READER'S GUIDE TO THE PENNSYLVANIA BULLETIN AND PENNSYLVANIA CODE

Pennsylvania Bulletin

The *Pennsylvania Bulletin* is the official gazette of the Commonwealth of Pennsylvania. It is published every week and includes a table of contents. A cumulative subject matter index is published quarterly.

The *Pennsylvania Bulletin* serves several purposes. First, it is the temporary supplement to the *Pennsylvania Code*, which is the official codification of agency rules and regulations and other statutorily authorized documents. Changes in the codified text, whether by adoption, amendment, repeal or emergency action must be published in the *Pennsylvania Bulletin*. Further, agencies proposing changes to the codified text do so in the *Pennsylvania Bulletin*.

Second, the *Pennsylvania Bulletin* also publishes: Governor's Executive Orders; State Contract Notices; Summaries of Enacted Statutes; Statewide and Local Court Rules; Attorney General Opinions; Motor Carrier Applications before the Public Utility Commission; Applications and Actions before the Department of Environmental Protection; Orders of the Independent Regulatory Review Commission; and other documents authorized by law.

The text of certain documents published in the *Pennsylvania Bulletin* is the only valid and enforceable text. Courts are required to take judicial notice of the *Pennsylvania Bulletin*.

Adoption, Amendment or Repeal of Regulations

Generally an agency wishing to adopt, amend or repeal regulations must first publish in the *Pennsylvania Bulletin* a Notice of Proposed Rulemaking. There are limited instances where the agency may omit the proposal step; they still must publish the adopted version.

The Notice of Proposed Rulemaking contains the full text of the change, the agency contact person, a fiscal note required by law and background for the action.

The agency then allows sufficient time for public comment before taking final action. An adopted proposal must be published in the *Pennsylvania*

Bulletin before it can take effect. If the agency wishes to adopt changes to the Notice of Proposed Rulemaking to enlarge the scope, they must re-propose.

Citation to the *Pennsylvania Bulletin*

Cite material in the *Pennsylvania Bulletin* by volume number and page number. Example: Volume 1, *Pennsylvania Bulletin*, page 801 (short form: 1 Pa.B. 801).

Pennsylvania Code

The *Pennsylvania Code* is the official codification of rules and regulations issued by Commonwealth agencies and other statutorily authorized documents. The *Pennsylvania Bulletin* is the temporary supplement to the *Pennsylvania Code*, printing changes as soon as they occur. These changes are then permanently codified by the *Pennsylvania Code Reporter*, a monthly, loose-leaf supplement.

The *Pennsylvania Code* is cited by title number and section number. Example: Title 10 *Pennsylvania Code*, § 1.1 (short form: 10 Pa.Code § 1.1).

Under the *Pennsylvania Code* codification system, each regulation is assigned a unique number by title and section. Titles roughly parallel the organization of Commonwealth government. Title 1 *Pennsylvania Code* lists every agency and its corresponding *Code* title location.

How to Find Documents

Search for your area of interest in the *Pennsylvania Code*.

The *Pennsylvania Code* contains, as Finding Aids, subject indexes for the complete *Code* and for each individual title, a list of Statutes Used As Authority for Adopting Rules and a list of annotated cases. Source Notes give you the history of the documents. To see if there have been recent changes, not yet codified, check the List of *Pennsylvania Code* Chapters Affected in the most recent issue of the *Pennsylvania Bulletin*.

The *Pennsylvania Bulletin* also publishes a quarterly List of Pennsylvania Code Sections Affected which lists the regulations in numerical order, followed by the citation to the *Pennsylvania Bulletin* in which the change occurred.

Printing Format

Material proposed to be added to an existing rule or regulation is printed in **bold face** and material proposed to be deleted from such a rule or regulation is enclosed in brackets [] and printed in **bold face**. Asterisks indicate ellipsis of *Pennsylvania Code* text retained without change. Proposed new or additional regulations are printed in ordinary style face.

Fiscal Notes

Section 612 of The Administrative Code of 1929 (71 P. S. § 232) requires that the Office of Budget prepare a fiscal note for regulatory actions and administrative procedures of the administrative departments, boards, commissions or authorities receiving money from the State Treasury stating whether the proposed action or procedure causes a loss of revenue or an increase in the cost of programs for the Commonwealth or its political subdivisions; that the fiscal note be published in the *Pennsylvania Bulletin* at the same time as the proposed change is advertised; and that the fiscal note shall provide the following information: (1) the designation of the fund out of which the appropriation providing for expenditures under the action or procedure shall be made; (2) the probable cost for the fiscal year the program is implemented; (3) projected cost estimate of the program for each of the five succeeding fiscal years; (4) fiscal history of the program for which expenditures are to be made; (5) probable loss of revenue for the fiscal year of its implementation; (6) projected loss of revenue from the program for each of the five succeeding fiscal years; (7) line item, if any, of the General Appropriation Act or other appropriation act out of which expenditures or losses of Commonwealth funds shall occur as a result of the action or procedures; (8) recommendation, if any, of the Secretary of the Budget and the reasons therefor.

The required information is published in the foregoing order immediately following the proposed change to which it relates; the omission of an item indicates that the agency text of the fiscal note states that there is no information available with respect thereto. In items (3) and (6) information is set forth for the first through fifth fiscal years; in that order, following the year the program is implemented, which is stated. In item (4) information is set forth for the current and two immediately preceding years, in that order. In item (8) the recommendation, if any, made by the Secretary of Budget is published with the fiscal note. See 4 Pa. Code § 7.231 *et seq.* Where “no fiscal impact” is published, the statement means no additional cost or revenue loss to the Commonwealth or its local political subdivision is intended.

Reproduction, Dissemination or Publication of Information

Third parties may not take information from the *Pennsylvania Code* and *Pennsylvania Bulletin* and reproduce, disseminate or publish such information except as provided by 1 Pa. Code § 3.44. 1 Pa. Code § 3.44 reads as follows:

§ 3.44. General permission to reproduce content of Code and Bulletin.

Information published under this part, which information includes, but is not limited to, cross references, tables of cases, notes of decisions, tables of contents, indexes, source notes, authority notes, numerical lists and codification guides, other than the actual text of rules or regulations may be reproduced only with the written consent of the Bureau. The information which appears on the same leaf with the text of a rule or regulation, however, may be incidentally reproduced in connection with the reproduction of the rule or regulation, if the reproduction is for the private use of a subscriber and not for resale. There are no other restrictions on the reproduction of information published under this part, and the Commonwealth hereby consents to a reproduction.

TITLE 210. APPELLATE PROCEDURE

PART I. RULES OF APPELLATE PROCEDURE

ARTICLE I. PRELIMINARY PROVISIONS

CHAPTER 1. GENERAL PROVISIONS

DOCUMENTS GENERALLY

Rule 120. Entry **and Withdrawal** of Appearance.

(Editor's Note: The following text within Rule 120 and the Official Note is new and printed in regular print to enhance readability.)

* * * * *

(b) *Withdrawal of Appearance for lack of a legal basis in appeals from a direct criminal conviction or denial of a first Post-Conviction Relief Act petition.* If counsel represents an appellant in the above circumstances, counsel does not have an automatic right to withdraw from the representation. Unless the court appoints or the appellant retains substitute counsel, withdrawal will be allowed only if the requirements of the appropriate section of this rule have been followed, and if the court is satisfied that withdrawal is warranted.

(1) *Petition to withdraw as counsel on direct appeal of a criminal conviction.* Counsel who seeks to withdraw from representation on direct appeal of a criminal conviction because counsel has concluded that all issues that could be raised on appeal are frivolous, may withdraw only if the court concludes that there are no non-frivolous issues to be raised based upon the court's review of the issues identified by counsel and the appellant and its independent review of the record.

(A) To facilitate this review, counsel must file a petition seeking withdrawal with the appellate court. Counsel shall attach to the petition a statement that contains a certification that counsel has reviewed the record diligently and a thorough explanation of the law and facts pertinent to the appeal, including:

(i) a summary of the procedural history and facts, with citations to the pertinent sections of the record;

(ii) an identification of all issues that might arguably be raised on the appeal with references to anything in the record and any legal authority that could arguably support the appeal; and

(iii) the reasons for counsel's conclusion that each of the issues that could be raised would be frivolous.

(B) Counsel must provide a copy of both the petition and the attached statement to the appellant, accompanied by a letter warning the appellant that if the court permits counsel to withdraw, it will make a finding that the appeal is wholly frivolous and will affirm the conviction. In addition, counsel must set forth in the letter that appellant has the right:

(i) to address the matters raised in the petition and statement and to bring any additional points to the court's attention by filing a response with the appellate court within twenty-one (21) days of either: (a) the date the letter has been marked as received by the institution with custody of the appellant; or (b) the date of the postmark of the letter if the appellant is not in custody; and

(ii) to proceed *pro se* or by retaining private counsel.

(C) Within twenty-one (21) days of the date appellant's response was filed or due to be filed, the Commonwealth may file a brief addressing the petition and statement and the appellant's response, if any.

(D) After the court has received the record, it shall conduct an independent review of the record and the submissions of counsel and of the appellant and the Commonwealth, if any. After that review,

(i) if the court determines that the appeal is wholly frivolous, the court shall grant counsel's petition to withdraw and shall affirm the judgment of sentence; or

(ii) if the court determines that there are non-frivolous claims, the court shall either deny the petition to withdraw or direct the trial court to appoint replacement counsel. In such cases, the appellate court will identify non-frivolous issues that must be briefed by counsel on their merits. The issues identified by the court are not exclusive, and counsel may raise and brief any additional issues counsel identifies as potentially non-frivolous.

(2) *Petition to withdraw as counsel on appeal after denial of the first petition for post-conviction relief from a criminal conviction.* Counsel who seeks to withdraw from

representation after denial of a first petition for post-conviction relief of a criminal conviction may withdraw if the court concludes that there are no meritorious issues to be raised upon its review of the issues identified by counsel and the appellant and its independent review of the record.

(A) To facilitate this review, counsel must file a petition seeking withdrawal with the appellate court. Counsel shall attach to the petition a brief containing a certification that counsel has reviewed the record diligently and argument setting forth why none of the claims asserted by the appellant is meritorious. As to each claim, the brief must contain:

(i) a summary of the procedural history and facts with citations to the pertinent sections of the record;

(ii) a list of all issues that could be raised in the appeal;

(iii) a review of the facts and law that have led counsel to the conclusion that all issues that could be raised on appeal would be without merit.

(B) Counsel must provide a copy of both the petition and the attached brief to the appellant, accompanied by a letter warning the appellant that if the court permits counsel to withdraw, it will make a finding that the appeal has no merit and will affirm the denial of the petition for post-conviction relief. In addition, counsel must set forth in the letter that appellant has the right:

(i) to address the matters raised in the petition and brief and to bring any additional points to the court's attention by filing a response with the appellate court within twenty-one (21) days of either: (a) the date the letter has been marked as received by the institution with custody of the appellant; or (b) the postmark of the letter if the appellant is not in custody; and

(ii) to proceed *pro se* or by retaining private counsel.

(C) Within twenty-one (21) days of the date appellant's response was filed or due to be filed, the Commonwealth may file a brief addressing the petition and statement and the appellant's response, if any.

(D) After the court has received the record, it shall examine the petition and other submissions of counsel, appellant's response, if any, and the Commonwealth's brief, if any. In addition, the court will conduct an independent review of the record. After that review:

(i) If the appellate court determines that the appellant has not raised any meritorious claims, the appellate court shall grant counsel's petition to withdraw and shall affirm the denial of the petition for post-conviction relief; or

(ii) If the appellate court determines that there are potentially meritorious claims, the court shall either deny the request to withdraw or direct the trial court to appoint replacement counsel. In such cases, the court will identify potentially meritorious issues for counsel to brief on their merits. The issues identified by the court are not exclusive, and counsel may raise and brief any additional issues counsel identifies as potentially meritorious.

Official Note:

* * * * *

On direct appeal, a criminal defendant is constitutionally entitled to zealous and effective representation, because the Sixth Amendment is binding on the states

through the Fourteenth Amendment. *See Strickland v. Washington*, 466 U.S. 688 (1973) (describing counsel's "overarching duty to advocate the defendant's cause."). An appellant on direct appeal from a criminal conviction thus has "the right to have an attorney, zealous for the indigent's interests, evaluate his case and attempt to discern non-frivolous arguments." *Smith v. Robbins*, 528 U.S. 259, 278 n.10 (2000). That right does not however extend to having counsel pursue an appeal that the lawyer concludes after review is wholly frivolous. *Id.* at 277-78.

Accordingly, a petition to withdraw on direct appeal should not be submitted until counsel has conducted a thorough review of the record and law, searching diligently for any non-frivolous issues. Compare Pennsylvania Rules of Professional Conduct Preamble and Scope (counsel's duty is to "assert the client's position" zealously) with Rules 3.1, 3.3 (obligation not to pursue a frivolous appeal; obligation to be candid with the tribunal). As the Supreme Court has explained, a lawyer seeking to withdraw must explain to the tribunal which issues could be raised, where in the record and the law such issues might be supported, and why the lawyer has concluded the issues are wholly frivolous. *Commonwealth v. Santiago*, 978 A.2d 349 (Pa. 2009).

While "frivolous" escapes ready characterization, certain principles are clear. In *Commonwealth v. Greer*, 455 Pa. 106, 108-09, 4 A.2d 513, 514 (1974), the Supreme Court explained that "frivolous" was more than a lack of merit, and the fact that the prospects of success were "dim" did not make an appeal frivolous. *Id.* A frivolous argument is one that counsel concludes cannot be raised "without compromising professional standards." *Id.* By way of example, an argument to reevaluate existing case law may be non-frivolous if the Supreme Court has not considered the precise issue and if the argument is "supported by a reasonable belief" that the Supreme Court might disagree with the conclusions of the lower courts. *Smith v. Commonwealth Bd. of Probation and Parole*, 524 Pa. 500, 507-08, 574 A.2d 558, 562 (1990). Likewise, issues that might have been waived could be non-frivolous. *See Commonwealth v. Lilley*, 978 A.2d 995 (Pa. Super. 2009).

Counsel's explanation allows the appellate court to review the record to assure itself that there are no potentially non-frivolous issues. Case law commonly refers to the petition and/or the accompanying documents as an "Anders brief." The term "brief" can create confusion, however, because it suggests zealous argument (either for or against the client). Instead, as *Santiago* explains, counsel is fulfilling duties both to the client (to conduct a diligent review) and to the tribunal (to report the results of that review candidly).

Under the Post-Conviction Relief Act, the right to counsel on a first post-conviction petition is statutory or by rule and the petitioner is not entitled to as much protection as an appellant directly appealing a criminal conviction. *See* 42 Pa.C.S. §§ 9541—9546; *Commonwealth v. Turner*, 518 Pa. 491, 544 A.2d 927 (1988) and *Commonwealth v. Finley*, 550 A.2d 213 (Pa. Super. 1988). The appellate court must review the record to assure itself only that all issues are non-meritorious before granting permission to withdraw. *Id.* The practice to be followed for withdrawal from representation of a petitioner who is

pursuing a first PCRA petition is accordingly different, and the brief *must contain argument against the client*. See *Commonwealth v. Wrecks*, 931 A.2d 717, 721-22 (Pa. Super. 2007) (characterizing *Anders* and *Turner* as “close cousins” but recognizing that under *Turner/Finley* counsel “must argue” against the client).

Whether on direct appeal or on appeal from the denial of a first PCRA petition, a lawyer has a responsibility to continue to meet all deadlines and to comply with all applicable law, rules, and orders of the trial and appellate court until the appellate court has granted the petition for permission to withdraw.

The rule adds specific time frames for the appellant and the Commonwealth to file responses to the petition with the court.

Explanatory Comment

In direct appeals of a criminal conviction and in appeals of a denial of a first Post-Conviction Relief Act (PCRA) petition, an appellant is entitled to continued and effective representation. Consequently, counsel may not withdraw without substitute counsel unless the appellate court permits the withdrawal after it has reviewed the record. Because the right to counsel on direct appeal is constitutional and for first PCRA appeals the right arises under statute and rule, the standards for seeking and granting withdrawal differ. To date, the procedures for withdrawal in such circumstances have been created only by case law, and lawyers have frequently conflated the procedures. Accordingly, the Committee concluded that it would assist the bar to have the standards set forth in a rule.

Whether an appellant is appealing directly from a criminal conviction or is appealing from the denial of a first PCRA petition, counsel must continue to represent the appellant and comply with all deadlines for filing and serving any required documents until the appellate court grants permission to withdraw.

Withdrawal in such situations has serious ramifications, because the appellate court will affirm the conviction or denial of the petition without further briefing. Moreover, if the court permits the withdrawal, the appellant will no longer have a right to appointed counsel. See *Commonwealth v. Alberta*, 974 A.2d 1158 (Pa. 2009).

As noted previously, the 2009 amendment is intended to set forth the differing requirements for petitioning to withdraw from representation of an appellant who is: (1) appealing a criminal conviction directly; or (2) appealing a denial of a first PCRA petition. Perhaps because the procedures are very different from typical motion practice, a great deal of confusion has resulted. The amendment has been drafted to set forth the requirements more clearly.

1. Procedures common to both types of withdrawal.

In either case, when seeking to withdraw, counsel must file a petition to withdraw and attach the documents the court will need to complete its review of the record, including a certification that counsel has reviewed the record diligently. Counsel must also send a copy of the filed materials to the appellant, with a letter warning the appellant that if the court permits counsel to withdraw under this rule (and applicable law), the court will affirm the conviction and advising that the appellant has a right to address the court directly and to raise additional issues for the court's consideration, as well as advising that the appellant has 21 days to file any supplemental materials

with the court. One question on which the Committee seeks input is whether the response time for the appellant should be calculated from the date on which the appellant receives the document—with the appellant responsible for demonstrating when he or she received it—or whether counsel should indicate in the certificate of service for the petition the date that the letter was sent, with the time for responding calculated from that date.

The Commonwealth may respond to the petition of counsel or the appellant's supplemental submission.

In either case, in deciding whether to permit the withdrawal, the appellate court will review the entire record.

2. Procedures for withdrawal from representation on direct appeal.

On direct appeal, a criminal defendant has a constitutional right to be represented by counsel. See *Anders v. California*, 386 U.S. 738 (1967), and *Commonwealth v. McClendon*, 434 A.2d 1185 (Pa. 1981). But that right does not extend to having counsel pursue an appeal that is wholly frivolous. *Smith v. Robbins*, 528 U.S. 259, 277-78 (2000). Accordingly, counsel may seek to withdraw from representing someone who is directly appealing a criminal conviction only after undertaking a diligent search of the record—which is part of counsel's duty of zealous advocacy that may not be avoided—and only if, after that review, counsel concludes that all issues that could potentially be raised on appeal are wholly frivolous.

Once counsel reaches that conclusion, the duty of candor to the tribunal and the duty not to pursue a frivolous appeal take precedence. As the Supreme Court has recently explained, when counsel seeks to withdraw under *Anders*, the lawyer must identify for the appellate court all places in the record that might arguably give rise to an appeal and all pertinent legal authorities, and must explain why counsel has concluded that the potential arguments would be wholly frivolous. See *Commonwealth v. Santiago*, 978 A.2d 349 (Pa. 2009). In this way, the court can assure itself that the appellant has no non-frivolous issues to present.

3. Procedures for withdrawal from representation on appeal of a denial of a first PCRA petition.

In contrast, the appeal of a denial of a first PCRA petition is governed by statute and rule. See 42 Pa.C.S. §§ 9541–9546; *Commonwealth v. Turner*, 544 A.2d 927 (Pa. 1988); *Commonwealth v. Finley*, 550 A.2d 213 (Pa. Super. 1988). Accordingly, counsel must still review the record diligently, but only to determine if there are *meritorious* issues that warrant an appeal. In the explanation that accompanies the petition to withdraw, counsel will not merely explain what could be raised and why it has no merit but will actually *argue against the client*. *Commonwealth v. Wrecks*, 931 A.2d 717, 721-22 (Pa. Super. 2007) (characterizing *Anders* and *Turner* as “close cousins” but recognizing that under *Turner/Finley* counsel “must argue” against the client.). Moreover, because under *Turner/Finley*, the appellate court reviews the record only for *meritorious* issues, the court's review need not be as stringent as on a request to withdraw from a direct appeal; nonetheless, the Court will still require briefing on any issues it sees—whether counsel or the appellant has raised them or not. See, e.g., *Commonwealth v. Young*, 922 A.2d 913 (Pa. Super. 2007) (recognizing that the first time the case was before it on a *Turner/Finley* request, the court's “review of the record . . . revealed an issue of arguable merit that we determined should have been addressed by counsel . . .”).

This Recommendation is being submitted to the bench and bar for comments and suggestions prior to its submission to the Supreme Court for adoption.

1. Overview of Program

Act 48 of 2009 established the Pennsylvania Tax Amnesty Program (the "Amnesty Program"). The Amnesty Program period begins April 26, 2010, and ends on June 18, 2010 (the "Amnesty Period"). All taxes owed to the Commonwealth administered by the Department of Revenue (Department) are eligible for Amnesty. Taxes, interest and penalties collected under the International Fuel Tax Agreement owed to other states or provinces are not eligible for amnesty. Eligible periods are those where a known or unknown delinquency exists as of June 30, 2009.

To participate, taxpayers will need to file an online Amnesty return, file all delinquent tax returns and make the required payment within the Amnesty Period. All penalties and one-half of the interest due will be waived.

Unpaid taxes, penalties and interest that result from periods subsequent to June 30, 2009, are not eligible for the Amnesty Program.

2. Definitions

The following words and terms have the following meanings, unless the context clearly indicates otherwise:

Amnesty Return—The online return to be filed by a taxpayer applying to participate in the Amnesty Program. The term includes all of the required tax returns, tax reports, accompanying schedules and other documentation required to be filed electronically or by paper in conjunction with the Amnesty Return.

Department—The Pennsylvania Department of Revenue

Delinquency—An unpaid tax, penalty or interest liability or a non-filed tax return or tax report.

Known liability—A delinquency known to the Department.

Unknown liability—A liability for an eligible tax for which either:

- No return or report has been filed, no payment has been made and the taxpayer has not been contacted by the Department concerning the unfiled returns or reports or unpaid tax; or

- A return or report has been filed, the tax was underreported and the taxpayer has not been contacted by the Department concerning the underreported tax.

3. Taxes Covered

Individuals, businesses and other entities with Pennsylvania tax delinquencies as of June 30, 2009, are generally eligible to participate in the Amnesty Program. Non-filed tax returns or reports, as well as unpaid, under-reported or un-established taxes, whether known or unknown to the Department, constitute eligible delinquencies. Types of taxes covered by the Amnesty Program include:

- Agriculture Cooperative Tax;
- Bank and Trust Company Shares Tax;
- Capital Stock or Foreign Franchise Tax;
- Cigarette Tax;
- Corporate Net Income Tax;
- Electric Cooperative Tax;
- Employer Withholding Tax;
- Fuel Use Tax, except taxes, interest and penalties collected under the International Fuel Tax Agreement owed to other states or provinces are not eligible for the Amnesty Program;
- Gross Premiums Tax;
- Hotel Occupancy Tax, including Local Hotel Occupancy Tax for Philadelphia and Allegheny County;
- International Fuel Tax Agreement (IFTA)
- Inheritance and Estate Tax;
- Interstate Bus Compact Tax;
- Liquid Fuels Tax;
- Loans Tax;
- Marine Underwriting Profits Tax;
- Malt Beverage Tax;
- Motor Carriers Road Tax;
- Motor Vehicle Carriers Gross Receipts Tax;
- Mutual Thrift Institutions Tax;
- Oil Company Franchise Tax;
- Parimutuel Wagering and Admissions Tax;
- Personal Income Tax;
- Public Utility Realty Tax;
- Realty Transfer Tax;
- Sales and Use Tax, including Local Sales and Use Tax for Philadelphia and Allegheny County;
- Surplus Lines Tax;
- Unauthorized Insurance Tax; and
- Gross Receipts Tax.

The program does not apply to a tax imposed by a political subdivision of the Commonwealth, except for Local Sales and Use and Hotel Occupancy Taxes for Philadelphia and Allegheny County. Also, the program does not apply to any tax administered by another state or the Federal government/Internal Revenue Service.

4. *Notification of Amnesty Program*

For each tax delinquent, the Department will send a written notice to the last known address on the Department's records. This notice will contain important information for the recipients to participate in the Amnesty Program. A taxpayer, who has delinquencies for multiple tax types, may receive more than one notification.

5. *Participation Requirements*

A participating taxpayer in the Amnesty Program must do each of the following during the Amnesty period:

- File an online Amnesty Return with the Department;
- Make payment of all taxes and one-half of the interest due to the Commonwealth in accordance with the Amnesty Return that is filed;
- File complete tax returns for all required tax periods for which the taxpayer previously has not filed a tax return; and
- File complete amended returns for all required periods for which the taxpayer underreported tax liability.

To participate in the Amnesty Program a business or individual may not:

- Currently be under criminal investigation for an alleged violation of any tax law; or
- Prior to the Amnesty Period, have been named as a defendant in a criminal complaint alleging a violation of any law imposing a tax administered by the Department; or
- Be a defendant in a pending criminal action for an alleged violation of any law imposing an eligible tax.

A taxpayer's participation in the Amnesty Program is conditioned upon the taxpayer's agreement that the right to protest or pursue an administrative or judicial proceeding with regard to tax amnesty returns filed under the Amnesty Program or to claim any refund of money paid under the Amnesty Program is barred.

A taxpayer with active administrative or judicial appeals is eligible to participate in the Amnesty Program. The tax and one-half of interest due must be paid in full during the Amnesty Period. The taxpayer must withdraw active administrative or judicial appeals relating to periods accepted into the Amnesty Program.

6. *Amnesty Return*

An online Amnesty Return must be filed by each taxpayer seeking to participate in the Amnesty Program.

After receiving notice from the Department that an eligible delinquency exists, a taxpayer is required to log on to the Department's Amnesty web site. Using the Amnesty notice and tax account information, the taxpayer will be able to view information on the Department's web site.

If additional liabilities unknown to the Department are owed by a taxpayer, the taxpayer will need to register and complete an online Amnesty Return which includes a line item summarizing tax owed for each newly-reported or amended period, calculate the applicable interest, and remit payment of the balance due reflected on the Amnesty Return no later than the last day of the Amnesty Period.

Businesses previously not registered with the Department should begin the registration process to obtain Pennsylvania tax account numbers (PA-100 or apply with the Department of State) by the conclusion of the Amnesty Period. This timely action on the taxpayer's part will assist the Department in reconciling a taxpayer's Amnesty Return and payment information with tax returns filed separately. The lack of an account number(s) does not extend the time allotted to file the Amnesty Return and remit payment nor will the failure to obtain the registration number(s) prevent a taxpayer from participating in the Amnesty Program.

7. *Tax Return Filing*

Along with the payment for all taxes and one-half of the interest, all missing tax returns or reports must be filed electronically or on paper no later than June 18, 2010.

A taxpayer with unknown liabilities reported and paid during the Amnesty Period to the Department and who complies with all other requirements, is not liable for any taxes of the same type due prior to July 1, 2004.

A taxpayer applying to participate in the Amnesty Program with non-filed tax reports should file simple Personal Income Tax, Sales and Use Tax and Employer Withholding Returns electronically. A "Simple" Personal Income Tax return is one which only includes compensation (wages), interest and dividends. Applicable forms should be obtained from the Department's web site and submitted to the Amnesty Program mailing address for all other Personal Income Tax returns, Corporation Tax Reports, including Capital Stock/Franchise and Corporate Net Income Tax reports, and all other taxes.

8. *Payments*

A participating taxpayer must disclose and pay all delinquent taxes and 50% of the applicable interest. Payment for the entire liability and filing of all delinquent tax returns must not be received prior to the beginning of the Amnesty Period or after the close of the Amnesty Program. Payment is considered timely if received electronically or postmarked on or before June 18, 2010.

Abatements of 50% of interest and all penalties only applies to tax returns due for eligible tax periods prior to June 30, 2009. However, all tax returns and payments due after June 30, 2009, must still be filed and the tax paid for a taxpayer to retain his/her eligibility.

Payment of all taxes and interest eligible for the Amnesty Program must be received by the last day of the Amnesty Period, June 18, 2010. A taxpayer will be requested to make payment electronically when filing an Amnesty return online. Electronic payments may be made using ACH Debit, ACH Credit or credit card. Other acceptable methods of payment include certified check, money order or cash.

To be eligible for the benefits of the Amnesty Program, the payment of 50% of the interest due must be paid during the Amnesty Period. Pre-payment of half of the interest prior to the beginning of amnesty to maximize the benefits of tax amnesty will not meet the statutory requirements of Act 48.

Any taxpayer who claims making a single payment would be a serious financial hardship will be allowed to make a payment of half of the amnesty total liability and pay the balance in two payments on or before the conclusion of the Amnesty Program.

Payments on interest and penalties made prior to the Amnesty Period (before April 26, 2010) are not eligible for Tax Amnesty.

9. *Extensions of Time for Filing Requirements*

There is no extension for the filing of missing tax returns and reports eligible for the Amnesty Program. All returns and reports are due by the last day of the Amnesty Period, June 18, 2010.

10. *Deferred Payment Plans*

Taxpayers who enter into duly approved and executed deferred payment plans with the Department are eligible to participate in the Amnesty Program. However, they are limited to the relief from penalty and half of the interest that remains on their payment plan balance as of the date of final tax payment and they must complete payment of the entire delinquency by the close of the Amnesty Period. The relief will not be based on their original balances of tax, penalty and interest at commencement of the payment plan.

Taxpayers who choose to continue making payments according to an authorized payment plan, but do not complete the plan on or prior to the end of the Amnesty Period, are not eligible to participate in the Amnesty Program; however, and any abatement, but they will not be subjected to the 5% non-participation post-amnesty penalty.

11. *Continued Compliance*

The Department may re-impose all penalty and interest abated during the Amnesty Period if either of the following occurs within 2 years of the conclusion of the Amnesty Period:

- The taxpayer becomes delinquent for three consecutive periods for semi-monthly, monthly or quarterly filing or payment unless the taxpayer has timely filed administrative or judicial appeals for the tax delinquency; or

- The taxpayer becomes delinquent for more than 8 months on any filing of reports and or payments due on an annual basis unless the taxpayer has timely filed administrative or judicial appeals for the tax delinquency.

12. *Future Amnesty Participation*

In the event an Amnesty Program is held in the future, a taxpayer participating in the Amnesty Program will be prohibited from participating in future Amnesty Programs.

13. *Post Amnesty Enforcement*

At the conclusion of the Amnesty Period, a 5% non-participation penalty will be imposed on all un-paid tax, penalty and interest not paid in full during the Amnesty Period. Existing deferred payment plans, active appeals and entities in bankruptcy will not be assessed the additional 5% non-participation penalty.

The Department may audit or investigate tax delinquencies reported and/or paid during the Amnesty Program. Any additional taxes assessed by the Department are subject to normal provisions pertaining to imposition of interest and penalties.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 1

Acknowledgment of Notices of Intent to Remediate Submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Sections 302—305 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* an acknowledgment noting receipt of Notices of Intent to Remediate. An acknowledgment of the receipt of a Notice of Intent to Remediate is used to identify a site where a person proposes to, or has been required to, respond to a release of a regulated substance at a site. Persons intending to use the Background Standard, Statewide Health Standard, the Site-Specific Standard or who intend to remediate a site as a special industrial area must file a Notice of Intent to Remediate with the Department. A Notice of Intent to Remediate filed with the Department provides a brief description of the location of the site, a list of known

or suspected contaminants at the site, the proposed remediation measures for the site and a description of the intended future use of the site. A person who demonstrates attainment of one, a combination of the cleanup standards or who receives approval of a special industrial area remediation identified under the act will be relieved of further liability for the remediation of the site for any contamination identified in reports submitted to and approved by the Department. Furthermore, the person shall not be subject to citizen suits or other contribution actions brought by responsible persons not participating in the remediation.

Under sections 304(n)(1)(ii) and 305(c)(2) of the act, there is a 30-day public and municipal comment period for sites proposed for remediation using a Site-Specific Standard, in whole or in part, and for sites remediated as a special industrial area. This period begins when a summary of the Notice of Intent to Remediate is published in a newspaper of general circulation in the area of the site. For the sites identified, proposed for remediation to a Site-Specific Standard or as a special industrial area, the municipality within which the site is located may request to be involved in the development of the remediation and reuse plans for the site if the request is made within 30 days of the date specified. During this comment period, the municipality may request that the person identified as the remediator of the site develop and implement a public involvement plan. Requests to be involved and comments should be directed to the remediator of the site.

For further information concerning the content of a Notice of Intent to Remediate, contact the environmental cleanup program manager in the Department regional office before which the notice appears. If information concerning this acknowledgment is required in an alternative form, contact the community relations coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

AIR QUALITY

**PLAN APPROVAL AND OPERATING
PERMIT APPLICATIONS**

NEW SOURCES AND MODIFICATIONS

The Department of Environmental Protection (Department) has developed an "integrated" plan approval, State operating permit and Title V operating permit program. This integrated approach is designed to make the permitting process more efficient for the Department, the regulated community and the public. This approach allows the owner or operator of a facility to complete and submit all the permitting documents relevant to its application one time, affords an opportunity for public input and provides for sequential issuance of the necessary permits.

The Department has received applications for plan approvals and/or operating permits from the following facilities.

Copies of the applications, subsequently prepared draft permits, review summaries and other support materials are available for review in the regional office identified in this notice. Persons interested in reviewing the application files should contact the appropriate regional office to schedule an appointment.

Persons wishing to receive a copy of a proposed plan approval or operating permit must indicate their interest to the Department regional office within 30 days of the date of this notice and must file protests or comments on a proposed plan approval or operating permit within 30 days of the Department providing a copy of the proposed document to that person or within 30 days of its publication in the *Pennsylvania Bulletin*, whichever comes first. Interested persons may also request that a hearing be held concerning the proposed plan approval and operating permit. Comments or protests filed with the Department regional offices must include a concise statement of the objections to the issuance of the Plan approval or operating permit and relevant facts which serve as the basis for the objections. If the Department schedules a hearing, a notice will be published in the *Pennsylvania Bulletin* at least 30 days prior the date of the hearing.

Persons with a disability who wish to comment and require an auxiliary aid, service or other accommodation to participate should contact the regional office identified

before the application. TDD users should contact the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Final plan approvals and operating permits will contain terms and conditions to ensure that the source is constructed and operating in compliance with applicable requirements in 25 Pa. Code Chapters 121—143, the Federal Clean Air Act (act) and regulations adopted under the act.

PLAN APPROVALS

Plan Approval Applications received under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B that may have special public interest. These applications are in review and no decision on disposition has been reached.

Intent to Issue Plan Approvals and Intent to Issue or Amend Operating Permits under the Air Pollution Control Act (35 P. S. §§ 4001—4015) and 25 Pa. Code Chapter 127, Subchapter B. These actions may include the administrative amendments of an associated operating permit.

41-00077A: Kellogg USA, Inc. (572 Industrial Park Road, Muncy, PA 17756) for operation of three (3) baking ovens at their Kellogg Muncy Bakers in Muncy Borough, **Lycoming County**. This facility is a non-major facility for air contaminant emissions.

The Department of Environmental Protection's (Department) review of the information submitted by Kellogg USA, Inc. indicates that the air contamination sources to be constructed will comply with all regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements (BAT) of 25 Pa. Code §§ 127.1 and 127.12. Based on this finding, the Department proposes to issue a plan approval for the proposed operation. Additionally, if the Department determines that the sources are operating in compliance with the plan approval conditions, the conditions established in the plan approval will be incorporated into the State Only operat-

ing permit via a State Only operating permit application under 25 Pa. Code §§ 127.402 and 127.411.

The plant has been in operation under Kellogg ownership since 1988. The company operates three natural gas-fueled direct-fired bakery ovens, producing foods suitable for vending machines. Ovens No. 1, 2, and 3 are natural gas fired and rated at 12.0 mmBtu/hr, 6.4 mmBtu/hr, and 12.0 mmBtu/hr, respectively. Until recently, the baking lines were believed to be exempt from plan approval requirements and plant emissions were believed to be exempt from operating permit requirements. Volatile organic compound (VOC) emissions from flavorings have now been recognized and quantified and found to be sufficient to require plan approval, subject to the BAT requirement of 25 Pa. Code §§ 127.1 and 127.12. At least one of the plant's emergency generator engines is subject Federal New Source Performance Standard (NSPS) for internal combustion engines.

The emission of VOCs from all sources at the facility will not exceed 49.0 tons in any 12-consecutive month period (CMP). 41-00033A: Susquehanna Health System (777 Rural Avenue, Williamsport, PA 17701) for construction and operation of a natural gas-fired reciprocating internal combustion engine equipped with low NOx electronic control system to control nitrogen oxide (NOx) emissions from the engine, rated at 2,671 brake-horsepower (Source ID P104) and installation of an oxidation catalyst (ID C104) to control the carbon monoxide, volatile organic compound and formaldehyde emissions from the engine at their Williamsport Hospital campus in Williamsport, **Lycoming County**.

The Department of Environmental Protection's (Department) review of the information submitted by Susquehanna Health System indicates that the air contamination source to be constructed will comply with all

regulatory requirements pertaining to air contamination sources and the emission of air contaminants including the best available technology requirements (BAT) of 25 Pa. Code §§ 127.1 and 127. In addition, the engine will meet the requirements of Subpart ZZZZ of the National Emission Standards for Hazardous Air Pollutants for Source Categories, 40 CFR 63.6580—63.6675 and the New Source Performance Standards (NSPS), 40 CFR Part 60 Subpart JJJJ, Sections 60.4230—60.4248. Based on these findings, the Department proposes to issue a plan approval for the proposed construction. Additionally, if the Department determines that the source is operating in compliance with the plan approval conditions, the conditions established in the plan approval will be incorporated into the State Only operating permit via a State Only operating permit application under 25 Pa. Code §§ 127.402 and 127.411.

Source ID P104 consists of a Caterpillar Model G3520C, 4-stroke lean burn (4SLB), natural gas fired, reciprocating internal combustion engine (RICE) with a power rating of 2,671 brake-horsepower (bhp). The air contaminant emissions from Source ID P104 shall be controlled by low NOx electronic control technology and a Sud-Chemie oxidation catalyst, model EnviCat-5314-33.5x3.5x2 (ID C104). The following is a summary of the types of conditions the Department intends to place in the plan approval to ensure compliance with all applicable regulatory requirements including the best available technology requirements of 25 Pa. Code §§ 127.1 and 127.12; Subpart ZZZZ of the National Emission Standards for Hazardous Air Pollutants for Source Categories, 40 CFR 63.6580—63.6675 and Subpart JJJJ of the New Source Performance Standards (NSPS) 40 CFR 60.4230—60.4248.

The air contaminant emissions from the exhaust of ID C104 associated with Source ID P104 shall not exceed the following: carbon monoxide—0.07 grams/brake horsepower-hour, 0.42 pounds per hour and 1.74 tons in any 12-consecutive month period; nitrogen oxides—0.5 grams/brake horsepower-hour, 2.94 pounds per hour and 12.20 tons in any 12-consecutive month period; total volatile organic compounds—0.15 grams/brake horsepower-hour, 0.58 pounds per hour and 2.41 tons in any 12-consecutive month period; particulate matter—0.007 pounds per hour and 0.03 tons in any 12-consecutive month period; sulfur oxides—0.002 pounds per hour and 0.008 tons in any 12-consecutive month period; non-methane, non-ethane hydrocarbons—0.42 pounds and 1.74 tons in any 12-consecutive month period and formaldehyde—0.16 pounds per hour and 0.67 tons in any 12-consecutive month period. Additionally, the removal efficiency for CO shall not be less than 97% from the oxidation catalyst.

Testing requirements to verify compliance with emission limitations.

Work practices requirements to ensure operation of the sources with good air pollution control practices.

Monitoring of operating parameters which includes temperature and differential pressure ranges for the oxidation catalyst to verify compliance with good operating practice.

Recordkeeping and reporting requirements regarding demonstration of compliance with the emission limitations and all applicable NSPS and MACT requirements.

Pursuant to 25 Pa. Code §§ 127.44(a) and 127.424(b) the Department of Environmental Protection (Department) intends to issue a Plan Approval for their plant located in the City of Meadville, Crawford County. This plan approval will authorize the applicant to construct and operate a 9.5 mmBtu/hr Biomass Combustion Unit and Multi-clone control device as described in the applicant's application dated August 19, 2009.

The biomass unit will be fueled by virgin chipped wood with an average ash content of 2% and a moisture content of approximately 38%. At no time shall particle-board, flake-board, preservative treated wood, coated or painted wood, laminated wood, construction or demolition waste or any other material be burned without approval from the Department. The unit will only operate during the months of September through the end of May to provide heat to the buildings. The fuel will be stored in an enclosed building abutting the biomass unit. The biomass unit will be equipped with a multi-clone control device with a removal efficiency of 65% that was considered BAT. Fly ash will not be re-injected into the operation and therefore will be collected into a closed dumpster below the multi-clone for disposal. Crawford Central anticipates a startup date of October 15, 2010. Performance testing will be conducted within 180 days of startup to determine compliance with PM, filterable PM10, CO and NOx emissions limits set forth in the plan approval.

The permittee shall perform daily visible observations of the stack when the source and control device is in operation, record daily magnehelic readings, and daily fuel usage. Seasonal shutdowns and weekly preventative maintenance inspections shall be performed and recorded. The permittee shall keep monthly records of the PM, PM10, CO, NOx, SOx and VOC emissions to demonstrate compliance with emission limitations of: 2.39 lbs/hr and 7.84 tpy PM; 2.17 lbs/hr and 7.1 tpy PM10; 5.7 lbs/hr and 18.7 tpy CO; 3.12 lbs/hr and 10.21 tpy NOx; .238 lbs/hr

and .78 tpy SOx; and 0.16 lbs/hr and 0.53 tpy VOC. The source is not considered major pre-controlled, therefore, CAM is not applicable.

COAL AND NONCOAL MINING ACTIVITY APPLICATIONS

Applications under the Surface Mining Conservation and Reclamation Act (52 P. S. §§ 1396.1—1396.19a); the Noncoal Surface Mining Conservation and Reclamation Act (52 P. S. §§ 3301—3326); The Clean Streams Law (35 P. S. §§ 691.1—691.1001); the Coal Refuse Disposal Act (52 P. S. §§ 30.51—30.66); The Bituminous Mine Subsidence and Land Conservation Act (52 P. S. §§ 1406.1—1406.21). Mining activity permits issued in response to such applications will also address the applicable permitting requirements of the following statutes: the Air Pollution Control Act (35 P. S. §§ 4001—4015); the Dam Safety and Encroachments Act (32 P. S. §§ 693.1—693.27); and the Solid Waste Management Act (35 P. S. §§ 6018.101—6018.1003).

The following permit applications to conduct mining activities have been received by the Department of Environmental Protection (Department). A copy of the application is available for inspection at the District Mining Office indicated above each application. Where a 401 Water Quality Certification is needed for any aspect of a particular proposed mining activity, the submittal of the permit application will serve as the request for the certification.

Written comments or objections, or requests for an informal conference, or a public hearing, as applicable, on a mining permit application may be submitted by any person or any officer or head of any Federal, State or local government agency or authority to the Department at the address of the district mining office indicated above each application within 30 days of this publication, or within 30 days after the last publication of the applicant's newspaper advertisement, as provided by 25 Pa. Code §§ 77.121—77.123 and 86.31—86.34.

Written comments or objections related to a mining permit application should contain the name, address and telephone number of persons submitting comments or objections; application number; and a statement of suffi-

cient detail to inform the Department on the basis of comment or objection and relevant facts upon which it is based.

Requests for an informal conference, or a public hearing, as applicable, on a mining permit application, as provided by 25 Pa. Code §§ 77.123 or 86.34, must contain the name, address and telephone number of the requestor; the application number; a brief summary of the issues to be raised by the requestor at the conference; and a statement whether the requestor desires to have the conference conducted in the locality of the proposed mining activities.

When a National Pollutant Discharge Elimination System (NPDES) number is listed, the mining activity permit application was accompanied by an application for an individual NPDES permit. The Department has made a tentative determination to issue the NPDES permit in conjunction with the mining activity permit, but the issuance of the NPDES permit is contingent upon the approval of the associated mining activity permit.

For coal mining activities, NPDES permits, when issued, will contain effluent limits that do not exceed the technology-based effluent limitations. The proposed limits are listed in Table 1.

For noncoal mining activities, the proposed limits are found in Table 2. Discharges from noncoal mines located in some geologic settings (for example, in the coal fields) may require additional effluent limits. If additional effluent limits are needed for an NPDES permit associated with a noncoal mining permit, then the permit description below specifies the parameters. The limits will be in the ranges specified in Table 1.

More restrictive effluent limitations, restrictions on discharge volume, or restrictions on the extent of mining that may occur, will be incorporated into an NPDES permit when necessary for compliance with water quality standards and antidegradation requirements (in accordance with 25 Pa. Code Chapters 91—96).

The procedures for determining the final effluent limits, using a mass-balance equation or model, are found in Technical Guidance Document 362-0600-001, NPDES Program Implementation—Memorandum of Understanding Concerning Water Quality Management, NPDES Program Implementation and Related Matters. Other specific factors to be considered include public comments and Total Maximum Daily Loads (TMDLs).

Persons wishing to comment on an NPDES permit application should submit a statement to the Department at the address of the district mining office indicated previously each application within 30 days of this public notice. Comments received within the comment period will be considered in the final determinations regarding the NPDES permit applications. Comments must include the name, address and telephone number of the writer and a concise statement to inform the Department of the exact basis of a comment and the relevant facts upon which it is based.

The Department will also accept requests or petitions for a public hearing on NPDES permit applications, as provided in 25 Pa. Code § 92.61. The request or petition for a public hearing shall be filed within 30 days of this public notice and shall contain the name, address, telephone number and the interest of the party filing the request, and shall state the reasons why a hearing is warranted. A public hearing may be held if the Department considers the public interest significant. If a hearing is scheduled, a notice of the hearing on the NPDES

permit application will be published in the *Pennsylvania Bulletin* and a newspaper of general circulation within the relevant geographical area. In the case where a public hearing is held, the Department will consider comments from the public hearing in the final determination on the NPDES permit application.

Several heavy rain events flooded through the channel and reshaped the channel by cutting through the flood plain. The work will be performed in the channel and partly along the flood plain that was formed as part of the prior reclamation effort. The previous OSM project reshaped the stream into a natural meandering layout with a flood plain on both sides. There are no openings or possible bat habitats affected by the reconstruction work which is inside the original project limits.

The project will cover about 2 acres including the channel and floodplain repair. The channel will be lined with riprap and the floodplain will be graded and seeded for use in time of flooding.

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 2

The following plans and reports were submitted under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of Chapter 3 of the Land Recycling and Environmental Remediation Standards Act (act) require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of submission of plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the act's remediation standards. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis for selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling analytical results which demonstrate that remediation has attained the cleanup standard selected. Submission of plans and reports, other than the final report, shall also be published in the *Pennsylvania Bulletin*. These include the remedial investigation report, risk assessment report and cleanup plan for a Site-Specific Standard remediation. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media; benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements.

For further information concerning plans or reports, contact the Environmental Cleanup Program manager in the Department regional office after which the notice of receipt of plans or reports appears. If information concerning plans or reports is required in an alternative

form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

The Department has received the following plans and reports:

LAND RECYCLING AND ENVIRONMENTAL REMEDIATION

UNDER ACT 2, 1995

PREAMBLE 3

The Department has taken action on the following plans and reports under the Land Recycling and Environmental Remediation Standards Act (35 P. S. §§ 6026.101—6026.908).

Provisions of 25 Pa. Code § 250.8, administration of the Land Recycling and Environmental Remediation Standards Act (act), require the Department of Environmental Protection (Department) to publish in the *Pennsylvania Bulletin* a notice of final actions on plans and reports. A final report is submitted to document cleanup of a release of a regulated substance at a site to one of the remediation standards of the act. A final report provides a description of the site investigation to characterize the nature and extent of contaminants in environmental media, the basis of selecting the environmental media of concern, documentation supporting the selection of residential or nonresidential exposure factors, a description of the remediation performed and summaries of sampling methodology and analytical results which demonstrate that the remediation has attained the cleanup standard selected. Plans and reports required by provisions of the act for compliance with selection of remediation to a Site-Specific Standard, in addition to a final report, include a remedial investigation report, risk assessment report and cleanup plan. A remedial investigation report includes conclusions from the site investigation, concentration of regulated substances in environmental media, benefits of refuse of the property and, in some circumstances, a fate and transport analysis. If required, a risk assessment report describes potential adverse effects caused by the presence of regulated substances. If required, a cleanup plan evaluates the abilities of potential remedies to achieve remedy requirements. A work plan for conducting a baseline remedial investigation is required by provisions of the act for compliance with selection of a special industrial area remediation. The baseline remedial investigation, based on the work plan, is compiled into the baseline environmental report to establish a reference point to show existing contamination, describe proposed remediation to be done and include a description of existing or potential public benefits of the use or reuse of the property. The Department may approve or disapprove plans and reports submitted. This notice provides the Department's decision and, if relevant, the basis for disapproval.

For further information concerning the plans and reports, contact the Environmental Cleanup Program manager in the Department regional office before which the notice of the plan or report appears. If information concerning a final report is required in an alternative form, contact the Community Relations Coordinator at the appropriate regional office. TDD users may telephone the Department through the Pennsylvania AT&T Relay Service at (800) 654-5984.

Adjustment of the Coal Mining Reclamation Fee

The Department of Environmental Protection announces the adjustment to the Reclamation Fee. This adjustment is required by the regulations at 25 Pa. Code § 86.17 (relating to permit and reclamation fees). Effective January 1, 2010, the Reclamation Fee for calendar year 2010 will be \$0. Availability of General NPDES Permit for Stormwater Discharges Associated with Construction Activities (PAG-02)

The Department of Environmental Protection (Department) by this notice is reissuing the National Pollutant Discharge Elimination System (NPDES) General Permit

for Stormwater Discharges Associated with Construction Activities (PAG-02, 2009 Amendment) for 2 years effective December 8, 2009. This General NPDES Permit is issued under the authority of the Clean Water Act (33 U.S.C.A. §§ 1251—1376) and The Clean Streams Law (35 P. S. §§ 691.1—691.1001). The PAG-02, 2002 Amendment was extended twice, most recently by a notice in the *Pennsylvania Bulletin* at 39 Pa.B. 2637 (May 23, 2009) and is scheduled to expire at midnight December 7, 2009. EPA has recommended that this PAG-02 renewal be of shorter duration in light of the anticipated issuance of the final "Effluent Limitations Guidelines and Standards for the Construction and Development Point Source Category" proposed November 28, 2008 (73 FR 72,561) applicable to this category of NPDES discharges, and in anticipation of finalization of revisions to Pennsylvania's Chapter 102 Erosion and Sediment Control and Stormwater Management regulations proposed in the *Pennsylvania Bulletin* 39 Pa.B. 5131 (August 29, 2009). The Department agrees and they are publishing this renewal for 2 years rather than five. PAG-02, 2009 Amendment will expire at midnight on December 7, 2011.

The Department published the proposed revisions to the PAG-02 permit in the *Pennsylvania Bulletin* at 39 Pa.B. 4955 (August 15, 2009), for a 30-day public comment period. Eight commentators submitted 46 comments on the proposed revisions to the permit. In response to comments: the Department clarified the definitions for stabilization; corrected a typographical error to clarify requirements related to the use of the PAG-02 permit for discharges to impaired waters; revised the permit to state that any ineffective or inoperative BMPs must be reported to the Department or authorized conservation district within 24 hours; retained the term "measurable rainfall event" from the PAG-02 2002 Amendment, rather than the proposed "stormwater runoff event"; noted that all Post Construction Stormwater Management (PCSM) BMPs must be designed by a Licensed Professional and

must be certified as to their proper installation; added a requirement in Part C to provide written notification to the Department or authorized conservation district upon the installation and stabilization of all perimeter sediment control BMPs; added the requirement that erosion and sediment (E & S) BMPs shall be designed and implemented by "qualified personnel" trained and experienced in E & S control; and clarified what items the permittee and/or co-permittee must bring to the pre-construction conference.

Several comments were received related to the effluent limitations provisions contained in Part A of the permit. As allowed under the Federal Clean Water Act, the effluent limits proposed in PAG-02 are narrative performance based effluent limitations in the form of properly installed BMPs identified in the E & S and PCSM plans. If the proposed activity will not meet the permit conditions including the proposed effluent limitations established by the permit, PAG-02 may not be used to authorize the activity. In addition, as proposed, the Department is increasing the permit application fee from \$250 to \$500, payable to the "Clean Water Fund". This \$500 fee will apply to all new and all renewal notice of intent applications.

The PAG-02, 2009 final amended permit, comment and response document, and associated permit documents are available by contacting the Department of Environmental Protection, Bureau of Watershed Management, Rachel Carson State Office Building, P. O. Box 8775, 10th Floor, Harrisburg, PA 17105-8775, (717) 772-6827; or available on the Department's web site at www.depweb.state.pa.us (choose "Water Topics," then chose "Stormwater Management"). Persons with a disability may contact the Department by using the Pennsylvania AT&T Relay Service at (800) 654-5984 (TDL users) or (800) 654-5988 (voice users).

DEPARTMENT OF REVENUE

Amnesty Revenue Estimate

Act 48 of 2009, signed into law on October 9, 2009, established the Tax Amnesty Program for Fiscal Year (FY) 2009-2010. Per section 2912-F (b) of Act 48, the Department of Revenue (Department) was responsible to submit for publication, a separate amnesty revenue estimate for revenue generated by this program from the following sources:

- (i) The General Fund;
- (ii) The Motor License Fund;
- (iii) The Liquid Fuels Tax Fund; and
- (iv) The methodology used to develop the estimate.

The revenue estimates and methodology for those estimates are as follows:

Budget Stabilization Reserve Fund Threshold		\$403.6

¹There was a decrease in collections during the FY of the 1995-1996 amnesty program and the subsequent year. This estimate represents the ratio of the decrease to the total amnesty collections during the FY and the following year.

²The cost of the program include additional equipment and staffing, reimbursements of collection agency and lien fees, advertising, and contracted system development.

³Liquid Fuels Tax Fund—One-half cent per gallon of the 12¢ excise tax collected for liquid fuels and fuels shall be paid into the Liquid Fuels Tax Fund. The money paid into that fund is allocated to the counties. Estimate is ratio of Liquid Fuels Tax Fund collections to unrestricted Liquid Fuels Tax collections for FY 2008-2009.

The Department estimated that a total of \$341.1 million will be collected through the proposed tax amnesty period with net collections of \$191.4 million for FY 2009-2010. This estimate was based on the following assumptions:

1. Abatement for all periods delinquent as of June 2009.
2. A 5-year "limited lookback" period for unknown liabilities.

The estimate was calculated by applying the average percentage of collections from other amnesty programs to the estimate of General Fund revenues plus Liquid Fuels tax revenue for 2009-2010. The ratio of tax amnesty collections to overall tax collections was calculated from other programs that provided 50% interest abatement in MidAtlantic States in the past 10 years. Amnesty programs in New Jersey, New York, Ohio, West Virginia, Maine and Virginia collected an average of 1.1% of their overall tax collections at the time of their programs. Applying that percentage to the estimated General Fund

and Liquid Fuels revenue yields a figure of \$304.6 million as potential amnesty collections.

The states used to produce the ratio of tax collections from amnesty provided for amnesty abatement on periods that were delinquent immediately before the start of the amnesty period. In this program, as in this Commonwealth's previous program, there is a period prior to the start of the program that is not eligible for amnesty abatement. In this case, only taxes that are delinquent as of June 30, 2009, are eligible. Therefore, the percentage of the Department's accounts receivable taxes that were estimated to be eligible at the start of the amnesty period, approximately 96%, were then applied to the \$304.6 million, yielding a figure of \$291.1 million.

Those who report and pay taxes that are unknown to the Department during the amnesty period may qualify for a limited filing period of 5 years. This is known as the "limited lookback" provision. Additional collections are anticipated due to the limited lookback period for unknown liabilities in Act 48. Under the 1995 Pennsylvania amnesty program, if taxpayers disclosed tax subjectivity or liabilities previously unknown to the Department, the taxpayer was required to file all taxes periods due regardless of the age of the liability.

To estimate the impact of the limited lookback provision, the collections by the Pennsylvania Voluntary Disclosure Program were analyzed. Voluntary Disclosure is an ongoing program that was created for individuals and businesses that have not met their tax obligations because they were not aware of them. In return for coming forward voluntarily, filing their tax returns, and clearing their tax debts, taxpayers are only responsible for the payment of tax and interest. Prior to 2000, Voluntary Disclosure required filing of all corporate returns with no limited lookback. In the 3 years subsequent to the implementation of a limited lookback, corporate tax collections increased by 44.5%. In the previous tax amnesty program in FY 1995-1996, corporation tax collections represented 37% of the overall revenue. It is assumed that corporate tax collections will be increased by approximately 17% (44% increase in revenue times 37% share of corporate taxes) for this program as a result of the limited lookback provision.

In the previous tax amnesty program in FY 1995-1996, there was a decrease in regular delinquent collections in the current FY and following year. It was assumed that there will also be a proportionate drop in delinquent collections for this program. The estimated drop in delinquent collections was calculated by measuring the delinquent taxes collected in the FY 1994-1995 against delinquent collections made outside the program in the FY 1995-1996 and 1996-1997.

This estimate also acknowledges that there will be administrative costs, approximately \$16.8 million, associated with the program.

Act 48 provides that "revenue generated by this article in excess of 125% of the amnesty revenue estimates under subsection (b)(1)(i) and the cost of administration of this article shall be deposited into the budget stabilization reserve fund." Under this language, the threshold for a transfer to the Budget Stabilization Reserve Fund is calculated on gross General Fund amnesty revenue, less administrative costs. This figure is estimated to be \$403.6 million.

We submit for your consideration the following comments on the proposed rulemaking published in the September 19, 2009 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. House Professional Licensure Committee comment—Reasonableness; Clarity.

In a letter dated October 21, 2009, the House Professional Licensure Committee commented on the following issues:

- Wording changes with regard to the usage of “courses” and “programs” in Subsections (d)(1), (3), (5) and (6).
- Validity of course approval if program and course dates are not firm or if the dates change.
- How will licensees be informed of the approval or disapproval status of a course or program?
- How will distance learning be addressed with regard to distance learning?

We will review the Board’s responses to these issues in our consideration of whether the final-form regulation is in the public interest.

Responsibility to Clients and Patients

November 18, 2009

We submit for your consideration the following comments on the proposed rulemaking published in the September 19, 2009 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the

State Board of Veterinary Medicine (Board) to respond to all comments received from us or any other source.

1. General—Clarity.

The response to Regulatory Analysis Form Question #14 states that the Board has “attached information regarding the widespread acceptance that the use of analgesia is the acceptable and prevailing standard of care.” However, no such information was attached to our copy of the proposed regulatory package. This information should be included with the final-form document submitted.

2. Section 31.21.—Rules of Professional Conduct for Veterinarians.—Protection of the public health, safety and welfare; Reasonableness; Need; Implementation procedures; Clarity.

Euthanasia

Paragraph (a)(1) references “humane euthanasia,” while other subsections simply refer to “euthanasia.” We recommend using one term throughout the regulation.

Reasonable attempt

Paragraph (a)(1) uses the phrase “reasonable attempt” twice in regard to determining the identity of the animal’s owner and contacting the owner. The phrase “reasonable attempt” is vague. We recommend that the final-form regulation establish a clear standard for compliance by veterinarians and potential enforcement by the Board.

Proper veterinary medical judgment

Paragraphs (a)(1) and (2) require the veterinarian to exercise “proper veterinary medical judgment.” This requirement is vague. The regulation should specify what standard the Board will use to determine a violation.

Notice to the client

Paragraph (a)(2) requires the veterinarian to provide the client with notice of his or her intention to withdraw and discontinue treatment of an animal. What type of notice will the Board find acceptable to notify clients of the withdrawal? We recommend that the final-form regulation require the notice to be in writing.

Personal client information

Subsection (c) requires veterinarians and their staff to protect the personal privacy of clients and specifies the

protection of “a client’s Social Security number and sensitive financial information and confidential health information about the client.” Section 31.1 of the existing regulations defines a “client” as a “person . . .” While this information should definitely be protected if the veterinarian possesses it, we question under what circumstances a veterinarian would obtain or need a person’s social security number or confidential health information. We request an explanation of why it would be necessary for a veterinarian to request, possess and document a person’s social security number, sensitive financial information or confidential health information.

Acceptable and prevailing standards

Subsections (d) and (f) require veterinarians to practice in accordance with “acceptable and prevailing standards.” A commentator is concerned that this term is subject to interpretation, since what is considered “acceptable and prevailing” can vary from region to region, or between general and specialty practices. We agree that it is not clear what standard the regulation sets. We recommend that the Board define this phrase or amend the regulation so that the final-form regulation sets a clear standard for compliance.

Subsection (e)

We raise three issues with this subsection.

First, this subsection requires a veterinarian to explain to a client the “significant potential risks” of treatment options. Commentators are concerned that the term “significant” could be held to a subjective interpretation. We agree that the phrase “significant potential risks” is vague. We recommend deleting the word “significant.”

Second, this subsection requires a veterinarian to obtain written consent for euthanasia. However, if the client is not present to provide a signature, veterinarians shall obtain oral consent and subsequently obtain the client’s signature. The House Professional Licensure Committee (HPLC) questioned the signature requirements. Commentators described the subsequent request for a client’s signature, after their animal was euthanized, as unrealistic and an awkward request that could come across as inappropriate or insensitive on the part of the veterinarian. We agree. The Board should explain the need for and reasonableness of obtaining signatures in the circumstances raised by the commentators and the HPLC. If the Board believes signatures are needed, the regulation should provide guidance for the circumstances where the veterinarian acted in accordance with the regulation but, due to circumstances beyond the control of the veterinarian, the client does not provide a subsequent signature.

Finally, commentators also questioned the responsibility imposed on veterinarians if the client refuses to sign the consent form or fails to return it. Would this constitute grounds to discontinue the treatment of an animal? The regulation should also address these circumstances.

Subsection (g)

Who determines what is considered a “reasonable period of time” to forward records to a new veterinarian? The final-form regulation should set a finite time limit to forward the records.

In addition, a commentator suggests that if the original veterinarian withdraws and the client wants to consult with another veterinarian about the same case, that the records be transferred to the new veterinarian in accordance with Section 31.22(8) of the existing regulation. Has the Board considered including a cross-reference to this section?

Biennial Renewal Fees

November 18, 2009

We submit for your consideration the following comments on the proposed rulemaking published in the September 19, 2009 *Pennsylvania Bulletin*. Our comments are based on criteria in section 5.2 of the Regulatory Review Act (71 P.S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P.S. § 745.5a(a)) directs the State Board of Veterinary Medicine (Board) to respond to all comments received from us or any other source.

Statutory authority; Legislative intent; Fiscal impact.

This proposed rulemaking would provide for incremental biennial license renewal fee increases for veterinarians and veterinary technicians for the next six biennial renewal cycles. The current renewal fee for veterinarians is \$300 and the current renewal fee for veterinary technicians is \$75. The renewal fees at the end of the 2020-2022 biennial period will be \$590 for veterinarians and \$140 veterinary technicians.

Subsections 13 (a),(b) and (c) of the Veterinary Medicine Practice Act (Act) (63 P.S. § 485.13 (a), (b) and (c)) establish the Board’s authority for setting and raising fees. Those sections state the following:

a) The board shall, by regulation, fix the fees required for examination, licensure, certification, registration, renewal of licenses and registrations, renewal of certificates and temporary permits.

(b) If the revenues raised by fees, fines and civil penalties imposed pursuant to this act are not sufficient to meet expenditures over a two-year period, the board shall increase those fees by regulation so that the projected revenues will meet or exceed projected expenditures. (Emphasis added.)

(c) If the Bureau of Professional and Occupational Affairs determines that the fees established by the board pursuant to subsections (a) and (b) are inadequate to meet the minimum enforcement efforts required by this act, then the bureau, after consultation with the board, shall increase the fees by regulation so that adequate revenues are raised to meet the required enforcement effort.

While we do not question the policy behind these incremental fee increases, we ask the Board to explain how the increases conform to the intent of the General Assembly and Section 13 of the Act. What is the Board’s statutory authority for automatic fee increases that may or may not be needed to meet expenditures ten years in the future? If the financial condition of the Board improves, will the fees be decreased accordingly?

**State Board of Certified Real Estate Appraisers
Regulation #16A-7015 (IRRC #2789)**

**Appraiser Trainees; Initial and Continuing
Education; Supervised Experience;
Practice Standards**

November 18, 2009

We submit for your consideration the following comments on the proposed rulemaking published in the September 19, 2009 *Pennsylvania Bulletin*. Our com-

ments are based on criteria in section 5.2 of the Regulatory Review Act (71 P. S. § 745.5b). Section 5.1(a) of the Regulatory Review Act (71 P. S. § 745.5a(a)) directs the State Board of Certified Real Estate Appraisers (Board) to respond to all comments received from us or any other source.

1. Section 36.2. Application process.—Implementation procedures.

The proposed regulation adds the following new sentence to Subsection (e):

An applicant for licensure as an appraiser trainee shall comply with any increased education requirement that takes effect between the applicant's filing of an application that is disapproved and the applicant's filing of a new application.

The intent of this statement is not clear. How or when will "any increased education requirement" take effect? Will the Board notify applicants of these additional requirements? Is this statement referring to future rulemakings that amend the education standards? The final-form regulation should clarify these issues.

2. Sections 36.11 and 36.12. Qualifications for certification as residential real estate appraiser and general real estate appraiser.—Clarity.

Existing language in each of these two sections establishes two tiers of educational requirements. For those who complete their education before January 1, 2008, the total "appraisal classroom hours" required are 120 hours and 180 hours for certified residential and general real estate appraisers, respectively. As of January 1, 2008, the required total hours increase to 200 and 300 for certified residential and general real estate appraisers, respectively. These increases are consistent with the requirements of the Appraisal Foundation's Appraiser Qualifications Board, which Federal law establishes as the national standard. The proposed regulation uses what the Preamble describes as a "segmented approach" to set January 1, 2012, as the deadline for applicants who can demonstrate completion of the 120 or 180 total hour requirement before January 1, 2008. In other words, all applicants will need to comply with the increase to 200 or 300 hours when they file their applications after 2011. We have three questions.

First, the segmented approach gives applicants up to four years from when they complete their educational requirements to when they apply for certification. The Preamble indicates that the qualified experience requirements can be completed in 24 and 30 months. In addition, these applicants could accumulate qualified experience after completing 75 classroom hours. How did the Board determine that four years was a reasonable amount of time? Why is it appropriate to give these applicants an additional 18 months to obtain experience and apply?

Second, the final-form regulation should clarify what the Board will consider to be appropriate "evidence" of the applicant's completion of certain courses in Subsections (b) and (d)(2). Finally, how will the Board determine that a course is "equivalent" to the 15-hour National USPAP course in Subsections (b) and (d)(2)? The final-form regulation should clarify this provision.

3. Section 36.12a. Qualifications for licensure as appraiser trainee.—Implementation procedures; Clarity.

Subsection (b)(2)

What would the Board consider an "examination pertinent to the course?" The final-form regulation should clarify this issue.

Subsection (d)

Subsection (d) explains the limitations on the biennial renewal of an appraiser trainee license. The license can be renewed no more than four times, unless one or more additional renewals are warranted. When would the Board consider additional renewals appropriate? Will there be a limit on the number of additional renewals permitted? What procedures or process would a trainee use to apply to request an additional renewal? What would be considered "good cause" for allowing an additional renewal?

4. Section 36.52. Use of certificate number and title.—Need; Clarity.

This section lists several titles a certified real estate appraiser is permitted to use. The proposed regulation states that a "substantially similar title" may be substituted. What would the Board consider a "substantially similar title?" Given the list of titles the proposed regulation already provides, under what circumstances would it be necessary to use a "substantially similar" title?

Order

Public Meeting held
 November 19, 2009

Commissioners Present: James H. Cawley, Chairperson; Tyrone J. Christy, Vice Chairperson; Kim Pizzingrilli; Wayne E. Gardner; Robert F. Powelson

Application of Verizon North, Inc. for any approvals required under the public utility code for transactions related to the restructuring of the company to a Pennsylvania-only operation and notice of an affiliate transaction; Doc. No. A-2009-2111330; A-2009-2111331; A-2009-2111337

Order

By the Commission:

On May 29, 2009, Verizon North, Inc. (Verizon North or the Applicant) filed an application pursuant to Chapters 11 and 30 of the Pennsylvania Public Utility Code, 66 Pa.C.S. § 1102(a) and 66 Pa.C.S. § 3019(b)(1) seeking all approvals necessary in connection with a corporate restructuring whereby the Pennsylvania-only operations of Verizon North will be spun off to a newly created entity, Verizon North Retain Company (Verizon North Retain). The Applicant states that the restructuring is necessary because Verizon Communications, Inc. (Verizon), the ultimate parent of Verizon North, has entered into an agreement with Frontier Communications Corporation (Frontier) to transfer its incumbent local exchange carrier (ILEC) operations in certain states to Frontier. However, Verizon North's Pennsylvania operations are not included in this transaction, and as a result Verizon North must restructure itself.

Presently, Verizon North is a wholly-owned subsidiary of GTE Corporation (GTE), which in turn is a wholly-owned subsidiary of Verizon. In addition to providing ILEC service in Pennsylvania, Verizon North provides telecommunications services in a number of other states, including: Illinois, Indiana, Michigan, Ohio and Wisconsin. Verizon North was formerly known as GTE North, Inc. GTE North, Inc.'s name was changed to Verizon North, Inc. following the merger of GTE and Bell Atlantic Corporation.

The Applicant avers that under the proposed restructuring, a new, wholly-owned corporation of Verizon North, Verizon North Retain, will be created. All of the Pennsylvania assets, operations and liabilities of Verizon North will be transferred to Verizon North Retain, and then all of the stock of Verizon North Retain will be transferred to GTE. Verizon North will abandon the provision of public service in the Commonwealth at the same time Verizon North Retain will enter public service and begin serving all existing Verizon North's Pennsylvania customers.

The Applicant claims that the proposed restructuring simply changes the geographic scope of operations of Verizon North so that the resulting ILEC will operate only in Pennsylvania. The Applicant further avers no changes to Verizon North's Pennsylvania operations will occur as a result of the restructuring and that ultimate ownership by Verizon will not change.

In addition to no change in the operations or ultimate control of Verizon North's Pennsylvania operations, the Applicant states that the proposed transaction will not affect the Commission's authority over the restructured entity. Verizon North will continue to operate under the terms of any and all certificates of authority issued by the Commission to Verizon North, will adopt all of the

Pennsylvania tariffs of Verizon North, and will assume all of the regulatory and contractual obligations of Verizon North in Pennsylvania. According to Applicant, Verizon North Retain will adopt Verizon North's Commission-approved alternative regulation plan, including its network modernization commitments pursuant to 66 Pa.C.S. § 3019(b)(4).

The Applicant avers that the proposed transaction will be transparent to customers, that is, customers will continue to receive service under the same rates, terms and conditions as they do today. After consummation of the transaction, all of the same managerial, technical and financial resources available to Verizon North today will be available to Verizon North Retain as a wholly-owned subsidiary of Verizon.

Verizon North has also requested that because there is no change of control or any change in management or operations of the successor company, its application should be considered under the "streamline approach" granted to transactions where corporations have transformed themselves from a business corporation to a new limited liability corporation.¹ As part of the streamlined process, the Applicant asserts that the proposed restructuring does not trigger the standard of demonstrating affirmative public benefit set forth in *City of York v. PUC*, 295 A. 2d 825 (Pa. 1972).

Procedural History

On June 15, 2009, Communications Workers of America (CWA) and International Brotherhood of Electrical Workers, Locals 1451, 1635 and 1637 (IBEW) (collectively the "Unions") filed preliminary objections to the application. The Unions stated that they are the authorized collective bargaining agents and representatives of employees of certain Pennsylvania subsidiaries of Frontier² and Verizon North. The Unions allege that the Application was insufficiently specific and legally insufficient because underlying the restructuring of Verizon North in Pennsylvania is the merger of Verizon and Frontier, and that the merger must be approved by the Commission because it would result in a change in control of Frontier, the parent of Frontier PA. The Unions asserted that the merger would result in Verizon stockholders owning between 66% and 71% of Frontier, and that Verizon stockholders would act in concert as a group through the management and directors of Verizon to control Frontier. The Unions sought to have the Applicant amend its application to include more information about the merger and its impact on Frontier PA's customers, employees and competitors. The Unions also sought to have the Frontier PA companies joined as necessary parties to this proceeding.

On June 25, 2009, Verizon North filed an answer to the preliminary objections. Applicant argued that the preliminary objections should be denied because they were: (1) irrelevant to Verizon North's Application seeking approval to restructure itself as a Pennsylvania-only operation; and (2) without merit because the merger of Verizon and Frontier will not result in a new controlling interest in Frontier PA.

¹ See Docket Nos. A310400 F0004, A310550 F0004, A311750 F0004, A-312600 F0003, and A-311250. *Joint application of Frontier Communications of Breezewood, Inc., et al. for approval of a corporate restructuring from corporations to limited liability companies* (Order entered October 17, 2003). To take a more streamlined approach, this application was not viewed as an entry and abandonment by a new business entity and no new utility code was issued.

² The Pennsylvania subsidiaries of Frontier include Commonwealth Telephone Company, d/b/a Frontier Commonwealth Telephone Company; Frontier Communications of Breezewood; Frontier Communications of Canton; Frontier Communications of Lakewood; Frontier Communications of Oswayo River; and Frontier Communications of Pennsylvania (collectively Frontier PA).

On July 2, 2009, CWA and IBEW filed a Protest to the Application. On July 22, 2009, Verizon North filed preliminary objections to the Protest of CWA and IBEW. On July 31, 2009, CWA and IBEW filed an Answer to the Preliminary Objections of Verizon North. On August 5, 2009, Verizon North filed an Answer in Support of its Preliminary Objections.

On July 8, 2009, Office of Consumer Advocate (OCA) filed a Notice of Intervention.

On August 12, 2009, Administrative Law Judge (ALJ) Charles E. Rainey, Jr. issued an order denying the preliminary objections of CWA and IBEW. The ALJ stated:

I find for purposes of ruling on the preliminary objections that Objectors have not shown that the application is clearly insufficient to establish Applicant's right to relief. I find that for purposes of ruling on the preliminary objections that the application is sufficiently specific and legally sufficient to establish Applicant's right to relief. I also find for purposes of ruling on the preliminary objections that Objectors have not shown that as a matter of law the Frontier PA companies are necessary parties to this proceeding that must be joined.

On August 26, 2009, CWA and IBEW filed a Petition for Interlocutory Review and Answer to a Material Question. The material question raised by the Unions was:

Whether the Commission is required to grant a certificate of public convenience and necessity before the parent company of Pennsylvania telecommunications utilities can transfer more than 66 percent of its common stock to the shareholders of an unaffiliated corporation, and in which the unaffiliated corporation would appoint 25 percent of the parent's board of directors.

On September 8, 2009, CWA and IBEW filed a Brief in Support of their Petition for Interlocutory Review.

On September 8, 2009, Verizon North filed its Opposition to the Unions' Petition for Interlocutory Review.

On September 24, 2009, the Commission entered an Opinion and Order in regard to the Unions' Petition for Interlocutory Review and Answer to a Material Question. Pursuant to 52 Pa. Code § 5.303(a)(3), the Commission declined to answer the material question and returned the proceeding to the Office of Administrative Law Judge for further proceedings consistent with the Opinion and Order. The Commission stated as follows:

On consideration of the positions of the Parties, we decline to answer the question. We find that the material question presented is irrelevant for purposes of resolving the Application. Consequently, we see no reason why interlocutory review will prevent substantial prejudice or expedite the conduct of the present proceeding.

The instant Application requests all approvals necessary for one corporate transaction—the reorganization of Verizon North. The material question presented seeks a ruling that the Commission has jurisdiction over a second corporate transaction—the transfer of Frontier's stock. The two transactions are related, but they can be treated as separate and distinct transactions for purposes of Commission approval. This is apparent from Petitioner's request for

relief: that the Commission require Frontier (not Verizon North) to file an application seeking approval of the transfer of control. Brief in Support of Petition at 7. Moreover, as Verizon North correctly notes in its brief, Verizon North could have proposed the same corporate reorganization even if it had not engaged in any transaction with Frontier. Brief in Opposition to Petition at 4.

The Petitioners assert, without any support or explanation, that the Commission must review both transactions together. While there are obvious advantages to a single application that seeks Commission approval of both transactions, we are not persuaded that a single application covering both transactions is required by law. Under these circumstances, a finding that we do or do not have jurisdiction over the merger of Frontier and Verizon is irrelevant for purposes of adjudicating an application pertaining to the first transaction.

Finally, we note that the Petitioners have sufficient alternative means of pursuing their claim that the second transaction is subject to Commission review. There is no need to confuse or delay the adjudication of the first transaction by considering questions pertaining to the second.

Opinion and Order at 7-8.

By Hearing Cancellation/Reschedule/Judge Change Notice dated August 21, 2009, an initial prehearing conference was scheduled for October 6, 2009. The prehearing conference was held as scheduled. Applicant appeared in person. CWA and IBEW appeared by telephone. OCA also appeared by telephone. During the prehearing conference, CWA and IBEW announced that they were withdrawing their protest. OCA stated that it would not be pursuing the matter further. As a result, Applicant's Preliminary Objections to the Protest of CWA and IBEW were rendered moot by the Unions withdrawal of their Protest.

On October 6, 2009, CWA and IBEW filed notice of withdrawal of their Protest. In withdrawing their Protest, CWA and IBEW stated as follows:

The Protest is being withdrawn because the Commission ruled on September 24, 2009, that the scope of this proceeding would be limited to the internal reorganization of Verizon North. CWA and IBEW have determined that their interests are not likely to be adversely affected by that internal reorganization.

Notice of Withdrawal at 1.

Because the sole protest to the Application has been withdrawn, there was no need for a hearing or the further adjudication of this matter by the Office of Administrative Law Judge. On October 8, 2009, ALJ Rainey transferred the Application to the Bureau of Fixed Utility Services for disposition.

Discussion

Verizon North has requested that the Commission take a "streamlined approach" similar to the Frontier Order. We find, however, it is unnecessary to address this issue because, as outlined below, we find that the transaction provides a public benefit.

As undisputedly stated in the Application, the proposed transaction is a corporate reorganization which will transfer the assets, liabilities and operations of Verizon North's Pennsylvania operations to a new corporate entity, Verizon North Retain. No change in ultimate ownership and control of the new company will occur as a result of

the transaction. Rates, terms and conditions of service or regulatory obligations including Verizon North's Commission-approved alternate regulation plan will not change as a result of this reorganization. No disruption in service to Pennsylvania customers will occur. The restructuring will create a Pennsylvania-only entity that will permit the new corporation to concentrate its operational and managerial efforts to promote better service to Pennsylvania customers. All of the managerial, technical and financial resources currently available to Verizon North Pennsylvania consumers will be available to Verizon North Retain.

Therefore, we find that the record sufficiently supports the Applicant's claim that the proposed reorganization will benefit customers by permitting the new corporation to concentrate its operational and managerial efforts to promote better service in Pennsylvania while allowing Verizon to consummate its transaction with Frontier involving the other states in which Verizon North operates.

The Commission has determined that the Applicant is current with its annual financial and Security Planning and Readiness Self Certification Form report filing requirements, and there are no outstanding Commission fines or assessments against the Applicant.

Having reviewed the instant application, we conclude that the entry of Verizon North Retain as an ILEC, the proposed transfer of assets used by Verizon North to provide service in Pennsylvania to Verizon North Retain, and the abandonment of service by Verizon North are necessary or proper for the service, accommodation, convenience, or safety of the public, and that the application should be approved; *Therefore,*

It Is Ordered That:

1. The Application of Verizon North Retain Company to begin the provision of services as a local exchange carrier at A-2009-2111330 is granted.

2. The application at A-2009-2111331 for the transfer of Pennsylvania assets from Verizon North, Inc. to Verizon North Retain Company and subsequent transfer of stock of Verizon North Retain Company to GTE, and the abandonment by Verizon North, Inc. of all telecommunication services at A-2009-2111337 are hereby approved.

3. Within 30 days following consummation of transaction described in Ordering Paragraph No. 2, above, Verizon North Retain Company shall notify this Commission of the effective date of the asset transfer and file with this Commission notice of such consummation along with: (a) a copy of the Pennsylvania Department of State's registration of the entity's certificate of organization and (b) a tariff adoption supplement by which Verizon North Retain Company adopts as its own the tariff of Verizon North, Inc.

4. Upon receipt of the tariff adoption supplements as required under Ordering Paragraph No. 3, above, (a) certificates of public convenience be issued evidencing the approvals granted in Ordering Paragraphs No. 1 and 2, above, and (b) Verizon North, Inc. be deleted from the active lists of the Secretary's Bureau of Administrative Services.

5. If Verizon North, Inc. comes to determine that the instant transaction will not occur, Verizon North, Inc. shall promptly file with this Commission notice of such determination.

6. Upon filing of the notice required in Ordering Paragraph No. 3 or 5, above, the case be marked closed.

7. A copy of this order be published in the *Pennsylvania Bulletin*.
