comments, remains a concern. Our comments suggested that the final-form regulation require veterinarians to inform clients that they have the option of receiving a written prescription that can be filled elsewhere. The Board did not include such a requirement in the final-form regulation.

We believe that notification to the consumer of the opportunity to request a written prescription is in the public interest and will not impose an unreasonable burden upon veterinarians. (71 P. S. §§ 745.5b(b)(1)(i) and (ii), and (b)(3)).¹

¹Section 5.2 of the Regulatory Review Act, 71 P. S. §§ 745.5b, relates to criteria for review of regulations. Sections 5.2(b)(1)(i) and (ii) of the Regulatory Review Act, 71 P. S. §§ 745.5b(b)(1)(i) and 745.5b(b)(1)(ii), empower the Commission to consider direct and indirect costs to the Commonwealth, to its political subdivisions and to the private sector and the adverse effects on prices of goods and services, productivity or competition, in determining whether a rulemaking is in the public interest. Section 5.2(b)(3) of the Regulatory Review Act, 71 P. S. § 745.5b(b)(3), empowers the Commission

We have determined this regulation is consistent with the statutory authority of the Board (63 P. S. § 485.5(2)) and the intention of the General Assembly. However, after considering all of the other criteria of the Regulatory Review Act discussed above, we find promulgation of this regulation is not in the public interest.

Following IRRC's disapproval, the Board submitted a report to the Chairpersons of the HPLC and the SCP-PLC. The Board withdrew proposed subsection (f) to further study IRRC's concerns and whether the Board's regulations should include a notice requirement. The Board, following a suggestion by one Commissioner, also wished to further study what type of notice would be appropriate given: (1) the variety of settings in which veterinarians practice; (2) the health and welfare of the animals cared for by veterinarians; (3) the health and safety of the human public; and (4) the legality, availability and cost of obtaining veterinary drugs from sources other than from the treating veterinarian. Following submission of its report, IRRC met on September 25, 2003, and approved the amended final-form rulemaking, noting: "We must assert that we are very displeased with the deletion of the written prescription provision. As stated previously, we were looking for further improvement of this provision, not its deletion." IRRC urged the Board to publish a proposed rulemaking addressing the written prescription and public notice issues at the earliest possible opportunity. The HPLC also approved the amended final-form rulemaking.

Public Comment

The Board received one comment from the public regarding the proposed rulemaking from the Pennsylvania Society for Biomedical Research (Society). The Society stated that the proposed rulemaking "would not and cannot apply to" persons exempted from section 32(5) of the Veterinary Medical Practice Act (act) (63 P. S. § 485.32(5)) and that "no rule or regulation issued by the State Board of Veterinary Medicine under 49 Pa. Code Ch. 31 applies to" any persons exempted from section 32(5) of the act. The Board concurs that none of its regulations are enforceable against unlicensed persons exempted by this section of the act. However, if persons exempted from the act choose to be licensees of the Board, the Board believes that the act and its regulations would apply to those persons.

Statutory Authority

This final-form rulemaking is authorized under section 5(2) of the act (63 P. S. § 485.5(2)). Section 5(2) of the act empowers the Board to adopt regulations regarding professional conduct.

Fiscal Impact and Paperwork Requirements

This final-form rulemaking will have no fiscal impact on the Commonwealth or its political subdivisions. This final-form rulemaking will create no additional paperwork for the Board or the private sector.

Regulatory Review

Under section 5(a) of the Regulatory Review Act (71 P. S. § 745.5(a)), the Board submitted a copy of the notice of proposed rulemaking, published at 32 Pa.B. 2997, to IRRC and to the HPLC and the SCP-PLC. In compliance with section 5(c) of the Regulatory Review Act, the Board also provided IRRC and the HPLC and the SCP-PLC Committees with copies of all comments received, as well as other documents.

to consider the clarity, feasibility and reasonableness of the regulation in determining whether the regulation is in the public interest.

Publication of the notice of proposed rulemaking was followed by a 30-day public comment period during which the Board received one comment from the public. The Board also received comments from IRRC. In preparing this final-form rulemaking, the Board has considered all comments received from IRRC and the public.

This final-form rulemaking was approved by the HPLC and the SCP-PLC on June 24, 2003. IRRC met on July 24, 2003, and disapproved the proposed rulemaking, citing section 5.2(b)(1)(i), (ii) and (3) of the Regulatory Review Act. On September 5, 2003, the Board delivered its report to IRRC under the Regulatory Review Act and an amended final-form rulemaking. IRRC approved the amended final-form rulemaking on September 25, 2003. On October 8, 2003, the HPLC met and approved the final-form rulemaking. The final-form rulemaking was deemed approved by the SCP-PLC on October 9, 2003.

Additional Information

Individuals who need information about the final-form rulemaking may contact Robert Kline, Administrative Assistant, State Board of Veterinary Medicine, P. O. Box 2649, Harrisburg, PA 17105-2649.

Annex A

TITLE 49. PROFESSIONAL AND VOCATIONAL STANDARDS

PART I. DEPARTMENT OF STATE

Subpart A. PROFESSIONAL AND OCCUPATIONAL AFFAIRS

CHAPTER 31. STATE BOARD OF VETERINARY MEDICINE

PROFESSIONAL CONDUCT

§ 31.21. Rules of Professional Conduct for Veterinarians.

Preamble

The Board is empowered under section 5(2) of the act (63 P. S. § 485.5(2)) to adopt rules and regulations of professional conduct appropriate to establish and maintain a high standard of integrity, skill and practice in the profession of veterinary medicine. In accordance with this authority, the Board has determined that the following rules are necessary in the public interest to protect the public against unprofessional conduct on the part of veterinarians. The Board therefore adopts this professional conduct code for veterinarians practicing veterinary medicine in this Commonwealth. Some of the rules of conduct are imperatives, cast in the terms, "shall" or "may not." Veterinarians who fail to adhere to these rules will be subject to professional discipline. Other rules, generally cast in the terms "may" or "should," are intended as aspirational goals and define areas under which the veterinarian has professional discretion. No disciplinary action will be taken when a veterinarian acts within the bounds of discretion. References throughout this professional conduct code to imperative conduct on the part of veterinarians also apply to applicants for licensure and temporary permit holders where these persons render services under qualified supervision.

(2) The term "prescription drug" means any drug required by Federal law, including Federal regulation, to be dispensed only by a prescription.

(b) A veterinarian shall only prescribe prescription drugs to animals that are under the veterinarian's care. "Under the veterinarian's care" means that the veterinarian or one of the veterinarian's licensed associates has examined the animal or has made medically appropriate and timely visits to the premises where the animal is kept.

Title 52—PUBLIC UTILITIES

PENNSYLVANIA PUBLIC UTILITY COMMISSION

[52 PA. CODE CHS. 57 AND 59]

[L-00030160]

Electric and Gas Utility Record Retention

The Pennsylvania Public Utility Commission (Commission) on August 7, 2003, adopted a final-form rulemaking order which amends existing regulations regarding record retention requirements for jurisdictional electric and gas utilities by eliminating unnecessary and burdensome reporting requirements when possible. The contact persons are John Crawford, Audits (717) 772-0302, Robert Wilson, Bureau of Fixed Utility Services, (717) 783-6162 and Sherri DelBiondo, Law Bureau (717) 772-4597.

Executive Summary

Section 57.45 (relating to preservation of records) establishes record retention requirements for electric utilities in this Commonwealth, and § 59.45 (relating to preservation of records) establishes record retention requirements for gas utilities in this Commonwealth. These regulations require the public utilities to keep their records in conformity with the most recent publication of "Regulations to Govern the Preservation of Records of Electric, Gas and Water Utilities," which is published by the

National Association of Regulatory Utility Commissioners (NARUC).¹ See §§ 57.45 and 59.45. The NARUC regulations were last revised in 1985.

By order entered on March 6, 2003, at Docket No. L-00030160, the Commission adopted a proposed rulemaking order to amend 52 Pa. Code §§ 57.45 and 59.45, consistent with the report and recommendation of the working group established to review the Commission's current record retention requirements for electric and gas utilities. The Commission agreed that the record retention changes as proposed by the working group will lessen the record retention burden and associated costs for the relevant utilities without compromising the Commission's ability to adequately regulate those same utilities. See 66 Pa.C.S. § 1501 (relating to character of service and facilities). The Commission added that the proposed changes will facilitate a mandatory, uniform system of recordkeeping for the relevant utilities, consistent with 66 Pa.C.S. §§ 1701—1706 (relating to accounting and budgetary matters).

Under section 5(a) of the Regulatory Review Act (71 P.S. § 745.5(a)), on April 16, 2003, the Commission submitted a copy of the proposed rulemaking to the Independent Regulatory Review Commission (IRRC) and the Chairpersons of the Senate and House Committees.

The Commission's order initiating the proposed rulemaking was published at 33 Pa.B. 2064 (April 26, 2003). On or around May 27, 2003, the Commission received comments from four parties: the Energy Association, the Peoples Natural Gas Company d/b/a Dominion Peoples, PPL Electric Utilities Corporation and the Office of Consumer Advocate. All parties endorsed the proposed rulemaking to the Commission's record retention regulations for electric and gas utilities in §§ 57.45 and 59.45 and supported adoption of the amended regulations.

On June 2, 2003, IRRC issued a letter specifying that it had no objections, comments, or recommendations to offer on the Commission's proposal to amend the record retention regulations in §§ 57.45 and 59.45. The letter also noted that the proposed amendments would be deemed approved, if the Commission submits a final-form regulation without revisions and the legislative committees do not take any action. By order entered on August 14, 2003, the Commission adopted a final rulemaking order to amend §§ 57.45 and 59.45, consistent with the letter from IRRC. The amendments were deemed approved by IRRC under section 5(g) of the Regulatory Review Act, effective October 22, 2003.

Rulemaking Re: Amendment of 52 Pa. Code § 57.45 (Electric Service: Preservation of Records) and 52 Pa. Code § 59.45 (Gas Service: Preservation of Records); Doc. No. L-00030160

Final Rulemaking Order

By the Commission

Background

On June 18, 2001, the Energy Association of Pennsylvania (Energy Association) filed two petitions at the P-dockets requesting a waiver and amendment of §§ 57.45 and 59.45 dealing with record retention. Section 57.45 establishes record retention requirements for electric distribution companies (EDCs), while § 59.45 applies to natural gas distribution companies (NGDCs). Both regulations require public utilities to keep their records in conformity with the most recent publication of "Regulations to Govern the Preservation of Records of Electric, Gas and Water Utilities," which is published by the National Association of Regulatory Utility Commissioners (NARUC).² See §§ 57.45 and 59.45. The most recent NARUC requirements were revised in May of 1985.

In support of the petitions, the Energy Association cited the new record retention rules of the Federal Energy Regulatory Commission (FERC), effective January 1, 2001. 18 CFR 125, 225 and 356. These rules updated, reduced and clarified record retention requirements for jurisdictional public utilities and licensees, natural gas companies and oil pipeline companies by revising the general instructions, shortening various record retention periods, increasing retention periods for a few categories of records and removing all but one retention reserve item. *Preservation of Records of Public Utilities and Licensees, Natural Gas Companies and Oil Pipeline Companies*, 65 FR 48148 (2000).

By order entered on April 16, 2002, at Docket Nos. P-00011902 and P-00011903, the Commission denied the petitions filed by the Energy Association requesting a waiver and amendment of §§ 57.45 and 59.45. Although the Commission denied the petitions, the Commission specifically recognized the value of eliminating unnecessary and burdensome reporting requirements, whenever possible. At the same time, we emphasized that the elimination or amendment of existing Commission regulations must not impair our ability to meet our statutory responsibility to ensure that all public utilities in this Commonwealth furnish and maintain adequate, efficient, safe and reasonable service and facilities. See 66 Pa.C.S. § 1501 (relating to character of service and facilities).

With these dual interests in mind, the Commission directed the Law Bureau, in conjunction with the Bureau of Fixed Utility Services and the Bureau of Audits, to convene a working group to review the Commission's current record retention regulations for EDCs and NGDCs. After completing its review, the working group was directed to report its recommendation to the Commission.

By Order entered on March 6, 2003, at the dockets listed in this document, the Commission adopted the consensus report of the working group dated January 30, 2003, to amend the Commission's record retention regulations for electric and gas utilities in §§ 57.45 and 59.45.³

²NARUC is a nonprofit organization comprised of governmental agencies that regulate the activities of telecommunications, energy, and water utilities. NARUC's mission is to serve the public interest by improving the quality and effectiveness of public utility regulation.

³The Commission's Office of Trial staff was also consulted and does not oppose the proposed changes.

To effectuate the recommendations of the working group, we initiated a proposed rulemaking to amend §§ 57.45 and 59.45.⁴

On April 26, 2003, the Commission's order initiating the proposed rulemaking was published at 33 Pa.B. 2064. On or around May 27, 2003, the Commission received comments from four parties: the Energy Association, the Peoples Natural Gas Company d/b/a Dominion Peoples, PPL Electric Utilities Corporation and the Office of Consumer Advocate. Parties endorsed the proposed rulemaking to the Commission's record retention regulations for electric and gas utilities in §§ 57.45 and 59.45 and supported adoption of the amended regulations.

On June 2, 2003, IRRC issued a letter specifying that it had no objections, comments or recommendations to offer on the Commission's proposal to amend the record retention regulations in §§ 57.45 and 59.45. The letter also noted that the proposed amendments would be deemed approved, if the Commission submits a final-form regulation without revisions and the legislative committees do not take any action.

Discussion

As previously stated in our proposed rulemaking order, we agree that the proposed record retention changes will lessen the record retention burden and associated costs for the relevant utilities without compromising the Commission's ability to meet its statutory responsibility to ensure that all public utilities in the Commonwealth furnish and maintain adequate, efficient, safe and reasonable service and facilities. See 66 Pa.C.S. § 1501. Moreover, these changes will facilitate a mandatory, uniform system of recordkeeping for the relevant utilities, consistent with 66 Pa.C.S. §§ 1701—1706 (relating to accounting and budgetary matters). Therefore, consistent with the comments of IRRC and the other parties that filed comments in this matter, the Commission has made no revisions, other than the grammatical/stylistic changes made by the Legislative Reference Bureau, to this final-form rulemaking.

Accordingly, under 66 Pa.C.S. §§ 501, 1501 and 1701—1706, sections 201 and 202 of the act of July 31, 1968 (P. L. 769, No. 240) (45 P. S. §§ 1201 and 1202) and regulations promulgated thereunder in 1 Pa. Code §§ 7.1 and 7.2, section 204(b) of the Commonwealth Attorneys Act (71 P. S. § 732.204(b)), section 5 of the Regulatory Review Act (71 P. S. § 745.5) and section 612 of The Administrative Code of 1929 (71 P. S. § 232), we find that the amendments to §§ 57.45 and 59.45 should be approved as set forth at 33 Pa.B. 2064; *Therefore,*

It Is Ordered That:

1. The regulations of the Commission, 52 Pa. Code Chapters 57 and 59, are amended by amending §§ 57.45 and 59.45 to read as set forth at 33 Pa.B. 2064.
2. The Secretary shall submit this order and 33 Pa.B. 2064 for review and approval to IRRC and the Legislative Standing Committees in both houses of the General Assembly;
3. The Secretary shall submit this order and 33 Pa.B. 2064 to the Office of Attorney General for review as to form and legality and to the Governor's Budget Office for review of fiscal impact.
4. The Secretary shall certify this order and 33 Pa.B. 2064, and deposit them with the Legislative Reference Bureau to be published in the *Pennsylvania Bulletin*.

⁴In addition to the proposed amendments of the working group, the Commission also proposes several additional technical changes so that the language used in both sections is consistent and uniform.

5. The amendments to §§ 57.45 and 59.45 embodied in 33 Pa.B. 2064 shall become effective upon publication in the *Pennsylvania Bulletin*.

6. A copy of this order and 33 Pa.B. 2064 shall be served upon the Energy Association of Pennsylvania, all jurisdictional electric and natural gas utilities, the Office of Trial Staff, the Office of Consumer Advocate and the Office of Small Business Advocate.

JAMES J. MCNULTY,
Secretary

Title 58—RECREATION

FISH AND BOAT COMMISSION

[58 PA. CODE CH. 97]

Corrective Amendment to 58 Pa. Code Chapter 97

The Fish and Boat Commission has discovered a discrepancy between the agency text of 58 Pa. Code § 97.5 (relating to visual distress signals) and Appendices A and C, as deposited with the Legislative Reference Bureau, and the text published at 24 Pa.B. 4771 (September 24, 1994) and the text which currently appears in the *Pennsylvania Code Reporter* (Master Transmittal Sheets No. 259, 306 and 313). When the amendments to this chapter were codified, the text of Appendix A should have been deleted, not Appendix C. Additionally, references to Appendix C in § 97.5 should not indicate that Appendix C has been reserved.

Therefore, under 45 Pa.C.S. § 901: The Fish and Boat Commission has deposited with the Legislative Reference Bureau a corrective amendment to 58 Pa. Code § 97.5 and Appendices A and C. The corrective amendment to 58 Pa. Code § 97.5 and Appendices A and C is effective as of September 24, 1994, the date the defective text was published in the *Pennsylvania Bulletin*.

The correct version of 58 Pa. Code § 97.5 and Appendices A and C appears in Annex A.

PROPOSED RULEMAKING

FISH AND BOAT COMMISSION

[58 PA. CODE CHS. 63, 65 AND 93]

General Provisions; Fishing; Boating

The Fish and Boat Commission (Commission) proposes to amend Chapters 63, 65 and 93 (relating to general fishing regulations; special fishing regulations; and boat registration and numbering). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. Effective Date

The proposed rulemaking, if approved on final-form, will go into effect upon publication of an order in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on the proposed rulemaking, contact Laurie E. Shepler, Assistant Counsel, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7815. This proposal is available electronically through the Commission's website (<http://www.fish.state.pa.us>).

C. Statutory Authority

The proposed amendments to §§ 63.6, 63.10 and 63.15 (relating to authorized devices for game fish, baitfish and fishbait; ice fishing; and field dressing of fish) are published under the statutory authority of section 2102 of the code (relating to rules and regulations). The proposed amendment to § 65.24 (relating to miscellaneous special regulations) is published under the statutory authority of section 2307 of the code (relating to waters limited to specific purposes). The proposed amendment to § 93.2 (relating to permanent and temporary registration) is published under the statutory authority of section 5122 of the code (relating to registration, licenses, permits, plates and statistics). The proposed amendment to § 93.13 (relating to issuing agents) is published under the statutory authority of section 5304(d.1) of the code (relating to issuing agents). A person violating any of these regulations commits a summary offense of the third degree for which a \$50 fine is imposed.

D. Purpose and Background

The proposed rulemaking is designed to update, modify and improve the Commission's regulations pertaining to ice fishing; the field dressing of fish; a fishing pier for persons with disabilities at Lake Scranton, Lackawanna County; and temporary Internet boat registration renewals. The specific purpose of the proposed amendments is described in more detail under the summary of proposal. The Commission's Boating Advisory Board considered the proposed amendments to §§ 93.2 and 93.13 and recommended that the Commission publish a notice of proposed rulemaking containing the proposed amendments.

E. Summary of Proposals

(1) *Sections 63.6 and 63.10.* New and different types of ice fishing devices have been developed for use during the past several years. Therefore, it has become increasingly difficult to determine whether some of these devices are truly tip-ups or just modifications to a fishing rod. The Commission is proposing amendments that will allow an angler while ice fishing to fish with a maximum of five

fishing devices that may consist of hand lines, tip-ups, fishing rods or any combination thereof. The Commission's Bureau of Fisheries indicates that this change will have no adverse effect upon the fishery. The Commission proposes to amend these sections to read as set forth in Annex A.

(2) *Section 63.15.* Subsection (d) does not apply to officially-recognized fishing cleaning stations except that for species of fish for which minimum size limits apply, the skin must remain attached to the fillet and the size of the fillet is subject to a size limit of 75% of the size limit for the species. Yellow perch taken from Lake Erie are subject to minimum size limits first established at 8 inches in 1996 and revised in 2002 to provide for a 7-inch limit during the ice fishing period.

Officially-recognized fish cleaning stations are in Erie County and they provide a valuable service to customers who engage in recreational fishing for sport fish in Lake Erie. Because yellow perch is subject to a minimum size limit, the requirement to leave the skin on these fish applies to officially-recognized fish cleaning stations. The Commission has been asked to provide some relief from this requirement that causes problems for the fish cleaning stations and their customers. Accordingly, the Commission proposes to amend this section to read as set forth in Annex A.

Officially-recognized fish cleaning stations are responsible for ensuring that the fish they clean are in compliance with regulation, and they must document compliance by giving their customers signed, dated receipts indicating the species and the number of fish dressed.

(3) *Section 65.24.* Under a 1994 agreement among Pennsylvania Gas and Water Company, Allied Services of Scranton, PA and the Commission, a special fishing pier for persons with disabilities was constructed and opened at Lake Scranton. The agreement provided that fishing from this pier would be subject to certain restrictions, which in turn were subject to some exceptions. These restrictions were, in turn, carried over into a miscellaneous special fishing regulation.

The Lake Scranton fishing pier for persons with disabilities was a model for similar facilities installed at State parks and other lakes under the leadership and encouragement of Commissioner Paul Mahon. The current miscellaneous fishing regulation on Lake Scranton needs to be updated to better reflect the use of the fishing pier by persons with disabilities. Both the owner of Lake Scranton and Allied Services have agreed to modifications to this section. The Commission proposes to amend this miscellaneous special fishing regulation to read as set forth in Annex A.

(4) *Sections 93.2 and 93.13.* The Department of Transportation currently allows most customers to renew their vehicle registrations online. The customer is then allowed to print a Temporary Internet Vehicle Registration from a computer. This temporary registration is valid for 15 days.

In the near future, the Commission may offer online renewals for its boat registration customers. The Commission is currently evaluating the costs of offering this service, and depending on the results of the evaluation, the Commission may be able to move forward with this project for at least part of the 2004 registration renewal cycle. If the project is approved, customers will be able to

renew their boat registrations online and print a temporary Internet registration that will be valid for 30 days. Customers who renew their boat registrations online will pay the Commission a \$2 issuing agent fee.

To implement the online boat registration renewals, the Commission proposes to amend §§ 93.2 and 93.13 to read as set forth in Annex A.

F. Paperwork

The proposed rulemaking will not increase paperwork and will create no new paperwork requirements.

G. Fiscal Impact

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed amendment to § 93.13 will impose new costs on the private sector and the general public in that individuals who renew their boat registrations online will have to pay the Commission a \$2 issuing agent fee. The other proposed amendments will impose no new costs on the private sector or the general public.

H. Public Comments

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Deputy Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 30 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically to ra-pfbcregs@state.pa.us. A subject heading of the proposal and a return name and address must be included in each transmission. In addition, all electronic comments must be contained in the text of the transmission, not in an attachment. If an acknowledgment of electronic comments is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

[58 PA. CODE CH. 111]

General Provisions; Boating

The Fish and Boat Commission (Commission) proposes to amend Chapter 111 (relating to special regulations counties). The Commission is publishing this proposed rulemaking under the authority of 30 Pa.C.S. (relating to the Fish and Boat Code) (code).

A. Effective Date

The proposed rulemaking, if approved on final-form, will go into effect upon publication of an order in the *Pennsylvania Bulletin*.

B. Contact Person

For further information on the proposed rulemaking, contact Laurie E. Shepler, Assistant Counsel, P. O. Box 67000, Harrisburg, PA 17106-7000, (717) 705-7815. This proposal is available electronically through the Commission's website (<http://www.fish.state.pa.us>).

C. Statutory Authority

The proposed amendment to § 111.48 (relating to Northampton County) is published under the statutory authority of section 5124 of the code (relating to particular areas of water). A person violating this regulation commits a summary offense of the third degree for which a \$50 fine is imposed.

D. Purpose and Background

The proposed rulemaking is designed to update, modify and improve the Commission's regulations by imposing a "slow, minimum height swell speed" zone on the Lehigh River in the vicinity of the Route 33 access ramp, Northampton County. The specific purpose of the proposed amendment is described in more detail under the summary of proposal. The Commission's Boating Advisory Board considered the proposed changes to § 111.48 and recommended that the Commission publish a notice of proposed rulemaking containing the proposed amendment.

E. Summary of Proposal

A new Route 33 access launch area in Northampton County on the Lehigh River is now open. The Commission's District Waterways Conservation Officer (Officer) reports that wakes from boat traffic could potentially cause difficulties for boaters using the ramp. There are currently three slow-no-wake buoys at the access ramp placed approximately 100 feet from the shoreline. According to the Officer, this provides only limited protection to the ramp, boaters launching and retrieving watercraft and shoreline anglers. The Officer reports that boaters passing through this area outside of the buoys still create large enough wakes to impact the shoreline with sufficient force to do damage. The Officer has suggested that an expanded "slow, minimum height swell speed" zone be established on the river immediately in front of the Commission's ramp.

The Commission is proposing that this zone extend across the main channel of the Lehigh River to the shoreline of Turkey Island directly opposite the ramp. The zone is proposed to extend 150 feet upstream and 150 feet downstream from the boat ramp. The zone will have little impact on the unlimited horsepower boating in the area and should do a lot to protect boaters and anglers at the access area. Accordingly, the Commission proposes to amend this section to read as set forth in Annex A. The Commission will seek public comments regarding this proposal during an extended comment period of 60 days.

F. *Paperwork*

The proposed rulemaking will not increase paperwork and will create no new paperwork requirements.

G. *Fiscal Impact*

The proposed rulemaking will have no adverse fiscal impact on the Commonwealth or its political subdivisions. The proposed rulemaking will impose no new costs on the private sector or the general public.

H. *Public Comments*

Interested persons are invited to submit written comments, objections or suggestions about the proposed rulemaking to the Deputy Executive Director, Fish and Boat Commission, P. O. Box 67000, Harrisburg, PA 17106-7000 within 60 days after publication of this notice in the *Pennsylvania Bulletin*. Comments submitted by facsimile will not be accepted.

Comments also may be submitted electronically to ra-pfbcregs@state.pa.us. A subject heading of the proposal and a return name and address must be included in each transmission. In addition, all electronic comments must be contained in the text of the transmission, not in an attachment. If an acknowledgment of electronic comments

is not received by the sender within 2 working days, the comments should be retransmitted to ensure receipt.

Maximum Lawful Rate of Interest for Residential Mortgages for the Month of December 2003

The Department of Banking (Department), under the authority contained in section 301 of the act of January 30, 1974 (P. L. 13, No. 6) (41 P. S. § 301), hereby determines that the maximum lawful rate of interest for residential mortgages for the month of December 2003 is 7 1/4%.

The interest rate limitations under the State's usury statute were preempted to a great extent by Federal law, the Depository Institutions Deregulation and Monetary Control Act of 1980 (Pub. L. No. 96-221). Further preemption was instituted with the signing of Pub. L. No. 96-399, which overrode State interest rate limitations on any individual who finances the sale or exchange of residential real property which the individual owns and which

the individual occupies or has occupied as a principal residence.

Each month the Department is required by State law to compute and announce the ceiling rate on residential mortgages in this Commonwealth. This maximum rate is determined by adding 2.50 percentage points to the yield rate on long-term government bonds as published by the Federal Reserve Board and/or the United States Treasury. The latest yield rate on long-term government securities is 4.76 to which was added 2.50 percentage points for a total of 7.26 that by law is rounded off to the nearest quarter at 7 1/4%.

The applications concern, but are not limited to, discharges related to industrial, animal or sewage waste, discharges to groundwater, discharges associated with municipal separate storm sewer systems (MS4), stormwater associated with construction activities or concentrated animal feeding operations (CAFOs). This notice is provided in accordance with 25 Pa. Code Chapters 91 and 92 and 40 CFR Part 122, implementing The Clean Streams Law (35 P. S. §§ 691.1—691.1001) and the Federal Clean Water Act.

For NPDES renewal applications in Section I, the Department of Environmental Protection (Department) has made a tentative determination to reissue these permits for 5 years subject to effluent limitations and monitoring and reporting requirements in their current permits, with appropriate and necessary updated requirements to reflect new and changed regulations and other requirements.

For applications for new NPDES permits and renewal applications with major changes in Section II, as well as applications for MS4 individual permits and individual stormwater construction permits in Sections IV and VI, the Department, based upon preliminary reviews, has made a tentative determination of proposed effluent limitations and other terms and conditions for the permit applications. These determinations are published as proposed actions for comments prior to taking final actions.

Unless indicated otherwise, the EPA Region III Administrator has waived the right to review or object to proposed NPDES permit actions under the waiver provision in 40 CFR 123.24(d).

Persons wishing to comment on an NPDES application are invited to submit a statement to the contact office noted before the application within 30 days from the date of this public notice. Persons wishing to comment on a WQM permit

Comments should include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests for a public hearing on applications. A public hearing may be held if the responsible office considers the public response significant. If a hearing is scheduled, a notice of the hearing will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. The Department will postpone its final determination until after any public hearings are held.

Persons with a disability who require an auxiliary aid, service, including TDD users, or other accommodations to seek additional information should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation

to a Site-Specific Standard or as a special industrial area, the municipality, within which the site is located, may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified, as the remediator of the site, develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office after which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the AT&T Relay Service at (800) 654-5984.

AIR QUALITY

PLAN APPROVAL AND OPERATING PERMIT APPLICATIONS

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State Operating Permit and Title V Operating Permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the

owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit.

Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified before the application. TDD users may contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121-143, the Federal Clean Air Act (act) and regulations adopted under the act.

The use of municipal solid waste solely to provide thermal protection of the grate or hearth during the startup when municipal solid waste is not being fed to the grate is not considered to be continuous burning.

Dioxins/furans—Tetra- through octa-chlorinated dibenzo-p-dioxins and dibenzofurans.

Four-hour block average—The average of all hourly emissions concentrations when the combustors are operating and combusting municipal solid waste measured over 4-hour periods of time from 12 a.m. to 4 a.m., 4 a.m. to 8 a.m., 8 a.m. to 12 p.m., 12 p.m. to 4 p.m., 4 p.m. to 8 p.m. and 8 p.m. to 12 a.m.

Hourly average—A 60-minute period commencing on the hour.

Malfunction—Any sudden, infrequent and not reasonably preventable failure of air pollution control equipment, process equipment or a process to operate in a normal or usual manner. Failures that are caused by poor maintenance or careless operation are not malfunctions.

Shutdown—Begins with cessation of charging municipal waste, for the express purpose of shutting down the combustor.

Startup—Commences with the continuous burning of municipal solid waste and does not include any warmup period when combusting fossil fuel or other nonmunicipal solid waste fuel and no municipal waste is being fed to the combustor.

Twenty-four hour daily average—Either the arithmetic mean or geometric mean (as specified) of all hourly emission concentrations when the combustor is operating and combusting municipal solid waste measured over a 24-hour period between 12 a.m. and the following midnight.

This action is a renewal of the Title V Operating Permit. The initial permit was issued on January 26, 1998. This facility manufactures fluorescent lighting fixtures and related products. The main emissions are VOC emissions from automatic and manual surface coating operations and cleaning operations. The facility also operates a heat-cleaning oven, four coating system heaters and several natural gas fired space heaters. The facility has the potential to generate 75.74 pounds of VOCs per hour and 69.68 tons VOCs per year. As a result of potential emissions of VOCs, the facility is a major stationary source as defined in Title I, Part D of the Clean Air Act Amendments and is therefore subject to the Title V permitting requirements adopted in 25 Pa. Code Chapter 127, Subchapter G. The proposed Title V Operating Renewal does not adopt any new regulations and does not reflect any change in air emissions from the facility. The facility is not subject to Compliance Assurance Monitoring under 40 CFR Part 64. The renewal contains all applicable requirements including monitoring, recordkeeping and reporting.

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the

Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); and The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Control Act (52 P. S. §§ 30.51—30.66); and The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to the applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated before an application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for certification.

Written comments, objections or requests for informal conferences on applications may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the same address within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Where any of the mining activities listed will have discharges of wastewater to streams, the Department will incorporate NPDES permits into the mining activity permits issued in response to these applications. NPDES permits will contain, at a minimum, technology-based effluent limitations as identified in this notice for the respective coal and noncoal applications. In addition to the previous, more restrictive effluent limitations, restrictions on discharge volume or restrictions on the extent of mining which may occur will be incorporated into a mining activity permit, when necessary, for compliance with water quality standards (in accordance with 25 Pa. Code Chapters 93 and 95). Persons or agencies who have requested review of the NPDES permit requirements for a particular mining activity within the previously mentioned public comment period will be provided with a 30 day period to review and submit comments on those requirements.

Written comments or objections should contain the name, address and telephone number of the person submitting comments or objections; application number; and a statement of sufficient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based. Requests for an informal conference must contain the name, address and telephone number of requestor; application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor wishes to have the conference conducted in the locality of the proposed mining activities.

Certification Request Initiated by Chief, Civil Project Development Branch, Department of the Army, Baltimore District, U. S. Army Corps of Engineers, P. O. Box 1715, Baltimore, MD 21203-1715.

WQC41-001 Project Description: The proposed project is to place approximately 1,500 linear feet of R-7 rock rip-rap protection along the west bank of Loyalsock Creek. The project site is west of Montoursville Borough in Loyalsock Township, Lycoming County and extends from approximately the Interstate 180 bridge, upstream 1,500 feet to a point near the mouth of Mill Creek

Rock will be placed over the sewer line and along the creek embankment to protect them from further degradation from erosion. In addition to the impact to the stream channel and floodway, it is proposed to temporarily disturb approximately 0.06 acre of palustrine scrub-shrub wetlands, which will be restored upon completion of the project. Loyalsock Creek has a Chapter 93 water use protection designation of TSF.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8 and the administration of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of its final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the environmental cleanup program manager in the Department regional office after which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the community relations coordinator at the appropriate regional office. Act 175 Recycling Program Plan; Public Comment Period

The Department of Environmental Protection (Department) has developed a proposed Act 175 Recycling Program Plan (plan) under the act of December 9, 2002 (P. L. 1404, No. 175) (Act 175). Act 175 amended the Municipal Waste Planning, Recycling and Waste Reduction Act (act) (53 P. S. §§ 4000.101—4000.1904) by, among other things, requiring the Department to develop a plan to assist municipalities in making recycling programs under the act financially self-sufficient. The plan must address the four following provisions:

1. A market development program to be funded by the recycling fund.
2. The extent to which municipal recycling programs under the Act can be sustained by restructuring the allocation of available recycling grants provided by Chapter 9.
3. Recommendations to county recycling coordinators designed to encourage market development.
4. Specific means, including legislative changes, that the Department intends to use to assist municipalities in making their recycling programs under the act self-sufficient.

In addition to the four provisions, the proposed plan includes funding recommendations to assist municipalities to meet and further the goals of both the act and Act 175. The proposed plan was developed in consultation with the Recycling Fund Advisory Committee and the State Solid Waste Plan Subcommittee of the Solid Waste Advisory Committee. A copy of the proposed plan must be submitted to the General Assembly by December 9, 2003.

Interested persons are invited to submit written comments, suggestions or objections regarding the proposed plan to the Department of Environmental Protection, P. O. Box 8471, Harrisburg, PA 17105-8472 (express mail: Rachel Carson State Office Building, 14th Floor, 400 Market Street, Harrisburg, PA 17105-8472). Comments submitted by facsimile will not be accepted. The Department must receive all comments, suggestions or objections on the plan by January 5, 2004. All comments received during the public comment period will be summarized and responded to by the Department in a comment and response document. A copy of this document will be posted on the Department's website (www.dep.state.pa.us) and will be available to any interested individual upon request.

Comments may also be submitted electronically to the Department to slohman@state.pa.us and must also be received by the Department by January 5, 2004. A subject heading of the proposal and a return name and address must be included in each transmission.

1) Flat fees (as follows) apply to amounts that may be charged by a health care facility or health care provider when copying medical charts or records either: (a) for the purpose of supporting any claim or appeal under the Social Security Act or any Federal or State financial needs based program; or (b) for a district attorney.

Chapter 17 (relating to financial responsibility) and the regulations promulgated thereunder; or (c) a contract between an insurer and any other party.

The following charges list do not apply to an X-ray film or any other portion of a medical record which is not susceptible to photostatic reproduction.

Rates of Tax on Aviation Gasoline and Jet Fuel for 2004; Oil Company Franchise Tax Rate for 2004; Alternative Fuels Tax Rates

Aviation Gasoline and Jet Fuels

Under 74 Pa.C.S. § 6121(b) (relating to tax on aviation fuels), the Secretary of Revenue (Secretary) announces that for calendar year 2004 the rate of tax on aviation gasoline and all other liquid fuels used or sold and delivered by distributors within this Commonwealth for use as fuel in propeller-driven piston engine aircraft or aircraft engines will remain at the current rate of 4 1/10¢ per gallon or fractional part thereof.

Under 74 Pa.C.S. § 6131(b) (relating to tax on jet fuels), the Secretary announces that for calendar year 2004 the rate of tax on jet fuels used or sold and delivered by distributors within this Commonwealth for use as fuel in turbine-propeller jet, turbojet and jet-driven aircraft and aircraft engines will remain at the current rate of 1 8/10¢ per gallon or fractional part thereof.

The rate of tax on aviation gasoline is adjusted annually beginning on January 1, 1985, and each January 1 thereafter. The rate of tax on jet fuels is adjusted annually beginning on January 1, 1986, and each January 1 thereafter. Under 74 Pa.C.S. §§ 6121(b) and 6131(b), the rate of each tax increases or decreases 1/10¢ per gallon for each 10% increase or decrease in the producer price index for jet fuel as determined by the United States Department of Labor, Bureau of Labor Statistics, for the most recent 12-month period available as of November 1, subject to a maximum rate of 6¢ per gallon for aviation gasoline and 2¢ per gallon for jet fuels. On November 1, 2003, the most recently available 12-month period was September 2002 to September 2003, as reported in Bureau of Labor Statistics, United States Department of Labor, Producer Price Indexes, September 2003, USDL 03-546, released October 10, 2003, for which the percentage change was -8.7%. Accordingly, as the percentage change is less than 10%, the current aviation gasoline tax rate and jet fuel tax rates will remain unchanged.

Oil Company Franchise Tax

The Secretary announces that for calendar year 2004 there is an increase in the current rate of the oil company franchise tax from 13.9¢ per gallon to 14.2¢ per gallon on all liquid fuels and from 18.8¢ per gallon to 19.2¢ per gallon on all fuels used or sold and delivered by distributors within this Commonwealth under 75 Pa.C.S. §§ 9002 and 9004(b) (relating to definitions; and imposition of tax, exemptions and deductions), definition of "cents per gallon equivalent basis."

*The rate of 4 1/10¢ per gallon consists of the 1 1/2¢ per gallon tax imposed by the Liquid Fuels and Fuels Tax Act, 75 Pa.C.S. § 9004(c)(1), and the 2 6/10¢ per gallon additional tax imposed by 74 Pa.C.S. § 6121(a). As limited by 74 Pa.C.S. § 6121(b), the combined rate of these two component taxes may never exceed 6¢ per gallon or be less than 3¢ per gallon.

The rate of the oil company franchise tax imposed under 75 Pa.C.S. Chapter 95 (relating to taxes for highway maintenance and construction), 75 Pa.C.S. § 9502 (relating to imposition of tax) and collected under 75 Pa.C.S. Chapter 90 (relating to liquid fuels and fuels tax), 75 Pa.C.S. § 9004(b), is determined annually by the Department of Revenue (Department) and announced by each December 15 for the following calendar year. The tax rate is determined on a "cents per gallon equivalent basis," which is defined by 75 Pa.C.S. § 9002 as:

The average wholesale price per gallon multiplied by the decimal equivalent of any tax imposed by section 9502 (relating to imposition of tax), the product of which is rounded to the next highest tenth of a cent per gallon. The rate of tax shall be determined by the Department of Revenue on an annual basis beginning every January 1 and shall be published as a notice in the Pennsylvania Bulletin no later than the preceding December 15. In the event of a change in the rate of tax imposed by section 9502, the Department shall redetermine the rate of tax as of the effective date of such change and give notice as soon as possible.

"Average wholesale price" as used previously is defined as:

The average wholesale price per gallon of all taxable liquid fuels and fuels, excluding the federal excise tax and all liquid fuels taxes, as determined by the Department of Revenue for the 12-month period ending on the September 30 immediately prior to January 1 of the year for which the rate is to be set. In no case shall the average wholesale price be less than 90¢ nor more than \$1.25 per gallon.

For the 12-month period ending September 30, 2003, the Department has determined that the average wholesale price of liquid fuels and fuels was 91.9¢ per gallon.

The oil company franchise tax imposed under 75 Pa.C.S. § 9502 in terms of mills applicable to each gallon is:

<i>Imposition Section</i>	<i>Liquid Fuels</i>	<i>Fuels</i>
75 Pa.C.S. § 9502(a)(1)	60.0	60.0
75 Pa.C.S. § 9502(a)(2)	55.0	55.0
75 Pa.C.S. § 9502(a)(3)	38.5	38.5
75 Pa.C.S. § 9502(a)(4)	00.0	55.0
Total Mills per Gallon:	153.5	208.5
Decimal Equivalent:	.1535	.2085
Multiply by Average Wholesale Price:	× 91.9¢	× 91.9¢
Product:	14.107¢	19.161¢
Oil Company Franchise Tax per Gallon (Rounded Up to Next Highest Tenth):	14.2¢	19.2¢

The act of April 17, 1997 (P. L. 6, No. 3) provides that the oil company franchise tax as previously computed is collected at the same time as the liquid fuels and fuels tax of 12¢ per gallon; therefore, effective January 1, 2004, the combined rate of tax for liquid fuels (primarily gasoline) is 26.2¢ per gallon and for fuels (primarily undyed diesel fuel) is 31.2¢ per gallon.

Alternative Fuels Tax Rates for 2004

Under 75 Pa.C.S. § 9004(d), the Secretary is required to compute the rate of tax applicable to each alternative

fuel on a gallon-equivalent basis. Under 75 Pa.C.S. § 9002, "gallon-equivalent basis" is defined as the "amount of any alternative fuel as determined by the department to contain 114,500 BTUs." The amount determined on a "gallon-equivalent basis" for each alternative fuel is subject to the liquid fuels and oil company franchise taxes currently imposed on 1 gallon of gasoline.

The rate of tax on 1 gallon of gasoline during the period of this notice is \$.12 liquid fuels tax and \$.142 oil company franchise tax for a total tax of \$.262 per gallon of gasoline.

The Secretary announces that the 2004 tax rates for alternative fuels are as follows:

<i>Alternative Fuel</i>	<i>Rate of Conversion (BTU/gal of Alternative Fuel)</i>	<i>Amount Equivalent to 1 Gallon of Gasoline at 114,500 BTU per Gallon</i>	<i>Tax Rate per Gallon of Alternative Fuel</i>
Ethanol	76,400	1.499	\$.175
Methanol	56,560	2.024	\$.130
Propane/LPG	83,500	1.371	\$.192
E-85	105,545	1.085	\$.242
M-85	65,350	1.752	\$.150
Compressed Natural Gas	29,000 @ 3,000 PSI	3.948	\$.067
Liquefied Natural Gas	66,640	1.718	\$.153
Electricity	3,412 Btu/KWH	33.558 KWH	\$.008/KWH

Each year, under 74 Pa.C.S. §§ 6121—6124 (relating to reimbursement of local real estate taxes for public airports) and 67 Pa. On November 7, 2001, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the State Board of Medicine. This rulemaking amends 49 Pa. Code Chapter 16. The proposed regulation was published in the November 24, 2001, *Pennsylvania Bulletin* with a 30-day public comment period. This regulation provides guidance to practitioners and the public regarding sexual misconduct. Regulated practitioners include: medical doctors; midwives; physician assistants; drugless therapists; athletic trainers; acupuncturists; and applicants for a license or certificate that the Board may issue.

We have determined this regulation is consistent with the statutory authority of the State Board of Medicine (63 P. S. §§ 422.8 and 422.41(8)) and the intention of the General Assembly. Having considered all of the other criteria of the Regulatory Review Act, we find promulgation of this regulation is in the public interest.

Department of Labor and Industry—Uniform Construction Code; Administration and Enforcement; Elevators and Other Lifting Devices; Regulation No. 12-60

On August 14, 2002, the Independent Regulatory Review Commission (Commission) received this proposed regulation from the Department of Labor and Industry (Department). This rulemaking amends 34 Pa. Code by amending Chapter 401 and adopting Chapters 403 and 405. The proposed regulation was published in the August 24, 2002, *Pennsylvania Bulletin* with a 30-day public comment period. It sets forth administrative and enforcement provisions including procedures for municipalities to elect to adopt and enforce the UCC and Statewide standards for elevators and other lifting devices.
